The department shall establish a standard of assistance, within the limits set forth in this section, which will enable each recipient to maintain himself in decency and health. The department shall establish a standard to cover actual needs, common to all persons. Within the limit of the average grant set forth in this section, the department may provide for payment of an additional sum to those recipients whose physical or mental condition is such that they require the services of a full- or part-time attendant or other special services. In determining whether an applicant or recipient is entitled to receive payment for attendant or other special services, the scale set forth in Section 12101 of this code shall be used to determine his share of his spouse's community income that is available to meet his needs for such services. Allowance for attendant services shall not be made when rendered by a responsible relative with whom the recipient is living, except when the director determines that the provision of such service is necessary to prevent the institutionalization of the recipient and cannot be obtained from any person other than the responsible relative.

The department shall give priority to persons in the greatest need without replacing other public or private resources which can provide the services. Voluntary contributions or grants from other public sources, private agencies, friends or relatives which are specifically and solely provided for such attendant services and which would not otherwise be available shall not be considered as applying toward the actual needs of said recipient.

The department may provide by rule that any change in grant for an amount of two dollars ($2) or less may be delayed not more than two months beyond the month in which the recipients reported the change in circumstances.

CHAPTER 1433

An act to add Division 13 (commencing with Section 21000) to the Public Resources Code, relating to environmental quality.

[Approved by Governor September 18, 1970. Filed with Secretary of State September 18, 1970.]

The people of the State of California do enact as follows:

SECTION 1. Division 13 (commencing with Section 21000) is added to the Public Resources Code, to read:

DIVISION 13. ENVIRONMENTAL QUALITY

CHAPTER 1. POLICY

21000. The Legislature finds and declares as follows:

(a) The maintenance of a quality environment for the people of this state now and in the future is a matter of statewide concern.

(b) It is necessary to provide a high-quality environment that at all times is healthful and pleasing to the senses and intellect of man.

(c) There is a need to understand the relationship between the maintenance of high-quality ecological systems and the general welfare of the people of the state, including their enjoyment of the natural resources of the state.

(d) The capacity of the environment is limited, and it is the intent of the Legislature that the government of the state take immediate steps to identify any critical thresholds for the health and safety of the people of the state and take all coordinated actions necessary to prevent such thresholds being reached.

(e) Every citizen has a responsibility to contribute to the preservation and enhancement of the environment.

(f) The interrelationship of policies and practices in the management of natural resources and waste disposal requires systematic and concerted efforts by public and private interests to enhance environmental quality and to control environmental pollution.

(g) It is the intent of the Legislature that all agencies of the state government which regulate activities of private individuals, corporations, and public agencies which are found to affect the quality of the environment, shall regulate such activi-

ties so that major consideration is given to preventing environmental damage.

21001. The Legislature further finds and declares that it is the policy of the state to:

(a) Develop and maintain a high-quality environment now and in the future, and take all action necessary to protect, rehabilitate, and enhance the environmental quality of the state.

(b) Take all action necessary to provide the people of this state with clean air and water, enjoyment of aesthetic, natural, scenic, and historic environmental qualities, and freedom from excessive noise.

(c) Prevent the elimination of fish or wildlife species due to man's activities, insure that fish and wildlife populations do not drop below self-perpetuating levels, and preserve for future generations representations of all plant and animal communities and examples of the major periods of California history.

(d) Ensure that the long-term protection of the environment shall be the guiding criterion in public decisions.

(e) Create and maintain conditions under which man and nature can exist in productive harmony to fulfill the social and economic requirements of present and future generations.

(f) Require governmental agencies at all levels to develop standards and procedures necessary to protect environmental quality.

(g) Require governmental agencies at all levels to consider qualitative factors as well as economic and technical factors and long-term benefits and costs, in addition to short-term benefits and costs and to consider alternatives to proposed actions affecting the environment.

CHAPTER 2. SHORT TITLE

21050. This division shall be known and may be cited as the Environmental Quality Act of 1970.

CHAPTER 3. STATE AGENCIES, BOARDS AND COMMISSIONS

21100. All state agencies, boards, and commissions shall include in any report on any project they propose to carry out which could have a significant effect on the environment of the state, a detailed statement by the responsible state official setting forth the following:

(a) The environmental impact of the proposed action.

(b) Any adverse environmental effects which cannot be avoided if the proposal is implemented.

(c) Mitigation measures proposed to minimize the impact.

(d) Alternatives to the proposed action.

(e) The relationship between local short-term uses of man's environment and the maintenance and enhancement of long-term productivity.

(f) Any irreversible environmental changes which would be involved in the proposed action should it be implemented.

21101. In regard to any proposed federal project in this state which may have a significant effect on the environment and on which the state officially comments, the state officials responsible for such comments shall include in their report a detailed statement setting forth the matters specified in Section 21100 prior to transmitting the comments of the state to the federal government. No report shall be transmitted to the federal government unless it includes such a detailed statement as to the matters specified in Section 21100.

21102. No state agency, board, or commission shall request funds, nor shall any state agency, board, or commission which authorizes expenditures of funds, other than funds appropriated in the Budget Act, authorize funds for expenditure for any project, other than a project involving only planning, which could have a significant effect on the environment unless such request or authorization is accompanied by a detailed statement setting forth the matters specified in Section 21100.

21103. The Office of Planning and Research shall, in conjunction with appropriate state, regional, and local agencies, coordinate the development of objectives, criteria, and procedures to assure the orderly preparation and evaluation of environmental impact reports required by this division.

21104. Prior to the making of a detailed statement, the responsible state official shall consult with, and obtain comments from, any governmental agency which has jurisdiction by law or special expertise with respect to any environmental impact involved.

21105. The responsible state official shall include the environmental impact report, together with any comments received from other governmental agencies pursuant to Section 21104, as a part of the regular project report used in the existing review and budgetary process. It shall be available to the Legislature and to the general public.

21106. All state agencies, boards, and commissions shall request in their budgets the funds necessary to protect the environment in relation to problems caused by their activities.

21107. Every state agency, board and commission shall review its present statutory authority, rules, regulations, policies and procedures to determine any inconsistencies or deficiencies in such provisions which would hinder compliance with the provisions of this division, and shall propose to the Governor and the Legislature no later than January 1971, any measures necessary to comply with the intent, policies, and procedures of this division.

CHAPTER 4. LOCAL AGENCIES

21150. State agencies, boards, and commissions, responsible for allocating state or federal funds on a project-by-project basis to local governmental agencies for land acquisition or

construction projects which may have a significant effect on the environment, shall, unless exempted by formal procedures developed under the provisions of Section 21103, require from the responsible local governmental agency a detailed statement setting forth the matters specified in Section 21100 prior to the allocation of any funds, other than funds solely for planning purposes.

21151. The legislative bodies of all cities and counties which have an officially adopted conservation element of a general plan shall make a finding that any project they intend to carry out, which may have a significant effect on the environment, is in accord with the conservation element of the general plan. All other local governmental agencies shall make an environmental impact report on any project they intend to carry out which may have a significant effect on the environment and shall submit it to the appropriate local planning agency as part of the report required by Section 65402 of the Government Code.

CHAPTER 1434

An act relating to executive reorganization.

[Approved by Governor September 18, 1970 Filed with Secretary of State September 18, 1970.]

The people of the State of California do enact as follows:

SECTION 1. Notwithstanding any other provision of law, including Reorganization Plan No. 1 of 1970, the provisions of Reorganization Plan No. 1 of 1970 shall become operative on July 1, 1972.

SEC. 2. This act shall become operative only if Reorganization Plan No. 1 of 1970 becomes effective.

CHAPTER 1435

An act to amend Section 12080.2 of, to add Section 12080.5 to, and to repeal Sections 8523 and 12080.5 of, the Government Code, relating to executive reorganization.

[Approved by Governor September 18, 1970. Filed with Secretary of State September 18, 1970.]

The people of the State of California do enact as follows:

SECTION 1. Section 8523 of the Government Code is repealed.

SEC. 2. Section 12080.2 of the Government Code is amended to read:

12080.2. Whenever the Governor finds that reorganization is in the public interest, he shall prepare one or more reorgani-

zation plans in the form and language of a bill as nearly as practicable and transmit each, bearing an identifying number, to the Legislature, with a declaration that, with respect to each reorganization included in the plan, he has so found. The delivery to both houses may be at any time during a regular session of the Legislature. The Governor, in his message transmitting a reorganization plan, shall explain the advantages which it is probable will be brought about by the taking effect of the reorganization included in the plan, and he shall specify with respect to each abolition of a function included in the plan the statutory authority for the exercise of the function. Reorganization plans submitted to the Legislature pursuant to this section shall express clearly and specifically the nature and purposes of the plan or plans.

Upon delivery of a reorganization plan, each house shall assign the plan to an appropriate standing committee for study. Prior to the end of the 60-calendar-day period defined in Section 12080.5, such standing committee shall prepare a report on the plan with or without recommendation. Assignment to a committee as provided by this section shall not constitute an assignment for further study within the meaning of Section 12080.5.

SEC. 3. Section 12080.5 of the Government Code is repealed.

SEC. 4. Section 12080.5 is added to the Government Code, to read:

12080.5. Except as otherwise provided in this section, a reorganization plan submitted pursuant to this article shall become effective the first day after 60 calendar days of continuous session of the Legislature after the date on which the plan is transmitted to each house or at a later date as may be provided by the plan, unless, between the date of transmittal and the end of the 60-calendar-day period, either house of the Legislature determines by a majority vote of the duly elected and qualified members thereof that further study of such plan is needed and assigns such plan for study to a committee.

Notwithstanding the foregoing provisions of this section, no reorganization plan shall become effective unless both houses have voted on the question of whether the plan is in need of further study and should be assigned to a committee for such study.

As used in this section "60 calendar days of continuous session" shall be deemed broken only by an adjournment sine die, but in computing the 60 calendar days for the purposes of this provision days on which either house is not in session because of a recess of more than three days to a day certain shall not be included.

If the Governor submits a reorganization plan or reorganization plans to the Legislature and it adjourns sine die before 60 calendar days have elapsed, such plans shall, without action by either house, not be effective. The plans may be resubmitted to the Legislature when it next convenes.

CHAPTER 1436

An act to amend Sections 17922 and 17951 of, to add Sections 17958, 17958.5, and 17958.7 to, and to repeal Chapter 9 (commencing with Section 19825) of Part 3 of, the Health and Safety Code, relating to housing.

[Approved by Governor September 18, 1970. Filed with Secretary of State September 18, 1970.]

The people of the State of California do enact as follows:

SECTION 1. Section 17922 of the Health and Safety Code is amended to read:

17922. Except as otherwise specifically provided by law, the rules and regulations adopted, amended, or repealed from time to time pursuant to this chapter shall impose the same requirements as are contained in the Uniform Housing Code, 1970 edition, the Uniform Building Code, 1970 edition, as adopted by the International Conference of Building Officials, the Uniform Plumbing Code, 1970 edition, as adopted by the International Association of Plumbing and Mechanical Officials, the Uniform Mechanical Code, 1970 edition, as adopted by the International Conference of Building Officials and the International Association of Plumbing and Mechanical Officials, and the National Electrical Code, 1968 edition, as adopted by the National Fire Protection Association. In promulgating regulations the commission shall consider local conditions and any amendments to the uniform codes referred to in this section.

Local use zone requirements, local fire zones, building setback, side and rear yard requirements, and property line requirements are hereby specifically and entirely reserved to the local jurisdictions notwithstanding any requirements found or set forth in this part.

SEC. 2. Section 17951 of the Health and Safety Code is amended to read:

17951. (a) The governing body of any city or county may prescribe fees for permits, certificates, or other forms or documents required or authorized by this part or rules and regulations promulgated pursuant thereto.

(b) The provisions of this part are not intended to prevent the use of any material, appliance, installation, device, arrangement, or method of construction not specifically prescribed by this part, provided any such alternate has been approved.

The building department of any city or county may approve any such alternate if it finds that the proposed design is satisfactory and that the material, appliance, installation, device, arrangement, method, or work offered is, for the purpose intended, at least the equivalent of that prescribed in this part in quality, strength, effectiveness, fire resistance, durability, safety and for the protection of safety and health.

The building department of any city or county shall require evidence that any material, appliance, installation, device ar-

rangement, or method of construction conforms to, or that the proposed alternate is at least equivalent to, the requirements of this part, and rules and regulations promulgated pursuant thereto and in order to substantiate claims for alternates, the building department of any city or county may require tests as proof of compliance to be made at the expense of the owner or his agent by an approved testing agency.

SEC. 3. Section 17958 is added to the Health and Safety Code, to read:

17958. The governing body of every city or county shall adopt ordinances or regulations imposing the same requirements as are contained in the regulations adopted pursuant to Section 17922 within one year after the effective date of this section. If any city or county does not adopt such ordinances or regulations, the provisions of this part and the rules and regulations promulgated thereunder shall be applicable within one year after the effective date of this section.

SEC. 4. Section 17958.5 is added to the Health and Safety Code, to read:

17958.5. In adopting the ordinances or regulations pursuant to Section 17958, a city or county may make such changes or modifications in the requirements contained in regulations adopted pursuant to Section 17922 as it determines are reasonably necessary because of local conditions.

SEC. 5. Section 17958.7 is added to the Health and Safety Code, to read:

17958.7. The governing body of a city or county before making any modifications or changes pursuant to Section 17958.5 shall make an express finding that such modifications or changes are needed. Such a finding shall be available as a public record and a copy, together with the modification or change, filed with the department. Nothing contained in this part shall be construed to require the governing body of any city or county to alter in any way building regulations enacted on or before the effective date of this section.

SEC. 6. Chapter 9 (commencing with Section 19825) of Part 3 of Division 13 of the Health and Safety Code is repealed.

SEC. 7. The Legislature hereby finds and declares that the uniformity of codes throughout the State of California is a matter of statewide interest and concern since it would reduce housing costs and increase the efficiency of private housing construction industry and its production.

Uniformity can be achieved within a framework of local autonomy, by allowing local governments to adopt changes making modifications in such codes based on differences in local conditions, but requiring express findings as reasons for those changes, which would serve as a deterrent to the excessive adoption of changes or modifications.

Thus, such uniformity, by bringing about such reduction of costs and increase of efficiency, would substantially help to meet the housing needs within this state.

CHAPTER 1437

An act to amend Sections 660, 661, 662, 3151, 4562, 4563, and 4564 of the Public Resources Code, to amend Section 152 of the Water Code, and to amend Sections 902 and 903 of the Agricultural Code, relating to the executive branch of the state government.

In considering qualifications of such members of the commission, engineering ability and experience shall be deemed advisable. Two members of the commission appointed by the Governor shall be members

The next two members appointed to the commission by the Governor after the effective date of the amendment of this section at the 1970 Regular Session of the Legislature shall be members of the public having such interest in and knowledge of the environment.

CHAPTER 1438

An act to amend Sections 6872, 7051, and 7057 of, and to add Section 7061.1 to, the Public Resources Code, relating to oil and gas.

[Approved by Governor September 18, 1970. Filed with Secretary of State September 18, 1970.]

The people of the State of California do enact as follows:

SECTION 1. Section 6872 of the Public Resources Code is amended to read:

6872. (a) Tide and submerged lands other than those which may be leased under Section 6871.1 and Section 6872.1, may be leased by the commission if the commission shall determine (1) that oil or gas deposits are believed to be contained in such lands, (2) that the same are being drained by means of wells upon adjacent lands, and (3) that the leasing of the

same for the production of oil and gas will be in the best interests of the state.

(b) Notwithstanding any other provision of this section, no tide and submerged lands within the areas of the County of Los Angeles described in subdivision (a) of Section 6871.2 may be leased by the commission unless such lands are within one nautical mile of the ordinary high water mark, the conditions of subdivision (a) of this section have been met, and the drilling for oil and gas deposits is to be done by means of slant drilling from an upland site.

SEC. 2. Section 7051 of the Public Resources Code is amended to read:

7051. (a) The board of supervisors, boards of trustees, directors or other governing body of any county or other public or quasi-public corporation, body or agency authorized to acquire and hold real property pursuant to the statutory authority under which such county, corporation, body or agency is created may, under such limitations and restrictions as are prescribed by law, lease for the production of oil, gas and other hydrocarbons or for the mining of any other minerals whatsoever, any land owned by the county or such other public or quasi-public corporation, body or agency, or include such land in a community lease embracing adjoining lands, or enter into compensatory royalty agreements in lieu of making such lease, whenever, in the judgment of the governing body, the public use of such property shall not be substantially interfered with thereby. No land used, owned, dedicated, or acquired by purchase, condemnation, gift, or otherwise, as a public park, highway, street, walk, or public playground shall be so leased unless the use of such property for park, highway, street, walk or public playground purposes shall not be substantially interfered with thereby; provided, however, that if in the judgment of the governing body of any such park, highway, street, walk or public playground, drilling for oil or gas would not substantially interfere with the use of such property for park, highway, street, walk or playground purposes, then any such lease on any such property shall provide that drilling for oil or gas beneath the surface of such property shall be done by means of slant drilling from surface locations, outside the outer boundaries of any such property, or from designated locations inside the outer boundaries of such property, which inside locations have been approved by the county parks commission and will not interfere substantially with the use of such property for such park, highway, street, walk or playground purposes. No land owned or under the jurisdiction of the county or such other public or quasi-public corporation, body or agency lying within 300 feet above the line of high tide, or at any point below the line of high tide, of the Pacific Ocean, or any arm, bay, or inlet of the Pacific Ocean shall be leased for the drilling for and production of petroleum products or other minerals, unless the use of such property for public purposes shall not be substantially interfered with thereby; provided,

however, that if in the judgment of the governing body of any such land, drilling for oil or gas would not substantially interfere with the use of such property for public purposes, then any such lease on any such property shall provide that drilling for oil or gas beneath the surface of such property shall be done by means of slant drilling from surface locations, outside the outer boundaries of any such property, or from designated locations inside the outer boundaries of such property, which inside locations have been approved by the governing body and will not interfere substantially with the use of such property for public purposes.

(b) Notwithstanding any other provision of this section, no tide or submerged lands owned or under the jurisdiction of the county or such other public or quasi-public corporation, body or agency shall be leased for the exploration for, drilling for or production of petroleum products within the boundaries of the areas of the County of Los Angeles described in subdivision (a) of Section 6871.2 unless such lands are within one nautical mile of the ordinary high water mark, the applicable conditions of the Public Resources Code and requirements of the State Lands Commission have been met, and the drilling for oil and gas deposits is to be done by means of slant drilling from an upland site.

SEC. 3. Section 7057 of the Public Resources Code is amended to read:

7057. The property of any city may be leased for the purpose of producing or effecting the production of minerals, oil, gas or other hydrocarbon substances for a period not to exceed 35 years unless such property shall have been dedicated or acquired as a park, highway, street, walk or public playground, in which event such property may be leased for such purposes provided that the use of such property for park, highway, street, walk or public playground purposes shall not be substantially interfered with thereby; provided however, that if in the judgment of the governing body of any such park, highway, street, walk or public playground, drilling for oil or gas would not substantially interfere with the use of such property for park, highway, street, walk or playground purposes, then any such lease on any such property shall provide that drilling for oil or gas beneath the surface of such property shall be done by means of slant drilling from surface locations outside the outer boundaries of any such property, or from designated locations inside the outer boundaries of such property, which inside locations will not interfere substantially with the use of such property for such park, highway, street, walk or playgound purposes. Such governing body shall prescribe such terms and conditions in such lease to the end that any drilling and producing operations will interfere as little as is possible with the use of the property for such park, highway, street, walk or playground purposes.

The amendment of this section made at the 1959 Regular Session of the Legislature does not constitute a change in, but is declaratory of, the preexisting law.

Notwithstanding any other provision of this section, no tide or submerged lands owned or under the jurisdiction of any city shall be leased for the exploration for, drilling for or production of petroleum products within the boundaries of the areas of the County of Los Angeles described in subdivision (a) of Section 6871.2 unless such lands are within one nautical mile of the ordinary high water mark, the applicable conditions of the Public Resources Code and requirements of the State Lands Commission have been met, and the drilling for oil and gas deposits is to be done by means of slant drilling from an upland site.

SEC. 4. Section 7061.1 is added to the Public Resources Code, to read:

7061.1. Notwithstanding the provisions of Section 7058, no city, county, city and county, or district may enter into a unit or cooperative agreement pursuant to that section under which exploration for, drilling for, or production of petroleum products is proposed with respect to any part or parts of an oil and gas field located in tide or submerged lands which are within the boundaries of the areas of the County of Los Angeles described in subdivision (a) of Section 6871.2 unless such lands are within one nautical mile of the ordinary high water mark, the applicable conditions of the Public Resources Code and requirements of the State Lands Commission have been met, and the drilling for oil and gas deposits is to be done by means of slant drilling from an upland site.

CHAPTER 1440

An act to amend Section 14771 of the Revenue and Taxation Code, relating to inheritance tax appraisers.

[Approved by Governor September 18, 1970. Filed with Secretary of State September 18, 1970.]

The people of the State of California do enact as follows:

SECTION 1. Section 14771 of the Revenue and Taxation Code is amended to read:

Thereafter, the term of office of an inheritance tax referee shall be four years, expiring on June 30. In increasing the inheritance tax referees in any county thereafter, the Controller shall stagger the terms of the new appointees to conform as nearly as practicable to the requirements of this paragraph.

For purposes of this section, any person who has passed the qualification examination for inheritance tax appraiser given in 1967 or 1970 shall be deemed a qualified applicant. Once

qualified an applicant remains eligible for appointment for a period of five years from the date of his examination. Once appointed an inheritance tax referee remains eligible for reappointment.

Except in the case of an interim appointment as provided for by this section, no person who is an inheritance tax appraiser and who is not a qualified applicant as provided in this section shall remain in office as an inheritance tax referee after June 30, 1971, and the appointment of any such person as an inheritance tax appraiser shall terminate at 12:01 a.m. on July 1, 1971.

CHAPTER 1441

An act to amend Section 1538.5 of the Penal Code, relating to criminal procedure.

[Approved by Governor September 18, 1970. Filed with Secretary of State September 18, 1970.]

The people of the State of California do enact as follows:

SECTION 1. Section 1538.5 of the Penal Code is amended to read:

1538.5. (a) A defendant may move for the return of property or to suppress as evidence any tangible or intangible thing obtained as a result of a search or seizure on the ground that:

(1) The search or seizure without a warrant was unreasonable; or

(2) The search or seizure with a warrant was unreasonable because (i) the warrant is insufficient on its face; (ii) the property or evidence obtained is not that described in the warrant; (iii) there was not probable cause for the issuance of the warrant; (iv) the method of execution of the warrant violated federal or state constitutional standards; or (v) there was any other violation of federal or state constitutional standards.

(b) When consistent with the procedures set forth in this section and subject to the provisions of Section 170 through 170.6 of the Code of Civil Procedure, the motion should first

be heard by the magistrate who issued the search warrant if there is a warrant.

(c) Whenever a search or seizure motion is made in the municipal, justice or superior court as provided in this section, the judge or magistrate shall receive evidence on any issue of fact necessary to determine the motion.

(d) If a search or seizure motion is granted pursuant to the proceedings authorized by this section, the property or evidence shall not be admissible against the movant at any trial or other hearing unless further proceedings authorized by this section or Section 1238 or Section 1466 are utilized by the people.

(e) If a search or seizure motion is granted at a trial, the property shall be returned upon order of the court unless it is otherwise subject to lawful detention. If the motion is granted at a special hearing, the property shall be returned upon order of the court only if, after the conclusion of any further proceedings authorized by this section or Section 1238 or Section 1466, the property is not subject to lawful detention or if the time for initiating such proceedings has expired, whichever occurs last. If the motion is granted at a preliminary hearing, the property shall be returned upon order of court after 10 days unless the property is otherwise subject to lawful detention or unless, within that time, further proceedings authorized by this section or Section 1238 are utilized; if they are utilized, the property shall be returned only if, after the conclusion of such proceedings, the property is no longer subject to lawful detention.

(f) If the property or evidence relates to a felony offense initiated by a complaint, the motion may be made in the municipal or justice court at the preliminary hearing.

(g) If the property or evidence relates to a misdemeanor complaint, the motion shall be made in the municipal or justice court before trial and heard prior to trial at a special hearing relating to the validity of the search or seizure. If the property or evidence relates to a misdemeanor filed together with a felony, the procedure provided for a felony in this section and Sections 1238 and 1539 shall be applicable.

(h) If, prior to the trial of a felony or misdemeanor, opportunity for this motion did not exist or the defendant was not aware of the grounds for the motion, the defendant shall have the right to make this motion during the course of trial in the municipal, justice or superior court. Furthermore, the court in its discretion may entertain the motion during the course of the trial.

(i) If the property or evidence obtained relates to a felony offense initiated by complaint and the defendant was held to answer at the preliminary hearing, or if the property or evidence relates to a felony offense initiated by indictment, the defendant shall have the right to renew or make the motion in the superior court at a special hearing relating to the validity of the search or seizure which shall be heard prior to trial and

at least 10 days after notice to the people unless the people are willing to waive a portion of this time. The defendant shall have the right to litigate the validity of a search or seizure de novo on the basis of the evidence presented at a special hearing. After the special hearing is held in the superior court, any review thereafter desired by the defendant prior to trial shall be by means of an extraordinary writ of mandate or prohibition filed within 30 days after the denial of his motion at the special hearing.

(j) If the property or evidence relates to a felony offense initiated by complaint and the defendant's motion for the return of the property or suppression of the evidence at the preliminary hearing is granted, and if the defendant is not held to answer at the preliminary hearing, the people may file a new complaint or seek an indictment after the preliminary hearing, and the ruling at the prior hearing shall not be binding in any subsequent proceeding. If the property or evidence relates to a felony offense initiated by complaint and the defendant's motion for the return or suppression of the property or evidence at the preliminary hearing is granted, and if the defendant is held to answer at the preliminary hearing, the ruling at the preliminary hearing shall be binding upon the people unless, upon notice to the defendant and the court in which the preliminary hearing was held and upon the filing of an information, the people within 10 days after the preliminary hearing request in the superior court a special hearing, in which case the validity of the search or seizure shall be relitigated de novo on the basis of the evidence presented at the special hearing, and the defendant shall be entitled, as a matter of right, to a continuance of the special hearing for a period of time up to 30 days. If defendant's motion is granted at a special hearing in the superior court, the people, if they have additional evidence relating to the motion and not presented at the special hearing, shall have the right to show good cause at the trial why such evidence was not presented at the special hearing and why the prior ruling at the special hearing should not be binding, or the people may seek appellate review as provided in subdivision (o) of this section, unless the court prior to the time such review is sought has dismissed the case pursuant to Section 1385. If the property or evidence seized relates solely to a misdemeanor complaint, and the defendant made a motion for the return of property or the suppression of evidence in the municipal court or justice court prior to trial, both the people and defendant shall have the right to appeal any decision of that court relating to that motion to the superior court of the county in which such inferior court is located, in accordance with the California Rules of Court provisions governing appeals from municipal and justice courts in criminal cases. If the people prosecute review by appeal or writ to decision, or any review thereof, in a felony or misdemeanor case, it shall be binding upon them.

(k) If the defendant's motion to return property or suppress evidence is granted and the case is dismissed pursuant to Section 1385, or the people appeal in a misdemeanor case pursuant to subdivision (j), the defendant shall be released pursuant to Section 1318 if he is in custody and not returned to custody unless the proceedings are resumed in the trial court and he is lawfully ordered by the court to be returned to custody.

If the defendant's motion to return property or suppress evidence is granted and the people file a petition for writ of mandate or prohibition pursuant to subdivision (o) or a notice of intention to file such a petition, the defendant shall be released pursuant to Section 1318 unless (1) he is charged with a capital offense in a case where the proof is evident and the presumption great, or (2) he is charged with a noncapital offense defined in Chapter 1 (commencing with Section 187) of Title 8 of Part 1 and the court orders that the defendant be discharged from actual custody upon bail.

(*l*) If the defendant's motion to return property or suppress evidence is granted, the trial of a criminal case shall be stayed to a specified date pending the termination in the appellate courts of the State of California of the proceedings provided for in this section, Section 1238, or Section 1466 and, except upon stipulation of the parties, pending the time for the initiation of such proceedings. Upon the termination of such proceedings, the defendant shall be brought to trial as provided by Section 1382, and subject to the provisions of Section 1382, whenever the people have sought and been denied appellate review pursuant to subdivision (o) of this section, the defendant shall be entitled to have the action dismissed if he is not brought to trial within 30 days of the date of the order which is the last denial of the petition. Nothing contained in this subdivision shall prohibit a court, at the same time as it rules upon the search and seizure motion, from dismissing a case pursuant to Section 1385 when such dismissal is upon the court's own motion and is based upon an order at the special hearing granting defendant's motion to return property or suppress evidence. In a misdemeanor case, the defendant shall be entitled to a continuance of up to 30 days if he intends to file a motion to return property or suppress evidence and needs this time to prepare for the special hearing on the motion. In case of an appeal by the defendant in a misdemeanor case from the denial of such motion, he shall be entitled to bail as a matter of right, and, in the discretion of the trial or appellate court, may be released on his own recognizance pursuant to Section 1318.4.

(m) The proceedings provided for in this section, Section 955, Section 1238, and Section 1466 shall constitute the sole and exclusive remedies prior to conviction to test the unreasonableness of a search or seizure where the person making the motion for the return of property or the suppression of evidence is a defendant in a criminal case and the property or

thing has been offered or will be offered as evidence against him. A defendant may seek further review of the validity of a search or seizure on appeal from a conviction in a criminal case notwithstanding the fact that such judgment of conviction is predicated upon a plea of guilty. Such review on appeal may be obtained by the defendant providing that at some stage of the proceedings prior to conviction he has moved for the return of property or the suppression of the evidence.

(n) Nothing contained in this section shall prohibit a person from making a motion, otherwise permitted by law, to return property, brought on the ground that the property obtained is protected by the free speech and press provisions of the federal and state constitutions. Nothing in this section shall be construed as altering (i) the law of standing to raise the issue of an unreasonable search or seizure; (ii) the law relating to the status of the person conducting the search or seizure; (iii) the law relating to the burden of proof regarding the search or seizure; (iv) the law relating to the reasonableness of a search or seizure regardless of any warrant which may have been utilized; or (v) the procedure and law relating to a motion made pursuant to Section 995 or the procedures which may be initiated after the granting or denial of such a motion.

(o) Within 30 days after a defendant's motion is granted at a special hearing in the superior court, the people may file a petition for writ of mandate or prohibition, seeking appellate review of the ruling regarding the search or seizure motion. If the trial of a criminal case is set for a date which is less than 30 days from the granting of a defendant's motion at a special hearing in the superior court, the people, if they have not filed such a petition and wish to preserve their right to file such a petition, shall file in the superior court on or before the trial date or within 10 days after the special hearing, whichever occurs last, a notice of intention to file such a petition and shall serve a copy of the notice upon the defendant.

SEC. 1.5. Section 1538.5 of the Penal Code is amended to read:

1538.5. (a) A defendant may move for the return of property or to suppress as evidence any tangible or intangible thing obtained as a result of a search or seizure on either of the following grounds:

(1) The search or seizure without a warrant was unreasonable.

(2) The search or seizure with a warrant was unreasonable because (i) the warrant is insufficient on its face; (ii) the property or evidence obtained is not that described in the warrant; (iii) there was not probable cause for the issuance of the warrant; (iv) the method of execution of the warrant violated federal or state constitutional standards; or (v) there was any other violation of federal or state constitutional standards.

(b) When consistent with the procedures set forth in this section and subject to the provisions of Section 170 through

170.6 of the Code of Civil Procedure, the motion should first be heard by the magistrate who issued the search warrant if there is a warrant.

(c) Whenever a search or seizure motion is made in the municipal, justice or superior court as provided in this section, the judge or magistrate shall receive evidence on any issue of fact necessary to determine the motion.

(d) If a search or seizure motion is granted pursuant to the proceedings authorized by this section, the property or evidence shall not be admissible against the movant at any trial or other hearing unless further proceedings authorized by this section or Section 1238 or Section 1466 are utilized by the people.

(e) If a search or seizure motion is granted at a trial, the property shall be returned upon order of the court unless it is otherwise subject to lawful detention. If the motion is granted at a special hearing, the property shall be returned upon order of the court only if, after the conclusion of any further proceedings authorized by this section or Section 1238 or Section 1466, the property is not subject to lawful detention or if the time for initiating such proceedings has expired, whichever occurs last. If the motion is granted at a preliminary hearing, the property shall be returned upon order of court after 10 days unless the property is otherwise subject to lawful detention or unless, within that time, further proceedings authorized by this section or Section 1238 are utilized; if they are utilized, the property shall be returned only if, after the conclusion of such proceedings, the property is no longer subject to lawful detention.

(f) If the property or evidence relates to a felony offense initiated by a complaint, the motion may be made in the municipal or justice court at the preliminary hearing.

(g) If the property or evidence relates to a misdemeanor complaint, the motion shall be made in the municipal or justice court before trial and heard prior to trial at a special hearing relating to the validity of the search or seizure. If the property or evidence relates to a misdemeanor filed together with a felony, the procedure provided for a felony in this section and Sections 1238 and 1539 shall be applicable.

(h) If, prior to the trial of a felony or misdemeanor, opportunity for this motion did not exist or the defendant was not aware of the grounds for the motion, the defendant shall have the right to make this motion during the course of trial in the municipal, justice or superior court.

(i) If the property or evidence obtained relates to a felony offense initiated by complaint and the defendant was held to answer at the preliminary hearing, or if the property or evidence relates to a felony offense initiated by indictment, the defendant shall have the right to renew or make the motion in the superior court at a special hearing relating to the validity of the search or seizure which shall be heard prior to trial and at least 10 days after notice to the people unless the people

are willing to waive a portion of this time. The defendant shall have the right to litigate the validity of a search or seizure de novo on the basis of the evidence presented at a special hearing. After the special hearing is held in the superior court, any review thereafter desired by the defendant prior to trial shall be by means of an extraordinary writ of mandate or prohibition filed within 30 days after the denial of his motion at the special hearing.

(j) If the property or evidence relates to a felony offense initiated by complaint and the defendant's motion for the return of the property or suppression of the evidence at the preliminary hearing is granted, and if the defendant is not held to answer at the preliminary hearing, the people may file a new complaint or seek an indictment after the preliminary hearing, and the ruling at the prior hearing shall not be binding in any subsequent proceeding. If the property or evidence relates to a felony offense initiated by complaint and the defendant's motion for the return or suppression of the property or evidence at the preliminary hearing is granted, and if the defendant is held to answer at the preliminary hearing, the ruling at the preliminary hearing shall be binding upon the people unless, upon notice to the defendant and the court in which the preliminary hearing was held and upon the filing of an information, the people within 10 days after the preliminary hearing request in the superior court a special hearing, in which case the validity of the search or seizure shall be relitigated de novo on the basis of the evidence presented at the special hearing, and the defendant shall be entitled, as a matter of right, to a continuance of the special hearing for a period of time up to 30 days. If defendant's motion is granted at a special hearing in the superior court, the people, if they have additional evidence relating to the motion and not presented at the special hearing, shall have the right to show good cause at the trial why such evidence was not presented at the special hearing and why the prior ruling at the special hearing should not be binding, or the people may seek appellate review as provided in subdivision (o), unless the court prior to the time such review is sought has dismissed the case pursuant to Section 1385. If the property or evidence seized relates solely to a misdemeanor complaint, and the defendant made a motion for the return of property or the suppression of evidence in the municipal court or justice court prior to trial, both the people and defendant shall have the right to appeal any decision of that court relating to that motion to the superior court of the county in which such inferior court is located, in accordance with the California Rules of Court provisions governing appeals from municipal and justice courts in criminal cases. If the people prosecute review by appeal or writ to decision, or any review thereof, in a felony or misdemeanor case, it shall be binding upon them.

(k) If the defendant's motion to return property or suppress evidence is granted and the case is dismissed pursuant to Section 1385, or the people appeal in a misdemeanor case pursuant to subdivision (j), the defendant shall be released pursuant to Section 1318 if he is in custody and not returned to custody unless the proceedings are resumed in the trial court and he is lawfully ordered by the court to be returned to custody.

If the defendant's motion to return property or suppress evidence is granted and the people file a petition for writ of mandate or prohibition pursuant to subdivision (o) or a notice of intention to file such a petition, the defendant shall be released pursuant to Section 1318 unless (1) he is charged with a capital offense in a case where the proof is evident and the presumption great, or (2) he is charged with a noncapital offense defined in Chapter 1 (commencing with Section 187) of Title 8 of Part 1 and the court orders that the defendant be discharged from actual custody upon bail.

(*l*) If the defendant's motion to return property or suppress evidence is granted, the trial of a criminal case shall be stayed to a specified date pending the termination in the appellate courts of this state of the proceedings provided for in this section, Section 1238, or Section 1466 and, except upon stipulation of the parties, pending the time for the initiation of such proceedings. Upon the termination of such proceedings, the defendant shall be brought to trial as provided by Section 1382, and subject to the provisions of Section 1382, whenever the people have sought and been denied appellate review pursuant to subdivision (o), the defendant shall be entitled to have the action dismissed if he is not brought to trial within 30 days of the date of the order which is the last denial of the petition. Nothing contained in this subdivision shall prohibit a court, at the same time as it rules upon the search and seizure motion, from dismissing a case pursuant to Section 1385 when such dismissal is upon the court's own motion and is based upon an order at the special hearing granting defendant's motion to return property or suppress evidence. In a misdemeanor case, the defendant shall be entitled to a continuance of up to 30 days if he intends to file a motion to return property or suppress evidence and needs this time to prepare for the special hearing on the motion. In case of an appeal by the defendant in a misdemeanor case from the denial of such motion, he shall be entitled to bail as a matter of right, and, in the discretion of the trial or appellate court, may be released on his own recognizance pursuant to Section 1318.4.

(m) The proceedings provided for in this section, Section 995, Section 1238, and Section 1466 shall constitute the sole and exclusive remedies prior to conviction to test the unreasonableness of a search or seizure where the person making the motion for the return of property or the suppression of evidence is a defendant in a criminal case and the property or thing has been offered or will be offered as evidence against

him. A defendant may seek further review of the validity of a search or seizure on appeal from a conviction in a criminal case notwithstanding the fact that such judgment of conviction is predicated upon a plea of guilty. Such review on appeal may be obtained by the defendant providing that at some stage of the proceedings prior to conviction he has moved for the return of property or the suppression of the evidence.

(n) Nothing contained in this section shall prohibit a person from making a motion, otherwise permitted by law, to return property, brought on the ground that the property obtained is protected by the free speech and press provisions of the Federal and State Constitutions. Nothing in this section shall be construed as altering (i) the law of standing to raise the issue of an unreasonable search or seizure; (ii) the law relating to the status of the person conducting the search or seizure; (iii) the law relating to the burden of proof regarding the search or seizure; (iv) the law relating to the reasonableness of a search or seizure regardless of any warrant which may have been utilized; or (v) the procedure and law relating to a motion made pursuant to Section 995 or the procedures which may be initiated after the granting or denial of such a motion.

(o) Within 30 days after a defendant's motion is granted at a special hearing in the superior court, the people may file a petition for writ of mandate or prohibition, seeking appellate review of the ruling regarding the search or seizure motion. If the trial of a criminal case is set for a date which is less than 30 days from the granting of a defendant's motion at a special hearing in the superior court, the people, if they have not filed such a petition and wish to preserve their right to file such a petition, shall file in the superior court on or before the trial date or within 10 days after the special hearing, whichever occurs last, a notice of intention to file such a petition and shall serve a copy of the notice upon the defendant.

Therefore, in the event A B. 1748 is enacted and amends Section 1538.5, Section 1.5 of this act shall become operative at the same time that Section 1538 5 as amended by A.B. 1748 becomes operative, and at that time, Section 1538.5 of the Penal Code as amended by Section 1 of this act is repealed.

All of the foregoing are securities whether or not evidenced by a written document. "Security" does not include: (1) any beneficial interest in any voluntary inter vivos trust which is not created for the purpose of carrying on any business or solely for the purpose of voting, or (2) any beneficial interest in any testamentary trust, or (3) any insurance or endowment policy or annuity contract under which an insurance company admitted in this state promises to pay a sum of money (whether or not based upon the investment performance of a segregated fund) either in a lump sum or periodically for life or some other specified period, or (4) any franchise subject to registration under the Franchise Investment Law, or exempted from such registration by Section 31100 or 31101 of that law.

SEC. 2. Section 25100 of the Corporations Code is amended to read:

25100. The following securities are exempted from the provisions of Sections 25110, 25120, and 25130:

any one or more of the foregoing; or any certificate of deposit for any of the foregoing.

(b) Any security issued or guaranteed by the Dominion of Canada, any Canadian province, any political subdivision or municipality of any such province, or by any other foreign government with which the United States currently maintains diplomatic relations, if the security is recognized as a valid obligation by the issuer or guarantor; or any certificate of deposit for any of the foregoing.

(f) Any security consisting of any interest in all or portions of a parcel or parcels of real property which are subdivided lands or a subdivision or in a real estate development; provided that the exemption in this subdivision shall not be applicable to any investment contract sold or offered for sale with, or as part of, any such interest, or to any corporation engaged in the business of selling, distributing or supplying water for irrigation purposes or domestic use which is not a public utility.

The fact that amounts received from memberships or dues or both will or may be used to construct or otherwise acquire facilities for use by members of the nonprofit organization does not disqualify the organization for this exemption. This exemption does not apply to the securities of any nonprofit organization if any promoter thereof expects or intends to make a profit directly or indirectly from any business or activity associated with the organization or operation of such nonprofit organization or from remuneration received from such nonprofit organization.

(k) Any agreement, commonly known as a "life income contract," of an issuer (1) organized exclusively for educational, benevolent, fraternal, religious, charitable, social, or reformatory purposes and not for pecuniary profit and (2) which the commissioner designates by rule or order, with a donor in consideration of a donation of property to such issuer and providing for the payment to the donor or persons designated by him of income or specified periodic payments from the donated property or other property for the life of the donor or such other persons.

SEC. 3. Division 3 (commencing with Section 28000) of Title 4 of the Corporations Code is repealed.

SEC. 4. Division 3 (commencing with Section 28000) is added to Title 4 of the Corporations Code, to read:

DIVISION 3. RETIREMENT SYSTEMS DISCLOSURE LAW

CHAPTER 1. DEFINITIONS AND GENERAL PROVISIONS

28000. This division may be cited as the "Retirement Systems Disclosure Law."

28001. It is the policy of this law to protect the interests of participants in retirement systems by requiring disclosure and reporting to participants and beneficiaries of vital information where such information has not been reported or disclosed to such participants and beneficiaries under applicable federal law. It is the further policy of this law that the requirements for reporting and disclosure hereunder shall not be such as to duplicate any federal reporting and disclosure requirements nor shall they be such as to impose an unreasonable burden on employers or the administrators of retirement systems and thereby tend to discourage the establishment and continuation of such systems.

28002. As used in this division:

(a) "Retirement system" means any employees' pension, profit-sharing, stock bonus or similar benefit plan which meets the requirements for qualification under Section 401 of the Federal Internal Revenue Code or any statute amendatory thereof or supplementary thereto. Insofar as applicable to any retirement system, the terms "trust," "trust agreement," and "trust instrument" include the formal plan or plan description excluding any summary thereof, the trust instrument or agreement, the policy of insurance or related contract, if any, and any written administrative rules, regulations and interpretations governing the operation of the retirement system.

(b) "Employer" means any person acting directly as an employer or indirectly in the interest of an employer in relation to a retirement system, and includes a group or association of employers acting for an employer in such capacity.

(c) "Employee" means any individual employed by an employer.

(d) "Participant" means any employee or former employee of an employer or any member of an employee organization who is or may become eligible to receive a benefit of any type from a retirement system, or whose beneficiaries may be eligible to receive any such benefit.

(e) "Beneficiary" means a person designated by a participant or by the terms of a retirement system who is or may become entitled to a benefit thereunder.

(f) "Fiduciary" means any person who exercises any power of control, management or disposition with respect to any moneys or other property of a retirement system, or has authority or responsibility to do so. The commissioner may establish rules or regulations exempting any person as a fiduciary whose functions do not involve any significant risk that the moneys or other property of a retirement system will be applied for any purpose other than the exclusive benefit of the participants therein or the beneficiaries of such participants.

(g) "Party in interest" means any administrator, officer, trustee, custodian, counsel or employee of any retirement system, or a person providing services to any such system or an employer any of whose employees are covered by such a system or any person controlling, controlled by, or under common control with, such employer or officer or employee or agent of such employer, or such person, or a relative, partner, or joint venturer of any of the above-described persons.

(h) "Relative" means a spouse, ancestor, descendant, brother, sister, son-in-law, daughter-in-law, father-in-law, mother-in-law, brother-in-law or sister-in-law.

(i) "Administrator" means: (1) the person specifically so designated by the terms of the plan, trust agreement, contract, or other instrument under which the retirement system is operated; or (2) in the absence of such designation, the employer.

(j) "Participant account" means an account established or maintained by the administrator of a retirement system under which a participant's own contributions or his share of the employer's contributions, together with the income, gains, and losses from investment thereof, whether or not realized, are charged or credited. Nothing contained herein shall be deemed to require the administrator of any retirement system to maintain a participant account if under such system contributions are not specifically allocated to participants therein.

(k) "Person" means an individual, partnership, joint venture, corporation, mutual company, joint-stock company, trust, unincorporated organization, association, or employee organization.

(*l*) "Commissioner" means the Commissioner of Corporations.

28003. (a) Every person acting in the capacity of a fiduciary with respect to a retirement system shall be deemed a trustee and, as such, shall be subject to the obligations, duties, rights and liabilities imposed on trustees pursuant to Title 8 (commencing with Section 2215) of Part 4 of Division 3 of the Civil Code.

(b) The commissioner may establish rules or regulations exempting fiduciaries from subdivision (a) with respect to those activities which the commissioner determines do not involve any significant risk that the moneys or other property of a retirement system will be applied for any purpose other than

the exclusive benefit of the participants therein or the beneficiaries of such participants.

28004. No trust forming part of a retirement system shall be deemed invalid as violating any laws against perpetuities or suspension of the power of alienation of title to property; and the income arising from any property, real or personal, held in such trust may be permitted to accumulate until the fund is sufficient, in the opinion of the trustee or trustees thereof, to accomplish the purposes of the trust.

28005. The property of a retirement system, the portion of wages or salary of an employee deducted or to be deducted, the right of a participant or beneficiary to a benefit thereunder, and all his rights in the funds of the system, shall be exempt from taxation, attachment, garnishment, execution, and from the operation of any law relating to bankruptcy or insolvency.

28006. The provisions of this division, other than Sections 28004 and 28005, do not apply to a retirement system established by the government of the United States, or by any territory or insular possession thereof, or by the State of California or any county, city, municipal corporation, school district, or public district thereof, or by any group of employees of any of the foregoing governmental agencies, nor to the pension and retiring annuities system established by the Regents of the University of California.

28007. Any condition, stipulation, or provision which purports to waive any fiduciary's compliance with any provision of this law or any rule or order hereunder is void.

28008. If any provision of this division, or the application thereof to any person or circumstance, is held invalid, the remainder of this division, or the application of such provision to other persons or circumstances, shall not be affected thereby.

CHAPTER 2. REPORTING AND DISCLOSURE

28100. The administrator of every retirement system shall publish an annual report within one hundred and fifty (150) days after the end of the calendar or fiscal year on which the records of the system are kept. Such report shall include:

(a) The amount contributed by each employer; the amount contributed by the employees; the amount of benefits paid or otherwise furnished; a statement of the assets, liabilities, receipts and disbursements of the system; a statement of the salaries, fees and commissions charged to the system, to whom paid, in what amount, and for what purposes; the name and address of each administrator and fiduciary, his official position with respect to the system, his relationship to the employer, and any other office or position which he holds with any party in interest; and

(b) A detailed statement setting forth all information with respect to each transaction engaged in by the system of the

type described in Section 17637 of the Revenue and Taxation Code, regardless of whether such transaction constituted a "prohibited transaction" as defined in such section.

28101. The administrator of every retirement system which maintains participant accounts shall furnish annually to each participant a report setting forth the status of such participant's account as of the end of the preceding calendar or fiscal year on which the records of the system are kept. Each such report shall contain (a)(1) a statement of the fair value of the participant's account as of the reporting date and as of the immediately preceding reporting date or (2) in the case of a system which allocates securities the fair value of which is readily available to participants, a statement as of each of such dates of the aggregate securities so allocated; and (b) a statement of the contributions made during the reporting period by (1) the participant, and (2) the employer for the account of the participant. As used in this section, "fair value" means fair market value where available, and otherwise the fair value as determined in good faith by the administrator.

28102. The administrator of every retirement system providing insurance benefits shall furnish annually to each insured participant a description of such benefits.

28103. The commissioner may by rule or regulation specify the form of the reports required pursuant to this chapter. In lieu of such form, the administrator may complete and publish any form or forms containing substantially the information prescribed by Sections 28100, 28101 and 28102 required to be filed by the employer with the federal government to satisfy any federal tax or welfare and pension plan disclosure and reporting requirements. Retirement systems which file annual reports pursuant to the Federal Welfare and Pension Plans Disclosure Act (Pub.L. 85-836; 72 Stat. 997), as amended, containing substantially the information required by subdivision (a) of Section 28100, shall be exempt from the requirement of preparing any other annual report pursuant to subdivision (a) of Section 28100.

28104. Publication of the annual report required by Section 28100 shall be made as follows:

(a) The administrator shall make a copy of such annual report available for examination by any participant or beneficiary in the principal office of the administrator, if situated in this state, and otherwise in the principal branch office situated in this state, and if no office is situated in this state, the administrator shall mail a copy of such report to any participant or beneficiary who requests such copy in writing.

(b) The administrator, upon request of the commissioner, shall file with him a copy of such annual report and of any report required to be furnished pursuant to Sections 28101 and 28102.

(c) Whenever any administrator of a retirement system publishes as part of his annual report a detailed statement as

required by subdivision (b) of Section 28100, a copy of that portion of the annual report shall be filed with the commissioner no later than the date for publication of the annual report of the retirement system; in lieu of such a filing a copy of the statement required under Section 17637 of the Revenue and Taxation Code or of an equivalent filing required by the United States Internal Revenue Service may be filed.

28105. The administrator of every retirement system shall annually file with the commissioner a report setting forth all investment transactions conducted during the preceding calendar or fiscal year, and at the time of such filing pay to the commissioner a filing fee of twenty-five dollars ($25). The commissioner shall receive these reports and hold them available for inspection by participants and beneficiaries of the retirement system.

The provisions of this section shall not apply to any of the following:

(a) A retirement system in which all such contributions are paid to a trustee or cotrustee qualified and doing business in this state and subject to the supervision of the Superintendent of Banks or the Comptroller of the Currency, or in which all such contributions are paid to a trustee or cotrustee that is a bank and a member of a Federal Reserve bank:

(b) A retirement system in which all contributions are paid to an insurer authorized to do business in this state; or

(c) A retirement system which furnishes to all of its participants annually a statement in writing setting forth all investment transactions conducted during the preceding calendar or fiscal year.

28106. The participants of every retirement system shall be notified as to the location of the reports published under Sections 28100 and 28105. Such notification shall also indicate the participant's right to inspect such reports and include a statement that the Corporations Commissioner of this state is the state officer charged with the enforcement of the Retirement Systems Disclosure Law.

CHAPTER 3. ADMINISTRATION

28200. The commissioner may make such rules and regulations as are necessary to carry out the purposes and intent of this division.

28201. The Attorney General shall be counsel for the commissioner and shall render all legal services necessary for the administration of this division.

28202. Any order, decision, or other action of the commissioner in the administration of this division is subject to review in accordance with law.

CHAPTER 4. ENFORCEMENT

28300. For the purpose of discovering violations of this division and for securing information required by him, the commissioner may at any time investigate the affairs and examine the books, accounts, records and files of any retirement system and the administrator thereof, provided that nothing herein shall be construed to authorize an examination of the books or records of any bank or insurance company providing an insurance, investment, or related function of any retirement system if such books or records are subject to periodic examination by the Superintendent of Banks or Insurance Commissioner of this state or by the Comptroller of the Currency. The actual cost of every investigation and examination shall be paid to the commissioner by the person examined and the commissioner may maintain an action for the recovery of such costs in any court of competent jurisdiction.

28301. Any administrator who willfully fails to render any report or perform other duties required under this division shall upon conviction be punished by a fine of not more than one hundred dollars ($100) for each day such report is withheld or such duty is not performed, but not more than five thousand dollars ($5,000), or by imprisonment in the county jail for not more than one year, or be punished by both such fine and imprisonment.

28302. It is unlawful willfully to publish a false report under this division. Any person who willfully publishes such a false report shall upon conviction be fined not more than five thousand dollars ($5,000) or imprisoned in the state prison for not more than five years or in a county jail for not more than one year, or be punished by both such fine and imprisonment.

28303. Whenever he believes from evidence satisfactory to him that any individual has violated or is about to violate any provision of this division, or of Title 8 (commencing with Section 2215) of Part 4 of Division 3 of the Civil Code, the commissioner may order the individual to desist and to refrain from the violation or threatened violation of these divisions. If, after such an order has been made, a request for a hearing is filed in writing by the person to whom such order was directed, a hearing shall be held in accordance with the provisions of the Administrative Procedure Act, Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code, and the commissioner shall have all of the powers granted thereunder; unless such hearing is commenced within 60 days after the request is made (or the person affected consents to a later date), such order is rescinded.

28304. Whenever the commissioner believes from evidence satisfactory to him that any individual has violated or is about to violate any provision of this division, or of Title 8 (commencing with Section 2215) of Part 4 of Division 3 of the

Civil Code, he may bring an action in the name of the people of the State of California in the superior court of the State of California, against the individual to enjoin the individual from continuing the violation or engaging therein, or doing any act or acts in furtherance thereof. In the action a preliminary or permanent injunction, restraining order, or writ of mandate may be granted and a receiver or conservator may be appointed for the defendant or the assets of the retirement systems involved. The court shall not require the commissioner to post a bond.

28305. If the commissioner, as a result of any examination or from any report made to him, finds that a retirement system is being conducted in such an unsafe or injurious manner as to render further operations hazardous to participants of a retirement system he may, after a hearing in accordance with the Administrative Procedure Act, Chapter 5 (commencing with Section 11500) Part 1, Division 3, Title 2 of the Government Code, order the retirement system to cease operations and to liquidate, or he may, without such hearing take possession of the business and assets for the protection of the participants of the retirement system; provided, however, that the commissioner may not take such action as to any retirement system in which all contributions are paid to a trustee or cotrustee qualified and doing business in this state and subject to the supervision of the Superintendent of Banks or the Comptroller of the Currency, or in which all such contributions are paid to a trustee or cotrustee that is a bank and a member of a Federal Reserve bank, or in which all such contributions are paid to an insurer authorized to do business in this state.

SEC. 5. It is the intent of the Legislature, if amendments to Section 25019 of the Corporations Code proposed by both this bill and Senate Bill No. 647 are enacted, that both amendments be given effect and incorporated in Section 25019 in the form set forth in Section 1.5 of this act. Therefore, in the event Senate Bill No. 647 is enacted and amends Section 25019, Section 1.5 of this act shall become operative at the same time that Section 25019 as amended by Senate Bill No. 647 becomes operative, and at that time, Section 25019 of the Corporations Code as amended by Section 1 of this act is repealed.

SEC. 6. This act shall become operative on January 1, 1971.

CHAPTER 1444

An act to add Section 169 to the Penal Code, relating to administration of justice, and declaring the urgency thereof, to take effect immediately.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order to prevent this disruption and preserve the orderly processes of the judicial system, it is necessary that this act be given immediate effect.

He shall have informed both the commission and the governing board of the date, time and place of the hearing. He may after such public hearing either reject, or, with the concurrence of the commission, amend the proposed budget. In the absence of agreement between the personnel commission and the county superintendent the budget of the preceding year shall determine the amount of the new budget, and the items of expenditure shall be determined by the commission.

SEC. 2. Section 13711.5 is added to the Education Code, to read:

For purposes of this subdivision, "racing vehicle" means a motor vehicle of a type used exclusively in a contest of speed or in a competitive trial of speed which is not intended for use on the highways.

CHAPTER 1447

An act to amend Section 19253.5 of, and add Section 21023.5 to, the Government Code, relating to the Public Employees' Retirement System.

[Approved by Governor September 18, 1970. Filed with Secretary of State September 18, 1970.]

The people of the State of California do enact as follows:

SECTION 1. Section 19253.5 of the Government Code is amended to read:

19253.5. (a) In accordance with board rule, the appointing power may require an employee to submit to a medical examination by a physician or physicians designated by the ap-

pointing power to evaluate the capacity of the employee to perform the work of his position.

(b) Fees for the examination and for the services of medical specialists or technicians, if necessary, shall be paid by the state agency. The employee may submit medical or other evidence to the examining physician or to the appointing power. The examining physician shall make a written report of the examination to the appointing power. The appointing power shall provide a copy to the physician designated by the employee.

(c) When the appointing power, after considering the conclusions of the medical examination and other pertinent information, concludes that the employee is unable to perform the work of his present position, but is able to perform the work of another position including one of less than full time, the appointing power may demote or transfer the employee to such a position.

The employee demoted or transferred pursuant to this section shall receive the maximum of the salary range of the class to which he is demoted or transferred, provided that such salary is not greater than the salary he received at the time of his demotion or transfer.

(d) When the appointing power after considering the conclusions of the medical examination provided for by this section or medical reports from the employee's physician, and other pertinent information, concludes that the employee is unable to perform the work of his present position, or any other position in the agency, and the employee is not eligible or waives the right to retire for disability and elects to withdraw his retirement contributions or to permit his contributions to remain in the retirement fund with rights to service retirement, the appointing power may terminate the appointment of the employee.

(e) The appointing power may demote, transfer or terminate an employee under this section without requiring the employee to submit to a medical examination, when the appointing power relies upon a written statement submitted to the appointing power by the employee as to the employee's condition or upon medical reports submitted to the appointing power by the employee.

(f) The employee shall be given written notice of any demotion, transfer, or termination under this section at least 15 days prior to the effective date thereof. No later than 15 days after service of such notice, the employee may appeal the action of the appointing power to the board. The board, in accordance with its rules, shall hold a hearing. The board may sustain, disapprove, or modify the demotion, transfer, or termination.

(g) Whenever the board revokes or modifies a demotion, transfer, or termination, the board shall direct the payment of salary to the employee calculated on the same basis and using

the same standards as provided in Government Code Section 19584.

(h) Upon the request of an appointing authority or the petition of the employee who was terminated, demoted, or transferred in accordance with this section, the employee shall be reinstated to an appropriate vacant position in the same class, in a comparable class or in a lower related class if it is determined by the board that the employee is no longer incapacitated for duty. Such a reinstatement to a position in a different agency may be made only with the concurrence of that agency. In approving or ordering such reinstatements, the board may require the satisfactory completion of a new probationary period. When the board finds the employee who was terminated, demoted or transferred is no longer incapacitated for duty but there is no vacant position to which he appropriately can be appointed, the name of the employee shall be placed upon such reemployment lists as are determined to be appropriate by the board.

SEC. 2. Section 21023.5 is added to the Government Code, to read:

21023.5. Notwithstanding any other provision of law, an employer may not separate because of disability a member otherwise eligible to retire for disability but shall apply for disability retirement of any member believed to be disabled, unless the member waives the right to retire for disability and elects to withdraw contributions or to permit contributions to remain in the fund with rights to service retirement as provided in Section 20393.

SEC. 3. Section 19253.5 of the Government Code is amended to read:

19253.5. (a) In accordance with board rule, the appointing power may require an employee to submit to a medical examination by a physician or physicians designated by the appointing power to evaluate the capacity of the employee to perform the work of his position.

(b) Fees for the examination and for the services of medical specialists or technicians, if necessary, shall be paid by the state agency. The employee may submit medical or other evidence to the examining physician or to the appointing power. The examining physician shall make a written report of the examination to the appointing power. The appointing power shall provide a copy to the physican designated by the employee.

(c) When the appointing power, after considering the conclusions of the medical examination and other pertinent information, concludes that the employee is unable to perform the work of his present position, but is able to perform the work of another position including one of less than full time, the appointing power may demote or transfer the employee to such a position.

Except as authorized by the board under the provision of Section 18860, the employee demoted or transferred pur-

suant to this section shall receive the maximum of the salary range of the class to which he is demoted or transferred, provided that such salary is not greater than the salary he received at the time of his demotion or transfer.

(d) When the appointing power after considering the conclusions of the medical examination provided for by this section or medical reports from the employee's physician, and other pertinent information, concludes that the employee is unable to perform the work of his present position, or any other position in the agency, and the employee is not eligible or waives the right to retire for disability and elects to withdraw his retirement contributions or to permit his contributions to remain in the retirement fund with rights to service retirement, the appointing power may terminate the appointment of the employee.

(e) The appointing power may demote, transfer or terminate an employee under this section without requiring the employee to submit to a medical examination, when the appointing power relies upon a written statement submitted to the appointing power by the employee as to the employee's condition or upon medical reports submitted to the appointing power by the employee.

(f) The employee shall be given written notice of any demotion, transfer, or termination under this section at least 15 days prior to the effective date thereof. No later than 15 days after service of such notice, the employee may appeal the action of the appointing power to the board. The board, in accordance with its rules, shall hold a hearing. The board may sustain, disapprove, or modify the demotion, transfer, or termination.

(g) Whenever the board revokes or modifies a demotion, transfer, or termination, the board shall direct the payment of salary to the employee calculated on the same basis and using the same standards as provided in Government Code Section 19584.

(h) Upon the request of an appointing authority or the petition of the employee who was terminated, demoted, or transferred in accordance with this section, the employee shall be reinstated to an appropriate vacant position in the same class, in a comparable class or in a lower related class if it is determined by the board that the employee is no longer incapacitated for duty. Such a reinstatement to a position in a different agency may be made only with the concurrence of that agency. In approving or ordering such reinstatements, the board may require the satisfactory completion of a new probationary period. When the board finds the employee who was terminated, demoted or transferred is no longer incapacitated for duty but there is no vacant position to which he appropriately can be appointed, the name of the employee shall be placed upon such reemployment lists as are determined to be appropriate by the board.

SEC. 4. It is the intent of the Legislature, if amendments to Section 19253.5 of the Government Code, proposed by both Section 1 of this bill and Assembly Bill No. 377 are enacted, that both amendments be given effect and incorporated in Section 19253.5 in the form set forth in Section 3 of this act. Therefore, in the event Assembly Bill No. 377 is enacted and amends Section 19253.5, Section 3 of this act shall become operative at the same time that Section 19253.5 as amended by Assembly Bill No. 377 becomes operative, and at that time, Section 19253.5 of the Government Code as amended by Section 1 of this act is repealed.

CHAPTER 1448

An act to add Division 5.1 (commencing with Section 1220) and Division 6.1 (commencing with Section 3955) to the Harbors and Navigation Code, and to repeal Section 56.5 of, and to add Section 56.5 to, the Humboldt Bay Harbor, Recreation, and Conservation District Act, as enacted by Senate Bill No. 382 of the 1970 Regular Session, relating to pilots for Humboldt Bay and Bar.

[Approved by Governor September 18, 1970. Filed with Secretary of State September 18, 1970.]

The people of the State of California do enact as follows:

SECTION 1. Division 5.1 (commencing with Section 1220) is added to the Harbors and Navigation Code, to read:

DIVISION 5.1. PILOTS FOR HUMBOLDT BAY AND BAR

CHAPTER 1. GENERAL PROVISIONS

Article 1. Definitions

1220. "Pilot" means pilot for Humboldt Bay and Bar.

1220.1. "Board" means the Board of Pilot Commissioners for Humboldt Bay and Bar.

Article 2. Qualifications

1221. A person may not be appointed or licensed as a pilot unless he:

(a) Is an American citizen.

(b) Is over the age of 21 years, and not over the age of 70 years. No other limitation of age shall be imposed.

(c) Has a practical knowledge of the management of motorships, steam vessels and of the tides, soundings, bearings, and distances of the several shoals, bars, rocks, points of land, lighthouses, and fog signals of the ports and harbors for which he is appointed.

(d) Is of good moral character, temperate, and possesses the skill and ability necessary to discharge the duties of pilot.

1222. Pilots licensed by the board shall be carefully examined as to their qualifications, and, if found to be qualified and worthy, they shall receive licenses as pilots for a term of 12 months. Licenses shall be renewed annually unless the board has good cause to withhold renewal. Whenever the board deems they have cause, or intends for any reason to withhold renewal of a pilot's license, the secretary of the board shall serve notice, in writing, on the pilot, specifying the causes, at least 10 days before the expiration of his license. The pilot is thereupon entitled to a full hearing before the board. The proceedings shall be conducted in accordance with Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code and the board shall have all the powers granted therein.

1223. Every pilot shall execute an official bond in the sum of five thousand dollars ($5,000), to be approved by the board. The bonds of pilots appointed by the board shall be filed with the board.

Article 3. Rights and Duties

1225. All vessels, their tackle, apparel, and furniture, and their master and owners and agents are jointly and severally liable for pilotage fees, which may be recovered in any court of competent jurisdiction.

1226. If any pilot, in endeavoring to assist or relieve any vessel in distress, suffers loss or damage to his vessels, sails, tackle, rigging or appurtenances the master, owner, or consignee of the vessel shall pay for such loss or damage, which is to be ascertained by the board.

1227. Every pilot, on boarding a vessel, when required by its master, shall exhibit his commission or license as pilot. A refusal so to do subjects him to a forfeiture of his commission or license, and to a liability of fifty dollars ($50) on his bond in a suit instituted for that purpose by the authority appointing him.

1228. A pilot carried to sea against his will, or unnecessarily detained on board a vessel when a pilot vessel is in attendance to receive him, is entitled to receive twenty-five dollars ($25) a day while necessarily absent or detained; but the total amount to which he is entitled in any one case shall not exceed one thousand dollars (1,000) Recovery may be had by action against the master or owner of the vessel taking him away.

1229. When cruising offshore or standing out to sea, pilots shall go to the vessel nearest to shore, or in the most distress, or incur a penalty of one hundred dollars ($100). For refusing to go on board a vessel when required, a like penalty of one hundred dollars ($100) is incurred. Upon having a penalty recovered against him, for either cause, the pilot may be suspended or expelled, at the discretion of the board.

1230. For every violation of the duties and regulations provided in this article a pilot incurs a liability on his official bond, to the party aggrieved, to the amount of the damages sustained.

Article 4. Offenses

1235. Any person who does not hold a license as a pilot, who pilots any vessel into or out of the Harbor of Humboldt Bay, is guilty of a misdemeanor punishable by a fine not exceeding five hundred dollars ($500) or by imprisonment not exceeding 90 days, and he shall pay to the pilot entitled to pilot the vessel the amount of pilotage or towage collected by him.

Chapter 2. Board of Pilot Commissioners

Article 1. Generally

1240. There is in the state government a Board of Pilot Commissioners for Humboldt Bay and Bar, consisting of three members, appointed by the Governor.

1241. The members of the board shall reside in Eureka, Humboldt County, and shall have been such residents for at least two years. Two of the members shall be businessmen and the other one shall be a shipmaster or nautical man. They shall hold their offices during the pleasure of the power appointing them, not exceeding four years from the date of their commissions.

1242. The members of the board shall each receive the sum of four dollars ($4) for each day actually employed in the discharge of their duties, and they shall also receive all necessary expenses for stationery, lights, and fuel used in their office. These sums shall be deducted from the moneys received by them before depositing the balance in the county treasury.

1242.5. The board shall organize and elect from its members a president, and a secretary, who shall be treasurer. It shall provide for itself offices in the City of Eureka at which it shall meet on the first Mondays in January, April, July, and October.

1243. The president of the board may administer oaths in regard to any matter properly before it and he may issue subpoenas in like cases for witnesses. A witness disobeying such subpoena served on him shall incur a penalty of one hundred dollars ($100), which may be recovered by the president in a civil action. The provisions of this section shall not apply to proceedings conducted in accordance with Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code.

1243.5. The board may adjourn its regular meetings from time to time, and it shall hold special meetings on notice of one member, published in a newspaper in Humboldt County five days prior to the proposed meeting.

1244. The board may make bylaws and rules for its own government and for the government of the pilots, and fix pen-

alties for their breach. A copy of the rules and penalties shall be furnished to each pilot.

1244.5. The secretary shall keep a journal of all the board's proceedings and acts, and a register of all pilots appointed, their residence and date of license. He shall, under order of the board, issue, and countersign licenses which shall be signed by the president.

1246. The members of the board shall not have any interest in any pilot vessel or steam tug, nor in the earnings thereof, other than for compensation as provided in this chapter. Anyone violating this section forfeits his office.

1247. In the first week in January of each year the secretary of the board shall cause to be published in a newspaper published in Humboldt County a full account of all the receipts and expenditures for the year previous.

1248. All claims against the commissioners shall be considered at a stated meeting, and if correct they shall be allowed and paid.

Article 2. Regulations

1250. The board may appoint for Humboldt Bay and Bar such number of pilots as are necessary, who shall be subject to removal by the board at any time.

1251. The board is entitled to charge for each license to a pilot a sum not exceeding fifty dollars ($50). Any American citizen who is a master of a coasting-vessel which is under 175 tons burden, may, upon application to the board, obtain a special license for the use of that vessel only, by paying the board for the license at the rate of one dollar ($1) per ton.

1252. Pilots appointed by the board shall be carefully examined as to their qualifications and, if found to be qualified and worthy, they shall receive licenses as pilots for the term of 12 months. Their license shall be annually renewed unless the board has good cause to withhold renewal.

Whenever the board deems it has good cause, or intends for any reason to withhold renewal, the secretary of the board shall serve notice in writing on the pilot, specifying the causes, at least 10 days before the expiration of his license and the pilot is entitled to a full hearing before the board. The proceedings shall be conducted in accordance with Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code and the board shall have all the powers granted therein.

1253. The board shall from time to time and in consultation with the licensed pilots, fix reasonable rates for pilotage for all vessels into or out of the Harbor of Humboldt Bay. These rates shall not be less than two dollars and fifty cents ($2.50) per foot deepest draft to the nearest six inches plus two cents ($0.02) per net registered ton, unless mutually agreed upon between the pilots and the board. Schedule of rates as follows:

(a) A minimum fee of sixty dollars ($60) for pilotage into or out of Humboldt Bay shall be charged, and for vessels

having no net tonnage, five dollars and seventy-five cents ($5.75) per foot shall be charged.

(b) For shifting ship, upper bay, twenty-five dollars ($25) shall be charged. For shifting ship to or from south bay, thirty dollars ($30) shall be charged. Night moves, upper bay, only five dollars ($5) additional shall be charged.

(c) For towing, an amount to be agreed upon between the parties.

1254. A pilot boarding any vessel displaying a signal for a pilot is entitled to receive full pilotage.

1255. The pilot who brings any vessel into the port has priority in piloting or towing it out, and the master of the vessel outward bound shall apply for pilotage or towage on board the pilot vessel which brought the vessel in, and he shall tender the pilotage or towage fee. The pilot, or a suitable substitute, shall immediately render the required service, and for a failure so to do forfeits his appointment. If the pilot, in bringing the vessel in, was guilty of negligence, he has no right of priority.

1256. The master, owner, or consignee of any vessel to whom any pilot has rendered, upon request of either of them, any extra service for the preservation of the vessel while in distress, if no special agreement has been made, shall pay the pilot, in addition to his regular fees, such amount as the board determines to be reasonable and just.

1257. If any vessel bound for Humboldt Bay is lost or unnecessarily detained for want of a pilot after raising a signal for a pilot within two miles of the bar, the pilots may be disciplined by the board; provided, if in the pilot's judgment, the bar was unsafe to cross out to board the vessel and due diligence was shown by him in this respect, the pilot shall be held blameless.

1258. The board shall sue for and recover all penalties and forfeitures from pilots, masters, or owners of vessels, or other persons, or from the vessels, violating any of the provisions of this division. The money so collected shall be paid into the County Treasury of Humboldt County, for the use of the public schools but the board shall first deduct enough to defray its salaries and necessary expenses.

1259. Every pilot of the Harbor of Humboldt Bay shall once in each quarter prior to the regular meeting of the board, upon blanks to be furnished by the board, render a verified account to the board of all moneys received by him, or by any other person for him, or on his account, and he shall pay not more than 5 percent to the board, the exact amount to be determined by the board from time to time, in full compensation for its secretary and treasurer and members. The account shall show:

(a) The name of each vessel piloted.

(b) The name of each vessel for which pilotage has been charged or collected.

(c) The amount charged to, or collected from each vessel.

(d) Where the vessel is registered.
(e) The depth of its draft and its tonnage.
(f) Whether it was inward or outward bound.

The secretary of the board shall record the account in a book prepared for that purpose, which book shall at all times be open to public inspection.

1260. If, in order to sail a vessel and due to rough weather, a pilot is carried to sea or if a pilot is requested to travel to join a vessel in a port other than Humboldt Bay, he shall be entitled to twenty-five dollars ($25) per day compensation plus the actual transportation expense and subsistence incurred by him.

The day of crossing the bar either in or out shall not be counted as a travel day as the usual pilotage fee shall prevail. A day shall be reckoned from midnight to midnight.

All claims for such travel compensation shall be made against the vessel and owners and they shall be liable for the payment of same in the usual manner as other claims for services against the vessel.

Article 3. Suspension and Revocation of Licenses

1265. Licenses of pilots are forfeited and shall be revoked by the board in the following cases:

(a) A failure to renew his bond or sureties when required by the board.

(e) Habitual drunkenness.

Notice of any charge and an opportunity to defend himself shall be given to the accused pilot before his removal. The proceedings under this article shall be conducted in accordance with Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code, and the board shall have all the powers granted therein.

1266. The board may also suspend or revoke the licenses of pilots appointed by it for their incapacity or misconduct.

1267. The board shall observe and enforce the following regulations:

(a) A pilot absenting himself from his duty for more than two months except by leave of absence from the board or injury or illness or by service in the armed forces of the United States, forfeits his license.

(b) Each pilot's license shall be renewed automatically by the board annually except for cause as provided in Sections 1265 and 1266 or resignation or retirement.

(c) If a pilot becomes intoxicated while in charge of a vessel, he shall be suspended or dismissed at the discretion of the board and his license withdrawn.

3981. Notice shall be given to the person causing or owning the encroachment or obstruction, or left at his place of residence if he is known and resides in the county; if not, it shall be posted upon the encroachment or obstruction by the surveyor. The notice shall specify the place and extent of the encroachment or obstruction and shall notify the person causing the encroachment or obstruction, or owning it, to remove it within 10 days.

3982. If the encroachment or obstruction is not removed or its removal commenced and diligently prosecuted prior to the expiration of the 10 days from the service or posting of the notice, the one who caused, owns or controls the encroachment or obstruction incurs a penalty of ten dollars ($10) for each day it remains unremoved. If the encroachment or obstruction effectually obstructs and prevents the use of the bay or slough or branches thereof, the surveyor shall forthwith, by direction of the board, remove it.

3983. If the encroachment or obstruction is denied, and the owner, occupant, or person controlling the matter or thing alleged to be an encroachment or obstruction, refuses either to remove it or to permit its removal, the board shall commence an action in its own name, to abate the same as a nuisance, and if the board recovers judgment, it may in addition

to having the same abated, recover ten dollars ($10) for every day the nuisance remains after notice, plus its costs in the action.

The State Architect shall be an advisory member, and the Governor may appoint advisory members from the state agencies which administer and enforce building regulations.

The Director of General Services shall provide the necessary staff services to the commission and may appoint, in accordance with civil service and other provisions of law, such officers and

The commission shall in cooperation with all state agencies concerned, rewrite where necessary, promulgate and publish in accordance with the Administrative Procedure Act a single State Building Standards Code of all administrative building regulations of state agencies relating to building standards which are enforced or supervised by state agencies, which code may include administrative regulations. The State Building Standards Commission shall adopt, by means of reference, applicable national specifications, published standards, and model codes, where appropriate, using exceptions where necessary. Such code shall indicate the agency having responsibility vested by law for the administration of each building regulation. The code shall include an index and reference guide. The provisions of such code shall when adopted and published as provided in this part, supersede all then existing administrative regulations relating to building standards issued by individual state agencies. Thereafter, such state agencies shall use the nomenclature and arrangement adopted by the commission as provided in this part.

The commission may approve and publish amendments to the code not oftener than once a year, except that by three-fourths vote of all its members the commission may find that an emergency exists and may then adopt and publish amendments as needed.

Such code may contain references to state laws relating to building standards, to model codes, published standards, or national specifications.

Such code shall be known as the State Building Standards Code.

The Department of General Services shall publish the State Building Standards Code and all amendments and publications relating thereto, excepting therefrom the text of those national specifications, published standards, and model codes which have been adopted by means of reference, in suitable looseleaf form and shall make it available to the public at a reasonable price. It shall be the duty of each state department concerned and of each city or county to have an up-to-date copy of the code available for public inspection.

The commission may purchase, stockpile, and sell to the public at a reasonable price any referenced materials, and may publish and sell to the public at a reasonable price any referenced material that it deems is not adequately available.

SEC. 3. Section 18903.5 is added to the Health and Safety Code, to read:

18903.5. At least one member of the commission may attend any meeting held by any state agency or department to review or make any decision relating to building standards to advise and assist such agency or department.

[Approved by Governor September 18, 1970. Filed with Secretary of State September 18, 1970.]

The people of the State of California do enact as follows:

SECTION 1. Section 197.5 is added to the Education Code, to read:

197.5. The board and the Department of Education or the Commission for Teacher Preparation and Licensing may enter into a written agreement pursuant to which the department or commission shall perform administrative tasks relating to credentials and certificates of qualification issued by the board. The department or commission shall receive all fees paid in connection with credentials and certificates of qualifications for which it renders services to the board in full payment for such services and for the materials and equipment it uses to carry out its duties pursuant to such an agreement.

SEC. 2. Section 12902 of the Education Code is amended to read:

12902. "Education position" or "position requiring certification qualifications" includes every type of service for which certification qualifications are established by or pursuant to Sections 12901 to 12913, inclusive, Sections 13055 and 13056, Sections 13101 to 13112, inclusive, Sections 13117 to 13186, inclusive, Section 13251, and Article 1.5 (commencing with Section 13187) and Article 2.4 (commencing with Section 13220) of Chapter 2 of this division.

SEC. 2.3. Section 13113.5 is added to the Education Code, to read:

13113.5. The commission shall, at the time or times at which the provisions of this chapter become operative, succeed to any powers, duties, and responsibilities theretofore vested in the State Board of Education with respect to the licensing of community college personnel.

SEC. 2.5. Article 1.8 (commencing with Section 13200.51) is added to Chapter 2 of Division 10 of the Education Code, to read:

Article 1.8. Credentials for Service in Grades 13 and 14

13200.51. In Chapter 1549 of the Statutes of 1967, the Legislature established the Board of Governors of the California Community Colleges (hereinafter referred to as the board of governors) and gave to it the powers which the State Board of Education, the Superintendent of Public Instruction,

the State Department of Education, and the Director of Education (hereinafter referred to collectively as the Board of Education) held with respect to the management, administration, and control of community colleges. It was the intent of the Legislature that the board of governors succeed to the powers of the Board of Education in relation to certification of personnel for service in grades 13 and 14. In order to make this succession of power effective and to clarify the authority of each of these bodies and officers in relation to certification, the Legislature has enacted this article.

13200.52. As used in this article "credential" means any credential authorizing service both in grades 13 and 14 and in other grades.

13200.53. The authority over credentials and certificates which authorize service both in grades 13 and 14 and in other grades shall be divided between the board of governors and the Board of Education or the Commission for Teacher Preparation and Licensing. The board of governors shall have the authority to issue, suspend, revoke, or take any other lawful action on such credentials in relation to their authorization for service in grades 13 and 14. The Board of Education or the Commission for Teacher Preparation and Licensing shall have the authority to issue, suspend, revoke, or take any other lawful action on such credentials in relation to their authorization for services in grades other than grades 13 and 14.

13200.54. Notwithstanding the provisions of Sections 13200.53 and 13200.55, the Board of Education or the Commission for Teacher Preparation and Licensing shall have the authority to renew any credential which was issued by it before the effective date of the enactment of this article.

13200.55. In all respects, credentials under the jurisdiction of either the board of governors or the Board of Education or the Commission for Teacher Preparation and Licensing shall be considered separate and apart from credentials under the jurisdiction of the other board even though both boards may act pursuant to the same provision of this code. A person who desires to have available the full authorization of such a credential must hold both a credential issued by the Board of Education or the Commission for Teacher Preparation and Licensing and a credential issued by the board of governors.

13200.56. Persons holding credentials which are presently in force shall not be required to obtain new credentials from the board of governors and the Board of Education or the Commission for Teacher Preparation and Licensing. A person who holds a credential issued on the basis of a partial fulfillment of requirements shall be entitled to complete his program for fulfillment as approved by the Board of Education or the Commission for Teacher Preparation and Licensing and to receive his fully satisfied credential from the Board of Education or the Commission for Teacher Preparation and Licensing.

13200.57. The Board of Education or the Commission for Teacher Preparation and Licensing shall complete any action

which it is taking in relation to a credential and which is not completed on the effective date of the enactment of this article. "Complete any action" includes the retention of jurisdiction by the Committee of Credentials and the Board of Education or the Commission for Teacher Preparation and Licensing of any matter until it is finally resolved by the Board of Education or the Commission for Teacher Preparation and Licensing or by judicial review.

13200.58. The board of governors and the Board of Education or the Commission for Teacher Preparation and Licensing are encouraged to maintain as similar as possible, the requirements for credentials issued by either of them under authorization of the same provision of the Education Code, although the Legislature recognizes that the needs and problems in grades 13 and 14 and the other grades are different. The board of governors and the Board of Education or the Commission for Teacher Preparation and Licensing are directed to keep each other fully informed of actions taken by either of them with respect to such requirements.

SEC. 3. Section 13220 of the Education Code is amended to read:

13220. An individual employed by a school district maintaining a community college in grades 13 and 14 as an instructor, supervisor, administrator, librarian, counselor, or student personnel worker, shall be required to possess a credential or certification document specified in this article. The provisions of Article 1.5 (commencing with Section 13187) of this chapter shall not be applicable to an individual employed by a school district maintaining a community college in grades 13 and 14 as an instructor, supervisor, administrator, librarian, counselor, or student personnel worker after the effective date of this article. The Board of Governors of the California Community Colleges may prescribe, by regulation, the standards as to equivalency and standards for professional, vocational training, or experience, or any combination thereof, wherever referred to in this article and such additional minimum standards as they deem appropriate for the administration and enforcement of this article.

SEC. 4. Section 13220.3 of the Education Code is amended to read:

13220.3. The community college instructor credential shall authorize the holder to perform the following functions:

(a) Teach, in grades 13 to 14, inclusive, any course in a subject matter area in which the holder of the credential has a major or has earned a master's degree, or its equivalent.

(b) Teach any course in classes for adults.

(c) Teach, in grades 13 and 14, any course in a subject matter area in which the holder of the credential has completed a minor, if the governing board of the district employing the holder specifically authorizes the holder to teach such courses by resolution. This authorization may be renewed annually by resolution of the governing board. If the creden-

tial is issued based on professional or vocational training or experience, or any combination thereof, the holder shall perform only the teaching functions authorized by regulations adopted by the Board of Governors of the California Community Colleges.

SEC. 5. Section 13220.9 of the Education Code is amended to read:

13220.9. The community college chief administrative officer credential shall authorize the holder to be employed as a chief administrative officer of a community college, a superintendent of a community college district, or both.

SEC. 5.5. Section 13220.17 of the Education Code is amended to read:

13220.17. (a) A credential which was issued prior to November 10, 1969, shall remain in force as long as it is valid and continues to be valid under the law and regulations of the board of governors. The board of governors may not by regulation invalidate such valid credential in relation to service in grades 13 and 14 unless it issues to the holder thereof, in substitution, a new credential authorized by other sections of this article of an equivalent type in relation to service in grades 13 and 14 and which new credential is no less restrictive than the credential for which it is substituted with respect to the kind of service which it authorizes in grades 13 and 14, and the grades or classes of types of schools in which it authorizes service in relation to grades 13 and 14.

(b) Credentials issued prior to November 10, 1969, and credentials issued under subdivision (c) of this section may be renewed in accordance with regulations in effect on November 10, 1969.

(c) Within the scope of the power given to it by the provisions of Article 1.8 (commencing with Section 13200.51) of this chapter, the board of governors shall issue the appropriate credentials authorized by the law operative, and the rules and regulations in effect, on November 10, 1969, to any person who is working toward meeting the requirements of a prior regular credential and is enrolled in an education program for such purpose on November 10, 1969. No credential shall be issued under this subdivision after January 1, 1971.

SEC. 6. Section 13220.18 of the Education Code is amended to read:

13220.18. (a) A provisional credential may be issued to instructional personnel in accordance with the regulations adopted by the Board of Governors of the California Community Colleges.

The minimum standards for a provisional credential shall be prescribed by the board of governors.

The regulations adopted by the board of governors prescribing the minimum standards for a provisional credential shall give consideration to training and teaching experience in California schools and shall establish the term of renewal for such a credential.

Any issuance of a provisional credential shall comply with the provisions of Sections 13121 to 13124, inclusive, and Sections 13126 to 13128, inclusive, with respect to credentials authorized by this article. Whenever reference is made in those provisions to the State Board of Education, such reference shall be deemed to mean the Board of Governors of the California Community Colleges.

(b) A limited service credential may be issued to instructional personnel in accordance with the regulations adopted by the Board of Governors of the California Community Colleges.

The minimum standards for a limited service credential shall be prescribed by the board of governors.

The regulations adopted by the board of governors prescribing the minimum standards for a limited service credential shall give consideration to training and teaching experience in California schools and shall establish the term of renewal for such a credential.

A limited service credential shall be issued to persons teaching 40 percent or less of the number of hours considered as a full-time assignment for permanent employees having similar duties in the community colleges of the district in which he is employed.

Any issuance of a limited service credential shall comply with the provisions of Sections 13121 to 13124, inclusive, and Sections 13126 to 13128, inclusive, with respect to credentials authorized by this article. Whenever reference is made in those provisions to the State Board of Education, such reference shall be deemed to mean the Board of Governors of the California Community Colleges.

SEC. 6.5. Section 13948 of the Education Code is amended to read:

SEC. 6.7. The amendment to Section 13948 of the Education Code made by Section 6.5 of this bill, in relation to persons employed in the office of the Chancellor of the California Community Colleges, does not constitute a change in, but is declaratory of, the existing law.

SEC. 7. Sections 2, 3, and 6 of this act shall not become operative if Assembly Bill No. 122 of the 1970 Regular Session is enacted.

SEC. 8. Section 2.3 of this act shall become operative only if Assembly Bill No. 122 of the 1970 Regular Session is enacted.

SEC. 9. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The fact constituting such necessity are:

There are presently serious questions as to the authority of the State Board of Education and its associated boards, officers, and department and the authority of the Board of Governors of the California Community Colleges in relation to certain credentials and these questions must be resolved as soon as possible so that the law may be legitimately applied and enforced in relation to these credentials.

CHAPTER 1451

An act to add Chapter 2 (commencing with Section 6701) to Part 2 of Division 6 of the Public Resources Code, relating to tide and submerged lands.

[Approved by Governor September 19, 1970. Filed with Secretary of State September 19, 1970.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 2 (commencing with Section 6701) is added to Part 2 of Division 6 of the Public Resources Code, to read:

CHAPTER 2. DEVELOPMENT AND IMPROVEMENT OF GRANTED TIDE AND SUBMERGED LANDS

6701. Subject to the provisions of Section 6702, no amendment, modification, or revocation, in whole or in part, of any grant of tide or submerged lands heretofore made or that may be hereafter made by the Legislature shall impair or affect the rights or obligations of third parties, including lessees, lenders for value, holders of contracts conferring the right to the use and occupation of, or the right to conduct operations upon or within such lands, arising from leases, contracts, or other instruments lawfully entered into prior to the effective date of such amendment, modification, or revocation.

6702. (a) The provisions of Section 6701 shall not apply to any of the following unless the provisions of subdivision (b) are first complied with:

(1) Any lease, contract, or other instrument entered into on or after the effective date of this chapter.

(2) Any lease, contract, or other instrument entered into before the effective date of this chapter if (i) such lease, contract, or other instrument affects lands which have been filled

in between January 1, 1970, and the date of any such amendment, modification, or revocation by the Legislature, or (ii) there have not been erected, prior to January 1, 1970, any artificial structures on any of the lands affected thereby pursuant to any exercise of rights expressly or impliedly conferred by any such lease, contract, or other instrument and under the terms of such lease, contract, or other instrument the total capital expenditures reasonably anticipated on such lands are ten thousand dollars ($10,000) or greater.

(3) Any amendment, modification, or alteration made on or after January 1, 1970, to any lease, contract, or other instrument entered into before the effective date of this chapter if such amendment, modification, or alteration either extends the term of such lease, contract, or other instrument for more than six months or authorizes the erection of improvements not previously authorized thereby upon lands unoccupied by permanent structures as of January 1, 1970. For purposes of this chapter, "lease, contract, or other instrument" includes any amendment, modification, or alteration described by this paragraph.

(b) The provisions of Section 6701 shall be applicable to any lease, contract, or other instrument described in subdivision (a) which is submitted to the State Lands Commission and as to which the commission makes all the following determinations:

(1) That such lease, contract, or other instrument is in accordance with the terms of the grant or grants under which title to the tide or submerged lands in question is held.

(2) That the proceeds of such lease, contract, or other instrument shall be deposited in an appropriate fund expendable only for statewide purposes authorized by a legislative grant.

(3) That such lease, contract, or other instrument is in the best interests of the state.

(c) The provisions of Section 6701 shall apply to any lease, contract, or other instrument entered into before the effective date of this chapter if such lease, contract, or other instrument is not one described by subdivision (a), without requiring that it be submitted to the State Lands Commission.

(d) For purposes of this section, lands shall be deemed to have been "filled in" if such lands were permanently or periodically covered by tidal waters on or after January 1, 1970, and thereafter are either raised to a level above mean lower low water by the deposition of earth or other materials thereon or have permanent artificial structures erected thereon.

6703. Whenever a lease, contract, or other instrument is submitted to the State Lands Commission pursuant to Section 6702, the costs of any study or investigation, including a reasonable reimbursement for employees' time, incurred by the State Lands Division in processing and investigating such submittal shall be borne by the legislative grantee or the person or entity making such submittal, as may be agreed upon between the commission and such grantee or other person or

entity making such submittal, in accordance with rules and regulations adopted by the commission.

6704. Failure of the State Lands Commission to issue to the legislative grantee a written report making, or declining to make with reasons for so declining, the determinations set forth in Section 6702 within 90 days of receipt from the legislative grantee of all material required by the rules and regulations of the commission to be submitted pursuant to Section 6702, or within any other period of time mutually agreed upon by the commission and the legislative grantee, shall be the equivalent of an affirmative finding with respect to each of such determinations required by Section 6702 and the provisions of Section 6701 shall become applicable to the lease, contract, or other instrument in question.

6705. This chapter shall not be construed to affect the validity of leases, contracts, or other instruments affecting tide or submerged lands, and there shall be no presumptions raised concerning the validity or invalidity of any lease, contract, or other instrument which is required by Section 6702 to be submitted to the State Lands Commission in order to make the provisions of Section 6701 applicable thereto because of the failure of the legislative grantee to submit such lease, contract, or other instrument to the commission, or because of any findings of such commission thereon.

6706. If on the effective date of any revocation of a grant of tide or submerged lands, there are in effect any leases, contracts, or other instruments to which the provisions of Section 6701 are applicable, the state may at its option, exercised by, and evidenced by appropriate action on the part of, the State Lands Commission, succeed to the interest in any such instrument of the grantee named in such grant; otherwise, the interest of such grantee in any such instrument then in effect shall continue during the term or other period of time during which such instrument shall remain in effect, or until such time as the commission exercises the option set forth in this section. The grantee shall furnish the commission with all such instruments within 30 days after the effective date of any such revocation, or any longer period mutually agreed upon between the commission and the grantee, and the commission may exercise the option at any time within six months from the date such instruments were submitted to it.

SEC. 2. The provisions of the Burton Act (Chapter 1333 of the Statutes of 1968) shall prevail over the provisions of this act to the extent that they are in conflict or inconsistent.

CHAPTER 1452

An act to amend Section 6871 of the Education Code, as amended by Chapter 1524 of the Statutes of 1969, relating to education of handicapped minors.

[Approved by Governor September 19, 1970. Filed with Secretary of State September 19, 1970.]

The people of the State of California do enact as follows:

SECTION 1. Section 6871 of the Education Code, as amended by Chapter 1524 of the Statutes of 1969, is amended to read:

6871. With the approval of the county superintendent of schools, any school district having a physically handicapped minor, mentally retarded minor, severely mentally retarded minor, or multiply handicapped minor for whom special education facilities and services as prescribed by Section 6870 are not available or cannot be reasonably provided, and for whom the State of California has no appropriate special education facilities and services, shall, and any school district having an educationally handicapped minor for whom special education facilities and services as prescribed by Section 6870 are not available or cannot be reasonably provided, and for whom the State of California has no appropriate special education facilities and services, may, in lieu of establishing and maintaining the needed special education facilities and services at an unreasonable cost to the district, pay to the parent or guardian of such minor toward the tuition for such minor, enrolled in a public or private nonsectarian school, institution, or agency within or outside of California offering the special education facilities and services made necessary by the minor's disabilities, an amount not to exceed the sum per unit of average daily attendance of the regular state apportionment to the district for the fiscal year in question, the amount allowable per unit of average daily attendance for the particular category under subdivisions (2) and (3) of Section 18102, and the amount per unit of average daily attendance provided from revenue derived from district taxation for the current expense of education of a normal child in the schools of the district. For purposes of computing the amount per unit of average daily attendance provided from revenue derived from district taxation, there shall be excluded amounts produced by rates levied for special or restricted purposes, such as the rates levied pursuant to Sections 1822.2, 1825, 16633, 16635, 16645.9, 19443, 19619, 20801 to 20802.8, inclusive, 20806, and 20807, and there shall be included amounts produced by rates levied for general districtwide current support purposes, including the rates levied pursuant to Sections 20808 and 20808.5. As used in this article "tuition" includes the cost to the parent or guardian of transporting a minor enrolled in a public or private nonsectarian school, institution, or agency under this section to and from school.

The provisions of this section shall be applicable as well to situations where the special educational facilities and services are available but are an unreasonable distance away from the home of the minor. The Superintendent of Public Instruction shall adopt rules and regulations to implement the determination of the unreasonableness of such cost and distance, and any other rules and regulations deemed necessary by him for the effective administration of this chapter. The county superintendent of schools shall make a finding as to the unreasonableness of such cost or distance for the school districts within his jurisdiction and shall report such findings to the Superintendent of Public Instruction, who, if he approves such findings, shall authorize payments pursuant to this section and Sections 6872 and 6873.

The provisions of this section shall be applicable as well to situations where the public special educational facilities and services are available but the attending physician of the physically handicapped, mentally retarded, severely mentally retarded, multiply handicapped, or educationally handicapped minor or the attending optometrist of the physically handicapped minor who is blind, partially seeing, or visually handicapped has recommended that it is in the best interests of the health and welfare of such minor that the minor be enrolled in a private nonsectarian school, institution or agency offering the special education facilities and services made necessary by the minor's disabilities, and such recommendation has been approved by the county health officer and the county superintendent of schools on forms specified by the Superintendent of Public Instruction.

Priority in providing special education facilities and services shall be given to public school, or state-operated, programs. State and school district support for an exceptional child's education at a private nonsectarian school, institution, or agency shall be approved pursuant to this chapter only if no publicly operated programs are available to the minor within a reasonable distance from his residence, or if such programs do not meet the specialized needs of the minor, as determined under the procedures established by this chapter. Priority in approving private nonsectarian schools, institutions, or agencies shall be given to the nearest such school, institution, or agency from where the parent or guardian of the exceptional child resides and which provides training and education as defined in Section 6870.

In instances where public funds are paid to the parent or guardian of a minor pursuant to this section, toward the tuition of such minor enrolled in a private nonsectarian school, institution, or agency, the school, institution, or agency enrolling such minor shall at the end of each school year submit a written progress report on each such minor on forms provided by the Superintendent of Public Instruction, and shall forward such forms to the county superintendent of schools of the county authorizing placement. Such reports

shall be used by the county superintendents of schools to determine continued eligibility for placement and reimbursement under this chapter.

In no event shall the total of any allowances or apportionments of state funds be made to a school district in behalf of a pupil receiving an allowance pursuant to this section in excess of the total of such amounts which would have been allowed or apportioned to the district if the pupil were in attendance at a school in the district.

CHAPTER 1453

An act to add Section 13957 to the Revenue and Taxation Code, relating to open-space lands, to take effect immediately, tax levy.

[Approved by Governor September 19, 1970. Filed with Secretary of State September 19, 1970.]

The people of the State of California do enact as follows:

SECTION 1. Section 13957 is added to the Revenue and Taxation Code, to read:

13957. The provisions of this section are optional and may be used for the valuation of an estate where applicable. At the request of the executor or administrator of an estate, the inheritance tax appraiser shall value according to this section.

Any land which is valued pursuant to Section 423 or 423.5 for property tax purposes shall be valued by identical methods for purposes of this part unless there are at least five sales of land qualifying as comparable. In order to be considered comparable, the sales shall be sufficiently near in time to the date of valuation and the properties sold shall be located sufficiently near the property being valued, and shall be sufficiently alike in respect to character, size, situation, usability, and enforceable restrictions to make it clear that the properties sold and the property being valued are comparable in value and that the cash equivalent price realized for the properties sold may fairly be considered as shedding light on the value of the property being valued. If the sold properties are in another county, comparability shall include similar controls of the administration of the open-space enforceable restrictions as the county where the land being valued is located.

SEC. 2. It is the intent of the Legislature in enacting Section 1 of this act to prescribe a method of valuing properties subject to enforceable restrictions during the transitional period from the time when there are not enough sales of such properties to constitute an actual market to the time when there are sufficient sales to constitute an actual market for such properties.

SEC. 3. This act provides for a tax levy within the meaning of Article IV of the Constitution and shall go into immediate effect. This act shall not be operative for the estates of any persons dying after December 31, 1974.

CHAPTER 1454

An act to amend Section 11556 of, and to add Chapter 7 (commencing with Section 8550) to Division 1 of Title 2 of, the Government Code, and to repeal Chapter 1 (commencing with Section 1500) of Division 7 of the Military and Veterans Code, and to amend Sections 830.2 and 830.3 of the Penal Code, relating to emergency services.

[Approved by Governor September 19, 1970. Filed with Secretary of State September 19, 1970.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 1 (commencing with Section 1500) of Division 7 of the Military and Veterans Code is repealed.

8572. In the exercise of the emergency powers hereby vested in him during a state of war emergency or state of emergency, the Governor is authorized to commandeer or utilize any private property or personnel deemed by him necessary in carrying out the responsibilities hereby vested in him as Chief Executive of the state and the state shall pay the reasonable value thereof.

If the President pro Tempore of the Senate does not desire to serve on the Emergency Council, the Senate Rules Committee may appoint a Member of the Senate to serve in his stead. If the Speaker of the Assembly does not desire to serve on the Emergency Council, he may appoint a Member of the Assembly to serve in his stead.

All such rules and regulations shall be designed to facilitate the paying of workmen's compensation.

8581. At any time when the Emergency Council is not meeting the Governor may certify the accredited status of local disaster councils, subject to the requirements of Section 8612. Such certification shall be final for all purposes, subject to the power of the Emergency Council to set aside such certification and exercise the authority granted to it by this chapter.

At each meeting of the Emergency Council, the Governor shall report to it any action taken by him pursuant to this section subsequent to its last meeting.

8582. Nothing herein shall operate to prevent the Governor from establishing a committee or board composed of heads of state agencies, should he deem it necessary to aid him or the Emergency Council or both in obtaining information or advice, assisting in developing or carrying out plans, or otherwise acting in accomplishment of the purposes of this chapter.

Article 5. Office of Emergency Services

8585. There is in the office of the Governor the Office of Emergency Services, which office is the State Civil Defense Agency. The Director of the Office of Emergency Services shall be appointed by the Governor with the consent of the Senate, and shall serve at the pleasure of the Governor. The Governor shall also appoint a Deputy Director of the Office of Emergency Services who shall serve at the pleasure of the Governor. The Director and Deputy Director of the Disaster Office on the effective date of this section shall continue to serve as the Director and Deputy Director, respectively, of the Office of Emergency Services until their successors are appointed and qualified.

The Director of the Office of Emergency Services shall receive an annual salary as provided for by Chapter 6 (commencing with Section 11550) of Part 1 of Division 3 of Title 2 of the Government Code.

8586. The Governor shall assign all or part of his powers and duties under this chapter to the Office of Emergency Services.

The Director of the Office of Emergency Services shall appoint pursuant to the State Civil Service Act such employees as are needed.

8587. During a state of war emergency, a state of emergency, or a local emergency, the director shall coordinate the emergency activities of all state agencies in connection with such emergency, and every state agency and officer shall cooperate with the director in rendering all possible assistance in carrying out the provisions of this chapter.

In addition to the powers herein designated, the Governor may delegate any of the powers vested in him under this chapter to the Director of the Office of Emergency Services except the power to make, amend, and rescind orders and regulations, and the power to proclaim a state of emergency.

8588. Whenever conditions exist within any region or regions of the state which warrant the proclamation by the Governor of a state of emergency and the Governor has not acted under the provisions of Section 8625, by reason of the fact that he has been inaccessible, the Director of the Office of Emergency Services may proclaim the existence of a state of emergency in the name of the Governor as to any region or regions of the state. Whenever the Director of the Office of Emergency Services has so proclaimed a state of emergency, such action shall be ratified by the Governor as soon as he becomes accessible, and in the event the Governor does not ratify the action he shall immediately terminate the state of emer-

gency as proclaimed by the Director of the Office of Emergency Services.

8589. The Office of Emergency Services shall be permitted such use of all state and local fair properties as conditions require.

Article 6. Advisory Committees

8590. The Governor may create advisory committees to assist in specific fields related to emergency services and recovery. He shall appoint the members thereof and they shall serve at his pleasure. He shall also designate the chairman and vice chairman thereof. The committees shall be under the direction of the Governor or such state agency head as he shall designate, and shall be wholly advisory in character and shall not be delegated any administrative authority or responsibility. Members of such committees shall not receive compensation from the state for their services under this chapter, but when called into conference or session by the Governor or a department head designated by him shall be reimbursed for their actual and necessary expenses incurred in connection with such conference or session.

8591. Nothing herein shall operate to prevent the Governor or the Director of the Office of Emergency Services from formally recognizing committees or boards established by or with segments of the private sector, or public agencies or both the private sector and public agencies which control facilities, resources, or the provision of services essential to the mitigation of the effects of an emergency or recovery therefrom, or from assigning administrative authority or responsibility to such committees or boards or to members thereof with respect to the provision and effective utilization of such resources to meet needs resulting from an emergency.

Article 7. Other State Agencies

8595. The Governor may assign to a state agency any activity concerned with the mitigation of the effects of an emergency of a nature related to the existing powers and duties of such agency, including interstate activities, and it shall thereupon become the duty of such agency to undertake and carry out such activity on behalf of the state.

8596. (a) Each department, division, bureau, board, commission, officer, and employee of this state shall render all possible assistance to the Governor and to the Director of the Office of Emergency Services in carrying out the provisions of this chapter.

(b) In providing such assistance, state agencies shall cooperate to the fullest possible extent with each other and with political subdivisions, relief agencies, and the American National Red Cross, but nothing contained in this chapter shall be construed to limit or in any way affect the responsibilities of the American National Red Cross under the federal act approved January 5, 1905 (33 Stat. 599), as amended.

(c) State personnel, equipment, and facilities may be used to clear and dispose of debris on private property only after the Governor finds: (1) that such use is for a state purpose; (2) that such use is in the public interest, serving the general welfare of the state; and (3) that such personnel, equipment, and facilities are already in the emergency area.

8597. Whenever a state of emergency is proclaimed to exist within any region or area, or whenever a state of war emergency exists, the following classes of state employees who are within the region or area proclaimed or who may be assigned to duty therein shall be peace officers and shall have the full powers and duties of such officers for all purposes as provided by Section 830.1 of the Penal Code, and shall perform such duties and exercise such powers as are appropriate or as may be directed by their superior officers:

(a) All members of the California Highway Patrol.

(b) All deputies of the Department of Fish and Game who have been appointed to enforce the provisions of the Fish and Game Code pursuant to Section 851 of that code.

(c) The State Forester and the classes of the Division of Forestry who are designated by the State Forester as having the powers of peace officers pursuant to Section 4156 of the Public Resources Code.

8598. Whenever a local emergency exists within a region or area of the state and the California Highway Patrol is requested by properly constituted local authorities to assist local law enforcement, the patrol officers assigned to assist within the designated regions or areas shall have the full powers of peace officers within the meaning of Section 830.1 of the Penal Code and shall perform such duties and exercise such powers as are appropriate or as may be directed by their superior officers.

Article 8. Mutual Aid Regions

8600. The Governor with the advice of the Emergency Council is hereby authorized and empowered to divide the state into mutual aid regions for the more effective application, administration, and coordination of mutual aid and other emergency-related activities.

Article 9. Operational Areas

8605. Each county is designated as an operational area. In a state of war emergency each operational area shall serve as a link in the system of communications and coordination between the state's emergency operating centers and the operating centers of the political subdivisions comprising the operational area.

The governing bodies of each county and of the political subdivisions in the county may organize and structure their operational area.

An operational area may be used by the county and the political subdivisions comprising the operational area for the coordination of emergency activities and to serve as a link in the communications system during a state of emergency or a local emergency.

Article 10. Local Disaster Councils

8610. Counties, cities and counties, and cities may create disaster councils by ordinance. A disaster council shall develop plans for meeting any condition constituting a local emergency, state of emergency, or state of war emergency; such plans shall provide for the effective mobilization of all of the resources of the political subdivision, both public and private. The governing body of a county, city and county, or city may, in such ordinance or by resolution adopted pursuant to such ordinance, provide for the organization, powers and duties, divisions, services, and staff of the emergency organization. The governing body of a county, city and county, or city may, by resolution, authorize public officers, employees, and registered volunteers to command the aid of citizens when necessary in the execution of their duties during a state of war emergency or a state of emergency.

Counties, cities and counties, and cities may enact ordinances and resolutions and either establish rules and regulations or authorize disaster councils to recommend to the director of the local emergency organization rules and regulations for dealing with local emergencies that can be adequately dealt with locally; and further may act to carry out mutual aid on a voluntary basis and, to this end, may enter into agreements.

8611. Counties, cities and counties, and cities may provide for the calling of test exercises, either singularly or jointly, whenever, in the opinion of such political subdivisions, such test exercises are needed; provided, however, that with respect to any such test exercise no one shall have the power to command the assistance of any private citizen, and the failure of a citizen to obey any order or regulation pertaining to a test exercise shall not constitute a violation of any law.

8612. Any disaster council which both agrees to follow the rules and regulations established by the Emergency Council pursuant to the provisions of Section 8580 and substantially complies with such rules and regulations shall be certified by the Emergency Council. Upon such certification, and not before, the disaster council becomes an accredited disaster council.

8613. Should an accredited disaster council fail to comply with the rules and regulations of the Emergency Council in any material degree, the Emergency Council may revoke its certification and, upon the act of revocation, the disaster council shall lose its accredited status. It may again become an accredited disaster council in the same manner as is provided

for a disaster council which has not previously been accredited.

8614. (a) Each department, division, bureau, board, commission, officer, and employee of each political subdivision of the state shall render all possible assistance to the Governor and to the Director of the Office of Emergency Services in carrying out the provisions of this chapter.

(b) The emergency power which may be vested in a local public official during a state of war emergency or a state of emergency shall be subject or subordinate to the powers herein vested in the Governor when exercised by the Governor.

(c) Ordinances, orders, and regulations of a political subdivision shall continue in effect during a state of war emergency or a state of emergency except as to any provision suspended or superseded by an order or regulation issued by the Governor.

Article 11. Mutual Aid

8615. It is the purpose of the Legislature in enacting this article to facilitate the rendering of aid to areas stricken by an emergency and to make unnecessary the execution of written agreements customarily entered into by public agencies exercising joint powers. Emergency plans duly adopted and approved as provided by the Governor shall be effective as satisfying the requirement for mutual aid operational plans provided in the Master Mutual Aid Agreement.

8616. During any state of war emergency or state of emergency when the need arises for outside aid in any county, city and county, or city, such aid shall be rendered in accordance with approved emergency plans.

It shall be the duty of public officials to cooperate to the fullest possible extent in carrying out such plans.

8617. In periods other than a state of war emergency, a state of emergency, or a local emergency, state agencies and political subdivisions have authority to exercise mutual aid powers in accordance with the Master Mutual Aid Agreement and local ordinances, resolutions, agreements, or plans therefor.

8618. Unless otherwise expressly provided by the parties, the responsible local official in whose jurisdiction an incident requiring mutual aid has occurred shall remain in charge at such incident, including the direction of personnel and equipment provided him through mutual aid.

8619. The Governor may on behalf of this state enter into reciprocal aid agreements or compacts, mutual aid plans, or other interstate arrangements for the protection of life and property with other states and the federal government, either on a statewide basis or a political subdivision basis. Prior to committing the personnel, equipment, or facilities of any political subdivision of this state, the Governor shall consult with the chief executive or governing body of such political subdivision. Such mutual aid arrangements may include the fur-

nishing or exchange, on such terms and conditions as are deemed necessary, of supplies, equipment, facilities, personnel, and services.

Article 12. State of War Emergency

8620. During a state of war emergency the Governor shall have complete authority over all agencies of the state government and the right to exercise within the area or regions designated all police power vested in the state by the Constitution and laws of the State of California in order to effectuate the purposes of this chapter. In exercise thereof he shall promulgate, issue, and enforce such orders and regulations as he deems necessary for the protection of life and property, in accordance with the provisions of Section 8567.

8621. During a state of war emergency every department, commission, agency, board, officer, and employee of the state government and of every political subdivision, county, city and county, or city, public district, and public corporation of or in the state is required to comply with the lawful orders and regulations of the Governor made or given within the limits of his authority as provided for herein. Every such officer or employee who refuses or willfully neglects to obey any such order or regulation of the Governor, or who willfully resists, delays, or obstructs the Governor in the discharge of any of his functions hereunder, is guilty of a misdemeanor. In the event that any such officer or employee shall refuse or willfully neglect to obey any such order or regulation, the Governor may by his order temporarily suspend him from the performance of any and all the rights, obligations, and duties of his office or position for the remainder of the period of the state of war emergency, and the Governor may thereupon designate the person who shall carry on the rights, obligations, and duties of the office or position for the duration of such suspension.

8622. During a state of war emergency, the Governor, any state agency, or any agency acting under the authority of this chapter may exercise outside the territorial limits of this state any of the powers conferred upon him or it by or pursuant to this chapter.

8623. During a state of war emergency, any person holding a license, certificate, or other permit issued by any state evidencing the meeting of the qualifications of such state for professional, mechanical, or other skills, may render aid involving such skill to meet the emergency as fully as if such license, certificate, or other permit had been issued in this state if a substantially similar license, certificate, or other permit is issued in this state to applicants possessing the same professional, mechanical, or other skills.

8624. (a) Whenever it appears that a state of war emergency will continue for more than seven days, the Governor

shall call a meeting of the Emergency Council not later than the seventh day.

(b) All of the powers granted the Governor by this chapter with respect to a state of war emergency shall terminate when:

(1) The state of war emergency has been terminated by proclamation of the Governor or by concurrent resolution of the Legislature declaring it at an end; or

(2) The Governor has failed to call a meeting of the Emergency Council within the period prescribed in subdivision (a) of this section; or

(3) The Governor has not within 30 days after the beginning of such state of war emergency issued a call for a special session of the Legislature for the purpose of legislating on subjects relating to such state of war emergency, except when the Legislature is already convened with power to legislate on such subjects.

Article 13. State of Emergency

8625. The Governor is hereby empowered to proclaim a state of emergency in an area affected or likely to be affected thereby when:

(a) He finds that circumstances described in subdivision (b) of Section 8558 exist; and either

(b) He is requested to do so (1) in the case of a city by the mayor or chief executive, (2) in the case of a county by the chairman of the board of supervisors or the county administrative officer; or

(c) He finds that local authority is inadequate to cope with the emergency.

8626. Such proclamation shall be in writing and shall take effect immediately upon its issuance. As soon thereafter as possible such proclamation shall be filed in the office of the Secretary of State. The Governor shall cause widespread publicity and notice to be given such proclamation.

8627. During a state of emergency the Governor shall, to the extent he deems necessary, have complete authority over all agencies of the state government and the right to exercise within the area designated all police power vested in the state by the Constitution and laws of the State of California in order to effectuate the purposes of this chapter. In exercise thereof, he shall promulgate, issue, and enforce such orders and regulations as he deems necessary, in accordance with the provisions of Section 8567.

8628. During a state of emergency the Governor may direct all agencies of the state government to utilize and employ state personnel, equipment, and facilities for the performance of any and all activities designed to prevent or alleviate actual and threatened damage due to the emergency; and he may direct such agencies to provide supplemental services and equipment to political subdivisions to restore any services which must be restored in order to provide for the

health and safety of the citizens of the affected area. Any agency so directed by the Governor may expend any of the moneys which have been appropriated to it in performing such activities, irrespective of the particular purpose for which the money was appropriated.

8629. The Governor shall proclaim the termination of a state of emergency at the earliest possible date that conditions warrant. All of the powers granted the Governor by this chapter with respect to a state of emergency shall terminate when the state of emergency has been terminated by proclamation of the Governor or by concurrent resolution of the Legislature declaring it at an end.

Article 14. Local Emergency

8630. A local emergency may be proclaimed only by the governing body of a county, city and county, or city or by an official so designated by ordinance adopted by such governing body. Whenever a local emergency is proclaimed by an official designated by ordinance, the local emergency shall not remain in effect for a period in excess of seven days unless it has been ratified by the governing body. The governing body shall review, at least every 14 days until such local emergency is terminated, the need for continuing the local emergency and shall proclaim the termination of such local emergency at the earliest possible date that conditions warrant.

8631. In periods of local emergency, political subdivisions have full power to provide mutual aid to any affected area in accordance with local ordinances, resolutions, emergency plans, or agreements therefor.

8632. State agencies may provide mutual aid, including personnel, equipment, and other available resources, to assist political subdivisions during a local emergency or in accordance with mutual aid agreements or at the direction of the Governor.

8633. In the absence of a state of war emergency or state of emergency, the cost of extraordinary services incurred by political subdivisions in executing mutual aid agreements shall constitute a legal charge against the state when approved by the Governor in accordance with orders and regulations promulgated as prescribed in Section 8567.

8634. During a local emergency the governing body of a political subdivision, or officials designated thereby, may promulgate orders and regulations necessary to provide for the protection of life and property, including orders or regulations imposing a curfew within designated boundaries where necessary to preserve the public order and safety. Such orders and regulations and amendments and rescissions thereof shall be in writing and shall be given widespread publicity and notice.

The authorization granted by this chapter to impose a curfew shall not be construed as restricting in any manner the existing authority of counties and cities and any city and

county to impose pursuant to the police power a curfew for any other lawful purpose.

Article 15. Preservation of Local Government

8635. The Legislature recognizes that if this state or nation were attacked by an enemy of the United States, many areas in California might be subjected to the effects of an enemy attack and some or all of these areas could be severely damaged. During such attacks and in the reconstruction period following such attacks, law and order must be preserved and so far as possible government services must be continued or restored. This can best be done by civil government. To help to preserve law and order and to continue or restore local services, it is essential that the local units of government continue to function.

In enacting this article the Legislature finds and declares that the preservation of local government in the event of enemy attack is a matter of statewide concern. The interdependence of political subdivisions requires that, for their mutual preservation and for the protection of all the citizens of the State of California, all political subdivisions have the power to take the minimum precautions set forth in this article. The purpose of this article is to furnish a means by which the continued functioning of political subdivisions will be assured. Should any part of this article be in conflict with or inconsistent with any other part of this chapter, the provisions of this article shall control.

Nothing in this article shall prevent a city or county existing under a charter from amending said charter to provide for the preservation and continuation of its government in the event of a state of war emergency.

8636. As used in this article, "unavailable" means that an officer is either killed, missing, or so seriously injured as to be unable to attend meetings and otherwise perform his duties. Any question as to whether a particular officer is unavailable shall be settled by the governing body of the political subdivision or any remaining available members of said body (including standby officers who are serving on such governing body).

8637. Each political subdivision may provide for the succession of officers who head departments having duties in the maintenance of law and order or in the furnishing of public services relating to health and safety.

8638. To provide for the continuance of the legislative and executive departments of the political subdivision during a state of war emergency, the governing body thereof shall have the power to appoint the following standby officers:

(a) Three for each member of the governing body,

(b) Three for the chief executive, if he is not a member of the governing body.

In case a standby office becomes vacant because of removal death, resignation, or other cause, the governing body shall have the power to appoint another person to fill said office.

Standby officers shall be designated Nos. 1, 2, and 3 as the case may be.

8639. The qualifications of each standby officer should be carefully investigated, and the governing body may request the Director of the Office of Emergency Services to aid in the investigation of any prospective appointee. No examination or investigation shall be made without the consent of the prospective appointee.

Consideration shall be given to places of residence and work, so that for each office for which standby officers are appointed there shall be the greatest probability of survivorship. Standby officers may be residents or officers of a political subdivision other than that to which they are appointed as standby officers.

8640. Each standby officer shall take the oath of office required for the officer occupying the office for which he stands by. Persons appointed as standby officers shall serve in their posts as standby officers at the pleasure of the governing body appointing them and may be removed and replaced at any time with or without cause.

8641. Each standby officer shall have the following duties:

(a) To inform himself of the duties of the office for which he stands by. Officers and employees of the political subdivision shall assist him and each political subdivision shall provide each standby officer with a copy of this article.

(b) To keep informed of the business and affairs of the political subdivision to the extent necessary to enable him to fill his post competently. For this purpose the political subdivision may arrange information meetings and require attendance.

(c) To immediately report himself ready for duty in the event of a state of war emergency at the place and in the method previously designated by the political subdivision.

(d) To fill the post for which he has been appointed when the regular officer is unavailable during a state of war emergency. Standby officers Nos. 2 and 3 shall substitute in succession for standby officer No. 1 in the same way that said standby officer is substituted in place of the regular officer. He shall serve until the regular officer becomes available or until the election or appointment of a new regular officer.

8642. Whenever a state of war emergency exists the governing body of the political subdivision shall meet as soon as possible. The place of meeting need not be within the political subdivision. The meeting may be called by the chief executive of the political subdivision or by a majority of the members of the governing body. Should there be only one member of the governing body, he may call and hold said meeting and perform acts necessary to reconstitute the governing body.

8643. During a state of war emergency the governing body shall:

(a) Ascertain the damage to the political subdivision and its personnel and property. For this purpose it shall have the power to issue subpoenas to compel the attendance of witnesses and the production of records.

(b) Proceed to reconstitute itself by filling vacancies until there are sufficient officers to form the largest quorum required by the law applicable to that political subdivision. Should only one member of the governing body or only one standby officer be available, that one shall have power to reconstitute the governing body.

(c) Proceed to reconstitute the political subdivision by appointment of qualified persons to fill vacancies.

(d) Proceed to perform its functions in the preservation of law and order and in the furnishing of local services.

8644. Should all members of the governing body, including all standby members, be unavailable, temporary officers shall be appointed to serve until a regular member or a standby member becomes available or until the election or appointment of a new regular or standby member. Temporary officers shall be appointed as follows:

(a) By the chairman of the board of supervisors of the county in which the political subdivision is located, and if he is unavailable,

8645. In addition to any appropriation made to support activities contemplated by this chapter, the Governor is empowered to make expenditures from any fund legally available in order to deal with actual or threatened conditions of a state of war emergency, state of emergency, or local emergency.

8646. In carrying out the provisions of this chapter, the Governor may:

duties conferred or imposed by the provisions of this chapter.

8647. (a) Whenever the federal government or any agency or officer thereof shall offer to the state, or through the state to any political subdivision thereof, services, equipment, supplies, materials, or funds by way of gift, grant, or loan, for purposes of the mitigation of the effects of an emergency, the state, acting through the Governor, or such political subdivision, acting with the consent of the Governor and through its chief executive or governing body, may accept such offer.

(b) Whenever any person, firm, or corporation shall offer to the state or to any political subdivision thereof, services, equipment, supplies, materials, or funds by way of gift, grant, or loan, for purposes of the mitigation of the effects of an emergency, the state, acting through the Governor, or such political subdivision, acting through its chief executive or governing body, may accept such offer.

(c) Upon acceptance, the Governor of the state or the chief executive or governing body of such political subdivision may authorize any officer of the state or of the political subdivision, as the case may be, to receive such services, equipment, supplies, materials, or funds on behalf of the state or such political subdivision, subject to the terms of the offer and subject to the rules and regulations, if any, of a federal agency making such offer.

8648. The Governor may reimburse any state agency for funds expended in the performance of any and all activities as set forth in Section 8628 in accordance with orders and regulations promulgated as prescribed in Section 8567. Such reimbursement shall be subject to the provisions of Section 8649.

8649. Subject to the approval of the Department of Finance, any state agency may use its personnel, property, equipment, and appropriations for carrying out the purposes of this chapter, and in that connection may loan personnel to the Office of Emergency Services. The Department of Finance shall determine whether reimbursement shall be made to any state agency for expenditures heretofore or hereafter made or incurred for such purposes from any appropriation available for the Office of Emergency Services, except that as to any expenditure made or incurred by any state agency the funds of which are subject to constitutional restriction which would prohibit their use for such purposes, such reimbursement shall be provided and the original expenditure shall be considered a temporary loan to the General Fund of the state.

8650. Any funds received by state agencies as reimbursement for services or supplies furnished under the authority of this chapter shall be deposited to the credit of the appropriation or appropriations from which the expenditures were made.

8651. The Director of the Office of Emergency Services may procure from the federal government or any of its agencies such surplus equipment, apparatus, supplies, and storage facili-

ties therefor as may be necessary to accomplish the purposes of this chapter.

8652. Before payment may be made by the state to any person in reimbursement for taking or damaging private property necessarily utilized by the Governor in carrying out his responsibilities under this chapter during a state of war emergency or state of emergency, or for services rendered at the instance of the Governor under said conditions, such person must present a claim to the State Board of Control in accordance with the provisions of the Government Code governing the presentation of claims against the state for the taking or damaging of private property for public use, which provisions shall govern the presentment, allowance, or rejection of such claims and the conditions upon which suit may be brought against the state. Payment for such property or services shall be made from any funds appropriated by the state for such purpose.

8653. In the event that the Governor, during a state of war emergency or a state of emergency and in the exercise of the emergency powers vested in him, shall order the officers, employees, or agencies of any county, city and county, city, or district to perform duties outside of the territorial limits of their respective agencies, any services performed or expenditures made in connection therewith by any such agency shall be deemed conclusively to be for the direct protection and benefit of the inhabitants and property of such agency. During a state of war emergency or a state of emergency in the event that any equipment owned, leased, or operated by any county, city and county, city, or district, is damaged or destroyed while being used outside of the territorial limits of the public agency owning such equipment, the public agency suffering loss shall be entitled to file a claim for the amount thereof against the State of California in the manner provided in Section 8652. Such agency shall have no claim against the state for services of such personnel or for the rental, use, or ordinary wear and tear of such equipment, except such extraordinary services incurred by local governmental agencies in executing mutual aid agreements.

Article 17. Privileges and Immunities

8655. The state or its political subdivisions shall not be liable for any claim based upon the exercise or performance, or the failure to exercise or perform, a discretionary function or duty on the part of a state or local agency or any employee of the state or its political subdivisions in carrying out the provisions of this chapter.

8656. All of the privileges and immunities from liability; exemptions from laws, ordinances, and rules; all pension, relief, disability, workmen's compensation, and other benefits which apply to the activity of officers, agents, or employees of any political subdivision when performing their respective

functions within the territorial limits of their respective political subdivisions, shall apply to them to the same degree and extent while engaged in the performance of any of their functions and duties extraterritorially under the provisions of this chapter.

8657. (b) No political subdivision or other public agency under any circumstances, nor the officers, employees, agents, or duly enrolled or registered volunteers thereof, or unregistered persons duly impressed into service during a state of war emergency or state of emergency, acting within the scope of their official duties under this chapter or any local ordinance shall be liable for personal injury or property damage sustained by any duly enrolled or registered volunteer engaged in or training for emergency preparedness or relief activity, or by any unregistered person duly impressed into service during a state of war emergency or state of emergency and engaged in such service. The foregoing shall not affect the right of any such person to receive benefits or compensation which may be specifically provided by the provisions of any federal or state statute nor shall it affect the right of any person to recover under the terms of any policy of insurance.

8658. In any case in which an emergency endangering the lives of inmates of a state, county, or city penal or correctional institution has occurred or is imminent, the person in charge of the institution may remove the inmates from the institution. He shall, if possible, remove them to a safe and convenient place and there confine them as long as may be necessary to avoid the danger, or, if that is not possible, may release them. Such person shall not be held liable, civilly or criminally, for acts performed pursuant to this section.

Any physician or surgeon (whether licensed in this or any other state), hospital, nurse, or dentist who renders services during any state of war emergency or state of emergency at the express or implied request of any responsible state or local official or agency shall have no liability for any injury sustained by any person by reason of such services, regardless of how or under what circumstances or by what cause such injuries are sustained; provided, however, that the

immunity herein granted shall not apply in the event of a willful act or omission.

8660. No other state or its officers or employees rendering aid in this state pursuant to any interstate arrangement, agreement, or compact shall be liable on account of any act or omission in good faith on the part of such state or its officers or employees while so engaged, or on account of the maintenance or use of any equipment or supplies in connection with an emergency.

Article 18. Political Activity

8661. No organization established under the authority of this chapter shall participate in any form of political activity nor shall it be employed directly or indirectly for political purposes.

Article 19. Penalties and Severability

8665. Any person who violates any of the provisions of this chapter or who refuses or willfully neglects to obey any lawful order or regulation promulgated or issued as provided in this chapter, shall be guilty of a misdemeanor and, upon conviction thereof, shall be punishable by a fine of not to exceed five hundred dollars ($500) or by imprisonment for not to exceed six months or by both such fine and imprisonment.

8666. If any section, subdivision, subsection, sentence, clause, or phrase in this chapter, or the application thereof to any person or circumstances, is for any reason held invalid, the validity of the remainder of the chapter, or the application of such provision to other persons or circumstances, shall not be affected thereby. The Legislature hereby declares that it would have passed this chapter and each section, subdivision, subsection, sentence, clause, or phrase thereof, irrespective of the fact that one or more sections, subdivisions, subsections, sentences, clauses, or phrases, or the application thereof to any person or circumstance, be held invalid.

36252. Bonds may be issued for the purposes of acquiring or constructing works for irrigation, domestic, municipal and industrial water supply and to furnish facilities and services within or without the district to the extent provided for in Section 35500 for the collection, treatment and disposal of sewage, waste and storm water including the acquisition of necessary property for these works, acquiring funds to fulfill contractual commitments to carry out the powers and purposes of the district contained in contracts with other agencies, acquiring all or part of the operating funds for the district, the total amount of such funds so acquired not to exceed at any time an amount equal to the total operating costs of the district for a two-year period as estimated by its board, acquiring any property necessary for the purposes of the district, and otherwise carrying out the provisions of this division.

36253. Subsequent to the receipt of the plan of works provided for in Section 36251, the board may approve or modify the proposed plan of works, and thereafter by the adoption of a resolution may declare its intention to issue general obligation bonds to acquire or construct improvements described in the approved plan of works and to issue general obligation bonds of the district, or on behalf of an improvement district thereof, the interest and principal of which shall be paid by annual ad valorem taxes on the taxable land within the district or improvement district. In such case the resolution shall state the following:

(a) It is the intention of the board to acquire or construct improvements described in the approved plan of works and to issue general obligation bonds, the proceeds of which shall be used to pay the expenses thereof as set forth in the estimate provided for in Section 36251.

(b) A description of the purpose of the plan.

(c) The estimated expense of carrying out the plan of works.

(d) Assessments for carrying out such purpose shall be levied exclusively on the lands of the district or improvement district, including any territory annexed thereto.

(e) A map of the exterior boundaries of the district or improvement district is on file with the secretary of the district and is available for inspection by any person or persons interested.

(f) The date, time and place of the hearing by the board in regard to the foregoing plan at which time the board will,

thereupon, determine the benefit or lack thereof to the lands within the district or improvement district thereof and, at which time all interested persons will be heard and written protests, if any, will be considered.

36254. Notice of such hearing shall be given by publishing a copy of the resolution provided for in Section 36253 in a newspaper of general circulation, published in each affected county, pursuant to Section 6066 of the Government Code, the first publication to be at least 14 days prior to the time fixed for hearing. Such notice shall also be given by posting a copy of the resolution in three public places within the district or the improvement district, for at least 14 days prior to the time fixed for the hearing. Also notice thereof shall be given by certified mailing a certified copy of the resolution to each property owner shown on the last equalized assessment roll. The mailing of such notices shall be completed not less than 14 days prior to the hearing. No other notice other than that required by this section need be given.

36255. At any time not later than the hour set for hearing objections to the proposed plan of works and the issuance of general obligation bonds therefor, any owner of property liable to be assessed therefor may make written protest. Such protest shall be in writing, shall contain a description of the property in which each signer has an interest, sufficient to identify the same and if the signers are not shown on the last equalized assessment roll as the owners of such property, such protest shall contain or be accomplished by written evidence that such signers are the owners of such property. All such protests shall be delivered to the secretary of the district.

36256. At the time set for hearing protests, the board shall hear and pass upon all protests made as provided for in Section 36254 and its decision shall be final and conclusive. The board may adjourn the hearings from time to time and any written protest may be withdrawn by an owner making the same in writing at any time prior to the conclusion of the hearing or any such adjournment thereof.

36257. If a majority written protest is made pursuant to Section 36255 against the plan of works, the proposed issuance of general obligation bonds therefor or the amount thereof, and the board finds that the protest is made by either one-half or more of the area proposed to be assessed for the payment of the general obligation bonds proposed to be issued, or more than one-half of the assessed valuation of the land within the boundaries of the district or the improvement district to be assessed for the payment of the interest and principal of the general obligation bonds proposed to be issued, and such protests are not withdrawn so as to reduce the same to less than a majority in either instance, the proceedings shall be terminated and no further proceedings shall be taken for a period of one year from the date of the decision of the board on the hearing.

36258. The last equalized assessment roll shall be used as a basis for determining whether or not a majority written protest has been made. The board shall be under no duty to obtain or consider any other evidence as to ownership of property and its determination of ownership shall be final and conclusive.

36259. If at the conclusion of the hearing the board determines that all of the lands included within the district and the boundaries of the improvement district described in the plan of works will be benefited and a majority protest as provided for in this article has not been received, the board may thereafter issue general obligation bonds of the district or the improvement district in an amount not in excess of the estimate provided for in Section 36251. Any bonds authorized to be issued to accomplish the plan of works as provided for in Section 36251 for the district or for an improvement district shall be issued and sold in the same manner and upon the same terms and conditions as other general obligation bonds of the district.

36260. Bonds issued hereunder and interest which accrues thereon shall be paid in a manner identical to bonds issued on behalf of a district or improvement district of a California water district as otherwise provided in this division.

36261. The Special Assessment Investigation, Limitation and Majority Protest Act of 1931 shall not apply to any proceedings under this chapter.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

There exists in one or more California water districts situations in which the public interest requires the immediate financing of sewer improvements both throughout such districts as a whole and portions thereof. At least one such entity needs to authorize the exercise of sewer powers in the manner provided in this act, and recent legal decisions have created uncertainties which need to be clarified. This act will clarify and supplement the previous legislation for such exercise of powers and the financing of needed facilities which allow such a district, in an orderly manner, to resolve and reduce the public health and safety problems of the state. It is necessary, therefore, that this act go into immediate effect.

CHAPTER 1459

An act to amend Section 423.5 of the Revenue and Taxation Code, relating to the assessment of open-space lands.

[Approved by Governor September 19, 1970. Filed with Secretary of State September 19, 1970.]

The people of the State of California do enact as follows:

SECTION 1. Section 423.5 of the Revenue and Taxation Code is amended to read:

423.5. When valuing open-space land subject to an enforceable restriction and used for the production of timber for commercial purposes, the board, for purposes of surveys required by Section 1815, and the county assessor shall not consider sales data on lands, whether or not subject to an enforceable restriction, but shall determine the value of such timberland to be the present worth of the income which the future harvest of timber crops from the land can reasonably be expected to yield and the present worth of the income attributable to other allowed compatible uses of the land. The value of timberland pursuant to this section shall be determined in accordance with rules and regulations issued by the board. In determining the value of timberland pursuant to this section, the board and the county assessor shall use the capitalization rate derived pursuant to subdivision (b) of Section 423. The ratio prescribed in Section 401 shall be applied to the value of the land determined in accordance with this section to obtain its assessed value.

Where the land being valued is not capable of producing income or is not used to produce income or where sufficient information is not available by which income can be determined as provided in this section the board and the assessor shall impute to the land a reasonable amount to be considered as income for the purposes of this section.

There shall be a rebuttable presumption that "prudent management" does not include use of the land for recreational use, as defined in subdivision (n) of Section 51201 of the Government Code, unless the land is actually devoted to such use.

CHAPTER 1460

An act relating to Higher Horizon Summer Program, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 19, 1970. Filed with Secretary of State September 19, 1970.]

The people of the State of California do enact as follows:

SECTION 1. The sum of ten thousand dollars ($10,000) is hereby appropriated from the unexpended appropriations made pursuant to Section 5995 of the Education Code, to the California Museum of Science and Industry (Article 1 (commencing with Section 4101) of Chapter 6 of Part 3 of Division 3 of the Agricultural Code) for the development and operation

of a Higher Horizon Summer Program. The activities of the program shall be directed to strengthening the skills and broadening the knowledge of students in the areas of mathematics and science.

The California Museum of Science and Industry may contract with, and receive and expend funds with, any public or private nonprofit agency, foundation, or corporation for the purposes of this act.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order that funds be made available to the California Museum of Science and Industry to initiate the development of the Higher Horizon Summer Program at the earliest possible time so that the program will be in operation for the summer of 1970, and in view of the absence of funds for this purpose in the Budget Act of 1970, it is necessary that this act take effect immediately.

CHAPTER 1461

An act to amend Section 869 of, and to repeal Section 869.5 of the Penal Code, relating to transcripts of preliminary hearings.

[Approved by Governor September 19, 1970. Filed with Secretary of State September 19, 1970.]

The people of the State of California do enact as follows:

SECTION 1. Section 869 of the Penal Code is amended to read:

869. The testimony of each witness in cases of homicide must be reduced to writing, as a deposition, by the magistrate, or under his direction, and in other cases upon the demand of the prosecuting attorney, or the defendant, or his counsel. The magistrate before whom the examination is had may, in his discretion, order the testimony and proceedings to be taken down in shorthand in all examinations herein mentioned, and for that purpose he may appoint a shorthand reporter. The deposition or testimony of the witness must be authenticated in the following form:

First—It must state the name of the witness, his place of residence, and his business or profession.

Second—It must contain the questions put to the witness and his answers thereto, each answer being distinctly read to him as it is taken down, and being corrected or added to until it conforms to what he declares is the truth, except in cases where the testimony is taken down in shorthand, the answer or answers of the witness need not be read to him.

Third—If a question put be objected to on either side and overruled, or the witness declines answering it, that fact, with the ground on which the question was overruled or the answer declined, must be stated.

Fourth—The deposition must be signed by the witness, or if he refuses to sign it, his reason for refusing must be stated in writing, as he gives it, except in cases where the deposition is taken down in shorthand, it need not be signed by the witness.

Fifth—The reporter shall, within 10 days after the close of such examination, if the defendant be held to answer the charge, transcribe his shorthand notes, making an original and one copy and as many additional copies thereof as there are defendants (other than fictitious defendants), regardless of the number of charges or fictitious defendants included in the same examination, and certify and deliver the original and all copies to the county clerk of the county in which the defendant was examined. One copy of the transcript shall be furnished by the reporter without charge to the county. The reporter shall, before receiving any compensation as such reporter, file with the auditor of the county his affidavit setting forth that said transcript has been delivered to the county clerk within the time herein provided for. The compensation of the reporter for any services rendered by him as such reporter in any court of this state shall be reduced one-half if the provisions of this section as to the time of filing said transcript have not been complied with by him.

Sixth—In every case in which a transcript is delivered as provided in this section, the county clerk shall file the original of said transcript with the papers in the case, and shall deliver a copy of said transcript to the district attorney immediately upon his receipt thereof and shall deliver a copy of said transcript to each defendant (other than a fictitious defendant) at least five days before trial or upon earlier demand by him without cost to him; provided, however, that if any defendant be held to answer to two or more charges upon the same examination and thereafter the district attorney shall file separate informations upon said several charges, the delivery to each such defendant of one copy of the transcript of said examination shall be a compliance with this section as to all of said informations.

Seventh—If said transcript is delivered by the reporter within the time hereinbefore provided for, the reporter shall be entitled to receive the compensation fixed and allowed by law to reporters in the superior courts of this state.

SEC. 2. Section 869.5 of the Penal Code is repealed.

CHAPTER 1462

An act to amend Section 50247 of the Government Code, to amend Sections 2285, 14912, and 25863 of, and to add Section 2285.5 to, the Health and Safety Code, to amend Section 4179 of, and to add Section 4179.5 to, the Public Resources Code, and to amend Section 13305 of the Water Code, relating to liens.

[Approved by Governor September 19, 1970. Filed with Secretary of State September 19, 1970.]

The people of the State of California do enact as follows:

SECTION 1. Section 50247 of the Government Code is amended to read:

50247. The cost of abatement upon each parcel of land constitutes a special assessment against that parcel. After the assessment is made and confirmed, it is a lien on the parcel. Such lien attaches upon recordation in the office of the county recorder of the county in which the property is situated of a certified copy of the resolution of confirmation. The assessment may be collected at the same time and in the same manner as ordinary municipal ad valorem taxes are collected, and shall be subject to the same penalties and the same procedure and sale in case of delinquency as provided for such taxes. All laws applicable to the levy, collection and enforcement of municipal ad valorem taxes shall be applicable to such assessment.

SEC. 2. Section 2285 of the Health and Safety Code is amended to read:

2285. Notice of the lien, particularly identifying the property on which the nuisance was abated and the amount of such lien, shall be recorded by the district board in the office of the county recorder of the county in which the property is situated within one year after the first item of expenditure by the board or within 90 days after the completion of the work, which ever first occurs. Upon such recordation, such lien shall have the same force, effect, and priority as if it had been a judgment lien imposed upon real property which was not exempt from execution, except that it shall attach only against the property on which such nuisance was abated.

SEC. 3. Section 2285.5 is added to the Health and Safety Code, to read:

2285.5. The district board may at any time release all or any portion of the property subject to a lien imposed pursuant to Sections 2284 and 2285 from the lien or subordinate such a lien to other liens and encumbrances if it determines that the amount owed is sufficiently secured by a lien on other property or that the release or subordination of such lien will not jeopardize the collection of such amount owed. A certificate by the board, or its designee, to the effect that any property has been released from such lien or that such lien has been

subordinated to other liens and encumbrances shall be conclusive evidence that the property has been released or that the lien has been subordinated as provided in such certificate.

SEC. 4. Section 14912 of the Health and Safety Code is amended to read:

14912. The amounts of the cost for abating the nuisance in front of or upon the various parcels of the land mentioned in the report as confirmed shall constitute special assessments against the respective parcels of land, and are a lien on the property for the amount of the respective assessments. Such lien attaches upon recordation in the office of the county recorder of the county in which the property is situated of a certified copy of the resolution of confirmation. The assessment may be collected at the same time and in the same manner as ordinary municipal ad valorem taxes are collected, and shall be subject to the same penalties and the same procedure and sale in case of delinquency as provided for such taxes. All laws applicable to the levy, collection and enforcement of municipal ad valorem taxes shall be applicable to such assessment.

SEC. 5. Section 25863 of the Health and Safety Code is amended to read:

25863. (a) A lien in favor of the people of California shall be imposed upon any object, building, structure, or premises for the reasonable amount of expenses and costs incurred by the department in carrying out the provisions of Section 25862, 25862.1, 25862.3, or 25862.4 if the owner of the property or of any interest therein is the person responsible for the contamination, and to the extent of the interest of such person. Notice of lien or notice of intent to impose a lien shall be posted by the department upon any object, building, structure, or premises impounded or seized by the department and notice of lien or notice of intent to impose a lien shall be filed with the county recorder of the county in which they are located.

The lien shall not become effective until the notice of lien, particularly identifying the property, the interest subject to the lien, and the amount of such lien, is recorded in the county where the property is located. Upon such recordation, the lien shall have the same force, effect, and priority as if it had been a judgment lien imposed upon real property which was not exempt from execution, except that it shall attach only to the property impounded or seized by the department.

(b) The department may at any time release all or any portion of the property subject to a lien imposed pursuant to subdivision (a) from the lien or subordinate such lien to other liens and encumbrances if it determines that the amount owed is sufficiently secured by a lien on other property or that the release or subordination of such lien will not jeopardize the collection of such amount owed. A certificate by the department to the effect that any property has been released from such lien or that such lien has been subordinated to other liens and encumbrances shall be conclusive evidence that the property

has been released or that the lien has been subordinated as provided in such certificate.

SEC. 6. Section 4179 of the Public Resources Code is amended to read:

4179. Notice of the lien, particularly identifying the property on which the nuisance was abated and the amount of such lien, shall be recorded by the State Forester in the office of the county recorder of the county in which the property is situated within one year after the first item of expenditures by the State Forester or within 90 days after the completion of the work, whichever first occurs. Upon such recordation of the notice of lien, the lien shall have the same force, effect, and priority as a judgment lien, except that it shall attach only against the property on which such nuisance was abated.

SEC. 7. Section 4179.5 is added to the Public Resources Code, to read:

4179.5. The Attorney General may at any time release all or any portion of the property subject to a lien imposed pursuant to Sections 4178 and 4179 from the lien or subordinate such a lien to other liens and encumbrances if he determines that the amount owed is sufficiently secured by a lien on other property or that the release or subordination of such lien will not jeopardize the collection of such amount owed. A certificate by the Attorney General to the effect that any property has been released from such lien or that such lien has been subordinated to other liens and encumbrances shall be conclusive evidence that the property has been released or that the lien has been subordinated as provided in such certificate.

SEC. 8. Section 13305 of the Water Code is amended to read:

13305. (a) Upon determining that a condition of pollution or nuisance exists which has resulted from a nonoperating industrial or business location within its region, a regional board may cause notice of such condition to be posted upon the property in question. The notice shall state that such condition constitutes either a condition of pollution or nuisance which must be abated by correction of such condition, otherwise it will be corrected by the city, county, other public agency, or regional board at the property owner's expense. Such notice shall further state that all property owners having any objections to the proposed correction of such condition may attend a hearing to be held by the board at a time not less than 10 days from the posting of the notice.

(b) Notice of the hearing prescribed in this section shall be given in the county where the property is located pursuant to Section 6061 of the Government Code.

(c) In addition to posting and publication, notice as required in this section shall be mailed to the property owners as their names and addresses appear from the last equalized assessment roll.

(d) At the time stated in the notices, the board shall hear and consider all objections or protests, if any, to the proposed

correction of the condition, and may continue the hearing from time to time.

(e) After final action is taken by the board on the disposition of any protests or objections, or in case no protests or objections are received, the board shall request the city, county, or other public agency in which the conditions of pollution or the nuisance exists to abate it. In the event that such city, county, or other public agency does not abate such condition within a reasonable time the board shall cause the condition to be abated. It may proceed by force account, contract or other agreement or any other method deemed most expedient by the board, and shall apply to the state board for the necessary funds.

(f) The owner of the property on which the condition exists, or is created, is liable for all reasonable costs incurred by the board or any city, county, or public agency in abating the condition. The amount of the cost for abating the condition upon the property in question shall constitute a lien upon the property so posted upon the recordation of a notice of lien, particularly describing the property on which the condition was abated and the amount of such lien, in the office of the county recorder of the county in which the property is located. Upon such recordation, the lien shall have the same force, effect, and priority as if it had been a judgment lien imposed upon real property which was not exempt from execution, except that it shall attach only to the property so posted and described in such notice of lien. Such lien may be foreclosed by an action brought by the city, county, other public agency, or state board, on behalf of the regional board, for a money judgment. Money recovered by a judgment in favor of the state board shall be returned to the State Water Pollution Cleanup and Abatement Account.

(g) The city, county, other public agency, or state board on behalf of a regional board, may at any time release all or any portion of the property subject to a lien imposed pursuant to subdivision (f) from the lien or subordinate such lien to other liens and encumbrances if it determines that the amount owed is sufficiently secured by a lien on other property or that the release or subordination of such lien will not jeopardize the collection of such amount owed. A certificate by such board, city, county, or other public agency to the effect that any property has been released from such lien or that such lien has been subordinated to other liens and encumbrances shall be conclusive evidence that the property has been released or that the lien has been subordinated as provided in such certificate.

(h) As used in this section, the words "nonoperating" or "not in operation" means the business is not conducting routine operations usually associated with that kind of business.

CHAPTER 1463

An act to amend Section 33670 of the Health and Safety Code, relating to community redevelopment.

[Approved by Governor September 19, 1970. Filed with Secretary of State September 19, 1970.]

The people of the State of California do enact as follows:

SECTION 1. Section 33670 of the Health and Safety Code is amended to read:

33670. Any redevelopment plan may contain a provision that taxes, if any, levied upon taxable property in a redevelopment project each year by or for the benefit of the State of California, any city, county, city and county, district, or other public corporation (hereinafter sometimes called "taxing agencies") after the effective date of the ordinance approving the redevelopment plan, shall be divided as follows:

(a) That portion of the taxes which would be produced by the rate upon which the tax is levied each year by or for each of the taxing agencies upon the total sum of the assessed value of the taxable property in the redevelopment project as shown upon the assessment roll used in connection with the taxation of such property by such taxing agency, last equalized prior to the effective date of such ordinance, shall be allocated to and when collected shall be paid into the funds of the respective taxing agencies as taxes by or for said taxing agencies on all other property are paid (for the purpose of allocating taxes levied by or for any taxing agency or agencies which did not include the territory in a redevelopment project on the effective date of such ordinance but to which such territory has been annexed or otherwise included after such effective date, the assessment roll of the county last equalized on the effective date of the ordinance shall be used in determining the assessed valuation of the taxable property in the project on the effective date); and

(b) That portion of the levied taxes each year in excess of such amount shall be allocated to and when collected shall be paid into a special fund of the redevelopment agency to pay the principal of and interest on loans, moneys advanced to, or indebtedness (whether funded, refunded, assumed, or otherwise) incurred by such redevelopment agency to finance or refinance, in whole or in part, such redevelopment project. Unless and until the total assessed valuation of the taxable property in a redevelopment project exceeds the total assessed value of the taxable property in such project as shown by the last equalized assessment roll referred to in subdivision (a), all of the taxes levied and collected upon the taxable property in such redevelopment project shall be paid into the funds of the respective taxing agencies. When such loans, advances, and indebtedness, if any, and interest thereon, have been paid, all moneys thereafter received from taxes upon the taxable prop-

erty in such redevelopment project shall be paid into the funds of the respective taxing agencies as taxes on all other property are paid.

(c) In any redevelopment project in which taxes have been divided pursuant to this section prior to 1968, located within any county with total assessed valuation subject to general property taxes for the fiscal year 1967–1968 between two billion dollars ($2,000,000,000) and two billion one hundred million dollars ($2,100,000,000), if the total assessed valuation of taxable property within the redevelopment project for the fiscal year 1967–1968 was reduced, the total sum of the assessed value of taxable property used as the basis for apportionment of taxes under subdivision (a) shall be reduced by 10 percent for the fiscal year 1968–1969 and fiscal years thereafter.

CHAPTER 1464

An act to add Section 13301.1 to the Water Code, and to amend Section 5460 of the Health and Safety Code, relating to water pollution.

[Approved by Governor September 19, 1970. Filed with Secretary of State September 19, 1970.]

SECTION 1. Section 13301.1 is added to the Water Code, to read:

13301.1. The regional board shall render to persons against whom a cease and desist order is issued pursuant to Section 13301 all possible assistance in making available current information on successful and economical water quality control programs, as such information is developed by the state board pursuant to Section 13167, and information and assistance in applying for federal and state funds necessary to comply with the cease and desist order.

SEC. 1.5. It is the intention of the Legislature that additions to the staffs of the State Water Resources Control Board and the California regional water quality control boards, as authorized each year by the Budget Act, be made with consideration given to the increasing need of personnel with special competence in environmental sciences, economics, and recreation, fish and wildlife.

SEC. 2. Section 5460 of the Health and Safety Code is amended to read:

5460. The state department or local health officer may issue a peremptory order requiring the abatement of a contamination, and shall immediately furnish to the proper regional board a report of information and data relating thereto.

Coincident with issuing such order, or if any order or regulation is not complied with, the director or local health officer may bring and prosecute an action for an injunction in the

superior court of the county in which the contamination occurs.

The state department or local health officer shall render to persons subject to such order all possible assistance in complying with the order, including all possible assistance in securing any necessary funds for such purpose.

CHAPTER 1465

An act to amend Sections 34283 and 34327.6 of the Health and and Safety Code, relating to housing authorities.

If the audit is made by a certified public accountant, or a public accountant, a copy of the audit report shall be filed for record purposes with the Department of Finance. The authority shall prepare and file with the Department of Finance a budget for the year in which the audit is taken with each audit prepared or submitted pursuant to this section.

CHAPTER 1466

An act relating to financial assistance to target school districts.

[Approved by Governor September 19, 1970 Filed with Secretary of State September 19, 1970.]

The people of the State of California do enact as follows:

SECTION 1. The Legislature hereby finds and declares that distinct and identifiable financing problems adversely affect target school districts in California, forcing property taxpayers in those districts to pay total property taxes for all purposes which are higher than property taxes for the same purposes and services elsewhere in the state.

SEC. 2. As used in this act, target school problems may include, but are not limited to:

(a) The excess cost of fire and comprehensive liability and theft insurance.

(b) The excess cost of the salaries of security guards and related law enforcement personnel.

(c) The excess costs of administration due directly to high levels of pupil transiency.

(d) The excess costs of providing additional institutional personnel, including teacher aides for compensatory education and bilingual teachers for pupils for whom instruction is not otherwise funded under the Elementary and Secondary Education Act of 1965.

(e) The excess costs of child welfare and attendance workers occasioned by high rates of pupil absenteeism and truancy.

(f) The excess costs of employees in children's centers operated by the district for which other state appropriations and parent charges are insufficient.

SEC. 3. As used in this act:

(a) "Target school district" means a school district having one or more target schools where the achievement scores in reading are substantially below the district and state averages, or with substantial problems of higher-than-average unemployment, higher-than-average rates of welfare dependency, and similar factors.

(b) "Excess costs of target school programs" means those costs which exceed the statewide average costs of nontarget school programs conducted among California school districts.

SEC. 4. The office of the Legislative Analyst shall undertake a comprehensive study of the excess costs of target school districts, meeting the criteria of this act, to identify the individual educational programs and expenditures which result in excess costs to target school districts, including an estimate of the statewide total costs of all such school districts. The office of the Legislative Analyst shall report its findings and recommendations to the Legislature on or before the fifth calendar day of the 1971 legislative session.

CHAPTER 1467

[Approved by Governor September 19, 1970. Filed with Secretary of State September 19, 1970.]

The people of the State of California do enact as follows:

SECTION 1. Section 2512 of the Vehicle Code is amended to read:

2512. (a) The commissioner, after consultation with, and pursuant to the recommendations of, the State Department of Public Health and the Department of Motor Vehicles, shall

adopt and enforce such reasonable regulations as he determines are necessary for the public health and safety regarding the operation, equipment, and certification of drivers of all ambulances used for emergency services. The commissioner shall exempt, upon request of the county board of supervisors that such exemption is necessary for public health and safety, noncommercial ambulances operated within the county from such regulations adopted under this section as are specified in the board of supervisors' request. The State Department of Public Health shall be notified by the county boards of supervisors of any such exemptions. The commissioner may, with the consent of the Director of Motor Vehicles, authorize the director to administer any regulations adopted pursuant to this section which relate to the issuance, suspension, or revocation of ambulance drivers' certificates and, in such administration, to exercise the powers granted to the commissioner by this section.

(b) This section shall not preclude the adoption of more restrictive regulations by local authorities, but it is the intent of the Legislature that regulations adopted by the commissioner pursuant to this section shall be the minimum necessary to protect public health and safety, and shall not be so restrictive as to preclude compliance by ambulances operated in sparsely populated areas. The provisions of this subdivision shall not relieve the owner or driver of any ambulance from compliance with Section 21055.

SEC. 2. Section 21714 of the Vehicle Code is amended to read:

21714. No owner of a publicly or privately owned ambulance shall permit the operation of such ambulance in emergency service unless the attendant on duty therein or, if there is no attendant on duty therein, the operator possesses an advanced American Red Cross first aid certificate or an equivalent first aid certificate issued by the United States Bureau of Mines. The commissioner may issue rules and regulations to implement this section.

This section shall not be applicable in any state of emergency when it is necessary to fully utilize all available ambulances in an area and it is not possible to have each ambulance operated or attended by persons with the qualifications required by this section.

CHAPTER 1475

An act to amend Section 17507 of the Education Code, relating to public schools.

[Approved by Governor September 19, 1970. Filed with Secretary of State September 19, 1970.]

The people of the State of California do enact as follows:

SECTION 1. Section 17507 of the Education Code is amended to read:

17507. The Superintendent of Public Instruction, in computing apportionments and allowances from the State School Fund for the second principal apportionment, shall determine the following for the regular day classes of the elementary schools maintained by each school district:

(a) For grades 1 to 3, inclusive, he shall determine the number of classes, the number of pupils enrolled in each class, the total enrollment in all such classes, the average number of pupils enrolled per class, and the total of the numbers of pupils which are in excess of thirty (30) in each class.

For those districts which do not have any classes with an enrollment in excess of 32 and whose average size for all the classes is 30.0 or less, there shall be no excess declared. For those districts which have one or more classes in excess of an enrollment of 32 or whose average size for all the classes is more than 30, the excess shall be the total of the number of pupils which are in excess of 30 in each class having an enrollment of more than 30.

(b) For grades 4 to 8, inclusive, he shall determine the total number of pupils enrolled, the number of full-time equivalent classroom teachers, and the average number of pupils per each full-time equivalent classroom teacher. He shall also determine the excess, if any, of pupils enrolled in such grades in the following manner:

(1) Determine the number of pupils by which the average number of pupils per each full-time equivalent classroom teacher for the current fiscal year exceeds the greater of the average number of pupils per each full-time equivalent classroom teacher in all the appropriate districts of the state, as determined by the Superintendent of Public Instruction, for October 30, 1964, or the average number of pupils per each full-time equivalent classroom teacher which existed in the district on either October 30, 1964 or March 30, 1964, as selected by the governing board.

(2) Multiply the number determined in (1) above by the number of full-time equivalent classroom teachers of the current fiscal year.

(3) Reduce the number determined in (2) above by the remainder which results from dividing such number by the average number of pupils per each full-time equivalent teacher for October 30, 1964, as determined by the Superintendent of Public Instruction in (1) above.

(c) He shall compute the product obtained by multiplying the excess number of pupils, if any, under the provisions of subdivision (a) of this section by ninety-seven hundredths (0.97), and shall multiply the product so obtained by the ratio of statewide change in average daily attendance to district change in average daily attendance. Change in average daily attendance shall be determined by dividing average daily attendance in grades 1, 2 and 3 reported for purposes of the first principal apportionment of the current year by that reported for purposes of the first principal apportionment of the preceding year.

(d) If the school district reports that it has maintained, during the current fiscal year, any classes in which there were enrolled pupils in excess of thirty (30) per class pursuant to subdivision (a) of this section, and there is no excess number of pupils computed pursuant to subdivision (b) of this section, he shall decrease the average daily attendance reported under the provisions of Section 17601.1 by twice the product determined under subdivision (c) of this section.

(e) If the school district reports that it has maintained, during the current fiscal year, no classes in which there were enrolled pupils in excess of thirty (30) per class determined pursuant to subdivision (a) of this section, and there is an excess number of pupils computed pursuant to subdivision (b) of this section, he shall make the following computation:

He shall compute the product obtained by multiplying the excess number of pupils computed pursuant to subdivision (b) of this section by ninety-seven hundredths (0.97) and shall multiply the product so obtained by the ratio of statewide change in average daily attendance to the district change in average daily attendance. He shall decrease the average daily attendance reported under the provisions of Section 17601.1 by twice the resulting product. Change in average daily attendance shall be determined by dividing average daily attendance in grades 4 to 8, inclusive, reported for purposes of the first principal apportionment of the current year by that reported for purposes of the first principal apportionment of the preceding year.

(f) If the school district reports that it has maintained, during the current fiscal year, any classes in which there were enrolled pupils in excess of thirty (30) per class determined pursuant to subdivision (a) of this section, and there is an excess number of pupils computed pursuant to subdivision (b) of this section, he shall make the following computation:

He shall add to twice the product determined under subdivision (c) of this section, the product determined under subdivision (e) of this section and decrease the average daily attendance reported under the provisions of Section 17601.1 by this total amount.

(g) If the school district reports, that it has maintained, during the current fiscal year, any classes in which there were enrolled pupils in excess of thirty (30) per class determined pursuant to subdivision (a) of this section, there is an excess number of pupils computed pursuant to subdivision (b) of this section, and the average number of pupils in grades 1 to 3, inclusive, per each full-time equivalent classroom teacher is less than thirty (30), he shall decrease the average daily attendance reported under the provisions of Section 1760.1 by one-half of the decrease otherwise computed for the district pursuant to subdivision (f) of this section.

The governing board of each school district maintaining elementary schools shall report for the fiscal year 1964–65 and each year thereafter the information required for the determinations to be made by the Superintendent of Public Instruction under the provisions of this section in accordance with instructions provided on forms furnished and prescribed by the Superintendent of Public Instruction Such information shall be reported by the school district together with, and at the same time as, the reports required to be filed for the second principal apportionment of the State School Fund. The forms on which the data and information is reported shall include a

certification by each school district superintendent or chief administrative officer that the data is correct and accurate for the period covered, according to his best information and belief.

For purposes of this section, a "full-time equivalent classroom teacher" means an employee of an elementary, high school, or unified school district, employed in a position requiring certification qualifications and whose duties require him to teach pupils in the elementary schools of that district in regular day classes for the full time for which he is employed during the regular schoolday. In reporting the total number of full-time equivalent classroom teachers, there shall be included, in addition to those employees defined above, the full-time equivalent of all fractional time for which employees in positions requiring certification qualifications are required to devote to teaching pupils in the elementary schools of the district in regular day classes during the regular schoolday.

For purposes of this section, the number of pupils enrolled in each class means the average of the active enrollment in that class on the last teaching day of each school month which ends prior to April 15th of each school year.

The provisions of this section are not applicable to school districts with less than 101 units of average daily attendance for the current fiscal year.

Although no decreases in average daily attendance shall be made for the fiscal year 1964–65, reports are required to be filed under the provisions of this section, and the Superintendent of Public Instruction shall notify each school district the amount of the decrease in state allowances which would have been effected had such decrease in average daily attendance been applied.

The Superintendent of Public Instruction shall adopt rules and regulations which he may deem necessary for the effective administration of this section. Such rules and regulations may specify that no decrease in average daily attendance reported under the provisions of Section 17601 1 shall be made for a school district on account of large classes due to instructional television or team teaching, which may necessarily involve class sizes at periods during the day larger than the standard set forth in this section.

A lamp emitting a red light visible from 300 feet to the rear may be used in addition to the red reflector.

(e) On and after January 1, 1972, no person shall sell a new bicycle or pedal for use on a bicycle that is not equipped with a reflector, of a type approved by the department, on each pedal of such bicycle which is visible from the front and rear of the bicycle during darkness from a distance of 200 feet.

CHAPTER 1480

An act to add Part 8 (commencing with Section 5975) to Division 2 of the Water Code, relating to the California-Nevada Interstate Compact.

[Approved by Governor September 19, 1970 Filed with Secretary of State September 19, 1970.]

The people of the State of California do enact as follows:

SECTION 1. Part 8 (commencing with Section 5975) is added to Division 2 of the Water Code, to read:

PART 8. CALIFORNIA-NEVADA INTERSTATE COMPACT

5975. The Legislature of the State of California hereby ratifies and approves the California-Nevada Interstate Compact as set forth in Section 5976. The provisions of the compact shall become the law of this state upon the compact becoming operative as provided in Article XXII of the compact.

5976. The provisions of the California-Nevada Interstate Compact are as follows:

Article I. Purposes

Consistent with the provisions of the authorization acts of the State of California and the State of Nevada and the United States, the major purposes of this compact are to provide for the equitable apportionment of water between the two states; to promote interstate comity and to further intergovernmental cooperation; to protect and enhance existing economies; to remove causes of present and future controversies; to permit the orderly integrated and comprehensive development, use, conservation and control of the water within the Lake Tahoe, Truckee River, Carson River, and Walker River Basins.

Article II. Definitions

A. The terms "California" and "Nevada" shall mean respectively the State of California and the State of Nevada.

B. The term "commission" shall mean the administrative agency created by Article IV of this compact.

C. The term "Lake Tahoe Basin" shall mean the drainage area naturally tributary to Lake Tahoe including said lake or to the Truckee River upstream from the Truckee River intersection with the western boundary of Section 12, Township 15 North, Range 16 East, Mount Diablo Base and Meridian.

D. The term "Truckee River Basin" shall mean the area which naturally drains into the Truckee River and its tributaries and into Pyramid Lake including such lake, but excluding the Lake Tahoe Basin.

E. The term "Carson River Basin" shall mean the area which naturally drains into the Carson River and its tributaries and to the Carson River Sink, but excluding the Humboldt River drainage area.

Article III. Sovereign Relationship

A. Each state shall have jurisdiction to determine, pursuant to its own laws, the rights to the use of waters allocated to it herein; provided, however, that the right to use such water shall be limited to such quantities of water as shall reasonably be required for the beneficial use to be served and shall not extend to the waste or unreasonable use of water. Such provision shall not be construed to affect the water rights laws of either state with respect to any waters, other than the waters allocated to the state hereunder Each state will recognize and accept applications for such permits, licenses or other permissions as are required by the law of the state where the application is filed to enable the other state to utilize water allocated to such other state. This provision shall neither require nor prohibit the United States of America from complying with provisions of state law relating to the appropriation of water allocated to the states by this compact.

B. Each state shall cooperate with the other in securing to each the right to fully utilize the rights and privileges granted and waters allocated to each hereunder.

C. The use of water by the United States of America or any of its agencies, instrumentalities or wards shall be charged as a use by the state in which the use is made.

Article IV. The California-Nevada Compact Commission

A. Creation and Composition

1. There is hereby created an interstate compact commission to be designated as the California-Nevada Compact Commission herein referred to as the commission.

2. The commission shall consist of five members from each state and one member as representative of the United States chosen by the President of the United States who is hereby requested to appoint such a representative. The United States member shall be ex officio chairman of the commission without vote and shall not be a domiciliary of or reside in either state.

(a) The California members of the commission shall consist of the Director of the Department of Water Resources of the

State of California, and four (4) members appointed by the Governor of California, all of whom shall be residents of the State of California. One of the four members so appointed shall be a resident of the Lake Tahoe Basin, one shall be a resident of the Truckee River Basin, one shall be a resident of the Walker River Basin and one shall be a resident of the Carson River Basin.

(b) The Nevada members of the commission shall consist of the State Engineer of the State of Nevada (who additionally shall represent all Nevada areas not otherwise represented as herein provided), and four (4) members appointed by the Governor of Nevada, each of whom shall be a resident of the State of Nevada and represent a specific area therein as below defined, provided that the Governor shall not appoint any person a member of such commission if he determines that such person has a conflicting interest in California. One of the four members so appointed shall be a resident real property owner within and represent the Reno-Sparks metropolitan area (including adjacent agricultural area) and be fully qualified by knowledge and experience in connection with the water requirements and supply for such area; the other three members so appointed shall be representative of the common interests and goals of all water users of the area and each shall have broad practical experience in water management, and one shall be a resident real property owner within and represent the Walker River Basin in Nevada, another shall be a resident real property owner within and represent the Carson River Basin in Nevada upstream from Lahontan Reservoir, and the third shall be a resident real property owner within and represent the area within the Truckee-Carson Irrigation District in Nevada.

3. The term of office of the four members of the commission appointed by each Governor shall be four (4) years. The Governor of each state, upon appointment of the first members of the commission, shall designate one member of the commission to serve for a period of one year, one member to serve for a period of two years, one member to serve for a period of three years, and one member to serve for a period of four years. Thereafter, members shall be appointed for the regular term of four years as the terms expire.

4. Interim vacancy, for whatever cause, in the office of any member of the commission shall be filled for the unexpired term in the same manner as hereinabove provided for regular appointment.

5. The appointed members of the California-Nevada Compact Commission shall be designated within ninety (90) days after the effective date of the compact. Within thirty (30) days after such members have been appointed and the federal representative designated, the commission shall meet and organize.

B. Finances

1. The salaries and the personal expenses of each member of the commission shall be paid by the government he represents. All other expenses which are incurred by the commission

incident to the administration of this compact and which are not paid by the United States or by other funds received by the commission shall be borne equally by the two states.

2. The commission shall adopt a budget covering the commission's estimate of its expenses for each of the following two fiscal years; provided, that whenever the Legislatures of both states appropriate funds on an annual basis the commission shall submit its budget on such annual basis. The commission shall submit said budget to the Governors of the two states for joint review and approval and to the President of the United States at the earliest date prescribed by the two states for submission of proposed budgets. Each state shall appropriate one-half of the funds necessary to meet said budget requirements, which appropriations shall be made available to the commission as of July 1 of each fiscal year for such fiscal year's operations. All unexpended and unencumbered funds from such appropriations shall be returned by the commission in equal proportions to the states to the credit of the state fund from which said appropriation was made. All receipts and disbursements of funds handled by the commission shall be subject to a joint audit by the states and the report of said audit shall be included, and become a part of the annual report of the commission.

3. The commission shall not pledge the credit of any government except by and with the authority of the legislative body thereof given pursuant to and in keeping with the Constitution of said government. The commission shall not incur any obligations prior to the availability of funds adequate to meet the same.

4. The commission shall make and transmit to the Legislature and Governor of each state and to the President of the United States an annual report covering the finances and activities of the commission and embodying such plans, recommendations and findings as may have been adopted by the commission.

C. Meetings and Voting

1. A quorum for any meeting of the commission shall consist of six members of the commission, provided that at least three members are present from each state.

2. All meetings of the commission for the consideration of and action on any matters coming before the commission, except matters involving the management of internal affairs of the commission and its staff, or involving litigation in which the commission is a party, shall be open to the public. Matters coming within the exception of this paragraph may be considered and acted upon by the commission in executive session under such rules and regulations as the commission may see fit to establish.

3. Each state shall have but one vote and every decision, authorization, determination, order or other action shall require the concurring votes of both states, provided that no state

shall vote on any action without the concurring vote of not less than three members of the commission from such state.

D. General Powers

The commission shall have power to:

1. Adopt, amend and revoke bylaws, rules and regulations and prescribe procedures for administration of the provisions of this compact.

2. Establish such offices as it deems necessary, and acquire and hold property either by purchase, lease or otherwise as may be necessary for the performance of its functions under this compact.

3. Employ engineering, legal, clerical and other aid as in its judgment may be necessary for the performance of its functions. Such employees shall be paid by and be responsible to the commission and shall not be considered to be employees of either state. The commission may establish workmen's compensation benefits directly or by insurance. The commission is authorized to contribute to the cost of health and accident insurance for its employees to the same extent as either state contributes to the cost of such insurance for its employees.

4. Perform all functions required of it by this compact and to do all things necessary, proper or convenient in the performance of its duties hereunder, either independently or in cooperation with any state, federal or local agency or other entity or person.

5. Make such findings as are pertinent to this compact including but not limited to findings as to the quantities of water being used in either state, the amount of water available for use pursuant to the allocations made herein, and each state's share of the waters allocated.

6. Install and maintain measuring devices of a type or types approved by the commission in any stream, lake, reservoir, ditch, pumping station or other diversion works on the Truckee, Carson or Walker Rivers or on Lake Tahoe, or on waters tributary thereto, or to require water users at their expense to install and maintain measuring devices, as the commission may determine necessary or proper to carry out the purposes or provisions of this compact. The execution and enforcement of such requirements concerning such measuring devices as shall be enacted by the commission shall be accomplished by the commission directly, or by such federal, state, local or other official or person as the commission may delegate, or by any other agency responsible to or representing a federal court.

7. Accept gifts of money or real property or anything of value.

8. Appoint a hearing examiner or examiners who may be members of the commission to conduct hearings and to make recommendations to the commission on any matter requiring a hearing and decision by the commission.

9. Obtain a right of access to all properties in the Lake Tahoe, Truckee River, Carson River and Walker River Basins whenever necessary for the purpose of administration of this

compact. The commission may obtain a court order to enforce this right of access.

10. Take such action as it deems appropriate for the enforcement of the provisions of this compact.

11. Administer oaths or affirmations and to compel the attendance of witnesses and the production of documents by the use of subpoena which may be served anywhere within the territorial limits of the United States; said power to administer oaths and affirmations and to compel the attendance of witnesses and the production of documents by the use of subpoena may also be exercised by any hearing examiner appointed as provided in subsection 8 of this Section D.

12. Contract with the appropriate agency of either state, including the retirement system, to provide retirement and other benefits to commission employees.

E. Whenever the public health or welfare is endangered, the commission may declare the existence of an emergency and, in such event, shall designate the location, nature, cause, area, extent and duration thereof. In the event of an emergency so declared, the commission may, with respect to all matters covered by this compact, do all things necessary, proper or convenient independently or in cooperation with any other agency, person, or entity, to initiate, carry on, and complete any and all remedial measures required to meet said emergency including the adoption and enforcement of any regulations and restrictions necessary for such purpose.

Article V. Lake Tahoe Basin

A. The right of the United States or its agent to store waters in Lake Tahoe between elevations 6,223.0 and 6,229.1 feet (Lake Tahoe datum) and to release said stored waters for beneficial uses downstream from Lake Tahoe Basin is hereby ratified and confirmed subject to the rights granted in Section D of this article.

B. It is agreed by the states subject to the consent of the head of the federal agency having jurisdiction thereof, that an overflow weir of approximately 140 feet in length with a crest elevation of 6,223.0 feet, Lake Tahoe datum, upstream from the Lake Tahoe outlet gates shall be constructed and installed with necessary channel improvements within four years from the effective date of this compact provided that should the commission decide that it is in the best interest of each of the two states, it may extend such period for such additional period or periods as it may deem reasonable. The cost of this installation shall be borne by the States of California and Nevada in equal amounts. As used herein, Lake Tahoe datum shall be measured with respect to the top surface of the hexagonal brass bolt seven-eighths inch in diameter, projecting one inch from the vertical face of the southerly concrete abutment wall of the present existing Lake Tahoe Dam, at approximately 3.2 feet below the top of the wall and approximately in line with the upstream ends of the cutwaters of the concrete piers between

the sluiceways of the dam. This surface of the brass bolt is presumed for the purposes of the compact to have an elevation 6,230.0 feet Lake Tahoe datum, notwithstanding that it was determined by the U.S. Geological Survey on November 15, 1960, to be at an elevation of 6,228.86 feet above sea level datum of 1929.

C. The storage rights in Lake Tahoe shall be operated alone or in conjunction with other reservoirs so as to minimize the period and duration of high and low water elevations in Lake Tahoe, provided that exchanges of water or releases between Lake Tahoe and other reservoirs shall not measurably impair the intended purpose of such reservoirs.

D. Upon construction of the overflow weir provided for in Section B of this article, the total annual gross diversions for use within the Lake Tahoe Basin from all natural sources including ground water and under all water rights in said basin shall not exceed 34,000 acre-feet annually, of which 23,000 acre-feet annually is allocated to the State of California for use within said basin, and 11,000 acre-feet annually is allocated to the State of Nevada for use within said basin. After use of the water allocated herein, neither export of the water from the Lake Tahoe Basin nor the reuse thereof prior to its return to the lake is prohibited. This allocation is conditioned upon the construction of the overflow weir; however, it is recognized that there may well be a period of time between the effective date of the compact and the construction of the overflow weir; during that period of time both states shall be permitted to use waters within the Lake Tahoe Basin subject to the same conditions, both as to place of use and amounts of use, as are provided in this Article V.

E. In addition to the other allocations made by this compact, transbasin diversions from the Lake Tahoe Basin in both states existing as of December 31, 1959, may be continued, to the extent that such diversions are recognized as vested rights under the laws of the state where each such diversion is made.

The diversion of a maximum of 3,000 acre-feet per annum from Marlette Lake for use in Nevada is hereby recognized as an existing transbasin diversion within the meaning of this Section E.

F. Pumping from Lake Tahoe Basin for the benefit of downstream users within the Truckee River Basin shall be permitted only in the event of a drouth emergency as declared by the commission to the extent required for domestic, municipal, and sanitary purposes, and when it is determined by the commission that all other water available for such uses from all sources is being so utilized. In the event of such declaration of emergency, use of this water for such purposes shall have priority over use of water for any other purpose downstream from Lake Tahoe Basin. Pumping shall be done under the control and supervision of the commission and water pumped shall not be charged to the allocation of water to the Lake Tahoe Basin made herein.

Article VI. Truckee River Basin

The following allocations of water of the Truckee River and its tributaries, including Lake Tahoe releases, are hereby made in the following order of relative priority as between the states:

A. There is allocated to Nevada water for use on the Pyramid Lake Indian Reservation in amounts as provided in the 1944 Truckee River Decree (Final Decree in United States vs. Orr Ditch Company, et al., United States District Court for the District of Nevada, Equity No. A3). By appropriate court order, the United States, for and in behalf of the Pyramid Lake Indians shall have the right to change points of diversion, place, means, manner, or purpose of use of the water so allocated so far as such change may be made without injury to the allocations to either state.

B. There is allocated to California:

1. The right to divert within the Truckee River Basin in California 10,000 acre-feet of water per calendar year which may be stored in reservoirs at times when the flow in the channel of the Truckee River at the United States Geological Survey Gauging Station at or near the California-Nevada state line exceeds 500 cubic feet per second; provided that such diversions shall not in the aggregate exceed 2,500 acre-feet in any calendar month and the amount of such storage in any one reservoir, except Donner Lake, shall not exceed 500 acre-feet of active storage capacity.

2. The amount of water as decreed to the Sierra Valley Water Company by judgment in the case of United States vs. Sierra Valley Water Company, United States District Court for the Northern District of California, Civil No. 5597, as limited by said judgment.

3. Six thousand acre-feet of water annually from the conservation yield of Stampede Reservoir having a storage capacity of 225,000 acre-feet, subject to the execution of a contract or contracts therefor with the United States of America. California may divert all or any portion of said 6,000 acre-feet of conservation yield from Stampede Reservoir directly or by exchanges from any source on the Truckee River or its tributaries or from Lake Tahoe. California shall be allowed to deplete this allocation; provided, that in ascertaining the amount of depletion, credit for return flow shall be limited to the amounts of water which can be measured as a contribution to the Truckee River system.

4. If and when the water allocated to California in subparagraphs 1 and 3 of this section and in Article V is being used, or such use appears imminent, the commission shall permit California to develop additional yields of water for use in California, either directly or by exchange subject to the following limitations:

(a) All existing beneficial uses of water for domestic, municipal, industrial, and agricultural purposes in Nevada as determined by Nevada law as of that time together with the

yield of Stampede Reservoir in excess of 6,000 acre-feet shall be recognized and not impaired by the development of such additional yield.

(b) Additional yields developed for use in California shall be limited to an amount not to exceed an aggregate of 10,000 acre-feet annually, and such development shall be for domestic, municipal, and industrial uses solely. California shall be allowed to deplete this allocation; provided, that in ascertaining the amount of depletion, credit for return flow shall be limited to the amounts of water which can be measured as a contribution to the Truckee River system.

(c) The right of the commission to permit Nevada to share in such additional yield upon participation by Nevada in bearing a proportionate cost of developing such additional yield.

C. The right to store in Prosser Creek Reservoir a maximum of 30,000 acre-feet of water annually with the priority as set forth in California State Water Rights permit 11666 and to release water therefrom as set forth in said permit and any license which may be issued thereunder is hereby recognized and confirmed.

D. There is allocated to Nevada all water in excess of the allocations made in Sections B and C of this article.

Article VII. Carson River Basin

The following allocations of water of the Carson River and tributaries are hereby made in the following order of priority as between states:

A. There is allocated to the State of California:

1. The right to divert from the natural flow of the West Fork Carson River and its tributaries for existing nonirrigation uses, and for direct irrigation use commencing on March 15 and ending on October 31 of each year on presently irrigable lands determined to be approximately 5,600 acres, an aggregate flow of water equal to a 30-day average of 3 c.f.s. per 100 acres or 168 c.f.s. for the area as a whole; provided that the 3 c.f.s. per 100-acre limitation shall not prevent greater rates of diversion for those areas which have an established greater rate of use; provided further, however, that the maximum aggregate diversion shall not exceed 185 c.f.s. measured at the points of diversion.

Provided, however, diversions for use downstream from the western boundary of Section 34, Township 11 North, Range 19 East, Mount Diablo Base and Meridian, shall be subject to the following limitations:

(a) Whenever, after the first Monday in May or any day in that week or alternate weeks thereafter of any year the flow of the West Fork of the Carson River at said western boundary shall have fallen below 175 cubic feet per second, then, until October 31 next, water users in California who divert from the West Fork of the Carson River downstream from said western boundary shall rotate all or any portion of the natural flow of

the West Fork of the Carson River necessary to satisfy the demand of Nevada lands with water users in Nevada every other week beginning with the week following that in which water is used in Nevada, and during each rotation period said California users shall be entitled to divert the natural flow of the West Fork of the Carson River during their rotation weeks.

(b) Rotation between water users in California and Nevada on the West Fork of the Carson River may be terminated in whole or in part upon approval of the commission for such termination, upon provision being made so that sufficient water is available by storage or exchange to assure that the water users in Nevada will receive at the same time the flow of water which would have been available to the Nevada water users under rotation.

(c) Stock water, domestic water, and water for fire protection purposes may be diverted downstream from said western boundary from the natural flow of the West Fork of the Carson River at all times by owners of irrigation water rights in California whose lands are contiguous to the West Fork of the Carson River; provided, however, that such diversion shall be limited to the amounts actually required to deliver water for such purposes, and any excess over the amount so diverted shall be returned to the West Fork of the Carson River whenever practicable. Water diverted under this provision shall not be converted to any other use. The commission or its designee shall rule on any challenge relative to the necessity and amount of water required for such purposes.

2. The right to divert from the natural flow of the East Fork Carson River and its tributaries for existing nonirrigation uses, and for direct irrigation use commencing on March 15 and ending on October 31 of each year on presently irrigable lands determined to be approximately 3,820 acres, an aggregate flow of water equal to a 30-day average of 3 c.f.s. per 100 acres or 115 c.f.s. for the area as a whole; provided that the 3 c.f.s. per 100-acre limitation shall not prevent greater rates of diversion for those areas which have an established greater rate of use; provided further, however, that the maximum aggregate diversion shall not exceed 115 c.f.s. measured at the points of diversion.

3. There is allocated to the State of California the right to store 2,000 acre-feet of water per annum within Alpine County for supplemental use on presently irrigated lands within said county adverse to Lahontan Reservoir but subject to all other existing uses in Nevada. Water stored pursuant to this section remaining at the end of the year shall be deemed to have been stored in the succeeding year.

B. There is allocated to the State of Nevada:

1. The right to divert water from the natural flow of the Carson River and its tributaries during the period commencing March 15 and ending October 31 of each year at the rate of 3 c.f.s. per 100 acres for use on presently irrigated lands in the area above Lahontan Reservoir determined to be approximately 41,320 acres. The rate of 3 c.f.s. per 100 acres is based

on a 30-day average for the area as a whole and shall not prevent greater rates of diversion for those areas that have an established greater use; provided that the aggregate diversion measured at the points of diversion shall not exceed 700 c.f.s. on the East Fork of the Carson River, 300 c.f.s. on the West Fork of the Carson River, and 220 c.f.s. on the Main Carson River below the confluence of the East and West Forks.

The combining and exchanging of the use of water between ditches and among users shall be permitted at all times and shall be required whenever necessary in order to obtain reasonable economy in the use of the water of the river or other streams, or in order to give to each ditch or user a more advantageous irrigation head.

2. Subject to allocations made in subsection B.1 and Section C of this article, the right to divert water from the Carson River for irrigation use either by direct diversion or by storage in Lahontan Reservoir or other existing reservoirs for use on the Newlands Project.

C. There is allocated to each state the right to store water in existing reservoirs upstream from Lahontan Reservoir to the extent of existing capacity with the appropriate priority with respect to natural flow rights upstream from Lahontan Reservoir under applicable state law, and use such stored waters on the lands in each state to which the storage is appurtenant.

D. Additional yields shall be available for development under the currently authorized Washoe Project from water available in excess of existing beneficial uses recognized by Nevada law, or under other new projects upon a determination by the commission that there is water available on the Carson River and its tributaries in excess of that required to satisfy existing beneficial uses in Nevada as determined by Nevada law as of the time of authorization or construction of such new projects. Such additional yields shall be allocated between the states with equal priority, 20 percent of which shall be allocated to California and 80 percent to Nevada.

Each state shall have the right to participate in any development project by bearing a proportionate cost of such development. In the event that joint developments are found to be not feasible or desirable, each state may develop separately its proportionate share of the remaining water.

E. Except as provided by Article X of this compact, the waters of the Carson River shall not be used in areas outside the Carson River Basin.

Article VIII. Walker River Basin

A. Allocations to Present Rights and Uses

1. Except as the rights of the Walker River Irrigation District may be limited by subsections 2 and 3 below, the provisions of the decree in the case of United States v. Walker River Irrigation District, et al., United States District Court for the District of Nevada Equity No. C-125, filed April 15,

1936, as amended by the Order of the Honorable A. F. St. Sure, dated April 24, 1940, hereafter called Decree C-125 are hereby recognized and confirmed.

2. The rights of the Walker River Irrigation District to store water of the West Walker River in Topaz Reservoir with a storage capacity of 59,000 acre-feet, under Part VIII of Decree C-125 and under any other basis of right, and to use such water, are hereby recognized and confirmed, subject to the following:

(a) The maximum quantity of water which can be diverted annually to storage is 85,000 acre-feet. No more than 85,000 acre-feet of water less reservoir evaporation can be rediverted for use within the district annually. The 85,000 acre-feet amount so allowed to be diverted to storage and rediverted to use include water used under direct diversion rights in Decree C-125 acquired by said district prior to 1964. For the purpose of this provision "annually" means the period from November 1 through October 31 of the following year.

(b) The maximum rate of diversion to such reservoir under such rights is 1,000 c.f.s.

(c) For the purpose of determining the availability of water to satisfy rights junior to the Topaz Reservoir storage rights of the Walker River Irrigation District, or for division between the states as unused water, water which has been stored, or is available for storage in and can be physically diverted to such reservoir under such reservoir rights but is released or is allowed to pass through the reservoir and is not rediverted to use in Nevada, shall be deemed to have been held in storage; provided, that until a new major storage project is constructed on the West Walker River, the foregoing shall not apply to the extent that said district with the concurrence of the watermaster determines, prior to the release or passing through of such water from Topaz Reservoir in any year, that it is necessary to release or pass through such water in order to provide storage space in Topaz Reservoir as a means of protecting lands in Nevada against flood damage later in the year.

3. The rights of the Walker River Irrigation District to store water of the East Walker River in Bridgeport Reservoir with a storage capacity of 42,000 acre-feet, under Part VIII of Decree C-125 and under any other basis of right, and to use such water, are hereby recognized and confirmed, subject to the following:

(a) The maximum quantity of water which can be diverted to storage in any year is 57,000 acre-feet. No more than 57,000 acre-feet of water less reservoir evaporation can be rediverted for use within the district in any year. The 57,000 acre-feet amounts so allowed to be diverted to storage and rediverted to use include water used under direct diversion rights in said decree acquired by said district prior to 1964 except for water used under such rights prior to 1964 on lands owned by said district in Bridgeport Valley. For the purpose of this provision

"year" means the period from November 1 of one calendar year to October 31 of the following calendar year.

(b) Water of the East Walker River and its tributaries may, adversely to the Bridgeport Reservoir storage rights hereinabove recognized and confirmed, be stored upstream from said reservoir in any year, for later use after the spring flood of the year in which the water was so stored, under rights junior to said reservoir rights; provided, that when the Walker River system is put on priority under Decree C-125 after the annual spring flood, or upon demand made prior to the spring flood for water necessary to satisfy early season demand, the watermaster shall make an accounting and water shall be released from said upstream storage in such amounts as determined by the watermaster to be necessary to satisfy said reservoir rights to the same extent as they would have been satisfied in the absence of said adverse upstream storage.

4. (a) There is allocated to each state respectively the amount of existing diversions and uses of water of the Walker River Basin diverted upstream from Weber Reservoir and not specifically covered in Decree C-125, provided, that this allocation shall not include water distributed under the historical administration of Decree C-125 in excess of the rights set forth in Decree C-125 to lands having rights thereunder. In making this allocation, it is recognized that the amounts of water allocated and the respective priorities are not presently known with certainty. The commission shall as soon as practicable after its effectuation provide for an investigation, either with its own staff or by other agencies or persons, to ascertain with certainty the amounts of water and priorities of such uses. As between the respective states, the priorities shall be determined as follows: In cases of use not under state-recognized rights, the priorities shall be the date of initiation of use; in cases of use under state-recognized rights, the priorities shall be as provided under the law of the state where the diversion is made. Upon approval by the commission, the results of the investigation shall be binding as to the allocation to each state hereunder.

(b) In addition to rights recognized in subsection A.1 of this article there is allocated to Nevada for use on the Walker River Indian Reservation a maximum of 13,000 acre-feet per year for storage in Weber Reservoir and later rediversion to use and in addition 9.450 acre-feet per year to be diverted from natural flow. Both allocations shall have a priority of 1933. The season for diversion of water to storage shall be from November 1 to October 31 of the following year. The season for diversion of water directly for use shall be from March 1 to October 31 and at a maximum rate of 60 cubic feet per second. For the purpose of determining the availability of water to satisfy rights junior to this allocation or for division between the states as unused water, water which has been stored, or which can be physically stored or diverted to use under this allocation but is released or is allowed to pass through Weber Reservoir and is not

rediverted to use on the Walker River Indian Reservation, shall be deemed to have been held in storage or used; provided, that the foregoing shall not apply to the extent that the appropriate representative of said reservation with the concurrence of the watermaster determines prior to the release or passing through of such water from Weber Reservoir in any year, that it is necessary to release or pass through such water in order to provide storage space in Weber Reservoir as a means of protecting lands in Nevada against flood damage later in the year; provided, further, that the foregoing shall not apply to passage of water of inferior quality to the extent that such passage may be necessary to maintain the water of suitable quality for irrigation on said reservation as determined by the commission.

Water of the Walker River and its tributaries may, adversely to the Weber Reservoir storage rights hereinabove recognized and confirmed, be stored upstream from said reservoir in any year, for later use after the spring flood of the year in which the water was so stored, under rights junior to said reservoir rights; provided, that when the Walker River system is put on priority under Decree C-125 after the annual spring flood, or upon demand made prior to the spring flood for water necessary to satisfy early season demand, the watermaster shall make an accounting and water shall be released from said upstream storage in such amounts as determined by the watermaster to be necessary to satisfy said reservoir rights to the same extent as they would have been satisfied in the absence of said adverse upstream storage.

5. In addition to rights recognized in subsections A.1 and A.4(a) above, there is allocated to California water of the West Walker River as follows:

(a) When all direct diversion rights under Decree C-125 are being satisfied and simultaneously water of the West Walker River is being diverted to storage pursuant to the Topaz Reservoir storage rights recognized and confirmed in subsection 2 of this Section A, but there is not flow in excess of that required to fully satisfy Topaz Reservoir storage rights, diversions in Antelope Valley in excess of the amounts to which Antelope Valley lands are entitled under Decree C-125 shall be permitted by the watermaster for such periods and in such amounts as, in the sound professional judgment of the watermaster, will not cause, on an overall irrigation season basis, any discernible net reduction in the amount of water available to satisfy said Topaz Reservoir storage rights.

(b) Such excess diversions may be used only on Antelope Valley lands entitled to water under Decree C-125 which can be served from the ditch systems existing as of the effective date of this compact.

(c) The allocation in this subsection 5 shall terminate after construction of a new major storage project on the West Walker River upstream from Antelope Valley.

B. Allocation of Unused Water

1. The term "unused water" includes all waters of the Walker River and its tributaries in excess of the amounts allocated, or required for satisfaction of rights and uses recognized and confirmed, as provided under Section A of this Article VIII, except that there shall be excluded therefrom natural flow which is not physically available above the head of Mason Valley. There is allocated to the State of California 35 percent of such unused water, and there is allocated to the State of Nevada 65 percent of such unused water. The allocation to each state provided herein in this subsection B.1 shall be equal in priority.

(a) The reregulation by storage of waters allocated for storage shall not be considered as the development of "unused water".

2. Neither state shall be precluded from constructing works for the control, use and development of the water allocated pursuant to subsection B.1 of this article for optimum use of water.

3. While separate development may be undertaken by either state for surface storage of unused water of the West Walker River so allocated, the State Engineer of the State of Nevada and the Department of Water Resources of the State of California shall cooperate in a joint review of all potential developments of unused water of the West Walker River so allocated in subsection B.1 of this Article VIII and shall prepare and present a report of the benefits to be obtained, and other relevant data from each such development to the commission or if the commission has not yet become operative, to the joint commission which negotiated this compact, at a public hearing or hearings held at times and places within the Walker River Basin set by the commission or said joint commission.

(a) Should a separate surface storage project or projects be constructed in Nevada to develop Nevada's share of the unused water of the West Walker River, California may thereafter store and use said unused water allocated to Nevada adverse to such Nevada storage projects, provided that, without charge to Nevada, California makes available for consumptive use in Nevada, water in the same amounts, at the same times, and in the same places as would have been available for use in Nevada from such Nevada storage projects had California not so stored and used said unused water allocated to Nevada; and provided further that Nevada shall not be deprived of water required for: (1) maintenance of a minimum reservoir level for the preservation of fish life and (2) nonconsumptive uses which are found by the commission to be in the public interest of the Walker River Basin as a whole.

(b) From time to time after construction of each surface storage project upstream from Topaz Reservoir, for development of the unused water allocated herein, the commission shall determine the amounts of water which may be diverted and used in each state pursuant to its allocation as the result of the construction and operation of such project. In making such

determination the commission shall compute any increase of yield of previously constructed reservoirs which may result from operation of such project constructed to develop unused water and shall include such increase in the amounts of water which may be diverted and used in each of the two states pursuant to its allocation of unused water.

4. Return flow to the Walker River or its tributaries from any source shall be deemed to be natural flow.

5. Unused water shall be used only:

(a) Within the Walker River Basin;

(b) Within the portion of Artesia Lake Basin south of the northern township line of Tier 12 North and west of a line one mile east of the eastern range line of Range 23 East, Mount Diablo Base Line and Meridian;

(c) Within the portion of Mason Valley and Adrian Valley south of the northern township line of Tier 15 North, Mount Diablo Base Line;

(d) Within the area tributary to Topaz Lake; or

(e) Any combination of the above areas.

C. Watermaster

1. A single watermaster shall have the responsibility and power to administer: (a) all rights and uses of water of the Walker River Basin recognized in Section A of this Article VIII, including rights under Decree C-125, (b) the allocation between the states provided for in this compact of water of the Walker River Basin in excess of that necessary to satisfy such rights and uses, and (c) all rights acquired to use water so allocated.

2. The watermaster shall be nominated by the commission as soon as practicable after this compact goes into effect, but his appointment shall not become effective until approved and confirmed by the Federal District Court for the District of Nevada, it being the intent of this compact that only a person satisfactory to both the commission and said court be the watermaster under this compact and under Decree C-125. At any time either the commission or said court may terminate the appointment of the person serving as watermaster by adopting an appropriate resolution or order, and notifying the other and the watermaster thereof. When a vacancy occurs by such action or by the death or resignation of the person serving as watermaster, a successor shall be selected by the same procedure as provided for the original appointment.

3. Until appointment of the watermaster becomes effective by approval and confirmation of said court, either as to the original selection of the watermaster or subsequent selections to fill a vacancy, a person designated by the commission shall have interim responsibility and power to administer the allocation between the states referred to in subsection 1(b) above and all rights and uses other than the rights under Decree C-125, and the rights and uses under Decree C-125 shall be administered on an interim basis as may be provided by said court.

4. Actions and decisions of the watermaster as to the administration of the rights under Decree C-125 shall be subject to review and modification by said court. Actions and decisions of the watermaster as to the administration of the allocation between the states referred to in subsection 1(b) above and of all rights and uses other than rights under Decree C-125 shall be subject to review and modification by the commission.

5. Said court is requested to appoint a six-member advisory board composed of one person each representing: (1) the East Walker River Basin in California, (2) the West Walker River Basin in California, (3) the East Walker River Basin in Nevada, (4) the West Walker River Basin in Nevada, (5) the Main Walker River Basin in Nevada, and (6) the Walker River Indian Reservation. The watermaster shall prepare an annual budget of proposed expenditures for personnel, equipment, supplies, and other purposes deemed by him to be necessary to carry out his functions. In the formulation of said budget the watermaster shall consult with said advisory board. In the event that said advisory board is not in agreement with the budget proposed by the watermaster, it shall so advise said court. Said budget shall require approval of both the commission and said court to become effective.

6. The expenditures attributable to administration of the rights under Decree C-125 shall be apportioned and collected in accordance with orders of said court. The expenditures attributable to administration of all other rights and uses of the water of the Walker River Basin under this compact shall be equitably apportioned among, and collected from, the users thereof by the watermaster under rules and regulations of the commission, and the commission shall have the power to enforce collection thereof by any reasonable means, including court action in any state or federal court of appropriate jurisdiction. The expenditures attributable to administering the allocation between the states referred to in subsection 1(b) above shall be borne by the commission as part of the expense under Article IV, subsection B.1 of this compact.

Article IX. Ground Water and Springs

A. Development and Use of Ground Water

1. Both states shall have the right to develop and use ground water within their respective boundaries; provided that development and use of ground water in one state shall not reduce the amount of water which the other state would have received under the allocation herein if ground water were not developed and used.

2. In the development and use of ground water pursuant to this article, wells or other methods of collecting underground water shall be constructed in a manner which will assure that water will not be drawn directly from allocated surface water. In the absence of proof to the contrary made to the commission,

wells drilled within 500 feet from any perennial streams which are not sealed from the surface to a depth of at least 50 feet shall be deemed prima facie to draw directly from allocated surface water.

B. Each state shall have the right to use water from springs; provided that the use of water from springs in one state shall not reduce the amount of water which the other state would have received under the allocations herein if water from springs were not used.

C. Effect on Allocations

1. The commission shall have authority to take such action as it deems appropriate, so that the allocations of water made by this compact to either state shall not be adversely affected by ground water withdrawals or use of water from springs in the other state.

2. If either state claims that the development and use of ground water or water from springs in the other state reduces the amount of water which said state would have received under its allocation if such ground water or water from springs were not developed and used, it may file a protest with the commission in accordance with the rules of the commission. The commission is empowered to receive evidence on any protest and make its ruling thereon.

Article X. Interbasin Transfers of Use

Either state may use directly, by exchange, or otherwise its allocated waters of the Truckee River in the Lake Tahoe Basin or the Carson River Basin, or its allocated waters of the Carson River in the Lake Tahoe Basin or the Truckee River Basin. The commission shall have authority to take such action as it deems appropriate so that the allocations of water made by this compact to either state shall not be adversely affected by such use in the other state.

Nothing herein shall preclude the use of Lake Tahoe as a physical facility to accomplish the use of Truckee River waters in the Carson River watershed or Carson River waters in the Truckee River watershed, but in no event shall the use of Lake Tahoe as such a physical facility be inconsistent with any provision of Article V of the compact.

Article XI. Suppression of Evaporation

A. Either state is entitled, but not obligated to participate in any project for the conservation of water through the suppression of evaporation. The yield of any such project shall be allocated to each state by the commission in such proportion as shall be determined by the commission, taking into consideration such factors as the commission deems pertinent. Such allocation of yield to each state shall be in addition to the waters allocated to each state by other provisions of this compact.

B. Subject to the power of the commission to allocate the

increased yield resulting from suppression of evaporation as set forth above, no existing property right shall be adversely affected except by agreement with the owner, or as may be otherwise permitted by state law. Nothing herein shall diminish or supersede any law of either state regarding water quality, including but not limited to conditions affecting fish and wildlife.

Article XII. Coordination of Reservoirs

A. The commission shall have the authority to prepare plans for the coordination of reservoirs and the method of implementation of any such plans prepared, and to approve the same and to review and revise such approved plans from time to time as the commission may deem appropriate. Prior to the preparation of any such plan and implementation or review or revision thereof, the owners of all reservoirs to be affected thereby shall be given the opportunity of participating in such preparation, review, or revision.

B. Prior to the approval thereof, the commission shall provide for public hearings concerning such a plan, review, or revision upon such notice as the commission deems appropriate.

C. Any owner of a reservoir shall have the right to refuse to participate in any such plan, or method of implementation, or review or revision thereof, and in such event such reservoir shall be excluded therefrom, and any plan or implementation or review or revision concerning other reservoirs as may be approved shall not adversely affect the use of the reservoir or the right to the use of water therefrom, which has been excluded.

D. Owners of reservoirs may develop plans for coordination thereof, but shall give written notice to the commission at least 60 days prior to their implementation.

Article XIII. Fish, Wildlife, and Recreation

The use of waters for preservation, protection, and enhancement of fish, wildlife, and recreation is hereby recognized as an inseparable part of the public interest in the use of the waters of Lake Tahoe, Truckee, Carson and Walker River Basins in both states, and is, therefore, beneficial.

Article XIV. Nonconsumptive Use

Each state may use water for nonconsumptive purposes, including but not limited to flood control, recreation, fishery and wildlife maintenance and enhancement, and hydroelectric power generation, provided that such uses result in no discernible reduction in the water allocated to the other state.

Article XV. Diversion and Exchange of Yield From Future Reservoirs

Upon the construction of a surface storage project or projects to store unused water herein allocated, users who become entitled to the yield therefrom may, at any point where water is physically available, divert water to use subject to approval of the commission and conditioned upon providing water in exchange for such diverted water as directed by the commission, so that other users, including owners of reservoir storage or owners of interest in waters stored, receive their entitlement of water in time, place, and quality the same as if the diversion and exchange had not been made.

Article XVI. Change of Point of Diversion, Manner, Purpose, or Place of Use

Any change of point of diversion or of manner, purpose or place of use of the waters of the Carson, Truckee or Walker River Basins may be made in either state pursuant to state law or applicable court decree, provided that such change shall not adversely affect the allocation of water to the other state. Either state, if permitted by state law, may permit a change to other use of water formerly consumed by natural subirrigation on meadows. It shall be the duty of each state to initiate proceedings before the commission if it believes that such change in the other state would adversely affect its allocation. In the event of the initiation of such a proceeding a commission hearing shall be held and the person desiring the change shall have the burden of establishing that such change would not adversely affect the allocation to the complaining state. In the event the person desiring the change does not establish that such change would not adversely affect the allocation to the complaining state, the commission shall enter such order as it deems appropriate to assure that the allocation to the complaining state is not adversely affected.

Article XVII. Imported Water

The provisions of this compact respecting allocation of water are applicable solely to the waters of the Truckee, Carson, and Walker River Basins and the Lake Tahoe Basin. To the extent that either state imports into the Truckee, Carson or Walker River Basins or the Lake Tahoe Basin water from another river or source the state making the importation shall have the exclusive use of such imported water unless by written agreement between the states it is otherwise provided. Nothing herein shall preclude either state from using such imported water as replacement or exchange water to meet such conditions as may be imposed by the commission pursuant to the provisions of this compact.

Article XVIII. Compact Effect

A. Each state and all persons using, claiming, or in any manner asserting any right to the use of the waters of Lake Tahoe, Truckee River, Carson River, and Walker River Basins, shall be subject to the terms of this compact.

B. The provisions of this compact shall be self-executing and shall by operation of law be conditions of the various state permits, licenses, or other authorizations relating to the waters of Lake Tahoe, Truckee River, Carson River and Walker River Basins.

C. Nothing in this compact shall abridge, limit or derogate against any claim or right of anyone to the use of water in either state within the allocations to such state that could or may be made or established under state or federal law had this compact not been adopted; provided, that the place of use, under any such right, of water from any of the four basins covered by this compact shall be limited to such basin or such other areas outside such basin as are permissible places of use of water from such basin under this compact.

D. Nothing in this compact shall be construed as granting to any person or entity the right to divert, store, or use water.

Article XIX. Violations

A. Violations or threatened violations of any of the provisions of this compact which come to the attention of the commission shall be promptly investigated by it. If after such investigation the commission determines further action is necessary it may take such action as it deems advisable including, but not limited to, the commencement of an action injunctive or otherwise in its own name in any court of general jurisdiction of the state where the violation has occurred or is threatened, or the United States District Court for the district where said violation has occurred or is threatened, or if it is determined by the commission appropriate to do so, refer the matter with its recommendations, if any, to an appropriate federal, state, or local official or agency or board for action.

B. In any action concerned with any matter in which the commission has made a decision, the findings of the commission shall constitute prima facie evidence of the facts found.

Article XX. Recourse to Courts

Nothing in this compact shall be construed to limit or prevent either state or any person or entity from instituting or maintaining any action or proceeding, legal or equitable, in any court of competent jurisdiction for the protection of any right under this compact or the enforcement of its provisions, provided that in all matters in which the commission is given jurisdiction by this compact to make a decision no such court action shall be commenced until the matter has been submitted

to the commission for decision and decided by it, unless a decision by the commission has been unreasonably delayed.

Article XXI. Nonimpairment of Rights of United States

Except as provided in Article XXII nothing in this compact shall be construed as:

A. Affecting the obligations of the United States to the Indians and Indian tribes, or any right owned or held by or for Indians or Indian tribes which is subject to the jurisdiction of the United States.

B. Affecting any rights or powers of the United States of America, its agencies or instrumentalities in or to the waters of the Truckee, Carson, or Walker River Basins or the Lake Tahoe Basin, or its capacity to acquire rights in and to the use of said waters.

C. Subjecting any property of the United States, its agencies or instrumentalities to taxation by either state or subdivision thereof.

D. Subjecting any property of the United States of America, its agencies or instrumentalities to the laws of any state to an extent other than the extent to which such laws would apply without regard to this compact.

Article XXII. Ratification and Consent

This compact shall become effective when, but only if,

(1) It shall have been ratified by acts of the Legislature of each of the States of California and Nevada;

(2) It shall have been consented to by act of Congress of the United States; and

(3) Congress provides in its consent legislation or by separate legislation that the following provisions of the compact shall be binding on the agencies, wards, and instrumentalities of the United States of America:

Article VII, Section E
Article VIII, Subsection A.4(b)
Article VIII, Subsection B.1
Article VIII, Subsection B.5

Article XXIII. Termination

This compact may be terminated any time by legislative consent of both states, but notwithstanding such termination all rights then established hereunder or recognized hereby shall continue to be recognized as valid.

In witness whereof the commissioners have executed six counterparts hereof, each of which shall be and does constitute an original and one shall be deposited with the Administrator of General Services of the United States of America, and two of which shall be forwarded to the Governor of each signatory state, and one of which shall be made a part of the permanent records of the California-Nevada Compact Commission.

CHAPTER 1481

An act to add Section 1374 to the Penal Code, relating to defendants.

[Approved by Governor September 19, 1970. Filed with Secretary of State September 19, 1970.]

The people of the State of California do enact as follows:

SECTION 1. Section 1374 is added to the Penal Code, to read:

1374. If the superintendent of a state hospital is of the opinion that a defendant who has been committed to the hospital pursuant to Section 1370 is insane but has improved to such an extent that he is no longer a menace to the health and safety of others and will benefit from leaves of absence from the hospital, he may petition the court which committed the defendant for permission to grant leaves of absence to the defendant. If the court approves the petition, the superintendent may grant leaves of absence to the defendant under the same general terms and conditions as applied to leaves of absence granted to mentally disordered persons committed to state hospitals.

CHAPTER 1482

An act to amend Sections 35781, 35783, and 35893 of, and to add Section 35783.1 to, the Agricultural Code, relating to milk.

[Approved by Governor September 19, 1970. Filed with Secretary of State September 19, 1970.]

The people of the State of California do enact as follows:

SECTION 1. Section 35781 of the Agricultural Code is amended to read:

35781. Except as otherwise provided in this article, market milk shall not contain:

(a) More than 15,000 bacteria per milliliter if to be sold as raw milk to the consumer.

(b) More than 50,000 bacteria per milliliter if to be sold as raw milk for pasteurization or more than 750 bacteria per milliliter after having been subjected to laboratory pasteurization which has a time-temperature equivalent to that required in Section 34001 before pasteurization.

(c) More than 15,000 bacteria per milliliter or more than 10 coliform bacteria per milliliter at time of delivery to the consumer, if pasteurized.

(d) More than 750 coliform bacteria per milliliter in raw milk for pasteurization. Samples shall be taken while the milk is on the premises of the producer.

(e) The director may by regulation require different standards for raw market milk for pasteurization from the standards in this section if he determines after administrative hearing that such standards are necessary to protect or improve milk quality.

SEC. 2. Section 35783 of the Agricultural Code is amended to read:

35783. Market milk for pasteurization shall be cooled to 50 degrees Fahrenheit or below and shall be maintained in transit at not to exceed 52 degrees Fahrenheit. On or before January 1, 1972, all market milk dairies shall provide sufficient refrigeration capacity to reduce the temperature of the milk to 50 degrees Fahrenheit or below, as indicated by a recording thermometer, within one hour after completion of the first milking, or five hours after the beginning of milking, whichever is first, and to maintain it at such temperature until delivery. The director shall promulgate regulations to provide for emergencies that may occur as a result of equipment failure.

SEC. 3. Section 35783.1 is added to the Agricultural Code to read:

35783.1. On or before January 1, 1972, a recording thermometer shall be installed in each dairy farm milk storage tank used to cool or store raw market milk for pasteurization during the milking process. If a farm pickup tanker is used in lieu of a dairy farm tank then the recording thermometer shall be installed in the pipeline following the cooling device. Nothing in this section shall be construed as meaning that a recording thermometer must be attached when milk tankers are moved over the road. The director shall issue regulations providing standards for such thermometer including installation and operation.

SEC. 4. Section 35893 of the Agricultural Code is amended to read:

35893. Milk for grade A pasteurized milk is market milk which conforms to all the following minimum requirements:

(a) The health of the cows or goats shall be determined at

least once in six months by an official representative of an approved milk inspection service, or a milk inspection service which is established by the director.

(b) The milk shall be cooled immediately after being drawn from the cow or goat to 50 degrees Fahrenheit or less and maintained in transit at not to exceed 52 degrees Fahrenheit.

(c) It shall be produced on dairy farms that score not less than 80 percent on the dairy farm scorecard which is adopted by the director.

(d) Shall meet the standards of Section 35781 or the regulation adopted pursuant thereto.

CHAPTER 1483

An act to amend Section 1804.3 of the Civil Code, relating to retail installment sales.

SECTION 1. Section 1804.3 of the Civil Code is amended to read:

1804.3. (a) No contract other than one for services shall provide for a lien on any goods theretofore fully paid for or which have not been sold by the seller.

(b) Any contract for goods which provides for a lien on real property where the goods sold are not to be attached to the real property shall be a violation of this chapter and subject to the penalties set forth in Article 12.2 (commencing with Section 1812.6) of Chapter 1 of Title 2 of Part 4 of Division 3.

CHAPTER 1484

An act to amend Section 11457 of, and to add Section 11459 to, the Welfare and Institutions Code, relating to public assistance.

11457. Fines, penalties or forfeitures imposed under Section 270d of the Penal Code shall be deposited in the general fund of the county treasury and shall not be taken into account in determining the amount of aid to be paid. Payment for child support made by or collected in any way from absent

parents, will be taken into account in determining the amount of aid to be paid.

Money from absent parents for support of a needy child, when collected by or paid through any public officer or agency, shall be transmitted to the county department providing aid to be used for the support of the child. All absent parents' payments or collections available to the county department for support of the child shall be applied first to support for the calendar month following receipt by the county department, and any balance remaining shall either be applied against future needs or be treated as reimbursement for past support furnished from public assistance funds.

The balance of funds which are treated as reimbursement for past support are to be apportioned according to the sharing of aid; provided, however, that any amount which would otherwise be apportioned to the State of California shall be retained by the county to offset county costs of collection of support payments from absent parents and to offset costs of welfare fraud investigations.

SEC. 2. Section 11459 is added to the Welfare and Institutions Code, to read:

11459. Out of restitution secured by the county from any person for aid improperly obtained, the county is entitled to retain such amounts as are necessary to offset the cost of collecting such restitution.

CHAPTER 1485

SECTION 1. A retirant of the State Teachers' Retirement System shall receive credit for time served in the full-time paid service of the United Service Organizations, as provided in Section 13994 of the Education Code with respect to service in the American Red Cross if he had five or more years of service with the United Service Organizations and provided he makes contributions as specified in Section 14040 of the Education Code with respect to service in the American Red Cross.

CHAPTER 2.5. SALE OR OTHER DISTRIBUTION

11919. Notwithstanding any other provision of law, no restricted dangerous drug, in solid or capsule form, shall be sold, furnished, or distributed in this state unless it has on the drug if in solid form, or on the capsule if in capsule form, an identifying device, insignia, or mark of the manufacturer of such drug.

This section shall not apply to a pharmacist who, in accordance with applicable state law, compounds such restricted dangerous drug in the course of his practice as a pharmacist for direct dispensing by him upon a prescription of any person licensed to prescribe such restricted dangerous drugs.

SEC. 2. This act shall become operative on July 1, 1971.

CHAPTER 1487

An act to amend Section 5503 of the Streets and Highways Code, relating to property tax assessments.

[Approved by Governor September 19, 1970. Filed with Secretary of State September 19, 1970.]

The people of the State of California do enact as follows:

SECTION 1. Section 5503 of the Streets and Highways Code is amended to read:

5503. The superintendent of streets shall, upon the entering of a decree of court directing a reassessment or upon the making of an order by the legislative body directing a reassessment, proceed to make a reassessment in the following manner:

(a) If the reassessment is a partial one only, then it shall not be necessary for the diagram to show any other lots than the ones covered by such partial reassessment.

(b) If it is a full reassessment, the superintendent of streets shall prepare and file with the reassessment a diagram showing the lots or parcels of land deemed by him to have been benefited by the work. The reassessment shall assess upon and

against each of the lots or parcels of land contained therein an amount arrived at as follows:

The benefits derived, or to be derived, by each of the lots or parcels of land from the work estimated as of the date of the filing in the clerk's office of the original assessment shall first be listed. Then there shall be added thereto interest thereon from 30 days after the date of such filing of the original assessment at the rate of 7 percent per annum, and the total sum shall constitute and be the amount of the proposed several assessments in such reassessment. The total of such reassessment, however, exclusive of interest, shall not exceed the cost and expenses of the work.

In the event such reassessment is not confirmed within seven months of the date of filing in the clerk's office of the original assessment, the legislative body shall pay from its general funds the 7 percent interest added to the cost and expenses of the work in accordance with this section, plus the incidental expenses of such reassessment in the event that a reassessment is made.

CHAPTER 1488

An act to add Chapter 7 (commencing with Section 1000.1) to Division 4 of the Military and Veterans Code, relating to veterans' benefits, and making an appropriation therefor.

[Approved by Governor September 19, 1970 Filed with Secretary of State September 19, 1970]

The people of the State of California do enact as follows:

SECTION 1. Chapter 7 (commencing with Section 1000.1) is added to Division 4 of the Military and Veterans Code, to read:

CHAPTER 7. VETERANS' REVENUE DEBENTURE ACT OF 1970

Article 1. General Provisions

1000.1. This chapter may be cited as the Veterans' Revenue Debenture Act of 1970.

1000.2. The following terms, wherever used or referred to in this chapter, shall have the following meanings, respectively, unless a different meaning appears from the context:

(a) "Department" means the Department of Veterans Affairs of the State of California, as the same is constituted by the provisions of Section 63 of this code, and any successor to such office.

(b) "Veterans' Debenture Finance Committee" means the committee constituted pursuant to the provisions of Section 1000.3 of this code.

(c) "Debenture" means any written evidence of any obligation issued by the department pursuant to this chapter, payment of which is secured by a pledge of revenues, as provided in this chapter, irrespective of the form of such obligation.

(d) "Debenture holder" means any person who shall be the bearer of any outstanding debenture registered to bearer not registered, or the registered owner of any outstanding debenture which shall at the time be registered other than to bearer.

(e) "Veteran" shall have the meaning set forth in Section 980 of this code.

(f) "Pledged contracts" means contracts of sale entered into by the department and veterans covering any property purchased or acquired by the department from the proceeds of debentures as may be provided in any resolution of issuance and to the extent therein provided.

(g) "Surplus money" means funds not required to meet any immediate demand which has accrued against the Veterans' Farm and Home Building Fund of 1943 without regard to fiscal years.

(h) "Revenues" means all income and receipts of the department from the pledged contracts, including, without limiting the generality of the foregoing, all payments received on account of the selling price, interest thereon, expenses and all other charges added to the selling price, insurance proceeds collected on account of loss, damage or injury to the property, life insurance or disability insurance proceeds received by the department, and all other receipts of whatsoever kind or nature arising out of or incident to the pledged contracts.

The term "revenues" also includes all interest or other income from any investment of any moneys in any fund established under a resolution of issuance for the payment of the principal of, or interest or premium on, debentures.

(i) "Resolution of issuance" means a resolution of the department, approved by the Veterans' Debenture Finance Committee, pursuant to which debentures are issued, and any amendatory or supplemental resolutions.

(j) "Person" means any individual, firm, corporation, association, partnership, trust, business trust, or receiver or trustee or conservator for any thereof, but does not include this state or any public corporation, political subdivision, city, county, district or agency of this state.

1000.3. There is hereby created a Veterans' Debenture Finance Committee composed of the Governor, the State Controller, the State Treasurer, the Director of Finance, and the Director of Veterans Affairs, each of whom shall serve thereon without compensation and a majority of whom shall be empowered to act for such committee.

Article 2. Authorization and Issuance of Debentures

1001 1. Debentures may be issued by the department at such times and in such amounts not to exceed fifty million dollars ($50,000,000) in the aggregate as the department, with

the approval of the Veterans' Debenture Finance Committee, may determine. The issuance of debentures shall be authorized by a resolution of issuance adopted as in this chapter provided.

1001.2. Whenever the department determines that debentures should be issued, it shall adopt a resolution of issuance, which shall be executed for the department by the Director of Veterans Affairs. Each resolution of issuance so adopted by the department shall be submitted to the Veterans' Debenture Finance Committee, which shall consider and approve or disapprove any resolution of issuance so submitted. Upon such approval, by a resolution adopted by a majority of the members of the Veterans' Debenture Finance Committee, the resolution of issuance shall become effective and the State Treasurer shall cause the debentures authorized thereunder to be prepared in accordance with the terms of the resolution of issuance.

1001.3. Debentures shall be issued in the name of the Department of Veterans Affairs of the State of California and as the obligation of the department, but neither the principal of, nor the interest on, any debentures shall be or become a lien, charge or liability against the State of California, the department or the Veterans' Debenture Finance Committee, or against the property or funds of any of them, except to the extent of the pledge of revenues as may be provided by the resolution of issuance pursuant to which such debentures are issued. Every debenture shall contain a recital substantially as follows: "This debenture is a special obligation of the Department of Veterans Affairs of the State of California, and is not a lien, charge or liability against the State of California, or against the Department of Veterans Affairs or against the property or funds of either, except only to the extent of the pledge of revenues or part of revenues as provided in the resolution. The holder of this debenture cannot compel the exercise of the taxing power of the State of California or the forfeiture of its property to pay this debenture or the interest thereon."

1001.4. All debentures shall bear the facsimile signature of the Director of Veterans Affairs and the State Controller and shall be endorsed by the State Treasurer either by original signature or by signature stamp. The Great Seal of the State of California shall be impressed, mechanically reproduced or imprinted by facsimile upon each debenture. The interest coupons attached to any debenture shall bear a facsimile of the signature of the State Treasurer. In case any such official whose signature or countersignature appears on the debentures or coupons shall cease to be such official before the debentures so signed or countersigned shall have been actually executed or delivered, such signature or countersignature shall nevertheless be valid and sufficient for all purposes the same as if he had remained in office until the delivery of the debentures, and such debentures and coupons shall be

issued and shall be as binding upon the department as though the person who signed such debentures or coupons had been such official on the date borne by the debentures or coupons and on the date of delivery. Any such debentures may be signed and sealed on behalf of the department by such person as at the actual date of execution of such debentures shall be the Director of Veterans Affairs or the State Treasurer or the State Controller, as the case may be, although on such date as may be borne by such debentures any such person shall not have been such official.

1001.5. The validity of the authorization and issuance of any debentures shall not be dependent on or affected by the validity or regularity of any proceedings relating to the expenditure of the proceeds thereof.

1001.6. Reference on the face of any debentures to a resolution of issuance by its date of adoption, or the apparent date on the face thereof, shall be sufficient to incorporate all of the provisions thereof and of this chapter into the body of the debentures and their appurtenant coupons. Each taker and subsequent holder of the debentures or coupons, whether the coupons are attached to or detached from the debentures, shall have recourse to all of the provisions of the resolution of issuance and of this chapter, and shall be bound thereby.

Article 3. Provisions of Resolutions of Issuance and Supplemental Resolutions

1002.1. A resolution of issuance may provide for the issuance of debentures in one or more series and for the aggregate principal amount of any series thereof. Any series of debentures may consist of serial debentures or of term debentures with sinking fund requirements or partially of serial debentures and partially of term debentures with sinking fund requirements. A resolution of issuance may provide for such supplemental resolutions of issuance as may from time to time be required to fix and determine the terms and conditions of each series of debentures.

1002.2. A resolution of issuance may provide for the dates to be borne by debentures, and by each series, issued thereunder and for the dates of maturity thereof.

1002.3. A resolution of issuance may provide for the payment of interest on debentures annually or semiannually or in part annually and in part semiannually, upon such dates and at such rates as may be provided for by the Veterans' Debenture Finance Committee. The first interest payment may be at any time on or before one year from the date of the debenture.

1002.4. A resolution of issuance may provide for the call and redemption of debentures issued thereunder, upon such terms, conditions and notice, and upon the payment of such premium, as may be fixed in said resolution. No debenture shall be subject to call or redemption prior to its fixed maturity date unless the right to exercise such call is expressly stated on the face of the debenture.

1002.5. A resolution of issuance may provide for the forms, denominations, registration, transfer and interchange of debentures issued thereunder. Debentures may be issued as coupon debentures or as registered debentures in any denomination or denominations authorized by the resolution of issuance. A resolution of issuance may provide for the interchange of coupon debentures for registered debentures and of registered debentures for coupon debentures, and may provide for the registration of coupon debentures as to principal only or as to both principal and interest. Debentures of different denominations, in either coupon or registered form, may be made exchangeable for debentures of an equal aggregate principal amount, but of different denominations upon such terms as may be provided in the resolution of issuance.

1002.6. A resolution of issuance may provide for the replacement of lost, destroyed or mutilated debentures or coupons.

1002.7. A resolution of issuance may provide for the issuance of temporary or interim debentures, certificates or receipts pending the preparation and delivery of definitive debentures. Such temporary or interim debentures, certificates or receipts may be of any denomination and with or without coupons.

1002.8. A resolution of issuance may provide for the payment of the principal and interest of debentures at any place within or without the State of California and in specified coin or currency of the United States and may include a covenant to maintain, in each city in which any outstanding debentures shall be expressed to be payable, an office or agency where such debentures and interest coupons thereon may be presented for payment.

1002.9. A resolution of issuance shall provide the means by which payments of principal and interest of debentures shall be secured.

1002.10. A resolution of issuance may include a provision requiring the department to pay or cause to be paid punctually the principal of all debentures issued thereunder and the interest thereon, on the dates, at the places and in the manner provided in such debentures and in the coupons appertaining thereto.

1002.11. A resolution of issuance may include a provision requiring the department to preserve and protect the security of the debentures and the rights of the holders thereof and to warrant and defend such rights.

1002.12. A resolution of issuance may include provisions which limit, restrict or prohibit any right, power or privilege of the department to create or give any mortgage, lien or pledge on any personal or real property acquired by the department out of moneys in the Veterans' Farm and Home Building Fund of 1970, or upon the pledged contracts or upon any other revenues.

1002.13. A resolution of issuance may include provisions requiring, specifying or limiting the kind, amount and character of insurance to be maintained by the department on any property under the jurisdiction of the department and the use and disposition of the proceeds of any such insurance thereafter collected.

1002.14. A resolution of issuance may include a provision requiring the department to charge a uniform rate of interest on the unpaid balance of the purchase price of any and all properties acquired by the department and sold to veterans under this act.

1002.15. A resolution of issuance may include provisions requiring the department to hold or cause to be held in trust the revenues, or any part of the revenues, pledged to the payment of debentures and the interest thereon, and to apply or cause to be applied revenues or such part of revenues, only as provided in the resolution of issuance.

1002.16. A resolution of issuance may include provisions defining the power of the department in applying the proceeds of the sale of any debentures.

1002.17. A resolution of issuance may include a provision authorizing, or limiting the power of, the department to issue additional debentures and establishing the terms and conditions upon which additional debentures may be issued.

1002.18. A resolution of issuance may include a clause providing the events of default and the terms and conditions upon which any or all of the debentures then or thereafter issued may become or be declared due and payable prior to maturity, and the terms and conditions upon which such declaration and its consequences may be waived.

1002.19. A resolution of issuance may include provisions establishing the rights, powers and duties arising upon breach by the department of any of the covenants, conditions or obligations contained therein.

1002.20. A resolution of issuance may include provisions prescribing a procedure by which the terms and conditions of the resolution may be subsequently amended or modified with the consent of the department and the Veterans' Debenture Finance Committee and the vote or written consent of the holders of a specified principal amount or specified proportion of the debentures issued and outstanding. Such provisions may include provisions for meetings of debenture holders and for the manner in which the consent of the debenture holders may be given. A resolution of issuance may provide that debentures held by the department or by the State of California or any political subdivision, public corporation or agency thereof shall not be counted as outstanding debentures or be entitled to vote or consent, but shall nevertheless be subject to any such modification or amendment.

1002.21. A resolution of issuance may provide that the debentures issued thereunder and the interest thereon shall be secured by all or part of the revenues, and may establish a

lien upon the revenues as the department, with the approval of the Veterans' Debenture Finance Committee, shall determine.

1002.22. A resolution of issuance may include a covenant that the department will duly pay and discharge, or cause to be paid and discharged, any taxes, assessments or other governmental charges lawfully imposed upon any properties owned by or under the jurisdiction of the department, or upon the revenues, as well as any lawful claim for labor, materials or supplies which, if unpaid, might become a lien or charge upon the revenues, or which might impair the security of the debentures.

1002.23. A resolution of issuance may include provisions requiring the preparation, filing and publication of financial statements with respect to the revenues, the funds securing the debentures and the expenses, properties and operations of the department, including provisions for examinations and reports by independent certified public accountants.

1002.24. A resolution of issuance may include a covenant that the department will at all times use its best efforts to maintain the powers, functions, duties and obligations reposed in it pursuant to law at the time of adoption of such resolution, and that it will not at any time voluntarily do, suffer or permit any act or thing, the effect of which would be to hinder, delay or imperil the payment of the indebtedness evidenced by any of the debentures or the performance or observance of any of the covenants contained in such resolution.

1002.25. A resolution of issuance may include provisions requiring, permitting, restricting or governing the deposit and investment of funds established for the security of debentures issued thereunder, and requiring that such deposits be secured or specifying the type of security required for such deposits irrespective of any law authorizing or permitting such deposit or investment of public funds generally.

1002.26. A resolution of issuance may include a covenant that the department will make or adopt and execute, or cause to be made, adopted and executed, any and all such further resolutions, acts, deeds, conveyances, assignments or assurances as may be reasonably required for effectuating the intention of the resolution of issuance and for better assuring and confirming unto the holders of the debentures the rights and benefits provided in the resolution of issuance.

1002.27. A resolution of issuance may include any and all covenants and agreements on the part of the department, and for such other acts or matters which the department, subject to the approval of the Veterans' Debenture Finance Committee, deems necessary or convenient or advisable for the better security of the debentures issued thereunder or to make the debentures more marketable.

1002.28. The resolution of issuance may provide for the appointment of a trustee or fiscal agent, which shall be a bank or trust company duly qualified to do business in this state,

to receive and disburse all the revenues applicable to the payment of the principal of or interest on the bonds, including any reserve fund, sinking fund or other fund established for the further securing of the bonds, and may provide for or authorize the payment of the compensation of such trustee or fiscal agent.

Article 4. Appropriation, Security, Sale, and Funds

1003.1. There is hereby appropriated, from any surplus money in the Veterans' Farm and Home Building Fund of 1943, not required to meet any immediate demand which has accrued against the fund, without regard to fiscal years, the sum of seven million five hundred thousand dollars ($7,500,000) or so much thereof as may be necessary to carry out the provisions of this article, but in no event shall the sum be less than 15 percent of the total amount of all debentures outstanding hereunder. Such sum appropriated shall be held in investments which are convertible into cash within the period of time required to satisfy the current requirements of the Veterans' Debenture Revenue Fund.

1003.2. The revenues shall be pledged first to the payment of the principal of and interest on the debentures and to all funds created for the further security of such debentures. In addition there shall be pledged to the payment of such principal and interest and all other charges, including reserve fund, sinking fund and all other payments required to be made in connection with the debentures, as further security therefor, such portions of the funds appropriated in Section 1003.1 as the Veterans' Debenture Finance Committee shall deem necessary to adequately protect the rights of the debenture holders.

1003.3. In the event of cancellation of any pledged contract or forfeiture or other termination thereof for any cause the department shall, as soon as practicable, enter into a new contract covering the same property and shall substitute the new contract in lieu of the pledged contract so canceled or terminated. The income and receipts of the substituted contract shall be pledged in their entirety to the payment of the debentures.

1003.4. The department shall at all times so long as any of the debentures are outstanding establish, fix and collect interest at such rate or rates on the unpaid balance on all pledged contracts to produce an amount which, together with income derived from investments, will yield revenues which will, in the aggregate, be sufficient with respect to the then immediately ensuing fiscal year to pay and provide for:

(a) Interest to become due and payable in such fiscal year on all debentures;

(b) The principal amount of all serial debentures maturing by their terms during such fiscal year;

(c) The aggregate minimum sinking fund payments, if any, required to be made for such fiscal year on account of debentures then outstanding;

(d) Such sums as may be required as reserve fund payments due in such fiscal year; and

(e) The estimated expenses of maintenance, operation and administration of the department as provided in the budget of the department for such fiscal year;

(f) Such additional aggregate sum as may be provided in any resolution of issuance, but not in excess of 1½ times the interest payments for such fiscal year on all the debentures then outstanding, but not less than 10 percent of the sum represented by the total of amounts designated by subdivisions (a), (b), and (c) of this section.

1003.5. All such interest rates so fixed by the department shall be applicable uniformly to all pledged contracts.

1003.6. All interest and other payments or charges of any kind or character due under any and all such contracts shall be payable in such coin or currency of the United States of America as at the time of payment is legal tender for the payment of public and private debts.

1003.7. All revenues to be received by the department from pledged contracts shall be directly, concurrently and exclusively pledged to the payment of debentures, and all such revenues shall remain so pledged until all of the debentures are fully paid or sufficient funds have been accumulated and are legally available for the payment thereof.

1003.8. The debenture redemption and interest payments and any premium payable upon debentures called for redemption, and all payments required for reserve funds, sinking funds and all other funds created as further security for the debentures constitute a first, direct, and exclusive charge and lien on all revenues of the pledged contracts and the interest or other income derived therefrom. Such revenues, together with any interest or other income earned thereon, and such funds and the interest and income earned thereon, constitute a trust fund for the security and payment of the debentures and shall not be used or pledged for any other purpose or transferred to any other fund as long as any such debentures are outstanding and unpaid.

1003.9. Whenever the State Treasurer finds that the interest rate then fixed and charged by the department on the pledged contracts is not adequate to meet the covenants or requirements of any resolution of issuance he shall notify the Veterans' Debenture Finance Committee, who shall specify the amount of the increased rate of interest to be charged on all pledged contracts. The department shall increase the interest rate on all pledged contracts specified by the Veterans' Debenture Finance Committee. Such increased interest rate on all pledged contracts will take effect on the first day of the second calendar month next succeeding the date of such notification by the State Treasurer and shall remain in effect

until such time as the Veterans' Debenture Finance Committee consents to the reduction thereof. The Veterans' Debenture Finance Committee shall not consent to any reduction in the interest rate then fixed on all outstanding pledged contracts unless:

(a) The revenues in the preceding fiscal year produced by the interest rate then in effect are in excess of all requirements of all resolutions of issuance under which debentures are then outstanding, and

(b) The interest rate so reduced will produce revenues for each subsequent fiscal year while any debentures are outstanding in the aggregate amount required by all resolutions of issuance under which such debentures are outstanding.

1003.10. There is in the State Treasury a revolving fund known as the Veterans' Farm and Home Building Fund of 1970. Proceeds of sale of debentures shall be deposited in this fund. Money may be withdrawn from such fund in accordance with law upon requisition of the department for the purpose of carrying out the Veterans' Farm and Home Purchase Act of 1943.

1003.11. There is in the State Treasury a special fund known as the Veterans' Debenture Revenue Fund. All revenues shall be deposited in the Veterans' Debenture Revenue Fund. All moneys deposited in the Veterans' Debenture Revenue Fund shall be allocated and applied by the State Treasurer only as provided in the appropriate resolution of issuance of the department and separate and apart from all other moneys in the State Treasury. The moneys deposited in the Veterans' Debenture Revenue Fund shall be segregated and applied as provided in the resolution of issuance. The resolution of issuance may provide for the creation of the Veterans' Debenture Interest Fund Account, Veterans' Debenture Principal Fund Account, Veterans' Debenture Sinking Fund, Veterans' Debenture Reserve Fund Account and also any other funds or accounts which will be deemed necessary or desirable for the payment of or further security of debentures. The resolution of issuance establishing such funds may provide for the manner and method of disbursement of such funds, the amounts to be deposited therewith and withdrawn therefrom, the application of any surplus moneys in any such funds to the purchase or redemption of debentures and for the investment of moneys in such funds in particular bonds or obligations which are then made eligible for such investments by the terms of such resolution.

1003.12. The State Controller is hereby authorized to make all necessary orders to provide for the establishment of special funds and accounts authorized by any resolution of issuance and for the transfer of moneys from the Veterans' Debenture Revenue Fund into such account. Such transfer shall be made by the State Treasurer without further action on the part of the department. Neither the department nor the State of California nor any officer thereof shall have or exercise any

rights with respect to the moneys in any of such funds or accounts so established save only in trust for the direct benefit of the holders of debentures.

1003.13. Prior to the issuance of any debentures the department is authorized to deposit in any reserve fund created for the further security of the debentures, as the initial deposit therein, cash or securities equal to the minimum amounts required to be maintained therein by any resolution of issuance. Excess money in the reserve fund or account not required to be maintained therein by the provisions of any resolution of issuance may be withdrawn at the request of the department and transferred to the Veterans' Farm and Home Building Fund of 1970 and used and applied for the purpose of carrying out the Veterans' Farm and Home Purchase Act of 1943.

1003.14. Debentures authorized under any resolution of issuance approved by the Veterans' Debenture Finance Committee shall be sold by the State Treasurer upon the written request of the department at public sale and at such times and in such amounts as the department deems necessary to provide sufficient funds for the purposes for which the debentures are then authorized, provided that the debentures shall not be sold at less than their par value and accrued interest thereon to date of delivery. Successive issues of debentures within the limits of the authorization for the issuance of debentures, in the event any such limitations are included in the proceedings for the issuance of such debentures, shall be equally and regularly secured without preference, priority or distinction as to security or otherwise by reason of time of issue, or sale, except as debentures of various series may differ with respect to dates, numbers, interest rates, maturity, redemption provisions, sinking fund provisions, or otherwise as expressly authorized in any resolution of issuance.

1003.15. In the event the State Treasurer shall determine to sell the debentures, all costs and expenses of publication of notice of sale shall be a charge against the department and shall be paid by the department. The department shall likewise pay the cost of printing, lithographing or otherwise preparing the debentures, the charges of any duly authorized agent of the State Treasurer appointed for the payment of principal and interest of the debentures in any place other than the office of the State Treasurer, any expenses incurred in connection with delivery of the debentures, including the fees and expenses of municipal bond attorneys whose opinion on the validity of the debentures is to be provided by the department without charge to the successful purchaser of the debentures. The department is authorized to employ any nationally known municipal bond attorney or attorneys and the Attorney General for the purpose of rendering legal opinions as to the validity of the debentures to be furnished to the purchaser of the debentures without cost. The department is also authorized to employ or appoint such independent financial consultants,

attorneys, certified public accountants, public accountants, engineers or other independent consultants whose services or opinions are necessary or advisable in connection with the issuance and sale of revenue debentures. Payment for such services shall be made from the proceeds of the sale of the debentures or from any other funds available to the department on Controller's warrant duly drawn for that purpose. Such expenses may also include the cost of delivering debentures at any place other than the office of the State Treasurer, including transportation and insurance costs.

Article 5. Issuance of Refunding Debentures

1004.1. The department subject to the approval of the Veterans' Debenture Finance Committee may provide for the issuance, sale or exchange of refunding debentures for the purpose of redeeming or retiring any debentures issued under this chapter. All provisions of this chapter applicable to the issuance of debentures are applicable to the funding or refunding debentures and to the issuance, sale or exchange thereof. The department with the approval of the Veterans' Debenture Finance Committee may adopt a resolution or resolutions of issuance or supplemental resolutions authorizing the issuance of such refunding debentures and fixing the terms and conditions thereof.

1004.2. Refunding debentures may be issued in a principal amount sufficient to provide funds for the payment of all debentures to be refunded thereby and in addition to the payment of all expenses incident to the calling, retiring or paying of such outstanding debentures and the issuance of such refunding debentures. Such expenses include any amount necessary to be made available for the payment of interest upon such refunding debentures from the date of sale thereof to the date of payment of the debentures to be refunded, or to the date upon which the debentures to be refunded will be paid pursuant to the call thereof or agreement with the holders thereof, and the premium, if any, necessary to be paid in order to call or retire the outstanding debentures and the interest accruing thereon to the date of the call or retirement.

1004.3. Refunding debentures shall not constitute a debt or obligation of the State of California but shall be debentures of the department of the same character and payable from the same funds as other debentures authorized pursuant to this chapter. Any and all reserve or other funds applicable to the payment of the debentures to be refunded may, if so directed by the department, be transferred to any reserve or other funds provided with respect to the refunding debentures. The pledge of revenues to be received from contracts entered into by the department with veterans shall not be lessened, diminished, or affected in any way by the issuance of such refunding debentures.

1004.4. The department may from time to time or at any time sell or exchange refunding debentures for the purpose

of retiring, paying or refunding either all or part of the outstanding debentures, or of one or more series thereof, as it deems advisable. Such refunding debentures may be issued and delivered as outstanding debentures to be refunded thereby mature or are about to mature or are subject to call or redemption, or if the retirement thereof has been assured by consent of the holders thereof. Refunding debentures may be delivered in whole or in part in exchange for outstanding debentures with the consent of such holders.

Article 6. Remedies of Debenture Holders

1005.1. The holder of any debenture may by mandamus or other appropriate proceedings compel the performance of any of the duties imposed upon any state official or employee or imposed upon the department or its officers, agents or employees with respect to the collection of revenues from pledged contracts entered into by the department with veterans, and the investment and disbursement of the proceeds received from the sale of debentures.

1005.2. The department may in any resolution of issuance define the events of default including among others default in the payment of the principal or interest upon or premium due upon any debentures or default by the department in the observance of any of the covenants, agreements or conditions on its part to be performed under the resolution of issuance and may provide that upon the happening of any such event of default the holders of not less than the majority in aggregate principal amount of the debentures at the time outstanding will be entitled to declare the principal of all of the debentures then outstanding and the interest accrued thereon to be immediately due and payable.

1005.3. The department may provide in any resolution of issuance that the State Treasurer shall constitute a trustee to represent the debenture holders in the exercise and prosecution on their behalf of such rights and remedies as may be available to such debenture holders under any resolution of issuance or under the law under this chapter and in such event the State Treasurer as such trustee shall take such action as may seem appropriate to protect the interests of the debenture holders.

1005.4. Whenever the State Treasurer is acting as trustee by reason of any default, or for the protection of the interests of the debenture holders, the State Treasurer as such trustee, shall take such action as the holders or registered owners of 20 percent in principal amount of all the debentures then outstanding shall request in writing, provided that the State Treasurer as such trustee may request reasonable security before taking any action so requested.

1005.5. No remedy conferred upon or reserved to the holders of debentures is intended to be exclusive of any other remedy or remedies now or hereafter provided by law and

each and every such remedy shall be cumulative and shall be in addition to every other remedy given under this chapter or now or hereafter existing at law or in equity or by statute or otherwise.

1005.6. While any of the debentures remain outstanding the powers, duties or existence of the department and of every other official or agency of the State of California shall not be diminished or impaired in any manner that will adversely affect the interests and rights of the holders of the debentures.

Article 7. Miscellaneous

1006.1. All debentures and the income therefrom are at all times exempt from taxation in the State of California, except for transfer, inheritance, and gift taxes.

1006.2. All debentures shall be legal investments for all trust funds, for the funds of all insurance companies, banks (both commercial and savings), trust companies, state school funds and any pension funds, public or private.

1006.3. Any money or funds which may by law be invested in bonds of the State of California may be invested in debentures.

1006.4. Whenever any bonds of the State of California may by law be used as security for the performance of any act or the deposit of any public money, debentures may be so used.

1006.5. All debentures, subject to the provisions for registration contained therein, are negotiable instruments under the law merchant.

1006.6. The department may include in the proceedings authorizing the issuance of debentures any provisions not inconsistent with this chapter which limit, restrict or regulate the holding, deposit, investment, and application of money consisting of the proceeds from the sale of the debentures or the revenues or other income received from the pledged contracts entered into by the department with veterans, and such provisions shall constitute a contract with the holders of the debentures and shall be binding upon the department and all other officers, officials and agencies of the State of California and upon the state so long as any of the debentures are outstanding.

1006.7. The department may provide in the proceedings authorizing issuance of debentures for the establishment of one or more reserve funds out of the proceeds of the sale of the debentures or out of revenues or out of any moneys or securities available to the department under this act, and may provide for the use and application of any surplus moneys in any such reserve fund.

1006.8. The State Treasurer may sell any of the debentures authorized under this chapter to the United States of America or to any of its departments, agencies or instrumentalities upon such terms and conditions as may be mutually agreed

upon, and the department is specifically authorized to enter into any such agreements, terms and conditions required by the United States of America or any of its departments, agencies or instrumentalities as a condition to the purchase of such debentures.

1006.9. Warrants for the payments to be made on account of the debentures either as to principal, interest, premium, or otherwise, shall be duly drawn by the State Controller, upon the request of the State Treasurer, whenever the drawing of such warrants is required in order to make such payments.

1006.10. Notwithstanding anything contained in this chapter, the proceeds received from the sale of debentures and any revenues received by the department from pledged contracts entered into by the department may be used to defray any expenses incurred by the department or the State Treasurer in connection with and incidental to the issuance and sale of debentures including expenses for preparation, inspections and examinations, surveys and reports, which may be required by the purchasers of debentures, and any legal opinions deemed necessary or advisable by the department in connection with the issuance of debentures except that the proceedings authorizing the issuance of such debentures may contain appropriate provisions governing the use and application of the proceeds from the sale of the debentures or other revenues received by the department for the purposes above specified.

1006.11. This chapter shall be liberally construed to carry out the objects and purposes and the declared public policy of the State of California as in this chapter set forth. The facts with which the Legislature is fully cognizant are:

The State of California is committed to aid and assist veterans under the Veterans' Farm and Home Purchase Act of 1943. Increasing numbers of servicemen who served in Vietnam are being discharged and need home loans. The Cal-Vet loan program must be updated to provide comparable benefits to those provided veterans of World War II and the Korean Conflict. Conditions in the money market render it impracticable for the State of California in conformity with its other commitments to continue to raise funds for veterans' aid through the issuance and sale of general obligation bonds of the state. There is now in the Department of Veterans Affairs a backlog of applications which cannot be processed because funds are inadequate to meet the demand for loans. This act provides another method whereby the State of California will be able to raise the necessary funds for the aid and assistance of veterans through the issuance of revenue debentures payable exclusively from the proceeds of contracts of sale of properties acquired by the department from veterans' revenue debenture proceeds and resold to veterans without imposing any liability upon the State of California and without creating any debt or liability of the State of California. The urgent requirements of veterans and the necessity of raising funds immediately for

their aid and assistance render it essential that this law be adopted.

1006.12. If any section, subdivision, sentence, clause or phrase of this chapter is for any reason held to be unconstitutional or invalid or unenforceable, such decision shall not affect the validity or enforceability of the remaining portions of the chapter. The Legislature hereby declares that it would have passed this chapter and each section, subdivision, sentence, clause and phrase hereof irrespective of the fact that any one or more sections, subdivisions, sentences, clauses and phrases may be declared unconstitutional, invalid or unenforceable.

1006.13. This chapter shall not operate to rescind or repeal any act of the State of California now or hereafter enacted providing for the issuance of general obligation bonds of the State of California for the purpose of financing the Veterans' Farm and Home Purchase Act of 1943 or for purposes similar to those set forth in the Veterans' Farm and Home Purchase Act of 1943 provided such bonds are either payable out of the General Fund of the State of California or the full faith and credit of said state is pledged for the payment of both the principal of and interest thereon.

1006.14. All money in any of the funds created or authorized to be created in any resolution of issuance under the provisions of this chapter is hereby appropriated for expenditure in carrying out the purposes herein and therein provided.

1006.15. The purchaser shall make an initial payment of at least 10 percent of the selling price of the property, in case of a farm, and 5 percent in the case of a home. The department may waive the initial payment in any case where the value of the property as determined by the department appraisal shall be equal to the amount to be paid by the department plus at least 10 percent in the case of a farm, and 5 percent in the case of a home. The balance of the purchase price may be amortized over a period fixed by the department, not exceeding 40 years, together with interest thereon at the rate as determined by the department for such amortization purposes. The department shall establish the actual interest rate to be paid. To this end the department, by two-thirds vote of the California Veterans Board, with the approval of the Veterans' Debenture Finance Committee established by Section 1000.3 of this code, is empowered to establish a uniform rate of interest payable upon the amount remaining unpaid under all pledged veterans' purchase contracts then or thereafter executed. The California Veterans Board and the Veterans' Debenture Finance Committee shall periodically at least once each year make a finding as to the rate of interest to be charged, taking into consideration the requirements of the Veterans' Debenture Revenue Fund created by this chapter, but subject to any covenant contained in any resolution of issuance adopted in accordance with this chapter pursuant to which debentures are at the time outstanding. Subject to any

such covenant, the department may raise or lower the rate of interest payable under such contracts for any given period as many times and as frequently as it deems to be for the best interests of the department, if in so doing its action is made applicable alike to any and all pledged contract holders and 30 days' advance notice is given of the time when the new rate of interest is to become effective. Upon demand of the Veterans' Debenture Finance Committee, given as provided in any resolution of issuance adopted pursuant to this chapter, the department shall increase the rate of interest to be charged upon the amount remaining unpaid upon all pledged veterans' purchase contracts then in existence. A change in the interest rate may affect the total amount of any installment payment. The purchaser on any installment date may pay any or all installments still remaining unpaid. Subject to any covenant contained in any resolution of issuance adopted in accordance with this chapter, and pursuant to which debentures are at the time outstanding, the department may, in any individual case, for good cause postpone from time to time, upon such terms as the department deems proper, the payment of the whole or any part of any installment of the purchase price or interest thereon.

This section is intended to be applicable to all lands acquired from the proceeds of the sale of debentures issued hereunder and to the resale and disposition of such lands to the purchasers thereof and no other provision of law shall be applicable to the purchase or resale of such lands except only as in this act provided.

1006.16. All applications for the benefits contained in this article shall be filed with the department within 10 years from the date of the applicant's discharge from the service.

CHAPTER 1489

An act to amend Section 10751 of the Revenue and Taxation Code, and to add Section 9267 to the Vehicle Code, relating to motor vehicle fees.

[Approved by Governor September 19, 1970. Filed with Secretary of State September 19, 1970.]

The people of the State of California do enact as follows:

SECTION 1. Section 10751 of the Revenue and Taxation Code is amended to read:

10751. (a) Except as provided in subdivision (b), a license fee is hereby imposed for the privilege of operating upon the public highways in this state any vehicle of a type which is subject to registration under the Vehicle Code.

(b) The owner of any used vehicle, except a used trailer coach, which the owner purchased during the month of December of any year, shall not be required to pay any li-

cense fee for the year in which the vehicle is purchased, if such owner of the vehicle, at the time of registration as required by Section 9267 of the Vehicle Code, provides a certificate of nonoperation showing that such vehicle was not operated, moved, or left standing on any highway during the first 11 months of such year and pays the required fees for the ensuing year.

SEC. 2. Section 9267 is added to the Vehicle Code, to read:

9267. The owner of any used vehicle, except a used trailer coach, which the owner purchased during the month of December of any year and is to be operated, moved, or left standing on any highway by such owner during the year in which the vehicle is purchased, shall be required to register the vehicle for such year, but shall not be required to pay any registration fees for such year, if the owner of the vehicle, at the time of such registration, provides a certificate of nonoperation showing that such vehicle has not been operated, moved, or left standing on any highway during the first 11 months of such year and pays the required fees for the ensuing year.

CHAPTER 1490

An act to amend Sections 815 and 850 of the Penal Code, relating to warrants, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 19, 1970. Filed with Secretary of State September 19, 1970.]

The people of the State of California do enact as follows:

SECTION 1. Section 815 of the Penal Code is amended to read:

815. A warrant of arrest shall specify the name of the defendant or, if it is unknown to the magistrate, judge, justice, or other issuing authority, the defendant may be designated therein by any name. It shall also state the time of issuing it, and the city or county where it is issued, and shall be signed by the magistrate, judge, justice, or other issuing authority issuing it with the title of his office and the name of the court or other issuing agency.

SEC. 2. Section 850 of the Penal Code is amended to read:

850. A telegraphic copy of a warrant or an abstract of a warrant may be sent by telegraph, teletype, or any other electronic devices, to one or more peace officers, and such copy or abstract is as effectual in the hands of any officer, and he shall proceed in the same manner under it, as though he held the original warrant issued by a magistrate or the issuing authority or agency. An abstract of the warrant as herein referred to shall contain the following information: the charge, the court or agency of issuance, the subject's name, address and description, the bail, the name of the issuing magistrate

or authority, whether the offense charged is a felony or misdemeanor, and if a misdemeanor, whether it has been certified for night service, and the warrant number.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Cities and counties of the state are utilizing computers for the processing of warrants of arrest. It is vital to the effective administration of justice that all types of such warrants be subject to such use of available computers. Currently, it is clear that only warrants issued by magistrates are subject to such computer processing. In order to immediately facilitate such computer use to cover warrants issued by others than magistrates, it is vital that this act take immediate effect.

The people of the State of California do enact as follows:

SECTION 1. Section 150 is added to the Streets and Highways Code, to read:

150. When the department, in cooperation with rapid transit districts as provided under Section 75.8 and as a part of its planning coordination with local agencies under Article 6 (commencing with Section 210) of this chapter, recommends that mass public transportation facilities should be located along a proposed freeway corridor in order to establish a planned balanced transportation system, the commission shall consider such recommendation in making its decision as to the location of the freeway.

If the commission determines that the location of mass public transportation facilities should be located along the proposed freeway corridor, it may also direct the department to plan, design, and construct the freeway so as to provide locations for such facilities, and the cost thereof shall be considered as part of the cost of constructing the state highway. In making such determination, the commission shall consider the extent to which the mass public transportation facilities will reduce the volume of traffic on the proposed freeway and the impact such joint development will have on community values, such as those referred to in Section 75.7. The commission shall also consider whether the rapid transit district has adopted a general plan for the development of its mass public transportation facilities and the likelihood as to whether sufficient funds will be available for the development of mass public transportation service in such locations. The commission shall authorize the department to provide such locations along federal-aid highways only in those instances where it has received assurances of full federal financial participation in the cost of providing such locations.

If mass public transportation facilities other than roadways and other facilities for use of buses are to be constructed and placed in use in such locations, the department may enter into agreements for the sale of the locations to mass transit districts for such use at a price equal to the market value of such property at the time of sale. If mass public transportation facilities are not placed in use in the locations provided within five years of completion of the freeway, the department may develop such locations for freeway purposes, or it may lease or otherwise dispose of the locations in accordance with the provisions of this code.

The department may, in cooperation with rapid transit districts, develop exclusive or preferential bus lanes in such locations in accordance with the provisions of Section 149.

CHAPTER 1497

An act to add Article 2.5 (commencing with Section 16075) to Chapter 2 of Division 12 of the Education Code, relating to the joint occupancy of buildings on school property.

[Approved by Governor September 19, 1970. Filed with Secretary of State September 19, 1970.]

Article 2.5. Joint Occupancy of Building on School Property

16075. Any school district may enter into leases and agreements relating to real property and buildings to be used jointly by the district and any private person, firm, or corporation pursuant to this article. As used in this article, "building" includes onsite and offsite facilities, utilities and improvements which as agreed upon by the parties are appropriate for the proper operation or function of the building to be occupied jointly by the district and the private person, firm, or corporation. It also includes the permanent improvement of school grounds.

Nothing in this article shall authorize the joint occupancy or the entry into any contract for the joint occupancy, by a school district and any other contracting party, of any building utilized in whole or in part for classroom purposes or other purposes involving group participation by pupils. The occupancy of a building utilized for classroom purposes or other purposes involving group participation by pupils shall be exclusively by the school district.

16076. Before the governing board of a school district enters into a lease or agreement pursuant to this article, it shall own a site upon which a building to be used by the district and private person, firm, or corporation may be constructed and shall have complied with the provisions of law relating to the selection and approval of sites.

16077. The term of any lease or agreement entered into by a school district pursuant to this article shall not exceed 66 years.

16079. The governing board of a school district may let to any private person, firm, or corporation, any real property which belongs to the district if the instrument by which such property is let requires the lessee therein to construct on the demised premises, or provide for the construction thereon of, a building or buildings for the joint use of the school district and the private person, firm, or corporation during the term of the agreement; provided that title to that portion of the building to be occupied by the private individual, firm or corporation shall remain exclusively the personal property of the private party during the term of the lease and the title to such portion of the building to be occupied by the district shall vest in the district upon completion thereof and acceptance thereof by the school district; provided further that no

rental fee or other charge for the use of the building shall be paid by the district.

16080. Any lease of real property by a school district to a private person, firm, or corporation pursuant to this article shall be upon such terms and conditions as the parties thereto may agree and may be entered into without complying with any provisions of this code except as provided in this article; provided, however, that any such lease or agreement shall be subject to the provisions of Article 5 (commencing with Section 1171) of Chapter 4 of Division 4.

16081. Before entering into a lease or agreement pursuant to this article, the governing board of a school district shall comply with the provisions of Section 16082.

16082. For the purposes of receiving proposals for the joint occupancy of a building to be constructed on school property, the board shall, in a regular open meeting, adopt a resolution declaring its intention to consider the proposals. The resolution shall describe the proposed site on which the building to be jointly occupied is to be constructed in such a manner as to identify said site, shall specify the intended use of that portion of the building which is to be occupied by the district and shall fix a time not less than 90 days thereafter for a public meeting of the governing board to be held at its regular place of meeting, at which meeting the board shall receive and consider all plans or proposals submitted.

16083. Notice of adoption of the resolution and the time and place of holding the meeting shall be given by publishing the resolution at least once a week for three weeks in a newspaper of general circulation published in the district if there is one, or if none is published in the district, in a newspaper published in the county.

16084. At the time and place fixed in the resolution for the meeting of the governing board, the board shall meet and consider all plans and proposals submitted for the joint occupancy of the building to be constructed on the proposed school site.

16085. After considering all proposals submitted, the governing board of the school district shall have the authority, subject to the provisions of Section 16086, to select the plan or proposal which best meets the needs of the school district and to enter into a contract incorporating that plan or proposal either as submitted or as revised by the school district's governing board; provided, however, that the governing board shall not approve any proposal nor enter into a lease or contract incorporating a proposal until the governing board has submitted the proposal to the State Board of Education, and the State Board of Education has approved such proposal. The State Board of Education shall, within 45 days of the date of submission, notify the governing board of its approval or disapproval.

The governing board shall require any person, firm or corporation with whom it enters into a lease or agreement pursuant

to this article to file a bond, executed by either two or more good and sufficient sureties or by a corporate surety, for the performance of such lease or agreement.

16086. Any building constructed for the use of a school district pursuant to this article is subject to Sections 15451 to 15465, inclusive, and all other provisions of this code relating to the physical structure of school buildings.

16087. The provisions of this article prevail over any provisions of law which conflict therewith.

SEC. 2. This act shall remain in effect until June 1, 1975, and shall have no force or effect after that date.

CHAPTER 1498

An act to add Article 1 (commencing with Section 7100) to Chapter 1, Part 3, Division 5 of, to add Article 4 (commencing with Section 7250) to Chapter 1, Part 3, Division 5 of, and to repeal Article 1 (commencing with Section 7100) of Chapter 1, Part 3, Division 5 of, the Labor Code, relating to safety in employment.

[Approved by Governor September 19, 1970 Filed with Secretary of State September 19, 1970]

The people of the State of California do enact as follows:

SECTION 1. Article 1 (commencing with Section 7100) of Chapter 1, Part 3, Division 5 of the Labor Code is repealed.

SEC. 2. Article 1 (commencing with Section 7100) is added to Chapter 1, Part 3, Division 5 of the Labor Code, to read:

Article 1. Floors and Walls

7100. As used in this article, "building" means any multifloor building, other than structural steel framed building, more than two stories high in the course of construction.

7101. Every building shall have the joists, beams, or girders of floors below the floor or level where any work is being done, or about to be done, covered with flooring laid close together, or with other suitable material to protect workmen engaged in such building from falling through joists or girders, and from falling substances, whereby life or safety is endangered.

7102. Every building which is of reinforced concrete construction, with reinforced concrete floors, shall have the floor filled in, either with forms or concrete, on each floor before the commencement of work upon the walls of the second floor above or the commencement of work upon the floor of the next floor above.

7103. Every building having wooden floors other than a steel frame building shall have the underflooring, if double flooring is to be used, laid on each floor within the time prescribed above for reinforced concrete floors. Where single

wooden floors are to be used, each floor shall be planked over within the time prescribed above for reinforced concrete floors.

7104. If a span of a floor on a building exceeds 13 feet, an intermediate beam shall be used to support the temporary flooring, but spans not to exceed 16 feet may be covered by three-inch planks without an intermediate beam. The intermediate beam shall be of a sufficient strength to sustain a live load of 50 pounds per square foot of the area supported.

7105. If building operations are suspended and the temporary flooring required by this article is removed, the building shall be replanked upon the resumption of work so that every man at work has a covered floor not more than two stories below.

7106. Where a building is being constructed in sections each section constitutes a building for the purpose of this article.

7107. Planked floors on buildings shall be tightly laid together of proper thickness, grade and span to carry the working load; such working load to be assumed as at least 25 pounds per square foot.

7109. No person shall proceed with any work assigned to or undertaken by him, or require or permit any other person to proceed with work assigned to or undertaken by either, unless the planking or nets required by this article are in place. Violation of this section is a misdemeanor.

7110. The Division of Industrial Safety shall enforce this article.

SEC. 3. Article 4 (commencing with Section 7250) is added to Chapter 1, Part 3, Division 5 of the Labor Code, to read:

Article 4. Structural Steel Framed Buildings

7250. As used in this article "building" means any multifloor structural steel framed building more than two stories high in the course of construction.

7251. As defined above, these provisions shall apply to buildings erected in tiers or stories and shall not apply to steel framed buildings having large open spans or areas such as, mill buildings, gymnasiums, auditoriums, hangars, arenas, or stadiums.

7252. The derrick or working floor of every building shall be solidly decked over its entire surface except for access openings.

7253. There shall be a tight and substantial temporary floor within two floors below and directly under that portion of each tier of beams on which erection, riveting, bolting, welding or painting is being done. For operations of short duration

of exposure to falling, safety belts shall be required as set forth in Section 7265.

7254. Temporary floors shall be wood planking of proper thickness, grade and span to carry the working load, but shall not be less than two inches thick, full size undressed.

7261. When gathering and stacking temporary floor plank on a lower floor, in preparation for transferring such plank for use on an upper working floor, the steel erector's personnel shall remove such plank successively, working toward the last panel of such floor, so that the work is always being done from the planked floor.

7262. When gathering and stacking temporary floor planks from the last panel, the steel erector's personnel assigned to such work shall be protected by safety belts with life lines attached to a catenary line or other substantial anchorage.

7263. The sequence of erection, bolting, temporary guying, riveting and welding shall be such as to maintain the stability of the structural frame at all times during construction. This applies to the dead weight of the structure, plus weight and working reactions of all construction equipment placed thereon plus any external forces that may be applied.

7264. Where a building is being constructed in sections, each section constitutes a building as defined in Section 7250.

7265. Safety belts and nets shall be required in accordance with Article 24 (commencing with Section 1669) of subchapter 4, Chapter 4, Part 1, Title 8 of the California Administrative Code, Construction Safety Orders of the Division of Industrial Safety.

Article 7.8. Home Dialysis Training Centers

418. Up to three home dialysis training centers shall be established for the purpose of training persons suffering from chronic uremia for home dialysis. Each such center shall have an affiliation with a large hospital or medical school, but shall utilize the most economical facilities for treatment. These institutions, however, shall be able to provide a full range of home dialysis training services. The State Department of Public Health shall only act as a granting agency for state funds which are appropriated for the establishment and the continuation of the three centers. The State Department of Public Health and the review committee established pursuant to Section 417.3 shall exercise over the home dialysis training centers the same powers they exercise, pursuant to Article 7.7 (commencing with Section 417) of this chapter, over regional dialysis centers.

418.1. Each center shall contain approximately four dialysis bed units. The state department shall grant to each such center fifty thousand dollars ($50,000) during the first year, twenty-five thousand dollars ($25,000) during the second year, and twelve thousand five hundred dollars ($12,500) during the third year. The state department shall grant to each such center not to exceed five thousand dollars ($5,000) in the first year for the purchasing or leasing of equipment and not to exceed two thousand five hundred dollars ($2,500) in the first year for construction or remodeling of the physical facility.

SEC. 2. The sum of three hundred fifty thousand dollars ($350,000) is hereby appropriated from the General Fund to the State Department of Public Health for expenditure, without regard to fiscal years, for the purpose of carrying out the provisions of Article 7.8 (commencing with Section 418) of Chapter 2 of Part 1 of Division 1 of the Health and Safety Code. The additional centers shall not be so located as to duplicate existing state-supported dialysis center services.

CHAPTER 1500

An act to amend Sections 417, 417.5 and 417.6 of the Health and Safety Code, relating to kidney diseases, and making an appropriation therefor.

[Approved by Governor September 19, 1970. Filed with Secretary of State September 19, 1970.]

Each such center shall be located in a metropolitan area and shall have an affiliation with a large hospital or medical school, but shall not be necessarily a physical part of such institution. These institutions, however, shall be able to provide a full range of medical, surgical and rehabilitation services. The State Department of Public Health shall only act as a granting agency for state funds which are appropriated for the establishment and the continuation of the four centers. The state department, upon the advice of the review committee which is provided for by Section 417.3, may contract with any such hospital or medical care institution for the administration and operation of one of the regional dialysis centers. It is not the intent of this section that any new hospital or medical school be established.

SEC. 2. Section 417.5 of the Health and Safety Code is amended to read:

417.5. No resident of this state shall be denied treatment in any of the regional dialysis centers because of his place of residence, so long as he is able to transport himself to the center.

SEC. 3. Section 417.6 of the Health and Safety Code is amended to read:

417.6. The funds which are provided by the state shall only be expended for the construction and equipment of the regional dialysis centers; equipment for and development of, home dialysis services; training of personnel and other expenses incident to the activation of the regional centers; services of dialysis and directly associated procedures; and treatment of complications which may result from dialysis. These funds shall not be utilized to pay for general medical care services which should come from private, local, other state or federal sources.

SEC. 4. The additional regional dialysis centers shall not be so located as to duplicate existing state-supported dialysis centers, but establishment of a dialysis center specifically for children shall not be considered as duplicating existing dialysis center services.

SEC. 5. The sum of three hundred eighty-eight thousand dollars ($388,000) is hereby appropriated from the General Fund to the State Department of Public Health for grants by the department for the establishment and continuation of the two additional regional dialysis centers provided for by the amendments to Section 417 of the Health and Safety Code enacted by this act, so that each of such additional regional dialysis centers receives one hundred ninety-four thousand dollars ($194,000).

In any case in which a person or persons have willfully violated any of the laws, regulations, or orders governing applicants for apprenticeship or apprentices registered under this chapter, the Division of Apprenticeship Standards may obtain in a court of competent jurisdiction, an injunction against any further violations of any such laws, regulations, or orders by such person or persons.

CHAPTER 1505

An act to amend Sections 2201, 2208, and 2210.5 of the Streets and Highways Code, relating to financial aid for county highways.

[Approved by Governor September 19, 1970. Filed with Secretary of State September 19, 1970.]

The people of the State of California do enact as follows:

SECTION 1. Section 2201 of the Streets and Highways Code is amended to read:

2201. Congress has enacted the Federal-Aid Highway Act of 1950 in which federal appropriations have been authorized for projects on secondary roads of various types. By apportionment of the authorization made pursuant to the federal act, it is anticipated that substantial sums will be made available for expenditures on such roads in California. The apportionment to California is to be made available for expenditure on either state highways or county highways which qualify under the federal law. County highways throughout the state are in greater need of such expenditures than are state highways on the Federal-Aid Secondary System. It is therefore, determined by the Legislature that, insofar as permissible under federal laws, rules, and regulations, an amount equal to at least 98½ percent of the money apportioned to California for such projects as are mentioned in paragraph (b) of Section 1 of the Federal-Aid Highway Act of 1950 should be expended for the improvement of county highways in this state. Inasmuch as these county highways are a matter of state concern and many of the counties are financially unable to furnish

funds to be used with federal funds as required by federal law, funds should be provided from state sources therefor.

SEC. 2. Section 2208 of the Streets and Highways Code is amended to read:

2208. (a) It is in the interest of the state and its counties that an amount equal to at least 98½ percent of the money available for construction of highways in this state pursuant to the provisions of paragraph (b) of Section 1 of the Federal-Aid Highway Act of 1950 be apportioned for expenditure among the counties in the manner and in accordance with the formula prescribed in subdivision (b) of Section 4 of the Federal-Aid Highway Act of 1944 for apportionment among the states, except that the census figures used in making such apportionments shall be those shown by the latest available federal census.

(b) If the apportionment to a county pursuant to subdivision (a) is less than one hundred thousand dollars ($100,000) in a year, the county may exchange its apportionment for an equal amount of nonfederal funds in the State Highway Fund. If the apportionment to a county pursuant to subdivision (a) is more than five hundred thousand dollars ($500,000) in a year, the county may exchange that portion of its apportionment in excess of five hundred thousand dollars ($500,000) for an equal amount of nonfederal funds in the State Highway Fund.

(c) Highways constructed with funds apportioned or exchanged pursuant to this article shall be constructed to the standards of the Federal-Aid Secondary System.

SEC. 3. Section 2210.5 of the Streets and Highways Code is amended to read:

2210.5. The department shall pay the state's share for construction of county highways as provided in this chapter out of the money received in the State Highway Fund under Section 2108, and the money so paid shall be included in the computation of compliance with the requirements of Section 188. The funds made available by this section shall be apportioned on the basis of one dollar ($1) to every two dollars ($2) apportionment to a county pursuant to subdivision (a) of Section 2208; provided, however, that no county shall receive a total amount in excess of one hundred thousand dollars ($100,000) in any one year. The department may advance funds from the State Highway Fund, if available, as necessary to permit award of contracts at any time after January 1st preceding the beginning of the fiscal year to which the federal apportionments apply. None of the money made available by this section shall be expended on any highway, street, or road which is not a county highway, except as expressly otherwise provided in this chapter.

For purposes of this section, all funds apportioned to or exchanged by a county pursuant to Section 2208 are deemed to be federal funds.

CHAPTER 1506

An act relating to historic places.

[Approved by Governor September 19, 1970. Filed with Secretary of State September 19, 1970.]

The people of the State of California do enact as follows:

SECTION 1. The Department of Parks and Recreation shall conduct a study of the feasibility of acquiring and developing the historic townsite of Allensworth in Tulare County and of including it in the state park system. The department shall undertake such preliminary studies and surveys as are needed in order to make its determination.

SEC. 2. The Director of Parks and Recreation shall appoint from the public a citizen's advisory committee of 25 members, who shall serve at his pleasure. The Department of Parks and Recreation shall consult with the committee, and the committee shall assist and advise the department, with respect to the feasibility study required by this act.

SEC. 3. The members of the citizen's advisory committee shall not receive compensation for their services, but each member of the committee shall be entitled to receive his actual necessary expenses while on official business of the committee.

SEC. 4. The Department of Parks and Recreation shall report its findings and recommendations with respect to feasibility of acquiring and developing the townsite of Allensworth and of including it in the state park system to the Legislature not later than the fifth calendar day of the 1972 Regular Session of the Legislature.

CHAPTER 1507

[Approved by Governor September 19, 1970. Filed with Secretary of State September 19, 1970.]

The people of the State of California do enact as follows:

SECTION 1. Section 7655 is added to the Labor Code, to read:

7655. The division shall prepare and adopt regulations in accordance with the provisions of the Administrative Procedure Act provided for in Chapter 4.5 (commencing with Section 11371) of Part 1 of Division 3 of Title 2 of the Government Code, designed to promote safety with respect to the installation and operation of vendor facilities for the storage and pumping of compressed or liquefied natural gas and liquefied petroleum gas into vehicles.

SEC. 2. Section 6357.5 is added to the Revenue and Taxation Code, to read:

6357.5. There is exempted from the taxes imposed by this part the gross receipts from the sale of and the storage, use, or other consumption in this state of fuel, the use of which in this state is exempt from the tax imposed by Part 3 (commencing with Section 8601) of this division pursuant to Section 8657. This exemption applies to fuel upon which a refund has been made pursuant to Section 9157.

SEC. 3. Section 10753 of the Revenue and Taxation Code is amended to read:

10753. (a) For the purposes of this part the market value of passenger vehicles as defined in Section 465 of the Vehicle Code shall be determined by the department upon the basis of the California suggested base price as herein defined and as established by the manufacturers.

(b) On all other vehicles the department shall determine the market value of the vehicle on the basis of the cost price to the purchaser as evidenced by a certificate of cost, but not including California sales or use tax or any local sales or other local tax.

(c) In the event the department is unable to ascertain the California suggested base price as herein defined in respect to any passenger vehicles by reason of the same being a specially constructed vehicle, or for any other reason, the department shall determine the market value upon the basis of the cost price to the purchaser of the vehicle as evidenced by a certificate of cost, but not including California sales or use tax or any local sales or other local tax.

(d) In the event any vehicle is modified or additions are made to the chassis or body at a cost of two hundred dollars ($200) or more, but not including any change of engine of the same type or any cost of repairs to a vehicle, the owner of such vehicle shall report any said modification or additions to the department and the department shall classify or reclassify the vehicle in its proper class as provided in Section 10753.2, taking into consideration the increase in the market value of the vehicle due to such modifications or additions, and any reclassification resulting in increase in market value shall be based on the cost to the consumer of such modifications or additions. In the event any vehicle is modified or altered resulting in a decrease in the market value thereof of two hundred dollars ($200) or more as reported to and determined by the department, the department shall classify or reclassify the vehicle in its proper class as provided in Section 10753.2.

which shall entitle him to be engaged, under such supervision, in the fitting and selling of hearing aids for a period of six months from the date of the commencement of his employment or for a period ending 30 days after the conclusion of a qualifying examination given not earlier than 150 days after the date of issue of such temporary license, whichever is later.

Such temporary license shall be effective and valid only while the applicant remains in the employ of a person who holds a valid license issued pursuant to the provisions of Section 3354, Section 3355, or Section 3356. Such licensee shall be responsible for the supervision and training of such applicant.

3358. SECTION 1. Article 10 (commencing with Section 427) is added to Chapter 2 of Part 1 of Division 1 of the Health and Safety Code, to read:

Article 10. Public Beaches

427. "Public beach," as used in this article, means any beach area used by the public for recreational purposes which is owned, operated, or controlled by the state, any state agency, any local agency, or any private person in this state.

427.3. The State Department of Public Health shall by regulation establish such minimum standards for the sanitation of public beaches, including, but not limited to, the removal of refuse, as it determines are reasonably necessary for the protection of the public health and safety. Such regulations of the department shall not become effective until they have been submitted to and approved by the Council on Intergovernmental Relations except as otherwise provided in this section. The council shall approve the regulations if it determines that the standards established by the regulations are reasonably necessary for the protection of the public health and safety.

Within 60 days from the time the department submits the regulations to the council, the council shall either approve the regulations or provide the department with detailed reasons why, in its opinion, the regulations are not necessary for the protection of the public health and safety. Failing either such action by the council, the regulations shall become effective 60 days following their submittal to the council.

Any city or county may adopt standards for the sanitation of public beaches within its jurisdiction which are stricter than the standards adopted by the state department pursuant to this section.

427.5. The health officer having jurisdiction over the area in which a public beach is created shall:

(a) Inspect the public beach to determine whether the standards established pursuant to Section 427.3 are being complied with. If the health officer finds any violation of such standards, he shall restrict the use of, or close, the public beach or portion thereof in which the violation occurs until such time as the standard violated is complied with.

(b) Investigate any complaint of a person of a violation of any standard established by the state department pursuant to Section 427.3. If the health officer finds any violation of the standards prescribed by the state department, he shall restrict the use of, or close, the public beach or portion thereof until such time as the standard violated is complied with. If the person who made the complaint is not satisfied with the action taken by the health officer, he may report such violation to the state department. The state department shall investigate the reported violation, and, if it finds that the violation exists, it shall restrict the use of or close the public beach or portion thereof until the standard violated is complied with.

(c) Report any violation of the standards established pursuant to Section 427.3 to the Director of Parks and Recreation.

(d) Report any violation of the standards established pursuant to Section 427.3 to the district attorney, or if the viola-

tion occurred in a city and, pursuant to Section 41803.5 of the Government Code, the city attorney is authorized to prosecute misdemeanors, to the city attorney.

427.6. Prior to restricting the use of or closing a public beach or portion thereof alleged to be in violation of such standards, the health officer, or the department as the case may be, shall give reasonable notice of such violation to the owner of, or person or agency in charge of, the beach.

427.9. Any private person who violates any regulation adopted by the state department pursuant to Section 427.3 is guilty of a misdemeanor.

SEC. 2. Section 5099.7 is added to the Public Resources Code, to read:

5099.7. The director, after receiving a report from the health officer pursuant to subdivision (c) of Section 427.5 of the Health and Safety Code, shall withhold any funds, which are received on or after the effective date of this section, from any local agency or subdivision of the state in which a public beach is located and which is in violation of the standards established pursuant to Section 427.3 of the Health and Safety Code. The director may disburse any of such funds to such local agency or subdivision only when he determines the standards established pursuant to Section 427.3 of the Health and Safety Code are being complied with.

(ii) Maintain at all times in his warehouse either owned or leased by him or in space dedicated to his use in a public warehouse a stock of California brandy whose cost of acquisition is one hundred thousand dollars ($100,000) or more. If a licensee has more than one licensed premise, he shall be required to maintain warehouse space for and a stock of California brandy whose cost of acquisition is one hundred thousand dollars ($100,000) or more only in connection with one licensed premise. For each of the remaining licensed premises, the licensee shall be required to maintain warehouse space for and a stock of California brandy whose cost of acquisition is thirty thousand dollars ($30,000) or more. The stock of California brandy required by this paragraph shall be owned by the licensee, not held on consignment, and not acquired pursuant to a prior agreement to sell it to a specific licensee or licensees.

(2) Such licensee shall sell California brandy to retailers generally, rather than a few selected retailers. A licensee who sells to 25 percent of the retailers in the county where his California brandy wholesale licensed premises are located, or a licensee whose total volume of sales of California brandy to retailers during any 12-month period consists of 50 percent or more of individual sales in quantities of 10 cases or less shall be conclusively presumed to be selling to retailers generally.

(3) Such licensee may sell only one California brandy of one winegrower, which brandy is produced or bottled by such winegrower, or which is produced for, or is produced and packaged for, such winegrower, and is sold under a brand name owned or controlled by such winegrower.

(4) Such licensee, under the authority of his beer and wine wholesaler's license, shall stock and offer to sell to retailers a complete product line of California wines of the winegrower whose brandy the licensee handles. A "complete product line" for the purposes of this paragraph means all of the types of wines sold under a particular label.

(b) The number of California brandy wholesaler's licenses which may be issued shall not be limited by any rule of the department relating to the number which may be issued in any county, nor shall such licenses be included in any formula used by the department in determining the number of distilled spirits wholesaler's licenses which may be issued in a county.

(c) The fee for a California brandy wholesaler's license shall be two hundred seventy-six dollars ($276) per year, which shall be deposited in the Alcoholic Beverage Control Fund.

23320 of the Business and Professions Code proposed by both this bill and A B. 1443 are enacted, that both amendments be given effect and incorporated in Section 23320 in the form set forth in Section 1.5 of this act. Therefore, in the event A.B. 1443 is enacted and amends Section 23320, Section 1.5 of this act shall become operative at the same time Section 23320 as amended by A.B. 1443 becomes operative, and at that time, Section 23320 of the Business and Professions Code as amended by Section 1 of this act is repealed.

SEC. 1.5. Section 3260 of the Civil Code is repealed.

SEC. 2. Section 537 of the Code of Civil Procedure is amended to read:

537. The plaintiff, at the time of issuing the summons, or at any time afterward, may have the property of the defendant attached, except earnings of the defendant as provided in Section 690.6, as security for the satisfaction of any judgment that may be recovered, unless the defendant gives security to pay such judgment, as in this chapter provided, in the following cases:

1. In an action upon a contract, express or implied, for the direct payment of money, (a) where the contract is made or is payable in this state; or (b) where the contract is made outside this state and is not payable in this state and the amount of the claim based upon such contract exceeds five thousand dollars ($5,000); and where the contract described

in either (a) or (b) is not secured by any mortgage, deed of trust, or lien upon real or personal property, or any pledge of personal property, or, if originally so secured, such security has, without any act of the plaintiff, or the person to whom the security was given, become valueless. An action upon any liability, existing under the laws of this state, of a spouse, relative, or kindred, for the support, maintenance, care, or necessaries furnished to the other spouse, or other relatives or kindred, shall be deemed to be an action upon an implied contract within the term as used throughout all subdivisions of this section. An action brought pursuant to Section 1692 of the Civil Code shall be deemed an action upon an implied contract within the meaning of that term as used in this section.

2. In an action upon a contract, express or implied, against a defendant not residing in this state, or who has departed from the state, or who cannot after due diligence be found within the state, or who conceals himself to avoid service of summons.

3. In an action against a defendant, not residing in this state, or who has departed from the state, or who cannot after due diligence be found within the state, or who conceals himself to avoid service of summons, to recover a sum of money as damages, arising from an injury to or death of a person, or damage to property in this state, in consequence of negligence, fraud, or other wrongful act.

4. In an action in unlawful detainer where it appears from the verified complaint on file therein that rent is actually due and payable from the defendant to the plaintiff for the premises sought to be recovered in said action; provided, the payment of such rent is not secured by any mortgage or lien upon real or personal property, or pledge of personal property, or, if originally so secured, such security has, without any act of the plaintiff or the person to whom the security was given, become valueless.

5. In an action by the State of California or any political subdivision thereof, for the collection of taxes due said state or political subdivision, or for the collection of any moneys due upon any obligation or penalty imposed by law.

6. In any action by the State of California, or any political subdivision thereof, for the recovery of funds pursuant to Section 11680.5 of the Health and Safety Code. In such cases, funds on the defendant's person at the time of his arrest which are retained in official custody shall also be subject to attachment.

SEC. 2.5. Section 538 of the Code of Civil Procedure is amended to read:

538. The clerk of the court, or the justice, where there is no clerk, must issue the writ of attachment upon receiving an affidavit by or on behalf of the party seeking the writ showing:

1. The facts specified in Section 537 which entitle him to the writ;

2. The amount of the indebtedness claimed, over and above all legal setoffs or counterclaims, or the amount claimed as damages; or, if an attachment is then sought for only part thereof, such partial amount; and

3. That the attachment is not sought, and the action is not prosecuted, to hinder, delay, or defraud any creditor of the defendant.

4. That the affiant has no information or belief that the defendant has been adjudicated a bankrupt, with reference to the indebtedness for which the writ is sought, nor that the defendant or cross-defendant is, at the time of the request for the writ, under any wage earner's plan approved by any United States court.

Provided, however, that no attachment may be issued under this chapter in any action in which the sum total claimed, exclusive of interest and attorney's fees, is less than one hundred twenty-five dollars ($125).

SEC. 2.7. Section 538 of the Code of Civil Procedure is amended to read:

538. The clerk of the court, or the justice, where there is no clerk, must issue the writ of attachment upon receiving an affidavit by or on behalf of the party seeking the writ showing:

1. The facts specified in Section 537 which entitle him to the writ;

2. The amount of the indebtedness claimed, over and above all legal setoffs or counterclaims, or the amount claimed as damages; or, if an attachment is then sought for only part thereof, such partial amount; and

3. That the attachment is not sought, and the action is not prosecuted, to hinder, delay, or defraud any creditor of the defendant.

4. That the affiant has no information or belief that the defendant has been adjudicated a bankrupt, with reference to the indebtedness for which the writ is sought, nor that the defendant or cross-defendant is, at the time of the request for the writ, under any wage earner's plan approved by any United States court.

Provided, however, that no attachment may be issued under this chapter in any action in which the sum total claimed, exclusive of interest and attorney's fees, is less than two hundred dollars ($200).

SEC. 3. Section 540 of the Code of Civil Procedure is amended to read:

540. The writ must be directed to the sheriff, or a constable, or marshal of any county in which property of such defendant may be, and must require him to attach and safely keep all the property of such defendant within his county not exempt from attachment, or so much of the property of such defendant as may be sufficient to satisfy the plaintiff's demand against such defendant, the amount of which must be stated in conformity with the amount stated in plaintiff's affidavit filed pursuant to Section 538, not exceeding the amount of the

complaint, unless such defendant give him security by the undertaking of at least two sufficient sureties, which must first be approved by a judge of the court issuing the writ, or if said writ of attachment is issued to another county then by a judge of a court, having jurisdiction in cases involving the amount specified in the writ, in the county where the levy shall have been, or is about to be, made, or deposit a sum of money with the sheriff, constable, or marshal in an amount sufficient to satisfy such demand against such defendant, besides costs, or in an amount equal to the value of the property of such defendant which has been or is about to be attached, in which case to take such undertaking or sum of money in lieu of the property which has been or is about to be attached.

In the event that the action is against more than one defendant, any defendant whose property has been or is about to be attached in the action may give the sheriff, constable, or marshal such undertaking which must first be approved by the judge as hereinabove provided, or deposit such sum of money, and the sheriff, constable, or marshal shall take the same in lieu of such property. Such undertaking, or the deposit of such sum of money, shall not subject such defendant to, or make him answerable for, any demand against any other defendant, nor shall the sheriff, constable, or marshal thereby be prevented from attaching or be obliged to release from attachment, any property of any other defendant. However, such defendant, at the time of giving such undertaking to, or depositing such sum of money with the sheriff, constable, or marshal, shall file with the sheriff, constable, or marshal a statement, duly verified by his oath, wherein such defendant shall state the character of his title to the attached property and the manner in which he acquired such title, and aver and declare that the other defendant or defendants, in the action in which said undertaking was given or such sum of money was deposited, has or have not any interest or claim of any nature whatsoever in or to said property.

Several writs may be issued upon the same affidavit and undertaking simultaneously or from time to time within 60 days after the filing of the affidavit and undertaking, to the sheriffs, constables, or marshals of any county or counties, whether or not any writ previously issued has been returned.

SEC. 4. Section 542 of the Code of Civil Procedure is amended to read:

542. The sheriff, constable, or marshal, to whom the writ is directed and delivered, must, upon receipt of instructions in writing, signed by the plaintiff or his attorney of record, and containing a description of the property, and in the case of real property or growing crops the name of the record owner of the real property to be attached, or upon which the crops are growing, execute the same without delay, and if the undertaking mentioned in Section 540 of this code be not given, as follows:

1. Real property, standing upon the records of the county in the name of the defendant, must be attached, by recording with the recorder of the county a copy of the writ, together with a description of the property attached, and a notice that it is attached, and by serving an occupant of the property, if there is one upon the property at the time service is attempted, with a similar copy of the writ, description and notice, or if there is no occupant then on the property, then, by posting the same in a conspicuous place on the property attached. Service upon the occupant may be made by leaving said copy of the writ, description and notice with the occupant personally, or, in his absence, with any person, of suitable age and discretion, found upon the property at the time service thereof is attempted and who is either an employee or agent of such occupant or a member of his family or household. Where the property described in the notice consists of more than one distinct lot, parcel or governmental subdivision and any of such lots, parcels, or governmental subdivisions lie with relation to any of the others so as to form one or more continuous, unbroken tracts, one service or posting need be made as to each such continuous, unbroken tract.

1a. Growing crops (which, until severed, shall be deemed personal property not capable of manual delivery), growing upon real property standing upon the records of the county in the name of the defendant, must be attached by recording with the recorder of the county a copy of the writ, together with a description of the growing crops to be attached, and of the real property upon which the same are growing, and a notice that such growing crops are attached in pursuance of the writ, and by serving an occupant of the real property, if there is one upon the real property at the time service is attempted, with a similar copy of the writ, description and notice, or if there is no occupant then on the real property, then, by posting the same in a conspicuous place on the real property. Service upon the occupant may be made by leaving said copy of the writ, description and notice with the occupant personally, or, in his absence, with any person, of suitable age and discretion, found upon the real property at the time service thereof is attempted and who is either an employee or agent of such occupant or a member of his family or household. Where the real property described in the notice consists of more than one distinct lot, parcel or governmental subdivision, and any of such lots, parcels or governmental subdivisions lie with relation to any of the others so as to form one or more continuous unbroken tracts, one service or posting need be made as to each such continuous unbroken tract.

Whenever growing crops have been attached under the provisions of this subdivision, which will greatly deteriorate in value, unless properly cultivated, cared for, harvested, packed or sold, the court issuing such writ, upon application of the person in whose favor the writ runs, and after due notice to the owner of said property, may direct the sheriff to take

possession of said property and to cultivate, care for and preserve the same and, when necessary, harvest, pack and sell such property. Any sale of such property shall be made in the same manner that property is sold on execution and the proceeds must be retained by the sheriff to be applied to the satisfaction of any judgment which may be recovered in the action in which said writ is issued. The court shall order said applicant to pay such expenses in advance if the court may deem it proper, or may direct that the whole or any part of such expenses be paid from the proceeds of any sale of such property.

2. Real property, or any interest therein, belonging to the defendant, and held by any other person, or standing on the records of the county in the name of any other person, must be attached in the same manner as is real property standing upon the records of the county in the name of the defendant by the provisions of subdivision 1 of this section and the notice of attachment shall state that the real property therein described, and any interest of the defendant therein held by or standing on the records of the county in the name of such other person (naming him), are attached. In addition, a similar copy of the writ, description and notice shall be delivered to such other person, or his agent, if known and within the county, or left at the residence of either, if within the county. The recorder must index such attachment when recorded, in the names, both of the defendant and of the person by whom the property is held or in whose name it stands of record.

2a. Growing crops (which, until severance, shall be deemed personal property not capable of manual delivery), or any interest therein, belonging to the defendant, and growing upon real property held by any other person or standing upon the records of the county in the name of any other person, must be attached in the same manner as growing crops growing upon real property standing upon the records of the county in the name of the defendant are attached by the provisions of subdivision 1a of this section, and the notice of attachment shall state that the crops therein described or any interest of the defendant therein, held by, or standing upon the records of the county in the name of, such other person (naming him), are attached in pursuance of the writ. In addition, a similar copy of the writ, description and notice shall be delivered to such other person, or his agent, if known and within the county, or left at the residence of either, if known and within the county. The recorder must index such attachment when recorded, in the names of both the defendant and of the person by whom the real property is held, or in whose name it stands on the record.

Whenever growing crops have been attached under the provisions of this subdivision, which will greatly deteriorate in value unless properly cultivated, cared for, harvested, packed or sold, the court issuing such writ, upon application of the

person in whose favor the writ runs, and with or without notice as the court directs to the owner of said property, may direct the sheriff to take possession of said property and to cultivate, care for and preserve the same and, when necessary, harvest, pack and sell such property. Any sale of such property shall be made in the same manner that property is sold under execution and the proceeds must be retained by the sheriff to be applied to the satisfaction of any judgment which may be recovered in the action in which said writ is issued. The court shall order said applicant to pay such expenses in advance if the court may deem it proper, or may direct that the whole or any part of such expenses be paid from the proceeds of any sale of such property.

3. Personal property, capable of manual delivery, in the possession of the defendant, must be attached by taking it into custody. When the personal property is used as a dwelling, such as a housetrailer, mobilehome, or boat, the same is to be attached by placing a keeper in charge of the property, at plaintiff's expense, for at least two (2) days. At the expiration of said period the officer shall remove its occupants, and take the property into his immediate custody, unless other disposition is made by the court or the parties to the action. Whenever a levy under attachment or execution shall be made on personal property, other than money, or a vehicle required to be registered under the Vehicle Code belonging to a going concern, then the officer making the levy must, if the defendant consents, place a keeper in charge of said property levied upon, at plaintiff's expense, for at least two days, and said keeper's fees must be prepaid by the levying creditor. During said period defendant may continue to operate in the ordinary course of business at his own expense provided all sales are for cash and the full proceeds are given to the keeper for the purposes of the levy unless otherwise authorized by the creditor. After the expiration of said two days the sheriff, constable, or marshal shall take said property into his immediate possession unless other disposition is made by the court or the parties to the action.

4. In cases where the sheriff, constable, or marshal is instructed to take into possession personal property capable of manual delivery, whether the same is to be placed in a warehouse or in custody of a keeper, the sheriff, constable or marshal shall require, as a prerequisite to the taking of such property, that in addition to written instructions the plaintiff or his attorney of record deposit with the sheriff, constable or marshal, a sum of money sufficient to pay the expenses of taking and keeping safely said property for a period not to exceed 15 days. In the event that a further detention of said property is required, the sheriff, constable or marshal must, from time to time, make written demand upon the plaintiff or his attorney for further deposits to cover estimated expenses for periods not to exceed five days each. Such demand must be served as provided in Section 1011 of this code, or

by depositing such notice in the post office in a sealed envelope, as first-class registered mail, postage prepaid, addressed to the person on whom it is served at his last known office or place of residence. In the event that the money so demanded is not paid, the sheriff, constable or marshal shall release the property to the person or persons from whom the same was taken. There shall be no liability upon the part of the sheriff, constable or marshal to take or hold personal property unless the provisions of this section shall have been fully complied with. There shall be no liability upon the part of the sheriff, constable or marshal, either to the plaintiff or the defendant for loss by fire, theft, injury or damage of any kind to personal property capable of manual delivery while in the possession of the sheriff, constable or marshal either in a warehouse or in the custody of a keeper or en route to or from a warehouse unless the sheriff, constable or marshal shall be negligent in his care or handling of the property.

5. With the exception of earnings of the defendant which are exempt as provided in Section 690.6, debts, credits, judgments, and other personal property not capable of manual delivery shall be attached by leaving with the persons owing such debts, or having in his possession, or under his control, such credits and other personal property, or with his agent or, in the case of a corporation, with the president of the corporation, vice president, secretary, assistant secretary, cashier, or managing agent thereof, a copy of the writ, and, if the demand as stated in the writ does not exceed three hundred dollars ($300) exclusive of interest, attorney's fees and costs, a copy of the complaint in the action from which the writ issued, and, in every case, a notice that the debts owing by him to the defendant, or the credits and other personal property in his possession, or under his control, belonging to the defendant, are attached in pursuance of such writ. However, whenever a judgment has been attached under the provisions of this subdivision, a copy of the writ and notice shall be filed in the action from which the judgment arose and served upon the judgment creditor of such action. However, debts owing to the defendant by any of the following financial institutions: (a) banks; (b) savings and loan associations; (c) title insurance companies or underwritten title companies (as defined in Section 12402 of the Insurance Code); (d) industrial loan companies (as defined in Section 18003 of the Financial Code), maintaining branch offices, or credits or other personal property whether or not the same is capable of manual delivery, belonging to the defendant and in the possession of or under the control of such financial institution shall be attached by leaving a copy of the writ and the notice, together with a copy of the complaint if required hereunder, with the manager or other officer of such financial institution at the office or branch thereof at which the account evidencing such indebtedness of the defendant is carried, or at which such financial institution has credits or other personal property belonging to the defendant

690.29. All property of a redevelopment agency, including funds, owned or held by it for the purposes of Chapter 2 (commencing with Section 33100) of Part 1 of Division 24 of the Health and Safety Code.

SEC. 55. Section 690.50 of the Code of Civil Procedure is amended and renumbered to read:

690.52. No article, however, or species of property, mentioned in Sections 690.1 to 690.29, inclusive, of this code is exempt from execution issued upon a judgment recovered for its price, or upon a judgment of foreclosure of a mortgage or other lien thereon.

SEC. 56. Section 690.50 is added to the Code of Civil Procedure, to read:

690.50. (a) If the property mentioned in Sections 690.1 to 690.29, inclusive, shall be levied upon under writ of attachment or excution, the defendant or judgment debtor (herein referred to as "the debtor"), in order to avail himself of his exemption rights as to such property, shall within 10 days from the date such property was levied upon deliver to the levying officer an affidavit of himself or his agent, together with a copy thereof, alleging that the property levied upon, identifying it, is exempt, specifying the section or sections of this code on which he relies for his claim to exemption, and all facts necessary to support his claim, and also stating therein his address within this state for the purpose of permitting service by mail upon him of the counteraffidavit and any notice of the motion herein provided.

(b) Forthwith upon receiving the affidavit of exemption, the levying officer shall serve upon the plaintiff or the person in whose favor the writ runs (herein referred to as "the creditor"), either personally or by mail, a copy of the affidavit of exemption, together with a writing, signed by the levying officer, stating that the claim to exemption has been received and that the officer will release the property unless he receives from the creditor a counteraffidavit within five days after service of such writing.

(c) If the creditor desires to contest the claim to exemption, he shall, within such period of five days, file with the levying officer a counteraffidavit alleging that the property is not exempt within the meaning of the section or sections of this code relied upon, or if the claim to exemption be based on Sections 690.2, 690.3, 690.4, 690.6, alleging that the value of the property claimed to be exempt is in excess of the value stated in the applicable section or sections, together with proof

of service of a copy of such counteraffidavit upon the debtor.

(d) If no such counteraffidavit, with such proof of service, is so filed with the levying officer within the time allowed, the officer shall forthwith release the property.

(e) If such counteraffidavit, with such proof of service, is so filed, either the creditor or the debtor shall be entitled to a hearing in the court in which the action is pending or from which the writ issued for the purpose of determining the claim to exemption, the priority or division of payment between one or more creditors from nonexempt earnings under the provisions of Section 690.6 or the value of the property claimed to be exempt. Such hearing shall be granted by the court upon motion of either party made within five days after the counteraffidavit is filed with the levying officer, and such hearing must be had within 15 days from the date of the making of such motion unless continued by the court for good cause. The party making the motion for hearing shall give not less than five days' notice in writing of such hearing to the levying officer and to the other party, and specify therein that the hearing is for the purpose of determining the claim to exemption. The notice may be of motion or of hearing and upon the filing of the notice with the clerk of court, the motion is deemed made.

(f) If neither party makes such motion within the time allowed, or if the levying officer shall not have been served with a copy of the notice of hearing within 10 days after the filing of the counteraffidavit, the levying officer shall forthwith release the property to the debtor.

(g) At any time while the proceedings are pending, upon motion of either party or upon its own motion, the court may (1) order the sale of any perishable property held by such officer and direct disposition of the proceeds of such sale, and (2) make such other orders as may be proper under the particular circumstances of the case. Any orders so made may be modified or vacated by the court or judge granting the same, or by the court in which the proceedings are pending, at any time during the pendency of the procedings, upon such terms as may be just.

(h) The levying officer in all cases shall retain physical possession of the property levied upon if it is capable of physical possession, or in the case of property not capable of physical possession, the levy shall remain in full force and effect, pending the final determination of the claim to exemption. However, no sale under execution shall be had prior to such final determination unless an order of the court hearing the claim for exemption shall so provide.

(i) At such hearing, the party claiming the exemption shall have the burden of proof. The affidavits and counteraffidavits shall be filed by the levying officer with the court and shall constitute the pleadings, subject to the power of the court to permit an amendment in the interests of justice. The affidavit of exemption shall be deemed controverted by the counter-

affidavit and both shall be received in evidence. Nothing herein shall be construed to deprive anyone of the right to a jury trial in any case where, by the Constitution, such right is given, but a jury trial may be waived in any such case in like manner as in the trial of an action. No findings shall be required in a proceeding under this section. When the hearing is before the court sitting without a jury, and no evidence other than the affidavit and counteraffidavit is offered, the court, if satisfied that sufficient facts are shown thereby, may make its determination thereon. Otherwise, it shall order the hearing continued for the production of other evidence, oral or documentary, or the filing of other affidavits and counteraffidavits. At the conclusion of the hearing, the court shall give judgment determining whether the claim to exemption shall be allowed or not, in whole or in part, and may give judgment determining the priority or division of payment between one or more creditors from nonexempt earnings under the provisions of Section 690.6, which judgment shall be determinative as to the right of the creditor to have the property taken and held by the officer or to subject the property to payment or other satisfaction of his judgment. In such judgment the court shall make all proper orders for the disposition of such property or the proceeds thereof.

(j) A copy of any judgment entered in the trial court shall be forthwith transmitted by the clerk to the levying officer in order to permit such officer to either release the property attached or to continue to hold it to sell it, in accordance with the provisions of the writ previously delivered to him. Such officer, unless an appeal from the judgment is waived, or the judgment has otherwise become final, shall continue to hold such property under attachment or execution, continuing the sale of any property held under execution until such judgment becomes final. However, if a claim to exemption under Section 690.6 is allowed by such judgment, the debtor shall be entitled to a release of the earnings so exempted at the expiration of three days, unless otherwise ordered by the court, or unless the levying officer shall have been served with a copy of a notice of appeal from the judgment.

(k) When any documents required hereunder are served by mail, the provisions of this code relating to service by mail shall be applicable thereto.

(*l*) Whenever the time allowed for an act to be done hereunder is extended by the court, written notice thereof shall be given promptly to the opposing party, unless such notice be waived, and to the levying officer.

(m) An appeal lies from any judgment under this section. Such appeal to be taken in the manner provided for appeals in the court in which the proceeding is had.

Such payment into court shall constitute payment of the condemnation award within the meaning of Section 1251 of this code. CHAPTER 1529

An act to add Chapter 1.6 (commencing with Section 22520) to Division 16.5 of the Education Code, relating to college admissions.

[Approved by Governor September 19, 1970. Filed with Secretary of State September 19, 1970.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 1.6 (commencing with Section 22520) is added to Division 16.5 of the Education Code, to read:

CHAPTER 1.6. ADMISSIONS

22520. It has been and continues to be the intent of the Legislature that all qualified California youth be insured the opportunity to pursue higher learning.

The enrollment situation and admissions policies and procedures among California's public institutions of higher learning have been the subject of extensive public concern, and admissions practice has failed to reduce public uncertainties.

22521. It is the intent of the Legislature that each resident of California who has the capacity and motivation to benefit from higher education should have the opportunity to enroll in an institution of higher education. Once enrolled he should have the opportunity to continue as long and as far as his capacity and motivation, as indicated by his academic performance and commitment to educational advancement, will lead him to meet academic standards and institutional requirements.

22522. It is further the intent of the Legislature that the following categories be established insofar as practicable in the following order for the purpose of enrollment planning and admission priority practice at the undergraduate resident student level for the California State Colleges and the University of California:

(1) Continuing undergraduate students in good standing.

(2) Transfer students who have successfully completed the first two years of their baccalaureate program.

(3) Students entering at the freshman or sophomore levels.

It is further the intent of the Legislature that within each enrollment category, the following groups of applicants receive priority consideration in admissions practice in the following order:

(a) Residents of California who are recently released veterans of the armed forces of the United States.

(b) Transfers from California public community colleges.

(c) Applicants who have been previously enrolled at the campus to which they are applying, provided they left such institution in good standing.

(d) Applicants who have a degree or credential objective that is not generally offered at other public institutions of higher learning within California.

(e) Applicants for whom the distance involved in attending another institution would create financial or other hardships.

The segments may, in implementing these enrollment plans and admissions priorities, consider the overall needs of students in maintaining a balanced program and a quality curriculum.

22523. The California State Colleges and the University of California shall keep a record of the applicants denied admission and develop and utilize an information collection system which will indicate the number of qualified applicants who could not be accommodated at their campus of first choice and were redirected to campuses of alternate choice and the number of qualified redirected applicants who declined an offer of admission to an alternate campus.

22524. The Trustees of the California State Colleges and the Regents of the University of California shall submit to the Legislature on the fifth calendar day of each regular session of the Legislature a report on the progress made on the implementation of the enrollment plans and admissions priorities system and on the establishment of the information system and the findings that are made available.

CHAPTER 1530

An act to add Section 6870 to the Public Resources Code, relating to leases for the extraction of oil and gas.

[Approved by Governor September 19, 1970. Filed with Secretary of State September 19, 1970.]

The people of the State of California do enact as follows:

SECTION 1. Section 6870 is added, immediately preceding Section 6871, to the Public Resources Code, to read:

6870. (a) Notwithstanding any other provision of law to the contrary, no leases shall be let for the extraction of oil and gas from coastal tidelands or submerged lands in state waters within the Santa Barbara Channel unless the commission determines that such a lease will not result in the seepage or spillage of oil (either by finding that the safety and containment devices to be used are sufficient to prevent such seepage or spillage or that no seepage or spillage would result in any event) or in the destruction of scenic or aesthetic values.

(b) As used in this section, the Santa Barbara Channel is the area described as follows:

Beginning at the point of intersection of the ordinary high-water mark of the Pacific Ocean with the westerly point of Point Conception; thence in a generally easterly and southeasterly direction along said ordinary high-water mark to the westerly point of Point Mugu; thence in a generally southwesterly direction to the southwest tip of Anacapa Island; thence along the inland sides of Anacapa, Santa Cruz, Santa Rosa and San Miguel Islands to the most westerly part of San Miguel Island; thence in a northerly direction to the point of beginning; excluding the area described in subdivision (b) of Section 6871.2.

CHAPTER 1531

An act to add Sections 50081 and 50082 to the Government Code, relating to law enforcement.

[Approved by Governor September 19, 1970. Filed with Secretary of State September 19, 1970.]

The people of the State of California do enact as follows:

SECTION 1. The Legislature reaffirms its belief that responsibility and authority for law enforcement should and must remain under control of local law enforcement agencies. However, the Legislature finds that the state has a vital interest in playing an effective role to ensure that local law enforcement agencies have the human, physical, and technological resources necessary to fulfill their responsibilities.

The Legislature finds that it is essential to good law enforcement that law enforcement officers have equipment necessary for apprehension of offenders and for protection of the officers.

50081. To the extent that funds therefor have been made available to a local agency pursuant to Section 50082, the legislative body of a local agency shall furnish each police officer and deputy sheriff employed full time by the local agency with equipment necessary for the safety of such an employee, which shall include, but is not limited to, the following: a suitable firearm, holster, belt and ammunition, a nightstick, handcuffs, and foul-weather garments. The California Council on Criminal Justice shall adopt rules necessary to implement this section including rules governing the manner of application for allocation of funds.

65026. "Functional plan" as used in this chapter, means an intermediate- or short-range plan for the operation of a discrete function of state government.

65027. "Report" as used in this chapter, means the State Environmental Goals and Policy Report.

Article 2. Declaration of State Policy and Legislative Intent

65030. The Legislature finds and declares that future growth of the state should be guided by an effective planning process and should proceed within the framework of officially approved statewide goals and policies directed to land use, population growth and distribution, urban expansion and other relevant physical, social and economic development factors.

65031. The Legislature further finds and declares that recommendation, continuous evaluation and execution of statewide environmental goals, policies and plans are included within the scope of the executive functions of the Governor and responsibility for assuring orderly administration of this process within state government should be assigned to a governmental unit reporting directly to the Governor.

65032. The Legislature further finds and declares that analysis of the impact of individual programs on the achievement of statewide environmental goals and the necessity of allocating fiscal and other resources of the state among competing programs and needs requires integration of the planning and executive budget functions within state government.

65033. The Legislature further finds and declares that achievement of statewide environmental goals is dependent upon public understanding and endorsement and that the state planning process should include the opportunity for public response to clearly defined alternative objectives, policies and actions.

65034. The Legislature further finds and declares that the state planning process should be designed to influence legislative policy and actions and therefore should specifically include: (1) provisions for regular review and positive action by the Legislature on statewide environmental goals, plans and policies; and (2) clear identification of legislative actions required to carry out statewide environmental goals.

65035. It is the policy of the state and the intent of the Legislature to provide for an agency in the state government to be known as the Office of Planning and Research, which office shall report to the Governor and through him to the Legislature, and which shall have primary responsibility for assuring orderly operation of the process of environmental policy development and implementation within state government. It is not the intent of the Legislature to vest in the Office of Planning and Research any direct operating or regulatory powers over land use, public works, or other state, regional, or local projects or programs.

65036. It is the policy of the state and the intent of the Legislature to assure orderly planning for specific functions such as water development, transportation, natural resources, economic development and human resources by units of state government who exercise management responsibility for these functions. It is further the intent of the Legislature to provide, as part of the state planning process, that state functional plans proceed from common assumptions and forecasts of statewide growth and development, including those set forth in Section 21001 of the Public Resources Code.

Article 3. Establishment and Functions of Office of Planning and Research

65037. The Office of Planning and Research is hereby established in state government in the Governor's office. The office

(d) Assist the Department of Finance in preparing, as part of the annual state budget, an integrated program of priority actions to implement state functional plans and to achieve statewide environmental goals and objectives and take other actions to assure that the program budget, submitted annually to the Legislature, contains information reporting the achievement of state goals and objectives by departments and agencies of state government.

(e) Coordinate the development of policies and criteria to ensure the federal grants-in-aid administered or directly expended by state government advance statewide environmental goals and objectives.

(f) Coordinate the development and operation of a statewide environmental monitoring system to assess the implications of present growth and development trends on the envi-

ronment and to identify at an early time, potential threats to public health, natural resources and environmental quality.

(g) Coordinate, in conjunction with appropriate state, regional, and local agencies, the development of objectives, criteria and procedures for the orderly evaluation and report of the impact of public and private actions on the environmental quality of the state and as a guide to the preparation of environmental impact reports required of state and local agencies in Sections 21102 and 21150 of the Public Resources Code.

(h) Coordinate research activities of state government directed to the growth and development of the state and the preservation of environmental quality, render advice to the Governor, to his cabinet, and any agency or department of state government, and provide information to, and cooperate with, the Legislature or any of its committees or officers.

(j) Accept and allocate or expend grants and gifts from any source, public or private, for the purpose of state planning and undertake other planning and coordinating activities as will implement the policy and intent of the Legislature as set forth herein.

Article 5. Statewide Environmental Goals and Policy Report

65041. The Governor shall prepare and thereafter shall cause to be maintained, regularly reviewed and revised a comprehensive State Environmental Goals and Policy Report. In the preparation of the report, priority shall be given to the development of statewide land use policy, including the recommendations resulting from the land use planning and implementation program set forth in Section 4 of the act adding this section. The report shall contain, but not be limited to, the following:

(b) Description of new and revised state policies, programs and other actions of the executive and legislative branches required to implement statewide environmental goals, including intermediate-range plans and actions directed to natural resources, human resources and transportation.

65042. Every officer, agency, department or instrumentality of state government shall cooperate in the preparation and maintenance of the State Environmental Goals and Policy Report and shall comply with any request for advice, assistance, information or other material.

65044. Upon completion of the State Environmental Goals and Policy Report, the Governor, prior to approval, shall seek the advice of the Legislature and for this purpose shall transmit the report to the Speaker of the Assembly and to the Senate Rules Committee.

65045. The Legislature may assign the report for study to one or more standing committees, or to a joint committee and may hold hearings, solicit testimony and take other appropriate action to secure review of the report. Following such review, the Legislature may act by resolution to approve the environmental goals and policies proposed in the report as an indication of legislative intent; or state findings and conclusions and offer changes, deletions or modifications in the environmental goals and policies of the report, or both.

65046. The Governor shall consider any advice offered by the Legislature as provided in Section 65045 and, upon his approval, shall transmit the report to the Legislature, to state agencies, departments and boards, appropriate federal agencies and to the chief executive officer of every city and county in the state.

65048. The State Environmental Goals and Policy Report shall be revised, updated and shall be transmitted by the Governor to the Legislature every four years. The Governor, may at any time, inform and seek advice of the Legislature on proposed changes in state environmental goals, objectives and policies.

65049. Following approval of the State Environmental Goals and Policy Report as provided in Section 65046, the report shall serve as a guide for state expenditures for environmental purposes. In transmitting the annual budget to the Legislature, information shall be included relating proposed environmental expenditures to the achievement of statewide goals and objectives set forth in the report.

SEC. 3. The first report provided in Section 65040 of the Government Code shall be transmitted by the Governor to the Legislature no later than March 1, 1972. A report describing steps to be taken and progress in developing basic studies, concepts, and other major aspects of the report shall be transmitted by the Governor to the Legislature no later than June 1, 1971.

SEC. 4. The Office of Planning and Resarch shall give immediate and high priority to the development of land use policy. As a first component of such policy, the office shall develop, in conjunction with appropriate state departments and federal, regional and local agencies, a statewide plan and implementation program for protecting land and water resources of the state which are of statewide significance in terms of the state's natural resource base and the preservation and enhancement of environmental quality and are threatened due to urban expansion, incompatible public or private use or development or other circumstances.

The planning program shall consider, but not be limited to:

1. Areas of outstanding scientific, scenic and recreation value.

(c) For the purpose of work experience education programs meeting the standards of the California State Plan for Voca-

CHAPTER 1540

An act to amend Section 1825 of the Education Code, relating to school district territory transfer.

[Approved by Governor September 20, 1970. Filed with Secretary of State September 20, 1970.]

The people of the State of California do enact as follows:

SECTION 1. Section 1825 of the Education Code is amended to read:

1825. Whenever in the creation or dissolution of a school district, or the change of boundaries thereof, pursuant to any provision of Division 5 of this code, an existing district having outstanding bonded indebtedness is divided between two or more districts, whether or not previously existing, the territory of the district so divided as constituted prior to said division, shall remain liable for the outstanding bonded indebtedness of said district existing at the time of said division, and said territory shall, except as otherwise provided in this section, be liable for taxation for the repayment of principal and interest on said outstanding bonded indebtedness until the same is fully retired.

(a) Whenever in the creation or dissolution of a school district, or the change of boundaries thereof, pursuant to any provision of Division 5 of this code, an existing district having outstanding bonded indebtedness is divided between two or more districts, and as a result of said division, real property and improvements thereon, if any, which are the property of the divided district are transferred to one or more new or existing districts, the county superintendent of schools shall, for each acquiring district, calculate a "bond factor" to be computed as follows:

(1) The county superintendent of schools shall separately appraise or cause to be appraised the fair market value as of the date the action of division is complete, of all parcels of real property and improvements thereon, if any, which are the property of the divided district on said date, and thereafter compute the total fair market value of all real property and improvements thereon, if any, which are the property of the divided district on the date the action of division is complete, which total shall be the denominator of each "bond factor" computation;

(2) The county superintendent of schools shall then compute the total fair market value as appraised of those parcels of real property and improvements thereon, if any, to be acquired from the divided district by each acquiring district, which total shall be the numerator of the bond factor calculated for each acquiring district.

(b) The county superintendent of schools shall multiply each bond factor computed pursuant to subdivision (a) of this section, by the total principal of bonded indebtedness,

and interest thereon to maturity, of the divided district outstanding as of the date the action of division is complete, and shall certify to each acquiring district the amount resulting from the multiplication of the bond factor computed for said acquiring district as herein provided. The amount so certified to each acquiring district shall be designated "use charge."

(c) Beginning the fiscal year in which the aforementioned action or division is effective for all purposes the district acquiring the real property and improvements thereon, if any, as herein provided, shall pay annually to the county superintendent of schools for deposit in a separate fund that portion of the use charge certified as herein provided equal to the amount which would be annually required to pay principal of and interest on that portion of the bonded indebtedness of the divided district outstanding as of the date the action of division is effective for all purposes as represented by the use charge certified as herein annually the amounts deposited in said fund as herein provided for the payment of principal of and interest on the outstanding bonded indebtedness of the divided district. To the extent that said annual payments to the county superintendent of schools are sufficient to pay the principal of and interest on said outstanding bonded indebtedness as the same become due, the territory of the divided district shall not be taxed therefor.

(d) The annual payment required by the provisions of subdivision (c) hereinabove to be made by the acquiring district shall be designated the "use payment". Beginning the fiscal year in which the action of division is effective for all purposes, the county board of supervisors shall, each year, levy a tax upon the territory of the acquiring district in an amount sufficient to enable said district to make the annual use payment as hereinabove provided. Said tax shall be in addition to any other taxes authorized by law or by election.

(e) Notwithstanding any other provision of this code, for purposes of the State School Building Aid Law, that amount of outstanding bonded indebtedness of the divided district equal to what would have been certified as the use charge, if the same had been computed without reference to any interest on the principal of the bonded indebtedness, shall be considered a liability of the district liable for the use payment for purposes of computing bonding capacity of said district.

(f) When a use charge certified as herein provided has been paid in full, the use payments herein provided shall cease.

(g) If an existing high school district is divided and a unified school district is formed from the territory within such high school district, and such division and formation is effective for all purposes on July 1, 1969, the county superintendent of schools, in computing the bond factor pursuant to subdivision (a) of this section, shall include in the appraisal of real property and improvements an amount equal to the funds of the high school district which are required to be expended

for a project pursuant to Chapter 10 (commencing with Section 19551) of Division 14.

(h) The cost of the appraisal caused to be made under this section shall be a charge against the general fund of the resulting districts. The cost of the appraisal shall be shared by each district in the amount determined by multiplying the bond factor for each district by the total cost of the appraisal. The cost of an appraisal is an expense within the meaning of Section 17460.

The Department of Education shall annually report to the Legislature the scores or results of the tests administered to educationally handicapped pupils.

Commencing with tests administered in the 1969–1970 school year, school districts shall submit test score information on a per-school basis from the schools served by a specialist teacher.

Such special educational programs shall be provided in accordance with standards for each approved by the State Board of Education. Such standards shall emphasize fundamental school subjects with the aim of returning the pupils to the regular school program at the earliest possible date consistent with the interest of the pupil.

The special educational programs for educationally handicapped minors are:

(a) Special day classes (elementary and secondary). Under this program, educationally handicapped pupils unable to function in a regular class are assigned to a special day class. The special day class shall be maintained for not less than the minimum schoolday. In this program, fundamental school subjects shall be emphasized as prescribed by the State Board of Education.

(b) Learning disability groups (elementary and secondary). (b) The administrative head of a school district or office of the county superintendent of schools may make an interim placement of a pupil in a program for the educationally handicapped for a period not to exceed 90 days whenever a pupil transfers into the school district from another school district in which his last enrollment was in a program for educationally handicapped minors, such an interim placement may be made without the complete documentation specified in subdivision (a). Before the expiration of the 90-day period such interim placement shall be reviewed by the admission committee and a final recommendation shall be made by the admission committee in accord with the requirements of this chapter. time devoted to the instruction of such pupils shall count as one day of attendance. No provision of this chapter (commencing at Section 10951) of this code limiting the number of days of attendance with which a pupil may be credited in any one calendar day is applicable to such pupils but no such pupil shall be given individual instruction for more than three hours in any one day or credited with more days of attendance for individual instruction during any fiscal year than the number of legal calendar days school may be maintained during such fiscal year.

If the Superintendent of Public Instruction, upon review, finds that it is impossible to maintain classes of the maximum size as prescribed by this code or by the State Board of Education, he may add to the amounts allowed under Sections 18102 to 18102.6, inclusive, an amount sufficient to provide for the needed classes, but not more per special class than the applicable amounts computed in those sections.

CHAPTER 1545

An act to amend Sections 4455, 4600, 4801, and 4811 of, and to add Section 4813 to, the Civil Code, relating to family law.

[Approved by Governor September 20, 1970 Filed with Secretary of State September 20, 1970.]

The people of the State of California do enact as follows:

SECTION 1. Section 4455 of the Civil Code is amended to read:

4455. The court may, during the pendency of a proceeding to have a marriage adjudged a nullity or upon judgment, order a party to pay for the support of the other party in the same manner as if the marriage had not been void or voidable, provided that the party for whose benefit the order is made is found to be a putative spouse.

SEC. 2. Section 4600 of the Civil Code is amended to read:

4600. In any proceeding where there is at issue the custody of a minor child, the court may, during the pendency of the proceeding or at any time thereafter, make such order for the custody of such child during his minority as may seem necessary or proper. If a child is of sufficient age and capacity to reason so as to form an intelligent preference as to custody, the court shall consider and give due weight to his wishes in making an award of custody or modification thereof. Custody should be awarded in the following order of preference:

(a) To either parent according to the best interests of the child, but, other things being equal, custody should be given to the mother if the child is of tender years.

(b) To the person or persons in whose home the child has been living in a wholesome and stable environment.

(c) To any other person or persons deemed by the court to be suitable and able to provide adequate and proper care and guidance for the child.

Before the court makes any order awarding custody to a person or persons other than a parent, without the consent of the parents, it shall make a finding that an award of custody to a parent would be detrimental to the child and the award to a nonparent is required to serve the best interests of the child. Allegations that parental custody would be detrimental to the child, other than a statement of that ultimate fact, shall not appear in the pleadings. The court may, in its discretion, exclude the public from the hearing on this issue.

SEC. 3. Section 4801 of the Civil Code is amended to read:

4801. (a) In any judgment decreeing the dissolution of a marriage or a legal separation of the parties, the court may order a party to pay for the support of the other party any amount, and for such period of time, as the court may deem just and reasonable having regard for the circumstances of the respective parties, including the duration of the marriage and the ability of the supported spouse to engage in gainful employment without interfering with the interests of the children of the parties in the custody of such spouse. The court may order the party required to make such payment of support to give reasonable security therefor. Any order for support of the other party may be modified or revoked as the court may deem necessary, except as to any amount that may have accrued prior to the date of the filing of the notice of motion or

order to show cause to modify or revoke. The order of modification or revocation may be made retroactive to the date of filing of the notice of motion or order to show cause to modify or revoke.

(b) Except as otherwise agreed by the parties in writing, the obligation of any party under any order or judgment for the support and maintenance of the other party shall terminate upon the death of the obligor or upon the remarriage of the other party.

(c) Except as otherwise agreed by the parties in writing, the court may, upon petition of either party, modify or revoke any decree or judgment granting any allowance to the other party upon proof that the wife is living with another man, although not married to such man, or that the husband is living with another woman, although not married to such woman, except as to any amount that may have accrued prior to the filing of the petition.

(d) When a court orders a person to make specified payments for support of the other party for a contingent period of time, the liability of such person terminates upon the happening of such contingency. If the party to whom payments are to be made fails to notify the person ordered to make such payments, or the attorney of record of such person, of the happening of such contingency and continues to accept support payments, such party shall refund any and all moneys received which accrued after the happening of such contingency, except that such overpayments shall first be applied to any and all support payments which are then in default. The court may, in the original order for support, order the party to whom payments are to be made to notify the person ordered to make such payments, or his attorney of record, of the happening of such contingency.

(e) An order for payment of an allowance for the support of one of the parties shall terminate at the end of the period specified in the order and shall not be extended unless the court, in its original order, retains jurisdiction.

SEC. 4. Section 4811 of the Civil Code is amended to read:

4811. (a) The provisions of any agreement between the parties for child support shall be deemed to be separate and severable from all other provisions of such agreement relating to property and support of the wife or husband. All orders for child support shall be law-imposed and shall be made under the power of the court to make such orders. All such orders for child support, even when there has been an agreement between the parties on the subject of child support, may be modified or revoked at any time at the discretion of the court, except as to any amount that may have accrued prior to the date of filing of the notice of motion or order to show cause to modify or revoke.

(b) The provisions of any agreement for the support of either party shall be deemed to be separate and severable from the provisions of the agreement relating to property.

All orders for the support of either party based on such agreement shall be deemed law-imposed and shall be deemed made under the power of the court to make such orders. The provisions of any agreement or order for the support of either party shall be subject to subsequent modification or revocation by court order, except as to any amount that may have accrued prior to the date of filing of the notice of motion or order to show cause to modify or revoke, and except to the extent that any written agreement, or, if there is no written agreement, any oral agreement entered into in open court between the parties, specifically provides to the contrary.

(c) This section shall be effective only with respect to property settlement agreements entered into on or after January 1, 1970, and shall not be deemed to affect agreements entered into prior thereto, as to which the provisions of Chapter 1308 of the Statutes of 1967 shall apply.

SEC. 5. Section 4813 is added to the Civil Code, to read:

4813. When service of summons is made pursuant to Section 415.50 of the Code of Civil Procedure upon a spouse in a proceeding under the provisions of this part, the court, without the aid of attachment thereof or the appointment of a receiver, shall have and may exercise the same jurisdiction over all of the following:

(a) The community real property of the spouse so served situated in this state as it has or may exercise over the community real property of a spouse in a proceeding under this part who is personally served with process within this state.

(b) The quasi-community real property of the spouse so served situated in this state as it has or may exercise over the quasi-community real property of a spouse in a proceeding under this part who is personally served with process within this state.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The driver training programs for the 1970 fall semester of the public and private schools are scheduled to convene during the first week of September and in order for the driver training vehicles to be made available, this exemption must be in effect at the time the vehicles are loaned.

No portion of this subdivision shall be construed to restrict a private owner in the use of his own private property, except that the placing, depositing, or dumping of such waste matter on such property shall not create a public health and safety hazard, a public nuisance, or a fire hazard, as determined by a local health department, local fire department or fire district, or the Division of Forestry in which case the provisions of this section shall apply.

(b) Every person convicted of a violation of this section shall be punished by a mandatory fine of not less than ten dollars ($10) nor more than five hundred dollars ($500) upon a first conviction, by a mandatory fine of not less than twenty-five dollars ($25) nor more than five hundred dollars ($500) upon a second conviction, and by a mandatory fine of not less than fifty dollars ($50) nor more than five hundred dollars ($500) upon a third or subsequent conviction.

(c) Every clerk of a court, or judge if there be no clerk, in which a person was convicted for any violation of this section shall prepare within 10 days after conviction and immediately forward to the Department of Motor Vehicles at its office in Sacramento an abstract of the record of the court covering the case in which the person was so convicted which abstract shall be certified by the person so required to prepare it to be true and correct. The abstract shall be made upon a form furnished or provided by the department and shall contain all necessary

information to identify the defendant, the date and nature of the offense, the date of hearing, the judgment, and the punishment imposed. The failure, refusal or neglect of any such judicial officer to comply with the requirements of this subdivision is misconduct in office and is grounds for removal therefrom. All abstracts of records received by the department pursuant to this subdivision shall be filed and maintained by the department, as nearly as may be practical, in accordance with the provisions of Article 3 (commencing with Section 1800) of Chapter 1 of Division 2 of the Vehicle Code.

SEC. 2. Section 374 is added to the Penal Code, to read:

Any person, firm or corporation violating the provisions of this section shall be guilty of a misdemeanor.

No portion of this section shall be construed to restrict a private owner in the use of his own private property, except that the placing, depositing, or dumping of such waste matter on such property shall not create a public health and safety hazard, a public nuisance, or a fire hazard, as determined by a local health department, local fire department or fire district, or the Division of Forestry in which case the provisions of this section shall apply.

Every person convicted of a violation of this section shall be punished by a mandatory fine or not less than ten dollars ($10)

nor more than five hundred dollars ($500) upon a first conviction, by a mandatory fine of not less than twenty-five dollars ($25) nor more than five hundred dollars ($500) upon a second conviction, and by a mandatory fine of not less than fifty dollars ($50) nor more than five hundred dollars ($500) upon a third or subsequent conviction.

The abstract shall be made upon a form furnished or provided by the department and shall contain all necessary information to identify the defendant, the date and nature of the offense, the date of hearing, the judgment, and the punishment imposed. The failure, refusal or neglect of any such judicial officer to comply with the requirements of this subdivision is misconduct in office and is grounds for removal therefrom. All abstracts of records received by the department pursuant to this section shall be filed and maintained by the department, as nearly as may be practical, in accordance with the provisions of Article 3 (commencing with Section 1800) of Chapter 1 of Division 2 of the Vehicle Code.

SEC. 3.5. Section 374e of the Penal Code is amended to read:

Every person convicted of a violation of this section shall be punished by a mandatory fine of not less than ten dollars ($10) nor more than five hundred dollars ($500) upon a first conviction, by a mandatory fine of not less than twenty-five dollars ($25) nor more than five hundred dollars ($500) upon a second conviction, and by a mandatory fine of not less than fifty dollars ($50) nor more than five hundred dollars ($500) upon a third or subsequent conviction.

The court may, in addition to the fine imposed upon a second or subsequent conviction, require as a condition of probation, in addition to any other condition of probation, that any person convicted of a violation of this section, pick up litter at a

time and place within the jurisdiction of the court for not less than four hours upon a second conviction and for not less than eight hours upon a third or subsequent conviction.

The abstract shall be made upon a form furnished or provided by the department and shall contain all necessary information to identify the defendant, the date and nature of the offense, the date of hearing, the judgment, and the punishment imposed. The failure, refusal or neglect of any such judicial officer to comply with the requirements of this section is misconduct in office and is grounds for removal therefrom. All abstracts of records received by the department pursuant to this section shall be filed and maintained by the department, as nearly as may be practical, in accordance with the provisions of Article 3 (commencing with Section 1800) of Chapter 1 of Division 2 of the Vehicle Code.

SEC. 4. Section 853.6 of the Penal Code is amended to read:

853.6. (a) In any case in which a person is arrested for an offense declared to be a misdemeanor and does not demand to be taken before a magistrate, such person may, instead of being taken before a magistrate, be released according to the procedures set forth by this chapter. If the arresting officer or his superior determines that the person should be released, such officer or superior shall prepare in duplicate a written notice to appear in court, containing the name and address of such person, the offense charged, and the time and place where and when such person shall appear in court. If the person is not released prior to being booked and the officer in charge of the booking or his superior determines that the person should be released, such officer or superior shall prepare such written notice to appear in court.

(b) Unless waived by the person, the time specified in the notice to appear must be at least five (5) days after arrest.

(c) The place specified in the notice shall be the court of the magistrate before whom the person would be taken if the requirement of taking an arrested person before a magistrate were complied with, or shall be an officer authorized by such court to receive a deposit of bail.

(d) The officer shall deliver one copy of the notice to appear to the arrested person, and the arrested person, in order to secure release, must give his written promise so to appear in court by signing the duplicate notice which shall be retained by the officer. Thereupon the arresting officer shall forthwith release the person arrested from custody.

(e) The officer shall, as soon as practicable, file the duplicate notice with the magistrate specified therein. Thereupon the magistrate may fix the amount of bail which in his judgment, in accordance with the provisions of Section 1275 of the Penal Code, will be reasonable and sufficient for the appearance of the defendant and shall indorse upon the notice a statement signed by him in the form set forth in Section 815a of this code. The defendant may, prior to the date upon which he promised to appear in court, deposit with the magistrate the amount of bail thus set. Thereafter, at the time when the case is called for arraignment before the magistrate, if the defendant shall not appear, either in person or by counsel, the magistrate may declare the bail forfeited, and may in his discretion order that no further proceedings shall be had in such case, unless the defendant has been charged with violation of Section 374b or 374e of this code or of Section 13002 of the Health and Safety Code, or a violation punishable under Section 5008.7 of the Public Resources Code, and he has previously been convicted of a violation of such section or punishable under such section, except in cases where the magistrate finds that undue hardship will be imposed upon the defendant by requiring him to appear, the magistrate may declare the bail forfeited and order that no further proceedings shall be had in such case.

Upon the making of such order that no further proceedings be had, all sums deposited as bail shall forthwith be paid into the county treasury for distribution pursuant to Section 1463 of this code.

(f) No warrant shall issue on such charge for the arrest of a person who has given such written promise to appear in court, unless and until he has violated such promise or has failed to deposit bail, to appear for arraignment, trial or judgment, or to comply with the terms and provisions of the judgment, as required by law.

(g) The officer shall indicate on the notice to appear whether he desires the arrested person to be booked as defined in subdivision 21 of Section 7 of this code. In such event, the magistrate shall, before the proceedings are finally concluded, order the defendant to be booked by the arresting agency.

(h) A peace officer may use the written notice to appear procedure set forth in this section for any misdemeanor offense in which the officer has arrested a person pursuant to Section 836 or in which he has taken custody of a person pursuant to Section 847.

(i) If the arrested person is not released pursuant to the provisions of this chapter prior to being booked by the arresting agency, then at the time of booking the arresting officer, the officer in charge of such booking or his superior officer, or any other person designated by a city or county for this purpose shall make an immediate investigation into the background of the person to determine whether he should be released pursuant to the provisions of this chapter. Such investigation

shall include, but need not be limited to, the person's name, address, length of residence at that address, length of residence within this state, marital and family status, employment, length of that employment, prior arrest record, and such other facts relating to the person's arrest which would bear on the question of his release pursuant to the provisions of this chapter.

SEC. 6. Section 1822.3 of the Education Code is repealed.

SEC. 7. Section 1824 of the Education Code is repealed.

SEC. 8. Section 1825 of the Education Code is repealed.

SEC. 9. Article 10 (commencing with Section 1900) is added to Chapter 1 of Division 5 of the Education Code, to read:

Article 10. Bonded Indebtedness of School Districts

1900. When a school district is created, annexed, or abolished, or the boundaries thereof changed, the liability to taxation for the outstanding bonded indebtedness of the district or the territory affected thereby is as provided in this article. The authorities whose duty it is to levy taxes for the payment of principal and interest on the outstanding bonds, shall levy the taxes upon the districts affected in such proportions as are provided in or are determined under the authority of this article.

1901. No territory shall be taken from any school district having any outstanding bonded indebtedness and made a part of another district where the action, if taken, would so reduce the last equalized assessed valuation of the district from which the territory was taken that the outstanding bonded indebtedness of the district would exceed 5 percent of the assessed valuation remaining in the district for each level maintained, on the date the reorganization is effective pursuant to Section 1647.

1902. When any school district is formed from any combination of whole districts or portions of districts, the district so formed is liable for the outstanding bonded indebtedness of the districts or portions of districts included in the new district. When a portion of a district is included in a new district, the amount of the outstanding bonded indebtedness to be transferred to the new district shall be in the ratio which the total assessed valuation of the portion of the district bears to the total assessed valuation of the whole district during the year immediately preceding the date of formation for all purposes.

1903. When any school district is in any manner merged with one or more school districts so as to form a single district by any procedure, the district so formed is liable for all of the outstanding bonded indebtedness of the districts united or merged.

1904. When territory is taken from one school district and annexed to another school district and the area transferred contains no public school property or buildings, the territory shall drop any liability for outstanding bonded indebtedness in the district of which it was formerly a part and shall automatically assume its proportionate share of the outstanding bonded indebtedness of the district of which it becomes a part.

1905. When territory is taken from one district and annexed to or included in another district or a new district by any procedure and the area transferred contains public school

buildings or property, the district to which the territory is annexed shall take possession of the building and equipment on the day when the annexation becomes effective for all purposes. The territory transferred shall cease to be liable for the bonded indebtedness of the district of which it was formerly a part and shall automatically assume its proportionate share of the outstanding bonded indebtedness of any district of which it becomes a part.

The acquiring district shall pay the original district the greater of the amounts determined under provisions of subdivision (a), (b), or (c).

(a) The proportionate share of the outstanding bonded indebtedness of the original district, which proportionate share shall be in the ratio which the total assessed valuation of the transferring territory bears to the total assessed valuation of the original district in the year immediately preceding the date on which the annexation is effective for all purposes. This ratio shall be used each year until the bonded indebtedness for which the acquiring district is liable has been repaid.

(b) That portion of the outstanding bonded indebtedness of the original district which was incurred for acquisition or improvement of school lots or buildings or fixtures located therein and situated in the territory transferred.

(c) In preparing a plan for the formation of a new district, the county committee may prescribe a different method of dividing bonded indebtedness for the purpose of providing greater equity in the division. The committee may give consideration to assessed valuation, numbers of pupils, property values, and other matters which the committee deems pertinent.

The county board of supervisors shall compute for the reorganized district an annual tax rate for bond interest and redemption which will include the bond interest and redemption on the outstanding bonded indebtedness specified in subdivision (a), (b), or (c).

1906. Whenever an existing school district having authorized but unsold bonds is completely divided between two or more districts so that the existing district ceases to exist, pursuant to any provision of Division 5 (commencing with Section 1601), the board of supervisors shall, prior to the date the action is effective for the purposes of Section 1704, make and enter an order in the minutes of its proceedings that the unsold bonds be canceled. After the date on which the reorganization is effective for all purposes, the bonds and the vote by which they were authorized to be issued shall cease to be of any validity.

1907. Any unsold bonds of an elementary, high school, unified, or junior college district which is included as a whole in a new school district and authorized at an election held either prior or subsequent to the date upon which the action to form the new district pursuant to Section 1704 was completed, may be issued by the board of supervisors in the name

of the new district and the proceeds derived upon the sale thereof shall be the funds of the new district and shall be used only for the purpose or purposes for which such bonds were voted.

1908. When the territory of a school district is obligated for bonded indebtedness which has not been assumed by the district, an election may be held in the district to determine whether it shall assume the outstanding bonded indebtedness of any included districts or portions of districts. The election may be called upon the adoption of a resolution by the governing board of the district and shall be called upon petition of 10 percent of the qualified electors residing in the district. Such election shall be conducted in the same manner as elections for authorizing the sale of bonds. The ballot proposition at the election shall contain the words: "For assumption of liability for outstanding bonded indebtedness of _____ District(s)—Yes" and "For assumption of liability for outstanding bonded indebtedness of _____ District(s)—No." Such proposition shall carry if adopted by a percentage of voters prescribed by Section 18 of Article XI of the California Constitution.

If the county committee made a proposal for trustee areas in accordance with Section 3254 such proposal shall be considered a part of the reorganization proposition to be voted upon and the ballot shall include wording to that effect.

[Approved by Governor September 20, 1970. Filed with Secretary of State September 20, 1970.]

The people of the State of California do enact as follows:

SECTION 1. Title 1.5 (commencing with Section 1750) is added to Part 4 of Division 3 of the Civil Code, to read:

TITLE 1.5. CONSUMERS LEGAL REMEDIES ACT

CHAPTER 1. GENERAL PROVISIONS

1750. This title may be cited as the Consumers Legal Remedies Act.

1751. Any waiver by a consumer of the provisions of this title is contrary to public policy and shall be unenforceable and void.

1752. The provisions of this title are not exclusive. The remedies provided for herein shall be in addition to any other procedures or remedies provided for in any other law.

Nothing in this title shall limit any other statutory or any common law rights of the Attorney General or any other person to bring class actions. Class actions by consumers brought under the specific provisions of Chapter 3 (commencing with Section 1770) of this title shall be governed exclusively by the provisions of Chapter 4 (commencing with Section 1780).

1753. If any provision of this title or the application thereof to any person or circumstance is held to be unconstitutional, the remainder of the title and the application of such provision to other persons or circumstances shall not be affected thereby.

1754. The provisions of this title shall not apply to any transaction which provides for the construction, sale, or construction and sale of an entire residence or all or part of a structure designed for commercial or industrial occupancy, with or without a parcel of real property or an interest therein, or for the sale of a lot or parcel of real property, including any site preparation incidental to such sale.

1755. Nothing in this title shall apply to the owners or employees of any advertising medium, including, but not limited to, newspapers, magazines, broadcast stations, billboards and transit ads, by whom any advertisement in violation of this title is published or disseminated, unless it is established that such owners or employees had knowledge of the deceptive methods, acts or practices declared to be unlawful by Section 1770.

1756. The substantive and procedural provisions of this title shall only apply to actions filed on or after January 1, 1971.

CHAPTER 2. CONSTRUCTION AND DEFINITIONS

1760. This title shall be liberally construed and applied to promote its underlying purposes, which are to protect consumers against unfair and deceptive business practices and to provide efficient and economical procedures to secure such protection.

1761. As used in this title:

(a) "Goods" means tangible chattels bought for use primarily for personal, family, or household purposes, including certificates or coupons exchangeable for such goods, and including goods which, at the time of the sale or subsequently, are to be so affixed to real property as to become a part of such real property, whether or not severable therefrom.

(a) Passing off goods or services as those of another.

(b) Misrepresenting the source, sponsorship, approval, or certification of goods or services.

(c) Misrepresenting the affiliation, connection, or association with, or certification by, another.

(d) Using deceptive representations or designations of geographic origin in connection with goods or services.

(h) Disparaging the goods, services, or business of another by false or misleading representation of fact.

(i) Advertising goods or services with intent not to sell them as advertised.

(j) Advertising goods or services with intent not to supply reasonably expectable demand, unless the advertisement discloses a limitation of quantity.

CHAPTER 4. REMEDIES AND PROCEDURES

1780. (a) Any consumer who suffers any damage as a result of the use or employment by any person of a method, act, or practice declared to be unlawful by Section 1770 may bring an action against such person to recover or obtain any of the following:

(1) Actual damages, but in no case shall the total award of damages in a class action be less than three hundred dollars ($300).

(2) An order enjoining such methods, acts, or practices.

(3) Punitive damages.

(4) Any other relief which the court deems proper.

(b) Such action may be commenced in the county in which the person against whom it is brought resides, has his principal place of business, or is doing business, or in the county where the transaction or any substantial portion thereof occurred.

If within any such county there is a municipal or justice court, having jurisdiction of the subject matter, established in the city and county or judicial district in which the person against whom the action is brought resides, has his principal place of business, or is doing business, or in which the transaction or any substantial portion thereof occurred, then such court is the proper court for the trial of such action. Other-

wise, any municipal or justice court in such county having jurisdiction of the subject matter is the proper court for the trial thereof.

In any action subject to the provisions of this section, concurrently with the filing of the complaint, the plaintiff shall file an affidavit stating facts showing that the action has been commenced in a county or judicial district described in this section as a proper place for the trial of the action. If a plaintiff fails to file the affidavit required by this section, the court shall, upon its own motion or upon motion of any party, dismiss any such action without prejudice.

1781. (a) Any consumer entitled to bring an action under Section 1780 may, if the unlawful method, act, or practice has caused damage to other consumers similarly situated, bring an action on behalf of himself and such other consumers to recover damages or obtain other relief as provided for in Section 1780.

(b) The court shall permit the suit to be maintained on behalf of all members of the represented class if all of the following conditions exist:

(1) It is impracticable to bring all members of the class before the court.

(2) The questions of law or fact common to the class are substantially similar and predominate over the questions affecting the individual members.

(3) The claims or defenses of the representative plaintiffs are typical of the claims or defenses of the class.

(4) The representative plaintiffs will fairly and adequately protect the interests of the class.

(c) If notice of the time and place of the hearing is served upon the other parties at least 10 days prior thereto, the court shall hold a hearing, upon motion of any party to the action which is supported by affidavit of any person or persons having knowledge of the facts, to determine if any of the following apply to the action:

(1) A class action pursuant to subdivision (b) is proper.

(2) Published notice pursuant to subdivision (d) is necessary to adjudicate the claims of the class.

(3) The action is without merit or there is no defense to the action.

A motion based upon Section 437c of the Code of Civil Procedure shall not be granted in any action commenced as a class action pursuant to subdivision (a).

(d) If the action is permitted as a class action, the court may direct either party to notify each member of the class of the action. The party required to serve notice may, with the consent of the court, if personal notification is unreasonably expensive or it appears that all members of the class cannot be notified personally, give notice as prescribed herein by publication in accordance with Section 6064 of the Government Code in a newspaper of general circulation in the county in which the transaction occurred.

(e) The notice required by subdivision (d) shall include the following:

(1) The court will exclude the member notified from the class if he so requests by a specified date.

(2) The judgment, whether favorable or not, will include all members who do not request exclusion.

(3) Any member who does not request exclusion, may, if he desires, enter an appearance through counsel.

(f) A class action shall not be dismissed, settled, or compromised without the approval of the court, and notice of the proposed dismissal, settlement, or compromise shall be given in such manner as the court directs to each member who was given notice pursuant to subdivision (d) and did not request exclusion.

(g) The judgment in a class action shall describe those to whom the notice was directed and who have not requested exclusion and those the court finds to be members of the class. The best possible notice of the judgment shall be given in such manner as the court directs to each member who was personally served with notice pursuant to subdivision (d) and did not request exclusion.

1782. (a) Thirty days or more prior to the commencement of an action for damages pursuant to the provisions of this title, the consumer shall do the following:

(1) Notify the person alleged to have employed or committed methods, acts or practices declared unlawful by Section 1770 of the particular alleged violations of Section 1770.

(2) Demand that such person correct, repair, replace or otherwise rectify the goods or services alleged to be in violation of Section 1770.

Such notice shall be in writing and shall be sent by certified or registered mail, return receipt requested, to the place where the transaction occurred, such person's principal place of business within California, or, if neither will effect actual notice, the office of the Secretary of State of California.

(b) Except as provided in subdivision (c), no action for damages may be maintained under the provisions of Section 1780 if an appropriate correction, repair, replacement or other remedy is given, or agreed to be given within a reasonable time, to the consumer within 30 days after receipt of such notice.

(c) No action for damages may be maintained under the provisions of Section 1781 upon a showing by a person alleged to have employed or committed methods, acts or practices declared unlawful by Section 1770 that all of the following exist:

(1) All consumers similarly situated have been identified, or a reasonable effort to identify such other consumers has been made.

(2) All consumers so identified have been notified that upon their request such person shall make the appropriate correction, repair, replacement or other remedy of the goods and services.

(3) The correction, repair, replacement or other remedy requested by such consumers has been, or, in a reasonable time, shall be, given.

(4) Such person has ceased from engaging, or if immediate cessation is impossible or unreasonably expensive under the circumstances, such person will, within a reasonable time, cease to engage, in such methods, act, or practices.

(d) An action for injunctive relief brought under the specific provisions of Section 1770 may be commenced without compliance with the provisions of subdivision (a). Not less than 30 days after the commencement of an action for injunctive relief, and after compliance with the provisions of subdivision (a), the consumer may amend his complaint without leave of court to include a request for damages. The appropriate provisions of subdivision (b) or (c) shall be applicable if the complaint for injunctive relief is amended to request damages.

(e) Attempts to comply with the provisions of this section by a person receiving a demand shall be construed to be an offer to compromise and shall be inadmissible as evidence pursuant to Section 1152 of the Evidence Code; furthermore, such attempts to comply with a demand shall not be considered an admission of engaging in an act or practice declared unlawful by Section 1770. Evidence of compliance or attempts to comply with the provisions of this section may be introduced by a defendant for the purpose of establishing good faith or to show compliance with the provisions of this section.

1783. Any action brought under the specific provisions of Section 1770 shall be commenced not more than three years from the date of the commission of such method, act, or practice.

1784. No award of damages may be given in any action based on a method, act, or practice declared to be unlawful by Section 1770 if the person alleged to have employed or committed such method, act, or practice (a) proves that such violation was not intentional and resulted from a bona fide error notwithstanding the use of reasonable procedures adopted to avoid any such error and (b) makes an appropriate correction, repair or replacement or other remedy of the goods and services according to the provisions of subdivisions (b) and (c) of Section 1782.

SEC. 2. Nothing in this act shall be construed to prevent the court from awarding attorney's fees pursuant to specific provisions of existing law.

(b) Adopt standards of ambient air quality for each basin in consideration of the public health, safety and welfare, including but not limited to health, illness, irritation to the senses, aesthetic value, interference with visibility, and effects on the economy. These standards may vary from one basin to another. Standards relating to health effects shall be based upon the recommendations of the State Department of Public Health.

(e) Adopt test procedures to measure compliance with its nonvehicular emission standards and those of local and regional authorities. The board may revise any test procedures which it has adopted when the development and improvement of testing techniques and testing instruments warrant such

revision in the judgment of the board. If the board revises such test procedures, it may establish revised nonvehicular emission standards, which standards shall be applicable when such revised test procedures are used in testing nonvehicular sources. The revised standards may be expressed in terms and numerical values other than the terms and numerical values prescribed by, but shall not be less stringent than the standards prescribed by, Chapter 3.5 (commencing with Section 39077) of this part.

SEC. 32. Section 39460 of the Health and Safety Code is amended to read:

39460. The regional board shall adopt and may, from time to time, amend rules and regulations, including, but not limited to, rules and regulations establishing standards to implement this chapter and Chapter 3.5 (commencing with Section 39077) of Part 1. Such rules and regulations shall be based on surveys and studies made by the regional district and such other information as may be available to the regional district. The rules and regulations shall be adopted only after the regional board has considered the matter at a public hearing at which all interested persons are afforded the opportunity to appear and urge or oppose adoption of the resolution. The regional board shall give notice of its intention to adopt or amend rules and regulations and give notice of the hearing by publication pursuant to Section 6061 of the Government Code in each of the counties within the regional district not less than 10 days prior to the hearing. SEC. 33. Section 39470 of the Health and Safety Code is amended to read:

39470. The provisions of this chapter do not prohibit the discharge of air contaminants to a greater extent or for a longer time, or both, than permitted by Article 6 (commencing with Section 39430) of this chapter, Chapter 3.5 (commencing with Section 39077) of Part 1, or by rules, regulations, or orders of the regional board, if not of a greater extent or longer time than the hearing board or a court after a hearing before the hearing board finds necessary pursuant to the provisions of this article.

SEC. 34. Section 39471 of the Health and Safety Code is amended to read:

39471. The hearing board on its own motion or at the request of any person may hold a hearing to determine under what conditions and to what extent a variance from the requirements established by Article 6 (commencing with Section 39430) of this chapter, Chapter 3.5 (commencing with Section 39077) of Part 1, or by rules, regulations, or orders of the regional board is necessary and will be permitted.

SEC. 35. Section 39475 of the Health and Safety Code is amended to read:

39475. If the hearing board finds that because of conditions beyond control compliance with Article 6 (commencing with Section 39430) of this chapter, Chapter 3.5 (commencing with Section 39077) of Part 1, or with any rule, regulation, or order of the regional board will result in an arbitrary and unreasonable taking of property or in the practical closing and elimination of any lawful business, occupation or activity,

in either case without a sufficient corresponding benefit or advantage to the people in the reduction of air contamination, it shall prescribe other and different requirements not more onerous applicable to plants and equipment operated either by named classes of industries or persons, or to the operation of separate persons; provided, however, that no variance may permit or authorize the maintenance of a nuisance.

SEC. 36. Section 39481 of the Health and Safety Code is amended to read:

39481. If any local county or city ordinance has provided regulations similar to those in Article 6 (commencing with Section 39430) of this chapter, Chapter 3.5 (commencing with Section 39077) of Part 1, or to any order, regulation, or rule prescribed by the regional board, and has provided for the granting of variances, and pursuant to such local ordinance a variance has been granted prior to notification of the regional district, such variance shall be continued as a variance of the hearing board for the time specified therein or one year, whichever is shorter, or until and unless prior to the expiration of such time the hearing board modifies or revokes such variance as provided in this article.

SEC. 37. Section 39482 is added to the Health and Safety Code, to read:

39482. The regional board shall submit an annual report by September 30 to the State Air Resources Board on the variances granted by the hearing board during the period from July 1 to June 30 where the durations of the variances, including any extensions granted, are for more than one year. The report shall include the name of the parties to whom the variances were granted, the reasons for and the durations of the variances, and whether the variances have been, or were previously, extended.

SEC. 38. Section 39057 of the Health and Safety Code is amended to read:

39057. Notwithstanding the provisions of this division, any local or regional authority may establish additional, stricter standards than those set forth by law or by the state board for all nonvehicular sources, but no local or regional authority may completely ban all agricultural burning, as defined in Section 39295.6.

SEC. 39. It is the intent of the Legislature, if amendments to Section 39057 of the Health and Safety Code proposed by both this bill and Assembly Bill No. 16 are enacted, that both amendments be given effect and incorporated in Section 39057 in the form set forth in Section 38 of this act. Therefore, in the event Assembly Bill No. 16 is enacted and amends Section 39057, Section 38 of this act shall become operative on the effective date of this act and Section 25.5 of this act shall not take effect.

CHAPTER 1555

An act to add Chapter 4.5 (commencing with Section 6370) to Part 1 of Division 6 of the Public Resources Code, relating to state lands, and making an appropriation therefor.

[Approved by Governor September 20, 1970 Filed with Secretary of State September 20, 1970]

The people of the State of California do enact as follows:

SECTION 1. Chapter 4.5 (commencing with Section 6370) is added to Part 1 of Division 6 of the Public Resources Code, to read:

CHAPTER 4.5. DEVELOPMENT OF STATE LANDS

6370. The commission, acting jointly with the Resources Agency and in cooperation with other appropriate state, federal, and local agencies, shall inventory unconveyed state school and tide and submerged lands and identify such lands which possess unique environmental values, including scenic, historic, natural, or aesthetic values of statewide interest. The commission, upon identification of such lands, shall adopt regulations necessary to assure permanent protection to these lands. The commission shall submit a report to the Legislature by January 1, 1973, which identifies those lands determined by the commission to possess unique environmental values and setting forth the criteria upon which such determinations were made, including the findings and regulations adopted by the commission. The report using the findings and regulations adopted by the commission as a basis shall recommend any additional actions necessary to assure permanent protection of these areas. In its investigation, the commission shall consider the California Protected Waterways Plan required pursuant to the provisions of Chapter 1278 of the Statutes of 1968, and any and all other reports and plans relating to the protection of scenic, historic, natural, or aesthetic values.

6371. Until submission of the report required in Section 6370 the State Lands Commission shall not sell any of the lands under their jurisdiction unless they have made a finding at a public meeting that such sale is necessary for the health, welfare or safety of the people of the state or a finding that such land would not meet the intent of environmentally unique lands indicated in Section 6370; provided, however, that this section and Sections 6372, 6373, 6374, and

6375 shall not be applicable to settlements of title and boundary problems by the commission and exchanges in connection therewith. The commission, except for recreational pier permits, shall not lease any of the lands under its jurisdiction unless it shall have made a finding at a public meeting that such lease will not have a significant detrimental environmental effect and shall have made an environmental impact report which shall be available to the Legislature and to the public. Such report shall set forth the environmental impact of the lease, any unavoidable adverse environmental effects, mitigation measures proposed to minimize the impact, alternatives to the lease, the relationship between local short-term uses of man's environment and the maintenance and enhancement of long-term productivity, and any irreversible environmental changes which would be involved in the leasing of the lands.

6372. It is the intent of the Legislature that no further grants of state lands shall be made until the report required to be submitted by the commission pursuant to Section 6370 has been received by the Legislature.

6373. Before any disposition of state lands to a private party or other governmental agency, the intended recipient of such lands shall submit to the commission and to the Legislature a general plan, as specified by the commission, for the use of the subject lands to be transferred, together with the review and comments of other interested state agencies.

6374. Any governmental agency of the state which has heretofore been granted state lands in trust shall submit to the commission and to the Legislature a report on the use and development of such lands up to the present time and shall prepare and submit to the commission by January 1, 1973, a general plan, as specified by the commission and approved by the Council on Intergovernmental Relations, for the future use of such lands. Nothing contained in any such report or general development plan shall affect any rights or obligation arising from existing leases or contracts or any amendment thereof. The commission shall report to the Legislature any deviations, if any, in the plan from the original terms of the grant.

6375. The commission shall inventory all lands heretofore granted by the state to any governmental agency of the state in trust and identify such lands having unique environmental values of statewide interest. The commission shall submit a report to the Legislature by January 1, 1973, proposing methods, as approved by the Council on Intergovernmental Relations, for the protection of any such lands identified as having unique environmental values of statewide interest.

6376. It is the intent of the Legislature that any inventory prepared pursuant to this chapter shall be solely for informational purposes and not to establish rights of ownership. Any boundaries mapped or described by the commission in

any such inventory shall not be binding upon any upland owner or other party affected thereby.

6377. The provisions of this chapter shall not apply to tidelands transferred pursuant to Chapter 1333 of the Statutes of 1968, to tidelands and submerged lands heretofore granted to the City of Long Beach or to oil revenues and dry gas revenues whose disposition is governed by Chapter 138 of the Statutes of 1964, First Extraordinary Session, or to any sovereign or other state lands transferred to the City of Oakland in trust by the state for port purposes.

SEC. 2. The sum of fifty thousand dollars ($50,000) is hereby appropriated from the California Environmental Protection Program Fund to the State Lands Commission for the fiscal year 1970–1971 for the purposes of Chapter 4.5 (commencing with Section 6370) of Part 1 of Division 6 of the Public Resources Code.

SEC. 3. Section 2 of this act shall become operative only if either Senate Bill No. 262 or Assembly Bill No. 522 is enacted by the Legislature at its 1970 Regular Session.

CHAPTER 1556

An act to add Division 14 (commencing with Section 22000) to Public Resources Code, relating to conservation and development, and making an appropriation therefor.

[Approved by Governor September 20, 1970. Filed with Secretary of State September 20, 1970.]

The people of the State of California do enact as follows:

SECTION 1. Division 14 (commencing with Section 22000) is added to the Public Resources Code, to read:

DIVISION 14. THE VENTURA-LOS ANGELES MOUNTAIN AND COASTAL STUDY COMMISSION

CHAPTER 1. FINDINGS AND DECLARATIONS OF POLICY

22000. The Legislature hereby finds and declares that the Ventura-Los Angeles Mountain and Coastal Zone, defined in Section 22012, as the last large undeveloped area contiguous to the shoreline within the greater Los Angeles Metropolitan Region, comprised of Los Angeles and Ventura Counties, represents a unique and irreplaceable natural resource to the people of the state, that uses of the zone include recreation, conservation, open space, and utilization and enjoyment of the sea and the mountains, that the zone functions as an integral component of the physical and biological systems of the entire region, and to a significant, although not as yet precisely determined degree, impacts upon these essential life-support systems, that there are pressures of population growth and

economic development in the zone, and that if conservation and development practices are permitted to continue in their present unplanned, uncoordinated, and haphazard manner, irreversible deterioration of the zone as a precious natural resource for the people of the entire state may ensue.

22001. The Legislature further finds and declares that current conservation and development practices may conflict with the public interest of present and future generations due to:

(a) An insufficient understanding of the long-range implications of land use practices as they affect the zone and the region.

(b) The uncoordinated and fragmented nature of public and private planning of development and conservation activities within the zone.

(c) The lack of a comprehensive plan and program to provide for conservation and development of the zone in the best public interest.

(b) When requested by the local director of mental health services, to prevent unnecessary admission of persons to state mental institutions or to facilitate the release of patients for whom hospital care is not the appropriate treatment.

The department, to the extent funds are appropriated and available shall pay for the cost of providing for care in a private home, certified by the department, for any patient released from a state hospital, or, when requested by local director of mental health services any person who would otherwise be subject to admission thereto. The monthly rate for such private home care shall be set by the department at an amount which will provide the best possible care at minimum cost and also insure:

(a) That the released patient will receive proper treatment and may be expected to show progress in achieving the maximum adjustment toward returning to community life; and

(b) That sufficient homes can be recruited to achieve the stated objectives of this section.

To avoid duplication of effort and overlapping of services, the Department of Social Welfare and the Department of Public Health shall develop working agreements so that regional centers now existing or as may be hereinafter created may make fullest possible use of available resources in serving the mentally retarded.

CHAPTER 1560

An act to amend Sections 7354 and 10053.5 of the Welfare and Institutions Code, relating to care of mental patients.

[Approved by Governor September 20, 1970. Filed with Secretary of State September 20, 1970.]

Such payments shall be made from funds available to the State Department of Social Welfare for that purpose or for the support of patients in the state hospitals.

The State Department of Social Welfare shall make payments for services for mentally retarded and mentally disordered patients in private facilities released or discharged from state hospitals on the basis of reimbursement for reasonable cost, using the same standards and rates consistent with those established by the Administrator of the Health and Welfare Agency for similar types of care. Such payments shall be made within the limitation of funds appropriated to the State Department of Social Welfare for that purpose.

No payments for care of or services for a mentally disordered patient shall be made by the Department of Social Welfare pursuant to this section unless such care or services are requested by the local director of the mental health services of the county of the patient's residence, and unless provision for such care or services is made in the county Short-Doyle plan of the county.

No payments for care of or services for a mentally retarded person shall be made by the Department of Social Welfare pursuant to this section on and after July 1, 1971, unless requested by the regional center having jurisdiction over the person and provision for such care or services is made in the areawide mental retardation plan.

The department, to the extent funds are appropriated and available shall pay for the cost of providing for care in a private home, certified by the department, for mentally disordered or mentally retarded persons described in, and subject to the request and plan conditions of, subdivisions (a) and (b) above. For all such persons without public or private financial resources who are placed in private homes at departmental expense, the Department of Mental Hygiene will provide from support or local assistance budget funds, at a rate to be determined by the Secretary of the Human Relations Agency, moneys necessary to furnish clothing and to meet incidental living expenses. A district shall report annually to the State Department of Education the number of nonresidents enrolled for six units or less, the number of nonresidents enrolled for more than six

CHAPTER 1565

An act to amend Sections 13262, 13263, 13443, and 13447 of the Education Code, relating to public school employment.

[Approved by Governor September 20, 1970. Filed with Secretary of State September 20, 1970.]

The people of the State of California do enact as follows:

SECTION 1. Section 13262 of the Education Code is amended to read:

13262. Except as otherwise provided in Sections 13252 to 13273, inclusive, every probationary or permanent employee employed before July 1, 1947, shall be deemed to have been employed on the date upon which he first accepted employment in a probationary position.

In case two or more employees accepted employment on the same date the governing board of the district shall determine the order of employment within 10 days of the date of first paid service for all who rendered service on such date by lots drawn by the employees concerned or assigned at random by an independent auditing firm employed in accordance with Section 13263 or by other means as determined pursuant to the procedures described in Article 5 (commencing with Section 13080) of Chapter 1 of this division.

If district costs are incurred pursuant to the use of an independent auditing firm the governing board of the district may assess equally the employees involved an amount not to exceed one dollar ($1) to implement the provisions of this section.

SEC. 1.5. Section 13263 of the Education Code is amended to read:

13263. (a) Every probationary or permanent employee employed after June 30, 1947, shall be deemed to have been employed on the date upon which he first rendered paid service in a probationary position.

In any district in which appointments are made from eligible lists established by examination, if two or more em-

ployees rendered their first paid service on the same date, the board shall determine the order of employment of employees so appointed by lot drawn as follows:

First, those who were highest on their eligible lists, except as they have waived appointment, shall draw lots for preferred order as among such employees.

Second, those who were next highest on their respective eligible lists shall similarly draw lots for preferred order as among themselves.

In like manner, drawings shall continue until the order of employment of all shall have been determined. Employees appointed subject to examination shall draw last of all.

(b) If, pursuant to this section it is determined that the district shall draw lots to make such determinations, then all employees who rendered their first paid service on the same date shall participate in the drawing, and in the absence of any such employee, the superintendent or his designated representative shall draw for the absent employee or employees. The superintendent shall deliver a notice to all such employees of the time and place of such drawing, on the date of the employee's first day of paid service.

SEC. 2. Section 13443 of the Education Code is amended to read:

13443. (a) No later than March 15 and before an employee is given notice by the governing board that his services will not be required for the ensuing year, the governing board and the employee shall be given written notice by the superintendent of the district or his designee, or in the case of a district which has no superintendent by the clerk or secretary of the governing board, that it has been recommended that such notice be given to the employee, and stating the reasons therefor.

(b) The employee may request a hearing to determine if there is cause for not reemploying him for the ensuing year. A request for a hearing must be in writing and must be delivered to the person who sent the notice pursuant to subdivision (a), on or before a date specified therein, which shall not be less than seven days after the date on which the notice is served upon the employee. If an employee fails to request a hearing on or before the date specified, his failure to do so shall constitute his waiver of his right to a hearing. The notice provided for in subdivision (a) shall advise the employee of the provisions of this subdivision.

(c) In the event a hearing is requested by the employee, the proceeding shall be conducted and a decision made in accordance with Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code and the governing board shall have all the power granted to an agency therein, except that: (1) the respondent shall file his notice of defense, if any, within five days after service upon

him of the accusation and he shall be notified of such five-day period for filing in the accusation; (2) the discovery authorized by Section 11507.6 of the Government Code shall be available only if request is made therefor within 15 days after service of the accusation, and the notice required by Section 11505 of the Government Code shall so indicate; and (3) the hearing shall be conducted by a hearing officer who shall prepare a proposed decision, containing findings of fact and a determination as to whether the charges sustained by the evidence are related to the welfare of the schools and the pupils thereof, but the proposed decision shall not contain a determination as to the sufficiency of the cause or a recommendation as to disposition, which sufficiency and disposition shall be determined by the governing board. The proposed decision shall be submitted to the governing board on or before May 7 of the year in which the proceeding is commenced. All expenses of the hearing, including the cost of the hearing officer, shall be paid by the governing board from the district funds. The board may adopt from time to time such rules and procedures not inconsistent with provisions of this section, as may be necessary to effectuate this section.

(d) The governing board's determination not to reemploy a probationary employee for the ensuing school year shall be for cause only. The determination of the governing board as to the sufficiency of the cause pursuant to this section shall be conclusive, but the cause shall relate solely to the welfare of the schools and the pupils thereof and provided that cause shall include termination of services for the reasons specified in Section 13447. The decision made after the hearing shall be effective on May 15 of the year the proceeding is commenced.

(e) Notice to the probationary employee by the governing board that his service will not be required for the ensuing year, shall be given no later than May 15.

(f) If a governing board notifies a probationary employee that his services will not be required for the ensuing year, the board shall, within 10 days after delivery to it of the employee's written request, provide him with a statement of its reasons for not reemploying him for the ensuing school year.

(g) Any notice or request shall be deemed sufficient when it is delivered in person to the employee to whom it is directed, or when it is deposited in the United States registered mail, postage prepaid and addressed to the last known address of the employee.

(h) In the event that the governing board does not give notice provided for in subdivision (e) of this section on or before May 15, the employee shall be deemed reemployed for the ensuing school year.

(i) If after request for hearing pursuant to subdivision (b) any continuance is granted pursuant to Government Code Section 11524, the dates prescribed in subdivisions (c), (d), (e) and (h) which occur on or after the date of granting the con-

tinuance shall be extended for a period of time equal to such continuance.

SEC. 3. Section 13447 of the Education Code is amended to read:

13447. No permanent employee shall be deprived of his position for causes other than those specified in Sections 13313, 13327 and 13338, and Sections 13403 to 13441, inclusive, and no probationary employee shall be deprived of his position for cause other than as specified in Sections 13442 and 13443, except in accordance with the provisions of Section 13319 and Sections 13447 to 13452, inclusive.

Whenever in any school year the average daily attendance in all of the schools of a district for the first six months in which school is in session shall have declined below the corresponding period of either of the previous two school years, or whenever a particular kind of service is to be reduced or discontinued not later than the beginning of the following school year, and when in the opinion of the governing board of said district it shall have become necessary by reason of either of such conditions to decrease the number of permanent employees in said district, the said governing board may terminate the services of not more than a corresponding percentage of the certificated employees of said district, permanent as well as probationary, at the close of the school year; provided, that the services of no permanent employee may be terminated under the provisions of this section while any probationary employee, or any other employee with less seniority, is retained to render a service which said permanent employee is certificated and competent to render.

Notice of such termination of services either for a reduction in attendance or reduction or discontinuance of a particular kind of service to take effect not later than the beginning of the following school year, shall be given before the 15th of May in the manner prescribed in Section 13443, and services of such employees shall be terminated in the inverse of the order in which they were employed, as determined by the board in accordance with the provisions of Sections 13262 and 13263 of this code. In the event that a permanent or probationary employee is not given the notices and a right to a hearing as provided for in Section 13443, he shall be deemed reemployed for the ensuing school year.

The board shall make assignments and reassignments in such a manner that employees shall be retained to render any service which their seniority and qualifications entitle them to render.

SEC. 4. If Assembly Bill No. 747 is enacted at the 1970 Regular Session of the Legislature and amends Section 13262 of the Education Code, then Section 1 of this act shall not become operative.

(c) If, in any year, there is insufficient money in the fund to make the payments specified in subdivisions (a) and (b), the department shall, subject to the provisions of Section 21684, pay to each such public entity an amount which is equal to the total amount of money in the fund multiplied by a percentage equivalent to the proportion which the airport or airports of the public entity for which payment is required to be made pursuant to subdivisions (a) and (b) bear to the total number of airports for which payment is required to be made pursuant to subdivisions (a) and (b).

The department shall determine whether or not general or commercial aviation activities are restricted.

(f) No payment shall be made under this section to any public entity or the University of California for any year in which the department allocates twenty-five thousand dollars ($25,000) or more to such entity or the university pursuant to Section 21683.

Notwithstanding the provisions of this subdivision inasmuch as they require matching funds, the department shall pay a sum of five thousand dollars ($5,000) annually to a county with a population of under 1,000, as determined by the last federal decennial census, for the purpose of constructing and maintaining an airport.

(b) No payment shall be made for any airport to the University of California pursuant to this article unless the university has established a special aviation fund in which all payments received by the university under this article shall be deposited for expenditure solely for airport and aviation purposes. No payment shall be made for any airport to the University of California pursuant to Section 21682 or 21683 unless the university deposits in its special aviation fund each year, for expenditure solely for airport and aviation purposes, a sum from nonstate or nonfederal funds at least equal to the amount to be paid by the board or the department pursuant to these sections, or unless a city located within 10 miles of the airport or the county within which the airport is located pays to the university a sum at least equal to the amount to be paid by the board or the department pursuant to these sections; provided, however, that any such sums deposited by the university or paid by such city or county may be considered jointly as meeting the requirements of this section. The payments received from a city or county pursuant to these sections are to be expended solely for the airport and for aviation purposes related to such airport. All payments received by the university shall be deposited in its special aviation fund.

(c) Payments made by the department pursuant to Section 21682 and funds provided by public entities to match these payments may be accrued for a period of not more than three years. Extension of time for accrual of these funds for major projects must be obtained from the department.

SEC. 4. Section 21684.5 is added to the Public Utilities Code, to read:

21684.5. Notwithstanding the provisions of this article inasmuch as they require matching funds the department may allocate funds to public agencies for the construction of airports.

SEC. 5. Section 21685 of the Public Utilities Code is amended to read:

21685. Any public entity may pay any part of the money in its special aviation fund to a state college or branch of the University of California located within its boundaries to be expended for the same purposes as the public entity may expend such money. Any money paid to a state college or branch of the University of California shall be expended within the public entity paying the money.

SEC. 6. Section 21688 of the Public Utilities Code is amended to read:

21688. (a) Effective July 1, 1967, no payments shall be made from the Airport Assistance Revolving Fund for expenditure on any airport or for the acquisition or development of any airport if the department determines that the height restrictions around the airport are inadequate to provide reasonable assurance that the landing and taking off of

aircraft at the airport will be conducted without obstruction or will be otherwise free from hazards.

Height restrictions shall be considered adequate if as a minimum they meet the obstruction standards of subchapter C of Part 77 of the Federal Aviation Regulations of the Federal Aviation Administration, Department of Transportation as these standards apply to civil airport imaginary surfaces related to runways.

The airport-owning entity must have sufficient control over obstructions in the airspace in the vicinity of the airport to assure that height restrictions can be maintained. This control may be in the form of ownership of any land from which obstructions may rise, air navigation easements to guarantee maintenance of restrictions, or height limitation or land use zoning which will prohibit obstructions which would violate the obstruction standards.

(b) This section shall not prevent or prohibit the department from assisting any public agency or public entity in planning airport development or in planning the zoning needs around an airport.

SEC. 6.5. Section 21688 of the Public Utilities Code is amended to read:

21688. (a) Effective July 1, 1967, no payments shall be made from the Aeronautics Fund for expenditure on any airport or for the acquisition or development of any airport if the department determines that the height restrictions around the airport are inadequate to provide reasonable assurance that the landing and taking off of aircraft at the airport will be conducted without obstruction or will be otherwise free from hazards.

Height restrictions shall be considered adequate if as a minimum they meet the obstruction standards of subchapter C of Part 77 of the Federal Air Regulations of the Federal Aviation Administration, Department of Transportation as these standards apply to civil airport imaginary surfaces related to runways.

The airport-owning entity must have sufficient control over obstructions in the airspace in the vicinity of the airport to assure that height restrictions can be maintained. This control may be in the form of ownership of any land from which obstructions may rise, air navigation easements to guarantee maintenance of restrictions, or height limitation or land use zoning which will prohibit obstructions which would violate the obstruction standards.

(b) This section shall not prevent or prohibit the department from assisting any public agency or public entity in planning airport development or in planning the zoning needs around an airport.

SEC. 7. It is the intent of the Legislature, if amendments to Section 21681 of the Public Utilities Code proposed by both this bill and Senate Bill No. 1089 are enacted, that both amendments be given effect and incorporated in Section 21681

in the form set forth in Section 1.5 of this act. Therefore, in the event Senate Bill No. 1089 is enacted and amends Section 21681, Section 1.5 of this act shall become operative at the same time that Section 21681 as amended by Senate Bill No. 1089 becomes operative, and at that time, Section 21681 of Public Utilities Code as amended by Section 1 of this act is repealed.

SEC. 8. It is the intent of the Legislature, if amendments to Section 21688 of the Public Utilities Code proposed by both this bill and Senate Bill No. 1089 are enacted, that both amendments be given effect and incorporated in Section 21688 in the form set forth in Section 6.5 of this act. Therefore, in the event Senate Bill No. 1089 is enacted and amends Section 21688, Section 6.5 of this act shall become operative at the same time that Section 21688 as amended by Senate Bill No. 1089 becomes operative, and at that time, Section 21688 of the Public Utilities Code as amended by Section 6 of this act is repealed.

The people of the State of California do enact as follows:

SECTION 1. Section 12509 of the Vehicle Code is amended to read:

The restriction as to the age of the person accompanying the applicant shall not apply when he is an instructor licensed under Chapter 1 (commencing with Section 11000) of Division 5 of this code or a qualified instructor as defined in Section 18252.2 of the Education Code. The department may extend the period of the permit for an additional period not to exceed six months upon receipt of a written request from the applicant prior to the expiration of the original six-months period. The department may further restrict the permits as it may determine to be appropriate to assure the safe operation of a motor vehicle by the permittee.

(b) The department may also issue an instruction permit to any physically and mentally qualified person age 15 years and 6 months or over who has successfully completed an approved course in automobile driver education and is taking driver training as provided in Section 12507. No student shall take driver training instruction unless he is at the same time taking driver education instruction or has successfully completed driver education. The instruction permit shall be restricted to the operation of a motor vehicle other than a motorcycle either when taking the driver training instruction of a kind referred to in Section 12507, or when practicing such instruction and accompanied by a licensed driver as provided in subdivision (a).

(c) The department may also issue an instruction permit to a person who has been issued a valid driver's license to authorize the person to obtain driver training instruction and to practice such instruction in order to obtain an additional class driver's license or an endorsement.

SEC. 3. It is the intent of the Legislature, if amendments to Section 12509 of the Vehicle Code proposed by both this bill and Assembly Bill No. 1339 are enacted, that both amend-

ments be given effect and incorporated in Section 12509 in the form set forth in Section 2 of this act. Therefore, in the event Assembly Bill No. 1339 is enacted and amends Section 12509, Section 2 of this act shall become operative at the same time that Section 12509 as amended by Assembly Bill No. 1339 becomes operative, and at that time, Section 12509 of the Vehicle Code as amended by Section 1 of this act is repealed.

[Approved by Governor September 20, 1970 Filed with Secretary of State September 20, 1970]

The people of the State of California do enact as follows:

SECTION 1. Section 29001 of the Education Code is amended to read:

29001. As used in this article "degree" means any "academic degree" or "honorary degree" or title of any designation, mark, appellation, series of letters or words such as, but not limited to, associate, bachelor, master, doctor or fellow which signifies, purports or is generally taken to signify satisfactory completion of the requirements of an academic, educational, technological, or professional program of study beyond the secondary school level or is a recognized honorary title conferred for some meritorious recognition.

As used in this article "diploma" means any "diploma," "certificate," "transcript," "document," or other writing in any language other than a degree representing that any person has completed any course of study beyond high school.

Any person, firm, association, partnership, or corporation qualifying under this division to issue "degrees" or "diplomas" is considered as being authorized to issue appropriate related documents, setting forth the training and attendance completed by students enrolled in the course of study.

Graduation from high school or its equivalent need not be nor purport to be a prerequisite for undertaking or completing such course of study.

SEC. 2. Section 29003 of the Education Code is amended to read:

29003. A corporation may be formed pursuant to this article for the purpose of establishing, conducting, and maintaining an educational institution offering courses of instruction beyond high school, and issuing or conferring a diploma or degree. Such institutions shall include, but not be limited to, seminaries of learning, specialized educational institutions, jun-

ior colleges, colleges, and universities, offering courses beyond high school.

SEC. 3. Section 29004 of the Education Code is amended to read:

29004. A corporation formed pursuant to this article shall comply with Chapter 1 (commencing with Section 300) of Part 2, Division 1, Title 1 of the Corporations Code, except that in lieu of the requirements of Sections 301 to 305, inclusive, the articles of incorporation shall state:

(a) The name of the corporation.

(b) The purpose for which it is organized.

(c) The county in this state where the principal office for the transaction of the business of the corporation is to be located.

(d) The names, residence address and number of its directors at the time of its incorporation. Provision may be made that the number of directors may be established by the bylaws; provided, that the number of directors may not be less than five.

SEC. 4. Section 29005 of the Education Code is amended to read:

29005. (a) If a corporation formed pursuant to this article is to be authorized to issue shares of stock, the articles of incorporation shall state the total number of shares which the corporation shall have authority to issue and (1) the aggregate par value, if any, of all shares, and the par value of each of the shares, or (2) a statement that all the shares are to be without par value and except as herein provided shall be treated for all purposes as being incorporated pursuant to Division 1 (commencing with Section 300) of Title 1 of the Corporations Code.

(b) If a corporation formed pursuant to this article is to be authorized as a nonprofit corporation without authority to issue shares of stock, the articles of incorporation shall so state and except as herein provided, such corporation shall be treated for all purposes as being incorporated pursuant to Part 1 (embracing Sections 9000 to 9802, inclusive) of Division 2 of Title 1 of the Corporations Code and shall have the general powers granted by Section 10206 of the Corporations Code.

SEC. 5. Section 29006 of the Education Code is amended to read:

29006. No person, firm, association, partnership or corporation may issue or confer any honorary degree, diploma or certificate whatsoever unless such degree, diploma or certificate clearly and plainly states on its face that it is honorary.

No person shall use, in connection with any business or profession, any title or designation signifying that he has been awarded any degree, diploma, or certificate which clearly and plainly states on its face that it is honorary. Nothing in this section, however, prohibits the use of an honorary degree when such use does not imply that the user possesses an economically valuable professional or technical skill.

SEC. 6. Section 29007 of the Education Code is amended to read:

29007. Except as otherwise provided by law, no person, firm, association, partnership or corporation may issue, confer or award an academic or honorary "degree" or "title" (meaning any designation, mark, appellation, series of letters or words such as, but not limited to, associate, bachelor, master, doctor or fellow) which signifies, purports or is generally taken to signify satisfactory completion of the requirements of an academic, technological, or professional program of study beyond the secondary school level unless such person, firm, association, partnership or corporation meets the requirements of any one of the three subdivisions of subdivision (a) of this section.

No person, firm, association, partnership or corporation may issue, confer, or award any "diploma" bearing the words diploma, certificate, transcript, document or other writing, other than the awarding of a "degree" title, representing that any person has completed any course of study beyond high school unless such person, firm, association, partnership or corporation meets the requirements of one of the subdivisions (b), (c), or (d) of this section or Section 29007.5.

(a) (1) A person, firm, association, partnership or corporation which at the time of the issuance of a "degree" has accreditation of the institution, program, or specific course upon which the "degree" is based by a national or applicable regional accrediting agency recognized by the United States Department of Health, Education, and Welfare, Office of Education, and provided further that the educational institution has filed with the Superintendent of Public Instruction an affidavit by the administrative head of the institution stating that the institution is so accredited.

(2) A person, firm, association, partnership or corporation approved by the Superintendent of Public Instruction to award or issue specified degrees. Such permission shall be granted by the Superintendent of Public Instruction for one year upon the initial approval and shall be granted periods of three years upon each subsequent renewal. Application for such authorization shall be on forms furnished by the State Department of Education. The Superintendent of Public Instruction shall not approve an institution to issue degrees until it is determined, based on information submitted to him, that the course of instruction has the facilities and the faculty to afford students and require of students the completion of a program of education which will prepare them for the attainment of a recognized professional, vocational, or educational objective; and the curriculum is consistent in content and quality with curricula offered by established institutions that issue the appropriate degree upon the satisfactory completion thereof. For the purpose of this subdivision the Superintendent of Public Instruction may compare with the requirements and standards of an accrediting agency generally

accepted by the class of institution concerned. This shall include the determination that the course for which the degree is granted achieves its professed or claimed objective for higher education. The provisions of Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code shall be applicable to any determination of the Superintendent of Public Instruction made pursuant to this subdivision.

(3) A corporation which has filed with the Superintendent of Public Instruction an affidavit by the president or other head of the corporation, stating that the corporation owns an interest in real or personal property or both real and personal property used exclusively for the purpose of education, of a fair market value of not less than fifty thousand dollars ($50,000). Such affidavit shall be accompanied by an appraisal by a state inheritance tax appraiser appointed for the county in which the institution is located, describing the real or personal property or both, and showing the value of the interest of the corporation therein to be at least fifty thousand dollars ($50,000). The value of the interest of the property required to be owned by the corporation for the purposes of this section shall be deemed to be the appraised value of the interest owned by the corporation less the unpaid balance on any note secured by a mortgage or deed of trust thereon or the unpaid balance on a contract of sale thereof. Such a corporation shall file a statement of "full disclosure" by recording with the county recorder, in the county in which the school operates, an affidavit describing the institutional objectives and proposed methods of achieving them, the curriculum, instruction, faculty (with qualifications), physical facilities, administrative personnel, educational records, tuition and fee schedule, scholastic regulations, diplomas and degrees to be conferred, graduation requirements and financial stability. Certified copies of all statements and affidavits required to be filed by this section shall be forwarded by United States mail to the Department of Education within 48 hours after the filings are made with the county recorder. Filing pursuant to this section shall not be interpreted to mean, and it shall be unlawful for any corporation to expressly or impliedly represent by any means whatsoever, that the State of California, the Superintendent of Public Instruction, the State Board of Education, the California State Department of Education, or any division or bureau thereof, has made any evaluation, recognition, accreditation, approval, or endorsement of the course of study.

(b) A hospital licensed under the provisions of Division 2, Chapter 2 (commencing with Section 1400) of the Health and Safety Code, which issues diplomas in connection with the operation of a hospital.

(c) A person, firm, association, partnership or corporation which is accredited, approved, or licensed by a state board or agency as a school and which issues or confers diplomas in the profession, vocation or occupation controlled by the board

or agency accrediting, approving, or licensing it; provided, that this subdivision shall not be construed as authorizing the issuing of a diploma which is not customarily granted for the training given and which is limited to the profession, vocation or occupation controlled by the accrediting, approving, or licensing board.

(d) A person, firm, association, partnership, or corporation which at the time of the issuance of a "diploma," as "diploma" is defined in Section 29001, has accreditation of the institution, program or specific course of study upon which the "diploma" is based by a national or applicable regional accrediting agency recognized by the United States Department of Health, Education, and Welfare, Office of Education; provided, that the educational institution has filed with the Superintendent of Public Instruction an affidavit by the administrative head of the institution stating that the course of study is so accredited.

SEC. 7. Section 29007.2 of the Education Code is repealed.

SEC. 8. Section 29007.3 of the Education Code is amended to read:

29007.3. No person, either on his own behalf or as the representative of any privately conducted correspondence school or of any private person, firm, association, partnership, or corporation whatever, shall, by personal contact, in California, solicit the sale of or solicit and sell any correspondence course of study beyond high school, of high school level, or below high school level, for a remuneration or other consideration to be provided for such course, unless he holds a valid permit to engage in such activity issued by the State Board of Education. The State Board of Education may delegate its authority to issue this permit to the State Superintendent of Public Instruction.

The State Board of Education, or the State Superintendent of Public Instruction, if such authority has been delegated by the State Board of Education, shall promptly cause to be prepared, and shall, pursuant to this section, issue appropriate permits authorizing the holder to engage in the solicitation of sales and the selling of such courses of study.

No person shall be issued a permit except upon the submission of satisfactory evidence of good moral character.

A permit shall be valid for the calendar year in which it is issued unless sooner revoked or suspended by the State Board of Education for fraud or misrepresentation in connection with the solicitation for the sale or the sale of any course of study, or for the existence of any condition in respect to the permittee or the school he represents which, if in existence at the time the permit was issued would have been ground for denial of the permit.

The application for a permit shall be made by the person who proposes to engage in the activities of soliciting or selling in those cases where such activities are to be conducted in the person's own behalf. Where the person for whom the issuance

of a permit is sought is to engage in the activities as a representative, the application shall be made by the correspondence school or other person, firm, association, partnership, or corporation for and on behalf of the person to serve as its representative. Applications shall be submitted on forms to be furnished by the Department of Education. The original application shall be accompanied by an application fee of fifteen dollars ($15), renewal applications when renewed on a continuous basis and applications for additional sales permits shall be accompanied by an application fee of ten dollars ($10). Fees required by this section are hereby appropriated in augmentation of the appropriation for support of the Department of Education current at the date of issuance of the State Controller's receipt thereof as may be designated by the Department of Education prior to their deposit in the State Treasury and shall be nonrefundable irrespective of whether or not a permit is subsequently issued.

The application shall be accompanied by a bond executed by good and sufficient sureties making provision for full indemnification of any person for any material loss suffered as a result of any fraud or misrepresentation used in connection with the solicitation for the sale or the sale of any course of study. The term of the bond shall extend over the period of the permit. The bond may be supplied by the correspondence school or other person, firm, association, partnership, or corporation, or by the person for whom issuance of the permit is sought, and may extend to cover either an individual such person or to provide blanket coverage for all persons to be engaged as representatives of a correspondence school or other person, firm, association, partnership or corporation in the solicitation for sale or the sale of correspondence courses of study in California. Any bond shall provide for liability in the penal sum of one thousand dollars ($1,000) for each representative to whom coverage is extended by its terms. Neither the principal nor surety on a bond may terminate the coverage of the bond except upon giving 30 days' prior written notice to the State Board of Education.

The permittee shall carry the permit with him for identification purposes when engaged in the solicitation of sales and the selling of correspondence courses of study.

Any contract for or in connection with a course of study with a correspondence school, or representative thereof, shall be voidable at the option of the purchaser if the representative of any person selling or administering such course of study, or the representative of such firm, association, partnership or corporation was not the holder of a permit as required by this section at the time that such representative negotiated the contract for or sold such course.

The judgment rendered in any action maintained for any material loss suffered as a result of any fraud or misrepresentation used in connection with the solicitation for the sale or the sale of any course of study shall, if the plaintiff is the

prevailing party, include court costs including a reasonable attorney's fee fixed by the court.

The provisions of Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code shall be applicable to any determination of the State Board of Education made pursuant to this section.

The issuance of a permit pursuant to this section shall not be interpreted as, and it shall be unlawful for any individual holding any such permit to expressly or impliedly represent by any means whatever that the Superintendent of Public Instruction, the State Board of Education, or the State Department of Education has made, any evaluation, recognition, accreditation or endorsement of any correspondence course of study being offered for sale by the individual.

It shall be unlawful for any individual holding a permit under this section to expressly or impliedly represent by any means whatever that the issuance of the permit constitutes an assurance by the Superintendent of Public Instruction, the State Board of Education, or the State Department of Education that any correspondence course of study being offered for sale by the individual will provide and require of the student a course of education or training necessary to reach a professional, educational, or vocational objective, or will result in employment or personal earnings for the student.

The issuance of a permit under this section, and the possession thereof, by an individual, shall be evidence only that the surety bond prescribed by this section has been issued with respect to the possessor and that he has submitted satisfactory evidence of good moral character.

SEC. 9. Section 29007.5 of the Education Code is amended to read:

29007.5. Except as otherwise provided for in this code, no course of education or training leading to an educational, technological, professional or vocational objective shall be offered, and no diploma or honorary degree shall be issued or conferred, by any person, firm, association, partnership, or corporation which has not been approved by the Superintendent of Public Instruction. Application for such approval shall be made in writing on application forms provided by the Department of Education. Pending final approval of new or added courses of instruction, the Superintendent of Public Instruction shall issue a temporary approval upon submission of the complete application. Courses offered for adults by any parochial or denominational school, or persons, firms, associations, partnerships, or corporations that have met the requirements of other sections of this division, or are offered solely for avocational or recreational purposes, will not be required to be approved under this section.

The Superintendent of Public Instruction may approve the application for recognition of such courses for a period of one year and shall grant subsequent approvals for periods of three

years when an institution is found by the Department of Education to meet the following criteria:

(1) The courses, curriculum, and instruction are consistent in quality, content, and length with similar courses in public schools or other private schools, or both, in the state, with recognized accepted standards; or that the course, curriculum, and instruction meet recognized accepted standards for reaching the professed or claimed objective for that particular course.

(2) There is in the institution adequate space, equipment, instructional material, and instructor personnel to provide training of the quality needed to attain the objective of that particular course.

(3) Educational and experience qualifications of directors, administrators, and instructors are adequate.

(4) The institution maintains written records of the student's previous education and training with recognition where applicable.

(5) A copy of the course outline, schedule of tuition, fees and other charges, regulations pertaining to tardiness, absence, grading policy and rules of operation and conduct is available to students upon enrollment.

(6) The institution maintains adequate records to show attendance, progress, and grades.

(7) The institution complies with all local city, county, municipal, state and federal regulations such as fire, building, and sanitation codes. The Department of Education may require evidence of compliance.

(8) The institution is financially capable of fulfilling its commitments for its approved courses.

(9) The institution does not utilize advertising of any type which is erroneous or misleading, either by actual statement, omission, or intimation. With respect to a school having courses approved by the Superintendent of Public Instruction, the school can advertise to the effect that the particular course has been approved by the Superintendent of Public Instruction.

(10) The institution does not exceed enrollment facilities and equipment.

(11) The institution's administrator, director, owner, and instructors are of good reputation and character.

(12) The institution has and maintains a policy in reference to refund of the unused portion of tuition fees and other charges in the event the student fails to enter the course, or withdraws therefrom at any time prior to completion of the course.

Upon completion of training, the institution may award an appropriate written document to the student indicating the training and attendance completed.

The provisions of Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code shall be applicable to any determination of the Superintendent of Public Instruction made pursuant to this section.

SEC. 10. Section 29007.6 of the Education Code is amended to read:

29007.6. An original application by a person, firm, association, partnership or corporation for approval to grant degrees under Section 29007(a)(2), or for approval of courses or for authorization to issue diplomas under the requirements of Section 29007.5, shall be accompanied by an application fee of one hundred dollars ($100). Applications for renewal for a period of three years shall be accompanied by a fee of one hundred fifty dollars ($150). Applications for approval of a change of ownership of a school shall be accompanied by a fee of one hundred dollars ($100). In the present period the need for educational services for the youth is so great that it cannot be met by tax-supported institutions alone. The contribution of privately supported educational institutions to the preservation of our liberties is essential. These objectives can best be achieved by protecting the integrity of degrees and diplomas issued by such institutions.

CHAPTER 1569

[Approved by Governor September 20, 1970. Filed with Secretary of State September 20, 1970.]

6902.06. Before any minor is admitted to a special education program for mentally retarded minors established pursuant to this chapter or Article 10 (commencing with Section 895) of Chapter 4 of Division 3, the minor shall be given verbal or nonverbal individual intelligence tests in the primary home language in which the minor is most fluent and has the best speaking ability and capacity to understand. Such tests shall be selected from a list approved by the State Board of Education.

SEC. 2. Section 6902.07 is added to the Education Code, to read:

6902.07. No minor shall be placed in a special education class for the mentally retarded if he scores higher than two standard deviations below the norm, considering the standard measurement of error, on an individual intelligence test selected from a list approved by the State Board of Education. No minor shall be placed in a special education program for the mentally retarded when he is being tested in a language other than English if he scores higher than two standard deviations below the norm, considering the standard measurement of error, on the nonverbal intelligence test or on the nonverbal portion of an individual intelligence test which includes both verbal and nonverbal portions.

A minor may be placed in a special education program for the mentally retarded if he scores two standard deviations, or more, below the norm on an individual intelligence test selected from a list approved by the State Board of Education, providing that a complete psychological examination by a credentialed school psychologist investigating such factors as developmental history, cultural background, and school achievement substantiates the retarded intellectual development indicated by the achieved test scores.

No minor shall be placed in a special education class for the mentally retarded without the written consent of the parent or guardian of the child after a complete explanation of the special education program.

SEC. 3. The Department of Education shall, following each school year during which this act was in effect, submit a report to the Legislature on the results of testing and placement of minors in special education programs for mentally retarded minors.

SEC. 4. Sections 6902.06 and 6902.07, as added to the Education Code by this act, shall be operative commencing on October 1, 1971, and shall remain operative only until September 30, 1973.

CHAPTER 1570

An act to add an article heading to Article 1 (commencing with Section 6750) of Chapter 7.1 of Division 6 of, and to add Article 2 (commencing with Section 6770) to Chapter 7.1 of Division 6 of, the Education Code, relating to educationally handicapped minors.

[Approved by Governor September 20, 1970 Filed with Secretary of State September 20, 1970]

The people of the State of California do enact as follows:

SECTION 1. An article heading is added to Article 1 (commencing with Section 6750) of Chapter 7.1 of Division 6 of the Education Code, to read:

Article 1. General Provisions

SEC. 2. Article 2 (commencing with Section 6770) is added to Chapter 7.1 of Division 6 of the Education Code, to read:

Article 2. Education of Certain Educationally Handicapped Minors

6770. With the approval of the Superintendent of Public Instruction, any school district having an educationally handicapped minor as defined by this chapter for whom, because of the severity of the handicap, special education facilities and

services are not available and cannot be reasonably provided under the provisions of this chapter, and for whom the State of California has no appropriate special education facilities and services, may, in lieu of establishing and maintaining the needed special education facilities and services at an unreasonable cost to the district, pay to the parent or guardian of such minor toward the tuition for such minor, enrolled in a public or private nonsectarian school within or outside of California offering the special education facilities and services made necessary by the minor's handicap, an amount not to exceed the sum per unit of average daily attendance of the regular state apportionment to the district for the fiscal year in question, the maximum amount allowable per unit of average daily attendance for excess current expenses under Sections 18060 and 18102, and the amount per unit of average daily attendance provided from revenue derived from district taxation for support of the schools of the district. As used in this article "tuition" includes the cost to the parent or guardian of transporting a minor enrolled in a public or private nonsectarian school under this section to and from school.

6771. A school district having an educationally handicapped minor receiving the benefits of special education facilities and services under the provisions of Section 6770 shall report the attendance of such minor and submit any claim the district may have for the regular and special purpose apportionment to be used in payment to the parent or guardian of such minor toward any tuition arising out of such attendance through the county superintendent of schools to the Superintendent of Public Instruction. The aforementioned report and claim shall be submitted at the time and in the manner prescribed by the Superintendent of Public Instruction. The county superintendent of schools shall verify the attendance reported and claim submitted in the manner prescribed by the Superintendent of Public Instruction.

6772. Upon verification of the attendance reported and the claim submitted, the Superintendent of Public Instruction shall apportion to the school district submitting the report and the claim of the parent or guardian of such minor for the tuition in question an amount sufficient to satisfy the claim but not in excess of the sum per unit of average daily attendance of the regular state apportionment to the district for the fiscal year in question and the maximum amount allowable per unit of average daily attendance for reimbursement of excess current expenses under Sections 18060 and 18102. The apportionments shall be made from the funds reserved under the provisions of subdivision (c) of Section 17303.5 for each fiscal year immediately following the fiscal year in which the attendance occurs and shall not be subject to the provisions of Section 18456.

CHAPTER 1571

An act to amend Section 8352 of the Revenue and Taxation Code, and to add Section 224 to the Agricultural Code, relating to gasoline tax money attributable to agriculture, and making an appropriation.

[Approved by Governor September 20, 1970. Filed with Secretary of State September 20, 1970.]

The people of the State of California do enact as follows:

SECTION 1. Section 224 is added to the Agricultural Code, to read:

224. Money transferred by the Controller to the Department of Agriculture Fund from the Motor Vehicle Fuel Fund pursuant to Section 8352 of the Revenue and Taxation Code shall be expended by the Director of Agriculture as follows:

(1) Five hundred thousand dollars ($500,000) of the amount transferred each fiscal year is hereby appropriated for reimbursement for charges for state administrative costs, and for departmental and divisional overhead expense apportioned to the Department of Agriculture Fund.

(2) One million dollars ($1,000,000) each fiscal year is hereby appropriated to be used only for emergency detection, eradication, or research of agricultural plant or animal pests or diseases, during such fiscal year. The Director of Agriculture may expend such funds with the approval of the Director of Finance. At the end of each fiscal year, any unencumbered balance of such funds shall be added to the amount available for payment to counties during the next fiscal year, as provided in subdivision (3).

(3) The total amount transferred during each fiscal year less the amounts provided in subdivisions (1) and (2) is hereby appropriated to be paid to the counties as partial reimbursement for county expenses for carrying out agricultural programs authorized by the Agricultural Code that are supervised by the Department of Agriculture. Such payment shall be apportioned to the counties by the Director of Agriculture in relation to each county's expenditures to the total amount expended by all counties for the preceding fiscal year for such agricultural programs, as determined by the Director of Agriculture. The amount to be transferred to any county for a fiscal year may be increased or decreased by the Director of Agriculture to provide that insofar as such transferred unclaimed refundable gas tax funds for apportionment to the counties are available, no county shall receive smaller combined apportionments of gas taxes and unclaimed refundable gas taxes than such county would have received had the gas taxes been apportioned without the transfer required by subdivision (h) of Section 8352, as determined by the Director of Agriculture, except that the amount of unclaimed refundable gas tax funds to be transferred to any county for a fiscal year may be

increased or decreased by the Director of Agriculture to compensate for incorrect previous transfers to that county.

(4) Such money transferred during the six-month period, July 1, 1970 to December 31, 1970, is hereby appropriated for the purpose provided by paragraph (1) of this section, and the remainder of the money so transferred is hereby appropriated to be paid to the counties for the purposes and as provided by paragraph (3) of this section. Such money transferred for the six-month period, January 1, 1971, to June 30, 1971 is hereby appropriated for the purpose provided by paragraph (2) of this section, and the remainder of the money so transferred is hereby appropriated to be paid to the counties for the purposes and as provided by paragraph (3) of this section.

SEC. 2. Section 8352 of the Revenue and Taxation Code is amended to read:

8352. The money in the Motor Vehicle Fuel Fund is hereby appropriated, subject to the provisions of any budget bill heretofore or hereafter enacted and Section 11006 of the Government Code, as follows:

(a) To pay the refunds authorized in this part, including refunds due on account of judgments for the return of license taxes illegally collected.

(b) To the Controller, to carry out any duties imposed upon him by this part.

(c) To the board, to carry out any duties imposed upon it by this part.

(d) To the Highway Users Tax Fund, as provided in this chapter.

(e) To pay the pro rata share of the overhead and general administrative expense of the Controller and the board attributable to duties imposed by this part. The pro rata share is payable upon presentation of a claim against any appropriation from the Motor Vehicle Fuel Fund for the support of the Controller or the board, as the case may be.

(f) For transfer to the Aeronautics Fund, which fund is hereby created, all moneys in the Motor Vehicle Fuel Fund attributable to the distribution of motor vehicle fuel for use or used in propelling an aircraft in the state, for allocation as follows:

(1) To pay the refunds authorized by Section 8101.5.

(2) To pay the pro rata cost of the Controller and board under subdivisions (b), (c) and (e).

(3) To pay for the support of the Department of Aeronautics.

(4) For transfer of the balance remaining to the Airport Assistance Revolving Fund.

No part of the moneys in the Motor Vehicle Fuel Fund attributable to the distribution of motor vehicle fuel for use or used for propelling an aircraft in the state shall be appropriated, subject to the provisions of any subdivision heretofore or hereafter enacted and Section 11006 of the Government

Code, or allocated, except in accordance with the provisions of this subdivision.

(g) To the Harbors and Watercraft Revolving Fund for expenditure in accordance with the provisions of Division 1 (commencing with Section 30) of the Harbors and Navigation Code, the sum of four million dollars ($4,000,000) per annum, commencing with the 1965–1966 fiscal year, this sum representing the amount of money in the Motor Vehicle Fuel Fund attributable to taxes imposed on distributions of motor vehicle fuel used or usable in propelling vessels. Payments pursuant to this subdivision shall be made prior to payments pursuant to subdivision (d). The Department of Public Works, after consultation with the Department of Harbors and Watercraft, shall prepare or cause to be prepared a report setting forth the current estimate of the amount of money in the Motor Vehicle Fuel Fund attributable to taxes imposed on distributions of motor vehicle fuel used or usable in propelling vessels; and the Department of Public Works shall submit such report to the Legislature on or before the fifth legislative day of the 1970 Regular Session and each four (4) years thereafter.

(h) For transfer to the Department of Agriculture Fund during the second quarter of the 1970–1971 fiscal year the sum of one million seven hundred fifty thousand dollars ($1,750,000). For transfer to the Department of Agriculture Fund during the fourth quarter of the 1970–1971 fiscal year the amount of the estimate contained in the report to be prepared pursuant to this subdivision, that is in excess of any amount previously transferred pursuant to this subdivision during the 1970–1971 fiscal year. For transfer to the Department of Agriculture Fund during the second quarter of the 1971–1972 fiscal year and the second quarter of each fiscal year thereafter an amount equal to the estimate contained in the most recent report prepared pursuant to this subdivision. Such amounts shall not be subject to the provisions of Section 6357 with respect to the collection of sales and use taxes thereon, and represent the portion of receipts in the Motor Vehicle Fuel Fund during a calendar year that were attributable to agricultural off-highway use of motor vehicle fuel which is subject to refund pursuant to Section 8101, less gross refunds allowed by the Controller during the fiscal year ending June 30th following such calendar year to persons entitled to such refunds for agricultural off-highway use pursuant to Section 8101. Payments pursuant to this subdivision shall be made prior to payments pursuant to subdivision (d).

On or before May 31, 1971, and on or before September 30, 1973, and every two years thereafter, the Secretary of the Business and Transportation Agency, and the Secretary of the Agriculture and Services Agency, shall jointly prepare or cause to be prepared a report setting forth the current estimate of the amount of money in the Motor Vehicle Fuel Fund attributable to agricultural off-highway use of motor vehicle fuel, which is

subject to refund pursuant to Section 8101 less gross refunds allowed by the Controller to persons entitled to such refunds for agricultural off-highway use pursuant to Section 8101; and they shall submit a copy of such report to the Legislature.

SEC. 3. In preparing the first report required pursuant to subdivision (h) of Section 8352 of the Revenue and Taxation Code, the assistance of public or private consultants may be obtained to aid in formulating a procedure for ascertaining the unclaimed refundable gasoline tax paid for agricultural off-highway use. Any consultant so selected must be acceptable to both the Departments of Agriculture and Public Works. The State Controller may also provide assistance in the formulation of such procedures. The Department of Public Works is requested to seek federal funds for use in financing such study and for employing such consultant, but failure to receive such funds shall not act to nullify the study.

SEC. 4. If the estimate contained in the report prepared on or before May 31, 1971, pursuant to subdivision (h) of Section 8352 of the Revenue and Taxation Code, is less than the amount transferred to the Department of Agriculture Fund during the second quarter of the 1970–1971 fiscal year, the amount transferred in excess of such estimate shall be retransferred from the Department of Agriculture Fund to the Motor Vehicle Fuel Fund.

26301. The guarantee shall be dated prior to the date of sale of the food, drug, device, or cosmetic and it shall be signed by the wholesaler, jobber, manufacturer, or other person located or residing in this state from whom the dealer received the food, drug, device, or cosmetic in good faith.

26306. It is unlawful for any person to give a guarantee or undertaking which is false.

26307. If the guarantee is to the effect that the food, drug, device, or cosmetic is not in violation within the meaning of the federal act, it shall be sufficient for all the purposes of this division, and shall have the same force and effect as though it referred to this division, unless, pursuant to this division, the standard for the food, drug, device, or cosmetic concerned is higher than the standard for a like food, drug, device, or cosmetic under the federal act. In that case, the provisions of this division shall prevail over the provisions of the federal act.

26406. It is unlawful for any person to sell, dispense, dispose of, hold, or conceal any food, drug, device, or cosmetic or its package, with knowledge that the trade name or other identifying marks, imprint, or likeness of the trade name or other identifying mark or imprint of another person has been placed on such food, drug, device, or cosmetic or its package in a manner prohibited by Section 26405.

26407. It is unlawful for any person to possess, make, sell, dispose of, cause to be made, or conceal any punch, die, plate, or other device which may be used to render a food, drug, device, or cosmetic or its package or labeling a counterfeit.

26408. It is unlawful for any person to do any act which causes any food, drug, device, or cosmetic to be a counterfeit,

or to sell, dispense, or hold for sale or dispensing, any such counterfeit food, drug, device, or cosmetic.

26409. The department may adopt regulations exempting from any labeling or packaging requirements of this division any food, drug, device, or cosmetic which is in accordance with the practice of the trade, to be processed, labeled, or repacked in substantial quantities at establishments other than those where originally processed and packed, on condition that such food, drug, device, or cosmetic is not adulterated or misbranded under the provisions of this division upon removal from such processing, labeling, or repacking establishment. Such food, drug, device, or cosmetic is subject to all other applicable provisions of this division.

All regulations relating to such exemptions which are in effect on the effective date of this division, or which are adopted on or after such date, pursuant to the federal act, are automatically effective in this state. The department may, however, adopt any additional regulations concerning exemptions.

26410. It is unlawful for any person to distribute in commerce any food, drug, device, or cosmetic if its package or labeling does not conform to the provisions of this division or to regulations adopted pursuant to this division. This section does not apply to persons engaged in business as wholesale or retail distributors of foods, drugs, devices, or cosmetics except to the extent that they are engaged in the packaging or labeling of such commodities or they prescribe or specify the manner in which such commodities are packaged or labeled. This section shall not be construed to repeal, invalidate, or supersede any other section of this division.

Article 2. Fair Packaging and Labeling

26430. All labels of foods, drugs, devices, or cosmetics shall conform with the requirements of the declaration of net quantity of contents of Section 4 of the Fair Packaging and Labeling Act (80 Stat. 1296; 15 U.S.C., Sec. 1451) and the regulations adopted pursuant thereto. Foods, drugs, devices, and cosmetics exempted from such requirements of Section 4 of the Fair Packaging and Labeling Act, however, are also exempt from this article.

26431. The label of any package of a food, drug, device, or cosmetic which bears a representation as to the number of servings of the commodity contained in the package shall bear a statement of the net quantity, in terms of weight, measure, or numerical count, of each such serving.

26432. It is unlawful for any person to distribute, or cause to be distributed, in commerce any packaged food, drug, device, or cosmetic if any qualifying words or phrases appear in conjunction with the separate statement of the net quantity of contents required by Section 26430.

This section, however, does not prohibit supplemental statements, at other places on the package, describing in nonde-

ceptive terms the net quantity of contents. Such supplemental statements of net quantity of contents shall not include any term qualifying a unit of weight, measure, or count that tends to exaggerate the amount of the commodity contained in the package.

26433. Whenever the department determines that regulations containing prohibitions or requirements, other than those prescribed by Section 26430, are necessary to prevent the deception of consumers or to facilitate value comparisons as to any food, drug, device, or cosmetic, the department shall adopt regulations with respect to that commodity.

26434. The department may establish and define standards for the characterization of the size of a package which encloses any food, drug, device, or cosmetic, which may be used to supplement the label statement of net quantity of contents of packages containing such commodity. This section, however, does not authorize any limitation on the size, shape, weight, dimension, or number of packages which may be used to enclose any food, drug, device, or cosmetic.

26435. The department may regulate the placement upon any package which contains any food, drug, device, or cosmetic or upon any label affixed to such article, of any printed matter stating or representing by implication that such article is offered for retail sale at a price lower than the ordinary and customary retail sale price or that a retail sale price advantage is accorded to any purchaser of such article by reason of the size of that package or the quantity of its contents.

26436. The department may require that the label on each package of a food, drug, device, or cosmetic bear the common or usual name of such article, if any, and in case such article consists of two or more ingredients, the common or usual name of each ingredient listed in order of decreasing predominance by weight. This section, however, does not require that any trade secret be divulged.

26437. The department may prohibit the nonfunctional slack fill of packages containing any food, drug, device, or cosmetic.

As used in this section, "nonfunctional slack-filled" means that a package is filled to substantially less than its capacity for any reason other than any of the following:

(a) Protection of the contents of such package.

(b) The requirements of machines used for enclosing the contents in such package.

26438. All regulations and their amendments pertaining to foods, drugs, devices, and cosmetics which are in effect on the effective date of this division, or which are adopted on or after that date, pursuant to the Fair Packaging and Labeling Act (80 Stat. 1296; 15 U.S.C., Sec. 1451 et seq.) shall be the regulations of this state. The department may, when necessary, prescribe any packaging and labeling regulation for foods, drugs, devices, and cosmetics whether or not such regulation is in accordance with regulations adopted under the

Fair Packaging and Labeling Act. No regulations shall be adopted which are contrary to the labeling requirements for the net quantity of contents required pursuant to Section 4 of the Federal Fair Packaging and Labeling Act and the regulations adopted pursuant to that section.

Article 3. Advertising

26460. It is unlawful for any person to disseminate any false advertisement of any food, drug, device, or cosmetic. An advertisement is false if it is false or misleading in any particular.

26461. It is unlawful for any person to manufacture, sell, deliver, hold, or offer for sale any food, drug, device, or cosmetic that is falsely advertised.

26462. It is unlawful for any person to receive in commerce any food, drug, device, or cosmetic that is falsely advertised or to deliver or proffer for delivery any such food, drug, device, or cosmetic.

(ah) Varicose ulcers.
(ai) Scarlet fever.
(aj) Typhoid fever.

26464. An advertisement which is not unlawful under Section 26460 is not unlawful under Section 26463 if it is disseminated only to members of the medical, dental, pharmaceutical, or veterinary professions, or appears only in the scientific periodicals of these professions, or is disseminated only for the purpose of public health education by persons not commercially interested, directly or indirectly, in the sale of such drugs or devices.

26465. Whenever the department determines that an advance in medical science has made any type of self-medication safe and effective as to any of the conditions, disorders, or diseases named in Section 26463, the department shall, by regulation, authorize the advertisement of any such drug or device as having a curative or therapeutic effect for such disease, subject to such conditions and restrictions as the department may consider necessary to the interests of public health.

26466. Section 26463 shall not be construed as indicating that self-medication for conditions, disorders, or diseases other than those named is safe or efficacious.

26467. No publisher, radio or television broadcast licensee, or agency or medium for the dissemination of an advertisement, except the manufacturer, packer, distributor, or seller of the food, drug, device, or cosmetic to which a false advertisement relates, shall be liable under this article for the dissemination of such false advertisement, unless he has refused to furnish the department with the name and address of the manufacturer, packer, distributor, seller, or advertising agency, residing in this state who caused him to disseminate such advertisement.

CHAPTER 5. FOOD

Article 1. Generally

26500. Beer, which is subject to the Alcoholic Beverage Control Act, Division 9 (commencing with Section 23000) of the Business and Professions Code, shall only be subject to the provisions of this chapter which relate to adulteration and misbranding.

26501. Whenever the department finds that a class of food distributed in this state may, by reason of contamination with micro-organisms during manufacture, packing, or storage, be injurious to the health of any man or other animal that consumes it and that the injurious nature cannot be adequately determined after this food has entered commerce, the department shall adopt regulations providing for the issuance of permits to manufacturers, processors, or packers of such class

of food. These permits shall establish conditions governing the manufacture, packing, or storage of such class of food for such period of time as may be necessary to protect the public health. The regulations shall prescribe a date after which no person shall introduce or deliver for introduction into commerce any food manufactured, packed, or stored by any manufacturer, processor, or packer, unless such person holds a permit issued by the department as provided by such regulations.

26502. The department may suspend immediately, upon written or oral notice, any permit issued pursuant to Section 26501 if it is found that any of the conditions of such permit have been violated. The holder of a permit so suspended may at any time apply for reinstatement of such permit. The department shall, after prompt hearing and inspection of the establishment, reinstate such permit immediately, if it is found that adequate measures have been taken to comply with and maintain the conditions of the permit.

26503. Any authorized agent of the department shall have access to any factory or establishment which operates under permit from the department for the purpose of ascertaining whether or not the conditions of the permit are being complied with. Denial of access for such inspection shall be grounds for suspension of the permit until such access is freely given by the holder of the permit or his agent.

26504. Any added poisonous or deleterious substance, or any food additive, pesticide chemical, preservative, or color additive, shall be considered unsafe for use with respect to any food unless there is in effect a regulation adopted pursuant to Section 26205, 26206, or 26207, which limits the quantity and the use, or intended use, of such substance to the terms prescribed by such regulation.

Article 2. Standard of Identity, Quantity, and Fill

26510. Definitions and standards of identity, quality, and fill of container, and any amendments to such definitions and standards, adopted pursuant to the federal act which are in effect on the effective date of this division, or which are adopted on or after that date, are the definitions and standards of identity, quality, and fill of container in this state. The department may, by regulation, establish definitions and standards of identity, quality, and fill of container for any food whether or not such definitions and standards are in accordance with the federal regulations, when in its judgment such action will promote honesty and fair dealing in the interest of consumers. The provisions of this section shall not apply to wine.

26512. In prescribing a definition and standard of identity for any food or class of food in which optional ingredients are permitted, the department shall designate the optional ingredients which shall be named on the label. The provision of this section shall not apply to wine.

26513. A temporary permit which is granted by the Food and Drug Administration of the Department of Health, Edu-

cation and Welfare of the United States for interstate shipment of experimental packs of food which vary from the requirements of federal definitions and standards of identity is automatically effective in this state under the provisions provided in the permit. The department shall issue such a permit when no federal permit exists and when the experimental packs are to be manufactured and tested only within this state. Such permit is subject to any term or condition which the department may prescribe.

26514. Definitions and standards of identity and quality for distilled spirits and their amendments adopted by the Internal Revenue Service of the Treasury Department of the United States which are in effect on the effective date of this division, or which are adopted on or after such date, are the definitions and standards of identity and quality for distilled spirits in this state. The department may, by regulation, establish definitions and standards of identity and quality for any distilled spirit whether or not such definitions and standards are in accordance with regulations adopted by the Internal Revenue Service of the Treasury Department of the United States, when in its judgment such action will promote honesty and fair dealing in the interest of the consumers.

26515. The department may, by regulation, establish definitions and standards of identity and quality for wine. Such definitions and standards may incorporate in whole or in part, the regulations adopted by the Internal Revenue Service of the Treasury Department of the United States, pertaining to the standards of identity and quality for wine. Standards of identity and quality for wine adopted pursuant to this section may differ from or be inconsistent with the standards promulgated by the Internal Revenue Service of the Treasury of the United States. No standard of size, type, or fill of container for any wine which is subject to the provisions of the Alcoholic Beverage Control Act, Division 9 (commencing with Section 23000) of the Business and Professions Code, shall be adopted.

Article 3. Adulterated Food

26520. Any food is adulterated if it bears or contains any poisonous or deleterious substance which may render it injurious to health of man or any other animal that may consume it. The food is not considered adulterated if the substance is a naturally occurring substance and if the quantity of such substance in the food does not render it injurious to health.

26521. Any food is adulterated if it bears or contains any added poisonous or deleterious substance which is unsafe within the meaning of Section 26504.

26522. Any food is adulterated if it is, bears, or contains any food additive which is unsafe within the meaning of Section 26504. If, however, a pesticide chemical has been used in or on a raw agricultural commodity in conformity with an

exemption granted or a tolerance prescribed under this division or the Agricultural Code and the raw agricultural commodity has been subject to processing, such as canning, cooking, freezing, dehydrating, or milling, the residue of such pesticide chemical remaining in or on such processed food shall not be deemed unsafe if the residue in or on the raw agricultural commodity has been removed to the extent possible in good manufacturing practice, and the concentration of the residue in the processed food when ready to eat is not greater than the tolerance prescribed for the raw agricultural commodity.

26523. Any food is adulterated if it consists in whole or in part of any diseased, contaminated, filthy, putrid, or decomposed substance, or if is otherwise unfit for food.

26524. Any food is adulterated if it has been produced, prepared, packed, or held under insanitary conditions whereby it may have become contaminated with filth, or whereby it may have been rendered unwholesome, diseased, or injurious to health.

26527. Any food is adulterated if it has been intentionally subjected to ionizing radiation unless the use of the radiation was in conformity with a regulation or exemption in effect pursuant to Section 26203.

26528. Any food is adulterated if any one of the following conditions exist:

(a) If any valuable constituent has been in whole or in part omitted or abstracted therefrom.

(b) If any substance has been substituted wholly or in part therefor.

(c) If damage or inferiority has been concealed in any manner.

(d) If any substance has been added thereto or mixed or packed therewith so as to increase its bulk or weight or reduce its quality or strength or make it appear better or of greater value than it is.

26529. Any food is adulterated if it is confectionery and any one of the following conditions exist:

(a) It has partially or completely embedded therein any nonnutritive object, provided that this subdivision shall not apply in the case of any nonnutritive object if, in the judgment of the department as provided by regulation, such object is of practical functional value to the confectionery product and would not render the product injurious or hazardous to health.

(b) It bears or contains any alcohol other than alcohol not in excess of ½ per centum by volume derived solely from the use of flavoring extracts.

(c) It bears or contains any nonnutritive substance, provided that this subdivision shall not apply to a safe nonnutritive substance which is in or on confectionery by reason of its use for some practical functional purpose in the manufacture, packaging, or storage of such confectionery if the use of the substance does not promote deception of the consumer or otherwise result in adulteration or misbranding in violation of any provision of this act; and provided further that the department may, for the purpose of avoiding or resolving uncertainty as to the application of this clause, issue regulations allowing or prohibiting the use of particular nonnutritive substances.

26530. Any food is adulterated if it bears or contains any color additive which is unsafe within the meaning of Section 26504.

26531. Any food is adulterated if it is fresh meat and it contains any preservative or other chemical substance which is not approved for use in fresh meat by the department, the United States Department of Agriculture, or the Department of Agriculture of this state.

26532. Any food is adulterated if it is chopped or ground beef or hamburger unless it is composed of voluntary striated muscle of fresh beef which does not contain any substance that is not approved by the department and unless it has a total fat content which is not in excess of 30 percent by weight.

26533. Any food is adulterated if it is pork sausage or breakfast sausage and it has a total fat content which is in excess of 50 percent by weight.

26533.5. The methods of analysis used in determining the fat content of products described in Sections 26532 and 26533 shall be those prescribed by the current issue of "Official and Tentative Methods of Analysis of the Association of Official Analytical Chemists," and the supplements thereto.

26534. It is unlawful for any person to manufacture, sell, deliver, hold, or offer for sale any food that is adulterated.

26535. It is unlawful for any person to adulterate any food.

26536. It is unlawful for any person to receive in commerce any food that is adulterated or to deliver or proffer for delivery any such food.

26537. While any regulation relating to a substance referred to in Section 26205, 26206, or 26207 is in effect, any food bearing or containing such substance in accordance with such regulation shall not be considered to be adulterated.

26540. This article does not prohibit the addition of fluorine or fluorine compounds to water intended for sale to the public as bottled water for domestic use in such manner and to such extent as may be approved by the department. The

label of such bottled water shall, however, satisfy all of the labeling requirements prescribed by this division.

26541. Any food intended for export shall not be deemed to be adulterated within the provisions of this division if it satisfies all of the following requirements:

(a) It accords to the specifications of the foreign purchaser.

(b) It is not in conflict with the laws of the importing country.

(c) It is labeled on the outside of the shipping package to show that it is intended for export.

If such article is sold or offered for sale in domestic commerce, this section shall not exempt it from any of the provisions of this division.

Article 4. Misbranded Food

26550. Any food is misbranded if its labeling is false or misleading in any particular.

26551. Any food is misbranded if its labeling or packaging does not conform to the requirements of Chapter 4 (commencing with Section 26400) of this division.

26552. Any food is misbranded if it is offered for sale under the name of another food, or if it is an imitation of another food for which a definition and standard of identity has been established by regulation and its label does not bear, in type of uniform size and prominence the word "imitation," and immediately following, the name of the food imitated.

26553. Any food is misbranded if its container is so made, formed, or filled as to be misleading.

26554. Any food is misbranded if it is a potentially hazardous processed food which is preserved by refrigeration at temperatures of 50 degrees Fahrenheit or lower and it is not conspicuously labeled "Perishable Keep Refrigerated."

26555. Any food is misbranded if any word, statement, or other information required pursuant to this division to appear on the label or labeling is not prominently placed upon the label or labeling with such conspicuousness, as compared with other words, statements, designs, or devices in the labeling and in such terms as to render it likely to be read and understood by the ordinary individual under customary conditions of purchase and use.

26556. Any food is misbranded if it purports to be, or is represented as, a food for which a definition and standard of identity has been established under Section 26510 and the label fails to bear the name of the food specified in the standard or otherwise fails to conform to such definition and standard.

26557. Any food is misbranded if it purports to be, or is represented as a food for which a standard of quality or fill has been prescribed by regulation under Section 26510 and its quality or fill is below such standard unless its label bears, in such manner and form as specified by regulation, a statement that it is below such standard.

26558. Any food for which no standard of identity exists is misbranded unless it bears a label clearly stating the common or usual name of the food.

26559. Any food for which no standard of identity exists is misbranded if it is fabricated from two or more ingredients, unless it bears a label clearly stating the common or usual name of each ingredient in descending order of predominance by weight. Any spice, flavoring, or coloring, except any spice, flavoring, or coloring sold as such, may be designated as spice, flavoring, or coloring without naming each.

Exemptions may be established by the department, when compliance with any requirement of this section is impractical or results in deception or unfair competition.

26560. The requirements of Sections 26558 and 26559 do not apply to any food which is packaged at the direction of retail purchasers at the time of sale if the ingredients are disclosed to the purchasers by other means in accordance with the regulations adopted by the department.

26561. Any food is misbranded if it purports to be, or is represented, for special dietary uses as prescribed by regulation under Section 26208 and its label does not bear information concerning any vitamin or mineral content, or other dietary property as the department prescribes, by regulation, as necessary to fully inform purchasers as to the food's value for such use.

(a) It accords to the specifications of the foreign purchaser.

(b) It is not in conflict with the laws of the importing country.

"Health officer," as used in this article, means the health officer appointed by a county board of supervisors pursuant to Section 451, by the governing body of a city pursuant to Section 502, by the governing body of a city and county, or by a local health district board pursuant to former Section 940, which is continued in effect as to any existing district by Section 3 of Chapter 380 of the Statutes of 1959.

26581. The department, upon the request of a health officer, may authorize the local health department of a city, county, city and county, or local health district to enforce this division, and the rules and regulations adopted pursuant to this division which pertain to retail food establishments, as defined by regulation, if the department determines that the local health department has sufficient personnel with adequate training to do so. The enforcement shall be limited to the area under the jurisdiction of the local health department.

26582. The department may revoke any authorization made pursuant to this article, if it determines, after a hearing conducted pursuant to Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code that the local health department authorized pursuant to this article is not enforcing this division or the rules and regulations adopted pursuant to this division, or no longer has an adequate staff qualified to do so.

26583. A local health department which is authorized by the department to enforce this division may make inspections, take samples, make laboratory examinations, impose and remove embargoes, hold informal hearings, certify facts to the district attorney, and institute proceedings for the forfeiture, condemnation, and destruction of food found to be adulterated or misbranded. Such action shall be instituted in the name of the city, county, city and county, or district of which such health department is a part, and shall conform to the requirements of this division and the rules and regulations adopted by the department pursuant to this division.

26584. For the purposes of this article, the health officer and his deputies shall have the same powers and authority as an inspector of the Bureau of Food and Drug of the department.

26585. When an examination or analysis made pursuant to this division shows that any provision of this chapter has been violated, written notice of that fact together with a copy of the findings shall be furnished to each party from whom the sample was obtained, or who issued the product guarantee.

26586. The health officer shall set a time for an informal hearing, at which the parties may be heard before him or his representatives. A notice in writing shall be served upon the interested parties at least 15 days prior to such hearing. The informal hearing shall be private and limited to questions of fact. Appearances may be made in person or by attorney. Testimony may be taken and evidence introduced as to the correctness of the findings made by the person making the examination or performing the analysis.

26587. If the examination or analysis is found to be correct, or if any party fails to appear after notice has been duly given, the health officer may certify the facts found to the district attorney of the county. No publication shall be made until after the hearing is concluded.

26588. The provisions of this article shall not be construed as repealing, either directly or by implication, any of the existing sections of this chapter, but shall be construed as constituting an alternative method of enforcing the provisions of this division.

26589. The provisions of this article shall not affect any previous authorization by the department to a local health department of a county, city, or city and county to enforce provisions of this division.

26590. The department may adopt such regulations relating to the operation of a local health department as it considers necessary to fully affect the provisions of this article, including but not limited to, requirements relating to reporting of activities and the numbers and qualification of personnel.

CHAPTER 6. DRUGS AND DEVICES

Article 1. Generally

(a) The name designated pursuant to Section 508 of the federal act (21 U.S.C., Sec. 358).

(b) If there is no such name and the drug or ingredient is an article recognized in an official compendium, then the official title in the compendium is the established name.

If neither subdivision (a) or (b) of this section applies, the common or usual name, if any, of such drug or of such ingredient is the established name. When an article is recognized in the United States Pharmacopoeia and in the Homeopathic Pharmacopoeia under different official titles, the official title used in the United States Pharmacopoeia shall apply unless it

is labeled and offered for sale as a homeopathic drug. If it is labeled and offered for sale as a homeopathic drug, the official title used in the Homeopathic Pharmacopoeia shall apply.

26601. Any drug represented in its labeling or advertisement as an antiseptic shall be considered to be represented as a germicide, except in the case of a drug which is purported to be or represented as, an antiseptic for inhibitory use as a wet dressing, ointment, dusting powder, or other use involving prolonged contact with the body.

26602. Whenever a drug is recognized in both the United States Pharmacopoeia and the Homeopathic Pharmacopoeia of the United States, it shall be subject to the requirements of the United States Pharmacopoeia unless it is labeled and offered for sale as a homeopathic drug. If it is labeled and offered for sale as a homeopathic drug, it shall be subject to the provisions of the Homeopathic Pharmacopoeia of the United States and not to those of the United States Pharmacopoeia.

26603. Any added poisonous or deleterious substance, or color additive, shall be considered unsafe for use with respect to any drug or device unless there is in effect a regulation adopted pursuant to Section 26207 which prescribes its use in or on drugs or devices.

26604. There is an advisory committee on drug manufacturing under the jurisdiction of the department. This committee shall consist of five members appointed for four-year terms. Three members shall be appointed by the Governor, one member shall be appointed by the Speaker of the Assembly, and one member shall be appointed by the Senate Committee on Rules. Each member shall be a representative from the drug manufacturing industry.

The committee shall advise the department on all matters concerning the drug manufacturing industry for the purpose of insuring the purity, safety, and efficacy of drugs.

Article 2. Adulterated Drugs or Devices

26610. Any drug or device is adulterated if it consists, in whole or in part, of any filthy, putrid, or decomposed substance.

26611. Any drug or device is adulterated if it has been produced, prepared, packed, or held under conditions whereby it may have been contaminated with filth, or whereby it may have been rendered injurious to health.

26612. Any drug or device is adulterated if the methods, facilities, or controls used for its manufacture, processing, packing, or holding do not conform to, or are not operated or administered in conformity with current good manufacturing practice to assure that the drug or device meets the requirements of this division as to safety and has the identity and strength, and meets the quality and purity characteristics which it purports or is represented to possess.

26613. Any drug or device is adulterated if it is packaged and its container is composed, in whole or in part, of any poisonous or deleterious substance which may render the contents injurious to health.

26614. Any drug or device is adulterated if it bears or contains for the purpose of coloring only a color additive which is unsafe within the meaning of Section 26603.

26615 Any drug or device is adulterated if it is a color additive, the intended use of which in or on drugs or devices is for the purpose of coloring only, and it is unsafe within the meaning of Section 26603.

26616. Any drug is adulterated if it purports to be, or is represented as, a drug which is recognized in an official compendium, and its strength differs from, or its quality or purity falls below, the standards set forth in such compendium. Such determination as to strength, quality, or purity shall be made in accordance with the tests or methods of assay set forth in such compendium, or in the absence of or inadequacy of such tests or methods of assay, those prescribed under authority of this division. No drug defined in an official compendium shall be deemed to be adulterated under this section because it differs from the standard of strength, quality, or purity set forth in such compendium, if its difference in strength, quality, or purity from such standard is plainly stated on the label.

26617. Any drug or device is adulterated if its strength differs from, or its purity or quality is below, that which it is represented to possess.

26618. Any drug or device is adulterated if any substance has been mixed or packed with it so as to reduce its quality or strength or if any substance has been substituted, wholly or in part, for the drug or device.

26619. It is unlawful for any person to manufacture, sell, deliver, hold, or offer for sale any drug or device that is adulterated.

26620. It is unlawful for any person to adulterate any drug or device.

26621. It is unlawful for any person to receive in commerce any drug or device that is adulterated or to deliver or proffer for delivery any such drug.

26622. While any regulation described in Section 26207 relating to any color additive is in effect, any drug or device which bears or contains such color additive in accordance with such regulation shall not be considered adulterated.

26623. Any drug or device intended for export shall not be deemed to be adulterated under this division if it satisfies all of the following requirements:

(a) It accords to the specifications of the foreign purchaser.

(b) It is not in conflict with the laws of the importing country.

(c) It is labeled on the outside of the shipping package to show that it is intended for export.

If such article is sold or offered for sale in domestic commerce, this section shall not exempt it from any of the provisions of this division.

Article 3. Misbranded Drugs or Devices

26630. Any drug or device is misbranded if its labeling is false or misleading in any particular.

26631. Any drug or device is misbranded if its labeling or packaging does not conform to the requirements of Chapter 4 (commencing with Section 26400) of this division.

26632. Any drug or device is misbranded unless it bears a label containing all of the following information:

(a) The name and place of business of the manufacturer, packer, or distributor.

(b) An accurate statement of the quantity of the contents in terms of weight, measure, or numerical count.

Reasonable variations from the requirements of subdivision (b) shall be permitted. Requirements for placement and prominence of such information and exemptions as to small packages shall be established in accordance with regulations adopted pursuant to Section 26438.

26633. Any drug or device is misbranded if any word, statement, or other information required by or under this division to appear on the label or labeling is not prominently placed on the label or labeling with such conspicuousness, as compared with other words, statements, designs, or devices in the labeling, and in such terms as to render it likely to be read and understood by the ordinary individual under customary conditions of purchase and use.

26634. Any drug is misbranded if it is for use by man and contains any quantity of the narcotic or hypnotic substances alpha-eucaine, barbituric acid, beta-eucaine, bromal, cannabis, carbromal, chloral, coca, cocaine, codeine, heroin, marijuana, morphine, opium, paraldehyde, peyote, or sulfonmethane; or any chemical derivative of such substances which derivative, after investigation, has been found to be and designated as habit forming, by regulations adopted by the department, unless its label bears the name and quantity or proportion of such substance or derivative and in juxtaposition therewith the statement, "Warning—may be habit forming."

Regulations designating habit-forming drugs issued pursuant to Section 502(d) of the federal act (21 U.S.C., Sec. 352(d)) are the regulations designating habit-forming drugs in this state. However, the department may, by regulation, designate habit-forming drugs whether or not such habit-forming drugs are in accordance with the regulations adopted under the federal act.

26635. (a) Any drug is misbranded unless its label bears, to the exclusion of any other nonproprietary name except the applicable, systematic chemical name or the chemical formula, all of the following information:

(1) The established name of the drug, if any.

(2) If it is fabricated from two or more ingredients, the established name and quantity of each active ingredient, including the kind and quantity or proportion of any alcohol, and also including, whether active or not, the established name and quantity or proportion of any bromides, ether, chloroform, acetanilid, acetphenetidin, antipyrine, atropine, hyoscine, hyoscyamine, codeine arsenic, digitalis, digitalis glycosides, mercury, ouabain, strophanthin, strychnine, barbituric acid, or any derivative or preparation of any such substances contained therein.

(b) The requirement for stating the quantity of the active ingredients of any drug, including the quantity of any bromides, ether, chloroform, acetanilid, acetphenetidin, antipyrine, atropine, hyoscine, hyoscyamine, codeine, arsenic, digitalis, digitalis glycosides, mercury, ouabain, strophanthin, strychnine, barbituric acid, or any derivative or preparation of any such substances contained therein, shall apply to all drugs, including prescription drugs and nonprescription drugs; provided that for nonprescription drugs, and except as to the quantity of the ingredients specifically named in this subdivision which are required to be stated on the label, this requirement shall be satisfied by either stating such quantities on the label of the drug or by filing a statement of such quantities with the department. When such a statement is filed with the department, it shall make the information provided therein available to local public and private health agencies, poison control centers, licentiates of the healing arts, the California State Board of Pharmacy, and others, to promote the purposes of this requirement. The department may exempt any nonprescription drug from the requirement of stating the quantity of the active ingredients, other than those specifically named in this subdivision, upon a showing by the applicant through evidence satisfactory to the department that the granting of the exemption will not endanger the public health. For any prescription drug the established name of such drug or ingredient, as the case may be, on such label and on any labeling on which a name for such drug or ingredient is used shall be printed prominently and in type at least half as large as that used thereon for any proprietary name or designation for such drug or ingredient.

This section shall not apply to any drug shipped by a manufacturer or packer to a retailer or wholesaler before the operative date of this section. Any such drugs so shipped shall comply with the provisions of this section on and after July 1, 1973.

(c) The department may establish regulations requiring an applicant for an exemption pursuant to subdivision (b) of this section to pay a reasonable fee not to exceed one hundred dollars ($100).

26636. Any drug subject to Section 26660 is misbranded unless the manufacturer, packer, or distributor of the drug includes, in all advertisements and other descriptive matter

issued or caused to be issued by the manufacturer, packer, or distributor with respect to that drug, a true statement of all of the following:

(a) The established name, printed prominently and in a type at least half as large as that used for any proprietary name of the drug

(b) The formula showing quantitatively each ingredient of the drug to the extent required for labels under Section 26635.

(c) Such other information, in brief summary relating to side effects, contraindications, and effectiveness as shall be required by regulations promulgated by the department.

Regulations relating to side effects, contraindications, and effectiveness issued pursuant to Section 502(n) of the federal act (21 U.S.C. Sec. 352(n)) are the regulations establishing information requirements relating to side effects, contraindications and effectiveness in this state. The department may, by regulation, make other requirements relating to side effects, contraindications, and effectiveness whether or not in accordance with the regulations adopted under the federal act.

26637. Any drug subject to Section 26660 is misbranded unless the established name of the prescription drug or prescription drug ingredient is printed on the label prominently and in type at least half as large as that used for the proprietary name or designation on the label, labeling, or advertising.

The department may, by regulation, establish exemptions from the requirements of this section when compliance with this section is not considered necessary for the protection of health and safety

26638. Any drug or device is misbranded unless its labeling bears all of the following information:

(a) Adequate directions for use.

(b) Such adequate warnings against use in pathological conditions or by children where its use may be dangerous to health.

(c) Adequate warning against unsafe dosage or methods or duration of administration or application.

Warnings shall be in such manner and form as are necessary for the protection of users.

If the department determines that any requirement of subdivision (a), as applied to any drug or device, is not necessary for the protection of the public health, the department may adopt regulations exempting such drug or device from these requirements.

Any drug or device exempted under Section 502(f) of the federal act (21 U.S.C., Sec. 352(f)) is exempt from the requirement of this section. The department, however, may adopt any regulation including a drug or device within, or excluding a drug or device from the requirements of this section, whether or not the inclusion or exclusion of such drug or device is in accord with the federal act.

26639. Any drug is misbranded if it purports to be a drug which is recognized in an official compendium and it is not packaged and labeled as prescribed in the official compendium. The method of packaging, however, may be modified with the consent of the department.

26640. Any drug or device is misbranded if the department determines that the drug or device is liable to deterioration, unless it is packaged in such form and manner and its label bears a statement of such precautions, as the department, by regulation, may require as necessary for the protection of public health. Such regulations shall not be established for any drug or device recognized in an official compendium, unless the department has informed the appropriate body, charged with the revision of the official compendium, of the need for such packaging or labeling requirements and such body has not prescribed such requirements in a reasonable length of time.

26641. Any drug or device is misbranded if its container is so made, formed, or filled as to be misleading.

26642. Any drug is misbranded in any of the following cases:

(a) It is an imitation of another drug.

(b) It is offered for sale under the name of another drug.

(c) The contents of the original package have been, wholly or partly, removed and replaced with other material in the package.

26643. Any drug or device is misbranded if it is dangerous to health when used in the dosage, or with the frequency or duration prescribed, recommended, or suggested in its labeling.

26644. Any drug is misbranded if it is, or purports to be, or is represented as, a drug composed wholly or partly of insulin, unless both of the following requirements are satisfied:

(a) It is from a batch to which a certificate or release has been issued pursuant to Section 506 (21 U.S.C., Sec. 356) of the federal act.

(b) Such certificate or release is in effect with respect to such drug.

26645. Any drug is misbranded if it is purports to be, or is represented as a drug composed, wholly or partly, of any antibiotic drug, or any derivative thereof, unless both of the following requirements are satisfied:

(a) It is from a batch to which a certificate or release has been issued pursuant to Section 507 of the federal act (21 U.S.C., Sec. 357).

(b) Such certificate or release is in effect with respect to that drug. This section shall not, however, apply to any drug or class of drugs exempted by regulations adopted pursuant to Section 507(c) or 507(d) of the federal act (21 U.S.C., Sec. 357(c) or 357(d)).

26646. Any drug is misbranded if it is a color additive, intended for use in or on drugs for the purpose of coloring only and its packaging and labeling fail to conform to the

packaging and labeling requirements adopted pursuant to Section 26207.

26647. A drug or device is misbranded if a trademark, trade name, or other identifying mark, imprint, or device of another person, or any likeness of the trademark, trade name, or other identifying mark, imprint, or device of another person, has been placed on the drug or device, or upon its container.

26648. A drug or device is misbranded if it was manufactured in this state in an establishment not duly licensed as provided in this division.

26649. A drug or device is misbranded if it was manufactured in an establishment not duly registered with the Secretary of Health, Education, and Welfare of the United States.

26650. It is unlawful for any person to manufacture, sell, deliver, hold, or offer for sale any drug or device that is misbranded.

26651. It is unlawful for any person to misbrand any drug or device.

26652. It is unlawful for any person to receive in commerce any drug or device that is misbranded or to deliver or proffer for delivery any such drug or device.

26653. It is unlawful for any person to alter, mutilate, destroy, obliterate, or remove the label or any part of the labeling of any drug or device if such act results in the drug or device being misbranded.

26654. Any drug or device intended for export shall not be deemed to be adulterated under this division if it satisfies all of the following requirements:

(a) It accords to the specifications of the foreign purchaser.

(b) It is not in conflict with the laws of the importing country.

(c) It is labeled on the outside of the shipping package to show that it is intended for export.

If such article is sold or offered for sale in domestic commerce, this section shall not exempt it from any of the provisions of this division.

Article 4. Prescription Drugs or Devices

26660. The following drugs or devices, which are intended for use by man, shall be sold only upon a written prescription of a practitioner licensed by law to prescribe such a drug or device, or upon an oral prescription of such licensee which is reduced promptly to writing and filed by the pharmacist, or by refilling any such written or oral prescription if such refilling is authorized by the prescriber either in the original prescription or by oral order which is reduced promptly to writing and filed by the pharmacist:

(a) A habit forming drug to which Section 26634 applies.

(b) A drug or device which, because of its toxicity or other potentiality for harmful effect, or the method of its use, or the collateral measures necessary to its use, is not safe for use

except under the supervision of a practitioner licensed by law to administer such drug or device.

(c) A drug or device which is limited by an effective application under Section 505 of the federal act (21 U.S.C., Sec. 355) or Section 26670 to use under the professional supervision of a practitioner licensed by law to administer such drug or device.

If any prescription for such drug does not indicate the number of times it may be refilled, if any, such prescription may not be refilled unless the pharmacist obtains a new order from the practitioner.

26661. The act of selling a drug or device contrary to the provisions of Section 26660 shall be deemed to be an act which results in the drug or device being misbranded while held for sale.

26662. Any drug or device sold by filling or refilling a written or oral prescription of a practitioner licensed to prescribe such drug or device shall be exempt from the labeling requirements of Sections 26631, 26632, 26634, 26635, 26636, 26637, 26638, 26639, 26640, 26642, 26646, and 26647, if the drug or device bears a label displaying all the following:

(a) Except where the prescriber orders otherwise, the trade name of the drug, or if there is no trade name, the generic name and the name of the manufacturer. Commonly used abbreviations may be used. Preparations containing two or more active ingredients may be identified by a brand or commonly used name or the principal active ingredients.

(b) The directions for the use of the drug.

(c) The name of the patient.

(d) The name of the prescriber.

(e) The date of issue.

(f) The name, address and prescription number of the furnisher.

(g) The strength of the drug or drugs prescribed.

The exemption shall not apply to any drug or device dispensed in the course of the conduct of a business of dispensing drugs or devices pursuant to diagnosis by mail, or to a drug or device dispensed in violation of Section 26660.

26663. The department may, by regulation, remove any drug or device subject to Sections 26634 and 26670 from the requirements of Section 26660, when such requirements are not necessary for the protection of the public health. Any drug removed from the prescription requirements of the federal act by regulations adopted pursuant to the federal act is removed from the requirements of Section 26660. The department may, however, by regulation, continue the applicability of Section 26660 for any drug or device, or make such sections inapplicable to any drug or device, whether or not such inclusion or exclusion of the drug or device is in accordance with the regulations adopted pursuant to the federal act.

26664. A drug or device which is subject to Section 26660 is misbranded if at any time prior to dispensing, its label fails

to bear the statement "Caution: Federal Law prohibits dispensing without prescription," or "Caution: State Law prohibits dispensing without prescription." A drug or device to which Section 26660 does not apply is misbranded if at any time prior to dispensing its label bears the caution statement quoted in the preceding sentence.

26665. Nothing in this article shall be construed to relieve any person from any requirement prescribed by or under authority of law with respect to drugs now included or which may hereafter be included within the classification stated in Division 10 (commencing with Section 11000) of this code or in the applicable federal law relating to narcotic drugs and marijuana.

Article 5. New Drugs or Devices

26670. No person shall sell, deliver, or give away any new drug or new device unless it satisfies either of the following:

(a) It is a new drug, and a new drug application has been approved for it and such approval has not been withdrawn, terminated, or suspended under Section 505 of the federal act (21 U.S.C., Sec. 355).

(b) The department has approved a new drug or device application setting forth all of the following information:

(1) Full reports of investigations which have been made to show whether or not such new drug or device is safe for use or whether such new drug or device is effective in use under the conditions prescribed recommended, or suggested in the labeling or advertising of the new drug or device.

(2) A full list of the articles used as components of such new drug or device.

(3) A full statement of the composition of such new drug or device.

(4) A full description of the methods used in, and the facilities and controls used for, the manufacture, processing, and packing of such new drug or in the case of a new device, a full statement of its composition, properties, and construction and the principles of its operation.

(5) Such samples of such new drug or device and of the articles used as components of the drug or device as the department may require.

(6) Specimens of the labeling and advertisements proposed to be used for such new drug or device.

26671. Within 180 days after the filing of an application provided for in Section 26670, or such additional period as shall be agreed upon by the department and the applicant, the department shall do either of the following:

(a) Approve the application, if it finds that none of the grounds for denying approval specified in Section 26670 apply.

(b) Give the applicant written notice for an opportunity for a hearing before the department on the question of whether such application is approvable. If the applicant elects to accept the opportunity for hearing by written request within 30

days after such notice, such hearing shall commence not more than 90 days after the expiration of such 30 days unless the department and the applicant otherwise agree. Any such hearing shall thereafter be conducted on an expedited basis and the department's order thereon shall be issued within 90 days after the date fixed by the department for filing final briefs.

26672. The department shall issue an order refusing to approve an application if, after written notice to the applicant and after giving him an opportunity for a hearing, the department makes any of the following findings:

(a) That the reports of investigation, which are required to be submitted to the department pursuant to Section 26670, do not include adequate tests by all methods reasonably applicable to show whether or not such new drug or device is safe for use under the conditions prescribed, recommended, or suggested in the proposed labeling and advertisement of the new drug or device.

(b) That the results of the tests submitted pursuant to Section 26670 to show whether or not such new drug or device is safe for use under the conditions prescribed, recommended, or suggested in the proposed labeling and advertisement of the new drug or device show that the drug or device is unsafe for use under such conditions or do not show that such new drug or device is safe for use under the conditions prescribed, recommended, or suggested in the proposed labeling and advertisement.

(c) That the methods, facilities, and controls used in the manufacture, processing, or packing of the new drug or device are inadequate to preserve its identity, strength, quality, purity, composition, or other characteristics.

(d) That upon the basis of information submitted as part of the application, or upon the basis of any other information before it with respect to such new drug or device, that the department has insufficient information to determine whether such drug or device is safe for use under the conditions prescribed, recommended, or suggested in the proposed labeling and advertisement.

(e) That evaluated on the basis of the information submitted as part of the application and any other information before it with respect to such new drug or device, that there is a lack of substantial evidence that the new drug or device will have the effect it purports or is represented to have under the conditions of use prescribed, recommended, or suggested in the proposed labeling or advertisement of the new drug or device.

(f) That based on an evaluation by the department of all material facts, that the proposed labeling or advertising of the new drug or device is false or misleading in any particular.

26673. An order pursuant to Section 26672 refusing approval of a new drug application or a new device application shall be revoked whenever the department finds that the facts justify such action.

26674. In the case of any new drug or device for which an approval of an application filed pursuant to Section 26670 is in effect, the applicant shall establish and maintain such records, and make such reports to the department, of data relating to clinical experience and other data or information, received or otherwise obtained by such applicant with respect to such new drug or device, as the department may by general regulation, or by order with respect to such application, prescribe. Any regulation or order issued pursuant to this section or pursuant to Section 26679 shall have due regard for the professional ethics of the medical profession and the interest of patients and shall provide, where the department determines that it is reasonably necessary, for the examination upon request, by the persons to whom such regulation or order is applicable, of similar information received or otherwise obtained by the department. Every person required pursuant to this section to maintain records, and every person in charge or in custody of the records, shall, upon request of an authorized agent of the department, permit such agent at all reasonable time to have access to, and copy and verify, such records.

26675. The department shall issue an order withdrawing approval of an application concerning any new drug or device if, after giving written notice to the applicant and an opportunity for a hearing, the department makes any of the following findings:

(a) That clinical or other experience, tests, or other scientific data show that such new drug or device is unsafe for use under the conditions of use upon the basis of which the application was approved.

(b) That new evidence of clinical experience, not contained in such application or not available to the department until after such application was approved, or tests by new methods, or tests by methods not deemed reasonably applicable when such application was approved, evaluated together with the evidence available to the department when the application was approved, shows that such new drug or device is not shown to be safe for use under the conditions of use upon the basis of which the application was approved.

(c) On the basis of new information with respect to such new drug or device, evaluated together with the evidence available to the department when the application was approved, that there is a lack of substantial evidence that the new drug or device will have the effect it purports or is represented to have, under the conditions of use prescribed, recommended, or suggested in the labeling or advertising of the new drug or device.

(d) That the application contains any untrue statement of a material fact.

(e) That the applicant has failed to establish a system for maintaining required records, or has repeatedly or deliberately failed to maintain such records or to make required reports,

or the applicant has refused to permit access to, or copying or verification of, such records.

(f) That on the basis of new information before the department, evaluated together with the evidence before it when the application was approved, the methods used in, or the facilities and controls used for, the manufacture, processing, and packing of such new drug or device are inadequate to assure and preserve its identity, strength, quality, purity, composition, and characteristics as determined by qualified experts selected by the department, and were not made adequate within a reasonable time after receipt of written notice from the department specifying the matter complained of.

(g) That on the basis of new information before it, evaluated together with the evidence before it when the application was approved, the labeling or advertisement of such new drug or device, based on an evaluation of all material facts, is false or misleading in any particular and is not corrected within a reasonable time after receipt of written notice from the department specifying the matter complained of.

26676. When the department finds that there is an imminent hazard to the public health, it may suspend the approval for such application immediately.

26677. An order pursuant to Section 26675 or 26676 withdrawing approval of an application concerning any new drug or device shall be revoked whenever the department finds that the facts justify such action.

26678. Section 26670 does not apply to a drug intended solely for investigational use by experts qualified by scientific training and experience to investigate the safety and effectiveness of drugs if the investigation is conducted in accordance with the requirements of Section 505(i) of the federal act (21 U.S.C., Sec. 355(i)) and the regulations adopted pursuant to the federal act.

26679. Section 26670 does not apply to any drug or device intended solely for investigational use by experts qualified by scientific training and experience to investigate the safety and effectiveness of drugs or devices if all the following conditions are complied with:

(a) The submission to the department, before any clinical testing of a drug or device is undertaken, of reports by the manufacturer or the sponsor of the investigation of such drug or device of preclinical tests, including tests on animals, of such drug or device adequate to justify the proposed clinical testing.

(b) The manufacturer or the sponsor of the investigation of a drug or a device proposed to be distributed to investigators for clinical testing obtaining a signed, notarized agreement from each of such investigators that patients to whom the drug or device is administered will be under his personal supervision, or under the supervision of investigators responsible to him, and that he will not supply such drug or device

to any other investigator, or to clinics, for administration to human beings.

(c) The establishment and maintenance of such records, and the making of such reports to the department, by the manufacturer or the sponsor of the investigation of such drug or device, of data, including but not limited to, analytical reports by investigators, obtained as a result of such investigational use of such drug or device, as the department finds will enable it to evaluate the safety and effectiveness of such drug or device in the event of the filing of an application pursuant to Section 26670.

(d) The manufacturer, or the sponsor of the investigation, require experts using such drugs or devices for investigational purposes to certify to such manufacturer or sponsor that they will inform any human beings to whom such drugs or devices, or any controls used in connection therewith, are being administered, or their representatives, that such drugs or devices are being used for investigational purposes and will obtain the consent of such human beings or their representative, except where they deem it not feasible or, in their professional judgment, contrary to the health and welfare of such human beings. Nothing in this subdivision requires any clinical investigator to submit directly to the department reports on the investigational use of drugs or devices.

(e) Such other conditions as the department shall adopt as regulations necessary for the protection of the public health. The federal regulations adopted pursuant to Section 505(i) of the federal act (21 U.S.C., Sec. 355(i)) shall be the regulations for exemptions from Section 26670 in this state. However, the department may prescribe, by regulation, any condition for exemption from Section 26670 whether or not such condition is in accordance with regulations adopted under the federal act.

26680. Section 26670 does not apply to any of the following:

(a) A drug or device which is sold in this state, or introduced into interstate commerce, at any time prior to the enactment of the federal act, if its labeling and advertising contained the same representations concerning the conditions of its use.

(b) Any drug which is licensed under the Public Health Service Act of July 1, 1944 (58 Stats. 682, as amended; 42 U.S.C., Sec. 201 et seq.) or under the provisions of the 8th paragraph of the heading of Bureau of Animal Industry of the act of March 4, 1913 (37 Stat. 832–833; 21 U.S.C., Sec. 151 et seq.), commonly known as the "Virus-Serum-Toxin Act."

(c) Any antibiotic drug which is subject to Section 26651.

(d) Any device used within the scope of his license privilege by a physician and surgeon, podiatrist, dentist, optometrist, or veterinarian licensed as such in this state.

Article 6. Licenses

26685. No person shall manufacture any drug or device in this state unless he has a valid license from the department. Such license is valid for one calendar year from the date of issue, unless it is revoked. Such license is not transferable.

26686. A separate license is required for each place of manufacture.

26687. A license application shall be completed annually and accompanied by an application fee as prescribed in Section 26688. This fee is not refundable if the license is refused.

26688. The department shall by regulation establish the application form and set the fee at an amount not to exceed two hundred dollars ($200). The penalty for failure to apply for renewal of a license within 30 days after its expiration is ten dollars ($10) and shall be added to the renewal fee and be paid by the applicant before the renewal license may be issued. All moneys collected as fees shall be expended when appropriated by the Legislature in the carrying out of the provisions of this division and the regulations adopted pursuant to this division.

Any person licensed pursuant to this section shall immediately notify the department of any change in the information reported in the license application.

26689. Prior to issuing or renewing a license required by Section 26685, the department shall inspect each place of business to determine ownership, adequacy of facilities, and personnel qualifications.

26690. The department shall make such investigations or inspections authorized by Article 3 (commencing with Section 26230) of Chapter 2 of this division as it deems necessary to carry out the provisions of this chapter.

26691. Any violation of any provision of this division or any regulation adopted pursuant to this division shall be grounds for denying a license or for suspending or revoking a license. Proceedings for the denial, suspension, or revocation of a license shall be conducted in accordance with Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code, and the department shall have all the powers granted in that chapter.

26692. Drug manufacturers who have obtained a license or who are applying for a license pursuant to this article shall submit to the California State Board of Pharmacy such information as the Board of Pharmacy deems reasonably necessary to carry out its drug distribution responsibilities including, but not limited to, information on drug inventories or restricted dangerous drugs. Failure of any such manufacturer to report such information to the Board of Pharmacy in a timely fashion shall be grounds for the department to deny, suspend, or revoke the manufacturer's license.

The California State Board of Pharmacy may adopt rules and regulations which are reasonably necessary to implement this section.

26693. The licensing provisions of this chapter shall not apply to any of the following:

(a) Any pharmacy which maintains establishments in conformance with provisions of the Pharmacy Law, Chapter 9 (commencing with Section 4000) of Division 2 of the Business and Professions Code, regulating the practice of pharmacy, and which is regularly engaged in dispensing prescription drugs or devices, upon prescriptions of any person licensed to administer such drugs or devices to patients under the care of such person in the course of his professional practice, and which does not manufacture, prepare, propagate, compound, or process drugs or devices for sale other than in the regular course of his business of dispensing or selling drugs or devices at retail.

(b) Any pharmacy which solely engages in providing drugs or devices to a person licensed by law to administer such drug or device for his use in the course of his professional practice.

(c) Any pharmacy which solely provides drugs or devices to another pharmacy in order to meet a temporary inventory shortage.

(d) Any person who is licensed by law to prescribe or administer drugs or devices and who manufactures, prepares, propagates, compounds, or processes drugs or devices solely for use in the course of his professional practice.

(e) Any person who manufactures, prepares, propagates, compounds, or processes any drug or device solely for use in nonclinical research, teaching, or chemical analysis and not for sale.

(f) Any wholesaler, as defined in Section 4038 of the Business and Professions Code.

(g) Any such other class of persons as the department may by regulation exempt from the application of this article upon a finding that licensing by such class of persons in accordance with this article is not necessary for the protection of the public health.

Article 2. Adulterated Cosmetics

26710. A cosmetic is adulterated if it bears or contains any poisonous or deleterious substance which may render it injurious to users under the conditions of use prescribed in the labeling or advertisement of the cosmetic, or under such conditions of use as are customary or usual.

26710.5. Section 26710 shall not apply to coal tar hair dye, which is conspicuously labeled as follows:

"Caution—this product contains ingredients which may cause skin irritation on certain individuals and a preliminary test according to accompanying directions should first be made. This product must not be used for dyeing the eyelashes or eyebrows; to do so may cause blindness."

The labeling shall also bear adequate directions for such preliminary testing.

26711. Any cosmetic is adulterated if it consists in whole or in part of any filthy, putrid, or decomposed substance.

26712. Any cosmetic is adulterated if it has been produced, prepared, packed, or held under insanitary conditions whereby it may have become contaminated with filth, or whereby it may have been rendered injurious to health.

26713. Any cosmetic is adulterated if its container is composed, in whole or in part, of any poisonous or deleterious substance which may render the contents injurious to health.

26714. Any cosmetic is adulterated if it is not a hair dye and it is, or it bears or contains, a color additive which is unsafe within the meaning of Section 26701.

26715. It is unlawful for any person to manufacture, sell, deliver, hold, or offer for sale any cosmetic that is adulterated.

26716. It is unlawful for any person to adulterate any cosmetic.

26717. It is unlawful for any person to receive in commerce any cosmetic that is adulterated or to deliver or proffer for delivery any such cosmetic.

Article 3. Misbranded Cosmetics

26730. Any cosmetic is misbranded if its labeling is false or misleading in any particular.

26731. Any cosmetic is misbranded if its labeling or packaging does not conform to the requirements of Chapter 4 (commencing with Section 26400) of this division.

26732. Any cosmetic is misbranded if it is in package form and it does not bear a label containing all of the following information:

(a) The name and place of business of the manufacturer, packer, or distributor.

(b) An accurate statement of the quantity of the contents in terms of weight, measure, or numerical count.

Reasonable variations shall be permitted from the requirements of subdivision (b) of this section. Requirements for placement and prominence of such information and exemptions as to small packages shall be established by regulations adopted pursuant to Section 26438.

26733. A cosmetic is misbranded if any word, statement, or other information required pursuant to this division to appear on the label or labeling is not prominently placed upon the label or labeling with such conspicuousness, as compared with other words, statements, designs, or devices, in the labeling, and in such terms as to render it likely to be read and understood by the ordinary individual under customary conditions of purchase and use.

26734. Any cosmetic is misbranded if its container is so made, formed, or filled as to be misleading.

26735. A cosmetic is misbranded if it is a color additive, unless its packaging and labeling are in conformity with such packaging and labeling requirements applicable to color additives prescribed under the provisions of Section 26207. This section does not apply to packages of color additives which, with respect to their use for cosmetics, are marketed and intended for use only in or on hair dyes.

(a) It accords to the specifications of the foreign purchaser.

(b) It is not in conflict with the laws of the country to which it is intended for export.

(c) It is labeled on the outside of the shipping package to show that it is intended for export.

If such article is sold or offered for sale in domestic commerce, this section shall not exempt it from any of the provisions of this division.

Chapter 8. Penalties and Remedies

Article 1. Penalties

26801. Any person who violates any provision of this division or any regulation adopted pursuant to this division is guilty of a misdemeanor and shall, if convicted, be subject to imprisonment for not more than six months in the county jail or a fine of not less than one hundred dollars ($100), nor more than five hundred dollars ($500), or both such imprisonment and fine. If the violation is committed after a previous conviction under this section which has become final, or if the violation is committed with intent to defraud or mislead, the person shall be subject to imprisonment for not more than one year in the county jail or a fine of not more than one thousand dollars ($1,000), or both such imprisonment and fine.

Article 2. Proceedings

26811. The Attorney General, any district attorney, or any city attorney to whom the department reports any violation of this division shall begin appropriate proceedings in the proper court.

26812. The department is not required to institute proceedings under this division for minor violations of this division, if the department believes that the public interest will be adequately served in the circumstances by a suitable written notice or warning.

Article 3. Seizure and Embargo

26830. Whenever an authorized agent of the department finds, or has probable cause to believe, that any food, drug, device, or cosmetic is adulterated, misbranded, or falsely advertised within the meaning of this division, or the sale of any food, drug, device, or cosmetic would be in violation of this division, he shall affix to such food, drug device, cosmetic, or component thereof, a tag or other appropriate marking. He shall give notice that the food, drug, device, or cosmetic is, or is suspected of being, adulterated, misbranded, falsely advertised, the sale of which would be in violation of this division and has been embargoed, and that no person shall remove or dispose of the food, drug, device, or cosmetic by sale or otherwise until permission for removal or disposal is given by an authorized agent of the department or the court.

26831. It is unlawful for any person to remove, sell, or dispose of a detained or embargoed food, drug, device, or cosmetic without permission of an authorized agent of the department or the court.

26832. When an authorized agent of the department has found that a food drug, device, or cosmetic which is embargoed, is not adulterated, misbranded, falsely advertised, or the sale of which is not otherwise in violation of this division, he shall remove the tag or other marking.

26833. When an authorized agent of the department finds, or has reasonable cause to believe, that the embargo will be violated, he may remove such embargoed food, drug, device, or cosmetic to a place of safekeeping.

26834. When a food, drug, device, or cosmetic is alleged to be adulterated, misbranded, falsely advertised, or the sale of which is otherwise in violation of this division, the department shall commence proceedings in the superior court or lower court in whose jurisdiction the food, drug, device, or cosmetic is located, for condemnation of the article.

26835. If the court finds that an embargoed food, drug, device, or cosmetic is adulterated, misbranded, falsely advertised, or the sale of which is otherwise in violation of this division, such food, drug, device, or cosmetic shall, after entry of the judgment, be destroyed at the expense of the claimant or owner, under the supervision of an authorized agent of the department. All court costs and fees and storage and other expenses shall be taxed against the claimant or owner of such food, drug, device, or cosmetic or his agent. When the adulteration or misbranding can be corrected by proper labeling or processing of the food, drug, device, or cosmetic, or when the false advertisement can be corrected and when all provisions of this division can be complied with, then, after entry of the judgment and after such costs, fees, and expenses have been paid and a good and sufficient bond, conditioned that such food, drug, device, or cosmetic will be brought into compliance, the court may, by order, direct that the food, drug, device, or cosmetic be delivered to the claimant or owner to be brought into compliance by labeling, processing, or other means under the supervision of an authorized agent of the department. The expense of such supervision shall be paid by the claimant or owner. The bond shall be discharged when the court finds that the food, drug, device, or cosmetic is no longer held for sale in violation of any provision of this division and that all of the expenses of supervision have been paid.

26836. Whenever an authorized agent of the department finds any meat, meat products, seafood, poultry, vegetable, fruit, or other food which is unsound, or which contains any filthy, decomposed, or putrid substance, or which may be poisonous or deleterious to health, or otherwise unsafe, he may declare such food to be a nuisance and the department, or its authorized agent, shall condemn or destroy it, or render it unsalable as human food by decharacterization.

26837. Any superior or lower court of this state may condemn any food, drug, device, or cosmetic under provisions of this division. In the absence of such an order, such food drug, device, or cosmetic may be destroyed under the supervision of an authorized agent of the department who has the written consent of the owner, his attorney, or authorized representative.

Article 4. Injunctions

26850. The Attorney General or any district attorney, on behalf of the department, may bring an action in superior court and such court shall have jurisdiction upon hearing and for cause shown, to grant a temporary or permanent injunction restraining any person from violating any provision of this division. Any proceeding under the provisions of this section shall conform to the requirements of Chapter 3 (commencing with Section 525) of Title 7 of Part 2 of the Code of Civil Procedure, except that the department shall not be required to allege facts necessary to show, or tending to show, lack of adequate remedy at law, or to show, or tending to show, irreparable damage or loss.

26851. In addition to injunctive relief, the court may impose as a civil penalty, damages in the maximum sum of one thousand dollars ($1.000) for each day such violation is continued. Damages shall be paid one-half to this state and one-half to the county in which such action is brought if brought by the Attorney General, or entirely to the county if brought by a district attorney.

CHAPTER 1574

An act to add Article 8 (commencing with Section 26650) to Chapter 3 of Division 21 of the Health and Safety Code, relating to foods.

[Approved by Governor September 20, 1970. Filed with Secretary of State September 20, 1970.]

The people of the State of California do enact as follows:

SECTION 1. Article 8 (commencing with Section 26650) is added to Chapter 3 of Division 21 of the Health and Safety Code, to read:

Article 8. Enrichment of Food and Food Products

26650. It is unlawful to sell at retail any of the following foods or food products manufactured from such foods, unless such foods or food products are enriched in accordance with the enrichment standards adopted by the department: white flour, cornmeal, corn grits, farina, macaroni, noodles, spaghetti or milled rice. The department shall adopt such enrichment standards as it determines are reasonably necessary for the protection of the public health and safety. In adopting such standards the department shall take into consideration the current standards established by the Secretary of Health, Education, and Welfare under authority contained in the federal law. This section shall not apply to food or products manufactured from such foods which contain less than 25 percent of the food ingredients listed in this section or to those foods

which are sold in sealed metal or glass containers or to frozen foods.

26651. It is unlawful for any person to manufacture, sell, or offer for sale for human consumption in this state, any processed breakfast cereal unless the quantity of vitamins and minerals contained in each ounce of the processed cereal conforms to the current "fortification" regulations established by the department as it determines are reasonably necessary for the protection of the public health and safety. In adopting such regulations the department shall take into consideration the current fortification regulations established by the Secretary of Health, Education, and Welfare under authority contained in the federal law.

26652. All products requiring enrichment under Section 26650 shall be labeled "enriched" and display the nutrients required to be added, together with the quantity of each that the product actually contains. All products requiring fortification under Section 26651 shall be labeled "fortified" and display the nutrients required to be added, together with the quantity of each that the product actually contains. The director may by regulation make an exception to this section in the case of small specialty products where the size of the package makes the naming of all ingredients therein impractical.

SEC. 2. The Legislature finds and declares that the public demand for flour containing highly processed grain and grain products has encouraged, if not compelled, milling processes largely destructive of healthful vitamin and mineral content. It is the intent of the Legislature in enacting this act to protect, as far as possible, the people of California against a deficiency of certain food ingredients essential to their health and well-being. A great many producers of products made from processed grain now voluntarily "enrich" their products according to standards fixed by the federal government. As enrichment is a procedure whereby the essential nutrients removed by processing are replaced, it is considered reasonable to expect all producers to accept this obligation.

SEC. 3. This act shall become operative January 1, 1972.

CHAPTER 1575

An act to amend Sections 4356, 4800, 4801, and 5126 of the Civil Code, relating to family law.

[Approved by Governor September 20, 1970. Filed with Secretary of State September 20, 1970.]

The people of the State of California do enact as follows:

SECTION 1. Section 4356 of the Civil Code is amended to read:

4356. In proceedings under Title 3 (commencing with Section 4500) of this part, in those counties which have established a conciliation court, the petitioner shall complete and file a questionnaire approved by the Judicial Council, concurrently with the filing of the petition.

A blank copy of the questionnaire shall be served upon the respondent together with copies of the summons and petition. The respondent shall complete and file the questionnaire within the time in which a responsive pleading must be filed.

The questionnaire shall be confidential and may be used only by the court, counsel for the parties, or persons authorized by the court.

SEC. 2. Section 4800 of the Civil Code is amended to read:

4800. (a) The court shall, either (1) in its interlocutory judgment decreeing the dissolution of the marriage or in its judgment decreeing the legal separation of the parties, or (2) at a later time, if the division of property is in issue and it expressly reserves jurisdiction to make such a property division, divide the community property and the quasi-community property of the parties equally.

(b) Notwithstanding subdivision (a), the court may divide the community property and quasi-community property of the parties as follows:

(1) Where economic circumstances warrant, the court may award any asset to one party on such conditions as it deems proper to effect a substantially equal division of the property.

(2) As an additional award or offset against existing property, the court may award, from a party's share, any sum it determines to have been deliberately misappropriated by such party to the exclusion of the community property or quasi-community property interest of the other party.

(3) If the net value of the community property and quasi-community property is less than five thousand dollars ($5,000) and one party cannot be located through the exercise of reasonable diligence, the court may award all such property to the other party on such conditions as it deems proper in its final judgment decreeing the dissolution of the marriage or in its judgment decreeing the legal separation of the parties.

(c) Community property personal injury damages shall be assigned to the party who suffered the injuries unless the court, after taking into account the economic condition and needs of each party, the time that has elapsed since the recovery of the damages, and all other facts of the case, determines that the interests of justice require another disposition, in which case the community property personal injury damages shall be assigned to the respective parties in such proportions as the court determines to be just under the facts of the case. As used in this subdivision, "community property personal injury damages" means all money or other property received by a married person as community property in satisfaction of a judgment for damages for his or her personal injuries or pursuant to an agreement for the settlement or

compromise of a claim for such damages, unless such money or other property has been commingled with other community property.

SEC. 3. Section 4800 of the Civil Code is amended to read:

4800. (a) Except upon the written agreement of the parties, or on oral stipulation of the parties in open court, the court shall, either in its interlocutory judgment of dissolution of the marriage, in its judgment decreeing the legal separation of the parties, or at a later time if it expressly reserves jurisdiction to make such a property division, divide the community property and the quasi-community property of the parties, including any such property from which a homestead has been selected, equally.

(b) Notwithstanding subdivision (a), the court may divide the community property and quasi-community property of the parties as follows:

(1) Where economic circumstances warrant, the court may award any asset to one party on such conditions as it deems proper to effect a substantially equal division of the property.

(2) As an additional award or offset against existing property, the court may award, from a party's share, any sum it determines to have been deliberately misappropriated by such party to the exclusion of the community property or quasi-community property interest of the other party.

(3) If the net value of the community property and quasi-community property is less than five thousand dollars ($5,000) and one party cannot be located through the exercise of reasonable diligence, the court may award all such property to the other party on such conditions as it deems proper in its final judgment decreeing the dissolution of the marriage or in its judgment decreeing the legal separation of the parties.

(c) Notwithstanding the provisions of subdivision (a), community property personal injury damages shall be assigned to the party who suffered the injuries unless the court, after taking into account the economic condition and needs of each party, the time that has elapsed since the recovery of the damages, and all other facts of the case, determines that the interests of justice require another disposition. In such case, the community property personal injury damages shall be assigned to the respective parties in such proportions as the court determines to be just, except that at least one-half of such damages shall be assigned to the party who suffered the injuries. As used in this subdivision, "community property personal injury damages" means all money or other property received by a married person as community property in satisfaction of a judgment for damages for his or her personal injuries or pursuant to an agreement for the settlement or compromise of a claim for such damages, unless such money or other property has been commingled with other community property.

(d) The court may make such orders as it deems necessary to carry out the purposes of this section.

SEC. 4. Section 4801 of the Civil Code is amended to read:

4801. (a) In any judgment decreeing the dissolution of a marriage or a legal separation of the parties, the court may order a party to pay for the support of the other party any amount, and for such period of time, as the court may deem just and reasonable having regard for the circumstances of the respective parties, including the duration of the marriage, and the ability of the supported spouse to engage in gainful employment without interfering with the interests of the children of the parties in the custody of such spouse. The court may order the party required to make such payment of support to give reasonable security therefor. Any order for support of the other party may be modified or revoked as the court may deem necessary, except as to any amount that may have accrued prior to the date of the filing of the notice of motion or order to show cause to modify or revoke. The order of modification or revocation may be made retroactive to the date of filing of the notice of motion or order to show cause to modify or revoke.

(b) Except as otherwise agreed by the parties in writing, the obligation of any party under any order or judgment for the support and maintenance of the other party shall terminate upon the death of either party or the remarriage of the other party.

(c) Except as otherwise agreed by the parties in writing, the court may, upon petition of either party, modify or revoke any decree or judgment granting any allowance to the other party upon proof that the wife is living with another man and holding herself out as his wife, although not married to such man, or that the husband is living with another woman and holding himself out as her husband, although not married to such woman, except as to any amount that may have accrued prior to the filing of the petition.

(d) When a court orders a person to make specified payments for support of the other party for a contingent period of time, the liability of such person terminates upon the happening of such contingency. If the party to whom payments are to be made fails to notify the person ordered to make such payments, or the attorney of record of such person, of the happening of such contingency and continues to accept support payments, such party shall refund any and all moneys received which accrued after the happening of such contingency, except that such overpayments shall first be applied to any and all support payments which are then in default. The court may, in the original order for support, order the party to whom payments are to be made to notify the person ordered to make such payments, or his attorney of record, of the happening of such contingency.

(e) An order for payment of an allowance for the support of one of the parties shall terminate at the end of the period specified in the order and shall not be extended unless the court in its original order retains jurisdiction.

SEC. 5. Section 5126 of the Civil Code is amended to read:

5126. (a) All money or other property received by a married person in satisfaction of a judgment for damages for his personal injuries or pursuant to an agreement for the settlement or compromise of a claim for such damages is the separate property of the injured person if such money or other property is received as follows:

(1) After the rendition of a decree of legal separation or a final judgment of dissolution of a marriage.

(2) While the wife, if she is the injured person, is living separate from her husband.

(3) After the rendition of an interlocutory decree of dissolution of a marriage and while the injured person and his spouse are living separate and apart.

(b) Notwithstanding subdivision (a), if the spouse of the injured person has paid expenses by reason of his spouse's personal injuries from his separate property or from the community property subject to his management and control, he is entitled to reimbursement of his separate property or the community property subject to his management and control for such expenses from the separate property received by his spouse under subdivision (a).

SEC. 4. It is the intent of the Legislature, if the amendments to Section 4800 of the Civil Code proposed by both this bill and Senate Bill No. 360 are enacted, that both amendments be given effect and incorporated into Section 4800 in the form set forth in Section 3 of this act. Therefore, in the event Senate Bill 360 is enacted and amends Section 4800, Section 3 of this act shall become operative at the same time that Section 4800 as amended by Senate Bill 360 becomes operative, and, at that time, Section 4800 as amended by Section 2 of this act is repealed.

CHAPTER 1576

An act to amend Section 11251 of the Education Code, relating to community college attendance.

[Approved by Governor September 20, 1970. Filed with Secretary of State September 20, 1970.]

The people of the State of California do enact as follows:

SECTION 1. Section 11251 of the Education Code is amended to read:

11251. (a) In computing the average daily attendance of a school district, there shall be included only the attendance of pupils while engaged in educational activities required of such pupils and under the immediate supervision and control of an employee of the district who possessed a valid certification document, registered as required by law, authorizing him to render service in the capacity and during the period in which he served. For purposes of computing the average daily

attendance of a community college district, attendance shall also include student attendance and participation in approved coordinated instruction systems programs of instruction using television, computer-assisted instruction, automated audio-visual systems, programmed learning materials, and other similar teaching techniques, under the coordination and evaluation of an employee who possessed an appropriate certification document, but not requiring the immediate supervision of such employee. Approved coordinated instruction systems programs of instruction are those recommended by the governing board of the district maintaining the community college and approved by the Board of Governors of the California Community Colleges. One student contact hour is to be counted for each unit of coordinated instruction systems credit in which a student is enrolled during any census period. The state aid apportionment made by the board of governors shall not be greater than one-half the current costs of conducting approved coordinated instruction systems programs of instruction Coordinated instruction systems programs of instruction shall be conducted by employees of the district who possess valid credentials or certification documents, who shall determine the need for immediate supervision of the programs of instruction. Such employees shall evaluate individual student progress and assign appropriate grades for students enrolled in classes taught by the coordinated instruction systems programs of instruction.

(b) The State Department of Education shall, in cooperation with the Department of Finance and the Legislative Analyst, conduct a study to devise a suitable method for determining the number of units of average daily attendance for a fiscal year, of pupils in grades kindergarten through 12 enrolled in elementary districts, high school districts, and unified districts. Such method shall be based upon the mean average of active enrollment figures on appropriate dates throughout the school year, multiplied by a proven percentage ratio of enrollment to average daily attendance.

If the method devised will yield approximately the same total number of average daily attendance as is now obtained by existing methods specified in this code and such method has been approved by the State Board of Education, it shall be recommended to the Legislature to be used for all computations of average daily attendance in the regular day classes of the elementary and high schools.

CHAPTER 1577

An act to amend Sections 13262 and 13263 of the Education Code, relating to teachers' seniority selection.

[Approved by Governor September 20, 1970 Filed with Secretary of State September 20, 1970]

The people of the State of California do enact as follows:

SECTION 1. Section 13262 of the Education Code is amended to read:

13262. Except as otherwise provided in Sections 13252 to 13273, inclusive, every probationary or permanent employee employed before July 1, 1947, shall be deemed to have been employed on the date upon which he first accepted employment in a probationary position.

In case two or more employees accepted employment on the same date, the governing board of the district shall determine the order of employment by lots drawn by the employees concerned or assigned at random by an independent auditing firm employed in accordance with Section 13263 or by other means as determined pursuant to the procedures described in Article 5 (commencing with Section 13080) of Chapter 1 of this division.

SEC. 2. Section 13263 of the Education Code is amended to read:

13263. Every probationary or permanent employee employed after June 30, 1947, shall be deemed to have been employed on the date upon which he first rendered paid service in a probationary position.

In any district in which appointments are made from eligible lists established by examination, if two or more employees rendered their first paid service on the same date, the board shall determine the order of employment of employees so appointed by lot drawn as follows:

First, those who were highest on their respective eligible lists, except as they have waived appointment, shall draw lots for preferred order as among such employees.

Second, those who were next highest on their respective eligible lists shall similarly draw lots for preferred order as among themselves.

In like manner, drawings shall continue until the order of employment of all shall have been determined. Employees appointed subject to examination shall draw last of all.

In districts in which employees are not appointed from eligible lists, all who first rendered paid service on the same date shall participate in a single drawing except that in school districts having an average daily attendance in excess of 15,000, an independent auditing firm may be employed to assign to such employees numbers at random which shall determine the order of employment.

SEC. 5. It is the intent of the Legislature, if amendments to Sections 6268.6 and 6268.8 of the Education Code proposed by both this bill and A.B. 2010 are enacted, that both amendments be given effect and incorporated in Sections 6268.6 and 6268.8 in the form set forth in Sections 2 and 4, respectively, of this act Therefore, in the event A.B. 2010 is enacted and amends Sections 6268.6 and 6268.8, Sections 2 and 4 of this act shall become operative at the same time that Sections 6268.6 and 6268.8 as amended by A.B. 2010 become operative, and at that time, Sections 6268 6 and 6268.8 of the Education Code as amended by Sections 1 and 2, respectively, of this act are repealed.

CHAPTER 1579

An act to amend Section 39057 of, and to add Chapter 10 (commencing with Section 39295) to Part 1 of Division 26 of, the Health and Safety Code, relating to air pollution, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 20, 1970 Filed with Secretary of State September 20, 1970]

The people of the State of California do enact as follows:

SECTION 1. Section 39057 of the Health and Safety Code is amended to read:

39057. Notwithstanding the provisions of this division, any local or regional authority may establish additional and stricter standards than those set forth by the state board for all sources of air pollution other than motor vehicles, but no local

or regional authority may completely ban all agricultural burning, as defined in Section 39295.6.

SEC. 2. Chapter 10 (commencing with Section 39295) is added to Part 1 of Division 26 of the Health and Safety Code, to read:

CHAPTER 10. BURNING

Article 1. Definitions and General Provisions

39295. "Combustible or flammable solid waste," as used in this chapter, means any garbage, rubbish, trash, rags, paper, boxes, crates, excelsior, ashes, offal, carcass of a dead animal, or any other combustible or flammable refuse matter which is in a solid form.

39295.1. "Flue," as used in this chapter, means any duct or passage for air, gases, or the like, such as a stack or chimney.

39295.2. "Open outdoor fire," as used in this chapter, means any combustion of solid waste outdoors in the open, not in any enclosure, where the products of combustion are not directed through a flue.

39295.3. "Person," as used in this chapter, means any person, firm, corporation, association, or public agency, including, but not limited to, any city, county, district, or the state.

39295.6. "Agricultural burning," as used in this chapter means open outdoor fires used in agricultural operations in the growing of crops or raising of fowls or animals, forest management, or range improvement.

39295.7. The provisions of this chapter shall not supersede any rule or regulation of any air pollution control district, which rule or regulation has been in effect for five or more years prior to the effective date of this chapter.

Article 2. Prohibitions

39296. No person shall, after December 31, 1971, use open fires for the purpose of disposal of petroleum wastes, demolition debris, tires, tar, trees, wood waste, or other combustible or flammable solid or liquid waste; or for metal salvage or burning of automobile bodies.

39296.1. Any violation of the provisions of this article is a misdemeanor punishable by imprisonment in the county jail not exceeding six months, or by fine not exceeding five hundred dollars ($500), or both, and the cost of putting out the fire. Every day during any portion of which such violation occurs constitutes a separate offense.

39296.2. Any violation of any provision of this chapter or of any order, rule, or regulation of the board may be enjoined in a civil action brought in the name of the people of the State of California, except that the plaintiff shall not be required to allege facts necessary to show or tending to show lack of adequate remedy at law or to show or tending to show irreparable damage or loss.

Article 3. Exceptions

39297. Nothing in this chapter shall be construed as limiting the authority granted under other provisions of law:

(a) To any public officer to set or permit a fire when such fire is, in his opinion, necessary for any of the following purposes:

(1) For the purpose of the prevention of a fire hazard which cannot be abated by any other means, or

(2) The instruction of public employees in the methods of fighting fire,

(3) Set pursuant to permit on property used for industrial purposes for the purpose of instruction of employees in methods of fighting fire.

(b) To set or cause to be set backfires necessary to save life or valuable property pursuant to Section 4426 of the Public Resources Code.

(c) To abate fires pursuant to Chapter 2 (commencing with Section 13025) of Part 1 of Division 12.

39297.1. Nothing in this chapter shall be construed as prohibiting agricultural burning authorized pursuant to Article 4 (commencing with Section 39298) of this chapter.

39297.2 Nothing in this chapter shall be construed as prohibiting burning for the disposal of combustible or flammable solid waste of a single- or two-family dwelling on its premises.

39297.3. Nothing in this chapter shall be construed to prohibit burning for right-of-way clearing by a public entity or utility or for levee and ditch maintenance.

39297.4. The board shall permit a city, city and county, or county to use open outdoor fires, for a limited time only, in its operation of a solid waste dump, upon the finding that because of sparse population in the geographical area and economic and technical difficulties, the solid waste dump should be so operated.

Article 4. Agricultural Burning

39298. The board shall cause to be determined and designated from meteorological data the periods when agricultural burning shall not be permitted within each basin on the basis of the implementation plan or plans, as the case may be for such basin adopted pursuant to Sections 39298.8 and 39298.9.

39298.1. (a) No person knowingly shall set or permit agricultural burning unless he has a valid permit from the agency designated by the board to issue such permits in the area

where the agricultural burning is to take place. A violation of the provisions of this subdivision is a misdemeanor punishable by imprisonment in the county jail not exceeding six months, or by fine not exceeding five hundred dollars ($500), or both, and the cost of putting out the fire. Every day during any portion of which such violation occurs constitutes a separate offense.

(b) The board shall designate public fire protection agencies or other equivalent agencies to issue permits under subdivision (a), and shall adopt rules and regulations to provide a procedure for the issuance of the permits. Each agency so designated by the board shall issue permits subject to the rules and regulations of the board.

(c) No permit shall be valid for any day during a period in which agricultural burning is prohibited by the board pursuant to Section 39298.

(d) Each permit issued pursuant to this section shall bear a statement of warning containing the following words or words of like or similar import:

"This permit is valid only on those days which are not prohibited by the State Air Resources Board pursuant to Section 39298 of the Health and Safety Code."

39298.2. The board shall promulgate guidelines for the regulation and control of agricultural burning for each of the basins established by the board Such guidelines shall be promulgated no later than six months from the effective date of this chapter for the following basins Sacramento Valley, San Joaquin Valley, Bay Area, South Coast, North Central Coast, and South Central Coast.

39298 3. The guidelines promulgated by the board shall be based on meteorological data, the nature and volume of materials to be burned, and the probable effect of such burning on the ambient air quality within the air basins affected.

39298 4 In adopting such guidelines, the board shall consider their economic and technical feasibility, including their probable effect on agricultural production in the basin affected.

39298.5. The board shall continuously review the guidelines promulgated under this article, and may modify, repeal, or alter such guidelines if scientific and technological data indicates that such changes are warranted Before adopting any such changes, the board shall hold a public hearing and shall consider the criteria set forth in Section 39298 3.

39298.6. The board shall, by January 15, 1971, submit a report to the Legislature on its progress, including their proposed guidelines for the basins designated in Section 39298 3, plans for promulgating standards in the remaining air basins in California, and a future proposal for the control of forest and open-range burning.

39298 7. The board shall adopt and publish a list of orchard and citrus heaters which it finds produce no more than one gram per minute of unconsumed solid carbonaceous mate-

rial. No new orchard or citrus heater produced or manufactured shall be sold for use against frost damage after January 1, 1971, unless it has been approved by the board. No person shall use any orchard or citrus heater after January 1, 1975, unless it has been approved by the board or does not produce more than one gram per minute of unconsumed solid carbonaceous material. Any violation of this section is a misdemeanor punishable by imprisonment in the county jail not exceeding six months, or by fine not exceeding five hundred dollars ($500), or both, and the cost of putting out the fire. Every day during any portion of which such violation occurs constitutes a separate offense.

Notwithstanding Section 39057, local or regional authorities may adopt ordinances, which may become operative at any time on or after January 1, 1973, prohibiting the use of any orchard or citrus heater which has not been approved by the board.

39298.8. Within six months after the guidelines for a basin are adopted by the board, each local and regional authority within each basin shall adopt an implementation plan consistent with the guidelines of the board. Local authorities may within each basin jointly adopt an implementation plan for their combined areas. Each plan shall include emission standards and enforcement procedures based on such guidelines. In adopting such plan, each local and regional authority shall consider the economic cost and technical feasibility of disposing of agricultural wastes.

The plan shall be adopted by ordinance, and any violation of the provisions of the plan is a misdemeanor punishable by imprisonment in the county jail not exceeding six months, or by fine not exceeding five hundred dollars ($500), or both, and the cost of putting out the fire. Every day during any portion of which such violation occurs constitutes a separate offense.

39298 9. Each implementation plan shall be submitted to the board for approval. After public hearings, the board shall either approve, modify, or reject the plan submitted to it. The board shall approve the plan if it determines the plan is reasonably calculated to achieve air quality standards applicable to the basin. If the plan is rejected, or if no timely plan is submitted, or if the plan is economically or technically unfeasible, the board shall have all the powers of any local and regional authority within the basin to adopt an alternative plan for the local or regional authority. The board shall not adopt any alternative plan without first holding public hearings within the basin affected.

39299. No person shall knowingly set or permit agricultural burning on days within a period prohibited by the board pursuant to Section 39298.

A violation of this section is a misdemeanor punishable by imprisonment in the county jail not exceeding six months, or by fine not exceeding five hundred dollars ($500), or both, and

the cost of putting out the fire. Every day during any portion of which such violation occurs constitutes a separate offense.

39299.1. The board shall conduct studies of the alternative methods of disposing of agricultural waste other than by burning.

39299.2. An air pollution control district which is functioning and exercising its powers may by permit authorize agricultural burning on days designated by the board as nonburning days when denial of such permit would threaten imminent and substantial economic loss.

The board shall require air pollution control districts to transmit regular reports of permits issued authorizing agricultural burning on nonburning days. The report shall include the number of such permits issued, the date of issuance of each permit, the person or persons to whom the permit was issued, and any other information requested by the board.

39299.3. It is the intent of the Legislature, by the enactment of this article, that agricultural burning be reasonably regulated, and not be prohibited, by the board. The board shall take into consideration, in adopting rules and regulations for purposes of this article, various factors, including, but not limited to, the population in an area, the geographical characteristics, the meteorological conditions, the economic and technical impact of such rules and regulations, and the importance of a viable agriculture economy in the state.

SEC. 3. Section 39057 of the Health and Safety Code is amended to read:

39057. Notwithstanding the provisions of this division, any local or regional auhority may establish additional, stricter standards than those set forth by law or by the state board for all nonvehicular sources, but no local or regional authority may completely ban all agricultural burning, as defined in Section 39295.6.

SEC. 4. It is the intent of the Legislature, if amendments to Section 39057 of the Health and Safety Code proposed by both this bill and Assembly Bill No. 85 are enacted, that both amendments be given effect and incorporated in Section 39057 in the form set forth in Section 3 of this act. Therefore, in the event Assembly Bill No. 85 is enacted and amends Section 39057, Section 3 of this act shall become operative at the same time that Section 39057 as amended by Assembly Bill No. 85 becomes operative, and at that time, Section 39057 of the Health and Safety Code as amended by Section 1 of this act is repealed.

SEC. 5. There is hereby appropriated to the State Air Resources Board from the General Fund the sum of one hundred five thousand dollars ($105,000) for the 1970–71 fiscal year to carry out the purposes of this act.

SEC 6 The General Fund shall be reimbursed for the appropriation made pursuant to Section 5 from the California Environmental Protection Program Fund. This section shall be operative only if Senate Bill No 262 or Assembly Bill No. 522 of the 1970 Regular Session is enacted by the Legislature.

SEC. 7. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Air pollution resulting from burning is a rapidly growing danger to public health, and immediate regulation of such burning has become imperative. Thus, it is necessary that this act go into effect immediately.

CHAPTER 1580

An act to amend Section 29009 of the Education Code, relating to private educational institutions.

[Approved by Governor September 20, 1970. Filed with Secretary of State September 20, 1970.]

The people of the State of California do enact as follows:

SECTION 1. Section 29009 of the Education Code is amended to read:

29009. Every corporation meeting the requirements of paragraph (3) of subdivision (a) of Section 29007, issuing or conferring degrees or honorary degrees, shall between the 1st and 31st days of January of each year, commencing on January 1, 1971, file with the Superintendent of Public Instruction the following affidavits:

(a) An affidavit by the president or other head setting forth the corporation's financial statement covering the full preceding year.

(b) An affidavit by the president or other head setting forth the following information covering the preceding calendar year:

(1) All names, whether real or fictitious, of the person, firm, association, partnership or corporation under which it has done and is doing business.

(2) The address, including city and street, of every place of doing business of the person, firm, association, partnership or corporation, within the State of California.

(3) The address, including city and street, of the location of the records of the person, firm, association, partnership or corporation, and the name and address, including city and street, of the custodian of such records.

(4) The names and addresses, including city and street, of the directors, if any, and principal officers of the person, firm, association, partnership or corporation.

(5) That the records required by Section 29010 of this article are maintained at the address stated, and are true and accurate.

Any change in the items of information required to be included in the affidavit filed pursuant to subdivision (b) shall be reported to the Superintendent of Public Instruction within 20 days of such change.

CHAPTER 1581

An act to amend Section 19491.5 of the Business and Professions Code, relating to horseracing, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 20, 1970. Filed with Secretary of State September 20, 1970.]

The people of the State of California do enact as follows:

SECTION 1. Section 19491.5 of the Business and Professions Code is amended to read:

19491.5. Notwithstanding the provisions of subdivision (f) of Section 19491, an association, including the California State Fair and Exposition or the California State Exposition and Fair or a county or district agricultural association fair, which conducts, or whose predecessor association has conducted, a horseracing meeting during the preceding year at which the total amount handled in the parimutuel pools operated by the association, or by such predecessor association, is not more than one hundred twenty-five million dollars ($125 000,000) shall be exempt from payment of that portion of the license fee provided in subdivision (f) of Section 19491 on the amount handled by it under fifty million dollars ($50,000,000).

"Predecessor association," as used in this section, means a person who was previously licensed to conduct racing of the same kind and at the same racing facility as the presently existing association.

It is the intent of the Legislature that the amendment to this section at its 1970 Regular Session shall be deemed to be a clarification of the effect of this section, and that such amendment does not constitute a substantive change.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such a necessity are:

The Horse Racing Act of 1967 added Section 19491.5 to the Business and Professions Code to exempt all "breakage" on a mutuel handle under fifty million dollars ($50,000,000) from payment toward a racing license. With respect to associations whose handle during the previous year did not exceed one hundred twenty-five million dollars ($125,000,000), Section 19491.6 of such code was added by that act to provide that such exemption, exclusive of the portion thereof which was previously allowed the licensee as a commission, should be used

to improve purse distribution as provided therein. A question subsequently arose as to whether a successor association could qualify for such exemption by its predecessor association's handle during the previous year. Since it was the intent of the Legislature to provide license tax relief to provide funds to improve purse distribution at all tracks whose handle is below one hundred twenty-five million dollars ($125,000,000), it is necessary to achieve such objective by this act going into immediate effect.

CHAPTER 1582

An act to add Article 3 (commencing with Section 3700) to Chapter 2 of Part 2 of Division 4 of the Fish and Game Code, relating to migratory birds and making an appropriation therefor.

[Approved by Governor September 20, 1970. Filed with Secretary of State September 20, 1970.]

The people of the State of California do enact as follows:

SECTION 1. Article 3 (commencing with Section 3700) is added to Chapter 2 of Part 2 of Division 4 of the Fish and Game Code, to read:

Article 3. Migratory Birds

3700. It is unlawful for any person, except a person licensed pursuant to subdivision (b) of Section 3031, to take any migratory game bird, except jacksnipe, coots, gallinules, western mourning doves, white-winged doves and band-tailed pigeons, without first procuring a state duck stamp and having such stamp in his possession while taking such birds.

State duck stamps shall be sold for a fee of one dollar ($1) by the department, and persons authorized by the department, in the same manner as hunting licenses. The commission shall determine the form of such duck stamps pursuant to Section 1050.

3701. All funds derived from the sale of state duck stamps shall be deposited in the Fish and Game Preservation Fund. The department shall maintain a State Duck Stamp Account to permit separate accountability for the receipt and expenditure of funds derived from the sale of state duck stamps. An amount not to exceed 10 percent of such funds may be used to reimburse the department for the costs of administering this article. Such amount shall be in addition to compensation allowed persons authorized to issue and sell licenses pursuant to Section 1055.

3702. Funds deposited in the State Duck Stamp Account shall be used for projects approved by the commission for the purpose of protecting and propagating migratory waterfowl and for the preservation of wetlands. The commission

may enter into contracts with nonprofit organizations for the use of such funds outside the state, or outside the United States, when it finds such contracts are necessary for carrying out the purposes of this article.

3703. Before the commission may consider any project which proposes the use of funds from the State Duck Stamp Account, the department shall analyze such project and provide the commission with recommendations as to the project's feasibility and need.

3704. Funds may be allocated by the commission for the preservation of waterfowl habitat in western Canada and for the development of wetlands for migratory waterfowl on the Pacific Flyway.

3705. Before allocating funds to any project to be undertaken outside the state, or outside the United States, the commission shall secure evidence that the project is acceptable to the government agency having jurisdiction over the lands and waters affected by such project.

3706. The commission shall, not later than the fifth calendar day of each regular session, submit a report to the Legislature summarizing activity, including receipt and expenditure of funds, and public benefits achieved pursuant to this article.

SEC. 2. This act shall be operative July 1, 1971, and shall remain in effect only until the 91st day after adjournment of the 1975 Regular Session of the Legislature and shall have no force or effect after that date.

CHAPTER 1583

An act to amend Section 188 of the Streets and Highways Code, relating to the State Highway Fund.

[Approved by Governor September 20, 1970. Filed with Secretary of State September 20, 1970.]

The people of the State of California do enact as follows:

SECTION 1. Section 188 of the Streets and Highways Code is amended to read:

188. Subject to the provisions hereinafter contained in this article and in Section 825 all money in the State Highway Fund expended for construction of state highways, including the acquisition of rights-of-way, construction, reconstruction and construction engineering, shall be allocated and expended as follows: 40 percent in County Group No. 1 and 60 percent in County Group No. 2. Not more than one-half of 1 percent of the money allocated to the state highways in a particular group may be used as state aid to joint highway districts within such group in accordance with the laws pertaining to the financing of highways within joint highway districts.

This section shall be known and may be cited as the Barnes-Mills-Walsh formula.

SEC. 2. This act shall become operative on July 1, 1971.

CHAPTER 1584

An act to add Section 1916.5 to the Civil Code, relating to interest.

[Approved by Governor September 20, 1970. Filed with Secretary of State September 20, 1970.]

The people of the State of California do enact as follows:

SECTION 1. Section 1916.5 is added to the Civil Code, to read:

1916.5. (a) No provision for a variable interest rate contained in a mortgage contract, deed of trust, real estate sales contract, or any note or negotiable instrument issued in connection therewith shall be valid unless it shall contain the following provisions:

(1) A requirement that when an increase in the interest rate is required or permitted by a movement in a particular direction of a prescribed standard an identical decrease is required in the interest rate by a movement in the opposite direction of the prescribed standard.

(2) The rate of interest shall not change more often than semiannually.

(3) The change in the interest rate shall not exceed one-fourth of 1 percent in any semiannual period.

(4) The borrower is permitted to prepay the loan in whole or in part without a prepayment charge within 90 days of notification of any increase in the rate of interest.

(5) The variable interest rate provision is clearly and prominently disclosed in writing to the borrower prior to the time the loan is made and shall be set forth both in the promissory note and the mortgage or deed of trust.

(b) The provisions of this section shall be applicable only to a mortgage contract, deed of trust, real estate sales contract, or any note or negotiable instrument issued in connection therewith when its purpose is to finance the purchase or construction of real property containing four or fewer residential units or on which four or fewer residential units are to be constructed.

(c) Regulations setting forth the prescribed standard upon which variations in the interest rate shall be based may be adopted by the Savings and Loan Commissioner with respect to savings and loan associations, the Superintendent of Banks with respect to banks, and the Insurance Commissioner with respect to insurers.

An act to amend Section 39151 of the Health and Safety Code, relating to motor vehicle pollution.

[Approved by Governor September 20, 1970. Filed with Secretary of State September 20, 1970.]

The people of the State of California do enact as follows:

SECTION 1. Section 39151 of the Health and Safety Code is amended to read:

39151. No new motor vehicle required pursuant to this part to meet the emission standards in Article 2 (commencing with Section 39100) of this chapter or the standards set pursuant to Section 39052.5 or 39052.6 shall be sold and registered in this state unless the engine and transmission combination used in that vehicle has been approved by the board.

Commencing with 1972 model year motor vehicles, the board shall not approve any such engine and transmission combination which requires a gasoline having a research octane number greater than 91, when used in conjunction with a power train normally associated with that engine and transmission combination.

Vehicle manufacturers shall test engine and transmission combinations in vehicles which are representative of the types of vehicles in which that engine and transmission combination is used.

In approving new motor vehicles, the test procedures established by the board pursuant to Section 39052 shall be conducted with a gasoline having a research octane number not greater than 91.

SEC. 2. Section 39151 of the Health and Safety Code is amended to read:

39151. No new motor vehicle required pursuant to this part to meet the emission standards in Article 2 (commencing with Section 39100) of this chapter or the standards set pursuant to Section 39052.5 or 39052.6 or revised standards set pursuant to subdivision (k) of Section 39052, shall be sold and registered in this state unless the engine and transmission combination used in that vehicle has been approved by the board.

Commencing with 1972 model year motor vehicles, the board shall not approve any such engine and transmission combination which requires a gasoline having a research octane number greater than 91, when used in conjunction with a power train normally associated with that engine and transmission combination.

Vehicle manufacturers shall test engine and transmission combinations in vehicles which are representative of the types of vehicles in which that engine and transmission combination is used.

In approving new motor vehicles, the test procedures established by the board pursuant to Section 39052 shall be conducted with a gasoline having a research octane number not greater than 91.

SEC. 3. It is the intent of the Legislature, if amendments to Section 39151 of the Health and Safety Code proposed by both this bill and A.B. 77 are enacted, that both amendments be given effect and incorporated in Section 39151 in the form set forth in Section 2 of this act. Therefore, in the event A.B. 77 is enacted and amends Section 39151, Section 2 of this act shall become operative at the same time that Section 39151 as amended by A.B. 77 becomes operative, and at that time, Section 39151 of the Health and Safety Code as amended by Section 1 of this act is repealed.

CHAPTER 1586

An act to add Section 9250.5 to the Vehicle Code, relating to motor vehicle air pollution, and making an appropriation therefor.

[Approved by Governor September 20, 1970. Filed with Secretary of State September 20, 1970.]

The people of the State of California do enact as follows:

SECTION 1. Section 9250.5 is added to the Vehicle Code, to read:

9250.5. (a) In addition to the registration fee specified in Section 9250, there shall be paid the following registration fee for the registration of a gasoline-powered vehicle, other than a motorcycle, of a 1975 or later model year having a compression ratio of more than 8.5 to 1:

(c) All fees received by the department pursuant to this section shall be deposited in the Motor Vehicle Pollution Con-

trol Fund in the State Treasury. All money deposited in the fund pursuant to this section shall augment the money appropriated by Section 39068 of the Health and Safety Code to finance studies and projects designed to reduce or eliminate motor-vehicle-caused air pollution.

CHAPTER 1587

An act to amend Sections 1684, 1687, 1688, and 1693 of the Labor Code, relating to farm labor contractors.

[Approved by Governor September 20, 1970. Filed with Secretary of State September 20, 1970.]

The people of the State of California do enact as follows:

SECTION 1. Section 1684 of the Labor Code is amended to read:

1684. The Labor Commissioner shall not issue to any person a license to act as a farm labor contractor until:

(a) Such person has executed a written application therefor in a form prescribed by the Labor Commissioner, subscribed and sworn to by such person, accompanied by a filing fee of ten dollars ($10), and containing (1) a statement by such person of all facts required by the Labor Commissioner concerning the applicant's character, competency, responsibility, and the manner and method by which he proposes to conduct his operations as a farm labor contractor if such license is issued, and (2) the names and addresses of all persons, except bona fide employees on stated salaries, financially interested, either as partners, associates or profit sharers, in the proposed operation as a farm labor contractor, together with the amount of their respective interests;

(b) The Labor Commissioner, after investigation, is satisfied as to the character, competency, and responsibility of such person;

(c) Such person has deposited with the Labor Commissioner a surety bond in a penal sum of five thousand dollars ($5,000) or time certificate in the sum of five thousand dollars ($5,000). Such bond or time certificate shall be payable to the people of the State of California and shall be conditioned that said farm labor contractor will comply with all the terms and provisions of this chapter and will pay all damages occasioned to any person by failure so to do, or by any violation of the provisions of this chapter, or false statements or misrepresentations made in the procurement of his license; and

(d) Such person has paid to the Labor Commissioner a license fee of seventy-five dollars ($75).

The Labor Commissioner may charge reasonable legal fees against a time certificate for handling claims, other than wage claims filed against a time certificate deposited pursuant to subdivision (c).

SEC. 2. Section 1687 of the Labor Code is amended to read:

1687. Each license shall contain, on the face thereof:

(1) The name and address of the licensee and the fact that he is licensed to act as a farm labor contractor for the period upon the face of the license only;

(2) The number, date of issuance, and date of expiration of the license;

(3) The amount of the surety bond or time certificate deposited by the licensee; and

(4) The fact that the license may not be transferred or assigned.

(5) The license shall contain on the back thereof the definition of a farm labor contractor, as defined by Section 1682, subdivision (b), of this chapter.

This section shall not become operative until April 1, 1952.

SEC. 3. Section 1688 of the Labor Code is amended to read:

1688. Each license shall run to and include the 31st day of March next following the date thereof unless sooner revoked by the Labor Commissioner and may be renewed each year upon the filing of an application for renewal, a renewed bond or time certificate, and the payment of the annual license fee, but the Labor Commissioner may demand that a new application and a bond or time certificate be submitted.

Where the surety intends to cancel a bond, notice of such cancellation shall be furnished by the surety to the Labor Commissioner prior to the effective date of such cancellation.

SEC. 4. Section 1693 of the Labor Code is amended to read:

1693. All actions brought in any court against any licensee may be brought in the name of the person damaged upon the bond or time certificate deposited with the state by the licensee; provided, however, that the aggregate liability of the surety or on the time certificate to all such persons shall in no event exceed the penal sum of said bond or time certificate. The Labor Commissioner and his deputies and representatives authorized by him in writing may take assignments of such actions and may prosecute such actions on behalf of persons who, in the judgment of the Labor Commissioner, are financially unable to employ counsel, in the same manner that claims are prosecuted under Section 98 of this code. The amount of damage claimed by plaintiff, and not the penalty named in the bond or time certificate, determines the jurisdiction of the court in which the action is brought.

SEC. 15. Article 10.5 (commencing with Section 65560) is added to Chapter 3 of Title 7 of the Government Code, to read:

Article 10.5. Open-Space Lands

65560. As used in this article and Article 4 (commencing with Section 65910) of Chapter 4, Title 7, unless otherwise apparent from the context, the following definitions shall apply:

(a) "Agricultural land" means land actively used for the purpose of producing an agricultural commodity for commercial purposes. Land may be considered to be "actively used" notwithstanding the fact that in the course of good agricultural practice it is permitted to lie idle for a period up to one year.

(b) "Local open-space plan" is the open-space element of a county or city general plan adopted by the board or council.

(c) "Natural resource land" is land deemed by the legislative body to possess or encompass natural resources, the use or recovery of which can best be realized by restricting the use of the land as provided by this chapter.

(d) "Open-space land" is any parcel or area of land or water which is essentially unimproved and devoted to an open space use as herein defined, and which is designated on a local, regional or state open-space plan as any of the following:

(1) Natural resource land, as defined herein

(2) Agricultural land, as defined herein

(3) Recreation land, as defined herein

(4) Scenic land, as defined herein

(5) Watershed or ground water recharge land, as defined herein

(6) Wildlife habitat, as defined herein.

(e) "Open-space use" means the use of land for (1) public recreation, (2) enjoyment of scenic beauty, (3) conservation or use of natural resources, or (4) production of food or fiber.

(f) "Recreation land" is any area of land or water designated on the state, or any regional or local open-space plan as open-space land and which is actively used for recreation purposes and open to the public for such purposes with or without charge.

(g) Scenic land is land designated on the local open-space plan, as open-space land which possesses outstanding scenic qualities worthy of preservation.

(h) "Watershed or ground water recharge land" is land designated on the state or any regional or local open-space plan as open-space land which is important to the state in order to maintain the quantity and quality of water necessary to the people of the state or any part thereof.

(j) "Wildlife habitat" is any land or water area designated on the state or any regional or local open-space plan as open-space land which is unusually valuable or necessary to the preservation or enhancement of the wildlife resources of the state.

65561. The Legislature finds and declares as follows:

(a) That the preservation of open-space land, as defined in this article, is necessary not only for the maintenance of the

economy of the state, but also for the assurance of the continued availability of land for the production of food and fiber, for the enjoyment of scenic beauty, for recreation and for the use of natural resources.

(b) That discouraging premature and unnecessary conversion of open-space land to urban uses is a matter of public interest and will be of benefit to urban dwellers because it will discourage noncontiguous development patterns which unnecessarily increase the costs of community services to community residents.

(c) That the anticipated increase in the population of the state demands that cities, counties, and the state at the earliest possible date make definite plans for the preservation of valuable open-space land and take positive action to carry out such plans by the adoption and strict administration of laws, ordinances, rules and regulations as authorized by this chapter or by other appropriate methods.

(d) That in order to assure that the interests of all its people are met in the orderly growth and development of the state and the preservation and conservation of its resources, it is necessary to provide for the development by the state, regional agencies, counties and cities, including charter cities, of statewide coordinated plans for the conservation and preservation of open-space lands.

(e) That for these reasons this article is necessary for the promotion of the general welfare and for the protection of the public interest in open-space land.

65562. It is the intent of the Legislature in enacting this article:

(a) To assure that cities and counties recognize that open-space land is a limited and valuable resource which must be conserved wherever possible.

(b) To assure that every city and county will prepare and carry out open-space plans which, along with state and regional open-space plans, will accomplish the objectives of a comprehensive open-space program.

Persons whose licenses have expired shall immediately cease the activity requiring a license, but the board shall accept applications for renewal during the 30-day period following the date of expiration if they are accompanied by the new license fee. In no case shall a license be renewed where the application is received more than 30 days after the date of expiration.

(c) Each application for a new or renewal license shall be accompanied by a fee which shall be fixed by the board at an amount not to exceed two hundred dollars ($200). The application shall be made upon a form furnished by the board. 11907.1. (a) Licenses issued by the board shall not be transferable.

(b) In the event of a change of name, not involving a change of ownership, or a change of address of the licensee, the license shall be returned to the board for cancellation, and a new license application form shall be submitted. The board shall cancel the returned license and issue a new license for the unexpired term without fee.

11907.2. (a) Any license issued may be suspended or revoked by the board. The board may refuse to issue a license to any applicant for the reasons set forth in subdivision (b).

The proceedings under this chapter shall be conducted in accordance with Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code, and the board shall have all the powers granted therein.

(b) The board may deny a license if the applicant does or has done any of the following:

(1) Fails to meet the qualifications established by the board pursuant to this chapter for the issuance of the license applied for.

(2) Was previously the holder of a license issued under this chapter which has been revoked and never reissued or was suspended and the terms of the suspension have not been fulfilled.

(4) Has committed any act involving dishonesty, fraud, or deceit whereby another is injured or the applicant has benefited.

(5) Has acted in the capacity of a licensed person under this division without having a license therefor.

(6) Has entered a plea of guilty or nolo contendere to, or been found guilty or convicted of, a felony or a crime involving moral turpitude and the time for appeal has elapsed or the

judgment of conviction has been affirmed on appeal, irrespective of an order granting probation following the conviction or suspending the imposition of sentence, or of a subsequent order under the provisions of Section 1203.4 of the Penal Code allowing the person to withdraw his plea of guilty and to enter a plea of not guilty, setting aside the plea or verdict of guilty, or dismissing the accusation, information, or indictment.

(7) Violated any of the provisions of this division or Division 10 (commencing with Section 11000).

11907.3. The board may suspend, revoke, or take other disciplinary action against a license as provided in this chapter if the licensee does any of the following:

(h) Fails to send a copy of the monthly reporting form to the board as required by the provisions of this chapter.

11907.4. A plea or verdict of guilty or a conviction following a plea of nolo contendere is deemed to be a conviction within the meaning of this chapter. The board may order the license suspended or revoked, or may decline to issue a license, when the time for appeal has elapsed, the judgment of conviction has been affirmed on appeal, or an order granting probation is made suspending the imposition of sentence, irrespective of a subsequent order under the provisions of Section 1203.4 of the Penal Code allowing such person to withdraw his plea of guilty and to enter a plea of not guilty, setting aside the verdict of guilty, or dismissing the accusation, information, or indictment.

11907.5. The board may take disciplinary action against any licensee, after a hearing as provided in this chapter, by any of the following:

(c) Revoking the license.

11907.6. The expiration or suspension of a license by operation of law or by order or decision of the board or a court, or the voluntary surrender of a license by a licensee, shall not deprive the board of jurisdiction to proceed with any investigation of, or action or disciplinary proceedings against, the licensee, or to render a decision suspending or revoking the license.

11907.7. All accusations against licensees shall be filed within three years after the act or omission alleged as the ground for disciplinary action.

Registration of persons under this section shall be made on a form furnished by the board. The board may require such information as the board deems is reasonably necessary to carry out the purposes of this section, including, but not limited to, the name and address of the registrant and the name and address of the manufacturer whose drugs he is selling or distributing.

The board may deny, revoke, or suspend such person's registration for any violation of this chapter or for any violation of Division 21 (commencing with Section 26001) of the Health and Safety Code. SECTION 1. Section 39067 is added to the Health and Safety Code, to read:

39067. **The board shall coordinate those statewide activities necessary to achieve and maintain satisfactory air quality in this state.**

It has become evident in recent years that Californians are not satisfied with the quality of their air. In order for California to achieve the ambient air quality standards established by the board, increased emphasis and priority must be given to the statewide air quality program.

An effective research program is an integral part of any broad-based statewide effort to combat air pollution.

It is, therefore, the intent of the Legislature, in enacting this section, to initiate a comprehensive program of air pollution research directed at specific problem areas and designed to develop recommended courses of action. This research program shall be concerned with both vehicular and stationary sources of air pollution.

The board shall administer and coordinate all air pollution research funded in whole or in part with state funds and, in discharging its responsibilities, the board shall have the following duties and powers:

(f) Establish the administrative and review procedures necessary to carry out the provisions of this section.

(g) Collect, validate, and disseminate educational information relating to air pollution.

In awarding contracts for the conduct of air pollution research, the board shall consider the capability of the University of California to mount a comprehensive program of research to seek solutions to air pollution problems and the ability of the university through its several campuses to mobilize a comprehensive research program for this purpose.

The board shall appoint a screening committee of not to exceed seven persons, the membership of which may be rotated as determined by the board. The committee shall consist of physicians, scientists, biologists, chemists, engineers, meteorologists, and other persons who are knowledgeable, technically qualified, and experienced in air pollution problems for which projects are being reviewed. The committee shall review, and give its advice and recommendations with respect to, all air pollution research projects funded by the state pursuant to this section, including both those conducted by the board and those conducted under contract with the board. The committee members shall receive fifty dollars ($50) per day for each day they meet to perform their duties under this section. In addition to such compensation, they shall receive their actual and necessary expenses incurred while performing such duties.

SEC. 3. The State Air Resources Board shall develop a comprehensive program to:

(a) Report research results relating to specific problems in the following areas:

(1) Motor vehicle emissions control, including alternative propulsion systems, cleaner burning fuels, and improved control devices,.

(2) Control of nonvehicular emissions.

(3) Control of specific contaminants to meet air quality standards.

(4) Atmospheric chemistry and physics.

(5) Effects of air pollution on human health and comfort, plants and animals, and reduction in visibility.

(6) Instrumentation development.

(7) Economic and ecological analysis.

(8) Mathematical model development.

(9) Trends in atmospheric quality throughout the state.

(b) Provide information about the consequences of various alternative solutions to specific air pollution problems.

(2) As to those associations handling more than forty million dollars ($40,000,000) but not more than seventy-five million dollars ($75,000,000), on such amount as exceeds twenty million dollars ($20,000,000): 6.55 percent license fee; 3.52 percent purses; and 5.18 percent commission.

(3) As to those associations handling more than seventy-five million dollars ($75,000,000) but not more than one hundred twenty million dollars ($120,000,000), on such amount as exceeds twenty million dollars ($20,000,000): 6.85 percent license fee; 3.40 percent purses; and 5.00 percent commission.

(4) As to those associations handling more than one hundred twenty million dollars ($120,000,000) but not more than one hundred eighty million dollars ($180,000,000) on such amount as exceeds twenty million dollars ($20,000,000): 7.15 percent license fee; 3.28 percent purses and 4.82 percent commission.

(5) As to those associations handling more than one hundred eighty million dollars ($180,000,000), on such amount as exceeds twenty million dollars ($20,000,000): 7.45 percent license fee; 3.16 percent purses, and 4.64 percent commission.

19613. (a) The portion deducted for purses pursuant to Sections 19611 and 19612 shall be paid to or for the benefit of the horsemen at the racing meeting.

(b) Any association conducting a thoroughbred racing meeting at which the total amount handled in the parimutuel pools relating to such meeting exceeds twenty million dollars ($20,000,000) shall pay to the horsemen's organization contracting with the association with respect to the conduct of racing meetings for administrative expense and services rendered to the horsemen an amount equivalent to 1 percent of such portion less 0.44 percent of any actual losses sustained at the meeting on parimutuel minus pools. The remainder of such portion shall be distributed as purses.

(c) Any other association may pay to the horsemen's organization contracting with the association with respect to the conduct of racing meetings for administrative expense and services rendered to the horsemen such amount out of such portion as may be determined by the association by agreement or otherwise. The remainder of such portion shall be distributed as purses.

19614. Notwithstanding any provision to the contrary in this chapter, any association which handles twenty million dollars ($20,000,000) or less in the parimutuel pools operated by it during the course of a racing meeting shall be exempt from the requirements of Sections 19611 and 19612 which prescribe the amount which shall be paid for purses, and the provisions of subdivision (c) of Section 19615. Any such association shall deduct from the total amount handled in parimutuel pools relating to its meeting 15.25 percent thereof to be distributed as license fees, commissions, and purses, and shall pay a license fee of 5½ percent on the amount handled by it in lieu of any other base rate, or rates, otherwise provided for. The remaining 9.75 percent so deducted shall be distributed as commissions and purses. No such association, or its successor in interest, shall pay the reduced license fee provided for herein for more than five years after July 1, 1970.

19615. (a) The board shall provide a method for estimating the aggregate handle for each association's proposed race meeting. Estimates may be revised during the course of such meeting. Based upon the estimate, each association shall pay its license fee weekly, and purses shall be reasonably allocated over the period of the association's anticipated race meeting pursuant to a purse program developed by the association in consultation with the horsemen's organization contracting with the association with respect to the conduct of racing meetings subject to approval of the board.

(b) Within seven (7) days after the close of a race meeting an association shall pay any license fee theretofore unpaid, or shall have refunded to it any excess license fee theretofore paid.

(c) If at the close of a thoroughbred racing meeting at which the total amount handled in the parimutuel pools relating to such meeting exceeds twenty million dollars ($20,000,000) it is determined that the association conducting the meeting has not made payments to or for the benefit of own-

ers and breeders of horses in an amount equaling the percentages set forth in Sections 19611 and 19612, any excess shall be deducted from, and any deficiency not in excess of an amount agreed upon between the association and the horsemen's organization contracting with the association with respect to the conduct of racing meetings shall be added to the amount such association is required to pay to or for the benefit of owners and breeders of horses at its racing meeting in the following calendar year. Any deficiency in excess of the amount agreed upon shall be distributed as provided in such agreement.

(d) If at the close of any other racing meeting it is determined that the association conducting the meeting has not made payments to or for the benefit of owners and breeders of horses in an amount equaling the percentages set forth in Sections 19611 and 19612 of this chapter, any excess shall be deducted from, and any deficiency shall be added to, the amount such association is required to pay to or for the benefit of owners and breeders of horses at its racing meeting in the following calendar year.

19616. Any racing association conducting a thoroughbred racing meeting at which the total amount handled in the parimutuel pools relating to such meeting exceeds twenty million dollars ($20,000,000) shall deduct an additional two-tenths of 1 percent of the total amount so handled for payments pursuant to Section 19617.

19617. (a) Any association conducting a thoroughbred racing meeting at which the total amount handled in the parimutuel pools exceeds twenty million dollars ($20,000,000) shall at the end of such meeting deposit in a separate account with a depository approved by the board the amount of two-tenths of 1 percent of the amount so handled referred to in Section 19616.

(b) The board or such agent as it may direct shall distribute such funds pursuant to Section 19567 to the breeders of California-bred horses becoming entitled thereto at such thoroughbred racing meeting. All other racing associations shall pay the sums required to be paid by Section 19567 out of commissions deducted pursuant to Sections 19611 and 19612.

(c) At the end of each fiscal year the balance of such fund shall be distributed by the board or such agent as it may direct as stallion awards. Stallion awards shall be made on a prorated percentage basis to the owner of the sire of California-bred horses which win one or more races in this state, each having a total purse value of ten thousand dollars ($10,000) or more. Such award shall not be made to the owner of a stallion which has been out of the state for breeding purposes during the calendar year.

(d) The board shall report annually to the Governor and the Legislature with respect to such distributions.

19618. (a) No person licensed under this chapter to conduct a racing meeting shall pay or distribute directly or in-

directly to or on behalf of any horse owner, or to any agent, or person or organization representing any horse owner or owners, as purses or similar payment to or for the benefit of horsemen, any consideration other than that expressly provided for in this chapter.

(b) No horse owner, nor any agent or person or organization representing any horse owner or owners, shall receive, solicit or obtain from any person licensed under this chapter to conduct a race meeting as purses or similar payment to or for the benefit of horsemen, any consideration other than that expressly provided for in this chapter.

(c) No plaque, cup, tray, ribbon, trophy, or similar award given in recognition of achievement or special event shall be deemed to be consideration for the purpose of this section.

(e) This section shall not apply to any payment by an association in connection with any match race or special racing event.

(f) This section shall not apply to any payment or distribution by a non-dividend-paying corporation in accordance with its articles and bylaws.

CHAPTER 1610

An act to add Sections 11126.5 and 54957.9 to the Government Code, relating to meetings.

[Approved by Governor September 20, 1970. Filed with Secretary of State September 20, 1970.]

The people of the State of California do enact as follows:

SECTION 1. Section 11126.5 is added to the Government Code, to read:

11126.5. In the event that any meeting is willfully interrupted by a group or groups of persons so as to render the orderly conduct of such meeting unfeasible and order cannot be restored by the removal of individuals who are willfully interrupting the meeting the members of the state agency conducting the meeting may order the meeting room cleared and continue in session. Nothing in this section shall prohibit the state agency from establishing a procedure for readmitting an individual or individuals not responsible for willfully disturbing the orderly conduct of the meeting. Only matters appearing on the agenda may be considered in such a session. Duly accredited representatives of the press or other news media except those participating in the disturbance, shall be allowed to attend any session held pursuant to this section.

SEC. 2. Section 54957.9 is added to the Government Code, to read:

54957.9. In the event that any meeting is willfully interrupted by a group or groups of persons so as to render the orderly conduct of such meeting unfeasible and order cannot be restored by the removal of individuals who are willfully interrupting the meeting, the members of the legislative body conducting the meeting may order the meeting room cleared and continue in session. Only matters appearing on the agenda may be considered in such a session. Duly accredited representatives of the press or other news media, except those participating in the disturbance, shall be allowed to attend any session held pursuant to this section. Nothing in this section shall prohibit the legislative body from establishing a procedure for readmitting an individual or individuals not responsible for willfully disturbing the orderly conduct of the meeting.

SEC. 3. The Legislature finds that it is in the public interest to allow duly accredited representatives of the press or other news media to attend sessions from which members of the general public have been excluded by reason of a willful disturbance.

CHAPTER 1611

An act to amend Sections 11901 and 11916 of the Health and Safety Code, relating to restricted dangerous drugs.

[Approved by Governor September 20, 1970. Filed with Secretary of State September 20, 1970.]

The authority of the department to adopt regulations pursuant to this subdivision shall not be exercised except during those times when the Legislature is not meeting in regular session. The department may, by regulation, exempt any hallucinogenic drug, other than those listed in subdivision (c), from the application of all or part of this division when it finds that regulation of such drug as provided in this division is not necessary for the protection of the public health. Substances or preparations designated by regulations adopted pursuant to this subdivision shall be the same insofar as practicable as those designated as having a potential for abuse because of their hallucinogenic effect by the United States Department of Health, Education, and Welfare. Any regulation adopted pursuant to this subdivision shall be drafted in the form of a proposed law for submission to the next succeeding regular session of the Legislature and shall not remain in effect beyond 61 days after the final adjournment of that session of the Legislature. Notwithstanding any other provision of law, any violation of Section 11910 which involves solely a substance or preparation designated pursuant to this subdivision shall be punished by a fine of not more than five hundred dollars ($500) or by imprisonment in the county jail not exceeding six months, or by both such fine and imprisonment; any violation of any other provision of this division which involves solely a substance or preparation designated pursuant to this subdivision shall be punished by a fine of not more than one thousand dollars ($1,000) or by imprisonment in the county jail not exceeding one year, or by both such fine and imprisonment.

Nothing in this chapter authorizes the possession or furnishing by prescription of LSD, DMT, STP, or Psilocybin including their salts and derivatives, or any compounds, mixtures, or preparations which are chemically identical with such substances.

CHAPTER 1612

An act to amend Section 19617 as proposed to be added by Senate Bill No 1199 of the 1970 Regular Session of the Legislature to the Business and Professions Code, relating to horseracing.

[Approved by Governor September 20, 1970 Filed with Secretary of State September 20, 1970]

The people of the State of California do enact as follows:

SECTION 1. Section 19617 as proposed to be added by Senate Bill No 1199 of the 1970 Regular Session of the Legislature to the Business and Professions Code is amended to read:

19617. (a) Any association conducting a thoroughbred racing meeting at which the total amount handled in the parimutuel pools exceeds twenty million dollars ($20,000,000) shall at the end of such meeting deposit in a separate account with a depository approved by the board the amount of two-tenths of 1 percent of the amount so handled referred to in Section 19616.

(b) The board or such agent as it may direct shall distribute such funds pursuant to Section 19567 to the breeders of California-bred horses becoming entitled thereto at such thoroughbred racing meeting. All other racing associations shall pay the sums required to be paid by Section 19567 out of the amount deducted pursuant to Sections 19611 and 19612.

(c) At the end of each fiscal year the balance of such fund shall be distributed by the board or such agent as it may direct as stallion awards. Stallion awards shall be made on a prorated percentage basis to the owner of the sire of California-bred horses which win one or more races in this state, each having a total purse value of ten thousand dollars ($10,000) or more Such award shall not be made to the owner of a stallion which has been out of the state for breeding purposes during the calendar year.

(d) The board shall report annually to the Governor and the Legislature with respect to such distributions.

CHAPTER 1613

An act to add Article 15 (commencing with Section 429.40) to Chapter 2 of Part 1 of Division 1 of the Health and Safety Code, relating to rubella, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 20, 1970 Filed with Secretary of State September 20, 1970]

I hereby reduce the appropriation contained in Senate Bill No 432 from $750,000 to $200,000

With this reduction, I approve the bill

RONALD REAGAN, Governor

The people of the State of California do enact as follows:

SECTION 1. Article 15 (commencing with Section 429.40) is added to Chapter 2 of Part 1 of Division 1 of the Health and Safety Code, to read:

Article 15. Rubella Prevention

429.40. The State Department of Public Health shall provide financial assistance to county and areawide immunization campaigns under the direction of local health officers for the prevention of rubella.

429.41. All moneys appropriated to the department for the purposes of this article shall be made available to local health departments, as defined in Section 1102, or to areawide associations of local health departments. All moneys received by such local departments or areawide associations shall be utilized only for the purchase of rubella vaccines, other necessary supplies and equipment for rubella immunization campaigns, and promotional costs of such campaigns No moneys appropriated for the purpose of this article shall be used by the State Department of Public Health or by any local department or areawide association for administrative purposes, and no such moneys may be used to supplant or support local health department clinics and programs already regularly operated by such departments but may be used only for additional county or areawide rubella immunization campaigns. All moneys appropriated for the purposes of this article shall be expended by March 31, 1971.

429.42. The department may adopt standards, rules, and regulations necessary to carry out the intent of this article. Such standards, rules, and regulations shall be adopted only after consultation with and approval of the California Conference of Local Health Officers

429.43 The governing body of any city, county, or city and county, may charge and collect a fee for any immunization it makes for the prevention of rubella pursuant to any campaign described in this article at a rate which is reasonable and necessary to pay for the costs of such immunization.

SEC. 2. There is hereby appropriated from the General Fund to the State Department of Public Health the sum of seven hundred fifty thousand dollars ($750,000) for the purposes of Article 15 (commencing with Section 429.40) of Chapter 2 of Part 1 of Division 1 of the Health and Safety Code.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the State Constitution, and shall go into immediate effect. The facts constituting such necessity are:

There is an urgent need to prevent an epidemic of rubella expected to occur within the next two years. Such an epidemic

might result in over 2 000 children born in California with congenital defects. Further, there would be a great loss in time from school and work by those afflicted with the disease. A safe and effective vaccine is now available through private physicians and public health clinics. The State Department of Public Health, the California Conference of Local Health Officers, and the California Medical Association have stated, however, that additional community programs will be necessary to eliminate rubella as rapidly as possible. There are grossly inadequate funds available to carry out countywide vaccination campaigns to prevent the anticipated epidemic.

CHAPTER 1614

An act appropriating funds for increases in compensation for members of the California Highway Patrol, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 20, 1970 Filed with Secretary of State September 20, 1970]

I hereby reduce the appropriation contained in Assembly Bill No 1333 from $4,175,024 to $2,505,015
With this reduction, I approve the bill
RONALD REAGAN Governor

The people of the State of California do enact as follows:

SECTION 1. There is hereby appropriated to the Department of the California Highway Patrol from the Motor Vehicle Fund the sum of four million one hundred seventy-five thousand twenty-four dollars ($4,175,024) for augmentation of Item 247 of the Budget Act of 1970 for the period July 1, 1970, to June 30, 1971. The sum appropriated by this act shall be in addition to any amounts appropriated in the Budget Act of 1970 for increases in salary ranges of members of the California Highway Patrol.

SEC. 2. Before any increased salary range or rate established for any position for the period July 1, 1970, to June 30, 1971, shall become effective, a certification shall be obtained from the Director of Finance that sufficient money is available to meet the cost of such increases.

SEC. 3. The money appropriated by this act shall be used to raise the salary range of members of the California Highway Patrol which have fallen substantially behind compensation for comparable work within public service.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Compensation for members of the California Highway Patrol has fallen substantially behind compensation for other classes within public service who do comparable and often

identical work. Unless there is a prompt and adequate realignment of the compensation of the members of the California Highway Patrol, the principle of "like pay for like work" as set forth in Section 18850 of the Government Code will be violated in its application to the members of the California Highway Patrol, and state service will suffer serious and irreparable harm. It is therefore necessary that this legislation be given immediate effect.

CHAPTER 1615

An act to add an article heading immediately preceding Section 18200 of, and Article 2 (commencing with Section 18210) to Chapter 3 of Part 6 of Division 9 of, the Welfare and Institutions Code, relating to public social services, and making an appropriation therefor.

[Approved by Governor September 20, 1970. Filed with Secretary of State September 20, 1970.]

I hereby delete the $50,000 appropriation contained in Assembly Bill No. 592.
With this deletion, I approve the bill.

RONALD REAGAN, Governor

The people of the State of California do enact as follows:

SECTION 1. An article heading is added to Chapter 3 of Part 6 of Division 9 of the Welfare and Institutions Code, immediately preceding Section 18200, to read:

Article 1. General Provisions

SEC. 2. Article 2 (commencing with Section 18210) is added to Chapter 3 of Part 6 of Division 9 of the Welfare and Institutions Code, to read:

Article 2. Pilot Food Program

18210. In addition to other demonstration projects authorized under this chapter a pilot project shall be conducted pursuant to this article. This project shall commence January 1, 1971, and be limited to two counties, one in the northern and one in the southern part of this state, which are willing to participate and are designated for participation by the department.

18211. A designated county may prepare and deliver, or contract to be prepared and delivered, meals in the county to handicapped or infirm persons eligible for public assistance under Chapter 3 (commencing with Section 12000), Chapter 4 (commencing with Section 12500), Chapter 5 (commencing with Section 13000), and Chapter 6 (commencing with Section 13500) of Part 3 of this division or any handicapped or infirm persons who meet the eligibility requirements of aid to the aged except for their age and who without such service may be required to live in a protective living arrangement. A desig-

nated county may provide such service to other persons unable to properly provide meals for themselves and who are unable to secure assistance to do so who shall pay the full cost of such meals to the county. The service may be provided pursuant to contract by the county with another public or private organization.

18212. The department shall develop and test as a part of the pilot project under this article methods under which persons furnished meals as provided under Section 18211 may be charged a portion of the cost of home-delivered meals based on their ability to pay, provided that the charges for any meals provided to a recipient shall not exceed one-third of the daily food allowance of that recipient.

18212.5. In carrying out the provisions of this article the department shall cooperate with, secure information from, and study the methods and procedures of any voluntary nonprofit organization with the consent of such organization that is conducting similar federally funded projects on the effective date of this act.

18213. The department shall actively seek, and make maximum use of, federal funds which might be available for the purposes of this chapter.

18214. The department shall make annual progress reports to the Legislature including, but not limited to, a cost and benefit analysis of the program established pursuant to this article and any information and comparative analysis of other programs secured pursuant to Section 18212.5 not later than the fifth legislative day of the legislative session, commencing with the 1971 Regular Session of the Legislature.

18215. There is hereby appropriated from the General Fund the sum of fifty thousand dollars ($50,000) provided that the federal government makes available an amount equal to or in excess of such sum prior to July 1, 1971, for allocation to the designated counties for the purposes of this article.

CHAPTER 1616

An act to amend Sections 8503, 8551, and 8571 of, to add Chapter 5.5 (commencing with Section 565) to Division 2 of, to add Section 9305.5 to, and to repeal Sections 363.5 and 6011.5 of, the Education Code, relating to conservation education, and making an appropriation therefor.

[Approved by Governor September 20, 1970. Filed with Secretary of State September 20, 1970.]

I hereby delete the $176,000 and the $500,000 appropriations contained in Assembly Bill No. 1050.
With these deletions, I approve the bill.
RONALD REAGAN, Governor

The people of the State of California do enact as follows:

SECTION 1. Section 363.5 of the Education Code is repealed.

SEC 2. Chapter 5.5 (commencing with Section 565) is added to Division 2 of the Education Code, to read:

CHAPTER 5.5. ENVIRONMENTAL EDUCATION ACT OF 1970

Article 1. Statements of Policy

565. The Legislature finds and declares that throughout the state and nation, there is a growing public awareness of the serious environmental and resource use problems facing mankind, and that the citizens of the State of California expect the educational institutions of this state to equip students with the knowledge and attitudes necessary to develop solutions to these problems.

565.1. The Legislature further finds and declares that an informed public working for the common environmental good through its democratic institutions at all educational and professional levels and among all interested private parties can break the chain of destructive land use, restore land which has been improperly abused, and build balance and beauty into our cities of the future.

565.2. The Legislature further finds and declares that an educational program is needed which is designed to build necessary attitudes of stewardship toward the maintenance of the quality of our common environment and to enable all citizens to use wisely, and not destructively, the resources at their disposal.

565.3. The Legislature further finds and declares that without appropriate long-term funding, and without effective programs to encourage efforts and innovations at the school district level, and without needed materials and meaningful outdoor study opportunities, conservation education will remain a stepchild in the crowded family of public education.

565.4. The Legislature further finds and declares that man has a moral obligation to understand the world in which he lives and to protect, enhance, and make the highest use of the land and resources he holds in trust for future generations, and that the dignity and worth of the individual requires a quality environment in which he can develop the full potentials of his spirit and intellect.

565.5. The Legislature further finds and declares that conservation education should be a means of achieving an educational philosophy that will help each student develop a healthy attitude of personal responsibility toward his environment and its resources and provide him with the concepts, the knowledge, and the skills needed to contribute meaningfully to the decisionmaking process on issues involving the environment and its resources.

565.6. The Legislature further finds and declares that in all grade levels, environmental facts should be taught as they relate to each other, rather than as isolated bits of information, and that students should become aware of the interrelated nature of living processes, gain understanding of ecological re-

lationships and of the effect of human activities upon these relationships, and become sensitive to the interdependence of man and natural resources.

565.7. It is the intent of the Legislature in enacting this chapter to encourage development of educational programs for teachers and students commensurate with the importance of protecting scarce resources and safeguarding the quality of our environment.

Article 2. Advisory Committee on Conservation Education

566. There is in the state government an Advisory Committee on Conservation Education, consisting of 13 members, who shall be appointed by the State Board of Education to serve at the pleasure of the board. The members shall be representatives of conservation, education, business, professional, and governmental interests and have recognized expertise in matters relating to environmental control and wise use of natural resources.

566.1. The committee shall assist and advise the State Board of Education and the Department of Education in the development of educational opportunities for students and teachers which will promote understanding of: (a) the necessity for wise use of natural resources; (b) the interrelated nature of living processes; and (c) the impact upon the environment and ecological systems of pollution and major land alterations.

566.2. Members of the committee shall serve without compensation, except that they shall receive their actual and necessary expenses incurred in the performance of their duties, including traveling expenses.

566.3. Members of the committee shall meet at the times designated by the State Board of Education.

566.4. The committee shall select from among its members a chairman and vice chairman. The consultant to the Conservation Education Service shall serve as executive secretary of the committee.

Article 3. The Conservation Education Service

567. There is in the Department of Education the Conservation Education Service.

567.1. The Conservation Education Service shall encourage the development of educational opportunities specifically related to the conservation, the interpretation, and the use of the natural resources of the State of California, including, but not limited to, the development of nature centers, the development of conservation and wildlife education camps, and the development of the educational curriculum in relation to the conservation of natural resources and factors affecting environmental quality.

567.2. The Conservation Education Service shall have the following additional powers and duties:

(1) To assist school districts and county superintendents of schools in preparing teachers to present concepts of conservation, the effects of pollution and major land alterations on ecological systems, and the factors affecting the quality of the environment.

(2) To cooperate with and assist community colleges, state colleges, and the University of California in the development of preservice programs designed to prepare teachers to present concepts and facts relating to conservation, the effects of pollution and major land alterations on ecological systems, and factors affecting the quality of the environment.

(3) To assist school districts and county superintendents of schools in the development or acquisition, or both, of materials relating to wise use of resources and environmental issues.

(4) To assist school districts in the development of educational curriculum and educational opportunities for students, relating to the conservation of resources, factors affecting ecological systems and the quality of man's environment. Such opportunities may include but shall not be limited to, the development of outdoor education programs, nature centers, conservation and wildlife education camps, and participation in field trips.

(5) To establish and maintain a Central Library and Repository for conservation education materials pursuant to Article 4 (commencing with Section 568) of this chapter.

567.3. The Conservation Education Service shall have such other powers and duties as shall be vested in it by law.

Article 4. Conservation Education Library

568. There is in the Department of Education a Central Library and Repository for conservation education materials. Such materials may be developed by private conservation groups, by industry, and by professional, scientific, and governmental sources.

568.1. The purpose of the library shall be to serve as a master source of materials for the Conservation Education Service, public school districts, county superintendents of schools, and any regional conservation education centers which may be established.

568.2. The department shall, in establishing the library, explore new methods in data processing, new library procedures, and new means for distributing materials to local school districts, county superintendents of schools, and any regional conservation education centers which may be established.

568.3. The library shall thoroughly evaluate new materials for validity, pertinence, objectivity, and usefulness, and shall

advise the state board in the adoption of textbooks in regard to meeting the requirements for conservation education.

Article 5. Grants for Conservation Education

568.9. The people of the State of California do enact as follows:

SECTION 1. Section 15053.5 is added to the Welfare and Institutions Code, to read:

15053.5. The Director of Finance and the State Controller may approve a plan whereby funds, when appropriated for such purposes, may be transferred from the Social Welfare Federal Fund to the State Department of Education for payment of, or as reimbursement for, services provided pursuant to subdivisions (a), (b), (g), and (h) of Section 16603 and Sections 16616 and 16630.5 of the Education Code.

SEC. 2. The heading of Chapter 2.5 (commencing with Section 16150) of Part 4 of Division 9 of the Welfare and Institutions Code is amended to read:

CHAPTER 2.5. PRESCHOOL, CHILDREN'S CENTER, AND DAY CARE PROGRAMS

SEC. 3. Section 16150 of the Welfare and Institutions Code is amended to read:

16150. The Legislature finds and declares that preschool programs with a strong educational component are of great value to all children in preparing them for success in school, and constitute an essential component of public social services as defined in Section 16151. The Legislature further finds that such programs are often not available to many children who, because of the low income of their families, parents in training, or minimal employment, are deprived of adequate care and this valuable educational experience. Therefore, it is the intention of the Legislature in enacting this chapter to provide equal educational opportunity to children of low-income or disadvantaged families through appropriate arrangements for preschool and extended day care programs of an educational value to be

developed in accordance with a contractual agreement between the State Department of Social Welfare and the State Department of Education. The Legislature believes that the introduction of young children to an atmosphere of learning will improve their performance and increase their motivation and productivity when they enter school. In order to achieve this end, all programs established under this chapter shall be centered upon a defined educational program developed, conducted, and administered with the maximum feasible participation of the families served by the program.

SEC. 4. Section 16151 of the Welfare and Institutions Code is amended to read:

16151. The State Department of Social Welfare shall enter into a contract with the Department of Education to provide for a statewide system of preschool, children's center, and day care programs of an educational value, to be established by any eligible local public or private agency which submits an application therefor.

The State Department of Social Welfare shall, in cooperation and consultation with the Department of Education, determine the areas of the state in which the approval and establishment of such preschool, children's center, and day care educational programs are most likely to fulfill the intent of this chapter.

Any application to operate and maintain a children's center, day care, and preschool educational program pursuant to this chapter may include a provision for the use of facilities owned and maintained by an eligible local private agency, when such facilities may be necessary for the provision of a children's center, day care, and preschool educational program in the area to be served. Children between the ages of 2 and 14 years, inclusive, are eligible for child care and children between the ages of 3 and 5 years, inclusive, or until enrolled in the public schools, shall be eligible to participate in these preschool programs, provided that such instruction is deemed to be in the best interests of the child. Special priority shall be given to children from families of low income. Special priority shall also be given to children from families in which English is not the language primarily used in the home in order that they may develop that degree of English facility necessary to profit from school instruction.

All local children's center, day care, and preschool educational programs operated pursuant to any contract herein authorized shall be available to any child otherwise eligible pursuant to the procedures established by this chapter and by the contract regardless of race, religion or ethnic background; and no such local program shall be used, in whole or in part, for religious worship or instruction. No funds herein provided may be used for the general support of any private or sectarian school system.

SEC. 5. Section 16152 of the Welfare and Institutions Code is amended to read:

16152. The contract entered into pursuant to Section 16151 shall provide for a fee to be paid by the parent or other person having charge or custody of any child, or to be reimbursed from state and federal funds, on account of the child. The Department of Education shall, pursuant to the contract, establish a system of fees which may be charged to parents who have the financial ability to pay all, or part of, the cost of the children's center, day care, or preschool educational program.

The State Department of Social Welfare shall, pursuant to the contract, pay to the Department of Education a per capita reimbursement for each child certified as eligible for this program and participating in a children's center, day care, or preschool program established under this chapter. The per capita reimbursement shall not exceed the costs incurred in providing the service, less any parental fees, divided by the total number of children participating in the program.

As used in this section, "costs" include administrative costs which may be incurred by the Department of Education, the Department of Social Welfare, and other local public agencies, necessary for the development and implementation of the public social service herein described and for the designation of those children eligible for participation.

Maximum standards for such costs, per child, shall be established by the Department of Social Welfare, in consultation and cooperation with the Department of Education and with the advice of the advisory committee established pursuant to Section 16155, and such maximum cost standards shall be applied beginning with the 1966–67 fiscal year and each year thereafter.

SEC. 6. Section 16153 of the Welfare and Institutions Code is amended to read:

16153. The State Department of Social Welfare shall receive and administer state and federal funds for day care and preschool programs Priority in the establishment of programs shall be given to eligible public and private agencies in communities with the greatest relative need for such programs.

Notwithstanding any other provision of this code, the State Department of Social Welfare shall not provide any per capita reimbursements pursuant to Section 16152 on account of any local educational program established pursuant to this chapter which does not meet the minimum educational standards established by the State Board of Education and set forth in the contract entered into with the Department of Education.

All programs established pursuant to this chapter shall meet the requirements pursuant to Section 107 (the Federal Interagency Day Care Requirements) of Public Law 90-222 (Economic Opportunity Amendments of 1967), approved December 23, 1967.

The State Department of Social Welfare shall have only such functions, duties and responsibilities with respect to children's center programs, day care programs, or preschool programs as is required by law and federal regulations.

The Office of Compensatory Education within the Department of Education shall have overall responsibility for the administration, at the state level, of all children's centers, day care, and preschool educational programs.

Nothing contained in this chapter shall be interpreted as restricting the establishment, fiscal support, or operating standards of children's centers which are located in areas other than those designated as target areas for the purpose of providing compensatory education programs, or for the purpose of meeting federal interagency day care guidelines.

SEC. 7. Section 16154 of the Welfare and Institutions Code is amended to read:

16154. The State Department of Social Welfare and the Department of Education shall cooperate fully with the State Department of Public Health to assure health services for all children enrolled in programs under this chapter.

SEC. 8. Section 16155 of the Welfare and Institutions Code is amended to read:

16155. The Governor shall appoint an advisory committee composed of one representative from the State Board of Public Health, one representative from the Department of Human Resources Development, one representative from the State Board of Education, one representative from the State Social Welfare Board, one representative of the Director of Education, one representative of the Director of Social Welfare, one representative of the Director of Public Health, and one representative of private education, one representative of child welfare, one representative of private health care, one representative of a community action agency qualified under Title II of the Economic Opportunity Act of 1969, and five parents appointed from names selected by a democratic process to assure representation of the parents of the children being served, and three persons representing professional or civic groups or public or nonprofit private agencies, organizations or groups concerned with children's center, day care, and preschool educational programs.

The advisory committee shall assist the Department of Education in developing a state plan for the coordinated expansion of children's center, day care, and preschool services in cooperation with the Department of Education, Department of Social Welfare, Department of Human Resources Development, and the Department of Public Health.

The state plan shall delineate specific target areas in the state identified by the Department of Social Welfare and the Department of Employment which have large concentrations of low-income families. The plan shall provide for the implementation of the 1967 Social Security Act amendments and shall assure the coordinated and efficient operation of all children's center, day care, and preschool programs to insure that a maximum number of children will receive required services within the total state, federal, and local funds available for such programs. It is the intent of the Legislature that basic

services presently provided by districts in children's centers be maintained at the current cost per child per hour.

The advisory committee shall continually evaluate the effectiveness of such programs and shall report thereon at each regular session of the Legislature.

SEC. 9. Section 16156 of the Welfare and Institutions Code is amended to read:

16156. The State Board of Education shall prescribe minimum educational standards which all local programs formed under this chapter shall meet, and it shall be the responsibility of the Department of Education to see that such standards are complied with in all programs established. Such minimum educational standards shall be set forth in the contract entered into pursuant to Section 16151.

(a) The minimum program of preschool education shall be two hours per day, five days per week, exclusive of time allowed for nap and meals. The ratio of qualified adult supervisors to children shall not be less than 1 to 15 in the preschool educational components.

The Department of Education may, under rules and regulations reviewed by the advisory committee, modify all supervision ratio requirements on a pilot project basis to determine if quality programs can be accomplished at reduced cost. All such projects shall, in their evaluation, be compared to programs operated under existing requirements. The intent of waiving such ratios shall be to increase the efficiency of such programs as it relates to student growth and cost per student.

(b) The board shall adopt application forms for the use of eligible public and private agencies that desire to establish children's center, day care, and preschool educational programs.

(c) The board shall provide for the issuance of permits to qualified persons which shall be a prerequisite to their employment in such programs. Such permits shall be issued in accordance with the provisions of Sections 16625 to 16629, inclusive, of the Education Code. The employees of school districts or county superintendents of schools in day care and preschool educational programs shall have the same rights and privileges as are granted to employees of the same agencies in children's centers.

(d) The board shall prescribe such fiscal controls and fund accounting procedures as may be necessary to assure proper accounting for funds received and disbursed in the operation of children's center, day care, and preschool educational programs by school districts, county superintendents, and eligible local private agencies.

SEC. 10. Section 16157 of the Welfare and Institutions Code is amended to read:

16157. The Superintendent of Public Instruction and the Director of Social Welfare and the Director of the Department of Public Health shall jointly report to the Legislature on the

results of the children's center, day care, and preschool education programs at the 1971 Regular Session and each regular session thereafter, and shall make recommendations for adjustments in the programs.

SEC. 10.2. Section 16601 of the Education Code is amended to read:

16601. It is the intent of the Legislature that the programs established in children's centers provide educational services for children to aid them in developing the abilities and skills which will make school achievement more possible. The policy of the Legislature in enacting this chapter is to continue children's centers to provide supervision and instruction for children necessitated by the employment of women with children, who must be employed to achieve economic self-sufficiency for the family and for children of parents in the public assistance programs and other families who might become dependent on such programs, without imposing additional taxes on property which the owners of such property cannot, because of the burden now imposed, be reasonably expected to bear.

It is also the intent of the Legislature that maximum federal reimbursement shall be obtained for services to children of families that meet the requirement of federal legislation notwithstanding regulations of the Department of Social Welfare that are applicable to other day care programs.

SEC. 10.4. Section 16601.5 of the Education Code is amended to read:

16601.5. The facilities used for any children's center established pursuant to this chapter shall first be used for children of families meeting the conditions of Section 16603.1 and may then be made available for children eligible for any children's center, day care, or preschool program authorized by the laws of this state.

SEC. 11. Section 16603 of the Education Code is amended to read:

16603. The need of a parent and child for service in a children's center shall be determined upon one of the following conditions:

(a) There is but one parent in the home and such parent supports or cares, or both, for the child, or the parent is physically or mentally unable either to support the family or care for the child, or there is but one parent in the home and this parent requires education or training to qualify for entrance upon employment that will make the family economically self-sufficient.

(b) There are two parents in the home, each of whom is either working or is physically or mentally unable to either support the family or care for the child.

(c) A child is in need of a preschool educational program before entrance to kindergarten because of disadvantage arising from home and community environmental conditions.

(d) Either parent is attending school or receiving instruction, and the other parent, if any, is gainfully employed.

(e) The services of the parent having care of the child are necessary as a qualified and acceptable teacher in a public school or as a qualified and acceptable supervisor to serve in the supervision and instruction of children in a children's center or a supervisor of a children's center program, or as a qualified and acceptable aide in such program, as shall be evidenced by a statement from the employing authority of the public school to the governing body of the children's center.

(f) The services of the parent having care of the child are necessary as a registered nurse, as evidenced by a statement from the responsible employer to the governing body of the children's center.

(g) The services of the parent having care of the child are necessary to meet an emergency arising from the necessity of harvesting or processing crops, or as an agricultural worker.

(h) The parent or parents having care of the child are attending school or receiving instruction under the state vocational rehabilitation program or under the Manpower Development and Training Act or under other programs authorized for a parent or parents in families qualifying for aid to families with dependent children other than a program described in (i), as evidenced by a statement from any one of such agencies, or that one parent in a two-parent family is attending school or receiving instruction under any one of such programs, and the other parent is employed or mentally or physically incapacitated, or the parent or parents could enter into a program such as is described in this section if children's center services were available to the family.

(i) The parent or parents having care of the child are participating under a work incentive program established pursuant to Section 432 of the Social Security Act, as evidenced by a statement from the Secretary of Labor or his representative, or that one parent in a two-parent family is so participating and the other parent is either employed or mentally or physically incapacitated to the extent that he is unable to care for the child, or the parent or parents could participate in such a program if children's center services were available to the family. A person continuously employed or engaged in on-the-job training for one year under a program described in Section 432(b)(1) of that act shall, for the purposes of this section, be deemed to be participating under a work incentive program during that year, unless federal law or regulations shall prescribe a different period.

SEC. 12. Section 16603.1 of the Education Code is amended to read:

16603.1. A person meeting a condition described in subdivision (a), (b), (h), or (i) of Section 16603 has priority over a person meeting a condition described in subdivisions (c) through (g), inclusive, of that section; provided that service to a child enrolled in a children's center as of the ef-

fective date of the amendments to this section shall not be terminated.

SEC. 12.2. Section 16603.2 is added to the Education Code, to read:

16603.2. The Department of Social Welfare shall furnish the Department of Education with all necessary laws, regulations, and instructions governing subdivisions (c), (h), and (i) of Section 16603.

The Department of Education shall then issue instructions to school districts.

SEC. 12.4. Section 16604.1 is added to the Education Code, to read:

16604.1. The "total monthly income from all sources" in Section 16604 shall be determined by excluding all legal withholdings, including state income taxes and court-ordered withholding amounts.

SEC. 13. Section 16605 of the Education Code is amended to read:

16605. If either parent comes within subdivision (d) of Section 16603 and is attending school or receiving instruction for not less than half time, or if the parent or if either parent comes within subdivision (a), (e), or (f) of Section 16603, and if the income from all sources of the child's immediate family exceeds that fixed by Section 16604, but is not greater than two times the amount fixed by Section 16604, a child of such parent may be admitted to a children's center but the governing board of the school district maintaining the children's center shall, notwithstanding anything in Section 16614 to the contrary, charge and collect from the person having custody of the child, except a parent coming within (a) of Section 16603, a weekly fee which shall be in such amount as will reimburse the district for the children's centers hourly program-related costs, exclusive of capital outlay, as defined by Section 16615.1. The governing board shall charge a parent coming within (a) of Section 16603 the fee required for the applicable maximum income as provided in Section 16604, plus, for each six dollars and sixty cents ($6.60) of an additional sixty-six dollars ($66) of income, one-sixth of the difference between that fee and the amount which will reimburse the district for the children's centers hourly program-related costs, exclusive of capital outlay, as defined by Section 16615.1.

As applied to the families of men on active duty with the United States armed forces, only that portion of the pay of enlisted personnel shall be included in the "total monthly income" which is the amount which is accounted for as "base pay."

SEC. 13.2. Section 16611 of the Education Code is amended to read:

16611. The Superintendent of Public Instruction shall establish reasonable and uniform standards not in conflict with the provisions of this chapter for children's centers established and maintained under the provisions of this chapter and no

center shall be so established and maintained which does not comply with such standards.

The Superintendent of Public Instruction may establish such regulations as he deems advisable concerning conditions of service and hours of enrollment for children in children's centers.

SEC. 13.4. Section 16614 of the Education Code is amended to read:

16614. Said governing board shall charge and collect, in advance, from the person having custody of any child admitted to a children's center a weekly fee equal to that specified in the fee schedule prescribed by the Superintendent of Public Instruction except those daily hours for which payment is made under other agreements or when the governing board determines that another method of collecting fees would prevent imposing a hardship on the person having custody of the child. Payments made on behalf of a parent may be made after services are rendered.

It is hereby declared to be the policy of the Legislature that the sliding scale of fees prepared by the Superintendent of Public Instruction shall provide that increasingly larger fees shall be charged for children of families having larger incomes. It is further declared to be the policy of the Legislature that so far as possible when it becomes necessary for the Superintendent of Public Instruction to adjust the fee schedule that any increase shall be made first in fees charged to those in the higher income brackets, and the rate of increase in fees charged for children of families of different income levels need not be uniform as between the different income levels. It is further declared to be the policy of the Legislature that the fee schedule shall, so far as reasonably possible, be established on such basis and in accordance with such principles as the Superintendent of Public Instruction may determine to insure proper administration of the children's center program and to establish uniform budgetary and accounting procedures.

At no time shall a family whose income falls below federal income requirements be charged an hourly fee. The fee schedule prescribed shall not increase in excess of 50 percent of any family's income increase.

SEC. 13.6. Section 16615.1 is added to the Education Code, to read:

16615.1. For the purposes of this chapter, "cost" shall mean all program costs that are related to the operation of children's centers. SEC. 14. Section 16616 of the Education Code is amended to read:

16616. The Superintendent of Public Instruction shall prepare a schedule of fees which shall be used by each school district for the charging of fees to parents. For parents who

come within the provisions of Section 16604, the schedule shall be on a sliding scale, ranging from a lesser amount for parents within low income levels to a higher amount for higher income levels. The schedule shall provide as nearly as possible an amount equal to fourteen cents ($0.14) per hour per child. The fee schedule shall be on an hourly basis, and shall be uniformly applied.

For parents of mentally retarded or physically handicapped children, the schedule shall be as provided in Section 16645.9.

The State Department of Social Welfare shall enter into a contract with the Department of Education to provide for services under this chapter to families receiving public assistance or who are former or potential recipients of public assistance as defined by regulations of the State Department of Social Welfare whereby the State Department of Social Welfare pays either the total cost of such services or so much of the cost as will permit the maximum federal financial participation in such cost to become available. For purposes of this section, "cost" shall be defined as in Section 16615.1.

The State Department of Social Welfare shall have only such functions, duties, and responsibilities with respect to the educational program carried on in children's centers as is required by law and federal regulations.

SEC. 15. Section 16616.1 of the Education Code is amended to read:

16616.1. The Superintendent of Public Instruction is authorized to serve as the contracting agency with local public or private agencies and under the terms of the contract between the Department of Education and the Department of Social Welfare shall transmit funds paid by the Department of Social Welfare to such local agencies.

The Department of Education shall establish a procedure for reporting services and costs of services provided under such contracts in a manner to be prescribed by the Department of Social Welfare that will enable the Department of Social Welfare most expeditiously to file reimbursement claims with the federal government.

The Department of Education shall design an application form that includes all necessary information, as required, to obtain maximum federal reimbursements. The Department of Social Welfare shall furnish the Department of Education information to determine eligibility requirements for obtaining maximum federal reimbursements.

SEC. 15.2. Section 16617 of the Education Code is amended to read:

16617. The Superintendent of Public Instruction may revise the fee schedule as necessary in order to conform with the provisions of this code. A change in the fee schedule shall become effective 15 days after notice of such change has been given by the Superintendent of Public Instruction in writing to each district maintaining a children's center.

The Department of Social Welfare and the Department of Education shall institute procedures to obtain maximum federal reimbursements for all eligible participants covering the period from November 18, 1968, to the present date as required by Chapter 1353 of the Statutes of 1968. The hourly program cost, as defined in Section 16615.1, shall be computed for each school district when filing for retroactive federal reimbursements. Former and potential recipients shall be included as those eligible.

SEC. 15.4. Section 16618 of the Education Code is amended to read:

16618. The statewide average support from state funds per hour per child shall be forty-two cents ($0.42).

(a) For purposes of this article the Superintendent of Public Instruction shall apportion state funds to the districts using forty-two cents ($0.42) per hour per child. If the fees collected by any district shall for any month be less or more than fourteen cents ($0.14) per hour per child, the amount of the apportionment shall be increased or decreased in an amount equal to the amount by which the fees collected are less or more, respectively, than fourteen cents ($0.14) per hour per child.

(b) For development centers for handicapped minors, the Superintendent of Public Instruction shall apportion state funds as provided in Section 16645.11.

(c) The amount apportioned to each school district shall be the district's cost, as defined in Section 16615.1, or the state-supported rate, whichever provides the lesser amount.

SEC. 16. Section 16620 of the Education Code is amended to read:

16620. In computing amounts under Section 16618, the Superintendent of Public Instruction shall not include:

(a) Hours of attendance of children of, and fees collected from, parents required by this chapter to pay the full cost of supervision, instruction, and all food of a child in a children's center shall not be used in computing amounts under Section 16618.

(b) Hours of attendance of children of participants in an approved vocational development program or a work incentive program described in subdivision (h) or (i) of Section 16603 for whom the Department of Education advanced or reimbursed the district for, all costs of children's center services; and funds received from the Department of Education for services to those children.

SEC. 16.2. Section 16621 of the Education Code is amended to read:

16621. The said governing board shall establish in the county treasury a fund to be known as the "children's center fund" into which shall be paid all funds received by the district for, or from the operation of, children's centers, including, but not limited to, all funds derived under Sections 16634 and 16635. The costs incurred in the maintenance and

operation of children's centers shall be paid from said fund, except that any contributions, other than those described in Section 16621.1, authorized or required to be paid by the district on account of services of employees of a children's center to a retirement system shall be paid from the general fund of the district or from funds of the district derived from a special tax levied pursuant to Section 14657 or 14758 of the Education Code or Section 20532 of the Government Code.

No other funds of a district derived from the receipts of district taxes, except a district tax levied under Sections 16633 and 16635, or derived from moneys apportioned to the district for the support of the schools thereof, except state moneys expressly appropriated from the General Fund for the support of children's centers, may be expended for, or in connection with, a children's center.

Money credited to the children's center fund shall be maintained in accounts in the fund and shall be identified as to source.

Money credited to and expended from accounts in the fund that have been derived from the assessment of local taxes shall be restricted for the purpose for which the tax was raised.

Surplus balances in the county treasurer's accounts for school districts on June 30, 1971, and at the end of each succeeding fiscal year, that are derived from the apportionment of state funds shall be deducted from state apportionments for the next succeeding fiscal year.

SEC. 16.4. Section 16621.1 of the Education Code is repealed.

SEC. 17. Section 16626.6 is added to the Education Code, to read:

16626.6. Notwithstanding any other provisions of this chapter, a public or private agency or a school district or a county superintendent of schools operating a preschool educational program, a children's center, or a day care program may enter into an agreement with the State Department of Human Resources Development which will provide an opportunity to participants in work incentive programs under Division 2 (commencing with Section 5000) of the Unemployment Insurance Code for training in children's centers. Training pursuant to such agreement shall have the objective of preparation for a career in the field of child care.

No employee of a children's center shall be displaced, and no vacancy in an authorized position in regular employment with a children's center shall remain unfilled, because of services performed by trainees under this section.

SEC. 18. Section 16630 5 of the Education Code is amended to read:

16630.5. The Department of Education and the Department of Social Welfare shall enter into a contract wherein the Department of Education agrees insofar as feasible to provide children's center services or development center services,

or both, for families receiving public assistance or who are former or potential recipients of public assistance or for persons who are participating in, or, if, provided such services, could engage in a work incentive program pursuant to Section 432 of the Social Security Act, or approved vocational development program and wherein the Department of Social Welfare agrees to pay to the Department of Education, or to reimburse it for, all costs, including administrative costs, and preoperational costs, of services to participants; except that to the extent permitted by federal law, such parents who also come within the provisions of Section 16604 shall pay the fee applicable under that section. Former or potential recipients of public assistance shall mean those families eligible under federal requirements defined by the Department of Social Welfare. It is the intent of this section that the State of California exercise the option of accepting former and potential recipients of public assistance for the availability of maximum federal reimbursements. The Department of Social Welfare shall not delete the day care services regulations applicable to children's centers. The Department of Social Welfare may advance funds for this purpose. It is the intent of the Legislature that to the extent federal law permits, federal funds will be used by the Department of Social Welfare in making payments to the Department of Education, and to the extent federal money is so paid to the Department of Education, it shall expend such money, on a nonreimbursable basis, for providing additional children's center services, development center services, preschool programs, or any combination thereof.

The Department of Education, in performance of the agreement, shall enter into contracts with school districts or county superintendents or private and public agencies willing to furnish children's center services or development center services or day care services, to persons certified by the Department of Social Welfare wherein the school district or county superintendent of schools or private and public agencies agrees to furnish such services in consideration of payment by the Department of Education of all costs thereof, including administrative costs, less fees collected by the school district or county superintendent of schools or a private agency from the parents pursuant to Section 16604. The Department of Education may advance funds for the purpose. School districts and county superintendents are authorized to enter into such contracts.

"Costs" includes, among other things, the cost to the public or private agencies or the school district and county superintendent of the employers' contributions to a retirement system incurred because of services to certified participants. "Costs" does not include any amounts received by the district or county superintendent from persons who pay for children's center services in accordance with the schedule established by the Superintendent of Public Instruction.

SEC 18.3. Section 16631 of the Education Code is amended to read:

It is the further intent of the Legislature that the programs established under the provisions of this chapter be designed to facilitate an evaluation of the effectiveness of promising instructional methods, techniques, and staffing patterns that are intended to improve the level of pupil achievement in the areas of reading and mathematics.

The State Board of Education shall exempt from any and all provisions of the Education Code a program improvement school when, in the opinion of the director of the school, such provisions would hinder the implementation and maintenance of the proposed program. Such exemption shall not decrease the district apportionment from the State School Fund.

6499.39. For the purpose of state and federal categorical aid allocations, the program improvement schools shall be designated as school districts so that they may apply directly to the state for categorical aid funds to finance elements of the proposed program which could not be financed by the block grant authorized the school by the school district.

In addition to the foregoing qualifications, every Councilman must have been at the time of his taking office, or appointment in the event of a vacancy, an actual resident in the district from which he was nominated for one year immediately preceding his taking office. Any Councilman who moves from the district of which he was a resident at the time of his taking office forfeits his office, but no Councilman shall forfeit his office as a result of redistricting.

Section 12. The Council.

Upon any redistricting pursuant to the provisions of this Charter, incumbent councilmen will continue to represent the district in which they reside, unless as a result of such redistricting more than one incumbent councilman resides within any one district, in which case the City Council may determine by lot which councilman shall represent each district. At the next municipal primary and general elections following a redistricting, councilmen shall be elected from those districts not represented and from those districts represented by incumbent councilmen whose terms expire as of the general election in said year. If as a result of any redistricting more than a simple majority of the City Council as redistricted shall be elected at the general election next following any such redis-

tricting, the City Council prior to any such election shall designate one or more new districts for which the initial councilmanic term shall be two (2) years in order to retain staggered terms for councilmen.

The one-year district residency requirement of Section 7 of this Charter shall not apply to a person, herein called "prospective candidate," who seeks to be a candidate for election or appointment to the office of councilman and is otherwise eligible for the office, if all of the following conditions apply: a redistricting has occurred less than one year before prospective candidate, if elected or appointed, would take office; as a result of the redistricting, the district of prospective candidate's residence has changed to a district in which no councilmanic election will be held at the next succeeding municipal election; prior to filing his candidacy for election or appointment, prospective candidate moves his residence into a district bordering upon the district into which prospective candidate's residence has been placed by the redistricting.

covered by the bill . . . I hope that AB 740 will serve as a stimulus and that its veto will not serve to discourage consideration of change in an area needing it badly, and I assume that by the next legislative session we will have a strong consensus around a clearly understood and well developed program of legislation—or changes in policy and procedures within present departments and boards to improve the preparation, evaluation, and certification of teachers . . . "; now, therefore, be it

ARGUMENTS FOR AND AGAINST CITY MEASURES

The following arguments for and against the city measures to be submitted at the special municipal election to be held in the City of Cerritos, California, on January 20, 1970, have been filed with the City Clerk pursuant to Article 4, Chapter 3, Division 4, (Sections 5010 to 5014, inclusive) of the Elections Code of the State of California:

Arguments in Favor of Charter Changes

Proposition A

Passage of this proposition would bring the City Charter into conformity with general state law. It would permit qualified electors of one year residency to become candidates for the City Council. Presently, no citizen is eligible to hold an elective office unless he has been a qualified elector in Cerritos for two years.

Proposition B

This proposition would allow the Cerritos City Council to enact an ordinance to authorize the payment of a salary to members of the City Council. Serving as a member of the City Council involves not only taking time away from the family but from business as well. In addition, being a member of the Council requires the expenditure of monies in order to participate in programs and events which benefit the entire community. If a salary were permitted, in the sum of $150 per month, as is currently authorized by state statute in a city with a population of between 5,000 and 35,000 people, then persons of more moderate means with fixed incomes or whose compensation is determined at an hourly rate, would be encouraged to participate in the affairs of this community as members of its City Council.

Propositions C, D, E, F and G

Since the adoption by the City of Cerritos of its Charter in 1959, there has never been a general revision of the Charter provisions. Propositions C through G, inclusive, represent suggested changes in the Cerritos Charter in order to bring the City Charter into conformity with recent changes in the state laws, thus:

Proposition C changes the notice required for the calling of special meetings, raising this time from eight hours, as currently exists, to 24 hours, as is provided by provisions of the Government Code. This change would likewise amend the Charter to conform with the practices adopted by the Cerritos City Council and which currently governs its affairs.

Proposition D authorizes the City to adopt an urgency ordinance, if this be necessary, at a special meeting. This change

has been permitted by reason of a recent amendment to the Government Code of the State of California.

Proposition E would authorize the appointment of Boards or Commissions which make recommendations to the City Council regarding the affairs of this City. Existing Article 7 provides for the appointment of Boards or Commissions by ordinance, a procedure which is cumbersome at best. Proposition E would authorize appointments to be made by resolution, except in these instances where state law requires some other procedure.

Proposition F would repeal sections of the Cerritos Charter which set up the terms of office for the members of Commissions, which prohibits the payment of compensation to commissioners, and which sets forth the rules regarding the internal affairs of the Commission. If this proposition is approved and Proposition E is likewise approved by the electorate of this City, then the adopting resolution would set forth the powers and duties of the Commissions which are being established.

Proposition G would change that particular section of the Cerritos Charter, which requires claims against the City to be presented within ninety (90) days after the occurrence of any event. The state law has from time to time been amended so as to enlarge the time in which claims must be filed and Proposition G would require claims to be presented within the time period provided by state law.

State of California
County of Sacramento } ss
City of Sacramento

We, the undersigned, Richard H. Marriott, Mayor of the City of Sacramento, State of California, and Elmer C. Cleveland, City Clerk of said City, do hereby certify and declare as follows:

That the City of Sacramento, a municipal corporation of the County of Sacramento, State of California, now is, and was at all times herein mentioned, a City having a population of more than 50,000 inhabitants and has been, ever since the year 1921, organized, existing, and acting under a freeholder's Charter, adopted under and by virtue of Section 8 of Article XI of the Constitution of the State of California, which Charter was duly ratified by the majority of the qualified electors of said City at a Special Municipal Election held for that purpose on the 30th day of November, 1920, and approved by the Legislature of the State of California on January 24, 1921. (Statutes of 1921, page 1919).

That in accordance with the provisions of Article XI of Section 8 of the Constitution of the State of California, the City Council of the City of Sacramento, being the legislative body thereof, on its own motion duly and regularly submitted to the qualified electors of the City of Sacramento two propositions for the amendment of the Charter of the City of Sacramento at the regular municipal election held within the City on November 4, 1969. That said propositions were designated as "Measure B, relating to Letting of Contracts," and "Measure C, Relating to Awarding of Contracts."

In accordance with the provisions of Section 8 of Article XI, of the Constitution of the State of California, and the Charter of the City of Sacramento, the said proposed amendments were

published and advertised in full, on September 22, 1969, in the Sacramento Union, a daily newspaper of general circulation, printed and published in the City of Sacramento, the official newspaper of said City of Sacramento. The foregoing is shown by the affidavit of publication attached and on file in the office of the City Clerk.

The copies of said proposed amendments were printed in convenient pamphlet form and in type not less than 10-point as required by law, and copies thereof were mailed to each of the qualified electors of said City of Sacramento within the time and manner required by law.

And until the date of the Regular Municipal Election, November 4, 1969, as hereinafter set forth, there was published in said Sacramento Union an advertisement stating that copies of said proposed charter amendments could be had, upon application therefor, at the office of the City Clerk of said City of Sacramento.

That copies of said pamphlet containing said proposed amendments could be had upon application therefor at the office of the City Clerk of said City at all times, to and including November 4, 1969, the date of said regular election, all as required by said Section 8 of Article XI of the Constitution of the State of California.

That in accordance with the provisions of the Charter of the City of Sacramento, and in the manner provided by law, the said regular municipal election was duly and regularly held in said City on November 4, 1969, after due notice was given and published on September 22, 1969, which said last aforementioned day was not less than forty (40) nor more than sixty (60) days after the completion of the publication and advertisement of the aforementioned proposed amendment in the Sacramento Union, the official newspaper of said City of Sacramento. That at said election, a majority of the qualified electors voting upon the proposed charter amendment voted in favor of Measure B (Relating to Letting of Contracts) and in favor of Measure C (Relating to Bidding and Awarding of Contracts) and ratified the same.

That thereafter the Board of Supervisors of Sacramento County, through the County Clerk, did in the manner provided by law, duly and regularly cause the canvass of the returns of said election and report the results thereof to the City Council. Sec. 251. Letting of Certain Contracts.

The erection, improvement and repair of all public buildings and works, all street and sewer work (not payable by special assessment on the private property benefited) and all work in or about streams or water fronts, or in or about embankments or other works for protection against overflow or erosion, and the furnishing of supplies and material for the same, or for any other use by the City or the purchase of any supplies to be used by the City, when the expenditure required for the same equals or exceeds the sum of five thousand dollars ($5,000.00), shall be done by contract in writing and shall be let to the lowest responsible bidder after advertising for four consecutive days in the official newspaper for sealed proposals for the work contemplated or supplies to be furnished, except in cases of emergency as hereinafter provided. Such notice shall distinctly and specifically state the work contemplated or supplies to be furnished; provided, however, the Council may reject any and all bids if deemed excessive, and in that event, or in the event that no bids are made, may re-advertise for bids, or provide for the work to be done by the City or for the supplies to be purchased in the open market, but in no case shall supplies be bought at a price as high as the lowest bid received from a responsible bidder. No prison-made supplies shall be purchased by the City unless supplies of a similar character are not obtainable elsewhere. Notwithstanding any of the provisions of this Charter, it shall be competent for the City Council, by ordinance, to authorize the purchase from the United States Government, or any agency, department or officer thereof, of any property by the City without first advertising for bids. Further, notwithstanding the provisions of this section it shall be competent for the City Council, by resolution or ordinance, to direct any work to be done or purchases to be made by the City without first advertising for bids, if such course be recommended by the City Manager.

Measure C

To amend Section 258, of Article XXIV of the Charter of the City of Sacramento to read as follows:

Sec. 258. Bidding for and Awarding of Contracts.

On the day and within the time specified in said notice inviting sealed proposals, all bids must be filed with the City

Clerk, who shall not open or tamper with them or permit the same to be opened or tampered with or inspected by any person whatsoever or permit the same to leave his possession or give any information whatsoever relative thereto until the same shall be opened and read to the Council as hereinafter provided. No bid not so delivered to the City Clerk shall be considered. Each bid as it is received shall be numbered and marked "Filed" by the City Clerk and authenticated by his signature. During the meeting on said date, the Council shall, in open session, open, examine and publicly declare the bids and an abstract of each bid shall be recorded in the minutes of the Council by the City Clerk.

At any time after being received and before acceptance, the Council may authorize the City Manager in his discretion to order the return of all bid deposits, except two, on any one bidding proposition. The Council shall at any time thereafter award the contract to the lowest and best regular responsible bidder, unless otherwise in this Charter provided. Notice of such award shall forthwith be posted conspicuously for five days by the City Clerk on a bulletin board at or near the assembly room of the Council. The Council may reject the bid of any party who has been delinquent or unfaithful in any former contract with the City and all bids other than the lowest and best regular bid and, on accepting such lowest and best bid, shall thereupon return to the proper party the checks accompanying the bids so rejected. If all the bids are rejected, the Council shall return all the checks to the proper parties and may again invite sealed proposals as in the first instance. The check accompanying the accepted bid shall be delivered by the City Clerk to the City Controller, who shall immediately cash the same and pay the proceeds thereof into the special deposit fund of the City.

When the contract for doing said work or furnishing said supplies has been duly entered into and the bond accompanying the same has been duly approved and filed, the City Clerk shall certify said facts by voucher to the City Controller who shall draw his warrant upon the special deposit fund for the return to the contractor of the proceeds of said check. If the bidder fails or refuses to enter into the contract to do said work or furnish said supplies or to furnish the required bond, then the proceeds of said certified check shall be forfeited to the City and shall be thereupon transferred from said special deposit fund to the general fund. The Council shall not have the power to relieve from or to remit such forfeiture.

We further certify that we have compared the foregoing ratified amendments to the Charter of the City of Sacramento with the original proposals submitted to the electors of said City, and find that the foregoing is a full, true, and correct and exact copy of each such amendment.

The disciplinary action, as taken, shall be final and conclusive unless, within ten (10) days after the service of such written statement, the affected employee files with the City Manager, a written letter of appeal, appealing the appointing authority's decision imposing such disciplinary action. Within not to exceed 30 days after receipt by the City Manager of such a written appeal, he shall set a time and place for an informal hearing upon such appeal, and serve notice thereof upon the affected employee, the appointing authority, and any other person requesting such notice. At such time and place, the City Manager shall conduct an informal hearing and shall consider all relevant oral and documentary evidence presented thereat for the purpose of determining whether the disciplinary action, as taken, is supported, factually, by the evidence presented and is in accordance with this Charter and any other ordinance, rule or regulation implementing the same. The City Manager, as a result of the evidence presented at such hearing, shall affirm, overrule or modify, in whole or in part, the action taken by the appointing authority. The City Manager shall render his decision in written form, containing findings of fact in support of his decision. The City Manager shall, within five (5) calendar days after the rendering of such decision, serve a copy thereof upon the employee, the appointing authority and any other person requesting the same. The decision of the City Manager shall be final and conclusive in the absence of an appeal taken in the time and manner hereinafter provided.

(b) Appeal to Personnel Board. Any decision of the City Manager, as hereinabove described, shall be subject to an appeal to the Personnel Board. Said written letter of appeal shall briefly outline the basis thereof and shall be filed within ten (10) days after service of the City Manager's said decision upon such affected employee. Upon receipt of a timely letter of appeal, the City Clerk shall, forthwith, transmit such appeal to the Secretary of the Board who shall set the matter for hearing at the next most convenient meeting of the Personnel Board. The Secretary of the Board shall give not less than five (5) days written notice to the affected employee, the City Manager, the appointing authority and any other person requesting the same, of the time and place of such hearing. At the time and place of such hearing the Personnel Board shall conduct a de novo hearing in order to determine whether the decision of the appointing authority as approved or modified by the City Manager is supported by the evidence presented and is consistent with the provisions of this Charter and any implementing ordinance, rule or regulation applicable thereto.

The proceeding before the Personnel Board shall be conducted in accordance with the provisions of the Ralph M. Brown Act, and such other rules of procedure consistent therewith, as the Board may adopt. The Board shall give all interested parties a reasonable opportunity to be heard on relevant issues; provided, that the rules of evidence utilized in judicial proceedings shall not apply to such proceedings, but the Board shall observe the substance of such rules to the end that the matter before it can be fairly determined upon reliable evidentiary matters. At the conclusion of such hearing, the Personnel Board, based solely upon the evidence presented to it, by resolution, shall affirm, overrule or modify, in whole or in part, the determination made by the City Manager. The Secretary of the Board shall give written notice to the affected employee, the City Manager, the appointing authority and any other person requesting the same, of the decision of the Personnel Board with regard to such matter. The decision of the Board shall be final and conclusive in the absence of an appeal taken at the time and manner hereinafter provided.

(c) Appeal to the City Council. Any decision of the Personnel Board with regard to disciplinary action shall be subject to an appeal to the City Council either by the affected employee, or by the appointing authority with the approval of the City Manager. Where the appeal is taken by the appointing authority, the transcript cost shall be a proper charge against the City. Such an appeal shall contain a request by the appealing party for the City Council, alternatively:

(1) to conduct a de novo public hearing upon such matter; or

(2) to review the said decision of the Personnel Board based solely upon the transcript of the proceedings before the Board, together with written arguments relating thereto submitted by the affected employee and/or the appointing authority; or

(3) to review such matter based upon the transcript of proceedings before the Personnel Board, together with additional evidence on specific issues.

As soon as possible after the receipt of such an appeal, the City Clerk shall cause to be prepared, at the expense of the appealing party, a transcript of the Board's proceedings, which transcript shall be transmitted to the City Council. The Council shall determine, based upon a review of the transcript, whether it will conduct a de novo public hearing, review the matter solely upon the transcript and written arguments, or upon the transcript together with a partial de novo hearing upon specific issues. The City Council's determination as to which method of review shall be employed shall be final and conclusive. If a de novo hearing is to be held, or if a partial de novo hearing for the purpose of admitting additional evidence is to be conducted, the same shall be done only at a public hearing which shall be noticed in the time and manner, and conducted as in the case of an appeal to the Personnel Board. The decision of the City Council, by resolution, shall be, expeditiously made and notice thereof shall be served upon the affected employee, the Secretary of the Board, the City Manager, the appointing authority and any such other person requesting written notice thereof. The action as taken by the Council shall affirm, overrule or modify, in whole or in part, the decision reached by the Personnel Board. The decision of the City Council shall be final and conclusive in all cases.

Where disciplinary action is taken involving suspension from duty, a reduction in pay, or a demotion, the action, as taken, shall be suspended during the pendency of the appellate process; provided that disciplinary action in the form of a dismissal, notwithstanding any appellate process, shall be effective from the date imposed by the appointing authority and such person shall be reinstated only if so ordered by an appellate authority.

805. Abolition of Position. Whenever in the judgement of the City Council, it becomes necessary, in the interest of economy, efficiency or because the necessity for the position of employment involved no longer exists, the Council may abolish any position or employment in the Classified service. The City Council shall accomplish such abolition by resolution, which shall set forth the reason or necessity which requires the same.

Whenever any position is abolished and the job classifications thereof are substantially the equivalent of another position within the City's service, the City Manager shall demote or transfer the person or persons holding such posi-

tion or positions, based upon their length of service with the City. Any employee terminated because of the abolition of his position, shall be automatically reinstated if substantially the same position is recreated within one (1) year after such abolition.

806. Discrimination. No person in the City's service or seeking admission thereto, shall be employed, promoted, demoted or discharged, or in any way favored or discriminated against because of political opinions or affiliations, race, color, religious belief, sex or age, except that the City Council may establish age limits for positions in the police and fire departments.

807. Absence Because of Injury. Notwithstanding any other provision hereof, or any other rule or regulation, the absence of any officer or employee from his position, caused by injury or disease which entitles him to compensation pursuant to Section 3201 et seq. of the Labor Code of the State of California, shall not constitute a break in such person's continuous service for the purpose of salary adjustments, sick leave, vacation leave or seniority rights.

808. Contract of Performance of Administrative Functions. The City Council may contract with any person, including, but not limited to, another public agency, for the preparation and/or conduct of competitive examinations for positions in the City's classified service, or for the performance of any other personnel administrative service.

809. Implementation of Charter. The City Council shall, by ordinance, rule or regulation, implement the provisions of this Article, as may be necessary, to carry out the purpose and intent hereof.

RESOLUTION CHAPTER 72

Assembly Joint Resolution No. 14—Relative to motor vehicle license plates.

[Filed with Secretary of State May 21, 1970.]

WHEREAS, The law enforcement agencies of California and other states are increasingly faced with the problem of theft and misuse of automobile license plates; and

WHEREAS, Law enforcement agencies rely greatly on license plates for identification of motor vehicles; and

WHEREAS, The present method of each state manufacturing a separate metal license plate, with appropriate validation devices, most of which are readily detachable from the vehicle, compounds, in the opinion of most law enforcement executives, the problems of theft and misuse; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the President and Congress of the United States to direct an appropriate agency of the federal government, or form an ad hoc body, to study the feasibility of adopting a permanent numbering device, in the general size and shape as the current standardized motor vehicle license plate, to be permanently affixed to all motor vehicles manufactured for domestic use in the United States, with provision for validation by the several states to satisfy their licensing and registration statutes; and be it further

Resolved, That the numbering system adopted be in conformance with data processing requirements of the National Crime Information Center and similar law enforcement data processing facilities; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, to each Senator and Representative from California in the Congress of the United States, to the United States Attorney General, to the Secretary of Commerce, to the Secretary of Transportation, and to the attorney general of each state.

RESOLUTION CHAPTER 74

Assembly Joint Resolution No. 21—Relative to flood control projects on the San Joaquin-Kings River Interstream Group.

[Filed with Secretary of State May 25, 1970.]

WHEREAS, During the months of January and February, 1969, Fresno County experienced record rainfall which produced heavy runoff into the streams of the San Joaquin-Kings River Interstream Group, resulting in largely uncontrolled flows into the Fresno-Clovis metropolitan area, as well as other urban and farming areas of the County of Fresno; and

WHEREAS, This unprecedented runoff resulted in millions of dollars of damage in the Fresno-Clovis metropolitan area, and the President of the United States has declared Fresno County a disaster area by reason of the severity of the flooding and the resulting damage; and

WHEREAS, It is necessary that dams and other facilities be constructed upon the streams in the San Joaquin-Kings River Interstream Group to control such floodwaters during periods of extreme rainfall, so as to avoid a repetition of disastrous floods in the future; and

WHEREAS, Congress has made available funds for the conduct of studies by the U.S. Army Corps of Engineers on the need for flood control projects on the San Joaquin-Kings River Interstream Group, but the President has refused to release funds for the conduct of such studies during this fiscal year; and

WHEREAS, Due to the urgent need for flood control projects on the San Joaquin-Kings River Interstream Group together with rapidly rising costs, the public interest requires that such studies concerning flood control needs be undertaken at the earliest possible time; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the President and the Congress of the United States to release for immediate expenditure funds available for the conduct of studies by the U.S. Army Corps of Engineers on the need for flood control projects on the San Joaquin-Kings River Interstream Group; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

Resolved, That the State Water Resources Control Board is also requested to submit a report to the Legislature not later than June 1, 1970, detailing its own activities under the Porter-Cologne Water Quality Control Act; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the executive officer of each California water quality control board and of the State Water Resources Control Board.

RESOLUTION CHAPTER 76

Assembly Concurrent Resolution No. 138— Relative to the City of Riverside.

[Filed with Secretary of State May 25, 1970.]

WHEREAS, It has come to the attention of the Members of the Assembly that the City of Riverside is currently celebrating its centennial year, having been founded in the year 1870; and

WHEREAS, The earliest inhabitants of the Santa Ana River Valley were Cahuilla and Serrano Indians, followed by Spanish explorers under Captain Juan Bautista de Anza in 1774 and by Mexican settlers in the 1830's, each group making vital contributions to Riverside's heritage; and

WHEREAS, Riverside, originally founded under the name of Jurupa, was incorporated in 1883 and has a present population of over 140,000, and is known throughout the state for its beautiful tree-lined streets, parks and gardens, enjoying the title of "California's City Beautiful"; and

WHEREAS, The City of Riverside gave birth to California's multimillion-dollar navel orange industry when Mrs. Eliza Tibbetts planted California's first navel orange tree there in

1873, which parent orange tree still flourishes in a park at the intersection of two major thoroughfares in the city; and

WHEREAS, Riverside is one of the major cultural and recreational centers of California as the home of the world-famous Riverside International Raceway, the University of California at Riverside and several other colleges and universities, the Riverside Symphony Orchestra, the Riverside Opera Association, the Riverside Museum and the Riverside Civic Ballet, as well as the host to an annual "Fiesta de las Artes" (Art Festival) which brings together most of the community's cultural groups; and

WHEREAS, With its warm, dry climate and its mild winters Riverside is an ideal convention city with its famous Mission Inn Garden Hotel and Civic Auditorium serving as a hub for the numerous groups meeting there each year; and

WHEREAS, Mount Rubidoux, site of the first outdoor interdenominational Easter sunrise service, dominates the downtown skyline and gives a breathtaking view of the city to the adventurous who make their way to the top; and

WHEREAS, Riverside is a rapidly growing city whose assessed valuation has doubled in the last 10 years, and is served by several newspapers, one of which—the Riverside "Press"—was a Pulitzer Prize winner in 1968; and

WHEREAS, The City of Riverside has planned a full week of festivities to highlight its centennial year, said celebration to extend from June 6 through June 13, 1970; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the members extend their congratulations to the City of Riverside upon its centennial celebration and congratulate Riverside on its outstanding contributions to the culture and the economy of California; and be it further

Resolved, That the Chief Clerk of the Assembly transmit suitably prepared copies of this resolution to the Mayor of the City of Riverside, to the members of the Riverside City Council, to the Riverside City Manager, and to the Riverside Public Library.

RESOLUTION CHAPTER 77

Assembly Joint Resolution No. 6—Relative to flood control projects.

[Filed with Secretary of State May 26, 1970.]

WHEREAS, In March 1938, December 1955–January 1956, and January–February 1969, the Mill Ditch, Fancher Creek, Dog Creek, Pub Creek, Dry Creek, Redbank Creek, Mud Creek, Holland Creek, more particularly known collectively as the San Joaquin-Kings River Interstream Group, have caused

severe flood damage in the Fresno-Clovis metropolitan area as well as other urban and farming areas of the County of Fresno and urban and agricultural areas in adjacent counties; and

WHEREAS, Such streams are largely uncontrolled and do not have the capacities to hold back the surface runoff generated from a heavy rainfall, as was recently demonstrated by the 1969 floods, when such streams caused millions of dollars of damage to both public and private property in the Fresno metropolitan area, and many farming and urban communities of Fresno County and adjacent counties; and

WHEREAS, Existing projects constructed by the Corps of Engineers in 1928 and the Fresno Metropolitan Flood Control District in 1962 have reduced, but not eliminated, flood damages from that group of streams; and

WHEREAS, The nature of this flooding from the foothill surface runoff cannot be handled by planned local drainage facilities of the Fresno Metropolitan Flood Control District encompassing the Fresno-Clovis metropolitan area for the reason that such facilities are designed strictly for local surface runoff generated solely by urban development; and

WHEREAS, In 1969, the President of the United States declared Fresno County a disaster area by reason of the severity of the flooding and the resulting damage; and

WHEREAS, It is necessary that dams and other facilities be constructed upon the various foothill streams and tributaries running into the San Joaquin Valley in order to control such floodwaters during periods of extreme rainfall and to prevent floodwaters from damaging the rural, urban and metropolitan areas through which these streams and tributaries run; and

WHEREAS, A study of the San Joaquin-Kings River Interstream Group by the U.S. Army Corps of Engineers was authorized by Congress in 1956; and

WHEREAS, Due to the critical need for flood protection from runoff from the stream group, the U.S. Army Corps of Engineers, which is highly qualified to make studies of flood prevention, plans to initiate a study of that group as part of its San Joaquin River Basin study this fiscal year, or under the Redbank and Fancher Creek study, if that authorized investigation is funded this year; and

WHEREAS, It is necessary that an immediate study of this problem and of the facilities which will be required in order to prevent further disastrous floods in the future be undertaken; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the President and the Congress of the United States to make an appropriation for the purpose of allowing the U.S. Army Corps of Engineers to make an immediate study on the need for flood control projects on the San Joaquin-Kings River Interstream Group, together with the dams and flood control facilities required, the design criteria therefor, and the cost of such facilities; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

RESOLUTION CHAPTER 78

Assembly Joint Resolution No. 13—Relative to oil drilling sanctuaries.

[Filed with Secretary of State May 26, 1970.]

WHEREAS, The California Legislature has created certain sanctuaries in which leasing of state-owned tide and submerged lands for oil and gas development is prohibited or controlled; and

WHEREAS, These sanctuaries and the coastal lands adjacent to them will be in serious jeopardy of pollution of disastrous proportions if leases are granted for oil, gas, or other minerals exploration and exploitation in federal submerged lands oceanward of the existing state sanctuaries; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the President and the Congress of the United States to prohibit oil and gas development operations on such submerged federal lands off the California coast as would represent an extension to the outer continental shelf of the boundaries of the oil drilling sanctuary areas which have been created with respect to certain tide and submerged lands of the state; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, to the Secretary of the Interior, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

Assembly Concurrent Resolution No. 67—Relative to the State Exposition and Fair.

[Filed with Secretary of State May 26, 1970.]

WHEREAS, California annually stages a State Exposition and Fair displaying the agricultural and industrial and commercial products of this state; and

WHEREAS, Agriculture is California's number one industry; and

WHEREAS, The California Department of Agriculture does not present an exhibit highlighting its works and programs at the State Exposition and Fair; and

WHEREAS, California as the number one agricultural state should provide adequate financial support from the Fair and Exposition Fund so that there can be an agricultural display at the State Exposition and Fair which would be on a topic of current public interest; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Director of Agriculture is requested to seek an adequate allocation not to exceed one thousand dollars ($1,000) from funds available from the Fair and Exposition Fund to provide an annual exhibit on a current topic of public interest relating to agriculture prepared by various state agencies concerned with agriculture; and be it further

Resolved, That the Chief Clerk of the Assembly transmit a copy of this resolution to the Director of Agriculture.

Shall Article 11 of Section 47 of the Charter of the City of Piedmont be amended in the manner and to the extent set forth below to be effective following the approval of the electorate of the City of Piedmont and upon subsequent approval of the legislature of the State of California, but to apply to the pensions of all policemen and firemen who retire or have retired on or after January 1, 1970:

(All words to be deleted are underlined, and all words to be added are in light-face capital letters.)

Article 11. Disability—non-occupational

In the event a member has completed 20 or more years of service and prior to or after reaching the age of fifty-five (55) years such member becomes totally and permanently disabled due to non-occupational bodily injury or disease, excluding self-inflicted injury or attempt at suicide, the pension plan shall provide a pension for such member commencing at the age of fifty-five years if such disability occurs prior to reaching the age of fifty-five (55) years or at the time of disability if such disability occurs after reaching the age of fifty-five (55) years, and such pension shall be a sum equal to one-half

of the average monthly salary received by such member during the period of twelve months immediately preceding such disability, multiplied by a fraction of which the member's completed years of service is the numerator and twenty-five is the denominator.

The term "total and permanent disability", as used in this section is defined as incapacity of the member resulting from bodily injury or disease which prevents him from performing substantially all of the work pertaining to his occupation or any other occupation for which he is or may be suited by education, training or experience.

UPON THE DEATH OF A RETIRED MEMBER WHO IS RECEIVING OR IS ENTITLED TO RECEIVE A MONTHLY PENSION FROM THE FUND UNDER THE PROVISIONS OF THIS ARTICLE, HIS WIDOW, AS DEFINED IN ARTICLE 12, SHALL RECEIVE FROM THE FUND SO LONG AS SHE SHALL REMAIN UNMARRIED AND UNTIL HER DEATH, A MONTHLY PENSION IN A SUM EQUAL TO ONE-HALF OF THE MONTHLY PENSION TO BE RECEIVED OR BEING RECEIVED BY THE MEMBER AS HEREINABOVE SET FORTH IN THIS ARTICLE; PROVIDED THAT HIS WIDOW SHALL NOT COMMENCE RECEIVING SUCH MONTHLY PENSION PRIOR TO THE DATE THE RETIRED MEMBER HAS OR WOULD HAVE REACHED THE AGE OF FIFTY-FIVE (55) YEARS.

Proposition B—To Reflect Salary Increases for Policemen and Firemen in Their Temporary Disability Pension Benefits

Shall Article 6 of Section 47 of the Charter of the City of Piedmont be amended in the manner and to the extent set forth below to be effective following the approval of the electorate of the City of Piedmont and upon subsequent approval of the legislature of the State of California, but to apply to the pensions of all policemen and firemen who retire or have retired on or after January 1, 1970:

(All words to be deleted are underlined, and all words to be added are in light face capital letters.)

Article 6. Industrial death or disability

Whenever a member shall lose his life due to an injury, disability or disease caused by and received in the course of his employment and in the performance of his duty, then upon satisfactory proof of such facts made to it, said Board shall order and direct a sum equal to 50% of the sum provided for in the last paragraph of this article, said sum to be paid monthly from said fund, and not otherwise, to the widow

of said deceased member as long as she lives, or until she shall earlier remarry.

Should said deceased member leave no widow but should leave an orphan child or children under the age of 18 years, or should the deceased member leave a widow and child or children under the age of eighteen (18) years and the widow die without remarrying while such child or children are yet under the age of eighteen (18) years, said monthly amount shall be paid to such child or children who are under the age of eighteeen (18) years and such payment shall continue until the youngest child attains the age of eighteen (18) years provided, that no child shall receive any payment after attaining the age of eighteen (18) years or after marrying before attaining the age of eighteen (18) years.

Whenever a member, as a result of accident, injury, disability or disease, directly caused by and received in the course of employment and in the performance of his duty, is sufficiently disabled that he is no longer able to perform his regular duties, then upon satisfactory proof of such fact made to it, the board shall order and direct that such member be paid from the fund a monthly sum sufficient to make up the difference between the workmen's compensation and social security payments to which such member is otherwise entitled, and the monthly salary he was receiving at the time of his disability, CURRENT MONTHLY SALARY OF SUCH MEMBER, INCLUDING ANY SALARY INCREASES THERETO, such monthly sum to be paid for a period not to exceed one year or for such lesser time as such member's disability shall continue, and if such period of disability extends beyond one year, then the board shall order and direct the monthly payment from the pension fund to such member of an amount equal to 50% of the sum provided for in the last paragraph of this article, said payments to continue until such member's disability terminates or until such members death; provided, however, that should the City continue to pay the salary of such disabled member during the period of disability and at a time during which the pension plan should be making payments to such member, the City rather than the disabled member, shall receive from the pension fund such payments as the disabled member would have otherwise been entitled to receive from the fund during such period that the City continues to pay such disabled member's salary; provided further, that should such period of disability extend beyond one year, and, at such time such disabled member shall have accrued sick leave due him from the City, then such disabled member shall first be restored to full salary by the City during the period equal to his accrued sick leave, and only thereafter shall he be paid the 50% monthly pension from the pension fund as hereinabove provided.

Upon the death of a member who is receiving monthly disability pension payments from the pension fund pursuant to this article, his widow, as defined in Article 12, shall receive

from the fund so long as she shall live, or until she shall earlier remarry, a monthly pension equal to 25% of the sum provided for in the last paragraph of this article.

All payments set forth in this article 6, shall be subject to the deductions set forth in Article 9 of this Section 47.

The sum to which reference is hereinabove made is the average monthly salary received by such member during the period of twelve months immediately preceding the date of death, accident, injury, disability or disease of such member, provided, however, that if such member advanced in rank at any time during the three (3) years preceding such last-mentioned date, the sum to which reference is hereinabove made shall be equal to the following fraction:

The sum of the current monthly salary paid by the City on such date for each rank held by such member during the preceding thirty-six (36) months with each such salary multiplied by the number of months during which each such rank was held in said thirty-six (36) month period, divided by thirty-six (36).

and

WHEREAS, The proposed amendments to the charter, as adopted and ratified as hereinabove set forth, have been and now are duly submitted to the Legislature of the State of California for approval or rejection, as a whole without power of alteration or amendment, in accordance with Section 8 of Article XI of the Constitution of the State of California; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, a majority of all the members elected to each house voting therefor and concurring therein, That the amendments to the Charter of the City of Piedmont, County of Alameda, as proposed to, and adopted and ratified by, the electors of the city, as hereinabove fully set forth, are hereby approved as a whole, without alteration or amendment, for and as amendments to, and as part of, the Charter of the City of Piedmont, County of Alameda.

WHEREAS, Congress enacted the national school lunch program more than 23 years ago, and since has enacted additional legislation providing for the feeding of needy schoolchildren, but has never appropriated sufficient funds to reach all needy schoolchildren with such programs; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the President and the Congress of the United States to immediately enact such legislation and make such appropriations as will enable every schoolchild in need of nutritious free or reduced-price school meals to have access to such meals; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, to the Secretary of Health, Education, and Welfare, to the Secretary of Agriculture, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

RESOLUTION CHAPTER 85

Assembly Joint Resolution No. 11—Relating to the importation of low-sulfur fuel oil.

[Filed with Secretary of State June 8, 1970.]

WHEREAS, Atmospheric pollution is a major contributor to environmental degradation, damaging both human health and property; and

WHEREAS, Over 10,000 persons annually are advised by their physicians to leave the Los Angeles area because of the pathological effects of breathing polluted air; and

WHEREAS, California's property owners incur over one-half billion dollars of damages annually, with California agriculture alone suffering $250 million worth of crop damage yearly because of air pollution; and

WHEREAS, The State of California in its efforts to combat air pollution has enacted numerous laws and regulations, divided the state into 11 air basins for purposes of regulation, and has developed minimum statewide air quality standards; and

WHEREAS, The United States government has designated the San Francisco and Los Angeles air basins as federal air quality control regions, for which the State of California has developed air quality standards pursuant to federal law; and

WHEREAS, Sulfur dioxide, a major atmospheric contaminant, is the waste product of the combustion of high-sulfur fuel oil used to fire the boilers of electric power generating plants; and

WHEREAS, To prevent the emission of sulfur dioxide, natural gas is used as a fuel during the seven warm months of the year and low-sulfur fuel oil principally from Indonesia is imported by permission of the federal government during the five winter months; and

WHEREAS, The use of low-sulfur fuel oil contributes significantly to the improvement of the atmosphere's quality since high-sulfur fuel oil emits five times as much sulfur dioxide, three times as much particulate matter and twice as much nitrogen dioxide as low-sulfur fuel; and

WHEREAS, The Cabinet Task Force for Oil Import Control is recommending to the President of the United States that the means for regulating the importation of crude oil be changed from the present quota system to a system of tariffs; and

WHEREAS, It is anticipated that the change to the tariff system will increase the price of low-sulfur fuel oil and impose additional costs on our efforts to fight air pollution; and

WHEREAS, The success of local, state and federal governments' efforts to combat air pollution is absolutely dependent upon the recognition of the necessity for cooperation and coordination among all levels of governments in developing and administering programs to eliminate air pollution; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of the State of California requests the President of the United States to permit the continued importation of low-sulfur fuel oil unhampered by costly tariffs; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the Secretary of Labor, the Chairman of the Cabinet Task Force for Oil Import Control, the Secretary of Health, Education, and Welfare, the Adviser to the President on Science and Technology, and the Chairman of the President's Task Force on Air Pollution.

WHEREAS, The State of California in its efforts to combat air pollution has enacted numerous laws and regulations, divided the state into 11 air basins for purposes of regulations, and has developed minimum statewide air quality standards; and

WHEREAS, The State of California has initiated a variety of state-financed special programs designed to spur the development of low-emission vehicles; and

WHEREAS, One of these programs calls for the conversion of 185 state vehicles to compressed natural gas and liquid natural gas fuel systems; and

WHEREAS, The General Services Administration of the federal government has announced its intention to convert 1,000 of its vehicles to compressed natural gas and liquid natural gas fuel systems; and

WHEREAS, California, among all the states, suffers most from motor vehicle caused air pollution; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of the State of California request the General Services Administration to convert, as soon as possible, to natural gas fuel systems as many federally owned vehicles operated in the State of California as can be practically equipped with such systems; and be it further

WHEREAS, Mr. Wayne attended Glendale High School where he played football and excelled in debating, and then attended the University of Southern California as a scholarship student where he played tackle on the football team, was an all-around activity man and a member of Sigma Chi Fraternity; and

WHEREAS, John Wayne's first contact with the motion picture industry was when he had a summer vacation job at what was then the Fox Film Studio; and

WHEREAS, His dynamism and latent ability attracted the attention of John Ford who prodded him into taking a small role in the film "Hangman's House," and he played his first important role in the motion picture "The Big Trail" in 1929; and

WHEREAS, He won critical acclaim as a "new" star as a result of his portrayal of "Ringo Kid" in the classic film "Stagecoach"; and

WHEREAS, During his long and illustrious career, Mr. Wayne has worked in some 200 films and each year since 1949 has been listed among the Top Ten of all film stars in box office draw; and

RESOLUTION CHAPTER 94

Assembly Concurrent Resolution No. 79—Relative to the Division of Highways San Diego Maintenance Station.

[Filed with Secretary of State June 18, 1970.]

WHEREAS, The Division of Highways San Diego Maintenance Station is located in Old San Diego; and

WHEREAS, Realizing the inadequacy of the present physical facilities to handle the maintenance workload of the expanding system of state highways in the San Diego area, the division, in 1967, on the basis of relative property values, central location, and community relations, recommended to the California Highway Commission that a new maintenance station be constructed on state-owned property in Kearney Mesa; and

WHEREAS, The commission, in August 1969, rejected the recommendation of the division on the supposition that the Kearney Mesa property was too valuable to be used as a highway maintenance station; and

WHEREAS, The retention of the maintenance station at the present site represents an incompatible use of the land as contemplated by the Old San Diego Community Plan, which calls for the development of hotels, motels, and restaurants on the site; and

WHEREAS, The sale of the Old Town site of the maintenance station to private developers of Old San Diego would in all probability generate sufficient funds to purchase a site elsewhere in San Diego for the urgently needed larger maintenance station; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Members request the California Highway Commission to reconsider its decision of August 1969, and to proceed to take affirmative action to discontinue use of the present site as a maintenance station, and to locate another site in San Diego for the urgently needed larger maintenance station; and be it further

Resolved, That the Chief Clerk of the Assembly transmit a copy of this resolution to the California Highway Commission.

Resolved, That the Chief Clerk of the Assembly transmit a copy of this resolution to the Superintendent of Public Instruction.

RESOLUTION CHAPTER 96

Assembly Concurrent Resolution No. 37—Relative to a study of malnutrition.

[Filed with Secretary of State June 23, 1970.]

WHEREAS, The California Legislature has determined that malnutrition in various forms exists and is detrimental to the general health and welfare of the people of California; and

WHEREAS, It is recognized that nutritional deficiencies among children present serious obstacles to their mental and physical development and educational achievement; and

WHEREAS, It is further recognized that malnutrition results from a variety of causes, among which are lack of knowledge of what constitutes a proper diet, the lack of ability to prepare nutritionally balanced diets, especially when food budgets are limited, and lack of knowledge of the importance and value of nutritionally sound diets; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the State Department of Social Welfare, the Department of Education and the Department of Public Health are hereby directed to conduct a joint study on the need for education in proper nutrition, especially among low-income families with children; and be it further

RESOLUTION CHAPTER 98

Assembly Joint Resolution No. 24—Relative to air traffic control.

[Filed with Secretary of State June 23, 1970.]

WHEREAS, The Federal Aviation Administration is currently intending to adopt air traffic rules for the control or segregation of all aircraft operated within the airspace designated by the administration as "terminal control areas" and to initially designate 22 such terminals throughout the United States (two of these terminals being Los Angeles and San Francisco); and

WHEREAS, The proposed terminal control airspace configuration will deny unnecessarily large areas of the airspace in the vicinity of the designated terminals to use by large segments of the flying public; and

WHEREAS, The State of California, represented by its Department of Aeronautics, is vigorously opposed to the method proposed by the Federal Aviation Administration for the achievement of this objective and proposes instead the channeling of air carrier type aircraft into approach and departure corridors wherein speed and rates of climb and descent are

rigidly controlled, these corridors to be sterilized of noncompatible air traffic; and

WHEREAS, The establishment of these true air corridors for the approach and departure of commercial air traffic with updated and modernized traffic control methods and equipment will resolve the serious problem of mixing different kinds of air traffic and greatly enhance air traffic safety without unnecessarily restricting the use of large areas of the airspace; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the President and the Congress of the United States, the Department of Transportation and the Federal Aviation Administration to take appropriate action in regards to the control of air traffic in terminal control areas, such action to be towards the utilization of a true corridor approach and departure system instead of the currently planned airspace configuration; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, to each Senator and Representative from California in the Congress of the United States, to the Department of Transportation and to the Administrator of the Federal Aviation Administration.

Assembly Joint Resolution No. 34—Relative to acquisition of a new training vessel for the California Maritime Academy.

[Filed with Secretary of State June 23, 1970.]

WHEREAS, The training ship S.S. Golden Bear was built in 1945 for wartime use as AKA and that she was made available to the California Maritime Academy for use as a training ship in 1946 and after 23 years of active service is showing evidence of age; and

WHEREAS, While the hull is in generally good condition, the machinery, plumbing, wiring, tank tops, berthing spaces and other details have reached a stage where only a one-time expenditure of several million dollars can ensure her continued usefulness; and

WHEREAS, The piece-by-piece patchwork with only a portion of the annual appropriated funds for the repair of the five state maritime academy training ships cannot suffice to keep the S.S. Golden Bear in reasonably safe operation; and

WHEREAS, The administrative officers of the California Maritime Academy have reviewed several possible replacement vessels; and

WHEREAS, The administrative officers of the California Maritime Academy have determined that the most suitable replace-

ment vessel would be the S.S. Crescent City now located at Suisun Reserve Fleet at Benicia, California; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the California Congressional Delegation request that the Secretary of Commerce furnish a suitable vessel as replacement for the S.S. Golden Bear; and be it further

Resolved, That the S.S. Crescent City be designated as such replacement; and be it further

WHEREAS, Modesto is the county seat and largest city in Stanislaus County; and

WHEREAS, The discovery of gold in California brought hordes of men rushing into the nearby Mother Lode, starting many early settlements along the river; and

WHEREAS, In 1870 surveyors laid out one of those settlements which was designated the City of Modesto; and

WHEREAS, The name for the city originated when W. C. Ralston, a prominent early Californian, declined to have the community named after him, and his modesty in declining the tribute led to the choice of the name, Modesto, Spanish for modesty; and

WHEREAS, The city is proud of its motto "Water—Wealth—Contentment—Health" which proudly delivers the message so aptly describing the growth and prosperity of the area; and

WHEREAS, Agriculture, commerce, and industry combine to provide the people of Modesto full and abundant living; and

WHEREAS, In 1954 the City of Modesto was designated All American City in recognition of citizens' participation in civic planning projects; and

WHEREAS, Travelers to Modesto are welcomed by the nationally known Modesto Arch which extends across one of its main streets; and

WHEREAS, Citizens of the City of Modesto should be rightfully proud of its history and its heritage, and of their efforts in meeting the needs of the people as Modesto moves into the next century; now, therefore, be it

RESOLUTION CHAPTER 101

Senate Joint Resolution No. 23—Relative to agricultural burning.

[Filed with Secretary of State June 24, 1970.]

WHEREAS, Open agricultural burning for the disposal of unusable plant residues in fields and orchards, range burning to improve grazing lands, and open burning to remove fire hazards in forest lands produce smoke and air pollution in many areas in California; and

WHEREAS, The use of fire to control and remove weeds from levees, ditches, and drainage canals contributes to these same air pollution problems; and

WHEREAS, The use of fire to dispose of such wastes and to control the growth of weeds and brush must continue for some time because alternative methods of disposal and control are not readily available; and

WHEREAS, The State of California wishes to regulate such burning by restricting the time of burning to periods meteorologically suitable to the rapid dispersal of the smoke; and

WHEREAS, The meteorological services of the United States Weather Bureau do not provide data or coverage in many major agricultural areas of California necessary for forecasts for regulating agricultural burning or to serve other air pollution control programs; now, therefore, be it

Resolved by the Senate and Assembly of the State of California, jointly, That the Legislature of the State of California hereby requests the United States Department of Commerce to augment the observations and technical services of the Weather Bureau to enable it to forecast periods meteorologically suitable

for agricultural burning and to provide other meteorological data bearing on air pollution control; and be it further

Resolved, That the Secretary of the Senate transmit a copy of this resolution to the Secretary of Commerce of the United States.

The adoption of this Article shall not alter or modify the liability of the city, the retirement system, or its members, for retirement plans which were in existence upon the effective date of this Article, nor shall it alter or modify the method of funding such plans as prescribed in former Sections 167 to 175.29 of this Charter.

Sec. 302. Equal Shares Retirement Plan—Compulsory Membership.

Except as hereinafter provided, all persons who enter the employ of the city on or after the effective date of this Article shall become members of the Equal Shares Retirement Plan which is described in following sections of this Article. Membership in this retirement plan shall be limited to full-time officers and employees of the city and, except as provided herein, shall not include persons employed by the city on a seasonal, limited-term, part-time or substitute basis, or elective officers or appointive members of city boards and commissions. The city council, by ordinance enacted by three-fourths of all members of the council, may authorize persons employed by the city on a seasonal, limited-term, part-time or substitute basis to become members of this plan on such terms and conditions as it deems reasonable.

Sec. 303. Same—Optional Membership.

Except as hereinafter provided, persons who are members of the system under former Sections 175.1, 175.7, 175.13 and 175.21 of this Charter and who have not retired on the effective date of this Article, shall have the option of becoming members of the Equal Shares Retirement Plan. This option shall be exercised by said persons through the making of an individual affirmative irrevocable election to become members of this plan rather than to retain membership in other plans of the system.

The election shall be made by each individual member not sooner than the effective date of this Article nor later than 45 days after said effective date. The retirement board shall prescribe rules, regulations and procedures relating to the exercise of said option not inconsistent with the provisions of this section.

Sec. 304. Same—General Definitions.

The following words and phrases as used in this Article, unless a different meaning is plainly required by the context, shall have the following meaning:

"Accumulated normal contributions" shall mean normal contributions plus interest.

"Benefit" shall include "allowance", "retirement allowance", "disability retirement allowance" and "death benefit".

"Board" or "retirement board" shall mean retirement board as referred to created in Section 292 of this Charter.

"Charter" shall mean the Charter of the City of Sacramento.

"Compensation", as distinguished from benefits under the Division 4 of the Labor Code of the State of California, shall mean all remuneration whether in cash or by other allowances made by the city for service qualifying for credit under this Article, but excluding remuneration paid for overtime, remuneration paid as a credit for accumulated sick leave, and payments paid by the system in lieu of disability retirement allowance under Section 319. For the purposes of this plan, overtime is the aggregate service performed by a member in all categories of employment in excess of the hours of work considered normal for employees on a full-time basis and for which monetary compensation is paid.

"Compensation earnable" shall mean the compensation as determined by the retirement board, which would have been earned by the member had he worked, throughout the period under consideration, the average number of days ordinarily worked by persons in the same grade or class of positions as the positions held by him during such period and at the rate of pay attached to such positions. The computation for any absence of a member shall be based on the compensation earnable by him at the beginning of the absence and that for time prior to entering the service of the city shall be based on the compensation earnable by him in the position first held by him in such service.

"Council" or "city council" shall mean the council of the City of Sacramento.

"Final compensation" means the highest average annual compensation earnable by a member during any period of three consecutive years during his membership in the system, or if his membership is of a lesser period, it shall mean the average annual compensation earnable by the member during such period. For the purposes of this Article, periods of service separated by breaks in service may be aggregated to con-

stitute a period of three consecutive years, if the periods of service are consecutive except for such breaks. If a break in service did not exceed six months in duration, time included in the break and compensation earnable during such time shall be included in computation of final compensation. If a break in service exceeded six months in duration, the first six months thereof and the compensation earnable during those six months shall be included in computation of final compensation, but time included in the break which is in excess of six months and the compensation earnable during such excess time shall be excluded in computation of final compensation.

"Former Charter Section" shall mean a section of this Charter as said section read on the date immediately preceding the effective date of this Article.

"Member of this plan" shall mean any member of the retirement system who is a member of the Equal Shares Retirement Plan created by Section 302 of this Article.

"Member" shall include miscellaneous members and safety members as herein defined.

"Military service" shall be defined by the city council. The absence of any officer or employee of the city from city service caused by reason of military service shall not be deemed to be such an absence from city service as shall break the continuity of service required of such officer or employee to entitle him to a retirement allowance under this Article. The city council may elect to provide funds sufficient to continue the contributions of members absent and in such military service, in which case the period of such absence shall be deemed service for the city.

"Miscellaneous member", or "miscellaneous officer or employee", shall mean any officer or employee who is a member of the retirement system and is not a safety member as defined in this section.

"Retirement system" or "system" shall mean Sacramento City Employees Retirement System referred to in Sections 290 and 291 of this Charter.

"Safety member" shall mean any officer or employee of the police or the fire departments whose employment therein was or shall be subject to a Charter maximum age at the time of entering employment of not over thirty-five (35) years, or such other maximum age as may be fixed from time to time by amendment to the Charter.

"Widow", "surviving wife" and "surviving spouse" shall each mean the surviving wife, or the surviving husband. In the case of a woman who is a member of the retirement system under any retirement plan other than that created by Section 302 of this Article, the terms "widow", "surviving wife" and "surviving spouse" shall mean her surviving husband only if the surviving husband is dependent upon the member for at least one-half of his support at the time of the member's death.

Words used in the masculine gender shall include the feminine and neuter genders and singular numbers shall include the plural and the plural the singular.

Sec. 305. Same—Age of Voluntary and Mandatory Retirement for Service by Safety Members.

Any safety member of this plan who has completed at least five (5) years of service in the aggregate and attains the age of fifty (50) years may voluntarily retire for service under such uniform procedures as may be prescribed by ordinance enacted by the council. Safety members of this plan shall be mandatorily retired on the first day of the month next following the date on which they attain the age of sixty (60) years.

Sec. 306. Same—Service Retirement Benefits for Safety Members.

A safety member of this plan shall receive a service retirement allowance equal to the percentage of his final compensation set forth opposite his age at retirement taken to the preceding completed quarter year in the following table and multiplied by the number of years of such service with which he is credited at retirement:

Sec. 307. Same—Age of Voluntary and Mandatory Retirement for Service by Miscellaneous Members.

Any miscellaneous member of this plan who has completed at least five (5) years of service in the aggregate and attains the age of fifty (50) years may voluntarily retire for service under such uniform procedures as may be prescribed by ordinance enacted by the council. Miscellaneous members of this plan shall be mandatorily retired on the first day of the month next following the date on which they attain the age of sixty-five (65) years.

Sec. 308. Same—Service Retirement Benefits for Miscellaneous Members.

A miscellaneous member of this plan shall receive a service retirement allowance equal to the percentage of his final compensation set forth opposite his age at retirement taken to the preceding completed quarter year in the following table and

multiplied by the number of years of such service with which he is credited at retirement:

Sec. 309. Same—Maximum Service Retirement Allowance. In no event shall the service retirement allowance of any member of this plan exceed seventy-five percent (75%) of his final compensation.

Sec. 310. Same—Exemptions from Mandatory Retirement Age.

The city council may, upon the recommendation of the city manager, extend for periods of one (1) year each and not to exceed a total of five (5) years, the mandatory retirement age of any member of this plan who is exempt from the rules and regulations of the civil service board under Section 43 of this Charter and resolutions adopted thereunder.

Sec. 311.. Same—Retirement for Industrial Disability.

Any member of this plan who becomes incapacitated for the performance of his duty by reason of any bodily injury or physical illness caused by or in performance of his duty shall be retired on an industrial disability retirement if it is determined by the retirement board that the incapacity of the member is of an extended and uncertain duration.

Sec. 312. Same—Industrial Disability Retirement Benefits.

If a member of this plan who is entitled to industrial disability retirement benefits is not qualified for voluntary service retirement, he shall receive a disability retirement allowance equal to fifty percent (50%) of his final compensation. If such member is qualified for voluntary service retirement, he shall receive a disability allowance of an amount equal to the service retirement allowance he would have received if he had elected to retire from service on the date when the retirement board orders his retirement for industrial disability, or an allowance equal to fifty percent of his final compensation, whichever amount is greater.

Sec. 313. Same—Retirement for Ordinary Disability.

Any member of this plan who becomes incapacitated for performance of his duty by reason of a bodily injury or physi-

cal or mental illness and who has completed ten years of service in the aggregate shall be retired on an ordinary disability retirement allowance if it is determined by the retirement board that the incapacity of the member is of an extended and uncertain duration and that the member is not entitled to an industrial disability retirement.

Sec. 314. Same—Ordinary Disability Retirement Benefits for Safety Members.

If a safety member of this plan who is entitled to ordinary disability retirement benefits is not qualified for voluntary service retirement, he shall receive a disability retirement allowance of 1½% of final compensation for each year of service, but in no event shall said allowance be less than twenty-five percent (25%) of his final compensation. If any such safety member is qualified for voluntary service retirement, he shall receive a retirement allowance of an amount equal to the service retirement allowance he would have received if he had elected to retire for service on the date when the retirement board orders his retirement for disability, or an allowance equal to twenty-five percent (25%) of his final compensation, whichever amount is greater.

Sec. 315. Same—Ordinary Disability Retirement Benefits for Miscellaneous Members.

If a miscellaneous member of this plan who is entitled to ordinary disability retirement benefits is not qualified for voluntary service retirement, he shall receive a disability retirement allowance of 1½% of final compensation for each year of service. In no event shall said allowance be less than twenty-five percent (25%) of his final compensation nor shall said allowance if it exceeds twenty-five percent (25%) of his final compensation be greater than the service retirement allowance to which he would have been entitled if he had remained in the continuous employ of the city until attaining the age of fifty (50), and had immediately retired upon attaining said age with the same final compensation as is used to compute his disability benefits under this section. If any such miscellaneous member is qualified for voluntary service retirement, he shall receive a disability retirement allowance of an amount equal to the service retirement allowance he would have received if he had elected to retire from service on the date when the retirement board orders his retirement for disability, or an allowance equal to twenty-five percent (25%) of his final compensation, whichever amount is greater.

Sec. 316. Same—Procedures to Initiate Disability Retirement.

The retirement of any member of this plan for industrial or ordinary disability retirement may be initiated by the retirement board on its own motion, by recommendation of the city manager, or at the request of the member, his spouse, next of kin, legal guardian or conservator.

Sec. 317. Same—Time for Filing Application for Disability Retirement.

The retirement for disability shall be initiated within such time periods as may be prescribed by ordinance or ordinances enacted by the city council.

Sec. 318. Same—Board Consideration of Disability Retirements.

The city council may by ordinance prescribe procedures to be followed by the retirement board in the consideration of matters relating to the granting or denial of disability retirements.

Sec. 319. Same—Transfer, Reassignment, etc. to Other Employment in Lieu of Disability Retirement.

If the retirement board finds, after considering medical advice, that a member of this plan, although incapacitated for the performance of his duties, is capable of performing other duties in the service of the city, and is under the age of eligibility for voluntary service retirement, the member shall not be entitled to a disability retirement allowance if the city manager, within five (5) days of said finding, offers such a member an immediate transfer, reassignment, or other change to a position with duties within his capacity to perform with his disability. If the compensation to the member in the new position is less than that of the member in the position from which he was disabled, the retirement board, in lieu of a disability retirement allowance, shall pay him the difference in such compensation until his compensation in the new position equals the compensation he received in the former position at the time he was disabled. Such payments in lieu of disability retirement allowance, to the extent that they do not exceed the amount of the disability retirement allowance to which said member would have been entitled at the time of his retirement for disability, shall be considered as a liability of the retirement system, and any amount in excess of said allowance shall be charged to the city.

Upon attaining the age of voluntary retirement applicable to said member prior to his transfer to the new position, or upon suffering any subsequent disability rendering said member incapable of performing his new duties, he shall be entitled to retire. Upon such retirement he shall be entitled to receive the same benefits as are allowed to other members of this plan retiring under similar conditions; provided, however, that in no event shall the benefits received be less than the benefits he would have received if he had initially retired for disability and had not been transferred or reassigned to a new position.

The civil service board, notwithstanding any other provision in this Charter to the contrary, shall adopt reasonable rules and regulations to implement the provisions of this section insofar as it requires procedures to allow the city manager to effectuate a transfer, reassignment or other change of position as herein provided.

Sec. 320. Same—Employment by City After Retirement.

No member of this plan retired for service or retired for dis-

ability shall thereafter be employed by the city unless he has been reinstated in accordance with the procedures prescribed for reinstatement.

Sec. 321. Same—Employment After Disability Retirement.

Should any member of this plan retired for disability engage in a gainful occupation prior to attaining the age on which he would have been entitled to voluntary retirement for service, the retirement board on its own motion or upon request of the city manager, shall reduce that part of his monthly retirement allowance which is provided by the contributions of the city so that the resultant retirement allowance (insofar as it still includes a portion provided by contributions of the city), when added to the amount earned monthly by him in such occupation, will not exceed the greater of the following:

(a) the amount of his final compensation, or

(b) the amount of the compensation earnable by a person holding the position in the same salary step which he held at the time of his retirement, or if the position has been abolished, the maximum compensation earnable by the member holding it immediately prior to its abolition.

The reduction provided for in this section shall terminate when said member attains the age of eligibility for voluntary service retirement.

Sec. 322. Same—Determination of Continuance of Disability.

The retirement board may require any member of this plan retired on a disability retirement and under the applicable age of voluntary service retirement to undergo medical examinations from time to time without cost to the member. The examinations shall be made by a physician or surgeon appointed by the board at the place of residence of the member or other place mutually agreed upon. Upon the basis of such examinations, the board shall determine whether the member is still physically or mentally incapacitated for service with the city in the position held by him when retired for disability.

Sec. 323. Same—Determination that Member not Incapacitated.

If the retirement board finds, after considering medical advice, that a member of this plan retired on a disability retirement is not physically or mentally incapacitated for service in the office or department of the city where he was employed and in the position held by him when retired for disability, he shall be eligible for reinstatement in the city service and his retirement allowance shall be canceled forthwith upon reinstatement. If a retired member eligible for reinstatement does not reenter city employment within thirty (30) days of the date when reemployment is made available to him, his retirement allowance shall be permanently canceled. The civil service board, notwithstanding any other provision of the Charter to the contrary, shall adopt rules and regulations establishing reasonable procedures which permit the reinstatement of such members.

Sec. 324. Same—Refusal to Submit to Medical Examination.

If any member of this plan retired on a disability retirement and under the applicable age of voluntary service retirement refuses to submit to medical examination, his retirement allowance shall be discontinued until his withdrawal of such refusal, and if his refusal continues for three (3) months, his retirement allowance shall be canceled.

Sec. 325. Same—Medical Service and Advice.

The retirement board, with the approval of the city council, shall secure such medical, investigatory and other services and advice as is necessary to carry out the purpose of Sections 320 to 323. It shall pay such compensation as it deems reasonable for such services and advice.

Sec. 326. Same—Re-entry into City Service.

If, under the provisions of Section 323, a member of this plan retired for disability is determined by the board to be no longer incapacitated and re-enters the service of the city, his disability retirement allowance shall cease immediately upon such re-entry. If such person again becomes a member of this plan, his age at the time of his original entry into the system shall be the age upon which his current rate of contribution is computed. He shall receive credit for his aggregate service as it existed at the time of his disability retirement.

Sec. 327. Same—Cancellation of Retirement Allowance for Other than Re-entry into City Service.

If the retirement allowance of any member of this plan retired for disability is canceled for any cause other than re-entrance into city service, and if he does not re-enter city service, an amount which is the actuarial equivalent of his annuity at cancellation, based on a disabled life, but not to exceed the amount of his accumulated contributions at the time of his retirement for disability, shall be credited to his individual account, and shall be refunded to him.

Sec. 328. Same—Reduction by Certain Workmen's Compensation Benefits.

That portion of any allowance payable because of the death or retirement of any member of this plan which is provided by contributions of the city shall be reduced, in the manner fixed by the city council, by the amount of any benefits other than medical benefits, payable to or on account of such person under Division 4 of the Labor Code of the State of California and because of the injury or illness resulting in said death or retirement. Such portion as is paid because of death or retirement which resulted from injury received in or illness caused by performance of duty shall be considered as in lieu of any benefits, other than medical benefits, payable to or on account of such person under said law, and shall be in satisfaction and discharge of the obligation of the city to pay such benefits.

Sec. 329. Same—Industrial Death Allowances.

If a member of this plan shall die before retirement by reason of an injury received in, or illness caused by the per-

formance of his duty, a death allowance shall be paid, beginning from the day next following the date of death, to his surviving wife throughout her life or until her remarriage. If the member, at the time of death, was qualified for voluntary service retirement, but had not retired, the allowance payable shall be equal to the retirement allowance which the member would have received if he had been retired for service on the day of death, but such allowance shall not be less than fifty percent (50%) of his final compensation. If death occurs prior to qualification for voluntary service retirement, the allowance payable shall be equal to fifty percent (50%) of his final compensation.

Sec. 330. Same—Continuation of Benefits After Death of Retired Member.

Upon the death of a member of this plan after qualification for voluntary service retirement, or after retirement for service or because of disability, and if no allowance is payable under Section 329, one-half of the retirement allowance which he would have been entitled to if he had retired at the time of death, or one-half of his retirement allowance, as the case may be, shall be continued throughout life or until remarriage, to his surviving wife.

Sec. 331. Same—Death Benefit Upon Death in Service, etc. when Death not Compensable under Sections 329, 330.

If any member of this plan shall die before retirement and if no allowance shall be payable under Sections 329 and 330, and if death shall occur not later than the last day for which he receives compensation, or within four months after the last day for which the member receives compensation, or while the member is physically or mentally incapacitated for the performance of his duties, and if such incapacity has been continuous from such last day to the date of death, a death benefit shall be paid to his surviving spouse, or if he leaves no surviving spouse, to his estate or designated beneficiary, consisting of an amount equal to one-twelfth of the compensation earnable by him during the twelve months immediately preceding death multiplied by his completed years as a member of the system not to exceed six, plus his accumulated contributions and interest credited thereon.

Sec. 332. Same—Death Benefit after Retirement.

Upon the death of a member after retirement and regardless of the cause of death, the sum of Five Hundred Dollars ($500) shall be paid to his estate or designated beneficiary.

Sec. 333. Same—Alternative Beneficiary.

If there be no surviving wife entitled to an allowance under Sections 329 and 330, or if she die or remarry before every child of such deceased member attains the age of eighteen years, then the allowance which the surviving wife would have received had she lived and not remarried shall be paid to his child or children under said age, collectively, to continue until

every such child dies or attains said age, provided that no child shall receive any allowance after marrying or attaining the age of eighteen years. Should said member leave no surviving wife and no children under the age of eighteen years, but leave a parent or parents dependent upon him for support, the parents so dependent shall collectively receive a monthly allowance equal to that which a surviving wife otherwise would have received, during such dependency.

Sec. 334. Same—Optional Death Benefit.

The surviving wife, in the event of death of the member after qualification for but before service retirement, may elect before the first payment of the allowance, to directly receive a benefit equal to that provided in Section 331 in lieu of the allowance which otherwise would be continued to her under this Article. If there be no surviving wife, the guardian of the child or children under age of eighteen, may make such election, and if there are no such children, the dependent parent or parents may make such election.

Sec. 335. Same—Date of Marriage.

No allowance shall be paid under this plan to a surviving wife unless she was married to the member prior to the date of the injury or onset of the illness which results in death prior to retirement, or if death occurs after retirement, unless she was married to the member at least one year prior to retirement.

Sec. 336. Same—Dissolution of Remarriage.

Notwithstanding any provision in this Article to the contrary, whenever a benefit payable to the surviving spouse under this Article terminates or is reallocated because of the remarriage of the spouse, the termination or reallocation of the benefit shall be only for the period of remarriage, and in the event that the surviving spouse resumes the status of an unmarried person, the benefit shall be fully reinstated and reallocated to the surviving spouse for said unmarried periods.

Sec. 337. Same—Refund of Contributions upon Termination of Employment.

Except as otherwise provided in Section 327, should any member of this plan cease to be employed by the city, through any cause other than death or retirement, all of his contributions, with interest credited thereon, shall be refunded to him subject to the conditions prescribed by the council to cover similar terminations of employment and re-employment with and without redeposits of withdrawn accumulated contributions, of other members of the retirement system.

Sec. 338. Same—Election to Take Deferred Retirement.

Any member described in Section 337 who has completed at least five years of service in the aggregate shall have the right to elect, within 90 days after said termination of service, or if the termination was by lay-off, within 90 days after the retirement board determines the termination to be permanent,

whether to allow his accumulated contributions to remain in the retirement fund for purposes of obtaining a deferred retirement. Failure to make such election shall be deemed an irrevocable election to withdraw his accumulated contributions. If said member elects to allow his accumulated contributions to remain in the retirement fund he may revoke said election at any time prior to retirement and receive a refund of his accumulated contributions in the manner provided by Section 337.

Sec. 339. Same—Deferred Service Retirement.

A member of this plan whose membership continues under Section 338 is subject to the same age requirements as apply to other members for service retirement. After the qualification of such member for retirement by attaining the applicable age of voluntary service retirement, he shall be entitled to receive a retirement allowance based upon his age and service standing to his credit at the time of cessation of employment with the city in the same manner as for other members.

Sec. 340. Same—Deferred Disability Retirement.

A member of this plan whose membership continues under Section 338 and who becomes disabled by reason of a bodily injury or physical or mental illness may retire for disability. If said member is qualified for voluntary service retirement, he shall receive an allowance of an amount equal to the deferred service retirement he would have received if he had elected to retire from service on the date when the retirement board authorizes his retirement for disability. If said member is not qualified for voluntary service retirement, he shall receive a disability retirement allowance of 1.5% of final compensation for each year of service, but in no event shall said allowance exceed the service retirement allowance to which said member would be entitled upon attainment by him of age fifty (50).

Sec. 341. Same—Continuation of Benefits After Death of Member Retired Under Section 338.

Upon the death of a member who has retained membership in this plan under Section 338, after qualification for voluntary service retirement, or after retirement for service or because of disability, one-half of the retirement allowance to which he would have been entitled had he retired at the time of death, or one-half of his retirement allowance, as the case may be, shall be continued throughout life or until remarriage, to his surviving wife. The provisions of Sections 333, 334, 335 and 336 shall be applicable to the allocation or reallocation of said benefits.

Sec. 342. Same—Death Benefit Upon Death When Death not Compensable Under Section 341.

If any member of this plan shall die before retirement and if no allowance shall be payable under Section 341, a death benefit

shall be paid to his surviving spouse, or if he leaves no surviving spouse, to his estate or designated beneficiary, consisting of an amount equal to one-twelfth of the compensation earnable by him during the twelve months immediately preceding the date of his cessation of employment with the city multiplied by his completed years as a member of the system not to exceed six (6), plus his accumulated contributions and interest credited thereon.

Sec. 343. Same—Service Retirement Benefits for Members Attaining Mandatory Retirement Age and Not Otherwise Entitled to Benefits.

Any member of this plan who has attained the mandatory retirement age applicable to him and who has not completed at least five years of service in the aggregate shall be entitled to retire for service. The retirement allowance of such a member shall be computed in the same manner as any other member.

Sec. 344. Same—Optional Allowances.

At the date of retirement for service or retirement for disability:

(a) if a member of this plan has no wife, children or dependent parents who would qualify for the continuance of an allowance after the death of said member, the member may elect before the first payment of the retirement allowance is made to receive the actuarial equivalent of his allowance, partly in a lesser allowance to be received by him throughout his life and partly in other benefits payable after his death to another person; or

(b) if a member of this plan has a wife or children or dependent parents who would qualify for the continuance of an allowance after the death of said member, the member may elect before the first payment of the retirement allowance is made to receive the actuarial equivalent of that portion of his allowance which would not be continued to his eligible survivors upon his death, partly in a lesser allowance to be received by him throughout his life and partly in other benefits payable after his death to another person or persons, including one or more of his eligible survivors.

An election under this section shall be subject to all the conditions prescribed by ordinance to govern similar elections by other members of the retirement system, including the character and amount of such other benefits.

Sec. 345. Same—Equal Shares Funding: Legislative Intent.

It is the intent of this Article to establish an Equal Shares concept of retirement plan funding which shall require that all costs of benefits, from whatever source resulting, attributable to or based on service on and after April 1, 1935, payable to or

on account of persons who are members under this plan shall be borne equally on a share and share alike basis by the members of the plan as a group on one hand, and the city on the other. The term "costs" as used herein and in succeeding sections shall not include the reasonable administrative costs of the retirement system.

Sec. 346. Same—Member Contributions.

The normal rate of contribution of each member of this plan shall be determined as follows:

(a) Periodically, at the time of the actuarial investigations under Section 300, the retirement board shall determine the projected costs of providing any and all benefits established for persons who are members of the system under this plan. Costs shall be segregated between those attributable to the benefits established for safety members and those attributable to benefits established for miscellaneous members and further segregated for service on and after April 1, 1935.

(b) Upon recommendation of the consulting actuary, the retirement board shall adopt a rate of contribution applicable to all members of this plan who are safety members and a rate of contribution applicable to all members of this plan who are miscellaneous members. The contribution rate for each group shall be such that when applied to the respective factors outlined in subsection (c) of this section, there shall be generated an amount sufficient to fund one-half of the projected costs of benefits attributable to or based on service after April 1, 1935, for all members of the respective group. The rate so developed shall be called the group rate.

(c) The contribution rate of each individual member of this plan shall be determined by multiplying the group rate established in subsection (b) of this section, by the factor applicable to his nearest age at the effective date of his membership in the retirement system as set forth in the following tables:

Said factors may be revised from time to time by the retirement board, but in no event shall the total amount of member contributions calculated to be produced by the use of said factors be greater or less than an amount necessary to provide one-half of the total projected costs as described in Section 345.

(d) There shall be deducted from each payment of compensation made to a member of this plan a sum determined by applying the member's normal contribution rate to such compensation. The sum so deducted shall be paid forthwith to the retirement system. Said contribution shall be credited to the individual account of the member from whose compensation it was deducted and the total of said contributions, together with interest credited thereon in the same manner as is prescribed by the council for crediting interest to contributions of the retirement system, shall be applied to provide part of the retirement allowance or benefit payable to or on account of said member.

(e) Contributions based on membership in the retirement system and deducted prior to the effective date of their membership in this plan, from compensation of persons who become members under Section 303, and standing with interest thereon, to the credit of such members on the records of the retirement system on the date of their membership in this plan, shall continue to be credited thereon to the individual accounts of said members and shall be combined with and administered in the same manner as the contributions deducted after said date.

Sec. 347. Same—City Contributions.

The city shall contribute to the retirement system each year an amount arrived at as follows:

(a) for benefits on account of service on and after April 1, 1935, an amount equal to the aggregate of the contributions deducted through payroll deductions from the members during that year, and

(b) for benefits on account of service prior to April 1, 1935, the cost of providing such benefits.

Sec. 348. Same—Interim Rates of Contributions.

Upon the effective date of this Article, group rates of contributions for members of this plan shall be as follows:

(a) Safety members—10.10 percent (10.10%) of salaries,

(b) Miscellaneous members—8.06 percent (8.06%) of salaries.

Said group rates of contributions shall thereafter be determined and recommended by the actuary. Said contribution rates shall be changed by the board on the basis of such actuarial determination and recommendation in the manner provided in Section 346.

Sec. 349. Same—Computation of Time and Service.

The following time and service shall be included in the computation of the service to be credited to a member of this plan for the purpose of determining whether such member qualifies for retirement and of calculating benefits, but only if withdrawn accumulated normal contributions based on such time and service, have been or are redeposited in the retirement system:

(1) Time during which said member is a member of the retirement system and during and for which said member is entitled to receive compensation because of service as an employee of the city.

(2) Service as a safety member shall be credited upon a change in service category of such a member which causes him to become a miscellaneous member; provided, that the accumulated normal contributions standing to the credit of such member, including amounts redeposited by him, shall be adjusted by refund to the member or by payment by the member to bring the amount of said accumulated contributions to the amount which would have been credited to him had the member been a miscellaneous member throughout the period of his service as a safety member at the compensation he received as such a safety member. For all purposes thereafter, and so long as he remains in such category, the member shall be a miscellaneous member.

(3) Service as a miscellaneous member shall be credited upon a change in service category of such member which causes him to become a safety member; provided, that the accumulated normal contributions standing to the credit of such member, including amounts redeposited by him, shall be adjusted by refund to the member or by payment by the member to bring the amount of said accumulated contribu-

tions to the amount which would have been credited to him had the member been a safety member throughout the period of his service as a miscellaneous member at the compensation he received as a miscellaneous member. For all purposes thereafter, and so long as he remains in such category, the member shall be a safety member.

(4) Time during which said member is absent in military service from employment making him a member of this plan; provided, however, that such member shall be entitled to receive credit for such time as service for the city only in the event contributions are made by or for him for such service credit, as provided by the council.

(5) Service prior to April 1, 1935, determined and credited as prescribed by the council for other members of the system.

(6) Any service outside the limits of the city performed by a member of the system and authorized within the member's scope of employment or under the orders of a supervisor or managing superior of such member who was employed by the city at the time of said service, shall be considered as city service, and any injury, disability or death incurred in the performance of such service shall be covered under the provisions of this Article and Section 167 of Article XX of this Charter.

Sec. 350. Social Security Coverage.

The city council shall enact an ordinance or ordinances prescribing the conditions according to which any and all employees of the city, other than safety members, as defined in Section 304, may be covered under the Federal Old Age, Survivors and Disability Insurance provisions of the Federal Social Security Act. The provisions of said ordinance or ordinances shall substantially conform to the provisions of former Section 175 12.5 of this Charter with such modifications as are necessary to make the provisions of said section applicable to miscellaneous members of the Equal Shares Retirement Plan.

Sec. 351. Validation of Former Charter Sections Granting Increased Pensions to Retired Persons.

All provisions of former Sections 173.2, 173.3, 173.4, and 173.5 of this Charter granting increased retirement allowances to or on account of retired members of the Sacramento City Employees' Retirement System shall be continued as an ordinance of the city and shall continue in effect until otherwise repealed by subsequent amendment of this Charter. The provisions of former Section 175.29 of this Charter shall be continued in effect as an ordinance of the city but only insofar as necessary to continue in effect cost of living adjustments and the funding of such adjustments which have been made under said section and are in effect prior to July 1, 1970.

Sec. 352. Employees of City Health Department.

The city council shall enact an ordinance or ordinances prescribing the conditions according to which all employees of the health department of the city who were members of the Sacramento City Employees Retirement System and who, as

provided in Section 108.2 of this Charter, were transferred to and became employees of the health department of Sacramento County, may retain their membership in the Sacramento City Employees' Retirement System. The provisions of said ordinance or ordinances shall conform to the provisions of former Section 175.27 of this Charter.

Sec. 353. City Employees Transferred to Sacramento County.

The city council shall enact an ordinance or ordinances prescribing the conditions according to which any and all employees of the city, who are members of the Sacramento City Employees' Retirement System and who, on or after January 1, 1963, are transferred to and become employees of Sacramento County and members of the Sacramento County Employees' Retirement System, as part of any consolidation of city functions with, or transfer of city functions to, Sacramento County, may retain their membership in the Sacramento City Employees' Retirement System. The provisions of said ordinance shall substantially conform to the provisions of former Section 175.27 of this Charter with such modifications as are necessary to make the provisions of said section applicable to the transferred employees.

Sec. 354. Automatic Cost of Living Adjustment.

The city council shall enact an ordinance or ordinances prescribing the conditions according to which, as of July 1, of each year, commencing with the year 1970, every monthly allowance payable to or on account of any person who has retired or died or who shall retire or die as a member of the retirement system and whose retirement or death occurred prior to July 1 of the preceding year, shall be increased or decreased by a percentage of the total allowance then being received which shall approximate, to the nearest one-tenth of one percent, the percentage of annual increase or decrease in the cost of living during the preceding calendar year, as determined by the retirement board; provided, that such increase or decrease shall not exceed three percent of any allowance in any year, regardless of the percentage of change in such cost of living. Such increases in allowances as shall be payable pursuant to this section shall be funded insofar as possible from moneys in the contingency reserve of the retirement system which are in excess of three percent (3%) of the total assets of the retirement system on July 1, 1970, and by such money from such contingency reserve as should be determined by the retirement board as of June 30, of each year thereafter, to be in excess of three percent (3%) of the total assets of the retirement system as of that date. Any additional money required for such increases shall be provided by equal contributions from the contributing members of the system and from the city at rates fixed by the retirement board as it shall determine to be necessary, and to be designated "cost of living contributions". The individual

member's contribution shall be graded in proportion to the member's normal contribution.

Except as otherwise provided herein, the provisions of said ordinance or ordinances shall substantially conform to the provisions of former Section 175.29 of this Charter.

Sec. 355. Governmental Employeees Transferred to City.

A person who comes into the employ of the city after the effective date of this Article and who was in public service with a public agency whose functions were assumed by the city (by contract, merger, annexation, or otherwise) and who in connection with such assumption of functions was transferred to and became an employee of the city shall be eligible for membership in the Equal Shares Retirement Plan created by Section 302 of this Article upon the same terms as any other member of said plan notwithstanding any other provision of this Article or Charter to the contrary. The city council may, by ordinance enacted by seven-ninths of its membership, prescribe terms and conditions under which such transferred employee may receive credit for all or any part of his public service time with the public agency whose functions were assumed by the city. Such ordinance shall include reasonable requirements for funding of such public service credit.

Sec. 356. Rules and Regulations.

The retirement board may adopt rules and regulations consistent with this Article to implement and carry out its provisions.

Sec. 357. Conflicting Charter Provisions.

Any section or part of any section in this Charter, insofar as it should conflict with the sections of this Article or with any part thereof, shall be superseded by the contents of said sections. In the event that any word, phrase, clause or section of these sections shall be adjudged unconstitutional, the remainder thereof shall remain in full force and effect.

WHEREAS, This state has, for an extended period of time, taken a leadership role in local action within the limits of jurisdictional authority; and

WHEREAS, A recent study conducted by the Sacramento Department of Social Welfare showed that 44 percent of the low-income families contacted had been without food and without money one or more days during the last year; and

Assembly Joint Resolution No. 28—Relative to preventing elimination of Coast Guard Selected Reserve.

[Filed with Secretary of State July 2, 1970.]

WHEREAS, The National Security Council suggested, and the Joint Chiefs of Staff approved, in 1956, the concept of organizing and developing within the ready reserve of each of the armed forces a highly trained organization capable of quick mobilization; and

WHEREAS, Public Law 90-168, Reserve Bill of Rights and Vitalization Act, provides for the establishment with minimum strengths of a selected reserve in the reserve components of all the armed forces; and

WHEREAS, The Congress of the United States had set for fiscal year 1970 a Coast Guard Selected Reserve of first 17,500 and then 15,000 men, which is the current figure; and

WHEREAS, The presidential budget for fiscal year 1971 plans the total elimination of the Coast Guard Selected Reserve and the Coast Guard Reserve training program; and

WHEREAS, Such a plan represents a dilution of the armed forces selected reserve concept, and is inimical to national defense and security, and to the military preparedness and posture of the United States, particularly so in this time of world turbulence; and

WHEREAS, Such a plan will provide the United States Coast Guard with a paper-in-name-only reserve component; and

WHEREAS, Such a plan might place in jeopardy the selected reserve in the reserve components of all of the armed forces; and

WHEREAS, Such a plan leads to divisiveness among obligated personnel in the reserve in that military-obligated Coast Guard Reserve personnel will not be undergoing any preparedness training while those of the other armed forces will be required to so train; and

WHEREAS, Approximately 2,500 officers and men of the selected reserve, that is, the active reserve, will be affected, and the majority of these have obligated reserve duty to perform; and

WHEREAS, Since virtually all of these men are being trained for port security purposes, curtailment of the reserve program could seriously affect the security of California ports, including, but not limited to, San Diego, San Francisco, San Pedro, and Eureka; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of the State of California memorializes the President and the Congress of the United States to prevent the destruction of the selected reserve of the United States Coast Guard and the erosion of the armed forces selected reserve concept, and require the Department of Transportation and the Department of Defense planners to program the Coast Guard Reserve adequately for national security; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

WHEREAS, An ultimate connection between the City of Sacramento and the bay area transit system appears inevitable, and it is now necessary to thoroughly investigate the feasibility of such a project to insure the proper planning, to determine the projected costs, and to determine the cost of delays in inaugurating such a project; now, therefore, be it

RESOLUTION CHAPTER 130

Assembly Joint Resolution No. 49—Relative to Pyramid Lake natural resources.

[Filed with Secretary of State July 16, 1970.]

WHEREAS, Pyramid Lake in the State of Nevada is a unique and beautiful national asset deserving of preservation and protection for the enjoyment of present and future generations; and

WHEREAS, The potential recreational and economic value of Pyramid Lake to the people of the State of Nevada and particularly to its owners, the Paiute Indian people whose reservation encompasses the lake, is beyond question; and

WHEREAS, Pyramid Lake is a natural geologic sink which receives the flood flows of the Truckee River system and which historically received the entire flow of the river system; and

WHEREAS, It is well substantiated that the diversion of Truckee River water over the past sixty years has caused, except for exceptionally wet years such as 1969, the progressive lowering of the level of Pyramid Lake; and

WHEREAS, The unique recreational and economic resources of Pyramid Lake are being endangered as its level declines due to the diversion of water from the Truckee River system to meet the many competing demands; and

WHEREAS, While uses of water from the Truckee River system in California unquestionably have some adverse effect upon Pyramid Lake, the fundamental problem centers upon the annual average diversion of 241,000 acre-feet of water at Derby Dam in Nevada for use in the Newlands Project and upon the operational criteria adopted by the Secretary of the Interior for the Truckee-Carson River system; and

WHEREAS, Stabilization of the water level of Pyramid Lake and the provision of minimum flows necessary to sustain fish life and spawning in the Truckee River below Derby Dam would enhance the lake's fishery resources and create economic benefits to the Paiute Indian people who own the lake; and

WHEREAS, A properly developed Pyramid Lake would provide high quality recreation for large numbers of residents of California; and

WHEREAS, The United States Department of the Interior is charged with responsibility for assuring the protection and wise use of the nation's natural resources and controls in major part the waters of the Truckee River-Carson River system; and

WHEREAS, The conflicting interests of various bureaus within the United States Department of the Interior have precluded satisfactory resolution of the water management problems of the Truckee River-Carson River system; and

WHEREAS, These conflicting interests are centered in the Bureau of Indian Affairs, the Bureau of Sports Fisheries and

Wildlife, the Bureau of Land Management, and the Bureau of Reclamation; and

WHEREAS, The level of Pyramid Lake will continue to decline until such time as these conflicts are resolved; and

WHEREAS, A resolution of the water management problems of the Truckee River-Carson River system is beyond the capabilities of the States of California and Nevada; and

WHEREAS, The Assembly Committee on Water, in its evaluation of the proposed California-Nevada Interstate Compact concerning the waters of the Lake Tahoe, Truckee, Carson, and Walker River Basins, has concluded that a final resolution of this conflict and of the water management problems of the Truckee River-Carson River system can only be attained through positive action by the Secretary of the Interior; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of the State of California memorializes the President and the Congress of the United States and the Secretary of the Interior to take those actions necessary to assure the protection and preservation of Pyramid Lake; and be it further

Resolved, That the Secretary of the Interior is requested to take immediate action to achieve coordination of the activities of the various bureaus within the Department of Interior in order to solve the problems relating to management of the Truckee River-Carson River system; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the President and the Vice President of the United States, to the Speaker of the House of Representatives, to the Chairmen of the Senate and House Committees on Interior and Insular Affairs, to each Senator and Representative from California in the Congress of the United States, and to the Secretary of the Interior.

Proposition F

Amend Article XI, Section 1109 thereof, of the Charter of the City of Chula Vista to be, and to read as follows:

Sec. 1109. Contracts on Public Works.

Every project involving an expenditure of five thousand dollars or more for the construction, reconstruction, improvement or repair of public buildings, streets, drains, sewers, utilities, parks and playgrounds, and other public works, and the furnishing of supplies, materials, equipment or contractual services for same shall be done by written contract except as otherwise provided in this Chapter, and the Council, upon the recommendation of the Administrative Officer, shall let said contract to the lowest responsible bidder after notice by publication in the official newspaper for sealed bids for the work contemplated by one or more insertions, the first of which shall be at least ten days before the time for opening bids. If the cost of said public works project is more than the sum of two thousand dollars but less than five thousand dollars, the City Council may let said contract without advertising for bids after the Administrative Officer or his designated agent has secured competitive prices from interested contractors, which shall be considered by the Council before said contract is let.

Projects involving the expenditure of two thousand dollars or less may be awarded without written contract by the Director of Public Works with the approval of the Administrative Officer. Whenever practicable, the Director of Public Works or the Purchasing Agent shall obtain informal bids. The project shall be awarded to the lowest responsible bidder whose bid is determined to be, in all respects, most advantageous to the public interest. The Director of Public Works may solicit such bids personally, by telephone or mail, and shall submit to the Purchasing Agent and the Administrative Officer a written account of the procedures used and the bids thus ob-

tained. A copy of said informal bidding procedure shall be filed in the office of the City Clerk as a public record.

The City Council may, however, declare and determine that in its opinion, based upon estimates approved by, and the recommendations of, the Administrative Officer, that said projects may be excepted from the requirements of this section because the work in question may be performed better or more economically by the City with its own employees, and by a resolution to this effect, adopted by at least four affirmative votes of the Council, order the performance of any such construction, reconstruction, improvement or repair by appropriate City forces.

All bids, of more than two thousand dollars, shall be accompanied by either a certified, or cashier's check, or a bidder's bond executed by a corporate surety authorized to engage in such business in California, made payable to the City. Such security shall be in an amount not less than that specified in the notice inviting bids or in the specifications referred to therein, or if no amount be so specified then in an amount not less than ten percent of the aggregate amount of the bid. If the successful bidder neglects or refuses to enter into the contract, within the time specified in the notice inviting bids or specifications referred to therein, the amount of his bidder's security shall be declared forfeited to the City and shall be collected and paid into its general fund and all bonds so forfeited shall be prosecuted and the amount thereof collected and paid into such fund.

The City Council shall be competent in awarding any contract to compare bids on the basis of time completion, provided that when any award has been made in consideration, in whole or in part, of the relative time estimates of bidders for the completion of the work, the performance in accordance with such time limits shall be secured by a surety bond as hereinabove provided with adequate sureties and penalties, and provided further, that for any contract awarded solely or partially on a specified time for completion, the Council shall not extend such time limits unless such extension be recommended by the Administrative Officer and the head of the department concerned.

The City Council may reject any and all bids presented and may readvertise in its discretion.

Contracts may likewise be let without advertising for bids if such work shall be deemed by the City Council to be of urgent necessity for the preservation of life, health or property, and shall be authorized by resolution passed by at least four affirmative votes of the Council and containing a declaration of the facts constituting such urgency; provided, however, that nothing in this section shall prevent the Administrative Officer from taking any and all means necessary to make emergency repairs in the event of immediate need arising from any calamity or disaster.

Proposition G

Amend the Charter of the City of Chula Vista by deleting Article VII, "Water Department" in its entirety.

And we further certify that we have compared the foregoing proposed and ratified amendments to the Charter of the City of Chula Vista with the original proposal submitting same to the electors of said City and find that the foregoing is a full, true and exact copy.

In witness whereof, we have hereunto set our hands and caused the seal of the City of be affixed hereto this _____ day of _____, 1970.

WHEREAS, Together, the space station and shuttle are the keystones to the next major accomplishments of the nation's space program; and

WHEREAS, The year-round climatic conditions are ideal at Edwards Air Force Base, in Kern County, California, for the earthside operations of the so-called "shuttle ship" to the future United States space station; and

WHEREAS, The many dry lakebeds in the vicinity provide the best possible physical conditions for receiving such a craft in any event of an emergency reentry landing; and

WHEREAS, There already exists the necessary open space, uncluttered by suburban congestion, for all phases of the project to launch and receive the vehicle; and

WHEREAS, The basic facilities for the project are already installed there; and

WHEREAS, Existing West Coast aerospace manufacturing firms can supply project components at the lowest possible transportation cost; and

Resolved by the Senate and Assembly of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the President and the Congress of the United States, and requests the National Aeronautics and Space Administration, to permanently locate the launch and reentry facilities for the space station shuttle ship project at Edwards Air Force Base in Kern County, California; and be it further

RESOLUTION CHAPTER 133

Senate Joint Resolution No. 28—Relating to the Battleship U.S.S. Missouri.

[Filed with Secretary of State July 16, 1970.]

WHEREAS, 1970 marks the 25th anniversary of the end of World War II; and

WHEREAS, The citizens of Martinez, California, have undertaken the creation of a peace shrine and a living memorial to

the veterans of World War II with the organization of a committee to bring the U.S.S. Missouri to that city; and

WHEREAS, This famed ship upon whose decks the documents ending hostilities with Japan were signed on September 2, 1945, bringing peace to a war-weary world, now languishes in the Bremerton, Washington, Navy Yard; and

WHEREAS, Battleships of this class are fitted with every type of facility that serves a community such as a bakery, carpentry shop, plumbing and pipefitting shop, paint shop, machine shop, theater and even a hospital, all resources that well might be utilized for federal or state job-training programs; and

WHEREAS, Such a ship has great potential in disaster relief as it is able to produce vast amounts of fresh water and electric power; and

WHEREAS, The harbor of the City of Martinez is an appropriate site for the location of this ship because Camp Stoneman (later Parks Air Force Base) and Camp Shoemaker in Contra Costa County were the principal points of embarkation for the Pacific Theater both in World War II and the Korean conflict, because Port Chicago has served for 28 years as the major Pacific Coast naval ammunition depot, and because nearby are other military installations that also played vital roles in the World War II victory effort; and

WHEREAS, The committee organizing the citizen effort behind this project envisions the creation of a nonprofit foundation to raise the necessary funds to move the vessel from its present moorings to San Francisco Bay, prepare a site offered by the City of Martinez, and fit the vessel for public inspection, the revenue from tours and sale of souvenirs making the ship self-supporting with profits going to the U.S. Navy Relief Fund; and

WHEREAS, This project has been endorsed by the Martinez Chamber of Commerce, the Martinez City Council, the Contra Costa County Board of Supervisors, the City-State Waterfront Committee and the Contra Costa Council of the Navy League; now, therefore, be it

Resolved, That the appropriate local, state and federal agencies whose sanction is required to move this vessel to the City of Martinez are urged to give speedy approval to this proposal so that the anniversary of the conclusion of World War II may be appropriately commemorated by the anchoring of this flagship of the United States Navy in Carquinez Straits; and be it further

Resolved, That the Secretary of the Senate is directed to transmit a copy of this resolution to the President and Vice

President of the United States, the Secretary of Defense, Secretary of the Navy, Chief of Naval Operations, the commandants of the 12th and 13th Naval Districts, the Members of the United States Senate and House of Representatives from California, and to the Battleship "Missouri" Committee of the Martinez Chamber of Commerce.

In any redistricting, the districts shall be composed of contiguous territory and made as equal as practicable in registered voters as shown by the number of registered voters of the city last officially reported to the Secretary of State by the Registrar of Voters for the state-wide Primary or General Election. Districts so formed shall, so far as practicable, be bounded by natural boundaries, freeways or street lines. In laying out such districts, no precinct at the time fixed by the Board of Supervisors of Los Angeles County shall be divided. Except as otherwise provided in this section, no redistricting ordinance or amendment shall be adopted between September 30 in the even-numbered year and the first Monday in May of the following odd-numbered year in which a city election for member of the Board of Directors is to be held. If, thereafter, the Board of Supervisors shall reprecinct the City, at least 60 days before any Board election, with the result that any pre-

cinct shall be divided by the district lines, the Board shall, not less than 30 days prior to any primary or general election, modify districts theretofore fixed to an extent sufficient to prevent the division of any precinct by the district line."

"Section 703. Election. Elections shall be primary nominating and general. Members of the Board of Education shall be elected from the school district at large on the third Tuesday in April in odd-numbered years, unless elected by a majority of votes at the primary nominating election. Candidates to be voted on at the general election shall be residents and qualified voters of a Pasadena school district, and shall be nominated at a primary nominating election, held on the sixth Tuesday preceding the date fixed for the Board of Education general election. No person shall become a candidate for more than one of the numbered offices to be filled at such election. No names shall be printed upon the ballot in the general election for a member or members of the Board of Education other than those selected in the manner hereinafter prescribed."

"Section 704. Nominating Petition. Any person desiring to become a candidate for one of the numbered offices of the Board of Education to be filled at such election, shall file, or have filed, with the Secretary of the Board of Education, on or before the sixtieth day prior to the primary nominating election, a written statement signed by him, specifying for which of the numbered offices he is a candidate, in substantially the following form:"

"Section 1202. District Primary Elections. On the sixth Tuesday preceding the general municipal election, a primary nominating election shall be held in those districts of the City wherein the terms of office of Board members expire in that year for the purpose of nominating candidates to be voted on at the general municipal election, and for such other purposes as the Board may prescribe."

"Section 1205. General Municipal Election. For the election of Board members under this Charter, and for such other purposes as the Board may prescribe, a general municipal election shall be held biennially throughout the City on the third Tuesday in April of every odd-numbered year."

That we have compared the foregoing amendments with the original proposals proposed by said Ordinance No. 4965 to be submitted to the electors of said city, and find that the foregoing is a full, true, correct and exact copy thereof.

That as to said amendments this certificate shall be taken as a full and complete certification as to the regularity of all proceedings had and done in connection therewith.

RESOLUTION CHAPTER 135

Assembly Concurrent Resolution No. 133—
Relative to water pollution.

[Filed with Secretary of State July 22, 1970.]

WHEREAS, California is faced with serious water pollution problems; and

WHEREAS, Water pollution degrades the environment, affects resources, and is detrimental to the well-being of California's citizens; and

WHEREAS, Certain state installations including the following are not complying with the requirements established by the California regional water quality control boards and are causing water pollution problems: the Deuel Vocational Institution at Tracy, the North Coast Conservation Center at Redway, the Porterville State Hospital, San Quentin State Prison, and the Veterans Home at Yountville; and

WHEREAS, State government should show leadership in the maintenance of a quality environment for California by not polluting the state's waters; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the existing pollution caused by these state installations be corrected at the earliest possible time; and be it further

Resolved, That, if funds required to solve these problems have not been requested in the budget for the 1970–1971 fiscal year, the Director of Finance shall immediately inform the Assembly Ways and Means Committee and the Senate Finance Committee of the funds needed to correct these problems; and be it further

RESOLUTION CHAPTER 136

Assembly Joint Resolution No. 9—Relative to housing.

[Filed with Secretary of State July 22, 1970.]

WHEREAS, Interest rates, land costs and spiraling costs of construction have made it impossible for California families with an income of less than $12,000 per year to be eligible for homes insured by the Federal Housing Administration; and

WHEREAS, As forecasts indicate a severe economic recession in the housing industry during the coming fiscal year, it is desirable that all possible efforts be made to prevent such a recession; and

WHEREAS, Unemployment rates in that industry are currently at 12 percent in California and threaten to reach 25 percent by early spring; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the President and Congress of the United States that the ½ percent insurance fee required by the Federal Housing Administration on housing loans be eliminated if consistent with continued maintenance of Federal Housing Administration resources and the ability of the Federal Housing Administration to cover anticipated losses, that credit and income requirements for applicants be relaxed, that the mortgage period be extended from 30 to 35 years on loans insured by the Federal Housing Administration and Veterans' Administration, that maximum funding of the 235 Federal Housing Administration interest subsidy housing program for California be provided, that government-backed mortgage securities be introduced, and that every effort to reduce the high cost of interest rates in the residential mortgage industry be made; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, to each Senator and Representative from California in the Congress of the United States, and to the Secretary of Housing and Urban Development.

RESOLUTION CHAPTER 137

Senate Joint Resolution No. 9—Relative to the Los Angeles-San Diego Transportation Corridor.

[Filed with Secretary of State July 23, 1970.]

WHEREAS, The high-speed rail demonstration project in the Northeast Corridor between Boston and Washington, D.C., is evidence that high-speed rail transportation is competitive in

cost, convenience, and time with airplanes and automobiles in traveling between these two metropolitan areas; and

WHEREAS, There is mounting interest in California to apply the newly gained knowledge from the high-speed rail demonstration project in the Northeast Corridor to a similar high-speed rail link in the Los Angeles-San Diego Transportation Corridor to connect the metropolitan areas of Los Angeles, Orange, and San Diego Counties, and as a step toward extension of service between the Los Angeles and Palmdale areas, and between Los Angeles, San Francisco, and Sacramento; and

WHEREAS, The ability of trains to travel into the core area of a city results in many passengers being brought closer to their destination than if they had traveled by airplane, and without the necessity of expending the great amount of time and effort that is so often necessary to reach the core area from an outlying airport; and

WHEREAS, The increasing use of high-speed trains to travel between the metropolitan areas can eliminate the necessity of expanding the present networks of freeways that exist in such areas, and thus save the core areas of the cities for living purposes; and

WHEREAS, It is imperative that alternative modes of transportation be developed in creating a balanced system of transportation to serve all strata of our society by making educational, recreational, cultural, and occupational opportunities readily accessible to all; now, therefore, be it

Resolved by the Senate and Assembly of the State of California, jointly, That the Legislature respectfully requests the Secretary of Transportation to initiate studies as promptly as possible on the feasibility of a high-speed rail link in the Los Angeles-San Diego Transportation Corridor to connect the metropolitan areas of Los Angeles, Orange, and San Diego Counties; and be it further

Resolved, That the Secretary of the Senate transmit copies of this resolution to the President and Vice President of the United States, to the Secretary of Transportation, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

WHEREAS, Mr. Prouty, who has been with the Bank of America since 1927, is highly regarded by the thousands of customers he has assisted for his dedication to full and satisfying service; and

WHEREAS, He and his loving wife, Virginia, have two fine children, Arthur B. Prouty and Carolyn Prouty Harris; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the members congratulate Byron C. Prouty on his fine record of service to the Bank of America and to his community; and be it further

The airports commission shall have and succeed to all powers and duties in the management and control of San Francisco International Airport heretofore vested in the public utilities commission. The airports commission shall have possession, management, supervision, operation and control of said airport and of all other airport properties wherever situated as it may acquire or which may be placed under its control. In locating and determining the character and type of improvements and additions, betterments or extension to airport properties under its control, the commission shall in each case first secure the written recommendation of the director of airports, including analysis of cost, service and estimated revenue of all proposed alternatives determined feasible by said director. Subject to the provisions of Section 91 of this charter the commission shall have the power to purchase, lease or otherwise acquire all such lands, property, improvements or related facilities as it may deem necessary or convenient in the exercise of the authority granted hereunder. Nothing contained herein shall authorize the commission to construct, operate or maintain, at any location outside the boundaries of an airport, systems or facilities for the surface or sub-surface transportation of persons or property, provided, however, that the commission is authorized to expend funds for planning such facilities either inside or outside the boundaries of the airport.

Leases and Concessions on Airport Property

Section 137.2. The airports commission shall have exclusive power to negotiate and, subject to approval by the board of supervisors shall execute leases of airport lands and space in airport buildings, without necessity for competitive bidding, to any person, firm, or corporation engaged in air transportation, or agency of government, for such purposes only; provided, that the original term of any such lease shall not exceed fifty years, nor shall any extension of such lease exceed a period of fifty years. The Commission shall also have sole power, subject to competitive bidding and award to the highest responsible bidder to lease out any concession wherein the concessionaire is to be given an exclusive right to occupy space on or in airport lands or buildings. There shall be no requirement for competitive bidding in the award by the commission of any concession in an instance where no exclusive right is given the concessionaire to occupy space on or in airport lands or buildings.

Other than as specifically provided herein, the airports commission shall have exclusive power to lease lands now devoted to airport purposes or lands that may hereafter be acquired and devoted to airport purposes for a period not to exceed fifty years, and the director of property shall arrange for such lease

to the highest responsible bidder at the highest monthly or annual rent, subject to approval of the airports commission, and thereafter the administration of any and all such leases shall be by the airports commission. Section 123 of this charter shall not be applicable to leases referred to in this paragraph provided, however, that no lease of airport lands or agreement which divests the city and county of the right to manage, operate or control the aircraft landing field, the entire part of the airport not devoted to the aircraft landing field, or the entire airport shall be made without the approval of the board of supervisors by ordinance and referral and submission to a vote of the electors of the city and county at the election next ensuing not less than sixty days after the adoption of such ordinance, and such ordinance shall not go into effect until ratified by a majority of voters voting thereon.

The city attorney, as the legal adviser of the commission, may, with the approval of the commission, compromise, settle or dismiss any litigation or proceedings which may be pending for or on behalf of or against said commission relative to any matter or property under its jurisdiction. He shall detail to the commission such attorneys as the commission may deem necessary, subject to the approval of the commission as to each such attorney or assistant so assigned. The commission shall have authority, subject to the approval of the mayor, to appoint special counsel for temporary purposes. The compensation of all such attorneys shall be paid by the commission from the Airports Revenue Fund.

Said fund shall be exempt from section 129 of this charter. (b) Separate accounts shall be kept with respect to receipts and disbursements of each airport under the jurisdiction of the commission.

Use of Airports Revenue Fund

Such revenue bonds shall be issued in accordance with the Revenue Bond Law of 1941 as it now reads or may hereafter be amended. The provisions of Sections 54380 through 54387, inclusive, of the Government Code shall not apply to the issuance and sale of such revenue bonds. Such revenue bonds shall bear a rate of interest not to exceed that which may be fixed and prescribed by the commission subject to approval or rejection by the Board of Supervisors without regard to the limitations contained in the Revenue Bond Law of 1941. Such bonds issued by the commission pursuant to the provisions of this section 139 shall not constitute or evidence indebtedness of the city and county but shall constitute and evidence only indebtedness of said commission payable solely out of revenues received by the commission from airports or airport facilities operated or controlled by it. Airport revenue bonds issued for such purposes pursuant to this section shall not be included in the bonded debt limit provided for in section 104 of this charter. Nothing in this section shall prevent the city and county from issuing general obligation bonds for the purpose of acquiring, constructing, improving or developing airports or airport facilities under the commission's jurisdiction, subject to the bond issue procedure provided for in this charter.

"In the event that a petition is submitted in accordance with the provisions of either sub-paragraphs (1) or (2) of this sub-section (a), and the Council submits said proposed ordinance to a vote of the voters of the City, the Council may not at the same time submit an alternative ordinance.

"(b) Referendum. percent (12%) of the number of persons eligible to vote at the general municipal election next preceding the filing of the petition."

WHEREAS, This creates a highly undesirable situation which calls for corrective action; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the State Personnel Board is directed to review its class specifications and job classification procedures in order to eliminate, whenever possible, educational requirements which have no bearing upon the job to be performed and to revise such written tests as may be deemed necessary so that they relate primarily to the actual job being performed; and be it further

WHEREAS, The Contra Costa Shoreline Parks Committee has proposed the East Brother Island Lighthouse, lying just westerly of Point San Pablo in San Francisco Bay, for inclusion in the National Register of Historic Places; and

WHEREAS, The East Brother Island Lighthouse from 1847 until the automation of its light and foghorn in 1969 was faithfully manned by the devoted men of the Lighthouse Service of the United States Coast Guard; and

WHEREAS, This lighthouse installation played a modest but vital role in the maritime history of San Francisco Bay and the development of the bay as a safe harbor, not because this facility is associated with any remarkable rescue episodes, but because its operation prevented the necessity for them; and

WHEREAS, The East Brother Island Lighthouse is one of the last examples of the "family" or "housekeeping" lighthouse stations; and

WHEREAS, The present complex of buildings constructed in white, gingerbread Victorian manner, dramatically set off by its island setting, possesses the distinctive charm of the architecture of that era; and

WHEREAS, There is no agency or department either of the federal or state government assigned the responsibility for this unique installation, thus leaving the buildings and island open to casual destruction by ignorance or default; and

WHEREAS, The procedure established for evaluating historic sites and buildings by the Committee on Standards and Surveys of the National Trust for Historic Preservation points out that "generally speaking, it is better to preserve than repair, better to repair than restore, and better to restore than reconstruct"; and

WHEREAS, The buildings in the complex were solidly constructed in 1874 and have been carefully maintained by the United States Coast Guard, thus they are in excellent condition and need only to be preserved; and

WHEREAS, The residents of Contra Costa County and other San Francisco Bay area residents have sought the privilege of living on the island and preserving it either in a caretaker capacity or as a part of an ecological, educational, or park project, under a few of the various innovative and intriguing possibilities that have been proposed, thus reflecting solid community commitment to the preservation and protection of the island installation; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Department of Parks and Recreation is requested to evaluate the East Brother Island Lighthouse in terms of the guidelines and criteria for selection to the National Register of Historic Places and to take such other steps as are required to nominate this island installation for inclusion in such register; and be it further

Resolved, That the Department of Parks and Recreation report its evaluations and recommendations to the Legislature not later than the fifth calendar day of the 1971 Regular Session of the Legislature; and be it further

Resolved, That the Secretary of the Senate transmit copies of this resolution to the State Director of Parks and Recreation, the Secretary of the United States Department of the Interior, the Secretary of the United States Department of the Treasury, the Commandant of the United States Coast Guard, the Commandant of the Twelfth Coast Guard District, and each Senator and Representative from California in the Congress of the United States.

Section 300. Elective Offices. The elective officers of the City shall be the Mayor and six Councilmen.

Section 301. Qualifications. No person shall be eligible to or continue to hold any elective office of the City, either by election or appointment, unless he is an elector thereof, and shall have been a resident thereof or of territory lawfully annexed thereto for at least three years next preceding his election or appointment.

Section 302. Term of Office. Each elective officer shall hold office for a term of four years from and after 8:00 p.m. of the first Tuesday in May next succeeding the general municipal election at which he was elected, and until his successor is elected and qualified. The Mayor and Councilmen serving at the adoption of this Section shall continue to serve for the terms to which they were elected. At the general municipal election held in April 1971 only two of the three vacancies occurring in the office of Councilman shall be filled by election, in order to reduce the number of Councilmen to six. In order to establish the terms of the members of the Council, the three Councilmen receiving the highest number of votes and elected at the general municipal election held in April 1973 shall serve regular four-year terms, and the Councilman receiving the lowest number of votes and elected at such election shall serve an initial term of two years; thereafter, all Councilmen shall serve terms of four years.

Section 303. Vacancies, Filling of. Any vacancy occurring in an elective office shall be filled by appointment by a majority of the remaining members of the City Council. Any such appointee shall hold office until 8:00 p.m. on the first Tuesday in May next succeeding the date of the next general municipal election and until his successor qualifies. At the next general municipal election following any vacancy, a successor shall be elected to serve the remainder of the unexpired term.

Section 304. Vacancy, What Constitutes. An elective office shall be declared vacant by the Council when the person elected or appointed thereto fails to qualify within 15 days after his certificate of election or appointment has been delivered to him, dies, resigns, ceases to be a resident of the City, absents himself continuously from the City for a period of more than 30 days without permission from the Council, absents himself from six consecutive regular meetings of the Council without permission from the Council, is convicted of a

felony, is judicially determined to be incompetent, forfeits his office under any provision of this Charter, or is removed from office by judicial procedure.

Section 305. Compensation. The Mayor and each Councilman shall receive the compensation heretofore fixed by Charter until changed by Charter amendment or ordinance. Such compensation fixed by ordinance shall not exceed the amount which the City Council of a general law city, of comparable population, can prescribe under the provisions of State law. In addition, the Mayor and each Councilman shall receive reimbursement for itemized routine and ordinary expenses incurred in official duty or such reasonable and adequate amount as may be established by ordinance, which amount shall be deemed to be reimbursement to them of routine and ordinary expenses imposed upon them by virtue of their office.

Section 306. Mayor's Allowance. In addition, the Mayor shall receive for his use in the discharge of the duties and obligations of his office, an allowance to be fixed by ordinance of not less than $2,400 per year, payable in equal monthly installments, for which he need not furnish vouchers.

Section 307. Council. The Council shall be composed of the Mayor and six Councilmen. The Council shall be the governing body of the City. All powers of the City shall be vested in the Council except as otherwise provided by law or in this Charter.

Section 308. Meetings of the Council. At 8:00 p.m. on the first Tuesday of May following each regular municipal election, the Council shall meet at the established Council meeting place, at which time and place the newly elected Councilmen shall assume the duties of their office. Thereafter the Council shall meet at least once each week at a time and place to be fixed by ordinance. Special meetings may be held at the regular place of meeting either on call of the Mayor, or on the request of three Councilmen, upon 24 hours' written notice to each member of the Council. Such notice shall be personally served or left at a place which shall be designated by each member of the Council; provided, however, that such notice may be waived by the written consent of all the members of the Council. Regular or special meetings may be held at places other than the regular meeting place only in an emergency in which the regular meeting place is untenable, or upon the posting of a public notice at the regular meeting place that the Council is meeting elsewhere, to be designated on the notice, for some purpose of public convenience. All regular or special sessions of the Council shall be open to the public, except for executive sessions permitted by law

Section 309. Quorum. A majority of the Council shall constitute a quorum for the transaction of business, but a less number may adjourn from time to time.

Section 310. Council Action. The Council shall provide by ordinance for the order of business and rules of procedure for the conduct of Council meetings. The Council shall act by

ordinance, resolution, or motion. The "Ayes" and "Noes" shall be taken on the passage of all ordinances and resolutions, and entered upon the journal of proceedings of the Council. Each proposed ordinance or resolution shall be introduced in written or printed form. Except as otherwise provided by this Charter or by general law, the vote of the majority of the members of the Council shall be necessary to adopt any ordinance, resolution, or motion.

Section 311. Enactment of Ordinances. In addition to such acts of the Council as are required by statute or by this Charter to be by ordinance, every act of the Council establishing a penalty or granting a franchise shall be by ordinance. The enacting clause of all ordinances shall be: "The Council of the City of Vallejo does ordain as follows:"

Section 312. Adoption of Ordinances and Resolutions. Except for emergency ordinances, no ordinance shall be adopted by the Council on the day of its introduction, nor within five days thereafter, nor except at a regular or adjourned regular meeting. At the time of adoption of an ordinance or resolution, it shall be read in full unless copies have been available to the public before or during the meeting at which the ordinance or resolution is under consideration, or unless after the reading of its title the further reading thereof is waived by unanimous consent. If an ordinance is altered after its introduction (except for the correction of typographical or clerical errors) it shall not be adopted except at a regular or adjourned regular meeting held not less than five days after the date of such alteration. Any ordinance declared by the Council to be necessary as an emergency measure for preserving the public peace, health or safety and containing a statement of the reasons for its urgency may be introduced and adopted at the same meeting if passed by at least five affirmative votes. Emergency appropriations to meet a pressing need for public expenditure, for other than a regular or recurring requirement, to protect the public health, safety or welfare may be made as an emergency ordinance.

Section 313. Amendment of Ordinances. Any section or subsection of an ordinance may be amended solely by the reenactment of such section or subsection at length, as amended.

Section 314. Publication. All ordinances and amendments to ordinances shall be published in the manner required by this Charter.

Section 315. Codification. The duly adopted and effective ordinances of the City may be compiled and arranged as a comprehensive ordinance code, which may be adopted by reference by the passage of an ordinance for such purpose. Such code need not be published as required for other ordinances, but not less than three copies thereof shall be available for examination by the public prior to the adoption thereof. Subsequent amendments to the code shall be by ordinance. Detailed regulations pertaining to any subject such as the construction of buildings, plumbing, wiring or other subjects

which require extensive regulations, maps, or exhibits, after having been arranged as a comprehensive code, may likewise be adopted by reference in the manner hereinabove provided.

Section 316. Effective Date of Ordinances. No ordinance adopted by the Council shall become effective until 30 days from and after the date of its adoption, except the following, which shall take effect upon adoption or upon a date specified therein:

(a) An ordinance calling or otherwise relating to an election;

(b) An improvement proceeding ordinance adopted under some law or procedural ordinance;

(c) An ordinance declaring the amount of money necessary to be raised by taxation, fixing the rate of taxation, levying the annual tax upon property or making an appropriation for the usual current expenses and outlays of the City;

(d) An emergency ordinance adopted in the manner provided in this Charter; and

Section 319. The Vice-Mayor. At its first meeting in May of each year, the Council shall elect from among its members a Vice-Mayor who shall serve for a term of one year and until his successor is elected by the Council. In addition to his regular duties as a Councilman, the Vice-Mayor shall perform the duties of the Mayor during the Mayor's absence or disability, and may perform at any time any duty of the office of the Mayor delegated to him by the Mayor.

Article IV

He shall be appointed by resolution approved by at least a majority of all the members of the Council solely on the basis of his proven executive and administrative qualifications. He must be a citizen of the United States, need not when appointed be a resident of the City or State, but shall become a resident of the City within 90 days after his appointment, and remain a resident during his tenure. No member of the Council shall be eligible for appointment as City Manager or acting City Manager during the term for which he was elected or for one year thereafter.

The City Manager shall have the duties and powers prescribed by this Charter or by ordinance.

Section 401. City Attorney. Section 402. Boards and Commissions. The Council may create by ordinance such boards and commissions as may be required for the proper operation of any function or agency of the City, and prescribe their duties and powers, terms, compensation and reimbursement for expenses, if any, subject to the provisions of this Article. Such boards may be advisory, policy, appellate and/or rule making. Members of boards and commissions shall be appointed by the Council. Vacancies shall be filled for the unexpired terms in the same manner as original appointments are made.

Section 403. Advisory Boards. The Council may create an advisory board for any department or function in which it finds greater citizen participation to be of particular mutual interest to the City government and to the people. Such advisory boards may by ordinance be empowered to advise the Council, the City Manager and the department head on matters of policy and public interest related to the department or function concerned, to investigate and make advisory reports on such matters to appropriate authorities, and to render such other specific services as are consistent with the role of an advisory board.

Section 404. Policy Boards or Commissions. The Council may create policy boards or commissions to assist in the operation of any function or service of the City which is supported in whole or in part by the revenue derived from its operations or which requires the long range investment and management of funds. Such policy board or commission may be authorized to prescribe regulations governing the operation of the function or service; to prescribe rates and conditions for rendering service; to adopt an operating budget; to develop and approve long range capital plans for the acquisition, improvement and extension of properties; and to arrange for the financing thereof in accordance with applicable law.

Section 405. Rule Making and/or Appellate Boards. The Council may create boards and commissions empowered to adopt rules to govern the operations of any City department or function, or to hear appeals from actions taken under such

rules or the laws governing the operation of such department or function. Rules and amendments thereto made by such a board or commission shall be effective only on approval by the City Council. The Council may not on its own motion amend such rules, but shall return those it disapproves with a statement of the reasons therefor for further consideration by the board or commission. Decisions by any such board or commission on matters in its jurisdiction, in which it has appellate authority, shall have the force and effect prescribed by this Charter, by ordinance, or by applicable general law.

Section 406. Composition and Terms. Each board or commission shall be composed of not less than five members. The members of boards and commissions holding office at the time this Section takes effect shall continue to hold office for the terms to which they were appointed or until the board or commission is abolished or modified under the authority of this Article. An ordinance creating a policy or rule making or appellate board or commission shall provide for a system of overlapping terms to assure continuity of plans and policy.

Section 407. Removal of Appointive Personnel.

Section 408. Acting City Manager. By letter filed with the City Clerk, the City Manager shall designate, subject to approval of the Council, a qualified city administrative officer to exercise the powers and perform the duties of the City Manager during his temporary absence or disability. During such absence or disability, the Council may revoke such designation at any time and appoint another officer of the City to serve until the City Manager shall return or his disability shall cease; provided, however, that the Council shall designate an acting City Manager pending a new appointment whenever the position is vacant for any cause.

Section 409. Conferring Additional Duties. The imposing of duties on a particular office by this Charter shall not limit the right of the Council to confer on any officer, board or

commission such additional powers as it may find necessary and consistent with the purpose of such officer, board or commission.

Any combination of duly authorized duties, powers and functions which in the judgment of the Council will provide the most efficient and economical service possible, consistent with the public interest and in keeping with accepted principles of municipal administration, may be authorized by such ordinance. All departments, offices, and agencies of the City except the office of City Attorney shall be under the direction and supervision of the City Manager and shall be ad-

Section 701. Budget Preparation. At least 45 days prior to the beginning of each fiscal year, the City Manager shall submit to the Council a budget of proposed expenditures and estimated revenues, accompanied by an explanatory budget message in such form as he deems desirable or as the Council may require. For such purpose, the City Manager, on such schedule and under such terms as he may prescribe, shall obtain from the head of each department or other agency of the City estimates of revenue and expenditure in such detail and with such supporting plans and data as he may require. The City Manager may revise such estimates in any manner he deems advisable. The explanatory budget message of the City Manager to the Council shall explain the budget, both in fiscal terms and in terms of work programs, shall outline the proposed financial policies of the City for the ensuing fiscal year, shall propose priorities for capital expenditures, and shall describe other important features of the budget plan. It shall state the reasons for salient changes from the previous year in cost and revenue items, shall explain any major changes in financial policy, and shall enable the Council to compare the prior and current years' revenues and expenditures to which such proposed revenues and expenditures relate. Estimates of revenue shall include surpluses to be

carried over from the current year, plus miscellaneous revenues from all sources other than the tax on property, the balance to be raised by the general property tax, and an estimate of the tax rate required for the purpose.

Section 702. Council Hearing and Approval. After submission of the budget by the City Manager, the Council shall publish in one or more newspapers of general circulation in the City the following: a general summary of the budget, information as to times and places where copies of the budget are available for inspection by the public, and the time and place for a public hearing on the budget which shall be no less than two weeks after such publication.

After the public hearing, the Council may revise the budget in any manner it finds necessary and shall adopt a budget for the ensuing fiscal year no later than the last day of the current fiscal year.

If it fails to adopt the budget by this date, the amounts appropriated for current operation for the current fiscal year shall be deemed adopted for the ensuing fiscal year on a month-to-month basis, with all items in it prorated accordingly, until such time as the Council adopts a budget for the ensuing fiscal year. Adoption of the budget shall constitute appropriations of the amounts specified therein as expenditures from the funds indicated and shall constitute a levy of the property tax therein proposed.

Section 703. Budget Revisions. At any time during the fiscal year the City Manager may transfer part or all of any unencumbered appropriation balance among programs within a department, office or agency, and upon written request by the City Manager, the Council, after having given one week's notice of intention to do so, may by resolution transfer part or all of any unencumbered appropriation balance from one department, office or agency, to another or may appropriate available funds not included in the budget.

Section 704. Tax Rate. Not later than the date set by State law for the purpose, the Council shall by ordinance fix the rate of property tax to be levied and levy the tax upon all taxable property in the City. Except when authorized by a majority vote of the voters voting on such proposition at any election at which the question of such additional levy is submitted to the voters, the annual tax levy shall not exceed the rate of one dollar on each one hundred dollars of assessed valuation of taxable property within the City, except for: sums necessary to provide for payment of principal and interest on the City's bonded indebtedness, to provide for the establishment, maintenance and support of the City's public library system, and to provide for the maintenance of the City retirement system.

The Council may apportion to and place in the cash basis fund such portion of the revenues derived from the annual tax levy and of money received from other sources as it may determine to be necessary until the accumulated amount in such fund shall be sufficient to meet all legal demands against the treasury of the City for the first five months or other necessary period of the succeeding fiscal year. Unencumbered surplus funds remaining in the treasury of the City at the end of any fiscal year may be transferred to such fund. The Council may transfer from the Cash Basis Fund to any other fund such sums as may be required for the purpose of placing such other fund as nearly as possible on a cash basis, provided that all money so transferred from the Cash Basis Fund shall be returned thereto before the end of the fiscal year.

Section 709. Capital Outlay Funds. The Council shall create such "Capital Outlay Funds" as may be required to finance the improvements specified in the creation of such funds, and each such fund shall remain inviolate to the purposes for which it was created, whether general or specific, unless the use of any such fund for some other purposes is authorized by the affirmative votes of a majority of the voters voting on such a proposition at a general or special election at which such proposition is submitted; provided, that when the purpose for any Capital Outlay Fund has been accomplished, the Council may transfer any unexpended or unencumbered surplus remaining in such fund to any other general or specific Capital Outlay Fund. The money for Capital Outlay Funds may be provided by the apportionment of a specific part of the general tax levy herein provided, by the allotment of all or a portion of other lawfully available revenues, or by the transfer of unencumbered surplus funds not specifically reserved for other purposes.

Section 710. Unappropriated Reserve Fund. The Council shall establish a fund known as the "Unappropriated Reserve Fund" for the purpose of meeting unforeseen contingencies and emergencies of the City, for such amount as may be es-

tablished by the Council. Said fund shall remain intact except for the affirmative vote of at least five members of the Council, with a statement declaring the reason for its use.

Section 711. Revolving Funds. The Council may by ordinance create revolving funds by the initial appropriation of available money and may require that they shall thereafter be maintained in whole or in part by service charges or other levies appropriate to the purpose of each fund.

Section 712. Discretionary Funds. The Council may from time to time appropriate discretionary funds, not to exceed $1,000 at one time, to be expended at the direction of the City Manager for investigative or other specified purposes, without reference to the auditing provisions of the Charter or any ordinance enacted under it; provided, that the City Manager shall semi-annually and at other times required by Council certify by affidavit that any of such funds expended have been for the purposes specified.

Section 713. Other Funds. The Council shall create by ordinance such other special funds as are required for proper accounting and fiscal management, or required as a condition of receiving funds from any other government.

Section 714. Control and Use of Public Utilities Funds. All funds derived from the operation of any public utility or enterprise by the City shall be deposited in the City treasury, to be managed and expended in accordance with the following policies:

a. From the proceeds of the operation of the utility or enterprise there shall first be set aside annually the funds required to redeem and pay interest on any bond issued for that utility or enterprise which will become due and payable during the next fiscal year.

b. There shall next be provided an adequate reserve to finance replacements required by the normal depreciation of the utility's or enterprise's plant and equipment.

d. There shall next be provision made for current operations, including current maintenance of the physical plant; purchase of materials, supplies and equipment; administration and management; clerical services; collections; advertising and the cost of services rendered by other City departments.

e. There shall next be paid to the general fund an amount equivalent to franchise fees and City taxes as if the utility or enterprise were privately owned, and for the fair value of any commodity or resource received from the City to make possible the operation of the utility.

f. All remaining operating profits, the amount of which has been determined by the City Manager with the approval of the City Council, shall be transferred to the general fund.

Section 715. Accounting System. The City Manager shall direct the establishment and supervise the maintenance of a uniform system of accounting, applicable to all departments and other agencies of the City, conforming to modern and accepted practices of public accounting, which shall be adequate to account for all money on hand and for all income and expenditures in such detail as will provide complete and informative data concerning the financial affairs of the City, and in such manner as will be readily susceptible to audit and review.

Section 716. Authorization and Control of Expenditure. No expenditure of City funds shall be made except for the purposes and in the manner specified in an appropriation by the Council. The City Manager shall establish and direct such systems of internal control and audit as he may find necessary to insure the fulfillment of the purpose of this Section. The elective City Auditor holding office at the time this Section takes effect shall continue to hold such office for the term for which he was elected and during that time shall maintain the internal audit and control herein provided.

Section 717. Purchasing. The City Manager shall purchase or contract for the equipment, materials, supplies and services required by the City, for which expenditures have been authorized in the budget or by other action of the Council. The Council shall establish by ordinance the conditions under which competitive bidding shall be required, shall specify those amounts and conditions under which Council approval is required for specific items of purchase, and shall prescribe conditions under which all bids may be rejected and new bids invited. In the case of materials, supplies and equipment a preference of not to exceed five per cent may be allowed to firms or individuals who regularly maintain a place of business and transact business, or maintain an inventory of merchandise for sale, in the City.

Section 718. Contracts to Next Lowest Bidder. If any contractor fails to enter into any contract awarded to him after public advertisement and competitive bidding, the Council may direct the re-advertising of the original proposal or any modification thereof, or may award the contract to the next lowest responsible bidder without re-advertising, provided that such award is not made more than 90 days after the opening of bids.

Section 719. Conflicts of Interest. No officer or employee of the City shall have any financial interest in any contract, sale or transaction to which the City is a party, if having such interest constitutes a violation of the State law. The penalty for violation of this Section shall be as provided by State law.

Section 720. Inventory and Accountability. The City Manager shall establish and maintain an inventory of the City's real and personal property, and shall establish a system for maintaining accountability for such property, and for the orderly disposal of any property for which the City no longer

has use. The Council shall establish by ordinance the type or value of items to be regarded as expendable, to be exempt from specific accountability, and may authorize the conditions under which obsolete, damaged or items no longer needed by the City may be disposed of by sale or otherwise.

Section 721. Independent Audit. The Council shall employ at the beginning of each fiscal year an independent public accountant who shall at such time or times as may be specified by the Council and at such other times as he shall determine, examine the books, records, inventories and reports of all officers and employees who receive, handle or disburse public funds, and of such other officers, employees or departments as the Council may direct. The Council may direct that such accountant may conduct the independent audit throughout the fiscal year and make reports at intervals required by the Council, but a report for the entire fiscal year shall be filed within 45 days after the closing of the books for said fiscal year, and copies of such reports shall be filed with the Council and with the City Manager, and shall be available for public inspection and review.

Section 724. Disbursements. No payments shall be made of any City money out of any fund by the officer responsible for disbursement except upon the certification of the officer responsible for internal audit and control that the expenditure has been duly authorized, and that it is in accordance with law.

Section 725. Investments. After taking into account the amounts required to meet the current and pending requirements of the City, the City Manager may arrange for the term deposit or investment in securities authorized by law of any balances available for such purpose, and the yield therefrom shall be credited as revenue to each fund from which investments are made.

Section 726. Bonds. The Council shall determine by ordinance which officers and employees shall be subject to group or individual bonds to assure the faithful performance of official duties, shall fix the amount of such bonds, and shall provide payment of the premium of such bonds by the City.

Section 727. General Bonded Indebtedness. Whenever the Council determines that the public interest requires the construction, acquisition, completion, initial equipping, remodeling or repair of any improvement, the cost of which, in

addition to the other expenditures of the City, will exceed the income and revenue provided for it in any one year, they may by ordinance submit a proposition to incur an indebtedness evidenced by general obligation bonds for such purpose, and proceed therein as provided in the Constitution and general laws of the State.

Section 728. Utility Bonded Indebtedness. Whenever the electorate, by majority vote of those voting on a proposition submitted at any regular or special municipal election, authorize the acquisition of a public utility by the City, the Council is empowered to finance, by borrowing, the acquisition of privately owned utility properties and/or the purchase of land pertinent thereto, vehicles, machinery, materials and the cost of all construction and property installations for utility purposes. Bonds issued for such purposes shall not be general obligation bonds of the City, but shall be secured by the assets of such utilities only. The Council is also hereby empowered to finance the improvement or extension of any public utility now owned by the City by means of such bonds secured by the assets of the utility. Resolutions authorizing the issuance of such bonds for acquisition or extension of utilities shall require the affirmative vote of five members of the City Council.

Section 729. Revenue Bonds. Bonds which are payable only out of such revenues as may be specified in such bonds may be issued when the City Council by ordinance shall have established a procedure for the issuance of such bonds. Such bonds, payable only out of revenues, shall not constitute an indebtedness or general obligation of the City. No such bonds payable out of revenues shall be issued without the assent of a majority of the voters voting upon the proposition for issuing the same at an election at which such proposition shall have been duly submitted to the qualified electors of the City.

Section 808. Subpoena Power by Civil Service Commission. e. If, after a period of time to be set forth in the ordinance, no agreement can be reached between City representatives authorized in (b) above and the representatives of recognized employee organizations, or if the City Council refuses to ratify the agreement arrived at or modifies such agreement in any manner unacceptable to said employee organizations, the parties shall request the State Conciliation Service, or other available impartial third-party mediation service mutually acceptable to the parties, to provide a mediator in accordance with its usual procedures.

One member of the fact-finding committee shall be appointed by the City Council, one member shall be appointed by the recognized employee organization, and those two appointed shall name a third, who shall be the chairman. If they are unable to agree upon a third, they shall select the third member from a list of five names to be provided by the State Conciliation Service. The fact-finding committee shall make public its report, with recommendations, within 30 days. The Council shall then promptly consider and act upon the report.

g. The costs of mediation and fact finding shall be borne equally by all parties.

The provisions of this Article shall not be construed as authorizing or permitting strikes by City employees, or as making the provisions of Section 923 of the Labor Code of the State of California applicable to City employees.

Article IX
Franchises

Section 900. Franchises. The Council shall have authority to grant or issue franchises by ordinance for the transaction of business or the providing of services or for the use of public streets or other public places. Not less than fifteen days prior to the granting of any franchise, the Council shall by resolution declare its intent to take such action, naming the proposed grantee, the character of the franchise, and the terms and conditions under which it is proposed to be granted. Such resolution shall set the time and place of public hearing at which protests will be heard. If after such hearing the Council shall decide to issue the franchise with any substantive change in grantee or terms and conditions, further public hearings shall be called and

held in the same manner for the hearing of objections to such proposed changes.

Section 902. Term of Franchise. Each franchise shall state the term for which it is granted, which shall not exceed 30 years.

Section 903. Right to Acquire. No franchise grant shall be construed to impair or affect the right of the City, acting pursuant to law, to acquire the property of the grantee either by purchase or through the exercise of the right of eminent domain.

The Council may reject bids which it finds to propose rates exceeding those customarily charged by the bidder for the publication of legal notices of a private character. The Council shall by ordinance designate the times and conditions under which notice shall be published of the enactment of ordinances, invitations to bid and awards of contracts, notices of intention to grant franchises, holding of elections and other matters requiring public notice in accordance with this Charter, any ordinance enacted pursuant thereto or general State law. All of the provisions of Article XXI governing off-street vehicular parking, previously appearing in the preceding Charter, are hereby continued in force and effect as an ordinance of the City; provided, that such ordinance may not be amended by the Council to impair any obligation existing thereunder, or to divert to any other purpose any revenue expressly reserved for the payment of principal and interest on any revenue bonds authorized and issued pursuant to the authority thereof. The Council is hereby expressly authorized to exercise the powers vested by law in any city to provide off-street vehicular parking facilities and to provide for the financing thereof in whole or in part from revenues derived therefrom.

Proposition No. 2.

As an alternative proposition, shall Section 704 of the proposed new Charter read as follows:

Section 704. Tax Rate. Not later than the date set by State law for the purpose, the Council shall by ordinance fix the rate of property tax to be levied and levy the tax upon all taxable property in the City. The annual tax levy shall not exceed the rate of one dollar on each one hundred dollars of assessed valuation of taxable property within the City, except for sums necessary to provide for payment of principal and interest on the City's bonded indebtedness, to provide for the establishment, maintenance and support of the City's public library system, and to provide for the maintenance of the City retirement system. However, the Council may declare by ordinance no later than eight months before the beginning of the next fiscal year its intention to increase the tax levy for the

next fiscal year by an amount not to exceed ten cents on each one hundred dollars of assessed valuation above the rate then in effect, unless barred by referendum action. Should the Council fail to fix the rate and levy taxes within the time prescribed, the rate for the next preceding fiscal year shall thereupon be automatically adopted and a tax at such rate shall be deemed to have been levied on all taxable property in the City for the current fiscal year. The obligations created by the City's tax levy and the manner in which they are to be collected and penalties exacted for delinquency shall be as provided by general State law.

Proposition No. 3.

As a separate proposition, shall Section 810 be added to Article VIII of the proposed new Charter to read as follows:

Section 810. Employer-Employee Relations—Arbitration. Consistent with applicable law, the ordinance adopted by the Council under Section 809 shall in addition include a requirement that if the parties do not reach agreement within 10 days after the report and recommendations of the fact-finding committee, the issues shall be submitted to arbitration. The Board of Arbitrators shall be composed of three persons; one appointed by the City Council, one appointed by the recognized employee organization, and those two appointed shall appoint a third, who shall be chairman. If they are unable to agree upon a third, they shall select the third member from a list of five names to be provided by the State Conciliation Service. No member of the fact-finding committee shall be a member of the Board of Arbitrators. The arbitrators shall consider all factors relevent to the issues from the standpoint of both the employer and the employee, including the City's financial condition. To the extent permitted by law, the decision of a majority of the Board of Arbitrators shall be final and binding upon the parties. The cost of arbitration shall be borne equally by all parties.

The Council shall also provide in said ordinance that any employee who fails to report for work without good and just cause during negotiations or who participates in a strike against the City of Vallejo will be considered to have terminated his employment with the City, and the Council shall have no power to provide, by reinstatement or otherwise, for the return or reentry of said employee into the City service except as a new employee who is employed in accordance with the regular employment practices of the City in effect for the particular position of employment.

Proposition No. 2

As an alternative proposition, shall Section 704 of the proposed new Charter read as follows:

"Section 704. Tax Rate. Not later than the date set by State law for the purpose, the Council shall by ordinance fix the rate of property tax to be levied and levy the tax upon all taxable property in the City. The annual tax levy shall not exceed the rate of one dollar on each one hundred dollars of assessed valuation of taxable property within the City, except for sums necessary to provide for payment of principal and interest on the City's bonded indebtedness, to provide for the establishment, maintenance and support of the City's public library system, and to provide for the maintenance of the City retirement system. Consistent with applicable law, the ordinance adopted by the Council under Section 809 shall in addition include a requirement that if the parties do not reach agreement within 10 days after the report and recommendations of the fact-finding committee, the issues shall be submitted to arbitration. The Board of Arbitrators shall be composed of three persons; one appointed by the City Council, one appointed by the recognized employee organization, and those two appointed shall appoint a third, who shall be chairman. If they are unable to agree upon a third, they shall select the third member from a list of five names to be provided by the State Conciliation Service. No member of the fact-finding committee shall be a member of the Board of Arbitrators. The arbitrators shall consider all factors relevant to the issues from the standpoint of both the employer and the employee, including the City's financial condition. To the extent permitted by law, the decision of a majority of the Board of Arbitrators shall be final and binding upon the parties. The cost of arbitration shall be borne equally by all parties.

The Council shall also provide in said ordinance that any employee who fails to report for work without good and just cause during negotiations or who participates in a strike against the City of Vallejo will be considered to have terminated his employment with the City, and the Council shall have no power to provide, by reinstatement or otherwise, for the return or reentry of said employee into the City service except as a new employee who is employed in accordance with the regular employment practices of the City in effect for the particular position of employment."

[Filed with Secretary of State August 14, 1970.]

WHEREAS, Route 152 from Route 1 near Watsonville to Route 101 near Gilroy via the Hecker Pass is included in the California freeway and expressway system; and

WHEREAS, Route 152 traverses terrain which lends itself more properly to maintenance as a conventional state highway; and

WHEREAS, Local development in the Freedom area of Santa Cruz County will be hindered by the location of a freeway through it; and

WHEREAS, The adopted route will require vast areas of prime agricultural land in Santa Cruz County; and

WHEREAS, Other routes are available for a freeway to connect Route 1 near Watsonville to Route 101 near Gilroy to provide easy access between the coastal regions of Santa Cruz and Monterey Counties and Santa Clara Valley and San Joaquin Valley; and

WHEREAS, Route Alternate 4 was adopted by the California Highway Commission as the location of a section of Route 1 within the City of Santa Cruz; and

WHEREAS, The selection of Route Alternate 4 is contrary to the official position of both the City Planning Commission and City Council of Santa Cruz, since Route Alternate 4 was determined by these bodies not to be an effective solution to the present and future traffic problems within the city and to be disruptive of the physical environment of the portion of the city through which it passes; and

WHEREAS, The Board of Supervisors of the County of Santa Cruz has by resolution requested a moratorium on freeway planning and construction in order to study future transportation needs in Santa Cruz County; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the California Highway Commission is hereby requested:

(a) To consider other locations for Route 152 as a conventional state highway to better serve traffic;

(b) To consider other locations for a freeway connecting Route 1 near Watsonville and Route 101 near Gilroy, particularly locations in the vicinity of Route 129 near the Santa Cruz-Monterey county line; and

(c) To delay budgeting for right-of-way acquisition and design for the adopted locations of Routes 1 and 100 in the City of Santa Cruz until July 1, 1971, or until the County of Santa Cruz has completed its countywide transportation study, whichever occurs first, and to review its previous action with respect to those segments of Routes 1 and 100 after such date; and be it further

Resolved, That the Chief Clerk of the Assembly transmit a copy of this resolution to the California Highway Commission.

WHEREAS, That need is also recognized by the United States Forest Service, the National Park Service, the State of California Resources Agency, and the Southern California Association of Governments, and these agencies have pledged to work together to help protect the California Desert; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the President and the Congress of the United States to enact legislation embodying the recommendations of the Bureau of Land Management for the protection and enhancement of the California Desert; and be it further

WHEREAS, The Assembly Select Committee on Environmental Quality, consisting of committee chairmen of Assembly policy committees concerned with environmental quality, has recommended that legislation be enacted establishing a state environmental excise tax on new automobiles to fund programs to preserve, protect, and enhance the state's environmental quality contingent on removal of the federal excise tax on new cars; and

WHEREAS, The select committee has recommended that an Environmental Bill of Rights be amended into the California Constitution declaring that it is the policy of the state to develop and maintain a high-quality environment in order to assure for the people of the state, now and in the future, clean air, pure water, freedom from excessive noise, and enjoyment of scenic, historic, natural, and aesthetic values; and

WHEREAS, The California Legislature recognizes the need to acquire key coastal resources to meet increasing demand for

public beaches and for the protection of other unique coastal resources; and

WHEREAS, The California Legislature further recognizes the need to make funds available in order to improve water quality, provide clean air, and develop improved methods of solid waste management; and

WHEREAS, The national administration has proposed a new federalism involving greater exercise of initiative and responsibility by state and local governments to deal with state problems; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the President and the Congress of the United States not to request reimposition of a federal excise tax on new automobiles, so that this tax source may be used by the states to preserve, protect, and enhance the quality of our environment; and be it further

Resolved, That the Legislature urges each Senator and Representative from California in the Congress of the United States to take all necessary action to allow this tax source to be made available to California for environmental quality control purposes; and be it further

RESOLUTION CHAPTER 207

Assembly Joint Resolution No. 62—
Relative to Garner Valley.

[Filed with Secretary of State August 27, 1970.]

WHEREAS, Garner Valley in the San Jacinto Mountains in Riverside County is a scenic area within short traveling distance from major population centers of California; and

WHEREAS, There exists a crucial need for recreational land near major population centers in California and the nation; and

WHEREAS, The preservation of present recreational land is of highest priority in California's fight to preserve her environment; and

WHEREAS, The several thousand acres of Garner Valley are adjacent to the San Bernardino National Forest; and

WHEREAS, Proposed development of this area may have adverse ecological effects upon such surrounding lands; and

WHEREAS, A recent United States Forest Service report indicates the advisability of protecting Garner Valley to insure the conservation of federal lands in this area; and

WHEREAS, This study specifically notes that Garner Valley is a key watershed in the upper reaches of the San Jacinto River, and proper management of both private and national forest lands is essential from a flood control, water quality, and soil erosion standpoint; and

WHEREAS, The federal government owns surplus property which consists of less desirable recreational land throughout California and in the vicinity of the City of Riverside, and it may be in the best interest of the people of the State of California and the nation to preserve Garner Valley and allow development on other surplus land; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the President and the Congress of the United States to take immediate action to preserve Garner Valley or portions thereof; and be it further

Resolved, That such action emphasize the possibility of exchanging surplus land or other federal properties in the vicinity of the County of Riverside or elsewhere for such Garner Valley land; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, to the Secretary of Interior, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

RESOLUTION CHAPTER 208

Assembly Joint Resolution No. 64—Relative to foreign fishing off the United States coastal waters.

[Filed with Secretary of State August 27, 1970]

WHEREAS, The fishing industry has played a most important role in the development of the California economy; and

WHEREAS, Many Californians are dependent on the fishing industry to provide them jobs and a livelihood; and

WHEREAS, There has been a rapid increase in foreign fishing activities off the coasts of the United States, especially the Pacific Coast; and

WHEREAS, The California fishing industry is seriously threatened by increasing foreign fishing competition, which utilizes technological methods prohibited for use by California fishermen, resulting in overfishing and possible loss of some fisheries; and

WHEREAS, There have been several reported instances of foreign fishing vessels violating the 12-mile United States coastal limit by fishing; and

WHEREAS, The increasing threat to the irreplaceable natural resource, the coastal fishery, has alarmed many conservationists and American commercial fishermen; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of the State of California memorializes the President, Congress, the United States Secretary of Interior and State, and the United States Bureau of Commercial Fisheries to immediately review the threat posed to our marine resources by the foreign vessels fishing off the United States coastal waters; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, to the Secretary of Interior and State, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

RESOLUTION CHAPTER 209

Assembly Joint Resolution No. 66—Relative to restricted dangerous drugs.

[Filed with Secretary of State August 27, 1970.]

WHEREAS, The rapidly growing and widespread abuse of restricted dangerous drugs, particularly of the amphetamines and barbiturates, has reached crisis proportions both nationally and in the State of California; and

WHEREAS, The illicit supply and availability of these restricted dangerous drugs is to a great degree directly attributable to the diversion of dangerous drugs from legal distribution and dispensing channels into illegal markets; and

WHEREAS, One of the most glaring points of diversion of legally manufactured drugs into the illicit market is through the mail order purchase of restricted dangerous drugs from out-of-state wholesale drug firms which deal exclusively through the United States mail; and

WHEREAS, There is incontrovertible evidence that mail order drug firms regularly sell and ship large amounts of restricted dangerous drugs through the United States mail to unauthorized persons; and

WHEREAS, Such mail order drug wholesale firms are virtually uncontrolled and unregulated by federal law, and because of the interstate character of the distribution of drugs by mail the states are powerless to regulate such businesses beyond their borders; now, therefore, be it

Resolved by the Assembly and the Senate of the State of California, jointly, That the Legislature of the State of California respectfully request the Congress of the United States to enact legislation to ban sales and shipment of restricted dangerous drugs through the mails, or if this should prove unfeasible, to enact legislation to severely and strictly control the interstate distribution of restricted dangerous drugs; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the President of the United States,

the Speaker of the House of Representatives, the Attorney General of the United States, the House Select Committee on Crime, the House Committee on Ways and Means, the House Committee on Interstate and Foreign Commerce, and to each Senator and Representative from California in the Congress of the United States.

Assembly Joint Resolution No. 70—Relative to the proposed A. P. Giannini commemorative stamp.

[Filed with Secretary of State August 27, 1970.]

WHEREAS, A. P. Giannini is recognized by professional economists as the greatest innovator in banking, having permanently revolutionized banking everywhere by founding and successfully operating a bank expressly to serve "the little fellow"; and

WHEREAS, He established that bank in cosmopolitan San Francisco, California, in the year 1904 as the Bank of Italy, later changed its name to Bank of America NT&SA, and saw it grow in some 40 years, under his leadership, from a modest single office to the world's largest privately owned bank and an international institution; and

WHEREAS, Even today the Bank of America NT&SA is owned and controlled by "the little fellow," for of the 180,000 shareholders none owns as much as 1 percent of the outstanding stock; and

WHEREAS, The banking institution A. P. Giannini founded and the revolutionary banking policies and principles he introduced have immeasurably contributed to the economic development and prosperity not only of California and the nation but have also profoundly benefited international trade and the economy of foreign countries; and

WHEREAS, Much of the financial reward earned by A. P. Giannini personally was by him devoted to public service by endowing educational foundations and donating funds to academic institutions and charities; and

WHEREAS, The life and career of A. P. Giannini, a California-born son of Italian immigrants, illustrate dramatically the opportunities open to all in our democratic society and American free enterprise system; and

WHEREAS, There is pending a proposal that the United States Post Office issue a commemorative stamp in honor of A. P. Giannini; and

WHEREAS, The proposed A. P. Giannini commemorative stamp would perpetuate throughout the world not only the memory of his achievements and public service but also of the values and benefits inherent in American democracy; and

WHEREAS, This year, 1970, is the centennial anniversary of the birth of A. P. Giannini and hence a most appropriate time

for the issuance of the proposed A. P. Giannini commemorative stamp; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the President, the Postmaster General, the Congress of the United States, and the Citizens' Stamp Advisory Committee that in this centennial year of the birth of A. P. Giannini there be issued a commemorative stamp in recognition of his achievements and public service and as an exemplification of the opportunities open to all in our democratic society and free enterprise system; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, to each Senator and Representative from California in the Congress of the United States, to the Citizens' Stamp Advisory Committee and to Claire Giannini Hoffman, the daughter of A. P. Giannini.

RESOLUTION CHAPTER 211

Assembly Concurrent Resolution No. 26—Relative to the southern crossing.

[Filed with Secretary of State August 27, 1970.]

WHEREAS, Pursuant to statutory authorization, engineering, traffic, and financial studies have been conducted in connection with construction of the southern crossing; and

WHEREAS, The Division of Bay Toll Crossings of the Department of Public Works, in February 1966, issued the Southern Crossing of San Francisco Bay Report, recommending the construction of the bridge, which report has not been updated, even though construction will not commence until the latter part of 1971, a time lapse of almost six years, and will not be completed until 1975; and

WHEREAS, The San Francisco Bay Area Rapid Transit District (BART) will begin operations in 1972; and

WHEREAS, The revenues of BART could be adversely affected upon the opening of the southern crossing in 1975, since people served by both BART and the bridge may elect to cross the bay by using the bridge rather than the rapid transit system; and

WHEREAS, The bond issue necessary to finance the construction of the $285,000,000 southern crossing will seriously affect the bonding capacity of public entities in the San Francisco Bay area in general, which together with the potential loss in revenue to BART, may seriously impair the marketability of any future bonds which might be necessary to finance the construction of the rapid transit system; and

WHEREAS, On the basis of aesthetics, a cable-stayed girder design was finally chosen for the 1,300-foot main span in lieu of the original choice of a tied arch; and

WHEREAS, The lack of current information regarding the role of the southern crossing in a balanced transportation system which is highly essential to the future economic growth of the San Francisco Bay area, the potential impairment in the marketability of any future BART bond issues, and the controversy over the type of structure to be used for the 1,300-foot main span, seem to indicate that the impact of the bridge, from a transportation, economical, ecological, and financial standpoint, on the San Francisco Bay area was not fully considered before authorization was granted to complete the design and to commence construction in 1971; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the members hereby request the California Toll Bridge Authority to reconsider its decision to construct the southern crossing after the completion of a comprehensive reexamination of all criteria relative to the need for such a crossing, including, but not limited to, the impact of a fully operative Bay Area Rapid Transit District system; and be it further

Resolved, That the California Toll Bridge Authority request the cooperation of the San Francisco Bay Conservation and Development Commission in conducting its comprehensive reexamination; and be it further

Resolved, That the California Toll Bridge Authority, in making its comprehensive reexamination, conduct public hearings in the San Francisco Bay area so that all interested parties may have the opportunity to present their viewpoint; and be it further

Resolved, That the Chief Clerk of the Assembly transmit a copy of this resolution to the California Toll Bridge Authority.

RESOLUTION CHAPTER 212

Assembly Concurrent Resolution No. 56—Relative to the Skyline Regional Scenic Recreation Route.

[Filed with Secretary of State August 27, 1970.]

WHEREAS, The Peninsula's Skyline Boulevard constitutes the crowning gem of the San Francisco Bay area, the home of over four million people; and

WHEREAS, In view of the exploding growth of population in, and the increasing urbanization of, the bay area, it has become apparent that the opportunity to preserve and enhance the natural beauty of the skyline may soon cease to exist; and

WHEREAS, The San Mateo County Parkways and Scenic Roads Subcommittee, with Mr. George Dean as chairman, at a meeting held at Canada College, Woodside, on March 26, 1969, recommended that the skyline be developed as a regional scenic recreational route so that the unlimited recreational opportunities in the skyline area be available to the residents of the bay area; and

WHEREAS, Only by the concerted and coordinated effort and planning of the Counties of San Mateo, Santa Clara, and Santa Cruz and the City and County of San Francisco can the concept of the development of the skyline as a regional scenic recreational route be brought to fruition; and

WHEREAS, The subcommittee, therefore, recommended that the boards of supervisors of the four counties develop an interagency agreement to implement such a creative concept; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the members endorse the concept of developing Skyline Boulevard into the Skyline Regional Scenic Recreational Route so as to preserve and enhance the ecology of the skyline; and be it further

Resolved, That the Chief Clerk of the Assembly transmit suitably prepared copies of this resolution to the San Francisco, San Mateo, Santa Clara, and Santa Cruz Boards of Supervisors.

Relative to vocational education.

[Filed with Secretary of State August 27, 1970.]

WHEREAS, Vocational education and its improvement are critical needs for California today; and

WHEREAS, The Legislature has just received the Arthur D. Little report on evaluation and recommendations concerning vocational education in California; and

WHEREAS, The Arthur D. Little report recommends local involvement in the vocational educational planning process; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Legislature urges the State Board of Education to require that each school in California create a broad based citizens committee to discuss and evaluate and plan for improved vocational education for the school; and be it further

Resolved, That the Chief Clerk of the Assembly transmit a copy of this resolution to the State Board of Education.

RESOLUTION CHAPTER 214

Assembly Concurrent Resolution No. 77—Relative to year-round operations at the University of California.

[Filed with Secretary of State August 27, 1970]

WHEREAS, The Legislature recognizes that greater utilization of existing and planned facilities of the University of California is in the best interest of the citizens of California in view of the numbers of students requiring advanced education; and

WHEREAS, Operation of the campuses of the University of California on a year-round basis will provide greater utilization of existing and planned facilities; and

WHEREAS, It is clear that long-term capital outlay savings to the state, as a result of the year-round operations, will substantially exceed additional operating costs to the state resulting from offering a summer quarter at the same level of quality as other quarters; and

WHEREAS, These savings can be achieved while providing greater educational service to California's students; and

WHEREAS, Any delay in instituting the system of year-round operations at the university will result in additional long-term costs which must be borne by the taxpayers of the State of California; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the members urge the Regents of the University of California to institute a program of year-round operations on all campuses of the University of California at the earliest possible time; and be it further

Resolved, That the Chief Clerk of the Assembly transmit a copy of this resolution to the Regents of the University of California.

RESOLUTION CHAPTER 215

Assembly Concurrent Resolution No. 87—Relative to travel routes between California and the Baja California Peninsula.

[Filed with Secretary of State August 27, 1970.]

WHEREAS, Travel between the United States and the Baja California Peninsula has an annual increase of approximately 15 percent and is expected in the next six years to double from the 35,000 persons crossing daily in 1968; and

WHEREAS, Additional access will be needed for the proposed State of California Border Park and the new residential-recreational marina, and a new road is absolutely essential to provide proper traffic capacity for persons crossing the border; and

WHEREAS, It is desirable to segregate traffic destined for downtown Tijuana from that destined for other parts of Baja

California, and to avoid congestion it is necessary to provide a more direct route to Baja California and to segregate truck traffic from passenger traffic; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Department of Public Works is directed to conduct a study on the subject of a proposed north/south extension of the freeway system from Interstate 5 in the vicinity of State Route 75 in a southwesterly direction to a new crossing at the international border approximately one-fourth to one-half of a mile inland from the Pacific Ocean; and be it further

Resolved, That the Department of Public Works report its findings and recommendations to the Legislature not later than July 1, 1971; and be it further

Resolved, That the Chief Clerk of the Assembly transmit a copy of this resolution to the Director of Public Works.

RESOLUTION CHAPTER 216

Assembly Concurrent Resolution No. 102—Relative to academic tenure at the University of California.

[Filed with Secretary of State August 27, 1970.]

WHEREAS, It is the policy of the University of California to grant tenure upon employment with no probationary period to academic staff hired at the rank of associate professor and above; and

WHEREAS, Academic probation is established to assess the quality of an instructor's scholarly work and his teaching performance prior to granting permanent status; and

WHEREAS, The length of such probationary periods for instructors has historically been set to provide for maximum evaluation of the general competence of academic staff; and

WHEREAS, The American Association of University Professors has set forth a general policy which recommends at least a minimum service or probation for all academic staff; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Legislature call upon the University of California to alter its academic tenure policy to provide that all academic employees serve a minimum probationary period in the system; and be it further

Resolved, That academic employees hired at the rank of associate professor or professor may be accorded tenure at the beginning of the second year of continuous employment and shall be accorded tenure at the commencement of the third year of continuous employment; and be it further

Resolved, That the acquisition and termination of academic tenure, and rehiring decisions, shall be preceded by evaluation procedures which include the consideration of teaching per-

formance based on observed or tested student achievement, research and creative activity, and contributions to the college and community; and be it further

Resolved, That all academic employees hired below the rank of associate professor shall become eligible for the accordance of tenure only after four successive years of employment, and in no instance shall the probationary period extend beyond seven years; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the Regents of the University of California, the President of the University of California and to the statewide Academic Senate of the University of California.

WHEREAS, The Portuguese Bend "slide area" and adjacent ocean front areas of the Palos Verdes Peninsula in Los Angeles County offer tremendous esthetic and recreational advantages to the residents of southern California; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Department of Parks and Recreation is directed to undertake a study to determine the

feasibility of acquiring and developing a state beach and park in the Portuguese Bend "slide area" and adjacent ocean front areas of the Palos Verdes Peninsula in Los Angeles County and to report thereon to the Legislature in January 1971, contingent upon the County of Los Angeles providing assistance in the form of services, materials, or funds to the Department of Parks and Recreation to conduct such study, or unless funds are otherwise available for the purpose; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the Governor, the Director of Parks and Recreation and to the Board of Supervisors of Los Angeles County.

WHEREAS, There are large stocks of environmentally harmful pesticides in the hands of home gardeners who have no satisfactory means of disposal; and

WHEREAS, Some of these environmentally harmful pesticides are nonbiodegradable and the usual methods of disposal will only increase the environmental damage; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Legislature requests the California Department of Agriculture to propose a program for the safe and efficient disposal of unwanted environmentally harmful pesticides and to cooperate with the federal government in any similar program which it may initiate; and be it further

Resolved, That the Chief Clerk of the Assembly transmit a copy of this resolution to the Director of Agriculture.

RESOLUTION CHAPTER 220

Assembly Concurrent Resolution No. 136—Relative to beach erosion in San Mateo County.

[Filed with Secretary of State August 27, 1970]

WHEREAS, The coastal area of the State of California is subject to continuing erosion as a result of strong tidal and wave action generating in the Pacific Ocean; and

WHEREAS, Over a period of years, as a result of engineering studies, certain areas of the coast have been stabilized by construction of appropriate structures or facilities; and

WHEREAS, There is a current problem of beach erosion which is causing damage to both public and private property in or about the area of the Cities of Half Moon Bay and Pacifica in the County of San Mateo; and

WHEREAS, The temporary measures taken by the affected jurisdictions have not corrected this problem; and

WHEREAS, A permanent solution to the beach erosion problem in this area is deemed necessary for the safety of lives and property of the citizens of the County of San Mateo and more particularly within the affected area; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the appropriate state department within the Resources Agency and the appropriate state department within the Business and Transportation Agency be directed and authorized to conduct such studies as are necessary to determine the corrective action required to alleviate this erosion problem and to recommend methods under which financing can be obtained to accomplish such corrective action; and be it further

RESOLUTION CHAPTER 221

Assembly Concurrent Resolution No. 157—Relative to San Luis Rey-Santa Margarita investigations.

[Filed with Secretary of State August 27, 1970.]

WHEREAS, The Department of Water Resources is authorized by Water Code Section 12616 to conduct investigations of the water resources of the state, to formulate plans for the control, conservation, protection, and utilization of such water resources, and to render reports thereon; and

WHEREAS, The major cities and public water districts within the Santa Margarita and San Luis Rey Watersheds have formed joint powers agencies to conduct in-depth investigations into water quality management for the protection and preservation of the water supplies of these watersheds; and

WHEREAS, Such investigations are in aid of the jurisdiction and planning of the State Water Resources Control Board and the California Regional Water Quality Control Board, San Diego Region; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Department of Water Resources, in cooperation with San Luis Rey Water Planning Agency, and Santa Margarita Planning Agency, on an equal matching basis, assist in formulating a basinwide water quality and water resources development plan for Santa Margarita and San Luis Rey Watersheds, considering surface and subsurface waters and evaluation of least cost solutions to water quality control; and be it further

RESOLUTION CHAPTER 222

Assembly Concurrent Resolution No. 166—Relative to the designation of lanes for slow-moving vehicles.

[Filed with Secretary of State August 27, 1970.]

WHEREAS, Many of the freeways in metropolitan areas are congested at many hours of the average day; and

WHEREAS, This congestion may be aggravated by the existence of slow-moving vehicles in the extreme right-hand lane of such freeways, which impede the flow of vehicles onto and off of such freeways because of the closeness of on and off ramps, and, in particular, where there are numerous right-hand lanes which end at exit ramps; and

WHEREAS, The Department of Public Works has authority, under Section 21655 of the Vehicle Code, to designate lanes other than the extreme right-hand lane for slow-moving vehicles; and

WHEREAS, The designation of a lane other than the right-hand lane for such slow-moving vehicles in metropolitan areas having freeways of four or more lanes in each direction might vastly implement the flow of traffic on and off the freeways and reduce the danger of accident; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Legislature hereby requests the Department of Public Works to review the freeway system in major metropolitan areas, and to undertake experimental pilot projects on freeways of four or more lanes in each direction to determine those areas where the right-hand lane of such freeway ends at an exit ramp and where the flow of traffic would be improved by the designation of a lane other than the right-hand lane for slow-moving vehicles, and to erect appropriate signs at reasonable intervals giving notice of such designation; and be it further

Resolved, That the directory portions of this resolution shall expire two years after the execution thereof unless renewed by a later session of the Legislature after the Department of

Public Works has had an adequate time to study the effects thereof and report back to the Legislature; and be it further

Resolved, That the Chief Clerk of the Assembly transmit a copy of this resolution to the Director of Public Works.

RESOLUTION CHAPTER 223

Assembly Concurrent Resolution No. 181—Relative to graduate school admissions.

[Filed with Secretary of State August 27, 1970.]

WHEREAS, The University of California has employed the practice of extending preference to younger students for admission into some of the graduate schools; and

WHEREAS, There is no rational or justifiable reason for the extension of preference on the basis of age; and

WHEREAS, Through employment of this practice numbers of qualified and productive citizens of the State of California are being unjustly denied the privilege of seeking out a continuation and furtherance of their education; and

WHEREAS, In an age when education is so vitally important for those of all ages, such practice is intolerable; and

WHEREAS, The Legislature of the State of California has expressed its intent in the statutes in various areas as being opposed to the concept of age being used as a basis for differentiation in treatment of persons, particularly in the area of employment; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the members urge the Regents of the University of California to abandon the practice of extending preference to younger students in the admissions to some of the graduate schools of the University of California; and be it further

Resolved, That the Chief Clerk of the Assembly transmit a copy of this resolution to the Regents of the University of California.

[Filed with Secretary of State August 27, 1970.]

WHEREAS, Present safety orders and regulations promulgated by the Division of Industrial Safety governing construction and operation of cranes, hoists, and derricks do not represent the highest standard of safe practices; and

WHEREAS, A complete review of its rules and regulations shall be made by the Division of Industrial Safety to upgrade safety standards relating to cranes, hoists, and derricks so

that they are at least equal to or better than the consensus standards of the American National Standards Institute, B.30.5, 1968 edition, for Crawler, Locomotive and Truck Cranes, B.30.2, 1952 edition, for Cranes, Derricks and Hoists; and those parts of MH9.1, 1968 edition, Safety Requirements for Longshoring of Docks applying to Operation of Cranes. Appropriate parts of Local Law No. 73 for Power Operated Cranes and Derricks enacted by the City of New York, and effective Jan. 8, 1970, shall be considered; and

WHEREAS, The present provisions prohibiting the use of additional counterweights should be strengthened, especially where a counterweight shell is used; and

WHEREAS, Operation of cranes, hoists and derricks in close proximity to high-voltage lines continues to cause a high incidence of fatal injuries to construction workers, such equipment when operated within 10 feet of high-voltage lines shall be equipped with approved stops on the boom-raising and swing mechanisms which shall by mechanical, electrical, hydraulic or other means positively prevent the boom from being raised or swung into such high-voltage lines; and

WHEREAS, Cranes and derricks having a boom exceeding 60 feet in length or a maximum rated capacity exceeding 15 tons shall be provided an approved boom angle indicator which would make the boom angle in feet or degrees clearly visible to the operator at all times; the indicator shall give simultaneously a clearly audible and visual signal before high, low, and intermediate unsafe boom angles are reached; the indicator should be mounted in the cab, adjustable, and under the control of the operator at all times; and a visual inspection of the indicator should be made each day by the operator to see that it is properly functioning; and

WHEREAS, Cranes and derricks having either a boom exceeding 200 feet in length or a maximum rated capacity exceeding 50 tons should be provided with an approved device to measure and indicate the percentage of the maximum safe capacity and of the maximum safe overturning moment which is being utilized by the combination of load and boom angle at any given time; and

WHEREAS, All crane, hoist, or derrick boom weldments shall be magnetic particle tested, X-rayed or tested by ultrasonic means as well as visually inspected, and should be inspected at specified intervals; and

WHEREAS, Operators of cranes of 50 tons or more capacity should be tested by recognized authority or trained under formal union or management training programs, or both, to ensure that they are qualified to operate such cranes; and

WHEREAS, The provisions of the foregoing shall not apply to maintenance and repair operations conducted by public utilities of high-voltage lines with their own personnel when using properly insulated equipment; and

WHEREAS, There are many more such standards that should be adopted; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Division of Industrial Safety is directed to make a complete review of its rules and regulations to upgrade safety standards relating to cranes, hoists, and derricks; and be it further

Resolved, That the Secretary of the Senate transmit a copy of this resolution to the Division of Industrial Safety.

WHEREAS, Since the termination of the lease drastic changes in conditions relating to Clear Lake, including increased and expensive development of properties proximate to the lake, unexpected expansion of recreational uses particularly in boating and skiing, and a vast increase in the number of vacationists to the Clear Lake area, have convinced the Board of Supervisors of Lake County that the best interest of both the state and Lake County would be better served if the responsibilities and obligation of the lease were restored to the county; and

WHEREAS, Lake County is now in a position to take action in actually improving Clear Lake by the removal or marking of lake hazards, an improvement which is vital to the safety of all lake users, and to effectively enforce safety measures for their protection; and

WHEREAS, It is not the intent or desire of the county to usurp or affect programs such as algae, gnat or water quality control which are now in progress or will be approved in the future and which programs are of far-reaching benefit to all the people of the state; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the members hereby direct the State Lands Commission to lease the submerged lands in Clear Lake to Lake County on terms fair and equitable to both the county and the state; provided, however, that any revenue from the lake shall be used only for the maintenance and improvement of the lake; and be it further

Resolved, That the Secretary of the Senate transmit copies of this resolution to the members of the State Lands Commission.

WHEREAS, California is one of the leading states participating in this vitally important area of education and a number

WHEREAS, Although twenty-five million dollars in federal funds have been appropriated by Congress for the fiscal year 1969–1970 for expenditure by the Department of Health, Education, and Welfare to assist approved state programs under the Bilingual Education Act, the President has been authorized by Congress to reduce that amount by up to 15 percent; now, therefore, be it

Resolved by the Assembly and the Senate of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the President to utilize the full amount appropriated by Congress for the fiscal year 1969–1970 for bilingual education program grants; and be it further

[Filed with Secretary of State August 28, 1970]

WHEREAS, The maintenance of a quality environment is of concern to California's citizens and its leaders; and

WHEREAS, Certain developments resulting from federal government activities have caused significant damage to California's environment; and

WHEREAS, Such environmental degradation has resulted because of failure to sufficiently consider the long-term impact of public works projects on the environment; and

WHEREAS, Many of these activities have caused irreversible losses to California's citizens; and

WHEREAS, The Assembly Select Committee on Environmental Quality has recommended legislation to require the preparation of environmental impact reports by governmental agencies on their proposed programs which could have a significant effect on the environment; and

WHEREAS, The National Environmental Policy Act of 1969 (Pub.L., 91-190) requires the preparation of environmental impact reports by federal agencies on proposed programs which could have a significant effect on the environment; and

WHEREAS, The following federal programs have evoked widespread concern that they will cause significant environmental damage: federal oil leases in the Santa Barbara Channel by the United States Department of the Interior, chan-

nelization of the lower Colorado River by the United States Bureau of Reclamation, and the Dos Rios Project by the United States Corps of Engineers; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the President of the United States to direct the responsible federal officials to make environmental impact reports on these programs, as required by the National Environmental Policy Act of 1969, and to submit these to the California Legislature; and be it further

RESOLUTION CHAPTER 236

Assembly Joint Resolution No. 44—Relative to poison prevention.

[Filed with Secretary of State August 28, 1970]

WHEREAS, There are about 1,000,000 people accidentally poisoned in the United States every year and their numbers are increasing at an alarming rate; and

WHEREAS, It is estimated that of all accidental poisonings between 60 and 85 percent involve children from ages one through four; and

WHEREAS, There are over 250,000 poisonous products in common household use including: patent and prescription drugs; kitchen products such as bleaches and cleansers; petroleum and petroleum derivatives; cosmetics; beverages and many aerosols; and

WHEREAS, This problem of the presence of toxic or poisonous substances in our households is expanding in direct proportion to improved technology, population growth and other changes in environmental conditions; for instance, we presently ingest about 40 tons of aspirin and aspirin-related products in this country every day and by 1973 this figure will double; also many new drugs such as those in the "tranquilizer family" are developing widespread usage as they gain acceptance and the pressures of our society increase in intensity; and also most dangerous are many of the new "miracle" cleansers which are often toxic, poisonous, or both toxic and

poisonous; and every one of these bottles, jars, and cans is able to be opened, usually quite easily, by small children; and

WHEREAS, The tragedy and grief felt by families who have had loved ones killed or crippled by accidental poisoning should be evidence enough that this problem has reached disaster proportions and that a national effort should be mobilized to make safety closures a legal requirement on all toxic or poisonous products; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the President and the Congress of the United States to enact appropriate legislation requiring adequate safety closures on all household products which are toxic or poisonous, or both toxic and poisonous, that are sold in interstate commerce; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

RESOLUTION CHAPTER 237

Assembly Joint Resolution No. 56—Relative to federal earned income exemption for welfare families.

[Filed with Secretary of State August 28, 1970.]

WHEREAS, The program of Aid to Families with Dependent Children (AFDC) was initiated to assist the truly needy; and

WHEREAS, In recent years changes in federal law and regulations have resulted in requiring states to grant aid under the AFDC program to persons and families who by ordinary standards cannot be fairly deemed needy; and

WHEREAS, A significant cause of the granting of AFDC aid to the nonneedy is the federally mandated "earned income exemption" which, although conceived for the purpose of stimulating recipients to work their way off welfare rolls has in many instances missed its goal by permitting continued subsidization of welfare recipients far past the point at which their earned incomes exceed ordinary welfare standards; and

WHEREAS, Extreme examples of this situation such as that in which a California welfare recipient was found to be enjoying an income in excess of $1,000 per month, including welfare supplementations, have come to the attention of the Legislature; and

WHEREAS, The President's proposed Family Assistance Plan does not offer in its present form a full resolution of the problem of inequities in public income supplementation of the "working poor" as compared with supplementation of welfare recipients; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the President and Congress of the United States to reexamine with utmost care the issues raised in this resolution, and to consider further amendments to the Family Assistance Plan which will modify the principle of earned income exemptions for families otherwise qualifying for welfare supplementation so that such supplementation will not elevate the total gross income of such families beyond the income levels at which supplementation of working poor families is proposed to be discontinued; and be it further

Resolved, That, in the event that the Family Assistance Plan is not enacted at this time, the President and the Congress of the United States enact legislation amending Section 402 (a)(7)(A)(ii) of the Social Security Act to permit states to impose upper limits on the amount of earned income exemptions allowed working AFDC recipients; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, to the Secretary of Health, Education, and Welfare, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, to the Secretary of Agriculture, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

[Filed with Secretary of State August 28, 1970.]

WHEREAS, Substantial geothermal power resources in the form of underground deposits of hot water and steam underlie much of the southwestern United States, especially parts of Riverside and Imperial Counties in California; and

WHEREAS, Preliminary research indicates that development of these resources would have a major beneficial economic impact on the entire Southwest; and

WHEREAS, The University of California has already expended substantial amounts of money, time, and effort in exploring the potential of these geothermal fields, and has developed highly encouraging data; and

WHEREAS, The development of these geothermal fields would result in massive supplies of pollution-free power and water; and

WHEREAS, Such development depends on intricate cooperation between federal, state, and private interests; and

WHEREAS, The Mexican government, through intensive research and development in the past several years will begin supplying electric power from these same geothermal fields in 1971; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the President and the Congress of the United States immediately to facilitate research necessary to allow maximum public and private development of the geothermal power sources underlying Imperial and Riverside Counties in California and surrounding, related areas; and be it further

Resolved, That the Legislature respectfully memorializes the President, Congress, and the various branches of the federal government to coordinate immediate financial assistance in the form of grants, or other appropriate methods, to assist public and private research projects, including demonstration drilling and power development programs where desirable on both public and private lands; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, to each Senator and Representative from California in the Congress of the United States, to the Secretary of the Interior, the Secretary of Agriculture, and the Secretary of Commerce.

RESOLUTION CHAPTER 242

Assembly Concurrent Resolution No. 167—Relative to the Senior Reserve Officers' Training Corps.

[Filed with Secretary of State August 28, 1970.]

WHEREAS, The Morrill Act (Act of July 2, 1862), which provided land grant aid to the various states for the establishment of colleges to teach branches of learning related to agriculture and mechanic arts, required that courses in military tactics be included in the curriculum of these colleges, and, since 1862, various colleges and universities have offered courses to their students in the art of military science; and

WHEREAS, Today, the armed forces of the nation have units of the Senior Reserve Officers' Training Corps at leading colleges and universities for the purpose of providing training which leads to a commission as an officer in one of the services, and many young men who have received their military training in their undergraduate years as members of these units have meritoriously served their country with distinction in numerous wars; and

WHEREAS, Serving as the backbone of our national defense, the citizen-soldier is the mainstay of our armed forces, and recent events have shown the vital need to maintain a military force based upon citizen-soldiers who have been trained in programs such as the one offered by the Senior Reserve Officers' Training Corps; and

WHEREAS, Due to the limited capacity of the military academies and officer candidate schools of the services, the continuance of Senior Reserve Officers' Training Corps programs which are elective and accredited is necessary to provide young men with the training needed to fulfill their military obligation as a commissioned officer and pursue a career in military service; and

WHEREAS, Recognizing the need of providing training for young men who desire to serve their country as a member of the armed forces, the University of California has units of the Senior Reserve Officers' Training Corps on the Berkeley, Los Angeles, Santa Barbara, and Davis campuses and the California State Colleges have units at several campuses, among which are Fresno, San Diego, San Francisco, San Jose, and San Luis Obispo, and over 1,100 young men presently train in these units; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Legislature requests that the Regents of the University of California and the Trustees of the California State Colleges maintain the Senior Reserve Officers' Training Corps programs at the University of California and the California State Colleges on an elective and accredited basis and encourage and bolster these programs so that the young men of this state who desire to serve their nation as a member of the armed forces may continue to voluntarily receive training in military science; and be it further

Resolved, That the Chief Clerk of the Assembly transmit suitably prepared copies of this resolution to the Regents of the University of California, the President of the University of California, the Trustees of the California State Colleges, and the Chancellor of the California State Colleges.

WHEREAS, Adult citizens facing such circumstances need counseling services which include testing, information, guidance, and placement assistance or referral to placement services; and

WHEREAS, Studies of the Advisory Commission on the Status of Women establish the fact that such counseling services are almost nonexistent; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That local school and community college districts be urged to reexamine their priorities of use of community services tax and adult education funds, and give high priority to the utilization of such funds for counseling services and classes for adult community residents who need them; and be it further

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the President and the Congress of the United States to take steps wherever practical and feasible to remove the government of the United States from activities which are competitive with private enterprise and which private enterprise is capable of performing without governmental support; and be it further

WHEREAS, Qualified students are being denied admission to institutions of higher education where adequate space is available; and

WHEREAS, Independent analyses by the Department of Finance, Legislative Analyst, Auditor General, and Assembly Ways and Means Committee have concluded that increased space utilization standards are desirable and feasible; and

WHEREAS, The Legislative Analyst has specifically recommended that the existing standard for classroom utilization be increased from 34 to 53 hours per week; and

WHEREAS, The Legislative Analyst recommends retention of the existing station occupancy rate of 66 percent; and

WHEREAS, The fact that the combined room utilization and occupancy standards recommended by the Legislative Analyst are already being exceeded at Long Beach and Fullerton State Colleges demonstrates that such standards are feasible; and

WHEREAS, The Legislature, in the supplemental report accompanying the Budget Act, has mandated the submission of reports by November 1, 1969, showing how each segment can implement such standards; now, therefore, be it

in the urban environment, and that the wilderness areas of our state are being affected by the irritating and the harmful effects of noise also; and

WHEREAS, The great advances in technology have not brought an equally great reduction in the noise level of motor vehicles, aircraft, industrial equipment, or home appliances; and

WHEREAS, Studies indicate that some of the blame for the disorientation and frustration of today's urban life can be placed on the high noise levels that act as subliminal irritants, and, in addition to these mental symptoms, definite and measurable hearing loss has been found among those who work or play under noisy conditions; and

WHEREAS, In recognition of these declarations and findings and of the need for planning and regulation of the proliferation of noise a study should be undertaken of the subject of noise; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Board of Trustees of the California State Colleges extend the number of semester or quarter units that may be taken in part-time or extension courses to meet the requirements of the master of social work degree; and be it further

WHEREAS, The maintenance of a quality environment is of concern to California's citizens and its leaders; and

WHEREAS, The Assembly Select Committee on Environmental Quality has recommended legislation to require the preparation of environmental impact reports by governmental agencies on their proposed programs which could have a significant effect on the environment; and

WHEREAS, The following proposed projects involving state government have evoked widespread concern that they may result in significant environmental change: the construction of a freeway over Goleta Slough in Santa Barbara County by the Division of Highways and the Tijuana River estuary development requiring a State Lands Commission permit; and

WHEREAS, The timing of these projects may affect the implementation of the orderly planning process recommended by the Assembly Select Committee on Environmental Quality for future projects; now, therefore, be it

WHEREAS, Seaside Avenue between Ford Avenue and the bridge serves as the easterly approach thereto and is inadequate to serve the needs of existing traffic; and

WHEREAS, The traffic volume on this portion of Seaside Avenue will continue to increase due to the continuous expansion of the Los Angeles Harbor and the Long Beach Harbor, the two busiest harbors in the state; and

WHEREAS, The opening of the Queen Mary as a maritime museum and convention center in Long Beach Harbor will also substantially increase the traffic on this portion of Seaside Avenue; and

WHEREAS, The construction of Seaside Avenue from the eastern terminus of the bridge to Ford Avenue to a minimum of a four-lane divided facility will provide the motoring public with a safe connection between the bridge and the Terminal Island Freeway; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Members hereby request the California Highway Commission, the California Toll Bridge Authority, the Department of Public Works, the City of Los Angeles, and the City of Long Beach to confer and, taking into account the effects on the future Route 47 Freeway, undertake as rapidly as possible an interim improvement of Seaside Avenue from the eastern terminus of the Vincent Thomas Bridge to Ford Avenue to standards adequate to serve not only existing traffic but also the increase which can reasonably be anticipated from the opening of the Queen Mary as a maritime museum and convention center and, if possible, to finance all or a portion of the cost of the work from funds in the Vincent Thomas Bridge Construction Fund created in the State Treasury by the resolution adopted by the California Toll Bridge Authority on December 19, 1967, authorizing the issuance of Vincent Thomas Toll Bridge Revenue Bonds; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the California Highway Commission, the California Toll Bridge Authority, the Director of Public Works, the City of Los Angeles, and the City of Long Beach.

RESOLUTION CHAPTER 257

[Filed with Secretary of State September 1, 1970.]

WHEREAS, The California Legislature in 1968 added Sections 14053.5 and 14053.6 to the Welfare and Institutions Code (Stats. 1968, Ch. 1237) which prohibit differential pricing to Medi-Cal Program providers by pharmaceutical manufacturers for drugs provided to Medi-Cal recipients; and

WHEREAS, The object of this legislation was to assure that drugs necessary for the care and treatment of Medi-Cal recipients could be purchased by the state at the lowest costs consistent with fairness to manufacturers, distributors and providers, thereby exerting beneficial cost influences upon the program generally; and

WHEREAS, This legislation now has been in effect for two years, thereby providing a basis for an assessment of its usefulness in the achievement of its stated objectives; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Legislature hereby requests the Legislative Analyst to conduct a review of the wholesale and retail pricing and marketing patterns and practices for prescription drug products in California since the effective date of this legislation, thereby to ascertain whether or not its enactment has exerted beneficial influences upon the costs of medicines provided to Medi-Cal recipients, and to ascertain whether or not this legislation has exerted unexpected influences upon the costs and wholesale and retail prices of prescription drug products to the public generally, both in pharmacies and in hospitals; and be it further

Resolved, That the Legislative Analyst report his findings and recommendations to the Assembly not later than the fifth calendar day of the 1971 Regular Session; and be it further

RESOLUTION CHAPTER 259

Assembly Concurrent Resolution No. 191—Relative to probation programs.

[Filed with Secretary of State September 1, 1970.]

WHEREAS, The state, recognizing the benefits and savings which could be achieved from expanding and improving probation programs and services in lieu of committing persons to state penal institutions, established a special probation subsidy program with counties; and

WHEREAS, The rate of payment to counties was based upon the average career cost of a Youth Authority ward without parole revocation as the state's savings for each person placed on probation in lieu of commitment to a state prison; and

WHEREAS, The state has saved millions of dollars in new state prison costs and support costs as the result of the counties increasing their probation programs; and

WHEREAS, The rate of payment to the counties is not required to be readjusted regularly and such payment has not been adjusted since enactment of the program in 1965; and

WHEREAS, Readjustment of the payment to conform to increased career costs reflecting the value of state savings would require an approximate 53 percent increase in such rate of payment; and

WHEREAS, It is recognized that county probation costs have increased since the inception of the program and a more appropriate basis for compensation of counties would appear to be an adjustment in payment rate reflecting such increased probation costs rather than the present statutory basis of imputed savings to the state as determined by Youth Authority career costs; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Department of Finance, the Department of Corrections, and the Department of the Youth Authority are requested to review the cost increases to county probation programs since 1965 and to report such costs to the Joint Legislative Budget Committee and Legislative Analyst not later than February 1, 1971, and to propose a cost reporting system such that the formula for state payments to counties for the special probation programs can be adjusted annually to reflect such program cost increases; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the Department of Finance, the Department of Corrections, and the Department of the Youth Authority.

RESOLUTION CHAPTER 260

Assembly Concurrent Resolution No. 195—
Relative to nurse training.

[Filed with Secretary of State September 1, 1970.]

WHEREAS, The State of California has an interest in the training and licensing of a sufficient number of nurses to meet the health care needs of the people of this state; and

WHEREAS, There exists a shortage of nurses aides, vocational nurses and, particularly, nurses in registered nursing fields; and

WHEREAS, The several types of nursing training programs in the state have developed independently of one another in such a way that course content, sequence of courses and certificate and degree programs cause great difficulty to students in transferring from one training program to another and from one institution to another; and

WHEREAS, Greater coordination of curriculum and articulation of courses between institutions would provide an opportunity to students and practitioners for greater mobility between nursing fields and will serve as an incentive for increasing the supply of trained nurses at all levels; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Department of Public Health, in cooperation with the Coordinating Council for Higher Education, is directed to determine what levels and combinations of skills are needed to provide health care services in the nursing professions and make that information available to the Coordinating Council for Higher Education and to the Legislature on or before December 1, 1970; and be it further

Resolved, That the Coordinating Council for Higher Education, in cooperation with the segments of higher education engaged in nursing training programs and the Department of Public Health, be directed to prepare a study of nursing training in California and recommend to the Governor and the Legislature:

(1) Categories of nursing training programs which are needed in the total health care delivery system to most effectively provide the nursing health services demanded by health service users in California;

(2) The institutions which should be responsible for nursing training at each level recommended;

(3) The extent to which articulation and coordination of courses between programs and institutions is desirable in order to maintain nursing standards and assure an adequate supply of trained nurses at all levels;

(4) Any other proposals for improving nursing training programs as the Coordinating Council for Higher Education may determine in the course of its study; and be it further

Resolved, That the Coordinating Council for Higher Education report its findings and recommendations to the Legislature by July 1, 1971.

WHEREAS, Recent information indicates an alarming increase in the use of heroin over the past 12 months; and

WHEREAS, Heroin is one of the most debilitating drugs, the use of which is spreading through all strata of society; and

WHEREAS, The highest priority need in drug abuse research today is to improve treatment programs for heroin addicts; and

WHEREAS, The University of California is prepared to undertake an innovative three-year research program featuring two heroin treatment projects, including one focusing on ghetto-based long-term users with a heavy habit, and another focusing on middle-class social dropouts who have recently become addicted; and

WHEREAS, The three-year cost of such a program would be $250,000, $50,000 of which is required for the first year; and

WHEREAS, The California Council on Criminal Justice Narcotics Task Force, pursuant to the Omnibus Crime Control and Safe Streets Act of 1968, is authorized to make grants for such programs; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Legislature urges the California Council on Criminal Justice Narcotics Task Force to assign the highest priority to the University of California's three-year heroin treatment research program, to support it to the maximum extent possible, and especially to make available $50,000, or as much thereof as is feasible, to support the first year of operation of this program; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the California Council on Criminal Justice.

RESOLUTION CHAPTER 262

Assembly Concurrent Resolution No. 200—Relative to health insurance contribution.

[Filed with Secretary of State September 1, 1970.]

WHEREAS, In 1962 the State of California recognized, as had other employers earlier, that payment of a portion of the employee's share of health insurance premiums improves employer-employee relations, decreases costly turnover and sick leave, and builds a greater sense of security and loyalty on the part of the employee; and

WHEREAS, The U.S. Chamber of Commerce has found that 87 percent of all workers in California are covered by plans in which the employer pays the full cost of the employee's coverage; and

WHEREAS, The Governor in his 1970 Budget Message pledged his support to the principle that the state should increase its share of the payment for the employees' health insurance; and

WHEREAS, In signing A.B. 356 which required the state to increase its share of each state employee's health insurance cost, the Governor recognized the state's "continuing commitment to improve the health benefits of the many thousands of state employees, who, day in and day out, serve the people of California with dedication and skill"; and

WHEREAS, Insurance companies already have increased employee health insurance premiums more than the $2 increase in the state's contribution and announced that premiums will double by 1975; and

WHEREAS, Ever since 1962, the University of California has similarly recognized its responsibility with regard to employer contributions to health insurance by increasing its contributions in 1964 and 1968 to conform with state civil service practice; and

WHEREAS, The University of California has not yet increased its share of the cost of health insurance for university employees, despite the continuing increases in the cost of health insurance to state employees, the Governor's pledge, and a history of the university matching increases in the state's contributions to employee health insurance in 1962, 1964 and 1968; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Legislature of the State of California requests the board of regents to utilize funds at its disposal to increase its contribution for health insurance from $8 to $10 for employees of the University of California, and it is the intention of the Legislature to meet the future cost of employer contributions for the university from the General Fund; and be it further

Resolved, That copies of this resolution be transmitted to the Regents of the University of California.

Assembly Joint Resolution No. 53—Relative to the creation of a Golden Gate National Recreation Area.

[Filed with Secretary of State September 8, 1970]

WHEREAS, Much of the natural beauty and charm of the San Francisco Bay area is a result of the relatively undeveloped state of federal lands located on both sides of the Golden Gate and in Fort Baker, Fort Barry, Fort Cronkhite, Fort Mason, Fort Miley, Fort Scott, and the San Francisco Presidio; and

WHEREAS, These federal lands provide significant open space areas within the otherwise congested urban San Francisco Bay area; and

WHEREAS, There are numerous projects proposed or planned for these federal lands which individually may not significantly affect the open space character or future public use of such areas but taken together would be disastrous to the public interest in retaining open space lands in urban areas and would set precedents for future development of such lands; and

WHEREAS, Due to expected increases in urban population within the San Francisco Bay area the public need for urban open space lands will significantly increase with the passage of time; and

WHEREAS, It has been proposed that Fort Baker, Fort Barry, Fort Cronkhite, Fort Mason, Fort Miley, Fort Scott, and much of the San Francisco Presidio be included in a Golden Gate National Recreation Area which would retain the natural open-space character of such federal lands; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the President and Congress of the United States to establish a Golden Gate National Recreation Area, to include those portions of Fort Baker, Fort Barry, Fort Cronkhite, Fort Mason, Fort Miley, Fort Scott, and the Presidio not essential for the national defense; and be it further

WHEREAS, The Board of Governors of the California Community Colleges needs persons on the staff of the office of the Chancellor of the California Community Colleges who are experienced in California community college affairs; and

WHEREAS, It has proved difficult to hire persons with this experience because of the limitations imposed by the present civil service law and because of the inability of persons from the community colleges to transfer their retirement and other fringe benefits when they join the office of the chancellor; and

WHEREAS, It is also important that enforcement personnel be provided with the utmost capability in determining the validity of drivers' licenses by the use of such systems as "encoding"; and

WHEREAS, Although progress has been made in the 68 years since its establishment, the Big Basin Redwoods State Park has never been completed, there being several major private holdings and a number of minor properties within the park's boundary which at this time are jeopardized by serious threats of logging, development or investment speculation; and

WHEREAS, There is a serious question as to whether indeterminate commitment of mentally disordered offenders is consistent with due process of law; and

WHEREAS, Considerable public expense is incurred in processing these cases through probation departments, the courts, the Department of Mental Hygiene, and the Department of Corrections, and the effectiveness of this system has never been evaluated; and

Senate Joint Resolution No. 26—Relative to equal rights for men and women.

[Filed with Secretary of State September 8, 1970.]

WHEREAS, Legislation was introduced to propose an amendment to the Constitution of the United States and provides, in part, that "equality of rights under the law shall not be denied or abridged by the United States or by any state on account of sex"; and

WHEREAS, The greatness of this land is the result of the contributions of the members of both sexes who settled the vast areas encompassed by our great nation and, by their arduous labors, built the great and creative society which flourishes today; and

WHEREAS, Throughout the long and glorious history of our country, the members of the fairer sex have assumed the burdens and responsibilities of a citizen on an equal footing with the men in our country and have taken part in the democratic processes of the United States by serving their fellow man through meaningful participation in the various entities which represent and govern all citizens; and

RESOLUTION CHAPTER 278

Senate Joint Resolution No. 33—Relative to guaranteed minimum water flow for the lower American River.

[Filed with Secretary of State September 8, 1970]

WHEREAS, The lower American River is a unique combination of a beautiful river in the midst of a highly urbanized area, and provides recreation and aesthetic value to the people of northern California; and

WHEREAS, In October, 1964, Sunset Magazine published a six-page report commending the dedicated community effort to preserve a natural parkway along the American River, and millions of dollars of both public and private funds have been invested to establish parks and other recreational facilities along the river; and

WHEREAS, There is deep concern that the proposed Folsom South Canal will reduce the water level below the minimum

necessary to maintain fishlife, aesthetic beauty, and boating safety on the river; and

WHEREAS, Sunset Magazine, in a postscript to its 1964 article, has recently observed that, although the American River Parkway had received nationwide acclaim as a working blueprint for a successful community program of environmental control, projected water withdrawal demands on the reservoirs that provide the river's downstream flow endanger not only the fisheries, wildlife, and recreational opportunities of the river but also the ecological integrity of the entire parkway; and

WHEREAS, The City of Sacramento, by resolution of the Sacramento City Council, dated May 14, 1970, voiced its concern that the construction of the proposed Folsom South Canal, with its resultant diversion of water from that portion of the river below Nimbus Dam, posed a grave threat to the maintenance of the necessary minimum water flow; and

WHEREAS, Numerous organizations, such as the Audubon Society, California Fly Fishermen Unlimited, the Save the American River Association, cosponsored by 129 organizations, the Sierra Club, and the Valley Council of Diving Clubs, consisting of 14 organizations, have similarly expressed their alarm; and

WHEREAS, Year-around operational criteria for Nimbus Dam will need to be established and such criteria will necessarily include minimum flow releases for the lower American River; now, therefore, be it

Resolved by the Senate and Assembly of the State of California, jointly, That the Legislature of the State of California memorializes the Bureau of Reclamation of the Department of the Interior to establish and guarantee the minimum water flow for the lower American River necessary in order to protect and maintain the recreational and aesthetic values of the river, taking into account the water supply requirements of the Folsom-South Canal service area; and be it further

Resolved, That the Secretary of the Senate transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, to each Senator and Representative from California in the Congress of the United States, to the Secretary of the Interior, and to the Commissioner of Reclamation.

WHEREAS, The benefits of this research and control have been made available to and received by the citizens of all of these United States; and

WHEREAS, Air pollution is an acute and serious nationwide problem, as witnessed by recent smog alerts in other major urban areas of the country; and

WHEREAS, California is allocating a disproportionate amount of its resources and funds in its efforts to reduce this menace to the health and welfare of mankind, notwithstanding the fact that 90 percent of the nation's motor vehicles are owned and operated by residents of other states; and

WHEREAS, The federal government, as well as these other states, should be called upon to bear a more appropriate share of this burden whose benefits are received by the citizens of all states; now, therefore, be it

Resolved by the Senate and Assembly of the State of California, jointly, That the Legislature of the State of California hereby respectfully memorializes the President and the Congress of the United States to augment and increase its funding for research and development being carried out by California's many highly qualified scientists and institutions, both public and private, engaged in this activity; and be it further

Resolved, That the Secretary of the Senate transmit a copy of this resolution to the President and Vice President of the United States, to the Secretary of Health, Education, and Welfare, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

Such sum shall be allocated and made available from July 1, 1970, to June 30, 1971, contingent on the availability of matching federal funds.

RESOLUTION CHAPTER 282

Senate Concurrent Resolution No. 117—Relative to adoption of the Joint Rules of the Senate and Assembly.

[Filed with Secretary of State September 25, 1970]

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the following rules be adopted

as the Joint Rules of the Senate and Assembly for the 1970 Regular Session.

Standing Committees

1. Each house shall appoint such standing committees as the business of the house may require, the committees, the number of members, and the manner of selection to be determined by the rules of each house.

Joint Meeting of Committees

3. Whenever any bill has been referred by the Senate to one of its committees, and the same or a like bill has been referred by the Assembly to one of its committees, the chairmen of the respective committees, when in their judgment the interests of legislation or the expedition of business will be better served thereby, shall arrange for a joint meeting of their committees for the consideration of such bill.

Effect of Adoption of Joint Rules

3.5. The adoption of the Joint Rules for any extraordinary session shall not be construed as modifying or rescinding the Joint Rules of the Senate and Assembly for any previous session, nor as affecting in any way the status or powers of the interim committees created by those rules.

Bills and Resolutions

Definition of Word Bill

4. Whenever the word "bill" is used in these rules, it shall include constitutional amendments and concurrent and joint resolutions.

Concurrent and Joint Resolutions

5. Concurrent resolutions relate to matters to be treated by both houses of the Legislature.

Joint resolutions are those which relate to matters connected with the federal government.

Resolutions Treated as Bills

6. Constitutional amendments and concurrent and joint resolutions shall be treated in all respects as bills; except that they shall be given only one formal reading in each house and that they shall not be deemed bills within the meaning of subdivision (a) of Section 8 of Article IV of the Constitution, and shall not be referred to the Committee on Introduction of Bills, and except as provided in Rule 24. As in the case of bills, they shall be engrossed in the house in which they originate before being voted upon.

PREPARATION AND INTRODUCTION OF BILLS

Title of Bill

7. The title of every bill introduced shall convey an accurate idea of the contents of the bill and shall be indicative of the scope of the act and the object to be accomplished. In amending a code section, the mere reference to the section by number shall not be deemed sufficient.

Division of Bill Into Sections

8. A bill amending more than one section of an existing law shall contain a separate section for each section amended.

Bills which are not amendatory of existing laws shall be divided into short sections, where this can be done without destroying the sense of any particular section, to the end that future amendments may be made without the necessity of setting forth and repeating sections of unnecessary length.

Introduction of Bills

8.3. (a) Unless otherwise provided by concurrent resolution, no bill shall be introduced after the Friday following the Easter recess of a regular session except as follows:

(1) A written notice of intention to introduce a bill, a copy of the bill and a digest prepared pursuant to Rule 8.5 shall be filed with the Chief Clerk of the Assembly or the Secretary of the Senate, as the case may be, and shall be transmitted to the Rules Committee of the appropriate house. The notice and digest shall be printed in the Journal of that house.

(2) The Rules Committee of the Assembly or Senate, as the case may be, shall determine whether there exists an urgent need for the introduction of the proposed bill.

(3) If the Rules Committee recommends that introduction of the proposed bill be permitted, the member may offer a resolution, without further reference thereof to committee, granting permission to introduce the bill. The adoption of the resolution granting such permission shall require an affirmative recorded vote of two-thirds of the elected members of the house in which the request is made.

(b) All requests for the preparation of a bill to be introduced on or before the Friday following the Easter recess shall be made to the Legislative Counsel on or before 5 p.m. on the Friday preceding the Easter recess. The Legislative Counsel shall not deliver the draft of any bill requested after 5 p.m. on the Friday preceding the Easter recess until the Saturday following the Easter recess or after.

(c) As used in this rule "bill" includes constitutional amendments but does not include joint or concurrent resolutions.

Digest of Bills Introduced

8.5. No bill shall be introduced unless it is contained in a cover attached by the Legislative Counsel and unless it is accompanied by a digest, prepared and attached to the bill by the Legislative Counsel, showing the changes in the existing law which are proposed by the bill. If any bill is presented to the Secretary of the Senate or Chief Clerk of the Assembly for introduction which does not comply with the foregoing requirements of this rule the Secretary or Chief Clerk shall return it to the member who presented it. The digest shall be printed on the bill as introduced, commencing on the first page thereof.

Digest of Bills Amended

8.6. Whenever a bill is amended in either house, the Secretary of the Senate or the Chief Clerk of the Assembly, as the case may be, shall request the Legislative Counsel to prepare an amended digest and cause it to be printed on the first page of the bill as amended. The digest shall be amended to show changes in the existing law which are proposed by the bill as amended with any material changes in the digest indicated by the use of appropriate type.

Errors in Digest

8.7. If a material error in a printed digest referred to in Joint Rule 8.5 or 8.6 is brought to the attention of the Legislative Counsel, he shall prepare a corrected digest which shall show the changes made in the digest as provided in Joint Rule 10 for amendments to bills. He shall deliver the corrected digest to the Secretary or the Chief Clerk, as the case may be. If the correction warrants it in the opinion of the President pro Tempore of the Senate or the Speaker of the Assembly, a corrected print of the bill as introduced shall be ordered with the corrected digest printed thereon.

Restrictions as to Amendments

9. A substitute or amendment must relate to the same subject as the original bill, constitutional amendment, or resolution under consideration.

Changes in Existing Law to Be Marked by Author

10. In a bill amending or repealing a code section or a general law, any new matter shall be underlined and any matter to be omitted shall be in type bearing a horizontal line through the center and commonly known as "strikeout" type. When printed the new matter shall be printed in italics, and the matter to be omitted shall be printed in "strikeout" type.

In any amendment to a bill which sets out for the first time a section being amended or repealed, any new matter to be added and any matter to be omitted shall be indicated by the

author and shall be printed in the same manner as though the section as amended or repealed were a part of the original bill and was being printed for the first time.

When an entire code is repealed as part of a codification or recodification or when an entire title, part, division, chapter, or article of a code is repealed, the sections comprising such code, title, part, division, chapter, or article shall not be set forth in the bill or amendment in strikeout type.

Rereference to Fiscal Committees

10.5. Bills shall be rereferred to the fiscal committee of each house when they would do any of the following:

(1) Appropriate money.

(2) Result in substantial expenditure of state money by: (a) imposing new responsibilities on the state or (b) new or additional duties on a state agency or (c) liberalization of any state program, function, or responsibility.

(3) Result in a substantial loss of revenue to the state.

Concurrent and joint resolutions shall be rereferred to the fiscal committee of each house when they contemplate any action which would involve any of the following:

(1) Any substantial expenditure of state money.

(2) A substantial loss of revenue to the state.

The above requirements do not apply to bills or concurrent resolutions which contemplate the expenditure or allocation of contingent funds.

Heading of Bills

10.7. No bill shall indicate in its heading or elsewhere that it was introduced at the request of a state agency or officer or any other person. No bill shall contain the words "By request" or words of similar import.

Consideration of Bills

10.8. At a regular session, no bill shall be heard by any committee or acted upon by either house until 30 calendar days have elapsed following the date the bill was first introduced except this provision and the limitation contained in subdivision (a) of Section 8 of Article IV of the Constitution may be dispensed with as follows:

(a) A written request for such dispensation entitled "Request to Consider and Act on Bill Within 30 Calendar Days" shall be filed with the Chief Clerk of the Assembly or the Secretary of the Senate, as the case may be, printed in the Journal and transmitted to the Rules Committee of the appropriate house.

(b) The Rules Committee of the Assembly or Senate, as the case may be, shall determine whether there exists an urgent need for dispensing with the 30-calendar-day waiting period following the bill's introduction.

(c) If the Rules Committee recommends that the waiting period be dispensed with, the member may offer a resolution, without further reference thereof to committee, authorizing hearing and action upon the bill before the 30 calendar days have elapsed. The adoption of the resolution shall require an affirmative recorded vote of three-fourths of the elected members of the house in which the resolution is presented.

As used in this rule "bill" includes constitutional amendments but does not include joint or concurrent resolutions.

Printing of Amendments

11. All bills amended by either house shall be immediately reprinted; in case new matter is added by the amendment such new matter shall be printed in italics in the printed bill, and in the case of matter being omitted, the matter to be omitted shall be printed in strikeout type. When a bill is amended in either house, the first or previous markings shall be omitted.

Printing and Distribution of Bills—Manner of Printing Bills

12. The State Printer shall observe the following directions in printing all bills, constitutional amendments, and concurrent and joint resolutions:

(a) The body of such bills shall be printed in solid unspaced form in 10-point roman type so that the same type shall be used both before and after enrollment. Concurrent resolutions approving city or county charters or amendments thereto may be set in smaller type.

(b) All titles of bills shall be set in italics, statute form and the length of the lines used in the titles shall not exceed that of the body of the bill.

(c) The lines of all printed bills shall be numbered by page and not by sections, and amendments shall be identified by reference to title, page, and line only.

Distribution of Legislative Publications

13. All requests by members for mailing or distribution of copies of the Weekly Histories and the Legislative Index shall be filed with the Secretary of the Senate or the Chief Clerk of the Assembly. Except as otherwise provided by either the Assembly or Senate, each Member of the Senate and Assembly shall be permitted to submit a list of 10 organizations or individuals. The Secretary of the Senate and the Chief Clerk of the Assembly shall order a sufficient number of copies of the Weekly Histories and the Legislative Index to supply this list together with such number of bills and legislative publications as may be necessary for legislative requirements.

No complete list of bills shall be delivered except upon payment therefor of the sum of three hundred dollars ($300) at a regular session or such sum as may be fixed by the Joint

Rules Committee at an extraordinary session. No more than two copies of any bill or other legislative publication, nor more than a total of 100 bills or other legislative publications during a session, shall be distributed free to any person, office, or organization. The limitations imposed by this paragraph do not apply to Members of the Legislature, the President of the Senate, the Secretary of the Senate and the Chief Clerk of the Assembly for the proper functioning of their respective houses; the Legislative Counsel Bureau; Attorney General's office; Secretary of State's office; Controller's office; Governor's office; the Clerk of the Supreme Court; the clerk of the court of appeal for each district; the Judicial Council; the California Law Revision Commission; the State Library; the Library of Congress and to libraries of the University of California at Berkeley and at Los Angeles; and accredited members of the press. The State Printer shall fix the cost of such bills and publications, including postage, and such moneys as may be received by him shall, after deducting the cost of handling and mailing, be remitted on the first day of each month, one-half each to the Secretary of the Senate and the Chief Clerk of the Assembly for credit to legislative printing. Legislative publications heretofore distributed through the Bureau of Documents shall be distributed through the Bill Room. Unless otherwise provided for, the total number of each bill to be printed shall not be more than 2,500.

Summary Digest and Legislative Index

13.1. The Legislative Counsel shall provide for the periodic publication of a cumulative Legislative Index which shall include tables of sections affected by pending legislation. The State Printer shall print the Legislative Index in such quantities, and at such times, as are determined by the Secretary of the Senate and the Chief Clerk of the Assembly. The costs of such printing shall be paid from the legislative printing appropriation.

13.3. The Legislative Counsel shall compile and prepare for publication a summary digest of legislation passed at each regular and extraordinary session, which digest shall be prepared in a form suitable for inclusion in the publication of statutes. The digest shall be printed as a separate legislative publication on the order of the Joint Rules Committee and may be made available to the public in such quantities and at such prices as the Joint Rules Committee may determine.

13.5. The Legislative Counsel shall prepare for publication from time to time a cumulative statutory record. The statutory record shall be printed as a legislative publication on the order of the Secretary of the Senate or the Chief Clerk of the Assembly.

OTHER LEGISLATIVE PRINTING

Printing of the Daily Journal

14. The State Printer shall print in such quantity as directed by the Secretary of the Senate and the Chief Clerk of the Assembly, copies of the journal of each day's proceedings of each house. At the end of the session he shall also print, as directed by the Secretary of the Senate and the Chief Clerk of the Assembly a sufficient number of copies properly paged after being corrected and indexed by the Secretary of the Senate and the Chief Clerk of the Assembly, to bind in book form as the journal of the respective houses of the Legislature.

What Shall Be Printed in the Journal

15. The following shall always be printed in the journal of each house:

(a) Messages from the Governor and messages from the other house, and the titles of all bills, joint and concurrent resolutions and constitutional amendments when introduced in, offered to, or acted upon by the house.

(b) Every vote taken in the house, and a statement of the contents of each petition, memorial, or paper presented to the house.

(c) A true and accurate account of the proceedings of the house, when not acting as a Committee of the Whole.

Printing of the Daily File

16. A daily file of bills ready for consideration shall be printed each legislative day for each house.

The material to be printed in the file and the form and arrangement shall be determined by the respective houses.

Printing of History

17. Each house shall cause to be printed, once each week, during the session, a complete history of all bills; constitutional amendments; and concurrent, joint, and house resolutions originating in or acted upon by the respective houses. A regular form shall be prescribed by the Secretary of the Senate and the Chief Clerk of the Assembly. Such history shall show the action taken upon each measure up to and including the legislative day preceding its issuance. For each legislative day intervening there shall be printed a supplementary history showing the action taken upon any measure since the issuance of the complete history.

Authority for Printing Orders

18. The State Printer shall not print for use of either house nor charge to legislative printing any matter other than provided by law or by the rules, except upon a written order

signed by the Secretary of the Senate, on behalf of the Senate, or the Chief Clerk of the Assembly or other person authorized by the Assembly, on behalf of the Assembly. Persons authorized to order printing under this rule may, when necessity requires it, order certain matter printed in advance of the regular order, by the issuance of a rush order.

The Secretary of the Senate, on behalf of the Senate, and the Chief Clerk of the Assembly or other person authorized by the Assembly, on behalf of the Assembly, are hereby authorized and directed between sessions to order and distribute for the members stationery and legislative publications for which there is a demand, and, subject to the rules of their respective houses, to approve the bills covering such orders. All bills for printing must be presented by the State Printer within 30 days after the completion of the printing.

RECORD OF BILLS

Secretary and Chief Clerk to Keep Records

19. The Secretary of the Senate and the Chief Clerk of the Assembly shall keep a complete and accurate record of every action taken by the Senate and Assembly on every bill.

Secretary and Chief Clerk Shall Endorse Bills

20. The Secretary of the Senate and the Chief Clerk of the Assembly shall endorse on every original or engrossed bill a statement of any action taken by the Senate or Assembly concerning such bill.

ACTION IN ONE HOUSE ON BILL TRANSMITTED FROM THE OTHER

After a Bill Has Been Passed by the Senate or Assembly

21. When a bill has been passed by either house it shall be transmitted promptly to the other unless a motion to reconsider or a notice of motion to reconsider has been made or it is held pursuant to some rule or order of the house.

The procedure of referring bills to committees shall be determined by the respective houses.

Messages to Be in Writing Under Proper Signatures

22. Notice of the action of either house to the other shall be in writing and under the signature of the Secretary of the Senate or the Chief Clerk of the Assembly from which such message is to be conveyed. A receipt shall be taken from the officer to whom such message is delivered.

Uncontested Bills

22.1. Each standing committee may report an uncontested bill out of committee with the recommendation that it be placed

on the consent calendar. The Secretary of the Senate and the Chief Clerk of the Assembly shall provide to each committee chairman appropriate forms for such report. As used in this rule, "uncontested bill" means a bill, except a revenue measure or a measure as to which the 30-day limitation prescribed by subdivision (a) of Section 8 of Article IV of the Constitution has been dispensed, which: (a) receives a do-pass or do-pass-as-amended recommendation from the committee to which it is referred, by unanimous vote of the members present provided a quorum is present; and (b) has no opposition expressed by any person present at the committee meeting with respect to the final version of the bill as approved by the committee; and (c) prior to final action by the committee has been requested, by the author, to be placed on the consent calendar.

Consent Calendar

22.2. Following their second reading and the adoption of any committee amendments thereto, if any, all bills certified by the committee chairman as uncontested bills shall be placed by the Secretary of the Senate or the Chief Clerk of the Assembly on the consent calendar, and shall be known as "consent calendar bills." Any consent calendar bill which is amended from the floor shall cease to be a consent calendar bill and shall be replaced on the second reading file. Upon objection of any member to the placement or retention of any bill on the consent calendar, such bill shall cease to be a consent calendar bill and shall be replaced on the second reading file. No consent calendar bill shall be considered for adoption until the second legislative day following the day of its placement on the consent calendar.

Consideration of Bills on Consent Calendar

22.3. Bills on the consent calendar are not debatable, except that the President of the Senate or the Speaker of the Assembly shall allow a reasonable time for questions from the floor and shall permit the proponents of such bills to answer such questions. Immediately prior to voting on the first bill on the consent calendar, the President of the Senate or the Speaker of the Assembly shall call to the attention of the members the fact that the next rollcall will be the rollcall on the first bill on the consent calendar.

The consent calendar shall be considered as the last order of business on the daily file.

Passage and Enrolling of Bills

Passage of Bills Preceding the Recess

23. No Senate bill shall be passed by the Senate within 15 days, and no Assembly bill shall be passed by the Assembly within 10 days, prior to the commencement of the 30-day re-

cess of the two houses of the Legislature at a regular session required by Section 3 of Article IV of the Constitution, unless permission to vote on such bill shall be granted by a three-fourths vote of the house of its origin after being recommended by the Committee on Rules (if it be a Senate bill) or by the Speaker of the Assembly (if it be an Assembly bill). As used in this rule, "bill" does not include concurrent resolutions.

Procedure on Defeat of Urgency Clause

23.5. Whenever a bill containing a section providing that the act shall take effect immediately as an urgency statute is being considered for passage and the urgency clause or the bill fails to receive the necessary two-thirds or more vote, no further action may be taken on the bill at that time, except that an amendment to remove the urgency provision from the title of the bill and the urgency clause from the body of the bill shall be in order, and if the amendment is adopted, the bill shall be reprinted to reflect such amendment. When the bill is reprinted, it shall be returned for further consideration to the same place on the file as when it failed to receive the necessary two-thirds or more vote.

Enrollment of Bill After Passage

24. After a bill has passed both houses it shall be printed in enrolled form, omitting symbols indicating amendments, and shall be compared by the Engrossing and Enrolling Clerk and the proper committee of the house where it originated to determine that it is in the form approved by the houses. The enrolled bill shall thereupon be signed by the presiding officers of both houses and the Secretary of the Senate and Chief Clerk of the Assembly and presented without delay to the Governor. The committee shall report the time of presentation of the bill to the Governor to the house and the record shall be entered in the journal. After enrollment and signature by the officers of the Legislature, constitutional amendments, and concurrent and joint resolutions shall be filed without delay in the office of the Secretary of State and the time of filing shall be reported to the house and the record entered in the journal.

Amendments and Conferences

Amendments to Amended Bills Must Be Attached

25. Whenever a bill or resolution which shall have been passed in one house shall be amended in the other, it shall immediately be reprinted as amended by the house making such amendment or amendments. Two copies of such amendment or amendments shall be attached to the bill or resolution so amended, and endorsed "adopted" and such amendment or amendments, if concurred in by the house in which such bill or resolution originated, shall be endorsed "concurred in," and such endorsement shall be signed by the Secretary or

Assistant Secretary of the Senate, or the Chief Clerk or Assistant Clerk of the Assembly as the case may be; provided, however, that an amendment to the title of a bill adopted after the passage of such bill shall not necessitate reprinting, but such amendment must be concurred in by the house in which such bill originated.

Amendments to Concurrent and Joint Resolutions

25.5. When a concurrent or joint resolution is amended, and the only effect of the amendments is to add coauthors, the joint or concurrent resolution shall not be reprinted unless specifically requested by one of the added coauthors, but a list of the coauthors shall appear in the Journal and History.

To Concur or Refuse to Concur in Amendments

26. In case the Senate amend and pass an Assembly bill, or the Assembly amend and pass a Senate bill, the Senate (if it be a Senate bill) or the Assembly (if it be an Assembly bill) must either "concur" or "refuse to concur" in the amendments. If the Senate concur (if it be a Senate bill), or the Assembly concur (if it be an Assembly bill), the Secretary or Chief Clerk shall notify the house making the amendments and the bill shall be ordered to enrollment.

Concurring in Amendments Adding Urgency Section

27. When a bill which has been passed in one house is amended in the other by the addition of a section providing that the act shall take effect immediately as an urgency statute and is returned to the house in which it originated for concurrence in the amendment or amendments thereto, the procedure and vote thereon shall be as follows:

The presiding officer shall first direct that the urgency section be read and put to a vote. If two-thirds of the members elected to the house vote in the affirmative the presiding officer shall then direct that the question of whether the house shall concur in the amendment or amendments shall be put to a vote. If two-thirds of all the members elected to the house vote in the affirmative, concurrence in the amendments shall be effective.

If the affirmative vote on either of such questions is less than two-thirds of all the members elected to such house, the effect is a refusal to concur in the amendment or amendments, and the procedure thereupon shall be as provided in Joint Rule No. 28.

When Senate or Assembly Refuse to Concur

28. If the Senate (if it be a Senate bill) or the Assembly (if it be an Assembly bill) refuse to concur in amendments to the bill made by the other house, and when the other house has been notified of such refusal to concur, a conference committee shall be appointed for each house in the manner pre-

scribed by these rules. The Committee on Rules in the case of the Senate and the Speaker in the case of the Assembly shall each appoint a committee of three (3) on conference, and the Secretary or the Chief Clerk shall immediately notify the other house of the action taken.

Committee on Conference

28.1. The Committee on Rules and the Speaker, in appointing a committee on conference, shall each select two members from those voting with the majority on the point about which the difference has arisen, and the other member from the minority, in the event there is a minority vote.

Whether a member has voted with the majority or minority on the point about which the difference has arisen is determined by his vote on the appropriate rollcall, as follows:

(1) In the Assembly—

(a) The rollcall on the question of final passage of a Senate bill amended in the Assembly when the Senate has refused to concur with the Assembly amendments.

(b) The rollcall on the question of concurrence with Senate amendments to an Assembly bill.

(2) In the Senate—

(a) The rollcall on the question of final passage of an Assembly bill amended in the Senate when the Assembly has refused to concur with the Senate amendments.

(b) The rollcall on the question of concurrence with Assembly amendments to a Senate bill.

Meetings and Reports of Committees on Conference

29. The first Senator named on the conference committee shall act as chairman of the committee from the Senate, and the first Assemblyman named on such committee shall act as chairman of the committee from the Assembly. The chairman of the committee on conference for the house of origin of the bill shall arrange the time and place of meeting of the conference committee and shall prepare or direct the preparation of reports. It shall require an affirmative vote of not less than two of the Assembly Members and two of the Senate Members constituting the committee on conference to agree upon a report, and the report shall be submitted to both the Senate and the Assembly. The committee on conference shall report to both the Senate and Assembly. Such report is not subject to amendment, and if either house refuses to adopt such report, the conferees shall be discharged and other conferees appointed; provided, however, that no more than three different conference committees shall be appointed on any one bill. No member who has served on a committee on conference shall be appointed a member of another committee on conference on the same bill. It shall require the same affirmative recorded vote to adopt any conference report as required by the Constitution upon the final passage of the bill affected by

such report. It shall require an affirmative recorded vote of two-thirds of the entire elected membership of each house to adopt any conference report affecting any bill which contains an item or items of appropriation which are subject to subdivision (d) of Section 12 of Article IV of the Constitution. The report of a conference committee shall be in writing, and a copy of any amendments proposed in the report shall be placed on the desk of each member of the house before it is acted upon by the house.

The vote on concurrence or upon the adoption of such conference report shall be deemed the vote upon final passage of such bill.

When Conference Committee Report Is in Order

30. The presentation of the report of a committee on conference shall always be in order, except when a question of order or a motion to adjourn is pending, or during rollcall, and, when received, the question of proceeding to the consideration of the report, if raised, shall be immediately passed upon, and shall be determined without debate.

Conference Committee Reports on Urgency Statutes

30.5. When the report of a committee on conference recommends the amendment of a bill by the addition of a section providing that the act shall take effect immediately as an urgency statute, the procedure and the vote thereon shall be as follows:

The presiding officer shall first direct that the urgency section be read and put to a vote. If two-thirds of the members elected to the house vote in the affirmative the presiding officer shall then direct that the question of whether the house shall adopt the report of the committee on conference shall be put to a vote. If two-thirds of all the members elected to the house vote in the affirmative, the adoption of the report and the amendments proposed thereby shall be effective.

If the affirmative vote on either of such questions is less than two-thirds of all the members elected to such house, the effect is a refusal to adopt the report of the committee on conference.

MISCELLANEOUS PROVISIONS

Authority When Rules Do Not Govern

31. All relations between the houses which are not covered by these rules shall be governed by Mason's Manual.

Press Rules

32. (a) Persons desiring privileges of accredited press representatives shall make application to the Speaker of the Assembly, as required by Rule 26(k) of Assembly Rules, and to the Committee on Rules of the Senate, as required by Rule

13 of Senate Rules; and shall state in writing the names of the daily newspapers, news associations, or radio or television stations by which they are employed, and what other occupations or employment they may have, if any; and they shall further declare that they are not employed, directly or indirectly, to assist in the prosecution of the legislative business of any person, corporation or association, and will not become so employed while retaining the privilege of accredited press representatives.

(b) The applications required by the above rule shall be authenticated in a manner that shall be satisfactory to the Standing Committee of the Capitol Correspondents Association which shall see that occupation of seats and desks in the Senate and the Assembly chambers is confined to bona fide correspondents of reputable standing in their business, who represent daily newspapers requiring a daily file of legislative news, or who represent news associations requiring daily telegraphic or radio or television service on legislative news. It shall be the duty of the standing committee at their discretion, to report violation of accredited press privileges to the Speaker of the Assembly, or to the Senate Committee on Rules, and pending action thereon the offending correspondent may be suspended by the standing committee.

(c) Persons engaged in other occupations whose chief attention is not given to newspaper correspondence or to news associations requiring telegraphic or radio or television service shall not be entitled to the privileges accorded accredited press representatives; and the press list in the Handbook of the California Legislature and the Senate and Assembly Histories shall be a list only of persons authenticated by the standing committee of correspondents.

(d) The press seats and desks in the Senate and Assembly chambers shall be under the control of the standing committee of correspondents, subject to the approval and supervision of the Speaker of the Assembly and the Senate Committee on Rules. Press cards shall be issued by the President of the Senate and the Speaker of the Assembly only to correspondents properly accredited in accordance with the provisions of this rule.

(e) One or more rooms shall be assigned for the exclusive use of correspondents during the legislative session, which rooms shall be known as the Press Room. since the filing of the complaint. If a complaint is filed with the appropriate district attorney by any person concerning an alleged violation by a Member of the Legislature of any provision of Rule 44, such person may not thereafter file a complaint with respect to such alleged violation with the committee.

If a complaint is filed with the committee, the committee shall promptly send a copy of the complaint to the Member of the Legislature alleged to have committed the violation complained of, who shall thereafter be designated as the respondent.

No complaint may be filed with the committee after the expiration of six months from the date upon which the alleged violation occurred.

If the committee determines that such verified complaint does allege facts, directly or upon information and belief, sufficient to constitute a violation of any of the provisions of Rule 44, the committee shall promptly investigate the alleged violation and, if after such preliminary investigation, the committee finds that probable cause exists for believing the allegations of the complaint, it shall fix a time for a hearing in the matter, which shall be not more than 30 days after such finding. If, after the preliminary investigation, the committee finds that probable cause does not exist for believing the allegations of the complaint, the committee shall dismiss the complaint. In either event the committee shall notify the complainant and respondent of its determination.

(g) After the complaint has been filed the respondent shall be entitled to examine and make copies of all evidence in the possession of the committee relating to the complaint.

(h) If a hearing is to be held pursuant to subdivision (f) the committee, before the hearing has commenced, shall issue subpoenas and subpoenas duces tecum at the request of any party in accordance with the provisions of Chapter 4 (commencing with Section 9400), Part 1, Division 2, Title 2 of the Government Code. (k) After the hearing the committee shall state its findings of fact. If the committee finds that the respondent has not violated any of the provisions of Rule 44, it shall order the action dismissed, and shall notify the respondent and complainant thereof and shall also transmit a copy of the complaint and the fact of dismissal to the Attorney General and to the district attorney of the appropriate county. If the committee finds that the respondent has violated any of the provisions of Rule 44, it shall state its findings of fact and submit a report thereon to the house in which the respondent serves, send a copy of such findings and report to the complainant and respondent, and the committee shall also report thereon to the Attorney General and to the district attorney of the appropriate county.

(*l*) Nothing in this rule shall preclude any person from instituting a prosecution for violation of any provision of Rule 44 unless such person has filed a complaint with the committee concerning such violation, in which case such person may not file a complaint with the district attorney of the appropriate county to institute a criminal prosecution for such violation until the committee has made its determination of the matter or a period of 120 days has elapsed since the filing of the complaint with the committee.

(m) The filing of a complaint with the committee pursuant to this rule suspends the running of the statute of limitations applicable to any violation of the provisions of Rule 44 while such complaint is pending.

(n) The committee shall maintain a record of its investigations, inquiries, and proceedings. All records, complaints, documents, reports filed with or submitted to or made by the committee, and all records and transcripts of any investigations, inquiries or hearings of the committee under this rule shall be deemed confidential and shall not be open to inspection by any person other than a member of the committee, an employee of the committee, or a state employee designated to assist the committee, except as otherwise specifically provided in this rule.
