(e) Whenever one or more parcels are transferred from a partial tax area to a full tax area, the secretary shall file a statement as to all parcels which are transferred to a full tax area, as required by Chapter 8 (commencing at Section 54900) of Part 1 of Division 2 of Title 5 of the Government Code.

(f) After a parcel has been excluded from a partial tax area such exclusion shall be permanent.

SEC. 28. (a) If any one or more of the planning areas are finally included within the district, then following such final inclusion the board shall give written notice to the California District Securities Advisory Commission, and the advisory commission shall thereupon appoint a three-member commission, one of whom shall be a civil engineer whose practice encompasses irrigation, and one of whom shall be a civil engineer whose practice encompasses municipal water supply. Such independent benefit commission shall serve at the pleasure of the advisory commission. When a vacancy occurs in the membership of the independent benefit commission the secretary shall give notice to the advisory commission, and the advisory commission shall promptly appoint a successor. If the advisory commission fails to appoint a successor or to initially appoint the three members of the independent benefit commission, then after 60 days' notice in writing to the advisory commission by the board, the board may fill such vacancy or make such appointments and the person so appointed by the board shall serve until such time as they are replaced by the advisory commission. The advisory commission may charge the district for the actual cost of performing the services required of the State Treasurer by this section.

(b) It shall be the duty of the independent benefit commission from time to time, in the manner set forth in this section, to determine whether a parcel within a planning area is receiving a substantial benefit from district operations.

(c) No member of the independent benefit commission shall have any interest in any land in the district, either directly or indirectly.

(d) Each member of the independent benefit commission, before entering upon his duties, shall take and subscribe an oath that he is not in any manner interested either directly or indirectly in any land in the district, and that he will perform the duties of commissioner to the best of his ability.

(e) The members of the independent benefit commission shall be paid by the district compensation for the services rendered by them in the amount or amounts fixed by the State Treasurer from time to time.

(f) The members of the independent benefit commission, upon their appointment and thereafter from time to time, shall select one of their members as chairman.

(g) Within 60 days of its appointment, and thereafter as provided in subdivision (j) of this section, the independent benefit commission shall meet at the district office. At the time of such initial meeting and thereafter as requested by the independent benefit commission the board shall furnish or make available to the independent benefit commission all data and information possessed by the district and which in the judgment of the independent benefit commission is relevant to the determinations to be made by it.

(h) After its initial meeting the independent benefit commission within the next succeeding 120 days shall determine which parcels within the partial tax areas are receiving a substantial benefit by the operations of the district and shall prepare a preliminary report of its findings. Upon its completion the preliminary report of the independent benefit commission shall be delivered to the secretary in writing. Such preliminary report shall list and identify each parcel which the independent benefit commission has determined is receiving a substantial benefit from district operations by the current description of such parcel as such description is then disclosed by the applicable current records of the assessor, and accordingly should be transferred from the partial tax area to the full tax area. Upon receipt of such preliminary report of the independent benefit commission the secretary shall publish pursuant to Section 6061 of the Government Code a notice of the receipt of such preliminary report. Such notice shall fix a date for a public hearing to be held on the report. Such publication shall be by a display advertisement in a newspaper of general circulation printed and published within the district, at least 20 days prior to the date at which the public hearing is to be held. The notice, among other information, shall contain an invitation to all interested persons to call at the office of the district and to examine said report of the independent benefit commission. At the time appointed in the notice, the independent benefit commission shall meet in the district office and hold a public hearing on its preliminary report. At the hearing any person interested in the district, including the board and members of the board, may, in person or by representative, appear and submit evidence concerning the matters contained in the preliminary report and the matters pending before the independent benefit commission. Within 30 days of the

conclusion of its public hearing the independent benefit commission shall deliver its final report to the secretary.

(i) Upon receipt of the final report of the independent benefit commission the secretary shall publish a notice that such final report has been received and that the same is available for inspection by all interested persons at the office of the district. The notice shall be published pursuant to Section 6061 of the Government Code by display advertisement in a newspaper of general circulation printed and published within the district, and shall advise interested persons of their right to request review pursuant to this paragraph. Within 30 days of the publication of the notice required by this paragraph any person interested in a parcel affected by the final report of the independent benefit commission who is dissatisfied with the action of the independent benefit commission in connection with such parcel may file a request for review in writing on forms provided by the secretary requesting review by the board of the action of the independent benefit commission as to the parcel in which such person is interested. Upon the filing of a request for review the secretary shall set the matter for hearing by the board. At least 20 days prior to the hearing the secretary shall mail notice of such hearing to the person or persons requesting review. At the hearing the board shall hear evidence concerning the subject parcel and whether it is receiving a substantial benefit by the operations of the district. At the conclusion of the hearing the board may modify the report of the independent benefit commission by excluding one or more parcels from the list of parcels to be transferred from the partial tax area to the full tax area, but the board shall have no power to include any parcel within the full tax area which was not initially so included by the final report of the independent benefit commission. A final report of the independent benefit commission shall be final and shall take effect for all purposes upon either the expiration of 30 days after the publication of the notice provided for in this subdivision or upon the final action of the board in modifying the final report or determining not to modify the final report following the public hearing of the board in the event of the filing of a request for review pursuant to this subdivision.

(j) After the initial hearing of the independent benefit commission so long as any portion of the district is not within the full tax area the independent benefit commission shall again hold an initial meeting as provided in subdivision (i) of this section during the fifth year next succeeding the year of the final adoption of the last final report of the independent benefit commission or at more frequent intervals upon written request of the board, and after such initial meeting shall proceed to the adoption of a new final report of the

independent benefit commission in the manner set forth in subdivisions (g) to (i), inclusive, of this section.

SEC. 29. Failure of the district at any time to take action to collect any delinquent replenishment assessment or charge shall not be a waiver of the right of the district to collect such account at any time in the future by the utilization of such procedures and remedies as are granted to the district by this act.

SEC. 30. Whenever the district is required to mail any bill or notice to any owner the requirement of mailing shall be satisfied by deposit of such bill or notice in any postal facility regularly maintained by the government of the United States, with postage paid, addressed to the owner at his address as disclosed by the most recent record of the district. If the records of the district do not contain an address for such owner, such mailing shall be to his address as disclosed by the most recent equalized tax roll of the county. 7. To acquire the right to store water in any reservoirs, or to carry water through any canal, ditch or conduit not owned by the district, and to grant to any person the right to carry any water owned by such person through any tunnel, canal, ditch or conduit of the district; provided, that the district shall not acquire any such rights from a municipality or public water agency or district other than with the consent of such municipality or public water agency or district.

Whenever a project or work of improvement is contemplated due consideration shall be given to the location of existing sewage lines and to the possible locations of future sewage lines, and the district shall solicit the recommendations of public sewage disposal agencies in order that district facilities may be located equitably in light of such sewage lines.

9. To incur indebtedness and to issue bonds in the manner hereinafter provided.

10. To cause taxes or assessments to be levied and collected for the purpose of paying any obligation of the district, and to carry out any of the purposes of this act, in the manner hereinafter provided.

11. To make contracts, to employ labor, to employ expert appraisers, consultants and technical advisors and assistants, and to do all acts necessary for the full exercise of all powers vested by this act in said district or in any of the officers thereof.

12. The district has and may exercise the right of eminent domain within the County of San Diego, either within or without the district, and in the manner provided by law for the condemnation of private property for public use, to take any property necessary to carry out any of the objects or purposes of this act, whether such property be already devoted to any public use by any district or public corporation or agency, or otherwise; provided, however, that the district in exercising such power shall in addition to the damage for the taking, injury, or destruction of property, also pay the cost of removal, reconstruction or relocation of any structure, railways, mains, pipes, conduits, wires, cable, poles or other property of any public utility or public corporation or district which is required to be moved to a new location; and provided further, that notwithstanding any provision of this act or any other law, no property shall be taken unless it is taken upon a finding by a court of competent jurisdiction that the taking is for a more necessary public use than that to which it has already been appropriated; and provided further, that no right shall exist in the district to take by proceedings in eminent domain any water rights appropriated to public use by any existing municipal corporation, water district, or other public agency. The district shall also have the right to and may condemn, within the County of San Diego, any existing works or improvements in the district or along streams flowing into the district now or hereafter used to control flood or storm waters, or to conserve such flood or storm waters or to protect any property in the district or along streams flowing into the district from damage from such flood or storm waters, or to protect beaches or shorelines from erosion or to restore such beaches or shorelines, and it is hereby declared that the use of the property, lands, rights-of-way, easements or materials which may be condemned, taken or appropriated under the provisions of this act is a public use subject to the regulation and control of the State of California in the manner prescribed by law; provided, however, that nothing in this act contained shall be deemed to authorize the district or any person to divert the waters of any river, creek, stream, irrigation system, canal or ditch or the waters thereof or therein unless compensation therefor be first provided in the manner prescribed by law.

The power of eminent domain vested in the district shall include the power to condemn in the name of the district either the fee simple or any lesser estate, easement or interest in any real property which the board by resolution shall determine is necessary for carrying out the purposes of this act.

Before property can be taken it must appear:

1. That the use to which it is to be applied is a use authorized by this act; and

2. That the taking is necessary to such use; provided, when the board, by resolution adopted by vote of two-thirds of all its members, has found and determined that the public interest and necessity require the acquisition, construction or completion by the district of some project or work of improvement, and that the property described in such resolution is necessary therefor, such resolution shall be conclusive evidence:

(a) Of the public necessity for such proposed project or work of improvement;

(b) That such property is necessary therefor, and

(c) That such proposed project or work of improvement is planned or located in the manner which will be most compatible with the greatest public good, and the least private injury; provided, however, that said resolution shall not be such conclusive evidence in the case of the taking by the district of property located outside of the territorial limits thereof.

Whenever land is to be condemned by the district for any of the uses and purposes permitted by law, and the taking of a part of a parcel of land would leave the remainder thereof in such size or shape or condition as to require the district to pay in compensation for the taking of such part an amount equal to the fair and reasonable value of the whole parcel, the resolution of the board may provide for the taking of the whole of such parcel and upon the adoption of any such resolution it shall be deemed necessary for the public use, benefit, safety, economy, and general welfare that the district acquire the whole of such parcel.

Whenever real property which is devoted to or held for some other public or quasi-public use is required by the district for any purpose authorized by this act, the district may condemn real property adjacent thereto or in the immediate vicinity thereof to be exchanged for the real property so required by the district.

Nothing in this act contained shall be construed as in any way affecting the plenary power of any existing municipal corporation, water district or other public agency providing water to the public or as affecting the absolute control of any properties of such municipal corporation, water district or public agency necessary for such water supply, and nothing herein contained shall be construed as vesting any power of control over such properties in the district or any officer thereof, or in any person referred to in this act, except to the extent consented thereto by such municipal corporation, water district or public agency.

13. To plan, improve, operate, maintain, and keep in a sanitary condition a system of public parks, playgrounds, beaches, swimming areas, and other facilities for public recreation, for the use and enjoyment of all the inhabitants of the

district, as an incident to the carrying out of the projects and works of improvement of the district and on land acquired or used for the flood control, drainage, beach or shoreline erosion control, or water conservation purposes of this act; to construct, maintain, and operate any other amusement or recreational facilities on such lands, including picnic grounds and equipment incidental thereto, bathhouses, golf courses, tennis courts, and other special amusements and forms of recreation; to fix and collect reasonable fees for the use by the public of any such special facilities, services or equipment; and to adopt such rules and regulations as in the discretion of the board are necessary to the orderly operation and control of the use by the public of such lands and facilities for recreational purposes; provided, however, that the district shall not, for the purposes specified in this subsection, interfere with the control or operation of any existing public park, playground, beach, swimming area, parkway, recreational ground, or other public property, owned or controlled by any other district, county or municipal corporation, except with the consent of the governing body of such district, county or municipal corporation, and upon such terms as may be mutually agreed upon between the board and such governing body; and further provided, that no such recreational facility shall be established in any city or in the unincorporated territory of a county without the consent of the governing body of such city or county, and further provided, that if any such recreational facility is located within the unincorporated territory of a county then that county, or if any such recreational facility is located within the corporate limits of any city then that city, by resolution duly passed by the governing body of such county or city, may assume the management and control of such recreational facility, in which event such county or city shall establish and collect nondiscriminatory fees and charges for the use of such recreational facility and may establish rules and regulations pertaining to such recreational facility, and the county or city annually shall deduct from such fees and charges an amount sufficient to reimburse the county or city for the costs and expenses incurred in such management and control of such recreational facility, and shall pay over to the district, for use for general district purposes, all money collected in excess of the amount necessary for such reimbursement.

14. The powers herein granted shall include the design, construction, or maintenance of any levees, seawalls, groins, breakwaters, jetties, outlets, channels, harbors, basins, or other projects or works of improvement pertaining thereto for the protection of shoreline or beaches.

15. To lease, sell or dispose of any property or interest therein whenever, in the judgment of the board, said property or said interests therein or part thereof is no longer required for the purposes of the district, or may be leased for any purpose without interfering with the use of such property for the purposes of the district, and to pay any compensation received

therefor into the general fund of the district and use the same for the purposes of this act; provided, however, that nothing herein contained shall authorize the board or any officer of said district to sell, lease or otherwise dispose of any water, water right, reservoir space or storage capacity or any interest or space therein, except to public agencies for recreational purposes or except as heretofore provided in subsection 6 of this section, or except, in the discretion of the board, as is necessarily incidental to the accomplishment of the purposes of this act or to the public welfare; provided, however, that the district may grant and convey to the United States, or to any federal agency authorized to accept and pay for such land or interests in land, all lands and interests in land, now owned or hereafter acquired, lying within any channel, dam, or reservoir site, or shoreline or beach, improved and constructed, in whole or in part, with federal funds, upon payment to the district of sums equivalent to actual expenditures made by it in acquiring the lands and interests in land so conveyed, and in improving such lands and interests in land, deemed reasonable in the discretion of the board.

16. To grant or otherwise convey to counties, cities and counties, cities, the State of California or the United States easements for street and highway purposes over, along, upon, in, through, across or under any real property owned by the district.

17. To remove, carry away and dispose of any rubbish, trash, debris, or other inconvenient matter that may be dislodged, transported, conveyed, or carried by means of, through, in or along the works and structures operated or maintained hereunder and deposited upon the property of the district or elsewhere.

18. Notwithstanding any provision of this act, the district shall not have the power to compete with water selling or distribution agencies, either public or private, by selling or distributing water to consumers for domestic, agricultural or industrial use; provided, however, that the district shall have the power to sell to water agencies, either public or private, such surplus water as it may accumulate.

19. To establish by ordinance and maintain building setback lines along the banks of any river, creek, stream, or other waterway, in any case where the board determines that such setback line is necessary to prevent impediment of the natural flow of water or to prevent damage from flooding, bank caving, or erosion related to the property on which the setback is established.

The landowner may submit an engineered alternative to the setback for approval by the board.

20. To do all acts necessary to participate in all programs authorized by the federal government whereby federal funds are granted to the district or any of its residents for purposes of health, education, welfare, public works, or community improvement, including, without limitation thereto, contracting

and cooperating with the federal government, the state or its agencies, other local public agencies, and private persons and corporations, and to make any expenditure of district funds required for such participation.

Sec. 16.5. The district or any zone, subzone or special drainage area may borrow funds from the County of San Diego or from any other governmental agency authorized to loan the same or from any private source for any district purpose. The amount of indebtedness to be so incurred shall not exceed an aggregate amount equal to one-half of 1 percent of the assessed valuation of the taxable property within the district, the zone, subzone or special drainage area for whose benefit the money is borrowed and may be repaid in approximately equal installments, including interest, during the period not to exceed five years from the date which such indebtedness is incurred and shall bear interest at a rate not exceeding 7 percent per annum payable annually or semiannually or part annually and part semiannually. Such indebtedness shall be authorized by resolution adopted by the affirmative votes of at least four-fifths of the members of the district board and shall be evidenced by a promissory note or notes signed by at least four-fifths of the members of the district board. At the time of making the general tax levy after incurring each such indebtedness and annually thereafter until such indebtedness is paid, or until there is a sum in the treasury set apart for that purpose sufficient to meet all payments of principal and interest on such indebtedness as they become due, a tax shall be levied and collected sufficient to pay the interest on such indebtedness and such part of the principal as would become due before the proceeds of the tax levied at the next general tax levy will be available. The indebtedness authorized to be incurred by this section shall be in addition to, and the provisions of this section shall not apply to, any bonded indebtedness otherwise incurred pursuant to the provisions of this act.

SEC. 3. Section 19 of the San Diego County Flood Control District Act (Chapter 55 of the Statutes of 1966, First Extraordinary Session) is amended to read:

Sec. 19. Subject to the provisions of this act, the board shall prescribe by resolution the form of said bonds and of the interest coupons attached thereto, which resolution must include a designation of the zone or participating zone affected. Said bonds shall be payable annually or semiannually, at the discretion of the board, each and every year on a day and date and at a place to be fixed by said board and designated in such bonds, together with the interest on all sums unpaid on such date, until the whole of said indebtedness shall have been paid.

The board may divide the principal amount of any issue into two or more series and fix different dates for the bonds

of each series. The bonds of one series may be made payable at different times from those of any other series. The maturity of each series shall comply with this section. The board may fix a date, not more than two years from the date of issuance, for the earliest maturity of each issue or series of bonds. If an injured employee or, in the case of his death, any of his dependents, is under 21 years of age, except a person who has reached the age of majority as defined in Section 25 of the Civil Code or incompetent at any time when any right or privilege accrues to such employee or dependent under this division, a general guardian, appointed by the court, or a guardian ad litem or trustee appointed by the appeals board may, on behalf of the employee or dependent, claim and exercise any right or privilege with the same force and effect as if no disability existed.

No limitation of time provided by this division shall run against any person under 21 years of age, except a person who has reached the age of majority as defined in Section 25 of the Civil Code or any incompetent unless and until a guardian or trustee is appointed. The appeals board may determine the fact of the minority or incompetency of any injured employee and may appoint a trustee to receive and disburse compensation payments for the benefit of such minor or incompetent and his family.

The people of the State of California do enact as follows:

SECTION 1. Section 7451 of the Education Code is amended to read:

7451. The county superintendent of schools of each county, with the consent of the State Board of Education, may establish and maintain, or with one or more counties may establish and maintain, at least one regional occupational center, or regional occupational program, in the county to provide education and training in vocational courses. The governing boards of any school districts maintaining high schools in the county may, with the consent of the State Board of Education and of the county superintendent of schools, cooperate in the establishment and maintenance of a regional occupational center, or regional occupational program, except that if such a school district also maintains five hundred (500) or more schools its governing board may establish and maintain one or more regional occupational centers, or regional occupational programs, without such restrictions. A regional occupation center or regional occupation program may be established by two or more school districts maintaining high schools through the use of the staff and facilities of a community college or community colleges serving the same geographic area as the school districts maintaining the high schools, with the consent of the State Board of Education and the county superintendent of schools. The establishment and maintenance of a regional occupational center, or regional occupational program, by two or

more school districts may be undertaken pursuant to Article 1 (commencing with Section 6500) of Chapter 5 of Division 7 of Title 1 of the Government Code. If a school district or school districts establish and maintain such a regional occupational center, or regional occupational program, pursuant to this chapter, the county superintendent of schools may, with the consent of the State Board of Education, establish and maintain a separate regional occupational center or centers, or regional occupational program or programs.

SEC. 2. Section 7451 of the Education Code is amended to read:

7451. The county superintendent of schools of each county, with the consent of the State Board of Education, may establish and maintain, or with one or more counties may establish and maintain at least one regional occupational center, or regional occupational program, in the county to provide education and training in vocational courses. The governing boards of any school districts maintaining high schools in the county may, with the consent of the State Board of Education and of the county superintendent of schools, cooperate in the establishment and maintenance of a regional occupational center, or regional occupational program, except that if such a school district also maintains five hundred (500) or more schools its governing board may establish and maintain one or more regional occupational centers, or regional occupational programs, without such restrictions. A regional occupational center or regional occupational program may be established by two or more school districts maintaining high schools through the use of the staff and facilities of a community college or community colleges serving the same geographic area as the school districts maintaining the high schools, with the consent of the State Board of Education and the county superintendent of schools. The establishment and maintenance of a regional occupational center, or regional occupational program, by two or more school districts may be undertaken pursuant to Article 1 (commencing with Section 6500) of Chapter 5 of Division 7 of Title 1 of the Government Code. If a school district or school districts establish and maintain such a regional occupational center, or regional occupational program, pursuant to this chapter, the county superintendent of schools may, with the consent of the State Board of Education, establish and maintain a separate regional occupational center or centers, or regional occupational program or programs.

Notwithstanding other provisions of this section, a single school district located in a class 1 county, as defined in Section 756, and having an average daily attendance of 50,000 or more, may apply to the State Board of Education through the county superintendent of schools for permission to establish a regional occupational center. The State Board of Education shall, within 90 days of receipt of an application, prescribe a procedure whereby the district may establish a center in accordance with its application and in compliance with the

provisions of the State Plan for Vocational Education. The county superintendent of schools shall supervise establishment of the center.

SEC. 3. It is the intent of the Legislature, if this bill and Senate Bill No. 274 are both chaptered and amend Section 7451 of the Education Code, and this bill is chaptered after Senate Bill No. 274, that the amendments to Section 7451 proposed by both bills be given effect and incorporated in Section 7451 in the form set forth in Section 2 of this act. Therefore, Section 2 of this act shall become operative only if this bill and Senate Bill No. 274 are both chaptered, both amend Section 7451, and Senate Bill No. 274 is chaptered before this bill, in which case Section 1 of this act shall not become operative.

CHAPTER 825

Such costs include all preparatory costs including costs of developing procedures, programming for data processing, developing and adopting appropriate regulations, designing and printing of forms, developing instructions for the board's staff and for taxpayers,

and other necessary preparatory costs which shall include the board's direct and indirect costs as specified by Section 11256 of the Government Code. Any disputes as to the amount of preparatory costs incurred shall be resolved by the Director of Finance and his decision shall be final. The maximum amount of all preparatory costs to be paid by the district shall not in any event exceed one hundred twenty-five thousand dollars (\$125,000).

SEC. 3. Section 37004 of the Revenue and Taxation Code is amended to read:

37004. No taxes authorized by this part shall be levied to pay principal and interest on any bonds of the rapid transit district, nor for other district purposes unless the board shall have authorized the same by ordinance adopted by a vote of two-thirds of all members of the board and such ordinance shall be approved by the requisite number of votes required by the principal act of the rapid transit district to be cast by the qualified electors of the district voting on the proposition at an election called for that purpose. The board in such ordinance shall state the nature of the tax to be imposed, shall provide the tax rate or rates or the maximum tax rate or rates and shall specify the purpose or purposes for which the revenue derived from the tax will be used. The board in such ordinance may provide for limitations upon the time when such tax shall be in effect. Any tax rate or maximum tax rate adopted pursuant to this article, unless otherwise prohibited, may be increased when authorized by the board by ordinance adopted in the manner and by the vote stated in this section and approved by the requisite number of votes required by the principal act of the rapid transit district to be cast by the qualified electors of the district voting at an election called for that purpose. Notwithstanding the provisions of this section, the tax rate of any transactions and use tax ordinance adopted pursuant to this part shall be the tax rate provided in Section 37021.

However, the tax rate imposed under such an ordinance shall be either one-fourth or one-half of 1 percent, whichever is authorized by the voters.

37022. Prior to the operative date of any ordinance imposing a transactions and use tax pursuant to this article, the rapid transit district shall contract with the State Board of Equalization to perform all functions incident to the adminis-

tration and operation of the ordinance. If the rapid transit district shall not have contracted with the State Board of Equalization prior to the operative date of its ordinance, it shall nevertheless so contract and in such case the operative date shall be the first day of the first calendar quarter following the execution of the contract.

CHAPTER 826

An act to add Sections 20023.2 and 31835.1 to the Government Code, relating to Public Employees' Retirement System.

[Approved by Governor September 29, 1971. Filed with Secretary of State September 29, 1971.]

The people of the State of California do enact as follows:

SECTION 1. Section 20023.2 is added to the Government Code, to read:

20023.2. Notwithstanding the provisions of Section 20023.1, if a member on deferred retirement from this system is eligible to retire for service at age 50 from a system established under the County Employees Retirement Law of 1937 and does so retire prior to the age of 55, at the time such member becomes entitled to retire under this system his retirement shall be deemed to be a concurrent retirement for purposes of computing final compensation under Section 20023.1.

SEC. 2. Section 31835.1 is added to the Government Code, to read:

31835.1. Notwithstanding the provisions of Sections 31835 and 31836, a member of a retirement system established under this chapter who is eligible to retire at age 50 pursuant to Section 31672, but who cannot retire concurrently from the Public Employees' Retirement System or a retirement system established under this chapter in another county, shall be entitled to have his final compensation and service determined under Sections 31835 and 31836 as if he had retired concurrently under such other system.

CHAPTER 827

An act to add Chapter 1.75 (commencing with Section 5097.9) of Division 5 of the Public Resources Code, relating to archaeological, paleontological, and historical resources.

[Approved by Governor October 1, 1971. Filed with Secretary of State October 1, 1971.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 1.75 (commencing with Section 5097.9) is added to Division 5 of the Public Resources Code, to read:

CHAPTER 1.75. ARCHAEOLOGICAL, PALEONTOLOGICAL,
AND HISTORICAL RESOURCES

5097.9. The Legislature hereby finds and declares that California's archaeological, paleontological, and historical heritage is fast disappearing as a result of public and private land development and that the state's total effort to preserve and salvage these precious resources is fragmented and uncoordinated.

5097.91. The Secretary of the Resources Agency shall establish a task force which shall conduct a study of the state's total effort to preserve and salvage the archaeological, paleontological, and historical resources of the state. The task force may develop a plan or recommend legislation for the preservation and salvage of the California archaeological, paleontological, and historical heritage. Such plan or proposed legislation shall be submitted to the Secretary of the Resources Agency who shall, thereafter, transmit a report including such plan or proposed legislation, together with his own recommendations, to the Legislature.

5097.92. The Secretary of the Resources Agency shall determine the number of members and composition of the task force. The members of the task force shall include, but not be limited to, representatives of public agencies, representatives of the scientific and scholastic community, one native California Indian resident from northern, central, and southern California, respectively, and public members with backgrounds in California archaeological, paleontological, and historical resources study and preservation.

5097.93. It is the intent of the Legislature that there shall be a moratorium on the disturbance of native California Indian burial sites abandoned less than 200 years until such time as the Legislature acts upon the report required to be transmitted to the Legislature by the Secretary of the Resources Agency pursuant to Section 5097.91. No state agency shall permit archaeological excavation in any native California Indian burial site abandoned less than 200 years during the period of such moratorium. For the purposes of this chapter, native California Indian burial sites are those areas where the preponderance of archaeological or historical evidence indicates that they were areas set aside for the repose of the human remains of a community of native California Indians.

5097.94. Notwithstanding Section 5097.3, the state agencies may authorize the disturbance of native California Indian burial sites abandoned less than 200 years for archaeological purposes where the area will be disturbed by an authorized public works project with the permission of the governing council of the Indian people concerned.

5097.95. The task force established pursuant to this chapter shall in the course of its study consult with representatives from the native California Indian communities in the various parts of the state.

5097.96. The plan or proposed legislation required to be developed pursuant to Section 5097.91 shall be submitted to the Secretary of the Resources Agency no later than December 31, 1972, on which date the task force established pursuant to this chapter shall be dissolved.

CHAPTER 828

An act to add Section 19553.3 to the Education Code, relating to state school building aid.

[Approved by Governor October 1, 1971. Filed with Secretary of State October 1, 1971.]

The people of the State of California do enact as follows:

SECTION 1. Section 19553.3 is added to the Education Code, to read:

19553.3. Notwithstanding any provision of this chapter to the contrary, the board shall review each application and shall take such action to insure that apportionments are not made that will provide for construction of permanent facilities to meet temporary peak enrollments at any site or at any grade level. In cases deemed by the board to be hardship cases involving high school or unified school districts where any such district will not be able to house high school students under basic area limitation formulas prescribed in this chapter, the board may make apportionments for high school facilities in excess of such limitations. In such event the board may provide for the construction of portable facilities at any particular site for which such apportionments are made, particularly where the board determines that there will be, within a six- to nine-year period immediately following the apportionment for facilities at such site, a diminution in enrollment at such site justifying relocation of facilities. In no event shall the board have any authority to make an apportionment for construction area at a high school attendance center which, when added to the area of adequate school construction at that center, would exceed the area permitted therefor by Sections 19586 and 19587.

CHAPTER 829

An act to amend Section 1825 of the Welfare and Institutions Code, relating to the Department of the Youth Authority.

[Approved by Governor October 1, 1971. Filed with Secretary of State October 1, 1971.]

The people of the State of California do enact as follows:

SECTION 1. Section 1825 of the Welfare and Institutions Code is amended to read:

1825. (a) No county shall be entitled to receive any state funds provided by this article until its application is approved and unless and until the minimum standards prescribed by the Department of the Youth Authority are complied with and then only on such terms as are set forth hereafter in this section.

(b) A commitment rate for each county and for the state as a whole shall be calculated by the Department of the Youth Authority by computing the ratio of new commitments to state and county population, expressed in a rate per 100,000 population, for each of the calendar years 1959 through 1963. The average of these rates for a county for the five-year period or the average of the last two years of the period, whichever is higher, shall be the base rate for that county; however, if the base rate is lower than 40 commitments per 100,000 population, the rate shall be established at 40, and if the rate is higher than 100, the rate shall be established at 100. The number of commitments shall be the total of the new commitments to the custody of the Director of the Youth Authority and the new criminal commitments to the custody of the Director of Corrections, as certified by the respective departments. The county and state population shall be that certified by the Department of Finance to the Controller as of July 1 of each year. Persons committed to the Department of Corrections and subsequently discharged under Section 1168 of the Penal Code and persons committed to the Department of Corrections or the Department of the Youth Authority for diagnostic study only pursuant to Section 1203.03 of the Penal Code or Section 704 or 1752.1 of the Welfare and Institutions Code, shall not be counted as having been committed for purposes of determining commitment rates under this subdivision or subdivision (c).

(c) An annual commitment rate shall be calculated at the end of each fiscal year for each participating county and for the state as a whole in a like manner to that described in subdivision (b) using the population figure of the July 1 included in the year.

(d) The maximum amount that may be paid to a county pursuant to this article is determined by obtaining the interpolated dollar amount in the table in this subdivision for such county's base commitment rate and its percentage decrease, interpolated to the nearest one-tenth of 1 percent, in rate of commitment and multiplying the appropriate dollar amount by the "commitment reduction number." The "commitment reduction number" is obtained by subtracting (1) the most recent annual commitment number from (2) the product of the base commitment rate and population of the county for the same year employed in (1). The Director of the Youth Authority, with approval of the Director of Finance may annually adjust the dollar amounts in the ensuing table to reflect changes in cost to the state of maintaining persons committed to the custody of the Director of Corrections and the Director

of the Youth Authority, and if such adjustments are made, the adjusted amounts shall be employed in making the computation prescribed by this subdivision.

(e) The state will reimburse the county upon presentation of a valid claim based on actual performance in reducing the commitment rate from its base rate. Whenever a claim made by a county, pursuant to this article, covering a prior fiscal year, is found to be in error, adjustment may be made on a current claim without the necessity of applying the adjustment to the allocation for the prior year.

(f) If the amount received by a county in reimbursement of its expenditures in a fiscal year is less than the maximum amount computed under subdivision (d), the difference may be used in the next succeeding fiscal year and may be paid to the county in quarterly installments during such fiscal year

upon preparation of valid claims for reimbursement of its quarterly expenses.

(g) In the event a participating county earns less than the sum paid in the previous year because of extremely unusual circumstances claimed by the county and verified by the Director of the Youth Authority with the approval of the Director of Finance, the Director of the Youth Authority may pay to the county a sum equal to the prior year's payment, provided, however, that in subsequent years the county will be paid only the amount earned.

(h) Funds obtained under this article shall not be used to support existing programs or develop or expand new programs in juvenile homes, ranches, or camps established under Article 15 (commencing with Section 880) of Chapter 2 of Part 1 of Division 2 of this code.

(i) Counties where the average number of commitments in the base period as established by subdivision (b) is less than 30 may elect either to comply with the procedure set out above or, as an alternative, to receive from the state 90 percent of the salary of one full-time additional probation officer or, in the event there are fewer than 20 persons placed on probation annually otherwise eligible for commitment to state institutions, the county would be entitled to 90 percent of the salary of a half-time officer. In the event a county chooses the alternative proposal, it will be eligible for reimbursement only so long as the officer devotes all of his time in the performance of probation services to supervision of persons eligible for state commitment and persons participating in special supervision programs and (1) if its base rate is below the state average, it does not on an annual basis exceed the base state rate, or (2) if its base rate is above the state average, it does not in the year exceed by 5 percent its own base rate.

SEC. 2. Section 1825 of the Welfare and Institutions Code is amended to read:

1825. (a) No county shall be entitled to receive any state funds provided by this article until its application is approved and unless and until the minimum standards prescribed by the Department of the Youth Authority are complied with and then only on such terms as are set forth hereafter in this section.

(b) A commitment rate for each county and for the state as a whole shall be calculated by the Department of the Youth Authority by computing the ratio of new commitments to state and county population, expressed in a rate per 100,000 population, for each of the calendar years 1959 through 1963. The average of these rates for a county for the five-year period or the average of the last two years of the period, whichever is higher, shall be the base rate for that county, however, if the base rate is lower than 40 commitments per 100,000 population, the rate shall be established at 40, and if the rate is higher than 100, the rate shall be established at 100. The number of commitments shall be the total of the

new commitments to the custody of the Director of the Youth Authority and the new criminal commitments to the custody of the Director of Corrections, as certified by the respective departments. The county and state population shall be that certified by the Department of Finance to the Controller as of July 1 of each year. Persons committed to the Department of Corrections and subsequently discharged under Section 1168 of the Penal Code and persons committed to the Department of Corrections or the Department of the Youth Authority for diagnostic study only pursuant to Section 1203.03 of the Penal Code or Section 704 or 1752.1 of the Welfare and Institutions Code, shall not be counted as having been committed for purposes of determining commitment rates under this subdivision or subdivision (c).

(c) An annual commitment rate shall be calculated at the end of each fiscal year for each participating county and for the state as a whole in a like manner to that described in subdivision (b) using the population figure of the July 1 included in the year.

(d) The maximum amount that may be paid to a county pursuant to this article is determined by obtaining the interpolated dollar amount in the table in this subdivision for such county's base commitment rate and its percentage decrease, interpolated to the nearest one-tenth of 1 percent, in rate of commitment and multiplying the appropriate dollar amount by the "commitment reduction number." The "commitment reduction number" is obtained by subtracting (1) the most recent annual commitment number from (2) the product of the base commitment rate and population of the county for the same year employed in (1). (e) The state will reimburse the county upon presentation of a valid claim based on actual performance in reducing the commitment rate from its base rate. Whenever a claim made by a county, pursuant to this article, covering a prior fiscal year, is found to be in error, adjustment may be made on a current claim without the necessity of applying the adjustment to the allocation for the prior year.

(f) If the amount received by a county in reimbursement of its expenditures in a fiscal year is less than the maximum amount computed under subdivision (d), the difference may be used in the next two succeeding fiscal years and may be paid to the county in quarterly installments during such fiscal years upon preparation of valid claims for reimbursement of its quarterly expenses.

(g) In the event a participating county earns less than the sum paid in the previous year because of extremely unusual circumstances claimed by the county and verified by the Director of the Youth Authority with the approval of the Director of Finance, the Director of the Youth Authority may pay to the county a sum equal to the prior year's payment, provided, however, that in subsequent years the county will be paid only the amount earned.

(h) Funds obtained under this article shall not be used to support existing programs or develop or expand new programs in juvenile homes, ranches, or camps established under Article 15 (commencing with Section 880) of Chapter 2 of Part 1 of Division 2 of this code.

(i) Counties where the average number of commitments in the base period as established by subdivision (b) is less than

30 may elect either to comply with the procedure set out above or, as an alternative, to receive from the state 90 percent of the salary of one full-time additional probation officer or, in the event there are fewer than 20 persons placed on probation annually otherwise eligible for commitment to state institutions, the county would be entitled to 90 percent of the salary of a half-time officer. In the event a county chooses the alternative proposal, it will be eligible for reimbursement only so long as the officer devotes all of his time in the performance of probation services to supervision of persons eligible for state commitment and persons participating in special supervision programs and (1) if its base rate is below the state average, it does not on an annual basis exceed the base state rate, or (2) if its base rate is above the state average, it does not in the year exceed by 5 percent its own base rate.

SEC. 2.5. Section 1825 of the Welfare and Institutions Code is amended to read:

1825. (a) No county shall be entitled to receive any state funds provided by this article until its application is approved and unless and until the minimum standards prescribed by the Department of the Youth Authority are complied with and then only on such terms as are set forth hereafter in this section.

(b) A commitment rate for each county and for the state as a whole shall be calculated by the Department of the Youth Authority by computing the ratio of new commitments to state and county population, expressed in a rate per hundred thousand population, for each of the calendar years 1959 through 1963. The average of these rates for a county for the five-year period or the average of the last two years of the period, whichever is higher, shall be the base rate for that county; however, if the base rate is lower than 40 commitments per 100,000 population, the rate shall be established at 40, and if the rate is higher than 100, the rate shall be established at 100. The number of commitments shall be the total of the new commitments to the custody of the Director of the Youth Authority and the new criminal commitments to the custody of the Director of Corrections, as certified by the respective departments. The county and state population shall be that certified by the Department of Finance to the Controller as of July 1 of each year. Persons committed to the Department of Corrections and subsequently discharged under Section 1168 of the Penal Code and persons committed to the Department of Corrections, or the Department of the Youth Authority for diagnostic study only pursuant to Section 1203.03 of the Penal Code or Section 704 or 1752.1 of the Welfare and Institutions Code, shall not be counted as having been committed for purposes of determining commitment rates under this subdivision or subdivision (c).

(c) An annual commitment rate shall be calculated at the end of each fiscal year for each participating county and for the state as a whole in a like manner to that described in sub-

division (b) using the population figure of the July 1 included in the year.

(d) The maximum amount that may be paid to a county pursuant to this article is determined by obtaining the interpolated dollar amount in the table in this subdivision for such county's base commitment rate and its percentage decrease, interpolated to the nearest one-tenth of 1 percent, in rate of commitment and multiplying the appropriate dollar amount by the "commitment reduction number." The "commitment reduction number" is obtained by subtracting (1) the most recent annual commitment number from (2) the product of the base commitment rate and population of the county for the same year employed in (1). The Director of the Youth Authority and the Director of Finance shall annually adjust the dollar amounts in the ensuing table to reflect a percentage increase in the per capita subsidy equal to the percentage increase in the California Consumer Price Index as of December of the current fiscal year over such index as of December of the preceding fiscal year. The adjustment of the per capita subsidy for the 1971-72 fiscal year shall reflect the percentage by which such index number for December 1970 exceeds the index number for December 1965. When such adjustments are made, the adjusted amounts shall be employed in making the computation prescribed by this subdivision.

SEC. 4. It is the intent of the Legislature that if this bill and Senate Bill No. 354 or Assembly Bill No. 92, or both, are chaptered and amend Section 1825 of the Welfare and Institutions Code, and this bill is chaptered last, that amendments

proposed by each of the bills which are chaptered be given effect as follows:

(a) If this bill and Senate Bill No. 354 are both chaptered and amend Section 1825 of the Welfare and Institutions Code, but Assembly Bill No. 92 is not chaptered or as chaptered does not amend that section, and this bill is chaptered after Senate Bill No. 354, Section 1825 of the Welfare and Institutions Code as amended by Section 1 of Senate Bill No. 354 shall be further amended on the operative date of this act in the form set forth in Section 2 of this act to incorporate the changes in Section 1825 proposed by this bill. Therefore, if Senate Bill No. 354 is chaptered before this bill and both bills amend Section 1825, and Assembly Bill No. 92 is not chaptered or as chaptered does not amend that section, Section 2 of this act shall become operative on the operative date of this act, and Sections 1, 2.5, and 2.6 of this act shall not become operative.

(b) If this bill and Assembly Bill No. 92 are both chaptered and amend Section 1825 of the Welfare and Institutions Code, but Senate Bill No. 354 is not chaptered or as chaptered does not amend that section, and this bill is chaptered after Assembly Bill No. 92, Section 1825 of the Welfare and Institutions Code as amended by Section 1 of Assembly Bill No. 92 shall be further amended on the operative date of this act in the form set forth in Section 2.5 of this act to incorporate the changes in Section 1825 proposed by this bill. Therefore, if Senate Bill No. 354 and Assembly Bill No. 92 are both chaptered before this bill and all three bills amend Section 1825 of the Welfare and Institutions Code, Section 2.6 of this act shall become operative on the operative date of this act, and Sections 1, 2, and 2.5 of this act shall not become operative.

CHAPTER 83C

An act to amend Section 1825 of the Welfare and Institutions Code, relating to the Department of the Youth Authority.

[Approved by Governor October 1, 1971. Filed with Secretary of State October 1, 1971.]

The people of the State of California do enact as follows:

SECTION 1. Section 1825 of the Welfare and Institutions Code is amended to read:

1825. (a) No county shall be entitled to receive any state funds provided by this article until its application is approved and unless and until the minimum standards prescribed by the Department of the Youth Authority are complied with and then only on such terms as are set forth hereafter in this section.

(b) A commitment rate for each county and for the state as a whole shall be calculated by the Department of the Youth Authority by computing the ratio of new commitments to state and county population, expressed in a rate per 100,000 population, for each of the calendar years 1959 through 1963. The average of these rates for a county for the five-year period or the average of the last two years of the period, whichever is higher, shall be the base rate for that county. The number of commitments shall be the total of the new commitments to the custody of the Director of the Youth Authority and the new criminal commitments to the custody of the Director of Corrections, as certified by the respective departments. The county and state population shall be that certified by the Department of Finance to the Controller as of July 1 of each year. Persons committed to the Department of Corrections and subsequently discharged under Section 1168 of the Penal Code and persons committed to the Department of Corrections or the Department of the Youth Authority for diagnostic study only pursuant to Section 1203.03 of the Penal Code or Section 704 or 1752.1 of the Welfare and Institutions Code, shall not be counted as having been committed for purposes of determining commitment rates under this subdivision or subdivision (c).

(c) An annual commitment rate shall be calculated at the end of each fiscal year for each participating county and for the state as a whole in a like manner to that described in subdivision (b) using the population figure of the July 1 included in the year.

(d) The maximum amount that may be paid to a county pursuant to this article is determined by obtaining the interpolated dollar amount in the table in this subdivision for such county's base commitment rate and its percentage decrease, interpolated to the nearest one-tenth of 1 percent, in rate of

commitment and multiplying the appropriate dollar amount by the "commitment reduction number." The "commitment reduction number" is obtained by subtracting (1) the most recent annual commitment number from (2) the product of the base commitment rate and population of the county for the same year employed in (1). The Director of the Youth Authority, with approval of the Director of Finance may annually adjust the dollar amounts in the ensuing table to reflect changes in cost to the state of maintaining persons committed to the custody of the Director of Corrections and the Director of the Youth Authority, and if such adjustments are made, the adjusted amounts shall be employed in making the computation prescribed by this subdivision.

(e) The state will reimburse the county upon presentation of a valid claim based on actual performance in reducing the

commitment rate from its base rate. Whenever a claim made by a county, pursuant to this article, covering a prior fiscal year, is found to be in error, adjustment may be made on a current claim without the necessity of applying the adjustment to the allocation for the prior year.

(f) If the amount received by a county in reimbursement of its expenditures in a fiscal year is less than the maximum amount computed under subdivision (d), the difference may be used in the next two succeeding fiscal years and may be paid to the county in quarterly installments during such fiscal years upon preparation of valid claims for reimbursement of its quarterly expenses.

(g) In the event a participating county earns less than the sum paid in the previous year because of extremely unusual circumstances claimed by the county and verified by the Director of the Youth Authority with the approval of the Director of Finance, the Director of the Youth Authority may pay to the county a sum equal to the prior year's payment, provided, however, that in subsequent years the county will be paid only the amount earned.

(h) Funds obtained under this article shall not be used to support existing programs or develop or expand new programs in juvenile homes, ranches, or camps established under Article 15 (commencing with Section 880) of Chapter 2 of Part 1 of Division 2 of this code.

(i) Counties where the average number of commitments in the base period as established by subdivision (b) is less than 30 may elect either to comply with the procedure set out above or, as an alternative, to receive from the state 90 percent of the salary of one full-time additional probation officer or, in the event there are fewer than 20 persons placed on probation annually otherwise eligible for commitment to state institutions, the county would be entitled to 90 percent of the salary of a half-time officer. In the event a county chooses the alternative proposal, it will be eligible for reimbursement only so long as the officer devotes all of his time in the performance of probation services to supervision of persons eligible for state commitment and persons participating in special supervision programs and (1) if its base rate is below the state average, it does not on an annual basis exceed the base state rate, or (2) if its base rate is above the state average, it does not in the year exceed by 5 percent its own base rate.

SEC. 2. Section 1825 of the Welfare and Institutions Code is amended to read:

1825. (a) No county shall be entitled to receive any state funds provided by this article until its application is approved and unless and until the minimum standards prescribed by the Department of the Youth Authority are complied with and then only on such terms as are set forth hereafter in this section.

(b) A commitment rate for each county and for the state as a whole shall be calculated by the Department of the Youth Authority by computing the ratio of new commitments to state and county population, expressed in a rate per 100,000 population, for each of the calendar years 1959 through 1963. The average of these rates for a county for the five-year period or the average of the last two years of the period, whichever is higher, shall be the base rate for that county, however, if the base rate is lower than 40 commitments per 100,000 population, the rate shall be established at 40, and if the rate is higher than 100, the rate shall be established at 100. The number of commitments shall be the total of the new commitments to the custody of the Director of the Youth Authority and the new criminal commitments to the custody of the Director of Corrections, as certified by the respective departments. The county and state population shall be that certified by the Department of Finance to the Controller as of July 1 of each year. Persons committed to the Department of Corrections and subsequently discharged under Section 1168 of the Penal Code and persons committed to the Department of Corrections or the Department of the Youth Authority for diagnostic study only pursuant to Section 1203.03 of the Penal Code or Section 704 or 1752.1 of the Welfare and Institutions Code, shall not be counted as having been committed for purposes of determining commitment rates under this subdivision or subdivision (c).

(c) An annual commitment rate shall be calculated at the end of each fiscal year for each participating county and for the state as a whole in a like manner to that described in subdivision (b) using the population figure of the July 1 included in the year.

(d) The maximum amount that may be paid to a county pursuant to this article is determined by obtaining the interpolated dollar amount in the table in this subdivision for such county's base commitment rate and its percentage decrease, interpolated to the nearest one-tenth of 1 percent, in rate of commitment and multiplying the appropriate dollar amount by the "commitment reduction number." The "commitment reduction number" is obtained by subtracting (1) the most recent annual commitment number from (2) the product of the base commitment rate and population of the county for the same year employed in (1). The Director of the Youth Authority, with approval of the Director of Finance may annually adjust the dollar amounts in the ensuing table to reflect changes in cost to the state of maintaining persons committed to the custody of the Director of Corrections and the Director of the Youth Authority, and if such adjustments are made, the adjusted amounts shall be employed in making the computation prescribed by this subdivision.

(e) The state will reimburse the county upon presentation of a valid claim based on actual performance in reducing the commitment rate from its base rate. Whenever a claim made by a county, pursuant to this article, covering a prior fiscal year, is found to be in error, adjustment may be made on a current claim without the necessity of applying the adjustment to the allocation for the prior year.

(f) If the amount received by a county in reimbursement of its expenditures in a fiscal year is less than the maximum amount computed under subdivision (d), the difference may be used in the next two succeeding fiscal years and may be paid to the county in quarterly installments during such fiscal years upon preparation of valid claims for reimbursement of its quarterly expenses.

(g) In the event a participating county earns less than the sum paid in the previous year because of extremely unusual circumstances claimed by the county and verified by the

Director of the Youth Authority with the approval of the Director of Finance, the Director of the Youth Authority may pay to the county a sum equal to the prior year's payment, provided, however, that in subsequent years the county will be paid only the amount earned.

(h) Funds obtained under this article shall not be used to support existing programs or develop or expand new programs in juvenile homes, ranches, or camps established under Article 15 (commencing with Section 880) of Chapter 2 of Part 1 of Division 2 of this code.

(i) Counties where the average number of commitments in the base period as established by subdivision (b) is less than 30 may elect either to comply with the procedure set out above or, as an alternative, to receive from the state 90 percent of the salary of one full-time additional probation officer or, in the event there are fewer than 20 persons placed on probation annually otherwise eligible for commitment to state institutions, the county would be entitled to 90 percent of the salary of a half-time officer. SEC. 2.5. Section 1825 of the Welfare and Institutions Code is amended to read:

1825. (a) No county shall be entitled to receive any state funds provided by this article until its application is approved and unless and until the minimum standards prescribed by the Department of the Youth Authority are complied with and then only on such terms as are set forth hereafter in this section.

(b) A commitment rate for each county and for the state as a whole shall be calculated by the Department of the Youth Authority by computing the ratio of new commitments to state and county population, expressed in a rate per hundred thousand population, for each of the calendar years 1959 through 1963. The average of these rates for a county for the five-year period or the average of the last two years of the period, whichever is higher, shall be the base rate for that county. The number of commitments shall be the total of the new commitments to the custody of the Director of the Youth Authority and the new criminal commitments to the custody of the Director of Corrections, as certified by the respective departments. The county and state population shall be that certified by the Department of Finance to the Controller as of July 1 of each year. Persons committed to the Department of Corrections and subsequently discharged under Section 1168 of the Penal Code and persons committed to the Department of

Corrections, or the Department of the Youth Authority for diagnostic study only pursuant to Section 1203.03 of the Penal Code or Section 704 or 1752.1 of the Welfare and Institutions Code, shall not be counted as having been committed for purposes of determining commitment rates under this subdivision or subdivision (c).

(c) An annual commitment rate shall be calculated at the end of each fiscal year for each participating county and for the state as a whole in a like manner to that described in subdivision (b) using the population figure of the July 1 included in the year.

(d) The maximum amount that may be paid to a county pursuant to this article is determined by obtaining the interpolated dollar amount in the table in this subdivision for such county's base commitment rate and its percentage decrease, interpolated to the nearest one-tenth of 1 percent, in rate of commitment and multiplying the appropriate dollar amount by the "commitment reduction number." The "commitment reduction number" is obtained by subtracting (1) the most recent annual commitment number from (2) the product of the base commitment rate and population of the county for the same year employed in (1). The Director of the Youth Authority and the Director of Finance shall annually adjust the dollar amounts in the ensuing table to reflect a percentage increase in the per capita subsidy equal to the percentage increase in the California Consumer Price Index as of December of the current fiscal year over such index as of December of the preceding fiscal year. The adjustment of the per capita subsidy for the 1971-72 fiscal year shall reflect the percentage by which such index number for December 1970 exceeds the index number for December 1965. When such adjustments are made, the adjusted amounts shall be employed in making the computation prescribed by this subdivision.

A county receiving funds under this article shall submit a report showing the manner in which such funds were expended, after the completion of each fiscal year.

SEC. 2.6. Section 1825 of the Welfare and Institutions Code is amended to read:

1825. (a) No county shall be entitled to receive any state funds provided by this article until its application is approved and unless and until the minimum standards prescribed by the Department of the Youth Authority are complied with and then only on such terms as are set forth hereafter in this section.

(b) A commitment rate for each county and for the state as a whole shall be calculated by the Department of the Youth Authority by computing the ratio of new commitments to state and county population, expressed in a rate per hundred thousand population, for each of the calendar years 1959 through 1963. (c) An annual commitment rate shall be calculated at the end of each fiscal year for each participating county and for the state as a whole in a like manner to that described in sub-

division (b) using the population figure of the July 1 included in the year.

The adjustment of the per capita subsidy for the 1971-72 fiscal year shall reflect the percentage by which such index number for December 1970 exceeds the index number for December 1965. When such adjustments are made, the adjusted amounts shall be employed in making the computation prescribed by this subdivision.

CHAPTER 833

An act to add Chapter 10 (commencing with Section 3480) to Division 4 of the Health and Safety Code, relating to immunization against communicable diseases.

[Approved by Governor October 1, 1971. Filed with Secretary of State October 1, 1971.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 10 (commencing with Section 3480) is added to Division 4 of the Health and Safety Code, to read:

CHAPTER 10. IMMUNIZATION AGAINST
COMMUNICABLE DISEASES

3480. In enacting this chapter, it is the intent of the Legislature to provide:

(a) A means for the eventual achievement of total immunization in appropriate age groups against diphtheria, pertussis (whooping cough), and tetanus.

(b) That the persons required to be immunized be allowed to obtain immunization from whatever medical source they so desire.

(c) Exemptions from immunizations under specified conditions.

(d) For the keeping of adequate records of immunization so that appropriate public agencies and the persons immunized will be able to ascertain that a person is fully or only partially immunized.

3481. No person 18 years of age or under or, in the case of pertussis (whooping cough), six years of age or under, may be unconditionally admitted as a pupil of a private or public child care center, day nursery, nursery school, or elementary or secondary school unless prior to his first admission to school in California he has been immunized against such communicable diseases listed in subdivision (a) of Section 3480.

3482. A person who has not received any of the required immunizations may be admitted on condition that within two weeks of the date of his admission he shall present evidence that he has begun the required immunizations and shall thereafter within a period designated by regulation of the board present evidence that he has been fully immunized against those communicable diseases for which immunization is required.

3483. Such immunization shall be evidenced by a written record made on a form prescribed by the board. A copy of the record shall be given to the parent or guardian of the child, or if the person receiving immunization is an adult, the copy shall be given to him.

3484. Immunization performed by a private physician shall be acceptable for admission to school if the immunization is performed and records are made in accordance with rules established by the board.

3485. If the parent or guardian (in the case of a minor) or the person seeking admission (if an adult) files with the governing board of the school district or the governing authority of the private school a written statement by a licensed physician to the effect that the physical condition of the child or adult is such, or medical circumstances relating to the child or adult are such that immunization is not considered safe, indicating the specific nature and probable duration of the

medical condition or circumstances which contraindicate immunization, such person shall be exempt from the requirements of this chapter to the extent indicated by the physician's statement.

3486. Immunization of a person shall not be required for admission to a private or public child care center, day nursery, nursery school, or elementary or secondary school if the parent or guardian or responsible relative or adult who has assumed responsibility for his care and custody (in the case of a minor), files with the governing board of the school district or the governing authority of the private school, or the governing authority of the private or public child care center, day nursery, or nursery school, as the case may be, a letter or affidavit provided by the district or authority, stating that such immunization is contrary to his or her beliefs. However, whenever there is good cause to believe that a person is suffering from the communicable diseases listed in subdivision (a) of Section 3480, the person may be temporarily excluded from the school, child care center, day nursery, or nursery school, until the governing board of the school district or the governing authority of the private school, or the governing authority of the private or public child care center, day nursery, or nursery school, is satisfied that the disease does not exist.

3487. The county health officer of each county shall organize and maintain an immunization program so that immunizations are made available to all persons required by this chapter to be immunized. He shall also determine how the cost of such a program is to be recovered. To the extent that the cost to the county is in excess of that sum recovered from persons immunized, the remainder of the cost shall be paid by the county in the same manner as other expenses of the county are paid.

3488. The governing board of each school district and the governing authority of each private school, or the governing authority of the private or public child care center, day nursery, or nursery school shall cooperate with the county health officer in carrying out the program for immunization of persons applying for admission to any school, child care center, day nursery, or nursery school, under its jurisdiction. The governing board of any school district may use any funds, property, and personnel of the district for that purpose. The governing board of any school district and the governing authority of any private school, or the governing authority of any private or public child care center, day nursery, or nursery school, may permit any person licensed as a physician and surgeon to administer immunization agents to the children and adults seeking admission to any school under its jurisdiction.

3489. The board shall adopt and enforce all rules and regulations necessary to carry out the provisions of this chapter.

(a) "Regents" means the Regents of the University of California.

(b) "Trustees" means the Trustees of the California State Colleges.

(c) "Grantee" means a governmental entity heretofore granted tidelands or submerged lands by the state, in trust.

(d) "Joint Exercise of Powers Act" means Chapter 5 (commencing with Section 6500) of Division 7 of Title 1 of the Government Code.

SEC. 2. Any grantee of tidelands or submerged lands heretofore granted by the state in trust may, notwithstanding the particular uses specified and authorized by such grant, lease a portion of its granted tidelands or submerged lands to the regents or to the trustees for educational uses consistent with navigation, commerce, and fisheries, including, but not limited

to, the construction, development, and operation of colleges, institutes, and related facilities for the study and teaching of the oceanographic, marine, and maritime sciences. Such uses are declared to be matters of state, as distinguished from local, interest and benefit. The maximum allowable term of any such lease shall not exceed the maximum authorized under the applicable grant or such maximum term as is otherwise imposed by applicable state law or charter provision. All moneys or things of value, up to a value of not to exceed fifty thousand dollars (\$50,000), received as consideration for such lease shall be held, received, and administered by the grantee as assets of the trust pursuant to which the grantee holds the tidelands and submerged lands proposed for lease. Amounts so received of a cumulative value of over fifty thousand dollars (\$50,000) shall be transmitted to the state for deposit in the General Fund.

SEC. 3. (a) Upon request of the regents or the trustees, a grantee of tidelands or submerged lands heretofore granted by the state in trust may, subject to the provisions of this section, grant or quitclaim a portion of its granted tidelands or submerged lands to the regents or the trustees for use for educational facilities, including university or college administrative facilities, irrespective of whether or not such educational or administrative facilities relate to navigation, commerce, and fisheries. The request shall contain a legal description of the subject lands and shall incorporate both a map based upon a recent and competent survey of the lands to be conveyed, and a drawing which reasonably represents the relationship of the subject lands to surrounding tidelands and submerged lands and to nearby facilities.

(b) The regents and the trustees are authorized to accept the conveyance of the subject lands in accordance with the general laws and procedures governing the acceptance of land and of interests in land by the regents or the trustees, respectively.

(c) No conveyance may be made pursuant to this section or be effective unless:

(1) The grantee shall make a finding that the subject lands are no longer needed or required for purposes of navigation, commerce, and fisheries or the trust under which such lands were granted, should be freed of the public trust for navigation, commerce, and fisheries, and that the proposed conveyance is in the best interests of the people of the state.

(2) The findings of the grantee, together with its statement of the basis for such findings and a copy of the request submitted by the regents or the trustees, shall be transmitted to the State Lands Commission.

(3) The State Lands Commission shall likewise, upon investigation and review of the subject lands and adjacent tidelands and submerged lands and facilities, find that the subject lands are not needed or required for purposes of navigation, commerce, or fisheries or for the purposes of the statutory trust upon which such lands were granted, should be freed of the

public trust for navigation, commerce, and fisheries, and such statutory trust, and that the proposed conveyance is in the best interests of the people of the state.

(d) Upon execution of the approved conveyance by the grantee and the state, and its recordation, the subject lands shall be free of the public trust for navigation, commerce, and fisheries, and of such other conditions of trust as are specified by the grant pursuant to which grantee held such lands, subject to such conditions as are specified in the conveyance and subject to the conditions hereinafter set forth.

(e) Any deed tendered and accepted as described above may be conditioned upon the requirement that the subject lands be used by the regents or the trustees for stated purposes consistent with subdivision (a) and, if such conditions are violated, that title to the subject lands shall revert to and vest in the grantee, or its successor in interest, subject again to the terms and provisions of the trust upon which the grantee held the lands prior to the conveyance, as the trust may in the interim have been amended.

(f) Any deed tendered and accepted as described above may reserve to the grantee all rights and interests in and to all minerals in and under the subject lands. Grantee need not reserve any corresponding right to use or enter upon or in the subsurface and surface of the subject lands lying above a plane 500 feet below the present surface of such lands if the grantee and the State Lands Commission have found that the production of minerals by grantee would not require the exercise of such right of use or entry.

(g) Lands and interests in lands acquired by the regents or the trustees pursuant to this section, and improvements constructed thereon, may be leased by the regents or the trustees, as the case may be, to an agency or entity created pursuant to the Joint Exercise of Powers Act for the purpose of constructing improvements, such lands or interests in lands to be leased back to the regents or the trustees respectively and, if their agreement so specifies, to such other governmental entity as is a participant with the regents or the trustees respectively in the formation of the joint exercise of powers agency or entity. Lease payments by the regents or the trustees respectively and lease payments, if any, by the other participating governmental entity, payable to the joint powers agency or entity shall be devoted to the repayment of the capital, administrative, and other expenses and obligations authorized by the Joint Exercise of Powers Act, including bonds and the interest thereon, of the joint powers agency or entity. Any subtenant of the regents, the trustees, or of the other participating governmental entity shall pay fair market value for the rights of occupation so allowed.

(h) Any land which, pursuant to this section, is conveyed by a grantee to the regents or trustees for the uses specified in subdivision (a) shall be deemed to be devoted to a statewide public purpose.

A like election shall be held on the date of each succeeding presidential primary election unless an election had been held during the preceding calendar year. Like elections may be held in such territory at any time in odd-numbered years, and on the date of each gubernatorial primary election. Such like elections shall be called upon order of the county committee on school

On and after the effective date of this section, as enacted at the 1967 Regular Session of the Legislature, this section shall supersede the provisions of Section 3100.5 and all other provisions of Chapter 143 of the Statutes of 1967.

With the approval of the State Board of Education, any school district territory in which, after June 1, 1964, and prior to July 1, 1971, two unification elections were conducted pursuant to this section within a 12-month period, both of which elections were defeated, shall be exempt from the mandatory election provisions of this section.

The county superintendent of schools or his designee from his office shall serve as the chairman of the panel.

Any vacancies on the panel shall be filled by the appropriate appointing authority in the manner specified in this section.

SEC. 3. Section 13247 of the Education Code is amended to read:

13247. The criteria for the selection of certified master teachers shall be established by the panel and shall require at least:

Each master teacher selection panel shall receive applications, to be filed by March 1 of the school year, from public school teachers, submitted in the form prescribed by the panel and accompanied by a one-hundred-dollar (\$100) fee, requesting that the applicant be certified as a certified master teacher.

SEC. 5. Section 13247.9 of the Education Code is amended to read:

13247.9. The master teacher selection panel shall appoint for each applicant for a master certificate not less than two, nor more than three, certificated employees from a school district other than the participating school district and who spend at least four-fifths of their teaching time in a classroom, who shall inquire into the professional competence of the applicant. The appointed certificated employees need not be residents of the county in which the participating school district is located. These appointed certificated employees shall be known as examiner teachers and shall be appointed by April 1 of the school year.

The examiner teachers shall sign affidavits stating that they have no specific knowledge of the applicant for certification as master teachers, either personally or professionally.

The examiner teachers shall make a written report on the applicant's professional competence to the county superintendent of schools and the master teacher selection panel not later than June 1st of the school year.

The examiner teachers shall talk with other teachers in the school where the applicant is employed, other teachers in the school district, the principal of the school where the applicant is employed, and other administrators, parents, and students who may have specific knowledge of the applicant's professional qualities. The examiner teacher shall also consider evidence of relative gains made by pupils taught by the applicant, as measured by standardized tests.

[Approved by Governor October 5, 1971. Filed with Secretary of State October 5, 1971.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 7 (commencing with Section 32100) is added to Division 22 of the Education Code, to read:

CHAPTER 7. CONTINUOUS SCHOOL PROGRAMS

Article 1. General Provisions

32100. It is the intent and purpose of the Legislature in enacting this chapter to authorize public school districts of any type or class to establish, maintain, and operate their educational program under a continuous school program, to be conducted throughout the entire school year.

The Legislature is especially concerned and aware of the mounting costs of acquisition and construction of school sites and facilities, and is, therefore, desirous of providing a procedure whereby those fiscal burdens may be reduced by increased utilization of existing plants and facilities.

The Legislature is also interested in providing for the replacement of the present system of lengthy summer vacations

with shorter periodic vacation periods, which will result in a reduction of the student's summer vacation "learning loss."

32101. The provisions of this chapter shall become operative on July 1, 1973.

Article 2. Establishment and Maintenance of the Continuous School Program

32110. The governing board of any school district may establish and operate in one or more of the schools within the district, or in all schools within the district, a continuous school program pursuant to the provisions of this chapter.

32111. The governing board of any school district operating pursuant to the provisions of this chapter shall divide the students of each selected school into four groups. Students of the same family shall be placed in the same group unless one or more of such students is enrolled in a special education class or unless the parent or guardian of such students requests that the students be placed in different groups.

32112. The governing board of any school district operating pursuant to the provisions of this chapter shall establish a school calendar whereby each of the four groups of pupils will attend school all year around in rotating shifts of four approximately 45 class-day sessions, with approximately 15 class-day vacations interspaced between the four sessions.

32113. Each selected school shall be closed for all students and employees on regular school holidays specified in Article 3 (commencing with Section 5201) of Chapter 2 of Division 6.

32114. The sessions and vacations required by Section 32112 shall be established without reference to the school year as defined in Section 5101. The schools and classes shall be conducted for a total of no fewer than 175 days during the academic year.

Article 3. Elements of the Continuous School Program

32120. The provisions of Chapter 6 (commencing with Section 12101) of Division 9, and all other laws relating to compulsory full-time education and the enrollment and attendance of pupils in the kindergarten, elementary, and secondary grades shall be applicable with respect to the regular school-days prescribed for the entire academic year established for the school at which a program pursuant to this chapter is conducted, and to the attendance area established for such school.

32121. The courses of instruction offered at a school maintained pursuant to this chapter shall meet all applicable requirements of law, including the requirements prescribed by or pursuant to Chapter 3 (commencing with Section 8501) of Division 7 relating to physical education. For such purposes the instructional program shall be designed to provide at least the overall equivalent in instruction in each course of study required by law to be provided in kindergarten and grades 1

to 12, inclusive, upon a pupil's completion of the work prescribed for any particular grade.

32122. The governing board of any school district operating the continuous school program pursuant to this chapter shall prescribe a separate salary schedule for the certificated and classified employees of the district who are employed at any school maintaining the continuous school program pursuant to this chapter, and who, because of such employment, will be engaged in rendering services for the district for a greater number of total days during the academic year than would be the case for a regular academic year.

Article 4. Financial Support

32130. Each school district maintaining a continuous school program in any school within the district pursuant to this chapter shall be entitled to receive the same support, but not more support, from the State School Fund due to the average daily attendance at such school that it would have received if the school had been operating under the provisions of law relating to the regular school year, including summer school.

32131. The Superintendent of Public Instruction shall prescribe an appropriate procedure for the computation of allowances, apportionments, and disbursements from the State School Fund which are to be made to any school district maintaining a continuous school program pursuant to this chapter for any one or more of the purposes specified in Sections 17303 and 17303.5 for the average daily attendance at any school operating such a program.

32132. The allowances, disbursements, and apportionments under this article shall be made with respect to any school district maintaining a continuous school program pursuant to this chapter in accordance with the provisions of Chapter 2 (commencing with Section 17300) and Chapter 3 (commencing with Section 17601) of Division 14, to the extent possible.

32133. The Superintendent of Public Instruction may provide for the actual disbursement of the apportionments to the school district maintaining the continuous school program pursuant to this chapter at times other than as specified in Article 3 (commencing with Section 17401) of Chapter 2 of Division 14. In no event, however, shall the school district receive apportionments in a total amount in excess of the amount determined pursuant to this article.

(a) Admission of a minor to a special educational program for the mentally retarded established under the provisions of Sections 6901 to 6913, inclusive, and in Sections 895 to 895.7, inclusive, shall be made only on the basis of an individual evaluation according to standards established by the State Board of Education and upon individual recommendation of a local admission committee which shall include an administrator in charge of special education programs in the district or county or other administrator designated by the school district or county superintendent of schools, an experienced special education teacher, a school nurse, and a school psychologist or other pupil personnel worker authorized to serve as a school psychologist who has examined the child under consideration for eligibility and placement.

Whenever possible, the persons serving on the admission committee for mentally retarded minors may also serve on the admission committee for educationally handicapped minors.

The admission committee shall use such medical reports as are needed to properly evaluate the child. The admission committee shall have the services or presence of other pupil personnel workers, educational specialists, school nurses, social workers, or physicians as the committee may require and request. Such recommendation shall include a statement that in the professional judgment of the members of the admission committee the minor recommended for placement in any program for the mentally retarded can reasonably be expected to benefit from such placement. Any member of the local admission committee dissenting from the final committee recommendation shall attach to the final recommendation a statement of reasons for such objection.

(b) The administrative head of a school district or office of the county superintendent of schools may make an interim placement of a pupil in a program for the mentally retarded for a period not to exceed 30 schooldays whenever a pupil transfers into the school district from another school district in which his last enrollment was in a program for mentally retarded minors. Such an interim placement may be made without the complete documentation specified in subdivision (a). Before the expiration of the 30-day period such interim placement shall be reviewed by the admission committee and a final recommendation shall be made by the committee in accord with the requirements of this chapter. The committee may utilize information, records, and reports from the admission committee proceedings of the school district or county program from which the pupil transferred.

6902.3. The maximum enrollment of pupils enrolled in special day classes as defined by subdivision (a) of Section 6902.2 shall be 18 pupils except that when the chronological age span is more than four years the appropriate maximum enrollment shall be 15 pupils.

The Superintendent of Public Instruction may waive the maximum class size standards prescribed by this section whenever it approves a project submitted by a school district or county superintendent of schools to conduct experimental studies to determine the proper class size standards.

If after the beginning of the school year it is determined that classes are at maximum size, that additional pupils will be without schooling unless additional classes are established, and that additional qualified teachers are not available for employment, a school district or a county superintendent of schools may, on forms provided for this purpose by the Department of Education, request permission of the Superintendent of Public Instruction to exceed the maximum class size for all or a part of the remainder of the school year. The Superintendent of Public Instruction may approve such request for all or a part of the remainder of the school year, provided the maximum size is not increased by more than two pupils above the maximum enrollment specified.

SEC. 3. Section 6903.2 of the Education Code is amended to read:

6903.2. The maximum enrollment of pupils in a special day class (as defined by Section 6903.1) shall be 12 pupils.

The Superintendent of Public Instruction may waive the maximum class size standards prescribed by this section whenever he approves a project submitted by a school district or county superintendent of schools to conduct experimental studies to determine the proper class size standards.

If after the beginning of the school year it is determined that classes are at maximum size, that additional pupils will be without schooling unless additional classes are established, and that additional qualified teachers are not available for employment, a school district or a county superintendent of schools may, on forms provided for this purpose by the Department of Education, request permission of the Superintendent of Public Instruction to exceed the maximum class size for all or a part of the remainder of the school year. CHAPTER 909

An act to add Division 9 (commencing with Section 16000) to the Water Code, relating to sewage services.

[Approved by Governor October 5, 1971 Filed with
Secretary of State October 5, 1971]

The people of the State of California do enact as follows:

SECTION 1. Division 9 (commencing with Section 16000) is added to the Water Code, to read:

**DIVISION 9. BAY AREA SEWAGE
SERVICES AGENCY**

PART 1. GENERAL PROVISIONS

**CHAPTER 1. LEGISLATIVE FINDINGS AND
DECLARATIONS**

16000. This division shall be known and may be cited as the Bay Area Sewage Services Agency Law.

16001. The Legislature hereby finds and declares that the public has an interest in the San Francisco Bay as the most valuable single natural resource of the bay area, a resource that gives special and unique character to that region; that the bay is a single body of water that serves many beneficial uses; and that the bay operates as an integrated physical system in which changes in one part may also affect all other parts; and that preservation and enhancement of the water quality in the bay is essential to the social and economic well-being of the region.

16002. The Legislature finds and declares that the quality of bay area waste waters and the uncoordinated disposal of such waste waters in the bay could threaten the integrity of the bay itself; that there is urgent need to finalize and implement a plan which will provide for a coordinated areawide approach to disposal and reclamation of municipal and industrial waste waters including consolidation of waste treatment facilities and the reduction of waste water loads in the bay and its estuaries; that there are more than 100 different local agencies performing sewerage functions in the region and in addition there are more than 70 industries that discharge their waste waters to the bay rather than to public sewer systems; that although some cities, districts and counties have prepared detailed plans for their own waste

water treatment and disposal needs, no permanent governmental mechanism exists for evaluating individual treatment and disposal systems so as to determine their effect on the entire bay; that the collection, treatment, disposal and reclamation of waste water must be planned in a coordinated manner so as to protect, conserve and enhance the many beneficial uses which can be made of the bay waters; that the waste water treatment and disposal facilities of local agencies vary widely as to their adequacy and as to the quality of waste discharged into the bay; that maintenance of water quality and the treatment, disposal and reclamation of waste waters are areawide problems which cannot be planned for by the individual local agencies and industries acting alone; that the financial resources and jurisdictional authority of individual local agencies are insufficient to provide the necessary coordination of planning and research for regional treatment, disposal and reclamation facilities.

16003. The Legislature finds and declares: that the only feasible way to protect the interests of the entire San Francisco Bay area and its inhabitants is to assign the responsibility for the coordination of planning water quality control facilities to an areawide agency with the authority to adopt areawide plans for the conveyance, treatment, reclamation and disposal of municipal and industrial waste water; that it is the intent of the Legislature that such plans shall be implemented, insofar as possible, on a subregional basis by existing local agencies, or groups of local agencies within the respective subregions.

Article 1. Agency Board Selection Committee

16320. There shall be a separate and distinct agency board selection committee for each county within the agency with the exception of the City and County of San Francisco. The membership of each such committee shall consist of the mayor of each incorporated city or town within each county and the president of the board of directors of each special district within the county which operates water quality control facilities.

16321. A majority of the members of each agency board selection committee shall constitute a quorum.

16322. The agency board selection committee of each county shall meet on or before June 30, 1972, in the chambers of the board of supervisors of such county for the purpose of making the first recommendations for appointments to the board of the agency. Whenever thereafter a vacancy occurs on the agency board the agency board selection committee of

that county shall meet within 30 days following the occurrence to make the required recommendations to fill the vacancy unless the vacancy has been filled pursuant to Section 16330. The chairman of the agency board selection committee shall determine promptly the time and place of the meeting and shall so inform the county clerk of the county that the committee represents. Whenever there shall not be a quorum present at a meeting of any agency board selection committee, the meeting shall be adjourned to a subsequent time and place as determined by a majority of the members present.

16323. At least two weeks prior to the date of each meeting the county clerk of each county shall give notice of the meeting to each member of the agency board selection committee of such county. 16332. Subsequent to the appointment of the first agency board the number of members composing the board shall be determined as follows:

(a) Each county within the agency shall be represented by one board member for each 225,000 persons within the county, and one additional member for each major fraction thereof. For the purposes of this section each "major fraction thereof" shall be deemed to be more than 50 percent of 225,000 persons.

(b) Each county within the region shall have at least one representative on the agency board. In any case where the number of trustees representing a county is decreased by reason of a relative decrease in population, all trustees then in office representing the county shall be permitted to serve out the terms for which they were appointed.

16333. For the purpose of Section 16332, population shall be determined on the basis of the last official United States decennial census.

If between official United States censuses the agency board determines that the population of any county within the district has changed sufficiently to warrant adjustment in the number of trustees representing that county, the agency board may determine the number of directors to represent that county on the basis of population estimates prepared by the State Department of Finance; provided, however, that changes in the number of trustees composing the agency board, if determined on the basis of population estimates, shall not be made more frequently than once each four years.

16334. On or before July 15, 1972, the agency board selection committee of each county within the region shall forward to the board of supervisors of the county a list of persons qualified as provided in Section 16301 as its recommendation for appointment as the representative, or representatives, on the agency board from its county. The agency board selection committee that originally recommended the trustee whose term has expired shall make recommendations for his successor as provided in this chapter, and the board of supervisors shall appoint the successor for a full four-year term.

16335.1. At the time of appointing the representatives for each county pursuant to the provisions of Sections 16334 and 16335 the respective boards of supervisors may authorize and appoint an alternate for each regular member. The alternate shall attend the meetings of the agency board and vote in the absence of the regular member. Alternates shall be selected from the list provided to each board of supervisors pursuant to Section 16334 and shall be qualified as provided in Section 16301. Alternates shall serve at the pleasure of the board of supervisors which has appointed them.

16336. Each trustee or alternate appointed by a board of supervisors shall be appointed by a resolution adopted by that board.

Certified copies of all resolutions adopted pursuant to this section, together with notices of appointments made thereby shall be forwarded without delay to the Secretary of State and to the clerk of the agency.

16337. If a trustee or alternate ceases to be qualified pursuant to Section 16301 during his term of office on the agency board, his membership on the agency board shall thereafter be considered vacant.

16338. Any vacancy in the agency board shall be filled for the unexpired term by appointment by the board of supervisors which originally made the appointment to the office in which the vacancy exists. The board of supervisors may make the appointment from the most current list of recommendations by the agency board selection committee or may request such board to make new recommendations pursuant to this chapter.

The board shall choose a clerk who shall not be a member of the board, and shall provide for the time and place of holding its meetings which shall be held at least once a month.

16342. Each trustee shall be paid the sum of fifty dollars (\$50) for each agency meeting that he attends, whether a full board meeting or a meeting of a committee of the board, but he shall not be paid more than two hundred fifty dollars (\$250) in any one calendar month, nor shall he be paid for more than one meeting which he attends on the same day. Each trustee shall be allowed such necessary traveling and personal expenses incurred in the performance of his duties as may be authorized by the agency board.

Such rules shall also establish a subsidiary meeting place in each county where any meetings in such county shall be held, unless otherwise ordered by the agency board, but need not fix any dates or times for holding meetings at such places.

16352. The agency shall be deemed a local agency under the Ralph M. Brown Act, Chapter 9 (commencing with Section 54950), Part 1, Division 2, Title 5 of the Government Code and shall be subject to the provisions of that act and to the extent of any inconsistency between that act and this

division, the provisions of this division shall control.

The plan shall include at least the following:

16667. Prior to adopting the proposed regional water quality management plan, the agency shall submit it to the State Water Resources Control Board for a finding that the proposed plan is in conformity with policies, plans and objectives adopted by the State Water Resources Control Board and the appropriate California regional water quality control boards for any and all waters within the region and for those waters outside the region which may have any effect inside the region in the development of the regional water quality management plan.

assistance from any public or private source for the purpose of paying all or a part of the costs and expenses of any studies and investigations or any research and development program undertaken by the agency.

16673. Research and development programs may be conducted either by the officers and employees of the agency or by others pursuant to contract authorized by the agency board. Any such contracts shall not be subject to the competitive bidding requirements of this division.

CHAPTER 7. IMPLEMENTATION OF THE REGIONAL WATER QUALITY MANAGEMENT PLAN

Article 1. Construction and Operation of Facilities by the Regional Agency

16680. The agency shall maintain close surveillance of the implementation of the regional water quality management plan.

16681. The agency may assume the responsibility for construction and operation, and may construct and operate water quality control facilities consistent with the adopted and approved regional water quality management plan under the following conditions:

(a) When requested to do so by a local agency or group of local agencies.

(b) When the agency, after notice and a public hearing, finds both of the following:

(1) The proposed water quality control facilities and a firm commitment for their construction and operation are needed.

(2) A local agency or, collectively, a group of local agencies does not wish to proceed or cannot proceed.

16682. When the agency assumes responsibility for construction and operation of water quality control facilities pursuant to Section 16681 it shall have the authority as provided in the County Sanitation District Act, Chapter 3 (commencing with Section 4700) of Part 3 of Division 5 of the Health and Safety Code, and any proceedings thereunder shall be in accordance with the provisions of such act, to do the following:

As used in this chapter, "financial assistance" means financial assistance extended to any local agency by the state or federal governments or any other public agency, including grants and contractual arrangements, such as, loans, loan guarantees, insurance and any other form of financial assistance, but shall not include financial assistance extended by one local agency to another local agency.

16684. If any application by a local agency for financial assistance relates to or substantially affects any matter within the scope of the regional water quality management plan, such application shall be submitted to the agency for review and comment prior to being submitted to the agency from whom financial assistance is proposed to be requested. In reviewing any such application, the agency shall take the following factors into account:

(a) Whether the project or purpose for which financial assistance is requested is in conformity with the regional water quality management plan

(b) The relative priority of such project or purpose with respect to other projects or purposes for which financial assistance is being or may be sought by other public agencies

(c) Any other factors deemed to be relevant.

16685. A copy of every application by a local agency for financial assistance, other than applications subject to the provisions of Section 16684, shall be submitted to the agency not later than the date of its submission to the agency from whom financial assistance is requested.

The agency may submit comments and recommendations concerning the application to the applicant and to the agency from whom financial assistance is requested. Such comments and recommendations may include any of the factors mentioned in Section 16684.

16686. The agency board shall adopt an ordinance prescribing a procedure and providing standards and criteria to be followed by the agency in reviewing applications for financial assistance.

The ordinance may exempt from review certain classes of applications described by amount, project, purpose of assistance sought or other relevant criteria. The ordinance may authorize the agency general manager to review, comment or make recommendations upon certain classes of applications and to prescribe by rule supplementary standards and criteria not inconsistent with those contained in the ordinance.

16687. The agency shall coordinate its review of applications with the areawide agency designated by the

federal or state government to perform metropolitan or regional planning, and with other review agencies.

Article 3. Review of Local Plans

16690. All plans for water quality control facilities proposed by local agencies, or groups of local agencies, which relate to or substantially affect any matter within the scope of the regional water quality management plan must be submitted to the agency board for study, comment and recommendation before final adoption by the local agency or groups of local agencies.

16691. Within 60 days after submission of the local plan, the agency board shall adopt a resolution providing for a public hearing thereon. After such hearing the agency board shall either approve or disapprove, in whole or in part, such local plan. It shall notify the applying local agency of its action along with such comments and recommendations as the agency board may deem appropriate.

16692. If the agency board approves the proposed local agency plan, the local agency may finally adopt the same and proceed with its development.

16693. If the agency board finds and determines that the local agency plan is inconsistent with the regional water quality management plan, the local agency may modify its proposal and resubmit it for further consideration by the agency board, which shall hold further hearings on said resubmitted proposal. The agency board may approve or disapprove the modified plan in whole or in part. If the agency board disapproves the local agency plan, in whole or in part, it shall adopt specific findings setting forth the reasons for such disapproval.

mailed notice of such hearing shall be given to each county within the agency.

16803. Upon conclusion of the hearing and not later than June 10, the agency board shall approve the budget estimate, as submitted by the agency general manager or as revised by the board, and thereupon the same shall constitute the final budget for the ensuing fiscal year.

As used herein, "counties" shall include the City and County of San Francisco.

16805. If the board elects to apportion costs and expenses among the counties as herein provided, it shall at the time set for approving the budget estimate determine the amount to be apportioned among the counties. 16807. Each county which has had apportioned to it a part of the agency's costs and expenses may obtain the revenue to pay such apportionment by means of tax revenues, by sewer service charges, an apportionment within the county as in this article provided, or from any other available revenues.

16808. A county may raise all or part of the revenue to pay its apportioned costs and expenses of the agency by collecting or causing to be collected sewer service charges from the users of sewer facilities within the county. The county may in its discretion enter into agreements with utilities, public or

private, to have its service charge collected with the rates, tolls, and charges for any water or other utility service.

A county may raise all or part of the revenue to pay its apportioned share of the costs and expenses of the agency by apportioning the same among local agencies owning or operating water pollution control facilities within the county. Such amount to be apportioned shall be divided between such local agencies in the proportions that the populations of each such local agency within the county bears to the total population within the county. The population of each county shall be determined and redetermined as provided for in Section 16333. If the county elects to so apportion part or all of its share of the agency's costs and expenses it shall transmit to each local agency on or before the first weekday in August a statement of the amount apportioned to said local agency. Each local agency shall pay its apportioned share to the county in installments at the times provided for in Section 16806.

For the purpose of payment of operating and other expenses during the period ending with the third full fiscal year following the organization meeting of the first agency board, the board may borrow money and issue notes in anticipation of the receipt of revenues to be obtained pursuant to this division. Except as otherwise provided for in this section, the notes shall be authorized and issued pursuant to Sections 53853 to 53857, inclusive, of the Government Code.

15002.1. The governing board of a school district, prior to acquiring any site on which it proposes to construct any school building as defined in Section 15452 shall have the site, or sites, under consideration investigated by competent personnel to ensure that the final site selection is determined by an evaluation of all factors affecting the public interest and is not limited to selection on the basis of raw land cost only. The in-

vestigation shall include such geological and engineering studies by competent personnel as are needed to provide an assessment of the nature of the site and potential for earthquake damage from causes such as:

(a) Sudden or slow slippage along a fault where surface rupture can be expected within the life of the building.

(b) Ground shaking.

(c) Ground failure, such as land sliding, lateral spreading, lurching, differential compaction, ground cracking, and liquefaction.

(d) Seismically induced waves such as tsunamis and seiches.

The geological and engineering studies of the site shall also be of such a nature as will preclude siting of a school on or below a slide area, or in any other location where the geological characteristics are such that the construction effort required to make the site safe for occupancy is economically unfeasible. No school building shall be constructed or situated on a geological fault. The evaluation shall also include location of the site with respect to population, transportation, water supply, waste disposal facilities, utilities, traffic hazards, surface drainage conditions, and other factors affecting the operating costs, as well as the initial costs, of the total project. Such geological and engineering investigations shall be made for all additions or alterations, costing more than ten thousand dollars (\$10,000), to existing buildings for work that effects structural elements or for replacement of any building. No such study need be made if the site or sites under consideration have been the subject of adequate prior study made within five years preceding the date of commencement of the proposed construction.

A copy of the report of each investigation conducted pursuant to this section shall be submitted to the Department of General Services pursuant to Article 4 (commencing with Section 15451) of Chapter 2 of this division. CHAPTER 2. ACQUISITION

11706. It is unlawful for any acquiring party to acquire control of a savings and loan association or savings and loan holding company or to acquire all the assets, or substantially

all the assets, of a savings and loan holding company by the process of merger, consolidation or purchase of assets of such savings and loan holding company until 30 days after the date of filing with the commissioner of an application containing all or part of the following information and any additional information that the commissioner may prescribe as necessary or appropriate in the public interest or for the protection of savings account holders, borrowers or stockholders:

(5) Any plans or proposals which any acquiring party making the acquisition may have to liquidate such savings and loan association or savings and loan holding company, to sell its assets or merge it with any company or to make any other major changes in its business or corporate structure or management.

(6) The identification of any persons employed, retained or to be compensated by the acquiring party, or by any person on his behalf, to make solicitations or recommendations to stockholders for the purpose of assisting in the acquisition, and brief description of the terms of such employment, retainer or arrangements for compensation.

(a) The acquisition would substantially lessen competition or would in any manner be in restraint of trade or would result in a monopoly, or would be in furtherance of any combination or conspiracy to monopolize or to attempt to monopolize the savings and loan business in any part of the State of California, unless he also finds that the anticompetitive effects of the proposed acquisition are clearly outweighed in the public interest by the probable effect of the acquisition in meeting the convenience and needs of the community to be served.

(b) The poor financial condition of any acquiring party might jeopardize the financial stability of the savings and loan association or the savings and loan holding company being acquired or might prejudice the interests of the savings account holders, borrowers, or stockholders of the savings and loan association or is not in the public interest.

(c) The plan or proposal under which the acquiring party intends to liquidate the savings and loan association or the savings and loan holding company, to sell its assets or to merge it with any person or company, or to make any other major change in its business or corporate structure or management, is not fair and reasonable to the association's savings account holders, borrowers, or stockholders or is not in the public interest.

(d) The competence, experience and integrity of any acquiring party who would control the operation of the savings and loan association or savings and loan holding company indicate that approval would not be in the interest of the association's savings account holders, borrowers, or stockholders or in the public interest.

56226. If a consignor-creditor or producer-creditor fails, refuses, or neglects to file in the office of the director his verified claim as requested by the director within 60 days from the date of such request, the director is thereupon relieved of further duty or action pursuant to this article on behalf of such consignor-creditor or producer-creditor.

56227. If by reason of the absence of records or other circumstances which make it impossible or unreasonable for the director to ascertain the names and addresses of all such consignor-creditors or producer-creditors, the director, after exerting due diligence and making reasonable inquiry to secure such information from all reasonable and available sources, may make demand on the bond on the basis of information which is then in his possession, and thereafter is not liable or responsible for claims or the handling of claims which may subsequently appear or be discovered.

56228. Upon ascertaining all claims and statements in the manner which is set forth in this article, the director may make demand upon the bond on behalf of those claimants whose statements have been filed, and may settle or compromise the claims with the surety company on the bond. He may in such cases execute and deliver a release and discharge of the bond which is involved.

56229. Upon the refusal of the surety company to pay the demand, the director shall bring an action on the bond in behalf of the consignor-creditors or producer-creditors.

If a licensee fails to file a new bond within 10 days it shall constitute grounds for the suspension or revocation of his license.

56231. Should any bond issued pursuant to Section 56221 in support of applications for a license be canceled by either principal or surety during the license period covered by the bond, then the license supported by such bond shall stand suspended until a new bond is received by the director to replace the canceled bond. If the bond so received fails to provide continuous coverage from the date of cancellation of the previous bond, then new license applications and fees shall be filed.

56232. Surety shall be liable for the default of the principal for all farm products purchased or received on consignment by a licensee during each license period covered by the bond.

He may not otherwise divert to his own use or account or in liquidation of such loans, advances, or credits the moneys, returns, or proceeds accruing from the sale, handling, or marketing of any farm product which is handled by him on behalf of or for the account of the licensee to whom or for whom such loans, advances, or credits are made.

56253. If at any time the director has cause or reason to believe that any licensee is in an unsound financial condition so as to impair his ability to pay consignor-creditors or producer-creditors in full for farm products received or handled, he may require such licensee to file with him a current financial statement which shows the true and correct financial condition of such licensee. Such financial statement if not prepared by a public accountant or certified public accountant shall be on a form prescribed by the director and shall be submitted under penalty of perjury. Failure of any licensee to file a financial statement as required by this section shall be sufficient grounds for revocation of the license of such licensee.

3213. In the case of a member of the University of California Police Department who has graduated from an academy certified by the Commission on Peace Officer Standards and Training, when he and all members of the campus department of which he is a member have graduated from such an academy, and when any such member is employed upon a regular, full-time salary, the term "injury" as used in this division includes heart trouble and pneumonia which develops or manifests itself during a period while such member is in the service of such campus department of the University of California Police Department. The compensation which is awarded for

such heart trouble or pneumonia shall include full hospital, surgical, medical treatment, disability indemnity, and death benefits as provided by the provisions of this division.

Such heart trouble or pneumonia so developing or manifesting itself shall be presumed to arise out of and in the course of the employment; provided, however, that the member of the University of California Police Department shall have served five years or more in such capacity before the presumption shall arise as to the compensability of heart trouble so developing or manifesting itself. This presumption is disputable and may be controverted by other evidence, but unless so controverted, the appeals board is bound to find in accordance with it.

Such heart trouble or pneumonia so developing or manifesting itself in such cases shall in no case be attributed to any disease existing prior to such development or manifestation.

As used in this section:

(a) "Members" shall be limited to those employees of the University of California Police Department who are defined as peace officers in Section 830.2 of the Penal Code.

Whenever any member of the University of California Police Department falling within the "law enforcement" class is disabled by injury arising out of and in the course of his duties, he shall become entitled, regardless of his period of service with the police department, to leave of absence while so disabled without loss of salary, in lieu of disability payments under this chapter, for a period of not exceeding one year. This section shall apply only to members of the University of California Police Department whose principal duties consist of active law enforcement, and shall not apply to persons employed in the University of California Police Department whose principal duties are those of telephone operator, clerk, stenographer, machinist, mechanic or otherwise clearly not falling within the scope of active law enforcement service, even though such person is subject to occasional call or is occasionally called upon to perform duties within the scope of active law enforcement service.

This section shall apply only to those members of the University of California Police Department specified in Section 3213.

SEC. 4. Section 4807 is added to the Labor Code, to read:

4807. It shall be the duty of the appeals board to determine, in the case of members of the University of California Police Department, upon the request of the Regents of the University of California, whether or not the disability referred to in Section 4806 arose out of and in the course of duty. The appeals board shall, also in any disputed case, determine when such disability ceases.

SEC. 5. Section 4808 is added to the Labor Code, to read:

4808. Any such member of the University of California Police Department so disabled is entitled from the date of injury, and regardless of retirement under either the University of California Retirement System or Public Employees' Retirement System, to the medical, surgical, and hospital benefits prescribed by this division as part of the compensation for persons injured in the course of and arising out of their employment, at the expense of the Regents of the University of California, and such expense shall be charged upon the fund out of which the compensation of the member is paid.

Whenever such disability of such member of the University of California Police Department continues for a period beyond one year, such member shall thereafter be subject, as to disability indemnity, to the provisions of this division other than Section 4806, which refers to temporary disability only, during the remainder of the disability, except that such compensation shall be paid out of funds available for the support of the Regents of the University of California and the leave of absence shall continue.

SEC. 7. Section 4810 is added to the Labor Code, to read:

4810. No disability indemnity shall be paid to such member of the University of California Police Department as temporary disability concurrently with wages or salary payments.

The exact form of such contract need not be available at the time of the special election, but the (1) purpose of the contract; (2) maximum amount of the indebtedness created thereby; (3) maximum term of repayment, and (4) maximum interest rate on such indebtedness shall be known and included in the proposition or measure submitted to the qualified electors of the agency, or an improvement district thereof, at such special election.

17. To issue bonds under Section 28 of this act for the purpose of providing money required to be paid by this agency to the State of California or any agency thereof under any contract which shall be made with it, or as all or part of the terms and conditions under which the corporate area of the agency may be annexed to and become a part of any metropolitan water district organized under the Metropolitan Water District Act. The amount of said bonds may include expenses of all proceedings for the authorization, issuance and sale of the bonds.

SEC. 2. Section 28 of the Castaic Lake Water Agency Law (Chapter 28 of the Statutes of 1962, First Extraordinary Session) is amended to read:

Sec. 28. The board of directors shall provide for holding such special election on the day so fixed and in accordance with the provisions of the Elections Code so far as the same shall be applicable, except as herein otherwise provided. Notice of the holding of such election shall be given by publishing pursuant to Section 6066 of the Government Code the resolution calling the election, the last publication to be made not less than two weeks prior to the date of the proposed election, in at least one newspaper published in such agency, then such resolution shall be posted in three public places in such agency not less than two weeks prior to the date of the proposed election. No other notice of such election need be given. The returns of such election shall be made, the votes canvassed by said board of directors within seven days following said election, and the results thereof ascertained and declared in accordance with the provisions of the Elections Code, so far as they may be applicable, except as in this act otherwise provided. The secretary of the board of directors, as soon as the result is declared, shall enter in the records of such board a statement of such results. No irregularities or informalities in conducting such election shall invalidate

the same, if the election shall have otherwise been fairly conducted.

Any action or proceeding, wherein the validity of any such bonds or of the proceedings in relation thereto is contested, questioned or denied, shall be commenced within three months from the date of such election; otherwise, said bonds and all proceedings in relation thereto shall be held to be valid and in every respect legal and incontestable.

SEC. 3. Section 29 of the Castaic Lake Water Agency Law (Chapter 28 of the Statutes of 1962, First Extraordinary Session) is amended to read:

Sec. 29. Whenever the board of directors deems it necessary to incur a bonded indebtedness for the acquisition, construction, completion, or repair of any or all improvements, works or property mentioned in this act and to provide for such bonded indebtedness to be payable from taxes levied upon less than all of the agency, the board shall, by resolution, so declare and state: (a) the purpose for which the proposed debt is to be incurred; (b) the amount of debt to be incurred, which may include expenses of all proceedings for the authorization, issuance and the sale of the bonds; (c) that the board intends to form an improvement district of a portion of the agency which in the opinion of the board will be benefited, the exterior boundaries of which portion are set forth on a map on file with the secretary of the agency, which map shall govern for all details as to the extent of the proposed improvement district, and to call an election in such proposed improvement district on a date to be fixed, for the purpose of submitting to the qualified voters thereof the proposition of incurring indebtedness by the issuance of bonds of the agency for said improvement district; (d) that taxes for the payment of said bonds and the interest thereon shall be levied exclusively upon the taxable property in the improvement district; (e) that a general description of the proposed improvement, together with a map showing the exterior boundaries of said proposed improvement district with relation to the territory immediately contiguous thereto and to the proposed improvement is on file with the secretary of the agency and is available for inspection by any person or persons interested; (f) the time and place for a hearing by the board on the questions of the formation of said proposed improvement district, the extent thereof, the proposed improvement and the amount of debt to be incurred; and (g) that at the time and place specified in the resolution any person interested, including all persons owning property in the agency or in the proposed improvement district, will be heard. Notice of said hearing shall be given by publishing a copy of the resolution pursuant to Section 6066 of the Government Code prior to the time fixed for the hearing in a newspaper printed and published in the agency, if there is a newspaper printed and published in such agency. Such notice shall also be given by posting a copy of said resolution in six

public places within the proposed improvement district at least two weeks before the time fixed for said hearing.

At the time and place so fixed, or at any time and place to which the hearing is adjourned, the board shall proceed with the hearing. At the hearing any person interested, including any person owning property within the agency or within the proposed improvement district, may appear and present any matters material to the questions set forth in the resolution declaring the necessity for incurring the bonded indebtedness. The board shall have the power to change the purpose for which the proposed debt is to be incurred, or the amount of bonded debt to be incurred, or the boundaries of said proposed improvement district, or one or all of said matters; provided, however, that said board shall not change such boundaries so as to include any territory which will not, in its judgment, be benefited by said improvement.

The purpose, amount of bonded debt or boundaries shall not be changed by said board except after notices of its intention to do so, given by publication pursuant to Section 6061 of the Government Code in a newspaper printed and published in said agency, if there is a newspaper printed and published in such agency, and by posting in six public places within said proposed improvement district. Said notice shall state the changed purpose and debt proposed and that the exterior boundaries as proposed to be changed are set forth on a map on file with the secretary of the agency, which map shall govern for all details as to the extent of the proposed improvement district, and specify the time and place for hearing on such change, which time shall be at least 10 days after publication or posting of said notice. At the time and place so fixed, or at any time and place to which the hearing is adjourned, the board shall proceed with the hearing. At the hearing any person interested, including any person owning property within the agency or the proposed improvement district, may appear and present any matters material to the changes stated in the notice. At the conclusion of the hearing the board shall by resolution determine whether it is deemed necessary to incur the bonded indebtedness, and, if so, the resolution shall also state the purpose for which said proposed debt is to be incurred, the amount of the proposed debt, that the exterior boundaries of the portion of the agency which will be benefited are set forth on a map on file with the secretary of the agency which map shall govern for all details as to the extent of the improvement district, and that said portion of the agency set forth on said map shall thereupon constitute and be known as "Improvement District No. _____ of Castaic Lake Water Agency," and the determinations made in said resolution shall be final and conclusive. After the formation of such improvement district within the agency pursuant to this section, all proceedings for the purpose of a bond election shall be limited, and shall apply only to the improvement district, and taxes for the payment of said bonds and the interest thereon shall be

levied exclusively upon the taxable property in the improvement district.

After the board has made its determination of the matters required to be determined by said last-mentioned resolution, and if the board deems it necessary to incur the bonded indebtedness, the board shall by a further resolution call a special election in said improvement district for the purpose of submitting to the qualified voters thereof the proposition of incurring indebtedness by the issuance of bonds of the agency for said improvement district. Said resolution shall state: (a) that the board deems it necessary to incur the bonded indebtedness; (b) the purpose for which the bonded indebtedness will be incurred; (c) the amount of debt to be incurred; (d) the improvement district to be benefited by said indebtedness, as set forth in the resolution making determinations, and that a map showing the exterior boundaries of said improvement district is on file with the secretary of the agency, which map shall govern for all details as to the extent of the improvement district; (e) that taxes for the payment of such bonds and the interest thereon shall be levied exclusively upon the taxable property in said improvement district; (f) the maximum term the bonds proposed to be issued shall run before maturity, which shall not exceed 40 years; (g) the maximum rate of interest to be paid, which shall not exceed 7 percent per annum payable semiannually, except that interest for the first year may be payable at the end of the said year; (h) the measure to be submitted to the voters; (i) the date upon which an election shall be held for the purpose of authorizing said bonded indebtedness to be incurred; and (j) the designation of precincts, the location of polling places, and the names of the officers selected to conduct the election, who shall consist of one judge, one inspector and two clerks in each precinct.

The board of directors shall provide for holding such special election on the day so fixed and in accordance with the provisions of the Elections Code so far as the same shall be applicable, except as herein otherwise provided. Notice of the holding of such election shall be given by publishing pursuant to Section 6066 of the Government Code the resolution calling the election prior to the date of the proposed election in at least one newspaper printed and published in the agency, if there is a newspaper printed and published in such agency. Such resolution shall also be posted in three public places in such improvement district not less than two weeks prior to the date of the proposed election. No other notice of such election need be given.

The returns of such election shall be made, the votes canvassed by said board of directors within seven days following said election, and the results thereof ascertained and declared in accordance with the provisions of the Elections Code so far as they may be applicable, except as in this act otherwise provided. The secretary of the board of directors, as soon as the result is declared, shall enter in the records of such board

a statement of such results. No irregularities or informalities in conducting such election shall invalidate the same, if the election shall have otherwise been fairly conducted.

Any action or proceeding, wherein the validity of the formation of the improvement district or of any such bonds or of the proceedings in relation thereto is contested, questioned or denied, shall be commenced within three months from the date of such election; otherwise, said bonds and all proceedings in relation thereto, including the formation of the improvement district, shall be held to be valid and in every respect legal and incontestable.

SEC. 4. Section 31 of the Castaic Lake Water Agency Law (Chapter 28 of the Statutes of 1962, First Extraordinary Session) is amended to read .

Sec. 31. If from the returns it appears that more than two-thirds of the votes cast in an election held pursuant to the provisions of Section 28 or of Section 29 of this act, were in favor of and assented to the incurring of such indebtedness, then the board of directors may, by resolution, at such time or times as it deems proper, issue bonds of the agency for the whole or any part of the amount of the indebtedness so authorized, and may from time to time provide for the issuance of such amounts as the necessity thereof may appear, until the full amount of such bonds authorized shall have been issued. Said full amount of bonds may be divided into two or more series and different dates fixed for each of the series. The maximum term which the bonds of any series shall run before maturity shall not exceed 40 years from the date of each series respectively.

The board of directors shall, by resolution, prescribe the form of the bonds and the form of the coupons attached thereto and fix the time when the whole or any part of the principal shall become due and payable. The payment of the first installment of principal may be deferred for a period of not more than five years from the date of the bonds or the date of the bonds of each series respectively. The bonds shall bear interest at a rate or rates not to exceed seven percent (7%) per annum, payable semiannually, except that interest for the first year may be payable at the end of said year. The board of directors may also provide for call and redemption of bonds prior to maturity at such times and prices and upon such other terms as it may specify. A bond shall not be subject to call or redemption prior to maturity unless it contains a recital to that effect or unless a statement to that effect is printed thereon.

The denomination of the bonds shall be stated in the resolution providing for their issuance, but shall not be less than one thousand dollars (\$1,000). The principal and interest shall be payable in lawful money of the United States at the office of the treasurer of the district or such other place or places as may be designated, or at either place or places at the option of the holder of the bond.

The bonds shall be dated, numbered consecutively, and be signed by the president and treasurer of the agency, countersigned by the secretary of the agency, and the official seal of the agency attached. The interest coupons of such bonds shall be signed by the treasurer of said agency. All such signatures and countersignatures may be printed, lithographed, or mechanically reproduced, except that one of said signatures or countersignatures to said bonds shall be manually affixed.

If the bond election proceedings have been limited to and have applied only to an improvement district within said agency, said bonds are bonds of the agency and shall be issued in the name of the agency and shall be designated "Bonds of the Castaic Lake Water Agency for Improvement District No. -----" and each bond and all interest coupons thereof shall state that taxes levied for the payment thereof shall be levied exclusively upon the taxable property in said improvement district.

Before selling the bonds, or any part thereof, the board of directors shall give notice inviting sealed bids in such manner as it may prescribe. If satisfactory bids are received, the bonds offered for sale shall be awarded to the highest responsible bidder. If no bids are received, or if said board determines that the bids received are not satisfactory as to price or responsibility of the bidders, it may reject all bids received, if any, and either readvertise or sell the bonds at private sale.

The proceeds arising from the sale of bonds shall be paid into the treasury of the agency and placed to the credit of a special improvement fund and expended only for the purpose for which the indebtedness was created; provided, however, that when said purpose has been accomplished any moneys remaining in said special improvement fund may be transferred to the fund to be used for the payment of principal of and interest on the bonds. Said remaining moneys remaining from the sale of bonds of the agency may also be used for some other agency purpose. Such moneys remaining from the sale of bonds of the agency for an improvement district therein may also be used for any purpose which will benefit the property in the improvement district. Said moneys may not be used for said other agency purpose or improvement district purpose until two-thirds of the qualified voters of said agency or improvement district have consented thereto at a special election called in said agency or improvement district by the board of directors. Notice of said election shall be given in the manner provided for bond elections in said agency or improvement district, as the case may be, and in other respects the election shall be conducted as are other agency elections.

CHAPTER 948

An act to amend Section 785 of, and to add Section 785.1 to, the Probate Code, relating to sales of real property.

[Approved by Governor October 8, 1971. Filed with
Secretary of State October 8, 1971.]

The people of the State of California do enact as follows:

SECTION 1. Section 785 of the Probate Code is amended to read:

785. Upon the hearing the court must examine into the necessity for the sale, or the advantage, benefit and interest of the estate in having the sale made, and must examine the return and witnesses in relation to the sale; and if it appears to the court that good reason existed for the sale, that the sale was legally made and fairly conducted, and complied with the requirements of the previous section, that the sum bid is not disproportionate to the value, and it does not appear that a sum exceeding such bid at least 10 percent on the first ten thousand dollars (\$10,000) bid and 5 percent on the amount of the bid in excess of ten thousand dollars (\$10,000), exclusive of the expenses of a new sale, may be obtained, the court shall make an order confirming the sale and directing conveyances to be executed; otherwise it shall vacate the sale and direct another to be had, of which notice must be given and the sale in all respects conducted as if no previous sale had taken place. But if a written offer in an amount at least 10 percent more on the first ten thousand dollars (\$10,000) bid and 5 percent more on the amount of the bid in excess of ten thousand dollars (\$10,000) is made to the court by a responsible person, and the offer complies with all provisions of the law, the court shall accept such higher offer, confirm the sale to such person and fix a reasonable compensation for the services to the estate of the agent, if any, producing the successful bidder, or, in its discretion, order a new sale. If more than one written offer in an amount at least 10 percent more on the first ten thousand dollars (\$10,000) bid and 5 percent more on the amount of the bid in excess of ten thousand dollars (\$10,000) is made to the court by responsible persons, and if any such increased bid complies with all the provisions of the law, the court shall accept such highest increased bid, confirm the sale to the person making such increased bid, and fix a reasonable compensation for the services to the estate of the agent, if any, producing the successful bidder or, in its discretion, order a new sale. The compensation of the agent producing the successful bidder shall not exceed one-half of the difference between the amount of the bid in the original return and the amount of the successful bid, but such limitation shall not apply to any compensation of the agent holding the contract with the executor or administrator.

For the purposes of this section the amount of a bid shall be determined by the court without regard to any commission on the amount of such bid to which an agent may be entitled by virtue of a contract with the executor or administrator. It shall be determined without regard to any condition of the bid that a certain amount thereof be paid to an agent by the executor or administrator, but notwithstanding that a bid contains such a condition, only such compensation to an agent as is proper under the preceding provisions of this section shall be allowed, and acceptance of the bid by the court binds the

bidder though the compensation so allowed is less than the compensation to which the agent would be entitled had the condition been observed.

Higher offers and bids are subject to the provisions of Section 785.1.

SEC. 2. Section 785.1 is added to the Probate Code, to read:

785.1. (a) If the sale returned for confirmation is upon a credit, a higher offer made to the court pursuant to Section 785, either for cash or upon a credit, whether on the same or different credit terms, shall be considered only if the personal representative informs the court in person or by counsel that the offer is acceptable prior to confirmation of the sale.

(b) If the sale returned for confirmation is for cash and a higher offer made to the court pursuant to Section 785 is upon a credit, the offer shall be considered only if the personal representative informs the court in person or by counsel that the offer is acceptable prior to confirmation of the sale.

379. (a) All persons may be joined in one action as defendants if there is asserted against them:

(2) A claim, right, or interest adverse to them in the property or controversy which is the subject of the action.

(b) It is not necessary that each defendant be interested as to every cause of action or as to all relief prayed for. Judgment may be given against one or more defendants according to their respective liabilities.

(c) Where the plaintiff is in doubt as to the person from whom he is entitled to redress, he may join two or more defendants, with the intent that the question as to which, if any, of the defendants is liable, and to what extent, may be determined between the parties.

The department shall withhold not less than 10 percent of the contract price until final completion and acceptance of the project. However, at any time after 50 percent of the work has been completed, if the department finds that satisfactory progress is being made, the department may make any of the remaining progress payments in full for actual work completed, or may withhold any amount up to 10 percent

thereof as the department may find appropriate based on the contractor's progress. In addition, at any time after 95 percent of the work has been completed, the department may reduce the funds withheld to an amount not less than 125 percent of the estimated value of the work yet to be completed, as determined by the department, provided that such reduction has been approved in writing by the surety on the performance bond and by the surety on the payment bond. A governing board of a school district which determines during a fiscal year that its revenues are less than the amount necessary to meet its current year expenditure obligations may request an emergency apportionment through the Superintendent of Public Instruction subject to the requirements and repayment provisions of Article 1.5 (commencing with Section 17325) of this chapter.

It is not the intent of the Legislature that this section authorize emergency loans to school districts for the purpose of meeting cash flow requirements pending the receipt of local taxes and other funds.

It is further the intent of the Legislature that no such emergency apportionments occur unless funds have been specifically appropriated therefor by the Legislature.

SEC. 3. Article 1.5 (commencing with Section 17325) is added to Chapter 2 of Division 14 of the Education Code, to read:

Article 1.5. Emergency Apportionments—
Requirements and Repayments

17325. Before any apportionment is made pursuant to the provisions of Section 17311, the following requirements shall be met:

(a) The district requesting the apportionment shall submit to the county superintendent of schools having jurisdiction over the district a report prepared by an independent auditor approved by the county superintendent of schools on the financial and budgetary conditions of the district, a written management review conducted by a qualified management consultant approved by the county superintendent of schools, and a plan adopted by the governing board to resolve the financial problems of the district.

(b) The county superintendent of schools shall review the independent auditor's report, the management review, and the district plan.

(c) The county superintendent of schools shall submit to the Superintendent of Public Instruction, the Joint Legislative Audit Committee, the Joint Legislative Budget Committee, and the Director of Finance a copy of the reports and plan specified in subdivision (a).

(d) The Superintendent of Public Instruction shall review the reports submitted to him by the county superintendent of schools and shall certify to the Director of Finance that the action taken to correct the financial problems of the district is realistic and will result in placing the district on a sound financial basis.

(e) The Legislature shall have specifically appropriated sufficient funds to make the apportionment. The act making such appropriation shall contain a schedule of repayments made pursuant to this article.

17326. The governing board of a district requesting apportionment shall, in its annual budget for the year succeeding the year in which it requests apportionment, expressly indicate the utilization of the plan to resolve its financial problems. If such plan extends beyond the next succeeding year, then subsequent budgets for years to which the plan is applicable shall similarly indicate such utilization.

17327. No more than 18 months after the disbursement of funds to the district, the county superintendent of schools shall make a followup review on the action taken and shall submit a report to the Superintendent of Public Instruction and the Director of Finance of the results of the action taken to correct the financial problems of the district.

17328. The emergency apportionment shall be repaid to the state over a three-year period, or less, together with interest at a rate equal to the rate established for the most recent sale of state bonds as of the date of the disbursement of funds to the district.

17329. The Superintendent of Public Instruction shall withhold from the apportionments to be made to the district from the State School Fund in each year an amount equal to the amount which becomes due in the year.

SEC. 4. Section 20607 of the Education Code is amended to read:

20607. (a) On or before the first day in July in each year, each school district shall file a tentative budget with the county superintendent of schools.

(b) On or before July 15, in each year, the county superintendent of schools:

(1) Shall examine and may make technical corrections to the tentative budget, and indicate changes he deems desirable or necessary to determine the tax requirement; and

(2) Shall make any recommendations he deems necessary to insure that the proposed expenditures do not exceed the anticipated revenues and that the anticipated revenues are realistic, and shall transmit to the governing board a written explanation of the reasons for such changes.

(c) On or before July 20 in each year, the governing board shall make such changes in the tentative budget as it deems necessary or desirable and shall return the budget to the county superintendent of schools. Such budget shall constitute the publication budget for the period to which it is intended to apply. A copy of this publication school budget shall be sent to the county auditor in such form.

(d) On or before the eighth day of August, or on or before the 10th day of August in the case of a school district in which there is an average daily attendance of more than 10,000, the governing board of each school district in which a public hearing is required in Section 20504 of this code shall adopt a final budget and shall file such budget with the county superintendent of schools, the county auditor, the county board of supervisors, and the Superintendent of Public Instruction. In the case of districts which are not required to hold a public hearing, the publication budget as approved by the governing board shall be filed with the county superintendent of schools, the county auditor, the county board of supervisors, and the Superintendent of Public Instruction immediately after its approval.

(e) On or before the 15th day of August, the county superintendent shall approve the adopted budget for each school district as officially adopted and submitted by its governing board, and shall file one copy of the adopted budget of each school district with the board of supervisors, one copy with the auditor of his county, and one copy with the Superintendent of Public Instruction, together with a statement show-

ing the amount of school district taxes required by each school district of the county.

SEC. 5. Section 21107 5 is added to the Education Code, to read:

21107.5. If at any time during a fiscal year the county superintendent of schools concludes that the expenditures of any school district within his jurisdiction are likely to exceed the anticipated income of the district for that fiscal year, he shall notify such district in writing of such conclusion and he may conduct a comprehensive review of the financial and budgetary conditions of the district. The superintendent shall report his findings and recommendation to the governing board of the district and may include recommendations of methods by which the budgeted expenditures for the balance of the fiscal year may be brought into balance with the revenue of the district. Such report shall be made to the governing board at a public meeting of the governing board. The governing board shall, no later than 15 days after receipt of such report, notify the county superintendent of schools of its proposed actions on his recommendations.

CHAPTER 957

An act to amend Section 394 of the Code of Civil Procedure, relating to venue.

[Approved by Governor October 8, 1971. Filed with Secretary of State October 8, 1971.]

The people of the State of California do enact as follows:

SECTION 1. Section 394 of the Code of Civil Procedure is amended to read:

394. (1) An action or proceeding against a county, or city and county, a city, or local agency, may be tried in such county, or city and county, or the county in which such city or local agency is situated, unless such action or proceeding is brought by a county, or city and county, a city, or local agency, in which case it may be tried in any county, or city and county, not a party thereto and in which the city or local agency is not situated. Whenever an action or proceeding is brought by a county, city and county, city, or local agency within a certain county, or city and county, against a resident of another county, city and county, or city, or a corporation doing business in the latter, the action or proceeding must be, on motion of either party, transferred for trial to a county, or city and county, other than the plaintiff, if the plaintiff is a county, or city and county, and other than that in which the plaintiff is situated, if the plaintiff is a city, or a local agency, and other than that in which the defendant resides, or is doing business, or is situated. Whenever an action or proceeding is

brought against a county, city and county, city, or local agency, in any county, or city and county, other than the defendant, if the defendant is a county, or city and county, or, if the defendant is a city, or local agency, other than that in which the defendant is situated, the action or proceeding must be, on motion of the said defendant, transferred for trial to a county, or city and county, other than that in which the plaintiff, or any of the plaintiffs, resides, or is doing business, or is situated, and other than the plaintiff county, or city and county, or county in which such plaintiff city or local agency is situated, and other than the defendant county, or city and county, or county in which such defendant city or local agency is situated; provided, however, that any action or proceeding against the city, county, city and county, or local agency for injury occurring within the city, county, or city and county, or within the county in which such local agency is situated, to person or property or person and property caused by the negligence or alleged negligence of such city, county, city and county, local agency, or its agents or employees, shall be tried in such county, or city and county, or if a city is a defendant, in such city or in the county in which such city is situated, or if a local agency is a defendant, in such county in which such local agency is situated. In any such action or proceeding, the parties thereto may, by stipulation in writing, or made in open court, and entered in the minutes, agree upon any county, or city and county, for the place of trial thereof. When the action or proceeding is one in which a jury is not of right, or in case a jury be waived, then in lieu of transferring the cause the court in the original county may request the chairman of the Judicial Council to assign a disinterested judge from a neutral county to hear said cause and all proceedings in connection therewith. When such action or proceeding is transferred to another county for trial, a witness required to respond to a subpoena for a hearing within the original county shall be compelled to attend hearings in the county to which the cause is transferred. If the demand for transfer be made by one party and the opposing party does not consent thereto the additional costs of the nonconsenting party occasioned by the transfer of the cause, including living and traveling expenses of said nonconsenting party and material witnesses, found by the court to be material, and called by such nonconsenting party, not to exceed five dollars (\$5) per day each in excess of witness fees and mileage otherwise allowed by law, shall be assessed by the court hearing the cause against the party requesting the transfer. To the extent of such excess, such costs shall be awarded to the nonconsenting party regardless of the outcome of the trial. This section shall apply to actions or proceedings now pending or hereafter brought.

(2) Any court in a county hereinabove designated as a proper county, which has jurisdiction of the subject matter of the action or proceeding, is a proper court for the trial thereof.

(3) For the purposes of this section, "local agency" shall mean any governmental district, board, or agency, or any other local governmental body or corporation, but shall not include the State of California or any of its agencies, departments, commissions, or boards.

(c) This article shall not apply to any proceeding or action pending on the effective date of this article.

1139.1. (1) The names, ages and places of residence of the trustee administering the trust in this state, the trustee, including any domiciliary trustee, in the other jurisdiction to whom administration of the trust or such trust assets will be transferred, and all persons who are interested in the trust as beneficiaries, so far as known to petitioner.

The governing board of any school district, subject to the rules and regulations prescribed by the State Board of Education, and notwithstanding anything to the contrary in Article 2 of Chapter 2 of Part 7 of Division 2 of the Labor Code may enter into an agreement with the proper authorities of any foreign country, or of any state, territory, or possession of the United States, or other district within the state, for the exchange and employment of regularly credentialed employees and employees of public schools of any foreign country, state, territory, or possession, or other district within this state. Any certificated person so employed as provided in this section shall be known as an "exchange certificated employee." No exchange shall be made without the consent of the employee to be exchanged.

Due consideration shall be given to the general qualifications and professional status of the exchange employee as compared to the general qualifications and professional status of the employee for whom exchanged. However, it shall not be a requirement that an exchange certificated employee be a teacher of the same subject or grade, or both, as the employee for whom exchanged. If the service authorized is other than teaching, it shall not be a requirement that the service be at the same grade level or that the service be exactly the same as the employee for whom exchanged.

No person may be employed as an exchange employee by a school district in the state unless he holds the necessary valid credential or credentials issued by the State Board of Education authorizing him to serve in a position requiring certification qualifications in the school district proposing to employ him for a period not to exceed one year, except that, by unanimous consent of the governing board, and of the certificated employees concerned this period may be extended to two years. The State Board of Education may establish minimum standards for the credentials for exchange certificated employees, provided however, that no exchange certificated employee shall be required to pay any fee or other charge for the issuance to him of any necessary valid credential or cre-

Any certificated person so employed as provided in this section shall be known as an "exchange certificated employee." No exchange shall be made without the consent of the employee to be exchanged.

Due consideration shall be given to the general qualifications and professional status of the exchange employee as compared to the general qualifications and professional status of the employee for whom exchanged. However, it shall not be a requirement that an exchange certificated employee be a teacher of the same subject or grade, or both, as the employee for whom exchanged. If the service authorized is other than teaching, it shall not be a requirement that the service be at the same grade level or that the service be exactly the same as the employee for whom exchanged.

No person may be employed as an exchange employee by a school district in the state unless he holds the necessary valid credential or credentials issued by the Commission for Teacher Preparation and Licensing authorizing him to serve in a position requiring certification qualifications in the school district proposing to employ him for a period not to exceed one year, except that, by unanimous consent of the governing board, and of the certificated employees concerned, this period may be extended to two years. The commission may establish minimum standards for the credentials for exchange certificated employees, provided however, that no exchange certificated employee shall be required to pay any fee or other charge for the issuance to him of any necessary valid credential or credentials authorizing him to serve in a position requiring certification qualifications in any school district in this state.

17601.1. For the purposes of this chapter, the governing board of each school district shall report to the Superintendent of Public Instruction during each fiscal year the average daily attendance of the district for all full school months during (1) the period between July 1st and December 31st, inclusive, to be known as the “first period” report for the first principal apportionment, and (2) the period between July 1st and April 15th, inclusive, to be known as the “second period” report for the second principal apportionment. The county superintendent of schools shall report the average daily attendance for the schools and classes maintained by him and the average daily attendance for the county school tuition fund. If the average daily attendance in the regular day schools of a district for the period of time between July 1 and June 30 is greater or lesser than the average daily attendance in the regular day schools reported for the second period report, the appropriate increases and decreases in the several categories of attendance for which separate foundation programs are required to be computed shall be recomputed on the basis of the foundation program and assessed valuation of the district of the fiscal year in which such increases and decreases in average daily attendance were applicable and the appropriate increases and decreases in apportionments shall be added or withheld in the next succeeding fiscal year pursuant to Section 17414.

Each report shall be prepared in accordance with instructions on forms prescribed and furnished by the Superintendent of Public Instruction and average daily attendance shall be computed in the following manner:

If the average daily attendance in schools and classes maintained by school districts other than regular day schools and classes for the period of time between July 1 and June 30 is greater or lesser than the average daily attendance in such schools and classes reported for the second period report, the separate state support which is provided for attendance in such schools and classes shall be recomputed on the basis of the fiscal year average daily attendance, and increases and

decreases in apportionments shall be added or withheld in the next succeeding fiscal year pursuant to Section 17414.

(b) The average daily attendance in grades 13 and 14 of the regular day schools of each community college shall be determined pursuant to the provisions of Article 5.5 (commencing with Section 11475). For community colleges under the provisions of this paragraph, the "first period" shall be the first semester and the "second period" shall be the "academic year" (first and second semester). Such average daily attendance shall be computed by dividing the days of attendance by 175. For community colleges, the hours of attendance shall be divided by 525, and the average daily attendance shall not exceed 1.2 times the total number of different pupils enrolled in the district in the summer school.

(d) The attendance for schools and classes maintained by the county superintendent of schools and for the county school tuition fund credited after the last full school month of the second period of the preceding year and prior to the end of each reporting period shall be reported on each report. The average daily attendance of the school, class, or fund shall be determined for the first period by dividing the days of attendance by 100 and for the second period, the days of attendance shall be divided by 175.

(e) The days of attendance in classes for adults continuation schools and classes, regional occupation centers and opportunity schools and classes maintained after the last full school month of the second period of the preceding year and prior to the end of each reporting period shall be reported on each report. The average daily attendance in such schools and classes shall be determined for the first period by dividing the days of attendance by 100; for the second period, the days of attendance shall be divided by 175.

Except as provided herein, assumption of responsibility for enforcement of this part by a city, county, or city and county does not authorize such city, county, or city and county to impose more restrictive requirements than those imposed by this part and the regulations adopted pursuant thereto or to prescribe fees for permits.

In the event of nonenforcement of this part or the regulations adopted pursuant thereto, the provisions of this part and the regulations adopted pursuant thereto shall be enforced by the department in any such city, county, or city and county after the department has given 30 days' written notice to the governing body of such city, county, or city and county setting forth in what respects the city, county, or city and county has failed to discharge its responsibility, and has failed to initiate corrective measures to carry out its responsibility.

Any city, city and county, or county, upon written notice from the governing body to the department, may cancel its assumption of responsibility for the enforcement of this part. The department, upon receipt of such notice, shall assume such responsibility within 30 days.

or to dispose of sewage or other waste therefrom when such facilities are located outside a mobilehome park, travel trailer park, recreational trailer park, or temporary trailer park for which a permit is required by this part, or the regulations adopted pursuant thereto. or

(c) From requiring a permit to use a mobilehome or camp car outside a mobilehome park, travel trailer park, recreational trailer park, or temporary trailer park for which a permit is required by this part or by regulations adopted pursuant thereto, and require a permit therefor commensurate with the cost of enforcing this part and local ordinance with reference to the use of mobilehomes and camp cars, which permit may be refused or revoked if such use violates any provisions of this part or Part 2 (commencing with Section 18000) of this division, any regulations adopted pursuant thereto, or any local ordinance applicable to such use; or

(d) From requiring a local building permit to construct an accessory structure for a mobilehome when such mobilehome is located outside a mobilehome park, travel trailer park, recreational trailer park or temporary trailer park, under circumstances which the provisions of this part or Part 2 (commencing with Section 18000) of this division and the regulation adopted pursuant thereto do not require the issuance of a permit therefor by the department.

In the operation of such vehicular or passenger ferry, the department may impose a toll for passage. For the purpose of imposing such toll, the department may employ any reasonable classification of vehicles, including, but not limited to, classification by weight, length, or number of axles.

The Department of Public Works at present has no statutory authority authorizing the installation of emergency vehicular ferry service and the charging of tolls to provide for an uninterrupted flow of traffic during the time any such bridge may be out of service.

13811. For the purposes of payments into or out of the retirement fund for adjustments of errors or omissions, the period of limitation of actions otherwise applicable shall not commence to run until the error or omission is discovered, as evidenced by the filing with this system of a claim or demand against this system or by the making of a claim or order for payment by this system against the former member, retirant, or his beneficiary, except that with respect to actions against a retirant, or beneficiary based upon erroneous payment from or to this system the period of limitation shall commence from the date of such payment.

SEC. 3. Section 13828 of the Education Code is amended to read:

13828. Except as hereinafter provided, "beneficiary" means any person receiving a survivor's allowance, death benefit, benefit under option, or any other benefit. "Beneficiary" does not include a member, former member or retirant unless specifically named as a beneficiary or by operation of law. For the purposes of this section, deposit in the United States mail of a warrant drawn in favor of a member, as refund of his contribution, and addressed to the latest address of the member on file in the office of this system, constitutes payment to the member of the amount for which the warrant is drawn.

Should a person to whom such warrant is mailed return the warrant to the system's office for cancellation within 30 days from date of mailing of warrant, the board shall cancel the warrant and reinstate the person to membership restoring to him all the rights and privileges of membership which he had at the time of the cessation of membership.

SEC. 8. Section 13997 of the Education Code is amended to read:

13997. Time during which a member is excused from performance of his duties, such as but not limited to, sick leave, holidays, or vacation, whether or not he is required to perform any portion of such duties during such time, and for which he receives compensation, including disability from any insurance carrier of his employer, under the Labor Code on account of industrial injury or disease, in an amount less than the full compensation earnable by him while performing his duties when not so excused, shall be credited as service in the proportion that the compensation paid to the member bears to the full compensation which would be earnable by him while performing his duties on a full-time basis. For purposes of this article, any certificated employee on a sabbatical leave as provided under Section 13457 receives full-time service credit for time spent on such leave, providing the member pays contributions as required by Section 14038.

SEC. 9. Section 14001 of the Education Code is repealed.

SEC. 10. Section 14038 is added to the Education Code, to read:

14038. A member receives full-time service credit for a period of sabbatical leave as provided under Section 13997 providing the member pays to the system within two years from the termination of such leave additional contributions based on the compensation, which is the difference between compensation earned and the compensation earnable during the period of sabbatical leave, in the amount of:

(a) Eight percent of such compensation as employer and state cost of granting service credit, and

(b) Member's regular contribution rate as applied to such compensation.

Regular interest is due on all contributions required under this section from the end of the school year during which the sabbatical leave was taken until date of payment of such contributions.

14061. Any overpayments made to or for the decedent either in the form of benefits, contributions or payments made

When a member's contributions are returned to him, as provided in Section 14070, all rights to benefits pertaining to the service credits represented by those contributions and the benefits payable under Section 14180, subparagraph (b)(5), are forfeited. Such rights and benefits, based upon service performed prior to refund, shall not be restored until the member has redeposited the total of the refunded contributions, and paid the regular interest thereon as provided in Article 13 (commencing with Section 14080) of this chapter.

SEC. 21. Section 14071 of the Education Code is repealed.

SEC. 22. Section 14071 is added to the Education Code, to read:

14153. A member or retirant may at any time designate a beneficiary to receive such benefits as may be payable under this chapter. Any change of beneficiary shall be in writing on a form prescribed by the system, executed by the member, witnessed by two witnesses, neither of whom may be beneficiaries or next of kin of the member, as listed in Section 14152. To be valid the instrument must be received in the office of the system before the member's death.

Such designation of beneficiary, other than a designation under options 2 and 3, may be revoked at the pleasure of the person making the nomination, and a different beneficiary designated in the same manner herein provided.

14155. If after nomination of his child or children as a beneficiary, a married member, or retirant, has issue of his marriage and such child survives him, or is born after his death, such child shall receive an equal share with those children named as such beneficiaries unless he declares in a writing filed with the system that such child is intentionally excluded as a beneficiary. No other evidence to rebut the presumption of such revocation can be received.

SEC. 25. Section 14156 of the Education Code is amended to read:

14156. Children of a deceased child (such child being a designated beneficiary or such after-born beneficiary), of the member or retirant shall receive, share and share alike, the

share that such child would have received were he living at the date of the death of such member or retirant.

SEC. 26. Section 14180 of the Education Code is amended to read:

14180. (a) Except as otherwise provided in Section 14193, 14283, 14284 or 14285 payment pursuant to subdivision (b) of this section shall be made upon receipt of proof of a member's death which occurred:

(1) Before the effective date of his retirement or after that date but before the date upon which the warrant for his first retirement allowance is mailed, including a warrant for an advance payment as permitted by Section 14370, and within four months after the termination of the member's employment in a status requisite for membership in this system, or

(2) While the member was physically or mentally incapacitated for performance of his duty, if such incapacity had been continuous from such termination.

(b) There shall be paid to the designated beneficiary:

(1) The Permanent Fund contributions, without interest, standing to the credit of his individual account, as having been made after July 1, 1935.

(2) The accumulated annuity contributions standing to the credit of the member's account.

(3) The accumulated annuity deposits standing to the credit of the individual account of the member.

(4) The accumulated tax-sheltered contributions standing to the credit of his account.

(5) There shall also be paid an amount, provided from contributions by the state, and payable from the Retirement Annuity Fund, for each completed year of service as a member, not to exceed six and excluding those years of service with respect to which contributions have been refunded and the member had not elected to redeposit, equal to one-twelfth of the salary which would have been earned by the member at the rate of salary at which he was last employed preceding death, assuming engagement in duties for the number of schooldays during the school year in which such employment existed.

If the last employment preceding death was less than full time, the salary used under this section shall be the salary earned and used in the calculation of contributions in the last preceding year.

SEC. 27. Section 14183 of the Education Code is repealed.

SEC. 28. Section 14193 of the Education Code is amended to read:

14193. Upon the death before retirement of a member who is qualified for service retirement under subdivision (a) of Section 14211, and on account of whose death the benefit provided by Section 14180 is otherwise payable, or who could have qualified for service retirement under subdivision (b) of Section 14211 at the time of his death, a monthly allowance equal to one-half of the monthly retirement allowance prior to modifica-

tion under options in Section 14280, which the member would have been entitled to receive if he had retired for service on the day following his death, shall be payable:

(a) Providing the member has nominated the surviving spouse as the primary beneficiary, or in the event the member dies leaving a surviving spouse but has failed to make any nomination of beneficiary, to the member's widow, or the member's widower who was receiving at least one-half of his support from the member at the time of the member's death, and with respect to both widow and widower, who was married to such member prior to the occurrence of the injury or onset of the illness which resulted in death provided such widow or widower does not qualify for an allowance under Section 14284; or, (b) if there is no qualifying surviving spouse, or if such spouse dies or remarries, to unmarried children, including dependent stepchildren, of the member, who are under 18 years of age.

The allowances payable under this section are in lieu of the death benefit provided by Section 14070 or by Section 14180, except for the accumulated annuity deposits and accumulated tax-sheltered contributions included therein, providing a person qualifying for the allowance or such person's guardian elects to receive the allowance in lieu of the death benefit. The member's accumulated annuity deposits and accumulated tax-sheltered contributions shall be paid to the person qualifying for the allowance, and the remainder of the accumulated contributions of the member shall be applied toward providing the allowance, and the balance not so provided shall be payable from state contributions.

If the guardian of one or more children otherwise eligible to receive the allowance elects that such death benefit be paid in lieu thereof, there shall be paid to each such child an amount equal to what the child would have received as an allowance hereunder had the election not been made (disregarding credited interest and the probability of death or marriage), and under the assumption that each monthly allowance would have been divided equally among such unmarried children then under age 18, such amounts to be reduced proportionately if their total would otherwise be in excess of the amount of such death benefit. Any balance of such death benefit remaining after such payments have been made shall be paid to the surviving spouse of the member, or if none, to the surviving children of the member, share and share alike.

The benefits under this section shall not be paid if the member's surviving spouse or children elect to receive a monthly payment in lieu of a death benefit from a local retirement system.

SEC. 29. Section 14213 of the Education Code is amended to read:

14213. A member may be retired for disability only if he:

(a) Is credited with five or more years of service, the last five of which have been served in this state, or

(b) Is credited with service performed in this state and is being retired concurrently under the Public Employees' Retirement System as a state member thereof, or under a retirement system of the University of California.

SEC. 30. Section 14214 of the Education Code is amended to read:

14214. Any member who is qualified for retirement for disability and who is physically or mentally incapacitated for further service may be retired for disability by the board upon his application, or upon the application of his guardian or conservator, if the board determines, on the basis of competent medical opinion secured by it, that the incapacity is of a permanent or of an extended and uncertain duration, and such application is made:

(a) While the member is employed in a position requiring membership in this system and is receiving compensation because of such employment, or

(b) While he is serving in the active military service of the United States, or in any other service stated in Section 13994 provided that time in such service will qualify for credit as service under this system, or

(c) While he is physically or mentally incapacitated for performance of his duty and such incapacity has been continuous from the last day for which compensation was paid to him, or

(d) While he is on a leave of absence without compensation, granted for reason other than serving in services included in subdivision (b) of this section, or mental or physical incapacity for performance of his duty, and within 18 months after the last day of employment for which compensation was paid, or

(e) When he is retired concurrently under the Public Employees' Retirement System as a state member thereof, or under a retirement system of the University of California, or

(f) Within four months after the termination of the member's employment in a position requiring membership in this system provided, first, that such application was not made under the provisions of subdivision (b) or (c), and, second, that such application was not made more than 18 months after the last day for which compensation was paid to him.

On receipt of an application for disability retirement the board may order a medical examination of a member to determine whether he is incapacitated for further service. If the applicant for disability retirement refuses to submit to the medical examination required by the board his application for disability retirement shall be canceled.

SEC. 31. Section 14214.5 of the Education Code is amended to read:

14214.5. A member who makes application for and qualifies for retirement for disability under the provisions of Sections 14213 and 14214 who is removed from classroom teaching duties because of such disability and who is not assigned other full-time duties, shall become eligible for disability retirement:

benefits commencing with the day following the last day he receives compensation from the employing school district.

SEC. 31.5. Section 14215 of the Education Code is repealed.

SEC. 32. Section 14220 of the Education Code is amended to read:

14220. The board may require any retirant retired for disability who has not attained the age of 58 years, to undergo a medical examination. If the examination, together with other available information, shows to the satisfaction of the board that he is no longer disabled, his retirement allowance shall cease, and he shall be reinstated to membership in the system. Should any such retirant refuse to submit to medical examination, as herein provided, payments to such retirant under disability retirement shall be discontinued and all rights of the retirant in the disability allowance shall be revoked.

SEC. 33. Section 14226 of the Education Code is amended to read:

14226. Any retirant who is retired for service may be employed in a position requiring certification qualifications providing he is not paid more than four thousand dollars (\$4,000), including that compensation received under Section 14225, in any one fiscal year for such employment. The employment does not operate to reinstate the retirant as a member of this system, or to terminate or suspend his retirement allowance, and no deduction shall be made from his salary as contributions to this system. The retirant may be reemployed only if able to pass a physical examination prescribed by the State Board of Education.

A certificate from a physician or surgeon licensed under Chapter 5 (commencing with Section 2000) of Division 2 of the Business and Professions Code showing that he has submitted to and passed a physical examination within the immediately preceding 12-month period and filed with the county superintendent, or, in the case of a retirant to be employed as a substitute in a position requiring certification qualifications at the California School for the Deaf or the California School for the Blind, filed with the State Department of Education, shall be conclusive evidence of his passing the physical examination required by this section.

SEC. 34. Section 14280 of the Education Code is amended to read:

14280. Before the warrant for his first retirement allowance is mailed, any member may elect to receive the actuarial equivalent of the retirement allowance payable throughout life with the provision that:

Option 1. If he dies before he has received in payments provided by his total contributions (which for the purposes of this section, shall include only his accumulated annuity contributions, his accumulated annuity deposits, his accumulated tax-sheltered contributions and his Permanent Fund contributions based on service after June 30, 1944, and credited inter-

est), the amount of such total contributions as it was at the time of his retirement, the balance of such total contributions shall be paid to his estate or to such person as he has nominated by written designation duly executed and filed with the board; or

Option 2. Upon his death his reduced retirement allowance shall be continued throughout the life of and paid to any living human being as he has nominated by written designation duly executed and filed with the board at the time of his election; or

Option 3. Upon his death, one-half of his reduced retirement allowance shall be continued throughout the life of, and paid to any living human being as he has nominated by written designation duly executed and filed with the board at the time of his election.

An election made under this section may be revoked or changed by him at any time prior to the mailing of the warrant for his first retirement allowance.

SEC. 35. Section 14286 is added to the Education Code, to read:

14286. A married member making an election of option under this article shall obtain and file with the system the spouse's written consent to such election before the election is valid.

SEC. 36. Section 14393 of the Education Code is amended to read:

14393. Payment pursuant to the board's determination in good faith of the existence, identity or other facts relating to entitlement of persons constitutes a complete discharge of and release of the system from liability for the payment so made.

Notwithstanding the provisions of Sections 161a and 172 of the Civil Code relating to community property interests, whenever payment or refund is made by this system to a member, former member, beneficiary of a member or estate of a member pursuant to any provision of this chapter, the payment shall fully discharge the system from all adverse claims there- unless, before payment is made, the system has received at its office in Sacramento written notice of adverse claim.

SEC. 37. Section 14395 of the Education Code is repealed.

SEC. 38. Section 14397 of the Education Code is amended to read:

14397. If any person entitled to a benefit from the system is a minor who has no guardian of his estate, the benefit, not to exceed two thousand dollars (\$2,000), may be paid to the person entitled to the custody of the minor to hold for the minor, upon the written statement, duly acknowledged and verified, of the person that the total estate of the minor does not exceed two thousand five hundred dollars (\$2,500) in value.

The payment shall constitute full discharge of any and all liabilities of the board and system.

The department may issue insignia for mobilehomes, recreational vehicles, or commercial coaches manufactured prior to the effective dates of the appropriate regulations which meet the requirements of this part or the regulations adopted pur-

Secretary of State October 12, 1971.]

The people of the State of California do enact as follows:

SECTION 1. Section 25003 of the Corporations Code is amended to read:

25003. "Agent" means any individual, other than a broker-dealer or a partner of a licensed broker-dealer, who represents a broker-dealer or who for compensation represents an issuer in effecting or attempting to effect purchases or sales of securities in this state. "Agent" does not include an individual who only represents an issuer in effecting transactions in securities exempted by subdivision (a), (b), (e), (f), (g), (j), (k) or (l) of Section 25100 or in effecting transactions exempted by Section 25102, and does not include an individual who has no place of business in this state if he effects transactions in this state exclusively with broker-dealers. An officer or director of a broker-dealer or issuer, or

an individual occupying a similar status or performing similar functions, is an agent only if he otherwise comes within this definition and receives compensation specifically related to purchases or sales of securities.

SEC. 2. Section 25100 of the Corporations Code is amended to read:

25100. The following securities are exempted from the provisions of Sections 25110, 25120, and 25130:

(a) Any security (including a revenue obligation) issued or guaranteed by the United States, any state, any city, county, city and county, public district, public authority, public corporation, public entity, or political subdivision of a state or any agency or corporate or other instrumentality of any one or more of the foregoing; or any certificate of deposit for any of the foregoing.

(b) Any security issued or guaranteed by the Dominion of Canada, any Canadian province, any political subdivision or municipality of any such province, or by any other foreign government with which the United States currently maintains diplomatic relations, if the security is recognized as a valid obligation by the issuer or guarantor; or any certificate of deposit for any of the foregoing.

(c) Any security issued or guaranteed by and representing an interest in or a direct obligation of a national bank or a bank or trust company incorporated under the laws of this state, and any security issued by a bank to one or more other banks and representing an interest in an asset of the issuing bank.

(d) Any security issued or guaranteed by a federal savings and loan association or federal land bank or joint land bank or national farm loan association or by any savings and loan association which is subject to the supervision and regulation of the Savings and Loan Commissioner of this state.

(e) Any security (other than an interest in a real estate development), the issuance of which is subject to authorization by the Insurance Commissioner, the Public Utilities Commission, or the Real Estate Commissioner of this state.

(f) Any security consisting of any interest in all or portions of a parcel or parcels of real property which are subdivided lands or a subdivision or in a real estate development; provided that the exemption in this subdivision shall not be applicable to any investment contract sold or offered for sale with, or as part of, any such interest, or to any corporation engaged in the business of selling, distributing or supplying water for irrigation purposes or domestic use which is not a public utility.

(g) Any shares, investment certificates or borrower's membership certificates (as defined in the Savings and Loan Association Law) issued by a savings and loan association holding a license then in force from the Savings and Loan Commissioner of this state.

(h) Any security issued or guaranteed by any federal credit union, or by any credit union organized and supervised under the laws of this state.

(i) Any security issued or guaranteed by any railroad, other common carrier, public utility, or public utility holding company which is (1) subject to the jurisdiction of the Interstate Commerce Commission or (2) a holding company registered with the Securities and Exchange Commission under the Public Utility Holding Company Act of 1935 or a subsidiary of such a company within the meaning of that act or (3) regulated in respect of the issuance or guarantee of the security by a governmental authority of the United States, of any state, of Canada or of any Canadian province; and the security is subject to registration with or authorization of issuance by such authority.

(j) Any security (except evidences of indebtedness, whether interest bearing or not) of an issuer (1) organized exclusively for educational, benevolent, fraternal, religious, charitable, social, or reformatory purposes and not for pecuniary profit, if no part of the net earnings of the issuer inures to the benefit of any private shareholder or individual, or (2) organized as a chamber of commerce or trade or professional association. The fact that amounts received from memberships or dues or both will or may be used to construct or otherwise acquire facilities for use by members of the nonprofit organization does not disqualify the organization for this exemption. This exemption does not apply to the securities of any nonprofit organization if any promoter thereof expects or intends to make a profit directly or indirectly from any business or activity associated with the organization or operation of such nonprofit organization or from remuneration received from such nonprofit organization.

(k) Any agreement, commonly known as a "life income contract," of an issuer (1) organized exclusively for educational, benevolent, fraternal, religious, charitable, social, or reformatory purposes and not for pecuniary profit and (2) which the commissioner designates by rule or order, with a donor in consideration of a donation of property to such issuer and providing for the payment to the donor or persons designated by him of income or specified periodic payments from the donated property or other property for the life of the donor or such other persons.

(l) Any note, draft, bill of exchange, or banker's acceptance which arises out of a current transaction or the proceeds of which have been or are to be used for current transactions, and which evidences an obligation to pay cash within nine months of the date of issuance, exclusive of days of grace, or any renewal of such paper which is likewise limited, or any guarantee of such paper or of any such renewal; except such promissory notes offered to the public in amounts of less than five thousand dollars (\$5,000) in the aggregate to any one purchaser.

(m) Any security issued by any corporation organized and existing under the provisions of Chapter 1 (commencing with Section 54001) of Division 20 of the Agricultural Code.

(n) Any beneficial interest in a retirement system as defined in subdivision (a) of Section 28002.

(o) Any security listed or approved for listing upon notice of issuance on a national securities exchange certified by rule or order of the commissioner and any warrant or right to purchase or subscribe to any such security.

Such certification of an exchange shall be made by the commissioner upon the written request of the exchange if he finds that the exchange, in acting on applications for listing of common stock substantially applies each of the minimum standards set forth in subparagraph (1) below, and in considering suspension or removal from listing, substantially applies each of the criteria set forth in subparagraph (2) below.

(1) Listing standards:

(i) Net tangible assets of at least two million dollars (\$2,000,000).

(ii) Net income of at least two hundred fifty thousand dollars (\$250,000) after all charges including federal income taxes in the fiscal year immediately preceding the filing of a listing application and net income before such taxes of at least five hundred thousand dollars (\$500,000).

(iii) Minimum public distribution of 250,000 shares excluding the holdings of officers, directors, controlling shareholders and other concentrated or family holdings among not less than 900 holders including not less than 600 holders of lots of 100 shares or more, with a corresponding requirement that such securities not be largely held in blocks by institutional investors.

(iv) Minimum price of four dollars (\$4) per share for reasonable period of time prior to the filing of a listing application.

(v) An aggregate market value for publicly held shares of at least one million five hundred thousand dollars (\$1,500,000).

(2) Criteria for consideration of suspension or removal from listing:

(i) If a company which (A) has net tangible assets of less than one million dollars (\$1,000,000) has sustained net losses in each of its two most recent fiscal years, or (B) has net tangible assets of less than three million dollars (\$3,000,000) and has sustained net losses in three of its four most recent fiscal years.

(ii) If the number of shares publicly held (excluding the holdings of officers, directors, controlling shareholders and other concentrated or family holdings) is less than 150,000.

(iii) If the total number of shareholders of record is less than 450 or if the number of shareholders of lots of 100 shares or more is less than 300.

(iv) If the aggregate market value of shares publicly held is less than seven hundred fifty thousand dollars (\$750,000).

(v) If shares of common stock sell at a price of less than four dollars (\$4) per share for a substantial period of time and the issuer shall fail to effectuate a reverse stock split of such shares within a reasonable period of time after being requested by the exchange to take such action.

The commissioner after appropriate notice and opportunity for hearing in accordance with the provisions of the Administrative Procedure Act, Chapter 5 (commencing with Section 11500) of Part I of Division 3 of Title 2 of the Government Code, made by rule or order, decertify any exchange previously certified which ceases substantially to apply the standards or criteria as set forth above. A rule or order of certification shall conclusively establish that any security listed or approved for listing upon notice of issuance on any exchange named in a rule or order of certification and any warrant or right to purchase or subscribe to any such security is exempt under this subdivision until the adoption of any rule or order decertifying such exchange.

(p) A promissory note secured by a lien on real property, which is not one of a series of notes secured by interests in the same real property.

SEC. 3. Section 25103 of the Corporations Code is amended to read:

25103. The following transactions are exempted from the provisions of Section 25110 and Section 25120:

(a) Any negotiations or agreements prior to general solicitation of shareholders' approval, and subject to such approval, of a change in the rights, preferences, privileges, or restrictions of or on outstanding securities or a merger, consolidation or sale of corporate assets in consideration of the issuance of securities.

(b) Any change in the rights, preferences, privileges, or restrictions of or on outstanding securities, unless the holders of at least 25 percent of the outstanding shares or units of any class of securities which will be directly or indirectly affected substantially and adversely by such change have addresses in this state according to the records of the issuer.

(c) Any exchange incident to a merger, consolidation, or sale of corporate assets in consideration of the issuance of securities of another corporation, unless at least 25 percent of the outstanding shares of any class the holders of which are to receive securities in the exchange, are held by persons who have addresses in this state according to the records of the corporation of which they are shareholders.

(d) For the purposes of subdivision (b) and subdivision (c) of this section, (1) any securities held to the knowledge of the issuer in the names of broker-dealers or nominees of broker-dealers and (2) any securities controlled by any one person who controls directly or indirectly 50 percent or more of the outstanding securities of that class shall not be considered outstanding. The determination of whether 25 percent of the outstanding securities are held by persons having ad-

dresses in this state, for the purposes of subdivision (b) and subdivision (c) of this section, shall be made as of the record date for the determination of the security holders entitled to vote on or consent to the action, if approval of such holders is required, or if not as of the date of directors' approval of such action.

(e) Any change (other than a stock split or reverse stock split) in the rights, preferences, privileges, or restrictions of or on outstanding shares, except the following if they substantially and adversely affect any class of shareholders: (1) to authorize the corporation to levy assessments thereon; (2) to change the rights to dividends thereon; (3) to change the redemption provisions; (4) to make them redeemable; (5) to change the amount payable on liquidation; (6) to change the conversion rights; (7) to change the voting rights; (8) to change preemptive rights; (9) to change sinking fund provisions; (10) to rearrange the relative priorities of outstanding shares; (11) to impose or to change restrictions upon the transfer of shares in the articles of incorporation or bylaws; (12) to change the right of shareholders with respect to the calling of special meetings of shareholders; and (13) to change any rights of the shareholders or members of a mutual water company.

(f) Any stock split or reverse stock split, except the following: (1) any stock split or reverse stock split if the corporation has more than one class of voting shares outstanding; (2) any stock split of a stock which is traded in the market and its market price as of the date of directors' approval of the stock split adjusted to give effect to the split was less than two dollars (\$2) per share; and (3) any reverse stock split if the stock is not traded in the market and the corporation has the option of paying cash for any fractional shares created by such reverse split and as a result of such action the proportionate interests of the shareholders would be substantially altered. Any shares issued upon a stock split or reverse stock split exempted by this subdivision shall be subject to any conditions previously imposed by the commissioner applicable to the shares with respect to which they are issued.

(g) Any change in the rights of outstanding debt securities, except the following if they substantially and adversely affect any class of securities: (1) to change the rights to interest thereon; (2) to change their redemption provisions; (3) to make them redeemable; (4) to extend the maturity thereof or to change the amount payable thereon at maturity; (5) to change their voting rights; (6) to change their conversion rights; (7) to change sinking fund provisions; and (8) to make them subordinate to other indebtedness.

SEC. 4. Section 25133 of the Corporations Code is amended to read:

25133. It is unlawful for any person without the written consent of the commissioner to consummate the transfer of any securities heretofore or hereafter placed in escrow pur-

suant to a condition ordered by the commissioner and which have not been released from escrow, or which are subject to a currently effective legend condition requiring such consent (except as permitted therein), or which are issued pursuant to the exemption in subdivision (h) of Section 25102 (except as permitted by rule or order of the commissioner), or concerning which the commissioner has issued a written notice to the holders thereof pursuant to Section 25534 ordering the certificates evidencing such securities to be stamped or printed with a legend as provided in such section.

SEC. 5. Section 25503 of the Corporations Code is amended to read:

25503. Any person who violates Section 25110 or 25130 shall be liable to any person acquiring from him the security sold in violation of such section, who may sue to recover the consideration he paid for such security with interest thereon at the legal rate, less the amount of any income received therefrom, upon the tender of such security, or for damages, if he no longer owns the security, or if the consideration given for the security is not capable of being returned. Damages, if the plaintiff no longer owns the security, shall be equal to the difference between (a) his purchase price plus interest at the legal rate from the date of purchase and (b) the value of the security at the time it was disposed of by the plaintiff plus the amount of any income received therefrom by the plaintiff.

Damages, if the consideration given for the security is not capable of being returned, shall be equal to the value of that consideration plus interest at the legal rate from the date of purchase, provided the security is tendered; and if the plaintiff no longer owns the security, damages in such case shall be equal to the difference between (a) the value of the consideration given for the security plus interest at the legal rate from the date of purchase and (b) the value of the security at the time it was disposed of by the plaintiff plus the amount of any income received therefrom by the plaintiff. Any person who violates Section 25120 shall be liable to any person acquiring from him the security sold in violation of such section who may sue to recover the difference between (a) the value of the consideration received by the seller and (b) the value of the security at the time it was received by the buyer, with interest thereon at the legal rate from the date of purchase. Any person on whose behalf an offering is made and any underwriter of the offering, whether on a best efforts or a firm commitment basis, shall be jointly and severally liable under this section, but in no event shall any underwriter (unless such underwriter shall have knowingly received from the issuer for acting as an underwriter some benefit, directly or indirectly, in which all other underwriters similarly situated did not share in proportion to their respective interest in the underwriting) be liable in any suit or suits authorized under this section for damages in excess of the total price at which the securities underwritten by him and distributed to the public were

offered to the public. Any tender specified in this section may be made at any time before entry of judgment. No person shall be liable under this section if the sale of the security is qualified prior to the payment or receipt of any part of the consideration for the security sold, even though an offer to sell or a contract of sale may have been made or entered into without qualification.

Sec. 6. Section 25534 is added to the Corporations Code, to read:

25534. Whenever any securities are issued which the commissioner determines were offered or sold in violation of Section 25110, 25120, or 25130, the commissioner may, by written order to the issuer and notice to the holders of such securities, require certificates evidencing such securities to have stamped or printed prominently on their face a legend, in the form prescribed by rule of the commissioner, restricting the transfer of such securities. Upon receipt of the order, the issuer shall stamp or print such legend prominently on the face of all outstanding certificates subject to the order. If, after such order or notice has been given, a request for a hearing is filed in writing by the person or persons to whom such order or notice was addressed, a hearing shall be held in accordance with the provisions of the Administrative Procedure Act, Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code, and the commissioner shall have all the powers granted thereunder; unless such hearing is commenced within 15 days after the request for hearing is received by the commissioner (or the person or persons affected and the issuer consent to a later date), such order and notice are rescinded.

SEC. 7. Section 25800 of the Corporations Code is amended to read:

25800. Except as to applications filed on or before January 2, 1972, this part shall remain in effect only until January 2, 1972, and on and after such date shall have no force or effect.

Each egg dealer shall pay to the director a maximum fee of one mill (\$.001) per dozen of eggs in containers designed to hold other than one dozen shell eggs and one dozen containers on which no California fee has been paid.

27552. The fees provided in Section 27551 are maximum fees and may be established at a lower rate by the director at any time the funds derived from such assessment are more than reasonably necessary to cover the cost of administration and enforcement of this chapter, including the maintenance of a reasonable reserve fund for such purposes.

27553. The director may, by regulation, prescribe the frequency of payment of such assessments, the procedures for such payment, the procedures for refunds of payment, and penalties for late payment.

27554. The moneys which are received by the director pursuant to this chapter shall be deposited in the Department of Agriculture Fund and shall be used only for the administration and enforcement of this chapter, including, but not limited to, payments to county agricultural commissioners pursuant to Article 5 (commencing with Section 27561). 27562. The director shall determine the necessary amount to be expended by each county and the department to achieve adequate administration and enforcement of this chapter, including, but not limited to, uniformity of inspection in all counties.

27563. Within 90 days after the end of each fiscal year, the commissioner of a county shall submit, in the form prescribed by the director, a statement to the director which shows

the expenditures of funds in the enforcement and administration of this chapter for that fiscal year. Such statement shall be subject to audit by the director.

27564. Each fiscal year the director shall prepare a statement which shows the receipt and expenditure for each county as well as those funds expended by the director during the fiscal year of funds provided for in this chapter. The director shall, upon written request of any person who is financially interested in the inspection work which is conducted pursuant to this chapter, forward a copy of such report to any such person.

27565. The director may enter into an agreement with any commissioner for the enforcement of this chapter or the regulations adopted pursuant to this chapter.

27566. If any commissioner does not adequately and properly enforce the provisions of this chapter, or regulations adopted pursuant to this chapter, or any agreement, as determined by the director, the director shall provide these services and expend that county's share of the assessment fees for the proper enforcement of this chapter, in lieu of the reimbursement to such counties pursuant to Sections 27554 and 27562.

Article 6. Shell Egg Advisory Committee

27571. The director shall appoint a Shell Egg Advisory Committee consisting of seven members, six of whom shall be selected by the director from egg dealers and be representative of the egg industry. 27574. The committee shall meet at the call of its chairman, the director, or at the request of any three members of the committee. The committee shall meet at least once a year. Necessary expenditures incurred by the committee members in attending committee meetings may be reimbursed in accordance with Board of Control rules for such expenses.

Article 7. Civil Penalties and Remedies

27581. The director may bring an action to enjoin any violation or any threatened violation of any provisions of this chapter or any regulations thereunder in the superior court in the county in which the violation occurred or is about to occur. Any proceeding pursuant to this section shall conform to the requirements of Chapter 3 (commencing with Section 525) of Title 7 of Part 2 of the Code of Civil Procedure. The director shall not, however, be required to allege facts necessary to show or tending to show lack of adequate remedy at law or to show or tending to show irreparable damage or loss.

27592. Any enforcement officer may, while enforcing this chapter or any regulations adopted by the director pursuant to this chapter, issue a hold card for all or any part of any pack, load, lot, consignment, or shipment of eggs which are packed, stored, delivered for shipment, loaded, shipped, transported, or sold in violation of any provision of this chapter or any regulation adopted pursuant to this chapter.

Article 9. Abatement

27601. The district attorney of the county in which the eggs and their containers which are a public nuisance are found, at the request of the director or of any enforcement officer, shall maintain, in the name of the people of the State of California, a civil action to abate and prevent the public nuisance.

Upon judgment and by order of the court, the eggs and their containers which are a public nuisance shall be condemned and destroyed in the manner which is directed by the court, or reconditioned, re-marked, denatured, or otherwise processed, or released upon such conditions as the court in its discretion may impose to insure that the nuisance shall be abated.

If the owner fails to comply with the order of the court within the time which is specified in the order, the court may order disposal of the eggs and their containers or their sale, under such terms and conditions as the court may prescribe, by the enforcement officer, or by the sheriff, marshal, or constable.

If the court orders the sale of any of the eggs and their containers which can be salvaged, the costs of disposal shall be deducted from the proceeds of sale and the balance paid into court for the owner.

Article 11. Shippers and Transporters

27621. Any person, forwarding company, or common carrier may decline to ship or transport any eggs if it is notified by an enforcement officer that the eggs are found to be not in conformity with any provision of this chapter or regulation adopted pursuant to this chapter.

Any person, forwarding company, or common carrier may reserve the right, in any receipt, bill of lading, or other writing given to the shipper of any eggs, to reject for shipment and to return to, or hold at the expense and risk of, such shipper, all eggs which, upon inspection, are found to be not in conformity with any provision of this chapter or regulation adopted pursuant to this chapter.

A person, forwarding company, or common carrier that transports any eggs at the request of the shipper or owner of the eggs does not violate any provisions of this chapter or regulation, unless such person, forwarding company, or common carrier willfully fails or refuses to stop the transporta-

tion of the eggs with reasonable dispatch after being notified in writing by an enforcing officer of this chapter or regulation adopted pursuant to this chapter that such eggs are found to be delivered for shipment in violation of this chapter or regulation adopted pursuant to this chapter.

27637. It is unlawful for any person to make any statement, representation, or assertion orally, by public outcry, or proclamation, or in writing, or by any other manner or means whatever concerning the quality, size, weight, condition, source, origin, or any other matter relating to eggs which is false, deceptive, or misleading in any particular.

Article 13. Ungraded Eggs

27651. It is unlawful for any person to sell to any retailer, consumer, or institution consumer, any eggs which are ungraded as to quality and size, except that the director, upon the written application of any producer, may find and proclaim that an emergency exists which prevents the normal marketing of eggs by the applicant and other producers in the same area.

27652. During an emergency which is proclaimed pursuant to Section 27651, producers in the area in which the emergency has been proclaimed to exist may sell to any retailer, consumer, or institution consumer, eggs which were produced upon the premises of the producers which are ungraded as to size and quality, and any retailer may sell such eggs to any consumer or institution consumer. Each container of eggs which is so sold and all invoices which relate to the eggs shall both:

(b) In cases which do not involve willful or intentional violation, by a fine not to exceed five hundred dollars (\$500).

Any prosecution for a violation of any provision of this chapter or any regulation adopted pursuant to this chapter may be instituted in any county where any part of the offense occurred. Any evidence which is taken by any enforcement officer in any county may be admitted in evidence in any prosecution in any other county.

27672. It is unlawful for any person to fail to appear in court at the time and place designated in any written promise to appear given after arrest pursuant to this chapter or any regulation adopted pursuant to this chapter, regardless of the disposition of the offense originally charged.

27673. Unless a person who is arrested for the transportation of eggs in violation of any provision of this chapter or any regulation adopted pursuant to this chapter demands the right of an immediate appearance before a magistrate, the procedures as prescribed in Chapter 5C (commencing with Section 853.6) of Title 3 of Part 2 of the Penal Code shall be followed.

(c) As directed by the board, the examining committee, or subcommittees thereof appointed by the board, may receive and investigate complaints and obtain information and evidence relating to any matter involving the conduct of dentists or dental hygienists or any violation or alleged violation of any of the provisions of this chapter by dentists or dental hygienists.

1621.6. Each member of the committee shall receive a per diem and expenses as provided in Section 103.

SEC. 2. Section 1647 is added to the Business and Professions Code, to read:

1647. Effective with the 1974 license renewal period, if the board determines that the public health and safety would be served by requiring all holders of licenses to practice dentistry granted under the provisions of this chapter to continue their education after receiving such license, it may require, as a condition to the renewal thereof, that they submit assurances satisfactory to the board that they will, during

the succeeding two-year period, inform themselves of the developments in the practice of dentistry occurring since the original issuance of their licenses by pursuing one or more courses of study satisfactory to the board or by other means deemed equivalent by the board.

CHAPTER 1012

An act to add Section 190.4 to the Streets and Highways Code, relating to grade separation projects.

[Approved by Governor October 12, 1971. Filed with
Secretary of State October 12, 1971.]

The people of the State of California do enact as follows:

SECTION 1. Section 190.4 is added to the Streets and Highways Code, to read:

190.4. Peralta Boulevard, which is a part of Route 84 in the City of Fremont, is hereby declared to be a city street within the meaning of Sections 189 and 190, and is eligible for allocation of funds for grade separation pursuant to Section 190.

The Legislature hereby finds and declares that, although Peralta Boulevard is presently a portion of Route 84, the commission has approved an alternate routing, the department has commenced acquisition of the property necessary for the right-of-way along the new route, and Peralta Boulevard will be returned to the City of Fremont within a few

years. Because of the heavy traffic congestion at the intersection of Peralta Boulevard and Mission Boulevard, Route 238, and westerly along Peralta Boulevard where Peralta Boulevard is presently grade separated at the intersection of Southern Pacific Transportation Company's railroad tracks, it is necessary that Peralta Boulevard be eligible for grade separation allocation as soon as possible, since the existing grade separation is inadequate for the traffic flow on Peralta Boulevard.

CHAPTER 1013

An act to add Section 21107.8 to the Vehicle Code, relating to traffic enforcement.

[Approved by Governor October 12, 1971. Filed with
Secretary of State October 2, 1971.]

SECTION 1. Section 21107.8 is added to the Vehicle Code, to read:

21107.8. (a) Any city or county with a population of 1,000,000 or less may, by ordinance or resolution, find and declare that there are privately owned and maintained off-street parking facilities as described in such ordinance or resolution within the city or county that are generally held open for use of the public for purposes of vehicular parking. Upon enactment by a city or county of such an ordinance or resolution, Sections 22350, 23103, and 23109 shall apply to any such privately owned and maintained off-street parking facilities, except as provided in subdivision (b).

(b) Notwithstanding the provisions of subdivision (a), no ordinance or resolution enacted thereunder shall apply to any off-street parking facility described therein unless the owner or operator has caused to be posted in a conspicuous place at each entrance to such off-street parking facility a notice not less than 17 by 22 inches in size with lettering not less than one inch in height, to the effect that such off-street parking facility is subject to public traffic regulations and control.

(c) No ordinance or resolution shall be enacted under subdivision (a) without a public hearing thereon and 10 days prior written notice to the owner and operator of the privately owned and maintained off-street parking facility involved.

(d) The department shall not be required to provide patrol or enforce any provisions of this code on any privately owned and maintained off-street parking facility subjected to the provisions of this code under this section except those provisions applicable to private property other than by action under this section.

CHAPTER 1014

An act to add Sections 25210.77e, 25210.77f, 25830, and 25831 to the Government Code, relating to counties.

[Approved by Governor October 12, 1971. Filed with Secretary of State October 12, 1971.]

The people of the State of California do enact as follows:

SECTION 1. Section 25210.77e is added to the Government Code, to read:

25210.77e. On or before the first day of July of each calendar year, the board of supervisors of any county may, by resolution or ordinance, establish a schedule of fees to be imposed on land within a county service area, revenue from such fees to be used for the acquisition, operation and maintenance of county waste disposal sites. In establishing the schedule of fees, the board of supervisors shall classify the land within the county service area based upon the various uses to which the land is put, the volume of waste occurring from the different land uses and any other factors that the board determines would reasonably relate the waste disposal fee to the land upon which it would be imposed.

The board shall set a reasonable fee for each category established and divide the land within the county service areas according to categories and ownership. The board shall impose the appropriate fee upon each division of land and provide for the billing and collection of such fees. The fees may be established, billed and collected on a monthly or yearly basis.

SEC. 2. Section 25210.77f is added to the Government Code, to read:

25210.77f. Any waste disposal fees authorized pursuant to Section 25210.77e which remain unpaid for a period of 60 or more days after the close of the period for which they were billed may be collected by the county as provided herein.

(a) Once a year the board of supervisors shall cause to be prepared a report of delinquent waste disposal fees. Upon receipt of the report the board shall fix a time, date and place for hearing the reports and any objections or protests thereto.

(b) The board shall cause notice of the hearing to be mailed to the landowners listed on the report not less than 10 days prior to the date of the hearing.

(c) At the hearing the board shall hear any objections or protests of landowners liable to be assessed for delinquent waste disposal fees. The board may make such revisions or corrections to the report as it deems just, after which, by resolution, the report shall be confirmed.

(d) The delinquent fees set forth in the report as confirmed shall constitute special assessments against the respective parcels of land and are a lien on the property for the amount of such delinquent fees. A certified copy of the confirmed re-

port shall be filed with the county auditor for the amounts of the respective assessments against the respective parcels of land as they appear on the current assessment roll. The lien created attaches upon recordation, in the office of the county recorder of the county in which the property is situated, of a certified copy of the resolution of confirmation. The assessment may be collected at the same time and in the same manner as ordinary county ad valorem property taxes are collected and shall be subject to the same penalties and the same procedure and sale in case of delinquency as provided for such taxes. All laws applicable to the levy, collection and enforcement of county ad valorem property taxes shall be applicable to such assessment.

SEC. 3. Section 25830 is added to the Government Code, to read:

25830. On or before the first day of July of each calendar year, the board of supervisors of any county may, by resolution or ordinance, establish a schedule of fees to be imposed on land within the unincorporated area of the county, revenue from such fees to be used for the acquisition, operation and maintenance of county waste disposal sites. In establishing the schedule of fees, the board of supervisors shall classify the land within the unincorporated area of the county based upon the various uses to which the land is put, the volume of waste occurring from the different land uses and any other factors that the board determines would reasonably relate the waste disposal fee to the land upon which it would be imposed.

The board shall set a reasonable fee for each category established and divide the land within the unincorporated territory according to categories and ownership. The board shall impose the appropriate fee upon each division of land and provide for the billing and collection of such fees. The fees may be established, billed and collected on a monthly or yearly basis.

SEC. 4. Section 25831 is added to the Government Code, to read:

25831. Any waste disposal fees authorized pursuant to Section 25830 which remain unpaid for a period of 60 or more days after the close of the period for which they were billed may be collected by the county as provided herein.

(a) Once a year the board of supervisors shall cause to be prepared a report of delinquent waste disposal fees. Upon receipt of the report the board shall fix a time, date and place for hearing the reports and any objections or protests thereto.

(b) The board shall cause notice of the hearing to be mailed to the landowners listed on the report not less than 10 days prior to the date of the hearing.

(c) At the hearing the board shall hear any objections or protests of landowners liable to be assessed for delinquent waste disposal fees. The board may make such revisions or corrections to the report as it deems just, after which, by resolution, the report shall be confirmed.

(d) The delinquent fees set forth in the report as confirmed shall constitute special assessments against the respective parcels of land and are a lien on the property for the amount of such delinquent fees. A certified copy of the confirmed report shall be filed with the county auditor for the amounts of the respective assessments against the respective parcels of land as they appear on the current assessment roll. The lien created attaches upon recordation, in the office of the county recorder of the county in which the property is situated, of a certified copy of the resolution of confirmation. The assessment may be collected at the same time and in the same manner as ordinary county ad valorem property taxes are collected and shall be subject to the same penalties and the same procedure and sale in case of delinquency as provided for such taxes. All laws applicable to the levy, collection and enforcement of county ad valorem property taxes shall be applicable to such assessment.

CHAPTER 1015

An act to amend Section 21954 of the Vehicle Code, relating to pedestrians.

[Approved by Governor October 12, 1971. Filed with Secretary of State October 12, 1971.]

The people of the State of California do enact as follows:

SECTION 1. Section 21954 of the Vehicle Code is amended to read:

The construction, operation, or maintenance costs of any screen required pursuant to this article shall be borne by the owner of the diversion.

The department within 30 days of receipt of a notice of such diversion, or within the time determined by mutual written agreement, shall submit to the owner its proposals as to measures necessary to protect the salmon and steelhead. The department shall notify the owner that it shall make on-site investigation and shall make any other investigation before it shall propose any measure necessary to protect fishlife.

The department, or any agency of the state, shall provide the owner of the diversion any available information which is required by such owner in order to comply with the provisions of this article.

The diversion shall not commence until the department has determined that measures necessary to protect fishlife have been incorporated into the plans and construction of such diversion.

CHAPTER 1017

[Approved by Governor October 12, 1971. Filed with Secretary of State October 12, 1971.]

The people of the State of California do enact as follows:

SECTION 1. Section 21953 of the Vehicle Code is amended to read:

21953. CHAPTER 1018

An act to amend and supplement the Budget Bill for the 1971-72 fiscal year (enacted as the Budget Act of 1971) by adding thereto Section 2.6A, relating to an appropriation for development of State Water Project recreational facilities, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor October 12, 1971. Filed with Secretary of State October 12, 1971.]

The people of the State of California do enact as follows:

SECTION 1. Section 2.6A is added to the Budget Bill for the 1971-72 fiscal year enacted as the Budget Act of 1971 (Chapter 266, Statutes of 1971), to read:

**RECREATION AND FISH AND WILDLIFE ENHANCEMENT
BOND ACT PROGRAM**

SEC. 2.6A. The following sum of money, or so much thereof as may be necessary, is hereby appropriated for expenditure during the 1971-72, 1972-73, and 1973-74 fiscal years out of the Recreation and Fish and Wildlife Enhancement Fund.

**PARKS AND RECREATION ACQUISITION AND
DEVELOPMENT PROGRAM**

Item	Amount
327A—For capital outlay, Department of Parks and Recreation, for purposes of the Recreation and Fish and Wildlife Enhancement Bond Act, payable from the Recreation and Fish and Wildlife Enhancement Fund -----	92,000
Schedule:	
(a) For development, Lake Oroville State Recreation Area --	92,000

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The present provisions of the Budget Act of 1971 do not make adequate provision for the existing and anticipated shortage of recreational facilities in connection with state water projects. The capital outlay appropriation in this act is in continuation of an existing program under the Recreation and Fish and Wildlife Enhancement Bond Act to remedy the aforesaid shortage of facilities. If the appropriation is not available for expenditure at the earliest possible date, the existing program will be delayed. The expeditious correction of

such condition and the efficient operation of State Water Project recreational facilities requires the immediate availability of the capital outlay appropriation contained in this measure. It is therefore necessary that this act go into immediate effect.

1747. This title may be cited as the "Song-Beverly Credit Card Act of 1971."

1747.02. As used in the title:

(a) "Credit card" means any card, plate, coupon book, or other credit device existing for the purpose of being used from time to time upon presentation to obtain money, property, labor, or services on credit. "Credit card" shall not mean any

single credit device used to obtain telephone property, labor or services in any transactions under public utility tariffs.

(b) "Accepted credit card" means any credit card which the cardholder has requested or applied for and received or has signed, or has used, or has authorized another person to use, for the purpose of obtaining money, property, labor, or services on credit. Any credit card issued in renewal of, or in substitution for, an accepted credit card becomes an accepted credit card when received by the cardholder, whether such card is issued by the same or a successor card issuer.

(c) "Card issuer" means any person who issues a credit card or the agent of such person for such purpose with respect to such card.

(d) "Cardholder" means any person to whom a credit card is issued or any person who has agreed with the card issuer to pay obligations arising from the issuance of a credit card to another person.

(b) As a renewal of, or in substitution for, an accepted credit card whether such card is issued by the same or a successor card issuer.

1747.10. A cardholder is not liable for any unauthorized use of a credit card which has not become an accepted credit card and was originally issued or renewed on or after November 10, 1969.

1747.20. If an accepted credit card is lost or stolen after the credit card has reached the cardholder, and the cardholder notifies the card issuer within a reasonable time by telephone, telegraph, letter, or any other reasonable means after discovery of loss or theft or after the time in which a reasonable man in the exercise of ordinary care would have discovered the loss or theft, the cardholder is not liable for any unauthorized use of the credit card. In no event shall the liability of a cardholder for the unauthorized use of a credit card exceed fifty dollars (\$50).

This section applies only to credit cards which are originally issued or renewed on or after November 10, 1969.

1747.30. Whenever fees, charges, or penalties are assessed against a cardholder for the use of a credit card, the card issuer shall separately state and label all such fees, charges, and penalties.

1747.40. If a card issuer fails to give a timely response to an inquiry of a cardholder concerning any debit or credit applicable to an obligation incurred through the use of a credit card, he shall not be entitled to interest, finance charges, service charges, or any other charges thereon, from the date of mailing of the inquiry to the date of mailing of the response.

1747.50. (a) Every card issuer shall correct any billing error made by the card issuer within 60 days from the date on which an inquiry concerning the billing error was mailed.

1747.60. (a) Every retailer shall correct any billing error made by the retailer within 60 days from the date on which an inquiry concerning a billing error was mailed.

(b) Any retailer who fails to correct a billing error made by the retailer within the period prescribed by subdivision

(a) shall be liable to the cardholder in the amount by which the outstanding balance of the cardholder's account is greater than the correct balance, and any interest, finance charges, service charges, or other charges on the obligation giving rise to the billing error.

(c) Any cardholder who is injured by a willful violation of this section may bring an action for the recovery of damages. Judgment may be entered for three times the amount at which actual damages are assessed. The cardholder shall be entitled to recover reasonable attorney's fees and costs incurred in the action.

(b) No card issuer, after receiving an inquiry from a cardholder regarding a billing error and prior to satisfying the requirements of Section 1747.50, shall communicate unfavorable credit information concerning the cardholder to any person solely because of the cardholder's failure to pay the amount by which the outstanding balance of the cardholder's account is greater than the correct balance.

(c) No card issuer shall cancel or refuse to renew a credit card for the reason that the cardholder has obtained relief under Section 1747.50.

(d) Any cardholder who is injured by a willful violation of this section may bring an action for the recovery of damages. Judgment may be entered for three times the amount at which actual damages are assessed. The cardholder shall be entitled to recover reasonable attorney's fees and costs incurred in the action.

1747.80. (a) No card issuer shall refuse to issue a credit card to any person solely because of that person's race, religious creed, color, national origin, ancestry or sex.

(b) Any card issuer who willfully violates this section is liable for each and every such offense for the actual damages, and two hundred fifty dollars (\$250) in addition thereto, suffered by any person denied a credit card solely for the reasons set forth in subdivision (a), and in addition such person may petition the court to order the card issuer to issue him a credit card upon such terms, conditions, and standards as the card issuer normally utilizes in granting credit to other individuals.

1747.90. (a) The right of a card issuer to recover any credit extended through use by the cardholder of a credit card in making purchases from a retailer shall be subject to the defenses which the cardholder has as a buyer against the retailer from whom the cardholder made the purchases if:

(1) The purchase price of the item as to which a defense is asserted exceeds fifty dollars (\$50).

(2) The purchase was made within this state.

(3) The cardholder shall have made a written demand on the retailer with respect to the purchase and attempted in good faith to obtain reasonable satisfaction from the retailer.

(4) The cardholder gives written notice to the card issuer specifying the retailer, date of purchase, amount thereof, the goods or service purchased, the nature of the cardholder's defense with respect thereto, and those acts, if any, that the cardholder has taken in attempting to obtain satisfaction from the retailer.

(b) The amount with respect to which a defense may be asserted under this section shall not exceed the amount outstanding with respect to the purchase involved, and any late charges or finance charges on such amount, determined as of the time the retailer receives the written demand required from the cardholder pursuant to paragraph (3) of subdivision (a) or the card issuer receives the written notice from the cardholder pursuant to paragraph (4) of subdivision (a), whichever is received first. For the purpose of determining the amount outstanding, the payments and credits to the cardholder's account are deemed to have been applied, in the order indicated, to the payment of:

(1) Late charges in the order of their entry to the account.

(2) Finance charges in order of their entry to the account.

(3) Debits to the account other than those set forth above, in the order in which each debit entry to the account was made.

(c) Use by the cardholder of a credit card, for purposes of this section, shall include only an authorized use and shall be deemed to exclude both:

(2) Payment by check, whether or not such a payment results in a credit extension to the cardholder by the card issuer and whether or not a credit card was used to induce the seller to accept the check.

(d) Rights of the cardholder under this section can be asserted only as a matter of defense to or set off against a claim by the card issuer under its agreement with the cardholder. The rights provided are exclusive with respect to card issuer responsibility for acts or omissions of a retailer; a card issuer shall not otherwise be subject to defenses or claims which the cardholder has as a buyer against a retailer.

(e) Notwithstanding any other provision of this section, where a card issuer knows or has reason to know of willful

or repeated unlawful acts of a retailer in connection with retail sales, the rights granted under this section shall not be exclusive but shall be in addition to any other remedies provided by law.

(f) Within 90 days after the effective date of this act to each cardholder whose account was active on the effective date of this act, and prior to the first use of the credit card to each new cardholder who is issued a credit card after the effective date of this act, the card issuer shall send a written notice which cites this act and describes the procedure to be followed under subdivision (a) of this section.

(g) This section shall not apply to card issuers who operate retail outlets where use of the credit card is limited exclusively to such retail outlets.

Article 5.5. Funeral Practices

7685. Every funeral director shall provide to any person with whom an agreement is entered for the performance of funeral services, at some time before the person enters such agreement, a written or printed list containing but not necessarily limited to the price for professional services offered, which may include the funeral director's services, the preparation of the body, the use of facilities, and the use of automotive equipment. 7685.2. No funeral director shall enter into a contract for furnishing services or property in connection with the burial or other disposal of a dead human body until he has first submitted to the potential purchaser of such services or property a written or printed memorandum containing the following, provided such information is available at the time of execution of the contract:

An owner of any estate in real property who gives permission to another for entry or use for the above purposes upon the premises does not thereby (a) extend any assurance that the premises are safe for such purposes, or (b) constitute the person to whom permission has been granted the legal status of an invitee or licensee to whom a duty of care is owed, or (c) assume responsibility for or incur liability for any injury to person or property caused by any act of such person to whom permission has been granted except as provided in this section.

This section does not limit the liability which otherwise exists (a) for willful or malicious failure to guard or warn against a dangerous condition, use, structure or activity; or (b) for injury suffered in any case where permission to enter for the above purposes was granted for a consideration other than the consideration, if any, paid to said landowner by the state; or (c) to any persons who are expressly invited rather than merely permitted to come upon the premises by the landowner.

Nothing in this section creates a duty of care or ground of liability for injury to person or property.

Article 3.3. Child Nutrition

310. The Legislature finds that medical, educational and psychological evidence increasingly points to adequate nutrition as a determinant not only of good physical health but also of full intellectual development and educational achievement, with adequate nutrition in the earliest months and years being particularly important for full development of the child's mind and body, that problems of child nutrition cut across income lines and can result not only from low income but also from parental ignorance or neglect and that there is a need for a statewide child nutrition program which has the potential of reaching all pregnant women and mothers of infants.

311. The State Department of Public Health may establish a five-year pilot project in not more than six counties to serve areas designated by the city or county health department or city and county health department as areas of high nutritional need under guidelines established by the department. If the state department establishes a pilot project pursuant to this section, the first year of the pilot project shall be devoted to developing the project for review by the Legislature. Any pilot project established pursuant to this section shall comply with all the provisions of this article.

312. As used in this article "recipient" means women during pregnancy and infants up to the age of one year living in areas designated as an area of high nutritional need.

313. The department shall, if it establishes a pilot program pursuant to Section 311:

(a) Establish guidelines to determine an area of high nutritional need;

(b) Designate the counties within which a pilot project will be conducted, with the approval of such counties.

(c) Establish the minimum nutritional requirements for recipients.

(d) Designate specific supplemental foods to meet the minimum nutritional requirements for recipients.

(e) Develop a system for the delivery of supplemental foods to recipients through the distribution of supplemental foods designated in subdivision (d) and nutrition coupons when other methods of delivery are impractical.

(f) Investigate the feasibility of the distribution of the nutrition coupons by clinics, hospitals, licensed medical professionals, and others in the medical profession who offer care or treatment to recipients.

(g) Seek federal funds, as well as funds from public or private organizations or agencies, to carry out the provisions of this article.

315. Coupons in an amount sufficient to meet the nutritional needs of a recipient for one month shall be granted to a recipient by facilities and persons referred to in Section 313 upon the written finding of nutritional need by the recipient's physician or other licentiate of the healing arts.

316. Nutrition coupons shall be used to buy only those items for which the coupons are issued at any market which accepts them.

317. Nutrition coupons, so far as feasible, shall reflect the unit price of foods selected by the department to meet the nutritional needs of the participants in the pilot project. Each coupon shall be specifically designated as to the unit of food for which it is redeemable.

318. The department shall, if it establishes a pilot program pursuant to Section 311, investigate the feasibility of contracting with one or more banks in the area served by the pilot project for the redemption of nutrition coupons.

319. If the department establishes a pilot program pursuant to Section 311, it shall submit a report to the Legislature by July 1, 1972, on its findings concerning the need for, and development of, a supplemental nutritional program for needy pregnant mothers and infants under one year of age, suffering from malnutrition.

The calls shall be at his own expense and in the presence of a public officer or employee. Any public officer or employee who willfully deprives a minor taken into custody of his right to make such telephone calls is guilty of a misdemeanor.

[Approved by Governor October 13, 1971. Filed with
Secretary of State October 13, 1971.]

The people of the State of California do enact as follows:

SECTION 1. Section 7 of the Drainage District Act of 1903 (Chapter 238 of the Statutes of 1903) is amended to read:

Sec. 7. In elections to determine whether a district shall be organized, and in all other elections conducted by districts which have not changed their method of election pursuant to Section 14.5 or 14.6 from landowner voting based on the assessed value of land to voting by resident registered voters, the qualifications of voters shall be as provided in this section.

Any person, firm, or corporation owning any real property or the improvements thereon, or any interest in real property or the improvements thereon (but not including personal property), situate within the exterior boundaries of the district, which is assessed for taxation on the last preceding equalized assessment roll of the county in which the land is situated (and only the owners of property so assessed) shall be entitled to vote at such election, or at any subsequent election, special or general, for the election of directors, or for any other purpose pertaining to the affairs of such a district. Each property owner, so qualified to vote, shall be entitled to cast one vote for each one hundred dollars (\$100) of assessed valuation or fraction thereof, greater than fifty dollars (\$50), as the same appears to have been assessed on the equalized county assessment roll last preceding the holding of the election. In determining the total number of votes any voter is entitled to cast, the total assessed value of all parcels owned by the voter shall be divided by 100, and the quotient shall determine the number of votes. Any property owner, whose property has an assessed valuation of fifty dollars (\$50), or less, shall be entitled to one vote.

For the purpose of determining who is entitled to vote, and the number of votes each voter is entitled to cast, the board or boards of supervisors of the county or counties, in which the lands of any such proposed district, or any such district, or any part thereof, may be situate, shall cause to be prepared, certified, and furnished to the election board at each polling place in the district, at the cost or expense of the district, a true and correct copy of the next preceding equalized assessment roll or rolls of such county or counties as far as any such assessment roll may apply to any lands or improvements thereon, or interest therein, situate within such proposed district or such district.

Such certified assessment rolls shall be used by the election boards, at the election for which the same are furnished, in determining the number of votes each voter is entitled to cast.

Executors, administrators, special administrators and guardians may cast the vote of the estate represented by them. If the property is assessed in the name of such representatives, that fact shall establish the right of such representatives to vote; if assessed in the name of the decedent, minor or incompetent person, certified copies of the letters or such other evidence as may be satisfactory to the board must be produced by the voter.

The board shall likewise be entitled to inquire and take evidence for the purpose of identifying any person claiming the right to vote as being the person shown on the assessment roll or otherwise as entitled to vote. And, unless satisfactory evidence is furnished of the right to vote, the request to vote may be denied.

Where land is assessed to unknown owners, the production of a duly recorded or other transfer or conveyance, accompa-

nied by a certificate of a searcher of title certifying that a search of the official records of the county since the date of the deed discloses no conveyance or transfer out from the grantee or transferee named in said instrument, shall entitle said grantee or transferee to vote.

Where property appears to be owned in common or jointly, or where letters of representatives of decedents, minors, or guardians are joint, any one of the owners or representatives may cast all votes which such joint owners or representatives are entitled to vote; provided, the party claiming the right to vote for all produces the written consent of his coowners or representatives so to do, duly acknowledged by the consenting coowners or representatives in the manner that deeds of real property are required to be acknowledged to entitle such deeds to be recorded in the recorder's office of the county in which said property is situated. If such consent is not produced, then the number of votes shall be apportioned to each owner or representative claiming the right to vote, according to the proportionate ownership or representation shown on the assessment roll, if such proportion is shown. If such proportionate ownership or representation is not so shown, it shall be presumed that such ownership or right of representation is equal, and the voting right determined accordingly.

Where property is assessed in the name of a trustee or trustees, such trustee or trustees shall be deemed to be the person entitled to vote the same, and if assessed in the name of more than one trustee the voting right shall be determined in like manner as above provided with respect to coowners.

The vote of any public or quasi-public corporation, private corporation or unincorporated association, may be cast by any person authorized by the board of directors or trustees or other managing body thereof, which authorization shall be in writing, and a proxy executed by an officer or officers thereof, attested by its seal and duly acknowledged, shall constitute sufficient evidence of such authority, and shall be filed with the board of election. Any member of any partnership firm may vote in behalf of such firm.

All parties entitled to vote may have their votes cast by proxy, but no person shall vote by proxy unless authority to cast such vote shall be evidenced by an instrument in writing, duly acknowledged and certified in the same manner as grants of real property, and filed with the board of election.

The owner of any real property or interest therein, appearing upon the assessment roll, which has been assessed in the wrong name, or which has passed from the owner appearing as such on the last equalized assessment roll, since the same was made, shall be entitled to cast the votes represented thereby, either by the production of a proxy from such former owner, or by furnishing evidence of his ownership by a conveyance duly acknowledged showing the title to be vested in the person claiming the right to vote, accompanied by a certificate of a competent searcher of titles, certifying that a search

of the official records of the county where said property is situate, since the date of the conveyance, discloses no conveyance or transfer out from the grantee or transferee named in the conveyance.

Where the property has been contracted to be sold, the vendee shall be entitled to cast the ballots, unless such property is assessed in the name of the vendor, in which event the vendor shall be entitled to cast the vote or votes represented thereby.

All instruments evidencing or supporting a claim of right to vote shall likewise be filed with the election board. If the proposal to create any such district shall not be approved, at any election held therefor upon the formation thereof, all such documents shall be delivered, for preservation, to the board of supervisors of the county in which the proceedings for the formation of such district are being held. At all other elections, all such documents shall be delivered, for preservation, to the board of directors of the district.

As each voter establishes his right to vote, and the number of votes to which he is entitled is determined, there shall be delivered to him as many ballots as he is entitled to votes, or, at his request, one ballot representing such votes, as next hereinafter provided. In order to simplify the voting, and avoid the necessity of a voter having a large number of votes, stamping numerous ballots, one member of the board of election, in the presence of the voter and other members, at the request of the voter, shall write upon the ballot or ballots, delivered to him, the number of votes which such voter is entitled to cast, and, after the voter has voted, it shall be then the duty of the election board to examine all ballots which said voter shall desire to cast, and see that they are the same ballots which were delivered to the voter, and correctly represent the number of votes such voter is entitled to cast, before the same shall be passed into the ballot box.

SEC. 2. Section 7.5 is added to the Drainage District Act of 1903 (Chapter 238 of the Statutes of 1903), to read:

Sec. 7.5. In all elections conducted by districts which have changed their method of election pursuant to Section 14.5 or 14.6 from landowner voting to voting by resident registered voters, Section 7 shall have no application, and the terms "elector," "voter," and "precinct board" shall have respectively the same meaning as in the Elections Code, but an "elector" or "voter" shall also be a resident of the district involved. In a district in which the directors are elected by divisions, an "elector" or "voter" shall also be a resident of such division.

SEC. 3. Section 14.5 is added to the Drainage District Act of 1903 (Chapter 238 of the Statutes of 1903), to read:

Sec. 14.5. Pursuant to the provisions of this section, the district may change the qualifications and basis for voting in its elections from landowner voting based on assessed value

of land and improvements (or land only) to voting by resident registered voters.

In order to propose such a change in the qualifications and basis for voting in district elections, a petition shall be presented to the board of directors of such district, signed by at least 10 percent of the qualified voters in such district, which petition shall request the board of directors to call a special election for the purpose of submitting to those qualified to vote in the district as provided in Section 7, the question of whether voting in such district shall be by resident registered voters rather than landowner voting.

The secretary of the board of directors shall, upon presentation of such petition, determine that the persons signatory thereto comprise at least 10 percent of all persons qualified as electors, and the board of directors in the event such petition qualifies hereunder, shall call a special election and cause a notice of the filing of such petition combined with a notice of the special election to be posted in three public places in each election precinct in such district, and also to be published in some newspaper of general circulation published in the district, or in the event no such newspaper is published in the district, then in the county wherein the board of directors regularly meets, for at least three successive weeks before such election. Such notice shall specify the time of holding the election, the polling places as established by the board of directors, the hours the polls are to remain open, and a concise statement of the issue to be voted upon. Such election shall be held not more than six weeks after the secretary of the board of directors qualified the petition.

The ballots cast at such election shall contain the words: "Shall the qualifications and basis for voting in the district be changed from landowner voting based on assessed value to voting by resident registered voters?" or words equivalent thereto, but no particular form of ballot shall be required. Voting procedure, qualification of voters, and the number of votes each shall be entitled to cast shall be governed by the provisions of Section 7. When the vote is canvassed by the board of directors and entered of record, if a majority of the votes cast shall favor changing the basis for voting in the district, from landowner voting to voting by resident registered voters, the board shall thereupon pass a resolution declaring the results of the election and directing the secretary to forward a copy of such resolution, certified by him, to the board of supervisors and to the county clerk of the county or counties wherein such district is located. Thereafter all elections in the district shall be conducted on the basis of voting by resident registered voters rather than voting by landowners based on assessed value.

The district may change the qualification and basis for voting back to landowner voting based on assessed value by the same proceedings as provided in this section except that the

qualification of voters, and related matters shall be governed by the provisions of Section 7.5.

SEC. 4. Section 14.6 is added to the Drainage District Act of 1903 (Chapter 238 of the Statutes of 1903), to read:

Sec. 14.6. As an alternative to the provisions of Section 14.5, the board of directors of a district may by a four-fifths vote of the board change the qualifications and basis for voting in district elections from landowner voting based on assessed value of land and improvements (or land only) to voting by resident registered voters. Upon the adoption by the board of directors of a district by a four-fifths vote of the board of a resolution changing the qualifications and basis for voting in the district pursuant to this section, the board shall direct the secretary to forward a copy of such resolution, certified by him, to the board of supervisors and to the county clerk of the county or counties wherein such district is located. Thereafter all elections in the district shall be conducted on the basis of voting by resident registered voters rather than voting by landowners based on assessed value.

The district may change the qualification and basis for voting back to landowner voting based on assessed value by the same proceedings provided in Section 14.5 for the change to voting by resident registered voters, except that the qualifications of voters, and related matters, shall be governed by the provisions of Section 7.5.

SEC. 5. Section 17 of the Drainage District Act of 1903 (Chapter 238 of the Statutes of 1903) is amended to read:

Sec. 17. In each district organized as herein provided, an election shall be held on the first Tuesday after the first Monday in November of each odd-numbered year, at which shall be chosen a successor to each director whose term of office shall expire in that month. A director shall be an elector of the district, if the directors are elected at large, and shall be an elector of the division which the director shall be elected to represent, if directors are elected by divisions.

If voting in the district is by resident registered voters the provisions of Section 7.5 shall apply but no one shall be entitled to vote for a director for a division who is not a resident registered voter of the division.

If voting in the district is by landowner voting based on assessed value the provisions of Section 7 shall apply. In such a district in which the directors are elected by divisions, no one shall be entitled to vote for a director for a division who is not the owner of real property situate in such division, or some improvement thereon, or some interest therein or in such improvement, as provided in Section 7. All owners of such property shall be entitled to vote at such election. The number of votes which any such property owner, in any such division, shall be entitled to vote, shall be determined according to the assessed valuation of the property of such voter situated in such division, in the manner provided in Section 7.

If the directors are elected at large in a landowner voting district, each qualified elector of the district may vote, for each director to be elected, as many votes as he may be entitled to vote in accordance with the assessed valuation of his property in the district, as hereinbefore provided.

Prior to the last Friday of November following the general district election each person elected a director shall qualify as such by taking and subscribing the official oath and executing an official bond in the sum of one thousand dollars (\$1,000), which shall be approved by a judge of the superior court. Such oath and bond shall be in the form prescribed by law for public officers, and shall be filed with the secretary of the board of directors. Each such bond shall be recorded in the office of the county recorder of the county where the organization of the district was effected. If a vacancy shall occur in the office of director, the same shall be filled by appointment by the board of supervisors of the county in which the organization of the district was effected. Such appointee shall qualify as herein provided within 10 days after receiving notice of his appointment and shall hold office for the unexpired portion of the term of his predecessor. All directors shall hold office until their successors are elected and shall have qualified.

The board shall employ investment counsel or trust companies or trust departments of banks to render service in connection with the board's investment program in corporation shares and may pay for such service

When an agreement is entered into by the board for consulting or management services in connection with the administration of the board's investment program, any fees stipulated in such agreement to be paid for such services shall not be considered a cost of administration but shall be considered as a reduction in earnings from such investments or a charge against the assets of the retirement fund as determined by the board.

An act to amend Sections 17120 and 17512 of the Revenue and Taxation Code, relating to taxation.

[Approved by Governor October 13, 1971 Filed with Secretary of State October 13, 1971]

The people of the State of California do enact as follows:

SECTION 1. Section 17120 of the Revenue and Taxation Code is amended to read:

17120. (a) There shall be included in the gross income of an employee for the taxable year an amount equal to the cost of group-term life insurance on his life provided for part or

all of such year under a policy (or policies) carried directly or indirectly by his employer (or employers); but only to the extent that such cost exceeds the sum of—

(1) The cost of fifty thousand dollars (\$50,000) of such insurance, and

(2) The amount (if any) paid by the employee toward the purchase of such insurance.

(b) Subdivision (a) shall not apply to—

(1) The cost of group-term life insurance on the life of an individual which is provided under a policy carried directly or indirectly by an employer after such individual has terminated his employment with such employer and either has reached the retirement age with respect to such employer or is disabled (within the meaning of subdivision (g) of Section 17112.5),

(2) The cost of any portion of the group-term life insurance on the life of an employee provided during part or all of the taxable year of the employee under which—

(A) The employer is directly or indirectly the beneficiary; or

(B) A person described in Section 17214 is the sole beneficiary.

for the entire period during such taxable year for which the employee receives such insurance, and

(3) The cost of any group-term life insurance which is provided under a contract to which subdivision (c) of Section 17112.5 applies.

(c) For purposes of this section and Section 18802.5, the cost of group-term insurance on the life of an employee provided during any period shall be determined on the basis of uniform premiums (computed on the basis of five-year age brackets) prescribed by regulations by the Franchise Tax Board. In the case of an employee who has attained age 64, the cost prescribed shall not exceed the cost with respect to such individual if he were age 63.

(d) In applying this section to a taxable year beginning before May 1, 1964, if subparagraph (B) of paragraph (2) of such section applies with respect to an employee for the period beginning May 1, 1964, and ending with the close of his first taxable year ending after April 30, 1964, such subparagraph (B) of paragraph (2) shall be treated as applying with respect to such employee for the period beginning January 1, 1964, and ending April 30, 1964.

SEC. 2. Section 17512 of the Revenue and Taxation Code is amended to read:

17512. (a) (1) If—

(A) An annuity contract is purchased—

(i) For an employee by an employer described in Section 23701d which is exempt from tax under Section 23701, or

(ii) For an employee (other than an employee described in clause (i) of subparagraph (A)), who performs services

for an educational institution (as defined in subdivision (e) of Section 17150), by an employer which is a state, a political subdivision of a state, or an agency or instrumentality of any one or more of the foregoing;

(B) Such annuity contract is not subject to Section 17511, and

(C) The employee's rights under the contract are non-forfeitable, except for failure to pay future premiums, then amounts contributed by such employer for such annuity contract on or after such rights become nonforfeitable shall be excluded from the gross income of the employee for the taxable year to the extent that the aggregate of such amounts does not exceed the exclusion allowance for such taxable year. The employee shall include in his gross income the amounts received under such contract for the year received as provided in Sections 17101 to 17112.7, inclusive (relating to annuities).

(2) For purposes of this section, the exclusion allowance for any employee for the taxable year is an amount equal to the excess, if any, of—

(A) The amount determined by multiplying (i) 20 percent of his includible compensation, by (ii) the number of years of service, over

(B) The aggregate of the amounts contributed by the employer for annuity contracts and excludable from the gross income of the employee for any prior taxable year.

(3) For the purposes of this section, the term "includible compensation" means, in the case of any employee, the amount of compensation which is received from the employer described in subparagraph (A) of paragraph (1), and which is includible in gross income (computed without regard to subdivision (d) of Section 17139) for the most recent period (ending not later than the close of the taxable year) which under paragraph (4) may be counted as one year of service. Such term does not include any amount contributed by the employer for any annuity contract to which this section applies.

(4) In determining the number of years of service for purposes of this section, there shall be included—

(A) One year for each full year during which the individual was a full-time employee of the organization purchasing the annuity for him, and

(B) A fraction of a year (determined in accordance with regulations prescribed by the Franchise Tax Board) for each full year during which such individual was a part-time employee of such organization and for each part of a year during which such individual was a full-time or part-time employee of such organization.

In no case shall the number of years of service be less than one

(5) If for any taxable year of the employee this section applies to two or more annuity contracts purchased by the employer, such contracts shall be treated as one contract.

(6) For purposes of this section and Section 17106 (relating to special rules for computing employees' contributions to annuity contracts), if rights of the employee under an annuity contract described in subparagraphs (A) and (B) of paragraph (1) change from forfeitable to nonforfeitable rights, then the amount (determined without regard to this subdivision) includible in gross income by reason of such change shall be treated as an amount contributed by the employer for such annuity contract as of the time such rights become nonforfeitable.

(b) Premiums paid by an employer for an annuity contract which is not subject to Section 17511 shall be included in the gross income of the employee in accordance with Section 17122.7 (relating to property transferred in connection with performance of services), except that the value of such contract shall be substituted for the fair market value of the property for purposes of applying such section. The preceding sentence shall not apply to that portion of the premiums paid which is excluded from gross income under subdivision (a). The amount actually paid or made available to any beneficiary under such contract shall be taxable to him in the year in which so paid or made available under Sections 17101 to 17112.7, inclusive (relating to annuities).

thereof, labor, materials, or property equivalent in value thereto, for carrying out the provisions of this division.

14304. The Resources Agency shall provide transportation, lodging, subsistence, and other services and equipment as it deems necessary or required for the members of the corps in their duties. 14308. Upon completion of each year's pilot program, the Resources Agency shall prepare a report detailing the contribution of the program toward achieving the purposes of this division and providing recommendations. Such report shall be filed with the Governor and the Legislature not later than the fifth calendar day of the regular session of the Legislature of each year.

14309. The Resources Agency shall conduct a followup study of the members of the corps and file a report on such study with the Governor and the Legislature not later than the fifth calendar day of the regular session of the Legislature of each year.

For purposes of apportionments, the average daily attendance in classes conducted pursuant to the contract shall accrue to and be reported by the district in which such student resides. Any contract entered into pursuant to this section shall be for a term of not to exceed one year but may be renewed or revised and renewed annually.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall

go into immediate effect. The facts constituting such necessity are:

In order that the contracts and the special classes for handicapped adults authorized by this act may be, respectively, executed and made available on or before the commencement of the regular school term for this year, it is necessary that this act take effect immediately.

CHAPTER 1045

An act to amend Sections 11602 and 11603 of the Business and Professions Code, relating to subdivisions.

[Approved by Governor October 13, 1971. Filed with Secretary of State October 13, 1971.]

The people of the State of California do enact as follows:

SECTION 1. Section 11602 of the Business and Professions Code is amended to read:

11602. If the land being subdivided is a portion of a larger parcel shown on the last preceding tax roll as a unit, the bond or deposit for payment of taxes need be only for such sum as may be determined by the board of supervisors to be sufficient to pay the current and delinquent taxes on the land being subdivided, together with all accrued penalties and costs if such taxes have been or are allowed to become delinquent. The board of supervisors shall also order the creation of new assessor's parcel numbers pursuant to Section 2823 of the Revenue and Taxation Code. Separate assessor's parcel numbers shall be given to the portion of the larger parcel which is not within the proposed subdivision and to the parcel or parcels which are within the proposed subdivision.

If the land being subdivided is sold for taxes it may be redeemed from such sale without the redemption of the remainder of the larger parcel of which it is a part pursuant to the provisions of the Revenue and Taxation Code as if it were held in ownership separate from and other than the ownership of the remainder.

SEC. 2. Section 11603 of the Business and Professions Code is amended to read:

This section shall not apply to bonds issued under the provisions of the Improvement Bond Act of 1915.

CHAPTER 1045

An act to amend Section 3074 of the Labor Code, relating to apprentices.

[Approved by Governor October 13, 1971. Filed with Secretary of State October 13, 1971.]

The people of the State of California do enact as follows:

SECTION 1. Section 3074 of the Labor Code is amended to read:

3074. The preparation of trade analyses and outlines of instruction, and the administration and supervision of related and supplemental instruction for apprentices, coordination of instruction with job experiences, and the selection and training of teachers and coordinators for such instruction shall be the responsibility of state and local boards responsible for vocational education. Such responsibility shall not preclude the establishment of off-campus related and supplemental instruction when approved and developed in cooperation with state and local school boards responsible for vocational education, and when such instruction meets all other requirements of this chapter.

The Department of Education and the Board of Governors of the California Community Colleges may provide related and supplemental instruction to isolated apprentices as a direct instructional service, on a contractual basis with local school districts, by correspondence, or by a combination of these means. For the purpose of this section, an isolated apprentice is an apprentice registered with the Division of Apprenticeship Standards in the Department of Industrial Relations who cannot be enrolled in a class of related and supplementary instruction for apprentices because of the small number of apprentices available for an appropriate class or because there is no existing apprenticeship program within a reasonable travel distance.

CHAPTER 1047

An act to amend Section 11251 of the Education Code, relating to public schools, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor October 13, 1971. Filed with Secretary of State October 13, 1971.]

The people of the State of California do enact as follows:

SECTION 1. Section 11251 of the Education Code is amended to read:

11251. (a) In computing the average daily attendance of a school district, there shall be included only the attendance

of pupils while engaged in educational activities required of such pupils and under the immediate supervision and control of an employee of the district who possessed a valid certification document, registered as required by law, authorizing him to render service in the capacity and during the period in which he served. For purposes of computing the average daily attendance of a community college district, attendance shall also include student attendance and participation in approved coordinated instruction systems programs of instruction using television, computer-assisted instruction, automated audio-visual systems, programmed learning materials, and other similar teaching techniques, under the coordination and evaluation of an employee who possessed an appropriate certification document, but not requiring the immediate supervision of such employee. Approved coordinated instruction systems programs of instruction are those recommended by the governing board of the district maintaining the community college and approved by the Board of Governors of the California Community Colleges. One student contact hour is to be counted for each unit of coordinated instruction systems credit in which a student is enrolled during any census period. The state aid apportionment made by the board of governors shall not be greater than one-half the current costs of conducting approved coordinated instruction systems programs of instruction. Coordinated instruction systems programs of instruction shall be conducted by employees of the district who possess valid credentials or certification documents, who shall determine the need for immediate supervision of the programs of instruction. Such employees shall evaluate individual student progress and assign appropriate grades for students enrolled in classes taught by the coordinated instruction systems programs of instruction.

(b) For the purpose of work experience education programs in the secondary schools meeting the standards of the California State Plan for Vocational Education, "immediate supervision" of off-campus work training stations means pupil participation in on-the-job training as outlined under a training agreement, coordinated by the school district under a state-approved plan, wherein the employer and certificated school personnel share the responsibility for on-the-job supervision. The pupil-teacher ratio in any such work experience program shall not exceed 125 students per full-time equivalent certificated coordinator. A pupil enrolled in such work experience program shall not be credited with more than one day of attendance in any calendar day, and shall be a full-time student enrolled in regular classes meeting the requirements set forth in Section 11052 or 11055.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall

go into immediate effect. The facts constituting such necessity are:

In order that the computation of average daily attendance in work experience education programs for the 1971-1972 fiscal year may be undertaken in accordance with the changes in law made by this act, it is essential that this act take effect as early as possible prior to the expiration of that fiscal year.

CHAPTER 1048

An act to add Section 532.1 to the Revenue and Taxation Code, relating to property taxation, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor October 13, 1971. Filed with Secretary of State October 13, 1971.]

The people of the State of California do enact as follows:

SECTION 1. Section 532.1 is added to the Revenue and Taxation Code, to read:

532.1. No escape assessment nor assessment under Article 3 (commencing with Section 501) of this chapter shall be imposed for any assessment year prior to the 1971-1972 assessment year on a possessory interest in real property which arose from the right to cut or remove timber from lands exempt from taxation by reason of ownership by the United States or by American Indians.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Until recently there has been uncertainty and nonuniformity in the assessment of possessory interests in real property arising from the right to cut or remove timber from lands exempt from taxation. Many possessory interests of this type have not previously been assessed and the contracts to cut and take timber from tax-exempt lands were entered into without awareness of the application of property taxes. The financial hardship which would be incurred if assessments of these possessory interests were made for three or four previous assessment years is such that it is subject to legislative mitigation as sanctioned by the California Supreme Court in *Forster Shipbuilding Co., Inc. v. County of Los Angeles* (1960), 54 Cal. 2d 450. It is also necessary in the interests of statewide uniformity and even application of the property tax that the limitations enacted by this act lay to rest a number of complex questions concerning the proper valuation of certain possessory interests arising from timber-cutting contracts. To accomplish the mitigation of the hardships caused by the

changing of long-established property tax assessment procedures, it is necessary that this act take immediate effect, so as to prevent unanticipated business losses and harsh and inequitable results which would not be in the best interests of this state and its local governmental agencies.

CHAPTER 1049

An act to amend Sections 68543.5 and 75090.2 of the Government Code, relating to the Judges' Retirement Law.

[Approved by Governor October 13, 1971. Filed with Secretary of State October 13, 1971.]

The people of the State of California do enact as follows:

SECTION 1. Section 68543.5 of the Government Code is amended to read:

68543.5. Whenever a judge retired as such under the Judges' Retirement Law is assigned to sit in a court, he shall be compensated while so sitting at a rate equal to 92 percent of the full compensation of a judge of the court to which he is assigned. A retired judge of a justice court assigned to sit in a court shall be compensated while so sitting at the full compensation of a judge of the court to which he is assigned. Such compensation shall be chargeable for the period specified in Section 68547 the same as provided by law with respect to the compensation of a judge of the court to which he is assigned except that when chargeable to the state, such compensation is payable out of any appropriation for extra compensation of judges assigned by the Chairman of the Judicial Council.

If such compensation is greater than his retirement allowance, his retirement allowance shall be suspended so long as he receives such compensation. If such compensation is less than his retirement allowance, his retirement allowance shall continue to be paid while he receives such compensation but only in an amount equal to the difference between such compensation and the retirement allowance to which he would otherwise be entitled.

If a judge retired under the Judges' Retirement Law is assigned to sit in a court, the 8-percent difference between the compensation of the retired judge while so assigned and the compensation of a judge of the court to which assigned shall be paid to the Judges' Retirement Fund.

When assigned to sit in a county other than that in which he resides, he shall also be allowed his necessary expenses for travel, board, and lodging incurred in the discharge of the assignment. Such expenses, if any, shall be chargeable as follows:

(a) When the assignment is to the Supreme Court or a court of appeal, to the state.

(b) When the assignment is to a superior, municipal, or justice court, to the county.

SEC. 2. Section 75090.2 of the Government Code is amended to read:

75090.2. Any person who is a judge on the effective date of this section or December 1, 1971 may elect to come within the provisions of this article on or before February 1, 1972, provided he pays into the Judges' Retirement Fund a sum equal to the amount which would have been deducted from his salary under Section 75092 had he made the election within the applicable time limitation in Section 75090 as it read prior to the effective date of this section.

CHAPTER 1050

An act to add Article 11 (commencing with Section 1090) to Chapter 3 of Division 4 of the Education Code, relating to public school instruction.

1095. No pupil may be required to participate in instructional programs provided pursuant to this article.

1096. No pupil may participate in instructional programs provided pursuant to this article without the written consent of his parent or guardian.

1097. The Superintendent of Public Instruction is requested to evaluate the effect of this article and to report to the Legislature thereon by the fifth calendar day of the 1974 Regular Session of the Legislature.

1098. The article shall cease to be operative on the 91st day after the final adjournment of the 1974 Regular Session of the Legislature.

CHAPTER 1051

SEC. 4. Section 34281 of the Health and Safety Code is amended to read:

34281. A commissioner or employee of an authority shall not acquire any direct or indirect interest in any housing project or in any property included or planned to be included in any project, nor shall he have any direct or indirect interest in any contract or proposed contract for materials or services to be furnished or used in connection with any housing project. If he owns or controls a direct or indirect interest in any such property, he shall immediately make a written disclosure of it to the authority and the disclosure shall be entered upon its minutes. Failure so to disclose his interest constitutes misconduct in office.

Nothing contained in this section or in any other provision of law shall be construed as precluding a tenant of an authority from serving as a commissioner of that authority, provided that the fact of such tenancy is disclosed to the authority in writing and entered upon its minutes immediately upon his assuming office; nor shall any provision in this code or elsewhere be construed as in any manner inhibiting the right of such tenant commissioner to exercise the full powers vested in his office.

18301. Whenever any fireman of the state dies or is disabled from performing his duties as a fireman by reason of his proceeding to or engaging in a fire-suppression or rescue operation, or the protection or preservation of life or property, anywhere in this state, including the jurisdiction in which he is employed, but is not at the time acting under the immediate direction of his employer, he or his dependents, as the case may be, shall be accorded by his employer all of the same benefits of the Workmen's Compensation Law, which he or they would have received had that fireman been acting under the immediate direction of his employer. Any injury, disability or death incurred under the circumstances described in this section shall be deemed to have arisen out of and been sustained in the course of employment for purposes of workmen's compensation and all other benefits.

18302. Nothing in this chapter shall be deemed to:

(a) Require the extension of any benefits to a fireman who at the time of his injury, death, or disability is acting for compensation from one other than the state.

(b) Require the extension of any benefits to a fireman employed by the state where by departmental regulation whether now in force or hereafter enacted or promulgated, the activity giving rise to the injury, disability or death, is expressly prohibited.

CHAPTER 1056

[Approved by Governor October 14, 1971. Filed with Secretary of State October 14, 1971.]

The people of the State of California do enact as follows:

As used in this section, the practice of law includes being in partnership or sharing fees, commissions, or expenses in the practice of law with any person acting as an attorney in such court.

A judge of a justice court may, however, have as a partner, and may share fees, commissions, or expenses with, any person acting as attorney in any court before which such judge may practice law.

CHAPTER 1057

An act to amend Sections 19577, 19581, and 19583 of, to add Sections 19559.1, 19559.2, and 19683.6 to, and to repeal Section 19700.78 of, the Education Code, relating to school building aid.

[Approved by Governor October 14, 1971. Filed with Secretary of State October 14, 1971.]

The people of the State of California do enact as follows:

SECTION 1. Section 19559.1 is added to the Education Code, to read:

19559.1. The Department of Education, in addition to any responsibilities or approvals required under Division 11 (commencing with Section 15001) of this code, shall provide the following services to school districts making applications for apportionments under this chapter:

(1) It shall assist school districts in organizing a comprehensive planning effort. It shall guide a planning process through its appropriate steps and, when requested by a school district, it shall provide the school district with sources of expertise, either public or private, which may be able to contribute to the development of plans to find solutions for specific problems a school district may have.

(2) It shall provide continuing research in relation to all phases of educational programs and the school facilities that are required to implement these educational programs.

(3) It shall provide a review and evaluation service to school districts to assure the effectiveness of the facilities that have been provided in accommodating educational programs.

(4) It shall provide communication media through publications, seminars, and prepare planning guides and procedures containing recommendations, which guides shall be used to disseminate educational planning information to all school districts.

SEC. 2. Section 19559.2 is added to the Education Code, to read:

19559.2. Each school district which desires an apportionment of funds under this chapter shall, unless specifically exempted by the board, prepare a long-range comprehensive master plan for the district prepared in accordance with acceptable planning procedures. Information relating to the following factors should be included in this master plan:

(a) A statement of the educational programs and goals of the district in relation to its programs, both current and future.

(b) A comprehensive evaluation and report of the utilization of the school facilities now existing in the district.

(c) A comprehensive demographic study of the district, as it currently exists and as projected into the future.

(d) A policy statement regarding actual or potential human problems.

(e) A policy statement as to the priority in which the district proposes to solve its school housing problems.

(f) A policy statement regarding cooperation with other local public agencies to achieve total community development.

(g) A policy to insure continuous review so that plans will be kept up to date and changing conditions will be reviewed and accommodated by appropriate revision of plans.

The director shall review the long-range master plan and project development plan and shall report his findings and recommendations thereon to the board.

SEC. 3. Section 19577 of the Education Code is amended to read:

19577. Notwithstanding any other provisions of this chapter, a district which applies for an apportionment for the purchase of a site or for the cost of the preparation of plans and specifications, which is not a part of a construction project, shall make a separate application for such site or plans and specifications in the same manner as prescribed by Section 19571.

All of the provisions of this chapter apply to such application and apportionment except that:

(a) If the Department of Education determines that within five years in the case of an application for an elementary grade level maintained by the district, or within seven years, in the case of an application for a high school grade level maintained by the district, from the date of the application for the site or for the plans and specifications, there will be sufficient enrollment in the district, based upon enrollment projection criteria adopted by the board, to show the need of such site or for the plans and specifications, it may approve the application. The board may modify a determination respecting future enrollment in connection with an application for an elementary grade level maintained by the district to utilize a period of seven years from the date of the application if it is necessary to meet the emergency conditions existing in that

certain district due to a rapid increase in the enrollment of pupils, or due to the scarcity of land within the district, or both. Any application referred to the board pursuant to this section may be either approved in whole or in part, not exceeding the amount applied for, as the board may deem appropriate, pursuant to Sections 19571 and 19576, except that the board may approve additional portions of an application and make an additional apportionment or apportionments within five years of the original approval without requiring a district to issue additional bonds. No additional approval pursuant to the original application or apportionment thereunder may be made unless the board first has investigated and determined the necessity of such additional approval or apportionment, and has received a report thereon from the Department of Education. Any provision of Section 19571 inconsistent with this section shall not apply to such application. As used in this section, and "elementary grade level maintained by the district" is a grade level composed of the grades and maintained by the districts specified in (1) of subdivision (e) of Section 19553. As used in this section a "high school grade level maintained by the district" is a grade level composed of the grades and maintained by the districts specified in (2) of subdivision (e) of Section 19553.

(b) Section 19556 does not apply.

(c) An application for a site pursuant to this section may include an amount for the preparation of plans and specifications for school facilities and for the development of the site, which will conform to those eligible for construction under this chapter.

(d) If the application is approved and an apportionment granted therefor the district shall repay the full amount of such apportionment and the interest thereon. The repayment of the apportionment for a site and the interest thereon, may be over a period of years, not to exceed 30 years from the first day of January of the fiscal year next succeeding the fiscal year in which such apportionment became final. The repayment of the apportionment for plans and specifications, and the interest thereon, may be over a period of years, not to exceed 30 years from the first day of January of the second fiscal year succeeding the fiscal year in which such apportionment became final. The number of years allowed for repayment shall be determined by the board at the time it fixes interest on the apportionment. Such repayment is in addition to any other repayment required under this chapter. If an apportionment is granted pursuant to this section for a site and such site is subsequently used in a construction project for which an apportionment is received under other provisions of this chapter, or if an apportionment is granted pursuant to this section for plans and specifications and such plans and specifications are subsequently used in a construction project for which an apportionment is received under other provisions of this chapter, the district shall not

be required to make any further repayments for the site, or the plans and specifications, as the case may be, pursuant to this section and the unpaid balance of the apportionment and interest owing on the apportionment for the site, or the plans and specifications, as the case may be, pursuant to this section shall be added to the principal amount of the apportionment and accrued interest thereon for the construction project. Such site shall be deemed to be "subsequently used in a construction project" within the meaning of the preceding sentence, if it is used in connection with a construction project at the same grade level by any district receiving a construction apportionment therefor, this being not intended as a change in the present law, but as a statement of the existing law. In addition, such site shall be deemed to be "subsequently used in a construction project" within the meaning of such reference, if it is used in connection with such construction project by any district receiving a construction apportionment therefor at a different grade level, providing that in such latter instance the board in its discretion consents by resolution to the combination of such site and construction apportionments.

SEC. 4. Section 19581 of the Education Code is amended to read:

19581. No apportionment shall be made for new construction which, when added to the area of adequate school construction existing in the applicant school district at the time of application, will provide a total area of school building construction per unit of average daily attendance of the estimated average daily attendance in excess of that computed in accordance with Sections 19583, 19585, 19586, 19587, and 19588.

As used in Sections 19583, 19585, 19586, 19587, and 19588, "maximum area" means maximum area of school building construction and "attendance unit" means unit of estimated average daily attendance.

As used in this section and Sections 19586, 19587, and 19588, "attendance center" means a school maintained or to be maintained at a given location within a district. The Department of Education shall approve or disapprove the allocation by an applicant district of units of estimated average daily attendance among the attendance centers of the district.

To the building area permitted to an applicant school district by Sections 19583, 19585, 19586, 19587, and 19588, there may be added such additional building area as may be required to provide adequate facilities for exceptional children pursuant to Article 3 (Sections 19681 to 19689, inclusive) of this chapter.

No estimate of average daily attendance made by an applicant for the purpose of justifying an apportionment shall be made for a longer time than the third fiscal year beyond the fiscal year in which an application is made, except that an estimate for the purpose of justifying an apportionment for a grade level maintained by a unified district, under an appli-

cation filed prior to the effective date of the amendment to this section made at the 1961 Regular Session or by a high school district composed of grades 7 to 12, inclusive, 9 to 12, inclusive, or 7 to 10, inclusive, or of justifying an apportionment for a unified district for a junior high school or high school project under an application made on or after such effective date shall not be made for a longer time than the fourth fiscal year beyond the fiscal year in which the application is made. Except as otherwise provided by the board, the estimates of average daily attendance shall be based upon the number of family dwellings and mobilehome parks, as defined in Section 18214 of the Health and Safety Code, under construction or newly constructed and never occupied in the district and the number of children residing in the district. In no case shall an estimate be given effect unless approved by the board.

For the purposes of this chapter pupils attending grades 7 and 8 in an elementary district but residing in a high school district which maintains one or more junior high schools shall not be considered in determining or estimating the average daily attendance of the elementary district, unless the elementary district, is maintaining and has continuously maintained grades 7 and 8 since a date prior to January 1, 1959. When such pupils are so considered in determining or estimating the average daily attendance of the elementary district in making an apportionment to the elementary district, such pupils shall not be considered in determining or estimating average daily attendance of the high school district in making an apportionment to the high school district for junior high school purposes. The board shall develop statewide or areawide averages of pupil occupancy for family dwellings of various sizes and for mobilehomes of various sizes for use by applicant school districts in estimating the average daily attendance of family dwellings and mobilehome parks under construction or newly constructed and never occupied in the district.

SEC. 5. Section 19683.6 is added to the Education Code, to read:

19683.6. Notwithstanding any provision of law to the contrary, the board shall control the amount of apportionments made for facilities for exceptional children. In so controlling these apportionments the board shall establish allowable building areas and cost standards comparable to the building areas and costs of similar facilities constructed by school districts which are not applicants under this chapter.

SEC. 6. Section 19583 of the Education Code is amended to read:

19583. There shall be allowed to each district with attendance units of 300 or more in kindergarten and grades 1 to 6, inclusive, a maximum area of 55 square feet for each attendance unit of the district in kindergarten and grades 1 to 6, inclusive.

The maximum total building area per attendance unit allowed to applicant districts with attendance units of less than 300 in kindergarten and grades 1 to 6, inclusive, for such attendance units shall be determined by the board, and shall be building area to provide comparable facilities to those provided by the first paragraph of this section, and shall be the least building area required to house adequately the estimated average daily attendance and the normal instructional and other services.

SEC. 7. Section 19700.78 of the Education Code is repealed.

CHAPTER 1058

An act to add Section 9655 to the Revenue and Taxation Code, relating to taxation.

[Approved by Governor October 14, 1971. Filed with Secretary of State October 14, 1971.]

The people of the State of California do enact as follows:

SECTION 1. Section 9655 is added to the Revenue and Taxation Code, to read:

9655. The tax imposed by this part does not apply to amounts paid by a public or nonprofit private school to an operator, or to amounts paid to such a school, for the transportation of children to or from the school; nor shall such tax apply to amounts paid to any person for the leasing of vehicles to a public or nonprofit private school for the transportation of children to and from such school.

CHAPTER 1059

An act to amend Sections 58895, 58938, 58940, 59944, 59955, and 60013 of the Agricultural Code, relating to agricultural marketing, and making an appropriation therefor.

[Approved by Governor October 14, 1971. Filed with Secretary of State October 14, 1971.]

The people of the State of California do enact as follows:

SECTION 1. Section 58895 of the Agricultural Code is amended to read:

58895. A marketing order may contain provisions to detect, control, prevent damage by or to eradicate insects, predators, diseases, or parasites with respect to any commodity or group of commodities. The advisory board may recommend and the director may approve measures to assist in the prevention or reduction of losses to crops or livestock caused by predators, insects, disease or parasite infestations, including the estab-

ishment and operation of detection, inspection, spraying, dusting, fumigating or other control measures.

For the purposes of this section, (1) assessments established pursuant to Article 10 (commencing with Section 58921) of this chapter may include an assessment for nonbearing acreage as well as bearing acreage of the commodity affected by such predators, insects, disease, or parasite, and (2) the director may use both the bearing and nonbearing acreage of such commodity as a measure of production for assent or referendum purposes in relation to such assessments.

As used in this section, "nonbearing acreage" means acreage planted to produce the particular commodity covered by the marketing order during the marketing season on which no quantity of the product is produced for marketing or is anticipated will be produced for market during such marketing season.

SEC. 2. Section 58938 of the Agricultural Code is amended to read:

58938. The director may, at the close of each fiscal period which is used by the advisory board for budgetary purposes, refund any money which remains in such fund that is allocable to any particular commodity which is affected by a marketing order or, upon recommendation of the advisory board and with the approval of the director, all or a portion of such money may be carried over into the next succeeding fiscal period if the director finds that such money is required to defray subsequent expenses under the marketing order.

Any refund made pursuant to this section shall be on a pro rata basis made to persons from whom, or on whose behalf, the assessments being refunded were collected. Upon termination by the director of any marketing order, any remaining balances which are not required by the director to defray the expenses of such marketing order, shall be returned by the director upon a pro rata basis, to all persons from whom, or on whose behalf, such assessments were collected unless the director finds that the amounts so returnable are so small as to make impractical the computation and remitting of such pro rata refund to such persons. If the director makes such a finding, he may use the moneys in such fund to defray the expenses which are incurred by him in the formulation, issuance, administration, or enforcement of any subsequent marketing order.

SEC. 3. Section 58940 of the Agricultural Code is amended to read:

58940. Any check or warrant which is drawn against the funds of any marketing order which remains unclaimed or uncashed for a period of six months from the date of issuance shall be canceled and the money retained for disbursement to the original payee or claimant upon satisfactory identification for a period of one year from the time the check or warrant is canceled. The money so retained, if not claimed within the period of one year, shall be credited to the then currently op-

erating marketing order for the commodity under which the funds so retained were collected. If there is no marketing order then in effective operation for the commodity, the funds shall be credited to the unexpended balance, if any, of the last previous marketing order for the commodity. If there is no marketing order then in current operation, or no balance exists from any previous marketing order to which the funds may be credited, the funds so retained may be expended by the director for the benefit of any marketing order established under the provision of this chapter.

SEC. 4. Section 59944 of the Agricultural Code is amended to read:

59944. The proportion of the fees which is payable to the department may vary upon a seasonal basis for each program according to the estimated expense to be incurred by the director in administering the marketing program. The amount so required shall not exceed 15 percent of the certificate fees which are collected by the proration zone agent specifically for administrative purposes, however, such 15 percent limit may be exceeded when it is approved by the program committee, and, in addition, such proportion of fees which are collected for any educational and trade stimulation marketing program as may be required by the director to administer the marketing program, which shall in no event exceed 5 percent of the fees which are collected for such purpose, unless the payment of a larger proportion of such funds is approved by the marketing program committee for the marketing program.

SEC. 5. Section 59955 of the Agricultural Code is amended to read:

59955. If there is no marketing program then in effective operation for the commodity, the funds shall be credited to the unexpended balance, if any, of the last previous marketing program for the commodity. If there is no marketing program then in current operation or no balance exists from any previous marketing program to which the funds may be credited, the funds so retained may be expended by the director for the benefit of any marketing program established under the provision of this chapter.

SEC. 6. Section 60013 of the Agricultural Code is amended to read:

60013. Any person that violates any provision of a marketing program which is approved and made effective or who violates any regulation which is adopted by any program committee and approved by the director is liable civilly in an amount not to exceed a sum of five hundred dollars (\$500) for each and every violation. Such sum shall be recovered by the director or, with the approval of the director, by the proration zone which is affected, in an action brought in any court of competent jurisdiction. All sums recovered pursuant to this section shall be expended only for the necessary expenses which are incurred by the director in the administration of this chapter.

This section shall not apply to licensees during the first two years immediately following their graduation from a college of pharmacy or department of pharmacy of a university recognized by the board.

4098.6. The board may, during the initial year of the application of this article, reduce the number of hours of continuing education required for renewal of a certificate.

4098.7. The board may, in accordance with the intent of this article, make exceptions from the requirements of this article in emergency or hardship cases.

4099. The committee shall adopt rules and regulations outlining and specifying the form, subject matter, and content of courses that shall be necessary for obtaining approval pursuant to the provisions of the article.

The courses shall be in the form of postgraduate studies, institutes, seminars, lectures, conferences, workshops, extension studies, correspondence courses and other similar methods of conveying continuing professional pharmaceutical education.

Such subject matter shall be pertinent to the socioeconomic and legal aspects of health care, the properties and actions of drugs and dosage forms and the etiology, and characteristics and therapeutics of the disease state.

[Approved by Governor October 14, 1971 Filed with
Secretary of State October 14 1971]

The people of the State of California do enact as follows:

SECTION 1. Section 1803.2 of the Civil Code is amended to read:

1803.2. Except as provided in Section 1808.3, every retail installment contract shall be contained in a single document which shall contain:

CHAPTER 1063

An act to add Section 5545.5 to the Public Resources Code, relating to the East Bay Regional Park District.

[Approved by Governor October 14, 1971. Filed with Secretary of State October 14, 1971.]

The people of the State of California do enact as follows:

SECTION 1. Section 5545.5 is added to the Public Resources Code, to read:

5545.5. (a) In addition to the tax authorized by Section 5545, the East Bay Regional Park District may, beginning with the fiscal year 1972-1973, levy and collect, or cause to be levied and collected, a tax of five cents (\$.05) on each one hundred dollars (\$100) of the assessed value of all real and personal property within the district. The revenue from this tax shall be spent as follows:

(1) The revenue from four cents (\$.04) per one hundred dollars (\$100) shall be spent exclusively for acquisition of new park lands.

(2) The revenue from one cent (\$.01) per one hundred dollars (\$100) shall be spent exclusively for the development and operation of such park lands.

(b) Beginning with the fiscal year 1974-1975, the East Bay Regional Park District may levy and collect, or cause to be levied and collected, an additional tax of five cents (\$.05) on each one hundred dollars (\$100) of the assessed value of all real and personal property within the district. This tax shall be in addition to the tax authorized by subdivision (a) and may be levied only if, prior to the beginning of the 1974-1975 fiscal year, the district has prepared and adopted a master plan which identifies the district's policies and goals with regard to the acquisition of new park lands and lists the general type and quantity of such lands proposed to be acquired and the estimated cost thereof. The revenue from such a tax shall be divided in the same ratio and shall be used for the same purposes as the revenues from the tax authorized by subdivision (a).

(c) Beginning with the fiscal year 1982-1983, the taxes authorized by subdivisions (a) and (b) may be levied to carry out any of the objects or purposes of the district or to pay the obligations of the district. If the district board finds and determines that the full amount of the taxes authorized by subdivisions (a) and (b) will not be needed to carry out the objects and purposes of the district, it need not levy, or cause to be levied, the full amount of the taxes which would otherwise be authorized by subdivisions (a) and (b). Such taxes shall be in addition to those authorized by Section 5545.

(d) Any tax imposed pursuant to this section shall be imposed by ordinance of the district board. In the first fiscal year in which any tax authorized by subdivision (a), (b), or

(c) is imposed, the ordinance imposing the tax shall not go into effect until 30 days after its final passage, and, notwithstanding the provisions of Section 3751 of the Elections Code to the contrary, the ordinance shall be subject to referendum pursuant to the provisions of Section 5200 of the Elections Code. (a) That the lands shall be used by the city and its successors for purposes in which there is a general statewide interest as follows:

(1) For the establishment, improvement and conduct of a harbor, and for the construction, reconstruction, repair, main-

(5) For the construction, reconstruction, repair, maintenance and operation of public buildings, public assembly and meeting places, convention centers, parks, playgrounds, bathhouses and bathing facilities, recreation and fishing piers, public recreation facilities, including but not limited to public golf courses, and for all works, buildings, facilities, utilities, structures and appliances incidental, necessary or convenient for the promotion and accommodation of any such uses.

(6) For the establishment, improvement and conduct of small boat harbors, marinas, aquatic playgrounds and similar recreational facilities, and for the construction, reconstruction, repair, maintenance and operation of all works, buildings, facilities, utilities, structures and appliances incidental, necessary or convenient for the promotion and accommodation of any of such uses, including but not limited to snackbars, cafes, restaurants, motels, launching ramps and hoists, storage sheds, boat repair facilities with cranes and marine ways, administration buildings, public restrooms, bait and tackle shops, chandleries, boat sales establishments, service stations and fuel docks, yacht club buildings, parking areas, roadways, pedestrian ways and landscaped areas.

(c) Within 10 years from the effective date of this act, the lands shall be substantially improved by the city without expense to the state, and if the State Lands Commission determines that the city has failed to improve the lands as herein required, all right, title, and interest of the city in and to all lands granted by this act shall cease and the lands shall revert and rest in the state.

Nothing contained in this act, however, shall preclude expenditures for the development of the lands for any public purpose not inconsistent with commerce, navigation and fishery, by the state, or any board, agency or commission thereof, when authorized or approved by the city, nor by the city of any funds received for such purpose from the state or any board, agency or commission thereof.

any person, firm or public or private corporation claiming under it, except that in the event improvements, betterments or structures have been placed upon the property taken by the state for such purposes, compensation shall be made to the person entitled thereto for the value of his interest in the improvements, betterments or structures taken or the damages to such interest.

(i) The State Lands Commission shall, at the cost of the city, survey and monument the granted lands and record a description and plat thereof in the office of the County Recorder of Santa Barbara County.

(j) The city shall cause to be made and filed with the State Lands Commission, annually, a detailed statement of receipts and expenditures by it of all rents, revenues, issues and profits in any manner hereafter arising from the granted lands or any improvements, betterments or structures thereon.

SEC. 2. Section 2 is added to Chapter 1044 of the Statutes of 1968, to read:

Sec. 2. In addition to the tidelands and submerged lands to which the City of Carpinteria has become the successor in interest, upon its incorporation, to the County of Santa Barbara pursuant to Section 1 of this act, the title to any tidelands and submerged lands located within the boundaries of the City of Carpinteria as were originally granted to the County of Santa Barbara by Chapter 846 of the Statutes of 1931 which have been annexed to the City of Carpinteria since its incorporation is hereby transferred to the City of Carpinteria. Title to any and all tidelands and submerged lands as were originally granted to the County of Santa Barbara by Chapter 846 of the Statutes of 1931 which are at any time in the future annexed to the City of Carpinteria shall be transferred to the City of Carpinteria upon such annexation. Whenever at any time after the effective date of this section the city boundaries are changed so as to include tide or submerged lands which are subject to leases made by the county, the city shall become the successor in interest to all such leases. Any and all accrued rental or rental lease payments or other payments or remunerations previously collected by the county with respect to such tide and submerged lands from September 25, 1965, to the effective date of this section which remain unexpended shall be pro-

rated to the city by the Auditor-Controller of the County of Santa Barbara in direct proportion to the area of tide and submerged lands located within the city on the effective date of this section as the same bears to the total area of the tide and submerged lands trust originally granted to the county by Chapter 846 of the Statutes of 1931. From and after the effective date of this section, payments by lessees under any tide or submerged lands lease agreement made by the county pursuant to which title is transferred or confirmed to the city shall thereafter be made to the city as follows:

(a) If the structures and affected land covered by such lease are wholly within the city, then the lessee shall pay all future rental payments to the city.

(b) In the event of pipeline leases located partly within the county and partly within the city, payments of the lessee shall be apportioned to the city and to the county in direct proportion to the length of the pipeline located within the city as the same bears to the length of the pipeline in the county.

(c) As to all other leases and agreements, the subject matter of which lies partly within the city, the lessee shall be notified by the Auditor-Controller of the County of Santa Barbara of the ratio to be paid to the city, which ratio shall be equitably determined by the auditor-controller on an area basis.

The sums due the city from the county on the effective date of this section shall be transferred to, and vested in, the city by the county. All funds paid to the city shall be held and expended by the city pursuant to the terms of this act.

The State Lands Commission may, within 90 days after the time of such filing, determine and notify the city that such capital improvement is not in the statewide interest and benefit or is not authorized by the provisions of Section 3 of this act. The State Lands Commission may request the opinion of the Attorney General on the matter, and if it does so, a copy of such opinion shall be delivered to the city with the notice of its determination. In the event the State Lands Commission notifies the city that such capital improvement is not authorized, the city shall not disburse any revenue for or in connection with such capital improvement, unless and until it is determined to be authorized by a final order or judgment of a court of competent jurisdiction. The city is authorized to bring suit against the state for the purpose of securing such an order or adjudication, which suit shall have priority over all other civil matters. Service shall be made upon the Executive Officer of the State Lands Commission and the Attorney General, and the Attorney General shall defend

the state in such suit. Each party shall bear their own costs of suit and no such costs shall be recovered from the other party.

SEC. 9. Section 10 is added to Chapter 1044 of the Statutes of 1968, to read:

Sec. 10. At the end of each fiscal year, beginning September 30, 1976, that portion of trust revenues in excess of two hundred fifty thousand dollars (\$250,000) remaining after current and accrued operating costs and expenditures directly related to the operation or the maintenance of beaches, harbors, and other tidelands trust activities have been paid, shall be deemed excess revenue; provided, that any funds deposited in a reserve fund for future capital expenditures, or any funds required to service or retire general obligation or revenue bond issues, or special funds required to be maintained for the payment of contractual obligations owing to the state on account of harbor improvements authorized by the provisions of Article 3 (commencing with Section 70) of Chapter 2 of Division 1 of the Harbors and Navigation Code, the moneys from which have been, or will be, used for purposes authorized by law, shall not be deemed excess revenue. Amortization payments made subsequent to the effective date of the enactment of this act at the 1971 Regular Session of the Legislature for capital improvements of the granted lands for purposes authorized by the terms of the grant may be considered as expenditures for the purpose of determining net revenues. The excess revenue, as determined pursuant to this section, shall be divided as follows: 85 percent to the General Fund in the State Treasury, and 15 percent to the city to be deposited in the city's trust fund and used for any purpose authorized by Section 7 of this act.

Such request shall be made only after a finding that the city has grossly and willfully violated the terms of the grant or other applicable provisions of law concerning these specific granted lands.

Such finding shall be supported by substantial evidence and shall be made only at the conclusion of a noticed public hearing at which the city has been given an opportunity to present evidence to fully describe conditions and extenuating circumstances and to present facts to disprove the alleged violation.

232.9. The State Department of Social Welfare, a county welfare department, a county adoption department, or a county probation department which is planning adoptive placement of a child with a licensed adoption agency, or the State Department of Social Welfare acting as an adoption agency in counties which are not served by a county adoption agency, may initiate an action under Section 232 to declare a child free from the custody and control of his parents. The fact that a child is in a foster care home licensed under subdivision (a) of Section 16000 of the Welfare and Institutions Code shall not prevent the institution of such an action by any such agency or by a licensed adoption agency pursuant to Section 232.

The county counsel or, if there is no county counsel, the district attorney of the county specified in Section 233 shall, in a proper case, institute the action upon the request of any of the state or county agencies mentioned herein.

If, at the time of the filing of a verified petition by any department or agency specified in this section, the child is in the

custody of the petitioner, such petitioner may continue to have custody of the child pending the hearing on the petition unless the court, in its discretion, makes such other orders regarding custody pending the hearing which it finds will best serve and protect the interests and welfare of the child.

A period of development, not exceeding five years, may be allowed during which no payments on the principal or of the interest on such loan shall be required, when in the department's judgment such development period is justified under the circumstances. If the payment of interest is deferred pursuant to this section, no interest shall be charged on the interest amount for which payment is deferred. The accrued interest shall be paid in annual installments during the remainder of the loan repayment period.

SEC. 3. Section 12894.5 is added to the Water Code to read:

SEC. 6. Section 12894.8 is added to the Water Code, to read:

12894.8. Prior approval by the voters of an eligible district of a project described in Section 12894.3 and bonds therefor shall constitute approval of a loan pursuant to Section 12894.3 to the extent that the loan proceeds will be utilized to construct the project in lieu of the approved bonds.

No affidavit or testimony, or representation of any kind, verbal or written, can be offered to or received by the court, or a judge thereof, in aggravation or mitigation of the punishment, except as provided in this and the preceding section. This section shall not be construed to prohibit the filing of a written report by a defendant or defendant's counsel on behalf of a defendant if such a report presents a study of his background and personality and suggests a rehabilitation program. If such a report is submitted, the prosecution or probation officer shall be permitted to reply to or to evaluate the program.

SEC. 2. Section 1381 of the Penal Code is amended to read:

1381. Whenever a defendant has been convicted, in any court of this state, of the commission of a felony or misdemeanor and has been sentenced to and has entered upon a term of imprisonment in a state prison or has been sentenced to and has entered upon a term of imprisonment in a county jail for a period of more than 90 days or has been committed to and placed in a county jail for more than 90 days as a condition of probation or has been committed to and placed in an institution subject to the jurisdiction of the Department of the Youth Authority or whenever any person has been committed to the custody of the Director of Corrections pursuant to Chapter 1 (commencing with Section 3000) of Division 3 of the Welfare and Institutions Code and has entered upon his term of commitment, and at the time of the entry upon such term of imprisonment or commitment there is pending, in any court of this state, any other criminal indictment, information, complaint, or any criminal proceeding wherein the defendant remains to be sentenced, the district attorney of the county in which such matters are pending shall bring the same defendant to trial or for sentencing within 90 days after such person shall have delivered to said district attorney written notice of the place of his imprisonment or commitment and his desire to be brought to trial or for sentencing unless a continuance beyond said 90 days is requested or consented to by such person, in open court, and such request or consent entered upon the minutes of the court in which event the 90-day period herein provided for shall commence to run anew from the date to which such consent or request continued the trial or sentencing. In the event that the defendant is not brought to trial or for sentencing within

the 90 days as herein provided the court in which such charge or sentencing is pending must, on motion or suggestion of the district attorney, or of the defendant or person confined in the county jail or committed to the custody of the Director of Corrections or his counsel, or of the State Department of Corrections, or of the Department of the Youth Authority, or on its own motion, dismiss such action. If a charge is filed against a person during the time such person is serving a sentence in any state prison or county jail of this state or while detained by the Director of Corrections pursuant to Chapter 1 of Division 3 or while detained in any institution subject to the jurisdiction of the Department of the Youth Authority it is hereby made mandatory upon the district attorney of the county in which such charge is filed to bring the same to trial within 90 days after said person shall have delivered to said district attorney written notice of the place of his imprisonment or commitment and his desire to be brought to trial upon said charge, unless a continuance is requested or consented to by such person, in open court, and such request or consent entered upon the minutes of the court, in which event the 90-day period herein provided for shall commence to run anew from the date to which such request or consent continued the trial. In the event such action is not brought to trial within the 90 days as herein provided the court in which such action is pending must, on motion or suggestion of the district attorney, or of the defendant or person committed to the custody of the Director of Corrections or to a county jail or his counsel, or of the State Department of Corrections, or of the Department of the Youth Authority, or on its own motion, dismiss such charge. SEC. 3. Section 1381.5 of the Penal Code is amended to read:

1381.5 Whenever a defendant has been convicted of a crime and has entered upon a term of imprisonment therefor in a federal correctional institution, and at the time of entry upon such term of imprisonment or at any time during such term of imprisonment there is pending in any court of this state any criminal indictment, information, complaint or any criminal proceeding wherein the defendant remains to be sentenced, the district attorney of the county in which such matters are pending, upon receiving from such defendant a request that he be brought to trial or for sentencing on such matters, shall promptly inquire of the warden or other head of the federal correctional institution in which such defendant is confined whether and when such defendant can be released for trial or for sentencing. If an assent from authorized federal authorities for release of the defendant for trial or sentencing is received by the district attorney he shall bring him

to trial or sentencing within 90 days after receipt of such assent, unless the federal authorities specify a date of release after the 90 days, in which event the district attorney shall bring the prisoner to trial or sentencing at such specified time, or unless the defendant requests, in open court, and receives, or, in open court, consents to, a continuance, in which event he may be brought to trial or sentencing within 90 days from such request or consent.

If a defendant is not brought to trial or for sentencing as provided by this section, the court in which the action is pending shall, on motion or suggestion of the district attorney, or representative of the United States, or the defendant or his counsel, dismiss the action.

An effective date fixed pursuant to this section may not be earlier than the effective date found to have been specified in the original application.

This section shall have no force or effect after July 1, 1972.

CHAPTER 1082

An act to add Sections 1902.1 and 2101 to, to amend Sections 1125.5, 1604, 1747, 2099, 2100, 3255, 25436, 25437.5, 25438, 25439.5, 25458, and 25485.2 of, and to repeal Section 25439 of the Education Code, relating to community colleges and declaring the urgency thereof, to take effect immediately.

[Approved by Governor October 14, 1971. Filed with Secretary of State October 14, 1971.]

The people of the State of California do enact as follows:

SECTION 1. Section 1125.5 of the Education Code is amended to read:

1125.5. (a) Whenever an elementary, high school or unified school district or a portion of any such district is annexed to another school district in which trustee areas have been established the county committee on school district organization of the county having jurisdiction over the annexing district shall study and make recommendations with respect to trustee areas of the annexing district as enlarged. Procedures contained in Section 1122 shall be used for purposes of this section

(b) Recommendations adopted under provisions of subdivision (a), if approved by the electors, shall become effective on the same date that the annexing district as enlarged becomes effective for all purposes.

SEC. 2. Section 1604 of the Education Code is amended to read:

1604. "Component district" means any of the following.

(a) An elementary district which is included within a high school district.

(b) A high school or unified school district which is included within a community college district.

(c) A portion of a high school or unified district which is included within a community college district.

SEC. 3. Section 1747 of the Education Code is amended to read:

1747. Whenever territory is transferred to another district or becomes a part of a district, by means of reorganization, in which trustee areas have been established, the territory being transferred shall become a part of the trustee areas to which it is contiguous. In the event that the territory being transferred is contiguous to more than one trustee area, terms of agreement to the transfer may include provisions for the division of the transferred territory among the trustee areas to which it is contiguous.

SEC. 4. Section 1902.1 is added to the Education Code, to read:

1902.1. When any high school district or unified school district, or a portion of either district, which is not in any community college district, is made a part of a community college district by any procedure authorized by this code and a bonded debt is created pursuant to Section 2099, the combined outstanding bonded indebtedness of the community college district and the bonded indebtedness of the included territory shall be an obligation of the reorganized community college district.

SEC. 5. Section 2099 of the Education Code is amended to read:

2099. An agreement to the annexation of a unified district, or a part of a high school or unified school district, to a com-

munity college district may include as a term or condition for such annexation the authorization and issuance of bonds of the unified district, or of the part of the high school or unified school district, in a specified amount for the purpose of paying an equitable share of the cost of the property owned or held by the community college district. In such event, the county superintendent of schools shall call and conduct a bond election within the unified district, or within the portion of the high school or unified school district to be annexed, to be held concurrently with the election on annexation. The governing board of the unified district or of the high school or unified district of which the territory to be annexed is a part may request the board of supervisors to issue and sell the bonds in the name of the unified district, and may request the county superintendent of schools to transfer to the community college district any funds derived from such sale of bonds. The county superintendent of schools shall order such transfer as requested. Any funds so transferred may, after the annexation becomes effective, be expended for purposes authorized by law, throughout the community college district. Bonds issued pursuant to this section shall not be considered outstanding bonded indebtedness of the unified district or of the high school or unified district of which the territory to be annexed is a part for the purposes of Section 21703; however, such bonds shall be considered bonded indebtedness of the community college district for the purposes of Section 21702.

SEC. 6. Section 2100 of the Education Code is amended to read:

2100. An agreement to the annexation of a high school or unified district, or any portion of such district or districts, to a contiguous community college district may include, as a term or condition for such annexation, the collection of a sum of money upon annexation, from within the area of the annexed district or portion of a district, for capital outlay purposes; and such condition shall be considered an inherent part of the annexation agreement and shall not be construed as a separate proposition. For purposes of raising this sum, the maximum tax rate for community college purposes within any district or portion of any district which has been annexed to a contiguous community college district pursuant to Chapter 3 (commencing with Section 2091) of Division 5 is hereby increased by such amount as will produce within 10 fiscal years the sum included in any annexation agreement between the two districts. Any funds collected from such an increase shall be deposited to the credit of the community college district for expenditure for purposes authorized by law.

In addition to the words to be contained on the ballot pursuant to Section 2098, the ballot used in the election shall contain a statement that the maximum tax rate within the annexed districts or portions of districts will be increased by a specified amount as will produce the sum included in the annexation agreement.

The increase provided by this section shall not exceed fifteen cents (\$.15) for each one hundred dollars (\$100) of the assessed value of the property within the high school or unified district, or portion thereof, and the increase shall be in addition to any other school district tax authorized by law to be levied.

The increase provided by this section shall remain in effect until the 10th consecutive fiscal year following the effective date of the annexation, or until such time as the sums agreed to in the annexation agreement referred to herein have been collected by the community college district, from within the annexed school district, or portion thereof, whichever period occurs first.

This section shall not apply whenever Section 2099 applies

SEC. 7. Section 2101 is added to the Education Code, to read:

2101. Notwithstanding the prohibition established in Section 2100, the conditions of annexation may provide that the amount of bonds authorized pursuant to Section 2099 shall be reduced by the amount of funds raised pursuant to Section 2100. At no time may a tax be levied under both Sections 2099 and 2100 simultaneously.

SEC 8. Section 3255 of the Education Code is amended to read:

3255. In any proposal for reorganization of school districts recommended by a county committee, the committee shall include a provision for the authorization of a maximum tax rate for the proposed new district, and such provision shall be an inherent part of the proposal, and shall not be construed as a separate proposition. If the reorganization is approved by the registered voters of the area, such tax rate shall be the maximum tax rate for the type of new district formed in lieu of any rate specified in Section 20751 until changed by the registered voters of the district in the manner prescribed in Section 20803. Such tax rate established by the county committee shall not be less than the tax rates for the new district provided in Section 20751 nor more than the rate which would produce revenue for the proposed new district equal to: (1) the sum of the revenue of each of the districts proposed to be wholly or partially included therein had the maximum allowable tax rate been in effect in each such district during the school year prior to the fiscal year in which the election for reorganization is held; (2) revenues equal to the amount by which the state equalization aid allowances, if any, computed for the proposed district for the fiscal year are less than the sum of the state equalization aid allowances, if any, made to the component districts during the fiscal year prior to the fiscal year in which the election for reorganization is held; and (3) revenues equal to the amount of the difference between the average certificated and the average classified salary of all the component districts during the school year prior to that in which the election is held and the

average certificated and the average classified salary of the high school district or districts included in the proposal multiplied by the number of employees in each category at the elementary level. In the event the salary schedule of an included elementary district or unified district is higher than that of the high school district, the county committee may for the purpose of determining a tax rate under this section substitute that elementary or unified district salary schedule for the high school district schedule.

In community college district reorganization proposals, the tax rates for non community college district territory included in the reorganization shall be the maximum tax rate for community college districts as specified in Section 20751. Such territory shall not be considered in computation of state equalization aid for purposes of this section. If a portion of a community college district is included in the recommended reorganization, the tax rate and equalization aid shall be at the same rate as the district as a whole. Any tax rate approved pursuant to this section may be decreased by the governing board of the district to not less than the tax rate specified in Section 20751.

The maximum tax rate of the proposed new district shall be printed on the ballot.

SEC. 85. Section 3255 of the Education Code is amended to read:

3255. In any proposal for reorganization of school districts recommended by a county committee, the committee shall include a provision for the authorization of a maximum tax rate for the proposed new district, and such provision shall be an inherent part of the proposal, and shall not be construed as a separate proposition. If the reorganization is approved by the registered voters of the area, such tax rate shall be the maximum tax rate for the type of new district formed in lieu of any rate specified in Section 20751 until changed by the registered voters of the district in the manner prescribed in Section 20803. Such tax rate established by the county committee shall not be less than the tax rates for the new district provided in Section 20751 nor more than the rate which would produce revenue for the proposed new district equal to: (1) the sum of the revenue of each of the districts proposed to be wholly or partially included therein had the maximum allowable tax rate been in effect in each such district during the school year prior to the fiscal year in which the election for reorganization is held; (2) revenues equal to the amount by which the state equalization aid allowances, if any, computed for the proposed district for the fiscal year are less than the sum of the state equalization aid allowances, if any, made to the component districts during the fiscal year prior to the fiscal year in which the election for reorganization is held; and (3) revenues equal to the amount of the difference between the average certificated and the average classified salary of all the component districts during the

school year prior to that in which the election is held and the average certificated and the average classified salary of the high school district or districts included in the proposal multiplied by the number of employees in each category at the elementary level. In the event the salary schedule of an included elementary district or unified district is higher than that of the high school district, the county committee may for the purpose of determining a tax rate under this section substitute that elementary or unified district salary schedule for the high school district schedule.

In community college district reorganization proposals, the tax rates for noncommunity-college-district territory included in the reorganization shall be the maximum tax rate for community college districts as specified in Section 20751. Such territory shall not be considered in computation of state equalization aid for purposes of this section. If a portion of a community college district is included in the recommended reorganization, the tax rate and equalization aid shall be at the same rate as the district as a whole. Any tax rate approved pursuant to this section may be decreased by the governing board of the district to not less than the tax rate specified in Section 20751.

Notwithstanding any provision of the preceding paragraph, the county committee may increase the maximum tax rate established thereunder, to reflect increases occurring in the fiscal year in which the election is held, in the salaries of certificated and classified employees, or any of the component districts.

The maximum tax rate of the proposed new district shall be printed on the ballot.

Additionally, the ballot shall contain a statement by the county committee, of the amount by which the maximum tax rate, as shown on the ballot, of the new district, would be required to be increased in order to produce an amount of revenue equal to the sum of the revenues of each of the districts proposed to be partially or wholly included therein produced by all of the taxes levied, pursuant to statutes authorizing taxes to be levied for particular purposes without compliance with Sections 20751 and 20803, in such districts during the school year prior to the fiscal year in which the election for reorganization was held.

SEC. 9. Section 25436 of the Education Code is amended to read:

25436. A community college district may include all or part of the territory of one high school or unified district or two or more high school or unified districts and may, with the approval of the Board of Governors of the California Community Colleges, include noncontiguous territory; provided, however, that the terms of this section shall not be applicable to any districting proposals initiated prior to March 1, 1967. A districting proposal shall be deemed to have been initiated when the board of trustees of a community college district and the board of trustees of the district seeking

annexation have adopted resolutions ratifying the terms of the annexation agreement.

SEC. 10. Section 25437.5 of the Education Code is amended to read:

25437.5. The Board of Governors shall establish minimum standards for the formation of community college districts.

SEC. 11. Section 25438 of the Education Code is amended to read:

25438. The governing board of any high school district or the governing boards of two or more high school districts, or the governing board of a community college district and the governing board of one or more high school districts, may present to the Board of Governors a petition asking permission to call an election for the formation of a community college district to include all, or a portion of, the territory in the high school district or districts, as the case may be. The petition may include a proposal to form trustee areas in the proposed community college district, and shall state whether five or seven members shall constitute the governing board of the district. The Board of Governors shall make or cause to be made a survey of the proposed community college district and of other high school districts which, in whole or in part, may appropriately be included in the proposed district.

SEC. 12. Section 25439 of the Education Code is repealed.

SEC. 13. Section 25439.5 of the Education Code is amended to read:

25439.5. If the Board of Governors approves the petition, it shall within 30 days after approval notify the superintendent of schools of the county in which the greatest area of the proposed community college district lies.

SEC. 14. Section 25458 of the Education Code is amended to read:

25458. The procedures contained in Chapter 10 (commencing with Section 3100) of Division 5 shall be used in the development of plans and recommendations for the inclusion of territory in community college districts. The terms of the plan for the inclusion of territory may be based on any provision of Division 5 (commencing with Section 1601)

SEC. 15. Section 25485.2 of the Education Code is amended to read:

25485.2. Any part of a community college district may be transferred to another community college district in the manner provided in Article 3 (commencing with Section 2361), or Article 4 (commencing with Section 2391), of Chapter 5 of Division 5 of this code.

SEC. 16. The provisions of this act shall apply to any plan for the inclusion of territory of a high school or unified district in a community college district which was approved by the Board of Governors of the California Community Colleges before this act became effective and which is to be voted on after this act becomes effective.

SEC. 17 Notwithstanding the provisions of Section 3294 of the Education Code, an election on the question of a district organization proposal which is invalid may be postponed until the proposal has become valid.

SEC. 18. It is the intent of the Legislature, if this bill and Assembly Bill No. 2283 are both chaptered and amend Section 3255 of the Education Code, and this bill is chaptered after Assembly Bill No. 2283, that Section 3255 of the Education Code, as amended by Section 8 of this act shall remain operative until the effective date of Assembly Bill No. 2283, and that on the effective date of Assembly Bill No. 2283 Section 3255 of the Education Code, as amended by Section 8 of this act, shall cease to be operative and Section 3255 of the Education Code as amended by Section 8.5 of this act shall become operative to incorporate the changes in Section 3255 proposed by Assembly Bill No. 2283. Therefore, if Assembly Bill No. 2283 is chaptered before this bill and amends Section 3255, Section 8.5 of this act shall become operative on the effective date of Assembly Bill No. 2283.

SEC. 19 This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order for the reorganization proposal for the territory of the El Monte Union High School District to take effect it is necessary that the election take place on November 2, 1971, which requires that the approved plan be valid no later than that date.

[Approved by Governor October 18, 1971. Filed with Secretary of State October 18, 1971.]

The people of the State of California do enact as follows:

SECTION 1. Section 1215.4 of the Insurance Code is amended to read:

1215.4. (a) Every insurer which is authorized to do business in this state and which is a member of an insurance holding company system shall register with the commissioner, except a foreign insurer subject to disclosure requirements and standards adopted by statute or regulation in the jurisdiction of its domicile which are substantially similar to those contained in this section. Such exemption from registration for such foreign insurers shall not apply to any commercially domiciled insurer within this state, as provided in Section 1215.13. Any insurer which is subject to registration under this section shall register within 60 days after the effective date of this article or 15 days after it becomes subject to registration, whichever is later, unless the commissioner for good cause shown extends the time for registration, and then within such extended time. The commissioner may require a holding company system which is not subject to registration under this section to furnish a copy of the registration statement or other

information filed by such insurance company with the insurance regulatory authority of domiciliary jurisdiction.

(b) Every insurer subject to registration shall file a registration statement on a form provided by the commissioner, which shall contain current information about the following:

(1) The capital structure, general financial condition, ownership, and management of the insurer and any person controlling such insurer;

(2) The following agreements in force, relationships subsisting, and transactions currently outstanding between such insurer and its affiliates:

(i) Loans, other investments, or purchases, sales, or exchanges of securities of the affiliates by the insurer or of the insurer by its affiliates;

(ii) Purchases, sales, or exchanges of assets;

(iii) Transactions not in the ordinary course of business;

(iv) Guarantees or undertakings for the benefit of an affiliate which result in an actual contingent exposure of the insurer's assets to liability, other than insurance contracts entered into in the ordinary course of the insurer's business;

(v) All management and service contracts and all cost-sharing arrangements, other than cost allocation arrangements based upon generally accepted accounting principles;

(vi) Reinsurance agreements covering all or substantially all of one or more lines of insurance of the ceding company.

(3) Other matters as may be included in registration forms adopted by the National Association of Insurance Commissioners, to the extent required by the commissioner.

(c) No information need be disclosed on the registration statement filed pursuant to subdivision (b) of this section if such information is not material for the purposes of this article. Unless the commissioner by rule, regulation, or order provides otherwise, sales, purchases, exchanges, loans or extensions of credit, or investments, involving one-half of 1 percent or less of an insurer's admitted assets, as of the 31st day of December next preceding, shall not be deemed material for purposes of this section.

(d) Each registered insurer shall keep current the information required to be disclosed in its registration statement by reporting all material changes or additions on amendment forms provided by the commissioner within 15 days after the end of the month in which it learns of each such change or addition. However, subject to this subdivision, each registered insurer shall so report all dividends and other distributions to shareholders promptly upon the declaration thereof.

(e) The commissioner shall terminate the registration of any insurer which demonstrates that it no longer is a member of an insurance holding company system.

(f) The commissioner may require or allow two or more affiliated insurers subject to registration hereunder to file a consolidated registration statement or consolidated reports

amending their consolidated registration statement or their individual registration statements

(g) The commissioner may allow any insurer which is authorized to do business in this state and which is part of an insurance holding company system to register on behalf of any affiliated insurer which is required to register under subdivision (a) of this section and to file all information and material required to be filed under this article

(h) The provisions of this section shall not apply to any insurer, information, or transaction if and to the extent that the commissioner by rule, regulation, or order shall exempt the same from the provisions of this section as not comprehended within the purposes of this section.

(i) Any person may file with the commissioner a disclaimer of affiliation with any authorized insurer or such a disclaimer may be filed by such insurer or any member of an insurance holding company system. The disclaimer shall fully disclose all material relationships and bases for affiliation between such person and such insurer, as well as the basis for disclaiming such affiliation. After a disclaimer has been filed, the insurer shall be relieved of any duty to register or report under this section which may arise out of the insurer's relationship with such person unless and until the commissioner disallows such a disclaimer. The commissioner shall disallow such a disclaimer only after furnishing all parties in interest with notice and opportunity to be heard and after making specific findings of fact to support such disallowance.

(j) The failure to file a registration statement or any amendment thereto required by this section within the time specified for such filing shall be a violation of this article.

SEC. 2. Section 1215 13 of the Insurance Code is amended and renumbered to read:

1215 14. All laws and parts of laws of this state inconsistent with this article are hereby superseded with respect to matters covered by this article.

SEC 3. Section 1215.13 is added to the Insurance Code, to read

(a) For the purposes of this article only, every foreign insurer except an insurer described in Article 2 (commencing with Section 12350) of Chapter 1 of Part 6 of Division 2, which is authorized to do business in this state and which, during its three preceding fiscal years taken together, or during any lesser period of time if it has been licensed to transact its business in California only for such lesser period of time, has written an average of more gross premiums in the State of California than it has written in its state of domicile during the same period, and such gross premiums written constitute 33 percent or more of its total gross premiums written everywhere in the United States for such three-year or lesser period, as reported in its three most recent annual state-

ments, shall be deemed a "commercially domiciled insurer" within the State of California.

(b) Every commercially domiciled insurer, as defined in this section, which the commissioner shall find has assets and the evidences of title thereto physically located in California, including evidences of debt wherever located which are secured by recorded deeds of trust or recorded mortgages on real property located in California, in an amount less than five million dollars (\$5,000,000), or whose assets and evidences of title thereto in California are less than its California policyholder liability, whichever sum is lesser, as determined by the commissioner, shall thereafter be subject to all the provisions of this article in the same manner and to the same extent as domestic insurers, and shall be so notified in writing.

(c) The commissioner may exempt from the provisions of this article any commercially domiciled insurer made subject to this article by subdivision (b) if he shall determine that it has a sufficiently large amount of assets and the evidences of title thereto physically located in California, or that the ratio of such assets to its California policyholder liability is sufficiently large, as to justify the conclusion that there is no reasonable danger that the operations or conduct of the business of such insurer could present a danger of loss to California policyholders.

(d) This section shall not, however, be construed to exempt any foreign insurer which is authorized to do business in this state, including a commercially domiciled insurer, from the provisions of any other sections of this article which may be applicable to such insurer.

SEC. 4. Section 1215.14 of the Insurance Code is amended and renumbered to read:

If the director finds that a majority of the employees to be affected by the election to become an employer have signed the petition, the governmental entity shall, upon the written approval of the director, become an employer subject to this division to the same extent as other employers, and services performed by its employees, including those with civil service or tenure positions, shall constitute employment subject to this division. Beginning at that time it shall withhold from the wages of employees the contributions required for unemployment compensation disability benefits.

(c) In lieu of the contributions required of employers, each governmental entity that has elected coverage under this section may elect any method of financing coverage by an election under this section that is permitted under Section 803. (e) The director may tabulate and publish information obtained pursuant to this section in statistical form and may divulge the name of the governmental entity.

(f) Each governmental entity shall keep such work records as may be prescribed by the director for the proper administration of this division.

(g) Except as inconsistent with the provisions of this section, the provisions of this division and authorized regulations shall apply to any matter arising pursuant to this section.

710.1. No election filed under Section 710 shall be effective for service performed after December 31, 1971, in the employ of any instrumentality of this state or of this state and one or more other states for a hospital or institution of higher education located in this state, if such service is excluded from "employment" under the Federal Unemployment Tax Act solely by reason of paragraph (7) of Section 3306(c) of that act. All elections for coverage filed by any such governmental entity under Section 710 prior to January 1, 1972, relating to such service shall be terminated effective December 31, 1971, except that elections to reimburse the additional cost of benefits shall continue in effect, subject to Section 803, unless terminated by the governmental entity, and it shall remain liable for its proportionate share of the additional cost of benefits paid (including extended duration benefits and federal-state extended benefits), which are based on wages paid for services during the period of the election to reimburse benefits.

710.2. (a) Any political subdivision of this state for which services are performed in a hospital or institution of higher education, as defined in Section 605.1, located in this state, may elect to become an employer subject to this part and Part 3 (commencing with Section 3501) and Part 4 (commencing with Section 4001) of this division for not less than two calendar years with respect to such services, and to have such services performed by its employees constitute employment subject to this part and Part 3 (commencing with Section 3501) and Part 4 (commencing with Section 4001) of this division for such period. Any election under this section shall include all services of all employees of all hospitals and all institutions of higher education, as defined in Section 605.1, operated in this state by the political subdivision, except as provided by subdivision (b) of this section. If an election is filed, the political subdivision shall become an employer subject to this part and Part 3 (commencing with Section 3501) and Part 4 (commencing with Section 4001) of this division with respect to the services covered to the same extent as other employers, and such services performed by its employees, including those with civil service or tenure positions, shall constitute employment subject to this part and Part 3 (commencing with Section 3501) and Part 4 (commencing with Section 4001) of this division effective on the first day of the calendar quarter following the quarter in which the election is filed. It may also include in any such election coverage under Part 2 (commencing with Section 2601) of this division, and, if it so elects, beginning at that time it shall withhold from the wages of employees the contributions required for unemployment compensation disability benefits.

(b) The political subdivision may exclude from coverage under an election pursuant to this section any service described in Section 634.5.

Subdivision (b) of Section 802 shall apply to any such election under Section 803, except that any such election under Section 803 shall be terminated on the effective date of the termination of an election for coverage under this section.

(d) The director may require from each political subdivision, such employment, financial, statistical, or other information and reports, properly verified, as may be deemed necessary by the director to carry out his duties under this division, which shall be filed with the director at the time and in the manner prescribed by him.

(e) The director may tabulate and publish information obtained pursuant to this section in statistical form and may divulge the name of the political subdivision.

(f) Each political subdivision shall keep such work records as may be prescribed by the director for the proper administration of this division.

SEC. 42. Section 710.5 is added to the Unemployment Insurance Code, to read:

710.5. (a) The State of California or any instrumentality of this state or of this state and one or more other states for which services that do constitute employment under Section 605.1 are performed and for which other services for a hospital or institution of higher education, as defined in Section 605.1, located in this state that do not constitute employment are performed may elect to become an employer subject to this part and Parts 3 (commencing with Section 3501) and 4 (commencing with Section 4001) of this division for not less than two calendar years with respect to such other services and to have such other services performed by its employees constitute employment subject to this part and such Parts 3 and 4 for such period. If an election is filed, this state or the instrumentality shall become an employer subject to this part and such Parts 3 and 4 with respect to the services covered to the same extent as other employers, and such services performed by its employees, including those with civil service or tenure positions, shall constitute employment subject to this part and such Parts 3 and 4 effective on the first day of the calendar quarter following the quarter in which the election is filed.

SEC. 44. Section 711.1 is added to the Unemployment Insurance Code, to read:

711.1. No election filed under Section 711 shall be effective for service performed after December 31, 1971 and included in "employment" pursuant to Section 608. All such elections for coverage filed under Section 711 prior to January 1, 1972, shall be terminated effective December 31, 1971, except that elections to reimburse benefits shall continue in effect, subject to Section 803, unless terminated by the nonprofit organization, and it shall remain liable for its proportionate share of the additional cost of benefits paid, or of the cost of benefits (including extended duration benefits and federal-state extended benefits) paid and charged to its account in the manner provided by Section 1026 which are based on wages paid for services during the period of any election for reimbursement of benefits.

SEC. 45. Section 713 of the Unemployment Insurance Code is repealed.

SEC. 46. Article 5 (commencing with Section 801) is added to Chapter 3, Part 1, Division 1 of the Unemployment Insurance Code, to read:

Article 5. Elections for Financing Unemployment Insurance Coverage

801. (a) As used in this section, "nonprofit organization" means any corporation, community chest, fund, or foundation for which services are performed that do constitute employment by compulsory coverage under Section 608.

(b) A nonprofit organization may, in lieu of the contributions required of employers, elect to finance its liability for unemployment compensation benefits, extended duration benefits, and federal-state extended benefits coverage under this division by any method of financing coverage that is permitted under Section 803.

(c) Any election under Section 803 of a method for financing coverage under this section shall, upon the written approval of the director, take effect with respect to services performed from and after the first day of the calendar quarter in which the election is filed with the director, and shall continue in effect for not less than two full calendar years. Thereafter the election under Section 803 may be terminated as of Janu-

any 1 of any calendar year only if the nonprofit organization, on or before the 31st day of January of that year, has filed with the director a written application for termination. The director may for good cause waive the requirement that a written application for termination shall be filed on or before the 31st day of January. In no event shall the director approve any method of financing coverage by an election under Section 803 that would establish any different method of financing coverage for any calendar quarter where an election for coverage made by a nonprofit organization under Section 702.1 elects a method of financing coverage permitted under Section 803.

(d) Except as inconsistent with the provisions of this section, the provisions of this division and authorized regulations shall apply to any matter arising pursuant to this section.

802. (a) The State of California, or any instrumentality of this state or of this state and one or more other states for which services are performed that do constitute employment under Section 605, 605.1, or 605.5 may, in lieu of the contributions required of employers, elect to finance its liability for unemployment compensation benefits, extended duration benefits, and federal-state extended benefits with respect to such services by any method of financing coverage that is permitted under Section 803.

(b) Any election under Section 803 for financing coverage under this section shall take effect with respect to services performed from and after the first day of the calendar quarter in which the election is filed with the director, and shall continue in effect for not less than two full calendar years. Thereafter the election under Section 803 may be terminated as of January 1 of any calendar year only if the state or instrumentality, on or before the 31st day of January of that year, has filed with the director a written application for termination. The director may for good cause waive the requirement that a written application for termination shall be filed on or before the 31st day of January. In no event shall any method of financing coverage by an election under Section 803 be valid that would establish any different method of financing coverage for any calendar quarter where an election for coverage has also been made by the state or any instrumentality under any provision of Article 4 (commencing with Section 701) of this chapter.

(c) The director may require from the state and each instrumentality, such employment, financial, statistical, or other information and reports, properly verified, as may be deemed necessary by the director to carry out his duties under this division, which shall be filed with the director at the time and in the manner prescribed by him.

(d) The director may tabulate and publish information obtained pursuant to this section in statistical form and may divulge the name of the state or instrumentality.

(e) The state and each instrumentality shall keep such work records as may be prescribed by the director for the proper administration of this division.

(f) Except as inconsistent with the provisions of this section, the provisions of this division and authorized regulations shall apply to any matter arising pursuant to this section.

803. (a) As used in this section "entity" means any employing unit that is authorized or required by any provision of Article 4 (commencing with Section 701) of this chapter or by Section 801 or 802 to elect a method of financing coverage permitted by this section.

(b) In lieu of the contributions required of employers, an entity may elect any one of the following:

(1) To pay into the Unemployment Fund in the State Treasury at the times and in the manner provided in subdivision (c) of this section, an amount equal to the additional cost to the Unemployment Fund of the benefits, including extended duration benefits and federal-state extended benefits, paid based on base period wages with respect to employment for the entity. Benefits otherwise payable irrespective of this section shall be charged to employers' accounts in accordance with other sections of this division, but the additional cost to the Unemployment Fund of the benefits paid based on base period wages with respect to employment for an entity pursuant to this section shall be borne solely by the appropriate entity. If benefits are based on wages paid during a base period by two or more entities, the benefits shall be borne by each of the entities in the proportion that the total wages paid to the individual in employment by each entity during the base period bears to the total wages paid to the individual in employment by all entities during the base period. "Total wages paid" as used in this subdivision, include taxable wages as well as wages which would be taxable except for the limitation on taxable wages provided under Section 930. The director may by authorized regulations prescribe a method of providing a good and sufficient bond to guarantee payment of contributions under this subdivision.

(2) To pay into the Unemployment Fund the cost of benefits, including extended duration benefits and federal-state extended benefits, paid based on base period wages with respect to employment for the entity and charged to its account in the manner provided by Section 1026, pursuant to authorized regulations which shall prescribe the rate or amount, time, manner, and method of payment or advance payment or providing a good and sufficient bond to guarantee payment of contributions.

(3) Two or more entities that have elected a method of financing under this section may, pursuant to authorized regulations, file an application with the director for the establishment of a joint account for the purpose of determining the rate of contributions they shall pay into the Unemployment Fund to reimburse the fund for benefits paid with respect to

employment for such entities. The members of the joint account may elect either to share the additional cost to the Unemployment Fund of the benefits, including extended duration benefits and federal-state extended benefits, paid based on base period wages with respect to employment for such members, or to share the cost of benefits, including extended duration benefits and federal-state extended benefits, paid based on the base period wages with respect to employment for such members and charged to the joint account in the manner provided by Section 1026. The director shall prescribe authorized regulations for the establishment, maintenance, and dissolution of joint accounts, and for the rate or amount, time, manner, and method of payment or advance payment or providing a good and sufficient bond to guarantee payment of contributions by the members of joint accounts, on an additional cost basis and on the alternative basis of the cost of benefits charged in the manner provided by Section 1026.

(c) Sections 1030, 1030.5, 1031, 1032, and 1032.5, and any provision of this division for the noncharging of benefits to the account of an employer shall not apply to an election under subdivision (b) of this section.

(d) In making the payments prescribed by subdivision (b) of this section there shall be paid or credited to the Unemployment Fund, either in advance or by way of reimbursement, as may be determined by the director, such sums as he estimates the Unemployment Fund will be entitled to receive from each entity for each calendar quarter, reduced or increased by any sum by which he finds that his estimates for any prior calendar quarter were greater or less than the amounts which should have been paid to the fund. Such estimates may be made upon the basis of such statistical sampling, or other method as may be determined by the director.

Upon making such determination, the director shall give notice of the determination by certified mail to the entity. The director may cancel any contributions or portion thereof which he finds has been erroneously determined. The director shall charge to any special fund, which is responsible for the salary of any employee of an entity, the amount determined by the director for which the fund is liable pursuant to this section. The contributions due from the entity shall be paid from the liable special fund, the General Fund, or other liable fund to the Unemployment Fund by the Controller or other officer or person responsible for disbursements on behalf of the entity within 30 days of the date of mailing of the director's notice of determination to the entity. The director for good cause may extend for not to exceed 60 days the time for paying without penalty the amount determined and required to be paid. Contributions are due upon the date of mailing of the notice of determination and are delinquent if not paid on or before the 30th day following the date of mailing of such notice. Any entity which fails to pay the contributions required within the time required shall be liable for interest on

the contributions at the rate of $\frac{1}{2}$ percent per month or fraction thereof from and after the date of delinquency until paid, and any entity which without good cause fails to pay any contributions required within the time required shall pay a penalty of 10 percent of the amount of such contributions. If the entity fails to pay the contributions required on or before the delinquency date, the director may assess the entity for the amount required by the notice of determination. The provisions of Article 8 (commencing with Section 1126) of Chapter 4 of Part 1 of this division with respect to the assessment of contributions, and the provisions of Chapter 7 (commencing with Section 1701) of Part 1 of this division with respect to the collection of contributions, shall apply to the assessments provided by this section. The provisions of Sections 1177 to 1184, inclusive, relating to refunds and overpayments, shall apply to amounts paid to the Unemployment Fund pursuant to this section.

(e) To the extent permitted by federal law, no contributions shall be due from any entity other than a nonprofit organization which has elected a method of financing under subdivision (b) of this section and which has previously made contributions required of employers pursuant to an elective coverage agreement or under compulsory coverage until the additional cost of benefits paid and reimbursable by or the cost of benefits paid and reimbursable by the entity under this section together with the benefits charged and chargeable to the reserve account of the entity as a result of its prior election or compulsory coverage exceed the contributions made by the entity and credited to its reserve account pursuant to its prior election or compulsory coverage.

(f) Except with respect to a political subdivision electing coverage pursuant to Section 710.2, the director may terminate the election of any entity for any method of financing under this section if the entity is delinquent in the payment of advances or reimbursements required by the director under this section. After any such termination the entity may again make an election pursuant to this section but only if it is not delinquent in the payment of contributions and not delinquent in the payment of advances or reimbursements required by the director under this section.

(g) Notwithstanding any other provision of this section, no entity shall be liable for that portion of any extended duration benefits or federal-state extended benefits which is reimbursed or reimbursable by the federal government to the State of California.

(h) After the termination of any election under this section, the entity shall remain liable for its proportionate share of the additional cost of benefits paid, or of the cost of benefits paid and charged to its account in the manner provided by Section 1026, which are based on wages paid for services during the period of the election. Any such liability may be charged against any remaining balance of a prior reserve

account used by the entity pursuant to Section 712. Any portion of such remaining balance shall be included in the reserve account of the entity following any termination of an election under this section which occurs prior to the expiration of a period of three consecutive years commencing with the effective date of such election. For purposes of Section 982, the period of an election under Section 803 shall, to the extent permitted by federal law, be included as a period during which a reserve account has been subject to benefit charges.

SEC. 61. Section 1277 of the Unemployment Insurance Code is amended to read:

1277. Wages paid prior to the filing of a valid claim and not used in the computation of the award may be used for the purpose of computing the amount of any other award only if within the 12-month period following the date of the filing of the valid claim the individual was paid sufficient wages to meet the eligibility requirement under Section 1281 and had some work. For the purpose of this section only the term "wages" includes any and all compensation for personal services performed as an employee for the purpose of meeting the eligibility requirement under Section 1281. This section is not applicable to the computation of an award for disability benefits but the establishment of a valid claim for disability benefits shall not constitute a valid claim for unemployment compensation benefits unless the claimant was paid sufficient wages and performed some work to entitle the claimant to an award under this section.

SEC. 62. Section 1277.5 of the Unemployment Insurance Code is amended to read:

1277.5. In determining, under Section 1277, whether wages paid prior to the filing of a valid claim may be used in computing the amount of any other award, if the individual had some work during the 12-month period following the filing of the valid claim, then twice the amount which an individual was entitled to receive under Part 2 (commencing with Section 2601) of this division or under Division 4 (commencing with Section 3201) of the Labor Code during the 12-month period following the filing of the valid claim, shall be considered as wages paid to the individual during that 12-month period for purposes of meeting the eligibility requirements of Section 1281. The amounts so included shall not be considered wages for the purpose of computing the weekly benefit amount of the individual under Section 1280.

SEC. 63. Section 1279 of the Unemployment Insurance Code is amended to read:

1279. Each individual eligible under this chapter who is unemployed in any week shall be paid with respect to that week an unemployment compensation benefit in an amount equal to his weekly benefit amount less the amount of wages in excess of twelve dollars (\$12) payable to him for services rendered during that week. The benefit payment, if not a multiple of one dollar (\$1), shall be computed to the next higher multiple of one dollar (\$1). For the purpose of this section only "wages" includes any and all compensation for personal services whether performed as an employee or as an inde-

pendent contractor, but does not include any payments, regardless of their designation, made by a city of this state to an elected official thereof as an incident to such public office.

SEC. 64. Section 1335 of the Unemployment Insurance Code is amended to read:

1335. If an appeal is filed, benefits with respect to the period prior to the final decision on the appeal shall be paid only after such decision, except that:

(a) If benefits for any week are payable in accordance with a determination by the department irrespective of any decision on the issues set forth in the appeal, such benefits shall be promptly paid regardless of such appeal.

(b) If a referee affirms a determination allowing benefits, such benefits shall be promptly paid regardless of any appeal which may thereafter be taken, and regardless of any action taken under Section 1336 or otherwise by the director, Appeals Board, or other administrative body or by any court.

If such determination is finally reversed, no employer's account shall be charged with benefits paid because of that determination.

(c) If benefits for any week are payable in accordance with a determination by the department, or a referee issues a decision allowing benefits, such benefits shall be promptly paid regardless of any appeal. If the determination of the department or the decision of the referee is finally reversed, no employer's reserve account shall be charged with benefits paid pursuant to this subdivision.

Benefits otherwise payable, irrespective of this chapter, shall be charged to employers' reserve accounts in accordance with other sections of this part and shall be the liability of governmental entities or nonprofit organizations pursuant to Section 803, but the additional cost to the Unemployment Fund of the benefits paid based on base period state wages or state base period state wages pursuant to this chapter shall be borne solely by the State of California.

(b) In making the payments prescribed by subdivision (a), there shall be paid or credited to the Unemployment Fund, either in advance or by way of reimbursement, as may be determined by the director, such sums as he estimates the Unemployment Fund will be entitled to receive from the State of California under this section for each calendar quarter, re-

duced or increased by any sum by which he finds that his estimates for any prior calendar quarter were greater or less than the amounts which should have been paid to the fund. Such estimates may be made upon the basis of statistical sampling, or other method as may be determined by the director.

Upon making such determination, the director shall certify to the Controller the amount determined with respect to the State of California. The Controller shall pay to the Unemployment Fund the contributions due from the State of California. The director shall charge to any special fund, which is responsible for the salary of any employee, the amount of additional cost to the Unemployment Fund of the benefits paid with respect to that state employee.

(c) The director may require from each state agency such employment, wage, financial, statistical, or other information and reports, properly verified, as may be deemed necessary by the director to carry out his duties under this chapter, which shall be filed with the director at the time and in the manner prescribed by him.

(d) The director may tabulate and publish information obtained pursuant to this chapter in statistical form and may divulge the name of the employing unit.

(e) Each state agency shall keep such work records as may be prescribed by the director for the proper administration of this chapter.

This assumption was erroneous. Unless this amount is restored, therefore, the staff of the central registry must be reduced, and this important function will not be able to perform at its proper level.

CHAPTER 1. TITLE OF ACT AND POLICY

101000. This part shall be known and may be cited as the "Greater Bakersfield Metropolitan Transit District Act."

101001. It appears that public interest and necessity may require that a transit district be established in the territory comprising the City of Bakersfield and the unincorporated area of the County of Kern adjacent to the city in order to meet the public transit problems within such territory. There is no general law under which such a district could be formed and, accordingly, the enactment of a special law providing for the formation of such a special district is required.

CHAPTER 2. DEFINITIONS

101005. Unless the context otherwise specifically requires, the definitions set forth in this chapter shall govern the construction of this part.

101006. "District" means the Greater Bakersfield Metropolitan Transit District formed under the provisions of this part.

101014. "Existing system" means any transit service or system of a publicly or privately owned public utility, or division thereof, operating entirely within the district or at least 40 percent of whose revenue vehicle miles for the preceding calendar year were operated within the district, but does not include a charter-party carrier or the charter service of a passenger stage corporation.

CHAPTER 3. FORMATION OF THE DISTRICT

Article 1. General Provisions

101030. The Greater Bakersfield Metropolitan Transit District may be formed as provided in this chapter and, when so formed, may exercise the powers granted in this part.

101031. The territory of such district shall be composed of the entire City of Bakersfield and such portions of unincorporated territory of the county contiguous thereto as may be benefited by inclusion in the district.

Article 2. Proceedings Before Local Agency Formation Commission

101036. The proposal may be made by any one or all of the following methods:

(a) By resolution adopted by the City Council of the City of Bakersfield.

(b) By resolution adopted by the board of supervisors.

(c) By joint resolution adopted by the city council and the board of supervisors.

(d) By petition.

101037. The resolution or petition shall be addressed to

the commission and shall contain all the following:

(e) A statement requesting that all appropriate proceedings be taken for the formation of a transit district pursuant to the provisions of this part.

101038. The petition shall be signed by electors registered to vote in the territory proposed for formation of the district in a number equal to 10 percent of the number of voters registered to vote in such territory at the last general statewide election immediately preceding the filing of the petition. All signatures to the petition must be obtained within the six months immediately preceding the presentation of the petition to the executive officer of the commission.

101039. Each signer of the petition shall add opposite his signature the date of signing and his residence address.

101040. At the time the petition is presented to the executive officer of the commission, there shall appear opposite each signature the name or number of the voting precinct of the signer.

101041. The petition may consist of a single instrument or separate counterparts.

(a) That each signature appearing on the petition or each counterpart thereof is the genuine signature of the person whose name it purports to be.

(b) That each signer thereof was, at the time of placing such signature thereon, an elector registered to vote within the territory proposed for formation of the district.

(c) That the declarant personally observed each signer placing thereon his signature, the date thereof, and his

residence address by street and number or, if no street or number exists, then a designation of such place of residence which will enable its location to be easily ascertained.

(d) The residence address and voting precinct of the declarant.

101043. If no resolution has been presented to the commission under Sections 101035 and 101036, then within five days after receipt of a petition presented under those sections, the executive officer of the commission shall transmit the petition to the county clerk for certification.

101044. Within 10 days after receipt of the petition, the county clerk shall examine the petition and determine the number of valid signers thereof by comparing the signatures thereon with the signatures of registered voters as appear on the affidavits of voter registration on file with him. The county clerk shall then certify to the executive officer of the commission all the following:

(a) The total number of voters registered within the territory proposed for formation of the district at the time prescribed by Section 101038.

(b) The total number of registered voters in such territory who have signed the petition.

(c) The percentage which the number of such signers bears to the total number of voters registered to vote in such territory at such time.

101045. The county clerk shall disregard any petition, or counterpart thereof, which does not append thereto the declaration of the declarant thereof.

101046. If the county clerk certifies that the percentage of registered voters signing the petition is less than that required by Section 101038, a supplemental petition may be presented to the executive officer of the commission within 30 days after the county clerk's certification of the first petition. The supplemental petition shall thereupon be processed as provided in Sections 101043, 101044, and 101045. Only one such supplemental petition may be filed.

101047. If no proposal has been made by resolution and if the county clerk's certification declares that a petition and any supplemental petition filed under Section 101046 is signed by less than the percentage of registered voters prescribed by Section 101038, all proceedings under this part shall terminate. Any such termination shall be without prejudice to the recommencement of any subsequent formation proceeding under this part.

101048. The executive officer of the commission shall set the proposal for hearing before the commission upon the occurrence of the first of the following events:

(a) The presentation of the proposal by resolution.

(b) The certification by the county clerk that a petition has

been signed by the requisite number of voters required by Section 101038.

101049. Except as otherwise provided in this part specifically, proceedings upon the proposal and the jurisdiction of the commission shall be as prescribed by the Knox-Nisbet Act (Chapter 6.6 (commencing with Section 54773), Part 1, Division 2, Title 5 of the Government Code).

101050. If the commission approves the proposal, the resolution adopted by the commission pursuant to Section 54797 of the Government Code approving the proposal shall contain a metes and bounds description of the boundary of the territory proposed for formation of the district as such boundary is approved by the commission.

101051. If the commission approves the proposal, within five days after the adoption of its resolution of approval, the executive officer of the commission shall file a certified copy thereof with the clerk of the board of supervisors together with any of the following which have been presented to the commission:

(a) The resolution or resolutions presented under Sections 101035 and 101036.

101060.2. At the hearing, all interested persons shall be given an opportunity to express their views upon the proposed formation of the district.

101060.3. The board of supervisors shall have power to exclude from the proposed district any area or areas which, in the board's determination, would not receive reasonable benefit from inclusion in the district. The board shall not have

the power to exclude from the proposed district any territory within the corporate boundaries of the City of Bakersfield.

101060.4. The board of supervisors may continue the hearing from day to day; but not to exceed a total of 10 calendar days.

In the proceedings, venue, and trial relative to the exercise of the right, the district shall have all the rights, powers, and privileges of an incorporated city and all of the rights, powers, and privileges conferred by this part. The district shall proceed in the name of the district in any such condemnation proceeding. In the exercise of such power, in addition to the damage for the taking, injury, or destruction of property, the district shall also pay the cost of removal, reconstruction, or relocation of any railways, mains, pipes, conduits, cables, poles, or other structures or facilities of any public utility or public agency which is required to be moved to a new location. Notwithstanding any other provision of this part or any other law, no property in public use shall be taken by the district except upon a finding by a court of competent jurisdiction that the taking is for a more necessary public use

than that to which it has already been appropriated.

101178. No action in eminent domain to acquire property, or any interest therein, shall be commenced unless the legislative body of the city, as to property which is located within such city, or the board of supervisors, as to property which is located within the unincorporated territory, has consented by resolution to such acquisition.

101179. No such taking or acquisition by the district which would involve the abandonment, removal, relocation, or use of the property of a railroad corporation, as defined in Section 230, shall be permitted, unless the Public Utilities Commission, after hearing, shall find and determine that the public interest and necessity require the abandonment, removal, relocation, or use of such property and that such taking or acquisition will not unreasonably impair the ability of the railroad corporation involved to provide safe, adequate, economical, and efficient service.

Article 2. Contracts

101180. The district may make contracts and enter into stipulations of any nature whatsoever, either in connection with eminent domain proceedings or otherwise, including, without limiting the generality of the foregoing, contracts and stipulations to indemnify and save harmless, to engage labor or services, and to do all acts necessary and convenient for the full exercise of the powers granted in this part.

Notice requesting bids shall be published at least once in a newspaper of general circulation, which publication shall be made at least 10 days before bids are received. The board may reject any and all bids and readvertise in its discretion.

101186. If, after rejecting bids, the board determines and declares by a four-fifths vote of all its members that, in its opinion, the supplies, equipment, and materials may be purchased at a lower price in the open market, the board may proceed to purchase the supplies, equipment, and materials

in the open market without further observance of the provisions requiring contracts, bids, or notice.

101187. In case of any great public calamity, such as an extraordinary fire, flood, storm, epidemic, or other disaster, the board may, by resolution passed by a four-fifths vote of all its members, declare and determine that public interest and necessity demand the immediate expenditure of public money to safeguard life, health, or property, and thereupon proceed to expend, or enter into a contract involving the expenditure of, any sum needed in such emergency without observance of the provisions requiring contracts, bids, or notice.

Article 4. Property

101190. The district may take by grant, purchase, gift, devise, or lease, or concern in proceedings under eminent domain, or otherwise acquire, and hold and enjoy, real and personal property of every kind within or outside the district and necessary to the full or convenient exercise of its powers. The board may lease, mortgage, or otherwise encumber, or sell, or otherwise convey or dispose of, any real or personal property within or outside the district when, in its judgment, it is for the best interests of the district to do so.

101191. Whenever the board by resolution determines that any record, map, book, or paper which has been in the possession of the district, or any officer or employee thereof, for more than five years is of no further value to the district, the board may authorize its sale, destruction, or other disposition. This section shall not apply to the permanent records of the secretary as provided for in Section 101171, unless such written records are first transferred to microfilm or other miniature or electronic reproduction for permanent preservation.

Article 5. Transit Facilities and Service

such public use.

101196. The district may, without limitation by any other provisions of this part requiring approval of indebtedness, accept contributions of money, rights-of-way, labor, materials, and any other property for the acquisition, construction, maintenance, and operation of transit facilities, and may, without limitation by any other provisions of this part, enter into any contracts and cooperation with, and accept cooperation from the United States, the state, or any department, instrumentality, or agency thereof, or any public agency in the acquisition, construction, maintenance, and operation of, and in financing the acquisition, construction, maintenance, and operation of, any such transit facilities.

The district shall not interfere with, or exercise control over, any transit facilities now or hereafter owned and operated wholly or partly within the district by any city or public agency, unless by consent of such city or public agency and upon such terms as are mutually agreed upon between the board and such city or public agency.

101198. The word "operator" as used in this section means any city or public agency or any person, firm, or private corporation.

101199. The district may construct and operate or acquire and operate works and facilities in, under, upon, over, across, or along any street or public highway or any stream, bay, or watercourse, or over any of the lands which are the property of the state, to the same extent that such rights and privileges appertaining thereto are granted to municipalities within the state, and to install adequate bus stops, including the painting of curbs, subject to the governing body in charge of such streets, highways, stream, watercourse, or lands.

101200. The district may enter into agreements for the joint use of any property and rights by the district and any city, public agency, or public utility operating transit facilities and may enter into agreements with any city, public agency, or public utility operating any transit facilities, either wholly or partially within or outside the district, for the joint use of any property of the district or of such city, public agency, or public utility, or the establishment of through routes, joint fares, transfer of passengers, or pooling arrangements.

as to any proposal for fixing the location of facilities by the district. The request shall be in writing, and shall state the subject matter on which a hearing is desired.

101203. Upon the filing of a request for hearing as provided for in Section 101202, the district board shall fix the time and place for hearing. The time fixed shall be not less than 20 days nor more than 60 days from the date such request is filed. Notice of such hearing shall be given by mail to the city or county requesting such hearing and to each local agency lying either in whole or in part within the district. Such mailing shall be completed not later than the 15th day before the date fixed for the hearing. Notice of the hearing shall be published by the district pursuant to Section 6066 of the Government Code. The first publication shall be made not sooner than the 30th day and not later than the 15th day before the date fixed for the hearing.

As used in this section, "local agency" means the county, an incorporated city, and a special district, including a school district.

101204. Prior to, or at the time fixed, for hearing, the board of supervisors, or any city council eligible to file a request for hearing, and not a party to the original request for hearing may intervene by filing a written notice of intervention with the secretary of the district. Any such intervener shall be entitled to be heard and introduce evidence.

101205. Within 30 days after submission of the case, the board shall render its decision and its decision shall be final.

At the close of the public hearing, the board may adopt charter rate schedules which shall not be less than the average for the three largest private charter-party carriers operating similar service in the district.

(c) Charter service shall originate and terminate within the area served by the district, unless a private charter-party carrier requests the district to provide service beyond the area served by the district.

Article 5. Existing Systems

101208.1. Notwithstanding any other provision of this part, before the district may establish any transit service or system which may at any time divert, lessen, or compete for the patronage or revenues of any existing system, the district shall give a written notice to the public utility which is operating the existing system. The written notice shall describe the transit service or system which the district proposes to establish and shall state the time within which the district proposes to establish such service or system.

101208.2. The district shall not establish the proposed service or system, or maintain and operate the service or system, until it has completed the purchase of the existing system or any part thereof.

101208.3. The purchase price to be paid for the existing system, or any portion thereof to be purchased, shall be the reproduction cost new, including going concern value, at the date upon which the district commences negotiations for the purchase of the existing system, or the portion of the existing system, less depreciation, including wear, tear, and obsolescence, if any.

101208.4. The district and public utility operating the existing system may agree upon the purchase price or they may agree that the purchase price is to be established by arbitration and upon the method of naming arbitrators and the method of conducting such arbitration.

101208.5. Section 851 shall not apply to any contract for sale or sale of an existing system, or any portion thereof, pursuant to this article, and the Public Utilities Commission shall have no jurisdiction with respect thereto.

CHAPTER 6. GENERAL FINANCIAL PROVISIONS

Article 1. Deposit and Withdrawal of Funds

101210. To facilitate the business of the district, the board may provide for the creation and administration of such funds as the needs of the district may require and may transfer moneys and credits from one fund to another as the public interest requires. The board may provide for the deposit of the moneys of the district in any depository authorized by law to receive the deposit of public funds. The moneys so deposited shall be disbursed in accordance with regulations established by the board, and all payments from any fund shall be reported to the board.

101211. Whenever the moneys of the district, or any part thereof, are deposited in a depository other than the county treasury, all withdrawals of funds shall be made by check or warrant of the district signed by the treasurer of the district. All such withdrawals in payment of demands against the

district shall be paid in accordance with such regulations as the board shall establish.

101212. The board may designate the county treasury as the depository, and in such case the county treasurer shall have custody of all, or any portion, of the moneys of the district.

101213. If the county treasury is designated as the depository, the county treasurer shall:

(a) Receive and receipt for all of the district's moneys received by him and place it in the county treasury to the credit of the district.

(b) Be responsible upon his official bond for the safekeeping and disbursing of all district moneys and funds so held by him.

101214. When the county treasury has been designated as the depository, the county treasurer shall have the custody of the district's moneys and funds, and he shall pay out the same, or any portion thereof, only upon the warrant of the county auditor. The county auditor shall draw his warrants to pay demands against the district.

101215. The board shall examine, settle, and allow all accounts legally chargeable against the district, and shall order checks or warrants to be drawn in payment thereof by the treasurer of the district, or by the warrant of the county auditor upon the county treasury, as the case may be.

101216. The board may provide by resolution, under such terms and conditions as it sees fit, for the payment of demands against the district without the prior specific approval thereof by the board, if the demand is for the purpose for which an expenditure has been previously approved by the board and is in an amount no greater than the amount so authorized and the demand is approved by the general manager.

Article 2. Indebtedness

101220. The district may borrow money for the purpose of defraying the expenses of the district lawfully incurred after the commencement of the fiscal year, but prior to the time moneys from the tax levy for the fiscal year are received by the district, in a sum which shall not exceed fifteen cents (\$.15) on each one hundred dollars (\$100) of assessed valuation of taxable property in the district at the time the moneys are borrowed, and may evidence such borrowing by notes bearing interest at a rate not to exceed 7 percent per annum. The notes shall be payable from the tax levy from the then current fiscal year, which levy shall contain a sum sufficient to provide for the payment of the notes and the interest thereon. The form of the notes, and the proceedings relating to their issuance and sale, shall be governed by the

applicable provisions contained in Article 7 (commencing with Section 53820), Chapter 4, Part 1, Division 2, Title 5 of the Government Code.

101221. The board may, within a period of two years from and after the formation of the district, pursuant to a resolution adopted by it for the purpose, borrow money on certificates of indebtedness, promissory notes, or other evidences of indebtedness, in anticipation of the estimated tax revenue for the following fiscal year, to be repaid within four years from the date of borrowing with interest at a rate not to exceed 7 percent per annum, in order to enable the district to meet all of its necessary initial expenses of organization, construction, acquisition, maintenance, and operation. The total amount of money borrowed and indebtedness incurred under this section during this two-year period shall not exceed 50 percent of the total amount of estimated tax revenue as estimated by the county auditor for the following fiscal year.

The form of the notes, and the proceedings relating to their issuance and sale, shall be governed by the applicable provisions contained in Article 7 (commencing with Section 53820), Chapter 4, Part 1, Division 2, Title 5 of the Government Code.

101222. The district may accept, without limitation by any other provisions of this part requiring approval of indebtedness, contributions or loans from the United States, this state, or any department, instrumentality, or agency of either thereof, for the purpose of financing the acquisition, construction, maintenance, and operation of transit facilities, and may enter into contracts and cooperate with, and accept cooperation from, the United States, this state, or any department, instrumentality, or agency of either thereof, in the acquisition, construction, maintenance, and operation, and in financing the acquisition, construction, maintenance, and operation of any such transit facilities in accordance with any legislation which Congress or the Legislature of the State of California may have theretofore adopted or may hereafter adopt, under which aid, assistance, and cooperation may be furnished by the United States or this state in the acquisition, construction, maintenance, and operation, or in financing the acquisition, construction, maintenance, and operation, of any such transit facilities. The district may do any and all things necessary in order to avail itself of such aid, assistance, and cooperation under any federal or state legislation now or hereafter enacted. Any evidence of indebtedness issued under this section shall constitute a negotiable instrument.

101223. The authority to incur indebtedness vested in the district by the provisions of this article shall be in addition to any right vested in it to receive a temporary transfer of funds pursuant to Section 25 of Article XIII of the Constitution of

the State of California.

Article 3. Investments

101230. The district may invest any surplus money in its treasury, including money in any sinking fund, in any of the following:

- (a) Its own bonds.
- (b) Treasury notes, certificates of indebtedness, bills, bonds of the United States, or any other evidence of indebtedness secured by the full faith and credit of the United States.
- (c) Obligations issued pursuant to the Federal Home Loan Bank Act or the National Housing Act.
- (d) Treasury notes or bonds of this state, or of any public corporation, municipal corporation, public district, or political subdivision within this state which are legal as security for the deposit of public funds.

101231. Such investment may be made by direct purchase of any issue of such bonds, treasury notes, or obligations, or part thereof, at the original sale or by the subsequent purchase of the bonds, treasury notes, or obligations.

101232. Any bonds, treasury notes, or obligations purchased and held as investments by the district may, from time to time, be sold and the proceeds reinvested in bonds, treasury notes, or obligations as provided in this article.

101233. Sales of any bonds, treasury notes, or obligations purchased and held by the district shall, from time to time, be made in season so that the proceeds may be applied to the purposes for which the money with which the bonds, treasury notes, or obligations were originally purchased was placed in the treasury of the district.

101234. With the consent of the board, the general manager may:

- (a) Authorize the trust department of any state or national bank in this state, or a trust company authorized to act as such in this state, to receive as his agent deposits of any securities acquired by the district.

- (b) Place and maintain for safekeeping as a trust deposit with the trust department of any state or national banks in this state, or a trust company authorized to act as such in this state, any securities owned by the district.

The bank or trust company selected shall have a total paid-in capital of at least one million dollars (\$1,000,000). The general manager shall take from the trust department or trust company a receipt for the securities, and neither the general manager nor the district is responsible for the custody and safe return of the securities until they are withdrawn from the trust department or trust company by the general manager.

Any trust department or trust company to which securities are delivered, either as agent or depository for the district, shall make such disposition of the securities as the general manager directs and is responsible only for the strict compliance with written instructions given to it by the general manager. All such securities are at all times subject to the order of the general manager.

Article 4. Audits and Financial Report

101240. The general manager shall cause to be installed and maintained a system of auditing and accounting which shall completely and at all times show the financial condition of the district.

101241. The fiscal affairs of the district shall be predicated upon a fiscal year commencing on the first day of July of each calendar year and terminating on the 30th day of June of the following calendar year.

101242. Within 90 days from and after the close of each fiscal year, the general manager shall prepare and file with the secretary of the district a financial report showing the result of the operations of the district for the preceding fiscal year and the financial status of the district on the last day thereof.

101243. A copy of the financial report shall be kept in the office of the general manager and shall be available to public inspection at all times during the regular office hours of his office.

101244. Within 15 days after the filing of the financial report, the general manager shall publish a notice of such filing and shall state the fact of such availability for public inspection, together with the address of the office of the general manager. Such publication shall be in accord with Section 6061 of the Government Code.

101245. Within 15 days after the filing of the financial report, the general manager shall transmit a copy thereof to the board of supervisors and to the city council of each city within the district.

Article 5. Budget

101250. On or before the 30th day prior to the end of each fiscal year, the general manager shall submit to the board a proposed budget covering all of the contemplated operations of the district for the following fiscal year. At that time a copy of the proposed budget shall be transmitted to the board of supervisors and to the city council of each city lying either in whole or in part within the boundaries of the district.

101251. Prior to the time the board finally adopts the

budget, it shall hold a public hearing upon the proposed budget submitted by the general manager. Notice of the time and place of hearing shall be published pursuant to Section 6061 of the Government Code and shall be made not later than the 15th day prior to the date of the hearing.

101252. The date of the hearing shall be fixed by the board and shall be not later than July 1 of each year.

101253. At the time and place designated in the published notice, the board shall meet and consider the proposed budget. Any resident of the district may appear and be heard regarding the increase, decrease, or omission of any item in the proposed budget or for the inclusion of new items. All proposals for the increase of any item or for the inclusion of any additional items shall be submitted in writing to the general manager before the close of the public hearing.

101254. The board may continue the hearing from day to day; provided the hearing shall be concluded not later than July 15 first following its commencement.

101255. After the conclusion of the hearing, and not later than August 1st of each year, and after making any revisions of the proposed budget which it may deem advisable either during or after the hearing, the board shall by resolution adopt the budget as finally determined by the board. Increases or additions shall not be made after the conclusion of the hearing, unless the items were proposed in writing and filed pursuant to Section 101253.

101256. A copy of the budget as finally adopted by the board shall be filed with the county auditor pursuant to Section 53961 of the Government Code.

Article 6. Services of County and City Officers

101260. Whenever the district avails itself of the services of any officer or department of the County of Kern, or of any city within the district, in the performance of any function of the district, the district shall reimburse the county or the city, as the case may be, for the reasonable value of any such service so performed in an amount, or at a rate of charge, to be fixed by the legislative body of the agency performing the service.

Reimbursement to the county for its services to the district in the collection of district taxes shall be subject to the limitation prescribed by Section 29142 of the Government Code.

CHAPTER 7. TAXATION

101265. (a) The district may cause to be levied and collected taxes for any lawful purpose, subject to a maximum

limit of fifteen cents (\$0.15) per one hundred dollars (\$100) of assessed valuation.

(b) The maximum limit may be increased to twenty-five cents (\$0.25) per one hundred dollars (\$100) of assessed valuation, if approval is first obtained from the city council of each city lying entirely within the boundaries of the district and the board of supervisors.

(c) The maximum limit may be increased above the maximum limits as specified in subdivisions (a) and (b), if such a maximum limit is first approved by the majority of the voters voting at any general or special election on the proposition establishing such a maximum limit.

101266. If, in the opinion of the board, the transit operation revenues will not be sufficient to pay for any and all lawful purposes of the district, the board shall fix the amount of money necessary to be raised by taxation for any such purpose or purposes and shall cause a tax to be levied therefor.

Any tax so levied shall be subject to the limitations prescribed by Sections 101265 and 101267.

101267. The board shall, in addition to the general tax levy as set forth in Section 101265, levy and collect annually until the district's bonds are paid, or until there is a sum in the treasury of the district set apart for that purpose to meet all sums coming due for principal and interest on the bonds as they become due, a tax sufficient to pay the annual interest on the bonds and such part of the principal thereof as becomes due before the proceeds of a tax levied at the next general tax levy will be available. If the maturity of the indebtedness created by the issue of bonds begins more than one year after the date of the issuance thereof, the tax shall be levied and collected annually at the time and in the manner aforesaid, sufficient to pay the interest on the indebtedness as it falls due and to constitute a sinking fund for the payment of the principal on or before maturity.

101268. On or before the second Monday in August of each year, the county auditor shall transmit to the board a statement in writing showing the total value of all property within the district referred to in Section 101270.

101269. On or before the last Friday in July of each year, the board shall file with the board of supervisors and with the county auditor a statement in writing which shall contain the following:

(a) An estimate of the amount of money required to be raised by taxation during the fiscal year for the payment of the principal and interest on any bonded indebtedness of the district.

(b) An estimate of the amount of money required to be raised by taxation during the fiscal year for all other purposes

of the district.

The statement shall be predicated upon the budget adopted pursuant to the provisions of Article 5 (commencing with Section 101250) of Chapter 5 of this part.

101270. Annually at the time of levying county taxes, the board of supervisors shall levy a tax upon all the taxable real and personal property within the district. Subject to the maximum limits prescribed by Section 101265, the rate shall be such as will produce, after due allowance for delinquency and cost of collection, the amounts determined by the board of directors as necessary to be raised by taxation and as set forth in the statement required by Section 101269. The tax rate so levied shall apply to all the taxable real and personal property within the district as they appear on the assessment roll of the county.

101271. The taxes so levied shall be collected at the same time and in the same manner as county taxes and, when collected, shall be paid into the county treasury for the use of the district, or to the treasurer of the district, as the case may be.

101272. The performance of the acts provided for by this chapter shall constitute a valid assessment of the property within the district and a valid levy of the taxes so fixed.

101273. All taxes levied under this part are a lien on the property on which they are levied and shall become a lien at the same time as county taxes. The enforcement of the collection of such taxes shall be in the same manner and by the same means provided by law for the enforcement of liens for county taxes, and all of the provisions of law relating to the enforcement of the latter are made a part of this part by specific reference so far as applicable.

101274. Whenever any real property has been sold for taxes and has been redeemed, the money paid for redemption shall be apportioned and paid to the district treasurer, or deposited in the county treasury for the use of the district, as the case may be, in the proportion which the tax due to the district bears to the total tax for which the property was sold.

CHAPTER 8. BONDS

Article 1. Issuance

101280. The district may, from time to time, incur a bonded indebtedness as provided in this chapter to pay the cost of acquiring, constructing, or completing the whole, or any portion, of any transit facilities, or for acquiring any works, lands, structures, rights, equipment, or other property necessary or convenient to carry out the objects, purposes, or powers of the district.

101281. The district shall not incur a total bonded indebtedness which exceeds 5 percent of the assessed value of all the taxable real and personal property within the district.

101282. Whenever the board, by resolution passed by vote of four-fifths of all its members, determines that the public interest or necessity demands the acquisition, construction, or completion by the district of any transit facilities or of any works, lands, structures, rights, equipment, or other property necessary or convenient to carry out the objects, purposes, or powers of the district, the cost of which will be too great to be paid out of the ordinary annual income and revenue of the district, it may, at any subsequent meeting of the board, provide by ordinance for the submission of the proposition of incurring a bonded indebtedness for the purpose set forth in the resolution to the voters of the district at a special bond election held for that purpose.

101283. In lieu of a resolution passed by the board, proceedings for the issuance of bonds for the purposes provided in this chapter may be initiated by petition of the voters of the district.

101284. The petition may be presented to the board, and shall be executed and attested in the same manner as provided a petition for the formation of the district in Article 2 (commencing with Section 101035) of Chapter 3 of this part.

101285. Whenever any petition signed by voters within the district equal in number to at least 15 percent of the total vote cast within the district at the last general statewide election is presented to the board asking for the acquisition, construction, or completion of the whole, or any portion, of any transit facilities or for acquiring any works, lands, structures, rights, equipment, or other property necessary or convenient to carry out the objects, purposes, or powers of the district, and also asking that a bonded indebtedness be incurred to pay for the cost thereof, the secretary of the district shall forthwith transmit the petition to the county clerk for certification.

101286. Within 10 days after the receipt of the petition, the county clerk shall examine the petition and determine the number of valid signers thereof by comparing the signatures thereon with the signatures of registered voters as appear on the affidavits of voter registration on file with him. The county clerk then shall certify to the secretary of the district all the following:

(a) The total number of voters registered within the district at the time of the last general statewide election immediately preceding the filing of the petition.

(b) The total number of registered voters of the district who have signed the petition.

(c) The percentage which the number of such signers

bears to the total number of voters registered to vote within the district at such time.

101287. If the county clerk certifies that the percentage of registered voters signing the petition is less than that required by Section 101284, a supplemental petition may be presented to the secretary of the district within 30 days after the county clerk's certification of the first petition. The supplemental petition shall thereupon be processed as provided in Sections 101284 and 101285.

101288. If the petition has been executed in the manner provided and by the required number of signers, the secretary of the district shall forthwith transmit to the board and to the general manager a copy of the petition, but without the signatures appended thereto.

101289. Upon receiving a petition so executed by the required number of signers, the board shall provide by ordinance for the submission of the proposition of incurring a bonded indebtedness for the purpose set forth in the petition to the voters of the district at a special bond election held for that purpose.

101290. The ordinance calling a special bond election shall fix the date on which the election will be held, and the manner of holding the election and of voting for or against incurring the indebtedness. It shall also recite the objects and purposes for which the indebtedness is proposed to be incurred, the estimated cost of the transit facilities, works, lands, structures, rights, equipment, or other property proposed to be acquired, constructed, or completed, the amount of the principal of the indebtedness to be incurred therefor, and the maximum rate of interest to be paid on the indebtedness, which shall not exceed 7 percent per annum, payable semiannually or annually the first year and thereafter semiannually.

101291. Propositions for incurring indebtedness for more than one object or purpose, or propositions proposed by resolution or petition, may be submitted at the same election.

101292. The bond election may be held separately, or it may be held on the same day as any other state, county, or city election, or any election held under the provisions of the Uniform District Election Law (Part 3 (commencing with Section 23500), Division 12 of the Elections Code), and may be consolidated therewith.

101293. If a special bond election is consolidated with any other election, the provisions of this article setting forth the procedure for the calling and holding of the special bond election shall be complied with, except that the ordinance calling the election need not set forth the election precincts, polling places, and officers of election who shall be the same as those set forth in the ordinance, notice, or other

proceedings calling the election with which the special bond election is consolidated, and shall refer to the ordinance, notice, or other proceedings by number and title, or by other definite description.

101294. The board shall cause the ordinance to be published in accord with Section 6061 of the Government Code; the publication shall be made not less than 30 and not more than 60 days prior to the day of the election. No other notice of the election need be given.

101295. If the ordinance calling the election so provides, the election shall be conducted by the county clerk in accord with the manner of holding the election prescribed by the board pursuant to the provisions of Section 101289.

101296. The board shall comply with the provisions of Article 3 (commencing with Section 3780), Chapter 2, Division 4 of the Elections Code, the provisions of which are applicable to any bond election held pursuant to this article. In the event the election is not conducted by the county clerk, then whenever the words "county clerk" appear in that article of the Elections Code, the words "secretary of the district" shall be substituted for the purposes of this article of this part. For the further purposes of this article, the following substitutions shall be made in all cases for the words set out in that article of the Elections Code: (a) "board of directors" in lieu of "board of supervisors"; and (b) "attorney for the district" in lieu of "district attorney or county counsel".

101297. The votes of a majority of all the voters voting on the proposition at the election are required to authorize the issuance of bonds under this article.

101298. If the proposition submitted at a special bond election fails to receive the requisite number of votes, the board shall not, within six months after the election, hold another special election for the submission of a proposition of incurring a bonded indebtedness substantially the same as the proposition voted upon at the prior election, unless a petition, signed by voters within the district equal in number to at least 15 percent of the total vote cast within the district at the last general statewide election is filed with the board, requesting that the proposition, or a proposition substantially the same, be submitted at an election to be called for that purpose.

Any such petition may be presented in the same manner and shall be executed and attested and certified as provided in this article for a petition asking that a bonded indebtedness be incurred.

Article 2. Form and Content

101300. If the board has appointed a treasurer of the district pursuant to Section 101166, then the word "treasurer"

as used in this chapter shall refer to such treasurer of the district so appointed. If the board has not so appointed a treasurer of the district, then the word "treasurer" as used in this chapter shall refer to the county treasurer.

101301. Bonds authorized by this chapter shall mature serially in amounts to be fixed by the board, except that payment shall begin not later than 10 years from the date thereof and shall be completed in not more than 50 years from that date.

The board may divide any issue of bonds authorized pursuant to this chapter into two or more series, and may fix different dates of issuance and different maturity dates for the bonds of each series. The bonds of each series shall mature serially in amounts to be fixed by the board, and the board shall fix a date not more than 10 years from the date of issuance of each series for the earliest maturity of such series, and shall fix a date not more than 50 years from the date of issuance of each series for the final maturity of such series.

Pending the actual issuance or delivery of bonds, a district may issue temporary or interim bonds, certificates, or receipts, of any denomination whatsoever, with or without coupon, and in such form as may be prescribed by the board, to be exchanged for definite bonds when ready for delivery.

101302. The bonds shall be issued in such denominations as the board shall determine and shall be payable on the day and at the place or places fixed in the bonds, and with interest at the rate specified therein, payable semiannually or annually the first year and semiannually thereafter.

101303. The board may, at any time prior to the issuance and sale of any bonds, provide for the call and redemption of any or all of the bonds on any interest payment date prior to their fixed maturity at not exceeding the par value and accrued interest plus a premium of not exceeding 5 percent upon the principal amount of the bonds, in which event the call price fixed by the board shall be set forth on the face of the bond. Notice of such redemption shall be published pursuant to Section 6066 of the Government Code. The first publication shall be not more than 60 and not less than 30 days prior to the date fixed for redemption. After the date fixed for such redemption, interest on the bonds thereafter shall cease.

101304. The bonds shall be signed by the president of the board or by such officer of the district as the board shall by resolution authorize and designate for that purpose. They shall also be signed by the treasurer, and be countersigned by the secretary. The coupons of the bonds shall be numbered consecutively and be signed by the treasurer. All signatures and countersignatures, except one of the signatures or countersignatures on the bonds, may be printed, lithographed, or engraved. If any officer whose signature or

countersignature appears on the bonds or coupons ceases to be such officer before the delivery of the bonds to the purchaser, the signature or countersignature is nevertheless valid and sufficient for all purposes as if he had remained in office until the delivery of the bonds.

Article 3. Issue and Sale

101310. The bonds may be issued and sold for not less than their par value, but otherwise as the board determines. Before selling any bonds, or any part thereof, the board shall give notice inviting sealed bids in such manner as the board may prescribe. Such notice shall be published at least twice pursuant to a provision of Article 4 (commencing with Section 6060), Chapter 1, Division 7, Title 1 of the Government Code. If satisfactory bids are received, the bonds offered for sale shall be awarded to the highest responsible bidder. If no bids are received, or if the board determines that the bids received are not satisfactory as to price or responsibility of the bidders, the board may reject all bids received, if any, and either again give notice inviting bids or sell the bonds at private sale.

101311. All premiums and accrued interest received on the sale of bonds shall be placed in the fund to be used for the payment of principal of and interest on the bonds. The remainder of the proceeds of the bonds shall be placed in the district treasury, or in the county treasury, as the case may be, to the credit of the proper fund, and shall be used exclusively for the objects or purposes for which the bonds were voted; provided that, when such objects and purposes have been accomplished, any moneys remaining shall be transferred to the fund to be used for the payment of principal of and interest on the bonds, and that, when all principal of and interest on the bonds shall have been paid, any balance of money then remaining shall be transferred to the general fund of the district.

101312. In lieu of the immediate levy of a tax to pay the interest, or any part thereof, on any bonded indebtedness incurred in accordance with this chapter, the board may, in the estimate of the amount of money necessary to be raised by the bonds, include a sum sufficient to pay interest on all of the bonds, or part thereof, during the period of acquisition, construction, or completion, but for no period in excess of five years.

Article 4. Refunding

101315. Whenever the board, by resolution passed by a vote of four-fifths of all its members, determines that the

refunding of the whole, or any portion of, the bonded indebtedness will be of advantage to the district, the board may refund the bonded indebtedness, or any portion thereof, and issue refunding bonds of the district therefor.

101316. The issuance of refunding bonds shall not be construed as the incurring or increase of an indebtedness within the meaning of this part, and the approval of the voters is not required for the issuance of refunding bonds. The board may provide for the call and redemption of any or all of the bonds on any interest payment date prior to their fixed maturity in the ordinance authorizing the issuance of the refunding bonds.

101317. Except as otherwise provided, the provisions of this chapter shall substantially govern as to all matters pertaining to the issuance of refunding bonds, including and without limiting the generality of the foregoing, the form, execution, issuance, maturity, redemption, refunding, validation, the payment of interest from bond funds, and the status of the bonds as investments.

101318. Refunding bonds shall bear interest at a rate not exceeding the interest rate on the refunded bonds, but payment of the refunding bonds shall begin not later than one year from the date thereof and be completed in not more than 40 years from that date.

101319. The proceeds of the sale of refunding bonds shall be applied only to the purchase, or retirement at not more than par and accrued interest, or the call price, of the bonded indebtedness for which the refunding bonds were issued.

101320. In lieu of selling refunding bonds and using the proceeds to purchase or retire the bonds to be refunded, the board may exchange refunding bonds at not less than par and accrued interest for the bonds so refunded.

101321. Whenever outstanding bonds are refunded, they shall be surrendered to the treasurer of the district, or the county treasurer, as the case may be, who shall cancel them by endorsing on their face the manner in which the refunding was effected (whether by exchange or purchase, and the amount for which so purchased, if any) and by perforating through each bond and each coupon attached thereto the word "canceled" together with the date of cancellation.

Article 5. Status as Investments

101325. All bonds, including refunding bonds, issued by a district are legal investments for all trust funds and for the funds of all insurance companies, banks, both commercial and savings, and trust companies, and for the State School Fund and for all sinking funds under the control of the State Treasurer. Whenever any money or funds may by law be

invested in, or loaned upon the security of, bonds of cities, cities and counties, counties, or school districts, in the state, such money or funds may be invested in, or loaned upon the security of, the bonds of the district; and whenever bonds of cities, cities and counties, counties, or school districts by law may be used as security for the faithful performance or execution of any court or private trust or of any other act, bonds of the district may be so used.

101326. All bonds of the district, to the same extent as bonds of any other municipality, are legal for use by any state or national bank or banks in the state as security for the deposit of funds of the state or of any county, city and county, city, municipality, or other public or municipal corporation within the state.

Article 6. Validation

101330. An action to determine the validity of bonds, including refunding bonds, may be brought pursuant to Chapter 9 (commencing with Section 860), Title 10, Part 2 of the Code of Civil Procedure.

Article 7. Revenue Bonds

101335. As an alternative procedure for the raising of funds, the district may issue bonds, payable from revenues of any facility or enterprise to be acquired or constructed by the district, in the manner provided by the Revenue Bond Law of 1941 (Chapter 6 (commencing with Section 54300), Part 1, Division 2, Title 5 of the Government Code), all of the provisions of which are applicable to the district.

101336. The district is a local agency within the meaning of the Revenue Bond Law of 1941 (Chapter 6 (commencing with Section 54300), Part 1, Division 2, Title 5 of the Government Code). The term "enterprise" as used in the Revenue Bond Law of 1941 shall, for all purposes of this part, include transit facilities, and any and all parts thereof, and all additions, extensions, and improvements thereto, and all other facilities authorized to be acquired, constructed, or completed by the district. A district may issue revenue bonds under the Revenue Bond Law of 1941 for any one or more facilities or enterprises authorized to be acquired, constructed, or completed by a district or, in the alternative, may issue revenue bonds under the Revenue Bond Law of 1941 for the acquisition, construction, and completion of any one of such facilities. Nothing in this article shall prevent the district from availing itself of, or making use of, any procedure provided in this part for the issuance of bonds of any type or character for any of the facilities or works authorized

hereunder, and all proceedings may be carried on simultaneously or, in the alternative, as the board may determine.

CHAPTER 9. LABOR PROVISIONS

101340. Employees shall have the right to self-organization, to form, join, or assist labor organizations, to bargain collectively through representatives of their own choosing, and to engage in other concerted activities for the purpose of collective bargaining or other mutual aid or protection. It is declared to be in the public interest that the district shall not express any preference for one union over another.

101341. Whenever a majority of the employees employed by the district in a unit appropriate for collective bargaining indicate a desire to be represented by a labor organization, the district, upon determining as provided in Section 101344 that such labor organization represents the employees in the appropriate unit, shall enter into a written contract with the accredited representative of such employees governing wages, salaries, hours, and working conditions. In case of a dispute over wages, salaries, hours, or working conditions, which is not resolved by negotiations in good faith between the district and the labor organization, the district and the labor organization may submit the dispute to the decision of the majority of an arbitration board, and the decision of the majority of such arbitration board shall be final.

The arbitration board shall be composed of two representatives of the district, and two representatives of the labor organization, and they shall endeavor to agree upon the selection of the fifth member. If they are unable to agree, the names of five persons experienced in labor arbitration shall be obtained from the Supervisor of Conciliation of the Division of Conciliation, Department of Industrial Relations. The labor organization and the district shall, alternately, strike a name from the list so supplied, and the name remaining after the labor organization and the district have stricken four names, shall be designated as the arbitrator. The labor organization and the district shall determine by lot who shall first strike from the list. The decision of a majority of the arbitration board shall be final and binding upon the parties thereto. The expenses of arbitration shall be borne equally by the parties. Each party shall bear his own costs.

101342. In the event the board and the representatives of the employees do not agree to submit the dispute to an arbitration board as provided in Section 101341, the State Conciliation Service may be notified by either party that a dispute exists and that there is no agreement to arbitrate. The

State Conciliation Service shall determine whether or not the dispute may be resolved by the parties and, if not, the issues concerning which the dispute exists. Upon such determination, the State Conciliation Service shall certify its findings to the Governor of the State of California, who shall, within 10 days of receipt of certification, appoint a factfinding commission consisting of three persons which shall immediately convene and inquire into and investigate the issues involved in the dispute. The commission shall report to the Governor within 30 days of the date of its creation.

After the creation of such commission and for 30 days after such commission has made its report to the Governor, no change, except by mutual agreement, shall be made by the parties to the controversy in the conditions out of which the dispute arose and service to the public shall be provided.

101343. No contract or agreement shall be made with any labor organization, association, or group, or be assumed under the provisions of this part, where such organization, association, or group denies membership to, or in any manner discriminates against, any employee on the grounds of race, creed, color, or sex. However, such organization may preclude from membership any individual who advocates the overthrow of the government by force or violence. The district shall not discriminate in regard to employment against any person because of his race, creed, or color.

101344. If there is a question whether a labor organization represents a majority of employees or whether the proposed unit is or is not appropriate, such matters shall be submitted to the State Conciliation Service for disposition. The State Conciliation Service shall promptly hold a public hearing after due notice to all interested parties and shall thereupon determine the unit appropriate for the purposes of collective bargaining. In making such determination and in establishing rules and regulations governing petitions and the conduct of hearings and elections, the State Conciliation Service shall be guided by relevant federal law and administrative practice, developed under the Labor-Management Relations Act, 1947, as presently amended.

The State Conciliation Service shall provide for an election to determine the question of representation and shall certify the results to the parties. Any certification of a labor organization to represent or act for the employees in any collective bargaining unit shall not be subject to challenge on the grounds that a new substantial question of representation within such collective bargaining unit exists until the lapse of one year from the date of certification or the expiration of any collective bargaining agreement, whichever is later. However, no collective bargaining agreement shall be construed to be a bar to representation proceedings for a

period of more than two years.

101345. Whenever the district acquires existing facilities from a publicly or privately owned public utility, either in proceedings by eminent domain or otherwise, the district shall assume and observe all existing labor contracts. To the extent necessary for operation of facilities, all of the employees of such acquired public utility whose duties pertain to the facilities acquired shall be appointed to comparable positions in the district without examination, subject to all the rights and benefits of this part, and these employees shall be given sick leave, seniority, vacation, and pension credits in accordance with the records and labor agreements of the acquired public utility. Members and beneficiaries of any pension or retirement system or other benefits established by that public utility shall continue to have the rights, privileges, benefits, obligations, and status with respect to such established system. No employee of any acquired public utility shall suffer any worsening of his wages, seniority, pension, vacation, or other benefits by reason of the acquisition.

The district may extend the benefits of this section to officers or supervisory employees of the acquired public utility.

101346. The district shall not acquire any existing system or part thereof whether by purchase, lease, condemnation, or otherwise, nor shall the district dispose of or lease any transit system or part thereof, nor merge, consolidate, or coordinate any transit system or part thereof, or reduce or limit the lines or service of any existing system or of its system, or terminate any lease arrangement or management contract, unless it shall first have made adequate provision for any employees who are or may be displaced. The terms and conditions of such provision shall be a proper subject of collective bargaining.

101347. Notwithstanding the provisions of the Government Code, employees of the district may authorize and, upon such authorization, the district shall make deductions from wages and salaries of such employees:

(a) Pursuant to a collective bargaining agreement with a duly designated or certified labor organization for the payment of union dues, fees, or assessments.

(b) For the payment of contributions pursuant to any health and welfare plan or pension or retirement plan.

(c) For any purpose for which deductions may be authorized by employees of any private employer.

101348. The obligation of the district to bargain in good faith with a duly designated or certified labor organization and to execute a written collective bargaining agreement with such labor organization covering the wages, hours, and

working conditions of the employees represented by such labor organization in an appropriate unit, and to comply with the terms thereof, shall not be limited or restricted by any provision of law. The obligation of the district to bargain collectively shall extend to all subjects of collective bargaining which are or may be proper subjects of collective bargaining with a private employer, including retroactive provisions.

CHAPTER 10. RETIREMENT

101355. Subject to the provisions of Section 101357, the board shall provide for retirement benefits for the officers and employees of the district.

101356. (a) The board shall provide for such retirement benefits by contract with either of the following retirement systems as shall be determined by the board:

(1) Pursuant to the County Employees Retirement Law of 1937.

(2) Pursuant to the Public Employees Retirement Law.

(b) The adoption, terms, and conditions of any retirement system covering employees of the district represented by a labor organization shall be pursuant to the collective bargaining agreement between such labor organization and the district.

101357. Subject to the regulations of the retirement system chosen by the board pursuant to Section 101356, and, in the case of employees of the district represented by a labor organization, to the collective bargaining agreement between such labor organization and the district, the board shall determine and classify the officers and employees who shall be included as members in the retirement system and may change the classification from time to time. Membership of all officers and employees so classified and included in the retirement system shall be compulsory.

101358. The retirement system provided for by this chapter shall not include the members of the board.

101359. As to the members of the retirement system provided for by this chapter, the board may provide for their coverage under Title II of the Federal Social Security Act, as amended, and the related provisions of the Federal Insurance Contributions Act, as amended, and the district may perform all acts necessary or convenient to accomplish such coverage.

CHAPTER 11. MISCELLANEOUS BENEFITS

101365. The board shall provide for the coverage of the officers and employees of the district under the Workmen's Compensation, Unemployment Compensation Disability, and Unemployment Insurance Laws of the State of California.

101366. Subject to such regulations and schedule of contributions of premiums as it shall determine, the board shall provide for group health and medical insurance for such officers and employees of the district who are members of the retirement system provided for by Chapter 10 (commencing with Section 101355) of this part and who request coverage under such insurance.

CHAPTER 12. CHANGE OF ORGANIZATION

101370. As used in this article the terms "change of organization" and "reorganization" shall have the meanings defined in Section 56028 and Section 56068, respectively, of the Government Code.

101371. A change of organization or a reorganization of the district formed and existing under the provisions of this part may be effected in the manner prescribed by the District Reorganization Act of 1965 (Division 1 (commencing with Section 56000) of Title 6 of the Government Code), and the provisions of that act shall govern any and all such changes of organization or reorganizations.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

CHAPTER 1182

An act to amend Sections 8657 and 10753 of the Revenue and Taxation Code, relating to taxation, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor October 19, 1971 Filed with
Secretary of State October 19, 1971]

The people of the State of California do enact as follows:

SECTION 1. It is the intent of the Legislature to apply the fuel tax incentive and vehicle license fee incentive in Sections 8657 and 10753 of the Revenue and Taxation Code to all motor vehicles, including motor vehicles exceeding 6,000 pounds. Sections 8657 and 10753 are intended to encourage owners of vehicles to presently convert to cleaner fuel systems, utilizing natural gas and liquefied petroleum gas, and this purpose is equally if not more applicable to owners of heavy-duty vehicles.

This bill is intended to clarify the provisions of Section 10753 and Section 8657 and to make technical changes in such sections so that the legislative intent of the sections shall be unmistakably expressed with respect to motor vehicles exceeding 6,000 pounds.

SEC. 2. Section 8657 of the Revenue and Taxation Code is amended to read:

8657. (a) No tax shall be imposed upon a fuel subject to the provisions of this part which is specified for, and subsequently utilized with, a system approved by the State Air Resources Board as meeting the emission standards set forth in subdivisions (a) and (b) of Section 39102 and Section 39102.5 of the Health and Safety Code.

(b) This section is also applicable to a system specified in subdivision (a) approved by the State Air Resources Board as meeting the emission standards specified in subdivisions (a) and (b) of Section 39102 and Section 39102.5 of the Health and Safety Code for vehicles 6,001 pounds or less, manufacturer's gross vehicle weight, controlled to meet exhaust emission standards when sold new, when such a system is used in any vehicle over 6,001 pounds or any vehicle 6,001 pounds or less not controlled to meet exhaust emission standards.

(c) The State Board of Equalization may adopt an identification procedure for vehicles equipped with a system described in subdivision (a).

(d) Subdivisions (a) and (b) shall not apply to diesel fuel.

SEC. 3. Section 10753 of the Revenue and Taxation Code is amended to read:

10753. (a) For the purposes of this part the market value of passenger vehicles as defined in Section 465 of the Vehicle Code shall be determined by the department upon the basis of the California suggested base price as herein defined and as established by the manufacturers.

(b) On all other vehicles the department shall determine the market value of the vehicle on the basis of the cost price to the purchaser as evidenced by a certificate of cost, but not including California sales or use tax or any local sales or other local tax.

(c) In the event the department is unable to ascertain the California suggested base price as herein defined in respect to any passenger vehicles by reason of the same being a specially constructed vehicle, or for any other reason, the department shall determine the market value upon the basis of the cost price to the purchaser of the vehicle as evidenced by a certificate of cost, but not including California sales or use tax or any local sales or other local tax.

(d) In the event any vehicle is modified or additions are made to the chassis or body at a cost of two hundred dollars (\$200) or more, but not including any change of engine of the same type or any cost of repairs to a vehicle, the owner of such vehicle shall report any said modification or additions to the department and the department shall classify or reclassify the vehicle in its proper class as provided in Section 10753.2, taking into consideration the increase in the market value of the vehicle due to such modifications or additions, and any reclassification resulting in increase in market value shall be based on the cost to the consumer of such modifications or additions. In the event any vehicle is modified or altered resulting in a decrease in the market value thereof of two hundred dollars (\$200) or more as reported to and determined by the department, the department shall classify or reclassify the vehicle in its proper class as provided in Section 10753.2.

The foregoing provisions of this subdivision shall not apply in the event the cost of any modification or additions to the chassis or body of a vehicle is less than two hundred dollars (\$200) or the cost is for modifications or additions necessary to incorporate a system approved by the State Air Resources Board as meeting the emission standards set forth in subdivisions (a) and (b) of Section 39102 and Section 39102.5 of the Health and Safety Code.

(e) This section is also applicable to a system specified in subdivision (d) approved by the State Air Resources Board as meeting the emission standards specified in subdivisions (a) and (b) of Section 39102 and Section 39102.5 of the Health and Safety Code for vehicles 6,001 pounds or less, manufacturer's gross vehicle weight, controlled to meet exhaust emission standards when sold new, when such a system is used in any vehicle over 6,001 pounds or any vehicle 6,001 pounds or less not controlled to meet exhaust emission standards.

(f) The temporary attachment of any camper, as defined in Section 243 of the Vehicle Code, to a vehicle is not a modification or addition for the purposes of subdivision (d).

(g) The attachment to a vehicle of radiotelephone equipment furnished by a telephone corporation as defined in Section 234 of the California Public Utilities Code, is not a modification or addition for the purpose of subdivision (d), when such equipment is not owned by the owner of the vehicle.

(h) As used in this section, "suggested base price" means the retail price of the vehicle suggested by the manufacturer, plus destination charge and emission control devices as are required by Section 39129 of the Health and Safety Code, as reflected on the price listing affixed to the vehicle pursuant to the Federal Automobile Information Disclosure Act of 1958, but does not include the retail delivered price suggested by the manufacturer for each accessory or item of optional equipment physically attached to such vehicle at the time of its delivery to such dealer which is not included within, but is separately added to, the retail price of such vehicle as suggested by the manufacturer.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

At its 1970 Regular Session, the Legislature enacted Chapters 1507 and 1509 to provide certain incentives to combat pollution caused by motor vehicles. However, Section 8657 of the Revenue and Taxation Code has been construed as having no application to heavier vehicles. In order to correct this situation at the earliest possible time, it is necessary that this act go into immediate effect.

CHAPTER 1183

An act relating to contracts between the United States and the Westlands Water District.

[Approved by Governor October 19, 1971. Filed with
Secretary of State October 19, 1971.]

The people of the State of California do enact as follows:

SECTION 1. Notwithstanding the provisions of Section 35881 of the Water Code or any other provision of law, the Westlands Water District in Fresno and Kings Counties is hereby authorized to enter into a contract with the United States in the manner provided for the authorization of general obligation bonds of the district, including, but not limited to, the manner provided for the issuance of general obligation bonds in Chapter 3.5 (commencing with Section 36250) of Part 6 of Division 13 of the Water Code.

SEC. 2. After approval by the State Treasurer and completion of the proceedings for the authorization of the contract, the Board of Directors of the Westlands Water District may execute the contract on behalf of the district.

SEC. 3. The provisions of this act are necessary because of special conditions existing within the Westlands Water District. The district has heretofore contracted with the United States for a water supply and construction of a distribution and drainage collector system. However, it was subsequently enlarged by merger with the West Plains Water Storage District. Congress has authorized the United States to use funds advanced by the Westlands Water District to expedite construction of the district's water distribution and drainage collector system with a reduction in water rates in order to fund interest costs incurred by the district in borrowing for this purpose. A contract embodying this unique principle and providing for the construction of an enlarged system for a water supply and for related purposes has been submitted to the United States Department of the Interior for approval. The construction of this water distribution system has been long delayed due to inadequate federal funding, and it is urgently needed to meet large-scale water needs of the district. Unless the district is authorized to enter into a contract with the United States in the manner provided for in this act, it may not be able to utilize this opportunity made available by Congress to expedite the completion of these urgently needed water distribution facilities. This problem is not common to all districts formed under the California Water District Law. It is therefore hereby declared that a general law cannot be made applicable and that the enactment of this act as a special law is necessary for the solution of problems existing in the Westlands Water District.

SEC. 4. This act shall remain in effect until January 1, 1976, and as of that date is repealed.

CHAPTER 1184

An act to amend Section 23787 of the Business and Professions Code, relating to alcoholic beverages.

[Approved by Governor October 19, 1971. Filed with Secretary of State October 19, 1971.]

The people of the State of California do enact as follows:

SECTION 1. Section 23787 of the Business and Professions Code is amended to read:

23787. The department shall, before issuing any on-sale license for the sale of alcoholic beverages to be consumed or otherwise disposed of in any bona fide public eating place,

determine whether the public eating place is equipped and maintained in good faith for sales to and consumption by the public of meals upon the premises. A hotel or motel of 75 rooms or more or a bowling center of 12 lanes or more, or any other bona fide public eating place, which hotel, motel, bowling center or bona fide public eating place is licensed and so equipped and maintained may sublet the sale and service of the meals required by Section 23038 upon notification to the department. Provided, however, that the licensee shall be responsible for any violations of this division caused or permitted by the lessee on the licensed premises. The licensee shall not sublet to a person who does not have the qualifications of a holder of a license.

Nothing in this section shall preclude the renewal, transfer, or issuance of an on-sale general license to any premises equipped and maintained in good faith for sales to and consumption by members of the public of meals upon the premises even though the operation of such premises is limited solely to the service of meals and beverages at prearranged events of a social or business nature and where admission is by ticket only.

CHAPTER 1185

[Approved by Governor October 19, 1971 Filed with
Secretary of State October 19, 1971.]

The people of the State of California do enact as follows:

CHAPTER 6. STATE EDUCATIONAL COMMISSIONS
AND COMMITTEES

Article 1. General Provisions

575. The Legislature hereby declares that there is further need to encourage the adoption of new or improved educational ideas, practices, and techniques in solving critical educational problems in preschool, elementary and secondary schools throughout the state. Recognizing the need for the planning and developing of new programs involving a wide range of new approaches designed to improve the quality of education available in this state, this chapter is expressly enacted to foster innovation and create change in education, based on research and proven need. It is the intent of this chapter to bring purposeful change and experimentation to schools throughout the state, through the use of all available resources of the state.

The Legislature further finds that there are in existence a large number of permanent commissions, committees and councils, some of which have overlapping duties and functions, and some of which have been perpetuated beyond the original need or purpose for which created. In order to provide a more economical, efficient and logical structure to educational policymaking, it is the intent of the Legislature to create three levels of educational advisory bodies: educational policy advisory commissions, educational advisory committees, and educational task forces.

575.1. The following definitions shall apply to educational advisory bodies created by this chapter:

(a) An "educational policy advisory commission" is an advisory body to the State Board of Education composed of professional and lay members, as defined by this code. Such groups are established to advise the State Board of Education within the general policy areas to which they are charged. The Superintendent of Public Instruction or his representative shall serve as executive secretary to each educational policy advisory commission.

(b) An "educational advisory committee" is an advisory body to the Superintendent of Public Instruction composed of educational specialists, technical experts, or specially qualified members of the public, or any combination thereof. Such committees are established to advise the Superintendent of Public Instruction on the administration of programs with which he is charged, and such committees serve at his pleasure.

(c) An "educational task force" is an ad hoc advisory body of professional and technical experts established by the Superintendent of Public Instruction to formulate recommendations on significant problem areas in the administration of programs with which he is charged by a date determined by him.

Article 2. Educational Innovation and Planning Commission

CHAPTER 1191

An act to add Article 4.3 (commencing with Section 13385) to Chapter 2 of Division 10 of the Education Code, relating to in-service training of secondary educational personnel.

[Approved by Governor October 20, 1971 Filed with
 Secretary of State October 20, 1971]

The people of the State of California do enact as follows:

SECTION 1. Article 4.3 (commencing with Section 13385) is added to Chapter 2 of Division 10 of the Education Code, to read:

Article 4.3. In-Service Training of Secondary Educational Personnel

13385. It is the intent of the Legislature to encourage California's institutions of higher education, whether public or private, to enter into cooperative arrangements with local school districts for the provision of training programs designed to improve high school teachers' instructional skills. The Legislature recognizes that the usual teacher preparation required by law and provided by most teacher-training institutions—

while meeting high quality standards—may not provide desirable exposure to the range of new and innovative teaching techniques being developed and tested by and in cooperation with major universities throughout the United States; nor does the usual preparation provide, even with practice teaching, on-the-job experience under the guidance of resource and consulting personnel involved in development of new techniques or of so-called master teachers chosen for their exceptional ability and supplementary research in the field.

The Legislature, therefore, intends, in enacting this article, to facilitate the process whereby institutions of higher education, research centers, or regional educational laboratories may provide resource personnel and special courses under contracts or other cooperative arrangements with local school districts.

13385.5. As used in this article, the term "staff development project," means training programs established to improve high school teachers' instructional skills pursuant to this article.

13386. Staff development projects shall be made available whenever possible to the following personnel:

(a) New high school teachers of the district who have not yet completed the fifth year of university or college education requirements for a standard teaching credential with a specialization in secondary teaching.

(b) New teachers of the district, whether from California or out of state, who may already have completed all requirements for a standard teaching credential with a specialization in secondary teaching.

(c) Teachers who may already be teaching in the district, including those who have, as well as those who have not, completed the fifth year requirement for a standard teaching credential with a specialization in secondary teaching.

(d) High school counselors or visiting teachers.

(e) High school administrators.

13386.5. The governing board of any school district may establish a staff development project to improve high school teachers' instructional skills pursuant to this article.

A staff development project may include, but not be limited to, the following components, as determined by the governing board:

(a) A statement of the school district's objectives in establishing the project, specifying the school district's particular needs with reference to specialized instructional personnel.

(b) A description of the component parts of the proposed staff development project, including:

(1) Courses to be made available to trainees through arrangements with an institution of higher education, research center, or regional education laboratory; and

(2) Other planned trainee activities.

(c) A statement outlining methods and criteria to be used in selecting trainees for the project.

(d) A statement indicating generally the duration of the program and the number of hours per week each trainee would be involved in designated activities.

(e) A statement describing the manner in which the staff development project is to be evaluated upon termination of a unit of training.

(f) A statement of proposed expenditures and reasonably expected costs, and an outline of proposed federal or state and local fund matching arrangements.

13387. The governing board of any school district may contract with institutions of higher education, including the University of California, the California State Colleges, and private institutions, and with research centers or regional education laboratories, for such institutions, centers, or laboratories to furnish academic and consulting services for purposes of a staff development project. The school district shall be deemed the contracting agency and shall be responsible for coordination and administration of the staff development project.

13387.5. The school district shall provide the necessary facilities, equipment, and instructional materials for the project.

13388. Certificated employees participating as trainees in a staff development project shall be remunerated on a basis consistent with usual procedures of the school district.

13388.5. The school district shall pay, out of the funds of the school district, all costs of the project.

13389. Any institution of higher learning participating in a staff development project pursuant to this article shall grant academic credit for the courses established under terms of the contract arranged with respect to a staff development project. Such academic credit shall be granted on whatever hour or unit basis is the practice at the participating institution.

In consideration for the Avco Community Developers, Inc., conveying to the Orange County Harbor District the described beaches, parking areas, and access to such beaches, any rights which the public may have acquired by prescription, or otherwise, in the real property of the Avco Community Developers, Inc., described in such agreement, other than the property being conveyed, are hereby released to the Avco Community Developers, Inc. The real property is described as follows:

of Surveys of said County, bounded Northwesterly by the Southeasterly line of Rancho Niguél as shown on map filed in Book 89 page 17 of Records of Surveys of said County, bounded Southerly by the Southerly boundary of said map filed in Book 89 page 17 of Records of Surveys, and bounded Southwesterly by the mean high tide line of the Pacific Ocean.

This approval by the Legislature shall not be effective until such time as the agreement has been approved by the State Lands Commission and the Orange County Board of Supervisors. Prior to granting any such approval, the State Lands Commission shall seek the advice of the Attorney General, who shall render a report analyzing the need for the agreement, the rights of the public, if any, surrendered thereby, the privileges to the public acquired thereby, and the terms contained in the agreement and their legal effect, and making his recommendation to the commission. Any such report shall be made available to the public by the commission. The State Lands Commission and the Orange County Board of Supervisors shall not approve the agreement unless and until the State Lands Commission and the board of supervisors have separately conducted at least one public hearing in Orange County and have made a finding that such agreement is in the best interests of the public. Neither the State of California, nor any political subdivision thereof, shall prosecute any action to perfect prescriptive rights which the public may have acquired in the real property owned by the Avco Community Developers, Inc., and described in such agreement.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health and safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

[Approved by Governor October 21, 1971. Filed with Secretary of State October 21, 1971.]

The people of the State of California do enact as follows:

SECTION 1. Section 232 of the Civil Code is amended to read:

232. An action may be brought for the purpose of having any person under the age of 21 years declared free from the custody and control of either or both of his parents when such person comes within any of the following descriptions:

(a) Who has been left without provision for his identification by his parent or parents or by others or has been left by both of his parents or his sole parent in the care and custody of another without any provision for his support, or without communication from such parent or parents, for a period of six months with the intent on the part of such parent or parents to abandon such person. Such failure to provide identification, failure to provide, or failure to communicate for a period of six months shall be presumptive evidence of the intent to abandon. Such person shall be deemed and called a person abandoned by the parent or parents abandoning him. If in the opinion of the court the evidence indicates that such parent or parents have made only token efforts to support or communicate with the child, the court may declare the child abandoned by such parent or parents.

The fact that a child is in a foster care home, licensed under subdivision (a) of Section 16000 of the Welfare and Institutions Code, shall not prevent a licensed adoption agency which is planning adoption placement for the child, from instituting, under this subdivision, an action to declare such child free from the custody and control of his parents. When the requesting agency is a licensed county adoption agency, the county counsel and if there is no county counsel, the district attorney shall institute such action.

(b) Who has been cruelly treated or neglected by either or both of his parents, if such person has been a dependent child of the juvenile court, and such parent or parents deprived of his custody for the period of one year prior to the filing of a petition praying that he be declared free from the custody and control of such cruel or neglectful parent or parents.

(c) Whose parent or parents are habitually intemperate, or morally depraved, if such person has been a dependent child of the juvenile court, and the parent or parents deprived of his custody because of such intemperance, or moral depravity,

for the period of one year continuously immediately prior to the filing of the petition praying that he be declared free from the custody and control of such habitually intemperate or morally depraved parent or parents.

(d) Whose parent or parents are deprived of their civil rights due to the conviction of a felony, if the felony of which such parent or parents were convicted is of such nature as to prove the unfitness of such parent or parents to have the future custody and control of the child, or if any term of sentence of such parent or parents is of such length that the child will be deprived of a normal home for a period of years.

(e) Whose parent or parents have been declared by a court of competent jurisdiction to be mentally deficient or mentally ill, if the State Director of Mental Hygiene and the superintendent of the state hospital of which, if any, such parent or parents are inmates or patients certify that such parent or parents so declared to be mentally deficient or mentally ill will not be capable of supporting or controlling the child in a proper manner.

(f) Whose parent or parents are, and will remain incapable of supporting or controlling the child in a proper manner because of mental deficiency or mental illness, if there is testimony to this effect from two medical examiners certified under Section 6750 of the Welfare and Institutions Code. The parent or parents shall be cited to be present at the hearing, and if he or they have no attorney, the judge shall appoint an attorney or attorneys to represent the parent or parents and fix the compensation to be paid by the county for such services, if he determines the parent or parents are not financially able to employ counsel.

A licensed adoption agency may institute under this section, an action to declare a child, as described in this section, free from the custody and control of his parents. When the requesting agency is a licensed county adoption agency, the county counsel, or if there is no county counsel, the district attorney shall in a proper case institute such action.

SEC. 2. Section 1300 of the Civil Code is amended to read:

1300. 1301. The declaration must contain:

(1) A statement that the declarant is a married person, and that there is in existence a judgment decreeing legal separation of the parties or an interlocutory judgment of dissolution of the marriage between declarant and his or her spouse.

(2) A statement showing that declarant is the head of a family, as defined in this chapter, if such is the case.

(3) The matters required by the second and third subdivisions of Section 1263, and in addition thereto may contain the statement and affidavit provided for by subdivision 4 of said section, with like effect as therein provided.

SEC. 4. Section 1304 of the Civil Code is amended to read:

1304. When a homestead has been declared under this chapter by a married person following the entry of an interlocutory judgment of dissolution of a marriage upon property awarded to such person by such judgment, a subsequent reconciliation of the parties when evidenced by a dismissal of such dissolution action executed by both parties or their attorneys of record shall transform such homestead into a joint protection homestead, which shall thereafter have the force and effect of a homestead selected under Chapter 2 of this title. If each such married person has selected a homestead under this chapter, and such a dismissal has been filed after reconciliation, one of the homesteads must be abandoned or the exemption under each shall be reduced by one-half.

The order of modification or revocation may be made retroactive to the date of the filing of the notice of motion or order to show cause to modify or revoke, or to any date subsequent thereto.

(b) When a court orders a person to make specified payments for support of a child during the child's minority, or until such child is married or otherwise emancipated, the liability of such person terminates upon the happening of such contingency. If the custodial parent or other person having physical custody of the child, to whom payments are to be made, fails to notify the person ordered to make such payments, or the attorney of record of such person, of the happening of such contingency, and continues to accept support payments, such person must refund any and all moneys received which accrued after the happening of such contingency, except that such overpayments must first be applied to any and all support payments which are then in default. The court may, in the original order for support, order the custodial parent or other person to whom payments are to be made to notify the person ordered to make such payments, or his attorney of record, of the happening of such contingency.

(c) Except as otherwise agreed by the parties in writing, the court may, upon petition of either party, modify or revoke any decree or judgment granting any allowance to the other party upon proof that the wife is living with another man and holding herself out as his wife, although not married to such man, or that the husband is living with another woman and holding himself out as her husband, although not married to such woman, except as to any amount that may have accrued prior to the filing of the petition.

(d) When a court orders a person to make specified payments for support of the other party for a contingent period of time, the liability of such person terminates upon the happening of such contingency. If the party to whom payments are to be made fails to notify the person ordered to make such payments, or the attorney of record of such person, of the happening of such contingency and continues to accept support payments, such party shall refund any and all moneys received which accrued after the happening of such contingency, except that such overpayments shall first be applied to any and all support payments which are then in default. [Approved by Governor October 21, 1971. Filed with Secretary of State October 21, 1971.]

The people of the State of California do enact as follows:

SECTION 1. Section 3702 of the Public Resources Code is amended to read:

3702. For the purposes of this chapter, "geothermal resources area" means the same general surface area which is underlaid, or reasonably appears to be underlaid, by geothermal resources.

SEC. 2. Section 3720 of the Public Resources Code is amended to read:

3720. For the purposes of this chapter, the state may be divided into one or more districts, the boundaries of which shall be fixed by the director.

SEC. 3. Section 3724 of the Public Resources Code is amended to read:

3724. The owner or operator of any well, before commencing the original drilling of a well or the redrilling of an abandoned well, shall file with the supervisor or the district deputy a written notice of intention to commence drilling, accompanied by the fee prescribed by this section. Drilling shall not commence until approval is given by the supervisor or the district deputy. If the supervisor or the district deputy fails to give the owner or operator written response to the notice within 10 working days, such failure shall be considered as an approval of the notice and the notice shall, for the purposes and intents of this chapter, be deemed a written report of the supervisor. The notice shall contain the following:

(a) The location and elevation of the floor of the proposed derrick.

(b) The number or other designation by which the well shall be known. Such number or designation shall be subject to the approval of the supervisor.

(c) The owner's or operator's estimate of the depths between which production will be attempted.

(d) Such other pertinent data as the supervisor may require on the printed forms to be supplied by the Division of Oil and Gas, or on forms acceptable to the supervisor.

After the completion of any well the provisions of this section, other than the requirement of the payment of the fee, shall also apply, as far as may be, to the deepening or redrilling of the well, or any operation involving the plugging of the well, or any operations permanently altering in any manner the casing of the well. The number or designation by which any well heretofore drilled has been known, and the number or designation specified for any well in a notice filed as required by this section, shall not be changed without first obtaining a written consent of the supervisor.

The fee required to be filed for the drilling of a new well or the redrilling of an abandoned well, shall be twenty-five dollars (\$25), two hundred dollars (\$200), five hundred dollars (\$500), or one thousand dollars (\$1,000), to be determined by the supervisor with the concurrence of the Geothermal Resources Board based on the estimated cost of supervising geothermal resources operations.

All moneys received under this chapter shall be deposited in the Petroleum and Gas Fund to the credit of an account to be known as the geothermal resources account which is hereby appropriated for the purposes of this chapter.

SEC. 4. Section 3724.1 is added to the Public Resources Code, to read:

3724.1. An owner or operator may submit to the supervisor for approval a written program to drill a shallow well or wells for geothermal observation purposes. In order to qualify under this section, a program shall contain not more than 25 wells and the maximum total depth of each of these wells shall not exceed 250 feet. Each program submitted for approval shall include:

- (a) Well numbers.
- (b) Well locations and elevations.
- (c) Geologic interpretation of the area under investigation, including any known or inferred temperature data.

(d) Such other data as may be required by the supervisor.

The fee required to be filed for the drilling of these shallow wells shall be twenty-five dollars (\$25) per well or two hundred dollars (\$200) per program, whichever is the lesser.

SEC. 5. Section 3724.2 is added to the Public Resources Code, to read:

3724.2. If, after study by the supervisor, it is determined that one or all of the wells proposed pursuant to Section 3724.1 require additional supervision, the supervisor may require that a proposal for such well or wells be submitted in compliance with all the provisions of Section 3724.

SEC. 6. Section 3724.3 is added to the Public Resources Code, to read:

3724.3. Drilling of program wells, as described in Section 3724.1, shall not commence until approval is given by the supervisor or the district deputy. If the supervisor or the district deputy fails to give the owner or operator written response to the program within 10 working days, such failure shall be considered as an approval of the program and the program shall, for the purposes and intents of this chapter, be deemed a written report of the supervisor.

SEC. 7. Section 3724.4 is added to the Public Resources Code, to read:

3724.4. The proposal, and all other data submitted as required by Sections 3724.1, 3724.2, and 3724.3, shall be maintained in a confidential status as provided for in Section 3752.

SEC. 8. Section 3725 of the Public Resources Code is amended to read:

3725. Every person who engages in the drilling, redrilling, or deepening of any well shall file with the supervisor an indemnity bond in the sum of five thousand dollars (\$5,000) for each well drilled, redrilled, or deepened. The bond shall be filed with the supervisor at the time of the filing of the notice of intention to drill, redrill, or deepen provided for in Section 3724 or 3724.1. The bond shall be executed by such person, as principal, and by an authorized surety company, as surety, conditioned that the principal named in the bond shall faithfully comply with all the provisions of this chapter, in drilling, redrilling, deepening, maintaining, or abandoning any well or wells covered by the bond, and shall secure the state against all losses, charges, and expenses incurred by it to obtain such compliance by the principal named in the bond.

The condition of the bond shall be stated in substantially the following language:

“If said -----, the above bounden principal, shall well and truly comply with all the provisions of Chapter 4 (commencing with Section 3700) of Division 3 of the Public Resources Code and shall obey all lawful orders of the State Oil and Gas Supervisor, or his district deputy or deputies, if not appealed as provided in that chapter, or upon affirmance thereof by the Geothermal Resources Board, if appealed thereto, and shall pay all charges, costs, and expenses incurred by the supervisor or his district deputy or deputies in respect of such well or wells or the property or properties of said principal, or assessed against such well or wells or the property or properties of such principal, in pursuance of the provisions of said chapter, then this obligation shall be void; otherwise, it shall remain in full force and effect.”

SEC. 9. Section 3726 of the Public Resources Code is amended to read:

3726. Any person who engages in the drilling, redrilling, deepening, maintaining, or abandoning of one or more wells at any time, may file with the supervisor one bond for twenty-five thousand dollars (\$25,000) to cover all his operations in drilling, redrilling, deepening, maintaining or abandoning of any of his wells in this state in lieu of a five thousand dollar (\$5,000) bond for each well being drilled, redrilled, deepened, maintained, or abandoned by him. The bond shall be executed by such person, as principal, and by an authorized surety company, as surety, and shall be in substantially the same language and upon the same conditions as provided in Section 3725, except as to the difference in the amount.

SEC. 10. Section 3727 of the Public Resources Code is amended to read:

3727. Any bond issued in compliance with this chapter may, with the consent of the supervisor, be terminated and canceled and the surety be relieved of all obligations thereunder. The supervisor shall not consent to the termination and cancellation of any bond until the well or wells for which it has been issued have been properly abandoned or another valid bond substituted therefor.

SEC. 11. Section 3728 of the Public Resources Code is amended to read:

3728. Any twenty-five thousand dollar (\$25,000) bond issued in compliance with this chapter may, with the consent of the supervisor, be terminated and canceled and the surety be relieved of all obligations thereunder when all wells covered by such bond have been properly abandoned. Should the person who has filed a twenty-five thousand dollar (\$25,000) bond properly abandon a portion of his wells covered by the bond, the bond may, with the consent of the supervisor, be terminated and canceled and the surety be relieved of all obligations thereunder upon the filing by such person of a five thousand dollar (\$5,000) bond for each well which he is still engaged in drilling, redrilling, deepening, maintaining, or abandoning. Liability as to individual wells that have been drilled and abandoned under a twenty-five thousand dollar (\$25,000) bond may also be terminated with the consent of the supervisor.

SEC. 12. Section 3729 of the Public Resources Code is amended to read:

3729. For the purposes of Sections 3727 and 3728, a well is properly abandoned when the person drilling, redrilling, deepening, or maintaining it has shown to the satisfaction of the supervisor that all proper steps have been taken to protect underground or surface water suitable for irrigation or farm or domestic purposes from the infiltration or addition of any detrimental substance, and to prevent the escape of all fluids to the surface.

SEC. 13. Section 3735 of the Public Resources Code is amended to read:

3735. Upon the completion or abandonment of any well or upon the suspension of operations upon any well, true copies of the log, core record, history, and, if made, true copies of all electrical, physical, or chemical logs, tests, or surveys, in duplicate and in such form as the supervisor may direct, shall be filed with the district deputy within 60 days after such completion or abandonment. Like copies shall be filed upon the recompletion of any well.

SEC. 14. Section 3737 of the Public Resources Code is amended to read:

3737. A well is completed, for the purposes of this chapter, 30 days after it has commenced to produce a geothermal resource unless drilling operations are resumed before the end of the 30-day period.

SEC. 15. Section 3738 of the Public Resources Code is amended to read:

3738. The supervisor, upon application of an owner or operator, shall determine and designate what wells are prospect wells, and reports shall not be required from such prospect wells until six months after suspension of drilling operations. Upon a showing of hardship, the supervisor may extend the time within which to comply with the provisions of Section 3735 for a period not to exceed six additional months.

SEC. 16. Section 3756 of the Public Resources Code is amended to read:

3756. Whenever the Geothermal Resources Board finds that it is in the interest of the protection of geothermal resources from unreasonable waste, the lessors, lessees, operators or other persons owning or controlling royalty or other interests in the separate properties of the same producing or prospective geothermal resources area, may, with the approval of the board, enter into agreements for the purpose of bringing about the cooperative development and operation of all or a part or parts of the area, or for the purpose of bringing about the development or operation of all or a part or parts of such area as a unit, or for the purpose of fixing the time, location, and manner of drilling and operating of wells for the production of geothermal resources. Any such agreement shall bind the successors and assigns of the parties thereto in land affected thereby and shall be enforceable in an action for specific performance. No such agreement when approved by the board hereunder shall be held to violate any of the statutes of this state prohibiting monopolies or acts, arrangements, agreements, contracts, combinations or conspiracies in restraint of trade or commerce.

(b) The voluntary or involuntary surrender for any cause by the licensee of the special plates and license; provided, that such surrender, or the cessation of business by the licensee, or the suspension of the corporate charter of the licensee by the State of California, shall not prevent the filing of an accusation for revocation or suspension of the surrendered license as provided in Section 11509, and the department's decision that such license should be suspended or revoked; and provided further, that such decision may be considered in granting or refusing to grant any subsequent license authorized by this division to such licensee, copartner, or any officer, director, or stockholder of such prior licensee.

No appointing authority specified in Section 437 shall appoint any person to alternate membership on the Health Planning Council, unless to fill the vacant term of an appointment.

The terms of Members of the Legislature appointed to the council shall be figured as indicated above, but the members shall serve at the pleasure of the appointing power and in no event after they cease to be Members of the Legislature.

SEC. 4. It is the intent of the Legislature that, if Reorganization Plan No. 1 of 1970 becomes operative, the amendments to Section 437 of the Health and Safety Code which are made by Section 1 of this act shall remain in effect only until the date Reorganization Plan No. 1 of 1970 becomes operative, and on that date Section 2 of this act shall become operative.

CHAPTER 1219

An act to amend Sections 45, 46, 213.1 of, and to add Section 46.5 to, the Elections Code, relating to elections.

[Approved by Governor October 21, 1971. Filed with Secretary of State October 21, 1971.]

The people of the State of California do enact as follows:

SECTION 1. Section 45 of Elections Code is amended to read:

45. Wherever, by the Constitution or laws of this state, any initiative, referendum, recall, nominating petition or paper, or any other petition or paper, is required to be signed by voters, only a person who is a registered qualified voter at the time he signs the petition or paper is entitled to sign it. Each signer of a petition or paper, other than a nomination petition or paper, shall at the time of signing the petition or paper personally affix the date of signing and his place of residence, giving street and number, and if no street or number exists, then a designation of his place of residence which will enable the location to be readily ascertained. Each signer of a nomination petition or paper shall not, however, affix the date of his signing. No such petition or paper may be signed within 100 feet of any election booth, polling place, or any place where registration of electors is being conducted.

SEC. 2. Section 46 of the Elections Code is amended to read:

46. Wherever, by the Constitution or laws of this state, the county clerk is required to determine what number of voters have signed any petition or paper, the petition or paper, other than a nomination petition or paper, when filed with the officer, shall have designated therein the name or number of the respective precinct in which each of the signers reside. Whenever a nomination petition or paper is filed, the county clerk shall determine and affix to the petition or paper the precinct of each signer. The county clerk shall determine that fact with respect to the purported signature of any voter from his original affidavit of registration current and in effect within the dates designated by the circulator as those between which all signatures to the petition or paper were obtained.

SEC. 3. Section 46.5 is added to the Elections Code, to read:

46.5. Wherever, by the Constitution or laws of this state, any nomination petition or paper is required to be signed by

voters, the circulator of the petition or paper shall indicate by affidavit, to be filed at the same time as such petition or papers, the dates between which all signatures to the petition or paper were obtained.

SEC. 4. Section 213.1 of the Elections Code is amended to read:

213.1. The county clerk of the county in which the elector resides may use the affidavit of registration from the other county as his permanent record or may copy the information from the affidavit of registration on to the form used in his county and in this instance shall forward the copied form to the elector for signature. If the information from the affidavit of registration is copied on to the form used in his county, the county clerk shall immediately mail the copied form to the elector for his signature. The signature shall not need verification other than comparison by the county clerk on return. The copied form shall be accompanied by a postage prepaid self-addressed envelope for the return of the affidavit. The original affidavit of registration shall serve to qualify the elector to vote in subsequent elections until the return of the copied form. The copied form shall, in all respects, serve as a valid affidavit of registration taken in the county in which the elector resides.

CHAPTER 1220

An act to add Section 161 to the Education Code, relating to certificated employees.

[Approved by Governor October 21, 1971 Filed with
Secretary of State October 21, 1971]

The people of the State of California do enact as follows:

SECTION 1. Section 161 is added to the Education Code, to read:

161. The State Board of Education shall develop guidelines which school districts may use in the development of teacher evaluation procedures pursuant to Article 5.5 (commencing with Section 13485) of Chapter 2 of Division 19, and shall distribute such guidelines to every school district.

CHAPTER 1221

An act to amend Sections 9310 and 9310.5 of the Education Code, relating to school textbooks.

[Approved by Governor October 21, 1971. Filed with
Secretary of State October 21, 1971.]

The people of the State of California do enact as follows:

SECTION 1. Section 9310 of the Education Code is amended to read:

9310. The board shall cause to be acquired and distributed to school districts of the state providing instruction in the elementary school grades, appropriate basic textbooks to be used in the selection process as provided in Section 9316. The board shall determine the necessary quantities and distribution pattern of such textbooks. However, in cases where the district does not qualify as a city school district and is an elementary district with fewer than 901 average daily attendance or a unified district with fewer than 1501 average daily attendance, the county superintendent of schools shall receive for review by districts such basic textbooks.

SEC. 2. Section 9310.5 of the Education Code is amended to read:

9310.5. The board shall cause to be acquired and distributed to school districts of the state providing instruction in the elementary school grades one full and complete set of the supplementary textbooks tentatively adopted by the board to be used in the selection provided in Section 9316. Any district requiring additional copies of tentatively adopted textbooks may request such copies, on forms provided for that purpose, from the Superintendent of Public Instruction. The cost of all supplementary textbooks distributed to districts beyond the one complete set provided herein shall be deducted from the supplementary textbook credit as provided in Section 9308. However, in cases where the district does not qualify as a city school district and is an elementary district with fewer than 901 average daily attendance or a unified district with fewer than 1501 average daily attendance, the county superintendent of schools shall receive for review by districts such tentatively adopted supplementary textbooks. The county superintendent of schools shall receive a set of supplementary textbooks for each 10, or fraction thereof, districts in his jurisdiction which do not qualify to receive samples, except that in no case shall he receive more than three sets. Nothing in this section shall prevent school districts which do not qualify as city school districts or as elementary districts with 901 or more average daily attendance, or as unified districts with 1501 average daily attendance or more from ordering tentatively adopted supplementary textbooks to be purchased with supplementary textbook credit in the manner described above, or the county superintendent of schools from purchasing such supplementary textbooks.

CHAPTER 1222

An act making an appropriation for the development of San Simeon State Beach.

[Approved by Governor October 21, 1971. Filed with Secretary of State October 21, 1971.]

The people of the State of California do enact as follows:

SECTION 1. There is hereby appropriated to the Department of Parks and Recreation the sum of one hundred twenty-five thousand dollars (\$125,000) from the Special Deposit Fund in accordance with provisions of Item 378.9, Budget Act of 1968, and Item 425.1, Budget Act of 1969, San Simeon Beach, for development.

CHAPTER 1223

An act to amend and supplement the Budget Bill for the 1971-72 fiscal year (enacted as the Budget Act of 1971) by adding thereto Section 2.5A, relating to an appropriation for the state park system, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor October 21, 1971. Filed with Secretary of State October 21, 1971.]

The people of the State of California do enact as follows:

SECTION 1. Section 2.5A is added to the Budget Bill for the 1971-72 fiscal year enacted as the Budget Act of 1971 (Chapter 266, Statutes of 1971), to read:

STATE BEACH, PARK, RECREATIONAL AND
HISTORICAL FACILITIES BOND ACT PROGRAM

SEC. 2.5A. The following sum of money, or so much thereof as may be necessary, is hereby appropriated out of the State Beach, Park, Recreational and Historical Facilities Fund in the State Treasury.

PARKS AND RECREATION ACQUISITION
AND DEVELOPMENT PROGRAM

<i>Item</i>	<i>Amount</i>
313A—For capital outlay, Department of Parks and Recreation, in augmentation of Item 313, Section 2.5, Budget Act of 1971, for purposes set forth in Section 5096.15(a) of the Public Resources Code, for expenditure during the 1971-72, 1972-73, and 1973-74	

fiscal years, payable from the State Beach, Park, Recreational and Historical Facilities Fund -----	2,100,000
Schedule:	
(a) Land acquisition, Doheny Beach -----	2,100,000

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The present provisions of the Budget Act of 1971 do not make adequate provision for the existing and anticipated shortage of state park facilities. The capital outlay appropriation in this act is in continuation of an existing program under the Cameron-Unruh Beach, Park, Recreational, and Historical Facilities Bond Act of 1964 to remedy the aforesaid shortage of facilities. If the appropriation is not available for expenditure at the earliest possible date, the existing program will be delayed. The expeditious correction of such condition and the efficient operation of the state park system requires the immediate availability of the capital outlay appropriation contained in this measure. It is therefore necessary that this act go into immediate effect.

CHAPTER 1224

An act to amend Section 27643 of the Government Code, relating to county counsels.

[Approved by Governor October 22, 1971 Filed with
Secretary of State October 22, 1971]

The people of the State of California do enact as follows:

SECTION 1. Section 27643 of the Government Code is amended to read:

27643. The board of supervisors may by ordinance require that the county counsel shall act as attorney for the public administrator in all estates in which he is executor, administrator with the will annexed, or administrator, where he has priority for appointment as established by law, including all cases under Sections 1143 and 1144 of the Probate Code. However, in the case of a noncharter county or a charter county where there is no conflict with the county charter, the public administrator may employ private counsel (a) in those estates in which he is nominated and would not otherwise have priority, (b) for those estates in which he is appointed administrator with the will annexed, or administrator pur-

suant to Chapter 6 (commencing with Section 480) of Division 3 of the Probate Code, and (c) in those estates in which he is appointed administrator with the will annexed for the reason the executor nominated in the will has refused to serve. In such matters where the county counsel furnishes representation the county counsel shall collect the attorney's fees allowed by law and pay them into the county treasury.

CHAPTER 1225

An act relating to the apportionment of state school funds to the San Joaquin Delta Junior College District.

[Approved by Governor October 22, 1971 Filed with
Secretary of State October 22, 1971.]

The people of the State of California do enact as follows:

SECTION 1. During the 1968-1969 fiscal year, the Superintendent of Public Instruction, pursuant to Section 17414 of the Education Code, withheld from the apportionment of the State School Fund to the San Joaquin Delta Junior College District the sum of eighty-three thousand nine hundred seventy-four dollars (\$83,974) following a recomputation of the apportionment due said district for the preceding fiscal year, by including the assessed valuation of the Sacramento County portion of the Rio Vista Joint Union High School District of Solano County and Sacramento County in the total computation of the assessed valuation of the San Joaquin Delta Junior College District for such preceding fiscal year.

Prior to such recomputation, and in 1965, a petition was filed in the Superior Court for the County of Sacramento by the San Joaquin Delta Junior College District for a writ of mandate and declaratory relief, contending that said Rio Vista Joint Union High School District, which lies partly within Solano County and partly within Sacramento County, was a part of the San Joaquin Delta Junior College District.

After an unfavorable decision in the trial court, the petitioner perfected an appeal to the District Court of Appeal, Third Appellate District, and on June 19, 1968, a decision was rendered in which it was determined that the Rio Vista Joint Union High School District was a part of the San Joaquin Delta Junior College District. (See *San Joaquin Delta Junior College District, et al., v. State Board of Education, et al.*, (1968), 263 Cal. App. 2d 296.)

During the period of the pendency of the action there was much uncertainty regarding the status of the Rio Vista Joint Union High School District for purposes of apportionment of the State School Fund, as well as the levy of taxes in the dis-

trict for junior college purposes. Factually, in the 1966-1967 fiscal year, the State Board of Equalization designated the Rio Vista Joint Union High School District as being a portion of the San Joaquin Delta Junior College District for purposes of levying of taxes, and taxes were levied in the district for junior college purposes. In the succeeding fiscal year of 1967-1968, the State Board of Equalization informed the Auditor of Sacramento County that the Rio Vista Joint Union High School District was not in any junior college district and as a result no junior college tax was levied in the Sacramento County portion of the Rio Vista Joint Union High School District.

Although no tax for junior college purposes was levied in the Sacramento County portion of the Rio Vista Joint Union High School District, the apportionment of the State School Fund for the San Joaquin Delta Junior College District for the fiscal year 1967-1968 was recomputed as aforesaid; that as a result of such inclusion and due to the confusion over the status of the territory of the Rio Vista Joint Union High School District with respect to the levy of taxes for junior college purposes, the San Joaquin Delta Junior College District, in the 1967-1968 fiscal year, not only was deprived of local tax revenues but also sustained a reduction in equalization aid allowances in said amount of eighty-three thousand nine hundred seventy-four dollars (\$83,974).

The Legislature finds that the unique circumstances facing San Joaquin Delta Junior College District require special legislation and that a general statute cannot be made applicable to these circumstances within the meaning of Section 16 of Article IV of the California Constitution. The provision for the repayment of the amount of the apportionment withheld during the 1968-1969 fiscal year by the Superintendent of Public Instruction by Section 2 of this act is made in view of the unique circumstances occurring in the San Joaquin Delta Junior College District, and is made for the purpose of assisting in the financial situation brought on by those circumstances only. It is not the intention of the Legislature to establish a precedent with respect to the repayment of the amount withheld from the apportionment of State School Funds to the San Joaquin Delta Junior College District in the 1968-1969 fiscal year, but rather to assist in a situation involving unique circumstances when appropriate justification for assistance has been found.

SEC. 2. Notwithstanding any provision to the contrary, the Superintendent of Public Instruction shall apportion from the State School Fund to the San Joaquin Delta Junior College District the sum of eighty-three thousand nine hundred seventy-four dollars (\$83,974), which shall be added to the apportionment made to said district during the fiscal year in which this act becomes effective.

CHAPTER 1226

An act to amend Sections 353 and 385 of the Code of Civil Procedure and Section 707 of the Probate Code, relating to decedents.

[Approved by Governor October 22, 1971. Filed with Secretary of State October 22, 1971.]

The people of the State of California do enact as follows:

SECTION 1. Section 353 of the Code of Civil Procedure is amended to read:

353. If a person entitled to bring an action die before the expiration of the time limited for the commencement thereof, and the cause of action survive, an action may be commenced by his representatives, after the expiration of that time, and within six months from his death. If a person against whom an action may be brought die before the expiration of the time limited for the commencement thereof, and the cause of action survive, an action may be commenced against his representatives, after the expiration of that time, and within one year after the issuing of letters testamentary or of administration; or an action against the estate provided for by subdivision (b) of Section 707 of the Probate Code may be commenced within one year after the expiration of the time otherwise limited for the commencement thereof.

SEC. 2. Section 385 of the Code of Civil Procedure is amended to read:

385. (a) An action or proceeding does not abate by the death, or any disability of a party, or by the transfer of any interest therein, if the cause of action survive or continue. In case of the death or any disability of a party, the court, on motion, may allow the action or proceeding to be continued by or against his representative or successor in interest. In case of any other transfer of interest, the action or proceeding may be continued in the name of the original party, or the court may allow the person to whom the transfer is made to be substituted in the action or proceeding.

(b) In the case of an action for injury to or for the death of a person caused by the wrongful act or neglect of the defendant, and the defendant dies after the commencement of the action, the action may be continued, against the decedent as the original party defendant without the appointment of a representative or successor in interest, if the decedent had liability insurance applicable to the cause of action, the amount of damages sought in the action does not exceed the maximum amount of such insurance, or recovery of excess thereof is waived, and the estate of the decedent otherwise qualifies for summary probate proceedings pursuant to the provisions of Section 630 of the Probate Code. No action may be continued

under this subdivision, unless the insurer has been served with the complaint filed in the action.

SEC. 3. Section 707 of the Probate Code is amended to read:

707. (a) Except as provided in subdivision (b) or Section 707.5 or Section 720, all claims arising upon contract, whether they are due, not due, or contingent, and all claims for funeral expenses and all claims for damages for injuries to or death of a person or injury to property and all claims against the executor or administrator of any testator or intestate who in his lifetime has wasted, destroyed, taken or carried away or converted to his own use, the property of another person or committed any trespass on the real property of another person, must be filed or presented within the time limited in the notice or as extended by the provisions of Sections 702 and 709 of this code; and any claim not so filed or presented is barred forever, unless it is made to appear by the affidavit of the claimant to the satisfaction of the court or a judge thereof that the claimant had not received notice, by reason of being out of the state, in which event it may be filed or presented at any time before a decree of distribution is rendered. The clerk must enter in the register every claim filed, giving the name of the claimant, the amount and character of the claim, the rate of interest, if any, and the date of filing.

(b) The filing and presentation of a claim is not required as a prerequisite to commencing an action against the decedent for damages for injury to or for the death of a person caused by the wrongful act or neglect of the decedent or to recover upon a judgment obtained in the action if (1) the decedent had liability insurance applicable to the cause of action, (2) the amount of damages sought in the action does not exceed the maximum amount of such insurance, or recovery in excess thereof is waived, and (3) the estate of the decedent otherwise qualifies for summary probate proceedings pursuant to the provisions of Section 530 of the Probate Code. If the amount of damages sought in the action exceeds the maximum amount of the insurance, filing and presentation of a claim is required only with respect to the amount sought in excess of the maximum amount of the insurance. The defendant in the action may be designated as "Estate of (name and decedent), Deceased". No action shall be maintained under this subdivision unless the insurer has been served with a copy of the complaint.

SEC. 4. This act shall not apply to claims for damages for injuries to or death of a person for which an action, specified in Section 709 of the Probate Code, is pending at the effective date of this act; nor shall this act revive any claim for damages for injuries to or death of a person previously barred by Chapter 12 (commencing with Section 700) of Division 3 of the Probate Code.

CHAPTER 1227

An act to amend Section 700 of the Streets and Highways Code, relating to toll bridges.

[Approved by Governor October 22, 1971 Filed with
Secretary of State October 22, 1971.]

The people of the State of California do enact as follows:

SECTION 1. Section 700 of the Streets and Highways Code is amended to read:

700. (a) "Person," in addition to the definition in Section 19, includes any city, county, public corporation, or public district.

(b) "Utility facility" means any pole, poleline, pipe, pipeline, conduit, cable, aqueduct, or other structure or appurtenance thereof used for public or privately owned utility services or used by any mutual organization supplying water or telephone service to its members.

(c) "Utility" means any person maintaining any utility facility.

(d) "Freeway" includes any toll bridge, including approaches, under the jurisdiction of the California Toll Bridge Authority.

An act to amend Section 13002 of the Education Code, relating to school employees' expenses.

[Approved by Governor October 22, 1971 Filed with
Secretary of State October 22, 1971.]

The people of the State of California do enact as follows:

SECTION 1. Section 13002 of the Education Code is amended to read:

13002. The governing board of any school district shall provide for the payment of the actual and necessary expenses, including traveling expenses, of any employee of the district incurred in the course of performing services for the district, whether within or outside the district, under the direction of the governing board. The board may authorize an advance of funds to cover such necessary expense. Such advance shall be repaid or adjusted upon filing of a regular claim for the actual and necessary expenses incurred. The governing board may direct any employee of the district to attend any convention or conference or to visit schools for the discussion or observation of any school matter appertaining to the duties of the employee or any question of interest to the school district.

SEC. 2. Section 13002 of the Education Code is amended to read:

13002. The governing board of any school district shall provide for the payment of the actual and necessary expenses, including traveling expenses, of any employee of the district incurred in the course of performing services for the district, whether within or outside the district, under the direction of the governing board. The board may authorize an advance of funds to cover such necessary expense. Such advance shall be repaid or adjusted upon filing of a regular claim for the actual and necessary expenses incurred. The governing board may direct any employee of the district to attend any convention or conference or to visit schools for the discussion or observation of any school matter appertaining to the duties of the employee or any question of interest to the school district.

In implementing this section, a governing board of any school district having an average daily attendance in excess of 50,000 pupils may, by rule or regulation, delegate to the district superintendent the authority to perform all powers described in this section; provided, that funds expended pursuant to such delegation shall not exceed the amount previously budgeted for such purposes by the governing board.

SEC. 3. It is the intent of the Legislature, if this bill and Assembly Bill No. 1271 are both chaptered and amend Section 13002 of the Education Code and this bill is chaptered after Assembly Bill No. 1271, that the amendments to Section 13002 proposed by both bills be given effect and incorporated in Section 13002 in the form set forth in Section 2 of this act. CHAPTER 1232

An act to amend Sections 189, 190, and 190.01 of the Streets and Highways Code, relating to grade separations.

[Approved by Governor October 22, 1971 Filed with
Secretary of State October 22, 1971.]

The people of the State of California do enact as follows:

SECTION 1. Section 189 of the Streets and Highways Code is amended to read:

189. On or before the first day of each year, the Public Utilities Commission shall establish and furnish to the Department of Public Works a list of crossings at grade in separation of grade districts, of city streets or county roads and the tracks of any railroad corporation or corporations or the tracks of any municipal corporation, transit district, rapid transit district, or other public entity engaged in providing rail passenger transportation services, of projects effecting the elimination of grade crossing by removal or relocation of streets or railroad tracks, and of existing grade separations in need of alteration or reconstruction in the order of priority which in the judgment of the commission justifies the elimination of the crossing at grade by the erection or construction of separation structures, or by removal or relocation of streets or railroad tracks, or justifies the alteration or reconstruction of existing grade separations. The commission shall include in such listing only such crossings which in its judgment are most urgently in need of separation or alteration, taking into consideration the possibility of financing the same under the provisions of this code.

The priority list shall terminate on the last day of the year for which it is established.

SEC. 2. Section 190 of the Streets and Highways Code is amended to read:

190 In each annual budget report prepared by the commission and the department under Section 143.1, the sum of five million dollars (\$5,000,000) shall be set aside for allocations to grade separation projects, including the elimination of grade crossings, the elimination of grade crossings by re-

removal or relocation of streets or railroad tracks, and the alteration or reconstruction of grade separations, of separation of grade districts, cities, cities and counties, and counties on county roads or city streets as provided in Sections 189 to 191, inclusive. An allocation shall be made of one-half of the estimated cost, after deducting therefrom any contribution to be made by the railroad corporations involved, towards any project which qualifies therefor under the provisions of those sections, except that in no event shall allocations be made to projects for the alteration or reconstruction of grade separations unless the affected railroad or railroads have agreed, or have been required by decision of the Public Utilities Commission, to contribute not less than 10 percent of the cost of such alteration or reconstruction project. In no event shall an allocation for a project effecting the elimination of grade crossings by removal or relocation of streets or railroad tracks be in excess of the estimated allocation that would otherwise be made for the construction of grade separation facilities on the existing alignment of the street and railroad tracks and result in the removal or relocation of more than 6,000 feet of railroad tracks. An allocation shall be made only when the affected local agency or agencies furnish evidence to the department that all necessary orders of the Public Utilities Commission have been obtained, that all necessary agreements with affected railroad or railroads have been executed, that sufficient funds from the local agency or agencies are available and that all other matters prerequisite to awarding the construction contract within a period of six months have been or can be taken care of within that time. Funds of a local agency shall be deemed available for purposes of this section to the extent of the amount of any general obligation bonds authorized but unsold if all proceedings prior to the issuance and sale of the bonds have been validly taken and if the bonds may be validly issued and sold by the local agency at any time, even though at the time of allocation under this section the bonds have not been issued or sold. Where such bond proceedings have been taken, if the bonds are not issued and sold within six months after the time of such allocation, the commission may order the allocation canceled, and shall thereupon revert the amount thereof to the fund set aside by this section, for reallocation to another eligible project. In any event, regardless of the method proposed by the local agency for the financing of its share of the project cost, if after an allocation has been made, the construction contract has not been awarded within one year, the commission may order the allocation canceled and the funds allocated shall revert to the fund set aside by this section. In financing its share of the project cost, the local agency may use any funds available to it.

The department and the commission may make allocations from a succeeding fiscal year's sum of five million dollars (\$5,000,000) on and after January 1st preceding the beginning of such fiscal year. Engineering, right-of-way acquired for the

project and utility relocation costs expended by a local agency or agencies prior to an allocation of funds for a project shall be included in the total cost thereof, even though expended prior to an allocation of state funds.

A local agency that furnishes evidence to the department that it has complied with all requirements for an allocation pursuant to this section may, if it has sufficient funds available for that purpose, proceed with the advertising for bids and the construction without prejudice to its right to receive an allocation if an allocation becomes available for that local agency before the termination of the priority list established for the year during which the construction commenced.

Funds set aside for the purposes specified in this section shall be available for allocation and expenditure without regard to fiscal years.

Such project may be constructed by the local agency or agencies concerned, or, by agreement between the local agency or agencies and the department, the department may acquire the necessary rights-of-way in the name of the local agency or agencies, execute agreements with railroad corporations, present necessary applications to the Public Utilities Commission and perform all other acts to complete the project. Construction work by the department shall be subject to the State Contract Act. Agreements between the department and local agencies are authorized relative to the handling and accounting of funds, including the making of advancements thereof so as to permit prompt payment for the work accomplished, and relative to any other phase of the work.

In the event the actual cost is less than that estimated, the allocation shall be reduced accordingly. If, after completion of the project, the actual cost exceeds that estimated, the allocation may be increased proportionately by the department and the commission. If more projects comply with the requirements hereof than can be financed from the fund set aside by this section, allocations shall be made only to those highest on the priority list submitted by the Public Utilities Commission, except for those allocations made for projects which exceed the estimated costs. Allocations to specific projects by the department shall remain available until expended. As used in this section, "local agency" includes a separation of grade district, as well as a city, city and county, or county.

Sec. 3. Section 190 01 of the Streets and Highways Code is amended to read:

190.01. Allocations may be made pursuant to Section 190 to a local agency, as defined in that section, for grade separation projects, including the elimination of grade crossings, the elimination of grade crossings by removal or relocation of streets or railroad tracks, and the alteration or reconstruction of grade separations, of municipal corporations, transit districts, rapid transit districts, or other public entities which provide rail passenger transportation services. Allocations for such a project shall be for one-half of the portion of the cost

of the project which the California Highway Commission and the department determine to be properly allocable to the betterment of traffic conditions on the local street or road involved. In no event shall an allocation for a project effecting the elimination of grade crossings by removal or relocation of streets or railroad tracks be in excess of the estimated allocation that would otherwise be made for the construction of grade separation facilities on the existing alignment of the street and railroad tracks and result in the removal or relocation of more than 6,000 feet of railroad tracks.

Any references in any law or regulation to Section 190 shall also be deemed to include reference to this section.

SEC. 4. Section 189 of the Streets and Highways Code is amended to read:

189. On or before the first day of each year, the Public Utilities Commission shall establish and furnish to the Department of Public Works a list of existing or proposed crossings at grade in need of separation of grade districts, of city streets or county roads and the tracks of any railroad corporation or corporations or the tracks of any municipal corporation, transit district, rapid transit district, or other public entity engaged in providing rail passenger transportation services, of projects effecting the elimination of existing grade crossing by removal or relocation of streets or railroad tracks, and of existing grade separations in need of alteration or reconstruction in the order of priority which in the judgment of the commission justifies the elimination of the crossing at grade by the erection or construction of separation structures, or by removal or relocation of streets or railroad tracks, or justifies the alteration or reconstruction of existing grade separations. The commission shall include in such listing only such existing and proposed crossings and existing separations, which in its judgment are most urgently in need of separation or alteration, taking into consideration the possibility of financing the same under the provisions of this code.

The priority list shall terminate on the last day of the year for which it is established.

SEC. 5. Section 190 of the Streets and Highways Code is amended to read:

190. In each annual budget report prepared by the commission and the department under Section 143.1, the sum of five million dollars (\$5,000,000) shall be set aside for allocations to grade separation projects, including the elimination of existing or proposed grade crossings, the elimination of existing grade crossings by removal or relocation of streets or railroad tracks, and the alteration or reconstruction of existing grade separations, of separation of grade districts, cities, cities and counties, and counties on county roads or city streets as provided in Sections 189 to 191, inclusive. An allocation shall be made of one-half of the estimated cost, after deducting therefrom any contribution to be made by the railroad corporations involved, towards any project which quali-

fies therefor under the provisions of those sections, except that in no event shall allocations be made to projects for the alteration or reconstruction of grade separations unless the affected railroad or railroads have agreed, or have been required by decision of the Public Utilities Commission, to contribute not less than 10 percent of the cost of such alteration or reconstruction project. In no event shall an allocation for a project effecting the elimination of existing grade crossings by removal or relocation of streets or railroad tracks be in excess of the estimated allocation that would otherwise be made for the construction of grade separation facilities on the existing alignment of the street and railroad tracks and result in the removal or relocation of more than 6,000 feet of railroad tracks. An allocation shall be made only when the affected local agency or agencies furnish evidence to the department that all necessary orders of the Public Utilities Commission have been obtained, that all necessary agreements with affected railroad or railroads have been executed, that sufficient funds from the local agency or agencies are available and that all other matters prerequisite to awarding the construction contract within a period of six months have been or can be taken care of within that time. Funds of a local agency shall be deemed available for purposes of this section to the extent of the amount of any general obligation bonds authorized but unsold if all proceedings prior to the issuance and sale of the bonds have been validly taken and if the bonds may be validly issued and sold by the local agency at any time, even though at the time of allocation under this section the bonds have not been issued or sold. Where such bond proceedings have been taken, if the bonds are not issued and sold within six months after the time of such allocation, the commission may order the allocation canceled, and shall thereupon revert the amount thereof to the fund set aside by this section, for reallocation to another eligible project. In any event, regardless of the method proposed by the local agency for the financing of its share of the project cost, if after an allocation has been made, the construction contract has not been awarded within one year, the commission may order the allocation canceled and the funds allocated shall revert to the fund set aside by this section. In financing its share of the project cost, the local agency may use any funds available to it.

The department and the commission may make allocations from a succeeding fiscal year's sum of five million dollars (\$5,000,000) on and after January 1st preceding the beginning of such fiscal year. Engineering, right-of-way acquired for the project and utility relocation costs expended by a local agency or agencies prior to an allocation of funds for a project shall be included in the total cost thereof, even though expended prior to an allocation of state funds

A local agency that furnishes evidence to the department that it has complied with all requirements for an allocation pursuant to this section may, if it has sufficient funds avail-

able for that purpose, proceed with the advertising for bids and the construction without prejudice to its right to receive an allocation if an allocation becomes available for that local agency before the termination of the priority list established for the year during which the construction commenced.

Funds set aside for the purposes specified in this section shall be available for allocation and expenditure without regard to fiscal years.

Such project may be constructed by the local agency or agencies concerned, or, by agreement between the local agency or agencies and the department, the department may acquire the necessary rights-of-way in the name of the local agency or agencies, execute agreements with railroad corporations, present necessary applications to the Public Utilities Commission and perform all other acts to complete the project. As used in this section, "local agency" includes a separation of grade district, as well as a city, city and county, or county.

SEC. 6. Section 190 of the Streets and Highways Code is amended to read:

190. In each annual budget report prepared by the commission and the department under Section 143.1, commencing with the 1972-1973 fiscal year, the sum of ten million dollars (\$10,000,000) shall be set aside for allocations to grade separation projects, including the elimination of grade crossings, the elimination of grade crossings by removal or relocation of streets or railroad tracks, and the alteration or reconstruction of grade separations, of separation of grade districts, cities, cities and counties, and counties on county roads or city streets as provided in Sections 189 to 191, inclusive. An allocation shall be made of two-thirds of the estimated cost, after deducting therefrom any contribution to be made by the railroad corporations involved, towards any project which qualifies therefor under the provisions of those sections, except that in no event shall allocations be made to projects for the alteration or reconstruction of grade separations unless the affected rail-

road or railroads have agreed, or have been required by decision of the Public Utilities Commission, to contribute not less than 10 percent of the cost of such alteration or reconstruction project. In no event shall an allocation for a project effecting the elimination of grade crossings by removal or relocation of streets or railroad tracks be in excess of the estimated allocation that would otherwise be made for the construction of grade separation facilities on the existing alignment of the street and railroad tracks and result in the removal or relocation of more than 6,000 feet of railroad tracks. The consideration from any such corporation to the state for such transfer may consist solely of the obligation of the nonprofit corporation to continuously utilize the property so transferred for the purposes herein provided for the term of the trust. As to personal property, the trust shall not extend for a period which exceeds the useful life thereof as determined by the Director of General Services, and at the end of any such period, such property shall become the property of such corporation, provided that it has been continuously devoted to the purpose of the trust. Any other terms or conditions of any such agreement shall be such as the Director of General Services shall determine to be in the best interests of the state. Any such agreement shall be subject to the approval of the Director of Rehabilitation.

membership is open to all blind persons in the state and including at least one totally or legally blind employee from each manufacturing center operated by the nonprofit corporation provided, however, that directors who are also employees of the nonprofit corporation shall not participate in or be present at discussions of the board of directors concerned with labor-management contract negotiations, (4) be bound by the terms set forth in the memorandum of understanding entered into May 21, 1971, including any amendments to that memorandum of understanding, between the Department of Rehabilitation and Local 411 of the Union of State Employees, (5) continue said memorandum of understanding in effect until a subsequent memorandum of understanding or collective bargaining agreement is entered into between each nonprofit corporation referred to in Section 19019 and the representatives designated by a majority of the employees, (6) not commit any unfair labor practice as defined in Section 8(a) of the National Labor Relations Act, and (7) abide by the provisions of the Federal Fair Labor Standards Act, the Walsh-Healy Public Contracts Act, the Wagner O'Day Act, and the regulations of the State Division of Industrial Welfare.

Nothing in this section shall preclude employees of any nonprofit corporation from seeking enforcement, whether by specific performance or otherwise, of any obligations assumed by that nonprofit corporation under Section 19021.

Sec. 5. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and

shall go into immediate effect. The facts constituting such necessity are:

It has been determined that the California Industries for the Blind and the opportunity work centers should be operated by nonprofit corporations within the private sector rather than by the state. This measure is essential to effecting this change. The employment of nearly 200 blind and other disabled persons is involved and the passage of this act will enable private enterprise to assume control of these functions at the earliest possible time, thereby continuing and enhancing the employment and earning capacity of the employees involved.

CHAPTER 1240

An act to add Section 15011 to the Education Code, relating to school district property.

[Approved by Governor October 22, 1971 Filed with
Secretary of State October 22, 1971.]

The people of the State of California do enact as follows:

SECTION 1. Section 15011 is added to the Education Code, to read:

15011. In the event a school district heretofore or hereafter acquires a site for school purposes, as determined by the State Allocation Board, and does not use the site within (1) five years of the date of acquisition for the kindergarten, if any, and any of grades 1 to 8, inclusive, maintained by an elementary school district or a unified school district, or, (2) seven years of the date of acquisition for any of grades 7 to 12, inclusive, maintained by a high school district or a unified school district, the school district shall make payments to each taxing agency and revenue district in which such property is located, unless the State Allocation Board has made a determination that the school district will utilize the property for the purposes for which it was intended within a reasonable period of time. Such determination may be based on information submitted by the board of the school district. Such payments shall be made on or before the 10th day of December of each fiscal year commencing after the taxing agency is notified in writing that the State Allocation Board has determined that the property has not been so used within the period specified, and shall no longer be made after such taxing agency is further notified in writing that the board has determined either that the property is being so used for such purposes, or that such use is no longer required by the State Allocation Board. The executive officer of the board shall give the commencement and termination notices to the applicable county assessor who shall then promptly further notify any other taxing agency within the county in which such property is located.

The payments required by this section shall be computed by applying the current applicable tax rate of each taxing agency and revenue district in which the property is located to the assessed value of such property as last reflected on the secured assessment roll.

As used in this section, "taxing agency" and "revenue district" have the meaning ascribed to such terms in Sections 121 and 122 of the Revenue and Taxation Code, except that "revenue district" shall not include the school district which owns the property with respect to which the payments are made.

The State Allocation Board may adopt such regulations and require such information and reports from school districts as

it deems necessary to carry out its responsibilities under this section. It shall be the duty of school districts to promptly comply with any such regulations and requirements of the board.

CHAPTER 1241

An act to amend Sections 54774, 54782.6, 54850, 54853, 54854, 54855, and 54863 of, and to add Section 54782.7 to, the Government Code, relating to local agency formation commissions.

[Approved by Governor October 22, 1971. Filed with Secretary of State October 22, 1971.]

The people of the State of California do enact as follows:

SECTION 1. Section 54774 of the Government Code is amended to read:

54774. Among the purposes of a local agency formation commission are the discouragement of urban sprawl and the encouragement of the orderly formation and development of local governmental agencies based upon local conditions and circumstances. One of the objects of the local agency formation commission is to make studies and to obtain and furnish information which will contribute to the logical and reasonable development of local governments in each county and to shape the development of local governmental agencies so as to advantageously provide for the present and future needs of each county and its communities.

In addition to its other powers the local agency formation commission shall initiate and make studies of existing governmental agencies. Such studies shall include but shall not be limited to inventorying such agencies and determining their maximum service area and service capacities. In conducting such studies, the commission may ask for land use information, studies, and plans of cities, counties, and districts. Cities, counties, and districts shall comply with the request of the commission for such information and the commission shall make its studies available to cities, counties, and districts. In making these studies, the commission may cooperate with the county planning commissions.

In order to carry out its purposes and responsibilities for planning and shaping the logical and orderly development and coordination of local governmental agencies so as to advantageously provide for the present and future needs of the county and its communities, the local agency formation commission shall develop and determine the sphere of influence of each local governmental agency within the county. As used in this section "sphere of influence" means a plan for the probable ultimate physical boundaries and service area of a local governmental agency. In determining the sphere of in-

fluence of each local governmental agency the commission shall consider:

(a) The maximum possible service area of the agency based upon present and possible service capabilities of the agency.

(b) The range of services the agency is providing or could provide.

(c) The projected future population growth of the area.

(d) The type of development occurring or planned for the area, including, but not limited to, residential, commercial, and industrial development.

(e) The present and probable future service needs of the area.

(f) Local governmental agencies presently providing services to such area and the present level, range and adequacy of services provided by such existing local governmental agencies.

(g) The existence of social and economic interdependence and interaction between the area within the boundaries of a local governmental agency and the area which surrounds it and which could be considered within the agency's sphere of influence.

The commission shall periodically review and update the spheres of influence developed and determined by them.

The spheres of influence shall be used by the commission as a basis for regular decisions on proposals over which it has jurisdiction. The commission may recommend governmental reorganizations to particular agencies in the county, using the spheres of influence as the basis for such recommendations. Such recommendations shall be made available, upon request, to other governmental agencies or to the public.

The commission, or the board of supervisors on behalf of the commission, is authorized to apply for or accept, or both, any financial assistance and grants-in-aid from public or private agencies or from the state or federal government or from a local government.

SEC. 2. Section 54782.6 of the Government Code is amended to read:

54782.6. The commission of any county shall be enlarged to seven members if, pursuant to Article 4 (commencing with Section 54850) of this chapter, the commission of any county (i) orders representation of special districts upon the commission and (ii) adopts rules and regulations affecting the functions and services of special districts. In addition to the commission members selected pursuant to Sections 54780, 54781 and 54782, two commission members shall be selected by an independent special district selection committee to represent special districts in the county.

The independent special district selection committee shall consist of the presiding officer of the legislative body of each independent special district; provided, however, that in the event the presiding officer of an independent special district will be unable to attend a meeting of the independent special

district selection committee, the legislative body of the district may appoint one of its members to attend the meeting of the selection committee in the presiding officer's place. Such districts shall include districts located wholly within the county and those containing territory within the county representing 50 percent or more of the assessed value of taxable property of such district, as shown on the last equalized county assessment roll or rolls. Each member of the committee shall be entitled to one vote for each independent special district of which he is the presiding officer and members representing a majority of the eligible districts shall constitute a quorum.

The executive officer shall call and give written notice of all meetings of the members of the selection committee. A meeting shall be called and held (i) whenever a vacancy exists among the members or alternate members representing independent special districts upon the commission or (ii) upon receipt of a written request by one or more members of the selection committee representing districts having 10 percent or more of the assessed value of taxable property within the county, as shown on the last equalized county assessment roll.

The selection committee shall appoint two regular members and two alternate members to the commission; the members so appointed shall be elected or appointed special district officers residing within the county, provided, however, that the members so appointed shall not be members of the governing body of a city or county. If one of the regular district members is absent from a commission meeting, disqualifies himself from participating in a meeting or is automatically disqualified from participating therein, the alternate district member is authorized to serve and vote in his place for that meeting. When the commission is considering any proposal affecting the district for which the regular member is a special district officer, such member is automatically disqualified from participating in proceedings of the commission with respect to the proposal and the alternate member shall serve and vote in his place upon such proposal.

SEC. 3. Section 54782.7 is added to the Government Code, to read:

54782.7. When a commission is enlarged to seven members as provided in Section 54782.6, the public members appointed pursuant to Section 54780, 54781, or 54782 shall thereafter be appointed by members of the commission representing cities, counties and special districts. Such appointments shall be made at the times and in the manner provided in Section 54783.

SEC. 4. Section 54850 of the Government Code is amended to read:

54850. The commission may take proceedings pursuant to this article for the adoption, amendment or repeal of rules and regulations affecting the functions and services of special districts within the county and for representation of special districts upon the commission. Such proceedings may be initiated either by the commission or by independent special districts

within the county. If any such rules and regulations are adopted and affect the functions or services provided or authorized to be provided by law by special districts within the county, then so long as such rules and regulations remain in effect special districts shall be represented by members appointed to the commission.

SEC. 5. Section 54853 of the Government Code is amended to read:

54853. Either the commission or the legislative body of any independent special district or districts within a county may adopt a resolution initiating proceedings.

(a) If a resolution proposes representation of special districts upon the commission, it shall also request the adoption of rules and regulations, as designated in Section 54851, affecting the functions and services of special districts within the county.

(b) If a resolution proposes only the adoption, amendment or repeal of rules and regulations affecting the functions and services of special districts, it shall request either that the commission:

(1) Consider the proposal without reference to a special district advisory committee, in which case the resolution shall contain the text of the rules and regulations proposed to be adopted, amended or repealed; or,

(2) Refer the proposal to a special district advisory committee for study, report and recommendation, in which case the resolution shall generally describe the nature of the rules and regulations proposed to be amended, adopted or repealed and, if then available, shall refer to a text on file with the secretary of the district for a detailed description thereof.

SEC. 6. Section 54854 of the Government Code is amended to read:

54854. Minor changes in any existing rule and regulation affecting special districts may be ordered by the commission, without adoption of a resolution of intention, notice and hearing, or reference to a special district advisory committee, provided, that the commission makes a determination that such changes will not substantially affect the functions and services of any special district subject to such rules and regulations and such determinations as concurred in by both commission members appointed to represent special districts.

SEC. 7. Section 54855 of the Government Code is amended to read:

54855. Whenever the commission, or the independent special districts, as the case may be, have complied with the applicable provisions of Sections 54853, 54853.1, 54853.2, and 54853.5, the commission shall adopt a resolution of intention pursuant to this section. The resolution of intention shall:

(a) State whether the proceedings are initiated by the commission or by an independent special district or districts, in which case, the names of any such districts shall be set forth.

(b) If the resolution of intention proposes only the adoption, amendment or repeal of rules and regulations affecting the functions and services of special districts, it shall state either that the commission proposes:

(1) To consider the proposal without reference to a special district advisory committee, in which case the resolution shall contain the text of the rules and regulations proposed to be adopted, amended or repealed.

(2) To refer the proposal to a special district advisory committee for study, report and recommendation, in which case the resolution shall generally describe the nature of the rules and regulations proposed to be amended, adopted or repealed and, if then available, shall refer to a text on file with the executive officer for a detailed description thereof.

In addition, the resolution of intention adopted pursuant to this subsection shall also fix a time not less than 15 nor more than 35 days after the adoption of the resolution of intention, and the place of hearing by the commission on the question of whether the proposal made by the resolution should be disapproved, approved and ordered without reference to a special district advisory committee, or referred to a special district advisory committee for study, report and recommendation to the commission.

(c) If the resolution of intention proposes representation of special districts on the commission, it shall state that the commission proposes to refer the proposal to a special district advisory committee and the commission shall immediately order the proposal referred thereto pursuant to Section 54858.

SEC. 8. Section 54863 of the Government Code is amended to read:

54863. Any resolution approving the report and recommendation of a special district advisory committee, either as filed or as changed by the commission, shall order

(a) The adoption, amendment or repeal of rules and regulations, in accordance with the recommendations of the approved report.

(b) The chairman of the commission to call and give notice of a meeting of the independent special district selection committee to be held within 15 days after the adoption of the resolution in order to select special district representations on the commission pursuant to Section 54782.6.

(b) The commission shall establish specific reporting provisions for Section 441.2 hospitals that receive a preponderance of their revenue from associated comprehensive group-practice prepayment health care service plans. Such hospitals shall be authorized to utilize established accounting systems, and to report costs and revenues in a manner which is consistent with the operating principles of such plans and with generally accepted accounting principles. When hospitals that receive the preponderance of their revenue from associated comprehensive group-practice prepayment health care service plans are operated as units of a coordinated group of hospitals under common management, they shall be authorized to report as a group rather than as individual institutions, and as a group shall submit a consolidated balance sheet, income and expense statement and statement of source and application of funds for such group of hospitals; except, that cost data shall be reported for each individual institution.

The commission shall adopt comparable modifications to the financial reporting requirements of this part for county hospital systems consistent with the purposes of Section 441.

441.17. The commission shall hold public hearings on the proposed systems of accounting and uniform reporting prepared under Section 441.15 or on any changes in such systems which are subsequently proposed by the commission not less than 30 or more than 60 days after the date on which the proposed systems or changes therein are distributed to Section 441.2 hospitals, at which time representatives of the hospitals and other interested persons shall be entitled to appear and give testimony in all relevant matters and to propose such modifications or alterations in the proposed systems or changes therein as are provided for under Section 441.16. Subject to modifications or alterations approved by the commission within 30 days of such hearing, the systems of hospital accounting approved by the commission pursuant to Section 441.15 shall be implemented by all Section 441.2 hospitals for all annual accounting periods beginning on or after the first day of the 15th month next following the end of the calendar month in which the revised regulations are published.

In carrying out the provisions of this section and of Sections 441.15 and 441.16, the commission shall, to the fullest extent practicable, structure the accounting and reporting systems thereby provided for so as to establish and differentiate costs incurred for patient-related services rendered by Section 441.2 hospitals, as distinguished from those incurred with reference to educational, research, and other non-patient-related activities, including, but not limited to, charitable activities, of such hospitals.

441.18. Every organization which operates, conducts, or maintains a Section 441.2 hospital, and the officers thereof, shall make and file with the commission, within four months

after the close of the organization's calendar or fiscal year for all annual accounting periods to which the systems of accounting and uniform reporting approved under Section 441.17 are made applicable thereby, all of the following reports on forms specified by the commission which shall be in accord with such systems of accounting and uniform reporting all of the following:

(a) A balance sheet detailing the assets, liabilities, and net worth of the hospital at the end of its fiscal year.

(b) A statement of income, expenses, and operating surplus or deficit for the annual period ending on the balance sheet date.

(c) A statement detailing the source and application of funds expended by the hospital for the period encompassed by the income statement required by subdivision (b).

(d) A statement reporting the information required in subdivisions (a), (b), and (c) of this section for each separately licensed Section 441.2 hospital operated, conducted, or maintained by the reporting organization.

(e) A report of hospital expenditures which allocates the costs of nonrevenue-producing departments of a hospital to the other nonrevenue- and revenue-producing centers which they serve, similar to the "step-down" or "double-apportionment" methods of cost finding used in reporting hospital cost experience under Title XVIII of the Federal Social Security Act. Any Section 441.2 hospital which participates in Title XVIII as a provider of hospital care services may elect to file the cost data reports required under the regulations of the Social Security Administration in its administration of Title XVIII in place of the report required by the commission under this subdivision.

(f) The report required by subdivision (e) shall be accompanied by an accurate and sufficiently detailed statistical report containing data taken from the hospital's basic accounts and patient statistics as maintained under one of the systems approved in accordance with Section 441.17, which identifies costs related to categories, types or units of hospital care services delivered to patients by the operating departments of the hospital in accordance with a list of such services provided by the commission acting under the provisions of Section 441.15. Any Section 441.2 hospital which participates in Title XVIII of the Federal Social Security Act may elect to file the statistical reports covering the provision of such hospital care services required under Title XVIII in place of the report required by the commission under this subdivision.

(g) Hospitals described in subdivision (b) of Section 441.16 shall file such statements and reports, not inconsistent with subdivision (b) of Section 441.16, as the commission may reasonably require for the annual financial reporting period of such hospitals or group of hospitals.

The commission shall adopt forms of authentication for use by hospital officers or licensed accountants preparing re-

ports under this section stating that each such officer or accountant making the authentication believes that to the extent of his knowledge and information each statement in the report is true.

441.19. Whenever, upon the recommendation of the executive secretary of the commission, and the approval, certified in writing, of a majority of commission members, a further investigation is deemed necessary or desirable to verify the accuracy of the information in the reports made by hospitals under this part, the executive secretary shall have the authority to make any necessary further examination of the hospital's records and accounts and to devote such necessary extra attention to the conduct of its affairs as the commission may by regulation provide. Such further examinations under this section may include, but are not limited to, making a full or partial audit of all such records and accounts.

The costs incurred in conducting any examinations or inquiries provided for pursuant to this section shall be borne by the commission. However, when the executive secretary determines that the original reports were deliberately falsified or that hospital officials were aware of untrue statements contained therein, subject to the approval of a majority of commission members, the hospital shall be responsible for all such costs, and shall, in addition, be liable for a civil penalty of twice the amount of such costs. Such civil penalty shall be assessed and recovered in a civil action brought in the name of the people of the State of California by the commission. A hospital which wishes to contest the determination of the executive secretary shall have the right to a hearing conducted in accordance with the provisions of Section 442.5.

442. (a) The commission shall maintain a file of all the reports filed under Sections 441.18 and 442.1 at its Sacramento office. Subject to such rules as the commission may prescribe, such reports shall be produced and made available for inspection upon the demand of any person.

(b) Copies certified by the commission as being true and correct copies of reports properly filed with the commission pursuant to Section 441.18, together with summaries, compilations, or supplementary reports prepared by the commission pursuant to Section 442.1, shall be introduced as evidence, where relevant, at any hearing, investigation, or other proceeding held, made or taken by any state, county, or local governmental agency, board, or commission which participates as a purchaser of hospital care services pursuant to the provisions of a publicly financed state or federal health care program. Each such state, county, or local governmental agency, board, or commission shall weigh and consider the reports made available to it pursuant to the provisions of this subdivision in its formulation and implementation of policies, regulations, or procedures regarding reimbursement methods and rates in the administration of such publicly financed programs.

442.1. In addition to its other responsibilities under the provisions of this part, the commission shall prepare and file such summaries, compilations, or other supplementary reports based on the information filed with the commission pursuant to Section 441.18 as it determines will advance the purposes of this part. All such summaries, compilations, and reports shall be open to public inspection and shall be made available to public agencies in accord with the provisions of Section 442 of this part.

442.2. The commission, with the approval of the advisory council, or the advisory council pursuant to its direction, in addition to their other duties under this part, may initiate and conduct such other studies as it determines will advance the purposes of this part.

Specifically included in the authority granted by this section are studies of the practicability of various methods of implementing "cost-effectiveness programs" for the delivery of health care services. The commission may prepare and publish compilations, recommendations or any other information or conclusions derived from studies undertaken pursuant to this section.

442.3. Any Section 441.2 hospital which does not file any report required by Section 441.18 with the commission as provided therein is liable for a civil penalty of one hundred dollars (\$100) a day to be assessed and recovered in a civil action brought in the name of the people of the State of California by the commission for each day the filing of such report with the commission is delayed, unless an extension is granted in accord with the guidelines and procedures established by the commission pursuant to Section 442.4. Any money which is received by the commission pursuant to this section shall be paid into the commission's operating fund which is established by Section 442.10.

442.4. The commission shall, by regulation, establish guidelines and procedures to enable all institutions subject to the provisions of this part to request reasonable extensions of time in which to file any or all of the reports required by Section 441.18. The regulations shall provide for the grant of such extensions by the executive secretary in cases where the institution requesting them can show good and sufficient cause for the extension.

Any institution denied an extension under this section may petition the commission for a hearing on appeal to review the action of the executive secretary in refusing its request for the extension in accord with the provisions of Section 442.5; but the filing of a petition pursuant to that section shall not, unless the appeals committee reverses the executive secretary, limit the continued accrual of the charges levied under this section against a hospital which fails to meet the deadline for filing reports established by Section 441.18.

442.5. A petition requesting a hearing to review any action taken by the commission or the executive secretary pursuant to

this part shall be filed with the commission within 15 days of the date on which the institution or person aggrieved was notified of the action with respect to which the review is requested and shall state the grounds on which the petitioner bases his appeal. A hearing on the petition, at which the petitioner may be represented by counsel, shall be held within 45 days of the date on which the petition for appeal was filed, before an appeals committee composed of three members of the commission chosen by the chairman for such purpose. The decision of a majority of the committee, which shall be rendered in the form of a written memorandum of decision filed in the commission's office, shall be final, subject to the right of review by a court of competent jurisdiction in accordance with the provisions of Chapter 2 (commencing with Section 1084) of Title I of Part 3 of the Code of Civil Procedure.

442.6. To promote economy, avoid duplication of effort, and make use of available expertise, the commission, in carrying out the duties of the new state functions delegated to it by the Legislature pursuant to this part, shall, when such agreements will aid the commission in carrying out its duties under this part, contract to the extent feasible with private persons and nongovernmental and governmental organizations and agencies which are experienced in the collection and evaluation of information regarding hospital accounting and cost-reporting procedures, the efficiency of various health care delivery systems, and other related fields of knowledge pertaining to the hospitals subject to the provisions of this part. The provisions of this section shall not be construed to limit the authority granted the commission under Section 441.9.

No person, organization, or agency which enters a contract pursuant to the provisions of this section shall, without the prior written approval of the commission, release or publish any information made available to it in its performance under such a contract, nor shall such person, organization, or agency use or employ any information obtained by it in connection with such participation for any purpose or purposes other than carrying out its duties and obligations under such contract unless permission to use the information for such purpose or purposes is specifically included in the contract of participation and approved by a majority of commission members. The prohibitions of this paragraph do not, however, apply to information which has been received or developed by a contracting person, organization, or agency in performing services or functions separate and distinct from those carried out under contract with the commission.

442.7. In order to assist the commission in the performance of its duties pursuant to this part, there is hereby created an Advisory Council to the California Hospital Commission, to be composed of all of the following:

(a) Three members who shall represent consumers of hospital care services; one of whom shall be a member of and represent a labor union organized under the provisions of

Chapter 7 of Title 29 of the United States Code; and one of whom shall be an accountant licensed under Chapter 1 (commencing with Section 5000) of Division 3 of the Business and Professions Code with at least five years' experience as an accountant or financial officer with responsibility for auditing and supervising the financial affairs of one or more hospitals subject to the provisions of this part.

(b) Five members who shall be broadly representative of the interests of investor-owned, county, university, district, and not-for-profit hospitals which are subject to the provisions of this part.

(c) One member appointed by, and to serve at the pleasure of, the Director of Public Health.

(d) One member appointed by, and to serve at the pleasure of, the Director of Mental Hygiene.

The three members who are to represent consumers of health care services shall be appointed directly by the commission for a term of three years. The members provided for under subdivision (b) shall be appointed by the commission for a term of three years as follows:

Within 30 days after this section goes into effect, and thereafter within 30 days after any vacancy occurs, any organization, association, or institution whose members may be qualified to fill the vacancy or vacancies then existing may submit to the commission the names of persons qualified to represent it on said advisory council, from which such names the commission shall make its appointments.

No member shall be appointed to a position on the council for more than two consecutive full terms.

442.8. The advisory council shall have a chairman appointed by the commission, who shall be one of the three public members appointed under subdivision (a) of Section 442.7, a vice chairman and secretary elected by the advisory council, and shall meet at least two times each year and at other times on the call of the commission or the advisory council chairman, or on the written request of three or more members. It shall be the responsibility of the council, when requested by the commission, to advise the commission concerning any and all matters coming within the purview of this part and the enforcement thereof.

442.9. The members of the advisory council shall serve without compensation, but shall be reimbursed for any actual and necessary expenses incurred in connection with their duties as members of the council.

442.10. For the purposes of funding such contracts of the commission as are authorized by the provisions of this part and for meeting the costs of the commission in carrying out its duties in the administration thereof, fees shall be collected by the State Department of Public Health as follows and shall be deposited in the California Hospital Commission Fund which is hereby established:

(a) Every Section 441.2 hospital is hereby charged a special fee of 0.02 of 1 percent of the hospital's gross operating cost for the provision of health care services for its last fiscal year ending on or before June 30, 1971. The fee shall be due on January 1, and delinquent on January 31, 1972, and shall be collected by the State Department of Public Health concurrent with applications for licensure, except that institutions included under Section 441.2 which are licensed pursuant to Chapter 1 (commencing with Section 7000) of Division 7 of the Welfare and Institutions Code shall pay such fee to the Director of Mental Hygiene who shall transmit the funds received to the Director of Public Health. Institutions included in Section 441.2 which are exempt from licensure pursuant to the provisions of Section 1415 shall pay the fee required by this subdivision to the Department of Public Health within the time schedules provided in this section.

(b) For 1973 and every year thereafter, the State Department of Public Health shall, concurrent with applications for licensure, set, and charge to, and collect from all Section 441.2 hospitals a special fee, which shall be due on January 1 and delinquent on January 31 of each year beginning with the year 1973, of not more than 0.02 of 1 percent of the hospital's gross operating cost for the provision of health care services for its last fiscal year which ended on or before June 30 of the preceding calendar year. Each year the Director of Public Health shall, after consultation with the commission, establish the fee to produce revenues equal to the appropriation for these purposes in the budget act for the current fiscal year. The director shall immediately notify the Director of Mental Hygiene of the amount of such fee and the Department of Mental Hygiene shall collect such fee from all hospitals licensed by the Department of Mental Hygiene pursuant to Chapter 1 (commencing with Section 7000) of Division 7 of the Welfare and Institutions Code which are included within the definition of Section 441.2. All funds received by the Department of Mental Hygiene from such fees shall be transmitted to the Director of Public Health. Institutions included in Section 441.2 which are exempt from licensure pursuant to the provisions of Section 1415 shall pay the fee required by this subdivision to the State Department of Public Health within the time schedules provided in this section.

(c) Any amounts raised by the collection of the special fees provided for by subdivisions (a) and (b) of this section which are not required to meet appropriations in the budget act for the current fiscal year shall be available to the commission in succeeding years, when appropriated by the Legislature, for expenditure under the provisions of this part and shall reduce the amount of such special fees which the State Department of Public Health is authorized to set and charge.

(d) No hospital against which the fees required by this section are charged shall be issued a license or have an existing

license renewed unless the fees are paid ; nor shall any hospital, which is exempt from licensure pursuant to the provisions of Section 1415, but is a Section 441.2 hospital, be permitted to continue to operate without the payment of the fees required by this section. The commission may bring an action to enjoin the violation or threatened violation of this subdivision in the superior court in and for the county in which the violation occurred or is about to occur. Any proceeding under the provisions of this subdivision shall conform to the requirements of Chapter 3 (commencing with Section 525) of Title 7 of Part 2 of the Code of Civil Procedure, except the commission shall not be required to allege facts necessary to show or tending to show lack of adequate remedy at law or to show or tending to show irreparable damage or loss.

SEC. 2. There is hereby appropriated as of January 31, 1972, from the California Hospital Commission Fund established pursuant to the provisions of Section 442.10 of the Health and Safety Code as enacted by Section 1 of this act, the sum of five hundred thousand dollars (\$500,000) to the California Hospital Commission for expenditure by the commission during the 1971-1972 fiscal year in carrying out the provisions of Part 1.7 (commencing with Section 440) of Division 1 of the Health and Safety Code as enacted by Section 1 of this act.

The amount to be transferred to any county for a fiscal year may be increased or decreased by the Director of Agriculture to provide that insofar as such transferred unclaimed refundable gas tax funds for apportionment to the counties are available, no county shall receive smaller combined apportionments of gas taxes and unclaimed refundable gas taxes than such county would have received had the gas taxes been apportioned without the transfer required by Section 8352.5, as determined by the Director of Agriculture, except that the amount of unclaimed refundable gas tax funds to be transferred to any county for a fiscal year may be increased or decreased by the Director of Agriculture to compensate for incorrect previous transfers to that county.

(4) Such money transferred during the six-month period, July 1, 1970 to December 31, 1970, is hereby appropriated for the purpose provided by subdivision (1) of this section, and the remainder of the money so transferred is hereby appropriated to be paid to the counties for the purposes and as provided by subdivision (3) of this section. After payment of refunds therefrom and after making the deductions authorized by Section 11003 and reserving such amount as is determined by the Pooled Money Investment Board to be necessary to meet the transfers ordered or proposed to be ordered pursuant to Section 16310 of the Government Code, at least 90 percent of the balance of all motor vehicle license fees and any other money appropriated by law for expenditure pursuant to this section and deposited to the credit of the Motor Vehicle License Fee Account in the Transportation Tax Fund and remaining unexpended therein at the close of business on the last day of the calendar month shall be transferred to the credit of a special account in the General Fund and allocated by the Controller by the 10th day of the following month in the following manner:

(a) Fifty percent thereof shall be paid to the cities and counties of this state in the proportion that the population of each city or city and county bears to the total population of all cities and cities and counties in this state, as determined by the Controller. For the purpose of this subdivision the population of each city or city and county is that determined by the last federal census. In the case of a city incorporated subsequent to the last census, or in the case of an inhabited unincorporated territory being annexed to a city subsequent to the last census, the Controller shall ascertain the population of the city or the annexed territory by multiplying the number of registered electors therein by three. In the case of uninhabited unincorporated territory being annexed to a city subsequent to the last census, the Controller shall ascertain the population of the annexed territory, by the use of any federal decennial or special census or estimate pur-

Structures maintained or allowed to remain on property which has been acquired or is acquired in the future for future highway needs shall be maintained in conformance with standards established in the building and safety ordinances of the city or county having jurisdiction. The standards to which such structure shall be made to conform are those standards, except for such variances as may be applicable to the structure when acquired, of the city or county having jurisdiction which are in effect at the time of acquisition by the department.

The department is authorized to lease any lands which are held for state highway purposes and are not presently needed therefor on such terms and conditions as the director may fix and to maintain and care for such property in order to secure rent therefrom. Twenty-four percent of all rent so received shall be deposited to the credit of the Highway Properties Rental Fund, which is continued in existence as the Highway Properties Rental Account in the Transportation Tax Fund, except that any rent required under the California Toll Bridge Authority Act or any bond indenture executed under said act to be deposited in some other fund shall be deposited in such other fund. The balance of such rent shall be deposited to the credit of the State Highway Account in the State Transportation Fund.

Whenever it is determined by the Department of Public Works that any rental revenue collected under the provisions

of this section represents overpayment or payment in duplicate, that department may make refund of such overpayment or payment in duplicate from the Highway Properties Rental Account in the Transportation Tax Fund and the State Highway Account in the State Transportation Fund.

182. The "State Highway Fund" is continued in existence as the State Highway Account in the State Transportation Fund. Any reference in any law or regulation to the State Highway Fund shall be deemed to refer to the State Highway Account in the State Transportation Fund. With the approval of the Department of Finance as to state appropriations, there shall be transferred to, or deposited to, the credit of the State Highway Account all money appropriated, contributed or made available from any source, including sources other than state appropriations, for expenditure on work within the powers and duties of the department, including but not limited to services, investigations, surveys, experiments, reports, right-of-way acquisitions, major and minor construction, maintenance, improvements and equipment, as authorized by the state agency for which such an appropriation is made, or as to funds from sources other than state appropriations, as may be authorized by written agreement between the contributor or contributors of such funds and the department.

Money so transferred or deposited is available for expenditure by the department for the purposes for which appropriated, contributed or made available, without regard to fiscal years and irrespective of the provisions of Section 16304 of the Government Code. The department may withdraw from the account for use in work for other public agencies, local, state or federal, such sums as may be necessary for such work where the money to be paid by such other agencies is not deposited in the account in advance of the work being done.

SEC. 15. Section 186.95 of the Streets and Highways Code is amended to read:

186.95. The Street and Highway Disaster Fund is continued in existence as the Street and Highway Disaster Account in the State Transportation Fund, to consist of the moneys referred to in Section 186.9.

Any reference in any law or provision to the Street and Highway Disaster Fund shall be deemed to refer to the Street and Highway Disaster Account in the State Transportation Fund.

The moneys deposited to the credit of the Street and Highway Disaster Account, which are appropriated by Section

186.9, shall be available for expenditure, transfer, and allocation, as follows:

(a) The money transferred to the account pursuant to subdivision (a) of Section 186.9 shall be available for allocation by the State Allocation Board for the purposes of the Emergency Flood Relief Law (Article 6 (commencing with Section 54150), Chapter 5, Part 1, Division 2, Title 5 of the Government Code), including the purposes provided for in Section 54160 of the Government Code, for damage or destruction to local streets, roads and bridges from storm and flood or flood conditions which have occurred between December 1, 1964, and June 30, 1965. Local agencies shall apply to the State Allocation Board for an allocation of funds on or before April 1, 1966. Notwithstanding any provisions to the contrary in the Emergency Flood Relief Law, the funds allocated pursuant to this subdivision may be used for the purpose of repairing, restoring or replacing such local streets, roads or bridges to present-day standards and to accommodate present traffic.

(b) The money deposited to the credit of the account including the money received from the federal government as reimbursement to any city or county for the repair or restoration of any street, road or bridge which has been or will be repaired or restored in part or in whole by funds allocated pursuant to this section shall be available for allocation by the State Allocation Board for the purposes of the Emergency Flood Relief Law for the repair or restoration of any local street, road or bridge damaged or destroyed by any disaster to present-day standards and to accommodate present traffic; and the use of such money shall not be limited to the repair or restoration of streets, roads or bridges damaged or destroyed by storm and flood or flood conditions; provided, that no such money shall be allocated for expenditure in connection with any disaster, except the damage or destruction to local streets, roads or bridges damaged or destroyed by storm and flood or flood conditions which have occurred between December 1, 1964, and June 30, 1965, unless and until specifically authorized by the Legislature.

(c) The money deposited to the credit of the account received from the federal government as reimbursement to the state for the repair or restoration of any state highway which has been or will be repaired or restored in part or in whole by funds transferred to the credit of the State Highway Account in the State Transportation Fund pursuant to subdivision (b) of Section 186.9 or by funds expended pursuant to this section shall be available for transfer by the Department of Finance to the State Highway Account for allocation by the California Highway Commission and expenditure by the Department of Public Works for the repair or restoration of any state highway damaged or destroyed by any disaster to present-day standards and to accommodate present traffic.

(d) Any money in the account not necessary for immediate use for the purposes otherwise specified in this section shall be available for transfer by the Department of Finance to the credit of the State Highway Account for allocation and expenditure for construction of state highways, but any amount so transferred shall, after receipt by the Department of Public Works of written demand from the Department of Finance, be returned from the State Highway Account to be credited to the Street and Highway Disaster Account upon determination by the Department of Finance of the necessity of such money for the purposes of this section within a period of not to exceed six months in such installments as may be agreed upon by the Department of Finance and the Department of Public Works.

(e) The sum of two million six hundred ninety-two thousand two hundred fifty dollars (\$2,692,250) of the cash balance of the money in the account under subdivision (c) shall be transferred by the Department of Finance to subdivision (b) for expenditure pursuant to that subdivision in such installments and at such times as may be determined to be necessary by the Department of Finance. In addition to the amount provided for in the preceding sentence, if the Department of Finance at any time determines that the estimated unallocated balance of the account under subdivision (b) of this section is insufficient, together with the amount provided in the preceding sentence, to carry out the purposes authorized under subdivision (b), and the Department of Public Works determines that a portion of the estimated unallocated balance of the account under subdivision (c), over and above the amount provided for in the preceding sentence, is not immediately needed for carrying out the purposes of subdivision (c), the Department of Finance may transfer such portion to subdivision (b) for expenditures pursuant to that subdivision. Any amounts transferred pursuant to this subdivision shall not be required to be repaid.

(f) Notwithstanding any other provision of this section, money credited to the account under subdivision (b) may be allocated by the State Allocation Board for expenditure pursuant to Section 54155 of the Government Code.

(g) Income from investment of moneys deposited to the credit of the account and all payments by local agencies in reimbursement of moneys disbursed from the account, including deferred payments with interest, pursuant to Government Code Sections 54160 and 54161, and all other moneys deposited therein, pursuant to law, shall be available for expenditure, transfer and allocation pursuant to this section.

On demand of the Department of Public Works from time to time, the amounts demanded, not exceeding ten million dollars (\$10,000,000) in the aggregate, shall, on order of the Controller, be transferred to the State Highway Account in the State Transportation Fund from such "available money" and shall be available for the acquisition of properties to constitute rights-of-way for state highway purposes. When approved by the director, the identity of a peace officer who submits a claim need not be disclosed if the disclosure might materially prejudice the investigation.

(b) The preservation and protection of Mendocino, a task gallantly begun by its citizens, will afford Californians a

unique and important opportunity to study and enjoy the cultural origins of this great state.

(c) The Department of Parks and Recreation, in its report to the Legislature entitled "Mendocino Headlands and Big River Beach," has accurately determined that the historical value of Mendocino is threatened by incompatible development on private lands along the adjoining headlands and north shore of Big River.

(d) The department has, in the same report, wisely recommended that the Mendocino Headlands and Big River Beach be included in the state park system in order to safeguard the historical integrity of the town of Mendocino.

SEC. 2. The Legislature further finds and declares, as follows:

(a) The Russian River estuary and the surrounding lands comprise one of the most scenic locations along the northern California coast. It is an area of great natural beauty and is comparatively undeveloped. The esthetic values were recognized by Sonoma County officials when in recreation plans published in 1964 they set aside the Jenner-Russian River area as a "conservation area".

(b) Penny Island is unique in its location within the Russian River estuary and is an important part of the esthetic scene in addition to providing wildlife habitat.

(c) The protection of the north beach and Penny Island at the mouth of the Russian River, a task begun by the citizens of Sonoma County, will preserve for all Californians one of the few remaining coastal areas in its near-native state.

(d) Because of the unique scenic beauty of the Russian River estuary and the surrounding lands, the north beach area and Penny Island should be included in the state park system in order to preserve such lands for future generations.

SEC. 3. Nothing in this act shall be construed to prevent or restrain the Department of Parks and Recreation from acquiring lands in the Mendocino Headland and Big River Beach and Flat areas in the vicinity of the town of Mendocino in Mendocino County and the north beach area and Penny Island situated at the mouth of the Russian River in Sonoma County for inclusion in the state park system, through land exchanges involving state-owned lands having an equal market value but lower public use or preservation value.

SEC. 4. Nothing in this act shall be construed to preclude the development of a small craft harbor or harbor of refuge at the mouth of the Russian River, including lands acquired by the state pursuant to this act.

SEC. 5. The Department of Parks and Recreation may, for the purposes of this act, receive and accept in the name of the people of the state gifts, donations, contributions, or bequests of money to be used in acquiring title to, or any interest in, real property, and may so receive and accept gifts, devices, grants, or other conveyances of title to, or any interest in, real property.

SEC. 6. Section 2.2A is added to the Budget Bill for the 1971-72 fiscal year enacted as the Budget Act of 1971 (Chapter 266, Statutes of 1971), to read:

CAPITAL OUTLAY SECTION

Sec. 2.2A. The following sums of money, or so much thereof as may be necessary, are hereby appropriated for expenditure during the 1971-72, 1972-73, and 1973-74 fiscal years.

CHAPTER 1250

An act to amend Section 332 of, and to add Section 3951 to, the Fish and Game Code, relating to elk.

[Approved by Governor October 27, 1971. Filed with Secretary of State October 27, 1971.]

The people of the State of California do enact as follows:

SECTION 1. Section 332 of the Fish and Game Code is amended to read:

332. The commission may determine and fix the area or areas, the seasons and hours, the bag and possession limit, and

the number of elk that may be taken under such rules and regulations as the commission may prescribe from time to time. The commission may not authorize the taking of tule elk until the total statewide population of such mammals exceeds 2,000, or it is hereafter determined by the Legislature, pursuant to the reports required by Section 3951, that suitable areas cannot be found in California to accommodate such a population in a healthy condition. Only a resident of the State of California over the age of 16 years and possessing a valid hunting license may obtain a license for the taking of elk.

The fee for the license may be determined by the commission but not to exceed fifty dollars (\$50). The fees shall be deposited in the Fish and Game Preservation Fund and shall be expended in addition to money budgeted for salaries of the department, for the expense of enforcing the provisions of this section and the processing of the applications.

SEC. 2. Section 3951 is added to the Fish and Game Code, to read:

3951. The commissioner may authorize the taking of tule elk pursuant to Section 332. The department shall relocate tule elk in areas suitable to them in the State of California and shall cooperate to the maximum extent possible with federal and local agencies and private property owners in relocating tule elk in suitable areas under their jurisdiction or ownership.

The number of tule elk in the Owens Valley, presently the major habitat of such mammals, shall not be permitted to increase beyond 490, or any greater number hereafter determined by the department to be the Owens Valley's holding capacity in accordance with game management principles. However, tule elk from the Owens Valley may be relocated to other suitable areas within the state at any time to meet the department's responsibility under this section.

Department personnel may cull sick or inferior tule elk, but only when this is done for the protection, enhancement, and healthy increase of the species. Any such animal or animals so destroyed, shall be the subject of a written report to the Fish and Game Commission at its meeting immediately following such action, detailing the reasons therefor.

The Director of Fish and Game shall submit a report describing progress made in relocating tule elk, as herein set forth, to the Governor for transmittal to the Legislature no later than the fifth legislative day of the 1974 Regular Session of the Legislature and every two years thereafter. Such report shall also include, but not be limited to:

- (1) The population status of tule elk in California;
- (2) Age and sex information;
- (3) Condition of their ranges; and
- (4) Other pertinent information.

CHAPTER 1251

[Approved by Governor October 27, 1971. Filed with Secretary of State October 27, 1971.]

SECTION 1. Section 18252.2 of the Education Code is amended to read:

18252.2. A qualified instructor is one who has met the requirements prescribed by Section 18252.1 and holds the general secondary credential, the special secondary credential in public safety and accident prevention including driver education and driver training, a standard designated subjects teaching credential in public safety and accident prevention including driver education and driver training, or a standard teaching credential with specialization in secondary teaching with a major or minor preparing the holder for the teaching of driver education and driver training.

The Department of Motor Vehicles shall notify the State Department of Education immediately upon suspension or revocation of a qualified instructor's driver's license or upon placing a qualified instructor on probation to the Department of Motor Vehicles as a negligent operator. The Department of Education and the Department of Motor Vehicles shall jointly determine the details regarding procedures for notification. No reimbursements shall be provided to a school district, a county superintendent of schools, the California Youth Authority, or the State Department of Education for students taught by an instructor while his driver's license is suspended or revoked, or while he is on probation to the Department of Motor Vehicles as a negligent operator, or while he is presumed pursuant to Section 12810 of the Vehicle Code to be a negligent operator, following notification by the State Department of Education to the school district, the county superintendent of schools, or the California Youth Authority, as the case may be, of such action.

SEC. 2. Section 18252.2 of the Education Code, as enacted by Chapter 557 of the Statutes of 1970, is amended to read:

18252.2. A qualified instructor is one who has passed an approved driver's instruction examination and holds a designated subjects credential or who holds a valid prior credential authorizing instruction in automobile driver education and driver training.

The Department of Motor Vehicles shall notify the State Department of Education immediately upon suspension or revocation of a qualified instructor's driver's license or upon placing a qualified instructor on probation to the Department of Motor Vehicles as a negligent operator. The Depart-

ment of Education and the Department of Motor Vehicles shall jointly determine the details regarding procedures for notification. SEC. 3. Section 1 of this act shall remain operative until January 1, 1973, or at such earlier date as the Commission for Teacher Preparation and Licensing may determine pursuant to Section 93 of Chapter 557 of the Statutes of 1970.

SEC. 4. Section 2 of this act shall become operative on January 1, 1973, or at such earlier date as the Commission for Teacher Preparation and Licensing may determine pursuant to Section 93 of Chapter 557 of the Statutes of 1970.

CHAPTER 1252

An act to amend Section 3 of, and to add Section 3.5 to, Chapter 1086 of the Statutes of 1970, and to amend Section 12.5 of, and to add Section 12.45 to, Chapter 138 of the Statutes of 1964, First Extraordinary Session, relating to tidelands and submerged lands and making an appropriation therefor.

[Approved by Governor October 27, 1971. Filed with Secretary of State October 27, 1971.]

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares that the City of Eureka has been lawfully granted tide and submerged lands in Humboldt Bay under statutory grants from the State of California as set forth in Chapter 82 of the Statutes of 1857, Chapter 438 of the Statutes of 1915, Chapter 187 of the Statutes of 1927, Chapter 225 of the Statutes of 1945, and Chapter 1086 of the Statutes of 1970 and has administered such lands in accordance with their terms.

The Legislature further finds and declares that the city has made excessively large contributions from its general municipal funds for the administration and improvement of such tide and submerged lands, that such contributions have been particularly large and burdensome to the city in performing its trusteeship responsibilities to establish and clear titles to the waterfront of Humboldt Bay and to prepare and implement

a comprehensive master plan for the development or redevelopment of the waterfront.

The Legislature further finds and declares that such expenditure of municipal funds in the administration and improvement of such tide and submerged lands is an extraordinary contribution in the case of the City of Eureka.

The Legislature further finds and declares that the action of the city in clearing and confirming titles to the waterfront and in effecting its planned development is in the best interest of the State of California and will benefit the people of the state generally by virtue of the creation of physical and visual public access to Humboldt Bay and the waterfront thereof and by the establishment of facilities for recreational, boating, beach and park, fishing, commercial and other uses authorized by such statutes, that it is unfairly burdensome to impose upon the city and its people the responsibility for such state-wide benefits, and that a fund should be established which will permit the city to continue its capable administration of such tide and submerged lands, which fund shall be composed of the sum of two hundred fifty thousand dollars (\$250,000) of the oil revenue and dry gas revenue payable to the State of California pursuant to Chapter 138 of the Statutes of 1964, First Extraordinary Session and present and future revenues from such tide and submerged lands.

SEC. 2. Section 3 of Chapter 1086 of the Statutes of 1970 is amended to read:

Sec. 3. The city shall establish the Humboldt Bay Fund in such manner as may be approved by the State Lands Commission and the city shall deposit therein all moneys received directly from, or indirectly attributable to, the granted tidelands in the city. An annual statement of financial condition and operations, to conform with such requirements as the State Lands Commission may prescribe, shall be submitted to the State Lands Commission each year by the city on or before September 30th of each year for the preceding fiscal year. All moneys received from the State Controller pursuant to Section 12.45 of Chapter 138 of the Statutes of 1964, First Extraordinary Session shall be deposited in the Humboldt Bay Fund and may be used by the city for the purposes for which revenues accruing from or out of the use of the granted tidelands may be used pursuant to the provisions of this act.

Prior to June 30, 1974, and prior to the end of each fiscal year thereafter, the city shall pay not less than twenty-five thousand dollars (\$25,000) from city tidelands trust revenues to the State Controller; provided, that the aggregate amount of such payments required to be made by the city shall not exceed the sum of two hundred fifty thousand dollars (\$250,000) together with interest on the unpaid balance thereof. All payments shall be applied first to accrued interest and, thereafter, to principal. Interest shall accrue at a rate for each fiscal year equal to the average of the net interest earnings to

the state on the investment of moneys in the Pooled Money Investment Account in the General Fund received during the period of the five fiscal years immediately preceding the fiscal year concerned, as determined by the State Controller. However, when the applicable average of the net interest costs to the state is not a multiple of one-tenth of 1 percent, the interest rate shall be the multiple of one-tenth of 1 percent next above the applicable average of the net interest costs.

In the event the city fails to make any payment required to be made hereby for any reason whatsoever, including, but not limited to, a deficiency of city tidelands trust revenues, the State Board of Equalization, upon the order of the State Controller, shall deduct the amount of that payment from the sales and use taxes to be paid to the city thereafter pursuant to Section 7204 of the Revenue and Taxation Code and shall pay the same to the State Controller.

All payments made by the city and the State Board of Equalization shall be considered as oil revenues and dry gas revenues payable to the State of California during the year it is received for the purposes of Section 12.5 of Chapter 138 of the Statutes of 1964, First Extraordinary Session, and shall be deposited in accordance with the provisions of that section.

For the purposes of Section 7 of this act, such amounts paid to the State Controller by the city shall be considered as current and accrued operating costs and expenditures directly related to the operation and maintenance of tideland trust activities.

SEC. 3. Section 3.5 is added to Chapter 1086 of the Statutes of 1970, to read:

Sec. 3.5. Whenever the city deems it necessary or desirable to incur a revenue bonded indebtedness for any or all purposes, uses or acts authorized by this act the city may issue revenue bonds in accordance with the provisions of the Revenue Bond Law of 1941, as the same now exists or may hereafter be amended and pledge the moneys deposited or to be deposited in the Humboldt Bay Fund or received from, or indirectly attributable to, the granted tidelands in the city; provided, however, that:

(a) As an alternative to the election required by the Revenue Bond Law of 1941, and notwithstanding any provision of the charter of the city or any other provision of law to the contrary, the city may provide by ordinance which shall be subject to referendum that the bonds shall be issued without an election. Any referendum petition on such an ordinance shall be filed within the requisite time and shall be signed by the voters of the city equal in number of at least 5 percent of the entire vote cast within the city for all candidates for Governor at the last gubernatorial election.

(b) Any provisions of the Revenue Bond Law of 1941 which are inconsistent with the provisions of this act shall not be applicable.

SEC. 4. Section 12.45 is added to Chapter 138 of the Statutes of 1964, First Extraordinary Session, to read:

Sec. 12.45. During the fiscal year 1971-1972, two hundred fifty thousand dollars (\$250,000) of the oil revenue and dry gas revenue payable to the State of California under this act that year is appropriated and shall be paid by the State Controller to the Humboldt Bay Fund after the amount provided for in Section 12 is deposited in the California Water Fund, the amount provided for in Section 12.1 is deposited in the Central Valley Water Project Construction Fund, the amounts provided for in Sections 12.2 and 12.4 are deposited in the State Water Quality Control Fund, and the amount provided for in Section 12.3 is paid to the Southern California Rapid Transit District.

SEC. 5. Section 12.5 of Chapter 138 of the Statutes of 1964, First Extraordinary Session, is amended to read:

Sec. 12.5. All of the oil revenue and dry gas revenue payable to the State of California under this act each year shall be deposited in the Capital Outlay Fund for Public Higher Education, after the amount provided for in Section 12 is deposited in the California Water Fund, the amount provided for in Section 12.1 is deposited in the Central Valley Water Project Construction Fund, the amounts provided for in Sections 12.2 and 12.4 are deposited in the State Water Quality Control Fund, the amount provided for in Section 12.3 is paid to the Southern California Rapid Transit District, and the amount provided for in Section 12.45 is paid to the Humboldt Bay Fund.

CHAPTER 1253

An act to amend Sections 3, 12, and 22 of Chapter 1333 of the Statutes of 1968, relating to the Burton Act.

[Approved by Governor October 27, 1971. Filed with Secretary of State October 27, 1971.]

The people of the State of California do enact as follows:

SECTION 1. Section 3 of Chapter 1333 of the Statutes of 1968 is amended to read:

Sec. 3. The City and County of San Francisco, through a Harbor Commission of the City and County of San Francisco, shall have complete authority, except as otherwise agreed to as a condition of the transfer and as provided in this act, to use, conduct, operate, maintain, manage, regulate, improve and control the Harbor of San Francisco and to do all things it deems necessary in connection with the use, conduct, operation, management, maintenance, regulation, improvement and control of said harbor which are not prohibited by the laws of the State of California or the Charter of the City and County of San Francisco and which are in conformance with the terms of

this act, including, without limiting the generality of the foregoing, the following:

Such lease or leases, franchises, permits, licenses, and privileges shall be for purposes consistent with the trusts upon which the lands are held by the state and with the requirements of commerce and navigation, or if the Harbor Commission of the City and County of San Francisco determines that any portion of the transferred lands is not required for the foregoing uses described in this section, such lease or leases, franchises, permits, licenses, and privileges, may be for the purposes of such development and use as the commission finds to be in the public interest, with moneys derived therefrom to be used by the commission in the furtherance of commerce and navigation. The commission shall consist of five members, each member serving for a term of four

years. Except as hereinafter provided, each of said members shall be appointed by the mayor, said appointment being subject to confirmation by the Board of Supervisors of the City and County of San Francisco. In order that there be no interruption in the orderly operation and management of San Francisco Harbor, the incumbent members of the San Francisco Port Authority shall serve as the initial members of the commission for periods corresponding to the unexpired portions of their respective terms as members of the San Francisco Port Authority.

If the Department of Finance determines that the city and county has failed to improve the lands as herein required and issue such bonds as herein required, all right, title, and interest of the city and county in and to all such lands shall cease and the lands shall revert and rest in the state.

If, after seven days following the first publication of the notice, no owner appears and proves his ownership of the property and the person who found or saved the property pays the cost of the publication, the title shall vest in the person who found or saved the property unless the property was found in the course of employment by an employee of any public agency in which case the property shall be sold at public auction. The Department of the California Highway Patrol may provide for measuring at distances closer than 50 feet from the center of the lane of travel. In such a case, the measuring devices shall be so calibrated as to provide for measurements equivalent to the noise limit established by this section measured at 50 feet.

(c) The department shall adopt regulations establishing the test procedures and instrumentation to be utilized.

(f) No person shall have a cause of action relating to the provisions of this section against a manufacturer of a vehicle or a component part thereof on a theory based upon breach of express or implied warranty unless it is alleged and proved that such manufacturer did not comply with noise limit standards of the Vehicle Code applicable to manufacturers and in effect at the time such vehicle or component part was first sold for purposes other than resale.

CHAPTER 1266

An act to authorize a loan pursuant to the Davis-Grunsky Act to the Calaveras Public Utility District in connection with the Calaveras Public Utility District 1971 Water Project, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor October 29, 1971. Filed with Secretary of State October 29, 1971.]

The people of the State of California do enact as follows:

SECTION 1. The Department of Water Resources is hereby authorized to make a loan to the Calaveras Public Utility District, pursuant to the Davis-Grunsky Act (Chapter 5 (commencing with Section 12880), Part 6, Division 6, Water Code), in connection with the construction of the Calaveras Public Utility District 1971 Water Project, in such amount as may be provided for in a contract for such assistance between the department and the district, but in no event to exceed the amount of four million five hundred thousand dollars (\$4,500,000).

This act shall satisfy the requirement of legislative approval contained in Section 12885 of the Water Code, and no judicial confirmation of the loan contract shall be required by the department.

SEC. 2. Notwithstanding the provisions of Article 9 (commencing with Section 12889) of Chapter 5 of Part 6 of Division 6 of the Water Code, the Calaveras Public Utility District shall not be required to hold an election before it may enter into a contract with the Department of Water Resources for the construction loan authorized by Section 1 of this act.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The voters of the Calaveras Public Utility District have already overwhelmingly approved a \$4,000,000 loan contract pursuant to the Davis-Grunsky Act, and a \$550,000 general obligation bond issue, for the construction of the Calaveras Public Utility District 1971 Water Project. This project,

which would provide a modern water system to replace an antiquated system, portions of which date to the Gold Rush days, is essential to provide for the health and well-being of the residents of the district. After bids were received for construction of the project, however, it was necessary to revise the estimated cost of the project due to inflation. An increase of \$500,000 in the amount of the loan is the only possible source of additional revenue available to the district to complete this urgently needed project. Since the availability of these funds is needed immediately in order to insure awarding of necessary contracts for the project pursuant to bids received for the project, it is necessary that this act go into immediate effect.

CHAPTER 1267

Nothing contained in this title shall be construed to give to any person any right of action on any original contractor's private or public work payment bond described in Chapter 6 (commencing with Section 3235) or 7 (commencing with Section 3247) of this title, unless the work forming the basis for his claim was performed by such person for the principal on such payment bond, or one of his subcontractors, pursuant to the contract between the original contractor and the owner.

Nothing in this section shall affect the stop notice rights of, and relative priorities among, architects, registered engineers or licensed land surveyors and holders of secured interests on the land.

SEC. 2. This act shall be prospective in its application only.

The general development plan shall constitute a report on a project for the purposes of Section 21100.

The vote of each individual member of the State Park and Recreation Commission on each matter of classification or reclassification and of approval of the department's resource management plan and general development plan shall be recorded when the final decision of the State Park and Recreation Commission is announced.

SEC. 4. Section 5002.4 is added to the Public Resources Code, to read:

5002.4. Following approval by the State Park and Recreation Commission of the resource management plan and general development plan prepared by the department pursuant to Section 5002.2, the department shall, without delay, submit to the Legislature for review the department's inventory, resource management plan, and general development plan, and the State Park and Recreation Commission's classification or reclassification decision.

SEC. 5. The provisions of this act shall become operative July 1, 1972.

The people of the State of California do enact as follows:

SECTION 1. Section 13970 of the Government Code is amended to read:

In recognition of the public purpose served, the state may indemnify such citizens, their widows, their surviving children, and any persons dependent upon such citizens for their principal support in appropriate cases for any injury, death, or damage sustained by such citizens, their widows, their surviving children, and any persons dependent upon such citizens for their principal support as a direct consequence of such meritorious action to the extent that they are not compensated for the injury, death, or damage from any other

SEC. 2. Section 13972 of the Government Code is amended to read:

13972. In the event a private citizen incurs personal injury or death or damage to his property in preventing the commission of a crime against the person or property of another, in apprehending a criminal, or in materially assisting a peace officer in prevention of a crime or apprehension of a criminal, or rescuing a person in immediate danger of injury or death as a result of fire, drowning, or other catastrophe, the private citizen, his widow, his surviving children, a person dependent upon such citizen for his principal support, or a public safety or law enforcement agency acting on his or their behalf may file a claim with the State Board of Control for indemnification to the extent that the claimant is not compensated from any other source for such injury, death, or damage. The claim shall generally show:

(a) The date, place and other circumstances of the occurrence or events which gave rise to the claim;

(b) A general description of the activities of the private citizen in prevention of a crime, apprehension of a criminal, or rescuing a person in immediate danger of injury or death as a result of fire, drowning, or other catastrophe;

(c) The amount or estimated amount of the injury, death, or damage sustained for which the claimant is not compensated from any other source, insofar as it may be known at the time of the presentation of the claim;

SEC. 3. Section 13973 of the Government Code is amended to read:

13973. Upon presentation of any such claim, the Board of Control shall fix a time and place for the hearing of the claim, and shall mail notices thereof to interested persons or agencies and to the Attorney General. danger of injury or death as a result of fire, drowning, or other catastrophe;

(c) That as a direct consequence, the private citizen incurred personal injury or damage to property or died;

(d) The extent of such injury or damage for which the claimant is not compensated from any other source;

(e) Such other evidence as the board may require.

If the board determines, on the basis of a preponderance of such evidence, that the state should indemnify the claimant for the injury, death, or damage sustained, it shall approve the claim for payment. In no event shall a claim be approved by the board under this article in excess of five thousand dollars (\$5,000).

In addition to any award made under this article, the board may award, as attorney's fees, an amount representing the reasonable value of legal services rendered a claimant, but in no event to exceed 10 percent of the amount of the award. No attorney shall charge, demand, receive, or collect for services rendered in connection with any proceedings under this article any amount other than that awarded as attorney's fees under this section. Claims approved under this article shall be paid from a separate appropriation made to the State Board of Control in the Budget Act and as such claims are approved by the board.

SEC. 4. Section 13974 of the Government Code is amended to read:

CHAPTER 1271

An act to amend Sections 12021.5, 12028, and 12032 of, and to repeal Section 12033 of, the Penal Code, relating to weapons.

[Approved by Governor October 29, 1971. Filed with Secretary of State October 29, 1971.]

The people of the State of California do enact as follows:

SECTION 1. Section 12021.5 of the Penal Code is amended to read:

12021.5. A minor may not possess a concealable firearm unless he has the written permission of his parent or guardian to have such firearm or is accompanied by his parent or guardian while he has such firearm in his possession. Violation of this section is a misdemeanor.

The officers to whom the weapons are surrendered, except upon the certificate of a judge of a court of record, or of the district attorney of the county, that the retention thereof is necessary or proper to the ends of justice, may annually, between the 1st and 10th days of July, in each year, offer the weapons, which the officers in charge of them consider to have value with respect to sporting, recreational, or collection purposes, for sale at public auction to persons licensed under federal law to engage in businesses involv-

SEC. 3. Section 12032 of the Penal Code is amended to read:

Notwithstanding any other provision of this division, payments to an individual for vacation pay which was earned but not paid for services performed prior to termination of employment, or commencement of unemployment caused by disability, as the case may be, shall not be construed to be wages or compensation for personal services under this division and benefits payable under this division shall not be denied or reduced because of the receipt of such payment.

SEC. 2. Section 1454, as added by Chapter 353, Statutes of 1971, of the Unemployment Insurance Code is amended to read:

1454. State wages shall be included as wages for the purposes of this part in the base period of a state employee.

CHAPTER 1273

An act to amend Sections 5101, 5102, 5103, 5104, 5108, and 5109 of the Vehicle Code, relating to personalized license plates, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor October 29, 1971. Filed with Secretary of State October 29, 1971.]

The people of the State of California do enact as follows:

SECTION 1. Section 5101 of the Vehicle Code is amended to read:

5101. Any person who is the registered owner or lessee of a passenger vehicle, commercial vehicle, or trailer registered with the department or who makes application for an original registration or renewal registration of any such vehicle may, upon payment of the fee prescribed in Section 5106 of this article, apply to the department for personalized license plates, in the manner prescribed in Section 5105, which plates shall be affixed to the passenger vehicle, commercial vehicle, or trailer for which registration is sought in lieu of the regular license plates.

SEC. 2. Section 5102 of the Vehicle Code is amended to read:

5102. The personalized license plates shall be the same color and design as regular passenger vehicle, commercial vehicle,

or trailer license plates, and shall consist of numbers or letters, or any combination thereof not exceeding six positions and not less than two positions, provided that there are no conflicts with existing passenger, commercial, trailer, motorcycle, or special license plates series or with the provisions of Section 4851.

SEC. 3. Section 5103 of the Vehicle Code is amended to read:

5103. "Personalized license plates," as used in this article, means license plates that have displayed upon them the registration number assigned to the passenger vehicle, commercial vehicle, or trailer for which such registration number was issued in a combination of letters or numbers, or both, requested by the owner or lessee of the vehicle.

5104. Personalized license plates shall be issued only to the registered owner or lessee of the vehicle on which they are to be displayed.

SEC. 6. Section 5109 of the Vehicle Code is amended to read:

5109. When any person who has been issued personalized license plates sells, trades, or otherwise releases ownership of the vehicle upon which the personalized license plates have been displayed, he shall immediately report the transfer of such plates to an acquired passenger vehicle, commercial vehicle, or trailer pursuant to Section 5108 or he shall surrender such plates to the department forthwith.

SEC. 7. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Owners of commercial vehicles have been frustrated in being unable to participate in the California Environmental Protection Program by obtaining personalized license plates, inasmuch as the current law authorizes display of such plates only upon passenger vehicles. Removal of the restriction against use on commercial vehicles will provide a new source of revenue for the California Environmental Protection Program and enable truck owners to obtain personalized license plates immediately. It is therefore necessary that this legislation become effective immediately.

12804. (a) The examination shall include a test of the applicant's knowledge and understanding of the provisions of this code governing the operation of vehicles upon the highways, the ability to read and understand simple English used in highway traffic and directional signs, his understanding of traffic signs and signals and the applicant shall be required to give an actual demonstration of his ability to exercise ordinary and reasonable control in operating a motor vehicle by driving the same under the supervision of an examining officer and submit to an examination appropriate to the type of motor vehicle or combination of vehicles he desires a license to drive. The examination shall also include a test of the hearing and eyesight of the applicant and such other matters as may be necessary to determine the applicant's mental and physical fitness to operate a motor vehicle upon the highways and whether any ground exists for refusal of a license under this code. The examination for a class 1 or class 2 license under subdivision (b) of this section shall also include a report of a medical examination of the applicant given not more than two years prior to the date of the application by a physician licensed to practice medicine. The report shall be on a form approved by the department or by the Federal Highway Administration of the United States Department of Transportation. In establishing the requirements consideration may be given to the standards presently required of motor carrier drivers by the Federal Highway Administration of the United States Department of Transportation. Any physical defect of the applicant which in the opinion of the department is compensated to insure safe driving ability shall not prevent the issuance of a license to the applicant.

(b) In accordance with the following classifications any applicant for a driver's license shall be required to submit to an examination appropriate to the type of motor vehicle or combination of vehicles he desires a license to drive:

(1) Class 1. Any combination of vehicles and includes the operation of all vehicles under class 2 and class 3.

(2) Class 2. Any bus, any "farm labor truck," any single vehicle with three or more axles, any such vehicles towing another vehicle weighing less than 6,000 pounds gross, and all vehicles covered under class 3, except that a person holding a valid class 3 license on the effective date of this act may drive a bus designed to carry not more than 15 passengers until such time as the license expires without obtaining a class 2 license.

(3) Class 3. A three-axle housecar, any two-axle vehicle, and any such housecar or vehicle towing another vehicle

weighing less than 6,000 pounds gross, except a bus, two-wheel motorcycle, or "farm labor truck."

A person holding a valid class 1, class 2 or class 3 driver's license on the effective date of the amendments to this section enacted at the 1968 Regular Session of the Legislature may drive a motorcycle until such time as the license expires without obtaining a class 4 license or endorsement.

(c) Class 1 and class 2 drivers' licenses shall be valid for operating class 1 or class 2 vehicles only when a medical certificate approved by the department or the Federal Highway Administration of the United States Department of Transportation is in the licensee's possession which has been issued within two years of the date of the operation of such vehicle, otherwise the license shall be valid only for operating class 3 vehicles and class 4 vehicles if so endorsed. A person holding a valid class 1 or class 2 driver's license on the effective date of the amendments to this section enacted at the 1971 Regular Session of the Legislature may operate class 1 or class 2 vehicles without a medical certificate until such time as the license expires.

(d) The department may accept a certificate of driving experience in lieu of a driving test on class 1 or 2 applications when such certificate is issued by an employer of the applicant provided the applicant has first qualified for a class 3 license and also met the other examination requirements for the license for which he is applying. Such certificate may be submitted as evidence of the applicant's experience or training in the operation of the types of equipment covered by the license for which he is applying.

(e) The department may accept a certificate of competence in lieu of a driving test on class 4 applications when such certificate is issued by a law enforcement agency for its officers who operate class 4 vehicles in their duties provided the applicant has also met the other examination requirements for the license for which he is applying.

SEC. 2. Section 13557 is added to the Vehicle Code, to read:

13557. Any mandatory suspension or revocation of a person's driving privilege that could have been ended, except for the payment of the reinstatement fee as required pursuant to Section 14904, may be ended at the election of the department in cases where the person has died, left the state, or has indicated he no longer desires to drive a motor vehicle, after a period of five years has passed from the time such suspension or revocation action could have ended.

SEC. 3. Section 14606 of the Vehicle Code is amended to read:

14606. (a) No person shall employ or hire any person to drive a motor vehicle nor shall he knowingly permit or authorize the driving of a motor vehicle, owned by him or under his control, upon the highways by any person unless the person is then licensed for the appropriate class of vehicle to be driven.

(b) Whenever any person employs or hires any person, including a subhauler, to drive a class 1 or class 2 vehicle, the employer shall ascertain that such person has in his possession a medical certificate as provided in subdivision (c) of Section 12804 which has been issued within two years prior to the date of such employment or hiring. Such instructional materials in specialized media shall be available to other handicapped minors enrolled in the public schools of California who are unable to benefit from the use of conventional print copies of textbooks, reference books, and other study materials in a manner determined by the State Board of Education.

The specialized textbooks, reference books, recordings, study materials, tangible apparatus, equipment and other similar items shall be available for use by visually handicapped students enrolled in the public community colleges, California State Colleges, and the University of California.

SEC. 2. Section 10303 of the Education Code is repealed.

Utilizing funds from federal sources, the Department of Education has initiated a project for producing a master audio tape library of basic textbooks and related instructional materials. This project terminated on June 30, 1970. To insure that the benefits of this project be realized, through its completion and operation without undue interruption, it is necessary that this act go into immediate effect.

The people of the State of California do enact as follows:

SECTION 1. Section 653o of the Penal Code is amended to read:

653o. Violation of this section constitutes a misdemeanor.

CHAPTER 1284

An act to amend Sections 3091, 3097, 3098, 3158, 3159, 3181, and 3226 of the Civil Code, and to repeal Section 1193 of the Code of Civil Procedure, relating to works of improvement.

[Approved by Governor October 29, 1971. Filed with Secretary of State October 29, 1971.]

The people of the State of California do enact as follows:

SECTION 1. Section 3091 of the Civil Code is amended to read:

3091. "Ninety-day public works preliminary bond notice" means a notice which must be given by any claimant other than one of the following:

(a) A claimant who performs actual labor for wages or an express trust fund as described in Section 3111.

(b) A claimant who has a direct contractual relationship with the original contractor.

The notice is required only on public works, and is a necessary prerequisite to enforcement of a claim on a payment bond. The notice shall be in writing and shall state with substantial accuracy the amount claimed, and the name of the party to whom the claimant furnished labor, services, equipment, or materials. The notice shall be given within 90 days from the date on which the claimant furnished the last labor, services, equipment, or materials for which such claim is made.

The notice shall be served by mailing the same by registered or certified mail, postage prepaid, in an envelope addressed to the original contractor at any place he maintains an office, or conducts his business, or his residence, or by personal service.

SEC. 2. Section 3097 of the Civil Code is amended to read:

3097. "Preliminary 20-day notice (private work)" means a written notice from a claimant that is given prior to the recording of a mechanic's lien and prior to the filing of a

stop notice, and is required to be given under the following circumstances:

(a) Except one under direct contract with the owner or one performing actual labor for wages, or an express trust fund described in Section 3111, every person who furnishes labor, service, equipment, or material for which a lien otherwise can be claimed under this title, or for which a notice to withhold can otherwise be given under this title, must, as a necessary prerequisite to the validity of any claim of lien, and of a notice to withhold, cause to be given to the owner or reputed owner, to the original contractor, or reputed contractor, and to the construction lender, if any, or to the reputed construction lender, if any, a written preliminary notice as prescribed by this section.

(b) Except the contractor, or one performing actual labor for wages, or an express trust fund described in Section 3111, all persons who have a direct contract with the owner and who furnish labor, service, equipment, or material for which a lien otherwise can be claimed under this title, or for which a notice to withhold can otherwise be given under this title, must, as a necessary prerequisite to the validity of any claim of lien, and of a notice to withhold, cause to be given to the construction lender, if any, or to the reputed construction lender, if any, a written preliminary notice as prescribed by this section.

(c) The preliminary notice referred to in subdivisions (a) and (b) shall be given not later than 20 days after the claimant has first furnished labor, service, equipment, or materials to the jobsite, and shall contain the following information:

(1) A general description of the labor, service, equipment, or materials furnished, or to be furnished, and if there is a construction lender, he shall be furnished with an estimate of the total price thereof in addition to the foregoing.

(2) The name and address of such person furnishing such labor, service, equipment, or materials.

(3) The name of the person who contracted for purchase of such labor, service, equipment, or materials.

(4) A description of the jobsite sufficient for identification.

(5) A statement that if bills are not paid in full for labor, service, equipment, or material furnished, or to be furnished, the improved property may be subject to mechanic's liens.

(6) If such notice is given by a subcontractor who is required pursuant to a collective bargaining agreement to pay supplemental fringe benefits into an express trust fund described in Section 3111, such notice shall also contain the identity and address of such trust fund or funds.

If an invoice for such materials contains the information required by this section, a copy of such invoice, transmitted in the manner prescribed by this section shall be sufficient notice.

A certificated architect, registered engineer, or licensed land surveyor who has furnished services for the design of the work of improvement and who gives a preliminary notice as provided in this section not later than 20 days after the work of improvement has commenced shall be deemed to have complied with subdivisions (a) and (b) with respect to architectural, engineering, or surveying services furnished, or to be furnished.

(d) If labor, service, equipment, or materials have been furnished to a jobsite by a person who elected not to give a preliminary notice as provided in subdivision (a) or (b), such person shall not be precluded from giving a preliminary notice not later than 20 days after furnishing other labor, service, equipment, or materials to the same jobsite. Such person shall, however, be entitled to claim a lien and a notice to withhold only for such labor, service, equipment, or material furnished within 20 days prior to the service of such notice, and at any time thereafter.

(e) Any agreement made or entered into by an owner, whereby the owner agrees to waive the rights or privileges conferred upon him by this section shall be void and of no effect.

(f) Service of notice required under this section may be given by delivering the same to the person to be notified, personally, or by leaving it at his address or place of business with some person in charge, or by first-class mail, registered mail, or certified mail, postage prepaid, addressed to the person to whom notice is to be given at his residence or place of business address, at the address shown by the building permit on file with the authority issuing a building permit for the work, or at an address recorded pursuant to subdivision (j) of this section. If the address of the person on whom notice was required to be served is not actually known, then service of such notice may be by first-class mail, registered mail, or certified mail, addressed to the jobsite, with the envelope setting forth the name of the owner or reputed owner, if known, or if not known, then merely "owner" or to the person to whom a notice to withhold may be given, if known, or if not known, then to "construction lender" or to the original contractor, if known, or if not known, then to "general contractor". When service is by registered or certified mail, service is complete at the time of the deposit of the registered or certified mail.

(g) A person required by this section to give notice to the owner and to an original contractor, and to a person to whom a notice to withhold may be given, need give only one such notice to the owner, and to the original contractor and to the person to whom a notice to withhold may be given with respect to all materials, service, labor, or equipment he furnishes for a work of improvement, which means the entire structure or scheme of improvements as a whole, unless the same is fur-

nished under contracts with more than one subcontractor, in which event, the notice requirements must be met with respect to materials, services, labor, or equipment furnished to each such contractor.

If a notice contains a general description required by subdivision (a) or (b) of the materials, services, labor, or equipment furnished to the date of notice, it is not defective because, after such date, the person giving notice furnishes materials, services, labor, or equipment not within the scope of such general description.

(h) Where the contract price to be paid to any subcontractor on a particular work of improvement exceeds four hundred dollars (\$400), the failure of that contractor, licensed under Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code, to give the notice provided for in this section, constitutes grounds for disciplinary action by the Registrar of Contractors.

Where such notice is required to contain the information set forth in paragraph (6) of subdivision (c), a failure to give such notice, including such information, that results in the filing of a lien or the delivery of a stop notice by the express trust fund to which such obligation is owing constitutes grounds for disciplinary action by the Registrar of Contractors against the subcontractor if the amount due such trust fund is not paid.

(i) Every city, county, city and county, or other governmental authority issuing building permits shall, in its application form for a building permit, provide space and a designation for the applicant to enter the name, branch designation, if any, and address of the construction lender and shall keep the information on file open for public inspection during the regular business hours of the authority.

If there is no known construction lender, that fact shall be noted in such designated space. Any failure to indicate the name and address of the construction lender on such application, however, shall not relieve any person from the obligation to give to the construction lender the notice required by this section.

(j) A mortgage, deed of trust, or other instrument securing a loan, any of the proceeds of which may be used for the purpose of constructing improvements on real property, shall bear the designation "Construction Trust Deed" prominently on its face and shall state all of the following: (1) the name and address of the lender, and the name and address of the owner of the real property described in the instrument, and (2) a legal description of the real property which secures the loan and, if known, the street address of the property. The failure to be so designated or to state any of the information required by this subdivision shall not affect the validity of any such mortgage, deed of trust, or other instrument.

Failure to provide such information on such an instrument when recorded shall not relieve persons required to give preliminary notice under this section from such duty.

The county recorder of the county in which such instrument is recorded shall indicate in the general index of the official records of the county that such instrument secures a construction loan.

(k) Every contractor and subcontractor who is required pursuant to a collective bargaining agreement to pay supplementary fringe benefits into an express trust fund described in Section 3111, and who has failed to do so shall cause to be given to such fund and to the construction lender, if any, or to the reputed construction lender, if any, not later than five days following the date such payment was due to such fund, a written notice containing:

- (1) The name of the owner and the contractor.
- (2) A description of the jobsite sufficient for identification.
- (3) The identity and address of the express trust fund.
- (4) The total number of straight-time and overtime hours on each such job, payment for which the contractor or subcontractor is delinquent to the express trust.
- (5) The amount then past due and owing.

Failure to give such notice shall constitute grounds for disciplinary action by the Registrar of Contractors.

SEC. 3. Section 3098 of the Civil Code is amended to read: 3098. "Preliminary 20-day notice (public work), stop notice" means a written notice from a claimant that was given prior to the filing of a stop notice on public work, and is required to be given under the following circumstances:

(a) In any case in which the law of this state affords a right to a person furnishing labor or materials for a public work who has not been paid therefor to file a stop notice with the public agency concerned, and thereby cause the withholding of payment from the contractor for the public work, any such person having no direct contractual relationship with the contractor, other than a person who performed actual labor for wages or an express trust fund described in Section 3111, may file such a notice, but no payment shall be withheld from any such contractor, pursuant to any such notice, unless such person has caused written notice to be given to such contractor, and the public agency concerned, not later than 20 days after the claimant has first furnished labor, services, equipment, or materials to the jobsite, stating with substantial accuracy a general description of labor, service, equipment, or materials furnished or to be furnished, and the name of the party to whom the same was furnished. Such notice shall be served by mailing the same by first-class mail, registered mail, or certified mail, postage prepaid, in an envelope addressed to the contractor at any place he maintains an office or conducts his business, or his residence, or by personal service. In case of any public works constructed by the Department of Public

Works or the Department of General Services of the state, such notice shall be served by mailing in the same manner as above, addressed to the office of the disbursing officer of the department constructing the work, or by personal service upon such officer. When service is by registered or certified mail, service is complete at the time of the deposit of the registered or certified mail.

(b) Where the contract price to be paid to any subcontractor on a particular work of improvement exceeds four hundred dollars (\$400), the failure of that contractor, licensed under Chapter 9, (commencing with Section 7000) of Division 3 of the Business and Professions Code, to give the notice provided for in this section, constitutes grounds for disciplinary action by the Registrar of Contractors.

(c) The notice requirements of this section shall not apply to an express trust fund described in Section 3111.

SEC. 4. Section 3158 of the Civil Code is amended to read: 3158. Any of the persons named in Sections 3110, 3111, and 3112, other than the original contractor, may give to the owner a stop notice. Any person who shall fail to serve such a stop notice after a written demand therefor from the owner shall forfeit his right to a mechanic's lien.

SEC. 5. Section 3159 of the Civil Code is amended to read: 3159. Any of the persons named in Sections 3110, 3111, and 3112, other than the original contractor, may, prior to the expiration of the period within which his claim of lien must be recorded under Chapter 2 (commencing with Section 3109), give to a construction lender a stop notice or a bonded stop notice unless a payment bond has previously been recorded in the office of the county recorder of the county where the site is located in accordance with Section 3235, except that the payment bond may be recorded at any time prior to the serving of the first stop notice. Such notice may only be given for materials, equipment, or services furnished, or labor performed. For the purposes of this section, where an owner undertakes construction on his own behalf, one who contracts with him for a portion of the work is a subcontractor and shall be entitled to give a stop notice.

SEC. 6. Section 3181 of the Civil Code is amended to read: 3181. Except for an original contractor, any person mentioned in Section 3110, 3111, or 3112, or furnishing provisions, provender, or other supplies, may serve a stop notice upon the public entity responsible for such public work in accordance with the provisions of this chapter.

SEC. 7. Section 3226 of the Civil Code is amended to read: 3226. Any bond given pursuant to the provisions of this title will be construed most strongly against the surety and in favor of all persons for whose benefit such bond is given, and under no circumstances shall a surety be released from liability to those for whose benefit such bond has been given, by reason of any breach of contract between the owner and

original contractor or on the part of any obligee named in such bond, but the sole conditions of recovery shall be that claimant is a person described in Section 3110, 3111, or 3112, and has not been paid the full amount of his claim.

SEC. 8. Section 1193 of the Code of Civil Procedure is repealed.

CHAPTER 1285

An act to add Sections 10249.15 and 11000.1 to the Business and Professions Code, relating to subdivision of lands, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor October 29, 1971. Filed with Secretary of State October 29, 1971.]

The people of the State of California do enact as follows:

SECTION 1. Section 10249.15 is added to the Business and Professions Code, to read:

10249.15. "Subdivision" as used in Section 10249 also includes improved or unimproved land or lands, in which, for the purpose of sale or lease, whether immediate or future, five or more undivided interests are created or proposed to be created.

SEC. 2. Section 11000.1 is added to the Business and Professions Code, to read:

11000.1. (a) "Subdivided lands" and "subdivision," as defined by Sections 11000, 11000.5, and 11004.5, also includes improved or unimproved land or lands, lot or lots, or parcel or parcels, of any size, in which, for the purpose of sale or lease or financing, whether immediate or future, five or more undivided interests are created or are proposed to be created.

(b) This section shall not apply to the creation or proposed creation of undivided interests in land if any one of the following conditions exist:

(1) The undivided interests are held or to be held by persons related one to the other by blood or marriage.

(2) The undivided interests are to be purchased and owned solely by persons who present evidence satisfactory to the Real Estate Commissioner that they are knowledgeable and experienced investors who comprehend the nature and extent of the risks involved in the ownership of these interests. The Real Estate Commissioner shall grant an exemption from the provisions of this part if the undivided interests are to be purchased by no more than 10 persons, each of whom furnishes a signed statement to the commissioner that he (1) is fully informed concerning the real property to be acquired and his interest therein including the risks involved in ownership of undivided interests, and (2) is purchasing the interest or interests for his own account and with no present intention to resell or otherwise dispose of the interest for value, and (3)

expressly waives protections afforded to a purchaser by the provisions of this part.

(3) The undivided interests are created as the result of a foreclosure sale.

(4) The undivided interests are created by a valid order or decree of a court.

(5) The offering and sale of the undivided interests are subject to an investment contract and have been expressly qualified by the issuance of a permit from the California Commissioner of Corporations pursuant to the Corporate Securities Act or from the California Real Estate Commissioner under the Real Estate Syndicate Act.

(6) The undivided interests to be sold or leased are in real property improved with a residential, commercial or industrial structure or structures, and the current assessed value of the land does not exceed the current assessed value of the structures thereon.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

This legislation is needed to clarify that the marketing of undivided interests in land is to be regulated. Unless an investment contract is involved in such cases there may be no existing state jurisdiction over such transactions. The Department of Real Estate is receiving numerous inquiries concerning the sale of tens of thousands of undivided interests in real property. Many of these involve interests in raw acreage with a potential for many abuses which provisions of law related to subdivided lands are meant to prevent. This constitutes a large unregulated area which is vulnerable to the unscrupulous promoter, is susceptible to deceptive advertising, is detrimental to the stability of the subdividing industry and, therefore, warrants the disclosure and other protections of the law relating to subdivided lands.

CHAPTER 1286

An act to amend Sections 14394 and 14402 of, and to add Section 14402.1 to, the Government Code, relating to the State Contract Act.

[Approved by Governor October 29, 1971. Filed with Secretary of State October 29, 1971.]

The people of the State of California do enact as follows:

SECTION 1. Section 14394 of the Government Code is amended to read:

14394. If the director deems that a contractor has failed to supply an adequate working force, or material of proper qual-

ity, or has failed to comply with Section 14402.1, or has failed in any other respect to prosecute the work with the diligence and force specified by the contract, the director may:

(a) After written notice of at least five days to the contractor, specifying the defaults to be remedied, provide any such labor or materials and deduct the cost from any money due or to become due to the contractor under the contract; or

(b) If he considers that the failure is sufficient ground for such action, he may give written notice of at least five days to the contractor and the contractor's sureties, that if the defaults are not remedied the contractor's control over the work will be terminated.

SEC. 2. Section 14402 of the Government Code is amended to read:

14402. Payments upon contracts shall be made as the department prescribes upon estimates made and approved by the department, but progress payments shall not be made in excess of 95 percent of the percentage of actual work completed plus a like percentage of the value of material delivered on the ground or stored subject to or under the control of the state, and unused, except as otherwise provided in this section. The department shall withhold not less than 5 percent of the contract price until final completion and acceptance of the project. However, at any time after 95 percent of the work has been completed, the department may reduce the funds withheld to an amount not less than 125 percent of the estimated value of the work yet to be completed, as determined by the department, provided that such reduction has been approved in writing by the surety on the performance bond and by the surety on the payment bond. The Controller shall draw his warrants upon estimates so made and approved by the department and the Treasurer shall pay them.

SEC. 3. Section 14402.1 is added to the Government Code, to read:

14402.1. The contractor shall pay to his subcontractors, promptly upon receipt of each progress payment, the respective amounts allowed the contractor on account of the work performed by his subcontractors, to the extent of each such subcontractor's interest therein. Such payments to subcontractors shall be based on estimates made pursuant to Section 14402. Any diversion by the contractor of payments received for prosecution of a contract, or failure to reasonably account for the application or use of such payments constitutes ground for actions proscribed in Section 14394, in addition to disciplinary action by the Contractors' State License Board. The subcontractor shall notify in writing the Contractors' State License Board and the department of any payment less than the amount or percentage approved for the class or item of work as set forth in Section 14402.

SEC. 4. The provisions of Section 2 of this act shall become operative July 1, 1972.

CHAPTER 1287

An act to amend Sections 374a and 374b of the Penal Code, relating to crimes against public health and safety.

[Approved by Governor October 29, 1971. Filed with Secretary of State October 29, 1971.]

The people of the State of California do enact as follows:

SECTION 1. Section 374a of the Penal Code is amended to read:

374a. Every person giving information leading to the arrest and conviction of any person for a violation of Section 374b or 374c is entitled to a reward therefor.

The amount of the reward for each such arrest and conviction shall be 50 percent of the fine levied against and collected from the person who violated Section 374b or 374c and shall be paid by the court. If the reward is payable to two or more persons, it shall be divided equally. The amount of collected fine to be paid under this section shall be paid prior to any distribution of the fine that may be prescribed by any other section, including Section 1463.9, with respect to the same fine.

SEC. 2. Section 374b of the Penal Code is amended to read:

374b. It shall be unlawful to litter or cause to be littered any such property, or dump or cause to be dumped any waste matter in or upon any public or private highway or road, including any portion of the right-of-way thereof, or in or upon any private property into or upon which the public is admitted by easement or license, or upon any private property without the consent of the owner, or in or upon any public park or other public property other than property designated or set aside for such purpose by the governing board or body having charge thereof. It shall be unlawful to place, deposit, or dump, or cause to be placed, deposited or dumped, any rocks or dirt in or upon any private highway or road, including any portion of the right-of-way thereof, or any private property, without the consent of the owner, or in or upon any public park or other public property, without the consent of the state or local agency having jurisdiction over such highway, road, or property. Any person, firm or corporation violating the provisions of this section shall be guilty of a misdemeanor.

No portion of this section shall be construed to restrict a private owner in the use of his own private property, except that the placing, depositing, or dumping of such waste matter on such property shall not create a public health and safety hazard, a public nuisance, or a fire hazard, as determined by a local health department, local fire department or fire district, or the Division of Forestry in which case the provisions of this section shall apply.

Every person convicted of a violation of this section shall be punished by a mandatory fine of not less than fifty dollars

(\$50) nor more than five hundred dollars (\$500) upon a first conviction, by a mandatory fine of not less than one hundred dollars (\$100) nor more than five hundred dollars (\$500) upon a second conviction, and by a mandatory fine of not less than one hundred fifty dollars (\$150) nor more than five hundred dollars (\$500) upon a third or subsequent conviction.

The court may, in addition to the fine imposed upon a second or subsequent conviction, require as a condition of probation, in addition to any other condition of probation, that any person convicted of a violation of this section pick up litter at a time and place within the jurisdiction of the court for not less than four hours upon a second conviction and for not less than eight hours upon a third or subsequent conviction.

Every clerk of a court, or judge if there be no clerk, in which a person was convicted for any violation of this section shall prepare within 10 days after conviction and immediately forward to the Department of Motor Vehicles at its office in Sacramento an abstract of the record of the court covering the case in which the person was so convicted which abstract shall be certified by the person so required to prepare it to be true and correct. The abstract shall be made upon a form furnished or provided by the department and shall contain all necessary information to identify the defendant, the date and nature of the offense, the date of hearing, the judgment, and the punishment imposed. The failure, refusal or neglect of any such judicial officer to comply with the requirements of this subdivision is misconduct in office and is grounds for removal therefrom. All abstracts of records received by the department pursuant to this section shall be filed and maintained by the department, as nearly as may be practical, in accordance with the provisions of Article 3 (commencing with Section 1800) of Chapter 1 of Division 2 of the Vehicle Code.

CHAPTER 1288

An act to amend Sections 183, 1060, 13142, 13147, 13160, 13245, 13247, 13300, 13301, 13304, 13320, and 13360 of, and to add Sections 13160.1 and 13170 to, the Water Code, relating to water quality, and making an appropriation therefor.

[Approved by Governor October 29, 1971 Filed with
Secretary of State October 29, 1971.]

The people of the State of California do enact as follows:

SECTION 1. Section 183 of the Water Code is amended to read:

183. The board may hold any hearings and conduct any investigations in any part of the state necessary to carry out the powers vested in it, and for such purposes has the powers conferred upon heads of departments of the state by Article 2

(commencing with Section 11180), Chapter 2, Part 1, Division 3, Title 2 of the Government Code.

Any hearing or investigation by the board may be conducted by any member upon authorization of the board, and he shall have the powers granted to the board by this section, but any final action of the board shall be taken by a majority of all the members of the board, at a meeting duly called and held.

All hearings held by the board or by any member thereof shall be open and public.

SEC. 1.5. Section 1060 of the Water Code is amended to read:

1060. (a) All fees collected by the State Water Resources Control Board or by a California regional water quality control board, and deposited in the State Treasury, except funds collected under Part 3 (commencing with Section 2000) of this division, funds received for trial distribution expenses in connection with the administration of Section 1051.5, and deposits and payments made pursuant to Section 5007, shall be credited to the appropriation for the support of the board which is current at the time of the deposit of such fees in the State Treasury.

(b) Money deposited with or paid to the board pursuant to Section 1051.5 or 5007 and deposited by the board in the State Treasury is available for expenditure by the board in accordance with those sections without regard to fiscal years and irrespective of the provisions of Section 16304 of the Government Code, and any unused balance shall be refunded by the board to the person entitled thereto.

SEC. 2. Section 13142 of the Water Code is amended to read:

13142. State policy for water quality control shall consist of all or any of the following:

(a) Water quality principles and guidelines for long-range resource planning, including ground water and surface water management programs and control and use of reclaimed water.

(b) Water quality objectives at key locations for planning and operation of water resource development projects and for water quality control activities.

(c) Other principles and guidelines deemed essential by the state board for water quality control.

SEC. 3. Section 13147 of the Water Code is amended to read:

13147. The state board shall not adopt state policy for water quality control unless a public hearing is first held respecting the adoption of such policy. At least 60 days in advance of such hearing the state board shall notify any affected regional boards, unless notice is waived by such boards, and shall give notice of such hearing by publication within the affected region pursuant to Section 6061 of the Government Code. The regional boards shall submit written recommenda-

tions to the state board at least 20 days in advance of the hearing.

SEC. 4. Section 13160 of the Water Code is amended to read:

13160. The state board is designated as the state water pollution control agency for all purposes stated in the Federal Water Pollution Control Act and any other federal act, heretofore or hereafter enacted, and is (a) authorized to give any certificate or statement required by any federal agency pursuant to any such federal act that there is reasonable assurance that an activity of any person subject to the jurisdiction of the state board will not reduce water quality below applicable standards, and (b) authorized to exercise any powers delegated to the state by the Federal Water Pollution Control Act (33 U.S.C. 466, et seq.) and acts amendatory thereto.

SEC. 5. Section 13160.1 is added to the Water Code, to read:

13160.1. The state board may establish a reasonable fee schedule to cover the cost of giving any certificate which is required or authorized by any federal law with respect to the effect of any existing or proposed facility, project, or construction work upon the quality of waters of the state, including certificates requested by applicants for a federal permit or license pursuant to subdivision (b) of Section 21 of the Federal Water Pollution Control Act and certificates requested pursuant to Section 169 of the Internal Revenue Code, as amended in 1969, with respect to water pollution control facilities.

SEC. 6. Section 13170 is added to the Water Code, to read:

13170. The state board may adopt water quality control plans in accordance with the provisions of Sections 13240 to 13244, inclusive, insofar as they are applicable, for waters for which water quality standards are required by the Federal Water Pollution Control Act and acts amendatory thereof or supplementary thereto. Such plans, when adopted, supersede any regional water quality control plans for the same waters to the extent of any conflict.

SEC. 7. Section 13245 of the Water Code is amended to read:

13245. A water quality control plan, or a revision thereof adopted by a regional board, shall not become effective unless and until it is approved by the state board. The state board may approve such plan, or return it to the regional board for further consideration and resubmission to the state board. Upon resubmission the state board may either approve or, after a public hearing in the affected region, revise and approve such plan.

SEC. 8. Section 13247 of the Water Code is amended to read:

13247. State offices, departments, and boards, in carrying out activities which may affect water quality, shall comply with water quality control plans approved or adopted by the

state board unless otherwise directed or authorized by statute, in which case they shall indicate to the regional boards in writing their authority for not complying with such plans.

SEC. 9. Section 13300 of the Water Code is amended to read:

13300. Whenever a regional board finds that a discharge of waste is taking place or threatening to take place that violates or will violate requirements prescribed by the regional board, or the state board, or that the waste collection, treatment, or disposal facilities of a discharger are approaching capacity, the board may require the discharger to submit for approval of the board, with such modifications as it may deem necessary, a detailed time schedule of specific actions the discharger shall take in order to correct or prevent a violation of requirements.

SEC. 10. Section 13301 of the Water Code is amended to read:

13301. When a regional board finds that a discharge of waste is taking place or threatening to take place in violation of requirements or discharge prohibitions prescribed by the regional board or the state board, the board may issue an order to cease and desist and direct that those persons not complying with the requirements or discharge prohibitions (a) comply forthwith, (b) comply in accordance with a time schedule set by the board, or (c) in the event of a threatened violation, take appropriate remedial or preventive action. In the event of an existing or threatened violation of waste discharge requirements in the operation of a community sewer system, cease and desist orders may restrict or prohibit the volume, type, or concentration of waste that might be added to such system by dischargers who did not discharge into the system prior to the issuance of the cease and desist order. Cease and desist orders may be issued directly by a board, after notice and hearing, or in accordance with the procedure set forth in Section 13302.

SEC. 11. Section 13304 of the Water Code is amended to read:

13304. (a) Any person who discharges waste into the waters of this state in violation of any waste discharge requirement or other order issued by a regional board or the state board, or who intentionally or negligently causes or permits any waste to be discharged or deposited where it is, or probably will be, discharged into the waters of the state and creates, or threatens to create, a condition of pollution or nuisance, shall upon order of the regional board clean up such waste or abate the effects thereof or, in the case of threatened pollution or nuisance, take other necessary remedial action. Upon failure of any person to comply with such cleanup or abatement order, the Attorney General, at the request of the board, shall petition the superior court for that county for the issuance of an injunction requiring such person to comply therewith. In

any such suit, the court shall have jurisdiction to grant a prohibitory or mandatory injunction, either preliminary or permanent, as the facts may warrant.

(b) The regional board may expend available moneys to perform any cleanup, abatement, or remedial work required under the circumstances set forth in subdivision (a) which in its judgment is required by the magnitude of endeavor or urgency of prompt action needed to prevent substantial pollution, nuisance, or injury to any waters of the state. Such action may be taken in default of, or in addition to, remedial work by the waste discharger or other persons, and regardless of whether injunctive relief is being sought. The regional board may perform the work itself, or by or in cooperation with any other governmental agency, and may use rented tools or equipment, either with operators furnished or unoperated. Notwithstanding any other provisions of law, the regional board may enter into oral contracts for such work, and the contracts, whether written or oral, may include provisions for equipment rental and in addition the furnishing of labor and materials necessary to accomplish the work. Such contracts shall be exempt from approval by the Department of General Services pursuant to the provisions of Section 14780 of the Government Code.

(c) If such waste is cleaned up, the effects thereof abated, or, in the case of threatened pollution or nuisance, other necessary remedial action is taken by any governmental agency, the person or persons who discharged the waste, within the meaning of subdivision (a), shall be liable to that governmental agency to the extent of the reasonable costs actually incurred in cleaning up such waste, abating the effects thereof, or taking other remedial action. The amount of such costs shall be recoverable in a civil action by, and paid to, such governmental agency and the state board to the extent of the latter's contribution to the cleanup costs from the State Water Pollution Cleanup and Abatement Account or other available funds.

SEC. 12. Section 13320 of the Water Code is amended to read:

13320. (a) Within 30 days of any action or failure to act by a regional board under subdivision (c) of Section 13225, Article 4 (commencing with Section 13260) of Chapter 4 of this division, Chapter 5 (commencing with Section 13300) of this division, Chapter 7 (commencing with Section 13500) of this division, or Division 7.5 (commencing with Section 14000), any aggrieved person may petition the state board to review such action or failure to act. In case of failure to act, the 30-day period shall commence upon refusal of the board to act, or 60 days after request has been made to the board to act. The state board may, on its own motion, at any time review such action or failure to act and also any failure to act under Article 3 (commencing with Section 13240) of Chapter 4 of this division.

(b) The evidence before the state board shall consist of (i) the record before the regional board, and (ii) any other relevant evidence which, in the judgment of the state board, should be considered to effectuate and implement the policies of this division.

(c) The state board may find the regional board action or inaction to be appropriate and proper. Upon finding that the action of the regional board, or the failure of the regional board to act, was inappropriate or improper, the state board may: (1) direct that the appropriate action be taken by the regional board, (2) refer the matter to any other state agency having jurisdiction, (3) take the appropriate action itself, or (4) any combination of the foregoing. In taking any such action, the state board is vested with all the powers of the regional boards under this division.

(d) In the event a waste discharge in one region affects the waters in another region and there is any disagreement between the regional boards involved as to the requirements which should be established, either regional board may submit the disagreement to the state board which shall determine the applicable requirements.

SEC. 13. Section 13360 of the Water Code is amended to read:

13360. No waste discharge requirement or other order of a regional or state board or decree of court issued under the provisions of this division shall specify the design, location, type of construction or particular manner in which compliance may be had with such requirement, order or decree, and the person so ordered shall be permitted to comply therewith in any lawful manner; provided, as to disposal sites other than those found by the state board to be adequately regulated by another governmental agency under subdivision (b) of Section 14020 and evaporation ponds from which there is no drainage or seepage, the restrictions of this section shall not apply to waste discharge requirements or orders or decrees with respect to the discharge of solid waste requiring the installation of riprap, the construction of walls and dikes, the installation of surface and underground drainage facilities to prevent runoff from entering the disposal area or leakage to underground or surface waters or other reasonable requirements to achieve the above or similar purposes, and provided further that if the court, in an action for an injunction brought under this division, finds that the enforcement of an injunction restraining the discharger from discharging waste would be impracticable, the court shall have the power to issue any order reasonable under the circumstances requiring specific measures to be undertaken by the discharger to comply with the discharge requirements, order or decree.

SEC. 14. Section 1.5 of this act shall not be operative until July 1, 1972.

The petition shall state facts showing the respondent party failed or refused to comply with Section 11507.6, a description of the matters sought to be discovered, the reason or reasons why such matter is discoverable under this section, and the ground or grounds of respondent's refusal so far as known to petitioner.

(b) The petition shall be served upon respondent party and filed within 15 days after the respondent party first evidenced his failure or refusal to comply with Section 11507.6 or within 30 days after request was made and the party has failed to reply to the request, whichever period is longer. If from a reading of the petition the court is satisfied that the petition sets forth good cause for relief, the court shall issue an order to show cause directed to the respondent party; otherwise the court shall enter an order denying the petition. The order to show cause shall be served upon the respondent and his attorney of record in the administrative proceeding by personal delivery or certified mail and shall be returnable no earlier than 10 days from its issuance nor later than 30 days after the filing of the petition. The respondent party shall have the right to serve and file a written answer or other response to the petition and order to show cause.

(c) The administrative proceeding shall be stayed during the pendency of the proceedings before the superior court only if the court issues an order to show cause and only if a copy of the order to show cause is filed with the Office of Administrative Hearings forthwith upon issuance thereof.

(d) Where the matter sought to be discovered is under the custody or control of the respondent party and the respondent party asserts that such matter is not a discoverable matter under the provisions of Section 11507.6, or is privileged against disclosure under such provisions, the court may order lodged with it such matters as are provided in subdivision (b) of Section 915 of the Evidence Code and examine such matters in accordance with the provisions thereof.

(e) The court shall decide the case on the matters examined by the court in camera, the papers filed by the parties, and such oral argument and additional evidence as the court may allow.

(f) Unless otherwise stipulated by the parties, the court shall no later than 30 days after the filing of the petition file its order denying or granting the petition, provided, however, the court may on its own motion for good cause extend such time an additional 30 days. The order of the court shall be in writing setting forth the matters or parts thereof the petitioner is entitled to discover under Section 11507.6. A copy of the order shall forthwith be served by mail by the clerk upon the parties. Where the order grants the petition in whole or in part, such order shall not become effective until 10 days after the date the order is served by the clerk. Where the order denies relief to the petitioning party, the order shall be effective on the date it is served by the clerk.

(g) The order of the superior court shall be final and not subject to review by appeal. A party aggrieved by such order, or any part thereof, may within 15 days after the service of the superior court's order serve and file in the appropriate court of appeal a petition for a writ of mandamus to compel the superior court to set aside or otherwise modify its order. Where such review is sought from an order granting discovery, the order of the trial court and the administrative proceeding shall be stayed upon the filing of the petition for writ of mandamus, provided, however, the court of appeal may dissolve or modify the stay thereafter if it is in the public interest to do so. Where such review is sought from a denial of discovery, neither the trial court's order nor the administrative proceeding shall be stayed by the court of appeal except upon a clear showing of probable error.

(h) Where the superior court finds that a party or his attorney, without substantial justification, failed or refused to comply with Section 11507.6, or, without substantial justification, filed a petition to compel discovery pursuant to this section, or, without substantial justification, failed to comply with any order of court made pursuant to this section, the court may award court costs and reasonable attorney fees to the opposing party. Nothing in this subdivision shall limit the power of the superior court to compel obedience to its orders by contempt proceedings.

11524. The agency may grant continuances. When a hearing officer of the Office of Administrative Hearings has been assigned to such hearing, no continuance may be granted except by him or by the hearing officer in charge of the appropriate regional office of the Office of Administrative Hearings, for good cause shown.

14379. (a) Determination of rights pursuant to Section 14378 shall be by a hearing officer appointed for that purpose from the staff of the Office of Administrative Hearings.

(b) The party seeking a determination of rights shall give notice in writing of the claim setting forth the facts on which the claim is based to the other party and to the Office of Administrative Hearings. The Office of Administrative Hearings shall appoint a hearing officer to hear such claim. The hearing officer shall be appointed within 60 days after such notice, but not before completion of the contract, unless the department consents to earlier appointment, and the hearing officer shall hear and determine the controversy and render his decision in writing within 60 days after his appointment, unless otherwise agreed by the parties, provided, however, that for good cause, the hearing officer may extend such time. Each party shall bear its own costs and shall pay one-half of the costs of the hearing.

(c) The decision of the hearing officer shall be final if supported by law and by substantial evidence.

SEC. 11. Section 14380 of the Government Code is amended to read:

14380. The Office of Administrative Hearings shall adopt rules and regulations, pursuant to Chapter 4.5, Part 1, Division 3, Title 2 of the Government Code, to implement the claims procedure authorized by this article.

(1) Under Sections 23222 to 23224, inclusive (or corresponding sections of prior laws), for the first taxable year of the transferors which constituted a full 12 months of doing business, or

(2) Under subdivision (b) or (c) of Section 23151 or subdivision (b) or (c) of Section 23183.

(b) The credit allowable under this section shall be in addition to any credit which may be allowable to the taxpayer under Section 23201. However, any credit previously allowed or allowable under Sections 23201 and this section shall not be allowed again in computing a credit under this section.

23204. No credit under this article shall be allowed or made after four years from the last day prescribed for filing the return for the taxable year of dissolution or withdrawal, or after one year from the date of overpayment or within the

periods prescribed under Article 1 of Chapter 22, whichever period expires the latest, unless before the expiration of such period a claim therefor is filed by the taxpayer.

SEC. 5. Section 23222 of the Revenue and Taxation Code is amended to read:

23222. (a) If a taxpayer commences to do business in this state during its first taxable year its tax for that year shall be adjusted upon the basis of the net income received during that taxable year, at the rate applicable to that year, a credit being allowed for the prepayment of the minimum tax. The return for the first taxable year, which shall be filed within 2 months and 15 days after the close of that year, shall also be the basis for the tax of said taxpayer for its second taxable year, if its first taxable year is a period of 12 months. In every case in which the first taxable year of a taxpayer constitutes a period of less than 12 months, or in which a taxpayer does business for a period of less than 12 months during its first taxable year, said taxpayer shall pay as a prepayment of the tax for its second taxable year a tax based on the income for the first taxable year computed under the law and at the rate applicable to the second taxable year, the same to be due and payable at the same times and in the same manner as if that amount were the entire amount of its tax for that year; and upon the filing of its tax return within 2 months and 15 days after the close of the second taxable year it shall pay a tax for said year, at the rate applicable to that year, based upon its net income received during that year, allowing a credit for the prepayment; but in no event, except as provided in Section 23332, shall the tax for the second taxable year be less than the amount of the prepayment for that year, and said return for its second taxable year shall also be the basis for the tax of said taxpayer for its third taxable year, if the second taxable year constitutes a period of 12 months.

(b) The provisions of subdivision (a) shall be applicable only in the computation and payment of taxes with respect to taxable years beginning before January 1, 1973.

23222a. In every case in which the second or succeeding taxable years of a commencing taxpayer constitute a period of less than 12 months or in which the taxpayer does business for a period of less than 12 months during its second or succeeding taxable years, the tax for such year or years shall be measured by the income of that period or periods subject to the continuation of the prepayment procedure outlined in Section 23222. In no event shall the income of any period or periods herein described be used as the measure of the tax for the succeeding taxable year, other than the prepayment, until the last short period is succeeded by a taxable period of 12 months, in which case the income of the last short period shall,

if greater than the income of the 12-month period, constitute the measure of the tax for such 12-month period.

For the calculation of the benefit, it shall be considered that the member died on the June 30 following the actual date of death and the spouse reached age 60 on the June 30 prior to attainment of that age, but the benefit shall not begin to accrue until the spouse attains age 60.

(4) If there is no widow, dependent widower or children entitled to benefits under paragraph (2), the dependent parent, age 60, or upon attainment of that age, shall receive a benefit based on projected service and projected earned salary equal to the amount which would have been paid if the member had retired at age 30 and elected option number 3. Otherwise, the total amount shall be payable to the one who qualifies.

Benefits payable under this section are in lieu of the death benefit payable under paragraph (2) of subdivision (b) of Section 14180, irrespective of the beneficiary designated to receive that benefit, except that a widow, dependent widower or collective dependent parents may elect, prior to the receipt of the first payment under paragraph (3) or (4), to receive that benefit in a lump sum providing there are no children on account of whom benefits are payable under paragraph (1) or (2), subject to a deduction for any benefit previously paid.

In the event of the death of a person who is receiving benefits under this section, or on whose account a benefit is pay-

able, or the spouse remarries, or children are no longer qualified, the benefit payable to or on account of that person shall be terminated on the last day of the month in which such event occurs.
