CHAPTER 16. RELOCATION ASSISTANCE

7260. As used in this chapter:

(a) "Public entity" includes the state, the Regents of the University of California, a county, city, city and county, district, public authority, public agency, and any other political subdivision or public corporation in the state when acquiring real property or any interest therein, in a county having a population of more than four million persons, for public use, except the Department of Public Works of this state.

(b) "Displaced person" means any individual, family, business, or farm operation, which moves from real property acquired by a public entity for public use.

(c) "Individual" means a person who is not a member of a family.

(d) "Family" means two or more persons living together in the same dwelling unit who are related to each other by blood, marriage, adoption, or legal guardianship.

(e) "Business" means any lawful activity conducted primarily for purchase and resale, manufacture, processing or marketing of products, commodities, or other personal property; or for the sale of services to the public; or by a nonprofit corporation.

(f) "Farm operation" means any activity conducted primarily for the production of one or more agricultural products or commodities for sale and home use, and customarily producing such products or commodities in sufficient quantity to be capable of contributing materially to the operator's support.

(g) "Affected property" means any real property which actually declines in fair market value because of acquisition by a public entity for public use of other real property and a change in the use of the real property acquired by the public entity.

(h) "Public use" means a use for which real property may be acquired by eminent domain.

7261. (a) A public entity is authorized to give relocation advisory assistance to any individual, family, business, or farm operation displaced because of the acquisition of real property by that public entity for public use.

(b) In giving such assistance, the public entity may establish local relocation advisory assistance offices to assist in obtaining replacement facilities for individuals, families, and businesses which it is necessary to relocate because of the acquisition of real property by the public entity.

7262. (a) As a part of the cost of acquisition of real property for a public use, a public entity may compensate a displaced person for his actual and reasonable expense in moving himself, family, business, or farm operation, including moving personal property.

(b) Any displaced person who moves from a dwelling who elects to accept payments authorized by this subdivision in lieu of the payments authorized by subdivision (a) of this section may receive a moving expense allowance, determined according to a schedule established by the public entity, not to exceed two hundred dollars ($200), and in addition a dislocation allowance of one hundred dollars ($100).

(c) Any displaced person who moves or discontinues his business or farm operation who elects to accept the payment authorized by this subdivision in lieu of the payment authorized by subdivision (a) of this section, may receive a fixed relocation payment in an amount equal to the average annual net earnings of the business or farm operation, or five thousand dollars ($5,000), whichever is less. In the case of a business, no payment shall be made under this subdivision unless the public entity is satisfied that the business cannot be relocated without a substantial loss of patronage, and is not a part of a commercial enterprise having at least one other establishment, not being acquired, which is engaged in the same or similar business. For purposes of this subdivision, the term "average annual net earnings" means one-half of any net earnings of the business, or farm operation, before federal, state, and local income taxes, during the two taxable years immediately preceding the taxable year in which such business or farm operation moves from the real property being acquired, and includes any compensation paid by the business or farm operation to the owner, his spouse, or his dependents during such two-year period. To be eligible for the payment authorized by this subdivision, the business or farm operation shall make available

its state income tax records and its financial statements and accounting records, for audit for confidential use to determine the payment authorized by this subdivision.

7263. (a) In addition to the payments authorized by Section 7261, the public entity, as a part of the cost of construction, may make a payment to the owner of real property acquired for public use which is improved with a single- or two- or three-family dwelling actually owned and occupied by the owner for not less than one year prior to the first written offer for the acquisition of such property.

(b) Such payment, not to exceed five thousand dollars ($5,000), shall be the amount, if any, which, when added to the acquisition payment, equals the average price required for a comparable dwelling determined, in accordance with standards established by the public entity, to be a decent, safe and sanitary dwelling adequate to accommodate the displaced owner, reasonably accessible to public services and the condemnee's place of employment, and available on the market.

(c) Such payment shall be made only to a displaced owner who purchases and occupies a dwelling that meets standards established by the public entity within one year subsequent to the date on which he is required to move from the dwelling acquired by the public entity.

7264. (a) In addition to the payment authorized by Section 7261, as a part of the cost of acquisition, the public entity may make a payment to any individual or family displaced from any dwelling not eligible to receive a payment under Section 7263 which was actually and lawfully occupied by such individual or family for not less than 90 days prior to the first written offer from the public entity for the acquisition of such property.

(b) Such payment, not to exceed one thousand five hundred dollars ($1,500), shall be the additional amount which is necessary to enable such individual or family to lease or rent for a period not to exceed two years, or to make the downpayment on the purchase of, a decent, safe, and sanitary dwelling of standards adequate to accommodate such individual or family in areas not generally less desirable in regard to public utilities and public and commercial facilities.

7265. (a) In addition to the payment authorized by Section 7261, as a cost of acquisition, the public entity may make a payment to any affected property owner meeting the requirements of this section.

(b) Such affected property is immediately contiguous to property acquired for a public use and the owner shall have owned the property affected by acquisition by the public entity not less than one year prior to the first written offer for acquisition of the acquired property.

(c) Such payment, not to exceed five thousand dollars ($5,000), shall be the amount, if any, which equals the actual decline in the fair market value of the property of the affected property owner caused by the acquisition by the public entity

for public use of other real property and a change in the use of such property.

(d) The amount, if any, of actual decline in fair market value of affected property shall be determined according to rules and regulations adopted by the public entity pursuant to this chapter. Such rules and regulations shall limit payment under this section only to such circumstances in which the decline in fair market value of affected property is reasonably related to objective physical change in the use of acquired property.

7266. Any person aggrieved by a determination as to eligibility for a payment authorized by this chapter, or the amount of a payment, may have his application reviewed by the public entity, and the decision of the public entity shall be final.

7267. Payments under the provisions of this chapter shall be made to eligible persons in accordance with such rules and regulations as shall be adopted by the State Board of Control for property acquisitions by a state agency, or the governing body of any other public entity, for property acquisitions by such entity. Payments made in relation to property acquisition for roads and streets by public entities other than the state shall be made in accordance with the provisions of Article 3.5 (commencing with Section 156) of Chapter 1 of Division 1 of the Streets and Highways Code and such rules and regulations as shall be adopted by the State Department of Public Works.

7268. The State Board of Control is authorized to adopt rules and regulations to implement payments under this chapter by state agencies. The governing bodies of other public entities are authorized to adopt rules and regulations to implement payments under this chapter by such entities

7269. No payment received by any person under this chapter shall be considered as income for the purposes of the Personal Income Tax Law, Part 10 (commencing with Section 17001) of Division 2 of the Revenue and Taxation Code, or the Bank and Corporation Tax Law, Part 11 (commencing with Section 23001) of Division 2 of the Revenue and Taxation Code, nor shall such payments be considered as income or resources to any recipient of public assistance and such payments shall not be deducted from the amount of aid to which the recipient would otherwise be entitled under Part 3 (commencing with Section 11000) of Division 9 of the Welfare and Institutions Code.

7270. Nothing contained in this chapter shall be construed as creating in any condemnation proceedings brought under the power of eminent domain any element of damages not in existence on the date of enactment of this chapter.

7271. If any provision of this chapter or the application thereof to any person or circumstances is held invalid, such invalidity shall not affect other provisions or applications of this chapter which can be given effect without the invalid provision or application, and to this end the provisions of this chapter are severable.

7272. The provisions of this chapter shall apply only to the provision by a public entity of relocation assistance to any individual, family, business, or farm operation located in a county having a population of more than four million persons.

SEC. 2. Section 33415 of the Health and Safety Code is amended to read:

33415. (b) An agency in a county having a population of more than four million persons may make any of the payments authorized by Chapter 16 (commencing with Section 7260) of Division 7 of Title 1 of the Government Code, including the making of such payments financed by the federal government.

A public utility acquiring real property in a county having a population of more than four million persons by eminent domain is authorized to give relocation advisory assistance and to make any of the payments authorized by Chapter 16 (commencing with Section 7260) of Division 7 of Title 1 of the Government Code. For the purposes of this section, a public utility shall be considered to be a "public entity" other than a state agency, as defined by Section 7260 of the Government Code.

SEC. 4. Section 158.1 is added to the Streets and Highways Code, to read:

158.1. In addition to the payment authorized by Section 157, as a part of the cost of construction the department may, if federal funds are available for reimbursement, make a payment to any individual, family, business or farm operation pursuant to the provisions of Section 7265 of the Government Code, in accordance with such rules and regulations as the department shall adopt relating to such payments.

SEC. 5. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Owners of property subject to eminent domain will delay settlement of the acquisition of their property until this act becomes operative so as to take advantage of the relocation assistance it provides. In order to reduce this delay in property acquisition to a minimum, it is necessary that this act become operative immediately.

An act to amend Sections 11251, 11252, 11301, 11401, 11404, and 17601.1 of, and to amend and renumber Section 11412 of, the Education Code, relating to average daily attendance, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 4, 1969. Filed with Secretary of State September 6, 1969.]

The people of the State of California do enact as follows:

SECTION 1. The Superintendent of Public Instruction may authorize, for the fiscal year 1968–1969 only, an alternate method of computing average daily attendance to the method provided for in Sections 11301 and 11401 of the Education Code for regular day schools.

SEC. 1.3. The alternate method authorized by the Superintendent of Public Instruction shall require recording of attendance for each day of the school month.

SEC. 1.5. The governing board of each school district shall determine whether or not the average daily attendance for the district shall be computed by the alternate method.

SEC. 1.7. If the average daily attendance computed by the alternate method in the regular day schools of a district for the period between July 1 and June 30 exceeds the average daily attendance in the regular day schools reported in the second period report, the excess shall be brought forward to

the corresponding categories of attendance of the second period report for the next succeeding fiscal year.

SEC. 1.9. Section 11251 of the Education Code is amended to read:

11251. (a) In computing the average daily attendance of a school district, there shall be included only the attendance of pupils while engaged in educational activities required of such pupils and under the immediate supervision and control of an employee of the district who possessed a valid certification document, registered as required by law, authorizing him to render service in the capacity and during the period in which he served.

(b) The State Department of Education shall, in cooperation with the Department of Finance and the Legislative Analyst, conduct a study to devise a suitable method for determining the number of units of average daily attendance for a fiscal year, of pupils in grades kindergarten through 12 enrolled in elementary districts, high school districts, and unified districts. Such method shall be based upon the mean average of active enrollment figures on appropriate dates throughout the school year, multiplied by a proven percentage ratio of enrollment to average daily attendance.

If the method devised will yield approximately the same total number of average daily attendance as is now obtained by existing methods specified in this code and such method has been approved by the State Board of Education, it shall be recommended to the Legislature to be used for all computations of average daily attendance in the regular day classes of the elementary and high schools.

SEC. 2. Section 11252 of the Education Code is amended to read:

11252. Whenever for the purposes of Sections 10951 to 11653, inclusive, Sections 17151 to 18460.1, inclusive, Sections 18654 to 20251, inclusive, Sections 20501 to 21801, inclusive, and Sections 21803 to 22152, inclusive, whichever are in effect, it is necessary to compute the average daily attendance of a school of a district for any certain purpose and no provision is made for the computation thereof for such purpose, the average daily attendance of the school shall be computed by dividing the total number of days of pupil attendance by the number of days school was actually taught in the regular day schools of the district.

SEC. 3. Section 11301 of the Education Code is amended to read:

11301. The units of average daily attendance in the elementary schools of a district for a fiscal year shall be computed by dividing the total number of days of pupils attendance in all kindergarten and elementary schools and classes of the district during the fiscal year by the number of days school was actually taught in the regular day elementary schools of the district during the fiscal year, plus the units of

average daily attendance credited to the district on account of the education of seventh and eighth grade pupils in a junior high school pursuant to Section 11404.

For the purposes of this article, a day of kindergarten attendance is based on the 180-minute minimum day, and shall be adjusted to 180 when the minimum day is less than 180 minutes as authorized by Section 11003.

SEC. 4. Section 11401 of the Education Code is amended to read:

11401. The average daily attendance in the high schools of a district other than evening high schools, continuation high schools, and continuation education classes, for a fiscal year are the quotient arising from dividing the total number of days of pupils' attendance in the regular day high schools, summer schools, special high school classes, and the part-time vocational courses of the district, exclusive of the number of days of pupils' attendance in the seventh and eighth grades of junior high schools, during the fiscal year by the number of days school was actually taught in the regular day schools of the district during the fiscal year.

SEC. 5. Section 11404 of the Education Code is amended to read:

11404. The units of average daily attendance for a fiscal year of pupils residing in any elementary school district and attending the seventh and eighth grades of a junior high school shall be determined separately and shall be computed by dividing the total number of days of pupils attendance in said grades by the number of days school was actually taught during the fiscal year in the regular day high schools of the district maintaining the junior high school the average daily attendance so computed shall be credited to the elementary school district in which the pupils reside.

SEC. 6. Section 11412 of the Education Code is amended and renumbered to read:

11257. Each elementary, high school, and unified school district shall report to the Superintendent of Public Instruction on forms prepared by the Department of Education in addition to all other attendance data as required, the active enrollment as of the the third Wednesday of each school month and the actual attendance on the third Wednesday of each school month; except that if such day is a school holiday, the active enrollment and actual attendance of the first immediate preceding schoolday shall be reported. "Active enrollment" on a day a count is taken means the pupils in enrollment in the regular schooldays of the district on the first day of the school year on which the schools were in session, plus all later enrollees, minus all withdrawals since that day.

SEC. 7. Section 17601.1 of the Education Code is amended to read:

17601.1. For the purposes of this chapter, the governing board of each school district shall report to the Superintendent

of Public Instruction during each fiscal year the average daily attendance of the district for all full school months during (1) the period between July 1st and December 31st, inclusive, to be known as the "first period" report for the first principal apportionment, and (2) the period between July 1st and April 15th, inclusive, to be known as the "second period" report for the second principal apportionment. The county superintendent of schools shall report the average daily attendance for the schools and classes maintained by him and the average daily attendance for the county school tuition fund. If the average daily attendance in the regular day schools of a district for the period of time between July 1 and June 30 is greater or lesser than the average daily attendance in the regular day schools reported for the second period report, the appropriate increases and decreases in the several categories of attendance for which separate foundation programs are required to be computed shall be brought forward to the corresponding categories of the second period report for the next succeeding fiscal year.

Each report shall be prepared in accordance with instructions on forms prescribed and furnished by the Superintendent of Public Instruction and average daily attendance shall be computed in the following manner:

(a) The average daily attendance in the regular elementary, junior high, and high schools maintained by the school districts shall be determined by dividing the total number of days of attendance in all full school months in each period, by the number of days such schools are actually taught in all full school months in each period.

If the average daily attendance in schools and classes maintained by school districts other than regular day schools and classes for the period of time between July 1 and June 30 is greater or lesser than the average daily attendance in such schools and classes reported for the second period report, the appropriate increases and decreases in the attendance for such schools and classes for which separate state financial support is provided shall be brought forward to the appropriate attendance computation for such schools and classes on the second period report for the next succeeding fiscal year.

(b) The average daily attendance in grades 13 and 14 of the regular day schools of each junior college shall be determined pursuant to the provisions of Article 5.5 (commencing with Section 11475). For junior colleges, under the provisions of this paragraph, the "first period" shall be the first semester and the "second period" shall be the "academic year" (first and second semester). The average daily attendance in each period shall not exceed 1.2 times the number of different pupils enrolled in the district during the period.

(c) The average daily attendance in summer school and outdoor science and conservation education classes maintained during the period between the last day the regular day

schools are in session during the preceding year and the first day the regular day schools are in session during the current year shall be reported on both the first period and second period reports. Such average daily attendance shall be computed by dividing the days of attendance by 175. For junior colleges, the hours of attendance shall be divided by 525, and the average daily attendance shall not exceed 1.2 times the total number of different pupils enrolled in the district in the summer school.

(d) The attendance for schools and classes maintained by the county superintendent of schools and for the county school tuition fund credited after the last full school month of the second period of the preceding year and prior to the end of each reporting period shall be reported on each report. The average daily attendance of the school, class, or fund shall be determined for the first period by dividing the days of attendance by 100 and for the second period, the days of attendance shall be divided by 175.

(e) The days of attendance in classes for adults continuation schools and classes, regional occupation centers and opportunity schools and classes maintained after the last full school month of the second period of the preceding year and prior to the end of each reporting period shall be reported on each report. The average daily attendance in such schools and classes shall be determined for the first period by dividing the days of attendance by 100; for the second period, the days of attendance shall be divided by 175.

SEC. 5. For the fiscal year 1969–70, each high school and unified school district maintaining schools and classes for adults shall report to the Superintendent of Public Instruction, on forms prepared by the Department of Education, in addition to all other attendance data as required, the total number of class hours for which students are actively enrolled in each approved class maintained by the school district during the first class session of the third scheduled week of the class.

It is the intent of the Legislature in enacting this section of this act that the Department of Education shall use such data to determine if a more feasible and efficient method of attendance accounting for classes for adults may be devised which will produce approximately the same number of units of average daily attendance as under the present provisions of the Education Code. In carrying out the requirements of this section of this act, the Department of Education shall consult with the Department of Finance and the Legislative Analyst. This section of this act shall have no force or effect after June 30, 1970.

SEC. 6. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

As a result of a change in the method of computing the average daily attendance of school districts, effective for the 1968–1969 school year, several school districts throughout the state are recording unnaturally low attendance totals. As a result, such districts are in jeopardy of not receiving state school funds at the level anticipated. Such loss of funds will endanger the fiscal stability and educational program adequacy of the school districts resulting in educational deprivation of students. To prevent this unfortunate occurrence, and in order to permit the other computations required by this act to be operative for the entire 1969–1970 school year, it is necessary that this act take effect immediately.

CHAPTER 1498

An act to amend Sections 2105 and 2106 of, and to add Section 186.6 to, the Streets and Highways Code, relating to highway funds.

[Approved by Governor September 4, 1969. Filed with Secretary of State September 6, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Section 186.6 is added to the Streets and Highways Code, to read:

186.6. There is hereby appropriated to the commission from the Motor Vehicle Fuel Fund an amount not to exceed fifty thousand dollars ($50,000) annually for work done by the department in assisting the Controller in carrying out duties imposed upon his office in reviewing, approving or modifying the expenditure of highway user funds by local agencies.

SEC. 2. Section 2105 of the Streets and Highways Code is amended to read:

2105. Not less than 20 percent of the funds received by each county under subdivisions (d), (e), and (f) of Section 2104 shall be expended for acquisition of rights-of-way for and construction of routes on the select system of county roads or city streets for such county established as provided in Section 186.3.

SEC. 3. Section 2106 of the Streets and Highways Code is amended to read:

2106. A sum equal to the net revenue derived from one and four one-hundredths cent ($0.0104) per gallon tax under the Motor Vehicle Fuel License Tax Law shall be apportioned monthly from the Highway Users Tax Fund among counties and cities for use exclusively for county road and city street purposes, as provided in this section.

The amounts available under this section shall be apportioned, as follows:

(a) Four hundred dollars ($400) per month shall be apportioned to each city and city and county and eight hundred dollars ($800) per month shall be apportioned to each county and city and county.

(b) The balance shall be apportioned, as follows:

(1) A base sum shall be computed for each county by using the same proportions of fee-paid and exempt vehicles as are established for purposes of apportionment of funds under subdivision (d) of Section 2104.

(2) For each county the percentage of the total assessed valuation of tangible property subject to local tax levies within the county which is represented by the assessed valuation of tangible property outside the incorporated cities of the county shall be applied to its base sum, and the resulting amount shall be apportioned to the county. The assessed valuation of taxable tangible property for purposes of this computation shall be that most recently used for countywide tax levies as reported to the State Controller by the State Board of Equalization.

(3) The difference between the base sum for each county and the amount apportioned to the county shall be apportioned to the cities of that county in the proportion that the population of each city bears to the total population of all cities in the county. Populations used for determining expenditure of moneys under Section 2107 are to be used for purposes of this section.

No apportionment shall be made to any city or county which does not have a select system established in accordance with the provisions of Section 186.3. If all or a portion of the select system of a city or county shall by a change in the physical limits of such city or county be included within the boundaries of another city or county, such portion shall be considered to be a part of the select system of such other city or county. Any amounts which would otherwise have been apportioned to a city which does not so qualify for an apportionment shall be reapportioned to the remaining cities in the county in which such city is located or, if there are no eligible cities in the county, to the county. Any amounts which would otherwise have been apportioned to a county which does not so qualify for an apportionment shall be reapportioned to the eligible cities in such county or, if there are no eligible cities in the county, to other counties and cities pursuant to this section.

CHAPTER 1500

An act to add Section 789.5 to the Civil Code, relating to tenancies.

However, any lease may provide that the tenancy may be terminated upon the landlord's giving notice in writing to the tenant, in such prescribed manner, to remove from the premises within a period of more than 60 days, to be specified in the notice.

This section shall only apply to mobilehomes or trailer coaches which are required to be moved under permit.

This section shall not affect any rights or proceedings set forth in Chapter 4 (commencing with Section 1159) of Title 3 of Part 3 of the Code of Civil Procedure.

CHAPTER 1501

An act to add Chapter 6.8 (commencing with Section 6499.51) to Division 6 of the Education Code, relating to the Elementary and Secondary School Dropout Prevention Act of 1969.

[Approved by Governor September 4, 1969. Filed with Secretary of State September 6, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 6.8 (commencing with Section 6499.51) is added to Division 6 of the Education Code, to read:

CHAPTER 6.8. THE ELEMENTARY AND SECONDARY SCHOOL DROPOUT PREVENTION ACT OF 1969

6499.51. This chapter shall be known and may be cited as the Elementary and Secondary School Dropout Prevention Act of 1969.

6499.52. It is the intention of the Legislature that programs be established to reduce the number of children who do not complete their elementary and secondary education. Such programs are to be designed to develop and demonstrate effective educational practices for the reduction and prevention of dropouts in urban and rural schools with high concentrations of children from low income families and with high dropout rates.

It is also the intention of the Legislature that all district, state, and federal programs related to dropout prevention be integrated and coordinated with the dropout prevention programs created by this chapter.

6499.53. As used in this chapter:

(a) "Dropout" means a person who withdraws from school enrollment, or is excluded from school by suspension or expulsion before completing his elementary and secondary school education.

(b) "Program" means an Elementary and Secondary School Dropout Prevention Program established pursuant to this chapter.

6499.54. Any school district may apply to establish a dropout prevention program. The application shall be submitted to the State Board of Education and shall contain a detailed plan which shall include all of the following:

(a) A description of the dropout prevention program proposed including the innovative methods system, materials, or programs and performance objectives to be utilized which show promise of reducing the numbers of elementary and secondary children who do not complete their education.

(b) A description of the procedures to be established to coordinate the development and operation of programs with other local, state, and federal dropout prevention programs and with other public and private programs having the same or a similar purpose.

(c) A description of the evaluative techniques and objective measures to be utilized by the applicant school district to determine the reduction in the numbers of children who drop out of, or are excluded from, educational programs prior to achieving a proficiency required for graduation from high school.

(d) A description of the proposed educational and administrative staffing of the program.

(e) A description of the steps taken in the development of the proposed program including involvement of potential participants and their families.

(f) Evidence that the district has examined its existing dropout prevention programs supported from local, state, and federal funds with the Elementary and Secondary School Dropout Prevention Programs authorized by this chapter, and evidence that the district intends to integrate such effective programs into the programs authorized by this chapter to increase its overall expenditure for dropout prevention programs.

6499.55. In approving applications for program approval pursuant to this chapter, the State Board of Education shall give priority to the acceptable applications from (1) districts with the highest concentrations of children from families with an annual income of four thousand dollars ($4,000) or less, and (2) districts which exceed the average statewide dropout rate.

6499.56. The State Board of Education shall adopt rules and regulations necessary to implement the provisions of this chapter.

6499.57. School districts which have dropout prevention programs shall report to the State Board of Education the effectiveness of programs in reducing the number of school dropouts. The State Board of Education, on the basis of such reports, shall report annually to the Legislature on the success of the program and shall make recommendations to improve the program.

6499.58. Not later than 1972–73 fiscal year, the State Board of Education shall distribute a description of the results achieved in the exemplary programs conducted. Comprehensive information regarding such exemplary programs shall be distributed to each school district of the state. The cost of preparing and distributing such information shall be financed from funds allowed under Title III of the Elementary and Secondary Education Act of 1965.

6499.59. The State Board of Education shall establish procedures for allocating funds to support the dropout prevention programs authorized by this chapter.

6499.60. There is, within the Office of Compensatory Education, a unit of Elementary and Secondary School Dropout Prevention which shall administer the provisions of this chapter and all programs financed under the provisions of Title VIII of the Elementary and Secondary Act of 1965 (Public Law 89-10, as amended).

6499.61. The State Board of Education shall approve the allocation of all funds annually received by the State of California under the provisions of Title VIII of the Elementary and Secondary Education Act of 1965 (Public Law 89-10, as amended) for the purposes specified in this chapter.

CHAPTER 1502

An act to amend Section 1773.1 of the Labor Code, relating to wages.

[Approved by Governor September 4, 1969. Filed with Secretary of State September 6, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Section 1773.1 of the Labor Code is amended to read:

1773.1. Per diem wages shall be deemed to include employer payments for health and welfare, pension, vacation, apprenticeship or other training programs authorized by Section 3093, and similar purposes, when the term "per diem wages" is used in this chapter or in any other statute applicable to public works.

For the purpose of determining such per diem wages for contracts entered into with the state, the representative of any craft, classification or type of workman needed to execute the contracts entered into with the state shall file with the Department of Industrial Relations fully executed copies of the collective bargaining agreements for the particular craft, classification or type of work involved. Such agreements shall be filed within 10 days after their execution and thereafter may be taken into consideration pursuant to Section 1773 whenever filed 30 days prior to the call for bids.

CHAPTER 1503

An act to amend Section 13187 of, and to add Sections 13124.6, 13124.7, and 13188.5 to, the Education Code, relating to teaching credentials.

[Approved by Governor September 4, 1969. Filed with Secretary of State September 6, 1969.]

The people of the State of California do enact as follows:

SECTION 1. The Legislature hereby reaffirms its conviction that skillfully guided early learning experiences for young children are important to their ultimate mastery of reading, arithmetic, and other essential learnings. Therefore, the Legislature seeks, by this act, to increase the opportunities for teachers of young children by strengthening their preparation.

Present qualifications for credentialed teachers of young children are the same as for teachers of kindergarten and grades 1 through 9, inclusive. Because important special insights and skills are needed, it is essential that prospective credentialed teachers of young children focus their preparations more sharply. Therefore, a standard teaching credential is hereby established for teachers of young children.

The Legislature intends by establishing this credential to encourage teacher education institutions to develop specific programs for the preparation of teachers of young children. These programs should provide opportunity for credential candidates to focus their professional preparation upon the special skills and insights needed for appropriate teaching of young children and for working with their parents.

It is not the intent of the Legislature that this act shall be construed so as to interfere with or contravene provisions for Children's Center Permits.

It is the intent of the Legislature that persons holding Children's Center Permits may move toward fulfilling the requirements for this credential with maximum transferability of units from lower division work. Further, it is the intent of the Legislature to allow the use of appropriate experience in early childhood teaching to be used in lieu of any student teaching requirement or other experience required for the credential pursuant to the law.

Articulation of programs leading to a Children's Center Permit with programs leading to a standard teaching credential with a specialization in early childhood teaching is essential in meeting the purposes of this act. It is the intent of the Legislature that the Coordinating Council for Higher Education and the Commission for Teacher Preparation and Licensing (or the State Board of Education, if Assembly Bill 740 of the 1969 session of the Legislature is not enacted), develop an articulation plan which will achieve these purposes. The council and the commission shall report on this program to the Legislature by the fifth legislative day of the 1971 Regular Session.

SEC. 2. Section 13188.5 is added to the Education Code, to read:

13188.5. The minimum requirements for the standard teaching credential with a specialization in early childhood teaching shall be the requirements set forth in Section 13189 for the standard teaching credential with a specialization in elementary teaching, except that the State Board of Education in implementing subdivision (e) of Section 13189 for this credential shall adopt regulations which focus upon preparation to teach young children. These regulations shall be such that a variety of programs may be developed by teacher preparation institutions, subject to accreditation criteria and processes and to the provisions of this code.

The standard teaching credential with a specialization in early childhood teaching authorizes the following service:

(a) Teaching in preschool, prekindergarten, kindergarten, and grades 1 through 3, inclusive.

(b) Teaching any subjects in classes organized primarily for adults.

(c) Teaching in preschool, prekindergarten, kindergarten, and grades 1 through 12, inclusive, any courses in an area of specialized preparation listed on the credential.

(d) Serving as a librarian in an elementary school, junior high school, or high school, if the specialized area of librarianship is listed as a minor on the credential.

(e) Teaching elementary level reading in continuation education classes, continuation high schools, or high schools.

SEC. 3. Section 13187 of the Education Code is amended to read:

13187. Except as otherwise provided in Sections 13187.1, 13117, 13118, 13119, 13271, 13185, 13149, 13150, 13151, 13152, 13197.5, and 13292, the State Board of Education shall, on and after the operative date of this article, issue only the following five types of credentials:

(a) A standard teaching credential with specializations in early childhood teaching, elementary teaching, secondary teaching, or junior college teaching.

(b) A standard designated subjects teaching credential.

(c) A standard designated services credential.

(d) A standard supervision credential.

(e) A standard administration credential.

SEC. 4. Section 13187 of the Education Code is amended to read:

13187. Except as otherwise provided in Sections 13187.1, 13117, 13118, 13119, 13271, 13185, 13149, 13150, 13151, 13152, 13197.5, and 13292, the State Board of Education shall, on and after the operative date of this article, issue only the following five types of credentials:

(a) A standard teaching credential with specializations in early childhood teaching, elementary teaching or secondary teaching.

(b) A standard designated subjects teaching credential.

(c) A standard designated services credential.

(d) A standard supervision credential.

(e) A standard administration credential.

SEC. 5. Section 13124.6 is added to the Education Code, to read:

13124.6. The Legislature hereby reaffirms its conviction that skillfully guided early learning experiences for young children are important to their ultimate mastery of reading, arithmetic, and other essential learnings. Therefore, the Legislature seeks, by this act, to increase the opportunities for teachers of young children by strengthening their preparation.

Present qualifications for credentialed teachers of young children are the same as for teachers of kindergarten and grades 1 through 9, inclusive. Because important special insights and skills are needed, it is essential that prospective credentialed teachers of young children focus their preparations more sharply. Therefore, a standard teaching credential is hereby established for teachers of young children.

The Legislature intends by establishing this credential to encourage teacher education institutions to develop specific programs for the preparation of teachers of young children. These programs should provide opportunity for credential candidates to focus their professional preparation upon the special skills and insights needed for appropriate teaching of young children and for working with their parents.

It is not the intent of the Legislature that this section and Section 13124.7 shall be construed so as to interfere with or contravene provisions for Children's Center Permits.

It is the intent of the Legislature that persons holding Children's Center Permits may move toward fulfilling the requirements for this credential with maximum transferability of units from lower division work. Further, it is the intent of the Legislature to allow the use of appropriate experience in early childhood teaching to be used in lieu of any student teaching requirement or other experience required for the credential pursuant to the law.

Articulation of programs leading to a Children's Center Permit with programs leading to a standard teaching credential with a specialization in early childhood teaching is essential in meeting the purposes of this act. It is the intent of the Legislature that the Coordinating Council for Higher Education and the commission develop an articulation plan which will achieve these purposes. The council and the commission shall report on this program to the Legislature by the fifth legislative day of the 1971 Regular Session.

SEC. 6. Section 13124.7 is added to the Education Code, to read:

13124.7. An early childhood teaching credential authorizing instruction in preschool, prekindergarten, kindergarten, and grades 1 to 3, inclusive, shall be offered by the commission pursuant to subdivision (c) of Section 13124.

The commission shall develop criteria for the credential, including the objective examination required of, or appropriate waivers thereof, candidates for the credentials.

SEC. 7. It is the intent of the Legislature, if amendments to Section 13187 of the Education Code proposed by this bill and A.B. 1910 are enacted, that both amendments be given effect and incorporated in Section 13187 in the form set forth in Section 4 of this act. Therefore, in the event A.B. 1910 is enacted and amends Section 13187, Section 4 of this act shall become operative, and at that time, Section 13187 of the Education Code as amended by Section 3 of this act is repealed.

SEC. 8. It is the intent of the Legislature that if Assembly Bill No. 740 of the 1969 Regular Session of the Legislature is enacted, Sections 13124.6 and 13124.7 of the Education Code as added by Sections 5 and 6 of this act shall become operative at such time as determined by the Commission for Teacher Preparation and Licensing, but no later than January 1, 1971,

and at that time, Section 1, and Sections 13188.5, and 13187 of the Education Code as enacted by Sections 2 to 4, inclusive, of this act, are repealed.

CHAPTER 1504

An act to add Chapter 7.4 (commencing with Section 25660) to Division 20 of the Health and Safety Code, relating to radiation.

[Approved by Governor September 4, 1969. Filed with Secretary of State September 6, 1969.]

The people of the State of California do enact as follows:

course of instruction in radiologic technology which is adequate to meet the purposes of this chapter.

(h) "Supervision" means responsibility for, and control of, quality, radiation safety, and technical aspects of all X-ray examinations and procedures.

(i) "Licentiate of the healing arts" means a person licensed under the provisions of Chapter 5 (commencing with Section 2000) of Division 2 of the Business and Professions Code who possesses a certificate issued under the provisions of Section 2135 of such code, and a person licensed under the provisions of the initiative act entitled "An act prescribing the terms upon which licenses may be issued to practitioners of chiropractic, creating the State Board of Chiropractic Examiners and declaring its powers and duties, prescribing penalties for violation thereof, and repealing all acts and parts of acts inconsistent herewith," approved by electors November 7, 1922, as amended, or under the "Osteopathic Act."

(j) "Certified supervisor or operator" means a licentiate of the healing arts who has been certified under the provisions of subdivision (e) of Section 25668, Section 25699.1, or Section 25699.2, to supervise the operation of X-ray machines or to operate X-ray machines, or both.

Article 3. Radiologic Technology Certification Committee

25663. The State Board of Public Health shall appoint a certification committee to assist, advise, and make recommendations for the establishment of rules and regulations necessary to insure the proper administration and enforcement of the provisions of this chapter, and for those purposes to serve as consultants to the department. The appointments shall be made from lists of at least three nominees for each position submitted by appropriate professional associations and societies designated by the Director of Public Health, and provisions shall be made for orderly rotation of membership.

25664. The committee shall consist of the director or his designate, who shall serve as chairman ex officio, but who shall not vote, and the following nine members who are residents of the state:

(1) Five physicians and surgeons licensed to practice medicine in this state, three of whom shall be certified in radiology by the American Board of Radiology. At least one of the radiologists shall be representative of the hospital practice of radiology.

(2) Two persons with at least five years' experience in the practice of radiologic technology. At least one of these persons shall be representative of the hospital practice of radiologic technology. Except for the appointment of these two persons to the first committee, every such person thereafter appointed to the committee under the provisions of this subdivision shall be certified as a radiologic technologist.

(3) One radiological physicist, qualified in the use of physics in the practice of medicine.

(4) One licentiate of the healing arts who is not a physician or surgeon.

25665. Members of the committee shall serve without compensation but shall receive their actual and necessary expenses incurred in the performance of the duties of their office.

Article 4. Administration and Regulations

25668. The board shall:

(a) Upon recommendation of the committee, adopt such regulations as may be necessary to accomplish the purposes of this chapter.

(b) Provide for certification of radiologic technologists, without limitation as to procedures or areas of application, except as provided in Section 25673. Separate certificates shall be provided for diagnostic and for therapeutic radiologic technology.

(c) Provide, as may be deemed appropriate, for granting limited permits to persons to conduct radiologic technology limited to the performance of certain procedures or the application of X-ray to specific areas of the human body, prescribe minimum standards of training and experience for such persons, and prescribe procedures for examining applicants for such limited permits. The minimum standards shall include a requirement that persons granted limited permits under this subdivision shall meet such fundamental requirements in basic radiological health training and knowledge similar to those required for persons certified under subdivision (b) of this section as the board determines are reasonably necessary for the protection of the health and safety of the public.

(d) Provide for the approval of schools for radiologic technologists.

(e) Provide, upon recommendation of the committee, for certification of licentiates of the healing arts to supervise the operation of X-ray machines or to operate X-ray machines, or both, prescribe minimum standards of training and experience for such licentiates of the healing arts, and prescribe procedures for examining applicants for certification. Such certification may limit the use of X-rays to certain X-ray procedures and the application of X-rays to specific areas of the human body.

(f) Upon recommendation of the committee, exempt from certification requirements licentiates of the healing arts who have successfully completed formal courses in schools certified by the board and who have successfully passed a roentgenology technology and radiation protection examination approved by the board and administered by the board which issued his license.

25669. Any rules and regulations adopted by the board pursuant to subdivision (a) of Section 25668 shall be adopted

only after consultation with and approval of the committee. Approval of such rules and regulations shall be made by five affirmative votes of those present at an official meeting of the committee.

25670. The department shall, upon individual application, grant special permits to persons, excepting such persons from specific provisions of this chapter or of the rules and regulations issued thereunder, if the department finds to its satisfaction that there is substantial evidence that the people in the locality of this state, in which such exemption is sought, would be denied adequate medical care because of unavailability of certified or certifiable radiologic technologists. Such special permits shall be granted for limited periods of time to be prescribed by the department in accordance with the purposes of this chapter, and such permits may be renewed.

Article 5. Certification in Radiologic Technology

25671. It shall be unlawful for any person to administer or use diagnostic or therapeutic X-ray on human beings in this state after July 1, 1971, unless such person has been certified or granted a permit pursuant to subdivision (b) or (c) of Section 25668 or pursuant to Section 25670, is acting within the scope of such certification or permit, and is acting under the supervision of a licentiate of the healing arts.

(c) Any person employed by an agency of the government of the United States while performing the duties of such employment.

(d) Persons temporarily exempted pursuant to Section 25680.

(e) A licensed dentist; or person who, under the supervision of a licensed dentist, operates only dental radiographic equipment for the sole purpose of oral radiography. This subdivision shall be operative only if Senate Bill 1379 of the 1969 Regular Session of the Legislature is enacted and provides for the examination of such licensed dentist or person in radiation safety.

(f) A person who has been certified or granted a limited permit pursuant to subdivision (b) or (c) of Section 25668 and who performs dental radiography in a dental X-ray laboratory upon the written order of a licensed dentist.

25673. Certification in radiologic technology pursuant to Section 25668 shall not authorize any of the following:

(a) The use of diagnostic or therapeutic X-ray equipment except under the supervision of a certified supervisor or operator.

(b) The interpretation of any radiograph or a diagnosis based upon it.

(c) The reporting of any diagnosis to a patient except as ordered by a licentiate of the healing arts.

(d) The use of any title or designation indicating or implying the right to practice any of the healing arts.

25674. A radiologic technologist certified pursuant to subdivision (b) of Section 25668 may use the title, certified radiologic technologist (CRT). No other person shall use such designation. The department may prescribe appropriate titles for use by categories of persons granted permits pursuant to subdivision (c) of Section 25668 and may limit the use of such titles.

25675. The department shall prescribe minimum qualifications for granting of permits and certificates in radiologic technology in any classification.

25676. Except as provided in Sections 25683, 25684, or 25685, and in addition to such requirements as may be prescribed pursuant to Section 25675, each applicant for certification as a radiologic technologist pursuant to subdivision (b) of Section 25668 shall submit evidence satisfactory to the department that he has satisfactorily completed a course in an approved school for radiologic technologists, or has completed a course of study and training in radiologic technology which in the opinion of the department is equivalent to the minimum requirements of a course in an approved school for radiologic technologists.

25677. Except as provided in Section 25683, in order to be certified as a radiologic technologist pursuant to subdivision (b) of Section 25668, an applicant shall pass a written examination approved by the department and administered by the department or by such other agency or organization designated by the department.

25678. The department may accept in lieu of its own examination a certificate of another agency or organization which certifies radiologic technologists, provided the certificate was issued on the basis of qualifications and an examination deemed by the department to be reasonably equivalent to the standards established by the department.

25679. The department shall certify as a radiologic technologist any applicant who meets the requirements of this chapter.

3600. The Legislature finds and declares as follows:

(a) The people have a right to expect from their elected and appointed representatives at all levels of government assurances of the utmost in integrity, honesty and fairness in their dealings;

(b) The people further have a right to be assured to the fullest extent possible that the private financial dealings of their governmental representatives, and of candidates for those offices, present no conflict of interest between the public trust and private gain; and

(c) The representative form of government is founded upon a belief that those entrusted with the offices of government have nothing to fear from full public disclosure of their financial and business holdings, provided those officials deal honestly and fairly with the people.

To these ends, the Legislature enacts this division. The Legislature hereby intends to sustain, to the extent necessary, public confidence in government at all levels, by assuring the people of the impartiality and honesty of their officials in all governmental transactions and decisions.

The provisions of this division are to be construed liberally, to the end that the public interest be fully protected.

3601. As used in this division, the term "public agency" means the state, a city, a county, a city and county, or a district, or any subdivision, department, board, commission, body or agency of the foregoing; and includes any public corporation or public authority. The term "public agency" does not include a commission or board the functions of which are purely advisory in nature.

3602. As used in this division, the term "corporation" does not include a charitable corporation which qualifies for exemption from the corporation tax under Section 23701d of the Revenue and Taxation Code.

sured or applicant has submitted to the insurer a written declaration made by the employer under penalty of perjury that the applicant or insured was, at such time, operating a motor vehicle for compensation during the hours of his employment.

[Approved by Governor September 4, 1969. Filed with Secretary of State September 6, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Section 17503 of the Education Code is amended to read:

17503. For purposes of this section:

(a) "Salaries of classroom teachers" and "teacher" shall have the same meanings as prescribed by Section 17200 of this code provided, however that the cost of all health and welfare benefits provided to the teachers by the school district shall be included within the meaning of salaries of classroom teachers.

(b) "Current expense of education" means the gross total expended (not reduced by estimated income or estimated federal and state apportionments) for the purposes classified in the final budget of a school district (except one which, during the preceding fiscal year, had less than 101 units of average daily attendance) submitted to and approved by the county superintendent of schools pursuant to Section 20651 of this code for administration, instruction (including salaries and other expense), auxiliary services, school plant (including operation and maintenance), and fixed charges. "Current expense of education" shall not include those purposes classified

as transportation of pupils, food service, community service, capital outlay, state school building loan repayment; and shall not include the amount expended pursuant to any lease agreement for plant and equipment or the amount expended from funds received from the federal government pursuant to the "Economic Opportunity Act of 1964" or any extension of such act of Congress.

There shall be expended during each fiscal year for payment of salaries of classroom teachers:

(a) By an elementary school district, sixty percent (60%) of the district's current expense of education.

(b) By a high school district, fifty percent (50%) of the district's current expense of education.

(c) By a junior college district, fifty percent (50%) of the district's current expense of education.

(d) By a unified school district, fifty-five percent (55%) of the district's current expense of education.

If the Superintendent of Public Instruction determines that a school district has not expended the applicable percentage of current expense of education for the payment of salaries of classroom teachers during the preceding fiscal year, he shall, in apportionments made to the school district from the State School Fund after April 15 of the current fiscal year, designate an amount of such apportionment or apportionments equal to the apparent deficiency in district expenditures. Any amount so designated by the Superintendent of Public Instruction shall be deposited in the county treasury to the credit of the school district, but shall be unavailable for expenditure by the district pending the determination to be made by the Superintendent of Public Instruction on any application for exemption which may be submitted to the Superintendent of Public Instruction. In the event it appears to the governing board of a school district that the application of the preceding paragraphs of this section during a fiscal year results in serious hardship to the district, or in the payment of salaries of classroom teachers in excess of the salaries of classroom teachers paid by other districts of comparable type and functioning under comparable conditions, the board may, with the written approval of the county superintendent of schools having jurisdiction over the district apply to the Superintendent of Public Instruction in writing not later than September 15th of the succeeding fiscal year for exemption from the requirements of the preceding paragraphs of this section for the fiscal year on account of which the application is made. Upon receipt of such application, duly approved, the Superintendent of Public Instruction shall grant the district exemption for any amount that is less than one thousand dollars ($1,000), and if the amount is one thousand dollars ($1,000), or greater may grant the district exemption, to the extent deemed necessary by him, from such requirements for the fiscal year on account of which the application is made. If such exemption is granted the desig-

nated moneys shall be immediately available for expenditure by the school district governing board. If no application for exemption is made or exemption is denied, the Superintendent of Public Instruction shall order the designated amount or amount not exempted to be added to the amounts to be expended for salaries of classroom teachers during the next fiscal year.

The Superintendent of Public Instruction shall enforce the requirements prescribed by this section, and may adopt necessary rules and regulations to that end. He may require the submission to him, during the school year, by school district governing boards and county superintendents of schools, of such reports and information as may be necessary to carry out the provisions of this section.

CHAPTER 1547

An act to add Title 7.7 (commencing with Section 67410) to the Government Code, relating to southern California transportation.

[Approved by Governor September 4, 1969 Filed with Secretary of State September 6, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Title 7 7 (commencing with Section 67410) is added to the Government Code, to read:

TITLE 7.7. SOUTHERN CALIFORNIA TRANSPORTATION STUDY COMMISSION

67410. This title shall be known and may be cited as the Southern California Transportation Study Commission Act.

67411. The Legislature hereby finds and declares that the proper development of the southern California region requires that effective, economic transportation services which are compatible with regional priorities and projected land use plans be provided. Despite the best efforts of existing agencies, the kind of overall planning required to provide such services has not been possible. In particular, land use and transportation planning have proceeded with little coordination, resulting in increasing traffic congestion. Because of present organizational arrangements, separate facilities such as highways and rail transit are being planned rather than an integrated transportation system. Present efforts are leading to costly and ineffective transportation services which will ultimately limit the development of the southern California region.

It is therefore necessary that a limited-life commission be established to define the proper means of providing overall transportation planning in southern California and to undertake an initial study and definition of a regional transportation plan including the means for development and financing of required facilities.

The Legislature recognizes that the Southern California Association of Governments has the primary responsibility for comprehensive regional planning in southern California. Therefore, the Legislature directs that the commission perform its functions through a written agreement with this association that insures proper coordination and integration of regional planning activities.

67412. There is hereby created the Southern California Transportation Study Commission which shall consist of 26 members. Representation and appointment shall be as follows:

(a) Twelve members shall be local elected officials and appointed by the Governor from a list of local elected officials submitted to the Governor by the Executive Committee of the Southern California Association of Governments.

(b) One member shall be a representative of the State Transportation Agency.

(c) One member shall be a representative of the Southern California Rapid Transit District.

(d) One member shall be a State Senator from the area under study who shall serve to the extent that such participation is not incompatible with his position as a Member of the Legislature and shall be chosen by the Senate Rules Committee.

(e) One member shall be an Assemblyman from the area under study who shall serve to the extent that such participation is not incompatible with his position as a Member of the

Legislature and shall be chosen by the Speaker of the Assembly.

(f) Ten members shall be local residents, broadly representative of local business, labor and community interests, shall not be governmental officials, shall serve in an advisory capacity to the commission, and shall be appointed by the Governor from a list of names submitted to the Governor by the Executive Committee of the Southern California Association of Governments.

Vacancies occurring in commission membership shall be filled in the same manner as original appointments. Commission members shall select a chairman and vice chairman.

67413. The members of the commission shall serve for four years or until the termination of the commission, whichever is earlier.

67414. The members of the commission shall serve without compensation, but each of the members may be reimbursed for his necessary and actual expenses incurred in the performance of his duties.

67415. All meetings of the commission shall be open to the public, and all persons shall be permitted to attend any meetings of the commission.

67416. The commission shall conduct a comprehensive study of the regional transportation problems affecting the southern California area which, for the purposes of this title, is composed of the Counties of Ventura, Los Angeles, Orange, San Bernardino, Riverside and Imperial.

67417. The commission shall limit its studies of interregional transportation facilities to the extent such facilities influence or affect intraregional transportation facilities or planning requirements therefor.

67418. The commission shall be responsible for conducting studies and developing specific recommendations in regard to the following matters:

(a) Interrelationship between transportation and regional goals and priorities, including such areas as population, population density, employment, housing, education, transportation, recreation, natural resources, business, and economic levels.

(b) The efficacy of existing transportation systems and land-use plans to meet regional goals.

(c) Transportation service in light of land-use plans and regional goals.

(d) The capabilities of existing or proposed transportation systems and operations to meet service needs.

(e) Recommendations for meeting defined transportation service needs.

(f) Required legislation or modifications in governmental organization to:

(1) Establish and finance a continuing planning process that properly coordinates regional goals, land-use planning, and transportation service.

(2) Finance required transportation systems and facilities.

(3) Provide and implement a master plan for the development and construction of transportation facilities for the southern California area.

67419. In order to avoid duplication of work, the commission shall make maximum use of data and information available in plans and studies of public and private agencies. The commission shall utilize the resources of the staff of the Southern California Association of Governments for administrative and technical services.

67420. The commission may:

(a) Accept grants, contributions and appropriations from any public agency.

(b) Appoint committees from its membership and from other interested public and private groups.

(c) Contract for or employ any professional services required or for the performance of work and services which in its opinion cannot satisfactorily be performed by its officers and staff.

67421. The commission shall take whatever steps are necessary to attempt to obtain money available for such activities from any federal or local sources.

67422. The commission shall file a progress report with the Governor and the Legislature not later than the fifth legislative day of the 1971 Regular Session of the Legislature, and shall file a final report with the Governor and the Legislature not later than the fifth legislative day of the 1972 Regular Session of the Legislature.

67423. The existence of the commission shall terminate on the 91st day after the final adjournment of the 1972 Regular Session of the Legislature.

37503. The Legislature further finds and declares that existing federal programs providing low-rent housing in private accommodations and home ownership opportunities for low-income families can contribute greatly toward individual self-sufficiency and greater public acceptance of low-income housing.

37504. If is therefore the policy of the Legislature of the State of California to encourage local housing authorities to provide adequate training to low-income families in home management and maintenance with particular emphasis upon the basic rights and responsibilities of home ownership. [Approved by Governor September 4, 1969. Filed with Secretary of State September 6, 1969.]

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares that the purpose of the Transit District Public Transportation Improvement Fund provided for in this act and funded by the tax revenues of a one-half-of-1-percent transactions and use tax levied one time only for a six-month period by a transit district in the territory of a transit district is to aid in the solution of the existing financial problems confronting mass public transportation systems now operating in the territories of the districts, the continuance of which are a matter of state concern. Permitting the transit districts and cities operating public transportation systems on the effective date of this act to

make application to the State Business and Transportation Agency for a disbursement of funds collected under this act is a necessary provision of the general purpose to carry out the plan under this general law so that the desired public transportation operations and facilities will continue to be available to residents and the people of the state traveling in populous areas and requiring public transportation to be available in an orderly manner and at a time when all areas throughout the territory of the transit district most urgently need financial assistance to assure the continuance of public transportation services and facilities.

It is the intent of this Legislature that the authority granted to the board of directors of the transit district to levy the transactions and use taxes in the manner and for the purposes authorized by Article 1.5 (commencing with Section 37010) of Part 17 of Division 2 of the Revenue and Taxation Code, without approval of the voters as otherwise provided for by the principal act of the transit district, is to meet a critical financial condition; and is considered as an exception to the provisions of the principal act of the transit district and not as a precedent for the levy of similar taxes by the district board in the future.

Notwithstanding any other provisions of this part, the board of directors of the district is authorized, by ordinance, to impose transactions and use taxes in conformity with the provisions of Part 1.6 (commencing with Section 7251) of Division 2 of the Revenue and Taxation Code but only for the period of time and for the purposes authorized by Article 1.5 (commencing with Section 37010) of Part 17 of Division 2 of the Revenue and Taxation Code.

SEC. 3. Section 7252 of the Revenue and Taxation Code, as amended by Chapter 180 of the Statutes of 1969, is amended to read:

7252. "District" as used in this part, means the San Francisco Bay Area Rapid Transit District, the Santa Clara County Transit District and the Southern California Rapid Transit District.

SEC. 4. Section 7272.7 is added to the Revenue and Taxation Code, to read:

7272.7. The contract referred to in Section 37020 of this code shall provide that the district shall pay to the board its costs of preparation to administer and operate the transactions and use taxes ordinance. The district shall pay preparatory costs in accordance with the contract. Such costs include all preparatory costs including costs of developing procedures, programming for data processing, developing and adopting appropriate regulations, designing and printing of forms, developing instructions for the board's staff and for taxpayers, and other necessary preparatory costs which shall include the

board's direct and indirect costs as specified by Section 11256 of the Government Code. Any disputes as to the amount of preparatory costs incurred shall be resolved by the Director of Finance and his decision shall be final. The maximum amount of all preparatory costs to be paid by the district shall not in any event exceed one hundred twenty-five thousand dollars ($125,000).

SEC. 5. Article 1.5 (commencing with Section 37010) is added to Part 17 of Division 2 of the Revenue and Taxation Code, to read:

The secretary shall promulgate rules and regulations for the disbursement of the moneys deposited in each Transit District Public Transportation Improvement Fund to the separate accounts of the transit district and of the cities. The rules and regulations may be revised by the secretary from time to time. Such rules and regulations shall provide for the orderly and periodic distribution of funds to the transit districts or cities operating public transportation systems so that in the areas in which the transit district or cities provide services there will be a continued orderly improvement or maintenance of the systems by the use of moneys disbursed from the fund.

37017. A transit district or city which has filed a budget or financial plan as required by Section 37015 may request the quarterly or monthly disbursement of funds from its account by filing with the secretary a public transportation claim, in the form provided in the rules and regulations of the secretary, setting forth its estimated financial needs required to meet its capital and operating requirements, including current acquisition or replacement of rolling stock, construction of facilities, expenses for repairs, maintenance and depreciation, and the payment of principal and interest on its bonded indebtedness or other indebtedness, including equipment trust certificates. The public transportation claim filed by the transit district or cities shall evidence the actual need of financial assistance for its expenditures and operations over its financial receipts and revenues available to meet such expenditures and operations from all sources as estimated and filed with the secretary for the following year (or part thereof in the case of the first year). Such budget period shall be on either a fiscal period, commencing on the first day of July of one year and ending on the last day of June of the following year, or on a calendar year basis, unless a different time or period is authorized or permitted by the secretary. The secretary shall review the budgets and financial plans filed by the transit district or cities and shall, from an analysis and evaluation thereof, determine the estimated financial assistance required for the current year by each such transit district or city which amount when determined shall constitute and be called the approved annual public transportation claim of the transit district or cities. The approved annual public transportation claim shall be transmitted by the secretary to the district treasurer who may rely upon it in making quarterly or monthly disbursements, as the case may be. The transit district or city

shall be entitled to withdraw such amount of money annually from the fund during the year (or part thereof in the case of the first year) if such moneys are available to a transit district or city as provided in this article based upon the maximum amount of moneys in its account available to be disbursed and against which the transit district or city is entitled to withdraw. The approved annual public transportation claim of the transit district or city shall be reviewed by the secretary and may be redetermined, upon his own action, or upon the request of a transit district or city, either during the current year or thereafter, if the annual financial needs of the transit district or city differs substantially from that of the approved annual public transportation claim. The secretary in determining such approved annual public transportation claims shall have full access to the books, records and accounts of any transit district or city.

37018. The secretary before approving the annual public transportation claims and transmitting them to the district treasurer shall have first ascertained from the district treasurer the amount of money available to the transit district and to each city. A transit district or city shall be eligible to withdraw from the moneys collected from a one-time levy of the one-half-of-1-percent transactions and use tax and deposited in the particular transit district fund those moneys in the account approved for expenditure by the secretary for the particular transit district or city. The district treasurer after having received a report from the State Board of Equalization transmitting the moneys collected and the moneys, less expenses or refunds, have been deposited by the district treasurer, shall allocate to the account of each city located within the transit district and which operated for one year prior to the operative date of this section a public transportation system a portion of the moneys collected under the transactions and use tax levied in the territory of the transit district in which each city is located based upon the proportion which the total miles traveled by the conveyances of each public transportation system operated by a city bears to the total miles traveled by the conveyances of all public transportation systems operated by the district and cities entitled to a disbursement pursuant to this article, as determined by the secretary. The balance of the moneys collected and deposited in the Transit District Public Transportation Improvement Fund from the one-time six-month levy of the transactions and use tax in the territory of the particular transit district shall be allocated by the district treasurer to the account of the transit district which levied the transactions and use tax. The moneys so allocated and held in the account of each transit district or city shall be expended and disbursed as provided in this article. Interest received upon moneys held by the treasurer of the transit district pursuant to this article shall be allocated to the accounts of the transit district or cities in proportion to

the amounts of money allocable to the respective accounts of the transit district or cities.

37019. If at any time the secretary determines that it is in the public interest that a revised budget or financial plan be filed by a transit district or city, or that because of changed conditions or circumstances that a transit district or city should be granted an amount different from its approved annual public transportation claim, the secretary shall so direct and authorize the filing of an amended, revised or new estimated budget or financial plan and may issue an amended, revised or new approved annual public transportation claim for that year. In considering the amount of money estimated to be collected and available for distribution and disbursement the secretary shall take into consideration any funds not allocated or expended under an approved public transportation claim during a preceding year or years. The secretary is furthermore authorized to permit a transit district or city to file an estimated budget or financial plan and to issue an approved public transportation claim covering its financial needs over a period of more than one year, but not to exceed four years, if the financial requirements of the transit district or city demand, because of factors or conditions related to its transportation system, the planning of capital or operating expenditures for more than a one-year period after taking into consideration the maximum amount which the transit district or city has deposited to its account and which it may reasonably be entitled to be eligible to withdraw before its particular separate account is exhausted. The secretary may take into consideration in administering this program all income, including subsidies, tax revenues or other sources of income, which any transit district or city receives or may become entitled to receive during the period for which an approved public transportation claim may be effective.

37020. After the effective date of this article, the board of directors of a transit district may, by ordinance, impose one time only for a period of not to exceed six months a one-half-of-1-percent transactions and use tax as provided under the provisions of Part 1.6 (commencing with Section 7251) of this division without the approval of the voters as is, or may be, otherwise required under this code or the principal act of the transit district. The taxes collected by the State Board of Equalization shall be transmitted to the district to be deposited in the Transit District Public Transportation Improvement Fund in the district treasury and used for the purposes provided in this article within the territory of the transit district which levied the tax. Any transactions and use taxes ordinance adopted pursuant to this article shall be operative on the first day of the first calendar quarter commencing more than 180 days after the enactment of the ordinance. The ordinance shall automatically be repealed after the tax has been in effect for

a period of six months, and cannot be levied by a transit district a second time.

Prior to the operative day of the ordinance the transit district shall contract with the State Board of Equalization to perform all functions incident to the administration and operation of the ordinance. If the transit district shall not have contracted with the State Board of Equalization prior to the operative date of its ordinance, it shall nevertheless so contract and in such case the operative date shall be the first day of the first calendar quarter following the execution of the contract.

SEC. 6. If any provision of this act or the application thereof to any person or circumstances is held invalid, such invalidity shall not affect other provisions or applications of the act which can be given effect without the invalid provision or application, and to this end the provisions of this act are severable.

The people of the State of California do enact as follows:

SECTION 1. Title 2.4 (commencing with Section 1812.50) is added to Part 4 of Division 3 of the Civil Code, to read:

TITLE 2.4. CONTRACTS FOR DANCE STUDIO LESSONS AND OTHER SERVICES

1812.50. (a) The Legislature finds that there exists in connection with a substantial number of contracts for dance studio lessons and other services, sales practices, and business and financing methods which have worked a fraud, deceit, imposition, and financial hardship upon the people of this state; that existing legal remedies are inadequate to correct these abuses; that the dance studio industry has a significant impact upon the economy and well-being of this state and its local communities; and that the provisions of this title relating to such contracts are necessary for the public welfare.

(b) The Legislature declares that the purpose of this title is to safeguard the public against fraud, deceit, imposition and financial hardship, and to foster and encourage competition, fair dealing, and prosperity in the field of dance studio lessons and other services by prohibiting or restricting false or misleading advertising, onerous contract terms, harmful financial practices, and other unfair, dishonest, deceptive, destructive, unscrupulous, fraudulent and discriminatory practices by which the public has been injured in connection with contracts for dance studio lessons and other services.

1812.51. As used in this title, "contract for dance studio lessons and other services" means a contract for instruction in ballroom or other types of dancing, and includes lessons and other services, whether given to students individually or in groups. This title does not include contracts for professional services rendered or furnished by a person licensed under the provisions of Division 2 (commencing with Section 500) of the Business and Professions Code or contracts for instruction at schools operating pursuant to the provisions of the Education Code.

1812.52. Every contract for dance studio lessons and other services shall be in writing and shall be subject to the provisions of this title. A copy of the written contract shall be given to the customer at the time he signs the contract.

1812.53. (a) No contract for dance studio lessons and other services shall require payment by the person receiving the lessons and other services or the use of the facilities of a total amount in excess of two thousand five hundred dollars ($2,500).

(b) No contract for dance studio lessons and other services shall require payments or financing by the buyer over a period in excess of two years from the date the contract is entered into, nor shall the term of any such contract be measured by the life of the buyer. However, the lessons and other services

to be rendered to the buyer under the contract may extend over a period not to exceed seven years from the date the contract is entered into.

(c) All contracts for dance studio lessons and other services which may be in effect between the same seller and the same buyer, the terms of which overlap for any period, shall be considered as one contract for the purposes of this title.

1812.54. (a) Every contract for dance studio lessons and other services shall provide that performance of the agreed-upon lessons will begin within 12 months from the date the contract is entered into.

(b) Every contract for dance studio lessons and other services shall further provide:

(1) That such contract may be canceled within 180 days after the date of receipt by the customer of a copy of the contract by written notice to the other party at the address specified in the contract, and all moneys paid pursuant to such contract shall be refunded within 10 days of receipt of the notice of cancellation, except that payment shall be made for any dance studio lessons and other services received prior to such cancellation.

(2) That such contract may be canceled after 180 days after the date of receipt by the customer of a copy of the contract by written notice to the other party at the address specified in the contract, and the student canceling such contract shall be thereafter entitled to a refund, within 10 days of receipt by the dance studio of notice of cancellation, of all moneys paid pursuant to the canceled contract with the exception that the dance studio shall be entitled to 10 percent of the unpaid balance pursuant to the terms of the canceled contract, and except further that, in addition to the foregoing, payment shall be made for any dance studio lessons and other services received prior to such cancellation.

(c) Every contract for dance studio lessons and other services shall contain a written statement of the hourly rate for the lessons and other services. Such statement shall be contained in the contract before the contract is signed by the buyer.

1812.55. No contract for dance studio lessons and other services shall require or entail the execution of any note or series of notes by the buyer which, when separately negotiated, will cut off as to third parties any right of action or defense which the buyer may have against the seller.

1812.56. No right of action or defense arising out of a contract for dance studio lessons and other services which the buyer has against the seller, and which would be cut off by assignment, shall be cut off by assignment of the contract to any third party whether or not he acquires the contract in good faith ,and for value unless the assignee gives notice of the assignment to the buyer as provided in this section and, within 30 days of the mailing of notice, receives no written notice of

the facts giving rise to the claim or defense of the buyer. A notice of assignment shall be in writing addressed to the buyer at the address shown on the contract and shall identify the contract and inform the buyer that he shall, within 30 days of the date of mailing of the notice, notify the assignee in writing of any facts giving rise to a claim or defense which he may have. The notice of assignment shall state the name of the seller and buyer, a description of the lessons and other services, the contract balance, and the number and amount of the installments.

1812.57. (a) Every contract for dance studio lessons and other services shall contain a clause providing that if, by reason of death or disability, the person agreeing to receive lessons and other services is unable to receive all lessons and other services for which he has contracted, he and his estate shall be relieved from the obligation of making payment for lessons and other services other than those received prior to death or the onset of disability, and that if he has prepaid any sum for lessons and other services so much of such sum as is allocable to lessons and other services he has not taken shall be promptly refunded to him or his representative.

(b) In every case in which a person has prepaid a sum for lessons and other services under a contract for dance studio lessons and other services, and, by reason of death or disability, is unable to receive all such lessons and other services, the party agreeing to furnish such lessons and other services shall, on request, immediately refund to such person or his personal representative such amount of the sum prepaid as is proportionate to the amount of lessons and other services not received.

(c) Notwithstanding the provisions of any contract to the contrary, whenever the contract price is payable in installments and the buyer is relieved from making further payments or entitled to a refund under this section, the amount of the contract price allocable to lessons and other services not received shall represent at least as great a proportion of the total contract price as the sum of the periodic monthly balances not yet due bears to the sum of all the periodic monthly balances under the schedule of installments in the contract.

1812.58. The provisions of this title are not exclusive and do not relieve the parties or the contracts subject thereto from compliance with all other applicable provisions of law.

1812.59. Any contract for dance studio lessons and other services which does not comply with the applicable provisions of this title shall be void and unenforceable as contrary to public policy.

1812.60. Any contract for dance studio lessons and other services entered into in reliance upon any willful and false, fraudulent, or misleading information, representation, notice, or advertisement of the seller shall be void and unenforceable.

1812.61. Any waiver of the buyer of the provisions of this title shall be deemed contrary to public policy and shall be void and unenforceable.

1812.62. (a) Any buyer injured by a violation of this title may bring an action for the recovery of damages. Judgment may be entered for three times the amount at which the actual damages are assessed plus reasonable attorney fees.

(b) Notwithstanding the provisions of this title, any failure to comply with any provision of this title may be corrected within 30 days after the execution of the contract by the buyer, and, if so corrected, neither the seller nor the holder shall be subject to any penalty under this title, provided that any correction which increases any monthly payment, the number of payments, or the total amount due, must be concurred in, in writing, by the buyer. "Holder" includes the seller who acquires the contract, or, if the contract is purchased by a financing agency or other assignee, the financing agency or other assignee.

1812.63. Any person who violates any provision of this title relating to dance studio contracts shall be guilty of a misdemeanor. Any superior court of this state shall have jurisdiction in equity to restrain and enjoin the violation of any of the provisions of this title relating to dance studio contracts.

The duty to institute actions for violation of such provisions of this title, including equity proceedings to restrain and enjoin such violations, is hereby vested in the Attorney General, district attorneys, and city attorneys. The Attorney General, any district attorney, or any city attorney may prosecute misdemeanor actions or institute equity proceedings or both.

This section shall not be deemed to prohibit the enforcement by any person of any right provided by this or any other law.

1812.64. Every dance studio shall maintain a bond issued by a surety company admitted to do business in this state. The principal sum of the bond shall be 25 percent of the dance studio's gross income from the studio business in this state during the studio's last fiscal year, except that the principal sum of the bond shall not be less than ten thousand dollars ($10,000) in the first or any subsequent year of operations. A copy of such bond shall be filed with the Secretary of State.

1812.65. The bond required by Section 1812.64 shall be in favor of the State of California for the benefit of any person who, after entering into a contract for dance studio lessons and other services with the dance studio, is damaged by fraud or dishonesty or failure to provide the services of the studio in performance of the contract. Any person claiming against the bond may maintain an action at law against the dance studio and the surety.

The aggregate liability of the surety to all persons for all breaches of the conditions of the bonds provided herein shall in no event exceed the amount of the bond.

1812.66. In lieu of furnishing the bond required by Section 1812.64 the dance studio may deposit with the Attorney General a cash deposit in a like amount. This cash deposit may be satisfied by any of the following:

(1) Certificates of deposit payable to the Attorney General issued by banks doing business in this state and insured by the Federal Deposit Insurance Corporation.

(2) Investment certificates or share accounts assigned to the Attorney General and issued by a savings and loan association doing business in this state and insured by the Federal Savings and Loan Insurance Corporation.

(3) Bearer bonds issued by the United States government or by this state.

(4) Cash deposited with the Attorney General.

1812.67. Sections 1812.64 to 1812.66, inclusive, do not apply to any dance studio which does not require prepayment for lessons or other services.

1812 68. If any provision of this title or the application thereof to any person or circumstances is held unconstitutional, the remainder of the title and the application of such provision to other persons and circumstances shall not be affected thereby.

(b) The Legislature declares that the purpose of this title is to safeguard the public against fraud, deceit, imposition and financial hardship, and to foster and encourage competition, fair dealing, and prosperity in the field of health studio services by prohibiting or restricting false or misleading advertising, onerous contract terms, harmful financial practices, and other unfair, dishonest, deceptive, destructive, unscrupulous, fraudulent and discriminatory practices by which the public has been injured in connection with contracts for health studio services.

An act to add Article 14 (commencing with Section 53940) to Chapter 4 of Part 1 of Division 2 of Title 5 of the Government Code, relating to a privilege tax on the maintenance of livestock animals for pleasure riding and trail use.

[Approved by Governor September 4, 1969. Filed with Secretary of State September 6, 1969]

The people of the State of California do enact as follows:

SECTION 1. Article 14 (commencing with Section 53940) is added to Chapter 4 of Part 1 of Division 2 of Title 5 of the Government Code, to read:

10163.5. (a) In the case of ordinary policies issued on or after the operative date of this subdivision as defined herein, all adjusted premiums and present values referred to in this article shall be calculated on the basis of the Commissioners 1958 Standard Ordinary Mortality Table and the rate of interest, not exceeding 3½ percent per annum except that 4 percent may be used for all policies issued from January 1, 1970, through December 31, 1975, specified in the policy for calculating cash surrender values and paid-up nonforfeiture benefits; provided, that for any category of ordinary insurance issued on female risks, adjusted premiums and present values may be calculated according to an age not more than three years younger than the actual age of the insured; provided, however, that in calculating the present value of any paid-up term insurance with accompanying pure endowment, if any, offered as a nonforfeiture benefit, the rates of mortality assumed may be not more than those shown in the Commissioners 1958 Extended Term Insurance Table; provided further, that for insurance issued on a substandard basis, the calculation of any such adjusted premiums and present values may be based on such other table of mortality as may be specified by the company and approved by the commissioner.

On or after January 1, 1961, any company may file with the commissioner a written notice of its election to comply with the provisions of this subdivision after a specified date before January 1, 1966. After the filing of such notice, then upon such specified date (which shall be the operative date of this subdivision for such company), this subdivision shall become operative with respect to the ordinary policies thereafter issued by such company. Provided, however, that in calculating the present value of any paid-up term insurance with accompanying pure endowment, if any, offered as a nonforfeiture benefit, the rates of mortality assumed may be not more than those shown in the Commissioners 1961 Industrial Extended Term Insurance Table. Provided, further, that for insurance issued on a substandard basis, the calculation of any such adjusted premiums and present values may be based on such other table of mortality as may be specified by the company and approved by the commissioner.

After the effective date of this amendatory act, any company may file with the commissioner a written notice of its election to comply with the provisions of this subdivision after a specified date before January 1, 1968. After the filing of such notice, then upon such specified date (which shall be the operative date of this subdivision for such company), this subdivision shall become operative with respect to the industrial policies thereafter issued by such company. CHAPTER 1585

An act to add Sections 21669, 21669.1, 21669.2, 21669.3, and 21669.4 to the Public Utilities Code, relating to airports and making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 4, 1969. Filed with Secretary of State September 6, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Section 21669 is added to the Public Utilities Code, to read:

21669. The department shall adopt noise standards governing the operation of aircraft and aircraft engines for airports operating under a valid permit issued by the department to an extent not prohibited by federal law. The standards shall be based upon the level of noise acceptable to a reasonable person residing in the vicinity of the airport.

SEC. 2. Section 21669.1 is added to the Public Utilities Code, to read:

21669.1. There is hereby established an advisory committee to assist the department in the adoption of noise standards. The committee shall be composed of seven members appointed by the Governor as follows:

(a) Two members, one of whom shall be representative of homeowners concerned with aircraft noise.

(b) One member each from the Department of Public Health, the League of California Cities, the County Supervisors Association, the Department of Education, and the Air Transport Association.

The existence of the committee shall terminate on January 1, 1971.

SEC. 3. Section 21669.2 is added to the Public Utilities Code, to read:

21669.2. In its deliberations the department and the advisory committee shall be governed by the following guidelines:

(a) Statewide uniformity in standards of acceptable airport noise need not be required, and the maximum amount of local control and enforcement shall be permitted.

(b) Due consideration shall be given to the economic and technological feasibility of complying with the standards promulgated by the department.

SEC. 4. Section 21669.3 is added to the Public Utilities Code, to read:

21669.3. The department shall submit a comprehensive report of the noise regulations adopted pursuant to Sections 21669, 21669.1 and 21669.2 to the Legislature on or prior to April 1, 1970, and the regulations shall go into effect on January 1, 1971 in the absence of legislative action adopting different standards.

SEC. 5. Section 21669.4 is added to the Public Utilities Code, to read:

21669.4. (a) The violation of the noise standards by any aircraft shall be deemed a misdemeanor and the operator thereof shall be punished by a fine of one thousand dollars ($1,000) for each infraction.

(b) It shall be the function of the county wherein an airport is situated to enforce the noise regulations established by the department. To this end, the operator of an airport shall furnish to the enforcement authority designated by the county the information required by the department's regulations to permit the efficient enforcement thereof.

(c) Penalties assessed for the violation of the noise regulations shall be used first to reimburse the General Fund for the amount of any money appropriated to carry out the purposes for which the noise regulations are established, and second be used in the enforcement of the noise regulations at participating airports.

SEC. 6. There is hereby appropriated from the General Fund in the State Treasury to the Airport Assistance Revolving Fund, as a loan, the sum of fifty thousand dollars ($50,000) to be used in carrying out the purposes of Sections 21669, 21669.1 and 21669.2 of the Public Utilities Code as added by this act, and to be repaid as follows:

(b) If legislation is enacted to impose a tax on aircraft jet fuel, the revenues from which are to be deposited in the Airport Assistance Revolving Fund, such revenues shall first be used to reimburse the General Fund until such loan is repaid.

(c) From any federal grants that may be obtained by the department for the purpose of promulgating the standards called for by his act.

SEC. 7. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Noise from airport operations is a serious environmental pollutant and is a burden borne by many throughout California.

School districts are finding that aircraft noise increases the cost of education in the vicinity of airports. In the Los Angeles area, approximately 40 schools are subjected to aircraft noise. One elementary school was closed in Los Angeles because of aircraft noise, and the Los Angeles Board of Education estimates that it would cost $3.5 million to soundproof seven of the schools presently subjected to aircraft noise.

The physical and emotional well-being of residents adjacent to airports are endangered because of constant exposure to aircraft noise. Aircraft noise prohibits the full enjoyment of their homes and at time reduces the value of property to a homeowner.

For these reasons, it is necessary that this act take immediate effect so that the Department of Aeronautics may establish the aircraft noise regulations required by this legislation.

CHAPTER 1586

An act to add Article 2.7 (commencing with Section 13250) to Chapter 2 of Division 10 of the Education Code, relating to teachers.

DIVISION 25. SERVICES FOR THE MENTALLY RETARDED

CHAPTER 1. GENERAL PROVISIONS

38000. This division shall be known and may be cited as the Lanterman Mental Retardation Services Act of 1969.

38001. The State of California accepts a responsibility for its mentally retarded citizens and an obligation to them which it must discharge. Affecting hundreds of thousands of children and adults directly, and having an important impact on the lives of their families, neighbors, and whole communities, mental retardation presents social, medical, economic, and legal problems of extreme importance.

The complexities of mental retardation require the services of many state departments as well as the community. Frequently there are gaps beyond the present duties and powers of departments in the development of state and community services.

Services should be planned and provided as a part of a continuum. A pattern of facilities and eligibility should be established which is so complete as to meet the needs of each retarded person, regardless of age or degree of handicap, and at each stage of his life's development.

38002. After July 1, 1971, mental retardation alone shall no longer constitute sufficient justification for judicial commitment. Instead mentally retarded persons shall receive services pursuant to this division. Mentally retarded persons who constitute a danger to themselves or others may be judicially committed if evidence of such danger is proven in court.

Unless otherwise indicated, the provisions of this division shall not be construed to apply retroactively to terminate court commitments of mentally retarded persons.

38003. As used in this division:

(a) "Regional center" means a regional diagnostic, counseling and service center for mentally retarded persons and their families.

(b) "Director" means the Director of Public Health.

(c) "Department" means the Department of Public Health.

(d) "Secretary" means the Secretary of the Human Relations Agency.

(e) "State board" means the State Mental Retardation Program Advisory Board.

(f) "Area board" means an areawide mental retardation program board.

(g) "Area plan" means an areawide mental retardation plan.

38004. Notwithstanding any other provision of law, mentally retarded persons shall not be released from state hospitals on leaves of absence after July 1, 1971, except for short home visits, but shall be referred to a regional center for services pursuant to this division.

CHAPTER 2 AREA BOARDS

38050. By January 1, 1970, the secretary shall divide the state into areas for the purpose of planning and coordinating services for the mentally retarded. To the extent feasible, the areas shall correspond to comprehensive health planning regions.

38051. By July 1, 1970, an areawide mental retardation program board shall be appointed in each area to act as a planning and coordinating body for mental retardation services.

38052. Area boards shall be comprised, as follows:

(a) For areas consisting of one to four counties, the area board shall consist of a total of 12 members appointed by the governing bodies of the counties, each county appointing an equal number of members, and five members appointed by the Governor.

(b) For areas consisting of five to seven counties, the area board shall consist of two members appointed by the governing body of each county, and five members appointed by the Governor.

(c) For areas consisting of eight or more counties, the area board shall consist of one member appointed by the governing body of each county, and five members appointed by the Governor.

38053. Of the members first appointed, five shall serve for one year, five shall serve for two years, and the remaining members shall serve for three years. Subsequent members shall serve for three years.

38054. The governing bodies of the counties in each area and the Governor shall select their appointees from among the following groups, and, to the extent feasible, in the following proportions:

(a) Parents of the mentally retarded—25 percent.

(b) Professional disciplines serving the mentally retarded—50 percent.

(c) The general public and county supervisors—25 percent.

38054.1. The Governor shall give consideration to the relative populations of the counties within the area in selecting his appointees to the area boards.

38054.2. The governing bodies of the counties in each area and the Governor shall request recommendations for persons to be appointed to the area boards from:

(a) Organizations representing parents of the retarded;

(b) Professional organizations representing the various professional disciplines to be included on the board; and

(c) Such mental retardation coordinating councils as may exist.

38055. All members of the area board shall be residents of the area.

38056. No member of an area board may be an employee of a regional center, the State Department of Public Health, the State Department of Mental Hygiene, or the State Department of Social Welfare.

38057. An area board shall have the following duties:

(a) It shall be the mental retardation planning body for the area, and shall develop and submit the area plan.

(b) It shall have the responsibility for coordinating and encouraging the development of services.

38058. Each area board shall adopt an areawide mental retardation plan.

The purpose of an area plan shall be to ensure the provision of services as specified in this division in such a manner as to avoid duplication, fragmentation of services, and unnecessary expenditures. To achieve this purpose, an area plan shall provide for the most appropriate and economical use of all existing public and private mental retardation agencies and professional personnel. An area plan must include the fullest possible participation by Short-Doyle agencies, state hospitals and clinics, public and private hospitals, county and state health and welfare agencies, and all such other public and private agencies and professional personnel as are required to, or may agree to, participate in the area plan.

38059. An area plan shall provide for the orderly and economic development of mental retardation services in the area.

Each area board shall submit its area plan at such time and in such form as required by the secretary. The area plan shall designate the region or regions within the area for the purpose of the regional center or centers, and the agency or agencies which will provide regional center services. The area plan shall also indicate the services required by the mentally retarded in the area, the number of persons needing such services, the available service resources, and the anticipated costs and revenues. The area plan may include individual county plans which have been submitted to the area board

38060. Area plans shall be submitted to the Areawide Comprehensive Health Planning Agency for review, and to the secretary for approval and transmission to the Health Planning Council

38061. The members of an area board shall serve without compensation, but shall be reimbursed for any actual and necessary expenses incurred in connection with the performance of their duties under this division.

Each area board shall meet at least quarterly, and on call of the board chairman, as often as necessary to fulfill its duties. All meetings and records of the area board shall be open to the public.

38062. Each area board shall, by majority vote of the voting members, elect its own chairman from among the appointed members, and shall establish such committees as it deems necessary or desirable. The board chairman shall appoint all members of committees of the area board.

An area board may appoint such advisory committees composed of professional persons serving the mentally retarded as necessary for technical assistance.

38063. Each area board may appoint an executive secretary who may appoint persons to such staff positions as the area board may authorize within available funds. The affirmative votes of a majority of the members of the area board shall be necessary for the appointment or removal of an executive secretary.

CHAPTER 3. REGIONAL CENTERS FOR THE MENTALLY RETARDED

38100. In order to provide fixed points of referral in the community for the mentally retarded and their families; establish ongoing points of contact with the mentally retarded and their families so that they may have a place of entry for services and return as the need may appear; provide a link between the mentally retarded and services in the community, including state-operated services, to the end that the mentally retarded and their families may have access to the facilities best suited to them throughout the life of the retarded person; offer alternatives to state hospital placement; and encourage the placement of persons from the state hospital, it is the intent of this division that a network of regional diagnostic, counseling, and service centers for mentally retarded persons and their families, easily accessible to every family, be established throughout the state.

The Legislature finds that the services required of a regional center are of such a special and unique nature that they cannot be satisfactorily provided by state agencies. Therefore, private nonprofit community and local public agencies shall be utilized for the purpose of operating regional centers to the end that the unique relationship which these agencies enjoy with both the mentally retarded and their families and the providers of services in the community may enable the mentally retarded to receive service in the most direct, efficient and effective manner possible.

38101. The State Department of Public Health, within the limitations of funds appropriated, shall contract with appropriate agencies, either public or private nonprofit corporations, for the establishment of regional centers.

38102. Regional centers shall be near centers of population where most needed and wherever possible connected to or in close proximity to institutions of higher learning and research.

38103. A regional center shall investigate every appropriate and economically feasible alternative for care of a mentally

retarded person available within the region. If suitable care cannot be found within the region, care may be obtained in facilities outside of the region.

After July 1, 1971, except for those mentally retarded persons placed in state hospitals pursuant to the Lanterman-Petris-Short Act, no mentally retarded person shall be admitted to a state hospital except upon the referral of a regional center. Upon discharge from a state hospital, a mentally retarded person shall be referred to an appropriate regional center. The department may contract with appropriate agencies for regional center services in those regions where a regional center is not yet fully operative.

38104. Any person suspected of mental retardation shall be eligible for initial intake and for diagnostic and counseling services in the regional centers.

38105. A regional center may purchase required out-of-home prehospital and posthospital care for mentally retarded persons. In locating appropriate placement alternatives for mentally retarded children, regional centers shall encourage maximum participation by parents in the decisionmaking process.

Regional centers may contract or enter into agreements with appropriate agencies for the provision of out-of-home placement services and case management.

38106. The regional centers shall provide and perform or cause to be performed services including, but not limited to, the following:

(a) Diagnosis.

(b) Counseling on a continuing basis. CHAPTER 6. FINANCIAL PROVISIONS

38250. It is the intent of this division that by July 1, 1971, state funds previously allocated to other agencies for the provision of out-of-home prehospital, hospital and posthospital care be allocated, to the fullest extent feasible, to regional centers to contract with appropriate agencies for the provision of out-of-home placements.

In the event either the Governor or the Legislature should obtain federal approval to transfer programs for the mentally retarded from other state departments to the Department of Public Health under the provisions of Public Law 90-577 (Intergovernmental Cooperation Act of 1968), the State Controller shall, upon approval of the Director of Finance, transfer to the Department of Public Health such parts of the appropriation of the other departments that are related to mental retardation programs; provided further, that such transfer shall enable the state to make maximum utilization of available state and federal funds

It is the intent of this division that the regional center program be funded by the state on a regional basis using the maximum of federal funds available, and that all funds be transmitted through the department to each regional center.

38251. When appropriated by the Legislature, the secretary may receive and expend all funds made available by the federal government, the state, its political subdivisions, and other sources, and, within the limitation of the funds made available, shall act as an agent for the transmittal of such funds for services through the regional centers. The secretary may use any funds received under Article 2 (commencing with Section 249) of Chapter 2 of Part 1 of Division 1 of the Health and Safety Code for the purposes of this division.

38252. The secretary may accept and expend grants, gifts, and legacies of money and, with the consent of the Department of Finance, may accept, manage and expend grants, gifts and legacies of other property, in furtherance of the purposes of this division.

The secretary may enter into agreements with any person, agency, corporation, foundation, or other legal entity to carry out the purposes of this division

38253. The secretary, in the same manner and subject to the same conditions as other state agencies, shall submit a

program budget annually to the Department of Finance, including not only expenditures proposed to be made under this division, but also expenditures proposed to be made under any related program or by any other state agency, designed to provide services incidental to the functions to which this division relates. The secretary may require state departments to contract with it for services to carry out the provisions of this division.

Notwithstanding any other provision of law, authorized services to eligible persons, as defined in this division, provided by all state agencies, including, but not limited to, the Departments of Education, Mental Hygiene, Public Health, Rehabilitation and Social Welfare shall, to the fullest extent permitted by federal law, by contract or otherwise, be made available upon request of the director, and the approval of the secretary, to the department for services to eligible persons.

The secretary shall consult with the departments involved in developing the statewide plan and program budget, and shall seek the advice of the state board.

38254. The secretary shall adopt rules and regulations to carry out the provisions of this division and to prescribe standards of service which shall be satisfied and maintained as a condition to the payment of state funds by a regional center.

The secretary shall provide regional centers with current lists of approved facilities and services. Regional centers may not expend state funds for services which are not approved by the secretary, notwithstanding any other certification, licensing, or approval of the facility or service.

The secretary shall not adopt standards which are in conflict with those governing services under the jurisdiction of the State Superintendent of Public Instruction.

38255. The secretary shall establish rates of state payment for services purchased by regional centers for mentally retarded persons. An equitable system of rates shall be developed prior to July 1, 1971.

38256. The secretary shall coordinate all mental retardation services and related programs, conducted by state agencies, with the federal government and ensure that there is no duplication of such programs among state agencies and that all agreements, contracts, plans or programs conform to the provisions of this division. Any plan proposed to be submitted by any such agency to the federal government in relation to a mental retardation or related program shall first be submitted to the secretary for his review. The secretary may require state departments to contract with it for services to carry out the provisions of this division.

38257. After July 1, 1971, parents of children under the age of 18 who are receiving services purchased by the regional center may be required to contribute to the cost of services depending upon their ability to pay, but not to exceed the

cost of caring for a normal child at home, as determined by the secretary. Parental contributions shall be made only to the regional center and the method of determination of the amount of the contribution shall be the same, whether the child is placed in the state hospital or in a public or private community facility. In no event, however, shall parents be charged for diagnosis or counseling services received through the regional centers. Nothing in this section shall be construed to prevent parental contributions to regional centers prior to July 1, 1971.

38258. The secretary shall propose a schedule for parental fees for services received through the regional centers to be submitted to the Legislature no later than the fifth legislative day of the 1970 Regular Session of the Legislature.

In establishing the amount parents will contribute, the secretary shall take into account such factors as:

(a) Medical expenses incurred prior to regional center care;

(b) Whether the child is living at home;

(c) Parental contributions for medical expenses, clothing, incidentals, and other items considered necessary to the normal rearing of a child; and

(d) Transportation expenses incurred in visiting a child placed in a facility outside the region.

All parental contributions shall be utilized for the provision of additional direct services to the retarded.

38259. Counties shall pay to the regional centers, for each person receiving purchased out-of-home care through a regional center in a state hospital, such amount as established by the director, but not to exceed twenty dollars ($20) per month. Such amount shall be reduced by the amount paid to the regional center by the parent.

38260. State funds appropriated for the purposes of this division shall not be used to supplant city or county matching funds required under the Budget Act of 1969.

For purposes of this section, city or county matching funds required under the Budget Act of 1969 for services specified in Section 38106 which are provided under the Short-Doyle Act shall be deemed to be the amount of matching funds specified for such services in the city or county Short-Doyle plan as approved by the Director of Mental Hygiene for the 1969–70 fiscal year.

For the purposes of this section, the Secretary, with the approval of the Department of Finance, shall determine the amount of city or county matching funds with respect to each city or county.

38261. Any services specified in Section 38106 which are provided by cities or counties in accordance with the area plan approved by the secretary and not, as determined by the secretary with the approval of the Department of Finance, provided for in the Budget Act of 1969, including, but not limited

to, services under the Short-Doyle Act, shall be eligible for funding on the same basis as services provided for in this division.

CHAPTER 7. EVALUATION

38300. The secretary shall by January 1, 1973, make provision for an evaluation of all aspects of the program provided for by this division, including, but not limited to: the number, age and type of clients served; the kind of services provided; the effectiveness of the service; the equity of the fees charged to parents; the effectiveness and quality of state and area planning; and the range and availability of services.

SEC. 15. Section 6500 of the Welfare and Institutions Code is amended to read:

6500. As used in this code, "mentally retarded persons" means those persons who are so mentally retarded from infancy or before reaching maturity that they are incapable of managing themselves and their affairs independently, with ordinary prudence, or of being taught to do so, and who require supervision, control, and care, because they are a danger to themselves or others.

Wherever in this code or in any provision of statute heretofore or hereafter enacted the terms "feebleminded" and "feeblemindedness" are used, they shall be construed to refer to and mean "mentally retarded" and "mental retardation," respectively, as defined in this section All persons heretofore committed or admitted as feebleminded to any state hospital for the mentally retarded, or committed to the Department of Mental Hygiene for placement therein, shall be deemed to have been committed or admitted thereto as mentally retarded persons.

SEC. 16. Section 7511 of the Welfare and Institutions Code is amended to read:

7511. The portion of the cost of such care payable by the county for mentally retarded persons placed in state hospitals prior to July 1, 1971, shall be determined by the Department of Mental Hygiene from time to time, subject to the approval of the Department of Finance, but in no case shall it exceed the rate of twenty dollars ($20) per month.

SEC. 17. Section 15 of this act shall become operative on July 1, 1971.

(b) The full address of the place where the business of the employment agency is to be conducted.

(c) The business or occupation engaged in by the applicant for at least two years immediately preceding the date of application.

(d) The proposed name of the agency. The bureau shall reject any proposed name which is the same or similar to that of a licensed employment agency. If, however, the applicant is a member of an employment agency system having other enfranchised members, the bureau shall accept a proposed name which utilizes the name of the system together with a designation not already licensed to another agency which the bureau determines will reasonably serve to identify the applicant. In such case the applicant shall have the right to continue to use such name only so long as job positions advertised by it are made available to persons inquiring about such job positions at offices of other members of the system.

Notwithstanding the provisions of this subdivision, the bureau shall approve as the proposed name, except where a different name is applied for, the name of an applicant as it appears on a valid, current employment agency license issued on or before June 30, 1967. When such name is used on any sign, advertising, or promotional material, the entire name as shown on the license shall be used.

(e) Such questions and information as will assure the bureau of the applicant's eligibility to hold license, as established in Section 9944.

(f) The names and addresses of all persons, except bona fide employees on commission or stated salaries, financially interested, either as partners, associates or profit sharers or anyone who receives any part of the income directly, in the operation of the agency in question, together with the amount of their respective interests.

(g) The name and address of the candidate, or candidates, for examination. The candidate for examination shall be one of the persons named in subdivision (a) above. In the event of partnerships or corporations, each partner, or officer, may be a candidate for examination.

(h) Such other information as the bureau may require. The application shall be accompanied by affidavits of at least two reputable residents of the city or county in which the

employment agency is to be conducted that the applicant is a person of good moral character.

It is the further intent of the Legislature that these programs in intensive instruction in reading and mathematics be

operated by school districts directly, or by school districts through contract for partial or complete operation with any competent public or private agency, foundation or corporation. It is also the intent of the Legislature that authority be granted to permit the waiver of any provision of the Education Code by the program approving agency, if such is necessary for the development of model demonstration programs in the intensive instruction in reading and mathematics.

SEC. 3. Section 6491 of the Education Code is amended to read:

Projects shall be approved only if it can be shown that, if successful, the cost effectiveness of the project will be such as to be adaptable within the budgets of other similar school districts throughout the state.

Projects shall be continually reviewed regarding their effectiveness in improving the achievement levels of pupils in reading and mathematics. Projects which are least cost effective shall be terminated and shall be replaced with ones of proven effectiveness or by new projects which hold promise of increased effectiveness.

SEC. 5. Section 6497 of the Education Code is amended to read:

6497. No later than the fifth legislative day of each regular session of the Legislature, the Superintendent of Public Instruction, upon recommendation of the Director of Compensatory Education, with approval of the State Board of Education, shall submit a report to the Legislature on the implementation and evaluation of demonstration programs under this article, including the achievement of pupils, an analysis of the costs of each project detailed in terms of the costs of design, implementation and continuing operational expenses, including the degree of cost effectiveness of each project. The people of the State of California do enact as follows:

SECTION 1. Section 8170 of the Government Code is amended to read:

8170. Following the adoption of the official master plan by the Legislature, the commission shall report to that body at each of its sessions. The report shall list the state building

construction projects initiated or completed since the last report, shall set forth the commission's appraisal of the degree to which such projects conform to the official master plan and shall incorporate the report made to it by the Director of General Services relating to his acquisition and improvement of real property in the City of Sacramento. The commission may include in its report such recommendations for revisions of the plan as from time to time become necessary or desirable for the orderly development of the Capitol area.

SEC. 2. Section 2 of Chapter 1242 of the Statutes of 1963 is amended to read:

Sec. 2. There is hereby appropriated the sum of thirteen million dollars ($13 000,000), or so much thereof as may be necessary, from the School Land Fund for the acquisition and improvement of real property in the City of Sacramento and within the boundaries of the Capitol Area Plan as approved and adopted by the Legislature for use as parking lots and as sites for state buildings and other improvements consistent with the Capitol Area Plan. The real property shall be acquired under the provisions of the Property Acquisition Law except that the Department of General Services shall have jurisdiction and control of the real property free of any trust or other obligations. Improvements constructed under this section shall be limited to the construction of parking facilities and the repair and alteration of improvements existing on the land at the time of purchase by the state.

SEC. 3. Section 4 of Chapter 1242 of the Statutes of 1963 is amended to read:

Sec. 4. The Director of General Services may lease all or any portion of the real property on such terms and conditions as he may determine and shall maintain, improve, and care for such property in order to secure rent therefrom. The director may sell, remove, or demolish buildings or other structures on the property when he deems it desirable to do so. If the director leases all or any portion of the real property to any private person for other than parking, twenty-four percent (24%) of the money received as rental under any such lease shall be deposited in the "State Properties Rental Fund" created by Section 4.5. Except for any money required to be deposited in the "State Properties Rental Fund," all moneys collected pursuant to this section shall be deposited in the General Fund as provided by Section 15863 of the Government Code and all moneys now or hereafter so deposited shall be available for the purposes set forth in Section 15863 and for the purposes set forth in Section 5 of this act. Upon the effective date of the amendment to this section made at the 1969 Regular Session, any unencumbered balance available under the provisions of Section 15863, after the above deposit is made, which is in excess of one hundred thousand dollars ($100,000) shall be transferred by the Controller on order of the Director of General Services to the unappropriated balance of the General

Fund. A similar transfer shall be made at the end of each fiscal year. The Director of General Services shall report expenditures for the past fiscal year, estimate expenditures for the current fiscal year, and project proposed expenditures for the budget year in the budget document each fiscal year.

Notwithstanding anything contained herein the director may designate portions of the real property as parking facilities under the provisions of Government Code Section 14678, in which case revenues from parking shall be deposited as therein provided.

SEC. 4. Section 4.5 of Chapter 1242 of the Statutes of 1963 is amended to read:

Sec. 4.5. There is hereby created in the State Treasury the "State Properties Rental Fund."

The Director of General Services shall, not later than the first day of November next following the close of any fiscal year after the effective date of this act, pay the rents deposited in the "State Properties Rental Fund" to the County of Sacramento. The director shall notify the county of the rental and location of each piece of rental property for which rents are deposited in the fund.

The county shall distribute any payment received by it pursuant to this section to itself, to each revenue district for which the county assesses and collects real property taxes or assessments, and to every other taxing agency within the county in which the property is situated. The amount distributable to the county and each such revenue district or other taxing agency shall be proportionate to the ratio which the amount of the taxes and assessments of each on similar real property similarly situated within that part of the county embracing the smallest in area of the revenue districts or other taxing agencies other than the county, levied for the fiscal year next preceding, bears to the combined amount of the taxes and assessments of all such districts and agencies, including the county, on such property levied for that year. The county auditor shall determine and certify the amounts distributable to the board of supervisors, which shall thereupon order the making of the distribution.

Any money distributed pursuant to this section to the county, or revenue district or other taxing agency shall be deposited to the credit of the same fund as any taxes or assessments on any taxable similar real property similarly situated.

Where the county receives a payment pursuant to this section in an amount of twenty-five dollars ($25) or less in respect to any parcel of leased property, all of such payment shall be distributed to the county for deposit in the county general fund.

As used in this section, the terms "taxing agency" and "revenue district" have the same meanings given them in the Revenue and Taxation Code.

The money received by the respective jurisdictions under this section may be expended by them for any proper state purpose not prohibited by the State Constitution.

SEC. 5. Section 5 of Chapter 1242 of the Statutes of 1963 is amended to read:

Sec. 5. All costs or expenses, including administrative costs, incurred in maintaining, improving and caring for such real property or in demolishing, selling, or removing improvements therefrom, may be reimbursed or paid from moneys available under the provisions of Section 15863 of the Government Code.

SEC. 6. Section 7 of Chapter 1242 of the Statutes of 1963 is amended to read:

Sec. 7. The Director of General Services shall submit an annual report to the Capitol Building and Planning Commission which shall fully report all the acquisitions, prices paid, improvements made and revenues received on account of the activities authorized by this act. The director's report shall be made a part of the annual report submitted to the Legislature by the commission.

Payments received by a public entity shall be deposited in its special aviation fund.

CHAPTER 1604

An act to add Article 4 (commencing with Section 21680) to Chapter 4 of Part 1 of Division 9 of, and to repeal Article 4 (commencing with Section 21680) of Chapter 4 of Part 1

[Approved by Governor September 4, 1969. Filed with Secretary of State September 6, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Article 4 (commencing with Section 21680) of Chapter 4 of Part 1 of Division 9 of the Public Utilities Code is repealed.

SEC. 2. Article 4 (commencing with Section 21680) is added to Chapter 4 of Part 1 of Division 9 of the Public Utilities Code, to read:

Article 4. Airport Assistance Revolving Fund

21680. The Airport Assistance Revolving Fund is hereby continued in the State Treasury. The moneys in the fund are continuously appropriated for expenditure by the board and the department as provided in this article.

21681. For the purposes of this article:

(a) "Own and operate" means that the public entity must own property in fee simple or by a long-term lease of a minimum of 20 years, unless otherwise approved by the department, and must maintain dominion and control of the property. Operations of the airport will be for and on behalf of the public entity. All leases to the public entity of property must be approved by the department. A lease of the property to an agent or agency other than the public entity does not meet the criteria for participation in airport assistance funds.

(b) "Matching funds" means new moneys that must be provided each year by the public entity. Previous fund balances, previous matching funds, and funds received from state and federal agencies shall not constitute matching funds.

(c) "General aviation" means all aviation with the exception of air carrier and military aviation.

(d) "Public agency" means any city, county, airport district, airport authority, port district, port authority, public district, public authority, political subdivision or public corporation.

(e) "Public entity" means public agencies and the University of California.

(f) "Airport and aviation purposes" means expenditures of a capital improvement nature for any of the following purposes:

(1) Land acquisition for development and improvement of general aviation aircraft landing facilities.

(2) Grading and drainage necessary for the construction or reconstruction of runways or taxiways.

(3) Construction or reconstruction of runways or taxiways.

(4) Acquisition of "runway clear zones" as defined in current regulations of the Federal Aviation Administration.

(5) Acquisition of easements through, or other interests in, airspace as may be reasonably required for safeguarding aircraft operations in the vicinity of an aircraft landing facility.

(6) Removal of natural obstructions from runway clear zones.

(7) Original installation of "segmented circle airport marker systems" as defined in current regulations of the Federal Aviation Administration.

(8) Original installation of runway, taxiway, boundary, or obstruction lights, together with directly related electrical equipment.

(9) Original erection of minimum security fencing around the perimeter of an aircraft landing facility.

(10) Grading and drainage necessary to provide for parking of transient general aviation aircraft.

(11) Servicing of revenue or general obligation bonds issued to finance capital improvements for airport and aviation purposes.

(12) Such other capital improvements as may from time to time be designated in rules and regulations promulgated by the department.

Expenditures which cannot be clearly identified as capital improvements must be submitted to the department for consideration and approval.

(g) "Operation and maintenance" means expenditures for wages or salaries, utilities, service vehicles, and all other noncapital expenditures which are included in insurance, professional services, supplies, construction equipment, upkeep and landscaping, and such other items of expenditure which may be designated as "operation and maintenance" in rules and regulations promulgated by the department.

21682. (a) The department shall, subject to the provisions of Section 21684, pay from the fund to each public agency owning and operating an airport or airports under a valid permit issued by the department the sum of two thousand five hundred dollars ($2,500) annually for each such airport, to be expended solely for airport and aviation purposes.

(b) The department shall, subject to the provisions of Section 21684, pay from the fund to the University of California the sum of two thousand five hundred dollars ($2,500) annually for each airport used by the general public and owned and operated by the university under a valid permit issued by the department, to be expended solely for the airport and for aviation purposes related to such airport.

(c) If, in any year, there is insufficient money in the fund to make the payments specified in subdivisions (a) and (b),

the department shall, subject to the provisions of Section 21684, pay to each such public entity an amount which is equal to the total amount of money in the fund multiplied by a percentage equivalent to the proportion which the airport or airports of the public entity for which payment is required to be made pursuant to subdivisions (a) and (b) bear to the total number of airports for which payment is required to be made pursuant to subdivisions (a) and (b).

(d) No moneys paid under this section shall be expended for operation and maintenance.

(e) No payment shall be made under this section to any public entity for any airport on which general or commercial aviation activities are substantially restricted if the airport is licensed to conduct such activities by the department. The department shall determine whether or not general or commercial aviation activities are restricted.

21683. Any balance remaining in the fund after the payments made under Section 21682 shall be used at the discretion of the board for airport and aviation purposes, subject to the provisions of Section 21684.

Any public entity may apply to the department prior to January 31 in each year for the allocation of funds for the acquisition or development of airports. The board may, pursuant to rules and regulations promulgated by the department, make an allocation to such public entity if it determines that the proposed acquisition or development is feasible and in accordance with the policies and standards established by the department. The department shall make recommendations to the board on all applications. Such allocations will be represented as subventions in the department budget in accordance with Section 21206.

Payments made to public entities from the Airport Assistance Revolving Fund, and matching funds, must be expended for airport and aviation purposes upon the airport for which funds are requested; provided, however, that the department may grant a waiver in extenuating circumstances. No moneys paid under this section shall be expended for operation and maintenance. No payment shall be made under this section to any public entity for any airport on which general or commercial aviation activities are substantially restricted if the airport is licensed to conduct such activities by the department. The department shall determine whether or not general or commercial aviation activities are restricted.

21684. (a) No payment shall be made to a public agency pursuant to this article unless the public agency has established a special aviation fund in which all payments received by a public agency under this article shall be deposited for expenditure solely for airport and aviation purposes. No payment shall be made to a public agency pursuant to Section 21682 or 21683 unless the public agency deposits in its special aviation fund each year, for expenditures solely for

airport and aviation purposes, a sum at least equal to the amount to be paid by the board or the department pursuant to these sections. Notwithstanding the provisions of this subdivision inasmuch as they require matching funds, the department shall pay a sum of two thousand five hundred dollars ($2,500) annually to a county with a population of under 1,000, as determined by the last federal decennial census, for the purpose of constructing and maintaining an airport.

(b) No payment shall be made for any airport to the University of California pursuant to this article unless the university has established a special aviation fund in which all payments received by the university under this article shall be deposited for expenditure solely for airport and aviation purposes. No payment shall be made for any airport to the University of California pursuant to Section 21682 or 21683 unless the university deposits in its special aviation fund each year, for expenditure solely for airport and aviation purposes, a sum from nonstate or nonfederal funds at least equal to the amount to be paid by the board or the department pursuant to these sections, or unless a city located within 10 miles of the airport or the county within which the airport is located pays to the university a sum at least equal to the amount to be paid by the board or the department pursuant to these sections; provided, however, that any such sums deposited by the university or paid by such city or county may be considered jointly as meeting the requirements of this section. The payments received from a city or county pursuant to these sections are to be expended solely for the airport and for aviation purposes related to such airport. All payments received by the university shall be deposited in its special aviation fund.

(c) Allocated and matching funds under this article may be accrued for a period of not more than three years. Extension of time for accrual of these funds for major projects must be obtained from the department.

21685. Any public agency may pay any part of the money in its special aviation fund to a state college or branch of the University of California located within its boundaries to be expended for the same purposes as the public agency may expend such money. Any money paid to a state college or branch of the University of California shall be expended within the public agency paying the money.

21686. It shall be the duty of the State Controller to make such audit or audits of the books and records of public entities receiving payments or allocations under this article as he may deem necessary from time to time for the purpose of determining that the money received by such public entities as payments or allocations hereunder has been expended for the purposes and under the conditions authorized by this article.

21687. Whenever any airport, for which payments have been made from the Airport Assistance Revolving Fund,

ceases to be used as an airport open to the general public for a period in excess of one year, the public entity to which such payments were made shall pay to the state, which payments shall be deposited in the Airport Assistance Revolving Fund, an amount computed by the State Controller. The amount shall equal the total of all payments made for such airport from the Airport Assistance Revolving Fund during the preceding 20 years less 5 percent of the amount of a particular payment multiplied by the number of years since the payment was made. The provisions of this section shall not be applicable to an airport that is replaced by a comparable facility, as determined by the department, within a period of one year.

21688. (a) Effective July 1, 1967, no payments shall be made from the Airport Assistance Revolving Fund for expenditure on any airport or for the acquisition or development of any airport if the department determines that the air space control and height restrictions in any airport hazard area of the airport are inadequate to provide reasonable assurance that the landing and taking off of aircraft at the airport will be conducted without obstruction or will be otherwise free from hazards.

The airspace control provisions shall not be considered adequate unless as a minimum they comply with the requirements of Part 77 of the Federal Aviation Regulations of the Federal Aviation Administration, Department of Transportation, or any corresponding rules or regulations of the Federal Aviation Administration are met.

(b) This section shall not prevent or prohibit the department from assisting any city, county or airport district in planning airport development or in planning the zoning needs around an airport.

SEC. 3. Section 21680 of the Public Utilities Code, as proposed by Section 2 of this act, is amended to read:

21680. The Airport Assistance Revolving Fund is hereby continued in existence as the Airport Assistance Revolving Account in the State Transportation Fund. The moneys deposited to the credit of the account are continuously appropriated for expenditure by the board and the department as provided in this article.

Any reference in any law or regulation to the Airport Assistance Revolving Fund or to the Airport Assistance Fund shall be deemed to refer to the Airport Assistance Revolving Account in the State Transportation Fund. As used in this article, "fund" shall be deemed to refer to the Airport Assistance Revolving Account in the Transportation Fund.

SEC. 4. It is the intent of the Legislature, if amendments to Section 21680 of the Public Utilities Code proposed by A.B. 461 are enacted, that such amendments be given effect and incorporated in Section 21680 in the form set forth in Section 3 of this act. Therefore, in the event A.B. 461 is enacted and

amends Section 21680, Section 3 of this act shall become operative at the same time that Section 21680 as amended by A.B. 461 becomes operative, and at that time, Section 21680 of the Public Utilities Code as proposed by Section 2 of this act is repealed.

[Approved by Governor September 4, 1969. Filed with Secretary of State September 6, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Section 23754 of the Education Code is amended to read:

23754. Except as otherwise specially provided, an admission fee and rate of tuition fixed by the trustees shall be required of each nonresident student. The rate of tuition to be paid by each nonresident student shall not be less than three hundred sixty dollars ($360) per year, except that the rate of tuition to be paid by each nonresident student who is a citizen and resident of a foreign country shall be two hundred fifty-five dollars ($255) per year through the 1969–70 academic year. Commencing with the 1970–71 academic year, the rate of tuition paid by each nonresident student who is a citizen and resident of a foreign country, except as otherwise specifically provided, shall be fixed by the trustees and shall not be less than three hundred sixty dollars ($360) per year. The tuition fee for a nonresident student who is a citizen and resident of a foreign country and who was in attendance at a state college during the fall term of 1969, may be waived by the trustees if they determine that the increased tuition fee will cause a severe financial hardship on the student. Such waivers may be granted through the spring term of 1973 or until the student receives a baccalureate degree, whichever occurs first.

No admission fee or tuition fee shall be required of any student who is a citizen and resident of a foreign country and who attends a state college under an agreement entered into by a governmental agency formed under the Constitution or laws of this state or a nonprofit corporation or organization so formed, with a similar agency, or corporation or association, domiciled in and organized under the laws of a foreign country, where a principal purpose of the agreement is to encourage the exchange of students with the view of enhancing international good will and understanding. The trustees shall, in each instance, determine whether the conditions for such exemption from fees exist and may prescribe appropriate procedures to be complied with in obtaining the exemption.

No admission fee or tuition fee shall be required of any nonresident student who is a full-time employee of the California State Colleges or who is the child or spouse of an employee of the California State Colleges.

SEC. 2. Section 23754.2 is added to the Education Code, to read:

23754.2. The trustees have the power, on the basis of demonstrated financial need and scholastic achievement, to waive entirely, or to reduce below the rate, or the minimum rate, fixed by Section 23754, the tuition fee of a nonresident student who is a citizen and resident of a foreign country who is an undergraduate student of exceptional scholastic ability and prior scholastic achievement who is enrolled in a course of study of no less than 10 semester units.

The number of reductions and waivers granted by the trustees under this section shall at no time exceed 7½ percent of the nonresident undergraduate students who are citizens and residents of a foreign country, then enrolled in the California State Colleges.

The provisions of this section shall become operative commencing with the 1970–71 academic year.

CHAPTER 1606

An act to amend Sections 17053, 17461, 17462, 17535, 18211, 23737, 24307, 24541, 24553, 24562 and 24563 of the Revenue and Taxation Code, relating to taxation.

[Approved by Governor September 4, 1969. Filed with Secretary of State September 6, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Section 17053 of the Revenue and Taxation Code is amended to read:

17053. (a) In the case of an individual who has received earned income before the beginning of the taxable year, there shall be allowed as a credit against the tax imposed by this part for the taxable year an amount equal to the amount received by such individual as retirement income (as defined in subdivision (c) and as limited by subdivision (d)), multiplied by the rate provided in Section 17041 for the first two thousand dollars ($2,000) of taxable income; but the credit provided by this section shall not exceed the tax imposed under this part reduced by the credit allowable under Chapter 12 (relating to taxes paid to other states) and the credit allowable under Section 17054 (relating to credits for personal exemptions).

(b) For purposes of subdivision (a), an individual shall be considered to have received earned income if he has received, in each of any 10 calendar years before the taxable year,

earned income, as defined in subdivision (g), in excess of six hundred dollars ($600). A widow or widower whose spouse had received such earned income shall be considered to have received earned income.

(c) For purposes of subdivision (a), the term "retirement income" means—

(1) In the case of an individual who has attained the age of 65 before the close of the taxable year, income from—

(A) Pensions and annuities,

(B) Interest,

(C) Rents, and

(D) Dividends, or

(2) In the case of an individual who has not attained the age of 65 before the close of the taxable year, income from pensions and annuities under a public retirement system (as defined in subdivision (f)), to the extent included in gross income without reference to this section, but only to the extent such income does not represent compensation for personal services rendered during the taxable year.

(d) For purposes of subdivision (a), the amount of retirement income shall not exceed one thousand five hundred twenty-four dollars ($1,524) less—

(1) In the case of any individual, any amount received by the individual as a pension or annuity—

(A) Under Title II of the Social Security Act,

(B) Under the Railroad Retirement Acts of 1935 or 1937, or

(C) Otherwise excluded from gross income, and

(2) In the case of any individual who has not attained the age of 72 before the close of the taxable year—

(A) If such individual has not attained age 62 before the close of the taxable year, any amount of earned income (as defined in subdivision (g)) in excess of nine hundred dollars ($900) received by the individual in the taxable year—

(B) If such individual has attained age 62 before the close of the taxable year, the sum of (i) one-half the amount of earned income received by such individual in the taxable year in excess of one thousand two hundred dollars ($1,200) but not in excess of one thousand seven hundred dollars ($1,700), and (ii) the amount of earned income so received in excess of one thousand seven hundred dollars ($1,700).

(e) Subdivision (d)(1) shall not apply to any amount excluded from gross income under Sections 17101 to 17112, inclusive (relating to annuities), 17131 to 17135, inclusive (relating to life insurance proceeds), 17138 (relating to compensation for injuries or sickness), 17139 (relating to amounts received under accident and health plans), 17503 to 17507, inclusive, (relating to taxability of beneficiary of employees' trust), or 17511 and 17512 (relating to taxation of employee annuities).

(f) For purposes of subdivision (c)(2), the term "public retirement system" means a pension, annuity, retirement, or

similar fund or system established by the United States, a state, a territory, a possession of the United States, any political subdivision of any of the foregoing, or the District of Columbia.

(g) For purposes of subdivision (b) and (d)(2), the term "earned income" has the meaning assigned to such term in Section 911(b) of the Internal Revenue Code of 1954, except that such term does not include any amount received as a pension or annuity.

(h) (1) A husband and wife who make a joint return for the taxable year and both of whom have attained the age of 65 before the close of the taxable year may elect (at such time and in such manner as the Franchise Tax Board by regulations prescribes) to determine the amount of the credit allowed by subdivision (a) by applying the provisions of paragraph (2).

(2) If an election is made under paragraph (1) for the taxable year, for purposes of subdivision (a)—

(A) If either spouse is an individual who has received earned income within the meaning of subdivision (b), the other spouse shall be considered to be an individual who has received earned income within the meaning of such subdivision; and

(B) Subdivision (d) shall be considered as providing that the amount of the combined retirement income of both spouses shall not exceed two thousand two hundred eighty-six dollars ($2,286), less the sum of the amounts specified in paragraphs (1) and (2) of subdivision (d) for each spouse.

(i) No credit shall be allowed under subdivision (a) to any nonresident.

SEC. 2. Section 17461 of the Revenue and Taxation Code is amended to read:

17461. (a) For the purposes of Article 1 (commencing with Section 17321) to Article 7 (commencing with Section 17431), inclusive, of this chapter, the term "reorganization" means—

(1) A statutory merger or consolidation;

(2) The acquisition by one corporation, in exchange solely for all or a part of its voting stock (or in exchange solely for all or a part of the voting stock of a corporation which is in control of the acquiring corporation), of stock of another corporation if, immediately after the acquisition, the acquiring corporation has control of such other corporation (whether or not such acquiring corporation had control immediately before the acquisition);

(3) The acquisition by one corporation, in exchange solely for all or a part of its voting stock (or in exchange solely for all or a part of the voting stock of a corporation which is in control of the acquiring corporation), of substantially all of the properties of another corporation, but in determining whether the exchange is solely for stock the assumption by the acquiring corporation of a liability of the other, or the fact that property acquired is subject to a liability, shall be disregarded;

(4) A transfer by a corporation of all or a part of its assets to another corporation if immediately after the transfer the transferor, or one or more of its shareholders (including persons who were shareholders immediately before the transfer), or any combination thereof, is in control of the corporation to which the assets are transferred; but only if, in pursuance of the plan, stock or securities of the corporation to which the assets are transferred are distributed in a transaction which qualifies under Sections 17432 to 17439, inclusive;

(5) A recapitalization; or

(6) A mere change in identity, form, or place of organization, however effected.

(b) (1) If a transaction is described in both paragraph (3) and paragraph (4) of subdivision (a), then, for purposes of this chapter, such transactions shall be treated as described only in paragraph (4) of subdivision (a).

(2) If—

(A) One corporation acquires substantially all of the properties of another corporation,

(B) The acquisition would qualify under paragraph (3) of subdivision (a) but for the fact that the acquiring corporation exchanges money or other property in addition to voting stock, and

(C) The acquiring corporation acquires, solely for voting stock described in paragraph (3) of subdivision (a), property of the other corporation having a fair market value which is at least 80 percent of the fair market value of all of the property of the other corporation,

then such acquisition shall (subject to paragraph (1) of this subdivision) be treated as qualifying under paragraph (3) of subdivision (a). Solely for the purpose of determining whether subparagraph (C) of the preceding sentence applies, the amount of any liability assumed by the acquiring corporation, and the amount of any liability to which any property acquired by the acquiring corporation is subject, shall be treated as money paid for the property.

(3) A transaction otherwise qualifying under paragraph (1), paragraph (2) or paragraph (3) of subdivision (a) shall not be disqualified by reason of the fact that part or all of the assets which were acquired in the transaction are transferred to a corporation controlled by the corporation acquiring such assets.

(4) The acquisition by one corporation, in exchange for stock of a corporation (referred to in this paragraph as "controlling corporation") which is in control of the acquiring corporation, of substantially all of the properties of another corporation which in the transaction is merged into the acquiring corporation shall not disqualify a transaction under paragraph (1) of subdivision (a), if—

(A) Such transaction would have qualified under paragraph (1) of subdivision (a) if the merger had been into the controlling corporation, and

(B) No stock of the acquiring corporation is used in the transaction.

SEC. 3. Section 17462 of the Revenue and Taxation Code is amended to read:

17462. For purposes of this article, the term "a party to a reorganization" includes—

(a) A corporation resulting from a reorganization, and

(b) Both corporations, in the case of a reorganization resulting from the acquisition by one corporation of stock or properties of another.

In the case of a reorganization qualifying under paragraph (2) or paragraph (3) of subdivision (a) of Section 17461, if the stock exchanged for the stock or properties is stock of a corporation which is in control of the acquiring corporation, the term "a party to reorganization" includes the corporation so controlling the acquiring corporation. In the case of a reorganization qualifying under paragraph (1), paragraph (2) or paragraph (3) of subdivision (a) of Section 17461 by reason of paragraph (3) of subdivision (b) of Section 17461, the term "a party to a reorganization" includes the corporation controlling the corporation to which the acquired assets or stock are transferred. In the case of a reorganization qualifying under paragraph (1) of subdivision (a) by reason of paragraph (4) of subdivision (b) of Section 17461, the term "a party to a reorganization" includes the controlling corporation referred to in such subdivision (b)(4).

SEC. 4. Section 17535 of the Revenue and Taxation Code is amended to read:

17535. (a) For purposes of this article, the term "issuing or assuming a stock option in a transaction to which Section 17535(a) applies" means a substitution of a new option for the old option, or an assumption of the old option, by an employer corporation, or a parent or subsidiary of such corporation, by reason of a corporate merger, consolidation, acquisition of property or stock, separation, reorganization, or liquidation, if—

(1) The excess of the aggregate fair market value of the shares subject to the option immediately after the substitution or assumption over the aggregate option price of such shares is not more than the excess of the aggregate fair market value of all shares subject to the option immediately before such substitution or assumption over the aggregate option price of such shares, and

(2) The new option or the assumption of the old option does not give the employee additional benefits which he did not have under the old option.

For purposes of this subdivision, the parent-subsidiary relationship shall be determined at the time of any such transaction under the subdivision.

(b) For purposes of this article, if stock is received by an individual in a distribution to which Sections 17335, 17336.

17432 to 17439 inclusive, or 18102 (or so much of Section 18081 as relates to Section 18102) apply, and such distribution was made with respect to stock transferred to him upon his exercise of the option, such stock shall be considered as having been transferred to him on his exercise of such option. A similar rule shall be applied in the case of a series of such distributions.

(c) (1) Except as provided in paragraph (2), for purposes of this article, the term "disposition" includes a sale, exchange, gift, or a transfer of legal title, but does not include—

(A) A transfer from a decedent to an estate or a transfer by bequest or inheritance;

(B) An exchange to Sections 17432 to 17439 inclusive, or 18102 (or so much of Section 18081 as relates to Section 18102) apply; or

(C) A mere pledge or hypothecation.

(2) The acquisition of a share of stock in the name of the employee and another jointly with the right of survivorship or a subsequent transfer of a share of stock into such joint ownership shall not be deemed a disposition, but a termination of such joint tenancy (except to the extent such employee acquires ownership of such stock) shall be treated as a disposition by him occurring at the time such joint tenancy is terminated.

(d) For purposes of this article, in applying the percentage limitations of Sections 17532(b)(7), 17533(b)(3), and 17534(b)(3)—

(1) The individual with respect to whom such limitation is being determined shall be considered as owning the stock owned, directly or indirectly, by or for his brothers and sisters (whether by the whole or half blood), spouse, ancestors, and lineal descendants; and

(2) Stock owned, directly or indirectly, by or for a corporation, partnership, estate, or trust, shall be considered as being owned proportionately by or for its shareholders, partners, or beneficiaries.

(e) For purposes of this article, the term "parent corporation" means any corporation (other than the employer corporation) in an unbroken chain of corporations ending with the employer corporation if, at the time of the granting of the option, each of the corporations other than the employer corporation owns stock possessing 50 percent or more of the total combined voting power of all classes of stock in one of the other corporations in such chain.

(f) For purposes of this article, the term "subsidiary corporation" means any corporation (other than the employer corporation) in an unbroken chain of corporations beginning with the employer corporation if, at the time of the granting of the option, each of the corporations other than the last corporation in the unbroken chain owns stock possessing 50

percent or more of the total combined voting power of all classes of stock in one of the other corporations in such chain.

(g) In applying subdivisions (e) and (f) for purposes of Sections 17532(a) (2), 17533(a) (2), and 17534(a) (2), there shall be substituted for the term "employer corporation" wherever it appears in subdivisions (e) and (f) the term "grantor corporation," or the term "corporation issuing or assuming a stock option in a transaction to which Section 17535(a) applies," as the case may be.

(h) (1) For purposes of this article, if the terms of any option to purchase stock are modified, extended, or renewed, such modification, extension, or renewal shall be considered as the granting of a new option.

(2) (A) In the case of the transfer of stock pursuant to the exercise of an option to which Section 17533 or 17534 applies and which has been so modified, extended, or renewed, then, except as provided in subparagraph (B), the fair market value of such stock at the time of the granting of such option shall be considered as whichever of the following is the highest:

(i) The fair market value of such stock on the date of the original granting of the option,

(ii) The fair market value of such stock on the date of the making of such modification, extension, or renewal, or

(iii) The fair market value of such stock at the time of the making of any intervening modification, extension, or renewal.

(B) Subparagraph (A) shall not apply with respect to a modification, extension, or renewal of a restricted stock option before January 1, 1964 (or after December 31, 1963, if made pursuant to a binding written contract entered into before January 1, 1964), if the aggregate of the monthly average fair market values of the stock subject to the option for the 12 consecutive calendar months before the date of the modification, extension, or renewal, divided by 12, is an amount less than 80 percent of the fair market value of such stock on the date of the original granting of the option or the date of the making of any intervening modification, extension, or renewal, whichever is the highest.

(3) The term "modification" means any change in the terms of the option which gives the employee additional benefits under the option, but such term shall not include a change in the terms of the option—

(A) Attributable to the issuance or assumption of an option under subdivision (a);

(B) To permit the option to qualify under Sections 17532 (b)(6), 17533(b)(9), and 17534(b)(2); or

(C) In the case of an option not immediately exercisable in full, to accelerate the time at which the option may be exercised.

If a restricted stock option is exercisable after the expiration of 10 years from the date such option is granted, subparagraph (B) shall not apply unless the terms of the option are also

changed to make it not exercisable after the expiration of such period.

(i) For purposes of this article, if the grant of an option is subject to approval by stockholders, the date of grant of the option shall be determined as if the option had not been subject to such approval.

SEC. 5. Section 18211 of the Revenue and Taxation Code is amended to read:

18211. (a) (1) Except as otherwise provided in this section, if Section 18211 property is disposed of during a taxable year beginning after December 31, 1962, the amount by which the lower of—

(A) The recomputed basis of the property, or

(B) (i) In the case of a sale, exchange, or involuntary conversion, the amount realized, or

(ii) In the case of any other disposition, the fair market value of such property,

exceeds the adjusted basis of such property shall be treated as gain from the sale or exchange of property which is neither a capital asset nor property described in Sections 18181 and 18182. Such gain shall be recognized notwithstanding any other provision of this part.

(2) For purposes of this section, the term 'recomputed basis' means, with respect to any property, its adjusted basis recomputed by adding thereto all adjustments, attributable to periods after December 31, 1961, reflected in such adjusted basis on account of deductions (whether in respect of the same or other property) allowed or allowable to the taxpayer or to any other person for depreciation, or for amortization under Section 17212. For purposes of the preceding sentence, if the taxpayer can establish by adequate records or other sufficient evidence that the amount allowed for depreciation, or for amortization under Section 17212, for any period was less than the amount allowable, the amount added for such period shall be the amount allowed.

(3) For purposes of this section, the term 'Section 18211 property' means any property (other than livestock) which is or has been property of a character subject to the allowance for depreciation provided in Sections 17208 to 17211.5, inclusive, and is either—

(A) Personal property, or

(B) Other property (not including a building or its structural components) but only if such other property is tangible and has an adjusted basis in which there are reflected adjustments described in paragraph (2) for a period in which such property (or other property)—

(i) Was used as an integral part of manufacturing, production, or extraction or of furnishing transportation, communications, electrical energy, gas, water, or sewage disposal services, or

(ii) Constituted research or storage facilities used in connection with any of the activities referred to in clause (i).

(b) (1) Subdivision (a) shall not apply to a disposition by gift.

(2) Except as provided in Sections 17831 to 17837, inclusive, (relating to income in respect of a decedent), subdivision (a) shall not apply to a transfer at death.

(3) If the basis of property in the hands of a transferee is determined by reference to its basis in the hands of the transferor by reason of the application of Section 17431, 17481, 17881, 17891, or Section 24502, 24521, or 24551 of the Bank and Corporation Tax Law, then the amount of gain taken into account by the transferor under subdivision (a)(1) shall not exceed the amount of gain recognized to the transferor on the transfer of such property (determined without regard to this section). This paragraph shall not apply to a disposition to an organization which is exempt from the tax imposed by this part.

(4) If property is disposed of and gain (determined without regard to this section) is not recognized in whole or in part under Section 18081 or Sections 18082 to 18090.2, inclusive, then the amount of gain taken into account by the transferor under subdivision (a)(1) shall not exceed the sum of—

(A) The amount of gain recognized on such disposition (determined without regard to this section), plus

(B) The fair market value of property acquired which is not Section 18211 property and which is not taken into account under subparagraph (A).

(5) Under regulations prescribed by the Franchise Tax Board, rules consistent with paragraphs (3) and (4) of this subdivision shall apply in the case of transactions described in Section 18121 (relating to gain from sale or exchange to effectuate policies of FCC) or Sections 18131 to 18134, inclusive, (relating to exchanges in obedience to SEC orders).

(6) (A) For purposes of this section, the basis of Section 18211 property distributed by a partnership to a partner shall be deemed to be determined by reference to the adjusted basis of such property to the partnership.

(B) In the case of any property described in subparagraph (A), for purposes of computing the recomputed basis of such property the amount of the adjustments added back for periods before the distribution by the partnership shall be—

(i) The amount of the gain to which subdivision (a) would have applied if such property had been sold by the partnership immediately before the distribution at its fair market value at such time, reduced by

(ii) The amount of such gain to which Section 17912 applied.

(c) The Franchise Tax Board shall prescribe such regulations as it may deem necessary to provide for adjustments to

the basis of property to reflect gain recognized under subdivision (a).

(d) This section shall apply notwithstanding any other provision of this part.

SEC. 6. Section 23737 of the Revenue and Taxation Code is amended to read:

23737. In the case of any organization described in Section 23701d to which this article is applicable, exemption under Article 1 (commencing with Section 23701) shall be denied for the income year if the amounts accumulated out of income during the income year or any prior income year and not actually paid out by the end of the income year—

(a) Are unreasonable in amount or duration in order to carry out the charitable, educational, or other purpose or function constituting the basis for such organization's exemption under Section 23701d; or

(b) Are used to a substantial degree for purposes or functions other than those constituting the basis for such organization's exemption under Section 23701d, or

(c) Are invested in such a manner as to jeopardize the carrying out of the charitable, educational, or other purpose or function constituting the basis for such organization's exemption under Section 23701d.

SEC. 7. Section 24307 of the Revenue and Taxation Code is amended to read:

24307. (a) No amount shall be included in gross income by reason of the discharge, in whole or in part, within the income year, of any indebtedness for which the taxpayer is liable, or subject to which the taxpayer holds property, if—

(1) The indebtedness was incurred or assumed by the taxpayer; and

(2) Such taxpayer makes and files a consent to the regulations prescribed under Section 24918 (relating to adjustment of basis) then in effect at such time and in such manner as the Franchise Tax Board by regulations prescribes.

In such case, the amount of any income of such taxpayer attributable to any unamortized premium (computed as of the first day of the income year in which such discharge occurred) with respect to such indebtedness shall not be included in gross income, and the amount of the deduction attributable to any unamortized discount (computed as of the first day of the income year in which such discharge occurred) with respect to such indebtedness shall not be allowed as a deduction.

(b) No amount shall be included in gross income by reason of the discharge, cancellation, or modification, in whole or in part, within the income year, of any indebtedness of a railroad corporation, as defined in Section 77(m) of the Bankruptcy Act (11 U.S.C. 205(m)), if such discharge, cancellation, or modification is effected pursuant to an order of a court in a receivership proceeding or in a proceeding under Section 77

of the Bankruptcy Act commenced before January 1, 1961. In such cases, the amount of any income of the taxpayer attributable to any unamortized premium (computed as of the first day of the income year in which such discharge occurred) with respect to such indebtedness shall not be included in gross income, and the amount of the deduction attributable to any unamortized discount (computed as of the first day of the income year in which such discharge occurred) with respect to such indebtedness shall not be allowed as a deduction. Subdivision (a) of this section shall not apply with respect to any discharge of indebtedness to which this subdivision applies.

SEC. 8. Section 24541 of the Revenue and Taxation Code is amended to read:

24541. (a) In the case of an exchange to which Section 24521, 24531, 24532, 24533, 24535, 24551, or 24572 applies—

(1) The basis of the property permitted to be received under such section without the recognition of gain or loss shall be the same as that of the property exchanged—

(A) Decreased by—

(i) The fair market value of any other property (except money) received by the bank or corporation;

(ii) The amount of any money received by the bank or corporation; and

(iii) The amount of loss to the bank or corporation which was recognized on such exchange, and

(B) Increased by—

(i) The amount which was treated as a dividend; and

(ii) The amount of gain to the bank or corporation which was recognized on such exchange (not including any portion of such gain which was treated as a dividend).

(2) The basis of any other property (except money) received by the bank or corporation shall be its fair market value.

(b) (1) Under regulations prescribed by the Franchise Tax Board, the basis determined under subsection (a)(1) shall be allocated among the properties permitted to be received without the recognition of gain or loss.

(2) In the case of an exchange to which Sections 24532 and 24533 (or so much of Section 24535 as relates to Section 24533) apply, then in making the allocation under paragraph (1) of this subsection, there shall be taken into account not only the property so permitted to be received without the recognition of gain or loss, but also the stock or securities (if any) of the distributing bank or corporation which are retained, and the allocation of basis shall be made among all such properties.

(c) For purposes of this section, a distribution to which Section 24533 (or so much of Section 24535 as relates to Sections 24532 and 24533) applies shall be treated as an exchange, and for such purposes the stock and securities of the distributing bank or corporation which are retained shall be treated as surrendered, and received back, in the exchange.

(d) Where, as part of the consideration to the bank or corporation, another party to the exchange assumed a liability

of the bank or corporation or acquired from the bank or corporation property subject to a liability, such assumption or acquisition (in the amount of the liability) shall, for purposes of this section, be treated as money received by the bank or corporation on the exchange.

(e) This section shall not apply to property acquired by a bank or corporation by the exchange of its stock or securities (or the stock or securities of a corporation which is in control of the acquiring corporation) as consideration in whole or in part for the transfer of the property to it.

SEC. 9. Section 24553 of the Revenue and Taxation Code is amended to read:

24553. If property was acquired by a corporation in connection with a reorganization to which this chapter applies, then the basis shall be the same as it would be in the hands of the transferor, increased in the amount of gain recognized to the transferor on such transfer. This section shall not apply if the property acquired consists of stock or securities in a corporation a party to the reorganization, unless acquired by the exchange of stock or securities of the transferee (or of a corporation which is in control of the transferee) as the consideration in whole or in part for the transfer.

SEC. 10. Section 24562 of the Revenue and Taxation Code is amended to read:

24562. (a) For purposes of Chapters 8 and 9 and this chapter, the term "reorganization" means—

(1) A statutory merger or consolidation;

(2) The acquisition by one corporation, in exchange solely for all or a part of its voting stock (or in exchange solely for all or a part of the voting stock of a corporation which is in control of the acquiring corporation), of stock of another corporation if, immediately after the acquisition, the acquiring corporation has control of such other corporation (whether or not such acquiring corporation had control immediately before the acquisition);

(3) The acquisition by one corporation, in exchange solely for all or a part of its voting stock (or in exchange solely for all or a part of the voting stock of a corporation which is in control of the acquiring corporation), of substantially all of the properties of another corporation, but in determining whether the exchange is solely for stock the assumption by the acquiring corporation of a liability of the other, or the fact that property acquired is subject to a liability, shall be disregarded;

(4) A transfer by a corporation of all or a part of its assets to another corporation if immediately after the transfer the transferor, or one or more of its shareholders (including persons who were shareholders immediately before the transfer), or any combination thereof, is in control of the corporation to which the assets are transferred; but only if, in pursuance of the plan, stock or securities of the corporation to which the

assets are transferred are distributed in a transaction which qualifies under Section 24531, 24533, or 24535;

(5) A recapitalization; or

(6) A mere change in identity, form, or place of organization, however effected.

(b) (1) If a transaction is described in both paragraph (3) and paragraph (4) of subdivision (a), then, for purposes of this chapter, such transaction shall be treated as described only in paragraph (4) of subdivision (a).

(2) If—

(A) One corporation acquires substantially all of the properties of another corporation;

(B) The acquisition would qualify under subdivision (a)(3) but for the fact that the acquiring corporation exchanges money or other property in addition to voting stock; and

(C) The acquiring corporation acquires, solely for voting stock described in paragraph (3) of subdivision (a), property of the other corporation having a fair market value which is at least 80 percent of the fair market value of all of the property of the other corporation;

then such acquisition shall (subject to paragraph (1) of this subdivision) be treated as qualifying under paragraph (3) of subdivision (a). Solely for the purpose of determining whether subparagraph (C) of the preceding sentence applies, the amount of any liability assumed by the acquiring corporation, and the amount of any liability to which any property acquired by the acquiring corporation is subject, shall be treated as money paid for the property.

(3) A transaction otherwise qualifying under paragraph (1), paragraph (2) or paragraph (3) of subdivision (a) shall not be disqualified by reason of the fact that part or all of the assets or stock which were acquired in the transaction are transferred to a corporation controlled by the corporation acquiring such assets or stock.

(4) The acquisition by one corporation, in exchange for stock of a corporation (referred to in this paragraph as "controlling corporation") which is in control of the acquiring corporation, of substantially all of the properties of another corporation which in the transaction is merged into the acquiring corporation shall not disqualify a transaction under paragraph (1) of subdivision (a), if—

(A) Such transaction would have qualified under paragraph (1) of subdivision (a) if the merger had been into the controlling corporation, and

(B) No stock of the acquiring corporation is used in the transaction.

In the case of a reorganization qualifying under paragraph (1), paragraph (2) or paragraph (3) of subdivision (a) of Section 24562 by reason of paragraph (3) of subdivision (b) of Section 24562, the term "a party to a reorganization" includes the corporation controlling the corporation to which the acquired assets or stock are transferred.

In the case of a reorganization qualifying under paragraph (1) of subdivision (a) of Section 24562 by reason of paragraph (4) of subdivision (b) of Section 24562, the term "a party to a reorganization" includes the controlling corporation referred to in such paragraph (4) of subdivision (b) of Section 24562.

subdivision (c) and as limited by subdivision (d)), multiplied by the rate provided in Section 17041 for the first two thousand dollars ($2,000) of taxable income; but the credit provided by this section shall not exceed the tax imposed under this part reduced by the credit allowable under Chapter 12 (relating to taxes paid to other states) and the credit allowable under Section 17054 (relating to credits for personal exemptions).

(b) For purposes of subdivision (a), an individual shall be considered to have received earned income if he has received, in each of any 10 calendar years before the taxable year, earned income, as defined in subdivision (g), in excess of six hundred dollars ($600). A widow or widower whose spouse had received such earned income shall be considered to have received earned income.

(c) For purposes of subdivision (a), the term "retirement income" means—

(1) In the case of an individual who has attained the age of 65 before the close of the taxable year, income from—

(A) Pensions and annuities, (including, in the case of an individual who is, or has been, an employee within the meaning of Section 17502.2(a), distributions by a trust described in Section 17501 which is exempt from tax under Section 17631),

(B) Interest,

(C) Rents,

(D) Dividends, and

(E) Bonds described in Section 17526(b) which are received under a qualified bond purchase plan described in Section 17526(a) or in a distribution from a trust described in Section 17501 which is exempt from tax under Section 17631, or

(2) In the case of an individual who has not attained the age of 65 before the close of the taxable year, income from pensions and annuities under a public retirement system (as defined in subdivision (f)), to the extent included in gross income without reference to this section, but only to the extent such income does not represent compensation for personal services rendered during the taxable year.

(d) For purposes of subdivision (a), the amount of retirement income shall not exceed one thousand five hundred twenty-four dollars ($1,524) less—

(1) In the case of any individual, any amount received by the individual as a pension or annuity—

(A) Under Title II of the Social Security Act,

(B) Under the Railroad Retirement Acts of 1935 or 1937, or

(C) Otherwise excluded from gross income, and

(2) In the case of any individual who has not attained the age of 72 before the close of the taxable year—

(A) If such individual has not attained age 62 before the close of the taxable year, any amount of earned income (as

defined in subdivision (g)) in excess of nine hundred dollars ($900) received by the individual in the taxable year—

(B) If such individual has attained age 62 before the close of the taxable year, the sum of (i) one-half the amount of earned income received by such individual in the taxable year in excess of one thousand two hundred dollars ($1,200) but not in excess of one thousand seven hundred dollars ($1,700), and (ii) the amount of earned income so received in excess of one thousand seven hundred dollars ($1,700).

(h) (1) A husband and wife who make a joint return for the taxable year and both of whom have attained the age of 65 before the close of the taxable year may elect (at such time and in such manner as the Franchise Tax Board by regulations prescribes) to determine the amount of the credit allowed by subdivision (a) by applying the provisions of paragraph (2).

(2) If an election is made under paragraph (1) for the taxable year, for purposes of subdivision (a)—

17112.5. (a) Any amounts received under an annuity, endowment, or life insurance contract before the annuity starting date which are not received as an annuity (within the meaning of Section 17105) shall be included in the recipient's gross income for the taxable year in which received to the extent that—

(1) Such amounts, plus all amounts theretofore received under the contract and includible in gross income under this subdivision, do not exceed—

(2) The aggregate premiums or other consideration paid for the contract while the employee was an owner-employee which were allowed as deductions under Sections 17513 to 17525, inclusive, for the taxable year and all prior taxable years.

Any such amounts so received which are not includible in gross income under this subdivision shall be subject to the provisions of Section 17105.

any amount allowed as a deduction with respect to the contract under Sections 17513 to 17525, inclusive, which was paid while the employee was an employee within the meaning of Section 17502.2(a) shall be treated as consideration contributed by the employer, and there shall not be taken into account any portion of the premiums or other consideration for the contract paid while the employee was an owner-employee which is properly allocable (as determined under regulations prescribed by the Franchise Tax Board) to the cost of life, accident, health, or other insurance.

(c) (1) This subdivision shall apply to any life insurance contract—

(A) Purchased as a part of a plan described in Section 17511, or

(B) Purchased by a trust described in Section 17501 which is exempt from tax under Section 17631 if the proceeds of such contract are payable directly or indirectly to a participant in such trust or to a beneficiary of such participant.

(2) Any contribution to plan described in Paragraph (1)(A) or a trust described in Paragraph (1)(B) which is allowed as a deduction under Sections 17513 to 17525, inclusive,

which is determined in accordance with regulations prescribed by the Franchise Tax Board to have been applied to purchase the life insurance protection under a contract described in Paragraph (1), is includible in the gross income of the participant for the taxable year when so applied.

(3) In the case of the death of an individual insured under a contract described in Paragraph (1), an amount equal to the cash surrender value of the contract immediately before the death of the insured shall be treated as a payment under such plan or a distribution by such trust, and the excess of the amount payable by reason of the death of the insured over such cash surrender value shall not be includible in gross income under this chapter and shall be treated as provided in Section 17132.

(d) (1) If during any taxable year an owner-employee assigns (or agrees to assign) or pledges (or agrees to pledge) any portion of his interest in a trust described in Section 17501 which is exempt from tax under Section 17631 or any portion of the value of a contract purchased as part of a plan described in Section 17511, such portion shall be treated as having been received by such owner-employee as a distribution from such trust or as an amount received under the contract.

(2) If during any taxable year, an owner-employee receives, directly or indirectly, any amount from any insurance company as a loan under a contract purchased by a trust described in Section 17501 which is exempt from tax under Section 17631 or purchased as part of a plan described in Section 17511, and issued by such insurance company, such amount shall be treated as an amount received under the contract.

(e) (1) This subdivision shall apply—

(A) To amounts (other than any amount received by an individual in his capacity as a policyholder of an annuity, endowment, or life insurance contract which is in the nature of a dividend or similar distribution) which are received from a qualified trust described in Section 17501 or under a plan described in Section 17511 and which are received by an individual, who is, or has been, an owner-employee, before such individual attains the age of 59½ years, for any reason other than the individual's becoming disabled (within the meaning of subdivision (g) of this section), but only to the extent that such amounts are attributable to contributions paid on behalf of such individual (whether or not paid by him) while he was an owner-employee,

(B) To amounts which are received from a qualified trust described in Section 17501 or under a plan described in Section 17511 at any time by an individual who is, or has been, an owner-employee, or by the successor of such individual, but only to the extent that such amounts are determined, under regulations prescribed by the Franchise Tax Board, to

exceed the benefits provided for such individual under the plan formula, and

(C) To amounts which are received, by an individual who is, or has been, an owner-employee, by reason of the distribution under the provisions of Section 17502.4(b)(5) of his entire interest in all qualified trusts described in Section 17501 and in all plans described in Section 17511.

(2) (A) If the aggregate of the amounts to which this subdivision applies received by any person in his taxable year equals or exeeeds two thousand five hundred dollars ($2,500), the increase in his tax for the taxable year in which such amounts are received and attributable to such amounts shall not be less than 110 percent of the aggregate increase in taxes, for the taxable year and the four immediately preceding taxable years, which would have resulted if such amounts had been included in such person's gross income ratably over such taxable years.

(B) If deductions have been allowed under Sections 17513 to 17525, inclusive, for contributions paid on behalf of the individual while he is an owner-employee for a number of prior taxable years less than four, subparagraph (A) shall be applied by taking into account a number of taxable years immediately preceding the taxable year in which the amount was so received equal to such lesser number.

(3) If paragraph (2) does not apply to a person for the taxable year, the increase in tax of such person for the taxable year attributable to the amounts to which this paragraph applies shall be 110 percent of such increase (computed without regard to this paragraph).

(4) Paragraph (1)(B) of this subdivision shall not apply to any amount to which Section 17503 or 17511 applies.

(5) For special rules for computation of taxable income for taxable years to which this subdivision applies, see Section 17112.7.

(f) For purposes of this section, the term "owner-employee" has the meaning assigned to it by Section 17502.2(c).

(g) For purposes of this chapter, an individual shall be considered to be disabled if he is unable to engage in any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or to be of long-continued and indefinite duration. An individual shall not be considered to be disabled unless he furnishes proof of the existence thereof in such form and manner as the Franchise Tax Board may require.

SEC. 2.4. Section 17112.7 is added to the Revenue and Taxation Code, to read:

17112.7. (a)(1) Subject to the provisions of paragraph (3), this section shall apply to amounts distributed to a distributee, in the case of an employees' trust described in Section 17501 which is exempt from tax under Section 17631, if the total distributions payable to the distributee with re-

spect to an employee are paid to the distributee within one taxable year of the distributee—

(A) On account of the employee's death,

(B) After the employee has attained the age of 59½ years, or

(C) After the employee has become disabled (within the meaning of Section 17112.5.

(2) Subject to the provisions of paragraph (3), this section shall apply to amounts paid to a payee, in the case of an annuity plan described in Section 17511, if the total amounts payable to the payee with respect to an employee are paid to the payee within one taxable year of the payee—

(A) On account of the employee's death,

(B) After the employee has attained the age of 59½ years, or

(C) After the employee has become disabled (within the meaning of Section 17112.5.

(3) This section shall apply—

(A) Only with respect to so much of any distribution or payment to which (without regard to this paragraph) paragraph (1) or (2) applies as is attributable to contributions made on behalf of an employee while he was an employee within the meaning of Section 17502.2(a), and

(B) If the recipient is the employee on whose behalf such contributions were made, only if contributions which were allowed as a deduction under Sections 17513 to 17525, inclusive, have been made on behalf of such employee while he was an employee within the meaning of Section 17502.2(a) for five or more taxable years prior to the taxable year in which the total distributions payable or total amounts payable, as the case may be, are paid.

This section shall not apply to amounts described in subparagraphs (B) and (C) of paragraph (1) of Section 17112.5 (but, in the case of amounts described in subparagraph (B) of such paragraph, only to the extent that Section 17112.5 applies to such amounts).

(b) In any case to which this section applies, the tax attributable to the amounts to which this section applies for the taxable year in which such amounts are received shall not exceed whichever of the following is the greater:

(1) Five times the increase in tax which would result from the inclusion in gross income of the recipient of 20 percent of so much of the amount so received as is includible in gross income, or

(2) Five times the increase in tax which would result if the taxable income of the recipient for such taxable year equaled 20 percent of the amount of the taxable income of the recipient for such taxable year determined under subdivision (c)(1).

(c) Notwithstanding Section 17073 (relating to definition of taxable income), for purposes only of computing the tax

under this part attributable to amounts to which this section or Section 17112.5 applies and which are includible in gross income—

(1) The taxable income of the recipient for the taxable year of receipt shall be treated as being not less than the amount by which (A) the aggregate of such amounts so includible in gross income exceeds (B) the amount of the credits allowed for such taxable year under Section 17054 (relating to credits for personal exemptions); and

(2) In making ratable inclusion computations under subdivision (e)(2) of Section 17112.5, the taxable income of the recipient for each taxable year involved in such ratable inclusion shall be treated as being not less than the amount required by such subdivision (e)(2) to be treated as includible in gross income for such taxable year.

In any case in which the preceding sentence results in an increase in taxable income for any taxable year, the resulting increase in the taxes imposed by Section 17041 or 17048 for such taxable year shall not be reduced by any credit under this part which, but for this sentence, would be allowable.

SEC. 3. Section 17132 of the Revenue and Taxation Code is amended to read:

17132. (a) Gross income does not include amounts received (whether in a single sum or otherwise) by the beneficiaries or the estate of an employee, if such amounts are paid by or on behalf of an employer and are paid by reason of the death of the employee.

(b) (1) The aggregate amounts excludable under subdivision (a) with respect to the death of any employee shall not exceed five thousand dollars ($5,000).

(2) Subdivision (a) shall not apply to amounts with respect to which the employee possessed, immediately before his death, a nonforfeitable right to receive the amounts while living.

This subdivision shall not apply to total distributions payable (as defined in Section 17503(c)(3)) which are paid to a distributee within one taxable year of the distributee by reason of the employee's death—

(i) By a stock bonus, pension, or profit-sharing trust described in Section 17501 which is exempt from tax under Section 17631,

(ii) Under an annuity contract under a plan described in Section 17511, or

(iii) Under an annuity contract purchased by an employer which is an organization referred to in Section 23701d of this code but only with respect to that portion of such total distributions payable which bears the same ratio to the amount of such total distributions payable which is (without regard to this section) includable in gross income, as the amounts contributed by the employer for such annuity contract which are excludable from gross income under Section 17512 bear to

the total amounts contributed by the employer for such annuity contract.

(3) Subdivision (a) shall not apply to amounts received by a surviving annuitant under a joint and survivor's annuity contract after the first day of the first period for which an amount was received as an annuity by the employee (or would have been received if the employee had lived).

(4) In the case of any amount to which Sections 17101 to 17112, inclusive (relating to annuities, etc.), apply, the amount which is excludable under subdivision (a) (as modified by this subdivision) shall be determined by reference to the value of such amount as of the day on which the employee died. Any amount so excludable under subdivision (a) shall, for purposes of Sections 17101 to 17112, inclusive, be treated as additional consideration paid by the employee. Subdivision (a) shall not apply in the case of an annuity under Chapter 73 of Title 10 of the United States Code if the individual who made the election under such chapter died after attaining retirement age.

(c) For purposes of this section, the term "employee" does not include an individual who is an employee within the meaning of Section 17502.2(a) (relating to self-employed individuals).

SEC. 4. Section 17138 of the Revenue and Taxation Code is amended to read:

17138. (a) Except in the case of amounts attributable to (and not in excess of) deductions allowed under Sections 17253 to 17258, inclusive (relating to medical, etc., expenses) for any prior taxable year, gross income does not include—

(1) Amounts received under workmen's compensation acts as compensation for personal injuries or sickness;

(2) The amount of any damages received (whether by suit or agreement) on account of personal injuries or sickness;

(3) Amounts received through accident or health insurance for personal injuries or sickness (other than amounts received by an employee, to the extent such amounts (A) are attributable to contributions by the employer which were not includable in the gross income of the employee, or (B) are paid by the employer); and

(4) Amounts received as a pension, annuity, or similar allowance for personal injuries or sickness resulting from active service in the armed forces of any country or in the Coast and Geodetic Survey or the Public Health Service, or as a disability annuity payable under the provisions of Section 831 of the Foreign Service Act of 1946, as amended (22 U.S.C. 1081; 60 Stat. 1021).

For purposes of paragraph (3), in the case of an individual who is, or has been, an employee within the meaning of Section 17502.2(a) (relating to self-employed individuals), contributions made on behalf of such individual while he was such an employee to a trust described in Section 17501 which is exempt

from tax under Section 17631, or under a plan described in Section 17511, shall, to the extent allowed as deductions under Sections 17513 to 17525, inclusive, be treated as contributions by the employer which were not includable in the gross income of the employee.

(b) (1) For exclusion from employee's gross income of employer contributions to accident and health plans, see Section 17140.

(2) For exclusion of part of disability retirement pay from the application of subdivision (a)(4) of this section, see Section 402(h) of the Career Compensation Act of 1949 (37 U.S.C. 272(h)).

SEC. 5. Section 17501 of the Revenue and Taxation Code is amended to read:

17501. A trust created or organized in the United States and forming part of a stock bonus, pension, or profit-sharing plan of an employer for the exclusive benefit of his employees or their beneficiaries shall constitute a qualified trust under this article—

(a) If contributions are made to the trust by such employer, or employees, or both, or by another employer who is entitled to deduct his contributions under Section 17516(b) (relating to deduction for contributions to profit-sharing and stock bonus plan), for the purpose of distributing to such employees or their beneficiaries the corpus and income of the fund accumulated by the trust in accordance with such plan;

(b) If under the trust instrument it is impossible, at any time prior to the satisfaction of all liabilities with respect to employees and their beneficiaries under the trust, for any part of the corpus or income to be (within the taxable year or thereafter) used for, or diverted to, purposes other than for the exclusive benefit of his employees or their beneficiaries;

(c) If the trust, or two or more trusts, or the trust or trusts and annuity plan or plans are designated by the employer as constituting parts of a plan intended to qualify under this section which benefits either—

(1) Seventy percent or more of all the employees, or 80 percent or more of all the employees who are eligible to benefit under the plan if 70 percent or more of all the employees are eligible to benefit under the plan, excluding in each case employees who have been employed not more than a minimum period prescribed by the plan, not exceeding five years, employees whose customary employment is for not more than 20 hours in any one week, and employees whose customary employment is for not more than five months in any calendar year, or

(2) Such employees as qualify under a classification set up by the employer and found by the Franchise Tax Board not to be discriminatory in favor of employees who are officers, shareholders, persons whose principal duties consist in super-

vising the work of other employees, or highly compensated employees; and

(d) If the contributions or benefits provided under the plan do not discriminate in favor of employees who are officers, shareholders, persons whose principal duties consist in supervising the work of other employees, or highly compensated employees.

(e) A classification shall not be considered discriminatory within the meaning of subdivision (c)(2) or (d) merely because it excludes employees the whole of whose remuneration constitutes "wages" under Section 3121(a)(1) of the Internal Revenue Code (relating to the Federal Insurance Contribution Act) or merely because it is limited to salaried or clerical employees. Neither shall a plan be considered discriminatory within the meaning of such provisions merely because the contributions or benefits of or on behalf of the employees under the plan bear a uniform relationship to the total compensation, or the basic or regular rate of compensation, of such employees, or merely because the contributions or benefits based on that part of an employee's remuneration which is excluded from "wages" by Section 3121(a)(1) of the Internal Revenue Code, or of the California Unemployment Insurance Act differ from the contributions or benefits based on employee's remuneration not so excluded, or differ because of any retirement benefits created under state or federal law.

For purposes of this subdivision and subdivision (j), the total compensation of an individual who is an employee within the meaning of Section 17502.2(a) means such individual's earned income (as defined in Section 17502.2(b)), and the basic or regular rate of compensation of such an individual shall be determined, under regulations prescribed by the Franchise Tax Board, with respect to that portion of his earned income which bears the same ratio to his earned income as the basic or regular compensation of the employees under the plan bears to the total compensation of such employees.

(f) A plan shall be considered as meeting the requirements of subdivision (c) during the whole of any taxable year of the plan if on one day in each quarter it satisfied such requirements.

(g) A trust shall not constitute a qualified trust under this article unless the plan of which such trust is a part provides that, upon its termination or upon complete discontinuance of contributions under the plan, the rights of all employees to benefits accrued to the date of such termination or discontinuance, to the extent then funded, or the amounts credited to the employees' accounts are nonforfeitable. This subdivision shall not apply to benefits or contributions which, under provisions of the plan adopted pursuant to regulations prescribed by the Franchise Tax Board to preclude the discrimination

prohibited by subdivision (d), may not be used for designated employees in the event of early termination of the plan.

(h) A trust forming part of a pension plan shall not constitute a qualified trust under this article unless the plan provides that forfeitures must not be applied to increase the benefits any employee would otherwise receive under the plan.

(i) In the case of a plan which provides contributions or benefits for employees some or all of whom are employees within the meaning of Section 17502.2(a), a trust forming part of such plan shall not constitute a qualified trust under this article unless, under the plan, the entire interest of each employee—

(1) Either will be distributed to him not later than his taxable year in which he attains the age of 70½ years, or, in the case of an employee other than an owner-employee (as defined in Section 17502.2(c)), in which he retires, whichever is the later, or

(2) Will be distributed, commencing not later than such taxable year, (A) in accordance with regulations prescribed by the Franchise Tax Board, over the life of such employee or over the lives of such employee and his spouse, or (B) in accordance with such regulations, over a period not extending beyond the life expectancy of such employee or the life expectancy of such employee and his spouse.

A trust shall not be disqualified under this subdivision by reason of distributions under a designation, prior to the date of the enactment of this subdivision, by any employee under the plan of which such trust is a part, of a method of distribution which does not meet the terms of the preceding sentence.

(j) In the case of a plan which provides contributions or benefits for employees some or all of whom are owner-employees (as defined in Section 17502.2(c))—

(1) Subdivision (c) and the first and second sentences of subdivision (e) shall not apply, but—

(A) Such plan shall not be considered discriminatory within the meaning of subdivision (d) merely because the contributions or benefits of or on behalf of employees under the plan bear a uniform relationship to the total compensation, or the basic or regular rate of compensation, of such employees, and

(B) Such plan shall not be considered discriminatory within the meaning of subdivision (d) solely because under the plan contributions described in Section 17502.4(c)(1) which are in excess of the amounts which may be deducted under Sections 17513 to 17525, inclusive, for the taxable year may be made on behalf of any owner-employee; and

(2) A trust forming a part of such plan shall constitute a qualified trust under this section only if the requirements in Section 17502.3 are also met.

SEC. 6. Section 17502.2 is added to the Revenue and Taxation Code, to read:

17502.2. For purposes of this article—

(a) The term "employee" includes, for any taxable year, an individual who has earned income (as defined in subdivision (b)) for the taxable year. To the extent provided in regulations prescribed by the Franchise Tax Board, such term also includes, for any taxable year—

(1) An individual who would be an employee within the meaning of the preceding sentence but for the fact that the trade or business carried on by such individual did not have net profits for the taxable year, and

(2) An individual who has been an employee within the meaning of the preceding sentence for any prior taxable year.

(b) (1) The term "earned income" means the net earnings from self-employment (as defined in Section 1402(a) of the Internal Revenue Code of 1954), but such net earnings shall be determined—

(A) Only with respect to a trade or business in which personal services of the taxpayer are a material income-producing factor,

(B) Without regard to paragraphs (4) and (5) of Section 1402(c) of the Internal Revenue Code of 1954,

(C) In the case of any individual who is treated as an employee under Sections 3121(d)(3)(A), (C), or (D) of the Internal Revenue Code of 1954, without regard to paragraph (2) of Section 1402(c) of the Internal Revenue Code of 1954, and

(D) Without regard to items which are not included in gross income for purposes of this article, and the deductions properly allocable to or chargeable against such items.

For purposes of this subdivision, Section 1402 of the Internal Revenue Code of 1954, as in effect for a taxable year ending on December 31, 1967, shall be treated as having been in effect for all taxable years ending before such date.

(2) For purposes of this section, the term "earned income" includes gains (other than any gain which is treated under any provision of this article as gain from the sale or exchange of a capital asset) and net earnings derived from the sale or other disposition of, the transfer of any interest in, or the licensing of the use of property (other than goodwill) by an individual whose personal efforts created such property.

(c) The term "owner-employee" means an employee who—

(1) Owns the entire interest in an unincorporated trade or business, or

(2) In the case of a partnership, is a partner who owns more than 10 percent of either the capital interest or the profits interest in such partnership.

To the extent provided in regulations prescribed by the Franchise Tax Board, such term also means an individual who has been an owner-employee within the meaning of the preceding sentence.

(d) An individual who owns the entire interest in an unincorporated trade or business shall be treated as his own employer. A partnership shall be treated as the employer of each partner who is an employee within the meaning of subdivision (a).

(e) The term "contribution on behalf of an owner-employee" includes, except as the context otherwise requires, a contribution under a plan—

(1) By the employer for an owner-employee, and

(2) By an owner-employee as an employee.

SEC. 7. Section 17502.3 is added to the Revenue and Taxation Code, to read:

17502.3. A trust forming part of a pension or profit-sharing plan which provides contributions or benefits for employees some or all of whom are owner-employees shall constitute a qualified trust under this article only if, in addition to meeting the requirements of Section 17501, the following requirements of this section are met by the trust and by the plan of which such trust is a part:

(a) In the case of a trust which is created on or after the date of the enactment of this section, or which was created before such date but is not exempt from tax under Section 17631 as an organization described in Section 17501 on the day before such date, the trustee is a bank, but a person (including the employer) other than a bank may be granted, under the trust instrument, the power to control the investment of the trust funds either by directing investments (including reinvestments, disposals, and exchanges) or by disapproving proposed investments (including reinvestments, disposals, and exchanges). This subdivision shall not apply to a trust created or organized outside the United States before the date of the enactment of this section if, under Section 17505, it is treated as exempt from tax under Section 17631 on the day before such date; or, to the extent provided under regulations prescribed by the Franchise Tax Board, to a trust which uses annuity, endowment, or life insurance contracts of a life insurance company exclusively to fund the benefits prescribed by the trust, if the life insurance company supplies annually such information about trust transactions affecting owner-employees as the Franchise Tax Board shall by forms or regulations prescribe. For purposes of this section, the term "bank" means a bank as defined in Section 581 of the Internal Revenue Code of 1954, a corporation which under the laws of the state of its incorporation is subject to supervision and examination by the commissioner of banking or other officer of such state in charge of the administration of the banking laws of such state, and, in the case of a trust created or organized outside the United States, a bank or trust company, wherever incorporated, exercising fiduciary powers and subject to supervision and examination by governmental authority.

(b) Under the plan—

(1) The employees' rights to or derived from the contributions under the plan are nonforfeitable at the time the contributions are paid to or under the plan; and

(2) In the case of a profit-sharing plan, there is a definite formula for determining the contributions to be made by the employer on behalf of employees (other than owner-employees).

Subdivision (b)(1) shall not apply to contributions which, under provisions of the plan adopted pursuant to regulations prescribed by the Franchise Tax Board to preclude the discrimination prohibited by Section 17501(d), may not be used to provide benefits for designated employees in the event of early termination of the plan.

(c) The plan benefits each employee having a period of employment of three years or more. For purposes of the preceding sentence, the term "employee" does not include any employee whose customary employment is for not more than 20 hours in any one week or is for not more than five months in any calendar year.

(d) Under the plan—

(1) Contributions or benefits are not provided for any owner-employee unless such owner-employee has consented to being included under the plan; and

(2) No benefits may be paid to any owner-employee, except in the case of his becoming disabled (within the meaning of Section 17112.5), prior to his attaining the age of 59½ years.

(e) The plan does not permit—

(1) Contributions to be made by the employer on behalf of any owner-employee in excess of the amounts which may be deducted under Sections 17513 to 17525, inclusive, for the taxable year;

(2) In the case of a plan which provides contributions or benefits only for owner-employees, contributions to be made on behalf of any owner-employee in excess of the amounts which may be deducted under Sections 17513 to 17525, inclusive, for the taxable year; and

(3) If a distribution under the plan is made to any employee and if any portion of such distribution is an amount described in Section 17112.5, contributions to be made on behalf of such employee for the five taxable years succeeding the taxable year in which such distribution is made.

Subdivisions (e)(1) and (e)(2) shall not apply to any contribution which is not considered to be an excess contribution (as defined in Section 17502.4(a)) by reason of the application of Section 17502.4(c).

(f) Except as provided in this subdivision, the plan meets the requirements of Section 17501(d) without taking into account for any purpose contributions or benefits under Chapter 2 (relating to tax on self-employment income) and Chapter 21

(relating to Federal Insurance Contributions Act) of the Internal Revenue Code of 1954, Title II of the Social Security Act, as amended, or any other federal or state law. If—

(1) Of the contributions deductible under Sections 17513 to 17525, inclusive, not more than one-third is deductible by reason of contributions by the employer on behalf of owner-employees, and

(2) Taxes paid by the owner-employees under Chapter 2 of the Internal Revenue Code of 1954 (relating to tax on self-employment income), and the taxes which would be payable under such Chapter 2 by the owner-employees but for paragraphs (4) and (5) of Section 1402(c) of the Internal Revenue Code of 1954, are taken into account as contributions by the employer on behalf of such owner-employees,

then taxes paid under Section 3111 of the Internal Revenue Code of 1954 (relating to tax on employers) with respect to an employee may, for purposes of Section 17501(d), be taken into account as contributions by the employer for such employee under the plan.

(g) Under the plan, if an owner-employee dies before his entire interest has been distributed to him, or if distribution has been commenced in accordance with Section 17501(i)(2) to his surviving spouse and such surviving spouse dies before his entire interest has been distributed to such surviving spouse, his entire interest (or the remaining part of such interest if distribution thereof has commenced) will, within five years after his death (or the death of his surviving spouse), be distributed, or applied to the purchase of an immediate annuity for his beneficiary or beneficiaries (or the beneficiary or beneficiaries of his surviving spouse) which will be payable for the life of such beneficiary or beneficiaries (or for a term certain not extending beyond the life expectancy of such beneficiary or beneficiaries) and which will be immediately distributed to such beneficiary or beneficiaries. The preceding sentence shall not apply if distribution of the interest of an owner-employee has commenced and such distribution is for a term certain over a period permitted under Section 17501(i)(2)(B).

(h) Under the plan—

(1) Any contribution which is an excess contribution, together with the income attributable to such excess contribution, is (unless Section 17502.4(b)(5) applies) to be repaid to the owner-employee on whose behalf such excess contribution is made;

(2) If for any taxable year the plan does not, by reason of Section 17502.4(b)(1), meet (for purposes of Sections 17513 to 17525, inclusive) the requirements of this section with respect to an owner-employee, the income for the taxable year attributable to the interest of such owner-employee under the plan is to be paid to such owner-employee; and

(3) The entire interest of an owner-employee is to be repaid to him when required by the provisions of Section 17502.4(b)(5).

(i) (1) If the plan provides contributions or benefits for an owner-employee who controls, or for two or more owner-employees who together control, the trade or business with respect to which the plan is established, and who also control as an owner-employee or as owner-employees one or more other trades or businesses, such plan and the plans established with respect to such other trades or businesses, when coalesced, constitute a single plan which meets the requirements of Section 17501 (including subdivision (j) thereof) and of this section with respect to the employees of all such trades or businesses (including the trade or business with respect to which the plan intended to qualify under this section is established).

(2) For purposes of paragraph (1), an owner-employee, or two or more owner-employees, shall be considered to control a trade or business if such owner-employee, or such two or more owner-employees together—

(A) Own the entire interest in an unincorporated trade or business, or

(B) In the case of a partnership, own more than 50 percent of either the capital interest or the profits interest in such partnership.

For purposes of the preceding sentence, an owner-employee, or two or more owner-employees, shall be treated as owning any interest in a partnership which is owned, directly or indirectly, by a partnership which such owner-employee, or such two or more owner-employees, are considered to control within the meaning of the preceding sentence.

(j) The plan does not provide contributions or benefits for any owner-employee who controls (within the meaning of subdivision (i)(2)), or for two or more owner-employees who together control, as an owner-employee or as owner-employees, any other trade or business, unless the employees of each trade or business which such owner-employee or such owner-employees control are included under a plan which meets the requirements of Section 17501 (including subdivision (j) thereof) and of this section, and provides contributions and benefits for employees which are not less favorable than contributions and benefits provided for owner-employees under the plan.

(k) Under the plan, contributions on behalf of any owner-employee may be made only with respect to the earned income of such owner-employee which is derived from the trade or business with respect to which such plan is established.

SEC. 8. Section 17502.4 is added to the Revenue and Taxation Code, to read:

17502.4. (a) For purposes of this article, the term "excess contribution" means, except as provided in subdivision (c)—

(1) If, in the taxable year, contributions are made under the plan only on behalf of owner-employees, the amount of any contribution made on behalf of any owner-employee which (without regard to this section) is not deductible under Sections 17513 to 17525, inclusive, for the taxable year; or

(2) If, in the taxable year, contributions are made under the plan on behalf of employees other than owner-employees—

(A) The amount of any contribution made by the employer on behalf of any owner-employee which (without regard to this section) is not deductible under Sections 17513 to 17525, inclusive, for the taxable year;

(B) The amount of any contribution made by any owner-employee (as an employee) at a rate which exceeds the rate of contributions permitted to be made by employees other than owner-employees;

(C) The amount of any contribution made by any owner-employee (as an employee) which exceeds the lesser of two thousand five hundred dollars ($2,500) or 10 percent of the earned income for such taxable year derived by such owner-employee from the trade or business with respect to which the plan is established; and

(D) In the case of any individual on whose behalf contributions are made under more than one plan as an owner-employee, the amount of any contribution made by such owner-employee (as an employee) under all such plans which exceeds two thousand five hundred dollars ($2,500); and

(3) The amount of any contribution made on behalf of an owner-employee in any taxable year for which, under subdivision (b)(1) or (b)(5), the plan does not (for purposes of Sections 17513 to 17525, inclusive) meet the requirements of Section 17502.3 with respect to such owner-employee.

For purposes of this subdivision, the amount of any contribution which is allocable (determined in accordance with regulations prescribed by the Franchise Tax Board) to the purchase of life, accident, health, or other insurance shall not be taken into account.

(b) (1) If an excess contribution (other than an excess contribution to which subdivision (b)(5) applies) is made on behalf of an owner-employee in any taxable year, the plan with respect to which such excess contribution is made shall, except as provided in subdivisions (b)(3) and (b)(4), be considered, for purposes of Sections 17513 to 17525, inclusive, as not meeting the requirements of Section 17502.3 with respect to such owner-employee for the taxable year and for all succeeding taxable years.

(2) For any taxable year for which any plan does not meet the requirements of Section 17502.3 with respect to an owner-

employee by reason of subdivision (b)(1), the gross income of such owner-employee shall, for purposes of this article, include the amount of net income for such taxable year attributable to the interest of such owner-employee under such plan.

(3) Subdivision (b)(1) shall not apply to an excess contribution with respect to any taxable year, if, on or before the close of the six-month period beginning on the day on which the Franchise Tax Board sends notice (by certified or registered mail) to the person to whom such excess contribution was paid of the amount of such excess contribution, the amount of such excess contribution, and the net income attributable thereto, is repaid to the owner-employee on whose behalf such excess contribution was made. If the excess contribution is an excess contribution as defined in subdivision (a)(1) or (a)(2)(A), or is an excess contribution as defined in subdivision (a)(3) with respect to which a deduction has been claimed under Sections 17513 to 17525, inclusive, the notice required by the preceding sentence shall not be mailed prior to the time that the amount of the tax under this article of such owner-employee for the taxable year in which such excess contribution was made has been finally determined.

(4) If an excess contribution, together with the net income attributable thereto, is not repaid within the six-month period referred to in subdivision (b)(3), subdivision (b)(1) shall not apply to an excess contribution with respect to any taxable year beginning with the taxable year in which the person to whom such excess contribution was paid repays the amount of such excess contribution to the owner-employee on whose behalf such excess contribution was made, and pays to such owner-employee the amount of net income attributable to the interest of such owner-employee which, under subdivision (b)(2), has been included in the gross income of such owner-employee for any prior taxable year.

(5) If an excess contribution made on behalf of an owner-employee is determined to have been willfully made, then—

(A) Subdivisions (b)(1), (b)(2), (b)(3), and (b)(4) shall not apply with respect to such excess contribution;

(B) There shall be distributed to the owner-employee on whose behalf such excess contribution was willfully made his entire interest in all plans with respect to which he is an owner-employee; and

(C) No plan shall, for purposes of Sections 17513 to 17525, inclusive, be considered as meeting the requirements of Section 17502.3 with respect to such owner-employee for the taxable year in which it is determined that such excess contribution was willfully made and for the five taxable years following such taxable year.

(6) In any case in which subdivision (b)(1) applies, the period for assessing any deficiency arising by reason of—

(A) The disallowance of any deduction under Sections 17513 to 17525, inclusive, on account of a plan not meeting

the requirements of Section 17502.3, with respect to the owner-employee on whose behalf an excess contribution was made, or

(B) The inclusion, under subdivision (b)(2), in gross income of such owner-employee of income attributable to the interest of such owner-employee under a plan,

for the taxable year in which such excess contribution was made or for any succeeding taxable year shall not expire prior to one year after the close of the six-month period referred to in subdivision (b)(3).

(c) A contribution by the employer on behalf of an owner-employee shall not be considered to be an excess contribution within the meaning of subdivision (a), if—

(1) Under the plan such contribution is required to be applied (directly or through a trustee) to pay premiums or other consideration for one or more annuity, endowment, or life insurance contracts on the life of such owner-employee issued under the plan,

(2) The amount of such contribution exceeds the amount deductible under Sections 17513 to 17525, inclusive, with respect to contributions made by the employer on behalf of such owner-employee under the plan, and

(3) The amount of such contribution does not exceed the average of the amounts which were deductible under Sections 17513 to 17525, inclusive, with respect to contributions made by the employer on behalf of such owner-employee under the plan (or which would have been deductible under such section if such section had been in effect) for the first three taxable years (A) preceding the year in which the last such annuity, endowment, or life insurance contract was issued under the plan and (B) in which such owner-employee derived earned income from the trade or business with respect to which the plan is established, or for so many of such taxable years as such owner-employee was engaged in such trade or business and derived earned income therefrom.

In the case of any individual on whose behalf contributions described in subdivision (c)(1) are made under more than one plan as an owner-employee during any taxable year, the preceding sentence shall not apply if the amount of such contributions under all such plans for such taxable year exceeds two thousand five hundred dollars ($2,500). Any contribution which is not considered to be an excess contribution by reason of the application of this subdivision shall, for purposes of subdivisions (a)(2)(B), (C), and (D), be taken into account as a contribution made by such owner-employee as an employee to the extent that the amount of such contribution is not deductible under Sections 17513 to 17525, inclusive, for the taxable year, but only for the purpose of applying such subdivisions to other contributions made by such owner-employee as an employee.

SEC. 9. Section 17502.5 is added to the Revenue and Taxation Code, to read:

17502.5. (a) For purposes of this article, a custodial account shall be treated as a qualified trust under this section, if—

(1) Such custodial account would, except for the fact that it is not a trust, constitute a qualified trust under this section;

(2) The custodian is a bank (as defined in Section 17502.3(a));

(3) The investment of the funds in such account (including all earnings) is to be made—

(A) Solely in regulated investment company stock with respect to which an employee is the beneficial owner, or

(B) Solely in annuity, endowment, or life insurance contracts issued by an insurance company;

(4) The shareholder of record of any such stock described in paragraph (3)(A) is the custodian or its nominee; and

(5) The contracts described in paragraph (3)(B) are held by the custodian until distributed under the plan.

For purposes of this article, in the case of a custodial account treated as a qualified trust under this section by reason of the preceding sentence, the custodian of such account shall be treated as the trustee thereof.

(b) For purposes of subdivision (a), the term "regulated investment company" means a domestic corporation which—

(1) Is a regulated investment company within the meaning of Section 851(a) of the Internal Revenue Code of 1954, and

(2) Issues only redeemable stock.

SEC. 10. Section 17502.6 is added to the Revenue and Taxation Code, to read:

17502.6. For purposes of this article, the term "annuity" includes a face-amount certificate, as defined in Section 2(a)(15) of the Investment Company Act of 1940 (15 U.S.C., sec. 80a-2); but does not include any contract or certificate issued after December 31, 1967, which is transferable, if any person other than the trustee of a trust described in Section 17501 which is exempt from tax under Section 17631 is the owner of such contract or certificate.

SEC. 11. Section 17502.7 is added to the Revenue and Taxation Code, to read:

17502.7. Under regulations prescribed by the Franchise Tax Board, a pension or annuity plan may provide for the payment of benefits for sickness, accident, hospitalization, and medical expenses of retired employees, their spouses and their dependents, but only if—

(a) Such benefits are subordinate to the retirement benefits provided by the plan,

(b) A separate account is established and maintained for such benefits,

(c) The employer's contributions to such separate account are reasonable and ascertainable,

(d) It is impossible, at any time prior to the satisfaction of all liabilities under the plan to provide such benefits, for any part of the corpus or income of such separate account to be (within the taxable year or thereafter) used for, or diverted to, any purpose other than the providing of such benefits, and

(e) Notwithstanding the provisions of Section 17501(b), upon the satisfaction of all liabilities under the plan to provide such benefits, any amount remaining in such separate account must, under the terms of the plan, be returned to the employer.

SEC. 12. Section 17502.8 is added to the Revenue and Taxation Code, to read:

17502.8. In the case of a trust forming part of a pension plan which has been determined by the Franchise Tax Board to constitute a qualified trust under Section 17501 and to be exempt from taxation under Section 17631 for a period beginning after contributions were first made to or for such trust, if it is shown to the satisfaction of the Franchise Tax Board that—

(a) Such trust was created pursuant to a collective bargaining agreement between employee representatives and two or more employers who are not related (determined under regulations prescribed by the Franchise Tax Board),

(b) Any disbursements of contributions made to or for such trust before the time as of which the Franchise Tax Board determined that the trust constituted a qualified trust, substantially complied with the terms of the trust, and the plan of which the trust is a part, as subsequently qualified, and

(c) Before the time as of which the Franchise Tax Board determined that the trust constitutes a qualified trust, the contributions to or for such trust were not used in a manner which would jeopardize the interests of its beneficiaries,

then such trust shall be considered as having constituted a qualified trust under Section 17501 and as having been exempt from taxation under Section 17631 for the period beginning on the date on which contributions were first made to or for such trust and ending on the date such trust first constituted (without regard to this section) a qualified trust under Section 17501.

SEC. 13. Section 17503 of the Revenue and Taxation Code is amended to read:

17503. (a) Except as provided in subdivision (b), the amount actually distributed or made available to any distributee by any employees' trust described in Section 17501 which is exempt from tax under Section 17631 shall be taxable to him, in the year in which so distributed or made available, under Sections 17101 to 17112.7 (relating to annui-

ties). The amount actually distributed or made available to any distributee shall not include net unrealized appreciation in securities of the employer corporation attributable to the amount contributed by the employee. Such net unrealized appreciation and the resulting adjustments to basis of such securities shall be determined in accordance with regulations prescribed by the Franchise Tax Board.

(b) In the case of an employees' trust described in Section 17501, which is exempt from tax under Section 17631, if the total distributions payable with respect to any employee are paid to the distributee within one taxable year of the distributee on account of the employee's death or other separation from the service, or on account of the death of the employee after his separation from the service, the amount of such distribution, to the extent exceeding the amounts contributed by the employee, which employee contributions shall be reduced by any amounts theretofore distributed to him which were not includable in gross income, shall be considered a gain from the sale or exchange of a capital asset held for more than six months.

Where such total distributions include securities of the employer corporation, there shall be excluded from such excess the net unrealized appreciation attributable to that part of the total distributions which consists of the securities of the employer corporation so distributed. The amount of such net unrealized appreciation and the resulting adjustments to basis of the securities of the employer corporation so distributed shall be determined in accordance with regulations prescribed by the Franchise Tax Board.

This subdivision (b) shall not apply to distributions paid to any distributee to the extent such distributions are attributable to contributions made on behalf of the employee while he was an employee within the meaning of Section 17502.2(a).

(c) For purposes of this section—

(1) The term "securities" means only shares of stock and bonds or debentures issued by a corporation with interest coupons or in registered form.

(2) The term "securities of the employer corporation" includes securities of a parent or subsidiary corporation (as defined in subdivisions (e) and (f) of Section 17535) of the employer corporation.

(3) The term "total distributions payable" means the balance to the credit of an employee which becomes payable to a distributee on account of the employee's death or other separation from the service, or on account of his death after separation from the service.

SEC. 14. Section 17511 of the Revenue and Taxation Code is amended to read:

17511. Except as provided in subdivision (a), if an annuity contract is purchased by an employer for an employee under a plan which meets the requirements of Section 17515 (whether

or not the employer deducts the amounts paid for the contract under such section), the employee shall include in his gross income the amounts received under such contract for the year received as provided in Sections 17101 to 17112, inclusive (relating to annuities).

(a) If—

(1) An annuity contract is purchased by an employer for an employee under a plan described in the first paragraph;

(2) Such plan requires that refunds of contributions with respect to annuity contracts purchased under such plan be used to reduce subsequent premiums on the contracts under the plan; and

SECTION 1. Section 25 of the Civil Code is amended to read:

25. Minors are all persons under 21 years of age; provided, that this section shall be subject to the provisions of the titles of this code on marriage and shall not be construed as repealing or limiting the provisions of Section 204; provided further, that any person who has reached the age of 18 years and thereafter contracts a lawful marriage, or who has contracted a lawful marriage and thereafter reaches the age of 18 years, shall in the first instance upon contracting such marriage, and in the second instance upon reaching the age of 18 years, be of the age of majority for all purposes of the Civil Code, the Probate Code, and the Code of Civil Procedure and for the purposes of all other codes be deemed an adult person for the purposes of entering into any engagement or transaction respecting property or his estate, or for the purpose of entering into any contract, the same as if he were 21 years of age. SEC. 2. Section 25.6 of the Civil Code is amended to read:

25.6. Notwithstanding any other provision of the law, any minor who has contracted a lawful marriage may give consent to the furnishing of hospital, medical and surgical care to such minor, and such consent shall not be subject to disaffirmance because of minority. The consent of the parent, or parents, of such a person shall not be necessary in order to authorize hospital, medical and surgical care. For the purposes of this section only, subsequent judgment of dissolution of marriage shall not deprive such person of his adult status once attained.

maintained in behalf of a minor illegitimate child by his mother or guardian, or by a guardian ad litem appointed upon the written application or with the consent of his mother; provided, that such application or consent shall not be necessary if the mother is dead or incompetent, and in such action the court shall have power to order and enforce performance thereof, the same as is the case with respect to legitimate children, in a suit for dissolution of marriage by a wife.

PART 5. THE FAMILY LAW ACT

TITLE 1. MARRIAGE

CHAPTER 1. GENERAL

4000. This part shall be known and may be cited as "The Family Law Act."

4001. Notwithstanding any other provision of law, the Judicial Council may provide by rule for the practice and procedure in proceedings under this part.

CHAPTER 2. THE SOLEMNIZATION OF MARRIAGE

Article 1. Validity of Marriage

4100. Marriage is a personal relation arising out of a civil contract, to which the consent of the parties capable of making that contract is necessary. Consent alone will not constitute marriage; it must be followed by the issuance of a license and solemnization as authorized by this code, except as provided by Section 4213.

4101. Any unmarried male of the age of 21 years or upwards, and any unmarried female of the age of 18 years or upwards, and not otherwise disqualified, is capable of consenting to and consummating marriage; provided, that any male under the age of 21 years and over the age of 18 years and any female under the age of 18 years and over the age of 16 years, with the consent in writing of the parents of the person under age, or one of such parents, or of his or her guardian, or order of the superior court as provided for in Section 4102, where such written consent or order is filed by the clerk issuing the marriage license, as provided in Section 4201, is capable of consenting to and consummating marriage; provided, further, that any male under the age of 18 years and any female under the age of 16 years, with the consent in writing of the parents of the person under age, or one of such parents, or of his or her guardian, where such written consent is filed with the clerk issuing the marriage license, as provided in Section 4201 and where, after such showing as the su-

perior court may require an order of said superior court is made, granting permission to said person to marry, is capable of consenting to and consummating marriage; provided, further, that any male under the age of 18 years and any female under the age of 16 years, by order of the superior court as provided for in Section 4102, when such court order is filed with the clerk issuing the marriage license, as provided in Section 4201, is capable of consenting to and consummating marriage.

4102. Whenever it appears to the satisfaction of the superior court by verified application of a minor that such person requires a written consent to marry and that such minor has no parent or has no parent capable of consenting, the superior court may make an order consenting to the issuance of a marriage license and granting permission to such minor to marry. Such order shall be filed with the county clerk at the time the license is issued.

4103. Consent to marriage and solemnization thereof may be proved under the same general rules of evidence as facts are proved in other cases.

4104. All marriages contracted without this state, which would be valid by the laws of the jurisdiction in which the same were contracted, are valid in this state.

Article 2. Authentication of Marriage

4200. Marriage must be licensed, solemnized, authenticated, and the certificate of registry of marriage filed as provided in this article; but noncompliance with its provisions by others than a party to a marriage does not invalidate it.

4201. All persons about to be joined in marriage must first obtain a license therefor, from a county clerk, which license must show all of the following:

(1) The identity of the parties.

(2) Their real and full names, and places of residence.

(3) Their ages.

No license shall be granted when either of the parties, applicants therefor, is an imbecile, or insane, or is at the time of making the application for the license, under the influence of any intoxicating liquor, or narcotic drug. If the male is under the age of 21 years, or the female is under the age of 18 years, and such person has not been previously married as provided in Section 25, no license may be issued by the county clerk unless both parties are capable of consenting to and consummating marriage as provided for in Section 4101 and such consent or consents or court orders, provided for in Section 4102, must be filed by the clerk. Each applicant may be required to present authentic identification as to name. For the purpose of ascertaining all the facts mentioned or required in this section, the clerk, at the time the license is applied for may, if he deems it necessary in order to satisfy

himself as to matters enumerated in this section, examine the applicants for a license on oath, which examination shall be reduced to writing by the clerk, and subscribed by them; or, if necessary, the clerk may request additional documentary proof as to the accuracy of the facts stated. Applicants for a license pursuant to this section shall not be required to state, for any purpose, their race or color.

The forms for the application for license to marry and the marriage license shall be prescribed by the State Department of Public Health, and shall be adapted to set forth the facts required in this section.

4202. All persons about to be joined in marriage must obtain from the county clerk of the county in which the license is issued, in addition to the license therefor provided for in Section 4201, a certificate of registry of marriage as provided in Division 9 (commencing with Section 10000) of the Health and Safety Code containing the items therein listed which certificate of registry of marriage shall be filled out as provided, in the presence of the county clerk issuing the marriage license and shall then be presented to the person performing the ceremony who shall complete the certificate thereon and shall cause to be entered thereon the signature and address of one witness to the marriage ceremony. Such certificate of registry of marriage shall be filed by the person performing the ceremony with the county recorder of the county in which the license was issued within four days after the ceremony.

4203. Upon the loss or destruction of a certificate of registry of marriage subsequent to the marriage ceremony but before filing with the county recorder in order to comply with Section 4202, the person solemnizing the marriage shall obtain a duplicate certificate of registry of marriage by filing an affidavit setting forth the facts with the county clerk of the county in which the license was issued.

The fee for issuing such duplicate license and certificate is two dollars and fifty cents ($2.50).

4204. A license issued pursuant to Section 4201 shall expire 90 days after its issuance and the calendar date of expiration shall be clearly noted on the face of each such license.

The county clerk shall number each license issued, and shall transmit at periodic intervals to the county recorder a list of the licenses issued. Not later than 60 days after the date of issuance the county recorder shall notify those parties whose certificates have not been filed of that fact and that the license will automatically expire on the date shown on the face of the license. The county recorder shall also notify the licenseholders of the obligation of the person marrying them to return the certificate of registry and endorsed license to the recorder's office within four days after the ceremony.

4205. Marriage may be solemnized by any judge of a court of record or justice court in this state or by any priest, minis-

ter or rabbi of any religious denomination, of the age of 21 years or over.

4206. No particular form for the ceremony of marriage is required, but the parties must declare, in the presence of the person solemnizing the marriage, that they take each other as husband and wife.

4207. The person solemnizing a marriage must first require the presentation of the marriage license; and if he has any reason to doubt the correctness of its statement of facts, he must first satisfy himself of its correctness, and for that purpose he may administer oaths and examine the parties and witnesses in like manner as the county clerk does before issuing the license.

4208. The person solemnizing a marriage must make, sign and endorse upon or attach to the license a statement, in the form prescribed by the State Department of Public Health showing all of the following:

(1) The fact, time and place of solemnization.

(2) The names and places of residence of one or more witnesses to the ceremony.

(3) A statement of the official position of the person solemnizing the marriage, or of the denomination of which such person is a priest, minister or clergyman. The person solemnizing the marriage shall also type or print his name and address.

The marriage license, thus endorsed, shall be returned to the county recorder of the county in which the license was issued within four days after the ceremony.

4209. The person solemnizing a marriage must, at the request of, and for either party, issue a marriage certificate showing the facts specified in Section 4208.

4210. If no record of the solemnization of a marriage heretofore contracted, be known to exist, the parties may join in a written declaration of such marriage, substantially showing all of the following:

(1) The names, ages, and residences of the parties.

(2) The fact of marriage.

(3) That no record of such marriage is known to exist.

Such declaration shall be subscribed by the parties and attested by at least three witnesses.

4211. Declarations of marriage must be acknowledged and recorded in like manner as grants of real property.

4212. If either party to any marriage denies the same, or refuses to join in a declaration thereof, the other may proceed, by action in the superior court, to have the validity of the marriage determined and declared.

If the female party to any marriage, who has reached the age of 18 years, desires to have the validity of such marriage established in order to establish the fact or time, or both, of her attaining majority, she may proceed, by action in the superior court, brought against the husband, to have the va-

lidity of the marriage determined and declared and the fact or time, or both, of her attaining majority established and declared; and even though she be under the age of 21 years, such action may be commenced and prosecuted by her in her own name and right, and need not be brought or prosecuted in her behalf by general guardian or by a guardian ad litem; but if she has a general guardian of her estate he shall, unless he prosecutes the action on her behalf, be joined as a defendant together with the husband, in which latter event no judgment shall be made in such action until such general guardian of the estate has either appeared in the action, or defaulted after due service of summons on him; and provided further, that if the petitioner in such action has no general guardian of her estate the court may, in its discretion require the appointment of a guardian ad litem to prosecute the action on her behalf and to safeguard her interests in the action.

4213. When unmarried persons, not minors, have been living together as man and wife, they may, without a license, be married by any clergyman. A certificate of such marriage shall be made by the clergyman, delivered to the parties, and recorded upon the records of the church of which the clergyman is a representative. No other record need be made.

4214. All marriages that have heretofore been, or that may hereafter be consummated under the provisions of Section 4213 are hereby declared to be valid.

4215. The provisions of this article, so far as they relate to the solemnizing of marriages, are not applicable to members of any particular religious denomination having, as such, any peculiar mode of entering the marriage relation; but such marriages must be declared, as provided in Section 4210, and be acknowledged and recorded, as provided in Section 4211. Where a marriage is declared as provided in Section 4210 the husband must file said declaration with the county recorder within 30 days after such marriage, and upon receiving the same the county recorder must record the same; and if the husband fails to make such declaration and file the same for record, as herein provided, he is liable to the same penalties as any person authorized to solemnize marriages, who fails to make the return of such solemnization as provided by law.

Article 3. Premarital Examination

4300. Before any person, who is or may hereafter be authorized by law to issue marriage licenses, shall issue any such license, each applicant therefor shall file with him a certificate from a duly licensed physician which certificate shall state that the applicant has been given such examination, including a standard serological test, as may be necessary for the discovery of syphilis, made not more than 30 days prior to the date of issuance of such license, and that, in the opinion of such physician, the person either is not infected with syphi-

lis, or if so infected, is not in a stage of that disease which is or may become communicable to the marital partner.

Any person who by law is validly able to obtain a marriage license in the State of California is validly able to give consent to any examinations and tests required by this article. In submitting the blood specimen to the laboratory the physician shall designate that this is a premarital test.

4301. The certificate shall be accompanied by a statement from the person in charge of the laboratory making the test, or from some other person authorized to make such reports, setting forth the name of the test, the date it was made, the name and address of the physician to whom the test was sent and the name and address of the person whose blood was tested.

4302. Except as hereinafter provided, the certificate of a physician and the statement from a person in charge of a laboratory or from a person authorized to make reports for the laboratory shall be on a form to be provided and distributed by the State Department of Public Health to laboratories in the state approved by the State Department of Public Health. This form is hereinafter referred to in this article as "the certificate form."

4303. Certificate forms provided by other states having comparable laws will be accepted for persons who have been examined and who have received serological tests for syphilis outside of California provided such examinations and tests are performed not more than 30 days prior to the issuance of a marriage license. Certificates provided by the armed forces of the United States will be accepted for military personnel provided such certificates are signed by a medical officer commissioned in such armed forces and provided the certificates state the examinations and serological tests for syphilis were performed not more than 30 days prior to the issuance of the marriage license.

4304. For the purpose of this article a standard serological test shall be a test for syphilis approved by the State Department of Public Health and an approved laboratory shall be the laboratory of the State Department of Public Health or a laboratory approved by the State Department of Public Health or any other laboratory the director of which is licensed by the State Department of Public Health according to law. In case of question concerning accuracy of tests prescribed in this article, it shall be mandatory upon the State Department of Public Health to accept specimens for checking purposes from any district in the state.

4305. The laboratory shall submit such laboratory reports or records to the State Department of Public Health as are required by regulation of the State Board of Public Health. The health officer may destroy any copies of reports retained by him pursuant to this section for a period of two years.

4306. The judge of the superior court in the county in which the license is to be issued is hereby authorized and empowered, on joint application by both parties to a marriage, to waive the requirements as to medical examinations, laboratory tests, and certificates and to order the licensing authority to issue the license applied for, if all other requirements of the marriage laws have been complied with, and if the judge is satisfied by affidavit or other proof that an emergency or other sufficient cause for such action exists and that the public health and welfare will not be injuriously affected thereby.

In any case where such examinations and tests have been made and certificate or certificates have been refused because one or both of the applicants have been found to be infected with syphilis, the judge shall nevertheless be authorized and empowered, on application of both parties to such marriage to order the licensing authority to issue the license, if all other requirements of the marriage laws have been complied with and if the judge is satisfied by affidavit or other proof that an emergency or other sufficient cause for such order exists and that the public health and welfare will not be injuriously affected thereby. In every such case, however, the clerk of the court shall transmit to the State Department of Public Health a transcript of the record and the order thereon for such followup by the department as is required by law or deemed necessary by the department for the protection of the public health. The order of the court shall be filed by the licensing authority in lieu of the certificate form.

The superior court when it is deemed necessary may, to the extent authorized by law or rules of court, order all proceedings instituted under the provisions of this article to be confidential and private. There shall be no fee for these court proceedings.

4307. The certificate forms and the court orders shall be filed in the office of the county clerk. They shall be preserved for one year from the date of filing after which date they may be destroyed.

4308. Any applicant for a marriage license, physician, or representative of a laboratory who shall misrepresent his identity or any of the facts called for by the certificate form prescribed by this article; or any licensing officer who shall issue a marriage license without having received the certificate form or an order from the court, or who shall have reason to believe that any of the facts on the certificate form have been misrepresented, and shall nevertheless issue a marriage license; or any person who shall otherwise fail to comply with the provisions of this article shall be guilty of a misdemeanor.

4309. Certificates, laboratory statements or reports, applications and court orders, in this article referred to and the information therein contained, shall be confidential and shall not be divulged to or open to inspection by any person other

than state or local health officers or their duly authorized representatives.

Any person who shall divulge such information or open to inspection such certificates, statements, reports, applications or court orders, without authority, to any person not by law entitled to the same shall be guilty of a misdemeanor.

TITLE 2. JUDICIAL DETERMINATION OF VOID OR VOIDABLE MARRIAGE

CHAPTER 1. VOID MARRIAGE

4400. Marriages between parents and children, ancestors and descendants of every degree, and between brothers and sisters of the half as well as the whole blood, and between uncles and nieces or aunts and nephews, are incestuous, and void from the beginning, whether the relationship is legitimate or illegitimate.

4401. A subsequent marriage contracted by any person during the life of a former husband or wife of such person, with any person other than such former husband or wife, is illegal and void from the beginning, unless:

(1) The former marriage has been dissolved or declared a nullity prior to the date of the subsequent marriage.

(2) The former husband or wife is absent, and not known to such person to be living for the space of five successive years immediately preceding the subsequent marriage, or is generally reputed or believed by such person to be dead at the time such subsequent marriage was contracted, in either of which cases the subsequent marriage is valid until its nullity is adjudged pursuant to subdivision (b) of Section 4425.

CHAPTER 2. VOIDABLE MARRIAGE

4425. A marriage is voidable if any of the following conditions existed at the time of the marriage:

(a) The party who commences the proceeding or on whose behalf the proceeding is commenced was without the capability of consenting thereto as provided in Section 4101, unless, after attaining the age of consent, such party for any time freely cohabited with the other as husband and wife.

(b) The husband or wife of either party was living and the marriage with such husband or wife was then in force, provided, however, that such husband or wife was absent and not known to the party commencing the proceeding to be living for a period of five successive years immediately preceding the subsequent marriage for which the judgment of nullity is sought, or was generally reputed or believed by such party to be dead at the time such subsequent marriage was contracted.

(c) Either party was of unsound mind, unless such party, after coming to reason, freely cohabited with the other as husband and wife.

(d) The consent of either party was obtained by fraud, unless such party afterwards, with full knowledge of the facts constituting the fraud, freely cohabited with the other as husband or wife.

(e) The consent of either party was obtained by force, unless such party afterwards freely cohabited with the other as husband or wife.

(f) Either party was, at the time of marriage, physically incapable of entering into the marriage state, and such incapacity continues, and appears to be incurable.

4426. A proceeding to obtain a judgment of nullity of marriage, for causes set forth in Section 4425, must be commenced within the periods and by the parties, as follows:

(a) For causes mentioned in subdivision (a): by the party to the marriage who was married under the age of legal consent, within four years after arriving at the age of consent; or by a parent, guardian, or other person having charge of such nonaged male or female, at any time before such married minor has arrived at the age of legal consent.

(b) For causes mentioned in subdivision (b): by either party during the life of the other, or by such former husband or wife.

(c) For causes mentioned in subdivision (c): by the party injured, or relative or guardian of the party of unsound mind, at any time before the death of either party.

(d) For causes mentioned in subdivision (d): by the party injured, within four years after the discovery of the facts constituting the fraud.

(e) For causes mentioned in subdivision (e): by the injured party, within four years after the marriage.

(f) For causes mentioned in subdivision (f): by the injured party, within four years after the marriage.

CHAPTER 3. SUPPLEMENTARY PROVISIONS

4450. A proceeding based on void or voidable marriage shall be commenced by filing in the superior court a petition entitled "In re the marriage of _____ and _____" which shall state that it is a petition for a judgment of nullity of the marriage. A copy of the petition together with a copy of a summons in a form and content approved by the Judicial Council shall be served upon the other party to the marriage in the same manner as service of papers in civil actions generally.

4451. A judgment of nullity is conclusive only as to the parties to the proceeding and those claiming under them.

4452. Whenever a determination is made that a marriage is void or voidable and the court finds that either party or both parties believed in good faith that the marriage was valid, the court shall declare such party or parties to have the status of a putative spouse, and shall divide, in accordance with Section

4800, that property acquired during the union which would have been community property or quasi-community property if the union had not been void or voidable. Such property shall be termed "quasi-marital property". If the division of property is in issue and the court expressly reserves jurisdiction, it may make the property division at a time subsequent to the judgment.

4453. The issue of a void or voidable marriage is legitimate, and a judgment of nullity does not affect the legitimacy of children conceived or born before the issuance of such judgment. The court may, during the pendency of proceedings to have a marriage adjudged a nullity, or at any time thereafter, make such orders for the care, maintenance and support of such children in the same manner as if the marriage had not been void or voidable.

4454. Custody of the children of a marriage adjudged a nullity shall be determined according to Section 4600.

4455. The court may, during the pendency of a proceeding to have a marriage adjudged a nullity, or upon judgment, order the other party to pay for the support of such party in the same manner as if the marriage had not been void or voidable, provided that the parties are found to be putative spouses and the party for whose benefit the order is made is found to be innocent of fraud or wrongdoing in inducing or entering into the marriage, and free from knowledge of the then existence of any prior marriage or other impediment to the contracting of the marriage sought to be annulled.

4456. The court may grant attorney's fees and costs in accordance with Section 4525 in proceedings to have the marriage adjudged void and in those proceedings based upon voidable marriage in which the party applying for attorney's fees and costs is found to be innocent of fraud or wrongdoing in inducing or entering into the marriage, and free from knowledge of the then existence of any prior marriage or other impediment to the contracting of the marriage for which a judgment of nullity is sought.

4457. In any proceeding under this title, the court may restore the maiden name or former name of the wife regardless of whether or not a request was made therefor in the petition.

TITLE 3. DISSOLUTION OF MARRIAGE

CHAPTER 1. GENERAL PROVISIONS

4500. Marriage is dissolved only by (1) the death of one of the parties or (2) the judgment of a court of competent jurisdiction decreeing a dissolution of the marriage.

4501. The effect of a judgment decreeing a dissolution of the marriage is to restore the parties to the state of unmarried persons.

4502. In proceedings under this chapter, the superior court has jurisdiction to inquire into and render such judgments and make such orders as are appropriate concerning the status of the marriage, the custody and support of minor children of the marriage, the support of either party, the settlement of the property rights of the parties, and the award of attorneys' fees and costs.

4503. A proceeding for dissolution of the marriage or for legal separation shall be commenced by filing in the superior court a petition entitled "In re the marriage of _____ and _____" which shall state whether it is a petition for the dissolution of the marriage or a legal separation. A copy of the petition together with a copy of a summons in a form and content approved by the Judicial Council shall be served upon the other party to the marriage in the same manner as service of papers in civil actions generally.

4504. A responsive pleading, if any, shall be filed and served upon the other party within 30 days of the date of the service upon the respondent of a copy of the petition and summons.

4505. (a) In those counties which have established a conciliation court, the petitioner shall complete and file a questionnaire approved by the Judicial Council, concurrently with the filing of the petition.

(b) A blank copy of the questionnaire shall be served upon the respondent together with copies of the summons and petition. The respondent shall complete and file the questionnaire with his responsive pleading.

(c) The questionnaire shall be confidential and may be used only by the court, counsel for the parties, or persons authorized by the court.

4506. A court may decree a dissolution of the marriage or legal separation on either of the following grounds, which shall be pleaded generally:

(1) Irreconcilable differences, which have caused the irremediable breakdown of the marriage.

(2) Incurable insanity.

4507. Irreconcilable differences are those grounds which are determined by the court to be substantial reasons for not continuing the marriage and which make it appear that the marriage should be dissolved.

4508. (a) If from the evidence at the hearing and contained in the confidential questionnaire, the court finds that there are irreconcilable differences, which have caused the irremediable breakdown of the marriage, it shall order the dissolution of the marriage or a legal separation. If it appears that there is a reasonable possibility of reconciliation, the court shall continue the proceeding for a period not to exceed 30 days. During the period of the continuance, the court may make any order for the support and maintenance of the parties, the custody, support, maintenance, and education of the

minor children of the marriage, attorney fees, and for the preservation of the property of the parties. At any time after the termination of such 30-day period, either party may move for the dissolution of the marriage or a legal separation, and the court may enter its judgment decreeing such dissolution or separation.

(b) The court may not render a judgment decreeing the legal separation of the parties without the consent of both parties unless one party has not made a general appearance and the petition is one for legal separation. A judgment decreeing the legal separation of the parties shall not bar a subsequent judgment decreeing the dissolution of the marriage rendered pursuant to a petition for dissolution filed by either party.

4509. In any pleadings or proceedings for legal separation or dissolution of marriage under this part, including depositions and discovery proceedings, evidence of specific acts of misconduct shall be improper and inadmissible, except where child custody is in issue and such evidence is relevant to establish that parental custody would be detrimental to the child, or at the hearing where it is determined by the court to be necessary to establish the existence of irreconcilable differences.

4510. A marriage may be dissolved on the grounds of incurable insanity only upon proof, including competent medical or psychiatric testimony, that the insane spouse was at the time the petition was filed, and remains, incurably insane.

No decree granted on this ground shall relieve a spouse from any obligation imposed by law as a result of the marriage for the support of the spouse who is incurably insane, and the court may make such order for support, or require a bond therefor, as the circumstances require.

If the insane spouse has a general guardian or guardian of his person, other than the spouse bringing the action, the petition and summons shall be served upon the insane spouse and such guardian and he shall defend and protect the interests of the insane spouse. If the insane spouse has no general guardian or no guardian of his person, or if the spouse bringing the action is the general guardian or guardian of his person, the court shall appoint a guardian ad litem, who may be the district attorney or the county counsel, if any, to defend and protect the interests of the insane spouse. If a district attorney or county counsel is appointed guardian ad litem pursuant to this paragraph, his successor in the office of district attorney or county counsel, as the case may be, succeeds him as guardian ad litem, without further action by the court or parties.

4511. No decree of dissolution can be granted upon the default of one of the parties or upon any statement or finding of fact made by a referee; but the court must, in addition to any statement or finding of the referee, require proof of the grounds alleged, and such proof, if not taken before the

court, shall be by affidavit or declaration under penalty of perjury.

4512. In actions for dissolution of the marriage, the court must file its decision and conclusions of law as in other cases, and if it determines that no dissolution shall be granted, final judgment must therefore only be entered accordingly. If it determines that a dissolution ought to be granted, an interlocutory judgment must be entered declaring that the parties are entitled to have their marriage dissolved. After the entry of the interlocutory judgment, neither party shall have the right to dismiss the action without the consent of the other.

4513. In cases in which the court has determined that a decree of dissolution ought to be granted, but by mistake, negligence or inadvertence, the interlocutory judgment has not been signed, filed and entered, the court may cause the interlocutory judgment to be signed, dated, filed and entered therein as of the date when the same could have been signed, dated, filed and entered originally; provided, however, that it shall appear to the satisfaction of the court that no appeal is to be taken in the action or motion made for a new trial, to annul or set aside the judgment or for relief under Chapter 8 (commencing with Section 469) of Title 6 of Part 2 of the Code of Civil Procedure. Such action may be taken by the court on its own motion or upon the motion of either party thereto. In contested cases, the motion of a party shall be with notice to the other party. The court may cause such interlocutory judgment to be entered nunc pro tunc as aforesaid, even though an interlocutory judgment or final judgment or both judgments may have been previously entered, where by mistake, negligence or inadvertence the interlocutory judgment was not entered as soon as it could have been entered under the law if applied for. Upon the entry of such interlocutory judgment, the parties shall have the same rights to a final judgment that they would have had, had the interlocutory judgment been entered upon the date when it could have been entered originally.

4514. When an interlocutory judgment has been entered pursuant to Section 4512, and six months have expired from the date of service of a copy of summons and complaint, or the date of appearance of the respondent, the court on motion of either party, or upon its own motion, may enter the final judgment dissolving the marriage, and such final judgment shall restore them to the status of single persons, and permit either to marry after the entry thereof; and such other and further relief as may be necessary to complete disposition of the action, but if any appeal is taken from the interlocutory judgment or motion for a new trial made, final judgment shall not be entered until such motion or appeal has been finally disposed of, nor then, if the motion has been granted or judgment reversed. The death of either party after the entry of the interlocutory judgment does not impair the power of the court

to enter final judgment as hereinbefore provided; but such entry shall not validate any marriage contracted by either party before the entry of such final judgment, nor constitute any defense of any criminal prosecution made against either.

4515. Whenever either of the parties in a proceeding for dissolution of the marriage is, under the law, entitled to a final judgment, but by mistake, negligence or inadvertence the same has not been signed, filed and entered, if no appeal has been taken from the interlocutory judgment or motion made for a new trial to annul or set aside the judgment or for relief under Chapter 8 (commencing with Section 469) of Title 6 of Part 2 of the Code of Civil Procedure, the court, on the motion of either party thereto or upon its own motion, may cause a final judgment to be signed, dated, filed and entered therein granting the divorce as of the date when the same could have been given or made by the court if applied for. The court may cause such final judgment to be signed, dated, filed and entered nunc pro tunc as aforesaid, even though a final judgment may have been previously entered where by mistake, negligence or inadvertence the same has not been signed, filed or entered as soon as it could have been entered under the law if applied for. Upon the filing of such final judgment, the parties to such action shall be deemed to have been restored to the status of single persons as of the date affixed to such judgment, and any marriage of either of such parties subsequent to six months after the date of service of a copy of the summons and petition upon, or appearance by, the respondent spouse, as shown by the minutes of the court, and after the final judgment could have been entered under the law if applied for, such shall be valid for all purposes as of the date affixed to such final judgment, upon the filing thereof.

4516. During the pendency of any proceeding under Title 3 (commencing with Section 4500) or Title 4 (commencing with Section 4600) of this part, the superior court may order the husband or wife, or father or mother, as the case may be, to pay any amount that is necessary for the support and maintenance of the wife or husband and for the support, maintenance, and education of the children, as the case may be. An order made pursuant to this section shall not prejudice the rights of the parties or children with respect to any subsequent order which may be made. Any such order may be modified or revoked at any time except as to any amount that may have accrued prior to the date of filing of the notice of motion or order to show cause to modify or revoke.

4517. In any proceeding under Chapter 1 (commencing with Section 4400) or Chapter 2 (commencing with Section 4425) of Title 2 of this part or under this chapter, upon a determination that payment of an obligation of a party would benefit either party or a minor child, the court may order one of the parties to pay the obligation, or any portion thereof, directly to the creditor. The creditor shall have no right to

enforce the order nor shall his rights be affected by such determination.

4518. During the pendency of any proceeding under Chapter 1 (commencing with Section 4400) or Chapter 2 (commencing with Section 4425) of Title 2 of this part, or under this chapter, upon application of either party in the manner provided by Section 527 of the Code of Civil Procedure, the superior court may issue ex parte orders (1) restraining any person from transferring, encumbering, hypothecating, concealing, or in any way disposing of any property, real or personal, whether community, quasi-community, or separate, except in the usual course of business or for the necessities of life, and if such order is directed against a party, requiring him to notify the other party of any proposed extraordinary expenditures and to account to the court for all such extraordinary expenditures; (2) enjoining any party from molesting or disturbing the peace of the other party; (3) excluding either party from the family dwelling or from the dwelling of the other upon a showing that physical or emotional harm would otherwise result, as provided in Section 5102; and (4) determining the temporary custody of any minor children of the marriage.

4519. The court may, when it considers it necessary in the interests of justice and the persons involved, direct the trial of any issue of fact joined in proceedings under this title to be private, and may exclude all persons except the officers of the court, the parties, their witnesses and counsel.

4520. Any evidence collected by eavesdropping in violation of Chapter 1.5 (commencing with Section 630) of Title 15 of Part 1 of the Penal Code is inadmissible in any proceeding for dissolution of the marriage or legal separation or for a declaration of void or voidable marriage. If it appears that such a violation exists, the court may refer the matter to the proper authority for investigation and prosecution.

4521. In any proceeding under this part, except an action for legal separation, the court may restore the maiden or former name of the wife regardless of whether or not a request therefor was included in the petition.

CHAPTER 2. PROVISIONS FOR ATTORNEYS' FEES AND COSTS

4525. (a) During the pendency of any proceeding under this part, the court may order the husband or wife, or father or mother, as the case may be, to pay such amount as may be reasonably necessary for the cost of maintaining or defending the proceeding and for attorneys' fees; and from time to time and before entry of judgment, the court may augment or modify the original award for costs and attorneys' fees as may be reasonably necessary for the prosecution or defense of the proceeding or any proceeding relating thereto. In respect to services rendered or costs incurred after the entry of judgment, the court may award such costs and attorneys' fees as

may be reasonably necessary to maintain or defend any subsequent proceeding therein, and may thereafter augment or modify any award so made. Attorneys' fees and costs within the provisions of this subdivision may be awarded for legal services rendered or costs incurred prior, as well as subsequent, to the commencement of the proceeding.

(b) During the pendency of any proceeding under this part, an application for a temporary order making, augmenting, or modifying an award of attorneys' fees or costs or both shall be made by motion on notice or by an order to show cause, except that it may be made without notice by an oral motion in open court:

(1) At the time of the hearing of the cause on the merits; or

(2) At any time prior to entry of judgment against a party whose default has been entered pursuant to Section 585 or 586 of the Code of Civil Procedure.

4526. When the court orders one of the parties to pay costs and attorneys' fees, such costs and fees may, in the discretion of the court, be made payable in whole or in part to the attorney entitled thereto. An order of the court providing for payment of such costs and fees may be enforced directly by such attorney in his own name or by the party in whose behalf such order was made, provided that if such attorney has ceased to be such, it shall be a condition of such enforcement, and must appear of record, that such attorney shall have given to his former client or successor counsel 10 days' written notice of his application for such enforcement, and during such period the client may file in such proceeding a motion directed to such former attorney for partial or total reallocation of fees and costs to cover the services and cost of successor counsel, in which event such proceeding shall be stayed until the court has resolved such motion.

CHAPTER 3. RESIDENCE REQUIREMENTS

4530. (a) A judgment decreeing the dissolution of a marriage may not be entered unless one of the parties to the marriage has been a resident of this state for six months and of the county in which the proceeding is filed for three months next preceding the filing of the petition.

(b) In any proceeding for legal separation in which neither party, at the time such proceeding was commenced, has complied with the residence requirements of subdivision (a), either party may, upon complying with such residence requirements, amend his petition or responsive pleading in such proceeding to request that a judgment decreeing the dissolution of the marriage be entered and the date of the filing of such amended petition or pleading shall be deemed to be the date of commencement of the proceeding for the dissolution of the marriage for the purposes only of the residence requirements

of subdivision (a). Notice of such amendment shall be given to the other party in the manner provided by rules adopted by the Judicial Council.

4531. In proceedings for a dissolution of marriage neither the domicile nor residence of the husband shall be deemed to be the domicile or residence of the wife. For the purpose of such proceeding each may have a separate domicile or residence depending upon proof of the fact and not upon legal presumptions.

CHAPTER 4. ENFORCEMENT OF JUDGMENTS, ORDERS, AND DECREES

4540. Any judgment, order, or decree of the court made or entered pursuant to this part may be enforced by the court by execution, attachment, the appointment of a receiver, contempt, or by such other order or orders as the court in its discretion may from time to time deem necessary.

TITLE 4. CUSTODY OF CHILDREN

4600. In any proceeding where there is at issue the custody of a minor child, the court may, during the pendency of the proceeding, or at any time thereafter, make such order for the custody of such child during his minority as may seem necessary or proper. If a child is of sufficient age and capacity to reason so as to form an intelligent preference as to custody, the court shall consider and give due weight to his wishes in making an award of custody or modification thereof. Custody should be awarded in the following order of preference:

(a) To either parent according to the best interests of the child, but, other things being equal, custody shall be given to the mother if the child is of tender years.

(b) To the person or persons in whose home the child has been living in a wholesome and stable environment.

(c) To any other person or persons deemed by the court to be suitable and able to provide adequate and proper care and guidance for the child.

Before the court makes any order awarding custody to a person or persons other than a parent, without the consent of the parents, it must make a finding that an award of custody to a parent would be detrimental to the child, and the award to a nonparent is required to serve the best interests of the child. Allegations that parental custody would be detrimental to the child, other than a statement of that ultimate fact, shall not appear in the pleadings. The court may, in its discretion, exclude the public from the hearing on this issue.

4601. Reasonable visitation rights shall be awarded to a parent unless it is shown that such visitation would be detrimental to the best interests of the child. In the discretion of the court, reasonable visitation rights may be granted to any other person having an interest in the welfare of the child.

4602. In any proceeding under this part, when so directed by the court, the probation officer or domestic relations investigator shall conduct a custody investigation and file a written report thereon, which report may be considered by the court and shall be made available to all interested parties or their attorneys at least 10 days before any hearing regarding the custody of a child. Such report may be received in evidence upon stipulation of all interested parties.

4603. Without filing a petition pursuant to Section 4503, husband or wife may bring an action for the exclusive custody of the children of the marriage. The court may, during the pendency of such action, or at the final hearing thereof, or afterwards, make such order or decree in regard to the support, care, custody, education and control of the children of the marriage as may be just and in accordance with the natural rights of the parents and the best interests of the children. Such order or decree may be modified or revoked at any time thereafter as the natural rights of the parties and the best interests of the children may require.

TITLE 5. SUPPORT OF CHILDREN

4700. (a) In any proceeding where there is at issue the support of a minor child, the court may order either or both parents to pay any amount necessary for the support, maintenance, and education of the child. Upon a showing of good cause, the court may order the parent or parents required to make such payment of support to give reasonable security therefor. Any order for child support may be modified or revoked as the court may deem necessary, except as to any amount that may have accrued prior to the date of the filing of the notice of motion or order to show cause to modify or revoke. The order of modification or revocation shall be made retroactive to the date of filing of the notice of motion or order to show cause to modify or revoke.

(b) When a court orders a person to make specified payments for support of a child during the child's minority, or until such child is married or otherwise emancipated, the liability of such person terminates upon the happening of such contingency. If the custodial parent or other person having physical custody of the child, to whom payments are to be made, fails to notify the person ordered to make such payments, or the attorney of record of such person, of the happening of such contingency, and continues to accept support payments, such person must refund any and all moneys received which accrued after the happening of such contingency, except that such overpayments must first be applied to any and all support payments which are then in default. The court may, in the original order for support, order the custodial parent or other person to whom payments are to be made to notify the person ordered to make such payments, or his attorney of record, of the happening of such contingency.

(c) In the event obligations for support of a child are discharged in bankruptcy, the court may make all proper orders for the support, maintenance and education of such child, as the court may deem just.

4701. In any proceeding where the court has ordered either or both parents to pay any amount for the support of a minor child, the court may order either parent or both parents to assign to the county clerk, probation officer, or other officer of the court or county officer designated by the court to receive such payment, that portion of salary or wages of either parent due or to be due in the future as will be sufficient to pay the amount ordered by the court for the support, maintenance and education of the minor child. Such order shall constitute the assignment and be binding upon an employer upon the service of a copy of such order upon such employer and until further order of the court. The employer may deduct the sum of one dollar ($1) for each payment made pursuant to such order. Any such order may be modified or revoked at any time by the court. Any such assignment made pursuant to court order shall have priority as against any attachment, execution, or other assignment, unless otherwise ordered by the court.

4702. (a) In any proceeding where a court makes or has made an order requiring payment of child support to a parent receiving welfare moneys for the maintenance of minor children, the court shall direct that payments of support be made to the county clerk, probation officer, or other officer of the court or county officer designated by the court for such purpose, and shall direct the district attorney to appear on behalf of such welfare recipient in any proceeding to enforce such order.

(b) In any proceeding where a court makes or has made an order requiring payment of child support to a former spouse having custody of any minor children of the marriage, the court may direct that payments thereof be made to the county clerk, probation officer, or other officer of the court or county officer designated by the court for such purpose, and may direct the district attorney to appear on behalf of such minor children in any action to enforce such order. The court shall include in its order any service charge imposed under the authority of Section 580.5 of the Welfare and Institutions Code.

(c) Expenses of the county clerk, probation officer, or other officer of the court or county officer designated by the court, and expenses of the district attorney incurred in the enforcement of any order of the type described in subdivision (a) or (b), shall be a charge upon the county where the proceedings are pending. Any fees for service of process in the enforcement of any such order shall be a charge upon the county where the process is served.

4703. When a parent has the duty to provide for the support, maintenance, or education of his child and willfully fails to so provide, either parent, or the child by his guardian

ad litem, may bring an action in the superior court against the errant parent for the support, maintenance, or education of the child.

TITLE 6. PROPERTY RIGHTS OF THE PARTIES

4800. The court shall, either (a) in its interlocutory judgment decreeing the dissolution of the marriage or in its judgment decreeing the legal separation of the parties, or (b) at a later time, if the division of property is in issue and it expressly reserves jurisdiction to make such a property division, divide the community property and the quasi-community property of the parties equally. The equal division provisions of this section shall not prevent the court:

(1) Where economic circumstances warrant, from awarding any asset to one party on such conditions as the court deems proper to effect a substantially equal division of the property;

(2) By way of an additional award or offset against existing property from awarding from a party's share any sum the court determines to have been deliberately misappropriated by such party to the exclusion of the community property or quasi-community property interest of the other party.

Community property personal injury damages shall be assigned to the party who suffered the injuries unless the court, after taking into account the economic condition and needs of each party, the time that has elapsed since the recovery of the damages, and all other facts of the case, determines that the interests of justice require another disposition, in which case the community property personal injury damages shall be assigned to the respective parties in such proportions as the court determines to be just under the facts of the case. As used in this section, "community property personal injury damages" means all money or other property received by a married person as community property in satisfaction of a judgment for damages for his or her personal injuries or pursuant to an agreement for the settlement or compromise of a claim for such damages, unless such money or other property has been commingled with other community property.

4801. (a) In any judgment decreeing the dissolution of a marriage or a legal separation of the parties, the court may order a party to pay for the support of the other party any amount, and for such period of time, as the court may deem just and reasonable having regard for the circumstances of the respective parties, including the duration of the marriage, and the ability of the supported spouse to engage in gainful employment without interfering with the interests of the children of the parties in the custody of such spouse. The court may order the party required to make such payment of support to give reasonable security therefor. Any order for support of the other party may be modified or revoked as the court may deem necessary, except as to any amount that may have accrued prior to the date of the filing of the notice of motion or

order to show cause to modify or revoke. The order of modification or revocation may be made retroactive to the date of filing of the notice of motion or order to show cause to modify or revoke.

(b) Except as otherwise agreed by the parties in writing, the obligation of any party under any order or judgment for the support and maintenance of the other party shall terminate upon the death of the obligor or upon the remarriage of the other party.

(c) Except as otherwise agreed by the parties in writing, the court may, upon petition of either party, modify or revoke any decree or judgment granting any allowance to the other party upon proof that the wife is living with another man and holding herself out as his wife, although not married to such man, or that the husband is living with another woman and holding himself out as her husband, although not married to such woman, except as to any amount that may have accrued prior to the filing of the petition.

(d) When a court orders a person to make specified payments for support of the other party for a contingent period of time, the liability of such person terminates upon the happening of such contingency. If the party to whom payments are to be made fails to notify the person ordered to make such payments, or the attorney of record of such person, of the happening of such contingency and continues to accept support payments, such party shall refund any and all moneys received which accrued after the happening of such contingency, except that such overpayments shall first be applied to any and all support payments which are then in default. The court may, in the original order for support, order the party to whom payments are to be made to notify the person ordered to make such payments, or his attorney of record, of the happening of such contingency.

(e) An order for payment of an allowance for the support of one of the parties shall terminate at the end of the period specified in the order and shall not be extended unless the court in its original order retains jurisdiction.

4802. Except as provided in Section 4811 or subdivision (b) of Section 4801, a husband and wife cannot, by any contract with each other, alter their legal relations, except as to property, and except that they may agree, in writing, to an immediate separation, and may make provision for the support of either of them and of their children during such separation or upon the dissolution of their marriage. The mutual consent of the parties is a sufficient consideration for such an agreement.

4803. As used in this part, "quasi-community property" means all personal property wherever situated and all real property situated in this state heretofore or hereafter acquired as follows:

(a) By either spouse while domiciled elsewhere which would have been community property had the spouse acquir-

ing the property been domiciled in this state at the time of its acquisition.

(b) In exchange for real or personal property, wherever situated, acquired other than by gift, devise, bequest or descent by either spouse during the marriage while domiciled elsewhere.

For the purposes of this section, personal property does not include and real property does include leasehold interests in real property.

4804. As used in this title and Section 5132, "separate property" does not include quasi-community property.

4805. In the enforcement of any decree, judgment or order rendered pursuant to the provisions of this part, the court must resort:

(a) To the community property; then,

(b) To the quasi-community property; then,

(c) To the separate property of the party required to make such payments.

4806. When either party in a proceeding under this part has either a separate estate, or is earning his or her own livelihood, or there is community property or quasi-community property sufficient to give him or her proper support, or if the custody of the children has been awarded to the other party, who is supporting them, the court may withhold any allowance to him out of the separate property of the other party. Where there are no children, and either party has a separate estate sufficient for his or her proper support, no allowance shall be made from the separate estate of the other party.

4807. The community property, the quasi-community property and the separate property may be subjected to the support, maintenance, and education of the children in such proportions as the court deems just.

4808. In any judgment decreeing the dissolution of the marriage or the legal separation of the parties, the court shall assign the homestead as follows:

(a) If a homestead has been selected from the community property or the quasi-community property, it may be assigned either absolutely or for a limited period to either party, subject, in the latter case, to the future disposition of the court, or it may, in the discretion of the court, be divided, or be sold and the proceeds divided.

(b) If the homestead has been selected from the separate property of either, it shall be assigned to the former owner of such property, subject to the power of the court to assign it to the other party for a limited period not to exceed the life of such party.

(c) This section shall not limit the power of the court to make temporary assignment of the homestead at any stage of the proceedings.

(d) Whenever necessary to carry out the purpose of this section, the court may order a partition or sale of the property and a division or other disposition of the proceeds.

4809. After the entry of a final judgment decreeing the dissolution of the marriage or the legal separation of the parties, or after a declaration of void or voidable marriage, or after a permanent order in any other proceeding in which there was at issue the custody, support, maintenance, or education of a minor child, no modification of such judgment, order, or decree, and no subsequent order in such proceedings shall be valid unless any prior notice otherwise required to be given to a party to the proceeding be served, in such manner as such notice is otherwise permitted by law to be served, upon the party himself. For such purpose, service upon the attorney of record shall not be sufficient.

4810. The disposition of the community property, of the quasi-community property and of the homestead, as above provided, is subject to revision on appeal in all particulars, including those which are stated to be in the discretion of the court.

4811. (a) The provisions of any agreement between the parties for child support shall be deemed to be separate and severable from all other provisions of such agreement relating to property and support of the wife or husband. All orders for child support shall be law-imposed and shall be made under the power of the court to make such orders. All such orders for child support, even when there has been an agreement between the parties on the subject of child support may be modified or revoked at any time at the discretion of the court, except as to any amount that may have accrued prior to the date of filing of the notice of motion or order to show cause to modify or revoke

(b) The provisions of any agreement for the support of either party shall be deemed to be separate and severable from the provisions of the agreement relating to property. All orders for the support of either party based on such agreement shall be deemed law-imposed and shall be deemed made under the power of the court to make such orders. The provisions of any agreement or order for the support of either party shall be subject to subsequent modification or revocation by court order except as to any amount that may have accrued prior to the date of filing of the notice of motion or order to show cause to modify or revoke, and except to the extent that any written agreement, or if there is no written agreement any oral agreement entered into in open court between the parties, specifically provides to the contrary.

(c) This section shall be effective only with respect to property settlement agreements entered into after the effective date of this section, and shall not be deemed to affect agreements entered into prior thereto, as to which the provisions of Chapter 1308 of the Statutes of 1967 shall apply.

4812. In the event obligations for support of a spouse are discharged in bankruptcy, the court may make all proper orders for the support of such spouse, as the court may deem just, having regard for the circumstances of the respective parties.

TITLE 7. UNIFORM DIVORCE RECOGNITION ACT

5000. This title may be cited as the Uniform Divorce Recognition Act.

5001. A divorce obtained in another jurisdiction shall be of no force or effect in this state, if both parties to the marriage were domiciled in this state at the time the proceeding for the divorce was commenced.

5002. Proof that a person hereafter obtaining a divorce from the bonds of matrimony in another jurisdiction was (a) domiciled in this state within 12 months prior to the commencement of the proceeding therefor, and resumed residence in this state within 18 months after the date of his departure therefrom, or (b) at all times after his departure from this state and until his return maintained a place of residence within this state, shall be prima facie evidence that the person was domiciled in this state, when the divorce proceeding was commenced.

5003. This title shall be so interpreted and construed as to effectuate its general purpose to make uniform the law of those states which enact it.

5004. The application of this title is limited by the requirement of the Constitution of the United States that full faith and credit shall be given in each state to the public acts, records, and judicial proceedings of every other state.

TITLE 8. HUSBAND AND WIFE

5100. Husband and wife contract toward each other obligations of mutual respect, fidelity, and support.

5101. The husband is the head of the family. He may choose any reasonable place or mode of living, and the wife must conform thereto.

5102. Neither husband nor wife has any interest in the property of the other, but neither can be excluded from the other's dwelling except as provided in Section 4518 or, in proceedings under Chapter 1 (commencing with Section 4400) or Chapter 2 (commencing with Section 4425) of Title 2 of this part, or under Chapter 1 (commencing with Section 4500) of Title 3 of this part, upon application of either party in the manner provided by Section 527 of the Code of Civil Procedure, the court may order the temporary exclusion of either party from the family dwelling or from the dwelling of the other upon a showing that harm would otherwise result, until the final determination of the proceeding.

5103. Either husband or wife may enter into any engagement or transaction with the other, or with any other person, respecting property, which either might if unmarried; subject, in transactions between themselves, to the general rules which control the actions of persons occupying confidential relations with each other, as defined by Title 8 (commencing with Section 2215) of Part 4 of Division 3.

5104. A husband and wife may hold property as joint tenants, tenants in common, or as community property.

5105. The respective interests of the husband and wife in community property during continuance of the marriage relation are present, existing and equal interests under the management and control of the husband as is provided in Sections 5125 and 5127. This section shall be construed as defining the respective interests and rights of husband and wife in community property.

5106. Notwithstanding the provisions of Sections 5105 and 5125, whenever payment or refund is made to an employee, former employee or his beneficiary or estate pursuant to a written retirement, death or other employee benefit plan or savings plan, such payment or refund shall fully discharge the employer and any trustee or insurance company making such payment or refund from all adverse claims thereto unless, before such payment or refund is made, the employer or former employer, where the payment is made by the employer or former employer, has received at its principal place of business within this state, written notice by or on behalf of some other person that such other person claims to be entitled to such payment or refund or some part thereof or where a trustee or insurance company is making the payment, such notice has been delivered by the employer to the home office of such trustee or such insurance company or has otherwise been received thereby. Nothing contained in this section shall affect any claim or right to any such payment or refund or part thereof as between all persons other than the employer and the trustee or insurance company making such payment or refund.

5107. All property of the wife, owned by her before marriage, and that acquired afterwards by gift, bequest, devise, or descent, with the rents, issues, and profits thereof, is her separate property. The wife may, without the consent of her husband, convey her separate property.

5108. All property owned by the husband before marriage, and that acquired afterwards by gift, bequest, devise, or descent, with the rents, issues, and profits thereof, is his separate property. The husband may, without the consent of his wife, convey his separate property.

5109. All money or other property paid by or on behalf of a married person to his spouse in satisfaction of a judgment for damages for personal injuries to the spouse or pursuant to an agreement for the settlement or compromise of a claim

for such damages is the separate property of the injured spouse.

5110. All other real property situated in this state and all other personal property wherever situated acquired during the marriage by a married person while domiciled in this state is community property; but whenever any real or personal property, or any interest therein or encumbrance thereon, is acquired by a married woman by an instrument in writing, the presumption is that the same is her separate property, and if acquired by such married woman and any other person the presumption is that she takes the part acquired by her, as tenant in common, unless a different intention is expressed in the instrument; except, that when any of such property is acquired by husband and wife by an instrument in which they are described as husband and wife, unless a different intention is expressed in the instrument, the presumption is that such property is the community property of said husband and wife and that when a single family residence of a husband and wife is acquired by them during marriage as joint tenants, for the purpose of the division of such property upon dissolution of marriage or legal separation only, the presumption is that such single family residence is the community property of said husband and wife. The presumptions in this section mentioned are conclusive in favor of any person dealing in good faith and for a valuable consideration with such married woman or her legal representatives or successors in interest, and regardless of any change in her marital status after acquisition of said property.

In cases where a married woman has conveyed, or shall hereafter convey, real property which she acquired prior to May 19, 1889, the husband, or his heirs or assigns, of such married woman, shall be barred from commencing or maintaining any action to show that the real property was community property, or to recover the real property from and after one year from the filing for record in the recorder's office of such conveyances, respectively.

As used in this section, personal property does not include and real property does include leasehold interests in real property.

5111. The presumption that property acquired during marriage is community property does not apply to any property to which legal or equitable title is held by a person at the time of his death if the marriage during which the property was acquired was terminated by dissolution of marriage more than four years prior to such death.

5112. If a married person is injured by the negligent or wrongful act or omission of a person other than his spouse, the fact that the negligent or wrongful act or omission of the spouse of the injured person was a concurring cause of the injury is not a defense in any action brought by the injured person to recover damages for such injury except in

cases where such concurring negligent or wrongful act or omission would be a defense if the marriage did not exist.

5113. (a) Where an injury to a married person is caused in whole or in part by the negligent or wrongful act or omission of his spouse, the community property may not be used to discharge the liability of the tortfeasor spouse to the injured spouse or his liability to make contribution to any joint tortfeasor until the separate property of the tortfeasor spouse, not exempt from execution, is exhausted.

(b) This section does not prevent the use of community property to discharge a liability referred to in subdivision (a) if the injured spouse gives written consent thereto after the occurrence of the injury.

(c) This section does not affect the right to indemnity provided by any insurance or other contract to discharge the tortfeasor spouse's liability, whether or not the consideration given for such contract consisted of community property.

5114. A full and complete inventory of the separate personal property of either spouse may be made out and signed by such spouse, acknowledged or proved in the manner required by law for the acknowledgment or proof of a grant of real property, and recorded in the office of the recorder of the county in which the parties reside.

5115. The filing of the inventory in the recorder's office is notice and prima facie evidence of the title of the party filing such inventory.

5116. The property of the community is not liable for the contracts of the wife, made after marriage, unless secured by pledge or mortgage thereof executed by the husband. Except as otherwise provided by law, the earnings of the wife are liable for her contracts heretofore or hereafter made before or after marriage.

5117. The earnings and community property personal injury damages of the wife are not liable for the debts of the husband; but, except as otherwise provided by law, such earnings and damages shall be liable for the payment of debts, heretofore or hereafter contracted by the husband or wife for the necessities of life furnished to them or either of them while they are living together. As used in this section, "community property personal injury damages" has the meaning given that term by subdivision (b) of Section 4800.

5118. The earnings and accumulations of the wife, and of her minor children living with her or in her custody, while she is living separate from her husband, are the separate property of the wife.

5119. (a) After the rendition of a judgment decreeing legal separation of the parties, the earnings or accumulations of each party are the separate property of the party acquiring such earnings or accumulations.

(b) After the rendition of an interlocutory judgment of dissolution of a marriage and while the parties are living

separate and apart, the earnings and accumulations of the husband are the separate property of the husband.

5120. Neither the separate property of the husband nor his earnings after marriage is liable for the debts of the wife contracted before the marriage.

5121. The separate property of the wife is liable for her own debts contracted before or after her marriage, but is not liable for her husband's debts; provided, that the separate property of the wife is liable for the payment of debts contracted by the husband or wife for the necessaries of life furnished to them or either of them while they are living together; provided, that the provisions of the foregoing proviso shall not apply to the separate property of the wife held by her at the time of her marriage or acquired by her by devise, succession, or gift, other than by gift from the husband, after marriage.

5122. (a) A married person is not liable for any injury or damage caused by the other spouse except in cases where he would be liable therefor if the marriage did not exist.

(b) The liability of a married person for death or injury to person or property may be satisfied only from the separate property of such married person and the community property of which he has the management and control.

5123. The separate property of the wife is not liable for any debt or obligation secured by a mortgage, deed of trust or other hypothecation of the community property, unless the wife expressly assents in writing to the liability of her separate property for such debt or obligation.

5124. Notwithstanding the provisions of Sections 5105 and 5125, the wife has the management and control of the community personal property earned by her, and the community personal property received by her in satisfaction of a judgment for damages for personal injuries suffered by her or pursuant to an agreement for the settlement or compromise of a claim for such damages, until it is commingled with community property subject to the management and control of the husband, except that the husband may use such community property received as damages or in settlement or compromise of a claim for such damages to pay for expenses incurred by reason of the wife's personal injuries and to reimburse his separate property or the community property subject to his management and control for expenses paid by reason of the wife's personal injuries.

The wife may not make a gift of the community property under her management and control, or dispose of the same without a valuable consideration, without the written consent of the husband. The wife may not make a testamentary disposition of such community property except as otherwise permitted by law.

This section shall not be construed as making such earnings or damages or property received in settlement or compromise

of such damages the separate property of the wife, nor as changing the respective interests of the husband and wife in such community property, as defined in Section 5105.

5125. Except as provided in Section 5128, the husband has the management and control of the community personal property, with like absolute power of disposition, other than testamentary, as he has of his separate estate; provided, however, that he cannot make a gift of such community personal property, or dispose of the same without a valuable consideration, or sell, convey, or encumber the furniture, furnishings, or fittings of the home, or the clothing or wearing apparel of the wife or minor children that is community, without the written consent of the wife.

5126. (a) All money or other property received by a married person in satisfaction of a judgment for damages for his personal injuries or pursuant to an agreement for the settlement or compromise of a claim for such damages is the separate property of the injured person if such money or other property is received as follows:

(1) After the rendition of a decree of legal separation or interlocutory judgment of dissolution of a marriage.

(2) While the wife, if she is the injured person, is living separate from her husband.

(3) After the rendition of an interlocutory decree of judgment of dissolution of a marriage and while the injured person and his spouse are living separate and apart.

(b) Notwithstanding subdivision (a), if the spouse of the injured person has paid expenses by reason of his spouse's personal injuries from his separate property or from the community property subject to his management and control, he is entitled to reimbursement of his separate property or the community property subject to his management and control for such expenses from the separate property received by his spouse under subdivision (a).

5127. Except as provided in Section 5128, the husband has the management and control of the community real property, but the wife, either personally or by duly authorized agent, must join with him in executing any instrument by which such community real property or any interest therein is leased for a longer period than one year, or is sold, conveyed, or encumbered; provided, however, that nothing herein contained shall be construed to apply to a lease, mortgage, conveyance, or transfer of real property or of any interest in real property between husband and wife; provided, also, however, that the sole lease, contract, mortgage or deed of the husband, holding the record title to community real property, to a lessee, purchaser or encumbrancer, in good faith without knowledge of the marriage relation shall be presumed to be valid. No action to avoid any instrument mentioned in this section, affecting any property standing of record in the name of the husband alone, executed by the husband alone, shall be commenced after

the expiration of one year from the filing for record of such instrument in the recorder's office in the county in which the land is situate, and no action to avoid any instrument mentioned in this section, affecting any property standing of record in the name of the husband alone, which was executed by the husband alone and filed for record prior to the time this act takes effect, in the recorder's office in the county in which the land is situate, shall be commenced after the expiration of one year from the date on which this act takes effect.

5128. Where one or both of the spouses are incompetent, the procedure for dealing with and disposing of community property is that prescribed in Chapter 2a (commencing with Section 1435.1) of Division 4 of the Probate Code.

5129. No estate is allowed the husband as tenant by courtesy upon the death of his wife, nor is any estate in dower allotted to the wife upon the death of her husband.

5130. If the husband neglects to make adequate provision for the support of his wife, except in the case mentioned in Section 5131, any other person may in good faith, supply her with articles necessary for her support, and recover the reasonable value thereof from the husband.

5131. A husband is not liable for his wife's support when she is living separate from him by agreement unless such support is stipulated in the agreement.

5132. The wife must support the husband while they are living together out of her separate property when he has no separate property, and there is no community property or quasi-community property and he is unable, from infirmity, to support himself.

For the purposes of this section, the terms "quasi-community property" and "separate property" have the meanings given those terms by Sections 4803 and 4804.

5133. The property rights of husband and wife are governed by this title, unless there is a marriage settlement containing stipulations contrary thereto.

5134. All contracts for marriage settlements must be in writing, and executed and acknowledged or proved in like manner as a grant of land is required to be executed and acknowledged or proved.

5135. When such contract is acknowledged or proved, it must be recorded in the office of the recorder of every county in which any real estate may be situated which is granted or affected by such contract.

5136. The recording or nonrecording of such contract has a like effect as the recording or nonrecording of a grant of real property.

5137. A minor capable of contracting marriage may make a valid marriage settlement.

5138. For the purpose of application of the laws of succession set forth in the Probate Code to a decedent who died prior to September 11, 1958, an alliance, which by custom of

the Indian tribe, band, or group of which the parties to the alliance, or either of them, are members is commonly recognized in such tribe, band, or group as marriage, is deemed a valid marriage under the laws of this state. In the case of such marriages and for such purpose a separation, which by custom of the Indian tribe, band, or group of which the separating parties, or either of them, are members is commonly recognized in such tribe, band, or group as a dissolution of marriage, is deemed a valid dissolution of marriage under the laws of this state.

This section shall be effective and shall apply only to the extent that such marriages or separations would affect succession to property subject to the laws of this state.

SEC. 9. Section 125 of the Code of Civil Procedure is repealed.

SEC. 10. Section 285.1 of the Code of Civil Procedure is amended to read:

285.1. An attorney of record for any party in any civil action or proceeding for dissolution of marriage, legal separation, or for a declaration of void or voidable marriage, or for the support, maintenance or custody of minor children may withdraw at any time subsequent to the time when any judgment in such action or proceeding, other than an interlocutory judgment, becomes final, and prior to service upon him of pleadings or motion papers in any proceeding then pending in said cause, by filing a notice of withdrawal. Such notice shall state (a) date of entry of final decree or judgment, (b) the last known address of such party, (c) that such attorney withdraws as attorney for such party. A copy of such notice shall be mailed to such party at his last known address and shall be served upon the adverse party.

SEC. 11. Section 395 of the Code of Civil Procedure is amended to read:

395. (1) In all other cases, except as in this section otherwise provided, and subject to the power of the court to transfer actions or proceedings as provided in this title, the county in which the defendants, or some of them, reside at the commencement of the action, is the proper county for the trial of the action. If the action be for injury to person, or to personal property, or for death from wrongful act, or negligence, either the county where the injury occurs, or where the injury causing death occurs, or the county in which the defendants, or some of them, reside at the commencement of the action, shall be a proper county for the trial of the action. In a proceeding for dissolution of marriage, the county in which the plaintiff has been a resident for three months next preceding the commencement of the proceeding is the proper county for the trial of the proceeding. When a defendant has contracted to perform an obligation in a particular county, either the county where such obligation is to be performed, or in which the contract in fact was entered into, or the county in which

the defendant, or any such defendant, resides at the commencement of the action, shall be a proper county for the trial of an action founded on such obligation, and the county in which such obligation is incurred shall be deemed to be the county in which it is to be performed unless there is a special contract in writing to the contrary. If none of the defendants reside in the state, or, if residing in the state, and the county in which they reside is unknown to the plaintiff, the action may be tried in any county which the plaintiff may designate in his complaint, and if the defendant is about to depart from the state, such action may be tried in any county where either of the parties reside, or where service is had. If any person is improperly joined as a defendant, or has been made a defendant solely for the purpose of having the action tried in the county, city and county, or judicial district where he resides, his residence must not be considered in determining the proper place for the trial of the action.

(2) The proper court for the trial of any such action in the county hereinabove designated as the proper county, shall be determined as follows:

If there is a municipal or justice court, having jurisdiction of the subject matter of the action, established in the city and county or judicial district, in which the defendant, or any defendant, so resides, or in which the injury to person or to personal property, or the injury causing death, occurs, or, in the cases hereinabove mentioned, in which the obligation was contracted to be performed, such court is a proper court for the trial of such action; otherwise any court in such county, having jurisdiction of the subject matter of the action, is a proper court for the trial thereof.

SEC. 12. Section 396b of the Code of Civil Procedure is amended to read:

396b. Upon the hearing of such motion the court shall, if it appears that the action or proceeding was not commenced in the proper court, order the same transferred to the proper court; provided, however, that the court in a proceeding for dissolution of marriage or legal separation, may, prior to the determination of such motion, consider and determine motions for allowance of temporary alimony, support of children, counsel fees and costs, and make

all necessary and proper orders in connection therewith; provided further, that in any case, if an answer be filed, the court may consider opposition to the motions, if any, and may retain the proceeding in the county where commenced if it appears that the convenience of the witnesses or the ends of justice will thereby be promoted.

SEC. 13. Section 397 of the Code of Civil Procedure is amended to read:

397. The court may, on motion, change the place of trial in the following cases:

At any time after the filing of the petition, the respondent may also furnish such information, whether or not it has been first furnished by the petitioner. The clerk shall take all ministerial steps required of him in the proceeding, whether or not such information has been furnished; but the clerk shall advise the court, at the time set for any hearing, if at such time no

party has furnished such information. In such cases, the court may decline to hear any matter encompassed within the proceeding if good cause for such failure to furnish information has not been shown.

The court's inquiry in such cases shall be confined solely to the question of the existence of good cause for not furnishing the information; and such report and the contents thereof shall not be admissible in evidence and shall not be furnished to the court.

1769. (a) At or after hearing, the court may make such orders in respect to the conduct of the spouses and the subject matter of the controversy as the court deems necessary to preserve the marriage or to implement the reconciliation of the spouses, but in no event shall such orders be effective for more than 30 days from the hearing of the petition, unless the parties mutually consent to a continuation of such time.

(b) Any reconciliation agreement between the parties may be reduced to writing and, with the consent of the parties, a court order may be made requiring the parties to comply fully therewith.

(c) During the pendency of any proceeding under this chapter, the superior court may order the husband or wife, or father or mother, as the case may be, to pay any amount that is necessary for the support and maintenance of the wife or husband and for the support, maintenance, and education of the children, as the case may be. In the case of such marriages and for such purpose a separation, which, by custom of the Indian tribe, band, or group of which the separating parties, or either of them, are members, is commonly recognized in such tribe, band, or group as a dissolution of marriage, is deemed a valid divorce under the laws of this state.

plead, files with the clerk, or with the judge if there be no clerk, an affidavit of merits and notice of motion for an order transferring the action or proceeding to the proper court, together with proof of service, upon the adverse party, of a copy of such papers. Upon the hearing of such motion the court shall, if it appears that the action or proceeding was not commenced in the proper court, order the same transferred to the proper court; provided, however, that the court in an action for divorce or separate maintenance, may, prior to the determination of such motion, consider and determine motions for allowance of temporary alimony, support of children, counsel fees and costs, and make all necessary and proper orders in connection therewith; provided further, that in any case, if an answer be filed, the court may consider opposition to the motions, if any, and may retain the action in the county where commenced if it appears that the convenience of the witnesses or the ends of justice will thereby be promoted.

[Approved by Governor September 5, 1969. Filed with Secretary of State September 6, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Section 167 is added to the Code of Civil Procedure, to read:

167. Any act required or permitted to be performed by the clerk of a court may be performed by a judge thereof, and shall be performed by a judge in any court having no clerk.

SEC. 2. The heading of Title 5 (commencing with Section 405) of Part 2 of the Code of Civil Procedure is amended and renumbered to read:

TITLE 4.5. RECORDING NOTICE OF CERTAIN ACTIONS

SEC. 3. Title 5 (commencing with Section 410.10) is added to Part 2 of the Code of Civil Procedure, to read:

TITLE 5. JURISDICTION AND SERVICE OF PROCESS

CHAPTER 1. JURISDICTION AND INCONVENIENT FORUM

Article 1. Jurisdiction

410.10. A court of this state may exercise jurisdiction on any basis not inconsistent with the Constitution of this state or of the United States.

Article 2. Inconvenient Forum

410.30. When a court upon motion of a party or its own motion finds that in the interest of substantial justice an action should be heard in a forum outside this state, the court shall stay or dismiss the action in whole or in part on any conditions that may be just.

Article 3. Jurisdiction in Action

410.50. (a) Except as otherwise provided by statute, the court in which an action is pending has jurisdiction over a party from the time summons is served on him as provided by Chapter 4 (commencing with Section 413.10). A general appearance by a party is equivalent to personal service of summons on such party.

(b) Jurisdiction of the court over the parties and the subject matter of an action continues throughout subsequent proceedings in the action.

410.60. In an action against a corporation which has forfeited its charter or right to do business, or has dissolved, the court in which the action is pending has jurisdiction over all the trustees of such corporation and of its stockholders or members from the time summons is served on one of the trustees as provided by Chapter 4 (commencing with Section 413.10).

410.70. In an action against two or more persons who are jointly, jointly and severally, or severally liable on a contract, the court in which the action is pending has jurisdiction to proceed against such of the defendants as are served as if they were the only defendants.

CHAPTER 2. COMMENCING CIVIL ACTIONS

411.10. A civil action is commenced by filing a complaint with the court.

411.20. Upon presentation of a complaint or other first paper and the payment of at least the fee prescribed by Sec-

tion 26821, 26821.2, 26826, 26826.2, 26827, 71665, 71665.5, 72055, or 72056 of the Government Code, the clerk shall file it. If all applicable fees are not then paid, the clerk shall forthwith mail notice of the unpaid fees to the party who filed the paper at the address stated by the party and shall execute a certificate of such mailing and place it in the court's file in the action. The filing is ineffective unless such fees are paid within 20 days after any notice given by the clerk pursuant to this section.

The clerk's certificate as to the mailing of notice pursuant to this section establishes a rebuttable presumption that such fees were not paid. This presumption is a presumption affecting the burden of producing evidence.

CHAPTER 3. SUMMONS

412.10. After payment of all applicable fees, the plaintiff may have the clerk issue one or more summons for any defendant.

412.20. (a) Except as otherwise required by statute, a summons shall be directed to the defendant, signed by the clerk and issued under the seal of the court in which the action is pending, and it shall contain:

(1) The title of the court in which the action is pending.

(2) The names of the parties to the action.

(3) A direction that the defendant file with the court a written pleading in response to the complaint within 30 days after summons is served on him. In justice courts, the direction shall be that the defendant file with the court a written pleading, or cause an oral pleading to be entered in the docket, in response to the complaint within 30 days after summons is served on him.

(4) A notice that, unless the defendant so responds, his default will be entered upon application by the plaintiff and the plaintiff may apply to the court for the relief demanded in the complaint.

(5) The following statement in boldface type: "You may seek the advice of an attorney in any matter connected with the complaint or this summons. Such attorney should be consulted promptly so that your pleading may be filed or entered within the time required by this summons."

(b) A summons in form approved by the Judicial Council is deemed to comply with this section.

412.30. In an action against a corporation or an unincorporated association (including a partnership), the copy of the summons that is served shall contain a notice stating in substance: "To the person served: You are hereby served in the within action (or special proceeding) on behalf of (here state the name of the corporation or the unincorporated association) as a person upon whom a copy of the summons and of the complaint may be delivered to effect service on said party under the provisions of (here state appropriate provisions of

Chapter 4 (commencing with Section 413.10) of the Code of Civil Procedure)." If service is also made on such person as an individual, the notice shall also indicate that service is being made on such person as an individual as well as on behalf of the corporation or the unincorporated association.

If such notice does not appear on the copy of the summons served, no default may be taken against such corporation or unincorporated association or against such person individually, as the case may be.

CHAPTER 4. SERVICE OF SUMMONS

Article 1. General

413.10. Except as otherwise provided by statute, a summons shall be served on a person:

(a) Within this state, as provided in this chapter.

(b) Outside this state but within the United States, as provided in this chapter or as prescribed by the law of the place where the person is served.

(c) Outside the United States, as provided in this chapter or as directed by the court in which the action is pending, or, if the court before or after service finds that the service is reasonably calculated to give actual notice, as prescribed by the law of the place where the person is served or as directed by the foreign authority in response to a letter rogatory.

413.20. If a summons is served by mail pursuant to this chapter, the provisions of Section 1013 that extend the time for exercising a right or doing an act shall not extend any time specified in this title.

413.30. Where no provision is made in this chapter or other law for the service of summons, the court in which the action is pending may direct that summons be served in a manner which is reasonably calculated to give actual notice to the party to be served and that proof of such service be made as prescribed by the court.

Article 2. Persons Who May Serve Summons

414.10. A summons may be served by any person who is at least 18 years of age and not a party to the action.

Article 3. Manner of Service of Summons

415.10. A summons may be served by personal delivery of a copy of the summons and of the complaint to the person to be served. Service of a summons in this manner is deemed complete at the time of such delivery.

415.20. (a) In lieu of personal delivery of a copy of the summons and of the complaint to the person to be served as specified in Section 416.10, 416.20, 416.30, 416.40, or 416.50, a summons may be served by leaving a copy of the summons and of the complaint during usual office hours in his office

with the person who is apparently in charge thereof, and by thereafter mailing a copy of the summons and of the complaint (by first-class mail, postage prepaid) to the person to be served at the place where a copy of the summons and of the complaint were left. Service of a summons in this manner is deemed complete on the 10th day after such mailing.

(b) If a copy of the summons and of the complaint cannot with reasonable diligence be personally delivered to the person to be served as specified in Section 416.60, 416.70, 416.80, or 416.90, a summons may be served by leaving a copy of the summons and of the complaint at such person's dwelling house, usual place of abode, or usual place of business in the presence of a competent member of the household or a person apparently in charge of his office or place of business, at least 18 years of age, who shall be informed of the contents thereof, and by thereafter mailing a copy of the summons and of the complaint (by first-class mail, postage prepaid) to the person to be served at the place where a copy of the summons and of the complaint were left. Service of a summons in this manner is deemed complete on the 10th day after such mailing.

415.30. (a) A summons may be served by mail as provided in this section. A copy of the summons and of the complaint shall be mailed (by first-class mail or airmail, postage prepaid) to the person to be served, together with two copies of the notice and acknowledgment provided for in subdivision (b) and a return envelope, postage prepaid, addressed to the sender.

(b) The notice specified in subdivision (a) shall be in substantially the following form:

(Title of court and cause, with action number, to be inserted by the sender prior to mailing)

NOTICE

This summons is served pursuant to Section 415.30 of the California Code of Civil Procedure. Failure to complete this form and return it to the sender within 20 days may subject you (or the party on whose behalf you are being served) to liability for the payment of any expenses incurred in serving a summons upon you in any other manner permitted by law. If you are served on behalf of a corporation, unincorporated association (including a partnership), or other entity, this form must be signed in the name of such entity by you or by a person authorized to receive service of process on behalf of such entity. In all other cases, this form must be signed by you personally or by a person authorized by you to acknowledge receipt of summons. Section 415.30 provides that this summons is deemed served on the date of execution of an acknowledgment of receipt of summons.

Date:----------

. (Date this acknowledgement is executed)

Signature of person acknowledging receipt, with title if acknowledgment is made on behalf of another person

(c) Service of a summons pursuant to this section is deemed complete on the date a written acknowledgment of receipt of summons is executed, if such acknowledgment thereafter is returned to the sender.

(d) If the person to whom a copy of the summons and of the complaint are mailed pursuant to this section fails to complete and return the acknowledgment form set forth in subdivision (b) within 20 days from the date of such mailing, the party to whom the summons was mailed shall be liable for reasonable expenses thereafter incurred in serving or attempting to serve the party by another method permitted by this chapter, and, except for good cause shown, the court in which the action is pending, upon motion, with or without notice, shall award the party such expenses whether or not he is otherwise entitled to recover his costs in the action.

(e) A notice or acknowledgment of receipt in form approved by the Judicial Council is deemed to comply with this section.

415.40. A summons may be served on a person outside this state in any manner provided by this article or by sending a copy of the summons and of the complaint to the person to be served by any form of airmail requiring a return receipt. Service of a summons by this form of mail is deemed complete on the 10th day after such mailing.

415.50. (a) A summons may be served by publication if upon affidavit it appears to the satisfaction of the court in which the action is pending that the party to be served cannot with reasonable diligence be served in another manner specified in this article and that:

(1) A cause of action exists against the party upon whom service is to be made or he is a necessary or proper party to the action; or

(2) The party to be served has or claims an interest in real or personal property in this state that is subject to the jurisdiction of the court or the relief demanded in the action consists wholly or in part in excluding such party from any interest in such property.

(b) The court shall order the summons to be published in a named newspaper, published in this state, that is most likely to give actual notice to the party to be served and direct

that a copy of the summons and of the complaint be forthwith mailed to such party if his address is ascertained before expiration of the time prescribed for publication of summons. Except as otherwise provided by statute, the publication shall be made as provided by Section 6064 of the Government Code unless the court in its discretion orders publication for a longer period.

(c) Service of a summons in this manner is deemed complete on the last day of publication.

(d) Notwithstanding an order for publication of the summons, a summons may be served in another manner authorized by this chapter, in which event such service shall supersede any published summons.

Article 4. Persons Upon Whom Summons May Be Served

If a summons is lost after service has been made but before it is returned, an affidavit of the person who made the service showing the time, place, and manner of service and facts showing that such service was made in accordance with this chapter may be returned with the same effect as if the summons itself were returned.

CHAPTER 5. OBJECTION TO JURISDICTION

418.10. (a) A defendant, on or before the last day of his time to plead or within such further time as the court may for good cause allow, may serve and file a notice of motion either or both:

(1) To quash service of summons on the ground of lack of jurisdiction of the court over him

(2) To stay or dismiss the action on the ground of inconvenient forum.

(b) Such notice shall designate, as the time for making the motion, a date not less than 10 nor more than 20 days

after filing of the notice. The service and filing of the notice shall extend the defendant's time to plead until 15 days after service upon him of a written notice of entry of an order denying his motion, except that for good cause shown the court may extend the defendant's time to plead for an additional period not exceeding 20 days.

(c) If such motion is denied by the trial court, the defendant, within 10 days after service upon him of a written notice of entry of an order of the court denying his motion, or within such further time not exceeding 20 days as the trial court may for good cause allow, and before pleading, may petition an appropriate reviewing court for a writ of mandate to require the trial court to enter its order quashing the service of summons or staying or dismissing the action. The defendant shall file or enter his responsive pleading in the trial court within the time prescribed by subdivision (b) unless, on or before the last day of his time to plead, he serves upon the adverse party and files with the trial court a notice that he has petitioned for such writ of mandate. The service and filing of such notice shall extend his time to plead until 10 days after service upon him of a written notice of the final judgment in the mandate proceeding. Such time to plead may for good cause shown be extended by the trial court for an additional period not exceeding 20 days.

(d) No default may be entered against the defendant before expiration of his time to plead, and no motion under this section, or under Section 473 or 473.5 when joined with a motion under this section, or application to the court or stipulation of the parties for an extension of the time to plead, shall be deemed a general appearance by the defendant.

SEC. 4. Section 405 of the Code of Civil Procedure is repealed.

SEC. 5. Section 405.5 of the Code of Civil Procedure is repealed.

SEC. 6. Section 405.7 of the Code of Civil Procedure is amended and renumbered to read:

1029.5. (a) Whenever a complaint for damages is filed against any architect, landscape architect, engineer, building designer, or land surveyor, duly licensed as such under the laws of this state, in an action for error, omission, or professional negligence in the creation and preparation of plans, specifications, designs, reports or surveys which are the basis for work performed or agreed to be performed on real property, any such defendant may, within 30 days after service of summons, move the court for an order, upon notice and hearing, requiring the plaintiff to furnish a written undertaking, with at least two sufficient sureties, in the sum of five hundred dollars ($500) as security for the costs of defense as provided in subdivision (d), which may be awarded against such plaintiff. Such motion shall be supported by affidavit showing that the claim against such defendant is frivolous.

At the hearing upon such motion, the court shall order the plaintiff to file such security if the defendant shows to the satisfaction of the court that (i) the plaintiff would not suffer undue economic hardship in filing such written undertaking, and (ii) there is no reasonable possibility that the plaintiff has a cause of action against each named defendant with respect to whom the plaintiff would otherwise be required to file such written undertaking. No appeal shall be taken from any order made pursuant to this subdivision to file or not to file such security.

A determination by the court that security either shall or shall not be furnished or shall be furnished as to one or more defendants and not as to others, shall not be deemed a determination of any one or more issues in the action or of the merits thereof. If the court, upon any such motion, makes a determination that a written undertaking be furnished by the plaintiff as to any one or more defendants, the action shall be dismissed as to such defendant or defendants, unless the security required by the court shall have been furnished within such reasonable time as may be fixed by the court.

(b) This section does not apply to a complaint for bodily injury or for wrongful death, nor to an action commenced in a small claims court.

(c) Whenever more than one such defendant is named, the undertaking shall be increased to the extent of five hundred dollars ($500) for each additional defendant in whose favor such undertaking is ordered not to exceed the total of three thousand dollars ($3,000).

(d) In any action requiring a written undertaking as provided in this section, upon the dismissal of the action or the award of judgment to the defendant, the court shall require the plaintiff to pay the defendant's costs of defense authorized by law. Any sureties shall be liable for such costs in an amount not to exceed the sum of five hundred dollars ($500) for each defendant with respect to whom such sureties have executed a written undertaking. If the plaintiff prevails in the action against any defendant with respect to whom such security has been filed, such defendant shall pay the cost to plaintiff of obtaining such written undertaking.

473.5. (a) When service of a summons has not resulted in actual notice to a party in time to defend the action and a default or default judgment has been entered against him in such action, he may serve and file a notice of motion to set aside such default or default judgment and for leave to defend the action. Such notice of motion shall be served and filed within a reasonable time, but in no event exceeding the earlier of: (i) two years after entry of a default judgment against him; or (ii) 180 days after service on him of a written notice that such default or default judgment has been entered.

(b) A notice of motion to set aside a default or default judgment and for leave to defend the action shall designate as the time for making the motion a date not less than 10 nor more than 20 days after filing of such notice, and it shall be accompanied by an affidavit showing under oath that such party's lack of actual notice in time to defend the action was not caused by his avoidance of service or inexcusable neglect. The party shall serve and file with such notice a copy of the answer, motion, or other pleading proposed to be filed in the action.

(c) Upon a finding by the court that the motion was made within the period permitted by subdivision (a) and that his lack of actual notice in time to defend the action was not caused by his avoidance of service or inexcusable neglect, it may set aside the default or default judgment on such terms as may be just and allow such party to defend the action.

SEC. 24. Section 581a of the Code of Civil Procedure is amended to read:

581a. No action heretofore or hereafter commenced shall be further prosecuted, and no further proceedings shall be had

therein, and all actions heretofore or hereafter commenced shall be dismissed by the court in which the same shall have been commenced, on its own motion, or on the motion of any party interested therein, whether named in the complaint as a party or not, unless the summons shall be served and return thereon made within three years after the commencement of said action, except where the parties have filed a stipulation in writing that the time may be extended. But all such actions may be prosecuted, if general appearance has been made by the defendant or defendants, within said three years in the same manner as if summons had been issued and served; provided, that, except in actions to partition or to recover possession of, or to enforce a lien upon, or to determine conflicting claims to, real or personal property, no dismissal shall be had under this section as to any defendant because of the failure to serve summons on him during his absence from the state, or while he has secreted himself within the state to prevent the service of summons on him.

All actions, heretofore or hereafter commenced, shall be dismissed by the court in which the same may be pending, on its own motion, or on the motion of any party interested therein, if summons has been served, and no answer has been filed, if plaintiff fails, or has failed, to have judgment entered within three years after service of summons, except where the parties have filed a stipulation in writing that the time may be extended.

A motion to dismiss pursuant to the provisions of this section shall not, nor shall any extension of time to plead after such motion, constitute a general appearance.

SEC. 25. Section 1032b is added to the Code of Civil Procedure, to read:

1032b. When a summons is served by a person other than a public officer or employee, the court in which the action is pending shall allow as a recoverable cost such sum as it deems proper for such service, but not exceeding the amount allowed to a public officer or employee in this state for such service.

(b) In any action commenced prior to July 1, 1970, in which a summons was properly issued but not served before July 1, 1970, the summons shall be served as provided by this act. (c) In any action commenced prior to July 1, 1970, in which a summons has been served but no return thereon made by July 1, 1970, the return of summons may be made as provided by this act or as provided by the law in effect prior to July 1, 1970.

[Approved by Governor September 5, 1969. Filed with Secretary of State September 6, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Section 149 of the Civil Code is amended to read:

149. When service of summons is made pursuant to Section 415.50 of the Code of Civil Procedure upon a spouse sued under the provisions of this chapter, the court, without the aid of attachment thereof or the appointment of a receiver, shall have and may exercise the same jurisdiction over all of the following:

(a) The community real property of the spouse so served situated in this state as it has or may exercise over the community real property of a spouse sued under the provisions of this chapter and personally served with process within this state.

(b) The quasi-community real property of the spouse so served situated in this state as it has or may exercise over the quasi-community real property of a spouse sued under the provisions of this chapter and personally served with process within this state.

SEC. 2. Section 224 of the Civil Code is amended to read:

224. A legitimate child cannot be adopted without the consent of its parents if living; however, after the custody of any child has, by any judicial decree, been given to the father, and the mother for a period of one year fails to communicate with such child when able to do so, or been given to the mother, and the father for a period of one year shall willfully fail to pay for the care, support and education of such child when able to do so, then the parent to whom custody has been given alone may consent to such adoption, but only after the parent to whom custody has not been given has been served with a copy of a citation in the manner provided by law for the service of a summons in a civil action that requires him or her to appear at the time and place set for the appearance in court under Section 227; failure of father to pay for the care, support and education of such child for such period of one year or failure of mother to communicate with such child for such period of one year is prima facie evidence that such failure was willful and without lawful excuse; nor an illegitimate child without the consent of its mother if living; except that the consent of a father or mother is not necessary in the following cases:

1. When such father or mother has been judicially deprived of the custody and control of such child (a) by order of the court declaring such child to be free from the custody and control of either or both of his parents pursuant to Chapter 4 (commencing with Section 232) of Title 2 of Part 3 of Division 1 of this code, or (b) by similar order of the court of another jurisdiction, pursuant to any law of that jurisdiction authorizing such order; or when such father or mother has, in a judicial proceeding in another jurisdiction, voluntarily surrendered his right to the custody and control of such child pursuant to any law of that jurisdiction provided for such surrender.

2. Where such father or mother of any child has deserted the child without provision for its identification.

3. Where such father or mother of any child has relinquished such child for adoption as provided in Section 224m; or where such father or mother has relinquished such child for adoption to a licensed or authorized child-placing agency in another jurisdiction pursuant to the law of that jurisdiction.

SEC. 3. Section 235 of the Civil Code is amended to read:

235. (a) The father or mother of such minor person, if his or her place of residence is known to the petitioner, or, if the place of residence of such father or mother is not known to the petitioner, then some relative of such minor person, if there is any and if his residence and relationship to such person are known to the petitioner, shall be notified of the proceedings by service of a citation requiring such person or persons to appear at the time and place stated in such citation. Such citation shall be served in the manner provided by law for the service of a summons in a civil action, other than by publication. In all cases where one parent has relinquished his child for the purpose of adoption, or has signed a consent for adoption as provided in Sections 224m and 226, no notice as herein provided need be given to the parent who has signed such relinquishment or consent. Service of such citations shall be made at least 10 days before the time stated therein for such appearance.

(b) If the father or mother of such minor person or any person alleged to be or claiming to be the father or mother cannot, with reasonable diligence, be served as provided for in subdivision (a), or if his or her place of residence is not known to the petitioner, the petitioner or his agent or attorney shall make and file an affidavit, and shall state therein the name of the father or mother or alleged father or mother and his or her place of residence, if known to the petitioner, and the name of the father or mother or alleged father or mother whose place of residence is unknown to the petitioner. Thereupon the court shall make an order that the service be made by the publication of a citation requiring such father or mother or alleged father or mother to appear at the time and place stated therein, and that the citation be published in a newspaper to be named and designated as most likely to give notice to the father or mother or alleged father or mother to be served once a week for four successive weeks. In case of publication where the residence of a parent or alleged parent is known, the court shall also direct a copy of the citation to be forthwith served upon such parent or alleged parent by mail by deposit in the post office properly addressed and with the postage thereon fully prepaid, directed to such parent or alleged parent at his or her place of residence. When publication is ordered, service of a copy of the citation in the manner provided for in subdivision (a) is equivalent to publication and deposit in the post

office. Service is complete at the expiration of the time prescribed by the order for publication or when service is made as provided for in subdivision (a), whichever event shall first occur.

If one or both of the parents of such minor person be unknown or if the name of either or both of his parents be uncertain, then such fact shall be set forth in the affidavit and the court shall order the citation to be directed to either the father or the mother, or both, of the minor person, naming and otherwise describing the minor person, and to all persons claiming to be the father or mother of the minor person.

SEC. 3.5. Section 3241 of the Civil Code, as added by Senate Bill No. 316 of the 1969 Regular Session of the Legislature, is amended to read:

3241. The written notice to be given to the surety or sureties as provided in Section 3240 may be given by delivery thereof personally to, or by depositing same in the mail, postage prepaid, and certified or registered, addressed in accordance with any of the following which may be applicable:

(a) If to an individual surety, at his residence or place of business, if known.

(b) If to an individual surety and his residence is unknown, then in care of the county clerk of the county in which the bond has been recorded.

(c) If to a corporate surety, at the office or care of the agent designated by the surety in the bond as the address to which such notice shall be sent.

(d) At the office or care of any officer of the surety in this state:

(e) At the office of or care of the statutory agent of the surety in this state.

(f) By service in the manner provided by law for the service of a summons in a civil action.

SEC. 4. Section 376 of the Code of Civil Procedure is amended to read:

376. The parents of a legitimate unmarried minor child, acting jointly, may maintain an action for injury to such child caused by the wrongful act or neglect of another. If either parent shall fail on demand to join as plaintiff in such action or is dead or cannot be found, then the other parent may maintain such action and the parent, if living, who does not join as plaintiff must be joined as a defendant and, before trial or hearing of any question of fact, must be served with summons either in the manner provided by law for the service of a summons in a civil action or by sending a copy of the summons and complaint by registered mail with proper postage prepaid addressed to such parent's last known address with request for a return receipt. If service is made by registered mail the production of a return receipt purporting to be signed by the addressee creates a rebuttable presumption that such summons and complaint have been duly served. The presump-

tion established by this section is a presumption affecting the burden of producing evidence. The respective rights of the parents to any award shall be determined by the court.

A mother may maintain an action for such an injury to her illegitimate unmarried minor child. A guardian may maintain an action for such an injury to his ward.

Any such action may be maintained against the person causing the injury. If any other person is responsible for any such wrongful act or neglect the action may also be maintained against such other person. The death of the child or ward shall not abate the parents' or guardian's cause of action for his injury as to damages accruing before his death.

In every action under this section, such damages may be given as under all of the circumstances of the case may be just; except that in any action maintained after the death of the child or ward or against the executor or administrator of the person causing the injury, the damages recoverable shall be as provided in Section 573 of the Probate Code.

If an action arising out of the same wrongful act or neglect may be maintained pursuant to Section 377 for wrongful death of any such child, the action authorized by this section shall be consolidated therewith for trial on motion of any interested party.

SEC. 5. Section 387 of the Code of Civil Procedure is amended to read:

387. At any time before trial, any person, who has an interest in the matter in litigation, or in the success of either of the parties, or an interest against both, may intervene in the action or proceeding. An intervention takes place when a third person is permitted to become a party to an action or proceeding between other persons, either by joining the plaintiff in claiming what is sought by the complaint, or by uniting with the defendant in resisting the claims of the plaintiff, or by demanding anything adversely to both the plaintiff and the defendant, and is made by complaint, setting forth the grounds upon which the intervention rests, filed by leave of the court and served upon the parties to the action or proceeding who have not appeared, and upon the attorneys of the parties who have appeared, who may answer or demur to it within 30 days after service.

SEC. 6. Section 585 of the Code of Civil Procedure is amended to read:

585. Judgment may be had, if the defendant fails to answer the complaint, as follows:

1. In an action arising upon contract or judgment of a court of this state for the recovery of money or damages only, if the defendant has, or if more than one defendant, if any of the defendants have, been served, other than by publication, and no answer or demurrer or notice of motion to strike (of the character hereinafter specified) or notice of motion to quash service of summons or to stay or dismiss the action pursuant

to Section 418.10 or notice of the filing of a petition for writ of mandate as provided in Section 418.10 has been filed with the clerk or judge of the court within the time specified in the summons, or such further time as may be allowed, the clerk, or the judge if there be no clerk, upon application of the plaintiff, and proof of such service of summons, shall enter the default of the defendant or defendants, so served, and immediately thereafter enter judgment for the principal amount demanded in the complaint or a lesser amount if credit has been acknowledged, together with interest allowed by law or in accordance with the terms of the contract, and the costs against the defendant, or defendants, or against one or more of the defendants. If, by rule of court, a schedule of attorney fees to be allowed has been adopted, the clerk may include in the judgment an attorney fee in accordance with such schedule if the contract provides that an attorney fee be allowed in the event of an action thereon; provided, that plaintiff shall have the right, upon filing a written request at the time of application for entry of the default of the defendant or defendants, to have the attorney fee fixed by the court, whereupon, after the entry of the default, the court shall hear the application for determination of the attorney fee and render judgment for such fee and for the other relief demanded in the complaint, or a lesser amount if credit has been acknowledged, and the costs against the defendant, or defendants, or against one or more of the defendants.

2. In other actions, if the defendant has been served, other than by publication, and no answer or demurrer or notice of motion to strike (of the character hereinafter specified) or notice of motion to quash service of summons or to stay or dismiss the action pursuant to Section 418.10 or notice of the filing of a petition for writ of mandate as provided in Section 418.10 has been filed with the clerk or judge of the court within the time specified in the summons, or such further time as may be allowed, the clerk, in courts having a clerk, shall enter the default of the defendant; and thereafter the plaintiff may apply to the court for the relief demanded in the complaint; in courts which have no clerk, the court shall hear the evidence offered by the plaintiff, and shall render judgment in his favor for such sum (not exceeding the amount stated in the complaint), as appears by such evidence to be just. If the taking of an account, or the proof of any fact, is necessary to enable the court to give judgment or to carry the judgment into effect, the court may take the account or hear the proof, or may, in its discretion, order a reference for that purpose. And where the action is for the recovery of damages, in whole or in part, the court may order the damages to be assessed by a jury; or if, to determine the amount of damages, the examination of a long account is involved by a reference as above provided.

3. In all actions where the service of the summons was by publication the plaintiff, upon the expiration of the time for answering, may, upon proof of the publication, and that no answer or demurrer or notice of motion to strike (of the character hereinafter specified) or notice of motion to quash service of summons or to stay or dismiss the action pursuant to Section 418.10 or notice of the filing of a petition for writ of mandate as provided in Section 418.10 has been filed, apply for judgment; and the court shall thereupon require proof to be made of the allegations of the complaint; and if the defendant is not a resident of the state, shall require the plaintiff, or his agent, to be examined, on oath, respecting any payments that have been made to the plaintiff, or to anyone for his use, on account of any demand mentioned in the complaint, and may render judgment for the amount which he is entitled to recover; provided that, in all cases affecting the title to or possession of real property, where the service of the summons was by publication and the defendant has failed to answer, no judgment shall be rendered upon proof of mere occupancy, unless such occupancy shall have continued for the time and shall have been of the character necessary to confer title by prescription, and in all cases where the plaintiff bases his claim upon a paper title, the court shall require evidence establishing plaintiff's equitable right to judgment before rendering such judgment; provided further, however, that in actions involving merely the possession of real property where the complaint is verified and shows by proper allegations that no party to the action claims title to the real property involved, either by prescription, accession, transfer, will or succession but only the possession thereof, the court may render judgment upon proof of occupancy by plaintiff and ouster by defendant.

A notice of motion to strike within the meaning of this section is a notice of motion to strike the whole or any part of a pleading filed within the time within which the moving party is required otherwise to plead to the pleading. The notice of the motion to strike shall specify a hearing date not more than 15 days from the filing of the notice, plus any additional time that the moving party is otherwise required to give the adverse party. The filing of such notice of motion does not extend the time within which to demur.

4. In the cases referred to in subdivisions 2 and 3 of this section, excepting those cases which involve the dissolution or annulment of marriage or separate maintenance or the custody of children, or upon application to have an attorney's fee fixed by the court pursuant to subdivision 1 of this section, the court in its discretion may permit the use of affidavits, in lieu of personal testimony, as to all or any part of the evidence or proof required or permitted to be offered, received or heard in such cases. The facts stated in such affidavit or affidavits shall be within the personal knowledge of the affiant

and shall be set forth with particularity, and each affidavit shall show affirmatively that the affiant, if sworn as a witness, can testify competently thereto.

SEC. 6.3. Section 585 of the Code of Civil Procedure is amended to read:

585. Judgment may be had, if the defendant fails to answer the complaint, as follows:

1. In an action arising upon contract or judgment of a court of this state for the recovery of money or damages only, if the defendant has, or if more than one defendant, if any of the defendants have, been served, other than by publication, and no answer, demurrer, notice of motion to strike (of the character hereinafter specified), notice of motion to transfer pursuant to Section 396b, notice of motion to quash service of summons or to stay or dismiss the action pursuant to Section 418.10, or notice of the filing of a petition for writ of mandate as provided in Section 418.10 has been filed with the clerk or judge of the court within the time specified in the summons, or such further time as may be allowed, the clerk, or the judge if there be no clerk, upon application of the plaintiff, and proof of such service of summons, shall enter the default of the defendant or defendants, so served, and immediately thereafter enter judgment for the principal amount demanded in the complaint or a lesser amount if credit has been acknowledged, together with interest allowed by law or in accordance with the terms of the contract, and the costs against the defendant, or defendants, or against one or more of the defendants. If, by rule of court, a schedule of attorney fees to be allowed has been adopted, the clerk may include in the judgment an attorney fee in accordance with such schedule if the contract provides that an attorney fee be allowed in the event of an action thereon; provided, that plaintiff shall have the right, upon filing a written request at the time of application for entry of the default of the defendant or defendants, to have the attorney fee fixed by the court, whereupon, after the entry of the default, the court shall hear the application for determination of the attorney fee and render judgment for such fee and for the other relief demanded in the complaint, or a lesser amount if credit has been acknowledged, and the costs against the defendant, or defendants, or against one or more of the defendants.

2. In other actions, if the defendant has been served, other than by publication, and no answer, demurrer, notice of motion to strike (of the character hereinafter specified), notice of motion to transfer pursuant to Section 396b, notice of motion to quash service of summons or to stay or dismiss the action pursuant to Section 418.10, or notice of the filing of a petition for writ of mandate as provided in Section 418.10 has been filed with the clerk or judge of the court within the time specified in the summons, or such further time as may be allowed, the clerk, in courts having a clerk, shall enter the

default of the defendant; and thereafter the plaintiff may apply to the court for the relief demanded in the complaint; in courts which have no clerk, the court shall hear the evidence offered by the plaintiff, and shall render judgment in his favor for such sum (not exceeding the amount stated in the complaint), as appears by such evidence to be just. If the taking of an account, or the proof of any fact, is necessary to enable the court to give judgment or to carry the judgment into effect, the court may take the account or hear the proof, or may, in its discretion, order a reference for that purpose. And where the action is for the recovery of damages, in whole or in part, the court may order the damages to be assessed by a jury; or if, to determine the amount of damages, the examination of a long account is involved by a reference as above provided.

3. 585. Judgment may be had, if the defendant fails to answer the complaint, as follows:

1. In an action arising upon contract or judgment of a court of this state for the recovery of money or damages only, if the defendant has, or if more than one defendant, if any of the defendants have, been served, other than by publication, and no answer or demurrer or notice of motion to strike (of the character hereinafter specified) or notice of motion to quash service of summons or to stay or dismiss the action pursuant to Section 418.10 or notice of the filing of a petition for writ of mandate as provided in Section 418.10 has been filed with the clerk or judge of the court within the time specified in the summons, or such further time as may be allowed, the clerk, or the judge if there be no clerk, upon written application of the plaintiff, and proof of such service of summons, shall enter the default of the defendant, or defendants, so served, and immediately thereafter enter judgment for the principal amount demanded in the complaint or a lesser amount if credit has been acknowledged, together with interest allowed by law or in accordance with the terms of the contract, and the costs against the defendant, or defendants, or against one or more of the defendants. If, by rule of court, a schedule of attorney fees to be allowed has been adopted, the clerk may include in the judgment an attorney fee in accordance with such schedule if the contract provides that an attorney fee be allowed in the event of an action thereon; provided, that plaintiff shall have the right, upon filing a written request at the time of application for entry of the default of the defendant or defendants, to have the attorney fee fixed by the court, whereupon, after the entry of the default, the court shall hear the application for determination of the attorney fee and render

judgment for such fee and for the other relief demanded in the complaint, or a lesser amount if credit has been acknowledged, and the costs against the defendant, or defendants, or against one or more the defendants.

2. In other actions, if the defendant has been served, other than by publication, and no answer or demurrer or notice of motion to strike (of the character hereinafter specified) or notice of motion to quash service of summons or to stay or dismiss the action pursuant to Section 418.10 or notice of the filing of a petition for writ of mandate as provided in Section 418.10 has been filed with the clerk or judge of the court within the time specified in the summons, or such further time as may be allowed, the clerk, or the judge if there be no clerk, upon written application of the plaintiff, shall enter the default of the defendant; and thereafter the plaintiff may apply to the court for the relief demanded in the complaint; the court shall hear the evidence offered by the plaintiff, and shall render judgment in his favor for such sum (not exceeding the amount stated in the complaint), as appears by such evidence to be just. If the taking of an account, or the proof of any fact, is necessary to enable the court to give judgment or to carry the judgment into effect, the court may take the account or hear the proof, or may, in its discretion, order a reference for that purpose. And where the action is for the recovery of damages, in whole or in part, the court may order the damages to be assessed by a jury; or if, to determine the amount of damages, the examination of a long account is involved by a reference as above provided.

3. dering such judgment; provided further, however, that in actions involving merely the possession of real property where the complaint is verified and shows by proper allegations that no party to the action claims title to the real property involved, either by prescription, accession, transfer, will or succession but only the possession thereof, the court may render judgment upon proof of occupancy by plaintiff and ouster by defendant.

The notice of the motion to strike shall specify a hearing date not more than 15 days from the filing of the notice, plus any additional time that the moving party is otherwise required to give the adverse party. The filing of such notice of motion does not extend the time within which to demur.

4. In the cases referred to in subdivisions 2 and 3 of this section, excepting those cases which involve the dissolution or annulment of marriage or separate maintenance or the custody of children, or upon application to have an attorney's fee fixed by the court pursuant to subdivision 1 of this section, the court in its discretion may permit the use of affidavits, in lieu of personal testimony, as to all or any part of the evidence or proof required or permitted to be offered, received or heard in such cases. RONALD REAGAN, Governor

The people of the State of California do enact as follows:

SECTION 1. Article 2.6 (commencing with Section 13245) is added to Chapter 2 of Division 10 of the Education Code, to read:

Article 2.6. The Certified Master Teacher Law of 1970

13245. It is the intent and purpose of the Legislature, by the provisions of this article, to encourage teachers employed in the public schools to attain excellence in their profession, and to provide them with incentives to that end in the form of both special recognition and material reward.

The Legislature has determined that in the education of our youth the role of the teacher is paramount, and that all other functions in school operation are secondary and supportive to the teacher's role. It has come to the attention of the Legis-

lature that in recent years the departure from the classroom of eminently qualified teachers has occurred at an alarmingly accelerated pace, and that such persons have felt compelled to enter upon nonteaching careers in order to secure the personal recognition and material rewards which their ability as educators can command. The provisions of this article are directed, therefore, to the restoration of the teacher and the teaching profession, as such, to their rightful position of primary importance in the structure of the educational system.

13246. The Superintendent of Public Instruction shall establish a three-year master teacher selection pilot program in two school districts designated by a committee consisting of the superintendent, the Director of Finance, a Senator appointed by the Senate Rules Committee, and an Assemblyman appointed by the Speaker of the Assembly.. The pilot program shall commence on September 1, 1970, and shall terminate on August 31, 1973, and shall be implemented in accordance with the following schedule:

(a) 1969–1970, organization of the program and selection of master teachers.

(b) 1970–1971, payment of the extra stipend to selected master teachers and selection of additional teachers.

(c) 1971–1972, payment of the extra stipend to all teachers certified as master teachers and evaluation of the program.

The designated school districts shall be unified school districts which have certificated teaching staffs of not less than 200 nor more than 650, excluding those involved in adult education, who spend 80 percent of their teaching time in the classroom. The two unified school districts shall be located in separate geographical areas of the state.

13246.1. The Members of the Legislature appointed to the committee pursuant to Section 13246 shall meet with, and participate in, the work of the committee to the extent that such participation is not incompatible with their positions as Members of the Legislature. The Members of the Legislature appointed to the committee shall serve at the pleasure of the appointing power. For purposes of this article, such Members of the Legislature shall constitute a joint legislative committee on the subject of this article and shall have the powers and duties imposed upon such committee by the Joint Rules of the Senate and Assembly.

13246.5. A master teacher selection panel shall be established by the county superintendent of schools in each of the counties where the school districts are located. Each panel shall be composed of the following members:

(a) One member of the governing board of the school district, selected by the governing board.

(b) One administrator who is a superintendent or principal in the school district, selected by the governing board.

(c) Two elementary certificated employees of the school district who spend 80 percent of their teaching time in the class-

room, selected by the elementary certificated employees of the school district voting in a secret ballot election held not later than October 15, 1970.

(d) Two secondary certificated employees of the school district who spend 80 percent of their teaching time in the classroom, selected by the secondary certificated employees of the school district voting in a secret ballot election held not later than October 15, 1970.

(e) Two public members who are not officers or employees of the school district, selected by the county superintendent of schools.

The county superintendent of schools shall serve as the chairman of the panel.

Any vacancies on the panel shall be filled by the appropriate appointing authority in the manner specified in this section.

13247. The criteria for the selection of certified master teachers shall be established by the panel and shall require at least:

(a) A master's degree in an academic field, or the equivalent, to be determined by the master teacher selection panel, of a master's degree in vocational subjects for which master's degrees are not usually awarded, or successful completion of the competence examination prescribed in Assembly Bill 740 of the 1969 Regular Session of the Legislature, if enacted;

(b) Eight years of total teaching experience, with four years of teaching experience in the district;

(c) The demonstration of distinctly superior teaching ability.

13247.5. The criteria for the selection of certified master teachers shall be published by the Superintendent of Public Instruction and shall be available free of charge to all certificated employees of the school districts designated to participate in this pilot program.

13247.8. Each master teacher selection panel shall receive applications, to be filed by January 1 of the school year, from public school teachers, submitted in the form prescribed by the panel and accompanied by a one-hundred-dollar ($100) fee, requesting that the applicant be certified as a certified master teacher.

13247.9. The master teacher selection panel shall appoint for each applicant for a master certificate not less than two, nor more than three, certificated employees from a school district other than the participating school district and who spend at least four-fifths of their teaching time in a classroom, who shall inquire into the professional competence of the applicant. The appointed certificated employees need not be residents of the county in which the participating school district is located. These appointed certificated employees shall be known as examiner teachers and shall be appointed by February 1 of the school year.

The examiner teachers shall sign affidavits stating that they have no specific knowledge of the applicant for certification as master teachers, either personally or professionally.

The examiner teachers shall make a written report on the applicant's professional competence to the county superintendent of schools and the master teacher selection panel not later than June 1st of the school year.

The examiner teachers shall talk with other teachers in the school where the applicant is employed, other teachers in the school district, the principal of the school where the applicant is employed, and other administrators, parents, and students who may have specific knowledge of the applicant's professional qualities. The examiner teacher shall also consider evidence of relative gains made by pupils taught by the applicant, as measured by standardized tests.

Upon a favorable recommendation by the examiner teachers, the master teacher selection panel, by majority vote of those present and voting, shall issue a certificate designating the applicant as a certificated master teacher.

The examiner teachers shall be reimbursed for travel in connection with such inquiry at a rate to be determined by the county superintendent of schools. Examiner teachers shall be granted time off without loss of pay for not to exceed three schooldays during any school year. The employing school district shall be reimbursed by the county superintendent of schools of the county of the master teacher selection panel for the salary of substitute teachers hired for the examiner teachers.

13248. Any school district which employs a certified master teacher shall pay the teacher an additional stipend of four thousand dollars ($4,000) per school year over and above the regular salary which would otherwise be paid to the teacher.

From moneys appropriated therefor, the Superintendent of Public Instruction shall order reimbursements to be made in each fiscal year to each school district the total of additional stipends paid to certified master teachers in such fiscal year by the district.

13249. The governing board of any school district participating in the program may receive and expend funds from any other public or private agency for purposes of this article.

13249.5. On or before the fifth legislative day of the 1973 Regular Session, the designated school districts through the Superintendent of Public Instruction shall submit to the Legislature a comprehensive report on all phases of the experimental program provided by this article, and shall include therein his recommendations relating to the establishment of the certified master teacher program throughout the state.

SEC. 2. The sum of one hundred thousand dollars ($100,000) is hereby appropriated from the General Fund in the State Treasury to the Superintendent of Public Instruction for purposes of this act for the 1969–1970 and 1970–1971 fiscal

years, with a maximum of five thousand dollars ($5,000) allocated for administrative expenses in administering this act.

Federal funds received for purposes of this act and any examination and application fees received pursuant to this act, shall be deemed to be in augmentation of the appropriation and the disposition and expenditure thereof shall be in accordance with the laws applicable to the appropriation.

An act to amend Section 210 of the Health and Safety Code, relating to drug abuse research, and making an appropriation therefor.

[Approved by Governor September 4, 1969. Filed with Secretary of State September 6, 1969.]

I object to the $85,000 appropriation contained in Assembly Bill No. 2204, and I hereby reduce this appropriation from $85,000 to $30,000. With this reduction, I approve the bill.

RONALD REAGAN, Governor

The people of the State of California do enact as follows:

SECTION 1. Section 210 of the Health and Safety Code is amended to read:

210. Proposition L

That the Charter of the City of Long Beach be amended by amending Sections 44 (38), 221, 229d (3), 229h, 229i and 261. and by adding Sections 44 (41), 229h (1), and 260.10. said sections to read, respectively, as hereinafter set forth, and by repealing Section 215a (4) thereof:

Sec. 44 (38) Whenever the City Council shall determine that the public interest requires the construction, acquisition, completion, remodeling or repair of any improvement or utility, the cost of which, in addition to the other expenditures of the City, will exceed the income and revenue provided for in any one year, they may, by ordinance, submit a proposition to incur a general obligation bonded indebtedness for such purpose and proceed therein as provided in Section 18, of Article XI of the Constitution of this state and the general law or laws thereof; provided, that such indebtedness shall not bear more than six percent interest per annum, and that no bond issued therefor shall be sold for less than par nor to any other than the highest bidder, after advertising for sealed proposals therefor; and provided, that several propositions for the issue of such bonds may be submitted at one special or general municipal election.

Sec. 221. The Board of Water Commissioners shall each year apportion and set apart, out of the revenue fund of the Water Department, in the City Treasury, an amount sufficient to pay at maturity all sums coming due in said year for principal and interest upon all outstanding bonds issued for the Water Works, and said amount shall be transferred forthwith into a special fund in the City Treasury, to be designated by a name indicating the nature or purpose of such special fund, and the money in such special fund shall be subject to apportionment by the Auditor as may be required to make such payments of the principal and interest of said bonds and for no other purpose. Any interest or increment received on the money in any such special fund shall be paid into such special fund and become a part thereof. The foregoing provisions of this section shall apply to all such bonds now outstanding or hereafter issued; provided, however, that payments out of revenue, as provided, of the principal and interest of general obligation bonds hereafter issued for securing water from new sources, shall be required only to the extent determined by the

Board of Water Commissioners, approved by a majority vote of the Council, prior to the submission to the electors of the City of the proposition of authorizing such general obligation bonds. Such resolutions shall be subject to amendment only by resolution of said board, approved by majority vote of the Council, and assented to by a majority of the electors of the City, voting on the question of approving such resolution at a general or special election at which such question shall be lawfully submitted.

Notwithstanding all or any part of this section, nothing herein shall be construed as a limitation upon the power of the City or of any department thereof to issue revenue bonds without an election, under state law or procedural ordinance and nothing in this section or elsewhere in this Charter shall be construed to prevent a pledge of revenues to pay, or secure the payment of, the principal and interest of such revenue bonds, which pledge may have priority over any allocation of revenues to pay the principal and interest of general obligation bonds.

Sec. 229d (3) For the payment of the principal or interest, or both, of harbor improvement bonds, either general obligation bonds or revenue bonds, issued for harbor improvements.

Sec. 229h. The proceeds from the sale of bonds now authorized or which shall hereafter be authorized for port or harbor purposes, shall be under the control of and expended by the board, and shall be expended for the objects and purposes for which the indebtedness was incurred. Whenever it is desired to incur additional general obligation bonded indebtedness for any object or purpose consistent with its general powers, the board shall prepare tentative plans and estimates and submit its recommendation in writing to the City Council.

Sec. 229i. All money deposited in the City Treasury to the credit of the Harbor Bond Redemption and Interest Fund, which fund has been heretofore created and established and is hereby continued, shall be used solely and exclusively to pay the principal and interest on all general obligation bonds issued by the City of Long Beach for harbor purposes. Said fund shall be a continuing fund not subject to transfer at the close of the fiscal year. When there shall have been deposited in such fund sufficient money to pay the principal and interest on any and all outstanding bonds, thereafter, and until there may be other such bonds outstanding, no further deposits shall be made into said fund, and all money which would otherwise be deposited therein, including interest increments, shall be paid into the Harbor Revenue Fund. The money deposited in the Harbor Bond Redemption and Interest Fund may be invested in accordance with the provisions of applicable legislation of the State of California providing for the investment and reinvestment of any moneys in any sinking

fund, or any surplus moneys in the treasury of cities in the State. A separate fund or funds may be established for the purpose of paying or securing the payment of, revenue bonds for harbor purposes, and the pledge of revenue to such funds may have priority over any allocation of revenues to pay the principal and interest of general obligation bonds.

Sec. 261. The City Council shall annually provide, by a special tax levied upon real and personal properties, a sum sufficient to pay the principal and interest coming due upon the general obligation indebtedness of the City during the fiscal year.

Sec. 44 (41). The City of Long Beach, by procedural ordinance of the City Council or pursuant to state law, may issue revenue bonds without an election for any City purpose or purposes, and, any other provisions of this Charter notwithstanding, may make such covenants and exercise such powers as are deemed necessary in connection with the issuance and sale of such revenue bonds.

Sec. 229h (1). The board shall be authorized, with the approval of a majority of all members of the City Council, which approval shall be by resolution, to provide for the issuance of revenue bonds without an election secured by the revenues of the Harbor Department, including but not limited to revenues from the operation of the port and harbor facilities of the City as the facilities now exist or may later be extended or improved, for the purpose of acquiring, providing for, erecting, constructing, reconstructing, replacing, extending, or improving such improvements, utilities, structures, water craft, appliances, facilities and services as the board may deem necessary or convenient for the promotion or accommodation of commerce, navigation or fisheries or for any use in connection therewith, or upon the lands and waters, or interest therein, in the possession and under the management, supervision and control of said board, or for payment of the cost of acquiring or taking such real property or any interest therein, that the board may deem necessary or convenient for such purpose. The procedure for issuance of revenue bonds by the Harbor Department shall be established by procedural ordinance of the City Council.

Notwithstanding all or any part of this section, nothing herein shall be construed as a limitation upon the power of the City or of any department thereof to issue revenue bonds without an election, under state law or procedural ordinance.

Sec. 260.10. Notwithstanding any provision of this Charter to the contrary, any revenues which are attributable to oil and gas operations and which are subject to the jurisdiction of the Board of Harbor Commissioners or of the City, may, with the consent of a majority vote of all members of the City Council, be used to pay, or may be pledged as additional security to pay, the principal of and interest on revenue bonds of the Harbor Department.

All elective officers and all members of commissions and all members of boards of the city, must be bona fide residents of the city and maintain their respective places of abode within the corporate limits of the city at all times during which they hold such office, or are members of any such commission or board; and the term "places of abode," as used herein, shall mean not only the legal or technical residence or domicile, but also actual abode in fact.

Any elective officer, member of a commission or member of a board of the city, upon his or her failure to comply with and abide by the requirements as to residence and place of abode as hereinbefore set forth, shall be thereby immediately disqualified from holding such office or membership, and the tenure of such officer in such office or the membership of such member on such commission or board, as the case may be, shall be thereby immediately terminated.

CERTIFICATE OF RATIFICATION OF CHARTER AMENDMENTS BY ELECTORS OF THE CITY OF SANTA CLARA

We, the undersigned, Gary G. Gillmor, Mayor of the City of Santa Clara, and A. S. Belick, City Clerk of said City, do hereby certify and declare as follows:

That the City of Santa Clara, a municipal corporation, in the County of Santa Clara, State of California, is now and at all times herein mentioned was a City duly organized,

existing and acting under a freeholders charter adopted under and pursuant to Section 8 of Article XI of the Constitution of the State of California, with a population of more than 50,000 inhabitants;

That in accordance with the provisions of Section 8 of Article XI of the Constitution of the State of California the City Council of said City, being the legislative body thereof, on its own motion, submitted to the qualified electors of said City at a special election consolidated with the general statewide election called and held in the County of Santa Clara, a certain proposal for the amendment of the Charter of said City at said special election duly and regularly called and held for that purpose in said City on the fifth day of November, 1968, said Charter Amendments being designated as Proposition D and herein designated as Santa Clara Charter Amendments;

That said Santa Clara Charter Amendments were published in the Santa Clara Journal, a newspaper of general circulation printed and published in said City and having a general circulation therein; said newspaper being the official newspaper of said City, Proposition D was published September 11, 1968 and September 18, 1968, in each edition thereof on said days, and said publication was made at the times and in the manner prescribed in Section 8, Article XI of the Constitution of the State of California;

That said City Council caused copies of said Santa Clara Charter Amendments to be printed in convenient pamphlet form and in type of not less than 10-point, and caused copies thereof to be mailed to each of the qualified electors of said City, and, until the day fixed for said election, advertised in said Santa Clara Journal, a newspaper having a general circulation in said City, a notice that copies thereof could be had upon application therefor, and in accordance with said notice copies thereof could be had upon application therefor;

That said election was duly and regularly held on the fifth day of November, 1968, which said date of said election was not less than 40 nor more than 60 days after the completion of the advertising in said official newspaper of said proposed Charter Amendments, and the returns of said election were duly and regularly canvassed and the results declared and entered, namely, that at said election a majority of the qualified voters voting thereon voted in favor of and did ratify each of said Santa Clara Charter Amendments, hereinafter specifically set forth;

That said Amendments to the Charter of said City so ratified by the voters of said City are as follows, to wit:

"PROPOSITION D: A proposition on the motion of the City Council of said City to Amend Article VI and Article VII of the Charter of said City as follows:

1. Amend Article VI to read as follows:

Article VI. The Elective Officers

Section 600. Enumeration. The elective officers of the City shall consist of a City Council composed of seven members.

The chief of the police department and the city clerk shall be elected from the city at large, at the time and in the manner in this charter provided for election of the members of the city council, and shall serve for a term of four years, all as provided in Charter Amendment (1953 Statutes 3929).

At the general municipal election to be held in the City on the first Tuesday in April, 1969, and each fourth year thereafter, the Mayor of the City shall be elected from the City at large for a term to commence on the first Monday in May following such election and shall serve until his successor is elected and qualified. A person elected at any election to the office designated "Mayor" shall be deemed elected, both as a Mayor and as a member of the Council. Although the Mayor is a Council member and his election does not change the number of Councilmen from seven, the office of Mayor shall be separately voted upon and is a separate office. Except as to the municipal election to be held in the City on the first Tuesday in April, 1969, no person shall be a candidate for Mayor and City Council at the same election. Any person having a plurality of all votes cast from the City at large for Mayor shall be declared duly elected Mayor, and he shall not be elected at the same election he is so elected Mayor to any other Council office, although any person at said 1969 election can be a candidate for such offices at the same election. Votes cast for him at such election for any Council office other than Mayor shall not be counted in determining whether plurality of votes were cast in such election for such officer for Council, or have any other significance.

Any incumbent member of the City Council may run for such elective office of Mayor, and the Mayor may run for the separate offices of Mayor or other City Council office; however, no member of the Council, including the Mayor, shall hold more than one City elective office.

2. Amend Article VII by amending Sections 701, 702, 703, 704 and 705 thereof and adding new Sections 704.1, 704.2, 704.3 and 704.4 thereto, each of which sections shall read as follows:

Section 701. Qualifications. No person shall be eligible to hold any elective office in the City, including Mayor, City Council, Chief of Police Department, and City Clerk, unless he shall be a qualified elector, and shall have been a resident of the City for at least three (3) years next preceding the date of his election or appointment to such office.

A member of the Council shall not serve more than two consecutive elective terms as such, and shall be ineligible for

re-election or appointment to fill a vacancy in the Council until two years after such service. The office of elected Mayor, to be filled from the City at large, is a separate office from the Council and for the purpose of this qualification for office, is neither a Council office nor the Council. For such purpose, time served in such office of elected Mayor is not time served on the Council and time served on the Council is not time served in such office of elected Mayor.

Section 702. Compensation. Each member of the City Council shall receive as compensation the sum of Two Hundred Dollars ($200) per month, and the Mayor shall receive an additional One Hundred Dollars ($100) per month. As of the first Monday in May, 1969, the Mayor shall receive an additional Seven Hundred Dollars ($700) per month for a total of One Thousand Dollars ($1,000) per month. If a member of the City Council, including the Mayor, does not attend all meetings of the City Council or study sessions called on order of the City Council and held during the month, the compensation to him for such month shall be reduced by the sum of Twenty Five Dollars ($25) for each meeting or study session not attended unless he is absent with the consent of or on order of the City Council.

Absence from five consecutive regular meetings, unless excused by resolution of the City Council, shall operate to vacate the seat of any member of the City Council so absent.

Section 703. Vacancies. A vacancy in any elective office of the City, including Mayor, City Council, Chief of Police Department, and City Clerk, from whatever cause arising, shall be filled by appointment by the City Council by a majority vote of the remaining members.

In the event the City Council shall fail to fill a vacancy by appointment within thirty days after such office shall have been declared vacant, it shall forthwith cause an election to be held to fill such vacancy. A person appointed or elected to fill a vacancy holds office for the unexpired term of the former incumbent.

Section 704. Presiding Officer. Mayor. At the first regular meeting in May following any municipal election at which councilmen are elected, the council shall elect one of its members as presiding officer, who shall have the title of Mayor. The Mayor shall have a voice and vote in all its proceedings. He shall be the official head of the City for all ceremonial purposes. He shall perform such other duties as may be prescribed by this Charter or as may be imposed by the City Council consistent with his office. The Mayor shall serve in such capacity at the pleasure of the City Council.

As of the first Monday in May, 1969, the Mayor shall be elected from the City at large and upon assuming such elective office, he shall not serve in such capacity at the pleasure of the City Council.

Section 704.1. Same—Limitation of terms. No person who has been elected to the office of Mayor for two (2) successive

four-year terms shall be eligible to run for election to the office of Mayor, nor to serve as such, for any additional successive term; but the above shall not disqualify any person from running for election to the office of Mayor, nor from further service as Mayor, for any term or terms which are not successive, nor for any parts of terms which are not successive.

Section 704.2. Same—Political position. It is the intent of this article that as of the first Monday of May, 1969, the Mayor shall be the political leader within the community by providing guidance and leadership to the City Council, by expressing and explaining to the community the City's policies and programs and by assisting the City Council in the informed, vigorous and effective exercise of its powers. Political leadership shall be concerned with the general development of the community and the general level of City services and activity programs.

Section 704.3. Same—Powers and duties. The Mayor shall as of the first Monday of May, 1969, have the following powers and duties:

(a) The Mayor shall have the power to make recommendations to the City Council on matters of policy and programs which require City Council decision; provided, that if he recommends any increases in the City budget, he shall recommend the method of financing such expenditure; and provided, further, that if he proposes curtailment of service, such recommendations and his reason therefor shall be specific. He may also, on his own account, inform the community on matters of policy or program which he believes the welfare of the community makes necessary;

(b) The Mayor shall preside at meetings of the City Council and shall have the vote as a member of the City Council. He shall have no veto power;

(c) The Mayor shall have authority to preserve order at all City Council meetings, to remove or cause the removal of any person from any meeting of the City Council for disorderly conduct, to enforce the rules of the City Council and to determine the order of business under the rules of the City Council.

(d) The Mayor shall exercise such other powers and perform such other duties as may be prescribed by the City Council, provided that the same are not inconsistent with this Charter.

Nothing in this section shall be construed in any way as an infringement or limitation on the powers and duties of the City Manager as Chief Administrative Officer and head of the administrative branch of the City government as prescribed in other sections of this Charter. Except as otherwise herein provided, the Mayor shall possess only such authority over the City Manager and the administrative branch as he possesses as one member of the City Council.

Section 704.4. Same—Vacancy. The office of Mayor shall become and be deemed vacant immediately upon the incumbent ceasing to be a member of the City Council.

Section 705. Mayor Pro Tempore. The City Council shall also designate one of its members as Mayor Pro Tempore. The Mayor Pro Tempore shall perform the duties of the Mayor during his absence or disability. The Mayor Pro Tempore shall serve in such capacity at the pleasure of the City Council."

That we have compared the foregoing amendments as stated herein with the original proposals submitted to the electors of said City, and find and certify that each of the foregoing is a full, true and correct copy thereof.

In witness whereof, we have hereunto set our hands and caused the seal of said City of Santa Clara to be affixed hereto this 11th day of December, 1968.

Section 1201. Submission of Budget and Budget Message. On or before the twenty-fifth day of May of each year, or at such other time as the Council may prescribe, the Manager shall submit to the Council a budget for the ensuing fiscal year and an accompanying message.

The Manager's message shall explain the budget both in fiscal terms and in terms of the work programs. It shall outline the proposed financial policies of the City for the ensuing fiscal year, describe the important features of the budget, indicate any major changes from the current year in financial policies, expenditures, and revenues together with the reasons for such changes, summarize the City's debt position, and include such other material as the Manager deems desirable.

Section 1202. Budget. The budget shall provide a complete financial plan of all City funds and activities for the ensuing fiscal year and, except as required by law or this Charter, shall be in such form as the Manager deems desirable or the Council may require. In organizing the budget the Manager shall utilize the most feasible combination of expenditure classification by fund, organization unit, program, purpose or activity, and object. It shall begin with a clear general summary of its contents; shall show in detail all estimated income, indicating the proposed property tax levy, and all proposed expenditures, including debt service, for the ensuing fiscal year; and shall be so arranged as to show comparative figures for actual and estimated income and expenditures of the preceding fiscal year. It shall indicate in separate sections:

(a) Proposed expenditures for current operations during the ensuing fiscal year, detailed by offices, departments, and

(b) Contents. The capital program shall include:

1. A clear general summary of its contents;

3. Cost estimates, method of financing and recommended time schedules for each such improvement; and

4. The estimated annual cost of operating and maintaining the facilities to be constructed or acquired.

The above information may be revised and extended each year with regard to capital improvements still pending or in process of construction or acquisition.

Section 1204. Council Action on Budget.

1. The times and places where copies of the message and budget are available for inspection by the public, and

(b) Further Consideration and Adoption. After the conclusion of the public hearing the Council shall further consider the proposed budget and make any revision thereof that it may deem advisable and on or before July 1 it shall adopt the budget. Adoption of the budget shall constitute appropriations of the amounts specified therein as expenditures from the funds indicated. If it fails to adopt the budget by said date, the amounts appropriated for current operation for the current fiscal year shall be deemed adopted for the ensuing fiscal year on a month-to-month basis, with all

items in it prorated accordingly, until such time as the Council adopts a budget for the ensuing fiscal year.

Section 1206. Public Records. Copies of the budget and the capital program as adopted shall be public records and shall be made available to the public at suitable places in the City.

Section 1207. Amendments After Adoption.

(a) Supplemental Appropriations. If during the fiscal year the Manager certifies that there are available for appropriation revenues in excess of those estimated in the budget, the Council by resolution may make supplemental appropriations for the year up to the amount of such excess.

(b) Reduction of Appropriations. If at any time during the fiscal year it appears probable to the Manager that the revenues available will be insufficient to meet the amount appropriated, he shall report to the Council without delay, indicating the estimated amount of the deficit, any remedial action taken by him and his recommendations as to any other steps to be taken. The Council shall then take such further action as it deems necessary to prevent or minimize any deficit and for that purpose it may by resolution reduce one or more appropriations.

(c) Transfer of Appropriations. At any time during the fiscal year the Manager may transfer part or all of any unencumbered appropriation balance among programs within a department, office, or agency and, upon written request by the Manager, the Council may by resolution transfer part or all of any unencumbered appropriation balance from one department, office, or agency to another.

(d) Limitations; Effective Date. No appropriation for debt service may be reduced or transferred, and no appropriation may be reduced below any amount required by law to be appropriated or by more than the amount of the unencumbered balance thereof. The supplemental appropriations and reduction or transfer of appropriations authorized by this section may be made effective immediately upon adoption.

Section 1208. Lapse of Appropriations. Every appropriation, except an appropriation for a capital expenditure, shall

lapse at the close of the fiscal year to the extent that it has not been expended or encumbered. An appropriation for a capital expenditure shall continue in force until the purpose for which it was made has been accomplished or abandoned; the purpose of any such appropriation shall be deemed abandoned if three years pass without any disbursement from or encumbrance of the appropriation.

Section 1209. Tax Limits.

(a) The Council shall not levy a property tax, for municipal purposes, in excess of One Dollar and Thirty Cents annually on each One Hundred Dollars of the assessed value of taxable property in the City, except as otherwise provided in this section, unless authorized by the affirmative votes of a majority of the voters voting on a proposition to increase such levy at any election at which the question of such additional levy for municipal purposes is submitted to the voters. The number of years that such additional levy is to be made shall be specified in such proposition.

(b) There shall be levied and collected at the time and in the same manner as other property taxes for municipal purposes are levied and collected, as additional taxes, if no other provision for payment thereof is made:

1. A tax sufficient to meet all liabilities of the City for principal and interest of all bonds or judgments due and unpaid, or to become due during the ensuing fiscal year, which constitute general obligations of the City; and

2. A tax sufficient to meet all obligations of the City to the Public Employees Retirement System for the retirement of City employees, due and unpaid or to become due during the ensuing fiscal year.

Section 1210. Tax Procedure. The procedure for the assessment, levy, and collection of taxes upon property, taxable for municipal purposes, may be prescribed by ordinance of the Council.

Section 1211. Bonded Debt Limit. The City shall not incur an indebtedness evidenced by general obligation bonds which shall in the aggregate exceed the sum of fifteen percent of the total assessed value, for purposes of City taxation, of all taxable real and personal property within the City.

No bonded indebtedness which shall constitute a general obligation of the City may be created unless authorized by the affirmative votes of two-thirds of the voters voting on such proposition at any election at which the question is submitted to the voters and unless in compliance with the provisions of the State Constitution and of this Charter.

Section 1212. Contracts on Public Works. Every project involving an expenditure of more than Six Thousand Dollars for the construction, improvement, repair, or maintenance of public works shall be let by the Council by contract to the lowest responsible bidder after notice by publication in the offi-

cial newspaper by one or more insertions, the first of which shall be at least ten days before the time for opening bids.

Projects for the maintenance or repair of public works are excepted from the requirements of this paragraph if the Council determines that such work can be performed more economically by a City department than by contracting for the doing of such work.

The Council may reject any and all bids presented and may readvertise in its discretion.

The Council, after rejecting bids, or if no bids are received, may declare and determine that, in its opinion, based on estimates approved by the City Manager, the work in question may be performed better or more economically by the City with its own employees and after the adoption of a resolution to this effect by at least four affirmative votes of the Council may proceed to have said work done, without further observance of the provisions of this section.

Such contracts may be let and such purchases made without advertising for bids, if such work shall be deemed by the Council to be of urgent necessity for the preservation of life, health, or property, and shall be authorized by resolution passed by at least four affirmative votes of the Council and containing a declaration of the facts constituting such urgency.

Section 1213. Cash Basis Fund. The Council shall maintain a revolving fund, to be known as the "Cash Basis Fund," for the purpose of placing the payment of the operating expenses of the City on a cash basis. A reserve shall be built up in this fund from any available sources in an amount which the Council deems sufficient with which to meet all lawful demands against the City for the first five months, or other necessary period, of the succeeding fiscal year prior to the receipt of ad valorem tax revenues. Transfers may be made by the Council from such fund to any other fund of such sum as may be required for the purpose of placing such fund on a cash basis.

All moneys so transferred from the Cash Basis Fund shall be returned thereto before the end of the fiscal year.

Section 1214. Presentation and Audit of Demands. Any demand against the City must be in writing and may be in the form of a bill, invoice, payroll, or formal demand. Each such demand shall be presented to the Director of Finance, who shall examine the same. If the amount thereof is legally due and there remains on his books an unexhausted balance of an appropriation against which the same may be charged, he shall approve such demand and draw his warrant on the Treasurer therefor, payable out of the proper fund.

The Director of Finance shall transmit such demand, with his approval or rejection thereof endorsed thereon, and warrant, if any, to the City Manager. If a demand is one for an item included within an approved budget appropriation, it

shall require the approval of the City Manager, otherwise it shall require the approval of the Council, following the adoption by it of an amendment to the budget authorizing such payment. Any person dissatisfied with the refusal of the City Manager to approve any demand, in whole or in part, may present the same to the Council which, after examining into the matter, may approve or disapprove the demand in whole or in part.

Section 1215. Registering Warrants. Warrants on the Treasurer which are not paid for lack of funds shall be registered. All registered warrants shall be paid in the order of their registration when funds therefor are available and shall bear interest from the date of registration at such rate as shall be fixed by the Council by resolution.

Section 1216. Claims Against the City. The Council by ordinance may provide for conditions precedent to the commencement of any action or proceeding to bringing suit against the City, its officers and employees, except as the subject is preempted by State law.

Section 1217. Independent Audit. The City Council shall employ at the beginning of each fiscal year, a certified public accountant who shall, at such time or times as may be specified by the City Council, and at such other times as he shall determine, examine the books, records, inventories and reports of all officers and employees who receive, handle, or disburse public funds and all such other officers, employees, or departments as the City Council may direct. As soon as practicable after the end of the fiscal year, a final certified audit and report shall be submitted by such accountant to the City Council, one copy thereof to be distributed to each member, one to the City Manager, Director of Finance, Treasurer, and City Attorney, respectively, and three additional copies to be placed on file in the office of the City Clerk where they shall be available for inspection by the general public.

The Council may prescribe by ordinance or resolution the method or procedure for granting franchises, together with additional terms and conditions for making such grants. In the absence of such provision the method provided by the general laws of the State shall apply.

Section 1301. Term of Franchise. No franchise shall be granted for a longer period than twenty-five years, unless there be reserved to the City the right to take over at any

Section 1302. Eminent Domain. No franchise or grant of a franchise shall in any way or to any extent impair or affect the right of the City to acquire the property of the possessor thereof by purchase or condemnation, and nothing therein contained shall be construed to contract away or to modify or abridge, either for a term or in perpetuity, the City's right of eminent domain with respect to the property of the possessor of any franchise. Every franchise granted by the City is granted upon the condition, whether expressed in the grant or not, that such franchise shall not be given any value before any court or other public authority in any proceeding of any character in excess of any amount actually paid by the grantee to the City at the time of the grant.

Section 1303. Procedure for Granting Franchises. Before granting any franchise, the City Council shall adopt a resolution declaring its intention to grant same and stating the name of the proposed grantee, the character of the proposed franchise, and the terms and conditions upon which it is proposed to be granted. Such resolution shall fix and set forth the day, hour, and place when and where any person having an interest in or objecting to the granting of such franchise may appear before the Council and be heard thereon. Said resolution shall be published at least once, not less than ten days prior to said hearing, in the official newspaper. After hearing all persons desiring to be heard, the Council may by ordinance deny or grant the franchise on the terms and conditions specified in the resolution subject to the referendum of the people. No ordinance granting a franchise shall be adopted as an emergency ordinance.

Proposition D

Describing and setting forth a proposal to the qualified electors of the City and County of San Francisco to amend the Charter of said city and county by adding Section 69.2 thereto relating to the incurring of bonded indebtedness for capital improvement projects.

The Board of Supervisors of the City and County of San Francisco hereby submits to the qualified electors of said city and county at an election to be held therein on November 5,

1968, a proposal to amend the charter of said city and county by adding Section 69.2 thereto reading as follows:

Capital Improvement Projects—Bond Issues

Section 69.2. Whenever the capital improvement program recommended by the city planning commission pursuant to Section 69.1 contains a number of capital improvement projects with estimated costs of less than $2,000,000 each and the board of supervisors by resolution adopted by two-thirds vote of all its members determines that public interest and necessity require the acquisition, construction or completion of more than one of such capital improvement projects to be specified in said resolution, but that the total estimated cost of said improvements will be too great to be paid out of the ordinary annual income and revenue of the city and county, and will require an expenditure greater than the amount allowed therefor by the annual tax levy and will require the incurring of a bonded debt, the board at any subsequent meeting may by a two-thirds vote of all its members pass an ordinance calling an election and ordering submission to the qualified voters of the city and county the single proposition of incurring a bonded indebtedness for the group of public improvements specified in said resolution. Such election shall be called and held in the same manner as other bond elections of the city and county. If the proposition receives the assent of two-thirds of the qualified electors voting in favor thereof, the bonded indebtedness may then be incurred for said group of public improvements. No proposition or propositions for incurring a bonded indebtedness shall be submitted to the voters at any one election pursuant to the provisions of this section where the total estimated cost of the group or groups of public improvements involved exceeds the sum of $6,000,000.

The proceeds of the sale of bonds authorized at any such election (except premium and accrued interest received on the sale thereof) shall be applied exclusively for said group of public improvements, but in such amounts applicable to each thereof as the board of supervisors may from time to time determine, provided that as nearly as practicable each capital improvement project comprising a part of said group of public improvements shall be acquired, constructed and completed to the extent of funds then available therefor, which may be more or less than the original estimated cost of any capital improvement project comprised within said group of public improvements.

The provisions of the Municipal Bond Act of 1901, as amended, presently codified as Article 1, Chapter 4, Division 4, Title 4, of the Government Code of the State of California authorizing the incurring and establishing the procedure for the creation of bonded indebtedness by cities shall, except as otherwise provided herein, be applicable to the creation of the bonded indebtedness authorized by this section.

Proposition E

Describing and setting forth a proposal to the qualified electors of the City and County of San Francisco to amend the charter of said city and county by amending Sections 49, 159, 160, 164.1, 165.2, 165.6, 168.1.10 and 171.1.10 thereof, relating to the Retirement System.

The Board of Supervisors of the City and County of San Francisco hereby submits to the qualified electors of said city and county at an election to be held therein on November 5, 1968, a proposal to amend the charter of said city and county by amending Sections 49. 159. 160. 164.1, 165.2, 168.1.10 and 171.1.10 thereof to read as follows:

Appointments and Nominations by Mayor

Section 49. The mayor shall nominate members of the board of education for confirmation by the voters, and shall appoint three members of the retirement board, and shall also appoint members of the public utilities, city planning and civil service commissions, each of which said boards or commissions to have the membership, terms of members, and powers and duties as are provided in this charter.

Retirement Board

Section 159. The retirement system shall be managed by a retirement board, which is hereby created, and which shall be the successor and have the powers and duties of the board of administration, the board of trustees of the police relief and pension fund and the board of fire pension fund commissioners. The retirement board shall consist of the president of the board of supervisors, three members to be appointed by the mayor, and three members elected from the active members, who shall not include retired persons of the retirement system. The members appointed by the mayor shall either hold a degree of doctor of medicine, or shall be experienced in life insurance, actuarial science, employee pension planning, or investment portfolio management, and shall be appointed by the mayor from among three persons whose names shall have been submitted to him for each such appointment by a committee consisting of two members each of the San Francisco Medical Society, Bar Association of San Francisco, San Francisco Real Estate Board and the Greater San Francisco Chamber of Commerce; provided, however, that there shall not be, at any one time, more than one appointed member who holds a degree of doctor of medicine. The term of office of the six members, other than the president of the board of supervisors, shall be five years, and the terms presently in effect for appointed and elected members shall not be changed by this amendment. The city attorney shall cease to be a member of said retirement board on the effective date of this amendment and the mayor shall thereupon appoint a

member in accordance with the procedure established in this section, said member's term to expire five years from the effective date of this amendment. The members of the retirement board shall serve without compensation. Subject to the civil service provisions of this charter, the retirement board shall appoint a secretary-general manager, provided, however, that any person who has performed the duties of secretary-general manager continuously for one year prior to the date of approval of this amendment by the electorate and who on said date shall be performing said duties, is hereby confirmed in said position and thereafter shall hold the same pursuant to said civil service provisions of this Charter. The board shall appoint an actuary, who shall hold office at its pleasure, and the board shall employ a consulting actuary. The secretary-general manager or actuary shall have the power to administer oaths and affirmations in all matters pertaining to the business of the retirement system.

The retirement board shall be the sole authority and judge, under such general ordinances as may be adopted by the supervisors, as to the conditions under which members may receive and may continue to receive benefits of any sort under the retirement system, and shall have exclusive control of the administration and investment of such fund or funds as may be established, provided that all investments shall be of the character legal for insurance companies in California.

Actuarial Tables, Rates and Valuations

Section 160. The mortality, service and other tables and the rates of contributions for members as recommended by the actuary and the valuations determined by him and approved by the retirement board shall be conclusive and final, and the retirement system shall be based thereon. The total amount, as determined by the actuary and approved by the board, of the contributions required during any fiscal year of the city and county under the retirement system shall be paid into the retirement system by the city and county during such year. Liabilities accruing under the retirement system because of service rendered to the city and county by persons prior to the date their respective classes become eligible for membership in the system, and administrative costs under the system, shall be met by contributions to the retirement system by the city and county, in addition to any amounts contributed to meet liabilities accruing because of service rendered by such persons after becoming members of the system, provided that such prior service liabilities may be met by annual appropriations instead of by one appropriation for the total amount of the liabilities; and provided further, that such appropriation for any one year shall not be less than the amount disbursed during that year on account of prior service. All expenses in connection with the investment of such fund or funds as may be established, including but not limited

to travel and transportation costs, investment seminar expenses, postage, insurance, telephone, and subscriptions to investment publications, shall be paid from the accumulated contributions of the city and county.

Contributions to the retirement system required of the city and county shall be charged by the controller against the general fund or the school, utility, bond or other special fund under which the service was rendered, on account of which the contribution is required; provided that contributions required on account of service rendered by any person prior to becoming a member of the system, under a temporary fund, such as bond or county roads funds, or a fund then no longer existing, may be charged against the general fund, and provided further, that any contributions required on account of persons receiving benefits under subdivision (c) of section 165, shall be charged against the general fund.

Section 164.1 (A) Each retirement or death allowance which is not subject to change when the salary rate of any member is changed and which is payable to or on account of any member who has retired or died prior to July 1, 1967, except such allowances payable to or on account of persons who retired or died prior to July 1, 1947 as members under Section 165, but including death allowances payable under Section 168.3 which are not subject to change when the salary rate of any member is changed, shall be increased for time on and after the effective date of this section, hereby designated as the first day of the month next following its ratification by the State legislature, by the percentage set forth in the following table opposite the fiscal year in which said allowance became effective, said percentage to be applied to the allowance payable to the individual who was receiving the allowance on the effective date of this section (a) exclusive of the annuity provided by additional contributions and (b) prior to reduction pursuant to subsection (A) of Section 165.6:

Fiscal year in which allowance became effective	Percentage
All years prior to July 1, 1959	16%
July 1, 1959 to June 30, 1960	14%
July 1, 1960 to June 30, 1961	12%
July 1, 1961 to June 30, 1962	10%
July 1, 1962 to June 30, 1963	8%
July 1, 1963 to June 30, 1964	6%
July 1, 1964 to June 30, 1965	4%
July 1, 1965 to June 30, 1966	2%
July 1, 1966 to June 30, 1967	1%

(1) Funds necessary for the payment of such increases in allowances payable to or on account of members who retired or died as members under Charter Sections 165 or 165.2 shall be provided from the City's accumulated contributions held

by the system on account of miscellaneous members under Section 165.2.

(2) Funds necessary for the payment of such increases in allowances to or on account of members who retired or died as members under Charter Sections 168 or 168.1 shall be provided from the City's accumulated contributions held by the system on account of police members under Section 168.1.

(3) Funds necessary for the payment of such increases in allowances to or on account of members who retired or died as members under Charter Sections 171 or 171.1 shall be provided from the City's accumulated contributions held by the system on account of fire members under Section 171.1.

The necessary funds shall be transferred on the effective date of this section from said accumulated contributions to the accumulated contributions held by the system to meet the obligations of the city and county on account of benefits that have been granted and which are based on service rendered as members. The contribution being required of the city and county currently, as percentages of salaries of persons who are members under Sections 165.2, 168.1 and 171.1 shall be increased to percentages determined by the actuary as necessary to replace the accumulated contributions so transferred.

(B) (1) The retirement board shall determine, prior to April 1 of each year, the percentage of increase or decrease in the cost of living during the preceding calendar year or years, as shown by the then current Consumer Price Index, All Items, San Francisco (1957–59 = 100), issued by the U.S. Bureau of Labor Statistics and published in the Monthly Labor Review or a successor publication. The cost of living adjustments as hereinafter provided shall be based on the percentage of such increase or decrease.

(2) Notwithstanding any other charter or ordinance provision governing the retirement system, every retirement or death allowance payable to or on account of any member who retires or dies as a member of the system or who has retired or died as such a member, except allowances subject to change when the salary rate of any member is changed, shall be increased or decreased as of July 1, 1969, and on July 1 of each succeeding year, subject to the provisions of this subsection (B), by a percentage of the allowance established on the effective date of this section after any increase under subsection (A) of this section or on the effective date of such allowance, whichever is later, as payable to the individual who is receiving the allowance on the date of any such adjustment (a) exclusive of the annuity provided by additional contributions, and (b) prior to modification pursuant to subsection (F) of Section 165.6. On July 1, 1969 the percentage of increase in each such allowance shall be the percentage which is determined by the retirement board to approximate to the nearest one per cent, the percentage of increase in the cost of living during the preceding calendar year. On July 1, 1970 and on July 1 of each succeeding year, the percentage

of increase or decrease in each such allowance shall be the percentage which is determined by the retirement board to approximate to the nearest one per cent of increase or decrease in the cost of living in the calendar year or years since January 1, 1969 or since January 1 of the year in which the last such cost of living adjustment in allowances was made, whichever is later. Any such allowance shall be so adjusted only if it was in effect for at least one year prior to the date of such adjustment. Such adjustment in any year shall not exceed two percent of such allowance; provided, however, that no allowance shall be reduced below the amount being received by the member or his beneficiary on the effective date of this section or on the effective date he began to receive the allowance, whichever is later.

(3) Any such increases in allowances shall be paid from funds which shall be allocated for that purpose by the retirement board from such earnings on investments not otherwise allocated and after crediting of regular interest to accumulated contributions as are in excess of two per cent of the assets of the retirement system at the close of each fiscal year.

(4) Any such increases in allowances which are not funded by such allocation of such earnings, shall be funded by contributions of members under Sections 165, 165.2, 168.1 and 171.1 and by contributions of the city, which shall be at rates which are in addition to the rates of contribution otherwise provided by charter or ordinance, provided that a member's rate of contribution shall not exceed one-half of one per cent of his monthly compensation. The contributions made under this section by any member shall be credited together with regular interest thereon to his individual account and shall be subject to the same charter and ordinance provisions relating to accumulated contributions of the member, including withdrawal and death benefits other than death allowances; provided, however, that upon his retirement or death, such accumulated contributions and interest shall not be applied to provide a part of the retirement benefits payable to him or the death allowance benefits payable on account of his death otherwise provided by charter or ordinance, but instead shall be held, together with the accumulated contributions made by the city pursuant to this subsection (B), with interest thereon, to provide the benefits under this subsection (B). Whenever such accumulated contributions of a member with interest have been paid to him on account of his termination of service or to his beneficiary or estate as a part of his death benefits, as provided by charter or ordinance, an amount equal to the amount of contributions and interest so paid shall be applied to reduce the contributions by the city then currently payable under this section. If a member, upon his reentry into membership after the withdrawal of his accumulated contributions, shall redeposit the accumulated contributions withdrawn with

interest, as otherwise provided by the charter or ordinance, he shall redeposit the accumulated contributions made under this section with interest in the same manner and under the same conditions as the redeposit of his other accumulated contributions, and an amount equal to the amount of such redeposit of accumulated contributions made under this section with interest, shall become payable forthwith by the city to be included in the city's contributions under this section.

(5) The rates of contribution of members and the city, as provided herein, shall be fixed by the retirement board from time to time as it determines necessary.

Retirement—Miscellaneous Officers and Employees On and After July 1, 1947

Section 165.2. Miscellaneous officers and employees, as defined in this section, who are members of the retirement system under this section of the charter on the effective date of this amendment, hereby designated as the first day of the month next following its ratification by the State Legislature, and persons who become miscellaneous officers and employees after said effective date, shall be members of the retirement system, subject to the following provisions of this section, in addition to the provisions contained in sections 158 to 161, both inclusive, of this charter notwithstanding the provisions of any other section of the charter, provided that the retirement system shall be applied to persons employed on a part-time, temporary or substitute basis only as the board of supervisors shall determine by ordinance enacted by three-fourths vote of all members of the board. Miscellaneous officers and employees of the said departments who are members of the retirement system under section 165 of the charter on said effective date shall continue to be members of the system under section 165 and shall not be subject to any of the provisions of this section, except as specifically provided in this section.

(A) The following words and phrases as used in this section unless a different meaning is plainly required by the context, shall have the following meaning:

"Retirement allowance," or "allowance," shall mean equal monthly payments, beginning to accrue upon the date of retirement, and continuing for life unless a different term of payment is definitely provided by the context.

"Compensation," as distinguished from benefits under the workmen's compensation laws of the State of California shall mean all remuneration whether in cash or by other allowances made by the city and county, for service qualifying for credit under this section.

"Compensation earnable" shall mean the compensation as determined by the retirement board, which would have been earned by the member had he worked, throughout the period under consideration, the average number of days ordinarily worked by persons in the same grade or class of positions as the positions held by him during such period and at the rate

of pay attached to such positions, it being assumed that during any absence, he was in the position held by him at the beginning of the absence, and that prior to entering city service he was in the position first held by him in city-service.

"Benefit" shall include "allowance," "retirement allowance," and "death benefit."

"Average final compensation" shall mean the average monthly compensation earned by a member during any five consecutive years of credited service in the retirement system in which his average final compensation is the highest, unless the board of supervisors shall otherwise provide by ordinance enacted by three-fourths vote of all members of the board.

For the purposes of the retirement system and of this section, the terms "miscellaneous officer or employee," or "member," as used in this section shall mean any officer or employee who is not a member of the fire or police departments as defined in the charter for the purpose of the retirement system, under section 165 of the charter.

"Retirement system" or "system" shall mean San Francisco City and County Employees' Retirement System as created in section 158 of the charter.

"Retirement board" shall mean "retirement board" as created in section 159 of the charter.

"Charter" shall mean the charter of the City and County of San Francisco.

Words used in the masculine gender shall include the feminine and neuter genders, and singular numbers shall include the plural and the plural the singular.

"Interest" shall mean interest at the rate adopted by the retirement board.

(B) Any member who completes at least twenty years of service in the aggregate credited in the retirement system and attains the age of fifty-five years, or at least ten years of service in the aggregate credited in the retirement system, and attains the age of sixty years, said service to be computed under subsection (G) hereof, may retire for service at his option. Members shall be retired on the first day of the month next following the attainment by them of the age of sixty-five years. A member retired after reaching the age of sixty years shall receive a service retirement allowance at the rate of $1\frac{2}{3}$ per cent of said average final compensation for each year of service; provided, however, that upon the compulsory retirement of a member upon his attainment of the age of 65 years, if the allowance available to such member pursuant to the provisions of subsection (F) of this section shall be greater in amount than the service retirement allowance otherwise payable to such member under this subsection (B), then such member shall receive as his service retirement allowance, in lieu of the allowance otherwise payable under this subsection (B), an allowance computed in accordance with the formula provided in said subsection (F). The service retirement al-

lowance of any member retiring prior to attaining the age of sixty years, after rendering twenty years or more of such service and having attained the age of fifty-five years, computed under subsection (G), shall be such as can be provided at the age of retirement by the actuarial value, at the age of retirement, of the retirement allowance to which he would be entitled upon retirement at age sixty and with the service credited at the date of actual retirement.

Before the first payment of a retirement allowance is made, a member retired under this subsection or subsection (C) of this section, may elect to receive the actuarial equivalent of his allowance, partly in an allowance to be received by him throughout his life, and partly in other benefits payable after his death to another person or persons, provided that such election shall be subject to all the conditions prescribed by the board of supervisors to govern similar elections by other members of the retirement system, including the character and amount of such other benefits; provided, however, that at any time within 30 days after the date on which his compulsory retirement would otherwise have become effective, a member who has attained the age of 65 years may elect, without right of revocation, to withdraw his accumulated contributions, said election to be exercised in writing on a form furnished by the retirement system and filed at the office of said system and a member so electing shall be considered as having terminated his membership in said system on the date immediately preceding the date on which his compulsory retirement would otherwise have become effective and he shall be paid forthwith his accumulated contributions, with interest credited thereon. Notwithstanding the provisions of Section 165.6 of this charter, the portion of service retirement allowance provided by the city and county's contributions shall be not less than $100 per month upon retirement after thirty years of service and after attaining the age of sixty years, and provided further that as to any member with fifteen years or more of service at the compulsory retirement age of sixty-five, the portion of the service retirement allowance provided by the city and county's contribution shall be such that the total retirement allowance shall not be less than $100 per month. In the calculations under this subsection of the retirement allowance of a member having credit for service in a position in the evening schools and service in any other position, separate retirement allowances shall be calculated, in the manner prescribed for each class of service, the average final compensation in each case being that for the respective class of service; provided that the aggregate retirement allowance shall be taken into account in applying the provisions of this subsection providing for a minimum retirement allowance. Part time service and compensation shall be reduced to full time service and compensation in the manner prescribed by the board of supervisors, and

when so reduced shall be applied on full time service and compensation in the calculation of retirement allowances.

(C) Any member who becomes incapacitated for performance of duty because of disability determined by the retirement board to be of extended and uncertain duration, and who shall have completed at least ten years of service credited in the retirement system in the aggregate, computed as provided in subsection (G) hereof, shall be retired upon an allowance of one and one-half per cent of the average final compensation of said member, as defined in subsection (A) hereof for each year of credited service, if such retirement allowance exceeds one-third ($\frac{1}{3}$) of his average final compensation; otherwise one and one-half ($1\frac{1}{2}$) per cent of his average final compensation multiplied by the number of years of city-service which would be credited to him were such city-service to continue until attainment by him of age sixty, but such retirement allowance shall not exceed one-third ($\frac{1}{3}$) of such average final compensation. In the calculation under this subsection of the retirement allowance of a member having credit for service in a position in the evening schools and service in any other position, separate retirement allowances shall be calculated, in the manner prescribed, for each class of service, the average final compensation in each case being that for the respective class of service; provided that the average final compensation upon which the minimum total retirement allowance is calculated in such case shall be based on the compensation earnable by the member in the classes of service rendered by him during the five (5) years immediately preceding his retirement. Part time service and compensation shall be reduced to full time service and compensation in the manner prescribed by the board of supervisors, and when so reduced shall be applied as full time service and compensation in the calculation of retirement allowances. The question of retiring a member under this subsection may be brought before the retirement board on said board's own motion, by recommendation of any commission or board, or by said member or his guardian. If his disability shall cease, his retirement allowance shall cease, and he shall be restored to service in the position or classification he occupied at the time of his retirement.

(D) No modification of benefits provided in this section shall be made because of any amounts payable to or on account of any member under workmen's compensation laws of the State of California.

(E) If a member shall die, before his retirement, regardless of cause:

(1) If no benefit is payable under subdivision (2) of this subsection (E), a death benefit shall be paid to his estate or designated beneficiary consisting of the compensation earnable by him during the six months immediately preceding death, plus his contributions and interest credited thereon.

(2) If, at the date of his death, he was qualified for service retirement by reason of service and age under the provisions of subsection (B) of this section, and he has designated as beneficiary his surviving spouse, who was married to him for at least one full year immediately prior to the date of his death, one-half of the retirement allowance to which the member would have been entitled if he had retired for service on the date of his death shall be paid to such surviving spouse who was his designated beneficiary at the date of his death, until such spouse's death or remarriage, or if there be no surviving spouse, to the unmarried child or children of such member under the age of eighteen years, collectively, until every such child dies, marries or attains the age of eighteen years, provided that no child shall receive any allowance after marrying or attaining the age of eighteen years. If, at the death of such surviving spouse, who was receiving an allowance under this subdivision (2), there be one or more unmarried children of such member under the age of eighteen years, such allowance shall continue to such child or children, collectively, until every such child dies, marries or attains the age of eighteen years, provided that no child shall receive any allowance after marrying or attaining the age of eighteen years. If the total of the payments of allowance made pursuant to this subdivision (2) is less than the benefit which was otherwise payable under subdivision (1) of this subsection, the amount of said benefit payable under subdivision (1) less an amount equal to the total of the payments of allowance made pursuant to this subdivision (2) shall be paid in a lump sum as follows:

(a) If the person last entitled to said allowance is the remarried surviving spouse of such member, to such spouse.

(b) Otherwise, to the surviving children of the member, share and share alike, or if there are no such children, to the estate of the person last entitled to said allowance.

The surviving spouse may elect, on a form provided by the retirement system and filed in the office of the retirement system before the first payment of the allowance provided herein, to receive the benefit provided in subdivision (1) of this subsection in lieu of the allowance which otherwise would be payable under the provisions of this subdivision. If a surviving spouse, who was entitled to make the election herein provided, shall die before or after making such election but before receiving any payment pursuant to such election, then the legally appointed guardian of the unmarried children of the member under the age of eighteen years may make the election herein provided before any benefit has been paid under this subsection (E), for and on behalf of such children if in his judgment it appears to be in their interest and advantage, and the election so made shall be binding and conclusive upon all parties in interest.

If any person other than such surviving spouse shall have and be paid a community property interest in any portion of any benefit provided under this subsection (E), any allowance payable under this subdivision (2) shall be reduced by the actuarial equivalent, at the date of the member's death, of the amount of benefits paid to such other person.

Upon the death of a member after retirement and regardless of the cause of death, a death benefit shall be paid to his estate or designated beneficiary in the manner and subject to the conditions prescribed by the board of supervisors for the payment of a similar death benefit upon the death of other retired members.

(F) Should any miscellaneous member cease to be employed as such a member, through any cause other than death or retirement, all of his contributions, with interest credited thereon, shall be refunded to him subject to the conditions prescribed by the board of supervisors to cover similar terminations of employment and reemployment with and without redeposit of withdrawn accumulated contributions of other members of the retirement system, provided that if such member is entitled to be credited with at least ten years of service or if his accumulated contributions exceed one thousand dollars ($1,000), he shall have the right to elect, without right of revocation and within 90 days after said termination of service, or if the termination was by lay-off, 90 days after the retirement board determines the termination to be permanent, whether to allow his accumulated contributions to remain in the retirement fund and to receive benefits only as provided in this paragraph. Failure to make such election shall be deemed an irrevocable election to withdraw his accumulated contributions. A person who elects to allow his accumulated contributions to remain in the retirement fund shall be subject to the same age requirements as apply to other members under this section for service retirement but he shall not be subject to a minimum service requirement. Upon the qualification of such member for retirement by reason of age, he shall be entitled to receive a retirement allowance which shall be the actuarial equivalent of his accumulated contributions and an equal amount of the contributions of the city and county, plus $1\frac{3}{4}$ per cent of his average final compensation for each year of service credited to him as rendered prior to his first membership in the retirement system. Upon the death of such member prior to retirement, his contributions with interest credited thereon shall be paid to his estate or designated beneficiary.

(G) The following time and service shall be included in the computation of the service to be credited to a member for the purpose of determining whether such member qualifies for retirement and calculating benefits:

(1) Time during which said member is a member of the retirement system and during and for which said member is

entitled to receive compensation because of services as a miscellaneous officer or employee.

(2) Service in the fire and police departments which is not credited as service of a member under this section shall count under this section upon transfer of a member of either of such departments to employment entitling him to membership in the retirement system under this section, provided that the accumulated contribution standing to the credit of such member shall be adjusted by refund to the member or by payment of the member to bring the account at the time of such transfer to the amount which would have been credited to it had the member been a miscellaneous employee throughout the period of his service in either of such departments at the compensation he received in such departments.

(3) Time during which said member is absent from a status included in paragraphs (1) or (2) next preceding which is not deemed absence from service under the provisions of section 161 of the charter and for which such member is entitled to receive credit as service for the city and county by virtue of contributions made in accordance with the provisions of such section.

(4) Prior service determined and credited as prescribed by the board of supervisors for persons who are members under section 165.

(5) The board of supervisors, by ordinance enacted by a three-fourths vote of its members, may provide for the crediting as service under the retirement system of service, other than military service, rendered as an employee of the federal government and service rendered as an employee of the State of California or any public entity or public agency in the State of California. Said ordinance shall provide that all contributions required as the result of the crediting of such service shall be made by the member and that no contributions therefor shall be required of the city and county.

(H) All payments provided under this section shall be made from funds derived from the following sources, plus interest earned on said funds:

(1) The rate of contribution of each member under this section shall be based on his nearest age at the effective date of his membership in the retirement system. The normal rate of contribution of each such member, to be effective from the effective date of membership under this section, shall be such as, on the average for such member, will provide, assuming service without interruption, under subsection (B) of this section, one-half of that portion of the service retirement allowance to which he would be entitled if retired at age sixty or higher age after rendering ten years of service for retirement under that subsection. No adjustment shall be included in said rates because of time during which members have contributed at different rates. Members' rates of contributions shall be changed only in the manner prescribed by the board

of supervisors for changing contributions rates of other members.

(2) There shall be deducted from each payment of compensation made to a member under this section, a sum determined by applying the member's rate of contribution to such compensation. Amounts which would have been deducted in the absence of the limit on such deductions according to service credited, shall be paid to the retirement system following the removal of such limit, in manners and at times approved by the retirement board. The sum so deducted shall be paid forthwith to the retirement system. Said contribution shall be credited to the individual account of the member from whose salary it was deducted, and the total of said contributions, together with interest credited thereon in the same manner as is prescribed by the board of supervisors for crediting interest to contributions of other members of the retirement system, shall be applied to provide part of the retirement allowance granted to, or allowance granted on account of said member, under this section or shall be paid to said member of his estate or beneficiary as provided in subsections (E) and (F) of this section, provided that the portion of the salaries of the teachers as provided in section 165, paragraph (a), as a basis for fixing the contributions to be made, and the benefits to be received, by the teachers under the retirement system shall be determined by the method provided in section 165, paragraph (a) and shall not be less than eighty per cent of the total salary received by the teachers, unless the board of supervisors shall otherwise provide by ordinance enacted by three-fourths vote of all members of the board.

(3) Contributions based on time included in paragraphs (1) and (3) of subsection (G), and deducted prior to the effective date hereof, from compensation of persons who become members under this section, and standing with interest thereon, to the credit of such members on the records of the retirement system on said date, shall continue to be credited to the individual accounts of said members and shall be combined with and administered in the same manner as the contributions deducted after said date.

(4) The total contributions, with interest thereon, made by or charged against the city and county and standing to its credit, on the effective date hereof, in the accounts of the retirement system, on account of persons who become members under this section, shall be applied to provide the benefits under this section.

(5) The city and county shall contribute to the retirement system such amounts as may be necessary, when added to the contributions referred to in the preceding paragraphs of this subsection (H), to provide the benefits payable under this section. Such contributions of the city and county to provide the portion of the benefits hereunder which shall be based on service rendered by each member prior to the date upon which

his rate of contribution is determined in paragraph (1), subsection (H), shall not be less during any fiscal year than the amount of such benefits paid during said year. Such contributions of the city and county to provide the portion of the benefits hereunder which shall be based on service rendered by respective members on and after the date stated in the next preceding sentence, shall be made in annual installments, and the installment to be paid in any year shall be determined by the application of a percentage to the total salaries paid during said year, to persons who are members under this section, said percentage to be the ratio of the value of the effective date hereof, or at the later date of a periodical actuarial valuation and investigation into the experience under the system, of the benefits thereafter to be paid under this section, from contributions of the city and county, less the amount of such contributions, and plus accumulated interest thereon, then held by said system to provide said benefits on account of service rendered by respective member after the date stated in the sentence next preceding, to the value at said respective dates of salaries thereafter payable to said members. Said values shall be determined by the actuary, who shall take into account the interest which shall be earned on said contributions, the compensation experience of members, and the probabilities of separation by all causes, of members from service before retirement and of death after retirement. Said percentage shall be changed only on the basis of said periodical actuarial valuation and investigation into the experience under the system. Said actuarial valuation shall be made every even-numbered year and said investigation into the experience under the system shall be made every odd-numbered year.

(6) To promote the stability of the retirement system through a joint participation in the result of variations in the experience under mortality, investment and other contingencies, the contributions of both members and the city and county held by the system to provide the benefits under this section, shall be a part of the fund in which all other assets of said system are included. Nothing in the section shall affect the obligations of the city and county to pay to the retirement system any amounts which may or shall become due under the provisions of the charter prior to the effective date hereof, and which are represented on said effective date, in the accounts of said system by debits against the city and county.

(I) Upon the completion of the years of service set forth in subsection (B) of this section as requisite to retirement, a member shall be entitled to retire at any time thereafter in accordance with the provisions of said subsection (B), and nothing shall deprive said member of said right.

(J) No person retired under this section, for service or disability and entitled to receive a retirement allowance under

the retirement system shall serve in any elective or appointive position in the city and county service, including membership on boards and commissions, nor shall such persons receive any payment for service rendered to the city and county after retirement, provided that service as an election officer or juror shall not be affected by this section.

(K) Any section or part of any section in this charter, insofar as it should conflict with this section, or with any part thereof, shall be superseded by the contents of this section. In the event that any word, phrase, clause or subsection of this section shall be adjudged unconstitutional, the remainder thereof shall remain in full force and effect.

(L) Notwithstanding the provisions of subsections (B), (C), (F) or (I) of this section, any member convicted of a crime involving moral turpitude committed in connection with his duties as an officer or employee of the City and County of San Francisco, shall, upon his removal from office or employment pursuant to the provisions of this charter, forfeit all right to any benefits under the retirement system except refund of his accumulated contributions; provided, however, that, if such member is qualified for service retirement by reason of service and age under the provisions of subsection (B) of this section, he shall have the right to elect, without right of revocation and within 90 days after his removal from office or employment, whether to withdraw all of his accumulated contributions or to receive as his sole benefit under the retirement system an annuity which shall be the actuarial equivalent of his accumulated contributions at the time of such removal from office or employment.

(M) The amendments of this section contained in the proposition therefor submitted to the electorate on November 5, 1968, shall be effective on the first day of the month next following ratification by the State Legislature. Said amendments do not and shall not increase any allowance first in effect prior to the effective date of said amendments, nor shall they give any person retired prior to said effective date, or his successors in interest, any claim against the city and county for any increase in any retirement allowance paid or payable for time prior to said effective date.

Social Security Coverage

Section 165.6. The board of supervisors may enact, by a vote of three-fourths of its members, an ordinance or ordinances prescribing the conditions according to which any and all employees of the San Francisco Unified School District and employees of the City and County of San Francisco, other than members of the fire and police department as defined in section 162, may be covered under the Federal Old-Age and Survivors Disability Insurance provisions of the Federal Social Security Act, subject to the provisions of this section. "City and County" as hereinafter used shall mean

the City and County of San Francisco and the San Francisco Unified School District.

(A) Any member of the San Francisco City and County Employees' Retirement System, hereinafter referred to as the system, who is or becomes covered by the Federal Old-Age and Survivors Disability Insurance provisions of the Federal Social Security Act, hereinafter referred to as the Act, shall continue to contribute to the system the normal contributions required of him, except that he shall have the right to reduce his normal contributions under the system at his option to be exercised by an election on the system's form, said election to be effective on the first day of the month next following its filing in the system's office. Such reduction of normal contributions shall apply only to time during which said member is covered under the Act, and after the effective date of this section, hereby fixed as the first day of the month next following its ratification by the State Legislature, and the amount of said reduction, which may be changed from time to time by said member, in accordance with rules and regulations of the Retirement Board, shall not be more than the amount of said member's contribution under the Act.

Any allowance payable to or on account of such member by the system shall be reduced on the effective date of said allowance by the actuarial equivalent on that date of the normal contributions, including interest to said date, with which said member would have been but was not credited under the system because of said reduction in his normal contributions and because of amounts paid from such member's accumulated contributions for the retroactive period hereinafter provided for, and any continuation of said allowance shall be based on such reduced allowance but said allowance shall not be affected otherwise by the member's reduction of his normal contributions. Said member shall have the right to contribute amounts, which shall be administered as additional contributions, to replace all or part of such reduction in his retirement allowance.

(B) The reductions in allowances and contributions of members shall be made as provided in the foregoing paragraphs notwithstanding any provisions in the charter to the contrary.

(C) Every employee covered by the agreement providing coverage under the Act shall be liable for the employee contributions required by the Act.

(D) The effective date of coverage under the Act may be made retroactive to such date as the board of supervisors may determine. Contributions required under the Act of each member for time included by the retroactive application shall be paid from such member's accumulated contributions held by the system on account of his compensation not in excess of the maximum compensation taxable under this Act for such retroactive time. If the required contributions under the Act

exceed the member's accumulated contributions held by the system so determined, the additional contributions under the Act equal to the excess shall be paid by the member. Contributions required under the Act of the employer on account of such retroactive period shall be paid from funds held by the system on account of active members and derived from contributions of the city and county.

(E) Any member who is covered by section 210(1) of the Act on the effective date of the agreement between the state and federal government to extend coverage to the members of the system under the Act shall not be subject to this section unless he elect to be covered in accordance with this section, such election to be on a form furnished by the system and to be filed in the office of the system not later than one hundred eighty (180) days after the effective date of such agreement. Such election shall be irrevocable. Such election shall fix the status of the member under such coverage as the same in all respects as if he had not been covered under section 210(1), except that there shall be no adjustment of the member's accumulated contributions or of the funds held by the system, and derived from contributions of the city and county, on account of social security tax for such retroactive period.

Each member who enters the employ of the municipal railway after the effective date of the agreement between the state and federal government to extend coverage to other members of the system under the Act shall be covered under the act in accordance with the terms of this section and the ordinance or ordinances enacted pursuant thereto.

(F) Provision shall be made for modification of the member's retirement allowance at his option, if he retires before he attains the minimum age of qualification for his primary benefit under the Act, in such manner that will make his increased monthly retirement allowance under the system prior to attainment of such age equal to the sum of his decreased monthly allowance after attainment of such age, and his primary benefit under the Act, upon the basis of an estimated primary benefit under the Act, subject to the requirement that the amounts of the increase and decrease in the monthly allowance shall be actuarially equivalent, and that the increase shall not be modified under an option provided by ordinance.

(G) Words used in the masculine gender shall include the feminine and neuter genders, and singular numbers shall include the plural and the plural the singular.

(H) The contribution rates of the city and county applicable to various memberships under section 165.2 shall be adjusted to rates determined by the actuary according to methods stated in paragraph 5, subsection (H) of section 165.2.

(I) The board of supervisors shall submit to the eligible employees for purposes of referendum as defined in the Act

the question as to whether they desire coverage under the Act in accordance with conditions prescribed in this section.

(J) The powers of the board of supervisors granted in section 158 shall include the authority to make such adjustments in the retirement system, by a vote of three-fourths of its members, as are not made by this section, but as required because of changes in the Act, to carry out the purposes of this section.

(K) The amendments of this section contained in the proposition therefor submitted to the electorate on November 5, 1968, shall be effective on the first day of the month next following ratification by the State Legislature.

Every retirement allowance payable by the system for time commencing on the effective date of said amendments to or on account of any member or retired member covered by the Act on account of services rendered by him to the city and county shall be the retirement allowance to which such member or retired member is entitled without reduction on account of such coverage, except as provided in this section. Said amendments do not and shall not give any member retired prior to said effective date, or his successors in interest, any claim against the city and county for any increase in any retirement allowance paid or payable for time prior to said effective date.

Section 168 1.10. All payments provided for persons who are members under section 168.1 shall be made from funds derived from the following sources, plus interest earned on said funds:

(1) The normal rate of contribution of each member shall be based on his age taken to the next lower complete quarter year, (a) at the date he became a member under sections 165 or 168, in the case of persons who are members under these sections, or (b) at July 1, 1945, in the case of persons who are members under section 166, and his age taken to the next lower completed quarter year, when he entered the police department, or (c) on his age at the date he becomes a member under section 168.1, in the case of persons who become members on or after July 1, 1945 without credit for services counted under section 168.1.9. The age of entrance into the police department shall be determined by deducting the member's service credited under section 168.1 9 as rendered prior to the date upon which his age is based for determination of the rate of contribution according to the sentence next preceding, from said age. The normal rate of contribution of each member, to be effective from the effective date of membership under section 168.1, shall be such as, on the average for such member, will provide, assuming service without interruption, under section 168.1.2, one-third of that portion of the service retirement allowance to which he would be entitled, without continuance to dependents, upon first qualifying as to age and service, for retirement under that section, without discount of

allowance, which is based on service rendered after the date upon which his age is based for determination of his rate of contribution according to the first sentence in this paragraph, and assuming the contribution to be made from that date. The normal rate of contribution, however, shall not exceed six per cent.

(2) The dependent rate of contribution of each member which shall be required of each member throughout his membership in addition to the normal contributions, and in the same manner as normal contributions, shall be such as, on the average for such member, will provide, assuming service without interruption under section 168.1.2, and upon his first qualifying as to age and service for retirement under that section, one-third of the portion of his allowance, which is to be continued under section 168.1.5, after his death and throughout the life of a surviving wife whose age at said death is three years less than the age of said member. If at the date of retirement for service or retirement for disability resulting from injury received in performance of duty, said member has no wife who would qualify for the continuance of the allowance to her after the death of said member, or upon retirement from disability resulting from other causes, regardless of his marital condition, the dependent contributions with accumulated interest thereon, shall be paid to him forthwith. The dependent rate of contribution, however, shall not exceed the difference between six per cent and the member's normal rate of contribution, and said dependent rate may be taken as a flat percentage of the member's normal rate, regardless of the age of qualification for service retirement.

(3) There shall be deducted from each payment of compensation made to a member under section 168.1, a sum determined by applying the member's rates of contribution to such compensation payment. The sum so deducted shall be paid forthwith to the retirement system. Said contribution shall be credited to the individual account of the member from whose salary it was deducted, and the total of said contributions, together with interest credited thereon in the same manner as is prescribed by the board of supervisors for crediting interest to contributions of other members of the retirement system, shall be applied to provide part of the retirement allowance granted to, or allowance granted on account of said member, under this section or shall be paid to said member or his estate or beneficiary as provided in sections 168.1.7, 168.1.8, and 168.1.9.

(4) Contributions based on time included in paragraphs (1), (2), (3) and (4) of section 168.1.9, and deducted prior to July 1, 1945, from compensation of persons who become members under section 168.1, and standing with interest thereon, to the credit of such members on the records of the retirement system on said date, shall continue to be credited to the individual accounts of said members and shall be combined with and

administered in the same manner as the contributions deducted after said date.

(5) The total contributions, with interest thereon, made by or charged against the city and county and standing to its credit, in the accounts of the retirement system, on account of persons who become members under this section, shall be applied to provide the benefits under this section.

(6) The city and county shall contribute to the retirement system such amounts as may be necessary, when added to the contributions referred to in the preceding paragraphs of this section 168.1.10, to provide the benefits payable under this section. Such contributions of the city and county to provide the portion of the benefits hereunder which shall be based on service rendered by each member prior to the date upon which his age is based for determination of his rate of contribution in paragraph (1), section 168.1.10, shall not be less during any fiscal year than the amount of such benefits paid during said year. Such contributions of the city and county to provide the portion of the benefits hereunder which shall be based on service rendered by respective members on and after the date stated in the next preceding sentence, shall be made in annual installments, and the installment to be paid in any year shall be determined by the application of a percentage to the total compensation paid during said year, to persons who are members under section 168.1, said percentage to be the ratio of the value on July 1, 1945, or at the later date of a periodical actuarial valuation and investigation into the experience under the system, of the benefits thereafter to be paid under this section, from contributions of the city and county, less the amount of such contributions, and plus accumulated interest thereon, then held by said system to provide said benefits on account of service rendered by respective members after the date stated in the sentence next preceding, to the value at said respective dates of salaries thereafter payable to said members. Said values shall be determined by the actuary, who shall take into account the interest which shall be earned on said contributions, the compensation experience of members, and the probabilities of separation by all causes, of members from service before retirement and of death after retirement. Said percentage shall be changed only on the basis of said periodical actuarial valuation and investigation into the experience under the system. Said actuarial valuation shall be made every even-numbered year and said investigation into the experience under the system shall be made every odd-numbered year.

(7) To promote the stability of the retirement system through a joint participation in the result of variations in the experience under mortality, investment and other contingencies, the contributions of both members and the city and county held by the system to provide the benefits under this section, shall be a part of the fund in which all other assets of

said system are included. Nothing in this section shall affect the obligation of the city and county to pay to the retirement system any amounts which may or shall become due under the provisions of the charter prior to the effective date hereof, and which are represented on said effective date, in the accounts of said system by debits against the city and county.

Section 171.1.10. All payments provided under this section shall be made from funds derived from the following sources, plus interest earned on said funds:

(1) The normal rate of contribution of each member under this section shall be based on his age taken to the next lower complete quarter year, (a) at the earlier of the dates he became a member under section 165, 165.2 or 171, in the case of persons who are members under these sections, or (b) on his age at the date he becomes a member under section 171.1 in the case of persons who become members on or after the effective date of this amendment, without credit for service counted under section 171.1.9. The age of entrance into the fire department shall be determined by deducting the member's service credited under section 171.1.9 as rendered prior to the date upon which his age is based for determination of his rate of contribution according to the sentence next preceding, from said age. The normal rate of contribution of each such member, to be effective from the effective date of membership under section 171.1, shall be such as, on the average for such member, will provide, assuming service without interruption, under section 171.1.2, one-third of that portion of the service retirement allowance to which he would be entitled, without continuance to dependents, upon first qualifying as to age and service, for retirement under that section, which is based on service rendered after the date upon which his age is based for determination of his rate of contribution according to the first sentence in this paragraph, and assuming the contribution to be made from that date. The normal rate of contribution, however, shall not exceed six per cent.

(2) The dependent contributions of each member under this section which shall be required of each member throughout his membership in addition to the normal contributions, and in the same manner as normal contributions, shall be such as, on the average for such member, will provide, assuming service without interruption under section 171.1.2, and upon his first qualifying as to age and service for retirement under that section, one-third of the portion of his allowance, which is to be continued under section 171.1.5 after his death and throughout the life of a surviving wife whose age at said death is three years less than the age of said member. If, at the date of retirement for service or retirement for disability resulting from injury received in performance of duty, said member has no wife who would qualify for the continuance of the allowance to her after the death of said member, or upon retirement for disability resulting from other causes, regardless of

his marital condition, the dependent contributions with accumulated interest thereon, shall be paid to him forthwith The dependent rate of contribution, however, shall not exceed the difference between six per cent and the member's normal rate of contribution, and said dependent rate may be taken as a flat percentage of the member's normal rate, regardless of the age of qualification for service retirement.

(3) There shall be deducted from each payment of compensation made to a member under this section, a sum determined by applying the member's rates of contribution to such compensation payment. The sum so deducted shall be paid forthwith to the retirement system. Said contribution shall be credited to the individual account of the member from whose salary it was deducted, and the total of said contributions, together with interest credited thereon in the same manner as is prescribed by the board of supervisors for crediting interest to contributions of other members of the retirement system, shall be applied to provide part of the retirement allowance granted to, or allowance granted on account of said member, under this section or shall be paid to said member or his estate or beneficiary as provided in sections 171.1.7, 171.1.8 and 171.1.9.

(4) Contributions based on time included in paragraphs (1), (2) and (3) of section 171.1.9, and deducted prior to the effective date thereof, from compensation of persons who become members under section 171.1, and standing with interest thereon, to the credit of such members on the records of the retirement system on said date, shall continue to be credited to the individual accounts of said members and shall be combined with and administered in the same manner as the contributions deducted after said date.

(5) The total contributions, with interest thereon, made by or charged against the city and county and standing to its credit, in the accounts of the retirement system, on account of persons who become members under this section, shall be applied to provide the benefits under this section

(6) The city and county shall contribute to the retirement system such amounts as may be necessary, when added to the contributions referred to in the preceding paragraphs of this section 171.1.10, to provide the benefits payable under this section. Such contributions of the city and county to provide the portion of the benefits hereunder which shall be based on service rendered by each member prior to the date upon which his age is based for determination of his rate of contribution in paragraph (1) section 171.1.10, shall not be less during any fiscal year than the amount of such benefits paid during said year. Such contributions of the city and county to provide the portion of the benefits hereunder which shall be based on service rendered by respective members on and after the date stated in the next preceding sentence, shall be made in annual in-

stallments, and the installment to be paid in any year shall be determined by the application of a percentage to the total compensation paid during said year, to persons who are members under section 171.1, said percentage to be the ratio of the value on the effective date hereof, or at the later date of a periodical actuarial valuation and investigation into the experience under the system, of the benefits thereafter to be paid under this section, from contributions of the city and county, less the amount of such contributions, and plus accumulated interest thereon, then held by said system to provide said benefits on account of service rendered by respective members after the date stated in the sentence next preceding, to the value at said respective dates of salaries thereafter payable to said members. Said values shall be determined by the actuary, who shall take into account the interest which shall be earned on said contributions, the compensation experience of members, and the probabilities of separation by all causes, of members from service before retirement and of death after retirement. Said percentage shall be changed only on the basis of said periodical actuarial valuation and investigation into the experience under the system. Said actuarial valuation shall be made every even-numbered year and said investigation into the experience under the system shall be every odd-numbered year.

(7) To promote the stability of the retirement system through a joint participation in the result of variations in the experience under mortality, investment and other contingencies the contributions of both members and the city and county held by the system to provide the benefits under this section, shall be a part of the fund in which all other assets of said system are included. Nothing in this section shall affect the obligations of the city and county to pay to the retirement system any amounts which may or shall become due under the provisions of the charter prior to the effective date hereof, and which are represented on said effective date, in the accounts of said system by debits against the city and county.

RESOLUTION CHAPTER 18

Assembly Concurrent Resolution No. 10—Relative to commemorating the centennial of Japanese immigration to the United States.

[Filed with Secretary of State January 24, 1969.]

WHEREAS, The first group of Japanese immigrants arrived from Aizu Wakamatsu, Japan, aboard the sidewheeler "China" of The Pacific Mail Steamship Company and entered the United States on May 27, 1869, at San Francisco; and

WHEREAS, This valiant and brave band of colonists proceeded to Sacramento by riverboat, traveled overland by wagon to Placerville and Gold Hill, and established the Wakamatsu Tea and Silk Farm Colony of Gold Hill by clearing the land, building their homes, and cultivating plants and seeds, including 50,000 three-year-old mulberry trees for silk farming, which they had brought with them from their native land; and

WHEREAS, Although this pioneer project was doomed in less than two years by a combination of dry climate and a scarcity of irrigation water, it nevertheless heralded a period during which the Japanese people immigrated to California to participate in the beginnings of the Golden State's agricultural industry; and

WHEREAS, On December 16, 1966, the Historical Landmarks Advisory Committee of the Division of Beaches and Parks unanimously approved the Wakamatsu Tea and Silk Farm Colony of Gold Hill as a historical landmark and stated that "Although the Wakamatsu Tea and Silk Farm Colony was short-lived and suffered its tragic ending, it signaled the coming of Japanese pioneers to America and the beginning of their notable contribution to the agricultural industry of California. During the past three-quarters of the century, they have left their marks in the teeming valleys throughout the length and breadth of this great State. Many descendants are carrying on the work of their pioneer forebears with the same devotion, determination and skill which helped to make California the most productive farming state in the United States and the greatest agricultural region in the world . . ."; and

WHEREAS, Marking the first centennial of Japanese immigration to America, the year 1969 bears witness to a century in which Japanese-Americans have made immense contributions to the culture and heritage of their adopted land and have overcome times of trial by perseverance and boundless faith in the United States, which faith is best personified by the Japanese American Creed, which states:

"I am proud that I am an American citizen of Japanese ancestry, for my very background makes me appreciate more fully the wonderful advantages of this nation. I believe in her institutions, ideals, and traditions; I glory in her heritage; I boast of her history; I trust in her future. She has granted me liberties and opportunities such as no individual enjoys in the world today. She has given me an education befitting kings. She has entrusted me with the responsibilities of the franchise. She has permitted me to build a home, to earn a livelihood, to worship, think, speak, and act as I please—as a free man equal to every other man.

"Although some individuals may discriminate against me, I shall never become bitter or lose faith, for I know that such persons are not representative of the majority of the American people. True, I shall do all in my power to discourage such practices, but I shall do it in the American way: above-board, in the open, through courts of law, by education, by proving myself to be worthy of equal treatment and consideration. I am firm in my belief that American sportsmanship and attitude of fair play will judge citizenship and patriotism on the basis of action and achievement, and not on the basis of physical characteristics.

"Because I believe in America, and I trust she believes in me, and because I have received innumerable benefits from her, I pledge myself to do honor to her at all times and in all places; to support her constitution; to obey her laws; to respect her flag; to defend her against all enemies, foreign or domestic; to actively assume my duties and obligations as

a citizen, cheerfully and without any reservations whatsoever, in the hope that I may become a better American in a greater America.''; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Members of the Legislature join in commemorating the centennial celebration of Japanese immigration to the United States and express the deep appreciation of all the citizens of California for the immense and invaluable contributions made by Japanese-Americans to the rich cultural heritage of this state and of America; and be it further

Resolved, That the Chief Clerk of the Assembly transmit a suitable prepared copy of this resolution to the Japanese-American Citizens League.

WHEREAS, Through extensive research and continuing improvements the electrical industry helps lead the way to human betterment and the prosperity of California; and

WHEREAS, It is fitting that a period of time be set aside to direct attention to the importance of public services performed by electricity and to encourage safe and efficient use of electricity and electrical equipment; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the members request the Governor to proclaim the week of February 9–15, 1969, as Electrical Week and urge all the citizens to participate in this significant occasion; and be it further

Section 603. Removal. Any member of the Board may be removed from office by the affirmative vote of six (6) members of the Council in the same manner and subject to the same conditions as the Council may remove the members of any of the Boards provided for in this Charter in Article V.

Section 604. Ordinances and Resolutions. All action taken by the Board of Port Commissioners shall be by resolution, except as hereinafter set forth in this Article. Any member of the Board may require a record of the vote on any resolution to be made in its minutes. Section 607. Operation of Facilities. Notwithstanding any other provision of this Charter to the contrary, the Board shall not be required to directly operate all of the properties, facilities and utilities under its control or jurisdiction, and shall have the power to authorize the operation of any of such properties, facilities and utilities by a private person, firm, association or corporation, whether by lease, franchise, license, assignment, permit or otherwise, upon such terms and conditions as the Board shall prescribe, which terms and conditions shall include control over the rates, charges and practices of said private party to the extent permitted by law.

Section 608. Building Permits. No person or persons shall construct, extend, alter, improve, erect, remodel or repair any pier, slip, basin, wharf, dock or other harbor structure, or any building or structure within the "Port Area" without first applying for and securing from the Board a permit so to do, in accordance with the rules and regulations adopted by it. In approving or denying the right to said permit, the Board shall consider the application therefor, the character, nature and size and location of the proposed improvement, and exercise a reasonable and sound discretion in the premises.

Provided, however, that applications for building permits pertaining to privately owned property within the "Port Area" shall be made to the Executive Director who shall consider and act upon them in the same manner as applications for such permits made to the Board. Any person excepting to any denial, suspension or revocation of a permit applied for or held by him pursuant to the provisions of this section, or any person excepting to the granting of, or to the refusal to suspend or revoke a permit applied for or held under the provisions of this section, may appeal to the Board by filing with the Secretary a written notice of such appeal setting forth the specific grounds thereof. Such notice must be filed within fourteen (14) days after notice of such denial, suspension, revocation or granting, or refusal to suspend, revoke or grant, such permit, constituting the basis of such appeal, but in no event later than thirty (30) days after

the date of the denial, suspension, revocation or granting of the permit. The Secretary shall forthwith set said matter for hearing before the Board and cause notice thereof to be given (1) to the appellant, and (2) to the adverse party or parties, or to the attorney, spokesman or representative thereof, not less than five (5) days prior to such hearing. At such hearing the appellant shall show cause, on the grounds specified in the notice of appeal, why the action excepted to should not be approved. The Board may continue such hearing from time to time, and its findings and conclusions on the appeal shall be final and conclusive in the matter.

Such permit issued by the Board or the Executive Director shall be in addition to any permit which may be required by law from the Building Inspector of the City.

Section 609. Leases. The Board shall have the power to make and enter into any lease of any properties belonging to or possessed by the City under its jurisdiction for a term of not to exceed sixty-six (66) years, provided that all leases made shall be subject to referendum.

Section 610. Contracts. All contracts shall be made and entered into in accordance with the conditions and procedures established by the Board, but subject to bid limit established by the Council pursuant to the provisions of Sections 707 and 708 of this Charter. All powers and duties therein conferred or imposed upon the Council or the City Attorney are, in relation to all matters connected with the Port, hereby conferred and imposed respectively upon the Board and its attorney. Plans and specifications at the time of publication of notice inviting such bidding must be on file in the office of the Board, subject to public inspection.

Section 611. Supervision of Leases, etc. The Board shall take over and control, and shall have the power to grant, all leases, concessions, easements, privileges, spur tracks and other permits, wharfing-out rights, and waterfront or other franchises relating to the harbor or port and located within the "Port Area" and receive the income therefrom, but this shall not include franchises for the construction and maintenance of railroads, power lines, gas mains and other utilities of a general nature which may extend through other portions of the City into the Port Area and which are within the jurisdiction of the Council pursuant to the provisions of Article IX of this Charter, and subject to the supervision of the City Manager.

It shall be the duty of the Board to see that all provisions of such leases, concessions, easements, privileges, permits, rights or franchises within its jurisdiction are faithfully observed, and it may cause to be instituted such actions or proceedings in the name of the City as may be necessary to enforce the provisions thereof, or to revoke, cancel, or annul them when they have become forfeitable in whole or in part, or are illegal, or void or voidable.

Section 612. Restrictions of Powers of Council. No franchise shall be granted, no property shall be acquired or sold, no street shall be opened, altered, closed or abandoned, and no sewer, street, or other public improvement shall be located or constructed in the "Port Area" by the City of Oakland, or the Council thereof, without the approval of the Board.

Section 613. Public Streets. Whenever the Board shall determine that it is necessary to open, close, improve, alter or vacate a public street or part of a public street within the "Port Area", a certified copy of the resolution so determining such necessity shall be filed by the Board in the Office of the City Clerk, with the request that the City Manager and the Council initiate and carry to completion the proceedings necessary to effect said proposal.

Section 614. Personnel System. All permanent places of employment in and under the Board shall be included within the personnel system of the City established pursuant to and subject to the provisions of Article VIII of this Charter, except the Executive Director and his two principal assistants, the Secretary of the Board, the Port Attorney and legal assistants, chief wharfinger, field and traffic representatives, and all persons employed in the physical or mechanical handling, moving or checking of cargo and freight. The exemption of such personnel from the operation of civil service rules shall not in any way affect such pre-existing civil service rights as such employee may hold.

Section 615. Annual Budget. The Board shall annually, on or before the fourth Monday of May, or not less than one week prior to the submission of the annual appropriation ordinance by the City Manager, should the Council advance the date therefor, but not later than the third Monday of July, carefully prepare a budget setting forth the estimated receipts of the Port, and revenue from other sources, for the ensuing year, and the sums of money necessarily required for the administration of the department, and for maintenance, operation, construction and development of the port and its facilities for the ensuing year, and stating the amount necessary to be raised by tax levy for said purposes. Said budget when so prepared, shall be certified by the President and Secretary of the Board, and a certified copy thereof shall, on or before said date, be filed with the Council, one with the City Manager, and one with the Auditor.

Section 616. Tax Levy Funds. In the event that said Port budget, as provided for in the foregoing section, shall request or provide for the allocation or appropriation to the Port by the Council of any funds raised or to be raised by tax levy or in any manner to be obtained from general revenues of the City, or shall request the incurring or payment of any financial obligation by the City for the Port's use and benefit, or shall not provide for Board servicing of existing or future

general obligation bonds of the City issued for Port purposes, the Council shall have the authority to reject said budget and to require it to be revised to meet with Council approval, subject, however, to the Board's covenants with the holders of all of the then outstanding revenue bonds issued by the Board.

The Treasurer shall keep all Port funds separate from other funds in his possession, and the Board shall have the exclusive management and disbursement of the same.

Allocation of Funds.

Section 617(1). All Port facilities, airport facilities and terminal facilities of any kind or character are hereby consolidated and shall be operated as a single project by the Board in the interest of transportation by land, by sea and by air, it being hereby found and determined that transportation facilities of all classes implement and augment each other to such an extent that the same must in the public interest be operated singly and under one central supervision and control. Wherever in this Charter the terms "port", "project", or "terminal facilities" are used, the same shall include all facilities under the jurisdiction of the Board, irrespective of whether the same shall be port or airport facilities.

Section 617(2). All moneys once apportioned or appropriated to the Board, including, without limiting the generality of the foregoing, all moneys heretofore apportioned or appropriated to and now under the control of the Board, shall be and remain under the control and order of and shall be expended by the Board for the purpose for which apportioned or appropriated and shall be kept separate and apart from all other moneys of the City or the Board. All surplus moneys which, in the judgment of the Board, are not needed for the purpose for which apportioned or appropriated, shall be allocated to and deposited in the Revenue Fund provided for in Section 617(3).

Section 617 (3). All income and revenue from the operation of the port or from the facilities of the port, of whatever kind or nature, and all net income from leases or any other source of income or revenue, including, without limiting the generality of the foregoing, all such income and revenue now under the control of the Board, shall be and remain under the control and order of and shall be expended by the Board; provided that all such income and revenue shall be allocated to and deposited in a special fund in the City Treasury (which is hereby created) designated "Port Revenue Fund" and shall be kept separate and apart from all other moneys of the City or the Board and shall be used and applied for the following purposes and in the following order of priority, to wit:

First: For the payment, as the same become due and payable, of the principal of and interest on any or all general obligation bonds of the City of Oakland heretofore and hereafter issued for port purposes, but only to the extent required

by the Constitution of the State of California or otherwise as determined by resolution of the Board.

Second: For the payment of the principal of and interest on revenue bonds, or other evidences of indebtedness payable solely from revenues as in Section 618 provided, which are due or become due during the fiscal year in which the revenues in said funds, or either thereof, are received or are to be received, together with reserve fund payments, sinking fund payments or similar charges in connection with such revenue bonds due or to become due in such fiscal year, including all payments required to be made pursuant to the terms of any resolution authorizing the issuance of revenue bonds, or required by the terms of the contract created by or upon the issuance of revenue bonds.

Third: For the payment of all costs of maintenance and operation of the facilities from or on account of which such money was received. General costs of administration and overhead of the Board not directly chargeable to each facility under its control shall be apportioned fairly by the Board, upon such reasonable basis as it may determine, to each such facility.

Fourth: For defraying the expenses of any pension or retirement system applicable to the employees of the Board.

Fifth: For necessary additions, betterments, improvements, repairs or enlargements of any facilities, and, to the extent determined by a resolution or resolutions of the Board, for replacements, renewals or reconstruction of any facilities.

Sixth: For establishing and maintaining reserve or other funds to insure the payment on or before maturity of any or all general obligation bonds of the City now outstanding or hereafter issued for any facility under the control of the Board, but only to the extent required by the Constitution of the State of California or otherwise as determined by resolution of the Board.

Seventh: For establishing and maintaining reserve or other funds to insure the payment on or before maturity of any or all revenue bonds of the Board hereafter issued.

Eighth: For establishing and maintaining such other reserve funds pertaining to the facilities of the Board as shall be determined by a resolution or resolutions of the Board.

Ninth: For transfer to the General Fund of the City, to the extent that the Board shall determine that surplus moneys exist in such fund which are not then needed for any of the purposes above stated.

Financing of Harbor and Airport Operations.

Section 618 (1). General Obligation Bonds of the City. The City of Oakland may from time to time incur general obligation bonded indebtedness in the manner provided by law for the acquisition, construction or completion of any port facilities or improvements of the Port of Oakland, including

land, rights of way and air easements. The proceeds from the sale of any general obligation bonds now authorized, or which may hereafter be authorized, for any such purposes, shall be under the control of, and shall be expended by, the Board for the objects and purposes for which such general obligation bonded indebtedness was incurred. Whenever, in the opinion of the Board, it is desirable for the City of Oakland to incur additional general obligation bonded indebtedness for any project within the jurisdiction or control of the Board, the Board shall prepare tentative plans, estimates and bond retirement schedules and submit its recommendations in writing to the City Council, which shall thereupon take such action as it deems advisable to reject or carry out such recommendations.

Section 618 (2). Revenue Bonds of the Board. In addition to all powers herein granted to the City of Oakland, and as an alternative procedure for the financing of harbor and airport improvements, the Board is authorized to issue revenue bonds payable exclusively from the revenues of a project as in this Section 618 defined and such revenue bonds shall not constitute a debt, liability or obligation of the City of Oakland and shall be payable exclusively from revenues, and other funds (including interest thereon) which may be established as additional security for said revenue bonds, as in this Section 618 provided.

Section 618 (3). Methods of Financing Not Exclusive. Nothing in this Section 618 contained shall in any way abridge, control, limit, restrict or revoke the power of the electors of the City of Oakland to vote for and cause to be authorized and issued general obligation bonds of the City of Oakland for the acquisition, construction or completion of any project herein defined, or any additions thereto or betterments or improvements thereof, irrespective of whether or not revenue bonds for such purpose have been, or may thereafter be issued hereunder, and nothing herein contained shall prevent the financing of any project or any additions, betterments or improvements thereof from any other funds which may be legally available for that purpose. Revenue bonds authorized to be issued hereunder shall not be subject to charter limitations as to the amount of general obligation bonded indebtedness of the City of Oakland, nor be taken into consideration in determining the amount of general obligation bonded indebtedness which the City of Oakland is authorized to incur, and the issuance of revenue bonds as in this Section 618 provided shall be deemed to constitute a supplemental and additional method of providing funds for the financing of harbor and airport improvements. Such revenue bonds shall be issued in the name of the Board of Port Commissioners of the City of Oakland and shall constitute obligations only of the Board, payable in accordance with their terms from revenues of any project, as in this Section 618 authorized.

Section 618 (4). Definitions. The following terms whenever used or referred to in this Section 618, or in any resolution authorizing the issuance of revenue bonds, shall have the following meanings, respectively, unless a different meaning appears from the context:

(a) Revenue Bonds. The term "revenue bonds" means the written evidence of any obligation issued by the Board, payment of which is secured by a pledge of revenues or any part of revenues, as provided in this Section, in order to obtain funds with which to carry out any of the purposes of this Section, irrespective of the form of such obligation.

(b) Project. The term "project" means (i) any one or more, or all of, the harbor and port facilities referred to in Section 606 of this Charter and (ii) any airport facilities, the jurisdiction and control over which have been, or may hereafter be, vested in the Board by the City of Oakland; provided that the Board may limit or restrict the term "project" to any particular facility or facilities which may be designated by the Board as a specific project in any resolution of issue for the purpose in such resolution provided.

(c) Revenues. The term "revenues" means and includes any and all rates, tolls, fees, rentals and other charges received or receivable in connection with, and any and all income and receipts of whatever kind and character derived by the Board from, the operation of a project, or arising from a project, including any such revenues, as may have been or may be impounded or deposited in any fund created for the security or further protection of revenue bonds or for the purpose of providing for the payment of the principal thereof or the interest thereon. The term "revenues" also includes net revenues from any existing facilities under the jurisdiction of the Board to the extent that the same shall be pledged or otherwise made available for the payment of principal and interest of revenue bonds or as security or further protection for revenue bonds issued by the Board.

(d) Resolution of Issue. The term "resolution of issue" means any agreement entered into by the Board, including any resolution adopted by the Board, pursuant to which revenue bonds are issued, and includes any agreement entered into or resolution adopted by the Board amending, modifying or supplementing a resolution of issue irrespective of the form thereof.

Section 618 (5). Rates, Tolls and Charges. Without limiting any power in this Charter conferred upon the Board, the Board has power for any of the purposes of this Section 618 to fix rates, tolls, fees, rentals or charges for the use of the facilities provided by any project, or for any services rendered in connection therewith, and to alter, change or modify the same at its pleasure, subject to any contractual obligation which may be entered into by the Board with respect to the fixing of such rates, tolls, fees, rentals or other

charges; and, by a resolution of issue or otherwise, to enter into covenants to increase rates, tolls, fees, rentals or other charges from time to time; provided, however, that any person shall be permitted to use or operate any facilities provided by any project only upon payment of the regularly established charge therefor, except as may be otherwise specifically provided in a resolution of issue. All rates, fees, rentals and other charges shall be paid only in such coin or currency as on the date of payment is legal tender for public and private debts.

Section 618 (6). Authorization of Revenue Bonds. Each issue of revenue bonds shall be authorized by the Board by a resolution of issue adopted by the affirmative votes of at least five (5) members of the Board at a duly assembled meeting. Each resolution of issue shall prescribe the purpose or purposes for which, and the terms and conditions on which, said revenue bonds are to be issued.

Section 618 (7). Provisions relating to Revenue Bonds. The Board shall have power to determine all of the terms and conditions of the issuance and sale of revenue bonds pursuant to this Section 618, and without limiting in any way the generality of such power, the Board is expressly authorized in its discretion to provide, in connection with any issue of such revenue bonds, as follows:

(a) Series and Divisions. Revenue bonds may be issued in series, and any issue may be divided into one or more series or divisions with different maturities or dates for each series or division, different rates of interest and different terms and conditions for the bonds of the several series or divisions. Revenue bonds of the same authorized issue need not be of the same kind or character, have the same security, or be of the same interest rate, but the terms thereof in each case shall be as provided for by the Board.

(b) Form and Date of Bonds. Bonds shall be of such form and tenor and shall bear such date or dates as may be prescribed by the resolution of issue.

(c) Maturity. Bonds may be serial bonds or sinking fund bonds with such maturity or maturities as shall be provided in the resolution of issue. No bond by its terms shall mature in more than forty (40) years from its own date and, in the event any authorized issue is divided into two or more series or divisions, the maximum maturity date of each such series or division shall be calculated from the date on the face of each bond separately, irrespective of the fact that different dates may be prescribed for the bonds of each separate series or division of any authorized issue.

(d) Interest. Bonds shall bear interest at a rate of not to exceed seven (7) percent per annum, payable annually or semi-annually, or in part annually and in part semi-annually.

(e) Coupon or Registered Bonds. Bonds may be issued as coupon bonds or as registered bonds, with or without coupons, with appropriate provisions for the interchange of coupon bonds for registered bonds and registered bonds for coupon bonds; bonds may be registered as to principal only, or as to both principal and interest; and new bonds or coupons may be issued in place of bonds or coupons which have been surrendered and canceled whenever appropriate as incidental to the discharge of any bond from registration; all on such terms and conditions, and at such place or places, within or without the State of California, as the Board may determine.

(f) Redemption. Bonds may be callable upon such terms and conditions, at the option of the Board or by operation of any sinking fund, and upon such notice as the resolution of issue shall prescribe and upon payment of such premium (not exceeding seven (7) per cent of the par value of such bonds) as may be fixed in the resolution of issue. No bond shall be subject to call or redemption prior to its fixed maturity date, unless the right to exercise such call is expressly stated on the face of the bonds.

(g) Source of Payment. All revenue bonds shall be payable exclusively from revenues as more particularly defined in the resolution of issue.

(h) Reference on Bonds to Resolution of Issue. Reference on the face of a revenue bond to the resolution of issue by its date of adoption shall be sufficient to incorporate all of the provisions thereof and of this Section 618 into the body of said revenue bond and its appurtenant coupons and each taker and subsequent holder of a revenue bond or coupons, whether such coupons are attached to or detached from said revenue bond, shall have recourse to all of the provisions of the resolution of issue and of this Section 618 and shall be bound thereby.

(i) Recital in Bonds. Bonds may contain a recital that all acts, conditions and things required to exist, to happen and to be performed, precedent to and in the issuance of the bonds have existed, happened and been performed in due time, form and manner as required by law and this Charter, all of which facts the Board is authorized to find and determine prior to the issuance of the bonds. Revenue bonds shall also contain a recital on their face that neither the payment of principal of nor of interest on such bonds constitutes a debt, liability or obligation of the City of Oakland.

(j) Place and Manner of Payment. The principal of and interest on bonds may be payable at any one or more places within or without the State of California and in any specified coin or currency of the United States of America, as may be provided in the resolution of issue.

(k) Execution and Authentication of Bonds; Validity of Signatures and Countersignatures. Bonds may be executed and authenticated by the manual, lithographed or printed fac-

simile signature of any officer or officers of the Board and may also be authenticated by a trustee or fiscal agent appointed by the Board. If any of the officers whose signatures or countersignatures appear on the bonds cease to be officers before the delivery of the bonds or coupons to the purchasers thereof, their signatures or countersignatures shall nevertheless be valid and of the same force and effect as if such officer had remained in office until the delivery of the bonds and coupons.

(*l*) Issuance of Temporary Bonds. Pending the actual issuance or delivery of definitive bonds, the Board may issue temporary or interim bonds, certificates or receipts of any denominations whatsoever, and with or without coupons, and with such provisions as the Board shall determine, to be exchanged for definitive bonds when ready for delivery. In the absence of an express recital on its face that a temporary bond or interim receipt is non-negotiable, such bond or interim receipt is a negotiable instrument.

(m) Replacement of Lost, Destroyed, Mutilated or Stolen Bonds. Lost, destroyed, mutilated or stolen bonds or coupons may be replaced as provided in the resolution of issue.

(n) Security. All revenue bonds shall be secured by an exclusive pledge and charge upon all or a portion of the gross revenues of any project for or in connection with which said revenue bonds are issued or authorized to be issued, including revenues of any existing facilities, all as provided for in the resolution of issue. Gross revenues of a project may include revenues from additions, betterments, improvements and extensions of such project later constructed or acquired. The gross revenues of a project and any interest earned on the gross revenues of such project shall constitute a trust fund for the security and payment of the principal of and interest on the revenue bonds and so long as any revenue bonds or interest thereon are unpaid said revenues and interest shall not be used for any other purpose; provided, however, that a resolution of issue may provide that if the principal of and interest on the bonds and all charges to protect and secure them are paid when due, an amount for the maintenance and operation costs of a project may be apportioned from revenues, but only to the extent specified in the resolution of issue.

(o) Revenue Bonds of Same Issue to be Equally Secured. Revenue bonds of the same issue shall be equally secured by a pledge and charge upon revenues, without preference or priority by reason of number, date of bonds, or date of sale, execution, or delivery of bonds; except that if the Board authorizes the issuance of bonds of different series it may provide that the bonds in any series shall, to the extent and in the manner prescribed in the resolution of issue, be subordinated and be junior in standing with respect to the payment of principal and interest and the security thereof to such other bonds as may be specified in the resolution of issue.

(p) Refunding Bonds. Refunding bonds may be issued and sold or exchanged for the purpose of redeeming, retiring or refunding any revenue bonds issued under this Section 618, subject to any limitations contained in the resolution of issue pursuant to which such revenue bonds are issued. All provisions of this Section applicable to the issuance of revenue bonds shall be applicable to the refunding bonds and to the issuance, sale or exchange thereof. Refunding bonds may be issued in a principal amount sufficient to provide funds for the payment of all bonds to be refunded thereby, and, in addition, for the payment of all expenses incident to the calling, retiring or paying of such outstanding bonds and the issuance of such refunding bonds. Such expenses may include the difference in amount between the par value of the refunding bonds and any amount less than par for which the refunding bonds are sold, any amount necessary to be made available for the payment of interest upon such refunding bonds from the date of sale thereof to the date of payment of the bonds to be refunded, or to the date upon which the bonds to be refunded will be paid pursuant to call thereof, and also the premium, if any, necessary to be paid in order to call and retire the outstanding bonds and the interest accruing thereon to the date of call or retirement.

(q) Validity of Revenue Bonds not Affected by Actions of City or Board Relative to Project. The validity of the authorization and issuance of any revenue bonds by the Board shall not be dependent on or affected in any way by:

(i) Proceedings taken by the City or the Board for the acquisition, construction or completion of any project or any part thereof;

(ii) Any contracts made in connection with the acquisition, construction or completion of any project; or

(iii) The failure to complete any project for which bonds are authorized to be issued.

(r) Sale of Revenue Bonds. Notice inviting sealed bids shall be given in such manner as the Board may prescribe prior to any sale of revenue bonds. If satisfactory bids are received, the bonds offered for sale shall be awarded to the highest responsible bidder. If no bids are received or if the Board determines that the bids received are not satisfactory as to price or responsibility of the bidders, the Board may reject all bids received, if any, and either readvertise or sell the bonds at private sale. The Board may sell bonds at a price below the par or face value thereof, provided that the maximum net interest cost (computed on a 360-day year basis) on bonds sold below par or face value shall not exceed an average of seven (7) per cent per annum, payable semi-annually, to the respective maturity dates of said bonds.

(s) Payment of Incidental Expenses and Interest and Creation of Funds from Proceeds of Sale of Revenue Bonds. All costs and expenses incidental to the issuance and sale of revenue bonds, including the cost of preparation of the revenue

bonds and coupons, the cost of all surveys, of preparation of plans and specifications, of all architectural, engineering, inspection, legal, financial and economic consultant's, trustee's and fiscal agent's fees, the creation of a bond reserve fund, the creation of a working capital fund, and bond interest estimated to accrue during the period of acquisition or construction of a project and for a period of not to exceed three (3) years thereafter, all as provided for in the resolution of issue, may be paid out of the proceeds of sale of the revenue bonds.

Section 618 (8). Provisions Relating to Resolutions of Issue. The Board is hereby further authorized in its discretion to provide in and by each resolution of issue which may be adopted by the Board as follows:

(a) Construction Fund. The proceeds of sale of revenue bonds shall either be deposited in a fund separate and apart from all other funds of the City and the Board or paid direct to any bank or trust company designated by the Board as its fiscal agent, and said proceeds shall be held either by the City or such fiscal agent in a separate account to be designated the "Construction Fund" and be disbursed in the manner and upon the conditions provided in the resolution of issue for the object and purpose of the acquisition, construction and completion of the project therein designated, or for additions, betterments or improvements thereof, including the payment of all incidental expenses and interest and the creation of funds as provided for in subparagraph (s) of paragraph 7 of this Section 618. Moneys in any construction fund may be invested as the Board in its sole discretion shall determine, subject only to such limitations as may be provided in the resolution of issue. Moneys in a construction fund remaining unexpended after said object and purpose shall have been completed may be applied to the payment of the principal of and interest on said revenue bonds, and none of said moneys may be transferred to any other fund of the City or the Board or used for any purpose other than as specified in the resolution of issue.

(b) Continuous Operation of Project; Repairs, Renewals and Replacements. So long as any bonds thereby authorized shall be outstanding, the City and the Board shall operate the project designated in the resolution of issue continuously and in an efficient and economical manner and in good working order and condition and shall make all necessary repairs, improvements and replacements; provided that the Board in its discretion may, subject to the terms of any resolution of issue, abandon or discontinue operation of any one or more facilities comprising a part of a project.

(c) Rates, Fees and Other Charges. The Board will prescribe, revise and collect rates, tolls, fees, rentals and charges for use of the facilities provided by the project, the revenues from which are pledged to secure the bonds; and the Board

will provide that such rates, tolls, fees, rentals and charges shall at all times be sufficient to yield revenues from such project and from any existing facilities the revenues from which are pledged to secure any bonds equal to all redemption payments and interest charges on said revenue bonds as the same fall due, together with such additional sums as may be required for any sinking fund, reserve fund or other special fund provided for the security or further protection of said revenue bonds, or as a depreciation charge or other charge in connection with such project, and that such rates, tolls, fees and charges shall not be reduced below an amount sufficient to provide funds to meet all obligations specified in the resolution of issue.

(d) Holding and Application of Revenues. The Board shall be required to hold or cause to be held in trust the revenues pledged to the payment of the principal of and interest on the bonds issued pursuant to said resolution of issue, or to any reserve or other fund created for the security or further protection of the bonds, and to apply such revenues or cause them to be applied only as provided in the resolution of issue.

(e) Preservation and Protection of Security of Bonds. The Board shall be required to preserve and protect the security of the bonds issued thereunder and the rights of the holders and to warrant and defend such rights and, also, to pay and discharge or cause to be paid and discharged all lawful claims for labor, materials and supplies or other charges which, if unpaid, might become a lien or charge upon revenues, or which might impair the security of any revenue bonds. Any right, power or privilege of the City or the Board to mortgage or otherwise encumber, or to sell, lease or dispose of a project or to enter into any lease or agreement which impairs or impedes the operation of a project or of any part thereof necessary to provide adequate revenues, or which otherwise impairs or impedes the rights of the holders of the bonds with respect to such revenues, may be limited, restricted or prohibited except upon such terms and conditions as may be provided in the resolution of issue.

(f) Proceeds of Project Taken by Eminent Domain. If any part of a project shall be taken by eminent domain or other proceeding authorized by law, the proceeds to the City or the Board therefrom shall be applied to the replacement of such project or to the payment and retirement of the bonds or otherwise as set forth in said resolution of issue.

(g) Insurance. Insurance of specified kinds and amounts shall be maintained by the Board on a project, or any part thereof (including insurance of any project against loss of revenues from any cause whatsoever, against public liability or property damage and against loss by fire or any other hazard, as may be provided in any resolution of issue). The premiums thereon shall be paid by the Board from revenues, or other specified funds or sources of income, and the use and

disposition of proceeds of any such insurance thereafter collected shall be as specified in such resolution.

(h) Books, Records and Accounts.

(i) The Board will keep accurate books and records of account showing all revenues received from the operation of any project and all expenditures thereof, and all revenues from any facilities pledged or otherwise made available as security or as further protection for the revenue bonds issued pursuant to said resolution of issue.

(ii) All such books and records shall be open at all times during business hours to the inspection of the holders of one or more of the bonds or of any specified percentage of such holders or their duly authorized representatives.

(iii) Annual or other periodic statements of the condition of such project and of all of said other revenues will be furnished to the holders of the bonds or to the trustee or fiscal agent hereinafter provided for, or to any designated percentage of the holders of the bonds.

(iv) Summaries of all such statements will be published at least annually in the official newspaper of the City.

(v) The books and records of the City and the Board pertaining to the operation of any project and to all of said other revenues shall be audited by independent public accountants in such manner and under such circumstances as may be set forth in the resolution of issue.

(i) Trustee; Fiscal Agent; Paying Agents. A bank or trust company qualified to do business in the State of California shall be appointed as a trustee or fiscal agent for the Board and holders of bonds issued under said resolution of issue, and any such trustee may be authorized to act on behalf of the holders of the bonds or any stated percentage thereof, and to exercise and prosecute on behalf of the holders of the bonds such rights and remedies as may be available to the holders. The Board may be authorized to designate any bank or trust company in any city in which any bonds are made payable as the Board's paying agent in such city, and may fix and determine the conditions upon which any trustee, fiscal agent or paying agent shall receive, hold or disburse any or all revenues deposited with it by or by authority of the Board. A resolution of issue may prescribe the duties and powers, if any, of any such trustee, fiscal agent or paying agent with respect to the issuance, authentication, sale and delivery of the bonds, the payment of the principal thereof and interest thereon, the redemption thereof, the registration and discharge from registration of bonds and the management of any funds provided for in the resolution of issue as security for the bonds.

(j) Competitive Projects. Neither the City nor the Board shall, while any revenue bonds authorized by this Section 618 are issued or outstanding, acquire, construct, complete or maintain any projects or facilities or places within or without

the City of Oakland, which compete in any way with any project or which are similar to any facilities or projects maintained or operated by the City or the Board through the issuance of revenue bonds pursuant to this Section 618.

(k) Limitation on Additional Indebtedness. The incurring of additional indebtedness payable in whole or in part from the revenues charged with payment of the revenue bonds issued pursuant to such resolution of issue shall be limited, restricted or prohibited as provided in such resolution.

(*l*) Events of Default. The rights, limitations, powers and duties arising upon breach by the Board of any of its covenants, agreements or obligations shall be as contained in the resolution of issue, which may also provide the terms and conditions upon which all bonds issued thereunder may be declared or become due and payable prior to maturity and the terms and conditions upon which such declaration and its consequences may be waived.

(m) Amendment or Modification of Resolution of Issue. A resolution of issue may prescribe a procedure by which the terms and conditions of the bonds and the resolution of issue may be subsequently amended or modified with the consent of the Board and the vote or written assent of the holders of a specified principal amount or proportion of the bonds issued and outstanding, including provision for meetings with bondholders and the manner in which the consents of the bondholders may be given. A resolution of issue may set forth a specific statement of the effect of each such amendment or modification upon the rights of the holders of all of the bonds and interest coupons appertaining thereto. If desired, a resolution of issue may contain a provision that bonds held by the Board or by the City or by the State of California or any public corporation, political subdivision, city, county, district or any agency of any thereof, shall not be counted as outstanding bonds or be entitled to vote or consent, but shall nevertheless be subject to any such amendment or modification.

(n) Use of Surplus. After all of the revenue bonds issued pursuant to a resolution of issue shall have been fully paid or discharged, or provision for their payment and discharge irrevocably made, any surplus moneys in any construction fund or other fund provided for the security or further protection of the bonds may, subject to the limitations and restrictions in said resolution of issue, become subject to control of the Board and be expended by the Board for any lawful purpose.

(o) Additional Covenants and Agreements. The Board will take such other action and do such other things and make any and all such additional covenants and agreements as the Board shall deem necessary or advisable for the better security of the bonds or to make the bonds more marketable.

Section 618 (9). Rights of Bondholders. Except as provided otherwise in any resolution of issue, the holder of any

bond issued pursuant to this Section 618 may, by mandamus or other appropriate proceedings, require and compel the performance of any of the duties imposed upon the Board or the City or the Council or any official or employee of the Board or the City or assumed by any thereof in connection with the acquisition, construction, completion, operation, maintenance, repair, reconstruction or insurance of any project, or the collection, deposit, investment, application and disbursement of rates, fees and charges derived from the operation and use of any project and all other revenues, or in connection with the deposit, investment or disbursement of the proceeds received from the sale of the bonds under this Section. The enumeration of such rights and remedies does not, however, exclude the exercise or prosecution of any other rights or remedies available to the holders of bonds issued pursuant to this Section 618.

Section 618 (10). Section Confers Complete Authority. The provisions of this Section constitute full and complete authority for the issuance of revenue bonds as herein provided by the Board and no other procedure, or proceedings, consents, approvals, orders or permission from the Council or any municipal officer or board of the City of Oakland, shall be required for the acquisition, construction or completion of any project, or the issuance of any revenue bonds under this Section 618 except as specifically provided in this Section 618. The powers and authorities conferred by this Section are in addition to and supplemental to all other powers and authorities conferred upon the Board.

Section 618 (11). Incurring Indebtedness. In addition to all other powers herein granted to it and notwithstanding any other provision of this Section 618, the Board is authorized: (a) from time to time to incur indebtedness for the purpose of the acquisition, construction, completion or improvement of any structure or facility which the Board is authorized to develop, construct, reconstruct, alter, repair, maintain, equip or operate pursuant to Section 606, and to lease such structure or facility to any person, subject to the limitations of this Section; provided that no such indebtedness shall constitute a debt, liability or obligation of the City of Oakland, that each such indebtedness shall be repaid exclusively from the income and revenue referred to in this clause (a), and that the Board shall provide not later than the date on which each such indebtedness is incurred for payment in full of the principal of and interest on such indebtedness by a pledge of all or any portion of the gross income derived or to be derived by the Board from the lease of such structure or facility and of all or any portion of any other income and revenue then or thereafter under control of the Board as shall be legally available for such purpose (all hereinafter in this Section referred to as "the pledged income and revenue"); (b) for the purpose of paying the principal of and interest on such indebtedness,

to assign to any person all or any portion of the pledged income and revenue; and (c) notwithstanding the provisions of Section 617 (3), to deposit the assigned portion of the pledged income and revenue in a special fund other than the Port Revenue Fund provided for in said Section 617 (3), which said special fund (i) may be held or maintained by the Board or by the Assignee of the assigned portion of the pledged income and revenue and (ii) shall be used and applied by the Board or such assignee only to pay the principal of and interest on such indebtedness. Any pledged income and revenue remaining in any such special fund after payment in full of the principal of and interest on the indebtedness for which said special fund was created shall be deposited by the Board in said Port Revenue Fund.

Any lease executed by the Board pursuant to this Section shall be for a term of not to exceed 50 years and shall be made by the Board only after complying with the provisions of Section 609 of this Charter. Any such lease may provide that all or any part of the cost of maintenance of the leased structure or facility shall be paid by the lessee thereof or by the Board and, to the extent that such cost is to be paid by the Board, that such payment shall be made either from gross income to the Board from such lease or from any other legally available funds of the Board.

Any indebtedness incurred by the Board pursuant to this Section shall (1) be evidenced by contract or other written instrument which may be made by the Board without complying with any of the provisions of Section 610 of this Charter and which shall be signed by the President of the Board and approved by a resolution of the Board, (2) bear interest at a rate not exceeding 7% per annum payable annually or more often as shall be provided by the Board at the time such indebtedness is incurred and (3) be paid in not to exceed 50 years from the date on which it is incurred on such terms and conditions and subject to such right of payment of all or any part of such indebtedness prior to maturity as shall be provided by the Board at the time such indebtedness is incurred; provided, that the Board may fix a date not more than 5 years from the date of incurring any such indebtedness as the date of payment of the first installment of the principal thereof and that beginning on such date not less than $\frac{1}{30}$ of the principal amount of such indebtedness shall be paid annually and the entire principal amount thereof shall be paid in not to exceed 50 years from the date on which it is incurred.

The term "person" as used in this Section means any individual, firm, association, private or public corporation, public district or political subdivision of the State of California, the State of California, the United States of America, or any agency or authority of any thereof.

Section 618(12). Notwithstanding any other provision of this Charter, including Section 618(11), to the contrary, any lease the Board is authorized to make shall be for a term of not to exceed sixty-six years.

Section 619. Moneys on Hand. All moneys in the Harbor Maintenance and Improvement Fund at the time of the adoption of this Charter and all other revenues and funds in the possession of the City set aside for port purposes, shall immediately be under the jurisdiction and control of the Board.

Section 620. Duties of Treasurer. All moneys under the control of the Board shall be immediately paid over to the Treasurer of the City of Oakland, who shall have the care and custody of said funds, and shall keep separate accounts thereof, and pay out the same, as provided in this Charter.

Section 621. Revolving Fund. The Board shall have authority to set up by ordinance a sufficient contingent or revolving fund from which the Executive Director shall be entitled to draw warrants directly upon the Treasurer for the prompt payment of transient laborers, and the Treasurer shall upon presentation of same, pay such warrants. Statements of such payments shall be filed with the Board at its regular meetings and shall be approved by the Board and endorsed by the President and Secretary thereof, and audited as in the case of ordinary claims.

Section 622. Additional Powers. The City Council, subject to the approval of the Board, may by ordinance confer upon and delegate to the Board, from time to time, such additional powers and duties which may be vested in it, and which it may deem necessary or convenient to carry out the general purposes of such Board.

Section 623. Liberal Construction. If any section, clause, word, or provision of this Article shall be held unconstitutional, the other sections, clauses, words, or provisions of this Article shall not be affected thereby. All the provisions of this Article shall be liberally construed.

Section 624. The provisions of this Article shall supersede and control all other provisions of the Charter in conflict therewith. To all other extents, the powers, duties, and functions heretofore vested in the Council, or any of the officials, boards, or departments of the City, shall be unimpaired.

Section 625. Port Area. The "Port Area" under the exclusive jurisdiction of the Board of Port Commissioners shall be the same area that existed immediately prior to the adoption of this Section, as it has been defined by Charter and by ordinance, and as it may hereafter be altered by Council ordinance in accordance with and upon the recommendation of the Board, or by amendment of this Charter.

Section 626. Without denial or disparagement of other powers now held by or that may hereafter be given to the City of Oakland or its legislative bodies under or by the Con-

stitution or the laws of the State of California, the City Council and Board of Port Commissioners are hereby authorized and empowered to grant and convey all or any portion of or interest in the tidelands and submerged lands located in the Middle Harbor area of the City, lying between the Estuary of San Antonio and Seventh Street, and westward of Bay Street extended southerly, to the United States of America for public or governmental (including military or naval) purposes, subject to such terms, conditions, and reservations, if any, as the Council and Board shall deem proper. No ordinance or other measure passed in respect to any such grant shall be subject to the referendum provisions of this Charter. All proceedings heretofore taken to accomplish such a grant are hereby ratified, confirmed and approved, and the completion thereof and making of such grant is hereby authorized.

Section 627. Land Use and Development. The Board shall develop and use property within the Port Area for any purpose in conformity with the General Plan of the City. Any variation therefrom shall have the concurrence of the appropriate City board or commission; provided, that the Board may appeal to the Council for final determination of adverse decisions of such board or commission, in accordance with uniform procedures established by the Council.

Section 700. Fiscal Year. The fiscal year for the City shall commence on the first day of July of each year.

Section 701. Budget. Each department, office and agency of the City shall provide in the form and at the time directed by the City Manager all information required by him to develop a budget conforming to modern budget practices and procedures as well as specific information which may be prescribed by the Council. Not later than May 31 of each year, the City Manager shall prepare and present to the Council, in such form and manner as it may prescribe, budget recommendations for the next succeeding fiscal year. Following public budget hearing, the Council shall adopt by resolution a budget of proposed expenditures and appropriations necessary therefor for the ensuing year, failing which the appropriations for current operations of the last fiscal year shall be deemed effective until the new budget and appropriation measures are adopted.

Section 702. Levy of Property Tax. Not later than the date set by state law for this purpose, the Council shall by resolution fix the rate of property tax to be levied and levy the tax upon all taxable property in the City. Such rate shall be adequate to meet all obligations of the City for the fiscal year, taking into account estimated revenue from all other

sources. Should the Council fail to fix the rate and levy taxes within the time prescribed, the rate for the next preceding fiscal year shall thereupon be automatically effective, and a tax at such rate shall be levied upon all taxable property in the City for the current fiscal year.

Section 703. Cash Pool Operations. Municipal obligations may be financed by cash pool operations and utilization of a check system (as contrasted with a warrant system). Except for those funds restricted by bond indentures, state or federal law, other sections of this Charter or specific conditions of the legislation creating them, temporary transfers between funds are permitted.

Section 704. Funds. The Council shall create, reduce or eliminate such Funds as are required for proper accounting and fiscal management, or required as a condition of receiving funds from any other government, or to fulfill any bonded or other contractual obligation of the City.

Section 705. Accounting System. The City Manager shall establish and maintain a system of financial procedures, accounts and controls for the City government and each of its departments, offices and agencies which shall conform to generally accepted principles of accounting which shall be adequate to account for all monies on hand and for all income and expenditures in such detail as will provide complete and informative data concerning the financial affairs of the City and in such manner as the Council may prescribe and as will be readily susceptible to audit and review.

Section 706. Receipts and Expenditures. All monies received by the City shall be deposited in the City Treasury, and no monies shall be disbursed from the treasury without the approval of the City Manager or of another officer duly authorized by him. No expenditure of City funds shall be made except for the purposes and in the manner specified by an appropriation of the Council; nor shall any disbursement be made unless obligations are properly supported by accounting evidence, sufficient money is available in the City Treasury and there is an adequate unencumbered appropriation balance in the proper account classification. The City Manager or other officer authorized by him to make disbursements shall be represented by the City Attorney in all legal matters in connection therewith, except as provided otherwise in Section 301.

Section 707. Goods and Services. The City Manager or an officer authorized by him shall purchase or contract for equipment, materials, supplies and public works required by the City in the manner prescribed by ordinance, except as otherwise provided herein.

Section 708. Bids and Awards. The Council shall establish by ordinance the conditions and procedures for any purchase or contract, including advertising and bidding requirements, and may provide that all bids may be rejected. The

ordinance may provide that under specified conditions, which the Council must find and determine exist in each applicable instance, advertising and bidding may be dispensed with.

Section 709. Annual Audit. The Mayor upon approval of the Council shall engage during the first month of each fiscal year an independent certified public accountant who shall examine and report to the Council on the annual financial statement of the City. He shall have free access to the books, records, inventories and reports of all officers and employees who receive, handle, or disburse public funds, and of such other officers, employees, or departments as the Council may direct. He shall submit his audit as soon as practicable after the closing of the books for the fiscal year for which he is engaged. Copies of such audit reports shall be filed with the Council, and shall be available for public inspection and review.

Section 710. Deposit and Investment. The City Manager shall arrange for the deposit in the City Treasury or in designated banks of all funds collected by any department or agency of the City, according to a schedule prescribed by him. After taking into account the amounts required to meet the current and pending requirements of the City, the City Manager may arrange for the term deposit or investment in securities authorized by law of any balances available for such purpose and the yield therefrom shall be credited as revenue to the general fund unless otherwise provided by law or directed by the Council.

Section 711. Official Bonds. The Council shall determine by ordinance which officers and employees shall be subject to group or individual bonds to insure the faithful performance of official duties, shall fix the amount of such bonds and shall provide payment of the premium of such bonds by the City.

Section 712. Revenue Bonds. The Council may issue revenue bonds for any lawful purpose in such manner and upon such terms and conditions as it may fix and establish by the provisions of a procedural ordinance; provided, however, that in the procedure for the issuance of any such bonds for the acquisition, construction or establishment of any gas, electric or telephone system, the general laws of the State of California in force at the time such proceedings are taken shall be observed and followed.

Article VIII

(e) Individuals or organizations engaged by contract after a finding by the Council or the Board of Port Commissioners, as the jurisdiction may be, that the service is of a professional, scientific or technical nature and is temporary in nature, or after finding by vote of two-thirds of the members of the Council or said Board that the performance of the service by contract, regardless of nature or term, is in the public interest because of economy or better performance; provided, that no such contract for service shall result in the loss of employment or salary by any person having permanent status in the competitive service.

(f) Such additional positions as may be excepted upon the recommendation of the Council, approved by the Civil Service Board as provided for pursuant to Article V.

Section 803. Provisional Appointments. When there is no appropriate eligible list, provisional appointments to positions in the competitive civil service may be made pending the creation of such lists, but such provisional employment may not extend beyond the creation of the list nor in any event may such employment be renewed or extended beyond 120 days.

Section 804. Personnel Ordinance. The Council shall by ordinance provide a modern system of personnel administration for the competitive civil service.

Section 805. Continuation. Pending adoption of the ordinance required in Section 804, the provisions of Article XIII, as the same appeared in the Charter immediately prior to the adoption of this section, shall continue in full force and effect except as the same may hereafter be changed by amendment thereof in the manner provided by law for the amendment of charter provisions. Said provisions of Article XIII shall cease to have any force or effect immediately upon the adoption of the ordinance required in Section 804. The rules of the Civil Service Board shall remain effective until modified as authorized by ordinance pursuant to Article V.

Section 806. Improper Political Activity. No city employee shall engage in or participate in any political activity contrary to any general law applicable to such employee. Section 809. Authority to Join Pension System. Notwithstanding the provisions of Section 1109 the City, by and through its Council, may join, or arrange for reciprocity of membership in, or continue as a contracting agency in, any retirement or pension system or systems existing or hereafter created under state or federal law to or in which municipalities and municipal officers or employees are eligible, either for all such officers and employees, or for less than all on the basis of a reasonable classification, provided that no employee or officer or classification thereof shall be unreasonably omitted from all systems referred to in this section or in Section 808 of this Charter.

Article IX

WHEREAS, It is proposed that the maximum share for the State of California be raised to $100 for any grade animal and $125 for any purebred animal for both diseases; and

WHEREAS, The unrealistic federal maximum results in the owner of the animal being required to bear a substantially disproportionate share of the loss, as illustrated by a recent survey in California; and

At any time within such period as may be specified in said resolution, which shall be not less than 60 days from and after the receipt of such certified copies at such offices, respectively, the Mayor, by writing, or the Council, by majority vote, may disapprove such resolution. If neither the Mayor nor the Council shall so disapprove said resolution within the period so specified, said resolution shall thereupon be published once in the same manner as ordinances of the City. If the Mayor shall disapprove said resolution within said period, he shall forthwith advise the Council and the Board, in writing, of such disapproval. The Council shall thereupon consider such disapproval in the same manner as upon the reconsideration of an ordinance notwithstanding the veto of the Mayor and, if, upon such consideration, the Council shall by the votes, of two thirds of the whole Council, determine that the Mayor's disapproval should be overruled, such disapproval by the Mayor shall be of no effect, and the said resolution of the Board shall thereupon be published once in the same manner as ordinances of the City.

the City for their assent to the issuance of the therein proposed bonds, may be filed with the City Clerk. Except as in this Section 240 otherwise expressly provided, all of the provisions of this Charter relating to referendum with respect to ordinances shall apply to any referendum under the provisions of this subsection. Upon presentation to the Council by the City Clerk of a referendary petition, the resolution which is the subject thereof shall be of no effect unless and until the same shall have been assented to by the voters.

5. If no such referendary petition is presented within the aforesaid period of 30 days, then upon the expiration of said period, or, if the resolution of the Board adopted pursuant to paragraph 1 of this subsection shall have been assented to by the voters upon referendum pursuant to this subsection, then upon such resolution having been so assented to, the said resolution shall take full and final effect and the Board may proceed in accord with the provisions of this Section 240 and issue bonds as provided for by said resolution; provided, however, that if the resolution shall have been assented to by the voters upon referendum pursuant to this subsection, the resolution may, in the discretion of the Board, be amended to change the date of the bonds and the date or dates of maturity of each issue or series of bonds and all other dates which depend upon the above dates, and when so amended the said resolution shall take full and final effect and the Board may proceed in accordance with the provisions of this Section 240 and issue bonds as provided by said amended resolution.

RESOLUTION CHAPTER 147

Senate Concurrent Resolution No. 88—Relative to proclaiming the week of April 27–May 3, 1969, as "Canada-United States Goodwill Week."

[Filed with Secretary of State May 7, 1969]

WHEREAS, For more than a century, two of the greatest nations in the world, the United States and Canada, have enjoyed a close and lasting friendship, and the year 1969 will mark the 102nd aninversary of Canada as a nation and the 152nd anniversary of the Rush-Bagot Agreement which demilitarized the boundary between these two nations; and

WHEREAS, The Rush-Bagot Agreement established permissible armament levels for each nation on the Great Lakes, and was proclaimed by President Monroe on April 28, 1818, to be effective as of April 28, 1817, the date of an exchange of notes between Richard Rush, an American lawyer and diplomat who was Acting Secretary of State for the United States, and Sir Charles Bagot, a British diplomat and administrator who was Minister to the United States; and

WHEREAS, Two nations, growing greater each decade, have given a bright example to the nations of a world growing smaller each decade as measured by communication and transportation by forever distinguishing themselves by neutraliza-

tion of the Great Lakes and avoidance of hostile fortification to the end that today a feeling of high regard, mutual respect, and goodwill pervades the relationship between the nations; and

WHEREAS, In 1922, Kiwanis International instituted the observance of "Canadian-United States Days" to celebrate the Rush-Bagot Agreement and the enduring friendship of our nations, and this observance is now known as "Canada-United States Goodwill Week" and is observed each year by Kiwanis Clubs throughout the land through efforts to inform people on life in our neighboring country, demonstrations of friendliness toward our neighbors themselves, and efforts to improve understanding between the two great pioneering nations of Kiwanis; and

WHEREAS, The spirit of friendship existing between the United States and Canada was best expressed in the last public address of President Warren G. Harding when he said:

> "What an object lesson of peace is shown by our two countries to all the world. No grim-faced fortifications mark our frontiers, no huge battleships patrol our dividing waters, no stealthy spies lurk in our tranquil border hamlets. Only a scrap of paper, recording hardly more than a simple understanding, safeguards lives and properties on the Great Lakes, and only humble mileposts mark the inviolable boundary line for thousands of miles through farm and forest. Our protection is in our fraternity, our armor is our faith, and the tie that binds more firmly year after year is ever-increasing acquaintanceship and comradeship through interchange of citizens; and the compact is not of perishable parchment but of fair and honorable dealing, which, God grant, shall continue for all time";

Any officer or employee violating any of the foregoing provisions of this Article shall be guilty of a misdemeanor and be automatically expelled from his office or employment.

If at any time it shall be found that the person, firm or corporation to whom a contract has been awarded by the City has, in presenting any bid or bids, colluded with any officer or employee of the City, or with any other party or parties interested in the same bid or bids, then the contract so awarded shall, if the City so elect, be null and void and the contractor and his bondsmen shall be liable to the City for all loss or damage which the City may suffer thereby. In such event the Council may advertise for new bids for said work or supplies.

"CHARTER PROPOSITION A"

That Article XV of the Charter of the City of Pasadena be amended to read:

"Article XV The Fire and Police Retirement System

Section 1501. Retirement System.

In order to continue in force, with such modifications as are set forth in this Article, provisions already existing for retirement and death benefits for members of the Fire and Police Departments of the City, the Pasadena Fire and Police Retirement System, hereinafter referred to as the Retirement System or the System, is hereby established. The legislative body of the city may exclude from membership in the Retirement System persons employed on a temporary or part-time basis, but for the purpose of the Retirement System, persons serving a probationary period requisite to appointment to a regular position shall not be considered as on a temporary basis. The legislative body by a vote of not less than five (5) of its members, is hereby empowered to enact any and all ordinances necessary to carry into effect the provisions of this Article provided that the said legislative body, through the Retirement Board, shall secure an actuarial report of the cost and effect of any proposed change in the benefits under the Retirement System, before the adoption of an ordinance to submit any proposed Charter amendment providing for such change.

Section 1502. Retirement Board.

The Retirement System shall be managed by a Retirement Board hereby created, which shall be the successor to and have the powers and duties of the Fire and Police Pension Board of the City of Pasadena, heretofore created and effective and now by this Article superseded by the Retirement Board. The Retirement Board shall consist of one member of the legislative body of the city to be selected by and to serve at the pleasure of the said legislative body, two qualified electors of the City of Pasadena not connected with the government thereof, to be appointed by the legislative body, and two members elected under the supervision of the Retirement Board from the active members of the Retirement System, who shall not include persons retired under the Retirement System or under any other Municipal, County or State retirement or pension plan, provided that immediately after the effective date hereof, the chairman of the said legislative body shall appoint two members from such active members of the Retirement System to serve until the election of such two members, which shall not be more than six months after the effective date hereof, hereby defined as the first day of the July next following ratification of this amendment by the Legislature. One of such two members shall be a member of the Fire Department and one a member of the Police Department, and the election of each of such two members shall be confined to the group from which the member must be chosen. The term of office of the four members, other than the member appointed from the legislative body of the City, shall be four years, one term expiring each year, provided that immediately after the election of the two members from the Fire and Police Departments, they shall draw lots for terms of one, two, three and four years, respectively. The members of the Retirement Board shall serve without compensation. The Retirement Board shall appoint a secretary to hold office at its pleasure, and when necessary employ a consulting actuary.

The Retirement Board shall have the sole power and authority under such general ordinances as may be adopted by the legislative body to hear and determine all facts pertaining to applications for and awards of any benefits under the Retirement System, or any matters pertaining to the administration thereof. Said Retirement Board shall have exclusive control of the administration and investment of such fund or funds as may be established and all investments shall be subject to the same terms, limitations and restrictions as are imposed by the Constitution and laws of the State upon the investment of the Public Employees' Retirement System Funds, as now enacted or hereafter amended.

Disbursement of retirement funds shall be made upon demands duly audited in the manner prescribed in this Charter for disbursement of public funds. The City Treasurer shall be the custodian of any such retirement funds, subject to the

control of the Retirement Board as to the administration and investment of said funds.

Section 1503. Actuarial Tables, Rates and Valuations.

The mortality, service and other tables and rates of contributions for members as recommended from time to time by the actuary and the valuations determined by him from time to time and approved by the Retirement Board shall be final and conclusive and the contributions of the City and members to the Retirement System shall be based thereon.

Section 1504. Definitions.

(a) "Compensation", as distinguished from benefits under the Workmen's Compensation laws of the State of California, shall mean the remuneration prescribed by the city in cash, without deduction except for absence from duty, for time during which the individual receiving such remuneration is in the employ of the city in either or both the Fire and Police Departments. Compensation based on overtime put in by a member shall be excluded from all computations in which compensation is a factor.

(b) "Service" shall mean time during which an individual is employed in either or both the Fire and Police Departments of the city for compensation. Absence from duty without compensation due to any cause other than disability retirement as hereinafter provided, shall not be deemed service for the city. The legislative body, however, may fix the number of months per year to be required for a year of service and proportionate parts thereof, but not more than one year shall be credited for all service in any year.

(c) "Compensation earnable" shall mean the compensation as determined by the Retirement Board, which would have been earned had the member received compensation without interruption throughout the period under consideration and at the rates attached to the ranks or position held by a member during such period. The computation for any absence of a member shall be based on the compensation earnable in the rank or position held by the member at the beginning of the absence and that, for the time prior to becoming a member of the Fire or Police Department, shall be based on the compensation earnable by the member in the rank or position first held by the member in such Department.

(d) "Retirement allowance", "death allowance", or "allowance" shall mean equal monthly payments for life unless a different term of payment is provided by the context, provided that any person to whom or on whose account benefits are payable, may elect to have the actuarial equivalent of that portion of such benefits which is not continued automatically to his surviving wife or children, paid in different form, all subject to such restrictions, regulations and conditions as may be prescribed by the legislative body, but the action of the legislative body shall not prevent such benefits when elected by a member, from taking the form of cash refund annuities,

as applied to the member's accumulated contributions only, or reversionary annuities, these terms to have the meaning commonly accepted in standard life insurance practice.

(e) "Annuity" shall mean equal monthly payments for life, unless a different term of payment is provided by the context, derived from contributions made by the member.

(f) "Final compensation" shall mean the highest average monthly compensation earnable by a member during any period of three consecutive years. In the calculation of "final compensation", periods of service separated by breaks in service may be aggregated to constitute a period of three consecutive years, if the periods of service are consecutive except for such breaks. If a break in service did not exceed six months in duration, time included in the break and compensation earnable during such time shall be included in the computation of final compensation. If a break in service exceeded six months in duration, only the first six months thereof and the compensation earnable during those six months shall be included in the computation of final compensation. For the purposes of this paragraph, absence from duty without compensation, because of disability retirement, is not a break in service.

(g) "Employee" shall mean "officer or employee".

(h) "Member" shall mean a member of the Retirement System unless clearly indicated otherwise.

(i) "Interest" shall mean interest at the rate adopted by the Retirement Board.

(j) The disability referred to herein as a basis for retirement shall mean disability of permanent duration, except disabilities determined by the Retirement Board, predicated upon best medical opinion, to be of an extended and indefinite duration.

(k) For the purposes of the Retirement System, ages of members used in the calculation of allowances shall be taken to the next lower completed quarter year.

(l) Any fire or police service performed outside the limits of the city by a member of the Retirement System under the orders of a superior officer of any such member, shall be considered as performed within the scope of a member's employment, and any disability or death incurred therein shall be covered under the provisions of the Retirement System.

(m) For the purposes of the Retirement System, "member of the Fire Department" or "member of the Police Department", shall include any officer or employee of either of such departments whose principal duties are to prevent and extinguish fire or to preserve the peace, prevent injury to life and property, or to suppress crime or disorder, and shall exclude persons whose principal duties are those of civilian personnel such as, but not limited to, administrative analyst, training coordinator, technical specialist, housing inspector, telephone operator, clerk or stenographer, machinist or mechanic, or other similar duties clearly not falling within the foregoing

regular fire or police duties, even though such persons may be called upon occasionally to perform such regular fire or police duties; provided that the foregoing exclusions shall not apply to members of the System who are reassigned to perform any of the excluded duties. After the effective date hereof, the maximum age at which any person, except a person employed as Chief of the Fire Department or Chief of the Police Department may become or reenter as a member of either the Fire or Police Department, shall be thirty-four years notwithstanding any of the other provisions of this Charter.

Section 1505. Age Exception for Temporary or Part-Time Employees.

As an exception to the maximum age requirement of the preceding section, if the City Manager finds that persons under thirty-five years of age are not available for membership in either of said departments because of conditions brought about by war, he may employ a person over thirty-four years of age in either of said departments on a temporary or part-time basis and such person shall not be entitled to membership in the Retirement System. Authority given to the City Manager under this Section shall terminate after the expiration of one year after the end of the war on a date to be determined by the legislative body of the city.

Section 1506. Restrictions on Retired Persons.

No person retired for service or disability receiving a retirement allowance under the Retirement System shall serve in any appointive position in the service of the city, including memberships on Boards or Commissions, nor shall such person receive any payment for service, except in an elective office, rendered to the City after retirement, provided that service as an election officer or juror shall not be affected by this section.

Section 1507. Reductions of Benefits.

That portion of any allowance which is provided by contributions of the city, payable by the Retirement System pursuant to Sections 1509.3, 1509.31, 1509.6(b) or (c), or 1509.71 because of the death or retirement of any member shall be reduced, in the manner fixed by the legislative body, by the amount of any benefits payable to or on account of such member, under the Workmen's Compensation laws of the State of California, where such Workmen's Compensation benefits are payable for the same cause which resulted in such allowance. Said reduction shall apply to any allowance or other benefit provided by city contributions under this Article, whether the recipient of the allowance or benefit hereunder is the recipient of the Workmen's Compensation payments or not. Benefits included and payable under such Workmen's Compensation laws for temporary disability payments prior to retirement or for medical, surgical, and hospital treatment, and expenses of burial, and attorney's fees, shall not be deemed benefits here-

under. In like manner said portion shall be reduced by the amount of any pension paid to or on account of the death of such member from funds of the United States, State of California or any political subdivision thereof, on account of, or on the basis of service credited under the Retirement System, except social security payments or pensions paid on account of service in the armed forces of the United States.

Section 1508. Existing Allowances.

(a) Retirement or death allowances existing in favor of or on account of members of the Fire or Police Departments at the time of the effective date of this Article, shall be continued in force, including a remarried widow during any period of time when she is unmarried by reason of the death of, annulment or divorce from a succeeding husband, and shall be paid by the Retirement System. Allowances which were effective, because of a member's retirement or death before retirement, after November 5, 1968, and prior to the effective date hereof, shall be adjusted to the new basis of all benefits provided in this Article XV upon the election by the member or surviving wife to accept the modifications provided in this amendment.

(b) Every retirement or death allowance presently payable pursuant to the 1935 System as heretofore modified for time, to or on account of a person who died as a member or retired on or after July 1, 1935, and prior to the effective date of this section, shall from and after the effective date hereof and upon the election by the member or his surviving wife within 180 days of the effective date of this amendment, be adjusted annually in accordance with Section 1509.8 hereof. Such annual adjustments shall not be retroactive but shall only be from and after the effective date hereof.

(c) The provisions of these subparagraphs (a) and (b) do not apply to persons receiving benefits pursuant to Charter provisions in effect prior to July 1, 1935, nor to any widow of a member who had remarried on or before November 5, 1968, and to whom the member's contributions had been paid.

Section 1509. Benefit and Contribution Requirements.

Persons who shall be members of the Fire and Police Retirement System on the effective date hereof shall remain members of the System upon such date and shall retain all rights under the System theretofore in effect. All persons who shall become members of the Fire or Police Departments after the effective date hereof, shall become members of the Retirement System forthwith and all members of the System who elect to take the new benefits and pay the contributions required from the effective date of the amendment shall be subject to the provisions of this Article XV, as modified by this amendment.

Section 1509.1. Service Retirement; 15 Years Service; Age 50.

Members may retire upon or after attaining age 50 provided that a member shall at the effective date of election to retire have rendered at least 15 years of Service.

Section 1509.12. Service Retirement; 25 Years Service.

Notwithstanding any other provision of this Charter, members may exercise their option to retire provided they shall at the effective date of election to retire have rendered at least 25 years of Service.

Section 1509.13. Service Retirement; Compulsory at Age 60.

Members must retire at the age of 60 years, provided that the Chief of the Fire Department, the Chief of the Police Department, or the Assistant Director of Civil Defense holding such office on January 1, 1967, who attains the age of 60 years as a member of the System, may be retained in service as such chief, or such director, at the option of the City Manager, but such retention shall not extend beyond the age of 65 years. Such retained chief or retained director shall continue to be a member of the System.

Section 1509.14. Service Retirement; Dismissal.

Dismissal of a member from service for any cause after the member has qualified as to age and service for service retirement shall not deprive such member of the right to retire for service.

Section 1509.15. Service Retirement; Retirement Allowance.

(a) Members have the optional right to retire for service as set forth herein upon electing the right to so retire and upon retirement for service shall receive a service retirement allowance equal to 1/50 of the member's final compensation, times the member's number of years of service, times an actuarial equivalent at his actual retirement age as set forth in the following table, provided that in no event shall the initial service retirement allowance exceed 75 percentum of the member's final compensation:

Age at Retirement	Actuarial Equivalent
46	.8226
47	.8678
48	.9085
49	.9522
50	1.0000
51 and over	1.0516

(b) The following table of age at retirement and actuarial equivalents shall be operative in whole or in part to the calculations set forth in subparagraph (a) of this Section when the cost to the City as contribution for service for current and past service, excluding contributions of and concerning charter provisions in effect prior to July 1, 1935, does not exceed 14.50 per cent of members' compensation paid during the said year the said following table becomes operative. If as the result of a periodical actuarial valuation and investi-

gation taking into consideration reductions in prior service obligations of City and the earnings of the Fund, the foregoing conditions are met, the Board of Directors shall, by ordinance or resolution, establish the effective date of the new retirement rates which date shall be within 90 days of the filing of the said actuarial report.

Said equivalents shall be applicable only to those members retiring after said valuation, investigation and determination by the said Board of Directors and subject to the formula and limitations of subparagraph (a) of this Section:

Age at Retirement	Actuarial Equivalent
52	1.1078
53	1.1692
54	1.2336
55 and over	1.3099

Section 1509.3. Service Connected Disability Retirement.

Members shall be retired for disability, regardless of age or amount of service, if incapacitated for the performance of duty as the result of injury or illness incurred in the performance of duty.

Section 1509.31 Service Connected Disability Retirement; Allowance.

Upon retirement for disability resulting from injury or illness incurred in performance of duty, members shall receive a disability retirement allowance of 50 percentum of the member's final compensation. If such member might otherwise elect to retire for service at a greater retirement allowance pursuant to the provisions hereof, he shall elect either the higher service retirement allowance or the disability retirement. Such election shall be irrevocable by the member thereafter.

Section 1509.32. Non-Service Connected Disability Retirement.

Members shall be retired regardless of age but only after ten years of service to the city in either or both the Fire and Police Departments if incapacitated for the performance of duty as the result of an injury or illness not incurred in the performance of duty.

Section 1509.33. Non-Service Connected Disability Retirement; Allowance.

Upon retirement for disability resulting from injury or illness not incurred in the performance of duty, a member shall receive a disability retirement allowance of $1\frac{1}{2}$ percentum of the member's final compensation, multiplied by the number of years of service in either or both the Fire and Police Departments credited to the member if such allowance exceeds $\frac{1}{4}$ of the member's final compensation; otherwise, $1\frac{1}{2}$ percentum of the member's final compensation, multiplied by the

number of years which would be creditable to the member were the member's service to continue until the member's attainment of the age of 55 years, but such allowance shall not exceed ¼ of the member's final compensation. If such member might otherwise elect to retire for service at a greater retirement allowance pursuant to the provisions hereof, he shall elect either the higher service retirement allowance or the disability retirement. Such election shall be irrevocable by the member thereafter.

Section 1509.34. Disability; Reinstatement.

If the disability for which a member was retired shall cease to the extent necessary to enable him to perform the duties of the rank or position he held at the time of retirement, the member's allowance shall cease at the option of the Retirement Board, and the member shall be reinstated at the rank and in a position of the same grade as the member occupied at the time of retirement. The member's individual account shall be credited with an amount which is the actuarial equivalent of the member's annuity at that time as based on a disabled life, but not exceed the amount of the member's accumulated contributions at the time of the member's retirement for disability. The amount so credited to the member's individual account shall be administered as contributions deducted from the member's compensation. Upon retirement at any time thereafter, the member shall receive service credit for the time during which the member was retired for disability, but the member shall not be required to make contributions for such time. If, following reinstatement, the member does not enter upon the duties of the member's position, and is not qualified for service retirement, the member shall be subject to the provisions of Section 1509.4 hereof. This Section shall not apply to any member who shall have been qualified for and who shall have elected previously service retirement rather than disability retirement.

Section 1509.4. Deferred Retirement.

Should any member be separated from service of the city through any cause other than death or retirement, then all of the member's contributions, with interest, shall be refunded to the member, provided that if such member is entitled to be credited with at least ten years of service, the member shall have the right to elect within ninety days after said termination of service, whether to allow the member's accumulated contributions to remain in the Retirement Fund. Such election shall become void upon such person's employment in a position requisite for membership in this System, and may be revoked by such person at any time prior thereto. Upon such revocation, the member's accumulated contributions shall be refunded to the member. Failure to make an election during the said 90-day period shall be deemed an irrevocable election to withdraw the member's accumulated contributions.

A member whose membership continues under this section is subject to the same age requirement as applies to other members for service retirement, but is not subject to a minimum service requirement. After the qualification of such member for retirement by reason of age for service retirement and only then, the member shall be entitled to receive a retirement allowance based upon the amount of the member's accumulated contributions and service standing to the member's credit at the time of retirement and on the employer contributions held for the member and calculated in the same manner as for other members.

Section 1509.41. Reentry; Adjustment of Contribution Rate.

If a member who has separated from service and who has elected to continue his membership pursuant to Section 1509.4 shall again become an employee of either the Fire Department or the Police Department, on reentry the member's rate of contributions for the future shall be adjusted by the actuary as necessary, by adding to his original age for contribution purposes the number of years said member was out of service in either the Fire Department or the Police Department.

Section 1509.5. Refund of Contributions.

Member's contributions made under Sections 1509.81 and 1509.9 hereof, shall be credited to the individual account of the member from whose compensation they were deducted, and no amendment to this Charter or repeal thereof shall prevent the payment to the member or member's beneficiary, of such contributions made prior to the effective date of such amendment or repeal, with interest, upon separation from service of the city, for reason by other than retirement, as provided herein, or the application of such contributions, with interest, toward providing the member's retirement or death allowance, as the case may be.

Section 1509.6 Retirement Allowance; Dependent Continuation of at Death of Member.

(a) Upon the death of any member receiving a retirement allowance pursuant to the provisions of Sections 1509.1, 1509.12, 1509.15, 1509.33 or 1509.4 hereof, 60% of the member's retirement allowance shall, if not modified in accordance with one of the optional settlements now or hereafter specified by ordinance, be continued throughout life or until remarriage, to the surviving wife.

(b) Upon the death of any member receiving a service connected disability retirement allowance pursuant to the provisions of Sections 1509.3 and 1509.31 hereof, 100% of the member's retirement allowance shall be continued throughout life or until remarriage, to the surviving wife.

(c) If there be no surviving wife or if she dies or remarries before every unmarried child of such deceased member attains the age of 21 years, then the allowance which would otherwise be paid to the surviving wife had she quali-

fied and lived and not remarried, shall be paid to such child or children under said age of 21 years, collectively, to continue until every such child dies or attains age 21 or marries, or unless the subsequent marriage of the widow is terminated by the death of, annulment or divorce from a succeeding husband; provided that no child shall receive any allowance after marrying or attaining the age of 21 years. No allowance shall be paid under this Section to a surviving wife unless the surviving wife was married to the member at least one (1) year prior to his date of retirement.

The remarried widow shall have the right to receive a continuation of her monthly allowance during any period of time in the future when she is unmarried by reason of the death of, annulment or divorce from a succeeding husband.

Section 1509.61. Refund of Dependent Contributions; to Dependents.

If the payment of the allowance for surviving wife or child or children of a member as set forth in Section 1509.6 hereof terminates by death of the widow and because of the death, attainment of age 21 by or marriage of every child or children before the sum of the monthly payments made shall equal the sum of the member's dependent contributions, with interest thereon, as it was at his retirement, then an amount equal to the difference between said sums shall be paid in one amount to the surviving children of the deceased member, share and share alike.

Section 1509.62. Refund of Dependent Contributions; to Member.

If at the date of retirement for service or disability, service connected or non-service connected, a member has no wife or child or children qualifying under this Article XV for dependent continuation allowance, the dependent contributions made by the member, with accumulated interest thereon, shall be paid to the member upon said date.

Section 1509.7. Death of Member Prior to Retirement; Death Benefit.

Upon the death of a member, before retirement, the Retirement System shall be liable for and shall pay a death benefit consisting of either or both of the following:

(a) The member's accumulated contributions, with interest thereon, to be paid to the member's estate or to such person having an insurable interest in the life of the member if the member shall nominate by written designation duly executed and filed with the Retirement Board.

(b) An amount of money equal to the member's compensation earnable during the 6 months immediately preceding the death of the member to be paid only to the member's surviving spouse, child or children or dependent father or mother.

The foregoing death benefits shall be paid in monthly installments in accordance with Sections 1509.71 and 1509.72 hereof, except where a lump sum is specified.

Section 1509.71. Service Connected Death; Prior to Retirement.

If, in the opinion of the Retirement Board, the death of a member, prior to retirement be the result of injury or illness, incurred in the performance of duty, the Retirement System shall be liable for and shall pay as follows:

(a) An amount sufficient, when added to the amounts provided in Section 1509.7 (a) and (b), but excluding the member's accumulated additional contributions, to provide when applied according to tables and rates recommended by the actuary and approved by the Retirement Board, a monthly death benefit allowance equal to ½ of the member's final compensation, to be paid to the surviving wife to whom said member was married at the time of sustaining the said injury or illness, to continue throughout her life or until her remarriage; or if there be no surviving wife, or if she dies or remarries before every unmarried child of such deceased member shall have attained the age of 21 years, then to such child or children under said age collectively, to continue until every such child dies, attains said age, or marries, or unless the subsequent marriage of the widow is terminated by the death of, annulment or divorce from the succeeding husband; provided that no child shall receive any allowance after attaining the age of 21 years or marriage. If payment of the allowance be stopped because of the death of the surviving wife and attainment of the age of 21 years by or marriage of a child before the sum of the monthly payments shall equal the sum of the amounts provided in Section 1509.7 (a) and (b), then an amount equal to the difference between said sum shall be paid in one amount to the surviving children of the deceased member share and share alike.

The remarried widow shall have the right to receive a continuation of her monthly allowance during any period of time in the future when she is unmarried by reason of the death of, annulment or divorce from a succeeding husband. The widow shall have no right to withdraw the said remaining balance, if any, of Sections 1509.7 (a) and (b).

Section 1509.72. Non-Service Connected Death; Prior to Retirement.

(a) If, in the opinion of the Retirement Board, the death of a member, prior to retirement hereunder, be not the result of injury or illness incurred in the performance of duty, and if said member be qualified at the date of death for retirement for service, pursuant to this Article XV, then, the Retirement System shall be liable for and shall pay an amount sufficient, when added to the amounts provided in Section 1509.7 (a) and (b) hereof, to provide an allowance to be paid to the surviving wife to whom said member was married at least one (1) year prior to his death, to be equal in amount to the allowance which would have been payable to her if the said member had retired for service at the time of his

death and had died instantly thereafter, and to continue throughout her life or until her remarriage, or if there be no surviving wife, or if she dies or remarries before every unmarried child of such deceased member shall have attained the age of 21 years, then to such child or children under said age collectively, to continue until every child dies, attains said age, or marries, or unless the subsequent marriage of the widow is terminated by the death of, annulment or divorce from a succeeding husband; provided that no child shall receive any allowance after attaining the age of 21 years or marriage. If payment of the allowance be stopped because of death of the widow and attainment of the age of 21 years by or marriage of every child before the sum of the monthly payments shall equal the sum of the amounts provided in Section 1509.7 (a) and (b), then an amount equal to the difference between said sum shall be paid in one amount to the surviving children of the deceased member, share and share alike.

The remarried widow shall have the right to receive a continuation of her monthly allowance during any period of time in the future when she is unmarried by reason of the death of, annulment or divorce from a succeeding husband. The widow shall have no right to withdraw the said remaining balance, if any, of Sections 1509.7 (a) and (b).

(b) If, in the opinion of the Retirement Board, the death of a member prior to retirement hereunder be not the result of injury or illness incurred in the performance of duty, and if said member has prior to death made an unrevoked election to continue membership in the System in accordance with Section 1509.4 hereof, the Retirement System shall be liable for and shall pay in a lump sum a death benefit according to and equal to Section 1509.7 (a).

(c) If, in the opinion of the Retirement Board, the death of a member prior to retirement hereunder be not the result of injury or illness incurred in the performance of duty and said member was an employee at the date of death and if Sections 1509.71 and 1509.72 (a) or (b) hereof do not apply, the Retirement System shall be liable for and shall pay in a lump sum a death benefit consisting of the benefits referred to in Section 1509.7 (a) and (b).

Section 1509.8. Cost of Living Index.

The Retirement Board shall, before April 1970, and before April of each year thereafter, determine whether there has been an increase or decrease in the cost of living as provided by this Section. Every retirement allowance, death allowance or allowance payable monthly to or on account of any member who has elected to take the modified system, and who retires or dies or who has retired or died shall be increased or decreased as of July 1 of each year, commencing July 1, 1970, by a percentage of the total allowance then being received found by the Board to approximate the nearest one per cent of the percentage of annual increase or decrease in the cost

of living as of January 1 of that year as shown by the then current Bureau of Labor Statistics Consumers Price Index for the Los Angeles-Long Beach Metropolitan Area.

Section 1509.81. Cost of Living Benefits; Funding of..

For the purpose of paying increased benefits according to Section 1509.8 hereof, the city and members shall, for the 10 consecutive years following the effective date of this Section 1509.81, each contribute to the Retirement Fund an amount equal to 1% of the member's compensation and thereafter, the city and members shall each contribute to said Retirement Fund either an amount equal to 1% of the member's compensation or an amount equal to that percentage of the member's compensation as determined by and based upon an actuarial reserve basis pursuant to the then current actuarial studies at the discretion of the City Board of Directors for such period of time as the said Board of Directors shall determine. The required contributions of members shall be required as a deduction from the compensation of each member.

Section 1509.9. Normal Employee Contributions.

The normal rates of contributions by members to the Retirement System shall be such as will provide an average annuity at age 50 equal to 1/100 of the final compensation of members according to the tables adopted by the Retirement Board and modified from time to time pursuant to this Article, for each year of service rendered after entering the System, and shall be required as a deduction from the compensation of each member throughout the member's membership.

Section 1509.91. Costs of System.

All costs of administering the System shall be charged to the System and not to the city, including administration, investment costs, and actuarial reports.

Section 1509.92. City Contributions.

The total amount, as determined by the actuary and approved by the Retirement Board, of the contributions required during any fiscal year of the city under the Retirement System, shall be paid into the Retirement Fund by the city during such year. Liabilities accruing under the Retirement System because of service rendered to the city prior to July 1, 1935, and because of deaths and disability retirement of members, not met by members' contributions, shall be met by contributions to the Retirement Fund by the city, in addition to any amounts contributed to meet liabilities accruing because of service rendered by persons after becoming members of the System, provided that such prior service liabilities may be met by annual appropriations instead of by one appropriation for the total amount of the liabilities; and provided further, that such appropriation for any one year shall be not less than the total amounts disbursed during that year on account of either or both of (a) prior service, and (b) death and disability benefits not provided by members' contributions.

The increase in liabilities created under the Retirement System, due to the amendment of this Article XV, for service rendered prior to its adoption and subsequent to June 30, 1935, shall be amortized over the period ending June 30, 1999, by annual installments, as determined by the actuary and approved by the Retirement Board.

In addition to other contributions required of the city under the System, the city shall contribute to the Retirement Fund such sums as may be necessary when added to the members' contributions provided for herein, to provide the remaining portion of service retirement allowances, including continuances of such allowances, which is based on service rendered after June 30, 1935. Such sums shall be made in annual installments, and the installment to be paid in any year shall be determined by the application of a percentage to the total members' compensation paid during said year, said percentage to be the ratio of the value at the effective date hereof or at the date of the last valuation prior to said date, or at the later date of a periodical actuarial valuation and investigation into the experience under the System as provided by the Charter and by ordinance, of such allowances thereafter to be paid to or on account of persons who were members from contributions of the city, less the amount of such contributions, with accumulated interest thereon, then held by said System to provide said benefits on account of service rendered by respective members after the date stated in the sentence next preceding, to the value at said respective dates of compensation thereafter payable to said members. Said values shall be determined by the actuary, who shall take into account the interest which shall be earned on said contributions, the compensation experience of members, and the probabilities of separation by all causes, of members from service before retirement and of death after retirement. Said percentage shall be changed by the Board on the basis of said values determined in said periodical actuarial valuation and investigation into the experience under the System. The percentage to be used shall be thirteen and eighty-two hundredths per cent (13.82%) until redetermined by the Retirement Board on the basis of the periodical investigation and actuarial valuation under the System.

Section 1509.93. Periodic Actuarial Investigation.

Periodically, at periods fixed by the legislative body, the Retirement Board shall make an actuarial investigation into the mortality, service and other experience under the System, and, further, shall make an actuarial valuation of the assets and liabilities of the System, and upon the basis of such investigation and valuation as interpreted by the actuary, any necessary revision of the tables and rates being used under the System shall be made by the Retirement Board. No adjustment will be included in members' new rates of contribution resulting from said periodical investigation. Charter or ordinance

amendments, or other cause, for time prior to the effective date of such new rates.

Section 1510. Military Leave of Absence; Contributions and Credits.

Any member on or who has been on military leave of absence from duty may make payments to the Retirement Fund of all or any part of the normal contributions which would have been deducted from the member's compensation had the member been on duty. The legislative body by ordinance shall determine how and when such payment shall be made. All such payments shall be matched by contributions of the city to the Retirement Fund, and such member shall receive credit for such payments and matching contributions of the city, and for the time during which a member is or has been on military leave of absence from duty.

Section 1511. Election to Join Public Employees' Retirement System.

The legislative body of the city shall have the power to authorize any member of the Retirement System to join the Public Employees' Retirement System, provided the membership of the Retirement System has first complied with any election requirements or other conditions prescribed by the Public Employees' Retirement System Act, as now enacted or hereafter amended

Section 1512. Effective Date.

Section 6. The successful bidder for any franchise or renewal of franchise sold or awarded under this charter, shall file a bond running to the City of Visalia, with at least two good and sufficient sureties or other good and sufficient bond provided by law, to be approved by the City Council, in a penal sum to be prescribed by the City Council and set forth in the advertisement for bids, conditioned that such bidder shall well and truly observe, fulfill and perform each and every term, condition and provision of such franchise or renewal of franchise, and that in case of any breach of condition of such bond, the whole amount of the penal sum therein named shall be taken and deemed to be liquidated damages and shall be recoverable from the principal and sureties upon said bond, or from any or either of them. Said bond shall be filed with the City Clerk within five days after such franchise, or renewal of franchise is awarded, and upon the filing and approval of such bond the said franchise or renewal of franchise shall be granted by the City Council by ordinance to the person, firm or corporation to whom it was struck off, sold and awarded. Section 9. If any ordinance granting a franchise or a renewal, extension or amendment of any franchise shall fail to go into effect by reason of its not being approved by a majority of the votes cast at an election to which the same was referred by referendum proceedings as provided in this charter, such failure to go into effect shall not entitle the person to whom the grant of such franchise or renewal, extension or amendment of franchise was made, to claim a refund of any moneys paid or deposited by him as provided in this charter, on account of any of the proceedings had for the obtaining of such grant. But if any such ordinance shall be repealed by the City Council upon the filing of a referendum petition demanding its repeal, or a reference thereof to a vote of the electors of the city, without submitting it to such vote, all moneys paid or deposited by the grantee of such franchise renewal, extension or amendment of franchise as provided in this charter, in excess of the actual expenses of the proceedings for such grant, shall be refunded to such grantee.

Section 10 Any public utility franchise may be terminated by ordinance at specified intervals of not more than ten years after the beginning of operation, whenever the city shall determine to acquire by condemnation or otherwise, the property of such utility. Indeterminate franchise may also be granted, subject always to the right of the city at any time and upon six months' notice in writing to acquire and possess the property of the grantee.

Section 12. The consent of abutting and adjacent property owners shall not be required for the construction, extension, maintenance or operation of any public utility, but any such property owner shall be entitled to recover from the owner of such public utility, the actual amount of damages to such property on account thereof, less any benefits received therefrom; provided, suit is commenced within two years after the damage is begun.

Section 13. All extensions of public utilities within the city limits shall become a part of the aggregate property of the public utility, shall be operated as such, and shall be subject to all the obligations and reserved rights contained in this charter, and in any original grant hereafter made. The right to use and maintain any extension shall terminate with the original grant and shall be terminable as provided in sections 10, 11 and 17 hereof.

Section 14. Every public utility franchise hereafter granted shall be held subject to all the terms and conditions contained in this Article, whether or not such terms are specifically mentioned in such franchise. Section 17. Accounts shall be kept for each public utility owned or operated by the city, distinct from other city accounts and in such manner as to show the true and complete financial results of such city ownership, or ownership and operation, including all assets, liabilities, revenues and expenses. Such accounts shall show the actual cost to the city of each public utility owned, the cost of all extensions, additions and improvements, all expenses of maintenance, the amounts set aside for sinking fund purposes, and in the case of city operation, all operating expenses of every description. The accounts shall show as nearly as possible the value of any service furnished to or rendered by any such public utility by or to any other city or governmental department. The accounts shall also show a proper allowance for depreciation, insurance and interest on the investment, and estimates of the amount of taxes that would be chargeable against the property if privately owned. The City Council shall annually cause to be made and printed for public distribution, a report showing the financial results of such city ownership or ownership and operation, which report shall give the information specified in this section and such other information as the City Council shall deem expedient.

RESOLUTION CHAPTER 200

Assembly Joint Resolution No. 42—Relative to the retention of judge advocates and law specialist officers for the armed forces.

[Filed with Secretary of State June 16, 1969.]

WHEREAS, There was introduced on January 28, 1969, H.R. 4296 by Congressman Alexander Pirnie of New York, designed to amend Title 37, United States Code, to provide for

the procurement and retention of judge advocates and law specialist officers for the armed forces and the measure is now pending before the House Committee on Armed Services; and

WHEREAS, H.R. 4296 is designed to amend Title 37, United States Code, to provide for the procurement and retention of judge advocates and law specialist officers for the armed forces by making provision for special or incentive pay for judge advocates of the Army, Navy, Air Force and Marine Corps and for law specialists of the Coast Guard who extend their periods of service on active duty by the execution of written agreements to remain on active duty for a period of at least three (3) years; and

WHEREAS, At the present time, similar incentive pay is paid by the armed forces to doctors, dentists, and veterinarians; and

WHEREAS, The retention rate of legal officers by the armed services is now dangerously low and the trend to deterioration should be stopped by early action intended to make legal careers with the armed forces more financially acceptable; and

WHEREAS, The Military Justice Act of 1968 has extended to service personnel the right-to-counsel safeguards which the United States Supreme Court in recent years has granted to criminal defendants in the civil courts, and the same law requires the services to provide qualified and experienced lawyers as military judges in trials by special and by general courts-martial and the four services estimate that they will need approximately 700 additional military lawyers in order to meet the requirements of the statute; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the Congress of the United States to enact early appropriate legislation approving the subject matter and the contents of H.R. 4296; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the President and the Vice President of the United States, to the Speaker of the House of Representatives, to each Senator and Representative from California in the Congress of the United States, to the Chairman of the House Committee on Armed Services, to the Chairman of the Senate Committee on Armed Services, to the author of H.R. 4296, to the Secretary of Defense, and to the Executive Secretary, Judge Advocates Association.

RESOLUTION CHAPTER 201

Assembly Joint Resolution No. 44—Relative to the equalization of the compensation of retired members of the uniformed forces.

[Filed with Secretary of State June 16, 1969.]

WHEREAS, Compensation for retirees of the uniformed services of the United States has normally been computed upon active duty rates in accordance with permanent statutory law set out in Title 10 of the United States Code; and

WHEREAS, Persons now retired from the uniformed services, with very few exceptions, entered the service while that law was in effect and served their entire active career, or the greater portion of it, under that system; and

WHEREAS, The Military Pay Act of 1958, P.L. 85-422, temporarily suspended the operation of that law, without removing it from the statutes, thus denying the earned pay raise to retirees then on the rolls; and

WHEREAS, The Uniformed Services Pay Act of 1963, P.L. 88-132, permanently changed Title 10 of the United States Code so as to deny the benefits of that act and of future active duty pay raises to retirees and to substitute therefor a less advantageous system of raises based upon the cost-of-living index; and

WHEREAS, This ex post facto abrogation of the system under which today's retirees served and which they had every valid right to expect to be continued during their retirement, constitutes a clear breach of faith with those retirees; and

WHEREAS, As a result of this unjust and discriminatory action, there are now seven standards of pay for persons who served in the same rank and for the same period of time, with the older retirees drawing as much as 32.5 percent less than their younger colleagues; and

WHEREAS, This discriminatory action has had a very adverse impact not only upon the morale of retirees but also upon those now serving in the active forces and consequently has contributed to a worsening of the problem of retaining professional military personnel in the active forces; and

WHEREAS, The State of California is privileged to be the home of many military retirees who have served their country faithfully and well, only to become the subject of the aforementioned discrimination; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the Congress of the United States to enact appropriate legislation which will remove the existing discrimination against older retirees by equalizing the compensation of all retired members of the uniformed services who have served in the same rank and for an equal period of time; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

RESOLUTION CHAPTER 202

Assembly Joint Resolution No. 45—Relative to soil grants for recreation.

[Filed with Secretary of State June 16, 1969.]

WHEREAS, Congress enacted P.L. 566, 83rd Congress, which provides technical information and financial grants for soil conservation and flood prevention purposes; and

WHEREAS, This law does not include recreation as a major beneficial use in the programs that are funded under its provisions; and

WHEREAS, The increasing population and shortening of the general workweek have placed increasing pressures on existing recreational facilities; and

WHEREAS, To meet this increasing pressure for recreational facilities it is necessary that multiple use be made of all facilities available; and

WHEREAS, Projects developed for soil conservation purposes might be adapted to other uses, such as recreation; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the President and the Congress of the United States to change existing laws regulating grants for soil conservation purposes to include recreation as a major beneficial use; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

WHEREAS, The qualifications of renewal applicants differ greatly, requiring varying amounts of time in examining for renewal; and

WHEREAS, Some may need only a screening check and others a more thorough examination; and

WHEREAS, Much may be accomplished in safety and economy by varying the examination to fit the need; and

WHEREAS, Section 12814 of the Vehicle Code grants to the Department of Motor Vehicles discretion with respect to requiring applicants for the renewal of drivers' licenses to take the examination required for original applications for drivers' licenses; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Director of Motor Vehicles is hereby requested by the Legislature to conduct a pilot study of methods of screening applicants for renewal of licenses by limiting examinations for renewal to the vision tests only in order to test the effect on economy and on driving records of such methods but the subjects of the study shall be limited in number to not more than 1 percent of the California drivers per year; and be it further

Resolved, That the Director of Motor Vehicles is requested to submit a progress report to the Legislature on or before April 1, 1970, and to submit a final report of its findings and recommendations to the Legislature on or before the fifth legislative day of the 1971 Regular Session of the Legislature; and be it further

(1) There is hereby created as a quasi-judicial agency the Office of Zoning Administration. The functions and duties of this office shall be performed by one or more Zoning Adminis-

trators as authorized by the Council, who shall be appointed by the Director of Planning subject to the civil service provisions of this Charter. If more than one Zoning Administrator is authorized, a position of Chief Zoning Administrator shall be established, the appointment to which shall be made by the Director of Planning, and such others shall be Associate Zoning Administrators.

(2) Subject to such rules and regulations as the Council may prescribe by ordinance, the Chief Zoning Administrator and Associate Zoning Administrators shall have the following powers and duties:

(a) To investigate and make a determination upon appeals where it is alleged there is error or abuse of discretion in any order, requirement, decision or determination made by the Department of Building and Safety in the enforcement or administration of the provisions of any ordinance creating zoning districts or regulating the use of property in the city.

(b) To investigate and make a determination upon all applications for variances from any of the regulations and requirements of the zoning ordinances. Before granting an application for a variance a Zoning Administrator must find:

(i) that the strict application of the provisions of of the zoning ordinance would result in practical difficulties or unnecessary hardships inconsistent with the general purpose and intent of the zoning regulations,

(ii) that there are special circumstances applicable to the subject property such as size, shape, topography, location or surroundings that do not apply generally to other property in the same zone and vicinity.

(iii) that such variance is necessary for the preservation and enjoyment of a substantial property right or use generally possessed by other property in the same zone and vicinity but which, because of such special circumstances and practical difficulties or unnecessary hardships is denied to the property in question,

(iv) that the granting of such variance will not be materially detrimental to the public welfare, or injurious to the property or improvements in the same zone or vicinity in which the property is located, and

(v) that the granting of the variance will not adversely affect any element of the General Plan.

In granting a variance a Zoning Administrator shall impose such conditions as will remedy disparity of privileges and which are necessary to protect the public health, safety or welfare and assure compliance with the objectives of the General Plan and the purpose and intent of the zoning ordinance. A variance shall not be used to grant a special privilege, nor to permit a use substantially inconsistent with the limitations upon other properties in the same zone and vicinity, nor to grant relief from self-imposed hardships.

(c) To determine pursuant to procedures and limitations provided in the zoning ordinance, the proper classification of those uses not specifically listed in such ordinance.

(d) Under standards, limitations and procedures established by ordinance, to grant slight modifications in yard and area requirements of the zoning ordinance when circumstances make the literal application of the yard and area requirements impractical.

(3) Determinations by a Zoning Administrator shall be supported by written findings of fact based upon written and oral statements and documents presented to him, including photographs, maps and plans, together with the results of his investigations except that no written findings shall be required for the granting of slight modifications in yard or area requirements.

A Zoning Administrator shall make determinations on any matter under his jurisdiction as expeditiously as possible. The Council shall by ordinance provide time limits within which a Zoning Administrator must act for each type of case under his jurisdiction. If no determination is made by a Zoning Administrator within the prescribed time, the applicant may request that the matter be transferred to the jurisdiction of the Board of Zoning Appeals.

Upon making a determination upon any matter under his jurisdiction a Zoning Administrator shall forthwith place a copy of his findings and determination on file in the Department of City Planning and furnish a copy of the determination to the applicant and to the Department of Building and Safety. Such determination shall be final, except that an appeal may be taken as hereinafter provided. No determination by a Zoning Administrator, other than the granting of a slight modification in yard or area requirements, shall become effective until the expiration of an elapsed period after mailing notice to the applicant, which period shall be specified by ordinance. During this period an appeal from the determination may be taken to the Board of Zoning Appeals. An appeal shall stay all proceedings in furtherance of the action appealed from pending its disposition.

(4) The Office of Zoning Administration may adopt such rules as it may deem necessary to carry out the rules and regulations prescribed by ordinance and which are not in conflict or inconsistent therewith. All such rules and regulations shall be available for inspection in the Office of Zoning Administration.

Sec. 99. Board of Zoning Appeals

(1) There is hereby created as a quasi-judicial body a Board of Zoning Appeals consisting of five members who shall be appointed by the Mayor subject to confirmation of the Council. The terms of the members of said Board shall be five years. One such term shall expire on June 30 of each year. In case of any vacancy, other than one resulting from

the expiration of a term, a successor shall be appointed for the period of the unexpired term. The members of the Board of Zoning Adjustment in office on the effective date of this amendment shall continue in office as members of the Board of Zoning Appeals for their then unexpired terms. Any provision of this Charter applicable to the Board of Zoning Adjustment after the effective date of this amendment shall apply to the Board of Zoning Appeals.

Three members shall constitute a quorum of the Board of Zoning Appeals, and the concurring vote of at least three members shall be necessary in the determination of any matter.

The members of the Board of Zoning Appeals shall receive such compensation as the Council may from time to time fix and determine by ordinance, and they shall be exempt from the civil service provisions of this Charter.

(2) The Board of Zoning Appeals shall have and exercise only the following powers:

(a) To hear and determine appeals where it is alleged there is error or abuse of discretion in any order, requirement, decision, interpretation or other determination made by a Zoning Administrator.

(b) To hear and make determinations on any matter normally under the jurisdiction of a Zoning Administrator when such matter has been transferred to the jurisdiction of the Board pursuant to a request for transfer because a Zoning Administrator has failed to act within the time limits prescribed by ordinance.

(c) To hear and determine such other appeals as may be delegated to it by ordinance.

(3) Appeals from an action by a Zoning Administrator may be taken to the Board of Zoning Appeals by an applicant, any person aggrieved, or by any officer, board, department or bureau of the City. Such appeal shall set forth in writing wherein the appellant believes there was error or abuse of discretion on the part of the Zoning Administrator.

The Board of Zoning Appeals, when considering an appeal from an action by a Zoning Administrator, shall base its determination only upon (a) evidence introduced at the hearing, or hearings, if any, before the Zoning Administrator, on the issue, (b) the record, findings and determination of the Zoning Administrator, and (c) the consideration of arguments, if any, presented to the Board orally or in writing. If an applicant or aggrieved person wishes to offer into the proceedings any new evidence in connection with the matter, a written summary of such evidence together with a statement as to why such evidence could not reasonably have been presented to the Zoning Administrator shall be filed with the Board. If the Board determines that such evidence could not reasonably have been presented to the Zoning Administrator and is of such a nature as might reasonably have led to a different

determination by the Zoning Administrator, the Board shall remand the matter to the Zoning Administrator who shall reopen the matter only for the receipt of evidence summarized to the Board together with evidence from other parties relative thereto and, within such time as shall be prescribed by ordinance, make a new order, requirement, decision, interpretation or other determination in the matter. In considering appeals, the Board of Zoning Appeals shall be subject to the same limitations as are placed upon the Zoning Administrators by this Charter and by ordinance.

The Board may modify or reverse a determination of a Zoning Administrator only upon making written findings setting forth specifically wherein the determination of the Zoning Administrator was in error or constituted an abuse of discretion, and shall make specific written findings supporting any modification or reversal.

A determination by the Board of Zoning Appeals granting or affirming the grant of land use variances shall not become effective until the expiration of such a period of time after mailing notice to the applicant as shall be specified by ordinance. During such period an appeal may be taken to the Council by the applicant, any person aggrieved, the Director of Planning, or by any board ,department or bureau of the City. Such appeal shall set forth in writing wherein the appellant believes there was error or abuse of discretion on the part of the Board of Zoning Appeals. An appeal shall stay all proceedings in furtherance of the action appealed from pending its disposition. The Council, when considering an appeal from an action by the Board of Zoning Appeals, shall be subject to the same limitations as are placed on the Board of Zoning Appeals by this Charter and by ordinance. Action by the Council shall be by majority vote, subject to the approval of the Mayor. The Mayor shall approve or disapprove such action within 10 days of its presentation to him. His approval or disapproval shall be based solely upon the administrative record therein and whether he believes such action to be in compliance with the requirements for the grant of a variance set forth in Section 98 of this Charter. If he disapproves such action, he shall return the matter to the City Clerk for presentation to the Council together with his objections in writing and the Council, within 60 days after the matter has been presented to it, may override such disapproval by a two-thirds vote of the whole Council. If the Mayor fails to return the matter to the City Clerk within such 10 day period, the action of the Council shall become effective.

(4) The Board of Zoning Appeals, upon assuming jurisdiction of a matter after a transfer of jurisdiction from a Zoning Administrator, shall follow the same procedures and be subject to the same limitations as are applicable to a Zoning Administrator. When the Board assumes jurisdiction, the Zoning Administrator shall lose jurisdiction except that the matter

may be remanded to the Zoning Administrator, or the Board may accept applicant's request for withdrawal of such transfer of jurisdiction, in which cases the Zoning Administrator shall regain jurisdiction for the time and purpose specified by the Board. If the Board retains jurisdiction, the Office of Zoning Administration shall make investigations and furnish reports upon such matters as the Board may request. When a matter is requested to be transferred, the Zoning Administrator may file with the Board a statement of facts pertaining to the matter, and shall transmit to the Board the files in the case.

(5) The Council, within the limitations established by this Charter, may prescribe by ordinance rules and regulations providing for the time, manner, method and procedure for the hearing and determining of the matters under the jurisdiction of the Board of Zoning Appeals. The Board may adopt such rules as it may deem necessary to carry out the rules and regulations prescribed by ordinance and which are not in conflict or inconsistent therewith. All such rules and regulations shall be available for inspection in the office of the Board of Zoning Appeals.

Such ordinance may be passed by a ma-

jority vote of the whole Council upon the day following its introduction, or at a later date, or, upon the day of its introduction by unanimous vote, as provided in Section 26.

We further certify that we have compared the text of the foregoing amendments with the original proposals submitting the same to the electors of said city and find that the foregoing are full, true, correct, complete and exact copies thereof, and of each of them. That as to all of said amendments, this certificate shall be taken as a full and complete certification of the regularity of all proceedings had and done in connection therewith.

Senate Joint Resolution No. 19—Relative to federal funds for urban public transit.

WHEREAS, It appears that urban public transit is a necessary adjunct to our highway system in California and throughout the nation, as a means of transporting the large populations of certain metropolitan areas; and

WHEREAS, The urban public transit trust funds should be drawn from a source other than highway trust funds, since in California, and other states, even at present rates of collection and expenditure of trust funds, highway needs will not be met; and

First—That the second and third paragraphs of Section 13 of Article XII are amended to read:

Notwithstanding provisions to the contrary in this section and Section 25 of Article XIII of this Constitution, the Legislature may authorize the investment of moneys of any public pension or retirement fund, not to exceed 25 percent of the assets of such fund determined on the basis of cost in the common stock or shares and not to exceed 5 percent of assets in preferred stock or shares of any corporation provided:

a. Such stock is registered on a national securities exchange, as provided in the "Securities Exchange Act of 1934" as amended, but such registration shall not be required with respect to the following stocks:

1) The common stock of a bank which is a member of the Federal Deposit Insurance Corporation and has capital funds, represented by capital, surplus, and undivided profits, of at least fifty million dollars ($50,000,000);

3) Any preferred stock

b. Such corporation has total assets of at least one hundred million dollars ($100,000,000);

c. Bonds of such corporation, if any are outstanding, qualify for investment under the law governing the investment of the retirement fund, and there are no arrears of dividend payments on its preferred stock;

d. e. Such investment in any one company may not exceed 5 percent of the common stock shares outstanding; and

f. No single common stock investment may exceed 2 percent of the assets of the fund, based on cost.

And be it further resolved, That the Legislature having adopted Assembly Constitutional Amendment No. 31 at its 1969 Regular Session to propose, among other things, an amendment to Article XIII of the State Constitution by adding a Section 30 thereto for the sole purpose of transferring from Article XII to Article XIII, provisions relating to the state's lending its credit and owning stock in corporations, it is the intent of the Legislature, if both Assembly Constitutional Amendment No. 31 and Assembly Constitutional Amendment No. 15, 1969 Regular Session, are approved by the electors, that both shall be given effect regardless of the vote by which they are approved and that their provisions be construed together so as to give effect to both in the following manner:

First—That the second and third paragraphs of Section 30 of Article XIII, as proposed by Assembly Constitutional Amendment No. 31, adopted by the Legislature at the 1969 Regular Session, are amended to read:

Notwithstanding provisions to the contrary in this section and Section 25 of this article, the Legislature may authorize the investment of moneys of any public pension or retirement fund not to exceed 25 percent of the assets of such fund determined on the basis of cost in the common stock or shares

and not to exceed 5 percent of assets in preferred stock or shares of any corporation provided:

a. Such stock is registered on a national securities exchange, as provided in the "Securities Exchange Act of 1934" as amended, but such registration shall not be required with respect to the following stocks:

1) The common stock of a bank which is a member of the Federal Deposit Insurance Corporation and has capital funds, represented by capital, surplus, and undivided profits, of at least fifty million dollars ($50,000,000);

2) The common stock of an insurance company which has capital funds, represented by capital, special surplus funds, and unassigned surplus, of at least fifty million dollars ($50,000,000);

3) Any preferred stock;

b. Such corporation has total assets of at least one hundred million dollars ($100,000,000);

c. Bonds of such corporation, if any are outstanding, qualify for investment under the law governing the investment of the retirement fund, and there are no arrears of dividend payments on its preferred stock;

d. Such corporation has paid a cash dividend on its common stock in at least 8 of the 10 years next preceding the date of investment, and the aggregate net earnings available for dividends on the common stock of such corporation for the whole of such period have been equal to the amount of such dividends paid, and such corporation has paid an earned cash dividend in each of the last 3 years;

e. Such investment in any one company may not exceed 5 percent of the common stock shares outstanding; and

f. No single common stock investment may exceed 2 percent of the assets of the fund, based on cost.

Notwithstanding provisions to the contrary in this section and Section 25 of this article, the Legislature may authorize the investment of moneys of any public pension or retirement fund in stock or shares of a diversified management investment company registered under the "Investment Company Act of 1940" which has total assets of at least fifty million dollars ($50,000,000); provided, however, that the total investment in such stocks and shares, together with stocks and shares of all other corporations may not exceed 25 percent of the assets of such fund determined on the basis of the cost of the stocks or shares.

Second—That the provisions of the second resolved clause of this measure shall become operative only if the amendment to Article XIII of the State Constitution proposed by Assembly Constitutional Amendment No. 31 of the 1969 Regular Session is approved by a majority of the electors, in which case the amendments to the second and third paragraphs of Section 13 of Article XII, as appearing in the first resolved clause of Assembly Constitutional Amendment No. 15, shall not become operative.

That said amendments to the Charter of the City of Palo Alto are as follows:

"Sec. 15. Franchises granted by electors; term. No franchise shall be granted by the council, but may be granted by the electors by ordinances proposed and adopted as provided in Section 2 of Article VI of this charter; provided, that the petition therefor shall be signed by qualified and registered voters equal in number to at least twelve percentum of the number of registered voters at the last preceding general municipal election; and provided further, that no franchise shall be granted for a longer term than twenty-five years."

(b) Section 17 of Article III is amended to read as follows:

"Sec. 17. Salary of councilmen; councilmen barred from other city office. No member of the council shall hold any other office or employment the compensation for which is paid out of the moneys of this City. No member of the council shall be elected or appointed to any city office for which compensation is paid until one year after the termination of his membership in the council, either by resignation or expiration of his term. Compensation may be paid councilmen in amounts not to exceed those provided by general law."

(c) Subsection p. of Section 6 of Article IV is amended to read as follows:

"p. To coordinate the purchasing for all departments of the City. No purchase shall be made without the approval of the city manager and city controller."

(d) Section 2 of Article VI is amended to read as follows:

"Sec. 2. Initiative. Any proposed ordinance may be submitted to the council by a petition signed by qualified and registered electors of the city equal in number to the percentage hereinafter required. The petition shall set forth a copy of the proposed ordinance, and the signatures, verifications, and duties of the clerk in respect to the petition provided in Section 1 of this Article for the recall shall apply to petitions of initiative. Before circulating an initiative petition the proponents shall publish a notice of intention so to do in conformance with the provisions of general law.

"If the petition accompanying the proposed ordinance be signed by qualified and registered electors equal in number to six percentum of the number of registered voters at the last general municipal election the council must either pass such ordinance without alteration or submit the same to the electorate at the next general municipal election that shall occur at any time after thirty days from the date of the clerk's certificate of sufficiency. But if such petition is signed by qualified and registered electors equal in number to twelve percentum of said number of registered voters at the last general municipal election and contains a request that such ordinance be submitted to a vote of the people at a special election, then the council must either pass the ordinance without alteration or submit the same to the electorate at a special election to be called within sixty days from the filing of such petition.

"The ballots used when voting upon such proposed ordinance shall contain the words "For the Ordinance," and "Against the Ordinance" (stating the nature of the proposed ordinance). If a majority of the qualified electors voting on said proposed ordinance shall vote in favor thereof, such ordinance shall thereupon become a valid and binding ordinance of the City. The council may at such election submit any amendment thereto that it may deem proper, and the ballots used at such election shall contain the words "For the Amendment," or "Against the Amendment," or ordinance (naming the ordinance), and also stating the nature of the proposed amendment. If a majority of the qualified electors voting on said proposed amendment shall vote in favor thereof, such ordinance shall thereupon be deemed amended in accordance therewith. The council may also propose and submit any ordinance to the electors, and such ordinance, upon receiving a majority of the votes of the electors voting thereon, shall be deemed to have been adopted and shall be a valid and binding ordinance of the City. Any ordinance adopted by the electors under the provisions of this article cannot be repealed or amended, except by a vote of the people obtained in the manner hereinbefore stated, unless such ordinance shall otherwise provide.

"Any number of proposed ordinances may be voted upon at the same election in accordance with the provisions of this section; provided, that there shall not be held under this section of the charter more than one special election in any period of twelve months."

(e) Section 3 of Article VII is amended to read as follows:

"Sec. 3. Candidates' designation. No ballot used at any municipal election shall contain any reference to a political party, and no designation or symbol shall be placed in connection with the name of any candidate, except that an incumbent shall be so designated. The order of listing of candidates' names on the ballot shall be determined by lot."

(f) Article VIII is amended to read as follows:

"Article VIII. Parks

"All lands owned or controlled by the city which are or will be used for park, playground, recreation or conservation purposes shall be dedicated for such purposes by ordinance.

"No land heretofore or hereafter dedicated for such purposes shall be sold or otherwise disposed of, nor shall its use be abandoned or discontinued except pursuant to majority vote of the electorate. Any election and related procedures under Article VIII shall conform to the provisions set forth in general law as it existed January 1, 1965, except that the council may call such election by majority vote.

"No substantial building, construction, reconstruction or development upon or with respect to any lands so dedicated shall be made except pursuant to ordinance subject to referendum."

(g) Subsection (b) of Section 2 of Article VIII-A is amended to read as follows:

"(b) Time of election. The election and recall of members of the Board of Education shall be held at the times and in the manner provided by the Education Code of the State of California; provided, however, in the year 1951 five members shall be elected and the members so elected shall classify themselves by lot so that the terms of the members shall expire, respectively, one, two, three, four and five years after the first day of July, 1951."

(h) Section 1 of Article IX is amended to read as follows:

"Sec. 1. Compliance with Constitution. This charter may be amended on compliance with the provisions of the Constitution of the State of California."

(i) Section 1 of Article VI is amended to read as follows:

"Sec. 1. Recall. Proceedings may be commenced for recall of any councilman by the service, filing and publication of a notice of intention to circulate a recall petition. Proceedings may not be commenced unless, at the time of commencement, the councilman has held office for at least six months and no recall petition has been filed against him within the preceding six months.

"The petition demanding the recall of the councilman sought to be recalled, signed by registered voters equal in number to at least twelve percentum of the number of registered voters at the last general municipal election, shall be filed with the clerk. One election is sufficient for the recall of one or more councilmen, but a separate petition is necessary to propose the recall of each councilman.

"No signature may be affixed to the petition until the proponents have served, filed and published a notice of intention to circulate a recall petition, containing the name of the councilman sought to be recalled, a statement in not more than five hundred words of the grounds on which the recall is sought, and the name and address of at least one proponent. The notice of intention shall be served, personally or by certified mail,

on the councilman sought to be recalled, and a copy thereof with a certificate of the time and manner of service shall be filed with the clerk.

"Within seven days after the filing of the notice of intention, the councilman sought to be recalled may file with the clerk an answer in not more than five hundred words to the statement of the proponents and, if an answer is filed, shall serve a copy thereof, personally or by certified mail, on one of the proponents named in the notice of intention. The statement and answer are intended solely for the information of the voters and no insufficiency in the form or substance thereof shall affect the validity of the election or proceedings. The notice, statement and answer, if any, shall be published in a newspaper of general circulation.

"Seven days after the publication of the notice, statement and answer, if any, the recall petition may be circulated and signed. The petition shall bear a copy of the notice of intention, statement and answer, if any. If the councilman has not answered, the petition shall so state. Signatures shall be secured and the petition filed within ninety days from the filing of the notice of intention. If such petition is not filed within the time permitted by this section, the same shall be void for all purposes.

"The signatures to the petition need not all be appended to one paper, but said petition may be presented in sections. The number of signatures to each section shall be at the pleasure of the person soliciting signatures to the same. Any qualified voter of the municipality shall be competent to solicit said signatures. Each section shall have attached thereto the affidavit of the person soliciting signatures to the same, stating that all the signatures to the attached section were made in his presence, and that to the best of his knowledge and belief each signature to the section is the genuine signature of the person whose name purports to be thereunto subscribed, and no other affidavit thereto shall be required. Each signature, the genuineness of which is not called in question by the sworn affidavit of the alleged owner thereof, shall be presumed to be genuine. Unless and until it be proven otherwise by official investigation, it shall be presumed that the petition presented contains the signatures of the requisite number of qualified voters. Each signer of said petition shall add to his signature the date of signing and his place of residence, giving the street and number. When filed with the clerk, the petition shall have designated therein the name or number of the respective precinct in which each of the signers resides.

"Within ten days from the date of filing such petition, the clerk shall examine and ascertain from the records of registration whether or not said petition is signed by the requisite number of electors entitled to vote, and if necessary the council shall allow the clerk extra help for that purpose, and the clerk shall attach to said petition his certificate showing the result of said examination. If, by the said certificate, the petition is

shown to be insufficient, it may be amended by additional signatures within ten days from the date of said certificate. The clerk shall, within ten days after such amendment, make like examination of the amended petition, and if his certificate shall show the same to be insufficient, it shall be returned to the person filing the same, without prejudice, however, to the filing of a new petition to the same effect.

"If the petition shall be found to be sufficient, the clerk shall submit the same to the council without delay, and the council shall thereupon order and fix a date for holding the said election, not less than forty days nor more than fifty days from the date of the clerk's certificate to the council that a sufficient petition is filed. Candidates for this election shall file with the city clerk not less than thirty-five days before the election.

"The clerk shall mail to each voter a sample ballot and a separate printed copy of the statement of the proponents and of the answer, if any, of the councilman sought to be recalled. If the recall of more than one councilman is sought, the statement and answer for each shall be printed together and shall be clearly distinguished from those of any other councilman.

"There shall be printed on the recall ballot, as to each councilman whose recall is to be voted on, the question: 'Shall (name of person) be recalled from the office of councilman?' followed by the words 'yes' and 'no'. If a majority of those voting on any question voted in favor of the removal of an incumbent, he shall be deemed removed from office upon the qualification of his successor.

"On the recall ballot, under each question, there shall be printed the names of those persons who have been nominated in the manner provided herein as candidates to succeed the incumbent if he is recalled. No vote cast shall be counted for any candidate for the office unless the voter also voted on the question of the recall of the person sought to be recalled from that office. The name of the person against whom the petition is filed shall not appear on the ballot as a candidate for the office. If the vote recalls the councilman, the candidate who has received the highest number of votes for the office shall be declared elected for the unexpired term of the former incumbent. If the person who received the highest number of votes fails to qualify within ten days after receiving the certificate of election, the office shall become vacant. Said election shall be conducted, returned, and the results thereof declared, in all respects as are all other municipal elections; provided, that if there be any conflict of provisions this charter shall control."

In witness whereof, we have hereunto set our hands and caused the seal of the City of Palo Alto to be affixed hereto this 22 day of May 1969.

by publication in the official newspaper by one or more insertions, the first of which shall be at least ten days before the time for opening bids.

"The City Council may reject any and all bids presented and may readvertise in its discretion.

"The City Council, without advertising for bids, or after rejecting bids, or if no bids are received, may declare and determine that, in its opinion, the work in question may be performed better or more economically by the City with its own employees and after the adoption of a resolution to this effect by at least four affirmative votes, it may proceed to have the said work done in this manner stated without further observance of the provisions of this section. Such contracts likewise may be let without advertising for bids, if such work shall be deemed by the City Council to be of urgent necessity for the preservation of life, health or property, and shall be authorized by motion passed by at least four affirmative votes and containing a declaration of the facts constituting such urgency."

"The Charter of the City of Compton is hereby amended by deleting Section 1412 of said Charter."

"A Board of Education composed of five (5) members;

"A City Clerk;

"A City Treasurer; and

"A City Attorney.

"All of the elective officers, with the exception of the members of the Board of Education, shall serve for a term of four years. The terms of office of the members of the City Council residing in districts two and three, and the terms of office of the Mayor, City Clerk, City Treasurer and City Attorney elected in 1969 shall expire in the year 1973. The terms of office of the present members of the City Council residing in districts one and four shall expire in the year 1971.

"The terms of all elective officers other than members of the Board of Education shall commence on July first following their election and each shall serve until his successor is elected and qualified. Any ties in voting shall be settled by the casting of lots.

"Said districts so revised and fixed shall comprise as nearly as practicable equal numbers of voters as determined by the records of the registration of voters of Los Angeles County on file with the Registrar of Voters of said County and be composed of contiguous and compact territory and bounded by natural boundaries or street lines.

"The ordinance shall provide for districts so that each Councilman then in office will reside within the district bearing the number of the district from which he was elected and district five and district six shall not include the residence of any of the members of the Council except that either such district may include the residence of the Mayor.

"Within thirty days after the effective date of the ordinance establishing six council districts the Council shall, in the manner provided by law, call a special election for the purpose of holding an election for a councilman from district five and a councilman from district six. Following said second election, the City Council shall declare the candidate receiving the highest vote for each or either of said offices elected.

"Such elections, including the nominations, notice, canvass and other proceedings, shall follow as near as may be practicable the procedures for election of councilmen in primary nominating elections and general municipal elections. The Council may provide procedures for such elections by ordinance.

"When the Council has declared a candidate elected for district five and a candidate elected for district six, the provisions for a seven member City Council shall become operative at 12:01 a.m. on the seventh day after such declaration or if candidates are declared elected in the two districts at different times, at 12:01 a.m. on the seventh day after the last such declaration. Such seventh day is herein defined as the operative date.

"The councilman elected in the first instance from district five shall serve a term that shall commence on the operative date and shall end at the same time that the term of the councilman from district one ends The councilman elected in the first instance from district six shall serve a term that shall commence on the operative date and end at the same time as the term of the councilman from district two ends.

"Councilmen thereafter elected from districts five and six shall serve for a term of four years.

"On and after the operative date, the City shall be divided into six districts notwithstanding the provisions of Section 501 of this Charter.

"Notwithstanding the provisions of Section 502 of this Charter, on and after the operative date, the City Council may change the boundaries of the six districts into which the City has been divided by ordinance adopted by at least five affirmative votes whenever, in the opinion of the City Council, such is necessary to better equalize the population among the respective districts.

"On and after the operative date whenever the provisions of this Charter call for three affirmative votes, or the concurrence of three members of the City Council, or otherwise provide for an action to be taken by three members of the City Council, such provision shall be construed to require four affirmative votes, or the concurrence of four members of the City Council, or otherwise provide for an action to be taken by four members of the City Council

"On and after the operative date whenever the provisions of this Charter call for four affirmative votes, or the concurrence of four members of the City Council, or otherwise provide for an action to be taken by four members of the City Council, such provision shall be construed to require six affirmative votes, or the concurrence of six members of the City Council, or otherwise provide for an action to be taken by six members of the City Council

"Notwithstanding the provisions of Section 502 of this Charter, on and after the operative date a person shall be deemed to have been a resident of the City or a district for one year preceding an election if he has resided for a period of one year at a place which is, at the time of the election, within the City or the district."

WHEREAS, The State of California has undertaken the construction of a State Water Resources Development System in order to develop water supplies necessary to meet the growing demands of its rapidly expanding population; and

WHEREAS, The State Water Resources Development System affords the opportunity to provide a wide variety of benefits, including water supply, flood control, hydroelectric power generation, recreation, and fish and wildlife enhancement; and

WHEREAS, The Legislature, in recognition of the vast opportunities this project presented to enhance the state's fish and wildlife resources and to provide statewide recreation benefits, enacted the Davis-Dolwig Act, declaring recreation and fish and wildlife enhancement to be purposes of all state water projects; and

WHEREAS, Significant accomplishments have already been realized as a result of this specific legislative policy declaration; and

WHEREAS, The attainment of the goals sought by the Legislature through the passage of the Davis-Dolwig Act has not always been accomplished without difficulty, inasmuch as the use of land and water for various beneficial purposes is not in all instances compatible; and

WHEREAS, Considerable difficulty has been encountered in formulating an acceptable recreational development program for the Castaic Reservoir, the Pyramid Reservoir, and portions of the California Aqueduct located in Los Angeles County because of such competing uses of land and water; and

WHEREAS, The Castaic Reservoir is a multiple-purpose facility designed to provide a multiplicity of benefits for the people of California; and

WHEREAS, The development of facilities to provide benefits for specific project purposes consistent with the development of facilities for all other beneficial purposes is dependent upon the formulation of a comprehensive plan which sets forth general guidelines for the total development of the project; and

WHEREAS, The formulation of a comprehensive plan for the Castaic Reservoir Complex will require the consideration of a wide variety of interests and is necessary to assure the attainment of the maximum possible benefit afforded by the project; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Department of Water Resources, in cooperation with the Department of Parks and Recreation and the Department of Fish and Game, are directed to formulate a comprehensive plan for the Castaic Reservoir Complex, the Pyramid Reservoir, and portions of the California Aqueduct located in Los Angeles County, and to develop the comprehensive plan for the Castaic Reservoir in full cooperation with the County of Los Angeles and the United States Forest Service; and be it further

Resolved, That the Secretary of the Senate transmit copies of this resolution to the Director of Parks and Recreation, the Director of Water Resources, and the Director of Fish and Game.

RESOLUTION CHAPTER 259

Senate Concurrent Resolution No. 93—Relative to water pollution abatement practices.

[Filed with Secretary of State July 31, 1969.]

WHEREAS, The pollution of water presents an imminent danger to the health of all citizens, and presents a grave threat to the recreation, wildlife, and aesthetic potentials of water use; and

WHEREAS, The pollution of water is contrary to the legal doctrine of beneficial use for water rights allocation; and

WHEREAS, The right to divert and use waters of the state for domestic, industrial, or agricultural purposes does not imply the right to discharge waste water of a quality lower than that of the water diverted; and

WHEREAS, Existing water pollution regulation has proved to be inadequate to effectively control water quality in the public interest; and

WHEREAS, The pollution of water results in enormous public expense for damage repair and pollution abatement caused by the pollution by private water users; and

WHEREAS, That the public is ultimately assessed for the cost of pollution which is caused by private water users is unjustifiable; and

WHEREAS, The precedent and example of the assessment of fees on water users who discharge waste waters which utilize the assimilative capacity of any waters within a given political jurisdiction are provided by the Federal Republic of Germany in the Ruhr Valley; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the State Water Resources Control Board is directed to conduct a contrastive study of water pollution abatement practices as existing in the State of California and in the Federal Republic of Germany; that

such study assess the German fee assessment practice, including the amount of fee rates, the criteria for stream quality upon which the rates are based, and the political and judicial structures which administer the fee assessment; that such study determine the technical applicability of such fee assessment practice to the water pollution situation in the State of California; that such study determine the political feasibility of establishing fee assessment practice, on water users who pollute water, as public policy; and that such study determine reasonable standards, criteria, and specifications upon which a fee assessment practice could be applied for the unique needs of the State of California; and be it further

Resolved, That the State Water Resources Control Board shall report its findings and recommendations thereon, including its recommendations concerning any necessary legislation, to the Legislature not later than the 30th legislative day of the 1970 Regular Session of the Legislature; and be it further

Resolved, That the Secretary of the Senate transmit a copy of this resolution to the State Water Resources Control Board.

Senate Joint Resolution No. 18—Relating to mineral extraction from outer continental shelf lands.

[Filed with Secretary of State July 31, 1969.]

WHEREAS, The State of California has for many years been engaged in the study of coastal marine resources, including mineral resources, to determine the methods whereby such resources may best be utilized and protected; and

WHEREAS, The federal government exercises, by virtue of its sovereignty, jurisdiction over outer continental shelf lands; and

WHEREAS, The United States Department of the Interior has entered into a mineral extraction leasing program with respect to outer continental shelf lands adjacent to the coastal states; and

WHEREAS, This program will have a decided impact upon the coastal environment of the states adjoining the outer continental shelf lands under lease, and the recent oil leakage disaster off the California coast is tragic evidence of the terrible impact such oil and gas operations may have upon the marine and coastal resources of adjacent states; and

WHEREAS, Congress is currently considering legislation affecting the coastal resources of the various states adjoining the outer continental shelf lands and the revenues derived from such lands, which legislation would provide for the augmentation of the Land and Water Conservation Fund; and

WHEREAS, The State of California recognizes the need for increased funding of the Land and Water Conservation Fund, in order to permit the acquisition and development of land and water resources by the various states pursuant to the Land and Water Conservation Fund Act of 1965 (Public Law 88-578; 78 Stat. 897); and

WHEREAS, The disposition of the revenues derived from the outer continental shelf lands should take into consideration the impact which the mineral extraction leasing program will have upon the coastal environment of the coastal states; now, therefore, be it

Resolved by the Senate and Assembly of the State of California, jointly, That the Legislature of the State of California memorializes Congress to recognize the precedent established in the so-called Mineral Lands Leasing Act of 1920 which allocates to the particular state involved 37½ percent of proceeds derived from mineral extraction from federal lands located within such state; and to recognize, further, that the Land and Water Conservation Fund should be augmented with additional moneys (as determined by the Secretary of the Interior), provided that such funds are taken from money in the United States Treasury not otherwise allocated, together with funds specified under subsections (a), (b) and (c) of Section 2 of Title I of the Land and Water Conservation Fund Act of 1965; and be it further

Resolved, That the Legislature of the State of California fully supports any measure which affirms the concept of allocating portions of the funds derived from mineral extraction to the states adjoining outer continental shelf lands for the purpose of serving the national interest; and be it further

Resolved, That the Legislature of the State of California recognizes the need for Congress to provide subsidence and oil seepage disaster protection for the states located adjacent to the outer continental shelf lands; and be it further

Resolved, That the Legislature of the State of California memorializes Congress to enact legislation creating a commission composed of both federal and state technical personnel to establish drilling and safety practices for the development of the oil resources of the outer continental shelf; and be it further

Resolved, That the Secretary of the Senate transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, to the Secretary of the Interior, and to each Senator and Representative from California in the Congress of the United States.

Senate Joint Resolution No. 24—Relative to high-speed rail passenger service.

[Filed with Secretary of State July 31, 1969.]

WHEREAS, There is an imperative need for such a high-speed rail passenger service in the San Francisco Bay area metropolitan complex, in the Los Angeles metropolitan complex, and in the San Diego metropolitan complex and for the future linking of these three heavily populated metropolitan areas by a high-speed rail passenger service; now, therefore, be it

Resolved by the Senate and Assembly of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the President and the Congress of the United States to expand the so-called "Pell Plan" to include provisions for the establishment and operation of high-speed rail passenger service in the San Francisco Bay area metropolitan complex, in the Los Angeles metropolitan complex, and in the San Diego metropolitan complex and provisions for the future linking of these three heavily populated metropolitan areas by a high-speed rail passenger service; and be it further

Resolved, That the Secretary of the Senate transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

WHEREAS, Such projects include not only reservoir flood control storage projects but also channel improvements and channel rectifications; and

WHEREAS, Under the Federal Water Project Recreation Act approved July 9, 1965 (79 Stat. 213), recreation planning is

included in the planning of federal reservoir projects, including those that provide flood control storage; and

WHEREAS, Flood control projects involving levees and channel improvements and rectifications, such as the one presently being designed for the Napa River in California, present opportunities for recreation development and beautification associated with the channel improvements; and

WHEREAS, Recreational uses, such as walkways, pathways, access points, view areas, and areas for boating, fishing, swimming, and other outdoor activities, but not excluding other recreational activities, should be considered in planning channel improvement projects as well as reservoir projects; and

WHEREAS, There exists a great demand for water-associated recreational development; now, therefore, be it

Resolved by the Senate and Assembly of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the President and the Congress of the United States, and the U.S. Army Corps of Engineers to include recreation and beautification in planning channel improvement and channel rectification projects, and that provisions for recreation be included as part of the project plans; and be it further

Third—That former Paragraph 3 of Section 1 of Article X is added to Article XX as Section 24, to read:

SEC. 24. The labor of convicts shall not be let out by contract to any person, copartnership, company or corporation, and the Legislature shall, by law, provide for the working of convicts for the benefit of the State.

And be it further resolved, That Assembly Constitutional Amendment No. 30 of the 1969 Regular Session shall not be submitted to the people unless Assembly Bill 1095 of the 1969 Regular Session is enacted by the Legislature and deposited in the office of the Secretary of State.

RESOLUTION CHAPTER 264

First—That Article XII is repealed.

Second—That Article XII is added, to read:

ARTICLE XII

PUBLIC UTILITIES

SEC. 1. The Public Utilities Commission consists of 5 members, or more if prescribed by statute, appointed by the Governor and approved by the Senate, a majority of the membership concurring, for staggered 6-year terms. A vacancy is filled for the remainder of the term. The Legislature may remove a member for incompetence, neglect of duty, or corruption, two thirds of the membership of each house concurring.

SEC. 2. Private corporations and persons that own, operate, control, or manage a line, plant or system for the transportation of people or property, the transmission of messages, or the furnishing of heat, light, water, power, storage or wharf-

age, directly or indirectly to or for the public, and common carriers, are public utilities subject to control by the Legislature. The Legislature may prescribe that additional classes of private corporations or persons are public utilities.

SEC. 3. The Commission shall have such jurisdiction and such legislative, executive, and judicial powers as are conferred upon it by the Legislature, which are cognate and germane to the regulation of public utilities. The manner and scope of review of Commission action in a court of record shall be provided by statute.

A city, county, or other public body may not regulate matters over which the Legislature grants regulatory power to the Commission. This section does not affect power over public utilities relating to the making and enforcement of police, sanitary, and other regulations concerning municipal affairs pursuant to a city charter existing on October 10, 1911, unless that power has been revoked by the city's electors, or the right of any city to grant franchises for public utilities or other businesses on terms, conditions, and in the manner prescribed by law.

SEC. 4. The Legislature may provide that on request of condemnor and condemnee the Commission fix just compensation for public utility property taken by eminent domain.

Third—That former Section 13 of Article XII is added to Article XIII as Section 30, to read:

SEC. 30. The state shall not in any manner loan its credit, nor shall it subscribe to, or be interested in the stock of any company, association, or corporation, except that the state and each political subdivision, district, municipality, and public agency thereof is hereby authorized to acquire and hold shares of the capital stock of any mutual water company or corporation when such stock is so acquired or held for the purpose of furnishing a supply of water for public, municipal or governmental purposes; and such holding of such stock shall entitle such holder thereof to all of the rights, powers and privileges, and shall subject such holder to the obligations and liabilities conferred or imposed by law upon other holders of stock in the mutual water company or corporation in which such stock is so held.

Notwithstanding provisions to the contrary in this section and Section 25 of this article, the Legislature may authorize the investment of moneys of any public pension or retirement fund other than the fund provided for in Section 13901 of the Education Code, or any successor thereto, not to exceed 25 percent of the assets of such fund determined on the basis of cost in the common stock or shares and not to exceed 5 percent of assets in preferred stock or shares of any corporation provided:

a. Such stock is registered on a national securities exchange, as provided in the "Securities Exchange Act of 1934" as

amended, but such registration shall not be required with respect to the following stocks:

1) The common stock of a bank which is a member of the Federal Deposit Insurance Corporation and has capital funds, represented by capital, surplus, and undivided profits, of at least fifty million dollars ($50,000,000);

2) The common stock of an insurance company which has capital funds, represented by capital, special surplus funds, and unassigned surplus, of at least fifty million dollars ($50,000,000);

3) Any preferred stock;

b. Such corporation has total assets of at least one hundred million dollars ($100,000,000);

c. Bonds of such corporation, if any are outstanding, qualify for investment under the law governing the investment of the retirement fund, and there are no arrears of dividend payments on its preferred stock;

d. Such corporation has paid a cash dividend on its common stock in at least 8 of the 10 years next preceding the date of investment, and the aggregate net earnings available for dividends on the common stock of such corporation for the whole of such period have been equal to the amount of such dividends paid, and such corporation has paid an earned cash dividend in each of the last 3 years;

e. Such investment in any one company may not exceed 5 percent of the common stock shares outstanding; and

f. No single common stock investment may exceed 2 percent of the assets of the fund, based on cost.

Notwithstanding provisions to the contrary in this section and Section 25 of this article, the Legislature may authorize the investment of moneys of any public pension or retirement fund other than the fund provided for in Section 13901 of the Education Code, or any successor thereto, in stock or shares of a diversified management investment company registered under the "Investment Company Act of 1940" which has total assets of at least fifty million dollars ($50,000,000); provided, however, that the total investment in such stocks and shares, together with stocks and shares of all other corporations may not exceed 25 percent of the assets of such fund determined on the basis of the cost of the stocks or shares.

Fourth—That Section 1 of Article XIV is amended to read:

SEC. 1. The use of all water now appropriated, or that may hereafter be appropriated, for sale, rental, or distribution, is hereby declared to be a public use, and subject to the regulation and control of the State, in the manner to be prescribed by law.

Fifth—That Section 23 is added to Article XX, to read:

SEC. 23. Laws concerning corporations may be amended or repealed.

And be it further resolved, That Assembly Constitutional Amendment No. 31 of the 1969 Regular Session shall not be

submitted to the people unless Assembly Bill 1096 of the 1969 Regular Session is enacted by the Legislature and deposited in the office of the Secretary of State.

RESOLUTION CHAPTER 265

Senate Joint Resolution No. 28—Relative to oil pollution.

[Filed with Secretary of State August 1, 1969.]

WHEREAS, It is the desire of the people of California to protect the ocean waters, coastline, and marine resources of this state from pollution by oil; and

WHEREAS, One major source of pollution to the coastal environment is caused by oil washing ashore from tankers that surreptitiously clean their tanks near our shores; and

WHEREAS, This oil causes great harm to the marine and coastal biology and wildlife resources, despoils beaches and coastline, impairs valuable recreational uses, costs taxpayers thousands of dollars to remove, and results in considerable economic loss to shoreline communities; and

WHEREAS, The United States is a contracting nation to the International Convention for the Prevention of Pollution of the Seas by Oil, thereby establishing a zone extending 50 miles off our coast in which registered vessels of all contracting nations are prohibited from discharging oil; and

WHEREAS, If such an oil discharge takes place outside of the territorial waters of the United States, although within the protective zone, the United States does not have authority under the treaty to punish any vessel of any contracting nation other than its own; and

WHEREAS, Oil imports have risen over 100 million tons in the past 20 years and American flag vessels carry only 5 percent of the oil imports into the United States; and

WHEREAS, The United States tanker fleet is governed by substantially adequate domestic laws and most American vessels are operating under a voluntary "clean seas" policy which prohibits the discharge of persistent oils into any part of any ocean; and

WHEREAS, As long as foreign vessels are preeminent in the oil import trade, the domestic law of the United States is inadequate to deal with the discharge of oil in connection with tanker operations and protection must be sought through international channels; and

WHEREAS, The United States has set the international community a good example with respect to the control of oil discharges from tankers and demonstrated a need for a worldwide "clean seas" policy; now, therefore, be it

Resolved by the Senate and Assembly of the State of California, jointly, That the Legislature of the State of California

respectfully memorializes the President and the Congress of the United States to take immediate steps to commence negotiations with other countries toward the formulation of international conventions to extend controls over the discharge of oil and other hazardous substances into international waters beyond the zones presently proscribed, to establish international policies for "clean waters" on the high seas, and to provide adequate deterrent to violators; and be it further

Resolved, That the Secretary of the Senate transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

RESOLUTION CHAPTER 266

Senate Concurrent Resolution No. 95—Relative to a study of the property tax exemption for homes for the aged.

[Filed with Secretary of State August 2, 1969]

WHEREAS, Homes for the needy aged were granted property tax exemption under the constitutional provision allowing relief to religious, hospital, and charitable organizations; and

WHEREAS, Homes for the needy aged relieve government of a responsibility to provide care and expensive housing facilities for certain persons who cannot care for themselves; and

WHEREAS, The contended exemption also has been extended to retirement homes and apartments which are not designed to serve the needy; and

WHEREAS, Persons of means living in such facilities can escape local property taxes while less affluent senior citizens living in their own homes must continue to pay property taxes; and

WHEREAS, The number of these new retirement homes is increasing rapidly, mainly in urban centers and in a number of smaller communities; and

WHEREAS, These new retirement facilities have removed $58 million of assessed value from the tax rolls of local governments while adding additional service needs for these local governments; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Joint Legislative Budget Committee is hereby requested to review the law under which this exemption is now granted to all homes for the aged regardless of whether they serve needy or affluent members; and be it further

Resolved, That the Joint Legislative Budget Committee shall examine:

(1) Which portion of the cost of these homes is devoted to welfare-type activities as distinct from residential care; and

(2) What are the equity considerations in granting property tax exemptions for the residential portion of these facilities; and be it further

Resolved, That the Joint Legislative Budget Committee is directed to report its findings and recommendations to the Legislature by the 30th calendar day of the 1970 Regular Session of the Legislature; and be it further

Resolved, That this study shall not be interpreted or used in any way to forestall cities from imposing a business license tax or any other tax on life-care homes which are exempt from property taxation.

RESOLUTION CHAPTER 267

Senate Concurrent Resolution No. 123—Relative to Senate Bill No. 2 of the 1969 Regular Session of the Legislature.

[Filed with Secretary of State August 2, 1969.]

WHEREAS, At its 1969 Regular Session, the Legislature enacted Senate Bill No. 2 as Chapter 24 of the Statutes to provide for financing the completion of the rapid transit system of the San Francisco Bay Area Rapid Transit District in the principal amount of $150,000,000, plus various costs and interest payments, by means of a district transactions and use tax at the rate of one-half of 1 percent; and

WHEREAS, In enacting Senate Bill No. 2, it is the intent of the Legislature that the taxpayers in the San Francisco Bay Area Rapid Transit District shall be required to pay no more than the actual amount necessary to finance the completion of the rapid transit system; and

WHEREAS, The Legislature so provided for the protection of the taxpayers in Senate Bill No. 2, wherein it adds Section 29140.5 to the Public Utilities Code to provide that, "if other methods of financing shall hereafter be approved as a result of other legislation hereafter enacted, then to the extent of any funds received by the district under such other method of financing, after deducting expenses of collection, the amount of revenues from transactions and use taxes pursuant to this article authorized under Section 29142 shall be reduced in order that such taxes shall earlier terminate"; and

WHEREAS, The purpose of the above provision is to protect the taxpayers in the San Francisco Bay Area Rapid Transit District by providing for a termination of the district's transactions and use tax at the earliest possible date, and it is immaterial whether legislation hereafter enacted is by the Legislature of the State of California or the Congress of the United States, so long as other methods of financing are made available to the district to complete its transit system, if such financing may be used for the purposes of reducing the principal amount of $150,000,000 and is not earmarked for some

specified purpose, such as the acquisition of rolling stock; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Legislature, by adding Section 29140.5 to the Public Utilities Code at its 1969 Regular Session, intends that such section shall apply to both state and federal legislation hereafter enacted, unless such legislation earmarks the grant for specified purposes; and be it further

Resolved, That the Secretary of the Senate transmit a copy of this resolution to the Board of Directors of the San Francisco Bay Area Rapid Transit District.

WHEREAS, PAL today fields over 70 baseball teams, 41 soccer teams, nine football teams, and 35 basketball teams, and operates programs in track and field, boxing, judo, and swimming, reflecting PAL's greater and greater emphasis upon summer activities so that during this traditionally idle time youngsters can participate in healthful sporting activities providing at the same time recreation and experience in sportsmanship and fair play; and

WHEREAS, The newly formed law enforcement division provides high school age students an inside view of law enforcement with instruction in all phases of police work, including investigations, patrol work, and trials, and includes tours of various state law enforcement agencies and many kinds of on-the-scene instruction; and

WHEREAS, The PAL program represents a significant and highly commendable effort to provide thousands of youngsters an opportunity not otherwise available to participate in organized sporting events, and is a positive and constructive approach to the problems of juvenile delinquency through its involvement with the young; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the members congratulate the San Franciso Police Athletic League on the occasion of its 10th anniversary, and commend the organization for its interest in and positive programs on behalf of the city's youth; and be it further

[Filed with Secretary of State August 8, 1969.]

WHEREAS, It has long been the policy of the state and counties of California to provide public assistance for needy citizens on a more adequate level than most states; and

WHEREAS, The Legislature finds that the absence of uniform and equitable standards of aid to the needy among the several states is a factor contributing significantly to the rising number of public assistance recipients in California who have recently migrated from other states; and

WHEREAS, Recent changes in federal welfare laws and regulations have shifted a greater financial burden to the state and counties of California and thus reduced the federal share of welfare costs; and

WHEREAS, Recent court decisions and increased caseload growth have combined to greatly increase state and county welfare costs so that the situation is approaching crisis proportions; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the President and Congress of the United States to establish uniform and equitable standards of aid on a nationwide basis in order to permit needy persons to be more adequately aided in their native states and thus reduce the impetus to migration because of unmet need; and be it further

Resolved, That pending the establishment of equitable standards of aid on a nationwide basis, the federal government finance public assistance payments made to recipients who do not meet the length of residence requirements that were operative in California and other states before being declared void by federal courts, and that such federal financing continue in each case until the length of residency requirements that were in existence have been met by each recipient; and be it further

Resolved, That the apparent policy of the federal government to shift an ever greater proportion of the cost of welfare to the states be reversed in view of the greater elasticity of federal tax bases and resources over those available to state and local governments; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

WHEREAS, The federal government currently funds 17.9 percent of the academy's budget which is a decrease of 8.3 percent since 1959–60; and

Assembly Joint Resolution No. 59—Relative to federal-aid primary highway funds.

[Filed with Secretary of State August 8, 1969.]

WHEREAS, The federal-aid primary highway system in California includes some of the nation's best known routes, such as Route 101 on the California coast, Route 50 from Sacramento to Lake Tahoe, and Route 1, the Pacific Coast Highway, from Ventura to San Clemente; and

WHEREAS, The geographical expanse of California lends itself to use of the motor vehicle as the primary means of meeting the transportation needs of the people of this state; and

WHEREAS, The Redwood National Park and Point Reyes National Park have recently been established within the state and these parks will generate additional traffic on federal-aid primary system as well as our state highways in areas of the state where such systems are already seriously inadequate to service present traffic demands; and

WHEREAS, The improvement of a large portion of the mileage on this system which is needed now cannot be budgeted because of the lack of funds; and

WHEREAS, Federal gasoline taxes collected are approximately 20 percent greater than the road funds returned to California from the federal government; and

WHEREAS, Substantial deficiencies in federal, state and local highways and roads in California would seem to indicate a greater portion of federal funds should be returned to California to help meet its highway needs; and

WHEREAS, The method for distributing federal funds to the states for use on the primary system was first developed in 1916 and is based upon one-third population, one-third area, and one-third post road mileage; and

WHEREAS, The California Department of Public Works is now undertaking a federally mandated functional classification study of all streets and highways in the state; and

WHEREAS, Such functional classification study may substantially affect the distribution of federal funds throughout the state; and

WHEREAS, Additional factors, such as miles of roadway, number of fatal and injury accidents, vehicle miles traveled, and motor vehicle registrations should be considered in distributing funds; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the President and the Congress of the United States to enact legislation to provide for the distribution of federal-aid primary highway funds on a more currently realistic basis than the outdated formula now used; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, the Secretary of the Department of Transportation, the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

RESOLUTION CHAPTER 289

Assembly Joint Resolution No. 47—Relative to the federal food-stamp and commodity distribution programs in California.

[Filed with Secretary of State August 8, 1969.]

WHEREAS, The Congress has created food-stamp and commodity distribution programs, which have been implemented by legislative action in California; and

WHEREAS, These programs were designed by Congress to provide surplus food to the hungry and needy "to the maximum extent practicable"; and

WHEREAS, On December 30, 1968, a federal court in San Francisco ordered the United States Secretary of Agriculture to immediately implement one or both of these food supplement programs in every California county, but thus far the secretary has taken no action to implement the programs in counties of California which presently do not operate them; and

WHEREAS, The federal court also found that there is substantial hunger in each California county without a food supplement program, and that sufficient federal funds are available to implement the programs; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of the State of California respectfully requests the President and Congress of the United States to transfer the administration of the federal food-stamp and commodity distribution programs from the United States Department of Agriculture to the United States Department of Health, Education, and Welfare, where their implementation may receive a more favorable response; and be it further

Resolved, That the President and the Congress of the United States are urged to investigate the reluctance of the United States Department of Agriculture to implement these programs in California pursuant to federal court order to determine if congressional intent has not been observed; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, to the Secretary of Agriculture, to the Secretary of Health, Education, and Welfare, and to each Senator and Representative from California in the Congress of the United States.

[Filed with Secretary of State August 8, 1969]

Resolved by the Senate of the State of California, the Assembly thereof concurring, As follows:

1. The Joint Committee on Reorganization of Large Urban Unified School Districts is hereby created and authorized and

directed to ascertain, study and analyze all facts relating to the Los Angeles City School District and the advisability, from a governmental and educational standpoint, of dividing the district into smaller units or of any other suitable solution, including an analysis of the most practical methods and forms of reorganization which would accomplish such a solution. The committee shall also ascertain, study and analyze the whole need of the Los Angeles City School District and the complex problems facing the district as a result of the concentration of minority groups, the heavy centralization of poverty in the core area of the city, and the large size of the district. The committee shall also study and analyze, including, but not limited to, the operation, effect, administration, enforcement and needed revision of any and all laws in any way bearing upon or relating to the subject of this resolution, and to report thereon to the Legislature, including in the report its recommendations for appropriate legislation.

2. The committee shall consist of five Members of the Senate, appointed by the Committee on Rules thereof, and five Members of the Assembly, appointed by the Speaker thereof. Vacancies occurring in the membership of the committee shall be filled by the appointing power.

3. The committee is authorized to act during this session of the Legislature, including any recess, and after final adjournment until the commencement of the 1970 Regular Session, with authority to file its final report not later than June 30, 1970.

4. The committee and each subcommittee thereof is authorized to leave the State of California in the performance of its duties.

5. The committee and its members shall have and exercise all of the rights, duties and powers conferred upon investigating committees and their members by the provisions of the Joint Rules of the Senate and Assembly as they are adopted and amended from time to time at this session, which provisions are incorporated herein and made applicable to this committee and its members.

6. The committee has the following additional powers and duties:

(a) To select a chairman and a vice chairman from its membership.

(b) To contract with such other agencies, public or private, as it deems necessary for the rendition and affording of such services, facilities, studies and reports to the committee as will best assist it to carry out the purposes for which it is created.

(c) To cooperate with and secure the cooperation of county, city, city and county, and other local law enforcement agencies in investigating any matter within the scope of this resolution and to direct the sheriff of any county to serve subpoenas, orders and other process issued by the committee.

(d) To report its findings and recommendations to the Legislature and to the people from time to time and at any time, not later than herein provided.

(e) To do any and all other things necessary or convenient to enable it fully and adequately to exercise its powers, perform its duties, and accomplish the objects and purposes of this resolution.

7. The sum of eighty thousand dollars ($80,000) or so much thereof as may be necessary is hereby made available from the Contingent Funds of the Assembly and Senate for the expenses of the committee and its members and for any charges, expenses or claims it may incur under this resolution, to be paid from the said fund and disbursed, after certification by the chairman of the committee, upon warrants drawn by the State Controller upon the State Treasurer.

RESOLUTION CHAPTER 291

Senate Concurrent Resolution No. 67—Relative to state highways.

[Filed with Secretary of State August 8, 1969.]

WHEREAS, The state highways of California are of extreme importance to the growth of the state and the welfare of its citizens; and

WHEREAS, The emphasis of the Department of Public Works in recent years has been upon the completion of the California portions of interstate highways; and

WHEREAS, State highways not included in the interstate highway system have been given a low priority, resulting in inadequate expansion and development of these highways; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the members urge the Department of Public Works and the California Highway Commission to raise the priority level of construction of state highways which are not a part of the interstate highway system and to raise the financial expenditure on the improvement of these highways; and be it further

Resolved, That the Secretary of the Senate transmit copies of this resolution to the California Highway Commission and to the Department of Public Works.

RESOLUTION CHAPTER 292

Senate Concurrent Resolution No. 72—Relative to urging the Department of Mental Hygiene to apply the methods of the Geriatric Screening Project of San Francisco.

[Filed with Secretary of State August 8, 1969.]

WHEREAS, Because of the spectacular results of the Geriatric Screening Project, initiated and funded by the 1963 Legislature, the City and County of San Francisco have made the project a permanent part of their program; and

WHEREAS, The high rate of "inappropriate commitments" among our aged population has for many years harmed those so committed, overburdened the state facilities, and reduced the care available to those most in need; and

WHEREAS, The small staff of highly trained persons from the Department of Mental Hygiene, working in cooperation with San Francisco Community Health Services, placed the emphasis on screening patients in their home surroundings prior to admission to county facilities; and

WHEREAS, Their efforts resulted in a drop in county admissions from 661 to 262 per year by 1967, and a staggering cut in state commitments from 306 in 1964 to 3 in 1967; and

WHEREAS, Out of a total of 1,290 persons screened during 1965, 1966, and 1967, the team found it possible to continue the care of 45 percent of these people in the security and comfort of their own homes by the use of some supportive services; and

WHEREAS, Out of the entire number screened during this period, 51 percent were placed in nursing homes, boarding homes, county and private medical hospitals, leaving an almost unbelievable 4 percent for commitment to state hospitals; and

WHEREAS, The project was honored in 1966 by the APA Hospital and Community Psychiatry Service Achievement Award; and

WHEREAS, The wide application of methods developed by this project will result in great benefits to the individual geriatric patients and will mean better and more concentrated care for a smaller number of patients in state institutions, with substantial savings to the state; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Department of Mental Hygiene be urged to institute a statewide county-by-county program to persuade the several counties to adopt methods developed by the geriatric team; and be it further

Resolved, That the department be requested to submit a program report to the Legislature by the 30th day of the 1970 session; and be it further

Resolved, That the Secretary of the Senate transmit copies of this resolution to the Department of Mental Hygiene and to the board of supervisors of each county.

RESOLUTION CHAPTER 293

Senate Concurrent Resolution No. 87—Relating to the establishment of a school of veterinary medicine in southern California.

[Filed with Secretary of State August 8, 1969.]

WHEREAS, The 1965 Legislature adopted Assembly Concurrent Resolution No. 85 (Stats. 1965, Res. Ch. 151), calling upon the Board of Regents of the University of California to conduct an in-depth study of the feasibility and advisability of establishing a second school of veterinary medicine to be located in southern California in the near future; and

WHEREAS, The regents thereafter instructed its staff to conduct such a study, and a report was rendered by a special academic committee appointed by the president of the university in May of 1966, but has not yet been made public; and

WHEREAS, That report asserted that the establishment of such a school in the southern part of the state was feasible and would fulfill the pressing need for training an increased number of doctors of veterinary medicine in southern California; and

WHEREAS, This report has been held in confidence by university officials because of their concern that initiation of a school of veterinary medicine in southern California at this time would interfere with the orderly development of other university medical schools, but there is no evidence to support this fear nor is there any justifiable connection or overlap between the two types of institutions; and

WHEREAS, The 1968 Legislature adopted Senate Concurrent Resolution No. 66 (Stats. 1968, Res. Ch. 187) urging the Board of Regents of the University of California to make public this special report and to accelerate planning and budgeting for a southern school of veterinary medicine; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Board of Regents of the University of California is urged to make public the special report prepared in response to ACR 85 of the 1965 Regular Session of the Legislature; and be it further

Resolved, That the Legislature strongly urges the board of regents to accelerate planning and budgeting for a southern California school of veterinary medicine, and to include initial funds therefor in its 1970–71 budget proposals which will be submitted to the Governor late this year; and be it further

Resolved, That the Secretary of the Senate transmit a copy of this resolution to each member of the Board of Regents of the University of California.

RESOLUTION CHAPTER 294

Senate Concurrent Resolution No. 119—Relative to the Miller-Unruh Basic Reading Act of 1965.

[Filed with Secretary of State August 8, 1969]

WHEREAS, Sixteen million dollars ($16,000,000) was appropriated for the Miller-Unruh Basic Reading Act of 1965 for the 1968–1969 fiscal year; and

WHEREAS, The inability of applicant school districts to employ the total number of specialist teachers in reading approved for funding by the Department of Education has resulted in the allocation of less than the full appropriation; and

WHEREAS, Sufficient funds remain to provide for the employment on an annual basis of 77 additional specialist teachers in reading; and

WHEREAS, Other school districts would have become eligible for funds for specialist teachers in reading had the inability of approved applicant districts to employ the approved number of teachers been known at the time applications were being approved for funding; and

WHEREAS, Eligibility in the 1968–1969 fiscal year would have placed such districts in a first priority position for the 1969–1970 fiscal year as participating districts under the provisions of Section 5792 of the Education Code; and

WHEREAS, First priority position for the 1969–1970 fiscal year is being denied these districts through unforeseen factors over which the school district or the Department of Education had no control; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the members request the Department of Education to include as participating districts under the provisions of Section 5792 of the Education Code for the 1969–1970 fiscal year, those districts which would have received allocations for specialist teachers in reading had the full appropriation of sixteen million dollars ($16,000,000) been allocated for the 1968–1969 fiscal year; and be it further

Resolved, That the Secretary of the Senate transmit a copy of this resolution to the Superintendent of Public Instruction.

RESOLUTION CHAPTER 295

[Filed with Secretary of State August 8, 1969.]

WHEREAS, The retention of experienced teachers is one of the most important means of maintaining the excellent quality of the educational system in California; and

WHEREAS, The Temple City Differentiated Staffing Program is a dynamic project that encourages teachers to stay in teaching; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the members request the Department of Education to evaluate the Temple City Differentiated Staffing Program for the purpose of determining feasibility of its application in other school districts and to determine the advisability of state expenditure for the establishment of other Temple City programs in these school districts; and be it further

Resolved, That the Secretary of the Senate transmit a copy of this resolution to the Department of Education.

RESOLUTION CHAPTER 296

Senate Concurrent Resolution No. 148—Relative to private schools.

[Filed with Secretary of State August 8, 1969.]

WHEREAS, There are presently more than one thousand privately owned and operated schools, colleges, universities and other institutions of higher education and post-high-school education in the State of California; and

WHEREAS, Division 21 (commencing with Section 29001) of the Education Code of the State of California governs the operation of such diverse institutions as universities offering the full spectrum of higher education and programs through doctorate degrees, as well as proprietary schools and institutes offering limited special courses and programs in technical, occupational, vocational, and paraprofessional training; and

WHEREAS, It is the intent and policy of the Legislature to encourage improvement and innovation in all areas of public and private educational endeavor, and at the same time to protect the integrity of degrees offered by all institutions of higher education in the state, public as well as private; and

WHEREAS, The findings of a study of Division 21 of the Education Code conducted pursuant to Senate Resolution 239 of the 1968 Regular Session by the staff of the Senate Committee on Education indicate that improvement in the functioning of Division 21 is desirable and may be achieved by revising the division; and

WHEREAS, One of the functions of the Coordinating Council for Higher Education is to provide advice regarding the development of plans and revisions of existing procedures regarding higher education in the state; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Coordinating Council for Higher Education, with the cooperation of the State Depart-

ment of Education and the State Superintendent of Public Instruction, is directed (1) to conduct a study on the implications contained in Senate Bill 1244 of the 1969 Regular Session regarding the revision of Division 21 of the Education Code, (2) to develop alternate methods to those currently provided in paragraph (3) of subdivision (a) of Section 29007 of the Education Code for the establishment of new private institutions of higher education and for the development of additional courses of study and academic programs at such institutions, and (3) to review the overall operation of Division 21 as it currently functions within the state; and be it further

Resolved, That the Coordinating Council for Higher Education report to the Legislature on or before the fifth legislative day of the 1970 Regular Session as to its findings and recommendations; and be it further

Resolved, That the Secretary of the Senate transmit copies of this resolution to the Coordinating Council for Higher Education, the State Board of Education, and the State Superintendent of Public Instruction.

RESOLUTION CHAPTER 297

Senate Concurrent Resolution No. 151—Relative to Sacramento-San Joaquin Delta levees.

[Filed with Secretary of State August 8, 1969]

WHEREAS, The Sacramento-San Joaquin Delta, as defined in Section 12220 of the Water Code, has been subjected to long periods of high flow during the first half of the 1969 calendar year; and

WHEREAS, Much of the delta consists of lands below sea level protected by a vast network of levee systems; and

WHEREAS, A number of delta levees failed during the early part of 1969, and others were threatened and seriously weakened by such high flows and high tides; and

WHEREAS, Many of the levees have been constructed by local reclamation districts and a few have been constructed and maintained by state and federal agencies as project levees, and some areas are protected by both locally constructed and project levees, necessitating high standards of maintenance on locally constructed levees to insure the functioning of the project levees; and

WHEREAS, The failure of any of such levees results in severe economic loss to the local area, the state, and the United States; and

WHEREAS, During times of emergency large sums of federal and state moneys are expended to keep the various levee systems from failing and to repair levees which have failed; and

WHEREAS, Many of the levees within the delta area have deteriorated over the years due to a variety of causes, and others must be periodically raised to offset settlement, and these levees may be subject to failure at almost any time; and

WHEREAS, It has become increasingly recognized that preservation of natural beauty, shade, and wildlife habitat on the levees is important from a recreational and esthetic viewpoint; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Department of Water Resources is requested to undertake a general review of the condition of all levees within the Sacramento-San Joaquin Delta area, with particular emphasis on those levees considered to be substandard, and to include in such review a preliminary evaluation of the factors and costs involved in bringing the levees up to a safe condition and maintaining them in a safe condition and the extent to which such improvements might reduce the requirements of emergency expenditures; and be it further

Resolved, That in undertaking such review recognition be given to those areas where growth on such levees or the berms thereof can be permitted for esthetic purposes without endangering the maintenance of safe levees; and be it further

Resolved, That recommendations be made as to the sharing by local, state, and federal governments of costs necessary to bring such levees up to safe standards and for the continuous operation and maintenance thereof, and as to a means of collection of such costs; and be it further

Resolved, That the Department of Water Resources is requested to confer, in making its review, with local, federal, and other state agencies, including the State Reclamation Board, and flood control, recreational, and navigational interests, and to submit a preliminary report to the Legislature not later than February 1, 1970, containing recommendations on surveys and studies that are necessary to develop a comprehensive plan of action; and be it further

Resolved, That the Secretary of the Senate transmit a copy of this resolution to the Director of Water Resources.

RESOLUTION CHAPTER 298

Senate Concurrent Resolution No. 157—Relative to state water supply contracts.

[Filed with Secretary of State August 8, 1969]

WHEREAS, The Department of Water Resources has entered into 31 contracts for supplying water from the State Water Resources Development System; and

WHEREAS, Occasions arise from time to time for amending or interpreting such contracts; and

WHEREAS, Some amendments or interpretations may deal with decisions which have a significant impact on the financing of the State Water Resources Development System; and

WHEREAS, It is desirable that the Legislature, through its water committees, be informed of these proposed decisions so that the department can receive the benefit of their recommendations; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the members request the Director of Water Resources to inform the Legislature, through copies presented to the Chairman of the Senate Committee on Water Resources and the Chairman of the Assembly Water Committee, of all proposed changes to the water supply contracts, or policy determinations thereunder, which the director deems to be of significant importance affecting project financing and feasibility or manner of meeting original commitments to deliver water; and be it further

Resolved, That the Director of Water Resources not enter into any such major contract amendments or policy determinations for 90 days after so notifying the legislative committees, unless prior to that time the committees present their comments and recommendations thereon to the director, or unless the director determines in a given situation that the proposed amendments or policy determinations are of such an urgent nature that immediate execution is required, in which case he shall so notify the committees; and be it further

Resolved, That the Secretary of the Senate transmit a copy of this resolution to the Director of Water Resources.

RESOLUTION CHAPTER 299

Senate Constitutional Amendment No. 26—A resolution to propose to the people of the State of California an amendment to the Constitution of the state, by amending Section 1 of Article XVI thereof, relating to state indebtedness.

[Filed with Secretary of State August 8, 1969]

Resolved by the Senate, the Assembly concurring, That the Legislature of the State of California at its 1969 Regular Session commencing on the sixth day of January, 1969, two-thirds of the members elected to each of the two houses of the Legislature voting therefor, hereby proposes to the people of the State of California that the Constitution of the state be amended by amending Section 1 of Article XVI thereof to read:

SECTION 1. The Legislature shall not, in any manner create any debt or debts, liability or liabilities, which shall, singly or

in the aggregate with any previous debts or liabilities, exceed the sum of three hundred thousand dollars ($300,000), except in case of war to repel invasion or suppress insurrection, unless the same shall be authorized by law for some single object or work to be distinctly specified therein which law shall provide ways and means, exclusive of loans, for the payment of the interest of such debt or liability as it falls due, and also to pay and discharge the principal of such debt or liability within 50 years of the time of the contracting thereof, and shall be irrepealable until the principal and interest thereon shall be paid and discharged, and such law may make provision for a sinking fund to pay the principal of such debt or liability to commence at a time after the incurring of such debt or liability of not more than a period of one-fourth of the time of maturity of such debt or liability; but no such law shall take effect unless it has been passed by a two-thirds vote of all the members elected to each house of the Legislature and until, at a general election or at a direct primary, it shall have been submitted to the people and shall have received a majority of all the votes cast for and against it at such election; and all moneys raised by authority of such law shall be applied only to the specific object therein stated or to the payment of the debt thereby created. Full publicity as to matters to be voted upon by the people is afforded by the setting out of the complete text of the proposed laws, together with the arguments for and against them, in the ballot pamphlet mailed to each elector preceding the election at which they are submitted, and the only requirement for publication of such law shall be that it be set out at length in ballot pamphlets which the Secretary of State shall cause to be printed. The Legislature may, at any time after the approval of such law by the people, reduce the amount of the indebtedness authorized by the law to an amount not less than the amount contracted at the time of the reduction, or it may repeal the law if no debt shall have been contracted in pursuance thereof.

Notwithstanding any other provision of this Constitution, Members of the Legislature who are required to meet with the State Allocation Board shall have equal rights and duties with the nonlegislative members to vote and act upon matters pending or coming before such board for the allocation and apportionment of funds to school districts for school construction purposes or purposes related thereto.

Notwithstanding any other provision of this constitution, or of any bond act to the contrary, if any general obligation bonds of the state heretofore or hereafter authorized by vote of the people have been offered for sale and not sold, the Legislature may raise the maximum rate of interest payable on all general obligation bonds authorized but not sold, whether or not such bonds have been offered for sale, by a statute passed by a two-thirds vote of all members elected to each house thereof.

The provisions of Senate Bill No. 763 of the 1969 Regular Session, which authorize an increase of the state general obligation bond maximum interest rate from 5 percent to an amount not in excess of 7 percent and eliminate the maximum rate of interest payable on notes given in anticipation of the sale of such bonds, are hereby ratified.

RESOLUTION CHAPTER 304

Senate Joint Resolution No. 33—Relative to the Marine Mineral Technology Center in Tiburon.

[Filed with Secretary of State August 8, 1969]

WHEREAS, There are indications that the 1970 Budget of the Marine Mineral Technology Center of the Bureau of Mines in Tiburon, California, is being reduced to the extent that the center will be required to dismiss 35 to 45 employees and to suspend operation of the research vessel "Virginia City"; and

WHEREAS, The Marine Mineral Technology Center of the Bureau of Mines is concerned with the vital development of unknown mineral resources of the ocean waters along the Pacific Coast and is a function necessary for the entire United States because, with the constant Soviet operations along the Pacific Coast to determine the extent and possibilities of mineral and fishing wealth, it is imperative that our country be the first to obtain such knowledge; and

WHEREAS, The Marine Mineral Technology Center urgently requires reinstatement of approximately $600,000 to its working capital to continue the well-established work in the marine mining program on the Continental Shelf; now, therefore, be it

Resolved by the Senate and Assembly of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the President and the Congress of the United States to give prompt and full approval to the budget requirements of the Marine Mineral Technology Center in Tiburon, California, so that its invaluable services in behalf of the national interest may be sustained and implemented; and be it further

RESOLUTION CHAPTER 306

Assembly Concurrent Resolution No. 210—Relative to a study of state subventions for controlling campus disturbances.

[Filed with Secretary of State August 9, 1969]

WHEREAS, Current events in higher education have resulted in law enforcement expenses for controlling disturbances on the campuses of the University of California, the California State Colleges, and the public junior colleges; and these expenses have been borne by the local taxpayer and his community; and

WHEREAS, There is a wide spectrum of opinion regarding provision for these expenses; and

WHEREAS, Proposals have been put forth requiring the local community to cover such expenses, on the ground that a college or university campus is an economic asset to the community, and any liability should also accrue to the community, although this might put a strain on this community; and

WHEREAS, Still other proposals would request aid from the General Fund of the State of California in covering such expenses, on the ground that the state finances public higher education in general, although it is local agencies that furnish law enforcement assistance; and

WHEREAS, All of these questions require careful consideration in arriving at a viable solution to the problem; and

WHEREAS, The report of the Select Committee on Campus Disturbances has recommended this area for further legislative study; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Joint Legislative Budget Committee study the subject of state subventions to local government for law enforcement expense for controlling disturbances on the campuses of public higher education in California; and be it further

Resolved, That the Joint Legislative Budget Committee report its findings and recommendations to the Legislature not later than the fifth legislative day of the 1970 Regular Session.

WHEREAS, The year 1969 is being observed as the bicentennial of the beginnings of many events of historical, cultural and economic significance to the State of California, including the discovery of the coast redwood in Santa Cruz County by Fray Juan Crespi, diarist and chaplain of the Don Gaspar de Portolá expedition; now, therefore, be it

RESOLUTION CHAPTER 309

Senate Concurrent Resolution No. 25—Relative to rules and regulations of conduct on campuses.

[Filed with Secretary of State August 13, 1969]

WHEREAS, Recent riots and disturbances on campuses throughout the state have caused harm to persons, damage to property, and disruption of the educational process; and

WHEREAS, This has imposed a heavy financial burden on the people of the state who support the educational process; and

WHEREAS, The education of the students, in these instances, has been disrupted to their detriment; and

WHEREAS, Testimony before the Select Committee on Campus Disturbances indicated that many school officials have not

been fully cognizant of the many statutory provisions available to them through the Penal Code and the Education Code to control acts of violence and campus disturbances; and

WHEREAS, The Regents of the University of California, the Trustees of the California State Colleges, the Board of Governors of the California Community Colleges, and the governing boards of school districts should adopt rules and regulations governing the conduct of the students of, staff of, and visitors to the campuses and other properties owned or controlled by these bodies, and make it clear that these rules, regulations, and statutory provisions will be enforced; and

WHEREAS, Testimony before the Select Committee on Campus Disturbances indicated that judicious application of rules, regulations, and the law has succeeded in preventing disruptive activities on some campuses; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the members respectfully urge the Regents of the University of California, the Trustees of the California State Colleges, the Board of Governors of the California Community Colleges, and the governing boards of school districts to take immediate action to make all personnel concerned with campus control cognizant of the multitude of existing rules, regulations, and statutory provisions which are available to them to control disorders, and to file criminal charges and institute disciplinary proceedings, where appropriate, against those individuals who aid, abet, or participate in illegal disruptive activities; and be it further

Resolved, That the Secretary of the Senate transmit copies of this resolution to the Regents of the University of California, the Trustees of the California State Colleges, the Board of Governors of the California Community Colleges, and the State Board of Education.

RESOLUTION CHAPTER 310

Senate Concurrent Resolution No. 124—Relative to preserving the town of Allensworth.

[Filed with Secretary of State August 13, 1969.]

WHEREAS, The town of Allensworth, located in the central portion of the San Joaquin Valley, in Tulare County, was founded by an ex-slave, Colonel Allen Allensworth; and

WHEREAS, Colonel Allensworth, born into slavery and sold twice on the open slave market, fled the institution of slavery and joined the Union forces during this country's bloodiest war; and

WHEREAS, He fought for his freeedom, and attained the highest commissioned rank held by a black military official during his time; and

WHEREAS, Colonel Allensworth's dream was to establish a black community somewhere in California—a place where his

people could live in peace and control and direct the course of their lives; and

WHEREAS, After his retirement from the military he formed a group called the California Home Improvement Association, which in 1908 founded the town of Allensworth, so named in honor of the colonel; and

WHEREAS, The original townsite, containing approximately 80 acres, grew within a few years, under the leadership of the colonel, to a few hundred families eking a bare subsistence out of the harsh alkaline ground while struggling to maintain and realize their dream; and

WHEREAS, For Colonel Allensworth, whose life was claimed in a tragic accident in mid-1914, the reality of his dream was short lived, but others in the settlement came forward to assume the roles of town leaders and the settlement continued to exist through World War I and the great depression, at which time it experienced its largest population; and

WHEREAS, World War II with its industrial manpower demand sounded the death knell for Allensworth, which experienced a rapid population decrease continuing until the town was virtually uninhabited and today only a few people occupy the site of this noble pioneering experiment; and

WHEREAS, Because land farming corporations are on the verge of purchasing the original townsite, in a few short years all traces of this historically significant contribution to the development of our great state will be lost forever; and

WHEREAS, The opportunity to preserve this history is confronting us now and in preserving it we will be saying that we see the futility that has borne the fruit of unrest in our time; and

WHEREAS, Recognizing those roots, we can now graft new growth onto them and begin to cultivate a more peaceful harvest—one of understanding and respect for the contribution that black pioneers have made to the development of California and the West; and

WHEREAS, Preliminary investigations throughout the Central Valley have shown an enthusiastic attitude and great concern over the preservation of Allensworth, and many federal, state and local political figures have been involved in this town's survival; and

WHEREAS, Recognition of Allensworth's historical significance can be a beginning step towards the creation of a much-needed bridge that someday may span the chasm of distrust and misunderstanding in our state; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Legislature expresses its support of the efforts of the State Department of Parks and Recreation to preserve the townsite of Allensworth, in Tulare County, California.

RESOLUTION CHAPTER 311

Assembly Joint Resolution No. 22—Relative to bilingual education programs.

[Filed with Secretary of State August 14, 1969.]

WHEREAS, Congress adopted the Bilingual Education Act in 1967 to facilitate learning by students in their native tongue as well as in English and to preserve the national resource of bilingual speakers; and

WHEREAS, The funding of this act for the 1969–1970 fiscal year was $7,500,000 even though the act authorized an expenditure of $30,000,000; and

WHEREAS, For the 1969–1970 fiscal year 310 school systems have applied for $40,373,580, which will be apportioned from the $7,500,000 appropriation; and

WHEREAS, One hundred two California school systems have applied for $11,662,405 on behalf of 229,309 students in California for the 1969–1970 fiscal year; and

WHEREAS, Without adequate federal funds the school districts cannot provide adequate or successful education to their bilingual students; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the members urge the members of the United States Senate and House of Representatives to augment the appropriation made for bilingual education programs for the 1969–1970 fiscal year sufficiently to raise the appropriation to $30,000,000, the maximum amount authorized; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

RESOLUTION CHAPTER 312

Assembly Joint Resolution No. 64—Relative to licensing of nursing home administrators.

[Filed with Secretary of State August 14, 1969.]

WHEREAS, Public Law 90-248 requires that as a condition of Title XIX reimbursement, there must be a state program for the licensing of nursing home administrators by July 1, 1970; and

WHEREAS, The Assembly Health and Welfare Committee has evaluated the need for such licensure and as a result of that evaluation has concluded that licensure of nursing home

administrators will not materially affect the standards or quality of care provided in nursing homes; and

WHEREAS, Public Law 90-248 has the effect of requiring the Legislature of the State of California to surrender its independent judgment in state matters to the federal government; and

WHEREAS, The alternative would be to pass a "paper" licensing act with few requirements so that all existing administrators could be licensed; and

WHEREAS, The Assembly does not consider such a subterfuge in the public interest, nor does the Assembly feel that licensure simply for the sake of licensure is a desirable public policy; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the President and the Congress of the United States to repeal the nursing home administrator licensure requirement of Public Law 90-248 and to reevaluate the entire area of quality of care in nursing homes in order to develop realistic methods for insuring high quality based upon the actual level of care provided rather than mere licensure of the administrator; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, the Secretary of Health, Education, and Welfare, and to each Senator and Representative from California in the Congress of the United States.

WHEREAS, The operation of an increasing number of campers designed to be mounted on motor vehicles on California's highways may be creating a safety problem in this state; and

WHEREAS, There is a growing concern as to the safety standards applicable to such vehicles; and

WHEREAS, To enable the Legislature to enact whatever legislation may be necessary in order to cope with this problem. it is necessary that a thorough study be made of safety standards in the construction, equipment and operation of such vehicles; now, therefore, be it

WHEREAS, We are living in a changing world, characterized by rapid advances in technology, where the objectives of our educational system are inevitably intertwined with those of business, industry, and government and where the educational requirements of today may be obsolete tomorrow; and

WHEREAS, The success or failure of our educational system in training students to meet tomorrow's technological requirements depends on a high degree of cooperation and coordination between the public schools on one hand, and business, industry, and government on the other; and

WHEREAS, For many years education and the workaday world have frequently operated independently of each other, thus denying to large numbers of pupils in the public schools relevant educational programs which are consistent with the pupils' desires, abilities, and career objectives; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the members encourage the public schools, business, industry, and government to develop formal and informal cooperative arrangements to coordinate their resources, to improve the quality and effectiveness of

education, and to meet the manpower needs of the work world; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the State Board of Education and to the California State Chamber of Commerce.

RESOLUTION CHAPTER 317

Assembly Concurrent Resolution No. 194—Relating to landscaping state highways.

[Filed with Secretary of State August 14, 1969.]

WHEREAS, The dignity and distinction of the City of Sacramento as the capital of the great State of California require that this city and the seat of state government be approached by way of appropriate thoroughfares; and

WHEREAS, The development of major freeways leading into and traversing the city as fully landscaped freeways will provide the distinction and beauty appropriate to our capital city; and

WHEREAS, The landscaping of these freeways will add immeasurably to the well-deserved distinction not only of Sacramento as the capital city but also of the State of California itself; and

WHEREAS, The Legislature desires that the major entrances to the Sacramento area be landscaped in order to preserve and enhance the scenic setting of the state capital; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the California Highway Commission and the Department of Public Works are hereby requested to give full consideration to the above desire of the Legislature and to take such action as is appropriate to ensure the preservation and enhancement of the scenic setting of the state capital, consistent with other highway needs; and be it further

Resolved, That the California Highway Commission and the Department of Public Works seek additional sources of funds for landscaping in general, and, in addition, give special attention to landscaping the main approaches to the state capital, both within the city limits of Sacramento and within an appropriate distance therefrom; and be it further

Resolved, That the Chief Clerk of the Assembly transmit a copy of this resolution to the Secretary of the California Highway Commission and to the Director of Public Works.

RESOLUTION CHAPTER 318

Assembly Concurrent Resolution No. 238—Relative to public assistance.

[Filed with Secretary of State August 14, 1969.]

WHEREAS, The Legislature has consistently encouraged and supported the expansion of educational opportunities as a primary means of breaking the cycle of poverty; and

WHEREAS, For some years it has been possible for recipients of aid to families with dependent children (AFDC), under regulations of the State Department of Social Welfare, to establish educational trust funds for their children's current and future education out of outside income not required for meeting the family's immediate needs; and

WHEREAS, Recently, significant numbers of AFDC recipients have learned of the aforesaid regulation and are seeking to realize its benefits so that their children may be spared future dependency on welfare; and

WHEREAS, Concern has been expressed by many recipients that the State Department of Social Welfare is considering repeal of the educational trust fund regulation; and

WHEREAS, The Legislature finds and declares that the potential value of the regulation in question appears to be sufficiently great that its repeal should not be contemplated without a careful weighing of the benefits and the costs of said regulation in the perspective of the preventive and rehabilitative goals of the AFDC program; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the members request the State Department of Social Welfare not to repeal or otherwise substantially modify existing educational trust fund regulations pending a legislative study of benefits, costs and other significant effects of same; and be it further

Resolved, That the Chief Clerk of the Assembly transmit a copy of this resolution to the Director of Social Welfare.

RESOLUTION CHAPTER 319

Assembly Concurrent Resolution No. 241—Relative to "Keep California Green Month."

[Filed with Secretary of State August 14, 1969.]

WHEREAS, Millions of acres of forest and range lands and watersheds in California constitute resources that now provide and could provide many benefits in perpetuity; and

WHEREAS, All residents of our great state share in this wealth by virtue of many thousands of jobs which are created by production processes related to foodstuffs and fibers; and

WHEREAS, All residents and thousands of visitors share in the enjoyment of great variety of scenery and recreational facilities; and

WHEREAS, Each year our economy suffers losses amounting to many millions of dollars because of the needless and wasteful destruction of these resources by man-caused wildfires; and

WHEREAS, The support of established fire prevention programs and the practice of wildfire prevention methods, that are known to all persons, can materially reduce this needless waste; and

WHEREAS, Our residents and visitors know that these methods include the use of extreme caution with outdoor fires and incinerators and the use of ashtrays and approved spark arresters on power equipment that is used in the wild lands; and

WHEREAS, Late summer and the fall months have historically been the most hazardous periods for loss from man-caused wildfire in California; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Legislature requests the Governor to proclaim the month of September 1969 as "Keep California Green Month"; and be it further

Resolved, That the Governor in his proclamation urge the California residents and visitors to acknowledge their responsibility to protect wildlife by sharing in these fire prevention programs, not only during the hazardous months for wildfires, but on a sustained yearlong basis, in a common effort to keep California green and ever productive; and be it further

Resolved, That the Chief Clerk of the Assembly transmit a copy of this resolution to the Governor.

RESOLUTION CHAPTER 320

Assembly Joint Resolution No. 41—Relative to cooperative federalism.

[Filed with Secretary of State August 15, 1969.]

WHEREAS, Under existing federal law, tax incentives granted by a state to encourage businesses to participate in certain activities are diluted, if not made meaningless, by the fact that funds expended by such businesses for such activities result in higher federal taxes because of the lower state tax paid; and

WHEREAS, In the spirit of cooperative federalism, the federal government could permit deductions for business expenditures made to obtain state tax incentives of this nature, which would make state tax incentives meaningful and would benefit

both the state and the nation in long-term growth; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the President and the Congress of the United States to enact legislation permitting a business the same federal tax deductions it would have received for payment of state taxes had it not participated in a program of this nature; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

for Accrediting Junior Colleges, Western Association of Schools and Colleges; and

WHEREAS, Students transferring from any California community or junior college to the University of California or to a state college should be provided the same protection as students pursuing their entire collegiate careers in the University of California or in the state colleges in the matter of meeting academic requirements for graduation; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring. That the members request the Regents of the University of California and the Trustees of the California State Colleges to amend their rules and regulations to include the statement that a student transferring from a community or junior college to the University of California or to a state college in continuation of his regular attendance in the college and making normal academic progress toward a baccalaureate degree may elect, for purposes of meeting graduation requirements, to meet the graduation requirements in effect either at the time of his entering the community college curriculum or at the time of his graduation or transfer to the University of California or to the state college, except that substitutions for discontinued courses may be authorized or required by the proper authorities; and be it further

Resolved, That the regents and the trustees report on their action no later than December 1, 1969, to the Coordinating Council for Higher Education, or, in the event they have not taken such action, report by that date the reasons for their lack of action; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the Regents of the University of California, the Trustees of the California State Colleges, the Coordinating Council for Higher Education, and the Board of Governors of the California Community Colleges.

RESOLUTION CHAPTER 323

[Filed with Secretary of State August 15, 1969.]

WHEREAS, The Blue Star Memorial Highway project was adopted in 1947 by the National Council of State Garden Clubs, Inc.; and

WHEREAS, The system includes four Blue Star Memorial Highways in California, U.S. Highways 97 and 99 and Interstate Routes 8 and 80; and

RESOLUTION CHAPTER 324

Assembly Concurrent Resolution No. 239—Relative to commending the City of Lodi on its 100th anniversary.

[Filed with Secretary of State August 15, 1969.]

WHEREAS, August 25, 1969, will mark the 100th anniversary of the founding of the City of Lodi, which was named as Mokelumne Station until 1874; and

WHEREAS, The early residents of the City of Lodi made a valuable contribution to the growth and prosperity of that city and the surrounding area, by inspiring the Central Pacific Railroad to lay its tracks through Lodi; and

WHEREAS, In its early years, the City of Lodi was the center of an important grain production area and the first industrial development of that community was a flour mill which was built in 1876 by the Lodi Mill and Warehouse Company, a forerunner of the flour industry which is still located in that city; and

WHEREAS, Subsequently, the Lodi area was renowned for its watermelon production, and in 1880 more watermelons were shipped from the City of Lodi than from the rest of California combined; and

WHEREAS, By 1907, the grape culture in that city had become so significant that the first grape festival was held there that year, and during this period the Lodi district had developed a virtual monopoly in the production of the famed Tokay table grapes; and

WHEREAS, Today, the Lodi district produces 98 percent of the world's total production of Tokay table grapes due to the unique combination of soil, temperature, and ocean breeze which favor that area; and

WHEREAS, The accomplishments of the City of Lodi are deserving of an official recognition on its 100th anniversary; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the members commend the City of Lodi on the 100th anniversary of its founding, and wish the city, its officers, and its inhabitants success in the future; and be it further

RESOLUTION CHAPTER 325

Assembly Constitutional Amendment No. 6—A resolution to propose to the people of the State of California an amendment to the Constitution of the state, by amending Section 12 of, and adding Section 12.1 to, Article IV thereof, relating to appropriations for the public schools.

[Filed with Secretary of State August 15, 1969]

Resolved by the Assembly, the Senate concurring, That the Legislature of the State of California at its 1969 Regular Session commencing on the sixth day of January, 1969, two-thirds of the members elected to each of the two houses of the Legislature voting therefor, hereby proposes to the people of the State of California that the Constitution of the state be amended, as follows:

First—That Section 12 of Article IV be amended to read:

SEC. 12. (a) Within the first 30 days of each regular session, the Governor shall submit to the Legislature, with an explanatory message, a budget for the ensuing fiscal year containing itemized statements of recommended state expenditures and estimated state revenues. If recommended expenditures exceed estimated revenues, he shall recommend the sources from which the additional revenues should be provided.

(b) The Governor and the Governor-elect may require a state agency, officer or employee to furnish him whatever information he deems necessary to prepare the budget.

(c) The budget shall be accompanied by a budget bill itemizing recommended expenditures. The bill shall be introduced immediately in each house by the chairmen of the committees that consider appropriations. Until the budget bill has been enacted, neither house may pass any other appropriation bill, except emergency bills recommended by the Governor, or appropriations for the salaries and expenses of the Legislature, or the appropriation bill provided for by Section 12.1 of this article.

(d) No bill except the budget bill may contain more than one item of appropriation, and that for one certain, expressed purpose. Appropriations from the general fund of the State, except appropriations for the public schools, are void unless

passed in each house by rollcall vote entered in the journal, two-thirds of the membership concurring.

Second—That Section 12.1 be added to Article IV, to read:

SEC. 12.1. Within the first 30 calendar days of each regular session, the chairman of the committee of each house charged with the responsibility of considering the subject of education may introduce a bill, embodying the recommendations of the committee, making an appropriation to the State School Fund and providing for the disbursement of such appropriation. Neither of the bills may be passed by either house until the budget bill is enacted, or until 130 calendar days after the introduction of the budget bill. Where 130 days have elapsed after the introduction of the budget bill, and the budget bill has not been enacted, either or both of such bills may be passed by either or both houses prior to the enactment of the budget bill upon concurrence of two-thirds of the membership of each house. This section shall not affect the power of the Legislature to pass pursuant to the recommendations of the Governor any bill for the support of the public elementary and secondary schools of the State as an emergency bill in accordance with Section 12 of this article.

RESOLUTION CHAPTER 326

Assembly Constitutional Amendment No. 87—A resolution to propose to the people of the State of California an amendment to the Constitution of the state, by amending Section 1 of Article XVI thereof, relating to state indebtedness.

[Filed with Secretary of State August 15, 1969.]

Resolved by the Assembly, the Senate concurring, That the Legislature of the State of California at its 1969 Regular Session commencing on the sixth day of January, 1969, two-thirds of the members elected to each of the two houses of the Legislature voting therefor, hereby proposes to the people of the State of California that the Constitution of the state be amended by amending Section 1 of Article XVI thereof to read:

SECTION 1. The Legislature shall not, in any manner create any debt or debts, liability or liabilities, which shall, singly or in the aggregate with any previous debts or liabilities, exceed the sum of three hundred thousand dollars ($300,000), except in case of war to repel invasion or suppress insurrection, unless the same shall be authorized by law for some single object or work to be distinctly specified therein which law shall provide ways and means, exclusive of loans, for the payment of the interest of such debt or liability as it falls due, and also to pay and discharge the principal of such debt or liability within 50 years of the time of the contracting thereof, and

shall be irrepealable until the principal and interest thereon shall be paid and discharged, and such law may make provision for a sinking fund to pay the principal of such debt or liability to commence at a time after the incurring of such debt or liability of not more than a period of one-fourth of the time of maturity of such debt or liability; but no such law shall take effect unless it has been passed by a two-thirds vote of all the members elected to each house of the Legislature and until, at a general election or at a direct primary, it shall have been submitted to the people and shall have received a majority of all the votes cast for and against it at such election; and all moneys raised by authority of such law shall be applied only to the specific object therein stated or to the payment of the debt thereby created. Full publicity as to matters to be voted upon by the people is afforded by the setting out of the complete text of the proposed laws, together with the arguments for and against them, in the ballot pamphlet mailed to each elector preceding the election at which they are submitted, and the only requirement for publication of such law shall be that it be set out at length in ballot pamphlets which the Secretary of State shall cause to be printed. The Legislature may, at any time after the approval of such law by the people, reduce the amount of the indebtedness authorized by the law to an amount not less than the amount contracted at the time of the reduction, or it may repeal the law if no debt shall have been contracted in pursuance thereof.

Notwithstanding any other provision of this Constitution, Members of the Legislature who are required to meet with the State Allocation Board shall have equal rights and duties with the nonlegislative members to vote and act upon matters pending or coming before such board for the allocation and apportionment of funds to school districts for school construction purposes or purposes related thereto.

Notwithstanding any other provision of this constitution, or of any bond act to the contrary, if any general obligation veterans' bonds of the state heretofore authorized by the approval of the Veterans Bond Act of 1968 by vote of the people have been offered for sale and not sold, the Legislature may raise the maximum rate of interest payable on all such general obligation veterans' bonds authorized but not sold, whether or not such bonds have been offered for sale, by a statute passed by a two-thirds vote of all members elected to each house thereof.

The provisions of Assembly Bill No. 886 of the 1969 Regular Session are hereby ratified.

And be it further resolved, That Assembly Constitutional Amendment No. 87 of the 1969 Regular Session shall not be submitted to the people if Senate Constitutional Amendment No. 26 of the 1969 Regular Session is passed by the two houses of the Legislature and approved by the people.

RESOLUTION CHAPTER 327

Assembly Joint Resolution No. 55—Relative to immigration.

[Filed with Secretary of State August 15, 1969.]

WHEREAS, On July 1, 1968, the new United States Immigration and Nationality Act, enacted in 1965, went into effect, drastically cutting down on the number of Irish admitted to the United States; and

WHEREAS, From July 1, 1968, to December 31, 1968, only 72 preference and nonpreference visas were issued in Dublin to Irish nationals and for the first eight months of the fiscal year 1969 (beginning July 1, 1968) there was a total of 118 preference and nonpreference visas issued, and if the categories of "immediate relative" and "special immigrant" are added, only 303 total visas were issued from Dublin for the first eight months of the fiscal year 1969; and

WHEREAS, The commendable purpose of the new immigration law was to eliminate the discriminatory features of the old, unwieldy, outdated, unfair law, which had been established on the basis of a 40-year-old national origins quota system; and

WHEREAS, The new immigration policy justly erased many inequities and unfair treatment to certain countries under the old law; however, no one realized at the time the new law was being drafted that it would saddle other countries with serious immigration problems; and

WHEREAS, The new law, in attempting to cure the discrimination of the old law, has now set up impossible barriers to Ireland and other countries; now therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the President and the Congress of the United States to enact legislation which would provide a "floor" to be established for every nation, based on its average level of immigration to the United States during the decade prior to the enactment of the 1965 act; and which would provide a floor equivalent to 75 percent of the annual average level of immigration during the 1956–65 base period, or 10,000 individuals, whichever is less, and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

RESOLUTION CHAPTER 328

Assembly Concurrent Resolution No. 150—Relative to a study of the California Marine and Inland Fishing Industries.

[Filed with Secretary of State August 15, 1969.]

WHEREAS, the marine and inland fishing industries are known to be major components of the recreation industry in California, making important economic and sociological contributions to the welfare of the state, but the exact size of the industries and their socioeconomic effects on the economy of the state have not been determined in any precise way; and

WHEREAS, The increasing pressure and competition for marine resources makes it essential that a study of the marine and inland fishing industries in California be undertaken in order to provide the information necessary to determine the public interest in these industries and to insure the best possible utilization of our marine resources; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Secretary of the Resources Agency is to prepare a study design for an in-depth survey of the marine and inland fishing industries in California, which study design shall provide information to the Legislature relative to the total cost of such in-depth survey and which would recommend a source of funding for such in-depth survey; and be it further

Resolved, That it is the expectation of the Legislature that an in-depth survey of these industries would provide information on their economic and sociological effects on the state and on the nature and amount of the total investment involved in these industries both on a long-range and on an annual basis; and be it further

Resolved, That the study design be submitted to the Legislature no later than the fifth legislative day of the 1970 Regular Session; and be it further

Resolved, That the Chief Clerk of the Assembly transmit a copy of this resolution to the Secretary of the Resources Agency.

RESOLUTION CHAPTER 329

Assembly Concurrent Resolution No. 185—Relative to flood control projects.

[Filed with Secretary of State August 15, 1969.]

WHEREAS, During the months of January and February, 1969, Fresno County experienced record rainfall which produced extremely severe foothill surface runoff into a number of streams which ultimately run through the Fresno-Clovis metropolitan area as well as other urban and farming areas of the County of Fresno and urban and agricultural areas in adjacent counties; and

WHEREAS, Such streams are largely uncontrolled and do not have the capacity to hold back the surface runoff generated from a heavy rainfall, as the past winter has demonstrated; and

WHEREAS, The January and February floods resulting from uncontrolled flow of floodwaters from the various foothill streams and tributaries into the Fresno metropolitan area, as well as many farming and urban communities of Fresno County and adjacent counties, have resulted in millions of dollars of damage to both public and private property; and

WHEREAS, The nature of this flooding from the foothill surface runoff cannot be handled by planned local drainage facilities of the Fresno Metropolitan Flood Control District encompassing the Fresno-Clovis metropolitan area for the reason that such facilities are designed strictly for local surface runoff generated solely by urban development; and

WHEREAS, The President of the United States has declared Fresno County a disaster area by reason of the severity of the flooding and the resulting damage; and

WHEREAS, It is necessary that dams and other facilities be constructed upon the various foothill streams and tributaries running into the San Joaquin Valley in order to control such floodwaters during periods of extreme rainfall and to prevent floodwaters from damaging the rural, urban and metropolitan areas through which these streams and tributaries run; and

WHEREAS, The construction of dams and other facilities upon streams and tributaries, particularly Mill Ditch, Fancher Creek, Dog Creek, Pup Creek, Dry Creek, Redbank Creek, Mud Creek, Holland Creek and others, more particularly known collectively as San Joaquin-Kings River Interstream Group, will require coordination, administering and financing of studies and the design and construction of dams and facilities exceeding the financial and administrative capabilities of the many rural, urban and metropolitan areas involved; and

WHEREAS, It is necessary that an immediate study of this problem and of the facilities which will be required in order to prevent further disastrous floods in the future be undertaken; and

WHEREAS, It is desired that this study in particular be immediately made with reference to the foothill area between the San Joaquin River and the Kings River; now, therefore, be it

Resolved by the Assembly of the State of California the Senate thereof concurring, That the members request the Director of Water Resources, in coordination with the U.S. Army Corps of Engineers, to conduct a study on the need for flood control facilities on Mill Ditch, Fancher Creek, Dog Creek, Pup Creek, Dry Creek, Redbank Creek, Mud Creek, Holland Creek and others, more particularly known collectively as the San Joaquin-Kings River Interstream Group, the design criteria, and the cost of these facilities, and to make initial recommendations thereon to the Legislature by the fifth day of the 1970 session of the Legislature; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the Governor, Director of Water Resources, and the Secretary of the Resources Agency.

RESOLUTION CHAPTER 330

Assembly Concurrent Resolution No. 233—Relative to intermediate care facilities.

[Filed with Secretary of State August 15, 1969.]

WHEREAS, Over one hundred ninety-five million dollars is estimated to be expended for nursing home care under the California Medical Assistance Program (Medi-Cal) in 1969–70; and

WHEREAS, Many of those people receiving nursing home care service could be provided needed services in facilities which are not as costly as nursing homes; and

WHEREAS, The 1967 Amendments to the Social Security Act have provided for federal participation in the cost of facilities that fall in a category between a boarding home and a nursing home, commonly called an intermediate care facility; and

WHEREAS, A thorough review and study of the cost and possible savings which would result from the implementation of an intermediate care facility program by California is necessary; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Joint Legislative Budget Committee and Legislative Analyst, acting jointly, are hereby requested to make a complete review and study of the potential cost and savings from implementing an intermediate care facility program and to report their findings and recommendations to the Legislature no later than the fifth legislative day of the 1970 Regular Session of the Legislature; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the Joint Legislative Budget Committee and Legislative Analyst.

WHEREAS, Conservation means the wisest use and the most efficient management of all our resources and of our environment for the benefit of the most people for the longest possible time; and

WHEREAS, The Legislature and the Governor, through the passage of Senate Bill No. 1, 1968 session, has required that adopted courses of study shall provide for instruction in conservation and protection of resources and in man's relations to his human and natural environment; and

WHEREAS, People of this state should be assured that their children are receiving quality education; and

WHEREAS, With the growing population in San Diego County, it is imperative that local water resources be reevaluated to determine the feasibility and justification of their development to supplement existing and imported water supplies; and

WHEREAS, The San Dieguito River is one of the relatively undeveloped streams in San Diego County that has a potential for multipurpose development for water supply and other purposes; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the members request the Department of Water Resources, in cooperation with the City of San Diego on a 50–50 matching basis, to formulate a basin-wide water resources development plan for San Dieguito River Basin, considering surface and subsurface waters for multipurpose use such as water supply, recreation, fish and wildlife enhancement, and water quality control; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the Director, Department of Water Resources.

RESOLUTION CHAPTER 337

Assembly Concurrent Resolution No. 223—Relative to undergraduate instruction.

[Filed with Secretary of State August 18, 1969]

WHEREAS, Current events in higher education show the importance of a strong but responsive undergraduate curriculum; and

WHEREAS, It has been felt by some that graduate instruction, research, and outside activities by the staff of the University of California and the California State Colleges have supplanted to some degree the importance of undergraduate instruction; and

WHEREAS, There exists a diversity of opinion as to the propriety of many of the outside commitments of the staff of these institutions; and

WHEREAS, The Report of the Select Committee on Campus Disturbances has recognized this problem and recommended appropriate administrative action in this area; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Board of Regents of the University of California and the Trustees of the California State Colleges are hereby requested to make a concentrated effort to strengthen the importance and the quality of undergraduate instruction on each campus of the University of California and the California State Colleges; and be it further

RESOLUTION CHAPTER 338

Assembly Concurrent Resolution No. 246—Relative to homeowners' property tax exemption.

[Filed with Secretary of State August 18, 1969.]

WHEREAS, The homeowners' property tax exemption, contained in Section 1d of Article XIII of the California Constitution and Section 218 of the Revenue and Taxation Code, was intended to give property tax relief to as many California homeowners as possible; and

WHEREAS, Homeowners were required for the first time in 1969 to file an application to receive the homeowners' property tax exemption; and

WHEREAS, Many persons who timely filed an application for the exemption have not received the exemption because the new procedures may have resulted in the application's being lost

or misplaced in the offices of county assessors; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Legislature finds and declares its intent that Section 166 of the Revenue and Taxation Code be applied with respect to applications for the homeowners' property tax exemption and that satisfactory proof to an assessor that an application was mailed on a specified date, as provided for in Section 166, includes a notarized statement by an applicant for the exemption that his application was filed on such date; and be it further

Resolved, That the Chief Clerk of the Assembly transmit a copy of this resolution to the county assessor of each county in California.

RESOLUTION CHAPTER 339

Assembly Joint Resolution No. 56—
Relative to public assistance.

[Filed with Secretary of State August 18, 1969]

WHEREAS, The Legislature of the State of California approves in principle of the concept of administrative separation of the provision of social services from the provision of financial aid in public assistance programs; and

WHEREAS, This principle is presently being employed with relative success in the Old Age Security program in all California counties, and in all categorical aid programs in selected test counties; and

WHEREAS, The experience with said separation of services and financial aid functions has been related to the use of a simplified method of eligibility determination in the financial assistance programs; and

WHEREAS, Insufficient experience has been gained in the testing of simplified eligibility determination procedures with respect to the program of Aid to Families with Dependent Children, a program which includes more than three of every five welfare recipients in the State of California; and

WHEREAS, Present plans for separation include the use of eligibility technicians for the determination of eligibility for AFDC, but do not contemplate mandatory introduction of a simplified method of eligibility determination coincident with the initiation of separation; and

WHEREAS, The promulgation of regulations by the United States Department of Health, Education, and Welfare which fail to assure counties that financial disincentives will not be imposed on counties which do not separate service functions from financial aid functions immediately is inducing counties to plan the implementation of separation immediately although they are not fully staffed with eligibility technicians properly

trained to administer the complicated eligibility determination procedures now in effect, especially in AFDC; and

WHEREAS, Separation under such circumstances appears likely to result in an intolerably high rate of error, delay, and hardship, to recipients and welfare staff alike, and to create unnecessary expense to the county taxpayers because of administrative error and inefficiency; and

WHEREAS, Failure to assure that there will be no imposition of a fiscal disincentive to nonseparation pursuant to the aforesaid HEW regulation creates a dilemma for the county taxpayer whereby administrative costs will rise regardless of a county's decision to separate or not to separate immediately; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of the State of California respectfully urges the Secretary of the United States Department of Health, Education, and Welfare to provide assurances that no fiscal disincentives for nonseparation will be imposed pursuant to the regulation addressed in this resolution, so that separation can be initiated in each county after proper preparation has been made to insure maximum regard for efficient and effective administration in the best interests of recipients, taxpayers and county welfare staff alike, and can include, if feasible, a simplified method of eligibility determination in all categories; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to Secretary of Health, Education, and Welfare; the Director, Bureau of the Budget; and to each Senator and Representative from California in the Congress of the United States.

RESOLUTION CHAPTER 341

Assembly Concurrent Resolution No. 75—
Relative to higher education.

[Filed with Secretary of State August 18, 1969.]

WHEREAS, There is a growing dissatisfaction with the impersonal nature of education in many of our colleges and universities and with the deterioration of teaching, which may be caused, in part, by the extremely large size of these institutions; and

WHEREAS, There is currently a strong need to study the effect of size of educational institution on the quality of education; and

WHEREAS, If California hopes to develop a better and more individualized approach to higher education, it must begin by initiating studies and considering proposals to bring about these results; and

WHEREAS, California cannot know the real advantages which would be available through small or decentralized campuses or through such facilities as "cluster colleges" on larger campuses, satellite campuses, or off-campus centers which may be located either in isolated rural areas or in urban areas throughout the state unless such a study is undertaken; and

WHEREAS, The costs of developing and maintaining such facilities and programs, and the quality of instruction and other higher educational services available to students are of

substantial concern to the taxpayers of the state; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the members express their support for a study to determine the feasibility and desirability of developing a number of smaller centers for higher education in connection either with existing and planned college and university campuses or as independent centers; and be it further

Resolved, That the Joint Committee on Higher Education, in cooperation with the Legislative Analyst, undertake a study of the subject and to submit its report to the Legislature not later than the fifth legislative day of the 1970 Regular Session; and be it further

Resolved, That the Regents of the University of California, the Trustees of the California State Colleges and the Board of Governors of the Community Colleges cooperate in furnishing information for the study; and be it further

Resolved, That the Chief Clerk of the Assembly transmit a copy of this resolution to the Attorney General of the State of California and to the Public Utilities Commission of the State of California.

RESOLUTION CHAPTER 343

Assembly Concurrent Resolution No. 168—Relative to legislative proceedings.

[Filed with Secretary of State August 18, 1969.]

WHEREAS, The Constitution of the State of California requires that the proceedings of the Assembly and Senate be public, except on occasions that in the opinion of the house require secrecy; and

WHEREAS, The open conduct of legislative proceedings serves to insure full and candid discussion of every measure on its merits; and

WHEREAS, Such open meetings serve to assure an informed and educated citizenry upon which the functioning of a viable democracy is dependent; and

WHEREAS, The Legislature in its committees and in each house has long observed such an open meeting policy in both spirit and deed, reaching decisions in full public view except where a higher responsibility to the people dictates private discussion; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Members of the Legislature—believing that such a policy best serves the interests of the people, their representatives, and democracy itself—do hereby recommit themselves to a policy of open and public conduct of legislative proceedings.

RESOLUTION CHAPTER 344

Assembly Concurrent Resolution No. 227—Relative to the Prado Dam and Reservoir.

[Filed with Secretary of State August 18, 1969.]

WHEREAS, The Prado Dam and Reservoir is a flood control feature constructed by the U.S. Army Corps of Engineers in 1941 on the Santa Ana River in the Santa Ana River Basin, which includes the metropolitan areas of Orange, San Bernardino and Riverside Counties; and

WHEREAS, The U.S. Army Corps of Engineers is currently undertaking a comprehensive review investigation of the Santa Ana River Basin for flood control and allied purposes and has scheduled an interim report on Prado Dam and Reservoir for completion in July 1971 as part of its comprehensive investigation; and

WHEREAS, There is a need for optimum development of the water resources of the Santa Ana River Basin, and the development of Prado Dam and Reservoir as a multiple-purpose project would help fulfill this need; and

WHEREAS, To provide interim input into the Corps of Engineers' investigation of the Santa Ana River Basin, particularly its interim report on Prado Dam and Reservoir, result of studies of the potential multiple uses of Prado Dam and Reservoir must be provided through the Corps of Engineers within the first six months of fiscal year 1970–71; and

WHEREAS, The Orange County Water District recognizes the need for the development of Prado Dam and Reservoir as a multiple-purpose project and is willing to participate in studies of the multiple-purpose aspects of Prado Dam and Reservoir, and is willing to contribute on a matching basis with the Department of Water Resources in such a study program in fiscal year 1969–70; now, therefore, be it

RESOLUTION CHAPTER 345

Assembly Concurrent Resolution No. 186—Relative to flood control on the Eel River.

[Filed with Secretary of State August 19, 1969.]

WHEREAS, The Governor has directed the Department of Water Resources, in cooperation with the U.S. Corps of Engineers, to make further analyses of possible water development plans in the Eel River watershed alternative to the current proposal of the U.S. Corps of Engineers to construct a 730-foot-high dam on the Middle Fork Eel River near Dos Rios which would result in the flooding of Round Valley; and

WHEREAS, It has been questioned that the proposed Dos Rios Project would provide the needed flood control benefits for the Eel River Basin, which all too often is subject to devastating floods causing millions of dollars in property damage and the tragic and needless loss of life; and

WHEREAS, The Eel River Delta Levee Project has been authorized by Congress for construction by the U.S. Corps of Engineers, but the construction of such levees in the Eel River Delta will not alone be sufficient to provide effective flood control for the basin; and

WHEREAS, The proposed Dos Rios Dam and Reservoir Project, in conjunction with the Eel River Delta Levee Project and the proposed English Ridge Dam and Reservoir Project of the U.S. Bureau of Reclamation, could have resulted in an effective flood control system for the Eel River; and

WHEREAS, A reevaluation of all possible means of providing necessary flood control benefits, as part of the Department of Water Resources' further studies of alternatives to the Dos Rios Project, is urgently needed to insure that the presently authorized Eel River Delta Levee Project will provide an effective flood control system for the Eel River; and

WHEREAS, The United States Bureau of Reclamation and the Kaiser Engineers of Oakland have submitted proposals which may provide flood control benefits by means other than the construction of a dam at Dos Rios; and

WHEREAS, Proposals which may provide additional flood control benefits for the Eel River Basin include the construction of a low dam at Dos Rios and the diversion of water to Clear Lake which would not result in the flooding of Round Valley, or the possibility of constructing an enlarged English Ridge Dam and Reservoir, or the construction of a series of smaller dams at various locations within the Eel River Basin to provide the flood control that the dam at Dos Rios would have; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the members request the Department of Water Resources to immediately reevaluate all alternative proposals for providing sufficient flood control benefits for the Eel River Basin to insure that the presently authorized Eel River Delta Levee Project will result in an effective flood control system, including a reevaluation of the proposals submitted by the Kaiser Engineers, the proposals of the United States Bureau of Reclamation, proposals for the construction of a low dam at Dos Rios. proposals for the construction of any other dam on the Eel River or any tributary thereof which would provide the necessary flood control benefits, and to report thereon to the Legislature not later than the fifth legislative day of the 1970 Regular Session; and be it further

Resolved, That the Chief Clerk of the Assembly transmit a copy of this resolution to the Director of Water Resources.

Senate Concurrent Resolution No. 136—Relative to adoption of the Joint Rules of the Senate and Assembly.

[Filed with Secretary of State August 19, 1969.]

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the following rules be adopted as the Joint Rules of the Senate and Assembly for the 1969 Regular Session:

Standing Committees

1. Each house shall appoint such standing committees as the business of the house may require, the committees, the number of members and the manner of selection to be determined by the rules of each house.

Joint Meeting of Committees

3. Whenever any bill has been referred by the Senate to one of its committees, and the same or a like bill has been referred by the Assembly to one of its committees, the chairmen of the respective committees, when in their judgment the interests of legislation or the expedition of business will be better served thereby, shall arrange for a joint meeting of their committees for the consideration of such bill.

Effect of Adoption of Joint Rules

3.5. The adoption of the Joint Rules for any extraordinary session shall not be construed as modifying or rescinding the Joint Rules of the Senate and Assembly for any previous session, nor as affecting in any way the status or powers of the interim committees created by those rules.

BILLS AND RESOLUTIONS

Definition of Word Bill

4. Whenever the word "bill" is used in these rules, it shall include constitutional amendments, concurrent and joint resolutions.

Concurrent and Joint Resolutions

5. Concurrent resolutions relate to matters to be treated by both houses of the Legislature.

Joint resolutions are those which relate to matters connected with the federal government.

Resolutions Treated as Bills

6. Constitutional amendments, concurrent and joint resolutions shall be treated in all respects as bills; except that they shall be given only one formal reading in each house and that they shall not be deemed bills within the meaning of subdivision (a) of Section 8 of Article IV of the Constitution, and shall not be referred to the Committee on Introduction of Bills, and except as provided in Rule 24. As in the case of bills, they shall be engrossed in the house in which they originate before being voted upon.

PREPARATION AND INTRODUCTION OF BILLS

Title of Bill

7. The title of every bill introduced shall convey an accurate idea of the contents of the bill and shall be indicative of the scope of the act and the object to be accomplished. In amending a code section, the mere reference to the section by number shall not be deemed sufficient.

Division of Bill Into Sections

8. A bill amending more than one section of an existing law shall contain a separate section for each section amended.

Bills which are not amendatory of existing laws shall be divided into short sections, where this can be done without destroying the sense of any particular section, to the end that future amendments may be made without the necessity of setting forth and repeating sections of unnecessary length.

Introduction of Bills

8.3. No bill shall be introduced after the 90th calendar day of a regular session except as follows:

(a) A written notice of intention to introduce a bill, a copy of the bill and a digest prepared pursuant to Rule 8.5 shall be filed with the Chief Clerk of the Assembly or the Secretary of the Senate, as the case may be, and shall be transmitted to

the Rules Committee of the appropriate house. The notice and digest shall be printed in the Journal of that house.

(b) The Rules Committee of the Assembly or Senate, as the case may be, shall determine whether there exists an urgent need for the introduction of the proposed bill.

(c) If the Rules Committee recommends that introduction of the proposed bill be permitted, the member may offer a resolution, without further reference thereof to committee, granting permission to introduce the bill. The adoption of the resolution granting such permission shall require an affirmative recorded vote of two-thirds of the elected members of the house in which the request is made.

As used in this rule "bill" includes constitutional amendments but does not include joint or concurrent resolutions.

Digest of Bills Introduced

8.5. No bill shall be introduced unless it is contained in a cover attached by the Legislative Counsel and unless it is accompanied by a digest, prepared and attached to the bill by the Legislative Counsel, showing the changes in the existing law which are proposed by the bill. If any bill is presented to the Secretary of the Senate or Chief Clerk of the Assembly for introduction which does not comply with the foregoing requirements of this rule the Secretary or Chief Clerk shall return it to the member who presented it. The digest shall be printed on the bill as introduced upon the lower part of the first page thereof.

Digest of Bills Amended

8.6. Whenever a bill is amended in either house, the Secretary of the Senate or the Chief Clerk of the Assembly, as the case may be, shall request the Legislative Counsel to prepare an amended digest and cause it to be printed on the first page of the bill as amended. The digest shall be amended to show changes in the existing law which are proposed by the bill as amended with any material changes in the digest indicated by the use of appropriate type.

Errors in Digest

8.7. If a material error in a printed digest referred to in Joint Rule 8.5 or 8.6 is brought to the attention of the Legislative Counsel, he shall prepare a corrected digest which shall show the changes made in the digest as provided in Joint Rule 10 for amendments to bills. He shall deliver the corrected digest to the Secretary or the Chief Clerk, as the case may be. If the correction warrants it in the opinion of the President pro Tempore of the Senate or the Speaker of the Assembly, a corrected print of the bill as introduced shall be ordered with the corrected digest printed thereon.

Restrictions as to Amendments

9. A substitute or amendment must relate to the same subject as the original bill, constitutional amendment or resolution under consideration.

Changes in Existing Law to Be Marked by Author

10. In a bill amending or repealing a code section or a general law, any new matter shall be underlined and any matter to be omitted shall be in type bearing a horizontal line through the center and commonly known as "strikeout" type. When printed the new matter shall be printed in italics, and the matter to be omitted shall be printed in "strikeout" type.

In any amendment to a bill which sets out for the first time a section being amended or repealed, any new matter to be added and any matter to be omitted shall be indicated by the author and shall be printed in the same manner as though the section as amended or repealed were a part of the original bill and was being printed for the first time.

When an entire code is repealed as part of a codification or recodification or when an entire title, part, division, chapter or article of a code is repealed, the sections comprising such code, title, part, division, chapter, or article shall not be set forth in the bill or amendment in strikeout type.

Heading of Bills

10.7. No bill shall indicate in its heading or elsewhere that it was introduced at the request of a state agency or officer or any other person. No bill shall contain the words "By request" or words of similar import.

Consideration of Bills

10.8. At a regular session, no bill shall be heard by any committee or acted upon by either house until 30 calendar days have elapsed following the date the bill was first introduced except this provision and the limitation contained in subdivision (a) of Section 8 of Article IV of the Constitution may be dispensed with as follows:

(a) A written request for such dispensation entitled "Request to Consider and Act on Bill Within 30 Calendar Days" shall be filed with the Chief Clerk of the Assembly or the Secretary of the Senate, as the case may be, printed in the Journal and transmitted to the Rules Committee of the appropriate house.

(b) The Rules Committee of the Assembly or Senate, as the case may be, shall determine whether there exists an urgent need for dispensing with the 30-calendar-day waiting period following the bill's introduction.

(c) If the Rules Committee recommends that said waiting period be dispensed with, the member may offer a resolution,

without further reference thereof to committee, authorizing hearing and action upon the bill before the 30 calendar days have elapsed. The adoption of the resolution shall require an affirmative recorded vote of three-fourths of the elected members of the house in which the resolution is presented.

As used in this rule "bill" includes constitutional amendments but does not include joint or concurrent resolutions.

Hearing of Bills

10.9. Each bill shall be set for hearing and heard by the committee to which it has been first assigned in the house of origin within 60 calendar days after introduction. If a bill is not so heard by such committee, the committee shall return the bill to the house and the bill shall not be acted upon by either house. If an author so requests in writing, a bill shall not be set for hearing and shall be returned to the house and not acted upon by either house.

As used in this rule, "bill" includes constitutional amendments but does not include joint or concurrent resolutions.

This rule does not apply to bills first assigned to the Committee on Finance or the Committee on Ways and Means.

Printing of Amendments

11. All bills amended by either house shall be immediately reprinted; in case new matter is added by the amendment such new matter shall be printed in italics in the printed bill, and in the case of matter being omitted, the matter to be omitted shall be printed in strikeout type. When a bill is amended in either house, the first or previous markings shall be omitted.

Printing and Distribution of Bills—Manner of Printing Bills

12. The State Printer shall observe the following directions in printing all bills, constitutional amendments, concurrent and joint resolutions:

(a) The body of such bills shall be printed in solid unspaced form in 10-point roman type so that the same type shall be used both before and after enrollment. Concurrent resolutions approving city or county charters or amendments thereto may be set in smaller type.

(b) All titles of bills shall be set in italics, statute form and the length of the lines used in the titles shall not exceed that of the body of the bill.

(c) The lines of all printed bills shall be numbered by page and not by sections, and amendments shall be identified by reference to title, page and line only.

Distribution of Legislative Publications

13. All requests by members for mailing or distribution of copies of the Weekly Histories and the Legislative Index shall

be filed with the Secretary of the Senate or the Chief Clerk of the Assembly. Except as otherwise provided by either the Assembly or Senate, each Member of the Senate and Assembly shall be permitted to submit a list of 10 organizations or individuals. The Secretary of the Senate and the Chief Clerk of the Assembly shall order a sufficient number of copies of the Weekly Histories and the Legislative Index to supply this list together with such number of bills and legislative publications as may be necessary for legislative requirements.

No complete list of bills shall be delivered except upon payment therefor of the sum of two hundred twenty-five dollars ($225) at a regular session or such sum as may be fixed by the Joint Committee on Legislative Organization at an extraordinary session. No more than two copies of any bill or other legislative publication, nor more than a total of 100 bills or other legislative publications during a session, shall be distributed free to any person, office, or organization. The limitations imposed by this paragraph do not apply to Members of the Legislature, the President of the Senate, the Secretary of the Senate and the Chief Clerk of the Assembly for the proper functioning of their respective houses; the Legislative Counsel Bureau; Attorney General's office; Secretary of State's office; Controller's office, Governor's office; the Clerk of the Supreme Court; the clerk of the court of appeal for each district; the Judicial Council; the California Law Revision Commission; the State Library; the Library of Congress and to libraries of the University of California at Berkeley and at Los Angeles; and accredited members of the press. The State Printer shall fix the cost of such bills and publications, including postage, and such moneys as may be received by him shall, after deducting the cost of handling and mailing, be remitted on the first day of each month, one-half each to the Secretary of the Senate and the Chief Clerk of the Assembly for credit to legislative printing. Legislative publications heretofore distributed through the Bureau of Documents shall be distributed through the Bill Room. Unless otherwise provided for, the total number of each bill to be printed shall be not more than 2,500.

Summary Digest and Legislative Index

13.1. The Legislative Counsel shall provide for the periodic publication of a cumulative Legislative Index which shall include tables of sections affected by pending legislation. The State Printer shall print the Legislative Index in such quantities, and at such times, as are determined by the Secretary of the Senate and the Chief Clerk of the Assembly. The costs of such printing shall be paid from the legislative printing appropriation.

13.3. The Legislative Counsel shall compile and prepare for publication a summary digest of legislation passed at each

regular and extraordinary session, which digest shall be prepared in a form suitable for inclusion in the publication of statutes. The digest shall be printed as a separate legislative publication on the order of the Joint Committee on Legislative Organization and may be made available to the public in such quantities and at such prices as the Joint Committee on Legislative Organization may determine.

13.5. The Legislative Counsel shall prepare for publication from time to time a cumulative statutory record. The statutory record shall be printed as a legislative publication on the order of the Secretary of the Senate or the Chief Clerk of the Assembly.

At the end of the session he shall also print, as directed by the Secretary of the Senate and the Chief Clerk of the Assembly a sufficient number of copies properly paged after being corrected and indexed by the Secretary of the Senate and the Chief Clerk of the Assembly, to bind in book form as the journal of the respective houses of the Legislature.

What Shall Be Printed in the Journal

15. The following shall always be printed in the journal of each house:

(c) A true and accurate account of the proceedings of the house, when not acting as a Committee of the Whole.

16. A daily file of bills ready for consideration shall be printed each legislative day for each house.

The material to be printed in the file and the form and arrangement shall be determined by the respective houses.

Printing of History

17. Each house shall cause to be printed, once each week, during the session, a complete history of all bills, constitutional amendments, concurrent, joint and house resolutions originating in or acted upon by the respective houses. A regu-

lar form shall be prescribed by the Secretary of the Senate and the Chief Clerk of the Assembly. Such history shall show the action taken upon each measure up to and including the legislative day preceding its issuance. For each legislative day intervening there shall be printed a supplementary history showing the action taken upon any measure since the issuance of the complete history.

Authority for Printing Orders

18. The State Printer shall not print for use of either house nor charge to legislative printing any matter other than provided by law or by the rules, except upon a written order signed by the Secretary of the Senate, on behalf of the Senate, or the Chief Clerk of the Assembly or other person authorized by the Assembly, on behalf of the Assembly. Persons authorized to order printing under this rule may, when necessity requires it, order certain matter printed in advance of the regular order, by the issuance of a rush order.

The Secretary of the Senate, on behalf of the Senate, and the Chief Clerk of the Assembly or other person authorized by the Assembly, on behalf of the Assembly, are hereby authorized and directed between sessions to order and distribute for the members stationery and legislative publications for which there is a demand, and, subject to the rules of their respective houses, to approve the bills covering such orders. Action in One House on Bill Transmitted From the Other

The procedure of referring bills to committees shall be determined by the respective houses.

The Secretary of the Senate and the Chief Clerk of the Assembly shall provide to each committee chairman appropriate forms for such report. As used in this rule, "uncontested bill" means a bill, except a revenue measure or a measure as to which the 30-day limitation prescribed by subdivision (a) of Section 8 of Article IV of the Constitution has been dispensed, which: (a) receives a do-pass or do-pass-as-amended recommendation from the committee to which it is referred, by unanimous vote of the members present provided a quorum is present; and (b) has no opposition expressed by any person present at the committee meeting with respect to the final version of the bill as approved by the committee; and (c) prior to final action by the committee has been requested, by the author, to be placed on the consent calendar.

Following their second reading and the adoption of any committee amendments thereto, if any, all bills certified by the committee chairman as uncontested bills shall be placed by the Secretary of the Senate or the Chief Clerk of the Assembly on the consent calendar, and shall be known as "consent calendar bills." Any consent calendar bill which is amended from the floor shall cease to be a consent calendar bill and shall be replaced on the second reading file. Upon objection of any member to the placement or retention of any bill on the consent calendar, such bill shall cease to be a consent calendar bill and shall be replaced on the second reading file. No consent calendar bill shall be considered for adoption until the second legislative day following the day of its placement on the consent calendar.

Consideration of Bills on Consent Calendar

22.3. Bills on the consent calendar are not debatable, except that the President of the Senate or the Speaker of the Assembly shall allow a reasonable time for questions from the floor and shall permit the proponents of such bills to answer such questions. Immediately prior to voting on the first bill on the consent calendar, the President of the Senate or the

Speaker of the Assembly shall call to the attention of the members the fact that the next rollcall will be the rollcall on the first bill on the consent calendar.

The consent calendar shall be considered as the last order of business on the daily file.

23. No Senate bill shall be passed by the Senate within 15 days, and no Assembly bill shall be passed by the Assembly within 10 days, prior to the commencement of the 30-day recess of the two houses of the Legislature at a regular session required by Section 3 of Article IV of the Constitution, unless permission to vote on such bill shall be granted by a three-fourths vote of the house of its origin after being recommended by the Committee on Rules (if it be a Senate bill) or by the Speaker of the Assembly (if it be an Assembly bill). As used in this rule, "bill" does not include concurrent resolutions.

Two copies of such amendment or amendments shall be attached to the bill or resolution so amended, and endorsed "adopted" and such amendment or amendments, if concurred in by the house in which such bill or resolution originated, shall be endorsed "concurred in," and such endorsement shall be signed by the Secretary or Assistant Secretary of the Senate, or the Chief Clerk or As-

sistant Clerk of the Assembly as the case may be; provided, however, that an amendment to the title of a bill adopted after the passage of such bill shall not necessitate reprinting, but such amendment must be concurred in by the house in which such bill originated.

To Concur or Refuse to Concur in Amendments

26. In case the Senate amend and pass an Assembly bill, or the Assembly amend and pass a Senate bill, the Senate (if it be a Senate bill) or the Assembly (if it be an Assembly bill) must either "concur" or "refuse to concur" in the amendments. If the Senate concur (if it be a Senate bill), or the Assembly concur (if it be an Assembly bill), the Secretary or Chief Clerk shall notify the house making the amendments and the bill shall be ordered to enrollment.

Concurring in Amendments Adding Urgency Section

27. When a bill which has been passed in one house is amended in the other by the addition of a section providing that the act shall take effect immediately as an urgency statute and is returned to the house in which it originated for concurrence in the amendment or amendments thereto, the procedure and vote thereon shall be as follows:

The presiding officer shall first direct that the urgency section be read and put to a vote. If two-thirds of the members elected to the house vote in the affirmative the presiding officer shall then direct that the question of whether the house shall concur in the amendment or amendments shall be put to a vote. If two-thirds of all the members elected to the house vote in the affirmative, concurrence in the amendments shall be effective.

If the affirmative vote on either of such questions is less than two-thirds of all the members elected to such house, the effect is a refusal to concur in the amendment or amendments, and the procedure thereupon shall be as provided in Joint Rule No. 28.

When Senate or Assembly Refuse to Concur

28. If the Senate (if it be a Senate bill) or the Assembly (if it be an Assembly bill) refuse to concur in amendments to the bill made by the other house, and when the other house has been notified of such refusal to concur, a conference committee shall be appointed for each house in the manner prescribed by these rules. The Committee on Rules in the case of the Senate and the Speaker in the case of the Assembly shall each appoint a committee of three (3) on conference, and the Secretary or the Chief Clerk shall immediately notify the other house of the action taken.

Committee on Conference

28.1. The Committee on Rules and the Speaker, in appointing a committee on conference, shall each select two members from those voting with the majority on the point about which the difference has arisen, and the other member from the minority, in the event there is a minority vote.

Whether a member has voted with the majority or minority on the point about which the difference has arisen is determined by his vote on the appropriate rollcall, as follows:

(1) In the Assembly—

(a) The rollcall on the question of final passage of a Senate bill amended in the Assembly when the Senate has refused to concur with the Assembly amendments;

(b) The rollcall on the question of concurrence with Senate amendments to an Assembly bill.

(2) In the Senate—

(a) The rollcall on the question of final passage of an Assembly bill amended in the Senate when the Assembly has refused to concur with the Senate amendments.

(b) The rollcall on the question of concurrence with Assembly amendments to a Senate bill.

Meetings and Reports of Committees on Conference

29. The first Senator named on the conference committee shall act as chairman of the committee from the Senate, and the first Assemblyman named on such committee shall act as chairman of the committee from the Assembly. The chairman of the committee on conference for the house of origin of the bill shall arrange the time and place of meeting of the conference committee and shall prepare or direct the preparation of reports. It shall require an affirmative vote of not less than two of the Assembly Members and two of the Senate Members constituting the committee on conference to agree upon a report, and the report shall be submitted to both the Senate and the Assembly. The committee on conference shall report to both the Senate and Assembly. Such report is not subject to amendment, and if either house refuses to adopt such report, the conferees shall be discharged and other conferees appointed; provided, however, that no more than three different conference committees shall be appointed on any one bill. No member who has served on a committee on conference shall be appointed a member of another committee on conference on the same bill. It shall require the same affirmative recorded vote to adopt any conference report as required by the Constitution upon the final passage of the bill affected by such report. It shall require an affirmative recorded vote of two-thirds of the entire elected membership of each house to adopt any conference report affecting any bill which contains an item or items of appropriation which are subject to

subdivision (d) of Section 12 of Article IV of the Constitution. The report of a conference committee shall be in writing, and a copy of any amendments proposed in the report shall be placed on the desk of each member of the house before it is acted upon by the house.

The vote on concurrence or upon the adoption of such conference report shall be deemed the vote upon final passage of such bill.

When Conference Committee Report Is in Order

30. The presentation of the report of a committee on conference shall always be in order, except when a question of order or a motion to adjourn is pending, or during rollcall, and, when received, the question of proceeding to the consideration of the report, if raised, shall be immediately passed upon, and shall be determined without debate.

Conference Committee Reports on Urgency Statutes

30.5. When the report of a committee on conference recommends the amendment of a bill by the addition of a section providing that the act shall take effect immediately as an urgency statute, the procedure and the vote thereon shall be as follows:

The presiding officer shall first direct that the urgency section be read and put to a vote. If two-thirds of the members elected to the house vote in the affirmative the presiding officer shall then direct that the question of whether the house shall adopt the report of the committee on conference shall be put to a vote. If two-thirds of all the members elected to the house vote in the affirmative, the adoption of the report and the amendments proposed thereby shall be effective.

If the affirmative vote on either of such questions is less than two-thirds of all the members elected to such house, the effect is a refusal to adopt the report of the committee on conference.

It shall be the duty of the standing committee at their discretion, to report violation of accredited press privileges to the Speaker of the Assembly, or to the Senate Committee on Rules, and pending action thereon the offending correspondent may be suspended by the standing committee.

(d) The press seats and desks in the Senate and Assembly chambers shall be under the control of the standing committee of correspondents, subject to the approval and supervision of the Speaker of the Assembly and the Senate Committee on Rules. Press cards shall be issued by the President of the Senate and the Speaker of the Assembly only to correspondents properly accredited in accordance with the provisions of this rule.

(e) One or more rooms shall be assigned for the exclusive use of correspondents during the legislative session, which rooms shall be known as the Press Room. Dispensing With Joint Rules

33. No joint rule shall be dispensed with except by a vote of two-thirds of each house; and Joint Rule No. 23 can be dispensed with only in the manner provided for in that joint rule. If either house shall violate a joint rule a question of order may be raised in the other house and decided in the same manner as in the case of the violation of the rules of such house; and if it shall be decided that the joint rules have been violated, the bill involving such violations shall be returned to the house in which it originated, and such disputed matter be considered in like manner as in conference committee.

Opinions of Legislative Counsel

34. Whenever the Legislative Counsel issues an opinion to any person other than the first-named author analyzing the constitutionality, operation or effect of a bill or other legislative measure which is then pending before the Legislature or of any amendment made or proposed to be made to such bill or measure, he is authorized and instructed to deliver two copies of the opinion to the first-named author as promptly as feasible after the delivery of the original opinion and also to deliver a copy to any other author of the bill or measure who so requests. A copy of any letter prepared by the Legislative Counsel for the sole purpose of advising a Member of a conflict between two or more bills as to the sections of law being amended, repealed, or added shall be submitted to the chairman of the committee to which each such bill has been referred.

Resolutions Prepared by Legislative Counsel

34.1. Whenever the Legislative Counsel has been requested to draft a resolution commemorating or taking note of any event, or a resolution congratulating or expressing sympathy toward any person, and subsequently receives a similar request from another Member of the Legislature, he shall inform that requester and each subsequent requester that such a resolution is being, or has been, prepared, and he shall inform them of the name of the member for whom the resolution was, or is being, prepared.

Memorial Resolutions Regarding Members and Former Members of the Legislature

34.2. Whenever the death of a Member of the Legislature or a former member whose service was particularly notable, or any other person who has rendered exceptional service to society or has been unusually prominent in public life occurs, a concurrent resolution may be used as a memorial resolution in respect thereto. In all other instances a Senate resolution or a House resolution, or both, shall be used as a memorial resolution with respect to the deaths of other persons. In all cases a

Senate resolution or a House resolution, or both, shall be used to congratulate any person or organization upon the occurrence of any significant event or achievement.

Identical Drafting Requests

34.5. Whenever it shall come to the attention of the Legislative Counsel that a member has requested the drafting of a bill which will be substantially identical to one already introduced he shall inform such member of that fact.

Expense of Members

35. As provided in Section 8902 of the Government Code, each Member of the Legislature is entitled to reimbursement for living expenses while in attendance at sessions of the Legislature, or while traveling to and from or in attendance at a committee meeting, or while attending to any legislative function or responsibility as authorized or directed by legislative rules or the rules committee of the house of which he is a member at the same rate as may be established by the State Board of Control for other elected state officers. Each member shall be reimbursed for travel expenses incurred in traveling to and from a session of the Legislature, or when traveling to and from a meeting of a committee of which he is a member, or when traveling pursuant to any other legislative function or responsibility as authorized or directed by legislative rules or the rules committee of the house of which he is a member at the rate prescribed by Section 8903 of the Government Code.

As provided in Section 4 of Article IV of the Constitution, members shall receive five cents ($0.05) per mile for traveling to and from their homes in order to attend reconvening following the 30-day recess after a regular session.

Expense allowances for Members of the Senate and Assembly shall be approved and certified to the Controller by the Secretary of the Senate, on behalf of the Senate, and the Chief Clerk of the Assembly or other person authorized by the Assembly Committee on Rules, on behalf of the Assembly, weekly or as otherwise directed by either house, and upon such certification the Controller shall draw his warrants in payment of the allowances to the respective members.

Investigating Committees

36. In order to expedite the work of the Legislature either house, or both houses jointly, may by resolution or statute provide for the appointment of committees to ascertain facts and to make recommendations as to any subject within the scope of legislative regulation or control.

The resolution providing for the appointment of a committee shall state the purpose of the committee, and the scope of

the subject concerning which it is to act and may authorize it to act either during sessions of the Legislature or, when such authorization may lawfully be made, after final adjournment.

In the exercise of the power granted by this rule, each committee may appoint a secretary and adopt and amend such rules governing its procedure (including the fixing of its own quorum and the number of votes necessary to take action on any matter) as may appear necessary and proper to carry out the powers granted and duties imposed under this rule. It may employ such clerical, legal and technical assistants as may appear necessary.

Each such committee is authorized and empowered to summon and subpoena witnesses, require the production of papers, books, accounts, reports, documents, records and papers of every kind and description, to issue subpoenas and to take all necessary means to compel the attendance of witnesses and to procure testimony, oral and documentary.

Each member of such committees is authorized and empowered to administer oaths, and all of the provisions of Chapter 4 (commencing with Section 9400), Part 1, Division 2, Title 2 of the Government Code, relating to the attendance and examination of witnesses before the Legislature and the committees thereof, shall apply to such committees.

The Sergeant at Arms of the Senate or Assembly, or such other person as may be designated by the chairman of the committee, shall serve any and all subpoenas, orders and other process that may be issued by the committee, when directed to do so by the chairman or by a majority of the membership of the committee.

Every department, commission, board, agency, officer and employee of the state government, including the Legislative Counsel and the Attorney General and their subordinates, and of every political subdivision, county, city, or public district of or in this state, shall give and furnish to these committees and to their subcommittees upon request such information, records and documents as the committees deem necessary or proper for the achievement of the purposes for which each such committee was created.

Each such committee may meet at any time during the period in which it is authorized to act, even though the Legislature is in session, either, at the State Capitol or at any other place in the State of California, in public or executive session, and do any and all things necessary or convenient to enable it to exercise the powers and perform the duties herein granted to it or accomplish the objects and purposes of the resolution creating it. Each such committee may expend such money as may be made available to it for such purpose but no committee shall incur any indebtedness unless money shall have been first made available therefor.

No living expenses shall be allowed in connection with service upon a legislative committee for a day where the mem-

ber is entitled to reimbursement for expenses due to attendance at a session of the Legislature. The chairman of each committee shall audit and approve the expense claims of the members of the committee including claims for mileage in connection with attendance on committee business, or in connection with specific assignments by the committee chairman, but excluding other types of mileage, and shall certify the amount approved to the Controller, and the Controller shall draw his warrants upon the certification of the chairman.

The chairman of any such committee may appoint subcommittees and chairmen thereof for the purpose of more expeditiously handling and considering matters referred to it, and such subcommittees and the chairmen thereof shall have all the powers and authority herein conferred upon the committee and its chairman. The chairman of such subcommittee shall audit the expense claims of the members of such subcommittees and other claims and the expenses incurred by it and shall certify the amount thereof to the chairman of the committee who shall, if he approves the same, certify the amount thereof to the Controller, and the Controller shall draw his warrant therefor upon such certification, and the Treasurer shall pay the same. Whenever such committee or any subcommittee thereof is authorized to leave the State of California in the performance of its duties, then such committee or subcommittee shall, while out of the state, have the same authority as if it were acting and functioning within the state, and the members thereof shall be entitled to receive the same expense allowances as if the committee were functioning within the state.

Notwithstanding any provision of this rule, if the standing rules of either house require that expense claims of members of committees be audited or approved, after approval of the committee chairman, by another agency of either house, the Controller shall draw his warrants only upon the certification of such other agency.

Except salary claims of employees clearly subject to federal withheld tax and the requirement as to loyalty oaths, claims presented for services or pursuant to contract shall refer to the agreement, the terms of which shall be made available to the Controller.

Expenses of Interim Committee Employees

36.1. Unless otherwise provided by respective house or committee rule or resolution, employees of legislative committees shall, when entitled to traveling expenses, be entitled to allowances in lieu of actual expenses for hotel accommodations, breakfast, lunch, and dinner, at the rates fixed by the Board of Control from time to time in limitation of reimbursement of expenses of state employees generally; provided, that if an allowance for hotel accommodations, breakfast, lunch and dinner is made by a committee at a rate in excess of those fixed

by the Board of Control the chairman of the committee shall notify the Controller of that fact in writing.

Appointment of Committees

36.5. The provisions of this rule shall apply whenever a joint interim committee is created by a statute or resolution which either provides that appointments be made and vacancies be filled in the manner provided for in the Joint Rules, or which makes no provision for the appointment of members or the filling of vacancies.

The Senate members of the committee shall be appointed by the Senate Committee on Rules; the Assembly members of the committee shall be appointed by the Speaker; and vacancies occurring in the membership of the committee shall be filled by the respective appointing powers. The members appointed shall hold over until their successors are regularly selected.

Appointment of Joint Committee Chairmen

36.7. The chairman of each joint committee heretofore or hereafter created, except the Joint Legislative Budget Committee and the Joint Legislative Audit Committee, shall be appointed by the Joint Committee on Legislative Organization from a member or members recommended by the Senate Committee on Rules and the Speaker of the Assembly.

Joint Committee Funds

36.8. Each joint committee, heretofore or hereafter created, except the Joint Legislative Budget Committee and the Joint Legislative Audit Committee, shall expend the funds heretofore or hereafter made available to it in accordance with the rules and regulations adopted by the Joint Committee on Legislative Organization.

Legislative Budget Committee

37. In addition to any other committee provided for by these rules, there shall be a joint committee to be known and called the Legislative Budget Committee, which is hereby declared to be a continuing body.

It shall be the duty of the committee to ascertain facts and make recommendations to the Legislature and to the houses thereof concerning the state budget, the revenues and expenditures of the state, and of the organization and functions of the state, its departments, subdivisions and agencies, with a view of reducing the cost of the state government, and securing greater efficiency and economy.

The committee shall consist of seven Members of the Senate and seven Members of the Assembly. The Senate members of the committee shall consist of seven Members of the Senate appointed by the Committee on Rules. The Assembly members

of the committee shall consist of seven Members of the Assembly appointed by the Speaker. The committee shall select its own chairman.

Any vacancies occurring between regular sessions, in the Senate membership of the Legislative Budget Committee, shall be filled by the Senate Committee on Rules, and the Senators appointed shall hold over until their successors are regularly selected. For the purposes of this provision, a vacancy shall be deemed to exist as to a Senator whose term is expiring whenever he is not reelected at the general election.

Any vacancies occurring between regular sessions, in the Assembly membership of the Legislative Budget Committee, shall be filled by the Speaker of the Assembly, and the Members of the Assembly appointed shall hold over until their successors are regularly selected. For the purposes of this provision, a vacancy shall be deemed to exist as to a Member of the Assembly whose term is expiring whenever he is not reelected at the general election.

Any vacancy occurring at any time in the Assembly membership of the committee shall be filled by appointment by the Speaker.

The committee shall have the authority to make rules to govern its own proceedings and its employees. It may also create subcommittees from its membership, assigning to its subcommittees any study, inquiry, investigation or hearing which the committee itself has authority to undertake or hold, and the subcommittee for the purpose of this assignment shall have and may exercise all the powers conferred upon the committee, limited only by the expressed terms of any rule or resolution of the committee defining the powers and duties of the subcommittee. Such powers may be withdrawn or terminated at any time by the committee.

The Legislative Budget Committee may render services to any investigating committee of the Legislature pursuant to contract between the Legislative Budget Committee and the committee for which the services are to be performed. The contract may provide for payment to the Legislative Budget Committee of the cost of such services from the funds appropriated to the contracting investigating committee. All legislative investigating committees are authorized to enter such contracts with the Legislative Budget Committee. Money received by the Legislative Budget Committee pursuant to any such agreement shall be in augmentation of the current appropriation for the support of the Legislative Budget Committee.

The provisions of Joint Rule 36 above shall apply to the Legislative Budget Committee, and it shall have all the authority provided in such rule or pursuant to Section 11 of Article IV of the Constitution.

The committee shall have authority to appoint a Legislative Analyst, to fix his compensation and to prescribe his duties, and to appoint such other clerical and technical employees as

may appear necessary. The duties of the Legislative Analyst shall be as follows:

The committee may meet either during sessions of the Legislature, any recess thereof, or after final adjournment, and may meet or conduct business at any place within the State of California.

The chairman of the committee or, in the event of his inability to act, the vice chairman shall audit and approve the expenses of members of the committee or salaries of the employees, and all other expenses incurred in connection with the performance of its duties by the committee, and the chairman shall certify the amount approved to the Controller, and the Controller shall draw his warrants upon the certification of the chairman, and the Treasurer shall pay the same to the chairman of the committee to be disbursed by him.

On and after the commencement of a succeeding regular session those members of the committee who continue to be Members of the Senate and Assembly, respectively, continue as members of the committee until their successors are appointed, and the committee continues with all its powers, duties, authority, records, papers, personnel and staff, and all funds theretofore made available for its use.

Upon the conclusion of its work, any Assembly, Senate, or joint committee (other than a standing committee) shall deliver to the Legislative Analyst for use and custody, available to the Members of the Legislature, all documents, data, reports and other materials that have come into the possession of such committee and which are not included within the final report of such committee to the Assembly, Senate, or the Legislature, as the case may be.

The Legislative Analyst with the consent of the committee shall make available to such members or committees any records, documents or other data under his control or shall secure and provide any information falling within the scope of his employment or which concerns the administration of the government of the State of California. But, except as hereinabove provided, neither the Legislative Analyst nor any employee of the committee shall reveal to any person not a member of or employed by the committee the contents or nature of any matter or the author of any request, except with the permission of the committee or legislator making such request, or under the express direction of the Legislative Budget Committee.

The Legislative Analyst, upon the receipt of a request from any committee or Member of the Legislature, shall at once secure the consent of the committee without disclosing the nature of the request or the name of the requester to provide the requesting committee or legislator with the service or information requested, and thereupon shall notify the requester or committee or legislator that he is authorized to provide the information, and shall inform the committee or legislator the approximate date when this information will be available. Should there be any material delay he shall subsequently communicate this fact to the requester. In the event the committee refuses such authorization, he shall inform such requester forthwith.

Registration of Legislative Representatives

37.5. In addition to the duties hereinabove prescribed the Legislative Analyst is directed, so long as he is designated to be "clerk" or "secretary" pursuant to subdivision (d) of Section 9900 of the Government Code, to assign one or more members of his staff to carry out the filing duties imposed by Sections 9900 through 9907 of the Government Code, but he shall undertake no duties which are not specifically authorized by the Joint Rules, by contracts entered into pursuant to such rules, or by direction of the Legislative Budget Committee.

(ii) If the member believes that, because of his personal interest, he should abstain from participating in the vote on the legislation, he shall so advise the presiding officer prior to the commencement of the vote and shall be excused from voting on the legislation without any entry on the journal of the fact of his personal interest. In the event a rule of the house, requiring that each member who is present vote aye or nay is invoked, the presiding officer shall order the member excused from compliance and shall order entered on the journal a simple statement that the member was excused from voting on the legislation pursuant to law.

(c) A person subject to this rule has an interest which is in substantial conflict with the proper discharge of his duties in the public interest and of his responsibilities as prescribed in the laws of this state or a personal interest, arising from any situation, within the scope of this rule, if he has reason to believe or expect that he will derive a direct monetary gain or suffer a direct monetary loss, as the case may be, by reason of his official activity. (e) The enumeration in this rule of specific situations or conditions which are deemed not to result in substantial conflicts with the proper discharge of the duties and responsibilities of a legislator or legislative employee or in a personal interest shall not be construed as exclusive.

The Legislature in adopting this rule recognizes that Members of the Legislature and legislative employees may need to

engage in employment, professional, or business activities other than legislative activities, in order to maintain a continuity of professional or business activity, or may need to maintain investments, which activities or investments do not conflict with the specific provisions of the chapter. However, in construing and administering the provisions of the rule, weight should be given to any coincidence of income, employment, investment, or other profit from sources which may be identified with the interests represented by those sources which are seeking action of any character on matters then pending before the Legislature.

(f) No employee of either house of the Legislature shall, during the time he is so employed, commit any act or engage in any activity prohibited by any part of this rule.

(g) No person shall induce or seek to induce any Member of the Legislature to violate any part of this rule.

Joint Legislative Ethics Committee

45. (a) The Joint Legislative Ethics Committee is hereby created. The committee shall consist of three Members of the Senate appointed by the Senate Committee on Rules and three Members of the Assembly appointed by the Speaker of the Assembly. Of the three members appointed from each house, at least one from each house shall be a member of the political party having the largest number of members in that house and at least one from each house shall be a member of the political party having the second largest number of members in that house. The committee shall elect its own chairman. Vacancies occurring in the membership of the committee shall be filled in the manner provided for in these rules for other committees. A vacancy shall be deemed to exist as to any member of the committee whose term is expiring whenever such member is not reelected at the general election.

(b) The committee is authorized to make rules governing its own proceedings. The provisions of Rule 36 of the Joint Rules of the Senate and Assembly relating to investigating committees shall apply to the committee.

Prior to the issuance of any subpoena by the committee with respect to any matter before the committee, it shall by a resolution adopted by a vote of two members of the committee from each house of the Legislature define the nature and scope of its investigation in the matter before it.

(c) Funds for the support of the committee shall be provided from the Contingent Funds of the Assembly and the Senate in the same manner that such funds are made available to other joint committees of the Legislature.

(d) The committee shall have power, pursuant to the provisions of this rule, to investigate and make findings and

recommendations concerning alleged violations by Members of the Legislature of the provisions of Rule 44.

(e) Any person may: (a) file with the committee a verified complaint in writing which shall state the name of the Member of the Legislature alleged to have committed the violation complained of, and which shall set forth the particulars thereof, or (b) file a complaint concerning the alleged violation by a Member of the Legislature with the district attorney of the appropriate county.

If a person files a complaint with respect to any alleged violation by a Member of the Legislature with the committee, he may not thereafter file a complaint to institute a criminal prosecution for such violation until the committee has rendered its report or until a period of 120 days has elapsed since the filing of the complaint. If a complaint is filed with the appropriate district attorney by any person concerning an alleged violation by a Member of the Legislature of any provision of Rule 44, such person may not thereafter file a complaint with respect to such alleged violation with the committee.

If a complaint is filed with the committee, the committee shall promptly send a copy of the complaint to the Member of the Legislature alleged to have committed the violation complained of, who shall thereafter be designated as the respondent.

No complaint may be filed with the committee after the expiration of six months from the date upon which the alleged violation occurred.

(f) If the committee determines that the verified complaint does not allege facts, directly or upon information and belief, sufficient to constitute a violation of any of the provisions of Rule 44, it shall dismiss the complaint and notify the complainant and respondent thereof. If the committee determines that such verified complaint does allege facts, directly or upon information and belief, sufficient to constitute a violation of any of the provisions of Rule 44, the committee shall promptly investigate the alleged violation and, if after such preliminary investigation, the committee finds that probable cause exists for believing the allegations of the complaint, it shall fix a time for a hearing in the matter, which shall be not more than 30 days after such finding. If, after the preliminary investigation, the committee finds that probable cause does not exist for believing the allegations of the complaint, the committee shall dismiss the complaint. In either event the committee shall notify the complainant and respondent of its determination.

(g) After the complaint has been filed the respondent shall be entitled to examine and make copies of all evidence in the possession of the committee relating to the complaint.

(h) If a hearing is to be held pursuant to subdivision (f) the committee, before the hearing has commenced, shall issue

subpoenas and subpoenas duces tecum at the request of any party in accordance with the provisions of Chapter 4 (commencing with Section 9400), Part 1, Division 2, Title 2 of the Government Code. All of the provisions of Chapter 4, except Section 9410, shall be applicable to the committee and the witnesses before it.

(i) At any hearing held by the committee:

(1) Oral evidence shall be taken only on oath or affirmation.

(2) Each party shall have these rights: to be represented by legal counsel; to call and examine witnesses; to introduce exhibits; and to cross-examine opposing witnesses.

(3) The hearing shall be open to the public.

(j) Any official or other person whose name is mentioned at any investigation or hearing of the committee and who believes that testimony has been given which adversely affects him, shall have the right to testify or, at the discretion of the committee, to file a statement of facts under oath relating solely to the material relevant to the testimony of which he complains.

(k) After the hearing the committee shall state its findings of fact. If the committee finds that the respondent has not violated any provisions of Rule 44, it shall order the action dismissed, and shall notify the respondent and complainant thereof and shall also transmit a copy of the complaint and the fact of dismissal to the Attorney General and to the district attorney of the appropriate county. If the committee finds that the respondent has violated any provisions of Rule 44, it shall state its findings of fact and submit a report thereon to the house in which the respondent serves, send a copy of such findings and report to the complainant and respondent, and the committee shall also report thereon to the Attorney General and to the district attorney of the appropriate county.

(*l*) Nothing in this chapter shall preclude any person from instituting a prosecution for violation of any provision of Rule 44 unless such person has filed a complaint with the committee concerning such violation, in which case such person may not file a complaint with the district attorney of the appropriate county to institute a criminal prosecution for such violation until the committee has made its determination of the matter or a period of 120 days has elapsed since the filing of the complaint with the committee.

(m) The filing of a complaint with the committee pursuant to this rule suspends the running of the statute of limitations applicable to any violation of the provisions of Rule 44 while such complaint is pending.

(n) The committee shall maintain a record of its investigations, inquiries, and proceedings. All records, complaints, documents, reports filed with or submitted to or made by the committee, and all records and transcripts of any investigations, inquiries or hearings of the committee under this rule

shall be deemed confidential and shall not be open to inspection by any person other than a member of the committee, an employee of the committee, or a state employee designated to assist the committee, except as otherwise specifically provided in this rule. The committee may, by adoption of a resolution, authorize the release to the Attorney General or to the district attorney of the appropriate county of any information, records, complaints, documents, reports, and transcripts in its possession material to any matter pending before the Attorney General or the district attorney. All matters presented at a public hearing of the committee and all reports of the committee stating a final finding of fact pursuant to subdivision (k) shall be public records and open to public inspection. Any employee of the committee who divulges any matter which is deemed to be confidential by this subdivision is punishable as provided in Section 8953 of the Government Code.

(o) All actions of the committee shall require the concurrence of two members of the committee from each house.

(p) The committee may render advisory opinions to Members of the Legislature with respect to the provisions of Rule 44 and their application and construction. The committee may secure an opinion from the Legislative Counsel for this purpose or issue its own opinion.

6. The committee and its members are authorized to study and inventory lands and rights therein owned or administered by the state, determine the uses to which these lands and rights are currently being put, prepare an analysis of the projected uses of such lands, and devise a system of automatic inventory and reporting of the uses of state lands.

7. In addition to the foregoing, the committee and its members shall study the potential state benefit from mineral resources on state-owned lands and the extent to which such lands may be disposed of and returned to the tax rolls.

RESOLUTION CHAPTER 378

Senate Concurrent Resolution No. 128—Relating to a Joint Committee on Seismic Safety.

[Filed with Secretary of State August 25, 1969]

WHEREAS, The State of California has a positive interest in minimizing the disastrous effects of major earthquakes particularly in the heavily populated areas of the state such as the

San Francisco Bay and the Los Angeles metropolitan areas; and

WHEREAS, An earthquake of the magnitude of the 1906 San Francisco catastrophe should it occur today could result in untold loss of life and inestimable property damage due to the rapid growth of urban areas in the past 60 years; and

WHEREAS, The Legislature finds that a considerable reduction in catastrophic damage due to earthquake could possibly be achieved if a detailed study is undertaken to determine the nature of California seismic and related hazards, the effect of seismic rupture upon existing metropolitan structures, utility services, transportation, communications, and the general welfare, and in what manner precautions can be taken to minimize the damage, loss of life, and disruption to the economy should a major earthquake occur; and

WHEREAS, The San Francisco Bay area is a most logical place for such a study to begin since the area contains almost all the types of earthquake-related hazards and hazard-increasing circumstances to be found in the state: It is traversed by two major active faults; it has filled land and water-saturated subsoils; its topography includes inhabited hillsides and slopes susceptible to slides; it has many water storage dams and reservoirs; it is heavily populated with attendant urban problems; it has both old and new structures of widely varying design; and it is a nine-county area large enough to permit a thorough and comprehensive study, the findings of which will be of practical value throughout the state; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, As follows:

1. The Joint Committee on Seismic Safety is created and authorized to study with particularity the earthquake related problems confronting the San Francisco Bay area and so much other of the state as it should appear advisable; the committee is further directed to develop seismic safety plans and policies and recommend to the Legislature any needed legislation to minimize the catastrophic effects upon the people, property, and the operation of our economy should a major earthquake strike any portion of the State of California.
