33332. The Director of Education may, with the approval of the Director of Finance, accept on behalf of, and in the name of, the state such gifts, donations, bequests, and devises as may be made to the Department of Education, or to any school or other institution administered by the Director of Education or the Department of Education, which in his judgment would be of benefit to the state and, if made to a school or other institution, would be of benefit to the school or other institution. Gifts, donations, bequests, and devises may be made subject to such conditions or restrictions as the Director of Education may deem advisable.

33333. Money received under Section 33332 may, with the approval of the Director of Finance, be deposited by the Director of Education to the credit of the department or of the school or institution designated by him, in accounts in banks or transmitted by him to the State Treasurer for deposit in trust accounts. Withdrawals may be made from any such bank account or trust account by the Director of Education or any employee of the Department of Education authorized by him to make withdrawals therefrom.

33334. All moneys received by or for any school under the jurisdiction of the Department of Education from any agency of the federal government, directly or indirectly, for the education of veterans, is hereby appropriated for the support of such school in addition to such other funds as may be appropriated therefor by the Legislature.

33335. For the purposes of Government Code Section 11032, the following constitute, among other proper purposes of like or different character, state business for officers and employees of the Department of Education for which the officers and employees shall be allowed actual and necessary traveling expenses:

(a) Attending meetings of any national association or organization having as its principal purpose the study of matters relating to education or to a particular field or fields of education, or any agency of such association.

(b) Conferring with officers or employees of the United States, or appearing before committees of either house of the Congress of the United States, relative to problems relating to education in California.

(c) Conferring with officers or employees of other states engaged in the performance of similar duties.

(d) Obtaining information useful to the department in the

conduct of its work.

When traveling is outside the state, traveling and expense shall be approved by the Governor and Director of Finance as provided in Government Code Section 11032.

33336. The Director of Education, subject to such additional conditions as the State Board of Education may establish, may purchase annuity contracts for permanent employees of the California Department of Education and the California Maritime Academy, and shall reduce the salary of an employee for whom such contract is purchased by the amount of the cost thereof provided that all of the following conditions are met:

(a) The annuity contract is under an annuity plan which meets the requirements of subdivision (b) of Section 403 of the Internal Revenue Code of 1954 of the United States and Section 17512 of the Revenue and Taxation Code.

(b) The employee makes application to the director for such purchase and reduction of salary.

(c) All provisions of the Insurance Code and the Government Code applicable to the purchase of such annuities are satisfied.

### Article 3. Educational Programs

33350. The Department of Education shall:

(a) Adopt such rules and regulations as it deems necessary and proper to secure the establishment of courses in physical education in the elementary and secondary schools.

(b) Compile or cause to be compiled and printed a manual in physical education for distribution to teachers in the public schools of the state.

33351. The Department of Education may employ the necessary expert and clerical assistants in order to carry out the provisions of this article.

33352. The Department of Education shall exercise general supervision over the courses of physical education in elementary and secondary schools of the state; exercise general control over all athletic activities of the public schools; advise school officials, school boards, and teachers in matters of physical education; and investigate the work in physical education in the public schools.

### Article 4. Workshops

33360. The Department of Education and a statewide association composed exclusively of school district governing boards or county boards of education, or both, acting jointly, may conduct annual workshops within this state. Such workshops shall include but are not limited to study and instruction on the subjects of school finance, the Education Code and related laws, and the ethics, duties, and responsibilities of school district governing boards and county boards of education. A reasonable fee not to exceed the estimated pro rata

cost of the workshop may be charged board members and members-elect who attend.

33361. The Department of Education shall maintain a permanent record of each school district and county board of education member who successfully completes a workshop and shall issue a certificate of completion to such member.

33362. Any member or member-elect of a school district governing board who attends and successfully completes a workshop as authorized by this article may be reimbursed for expenses as provided for in Section 35173.

33363. Any member or member-elect of a county board of education who attends and successfully completes a workshop as authorized by this article may be reimbursed for expenses as provided for in Section 1096.

#### Article 5. Bureau of Indian Education

33370. There is in the Department of Education a Bureau of Indian Education which shall study and identify the cultural and educational disadvantages affecting American Indian children in the present existing public school system.

33371. The Indian Coordinator shall be in charge of the Bureau of Indian Education and his selection shall be made by the Superintendent of Public Instruction.

33372. The Indian Coordinator shall be responsive to the Superintendent of Public Instruction and shall meet and consult with the Equal Educational Opportunities Commission.

#### Article 6. California Indian Education Centers

33380. The Legislature hereby finds and declares that Indian children have not succeeded well in California public schools as evidenced by low academic achievement at all grade levels, high dropout rates and by the few students continuing their education beyond high school.

It is the intent and purpose of the Legislature to strengthen the instructional program within the public schools by establishing 10 California Indian education centers.

33381. The California Indian education centers established pursuant to this article shall serve as educational resource centers in Indian communities to the Indian students, parents, and the public schools. The centers shall be designed to:

(a) Improve the academic achievement of Indian students with particular emphasis on reading and mathematics.

(b) Improve the self-concept of Indian students and adults.

(c) Increase the employment of Indian adults.

(d) Serve as a center for related community activities.

(e) Provide tutorial assistance to students in reading and mathematics.

(f) Provide individual and group counseling to students and adults related to personal adjustment, academic progress, and vocational planning.

(g) Provide coordinated programs with the public schools.

(h) Provide a neutral location for parent-teacher conferences.

(i) Provide a focus for summer recreational sports and academic experience.

(j) Provide adult classes and activities.

(k) Provide college-related training programs for prospective Indian teachers.

(l) Provide libraries and other related educational material.

33382. The State Board of Education, upon the advice and recommendations of the Superintendent of Public Instruction, shall adopt guidelines for the selection and administration of the California Indian education centers.

33383. Application for the establishment of a California Indian education center may be made to the State Board of Education by any tribal group or incorporated Indian association, either separately or jointly, upon forms provided by the Department of Education. The State Board of Education shall select up to 10 applicants for such centers.

33384. The Department of Education shall annually evaluate the California Indian education centers and report its findings and recommendations to the Legislature prior to February 1st of each year.

#### Article 7. California Maritime Academy

33390. There is within the Department of Education a California Maritime Academy.

### CHAPTER 4. STATE EDUCATIONAL COMMISSIONS AND COMMITTEES

#### Article 1. General Provisions

33500. The Legislature hereby declares that there is further need to encourage the adoption of new or improved educational ideas, practices, and techniques in solving critical educational problems in preschool, elementary and secondary schools throughout the state. Recognizing the need for the planning and developing of new programs involving a wide range of new approaches designed to improve the quality of education available in this state, this chapter is expressly enacted to foster innovation and create change in education, based on research and proven need. It is the intent of this chapter to bring purposeful change and experimentation to schools throughout the state, through the use of all available resources of the state.

The Legislature further finds that there are in existence a large

number of permanent commission, committees and councils, some of which have overlapping duties and functions, and some of which have been perpetuated beyond the original need or purpose for which created. In order to provide a more economical, efficient and logical structure to educational policymaking, it is the intent of the Legislature to create three levels of educational advisory bodies: educational policy advisory commission, educational advisory committees, and educational task forces.

33501. The following definitions shall apply to educational advisory bodies created by this chapter:

(a) An "educational policy advisory commission" is an advisory body to the State Board of Education composed of professional and lay members, as defined by this code. Such groups are established to advise the State Board of Education within the general policy areas to which they are charged. The Superintendent of Public Instruction or his representative shall serve as executive secretary to each educational policy advisory commission.

(b) An "educational advisory committee" is an advisory body to the Superintendent of Public Instruction composed of educational specialists, technical experts, or specially qualified members of the public, or any combination thereof. Such committees are established to advise the Superintendent of Public Instruction on the administration of programs with which he is charged, and such committees serve at his pleasure.

## Article 2. Educational Innovation and Planning Commission

33502. There is in the state government the Educational Innovation and Planning Commission consisting of a Member of the Assembly appointed by the Speaker of the Assembly, a Member of the Senate appointed by the Senate Committee on Rules, one public member appointed by the Speaker of the Assembly, one public member appointed by the Senate Committee on Rules, one public member appointed by the Governor, and 15 public members appointed by the State Board of Education upon the recommendation of the Superintendent of Public Instruction or the members of the State Board of Education.

The 15 public members appointed by the State Board of Education shall be selected for their familiarity, standing, competence, and attainment in research methods applicable to the physical, behavioral, and management sciences. One member shall be an elementary school teacher, one member shall be a secondary school teacher, one member shall be a recognized specialist in the field of special education, one member shall be a representative of institutions of higher education, one member shall be a recognized specialist in urban educational problems, one member shall be a representative of private elementary and secondary schools, one member shall be a representative of disadvantaged low-income areas, one member shall be a leader from private industry with direct

concern and involvement in the development of new techniques in the fields of education and communication, one member shall be a representative of guidance and counseling, one member shall be a recognized specialist in education of students of limited-English-speaking ability, one member shall be a recognized specialist in the use of libraries and learning resources, one member shall be a recognized specialist in the education of the gifted and talented, and three members shall be representatives of the general public.

The State Board of Education upon recommendation from the Superintendent of Public Instruction is empowered to add to the 15 public members of the commission as required to fully conform to federal legislation and regulations.

33503. The Members of the Legislature appointed to the commission pursuant to Section 33502 shall have the powers and duties of a joint legislative committee on the subject of educational innovation and planning and shall meet with, and participate in, the work of the commission to the extent that such participation is not incompatible with their positions as Members of the Legislature.

The Members of the Legislature appointed to the commission shall serve at the pleasure of the appointing power.

33504. The Superintendent of Public Instruction or his representative shall serve as executive secretary to the commission.

33505. The commission, in carrying out its powers and duties, shall utilize the staff of the Department of Education.

33506. The members of the commission shall serve without compensation, except that they shall receive their actual and necessary expenses incurred in the performance of their duties and responsibilities, including traveling expenses.

33507. The commission shall select one of its members to be chairman of the commission.

33508. Commission members shall serve for four-year terms and shall not be eligible to serve more than one full term. Prior service on the commission for a term of less than three years resulting from an initial appointment or an appointment for the remainder of an unexpired term shall not be counted as a full term.

33509. As used in this article:

(a) "Commission" means the Educational Innovation and Planning Commission.

(b) "Title III" means Title III of the Elementary and Secondary Education Act of 1965, as amended.

(c) "Title IV" means Title IV, Parts A, B, and C of the Educational Amendments of 1974 (Public Law 93-380) as amended.

(d) "State plan" means the annual plan for the use of Title III or Title IV funds as approved by the State Board of Education.

(e) "Secondary schools," notwithstanding Section 52, shall not include community colleges.

(f) "Local educational agency" means the governing body of any school district or county office of education.

33510. For purposes of this article, the commission shall have the powers, duties, and responsibilities of a state advisory council prescribed in Title III or as superseded by Title IV.

33511. The commission shall have the power and authority to:

(a) Advise the State Board of Education on the preparation of, and policy matters arising in the administration of, the state plan, including the development of criteria for the distribution of funds and the approval of applications for assistance under Title III and Title IV.

(b) Prepare at least annually and submit to the State Board of Education a report of its activities, recommendations, and evaluation. The State Board of Education shall report the activities of the commission to the Governor and the Legislature.

(c) Assist the State Board of Education and the Department of Education in the planning, development, and improvement of educational programs.

(d) Provide for the evaluation of all programs and projects funded under Title III and Title IV, examine the reported effectiveness of various educational programs, and promote and approve innovative programs and schools.

33512. All projects recommended by the commission shall be submitted to the State Board of Education for its approval.

33513. The State Board of Education shall allocate funds under Title III and Title IV, Part C, excluding those funds received for the purposes of strengthening state and local educational agencies, to provide to the extent feasible a geographical spread of experimental projects in the state. All such grants for a particular project shall be limited to a three-year period excepting exemplary projects as provided in Sections 33521 and 33522. All applications for such grants shall show in their evaluation the cost-effectiveness relationships of such programs developed as they relate to currently used methods.

33514. The State Board of Education shall annually allocate, insofar as practicable, 15 percent of the total amount of federal funds received by the State of California pursuant to Title III or Title IV, Part C, excluding those funds received for the purposes of strengthening state and local educational agencies, for special education projects. At least 40 percent of such funds shall be used for the purposes of Section 33515.

33515. Priority for experimental, demonstration, or operational projects shall be given to the following:

(a) A language development program or a mathematics program, or both, given in the elementary or secondary grades or both. For purposes of this article, "language development" includes the elements of reading, writing, spelling, speaking, and listening, and comprehension of ideas and concepts.

(b) An in-service and preservice training program for elementary or secondary teachers or both developed with local institutions of higher education. Such programs shall emphasize the improvement of specific classroom teacher skills required to instruct language

development and mathematics.

33516. In order to be deemed an approved project and be eligible to receive an allocation from the State Board of Education, an experimental, demonstration, or operational project shall meet the following criteria:

(a) The proposed activities are not activities presently being performed by other state and federal programs.

(b) The proposed activities supplement, but do not supplant, other state or federal programs.

33517. Special consideration shall be given to applications which meet the following criteria:

(a) The target school has an above average number of pupils whose reading achievement scores fall within the first quartile, as measured by the most recently administered statewide reading test;

(b) The application includes comprehensive evaluation plans.

33518. The State Board of Education may reserve a sum of money, to be recommended by the commission and approved by the State Board of Education, to support demonstration and experimental projects designed to develop new methods of allocating personnel, equipment, and facilities to solve educational problems associated with educational management. Such projects may include, but need not be limited to, the development of new and potentially more economical staffing, arrangements for administration and for classroom instruction, a modification of class size in schools, the utilization of classroom aides, flexible class scheduling, and the use of instructional television and audiovisual equipment so as to more effectively utilize local resources. Also included may be projects for educational problems associated with general curriculum development, community relations, urbanization, and work-study programs. The standards for such demonstrational and experimental projects shall be recommended by the commission and approved by the State Board of Education, based upon the best interests of the students involved, except that a project shall be approved only if it can be shown that, if successful, the cost effectiveness of the project will be such so as to be adaptable within the budgets of other similar school districts throughout the state.

33519. Any local educational agency operating a project funded under this article shall submit at least an annual evaluation which shall document the degree to which the project has improved the achievement levels of pupils in the instructional areas emphasized within the grant. Such evaluations shall be reviewed by the State Board of Education.

33520. The State Board of Education shall submit an annual comprehensive report to the Governor and the Legislature which shall document:

(a) Improved achievement levels resulting from the projects.

(b) The degree to which the program has motivated schools, both participating and nonparticipating in the program, to improve their

curriculum in language development and mathematics and other instructional areas emphasized in grants approved.

(c) The numbers of programs continued by the original local educational agencies.

(d) The results of the dissemination and diffusion efforts by exemplary projects funded pursuant to Sections 33521 and 33522.

33521. The commission shall identify and submit to the State Board of Education up to 25 projects conducted during the current year as "exemplary projects." Priority shall be given to projects which exhibited the greatest degree of success in achieving their objectives, with the highest priority given to those which demonstrate the greatest gain in achievement levels. Such exemplary projects may include projects funded pursuant to this article and similar projects selected from other funding sources which address state priorities. Information concerning such exemplary projects shall be disseminated to all local educational agencies in the state which maintain the grade levels involved in such projects.

33522. The State Board of Education shall reserve not more than 15 percent of the state's federal allocation under Title III or Title IV, Part C, excluding those funds received for the strengthening of state and local educational agencies, for incentive grants to the local educational agencies which have operated exemplary projects during the preceding year. Such funds shall be used by such local educational agencies to expand the projects locally and for dissemination/diffusion of such successful projects statewide.

### Article 3. Curriculum Development and Supplemental Materials Commission

33530. There is in the state government the Curriculum Development and Supplemental Materials Commission consisting of a Member of the Assembly appointed by the Speaker of the Assembly, a Member of the Senate appointed by the Senate Committee on Rules, one public member appointed by the Speaker of the Assembly, one public member appointed by the Senate Committee on Rules, one public member appointed by the Governor, and 13 public members appointed by the State Board of Education upon the recommendation of the Superintendent of Public Instruction or the members of the State Board of Education.

So far as is practical and consistent with the duties assigned to the commission by the State Board of Education, at least seven of the 13 public members appointed by the State Board of Education shall be persons, who because they have taught, written, or lectured on the subject matter fields specified in Section 33533, in the course of public or private employment, have become recognized authorities or experienced practitioners in such fields. At least three of the 13 public members appointed by the State Board of Education shall be full-time classroom teachers assigned to teach any of grades 1 to 8, inclusive.

33531. The Members of the Legislature appointed to the commission pursuant to Section 33530 shall have the powers and duties of a joint legislative committee on the subject of curriculum development and supplemental materials and shall meet with, and participate in, the work of the commission to the extent that such participation is not incompatible with their positions as Members of the Legislature.

The Members of the Legislature appointed to the commission shall serve at the pleasure of the appointing power.

33532. (a) Commission members shall serve for four-year terms and shall not be eligible to serve more than one full term. Prior service on the commission for a term of less than three years resulting from an initial appointment or an appointment for the remainder of an unexpired term shall not be counted as a full term.

(b) With respect to the appointment of 13 public members by the State Board of Education to the first commission, four shall be appointed for terms of two years, four shall be appointed for terms of three years, and five shall be appointed for a term of four years.

33533. The Superintendent of Public Instruction and the State Board of Education shall consider for membership on the commission persons representing subjects commonly taught in public schools, including:

- (a) English
- (b) Social sciences
- (c) Foreign languages
- (d) Science
- (e) Mathematics
- (f) Fine arts
- (g) Applied arts
- (h) Conservation education

33534. The Superintendent of Public Instruction or his representative shall serve as executive secretary to the commission.

33535. The members of the commission shall serve without compensation, except that they shall receive their actual and necessary travel expenses in attending meetings of the commission and in attending meetings of any committee or subcommittee of the commission of which they are members. Expenses of the commission shall be paid out of appropriations made to the Superintendent of Public Instruction or the Department of Education.

33536. The commission shall select one of its members to be chairman of the commission.

33537. Whenever an employee of any public school district, state college, or other public agency is appointed to membership on the commission, his employer shall grant him sufficient time away from his regular duties, without loss of income or other benefits to which he is entitled by reason of his employment, to attend meetings of the commission and to attend to the duties imposed upon him by reason of his membership on the commission. The employer of any such

member may make available such stenographic, secretarial, and staff assistance as is reasonably necessary to enable him to execute the duties imposed upon him by reason of his membership on the commission.

33538. The commission shall study problems of courses of study in the schools of the state and shall, upon request of the State Board of Education, recommend to the State Board of Education the adoption of minimum standards for courses of study in preschool, kindergarten, elementary, and secondary schools. Courses of study in the public schools shall conform to such minimum standards when adopted.

33539. As used in this article, "commission" means the Curriculum Development and Supplemental Materials Commission.

#### Article 4. Educational Management and Evaluation Commission

33550. There is in the state government the Educational Management and Evaluation Commission consisting of a Member of the Assembly appointed by the Speaker of the Assembly, a Member of the Senate appointed by the Senate Committee on Rules, one public member appointed by the Speaker of the Assembly, one public member appointed by the Senate Committee on Rules, one public member appointed by the Governor, and nine public members appointed by the State Board of Education upon the recommendation of the Superintendent of Public Instruction or the members of the State Board of Education.

With respect to the nine public members appointed by the State Board of Education, three members shall represent the field of economics, three members shall represent the learning sciences, and three members shall represent the managerial sciences.

Each public member shall serve at the pleasure of the appointing power.

33551. The Members of the Legislature appointed to the commission pursuant to Section 33551 shall have the powers and duties of a joint legislative committee on the subject of educational management and evaluation and shall meet with, and participate in, the work of the commission to the extent that such participation is not incompatible with their positions as Members of the Legislature.

The Members of the Legislature appointed to the commission shall serve at the pleasure of the appointing power.

33552. The members of the commission shall serve without compensation, except that they shall receive their actual and necessary expenses incurred in the performance of their duties and responsibilities, including travel expenses.

33553. The Superintendent of Public Instruction or his representative shall serve as executive secretary to the commission.

33554. The commission shall select one of its members to be chairman of the commission.

33555. The commission shall assist and advise the State Board of

Education in the evaluation of the program achievement of educational programs, in the determination of the relative cost effectiveness of educational programs, and shall make recommendations concerning the expanded use, modification, or replacement of educational programs so as to produce a higher degree of program achievement and cost effectiveness. The commission shall also serve as an advisory body to the State Board of Education on program budgeting and accounting systems for school districts.

33556. As used in this article, "commission" means the Educational Management and Evaluation Commission.

#### Article 5. Equal Educational Opportunities Commission

33570. There is in the state government the Equal Educational Opportunities Commission consisting of a Member of the Assembly appointed by the Speaker of the Assembly, a Member of the Senate appointed by the Senate Committee on Rules, one public member appointed by the Speaker of the Assembly, one public member appointed by the Senate Committee on Rules, one public member appointed by the Governor, and 10 public members appointed by the State Board of Education upon the recommendation of the Superintendent of Public Instruction or the members of the State Board of Education.

The State Board of Education shall consider representation of the groups that are served.

Each public member shall serve at the pleasure of the appointing power.

33571. The Members of the Legislature appointed to the commission pursuant to Section 33570 shall have the powers and duties of a joint legislative committee on the subject of equal educational opportunities and shall meet with, and participate in, the work of the commission to the extent that such participation is not incompatible with their positions as Members of the Legislature.

The Members of the Legislature appointed to the commission shall serve at the pleasure of the appointing power.

33572. The members of the commission shall serve without compensation, except they shall receive their actual and necessary expenses incurred in the performance of their duties and responsibilities, including travel expenses.

33573. The Superintendent of Public Instruction or his representative shall serve as executive secretary to the commission.

33574. The commission shall select one of its members to be chairman of the commission.

33575. The commission shall assist and advise the State Board of Education and shall formulate and present such policy recommendations as it determines necessary to insure equal educational opportunities for all students and effect statewide coordination of programs for education of disadvantaged minors.

33576. The commission shall regularly recommend to the State Board of Education educational programs to meet the needs of Indians native to the United States.

33577. As used in this article, "commission" means the Equal Educational Opportunities Commission.

#### Article 6. Advisory Commission on Special Education

33590. There is in the state government the Advisory Commission on Special Education consisting of a Member of the Assembly appointed by the Speaker of the Assembly, a Member of the Senate appointed by the Senate Committee on Rules, one public member appointed by the Speaker of the Assembly, one public member appointed by the Senate Committee on Rules, one public member appointed by the Governor, and nine public members appointed by the State Board of Education upon the recommendation of the Superintendent of Public Instruction or the members of the State Board of Education.

Each public member shall serve at the pleasure of the appointing power.

33591. The Members of the Legislature appointed to the commission pursuant to Section 33590 shall have the powers and duties of a joint legislative committee on the subject of special education and shall meet with, and participate in, the work of the commission to the extent that such participation is not incompatible with their positions as Members of the Legislature.

The Members of the Legislature appointed to the commission shall serve at the pleasure of the appointing power.

33592. The members of the commission shall serve without compensation, except they shall receive their actual and necessary expenses incurred in the performance of their duties and responsibilities, including traveling expenses.

33593. The Superintendent of Public Instruction or his representative shall serve as executive secretary to the commission.

33594. The commission shall select one of its members to be chairman of the commission.

33595. The commission shall study and provide assistance and advice to the State Board of Education in new or continuing areas of research, program development, and evaluation in special education.

33596. As used in this article, "commission" means the Advisory Commission on Special Education.

## DIVISION 3. LOCAL ADMINISTRATION

## PART 21. LOCAL EDUCATIONAL AGENCIES

## CHAPTER 1. SCHOOL DISTRICTS

## Article 1. Naming

35000. The first governing board of any new school district shall, at the first meeting of the board or as soon as practicable thereafter, name the district.

The name of an elementary district shall be in the form of "\_\_\_\_\_ District (using the name of the district), of \_\_\_\_\_ County" (using the name of the county in which the district is situated). The name of an elementary district shall not include a number or the word "elementary."

The name of a unified school district shall be in the form of "\_\_\_\_\_ (using the name of the district) Unified School District." A number shall not be used as a part of the designation of any unified school district.

Any union high school district or joint union high school district shall be so designated as part of its name.

35001. Whenever a petition is presented to the board of supervisors, signed by at least 15 qualified electors of any school district, asking that the name of the district be changed, the board of supervisors shall designate a day upon which it will act upon the petition, which shall not be less than 10 days nor more than 40 days after the receipt of the petition.

The clerk of the board of supervisors shall give notice to all parties interested by sending by registered mail to each of the governing board members of the school district a notice of the time for the hearing of the petition. Notices shall be mailed at least 10 days before the day set for hearing. At the hearing the board shall by resolution either grant or deny the petition, and, if granted, the clerk shall notify the county superintendent of the change of the name of the district.

35002. In addition to the procedures set forth in Sections 35000 and 35001, a petition may be presented to the superintendent of schools having jurisdiction of any high school district signed by at least two-thirds of the members of the governing board of the high school district asking that the name of the district be changed and stating the new name desired. The procedure shall thereafter be the same as is provided for electors' petitions in Section 35001, except:

(a) The clerk of the board of supervisors shall give notice to all persons interested, by publication in a newspaper published within the high school district, or, if there is none, then in any newspaper published in the county, of the time set for the hearing of the petition, instead of by registered mail. The notice shall be published at least twice before the day set for hearing.

(b) In addition to notification of the county superintendent of schools, the change shall be certified to the county clerk of each county in which any part of the high school district is situated and entered by him in his record of high school districts.

## Article 2. General Provisions

35010. Every school district shall be under the control of a board of school trustees or a board of education.

35011. Except as otherwise provided, the governing board of a school district shall consist of five members elected at large by the qualified voters of the district. The terms of the members shall, except as otherwise provided, be for four years and staggered so that as nearly as practicable one-half of the members shall be elected in each odd-numbered year.

35012. A unified school district formed pursuant to the provisions of Chapter 2 (commencing with Section 4200) of Part 3 of Division 1 of Title 1 may have a governing board of seven members in the event the proposal for unification has specified a governing board of seven members. The members of such board shall be elected at large or by trustee areas as designated in the proposal for unification and shall serve four-year terms of office.

35013. Notwithstanding the provisions of Section 35011, and except as provided in this section and Section 5018, the governing board of an elementary school district other than a union or joint union elementary school district shall consist of three members selected at large from the territory comprising the district. Whenever, in any such elementary school district the average daily attendance during the preceding fiscal year is 300 or more, the procedures prescribed by Section 5018 shall be undertaken.

35014. The governing board of each school district shall prescribe and enforce rules not inconsistent with law or with the rules prescribed by the State Board of Education, for its own government.

## Article 3. Officers and Agents

35020. The governing board of each school district shall fix and prescribe the duties to be performed by all persons in public school service in the school district.

35021. Notwithstanding any other provisions of law, any person may be permitted by the governing board of any school district to perform the duties specified in Section 44814 or 44815, or to serve as a nonteaching volunteer aide under the immediate supervision and direction of the certificated personnel of the district to perform noninstructional work which serves to assist such certificated personnel in performance of teaching and administrative responsibilities. Such a nonteaching volunteer aide shall not be an employee of the school district and shall serve without compensation of any type or other benefits accorded to employees of the district,

except as provided in Section 35212 of the Education Code and Section 3364.5 of the Labor Code.

No district may abolish any of its classified positions and utilize volunteer aides, as authorized herein, in lieu of classified employees who are laid off as a result of the abolition of a position; nor may a district refuse to employ a person in a vacant classified position and use volunteer aides in lieu thereof.

It is the intent of the Legislature to permit school districts to use volunteer aides to enhance its educational program but not to permit displacement of classified employees nor to allow districts to utilize volunteers in lieu of normal employee requirements.

35022. Every school district governing board consisting of five or more members shall, at its initial meeting and at each annual meeting, elect a president from among its members.

35023. The governing board of each school district of every kind or class shall annually at its initial meeting select one of its members as its representative who shall have one vote for each member to be elected to the county committee provided by Article 4 (commencing with Section 4290) of Chapter 2 of Part 3 of Division 1 of Title 1. The secretary or clerk of the district shall furnish the county superintendent of schools with a certificate naming the representative selected by the board.

35024. The governing board of any school district may appoint an executive committee. In the case of a governing board which has appointed a clerk, the committee shall consist of the president, the clerk, and one other member of the board. In the case of a governing board which has not appointed a clerk the committee shall consist of the president and two members of the board. The committee shall attend to the routine business of the board. Its action shall be reported to the board for ratification at its first meeting ensuing.

35025. The governing board of any school district may employ a person not a member of the board to act as secretary and bookkeeper for the board, and may delegate to such secretary the duties prescribed in paragraphs (a) and (c) of Section 35250.

35026. The governing board of any school district employing eight or more teachers may employ a district superintendent for one or more schools and may delegate to the district superintendent any of the duties provided for in Section 35250.

35027. The governing board of any school district employing a district superintendent of schools and having an average daily attendance of 1,500 or more pupils may employ such deputy, associate, and assistant district superintendents of schools as the board deems necessary.

35028. No person shall be eligible to hold a position as city superintendent, district superintendent, deputy superintendent, associate superintendent, or assistant superintendent of schools unless he is the holder of both a valid school administration certificate and a valid teacher's certificate, but any person employed as a deputy, associate, or assistant superintendent in a purely clerical

capacity shall not be required to hold any certificate.

35029. A local governing board may waive any credential requirement for the chief administrative officer of the school district under its jurisdiction. Any individual serving as the chief administrative officer of a school district who does not hold a credential may be required by the local governing board to pursue a program of in-service training conducted pursuant to guidelines approved by the commission.

No individual serving as the chief administrative officer of a school district shall be subject to the provisions of the merit system specified in Article 6 (commencing with Section 45240) of Chapter 5 of Part 25 of this division or any other similar merit system.

35030. No governing board or county superintendent of schools shall affix the title of deputy, associate or assistant superintendent to any position not defined by this code as a position requiring certification qualifications or which does not qualify under the provisions of Section 44065 as a position requiring certification qualifications; except that any such title may be assigned to the position of business manager or a related business position but such position shall not, if so designated, be deemed to be a position requiring certification qualifications nor shall the employee be deemed to be a certificated employee.

35031. Any district superintendent of schools, or deputy, associate, or assistant superintendent of schools, may be elected for a term of four years. The governing board of any school district, with the consent of the employee concerned, may at any time terminate, effective on the next succeeding first day of July, the term of employment of, and any contract of employment with, the superintendent of schools, or any associate, deputy, or assistant superintendent of schools of the district, and reelect or reemploy the employee, on such terms and conditions as may be mutually agreed upon by the board and the employee, for a new term to commence on the effective date of the termination of the existing term of employment. In the event the governing board of a school district determines the superintendent of schools of the district is not to be reelected or reemployed as such superintendent upon the expiration of his term, the superintendent of schools shall be given written notice thereof by the governing board at least six months in advance of the expiration of his term. In the event the governing board of a district fails to reelect or reemploy the superintendent of schools of the district as such superintendent and the written notice herein provided for has not been given, the superintendent of schools shall be deemed reelected for a term of the same length as the one completed, and under the same terms and conditions and with the same compensation.

35032. Notwithstanding Section 35031, the governing board of a school district may at any time during any school year increase the salaries of any district superintendent of schools and deputy, associate, or assistant superintendent of schools without terminating

the term of employment of, and reelecting or reemploying, such employee and such increase may be effective on any date ordered by the governing board.

35033. If a unified school district is formed pursuant to Chapter 2 (commencing with Section 4200) of Part 3, of Division 1 of Title 1 to include all the territory of one or more elementary school districts, the governing board of the unified district may elect and reelect as district superintendent of schools of the unified district, or as deputy, associate, or assistant superintendent of schools of the unified district, for a four-year term, a person employed as district superintendent of schools of one of such elementary school districts at the time of the formation of the unified school district. The person may perform service in the position for the unified district for the term to which he is elected or reelected without possessing the certification document otherwise required if he has served continuously as district superintendent of the elementary district for at least 10 years prior to the formation of the unified district and if he is elected as district superintendent of schools of the unified district or as deputy, associate or assistant superintendent of schools of the unified district pursuant to this section.

35034. (a) The members of the governing board of each unified school district may elect a superintendent of schools for a term of not more than four years, who shall be executive officer and secretary of said governing board. Where the entire area of a county is included within one unified school district or where the entire area of a county is included within one unified school district except for such portions of the county as are included in a school district which is under the jurisdiction of the county superintendent of schools of another county, the county superintendent of schools may be employed as the superintendent of schools of the unified school district; provided, he is the holder of a certification document authorizing him to perform such services. If a county superintendent of schools is employed as the superintendent of schools of a unified school district, he may be paid such salary, in addition to that provided by law for his office of county superintendent of schools, as he and the governing board of the unified school district may agree upon.

(b) Any county superintendent of schools who was employed as a district superintendent of a unified school district on or before September 20, 1963, may continue to perform such services without possessing the certification document otherwise required as long as he remains continuously employed or reemployed in his position.

(c) Where the entire area of a county is included within one unified school district except for such portions of the county as are included in a school district which is under the jurisdiction of the county superintendent of schools of another county, the person who was county superintendent of schools at the time the unified school district was formed may be employed as the superintendent of schools of the unified school district without possessing the certification document otherwise required as long as he remains

continuously employed or reemployed in his position.

35035. The superintendent of each school district shall, in addition to any other powers and duties granted to or imposed upon him:

(a) Be the chief executive officer of the governing board of the district.

(b) Excepting in districts where the governing board has appointed or designated an employee other than the superintendent, or a deputy, or assistant superintendent, to prepare and submit a budget, prepare and submit to the governing board of the district, at such time as it may direct, the budget of the district for the next ensuing school year, and revise and take such other action in connection with the budget as the board may desire.

(c) Subject to the approval of the governing board, assign all employees of the district employed in positions requiring certification qualifications, to the positions in which they are to serve. Such power to assign includes the power to transfer a teacher from one school to another school at which the teacher is certificated to serve within the district when the superintendent concludes that such a transfer is in the best interest of the district.

(d) Upon adoption, by the district board, of a district policy concerning transfers of teachers from one school to another school within the district, have authority to transfer teachers consistent with such policy.

(e) Determine that each employee of the district in a position requiring certification qualifications has a valid certificated document registered as required by law authorizing him to serve in the position to which he is assigned.

(f) Enter into contracts for and on behalf of the district pursuant to Section 39656.

(g) Submit reports showing the financial and budgetary conditions of the district, including outstanding obligations, to the governing board at least once every three months during the school year.

35036. The clerk of a district shall perform all duties prescribed in Section 35250 not delegated by the governing board to the secretary or to the district superintendent.

35037. Except as provided in Section 35121, the clerk shall be a member of the board.

35038. In any district the governing board of which is required to elect a clerk, the superintendent of schools of the county shall appoint one of the members of the governing board to fill the office of district clerk if a clerk is not elected by the governing board on the date prescribed, or if, except as provided in Section 35039, a vacancy occurs in the position of district clerk.

35039. If the clerk of the district refuses to perform the duties prescribed in Section 35250 or by the governing board, the board may at a regular meeting dismiss him and appoint another member clerk. It shall immediately notify the superintendent of schools of the

county of its action.

35040. The clerk, secretary, and superintendent of the district shall, in addition to the duties prescribed by this chapter, perform such other duties as may be prescribed by the governing board of the district.

35041. Anything in a city, county, or city and county charter to the contrary notwithstanding, the governing board or boards of any school district may appoint an administrative adviser and fix and order paid his compensation. The duties of the administrative adviser are to render administrative advice to the superintendent of schools and to other officers and employees of the school district such other administrative duties as may be assigned by the superintendent of schools and the governing board of the district, and to assist the legal counsel of the district in the preparation and conduct of school district litigation. The employee shall have been admitted to practice law in the state, and shall not be required to have any certification qualifications.

35041.5. Anything in a city, county, or city and county charter to the contrary notwithstanding, the governing board of any school district or the governing boards of any school districts and any county superintendent of schools may, in lieu of appointing an administrative adviser pursuant to Section 35041, appoint a legal counsel and fix and order paid his compensation. The duties of the legal counsel may include rendering legal advice to the superintendent of schools and to other officers and employees of the school district or districts and such other administrative duties as may be assigned by the superintendent of schools and the governing board of the district or governing boards of the districts, and serving as the legal counsel of the district or districts in the preparation and conduct of school district litigation and administrative proceedings, and rendering advice in relation to school bond and tax increase measures and prepare all legal papers and forms necessary for the voting of school bonds and tax increase measures in the district or districts. The person appointed as legal counsel shall have been admitted to practice law in the state, and shall not be required to have any certification qualifications.

Neither the county counsel or district attorney shall have a duty to perform for a school district or districts any legal services which the legal counsel, while employed by such district or districts, is authorized by this section to perform and which are assigned to legal counsel by the superintendent of schools or the governing board of a district or governing boards of the districts.

In the event a district or districts ceases to employ legal counsel and requests the resumption of legal services by the county counsel or district attorney, the district or districts shall notify the county counsel or district attorney of such fact on or before January 1 of the year preceding the fiscal year in which services are to be resumed.

35042. The governing board of each school district may employ a principal for each school under its control.

35043. Whenever in their judgment it is deemed advisable, the governing boards of any two or more school districts may jointly employ a supervising principal or a supervisor of instruction, who shall devote such time to the supervision of instruction in the several school districts as may be agreed upon by the several boards of trustees.

35044. The governing board of each school district shall provide for the payment of the traveling expenses of any representatives of the board when performing services directed by the board.

35045. The governing board of any school district having an average daily attendance of 10,000 or more may appoint a director of school building planning, who shall be a person qualified by training, experience and demonstrated ability to manage the building, construction and contracting business of the district. The director shall be responsible for the coordination of the building program of the district and shall advise the superintendent of schools and other employees of the district with respect to the negotiation and performance of school building construction contracts let by the governing board of the school district.

## CHAPTER 2. GOVERNING BOARDS

### Article 1. Membership

35100. Within 15 days after the action necessary for the formation of any elementary school district or high school district is completed, the county superintendent of schools shall appoint an interim governing board.

Within 15 days after the action necessary for the formation of any joint or joint union elementary school or high school district is completed, the county superintendent of schools having jurisdiction over the district shall appoint a majority of the members of an interim governing board. If the new district is in two counties, the other county superintendent shall appoint the rest of the interim governing board members within such 15-day period. If the new district is in more than two counties, the other county superintendents shall appoint the rest of the interim governing board members within such 15-day period as may be agreed upon by them. If they cannot agree within such 15-day period, the county superintendent who appointed the majority of the interim governing board members shall appoint the rest of the members.

The term of each governing board member so appointed shall expire on the April 1st following the election of the first elected governing board of the district.

If a majority of the members of the interim governing board of the school district is not appointed and qualified within such 15-day period, the county superintendent of schools having the power to appoint the interim governing board, or a majority thereof, shall assume the powers and duties belonging to the governing board until

a majority of the governing board is selected and qualified.

35101. In newly formed unified school districts there shall be no interim governing board, but the county superintendent of schools having jurisdiction over the particular district shall call an election for the purpose of choosing the first governing board of the district.

In unified school districts the call shall be issued not later than the fourth Tuesday of December next succeeding the creation of the district. The election shall be held on the first Tuesday after the first Monday in March next succeeding the call. The first members of the governing board of either form of district shall take office on the day the canvass of the election is certified by the county superintendent of schools. The first meeting of the governing board shall be called by the county superintendent of schools not later than the third Monday following the election. The term of office of subsequent members of the board shall begin on April 1st following their election.

35102. Within 20 days after the appointment or election of the interim or initial governing board of any newly formed district, the county superintendent of schools having jurisdiction over the district shall call a meeting of the board, by giving each member of the board at least 10 days' notice of such meeting by registered mail. At the meeting the board shall appoint such officers as boards of its class are required to appoint at annual meetings pursuant to Article 3 (commencing with Section 35140) of Chapter 2 of this division, name the district pursuant to Article 1 (commencing with Section 35000) of Chapter 1 of this part and may conduct or transact any other business relating to the affairs of the district which can properly be conducted or transacted at a regular meeting of the board.

35103. In newly formed districts for which an interim governing board is appointed by the county superintendent of schools, a governing board member election shall be held:

(a) When the action necessary for the formation of a new school district is completed on or before the first of January of any odd-numbered year, on the first Tuesday after the first Monday in March of such year.

(b) When the action necessary for the formation of a new school district is completed after the first of February of any year, whether even numbered or odd numbered, on the first Tuesday after the first Monday in March of the next succeeding year.

The terms of the members elected at the initial election shall begin on the first day of April, and the terms of their predecessors shall expire on the 31st day of March, following the election.

35104. Except as otherwise provided in this article, and notwithstanding the provisions of Section 35101, the county superintendent of schools having jurisdiction may consolidate the election for the purpose of electing the governing board of a unified school district proposed to be formed under Chapter 2 (commencing with Section 4200) of Part 3 of Division 1 of Title 1 with the election held for adopting or rejecting the plans and recommendations for

the formation of a new district. The election shall be called, held, and conducted pursuant to the provisions of this article, Article 1 (commencing with Section 5000) of Chapter 1 of Part 4 of Division 1 of Title 1, of this chapter, and Chapter 3 of Part 4 of Division 1 of Title 1, except that the question of formation of a unified school district and any other proposition to be voted upon shall appear on the ballot before the list of candidates for election to the governing board of the proposed unified district.

35105. Subject to the procedures prescribed by Sections 5010 and 5007 with respect to newly formed unified school districts, the majority of members of the first elected board of any newly formed school district, the members of which majority received the highest number of votes, shall serve until March 31 of the second succeeding odd-numbered year. The other members' terms shall expire on March 31 of the first succeeding odd-numbered year. All such members shall continue in office until their successors are elected and qualified.

35106. When a member of the governing board of a school district which is being reorganized and which will cease to exist takes office as a member of the initial or interim governing board of a newly formed school district, he shall cease to be a member of the governing board of the district being reorganized.

The county board of education shall then appoint another person who is eligible to serve on the governing board of the district being reorganized to the vacant position for the duration of the existence of the district being reorganized, but in no case for longer than 12 months.

35107. Any person, regardless of sex, who is 18 years of age or older, a citizen of the state, a resident of the school district, a registered voter, and who is not disqualified by the Constitution or laws of the state from holding a civil office, is eligible to be elected or appointed a member of a governing board of a school district.

## Article 2. Officers and Agents

35120. (a) In any school district in which the average daily attendance for the school year 1963-1964 exceeded 400,000, each member of the city board of education or the governing board of the district may receive as compensation for his services the sum of one hundred dollars (\$100) for each meeting of the board actually attended, not to exceed one thousand dollars (\$1,000) per month. In any school district in which the average daily attendance exceeds 60,000, and which is not located in a city and county, or in any school district in which the average daily attendance exceeded 60,000 in the 1963-64 school year and was less than 60,000 in the 1972-73 school year or any subsequent school year, and which is not located in a city and county, the governing board may prescribe, as compensation for the services of each member of the board, the sum of seventy-five dollars (\$75) for each meeting of the board actually attended, not to

exceed seven hundred fifty dollars (\$750) in any month. In any school district in which the average daily attendance for the school year 1972-1973 was less than 60,000, except a district which also comes within the terms of the preceding sentence, but more than 25,000, each member of the city board of education or the governing board of the district may receive as compensation for his services not to exceed forty dollars (\$40) for each meeting of the board actually attended, not to exceed three hundred dollars (\$300) in any month. In any school district in which the average daily attendance for the school year 1972-1973 was 25,000 or less but more than 10,000, each member of the city board of education or the governing board of the district may receive as compensation for his services not to exceed thirty dollars (\$30) for each meeting of the board actually attended, but not to exceed two hundred dollars (\$200) in any month. In any school district in which the average daily attendance for the school year 1972-1973 was 10,000 or less but more than 1,000, each member of the city board of education or the governing board of the district may receive a compensation for his service not to exceed twenty dollars (\$20) for each meeting of the board actually attended, not to exceed one hundred twenty dollars (\$120) in any month. In any school district in which the average daily attendance for the 1972-1973 school year was 1,000 or less but more than 150, each member of the city board of education or the governing board of the district may receive as compensation for his services not to exceed ten dollars (\$10) for each meeting of the board actually attended, but not to exceed sixty dollars (\$60) in any month.

(b) The compensation of members of the governing board of a school district newly organized or reorganized after June 30, 1973, shall be governed by subdivision (a). For such purposes the total average daily attendance in all of the schools of the district in the school year in which the organization or reorganization became effective pursuant to Section 4062 shall be deemed to be the average daily attendance in the district for the school year 1972-73.

(c) A member may be paid for any meeting when absent if the board by resolution duly adopted and spread upon its minutes finds that at the time of the meeting he is performing services outside the meeting for the school district or districts. The compensation shall be a charge against the funds of the school district. If the city board of education or the governing board of the district is the governing board of more than one school district the compensation shall be charged against and paid by the respective school districts in the same proportion as the salary of the city superintendent of schools is charged against them. Compensation shall be reduced by an amount equal to any salary or compensation paid to the members of the city board of education from any funds of the city.

35121. In any school district organized under the provisions of Section 35502 and which is also a high school district, and which districts are governed by a board of school trustees, and which districts have an average daily attendance in the elementary school

district of at least 800, as shown by the last report of the principal of schools in the elementary school district, on file in the office of the county superintendent of schools, the trustees of the school district may appoint a clerk, who shall not be one of their own number, to act for the elementary district trustees and the high school district trustees to hold office at the pleasure of the board of trustees. The board may fix the salary of the clerk at a sum not exceeding twenty-five dollars (\$25) per month for the two districts, which shall be paid in the same manner and from the same funds as other incidental expenses of the districts are paid.

35122. In each city school district governed by a city board of education, the board may employ a city superintendent of schools and such associate superintendents of schools, and deputy or assistant city superintendents of schools as it deems necessary, and may fix and order paid their compensation, unless otherwise prescribed by law. A city superintendent of schools may be elected for a term of not more than four years. Any associate, deputy, or assistant city superintendent of schools may be elected for a term of not more than four years.

35123. Each deputy, assistant, or associate school superintendent of any city or city and county may receive such compensation as the board of education prescribes, payable in the same manner and out of the same fund as the superintendent of schools.

35124. The superintendent of schools of a unified school district which is coterminous with the boundaries of a city and county shall have all the powers and duties set forth in this code for a superintendent of any school district of the class of school which is included within said unified school district; said superintendent shall have his compensation fixed and ordered paid by the board of education, anything in a city, county, or city and county charter to the contrary notwithstanding.

35125. The superintendent of schools of a unified school district which is coterminous with the boundaries of a city and county shall also perform the duties of the county superintendent and shall be entitled to have such associate superintendents and assistant superintendents of schools as appointed by the board of education, and when appointed, they shall be designated as associate superintendents and assistant superintendents.

### Article 3. Meetings

35140. Subject to the provisions of this article the governing board of any school district shall by rule and regulation fix the time and place for its regular meetings. Such action shall be proper notice to all members of the board of the regular meetings.

35141. The governing board of any union or joint union high school district, shall hold its regular meetings either monthly or quarterly. The governing board of any other high school district, shall hold its regular meetings monthly.

35142. Subject to the provisions of Section 35141, the times at which the regular meetings of the governing board of a high school district are to be held shall be prescribed by the rules and regulations adopted by such board for its own government.

35143. The governing board of each school district shall hold an annual organizational meeting. In a year in which a regular election for governing board members is conducted, the meeting shall be held on a day within a 15-day period that commences with the date upon which a governing board member elected at that election takes office. Organizational meetings in years in which no such regular election for governing board members is conducted shall be held during the same 15-day period on the calendar. Unless otherwise provided by rule of the governing board, the day and time of the annual meeting shall be selected by the board at its regular meeting held immediately prior to the first day of such 15-day period, and the board shall notify the county superintendent of schools of the day and time selected. The clerk of the board shall, within 15 days prior to the date of the annual meeting, notify in writing all members and members-elect of the date and time selected for the meeting.

If the board fails to select a day and time for the meeting, the county superintendent of schools having jurisdiction over the district shall, prior to the first day of such 15-day period and after the regular meeting of the board held immediately prior to the first day of such 15-day period, designate the day and time of the annual meeting. The day designated shall be within the 15-day period. He shall notify in writing all members and members-elect of the date and time.

At the annual meeting the governing board of each high school district, union high school district, and joint union high school district shall organize by electing a president from its members and a clerk.

At the annual meeting each city board of education shall organize by electing a president from its members.

At the annual meeting the governing board of each other type of school district, except a community college district, shall elect one of its members clerk of the district.

As an alternative to the procedures set forth in this section, a city board of education whose members are elected in accordance with a city charter for terms of office commencing in December, may hold its annual organizational meeting required in this section between December 15 and January 14, inclusive, as provided in rules and regulations which shall be adopted by such board. At the annual meeting the city board of education shall organize by electing a president and vice president from its members who shall serve in such office during the period January 15 next to the following January 14, unless removed from such office by majority vote of all members of the city board of education.

35144. A special meeting of the governing board of a school district may be called at any time by the presiding officer of the board, or by a majority of the members thereof, by delivering personally or by mail written notice to each member of the board,

and to each local newspaper of general circulation, radio or television station requesting notice in writing. Such notice must be delivered personally or by mail at least 24 hours before the time of such meeting as specified in the notice. The call and notice shall specify the time and place of the special meeting and the business to be transacted. No other business shall be considered at such meetings by the governing board. Such written notice may be dispensed with as to any member who at or prior to the time the meeting convenes files with the clerk or secretary of the board a written waiver of notice. Such waiver may be given by telegram. Such written notice may also be dispensed with as to any member who is actually present at the meeting at the time it convenes.

35145. Except as provided in Sections 54957 and 54957.6 of the Government Code and in Section 35146 of, and subdivision (c) of Section 48914 of, this code, all meetings of the governing board of any school district shall be open to the public, and all actions authorized or required by law of the governing board shall be taken at such meetings and shall be subject to the following requirements:

(a) Minutes must be taken at all such meetings, recording all actions taken by the governing board. Such minutes shall constitute public records, and shall be available to the public. Until the governing board adopts such minutes as the official minutes, such minutes shall be labeled the unadopted minutes. The official minutes shall also constitute public records and shall be available to the public.

(b) A list of items that will constitute the agenda for all regular meetings shall be posted at a place where parents and teachers may view the same at least 48 hours prior to the time of said regular meeting, and, in the case of special meetings, at least 24 hours prior to said special meeting.

35146. Notwithstanding the provisions of Section 35145 of this code and Section 54950 of the Government Code, the governing body of a school district shall, unless a request by the parent has been made pursuant to this section, hold executive sessions if the board is considering the suspension of, or disciplinary action or any other action except expulsion in connection with any pupil of the school district, if a public hearing upon such question would lead to the giving out of information concerning school pupils which would be in violation of Section 48950 or Sections 48974 and 48975 of this code.

Before calling such executive session of the governing board of the district to consider these matters, the governing board of the district shall, in writing, by registered or certified mail or by personal service, if the pupil is a minor, notify the pupil and his parent or guardian, or the pupil if the pupil is an adult, of the intent of the governing board of the district to call and hold such executive session. Unless the pupil, or his parent, or guardian shall, in writing, within 48 hours after receipt of such written notice of intention, request that the hearing of the governing board be held as a public meeting, then the hearing to consider such matters shall be conducted by the

governing board in executive session. If such written request is served upon the clerk or secretary of the governing board, the meeting shall be public except that any discussion at such meeting that might be in conflict with the right to privacy of any pupil other than the pupil requesting the public meeting or on behalf of whom such meeting is requested, shall be in executive session. Whether the matter is considered at an executive session or at a public meeting, the final action of the governing board of the school district shall be taken at a public meeting and the result of such action shall be a public record of the school district.

35147. Each member of the governing board of a school district may be allowed for travel necessary to attend annual, regular monthly, and special meetings of the governing board the rate of mileage determined by the governing board. Mileage shall not be allowed to any member to attend any meeting except for travel required in excess of 10 miles. Orders for travel allowances shall be drawn upon the funds of the district and signed by a majority of the governing board exclusive of the payee.

35148. Meetings of the governing board of a high school district shall be held in the high school building. If there is no high school building in the high school district, or if in the judgment of the board, the interests of the district may be better served by holding its meetings elsewhere, it may meet at such other place in the high school district as it may by resolution determine.

35149. The first meeting of any newly elected or appointed school district governing board, and any annual meeting required by law to be held by such board for purposes of its organization, shall be deemed a regular meeting of the board for purposes of any requirement of law that periodic meetings shall be held by such board, and the regular business of the board may be transacted at such a meeting.

#### Article 4. Powers and Duties

35160. On and after January 1, 1976, the governing board of any school district may initiate and carry on any program, activity, or may otherwise act in any manner which is not in conflict with or inconsistent with, or preempted by, any law and which is not in conflict with the purposes for which school districts are established.

35161. The governing board of any school district may execute any powers delegated by law to it or to the district of which it is the governing board, and shall discharge any duty imposed by law upon it or upon the district of which it is the governing board.

35162. In the name by which the district is designated the governing board may sue and be sued, and hold and convey property for the use and benefit of the school district.

35163. Every official action taken by the governing board of every school district shall be affirmed by a formal vote of the members of the board, and the governing board of every school

district shall keep minutes of its meetings, and shall maintain a journal of its proceedings in which shall be recorded every official act taken.

35164. The governing board shall act by majority vote of all of the membership constituting the governing board.

35165. Notwithstanding any other provision of law, if a school district governing board consists of seven (7) members and not more than two vacancies occur on the governing board, the vacant position or positions shall not be counted for purposes of determining how many members of the board constitute a majority; and, whenever any of the provisions of this code require unanimous action of all or a specific number of the members elected or appointed to the governing board, the vacant position or positions shall be excluded from determination of the total membership constituting the governing board.

35166. The governing board of each unified school district shall have the same powers and duties as are by law granted to the governing boards of the elementary school districts, and high school districts.

35167. Except where otherwise provided, all of the provisions of this code applicable to the government, maintenance, support, functions, and administration of elementary, high school districts are applicable to the government, maintenance, support, and administration of unified school districts.

35168. The governing board of each school district, shall establish and maintain a historical inventory, or an audit trace inventory system, or any other inventory system authorized by the State Board of Education, which shall contain the description, name, identification numbers, and original cost of all items of equipment acquired by it whose current market value exceeds two hundred dollars (\$200) per item, the date of acquisition, the location of use, and the time and mode of disposal.

35169. The governing board of any school district having more than one school may appoint an advisory committee of not more than five members from each school to advise the governing board concerning the needs of that school. The members of such advisory committees shall serve at the pleasure of the governing board.

35170. The governing board of any school district may secure copyrights, in the name of the district, to all copyrightable works developed by the school district, and royalties or revenue from said copyrights are to be for the benefit of the school district securing said copyrights.

35171. The governing board of any school district shall adopt and cause to be printed and made available to each certificated employee of the district reasonable rules and regulations providing for the evaluation of the performance of certificated employees in their assigned duties.

35172. The governing board of any school district may:

- (a) Conduct studies through research and investigation as are

determined by it to be required in connection with the present and future management, conditions, needs, and financial support of the schools; or join with other school district governing boards in the conduct of such studies.

(b) Install and maintain exhibits of educational programs and activities of the school district at any county fair held in the county in which the district is located in whole or in part, or at any agricultural district fair held in the county in which the school district is located in whole or in part.

(c) Inform and make known to the citizens of the district, the educational programs and activities of the schools therein.

(d) Subscribe for membership for any school under its jurisdiction in any society, association, or organization which has for its purpose the promotion and advancement of public or private education.

(e) Subscribe for membership in, or otherwise become a member of, any national, state or local organization of governing boards of school districts or members thereof which has for its purposes the promotion and advancement of public education through research and investigation, and the cooperation with persons and associations whose interests and purposes are the betterment of the educational opportunities of the children of the state.

(f) Select a member or members of the board to attend meetings of any society, association, or organization for which the school district has subscribed for membership, or any convention to which it may pay the expenses of any employee.

35173. The actual expenses of the member or members selected to attend a meeting or convention pursuant to subdivision (f) of Section 35172 shall be allowed and paid out of the funds of the district, and the governing board of the district may authorize an advance of funds to cover such expenses, with the advance to be repaid or adjusted upon the filing of a regular claim for the actual expenses incurred. Except as otherwise provided in this section, the governing board of any school district may pay out of the same funds the actual and necessary expenses incurred in connection with activities pursuant to subdivisions (a), (b), and (d) of Section 35172.

If any studies are undertaken jointly by two or more school districts pursuant to subdivision (a) of Section 35172, the costs thereof shall be apportioned among the participating districts as determined by the agreement of the governing boards. Expenses, including transportation expenses, incurred in connection with installing, maintaining and returning exhibits provided pursuant to subdivision (b) of Section 35172 may be paid only out of funds of the district not required to be used for other purposes.

35174. The governing board of any school district or any member of the governing board of a school district may prepare or disseminate information or may make public or private appearances or statements for the purpose of urging the passage or defeat of any school measure of the district.

As used in the section, "school measure" includes any proposition

for the issuance of bonds of the school district, an increase in the maximum tax rate of the school district, the acceptance, expenditure, and repayment of state funds by the school district to enable the school district to construct buildings and other facilities, or the candidacy of any person for election to the governing board of the school district.

No school district funds, services, supplies, or equipment shall be used for the purpose of urging the passage or defeat of any school measure of the district, including, but not limited to, the candidacy of any person for election to the governing board of the district.

Nothing in this code shall be construed as prohibiting any administrative officer of a school district from appearing at any time before a citizens group, which requests his appearance, to discuss the reasons why the governing board of the school district called an election to submit to the voters of the district a proposition for the issuance of bonds or for an increase in the maximum tax rate of the district and to answer questions put to him by any taxpayer concerning the cost of such proposals.

35175. The powers and duties of boards of education in cities are as prescribed in the laws governing the respective cities, except as otherwise provided by this code.

35176. The governing body of any school district may by rule or regulation provide for the payment of the costs of replacing or repairing property of an employee, such as eyeglasses, hearing aids, dentures, watches, articles of clothing necessarily worn or carried by the employee, or vehicles when any such property is damaged in the line of duty without fault of the employee or if such property is stolen from the employee by robbery or theft while the employee is in the line of duty. If the property is damaged beyond repair or stolen, the actual value of such property may be paid. The value of such property shall be determined as of the time of the damage thereto or the robbery or theft. Limits may be established for the payment for such damaged or stolen property.

In the event the employee is paid the costs of replacing or repairing such property, or the actual value of such property, the school district shall, to the extent of such payments, be subrogated to any right of the employee to recover compensation for such damaged or stolen property. The school district may file and prosecute an action to enforce its subrogation right in the small claims court if the amount of the claim is within that court's monetary jurisdiction or may enforce its subrogation right in any other court of competent jurisdiction.

35177. The governing board of a district may by resolution limit campaign expenditures or contributions in elections to district offices.

### Article 5. Instructions From Electors

35190. The governing board of a school district, except a district having a city board of education, may, and upon a petition signed by a majority of the electors resident in the district shall, call meetings of the qualified electors of the district for consultation in regard to any affairs in the district. A meeting so called shall be competent to instruct the governing board, and the board shall, in all cases, be bound by such instructions upon the following subjects:

(a) The location or change of location of the schoolhouse, if the proposal to instruct the board in regard to changing the location of the schoolhouse is passed by a vote of two-thirds of all the electors voting at the meeting upon the proposition.

(b) The use of the schoolhouse for other than school purposes, but in no case shall the schoolhouse be used for purposes which necessitate the removal of any school desks or other school furniture.

(c) The sale and purchase of school sites.

(d) The prosecution, settlement, or compromise of any litigation in which the district is engaged, or is likely to become engaged.

The meeting may vote money not exceeding one hundred dollars (\$100) in any one year, for any of these purposes in addition to any amount which may be raised by the sale of district school property, and the insurance of property destroyed by fire, except that the proceeds of the insurance of the library and apparatus shall be paid into the library fund. All funds raised by the sale of school property may be disposed of by direction of a district meeting.

35191. The meeting provided for in Section 35190 shall be called by posting three notices in public places, one of which shall be in a conspicuous place on the schoolhouse, for not less than 10 days prior to the time for which the meeting is called. The notices shall specify the purposes for which the meeting is called, and no other business shall be transacted at the meeting.

35192. Any district meeting called pursuant to Sections 35190 and 35191 shall be organized by choosing a chairman from the electors present. The district clerk or secretary shall be clerk of the meeting, and shall enter the minutes on the records of the district. Any district meeting may be adjourned from time to time as found necessary. All votes instructing the board of trustees shall be taken by ballot, or by "ayes" and "noes" vote as the meeting may determine.

### Article 6. Liabilities

35200. The governing board of any school district is liable as such in the name of the district for all debts and contracts, including the salary due any teacher, not made in excess of the school moneys accruing to the district and usable for the purposes of the debts and contracts during the school year for which the debts and contracts are made. The district shall not be liable for debts and contracts made in violation of this section.

For the purposes of this section, moneys transferred to the funds of a newly organized school district pursuant to Section 42623 are deemed school moneys accruing to the district and usable for the purposes of contracts made for the school year preceding the date the district became effective for all purposes.

35201. The governing board of any school district shall pay any judgment for debts, liabilities, or damages out of the school funds to the credit of the district, subject to the limitation on the use of the funds provided in the Constitution. If any judgment is not paid during the tax year in which it was recovered:

(a) And if, in the opinion of the board, the amount is not too great to be paid out of taxes for the ensuing year, the board shall include in its budget for the ensuing tax year a provision to pay the judgment, and shall pay it immediately upon the obtaining of sufficient funds for that purpose.

(b) And if, in the opinion of the board, the amount of the judgment is so great that undue hardship will arise if the entire amount is paid out of taxes for the next ensuing tax year, the board shall provide for the payment of the judgment in not exceeding 10 annual installments with interest thereon up to the date of each payment, and shall include provision for the payment in each budget for not exceeding 10 consecutive tax years next ensuing. Each payment shall be of an equal portion of the principal of the judgment, except that the board, in its discretion, may provide for the prepayment of any one or more installments or any part of an installment.

35202. All claims for money or damages against a school district are governed by Part 3 (commencing with Section 900) and Part 4 (commencing with Section 940) of Division 3.6 of Title 1 of the Government Code except as provided therein, or by other statutes or regulations expressly applicable thereto.

35203. Upon request of the governing board of the school district, the district attorney of the county in which a school district is located shall, without fee or other charge, defend:

(a) The district in any suit brought against the district pursuant to Part 2 (commencing with Section 814) of Division 3.6 of Title 1 of the Government Code.

(b) Any member of the governing board of the school district, or any employee or servant of the school district, as provided in Part 7 (commencing with Section 995) of Division 3.6 of Title 1 of the Government Code.

35204. The governing board of any school district, may contract for the services of an attorney in private practice or utilize an administrative adviser to prepare and conduct school district litigation, or to assist it in the preparation and conduct of school district litigation, and compensation of such attorney pursuant to contract shall be a proper use of school district funds but the school district shall first obtain the written views of the district attorney or county counsel as to the merits of the litigation and the form of the

proposed contract of employment with the private attorney. The district attorney or the county counsel shall furnish his written views within seven days from the time he is requested by the governing board of the school district.

35205. The governing board of any school district, may, with the concurrence in writing of the district attorney or county counsel having jurisdiction thereof, contract with a qualified attorney in private practice to provide specialized legal services. Compensation of such attorney in private practice pursuant to contract under this section shall be a proper use of school district funds, but the school district shall first obtain the written views of the district attorney or county counsel, which shall be furnished within seven days from the time of the request by the governing board, as to the need for specialized legal services and on the form of the proposed contract with the private attorney.

35206. Notwithstanding any provisions of law to the contrary, as an alternative to contracting with private counsel or for the use of an administrative adviser, the governing board of any school district, may elect to supplement the legal services that customarily are being rendered by the office of county counsel or district attorney by contracting with either the office of county counsel or office of district attorney, or both, for additional services. Such additional services shall be performed at a fee and in a manner agreed upon by the governing board and the office of county counsel or office of district attorney, or both.

35207. The governing board of any school district, may contract for the services of a hearing officer pursuant to the provisions of Chapter 14 (commencing with Section 27720), Part 3, Division 2, Title 3 of the Government Code and, for purposes of that chapter, the governing board is deemed to be a local body and the school district a local public entity.

35208. (a) The governing board of any school district shall insure against:

(1) The liability, other than a liability which may be insured against under the provisions of Division 4 (commencing with Section 3200) of the Labor Code, of the district for damages for death, injury to person, or damage or loss of property; and

(2) The personal liability of the members of the board and of the officers and employees of the district for damages for death, injury to a person, or damage or loss of property caused by the negligent act or omission of the member, officer or employee when acting within the scope of his office or employment.

(b) The insurance may be written in any insurance company authorized to transact the business of insurance in the state, or in a nonadmitted insurer to the extent and subject to the conditions prescribed by Section 1763 of the Insurance Code.

(c) Nothing in this section is intended to limit or restrict the authority of the district to insure under Part 6 (commencing with Section 989) of Division 3.6 of Title 1 of the Government Code.

35209. Nothing in this code shall be construed as prohibiting the governing board of any school district from insuring, pursuant to Section 35208, against the liability of the district for damages for death, injury to person, or damage or loss of property arising out of any aviation education conducted pursuant to Article 8 (commencing with Section 51790) of Chapter 5 of Part 28 of Division 4 of this title or against the personal liability of the members of the board and of the officers and employees of the district for damages for death, injury to a person, or damage or loss of property caused by the negligent act or omission of the member, officer, or employee when acting within the scope of his office or employment in conducting any aviation education pursuant to Article 8 (commencing with Section 51790) of Chapter 5 of Part 28 of Division 4 of this title.

35210. The governing board of a school district maintaining a high school or high schools, a county superintendent of schools, the California Youth Authority, and the State Department of Education who maintain courses in driver education and automobile driver training may insure against any liability arising out of the use of motor vehicles in connection with such courses.

35211. The governing board of any school district maintaining a course of automobile driver training shall advise the parents or guardians or persons having custody of pupils of the district participating in automobile driver training courses under the jurisdiction of, or sponsored or controlled by, the district, who have signed the statement required by Section 12650 of the Vehicle Code or an application for a driver's license under Section 17701 of the Vehicle Code, of each of the following:

(a) Any civil liability of the minor which will be imposed on the parent, guardian, or other person by reason of such minor operating a motor vehicle.

(b) The insurance coverage carried by the school district, with respect to the use of motor vehicles in connection with such courses, specifically including any limitations of such coverage which limit such coverage to an amount less than the liability imposed on the parent, guardian, or other person, or which limit the nature of such coverage to exclude any activity or situation included within the liability so imposed.

35212. Notwithstanding Section 35208, the governing board of any school district or the county board of education may provide for persons authorized by the governing board or the county superintendent of schools to perform volunteer services for the district or the county superintendent of schools insurance coverage which is the same as or comparable to that provided for employees of the district or the county superintendent of schools, including coverage under the provisions of Division 4 (commencing with Section 3201) of the Labor Code.

35213. The governing body of a school district may provide by rule or regulation for the reimbursement of any person or persons

for the loss, destruction, or damage by arson, burglary or vandalism of personal property used in the schools of the district. Reimbursement shall be made only when approval for the use of the personal property in the schools was given before the property was brought to school and when the value of the property was agreed upon by the person or persons bringing the property and the school administrator or person appointed by him for this purpose at the time the approval for its use was given. The governing body may establish a maximum value of reimbursement which will be paid.

35214. The board of governors of a school district with 50,000 or more average daily attendance may provide protection from its own funds for the purpose of covering the liability of the district, its officers, agents, and employees, in lieu of carrying insurance in insurance companies as provided in Section 35208. Nothing contained herein shall be construed as prohibiting the board of education of the district from providing protection against such liability partly by means of its own funds and partly by means of insurance written by insurance companies as provided in Section 35208.

#### Article 7. Corrupt Practices

35230. The offering of any valuable thing to any member of the governing board of any school district, with the intent to influence his action in regard to the granting of any teacher's certificate, the appointment of any teacher, superintendent, or other officer or employee, the adoption of any textbook, or the making of any contract to which the board of which he is a member is a party, or the acceptance by any member of the governing board of any valuable thing, with corrupt intent, is a misdemeanor.

35231. Any contract or appointment obtained from the governing board of any school district by corrupt means is void.

35232. Any person may be compelled to testify in any lawful investigation or judicial proceeding against any person who is charged with any offense described in Sections 35230 or 35231.

35233. No member of the governing board of any school district shall be interested in any contract made by the board of which he is a member.

35234. Except as provided in Section 35235, no contract or other transaction entered into by the governing board of any school district is either void or voidable under the provisions of Section 35233, nor shall any member of such board be disqualified or deemed guilty of misconduct in office under said provisions, if the circumstances specified in the following subdivisions exist:

(a) The fact of such interest is disclosed or known to the governing board and noted in the minutes, and the governing board thereafter authorizes, approves, or ratifies the contract or transaction in good faith by a vote sufficient for the purpose without counting the vote or votes of such interested member or members, and

(b) The contract or transaction is just and reasonable as to the school district at the time it is authorized or approved.

35235. The provisions of Section 35234 shall not be applicable if the circumstances specified in any of the following subdivisions exist:

(a) The contract or transaction is between the school district and a member of the governing board of that district.

(b) The contract or transaction is between the school district and a partnership or unincorporated association of which any member of the governing board of that district is a partner or in which he is the owner or holder, directly or indirectly, of a proprietorship interest.

(c) The contract or transaction is between the school district and a corporation in which any member of the governing board of that district is the owner or holder, directly or indirectly, of five percent (5%) or more of the outstanding common stock.

(d) A board member is interested in a contract or transaction within the meaning of Section 35233 and, without first disclosing such interest to the governing board at a public meeting of the board, influences or attempts to influence another member or members of the board to enter into the contract or transaction.

35236. No contract entered into by the governing board of any school district is either void or voidable under the provisions of Sections 35233 and 35235, nor shall any member of such board be disqualified or deemed guilty of misconduct in office under such provisions, if the contract is a contract of employment of any spouse or child of any member of the governing board, and such employment is as a limited-term employee under Section 45286 or a short-term employee under Section 45103, whichever is applicable, and is made on a competitive basis between persons who are eligible, under written qualifications, and competent to fulfill the duties and responsibilities of such employment.

35237. The question of the validity or invalidity of a contract or other transaction entered into by the governing board of any school district where a member of the governing board of that district is interested in such contract or transaction, as well as the question of disqualification or misconduct in office of such interested member, shall be exclusively governed by the provisions of the Education Code which are hereby declared to and shall supersede (1) any and all provisions of law contained in any code or law of this state, except those which specifically refer to members of the governing board of school districts and which might otherwise be applicable and (2) any and all provisions of law contained in any charter or ordinance of a city, county or city and county, which might otherwise be applicable.

35238. A board member shall not be deemed to be interested in a contract within the meaning of Section 35233 of this code solely by reason of his membership in a nonprofit corporation formed under the Agricultural Code, or in a nonprofit corporation formed under the Corporations Code for the sole purpose of engaging in the merchandising of agricultural products providing that the fact of such membership is disclosed or known to the governing board and

noted in the minutes, and the governing board thereafter authorizes, approves, or ratifies the contract in good faith by a vote sufficient for the purpose without counting the vote of such member.

35239. In a school district which during the preceding fiscal year had an average daily attendance of 70 or less, a member of the governing board may receive a reasonable compensation from the district for necessary work and labor performed by him for the district in repairing the schoolhouse, fences, and other property belonging to the district, or in furnishing wood or other necessary supplies. In all such cases the requisition drawn in his favor in payment of services or supplies shall be signed by the other members of the governing board and shall be subject to approval by the county superintendent of schools.

35240. Any contract made in violation of Section 35233 or 35239 is void.

#### Article 8. Records and Reports

35250. The governing board of every school district shall:

(a) Certify or attest to actions taken by the governing board whenever such certification or attestation is required for any purpose.

(b) Keep an accurate account of the receipts and expenditures of school moneys.

(c) Make an annual report, on or before the first day of July, to the county superintendent of schools in the manner and form and on the blanks prescribed by the Superintendent of Public Instruction.

(d) Make or maintain such other records or reports as are required by law.

35251. Whenever in any school year the school register of any teacher, or other records of any school district are destroyed by conflagration or public calamity, preventing the teacher and school officers from making their annual reports in the usual manner and with accuracy, affidavits of the teacher, the school principals, or other officers of the school district, certifying as to the contents of the destroyed register or other records, shall be accepted by all school authorities for all school purposes appertaining to the school district, except that of average daily attendance.

35252. Whenever the average daily attendance of any school district has been materially affected in any school year by conflagration, public calamity, or epidemic of unusual duration and prevalence, the regular annual reports of the teacher, the school principal, or officers of the school district, shall be accepted by all school officers for all school matters appertaining to the school district, except that of average daily attendance.

35253. Whenever the destruction of records of a district is not otherwise authorized or provided for by law, the governing board of the district may destroy such records of the district in accordance with regulations of the Superintendent of Public Instruction which

he is herewith authorized to adopt.

35254. The governing board of any school district may make microfilm or photographic copies of any records of the district. The original of any records of which a photographic or microfilm copy has been made may be destroyed when provision is made for permanently maintaining such photographic or microfilm copies in the files of the district, except that no original record that is basic to any required audit shall be destroyed prior to the second July 1st succeeding the completion of the audit.

35255. In any joint school district, all returns, reports, certificates, estimates, petitions, and other papers of any kind relating to schools and school districts, required by law to be filed with or presented to the board of supervisors or county superintendent of schools, shall be filed with or presented to the supervisors or superintendent of schools of each county in which any portion of the district is situated.

#### Article 9. Property

35270. The governing board of any school district may select and acquire sites within the boundaries of the district, and may acquire or construct thereon school facilities, as provided by law.

35270.5. The governing board of any school district may acquire by eminent domain any property necessary to carry out any of the powers or functions of the district.

35271. The governing board of any school district may acquire property, construct buildings, and maintain classes outside its boundaries on sites immediately adjacent to school sites of the district within its boundaries.

35272. The governing board of any school district may acquire and pay for educational and athletic equipment, supplies and materials, and other personal property necessary to its operation of the schools, as provided by law.

35273. The governing board of any school district may accept on behalf of, and in the name of, the district, such gifts, donations, bequests, and devises as are made to the district or to or for the benefit of any school or college administered by the district. Such gifts, donations, bequests and devises may be made subject to such conditions or restrictions as the governing board may prescribe.

35274. Where a gift of land has been accepted by the governing board of a school district upon condition or agreement that the same be devoted to school purposes of the district, whether such condition or agreement is written or oral and whether the terms thereof are recited or referred to in any instrument executed in connection with the conveyance of the gift, and the board subsequently determines that the land cannot feasibly be utilized for any school purpose of the district, the board may cause the same to be reconveyed to the donor without consideration to the district; provided, that failure to do so shall not affect the rights of any bona fide purchaser or encumbrancer of such land.

35275. The governing board of any school district shall meet with appropriate local government recreation and park authorities to review all possible methods of coordinating planning, design, and construction of new school facilities and school sites or major additions to existing school facilities and recreation and park facilities in the community. Any school district planning, designing, or constructing new school facilities and school sites or major additions to existing school facilities shall file, at least annually, a report with the Department of Education setting forth its plans to achieve (a) a greater use of any joint or contiguous recreation and park facilities by the schoolchildren and (b) possible use by the total community of such school facilities and school sites and recreation and park facilities.

35276. Notwithstanding any other provision of law, in the event there are two or more identical lowest or highest bids, as the case may be, submitted to a school district for the purchase, sale, or lease of real property, supplies, materials, equipment, services, bonds, or the awarding of any contract, pursuant to a provision requiring competitive bidding, the governing board of any school district may determine by lot which bid shall be accepted.

#### Article 10. School Maintenance

35290. The governing board of any school district shall maintain schools and classes as provided by law.

35291. The governing board of any school district shall prescribe rules not inconsistent with law or with the rules prescribed by the State Board of Education, for the government and discipline of the schools under its jurisdiction.

35292. The governing board of any school district shall visit each school in its district at least once each term, and examine carefully into the management, needs, and conditions of the schools. In any school district which employs district or city superintendents of schools, it shall either visit the schools or provide that they shall be visited by the district or city superintendent of schools or his assistants.

35293. The governing board of any school district shall maintain all of the elementary day schools established by it, and all of the day high schools established by it with equal rights and privileges as far as possible.

#### Article 11. Counseling Services

35300. The governing board of any school district may provide in each school within the district an organized and functioning counseling program. Counseling shall include, but not be limited to, the following:

(a) Educational counseling, in which the pupil is assisted in planning and implementing his immediate and long-range educational program.

(b) Career counseling, in which the pupil is assisted in assessing his aptitudes, abilities, and interests in order to make realistic career decisions.

(c) Personal counseling, in which the pupil is helped to develop his ability to function with social and personal responsibility.

(d) Evaluating and interpreting test data.

(e) Counseling and consultation with parents and staff members on learning problems and guidance programs for pupils.

For the purposes of this section, a person performing counseling services to pupils shall be a school counselor possessing a valid credential with a specialization in pupil personnel services and assigned specific times to directly counsel pupils regarding their educational, vocational, and social adjustment.

A governing board of a school district which offers such counseling services, may contract with the governing boards of any other school districts, or private schools, or other public and private agencies or organizations, to render such counseling services. In so contracting, the governing board of a school district shall not contract at less than cost to a private school, or private agency or organization.

Nothing in this section shall be construed as prohibiting persons participating in an organized advisory program approved by the governing board of a school district, and supervised by a school district counselor, from advising pupils pursuant to the organized advisory program.

Notwithstanding any provisions of this section to the contrary, any person who is performing such counseling services pursuant to law authorizing the performance thereof in effect before the effective date of this section shall be authorized to continue to perform such services on and after the effective date of this section without compliance with the additional requirements imposed by this section.

## Article 12. Scholarship and Loan Funds

35310. The governing board of any school district may establish and maintain a scholarship and loan fund, to be administered by a committee composed of the members of the governing board of the school district, the school district superintendent, and such other community, faculty, administrative, and student representatives as the governing board shall determine.

The governing board shall, by rules and regulations, determine the terms of office and the method of selection of such community, faculty, administrative, and student representatives.

35311. The superintendent of school district shall be the chairman of the committee and shall be the chief executive officer of the fund.

35312. The committee shall meet at least once each fiscal year and at such other times as it may be called into session by the chairman.

35313. The committee may accept on behalf of, and in the name of, the fund, such gifts, donations, bequests, and devises as are made for the purposes of the fund. Such gifts, donations, bequests, and devises may be made subject to such conditions or restrictions as the committee may prescribe.

Any donor to the fund may impose conditions to his gift, donation, bequest, or devise. The committee shall review all such conditions and make a recommendation to the governing board as to the compatibility of such conditions with the intent and purpose of the fund. The governing board shall have the authority to prohibit the committee from accepting any proposed donation to the fund if conditions with respect to the gift, donation, bequest, or devise are incompatible with the intent and purpose of the fund, as determined by the governing board.

Except as provided in this section, in no event shall the approval of any state agency be a prerequisite to acceptance by the committee of any gift, donation, bequest, or devise.

35314. Money in the fund shall be deposited in a bank or other institution whose accounts are insured by the Federal Deposit Insurance Corporation, and any money so deposited shall be in an account or accounts fully covered by such insurance.

The committee shall establish and maintain procedures to identify clearly all money in the fund and its separate and distinct impressed trusts, if any, and from whom and to whom such money was received and disbursed.

35315. All money in the fund shall be available for making interest-free loans for educational advancement, for scholarship, or for grants-in-aid to eligible persons. An eligible person for such loans shall be any of the following:

(a) A bona fide organization of a school under the jurisdiction of the governing board of the school district.

(b) An enrollee at a school under the jurisdiction of the governing board of the school district.

(c) A graduate of a school under the jurisdiction of the governing board of the school district.

35316. An applicant for a loan from the fund shall make application therefor in accordance with reasonable rules and regulations established by the governing board of the school district, provided that such rules and regulations shall not include any conditions limiting eligibility on account of race, creed, or country of origin.

35317. All expenses in the administration of the fund including, but not limited to, operating costs, audits, promotion of the fund, and physical housing for the committee, shall be a proper charge against the funds of the school district and the annual budget of the school districts shall include funds for such expenses.

35318. The governing board of the school district shall arrange for an annual audit of the fund in the same manner as prescribed in Section 41020.

35319. The chief executive officer of the fund shall make periodic reports, but not less frequently than annually, to the governing board of the school district with respect to the status and activity of the fund.

### Article 13. Excursions and Field Trips

35330. The governing board of any school district or the county superintendent of schools of any county may:

(a) Conduct field trips or excursions in connection with courses of instruction or school-related social, educational, cultural, athletic, or school band activities to and from places in the state, any other state, the District of Columbia, or a foreign country for pupils enrolled in elementary or secondary schools. A field trip or excursion to and from a foreign country may be permitted to familiarize students with the language, history, geography, natural sciences, and other studies relative to the district's course of study for such pupils.

(b) Engage such instructors, supervisors, and other personnel as desire to contribute their services over and above the normal period for which they are employed by the district, if necessary, and provide equipment and supplies for such field trip or excursion.

(c) Transport by use of district equipment, contract to provide transportation, or arrange transportation by the use of other equipment, of pupils, instructors, supervisors or other personnel to and from places in the state, any other state, the District of Columbia, or a foreign country where such excursions and field trips are being conducted; provided that, when district equipment is used, the governing board shall secure liability insurance, and if travel is to and from a foreign country, such liability insurance shall be secured from a carrier licensed to transact insurance business in such foreign country.

(d) Provide supervision of pupils involved in field trips or excursions by certificated employees of the district.

No pupil shall be prevented from making the field trip or excursion because of lack of sufficient funds. To this end, the governing board shall coordinate efforts of community service groups to supply funds for pupils in need of them.

No group shall be authorized to take a field trip or excursion authorized by this section if any pupil who is a member of such an identifiable group will be excluded from participation in the field trip or excursion because of lack of sufficient funds.

No expenses of pupils participating in a field trip or excursion to any other state, the District of Columbia, or a foreign country authorized by this section shall be paid with school district funds. Expenses of instructors, chaperones, and other personnel participating in a field trip or excursion authorized by this section may be paid from school district funds, and the school district may pay from school district funds all incidental expenses for the use of

school district equipment during a field trip or excursion authorized by this section.

The attendance or participation of a pupil in a field trip or excursion authorized by this section shall be considered attendance for the purpose of crediting attendance for apportionments from the State School Fund in the fiscal year. Credited attendance resulting from such field trip or excursion shall be limited to the amount of attendance which would have accrued had the students not been engaged in the field trip or excursion, but shall not exceed 10 schooldays. The Superintendent of Public Instruction shall advise the Legislature of the total amount of attendance credits which resulted from all field trips or excursions during the 1972-1973 fiscal year and the 1973-1974 fiscal year.

All persons making the field trip or excursion shall be deemed to have waived all claims against the district or the State of California for injury, accident, illness, or death occurring during or by reason of the field trip or excursion. All adults taking out-of-state field trips or excursions and all parents or guardians of pupils taking out-of-state field trips or excursions shall sign a statement waiving such claims.

No transportation allowances shall be made by the Superintendent of Public Instruction for expenses incurred with respect to field trips or excursions which have an out-of-state destination. Any school district which transports pupils, teachers or other employees of the district in schoolbuses within the state and to destinations within the state, pursuant to the provisions of this section, shall report to the Superintendent of Public Instruction on forms prescribed by him the total mileage of schoolbuses used in connection with such educational excursions. In computing the allowance to such school district for regular transportation there shall be deducted therefrom an amount equal to the depreciation of schoolbuses used for such transportation in accordance with rules and regulations adopted by the Superintendent of Public Instruction.

35331. The governing board of any school district conducting excursions and field trips pursuant to this article shall provide, or make available, medical or hospital service, or both, through nonprofit membership corporations defraying the cost of medical service or hospital service, or both, or through group, blanket or individual policies of accident insurance from authorized insurer, for pupils of the district injured while participating in such excursions and field trips under the jurisdiction of, or sponsored or controlled by, the district or the authorities of any school of the district. The cost of the insurance or membership may be paid, from the funds of the district, or by the insured pupil, his parent or guardian.

The insurance may be purchased from, or the membership may be taken in, only such companies or corporations as are authorized to do business in this state.

35332. No air transportation may be provided under this article unless the air transportation is provided by chartered aircraft operated exclusively by an air carrier or foreign air carrier as defined

in subdivisions (3) and (19) of Section 101 of Title 1 of the "Federal Aviation Act of 1958" (Public Law 85-726; 72 Stat. 731) engaged in air transportation as defined in subdivision (10) of the same section while there is in force a certificate or permit issued by the Civil Aeronautics Board of the United States, or its successor, authorizing such air carrier to engage in such transportation.

#### Article 14. Costs of Accreditation

35340. The governing board of a district maintaining a high school may pay the costs of accreditation of the school by any accrediting association.

(a) The accrediting association shall have each year, as one member of each of its accrediting commissions for public schools, a representative of the Department of Education, who shall be appointed by the Superintendent of Public Instruction.

(b) Each visiting team assigned by the accrediting association to examine a school may have as a member, except in cases of unavoidable absence due to illness or other emergency, a representative of the Department of Education, who shall be appointed by the Superintendent of Public Instruction.

#### Article 15. Authority to Transport Pupils

35350. No governing board of a school district shall require any student or pupil to be transported for any purpose or for any reason without the written permission of the parent or guardian.

This section shall not apply to the transportation of a student or pupil in an emergency arising from illness or injury to the student or pupil.

35351. No public school student shall, because of his race, creed, or color, be assigned to or be required to attend a particular school.

### CHAPTER 3. FORMATION OF DISTRICTS

#### Article 1. General Provisions

35500. The State Board of Education shall establish minimum standards for the formation of districts which it shall apply in approving or disapproving petitions for the formation of new districts.

35501. When a petition for a new district is to be heard by the State Board of Education pursuant to this chapter the Superintendent of Public Instruction may, if he deems it advisable, make a survey of the districts or territory proposed to be included in the new district and of the districts contiguous thereto. He shall report the findings of the survey to the State Board of Education together with his recommendations concerning the petition. The cost of the survey shall be borne by the districts proposed to be

included in the new district, and it shall be divided among them in proportion to the assessed valuation of territory of each district proposed to be included in the new district.

35502. Every city organized before September 11, 1957, except a general law city, constitutes a separate school district unless otherwise prescribed in its original city charter. The district shall be governed by the board of education or board of school trustees of the city. Every chartered city organized on and after September 11, 1957, unless otherwise provided in its original charter, constitutes a separate school district if approved by the State Board of Education. The approval shall be by resolution. The State Board of Education shall approve such district only if it has received the favorable recommendation of the county committee and the county superintendent of schools of the county in which the city is situated. Sections 35673 to 35675, inclusive, shall apply to any annexation of territory to a city constituting a separate school district under this section. If the consent of the governing board of the district is first obtained, territory within the exterior boundaries of a city may be withdrawn from the school district of that city and annexed or transferred to an adjoining school district in the manner provided elsewhere in this code for the change of school district boundaries.

35503. Whenever the boundaries of an elementary school district and a high school district become coterminous, the districts shall be merged into a new unified district.

## Article 2. New Districts

35510. A new elementary or high school district may be formed pursuant to this article to include all or part of the territory of one or more existing districts of the same kind as the new district or to include territory which is a part of a district not of the same kind as the new district, or both. If a new district is to be formed only from all of the territory of two or more districts of the same kind as the new district, the district shall be formed pursuant to Article 3 (commencing with Section 35530) of this chapter and not pursuant to this article.

35511. An action to form a new elementary district is initiated upon the filing with the county superintendent of schools of a petition for the new district. The petition shall be signed by at least 25 percent of the registered electors residing in the territory proposed to be included in the new district.

An action to form a new high school district is initiated upon the filing with the county superintendent of schools of a petition for the new district signed by either of the following:

(a) At least 25 percent of the registered voters residing in the territory proposed to be included in the new district.

(b) A majority of the members of the governing board of each district which would be components of the proposed new district.

35512. The county superintendent of schools shall, within 20 days

after the petition for a new district is filed, examine the petition, and, if he finds it to be sufficient and signed as required by law, transmit the petition to the office of the secretary of the State Board of Education.

35513. When a petition for a new district is received in the office of the secretary of the State Board of Education the secretary shall set the petition for hearing at a regular or special meeting of the board. At least 30 days prior to the date of the hearing he shall send by registered mail a notice containing a general statement of the purpose of the petition and the time and place of the hearing to each of the following persons or agencies:

(a) The governing board and district superintendent of each school district whose boundaries would be affected.

(b) The county superintendent and county committee of each county which has jurisdiction over any of the districts whose boundaries would be affected.

(c) The persons designated in the petition as "chief petitioners."

35514. After hearing those who present themselves to speak on the petition and after hearing any findings and recommendations of the State Superintendent of Public Instruction, the State Board of Education shall approve or disapprove the formation of the proposed new district. If the board approves the formation, it shall determine whether the election shall be held only in the territory or district proposed to be included in the new district or whether the election shall be held in the district or in each of the districts from which territory would be removed to form the new districts.

35515. If the State Board of Education approves the formation of the proposed new district, the secretary of the board shall immediately notify the county superintendent of schools. Within 20 days after receiving the notification, he shall call an election, in the manner prescribed in Division 4 of this code, in the territory or districts as determined by the State Board of Education. The ballot used in the election shall contain the words "For the formation of the new \_\_\_\_\_ District with a revenue limit per unit of average daily attendance of \_\_\_\_\_, such limit to be in effect for the school year commencing \_\_\_\_\_" followed by the words "Yes" and "No" so placed that the voter may clearly indicate his choice.

35516. The county superintendent of schools shall prepare a statement of official information and statistics relating to the proposed new school district which shall include, but is not limited to, the assessed valuation, the tax rate, the rate of growth, the expected enrollment, and the support from the state which can be expected if such new district maintains an adequate school program. Such statistics shall be based upon the school year last completed before the date of the election. Upon approval by the Department of Education, the statement of official information shall be distributed to each registered elector in the territory in which the election will be held.

35517. The county superintendent of schools shall compute a

revenue limit for the proposed new school district which in his judgment will be adequate to meet the needs of the district. Such revenue limit shall appear on the ballot as prescribed by Section 35515.

35518. The statement of official information and statistics prepared and distributed pursuant to Section 35516 in connection with the proposed new school district shall contain a statement by the county superintendent of schools, of the amount by which the revenue limit, as computed by him pursuant to Section 35517, of the new district, would be required to be increased in order to produce an amount of revenue equal to the sum of the revenues of each of the districts proposed to be partially or wholly included therein produced by all of the taxes levied, pursuant to statutes authorizing taxes to be levied for particular purposes without compliance with Section 42202, in such districts during the school year prior to the fiscal year in which the election for reorganization was held.

35519. The county superintendent of schools calling the election shall cause to be prepared and distributed a statement setting forth arguments for and against the measure. The arguments shall not exceed 500 words. The argument in favor of the measure shall be prepared by an elector who signed the petition submitted pursuant to subdivision (a) of Section 35511 or by a member of the majority of a governing board pursuant to subdivision (b) of Section 35511. The argument against the measure shall be prepared by an opponent of the measure designated by the county superintendent of schools.

35520. The cost of preparation and distribution of the statement setting forth the arguments in favor of, and those opposed to, the measure and the cost of any election held hereunder shall be a charge against the general fund of the county in which the proposed new school district is situated. If such district is situated in more than one county, the cost shall be prorated against each county in the same proportion as the assessed valuation of the district lying in such county bears to the total assessed valuation of the district.

When the election is held in more than one county because the proposed new school district is to be situated in more than one county, the cost of the election shall be prorated against each county in the same proportion as the assessed valuation of the territory of the proposed new district lying in such county bears to the total assessed valuation of the proposed new district.

### Article 3. Combining Districts

35530. A new elementary, high school, or unified district may be formed pursuant to this article by combining two or more existing districts of the same kind.

35531. An action to form a new district by combining existing districts of the same kind is initiated upon the filing with the county superintendent of schools of a petition for the new district. The petition shall be signed by either of the following:

(a) At least 25 percent of the registered electors residing in each of the districts proposed to be combined.

(b) The governing boards of each of the districts.

35532. The county superintendent of schools shall, within 20 days after the petition to form a new district is filed, examine the petition and, if he finds it to be sufficient and signed as required by law, order an election in each of the petitioning districts. The ballot shall contain the words "For the formation of the new \_\_\_\_\_ district" followed by the words "Yes" and "No" so placed that the voter may clearly indicate his choice. If a majority of the votes cast in each of the districts is in favor of the new district, it shall be formed.

#### Article 4. Consolidation

35540. A majority of the registered voters residing in each of two or more elementary, union elementary, or joint union elementary school districts which are part of one or more high school districts, may present to the county superintendent of schools who has jurisdiction over the elementary school districts or a majority thereof, a petition asking for the organization of a consolidated high school district to include all of the territory of the elementary school districts represented in the petition if all of the following conditions exist:

(a) The assessed valuation of the elementary districts totals twenty-five million dollars (\$25,000,000) or more.

(b) The average daily attendance of all of the elementary districts, as determined for the preceding fiscal year, totals five hundred (500) or more.

(c) The area of all of the elementary districts totals two hundred (200) square miles or more.

(d) The high school districts from which territory is withdrawn to form a consolidated high school district shall be left with not less than twenty-five million dollars (\$25,000,000) in assessed valuation.

(e) The high school districts from which territory is withdrawn to form a consolidated high school district shall be left with an average daily attendance in grades 9 through 12 of not less than 500.

The county superintendent shall, within 20 days after receiving the petition, examine the petition and, if he finds it to be sufficient and signed as required by law, submit the petition to the county committee for approval.

35541. Upon the receipt of the petition, the county committee shall consider it and final action taken on the petition to form a consolidated high school district shall be taken only in accordance with the procedures set forth under the provisions of Chapter 2 (commencing with Section 4200) of Part 3 of Division 1 of Title 1 embodying approval by the State Board of Education and by the electorate of the proposed consolidated high school district subject to the following exceptions:

(a) The county committee shall provide in its plan submitted to

the State Board of Education for trustee areas, not to exceed seven, with each trustee area comprising at least one of the component elementary districts.

(b) The ballots used in the election shall contain the words "new consolidated high school district—yes, and new consolidated high school district—no."

(c) Candidates for the position of member of the governing board of the consolidated high school district shall be members of the governing boards of the respective component elementary school districts.

35542. Any existing high school district may, irrespective of the conditions prescribed by subdivisions (a) through (e), inclusive, of Section 35540 which shall not apply for purposes of this section, be reorganized as a consolidated high school district pursuant to the procedures prescribed by Section 35540, or may be so reorganized upon presentation to the county superintendent of schools having jurisdiction over the high school district of a petition requesting such reorganization which has been affirmatively acted upon by all of the governing boards of the elementary school districts comprising the existing high school district at regular or special meetings of the boards.

35543. Any consolidated high school district may be dissolved pursuant to the provisions of Sections 35540 and 35541, or may be so dissolved when there is presented to the county superintendent of schools having jurisdiction of the district a petition requesting such dissolution which has been affirmatively acted upon by all of the governing boards of the elementary school districts comprising the consolidated high school district.

35544. The first governing board of the consolidated high school district shall be elected at an election held separately but simultaneously with the election to form the consolidated high school district.

35545. Any consolidated high school district formed under this article shall be lapsed in the manner provided in Article 8 (commencing with Section 35720) of Chapter 3 of this part, upon failure, within two years after the making of the order specified in Section 4025, to issue bonds in an amount which will produce proceeds sufficient to enable the acquisition of one or more sites and the acquisition or construction of one or more high schools. The procedures necessary to obtain authorization to issue bonds may be consolidated with the procedures for formation of the consolidated high school district.

#### Article 5. Transfer—Component Districts

35550. An elementary district may be transferred from one high school district to another pursuant to this article.

35551. An action to transfer a component district from one high school district to another district of the same kind is initiated upon

the filing with the county superintendent of schools of a petition for transfer and an agreement to the transfer.

35552. The petition shall be signed by 25 percent of the registered electors residing in the component district or by the governing board of the high school district of which the component district is a part.

35553. The agreement to the transfer shall be signed by a majority of the members of the governing board of the high school district to which it is proposed to transfer the component district.

35554. The county superintendent of schools shall, within 20 days after the filing of the petition for transfer, examine the petition and if he finds it to be sufficient and signed as required by law, transmit the petition to the office of the secretary of the State Board of Education.

35555. When a petition for transfer of a component district is received in the office of the secretary of the State Board of Education the secretary shall set the petition for hearing at a regular or special meeting of the board. At least 30 days prior to the date of the hearing, he shall send by registered mail a notice containing a general statement of the purpose of the petition and the time and place of the hearing to each of the following persons or agencies:

(a) The governing board and district superintendent of each school district whose boundaries would be affected by the proposed transfer.

(b) The county superintendent and county committee of each county which has jurisdiction over any of the districts whose boundaries would be affected.

(c) The persons designated in the petition as "chief petitioners."

35556. After hearing those who present themselves to speak on the petition, the State Board of Education shall approve or disapprove the proposed transfer of the component district. If the board approves the transfer, it shall determine whether the election shall be held only in the component district proposed to be transferred or whether the election shall be held in the whole of the high school district from which the component district would be removed.

35557. If the State Board of Education approves the proposed transfer of the component district, the secretary of the board shall immediately notify the county superintendent of schools. Within 20 days after receiving the notification, he shall order an election in the district as determined by the State Board of Education. The ballot used in the election shall contain the words "For the transfer of \_\_\_\_\_ District from the \_\_\_\_\_ (high school) District to the \_\_\_\_\_ (high school) District" followed by the words "Yes" and "No" so placed that the voter may clearly indicate his choice.

35558. Whenever parts of an elementary district are included in more than one high school district any part or parts of the component districts may be transferred to the high school district which includes another part of the same component district pursuant to this article.

35559. An action to transfer a part of a component district from

one high school district to another pursuant to this article is initiated upon the filing with the county superintendent of schools of a petition and agreement for transfer.

35560. The petition shall be signed by 25 percent of the registered electors residing in the part of the district proposed to be transferred or by a majority of the members of the governing board of the high school district from which the territory would be taken.

35561. The agreement to the transfer shall be signed by a majority of the members of the governing board of the high school district to which it is proposed to transfer the territory.

35562. The petition shall be acted upon in the same manner as is a petition for transfer of territory pursuant to Sections 35698 to 35704, inclusive.

35563. If the petition is a petition to transfer part of an elementary district to a high school district and is signed by a majority of the electors of the territory to be included in a high school district, no agreement to the transfer as prescribed in Section 35561 is required.

35564. All or part of the territory of a union elementary school district which is not wholly included in a high school district may be included in a contiguous high school district upon petition of the governing board of the union elementary district to the board of supervisors of the county in which all the high school district is wholly situated, or, if the high school district is a joint district, to the board of supervisors of the county whose county superintendent of schools has jurisdiction over the joint high school district.

The board of supervisors shall make an order to include the territory of the union elementary district in such high school district. Upon the making of the order, the change of boundaries of the high school district to include such territory shall be deemed to be completed and effective in accordance with Sections 4062 and 4064.

A copy of the order of the board of supervisors, certified by the clerk of the board, shall be recorded in the office of the county recorder of each county in which the district whose boundaries are changed is situated.

After the expiration of one year from the date of the recording of the order, the order shall be conclusive evidence that the boundaries have legally been changed and no suit shall be maintained which questions the validity of the change of boundaries.

#### Article 6. Transfer of Territory—General Provisions

35670. Whenever a district acquired or leases for a year or more a school site which is contiguous to its boundaries but which is not included in the boundaries of a chartered city, the site is transferred to the district which acquired or leased it. The county superintendent shall certify to the county board of supervisors that the property has been acquired or leased and the board shall issue the boundary change orders as provided in Section 4025.

35671. When a territory is acquired or leased by a high school district and is transferred thereto pursuant to Section 35670 the territory is transferred also to a component district of the high school.

35672. No proceedings affecting school district boundaries shall operate to exclude a school site from the school district owning the same if after such proceedings are complete the school site remains contiguous to the boundaries of the district. The school site remains contiguous for the purpose of this section although separated from the boundaries of the district by a road, street, stream, or other natural or artificial barrier or right-of-way. Notwithstanding such proceedings the site shall continue to be a part of the district owning or occupying the same, and the buildings and improvements thereon shall remain the property of such district, except that, a plan for the formation of a new district from territory included in a union high school district, prepared by an augmented committee formed under Section 4209, may specify whether the original or a new district shall have possession of the property.

35673. Territory annexed to a city which is not contiguous to a school district within the city shall not automatically become a part of any school district within such city pursuant to Section 35502.

35674. When territory is annexed to a city pursuant to the Annexation Act of 1913 (commencing with Government Code Section 35100) or the Annexation of Uninhabited Territory Act of 1939 (commencing with Government Code Section 35300), the territory does not thereby become a part of the school district of the city pursuant to Section 35502 unless the resolution required by Government Code Section 35117 or Section 35306, as the case may be, contains a statement that the annexed territory shall become a part of the school district of the city. A statement to transfer the annexed territory to the city school district shall not be included in such a resolution unless the territory is contiguous to the school district of the city and the governing boards of each of the districts whose boundaries would be changed have agreed in writing to the transfer. If the boundaries of three or more districts would be affected and only one of the districts is not in agreement with the others, the matter may be referred to the State Board of Education whose decision in the matter will be final.

35675. Territory annexed to a city pursuant to Articles 3, 4, 7, and 8 (commencing with Sections 35200, 35250, 35450, and 35470, respectively) of Chapter 1, Part 2, Division 2, Title 4 of the Government Code shall not automatically become a part of any school district within such city pursuant to Section 35502.

35676. Whenever a city is incorporated, except a general law city, the board of supervisors of the county may transfer to the city for school purposes only, the remainder, or any part of the remainder, of the district or districts from which the city was organized, whenever a majority of the electors residing therein petition for such transfer.

The board of supervisors either when the district is formed or

subsequently may include more territory than the remainder of the district or districts from which the city was organized, whenever a petition for this purpose is presented to them, signed by the majority of the electors residing in the additional territory.

The territory transferred may be in either the same or a different county than that of the school district to which it is transferred. If the territory transferred lies in a county other than the county in which the school district to which the territory is transferred lies, the school district shall not become a joint school district by reason of the transfer of such territory.

35677. During the first five years following the effective date for all purposes of the formation of a unified school district formed pursuant to Chapter 2 (commencing with Section 4200) of Chapter 2 of Part 3 of Division 1 of Title 1, no territory shall be removed from the district under any procedure whatever afforded by law without the consent of the governing board of the district having been given prior to the commencement of the proceedings.

35678. After the expiration of the period specified in Section 35677, and throughout the next six succeeding years, whenever it is proposed under this code or under any other provision of law, to withdraw territory containing more than two hundred fifty thousand dollars (\$250,000) in assessed valuation from a unified school district maintaining 500 or more schools, such proposal shall not be effected without the prior written approval of the governing board of that district.

#### Article 7. Transfer—Between Elementary Schools

35690. Any part of an elementary, or unified, district which is less than the whole of the district may be transferred from that district to another elementary, unified district pursuant to this article.

35691. An action to transfer inhabited territory from an elementary, or unified district to another elementary, or unified district is initiated upon the filing with the county superintendent of schools of a petition for transfer signed by either:

(a) Twenty-five percent of the registered electors residing in the territory proposed to be transferred, or

(b) A majority of the members of the governing board of each school district affected by the proposed change.

A petition to be presented to electors for signature pursuant to subdivision (a) shall contain the proponent's statement of the reason or reasons for the proposed transfer.

This section shall not be applicable to any transfer to which the provisions of Section 35695 apply.

35692. An action to transfer uninhabited territory from an elementary, or unified district is initiated upon the filing with the county superintendent of schools of a petition signed by either:

(a) A majority of the members of the governing board of each school district affected by the proposed change.

(b) The owner of the property, provided said owner has filed a tentative subdivision map with the appropriate county agency.

35693. Within 20 days after the filing of a petition under subdivision (b) of Section 35692, the county superintendent of schools shall transmit the petition to the governing board of the district to which the territory is to be transferred. Such governing board shall set a date for a hearing on the petition which shall be within 30 days of the receipt of the petition and the county superintendent shall notify the chief petitioner or petitioners of the time and place of the hearing. At the hearing the petitioners and any other interested person shall be given an opportunity to present their views on the petition. The governing board then shall either approve or deny the petition. No transfer shall be made unless a majority of the members of the governing board sign a statement agreeing to the transfer. Upon completion of the hearing the governing board shall return the petition together with a notice of action of the governing board to the county superintendent of schools.

35694. The county superintendent of schools shall within 20 days after the filing of a petition under subdivision (a) or (b) of Section 35691 or subdivision (a) of Section 35692, examine it and, if he finds it to be sufficient and signed as required by law, transmit the petition to the county committee on school district organization.

If the petition is filed under subdivision (b) of Section 35692, accompanied by the statement agreeing to the transfer by the governing board of the district to which the territory is to be transferred, it shall be transmitted to the county committee on school district organization.

35698. A petition transmitted to the county committee pursuant to this article shall be considered at the next regular meeting of the committee or at a special meeting called for the purpose.

The county committee shall prepare a report and recommendation. It shall report as to whether or not in the opinion of the committee the proposed transfer would adversely affect the school district organization of the county; whether it is compatible with any master plans approved by the State Board of Education; and how, in the judgment of the committee, the proposed transfer will affect racial or ethnic integration of the schools of the districts affected. The report shall also contain a statement of the committee's findings on the adequacy of the proponent's stated reason or reasons for the proposed transfer, as set forth in the petition pursuant to Section 35691.

The report may include other pertinent matter which the county committee desires to bring to the attention of the State Board of Education, board of supervisors, or county board of education, as the case may be.

35699. If the county committee finds that the proposed transfer is compatible with the master plan of the county and would not adversely affect racial or ethnic integration of the schools of the

districts affected, the petition and report shall be transmitted to the county board of supervisors or county board of education, as the case may be, by the county superintendent of schools.

If the county committee finds that the proposed transfer is incompatible with the master plan of the county or will adversely affect racial or ethnic integration of the schools of the districts affected, the report and petition shall be transmitted to the State Board of Education by the county superintendent of schools.

35700. The State Board of Education shall adopt guidelines which may be used by county committees in making their determination of whether a transfer of territory would adversely affect racial or ethnic integration of the schools of the districts affected.

35701. (a) Any person questioning the finding of the county committee pursuant to Section 35699 that the proposed transfer of territory will not adversely affect the racial or ethnic integration of the schools of the districts affected, may appeal a decision made upon such a finding. The appeal shall be made to the State Board of Education within 30 days. The appeal shall be based upon factual and statistical evidence.

If the State Board of Education denies the appeal, the decision of the county board of supervisors or the county board of education shall stand. If the State Board of Education approves the appeal it shall review the findings of the county board of supervisors or the county board of education at a regular meeting of the board.

The State Board of Education shall notify the county committee, the county board of supervisors, or the county board of education of its decision on the appeal. For purposes of this section if the State Board of Education approves the appeal, the county board of supervisors or the county board of education shall transmit a copy of the proceedings to the State Board of Education within 30 days after receipt of notice. The State Board of Education shall review the transcript, considering all factors involved. The State Board of Education may affirm the decision of the county board of supervisors, or the county board of education, or if it appears that inadequate consideration was given to the effect of the transfer on integration of the schools of the districts affected, it shall direct the county board of supervisors or the county board of education to reconsider its decision and for this purpose to hold another hearing. The State Board of Education shall transmit a copy of its findings and recommendations to the county board of supervisors or the county board of education and the county committee on school district organization.

(b) The governing board of any school district whose boundaries would be affected by the proposed change and the chief petitioners, if any have been designated, may appeal the decision of the county board of supervisors or the county board of education made following receipt of the report and recommendation of the county committee pursuant to Section 35698. The appeal shall be made to the State Board of Education within 30 days and shall be based upon factual evidence.

The appeal shall be heard in the same manner as a petition for a new district as provided in Section 35513. After hearing the matter, the State Board of Education shall grant or deny the appeal. If the State Board of Education denies the appeal, the decision of the county board of supervisors or the county board of education shall stand. If the State Board of Education grants the appeal, it may (1) reverse the decision of the county board of supervisors or the county board of education, (2) direct the county board of supervisors or county board of education to reconsider its decision, or (3) order an election to be held in the territory comprising the districts, the boundaries of which would be affected.

The State Board of Education shall notify the county committee, the county board of supervisors, the county board of education, the governing board of each district affected, and the chief petitioners, if any have been designated, of its decision.

35702. The petition shall be heard by the State Board of Education in the same manner as a petition for a new district as provided in Section 35513.

After hearing the matter, the State Board of Education shall grant or deny the petition. If the petition is granted, the board may order that the transfer be effected or order an election to be held in the territory. The board may determine that the election shall be held only in the territory proposed to be transferred or in the entire district from which the transfer is proposed to be made.

The secretary of the board shall return the petition to the county superintendent of schools together with a notice of the decision of the state board.

35703. After receiving notice of the action taken by the State Board of Education the county superintendent of schools shall (a) file the order of the board with the county board of supervisors which board shall make the order required by Section 4025, or (b) call and conduct an election as ordered by the State Board of Education.

35704. When the petition, report and recommendation are transmitted to the county board of supervisors, the county superintendent of schools shall set the matter for hearing by the board of supervisors at a regular meeting of the board.

At least 10 days prior to the date of the hearing the county superintendent shall send by certified mail a notice of hearing and a copy of the report and recommendation of the county committee to the chief petitioners, if any have been designated, and to the governing board of each school district whose boundaries would be affected by the proposed change, and shall post copies of the notice as provided in Section 5362 or publish a copy of the notice as provided in Section 5363.

35705. After hearing all interested persons, the board of supervisors shall grant or deny the petition or require an election to be held. If the board grants the petition it shall determine whether all or only a part of the territory shall be transferred. If the board

requires an election to be held it shall determine whether the election shall be held in the whole elementary or unified district from which the territory would be transferred or whether the election shall be held only in the territory proposed to be transferred. The county superintendent of schools shall call, hold, and conduct any election required by this section.

35706. Notwithstanding any provisions of Section 35705 or other sections to the contrary:

(a) The governing board of the district to which the territory is to be transferred may file written opposition to the transfer with the county superintendent of schools prior to the hearing by the board of supervisors required to be held in accordance with Section 35704. If written opposition to the transfer of inhabited territory is so filed, the county superintendent of schools shall require an election to be held on the question. The election shall be held in the school district to which the territory is to be transferred.

(b) The governing board of the district from which the territory is to be transferred may file written opposition to the transfer with the county superintendent of schools prior to the hearing by the board of supervisors. If written opposition to the transfer of inhabited territory is so filed, the county superintendent of schools shall require an election to be held in the entire school district from which the territory will be taken.

35707. An election conducted under provisions of this article shall be determined by the majority of votes cast.

#### Article 8. Lapsation

35720. Any school district which has been organized for more than three years shall be lapsed as provided in this article if the number of registered electors in the district is less than six or if the average daily attendance of pupils in the school or schools maintained by the district is less than six in grades 1 through 8 or is less than 11 in grades 9 through 12, except that for any unified district which has established and operates at least one senior high school grade for all of the pupils of the district in the grade and continues to establish and operate at least one additional senior high school grade each year for all of the pupils of the district in the grade, the board of supervisors shall defer the lapsation of the district for one year upon a written request of the governing board of the district and written concurrence of the county committee. The board of supervisors shall make no more than three such deferments.

35721. The attendance of pupils residing in a unified district in high schools in an adjoining state pursuant to Section 44618 or Article 1 (commencing with Section 2000), Chapter 7 of Part 2 of Division 1 of Title 1 shall be deemed for the purposes of this article to be in high schools established and maintained by the unified district.

35722. Within 30 days after the close of each school year the county superintendent of schools shall report to the county board of

supervisors the name of any school district under his jurisdiction wherein the number of registered electors is less than six or the average daily attendance during the school year has been less than the numbers specified in Section 35720. The county superintendent shall at the same time recommend to the board of supervisors the district or districts to which the territory may best be annexed after the district has been lapsed.

35723. When the county board of supervisors receives the report of the county superintendent as provided in Section 35722 it shall order the district or districts to be lapsed. It shall also either order the territory of the lapsed district annexed to one or more adjoining districts as the county superintendent has recommended or it shall order a public hearing to be held on the question. If a public hearing is ordered the board shall fix the time thereof and shall provide that a notice be sent by registered mail at least 10 days before the hearing to each member of the governing boards of each of the districts which adjoin the lapsed district and to the persons who were members of the governing board of the lapsed district immediately prior to its lapsation. After the hearing the board of supervisors shall order the territory of the lapsed district annexed to one or more adjoining districts as seems to the board to be in the best interests of the adjoining districts and of the residents of the lapsed district.

35724. If the board of supervisors orders the territory of a lapsed district annexed to more than one adjoining district it may provide for such a division of the funds, property, and obligations of the lapsed district as it deems most equitable in the circumstances. If no division is provided for by the board the general provisions of Article 7 (commencing with Section 4120) of Chapter 1 of Part 3 of Division 1 of Title 1 shall apply to the division of funds, property, and obligations of the lapsed district.

#### Article 9. Dissolution

35740. Any union or joint union elementary school district formed by combining previously existing districts of the same kind, and which has been in existence three years or more, may be dissolved and the former districts composing the union or joint union elementary school district reestablished in the manner prescribed by this article.

35741. An action to dissolve a union district and to reestablish the former districts is initiated upon the filing with the county superintendent of schools of a petition signed by two-thirds of the electors residing in the district who have children attending the school or schools of the district. The petition shall set forth briefly the reasons for dissolution and request that the question be submitted to the voters in the district.

35742. When a petition for dissolution is presented pursuant to this article the county superintendent shall examine the petition and if he finds it to be sufficient and signed as required by law he shall,

within 20 days after such finding, call, hold, and conduct, in the manner prescribed in Division 4 of this code, an election in the district. The ballot shall contain the words "For dissolution of the \_\_\_\_\_ Union District and reestablishment of the \_\_\_\_\_ and \_\_\_\_\_ Districts" followed by the words "Yes" and "No" so placed that the voter may clearly indicate his choice.

35743. If two-thirds of all votes cast at the election are in favor of dissolution, the district shall be dissolved and the former districts shall be reestablished.

35744. If a majority of all the votes cast at the election is opposed to dissolution, no further petition shall be entertained or election ordered for a similar purpose within three years following the election.

35745. Within 30 days after the close of the last school year of the dissolved district the county superintendent of schools shall report to the county board of supervisors the name of any former district in the dissolved district wherein the average daily attendance of pupils residing within the boundaries of the former district has been less than six during the last year of the dissolved district. Any such former district shall be lapsed and its territory attached to one or more adjoining districts in the manner provided in Article 8 (commencing with Section 35720) of this chapter.

#### Article 10. Annexation

35760. Any district may be annexed to a contiguous district of the same kind so that the annexed district ceases to exist and its territory is merged with and becomes a part of the annexing district.

35761. An elementary or high school district may be annexed to a contiguous unified district so that the annexed district ceases to exist and the territory is merged with and becomes a part of the annexing district.

35762. Whenever provision is made in this chapter for the annexation of one school district to another, two or more school districts adjoining each other may be annexed simultaneously to a school district contiguous to one or more of the adjoining districts. If the proposed annexation of one of the adjoining districts fails and by reason of the failure any of the districts voting to be annexed would be noncontiguous to the annexing district, the annexation of the district or districts shall be void and of no effect.

35763. An annexation action pursuant to this chapter is initiated upon the filing with the county superintendent of schools of a petition for annexation and an agreement to the annexation.

35764. The petition for annexation shall be signed by 25 percent of the registered electors of the district proposed to be annexed or by a majority of the members of the governing board of that district.

35765. The agreement to the annexation shall be signed by a majority of the members of the governing board of the district to which annexation is proposed and of the governing board of the

district of which the transferring district is a component.

35766. Terms and conditions for the annexation may be agreed upon by the governing board of the district seeking annexation and the governing board of the district to which annexation is sought. Such terms and conditions shall be signed by a majority of the members of governing boards agreeing thereto.

35767. The county superintendent of schools shall, within 20 days after receiving the petition for annexation, examine the petition and agreement and, if he finds them to be sufficient and signed as required by law, order an election to be held in the petitioning district to determine the question. The ballot used in the election shall contain the words "For annexation of the (name of petitioning district) District to the (name of annexing district) District" followed by the words "Yes" and "No" so placed that the voter may clearly indicate his choice.

#### Article 11. Tax Rates, Property, Funds, and Other Obligations

35780. All property, funds, and obligations of a district included in whole in a unified school district, other than the bonded indebtedness thereof as provided in this article, and other than funds derived from the sale of bonds issued by the included district, shall become the property, funds, and obligations of the unified school district. Any funds derived from such bonds issued by the included district shall be expended by the governing board of the unified district either for the retirement of the bonds or for the acquisition of school property only in the area comprising the included district.

35781. If a recommendation is made for the unification of an area which is coterminous with a union high school district, or a city high school district, and if the voters of the high school district at an election prior to reorganization had voted a special tax for a specified period of years, the tax shall, if the unified district is subsequently established by the voters, be continued at the option of the governing board of the newly formed unified school district for only those purposes for which the tax was originally voted and for a period not to exceed the number of years for which the tax was previously authorized.

35782. If a recommendation is made for the unification of an area which is coterminous with an elementary school district and if the voters of the elementary school district at an election prior to the reorganization had voted a district tax rate in excess of the maximum tax rate, the tax shall, if the unified district is subsequently established by the voters, be continued at the option of the governing board of the newly formed unified school district for a period not to exceed the remaining number of years for which the tax was previously authorized. This section shall apply to unified districts in existence for all purposes on and after July 1, 1954.

## Article 12. Dissolution of Unified Districts

35800. After three years from the effective date of its formation, a unified school district may be dissolved in the manner prescribed by this article.

35801. An action to dissolve a unified district is initiated upon the filing with a county superintendent of schools having jurisdiction over the district of a petition signed by 25 percent of the registered voters residing in the district. The petition shall set forth briefly the reasons for dissolution and pray that the question be submitted to the county committee of the county whose superintendent has jurisdiction over the district for study and recommendations.

35802. When a petition for dissolution is presented to the county superintendent of schools, he shall examine the petition and if he finds it to be sufficient and signed as required by law he shall transmit the petition to the county committee.

35803. When the county committee has received a petition for dissolution as provided in this article, the committee shall study the district in the manner provided in Article 6 (commencing with Section 4320) of Chapter 2 of Part 3 of Division 1 of Title 1.

35804. The county committee shall study the territory included in the unified school district and shall formulate plans and recommendations to be submitted to the State Board of Education for the dissolution of the unified school district.

The State Board of Education shall act on the matter within 90 days of the receipt of the plans and recommendations of the county committee.

35805. The plans and recommendations of the county committee formulated pursuant to Section 35804 shall include the following:

(a) The description of each elementary or unified school district proposed to be established in the territory of the dissolved unified district.

(b) The inclusion of the territory of the dissolved unified district in a new high school district, unified districts or in an existing contiguous high school district or districts, or in an existing contiguous unified district or districts.

(c) Proposals for the division of property other than real property, funds, and obligations including bonded indebtedness of the unified district among the districts in which the territory is included.

Any real property used for elementary school purposes shall become the property of the elementary district in which it is located following the dissolution. Any real property used for high school or junior high school purposes shall become the property of the high school district in which it is located following the dissolution.

35806. After the State Board of Education has approved the plans and recommendations for the dissolution of the unified school district, the secretary of the board shall so notify the county superintendent of schools having jurisdiction of the district. Thereupon the county superintendent of schools shall call and

conduct a special election in the unified school district in the manner prescribed by Article 8 (commencing with Section 4400) of Chapter 2 of Part 3 of Division 1 of Title 1 except that the ballots used for voting upon the adoption or rejection of the plans and recommendations of the county committee shall have printed on them the words "For dissolution—Yes" and "For dissolution—No."

35807. If a majority of all the votes cast at the election is opposed to dissolution, no further petition shall be entertained or election ordered for a similar purpose within three years following the election.

35808. When a unified district is dissolved pursuant to this article, all property of the district, together with any money in the treasury to the credit of the dissolved district, shall be transferred to the credit of the newly formed school districts that composed the dissolved district in accordance with the plans and recommendations of the county committee. Within 30 days after the dissolution of the unified school district becomes effective for all purposes, the county auditor of the county whose superintendent of schools has jurisdiction over the district shall determine the balance of the funds standing to the credit of the dissolved unified school district as of the effective date of such dissolution. Thereupon he shall transfer from the general fund of the unified school district to the general fund of each of the newly established districts such sums as may be necessary to give effect to the plans and recommendations of the county committee. With respect to property other than funds of the district, the board of supervisors of the county whose superintendent of schools has jurisdiction of the unified school district shall make such orders as may be necessary to give effect to the plans and recommendations of the county committee.

35809. If the State Board of Education disapproves the plans and recommendations for the dissolution of the unified school district, the board shall notify the county superintendent of schools and the county committee on school district organization having jurisdiction of the district of such action, and shall submit to them a written statement of the reasons for such disapproval.

35810. In the event of such disapproval of plans and recommendations by the State Board of Education, the county committee shall continue to have jurisdiction of such plans and recommendations, and may revise them as required to overcome the State Board of Education's reasons for disapproval, and prepare them for resubmission to the state board as otherwise provided by this article. Such revised plans and recommendations shall be resubmitted to the state board no later than 18 months after the state board disapproved the original plans and recommendations, and if they are not resubmitted by that time, the county committee shall no longer have jurisdiction of such plans and recommendations.

### Article 13. Component Districts

35830. The boundaries of each high school district shall be coextensive with the boundaries of the component district or districts included within it.

35831. When the boundaries of a district which is a component of a high school district are for any cause changed to include territory not previously in the district, the territory added to the district shall at the same time become and constitute a part of the high school district.

35832. When the boundaries of a district which is a component district of a high school district are changed so as to exclude territory from the district, the excluded territory shall at the same time be excluded from the high school district.

35833. When a new elementary district is formed from territory situated wholly within one high school district, the new school district shall be a component of that high school.

35834. When a new elementary school district is formed from territory situated in more than one high school district, the county superintendent of schools shall order an election to be held in the new district to decide to which high school district the new district shall belong. The election shall be held prior to the date on which the formation of the new district is effective for all purposes.

35835. When a new elementary district is formed to include territory part of which was in one or more high school districts and part of which was in no high school district, the whole of the new district shall be a component of one high school district.

When the territory of the new district was included in not more than one high school district, the new district shall be a component of that high school district.

When parts of the territory of the new district were included in more than one high school district, the whole of the new district shall be a component of the high school district selected by the voters in an election to be ordered and held as provided in Section 35834.

### Article 14. Inclusion of All Elementary Districts in High School or Unified Districts

35850. The Legislature hereby declares as its policy that all elementary school districts shall be included in a high school district or in a unified school district.

35851. The county committee of each county in which there is an elementary school district not included within a high school district shall formulate plans and recommendations to be submitted to the State Board of Education for one of the following:

(a) The formation of high school districts or unified school districts comprising one or more of such elementary school districts and the annexation of any such elementary school districts not included therein to the existing high school district or unified school

district whose high school is most easily accessible to the pupils of the elementary school district.

(b) The annexation of each of the elementary districts to the existing high school district or unified school district whose high school is most easily accessible to the pupils of the elementary school district.

35852. The county committee of each county in which there is a portion of any elementary school district not included within a high school district shall formulate plans and recommendations to be submitted to the State Board of Education for the annexation or transfer of such portion of such elementary school district to the existing high school district or unified school district whose high school is most easily accessible to the pupils of the elementary school district.

35853. Plans and recommendations submitted to the State Board of Education which include the territory of two or more counties, which provide for annexation or transfer to a district under the jurisdiction of another county, or, which provide for the formation of a joint district shall be concurred in by the county committee of each such county.

35854. When territory has been selected for the tentative preparation of plans and recommendations, the county committee shall hold one or more public hearings in the territory at which any interested person may be heard. Any public hearing may be continued from time to time. Notice of the hearing shall be given in the manner provided in Section 4406. The notice shall contain a general statement of the purpose of the hearing and the time and place thereof.

35855. Plans and recommendations required by this article shall be formulated and submitted by county committees to the State Board of Education.

35856. The State Board of Education shall consider plans and recommendations submitted to it by a county committee and shall either approve or reject them. If the plans and recommendations submitted by a county committee provide for the inclusion of an elementary district which is coterminous with the boundaries of the county in a high school district or a unified district the State Board of Education may postpone any action until such time as they deem it appropriate for action to be taken.

35857. If the State Board of Education approves plans and recommendations submitted to it by a county committee, it shall enter an order of such approval in its minutes. The order shall describe the boundaries of a new high school district or unified school district and the boundaries as changed in an existing high school district or unified school district.

If the State Board of Education rejects plans and recommendations submitted to it by a county committee, it shall order the county committee to formulate and submit, in the manner provided in this article, new plans and recommendations to the board within such

time as may be determined by the board.

35858. The State Board of Education shall reject any plans and recommendations submitted by a county committee pursuant to this article which have the effect of making any elementary district a part of a unified district if the State Board of Education has prior to the effective date of this section received a petition of protest by electors and rejected prior plans and recommendations for the inclusion of such elementary district in a unified district pursuant to subdivision (e) of former Section 2229 of the Education Code as it read immediately prior to September 17, 1965.

35859. Upon approval of plans and recommendations submitted to it by a county committee, the State Board of Education shall notify all school districts affected and the board of supervisors and the county superintendent of schools of each county in which any part of the territory affected is situated.

The board of supervisors shall issue the necessary orders and take such other action as set forth in Section 4025.

## PART 22. SCHOOL OPERATIONS

### CHAPTER 1. MAINTENANCE OF SCHOOLS

#### Article 1. Location of Schools and Classes

37000. Except as provided in this article, any regular day school required to be maintained by the governing board of any school district shall be maintained within the boundaries of the district.

37001. Whenever the governing board of a school district is unable to maintain the school or schools in the district because of its inability to secure a teacher or teachers, or because of lack of facilities, the board may, with the approval of the county superintendent of schools having jurisdiction and the Superintendent of Public Instruction maintain the school or schools of the district elsewhere than within the district or contract for the education of the pupils of such school or schools with the governing board of another district.

37002. The governing board of any school district, may establish and maintain outside of the boundaries of the district, for persons in the service of the United States or of the state assigned to, or serving at any camp, post, or other place under the jurisdiction of the United States or of the state, or for persons employed or living on any such camp, post, or other place, or for persons evacuated from the district by order of any military officer of the United States or of the state, to meet an emergency created by war, or of any civil officer of the United States, the state, or any county, city and county, or city authorized to order such evacuation to meet an emergency created by war, and for the children or wards of such persons any schools or classes which the board may lawfully establish and maintain within the boundaries of the district.

The governing board of the district shall not maintain any school or class for other than persons and their children or wards evacuated from the district, under the provisions of this section in any other school district without the consent of the governing board of the other district.

37003. The governing board of any school district situated in a county with a population of 228,309 or more may enter into an agreement with the federal government in the form of a term special use permit whereunder the school district is authorized to construct, maintain and operate school buildings and facilities upon National Forest Service land. Such agreement shall be for a term of twenty (20) years or more, unless sooner terminated by the federal government. Subject to the approval of the Superintendent of Public Instruction, such agreement shall be on such terms and conditions as may be agreed upon between the governing board of the school district and the agency of the federal government executing such agreement.

All acts and proceedings heretofore undertaken by the governing board of any school district under any law, or under color of any law, pursuant to any such agreement or term special use permit whereunder the school district has constructed, or operated and maintained, or both, school buildings and facilities are hereby validated and declared legally effective.

37004. Notwithstanding any other provision of this code to the contrary, whenever under the provisions of Section 310 of the act of Congress entitled, "An act relating to the construction of school facilities in areas affected by federal activities, and for other purposes" (Public Law 815—81st Congress), or under any similar provisions of any other act of Congress, school facilities are constructed by any agency of the federal government on federal property for the education of children residing on property owned by the federal government, the governing board of the school district in which such facilities are located or the governing board of any adjacent school district, with the approval of the Superintendent of Public Instruction, may make arrangements with the agency of the federal government to maintain school in such facilities. The children residing on such federal property and attending such school shall be deemed to be residents of the district maintaining such school.

37005. The maintenance of a school by a district outside the boundaries of the district as provided in Sections 50, 1256, and Sections 37001 to 37002, inclusive, shall be deemed for all purposes to be or have been the maintenance of a school within the boundaries of the district.

37006. The making of a contract by the governing board of a district as provided in Sections 50, 1256, and Sections 37001 to 37002, inclusive, shall be deemed to be or have been the maintenance of a school within the boundaries of the district except that the attendance of the pupils under such contract shall be reported by,

and allowances because of the attendance of pupils under such a contract shall be made to, the district of attendance. For the purposes of this section, the average daily attendance of the district in which such pupils reside who are educated under such contract shall be the average daily attendance of the pupils educated under such contract.

37007. The governing board of a unified school district coterminous with the boundaries of a city and county, may conduct classes for wards of the juvenile court of said city and county, and acquire the necessary property and erect the necessary buildings therefor, outside of the boundaries of the said school district.

37008. The governing board of a school district coterminous with the boundaries of a city and county, may conduct classes at the airport and at the county jail which are owned and operated by the city and county, outside of the boundaries of the school district.

## Article 2. Grade Levels Generally

37020. The governing board of any elementary school district shall maintain within the boundaries of the district at least one elementary day school.

37021. The governing board of any high school district shall maintain within the boundaries of the district at least one four-year high school or one senior high school and one junior high school, as provided in Section 37101.

37022. Each unified school district shall maintain classes at least in grades 1 through 12.

37023. Whenever any unified school district maintains classes in elementary grades and provides for the high school education of the pupils of the district who reside in the district by the attendance of such pupils at the schools of a school district in an adjoining state pursuant to Section 46618 or Article 1 (commencing with Section 2000) of Chapter 7 of Part 2, of Division 1, Title 1, such unified school district shall be deemed to have complied with the requirement of Section 37022 that every unified school district shall maintain classes at least in grades 1 through 12.

37024. Except as otherwise provided, the courses of study for the day elementary schools in districts maintaining junior high schools shall embrace six years of instruction, and in districts in which junior high schools are not maintained, the courses of study shall embrace eight years of instruction. Courses shall allot six or eight years, respectively, for instruction in subjects required to be taught in such schools and may allot not more than two years for kindergarten instruction.

The course of study for any day elementary school located in an elementary school district situated in a high school district maintaining one or more junior high schools, where the districts are governed by boards of identical personnel, shall embrace six years or eight years at the discretion of the governing board of the elementary school district.

The courses of study for the day elementary schools of a unified school district maintaining one or more junior high schools shall embrace six years or eight years, or some of the elementary schools may be maintained for six years and some may be maintained for eight years. The courses of study for any day elementary school located in an elementary school district situated in a union or joint union high school district maintaining one or more junior high schools shall be six years or eight years at the discretion of the governing board of the elementary school district if such high school district did not maintain a junior high school prior to July 1, 1943, and if such elementary school is located 40 miles or more by the nearest traveled road from any junior high school maintained by such high school district.

In all other cases, the courses of study of any elementary school shall embrace eight years.

Each day elementary school may allot not more than two years kindergarten instruction.

37025. Notwithstanding anything in Section 37024 to the contrary, an elementary school district otherwise authorized to maintain a course of study for the day elementary schools of the district embracing only six years of instruction which during the school years 1943-1944 and 1944-1945 maintained a course of study for the day elementary schools of the district embracing eight years of instruction is authorized to maintain a course of study for such schools embracing six years of instruction or eight years of instruction at the discretion of the governing board of the district.

37026. Notwithstanding anything in Section 37024 to the contrary, an elementary school district otherwise authorized to maintain a course of study for the day elementary schools of the district embracing only six years of instruction which during the school years 1953-1954 and 1954-1955 maintained a course of study for the day elementary schools of the district embracing seven or eight years of instruction is hereby authorized to enter into an agreement with the governing board of the high school district maintaining junior high schools in the district, subject to the approval of the county superintendent of schools having jurisdiction, stipulating the terms upon which the elementary school district shall educate pupils of the seventh or eighth grades, or both, of the junior high school.

Any contract entered into pursuant to this section does not in any manner change the legal status of any high school district authorized to maintain seventh and eighth grades, and the authorization and obligation of such high school district to furnish school buildings for such seventh and eighth grade pupils is and shall continue to be a sole responsibility of such district.

Contracts entered into pursuant to this section may be for a term of not to exceed five consecutive school years.

## Article 3. Kindergartens

37040. The governing board of any school district that maintains one or more elementary schools shall establish and maintain such number of kindergartens as are necessary for children living in the district who are eligible for admission pursuant to Section 48000 but are not eligible for admission pursuant to Section 48010 and whose parents or guardians present them for admission.

(Amended by Stats. 1976, Ch 1011.)

## [ORIGINAL SECTION]

37040. The governing board of any school district that maintains one or more elementary schools shall establish and maintain such number of kindergartens as are necessary for children living in the district who are eligible for admission pursuant to Section 37250 but are not eligible for admission pursuant to Section 48010 and whose parents or guardians present them for admission.

37041. The kindergarten and the first grade may be combined in one class if the total class enrollment does not exceed the enrollment fixed by Section 41376 as permissible for grade 1 without reduction of average daily attendance. The attendance of the children enrolled in the kindergarten in such a class shall be counted as attendance upon a kindergarten.

37042. A preschool educational program established by a school district or by a county superintendent of schools pursuant to Section 8320 may be combined in one class with a kindergarten in a school maintained by such district or within the jurisdiction of such county superintendent of schools, in any situation in which Section 37044 is applicable with respect to the duty to establish a kindergarten. The attendance of only those children enrolled in the kindergarten in such a class shall be counted as attendance upon a kindergarten.

37043. The reports for the kindergarten classes shall be kept and made separate from other school reports.

37044. Notwithstanding any other provision of law to the contrary, the governing board of any school district that maintains one or more elementary schools may elect not to establish and maintain a kindergarten at any elementary school in which there are nine or less applicants for kindergarten attendance in the attendance area of that elementary school, subject to approval of State Board of Education.

37045. The governing board may conduct the kindergarten in the same room with and by the same teacher conducting one or more elementary grades maintained by the district. The minimum schoolday for pupils of a kindergarten which is so conducted is 180 minutes, inclusive of recesses, and the attendance of the children enrolled in the kindergarten shall be counted as attendance upon a kindergarten. The minimum schooldays for pupils of the other grades so conducted are those specified in Sections 46112 and 46113, exclusive of noon intermissions and recesses, and the attendance of the children enrolled in such other grades shall be counted as attendance upon those grades.

No teacher shall teach more than one such class in any single schoolday.

37046. The principal in each of the public schools maintaining a kindergarten shall keep a register, open to the inspection of the public, of all children in kindergarten.

#### Article 4. Contracts with the California State University and Colleges

37050. The governing board of any elementary school district within which a campus of the California State University and Colleges is located may contract with the Trustees of the California State University and Colleges for the education by such campus, of pupils eligible to attend school in the elementary school district. The pupils educated by such campus, under the contract may be housed on such campus or in a building of the school district.

#### Article 5. Junior High Schools

37060. In any high school district governed by a city or a city and county board of education, one or more junior high schools may be established at any time by resolution of the board.

37061. The governing board of a county, a union, or a joint union high school district may establish a junior high school or a system of junior high schools only when a majority of the boards of trustees of the elementary school districts comprising the high school district approve the organization of the course in writing, and file a statement of approval with the high school board, or, when at an election called for that purpose a majority of the qualified electors voting thereat vote in favor of the junior high school. Upon the order of the governing board of the high school district, the election shall be called and conducted by the county superintendent of schools having jurisdiction over the high school district, in the manner provided for school elections in Chapter 3 (commencing with Section 5300) of Part 4 of Division 1, Title 1. The ballots used at the election shall contain the words "Junior High School—Yes" and "Junior High School—No" with suitable spaces so that the voter may clearly indicate his choice in the matter.

37062. (a) The governing board of any elementary school district situated within a high school district maintaining a junior high school shall permit pupils who have completed the sixth year of the elementary school to attend the junior high school and shall pay to the high school district for the education of the pupils a tuition charge determined pursuant to this section.

(b) The amount of the tuition charge for the 1973-74 fiscal year shall be computed by the county superintendent of schools as follows:

(1) Divide the tuition paid to the high school district in the 1972-73 fiscal year, exclusive of funds received pursuant to Public Law 81-874, by the estimated average daily attendance of seventh- and eighth-grade pupils in the second principal apportionment of

that year attending junior high schools in the high school district.

(2) Divide the taxes raised from the assessed valuation of the elementary district pursuant to Section 42212, in the 1972-73 fiscal year, by the estimated average daily attendance of seventh- and eighth-grade pupils in the second principal apportionment of that year attending junior high schools in the high school district.

(3) Add the amounts computed per unit of average daily attendance in paragraphs (1) and (2) and the estimated state apportionment per average daily attendance for seventh- and eighth-grade pupils in the 1972-73 fiscal year.

(4) The increased revenue per unit of average daily attendance as computed in subdivision (f) of Section 42233 added to the amount established in paragraph (3) shall be the tuition limit per unit of seventh- and eighth-grade average daily attendance for the 1973-74 fiscal year attending junior high schools in the high school district.

(c) An elementary district whose seventh- and eighth-grade pupils are entering junior high and for which no tuition limit can be determined pursuant to subdivision (b) shall pay a tuition agreed upon between the high school district and the elementary district, which shall be no less than the revenue limit per unit of average daily attendance of the elementary district for that year.

(d) For the 1974-75 fiscal year and fiscal years thereafter, the tuition limit per unit of average daily attendance as computed pursuant to subdivision (b) or (c) shall be adjusted by the increase in the revenue limit per unit of average daily attendance computed pursuant to subdivision (g) of Section 42238 for the current year.

(e) The tuition limit per unit of seventh- and eighth-grade average daily attendance determined pursuant to this section less the state apportionment transferred pursuant to Section 41338 shall be the maximum amount that the elementary district shall pay to the high school district.

37063. In addition to the tuition limit computed in subdivision (c) of Section 37062, those elementary school districts participating in a junior high school which receive funds pursuant to Public Law 81-874 shall pay an amount equal to 90 percent of the entitlement paid from funds received pursuant to Public Law 81-874 for the pupils in grades 7 and 8 attending junior high schools in the high school district to the high school district as a part of the tuition charge pursuant to Section 37062.

37064. On or before January 1 of each fiscal year, the governing board of the elementary school district shall draw its warrant in favor of the high school district against the general fund of the elementary school district in the amount of 50 percent of the estimated tuition charge due to the high school district for the attendance of pupils at the junior high school during the current fiscal year, exclusive of state apportionments transferred pursuant to Section 41338. The amount of the warrant shall be credited to the general fund of the high school district.

On or before May 1 of each fiscal year, the governing board of the

elementary school district shall draw its warrant in favor of the high school district against the general fund of the elementary district in the amount of 30 percent of the estimated tuition charge due to the high school district for the attendance of pupils at the junior high school during the current fiscal year, exclusive of state apportionments transferred pursuant to Section 41338. The amount of the warrant shall be credited to the general fund of the high school district.

On or before July 15 following the close of the fiscal year, the governing board of the elementary school district shall draw its warrant in favor of the high school district against the general fund of the elementary school district in the amount of the difference between the final tuition as computed by this section and the sum of the first and second installment paid to the high school district. The amount of the warrant shall be credited to the general fund of the high school district. The revenues, although received after the close of the fiscal year, shall be considered revenues of the preceding fiscal year.

37065. Notwithstanding Section 37062, the governing board of an elementary school district situated within a high school district maintaining a junior high school is not required to permit its pupils who have completed the sixth year of the elementary school to attend the junior high school maintained by the high school district if the elementary school district has, pursuant to the provisions of this article, withdrawn from the junior high school system maintained by the high school district.

37066. If the tuition is not fixed before the time fixed for the county superintendent of schools to submit the budgets of the district to the board of supervisors, the county superintendent having jurisdiction over the elementary school district shall fix the amount of the tuition and shall incorporate the amount in the budgets of the districts concerned.

37067. If the trustees in any school district fail to draw warrants for tuition due to a high school district, the county superintendent of schools shall draw his warrant therefor.

37068. The tuition charge shall cease to be paid after the pupil has satisfactorily completed the seventh and eighth grades in the junior high school.

37070. The governing board of any elementary school district not situated in a high school district maintaining a junior high school may permit pupils of their district who have completed the sixth year of the elementary school to attend any junior high school in any district, and shall pay to the district for the education of the pupils by order of the county superintendent of schools, a tuition charge which shall be agreed upon by the governing board of the elementary school district and the governing board of the district maintaining the junior high school.

37071. The board of school trustees, under the arrangement described in Section 37070 shall not pay a tuition charge greater than

the average net cost per pupil for educating pupils in the junior high schools of the district of attendance, as ascertained by the county superintendent of schools, less the amount of any apportionments withheld from the elementary school district and added to the high school district pursuant to Section 41338 or Section 84327, whichever is in effect. The tuition charge shall cease to be paid after the pupil has completed two years of work in the junior high school.

37072. The average daily attendance of all pupils from a district paying any tuition provided for in this article, enrolled in the first two years of the junior high school, shall be kept separate and shall be credited to the elementary school district in which the pupils reside.

37073. Whenever the average daily attendance of pupils enrolled in the first two years of the junior high school of a district is less than 25 for any school year, the junior high school shall lapse.

37074. Any junior high school or system of junior high schools maintained by the governing board of a county, union, or joint union high school district may be discontinued pursuant to Sections 37074 to 37083, inclusive.

37075. Whenever the governing board of the high school district deems it for the best interest of the district to discontinue the maintenance of junior high schools it may adopt a resolution reciting such fact and proposing the discontinuance of the junior high school or system of junior high schools in the high school district.

37076. A copy of the resolution shall be forwarded to the governing board of each of the elementary school districts comprising the high school district and to the county superintendent of schools of the county having jurisdiction of the high school district.

37077. If each of the governing boards of the elementary school districts comprising the high school district adopt a resolution approving the proposal of the high school district to discontinue the junior high school or system of junior high schools and forward a copy of the resolution to the governing board of the high school district and to the county superintendent of schools having jurisdiction of the high school district, the maintenance of the junior high school or system of junior high schools by the governing board of the high school district shall be discontinued as provided in Sections 37074 to 37083, inclusive.

37078. Any action undertaken to discontinue the maintenance of a junior high school or system of junior high schools shall be complete prior to the first day of June of the school year in which the action was begun and shall be effective on the first day of July next succeeding.

37079. During the first school year succeeding the discontinuance of a junior high school or system of junior high schools in any high school district, the pupils of the eighth grade residing in any elementary school district situated in such high school district shall be educated by the high school district pursuant to an agreement entered into between the governing boards of the school districts concerned stipulating the terms upon which the

interdistrict attendance shall be permitted, or upon order of the county board of education prescribing the terms upon which such pupils shall be educated by the high school district.

37080. The governing board of the elementary school district shall not pay, or be required to pay, to the high school district for the education of the eighth grade pupils under Sections 37074 to 37083, inclusive, an amount in excess of the actual net cost to the high school district of educating such pupils but such amount shall not be less than the average net cost of educating pupils in the first seven grades of the elementary schools of the elementary school district.

37081. If the governing board of any elementary school district fails to draw warrants for the amount agreed upon for the education of the eighth grade pupils, or the amount ordered paid by the county board of education, the county superintendent of schools shall draw his warrant therefor.

37082. The average daily attendance of all eighth grade pupils educated by a high school district pursuant to Sections 37074 to 37083, inclusive, shall be kept separate and credited to the elementary school district in which the pupils reside.

37083. Sections 37074 to 37083, inclusive, shall not apply to any high school district which has received an apportionment of funds pursuant to the provisions of Sections 15700 to 15754, inclusive, Sections 15780 to 15795, inclusive, or Sections 16000 to 16105, inclusive, Sections 16150 to 16166, inclusive, and Sections 16190 to 16207, inclusive.

37084. Whenever a majority of the boards of trustees of the elementary school districts comprising the high school district approve a change in the course of instruction in the junior high school or junior high schools established pursuant to Sections 37060 to 37073, inclusive, and Section 37084, and file a written statement of approval with the high school board, then the course of instruction in the junior high school or junior high schools may be changed in accordance with the written statement of approval.

37085. Any school district within a junior high school or system of junior high schools, maintained by the governing board of a county, union, or joint union high school district, may withdraw from the junior high system when a majority of the qualified voters in the district voting thereat vote in favor of withdrawal.

37086. Election proceedings may be commenced upon by either of the following means:

(a) A petition signed by thirty-five percent (35%) of the registered voters residing in the district shall be presented to the county superintendent of schools of the county in which the district is situated, setting forth briefly the reasons for withdrawal and praying that the question be submitted to the voters of this district.

(b) The governing boards of all school districts involved shall agree that an election be held and shall notify the county superintendent of schools of such agreement.

37087. The county superintendent of schools, upon receiving the

petition or notice of agreement shall immediately order an election in the district, submitting to the voters of the district the question of withdrawal.

37088. Any action undertaken to withdraw from a junior high school or a system of junior high schools is complete when the county superintendent issues a certificate of election results. Any such action completed prior to the first day of March shall be effective on the next succeeding July 1 and any such action completed on or after the first day of March shall be effective on the second succeeding July 1.

The pupils in grades 7 and 8 who are withdrawn from the junior high school program pursuant to Sections 37086 and 37087 shall not be counted in determining the eligibility of the elementary district withdrawing for square footage allowances for a state school building aid loan pursuant to Section 15719 if they have already been counted by the high school district maintaining the junior high school program as the basis upon which a state school building aid loan has been granted to the high school district.

#### Article 6. High Schools

37100. Each high school district may, in accordance with law, establish and maintain any of the secondary schools mentioned in Sections 78003 to 78008, inclusive, and Section 52514, Sections 51 to 53, inclusive, 48040, 52500 to 52504, inclusive, 52505 to 52510, inclusive, Article 14 (commencing with Section 35340) of Chapter 2 of Part 21, Article 5 (commencing with Section 37060), Article 6 (commencing with Section 37100) of Chapter 1, Article 4 (commencing with Section 37250) of Chapter 2 of this part, Article 3 (commencing with Section 48020) of Chapter 1, Article 2 (commencing with Section 48810) of Chapter 5, Article 7 (commencing with Section 49040) of Chapter 6 of Part 27, Article 3 (commencing with Section 51720) of Chapter 5 of Part 28 of Division 4, of this title.

37101. Each high school district shall establish and maintain for the convenience of the day pupils of the district at least one four-year high school, or in lieu thereof, at least one junior high school, and one senior high school, or if the high school district is situated within a community college district maintaining a four-year community college, at least one junior high school providing for the education of pupils of grades 7 to 10, inclusive.

A high school district which is coterminous with an elementary school district and which is a part of a community college district maintaining a community college offering four years of work including the 11th, 12th, 13th, and 14th grades may, at the option of the governing board, maintain only one or more junior high schools.

No junior high school or system of junior high schools may be established in a high school district under the provisions of this section except as authorized by Sections 37060 to 37073 inclusive, and Section 37084.

37102. If the governing board of any county high school district deems it expedient to establish and maintain more than one county high school, the additional schools may be established and maintained in the manner prescribed in Sections 51 to 53, inclusive, 48040, 52500 to 52504, inclusive, 52505 to 52510, inclusive, Article 14 (commencing with Section 35340) of Chapter 2 of Part 21, Article 5 (commencing with Section 37060), Article 6 (commencing with Section 37100) of Chapter 1, Article 4 (commencing with Section 37250) of Chapter 2 of this part, Article 3 (commencing with Section 48020) of Chapter 1, Article 2 (commencing with Section 48810) of Chapter 5, Article 7 (commencing with Section 49040) of Chapter 6 of Part 27, Article 3 (commencing with Section 51720) of Chapter 5 of Part 28 of Division 4, of this title, Sections 52511 to 52516, inclusive, and Section 52514 for establishing and maintaining a county high school.

37103. Each high school district may, in addition to the schools provided for in Section 37101, establish and maintain one or more continuation high schools.

37104. Any person who is eligible to attend high school and who does not reside in a high school district or in a unified school district may attend high school in any high school district or unified school district in the county in which he resides or in another county.

37105. No charge for tuition shall be made in any high school district of this state, except as provided in Article 6 (commencing with Section 37100), excluding Section 37113, of Chapter 1 of this part, Article 4 (commencing with Section 48030) of Chapter 1, Article 2 (commencing with Section 48810) of Part 27, of Division 4 of this title.

37106. Whenever a person residing in an elementary school district but not in any high school district or in any unified school district attends a high school in any district within the state, the governing board of the district maintaining the high school shall on or before July 15th of the succeeding school year certify, separately, to the county superintendent of schools having jurisdiction over the elementary school district the amount chargeable to the elementary school district and the amount chargeable to the county school service fund under the jurisdiction of the county superintendent of schools, as tuition for the education of the person during the preceding school year.

37107. The tuition for the education of any person described in Section 37106 shall be computed as follows:

From the total current expense of education, exclusive of the expense of transportation, of pupils in grades 9 through 12 of the high school district or unified school district for the preceding school year subtract state and federal apportionments received by the district except federal apportionments under the act of Congress entitled, "An act to provide financial assistance for local educational agencies in areas affected by federal activities, and for other purposes," approved September 30, 1950 (Public Law 874—81st Congress), or

under any similar provision of any other act of Congress received on account of the attendance of pupils residing in the district; and divide the remainder by the total number of units of average daily attendance in grades 9 through 12 of the high school district or unified school district during the preceding school year.

The total tuition chargeable to any elementary school district shall be computed as follows:

(a) Multiply the resulting quotient by the units of average daily attendance during the preceding school year of pupils in grades 9 through 12 residing in the elementary school district, and not residing on a military reservation of the United States, and attending the high schools of the high school district or unified school district; subtract the amount of federal apportionments under the act of Congress entitled, "An act to provide financial assistance for local educational agencies in areas affected by federal activities and for other purposes," approved September 30, 1950 (Public Law 874—81st Congress), or under any similar provision of any other act of Congress received on account of attendance of pupils residing in the elementary school districts, and not residing on a military reservation of the United States, and attending the high schools of the high school district or unified school district; add two hundred dollars (\$200) for each of such units of average daily attendance for the use of buildings and equipment; and add the actual expense of transportation provided by the high school district to such pupils.

(b) Add to the total arrived at under subdivision (a) the total current expense less federal and state apportionments to the high school district or unified school district of education of pupils of the elementary school district as described in Section 37106 in any classes whatever other than classes in grades 9 through 12 of the high school district or unified school district.

The total amount chargeable against the county school service fund of any county shall be determined by: (a) multiplying the quotient utilized under subdivision (a), above, by the units of average daily attendance during the preceding school year of pupils in grades 9 through 12 residing in the elementary school district, and on a military reservation of the United States, and attending the high schools of the high school district or unified school district; and (b) adding thereto the total current expense less federal and state apportionments to the high school district or unified school district of education of pupils of the elementary school district as described in Section 37106 and residing on a military reservation of the United States in any classes whatever other than classes in grades 9 through 12 of the high school district or unified school district.

For the purposes of this section, the Superintendent of Public Instruction shall define the term "total current expense of education" and the term "actual expense of transportation."

37108. The county superintendent of schools shall transmit a copy of the certificate certifying the amount chargeable against any elementary school district under his jurisdiction not later than the

succeeding July 20th to the board of supervisors of each county within which any part of the elementary school district is located.

37109. If the elementary school district is located entirely within one county, the board of supervisors shall at the time and in the manner prescribed by Sections 14200 to 14203, inclusive, Sections 42200 to 42204, inclusive, Section 85112, Article 3 (commencing with Section 14240) of Chapter 2 of Part 9, Article 2 (commencing with Section 42610) of Chapter 9 of Part 24, levy a tax on all taxable property in the elementary school district sufficient to raise the amount set forth in the certificate. If the elementary school district is located in more than one county, the tax shall be determined, levied, and collected at the time and in the manner prescribed by Sections 14200 to 14203, inclusive, Section 85112, Article 3 (commencing with Section 14240) of Chapter 2 of Part 9, , Article 1 (commencing with Section 42200) of Chapter 7, Part 24, Article 2 (commencing with Section 42610) of Chapter 9 of Part 24. The maximum rate of school district tax which may be levied pursuant to this section for any high school district or unified school district in any school year on each one hundred dollars (\$100) of assessed valuation within the elementary school district shall be seventy-five cents (\$0.75) if the average daily attendance of high school pupils living within the elementary school district and attending a high school in such high school district or unified school district during the preceding school year did not exceed 15.

(Amended by Stats. 1976, Ch. 1011.)

[ORIGINAL SECTION]

37109 If the elementary school district is located entirely within one county, the board of supervisors shall at the time and in the manner prescribed by Sections 14200 to 14203, inclusive, Sections 42200 to 42204, inclusive, Section 85112, Article 3 (commencing with Section 14240) of Chapter 2 of Part 9 of Division 1 of Title 1, Article 2 (commencing with Section 42610) of Chapter 9 of Part 24, of this division levy a tax on all taxable property in the elementary school district sufficient to raise the amount set forth in the certificate. If the elementary school district is located in more than one county, the tax shall be determined, levied, and collected at the time and in the manner prescribed by Sections 14200 to 14203, inclusive, Section 85112, Article 3 (commencing with Section 14240) of Chapter 2 of Part 9, of Division 1, Title 1, Article 1 (commencing with Section 42200) of Chapter 7, Article 2 (commencing with Section 42610) of Chapter 9 of Part 24, of this division. The maximum rate of school district tax which may be levied pursuant to this section for any high school district or unified school district in any school year on each one hundred dollars (\$100) of assessed valuation within the elementary school district shall be seventy-five cents (\$0.75) if the average daily attendance of high school pupils living within the elementary school district and attending a high school in such high school district or unified school district during the preceding school year did not exceed 15.

37110. The receipts of the tax shall be credited by the county treasurer of each county to the high school district or unified school district, except that if the county superintendent of schools of another county has jurisdiction over the high school district or unified school district, the county auditor of each county in which any portion of the tax is collected shall determine the amount of the receipts of the tax and shall direct the county treasurer of his county to transmit the amount to the county treasurer of the county of

which the superintendent of schools has jurisdiction, who shall credit the amount to the high school district or unified school district. The county treasurer of any county crediting the receipts of the tax to a high school district or unified school district shall notify the county superintendent of schools and county auditor of the county and the governing board of the high school district or unified school district of the fact, naming the amount credited.

37111. The county superintendent of schools shall pay to each high school district and unified school district from the unapportioned county high school fund under his jurisdiction, the amount chargeable to the fund as shown by the certificate of the governing board of the high school district or unified school district.

37112. This section applies to any elementary school district wholly included in a unified school district or a high school district, including a union high school district, joint union high school district, or county high school district, and which inclusion is effective for all purposes on or after July 1, 1956, and which elementary school district is required, pursuant to this article, to pay, during the first fiscal year commencing on the date inclusion is effective for all purposes, to the unified district or high school district in which it is included two hundred dollars (\$200) for each unit of average daily attendance for use of buildings and equipment as part of the tuition charge on account of persons residing in the elementary district who, during the preceding fiscal year, attended high school in the high school district or unified district in which such elementary district is included.

Notwithstanding other provisions of law, such elementary district shall not be liable for the payment of such two hundred dollars (\$200) a unit of average daily attendance if, prior to the date the inclusion is effective for all purposes, the elementary district assumes liability for the outstanding bonded indebtedness of the high school district, if it is included in a high school district, or for the outstanding bonded indebtedness of the unified district for high school and community college purposes, if the elementary district is included in a unified district.

For the purposes of this section, the county superintendent of schools shall determine, pursuant to Section 15106, the amount of outstanding indebtedness of a unified school district issued for high school and community college purposes.

Liability for such outstanding bonded indebtedness may be assumed at any election held for such purpose in accordance with law except that, if the elementary district is included in a unified school district, at the request of the governing board of such elementary district, the ballot shall contain, in addition to other required provisions, the words "For assumption of liability of outstanding bonded indebtedness of \_\_\_\_\_ District issued for high school purposes and community college purposes [if there is no such indebtedness for community college purposes the reference to community college purposes shall be deleted]—Yes" and "For

assumption of liability for outstanding bonded indebtedness of \_\_\_\_\_ District, issued for high school purposes and community college purposes [if there is no such indebtedness for community college purposes, the reference to community college purposes shall be deleted]—No.”

37113. The governing board of every district maintaining a high school shall, subject to space being available, admit pupils regularly enrolled in nonpublic schools to enroll in vocational and shop classes and in classes relating to the natural and physical sciences.

The attendance for each pupil so enrolled shall be credited to the district on the same proportion as the number of minutes of the pupils' attendance bears to the minimum schoolday.

The attendance of such pupils shall be computed by dividing the total number of minutes of actual attendance by 240. Such attendance shall be included in the computation of apportionments to the district from the State School Fund.

## CHAPTER 2. SCHOOL CALENDAR

### Article 1. Generally

37200. The school year begins on the first day of July and ends on the last day of June.

37201. (a) A school month is 20 days or four weeks of five days each, including legal holidays; provided, however, that for the purposes of counting attendance only in providing for a school calendar the Christmas vacation period, or any portion thereof, may be excluded by the school district in the definition of a school month.

(b) The provisions of subdivision (a) of this section are limited to defining a school month for attendance counting purposes only. A school month for employee pay purposes may be designated by the governing board to begin on any day of the week.

37202. Except where a school has been closed by order of a city or a county board of health, or of the State Board of Health, on account of contagious disease, or where the school has been closed on account of fire, flood, or other public disaster, the governing board of any school district shall maintain all of the elementary day schools established by it for an equal length of time during the school year, all of the day high schools established by it for an equal length of time during the school year.

37203. When it is necessary for the convenience of the residents of any district that the school be maintained a part of the year in one portion of the district, and a part of the year in another portion of the district, the aggregate of the time the school is maintained in the different portions of the district shall be the time for which a school has been maintained in the district during a school year.

## Article 2. School Closing—Agriculture

37210. During the continuance of a state of war between the United States and any foreign power, the Superintendent of Public Instruction, with the approval of the Governor, may, whenever in his opinion it is necessary for the planting or harvesting of crops or for other agricultural or horticultural purposes and is for the welfare of the state, make an order closing, for such time as may be specified, any or all educational institutions supported wholly or in part by the state, or any grade or class thereof, and may, in like manner, by similar order, postpone the opening of any or all such educational institutions, or any grade or class thereof, during the continuance of a state of war.

37211. The annual school term shall not be reduced to less than six months pursuant to this article.

37212. Whenever any educational institution is closed, or the opening is delayed pursuant to this article, the salary of any teacher regularly employed shall be paid according to any written contract between the governing board of the educational institution and the teacher, or, if there is no written contract, according to any salary schedule adopted by the board. If there is neither contract nor salary schedule, the total salary paid for any school year in which the order closing or postponing the opening of schools is made shall not be less than the salary paid by the governing board of the educational institution for similar services during the preceding school year.

37213. An order issued under this article may be made applicable to any district, city, city and county, county or any group thereof, as the Superintendent of Public Instruction may determine and specify, and may be altered, amended, or rescinded from time to time.

37214. Nothing contained in this article shall in any manner affect the amount of money apportioned to any school district during any school year.

## Article 3. Saturdays and Holidays

37220. Except as otherwise provided the public schools shall continue in session or close on specified holidays as follows:

(a) The public schools shall close on January 1st, February 12th known as "Lincoln Day," the third Monday in February known as "Washington Day," the last Monday in May known as "Memorial Day," July 4th, the first Monday in September known as "Labor Day," September 9th known as "Admission Day," November 11th known as "Veterans Day," that Thursday in November proclaimed by the President as "Thanksgiving Day," and December 25th.

(b) The Governor in appointing any other day for a public fast, thanksgiving, or holiday may provide whether the public schools shall close on the day. If the Governor does not provide whether the public schools shall close, they shall continue in session on all special or limited holidays appointed by the Governor, but shall close on all

other days appointed by the Governor for a public fast, thanksgiving, or holiday.

(c) The public schools shall close on every day appointed by the President as a public fast, thanksgiving, or holiday, unless it is a special or limited holiday.

(d) The public schools shall continue in session on all legal holidays other than those designated by or pursuant to this section and shall hold proper exercises commemorating the day.

(e) When any of the holidays on which the schools would be closed fall on Sunday, the public schools shall close on the Monday following.

(f) When any of the holidays on which the schools would be closed fall on Saturday, the public schools shall close on the preceding Friday, and such Friday shall be declared a state holiday.

(g) If any holiday on which the public schools are required to close pursuant to subdivision (a) occurs under federal law on a date different than the date specified in subdivision (a), the governing board of any school district may close the public schools of the district on the date recognized by federal law and maintain classes on the date specified in subdivision (a).

(h) Nothing in this section is to be interpreted as authorizing a school district governing board to maintain schools in its district for a lesser number of days during the school year than the minimum established by law.

37221. (a) Notwithstanding any other provision of Sections 37220 to 37231, inclusive, whenever the Governor appoints any other day as a holiday and does not provide for the closing of the public schools, but such public schools do close, such closing shall be deemed a closing for a holiday declared by the governing board pursuant to the provisions of Section 37222.

(b) All certificated employees shall be deemed to have served the public schools on holidays appointed by the Governor during the calendar year of 1969.

All payments to certificated employees of the public schools for the holidays appointed by the Governor heretofore made during the calendar year 1969, shall be deemed to have been earned and the payments therefore are validated, and any certificated employee of the public schools shall be granted and paid for such holidays appointed by the Governor during the calendar year 1969 as provided for in Section 45041, if the appointed holiday occurred during the school term. In the event the holiday occurred during summer school, the certificated employee shall be paid for the appointed holiday in an amount such certificated employee would have received had he served on such holiday, which amount shall be determined in accordance with the rate of pay he is receiving pursuant to Section 45049.

(c) All classified employees shall be deemed to have served the public schools on holidays appointed by the Governor during the calendar year of 1969.

All payments to classified employees of the public schools for the holidays appointed by the Governor heretofore made during the calendar year 1969, shall be deemed to have been earned and the payments therefore are validated. Any school district which closed schools during calendar year 1969 for holidays appointed by the Governor but did not pay classified employees for those holidays shall do so, and employee entitlement shall be established under Section 44805.

37222. Notwithstanding any other provision of Sections 37220 to 37231, inclusive, and Section 52370, the governing board of any school district may declare a holiday in the public schools under its jurisdiction when good reason exists.

37223. All public schools and educational institutions throughout the state shall hold exercises in memory of Abraham Lincoln and George Washington on February 12th and February 22nd, respectively, or on the day in which school is in session next preceding, if the specified day is a holiday.

37224. All public schools and educational institutions shall include in the schoolwork on or near the anniversary of the adoption of the Constitution of the United States exercises and instruction for pupils suitable to their ages in the purpose, meaning, and importance of the Constitution of the United States, including the Bill of Rights.

37225. March 7th of each year, the anniversary of the birthday of Luther Burbank, is set apart and designated Conservation, Bird, and Arbor Day.

All public schools and educational institutions shall observe Conservation, Bird, and Arbor Day not as a holiday, but by including in the schoolwork of the day, suitable exercises having for their object instruction as to the economic value of birds and trees, and the promotion of a spirit of protection toward them, and as to the economic value of natural resources, and the desirability of their conservation.

37226. February 15th of each year, the anniversary of the birthday of Susan B. Anthony, is designated and set apart as Susan B. Anthony Day.

All public schools and educational institutions shall observe this day with suitable exercises, directing attention to the development of the political and economic status of women in the United States, through the efforts of Susan B. Anthony.

37227. March 5th of each year, the anniversary of the death of Crispus Attucks, the first black American martyr of the Boston Massacre, is designated and set apart as Black American Day to direct attention to the development of black people in the United States of America.

All public schools and educational institutions shall observe this day with suitable exercises.

37227.5. All public schools and educational institutions throughout the state shall, on January 15th of each year, the anniversary of the birth of Dr. Martin Luther King, Jr., hold suitable

exercises commemorating, and directing attention to the history of, the civil rights movement in the United States, and particularly the role therein of Dr. Martin Luther King, Jr.

37228. The governing board of any elementary, high school, or unified school district or any county superintendent of schools may maintain classes on Saturday or Sunday, or both.

Such classes may include, but are not limited to, continuation classes, and the programs of a regional occupational center or regional occupational program.

Except as otherwise provided in this code, the attendance of any pupil in a class or program held on a Saturday or Sunday shall not result in the crediting of more than five days of attendance for such pupil per week.

Attendance at classes conducted on Saturday or Sunday, or both, shall be at the election of the pupil or, in the case of a minor pupil, the parent or guardian of the pupil.

Except as otherwise provided in this code, any class which is offered on a Saturday or Sunday shall be one offered during the regular Monday-through-Friday school week.

The voluntary attendance of pupils in approved programs for mentally gifted minors, as defined in Section 52200, in special educational activities conducted on Saturday or Sunday shall not be included in the computation of the average daily attendance of the district.

37229. The governing board of any school district maintaining a high school or high schools, a county superintendent of schools, the California Youth Authority, and the State Department of Education authorized to maintain automobile driver training classes may maintain such classes on Saturday, Sunday, and during summer, Christmas, and Easter vacations when schools are not in session.

37230. During any national emergency declared by the President of the United States of America, or during any war in which the United States of America is engaged, upon a finding by the Department of Employment Development that spoilage of a perishable crop will result because of a critical shortage of farm labor the governing board of a school district in which such crop is located may maintain the schools of the district on Saturdays, the first day of January, the 12th day of February, the third Monday of February, the last Monday of May, and the fourth Monday in October, in order to make pupils of the district available for the harvesting of crops without undue reduction in the number of days the schools of the district are maintained.

Nothing in this section shall permit or allow any student under the age of fourteen (14) to harvest such crops nor shall any student be permitted or allowed to use or to be in a position to use any dangerous equipment.

37231. Whenever climatic conditions of a school district are such as to render it necessary that the schools be closed as early in the year as possible or opened as late in the year as possible, the governing

board of the school district may maintain schools and classes on any days other than Saturday, Sunday, the 25th day of December, the first day of January, the fourth day of July, and any day appointed by the President or the Governor for a public thanksgiving.

When classes are maintained on holidays pursuant to this section, proper exercises shall be held commemorating the day.

37232. Notwithstanding any other provisions of this article, the governing board of any school district providing, or any county superintendent of schools providing by agreement with the governing board of one or more school districts, programs and classes in outdoor science education and conservation education pursuant to Article 5 (commencing with Section 8760) of Chapter 4 of Part 6 of Division 1, Title 1, may maintain the programs and classes in outdoor science education and conservation education (a) on the fourth day of July when it does not fall on either a Saturday or a Sunday or (b) when it falls on either a Saturday or a Sunday, on the respective Friday or Monday which would otherwise, pursuant to subdivision (f) or (e), respectively, of Section 37220, be a holiday on which the public schools would be required to be closed.

Credit may be granted for attendance at programs and classes authorized by this section only for those pupils attending the program.

#### Article 4. Summer School

37250. The governing board of a district maintaining one or more high schools may maintain a summer school at any of such high schools during the period between the close of one academic year and the beginning of the succeeding academic year in accordance with rules and regulations of the State Board of Education and with the prior written approval of the Superintendent of Public Instruction.

The term "academic year" as used in this section means that portion of the school year during which the regular day high school is maintained, which period must include not less than the number of days of teaching required to entitle the district to apportionments of state funds.

### CHAPTER 3. YEAR-ROUND SCHOOL OPERATION

#### Article 1. General Provisions

37400. It is the intent and purpose of the Legislature in enacting this chapter to authorize the establishment of a five-year experimental program in the year-round school operation by two or more school districts selected by the Superintendent of Public Instruction. This five-year experimental program, though limited in scope, has an essential statewide general purpose in that it shall serve to provide the Legislature and the various state and local

governmental agencies involved in administration of the public school system with information and experience concerning the problems involved in providing for year-round operation of public schools throughout the state, and the feasibility thereof. It will also provide valuable information concerning the public response which may be accorded such programs, and the efficacy of such programs in accelerating the completion of the course of instruction by the pupils.

The Legislature is especially concerned and aware of the mounting costs of acquisition and construction of school sites and facilities, and is, therefore, desirous of determining whether those fiscal burdens may be reduced by increased utilization of existing plants and facilities.

The Legislature is also interested in determining whether the replacement of the present system of lengthy summer vacations with shorter quarterly vacation periods will result in a diminution of the student's vacation "learning loss."

This chapter shall be liberally construed to permit the accomplishment of these ends and to facilitate the complete evaluation of the school operations to enable the Legislature to determine what administrative, social, and other problems are presented thereby, and whether the year-round school operation may feasibly be put into operation on a broader scale throughout the state.

## Article 2. Experimental Program

37410. The Superintendent of Public Instruction shall authorize a five-year experimental program in the year-round school operation by two or more school districts, selected by the Superintendent of Public Instruction. The program may be established either in one or more of the schools within each of the selected districts or in all grade levels throughout the entire district, or both, as determined by the Superintendent of Public Instruction. The experimental programs shall commence during the 1972-73 school year, and terminate during the 1976-77 school year.

The program shall be conducted pursuant to the provisions of this chapter, and the approval for participation in the program by the Superintendent of Public Instruction shall be based upon a program proposal and year-round operation budget submitted by the governing boards of the participating school districts.

37411. The Superintendent of Public Instruction shall adopt all rules and regulations prescribing necessary standards and making provision for all other matters necessary for the effective administration of this chapter.

37412. The Superintendent of Public Instruction, notwithstanding any provisions of law to the contrary, shall have the power to require the submission of such reports and information, and to take such other actions as are reasonably necessary, to effectuate the purposes of this chapter.

## Article 3. Elements

37420. The year-round programs established pursuant to this chapter shall involve the conduct of school operations throughout a 12-month academic year. The academic year and academic quarters may be established without reference to the school year as defined in Section 37200. Regular schools and classes shall be conducted for a total of no fewer than 175 nor more than 200 days during the academic year.

37421. The provisions of Article 1 (commencing with Section 48200), Articles 3 through 6, inclusive (commencing with Section 48220), of Chapter 2 of Part 27, of Division 4 of this title, and all other laws relating to compulsory full-time education and the enrollment and attendance of pupils in the kindergarten, elementary, and secondary grades shall be applicable with respect to the regular schooldays prescribed for the entire academic year and for each academic quarter thereof established for the school at which a program pursuant to this chapter is conducted, and to the attendance area established for such school; subject to the power of the governing board to permit individual pupils to attend schools of the district maintained in other attendance areas. The governing board shall exempt from the year-round program any pupil whose parent or guardian requests such exemption.

37422. The courses of instruction offered at a school maintained pursuant to this chapter shall meet all applicable requirements of law, including the requirements prescribed by or pursuant to Sections 51550, 51551, 51820, Chapter 2 (commencing with Section 51200) of Part 28, of Division 4 of this title relating to physical education. For such purposes the instructional program shall be designed to provide at least the overall equivalent in instruction in each course of study required by law to be provided in kindergarten and grades 1 to 12, inclusive, upon a pupil's completion of the work prescribed for any particular grade.

37423. The governing board of each selected school district shall prescribe a separate salary schedule for the certificated employees of the district who are employed at a school maintained pursuant to this chapter, and who, because of such employment, will be engaged in rendering services for the district for a greater number of total days during the academic year than would be the case for a regular academic year.

## Article 4. Financial Support

37430. Each school district maintaining a continuous school program in any school within the district pursuant to this chapter shall be entitled to receive the same support, but not more support, from the State School Fund due to the average daily attendance at

such school that it would have received if the school had been operating under the provisions of law relating to the regular school year, including summer school.

37431. The Superintendent of Public Instruction shall prescribe an appropriate procedure for the computation of allowances, apportionments, and disbursements from the State School Fund which are to be made to any school district maintaining a continuous school program pursuant to this chapter for any one or more of the purposes specified in Sections 41304 and 41305 for the average daily attendance at any school operating such a program.

37432. The allowances, disbursements, and apportionments under this article shall be made with respect to any school district maintaining a continuous school program pursuant to this chapter in accordance with the law relating to allowances, disbursements, and apportionments, to the extent possible.

37433. The Superintendent of Public Instruction may provide for the actual disbursement of the apportionments to the school district maintaining the continuous school program pursuant to this chapter at times other than as specified in Article 3 (commencing with Section 41330) of Chapter 3 of Part 2, of this division. In no event, however, shall the school district receive apportionments in a total amount in excess of the amount determined pursuant to this article.

#### CHAPTER 4. YEAR-ROUND ELEMENTARY SCHOOL

##### Article 1. General Provisions

37500. It is the intent and purpose of the Legislature, by the provisions of this chapter, to authorize the establishment of an experimental four-quarter year-round elementary school program on a mandatory attendance basis at one elementary school maintained by a unified school district which has a current average daily attendance of not less than 25,000 nor more than 35,000. The program should enable the adoption of innovative instructional systems and techniques including special concentration upon critical elements of the required curricula over the longer academic year, permit maximum utilization of school plant, facilities and equipment, permit closer coordination of the elementary school instructional operations with the teacher-training operations of many institutions of higher education, permit the most efficient utilization of teachers' specializations, effect the replacement of the present system of lengthy summer vacations with shorter quarterly vacation periods with resultant diminution of pupils' vacation "learning loss," and afford numerous related benefits. This chapter shall be liberally construed to permit the accomplishment of these ends and to facilitate the complete evaluation of the school operations to enable the Legislature to determine what administrative, social, and other problems are presented thereby, and whether the same may feasibly be put into operation on a

broader scale throughout the state.

37501. The Superintendent of Public Instruction may approve the establishment of a year-round school program in an elementary school maintained by a unified school district for the education of kindergarten and grades 1 to 6, inclusive. The program shall be conducted pursuant to the provisions of this chapter, and the approval shall be based upon a program proposal submitted by the governing board of the school district demonstrating that the same shall be so conducted.

37502. A year-round elementary school program established pursuant to this chapter shall be of an experimental or pilot program nature and shall have a duration of seven full academic years, as established by the governing board of the district for purposes of the program.

37503. The State Board of Education shall adopt all rules and regulations prescribing necessary standards and making provision for all other matters necessary for the effective administration of this chapter.

## Article 2. Elements

37510. A year-round program established pursuant to this chapter shall involve the conduct of school operations throughout a 12-month academic year divided into four academic quarters. Such academic year and academic quarters may be established without reference to the school year as defined in Section 37200. Regular schools and classes shall be conducted for a total of no fewer than 195 nor more than 200 days during such academic year, and each quarter shall be divided into approximately 50 regular schooldays.

37511. The provisions of Article 1 (commencing with Section 48200) and Articles 3 to 6 inclusive (commencing with Section 48220) of Chapter 2 of Part 27 of Division 4 of this title, and all other laws relating to compulsory full-time education and the enrollment and attendance of pupils in the kindergarten and elementary grades shall be applicable with respect to the regular schooldays prescribed for the entire academic year and for each academic quarter thereof established for the school at which a program pursuant to this chapter is conducted, and to the attendance area established for such school; subject to the power of the governing board to permit individual pupils to attend schools maintained in other attendance areas. The governing board shall exempt from the year-round program any pupil whose parent or guardian requests such exemption and shall provide transportation to schools in other attendance areas for such pupils.

37512. The courses of instruction offered at a school maintained pursuant to this article shall meet all applicable requirements of law, except that the operations of the school shall be exempt from any requirements prescribed by or pursuant to law fixing a minimum time to be devoted to particular courses of study during any day,

week, or other period of lesser duration than a school year, other than the requirements relating to physical education. For such purposes the instructional program shall be designed to provide at least the overall equivalent in instruction in each course of study required by law to be provided in kindergarten and grades 1 to 6, inclusive, upon a pupil's completion of the work prescribed for any particular grade.

37513. The governing board of a school district shall prescribe a separate salary schedule for the certificated and classified employees of the district who are employed at an elementary school maintained pursuant to this chapter, and who, because of such employment, will be engaged in rendering services for the district for a greater number of total days during the academic year than would be the case for a regular academic year.

### Article 3. Finances

37520. A school district maintaining an elementary school pursuant to this chapter, shall be entitled to additional support from the State School Fund on account of the average daily attendance in regular schools and classes in kindergarten and grades 1 to 6, inclusive, of pupils attending the school. The Superintendent of Public Instruction shall prescribe an appropriate procedure under which allowances are to be computed and apportionments and disbursements are to be made to the district for any one or more of the purposes specified in Sections 41300 and 41301 for the average daily attendance in kindergarten and grades 1 to 6, inclusive, at such school. The computation of the allowances may be based upon rates reflecting the difference in the length of the academic year established pursuant to this article and the minimum number of days for a school year otherwise prescribed by law for purposes of eligibility for support from the State School Fund. Any additional amounts from the State School Fund to which the district is entitled may be included in allowances, apportionments and disbursements made for any fiscal year during all or part of which the school is maintained pursuant to this chapter by the district.

37521. The Superintendent of Public Instruction, notwithstanding any provisions of law to the contrary, shall have the power to require the submission of such reports and information, and to take such other actions as are reasonably necessary to effectuate the purposes of this chapter.

### Article 4. Testing and Reports

37530. The governing board of the district maintaining an elementary school program pursuant to this chapter shall, under the direction of the Superintendent of Public Instruction, conduct a comprehensive testing program in kindergarten and grades 1 to 6, inclusive, to be directed primarily to ascertaining whether achievement levels of the pupils in attendance at the school involved

are raised by the year-round instructional program, as compared to pupils similarly situated and in attendance at the regularly constituted schools of the district and throughout the state. For such purposes the testing program shall, at least, measure the level of accomplishment of the pupils at the commencement of each academic year, and at the end of each academic year.

37531. The governing board of the school district shall keep a continuous record of the progress of each pupil, and within 30 calendar days after the commencement of the regular session of the Legislature convened following the expiration of the third, fifth, and seventh academic years during which an educational program established pursuant to this chapter is in operation at a school shall, acting through and in conjunction with the Department of Education, submit to the Legislature a comprehensive report concerning the program. The report shall contain information concerning the results of the testing program conducted pursuant to Section 37530, the administrative and fiscal problems connected with the program, the impact of the program upon the community and its acceptance by citizens, parents, and taxpayers, and all other relevant matters.

## CHAPTER 5. CONTINUOUS SCHOOL PROGRAMS

### Article 1. General Provisions

37600. It is the intent and purpose of the Legislature in enacting this chapter to authorize public school districts of any type or class to establish, maintain, and operate their educational program under a continuous school program, to be conducted throughout the entire school year.

The Legislature is especially concerned and aware of the mounting costs of acquisition and construction of school sites and facilities, and is, therefore, desirous of providing a procedure whereby those fiscal burdens may be reduced by increased utilization of existing plants and facilities.

The Legislature is also interested in providing for the replacement of the present system of lengthy summer vacations with shorter periodic vacation periods, which will result in a reduction of the student's summer vacation "learning loss."

### Article 2. Establishment and Maintenance

37610. The governing board of any school district may, after notification to the Superintendent of Public Instruction, establish and operate in one or more of the schools within the district, or in all schools within the district, a continuous school program pursuant to the provisions of this chapter.

37611. Whenever the governing board of any school district, pursuant to Section 37610, determines to operate one or more schools

of the district on a continuous school program in such a manner as to require any pupil to enroll in a continuous school program, it shall publish, not later than November 1st of the school year preceding the commencement of such a program, its intention to operate a continuous school program in such a manner as to require any pupil to enroll in a continuous school program in a newspaper of general circulation within the district, or if there is no such newspaper, then in any newspaper of general circulation that is regularly circulated in the district.

Publication of notice pursuant to this section shall be once each week for three successive weeks. Three publications in a newspaper regularly published once a week or oftener, with at least five days intervening between the respective publication dates not counting such publication dates, are sufficient.

37612. If after notice of intention to establish and operate a continuous school program in such a manner as to require any pupil to enroll in a continuous school program has been given, a petition signed by 25 percent of the electors of the district may be presented to the county superintendent of schools requesting that the school district not establish such a program. Such petition shall be presented no later than December 10th of the year in which the notice is given.

The county superintendent of schools shall examine the petition and, if he finds it to be sufficient and signed as required by law, order a ballot proposition, as provided by Section 37614, to be placed upon the ballot of the appropriate election as provided in Section 37613.

The governing board of the school district may request that an election be called and conducted irrespective of whether or not a petition is presented.

37613. An election ordered or requested to be held pursuant to Section 37612 may be consolidated with the next districtwide election held 80 or more days after the order or request for an election is made or the county superintendent of schools may order a special election to be held at least 80 days after the election is ordered or requested.

37614. (a) The ballot proposition used in an election called pursuant to Section 37613 shall contain the words "For the continuous school program of the (name of district) District to be operated in such a manner as to require any pupil to enroll in a continuous school program" followed by the words "Yes" and "No" so placed that the voter may clearly indicate his choice.

(b) If a majority of those voting for the ballot proposition, as provided by subdivision (a), at the election vote "yes" then the school district shall be permitted to commence the continuous school program so designated on the ballot and to continue operating any such program in the district until all such programs are terminated.

(c) If a majority of those voting for the ballot proposition, as provided by subdivision (a), at the election vote "no" then the school district shall not be permitted to commence the continuous school program so designated on the ballot.

37615. If a continuous school program operated in such a manner as to require any pupil to enroll in the program is terminated by the governing board or prohibited pursuant to subdivision (c) of Section 37614, the governing board shall not determine to operate one or more schools of the district on a continuous school program in such a manner as to require any pupil to enroll in a continuous school program for at least two years following termination or election.

37616. Prior to implementing a continuous school program in any school of the district, the school district governing board shall consult in good faith in an effort to reach agreement with the certificated and classified employees of the school, with the parents of pupils who would be affected by the change, and with the community at large. Such consultation shall include at least one public hearing for which the board has given adequate notice to the employees and to the parents of pupils affected.

In school districts where a continuous school program is implemented in fewer than all of the schools maintained by the school district, the governing board of such a school district shall make every reasonable effort to assign certificated employees who prefer the regular school schedule to schools of the same level retaining the regular school schedule.

37617. The governing board of any school district operating pursuant to the provisions of this chapter shall divide the students of each selected school into as many groups as necessary to adequately accommodate a continuous school program so established and conducted. Students of the same family shall be placed in the same group unless one or more of such students is enrolled in a special education class or unless the parent or guardian of such students requests that the students be placed in different groups.

37618. The governing board of any school district operating pursuant to the provisions of this chapter shall establish a school calendar whereby the teaching sessions and vacation period during the school year are on a rotating basis.

37619. Each selected school shall be closed for all students and employees on regular school holidays specified in Section 52720, Article 3 (commencing with Section 37220) of Chapter 2 of this part.

37620. The teaching sessions and vacation periods established pursuant to Section 37618 shall be established without reference to the school year as defined in Section 37200. The schools and classes shall be conducted for a total of no fewer than 175 days during the academic year.

### Article 3. Elements

37630. The provisions of Article 1 (commencing with Section 48200), Article 3 (commencing with Section 48220) to Article 6 (commencing with Section 48290) of Chapter 2 of Part 27 of Division 4 of this title, and all other laws, relating to compulsory full-time education and the enrollment and attendance of pupils in the

kindergarten, elementary, and secondary grades shall be applicable with respect to the regular schooldays prescribed for the entire academic year established for the school at which a program pursuant to this chapter is conducted, and to the attendance area established for such school.

37631. The courses of instruction offered at a school maintained pursuant to this chapter shall meet all applicable requirements of law, including the requirements prescribed by or pursuant to Sections 51550, 51551, and 51820, and Chapter 2 (commencing with Section 51200) of Part 28 of Division 4 of this title relating to physical education. For such purposes the instructional program shall be designed to provide at least the overall equivalent in instruction in each course of study required by law to be provided in kindergarten and grades 1 to 12, inclusive, upon a pupil's completion of the work prescribed for any particular grade.

37632. The governing board of any school district operating the continuous school program pursuant to this chapter shall prescribe a separate salary schedule for the certificated employees of the district who are employed at any school maintaining the continuous school program pursuant to this chapter, and who, because of such employment, will be engaged in rendering services for the district for a greater number of total days during the academic year than would be the case for a regular academic year.

#### Article 4. Finances

37640. Each school district maintaining a continuous school program in any school within the district pursuant to this chapter shall be entitled to receive the same support, but not more support, from the State School Fund due to the average daily attendance at such school that it would have received if the school had been operating under the provisions of law relating to the regular school year, including summer school.

37641. The Superintendent of Public Instruction shall prescribe an appropriate procedure for the computation of allowances, apportionments, and disbursements from the State School Fund which are to be made to any school district maintaining a continuous school program pursuant to this chapter for any one or more of the purposes specified in Sections 41300 and 41301 for the average daily attendance at any school operating such a program.

37642. The allowances, disbursements, and apportionments under this article shall be made with respect to any school district maintaining a continuous school program pursuant to this chapter in accordance with the provisions of law relating to such allowances, disbursements, and apportionments, to the extent possible.

37643. The Superintendent of Public Instruction may provide for the actual disbursement of the apportionments to the school district maintaining the continuous school program pursuant to this chapter at times other than as specified in Article 3 (commencing with

Section 41330) of Chapter 3 of Part 24 of this division. In no event, however, shall the school district receive apportionments in a total amount in excess of the amount determined pursuant to this article.

37644. Any school district with an average daily attendance of more than 500 which, prior to July 1, 1979, converts one or more schools to a continuous school program pursuant to this chapter, shall, upon the approval of the Superintendent of Public Instruction, receive from funds appropriated for this purpose, a one-time grant not to exceed twenty-five thousand dollars (\$25,000). School districts already operating continuous school programs on effective date of this section shall be eligible for the grant.

Any school district with an average daily attendance of 500 or less, which, prior to July 1, 1979, converts one or more schools to a continuous school program pursuant to this chapter, shall, upon the approval of the Superintendent of Public Instruction, receive from funds appropriated for this purpose, a one-time grant not to exceed five thousand dollars (\$5,000).

37645. The Superintendent of Public Instruction may require the submission of such reports and information as designated by the Department of Education to properly evaluate all programs established pursuant to this chapter.

The Superintendent of Public Instruction shall compile and disseminate evaluations of the instructional and financial aspects of these programs.

## PART 23. SCHOOL FACILITIES

### CHAPTER 1. SCHOOL SITES

#### Article 1. General Provisions

39000. The State Department of Education shall establish standards for school sites.

39001. The governing board of any school district may, and when so directed by a vote of the voters within the district shall, purchase or improve school lands.

39002. The governing board of a school district, prior to acquiring any site on which it proposes to construct any school building as defined in Section 39141 shall have the site, or sites, under consideration investigated by competent personnel to ensure that the final site selection is determined by an evaluation of all factors affecting the public interest and is not limited to selection on the basis of raw land cost only. The investigation shall include such geological and soil engineering studies by competent personnel as are needed to provide an assessment of the nature of the site and potential for earthquake damage.

The geological and soil engineering studies of the site shall be of such a nature as will preclude siting of a school in any location where the geological characteristics are such that the construction effort

required to make the site safe for occupancy is economically unfeasible. The evaluation shall also include location of the site with respect to population, transportation, water supply, waste disposal facilities, utilities, traffic hazards, surface drainage conditions, and other factors affecting the operating costs, as well as the initial costs, of the total project.

No school building shall be constructed or situated on the trace of an active geological fault. For purposes of this section, an active geological fault is defined as one along which surface rupture can be reasonably expected to occur within the life of the building.

Similar geological and soil engineering investigations shall be made as deemed necessary by the Department of General Services for the construction of any school building as defined in Section 39141 or, if the estimated cost exceeds ten thousand dollars (\$10,000), the reconstruction or alteration of or addition to any such school building for work which alters structural elements. No such study need be made if the site or sites under consideration have been the subject of adequate prior study.

A copy of the report of each investigation conducted pursuant to this section shall be submitted to the Department of General Services and the Department of Education pursuant to Article 3 (commencing with Section 39140) of Chapter 2 of this part. The cost of geological and soil engineering studies and investigations conducted pursuant to this section may be treated as a capital expenditure.

39003. The reconstruction of any school on all or a portion of a site which has been used for public school purposes uninterruptedly since prior to 1890 may be financed through the State School Building Aid and Earthquake Reconstruction and Replacement Bond Law of 1972 (Chapter 19 (commencing with Section 17400) of Part 10 of Division 1 of Title 1), if the legal title to such site or a portion thereof is held either by: (a) a city school district, or (b) a charter city, and a city school district has obtained or is in the process of obtaining a lease of not less than 50 years on such site or portion thereof from the charter city.

39004. To promote the safety of pupils and comprehensive community planning the governing board of each school district before acquiring title to property for a new school site or for an addition to a present school site, shall give the planning commission having jurisdiction notice in writing of the proposed acquisition. The planning commission shall investigate the proposed site and within 30 days after receipt of the notice shall submit to the governing board a written report of the investigation and its recommendations concerning acquisition of the site.

The governing board shall not acquire title to the property until the report of the planning commission has been received. If the report does not favor the acquisition of the property for a school site, or for an addition to a present school site, the governing board of the school district shall not acquire title to the property until 30 days

after the commission's report is received.

39005. To promote the safety of pupils, comprehensive community planning, and greater educational usefulness of school sites, the governing board of each school district, including districts governed by a city board of education if the proposed site is within two miles, measured by air line, of that point on an airport boundary which is nearest the site and excluding them if the property is not so located, before acquiring title to property for a new school site or for an addition to a present site, shall give the Department of Education notice in writing of the proposed acquisition and shall submit any information required by the Department of Education.

Immediately after receiving notice of the proposed acquisition of property which is within two miles, measured by air line, of that point on an airport boundary which is nearest the site, the Department of Education shall notify the Department of Aeronautics, in writing, of the proposed acquisition. The Department of Aeronautics shall make an investigation and report to the Department of Education within 25 days after receipt of the notice. If the Department of Aeronautics is no longer in operation, the Department of Education shall, in lieu of notifying the Department of Aeronautics, notify the Civil Aeronautics Authority or any other appropriate agency, in writing, of the proposed acquisition for the purpose of obtaining from the authority or other agency such information or assistance as it may desire to give.

The Department of Education shall investigate the proposed site and within 30 days after receipt of the notice shall submit to the governing board a written report and its recommendations concerning acquisition of the site. The governing board shall not acquire title to the property until the report of the Department of Education has been received. If the report does not favor the acquisition of the property for a school site or an addition to a present school site, the governing board shall not acquire title to the property until 30 days after the department's report is received and until the department's report has been read at a public hearing duly called after 10 days' notice published once in a newspaper of general circulation within the school district, or if there is no such newspaper, then in a newspaper of general circulation within the county in which the property is located.

39006. Notwithstanding the provisions of Section 39005, immediately after receiving notice of a proposed acquisition of property which is within two miles, measured by air line, of that point on an airport boundary which is nearest the site, the Department of Education shall notify the Department of Aeronautics, in writing, of the proposed acquisition. The Department of Aeronautics shall make an investigation and report to the Department of Education within 25 days after receipt of the notice. As part of such investigation the Department of Aeronautics shall give notice thereof to the owner and operator of such airport who shall be afforded the opportunity to comment upon the

proposed school site.

Notwithstanding the provisions of Section 39005, if the report of the Department of Education required by that section does not favor the acquisition of the property for a school site, or an addition to a present school site, the governing body shall not acquire title to the property until 30 days after the department's report is received and until the department's report has been read at a public hearing duly called after 10 days' notice by publication in a newspaper of general circulation within the school district, or if there is no such newspaper, then in a newspaper of general circulation within the county in which the property is located.

39007. If, with respect to a proposed site located within two miles of an operative airport runway, the report of the Department of Education submitted to a school district governing board under Section 39005 or Section 39006 does not favor the acquisition of the site on the sole or partial basis of the unfavorable recommendation of the Department of Aeronautics, no state agency or officer shall grant, apportion, or allow to such school district for expenditure in connection with that site, any state funds otherwise made available under any state law whatever for school site acquisition or school building construction, or for expansion of existing sites and buildings, and no funds of the school district or of the county in which the district lies shall be expended for such purposes; provided that the provisions of this section shall not be applicable to sites acquired prior to January 1, 1966, nor to any additions or extensions to such sites.

If the recommendation of the Department of Aeronautics is unfavorable, such recommendation shall not be overruled without the express approval of the Department of Education and the State Allocation Board.

39008. No action undertaken by the Department of Education or by any other state agency or by any political subdivision pursuant to this chapter, or in compliance with this chapter, shall be construed to affect any rights arising under the provisions of Section 19 of Article 1 of the California Constitution.

39009. The governing board of any school district may acquire and pay for an option upon a school site. The option agreement may provide that if the option is not exercised by the district during the period for which it is granted that, upon an additional payment by the district, made on or before the last day of such period, the option may be extended for a further period. Any such option agreement may contain provisions for additional successive renewals.

Before acquiring any such option the governing board shall comply with Sections 39004 and 39005.

39010. At any time after the appointment or election of the board of trustees of a union or joint union school district, and the naming of the school district, the board may secure an option to purchase land for school purposes and may call a bond election for any of the purposes for which elementary school district bonds may be issued.

The board may proceed thereafter in accordance with the provisions of this code governing the issuance of elementary school district bonds, with the same effect as though control of the property of the union or joint union district had already been vested in them.

39011. Where a city, district, or other political corporation or subdivision of the state is authorized by law to furnish sewerage, water, or other utility facilities to a school district and is not required to provide for the installation thereof to such school district at its own expense, it may enter into an agreement with such school district whereby the cost of installation will be paid by the school district under such terms as the parties may agree to, with reimbursement from charges made or to be made to other users of such facilities as may be agreed upon between the parties, save insofar as other provisions of law control the terms of such reimbursement. Any agreement made prior to September 11, 1957, between a school district and any of the aforesaid entities, which is otherwise in accordance with this section shall be deemed to be as valid and effective as if such agreement had been entered into subsequent to September 11, 1957.

The governing body of any entity mentioned in the preceding paragraph may by contract reimburse a school district for such portion of such utility facilities as it deems constructed for the benefit of or usable by persons outside of the school site, provided such facilities are dedicated by the school district to the public. Such contract shall provide that the governing body may collect from any person using such facilities, for the benefit of property not within the school site, a reasonable charge for such use. The term "person" herein shall have the same meaning as in Section 11545 of the Business and Professions Code.

39013. The governing board of a school district may acquire a site for a school building contiguous to the boundaries of the district and upon the acquisition of such site it shall become a part of the district. The site shall not be acquired until the county committee on school district organization of the county or of each of the counties concerned has received the proposal for acquisition of the site and reported its recommendations thereon to the governing boards of the districts concerned and to each county superintendent of schools concerned. The report of the county committee shall be made within 60 days from the time the proposal for acquisition of the site was submitted to it. The power of eminent domain may be used for the purposes of this section.

A school site is contiguous for the purpose of this section although separated from the boundaries of the district by a road, street, stream, or other natural or artificial barrier or right-of-way.

39014. The governing board of a school district which has been included in a school district unification proposal approved by the electors of the territory involved pursuant to Chapter 2 (commencing with Section 4206) of Part 3 of Division 1 of Title 1, may, prior to the time the new unified school district becomes

effective for all purposes, acquire a site for a school building at any place within the new unified school district, and upon the acquisition of such site it shall become a part of the district pending the date when the new unified school district becomes effective for all purposes. The site shall not be acquired until the county committee on school district organization of the county or of each of the counties concerned has received the proposal for acquisition of the site and reported its recommendations thereon to the governing boards of the districts concerned and to each county superintendent of schools concerned. The report of the county committee shall be made within 60 days from the time the proposal for acquisition of the site was submitted to it.

39015. In the event a school district heretofore or hereafter acquires a site for school purposes, as determined by the State Allocation Board, and does not use the site within (1) five years of the date of acquisition for the kindergarten, if any, and any of grades 1 to 8, inclusive, maintained by an elementary school district or a unified school district, or, (2) seven years of the date of acquisition for any of grades 7 to 12, inclusive, maintained by a high school district or a unified school district, the school district shall be subject to nonuse payments, unless the State Allocation Board from time to time makes a determination that the school district will utilize the property for the purpose for which it was intended within a reasonable period of time, in a specific amount for each additional year in which the site is retained and not used by the district beyond the foregoing specified periods, except the first such additional year shall be deemed to end not earlier than April 30, 1973.

The payments required shall be computed by the executive officer of the State Allocation Board and certified to the State Controller, and payments shall be equal to one one-hundredth ( $\frac{1}{100}$ ) of the original purchase price of the site modified by either a factor reflecting the change in assessed value of all lands in the state from the date of purchase of the site to the current date or such other factor which in the determination of the State Allocation Board is applicable to the site under consideration.

Whenever the State Allocation Board has determined that a school district in good faith has, within the preceding year, advertised the school site for sale to the highest bidder pursuant to the provisions of Article 4 (commencing with Section 39360) of Chapter 3 of Part 24 of this division and has received no bids which in the judgment of the State Allocation Board reflect the fair market value of the property, the executive officer of the State Allocation Board shall not compute any nonuse payments for such site for a period of one year beyond such a determination.

39018. Any funds in the State School Site Utilization Fund, including interest, which are not subject to return to a school district pursuant to Section 39017 shall revert to the General Fund.

## CHAPTER 2. CONSTRUCTION OF SCHOOL BUILDINGS

## Article 1. Department of Education: Powers and Duties

39100. The Department of Education shall establish and make rules and regulations needed for the expeditious handling of the work required to carry out the purposes of this article.

39101. The Department of Education shall:

(a) Advise the governing board of each elementary, high school, and unified school district on the acquisition of new school sites, and after a review of available plots give the governing board of the district in writing a list of the approved locations in the order of their merit considering especially the matters of educational merit, reduction of traffic hazards, and conformity to the organized regional plans as presented in the master plan of the planning commission having jurisdiction and charge the governing board of the school district a fee of twenty-five dollars (\$25) for each 10 acres or fraction thereof of school site reviewed.

(b) Establish standards for school buildings.

(c) Review all plans and specifications for buildings in every district required to submit plans and specifications therefor to it for approval. The department may, upon the request of the governing board of any other district, review plans and specifications for buildings in such district.

The department shall charge governing boards of school districts for the review of plans and specifications, a fee of one-twentieth of 1 percent of the estimated cost determined by the Division of Architecture. The minimum fee in any case shall be ten dollars (\$10).

(d) Approve plans and specifications submitted by governing boards of school districts, and return without approval and with recommendation for changes, any plans not conforming to established standards.

(e) Make all necessary provisions by which governing boards of school districts, or architects engaged by them, may procure by purchase or otherwise, copies of standard specifications, plans, and building codes prepared by the department.

(f) Make, upon the request of the governing board of any school district, except a city board of education, a survey of the building needs of the district, advise the governing board concerning the building needs, suggest plans for financing a building program to meet the needs, and collect the cost of the survey, exclusive of the salaries of the state employees participating therein, from the district.

(g) Employ experts, and clerical, and stenographic assistants as may be required for expediting the checking and approving of plans and specifications.

39102. All money collected by the Department of Education under the provisions of this article shall be available for the use of the department pursuant to appropriations for such use as may from

time to time be made by the Legislature.

## Article 2. Plans

39110. As used in Sections 39110 to 39116, inclusive, "school buildings" refers to only one-story schoolhouses of not more than nine classrooms.

39111. The Department of Education shall:

(a) Establish a pool of duplicate plans for school buildings appropriate for school districts in rural areas. The series shall be composed of plans designed to meet the requirements of school districts located in rural areas of varying characteristics. The plans may include landscape suggestions.

(b) Provide specifications for the design and construction of such school buildings.

39112. Any school district may request sets of such plans and specifications appropriate for use in constructing a school building of the type desired by the district. Such plans and specifications shall be furnished to the school district subject to the payment of the actual expense incurred by the Department of Education, but such expense shall not exceed more than 2 percent of the total cost of the project. Any payments received for such plans and specifications shall be paid into the State Treasury to the credit of the General Fund.

39113. The plans and specifications for any school building as defined in Section 39141, together with estimates of cost, shall be submitted by the board to the Department of General Services for approval.

39114. All provisions of Sections 39140 to 39155, inclusive, are made applicable to school buildings as defined in Section 39141 constructed from plans and specifications furnished under Sections 39110 to 39116, inclusive, except as otherwise provided in the latter sections.

39115. The district shall furnish its own architect or structural engineer, or both, for necessary structural engineering and supervision of construction.

39116. The governing board of a school district shall, before letting any contract for the construction of a school building as defined in Section 39141 according to such plans and specifications, file a set of the plans and specifications with the Department of General Services accompanied by a fee in the amount fixed by Section 39146.

39117. Except in cities having boards of education, the superintendent of schools of each county shall pass upon and approve or reject all plans for schoolhouses. To enable him to do so, the governing board, before adopting any plans for school buildings, shall submit the plans to him for his approval.

39118. The governing board of each elementary, high school, and unified school district, except districts governed by a city board of education, or any regional occupational center or program created

by or authorized to act by an agreement under joint exercise of power before letting any contract or contracts totaling seven thousand five hundred dollars (\$7,500) or more, for the erection of any new school building, or for any addition to, or alteration of, an existing school building, shall submit plans therefor to the State Department of Education, and obtain the written approval of the plans by the department. No contract for building made contrary to the provisions of this section is valid, nor shall any public money be paid for erecting, adding to, or altering any school building in contravention of this section.

39119. Any contract entered into by and between the governing board of any school district and any certified architect or structural engineer pursuant to Section 39148 shall provide that all plans, specifications and estimates prepared pursuant thereto shall be and remain the property of the school district.

39120. The governing board of any school district shall, upon completion of any school building let pursuant to Sections 39140 to 39155, inclusive, file with the Department of General Services on ozalid type reproducible duplicate set of architect plans for the new school building plant.

39121. The county superintendent of schools may appoint a director of school building planning, who shall be a person qualified by training, experience and demonstrated ability to supervise the building, construction and contracting business of the school districts of the county having an average daily attendance of less than 10,000. The director shall be responsible for the coordination of the building program of the school districts of the county having such average daily attendance and shall advise the governing boards and other employees of the districts with respect to the negotiation and performance of the school building construction contracts let by the governing boards of the school districts.

39122. The county superintendent of schools of two or more contiguous counties may cooperate with each other and to that end may enter into agreements with each other for the appointment of a joint director of school building planning, and may do all things necessary or convenient to aid and cooperate in carrying out the provisions of Sections 39121 to 39124, inclusive.

39123. Before letting any contract for the preparation of plans and specifications for any construction or alteration of any school building, the governing board of any school district having an average daily attendance of less than 10,000 shall consult the director of school building planning of the county and secure the benefit of his technical knowledge with respect to the negotiation and letting of any contract for the construction or alteration of a school building.

39124. If any school district having an average daily attendance of less than 10,000 receives a final apportionment of state school building aid funds under Sections 16000 to 16207, inclusive, of this code, the governing board of such school district shall consult the director of school building planning on all matters relating to the

construction of the project for which the apportionment was granted until final completion of the project.

### Article 3. Approvals

39140. The Department of General Services under the police power of the state shall supervise the design and construction of any school building or, if the estimated cost exceeds ten thousand dollars (\$10,000), the reconstruction or alteration of or addition to any school building, to ensure that plans and specifications comply with the rules and regulations adopted pursuant to this article and building regulations published in the State Building Standards Code, and to ensure that the work of construction has been performed in accordance with the approved plans and specifications, for the protection of life and property. Nothing in this section shall be construed to allow a school district to perform work with its own forces in excess of the limitations set forth in Sections 39640 and 39649.

39141. "School building" as used in this article means and includes any building used, or designed to be used, for elementary or secondary school purposes and constructed, reconstructed, altered, or added to, by the state or by any city or city and county, or by any political subdivision, or by any school district of any kind within the state, or by any regional occupational center or program created by or authorized to act by an agreement under joint exercise of power, or by the United States government, or any agency thereof.

39141.3. Any school building, as defined in Section 39141, operated by a county official, board, or commission which on the effective date of this section is in violation of this article, where compliance therewith was otherwise required, may be continued in use as a school building after June 30, 1975, provided that no such building shall be operated after that date unless such county official, board, or commission requests and obtains from the State Allocation Board authority for use of such building for a specific period after such date.

Concurrent with such request such county official, board, or commission shall file with the State Allocation Board a statement or resolution declaring an intention to utilize the building as a school building after June 30, 1975, pending its repair, reconstruction, or replacement.

The State Allocation Board shall not authorize such county official, board, or commission to use such building after June 30, 1975, unless it has first determined that the affected authority has already proceeded with a plan of total repair, reconstruction, or replacement in a timely manner and the contract has been let for any phase of, and work commenced on, such project.

In no event shall the State Allocation Board authorize the use of such unsafe facilities for a period extending beyond the completion of the replacement facilities or beyond June 30, 1977, whichever

occurs first.

39141.5. Where the primary use of either a building or complex within which such building is situated, operated by an official or board of a city, city and county or county, is for purposes other than educational, such as but not limited to correctional, forestry, or hospital purposes, such building shall not be considered to be a "school building" within the meaning of Section 39141 notwithstanding any educational use thereof incidental to such primary purpose.

39142. "Construction or alteration" as used in this article includes any construction, reconstruction, or alteration of, or addition to, any school building.

39143. The Department of General Services shall pass upon and approve or reject all plans for the construction or, if the estimated cost exceeds ten thousand dollars (\$10,000), the alteration of any school building. To enable it to do so, the governing board of each school district and any other school authority before adopting any plans for such school building shall submit the plans to the Department of General Services for approval, and shall pay the fees prescribed in this article.

39144. Before letting any contract for any construction or alteration of any such school building, the written approval of the plans, as to safety of design and construction, by the Department of General Services, shall be first had and obtained.

39145. In each case the application for approval of the plans shall be accompanied by the plans and full, complete, and accurate specifications, and structural design computations, and estimates of cost, which shall comply in every respect with any and all requirements prescribed by the Department of General Services.

39146. The application shall be accompanied by a filing fee in amounts as determined by the Department of General Services based on the estimated cost, and such fee shall not exceed one-half of 1 percent of the estimated cost.

The minimum fee in any case shall be fifty dollars (\$50). If the actual cost exceeds the estimated cost by more than 10 percent, a further fee shall be paid to the Department of General Services, based on the above schedule and computed on the amount by which the actual cost exceeds the amount of the estimated cost.

39147. All fees shall be paid into the State Treasury and credited to the Division of Architecture Public Building Fund, which fund is continued in existence and is retitled the Architecture Public Building Fund, and are available without regard to fiscal years for the use of the Department of General Services, subject to approval of the Department of Finance, in carrying out the provisions of this article and Article 5 (commencing with Section 39190) of this chapter.

Adjustments in the amounts of the fees, as determined by the Department of General Services and approved by the Department of Finance, will be made within the limits set in Sections 39192 and 39146 in order to maintain a reasonable working balance in the fund.

39148. All plans, specifications, and estimates shall be prepared by a certified architect holding a valid license under Chapter 3 of Division 3 of the Business and Professions Code or by a structural engineer holding a valid certificate to use the title structural engineer under Chapter 7 of Division 3 of the Business and Professions Code, and the observation of the work of construction shall be under the responsible charge of such an architect or structural engineer, except that where plans, specifications, and estimates for alterations or repairs do not involve architectural or structural changes said plans, specifications, and estimates may be prepared and work of construction may be observed by a professional engineer duly qualified to perform such services and holding a valid certificate under Chapter 7 of Division 3 of the Business and Professions Code for performance of services in that branch of engineering in which said plans, specifications, and estimates and work of construction are applicable.

39149. As of January 1, 1976, the persons employed as inspectors of record to inspect the construction, reconstruction or alteration of any school building shall be either (a) persons who are registered as construction inspectors in the divisions in which they are to be used, as defined by Section 9101 of the Business and Professions Code or (b) persons who are regularly employed for building code enforcement by the local agency having responsibility for such inspection, and are qualified to perform such inspections under the civil service laws or regulations of such local agency.

Persons employed as assistants to inspectors of record shall be registered construction inspectors or shall be enrolled as inspectors-in-training in the divisions in which they are to be used, as defined by Section 9101.1 of the Business and Professions Code. This section shall not apply to any architect, structural engineer, civil engineer, land surveyor, mechanical engineer, engineering geologist, or electrical engineer, who holds a valid certificate of registration in this state, insofar as he is practicing within the provisions of the law under which he is registered. This section shall not apply to an inspector approved by the Office of Architecture and Construction and employed pursuant to a particular building contract prior to January 1, 1976, during the performance of that building contract.

39150. No contract for the construction or alteration of any school building, made or executed by the governing board of any school district or other public board, body, or officer otherwise vested with authority to make or execute such a contract, is valid, and no public money shall be paid for any work done under such a contract or for any labor or materials furnished in constructing or altering any such building, unless the plans, specifications, and estimates comply in every particular with the provisions of this article and the requirements prescribed by the Department of General Services and unless the approval thereof in writing has first been had and obtained from the Department of General Services.

(Amended by Stats 1976, Ch 1011 )

## [ORIGINAL SECTION]

39150. No contract for the construction or alteration of any school building, made or executed by the governing board of any school district or other public board, body, or officer otherwise vested with authority to make or execute such a contract, is valid, and no public money shall be paid for any work done under such a contract or for any labor or materials furnished in constructing or altering any such building, unless the plans, specifications, and estimates comply in every particular with the provisions of this article and the requirements prescribed by the Department of General Services and unless the approval thereof in writing has been first been had and obtained from the Department of General Services

39151. From time to time, as the work of construction or alteration progresses and whenever the Department of General Services requires, the licensed architect or structural engineer in charge of observation of construction or registered engineer in charge of observation of other work, the inspector on the work, and the contractor shall each make to the Department of General Services a report, duly verified by him, upon a form prescribed by the Department of General Services, based upon his own personal knowledge, indicating that the work during the period covered by the report has been performed and materials have been used and installed, in every material respect, in compliance with the approved plans and specifications, setting forth such detailed statements of fact as are required by the Department of General Services.

The term "personal knowledge" as used in this section and as applied to the architect, and the registered engineer, means the personal knowledge which is obtained from periodic visits to the project site of reasonable frequency for the purpose of general observation of the work, and also which is obtained from the reporting of others as to the progress of the work, testing of materials, inspection and superintendence of the work that is performed between the above-mentioned periodic visits of the architect or the registered engineer. The exercise of reasonable diligence to obtain the facts is required.

The term "personal knowledge" as applied to the inspector means the actual personal knowledge which is obtained from his personal continuous inspection of the work of construction in all stages of its progress at the site where he is responsible for inspection and, when work is carried out away from the site, that personal knowledge which is obtained from the reporting of others on the testing or inspection of materials and workmanship for compliance with plans, specifications or applicable standards. The exercise of reasonable diligence to obtain the facts is required.

The term "personal knowledge" as applied to the contractor means the personal knowledge which is obtained from the construction of the building. The exercise of reasonable diligence to obtain the facts is required.

39152. The Department of General Services may from time to time make such rules and regulations as it deems necessary, proper, or suitable effectually to carry out the provisions of this article.

39153. The State Department of General Services shall make such inspection of the school buildings and of the work of construction or alteration as in its judgment is necessary or proper for the enforcement of this article and the protection of the safety of the pupils, the teachers, and the public. The school district, city, city and county, or the political subdivision within the jurisdiction of which any school building is constructed or altered shall provide for and require competent, adequate, and continuous inspection during construction or alteration by an inspector satisfactory to the architect or structural engineer and the Department of General Services. The inspector shall act under the direction of the architect or structural engineer as the board may direct, and be responsible to the governing board.

39154. Any person who violates any of the provisions of this article or makes any false statement in any verified report or affidavit required pursuant to this article is guilty of a felony.

39155. Upon written request by the governing board of any school district or upon written request by at least 10 percent of the parents having children enrolled as pupils in any school district as certified to by the county superintendent of schools, the Department of General Services shall make an examination and report on the structural condition of any public school building of the district, subject to the payment by the governing board of the actual expenses incurred by the Department of General Services. Payment of the expenses may be waived by the Department of General Services on recommendation of the State Superintendent of Public Instruction when it appears to him that the school district in which the public school building is located cannot afford to pay them.

39156. Any public school building which has been approved by the Department of General Services (formerly Division of Architecture) for occupancy shall be deemed to meet the local building requirements for use as a private school.

#### Article 4. Building Schoolhouses

39170. The governing board of any school district may, and when directed by a vote of the district shall, build and maintain a schoolhouse.

39172. The governing board of any school district, whenever in its judgment it is desirable to do so, may establish additional schools in the district.

39173. The governing board of any school district may purchase property and construct and equip buildings in an area after the legal action has been taken that will result in annexation of the area to the school district, but before the annexation has become effective.

## Article 5. Factory-Built School Buildings

39190. It is the intent of this article to provide an alternative procedure to Article 3 (commencing with Section 39140) for the construction and installation of factory-built school buildings not over 1,000 square feet in area designed or intended for use as school buildings. As used in this article, a "factory-built building" means any building designed or intended for use as a school building which is either wholly manufactured or is in substantial part manufactured at an offsite location in accordance with standards prescribed by the Department of General Services, to be assembled or erected on a school site. Any such building purchased or leased by a school district shall be deemed to be the construction or alteration of a school building as those terms are used in Article 2 (commencing with Section 39110) and Article 3 (commencing with Section 39140) of this chapter, and all of the provisions of each of those articles, not inconsistent with the provisions of this article, shall apply with respect to factory-built buildings designed or intended for use as school buildings.

39191. The Department of General Services shall adopt standards as to the safety of design and construction of factory-built buildings for use as school buildings, and shall prescribe procedures for the plans, specifications, methods of construction, and estimates of cost of a factory-built school building to be submitted to the department for approval as provided in Section 39192. Such standards shall comply with but not be limited by the provisions of Article 2 (commencing with Section 39110) and Article 3 (commencing with Section 39140) of this chapter.

39192. A manufacturer of factory-built buildings designed or intended for use as school buildings shall submit to the Department of General Services and the Department of Education for approval, its plans, specifications, methods of construction, and estimates of cost of such buildings. At the same time the manufacturer shall pay to the Department of General Services a deposit to be applied toward the actual expenses in an amount as determined by the Department of General Services based on the estimated cost of such factory-built buildings, but not exceeding 0.5 percent of such estimated cost. The minimum deposit in any case shall be fifty dollars (\$50). The manufacturer shall reimburse the Department of General Services and the Department of Education for the actual expenses incurred by those departments in the review of such plans and specifications.

All fees received by the Department of General Services pursuant to this article are subject to the provisions of Section 39147.

39193. All plans, specifications and estimates shall be prepared by a certified architect holding a valid license under Chapter 3 (commencing with Section 5500) of Division 3 of the Business and Professions Code or by a structural engineer holding a valid certificate to use the title structural engineer under Chapter 7

(commencing with Section 6700) of Division 3 of the Business and Professions Code, and the supervision of the work of construction in the factory shall be under the responsible charge of such an architect or structural engineer.

39194. The Department of General Services, in accordance with standards and procedures adopted pursuant to Section 39191, and as such standards and procedures may thereafter be modified, shall either approve or reject such plans, specifications, and methods of construction. Approval shall not be given unless such plans, specifications, and methods of construction are in accordance with standards adopted by the department pursuant to Section 39191. The department may establish procedures for the inspection of the facilities and manufacturing processes of a manufacturer to determine the manufacturer's ability to produce factory-built school buildings in accordance with the plans, specifications, and methods of construction which the manufacturer has submitted to the department. The Department of General Services shall notify the State Department of Education of its approval of a manufacturer's plans, specifications, and methods of construction of a factory-built school building.

39195. The Department of General Services shall provide for competent, adequate, and continuous inspection during construction in the factory to insure that all work has been performed and materials used and installed, in every particular, in accordance with the approved plans and specifications. The manufacturer shall reimburse the department for the costs incurred for such inspection as determined by the department.

39196. From time to time, as the work of construction in the factory progresses and whenever the Department of General Services requires, the certified architect or structural engineer in responsible charge of the supervision of the work of construction in the factory, the inspector on the work, and the manufacturer shall each make to the Department of General Services a report, duly verified by him, upon a form prescribed by the Department of General Services, showing, of his own personal knowledge, that the work during the period covered by the report has been performed, and materials used and installed, in every particular, in accordance with the approved plans and specification, setting forth such detailed statements of fact as are required by the Department of General Services.

39197. Upon the Department of General Services' approval of a manufacturer's plans, specifications, and methods of construction of a factory-built school building, a school district, whenever it is otherwise required by any of the provisions of Article 2 (commencing with Section 39110), or Article 3 (commencing with Section 39140) of this chapter to submit to the Department of General Services or to the State Department of Education the plans and specifications for the construction of a school building may, instead, include in its application for approval to each of such

departments a notification that it intends to utilize such factory-built school building. The plans and specifications for the factory-built building to be utilized shall be submitted with the application and notification for identification purposes. Before granting its approval for the use of such buildings, the Department of General Services shall insure that the plans, specifications, and methods of construction of such buildings have been approved and are in accordance with standards adopted by the department pursuant to Section 39191 which are in effect at the time such application for approval is passed upon by the department. Whenever a school district complies with the alternative procedure prescribed by this section it shall not be required to pay the filing fee prescribed by Sections 39116 and 39146, except that a fee shall be charged for onsite work pursuant to Section 39198. If the submitted plans and specifications have not been previously approved the application shall be rejected. In such case a new application together with required documents shall be filed for approval of plans and specifications by either the manufacturer pursuant to the provisions of Section 39192 or by the school district pursuant to the provisions of Article 3 (commencing with Section 39140) of this chapter.

39198. Whenever a school district has contracted for the purchase or lease of a factory-built school building and where such building is to be supported by foundations, underpinning, pedestals, or similar type elements which extend more than 18 inches above natural grade at any point, or on temporary blocks or jacks of any height, all the provisions of Article 3 (commencing with Section 39140) of this chapter shall apply to the design and construction of onsite work except that, for fee purposes, only the estimated cost of onsite work need be considered. The minimum amount in any case shall be fifty dollars (\$50).

39199. The provisions of Sections 39115, 39119, 39120, 39146, 39148, and 39151 shall not apply with respect to the manufacture, sale, or lease of factory-built school buildings if the provisions of this article are otherwise complied with.

39200. The provisions of Sections 39144, 39148, 39150, 39151, and 39153 shall not apply with respect to the design and construction of onsite work except where required by the provisions of Section 39198.

#### Article 6. Fitness for Occupancy

39210. The Legislature finds and declares as follows:

(a) By an urgency act (Stats. 1933, Ch. 59), the Legislature at the 1933 General Session established reasonable minimum standards for the design and construction of new school buildings, as now defined in Section 39141. Although it was not required that then existing school buildings incorporate these standards, it was intended by the Legislature that in the intervening years continuous progress would be made in the repair, reconstruction or replacement of such school buildings.

(b) Progress toward this end has been outstanding in some school districts. In other school districts the matter has been ignored, thus prolonging a dual level of safety for the schoolchildren of California.

(c) Recognizing that some school buildings are better preserved than others, that some are less hazardous than others, that some more nearly satisfy modern educational needs than others, but that the best of these buildings are at least 33 years old and approaching the end of their efficient service life, it is reasonable to expect that all of them will have been repaired, reconstructed or replaced by 1983, at which time the newest of them will be 50 years old.

39211. It is the intent of the Legislature to reexamine the progress under this article from time to time. To enable it to do so, and to expedite the provision of safe educational facilities for California schoolchildren, the Legislature intends that the governing board of each school district adopt a plan for the orderly repair, reconstruction, or replacement of school buildings not repaired, reconstructed, or replaced in accordance with this article.

39212. The governing board of any school district which has in use for school purposes any school buildings which were not constructed under approved plans and the supervision and inspection requirements of Article 3 (commencing with Section 39140) of this chapter shall have such buildings examined pursuant to this section and shall have completed on or before January 1, 1970, the examination, reporting and estimate requirements of this section and Section 39223.

Whenever an examination of the structural condition of any school building of a school district has been made by the Department of General Services, or by any licensed structural engineer or licensed architect for the governing board of the school district, or under the authorization of law, and a report of the examination, including the findings and recommendations of the agency or person making the examination, has been made to the governing board of the district, and the report shows that the building is unsafe for use, the governing board of the district shall immediately have prepared an estimate of the cost necessary to make such repairs to the building or buildings as are necessary, or, if necessary, to reconstruct or replace the building so that the building when repaired or reconstructed, or any building erected to replace it, shall meet such standards of structural safety as are established in accordance with law. The estimate shall be based on current costs and may include other costs to reflect modern educational needs. Also an estimate of the cost of replacement based on the standards established by the State Allocation Board for area per pupil and cost per square foot, shall be made and reported.

The report required by this section shall include a statement that each of the buildings examined is safe or unsafe for school use. For the purpose of this statement the sole consideration shall be protection of life and the prevention of personal injury at a level of

safety equivalent to that established by Article 3 (commencing with Section 39140) of this chapter and the rules and regulations adopted thereunder, disregarding, insofar as possible, such building damage not jeopardizing life which would be expected from one disturbance of nature of the intensity used for design purposes in said rules and regulations.

The governing board, utilizing the information acquired from the examination and report developed pursuant to this section, shall establish a system of priorities for the repair, reconstruction, or replacement of unsafe school buildings.

39213. (Repealed by Stats 1976, Ch. 1011.)

[ORIGINAL SECTION]

39213. Whenever an examination of the geological characteristics of the site on which any public school building constructed prior to 1957 is situated has been made at the request of the governing board by a licensed geologist prior to the effective date of the act which enacted this section, and the report shows that the school building is situated on the trace of an active geological fault along which it can reasonably be expected that surface rupture will occur within the life of such building, such building shall be deemed structurally unsafe for school use. Such building shall be subject to replacement at another location in accordance with the procedure provided for repair, reconstruction, or replacement in Section 39212 as though it had not been constructed in conformance with Article 3 (commencing with Section 39140) of this chapter.

This section shall remain in effect only until July 1, 1976, and as of that date is repealed.

39214. "School building" as used in this article excludes any building which is used exclusively for warehouse, storage, garage, or districtwide administrative office purposes, into which pupils are not required to enter, and buildings utilized by adult schools for off-campus, voluntary adult education courses or registered apprentice courses.

"School building" as used in this article excludes any building owned or occupied by a unified school district, high school district, or a county superintendent of schools, and which on July 1, 1975, and continuously since then, was used exclusively for adult education purposes.

If any building so excluded was not constructed in accordance with Article 3 (commencing with Section 39140) of this chapter and was not repaired, reconstructed, or replaced in accordance with this article, there shall be posted in a conspicuous place on such building a public notice stating that such building does not meet the structural standards imposed by law for earthquake safety.

(Amended by Stats. 1976, Ch. 1011 )

[ORIGINAL SECTION]

39214. "School building" as used in this article excludes any building which is used exclusively for warehouse, storage, garage, or districtwide administrative office purposes, into which pupils are not required to enter, and buildings utilized by adult schools or community colleges for off-campus, voluntary adult education courses or registered apprentice courses

If any building so excluded was not constructed in accordance with Article 3 (commencing with Section 39140) of this chapter and was not repaired, reconstructed, or replaced in accordance with this article, there shall be posted in a conspicuous place

on such building a public notice stating that such building does not meet the structural standards imposed by law for earthquake safety

39215. After securing the estimates, the governing board of the district shall, if the district has sufficient funds to its credit to permit the repairs, reconstruction, or replacement, and such funds do not represent the proceeds of a bond issue previously authorized by the electorate of the district for other purposes, immediately proceed in such manner as is authorized by law to secure the necessary authorization for the expenditure of the funds. If authorization to expend the funds is not required by law, the board shall within six months from the receipt of the report of the examination of the building or buildings initiate action for the repair, reconstruction, or replacement of the building or buildings.

39216. If the district does not have sufficient funds available to permit the governing board of the district to proceed with the repair, reconstruction, or replacement of the building or buildings, the governing board shall within 12 months after receiving the report of the examination of the building or buildings, call an election. At such election there shall be submitted to the qualified electors of the district either proposition (a) or (b), or both propositions (a) and (b), as determined by the governing board of the district, as follows:

(a) (1) Authorization of bonds of the district in an amount sufficient, as shown by the estimate, to provide funds for the repair, or reconstruction, of the building or buildings, in accordance with the governing board's plans; or

(2) Authorization of bonds of the district in an amount sufficient as shown by the estimate obtained by the district to construct new school facilities on the site of one or more of the unfit building or buildings, or on other sites, in accordance with the governing board's plan.

(b) Authorization of the increase of the maximum tax rate of the district for such length of time as will permit raising sufficient funds by district taxation for the repair, reconstruction, or replacement of the building in accordance with the governing board's plan.

In connection with the submission of either proposition (a) or (b), or both propositions (a) and (b), the governing board of the district may submit to the qualified electors of the district a proposition for the abandonment of the building and the use of tents or other temporary structures for school purposes in lieu of the building abandoned.

Neither of the propositions under (a) and (b) shall be required to make provision for financing of the entire repair, reconstruction or replacement program of the district, but shall at least provide funds for commencement of such repair, reconstruction or replacement, consistent with the governing board's plan.

39217. Where authorization of the qualified electors for the expenditure of the funds is required under any law of this state, the proposition to authorize the expenditure shall be submitted at the election.

39218. The resolution ordering and the notice calling the election

shall specify the building or buildings initially proposed to be repaired, reconstructed, or replaced, and those proposed to be repaired, reconstructed, or replaced pursuant to the governing board's plan.

39219. The election shall be called, held and conducted in the manner provided in Chapter 3 (commencing with Section 5300) of Part 4 of Division 1 of Title 1. Each elector shall be entitled to vote upon each of the propositions.

39220. If, at the election, the requisite number of voters cast their ballots in favor of the issuance of bonds, the bonds shall be issued and sold in the manner provided by law for the issuance and sale of bonds of the district, and the proceeds used for the purpose or purposes specified in the resolution or notice calling the election. In such event, the results of the voting upon the proposition calling for an increase in the maximum tax rate of the district submitted at the election shall be disregarded.

39221. If, at the election, issuance of bonds of the district is not authorized, and if, on the proposition of increasing the tax rate of the district the number of votes cast in the affirmative is sufficient to authorize an increase in the tax rate of the district, the increase shall be authorized, and the governing board shall proceed to increase the rate and to use the proceeds of the increased tax solely for the purpose or purposes specified in the resolution or notice calling the election.

39222. If, at the election, no proposition which is required to be submitted to the qualified electors is approved and authorized, the governing board of the district shall, in accordance with the same or a modified plan, submit either the proposition to authorize the issuance of bonds, or the proposition to increase the tax rate, or both, no later than five years following the last submission of either or both of these propositions to the qualified electors of the district. The result of the voting on the proposition to authorize the use of tents or other temporary structures shall be considered by the governing board as an advisory vote, and the tents or other temporary structures may be used for school purposes to the extent that such use is deemed necessary by the governing board.

39223. The governing board of each school district required to act pursuant to Section 39212 shall, within 12 months after receiving the report of the examination of the building or buildings, place on file with the Bureau of School Planning within the Department of Education a summary of all reports of examinations and estimates relating to school buildings which have not been repaired, reconstructed or replaced in accordance with law, including a summary of previous elections held and actions taken concerning this matter, if any, and a statement of intentions to repair, reconstruct or replace such buildings which shall constitute the governing board's plan. The plan shall include the approximate date it is contemplated that such actions to repair, reconstruct or replace each such building will occur.

39224. The Bureau of School Planning within the Department of

Education shall summarize and report to the Legislature every two years, commencing with the 1968 Regular Session, the data placed on file with the bureau pursuant to Section 39223.

39225. Except as provided in Section 39226, nothing in this article shall be construed as relieving any member of the governing board of a school district of any liability for injury to persons or damage to property imposed by law.

39226. No member of the governing board of a school district shall be held personally liable for injury to persons or damage to property resulting from the fact that a school building was not constructed under the requirements of Article 3 (commencing with Section 39140) of this chapter, if such governing board complies with the provisions of this article. Such limit on liability shall commence when such governing board initiates action to comply with the provisions of Section 39212.

A licensed structural engineer or licensed architect employed by a governing board to examine any school building under this article shall not be held personally liable for injury to persons or damage to property as a result of the structural inadequacy and failure of a building, provided he has exercised normal professional diligence in carrying out his functions under Article 3 (commencing with Section 39140) of this chapter and the provisions of this article.

39227. No school building examined and found to be unsafe for school use pursuant to Section 39212 and not repaired or reconstructed in accordance with the provisions of this article, and no school building which has never met the requirements of Article 3 (commencing with Section 39140) of this chapter, shall be used as a school building for elementary or secondary school purposes after June 30, 1975, except as permitted by Article 7 (commencing with Section 39240) of this chapter, unless the governing board of the school district has requested and obtained from the State Allocation Board authority for use of such building for a specific period beyond such date. Prior to requesting such authority, the governing board shall adopt a resolution declaring the board's intention to utilize the building as a school building after June 30, 1975, pending its repair, reconstruction, or replacement. The State Allocation Board shall not authorize any school district to use such a building beyond June 30, 1975, unless it has first determined that the school district has already proceeded with a plan of total repair, reconstruction or replacement in a timely manner and a contract has been let for any phase of, and work commenced on, such project. In no event shall the State Allocation Board authorize the use of such unsafe facilities for a period extending beyond the completion of the replacement facilities or beyond June 30, 1977, whichever occurs first.

39228. Notwithstanding any other provision of this article or Article 9 (commencing with Section 16310) of Chapter 8 of Part 10 of Division 1 of Title 1, whenever a school district does not have funds available to repair, reconstruct, or replace the school buildings referred to in this article or Section 16320, the school district shall apply for such funds as may be necessary to accomplish such repair,

reconstruction, or replacement pursuant to the provisions of Article 9. The school district shall also accept such funds as are disbursed to the district pursuant to Article 9, whether or not the funds constitute the maximum amount applied for, and shall repay such funds in accordance with the provisions of Article 9. In cases in which funds derived from a tax increase levied pursuant to Section 39230 or 39230.5 are utilized to match amounts disbursed to a school district under an apportionment made pursuant to Article 9 (commencing with Section 16310) of Chapter 8 of Part 10 of Division 1 of Title 1, such disbursement and repayment may be made without the necessity of a vote of the electorate of the district as prescribed in any provision of Chapter 8 (commencing with Section 16000) of Part 10 of Division 1 of Title 1.

39230. The governing board of a school district may undertake corrective measures relating to earthquake safety recommended to the governing board pursuant to Section 39212 in connection with any school building under the jurisdiction of the governing board without compliance with the procedures otherwise prescribed by Section 39216.

The maximum rate of tax of any school district for the fiscal years 1974-75 to 1976-77, inclusive, is hereby increased by such amount as will produce the amount necessary to have any school buildings examined as required by Section 39212 and to effect the corrective structural repairs, reconstruction or replacement relating to earthquake safety recommended pursuant to Section 39212, as shown by the budget of the district for such school year as finally adopted by the governing board of the district, less any unencumbered balances remaining at the end of the preceding school year derived from revenue from the increase in the rate of tax provided by this section. The funds provided by such increase in the tax rate may be used to provide for the housing of pupils temporarily displaced by the repair, reconstruction, or replacement of school buildings required in order to meet earthquake safety standards.

The increase provided by this section shall not exceed a total increase of ten cents (\$.10) for each one hundred dollars (\$100) of the assessed valuation of property within the district in each fiscal year, unless additional funds are specifically required by the district to match state funds provided pursuant to Article 9 (commencing with Section 16310) of Chapter 8 of Part 10 of Division 1 of Title 1. If such additional funds are required by the district, the maximum increase in tax rate provided by this section may be increased by not to exceed an additional ten cents (\$.10) for each one hundred dollars (\$100) of assessed valuation of property within the district in each fiscal year such additional funds are required pursuant to Article 9, prior to and including the 1973-74 fiscal year. Such additional tax money may be levied in the 1974-75 fiscal year only if the State Allocation Board has first approved an application of the district pursuant to Article 9. After the 1974-75 fiscal year, any district which has levied the entire twenty-cent (\$.20) amount permitted by this section in the preceding fiscal year and has deposited in the

State School Building Fund of the district, the proceeds derived therefrom as matching funds in an application or applications under Article 9 may levy the same twenty-cent (\$.20) tax or so much thereof as is necessary for matching funds for an application or applications under Article 9 in any succeeding fiscal year, including, but not beyond, the 1976-77 fiscal year.

Any balance derived from the revenue of the increase in tax rate levied for matching purposes of Article 9, as herein provided, which is not expended under an application or applications approved pursuant to Article 9 at the completion of the construction project and approval of final costs thereof by the State Allocation Board shall be applied as a repayment of any apportionment heretofore or hereafter outstanding against the district under the provisions of Article 9.

This section shall remain operative only until July 1, 1978, and as of such date is repealed.

Notwithstanding the provisions of this section, the governing board shall comply with the provisions of Section 39212 whenever such compliance is necessary to continue the program of corrective structural repairs, reconstruction, or replacement required pursuant to the provisions of this article.

(Amended by Stats 1976, Ch 1011)

[ORIGINAL SECTION]

39230. The governing board of a school district may undertake corrective measures relating to earthquake safety recommended to the governing board pursuant to Section 39212 in connection with any school building under the jurisdiction of the governing board without compliance with the procedures otherwise prescribed by Section 39216.

The maximum rate of tax of any school district for the fiscal years 1974-75 to 1976-77, inclusive, is hereby increased by such amount as will produce the amount necessary to have any school buildings examined as required by Section 39212 and to effect the corrective structural repairs, reconstruction or replacement relating to earthquake safety recommended pursuant to Section 39212, as shown by the budget of the district for such school year as finally adopted by the governing board of the district, less any unencumbered balances remaining at the end of the preceding school year derived from revenue from the increase in the rate of tax provided by this section. The funds provided by such increase in the tax rate may be used to provide for the housing of pupils temporarily displaced by the repair, reconstruction, or replacement of school buildings required in order to meet earthquake safety standards.

The increase provided by this section and Section 39229 shall not exceed a total increase of ten cents (\$.10) for each one hundred dollars (\$100) of the assessed valuation of property within the district in each fiscal year, unless additional funds are specifically required by the district to match state funds provided pursuant to Article 9 (commencing with Section 16310) of Chapter 8 of Part 10 of Division 1 of Title 1. If such additional funds are required by the district, the maximum increase in tax rate provided by this section may be increased by not to exceed an additional ten cents (\$.10) for each one hundred dollars (\$100) of assessed valuation of property within the district in each fiscal year such additional funds are required pursuant to Article 9, prior to and including the 1973-74 fiscal year. Such additional tax money may be levied in the 1974-75 fiscal year only if the State Allocation Board has first approved an application of the district pursuant to Article 9. After the 1974-75 fiscal year, any district which has levied the entire twenty-cent (\$.20) amount permitted by this section in the preceding fiscal year and has deposited in the State School Building Fund of the district, the proceeds derived therefrom as matching funds in an application or applications under Article 9 may levy the same twenty-cent (\$.20) tax

or so much thereof as is necessary for matching funds for an application or applications under Article 9 in any succeeding fiscal year, including, but not beyond, the 1976-77 fiscal year

Any balance derived from the revenue of the increase in tax rate levied for matching purposes of Article 9, as herein provided, which is not expended under an application or applications approved pursuant to Article 9 at the completion of the construction project and approval of final costs thereof by the State Allocation Board shall be applied as a repayment of any apportionment heretofore or hereafter outstanding against the district under the provisions of Article 9.

This section shall remain operative only until July 1, 1978, and as of such date is repealed.

Notwithstanding the provisions of this section, the governing board shall comply with the provisions of Section 39212 whenever such compliance is necessary to continue the program of corrective structural repairs, reconstruction, or replacement required pursuant to the provisions of this article

39230.5. Notwithstanding the provisions of Section 39230, a district having an approved application under the provisions of Section 16339.6 may levy a tax at the rate of twenty cents (\$.20) per one hundred dollars (\$100) of assessed valuation for the 1975-76 fiscal year only.

39231 (Repealed by Stats 1976, Ch 1011 )

[ORIGINAL SECTION]

39231 Whenever the geological characteristics of a school site in which any public school building is located is subject to Section 39213, the governing board of the school district may undertake corrective measures relating to earthquake safety recommended to the governing board pursuant to Section 39212 in connection with any school building under the jurisdiction of the governing board without compliance with the procedures otherwise prescribed by Section 39216

The maximum rate of tax of any such school district for the fiscal years 1974-75 and 1975-76 is hereby increased by such amount as will produce the amount necessary to have any school buildings, subject to Section 39213, examined as required by Section 39212 and to effect the corrective structural replacement relating to earthquake safety recommended pursuant to Sections 39212 and 39213, as shown by the budget of the district for such school year as finally adopted by the governing board of the district, less any unencumbered balances remaining at the end of the preceding school year derived from revenue from the increase in the rate of tax provided by this section. The funds provided by such increase in the tax rate may be used to provide for the housing of pupils temporarily displaced by the replacement of school buildings required in order to meet earthquake safety standards

The increase provided by this section shall not exceed a total increase of ten cents (\$.10) for each one hundred dollars (\$100) of the assessed valuation of property within the district in each fiscal year.

If at the end of any school year, there remains an unencumbered balance derived from the revenue of the increase in tax rate hereby provided, such balance may be accumulated until the date specified in this section for the termination of its effect and shall be used exclusively for expenditures of the school district for purposes of this section

The increase in tax rate provided by this section shall not be deemed to be in addition to the increase provided by Section 39230. During any period in which both this section and Section 39230 are in effect and operative, this section shall be deemed alternative to Section 39230 in any instance in which both are applicable to any particular factual situation

This section shall remain in effect until July 1, 1976, and as of that date is repealed. This section shall remain in effect until such date regardless of the repeal or expiration of Sections 39229 and 39230

Notwithstanding the provisions of this section, the governing board shall comply with the provisions of Section 39216 whenever such compliance is necessary to continue the program of corrective structural repairs, reconstruction, or replacement required pursuant to the provisions of this article.

39232. Any revenue derived from an increase in the rate of tax provided by Section 39230 prior to July 1, 1975, and which is unexpended on that date, may be used after July 1, 1975, by the governing board of a school district to complete the corrective structural repair, reconstruction, or replacement of any school building subject to Section 39212 which had not been completed on that date.

Article 7. Lease and Lease-Purchase of Sites, Buildings, and Facilities

39240. The provisions of this article shall govern the lease or lease-purchase of sites, buildings, and facilities by the governing board of any school district whenever the school district is the lessee or purchaser and the lease or lease-purchase is not subject to Section 18 of Article XVI of the Constitution.

39241. For purposes of this article the following definitions shall govern:

(a) "Temporary use building" is any building for which the intended use by the school district at the time of entering into a lease contract or agreement is not for more than three years from the date of first occupancy.

(b) "Relocatable structure" is any structure that is designed to be relocated.

39242. (a) The governing board of any school district may lease land for a term extending to the expected duration of use by the school district.

(b) Any lease contract or agreement entered into pursuant to this section shall be initiated by resolution authorizing such action and prescribing the terms thereof adopted by vote of a majority of the members of the governing board.

39243. (a) The governing board of any school district may lease temporary use buildings for a term extending to the expected duration of use by the school district.

(b) Any lease agreement or contract entered into pursuant to this section shall be initiated by resolution authorizing such action and prescribing the terms thereof adopted by vote of a majority of the members of the governing board.

(c) A governing board of a school district shall not enter into a lease pursuant to subdivision (a), unless the resolution adopted pursuant to subdivision (b) has been published in a newspaper published in the district and having a general circulation there; or if there is no such newspaper, then in a newspaper having a general circulation in the district; or if there is no such newspaper, then in a newspaper having a general circulation in a county in which the district or any part thereof is situated. Notice shall be published no less than once a week for three weeks prior to the execution of the lease by the board.

(d) Any temporary-use building in which pupils are expected to

enter and which is leased under one, or successive leases, for a total time in excess of three years, or under a lease-purchase contract, shall be subject to the provisions of Article 3 (commencing with Section 39140) and Article 6 (commencing with Section 39210) of this chapter.

39244. Any lease contract or agreement entered into pursuant to Section 39243 shall be subject to the condition that the site on which any temporary-use building is located shall be owned by the school district, or shall be under the control of the school district pursuant to a lease or lease-purchase contract or agreement under the terms of which the land is leased to the district for a term at least as long as the intended use of the building, and under conditions that are compatible with the intended use of the building.

39245. Any lease contract or agreement entered into pursuant to Section 39243 may provide for the joint use and occupancy by any public or private entity.

39246. (a) The governing board of any school district may lease relocatable structures for a term extending to the expected duration of use by the school district, but not to exceed 10 years.

(b) Any lease agreement or contract entered into pursuant to this section shall be initiated by resolution authorizing such action and prescribing the terms thereof adopted by vote of a majority of the members of the governing board.

39247. In any lease made pursuant to Section 39246, it shall be competent to provide that the school district lessee may purchase the relocatable structure at an agreed purchase price and that rental paid for the use of such structure or building shall be applied in whole or in part upon the purchase price.

39248. Any lease contract or agreement entered into pursuant to Section 39246 shall be subject to the following conditions:

(a) A leased relocatable structure in which students are expected to enter and which is to be used for school purposes for a total time in excess of three years shall be subject to the provisions of Article 3 (commencing with Section 39140) and Article 6 (commencing with Section 39210) of this chapter.

(b) Subdivision (a) of this section shall not apply to trailer coaches used for classrooms or laboratories if such trailer coaches conform to the requirements of Part 2 (commencing with Section 18000) of Division 13 of the Health and Safety Code, and the rules and regulations promulgated thereunder concerning mobilehomes, are not expanded or fitted together with other sections to form one unit greater than 16 feet in width, are used for special educational purposes, and are used by not more than 12 students at a time, except that such trailer coaches may be used by not more than 20 students at a time for driver training purposes.

(c) The site on which a leased relocatable structure is located shall be owned by the school district, or shall be under the control of the school district pursuant to a lease or a permit.

39249. (a) Notwithstanding any other provision of law to the

contrary, the governing board of any school district may designate a building, which is primarily used for other than public school purposes, as an "offsite location" for the purpose of conducting instruction in educational programs as prescribed by the governing board, provided that such educational programs require an "offsite location" in order to adequately fulfill the objective of the educational program.

(b) Any building used as an "offsite location" pursuant to subdivision (a) shall not be subject to Article 3 (commencing with Section 39140) of, or Article 6 (commencing with Section 39210) of, this chapter.

39250. The governing board of a school district may:

(a) Lease buildings and other facilities such as administrative offices, warehouses, athletic facilities, outdoor assembly facilities, auditoriums, quarters for adult education, transportation facilities, and communication facilities, for a period of not to exceed 12 years.

(b) Lease property from the federal government, the state, or any county, city and county, city, or district for the purpose of constructing school buildings and facilities thereon.

(c) Except as otherwise provided, any building leased for a total time in excess of three years, or under a lease-purchase agreement, shall be deemed the construction or alteration of a school building, as those terms are used in Article 3 (commencing with Section 39140) of this chapter.

39251. Any lease or lease-purchase contract or agreement executed prior to the effective date of this article shall remain in full force and effect. The renewal of such contracts or agreements, however, shall be governed by the provisions of this article.

39252. Notwithstanding any limitations or requirements imposed by this article upon the leasing or renewal of leasing of relocatable structures on and after August 27, 1974, all acts and proceedings heretofore taken by or on behalf of any school district for the lease of, or the renewal of a lease of, relocatable structures, including but not limited to trailers, are hereby confirmed, validated and declared to be legally effective and such lease agreements or renewals of such lease agreements, are legal, valid and binding obligations if such lease agreements, or renewals of such lease agreements would have otherwise been authorized under former Education Code Section 15352 or 15352.5 had such sections not been repealed on August 27, 1974, by Chapter 547 of the Statutes of 1974.

(Amended by Stats. 1976, Ch. 1011 )

[ORIGINAL SECTION]

39252. Notwithstanding any limitations or requirements imposed by this article upon the leasing or renewal of leasing of relocatable structures on and after August 27, 1974, all acts and proceedings heretofore taken by or on behalf of any school district or community college district for the lease of, or the renewal of a lease of, relocatable structures, including but not limited to trailers, are hereby confirmed, validated and declared to be legally effective and such lease agreements or renewals of such lease agreements are legal, valid and binding obligations if such lease agreements or renewals of such lease agreements would have otherwise been authorized under

former Education Code Section 15352 or 15352.5 had such sections not been repealed on August 27, 1974, by Chapter 547 of the Statutes of 1974

### Article 8. All-Purpose Recreational Stadium and Center

39270. The governing board of the Los Angeles Unified School District, the City of Los Angeles, and the Board of Supervisors of the County of Los Angeles may form a joint powers agency pursuant to Chapter 5 (commencing with Section 6500) of Division 7 of Title 1 of the Government Code for the financing, construction, and operation of an all-purpose recreational stadium and center in the harbor area of Los Angeles County.

The governing body of the joint powers agency shall be composed of the following members:

(a) One member appointed by the Los Angeles County Board of Supervisors.

(b) One member appointed by the City of Los Angeles.

(c) One member appointed by the governing board of the Los Angeles Unified School District.

(d) Two members by a majority of the three members appointed pursuant to subdivisions (a), (b), and (c).

39271. The Board of Supervisors of Los Angeles County may establish a county service area pursuant to Chapter 2.2 (commencing with Section 25210) of Part 2 of Division 2 of Title 3 of the Government Code, for the construction and operation of the recreational stadium and center, with the consent of both the City of Los Angeles and the governing board of Los Angeles Unified School District.

The boundaries of such a county service area shall be prescribed by the governing body of the joint powers agency.

39272. The governing body of the joint powers agency may, pursuant to Article 2 (commencing with Section 6540) of Chapter 5 of Division 7 of Title 1 of the Government Code, issue revenue bonds to finance the construction of the all-purpose recreational stadium and center.

39273. The governing body of the joint powers agency may, pursuant to the terms of the joint powers agreement, rent the stadium or center to any public or private entity. The proceeds of such rental shall be used for the payment of principal and interest on the revenue bonds and the operation and maintenance of the stadium and center.

39274. The board of supervisors may have levied and collected a tax within the county service area for the purpose of obtaining funds for contribution to the joint powers agency for the operation and maintenance of the stadium and center.

However, no such tax may be levied and collected unless a majority of the voters of the county service area voting at an election called for such purpose approve a ballot proposition authorizing the levy and collection of such tax. The election may be called by the

board of supervisors.

The joint powers agency shall not undertake any financing or construction of the all-purpose recreational stadium and center unless and until such proposition is approved by the voters.

39275. The Legislature finds and declares that because of a unique situation existing in the harbor area of the County of Los Angeles regarding the possible acquisition of useful federal surplus land, a general law, within the meaning of Section 16 of Article IV of the California Constitution, cannot be made applicable.

### CHAPTER 3. PROPERTY: SALE, LEASE, EXCHANGE

#### Article 1. Conveyances

39290. The governing board of any school district shall receive in the name of the district conveyances for all property received and purchased by it, and shall make in the name of the district conveyances of all property belonging to the district and sold by it.

39291. The governing board of any school district shall have the power to execute and deliver quitclaim deeds, either with or without consideration to the owners of real property adjacent to any real property owned by the school district, for the purpose of removing defects in and otherwise clearing up the title to such adjacent real property.

#### Article 2. Leasing Property

39300. Any school district may enter into leases and agreements relating to real property and buildings to be used by the district pursuant to this article. As used in this article, "building" includes (a) one or more buildings located or to be located on one or more sites; (b) the remodeling of any building located on a site to be leased pursuant to this article; (c) onsite and offsite facilities, utilities or improvements which the governing board determines are necessary for the proper operation or function of the school facilities to be leased. It also includes the permanent improvement of school grounds. As used in this article, "site" includes one or more sites, and also may include any building or buildings located or to be located on a site.

39301. As used in this article "lease or agreement" shall include a lease-purchase agreement.

39302. Before the governing board of a school district enters into a lease or agreement pursuant to this article, it shall have available a site upon which a building to be used by the district may be constructed and shall have complied with the provisions of law relating to the selection and approval of sites, and it shall have prepared and shall have adopted plans and specifications for such building which have been approved pursuant to Sections 39117 to 39120, and Sections 39140 to 39155, inclusive. A district has a site

available for the purposes of this section if it owns a site or if it has an option on a site which allows the school district or the designee of the district to purchase the site. Any school district may acquire and pay for an option containing such a provision.

39303. The term of any lease or agreement entered into by a school district pursuant to this article shall not exceed 40 years.

39304. Sections 39360 to 39379, inclusive, shall not apply to leases made pursuant to this article.

39305. The governing board of a school district may let, at a minimum rental of one dollar (\$1) a year, to any person, firm, or corporation any real property which belongs to the district if the instrument by which such property is let requires the lessee therein to construct on the demised premises, or provide for the construction thereon of, a building or buildings for the use of the school district during the term thereof, and provides that title to such building shall vest in the school district at the expiration of such term. Such instrument may provide for the means or methods by which such title shall vest in the school district prior to the expiration of such term, and shall contain such other terms and conditions as the governing board may deem to be in the best interest of the school district.

39306. The governing board of any school district may enter into an agreement with any person, firm, or corporation under which such person, firm, or corporation shall construct, or provide for the construction of, a building to be used by the district upon a designated site and lease such building and site to the district. Such instrument shall provide that the title to such building and site shall vest in the district at the expiration of such lease, and may provide the means or method by which the title to the building and site shall vest in the district prior to the expiration of such lease, and shall contain such other terms and conditions as the governing board of the district deems to be in the best interest of the district.

The agreement entered into shall be with the lowest responsible bidder who shall give such security as the board requires. The board may reject all bids. For the purpose of securing bids the board shall publish at least once a week for two weeks in some newspaper of general circulation published in the district, or if there is no such paper, then in some paper of general circulation circulated in the county, a notice calling for bids, stating the proposed terms of the agreement and the time and place where bids will be opened.

39307. The governing board of a school district shall call and hold an election, pursuant to Section 39308 or 39311, before or after entering a lease or agreement, as the case may be, except that if the lease or agreement does not effect an increase in the existing applicable maximum tax rate of a community college district, the election requirements of this section shall not apply.

39308. Before entering into a lease or agreement pursuant to this article, the governing board of the district shall call, hold, and conduct an election in the manner provided in Section 85112 or

42202, as the case may be, except that the ballot used in the election shall contain substantially the words: "Shall the governing board of the \_\_\_\_\_ District purchase (a site, sites) prepare plans and specifications, [the reference to the site or sites and plans and specifications shall not be included if, prior to calling the election, the governing board of the district has acquired a site or sites or proposes to lease a site or sites and has prepared plans and specifications] and lease (a site and, sites and) (a building, buildings) to be constructed for use by the school district [designating the location of the site or sites on which the building or buildings will be constructed and generally describing the building or buildings], and, for such purposes, shall the maximum tax rate of the district be increased by not to exceed \_\_\_\_\_, such increase to be in effect in the \_\_\_\_\_ District for the years 19\_\_ to \_\_\_\_\_, be authorized and the amount of such increase used solely and exclusively for such purposes?"

39309. The governing board of the district, if the district proposes at an election held pursuant to Section 39308 to lease more than one building, may include in the ballot measure used in the election a statement that the district reserves the right to lease less than all of the proposed buildings designated in the ballot measure. If such a statement is included in the ballot measure, the governing board may at any time thereafter determine to not lease one or more of the buildings included in the ballot measure, and such determination shall not breach any obligation of the district to the voters of the district.

39310. An election held pursuant to Section 39308 or Section 39311 shall be held in conjunction with either a statewide primary or general election, or an election date specified in Section 2504 of the Elections Code.

39311. In lieu of calling an election pursuant to Section 39308, the governing board of a school district may call an election pursuant to this section. Within 10 days after the governing board has opened the proposals pursuant to Section 39314 or has adopted a resolution pursuant to Section 39315 it may accept a proposal, if proceeding under Section 39314, and execute the lease or agreement, and immediately thereafter call an election pursuant to this section.

The governing board of the district shall call, hold, and conduct an election in the manner provided in Section 42202 as the case may be, except that the ballot used in the election shall contain substantially the words: "Shall the governing board of the \_\_\_\_\_ District lease [a site (sites) and] a building [buildings] to be constructed for use by the school district [designating the location of the site or sites on which the building or buildings will be constructed, and generally describing the building or buildings and the cost thereof], and, for such purposes, shall the maximum tax rate of the district be increased by not to exceed \_\_\_\_\_, such increase to be in effect in the \_\_\_\_\_ District for the years 19\_\_ to \_\_\_\_\_, be authorized and the amount of such increase used solely and exclusively for such purposes?"

39312. If, at the election held pursuant to Section 39308 or Section 39311, a majority of the electors voting on the proposition vote "Yes," the governing board may proceed pursuant to this article.

39312.5. Whenever the electors of a school district, at an election held pursuant to Section 39308 or 39311, have approved an increase in the maximum tax rate of the district for the purpose of enabling the district to enter into a lease or agreement for a site or building, or both, and before such lease or agreement is entered into, or during the term of such lease or agreement, territory is taken from the district and annexed to or included in another district by any means, the acquiring district shall automatically assume and shall pay to the district from which the territory is transferred a proportionate share of any remaining payments due under the lease or agreement, as such payments become due, for so long as such lease or agreement runs.

The acquiring district's proportionate share shall be in the ratio which the total assessed valuation of taxable property in the transferred territory bore to the total assessed valuation of taxable property in the whole district from which the territory is transferred for the year immediately preceding the date on which the transfer became effective for all purposes.

This section shall be applicable only with respect to transfers of school district territory which become effective for all purposes after the effective date of enactment of this section, and shall be applicable whether the election under Section 39308 or 39311 occurred prior to or after the effective date of this section.

39313. If the governing board of the district fails to enter into a lease pursuant to this article within three years after the result of an election, held pursuant to Section 39308, at which a majority of the votes cast favors the proposition submitted, the authorization for an increase in the maximum tax rate shall become void.

39314. After the governing board of a school district has complied with Section 39302, it shall, in a regular open meeting, adopt a resolution declaring its intention to enter into a lease or agreement pursuant to this article. The resolution shall describe, in such manner as to identify it, the available site upon which the building to be used by the district shall be constructed, shall generally describe the building to be constructed and state that the building shall be constructed pursuant to the plans and specifications adopted by the governing board therefor, shall, if such is the case, state the minimum yearly rental at which the governing board will lease real property belonging to the district upon which the building is to be constructed, and shall state the maximum number of years for which the school district will lease the building or site and building, as the case may be, and shall state that the proposals submitted therefor shall designate the amount of rental, which shall be annual, semiannual, or monthly, to be paid by the school district for the use of the building, or building and site, as the case may be. The

resolution shall fix a time, not less than three weeks thereafter for a public meeting of the governing board to be held at its regular place of meeting, at which sealed proposals to enter such a lease or agreement with the school district will be received from any person, firm, or corporation, and considered by the governing board. Notice thereof shall be given in the manner provided in Section 39369.

At the time and place fixed in the resolution for the meeting of the governing body, all sealed proposals which have been received shall, in public session, be opened, examined, and declared by the board. Of the proposals submitted which conform to all terms and conditions specified in the resolution of intention to enter a lease or agreement and which are made by responsible bidders, the proposal which calls for the lowest rental shall be finally accepted, or the board shall reject all bids. The board is not required to accept a proposal, or else reject all bids, on the same day as that in which the proposals are opened.

39315. As an alternative to obtaining sealed proposals as required by Sections 39306 and 39314, the governing board may, in a public meeting, adopt a resolution declaring its intention to enter into a lease or agreement pursuant to this article with a nonprofit corporation organized under Part 1 (commencing with Section 9000) of Division 2 of Title 1 of the Corporations Code if the articles of incorporation or bylaws of the nonprofit corporation provide: (1) that no person shall be eligible to serve as a member or director of the nonprofit corporation except a person initially approved by resolution of the governing board of the school district, and (2) that no part of the net earnings of the nonprofit corporation shall inure to the benefit of any member, private shareholder, individual, person, firm or corporation excepting only the school district. The resolution shall describe, in such manner as to identify it, the available site upon which the building to be used by the district shall be constructed, shall generally describe the building to be constructed and state that the building shall be constructed pursuant to the plans and specifications adopted by the governing board therefor, shall, if such is the case, state the minimum yearly rental at which the governing board will lease real property belonging to the district upon which the building is to be constructed, and shall state the maximum number of years for which the school district will lease the building, or building and site, as the case may be.

Any building constructed by a nonprofit corporation pursuant to a lease or agreement entered into pursuant to this section shall be constructed under a contract awarded to the lowest responsible bidder pursuant to Chapter 3.5 (commencing with Section 4220) of Division 5 of Title 1 of the Government Code. Section 15716 shall apply to such contract.

39316. Any bonds, notes, warrants or other evidences of indebtedness to be issued by a nonprofit corporation to finance the construction of a building pursuant to a lease or agreement entered into pursuant to Section 15712.5 shall be sold pursuant to Chapter 10

(commencing with Section 5800) of Division 6 of Title 1 of the Government Code.

39317. All such bonds, notes, warrants or other evidences of indebtedness referred to in Section 39316 and the interest thereon are exempt from all taxation in the state other than inheritance, gift and franchise taxes.

39318. Any building constructed for the use of a school district pursuant to this article is subject to Sections 39140 to 39155, inclusive.

39319. For the purposes of Sections 15102 and 15106 and Chapter 8 (commencing with Section 16000) of Part 10 of Division 1 of Title 1, 50 percent of any remaining payments for use of the building or site and building which would become due from the district under any leases and agreements entered into by the district pursuant to this article, if such leases and agreements were to run their full term, shall be considered outstanding bonded indebtedness.

39320. No district shall enter into any lease or agreement pursuant to this article if at the time 50 percent of any remaining rental payments for use of the building or site and building which would become due from the district pursuant to this article, including the lease or agreement to be entered into, if such leases and agreements were to run their full term, plus the total amount of district bonded indebtedness outstanding at the time, shall exceed 7.5 percent for elementary school districts and high school districts and 12.5 percent for unified school districts of the taxable property of the district as shown by the last equalized assessment of the county or counties in which the district is located. For the purpose of this section, the taxable property of the district shall be determined upon the basis that the district's assessed value has not been reduced by the exemption of the assessed value of business inventories in the district or reduced by the homeowners' property tax exemption.

39321. The governing board of the school district shall ascertain the general prevailing rate of per diem wages in the locality in which the building is to be constructed for each craft, classification or type of workman needed for the construction of the building and shall specify in the resolution and in the notice, required by Section 39314, or in the resolution required by Section 39315 and in the lease or agreement made pursuant to this article, what the general prevailing rate of per diem wages and the general prevailing rate for holiday and overtime work in the locality is for each craft, classification or type of workmen needed for the construction of the building. The holidays upon which such rate shall be paid need not be specified by the governing board, but shall be all holidays recognized in the collective bargaining agreement applicable to the particular craft, classification or type of workmen employed on the project.

In determining such rates, the governing board shall ascertain and consider the applicable wage rates established by collective bargaining agreements and such rates as may have been predetermined for federal public works, within the locality and in the nearest labor market area. Where such rates do not constitute the

rates actually prevailing in the locality, the governing board shall obtain and consider further data from the labor organizations and employers or employer associations concerned, including the recognized collective bargaining representatives for the particular craft, classification or type of work involved. The rate fixed for each craft, classification or type of work shall not be less than the prevailing rate paid in such craft, classification or type of work.

Any agreement or lease entered into pursuant to this article shall require that such general prevailing rates will be paid. It shall also require that work performed by any workman employed upon the project in excess of eight hours during any one calendar day shall be permitted only upon compensation for all hours worked in excess of eight hours per day at not less than 1½ times the basic rate of pay. There may also be included in leases or agreements entered into pursuant to this article any other requirements with respect to matters related to the subject of this section which the governing board deems necessary or desirable.

39322. The provisions of this article prevail over any provisions of law which conflict therewith.

39323. All acts and proceedings taken prior to the effective date of the enactment of this section, by or on behalf of any district under this article, or under color of this article, for the authorization of an increase in the maximum tax rate of such district and for the leasing of a building or buildings for the purposes of the district are hereby confirmed, ratified, validated, and declared legally effective. This shall include all acts and proceedings of the governing board of such district and of any person, public officer, board, or agency, heretofore done or taken upon the question of the authorization of such tax rate increase or such leasing. Whenever an election has been called and held prior to the effective date of the enactment of this section, for the purpose of submitting to the voters of any district the question of an increase in the maximum tax rate of such district and for the leasing of a building or buildings for the purposes of the district, such election and all proceedings attendant thereon are hereby confirmed, ratified, validated, and declared to be legally effective for all purposes, and such tax rate increase, if authorized by the required vote and in accordance with the proceedings heretofore taken, shall be a legal and valid authorization, in accordance with its terms, and any tax heretofore or hereafter levied pursuant to such authorization shall be legal and valid. The foregoing provisions of this section shall operate to supply such legislative authorization as may be necessary to validate any such acts and proceedings heretofore taken which the Legislature could have supplied or provided for in this article. The foregoing provisions of this section shall be limited to the validation of acts and proceedings to the extent to which the same can be effectuated under the California and United States Constitutions. The foregoing provisions of this section shall not operate to confirm, ratify, validate, or legalize any act, proceeding, or other matter the legality of which is being contested or inquired into in any legal

proceeding now pending and undetermined or which may be pending and undetermined during the period of 30 days from and after the effective date of this section, and shall not operate to confirm, ratify, validate, or legalize any act, proceeding, or other matter which has heretofore been determined in any legal proceeding to be illegal, void, or ineffective.

In any school district in which an election was called and held prior to the effective date of this section in which the voters of such district authorized an increase in the maximum tax rate of such district and the leasing of a building or buildings for the purposes of the district, the law in effect at the date of the school district election shall govern the terms of the lease, the terms of the sale of related bonds, notes, and warrants, and the school district's maximum bonded indebtedness, and Section 39320 shall not be applicable to the school district's entry into any lease or agreement authorized at an election called and held prior to the effective date of this section.

39324. The governing board of a school district may lease property in an adjoining school district for garage, warehouse, or other utility purposes or may purchase property in an adjoining school district for such purposes and may dispose of such property in the same manner as property within the boundary of the district is purchased and disposed of.

The power of eminent domain shall not be applicable and such acquisitions by purchase shall be subject to the approval of the governing board of the school district in which the property is located.

39325. (a) This section shall apply only to a school district in which the electorate authorizes an increase in the maximum tax rate of the district pursuant to the provisions of this article for the lease of one or more schools, and there exists at the time of such election on a site owned by the district a school facility not owned by the district meeting all of the requirements of Article 3 (commencing with Section 39140) of this chapter, which site and school facility are designated and described in the ballot proposition approved by the voters.

(b) Notwithstanding any other provisions of law, a school district may lease from a California nonprofit corporation such existing school and may pay rentals therefor from funds derived from the increase in the maximum tax rate approved by the voters at such election; provided, further, that the purchase price of the school paid by the nonprofit corporation to the owners of the school shall not exceed the actual audited cost of construction thereof including actual interest paid on money borrowed to finance such construction. Prior to the purchase of the school by the nonprofit corporation, an independent certified public accountant shall be retained by the school district to verify the actual cost of construction and any interest paid to finance such construction, and the nonprofit corporation may conclusively rely upon any certificate or opinion setting forth such actual cost of construction and such interest

prepared by the independent certified public accountant.

(c) A school district, the electorate of which, prior to the effective date of this section, authorized an increase in the maximum tax rate in the manner, for the purposes, and under the circumstances specified in subdivision (a), may avail itself of the authority afforded by subdivision (b).

### Article 3. Leasing of Equipment

39330. Any school district or any county superintendent of schools may, as lessee, enter into a lease or lease-purchase agreement for equipment or service systems with any persons, firm, corporation or public agency. As used in this article "equipment" includes (1) schoolbuses, (2) other motor vehicles, (3) test materials, educational films, and audiovisual materials, and (4) all other items defined as equipment or service systems in the California School Accounting Manual.

39331. Before a lease or lease-purchase agreement may be entered into the lessee shall comply with all applicable provisions for bids and contracts prescribed by Article 3 (commencing with Section 39640) of Chapter 4 of this part. Each contract shall show the total price for an outright purchase of any item and also its total cost for the entire specified term of the contract.

39332. The term of any lease or lease-purchase agreement shall not exceed the estimated useful life of the item but in no event shall the term exceed 10 years. A lease, but not a lease-purchase agreement, may be renewable at the option of the lessee and the lessor, jointly, at the end of each term at a rate not more than 7 percent annually above the rate set pursuant to the existing agreement. In no event shall the combined period of the original lease and renewals or extensions exceed 10 years. Any contract for the lease or lease-purchase of equipment or service systems which was in existence prior to April 22, 1975, shall remain in effect and such terms are hereby ratified.

39333. As a lessor, a school district governing board is authorized to let, or let with option to purchase, any land, buildings, or equipment it determines is not needed for school purposes for a term extending to the end of the expected nonuse of the land, buildings, or equipment and under any conditions it deems reasonable. All such leases and leases with options to purchase to nonpublic agencies or individuals shall comply with the provisions of Sections 39520, 39521, 39522 and 39523.

### Article 4. Sale or Lease of Real Property

39360. The governing board of any school district may sell any real property belonging to the school district or may lease for a term not exceeding 99 years, any real property, together with any personal property located thereon, belonging to the school district which is

not or will not be needed by the district for school classroom buildings at the time of delivery of title or possession. The sale or lease may be made without first taking a vote of the electors of the district, and shall be made in the manner provided by this article.

39360.5. The sale of real property pursuant to this article shall be subject to the provisions of Article 8 (commencing with Section 54220) of Chapter 5 of Part 1 of Division 2 of Title 5 of the Government Code.

39361. The governing board of any school district which has by majority vote established a standard rate or rates for the lease pursuant to this article of its real property may by majority vote delegate to such officer or employee as the governing board may designate, the power to enter into leases, for and in behalf of the district, of any real property of the school district, with respect to which real property the district has received only one sealed proposal which conforms with the existing standard rate or rates, from a responsible bidder and no oral bid which would meet the requirements of Section 39372.

39362. The sale may be made for cash, or for part cash and upon such terms of deferred payments secured by purchase money, mortgage, or deed of trust as are determined by the action of the governing board.

39363. The funds derived from the sale or from a lease with an option to purchase shall be used for capital outlay; provided, however, that the proceeds of property sold or leased in accordance with subdivision (a) or (b) of Section 39363.5 may be deposited in the general fund of the district if, prior to such sale or lease, the school district governing board and the State Allocation Board have determined that the district has no anticipated need for additional sites or building construction for the five-year period following such sale or lease.

39363.5. The sale or lease with an option to purchase of real property by a school district shall be in accordance with the following priorities and procedures:

(a) First, the property shall be offered for park or recreational purposes pursuant to Article 8 (commencing with Section 54220) of Chapter 5 of Part 1 of Division 2 of Title 5 of the Government Code, in any instance in which such article is applicable.

(b) Second, the property shall be offered for sale or lease with an option to purchase, at fair market value;

(1) In writing, to the state, the Regents of the University of California, the Trustees of the California State University and Colleges, the county and city in which the property is situated, and to any public housing authority in the county in which the property is situated; and

(2) By public notice to any public district, public authority, public agency, public corporation, or any other political subdivision in this state, to the federal government, and to nonprofit charitable corporations organized pursuant to Part 3 (commencing with

Section 10200) of Division 2 of Title 1 of the Corporations Code. Public notice shall consist of at least publishing its intention to dispose of the real property in a newspaper of general circulation within the district, or if there is no such newspaper, then in any newspaper of general circulation that is regularly circulated in the district. The notice shall specify that the property is being made available to all public districts, public authorities, public agencies, and other political subdivisions or public corporations in this state, and to other nonprofit charitable corporations.

Publication of notice pursuant to this section shall be once each week for three successive weeks. Three publications in a newspaper regularly published once a week or oftener, with at least five days intervening between the respective publication dates not counting such publication dates, are sufficient. The written notice required by paragraph (1) of this subdivision shall be mailed no later than the date of the second published notice.

The entity desiring to purchase or lease the property shall, within 60 days after the third publication of notice, notify the school district of its intent to purchase or lease the property. If the entity desiring to purchase or lease the property and the district are unable to arrive at a mutually satisfactory price or lease payment during the 60-day period, the property may be disposed of as otherwise provided in this section. In the event the district receives offers from more than one entity pursuant to this subdivision, the school district governing board may, in its discretion, determine which of such offers to accept.

(c) Third, the property shall be made available in writing to the former owner, in accordance with Section 39369.5.

(d) Fourth, the property may be disposed of in any other manner authorized by law.

39364. Notwithstanding any provisions of this article, any school district which has purchased a school site under the provisions of Chapter 8 (commencing with Section 16000) of Part 10 of Division 1 of Title 1 and has fully repaid any apportionments made for the purpose of such purchase may, upon sale of such site, deposit in the general fund of the district a portion of such sale proceeds which represents an excess over the original purchase price; provided that such school district: (a) has experienced a decrease in enrollment between the 1967-68 school year and the 1972-73 school year of at least 16 percent; and (b) has operated during the 1971-72 fiscal year at a cost of at least one hundred dollars (\$100) per unit of average daily attendance less than the average for the county in which the district is located; and (c) has no anticipated need, for the three years following such sale, for additional sites or building construction. This section shall remain in effect only until June 30, 1975 and as of that date is repealed.

39365. Any lease may be made upon such consideration or for such rental, as is authorized by the action of the governing board.

39366. Before ordering the sale or lease of any property the governing board, in a regular open meeting, by a two-thirds vote of

all its members, shall adopt a resolution, declaring its intention to sell or lease the property, as the case may be. The resolution shall describe the property proposed to be sold or leased in such manner as to identify it and shall specify the minimum price or rental and the terms upon which it will be sold or leased and the commission, or rate thereof, if any, which the board will pay to a licensed real estate broker out of the minimum price or rental. The resolution shall fix a time not less than three weeks thereafter for a public meeting of the governing board to be held at its regular place of meeting, at which sealed proposals to purchase or lease will be received and considered.

39367. In lieu of the declaration of intention to lease real property provided in Section 39366, the governing board of any school district having an average daily attendance of 400,000 or more as shown by the annual report of the county superintendent of schools for the preceding year may publish a notice three times in a period of not less than 15 days in a newspaper of general circulation published in the district. The notice shall describe the property proposed to be leased in such manner as to identify it and shall specify the minimum rental and terms upon which it will be leased. The notice shall fix a time not less than 15 days thereafter for a public meeting of the governing board to be held at its regular place of meeting at which proposal to lease will be received and considered.

The governing board by majority vote may adopt a ruling delegating to such officer or employee of the district as the board may designate, authority to perform the duties prescribed in this section.

Bids received under this section shall be received, accepted, or rejected in accordance with the provisions of this article.

39368. If, in the discretion of the board, it is advisable to offer to pay a commission to a licensed real estate broker who is instrumental in obtaining any proposal, the commission shall be specified in the resolution. No commission shall be paid unless there is contained in or with the sealed proposal or stated in or with the oral bid, which is finally accepted, the name of the licensed real estate broker to whom it is to be paid, and the amount or rate thereof. Any commission shall, however, be paid only out of money received by the board from the sale or rental of the real property.

39369. Notice of the adoption of the resolution and of the time and place of holding the meeting shall be given by posting copies of the resolution signed by the board or by a majority thereof in three public places in the district, not less than 15 days before the date of the meeting, and by publishing the notice not less than once a week for three successive weeks before the meeting in a newspaper of general circulation published in the county in which the district or any part thereof is situated, if any such newspaper is published therein.

39369.5. (a) In the event that the governing board of a school district, intends to sell real property pursuant to this article, the

former owner from whom the district acquired the property shall be accorded the right, prior to the final acceptance of bids, to purchase the property at the tentatively accepted highest bid price.

(b) At any time after the notice of meeting given pursuant to Section 39369, and prior to the date of such meeting, the prior owner from whom the district acquired the property may submit to the governing board written notice of intention to purchase the property at the tentatively accepted highest bid price. Such notice does not constitute an offer to purchase.

(c) Bids, both written and oral, shall be submitted and acted upon by the governing board in the manner otherwise prescribed by this article, except that the acceptance of a bid shall be tentative only, subject to the right of the former owner to purchase the property.

(d) Upon receipt of bids, the governing board shall offer to sell the property to the former owner at the tentatively accepted highest bid price, subject to the terms and conditions of sale initially fixed by the board.

(e) In the event that the former owner rejects the offer, the governing board shall sell the property to the highest responsible bidder, by final acceptance of the bid theretofore tentatively accepted.

39370. Whenever it is proposed to lease real property and the governing board unanimously determines in the resolution that in its opinion, the monthly rental value of the property does not exceed the sum of fifty dollars (\$50), the resolution need not be posted and may, before the date of the meeting, be published in two successive issues of a weekly newspaper or in five successive issues of a daily newspaper. The newspaper in which the notice is published shall be one published in the district and having a general circulation there; or if there is no such newspaper, then one having a general circulation in the district; or if there is no such newspaper, then in one having a general circulation in a county in which the district or any part thereof is situated.

39371. At the time and place fixed in the resolution for the meeting of the governing body, all sealed proposals which have been received shall, in public session, be opened, examined, and declared by the board. Of the proposals submitted which conform to all terms and conditions specified in the resolution of intention to sell or to lease and which are made by responsible bidders, the proposal which is the highest, after deducting therefrom the commission, if any, to be paid a licensed real estate broker in connection therewith, shall be finally accepted, unless a higher oral bid is accepted or the board rejects all bids.

39372. Before accepting any written proposal, the board shall call for oral bids. If, upon the call for oral bidding, any responsible person offers to purchase the property or to lease the property, as the case may be, upon the terms and conditions specified in the resolution, for a price or rental exceeding by at least 5 percent, the highest written proposal, after deducting the commission, if any, to be paid

a licensed real estate broker in connection therewith, then the oral bid which is the highest after deducting any commission to be paid a licensed real estate broker, in connection therewith, which is made by a responsible person, shall be finally accepted. Final acceptance shall not be made, however, until the oral bid is reduced to writing and signed by the offeror.

39373. The governing board by majority vote may adopt a rule delegating to an officer or employee of the district the authority to perform the duties required to be performed by the governing board under Sections 39371 and 39372. If such rule is adopted, the resolution required in Section 39366 shall specify, in lieu of the public meeting of the governing board to be held at its regular place of meeting, the place at which the designated officer or employee will receive and open sealed proposals to purchase or lease and will call for oral bids.

All other provisions of this article not in conflict with the delegation of this authority are applicable. However, the final acceptance of a bid, or rejection of all bids, shall be made by the governing board at a public meeting.

39374. In the event of a sale on a higher oral bid to a purchaser procured by a licensed real estate broker, other than the broker who submitted the highest written proposal, and who is qualified as provided in Section 39368 of this code, the board shall allow a commission on the full amount for which the sale is confirmed. One-half of the commission on the amount of the highest written proposal shall be paid to the broker who submitted it, and the balance of the commission on the purchase price to the broker who procured the purchaser to whom the sale was confirmed.

39375. The final acceptance by the governing body may be made either at the same session or at any adjourned session of the same meeting held within the 10 days next following.

39376. The governing body may at the session, if it deems such action to be for the best public interest, reject any and all bids, either written or oral, and withdraw the property from sale or lease.

39377. Any resolution of acceptance of any bid made by the governing body authorizes and directs the president of the governing body, or other presiding officer, or the members thereof, to execute a deed or lease and to deliver it upon performance and compliance by the purchaser or lessee of all the terms or conditions of his contract to be performed concurrently therewith.

39378. Nothing in Sections 39360 to 39512, inclusive, shall prevent the governing board of any school district from acquiring, leasing or subleasing property pursuant to Section 1261 of the Military and Veterans Code.

39379. The governing board of any school district may, without complying with any other provision of this article, let in the name of the district any buildings, grounds, or space therein, together with any personal property located thereon, not needed for school classroom buildings upon such terms and conditions as may be agreed upon by the governing board of the district and the lessee

thereof for a period not exceeding five separate or consecutive calendar days or portions thereof in each fiscal year.

39380. In addition to any other authority to lease real property, the governing board of a school district, by a two-thirds vote of its members, may lease, for a term not exceeding three months, school district property having a residence thereon, which cannot be developed for district purposes because of the unavailability of funds. The lease shall be upon such terms and conditions as the parties thereto may agree and may be entered into without complying with any provisions in this code except as provided in this section.

39381. The governing board of a school district may, with the approval of the county board of supervisors, sell or lease any building of the district together with the site upon which such building is located, without complying with any other provisions of this article, provided that the county board of supervisors finds that all of the following conditions exist:

(a) The sale or lease is to be made to an incorporated nonprofit tax-exempt community or civic organization with a membership comprised predominantly of persons residing in the community in which the building and site are situated.

(b) The building is not suitable for school purposes.

(c) The building has an historic value and its preservation and utilization for the benefit of the community will best be ensured by sale or lease to an organization specified in subdivision (a).

(d) The sale or lease is to be executed for a consideration to enure to the school district reflecting the fair market value of the property, or its fair rental value, as the case may be.

(e) Adequate provision has been made in connection with the sale or lease transaction to protect the district against all civil liabilities which might arise in connection with any use of the building and site.

39382. The failure to comply with the provisions of this article shall not invalidate the transfer or conveyance of real property to a purchaser or encumbrancer for value.

39383. The governing board of any school district, constituting the governing body of an elementary district, a high school district, and a community college district, or any two of such districts, may sell any building, structure, or other fixture, belonging to one of its respective districts to another district governed by it, for an amount to be fixed by the governing body, without advertisement for or receipt of bids or compliance with any other provisions of this code.

Whenever any property is sold under this section it shall be removed from the premises of the district selling it within 60 days from the date of the sale.

(Added by Stats 1976, Ch 1011.)

### Article 6. Ownership of Fixtures in Territory Withdrawn From District

39420. When any territory withdrawn from a school district pursuant to this code contains a school building, site or real property, the building or site, together with the fixtures thereof, shall, upon the withdrawal of the territory becoming effective, become the property of the district of which the territory becomes a part or the whole.

39421. If a dispute arises between the governing boards of the two districts concerned as to what constitutes fixtures, a board of arbitrators shall be appointed who shall determine what articles in a school building located within territory withdrawn from any school district are fixtures thereof. The board shall consist of one person selected by the district from which the territory is withdrawn, one person selected by the district of which it has become a part, and a third person appointed by the county superintendent of schools of the county in which the districts are located. The two districts involved may mutually agree that the person appointed as arbitrator by the county superintendent of schools may act as sole arbitrator of the matters to be submitted to arbitration. The necessary expenses and compensation of the arbitrators shall be divided equally between the two districts, and the payment of the portion of the expenses is a legal charge against the funds of the school districts. The arbitrator or arbitrators shall proceed to view and examine such property, articles, equipment, and fixtures as they are requested to pass upon by the respective school districts and make a written finding as to what property, articles, or equipment constitute fixtures. The written finding and determination of a majority of the board of arbitrators is final and binding upon the school districts submitting the question to the board of arbitration.

### Article 7. Leasing for Production of Gas

39430. The governing board of a school district may, upon complying with the provisions of this article, enter into and be a party to a community lease to which a city or other public agency and one or more private persons or private agencies are also parties for the leasing of the parcels of lands owned by the district and the other parties for the extraction and taking of gas not associated with oil, on such terms and conditions as the governing board of the district may prescribe. Such lease may be entered into without complying with any provisions of this code except as provided in this article.

39431. The board shall not enter into and be a party to any such lease unless the following conditions have been met:

(a) A resolution authorizing such action and prescribing the terms of the lease has been adopted by the unanimous vote of all the members elected or appointed to the board;

(b) Such resolution has been published in a newspaper of general circulation published in the district, or if there be no such newspaper,

in a newspaper having a general circulation in the district, once a week for three weeks prior to the execution of the lease by the board.

39432. No well for the production of gas shall be drilled on any land owned by the district and leased pursuant to this article.

#### Article 8. Joint Occupancy

39440. Any school district may enter into leases and agreements relating to real property and buildings to be used jointly by the district and any private person, firm, or corporation pursuant to this article. As used in this article, "building" includes onsite and offsite facilities, utilities and improvements which as agreed upon by the parties are appropriate for the proper operation or function of the building to be occupied jointly by the district and the private person, firm, or corporation. It also includes the permanent improvement of school grounds.

Nothing in this article shall authorize the joint occupancy or the entry into any contract for the joint occupancy, by a school district and any other contracting party, of any building utilized in whole or in part for classroom purposes or other purposes involving group participation by pupils unless such classroom use or pupil participation is in connection with a voluntary adult education program. Except in connection with a voluntary adult education program, the occupancy of a building utilized for classroom purposes or other purposes involving group participation by pupils shall be exclusively by the school district.

39441. Before the governing board of a school district enters into a lease or agreement pursuant to this article, it shall own a site upon which a building to be used by the district and private person, firm, or corporation may be constructed and shall have complied with the provisions of law relating to the selection and approval of sites.

39442. The term of any lease or agreement entered into by a school district pursuant to this article shall not exceed 66 years.

39443. Sections 39360 to 39379, inclusive, shall not apply to leases made pursuant to this article.

39444. The governing board of a school district may let to any private person, firm, or corporation, any real property which belongs to the district if the instrument by which such property is let requires the lessee therein to construct on the demised premises, or provide for the construction thereon of, a building or buildings for the joint use of the school district and the private person, firm, or corporation during the term of the agreement; provided that title to that portion of the building to be occupied by the private individual, firm or corporation shall remain exclusively the personal property of the private party during the term of the lease and the title to such portion of the building to be occupied by the district shall vest in the district upon completion thereof and acceptance thereof by the school district; provided further that no rental fee or other charge for the use of the building shall be paid by the district.

39445. Any lease of real property by a school district to a private person, firm, or corporation pursuant to this article shall be upon such terms and conditions as the parties thereto may agree and may be entered into without complying with any provisions of this code except as provided in this article; provided, however, that any such lease or agreement shall be subject to the provisions of Article 7 (commencing with Section 35230) of Chapter 2 of Part 21 of Division 3 of this title.

39446. Before entering into a lease or agreement pursuant to this article, the governing board of a school district shall comply with the provisions of Section 39447.

39447. For the purposes of receiving proposals for the joint occupancy of a building to be constructed on school property, the board shall, in a regular open meeting, adopt a resolution declaring its intention to consider the proposals. The resolution shall describe the proposed site on which the building to be jointly occupied is to be constructed in such a manner as to identify said site, shall specify the intended use of that portion of the building which is to be occupied by the district and shall fix a time not less than 90 days thereafter for a public meeting of the governing board to be held at its regular place of meeting, at which meeting the board shall receive and consider all plans or proposals submitted.

39448. Notice of adoption of the resolution and the time and place of holding the meeting shall be given by publishing the resolution at least once a week for three weeks in a newspaper of general circulation published in the district if there is one, or if none is published in the district, in a newspaper published in the county.

39449. At the time and place fixed in the resolution for the meeting of the governing board, the board shall meet and consider all plans and proposals submitted for the joint occupancy of the building to be constructed on the proposed school site.

39450. After considering all proposals submitted, the governing board of the school district shall have the authority, subject to the provisions of Section 39451, to select the plan or proposal which best meets the needs of the school district and to enter into a contract incorporating that plan or proposal either as submitted or as revised by the school district's governing board; provided, however, that the governing board shall not approve any proposal nor enter into a lease or contract incorporating a proposal until the governing board has submitted the proposal to the State Board of Education, and the State Board of Education has approved such proposal. The State Board of Education shall, within 45 days of the date of submission, notify the governing board of its approval or disapproval.

The governing board shall require any person, firm or corporation with whom it enters into a lease or agreement pursuant to this article to file a bond, executed by either two or more good and sufficient sureties or by a corporate surety, for the performance of such lease or agreement.

39451. Any building constructed for the use of a school district

pursuant to this article is subject to Sections 39140 to 39155, inclusive, and all other provisions of this code relating to the physical structure of school buildings.

39452. The provisions of this article prevail over any provisions of law which conflict therewith.

39453. This article shall remain in effect until June 1, 1980, and shall have no force or effect after that date.

#### Article 9. Joint Use

39470. Any school district may enter into a lease or agreement with a city, county, or city and county for the joint occupancy, or a private education institution for its sole occupancy, of the real property and buildings of the school district, provided that no such occupancy of school buildings and grounds shall occur during normal school hours when the school is in session.

39471. As used in this article, "building" includes onsite and offsite facilities, utilities and improvements which as agreed upon by the parties are appropriate for the proper operation or function of the building to be jointly occupied and used. It also includes the permanent improvement of school grounds.

39472. Prior to entering into a lease or agreement pursuant to this article, the school district governing board shall determine that the proposed joint occupancy and use of school district property or buildings will not interfere with the educational program or activities of any school or class conducted upon the real property or in any such building.

39473. No such lease or agreement shall exceed a term of five years, but may be renewed on the same or different conditions at the end of such term.

#### Article 10. Exchange of Real Property

39480. The governing board of a school district may exchange any of its real property for real property of another person or private business firm. Any exchange shall be upon such terms and conditions as the parties thereto may agree and may be entered into without complying with any provisions in this code except as provided in this article.

39481. Before ordering any exchange of real property the board shall adopt, by a two-thirds vote of its members, a resolution declaring its intention to exchange the property. The resolution shall describe the properties to be exchanged in such manner as to identify them, and the terms and conditions, not including the price, upon which they will be exchanged.

39482. The board and the other party to the exchange each shall appoint one member of a board of appraisers, and the third member shall be selected by the county superintendent of schools. The governing board and the other party to the exchange shall agree on

the compensation of the board of appraisers. The amount for the board's appraiser and one-half of the amount for the appraiser appointed by the county superintendent of schools shall be a legal charge against the funds of the district exchanging the property.

The board of appraisers shall make a report to the parties to the exchange and the county superintendent of schools of its determination of the cash values of the properties proposed to be exchanged. The report may provide for payment by one of the parties to compensate for any difference in appraised values of the properties.

39483. If the county superintendent of schools approves the report of the appraisers and the terms and conditions set forth in the resolution, the governing board shall publish at least once a week for two weeks in a newspaper of general circulation, circulated in the county, the resolution and a notice stating the time and place within the district at which a public meeting of the board will be held to consider the report of the appraisers and the exchange of the real properties described in the resolution.

39484. At the time and place fixed in the published notice, the board shall meet and consider the report of the appraisers. It then may order the exchange pursuant to the terms and conditions set forth in the resolution and the report of the appraisers.

#### Article 11. Exchange of Property

39490. The governing board of any school district which has acquired title to property included within an application which has been approved by the State Allocation Board for state school building aid and which property is to be used as an access roadway to such school site may exchange such property for other property to be used as an access roadway which abuts a state highway, if in the opinion of the Division of Highways in the Department of Transportation there is objection to the first access roadway, and if in the opinion of the governing board the property acquired by such exchange will afford more safety to the pupils of the district.

39491. The governing board of any school district owning real property or any interest or estate therein, a boundary line of which is uncertain or is in dispute, may, by unanimous vote of all the members elected or appointed to the board and without complying with any provision of this code except as provided in this article, exchange with the owner of the adjoining property, which is involved in the uncertainty or dispute, such portion or interest or estate in such school property for property of equal value of such owner adjacent to the property of the school district for the purpose of settling such boundary line uncertainty or dispute. The question of value of the properties to be exchanged shall be determined by a panel of three disinterested and qualified real estate appraisers, one appraiser to be appointed by the governing board of the school district, one appraiser to be appointed by the owner of the other

property involved in the boundary line question, and the two appraisers so appointed to jointly select a third appraiser. One-half of the fee of each of said appraisers and one-half the fee of any surveyor employed to establish lines in connection with the determination of the boundary line uncertainty or dispute shall be a proper charge against the funds of the school district, provided that no such appraiser, including the selection of the other party and the selected third appraiser, or surveyor, shall be employed for any purpose herein authorized unless and until a resolution of intention so to employ is adopted by the governing board of the school district, and provided further that said resolution shall contain a statement substantially to the effect that the school district shall notify any appraiser or surveyor before being so employed that he may collect only one-half his fee from the school district.

**Article 12. Sale or Lease of Property by a District to Other  
Public Agencies**

39500. The governing boards of any school district may sell, exchange, grant or quitclaim all or any of its interest in, or may lease for a term not exceeding 99 years, to the federal government or its agencies, to the state, or to any county, city and county, city or special district, or to any other school district, any real property belonging to the school district, and which is not or will not at the time of delivery of title or possession be needed for school classroom buildings by the district owning it, as provided in this article.

39501. Any sale, exchange, lease or grant of an interest in real property by a school district pursuant to Section 39500 shall be upon such terms and conditions as the parties thereto may agree and may be entered into without complying with any provisions of this code except as provided in this article.

39502. The board shall not enter into and be a party to any such sale, exchange, or lease unless the following conditions have been met:

(a) A resolution authorizing such action and prescribing the terms of the sale, exchange, or lease has been adopted by the unanimous vote of all the members elected or appointed to the board;

(b) Such resolution has been published in a newspaper published in the district and having a general circulation there; or if there be no such newspaper, then in a newspaper having a general circulation in the district; or if there is no such newspaper, then in a newspaper having a general circulation in a county in which the district or any part thereof is situated. Notice shall be published no less than once a week for three weeks prior to the making of the sale, exchange, or the execution of the lease by the board.

39503. In any lease made pursuant to this article, it shall be competent to provide that the school district lessee may purchase the property at an agreed purchase price and that rental paid for the use of the property shall be applied in whole or in part upon the purchase

price. The school district lessee may cancel the lease at the end of any budgetary year, and in such case shall not be obligated to complete the lease and shall be released from all obligations thereunder.

#### Article 13. Sale or Lease of Personal Property by One District to Another

39510. The governing board of any school district may sell any personal property or school supplies belonging to the district to the federal government or its agencies, to the state, to any county, city and county, city or special district, or to any other school district and the governing board of another school district may purchase the property, for an amount equal to the cost thereof plus the estimated cost of purchasing, storing, and handling the property, without advertisement for or receipt of bids or compliance with any other provisions of this code. The governing board of any school district may purchase any personal property or school supplies for the purpose of selling them, pursuant to this section.

This section does not authorize the purchase, for the purpose of resale, of standard school supplies and equipment by any elementary school district governed by school trustees.

39511. The provisions of Section 39510 shall be applicable to a sale of personal property from a unified school district whose boundaries are coterminous with a city or city and county to that city or city and county.

39512. The governing board of any school district may sell or lease used personal property belonging to the district to the federal government or its agencies, to the state, to any county, city and county, city or special district, or to any other school district, and the governing board of another school district may purchase or lease the property. The selling price and the terms of sale, or the lease price and the terms of lease shall be fixed by the governing boards of the school districts effecting the sale or lease, and approved by the county superintendent of schools. The sale or lease may be made without advertisement for or receipt of bids, or compliance with any other provisions of this code.

#### Article 14. Sale of Personal Property

39520. The governing board of any school district may sell for cash any personal property belonging to the district if the property is not required for school purposes, or if it should be disposed of for the purpose of replacement, or if it is unsatisfactory or not suitable for school use. There shall be no sale until notice has been given by posting in at least three public places in the district for not less than two weeks, or by publication for at least once a week for a period of not less than two weeks in a newspaper published in the district and having a general circulation there; or if there is no such newspaper, then in a newspaper having a general circulation in the district; or

if there is no such newspaper, then in a newspaper having a general circulation in a county in which the district or any part thereof is situated. The board shall sell the property to the highest responsible bidder, or shall reject all bids.

39521. (a) If the board, by a unanimous vote of those members present, finds that the property does not exceed in value the sum of the five hundred dollars (\$500) it may be sold at private sale without advertising, by any member or employee of the board empowered for that purpose by the majority vote of the board.

(b) If the board, by a unanimous vote of those members present, finds that the property is of insufficient value to defray the costs of arranging a sale, it may be disposed of in the local public dump on order of any member or employee of the board empowered for that purpose by the majority vote of the board.

39522. The money received from the sale shall be placed to the credit of the fund from which the original expenditure for the purchase of the property was made.

39523. The governing board of any school district may dispose of personal property belonging to the district for the purpose of replacement by providing in the notice calling for bids for furnishing new materials, articles, or supplies that each bidder shall agree in his bid to purchase the property being replaced and to remove it from the school grounds and shall state in his bid the amount which he will deduct from the price bid for furnishing new materials, articles, or supplies as the purchase price for the personal property being purchased from the district. The board shall let the contract to any responsible bidder whose net bid is the lowest, or shall reject all bids.

39524. The governing board of any school district may enter into contracts with manufacturers or suppliers for the exchange of household appliances and equipment belonging to the district and used for instructional purposes for new property of like class and kind for a similar use without advertising for or taking bids; provided, the cost to the district for such exchange shall not exceed the excess, if any, of the manufacturer's or supplier's selling price of the new property over the original cost to the district of the property being disposed of by the district, plus any applicable tax.

39525. The governing board of any school district may, when calling for bids and letting contracts for constructing new school buildings, or repairing, altering, adding to, or reconstructing existing school buildings, or demolishing existing school buildings, require each bidder for the performance of the work to agree in his bid to purchase and to remove from the school grounds all old materials required by the specifications to be removed from any existing school building on the same school grounds and not required for school purposes and to state in his bid the amount which he will deduct from the price bid for the work as the purchase price of the old materials. The board shall let the contract to any responsible bidder whose net bid is the lowest, or shall reject all bids.

39526. The governing board of a school district may authorize any

officer or employee of the district to sell to any pupil personal property of the district which has been fabricated by such pupil, at the cost to the district of the materials furnished by the district and used therein.

39527. The governing board of a school district may sell to persons enrolled in classes for adults maintained by the district such materials as may be necessary for the making of articles by such persons in such classes. The materials shall be sold at not less than the cost thereof to the district and any article made therefrom shall be the property of the person making it.

39528. A school district may, in accordance with regulations adopted by the governing board of the district and for educational use, sell, give, or exchange for similar published materials, published materials prepared by the district in connection with the curricular and special services that the district is authorized to perform. Unless restricted by the regulations of the governing board, the sale or gift may be made to, and the exchange may be made with, any person, political subdivision, public officer or agency, or educational institution. The distribution of the published material in accordance with this section is declared to be a public purpose and in furtherance of Article IX, Section 1, of the Constitution.

A school district may also license the use of copyrights held by the district, to the same persons or entities and for the same purposes as provided in the above paragraph.

The district shall grant a license to any public agency organized under the authority of this state, unless an exclusive license has previously been granted a private publisher.

Any charge which may be assessed such a public agency for the license to use the copyright or for materials, to which the district holds the copyright, shall not exceed the cost to the district of the preparation and reproduction of the materials.

Any granting of a license, by a school district, to reproduce copyrighted material is declared to be for a public purpose in furtherance of Article XI, Section 1, of the Constitution.

39529. Notwithstanding any other provision of law, the governing board of any school district owning land upon which agricultural products are grown may enter into agreements with an agricultural cooperative or association for the purpose of maintaining, harvesting or selling such products.

#### Article 15. Dedication of Real Property

39540. The governing board of any school district may, pursuant to this article, dedicate or convey to the state, or any political subdivision or municipal corporation thereof, for public street or highway purposes, either with or without consideration and without a vote of the electors of the district first being taken, any real property belonging to the district, either in fee or any lesser estate or interest therein, including abutter's right of access to any public

street or highway; and may dedicate or convey to any public corporation, or private corporation engaged in the public utility business, without a vote of the electors of the district first being taken, an easement to lay, construct, reconstruct, maintain, and operate water, sewer, gas, or storm drain pipes or ditches, electric or telephone lines, and access roads used in connection therewith, over and upon any land belonging to the school district, upon such terms and conditions as the parties thereto may agree.

39541. Before ordering the dedication or conveyance of any property the governing board shall in regular open meeting by a two-thirds vote of all its members adopt a resolution declaring its intention to dedicate or convey the property. The resolution shall describe the property proposed to be dedicated or conveyed in such manner as to identify it, and shall specify the purposes for which and the terms upon which it will be dedicated or conveyed, and shall fix a time not less than 10 days thereafter for a public meeting of the governing board to be held at its regular place of meeting for a public hearing upon the question of making the dedication or conveyance.

39542. Notice of adoption of the resolution and of the time and place of holding the meeting shall be given by posting copies of the resolution signed by the members of the board, or by a majority thereof, in three public places in the district not less than 10 days before the date of the meeting, and by publishing the notice once not less than five days before the date of the meeting in a newspaper of general circulation, published in the district, if there is one, or, if there is no such newspaper published in the district, then in a newspaper published in the county in which the district or any part thereof is situated and having a general circulation in the district.

39543. At the time and place fixed in the resolution for the meeting of the governing board the public hearing shall be held, and the governing board may at the meeting, or at any other meeting of the governing board held within 60 days thereafter, unless a protest is entered, adopt a resolution by a two-thirds vote of all its members authorizing and directing the president of the governing board, or any other presiding officer, or the secretary, or the members thereof, to execute a deed of dedication or conveyance of the property and to deliver it. Upon the delivery and acceptance of the deed the dedication or conveyance is fully effective.

39544. A petition protesting against the proposed dedication or conveyance signed by at least 10 percent of the qualified electors of the district, as shown by the affidavit of one of the petitioners, may be filed with the governing board at the meeting held at the time and place fixed in the resolution. If a protest is filed, the governing board shall, before taking any further action on the proposed dedication or conveyance, submit the question of whether the proposed dedication or conveyance should be made, to the superintendent of schools of the county having jurisdiction over the district, whose decision is final. If the superintendent approves the proposed dedication or conveyance, the board may proceed as provided in

Section 39543. If the superintendent of schools does not approve the proposed dedication or conveyance, no further proceedings shall be had thereon.

39545. Whenever school districts are required to improve and dedicate real property to the centerline of streets or highways adjacent to a school site or forming an intersection at a school site location, and when such street or highway rights-of-way are being conveyed to the city or county or by the city or county to the school district, the requirements of this article shall be deemed satisfied solely by posting a notice of intention to convey in an appropriate location before conveyance.

#### Article 16. Temporary Transfer of Mutual Water Company Stock

39560. The governing body of any school district owning shares of stock in a mutual water company, which stock is not appurtenant to any land, may rent, lease, or assign such shares, for a term not to exceed one year, if the board determines the water to which the district is entitled by ownership of such shares is not required to meet the needs of the district during the term for which it is rented, leased or assigned.

39561. The rental, lease, or assignment of the shares of stock shall be made upon such consideration, and such terms and conditions, as may be fixed by action of the board.

39562. No rental, lease, or assignment of shares of stock shall be made until notice has been given by posting in at least three public places in the district for not less than two weeks, or by publication for a period of not less than two weeks in a newspaper published in the district and having a general circulation there; or if there is no such newspaper, then in a newspaper having a general circulation in the district; or if there is no such newspaper, then in a newspaper having a general circulation in a county in which the district or any part thereof is situated.

### CHAPTER 4. PROPERTY MAINTENANCE AND CONTROL

#### Article 1. Duties of Governing Board

39600. The governing board of any school district shall manage and control school property within its district.

39601. The governing board of any school district shall furnish, repair, insure against fire, and in its discretion rent the school property of its districts. The governing board may also insure the property against other perils. The insurance shall be written in any admitted insurer, or in any nonadmitted insurer to the extent and subject to the conditions prescribed in Section 1763 of the Insurance Code. Insurance on property of a district may be, in the discretion of the governing board, of the deductible type of coverage. By deductible type of coverage is meant a form of insurance under

which the insurance becomes operative when the loss and damage exceeds an amount stipulated in the policy or policies.

The governing board, in their notice of bid for any school district construction, may indicate that it may elect to assume the cost of fire insurance by adding the coverage to the district's existing policy and in such event bids made on such construction shall be made in the alternative, with and without the fire insurance coverage included, and the governing board shall make its election as to who shall secure and pay for such insurance at the time of accepting the bid.

39602. The governing board of any school district may, by resolution, establish a fund for losses to school district property in the county treasury for the purpose of covering, with respect to school district property, the deductible amount under deductible types of insurance policies or losses due to noninsured perils. In the fund shall be placed such sums, to be provided in the budget of the school district, as will create an amount which, together with investments made from the fund, will be sufficient in the judgment of the governing board to protect the school district from losses on any part of its school property due to the deductible amount under deductible types of insurance policies or losses due to noninsured perils. Nothing in this section shall be construed as prohibiting the governing board from providing protection against losses to school district property partly by means of the fund and partly by means of insurance written by admitted insurers as provided in Section 39601.

Annual contributions to the fund shall not exceed one-half of 1 percent of the general fund budget of the school district or fifty thousand dollars (\$50,000), whichever is the greater.

The fund shall be considered as separate and apart from all other funds of the school district, and the balance therein shall not be considered as being part of the working cash of the school district in compiling annual budgets or fixing annual tax rates.

Warrants shall not be drawn on or transfers made from the fund so created, except to reimburse or indemnify the school district for losses as herein specified, and only upon resolution duly adopted by the board of education.

The cash placed in the fund may be invested and reinvested by the county treasurer, with the advice and consent of the governing board of the school district, in securities which are legal investments for surplus county funds in this state. The income derived from such investments, together with interest earned on uninvested funds, shall be considered revenue of and be deposited in the fund.

39603. Nothing in the Education Code shall be construed as prohibiting two or more school districts subject to Section 39601 from performing the powers prescribed in Section 39602, through a joint powers agreement made pursuant to Article 1 (commencing with Section 6500) of Chapter 5 of Division 7 of Title 1 of the Government Code.

39605. In districts situated within or partly within cities having a population of over five hundred thousand (500,000) as determined

by the 1920 federal census any board of education may establish a fund in the county treasury for the purpose of covering fire losses to school property in lieu of carrying fire insurance in admitted insurers as provided in Section 39601 of this code. In such fund shall be placed such sums, to be provided in the budget of the district, as will create an amount which, together with investments made from such fund, will be sufficient in the judgment of the board of education upon the advice of competent actuaries to protect such board of education against losses by fire on all or any part of the school property within its jurisdiction. Nothing contained herein shall be construed as prohibiting the board of education from providing protection against fire losses partly by means of such fund and partly by means of fire insurance written by admitted insurers as provided in Section 39601.

Such fund shall be considered as separate and apart from all other funds of the district and the balance therein shall not be considered as being part of the working cash of the district in compiling annual budgets or fixing annual tax rates.

Warrants shall not be drawn on or transfers made from the fund so created except to reimburse the district for losses by fire and then only after resolution duly adopted by the board of education based upon findings by competent appraisers.

The cash placed in such fund may be invested and reinvested by the county treasurer with the advice and consent of the board of education in securities which are legal investments for surplus county funds in this state. The income derived from such investments together with interest earned on uninvested funds shall be considered revenue of and be deposited in such fund.

The county treasurer shall make quarterly reports to the board of education as to the condition of the fund, using as a basis for such report the cost or market value, whichever may be the lower, of the securities held as investments plus the cash in such fund.

39606. The governing board of any school district may grade, pave, construct sewers, or otherwise improve streets and other public places in front of real property owned or controlled by it, and also may construct in immediate proximity to any school or site owned or controlled by the district, pedestrian tunnels, overpasses, footbridges, sewers and water pipes when required for school or administrative purposes, may acquire property, easements and rights-of-way for such purpose, and may appropriate money to pay the cost and expense of the improvements, whether made by the board under contract executed by the board, or under contracts made in pursuance of any of the general laws of the state respecting street improvements, or under other contracts made in pursuance of the charter of any county or municipality.

39607. Any provision to the contrary notwithstanding, the governing board of any school district, other than a city school district with over 50,000 pupils in average daily attendance during the preceding fiscal year, may construct pedestrian walks, footbridges, and pedestrian tunnels when required for the safety of

pupils attending the schools of the district, may acquire easements and rights-of-way for such purposes, and may appropriate money to acquire such easements and rights-of-way and to pay the cost and expense of the improvements, whether made by the board under contract executed by the board, or under contracts made in pursuance of any of the general laws of the state respecting street improvements, or under other contracts made in pursuance of the charter of any county or municipality. Such pedestrian walks, footbridges, and pedestrian tunnels shall be constructed, and such easements or rights-of-way for such purposes shall be acquired, within one mile of the school for the pupils of which such walks, bridges, and tunnels are necessary.

39608. The governing board of any school district may install and maintain a lighting system in any underpass in the vicinity of a schoolhouse.

39609. The governing board of any school district may appropriate money to pay assessments, for the improvement of streets or other public places, levied against any real property owned by, or under the control of the board, when the property is included within an assessment district formed in pursuance of any general law of the state or under the charter of any municipality. The assessments may be paid out of any funds belonging to the school district, except funds derived from the sale of bonds or required by law to be used for teachers' salaries.

39610. The governing board of every school district shall provide a warm, healthful place in which children who bring their own lunches to school may eat the lunches.

39610.5. The governing board of a school district may construct a mobilehome site on the grounds of any school or schools maintained by the district, including all necessary appurtenances and fixtures, and may pay the cost of utilities, insurance, and necessary services, for the purpose of enabling a responsible person or persons to install and occupy a mobilehome on such site. Such person or persons, who need not be classified as employees of the district, shall, in return for being permitted to install and occupy a mobilehome on the school site on terms and conditions acceptable to the governing board, agree to maintain any surveillance over the school grounds as the school district governing board requires, and to report to school authorities illegal or suspicious activities that are observed.

39611. The governing board of any school district, when leasing a building for housing of school district employees, may lease such building for any period they deem necessary.

39612. The governing board of every school district shall provide, as an integral part of each school building, or as part of at least one building of a group of separate buildings, sufficient patent flush water closets for the use of the pupils. In school districts where the water supply is inadequate, chemical water closets may be substituted for patent flush water closets by the board.

This section shall apply to all buildings existing on September 19, 1947, or constructed after such date.

39613. In addition to the other powers granted the governing board of each school district may provide sewers and drains adequate to treat and/or dispose of sewage and drainage on or away from each school property. For this purpose it may construct adequate systems or acquire adequate disposal rights in systems constructed or to be constructed by others for these purposes without regard to their proximity. The cost thereof may be paid from the building fund, including any bond moneys therein.

39614. The governing board of each district maintaining a high school shall provide for the annual cleaning, sterilizing, and necessary repair of football equipment of their respective schools pursuant to Sections 39614 and 39616.

39615. All football equipment actually worn by pupils shall be cleaned and sterilized at least once a year. Football equipment used in spring training shall be cleaned and sterilized before it is used in the succeeding fall term.

39616. Any contract with a dealer or craftsman for the repair of football equipment belonging to the district or the state college shall specifically state or describe the materials to be used by the dealer or craftsman in repairing such equipment.

## Article 2. Duties of District Clerks

39630. The clerk of each district except a district governed by a city or city and county board of education shall, under the direction of the governing board, keep the schoolhouses in repair during the time school is taught therein, and exercise a general care and supervision over the school premises and property during the vacations of the school.

## Article 3. Contracts

39640. The governing board of any school district shall let any contracts involving an expenditure of more than five thousand dollars (\$5,000) for work to be done or more than eight thousand dollars (\$8,000) for materials or supplies to be furnished, sold, or leased to the district, to the lowest responsible bidder who shall give such security as the board requires, or else reject all bids. This section applies to all materials and supplies whether patented or otherwise.

39641. For the purpose of securing bids the board shall publish at least once a week for two weeks in some newspaper of general circulation published in the district, or if there is no such paper, then in some newspaper of general circulation, circulated in the county a notice calling for bids, stating the work to be done or materials or supplies to be furnished and the time when and the place where bids will be opened. Whether or not bids are opened exactly at the time fixed in the public notice for opening bids, a bid shall not be received

after that time.

39642. Notwithstanding any other provisions of Sections 39640 to 39655, inclusive, the governing board of any school district without advertising for bids may authorize by contract, lease, requisition or purchase order, any public corporation or agency within the county whose superintendent of schools has jurisdiction over such school district, including the county, any city, town, district, or other school district of such county under the jurisdiction of the same county superintendent of schools, to lease data-processing equipment, purchase materials, supplies, equipment, automotive vehicles, tractors and other personal property for the district in the manner in which such other public corporation or agency is authorized by law to make such leases or purchases. Upon receipt of any such personal property, provided the same complies with the specifications set forth in the contract, lease, requisition or purchase order, the school district shall draw a warrant in favor of such other public corporation or agency for the amount of the approved invoice, including the reasonable costs to such other public corporation or agency for furnishing the services incidental to the lease or purchase of such personal property.

39643. Nothing in this code shall preclude the governing board of any school district from purchasing materials, equipment or supplies through the Department of General Services pursuant to Government Code Section 14814.

39644. Continuing contracts for work to be done, services to be performed, or for apparatus or equipment to be furnished, sold, built, installed, or repaired for the district, or for materials or supplies to be furnished or sold to the district may be made with an accepted vendor as follows: for work or services, or for apparatus or equipment, not to exceed five years; for materials or supplies, not to exceed three years.

39645. Continuing contracts for the lease of electronic data-processing systems may be made with an acceptable lessor until the governing board of the school district determines that it is in the best interests of that school district to replace the present electronic data-processing systems. The governing board may make such contracts with an acceptable lessor who is one of the three lowest responsible bidders.

39646. The governing board of a school district, the employees of which regularly perform electromechanical or electronic data-processing work, may contract for electromechanical or electronic data-processing work to be done, or related services to be performed, for a period not to exceed 90 days, to meet emergency situations, or to meet temporary peak workloads, or on a temporary basis for specific projects when it is determined by the governing board, in its judgment, to be essential to the district to accomplish the work or services within established time limits, and when the personnel commission finds that it is not practical to employ temporary personnel pursuant to Article 6 (commencing with

Section 45240) of Chapter 5 of Part 25 of Division 3 of this title. In emergency situations arising between regularly scheduled meetings of the personnel commission, the approval of the personnel director shall constitute authority for an interim contract. The findings of the personnel director shall be effective until the next regular meeting of the personnel commission.

39647. Nothing contained in this article shall be construed to limit the authority of any school district to contract for electromechanical or electronic data-processing work to be done or related services to be performed with any other public agency pursuant to the provisions of Article 1 (commencing with Section 6500) of Chapter 5 of Division 7 of Title 1 of the Government Code or Section 11000 or 11001 of this code.

39648. In an emergency when any repairs, alterations, work or improvement is necessary to permit the continuance of existing school classes, or to avoid danger to life or property, the board may by unanimous vote, with the approval of the county superintendent of schools, make a contract in writing or otherwise on behalf of the district for the performance of labor and furnishing of materials or supplies for the purpose without advertising for or inviting bids.

39649. In each school district, the governing board may make repairs, alterations or additions to school buildings, repair or build apparatus or equipment, make improvements on the school grounds, and erect new buildings by day labor, or by force account, whenever the total cost of labor on the job does not exceed three thousand five hundred dollars (\$3,500) or the total number of hours on the job does not exceed 350 hours, whichever is greater, provided that in any school district situated wholly or partly within a city containing a population of over 1,900,000 according to the 1950 federal census, the governing board may, in addition, make repairs to school buildings, grounds, apparatus, or equipment by day labor or by force account whenever the total cost of labor on the job does not exceed three thousand dollars (\$3,000) or the total number of hours on the job does not exceed 750 hours whichever is greater.

For purposes of this section, day labor shall include the use of maintenance men, whether employed on a permanent or temporary basis.

39650. The governing board of any district defined hereafter, in addition to any other authority granted by law, may employ as classified employees, in accordance with rules and regulations established by the personnel commission, any certificated employees of the district or districts during vacation periods, or on any other day or days when the certificated employee is not required to perform services for the district, to repair or build apparatus or equipment related to their duties as certificated employees even though the total cost of labor exceeds one thousand dollars (\$1,000). This section applies only when the average daily attendance of any school district, or of two or more school districts governed by governing boards of identical personnel, is 400,000 or more, as shown by the annual report

of the county superintendent of schools for the preceding school year.

39651. The governing board of any school district may purchase supplementary textbooks, library books, and educational films, audiovisual materials, test materials, or workbooks in any amount needed for the operation of the schools of the district without taking estimates or advertising for bids.

39652. Notwithstanding any limitations imposed by this article specifically with respect to electromechanical or electronic data-processing work to be done or related services to be performed, the governing board of a school district, the boundaries of which are coterminous with those of the City and County of San Francisco, may contract for such work to be done or related services to be performed, without regard to such limitations.

39653. Notwithstanding any limitations imposed by this article specifically with respect to electromechanical or electronic data-processing work to be done or related services to be performed, the governing board of any school district situated wholly or in part within a county having a population in excess of 1,400,000 in which no regional educational data-processing center was in operation on July 1, 1972, and which district had contracted, prior to January 1, 1972, for such electromechanical or electronic data-processing work to be done or related services to be performed, may contract for such work to be done or related services to be performed, without regard to such limitations. As used in this section "any school district" includes a unified school district which is effective for all purposes on July 1, 1973, and which includes within its boundaries all or a part of the territory of a school district which had contracted, prior to January 1, 1972, for such electromechanical or electronic data-processing work to be done or related services to be performed.

This section shall remain in effect only until June 30, 1975, and as of that date is repealed.

39654. The governing board of any school district may purchase from the federal government or any agency thereof any surplus property, as defined in the Surplus Property Act of 1944, in any amount needed for the operation of the schools of the district without taking estimates or advertising for bids.

39655. The governing board of any school district shall determine the method of payment for construction contracts, including progress payments for completed portions of the work or for materials delivered on the ground or stored subject to the control of the board and unused.

39656. Wherever in this code the power to contract is invested in the governing board of the school district or any member thereof, such power may by a majority vote of the board be delegated to its district superintendent, or to such persons as he may designate, or if there be no district superintendent then to such other officer or employee of the district as the board may designate. Such delegation of power may be limited as to time, money or subject matter or may

be a blanket authorization in advance of its exercise, all as the governing board may direct; provided, however, that no contract made pursuant to such delegation and authorization shall be valid or constitute an enforceable obligation against the district unless and until the same shall have been approved or ratified by the governing board, said approval or ratification to be evidenced by a motion of said board duly passed and adopted. In the event of malfeasance in office, the school district official invested by the governing board with such power of contract shall be personally liable to the school district employing him for any and all moneys of the district paid out as a result of such malfeasance.

39657. The governing board by majority vote may adopt a rule, delegating to such officer or employee of the district as the board may designate, the authority to purchase supplies, materials, apparatus and equipment. No such rule shall authorize any officer or employee to make any purchases involving an expenditure by the district of ten thousand dollars (\$10,000) or more. The rule shall prescribe the limits of the delegation as to time, money, and subject matter. All transactions entered into by such officer or employee shall be reviewed by the governing board every 60 days.

In the event of malfeasance in office, the school district officer or employee invested by the governing board with the power to contract shall be personally liable for any and all moneys of the district paid out as a result of such malfeasance.

39658. The governing board of any school district with an average daily attendance of not less than 60,000 may by majority vote authorize its district superintendent, or such person as he may designate, to expend up to one hundred dollars (\$100) per transaction for work done, compensation for employees or consultants, and purchases of equipment, supplies, or materials. Ratification by the governing board shall not be required with respect to transactions entered into pursuant to this section. In the event of malfeasance in office, the school district official invested by the governing board with authority to act under this section shall be personally liable for any and all moneys of the district paid out as a result of such malfeasance.

39659. If any change or alteration of a contract governed by the provisions of this article is ordered by the governing board of the district, such change or alteration shall be specified in writing and the cost agreed upon between the governing board and the contractor. The board may authorize the contractor to proceed with performance of the change or alteration without the formality of securing bids, if the cost so agreed upon does not exceed the greater of:

(a) The amount specified in Section 39640, or 39649, whichever is applicable to the original contract; or

(b) Ten percent (10%) of the original contract price.

The governing board of any school district, or of two or more school districts governed by governing boards of identical personnel,

having an average daily attendance of 400,000 or more as shown by the annual report of the county superintendent of schools for the preceding year, may also authorize any change or alteration of a contract for reconstruction or rehabilitation work other than for the construction of new buildings or other new structures, where the cost of the change or alteration is in excess of the limitations in subdivisions (a) and (b) but does not exceed 25 percent of the original contract price, without the formality of securing bids, when such change or alteration is a necessary and integral part of the work under the contract and the taking of bids would delay the completion of the contract. Changes exceeding 15 percent of the original contract price shall be approved by an affirmative vote of not less than 75 percent of the members of the governing board.

#### Article 4. Security Patrols

39670. The governing board of any school district may establish a security patrol and employ, in accordance with the provisions of Chapter 5 (commencing with Section 45100) of Part 25 of Division 3 of this title such personnel as may be necessary to ensure the security of school district personnel and pupils in or about school district premises and the security of the real and personal property of the school district and to cooperate with local law enforcement agencies in all matters involving the security of the personnel, pupils, and real and personal property of the school district. It is the intention of this provision that a school district security patrol shall be supplementary to city and county law enforcement agencies and shall under no circumstances be vested with general police powers.

39671. Persons employed and compensated as members of a security patrol of a school district, when appointed and duly sworn, are peace officers, as defined by Section 830.4 of the Penal Code, but only for the purpose of carrying out the duties of their employment.

39672. Persons employed and compensated as members of a security patrol of a school district shall be supplied with and authorized to wear a badge bearing the name of the school district. The employee shall carry a suitable identification card bearing his photograph and signature and the signature of the superintendent of the school district, and such other identification data as may be required by local law enforcement agencies. The governing board may direct the wearing of a distinctive uniform and shall prescribe same. The costs of required uniforms, equipment, identification badges and cards shall be borne by the district.

39673. The governing board of a school district which establishes a security patrol may provide and maintain motor vehicles for the use of the patrol. Any vehicle, when operated in the performance of his duties by any member of the security patrol, is an authorized emergency vehicle and may be equipped and operated as such as provided by the Vehicle Code.

39674. The governing board of any school district having an

average daily attendance of not less than 6,000 nor more than 8,000, which has not established a security patrol pursuant to this article, may contract with any private patrol operator licensed pursuant to Chapter 11 (commencing with Section 7500) of Division 3 of the Business and Professions Code to aid in the security of the school district's real and personal property; provided however, that notwithstanding any other provision of law to the contrary, no employee of any such private patrol operator shall carry any firearm at any time while performing duties in any school building or on the grounds of any school pursuant to such a contract. Expenditures in any one fiscal year for such service shall not exceed four thousand dollars (\$4,000).

For purposes of this section there shall not be included in the average daily attendance of an elementary school district, the attendance of pupils attending the seventh and eighth grades of a junior high school maintained by a high school district.

This section shall remain in effect only until July 1, 1976, and as of that date is repealed.

## CHAPTER 5. SUPPLEMENTARY SERVICES

### Article 1. Transportation

39800. The governing board of any school district may provide for the transportation of pupils to and from school whenever in the judgment of the board such transportation is advisable and good reasons exist therefor. The governing board may purchase or rent and provide for the upkeep, care, and operation of vehicles, or may contract and pay for the transportation of pupils to and from school by common carrier or municipally owned transit system, or may contract with and pay responsible private parties for the transportation. Such contracts may be made with the parent or guardian of the pupil being transported. A governing board may allow the transportation in schoolbuses owned or operated by the district of preschool or nursery school pupils. No state reimbursement may be received by a district for the transportation of such pupils.

Whenever the term "municipally owned transit system" appears in this article, it means a transit system owned by a city, or by a district created under Part 1 (commencing with Section 24501) of Division 10 of the Public Utilities Code.

39801. The governing board of any school district may contract with the county superintendent of schools to provide necessary transportation services. The county superintendent of schools, acting pursuant to such a contract, shall have all the powers and duties granted to governing boards by this article.

39801.5. The governing board of any school district may contract for the transportation of matriculated or enrolled adults, or provide transportation to adults in district-owned equipment for educational

purposes other than to and from school.

Any district which contracts to provide or provides transportation to adults pursuant to this section may charge adults all or part of the costs of contracting for or providing such transportation services.

39802. In order to procure the service at the lowest possible figure consistent with proper and satisfactory service, the governing board shall, whenever an expenditure of more than five thousand dollars (\$5,000) is involved, secure bids pursuant to Sections 39640 and 39641 whenever it be contemplated that a contract may be made with a person or corporation other than a common carrier or a municipally owned transit system or a parent or guardian of the pupils to be transported. The governing board may let the contract for the service to other than the lowest bidder. No board shall make any purchase or enter into any contract for the service without securing the written approval of the county superintendent of schools.

39803. (a) Continuing contracts for the furnishing of transportation of pupils in school districts to and from school, if made, shall be made for a term not to exceed five years. Such contracts shall be renewable at the option of the school district and the party contracting to provide transportation services, jointly, at the end of each term of the contract. The contract as renewed shall include, other than the rates of the previous contract, all of the terms and conditions of the previous contract, including any provisions increasing rates based on increased costs.

(b) Continuing contracts may be made for the lease or rental of schoolbuses, not to exceed five years, except that if such a lease or rental contract provides that the district may exercise an option either to purchase the buses or to cancel the lease at the end of each annual period during the period of the contract, such contract may be made for a term not to exceed 10 years.

(c) Notwithstanding any other provisions of law to the contrary, continuing contracts executed under the provisions of this section may be negotiated annually within the contract period when economic factors indicate such negotiation is necessary to maintain an equitable pricing structure. Such renegotiation shall be subject to the approval of both contracting parties.

(d) Any rental, lease, or lease-purchase of a schoolbus shall comply with all applicable provisions of Article 3 (commencing with Section 39330) of Chapter 3 of this part.

39804. When the governing board provides for the transportation of pupils to and from school by contract with a common carrier, municipally owned transit system, or responsible private party, the governing board may require the parents or guardians of all or some of the pupils transported to pay a portion of the cost of such transportation in an amount determined by the board. The amount determined by the board shall be no greater than that paid for transportation on a common carrier or municipally owned transit system by other pupils in the district who do not use the

transportation provided by the contract of the district. No charge under this section shall be made for the transportation of handicapped children.

39805. In bidding on contracts to be made pursuant to Section 39803, bidders may include in their bids abstractions of their quotations indicating the pricing structure used to compute the annual lease or rental payments for the sole purpose of identifying that portion of each annual lease or rental payment which may represent tax exemption reimbursement to the vendor, lessor or to their assignees.

39806. In lieu of providing in whole or in part for the transportation of a pupil attending the schools of a district, the governing board may pay to the parents or guardian of the pupil a sum not to exceed the cost of actual and necessary travel incurred in transporting such pupils to and from the regular day schools of the district. No payments shall be made pursuant to this section unless it will be more economical to make the payments than to provide for said transportation.

39807. In lieu of furnishing transportation to pupils attending the schools of a school district, the governing board may pay to the parents or guardian of each pupil the cost of food and lodging of the pupil at a place convenient to the schools. The amount paid on account of each pupil shall not exceed the estimated cost to the district of providing for the transportation of the pupil to and from his home and the school he attends.

39807.5. When the governing board of any school district provides for the transportation of pupils to and from schools in accordance with the provisions of Section 39800, the governing board of the district may require the parents and guardians of all or some of the pupils transported, to pay a portion of the cost of such transportation in an amount determined by the governing board provided that such district does not qualify to receive reimbursement from the State School Fund for transportation under Article 10 (commencing with Section 41850) of Chapter 5 of Part 24 of this division in the year in which the requirement to pay is made. The amount determined by the board shall be no greater than that paid for transportation on a common carrier or municipally owned transit system by other pupils in the district who do not use the transportation provided by the district. The governing board shall exempt from such charges pupils of parents and guardians who are indigent as set forth in rules and regulations adopted by the board. No charge under this section shall be made for the transportation of handicapped children. Nothing in this section shall be construed to sanction, perpetuate, or promote the racial or ethnic segregation of pupils in the schools.

39808. The governing board of any school district may allow pupils entitled to attend the school of the district, but in attendance at a school other than a public school, under the provisions of Section 48222, transportation upon the same terms and in the same manner

and over the same routes of travel as is permitted pupils attending the district school.

The allowance of this section shall be restricted to actual transportation when furnished by the district to children attending the district school, and nothing in this section shall be construed to authorize or permit in lieu of transportation payments of money to parents or guardians of children attending private schools.

## Article 2. Transportation, State Reimbursement

39820. Notwithstanding any other provision of law, the governing board of any school district may provide, beginning in the 1975-1976 fiscal year, for the transportation to and from public school of pupils who have attained the age of 3 years and 9 months and are enrolled in classes established pursuant to Section 52023, whenever in the judgment of the board, such transportation is advisable and good reasons exist therefor. A governing board may allow for the transportation of parents of pupils enrolled in such classes for the purpose of accompanying their children to and from the attendance center offering such early primary classes.

Districts shall receive state reimbursements for the transportation of such pupils pursuant to Article 10 (commencing with Section 41850) of Chapter 5 of Part 24 of Division 3 of this title

## Article 3. Transportation, Schoolbuses

39830. A schoolbus is defined as any motor vehicle while being used for the transportation of any school pupil at or below the 12th-grade level to and from a public or private school or to and from public or private school activities, except the following:

(a) A passenger vehicle designed for and when actually carrying not more than eight persons, including the driver.

(b) A 9-passenger or 10-passenger station wagon when used for the transportation of not more than eight pupils and the driver, other than the regular transportation of pupils to and from a public or private school or the transportation of mentally retarded or physically handicapped pupils.

(c) A motor vehicle of any type carrying only members of the household of the owner thereof.

(d) A motor vehicle operated by a common carrier, or by and under exclusive jurisdiction of a publicly owned transit system, on scheduled runs but not used exclusively for the transportation of school pupils.

(e) A motor vehicle operated by a common carrier, or by and under the exclusive jurisdiction of a publicly owned transit system, or by a passenger charter-party carrier and used under a contractual agreement to transport pupils to and from school activities but not used regularly to transport pupils to and from a public or private school.

39831. The State Board of Education may adopt reasonable regulations relating to the construction, design, operation, equipment, and color of schoolbuses. No regulation relating to the construction, design, or color of schoolbuses shall apply to buses purchased prior to September 15, 1935. Any schoolbus repainted after September 15, 1935, shall be painted to conform to all the regulations relating to the color of schoolbuses. The regulations, if approved by the Commissioner of the California Highway Patrol, shall be enforced by the California Highway Patrol. The State Board of Education may issue an order prohibiting the operation on public streets, highways and elsewhere of any schoolbus which does not comply with the regulations. The order shall be enforced by the California Highway Patrol.

39832. The name or names of the particular school or schools to which a schoolbus conveys pupils may be painted on the side of such bus, in the manner prescribed by the State Board of Education.

39833. Any officer, agent, or employee of a school district, or any other person knowingly operating, or permitting or directing the operation of a schoolbus in violation of any regulation or order of the State Board of Education, and any person knowingly operating a schoolbus without possessing the qualifications required by the regulations of the State Board of Education for schoolbus operators, is guilty of a misdemeanor.

39834. Any officer, agent, or employee of a school district, or any other person, knowingly operating, or permitting or directing the operation of a schoolbus, when it is loaded with schoolchildren in excess of the limits of its seating capacity, is guilty of a misdemeanor.

39835. (a) The governing board of any school district may use schoolbuses to transport persons for purposes of community recreation as provided in Sections 10900 to 10915, inclusive, of this code. The transportation may be provided on any day or days throughout the school year.

(b) Any school district which files forms with the Superintendent of Public Instruction covering the annual report of transportation expense in connection with reimbursement for transportation shall show on said forms the total mileage of schoolbuses used in providing transportation for community recreation purposes. The Superintendent of Public Instruction, in accordance with regulations adopted by him, shall deduct from the allowances to a school district for transportation an amount equal to the depreciation of schoolbuses due to their use in transporting persons for community recreation.

39836. During any national emergency declared by the President of the United States of America or during any war in which the United States of America is engaged, the governing board of a school district may operate any bus owned or under lease to the district for the transportation of pupils of the district engaged in the harvesting of crops to and from the places of harvest and shall require the payment of a reasonable charge for transportation furnished.

39837. The governing board of any school district may use and operate any bus owned or under lease to the district for the transportation of pupils to and from their places of employment during the summer in connection with any summer employment program for youth. The governing board shall require the payment of a reasonable charge for transportation so furnished. The governing board shall, in accordance with Section 35208, adequately insure against the liability of the district, members of the board, and officers and employees of the district in connection with the furnishing of such transportation.

39838. Each schoolbus shall be equipped with one or more fire extinguishers bearing the approval of the laboratories of the National Board of Fire Underwriters, Underwriters' Laboratories Incorporated, or any other nationally recognized testing laboratory, and located in an easily accessible place in the driver's compartment.

Each schoolbus shall be equipped with one or more fire extinguishers with an aggregate rating of at least 8-B,C units, as rated by the Underwriters' Laboratories Incorporated. Carbon tetrachloride fire extinguishers shall not be used on schoolbuses.

39839. Guide dogs may be transported in a schoolbus when trained in schools licensed or approved by the California State Board of Guide Dogs for the Blind, and accompanied by blind pupils enrolled in a public high school or by blind teachers employed in a public high school or community college or by persons employed by those licensed or approved schools to train such dogs. The driver of a schoolbus may determine whether or not the guide dog should be muzzled while being transported in the schoolbus.

39840. The governing board of any school district may enter into a contract under the terms of which the school district grants the use of any schoolbus which is owned or leased by the school district to any federal, state, or local governmental agency for the purpose of providing transportation for employees of said agency to or from their places of employment, or both; provided that:

(a) No public transportation is reasonably available to said agency's employees at their place of employment.

(b) The school district normally provides transportation for students residing on the governmental agency's property to or from school, or both.

(c) The transportation of said agency's employees does not interfere with the school district's use of schoolbuses for school transportation purposes.

(d) All schoolbus warning lights and exterior lettering or signs that identify the bus as a schoolbus are covered or removed during operation by the federal, state, or local governmental agency.

(e) Mechanical condition of a schoolbus during operation by the federal, state, or local governmental agency is maintained so as to meet or exceed those regulations promulgated by the Department of Education pursuant to Section 39831 governing the operation of schoolbuses.

(f) Accurate records are maintained which reflect the actual number of miles any schoolbus is driven during times of operation by the federal, state, or local governmental agency, which records are to be made available to the Superintendent of Public Instruction in connection with the annual report of transportation expense made by the school district. The Superintendent of Public Instruction, in accordance with Section 39835, shall deduct from the allowances to a school district for transportation an amount equal to the depreciation of schoolbuses due to their use in transporting employees of a federal, state, or local governmental agency pursuant to this section.

39840.5. The governing board of any school district may enter into a contract under the terms of which the school district grants the use of any schoolbus which is owned or leased by the school district to senior citizens' groups for the purpose of providing transportation to members of senior citizens' groups; provided that:

(a) No public transportation is available within a reasonable distance to the senior citizens' group.

(b) Senior citizens of any such group reside in the territorial limits of the school district providing the transportation.

(c) The transportation of the senior citizens is limited to transportation within the State of California and does not interfere with the school district's use of schoolbuses for school transportation purposes.

(d) All schoolbus warning lights and exterior lettering or signs that identify the bus as a schoolbus are covered or removed during operation by a senior citizens' group.

(e) Mechanical condition of a schoolbus during operation by a senior citizens' group is maintained so as to meet or exceed those regulations promulgated by the Department of Education pursuant to Section 39831 governing the operation of schoolbuses.

(f) Accurate records are maintained which reflect the actual number of miles any schoolbus is driven during times of operation by a senior citizens' group, which records are to be made available to the Superintendent of Public Instruction in connection with the annual report of transportation expense made by the school district. The Superintendent of Public Instruction, in accordance with Section 39835, shall deduct from the allowances to a school district for transportation an amount equal to the depreciation of schoolbuses due to their use in transporting senior citizens pursuant to this section.

(g) The total cost of the contract to the senior citizens' group is not less than the cost to the district of providing such transportation services.

39841. The following requirements shall be included in any agreement entered into between a school district and a publicly owned transit system under which the school district grants the use of any schoolbus which is owned or leased by it to the transit system for public transportation purposes:

(a) All schoolbus warning lights and exterior lettering or signs that identify the bus as a schoolbus are covered or removed during operation by the transit system.

(b) Mechanical condition of a schoolbus during operation by the transit system is maintained so as to meet or exceed those regulations promulgated by the State Board of Education pursuant to Section 39831 governing the operation of schoolbuses.

(c) Accurate records are maintained which reflect the actual number of miles any schoolbus is driven during times of operation by the transit system.

#### Article 4. Transportation, Special Activities

39860. The governing board of any school district may contract for the transportation of pupils attending schools within the district to and from any exposition or fair, school activities, or other activities which the governing board determines to be for the benefit of the pupils, in this state, and may pay for the transportation out of any funds of the district available for the purpose.

#### Article 5. Cafeterias—Establishment and Use

39870. The term “cafeteria” as used in this code is considered synonymous with the term “food service.”

39871. The governing board of any school district may establish cafeterias in the schools under its jurisdiction whenever in its judgment it is advisable to do so.

39872. Food shall not be sold at any cafeteria operated by a school district to anyone except pupils and employees of any school district, members of the governing board thereof, and members or employees of the fund or association maintaining the cafeteria; provided, however, that nothing herein contained shall prohibit the use of the cafeteria facilities by any work or harvest camp maintained by or within the district, and by persons entitled to use the school under the Civic Center Act; and provided further, that the governing board of any school district operating a cafeteria may exempt by formal resolution of the board other individuals and organizations from the operation of this section.

39873. Perishable foodstuffs and seasonal commodities needed in the operation of cafeterias may be purchased by the school district in accordance with rules and regulations for such purchase adopted by the governing board of said district notwithstanding any provisions of this code in conflict with such rules and regulations.

39874. The food served shall be sold to the patrons of the cafeterias at such a price as will pay the cost of maintaining the cafeterias, exclusive of the costs made a charge against the funds of the school district by this chapter, and items made a charge against the funds of the school district by resolution of the governing board under authority of this chapter.

## Article 6. Cafeterias, Funds and Accounts

39890. Money received for the sale of food or for any services performed by the cafeterias may be paid into the county treasury to the credit of the "cafeteria fund" of the particular school district.

39891. The cafeteria fund shall be used only for such expenditures as are necessary for the operation of school cafeterias. However, when the governing board deems it necessary, it may make expenditures from the cafeteria fund for the lease or purchase of additional cafeteria equipment for the central food processing plant, and of vending machines and their installation and housing.

The governing board of any school district, or of two or more school districts governed by governing boards of identical personnel, having an average daily attendance of 400,000 or more as shown by the annual report of the county superintendent of schools for the preceding year, may also make expenditures from the cafeteria fund for the construction, alteration, or improvement of a central food processing plant, for the installation of additional cafeteria equipment for the central food processing plant, and for the lease or purchase of vehicles used primarily in connection with the central food processing plant.

39892. The governing board of any school district may establish an account for each cafeteria established in a school of the district, or for all cafeterias established in the schools of the district, in one or more banks. The account shall be known as "The Cafeteria Account of (insert name of district) District." If the account is established for one of several cafeterias, it shall be known as "The Cafeteria Account of the (insert name of school) School of (insert name of district) District." All receipts of the cafeteria, or cafeterias, as the case may be, derived from the sale of food shall be deposited in the account and shall be expended only for the maintenance of the cafeteria, or cafeterias, exclusive of items made a charge against the funds of the school district by this chapter, and items made a charge against the funds of the school district by resolution of the governing board under authority of this chapter.

39893. The governing board of the district shall designate an employee or employees of the district to have custody of the account or accounts, who shall be responsible for the payment into the account or accounts of all moneys required to be paid into the account or accounts, and for all expenditures therefrom, subject to such regulations as the governing board prescribes.

39894. Upon the order of the governing board of any district having a cafeteria fund in the county treasury and establishing an account, or accounts, the county treasurer shall deposit the money in the fund to the account, or accounts, and shall notify the county auditor and county or city and county superintendent of schools of his action. If the money is to be deposited in more than one account, the governing board of the district shall designate the amount to be placed in each account.

## Article 7. Cafeterias, Allocation of Charges

39900. The cost of housing and equipping cafeterias is a charge against the funds of the school district. However, when the governing board of a school district deems it necessary, the governing board may make the cost of the lease or purchase of additional cafeteria equipment for a central food processing plant, and of vending machines and their installation and housing, a charge against cafeteria funds. If school district funds are expended for the lease or purchase of additional cafeteria equipment for a central food processing plant, or for the lease, purchase, installation, or housing of vending machines, the governing board may at any time within five years after such expenditure reimburse school district funds from cafeteria funds.

The governing board of a school district may by resolution make the cost of maintenance of the physical plant used in connection with cafeterias, the cost of replacement of equipment and the cost of telephone charges, water, electricity, gas, coal, wood, fuel oil, and garbage disposal a charge against the funds of the school district.

The governing board of any school district, or of two or more school districts governed by governing boards of identical personnel, having an average daily attendance of 400,000 or more as shown by the annual report of the county superintendent of schools for the preceding year, may also make the cost of the construction, alteration, or improvement of a central food processing plant and the installation of additional cafeteria equipment a charge against cafeteria funds. If district funds are expended for these purposes, the governing board also may at any time within five years after such expenditure reimburse district funds from cafeteria funds.

39901. The governing board of any school district operating school cafeterias may establish and maintain a cafeteria fund reserve for the replacement of wornout or obsolete cafeteria equipment, to be known as the accumulative cafeteria equipment replacement reserve. The funds for this reserve are to be derived from the sales of food in the school cafeterias in an amount to be determined by the governing board and may be accumulated from year to year until expended for this purpose.

Each school district maintaining an accumulative cafeteria equipment replacement reserve may include in the annual cafeteria fund budget of the district an amount to be allocated to said reserve, as determined by the governing board, which amount shall be a charge against the operations of the cafeterias for that year as a depreciation cost for wear and tear on cafeteria equipment. The cost of replacing cafeteria equipment may be charged to the accumulative cafeteria equipment reserve of the cafeteria fund of the district.

Nothing in this section shall prohibit any school district from replacing cafeteria equipment from district funds as provided in Section 39900.

39902. The governing board of a school district shall employ persons for food service positions as a part of the classified service. Wages, salaries and benefits including employer retirement contributions for all food service personnel shall be paid from the general fund of the school district. Costs of wages, salaries and benefits including employer retirement contributions and other purposes classed as food service shall be excluded from the definition of "current expense of education" as defined in Section 41372. The governing board may, at any time, order reimbursement from the cafeteria fund or the cafeteria account to the general fund of the district for payments under this section in such amounts as it prescribes but not to exceed food service employee salary, wage and benefit costs then incurred or anticipated.

Any reimbursements in excess of the amount actually required shall be refunded to the cafeteria fund or the cafeteria account not later than the close of the current fiscal year.

The reimbursements from the cafeteria fund or the cafeteria account shall be considered expenses of the cafeteria fund or the cafeteria account, as the case may be, and only those payments made from the general fund which are not reimbursed from the cafeteria fund or the cafeteria account shall be considered expenses of the general fund.

Accounting for such transactions shall be as prescribed in Section 41010.

## CHAPTER 6. MISCELLANEOUS PROVISIONS

### Article 1. Apparatus and Supplies

40000. The county board of education shall on or before the first day of February of each year establish rules and regulations under which any school district in the county shall, except as provided in Section 40002, purchase standard school supplies and equipment through the county superintendent of schools, or when so directed by him, through a county purchasing agent.

When the county superintendent of schools purchases standard school supplies without directing their purchase through the county purchasing agent or other county, city, or school district agent or agency, he shall make such purchase from the lowest responsible bidder who shall give such security as the county superintendent of schools requires, or else reject all bids. For the purpose of securing bids, the county superintendent of schools shall publish at least once a week for two weeks in a newspaper of general circulation published in the county, a notice calling for bids stating where the list and specifications of standard school supplies and equipment to be furnished may be obtained and the time when, and the place where bids will be opened.

The county board of education shall list as standard school supplies and equipment such supplies and equipment as can be

advantageously purchased in quantity. The list of standard school supplies shall be accompanied by a table of specifications giving the minimum grade, quality, substance, or other standard required for the purchase of each item listed.

The cost of advertising for bids and the cost of preparation of a table of specifications shall be paid from the county general fund.

40001. The governing board of each school district shall, except as otherwise provided in this code, purchase school furniture, including musical instruments, and apparatus, and such other articles as are necessary for the use of schools, and may, in its discretion, purchase uniforms and other regalia for the use of school bands, orchestras and choirs, and including uniforms and equipment necessary for the use of athletic teams. The provisions of Article 1 of Chapter 4 of Division 5 of Title 1 of the Government Code shall not apply to the purchase of musical instruments made pursuant to this section. Any such articles purchased shall always remain the property of the school district purchasing them. Only such books, apparatus, uniforms, and equipment shall be purchased by the governing board of an elementary school district, if the board is not a city board of education, as have been adopted by the county board of education having jurisdiction over the district.

40002. (a) Except as provided in subdivision (b), the governing board of any school district may purchase any necessary school supplies and equipment, including standard school supplies and equipment listed by the county board of education, in the manner provided in this chapter, or the governing board of any school district may purchase such supplies and equipment directly from the vendor. Such direct purchase may be as a single district or two or more districts acting as a cooperative.

(b) An elementary school district having an average daily attendance of less than 2,500 during the preceding fiscal year may purchase standard school supplies and equipment directly from a vendor only by means of a purchasing cooperative representing a total average daily attendance in excess of 2,500 and then only if the county superintendent of schools has on file a document certifying the school district's membership in such a cooperative.

40003. The clerk of each district shall, under the direction of the board of trustees, provide all school supplies authorized by this chapter.

40004. The county superintendent of schools, when so requested, shall act as agent for the purchase of supplies for the city and high school districts of his county.

40005. The county superintendent may arrange with a county purchasing agent for the purchase of standard school supplies and equipment in accordance with the regulations of the county board of education and the purchasing agent shall act in such capacity when so authorized.

40006. The cost of maintaining schoolbuses may be paid out of any funds of the district except funds derived from the sale of bonds

and funds required by law to be set aside for teachers' salaries.

40007. The superintendent of schools of each county may transfer at the beginning of any school year from the funds of the school districts of the county which elect to purchase equipment and supplies in accordance with Section 40000, to the school supply revolving fund, which fund is continued in existence, a sum not to exceed 10 percent of the amount to be received during the school year by each district from the State School Fund.

40008. If in any county a school supply revolving fund is not established, payment for school supplies and equipment purchased through the county superintendent of schools or through the county purchasing agent shall be made by order of the governing board of the school district purchasing them, in the same manner as other payments are made from school district funds.

40009. The governing board of each school district throughout the state shall provide for each schoolhouse under its control, a suitable Flag of the United States, which shall be hoisted above each schoolhouse during all school sessions and on school holidays, weather permitting.

The governing board of each school district shall provide smaller and suitable United States Flags to be displayed in each schoolroom at all times during the school sessions.

The governing board of each school district shall enforce this section.

40010. If a board of school trustees of any school district refuses or neglects to purchase and display United States Flags as provided in Sections 40009 and 40010, the superintendent of schools of the county shall purchase the flags and direct the teacher or teachers to display the flags as provided by law.

The superintendent of schools shall draw his warrant on the current expense fund of the district in payment of the cost of such flags as he finds necessary to purchase.

40011. Writing and drawing paper, pens, inks, blackboards, blackboard erasers, crayons, lead pencils, and other necessary supplies for the use of the schools, shall be furnished under direction of the governing boards of the school districts.

40012. Charges for supplies shall be audited and paid in the same manner as other claims against the county school fund of the districts.

40013. The governing board of a school district may pay in advance for postage stamps, permits and services provided by other governmental agencies, subscriptions to, or purchases or rentals of, newspapers, magazines, periodicals, single copies of books, films, filmstrips, recordings, and other publications, and for the maintenance of equipment under agreements not exceeding one year for the district and the schools thereof when such action will result in a decrease in the cost to the district or which cannot be secured without payment in advance.

40014. The governing board of a school district may rent or lease personal property needed for district purposes, including the renting

or leasing of caps and gowns for seniors who participate in high school graduation ceremonies.

40015. The governing board of any school district may lend school band instruments, music, uniforms, and other regalia to persons who are or have been, during the prior school year, members of the school band for use by them on excursions to foreign countries whether or not such an excursion is sanctioned by the governing board.

The governing board may require the borrower to make a deposit or take other measures to insure that the items borrowed will be returned in usable condition.

## Article 2. Use of School Property

40040. The governing board of any school district may grant the use of school buildings or grounds for public, literary, scientific, recreational, educational, or public agency meetings, or for the discussion of matters of general or public interest upon such terms and conditions as the board deems proper, and subject to the limitations, requirements, and restrictions set forth in this chapter.

The governing board of any school district may grant the use of school buildings or grounds to any church or religious organization for the conduct of religious services for temporary periods where such church or organization has no suitable meetingplace for the conduct of such services upon such terms and conditions as the board deems proper, and subject to the limitations, requirements, and restrictions set forth in this chapter. Notwithstanding the provisions of Section 40053, the governing board shall charge the church or religious organization using such property for the conduct of religious services an amount at least sufficient to pay the cost to the district of supplies, utilities and salaries paid school district employees necessitated by such use of such property.

40041. No use shall be inconsistent with the use of the buildings or grounds for school purposes, or interfere with the regular conduct of school work.

40042. No use shall be granted in such a manner as to constitute a monopoly for the benefit of any person or organization.

40043. No privilege of using the buildings or grounds shall be granted for a period exceeding one year for school districts. The privilege is renewable and revocable in the discretion of the board at any time.

40044. Notwithstanding the provisions of Sections 40042 and 40043 or any other provisions of law, when a nonpartisan charitable organization organized under the laws of this state has constructed or will construct, subject to the provisions of Article 3 (commencing with Section 39140) of Chapter 2 of this part, a school athletic and youth center facility at no cost to a school district, upon a school-district-owned site to be owned by and for the benefit of the school occupying such site, the governing board of the school district, in accepting the donation and prescribing the conditions and

restrictions with respect thereto, may permit the general use of said facility under this article for specified supervised recreational activities which are sponsored by or conducted by the donor organization, and may also permit the donor organization to use the facility for such purpose at such times when the facility is not being used by the school district for the educational program and related school activities of the designated beneficiary school, unless the use and occupancy of the facility by the donor organization would otherwise interfere with the regular conduct of such school. Any such use granted to the donor organization shall, however, immediately and forever terminate if the donor organization denies the use of the facility to any person because of the race, religion, creed, national origin, ancestry, or sex of such person.

This section shall apply only to elementary school districts in San Diego County which had an average daily attendance of 425 or less during the 1970-71 school year, and which, during the 1970-71 school year, had a modified assessed valuation per pupil in average daily attendance of between forty-five thousand dollars (\$45,000) and fifty thousand dollars (\$50,000).

40045. The governing board of any school district may allow the use of school buildings, facilities, grounds, and equipment for child care or day care programs established in cooperation with any city to provide supervision and activities for children of preschool and elementary school age. The governing board may also provide such supervisory, consultant, custodial, clerical, or other services as it deems advisable with respect to the need of such program and the service to the community.

40046. The governing board of any school district may grant the use of school buildings, grounds, and equipment without charge to public agencies for the purpose of holding examinations for the selection of personnel, and for the instruction of precinct board members.

40047. The governing board of any school district may grant the use of school buildings, grounds and equipment to public agencies, including the American Red Cross, for mass care and welfare shelters during disasters or other emergencies affecting the public health and welfare, and may cooperate with such agencies in furnishing and maintaining such services as the governing board may deem necessary to meet the needs of the community.

40048. There is a civic center at each and every public school building and grounds within the state where the citizens, parent-teachers' association, Camp Fire Girls, Boy Scout troops, farmers' organizations, school-community advisory councils, senior citizens' organizations, clubs, and associations formed for recreational, educational, political, economic, artistic, or moral activities of the public school districts may engage in supervised recreational activities, and where they may meet and discuss, from time to time, as they may desire, any subjects and questions which in their judgment appertain to the educational, political, economic,

artistic, and moral interests of the citizens of the communities in which they reside. Governing boards of the school districts may authorize the use, by such citizens and organizations of any other properties under their control, for supervised recreational activities.

40049. The use of any public schoolhouse and grounds for any meeting is subject to such reasonable rules and regulations as the governing board of the district prescribes and shall in nowise interfere with the use and occupancy of the public schoolhouse and grounds, as is required for the purposes of the public schools of the state.

40050. The management, direction, and control of the civic center is vested in the governing board of the school district.

40051. The governing board of the school district shall make all needful rules and regulations for conducting the civic meetings and for such recreational activities as are provided for in this chapter and which aid, assist, and lend encouragement to the activities.

40052. The governing board of any school district may appoint a person who shall have charge of the grounds, preserve order, protect the school property, plan, promote, and supervise recreational activities, and do all things necessary in the capacity of a representative of the board.

40053. The use of schoolhouses, property, and grounds pursuant to this chapter shall be granted free, except as otherwise provided by Section 40054, to public agencies, or to senior citizens' organizations or to other organizations, clubs, or associations organized for cultural activities (such as folk and square dancing) and general character building or welfare purposes.

For any other use of schoolhouses, property, and grounds pursuant to this chapter, including uses for which charges may be made under Section 40054, the governing board of any school district may charge not to exceed an amount sufficient to pay the cost to the district of supplies, utilities, and salaries paid school district employees necessitated by such use of schoolhouses, property, and grounds of the district.

40054. In the case of entertainments or meetings where admission fees are charged or contributions are solicited and the net receipts of the admission fees or contributions are not expended for the welfare of the pupils of the district or for charitable purposes a charge shall be made for the use of the schoolhouses, property, and ground which charge shall not be less than the fair rental value for the use of such schoolhouses, property and grounds, as determined by the governing board of the district.

The governing board may, however, permit such use, without charge, by organizations, clubs, or associations organized for senior citizens and for cultural activities and general character building or welfare purposes, when membership dues or contributions solely for the support of the organization, club, or association, or the advancement of its cultural, character building or welfare work, are accepted.

40055. Lighting, heating, janitor service, and the services of the person when needed, and other necessary expenses, in connection with the use of public school buildings and grounds pursuant to this chapter shall be provided for out of the county or special school funds of the respective school districts in the same manner and by the same authority as similar services are provided for.

40056. Any use, by any individual, society, group, or organization for the commission of any act intended to further any program or movement the purpose of which is to accomplish the overthrow of the government of the United States or of the state by force, violence, or other unlawful means shall not be permitted or suffered.

Any individual, society, group, or organization which commits any act intended to further any program or movement the purpose of which is to accomplish the overthrow of the government by force, violence or other unlawful means while using school property pursuant to the provisions of this chapter is guilty of a misdemeanor.

40057. No governing board of a school district shall grant the use of any school property to any person or organization for any use in violation of Section 40056.

For the purpose of determination by such governing board whether or not any individual, society, group or organization applying for the use of such school property intends to violate Section 40056, the governing board shall require the making and delivery to such governing board, by such applicant of a written statement of information in the following form:

#### STATEMENT OF INFORMATION

The undersigned states that, to the best of his knowledge, the school property for use of which application is hereby made will not be used for the commission of any act intended to further any program or movement the purpose of which is to accomplish the overthrow of the government of the United States by force, violence or other unlawful means;

That \_\_\_\_\_, the organization on whose behalf he is making application for use of school property, does not, to the best of his knowledge, advocate the overthrow of the government of the United States or of the State of California by force, violence, or other unlawful means, and that, to the best of his knowledge, it is not a Communist action organization or Communist front organization required by law to be registered with the Attorney General of the United States. This statement is made under the penalties of perjury.

---

(Signature)

The school board may require the furnishing of such additional information as it deems necessary to make the determination that the use of school property for which application is made would not violate Section 40056 of the Education Code.

Any person applying for the use of school property on behalf of any society, group or organization shall be a member of such applicant group and, unless he is an officer of such group, must present written authorization from such applicant group to make such application.

The governing board of any school district may, in its discretion, consider any statement of information or written authorization made pursuant to the requirements of this section as being continuing in effect for the purposes of this section for the period of one year from the date of such statement of information or written authorization.

40058. Written statements of information as required by Section 40057 need not be under oath, but shall contain a written declaration that they are made under the penalties of perjury, and any person so signing such statements who willfully states therein as true any material matter which he knows to be false, is subject to the penalties prescribed for perjury in the Penal Code.

### Article 3. Farm Labor Driver Training Course

(Article 3 added by Stats. 1976, Ch. 1011)

40070. The Department of Education shall develop a course for the training of farm labor vehicle drivers that will provide them with the skills and knowledge necessary to prepare them for an examination for certification pursuant to Section 12519 of the Vehicle Code. The department shall seek the advice and assistance of the Department of Motor Vehicles and the Department of the California Highway Patrol in developing such a course.

The department shall train the necessary instructional personnel to conduct the course, shall furnish all instructional and training materials used in the course, and shall assure that the course is properly taught and conducted.

The department may enter into agreements with any public agency in order to implement the provisions of this section.

(Added by Stats. 1976, Ch. 1011.)

## PART 24. SCHOOL FINANCE

### CHAPTER 1. STATE FINANCIAL MANAGEMENT AND CONTROL

#### Article 1. Moneys Received by School Districts

41000. No assessor, tax collector, city, city and county, or county treasurer shall charge or receive any fees or compensation for assessing, collecting, receiving, keeping, or disbursing any school moneys, but the whole moneys collected shall be paid to the city, city and county, or county treasurer.

41001. The governing board of every school district shall pay all moneys received or collected by it from any source and all moneys apportioned to it from taxes levied and collected under the authority of city councils for school purposes, into the county treasury to be placed to the credit of the proper fund of its district. All money

collected by the city council or other governing body of any municipality from taxes levied for school purposes when received shall be paid into the county treasury to the credit of the school district for the schools of which the taxes were levied. All deposits and payments required by this section shall be made daily, unless the county superintendent of schools authorizes them to be made weekly or otherwise, but in no event less frequently than monthly.

41002. All moneys received by any school district or paid into the county or city and county treasury to the credit of the district from state apportionments, county, district or municipal taxes, other than moneys required to be placed in a special reserve fund, a building fund or bond interest and sinking fund, and moneys authorized to be paid into a cafeteria fund or account, or school farm account, or moneys received for the rental or lease of real property which by resolution of the governing board may be deposited in any authorized fund of the district, shall be deposited in the general fund of the district, which fund is continued in existence in each county and city and county treasury.

Nothing in this section shall be construed as discontinuing, nor as affecting the disposition of moneys in emergency cash funds, in revolving funds for warehouse stock, in cafeteria funds or accounts, or school farm account, in special reserve funds, in building funds, or in bond interest and sinking funds created or established under this code.

41003. The governing board of a school district may, by resolution, specify the particular fund or funds maintained for the district into which shall be deposited moneys received for the rental or lease of real property.

## Article 2. Accounting Regulations, Budget Controls and Audits

41010. The accounting system used to record the financial affairs of any school district shall be in accordance with the definitions, instructions, and procedures published in the California School Accounting Manual as approved by the State Board of Education and furnished by the Superintendent of Public Instruction. No accounting manual so approved shall expressly or by implication affect the content of any educational program or objective, except as otherwise specifically provided for by this code. The Legislature hereby finds that such content shall be best determined by those involved in the administration of educational programs, including school district governing boards, local administrators, teachers, students, and parents.

41011. The accounting system used to record the financial affairs of any school district shall be designed to provide separate recording and clear distinction between expenditures for salaries of classroom teachers employed by the district and expenditures for other purposes of the district.

As used in this section "salaries of classroom teachers" means:

- (a) The salary paid to each teacher employed by the district

whose duties require that the full time for which the teacher is employed be devoted to the teaching of pupils of the district.

(b) The portion of the salary of each teacher whose duties require that a part, but not all, of the full time for which the teacher is employed be devoted to the teaching of pupils of the district, which is equal to the portion of such full time actually devoted by the teacher to teaching pupils of the district.

(c) The salary paid to each instructional aide employed by the district, any portion of whose duties are required to be performed under the supervision of a classroom teacher.

As used in this section a "teacher" means an employee of the district employed in a position requiring certification qualifications and whose duties require him to teach pupils of the district for at least one full instructional period each schoolday for which the employee is employed. In the case of a teacher employed to teach in an elementary school, an instructional period is a period of not less than 20 minutes. In the case of a teacher employed to teach in a secondary school, an instructional period is the number of minutes equal to the number of minutes of the regular academic period in the junior high school, or high school, in which the teacher is employed to teach.

41012. For purposes of determining allowances pursuant to Chapter 8 (commencing with Section 52200) of Part 28 of Division 4, and Chapter 3 (commencing with Section 56500), Chapter 4 (commencing with Section 56600), and Chapter 5 (commencing with Section 56700) of Part 30 of Division 4 of this title, the Superintendent of Public Instruction shall require the use of a uniform cost accounting procedure, as set forth in the California School Accounting Manual.

41013. For the purpose of achieving clarity and uniformity in the budgeting and reporting of school district expenditures by funds, whenever certain expenditures for the children's center program, the development center for handicapped minors program, or any similar program, except the food service program, for which a special fund is required by law, are: (1) authorized by law and by action of the governing board to be paid from the general fund of the school district, or (2) required by law to be paid from the general fund of the school district, the amount estimated or actually required to meet these expenditures shall be transferred or paid from the general fund to the children's center fund, the development center for handicapped minors fund, or other special fund as appropriate.

Any amount transferred or paid in excess of the amount actually required shall be refunded to the general fund.

The Superintendent of Public Instruction is hereby authorized to adopt rules and regulations governing the method of accounting for said payments and transfers.

41014. Excepting only as provided in Article 1 (commencing with Section 41000) and this article, all constitutional and statutory limitations on the purposes for which moneys derived from particular specified sources may be expended, and all statutory

provisions relative to the establishment of specified school district funds, shall be administered by county superintendents of schools, or in the discretion of county auditors, by county superintendents of schools and county auditors by means of budgetary accounting and not by the establishment and maintenance in the county or city and county treasury of special school district funds.

41015. The governing board of any school district which, on or after May 28, 1943, has funds in a special reserve fund of the district or any surplus moneys not required for the immediate necessities of the district, is hereby authorized to invest all or any part of such funds in bonds, notes, bills, certificates, debentures or other obligations, issued by the United States of America, or obligations issued by banks for cooperatives, federal land banks, federal intermediate credit banks, federal home loan banks, the Federal Home Loan Bank Board, the Tennessee Valley Authority, or in obligations, participations, or other instruments of or issued by, or fully guaranteed as to principal and interest by, the Federal National Mortgage Association; or in participation certificates evidencing beneficial interests in obligations, or in the right to receive interest and principal collections therefrom, which obligations have been subjected by one or more government agencies to a trust or trusts for which any executive department, agency, or instrumentality of the United States (or the head thereof) has been named to act as trustee.

Any bonds, notes, bills or certificates, debentures or other obligations, so purchased may be sold and the proceeds reinvested in similar bonds, notes, bills or certificates, debentures or other obligations, of the United States of America, its agencies, or its instrumentalities, or placed in the county treasury for credit to the fund of the district from which purchased. This section shall not be construed as in any way limiting or modifying the application of any other law providing for or authorizing the investment of any funds of a school district. Notwithstanding any other provision of law, interest earned on funds representing the proceeds of bonds of the district shall be deposited and retained in the interest and sinking fund of the district to meet the principal and interest falling due on such bonds.

41016. The governing board of a school district which has made an investment pursuant to the authority of Section 41015 may deposit such security for safekeeping with a state or national bank or trust company located within this state or with the Federal Reserve Bank of San Francisco or any branch thereof within the state, or with any Federal Reserve bank or with any state or national bank located in any city designated as a reserve city by the Board of Governors of the Federal Reserve System. The governing board shall take from such bank a receipt for the security so deposited. The county treasurer with whom such funds if uninvested would be deposited shall not be responsible for securities delivered to and receipted for by a bank under the authority of this section until they are withdrawn from the bank by said treasurer.

41017. The governing board of any school district may authorize any school district governed by it to deposit in one or more bank accounts as clearing accounts any miscellaneous receipts, including receipts from the sale of property or materials pursuant to Section 39526 or 39527, received or collected by the school district, and may provide for the withdrawals from such accounts. All moneys in any such bank account shall be paid into the county treasury within the time periods specified pursuant to Section 41001. Cashiers' checks, certified checks, and money placed in the custody of the school district as security that a bidder will execute or faithfully perform a contract, if awarded to him, may be deposited in any such bank account but shall not be paid into the county treasury to the credit of the school district unless forfeited or unless unclaimed by the bidder for a period of 12 months.

Such bank accounts shall not be subject to the deposit of funds provisions of Article 2, Chapter 4, Part 1, Division 2, Title 5 of the Government Code, except to the extent provided by Section 53679 of the Government Code.

41018. The governing board of any school district having an average daily attendance of 100,000 or more may deposit in one or more bank accounts moneys received from the temporary rental of property acquired by a school district pending construction of school facilities on such property. The moneys may be held in such accounts for a period of not to exceed three years and may be used to pay any proper costs incurred as a result of such temporary rental, provided that when such moneys are not being used to pay such costs they may be invested, along with all other moneys deposited in clearing accounts, pursuant to Section 41015 as determined by the governing board of any such school district.

41019. The governing board of any school district which maintains clearing accounts, cafeteria accounts, and other accounts in a bank or banks, pursuant to Section 41017 or 39892, or pursuant to any other provisions of law, may contract and pay for the expenses of transporting money to and from such bank or banks.

41020. Not later than the first day of May of each fiscal year each county superintendent of schools shall provide for an audit of all funds under his jurisdiction and control and the governing board of each district shall either provide for an audit of the books and accounts of the district or make arrangements with the county superintendent of schools having jurisdiction over the district to provide for such auditing. In the event the governing board of a school district has not provided for an audit of the books and accounts of the district by April 1st, the county superintendent of schools having jurisdiction over the district shall provide for the audit.

Each audit shall include all funds of the district including the student body and cafeteria funds and accounts and any other funds under the control or jurisdiction of the district.

The cost of the audits provided for by the county superintendent of schools shall be paid from the county school service fund and the

county superintendent of schools shall transfer the pro rata share of the cost chargeable to each district from district funds.

The cost of the audit provided for by a governing board shall be paid from district funds. The audit of the funds under the jurisdiction and control of the county superintendent of schools shall be paid from the county school service fund.

The audits shall be made by a certified public accountant or a public accountant, licensed by the State Board of Accountancy. Not later than November 15th, a report of each audit for the preceding fiscal year shall be filed with the county clerk and the county superintendent of schools of the county in which the district is located, the Department of Education and the Department of Finance. The submission date may be extended to, but not later than, December 31 for justifiable cause upon written request by the auditor and approval by the county superintendent of schools. The Superintendent of Public Instruction shall make any adjustments necessary in future apportionments of state funds, to correct any discrepancies revealed by such audit reports under the provisions of Section 41341.

If a governing board or county superintendent of schools fails or is unable to make satisfactory arrangements for audit pursuant to this section, the Department of Finance may make arrangements for the audit and the cost of such audit shall be paid from school district funds or the county school service fund as the case may be.

The Department of Finance with the cooperation of the Department of Education shall prescribe the statements and other information to be included in the audit reports filed with the state. The Department of Finance may make such audits, surveys and reports, and may develop suggested procedures for carrying out the purposes of this section, as in the judgment of the department will serve the best interests of the state.

Nothing in this section shall be considered as authorizing examination into or report on the curriculum used or provided for in any school district.

41021. The governing board of every school district shall require each employee of the district, whose duty it is to handle funds of the district, and may, in its discretion, require employees of the district, whose duty it is to handle property of the district, to be bonded under a suitable bond indemnifying the district against loss. Such bond may be a name schedule bond, schedule position bond or blanket bond, and shall be in such amount and type as the board shall consider necessary and desirable. The boards shall pay from the funds of the district the cost of the premium necessary to provide the bond.

41022. Except as provided in this section, any election held for the purpose permitting a school district to exceed the expenditure of school district funds fixed by the Constitution or by the statutes of the state shall be called, held, and conducted as nearly as possible as are elections for the issuance of school district bonds.

The notice of election shall contain only the following:

- (a) The time and place or places of holding the election.
- (b) The names of the officers appointed to conduct the election.
- (c) The hours during the day in which the polls will be open.
- (d) The amount by which it is proposed to increase the expenditures of the district during the school year.
- (e) The total amount of proposed expenditures of the district, including the proposed increase, for the school year.

The ballots used at the election shall contain the following language: "Shall the total authorized expenditures of the district be increased from \_\_\_\_\_ (naming the sum) to \_\_\_\_\_ (naming the sum) for the school year \_\_\_\_\_ (naming the school year)?"

The hours during which the polls at the election are open shall be fixed in accordance with the provisions of Section 14206 of the Elections Code.

### Article 3. Foundation Trust Fund

41030. Any school district which receives bequests or gifts of money which is surplus money not required for the immediate necessities of the district may invest it pursuant to the provisions of this article.

41031. Any gift or bequest of money which is to be invested pursuant to this article shall be placed in a district special fund in the county treasury, to be designated as the Foundation Trust Fund. If the gift or bequest of money is required to be used for specific purposes according to the terms of the gift or bequest, the governing board shall place the money in a separate account in the Foundation Trust Fund, and may by resolution designate the separate account by the name that it shall be known, including in its name the term "Foundation Trust Account."

41032. The money deposited in a separate account in the Foundation Trust Fund shall be invested pursuant to this article or expended only for the purposes of the gift or bequest.

41033. The governing board of a school district which has placed funds in the Foundation Trust Fund is hereby authorized to invest all or any part of such funds as it deems wise and expedient as follows:

(a) In the securities, warrants, or instruments of indebtedness specified by Section 53601 of the Government Code.

(b) In corporate securities other than corporate shares, provided that the amount of investment under this subdivision shall not exceed 50 percent of the amount invested under subdivision (a).

Any security, warrant, or instrument of indebtedness purchased pursuant to this section may be sold and the proceeds reinvested in similar securities, warrants, or instruments, or placed in the Foundation Trust Fund.

41034. The governing board of a school district may deposit such securities, warrants, or instruments purchased under Section 41033 for safekeeping pursuant to Section 41016.

41035. The governing board of a school district which places

money in the Foundation Trust Fund pursuant to this article shall appoint an advisory committee equal in number to the number of members of the governing board. The committee shall be composed of qualified electors of the district and may include members of the governing board. Members of the committee shall serve without compensation.

41036. The advisory committee shall advise the governing board as to the investments to be made pursuant to this article.

41037. The governing board shall adopt rules and regulations to effectuate the purposes of this article, not inconsistent with law.

41038. Except as may be otherwise provided in this article, other provisions of this chapter shall be applicable to the money placed in the Foundation Trust Fund pursuant to this article.

#### Article 4. Miscellaneous Provisions

41050. "County" or "counties" includes a city and county as specified in Section 92.

41052. Whenever the assessed valuation of a school district is reduced as a result of the operation of Section 992 of the Revenue and Taxation Code, the school district shall receive replacement revenue from the state for the loss of revenue to the district.

A school district shall be eligible for replacement revenue when the assessed valuation exempted as the result of the operation of Section 992 of the Revenue and Taxation Code is 30 percent or more of the district's assessed valuation in the 1970-1971 fiscal year. A school district shall be ineligible for replacement revenue when its assessed valuation has increased 250 percent or more over the 1970-1971 fiscal year assessed valuation.

41053. Whenever reference is made to "adults" in this division in the context of apportionments to school districts or county superintendents of schools, such reference shall be deemed to refer to persons 21 years of age or over notwithstanding any other provision of law.

Whenever reference is made to "minors" in this division in the context of apportionments to school districts or county superintendents of schools, such reference shall be deemed to refer to persons under 21 years of age notwithstanding Section 25 of the Civil Code or any other provision of law.

#### CHAPTER 2. PROPERTY VALUATIONS FOR ALLOCATION TO SCHOOL DISTRICTS

41200. On the basis of computations made by the State Board of Equalization, the secretary of that board shall certify on or before October 1st of each year to the Superintendent of Public Instruction the factor, carried to three decimal places, by which the total assessed value of all tangible property on the current local roll of each county must be modified to conform to the statewide average assessment level.

41201. Any state department, board, or agency which allocates funds to any school district on the basis of the assessed valuation of property within the district, or which makes any computation on this basis for school building fund repayment purposes, shall average the factor certified for the current year under Section 41200 for the local roll of the county in which the district is located with the factors so certified for the two immediately preceding years; provided, that, in the event that an assessment ratio announced by a county assessor for the 1970-71 tax year is less than 25 percent, the factor for such county for such year shall be multiplied by a fraction in which the announced ratio is the numerator and 25 percent is the denominator before averaging the factor of that county for 1970-71 with the 1971-72 and 1972-73 factors. The department, board, or agency shall then modify that part of the valuation of the district shown on the local roll by application of this three-year-average factor carried to three decimal places. If a district is located in more than one county, this modification shall be made by applying the average factor appropriate for the assessed value of the property upon the local roll of each county within which the district is located.

41202. Notwithstanding any other provision of this code, whenever the assessed valuation of the district has been modified upward under Section 41201, measures to provide additional local tax revenues to provide the funds required to offset the decrease in school equalization aid resulting from such modification of the assessed value shall be undertaken pursuant to Section 41203.

41203. Whenever it appears that a district's state equalization aid and supplementary support will be less than they would be if no modification of the district's assessed valuation were required under Section 41201, the governing board of the district shall estimate the amount of the difference and shall certify the amount to the county superintendent of schools.

The county superintendent of schools shall certify to the county auditor of the county in which the districts are included the amounts required to offset such decrease of equalization aid, or supplemental support, or both, in all the districts under his jurisdiction. The county auditor shall certify such amounts to the county board of supervisors who shall, at the time other taxes are levied, levy a tax upon all the assessed valuation of the county sufficient to provide the total of the amounts certified. Upon the collection of such taxes the county auditor shall pay to each school district the amount certified as required to offset the decrease in equalization aid or supplemental support.

41204. Notwithstanding any provision of this chapter or any other provision of law to the contrary, the certifications required by Section 41203 may be made at any time prior to the time county and district taxes are required to be levied.

Notwithstanding the provisions of Sections 42600 and 42610 or any other provision of this code to the contrary, the governing board of

a school district may budget and use the amounts paid to the school district collected from any such tax levied pursuant to Section 41203.

41205. If, for any reason, the tax required by Section 41203 to be levied and collected during a fiscal year to offset decreases in state equalization aid and supplemental support is not so levied and collected during the fiscal year, the same shall be levied and collected during the next succeeding fiscal year. The county superintendent of schools and the county auditor shall make the certifications of the amount to be raised by such tax in the manner prescribed by Section 41203, and the board of supervisors shall, in such succeeding fiscal year, at the time other taxes are levied, levy a tax on all the assessed valuation of the county sufficient to provide the total of the amounts certified, and the same shall be paid to the affected school districts as otherwise required by Section 41203.

41206. The Legislature hereby declares that its sole motive in enacting this chapter is to provide a reasonable and equitable method for ascertaining the value of property located within school districts for use in connection with the administration of state laws providing for the allocation of state funds to such districts for school purposes on the basis of value. The Legislature hereby further declares that in enacting this chapter it has no intention to affect in any way, whether directly or indirectly, any determination of the assessed value of property for tax purposes; and that it has no intention by such enactment to modify any phase or aspect of the process of property taxation in any respect whatsoever, except to the limited extent necessary for tax levy adjustment purposes in accordance with this chapter.

### CHAPTER 3. STATE SCHOOL FUNDS

#### Article 1. Appropriations, Sources, Conditions, Amounts of Support per Average Daily Attendance

41300. The amount transferred to Section A of the State School Fund pursuant to subdivision (a) of Section 14002 shall be expended for basic aid, equalization aid, allowances for adults, and allowances to the county school tuition funds to be apportioned on account of average daily attendance.

41301. The amount transferred to Section A of the State School Fund pursuant to subdivision (b) of Section 14002 and Section 14004 shall be expended in accordance with the following schedule:

(a) Twenty-one dollars and fifty cents (\$21.50) multiplied by the total average daily attendance credited during the preceding school year to elementary school districts which during the preceding school year had less than 901 units of average daily attendance, to high school districts which during the preceding school year had less than 301 units of average daily attendance, and to unified districts which during the preceding school year had less than 1,501 units of average daily attendance, but not to exceed an amount equal to

seventy-nine cents (\$.79) multiplied by the average daily attendance credited during the preceding fiscal year to all elementary, high, and unified school districts and to all county superintendents of schools in the state, for allowance to county school service funds pursuant to subdivision (a) of Section 14054.

(b) Seven dollars and eighteen cents (\$7.18) multiplied by the total average daily attendance credited to all elementary, high, and unified school districts and to all county superintendents of schools in the state, during the preceding school year for the purposes of Article 10 (commencing with Section 41850) of Chapter 5 of this part.

(c) Twenty-four dollars and sixty-eight cents (\$24.68) multiplied by the total average daily attendance credited to all elementary, high, and unified school districts and to all county superintendents of schools in the state, during the preceding school year, for the purposes of Article 3 (commencing with Section 56030) of Chapter 1, Chapter 3 (commencing with Section 56500), Chapter 5 (commencing with Section 56700) of Part 30 of Division 4 of this title, and Sections 41863, 41866, 41892, and 41897.

(d) Three dollars and forty-four cents (\$3.44) multiplied by the total average daily attendance credited to all elementary, high, and unified school districts and to all county superintendents of schools in the state during the preceding school year for allowances to county school service funds pursuant to subdivision (b) of Section 14054.

(e) Two dollars and seventy-three cents (\$2.73) multiplied by the average daily attendance during the preceding fiscal year credited to all elementary, high, and unified school districts and to all county superintendents of schools in the state for allowances to school districts for the purposes of Section 52205.

(f) One hundred sixty dollars and ninety-nine cents (\$160.99) multiplied by the average daily attendance during the preceding fiscal year credited to all elementary, high, and unified school districts and to all county superintendents of schools in the state during the preceding school year for basic aid, equalization aid, allowances for adults, and allowances to the county school tuition funds to be apportioned on account of average daily attendance. The amount expended pursuant to this subdivision shall be annually revised to reflect the adjustment prescribed by subdivision (e) of Section 14002.

(g) Thirteen dollars and seventy-five cents (\$13.75) multiplied by the average daily attendance during the preceding school year credited to all elementary, high, and unified school districts and to all county superintendents of schools in the state for purposes of Chapter 4 (commencing with Section 56600) of Part 30 of Division 4 of this title.

41302. Notwithstanding Section 41301, there shall be expended for purposes of making the allowances prescribed by Section 56360 in the 1975-76 fiscal year, the following amounts:

(a) Nine million dollars (\$9,000,000), or so much thereof as may be

necessary, to be derived from funds which would otherwise be expended under subdivision (c) of Section 41301.

(b) Five million dollars (\$5,000,000), or so much thereof as may be necessary, to be derived from funds which would otherwise be expended under subdivision (g) of Section 41301.

(c) Ten million dollars (\$10,000,000) from funds appropriated therefor by the Legislature.

(d) In the event federal aid is provided to increase the amount in subdivision (c) by replacing or augmenting the state funds, the amounts which are to be provided pursuant to subdivisions (a) and (b) shall be increased proportionately so that a greater number of individuals with exceptional needs may be included in the alternate plan to better meet the educational requirements of these individuals.

(e) All state funds authorized to establish or maintain programs authorized under Chapter 2 (commencing with Section 56300) of Part 30 of Division 4 of this title shall, for the 1976-77 and 1977-78 fiscal years, be included as a separate item in the Budget Act for each such fiscal year and no state funds other than those so appropriated shall be expended for such programs.

41303. The Superintendent of Public Instruction shall report to the Controller, on or before the 25th day of September of each year, the total average daily attendance during the preceding fiscal year credited to all kindergarten, elementary, high school, community college and adult schools in the state and to county school tuition funds.

41304. (a) There is appropriated annually from the Driver Training Penalty Assessment Fund to the General Fund in the State Treasury and from the General Fund to the department a sum as necessary to establish and maintain a unit for driver instruction within the Department of Education as set forth in Section 41904.

(b) In addition, subject to the provisions of Section 41305, there shall be provided from the General Fund to the State School Fund in each fiscal year such sum as the Superintendent of Public Instruction shall certify as necessary to reimburse school districts, county superintendents of schools, the California Youth Authority and the State Department of Education for the actual cost of instructing pupils in the operation of motor vehicles.

The amount shall not exceed sixty dollars (\$60) per pupil instructed in the laboratory phase of driver education in accordance with the rules and regulations of the State Board of Education.

(c) Subject to the provisions of Section 41305, there shall also be provided the sum the Superintendent of Public Instruction shall certify as necessary to reimburse school districts, county superintendents of schools, the California Youth Authority and the State Department of Education for the actual cost of replacing vehicles and simulators used exclusively in the laboratory phase of driver education programs, but the amount shall not exceed three-fourths of that part of the actual cost of instructing pupils in the

laboratory phase of driver education during the preceding fiscal year which was: (1) in excess of sixty dollars (\$60) per pupil instructed, and (2) expended by the district, the county superintendent of schools, the California Youth Authority and the State Department of Education in replacing such vehicles and simulators. Reimbursement for vehicles shall be computed for only that portion of the total mileage used exclusively in the laboratory phase of driver education programs.

(d) For purposes of computing reimbursement, whenever a school district, a county superintendent of schools, the California Youth Authority, or the State Department of Education replaces a driver training vehicle or simulator purchased by the district with a vehicle or simulator that is a gift or loan, the purchase price of such new or acquired equipment shall be deemed to be the market value of the vehicle or simulator acquired through a gift or loan.

A simulator is any device approved by the Department of Education to be used in classrooms for purposes of laboratory instruction under simulated driving conditions.

41305. The amounts provided under Section 41304 for any fiscal year shall not exceed an amount equal to the sum of the moneys credited to the Driver Training Penalty Assessment Fund in the State Treasury during the preceding fiscal year and the amount by which the deposits in the Driver Training Penalty Assessment Fund on or after September 15, 1961, have exceeded the amounts required to reimburse the General Fund on account of transfers made after such date.

41306. The Superintendent of Public Instruction shall also allow as otherwise provided in Section 41304 for the driver training instruction necessary to be safely tested for a driver's license at the Department of Motor Vehicles, those physically handicapped pupils, mentally retarded pupils who come within the provisions of Section 56501, and educationally handicapped pupils who are in attendance in a public secondary school in California which offers such qualified instruction, and who may qualify for a driver's license, or other license, issued by the California Department of Motor Vehicles, a total allowance not to exceed two hundred dollars (\$200) including the reimbursement provisions set forth in Section 41900 to each school district and county superintendent of schools. All driver training for pupils herein described must be provided by qualified teachers, as defined by Sections 41906 and 41907. The provisions of this section may not be applied if reimbursement allowable under Sections 41900 to 41912, inclusive, is sufficient to meet the total cost of instruction as herein described.

It is the intent of the Legislature that driver training instruction be provided pupils as a part of the high school curriculum, and the Legislature finds and declares that exceptional children are entitled to the benefit of such instruction so far as their individual capabilities permit, understanding that those pupils herein described often require individualized and amplified driver training instruction in

order to succeed in becoming safe operators of motor vehicles. Since without a means of self-transportation much of the overall program of education and rehabilitation provided for by the Legislature would be of little avail to the person without the mobility required to become a productive and well-adjusted member of society, the Legislature further declares that it is incumbent upon the state to share in the cost of providing a most needed and desirable program of driver training instruction for these exceptional children.

41307. In addition there shall be provided such amount as the Superintendent of Public Instruction shall certify as necessary to provide the allowances to school districts during each fiscal year under the provisions of Sections 41932 to 41936, inclusive. Such amount is hereby appropriated from the Investment Fund in the State Treasury and shall be transferred therefrom to the State School Fund by the State Controller each fiscal year.

41308. Each pregnant pupil enrolled in any program for physically handicapped pupils maintained by a county superintendent of schools, whose only condition for being enrolled in such a program is her pregnancy, shall be allowed to enroll in automobile driver training provided by the school district of residence; however, the school district shall receive, for the driver training instruction of the pupil, only the driver training allowances authorized by Section 41900 and shall not receive, for the driver training instruction of the pupil, driver training allowances authorized by Section 41306.

41309. To provide for the operation of newly organized school districts, moneys in the School District Organization Revolving Fund in the State Treasury shall be utilized for purposes of making loans to newly organized school districts pursuant to Article 4 (commencing with Section 41360) of Chapter 3 of Part 24 of Division 3 of this title of this chapter. The School District Organization Revolving Fund shall be comprised of five hundred thousand dollars (\$500,000) appropriated from the County School Service Fund Surplus Account, and an additional amount of one hundred thousand dollars (\$100,000) otherwise transferable from the General Fund to the State School Fund.

Notwithstanding any provision of Section 14002 to the contrary, the amount to be transferred from the General Fund to the State School Fund in the 1967-1968 fiscal year pursuant to subdivision (b) of Section 14002 shall be reduced by one hundred thousand dollars (\$100,000), and such amount shall be paid into the School District Organization Revolving Fund.

41310. A governing board of a school district which determines during a fiscal year that its revenues are less than the amount necessary to meet its current year expenditure obligations may request an emergency apportionment through the Superintendent of Public Instruction subject to the requirements and repayment provisions of Article 2 (commencing with Section 41320) of this chapter.

It is not the intent of the Legislature that this section authorize emergency loans to school districts for the purpose of meeting cash flow requirements pending the receipt of local taxes and other funds.

It is further the intent of the Legislature that no such emergency apportionments occur unless funds have been specifically appropriated therefor by the Legislature.

41311. There is hereby created in the State Treasury the State Child Nutrition Fund which is continuously appropriated to the Department of Education without regard to fiscal years to carry out the purposes of Article 10 (commencing with Section 49530) of Chapter 9 of Part 27 of Division 4 of this title and of Article 3.5 (commencing with Section 41350) of this chapter.

The State Child Nutrition Fund shall be administered by the State Department of Education under policies established by the State Board of Education. It is the intent of the Legislature that the fund shall provide permanent financial assistance to eligible school districts, county superintendents of schools, local agencies, private schools, parochial schools, and child development programs, for implementing the school meal program. The fund shall be used to reimburse the cafeteria account of school districts, county superintendents of schools, local agencies, private schools, parochial schools, and child development programs, based upon the number of qualifying meals served to students.

41312. (a) To the State Child Nutrition Fund: (1) there is hereby appropriated from the General Fund the sum of not to exceed nine million five hundred thousand dollars (\$9,500,000) for fiscal year 1975-76; (2) there is hereby reappropriated the unexpended balance of the appropriation made by Item 319 of the Budget Act of 1975, for fiscal year 1975-76; and (3) for each fiscal year after fiscal year 1975-76, from the General Fund, the amount recommended to be necessary therefor by the Superintendent of Public Instruction and established pursuant to the Budget Act each year, for allocation and disbursement pursuant to Article 3.5 (commencing with Section 41350) of this chapter, except Section 41353.

(b) There is hereby appropriated for each fiscal year from the General Fund to the State Child Nutrition Fund the sum of not to exceed two and one-half percent (2½%) of the sum appropriated for each fiscal year pursuant to subdivision (a), for expenditure pursuant to Section 41353.

## Article 2. Emergency Apportionments

41320. Before any apportionment is made pursuant to the provisions of Section 41310, the following requirements shall be met:

(a) The district requesting the apportionment shall submit to the county superintendent of schools having jurisdiction over the district a report prepared by an independent auditor approved by the county superintendent of schools on the financial and budgetary conditions of the district, a written management review conducted

by a qualified management consultant approved by the county superintendent of schools, and a plan adopted by the governing board to resolve the financial problems of the district.

(b) The county superintendent of schools shall review the independent auditor's report, the management review, and the district plan.

(c) The county superintendent of schools shall submit to the Superintendent of Public Instruction, the Joint Legislative Audit Committee, the Joint Legislative Budget Committee, and the Director of Finance a copy of the reports and plan specified in subdivision (a).

(d) The Superintendent of Public Instruction shall review the reports submitted to him by the county superintendent of schools and shall certify to the Director of Finance that the action taken to correct the financial problems of the district is realistic and will result in placing the district on a sound financial basis.

(e) The Legislature shall have specifically appropriated sufficient funds to make the apportionment. The act making such appropriation shall contain a schedule of repayments made pursuant to this article.

41321. The governing board of a district requesting apportionment shall, in its annual budget for the year succeeding the year in which it requests apportionment, expressly indicate the utilization of the plan to resolve its financial problems. If such plan extends beyond the next succeeding year, then subsequent budgets for years to which the plan is applicable shall similarly indicate such utilization.

41322. No more than 18 months after the disbursement of funds to the district, the county superintendent of schools shall make a followup review on the action taken and shall submit a report to the Superintendent of Public Instruction and the Director of Finance of the results of the action taken to correct the financial problems of the district.

41323. The emergency apportionment shall be repaid to the state over a three-year period, or less, together with interest at a rate equal to the rate established for the most recent sale of state bonds as of the date of the disbursement of funds to the district.

41324. The Superintendent of Public Instruction shall withhold from the apportionments to be made to the district from the State School Fund in each year an amount equal to the amount which becomes due in the year.

### Article 3. Disbursements by Superintendent of Public Instruction

41330. The Superintendent of Public Instruction shall on or before July 15th of each year certify to the Controller the amounts estimated to be apportioned to each effective school district during the current fiscal year on the basis of the report of the districts for

the second principal apportionment of the preceding fiscal year, the amounts estimated to be apportioned to each county school tuition fund and to each county school service fund for schools and classes to be maintained by the county superintendent of schools during the current fiscal year on the basis of reports provided by the county superintendent of schools, and the amounts estimated by the Superintendent of Public Instruction to be apportioned to the county school service fund during the current fiscal year under subdivisions (a) and (b) of Section 14054. This apportionment shall be called the advance apportionment.

41331. If, due to changes in federal legislation, the entitlement under Public Law 874 of the 81st Congress for the 1972-1973 fiscal year has been reduced substantially in a district, the district superintendent may petition the Superintendent of Public Instruction for an advance of funds from the General Fund during such fiscal year of a part of the first principal apportionment to such district for the 1973-1974 fiscal year, which advance shall not exceed the amount of the computed reduction. There is hereby appropriated from the General Fund sufficient funds as needed to make the advance of funds as authorized pursuant to this section.

If, upon review of a request, the Director of Finance and the Superintendent of Public Instruction deem it necessary to provide an advance of funds, they shall certify to the Controller the amount of the advance to be allowed, and the Controller shall transfer such amount to the school district, to be repaid by reducing the first principal apportionment to be made to the district during the 1973-1974 fiscal year or alternatively, at the option of the district with the approval of the Director of Finance and the Superintendent of Public Instruction, by the withholding of equal amounts from the first principal apportionments to be made to the district during the 1973-1974, 1974-1975, and 1975-1976 fiscal years. The total amount withheld shall equal the amount of the advance, plus interest, if repayment is not made during the 1973-1974 fiscal year, at a rate to be determined by the Director of Finance.

41332. The Superintendent of Public Instruction shall on or before February 20th of each year apportion to each elementary school district, high school district, community college district, county school service fund, and county school tuition fund the total amounts allowed to them under Sections 14054, 14057, 14058, 41790, 41800, 41810, 41811, 41840, 41841, 41863, 41866, 41882, 41884, 41885, 41886, 41888, 41950, 41970, 41971, and 52205, whichever are in effect. This apportionment shall be called the first principal apportionment.

41333. For purposes of determining the eligibility of a school for the "necessary small school" foundation program, if by November 10th of any current fiscal year, an additional teacher or teachers are hired in elementary schools or high schools such teachers shall be deemed to have been hired as of the beginning of the school year, and the districts shall, if otherwise eligible, be entitled to the appropriate small school foundation programs for purposes of

computation of the principal apportionments.

41334. The Superintendent of Public Instruction shall on or before December 10th of each year apportion:

(a) To each elementary, high school, and county school service fund the total of amounts allowed to them under Sections 41850 to 41862, inclusive, and Sections 41930 to 41936, inclusive, and

(b) To each school district maintaining a high school or high schools, each county superintendent of schools, the California Youth Authority and the State Department of Education the total of amounts allowed to them under Sections 41900 to 41912, inclusive.

This apportionment shall be called the special purpose apportionment.

41335. The Superintendent of Public Instruction shall on or before June 25th of each year apportion to each elementary school district, high school district, county school service fund, and county school tuition fund the total amounts allowed to them under Sections 14054, 14057, 14058, 41790, 41800, 41810, 41811, 41840, 41841, 41863, 41866, 41882, 41884, 41885, 41886, 41888, 41950, 41970, 41971, and 52205, whichever are in effect. This apportionment shall be called the second principal apportionment.

41336. The Superintendent of Public Instruction shall on or before June 25th of each year apportion to each school district or fund the total of the amounts allowed to the district or fund under Section 41972. This apportionment shall be called the final apportionment.

41337. The Superintendent of Public Instruction shall apportion at such times as needed the amounts allowed pursuant to Section 14055.

41338. The Superintendent of Public Instruction shall withhold from the apportionment to an elementary school district, as a part of the first principal apportionment and second principal apportionment, the amount allowed the elementary school district for the average daily attendance in grades 7 and 8 in a junior high school by reason of the operation of subdivisions (a) and (b) of Section 41600. The amount withheld shall be determined by multiplying the total amount of basic state aid and state equalization aid computed for the district by the foundation program for units of average daily attendance in grades 7 and 8 and dividing the product by the total foundation program of the district.

The Superintendent of Public Instruction shall add the amount withheld to the apportionment required to be made to the high school district maintaining the junior high school.

41339. The Superintendent of Public Instruction shall certify each apportionment made by him under Sections 41332 to 41340, inclusive, whichever are in effect, to the State Controller.

41340. The Superintendent of Public Instruction shall furnish an abstract of each apportionment of the State School Fund to the State Controller, the Department of Finance and to the county and city and county auditors, county and city and county treasurers, and to

the county superintendents of schools of the several counties of the state.

41341. If during any fiscal year there is apportioned to a school district or to any fund from the State School Fund at least one hundred dollars (\$100) more or at least one hundred dollars (\$100) less than the amount to which the district or fund was entitled, the Superintendent of Public Instruction, in accordance with regulations that he is herewith authorized to adopt not later than the third succeeding fiscal year shall withhold from, or add to, the apportionment made during such fiscal year, the amount of such excess or deficiency, as the case may be. Notwithstanding, any other provision of this code to the contrary, excesses withheld or deficiencies added by the Superintendent of Public Instruction under this section shall be added to or allowed from any portion of the State School Fund except that portion reserved as allowances for basic state aid.

41342. When any judgment has been rendered which requires the apportionment from the State School Fund to any school district, to any other agency, or to any fund for any fiscal year of more than the amount actually apportioned thereto during such fiscal year, the difference shall be apportioned to the district, agency, or fund by the Superintendent of Public Instruction from the State School Fund during the fiscal year following that in which the judgment becomes final before any other apportionment from the State School fund is made. Upon the becoming final of any judgment which requires the apportionment from the State School Fund to any school district, to any other agency, or to any fund for any fiscal year of less than the amount actually apportioned thereto during any fiscal year, the difference shall be deducted from the apportionment made to such district, agency, or fund by the Superintendent of Public Instruction from the State School Fund during the fiscal year following that in which the judgment becomes final.

41343. Wherever the attendance of pupils is not included in the computation of the average daily attendance of a school district for any fiscal year because the certification document of the person employed by the district to instruct such pupils was not in force during the period of such attendance, the governing board of the district may, upon payment of the salary of such person pursuant to Section 45036, or similar provisions of law, report such attendance to the Superintendent of Public Instruction during the fiscal year in which such salary is paid. Such report shall be made in such form as shall be prescribed and furnished by the Superintendent of Public Instruction. Thereafter the Superintendent of Public Instruction shall add to the apportionment from the State School Fund to the district during the next succeeding fiscal year or years, as determined by him but not exceeding three, the additional amount to which the district would have been entitled in the fiscal year next succeeding that in which such attendance was not included in the computation of the average daily attendance of the district if such amount is at

least one hundred dollars (\$100) or more.

Any such additional amount shall be apportioned from the State School Fund before any other apportionment from such fund is made and shall be allowed from any portion of such fund except that portion reserved as allowances for basic state aid.

### Article 3.5. Child Nutrition Allowances

41350. The Superintendent of Public Instruction shall make allowances from the State Child Nutrition Fund as follows:

(a) Reimbursement of child nutrition entities, as defined by Section 49530.5, for all eligible meals, pursuant to Section 49536.

(b) Reimbursement of school districts for the difference between the current fiscal year average statewide lunch or breakfast cost for all free and reduced-price meals required by Section 49550 as determined by the Superintendent of Public Instruction and the combined total income per meal derived from pupil charges, federal funds, and state funds as provided in Article 11 (commencing with Section 49550) of Chapter 9 of Part 27 of Division 4 of this title, except that this amount shall be reduced by the district contribution, computed pursuant to Section 41351.

(c) Reimbursement of county superintendents of schools for the difference between the current fiscal year average statewide lunch or breakfast cost for all free and reduced-price meals as determined by the Superintendent of Public Instruction and the combined total income per meal derived from pupil charges, federal funds, and state funds as provided in Article 11 (commencing with Section 49550) of Chapter 9 of Part 27 of Division 4 of this title.

The combined state and federal reimbursements shall not exceed the current fiscal year average statewide lunch or breakfast cost. If the combined pupil charges, state reimbursements, and federal reimbursements exceed the current average statewide lunch or breakfast costs, the federal funds shall be expended prior to the expenditure of any state funds.

41351. The Superintendent of Public Instruction shall compute for each school district an amount, to be known as the district contribution, which would be produced if a tax of five cents (\$0.05) was levied on each one hundred dollars (\$100) of 100 percent of the assessed valuation in such district as shown by the last equalized assessment roll of the district for the current year and the resulting sum was divided by the number of free and reduced-price lunches or breakfasts served by the district to needy pupils during the current fiscal year.

41352. The Department of Education shall make allowances from the State Child Nutrition Fund three times during each fiscal year. By September 15, the department shall calculate the amount apportioned to eligible recipients under this fund for the prior year and distribute 50 percent of this amount. By February 15, the Department of Education shall estimate the amount the recipient

will receive during the current fiscal year, calculate 80 percent of this amount, subtract the amount previously paid under this article, and distribute this amount to the school district. By August 15, the Department of Education shall calculate and distribute the amount that should be apportioned under this article.

41353. From funds appropriated to the State Child Nutrition Fund by subdivision (b) of Section 41312, the Superintendent of Public Instruction shall make the following expenditures:

(a) Not to exceed 20 percent, for state administrative expenses.

(b) Not to exceed 80 percent, for distribution to child nutrition entities, as defined by Section 49530.5, which maintain nutrition education programs on a project approval basis pursuant to subdivision (b) of Section 49534 and for expenditure by the Department of Education; provided, however, that of such 80 percent not more than 5 percent thereof shall be used by the department for the development, implementation, supervision, and evaluation of nutrition education programs.

#### Article 4. Loans and Advances

41360. Loans may be made from moneys in the Public School District Organization Revolving Fund to newly organized elementary, high school, or unified school districts upon application of the governing board of any such district, certified by the county superintendent of schools and approved by the Superintendent of Public Instruction for use by the district during the period from the date the action to form the district was completed and the date the district becomes effective for all purposes. Money loaned to a district pursuant to this section shall be used only to meet (a) the expenses of office rental, office supplies, postage, telephone, and telegraphing; (b) the expenses of necessary elections required by law or authorized by Section 4062; and (c) the expenses of employing, the salary of, and necessary travel expenses of officers and necessary clerical help for the governing board.

During each of the two successive fiscal years commencing with the first fiscal year of the existence of the school district for all purposes, the State Controller shall deduct from apportionments made to such school district an amount equal to one-half of the amount loaned to such school district under this section and pay the same amount into the Public School District Organization Revolving Fund in the State Treasury.

#### Article 5. Conditions for Use of Apportionments

41370. The governing board of each school district shall, except as may otherwise be specifically provided by law, use all money apportioned to the district from the State School Fund during any fiscal year exclusively for the support of the school or schools of the district for that year.

41371. If at the end of any fiscal year during which the schools of a school district have been maintained for the period required or permitted by law, there is standing to the credit of the district an unexpended balance of money received from the State School Fund, it may be expended for the payment of claims against the district outstanding, or it may be expended during the succeeding fiscal year.

41372. For purposes of this section:

(a) "Salaries of classroom teachers" and "teacher" shall have the same meanings as prescribed by Section 41011 provided, however, that the cost of all health and welfare benefits provided to the teachers by the school district shall be included within the meaning of salaries of classroom teachers.

(b) "Current expense of education" means expenditures for certificated salaries other than certificated salaries for pupil transportation, food services, and community services; classified salaries other than classified salaries for pupil transportation, food services, and community services; employee benefits other than employee benefits for pupil transportation personnel, food services personnel, and community services personnel; books, supplies, and equipment replacement other than for pupil transportation and food services; and community services, contracted services, and other operating expenses other than for pupil transportation, food services, and community services. "Current expense of education," for purposes of this section shall not include expenditures classified as sites, buildings, books, and media and new equipment (object of expenditure 6000 of the California School Accounting Manual) or expenditures for facility acquisition and construction.

There shall be expended during each fiscal year for payment of salaries of classroom teachers:

(a) By an elementary school district, sixty percent (60%) of the district's current expense of education.

(b) By a high school district, fifty percent (50%) of the district's current expense of education.

(c) By a unified school district, fifty-five percent (55%) of the district's current expense of education.

If the Superintendent of Public Instruction determines that a school district has not expended the applicable percentage of current expense of education for the payment of salaries of classroom teachers during the preceding fiscal year, he shall, in apportionments made to the school district from the State School Fund after April 15 of the current fiscal year, designate an amount of such apportionment or apportionments equal to the apparent deficiency in district expenditures. Any amount so designated by the Superintendent of Public Instruction shall be deposited in the county treasury to the credit of the school district, but shall be unavailable for expenditure by the district pending the determination to be made by the Superintendent of Public Instruction on any application for exemption which may be submitted to the Superintendent of Public Instruction. In the event it appears to the governing board of

a school district that the application of the preceding paragraphs of this section during a fiscal year results in serious hardship to the district, or in the payment of salaries of classroom teachers in excess of the salaries of classroom teachers paid by other districts of comparable type and functioning under comparable conditions, the board may, with the written approval of the county superintendent of schools having jurisdiction over the district apply to the Superintendent of Public Instruction in writing not later than September 15th of the succeeding fiscal year for exemption from the requirements of the preceding paragraphs of this section for the fiscal year on account of which the application is made. Upon receipt of such application, duly approved, the Superintendent of Public Instruction shall grant the district exemption for any amount that is less than one thousand dollars (\$1,000), and if the amount is one thousand dollars (\$1,000), or greater may grant the district exemption, to the extent deemed necessary by him, from such requirements for the fiscal year on account of which the application is made. If such exemption is granted the designated moneys shall be immediately available for expenditure by the school district governing board. If no application for exemption is made or exemption is denied, the Superintendent of Public Instruction shall order the designated amount or amount not exempted to be added to the amounts to be expended for salaries of classroom teachers during the next fiscal year.

The Superintendent of Public Instruction shall enforce the requirements prescribed by this section, and may adopt necessary rules and regulations to that end. He may require the submission to him, during the school year, by school district governing boards and county superintendents of schools, of such reports and information as may be necessary to carry out the provisions of this section.

41373. The Superintendent of Public Instruction shall, no later than the 10th calendar day of each general session of the Legislature, submit to the Legislature a written report on the operation, effect, and the extent of compliance with the provisions of Section 41372 by school districts in the state during the two most recently ended fiscal years. The report shall describe the activities of the Superintendent of Public Instruction, the Department of Education, and the several county superintendents of schools undertaken to insure compliance with the provisions of Section 41372, and may contain recommendations for legislation pertaining to that subject.

41374. Notwithstanding any other provision of law to the contrary, Section 41372 shall not apply to any elementary school district, high school district, or unified school district, which maintains no individual class session with pupils in attendance exceeding the numbers, for the particular grade levels, following:

- (a) An elementary school district—twenty-eight (28) pupils.
- (b) A high school district—twenty-five (25) pupils.
- (c) A unified school district—twenty-eight (28) pupils in respect to grades kindergarten through 8, inclusive; and twenty-five (25)

pupils in respect to grades 9 through 12, inclusive.

As used in this section the phrase "individual class session" shall not include any class session held in grades kindergarten through 8, inclusive, in courses in art, instrumental and vocal music, industrial arts, and physical education. The phrase shall not include any class session held in grades 9 through 12, inclusive, in courses in commercial arts, instrumental and vocal music, industrial arts, vocational arts, and physical education. The phrase "individual class session" shall not include any class session held in grades 9 through 12, inclusive, for which two or more individual class groups which come within the descriptions specified by the first paragraph of this section and subdivision (a) or (b), or both, are assembled together in the same room for joint lectures or demonstrations.

Notwithstanding the provisions of subdivisions (b) and (c), grades 7, 8, and 9 of a junior high school shall be deemed to be high school grades for purposes of this section.

The governing board of each school district shall, subject to the rules and regulations of the Superintendent of Public Instruction and in the manner and form he shall prescribe, certify to that officer on or before December 31 of each year, information concerning its individual class sessions and the numbers of pupils in attendance thereon, as of the last day of the second school month of the same year which certification shall constitute the basis for the applicability of the provisions of this section to the school district.

41375. It is the intent and purpose of the Legislature to encourage, by every means possible, the reduction of class sizes and the ratio of pupils to teachers in all grade levels in the public schools, and to urge every effort to this end to be undertaken by the local school administrative authorities. The Legislature shall undertake studies directed to the establishment of effective programs by which the attainment of decreased class sizes through local action may be encouraged. Such programs may involve financial rewards for demonstrated achievement, as well as other forms of preferential consideration afforded as an integral part of the state's public school financial support programs.

41376. The Superintendent of Public Instruction, in computing apportionments and allowances from the State School Fund for the second principal apportionment, shall determine the following for the regular day classes of the elementary schools maintained by each school district:

(a) For grades 1 to 3, inclusive, he shall determine the number of classes, the number of pupils enrolled in each class, the total enrollment in all such classes, the average number of pupils enrolled per class, and the total of the numbers of pupils which are in excess of thirty (30) in each class.

For those districts which do not have any classes with an enrollment in excess of 32 and whose average size for all the classes is 30.0 or less, there shall be no excess declared. For those districts which have one or more classes in excess of an enrollment of 32 or

whose average size for all the classes is more than 30, the excess shall be the total of the number of pupils which are in excess of 30 in each class having an enrollment of more than 30.

(b) For grades 4 to 8, inclusive, he shall determine the total number of pupils enrolled, the number of full-time equivalent classroom teachers, and the average number of pupils per each full-time equivalent classroom teacher. He shall also determine the excess if any, of pupils enrolled in such grades in the following manner:

(1) Determine the number of pupils by which the average number of pupils per each full-time equivalent classroom teacher for the current fiscal year exceeds the greater of the average number of pupils per each full-time equivalent classroom teacher in all the appropriate districts of the state, as determined by the Superintendent of Public Instruction, for October 30, 1964, or the average number of pupils per each full-time equivalent classroom teacher which existed in the district on either October 30, 1964 or March 30, 1964, as selected by the governing board.

(2) Multiply the number determined in (1) above by the number of full-time equivalent classroom teachers of the current fiscal year.

(3) Reduce the number determined in (2) above by the remainder which results from dividing such number by the average number of pupils per each full-time equivalent teacher for October 30, 1964, as determined by the Superintendent of Public Instruction in (1) above.

(c) He shall compute the product obtained by multiplying the excess number of pupils, if any, under the provisions of subdivision (a) of this section by ninety-seven hundredths (0.97), and shall multiply the product so obtained by the ratio of statewide change in average daily attendance to district change in average daily attendance. Change in average daily attendance shall be determined by dividing average daily attendance in grades 1, 2 and 3 reported for purposes of the first principal apportionment of the current year by that reported for purposes of the first principal apportionment of the preceding year.

(d) If the school district reports that it has maintained, during the current fiscal year, any classes in which there were enrolled pupils in excess of thirty (30) per class pursuant to subdivision (a) of this section, and there is no excess number of pupils computed pursuant to subdivision (b) of this section, he shall decrease the average daily attendance reported under the provisions of Section 41601 by the product determined under subdivision (c) of this section.

(e) If the school district reports that it has maintained, during the current fiscal year, no classes in which there were enrolled pupils in excess of thirty (30) per class determined pursuant to subdivision (a) of this section, and there is an excess number of pupils computed pursuant to subdivision (b) of this section, he shall make the following computation:

He shall compute the product obtained by multiplying the excess

number of pupils computed pursuant to subdivision (b) of this section by ninety-seven hundredths (0.97) and shall multiply the product so obtained by the ratio of statewide change in average daily attendance to the district change in average daily attendance. He shall decrease the average daily attendance reported under the provisions of Section 41601 by the resulting product.

(f) If the school district reports that it has maintained, during the current fiscal year, any classes in which there were enrolled pupils in excess of thirty (30) per class determined pursuant to subdivision (a) of this section, and there is an excess number of pupils computed pursuant to subdivision (b) of this section, he shall make the following computation:

He shall add to the product determined under subdivision (c) of this section, the product determined under subdivision (e) of this section and decrease the average daily attendance reported under the provisions of Section 41601 by this total amount.

The governing board of each school district maintaining elementary schools shall report for the fiscal year 1964-65 and each year thereafter the information required for the determination to be made by the Superintendent of Public Instruction under the provisions of this section in accordance with instructions provided on forms furnished and prescribed by the Superintendent of Public Instruction. Such information shall be reported by the school district together with, and at the same time as, the reports required to be filed for the second principal apportionment of the State School Fund. The forms on which the data and information is reported shall include a certification by each school district superintendent or chief administrative officer that the data is correct and accurate for the period covered, according to his best information and belief.

For purposes of this section, a "full-time equivalent classroom teacher" means an employee of an elementary, high school, or unified school district, employed in a position requiring certification qualifications and whose duties require him to teach pupils in the elementary schools of that district in regular day classes for the full time for which he is employed during the regular schoolday. In reporting the total number of full-time equivalent classroom teachers, there shall be included, in addition to those employees defined above, the full-time equivalent of all fractional time for which employees in positions requiring certification qualifications are required to devote to teaching pupils in the elementary schools of the district in regular day classes during the regular schoolday.

For purposes of this section, the number of pupils enrolled in each class means the average of the active enrollment in that class on the last teaching day of each school month which ends prior to April 15th of each school year.

The provisions of this section are not applicable to school districts with less than 101 units of average daily attendance for the current fiscal year.

Although no decreases in average daily attendance shall be made

for the fiscal year 1964–65, reports are required to be filed under the provisions of this section, and the Superintendent of Public Instruction shall notify each school district the amount of the decrease in state allowances which would have been effected had such decrease in average daily attendance been applied.

The Superintendent of Public Instruction shall adopt rules and regulations which he may deem necessary for the effective administration of this section. Such rules and regulations may specify that no decrease in average daily attendance reported under the provisions of Section 41601 shall be made for a school district on account of large classes due to instructional television or team teaching, which may necessarily involve class sizes at periods during the day larger than the standard set forth in this section.

41377. During the 1970–1971 fiscal year and the six subsequent fiscal years thereafter, the governing board of a unified school district may apply to the Superintendent of Public Instruction for exemption from the penalty provisions of Section 41376 in order that a pilot program of team instruction in reading or mathematics, or both, may be conducted only in such elementary schools within the district as may be approved by the Superintendent of Public Instruction. The pilot program shall be conducted in such a manner that, insofar as practicable, one certificated employee and necessary instructional aides remain with the same students from kindergarten through grade 6 for instruction in reading or mathematics, or both.

The Superintendent of Public Instruction may grant the exemption pursuant to this section on a yearly basis, but not beyond the 1976–1977 fiscal year, and only after approval by the Superintendent of Public Instruction of justification documents presented by the district relating to the pilot program.

School districts operating programs under this section shall submit annual evaluations to the Superintendent of Public Instruction as to the academic progress of students enrolled in such programs. The evaluations shall be based on a comparison of pilot program students to a statistically valid control group using pretest and posttest scores as a measurement of achievement.

The State Board of Education shall annually review the pilot program.

41378. The Superintendent of Public Instruction, in computing apportionments and allowances from the State School Fund for the second principal apportionment, shall determine the following for the kindergarten classes maintained by each school district maintaining kindergarten classes.

(a) The number of pupils enrolled in each kindergarten class, the total enrollment in all such classes, and the average number of pupils enrolled per class.

(b) The total number of pupils which are in excess of thirty-three (33) in each class having an enrollment of more than thirty-three (33).

(c) The total number of pupils by which the average class size in

the district exceeds 31.

(d) The greater number of pupils as determined in (b) or (c) above.

(e) He shall compute the product obtained by multiplying the excess number of pupils computed pursuant to subdivision (d) of this section by ninety-seven hundredths (0.97). He shall decrease the average daily attendance reported under the provisions of Section 41601 by the resulting product.

41379. The governing board of a school district may make application to the Superintendent of Public Instruction requesting a waiver of the provisions of Section 41378 whenever the provisions of that section would cause extreme hardship to the district. The Superintendent of Public Instruction may grant such waiver whenever he has determined that the applications of the provisions of Section 41378 would unduly burden the district with expense, or would require a pupil to be exposed to hazards or require undue time in reaching the class which he is assigned to attend.

If the waiver is granted by the Superintendent of Public Instruction, no credit for attendance shall be granted for pupils in a kindergarten class that are in excess of 33, or for pupils in enrollment that make the average kindergarten classes in the district exceed 31 in enrollment, whichever is the larger.

41380. (Repealed by Stats. 1976, Ch. 1011.)

[ORIGINAL SECTION]

41380 The provisions of Section 45342, of subdivision (a) of Section 45347, and of Sections 41378 and 41379 are not applicable to an experimental kindergarten program conducted by one school district in three schools which has been approved by the Superintendent of Public Instruction, provided that the schools and school district have conducted an experimental kindergarten program during the summer session of 1968 and the spring and fall semesters of 1969. The governing board of the school district conducting such program shall submit an evaluation of program results to the Superintendent of Public Instruction no later than December 1st of each year. The Superintendent of Public Instruction shall submit a yearly report to the Legislature evaluating the results of such program no later than the fifth calendar day of each regular session.

This section shall remain in effect until January 1, 1976, and shall have no force or effect after that date.

41380. The provisions of Section 45342 of subdivision (a) of Section 45347, and of Sections 41378 and 41379 are not applicable to an experimental kindergarten program conducted by one school district in three schools which has been approved by the Superintendent of Public Instruction, provided that the schools and school district have conducted an experimental kindergarten program during the summer session of 1968 and the spring and fall semesters of 1969. The governing board of the school district conducting such program shall submit an evaluation of program results to the Superintendent of Public Instruction no later than December 1st of each year. The Superintendent of Public Instruction shall forward such report to the Legislature no later than January 10 of each year.

Such evaluation report shall include an assessment of the

effectiveness of the program in terms of academic and readiness skills, social development, and the personal maturity of the pupils. The report shall show the relative progress of the pupils in the program compared to similar pupils in comparable schools which do not have such a program.

The school district operating such program shall provide in its report to the superintendent a comprehensive evaluation of the experimental kindergarten program's impact on student academic achievement. Pre- and post-testing of basic skills for student participants and a separate control group shall be conducted at the beginning and end of each school year. The evaluation report shall identify the variables which may have affected student academic achievement. The evaluation objective shall be to determine if the experimental organization pattern has a measurable impact on student academic achievement.

This section shall remain in effect until August 31, 1980, and as of that date is repealed.

41381. The State Board of Education may waive the minimum schoolday requirements of Section 46112 to enable school districts to establish experimental educational programs in reading and mathematics. A waiver shall be granted pursuant to this section only if:

(a) The State Board of Education has approved the experimental program.

(b) The total weekly minutes of instruction in the experimental program are equivalent to the total number of minutes per week which would be required by Section 46112.

Participating school districts shall conduct pretesting and posttesting of pupils enrolled in such experimental educational programs to determine the academic achievement of such pupils. Such tests shall be approved by the State Board of Education. Participating school districts shall also conduct control testing programs of pupils not enrolled in such experimental educational programs. Pupils in the control group shall be selected to be, as nearly as practicable, comparable in ability and socioeconomic background to pupils enrolled in the experimental programs.

41382. The principal of any elementary school maintaining kindergarten classes or regular day classes in grades 1 to 3, inclusive, may recommend to the governing board of the school district, or the governing board may adopt a resolution determining, that an exemption should be granted from any of the provisions of Section 41376, 41378, or 41379 with respect to such classes on the basis that such provisions prevent the school and school district from developing more effective educational programs to improve instruction in reading and mathematics for pupils in the specified classes. Upon approval of such recommendation, or the adoption of such resolution, the governing board shall make application to the State Board of Education on behalf of the school for an exemption for such classes from the specified provisions. The State Board of

Education shall grant the application if it finds that the specified provisions of Section 41376, 41378, or 41379 prevent the school from developing more effective educational programs to improve instruction in reading and mathematics for pupils in the specified classes and shall, upon granting the application, exempt the school district from the penalty provision of such sections.

#### Article 6. Teaching and Nonteaching Certificated Employee Ratios

41400. It is the intent and purpose of the Legislature to improve public education in California by maximizing the allocation of existing resources, to discourage the growth of bureaucracy in the public schools, and to emphasize the importance and significance of the classroom teacher.

41401. For the purposes of this article, a "teacher" and an "administrative employee" shall have the same meaning as specified in Section 33150.

41402. For the purposes of this article, the maximum ratios of administrative employees to each 100 teachers in the various types of school districts shall be as follows:

- (a) In elementary school districts—9.
- (b) In unified school districts—8.
- (c) In high school districts—7.

41403. The Superintendent of Public Instruction shall, for each current fiscal year, determine for each school district in the state, to two decimal points, the following:

(a) The total number of administrative employees, except those serving in positions which are completely supported by categorical grants from any source and are in programs which require specific teacher administrator ratios, or which are completely supported by federal funds.

(b) The total number of teachers except those serving in positions which are completely supported by federal funds or by categorical grants from any source and are in programs which require specific teacher administrator ratios.

(c) The total maximum number of administrative employees which should be employed by the district based upon the application of the appropriate ratio prescribed by Section 41402 to the number of teachers determined pursuant to subdivision (b).

(d) The number of administrative employees in excess of the number allowable without penalty as determined by subtracting the number determined pursuant to subdivision (c) from the number determined pursuant to subdivision (a).

The number of employees reported pursuant to subdivisions (a), (b), (c), and (d) shall include the full-time equivalent of all fractional time of such employees.

41404. The Superintendent of Public Instruction shall determine that portion of the average salaries paid administrative employees of

a district attributable to state support as follows:

(a) He shall compute the ratio which total state support to the district general fund bears to the total general fund income of the district.

(b) He shall multiply the ratio determined pursuant to subdivision (a) by the average salary of administrative employees.

(c) He shall multiply the product of subdivision (b) by the number of administrative employees converted to the nearest whole number in excess of the maximum number specified in Section 41402.

The Superintendent of Public Instruction shall certify to the Controller the amounts computed pursuant to this section. The Controller shall reduce the amount of the second principal apportionment made to the district for the current fiscal year pursuant to Section 41335 by the product so produced, provided that, no such reduction shall reduce the final apportionment below the amount specified in Section 6 of Article IX of the California Constitution.

41404.5. Upon application of a school district governing board, the Superintendent of Public Instruction may grant a waiver from the provisions of Section 41402 when he has made a determination that, due to unusual circumstances existing in the district, the applicable ratios of teaching to nonteaching personnel of the district as prescribed therein do not best serve the educational needs of the pupils of the district and that failure to grant the waiver would result in extreme hardship to the district. Such waiver shall be limited to not more than three administrative positions.

The Superintendent of Public Instruction shall submit a report to the Legislature by January 5 of each year of the number of waivers and the reasons for granting such waivers pursuant to this section.

This section shall remain in effect only until July 1, 1977, and as of that date is repealed.

41405. For the purposes of this article the Superintendent of Public Instruction shall require the submission, by school districts, of such reports at such times and in such form as he may deem necessary for the effective performance of his responsibilities.

41406. Amounts allowable from the State School Fund but not transferred thereto because of the operation of Section 41404 and the provisions of subdivision (b) of Section 14002, shall be held in the General Fund and shall be expended for public school purposes pursuant to appropriations thereof enacted by the Legislature.

#### Article 7. Conditions Disqualifying School Districts from Apportionments

41420. No school district, other than one newly formed, shall, except as otherwise provided in this article, receive any apportionment from the State School Fund unless it has maintained the regular day schools of the district for at least 175 days during the

next preceding fiscal year.

41421. A school district is a newly formed district up to the close of the fiscal year in which its formation became effective for all purposes.

41422. A district which is prevented from maintaining its schools during a fiscal year for at least 175 days because of fire, flood, or epidemic, or because of any order of any military officer of the United States or of the state to meet an emergency created by war, or of any civil officer of the United States, of the state, or of any county, city and county, or city authorized to issue such order to meet an emergency created by war, or because of other extraordinary conditions, or because of inability to secure or hold a teacher, or because of the illness of the teacher, which fact shall be shown to the satisfaction of the Superintendent of Public Instruction by the affidavits of the members of the governing board of the school district and of the county superintendent of schools, shall receive the same apportionment from the State School Fund as it would have received had it not been so prevented from maintaining school for at least 175 days.

41423. No money shall be apportioned to a district for the excess cost of educating pupils in a 24-hour elementary school of the district unless such school has met the requirements of the Superintendent of Public Instruction based upon educational standards and standards established by state agencies authorized by law to inspect or supervise child-caring institutions.

#### CHAPTER 4. STATE SCHOOL FUND—COMPUTATION OF ALLOWANCE

##### Article 1. General Provisions

41600. For the purposes of computing allowances and apportionments from the State School Fund for the advance apportionment, first principal apportionment, and second principal apportionment on the basis of average daily attendance:

(a) Each elementary school district shall be deemed to comprise the kindergartens and grades 1 to 8, inclusive, maintained by the district, and the seventh and eighth grades of the district not maintained by the district because of the attendance upon a junior high school of pupils who would otherwise attend upon seventh and eighth grades maintained by the district.

(b) Each high school district shall be deemed to comprise all of grades 9 to 12, inclusive, maintained within the high school district whether maintained by a high school district.

(c) Each unified school district shall be deemed to be an elementary school district comprising the kindergartens and grades 1 to 8, inclusive, maintained by the district and the seventh and eighth grades of the district not maintained by the district in elementary schools because of the attendance upon a junior high

school of pupils who would otherwise attend the seventh and eighth grades maintained in elementary schools by the district, and a high school district comprising all of grades 9 to 12, inclusive.

41601. For the purposes of this chapter, the governing board of each school district shall report to the Superintendent of Public Instruction during each fiscal year the average daily attendance of the district for all full school months during (1) the period between July 1st and December 31st, inclusive, to be known as the "first period" report for the first principal apportionment, and (2) the period between July 1st and April 15th, inclusive, to be known as the "second period" report for the second principal apportionment. The county superintendent of schools shall report the average daily attendance for the schools and classes maintained by him and the average daily attendance for the county school tuition fund. If the average daily attendance in the regular day schools of a district for the period of time between July 1 and June 30 is greater or lesser than the average daily attendance in the regular day schools reported for the second period report, the appropriate increases and decreases in the several categories of attendance for which separate foundation programs are required to be computed shall be recomputed on the basis of the foundation program and assessed valuation of the district of the fiscal year in which such increases and decreases in average daily attendance were applicable and the appropriate increases and decreases in apportionments shall be added or withheld in the next succeeding fiscal year pursuant to Section 41341.

Each report shall be prepared in accordance with instructions on forms prescribed and furnished by the Superintendent of Public Instruction and average daily attendance shall be computed in the following manner:

(a) The average daily attendance in the regular elementary, junior high, and high schools maintained by the school districts shall be determined by dividing the total number of days of attendance allowed in all full school months in each period, by the number of days such schools are actually taught in all full school months in each period, exclusive of Saturdays or Sundays.

If the average daily attendance in schools and classes maintained by school districts other than regular day schools and classes for the period of time between July 1 and June 30 is greater or lesser than the average daily attendance in such schools and classes reported for the second period report, the separate state support which is provided for attendance in such schools and classes shall be recomputed on the basis of the fiscal year average daily attendance, and increases and decreases in apportionments shall be added or withheld in the next succeeding fiscal year pursuant to Section 41341.

(b) The average daily attendance in summer school and outdoor science and conservation education classes maintained during the period between the last day the regular day schools are in session during the preceding year and the first day the regular day schools are in session during the current year shall be reported on both the

first period and second period reports. Such average daily attendance shall be computed by dividing the days of attendance allowed by 175.

(c) The attendance for schools and classes maintained by the county superintendent of schools and for the county school tuition fund credited after the last full school month of the second period of the preceding year and prior to the end of each reporting period shall be reported on each report. The average daily attendance of the school, class, or fund shall be determined for the first period by dividing the days of attendance allowed by 100 and for the second period, the days of attendance allowed shall be divided by 175.

(d) The days of attendance in classes for adults continuation schools and classes, regional occupation centers and opportunity schools and classes maintained after the last full school month of the second period of the preceding year and prior to the end of each reporting period shall be reported on each report. The average daily attendance in such schools and classes shall be determined for the first period by dividing the days of attendance allowed by 100; for the second period, the days of attendance allowed shall be divided by 175 for kindergarten and grades 1 to 12, inclusive.

41602. The governing board of a school district affected by fluctuations in enrollments and attendance levels to a degree which will, in all likelihood, result in an actual total of average daily attendance for the fiscal year in excess of that shown in the second period report for the second principal apportionment provided for in Section 41601, may, with the approval of the Superintendent of Public Instruction, submit, in lieu of such second period report, a report of the estimated total average daily attendance for the fiscal year. The report shall be in the form prescribed by the Superintendent of Public Instruction, and shall be utilized for purposes of the second principal apportionment. If the average daily attendance in the regular day schools of a district for the period of time between July 1 and June 30 exceeds the estimated total average daily attendance reported under this section, the appropriate increases and decreases in the several categories of attendance for which separate foundation programs are required to be computed shall be brought forward to the corresponding categories of the second period report for the next succeeding fiscal year. In the event the estimated total average daily attendance reported under this section exceeds the actual average daily attendance for the fiscal year, the Superintendent of Public Instruction shall withhold, pursuant to Section 41341, from apportionments made during the succeeding fiscal year, the amount of the excess moneys which may have been apportioned as a result thereof.

41603. The amounts computed as allowable to any school district for state equalization aid shall be reduced by fifty percent (50%) of miscellaneous funds, as defined in Section 41604. In no event shall the reduction exceed the total amount allowable as equalization aid to the school district for the fiscal year. For such purposes,

miscellaneous funds, as defined in Section 41604, received by a unified school district, shall be allocated to the kindergarten and elementary, and high school grades, respectively, on the basis of the proportion of the district's total average daily attendance in each such grade level, and the provisions of Section 41600 shall be applicable.

Should the amount of miscellaneous funds, as defined in Section 41604, actually received by a school district for any fiscal year be more or less than that reported to the Superintendent of Public Instruction, the Superintendent of Public Instruction shall during the fiscal year next succeeding withhold from or add to the apportionment made to the district from the State School Fund the amount of the excess or deficiency in the apportionment of state equalization aid from the State School Fund for the preceding year, if the amount of the excess or deficiency in such apportionment was one hundred dollars (\$100) or more.

41604. "Miscellaneous funds" as used in Section 41603 means the amount the county superintendent of schools has determined and reported to the Superintendent of Public Instruction in accordance with regulations the Superintendent of Public Instruction are hereby authorized to adopt that the district has received and which has been deposited to the credit of the general fund of the district for a fiscal year on account of in-lieu taxes or income from bonuses, royalties, rentals or any other income from district property or property within the district or state not being assessed for tax purposes and not being used for school purposes. Federal forest reserve funds received by a district shall not be considered miscellaneous funds as defined by this section.

41605. If any computation made under, or necessitated by, Sections 41330 to 41343, inclusive, and Sections 41600 to 41972, inclusive and Sections 46300 to 46305 inclusive, results in an amount which is:

(a) Less than one dollar (\$1), the amount shall be counted as one dollar (\$1).

(b) More than one dollar (\$1) and includes a fraction of one-half dollar (\$0.50) or more, the fraction shall be counted as one dollar (\$1).

(c) More than one dollar (\$1) and includes a fraction of less than one-half dollar (\$0.50), the fraction shall not be counted.

41606. The term "elementary school district" as used in Section 41050, Sections 41330 to 41343, inclusive, and Sections 41600 to 41972, inclusive, Sections 46304 and 46305, whichever are in effect, means, unless expressly provided otherwise, each elementary school district which is composed of a single elementary school district and each union elementary school district, joint union elementary school district, or unified school district; and does not include any elementary school district included within a union elementary school district or a joint union elementary school district or a unified school district.

41607. For the purposes of computation of allowances and apportionments from the State School Fund, under effective sections of this code, each elementary school district as defined by Section 41606, and each high school district merged or otherwise included within a unified school district shall be deemed a separate and independent district, but all apportionments from the State School Fund on account of any district merged or otherwise included within a unified school district shall be made to the unified school district and shall be available for expenditure by the unified school district for all schools and classes of the district.

41608. For the purposes of computation of allowances and apportionments from the State School Fund, whenever computations of apportionments based on average daily attendance are made for high school districts only the attendance in all classes of grades 9 to 12, inclusive, and in all types of ungraded classes, including classes for adults, which have been reported as attached to, or as a part of, a school which maintains any of grades 9 to 12, inclusive, shall be included.

## CHAPTER 5. FOUNDATION PROGRAM

### Article 1. Computation for School Districts

41700. The Superintendent of Public Instruction shall compute for each elementary, and high school, district the appropriate amount of a foundation program of school support therefor, in the manner prescribed by this article, using the dollar amounts contained in the various sections of this article which apply.

41701. For each elementary school district which maintains only one school with an average daily attendance of less than 101, he shall make one of the following computations, whichever provides the lesser amount:

(1) For each small school which has an average daily attendance during the fiscal year of less than 26, exclusive of pupils attending the seventh and eighth grades of a junior high school, and for which school at least one teacher was hired full time, he shall compute for the district eighteen thousand eight hundred seventy-five dollars (\$18,875).

(2) For each small school which has an average daily attendance during the fiscal year of 26 or more and less than 51, exclusive of pupils attending the seventh and eighth grades of a junior high school, and for which school at least two teachers were hired full time for more than one-half of the days schools were maintained, he shall compute for the district thirty-seven thousand seven hundred fifty dollars (\$37,750).

(3) For each small school which has an average daily attendance during the fiscal year of 51 or more but less than 76, exclusive of pupils attending the seventh and eighth grades of a junior high school, and for which school three teachers were hired full time for

more than one-half of the days schools were maintained, he shall compute for the district fifty-six thousand six hundred twenty-five dollars (\$56,625).

(4) For each small school which has an average daily attendance during the fiscal year of 76 or more and less than 101, exclusive of pupils attending the seventh and eighth grades of a junior high school, and for which school four teachers were hired full time for more than one-half of the days schools were maintained, he shall compute for the district seventy-five thousand five hundred dollars (\$75,500).

41702. For the purposes of Section 41703 a "necessary small school" is an elementary school with an average daily attendance of less than 101, exclusive of pupils attending the seventh and eighth grades of a junior high school, during the current fiscal year maintained by an elementary school district which maintains two or more schools and to which school any of the following conditions apply:

(a) If as many as five pupils residing in the district and attending grades kindergarten to 8, inclusive, exclusive of pupils attending the seventh and eighth grades of a junior high school in the elementary school with an average daily attendance of less than 101 would be required to travel more than 10 miles one way from a point on a well-traveled road nearest their home to the nearest other public elementary school.

(b) If as many as 15 pupils residing in the district and attending grades kindergarten to 8, inclusive, exclusive of pupils attending the seventh and eighth grades of a junior high school in the elementary school with an average daily attendance of less than 101 would be required to travel more than five miles one way from a point on a well-traveled road nearest their home to the nearest other public elementary school.

(c) If topographical or other conditions exist in a district which would impose unusual hardships if the number of miles specified in (a) or (b) were required to be traveled or if during the fiscal year the roads which would be traveled have been impassable for more than an average of two weeks per year for the preceding five years, the governing board of the district may, on or before April 1st, request the Superintendent of Public Instruction, in writing, for an exemption from such requirements or for a reduction in the miles required. The request shall be accompanied by a statement of the conditions upon which such request is based, giving such information in such form as the Superintendent of Public Instruction may require. The Superintendent of Public Instruction shall cause an investigation to be made, and he shall either grant such request to the extent deemed necessary by him or deny the request.

41703. (a) For each district on account of each necessary small school (giving regard to the number of teachers actually employed or average daily attendance), he shall make one of the following computations, whichever provides the lesser amount:

(1) For each necessary small school which has an average daily attendance during the fiscal year of less than 26, exclusive of pupils attending the seventh and eighth grades of a junior high school, and for which school at least one teacher was hired full time, he shall compute for the district eighteen thousand eight hundred seventy-five dollars (\$18,875).

(2) For each necessary small school which has an average daily attendance during the fiscal year of 26 or more and less than 51, exclusive of pupils attending the seventh and eighth grades of a junior high school, and for which school at least two teachers were hired full time for more than one-half of the days schools were maintained, he shall compute for the district thirty-seven thousand seven hundred fifty dollars (\$37,750).

(3) For each necessary small school which has an average daily attendance during the fiscal year of 51 or more but less than 76, exclusive of pupils attending the seventh and eighth grades of a junior high school, and for which school three teachers were hired full time for more than one-half of the days schools were maintained, he shall compute for the district fifty-six thousand six hundred twenty-five dollars (\$56,625).

(4) For each necessary small school which has an average daily attendance during the fiscal year of 76 or more and less than 101, exclusive of pupils attending the seventh and eighth grades of a junior high school, and for which school four teachers were hired full time for more than one-half of the days schools were maintained, he shall compute for the district seventy-five thousand five hundred dollars (\$75,500).

(b) For each district on account of each small school not determined to be a necessary small school under Section 17655 he shall make one of the following computations, whichever applies:

(1) If the total of the units of average daily attendance of the district during the fiscal year, exclusive of pupils attending the seventh and eighth grades of a junior high school, is less than 901, he shall multiply the units of average daily attendance in the school by seven hundred fifty-five dollars (\$755).

(2) If the total of the units of average daily attendance in the district during the fiscal year, exclusive of pupils attending the seventh and eighth grades of a junior high school, is 901 or more, he shall multiply the units of average daily attendance by seven hundred sixty-five dollars (\$765).

41704. For each elementary school district which, exclusive of pupils attending the seventh and eighth grades of a junior high school, has an average daily attendance of 101 or more but less than 901 during the fiscal year, he shall compute an amount determined by multiplying the total average daily attendance, exclusive of pupils attending the seventh and eighth grades of a junior high school and pupils for whom a foundation program is computed under Section 41703, by seven hundred fifty-five dollars (\$755).

For each elementary school district which, exclusive of pupils

attending the seventh and eighth grades of a junior high school, has an average daily attendance of 901 or more during the fiscal year, he shall compute an amount determined by multiplying the total average daily attendance, exclusive of pupils attending the seventh and eighth grades of a junior high school, and pupils for whom a foundation program is computed under Section 41703, by seven hundred sixty-five dollars (\$765).

41705. For each elementary school district with an average daily attendance, exclusive of pupils attending the seventh and eighth grades of a junior high school, of less than 901 during the fiscal year, on account of the attendance during the fiscal year of pupils in the seventh and eighth grades of a junior high school which attendance is credited to the elementary school district pursuant to Sections 46333 and 37072, he shall multiply the average daily attendance in such grades by seven hundred fifty-five dollars (\$755).

For each elementary school district with an average daily attendance, exclusive of pupils attending the seventh and eighth grades of a junior high school, of 901 or more during the fiscal year, on account of the attendance during the fiscal year of pupils in the seventh and eighth grades of a junior high school which attendance is credited to the elementary school district pursuant to Sections 46333 and 37072, he shall multiply the average daily attendance in such grades by seven hundred sixty-five dollars (\$765).

41706. The foundation program for each elementary school district shall be the total of the amounts computed for the district pursuant to Sections 41703, 41704, and 41705.

41707. A necessary small high school for the purposes of Section 41711, is a high school with an average daily attendance of less than 301, or a junior high school with an average daily attendance of less than 75 in grade nine, which comes within any of the following conditions (except that a single high school maintained by a unified district formed under the provisions of Sections 4200 to 35782, inclusive, or formed under Section 35503, or a high school maintained by any district for the exclusive purpose of educating continuation, juvenile hall, physically handicapped, or mentally retarded pupils shall be considered a necessary small high school):

(a) The projection of its future enrollment on the basis of the enrollment of the elementary schools in the district shows that within eight years the enrollment in high school in grades 9 through 12 will exceed 300 pupils.

(b) Any one of the following combinations of distance and units of average daily attendance applies:

(1) The high school had an average daily attendance of less than 100 in grades 9 through 12 during the preceding fiscal year and is more than 15 miles by well-traveled road from the nearest other public high school and either 90 percent of the pupils would be required to travel 20 miles or 25 percent of the pupils would be required to travel 30 miles one way from a point on a well-traveled road nearest their homes to the nearest other public high school.

(2) The high school had an average daily attendance of 100 or more and less than 150 in grades 9 through 12 during the preceding fiscal year and is more than 10 miles by well-traveled road from the nearest other public high school and either 90 percent of the pupils would be required to travel 18 miles or 25 percent of the pupils would be required to travel 25 miles one way from a point on a well-traveled road nearest their homes to the nearest other public high school.

(3) The high school had an average daily attendance of 150 or more and less than 200 in grades 9 through 12 during the preceding fiscal year and is more than 7½ miles by well-traveled road from the nearest other public high school and either 90 percent of the pupils would be required to travel 15 miles or 25 percent of the pupils would be required to travel 20 miles one way from a point on a well-traveled road nearest their homes to the nearest other public high school.

(4) The high school had an average daily attendance of 200 or more and less than 300 in grades 9 through 12 during the preceding fiscal year and is more than five miles by well-traveled road from the nearest other public high school and either 90 percent of the pupils would be required to travel 10 miles or 25 percent of the pupils would be required to travel 15 miles to the nearest other public high school.

(c) Topographical or other conditions exist in the district which would impose unusual hardships on the pupils if the number of miles specified above were required to be traveled. In these cases, the Superintendent of Public Instruction may, when requested, and after investigation, grant exceptions from the distance requirements.

(d) The Superintendent of Public Instruction has approved the recommendation of a county committee on school district organization designating one of two or more schools as necessary isolated schools in a situation where the schools are operated by two or more districts and the average daily attendance of each of the schools is less than 300 in grades 9 through 12.

41708. If a high school is determined to be a necessary small high school under Section 41707, its status as such shall not be changed except as a review of the determinative factors made every five years following the date of the determination, indicates that the determination should be changed.

Any high school district not presently determined to be a necessary small high school district under Section 41707, may be determined to be such at the beginning of any fiscal year; provided, it comes within the provisions of Section 41707.

41709. On and after July 1, 1960, whenever the governing board of a district maintaining a small high school which does not come within the provisions of Section 41707, undertakes any building construction or alteration in respect to that school, of a type requiring the submission of plans to the Department of General Services, the school shall forthwith be classified as an unnecessary small school. Thereafter, the foundation program for the district in respect to that school shall be computed pursuant to Section 41712, notwithstanding an average daily attendance of less than 301.

Prior to the fiscal year a district undertakes any building construction or alteration in respect to a small high school, the foundation program for the district in respect to that school shall be computed pursuant to subdivision (a) of Section 41711, notwithstanding the provisions of Section 41707.

This section shall become operative on July 1, 1975.

41710. Section 41709 does not apply to a high school which meets both of the following criteria:

(a) It is a high school in a high school district which maintains six or more high schools; and,

(b) Since 1948, the attendance area of the high school has been included in three separate proposals for unification with an adjoining high school district and each proposal has been rejected by the electors of the territory involved.

41711. (a) For each district on account of each necessary small high school the Superintendent of Public Instruction shall make one of the following computations selected with regard only to the number of certificated employees employed or average daily attendance, whichever provides the lesser amount:

Average daily attendance	Minimum number of certificated employees	Amount to be computed
1- 20 .....	less than 3	\$16,520
		per teacher
1- 20 .....	3	83,760
21- 40 .....	4	100,280
41- 60 .....	5	116,800
61- 75 .....	6	133,320
76- 90 .....	7	149,840
91-105 .....	8	166,360
106-120 .....	9	182,880
121-135 .....	10	199,400
136-150 .....	11	215,920
151-180 .....	12	232,440
181-220 .....	13	248,960
221-260 .....	14	265,480
261-300 .....	15	282,000

(b) For each district on account of each small high school not determined to be a necessary small high school under Sections 41707, 41708, and 41709, he shall make one of the following computations, whichever applies:

(1) If the total of the units of average daily attendance in the district during the fiscal year is less than 301, he shall multiply the units of average daily attendance during the fiscal year in the school by nine hundred forty dollars (\$940).

(2) If the total of the units of average daily attendance in the district during the fiscal year is more than 300, he shall multiply the units of average daily attendance during the fiscal year in the school

by nine hundred fifty dollars (\$950).

For the purposes of this section a "certificated employee" is an equivalent full-time position of an individual holding a credential authorizing service, and performing service in grades 9 through 12 in any secondary school. Any fraction of an equivalent full-time position shall be deemed to be a full-time position.

The foundation program established by this section for high schools with an average daily attendance of less than 301 shall not apply to any high school established after July 1, 1961 unless the establishment of such schools has been approved by the Superintendent of Public Instruction.

41712. For each high school district which has an average daily attendance of 301 or more during the fiscal year, he shall multiply the average daily attendance by nine hundred fifty dollars (\$950).

41713. For a high school district which has an attendance credited pursuant to Section 46618, he shall multiply the average daily attendance by nine hundred fifty dollars (\$950).

41714. Each computation required by this article for any high school district shall be made after excluding from the average daily attendance for the fiscal year the average daily attendance of adults, as adults are defined in Section 52610, and the average daily attendance in classes for inmates of any state penal institution for adults or of any city, county, or city and county jail, road camp or farm for adults during the fiscal year.

41715. The Superintendent of Public Instruction may increase the various foundation programs in accordance with the specifications in the Budget Act in order to apportion amounts specifically appropriated in the Budget Act for cost increases due to inflation. Such increases shall be effective only during the fiscal year for which such appropriation is made.

In increasing the necessary small school foundation programs computed for elementary school districts with an average daily attendance of less than 101, high school districts with an average daily attendance of less than 301, he shall compute the increase as if it were for the maximum number of pupils allowed in the applicable necessary small school range in which the districts fall.

41716. Except for the areawide foundation programs the Superintendent of Public Instruction shall increase the various foundation programs for each school unit of average daily attendance by sixteen dollars (\$16) in the 1972-73 fiscal year and an additional four dollars (\$4) in each fiscal year thereafter to a maximum of forty dollars (\$40). The Superintendent of Public Instruction shall compute the increased foundation support pursuant to this section as though no areawide school support programs were in operation in the state. The Superintendent of Public Instruction may adjust the small school foundation programs at the elementary and high school levels in accordance with this increase in the regular foundation program.

In addition the Superintendent of Public Instruction shall in

making the computation prescribed in Sections 41761 and 41840 increase the computational tax in Sections 41761 and 41840 by:

(a) Four cents (\$0.04) in the 1972-73 fiscal year and an additional one cent (\$0.01) in each fiscal year thereafter to a maximum of ten cents (\$0.10) in an elementary school district.

(b) Two cents (\$0.02) in the 1972-73 fiscal year and an additional one-half cent (\$0.005) in each fiscal year thereafter to a maximum of five cents (\$0.05) in a high school district.

Further, the Superintendent of Public Instruction shall identify to each school district the amount of increased foundation support granted under this section which shall be used as a limitation on the taxes that may be levied and collected annually under the provisions of Section 23401.

(Amended by Stats 1976, Ch 1011 )

[ORIGINAL SECTION]

41716 Except for the areawide foundation programs the Superintendent of Public Instruction shall increase the various foundation programs for each school unit of average daily attendance by sixteen dollars (\$16) in the 1972-73 fiscal year and an additional four dollars (\$4) in each fiscal year thereafter to a maximum of forty dollars (\$40) The Superintendent of Public Instruction shall compute the increased foundation support pursuant to this section as though no areawide school support programs were in operation in the state The Superintendent of Public Instruction may adjust the small school foundation programs at the elementary and high school levels in accordance with this increase in the regular foundation program

In addition the Superintendent of Public Instruction shall in making the computation prescribed in Sections 41761 and 41840 increase the computational tax in Sections 41761 and 41840 by:

(a) Four cents (\$0.04) in the 1972-73 fiscal year and an additional one cent (\$0.01) in each fiscal year thereafter to a maximum of ten cents (\$0.10) in an elementary school district

(b) Two cents (\$0.02) in the 1972-73 fiscal year and an additional one-half cent (0.005) in each fiscal year thereafter to a maximum of five cents (\$0.05) in a high school district

Further, the Superintendent of Public Instruction shall identify to each school district the amount of increased foundation support granted under this section which shall be used as a limitation on the taxes that may be levied and collected annually under the provisions of Section 23401

41717. For the 1975-76 fiscal year and fiscal years thereafter, the Superintendent of Public Instruction shall make adjustments in the small school foundation program amounts specified in Section 41701, subdivision (a) of Section 41703, and subdivision (a) of Section 41711, proportionate to the corresponding foundation program changes for other schools.

41718. (a) For the 1975-76 fiscal year, each elementary and high school foundation program shall be increased by an amount up to ninety-one dollars (\$91) but not less than eighty-four dollars (\$84) as determined by the Superintendent of Public Instruction except that if the percentage increase of the statewide ratio of assessed valuation per unit of average daily attendance in kindergarten and grades 1 to 12, inclusive, determined in subdivision (e) of Section 14002 is less than seven, the amount shall be reduced proportionately, but to no less than seventy-four dollars (\$74).

(b) For the 1976-77 fiscal year, each elementary and high school foundation program shall be increased by sixty-six dollars (\$66) except that if the percentage increase of the statewide ratio of assessed valuation per unit of average daily attendance in kindergarten and grades 1 to 12, inclusive, determined in subdivision (e) of Section 14002 is less than seven, the sixty-six dollars (\$66) shall be reduced proportionately, but to no less than fifty-six dollars (\$56).

(c) For the 1977-78 fiscal year and fiscal years thereafter, and if the Legislature does not provide otherwise, the increase in elementary and high school foundation programs shall be 6 percent times an amount which is determined as follows: (1) multiply the unit elementary school foundation program for unified districts which have an elementary average daily attendance of 901 or more by the elementary foundation program units of average daily attendance of unified districts with 901 or more elementary average daily attendance, plus (2) multiply the unit high school foundation program for unified districts which have a high school average daily attendance of 301 or more, by the average daily attendance of unified school districts with 301 or more high school average daily attendance, and (3) divide the result by the sum of the average daily attendance in unified districts with 901 or more elementary average daily attendance plus the average daily attendance in unified districts with 301 or more high school average daily attendance.

## Article 2. Foundation Program for Efficiently Organized Districts

41730. For school districts which are eligible, commencing with the 1967-1968 fiscal year, under the standards prescribed by this article, the Superintendent of Public Instruction shall compute increases in the applicable foundation program or programs as follows:

(a) He shall increase the foundation program computed for a district under Sections 41703, 41704, and 41705 by twenty dollars (\$20) per pupil in average daily attendance.

(b) He shall increase the foundation program computed for a district under Sections 41711, 41712 and 41713 by twenty dollars (\$20) per pupil in average daily attendance, excluding the average daily attendance of adults, as adults are defined in Section 52610, and the average daily attendance in classes for inmates of any state penal institution for adults or of any city, county, or city and county jail, road camp or farm for adults during the fiscal year.

41731. The increase in foundation programs prescribed by this article shall be provided for each school district which, in organizational characteristics, meets all of the following standards during the fiscal year, as determined by the State Board of Education and certified to the Superintendent of Public Instruction:

(a) The district is unified, maintaining and supporting schools providing instruction in grades kindergarten or 1 through 12,

inclusive, or is an elementary school district or a high school district included as a part of a unified school district formed by approval of the electors at an election held between January 1st and June 30th of the preceding fiscal year.

(b) The unified school district has a total average daily attendance during the fiscal year in grades kindergarten or 1 through 12, inclusive, of no less than 2,000 as projected to June 30, 1968, pursuant to rules and regulations of the State Board of Education, excluding for such purposes the average daily attendance of adults as adults are defined in Section 52610, and the average daily attendance in special day and evening classes and summer schools.

41732. Notwithstanding the provisions of Section 41731, or any other other provision of law to the contrary, the increase in foundation programs prescribed by Section 41730 shall also be provided during a fiscal year for any school district which is an elementary school district or a high school district included on or before May 1 of such fiscal year in a unified school district formed by approval of the electors at an election held after June 30, 1966, provided that such unified school district meets the requirements of subdivision (b) of Section 41731.

If a unified district, which meets the requirements of subdivision (b) of Section 41731, is formed by approval of the electors at an election held on the date of the presidential or gubernatorial primary election, the increase in foundation programs prescribed by Section 41730 shall be provided for each included elementary and high school district as if the election were held on or before May 1, except that the Superintendent of Public Instruction shall allow such increases during the next fiscal year pursuant to the provisions of Section 41341, as a correction of the apportionments to the district for the preceding fiscal year.

41733. Irrespective of whether or not any or all of the standards prescribed by Section 41731 are complied with, the increased foundation programs prescribed by Section 41730 shall be provided for any school district which:

(a) Is organized to include all of the territory under the jurisdiction of the county superintendent of schools of a county for purposes of maintaining or otherwise providing for the maintenance of grades kindergarten or 1 through 12.

(b) Maintains any or all of grades kindergarten or 1 through 12, but with respect to which the State Board of Education determines, and certifies to the Superintendent of Public Instruction, that failure to meet the standards arises solely from sparsity of population and geographic isolation of a degree which renders compliance with the standards of Section 41731 unfeasible.

(c) Was a unified district in effect for all purposes on or before July 1, 1964.

41734. The increases in foundation programs prescribed by Section 41730 shall in no event be provided for any school district for any elementary school with an average daily attendance of less than

101 which does not qualify as a "necessary small school" under Section 41702, or any high school with an average daily attendance of less than 301 which does not qualify as a "necessary small high school" under Section 41707.

41735. The foundation program computed under Article 1 (commencing with Section 41700) of this chapter for any school district which is not otherwise eligible for the increase in foundation program prescribed by Section 41730 shall, nevertheless, be increased in the fiscal year by twenty dollars (\$20) for each unit of average daily attendance of the district, exclusive of the average daily attendance of adults, as adults are defined in Section 52610, and the average daily attendance in classes for inmates of any state institution for adults or of any city, county, or city and county jail, road camp, or farm for adults, for the fiscal year if:

(1) The Superintendent of Public Instruction determines that:

(a) The district was included within territory proposed for reorganization by a master plan or plans and recommendations developed under Chapter 2 (commencing with Section 4200) of Part 3 of Division 1 of Title 1 and Article 11 (commencing with Section 35780) and Article 12 (commencing with Section 35800) of Chapter 3 of Part 21 of Division 3 of this title which master plan or plans and recommendations complied with the standards prescribed by Section 41731 or Section 41733.

(b) The master plan or plans and recommendations were defeated at an election held within the territory involved after the effective date of this section and;

(c) A majority of the votes cast in the district at the most recent such election were cast in favor of the reorganization proposed;

or

(2) The Superintendent of Public Instruction finds that:

(a) The district is an elementary district lying within two or more high school districts;

(b) The total territory of the district, including each separate portion lying within two or more high school districts, was included within territory proposed for reorganization by one or more master plans or plans and recommendations developed under Chapter 2 (commencing with Section 4200) of Part 3 of Division 1 of Title 1 and Article 11 (commencing with Section 35780) and Article 12 (commencing with Section 35800) of Chapter 3 of Part 21 of Division 3 of this title for which each such master plan or plans and recommendations complied with the standards prescribed by Section 41731 or Section 41733;

(c) All of such master plans or plans and recommendations were voted upon at an election held within the territory involved during the preceding fiscal year;

(d) Regardless of the outcome of such election, the unified districts would have been effective for all purposes on the same date if all of such elections had been successful; and

(e) A majority of the votes cast in the district in all separate

proposals were cast in favor of the reorganization proposed; and (3) the election involved was held prior to July 1, 1972.

### Article 3. Areawide Elementary School and High School Foundation Programs

41750. For the purpose of apportionments during a fiscal year as specified in Section 41762, and fiscal years thereafter, the Superintendent of Public Instruction shall compute an areawide foundation program for all of the elementary school districts, and an areawide foundation program for all of the high school districts, included within a master plan formulated under Article 2 (commencing with Section 4240) of Chapter 2 of Part 3 of Division 1 of Title 1 or plans and recommendations formulated under Article 1 (commencing with Section 4200), Article 3 (commencing with Section 4280), Article 4 (commencing with Section 4290), Article 5 (commencing with Section 4310), Article 6 (commencing with Section 4320), Article 7 (commencing with Section 4360), and Article 8 (commencing with Section 4400) of Chapter 2 of Part 3 of Division 1 of Title 1 and Article 11 (commencing with Section 35780) and Article 12 (commencing with Section 35800) of Chapter 3 of Part 21 of Division 3 of this title, except such districts as are included in plans and recommendations meeting the requirements of Section 4200, for the formation of a unified district as an intermediate step to further unification which have been approved by the electors, which were disapproved at an election held within the territory involved on the question of whether such master plan or plans and recommendations should be put into effect. An areawide foundation program shall be computed for the elementary school districts only if there were two or more elementary school districts included within such master plan or plans and recommendations, and shall be computed for the high school districts only if there were two or more high school districts included within such master plans or plans and recommendations. The areawide foundation program in each instance shall be the total of the foundation programs computed under Article 1 (commencing with Section 41700) and Article 2 (commencing with Section 41730) of this chapter for elementary school districts and high school districts.

(Amended, as added by Stats 1976, Ch. 1010, by Stats. 1976, Ch. 1011.)

#### [ORIGINAL SECTION]

41750. For the purpose of apportionments during a fiscal year as specified in Section 41762, and fiscal years thereafter, the Superintendent of Public Instruction shall compute an areawide foundation program for all of the elementary school districts, and an areawide foundation program for all of the high school districts, included within a master plan formulated under Article 2 (commencing with Section 4240) of Chapter 2 of Part 3 of Division 1 of Title 1 or plans and recommendations formulated under Article 1 (commencing with Section 4200), Article 3 (commencing with Section 4280), Article 4 (commencing with Section 4290), Article 5 (commencing with Section 4310), Article 6 (commencing with Section 4320), Article 7 (commencing with Section 4360), and Article 8 (commencing with Section 4400) of Chapter 2 of Part 3 of Division 1 of Title 1 and Article 11 (commencing with Section 35780) and Article 12 (commencing with Section 35800) of Chapter 3 of Part 21 of Division 3 of this title,

except such districts as are included in plans and recommendations meeting the requirements of Section 4200, for the formation of a unified district as an intermediate step to further unification which have been approved by the electors, which were disapproved at an election held within the territory involved on the question of whether such master plan or plans and recommendations should be put into effect. An areawide foundation program shall be computed for the elementary school districts only if there were two or more elementary school districts included within such master plan or plans and recommendations, and shall be computed for the high school districts only if there were two or more high school districts included within such master plans and plans and recommendations. The areawide foundation program in each instance shall be the total of the foundation programs computed under Article 1 (commencing with Section 41700) and Article 2 (commencing with Section 41730) of this chapter for elementary school districts and high school districts.

41751. The provisions of this article shall not be applicable to the territory of any school district included in a unification proposal, pursuant to the provisions of Chapter 1246 of the Statutes of 1967, which was rejected by the electorate, and which has been restored to existence as a separate elementary school district or high school district, as the case may be, pursuant to the provisions of Chapter 1246 of the Statutes of 1967.

#### Article 4. Computation of District Aid and Areawide Aid

41760. On or before November 15th of each year, the county auditor of each county shall furnish to the Superintendent of Public Instruction the assessed valuation and tax rates of each school district or portion of school district situated within his county, as shown by the equalized assessment roll of the county for the year.

41761. The Superintendent of Public Instruction shall compute for each district described herein which does not come within the provisions of Section 41762 the amount, to be known as district aid, which a tax levied on each one hundred dollars (\$100) of 100 percent of the assessed valuation in such district as shown by the equalized assessment roll of the district for the current year, as modified pursuant to Section 41201, would produce if levied, if such tax was:

(a) Two dollars and twenty-three cents (\$2.23) in an elementary school district.

(b) One dollar and sixty-four cents (\$1.64) in a high school district.

41762. The Superintendent of Public Instruction shall compute the areawide aid to be utilized in determining state apportionments to be made for the support of elementary school districts and high school districts with respect to which an areawide foundation program is computed under Article 3 (commencing with Section 41750) of this chapter. Areawide aid shall be the amount which a tax levied on each one hundred dollars (\$100) of 100 percent of the assessed valuation for the current fiscal year, modified where necessary pursuant to Section 41201, of the area comprising all of such elementary school districts and all of such high school districts would produce, if levied, if such tax were: (a) in the case of the elementary school district area, one dollar (\$1); and (b) in the case of the high school district area, eighty cents (\$0.80).

If the Superintendent of Public Instruction finds that the difference obtained by subtracting the areawide aid as computed under the above provisions of this section from the areawide foundation program is less than the product obtained by multiplying the average daily attendance used for foundation program purposes by one hundred twenty-five dollars (\$125), he shall reduce the areawide aid to an amount which, when added to such product, will equal the amount of the areawide foundation program.

41763. For purposes of making the computations prescribed by Section 41762, the Superintendent of Public Instruction shall, where necessary, adjust the assessed valuation of the territory involved, in the same manner and on the same basis as is required for individual districts pursuant to Chapter 2 (commencing with Section 41200) of this part and Sections 41766, 41767, and 41768. Losses in state equalization aid and supplemental support arising from the operation of Chapter 2 (commencing with Section 41200) of this part, shall be provided for in the manner prescribed in Section 41203.

41764. The provisions of Sections 41762 and 41769 shall not be applicable to the territory of any school district included in a unification proposal, pursuant to the provisions of Chapter 1246 of the Statutes of 1967, which was rejected by the electorate, and which has been restored to existence as a separate elementary school district or high school district, as the case may be, pursuant to the provisions of Chapter 1246 of the Statutes of 1967.

41765. Effective July 1, 1974, any elementary school district located in a county of the 39th class shall be excluded from the application of the provisions of Sections 41750 and 41762 and Chapter 8 (commencing with Section 42400) of this part, and shall be deemed to be a single elementary district for purposes of school apportionments and school district property taxation, when all of the following qualifications are met.

(1) It is an elementary district which had an average daily attendance in 1972-73 between 250 and 400, inclusive.

(2) It is an elementary district which has been included in at least two proposals for the formation of a unified district, none of which have been adopted by the electorate of the area.

(3) It is an elementary district which, if treated as a single district for school apportionment purposes, would have been apportioned only basic state aid.

(4) It is an elementary district which, when included in an areawide tax support program for elementary schools, would have been allocated in areawide aid at least forty-five thousand dollars (\$45,000) less than the amount produced by the areawide tax in that district.

41766. (a) Upon the request of the district, the Superintendent of Public Instruction shall use in computing district aid the difference between: (1) the total assessed valuation of property in a district as shown on the equalized assessment roll for the fiscal year; and (2) the assessed valuation of property as shown on the equalized assessment

roll for the fiscal year, with respect to which revenues of the district taxes levied in the 1954-1955 fiscal year, or thereafter, are impounded, or could, if paid, be impounded, by the county auditor pursuant to Section 14240. The county auditor shall from time to time determine and certify to the Superintendent of Public Instruction the amounts of assessed valuation of property described in subpart (2) of the preceding sentence.

(b) Whenever, after July 1, 1955, the county auditor notifies the Superintendent of Public Instruction and the Controller of the release of impounded tax revenues to the school district, or of the receipt of tax revenues which would have been impounded if paid when due, the Superintendent of Public Instruction shall compute and certify to the Controller the amount to be deducted, and the Controller shall deduct, from the apportionment or apportionments from the State School Fund to the district, in the first fiscal year or the second fiscal year succeeding such notification of release or receipt, that amount apportioned to the district in any prior year or years by reason of the exclusion of assessed valuation with respect to tax revenues impounded and thereafter released, or with respect to tax revenues which would have been impounded, if paid when due, and which were subsequently paid, as the case may be, plus interest of 3½ percent compounded annually.

The provisions of this section shall not apply to impounded tax receipts derived from assessment of water, where the procedures of Section 41767 have been utilized.

41767. When the total tax revenues realized in respect to any school district from the levy of district taxes for any fiscal year are less than would have been realized from the total assessed value of property in the district because of allocations of tax receipts to a redevelopment agency pursuant to Article 6 (commencing at Section 33670) of Chapter 6 of Division 24 of the Health and Safety Code, the governing board of a school district may request the Superintendent of Public Instruction to compute district aid for the district under this section. Upon receipt of such a request, the Superintendent of Public Instruction shall, in computing district aid, reduce the amount of the total assessed valuation in the district as shown by the equalized assessment roll for the year by the amount of such assessed valuation upon which such tax receipts for such fiscal year are to be allocated to the redevelopment agency.

41768. (a) Upon request of a district, the Superintendent of Public Instruction shall use in computing district aid the total assessed valuation of property in a district as shown on the equalized assessment roll for the fiscal year, reduced by the portion thereof representing the total assessed valuation of water with respect to which revenues of the district taxes levied in the 1958-1959 fiscal year or thereafter are impounded by the county auditor pursuant to Section 26906.1 of the Government Code.

(b) Whenever, after July 1, 1959, the county auditor notifies the Superintendent of Public Instruction and the Controller of the

release of such impounded tax revenues to the school district, the Superintendent of Public Instruction shall compute and certify to the Controller the amount to be deducted, and the Controller shall deduct, from the apportionment or apportionments from the State School Fund to the district, in the first fiscal year or the second fiscal year succeeding such notification of release, that amount apportioned to the district in any prior year or years by reason of the exclusion under this section, of assessed valuation with respect to tax revenues impounded and thereafter released.

41769. The Superintendent of Public Instruction shall determine the individual areawide aid for each elementary district included within territory for which an areawide foundation program was computed pursuant to Article 3 (commencing with Section 41750) of this chapter, by: (1) dividing the total areawide aid derived by the elementary school districts in the territory under Section 41762, by (2) the areawide foundation program derived for the territory under Section 41750, and (3) multiplying the quotient by the foundation program computed for each district under Article 1 (commencing with Section 41700) and Article 2 (commencing with Section 41730) of this chapter.

He shall determine the individual areawide aid for each high school district included within territory for which an areawide foundation program was computed pursuant to Article 3 (commencing with Section 41750) of this chapter, by: (1) dividing the total areawide aid derived for the high school districts in the territory under Section 41762, by (2) the areawide foundation program derived for the territory under Section 41750, and (3) multiplying the quotient by the foundation program computed for each district under Article 1 (commencing with Section 41700) and Article 2 (commencing with Section 41730) of this chapter.

The district aid for an elementary school district within an area shall be the sum of the prorated areawide aid received by the district and the yield of one dollar and twenty-three cents (\$1.23) levied on each one hundred dollars (\$100) of 100 percent of the assessed valuation in such district modified pursuant to Section 41201. The district aid for a high school district within an area shall be the sum of the prorated areawide aid received by the district and the yield of eighty-four cents (\$0.84) levied on each one hundred dollars (\$100) of assessed valuation in such district modified pursuant to Section 41201.

41770. For the purpose of computing allowances and apportionments, other than severance aid, from the State School Fund for districts qualifying for severance aid as provided in Section 41960, the total assessed valuation in the district as shown by the equalized assessment roll shall be increased as follows: For the first year qualifying property is excluded from the assessment roll as exempt property, there shall be added to the total assessed valuation an amount equal to the assessed value of said qualifying property as used to compute the amount of severance aid. The next following

year there shall be added to the total assessed valuation four-fifths of the assessed value of qualifying property as used to compute the amount of severance aid; the second following year there shall be added three-fifths of said assessed value; the third following year there shall be added two-fifths of said assessed value, and the fourth following year there shall be added one-fifth of said assessed value.

In the event more than one allowance of severance aid is payable because qualifying property is acquired during more than one fiscal year, the increase in total assessed valuation required by this section shall be made separately as to qualifying property acquired in each such year.

“Qualifying property” for the purposes of this section means property acquired for state highway purposes which, by reason of its assessed value, either alone or in combination with other property, and the identity of the acquiring agency or agencies, qualifies the district to receive severance aid.

41771. Whenever the assessed valuation of motion pictures, including the negatives and prints thereof, is lowered because of the operation of Section 988 of the Revenue and Taxation Code and whenever any school district receives replacement funds from the state for the loss of revenue to a district occasioned by the operation of Section 988, the Superintendent of Public Instruction shall, in computing district aid, add the amount of assessed valuation which was the basis for the allocation of state replacement funds to the actual assessed value of the district before computing apportionments to the districts.

41772. Whenever, subsequent to the date of formulation of the last equalized assessment roll in a county, the county superintendent of schools finds that the assessment equalizations conducted under Part 3 (commencing with Section 1601) of Division 1 of the Revenue and Taxation Code have resulted in a substantial reduction or increase in the assessed valuation of property of a school district as compared to that reported pursuant to Section 17701, the county auditor shall notify and furnish to the Superintendent of Public Instruction, on or before the 15th of April in the fiscal year, the corrected assessed valuation of property within the district. The Superintendent of Public Instruction shall utilize the corrected valuation amounts for purposes of making all computations prescribed by this article for the district for this fiscal year. Upon receipt thereof, the Superintendent of Public Instruction shall make the necessary revisions in all computations affecting the district made under this article.

41773. The Superintendent of Public Instruction shall, in computing district aid, add the amount of assessed valuation which was the basis for the allocation of state replacement funds pursuant to Section 41052 to the actual assessed valuation of the district before computing apportionments to the district.

### Article 5. Basic State Aid for Elementary School Districts

41790. The Superintendent of Public Instruction shall allow one hundred twenty-five dollars (\$125) to each elementary school district for each unit of average daily attendance therein during the fiscal year as computed for the district under Sections 46117 and 46333, but not less than two thousand four hundred dollars (\$2,400) shall be allowed to any elementary school district, to be known as basic state aid.

### Article 6. Basic State Aid for High School Districts

41800. The Superintendent of Public Instruction shall allow to each high school district one hundred twenty-five dollars (\$125) for each unit of average daily attendance in the district during the fiscal year as computed under Sections 46332 and 46350, subject to the provisions of Section 41608, but not less than two thousand four hundred dollars (\$2,400) shall be allowed to any high school district, to be known as basic state aid.

The Superintendent of Public Instruction shall exclude from the computation of allowances provided by this section the average daily attendance during the fiscal year of adults, as adults are defined in Section 52610, and of inmates of any state penal institution for adults or of any city, county, or city and county jail, road camp or farm for adults.

### Article 7. Allowances for Equalization Aid

41810. The Superintendent of Public Instruction shall compare the total of the amounts allowed to, and computed for, each elementary district pursuant to Section 41790 and Section 41761 or Section 41769, whichever applies, with the amount of the foundation program of school support computed for each such district pursuant to Sections 41700 to 41750, inclusive.

If the total amount allowed to, and computed for, any elementary school district pursuant to Section 41790 and Section 41761 or Section 41769, whichever applies, is less than the amount of the foundation program of school support computed for such district pursuant to Sections 41700 to 41750, inclusive, he shall add to the amount computed for such district pursuant to Section 41790 and Section 41761 or Section 41769, whichever applies such additional amount, to be known as state equalization aid, as may be necessary to equal that computed for such district pursuant to Sections 41700 to 41750, inclusive.

41811. The Superintendent of Public Instruction shall compare the total of the amounts allowed to, and computed for, each high school district pursuant to Section 41761 or Section 41769, whichever applies, and Section 41800, with the amount of the foundation program of school support computed for each such district pursuant

to Sections 41700 to 41750, inclusive.

If the total amount allowed to, and computed for, any high school district pursuant to Section 41761 or Section 41769, whichever applies, and Section 41800, is less than the amount of the foundation program of school support computed for such district pursuant to Sections 41700 to 41750, inclusive, he shall add to the amount allowed to, and computed for such district pursuant to Section 41761 or Section 41769, whichever applies, and Section 41800, such additional amount, to be known as state equalization aid, as may be necessary to equal that computed for such district pursuant to Sections 41700 to 41750, inclusive.

41812. No state equalization aid shall be allowed unless there shall have been levied pursuant to this code, for a district during the fiscal year, a tax, exclusive of taxes levied under Sections 8329, 15250, 15742, 16090, 42200, and 56811 of not less than one dollar (\$1) if an elementary district, eighty cents (\$.80) if a high school district, and one dollar and eighty cents (\$1.80) if a unified district.

41813. No state equalization aid shall be allowed under Sections 41810, 41811, and 84770 to any district included within a unified school district unless there shall have been levied, pursuant to this code, for such unified school district during the fiscal year, exclusive of tax levied under Sections 15250, 15742, 16090, 42200, and 56811, a tax in not less than the amount determined by adding the rates of tax required to be levied under Section 41812, as may be applicable for each type of district included within the unified school district.

41814. The Superintendent of Public Instruction shall compute the state equalization aid pursuant to this article upon the basis that the district's assessed value has not been reduced by the partial exemption for business inventories in the district or reduced by the homeowner's property tax exemption.

#### Article 8. Adjustment of Allowances

41830. Notwithstanding the provisions of Articles 5, 6, and 7 (commencing with Sections 41790, 41800, and 41810, respectively) of this chapter, or any other provision of law to the contrary, if the computation made under Article 7 (commencing with Section 41810) of this chapter for any grade level maintained by a district, results in no allowance of equalization aid for such district for such grade level, the amount allowable therefor to such district under said Articles 5, 6, and 7 (commencing with Sections 41790, 41800, and 41810, respectively) of this chapter, per unit of the particular categories of average daily attendance used for such computations, shall be one hundred twenty-five dollars (\$125) per unit of such average daily attendance during the preceding fiscal year.

## Article 8.5. Summer School Adjustment

41835. The foundation program for each unit of average daily attendance during the 1976-77 fiscal year, and years thereafter, for pupils enrolled in summer schools shall be determined as follows:

(a) For elementary school pupils enrolled in summer schools the foundation program shall be 80 percent of the foundation program level provided by Article 1 (commencing with Section 41700), Article 2 (commencing with Section 41730), and Article 3 (commencing with Section 41750) of, this chapter, for elementary school average daily attendance.

(b) For high school pupils enrolled in summer schools, the foundation program shall be 80 percent of the foundation program level provided by Article 1 (commencing with Section 41700), Article 2 (commencing with Section 41730), and Article 3 (commencing with Section 41750) of, this chapter, for high school average daily attendance.

## Article 9. Computation—School Districts for Education of Adults and Inmates

41840. The allowance for each unit of average daily attendance for high school districts during the fiscal year for adults, as adults are defined in Section 52610, shall be four hundred thirteen dollars (\$413) less the product of fifty cents (\$.50) multiplied by each one hundred dollars (\$100) of the assessed valuation of the district, as modified pursuant to Section 41201, per unit of average daily attendance exclusive of adults.

For fiscal year 1975-76, the foundation program for adults, as defined in Section 52610, in high schools shall be increased by twenty-nine dollars (\$29). For fiscal year 1976-77, the foundation program for adults, as defined, in high schools shall be increased by thirty-one dollars (\$31). For each subsequent fiscal year, the foundation program for adults, as defined, in high schools for the previous fiscal year shall be increased by 6 percent.

The foundation programs provided by this section for each unit of average daily attendance of an adult, as an adult is defined in Section 52610 not residing in the district shall be limited to one hundred twenty-five dollars (\$125) as basic state aid and no allowance shall be made based on state equalization aid. The total of basic and equalization aid allowed each district shall not be less than one hundred twenty-five dollars (\$125) for each unit of average daily attendance during the fiscal year for resident adults, exclusive of average daily attendance in classes for inmates of any state institution for adults and for inmates of any city, county, or city and county jail, road camp or farm for adults; unless the inmate is attending a program pursuant to Section 2690 of the Penal Code, in which case such attendance shall be included.

## Article 10. Allowances for Transportation

41850. The Superintendent of Public Instruction shall not allow under this article, except under Section 41863, whichever is in effect, during any fiscal year a total amount in excess of the amount provided by law.

41851. The Superintendent of Public Instruction shall allow to each school district and county school service fund such amount as is required by this article.

41852. (a) "Transportation" as used in this article means, unless the context otherwise requires:

(1) The transportation of pupils between their homes and the regular full-time day schools attended by them as provided by a school district.

(2) The payment of moneys by a school district to parents or guardians of pupils in lieu of providing for the transportation of such pupils between their homes and the regular full-time day schools attended by them.

(3) The providing of board and lodging to pupils by a school district in lieu of providing for the transportation of such pupils between their homes and the regular full-time day schools attended by them.

(b) "Pupils" as used in this article does not include pupils for whom the Superintendent of Public Instruction determines excess costs under Section 56721.

(c) "Total current expenses of transportation" as used in Sections 41856, 41857, and 41859 does not include:

(1) Current expenses for the transportation of pupils for whose transportation the Superintendent of Public Instruction makes an allowance to the district under Section 41863 or whichever is in effect; or,

(2) Any amount of rental of schoolbuses which is in excess of the amount allowable to school districts for replacement of district-owned buses in accordance with regulations of the Superintendent of Public Instruction relating to allowances for pupil transportation. Renting or leasing a schoolbus does not include a lease with option to purchase.

41853. The Superintendent of Public Instruction shall make all allowances under this article during a fiscal year in accordance with regulations, not in conflict with this article, adopted by him, and he is hereby authorized and directed to adopt such regulations. None of such regulations shall be binding upon any school district, but no allowance shall be made under this article to a school district for any item of current expense or capital outlay with respect to which the school district has failed to comply with the regulations of the Superintendent of Public Instruction applicable to such item.

The regulations adopted by the Superintendent of Public Instruction hereunder shall, among other matters:

(a) Prescribe the records to be kept by, and reports to be made

by, school districts.

(b) Fix the minimum distances for the sole purpose of determining the total current expenses of a district for transportation.

(c) Determine what expenditures constitute "current expenses."

(d) Establish and prescribe formulae for the sole purpose of computing financial allowances under which schoolbuses may be acquired in accordance with the provisions of Section 41860.

(e) Provide for the review and approval of all expenditures upon which allowances are computed.

(f) Establish and prescribe formulae for the sole purpose of computing financial allowances for reimbursement of replacement expenses incurred by a school district replacing schoolbuses.

41854. For purposes of any regulation making the time or hours during a schoolday during which a schoolbus is operated, a factor in the computation of transportation allowances, the Superintendent of Public Instruction shall utilize no less than the period of time between the time when the schoolbus departs from the location in which it is customarily stationed when not in use, and the time when the schoolbus is returned there at the end of the day, excluding the time during which the schoolbus is not in use between trips during the day.

41855. Of the funds allocated for expenditure for transportation in each fiscal year, there shall be reserved the amount necessary to provide the allowances prescribed by this section, but not to exceed one and one-half percent (1.5%) of the amount designated in subdivision (b) of Section 41301.

The allowances prescribed by this section shall be provided in each fiscal year for any eligible school district upon application therefor submitted to the Superintendent of Public Instruction by the governing board of such district. Such allowance shall be provided only if the Superintendent of Public Instruction determines that the transportation expense of the district for the preceding fiscal year is substantially affected by sparsity of population in all or a portion of the district, such as to require that excessive distances be traveled to transport relatively few pupils to the regular day classes of the district.

The Superintendent of Public Instruction shall allow to each eligible district the amount computed as follows:

(a) He shall compute from the annual report of transportation expense of the district the portion of the total transportation expense which is due to travel for excessive distances to transport relatively few pupils.

(b) He shall compute from the annual report of transportation expense of the district, prior to the application of any deficit under Section 41865, the percentage of the approved transportation expense represented by the allowances to the district provided by the other provisions of this article, exclusive of any allowances provided by subdivision (a) of Section 41857 and Section 41860.

(c) He shall multiply the portion of the total transportation expense computed under subdivision (a) by the percentage computed under subdivision (b).

The Superintendent of Public Instruction may adopt rules and regulations defining "excessive distances" and "relatively few pupils," and making provision for any other matter he may deem essential to the effective administration of this section.

41856. (a) He shall allow to each elementary school district, and high school district, except as to any to which subsections (b), (c) and (d) of this section or Section 41859 is applicable, which during the preceding fiscal year provided for the transportation of pupils, an amount which shall be computed as follows:

He shall determine the total current expenses of the district for such transportation during the preceding fiscal year. He shall then determine what rate of tax levied on each one hundred dollars (\$100) of the assessed valuation of the district as shown by the equalized assessment roll of the district for the preceding fiscal year, hereinafter referred to in this section as computed tax rate, would, if levied, produce such amount. If the computed rate of tax is more than two cents (\$0.02) he shall allow to the district (1) 50 percent of the amount which would be produced by not more than eight cents (\$0.08) of the computed tax rate less two cents (\$0.02), (2) 75 percent of the amount which would be produced by not more than sixteen cents (\$0.16) of computed tax less eight cents (\$0.08), (3) 80 percent of the amount which would be produced by not more than twenty-four cents (\$0.24) of the computed tax less sixteen cents (\$0.16), and (4) 90 percent of the amount which would be produced by the computed tax less twenty-four cents (\$0.24).

(b) He shall allow to each elementary school district which is not a part of a high school district and which during the preceding fiscal year provided for the transportation of pupils to the elementary schools of the district and to one or more high schools in other districts an amount which shall be computed as follows:

He shall determine the total current expenses of the districts for such transportation during the preceding fiscal year. He shall then determine what rate of tax levied on each one hundred dollars (\$100) of the assessed valuation of the district as shown by the equalized assessment role of the district for the preceding fiscal year, hereinafter referred to in this section as computed tax rate, would, if levied, produce such amount. If the computed rate of tax is more than four cents (\$0.04) he shall allow to the district (1) 50 percent of the amount which would be produced by not more than sixteen cents (\$0.16) of the computed tax rate less four cents (\$0.04), (2) 75 percent of the amount which would be produced by not more than thirty-two cents (\$0.32) of the computed tax rate less sixteen cents (\$0.16), (3) 80 percent of the amount which would be produced by not more than forty-eight cents (\$0.48) of the computed tax rate less thirty-two cents (\$0.32), and (4) 90 percent of the amount which would be produced by the computed tax rate less forty-eight cents (\$0.48).

If an elementary district which is not a part of a high school district provides only for the transportation of pupils to a high school, an amount shall be computed as provided in subdivision (a) of this section.

(c) He shall allow to each high school district not a part of any community college district which during the preceding fiscal year provided for the transportation of pupils to the high schools of the district and pupils attending community colleges maintained by other districts an amount which shall be computed as follows:

He shall determine the total current expenses of the districts for such transportation during the preceding fiscal year. He shall then determine what rate of tax levied on each one hundred dollars (\$100) of the assessed valuation of the district as shown by the equalized assessment roll of the district for the preceding fiscal year, hereinafter referred to in this section as computed tax rate, would, if levied, produce such amount. If the computed rate of tax is more than four cents (\$.04) he shall allow to the district (1) 50 percent of the amount which would be produced by not more than sixteen cents (\$.16) of the computed tax rate less four cents (\$.04), (2) 75 percent of the amount which would be produced by not more than thirty-two cents (\$.32) of the computed tax rate less sixteen cents (\$.16), (3) 80 percent of the amount which would be produced by not more than forty-eight cents (\$.48) of the computed tax rate less thirty-two cents (\$.32), and (4) 90 percent of the amount which would be produced by the computed tax rate less forty-eight cents (\$.48).

If a high school district which is not a part of a community college district provides only for the transportation of pupils to a community college, an amount shall be computed as provided in subdivision (a) of this section.

141857. (a) He shall allow to each unified school district formed under the provisions of Sections 4240 to 4419, inclusive, and Sections 35780 to 35810, inclusive, the formation of which became effective on July 1, 1948, or thereafter, an amount equal to the total current expenses of the district during the preceding fiscal year for the transportation of pupils, determined by the Superintendent of Public Instruction to have been required because of a change of the location of schoolhouses or the reorganization of attendance centers within the district during such preceding fiscal year. No allowance shall be made under this paragraph subsequent to the close of the fifth fiscal year following that in which the district was formed and thereafter the provisions of subsection (b) or (c) of this section shall control as to such district.

(b) He shall allow to each unified school district not maintaining a community college which during the preceding fiscal year provided for the transportation of pupils, an amount which shall be computed as follows:

He shall determine the total current expenses of the district for

such transportation during the preceding fiscal year. He shall then determine what rate of tax levied on each one hundred dollars (\$100) of the assessed valuation of the district as shown by the equalized assessment roll of the district for the preceding fiscal year, hereinafter referred to in this section as computed tax rate, would, if levied, produce such amount. If the computed rate of tax is more than three cents (\$.03) he shall allow to the district (1) 50 percent of the amount which would be produced by not more than twelve cents (\$.12) of the computed tax rate less three cents (\$.03), (2) 75 percent of the amount which would be produced by not more than twenty-four cents (\$.24) of the computed tax rate less twelve cents (\$.12), (3) 80 percent of the amount which would be produced by not more than thirty-six cents (\$.36) of the computed tax rate less twenty-four cents (\$.24), and (4) 90 percent of the amount which would be produced by the computed tax rates less thirty-six cents (\$.36).

41858. Whenever a unified district is formed under Section 35503, if such formation occurred without any affirmative action taken by the electors of such district, and if it is necessary for the newly formed unified district, because of lack of adequate facilities, to contract with another school district under the provisions of Section 46304 for the education of a part of its day pupils, the Superintendent of Public Instruction shall allow to such district an amount equal to the total current expenses for the transportation of pupils determined by him to have been required because of the education of pupils in another district. No allowance shall be approved under this section subsequent to the close of the third fiscal year following that in which the district was formed.

(Amended by Stats. 1976, Ch. 1011 )

[ORIGINAL SECTION]

41858. Whenever a unified district is formed under Section 1976, if such formation occurred without any affirmative action taken by the electors of such district, and if it is necessary for the newly formed unified district, because of lack of adequate facilities, to contract with another school district under the provisions of Section 46304 for the education of a part of its day pupils, the Superintendent of Public Instruction shall allow to such district an amount equal to the total current expenses for the transportation of pupils determined by him to have been required because of the education of pupils in another district. No allowance shall be approved under this section subsequent to the close of the third fiscal year following that in which the district was formed.

41859. He shall compute for each group of two or more school districts which have been continuously from a time prior to July 1, 1949, governed by boards of identical personnel during the preceding fiscal year and have maintained a single transportation system for all of such districts which provided for the transportation of pupils, an amount which shall be computed as follows:

He shall determine the total current expenses of the districts for such transportation during the preceding fiscal year.

(a) He shall, if such group comprises an elementary school district and a high school district, and each district provided for the transportation of pupils, or comprises an elementary school district,

a high school district, and each district provided for the transportation of pupils residing in the district, or comprises a high school district and each district provided for the transportation of pupils, then determine what rate of tax levied on each one hundred dollars (\$100) of the assessed valuation of that one of such districts providing for the transportation of pupils which has the largest assessed valuation as shown by the equalized assessment roll of the district for the preceding fiscal year, hereinafter referred to in this section as computed tax rate, would, if levied, produce such amount. If the computed rate of tax is more than three cents (\$.03) he shall allow the district (1) 50 percent of the amount which would be produced by not more than twelve cents (\$.12) of the computed tax rate less three cents (\$.03), (2) 75 percent of the amount which would be produced by not more than twenty-four cents (\$.24) of the computed tax rate less twelve cents (\$.12), (3) 80 percent of the amount which would be produced by not more than thirty-six cents (\$.36) of the computed tax rate less twenty-four cents (\$.24), and (4) 90 percent of the amount which would be produced by the computed tax rate less thirty-six cents (\$.36).

(b) He shall, if such group comprises an elementary school district, and a high school district, each of which provided for the transportation of pupils, then determine what rate of tax levied on each one hundred dollars (\$100) of the assessed valuation of that one of such districts providing for the transportation of pupils which had the largest assessed valuation as shown by the equalized assessment roll of the district for the preceding fiscal year, hereinafter referred to in this section as computed tax rate, would, if levied, produce such amount. If the computed rate of tax is more than four cents (\$.04) he shall allow to the district (1) 50 percent of the amount which would be produced by not more than sixteen cents (\$.16) of the computed tax rate less four (\$.04), (2) 75 percent of the amount which would be produced by not more than thirty-two cents (\$.32) of the computed tax rate less sixteen cents (\$.16), (3) 80 percent of the amount which would be produced by not more than forty-eight cents (\$.48) of the computed tax rate less thirty-two cents (\$.32), and (4) 90 percent of the amount which would be produced by the computed tax rate less forty-eight cents (\$.48).

He shall then allow to each district in the group the same ratio of the total amount computed for the group as the governing boards of the districts in the groups certify to him is the ratio the amount expended for such transportation in such district during the preceding fiscal year was of the total expenditures of all districts in the group for such transportation during the preceding fiscal year.

41860. In the case of a unified school district formed under Articles 1, 3, 4, 5, 6, 7, and 8 (commencing with Sections 4200, 4280, 4290, 4310, 4320, 4360, and 4400, respectively) of Chapter 2 of Part 3 of Division 1 of Title 1 and Articles 11 and 12 (commencing with Sections 35780 and 35800, respectively) of Chapter 3 of Part 21 of Division 3 of this title, the formation of which became effective for

all purposes on July 1, 1948, or thereafter, there shall be included in addition to the current expenses of transportation of the district the cost of such schoolbuses for the first five fiscal years in which it purchases schoolbuses as are determined by the Superintendent of Public Instruction to have been required because of changes in the location of schools or the reorganization of attendance centers within the district. This paragraph shall not be effective as to any unified school district after the end of the fifth fiscal year succeeding the formation of the district.

41861. Whenever a unified district is formed under Section 35503, if such formation occurred without any affirmative action taken by the electors of such district, and if it is necessary for the newly formed unified district, because of lack of adequate facilities, to contract with another school district under the provisions of Section 46304 for the education of a part of its day pupils, the Superintendent of Public Instruction shall allow to such district, in addition to the current expenses allowed under Section 41858 an amount equal to the cost of schoolbuses, as determined by him to have been required for the transportation of pupils to such district, purchased during any of the first three fiscal years following that in which the district was formed. In each of the nine consecutive fiscal years following the close of the third fiscal year in which the district was formed, the Superintendent of Public Instruction shall reduce the allowance to which the district is otherwise entitled under Section 41857 by an amount equal to one-twelfth of the actual cost of such buses purchased or the amount computed pursuant to Section 41857, whichever is the lesser.

41862. The Superintendent of Public Instruction in approving, under this article, current expenses of school districts for the transportation of pupils shall apply the same standards and basis for such approval to expenditures for such transportation provided by a school district in schoolbuses owned and operated by the school district and expenditures for such transportation provided by a contract with a common carrier, municipally owned transit system as defined in Section 39800, or a private party.

41863. (a) In addition to all other amounts allowed to a school district under this article, the Superintendent of Public Instruction shall allow to each school district for transporting blind, deaf, aphasic, orthopedic or other health-impaired, and other physically impaired pupils handicapped in mobility, mentally retarded pupils who come within the provisions of Section 56515, autistic pupils who come within the provisions of Section 56604, and multihandicapped pupils, to and from special day classes, three hundred eighty-nine dollars (\$389) for each unit of average daily attendance of such pupils during the fiscal year resulting from the attendance of such pupils on the special day classes to and from which they are transported by the district.

In addition to all other amounts allowed to a school district under this article, the Superintendent of Public Instruction shall allow to each school district for transporting deaf, severely hard-of-hearing,

blind, deaf-blind, or other multihandicapped pupils who come within the provisions of Section 56160, to and from experimental programs approved by him, three hundred eighty-nine dollars (\$389) for each unit of average daily attendance of such pupils during the fiscal year resulting from the attendance of such minor pupils in the experimental programs to and from which they are transported by the district.

(b) The Superintendent of Public Instruction shall allow to the county school service fund of each county for transporting blind, deaf, aphasic, orthopedic or other health-impaired, and other physically impaired pupils handicapped in mobility, mentally retarded pupils who come within the provisions of Section 56515 autistic pupils who come within the provisions of Section 56604, and multihandicapped pupils, to and from special day classes, three hundred eighty-nine dollars (\$389) for each unit of average daily attendance during the fiscal year resulting from the attendance of such pupils on the special day classes to and from which they are transported by the county superintendent of schools.

The Superintendent of Public Instruction shall allow to the county school service fund of each county for transporting deaf, severely hard-of-hearing, blind, deaf-blind, or other multihandicapped pupils who come within the provisions of Section 56160, to and from experimental programs approved by him, three hundred eighty-nine dollars (\$389) for each unit of average daily attendance of such pupils during the fiscal year resulting from the attendance of such pupils in the experimental programs to and from which they are transported by the county superintendent of schools.

(c) For each school district and county superintendent of schools furnishing transportation pursuant to subdivision (a) or subdivision (b) under circumstances requiring the operation of vehicles exclusively for such purpose, the Superintendent of Public Instruction shall allow under each such subdivision 75 percent of any expense in excess of three hundred eighty-nine dollars (\$389), but the additional allowance shall not exceed seventy-three dollars (\$73), per unit of average daily attendance of such pupils. Such amount shall be allowed as a part of the second principal apportionment upon special request made therefor to, and upon approval by, the Superintendent of Public Instruction.

(d) As used in this section, "physically impaired pupils handicapped in mobility" means those pupils who are deemed eligible for special class placement as defined by the State Board of Education.

(e) If the Superintendent of Public Instruction determines that the current expense of providing transportation under this section does not equal or exceed the allowance provided for such purpose, then the amount of the deficiency shall be withheld from state apportionments to the school district or the county superintendent of schools, as the case may be, in accordance with the procedure prescribed in Section 41341. Such amounts withheld shall then be

apportioned, on a pro rata basis against the expenses, to those districts which maintain and operate vehicles exclusively for the transportation of handicapped pupils. In no case shall any district receive an amount greater than its total current expense in providing such transportation.

41864. As used in Section 41863, "blind" includes partially seeing, "deaf" includes hard of hearing, and "special day classes" includes integrated programs of instruction for physically handicapped children including those handicapped in vision or hearing where the services of a qualified special teacher are provided.

An integrated program of instruction for physically handicapped children including those handicapped in vision or hearing shall be defined as any program in which such physically handicapped children receive their education in regular classrooms from regular classroom teachers, but receive, in addition, supplementary teaching services of a full-time special teacher, possessing a valid credential to teach exceptional children of the type enrolled in the program. Such supplementary teaching services may include instruction in the appropriate tool skills, the provision of special materials and use of appropriate special equipment, and counseling and guidance necessary to enable physically handicapped children and those handicapped in vision and hearing to benefit fully from their instruction.

As used in this section, physically handicapped children means those physically handicapped children who are deemed eligible for special class placement as defined by the State Board of Education.

41865. (a) In the event that the total amount which may be allowed under Section 41850 during any fiscal year is less than the total allowances computed under Sections 41856, 41857, 41858, 41859, 41860, and 41861, the amount allowed shall be successively recomputed by adding one-tenth of one cent (\$.001) to the lower tax rates provided for in Sections 41856, 41857, and 41859, respectively, until there is no deficit. Any balance remaining shall be allowed pursuant to Section 41972.

(b) In the event the total amount which may be allowed under Section 41850 during any fiscal year is more than the total allowances computed under Sections 41856, 41857, 41858, 41859, 41860, and 41861, the balance shall be allowed pursuant to Section 41972.

41866. In addition to all other amounts allowed to a school district under this article, the Superintendent of Public Instruction shall allow to each school district for transporting minor pupils whose vision or hearing is impaired to a degree making it practical to transport them to the California School for the Blind or to the California School for the Deaf or to some location in another public school district where specialized instruction may be afforded, three hundred eighty-nine dollars (\$389) for each unit of average daily attendance of such pupils during the fiscal year resulting from the attendance of such pupils on the classes of specialized instruction to and from which they are transported as day-class pupils.

For each school district furnishing transportation under circumstances requiring the operation of vehicles exclusively for that purpose, the Superintendent of Public Instruction shall allow 75 percent of any expense in excess of three hundred eighty-nine dollars (\$389), but the additional allowance shall not exceed seventy-three dollars (\$73), per unit of average daily attendance of such pupils. Such amount shall be allowed as a part of the second principal apportionment upon special request made therefor to, and upon approval by, the Superintendent of Public Instruction.

Allowances under this section shall be subject to the approval of the Superintendent of Public Instruction of the practicality of transporting the pupils involved in any particular instance to the place where specialized instruction is afforded.

If the Superintendent of Public Instruction determines that the current expense of providing transportation under this section does not equal or exceed the allowance provided for such purpose, then the amount of the deficiency shall be withheld from state apportionments to the school district in accordance with the procedure prescribed in Section 41341. Such amounts withheld shall then be apportioned, on a pro rata basis against the expenses, to those districts which maintain and operate vehicles exclusively for the transportation of handicapped pupils. In no case shall any district receive an amount greater than its total current expense in providing such transportation.

**Article 11. Allowances for Mentally Retarded, Severely  
Mentally Retarded, Physically Handicapped and  
Educationally Handicapped Pupils**

41880. The Superintendent of Public Instruction shall allow, during the current fiscal year, to each school district and county superintendent of schools maintaining special day classes for the education of physically handicapped pupils (as defined by Sections 56700 and 56701), mentally retarded pupils (as defined by Sections 56500 and 56501), severely mentally retarded pupils (as defined by Section 56515), and educationally handicapped pupils (as defined by Section 56600), the amounts prescribed by this article for each of the respective types of class maintained for the fiscal year.

41881. As used in this article, "special day classes" includes integrated programs of instruction for physically handicapped children including those handicapped in vision or hearing where the services of a qualified special teacher are provided.

An integrated program of instruction for physically handicapped children including those handicapped in vision or hearing shall be defined as any program in which such physically handicapped children receive their education in regular classrooms from regular classroom teachers, but receive, in addition, supplementary teaching services of a full-time special teacher, possessing a valid credential to teach exceptional children of the type enrolled in the program. Such

supplementary teaching services may include instruction in the appropriate tool skills, the provision of special materials and use of appropriate special equipment, and counseling and guidance necessary to enable physically handicapped children and those handicapped in vision and hearing to benefit fully from their instruction.

As used in this section, physically handicapped children means those physically handicapped children who are deemed eligible for special class placement as defined by the State Board of Education.

41882. The Superintendent of Public Instruction shall allow to each school district or county superintendent of schools for the education of physically handicapped pupils in special classes during the current fiscal year an amount computed as follows:

(a) He shall divide the average daily attendance in each particular class size category by the maximum class size established for each particular class size category, and increase the quotient to the next highest integer where a fractional amount is produced.

(b) He shall then determine for each particular class size category the product of the amount computed under subdivision (a) multiplied by the maximum class size established by law for special day classes for the particular category.

(c) He shall then multiply the amount computed under subdivision (b) by the following amount of the particular level and category:

Category	Elementary grades (K-8)	High school grades (9-12)
Physically handicapped		
Class size maximum of 3.....	\$5,400	—
Class size maximum of 5.....	3,100	\$2,965
Class size maximum of 6.....	2,520	—
Class size maximum of 8.....	1,800	1,670
Class size maximum of 10.....	1,370	1,240
Class size maximum of 12.....	1,085	950
Class size maximum of 16.....	725	590
Class size maximum of 20.....	—	375

(Amended by Stats. 1976 Ch 1011.)

[ORIGINAL SECTION]

41882. The Superintendent of Public Instruction shall allow to each school district or county superintendent of schools for the education of physically handicapped pupils in special classes during the current fiscal year an amount computed as follows:

(a) He shall divide the average daily attendance in each particular class size category by the maximum class size established for each particular class size category, and increase the quotient to the next highest integer where a fractional amount is produced.

(b) He shall then determine for each particular class size category the product of the amount computed under subdivision (a) multiplied by the maximum class size established by law for special day classes for the particular category.

(c) He shall then multiply the amount computed under subdivision (b) by the following amount of the particular level and category:

Category	Elementary grades (K-8)	High school grades (9-12)	Community college grades (13-14)
Physically handicapped			
Class-size maximum of 3	\$5,400	—	—
Class-size maximum of 5	3,100	\$2,965	\$2,810
Class-size maximum of 6	2,520	—	—
Class-size maximum of 8	1,800	1,670	1,510
Class-size maximum of 10	1,370	1,240	1,080
Class-size maximum of 12	1,085	950	800
Class-size maximum of 16	725	590	435
Class-size maximum of 20	—	375	220

41884. The Superintendent of Public Instruction shall allow to each school district or county superintendent of schools for the education of mentally retarded pupils in special classes during current fiscal year an amount computed as follows:

(a) He shall divide the average daily attendance in each particular class size category by the maximum class size established for each particular class size category, and increase the quotient to the next highest integer where a fractional amount is produced.

(b) He shall then determine for each particular class size category the product of the amount computed under subdivision (a) multiplied by the maximum class size established by law for special day classes for the particular category.

(c) He shall then multiply the amount computed under subdivision (b) by the following amount of the particular level and category:

Category	Elementary grades (K-8)	High school grades (9-12)
Mentally retarded (as defined in Section 56501)		
Class size maximum of 15	\$570	\$440
Class size maximum of 18	420	285

(Amended by Stats 1976, Ch 1011.)

[ORIGINAL SECTION]

41884. The Superintendent of Public Instruction shall allow to each school district or county superintendent of schools for the education of mentally retarded pupils in special classes during the current fiscal year an amount computed as follows:

(a) He shall divide the average daily attendance in each particular class size category by the maximum class size established for each particular class size category, and increase the quotient to the next highest integer where a fractional amount is produced

(b) He shall then determine for each particular class size category the product of the amount computed under subdivision (a) multiplied by the maximum class size established by law for special day classes for the particular category.

(c) He shall then multiply the amount computed under subdivision (b) by the following amount of the particular level and category

Category	Elementary grades (K-8)	High school grades (9-12)	Community college grades (13-14)
Mentally retarded (as defined in Section 56501)			
Class-size maximum of 15 .....	\$570	\$440	\$280
Class-size maximum of 18 .....	420	285	130

41885. The Superintendent of Public Instruction shall allow to each school district or county superintendent of schools for the education of severely mentally retarded pupils in special classes during the current fiscal year an amount computed as follows:

(a) He shall divide the average daily attendance in each particular class size category by the maximum class size established for each particular class size category, and increase the quotient to the next highest integer where a fractional amount is produced.

(b) He shall then determine for each particular class size category the product of the amount computed under subdivision (a) multiplied by the maximum class size established by law for special day classes for the particular category.

(c) He shall then multiply the amount computed under subdivision (b) by the following amount of the particular level and category:

Category	Elementary grades (K-8)	High school grades (9-12)
Mentally retarded (as defined in Section 56515)		
Class size maximum of 12 .....	\$920	\$785
(Amended by Stats. 1976, Ch. 1011 )		

[ORIGINAL SECTION]

41885. The Superintendent of Public Instruction shall allow to each school district or county superintendent of schools for the education of severely mentally retarded pupils in special classes during the current fiscal year an amount computed as follows:

(a) He shall divide the average daily attendance in each particular class size category by the maximum class size established for each particular class size category, and increase the quotient to the next highest integer where a fractional amount is produced.

(b) He shall then determine for each particular class size category the product of the amount computed under subdivision (a) multiplied by the maximum class size established by law for special day classes for the particular category

(c) He shall then multiply the amount computed under subdivision (b) by the following amount of the particular level and category.

Category	Elementary grades (K-8)	High school grades (9-12)	Community college grades (13-14)
Mentally retarded (as defined in Section 56515)			
Class-size maximum of 12 . . . . .	\$920	\$785	\$630

41886. The Superintendent of Public Instruction shall allow to each school district or county superintendent of schools for the education of educationally handicapped pupils in special classes during the current fiscal year an amount computed as follows:

(a) He shall divide the average daily attendance in each particular class size category by the maximum class size established for each particular class size category, and increase the quotient to the next highest integer where a fractional amount is produced.

(b) He shall then determine for each particular class size category the product of the amount computed under subdivision (a) multiplied by the maximum class size established by law for special day classes for the particular category.

(c) He shall then multiply the amount computed under subdivision (b) by the following amount of the particular level and category:

Category	Elementary grades (K-8)	High school grades (9-12)
<b>Educationally handicapped</b>		
Class size maximum of 12 .....	\$1,000	\$870
<b>Autistic</b>		
Class size maximum of 6 .....	\$3,000	\$2,815

(Amended by Stats 1976, Ch 1011.)

[ORIGINAL SECTION]

41886. The Superintendent of Public Instruction shall allow to each school district or county superintendent of schools for the education of educationally handicapped pupils in special classes during the current fiscal year an amount computed as follows:

(a) He shall divide the average daily attendance in each particular class size category by the maximum class size established for each particular class size category, and increase the quotient to the next highest integer where a fractional amount is produced

(b) He shall then determine for each particular class size category the product of the amount computed under subdivision (a) multiplied by the maximum class size established by law for special day classes for the particular category

(c) He shall then multiply the amount computed under subdivision (b) by the following amount of the particular level and category:

Category	Elementary grades (K-8)	High school grades (9-12)	Community college grades (13-14)
<b>Educationally handicapped</b>			
Class-size maximum of 12.. . . . .	\$1,000	\$870	\$710
<b>Autistic</b>			
Class-size maximum of 6 . . . . .	\$3,000	\$2,815	\$2,745

41887. The governing board of a school district during the current fiscal year, or a county superintendent of schools, may apply to the Superintendent of Public Instruction whenever sparsity of population or transportation distances make it impossible to maintain classes of the maximum size as prescribed by this code or by the State Board of Education. If the Superintendent of Public Instruction, upon review, finds that it is impossible to maintain classes of the maximum size as prescribed by this code or by the State Board of Education, he may add to the amounts allowed under Sections 41882 to 41886, inclusive, an amount sufficient to provide for the needed classes, but not more per special class than the applicable amounts computed in those sections.

It is the intent of the Legislature that the additional allowances authorized by this section be provided primarily for school districts with an average daily attendance of less than 2,000. Allowances for school districts with a current average daily attendance of 2,000 or more shall be provided, in any fiscal year, for no more than 2 percent of the school districts having a current average daily attendance of 2,000 or more.

41888. (1) In addition to the allowances provided under Sections 41882 to 41886, inclusive, the Superintendent of Public Instruction shall allow to school districts and county superintendents of schools for each unit of average daily attendance an amount as follows:

(a) For instruction of educationally handicapped pupils in learning disability groups, one thousand eight hundred eighty dollars (\$1,880).

(b) For instruction of educationally handicapped pupils in homes or in hospitals, one thousand three hundred dollars (\$1,300).

(c) For instruction of physically handicapped pupils in remedial physical education, seven hundred seventy-five dollars (\$775).

(d) For remedial instruction of physically handicapped pupils in other than physical education, two thousand dollars (\$2,000).

(e) For instruction of blind pupils when a reader has actually been provided to assist the pupil with his studies, or for individual instruction in mobility provided blind pupils under regulations prescribed by the State Board of Education, or when braille books are purchased, ink print materials are transcribed into braille, or sound recordings and other special supplies and equipment are purchased for blind pupils, or for individual supplemental instruction in vocational arts, business arts, or homemaking for blind pupils, nine hundred ten dollars (\$910).

Braille books purchased, braille materials transcribed from ink

print, sound recordings purchased or made, and special supplies and equipment purchased for blind pupils for which state or federal funds were allowed are property of the state and shall be available for use by blind pupils throughout the state as the State Board of Education shall provide.

(f) For other individual instruction of physically handicapped pupils, one thousand three hundred dollars (\$1,300).

(g) For the instruction of physically handicapped pupils in regular day classes, one thousand eighteen dollars (\$1,018).

(h) For the instruction of mentally retarded pupils in regular day classes, one thousand eighteen dollars (\$1,018).

(i) For the instruction of educationally handicapped pupils in regular day classes, one thousand eighteen dollars (\$1,018).

(j) In lieu of benefits provided under subdivision (d) of Section 41888, there shall be allowed for the individualized remedial instruction of speech handicapped pupils by specially trained noncredentialed teaching assistants under the direct guidance of a speech therapist, one thousand eighteen dollars (\$1,018).

(2) (a) The allowances provided under Sections 41882 to 41886, inclusive, may be increased proportionately on account of special day classes convened, or other instruction provided a pupil, for days in a school year which are in excess of the number of days in the school year on which the regular day schools of a district are convened.

(b) The Superintendent of Public Instruction shall compute for each applicant school district and county superintendent of schools in providing in such year a program of specialized consultation to teachers, counselors and supervisors for educationally handicapped pupils, an amount equal to the product of ten dollars (\$10) and the average daily attendance of pupils enrolled in special day classes, learning disability groups, and home and hospital instruction for educationally handicapped pupils.

41889. For each special class or program for which a state allowance is provided under this article or under Section 41863 or 41866, each school district and each county superintendent of schools maintaining such special classes or programs shall report annually to the Superintendent of Public Instruction, on forms he shall provide, all expenditures and income related to each special class or program.

If the Superintendent of Public Instruction determines that the current expense of operating a special class or program as defined in the California School Accounting Manual does not equal or exceed the sum of basic state aid, and state equalization aid provided in the regular foundation program per unit of average daily attendance and the allowance provided under this article, and any amount of local tax funds contributed to the foundation program for each pupil in average daily attendance in the special class or program maintained by a school district for each pupil in average daily attendance in special classes or programs maintained by the county superintendent of schools, then the amount of such deficiency shall be withheld from state apportionments to the school district or the county

superintendent of schools, as the case may be, in the succeeding fiscal year in accordance with the procedure prescribed in Section 41341.

Beginning with the 1971-72 fiscal year, expenditures for equipment that the Superintendent of Public Instruction determines are necessary for instruction in a special class or program for physically handicapped pupils shall be considered as current expense for purposes of this section. In any year the district's allowable expenditure for such equipment may not exceed 1 percent of the current expense of operating the district's physically handicapped program.

41891. The provisions of this article shall supersede any other provisions of this code in conflict therewith. Allowances under this article shall be provided pursuant to regulations of the State Board of Education and standards and requirements established by the State Board of Education.

41892. (a) The Superintendent of Public Instruction shall withhold from the total amount allocated in the current fiscal year by subdivisions (c), (e), and (g) of Section 41301 an amount equal to 0.0016 of the amount so allocated in the preceding fiscal year, for use by the Department of Education for research, program development, and evaluation in the education of the handicapped or gifted pupils.

(b) Seventy-five percent of the total amount withheld pursuant to subdivision (a) shall be used by the Department of Education to contract or make grants for research studies in the education of the handicapped or gifted pupils. Such contracts and grants shall be made with individuals, organizations, agencies, or institutions of higher education possessing personnel and the competencies necessary for successful completion of studies.

Contracts and grants awarded by the Department of Education shall be directed toward statewide problems and issues in the education of the handicapped or gifted pupil as determined by the State Board of Education.

(c) Twenty-five percent of the total amount withheld pursuant to subdivision (a) shall be used by the Department of Education for program development and evaluation. The department may contract with any individual agency or organization possessing personnel and the competencies necessary to fulfill the purposes of this subsection.

41893. The Superintendent of Public Instruction may employ such personnel as may be required for the effective administration of the program and shall use funds allocated in subdivision (c) of Section 41892 for this purpose, provided such funds do not exceed 10 percent of the total amount withheld pursuant to subdivision (a) of Section 41892.

41894. The State Board of Education shall establish rules and regulations for the development of research, program development, and evaluation studies which shall include: (a) application, (b) project review, (c) evaluation and analysis, and (d) dissemination of results.

41895. The State Board of Education shall annually review problems and issues, including, but not limited to, information submitted by governing boards of school districts and the county superintendents of schools, in the education of the handicapped and gifted pupils and shall adopt priorities for research, program development and evaluation studies.

41896. On the fifth day of the legislative session each year, the Department of Education shall report to the Joint Legislative Budget Committee relating to (a) research, program development, and evaluation studies conducted, (b) results of completed studies, (c) expenditure of funds, and (d) recommendations for program changes for the handicapped and gifted pupils resulting from studies.

41897. The Superintendent of Public Instruction shall allow to each district participating in a regional occupational center or to each county superintendent of schools operating a regional occupational center, for each unit of average daily attendance attributable to a person educated in a regional occupational center or program pursuant to Section 52315, the following amounts:

(a) One thousand nine hundred and fifty-five dollars (\$1,955) for each visually handicapped person.

(b) One thousand one hundred and twenty dollars (\$1,120) for each deaf person.

(c) One hundred seventy-nine dollars (\$179) for each orthopedically handicapped person.

The allowance prescribed by this section is in addition to other allowances or apportionments which may be received because of such attendance and can only be received if the specific service for which the allowance or apportionment is made is not otherwise provided by a community college within a reasonable commuting distance of the regional occupational center.

Each governing body maintaining a regional occupational center or program shall account for expenditures made on account of additional special instruction and support services pursuant to Section 52315. Expenditures shall be reported as an amount per pupil in average daily attendance in each of the categories specified in subdivisions (a), (b), and (c). If the Superintendent of Public Instruction determines that the expenditures, as reported, do not equal or exceed the allowances prescribed in subdivisions (a), (b), and (c), the amount of the deficiency shall be withheld from apportionments to the school district or the county superintendent of schools in the succeeding fiscal year in accordance with the procedure prescribed in Section 41341.

## Article 12. Allowances for Excess Cost of Driver Training

41900. The Superintendent of Public Instruction shall allow to each school district maintaining a high school or high schools, county superintendent of schools, the California Youth Authority and the

State Department of Education an amount equal to the actual cost, but not in excess of sixty dollars (\$60) per pupil instructed in the laboratory phase of driver education during the preceding fiscal year in accordance with Sections 41902 and 41905 and with regulations set forth by the State Board of Education to such districts, county superintendents of schools, the California Youth Authority and the State Department of Education for instructing pupils in the laboratory phase of driver education.

41901. The governing board of each school district maintaining a high school or high schools, each county superintendent of schools, the California Youth Authority, and the State Department of Education shall report annually to the county superintendent of schools and to the Superintendent of Public Instruction on forms provided by the Superintendent of Public Instruction, the cost of instructing such pupils, and such other information as may be required for the computation of the excess cost incurred in the instruction of the pupils in automobile driver training.

41902. Allowances by the Superintendent of Public Instruction shall be made only for driver training classes maintained in accordance with the rules and regulations as set forth by the State Board of Education.

Driver training shall be available without tuition to all eligible students commencing on July 1, 1969. The governing board of a district maintaining a high school or high schools, the county superintendent of schools, the California Youth Authority, and the State Department of Education may make driver training available during school hours, or at other times, or any combination thereof.

41903. The Superintendent of Public Instruction shall determine the amount of excess cost incurred by each school district, each county superintendent of schools, the California Youth Authority, and the State Department of Education during the preceding fiscal year for the establishment and maintenance of automobile driver training for pupils enrolled in the schools of the district, the county superintendent of schools, the California Youth Authority, and the State Department of Education in accordance with such regulations as he may prescribe.

"Excess cost," as used in this section, includes the total current expenditures incurred for instructing pupils in automobile driver training in special classes, including, but not limited to, automobile replacement, insurance, upkeep and maintenance of automobiles used in such training.

"Special classes," as used in this section, includes classes providing automobile driver training for pupils who may be excused, for the purpose of taking instruction in automobile driver training.

41904. The Superintendent of Public Instruction may promote and direct the establishment and maintenance of courses of instruction in automobile driver education and driver training in the public schools. For this purpose, he may employ such professional and other personnel as are necessary to give full effect to this article.

All necessary costs and expenses incurred for purposes of this section shall be provided for from such funds as may be appropriated by the Legislature from the Driver Training Penalty Assessment Fund.

41905. No allowance shall be made under this article for the instruction of pupils in automobile driver training unless the school district, the county superintendent of schools, the California Youth Authority, and the State Department of Education has complied with the rules and regulations of the State Board of Education governing the establishment, conduct, and scope of automobile driver education and driver training, except that such rules and regulations shall not relate in any way to teacher certification or licensing.

41906. In applying for state reimbursement for driver training expenses incurred in the school year 1968-69 and thereafter, school districts, county superintendents of schools, the California Youth Authority, and the State Department of Education shall certify to having met the requirements set forth in this article and, in addition, shall certify that all teachers used in the driver education or driver training programs are qualified instructors therein, except that such certification shall not relate in any way to teacher certification or licensing.

41907. A qualified instructor is one who has passed an approved driver's instruction examination and holds a designated subjects credential or who holds a valid prior credential authorizing instruction in automobile driver education and driver training.

The Department of Motor Vehicles shall notify the State Department of Education immediately upon suspension or revocation of a qualified instructor's driver's license or upon placing a qualified instructor on probation to the Department of Motor Vehicles as a negligent operator. The Department of Education and the Department of Motor Vehicles shall jointly determine the details regarding procedures for notification. No reimbursements shall be provided to a school district, a county superintendent of schools, the California Youth Authority, or the State Department of Education for students taught by an instructor while his driver's license is suspended or revoked, or while he is on probation to the Department of Motor Vehicles as a negligent operator, or while he is presumed pursuant to Section 12810 of the Vehicle Code to be a negligent operator, following notification by the State Department of Education to the school district, the county superintendent of schools, or the California Youth Authority, as the case may be, of such action.

41908. The governing board of any school district employing persons exclusively to teach driver training shall adopt and make public a salary schedule setting the daily or pay period rate or rates for such persons. Salary amounts and criteria for advancement contained in any salary schedule adopted pursuant to this section shall be established at the sole discretion of the governing board.

41909. The Superintendent of Public Instruction shall make an

additional allowance to each school district maintaining a high school or high schools, each county superintendent of schools, the California Youth Authority, and the Department of Education as reimbursement for the actual expense of replacing vehicles used exclusively in automobile driver training programs and of replacing simulators used in such programs, but the amount shall not exceed three-fourths of that part of the actual cost of instructing pupils in automobile driver training during the preceding fiscal year which was: (1) in excess of sixty dollars (\$60) per pupil instructed, and (2) expended by the district, the county superintendent of schools, California Youth Authority, or Department of Education replacing such vehicles and simulators. Reimbursement for vehicle shall be computed for only that portion of the total mileage used exclusively in driver training programs.

For purposes of computing reimbursement, whenever a school district, a county superintendent of schools, the California Youth Authority, or the Department of Education replaces a driver training vehicle or simulator purchased by the district, the county superintendent of schools, California Youth Authority or Department of Education with a vehicle or simulator that is a gift or loan, the purchase price of such new or acquired equipment shall be deemed to be the market value of the vehicle or simulator acquired through a gift or loan.

(Amended by Stats. 1976, Ch. 1011.)

[ORIGINAL SECTION]

41909. The Superintendent of Public Instruction shall make an additional allowance to each school district maintaining a high school or high schools, each county superintendent of schools, the California Youth Authority, and the Department of Education as reimbursement for the actual expense of replacing vehicles used exclusively in automobile driver training programs and of replacing simulators used in such programs, but the amount shall not exceed three-fourths of that part of the actual cost of instructing pupils in automobile driver training during the preceding fiscal year which was. (1) in excess of fifty dollars (\$50) per pupil instructed, and (2) expended by the district, the county superintendent of schools, California Youth Authority, or Department of Education replacing such vehicles and simulators. Reimbursement for vehicle shall be computed for only that portion of the total mileage used exclusively in driver training programs.

For purposes of computing reimbursement, whenever a school district, a county superintendent of schools, the California Youth Authority, or the Department of Education replaces a driver training vehicle or simulator purchased by the district, the county superintendent of schools, California Youth Authority or Department of Education with a vehicle or simulator that is a gift or loan, the purchase price of such new or acquired equipment shall be deemed to be the market value of the vehicle or simulator acquired through a gift or loan.

41910. The Department of Education may grant waivers of automobile driver training education provisions of the Education Code for the purpose of establishing experimental driver education programs directed toward improving cost effectiveness in the reduction of traffic crashes. Waivers under this section shall not increase program reimbursements authorized pursuant to Sections 41304 and 41306.

41911. The allowances made to the several school districts and

county superintendents of schools, and to the California Youth Authority and Department of Education under Sections 41900 and 41909 shall, when the Superintendent of Public Instruction determines that the funds credited to the Driver Training Penalty Assessment Fund during the preceding fiscal year will be insufficient to provide the full amounts otherwise allowable, be proportionately reduced.

41912. The expressed purpose of the Legislature is that highway accidents can and must be reduced through the education and training of drivers prior to licensing, and that this instruction properly belongs in the high school curriculum on a basis of having comparable standards of instruction, quality, teacher-pupil ratio and class scheduling in driver education as in other courses in the regular academic program. Only through a high quality program of driver instruction can the greatest potential in traffic accident prevention be realized. Further, the state has a responsibility to share in the reasonable costs of providing such courses.

41913. Notwithstanding any other provision of law, the governing board of any school district maintaining secondary schools, may, subject to Sections 41913 to 41919, inclusive, enter into contracts with approved private driver training schools to provide to any or all of the eligible enrolled students of the district, the automobile driver training as provided pursuant to Section 51852. No such contract shall be valid unless approved by the Superintendent of Public Instruction. The driver training provided under contract by an approved private driver training school shall be under the exclusive control and management of the governing board of the school district and shall comply with all rules and regulations of the State Board of Education relating to driver training offered by the public schools, except that a driver training instructor of the approved private driver training school shall not be required to possess any teaching credential or certification document of any kind except as required by the Driving School Department of the Department of Motor Vehicles. Nothing in this section shall prohibit the governing board from entering into contracts with more than one approved private driver training school and apportioning students among such schools.

41914. As used in this article, an "approved private driver training school" is one which:

(a) Has a valid license issued by the Department of Motor Vehicles pursuant to Chapter 1 (commencing with Section 11100) of Division 5 of the Vehicle Code.

(b) Maintains at all times limits of liability insurance established by the State Superintendent of Public Instruction equal to that required of the contracting school district.

(c) Provides, for such automobile driving instruction, dual-control automobiles approved by the Department of Motor Vehicles.

(d) Meets such other requirements as shall be established by the Superintendent of Public Instruction.

41915. Any contract entered into and approved in the manner provided pursuant to Section 41913 shall entitle the approved driver training school to payment by the school district of the sum of not more than the amount reimbursable to the school district as "excess cost" provided pursuant to Sections 41900 and 41903. In the event that a student who has commenced the driver training for which the district has contracted pursuant to Section 41913 and the student does not complete the driver training for any reason, the approved private driver training school shall be paid the amount in "excess cost," if any, received by the school district for such student.

41916. Upon presentment to the governing board by the approved private driver training school written verification of the name, school, dates, and times of each automobile driver training instruction lesson and such other information required by the Superintendent of Public Instruction, the approved private driver training school shall be paid the contract amount as determined pursuant to Section 41915.

41917. The governing board of any school district shall be entitled to reimbursement for driver training provided by approved private driver training schools pursuant to this article in the amount authorized pursuant to Section 41900, upon certifying to the Superintendent of Public Instruction the number of pupils for whom automobile driver training instruction lessons was provided pursuant to Sections 41913 to 41919, inclusive.

41918. Notwithstanding the provisions of Section 41907, a regular employee of a contracting approved private driver training school shall be a qualified instructor for automobile driver training provided that:

(a) He holds a valid driver instructor license issued by the Department of Motor Vehicles, and

(b) He has completed the driver instructor course required by the Department of Motor Vehicles.

41919. No approved private driver training school may enter into a contract pursuant to this article unless it has, at the time of entering into the contract, been operating in the State of California for at least 24 consecutive months.

A contracting approved private driver training school shall provide instruction pursuant to one of the plans authorized pursuant to Section 51852.

### Article 13. Instructional Television

41920. The Superintendent of Public Instruction shall allow to each school district or county superintendent of schools participating in a program for instructional television established pursuant to Section 51870 or 51871, fifty cents (\$0.50) multiplied by the number of pupils of the district present in the classroom and instructed by such instructional television programs during the preceding fiscal year. The amount of such allowance to a school district shall not

exceed one-half the total cost to the district of providing television broadcasts or closed-circuit television programs pursuant to Section 51870 or 51871. For the purpose of this section, no pupil shall be counted more than once per school year.

The allowances to school districts and county superintendents of schools under this section shall be made from such moneys as may be appropriated therefor by the Legislature.

It is the intention of the Legislature that the system of allowances prescribed by this section shall remain in effect only until such time as a new apportionment formula for funding instructional television is developed and moneys are appropriated therefor. The State Board of Education shall adopt appropriate procedures to insure an orderly transition to the new apportionment formula.

#### Article 14. Allowances for Project Connected Pupils

41930. As used in this article the term "project" means any major, localized, undertaking by or under the jurisdiction of the State Department of Water Resources, or by or under the jurisdiction of the State Department of Water Resources and the federal government, jointly, which has a duration, estimated by the Director of the Department of Water Resources, of more than three years.

41931. A project-connected pupil, as used in this article, means a child of a parent, guardian, or other person standing in loco parentis who has enrolled in the regular full-time day schools of the district subsequent to the commencement of a project, whose parent or guardian is employed by a contractor or subcontractor in connection with the project, or by the State of California whose work is in connection with the project, and which child is in addition to the number of children who would otherwise normally be expected to be in the district.

The identification of project-connected pupils shall be subject to the approval of the Superintendent of Public Instruction in accordance with regulations that he is herewith authorized to adopt. The records identifying and accounting for the attendance of project-connected children shall be prescribed by the Superintendent of Public Instruction.

41932. For the 1964-1965 fiscal year and each fiscal year thereafter, the Superintendent of Public Instruction shall allow to each eligible district, for each unit of average daily attendance in the regular full-time day schools of the district during the preceding fiscal year of project-connected pupils, as project-connected pupils are defined in Section 41931, an amount equal to the foundation program of the district, any supplemental amount computed under the Education Code, less basic state aid, and state equalization aid for the preceding fiscal year, divided by the second period average daily attendance of the district for the preceding fiscal year.

41933. The units of average daily attendance of project-connected pupils, as defined in Section 41931 for a fiscal year

shall be computed by dividing the total number of days of attendance of such pupils by the number of days school was actually taught in the regular day schools of the district during the fiscal year.

41934. A district shall be eligible for an allowance under Section 41932 if the average daily attendance of project-connected pupils is at least 10 in the district during the preceding fiscal year.

41935. For the purposes of this article, pupils in grades 7 and 8 attending a junior high school maintained by a high school district shall be deemed to be in attendance in the schools of the elementary district of residence.

41936. Amounts allowed pursuant to this article shall be apportioned by the Superintendent of Public Instruction at the same time and as a part of the special purpose apportionment made under the provisions of Section 41334, whichever is in effect.

#### Article 15. Allowances to County School Tuition Funds

41950. The Superintendent of Public Instruction shall allow to each county school tuition fund one hundred twenty-five dollars (\$125) for each unit of average daily attendance of pupils residing in the county and attending school in an adjoining state during the fiscal year. Such average daily attendance shall not be included in the computations provided for in Section 41761.

#### Article 16. Allowances for Severance Aid

41960. Whenever real property within a school district is acquired for state highway purposes, the Superintendent of Public Instruction shall allow to the school district an amount of severance aid as provided in this section, in addition to any other allowances provided by this chapter. For the five years following the acquisition of such property the Superintendent of Public Instruction shall allow to the school district severance aid based on the amount of tax revenues the school district would have received from such property if there had been no such acquisition, computed as follows: for the year following such acquisition, the district shall be allowed the amount of tax revenues, except revenues for bond interest and redemption, which would have been paid during the year of acquisition if the taxes assessed on the property acquired were then paid in full; for the second year the district shall be allowed 80 percent of such amount; for the third year the district shall be allowed 60 percent of such amount; for the fourth year the district shall be allowed 40 percent of such amount; and for the fifth year the district shall be allowed 20 percent of such amount.

41961. For school districts in which the land acquisition was completed on or subsequent to June 30, 1962, but prior to November 23, 1970, the Superintendent of Public Instruction shall perform the computation prescribed in Section 41960 and compute the total amount of severance aid for a five-year period commencing with the

date of completion of the acquisition. He shall determine an amount equal to 30 percent of the amount computed and certify the amount determined to the State Controller in the manner prescribed in Section 41964.

41962. School districts may apply for severance aid as provided in this article on forms provided by the Superintendent of Public Instruction, and in accordance with regulations which he is authorized to adopt.

41963. No allowance of severance aid shall be made as provided in Section 41960 or 41961 unless the total assessed value of taxable real property within the school district is reduced by one-half of one (0.5) percent or more during a fiscal year by reason of acquisitions giving rise to severance aid as provided in Section 41960 or 41961. In determining whether or not the value of such acquisitions is equal to one-half of one (0.5) percent or more of the value of taxable real property, all such acquisitions made during each fiscal year shall be considered as one sum.

41964. On or before May 25th in each fiscal year, the Superintendent of Public Instruction shall determine and certify to the State Controller the amount of severance aid computed and to be allowed to school districts under Section 41960 or 41961 for the fiscal year. On or before June 15th in each fiscal year, the State Controller shall order the transfer, from the Motor Vehicle Transportation Tax Account in the Transportation Tax Fund to the State School Fund, of the amount of severance aid computed and to be allowed to school districts for the fiscal year as so certified, and the amount so computed and certified is hereby appropriated for purposes of such transfer. The Department of Public Works may charge or allocate to the appropriate particular projects on account of which severance aid was computed, the amounts so transferred. In the case of severance aid determined pursuant to Section 41961, the allowance shall be apportioned to the school district in two equal annual installments.

#### Article 17. Recomputation of Allowances

41970. The total amount apportioned from Section A of the State School Fund shall not exceed the amount provided by law therefor. If the total amount provided for Section A of the State School Fund is greater than the total apportioned, the balance from any specified expenditure authorization in Sections 41300 and 41301 shall be used to decrease deficits in apportionments from Section A of the State School Fund in the order prescribed in Section 41972.

41971. If the total amount allowed for each subdivision in Sections 41300 and 41301 is less than the apportionments named in the subsections, the apportionments shall be reduced proportionately or as otherwise prescribed. Prior to the close of the fiscal year, such reductions shall be restored to the extent possible pursuant to Section 41970.

41972. Balances available from any apportionments from Section A of the State School Fund and funds provided by subdivision (c) of Section 14002 shall be used to the extent necessary as follows:

(a) First, to restore any reduction in apportionments for basic aid, and equalization aid, for elementary, high, and unified school districts and for all county superintendents of schools.

(b) Second, to restore any reduction in apportionments pursuant to Section 41865.

(c) Third, to restore any reduction in apportionments pursuant to Sections 41863, 41866, 41882, 41884, 41885, and paragraphs (c), (d), (e), (f), and (g) of subdivision (1) of Section 41888.

(d) Fourth, to restore any reduction in apportionments pursuant to Section 41886 and paragraphs (a) and (b) of subdivision (1) of, and paragraph (b) of subdivision (2) of Section 41888.

(e) Fifth, to restore any reduction in apportionments pursuant to Section 52205.

Any remaining balances otherwise transferable under subdivisions (b) and (c) of Section 14002 shall revert to the General Fund.

## CHAPTER 6. FINANCIAL STATEMENTS OF SCHOOL DISTRICTS

### Article 1. Statements

42100. On or before the 15th day of August of each year the governing board of each school district shall prepare and keep on file for public inspection a statement of all receipts and expenditures of the district for the preceding fiscal year and a statement of the estimated total expenses for the district for the current fiscal year.

42101. The statement shall be in the form prescribed by the Superintendent of Public Instruction.

42102. The budget of the governing board for the current fiscal year shall be a part of the statement.

42103. Except in districts where no district tax is levied and in elementary districts employing but one teacher, the publication budget for the ensuing school year to which it is intended to apply, showing program expenditures, cash balances, and all the appropriations from the state as required to be tabulated in Sections 42122 and 42123 for the ensuing and last preceding fiscal year, and the district tax requirement for the school year to which the publication budget is intended to apply and for the last preceding school year, including a summary of the district tax requirements for the ensuing fiscal year to be derived by levies on the secured roll as shown on the budget form prescribed for this purpose by the Superintendent of Public Instruction, shall be published by the county superintendent of schools at least once in a newspaper of general circulation published within the district, or if there is no such newspaper, then in any newspaper of general circulation in the district, prior to its adoption. The cost of the publication shall be a proper and legal charge against the school district or districts for

which the publication is made, and shall not exceed the rate fixed by the board of supervisors for official advertising. Publication shall be made during the last week in July of each year, and shall contain a notice that a public hearing will be held before the governing board of the school district, in a schoolhouse in the district, or in some other place conveniently accessible to the residents of the district, during the first week in August at which any taxpayer in the district may appear and object to the proposed budget or any item of the budget. The hearing may be concluded on such publication budget when there are no requests on file for further hearing. The budget shall not be finally adopted by the governing board of the district until after the public hearing has been held. In the case of a school district or districts in which the average daily attendance of all said districts combined is in excess of 200,000, governed by the same governing board, the public hearing during the first week in August need not be held if there has been at least one public meeting on the publication budget prior to the first week of August, at which public meeting any changes proposed to be made in the publication budget for the final budget shall have been presented.

42104. Any violation of this article or a failure to comply with its provisions by the county superintendent of schools or by the governing board of any school district is punishable under Section 1222 of the Government Code.

42105. The governing board of any school district may print and distribute in pamphlet form an annual financial statement of the receipts and expenditures of the school district, and may include in the pamphlet a general report concerning the conduct and condition of the schools of the district. Similar information of value to the public regarding the school system may be printed and distributed from time to time, or published not oftener than once a year, in a newspaper of general circulation published within the district.

## Article 2. Budget Requirements

42120. As used in this article, "budget" includes the preliminary budget, the tentative budget and the final budget of a school district.

42122. Each budget shall show a complete plan and itemized statement of all proposed expenditures of the school district and of all estimated revenues for the ensuing fiscal year, together with a comparison as to each item of revenue and expenditures, with the actual revenues and expenditures for the last completed fiscal year and the actual and estimated expenditures for the existing fiscal year. The county superintendent of schools shall from his own records supply to the school district any information that the school district may need to make the comparisons required by this section.

42123. Each budget shall be itemized to set forth the necessary revenues and expenditures, by program, in each fund to operate the public schools of the district as authorized by law and on forms prescribed by the Superintendent of Public Instruction.

42124. The budget may also contain an amount to be known as the general reserve in such sum as the governing board may deem sufficient, for the next succeeding fiscal year, to meet the cash requirements to which the district's credit may be legally extended for that portion of said next succeeding fiscal year until adequate proceeds of the taxes levied for, or apportionment of state funds made to, the district during such succeeding fiscal year are available to the district.

42125. The budget may also contain an amount to be known as the undistributed reserve. The funds in the undistributed reserve shall be available for appropriation by a two-thirds vote of the members of the governing board, to cover expenditures that have not been provided for or that may have been insufficiently provided for, or for unforeseen requirements as they may arise.

42126. Each budget shall be made in quintuplicate in the form and upon the blanks prescribed by the Superintendent of Public Instruction. It shall be the duty of the Superintendent of Public Instruction to prepare standard forms and blanks necessary to show the budgeting items and comparisons required by this article. Blanks shall be furnished to the school districts by the county superintendent of schools.

42127. (a) On or before the first day in July in each year, each school district shall file a tentative budget with the county superintendent of schools.

(b) On or before July 15, in each year, the county superintendent of schools:

(1) Shall examine and may make technical corrections to the tentative budget, and indicate changes he deems desirable or necessary to determine the tax requirement; and

(2) Shall make any recommendations he deems necessary to insure that the proposed expenditures do not exceed the anticipated revenues and that the anticipated revenues are realistic, and shall transmit to the governing board a written explanation of the reasons for such changes.

(c) On or before July 20 in each year, the governing board shall make such changes in the tentative budget as it deems necessary or desirable and shall return the budget to the county superintendent of schools. Such budget shall constitute the publication budget for the period to which it is intended to apply. A copy of this publication school budget shall be sent to the county auditor in such form.

(d) On or before the eighth day of August, or on or before the 10th day of August in the case of a school district in which there is an average daily attendance of more than 10,000, the governing board of each school district in which a public hearing is required in Section 42103 shall adopt a final budget and shall file such budget with the county superintendent of schools, the county auditor, the county board of supervisors, and the Superintendent of Public Instruction. In the case of districts which are not required to hold a public hearing, the publication budget as approved by the governing board

shall be filed with the county superintendent of schools, the county auditor, the county board of supervisors, and the Superintendent of Public Instruction immediately after its approval.

(e) On or before the 15th day of August, the county superintendent shall approve the adopted budget for each school district as officially adopted and submitted by its governing board, and shall file one copy of the adopted budget of each school district with the board of supervisors, one copy with the auditor of his county, and one copy with the Superintendent of Public Instruction, together with a statement showing the amount of school district taxes required by each school district of the county.

42128. If the governing board of any school district neglects or refuses to make a school district budget as prescribed by this article, the county superintendent of schools shall not make any apportionment of state or county school money for the particular school district for the current school year.

## CHAPTER 7. LOCAL TAXATION BY SCHOOL DISTRICTS

### Article 1. Changing Maximum Tax Rates

42200. The maximum rate of school district tax for any school year is hereby increased by such amount as will produce the amount of the proposed expenditures of the school district required or authorized pursuant to Sections 44813 and 44814, Sections 40040 to 40058, inclusive, and Sections 10900 to 10915, inclusive, of this code as shown by the budget of the district for such school year, as finally adopted by the governing board of the district, less any unencumbered balances remaining at the end of the preceding school year derived from the revenue from the increase in the rate of tax provided by this section.

The increase provided by this section shall not exceed five cents (\$0.05) per each one hundred dollars (\$100) of the assessed value of property within the district, and said increase shall be in addition to any other school district tax authorized by law to be levied.

In a unified school district the increase provided by this section shall not exceed ten cents (\$0.10) per each one hundred dollars (\$100) of the assessed value of property within the district if the district maintains one or more elementary schools and high schools.

If at the end of any school year there remains an unencumbered balance derived from the revenue of the increase in tax rate hereby provided, such balance shall be used exclusively in the following school year for the expenditures of the school district during that year required or authorized by Sections 10900 to 10915, inclusive, Sections 40040 to 40058, inclusive, and Sections 44813 and 44814.

42201. Notwithstanding the provisions of Section 42200, a district may accumulate from year to year any unencumbered balance derived from the tax levied under Section 42200, provided that the accumulated money is ultimately expended for a purpose authorized

by Sections 10900 to 10915, inclusive, Sections 40040 to 40058, inclusive, or Sections 44813 and 44814.

42202. Effective September 4, 1973, and thereafter, the revenue limit per unit of average daily attendance for any elementary, high school, and unified district, as computed pursuant to law for any school year affected, may be increased and, having been increased, may be decreased, by an amount equal to or less than the amount of such increase, by a majority vote of the qualified electors of the school district at an election which may be ordered by the governing board of the school district of its own motion and shall be ordered within 90 days after the filing with the governing board of a petition signed by not less than 10 percent of the registered voters of the district, requesting that an election be ordered, unless the petitioners request that the election be consolidated with the annual election for members of the governing board, or that the election be consolidated with the general election.

The governing board shall determine whether the increase or decrease shall remain in effect for a specified or unspecified period of time, unless the petition filed by the electors provides for a specified or unspecified period of time. If a specified period is provided for in the petition or determined upon by the governing board, such period shall be stated on the ballot.

Pursuant to the order of the governing board, the election shall be called, held, and conducted as nearly as is practicable in accordance with the provisions of Chapter 3 (commencing with Section 5300) of Part 4 of Division 1 of Title 1.

The specification of the election order shall contain the information provided in Section 5322 and shall be furnished by the governing board of the district for all revenue limit increase or decrease elections ordered by it.

The costs incurred by the county clerk or registrar of voters and the county superintendent of schools in connection with this section shall be paid out of the funds of the district.

Except as otherwise herein provided, the ballot used in the election shall contain substantially the words "Shall there be authorized an (increase, decrease) in the revenue limit per unit of average daily attendance in the amount of \_\_\_\_\_ dollars (\$\_\_\_\_\_), such (increase, decrease) to be effective in the \_\_\_\_\_ School District for (the school year 19\_\_-\_\_ only; the school years 19\_\_-\_\_ through 19\_\_-\_\_; \_\_\_\_\_ school years commencing 19\_\_-\_\_), the revenues of which are to be used for \_\_\_\_\_?"

"This (increase, decrease) would constitute an (increase, decrease) for the school year 19\_\_-\_\_ from approximately \_\_\_\_\_ dollars (\$\_\_\_\_\_ ) to approximately \_\_\_\_\_ dollars (\$\_\_\_\_\_ ) per unit of average daily attendance.

"The proposed (increase, decrease) of the revenue limit of \$\_\_\_\_\_ per unit of average daily attendance will authorize an (increase, decrease) in the estimated maximum general purpose tax rate of the district in the first year \_\_-\_\_ from approximately \$\_\_\_\_\_

[the approximate maximum general purpose tax rate which would be applicable in 19\_\_-\_\_ in the event this proposition is not approved, although the maximum general purpose tax rate of the district for 19\_\_-\_\_ was approximately \$\_\_\_\_\_] to approximately \$\_\_\_\_\_ for each one hundred dollars (\$100) of assessed valuation of property." (The explanatory language set forth above in brackets may, at the option of the district governing board, be eliminated or appropriately modified.) Opposite such words, in separate lines, the words "Yes" and "No" shall be printed, with a voting square opposite each such word. If, at any prior election held in the district after July 11, 1973, the revenue limit of the district had been increased for a specified period of time, and if the election is called for the purpose of continuing in effect the previously authorized increase in the revenue limit per unit of average daily attendance of the district, the ballot shall contain substantially the words "Shall the existing revenue limit increase of \_\_\_\_\_ dollars (\$\_\_\_\_\_) per unit of average daily attendance be continued in the \_\_\_\_\_ School District for the school years 19\_\_-\_\_ through 19\_\_-\_\_, the revenues of which are to be used for \_\_\_\_\_?" Opposite such words in separate lines, the words "Yes" and "No" shall be printed with a voting square opposite each such word. Each voter shall stamp a cross in the voting square after the answer he desires to give.

Whenever the revenue limit per unit of average daily attendance of a school district is increased for either a specified or unspecified period of time and during such period an election is called for the purpose of further increasing the revenue limit per unit of average daily attendance of the district, the ballot used in the election shall show only the authorized revenue limit increase per unit of average daily attendance of the district in effect at the time of the election and the proposed revenue limit increase per unit of average daily attendance.

If an election for a decrease in an increased revenue limit of a district is held in any year prior to or concurrently with the district election for governing board members, any decrease adopted at such election shall become effective on July 1 following the election. If an election for a decrease in a revenue limit of a district is held in any year after the date of the district election for governing board members, any decrease adopted at such election shall not become effective until July 1 of the next succeeding year.

42203. The repeal, by the act enacting this section, of Sections 42202 and 85112 shall not operate to invalidate the results of any election ordered, called or conducted prior to the effective date of this section, and the legal effectiveness of any ballot proposition used in any such election, which ballot proposition substantially complies with the wording authorized by such repealed sections, or with the purpose and intent of such repealed sections, is hereby ratified and confirmed to the full extent of the power of the Legislature to do so. Any school district election for an increase or decrease in the revenue limit of such district ordered by the governing board prior

to the effective date of this section, in which the ballot proposition substantially complies with the wording authorized by Section 42202, as added by the act enacting this section, or which substantially complies with the intent and purpose of these newly added sections, shall be as fully effective as they would be had this newly added Section 42202 become effective prior to the ordering of such elections.

42204. Any such increase or decrease in tax rates or revenue limits shall remain in effect only for the period specified on the ballot, if such period was specified by the governing board.

42205. Whenever a high school district and a community college district which are coterminous have, pursuant to provisions of Section 85112, increased the combined tax rate otherwise applicable to the districts, and thereafter, the districts cease to be coterminous, the maximum tax rate of the high school district shall be the previously authorized combined tax rate less thirty-five cents (\$.35) on each one hundred dollars (\$100) of assessed valuation.

42206. Notwithstanding any provision of law to the contrary, no election for the purpose of increasing or decreasing any maximum tax rate for any school district shall be held within 45 days before a statewide election or within 45 days after a statewide election unless conducted at the same time as such statewide election, subject to the provisions of Chapter 4 (commencing with Section 23300) of Part 2 of Division 12 of the Elections Code.

42207. Any election called pursuant to Sections 42200 to 42204, inclusive, may be consolidated with any other election pursuant to the provisions of Chapter 4 (commencing with Section 23300) of Part 2 of Division 12 of the Elections Code.

42210. The maximum rate of school district tax for any fiscal year is hereby increased by such amount as will provide the amount of the proposed expenditures for programs for educating handicapped pupils under Sections 56600 to 56618, inclusive, which are in excess of state apportionments as shown by the budget of the district as finally adopted by the governing board of the district.

Such proposed expenditures may include the cost of equipment and facilities, the lease or lease-purchase of buildings, lease of land, alterations or additions to existing buildings, or other necessary capital outlay expenditures in connection with such programs.

If at the end of any fiscal year there remains an unencumbered balance derived from the revenue of the increase in tax rate hereby provided, such balance shall be used exclusively in the following fiscal year for the expenditures of the school district during that year required or authorized by Sections 56600 to 56618, inclusive.

42211. (a) The maximum rate of any elementary or unified school district is, commencing with the fiscal year 1964-65, increased by an amount sufficient to produce the amount by which the cost during the current fiscal year, of tuition or of educating pupils in grades 7 and 8, exceeds the cost during the current fiscal year of educating pupils in grades kindergarten or 1 through 6 maintained

by the district, exclusive of all federal and state apportionments.

(b) The computations prescribed by subdivision (a) of this section shall be made on the basis of current estimates of cost and average daily attendance, pursuant to rules and regulations of the Superintendent of Public Instruction. The Superintendent of Public Instruction shall also, by rule and regulation, prescribe the accounting procedures and all other procedures to govern the fixing of district tax rates and the disposition of the additional tax revenues provided pursuant to this section.

Of the additional tax revenues provided pursuant to this section, there shall be expended by a school district during a fiscal year, no more than the actual additional cost during that fiscal year of educating pupils in grades 7 and 8 as computed for purposes of subdivision (a). If at the end of any fiscal year there remains an unencumbered balance derived from the revenue of the increase in tax rate hereby provided, such balance shall be used exclusively in the following fiscal year for the payment of the obligations for which such tax revenues are afforded by this section and to offset such tax rate increase. If an elementary school district withdraws from a junior high school or a system of junior high schools pursuant to Sections 37085 to 37088, any such remaining unencumbered balance derived from the revenue of the increase in tax rate hereby provided may be transferred by resolution of the governing board of the elementary school district to the general fund. In the fiscal year following such transfer, the amount of such remaining unencumbered balance which is transferred to the general fund of the district shall be used to reduce the amount for which the maximum rate of school district tax may be increased pursuant to subdivision (a) of this section for the purposes of educating pupils in grades 7 and 8 in such elementary school district.

42212. (a) The maximum tax rate of a high school district which maintains a junior high school is, commencing with the fiscal year 1964-1965, increased by an amount sufficient to produce the amount by which the cost during the current fiscal year, of educating pupils in grades 7 and 8, exceeds the total of federal and state apportionments and the tuition payments received by the district during the current fiscal year for such pupils pursuant to Section 37062. The rate of tax for such purpose shall not be levied on the assessed valuation of any elementary district included in such high school district if the elementary district has 10 percent or less of the pupils in grades 7 and 8 who reside in the elementary district attending a junior high school of the high school district.

(b) The computations prescribed by subdivision (a) shall be made on the basis of current estimates of cost and average daily attendance, pursuant to rules and regulations of the Superintendent of Public Instruction. The Superintendent of Public Instruction shall also, by rule and regulation, prescribe the accounting procedures and all other procedures to govern the fixing of district tax rates and the disposition of the additional tax revenues provided pursuant to this section.

Of the additional tax revenues provided pursuant to this section, there shall be expended by a school district during a fiscal year, no more than the actual additional cost during that fiscal year of educating pupils in grades 7 and 8 as computed for purposes of subdivision (a). If at the end of any fiscal year there remains an unencumbered balance derived from the revenue of the increase in tax rate hereby provided, such balance shall be used exclusively in the following fiscal year for the payment of the obligations for which such tax revenues are afforded by this section and to offset such tax rate increase.

42213. The maximum rate of school district tax is hereby increased for any school year for any school district which is obligated to pay to another school district tuition or other expenses of educating pupils in grades 7 and 8 in a junior high school. The increase in such maximum tax rate shall be in the amount necessary to produce that part of such tuition or expense obligation which represents the allocation, by the district maintaining the junior high school, of any part of its retirement or health and welfare benefit contributions under Sections 23900 and 23903, Sections 20532, 22551 and 22553 of the Government Code, and Article 1 (commencing with Section 53200) of Chapter 2 of Part 1 of Division 2 of Title 5 of the Government Code, less any unencumbered balances remaining at the end of the preceding school year derived from the revenue from the increase in the rate of tax provided by this section.

If at the end of any school year there remains an unencumbered balance derived from the increase in tax rate hereby provided, such balance shall be used exclusively in the following school year for the payment of such obligations of the district.

42214. (a) This section shall only apply to those counties having a population in excess of 4,000,000 and to every school district within such a county for which the board of supervisors fixes the annual school district tax rate.

(b) Upon written request of the governing board of any school district submitted to the county assessor on or before the 20th day of February, the county assessor shall not later than the succeeding 15th day of May advise in writing the governing board of the school district the estimated total assessed valuation of taxable property in the district for the next succeeding fiscal year, together with the estimated total assessed valuation of all taxable property appearing on the secured roll, the unsecured roll, and solvent credits.

## Article 2. Property Tax Revenue Control

42230. Notwithstanding any other provisions of law, for the 1973-74 fiscal year, and fiscal years thereafter, the maximum tax rate for school districts other than community college districts shall be as provided in this article.

42231. Commencing on July 1, 1973, the maximum school district

tax rate of any school district maintaining kindergarten and any of grades 1 to 12, inclusive, shall be the rate computed pursuant to this article. In addition, each such district may levy a tax as authorized in Section 4147, 8329, 15250, 15742, 16090, 16196, 16204, 16205, 16214, 16302, 39229, 39230, 39308, 39311, 42200, 42202, 42402, 49502, or 56811 of the Education Code, Section 52317 of the Education Code for the purposes prescribed in Section 52312 of the Education Code, but no greater than five cents (\$.05) per one hundred dollars (\$100) of assessed valuation, and Section 5302.5 of the Streets and Highways Code. Any other provision of law fixing the maximum school district tax rate for any such district or authorizing the levy and collection of taxes for any other purpose is hereby superseded and declared inoperative as to such districts.

**42232.** For purposes of Section 42233, for the 1973-74 fiscal year the maximum general purpose tax rate of a unified school district, which district was effective for all purposes on July 1, 1973, and the formation of which was approved by the voters on June 6, 1972, shall be a rate computed by adding: (1) the rate set out in the ballot proposition for the election which approved the formation of said unified district, (2) such additional rates, not exceeding one dollar and fifty cents (\$1.50) for each one hundred dollars (\$100) assessed valuation of taxable property in the district, as the district could have levied if those permissive override taxes which are made inoperative by Section 42231 were allowed in fiscal year 1973-74, and (3) an additional rate approved by the State Superintendent of Public Instruction which in his opinion would raise sufficient revenues to offset inflationary factors which have occurred since June 30, 1971.

Each of those districts for which this section provides a maximum general purpose tax rate shall have its revenue limit per unit of average daily attendance for the 1974-75 fiscal year determined from the actual revenue limit per unit of average daily attendance for the 1973-74 fiscal year. The actual revenue limit per unit of average daily attendance for the 1973-74 fiscal year is defined as the sum of: (1) all income from the general purpose tax rate levied in the 1973-74 fiscal year, (2) the actual state aid for the foundation program in 1973-74 fiscal year as determined from the second principal apportionment, (3) any equalization offset tax income received in the 1973-74 fiscal year, and (4) any income from the unsecured roll or prior year taxes received in the 1973-74 fiscal year that are related to the maximum general purpose tax rate, divided by the average daily attendance of the second principal apportionment for the 1973-74 fiscal year.

**42233.** For the purposes of this section, the assessed valuation used in computing revenue limits and the maximum tax rate is defined as the total actual assessed valuation, including business inventory and homeowners exemption and exclusive of the assessed valuation increment used to allocate tax receipts to a redevelopment agency pursuant to Article 6 (commencing with Section 33670) of Chapter 6 of Part 1 of Division 24 of the Health and Safety Code.

For the purposes of this section, the revenue limit computational

tax rate is defined as the district's fiscal year tax rate exclusive of tax rates provided in Section 4147, 49502, 56811 but no greater than five cents (\$.05) per one hundred dollars (\$100) of assessed valuation, 8329, 15742, 15250, 16090, 16196, 16204, 16214, 39229, 39230, 39308, 39311, 42200, 42402, or 56811 of the Education Code, Section 52317 of the Education Code for the purposes prescribed in Section 52312 of the Education Code, but no greater than five cents (\$.05) per one hundred dollars (\$100) of assessed valuation, and Section 5302.5 of the Streets and Highways Code. In computing the sum of the tax rates pursuant to this section, Section 42212 shall be considered a rate upon the elementary district taxed and not on the high school district.

(a) For the 1973-74 fiscal year only, the county superintendent of schools shall compute for each school district in the county an amount equal to the sum of (1) the district's 1972-73 fiscal year revenue limit computational tax rate, multiplied by the actual assessed valuation on the secured roll of the district for the 1972-73 fiscal year, and the district's 1971-72 fiscal year revenue limit computational tax rate, multiplied by the assessed valuation on the unsecured roll of the district for the 1972-73 fiscal year, (2) the amount of areawide aid received by the district for the 1972-73 fiscal year, (3) 32½ percent of the residual retirement reserve transferred under Chapter 117 of the Statutes of 1972, (4) the total amount of basic state aid, equalization aid, supplemental support, and inflation cost adjustment which the districts received pursuant to the provisions of this code and the Budget Act of 1972 as computed by the Superintendent of Public Instruction, and (5) the amount of income from the equalization offset tax pursuant to Section 41203.

(b) The amount computed in subdivision (a) shall be divided by the foundation program average daily attendance in the second principal apportionment and shall be the 1972-73 base revenue per unit of average daily attendance.

(c) The base revenue per unit of average daily attendance for each district shall be divided into the following amounts per unit of average daily attendance: for elementary districts, nine hundred dollars (\$900); for high school districts, one thousand one hundred sixty-five dollars (\$1,165); for unified districts, nine hundred eighty dollars (\$980). If the result is greater than 1 it shall be deemed to be 1.

(d) The quotient determined pursuant to subdivision (c) shall be multiplied by seventy dollars (\$70) per unit of average daily attendance.

(e) The product determined pursuant to subdivision (d) shall be added to the base revenue per unit of average daily attendance determined pursuant to subdivision (b) and multiplied by the estimated foundation program unit of average daily attendance in the second principal apportionment of the districts for the 1973-74 fiscal year.

(f) The amount computed pursuant to subdivision (e) shall be

compared with the total amount computed for the district pursuant to Article 1 (commencing with Section 41700) of Chapter 5 of this part, excluding Section 41716, Article 2 (commencing with Section 41730) of Chapter 5 of this part, and subdivision (a) of Section 41840. The larger of the two amounts shall be the revenue limit of the district for the 1973-74 fiscal year but in no case shall exceed 116 percent of the 1972-73 base revenue per unit of average daily attendance multiplied by the 1973-74 fiscal year estimated foundation program average daily attendance or the 1972-73 base revenue per unit of average daily attendance plus seventy dollars (\$70) multiplied by the 1973-74 fiscal year estimated foundation program average daily attendance, whichever is higher. This revenue limit is exclusive of federal funds and state funds except those specified in subdivision (a).

In lieu of the revenue limit determined pursuant to the preceding paragraphs of subdivision (f) a district may request the county superintendent of schools to determine its revenue limit for the 1973-74 fiscal year using either, but not both, of the two following methods:

(1) Determine the base revenue per average daily attendance for the 1972-73 fiscal year by including the unused portion of a voted override in the revenue limit computational tax rate, use sixty-five dollars (\$65) instead of seventy dollars (\$70) as the computational amount in subdivision (d), use 115 percent instead of 116 percent as the computational limit in subdivision (f). For purposes of this paragraph, the unused portion of a voted override shall be determined as the difference between the total of the maximum tax rate approved by an election pursuant to Section 85112 added to the actual tax rates levied, in the same fiscal year during which the election was held, for all other purposes except pursuant to Sections 4147, 49502 but no greater than five cents (\$.05) per one hundred dollars (\$100) of assessed valuation, 15742, 15250, 16090, 16196, 16204, 16214, 39229, 39230, 39308, 39311, 42200, and 56811 of the Education Code, Section 52317 of the Education Code for the purposes prescribed in Section 52312 of the Education Code, but no greater than five cents (\$.05) per one hundred dollars (\$100) of assessed valuation, and Section 5302.5 of the Streets and Highways Code, and the actual tax levied for the 1972-73 fiscal year, including the areawide tax rate levied but exclusive of the tax rates levied pursuant to Sections 4147, 49502 but no greater than five cents (\$.05) per one hundred dollars (\$100) of assessed valuation, 15742, 15250, 16090, 16196, 16204, 16214, 39229, 39230, 39308, 39311, 42200, and 56811 of the Education Code, Section 52317 of the Education Code for the purposes prescribed in Section 52312 of the Education Code, but no greater than five cents (\$.05) per one hundred dollars (\$100) of assessed valuation, and Section 5302.5 of the Streets and Highways Code.

(2) Determine the base revenue per average daily attendance for the 1972-73 fiscal year by including an amount equal to the

unrestricted balance used to balance income to expenditures in the 1972-73 fiscal year with such amount not to exceed 3 percent of the total expenditures plus tuition excluding debt service and transfers in the General Fund for the 1972-73 fiscal year, use sixty-five dollars (\$65) instead of seventy dollars (\$70) as the computational amount in subdivision (d), use 115 percent instead of 116 percent as the computational limit in subdivision (f). For purposes of this paragraph, the unrestricted balance shall be determined as the difference when the ending balance, less restricted amounts plus transfers of unrestricted amounts to other funds which remain as ending balances in other funds, is subtracted from the beginning balance, less restricted amounts in the 1972-73 General Fund.

Notwithstanding subdivision (f), if, due to changes in federal legislation or administrative policy, the entitlement under Public Law 81-874 is reduced or discontinued and is not replaced by other federal funding, and if a district experiencing such loss has a revenue limit less than the foundation program, it shall be allowed to increase the revenue limit by an amount equal to the difference between the Public Law 81-874 income per unit of foundation program average daily attendance of the 1972-73 fiscal year and the estimated Public Law 81-874 income per unit of foundation program average daily attendance of the 1973-74 fiscal year, if any, multiplied by the estimated foundation program average daily attendance of the 1973-74 fiscal year. Such increased revenue limit shall not exceed the foundation program of the 1973-74 fiscal year.

(g) From the revenue limit ascertained from the comparison made pursuant to subdivision (f), there shall be subtracted the total amount of basic state aid and state equalization aid to be received by the district during the 1973-74 fiscal year, as adjusted by repayment of any advances authorized by Section 41331, the amount of areawide aid to be received for the 1973-74 fiscal year, and the amount of income to be received from the equalization offset tax pursuant to Section 41203.

(h) The amount determined pursuant to subdivision (g) shall be (1) adjusted as provided in subdivision (d) of Section 46605 and (2) adjusted sufficiently to allow for the mandated increases for district contributions for the State Teachers' Retirement System as required by Section 23400. Such adjustment, together with any rate levied in the 1972-73 fiscal year pursuant to Section 23401, shall not exceed the revenue derived by the tax rate provided in Section 23401.

(i) The amount computed pursuant to subdivision (h) shall be the local revenue limit of the district for the 1973-74 fiscal year. From the local revenue limit, there shall be subtracted 32½ percent of the residual retirement reserve transferred under Chapter 117 of the Statutes of 1972.

(j) From the amount computed in subdivision (i), there shall be subtracted, (1) the amount of money collected or to be collected as taxes on property on the unsecured roll of the 1973-74 fiscal year, excluding the amounts collected through the levy of taxes provided

in Section 4147, 8329, 15250, 15742, 16090, 16196, 16204, 16205, 16214, 16302, 39229, 39230, 39308, 39311, 42200, 42402, 49502 or 56811 of the Education Code, Section 52317 of the Education Code for the purposes prescribed in Section 52312, but no greater than five cents (\$.05) per one hundred dollars (\$100) of assessed valuation, and Section 5302.5 of the Streets and Highways Code and (2) the income from prior year taxes.

(k) The amount determined pursuant to subdivision (j) shall be divided by the amount of actual assessed valuation of the district on the secured roll after due allowance for delinquencies pursuant to Section 14203. The quotient multiplied by 100 shall be the tax rate on each one hundred dollars (\$100) of such assessed valuation and shall be the maximum general purpose rate which may be levied in the district during the 1973-74 fiscal year, exclusive of taxes provided in Section 4147, 8329, 15250, 15742, 16090, 16196, 16204, 16205, 16214, 16302, 39229, 39230, 39308, 39311, 42200, 42402, 49502, or 56811 of the Education Code, Section 52317 of the Education Code for the purposes prescribed in Section 52312, but no greater than five cents (\$.05) per one hundred dollars (\$100) of assessed valuation, and Section 5302.5 of the Streets and Highways Code. The revenue limit in subdivision (f) notwithstanding, in no case for districts receiving state equalization aid, shall the tax rate be reduced below one dollar (\$1) on the elementary level or eighty cents (\$.80) on the high school level or one dollar and eighty cents (\$1.80) for a unified school district, except that when the district has levied upon it an areawide tax, such areawide tax rate levied shall be considered first as part of the minimum tax rate limit.

42234. Any voted increase in the maximum tax rate, to be effective commencing with the 1973-74 fiscal year, which does not have a termination date shall be added to the 1972-73 fiscal year and 1971-72 fiscal year tax rates used to determine the 1972-73 base revenue per unit of average daily attendance.

Any voted increase in the maximum tax rate, to be effective commencing with the 1973-74 fiscal year, which does have a termination date shall be multiplied by the total estimated assessed valuation for the 1973-74 fiscal year, and the result divided by the estimated foundation program average daily attendance of the second principal apportionment for the 1973-74 fiscal year. This override tax revenue per unit of average daily attendance shall be added to the revenue per unit of average daily attendance for the 1973-74 fiscal year prior to the computation of the revenue limit of the district for the 1973-74 fiscal year pursuant to subdivision (f) of Section 42233. For the computation of the revenue limit of the district for the year immediately following the last year of authorization of the voted override, the amount of this increase as it actually affected the revenue limit shall not be included.

Notwithstanding the provisions of this or any other section of the Education Code, in those school districts having (a) a modified assessed valuation in 1972-73 between eighty-two million dollars

(\$82,000,000) and eighty-three million dollars (\$83,000,000), (b) a second period elementary average daily attendance in 1972-73 between 6,500 and 7,100, and (c) a second period high school average daily attendance in 1972-73 between 2,500 and 3,000, and whose electors did approve a tax override with a termination date at an election held on June 4, 1973, such override to be effective for the 1973-74 fiscal year, the override tax revenue per unit of average daily attendance shall be added to the revenue per unit of average daily attendance for the 1973-74 fiscal year after the computation of the revenue limit of the district for the 1973-74 fiscal year pursuant to subdivision (f) of Section 42233, and this same method shall be used each year for which the override has been authorized by the electors of the district. However, the revenues derived pursuant to the computation prescribed by this paragraph shall not exceed those which would have been derived had the district levied the entire amount of the authorized tax override during the 1973-74 fiscal year.

42235. For any school district in which a voted override tax expired at the end of the 1973-74 fiscal year and which expended, appropriated, or obligated by contract, general purpose tax rate income during the 1972-73 fiscal year for the costs of new buildings or site acquisition, the amount that was expended, appropriated, or obligated by contract during the 1972-73 fiscal year for the costs of new buildings or site acquisition shall be subtracted from the base revenue limit used to determine the revenue limit for the 1974-75 fiscal year.

42236. Notwithstanding Section 42234, any voted increase in the maximum tax rate, to be effective commencing with the 1973-74 fiscal year, which does have a termination date and whose sole purpose was the providing of construction funds shall not be subject to Section 42234, but shall, for each of the applicable fiscal years, be added to the maximum general purpose tax rate otherwise required to be levied.

42237. Any voted increase in the maximum revenue limit to be effective commencing with the 1974-75 fiscal year which has a termination date of June 30, 1979, and whose sole purpose was the providing of construction funds shall be added to the revenue limit in an amount necessary to pay such construction obligations for the applicable fiscal year.

This section shall remain in effect until July 1, 1979, and as of that date is repealed.

42238. For the 1974-75 fiscal year and each fiscal year thereafter, (a) the maximum general purpose tax rate for each elementary, high, and unified school district in the county shall be computed pursuant to this section by the county superintendent of schools.

(b) The revenue limit per foundation program unit of average daily attendance for the district for the prior fiscal year shall be divided into the appropriate foundation program amount per unit of average daily attendance for the prior year. If the quotient is greater than one, it shall be deemed to be one.

(c) The foundation program amount per unit of average daily attendance used as the dividend in subdivision (b) shall be determined by the Superintendent of Public Instruction pursuant to this subdivision. For elementary school districts, it shall be the foundation program for districts which have an average daily attendance of 901 or more. For high school districts it shall be the foundation program for districts with an average daily attendance of 301 or more. For unified districts, it shall be the sum of (1) the foundation program of elementary districts which have an average daily attendance of 901 or more multiplied by the elementary foundation program units of average daily attendance of unified districts in the second principal apportionment, plus (2) the foundation program for high school districts with an average daily attendance of 301 or more multiplied by the high school foundation program units of average daily attendance of unified districts in the second principal apportionment divided by the sum of the elementary and high school units of average daily attendance of unified districts in the second principal apportionment.

(d) The inflation adjustment shall be based on the increase in the foundation program amount per unit of average daily attendance for the budget year compared with the preceding year.

(e) The amount determined pursuant to subdivision (d) shall be multiplied by the quotient determined pursuant to subdivision (b). The resultant amount shall constitute the revenue limit inflation adjustment of the district per unit of average daily attendance.

(f) The revenue limit inflation adjustment shall be added to the prior year revenue limit per foundation program unit of average daily attendance of the district and the sum multiplied by the estimated foundation program average daily attendance of the budget year. The product shall be the revenue limit of the district for the budget year.

(g) Any district which has a revenue limit computed pursuant to subdivision (f) which is equal to or less than the foundation program computed for the district pursuant to Article 1 (commencing with Section 41700) of Chapter 5 of this part, excluding Section 41716, Article 2 (commencing with Section 41730) of Chapter 5 of this part, and subdivision (a) of Section 41840 as adjusted pursuant to subdivision (e) of Section 14002 may increase its revenue limit computed pursuant to subdivision (f) to the lesser of the foundation program level of the district or the prior year revenue limit increased by fifteen percent (15%).

For the 1974-75 and 1975-76 fiscal years only, notwithstanding subdivision (g) if, due to changes in federal legislation or administrative policy, the entitlement under Public Law 81-874 is reduced or discontinued and is not replaced by other federal funding, and if a district experiencing such loss has a revenue limit less than the foundation program, it shall be allowed to increase the revenue limit by an amount equal to the difference between the Public Law 81-874 income per foundation program average daily

attendance of the prior year and the estimated Public Law 81-874 income per unit of foundation program average daily attendance of the budget year, if any, multiplied by the estimated foundation program average daily attendance of the budget year. Such increased revenue limit shall not exceed the foundation program of the budget year.

(h) From the amount computed pursuant to subdivision (f) or (g), there shall be subtracted the basic state aid and state equalization aid to be received for the budget year, areawide aid to be received for the budget year, and the amount of income to be received from the equalization offset tax pursuant to Section 41203.

(i) The amount determined pursuant to subdivision (h) shall be (1) adjusted as provided in subdivision (d) of Section 46605 and (2) adjusted sufficiently to allow for the mandated increases for district contributions for the State Teachers' Retirement System as required by Section 23400. Such adjustment, together with any rate levied in any prior year pursuant to Section 23401, shall not exceed the revenue derived by the tax rate provided in Section 23401. The adjusted amount shall be the local revenue limit of the district for the budget year.

(j) From the amount computed pursuant to subdivision (i), there shall be subtracted the amount of money collected or to be collected as taxes on property on the unsecured roll of the budget year, excluding the amounts collected through the levy of taxes provided in Section 4147, 8329, 15250, 15742, 16090, 16196, 16204, 16205, 16214, 16302, 39229, 39230, 39308, 39311, 42200, 42402, 49502, or 56811 of the Education Code, Section 52317 of the Education Code for the purposes prescribed in Section 52312, but no greater than five cents (\$.05) per one hundred dollars (\$100) of assessed valuation, and Section 5302.5 of the Streets and Highways Code, and (2) the income from the prior year's taxes.

(k) For the purposes of this subdivision, the assessed valuation used in computing the maximum tax rate is defined as the total actual assessed valuation, including business inventory and homeowners exemption and exclusive of the assessed valuation increment used to allocate tax receipts to a redevelopment agency pursuant to Article 6 (commencing with Section 33670) of Chapter 6 of Part 1 of Division 6 of the Health and Safety Code.

The amount determined pursuant to subdivision (j) shall be divided by the amount of actual assessed valuation of the district on the secured roll after due allowance for delinquencies, pursuant to Section 42203. The quotient multiplied by 100 shall be the tax rate on each one hundred dollars (\$100) of such assessed valuation and shall be the maximum general purpose tax rate which may be levied in the district during the 1973-74 fiscal year, exclusive of taxes provided in Section 4147, 8329, 15250, 15742, 16090, 16196, 16204, 16205, 16214, 16302, 39229, 39230, 39308, 39311, 42200, 42402, 49502, or 56811 of the Education Code, Section 52317 of the Education Code for the purposes prescribed in Section 52312 of the Education Code, but no

greater than five cents (\$0.05) per one hundred dollars (\$100) of assessed valuation, and Section 5302.5 of the Streets and Highways Code. The revenue limit in subdivision (g) notwithstanding, in no case for districts receiving equalization aid, shall the tax rate be reduced below one dollar (\$1) on the elementary level or eighty cents (\$0.80) on the high school level or one dollar and eighty cents (\$1.80) for a unified school district, except that when the district has levied upon it an areawide tax, such areawide tax rate levied shall be considered first as part of the minimum tax rate limit.

42239. A district may add in Sections 42233 and 42238 for purposes of increasing the district's revenue limit for the budget year a portion of its loss in average daily attendance when it is anticipated that the estimated second principal apportionment units of average daily attendance, excluding defined adults and summer school average daily attendance, will be less than those of the preceding year. The number of units of average daily attendance to be added is determined as follows:

(a) When the reduction in average daily attendance is less than 1 percent of the preceding year average daily attendance no adjustment is allowed.

(b) When the reduction in average daily attendance is greater than 1 percent of the preceding year average daily attendance, divide the difference in average daily attendance by 1.33 and add the quotient to the estimated average daily attendance of the budget year.

The amount calculated in subdivision (b) shall be considered an addition to the estimated average daily attendance for purposes of increasing the revenue limit, but shall not be used to compute state apportionments.

This amount of adjustment in estimated units of average daily attendance shall be allowed without requiring a reduction in the revenue limit in the subsequent year which otherwise would be required pursuant to Section 42245, except that to the extent that actual data differs from the estimated unit of average daily attendance used in this section, Section 42245 shall be applicable.

42240. Commencing with the 1974-75 fiscal year, a school district shall reduce its revenue limit as authorized in Section 42238 by the estimated amount of open-space subvention to be received pursuant to Sections 16148 to 16153, inclusive, of the Government Code. The Superintendent of Public Instruction shall prescribe the method of estimating the open-space subvention to be received. This section shall be subject to the provisions of Section 42245.

42241. (a) The revenue limit of a school district is increased or decreased by the amount computed pursuant to this section.

(b) The county superintendent of schools shall ascertain the amount of district contributions which was paid from local taxes pursuant to Section 56031 in the 1972-73 fiscal year.

(c) He shall ascertain the amount of district contributions which is to be paid from local taxes pursuant to Section 56031 in the then

current fiscal year.

(d) If the amount determined pursuant to subdivision (c) is greater than that determined pursuant to subdivision (b), the revenue limit for the following fiscal year shall be increased by an amount equal to the difference.

(e) If the amount determined pursuant to subdivision (c) is less than that determined pursuant to subdivision (b), the revenue limit for the following fiscal year shall be decreased by an amount equal to the difference.

(f) If the amount determined in both subdivisions (b) and (c) is the same, there is no change in the revenue limit computed pursuant to this section.

42241.5. The revenue limit per unit of average daily attendance of a unified school district the boundaries of which are coterminous with those of a city and county shall be increased, or decreased, as the case may be, by the amount necessary to reflect or accommodate any change in the property tax revenues allocable to the district for public school purposes or any change in expenditures required of the district for public school purposes resulting from an election affecting such revenues or expenditures conducted pursuant to the charter of the city and county. Such revised revenue limit shall be in effect for the entire 1975-76 fiscal year.

42242. Each school district shall increase its 1974-75 base revenue limit as authorized in Section 42238 by the amount of open-space subvention it received for the 1972-73 fiscal year pursuant to Sections 16148 to 16153, inclusive, of the Government Code.

42243. Notwithstanding Section 42238, the revenue limit determined pursuant to Section 42238 shall be decreased to offset amounts required to be paid from the development center for the handicapped pupils fund pursuant to Section 56815 and the child development fund pursuant to Section 8328 for contributions authorized or required to be paid by the district on account of services of employees of a development center for the handicapped and services of employees providing child development services.

42243.5. (a) The revenue limit of a school district is increased or decreased by the amount computed pursuant to this section.

(b) The county superintendent of schools shall ascertain the amount of district contributions which was paid from local taxes pursuant to Sections 59021, 59121, and 59221 in the 1972-73 fiscal year.

(c) He shall ascertain the amount of district contributions which is to be paid from local taxes pursuant to Sections 59021, 59121, and 59221 in the then current fiscal year.

(d) If the amount determined pursuant to subdivision (c) is greater than that determined pursuant to subdivision (b), the revenue limit for the following fiscal year shall be increased by an amount equal to the difference.

(e) If the amount determined pursuant to subdivision (c) is less than that determined pursuant to subdivision (b), the revenue limit for the following fiscal year shall be decreased by an amount equal

to the difference.

(f) If the amount determined in both subdivisions (b) and (c) is the same, there is no change in the revenue limit computed pursuant to this section.

42244. Commencing September 4, 1973, the revenue limit prescribed by Section 42238 may be exceeded upon approval of a majority of the electors of the district voting on a proposition to that effect pursuant to Section 42202. Such approval may be granted for any period of time, and shall be added to the budget year revenue limit per foundation program unit of average daily attendance of the district as determined in subdivision (g) of Section 42238 in computing the maximum general purpose tax rate for each year in which the voted revenue limit increase is effective.

For the fiscal year following the last year in which the voted revenue limit increase is authorized, the amount of the voted revenue limit increase as it actually affected the revenue limit shall be subtracted from the revenue limit per foundation program unit of average daily attendance of the district as determined in subdivision (g) of Section 42238. This section shall be subject to Section 42245.

Notwithstanding anything to the contrary in Section 42202, the revenue limit shall be that prescribed by state law plus the amount of increase approved by the electors, and need not be the revenue limit set forth in the ballot proposition prescribed by that section prior to July 1, 1974.

42245. Whenever the computation required by Section 42233 or 42238 results, because of estimating or other errors, in a total revenue limit in an amount more or less than actual data would have produced, the revenue limit for the succeeding fiscal year shall be reduced by an amount equal to the amount of the error if the total produced was more, and may be increased by an amount up to the amount of the error if the total produced was less.

Whenever the collection and distribution of local taxes from the secured roll results in an amount more or less than the taxes required as computed by Section 42233 or 42238, the local tax requirement for the succeeding fiscal year shall be reduced by an amount equal to the amount of the difference if the total received was more, and may be increased by an amount up to the amount of the difference if the total received was less.

42246. The unexpended proceeds of any permissive tax rate, the authorization for the levy and collection of which has been made inoperative by this article, shall be transferred to the general fund of the district on July 1, 1973. The consolidation of all tax rates previously permitted and now included to the extent needed within the total general fund rate does not preclude districts from expending funds for the purposes normally supported by such permissive restricted overrides in prior years.

42247. It is the intent of the Legislature that an interim study be conducted on wealth equalizing among school districts, including but not limited to such means of wealth equalizing as variable foundation programs, power or wealth equalizing, and wealth pooling.

## CHAPTER 8. AREAWIDE TAX, ELEMENTARY SCHOOLS AND HIGH SCHOOLS

### Article 1. Levy and Collection of Taxes

42400. For purposes of this chapter:

(a) Each elementary school district shall be deemed to comprise the kindergartens and grades 1 to 8, inclusive, maintained by the district, and the seventh and eighth grades of the district not maintained by the district because of the attendance upon a junior high school of pupils who would otherwise attend upon seventh and eighth grades maintained by the district.

(b) Each high school district shall be deemed to comprise all of grades 9 to 12, inclusive, maintained within the high school district whether maintained by a high school district or by a community college district.

(c) Each unified school district shall be deemed to be an elementary school district comprising the kindergartens and grades 1 to 8, inclusive, maintained by the district and the seventh and eighth grades of the district not maintained by the district in elementary schools because of the attendance upon a junior high school of pupils who would otherwise attend the seventh and eighth grades maintained in elementary schools by the district, and a high school district comprising all of grades 9 to 12, inclusive.

(d) In determining to which particular districts apportionments shall be made, the rules prescribed by Sections 41606, 41607, and 41608 for purposes of apportionments from the State School Fund shall be utilized.

42401. The provisions of this chapter shall not be applicable to the territory of any school district included in a unification proposal, pursuant to the provisions of Chapter 1246 of the Statutes of 1967, which was rejected by the electorate, and which has been restored to existence as a separate elementary school district or high school district, as the case may be, pursuant to the provisions of Chapter 1246 of the Statutes of 1967.

42402. The board of supervisors of each county shall annually, commencing with the fiscal year as specified in Section 41762, at the time and in the manner of levying other county taxes, levy and cause to be collected, as provided in this chapter, additional taxes within the territory included in any school district territory for which a foundation program is computed under Section 41750.

2403. The additional taxes shall be levied and collected throughout the territory for support of the elementary school

districts included therein, if Section 41750 requires the computation of an areawide foundation program for such districts. The additional taxes shall be levied and collected throughout the territory for support of the high school districts included therein if Section 41750 requires the computation of an areawide foundation program for such districts. The taxes to be annually levied and collected shall be as follows:

(a) For elementary school support, at a rate sufficient to provide the amount of elementary school areawide aid for the territory under Section 41762.

(b) For high school support, at a rate sufficient to provide the amount of areawide high school aid computed for the territory under Section 41762.

42404. The moneys received from such taxes shall be deposited in the county treasury to the credit of the elementary school fund or the high school fund, or both, in the amounts collected for and properly allocable to elementary school support and high school support, respectively. The establishment of the elementary school fund and the high school fund in the county treasury is hereby authorized.

42405. Of the moneys received from such taxes, there shall be segregated, by the county treasurer, the portion thereof derived from the territory within any elementary school district, or high school district, which is situated only partially within the county and which is not placed by law under the jurisdiction of the county superintendent of schools. The moneys so segregated shall be transferred to the county treasury of the county whose county superintendent of schools has jurisdiction of the district, to be deposited to the credit of the elementary school fund or high school fund, and such county treasury shall thereafter be the legal depository of the funds.

42406. The distribution of all tax moneys collected upon property of the unsecured roll after the most recent lien date of taxes, for elementary school and high school purposes for a fiscal year as specified in Section 41762, and each fiscal year thereafter, shall be made and an amount be credited to, and allocated from, the elementary school fund or high school fund equal to the amount that would have been deposited to the fund and allocated to each school district had the rates under Section 42402 been applied to the unsecured roll.

## Article 2. Apportionment

42420. The moneys deposited to the credit of the elementary school fund and the high school fund in the county treasury pursuant to Article 1 (commencing with Section 42400) of this chapter, shall be apportioned by the county treasurer to the elementary school districts and the high school districts for which an areawide foundation program was computed pursuant to Section 41750.

Apportionments shall be made upon order of the county auditor issued from time to time and as soon as practicable after deposit of the moneys to the credit of the funds.

The elementary school fund shall be apportioned to the elementary school districts and the high school fund shall be apportioned to the high school districts in the amounts computed by the county auditor.

42421. The county auditor shall compute the amounts of the tax moneys to be apportioned from the elementary school fund to each elementary school district by dividing the amount of the annual tax moneys received and credited to the elementary school fund, by the areawide elementary school foundation program computed for the districts involved, and by multiplying the quotient so derived by the foundation program of the district.

The county auditor shall compute the amounts of the tax moneys to be apportioned from the high school fund to each high school district by dividing the amount of the annual tax moneys received and credited to the high school fund, by the areawide high school foundation program computed for the districts involved, and by multiplying the quotient so derived by the foundation program of the district.

## CHAPTER 9. SCHOOL DISTRICT FUNDS—EXPENDITURES AND APPROPRIATIONS

### Article 1. Control of Expenditures

42600. The total amount budgeted as the proposed expenditure of the school district for each major classification of school district expenditures listed in the school district budget forms prescribed by the Superintendent of Public Instruction shall be the maximum amount which may be expended for that classification of expenditures for the school year. Transfers may be made from the undistributed reserve to any expenditure classification or between expenditure classifications at any time by written resolution of the board of education of any school district governed by a board of education, when filed with the county superintendent of schools and the county auditor, or by written resolution of the board of trustees of any school district not governed by a board of education, when approved by the county superintendent of schools and filed with the county auditor. A resolution providing for the transfer from the undistributed reserve to any expenditure classification must be approved by a two-thirds vote of the members of the governing board; a resolution providing for the transfer between expenditure classifications must be approved by a majority of the members of the governing board. Nothing in this section shall be construed as affecting the provisions of Sections 42204 and 85112.

42601. At the close of any school year the county superintendent of schools may, with the consent of the governing board of a school

district previously given, make such transfers between the undistributed reserve and any expenditure classification or classifications or balance any expenditure classifications of the budget of the district for such school year as are necessary to permit the payment of obligations of the district incurred during such school year.

42602. Notwithstanding the provisions of Sections 42600 and 42610 or any provision of this code to the contrary, the governing board of any school district may, by a majority vote of its membership, and with the approval of the county superintendent of schools, budget and use any unbudgeted income provided during the fiscal year from any source other than local property taxes or the State School Fund, provided that increases in apportionments from the State School Fund to be received during the fiscal year on account of the average daily attendance of pupils in a special program financed by categorical aid from the federal or other governmental source may be budgeted and used under the provisions of this section.

42603. The governing board of any school district may direct that moneys held in any special or restricted fund or account may be temporarily transferred from one or more of these accounts or funds to the general fund of the district to be used for the payment of obligations of the general fund of the district. Such a transfer can be made not more than twice within a fiscal year from the same fund or account and only when the district will receive income sufficient to repay the amount transferred. The amount transferred shall be repaid to the special restricted fund or account either in the same or the following fiscal year, but in any case not more than 120 calendar days after the transfer. No more than 75 percent of the maximum of moneys held in any special or restricted fund or account during a current fiscal year may be transferred pursuant to the provisions of this section during that fiscal year.

## Article 2. Appropriation of Income Budget Excess

42610. All income accruing to the school district in excess of the amounts required to finance the total proposed expenditures, including transfers to other school districts and funds, as shown in the budget of the school district shall be added to the general reserve of the school district, and shall not be available for appropriation by the school district for the current fiscal year except by the following procedure. The governing board of the school district shall, by formal action of the board, pass a resolution setting forth the need according to major classification of school district expenditures to be met from any portion of the general reserve derived from assured income in excess of the total amount anticipated in the budget. The resolution shall be submitted to the county superintendent of schools. If the resolution is approved by the county superintendent of schools it shall, if it involves a sum in excess of one thousand dollars (\$1,000),

be published in the same manner as the budget of the school district concerned is published. Upon the approval of the resolution and, where its publication is required, following its publication, the amount named in the resolution shall be appropriated to the major classification or classifications from the general reserve as set forth in the resolution.

The county superintendent of schools shall approve any resolution for the appropriation of income provided from state or federal sources for emergency needs of the school district to the extent that such income was not anticipated in the budget of the school district.

Nothing in this section shall be construed to authorize the appropriation for current year purposes of income which would deplete the general reserve for the next succeeding fiscal year as provided in the budget of the school district.

On the first day of July of each year, the general reserve together with unexpended balances of appropriations and income in excess of anticipated income for the preceding fiscal year shall be placed to the credit of the school district, and the school district shall include all money so credited in the balance shown in the budget for the ensuing fiscal year.

### Article 3. Temporary Transfer—County to Districts, to Finance Excess Expenditure

42620. Whenever prior to the receipt by any school district or county school service fund of its state, county, city and county, or district funds, any school district or county school service fund of a county or city and county does not have sufficient money to its credit to meet current expenses of maintenance, the board of supervisors of the county or city and county shall order, and the auditor and treasurer of the county or city and county shall make a temporary transfer from any funds of the county or city and county not immediately needed to pay claims against them to the school fund of the district or county school service fund of the amount needed, not exceeding 85 percent of the amount of money which will accrue to the school district or county school service fund during the fiscal year. Upon the making of the transfer the auditor shall immediately notify the superintendent of schools of the county or city and county of the amount transferred. Each transfer of funds requested under this section shall be granted in order of receipt by the board of supervisors, regardless of whether sufficient county funds are available for transfer to meet pending or anticipated requests of school districts.

The funds transferred under this section to the credit of a school district or county school service fund shall be retransferred by the auditor and treasurer to the fund from which they were taken from the first moneys accruing to the school district or county school service fund and before any other obligation of the school district or county school service fund is paid from the money accruing.

42621. The county superintendent of schools of each county with the approval of the County Board of Education, may make temporary transfers to any school district which does not have sufficient money to its credit to meet current operating expenses from the county school service fund, in such amounts and at such times as he deems necessary. Such transfers shall not exceed 85 percent of the amount of money accruing to the school district at the time of transfer. The amounts so transferred shall be repaid to the county school service fund prior to June 30 of the current year from any funds subsequently received by the school district.

42622. The county superintendent of schools, with the approval of the county board of education, may make an apportionment to a school district from the county school service fund conditional upon the repayment to the fund during the next succeeding fiscal year of the amount apportioned to the district and shall, during the next succeeding fiscal year, transfer the amount of such apportionment from the general fund of the district to the county school service fund.

42623. Upon the request of the county board of education on behalf of a newly organized school district, and upon the order of the county board of supervisors of the county or city and county, the auditor and treasurer of the county or city and county shall make a temporary transfer from any funds of the county or city and county not immediately needed to pay claims against them to the general fund of the newly organized school district for the purpose of meeting the current expense of the district until such time as the district receives its first state apportionments or district tax funds. Upon the making of the transfer, the auditor shall immediately notify the superintendent of schools of the county or the city and county of the amount transferred.

The funds transferred under this section to the general fund of a newly organized school district shall be retransferred by the auditor and the treasurer to the fund from which they were taken from the first moneys accruing to the school district after it becomes effective for all purposes pursuant to Section 4000 and before any other obligation of the school district is paid from the money accruing.

#### Article 4. General Provisions—Orders, Requisitions and Warrants

42630. Except as otherwise provided in this code, money shall be paid from the funds of any school district for the payment of the expenses of the district, only as provided in this article.

42631. All payments from the funds of a school district shall be made by written order of the governing board of the district. Orders shall be on forms prescribed by the county superintendent of schools. Forms shall be printed and furnished by the board of supervisors.

42632. Each order drawn on the funds of a school district shall be signed by at least a majority of the members of the governing board

of the district, or by a person or persons authorized by the governing board to sign orders in its name. No person other than an officer or employee of the district shall be authorized to sign orders.

42633. The governing board of each school district shall be responsible for filing or causing to be filed with the county superintendent of schools the verified signature of each person, including members of the governing board, authorized to sign orders in its name. No order on the funds of any school district shall be approved by the county superintendent of schools unless the signatures are on file in his office and he is satisfied that the signatures on the order are those of persons authorized to sign the order.

42634. Each order drawn against the funds of a school district shall be numbered and shall state: (a) the particular fund or funds of the district against which it is drawn, (b) the amount of the payment to be made from each fund, and (c) the rate of salary and the period of service of any employee of the district for whom an order is issued for payment of salary or wages. If drawn for any purpose other than the payment of salaries or wages of school district employees, the order shall be accompanied by an itemized bill showing the separate items and the price of each.

42635. Each order drawn against the funds of a school district shall be transmitted to the county superintendent of schools, and, if approved and signed by him shall become a requisition on the county auditor.

42636. The county superintendent of schools shall examine each order on school district funds transmitted to him, in the order in which it is received in his office. If it appears that the order is properly drawn for the payment of legally authorized expenses against the proper funds of the district, and that there are sufficient moneys in the fund or funds against which the order is drawn to pay it, he shall endorse upon it "examined and approved," and shall, in attestation thereof, affix his signature and number and date the requisition and transmit it directly to the county auditor, in the order in which the order is received in his office.

42637. If at any time during a fiscal year the county superintendent of schools concludes that the expenditures of any school district within his jurisdiction are likely to exceed the anticipated income of the district for that fiscal year, he shall notify such district in writing of such conclusion and he may conduct a comprehensive review of the financial and budgetary conditions of the district. The superintendent shall report his findings and recommendation to the governing board of the district and may include recommendations of methods by which the budgeted expenditures for the balance of the fiscal year may be brought into balance with the revenue of the district. Such report shall be made to the governing board at a public meeting of the governing board. The governing board shall, no later than 15 days after receipt of such report, notify the county superintendent of schools of its proposed

actions on his recommendations.

42638. If the order is disapproved by the county superintendent of schools, it shall be returned to the governing board of the school district, except as otherwise provided in this code for the registration of warrants, with a statement of his reasons for disapproving the order.

42639. The county auditor shall examine each order and requisition on school district funds transmitted to him by the county superintendent of schools. If he allows the order and requisition, he shall endorse thereon "examined and allowed," and shall date, number, and sign it, whereupon it shall become a warrant on the county treasurer. The auditor shall detach any bill attached to the requisition, and shall number the bill, giving it the same number which he gives the warrant, and file it in his office. He shall thereupon return the order, requisition, and warrant to the county superintendent of schools who shall transmit it to the governing board of the school district for issuance to the payee or to his order.

Any requisition of the county superintendent of schools, whether based upon written order of the governing board of a school district or authorized by law, shall constitute full authority for the signature for allowance thereof by the county auditor as a warrant on the county treasurer, and no other authority shall be necessary or required for such action by the county auditor.

"Requisition," as used in this section, includes any order or demand signed by the county superintendent of schools directing the county auditor to draw his warrant on the county treasurer.

42640. In lieu of drawing his warrant as provided in Section 42639, the county auditor may, with the approval of the governing board of the school district, endorse, date, and number the order and requisition and may prepare a separate warrant on the county treasurer for the same amount as the order and requisition. The warrant shall show that it had been drawn on the order of a school district naming the school district and shall show, the payee, date of issue, as well as other information deemed appropriate by the auditor.

The auditor shall draw such separate warrant by signing it and no other signature shall be required. Thereupon the auditor shall transmit the separate warrant to the county superintendent of schools who shall transmit it to the governing board of the school district for issuance to the payee or to his order, or with the approval of the governing board of the school district, shall transmit it to the payee.

The order and requisition may direct the transfer of the amount of the separate warrant from the funds of the district to a clearing fund in the county treasury (to be known as the schools commercial revolving fund), to the end that separate warrants for all districts may be drawn against a single revolving fund.

42641. The governing board of any school district may, with the approval of the county auditor and county treasurer, in lieu of issuing

single orders for the payment of the salary or wages of each employee, issue payroll orders, on forms prescribed by the county superintendent of schools and approved by the Superintendent of Public Instruction, for the payment of the salaries or wages of two or more employees. Payroll orders may be drawn only for the payment of salaries and wages of employees, and shall constitute requisitions on the county auditor and warrants on the county treasurer when approved and signed by the county superintendent of schools and allowed and signed by the county auditor, respectively.

42642. Each payroll order drawn pursuant to this article shall be drawn, approved, and issued in the same manner and shall contain the same minimum content as prescribed for single orders. Each payroll order shall list the names of all employees in whose favor the order is drawn and shall state the amount of money due each.

42643. The superintendent of schools of each county shall keep, open to the inspection of the public, a register of warrants, showing the fund upon which the requisitions have been drawn, the number, in whose favor, and for what purpose they were drawn.

42644. Orders for the payment of wages and payroll orders for the payment of wages of employees employed full time in positions not requiring certification qualifications shall be drawn twice during each calendar month on days designated in advance by the governing board of each school district to which this section is made applicable. Labor performed between the 1st and 15th days, inclusive, of any calendar month shall be paid for between the 16th and 26th day of the month during which the labor was performed, and labor performed between the 16th and the last day inclusive, of any calendar month, shall be paid for between the 1st and 10th day of the following month.

The governing board of each school district which has an average daily attendance of 5,000 or more, and the governing board of each school district with an average daily attendance of less than 5,000 in a county with a population in excess of 4,000,000 persons as determined by the 1960 federal census, shall make the provisions of this section applicable to the board, whenever a majority of the employees of the district employed full time in positions not requiring certification qualifications petition the board in writing to do so.

The governing board of a school district which has an average daily attendance of less than 5,000, other than such a school district situated in a county with a population in excess of 4,000,000 persons as determined by the 1960 federal census, may, on the petition in writing of a majority of the employees of the district employed full time in positions not requiring certification qualifications, make the provisions of this section applicable to the board.

42645. In any unified school district with 100,000 or more average daily attendance as an alternative to the payment procedures prescribed by Section 42644, orders for the payment of wages, and payroll orders for the payment of wages and warrants for the

payment of wages of employees employed full time in positions not requiring certification qualifications shall be drawn once each two weeks, twice a month, or once each four weeks on days designated in advance by the governing board of the district. Labor performed during each such payroll period shall be paid for not later than the eighth working day of the following payroll period.

42646. In any county, the county superintendent of schools, with the approval of the Superintendent of Public Instruction, the county board of education and the county auditor, may prescribe a payroll procedure, to be followed by designated districts in the county, under which the school district governing boards, by use of payroll orders, shall authorize and direct the county superintendent of schools and the county auditor to draw separate payroll warrants in the names of the individual district employees for the respective amounts set forth therein to the end that each employee may be furnished with a statement of the amount earned and an itemization of the amounts withheld therefrom under requirements of the law or by direction of the employee.

Such payroll warrants shall show the closing date of the pay period for which issued and the date of issue and a statement that it is drawn by order of the governing board of the district and shall bear the signature of the county auditor.

To obtain the advantage of a uniform pay period and pay date within school districts, the payroll procedure may specify the ending date of the pay period and, notwithstanding Sections 42644, 45040, and 45048, the date of issue for payroll warrants, except that the issue date shall be on or before the 10th calendar day following the end of the pay period. The payroll procedure may provide for salary payments, including salary advances, more frequently than once a month.

The payroll procedure may provide for payroll orders authorizing salary payments to individual employees on a continuing basis until such time as notifications of changes or adjustments are submitted by the school districts, provided that an itemized listing of payments made under this procedure is furnished to the school district on or before the date of issue of the payroll warrants.

The payroll order may direct the transfer from the districts' funds to a clearing fund in the county treasury, to be known as the schools payroll revolving fund, of the total of the amount of the payroll warrants to be issued under the order to the end that payroll warrants for all districts may be drawn against a single revolving fund. The payroll order may further direct the transfer from the districts' funds of the totals of the various deductions set forth therein to the trust funds in the county treasury entitled to receive credit for them and may further direct the proper disbursement of such trust amounts.

When the payroll procedure provides for payment of salary once each month the payment shall be made on the last working day of the month as required by Section 45166.

42647. With the approval of the Superintendent of Public Instruction, the governing board of a unified school district, or district with over 10,000 average daily attendance may cause to be drawn all warrants on the county treasurer against all the funds, except debt service, of the district in the county treasury in the payment of the expenses of the district. The warrants shall be issued by a person designated as the district auditor or district disbursing officer for the school district on the county treasurer in favor of the persons entitled thereto in payment of all claims chargeable against the district which have been legally examined, allowed, and ordered paid by the governing board. The district auditor shall issue warrants on the county treasurer for all debts and demands against the district when the amounts are fixed by law. The form of the warrant shall be as prescribed by the governing board and approved by the county auditor or county treasurer having jurisdiction.

Notwithstanding Section 42631 of the Education Code, the cost of printing the warrants shall be borne by the district.

No county officer shall be responsible for producing reports, statements, and other data relating to or based on these payments of the expenses of the districts. Those districts issuing warrants as provided by this section shall provide the county superintendent of schools, in the form prescribed by him, with the data necessary to make retirement reports and other reports required of him by law. All warrants, vouchers, and supporting documents shall be kept by the school districts that draw their own warrants.

Notwithstanding Section 27005 of the Government Code, or any other section requiring orders for warrants or warrants to be signed by the county superintendent of schools or the county auditor, or both, the county treasurer shall pay the warrant, if money is available.

Notwithstanding Section 41000 of the Education Code, except for assessing and tax collecting, the county auditor and the county treasurer may charge those districts that draw their own warrants for the cost of all fiscal services.

The person authorized by the governing board of the district to issue warrants pursuant to this section shall execute an official bond in an amount fixed by the governing board conditioned upon the faithful performance of his duties under this section. A county superintendent of schools or a county auditor shall not be liable under the terms of their bonds or otherwise for any warrant issued pursuant to this section. It is not intended that this provision shall be applied so as to impair the obligation of any contract in the bond of such officer in effect on the effective date of this section.

A listing of the warrants issued under this section by each school district shall be forwarded to the county auditor having jurisdiction, upon his request, and to the county superintendent of schools having jurisdiction over the district on the same day warrants are issued. The listing, which may be magnetic tape, punched cards, or in other form, shall report, among other things, the warrant number, date of

the warrant, amount of the warrant, the name of the payee, and the fund on which drawn.

The form and content of the warrant listing shall be as prescribed by the governing board and approved by the county auditor having jurisdiction.

Each unified school district or district with over 10,000 average daily attendance which issues warrants pursuant to this section shall furnish monthly to the county superintendent of schools and the county auditor of the county of jurisdiction, upon his request, a statement showing for the current fiscal year to date, for each required expenditure classification, the amount budgeted, actual expenditures, encumbrances and unencumbered balances.

In order to obtain the approval of the Superintendent of Public Instruction, a unified school district, or district with over 10,000 average daily attendance shall file a written application with the county superintendent of schools of jurisdiction on forms which the Superintendent of Public Instruction shall prescribe. Upon receipt of an application from the district, the county superintendent of schools shall cause a survey to be made of the district's accounting controls by an independent certified public accountant or public accountant in accordance with standards prescribed by the Department of Finance. The certified public accountant or public accountant shall report his findings and recommendations to the county superintendent, county auditor, and to the applicant district. The county superintendent shall forward the district's application, together with his recommendations and the recommendations of the county auditor and the report of survey, to the Superintendent of Public Instruction who shall approve or disapprove the application. The Superintendent of Public Instruction shall approve the application only if he finds the accounting controls of the district are adequate. If the Superintendent of Public Instruction determines that such controls are inadequate, he shall disapprove the application. The county superintendent of schools shall be reimbursed from the district funds for all costs incident to the accounting controls survey made pursuant to the district's application.

When approved by the Superintendent of Public Instruction, the issuance of warrants pursuant to this section shall be effective at the beginning of the fiscal year, provided that the approval had been made prior to the preceding first day of January. If disapproved, the Superintendent of Public Instruction and the county superintendent of schools shall state the specific steps which must be taken by the school district in order to receive approval. If at any time the county superintendent of schools determines that the accounting controls of the district have become inadequate, he may recommend to the Superintendent of Public Instruction that the approval be revoked effective at the first of the fiscal year next following.

42648. The provisions of Article 3 (commencing with Section 29850) of Chapter 5 of Division 3 of Title 3 of the Government Code

shall be applicable to any unified school district, or district with over 10,000 average daily attendance authorized to issue warrants pursuant to Section 42647; except that whenever any reference is made in said Article 3 to (1) the county auditor, or (2) the general fund of the county, such reference shall be deemed, for purposes of this section, to be to (1) the person authorized to issue warrants pursuant to Section 42647, and (2) the general fund of the school district, respectively.

#### Article 5. Void Warrants

42660. Unless otherwise provided by county ordinance, any school warrant not presented to the county treasurer within six months after it was issued is void and any order issued by the governing board of a school district, but not approved by the county superintendent of schools for want of funds, is void if not presented to the county superintendent of schools within two years after notice has been given that the order will be approved on presentation. The county auditor shall each month inform the county superintendent of schools of warrants which have become void during the preceding month and the county superintendent of schools shall transmit such information to the governing board of the school district together with information as to orders which have become void.

Any time within two years from the date on which the original warrant became void, the payee, assignee, or the legal representative or heir of a deceased payee of any warrant which is void as provided in this section may present such warrant to the governing board of the school district which issued the order on which the warrant was drawn, or declare by affidavit that such warrant has been lost or destroyed, and the governing board may adopt an order instructing the county auditor to draw a new warrant in favor of the payee in the same amount as the original warrant, or the governing board may by resolution authorize the county auditor to draw new warrants within the limitations prescribed by the resolution without prior individual order of the governing board, provided the limitations prescribed by this section have been complied with. Any such new warrant shall be subject to the same limitations as the original warrant which it replaces.

42661. Any warrant drawn on the funds of a district retirement system and issued to the claimant thereof but not presented for payment to the county treasurer within two years after it was issued is void and the proceeds of such warrants shall revert to and become a part of the contributions of the district and shall be applied to reduce the cost to the taxpayers of the district maintaining the retirement system. The county auditor shall each month inform the county superintendent of schools of warrants which have become void during the preceding month, and the county superintendent of schools shall transmit such information to the governing board of the school district.

42662. The county superintendent of schools shall keep a record of all orders, or warrants which have become void.

#### Article 6. Orders and Warrants When Moneys Are Not Available

42670. When any order against the funds of a school district is presented to the county superintendent of schools, and the order constitutes a valid claim against the funds of the district, and moneys are not available in the funds of the district from which to pay the order, he shall endorse on the order the words "Not approved for want of funds" and shall register the order in the records of his office.

42671. The county superintendent of schools shall number and date the registered order and shall transmit the registered order to the governing board of the school district which drew the order, and it shall deliver the registered order to the payee or his order. From the date of registration the registered order shall bear interest at the rate of 5 percent per annum until the date upon which notice is given, pursuant to this article, that the county superintendent of schools is ready to approve the registered order.

42672. Whenever moneys are available for the payment of the registered order the county superintendent of schools shall give notice, in a newspaper published in the county, or if there is no newspaper, by written notice posted at the courthouse, stating that he is ready to approve the order. The notice may list any number of registered orders of one or more districts for the payment of which moneys are available, giving the name or names of the district or districts and listing the registered orders in the order of registration for each district.

42673. At the time of giving the notice the county superintendent of schools shall set aside in the funds of each district for a period of 60 days the amount necessary for the payment of the registered orders of the district listed in the notice. If any registered order is not presented to the county superintendent of schools for payment within 60 days after the notice has been given, and moneys are not available to pay the registered order at the time of presentation, it shall not be approved until money becomes available for that purpose and notice is again given that the county superintendent of schools is ready to pay it.

42674. The county superintendent of schools shall approve the registered orders of each district, and sign them as requisitions on the county auditor, in the order of their presentation. He shall enter on each the amount of interest due and the total amount, including principal and interest, payable. Each approved registered order shall thereupon be governed by the procedure established in this code relative to payments from school district funds.

42675. As an alternative to the method provided in Section 42674, when any corporation, firm, or person presents two or more registered orders for payment at the same time, registered on the same date, and issued against the funds of the same district, the

registered orders may be approved, allowed, and consecutively numbered by the county superintendent of schools and the county auditor as requisitions and warrants on the funds of the district, and a special interest requisition may be issued by the county superintendent of schools against the funds of the district for the total amount of the interest payable on the registered orders.

42676. The special interest requisition shall bear upon its face substantially the following notation: "In full payment of interest due on warrants numbered \_\_\_\_ to \_\_\_\_, inclusive, of the \_\_\_\_\_ School District."

42677. The special interest requisition shall be numbered by the county superintendent of schools and county auditor, being given the number immediately succeeding the number assigned to the last of the requisitions and warrants referred to in Section 42675.

42678. The county superintendent of schools shall report to the county treasurer and the county auditor within 10 days after the end of each month the amount of the interest computed pursuant to this article. The report shall show each district for which interest has been computed, the numbers of the registered orders for which the interest is to be paid, and the total amount of the interest charged to each district. He shall also, upon transmitting to the governing board of any school district registered orders which have been approved and allowed as warrants against the funds of the district, report in writing to the clerk or secretary of the district the amount of interest computed on the registered orders and the numbers of the registered orders for which the interest is to be paid.

#### Article 7. Optional Method—Registering Warrants

42690. In lieu of the method provided in Article 6 (commencing with Section 42670) of this chapter for the registration of school district orders, the provisions of this article may be followed upon resolution adopted by the county board of supervisors of any county.

42691. When any order on school district funds is received by the county superintendent of schools and there is insufficient money in the fund or funds against which the order is drawn to pay the order in full, the county superintendent shall endorse on the order "to be registered for lack of sufficient funds," sign, date, and number it as a requisition on the county auditor, and transmit the requisition to the county auditor. The county auditor shall endorse on the order "examined and allowed," sign, date, and number it as a warrant on the county treasurer, and return the warrant to the county superintendent of schools who shall transmit it to the governing board of the school district for issuance to the payee or to his order.

42692. When the warrant is presented to the county treasurer for payment, he shall endorse, register, advertise, and pay it, with interest at the rate of 5 percent per annum, in the manner prescribed, as nearly as may be, for county warrants in Sections 29821 to 29824, inclusive, and Sections 29826 and 29827 of the Government Code.

42693. If the warrants are not again presented for payment within 60 days from the time the notice provided for in Section 29823 of the Government Code is given, the fund set aside for the payment of the warrants shall be applied by the treasurer to the payment of unpaid warrants next in order of registry.

42694. Within 10 days after the end of each month, the county auditor shall report to the superintendent of schools the amount of interest added to registered warrants and paid during the preceding month. The report shall show each district to whose registered warrants, paid during the month covered by the report, interest was added and the amount of the interest for the district. The superintendent of schools shall immediately report, in writing, to the clerk or secretary of each district for which interest was paid, the amount of the interest paid for the district.

## CHAPTER 10. REVOLVING FUNDS, SCHOOL DISTRICTS

### Article 7. Revolving Cash Fund

42800. The governing board of any school district may, with the consent of the county superintendent of schools, establish a revolving cash fund for the use of the chief accounting officer of the district, by adopting a resolution setting forth the necessity for the revolving cash fund, the officer for whom and the purposes for which the revolving cash fund shall be available, and the amount of the fund. The purposes for which the revolving cash fund shall be available shall include the purposes specified in Section 45167. The amount of the fund shall not be more than 2 percent of the district's estimated expenditures for the current fiscal year and shall not in any event exceed twenty-five thousand dollars (\$25,000) for any elementary school or high school district; and fifty thousand dollars (\$50,000) for any unified school district. Three certified copies of the resolution shall be transmitted to the county superintendent of schools. If he approves the establishment of the fund, the county superintendent shall endorse his consent on the resolution and return one copy to the governing body of the district, and transmit one copy to the county auditor.

42801. (a) Except as otherwise provided in subdivision (b) of this section, the officer for whose use the revolving cash fund is created shall file with the governing body of the district a bond in favor of the district, executed by him as principal and by a surety company authorized under the laws of the state to execute bonds as surety, in an amount not less than double the amount of the revolving cash fund. The bond shall be conditioned upon the faithful administration of the revolving cash fund and upon the willingness and ability of the principal to account for and pay over the revolving cash fund at any time upon the demand of the governing board of the district. The premium on the bond shall be a legal charge against

the district, payable from the funds of the district.

(b) In lieu of the bond required by subdivision (a) of this section, an officer may be bonded as provided by Section 41021.

42802. No bond shall be required when the revolving cash fund does not at any time exceed twenty-five dollars (\$25).

42803. The governing board of the district shall draw an order, on the form and in the manner required by law for order, requisition, and warrant for the payment of school moneys, payable from the county or special fund of the district, in favor of the officer for whose use the revolving cash fund is created, for the amount of the revolving cash fund, and transmit the order to the county superintendent of schools accompanied by the bond and a certified copy of the resolution. Upon his approving the order, the county superintendent of schools shall detach and retain the bond. Upon his allowing and signing the warrant, the county auditor shall detach and retain the certified copy of the resolution and the county treasurer shall pay the warrant.

42804. The person entrusted with the revolving fund shall not be authorized to expend any portion of the fund except for services or material, the securing or purchasing of which is a legal charge against the district, and no expenditure shall be made unless a receipt is obtained therefor setting forth the date and the purpose of the expenditure and the amount expended. The governing board of any school district may establish and account for the revolving fund in one or more banks. The account shall be known as "The Revolving Fund Account of (insert name of district) District" and shall be established in the custody of the officer for whose use the revolving cash fund is created who shall be responsible for the payment into the account or accounts of all moneys required to be reimbursed into the account or accounts, and for all expenditures therefrom, subject to such regulations as the governing board prescribes. A bill shall be presented to the district monthly, or oftener if necessary, for the reimbursement of the fund in the same manner as other bills are presented. Bills shall be supported by the receipts required. All sums received in payment of the bills shall be returned to the revolving cash fund or bank account or accounts and each person entrusted with the revolving cash fund shall, upon demand of the county superintendent of schools or the county auditor or of the governing board of the district, give an account of the fund.

42805. The governing board of the district may at any time reduce or discontinue any revolving cash fund established by its order. Whenever the fund is ordered reduced the person using it shall immediately return to the county treasury the amount necessary to reduce the fund, as ordered by the board. If the fund is discontinued, the person using it shall immediately refund the amount thereof to the county treasurer. In either event a reasonable time shall be allowed the person to reimburse himself by bills presented to the school district for expenditures legally made from the fund.

42806. The county superintendent of schools may, with the consent of the county board of education, establish a revolving cash fund for the use of the chief accounting officer of the county superintendent of schools, by adopting a resolution setting forth the necessity for the revolving cash fund, the officer for whom and the purposes for which the revolving cash fund shall be available, and the amount of the fund. The purposes for which the revolving cash fund shall be available shall include the purposes specified in Section 45167. The amount of the fund shall not be more than 2 percent of the estimated expenditures of the county superintendent of schools for the current fiscal year and shall not in any event exceed ten thousand dollars (\$10,000). Three certified copies of the resolution shall be transmitted to the county board of education. If the county board of education approves the establishment of the fund, the chairman shall endorse his consent on the resolution and return one copy to the county superintendent of schools and transmit one copy to the county auditor.

#### Article 2. Alternative Revolving Cash Fund

42810. In addition to establishing or maintaining a revolving cash fund under the provisions of Article 1 (commencing with Section 42800) of this chapter, the governing board of any school district having an average daily attendance of 20,000 or more may, by resolution, establish revolving cash funds for use by school principals and other administrative officials designated by the governing board and acting in accordance with regulations prescribed by the governing board, for services or matériel and for the purposes specified in Section 45167. The resolution shall set forth the necessity for the revolving cash funds, the principals of schools and other administrative officials of the school district designated by the governing board, the purposes for which the revolving cash funds shall be made available, and the amount of such funds. The total amount of such funds for each district shall not exceed 3 percent of the current year's instructional supply budget.

The governing board of any school district may establish a checking account for the revolving fund in one or more banks. The account shall be established in the custody of the principal or other administrative official designated by the governing board for whose use the revolving cash fund is created. The principal or administrative official in whose name the revolving cash fund is created shall be responsible for all expenditures therefrom, subject to such regulations as the governing board prescribes. The governing board shall provide for an audit of such funds on a regular basis.

The revolving cash fund for supplies shall be subject to the bonding provisions of Section 42801.

### Article 3. Prepayment Funds

42820. The governing board of any school district may establish a revolving cash fund in any bank, whose deposits are insured by the Federal Deposit Insurance Corporation, for the purpose of paying bills as prescribed in Section 42821. The provisions of Article 1 (commencing with Section 42800) of this chapter shall not apply to the revolving cash fund established pursuant to this article.

The governing board may appropriate money from the county or joint school district fund in the county treasury belonging to the school district to establish the revolving cash fund.

The maximum amount in the revolving cash fund shall be as follows:

(a) In a school district with 20,000 or more units of average daily attendance, ten thousand dollars (\$10,000).

(b) In a school district with 5,000 or more, but less than 20,000 units of average daily attendance, five thousand dollars (\$5,000).

(c) In a school district with 500 or more, but less than 5,000 units of average daily attendance, two thousand five hundred dollars (\$2,500).

(d) In a school district with less than 500 units of average daily attendance, one thousand dollars (\$1,000).

42821. The governing board of any school district which has established a revolving cash fund pursuant to Section 42820 shall designate a person or persons who shall be authorized to make immediate payments by check, drawn on the revolving cash fund, for purchases in an amount of one hundred dollars (\$100) or less, including tax and freight, or at the time of preparing the order for such purchases to make such check payable to the vendor permitting him to fill in the amount to be paid upon shipment of the purchases, such check to state on its face that it is not valid for more than one hundred dollars (\$100).

A monthly list of such payments shall be submitted to the governing board by the designated person or persons for approval.

Upon approval of such expenditures by the governing board, the clerk of the governing board shall draw an order for the replenishment of the revolving cash fund from the county or joint school district fund in the county treasury belonging to the school district. Such order shall be treated in the same manner as prescribed for payment of other claims against the funds of the school district.

Any person who issues a check drawn on the revolving cash fund shall be personally liable for the amount of the check only if the expenditure is in violation of rules and regulations established by the governing board with respect to the revolving cash fund.

### Article 4. Revolving Warehouse Stock Funds

42830. The governing board of any elementary school district or high school district, may, if the school district maintains a stock of

merchandise for school use, establish a revolving fund for budget control and stock accounting purposes, by adopting a resolution setting forth the necessity for the revolving fund, the purpose for which it shall be used and the amount thereof. Three certified copies of the resolutions shall be submitted to the county superintendent of schools, who, if he approves the establishment of the fund, shall endorse his consent upon the resolution, return one copy to the governing board of the school district and transmit one copy to the county auditor.

The governing boards of two or more school districts of any type may, if the school districts maintain a stock of merchandise for school use, establish a common revolving fund for budget control and stock accounting purposes, by adopting a resolution of each district setting forth the necessity for the revolving fund, the purpose for which it shall be used and the amount thereof. Three certified copies of the resolutions shall be submitted to the county superintendent of schools, who, if he approves the establishment of the fund, shall endorse his consent upon the resolution, return one copy to the governing board of the school districts and transmit one copy to the county auditor.

42831. The amount of the revolving fund shall not exceed an amount from the general fund of the district equal to the average daily attendance of the district for the next preceding year multiplied by fifteen dollars (\$15) plus such amounts as the governing board of the district may, in its discretion, appropriate from other funds of the district, including building funds, and shall be determined as follows: The inventory of stores on hand including the cost of receiving and storing such stores of the school district at the time of the establishment of the fund, which stores and costs have been paid for from school district funds and reported to the county superintendent, plus whatever sum the governing board in its discretion may appropriate from the various funds of the district, including building funds, not to exceed an aggregate sum determined as above, including stores on hand, costs of receiving and storing such stores and designated appropriations, shall be the amount to constitute the revolving fund of the district.

Where a common revolving fund is established for two or more school districts, the amount of the revolving fund shall not exceed an amount from the general funds of the districts equal to the average daily attendance of the districts for the next preceding year multiplied by fifteen dollars (\$15) plus such amounts as the governing boards of the districts, in their discretion, appropriate from other funds of the districts, including building funds, and shall be determined as follows: The inventory of stores on hand including the cost of receiving and storing such stores of each school district at the time of the establishment of the fund which stores and costs have been paid for from school district funds and reported to the county superintendent, plus whatever sums the governing board of each district in its discretion may appropriate from the various funds of

the district, including the building fund, not to exceed an aggregate sum as determined above, including stores on hand, costs of receiving and storing such stores and designated appropriations, shall be the amount to constitute the revolving fund, and each district shall retain its equity in the common fund.

The amount of any revolving fund once established as herein prescribed may be increased to an amount from general funds not in excess of the average daily attendance of the next preceding year multiplied by fifteen dollars (\$15) plus such amounts as the governing board, in its discretion, may appropriate from other funds of the district, including building funds, or decreased, in the discretion of the governing board, as the needs of the district may require, in the same manner and by the same procedure as herein prescribed for establishment of such fund.

Amounts expended from the revolving fund are restored thereto through payments into the revolving fund by warrants drawn on the various funds of the districts, including building funds, for shipments from stores for the use of the districts. The warrants shall be made payable to the "revolving fund of \_\_\_\_\_ (Here insert name or names of the school district or school districts establishing the fund.)"

42832. The revolving fund, when established, shall be used for the purchase of stores to be placed in stock and may be used for the payment of costs of receiving, storing, and delivering stores. Purchases shall be made in the manner prescribed by law. Nothing contained in this article shall be construed as repealing any other provisions of law relating to school district funds.

42833. The revolving fund shall be kept by the county treasurer as a separate fund and shall be subject to such uses only as are provided by law.

42834. The warehouse is a school plant and the costs of maintaining and operating it is a legal charge of the school district, and shall be audited and paid as other claims against the funds of the district.

#### Article 5. Special Reserve Fund

42840. The governing board of a school district may provide for the accumulation over a period of a school years of funds for capital outlay purposes and salaries of school district employees whose work is directly related to projects financed by such funds, derived from the receipt of taxes levied for the district and from other sources including balances, and not required to be used for other than capital outlay purposes.

42841. Upon the filing of identical copies of a resolution of the governing board with the superintendent of schools, auditor, and treasurer of the county specifying the purpose or purposes of a special reserve fund, the fund shall be established for such purpose or purposes. From time to time thereafter, the governing board may file identical copies of resolutions specifying additional purposes of

the fund or withdrawing any purpose previously designated. The auditor and treasurer shall transfer from the general fund to the special reserve fund of the district such amounts as may be specified by the governing board during the fiscal year.

42842. The governing board may expend the money in the fund for the purpose or purposes specified in any resolution filed pursuant to Section 42841 unless the purpose has been withdrawn pursuant to that section.

42843. Any moneys remaining in the special reserve fund of the district, except moneys placed in the fund pursuant to subdivision (b) of Section 2106 or subdivision (b) of Section 2109, shall be transferred to the general fund of the district by the auditor and treasurer upon written request to the superintendent of schools, auditor, and treasurer of the county by the governing board of the district, and the auditor and treasurer shall discontinue the special reserve fund.

#### CHAPTER 11. REIMBURSEMENT FOR COSTS OF EDUCATION OF INSTITUTIONAL CHILDREN AND NONIMMIGRANTS

42900. Whenever a school district provides education in kindergarten or grades 1 through 12 for nonimmigrant children or noncitizen children without immigration status, the district shall be reimbursed for the actual cost of educating each such nonimmigrant child or noncitizen child without immigration status by the county or city and county in which the school district is located. For the purposes of this chapter, such nonimmigrant child or noncitizen child without immigration status shall be deemed to be a resident of such county or city and county.

For the purpose of this section a "nonimmigrant child" is defined as an alien having a residence in a foreign country which he has no intention of abandoning, who is legally admitted to the United States as a nonimmigrant student or visitor, and who seeks to pursue a course of study in the public schools of this state. For the purpose of this section a "noncitizen child without immigration status" is defined as a child living in the United States who is not a citizen of the United States, who is without documentary evidence of United States immigration status, and who seeks to pursue or is pursuing a course of study in the public schools of this state.

42901. Notwithstanding Section 25 of the Civil Code or any other provision of law, for the purposes of this chapter, "minor" means a person under 21 years of age.

42902. Whenever a school district provides education in kindergarten or grades 1 through 12 for children who reside in a regularly established licensed children's institution, or in a hospital operated by a county, located either within or without the boundaries of the district, the district shall be reimbursed for the actual cost of educating each such child by the county or city and county in which the child resided prior to his admission to the

children's institution or the hospital. Whenever a school district provides education in kindergarten or grades 1 through 12 for children who reside in an institution or in a family home, pursuant to a commitment or placement under Chapter 2 (commencing with Section 500) of Part 1 of Division 2 of the Welfare and Institutions Code, located either within or without the boundaries of the district, or whenever a school district provides education in special schools or classes for mentally retarded pupils coming within the provisions of Section 56501 or 56515, physically handicapped pupils coming within the provisions of Section 56700, or educationally handicapped pupils educated pursuant to Section 56604, who reside in a licensed children's institution, or a family home, or a hospital operated by a county, located either within or without the boundaries of the district, the district shall be reimbursed for the actual cost of educating each such child by the county or city and county in which the child resided prior to his admission to the institution, or the home, or the hospital. If the child's prior residence cannot be ascertained or if his residence was outside the State of California, the district shall be reimbursed for the actual cost of educating such child by the county or city and county in which the institution, or family home, or the hospital is located. The pupil residing in an institution, or the family home, or the hospital under this section does not acquire residence in the district wherein the institution, or the family home, or the hospital is located during the period of residence in the institution, or the family home, or the hospital.

42903. Every person, association, corporation or public agency who maintains or conducts a children's institution or engages in referring children to family homes shall report to the county superintendent of schools of the county where the school district providing education for children pursuant to Section 42902 is situated, within 30 days, any referral to such family home or any admission to such children's institution and the county or city and county in which each such child resided prior to his referral to such family home or admission to such institution.

Such county superintendent shall notify the school district which provides education for children pursuant to Section 42902 of such referral or admission.

42904. The county or city and county of which any pupil described in Section 42900 or Section 42902 is a resident shall at the close of each school year pay to the district or county superintendent of schools educating such pupil the cost of educating such pupil during the school year. The cost shall be determined by dividing the total current expenses of the school district or county superintendent of schools during such school year less all apportionments from the state or allocations from the federal government received by the district or county superintendent of schools during such school year, by the total number of units of average daily attendance in such school district or in programs maintained by the county superintendent of schools during such school year.

The county or city and county of which any such pupil is a resident shall at the close of each school year also pay to the district or county superintendent of schools educating such pupil the excess expenditures of educating such pupil during the school year. The excess expenditures shall be determined by dividing the total excess expenditures of the school district or county superintendent of schools during such school year on account of educating such pupils less all special purpose apportionments from the state or allocations from the federal government on account of the excess costs of educating such pupils by the total number of units of average daily attendance of such pupils in such school, classes, facilities, or programs during such school year.

The average daily attendance for all such pupils who attend a junior high school in accordance with Sections 37060 to 37072, inclusive, and Section 48020 shall be credited to the elementary district in which the institution is located for apportionment purposes.

For the purpose of this section "excess expenditures" shall mean the additional expenditures made by the district or county superintendent during the school year for education of such pupils described in this chapter. Excess expenditures shall also include any tuition payments required to be paid by a district pursuant to Section 1705 for education of any pupil described in this chapter.

(Amended by Stats. 1976, Ch. 1011 )

[ORIGINAL SECTION]

42904. The county or city and county of which any pupil described in Section 42900 or Section 42902 is a resident shall at the close of each school year pay to the district or county superintendent of schools educating such pupil the cost of educating such pupil during the school year. The cost shall be determined by dividing the total current expenses of the school district or county superintendent of schools during such school year less all apportionments from the state or allocations from the federal government received by the district or county superintendent of schools during such school year, by the total number of units of average daily attendance in such school district or in programs maintained by the county superintendent of schools during such school year.

The county or city and county of which any such pupil is a resident shall at the close of each school year also pay to the district or county superintendent of schools educating such pupil the excess expenditures of educating such pupil during the school year. The excess expenditures shall be determined by dividing the total excess expenditures of the school district or county superintendent of schools during such school year on account of educating such pupils less all special purpose apportionments from the state or allocations from the federal government on account of the excess costs of educating such pupils by the total number of units of average daily attendance of such pupils in such school, classes, facilities, or programs during such school year.

The average daily attendance for all such pupils who attend a junior high school in accordance with Sections 37060 to 37072, inclusive, and Section 48020 shall be credited to the elementary district in which the institution is located for apportionment purposes.

For the purpose of this section "excess expenditures" shall mean the additional expenditures made by the district or county superintendent during the school year for education of such pupils described in this chapter. Excess expenditure shall also include any tuition payments required to be paid by a district pursuant to Section 1705 for education of any pupil described in this chapter.

42905. In addition to any other payments required by this chapter, where the education of children described in Section 42900 or Section 42902 is provided in buildings or facilities owned by the school district or county superintendent of schools, the county or city and county of the pupil's residence shall pay to the school district or county superintendent of schools, for the pupil's use of the buildings and facilities and appurtenant equipment, an amount per unit of average daily attendance of such children during the school year prescribed by whichever of the following subdivisions is applicable:

- (a) Thirty-five dollars (\$35) if an elementary school district.
- (b) Fifty-five dollars (\$55) if a high school district.
- (c) Forty-two dollars (\$42) if a unified school district.
- (d) Forty-four dollars (\$44) if a county superintendent of schools.

The moneys so received by the school district shall be deposited to the credit of its bond interest and redemption fund or its building fund. The moneys so received by the county superintendent of schools shall be deposited to the credit of the county school service fund of the county for use in providing school buildings and facilities for the use of the county superintendent of schools in educating mentally retarded pupils, physically handicapped pupils, and nonimmigrant children, as the case may be.

Except for mentally retarded pupils, physically handicapped pupils, and educationally handicapped pupils, no payment shall be made to a district under this section for children described in Section 42902 unless the district educates in kindergarten or grades 1 through 12, inclusive, at least 30 children described in Section 42902 in buildings or facilities owned by the district. No payment shall be made to a district under this section for children described in Section 42900 unless the district educates in kindergarten or grades 1 through 12, inclusive, at least 30 children described in Section 42900 in buildings or facilities owned by the district.

42906. Notwithstanding any other provisions of this chapter or of Article 3 (commencing with Section 16190) of Chapter 8 of Part 10 of Division 1 of Title 1 whenever the school district wherein the institution or family home is located does not have adequate special education facilities to provide for the education of physically handicapped or mentally retarded pupils, or educationally handicapped pupils described in Section 42902 if a program for such pupils is in operation, such school district shall apply pursuant to Section 16200 for such funds as may be necessary to construct needed facilities for the education of such pupils. The applicant school district shall accept such funds as are disbursed pursuant to the application whether or not the funds constitute the maximum amount applied for, and shall repay such funds in accordance with the provisions of Article 3 (commencing with Section 16190) of Chapter 8 of Part 10 of Division 1 of Title 1.

In addition to the payments required by Section 42905, when the district is providing education to any physically handicapped, mentally retarded, or educationally handicapped children described

in Section 42902 in facilities constructed pursuant to an application and apportionments under Section 6200, the county or city and county of the pupil's residence shall pay to the school district maintaining such facilities a pro rata share of the repayment required pursuant to Section 16200. The pro rata share shall be based upon the ratio in the previous fiscal year of units of average daily attendance of physically handicapped, mentally retarded, and educationally handicapped pupils subject to Section 42902 from the county or city and county of residence to the total number of such units of average daily attendance. Payments so received by the school district maintaining the facilities shall be deposited in the general fund of the district to offset amounts withheld by the State Controller pursuant to Section 16200.

42907. The district maintaining such school or classes shall forward its claim on forms prescribed by the Superintendent of Public Instruction not later than the 15th day of July of each year to the county superintendent of schools of the county, or city and county, wherein the district is located, who shall certify and present the claim to the county superintendent of the county, or city and county, of the pupil's residence.

42908. The county superintendent of schools in each county, and city and county, shall file with the board of supervisors not later than the eighth day of August of each year a request for sufficient funds to pay the total amount of claims presented to him in accordance with this chapter.

If during any fiscal year the county superintendent of schools determines that an amount of at least one hundred dollars (\$100) more or an amount of at least one hundred dollars (\$100) less than was required for the claim of any individual district under Section 42907 included in a request filed by him with the county board of supervisors during a prior fiscal year, such amount shall, not later than the third succeeding fiscal year, be added to or deducted from the request for funds for the then current fiscal year.

42909. The board of supervisors of each county, and city and county, shall annually, at the time and in the manner of levying other county, and city and county taxes, levy and cause to be collected a tax for the payment of claims submitted pursuant to this chapter.

42910. The moneys received from such county tax shall be deposited in the county treasury to the credit of the county school service fund. On or before the first Monday in February and the first Monday in June of each year, the county auditor shall notify the county superintendent of schools of the amount of money in the treasury available for the payment of claims authorized by this chapter.

The county superintendent of schools shall thereupon disburse the money to the school districts which have qualified for reimbursement pursuant to this chapter.

42911. The State Superintendent of Public Instruction may furnish the forms and shall prescribe the procedures required of

school districts and county superintendents of schools under this chapter, and shall adopt all rules and regulations necessary for carrying out its provisions.

Such rules and regulations shall require the county superintendent of schools to list the nonimmigrant children and noncitizen children without immigration status by name and address and submit such list to the board of supervisors. The board of supervisors shall forward a copy of such list to the appropriate regional office of the United States Immigration and Naturalization Service.

## PART 25. EMPLOYEES

### CHAPTER 1. EMPLOYEES

#### Article 1. General Provisions

44000. Unless the context otherwise requires, the definitions set forth in Sections 44000 to 44012, inclusive, shall govern the construction of this part.

44001. "Education position" or "position requiring certification qualifications" includes every type of service for which certification qualifications are established by or pursuant to Sections 44000 to 44012, inclusive, Section 44065, and Chapter 2 (commencing with Section 44200) of this part.

44002. A "credential" is a document issued by the State Board of Education or the Commission for Teacher Preparation and Licensing, authorizing a person to engage in the service specified in the credential.

44003. A "life diploma" is a document issued on the basis of a credential upon completion by the applicant of specified requirements.

44004. The word "certificate" used as a noun refers to the document issued by a county board of education to license the holder to perform the service specified in the certificate.

44005. The word "certificate" used as a verb refers to the act of licensing individuals for employment in educational positions.

44006. The term "certificated person" refers to a person who holds one or more documents such as a certificate, a credential, or a life diploma, which singly or in combination license the holder to engage in the school service designated in the document or documents.

44007. The term "certification document" as used in this code includes only certificates, credentials and life diplomas.

44008. A termination of probation and dismissal of an accusation or information pursuant to Section 1203.4 of the Penal Code shall not, for the purpose of this division have any effect.

44009. A plea or verdict of guilty or a finding of guilt by a court in a trial without a jury is deemed to be a conviction within the meaning of Sections 44346, 44425, 44436, 44836, and 45123 of this code,

irrespective of a subsequent order under the provisions of Section 1203.4 of the Penal Code allowing the withdrawal of the plea of guilty and entering a plea of not guilty, or setting aside the verdict of guilty, or dismissing the accusations or information. The record of such conviction of a sex offense as defined in Section 44010 or of a narcotics offense defined in Section 44011 shall be sufficient proof of conviction of a crime involving moral turpitude for the purposes of Sections 44892, 44907 and 44923, and Sections 44932 to 44947, inclusive, of this code, relating to the dismissal of permanent employees.

44010. "Sex offense" as used in Sections 44346, 44425, 44436, 44836, and 45123 means any one or more of the offenses listed below:

(a) Any offense defined in Section 266, 267, 285, 286, 288, 288a, 647a, subdivision 3 or 4 of Section 261, or subdivision (a) or (d) of Section 647 of the Penal Code.

(b) Any offense defined in former subdivision 5 of former Section 647 of the Penal Code repealed by Chapter 560 of the Statutes of 1961, or any offense defined in former subdivision 2 of former Section 311 of the Penal Code repealed by Chapter 2147 of the Statutes of 1961 if the offense defined in such sections was committed prior to September 15, 1961, to the same extent that such an offense committed prior to such date was a sex offense for the purposes of this section prior to September 15, 1961.

(c) Any offense defined in Section 314 of the Penal Code committed on or after September 15, 1961.

(d) Any offense defined in former subdivision 1 of former Section 311 of the Penal Code repealed by Chapter 2147 of the Statutes of 1961 committed on or after September 7, 1955, and prior to September 15, 1961.

(e) Any offense involving lewd and lascivious conduct under Section 272 of the Penal Code committed on or after September 15, 1961.

(f) Any offense involving lewd and lascivious conduct under former Section 702 of the Welfare and Institutions Code repealed by Chapter 1616 of the Statutes of 1961 if such offense was committed prior to September 15, 1961, to the same extent that such an offense committed prior to such date was a sex offense for the purposes of this section prior to September 15, 1961.

(g) Any offense defined in Section 286 or 288a of the Penal Code prior to the effective date of the amendment of either section enacted at the 1975-76 Regular Session of the Legislature committed prior to the effective date of the amendment.

(h) Any attempt to commit any of the above-mentioned offenses.

(i) Any offense committed or attempted in any other state which, if committed or attempted in this state, would have been punishable as one or more of the above-mentioned offenses.

44011. "Narcotics offense" as used in Sections 44346, 44425, 44436, 44836, and 45123 means any one or more of the following offenses:

(a) Any offense in Sections 11350 to 11355, inclusive, 11366, 11368, and 11550 of the Health and Safety Code.

(b) Any offense committed or attempted in any other state or against the laws of the United States which, if committed or attempted in this state, would have been punished as one or more of the above-mentioned offenses.

(c) Any offense committed under former Sections 11500 to 11503, inclusive, 11557, 11715, and 11721 of the Health and Safety Code.

(d) Any attempt to commit any of the above-mentioned offenses.

44012. Any record of conviction of any applicant for, or holder of, a certification document, shall, for the purposes of this division, be admissible in evidence in any civil action or administrative proceedings pertaining to the issuance, suspension or revocation of such certification document, any provision of law to the contrary notwithstanding.

44013. In order to assist school district employees to secure employment during vacation periods in occupations which tend to contribute to their rendering improved service as employees of the school district, any governing board of a school district or districts, in which the average daily attendance of all said districts combined is in excess of 200,000, is authorized to provide service necessary for aiding its employees in securing such employment.

44014. (a) Whenever any employee of a school district or of the office of a county superintendent of schools is attacked, assaulted, or menaced, by any pupil, it shall be the duty of such employee, and the duty of any person under whose direction or supervision such employee is employed in the public school system who has knowledge of such incident, to promptly report the same to the appropriate law enforcement authorities of the county or city in which the same occurred. Failure to make such report shall be a misdemeanor punishable by a fine of not more than two hundred dollars (\$200).

(b) An act by any member of the governing board of a school district, a county superintendent of schools, or any employee of any school district or the office of any county superintendent of schools, which is designed directly or indirectly to influence or urge a person under a duty to make the report prescribed by subdivision (a) not to make such report, shall be a misdemeanor, and shall be punishable by a fine of not less than one hundred dollars (\$100) or more than two hundred dollars (\$200).

44015. The governing board of a school district may make awards to employees who:

(a) Propose procedures or ideas which thereafter are adopted and effectuated, and which result in eliminating or reducing district expenditures or improving operations; or

(b) Perform special acts or special services in the public interest; or

(c) By their superior accomplishments, make exceptional contributions to the efficiency, economy or other improvement in operations of the school district.

Before any such awards are made, the governing board shall adopt

rules and regulations. The board may appoint one or more merit award committees made up of district officers, district employees, or private citizens to consider employee proposals, special acts, special services, or superior accomplishments and to act affirmatively or negatively thereon or to provide appropriate recommendations thereon to the board.

Any award granted under the provisions of this section which may be made by an awards committee under appropriate district rules, shall not exceed two hundred dollars (\$200), unless a larger award is expressly approved by the governing board.

When an awards program is established in a school district under the provisions of this section, the governing board shall budget funds for this purpose but may authorize awards from funds under its control whether or not budgeted funds have been provided or the funds budgeted are exhausted.

44016. Whenever any person is requested by a school district to travel to the headquarters of such district for the purpose of being interviewed and examined prior to possible employment, the district may reimburse such candidate for expenses necessarily incurred in traveling from his place of residence to the place of interview or examination.

44017. Notwithstanding any provision of law to the contrary, a school district may, from funds under its jurisdiction, pay the surviving spouse of any employee who is murdered while in the course of his employment the amount that the deceased would have received if he had lived to complete the time remaining in his contract with the district.

This section shall be applicable to the surviving spouse of any such employee who was murdered during or after the 1973-74 school year.

## Article 2. Rights and Duties

44030. Any principal, teacher, employee, or school officer of any elementary or secondary school who refuses or willfully neglects to make such reports as are required by law is guilty of a misdemeanor and is punishable by a fine of not more than one hundred dollars (\$100).

44031. Materials in personnel files of employees which may serve as a basis for affecting the status of their employment are to be made available for the inspection of the person involved.

Such material is not to include ratings, reports, or records which (1) were obtained prior to the employment of the person involved, (2) were prepared by identifiable examination committee members, or (3) were obtained in connection with a promotional examination.

Every employee shall have the right to inspect such materials upon request, provided that the request is made at a time when such person is not actually required to render services to the employing district.

Information of a derogatory nature, except material mentioned in

the second paragraph of this section, shall not be entered or filed unless and until the employee is given notice and an opportunity to review and comment thereon. An employee shall have the right to enter, and have attached to any such derogatory statement, his own comments thereon. Such review shall take place during normal business hours, and the employee shall be released from duty for this purpose without salary reduction.

44032. The governing board of any school district shall provide for the payment of the actual and necessary expenses, including traveling expenses, of any employee of the district incurred in the course of performing services for the district, whether within or outside the district, under the direction of the governing board. The board may authorize an advance of funds to cover such necessary expense. Such advance shall be repaid or adjusted upon filing of a regular claim for the actual and necessary expenses incurred. The governing board may direct any employee of the district to attend any convention or conference or to visit schools for the discussion or observation of any school matter appertaining to the duties of the employee or any question of interest to the school district.

In implementing this section, a governing board of any school district may, by rule or regulation, delegate to the district superintendent the authority to perform all powers described in this section; provided, that funds expended pursuant to such delegation shall not exceed the amount previously budgeted for such purposes by the governing board.

44033. The governing board of any school district may provide for the reimbursement of employees of the district for the use of automobiles owned by the employees and used in the performance of regularly assigned duties, by establishing an allowance for such use on a mileage or monthly basis.

44034. Neither any local legislative body nor any school district governing board shall enact or enforce any ordinance or promulgate or enforce any rule or regulation which limits, during their off-duty hours, the participation of school employees in political activities not prohibited by this code.

44035. Every permanent employee of a school district which becomes in its entirety a part of a unified school district, and every permanent employee of a school district employed in a school located in a portion of a district which becomes a part of a unified school district, where the whole of the district does not become a part of a unified school district, shall become a permanent employee of the unified school district.

44036. (a) The governing board of a school district may grant leaves of absence to employees to appear as a witness in court other than as a litigant or to respond to an official order from another governmental jurisdiction for reasons not brought about through the connivance or misconduct of the employee.

(b) The governing board of a school district may grant leaves of absence to employees, in positions requiring certification

qualifications, regularly called for jury duty in the manner provided for by law.

(c) The governing board may grant such leaves of absence with pay up to the amount of the difference between the employee's regular earnings and any amount he receives for jury or witness fees.

44037. The governing board of any district shall grant leave of absence to any employee, serving in a position not requiring certification qualifications, regularly called for jury duty in the manner provided for by law. The governing board shall grant such leave with pay up to the amount of the difference between the employee's regular earnings and any amount he receives as juror's fees.

It is unlawful for the governing board or personnel commission of any school district to adopt or maintain any rule, regulation, or policy which has as its purpose or effect a tendency to encourage employees to seek exemption from jury duty, or to directly or by indirection solicit or suggest to any employee that he seek exemption from jury duty, or to discriminate against any employee with respect to assignment, employment, promotion, or in any other manner because of such employee's service on any jury panel.

The board or personnel commission may, however, provide by rule that only a percentage of its staff, which percentage shall not be less than 2 percent, shall be granted such leave, with pay, at any one time.

Nothing in the foregoing provisions shall preclude the district superintendent or his agent from discussing with the affected employee the practicality of seeking exemption when acceptance would tend to materially disrupt the district's operations.

44038. The governing board of any school district may use school district funds for cash deposits, when required to guarantee payment for transportation purchased on credit for school district employees or other representatives who are directed by the governing board to travel on school district business.

44039. The governing board of any school district may use school district funds for cash deposits, when required to guarantee payment for health plans purchased on credit for school district employees.

44040. It shall be unlawful for any person authorized to invoke disciplinary action against any employee of a school district or employee in the office of the county superintendent of schools either in his individual capacity or as a member of any board, to invoke or attempt to invoke disciplinary action against any such employee or to discriminate against such employee in the terms, conditions and privileges of employment solely because of the employee's appearance before the governing board of a school district, the county board of education, legislative committees, or any other duly constituted governmental board, commission or council, whether such appearance was undertaken voluntarily or otherwise.

Violation of the provisions of this section shall be a misdemeanor.

44041. The governing board of each school district when drawing

an order for the salary payment due to employees of the district shall, without charge, reduce the order by the amount which it has been requested in a revocable written authorization by the employee to deduct for any or all of the following purposes: participating in a deferred compensation program offered by the school district which provides for investments in corporate stocks, bonds, securities, mutual funds, or annuities, except as prohibited by the Constitution, or paying premiums on any policy or certificate of group life insurance for the benefit of the employee or for group disability insurance, or legal expense insurance, or any of them, for the benefit of the employee or his dependents issued by an admitted insurer on a form of policy or certificate approved by the Insurance Commissioner, or paying rates, dues, fees, or other periodic charges on any hospital service contract for the benefit of the employee, or his dependents, issued by a nonprofit hospital service corporation on a form approved by the Insurance Commissioner pursuant to the provisions of Chapter 11A of Part 2 of Division 2 of the Insurance Code, or paying periodic charges on any medical and hospital service agreement or contract for the benefit of the employee, or his dependents, issued by a nonprofit membership corporation lawfully operating under Section 9200 or Section 9201 of the Corporations Code, or paying periodic charges on any legal services contract for the benefit of the employee, or his dependents issued by a nonprofit membership corporation lawfully operating under Section 9200 or 9201.2 of the Corporations Code. The governing board of the district shall, beginning with the month designated by the employee and each month thereafter until authorization for the deduction is revoked, draw its order upon the funds of the district in favor of the insurer which has issued the policies or certificates or in favor of the nonprofit hospital service corporation which has issued hospital service contracts, or in favor of the nonprofit membership corporation which has issued medical and hospital service or legal service agreements or contracts, for an amount equal to the total of the respective deductions therefor made during the month. The governing board may require that the employee submit his authorization for the deduction up to one month in advance of the effective date of coverage.

“Group insurance” as used in this section shall mean only a bona fide group program of life or disability or life and disability insurance where a master contract is held by the school district or an employee organization but it shall, nevertheless, include annuity programs authorized by Section 403(b) of the Internal Revenue Code when approved by the governing board.

44042. School districts may, but shall not be required to, provide payroll deduction for the collection of insurance premiums except as expressly authorized by Section 44041.

44043. Any school employee of a school district who is absent because of injury or illness which arose out of and in the course of the person's employment, and for which the person is receiving

temporary disability benefits under the workers' compensation laws of this state, shall not be entitled to receive wages or salary from the district which, when added to the temporary disability benefits, will exceed a full day's wages or salary.

During such periods of temporary disability so long as the employee has available for the employee's use sick leave, vacation, compensating time off or other paid leave of absence, the district shall require that temporary disability checks be endorsed payable to the district. The district shall then cause the employee to receive the person's normal wage or salary less appropriate deductions including but not limited to employee retirement contributions.

When sick leave, vacation, compensating time off or other available paid leave is used in conjunction with temporary disability benefits derived from workers' compensation, as provided in this section, it shall be reduced only in that amount necessary to provide a full day's wage or salary when added to the temporary disability benefits.

44044. Notwithstanding the provisions of Sections 44043, 44984 and 45192, a school district may waive the requirement that temporary disability checks be endorsed payable to the district, and may in lieu thereof, permit the employee to retain his temporary disability check, providing that notice be given to the district that such check has been delivered to the employee. In such cases, the district shall then cause the employee to receive his normal wage or salary less appropriate deductions, including, but not limited to, employee retirement contributions, and an amount equivalent to the face amount of the temporary disability check, which the employee has been permitted to retain. In all cases, employee benefits are to be computed on the basis of the employee's regular wage or salary prior to the deduction of any amounts for temporary disability payments.

Nothing contained herein shall be deemed to in any way diminish those rights and benefits which are granted to a school employee pursuant to the provisions of Sections 44043, 44984 and 45192.

44045. Whenever, as a result of any school district unification proceeding all of the territory under the jurisdiction of the county superintendent of schools is included in a single unified school district and the maintenance of any schools or classes or the performance of any other function theretofore under the jurisdiction of the county superintendent of schools is assumed by such unified school district, the inclusion shall, with respect to any employee, whether in a position requiring certification qualifications or in a position not requiring certification qualifications, who was theretofore employed by the county superintendent of schools in connection with such school, class, or function, be deemed to be the inclusion of a school district in the unified district. The rights of such an employee to employment with the unified district shall be governed by the laws defining the rights of employees of a predecessor school district included within a unified school district

to continue in employment as employees of the including unified school district.

44046. (a) The governing board of a small school district, which does not employ persons charged with school-community duties of counseling students and parents or guardians in their homes, may contract with any qualified social service agency or organization to secure the services, on a part-time or full-time basis, of qualified social workers as counselors in schools and in the homes of pupils. The State Board of Education shall adopt rules and regulations for the implementation of this section, but such social workers shall not be required to hold credentials or certification documents otherwise required under this code for service in the public schools.

(b) Social workers authorized to serve under this section, as well as credentialed school social workers in districts other than small school districts, may perform, but are not limited to, the performance of the following service to children, parents, school personnel, and community agencies:

(1) Group and individual counseling and casework with parents and children relating to learning and adjustment problems of children, including parent education.

(2) Liaison with community resources offering services to schoolchildren and their families.

(3) Consultation with parents and others in crisis situations, such as truancy, drug abuse, suicide threats, assaults, and child abuse.

(4) Assessment of social and behavioral disabilities affecting learning, including but not limited to case study evaluation, recommendations for remediation or placement, and periodic reevaluation.

(5) Participation in and coordination of staff development programs for professional, paraprofessional, and classified school staff and supervision of pupil personnel services workers.

(6) Coordination of social service and mental health components of children's centers and other early childhood development programs in the public schools.

(7) Consultation and collaboration with school personnel to promote a school environment responsive to the needs of children and the planning of educational programs which will prepare children to function in a culturally diversified society.

(c) As used in this section "small school district" means any of the following school districts:

(1) A unified school district having an average daily attendance of less than 1,501.

(2) A high school district having an average daily attendance of less than 301.

(3) An elementary school district having an average daily attendance of less than 901.

44047. Prior to implementing in any school of the district classes on Saturday or Sunday, or both, the governing board of a school district shall consult in good faith in an effort to reach agreement

with the certificated and classified employees of the school, with the parents of pupils who would be affected by the change, and with the community at large. Such consultation shall include at least one public hearing for which the board has given adequate notice to the employees and to the parents of pupils affected.

44048. A classified school employee currently employed by any school district or a county superintendent of schools which decides to maintain classes on Saturday or Sunday, or both, shall not, without his or her written consent, be required to change his or her workweek to include Saturday or Sunday, or both. No such classified employee shall be assigned to perform services on a Saturday or Sunday if such classified employee objects in writing that such assignment would conflict with his or her religious beliefs or practices. Enactment of this section shall cause no change or disruption in existing work schedules which may already include Saturday or Sunday as regular workdays.

This section shall not be construed as limiting the power of any governing board of a school district, or a county superintendent of schools, to govern the schools of the district, including the assignment of classified employees employed by such district or county superintendent of schools.

This section shall not be construed as modifying or otherwise affecting in any way the provisions of Sections 45127, 45128, or 45131, or any other provisions of this code relating to employment of classified employees.

### Article 3. Interchange Between Certificated and Classified Positions

44060. The purpose of this article is to provide a basis of determination as to what constitutes a supervisory or administrative classified position or a position requiring certification qualifications not clearly defined in other sections of this code; to provide an interchange of qualified personnel between the certificated and classified services of the public school systems; and to secure rights and benefits to employees moving between the two services, all to the end of assuring better educational systems for the students of the public school systems.

The provisions of this article are not intended, nor may they be construed, to invalidate any other sections of this code which were enacted prior to the enactment of this article, relating to positions requiring certification qualifications or the classified service covered in Article 6 (commencing with Section 45240) of Chapter 5 of this part, unless specifically provided herein. This article shall where appropriate apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 6 (commencing with Section 45240) of Chapter 5 of this part.

44061. If a person employed by the county superintendent of schools in a position requiring certification qualifications is assigned

to a position under the same superintendent not requiring certification qualifications, the employee shall retain all sickness and injury, sabbatical leave, and other rights and benefits. All seniority and tenure rights accumulated by him at the time of assignment to the position not requiring certification qualifications shall be secured to him for a period of 39 months from the time of acceptance of the classified position. His return to certificated service at any time within the 39 months shall be treated as if there had not been an interruption in his certificated service.

44062. If a person employed by the county superintendent of schools in a position not requiring certification qualifications is assigned to a position under the same superintendent requiring certification qualifications, the employee shall retain all sick leave, vacation, and other rights and benefits accumulated by him at the time of assignment to the position requiring certification qualifications. All seniority and permanency rights shall be secured to such an employee for a period of 39 months from the date of his acceptance of the certificated position. Such an employee shall be eligible to return to and assume the duties of his prior classified position at any time during the 39 months and his return shall be treated as if there had not been an interruption in his classified service.

44063. If an employee of a school district, including a district having the merit system as outlined in Article 6 (commencing with Section 45240) of Chapter 5 of this part, employed in a position requiring certification qualifications is assigned to a position in the classified service of the same district, the employee shall retain all sickness and injury, sabbatical leave, and other rights and benefits. All seniority and tenure rights accumulated by him at the time of assignment to the position in the classified service shall be secured to him for a period of 39 months from the time of acceptance of the classified position. His return to certificated service at any time within the 39 months shall be treated as if there had not been an interruption in his certificated service.

44064. If an employee of a school district, including a district having the merit system as outlined in Article 6 (commencing with Section 45240) of Chapter 5 of this part, employed in a position in the classified service is assigned to a position in the same district requiring certification qualifications, the employee shall retain all sick leave, vacation, and other rights and benefits accumulated by him at the time he is assigned to a position requiring certification qualifications. All seniority and permanency rights shall be secured to such an employee for a period of 39 months and his return shall be treated as if there had not been an interruption in his classified service.

44065. (a) Any person employed on or after July 1, 1963, by a school district, including a district having the merit system as outlined in Article 6 (commencing with Section 45240) of Chapter 5 of this part, or by a county superintendent of schools, in a position

in which 50 percent or more of his duties performed during the school year, whether performed in a particular school or district or countywide, consist of rendering service in directing, coordinating, supervising or administering any portion or all of the types of functions listed below in this section shall hold a valid teaching or service credential as appropriate, whichever is designated in regulations adopted by the Commission for Teacher Preparation and Licensing, authorizing the particular service.

The types of functions are:

(1) The work of instructors and the instructional program for pupils.

(2) Educational or vocational counseling, guidance and placement services.

(3) School extracurricular activities related to, and an outgrowth of, the instructional and guidance program of the school.

(4) Planning courses of study to be used in the public schools of the state.

(5) The selection, collection, preparation, classification or demonstration of instructional materials of any course of study for use in the development of the instructional program in the schools of the state.

(6) The examination, selection, in-service training, or assignment of teachers, principals or other certificated personnel involved in the instructional program.

(7) Research connected with the evaluation and efficiency of the instructional program.

(8) The school health program.

(9) Activities connected with the enforcement of the laws relating to compulsory education, coordination of child welfare activities involving the school and the home, and the school adjustment of pupils.

(10) The school library services.

(11) The preparation and distribution of instructional materials.

(12) The in-service training of certificated personnel.

(13) The interpretation and evaluation of the school instructional program.

(b) Any person who was employed by a district or by a county superintendent of schools before July 1, 1963, to perform any of the services designated by the Commission for Teacher Preparation and Licensing to require a supervision or administration credential, may continue to perform such services without possessing the credential otherwise required as long as he remains continuously employed to perform the same services in that county superintendent's office or in that district in which he was employed on that date, or is continuously employed to perform the same services in a district which results from a reorganization involving the same district.

(Amended by Stats. 1976, Ch. 1011.)

[ORIGINAL SECTION]

44065 (a) Any person employed on or after July 1, 1963, by a school district,

including a district having the merit system as outlined in Article 6 (commencing with Section 45240) of Chapter 5 of this part, or by a county superintendent of schools, in a position in which 50 percent or more of his duties performed during the school year, whether performed in a particular school or district or countywide, consist of rendering service in directing, coordinating, supervising or administering any portion or all of the types of functions listed below in this section shall hold a valid teaching or service credential as appropriate, whichever is designed in regulations adopted by the Commission for Teacher Preparation and Licensing, authorizing the particular service.

The types of functions are:

- (1) The work of instructors and the instructional program for pupils
  - (2) Educational or vocational counseling, guidance and placement services
  - (3) School extracurricular activities related to, and an outgrowth of, the instructional and guidance program of the school
  - (4) Planning courses of study to be used in the public schools of the state
  - (5) The selection, collection, preparation, classification or demonstration of instructional materials of any course of study for use in the development of the instructional program in the schools of the state
  - (6) The examination, selection, in-service training, or assignment of teachers, principals or other certificated personnel involved in the instructional program.
  - (7) Research connected with the evaluation and efficiency of the instructional program.
  - (8) The school health program.
  - (9) Activities connected with the enforcement of the laws relating to compulsory education, coordination of child welfare activities involving the school and the home, and the school adjustment of pupils.
  - (10) The school library services.
  - (11) The preparation and distribution of instructional materials
  - (12) The in-service training of certificated personnel.
  - (13) The interpretation and evaluation of the school instructional program.
- (b) Any person who was employed by a district or by a county superintendent of schools before July 1, 1963, to perform any of the services designated by the Commission for Teacher Preparation and Licensing to require a supervision or administration credential, may continue to perform such services without possessing the credential otherwise required as long as he remains continuously employed to perform the same services in that county superintendent's office or in that district in which he was employed on that date, or is continuously employed to perform the same services in a district which results from a reorganization involving the same district.

**44066.** No governing board of any school district or a county board of education or a county superintendent of schools or other appointing authority shall require a credential or specify certification qualifications, per se, as a prerequisite for employment in any position under its jurisdiction which does not, by statute, require credentials or certification qualifications.

**44067.** Any person who, on September 15, 1961, is serving in a position for which a credential was issued or certification qualifications required pursuant to Section 44286 prior to the repeal of such sections, shall be deemed to be an employee in a position requiring such credential or certification qualifications for as long as he holds such position after September 15, 1961.

**44068.** Any person who, on June 30, 1965, was serving in a position requiring certification qualifications pursuant to the provisions of subdivisions (m), (n) and (o) of Section 44065 in effect immediately prior to the effective date of this section, shall be deemed to be an employee in a position requiring certification qualifications for as

long as he holds such position after the effective date of this section and such position shall be deemed to be a certificated position for as long as such person holds such position.

44069. (a) Any person who, on September 17, 1965, was serving in a position as business manager and had been assigned a title listed in Section 35028 shall be deemed to be an employee in a position requiring certification qualifications for so long as he holds such position in the same district.

(b) Any person who, on March 4, 1972, was serving in a position of business manager and that position had been declared, by the governing board, to be one requiring certification qualifications in accordance with the authority extended in this section prior to March 4, 1972, shall be deemed to be an employee in a position requiring certification qualifications for so long as he holds such position in the same district.

(c) Except as provided in subdivision (d), on and after March 4, 1972, no person employed in a position of business manager shall be required to be credentialed and no title assignment, work, duty statement or other device, including but not limited to educational or other requirements of applicants, which may be established by the governing board, may be construed to require certification qualifications for any such position or reasonably related position.

(d) The governing board of any school district with less than 3,000 units of average daily attendance in the prior fiscal year may require any person employed in a position of business manager to be credentialed.

## CHAPTER 2. TEACHER PREPARATION AND LICENSING LAW OF 1970

### Article 1. General Provisions

44200. This chapter shall be known and may be cited as the "Teacher Preparation and Licensing Law of 1970" or the "Ryan Act."

44201. The Legislature, recognizing the need for excellence in education and the variety and vitality of California's many educational resources, intends to set broad minimum standards and guidelines for teacher preparation and licensing to encourage both high standards and diversity. The Legislature intends that within the framework of state control school districts and teacher preparation institutions will develop programs which realistically meet the needs and resources of pupils, teacher candidates, school districts, and teacher preparation institutions.

The Legislature finds that highly complex, detailed, and prescriptive regulations governing the preparation and licensing of teachers and administrators frustrate imagination, innovation, and responsiveness. In addition, the Legislature finds that the diversity of functions served by modern education require licensing regulations which are flexible, realistic, responsive, and simple.

44202. It is the intent of the Legislature that the Commission for Teacher Preparation and Licensing shall exercise authority over all services provided to pupils in grade 12 or below. It is not the intent of the Legislature to authorize the commission to issue credentials authorizing service in grades 13 and 14, or in any institution of higher education.

44203. As used in this chapter:

(a) "Commission" means the Commission for Teacher Preparation and Licensing.

(b) "Approved institution" means any institution approved by the commission.

(c) "Subject matter examination" means any objective examination approved by the commission as an instrument to measure subject matter knowledge. Successful passage of a subject matter examination or its waiver shall be mandatory for any intern or any applicant for a teaching credential.

(d) "Professional preparation" means either (1) at least nine semester units of professional education courses and one semester of approved full-time student teaching or its equivalent under the supervision of an approved college or university, or (2) an approved internship program of at least one year.

(e) "Fifth year" means a full academic year, or its equivalent, taken at an approved college or university after completion of a baccalaureate program. Institutions of higher education and public schools may be authorized to attest to a teacher's completion of this requirement. Minimum requirements for teaching credentials shall not include more than the equivalent of one-fifth of a five-year program in, or one year of, professional preparation of which at least one-half will be in student teaching.

(f) "In-service training" means any program of teacher education or preparation offered jointly by a school district and an approved college or university for the purposes of improving or upgrading a teacher's skills, knowledge, or instructional methods which is offered for credit and is approved by the commission.

(g) "Authorization" means the designation appearing on the teaching or service credential identifying the areas of instruction or service which the credential holder is permitted to perform.

(h) "Any grades" and "all grades" means grade 12 or below.

(i) "Rules, regulations, and determinations" means every rule, regulation, order, standard, or determination of general application or the amendment, supplement, or revision of any such rule, regulation, order, standard, or determination adopted by the commission to implement, interpret, or make specific the law enforced and administered by the commission.

## Article 2. Commission for Teacher Preparation and Licensing

44210. There is hereby established in the state government the Commission for Teacher Preparation and Licensing, to consist of members appointed by the Governor with the advice and consent of the Senate. The commission shall consist of six persons employed as certified personnel in public elementary and secondary schools in California, at least four of whom shall be full-time classroom teachers, one of whom shall hold a services credential with a specialization in administrative services, and one of whom shall hold a services credential with a specialization in pupil personnel services; four faculty members of accredited public or private colleges or universities in California, at least three of whom shall be engaged in full-time teaching, and no more than one of whom shall represent any one discipline; two school board members; and three private citizens.

With the exception of the three private citizens, the appointment of a member shall terminate if he is no longer a certified employee in a public elementary or secondary school, or a faculty member of an accredited public or private college or university, or a school district governing board member, as may be the case, in California.

Not more than one member of the commission is to be appointed from the same school district or college or university campus.

44211. Representatives of statewide organizations may submit for the Governor's consideration the names of distinguished individuals to serve on the commission.

44212. The Superintendent of Public Instruction, the Regents of the University of California, the Trustees of the California State University and Colleges, the Board of Governors of the California Community Colleges, and the California Postsecondary Education Commission shall each appoint a representative to serve as member *ex officio* without vote.

44213. Of the 15 members appointed by the Governor who are first appointed, three shall be appointed for terms of one year, four shall be appointed for terms of two years, four shall be appointed for terms of three years, and four shall be appointed for terms of four years. Upon the expiration of the term of office of an appointive member of the commission, his successor shall be appointed for a term of four years. No person shall be appointed by the Governor to serve more than two full terms. Prior service on the commission for a term of less than three years resulting from an initial appointment or an appointment for the remainder of an unexpired term shall not be counted as a full term.

44214. If a member is absent from any four regularly scheduled meetings in any calendar year, his office as a member of the commission shall be deemed vacant. The chairman of the commission shall forthwith notify the Governor that such vacancy exists.

44215. The members of the commission shall serve without

compensation, but shall be reimbursed for their actual and necessary travel expenses incurred in the performance of their duties.

44216. Whenever an employee of any public school district, state college, or other public agency is appointed to membership on the commission, his employer shall grant him sufficient time away from his regular duties, without loss of income or other benefits to which he is entitled by reason of his employment, to attend meetings of the commission and to attend to the duties imposed upon him by reason of his membership on the commission. The employer of any such member may make available such stenographic, secretarial, and staff assistance as is reasonably necessary to enable him to execute the duties imposed upon him by reason of his membership on the commission.

44217. The compensation of the members of the commission who are public employees shall not be reduced by the agency or body by which they are regularly employed for any absence from service occasioned by attendance upon the business of the commission, its committees or subcommittees.

Each school district which employs a member of the commission and which is required to employ a person to replace such member during his attendance at meetings of the commission or any committee or subcommittee thereof, shall be reimbursed from the Teacher Credentials Fund for the cost incurred by employing a replacement.

44218. The commission by majority vote of all its members shall elect its own chairman from among its members.

44219. The commission shall meet each month except that the chairman, with the approval of the commission, may omit meetings in July and August and the chairman may call additional meetings at other times.

44220. The commission shall appoint an executive secretary, who shall be exempt from the provisions of the State Civil Service Act, and may in its discretion remove him by a majority vote of all its members. He shall be the secretary to the commission and its chief executive officer. He shall receive such salary as the commission may determine, and, subject to appropriation, such other perquisites as the commission may determine.

44221. The commission may employ such personnel as may be necessary to carry out its duties and responsibilities. The staff of the commission shall be subject to the relevant system and procedures of the state civil service. The provisions of the State Civil Service Act contained in Part 2 (commencing with Section 18500) of Division 5 of Title 2 of the Government Code shall apply to such personnel.

All such persons, other than temporary employees, serving in the state civil service and engaged in the performance of a function transferred to the Commission for Teacher Preparation and Licensing or engaged in the administration of a law, the administration of which is transferred to the commission, shall remain in the state civil service and may request transfer to the

commission or remain with the Department of Education on the effective date of this section. The status, position, and rights of any such person shall not be affected by his transfer and shall continue to be retained by him pursuant to the State Civil Service Act, except as to positions the duties of which are vested in a position that is exempt from civil service.

44222. The Department of Education shall assist the commission in any manner the commission may request in implementing this chapter; provided that the department shall be reimbursed from the Teacher Credentials Fund for any expenses incurred in assisting the commission or the Committee of Credentials.

44223. The executive secretary, subject to such additional conditions as the commission may establish, may purchase annuity contracts for permanent employees of the commission and shall reduce the salary of an employee for whom such contract is purchased by the amount of the cost thereof provided that all of the following conditions are met:

(a) The annuity contract is under an annuity plan which meets the requirements of Section 403(b) of the Internal Revenue Code of 1954 and Section 17512 of the Revenue and Taxation Code;

(b) The employee makes application to the executive secretary for such purchase and reduction of salary; and

(c) All provisions of the Insurance Code and the Government Code applicable to the purchase of such annuities are satisfied.

44225. The duties of the commission shall be to implement this chapter, to establish and promulgate standards and procedures for certifying educational personnel as qualified for a license to practice in the public schools of California, and to support, facilitate, and delineate functions and programs of preparation for the teaching profession.

The commission, consistent with the terms and provisions of this article, shall have the following powers and duties:

(a) To develop standards and procedures for the certification of educational personnel.

(b) To promulgate appropriate rules and regulations.

(c) To issue credentials upon certification to the State Board of Education.

(d) To provide leadership and to coordinate resources for the improvement of teacher education.

(e) To establish advisory committees consisting of representatives from various elements of the teaching profession related to each subject specialization which will help formulate performance standards for general teaching and other educational specialties.

(f) To develop and recommend to the Legislature for its approval alternative ways in which to demonstrate qualifications for licensing which are adapted to individual differences in candidates, preparing institutions, and performance requirements, while at the same time protecting against incompetence.

(g) To develop objective, independently verifiable standards of

measurement and evaluation of teaching competence as it relates to teacher licensing.

(h) To develop new or employ existing objective examinations as a measure of subject matter knowledge for the purpose of certifying educational personnel.

(i) To develop objective standards for the identification of specialist teachers.

(j) To monitor and evaluate the results of its action as it relates to the performance of teachers licensed under this article.

(k) To develop and recommend to the Legislature for its consideration, any necessary or desirable legislation to require the continuing education of certified personnel and the issuance of life credentials.

44226. It is the intent of the Legislature that the commission develop rules and regulations of uniform and general applicability and not engage in the prescription of courses and prescriptive unit counting. It is the intention of the Legislature that the commission consider for approval for credential purposes accredited baccalaureate degree granting institutions, programs of professional education and clinical experience, and general standards for the fifth year of preparation as defined in subdivision (e) of Section 44203.

44227. The commission may approve any institution of higher education whose teacher education program meets the standards prescribed by the commission, to recommend to the commission the issuance of credentials to persons who have successfully completed such programs.

44228. To assist in approving teacher education programs, the commission may appoint panels of educators, including public school classroom teachers, to serve as members of visiting teams to institutions and school districts having such programs. The provisions of Sections 44215, 44216, and 44217 shall be applicable to such panels of educators.

44229. The commission shall invite the public, the teaching profession, and interested professional groups and associations to appear before it and submit proposals for commission consideration and action.

44230. The commission shall regularly transmit a report of its findings, and regulations to the State Board of Education. It is the intention of the Legislature that the commission follow policies consistent with the board's general educational objectives for the state, and the commission shall be responsible for the detailed development and implementation of preparation and licensing regulations, subject to conformity with this article.

44231. Unless otherwise specified, the meetings of the commission shall be open and public and due notice of their time and place shall be posted.

44232. Notwithstanding any other provision of law to the contrary, any and all rules, regulations, and determinations of the commission shall be subject to review and approval by the State

Board of Education. Any and all such rules, regulations, and determinations shall take effect within 60 days of submission, or 75 days if submitted less than 10 days before the next regularly scheduled board meeting, unless stayed by action of the State Board of Education. Any and all rules, regulations, and determinations adopted by the commission and approved by the State Board of Education shall be amendments, deletions, and additions to those sections of Title 5 of the California Administrative Code dealing with the preparation and licensing requirements of California educational personnel for the implementation of this chapter.

44233. The commission shall continuously accumulate data about the number and kind of applicants for the various credentials, the issuance, denial, and revocation of the various credentials, patterns of application, issuance and nonissuance, and any other information deemed necessary and appropriate by the commission, the board, or the Legislature. Such data shall regularly be analyzed and evaluated and submitted to the State Board of Education for transmission to the Legislature in the form of an annual report not later than the fifth legislative day of each regular session of the Legislature.

44234. There is in the State Treasury the Teacher Credentials Fund. All fees levied and collected by the commission shall be deposited in the Teacher Credentials Fund, and are hereby continuously appropriated to support the activities and functions of the commission.

It is the intent of the Legislature that fees levied for the issuance of teachers' credentials shall be sufficient to offset the cost of all activities of the Commission for Teacher Preparation and Licensing, including the Committee of Credentials and any services provided by the Department of Education.

44235. Fees shall be levied by the commission for the issuance and renewal of teaching and related credentials. The fees shall be set by the commission in such a manner that revenues sufficient to support all activities and functions, including continuing research and evaluation activities, shall be produced. In no case shall a fee exceed twenty dollars (\$20) without express legislative approval.

44236. Any fee or excess amount of fee paid under Section 44235 may be refunded by the commission from the Teacher Credentials Fund when the applicant does not qualify for a credential or when such fee or excess is paid in error, and the amount of any such refund is hereby appropriated for the making of such refund.

### Article 3. Committee of Credentials

44240. The commission shall appoint a Committee of Credentials, consisting of seven persons for terms of two years. The committee shall include:

(a) Two members who shall be full-time certified classroom teachers in the public elementary schools, one with not less than five years' classroom experience, and one with not less than 10 years'

classroom experience.

(b) Two members who shall be full-time certified classroom teachers in the public secondary schools, one with not less than five years' classroom experience, and one with not less than 10 years' classroom experience.

(c) One member who shall be a certified administrative employee in the public schools.

(d) One member who shall be a past or present member of the governing board of any school district.

(e) One member who shall be a representative of the public, to be a person with no previous experience as a certified employee in the public schools or as a member of any governing board of a school district or county board of education.

44241. Sections 44215, 44216, 44217, 44218, 44220, and 44221 are applicable to the Committee of Credentials.

44242. The Committee of Credentials shall be under the direct supervision of the commission.

44243. The commission may assign to the Committee of Credentials such administrative duties as it may see fit relating to the granting, issuance, suspension, and revocation of credentials and life diplomas, and it shall supervise the work of the committee and shall provide statements of policy relative to committee operation and procedures as it deems appropriate to do so.

44244. At least 30 days prior to any Committee of Credentials meeting or hearing at which the application or credential of a certified employee is to be considered, the committee shall notify the certified employee of the specific allegations of misconduct for which the application or credential may be denied, suspended, or revoked in ordinary and concise language setting forth the acts or omissions charged and the statutes or rules violated. Supplemental allegations of misconduct shall be sent to the certified employee 30 days prior to such meeting or hearing. The portions of the investigation of the original or supplemental allegations which constitute the basis for such allegations shall be open to inspection and copying by such employee and his attorney. The statement of the allegations shall inform such employee that such allegations, if they are true, are sufficient to cause his application or credential to be denied, suspended, or revoked.

The committee shall order the investigation of allegations of misconduct to be discontinued if a meeting or hearing on such allegations is not commenced within one year of the date of notification of the original allegations to such employee. An extension for one six-month period may be made by the chairman of the commission upon the submission to the committee of a statement of the cause or causes for such extension.

The decision of the committee shall be in writing and a copy of such decision shall be delivered to the certified employee personally or sent to him by registered mail within 30 days after the meeting or hearing together with specific information relative to any

administrative hearing to which such employee is entitled.

44245. All meetings and hearings of the commission and Committee of Credentials to consider the suspension or revocation of credentials shall be executive and closed sessions with only commission members, committee members, staff members, the certified employee whose application or credential is in issue, the counsel of such employee, and any material witnesses in attendance.

44246. When a hearing is held to deny, suspend, or revoke a credential, the proceeding shall be conducted in accordance with Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code, and the commission shall have all the powers granted therein.

44247. Any applicant for the renewal certification document who is denied a renewal by the Committee of Credentials may request a reevaluation of his application by the commission.

44248. Any member of the commission, commission staff member, member or staff member of the Committee of Credentials, or Department of Education employee who releases or gives out information received at a commission or committee meeting or hearing or through the investigation of a certified employee without authorization of the commission or committee is guilty of a misdemeanor.

#### Article 4. Credential Types

44250. The commission shall issue only the following two types of credentials, with authorizations as hereinafter defined:

- (a) A teaching credential.
- (b) A services credential.

44251. The period for which a credential, as authorized under Section 44250, is valid shall be as follows:

- (a) For an internship credential: two years.
- (b) For a preliminary credential, pending completion of the fifth year of study: five years.
- (c) For a life credential: the life of the holder.
- (d) For an emergency credential: one year or as the commission may determine.

44252. The commission shall establish standards and procedures for the initial issuance and renewal of credentials.

44253. The commission may issue an internship or a preliminary credential to an applicant, pending completion of any examination requirement by the applicant within the time limit, not to exceed one year, set by the commission.

44254. Emergency credentials may be issued in accordance with regulations adopted by the commission.

The terms, reasons, and justification for the issuance of such credentials shall be regularly reported to the Legislature, as well as their number, kind, and other pertinent information. Emergency credentials shall only be authorized when insufficient certified

teachers are available.

An emergency credential may not be issued unless the holder has completed at least 90 semester units of college work.

Emergency credentials for pupil personnel services shall not be valid for the purpose of determining pupil eligibility for placement in special education classes or programs.

With the exception of this chapter, any reference in any law or regulation to a "provisional credential" shall be deemed to mean an "emergency credential."

44255. No life credential shall be issued until all requirements for the credential have been met and the candidate has taught for two years in California public schools.

44256. Authorization for teaching credentials shall be of four basic kinds, as defined below:

(a) "Single subject instruction" means the practice of assignment of teachers and students to specified subject matter courses, as is commonly practiced in California high schools and most California junior high schools.

(b) "Multiple subject instruction" means the practice of assignment of teachers and students for multiple subject matter instruction, as is commonly practiced in California elementary schools and as is commonly practiced in early childhood education.

(c) "Specialist instruction" means any specialty requiring advanced preparation or special competence including but not limited to, reading specialist, mathematics specialist, specialist in special education, or early childhood education, and such other specialties as the commission may determine.

(d) "Designated subjects" means the practice of assignment of teachers and students to designated technical, trade, or vocational courses which courses may be part of a program of trade, technical, or vocational education.

44257. Governing boards may determine the authorization of a teaching assignment as defined in Section 44256. The commission may prepare appropriate forms and data collection instruments to monitor the implementation of this section, to routinely audit, sample, or otherwise verify conformity in assignment practices within the provisions of this chapter.

44258. A teacher who is authorized for single subject instruction may be assigned, with his consent, to teach any subject in his authorized fields at any grade level; preschool; kindergarten and grades 1 to 12, inclusive; or in classes organized primarily for adults, and similarly, a teacher authorized for multiple subject instruction may be assigned, with his consent, to teach in any self-contained classroom; preschool; kindergarten and grades 1 to 12, inclusive; or in classes organized primarily for adults; and similarly, a teacher authorized as a specialist teacher may be assigned, with his consent, to teach in his area of specialization at any grade level; preschool; kindergarten and grades 1 to 12, inclusive; or in classes organized primarily for adults.

44259. The minimum requirements for the teaching credential, except designated subjects, are:

(a) A baccalaureate degree or higher degree, except in professional education, from an approved institution.

(b) A fifth year of study to be completed within five years from the date of issuance of the preliminary credential.

(c) An approved program of professional preparation.

(d) Passage of a subject matter examination or its waiver as specified in this chapter.

(e) Demonstration of a knowledge of the various methods of teaching reading, to a level deemed adequate by the commission, by successful completion of a program of study approved by the commission or passage of a commission-approved reading examination. This subdivision does not apply to any candidate for a single subject instruction credential who holds a degree in industrial arts, physical education, music, art, or home economics.

44260. The minimum requirements for the designated subjects teaching credential shall be adequate, successful, and recent experience in the technical skill, trade or vocation named on the credential with a minimum equivalent to five years experience; a program of personalized in-service training to provide preparation as approved by the commission; and possession of a high school diploma or the passage of an equivalency examination as designated by the commission. If in the judgment of the commission an examination in the subject to be taught is necessary or desirable, such an examination may also be required.

This credential shall authorize the holder to teach in such subject or trade at such grade level approved by the commission and designated on the credential.

44261. The minimum requirements for the teaching credential also include the satisfactory completion of a unit requirement in health education, including, but not limited to, emphasis on the physiological and sociological effects of abuse of alcohol, narcotics, and drugs and of the use of tobacco.

44262. Upon the recommendation of the governing board of a school district, the commission may issue an eminence credential to any person who has achieved eminence in a field of endeavor commonly taught or service practiced in the public schools of California. This credential shall authorize teaching or the performance of services in the public schools in the subject or subject area or service and at the level or levels approved by the commission as designated on the credential.

Each credential so issued shall be issued for a one-year period and may be renewed for one-year periods by the commission upon the request of the governing board of the school district. Upon three renewals the holder of an eminence credential shall be eligible for a life credential, which may be issued by the commission.

44263. Until June 30, 1975, a teacher licensed pursuant to the provisions of this article may be assigned, with his consent, to teach

any single subject class in which he has 18 semester hours of coursework or nine semester hours of upper division or graduate coursework or a multiple subject class if he holds at least 60 semester hours equally distributed among the four areas of a diversified major set forth in Section 44314. A three-semester-unit variance in any of the required four areas may be allowed. The governing board of the school district by resolution shall provide specific authorization for such assignment. The authorization of the governing board shall remain valid for one year and may be renewed annually.

44264. Notwithstanding any other provision of law, a person holding a credential issued under the laws and regulations in effect on or before December 31, 1971, authorizing teaching in grades 7 to 12, inclusive, in the secondary schools may be assigned, with his consent, to teach grade 6 in a school composed of grades 6, 7, and 8.

44265. The minimum requirements for specialist instruction credentials are:

- (a) A valid teaching credential; and
- (b) Such specialized and professional preparation as the commission may require and is required by other provisions of this code.

In adopting the necessary rules and regulations, the commission shall emphasize appropriate professional specialized preparation at both the undergraduate and postgraduate level; and supervised participation or student teaching, or equivalent experience in the public schools or institutions; or private schools or institutions of equivalent status.

Specialist instruction includes, but is not limited to, those specialties requiring advanced preparation or special competence, as enumerated:

- (a) Early childhood education,
- (b) Reading specialist,
- (c) Mathematics specialist, and
- (d) Specialists in special education, which may include teachers of the mentally retarded, educationally handicapped, physically retarded, and specialists in the teaching of pupils with speech and hearing disorders.

Preparation programs which result in concurrent issuance of a specialist credential and a teaching credential may be approved by the commission.

44266. The minimum requirements for the services credential with a specialization in pupil personnel services are either both (a) and (b), or (c) and (d):

- (a) A baccalaureate degree or higher degree, except in professional education, from an approved institution; a fifth year of study to be completed within five years of the first employment of the certified employee; and such specialized and professional preparation as the commission may require, including completion of a commission-approved program of supervised field experience which includes direct classroom contact, jointly sponsored by a

school district and a college or university.

(b) Passage of an examination selected and interpreted by the commission, or its approved waiver, as set forth in Sections 44287 and 44317.

(c) Possession of a valid license, certificate, or registration, appropriate to the service to be rendered issued by the California agency authorized by law to license, certificate, or register persons to practice that service in California.

(d) One year's experience in a commission-approved program of supervised fieldwork. This requirement may be waived if the commission finds that previous fieldwork is of such a nature as to adequately prepare the applicant for service in the schools.

Preparation programs that result in concurrent issuance of a services credential with a specialization in pupil personnel services and a teaching credential may be approved by the commission.

The services credential with a specialization in pupil personnel services shall authorize the holder to perform, at all grade levels, the pupil personnel service approved by the commission as designated on the credential, which may include, but need not be limited to, counseling, psychological, child welfare and attendance services, and school social work.

**44267.** The minimum requirements for a services credential with a specialization in health are:

(a) Five years, or its equivalent, of college or university education, or five years of professional preparation approved by the commission.

(b) Possession of a valid license, certificate, or registration, appropriate to the health service to be designated, issued by the California agency authorized by law to license, certificate, or register persons to practice that health service in California.

(c) Such additional requirements as may be prescribed by the commission.

The services credential with a specialization in health shall authorize the holder to perform, at all grade levels, the health service approved by the commission as designated on the credential. Services as an audiometrist, occupational therapist, or physical therapist are not deemed health services within the meaning of this section.

**44268.** The minimum requirements for a services credential in a specialization in clinical or rehabilitative services are:

(a) A baccalaureate degree or higher degree from an institution approved by the commission.

(b) A fifth year, or its equivalent, of college or university education.

(c) Such specialized and professional preparation as the commission may require.

The services credential with a specialization in clinical or rehabilitative services shall authorize the holder to perform, at all grade levels, the service approved by the commission as designated

on the credential. Clinical or rehabilitative services which may be designated by the commission include, but need not be limited to, speech, language, and hearing services.

44269. The commission may issue a services credential authorizing service as a librarian upon completion of specialized preparation as required by the commission.

The standards for such credentials are a baccalaureate degree or higher degree from an institution approved by the commission, a valid teaching credential, a fifth year or its equivalent in college or university education to be completed within five years of the first employment under this credential, and such specialized and professional preparation as the commission may require.

44270. The minimum requirements for the services credential with a specialization in administrative services are all of the following:

(a) The possession of a valid teaching credential issued under the law and rules and regulations in effect on or before December 31, 1971, requiring the possession of a baccalaureate degree, or as specified in Section 44259, or a services credential with a specialization in pupil personnel services as specified in Section 44266.

(b) A minimum of three years of successful, full-time classroom teaching experience in the public schools, or in private schools of equivalent status or three years of experience in the field of pupil personnel services.

(c) A program of specialized and professional preparation in administrative services approved by the commission or one year internship in a commission-approved program of supervised in-service training in administrative services or an examination in administrative services.

The services credential with a specialization in administrative services shall authorize the holder to serve as a superintendent, associate superintendent, deputy superintendent, principal, assistant principal, supervisor, consultant, coordinator, or in an equivalent or intermediate level administration position.

Any person who administers a pupil personnel program shall hold a services credential with a pupil personnel or administrative specialization.

44271. The designated subjects teaching credential with a specialization in vocational trade and technical teaching shall authorize the holder, who also meets the requirements for administrative service, to supervise and administer programs of trade and technical education in school districts or in schools where the curricula are predominately trade, technical, or industrial in nature.

44272. The commission may issue limited services credentials authorizing administrative service in schools which are not part of the public school system but which are administered by other state agencies.

44273. Notwithstanding any other provisions of this code, any credential described in Section 44250 shall be issued to an applicant under the following circumstances:

(a) The commission has accepted, upon application of an approved institution supported by detailed data and justification, a program developed and offered by that institution as an experimental, exploratory, or pilot program of preparation for such a credential. The commission shall accept only those programs which it finds, by resolution entered in its minutes, to have merit and the potential of improving the quality of service authorized by the credential.

(b) The applicant has completed such a program following the date of its acceptance by the commission.

(c) The applicant holds upon completion of the credential program a baccalaureate or higher degree from an approved institution.

(d) The applicant meets all of the requirements of this chapter and the regulations of the commission adopted pursuant thereto, respecting age, character, citizenship, health, identification, oath or affirmation, and study of or examination in the Constitution of the United States.

44274. The commission shall issue, upon direct application by a qualified applicant, any credential specified in Section 44265 and such other specialist instruction credentials as the commission may establish, except that special education specialist credentials issued under the provisions of this section shall only be those which authorize teaching in programs for the learning handicapped or the severely handicapped, as both are defined in Section 56352, to an applicant who possesses a valid regular California teaching credential and who is, in the judgment of the commission, qualified to receive the credential. The credential issued under the terms of this section shall be a "full," "clear," or "professional" credential. Determination of qualification shall be limited to either (a) or (a) and (b):

(a) Specialized training: Twenty-four semester units, or equivalent credit, of specialized training in the field for which the credential is to be issued shall be required. Such training may include training in a related field or fields. The commission shall establish guidelines to determine what constitutes qualifying training and what are related fields. Qualifications for specialist in special education credentials authorizing teaching in programs for learning handicapped or severely handicapped pupils, as both are defined in Section 56352, shall include, but need not be limited to, training in (1) learning disabilities, (2) perceptual-motor training, and (3) language development. Such training shall have commenced on or after the beginning of the school year 1964-65 and been completed on or before September 15, 1977, and shall have been undertaken in a California institution accredited by the State Board of Education, or approved by the commission. If the applicant received training,

within the same time limits, in an out-of-state institution, credit for such training shall apply only if, at the time the training was taken, the institution was accredited by the appropriate regional accrediting body and accredited or approved by the certification agency of the state in which the institution is located. The commission shall allow up to six semester units credit for experience, pursuant to subdivision (b), in lieu of coursework.

(b) Experience in actual practice of the specialization in the public schools. Such experience shall have commenced on or after September 1, 1970. Such experience need not have been full time in the specialization, but shall demonstrate the applicant's ability to function in the specialization, as shown by continued employment in public schools in a position or in positions which utilize the skills of the credential field or related fields.

(c) Application for credentials pursuant to this section shall be made by September 15, 1977.

#### Article 5. Examinations

44280. The adequacy of subject matter preparation and the basis for assignment of certified personnel shall be determined by the successful passage of a subject matter examination as certified by the commission, except as specifically waived as set forth in Article 6 (commencing with Section 44310) of this chapter.

44281. The commission shall select, administer, and interpret subject matter examinations, which shall be a prerequisite for assignment to assure minimum levels of subject matter knowledge by all certified personnel regardless of the pattern and place of preparation.

44282. Subject matter examinations authorizing single-subject instruction shall be required for all subjects taught in California public schools, such subjects to be subsumed, as directed by the commission, under the following categories: English, physical science, life science, mathematics, social science, history, government, industrial arts, physical education, business, music, art, home economics, agriculture, and languages, including, but not limited to, French, Spanish, Russian, German, and Chinese. The commission shall list subject matter categories.

A general subject matter examination authorizing teaching multiple subjects shall include an examination of the candidate's knowledge of the following areas: English, social science, fine arts, general science, and mathematics.

44283. The adequacy and relevancy of the categories established under Section 44282 shall be regularly assessed and reported to the Legislature and necessary and appropriate changes in legislation may be requested by the commission from time to time.

44284. Examinations authorizing advanced or specialist teaching service may be authorized by the commission. Such examinations shall conform to the guidelines established by this chapter.

44285. The reading requirement as set forth in Section 44259 may be satisfied by the completion of a commission-approved program of study, not to exceed four semester units or its equivalent, or passage of a commission-approved reading examination.

44287. An examination appropriate for pupil personnel activities is the required examination for the services credential with a specialization in pupil personnel services as set forth in Section 44266, except that the examination requirement may be waived for those applicants who have completed a commission-approved program in pupil personnel services.

44288. The commission shall create subject matter advisory panels to advise in the selection, administration, and interpretation of examinations. The subject matter advisory panels shall consist of recognized leaders in the subject matter fields to be examined and shall be composed primarily of full-time public school classroom teachers, and full-time college or university classroom teachers.

Experts and authorities in the field of examination design, interpretation, and analysis may be included in the subject matter panels or may be separately employed by the commission.

Members of the examination panels shall serve without compensation, but may be reimbursed for actual and necessary expenses.

The approved examinations shall provide for flexibility and variety in patterns of subject matter preparation.

44289. The commission shall set passing scores with the objective of assuring an adequate level of subject matter preparation.

The examination shall report at least relative and absolute scores to facilitate comparison and interpretation, if practicable.

The individual candidate's score on any examination shall be a matter of record, but shall not be posted on the front of the credential or be made available to the public; the teaching or other credential shall identify by name those examinations successfully passed.

Nothing in this section shall be construed to prohibit research, evaluation, analysis, or interpretation of test scores so long as individual confidentiality is maintained.

44290. The commission, before the adoption of any examination, shall provide an opportunity to the public and teaching profession to present their viewpoints with respect thereto in open hearings.

44291. The approved examinations shall be instruments whose purpose is to measure achievement and shall be used solely to measure objective knowledge of subject matter.

44292. Insofar as is reasonable and practicable, the commission shall adopt examinations which are nationally administered on a regular basis.

44293. In selecting subject matter examinations, the commission shall consider the importance of timely and expeditious processing and the desirability and convenience of machine scoring.

44294. The commission may approve more than one examination

with passing scores appropriate to each examination for any of the categories to be examined as required by this chapter.

44295. In the selection, adoption and interpretation of examinations, the commission shall analyze and account for any cultural, class, or social bias which may arbitrarily and unfairly work to the disadvantage of any group of examinees, and shall assess and report upon the extent to which, if any, the passing score may adversely affect any group of prospective or actual examinees due to social, cultural, or ethnic factors.

44296. The commission may collect various data, including the ethnic background of examinees, age, sex, the college or university attended, degrees held, teaching experience, and other factors which may pertain, in the judgment of the commission, to examination performance.

44297. No limit may be placed on the number of times an examinee may take the approved examinations.

44298. Fees charged for the examinations shall be sufficient to furnish the full cost of the examination system, except as these funds may be augmented from designated appropriations by the Legislature from the Teacher Credentials Fund.

#### Article 6. Examination Waivers

44310. The commission shall waive the subject matter examination requirement for graduates of accredited public and private institutions of higher education who successfully complete subject matter programs specified by the commission.

Eligibility for an examination waiver can only be achieved when the subject matter program is one which is listed by the commission under Section 44282, and the program has been successfully completed in an approved institution of higher learning.

The commission may require that the approved examination be taken by candidates, who are otherwise eligible for an examination waiver, for informational purposes only.

44311. The commission shall evaluate any subject matter program offered by an accredited institution in satisfaction of subdivision (d) of Section 44259 to determine if it is substantially the same as one of the subject matter categories covered by the examinations.

44312. A finding by the commission of the inadequacy or inappropriateness of such program as the basis for waiving the subject matter examination shall cause persons completing such programs to be ineligible for the examination waiver.

44313. The subject matter examination authorizing multiple subject classroom instruction may be waived for holders of approved "diversified" or "liberal arts" degrees, or programs or their equivalent, conferred by accredited institutions of higher education approved by the commission.

Notwithstanding the designation of the degrees conferred, the

commission shall approve the programs presented by such institution and shall not engage in the detailed analysis of the applicant's transcripts for purposes of issuing the credential. The commission, however, may provide for the selected analysis of transcripts to determine whether the programs presented by such institutions conform with the requirements of the commission.

44314. A "diversified" or "liberal arts" degree is any degree, or program included within a degree, conferred by an institution approved by the commission. It shall consist of 84 semester hours, or equivalent quarter units, equally distributed among the following four areas:

1. English, including grammar, literature, composition, and speech.

2. Mathematics and the physical or life sciences.

3. Social sciences, other than education and education methodology.

4. Humanities and the fine arts, including foreign languages.

In implementing the provisions of this section, the commission may provide for a three-semester-unit variance in any of the four areas required.

44315. Notwithstanding any provisions of law or administrative regulations, a California state university or college may approve a "diversified" or a "liberal arts" degree, provided that all coursework used to meet such requirements is provided in the several academic schools or departments, other than the school or department of education or educational methodology, of the institution.

44316. The general subject matter knowledge examination defined in Section 44282 as required for the services credential with a specialization in administrative services may be waived for applicants who meet the "diversified" degree requirements as provided in Section 44314.

(Amended by Stats. 1976, Ch. 1011 )

[ORIGINAL SECTION]

44316. The general subject matter knowledge examination defined in Section 44282 as required for the services credential with a specialization in administrative services may be waived for applicants who meet the "diversified" degree requirements as provided in section.

44317. The examination required for the services credential with a specialization in pupil personnel services may be waived for applicants who have completed a commission-approved program in pupil personnel services.

## Article 7. Professional Preparation

44320. Professional preparation, including student teaching, shall be made available in the upper division course offerings at all California public institutions of higher learning. No more than nine semester units or equivalent units of professional education courses may be designated prerequisites for purposes of admission to student

teaching, except that in the case of candidates who elect to satisfy the reading requirement as set forth in subdivision (e) of Section 44259 by an approved program of study rather than by an approved examination may be required to take 12 semester units, or the equivalent, as prerequisites to student teaching.

Prior to admission to any professional preparation program approved by the commission, a potential candidate for a credential may obtain a certificate of clearance from the commission which shall be issued when the commission has verified the candidate's personal identification and health status. The fee for the certificate of clearance shall not exceed one-half of the regular fee for a credential and shall be deducted from the fee for the initial credential applied for by the certificate holder.

44321. Student internship programs shall be joint projects of school districts and teacher preparation institutions, and such internship programs shall be submitted to the commission for approval. Approved internship programs shall be subject to periodic review by the commission.

Upon completion of an approved internship program, with district and teacher preparation institution certification, the commission shall approve the teacher intern.

44322. Notwithstanding any other provision of this code, the professional preparation requirements for a teaching credential may be met by certification by the Director of the Peace Corps of the United States that the applicant has satisfactorily completed not less than 18 months in a Peace Corps assignment in a foreign country, during which time 50 percent or more of his duties consisted of classroom teaching of resident children of the foreign country.

An applicant meeting the requirements of this section shall not be required to complete any education or methodology courses or meet any other requirement relating to professional preparation as set forth in subdivision (c) of Section 44259.

44323. Nothing in this chapter shall be construed as preventing school districts from hiring, employing, or otherwise using teacher aides, instructional aides, or teacher assistants under the terms of existing law and financial support formulas. The commission may study the various roles of such paraprofessionals and routinely report its findings.

Public and private colleges, universities, and community colleges may develop cooperative programs with school districts or school governing boards to place undergraduate and graduate students in public and private classrooms as teacher aides or assistants. Such assignment may be, at the discretion of the institution, the basis for securing college credit.

## Article 8. Certificates and Credentials

44330. Except where such service is provided by a school district pursuant to Section 44332.5, each county or city and county board of

education may provide for the registration of any valid certification or other document authorizing the holder thereof to serve in a position requiring certification qualifications as an employee of the county superintendent of schools of such county or city and county or of a school district under the jurisdiction of such county superintendent of schools. Such registration shall authorize the service of the holder as an employee of the county superintendent of schools or of any school district under his jurisdiction in the capacity in which and for the period of time for which the certification or other document is valid.

44331. County boards of education may renew any certificate legally issued by them prior to October 1, 1945, and now in force; provided, that no certificate granted upon a credential issued by the State Board of Education or commission for a limited period shall be renewed or extended unless the credential upon which it was issued has been renewed or extended, and then only for the period of the renewal or extension of the credential.

44332. Except where such service is provided by a school district authorized to register certification documents pursuant to Section 44332.5, each county or city and county board of education may issue temporary certificates for the purpose of authorizing salary payments to certified employees whose credential applications are being processed or to personnel employed in children's centers or other preschool educational programs whose permit applications are being processed. The applicant for such a temporary certificate shall make a statement under oath that he has duly filed his application for a credential or permit together with the required fee and that to the best of his knowledge no reason exists why he should not be issued a certificate or permit. Such certificate or permit shall be valid for not more than 120 schooldays, and only until the credential or permit originally requested is either issued or denied by the commission.

44332.5. A school district which may issue warrants pursuant to Section 42647 may, at its discretion, provide for the registration of any valid certification or other document authorizing the holder thereof to serve in a position requiring certification qualifications as an employee of the school district.

44333. The standard for the exchange credential shall be as prescribed by the commission pursuant to Section 44853.

This credential shall authorize service in a position requiring certification qualifications as an exchange certified employee for performance of the services specified in the credential. Services for which a license is required by the Business and Professions Code may not be authorized unless the applicant holds such a license.

44334. Except as provided in this code, no certification document shall be granted to any person unless and until he has subscribed to the following oath or affirmation: "I solemnly swear (or affirm) that I will support the Constitution of the United States of America, the Constitution of the State of California, and the laws of the United

States and the State of California." The oath or affirmation shall be subscribed and certified or declared, pursuant to Section 2015.5 of the Code of Civil Procedure, and shall be filed with the commission. Any certificated person who is a citizen or subject of any country other than the United States, and who is employed in any capacity in any of the public schools of the state shall, before entering upon the discharge of his duties, subscribe to an oath to support the institutions and policies of the United States during the period of his sojourn within the state. Upon the violation of any of the terms of the oath or affirmation, the commission shall suspend or revoke the credential which has been issued.

44335. The issuance of any teaching credential requires (1) the passing of a satisfactory examination on the provisions and principles of the Constitution of the United States in a community college, college, or university of recognized merit or (2) the satisfactory completion of two semester units of work on the provisions and principles of the Constitution of the United States in any university or college from which undergraduate credits earned are accepted by the commission as meeting undergraduate credit requirements for credentials issued by the commission or in any publicly supported community college in the state. Public and private institutions in California may be authorized to attest to the individual's satisfaction of this requirement.

44336. When required by the commission, the application for a certification document or the renewal thereof shall be accompanied by a certificate in such form as shall be prescribed by the commission, from a physician and surgeon licensed under the provisions of the Business and Professions Code showing that the applicant is free from any contagious and communicable disease or other disabling disease or defect unfitting the applicant to instruct or associate with children.

44337. No person otherwise qualified shall be denied the right to receive credentials from the commission, to receive training for the purpose of becoming a teacher, or to engage in practice teaching in any school, on the grounds he is physically handicapped; nor shall any school district refuse to engage a teacher on such grounds, provided, that such physically handicapped teacher is able to carry out the duties of the position for which he applies in the school district. "Physically handicapped" as used in this section includes total or partial visual or hearing impairments, orthopedic impairments, and other physical impairments.

44338. No person otherwise qualified shall be denied the right to receive credentials issued by the commission, to receive training for the purpose of becoming a teacher, or to engage in practice teaching in any school, on the ground he has physical deformities; provided, that such physical deformities do not constitute a health hazard to other persons with whom he may become associated.

44339. The commission shall adopt, in addition to any other regulations authorized by law, regulations requiring every applicant

for a credential, or for the renewal of a credential, to submit reasonable evidence of identification and good moral character.

44340. Each applicant for a credential, or for the renewal of a credential, shall submit with his application duplicate personal identification cards provided by the commission upon which shall appear the legible fingerprints and a personal description of the applicant.

The commission is authorized to, and shall adopt such regulations as may in its judgment be necessary for the administration of this section.

44341. The commission is authorized to secure information, records, reports, and other data relative to the identification or fitness of any applicant for a credential or for the renewal of a credential from any agency or department of the state and for that purpose, any provision of law to the contrary notwithstanding:

(a) The State Bureau of Criminal Identification and Investigation shall furnish, upon application of the commission, all information pertaining to any applicant of whom there is a record in its office.

(b) Each state hospital under the jurisdiction of the State Department of Health shall furnish upon application of the commission and with the consent of the holder or applicant, all information and records pertaining to that holder or applicant of whom there is a record in its office.

The commission upon written request of any private school authority, shall release to that private school authority information and other data relative to the identification or fitness of any applicant for a teaching position in the private school so long as not otherwise prohibited by any other privileged communication statute.

44342. Teachers, principals, supervisors, school librarians, superintendents and assistant superintendents, and other certified personnel who are presently employed in public schools in California shall not be adversely affected by this chapter. However, presently employed personnel and those in preparation shall be permitted to seek initial or renewal certification under the terms of this chapter.

44343. A credential which was issued prior to July 1, 1973, shall remain in force as long as it is valid and continues to be valid under the law and regulations of the commission. The commission may not by regulation invalidate such valid credential unless it issues to the holder thereof, in substitution, a new credential authorized by other sections of this chapter which is no less restrictive than the credential for which it was substituted with respect to the kind of service which it authorizes, and the grades or classes of types of schools in which it authorizes services.

44344. (a) The commission shall issue the appropriate credentials authorized by the law operative, and the rules and regulations of the commission in effect on December 31, 1971, to any person who completed the requirements for such credential prior to September 15, 1974.

(b) A person may be issued a credential under this section after

September 15, 1974, if that person, between December 31, 1971, and September 15, 1974:

(1) Was engaged in teaching in a foreign country, after such person had completed the requirements of such credential.

(2) Holds a credential issued under partial fulfillment and was working towards meeting the requirements of that credential and was enrolled in a teacher training institution.

(3) Was working towards meeting the requirements of such credential and was prevented from completing those requirements because of active military service, illness, or other causes determined by the commission.

(4) Was accepted into and enrolled in a teacher education curriculum at any institution and would be required to take more than 15 semester-hour units or the equivalent quarter-hour units after September 15, 1974, beyond the requirements necessary to receive such credential, in order to meet the requirements of credentials issued under this chapter.

(5) Was enrolled in a student-declared degree program at an accredited institution leading to such credential with at least a junior standing as determined by the institution and would be required to take more than 15 semester-hour units or the equivalent quarter-hour units after September 15, 1974, beyond the requirements necessary to receive such credential, in order to meet the requirements of credentials issued under this chapter.

(c) No credential authorized under this law and rules and regulations in effect on December 31, 1971, shall be issued to any person pursuant to the exceptions specified in paragraphs (1) to (5), inclusive, of subdivision (b) after September 15, 1976.

(d) For the purposes of this section, "teacher education curriculum" means any professional education course or sequence of professional education courses required for a credential authorized by the law operative, and the rules and regulations of the commission in effect on December 31, 1971.

(e) For the purposes of this section, "student-declared degree program" means any student-elected degree objective at an approved institution selected for the purpose of obtaining a credential authorized by the law operative, and the rules and regulations of the commission in effect on December 31, 1971.

44345. The commission may deny any application for the issuance of a credential or for the renewal of a credential made by any applicant who:

(a) Lacks the qualifications which are prescribed by law or regulations adopted by the commission pursuant thereto.

(b) Is physically so disabled as to be rendered unfit to perform the duties authorized by the credential for which he applies.

(c) Is addicted to the use of intoxicating beverages to excess.

(d) Is addicted to the use of narcotics or habit-forming drugs.

(e) Has committed any act involving moral turpitude.

(f) Has had a certification document revoked.

(g) Has intentionally practiced or attempted to practice any material deception or fraud in his application.

(h) Fails or refuses to furnish reasonable evidence of identification or good moral character.

(i) Has been convicted of any offense defined in subdivision 1 of Section 314 of the Penal Code prior to September 7, 1955.

44346. The commission shall deny any application for the issuance of a credential or for the renewal of a credential made by any applicant who comes within any of the following classes:

(a) Has been determined to be a sexual psychopath under the provisions of Article 1 (commencing with Section 6300), Chapter 2, Part 2, Division 6 of the Welfare and Institutions Code or under similar provisions of law of any other state.

(b) Has been convicted of any sex offense as defined in Section 44010.

(c) Has been convicted of a narcotics offense as defined in Section 44011.

44347. The terms of credentials shall be as specified in this article.

44348. Except as otherwise specifically required in this chapter, the commission shall establish regulations pertaining to the expiration dates of initially issued and renewed credentials.

44349. Each credential issued by the commission shall clearly state the kind of service that it authorizes, the grades or classes, or the types of schools in which it authorizes service, and shall have such other content as the commission may prescribe or as may be prescribed by authority of the commission.

44350. Each credential issued shall contain its date of expiration and shall be issued on a form prescribed by the commission, and shall bear the signatures of the secretary and the chairman of the commission or their facsimile signatures.

44351. Whenever the date of expiration of any credential occurs while the person holding the credential is in the active military service of the United States of America or of the State of California, including active service in any uniformed auxiliary of, or to, any branch of such military service created or authorized as such auxiliary by the Congress of the United States of America or by the Legislature of the State of California or in the service of the United States Merchant Marine, or in the full-time paid service of the American Red Cross, during any national emergency declared by the President of the United States of America, or during a war in which the United States of America is engaged, or within six months after such person honorably leaves such service or has been placed on inactive duty, the credential is hereby continued in force until six months after such person honorably leaves such service or has been placed on inactive duty.

The holder of a credential so extended shall be entitled to a renewal of the credential prior to its date of expiration as herein fixed, subject to provisions of this code relating to the renewal of credentials.

44352. Whenever satisfactory proof is presented to the commission by any person to whom the commission has granted a credential that has been lost or destroyed, the commission shall issue to him a new credential of the same kind, grade, character, and tenure as that lost or destroyed.

For issuance of the new credential the commission shall require a fee to cover the cost of replacement not to exceed the fee for issuance of an original credential pursuant to Section 44235. The revenues from the fee provided for in this section shall not be available for expenditure until appropriated.

44353. Satisfactory proof shall consist of an affidavit by the person, giving the kind of the credential, the date of issue, if possible, and the basis upon which it was issued, together with such other information as the issuing authority may require.

44354. Any oath required of an applicant for a credential may be administered by any of the persons enumerated in Section 60, by such employees of the Department of Education as the Superintendent of Public Instruction may designate, and by such employee of the commission as the commission may designate.

### CHAPTER 3. CERTIFICATED EMPLOYEES

#### Article 1. Revocation and Suspension of Certification Documents

44420. Should any person employed by a school district in a position requiring certification qualifications refuse, without good cause, to fulfill a valid contract of employment with such district or leave the service of such district without the consent of the superintendent, if any, or the governing board, of such district except in the manner provided for by law, the Commission for Teacher Preparation and Licensing shall, after proof of such fact is made to it, suspend the credentials theretofore issued to him by the commission for not more than one year.

If the credentials issued to the person by the board or the commission have once been suspended pursuant to this section, the commission may, if such credentials again become subject to suspension under this section, suspend such credentials for not more than two years.

44421. The Commission for Teacher Preparation and Licensing shall revoke or suspend for immoral or unprofessional conduct, or for persistent defiance of, and refusal to obey, the laws regulating the duties of persons serving in the public school system, or for any cause which would have warranted the denial of an application for a credential or the renewal thereof, or for evident unfitness for service.

44422. Whenever the holder of any credential issued by the State Board of Education or the Commission for Teacher Preparation and Licensing is charged with immoral or unprofessional conduct or evident unfitness for service or persistent defiance of, and refusal to obey, the laws regulating the duties of his position, the commission

in its discretion after notifying the person charged of its intention to do so, may require the county board of education of the county in which he is serving or has last served to give notice of, and conduct, a hearing of the charges in the manner prescribed by law for the hearing of charges for the revocation or suspension of a certificate by a county board of education.

The county board of education, after the hearing, shall report to the commission its findings, and a summary of the evidence, and shall make a definite recommendation concerning the revocation or suspension of the credential.

Upon receipt of a copy of the findings, summary of evidence, and recommendation, the commission may suspend or revoke the credential for the causes stated, or order the charges dismissed.

44423. Whenever the holder of any credential issued by the State Board of Education or the Commission for Teacher Preparation and Licensing requests in writing that the credential held by him be revoked, the commission shall revoke such credential.

44424. Upon the becoming final of the conviction of the holder of any credential issued by the State Board of Education or the Commission for Teacher Preparation and Licensing of a violation, or attempted violation, of any one or more of Penal Code Sections 187 to 191, 192 insofar as said section relates to voluntary manslaughter, 193, 194 to 232, both inclusive, 244, 245, 261 to 267, both inclusive, 273a, 273f, 273g, 278, 285 to 288a, both inclusive, 424, 425, 484 to 488, both inclusive, insofar as said sections relate to felony convictions, 503 and 504, or of Penal Code Section 272, the commission shall forthwith revoke the credential.

44425. Whenever the holder of any credential issued by the State Board of Education or the Commission for Teacher Preparation and Licensing has been convicted of any sex offense as defined in Section 44010 or narcotics offense as defined in Section 44011, the commission shall forthwith suspend the credential. If the conviction is reversed and the holder is acquitted of the offense in a new trial or the charges against him are dismissed, the commission shall forthwith terminate the suspension of the credential. When the conviction becomes final or when imposition of sentence is suspended, the commission shall forthwith revoke the credential.

44426. Whenever the holder of any credential issued by the State Board of Education or the Commission for Teacher Preparation and Licensing has been determined to be a sexual psychopath under the provisions of Article 1 (commencing with Section 6300) of Chapter 2 of Part 2 of Division 6 of the Welfare and Institutions Code or under similar provisions of law of any other state, the commission shall forthwith suspend the credential. If the determination is reversed and the holder is determined not to be a sexual psychopath in a new proceeding or the proceeding to determine whether he is a sexual psychopath is dismissed, the commission shall forthwith terminate the suspension of the credential. When the determination becomes final, the commission shall forthwith revoke the credential.

44427. County boards of education may revoke or suspend, for immoral or unprofessional conduct, evident unfitness for teaching, or persistent defiance of, and refusal to obey the laws regulating the duties of, teachers, the certificates granted by them.

44428. No certificate shall be revoked or suspended, except upon the written request of its holder, until after a hearing before the county board of education, and then only upon the affirmative vote of at least four members of the board.

44429. All charges of immoral or unprofessional conduct, of evident unfitness for teaching, or persistent defiance of, and refusal to obey the laws regulating the duties of teachers, shall be presented to the board in writing and shall be verified under oath.

44430. Notice of the time of hearing and a full and complete copy of the charges shall be furnished to the accused at least 10 days before the hearing.

44431. The accused shall be given a fair and impartial hearing and shall have the right to be represented by counsel.

44432. The hearing shall be governed by and conducted under the rules of the board.

44433. If any teacher employed by a board of school trustees for a specified time, leaves the school before the expiration of the time, without the consent of the trustees, in writing, the teacher is guilty of unprofessional conduct, and the board of education of the county, upon receiving notice of the fact, may suspend the certificate of the teacher for the period of one year.

44434. Each city or city and county board of examination may for immoral and unprofessional conduct, profanity, intemperance, or evident unfitness for teaching, recommend to the city or city and county board of education, the revocation of any certificate previously granted by the board of education in the city or city and county.

44435. Upon the becoming final of the conviction of the holder of a certificate issued by a county board of education of a violation or attempted violation of any one or more of Penal Code Sections 187 to 191, 192 insofar as said section relates to voluntary manslaughter, 193, 194 to 232, inclusive, 244, 245, 261 to 267, inclusive, 273a, 273f, 273g, 278, 285 to 288a, both inclusive, 424, 425, 484 to 488, both inclusive, insofar as said sections relate to grand theft, 503 and 504, or of Penal Code Section 272, the county board of education shall forthwith revoke the certificate.

(Amended by Stats 1976, Ch 1011.)

[ORIGINAL SECTION]

44435 Upon the becoming final of the conviction of the holder of a certificate issued by a county board of education of a violation or attempted violation of any one or more of Penal Code Sections 187 to 191, 192 insofar as said section relates to voluntary manslaughter, 193, 194-232, both inclusive, 244, 245, 261 to 267, inclusive, 273a, 273f, 273g, 278, 285 to 288a, both inclusive, 424, 425, 484 to 488, both inclusive, insofar as said sections relate to grand theft, 503 and 504, or of Penal Code Section 272, the county board of education shall forthwith revoke the certificate

44436. Whenever the holder of a certificate issued by a county

board of education has been convicted of any sex offense as defined in Section 44010 or narcotics offense as defined in Section 44011, the county board of education shall forthwith suspend the certificate. If the conviction is reversed and the holder is acquitted of the offense in a new trial or the charges against him are dismissed, the board shall forthwith terminate the suspension of the certificate. When the conviction becomes final or when imposition of sentence is suspended the board shall forthwith revoke the certificate.

44437. Whenever the holder of a certificate issued by a county board of education has been determined to be a sexual psychopath under the provisions of Article 1 (commencing with Section 6300), Chapter 2, Part 2, Division 6 of the Welfare and Institutions Code or under similar provisions of law of any other state, the county board of education shall forthwith suspend the certificate. If the determination is reversed and the holder is determined not to be a sexual psychopath in a new proceeding or the proceeding to determine whether he is a sexual psychopath is dismissed, the board shall forthwith terminate the suspension of the certificate. When the determination becomes final, the board shall forthwith revoke the certificate.

### Article 3. Teacher Education Internship Act of 1967

44450. This article shall be known and may be cited as the Teacher Education Internship Act of 1967.

44451. The intent of the Legislature in enacting this article is to increase the effectiveness of teachers and other professional school service personnel in the public schools of California by placing theory and practice as closely together as possible in college and university programs for the preparation of teachers and professional school service personnel. The Teacher Education Internship Act of 1967 is enacted to encourage the development and maintenance of preparation programs that are realistic and practical in content and theory and are directly related to the individual functions and responsibilities practitioners in the public schools of California face. The desirability of joining theory and practice during the learning period has been demonstrated amply in teaching internship programs during the past several years both within and without the state.

44452. Any school district may, in cooperation with an approved college or university, establish a teacher education internship program as provided in Section 44321, and meeting the provisions of the statutes and of the regulations of the Commission for Teacher Preparation and Licensing.

44453. For admission to all teaching internship programs authorized by this article, an applicant shall have a baccalaureate or higher degree from an institution approved for credential purposes by the Commission for Teacher Preparation and Licensing at the time the degree was earned and shall pass a subject matter

examination, as defined in subdivision (c) of Section 44203.

44454. An internship credential authorizes the same service at the same levels as the regular standard credential authorizes.

44455. An internship credential shall be issued initially for a two-year period and may be renewed by the commission.

44456. Notwithstanding Section 44455, an internship credential may be renewed by the Commission for Teacher Preparation and Licensing if in its judgment an applicant is unable to complete renewal requirements because of illness or other circumstances judged to be extenuating and not within the control of the applicant.

44457. Prior to enrollment in any college or university preparation program to renew the internship credential, appropriate personnel in the employing school district shall counsel with the intern and a total program for the first and subsequent renewals shall be planned. The county superintendent of schools shall be involved in the program planning in the case of joint recommendations.

44458. The program shall meet the instructional or service needs of the district with the primary objective being to increase the effectiveness of the intern in the district. Both the district and the intern shall concur in the program planned.

44459. The full cooperation of colleges and universities is essential if teaching and service internship programs are to be successful. A school district establishing an internship program shall seek the cooperation of public and private colleges and universities, especially those within the geographic service area of the district for the establishment of courses and classes necessary for renewal.

44460. The intern shall have the right to attend any regionally accredited college or university of his choice for the completion of renewal requirements. The success of internship programs will lie in the development of integrated, well-organized, and sequential programs of study by cooperating colleges and universities. When appropriate and feasible, colleges and universities may provide offcampus programs of study for interns within the geographic area of their employing school districts.

44461. The supervisory help and guidance of interns as they pursue their school district responsibilities are important for the success of such programs. The utilization of competent and qualified college and university staff members for this purpose is encouraged. To help achieve this end, school districts, and county superintendents of schools in the case of joint recommendations, may enter into agreements with colleges and universities for the employment of staff for such supervision.

44462. Salary payments for supervision of interns may be made out of district funds and may be met by reducing proportionately the salaries paid interns. Under this authorization no more than eight interns may be supervised by one staff member and the normal district salary paid each intern may be reduced by as much as, but no more than, one-eighth to pay the salary of the supervisor. In no

event may an intern be paid less than the minimum salary required to be paid by the state to a regularly certificated teacher.

44463. An intern shall have the right to change school districts upon completion of a school contract year and become an intern in a new school district if recommended by the new school district. A new application recommending issuance of a new internship credential shall be submitted by the school district in behalf of the individual and the renewal procedures shall be followed.

44464. An internship credential shall be valid only as long as the holder is in good standing in the teacher internship program of the district that makes the request, notwithstanding any provision of Section 44463, and the rights provided by Sections 44948 and 44949 shall not be afforded to interns.

44465. A school district shall give special supervision and assistance to each intern above and beyond that given to other newly certificated and newly employed school personnel. A school district shall seek the assistance of the college or university in coordinating the program for the intern.

44466. Interns shall not acquire tenure while serving on an internship credential, but each year of service as an intern shall count toward the achievement of tenure.

44467. Colleges and universities may continue the development and maintenance of internship credential programs under their own auspices seeking the cooperation of school districts in their full implementation.

#### Article 4. Ryan Master Teacher Act

44490. It is the intent and purpose of the Legislature, by the provisions of this article, to encourage teachers employed in the public schools to attain excellence in their profession, and to provide them with incentives to that end in the form of both special recognition and material reward.

The Legislature has determined that in the education of our youth the role of the teacher is paramount, and that all other functions in school operation are secondary and supportive to the teacher's role. It has come to the attention of the Legislature that in recent years the departure from the classroom of eminently qualified teachers has occurred at an alarmingly accelerated pace, and that such persons have felt compelled to enter upon nonteaching careers in order to secure the personal recognition and material rewards which their ability as educators can command. The provisions of this article are directed, therefore, to the restoration of the teacher and the teaching profession, as such, to their rightful position of primary importance in the structure of the educational system.

This article applies only to school districts having an average daily attendance of over 100 in the fiscal year in which participation is sought.

This article shall be known and may be cited as the Ryan Master

Teacher Act.

44491. The Superintendent of Public Instruction shall establish a statewide master teacher selection program in the districts of the state. No application to participate in the program shall be submitted by the governing board of the school district to the superintendent until an election has been held by all certificated employees of the school district and conducted by the district superintendent. A 60-percent majority of those voting shall be necessary to indicate support of the program.

In any district with an average daily attendance of 400,000 or more, the governing board of the district may authorize elections to be conducted in areas based upon district organizational structure and any area which votes pursuant to this section to support a program shall be treated as a district for the purpose of this article.

School districts not qualified to receive state equalization aid allowances from the State School Fund participating in a program under this article shall fund 50 percent of the program.

44492. The Members of the Legislature appointed to the committee pursuant to Section 44491 shall meet with, and participate in, the work of the committee to the extent that such participation is not incompatible with their positions as Members of the Legislature. The Members of the Legislature appointed to the committee shall serve at the pleasure of the appointing power. For purposes of this article, such Members of the Legislature shall constitute a joint legislative committee on the subject of this article and shall have the powers and duties imposed upon such committee by the Joint Rules of the Senate and Assembly.

44493. There is a Master Teacher Review Board; composed of the Director of Finance, or his designee; the Legislative Analyst, or his designee; the Superintendent of Public Instruction, or his designee; the Chairman of the Assembly Ways and Means Committee; and the Chairman of the Senate Finance Committee.

The legislative members of the board shall meet with, and participate in, the work of the board to the extent that such activity is not incompatible with his position as Members of the Legislature.

If 25 percent or more of the teachers eligible to participate in the program pursuant to Section 44497, of a school district are designated as certified master teachers pursuant to this article, the Master Teacher Review Board shall review the selection process in such district to ascertain whether or not the district is complying with the provisions of this article. No stipend shall be paid to any teacher in such a district unless such payment is approved by the Master Teacher Review Board after a determination that the district is in substantial compliance in its selection procedures.

44494. A master teacher selection panel shall be established by the district superintendent in each participating school district. Each panel member shall serve for two years and be selected as follows:

(a) One member of the governing board of the school district, selected by the governing board.

(b) One administrator who is a superintendent or principal in the school district, selected by the governing board.

(c) In a unified school district, two elementary certificated employees of the school district who spend 80 percent of their teaching time in the classroom and who have submitted their own names in nomination, selected by the elementary certificated employees of the school district voting in a secret ballot election conducted by the district superintendent held not later than the 15th of October of the school year.

(d) In a unified school district, two secondary certificated employees of the school district who spend 80 percent of their teaching time in the classroom and who have submitted their own names in nomination, selected by the secondary certificated employees of the school district voting in a secret ballot election conducted by the district superintendent held not later than the 15th of October of the school year.

(e) In an elementary school district, four elementary certificated employees who spend 80 percent of their teaching time in the classroom and who have submitted their own names in nomination, selected by the elementary certificated employees of the school district voting in a secret ballot election conducted by the district superintendent held not later than the 15th of October of the school year.

(f) In a high school district, four secondary certificated employees who spend 80 percent of their teaching time in the classroom and who have submitted their own names in nomination, selected by the secondary certificated employees of the school district voting in a secret ballot election conducted by the district superintendent held not later than the 15th of October of the school year.

(g) Two public members who are not officers or employees of the school district, selected by the county superintendent of schools.

The chairman of the panel shall be selected by the members of the panel.

Any vacancies on the panel shall be filled by the appropriate appointing authority in the manner specified in this section.

44495. A master teacher selection panel may adopt reasonable rules and regulations for the implementation of this article.

44496. No master teacher selection panel or member of a master teacher selection panel may be held civilly liable by an applicant for any act or omission which occurs in the direct implementation of this article.

44497. The criteria for the selection of certified master teachers shall be established by the panel and shall require at least:

(a) A master's degree in an academic field or a bachelor's degree plus 45 semester units taken after the bachelor's degree, or the equivalent, to be determined by the master teacher selection panel, of a master's degree in vocational subjects for which master's degrees are not usually awarded, or successful completion of the competence examination prescribed in Chapter 557 of the Statutes of 1970;

(b) Eight years of total teaching experience, with four years of teaching experience in the district;

(c) That the teacher spend at least 80 percent of his teaching time in the classroom;

(d) The demonstration of distinctly superior teaching ability.

44498. The criteria for the selection of certified master teachers shall be published by the Superintendent of Public Instruction and shall be available free of charge to all certificated employees of the school districts designated to participate in this pilot program.

44499. Each master teacher selection panel shall receive applications, to be filed by March 1 of the school year, from public school teachers, submitted in the form prescribed by the panel and accompanied by a two-hundred-dollar (\$200) fee, requesting that the applicant be certified as a certified master teacher.

44500. The master teacher selection panel shall appoint for each applicant for a master certificate two certificated employees from a school district other than the participating school district and who spend at least four-fifths of their teaching time in a classroom, who shall inquire into the professional competence of the applicant. A third certificated employee may be appointed when a distinct difference of opinion exists between the evaluation of the two certificated employees. The appointed certificated employees may, if they are qualified, examine more than one applicant. The appointed certificated employees need not be residents of the county in which the participating school district is located. These appointed certificated employees shall be known as examiner teachers and shall be appointed by April 1 of the school year.

The examiner teachers shall sign affidavits stating that they have no specific knowledge of the applicant for certification as master teachers, either personally or professionally.

The examiner teachers shall, independently of each other, make individual written reports on the applicant's professional competence to the master teacher selection panel not later than June 1st of the school year.

The examiner teachers shall talk with other teachers in the school where the applicant is employed, other teachers in the school district, the principal of the school where the applicant is employed, and other administrators, parents, and students who may have specific knowledge of the applicant's professional qualities. The examiner teacher shall also consider evidence of relative gains made by pupils taught by the applicant, as measured by standardized tests.

Upon a favorable recommendation by the examiner teachers, the master teacher selection panel, by majority vote of those present and voting, shall issue a certificate designating the applicant as a certificated master teacher.

Each certified master teacher shall be reexamined every five years pursuant to this article.

The examiner teachers shall be reimbursed for travel in connection with such inquiry. Examiner teachers shall be granted

time off without loss of pay for not to exceed two schooldays during any school year for each applicant they examine. The employing school district shall be reimbursed by the county superintendent of schools for the salary of substitute teachers hired for the examiner teachers.

A separate fund shall be established for receiving application fees, to be used for the payment of examiner teachers and other related expenses. Any deficit in such a fund shall be made up by the allocation of moneys thereto from the State School Fund apportionments to the employing districts. The allocation, and the transfer of moneys to the fund, shall be made upon order of the county superintendent of schools.

44501. Any school district which employs a certified master teacher shall pay the teacher an additional stipend of four thousand dollars (\$4,000) per school year over and above the regular salary which would otherwise be paid to the teacher.

The Superintendent of Public Instruction shall order reimbursements to be made from funds transferred to the State School Fund in each fiscal year to each school district equal to the total of the stipends paid to certified master teachers pursuant to this section.

The Superintendent of Public Instruction shall proportionally reduce the amounts allowed pursuant to Section 41301, or any act which supersedes that section, by the amount allowed as reimbursements pursuant to this section.

The amount reimbursed in any fiscal year shall not exceed an amount equal to 150 percent of the amount reimbursed in the preceding fiscal year.

Any teacher who qualifies at any time during the school year shall be presumed to have been a master teacher for the entire year and shall be entitled to payment in the full stipend amount of four thousand dollars (\$4,000).

44502. The Department of Education, with the advice of the Department of Finance, shall prepare an annual estimate of the amount required for expenditure pursuant to this article.

The Department of Education shall keep an accounting of the number of school districts which are eligible to participate in the program.

Not more than 10 school districts may be admitted to participate in the program the first year. Thereafter, total number of districts admitted to participate in the program for the first time in any one fiscal year shall not exceed an amount equal to 30 percent of the number of participating districts in the preceding fiscal year.

44503. The governing board of any school district participating in the program may receive and expend funds from any other public or private agency for purposes of this article.

44504. The Legislative Analyst shall report on the implementation of the programs authorized by this article to the Legislature and the Master Teacher Review Board on or before

January 5 of 1973, 1974, 1975, 1976, and 1977.

### Article 5. New Careers Program

44520. It is the intent and purpose of the Legislature by enacting this chapter to make provisions for a New Careers Program to recruit and train persons who have completed at least 60 units of college work in a community college or a four-year institution of higher education for teaching in low-income elementary schools. It is the further intent and purpose of this chapter to provide a means by which capable persons of low-income background may enter the teaching profession. The New Careers Program is designed to provide practical teaching experience in schools with high concentrations of low-income families, as determined by the Director of Compensatory Education, concurrently with upper division academic and professional education.

44521. The University of California, the California State University and Colleges, or any private institution of higher education may participate in the program prescribed in this article.

44522. Any school district may enter into an agreement with the University of California, California State University and Colleges, or any private institution of higher education to participate in the New Careers Program prescribed in this article.

44523. The State Department of Education may enter into an agreement with a participating school district to provide training and to share administrative costs and salary support in the New Careers Program prescribed in this article.

A person selected to participate in the program prescribed in this article shall be known as an "intern."

44524. Any person who has completed at least 60 units of collegiate work and who has lived or worked extensively in areas of high concentrations of low-income families, or is a member of a minority racial or ethnic group who has lived and worked extensively in low-income areas, shall be eligible to be selected to participate in the program prescribed in this article. An intern shall be selected on the basis of high teaching potential and shall meet the personal qualifications for the issuance of a credential prescribed in Section 44258. The intern shall give reasonable evidence that he will teach for at least two years following the training program in a school in a low-income area.

Recruitment of interns for this program shall be primarily from two groups: (1) community college or lower division college students or other persons having completed 60 units of college work and (2) teacher aides already employed under Sections 44833, 54481, or 45360 to 45367, inclusive, and other programs providing training and teacher aide experience in the classroom setting.

44525. An intern shall be enrolled in at least a 6-week, but not more than a 12-week, preservice program at the participating university, campus of the California State University and Colleges, or

private institution of higher education.

44526. The participating university, state college, or private institution of higher education and school district shall jointly select the interns and team leaders to participate in the program prescribed in this article.

A team leader shall be an experienced teacher who has demonstrated capability in teaching educationally disadvantaged pupils and shall be directly responsible to direct, aid, coordinate, and supervise interns in their internship pursuant to this article in the participating school district.

44527. The team leader shall have at least 6 but not more than 10 interns under his supervision. The team leader and his interns shall assist in the teaching process in the participating school district.

44528. An intern shall enroll in a course of study at the participating university, campus of the California State University and Colleges, or private institution of higher education which will lead to a baccalaureate degree and a teaching credential.

44529. The team leader and his interns shall, in addition to teaching duties, be afforded time for a teacher education program to be carried out under the guidance of the team leader in cooperation with the participating university, campus of the California State University and Colleges, or private institution of higher education.

44530. The participating school district shall pay at least 10 percent, but not more than 90 percent, of the compensation to be paid the following participants in the New Careers Program:

(a) Team leaders, who shall receive compensation at a rate the equivalent to that paid other experienced teachers in the participating school district with similar professional preparation and responsibilities.

(b) Interns, who shall receive seventy-five dollars (\$75) a week, plus a fifteen dollars (\$15) a week dependents allowance for each dependent.

44531. The participating school district shall pay to the intern an amount equivalent to the tuition fees or college or university fees, or both, if levied, upon the intern attending the participating university, campus of the California State University and Colleges, or private institution of higher education.

44532. The Director of Compensatory Education shall, under the policy direction of the State Board of Education and the administrative direction of the Director of Education, provide administrative assistance with respect to the program prescribed in this article and shall adopt rules and regulations with respect thereto.

44533. The Department of Education shall reimburse school districts participating in the New Careers Program for the expenses incurred by the school district pursuant to Sections 44530 and 44531.

44534. The participating university, campus of the California State University and Colleges, and private institution of higher education shall fund its own costs involved in the program prescribed by this article.

## Article 6. Teacher Preparation

44560. On and after July 1, 1974, each school with a substantial population of students of diverse ethnic backgrounds shall provide an in-service preparation program designed to prepare teachers and other professional school service personnel to understand and effectively relate to the history, culture, and current problems of these students and their environment. For purposes of this article a school shall be considered to have a substantial population of students of diverse ethnic backgrounds where 25 percent or more of all the students in the school are of diverse ethnic backgrounds.

44561. The Department of Education shall develop a list of approved courses which shall be considered acceptable for meeting the requirements of this article. The department shall cause a list of approved courses to be published and distributed to interested teachers, administrators, and governing boards of school districts. The department shall be responsible for coordinating the efforts of school districts and colleges to develop adequate course offerings to satisfy the requirements of this article.

44562. In-service programs designed to fulfill the requirements of this article may include, but need not be limited to, courses offered by community colleges and colleges and universities approved by the State Board of Education. A district may provide an in-service program consisting in whole or in part of preparation other than college courses.

Such a program shall be developed cooperatively with the Department of Education and shall have prior approval of the Department of Education. An in-service program which meets the intent of this article shall encompass the history, culture, and current problems of the students of diverse ethnic background.

All college courses approved by the Department of Education for the purposes of this article shall be considered acceptable for salary credit purposes by any school district. District in-service programs shall specify an amount of equivalent credit which shall be acceptable for salary credit purposes in the school district providing the in-service program.

44563. The Department of Education shall provide in its budget for the necessary funds to employ appropriate staff to implement the intent of this article.

44564. The department shall continually evaluate the results of this article.

## Article 7. In-Service Training—Personnel, Secondary Education

44570. It is the intent of the Legislature to encourage California's institutions of higher education, whether public or private, to enter into cooperative arrangements with local school districts for the provision of training programs designed to improve high school teachers' instructional skills. The Legislature recognizes that the

usual teacher preparation required by law and provided by most teacher-training institutions—while meeting high quality standards—may not provide desirable exposure to the range of new and innovative teaching techniques being developed and tested by and in cooperation with major universities throughout the United States; nor does the usual preparation provide, even with practice teaching, on-the-job experience under the guidance of resource and consulting personnel involved in development of new techniques or of so-called master teachers chosen for their exceptional ability and supplementary research in the field.

The Legislature, therefore, intends, in enacting this article, to facilitate the process whereby institutions of higher education, research centers, or regional educational laboratories may provide resource personnel and special courses under contracts or other cooperative arrangements with local school districts.

44571. As used in this article, the term “staff development project,” means training programs established to improve high school teachers’ instructional skills pursuant to this article.

44572. Staff development projects shall be made available whenever possible to the following personnel:

(a) New high school teachers of the district who have not yet completed the fifth year of university or college education requirements for a standard teaching credential with a specialization in secondary teaching.

(b) New teachers of the district, whether from California or out of state, who may already have completed all requirements for a standard teaching credential with a specialization in secondary teaching.

(c) Teachers who may already be teaching in the district, including those who have, as well as those who have not, completed the fifth-year requirement for a standard teaching credential with a specialization in secondary teaching.

(d) High school counselors or visiting teachers.

(e) High school administrators.

44573. The governing board of any school district may establish a staff development project to improve high school teachers’ instructional skills pursuant to this article.

A staff development project may include, but not be limited to, the following components, as determined by the governing board:

(a) A statement of the school district’s objectives in establishing the project, specifying the school district’s particular needs with reference to specialized instructional personnel.

(b) A description of the component parts of the proposed staff development project, including:

(1) Courses to be made available to trainees through arrangements with an institution of higher education, research center, or regional education laboratory; and

(2) Other planned trainee activities.

(c) A statement outlining methods and criteria to be used in

selecting trainees for the project.

(d) A statement indicating generally the duration of the program and the number of hours per week each trainee would be involved in designated activities.

(e) A statement describing the manner in which the staff development project is to be evaluated upon termination of a unit of training.

(f) A statement of proposed expenditures and reasonably expected costs, and an outline of proposed federal or state and local fund matching arrangements.

44574. The governing board of any school district may contract with institutions of higher education, including the University of California, the California State University and Colleges, and private institutions, and with research centers or regional education laboratories, for such institutions, centers, or laboratories to furnish academic and consulting services for purposes of a staff development project. The school district shall be deemed the contracting agency and shall be responsible for coordination and administration of the staff development project.

44575. The school district shall provide the necessary facilities, equipment, and instructional materials for the project.

44576. Certificated employees participating as trainees in a staff development project shall be remunerated on a basis consistent with usual procedures of the school district.

44577. The school district shall pay, out of the funds of the school district, all costs of the project.

44578. Any institution of higher learning participating in a staff development project pursuant to this article shall grant academic credit for the courses established under terms of the contract arranged with respect to a staff development project. Such academic credit shall be granted on whatever hour or unit basis is the practice at the participating institution.

#### Article 8. In-Service Training—Personnel

44580. It is the intent of the Legislature to encourage California's institutions of higher education, whether public or private, to enter into cooperative arrangements with local school districts for the provision of training programs designed to improve elementary teachers' instructional skills. The Legislature recognizes that the usual teacher preparation required by law and provided by most teacher-training institutions—while meeting high quality standards—may not provide desirable exposure to the range of new and innovative teaching techniques being developed and tested by and in cooperation with major universities throughout the United States; nor does the usual preparation provide, even with practice teaching, on-the-job experience under the guidance of resource and consulting personnel involved in development of new techniques or of so-called master teachers chosen for their exceptional ability and

supplementary research in the field.

The Legislature, therefore, intends, in enacting this article, to facilitate the process whereby institutions of higher education, research centers, or regional educational laboratories may provide resource personnel and special courses under contracts or other cooperative arrangements with local school districts.

44581. As used in this article, the term "staff development project," means training programs established to improve elementary teachers' instructional skills pursuant to this article.

44582. Staff development projects shall be made available whenever possible to the following personnel:

(a) New elementary teachers of the district who have not yet completed the fifth year of university or college education requirements for a standard teaching credential with a specialization in elementary teaching;

(b) New teachers of the district, whether from California or out of state, who may already have completed all requirements for a standard teaching credential with a specialization in elementary teaching;

(c) Teachers who may already be teaching in the district, including those who have, as well as those who have not, completed the fifth year requirement for a standard teaching credential with a specialization in elementary teaching;

(d) Elementary school counselors or visiting teachers; and

(e) Elementary school administrators.

44583. The governing board of any school district desiring to establish a staff development project shall submit one or more project proposals to the State Department of Education for review and for final approval by the State Board of Education. No funds appropriated for purposes of this article shall be allocated to a school district for a staff development project until the State Board of Education approves of the project.

44584. A staff development project proposal shall include, but not be limited to, the following components, as well as any other components which the State Board of Education determines meet the needs and purposes of a staff development project:

(a) A statement of the school district's objectives in establishing the project, specifying the school district's particular needs with reference to specialized instructional personnel.

(b) A description of the component parts of the proposed staff development project, including:

(1) Courses to be made available to trainees through arrangements with an institution of higher education, research center, or regional education laboratory; and

(2) Other planned trainee activities.

(c) A statement outlining methods and criteria to be used in selecting trainees for the project.

(d) A statement indicating generally the duration of the program and the number of hours per week each trainee would be involved

in designated activities.

(e) A statement describing the manner in which the staff development project is to be evaluated upon termination of a unit of training.

(f) A statement of proposed expenditures and reasonably expected costs, and an outline of proposed federal or state and local fund matching arrangements.

44585. The governing board of any school district may contract with institutions of higher education, including the University of California, the California State University and Colleges, and private institutions, and with research centers or regional education laboratories, for such institutions, centers, or laboratories to furnish academic and consulting services for purposes of a staff development project. The school district shall be deemed the contracting agency and shall be responsible for coordination and administration of the staff development project.

44586. The school district shall bear 50 percent of the cost of a staff development project coordinator's salary, and shall provide the necessary facilities, equipment, and instructional materials for the project.

44587. Certificated employees participating as trainees in a staff development project shall be remunerated on a basis consistent with usual procedures of the school district.

44588. The Superintendent of Public Instruction shall allow, out of funds appropriated to the Department of Education for the purpose, to each school district an amount sufficient to pay the tuition costs and other fees necessary for trainees to take courses prescribed in the staff development project at the college or university level, and to pay the consultation costs of the project, and to pay 50 percent of the cost of the salary of the staff development project coordinator.

44589. Any institution of higher learning participating in a staff development project pursuant to this article shall grant academic credit for the courses established under terms of the contract arranged when a staff development project has been approved by the State Board of Education. Such academic credit shall be granted on whatever hour or unit basis is the practice at the participating institution.

44590. A staff development project submitted by a school district may be renewed, but it shall include any modifications recommended by the State Board of Education upon review of the school district's evaluation of the staff development project.

44591. The Department of Education shall, subject to the approval of the State Board of Education, establish rules and regulations for the administration of this article, including the use of any federal funds that may be available for purposes of this article.

## Article 9. Exchange and Recruitment

44610. This article shall be known as the "Foreign Language Teacher Exchange and Recruitment Law of 1963."

44611. The purposes of this article are to encourage and promote the temporary exchange of teachers between school districts in California and schools in foreign countries and to make available to California schools as teachers foreign-born persons and others who are especially qualified to provide instruction in one or more modern foreign languages in order that the schools of this state may comply with the requirement of the state law that foreign language instruction be given to pupils in grades six, seven, and eight as of July 1, 1965. It is the finding of the Legislature that California teachers will become more fluent in a foreign language and more knowledgeable about peoples of other countries and their environment by teaching service in a country where that language is used in daily life, and that it will be of substantial benefit to California pupils beginning the study of a foreign language to be instructed by teachers who are fluent in the language and conversant with the attendant culture and are therefore able to instill and reinforce the appropriate speech habits early in the learning experience of the pupil. It is the purpose of the Legislature to encourage and enable California schools to benefit from the language abilities of citizens of foreign countries who are now or in the future may be residents of this state.

44612. The State Board of Education shall adopt rules and regulations under which teachers employed by California school districts may exchange positions with teachers in schools in other countries for a period of one year or less. The arrangements for such exchanges shall be made through the Department of Education and in cooperation with the teacher exchange programs administered by agencies of the federal government. The first such exchanges shall take place during the 1964-1965 school year.

Grants from the federal government or any department or agency thereof may be accepted by the state and its agencies to be expended pursuant to the programs and plans enumerated in this article. The Department of Education shall administer the teacher exchange program provided for in this article and shall do all acts necessary to carry out the purposes of this article.

44613. Teachers employed by California school districts desiring to participate in an exchange of positions under this article shall file with the Department of Education an application setting forth a plan of study to be completed during the year of service in a foreign country and shall agree to teach in a California school district for a minimum of two years following the year of exchange service.

44614. The exchange of teachers with a foreign country under the provisions of this article shall be conditioned upon the fact that the employing school district in California shall not be required to pay the salary of the teacher from the foreign country. Teachers employed by California school districts shall, while serving as

teachers in a foreign country pursuant to this article, continue to receive from their employing school districts the full amounts of the regular salaries which would be payable to them if they were serving in the schools of the particular employing districts, and the district shall make all deductions provided by law for retirement purposes during such period.

The Department of Education may pay to the teachers from a foreign country employed by a school district in California under this article, part or all of the difference between the salary being paid them by their respective foreign employers and the salary being paid by the California school district to the particular teachers with whom they are exchanged, as the department shall determine to be appropriate in each instance; except that no such payment to a foreign teacher shall exceed three thousand dollars (\$3,000) in one school year nor shall such payments be made to more than 500 teachers from foreign countries in any one fiscal year.

The Department of Education may pay the travel expenses of teachers in the exchange program but such payments shall not be made to more than 500 California teachers and 500 teachers from foreign countries in any one fiscal year. Such payments shall be for the actual expense involved in travel to and from the exchange assignments or for one thousand dollars (\$1,000), whichever is the lesser amount.

The Commission for Teacher Preparation and Licensing shall establish minimum standards for credentials for such exchange teachers from a foreign country and shall provide for the issuance of such credentials to such teachers.

44615. The Commission for Teacher Preparation and Licensing shall adopt rules and regulations providing for the recruitment of, and issuance of special credentials in the teaching of a foreign language to foreign-born persons or others having native fluency in a modern foreign language to teach foreign languages in the public schools of California. The issuance of special credentials in the teaching of foreign languages pursuant to this section shall be limited to 500 persons a year. The commission shall prescribe the minimum standards for such special credentials and shall provide for the renewal of such credentials. In issuing the credentials to any applicant the commission shall take into consideration fluency in the language to be taught, academic preparation, previous teaching experience, a knowledge of modern methods of foreign language instruction and a knowledge of peoples of other countries and their environment. The commission shall adopt rules and regulations which require the holder of a special credential issued under this section to undertake, within a reasonable time, a course of study which will enable the holder to become eligible for a standard teaching credential.

44616. The Department of Education may contract with universities and colleges in this state approved by the Commission for Teacher Preparation and Licensing as a teacher education

institution for furnishing refresher courses in which applicants for a special credential in the teaching of a foreign language issued under Section 44615 who have not had previous recent teaching experience may secure instruction in the teaching of a foreign language that will enable them to meet the standards prescribed by the commission.

Instruction in the teaching of foreign languages pursuant to the provisions of this section shall be limited to 500 persons a year.

The Department of Education may pay to each person enrolled in such a refresher course a stipend of seventy-five dollars (\$75) a week for a total of six weeks or a stipend paid in some other manner but the total amount paid to an individual shall not exceed four hundred fifty dollars (\$450).

44617. Section 44854 applies to exchange teachers.

#### Article 10. Professional Development and Program Improvement Act of 1968

44630. This article may be cited as the Professional Development and Program Improvement Act of 1968.

44631. It is the intent of the Legislature that professional development and program improvement centers be established throughout the state to offer comprehensive in-service training programs to strengthen the instructional techniques of classroom teachers in kindergarten and grades 1 through 6, inclusive. It is also the intention of the Legislature that the professional development and program improvement centers shall emphasize the improvement of teaching and programs in reading and mathematics, improve the teacher's skills in diagnosing learning disabilities of pupils, and develop corrective programs of instruction. It is the further intention of the Legislature that the center include the principal and other school administrative personnel in the training program.

It is also the intention of the Legislature that in sparsely populated areas, involving long distances, in which the establishment of professional development and program improvement centers are not feasible, the in-service teacher training shall be provided under joint programs between school districts and county superintendents of schools to strengthen the instructional techniques of classroom teachers in kindergarten and grades 1 through 8.

It is the further intention of the Legislature that all district, state, and federal resources related to teacher training be integrated and coordinated with in-service training programs established by this article in order to improve the educational achievement of pupils enrolled in both categorical aid programs and regular instructional programs.

44632. As used in this article:

(a) "Center" means a professional development and program improvement center which is an elementary school designated as such upon application of a school district by the State Board of

Education. It is a school in which a program under either Title I of the Elementary and Secondary Education Act of 1965, the Miller-Unruh Basic Reading Act (Chapter 2 (commencing with Section 54100) of Part 29 of Division 4 of this title), the Educationally Disadvantaged Youth Programs (Chapter 1 (commencing with Section 54000) of Part 29 of Division 4 of this title), or the Early Childhood Education Program (Article 10 (commencing with Section 49530) of Chapter 9 of Part 27 of Division 4 of this title) is in operation.

(b) "Satellite school" means any other school or schools in the district designated as such by the district and approved by the State Board of Education. Satellite schools shall be named in accordance with the priority measures established by Section 44636.

(c) "Program" means a professional development and program improvement center program established pursuant to this article.

(d) "Joint program" shall mean a program undertaken through joint agreement by two or more school districts or county superintendents of schools joined together for the purpose of providing in-service training to administrators and teachers teaching kindergarten and grades 1 through 8.

44633. A school may be designated as a center when all of the following conditions are met:

(a) The director of the center, as appointed by the school district, has the concurrence of a cooperating teacher training institution.

(b) The master teachers at the center have been determined to be outstanding teachers by the school district and the cooperating institution of higher education.

(c) The center has at least the staff for auxiliary and administrative services that would be present in an adequately staffed school.

44634. Each school designated as a center shall employ a staff of teachers, administrative and auxiliary personnel, and teacher aides and may provide training for such staff which may serve as substitutes in the satellite school when the regular satellite school staff is released for in-service training.

44635. Any school district may apply to establish a center. The application shall be submitted to the State Board of Education and shall contain a detailed plan cooperatively developed with a teacher training institution and shall include all of the following:

(a) A description of the training program for all school personnel to be trained through the program, including administrative and auxiliary personnel and, if appropriate, replacement teachers.

(b) A description of the in-service program to be provided to the staff of satellite schools on a regular rotational basis until all staff members of the satellite schools have participated in the in-service training program. Staff of satellite schools shall include specialist teachers in reading and mathematics regularly employed with such schools, and administrative and auxiliary personnel, and teacher aides.

(c) A description of the procedure to be used for the identification of master teachers at the center based on demonstrated ability by the district in cooperation with the institution of higher education.

(d) A description of the program for followup training to be provided to personnel of satellite schools which have had training in the centers.

(e) A description of how all existing in-service training programs of the district funded from local, state, and federal sources will be integrated with the professional development and program improvement programs authorized by this article, including a specific statement of the local, state, and federal resources for district in-service training programs that will be utilized in the implementation of this program.

44636. Satellite schools shall be designated and approved as those schools which meet all of the following criteria:

(a) The schools which have the largest concentration of pupils whose reading or mathematics, or both, achievement scores fall below the first quartile, as measured by the latest administered standardized achievement test in reading or mathematics, or both.

(b) The schools which have designated one or more master teachers to act as resource teachers in reading and mathematics and to work with other teachers in the strengthening of instructional techniques and program improvements.

(c) The schools shall maintain a summer session and integrate their instructional programs with the in-service training program performed during the summer;

(d) The schools which have the largest concentration of teachers who will assure the district that they will continue to teach in the satellite schools for the second school year following their participation in the center program.

44637. A program proposed by a joint agreement may be considered when all the following conditions are met:

(a) The director of the program, as appointed by the joint agreement, has the concurrence of a cooperating teaching training institution.

(b) The professional staff proposed by the teacher training institution to work with the joint program has the concurrence of the school districts participating in the joint agreement.

(c) The master teachers or specialist teachers employed by the joint program have been determined to be outstanding teachers by the school district and the cooperating institution of higher education.

44638. The designated agent of any joint program may apply to establish a program of in-service and preservice training for classroom teachers in lieu of applying to establish a center pursuant to Section 44635. The application shall contain a detailed plan cooperatively developed with a teacher training institution and shall include all of the following:

(a) A description of the training program for all school personnel

to be trained through the program, including administrative and auxiliary personnel and, if appropriate, replacement teachers.

(b) A description of the in-service program to be provided the staff of satellite schools on a regular rotational basis until all staff members of the satellite schools have participated in the in-service training program. Staff of satellite schools shall include specialist teachers in reading and mathematics regularly employed with such schools, and administrative and auxiliary personnel, and teacher aides.

(c) A description of procedures to be used for the identification of master teachers at the center based on demonstrated ability by the district in cooperation with the institution of higher education.

(d) A description of the program for followup training to be provided to personnel of satellite schools which have had training in the centers.

(e) A description of how all existing in-service training programs of the district funded from local, state, and federal sources will be integrated with the professional development and program improvement programs authorized by this article, including a specific statement of the local, state, and federal resources for district in-service training programs that will be utilized in the implementation of this program.

(f) Assurance that joint programs shall be undertaken first in the schools of the participating districts which have (1) the largest concentration of pupils whose reading achievement scores fall in the first quartile, as measured by the most recently administered standardized achievement test in reading, (2) the largest concentration of pupils whose mathematic achievement scores fall in the first quartile as measured by the most recently administered standardized achievement test in mathematics, and (3) the largest concentration of teachers who will assure the district that they will continue to teach in the schools for the second school year following their participation in the program.

44639. The State Board of Education shall adopt rules and regulations necessary to implement the provisions of this article, including the establishment of minimum standards for in-service programs offered.

44640. The State Board of Education shall provide for the evaluation of improvement of teacher competence of teachers participating in the program. The board shall select or contract for the development of evaluation procedures and materials designed to measure the improvement of teaching competence as a result of participation in the program. The assessment procedures and materials shall be utilized to assess participating teachers before and after participation in the program.

44641. School districts which have established centers or joint programs shall report to the State Board of Education the scores of pupils in schools whose teachers and administrative personnel have participated in programs, and, in addition, shall report scores of

pupils in similar schools whose staff did not participate in programs. Reports shall also be made revealing the amount of progress each pupil in satellite schools made for each year of instruction by teachers receiving in-service training in the centers. The State Board of Education, on the basis of such reports, shall report annually to the Legislature the success of the program and shall make recommendations to improve the program.

44642. The State Board of Education shall establish procedures for allocating funds to support the preservice and in-service training programs authorized by this article.

44643. State grants made to school districts shall not exceed the amount approved in the project budget of the district. Allocation by the Superintendent of Public Instruction shall include such amount as may be necessary to (1) pay the salaries of replacement teachers, and (2) pay the salaries of instructors or prorate salaries of consultants for time of instruction in the project.

In no event shall allocations to school districts for the professional development program exceed one thousand two hundred dollars (\$1,200) per trainee.

#### Article 11. Evaluation and Assessment of Performance of Certificated Employees

44660. It is the intent of the Legislature that governing boards establish a uniform system of evaluation and assessment of the performance of all certificated personnel within each school district of the state, including schools conducted or maintained by county superintendents of education. The system shall involve the development and adoption by each school district of objective evaluation and assessment guidelines which may, at the discretion of the governing board, be uniform throughout the district or, for compelling reasons, be individually developed for territories or schools within the district, provided that all certificated personnel of the district shall be subject to a system of evaluation and assessment adopted pursuant to this article.

This article does not apply to certificated personnel who are employed on an hourly basis in adult education classes.

44661. In the development and adoption of guidelines and procedures pursuant to this article, the governing board shall avail itself of the advice of the certificated instructional personnel in the district's organization of certificated personnel; provided, however, that the development and adoption of guidelines pursuant to this article shall also be subject to the provisions of Article 1 (commencing with Section 7100) of Chapter 2 of Part 5 of Division 1 of Title 1.

44662. (a) The governing board of each school district shall establish standards of expected student achievement at each grade level in each area of study.

(b) The governing board of each school district shall evaluate and

assess certificated employee competency as it reasonably relates to (1) the progress of students toward the established standards, (2) the performance of those noninstructional duties and responsibilities, including supervisory and advisory duties, as may be prescribed by the board, and (3) the establishment and maintenance of a suitable learning environment within the scope of the employee's responsibilities.

(c) The governing board of each school district shall establish and define job responsibilities for those certificated noninstructional personnel, including, but not limited to, supervisory and administrative personnel, whose responsibilities cannot be evaluated appropriately under the provisions of subdivision (b), and shall evaluate and assess the competency of such noninstructional certificated employees as it reasonably relates to the fulfillment of those responsibilities.

(d) The evaluation and assessment of certificated employee competence pursuant to this section shall not include the use of publishers' norms established by standardized tests.

(e) Nothing in this section shall be construed as in any way limiting the authority of school district governing boards to develop and adopt additional evaluation and assessment guidelines or criteria.

44663. Evaluation and assessment made pursuant to this article shall be reduced to writing and a copy thereof shall be transmitted to the certificated employee not later than 60 days before the end of each school year in which the evaluation takes place. The certificated employee shall have the right to initiate a written reaction or response to the evaluation. Such response shall become a permanent attachment to the employee's personnel file. Before the end of the school year, a meeting shall be held between the certificated personnel and the evaluator to discuss the evaluation.

44664. Evaluation and assessment of the performance of each certificated employee shall be made on a continuing basis, at least once each school year for probationary personnel, and at least every other year for personnel with permanent status. The evaluation shall include recommendations, if necessary, as to areas of improvement in the performance of the employee. In the event an employee is not performing his duties in a satisfactory manner according to the standards prescribed by the governing board, the employing authority shall notify the employee in writing of such fact and describe such unsatisfactory performance. The employing authority shall thereafter confer with the employee making specific recommendations as to areas of improvement in the employee's performance and endeavor to assist him in such performance.

Hourly and temporary hourly certificated employees, other than those employed in adult education classes who are excluded by the provisions of Section 44660, and substitute teachers may be excluded from the provisions of this section at the discretion of the governing board.

44665. For purposes of this article, "employing authority" means the superintendent of the school district in which the employee is employed, or his designee, or in the case of a district which has no superintendent, a school principal or other person designated by the governing board.

#### CHAPTER 4. EMPLOYMENT—CERTIFICATED EMPLOYEES

##### Article 1. Rights and Duties

44800. Every person employed by a school district as a probationary or permanent employee in a position requiring certification qualifications who enters the active military service of the United States of America or of the State of California, including active service in any uniformed auxiliary of, or to, any branch of such military service, created or authorized as such auxiliary by the Congress of the United States of America or by the Legislature of the State of California, or in the service of the United States Merchant Marine, or in full-time paid service of the American Red Cross, during any period of national emergency declared by the President of the United States of America or during any war in which the United States of America is engaged, shall be entitled to absent himself from his duties as an employee of the district.

Such absence shall not affect in any way the classification of such employee. In the case of a probationary employee, the period of such absence shall not count as part of the service required as a condition precedent to the classification of such employee as a permanent employee of the district, but such absence shall not be construed as a break in the continuity of the service of such employee for any purpose.

The dismissal or termination of any probationary employee because of reduced attendance due to war conditions, after his entry into the active military service or service in the American Red Cross, shall not deprive him of any of the benefits of this section.

Within six months after such employee honorably leaves such service or has been placed on inactive duty he shall, subject to the provisions of this section, be entitled to return to the position held by him at the time of his entrance into such service, at the salary to which he would have been entitled had he not absented himself from the service of the school district under this section.

If such employee was employed under a lawful contract for a period in excess of one year in a position in which he had not become a permanent employee of the district, he shall be entitled to return to such position for the period his contract of employment had to run at the time he entered such service. Notwithstanding any provision of this code to the contrary, a person employed to take the place of any such employee shall not have any right to such position following the return of such employee to the position.

44801. Every person employed by a school district as a

permanent employee in a position requiring certification qualifications who is elected to the Legislature shall be granted a leave of absence from his duties as an employee of the district by the governing board of the district.

During the term of such leave of absence, the employee may be employed by the school district to perform such less than full-time service requiring certification qualifications, for such compensation and upon such terms and conditions, as may be mutually agreed upon.

Such absence shall not affect in any way the classification of such employee.

Within six months after the term of office of such employee expires he shall be entitled to return to the position held by him at the time of his election, at the salary to which he would have been entitled had he not absented himself from the service of the school district under this section.

Notwithstanding any provision of this code to the contrary, a person employed to take the place of any such employee shall not have any right to such position following the return of such employee to the position.

This section shall apply to any permanent certificated school district employee who held the office of Member of the Assembly or State Senator on or after January 4, 1965.

44802. The governing board of any school district may provide for the payment of the actual and necessary traveling expenses of student teachers of vocational agriculture who hold certificates issued pursuant to Section 44292 when performing the duties of their positions.

All payments heretofore made to student teachers of vocational agriculture on account of actual and necessary traveling expenses incurred by them when performing the duties of their respective positions are hereby confirmed, ratified, and validated.

44803. Every probationary employee of a school district which becomes in its entirety a part of a unified school district and every probationary employee of a school district employed in a school located in a portion of a school district which becomes a part of a unified school district, where the whole of the district does not become a part of a unified school district, shall become a probationary employee of the unified school district. The service of the probationary employee in the annexed district shall be considered as service in the unified school district for the purpose of any law relating to the classification of persons employed in school districts in positions requiring certification qualifications.

44804. Every teacher in the public schools shall before taking charge of a school, and one week before closing a term of school, notify the county superintendent of the fact, naming the day of opening or closing.

The governing board of any school district shall in every case give to the teacher a notice of at least two weeks of its intention to close

the term of school under its charge.

No superintendent shall draw any requisition for the last month's salary of any teacher until the teacher has filed with him the notice of the closing of the term.

44805. Every teacher in the public schools shall enforce the course of study, the use of legally authorized textbooks, and the rules and regulations prescribed for schools.

44806. Each teacher shall endeavor to impress upon the minds of the pupils the principles of morality, truth, justice, patriotism, and a true comprehension of the rights, duties, and dignity of American citizenship, including kindness toward domestic pets and the humane treatment of living creatures, to teach them to avoid idleness, profanity, and falsehood, and to instruct them in manners and morals and the principles of a free government.

44807. Every teacher in the public schools shall hold pupils to a strict account for their conduct on the way to and from school, on the playgrounds, or during recess. A teacher, vice principal, principal, or any other certificated employee of a school district, shall not be subject to criminal prosecution or criminal penalties for the exercise, during the performance of his duties, of the same degree of physical control over a pupil that a parent would be legally privileged to exercise but which in no event shall exceed the amount of physical control reasonably necessary to maintain order, protect property, or protect the health and safety of pupils, or to maintain proper and appropriate conditions conducive to learning. The provisions of this section are in addition to and do not supersede the provisions of Section 49000.

44808. Notwithstanding any other provision of this code, no school district, city or county board of education, county superintendent of schools, or any officer or employee of such district or board shall be responsible or in any way liable for the conduct or safety of any pupil of the public schools at any time when such pupil is not on school property, unless such district, board, or person has undertaken to provide transportation for such pupil to and from the school premises, has undertaken a school-sponsored activity off the premises of such school, has otherwise specifically assumed such responsibility or liability or has failed to exercise reasonable care under the circumstances.

In the event of such a specific undertaking, the district, board, or person shall be liable or responsible for the conduct or safety of any pupil only while such pupil is or should be under the immediate and direct supervision of an employee of such district or board.

44808.5. The governing board of a school district may permit the pupils enrolled at any high school to leave the school grounds during the lunch period of such pupils.

Neither the school district nor any officer or employee thereof shall be liable for the conduct or safety of any pupil during such time as the pupil has left the school grounds pursuant to this section.

In the event that the governing board grants such permission, it

shall send the following notice along with the notification of parents and guardians required by Section 48980:

"The governing board of the \_\_\_\_\_ School District, pursuant to Section 44808.5 of the Education Code, has decided to permit the pupils enrolled at \_\_\_\_\_ High School to leave the school grounds during the lunch period.

"Section 44808.5 of the Education Code further states:

"Neither the school district nor any officer or employee thereof shall be liable for the conduct or safety of any pupil during such time as the pupil has left the school grounds pursuant to this section.'"

44809. (a) A state school register shall be kept by every teacher in the public elementary schools, except a teacher in:

(1) A school in which the state school register of each teacher is kept on behalf of the teacher in a central office by an employee of the school district.

(2) A school in which a central file of individual records of pupil enrollment, absence, and attendance is maintained on forms containing at least the minimum items of information prescribed by the State Department of Education, and whose principal submits periodic reports of pupil personnel data to the city or district superintendent of schools, or, if no superintendent is employed in the district, to the county superintendent of schools on forms approved by the State Department of Education.

(b) There shall be recorded in each state school register the absence and attendance of each pupil enrolled in the classes taught by the teacher keeping the register or on whose behalf the register is kept and any additional information required by the State Department of Education.

44810. Every minor over 16 years of age or adult who is not a pupil of the school, including but not limited to any such minor or adult who is the parent or guardian of a pupil of the school, who comes upon any school ground or into any schoolhouse and there willfully interferes with the discipline, good order, lawful conduct, or administration of any school class or activity of the school, with the intent to disrupt, obstruct, or to inflict damage to property or bodily injury upon any person, is guilty of a misdemeanor, and is punishable by a fine of not less than fifty dollars (\$50) nor more than five hundred dollars (\$500), or by imprisonment in the county jail for not more than six months, or both.

44811. Every parent, guardian, or other person who upbraids, insults, or abuses any teacher of the public schools, in the presence or hearing of a pupil, is guilty of a misdemeanor.

44812. Any parent, guardian, or other person who insults or abuses any teacher in the presence of other school personnel or pupils and at a place which is on school premises or public sidewalks, streets, or other public ways adjacent to school premises or at some other place if the teacher is required to be at such other place in connection with assigned school activities is guilty of a misdemeanor, and is punishable by a fine of not less than fifty dollars (\$50) nor

exceeding five hundred dollars (\$500).

44813. The governing board of every school district shall allow each teacher employed for full time in any regular day school in which two or more teachers are employed, one duty-free lunch period each day in the manner and at the time prescribed by regulation of the State Board of Education.

The State Board of Education shall adopt rules and regulations fixing the duration of the duty-free lunch period of certificated employees of school districts, the time of day when the lunch period shall be granted, and prescribing the conditions under which the duty-free lunch period shall be allowed.

44814. Recognizing that an adequate lunch period free from duty is essential to the health, morale and efficiency of teachers employed full time in any regular day school, the Legislature declares that it is the policy of the state to encourage school districts to provide for an adequate duty-free lunch period for teachers.

In order to provide for such duty-free lunch periods, the governing board of any school district may utilize recreation personnel or other suitable persons to supervise the pupils of the district during the school lunch period.

The provisions of this section shall prevail over any provision of Section 44813 which conflicts herewith.

44815. The governing board of any school district may also utilize persons not having certification qualifications to supervise the pupils of the district during any breakfast period or other nutrition period. The compensation of such personnel may be paid from funds from which the compensation of personnel employed under Section 44814 may be paid.

44816. Except in districts exempted by the Department of Education and in which regular periodic reports of pupil and employee personnel data are submitted by the principal of each school to the city or district superintendent of schools, or, if no superintendent is employed in the district, to the county superintendent of schools on forms approved by the Department of Education, every teacher in the public elementary schools shall at the close of school during each school year make an annual report to the principal of the school in which he is employed; or, in the case of one-teacher schools, to the city or district superintendent of schools, or, if no superintendent is employed, to the county superintendent of schools on forms furnished by the Superintendent of Public Instruction.

Any teacher who is teaching in any school at the close of school shall, in his annual report, include all statistics for the entire school year.

Where one teacher is in charge of a class and keeps the records thereof, assistant teachers or other teachers of the class or any of the pupils thereof who are required to keep no records shall not be required to render reports.

The city, district, or county superintendent of schools shall in no

case draw a requisition for the salary of any teacher for the last month of a school term, until the report has been filed by him and approved.

44817. The principal of each elementary school when directed by the city or district superintendent of schools shall submit an annual report to such superintendent, or, if no superintendent is employed in the district, to the county superintendent of schools, on forms furnished by the Superintendent of Public Instruction.

44818. The principal of each high school, when directed by the city or district superintendent of schools, shall make an annual report to such superintendent, or, if no superintendent is employed in the district, to the county superintendent of schools, on forms furnished by the Superintendent of Public Instruction.

44819. Each city or district superintendent of schools shall make an annual report of the schools under his jurisdiction to the county superintendent of schools on forms furnished by the Superintendent of Public Instruction, which report shall include an affidavit that all employees in positions requiring certification qualifications were properly certificated for the work performed.

44820. The principal of every high school shall annually, on or before the date fixed by the Superintendent of Public Instruction, make out under oath and deliver to the Superintendent of Public Instruction and to the county superintendent of schools, a full and complete report of textbooks then in use in the high school, the courses of study offered, the requirements for graduation, and such other information as may be required by the Superintendent of Public Instruction.

If the report is not filed with the Superintendent of Public Instruction on or before the date fixed, the Superintendent of Public Instruction shall notify the county superintendent of schools having jurisdiction of the high school failing to report, and the county superintendent of schools shall withhold the salary of the principal of the high school until he has been notified by the Superintendent of Public Instruction that the report has been filed.

44821. A high school principal shall not enter into any contract to act as a principal or supervising principal of any elementary school, except an elementary school in the district in which the high school is located, without the approval of the county superintendent of schools.

44822. The principal of any high school may act as principal of any elementary school situated in the high school district.

44823. The principal of any high school may act as the supervising principal of two or more elementary schools situated in the high school district without regard to the number of teachers employed in each of the elementary schools, if so desired by the trustees of the elementary school district or districts and the high school board.

44824. A full-time probationary or permanent classroom teacher currently employed by a school district which decides to maintain classes on Saturday or Sunday, or both, shall not, without his written consent, be required to teach under such program for more than 180

full days during a school year, or for more than the number of full days the schools of the district were maintained during the year preceding implementation of weekend classes, whichever is greater. This section shall not be construed as limiting the power of any governing board of a school district to govern the schools of the district, including the assignment of teachers employed by the district. No such classroom teacher shall be assigned to perform services on a Saturday or Sunday if such teacher objects in writing that such assignment would conflict with his or her religious beliefs or practices.

## Article 2. Employment

44830. Governing boards of school districts shall employ for positions requiring certification qualifications, only persons who possess the qualifications therefor prescribed by law. It shall be contrary to the public policy of this state for any person or persons charged, by said governing boards, with the responsibility of recommending such persons for employment by said boards to refuse or to fail to do so for reasons of race, color, religious creed, sex, or national origin of said applicants for such employment.

44831. Governing boards of school districts shall employ persons in public school service requiring certification qualifications as provided in this code.

44833. Notwithstanding the provisions of Sections 44001, 44830, 44831, or any other provision of law, a noncertificated student enrolled in any public or private college or university in California may be permitted by the governing board of a school district maintaining any of grades 1 through 8, to serve in elementary schools or child care centers as a nonteaching aide under the following conditions:

(a) Such service by the student is based upon a program for the part-time employment of students established by the college or university under those provisions of the federal statute cited as the Economic Opportunity Act of 1964 (Public Law 452, of the 88th Congress), and acts amendatory thereof, which provide for federal financial grants for work-study programs.

(b) The compensation being received by the student for such services is provided, at least in part, by grants made to the college or university by the government of the United States for a program of the type specified in subdivision (a).

(c) The student has been determined under procedures established by the Department of Education to be free of any disability of person or character (other than in professional competency) which would prohibit the issuance to him of any credential or certification document provided for under this code if he were otherwise qualified therefor.

44834. Notwithstanding any provision of law to the contrary, on and after the effective date of this section the governing board of a

school district may employ an individual in any administrative or supervisory position, irrespective of whether or not such individual holds any supervisory or administrative credential; provided the individual so employed meets all of the following criteria:

(1) He holds a valid teaching credential;

(2) He has completed fifteen (15) years service as a teacher, as defined in Section 41011, including ten (10) years of teaching service in the employ of the district which appoints him to an administrative or supervisory position; and

(3) The last ten (10) years of service immediately preceding his appointment to an administrative or supervisory position were as a teacher of the natural sciences, the social sciences (other than education or educational methodology), the humanities, mathematics, and the fine arts.

44835. A student providing services in elementary schools or child development facilities as a nonteaching aide shall perform no instructional work; but shall, under the immediate supervision and direction of a certificated employee, perform noninstructional work which serves to assist certificated personnel in performance of teaching and administrative responsibilities.

44836. Governing boards of school districts shall not employ or retain in employment persons in public school service who have been convicted of any sex offense as defined in Section 44010 or narcotics offense as defined in Section 44011. If, however, any such conviction is reversed and the person is acquitted of the offense in a new trial or the charges against him are dismissed, this section does not prohibit his employment thereafter.

44837. Governing boards of school districts shall not employ or retain in employment any person in public school service who has been determined to be a sexual psychopath under the provisions of Article 1 (commencing with Section 6300), Chapter 2, Part 2, Division 6 of the Welfare and Institutions Code or under similar provisions of law of any other state. If, however, such determination is reversed and the person is determined not to be a sexual psychopath in a new proceeding or the proceeding to determine whether he is a sexual psychopath is dismissed, this section does not prohibit his employment thereafter.

44838. The governing board of a school district shall, as a condition to employment, require an applicant for a position requiring certification qualification to furnish a statement of the military service of the applicant and, if any was rendered, a copy of the discharge or release from service. If no such document is available, the governing board may accept other suitable evidence of the conditions under which the military service of the applicant was terminated.

44839. (a) When a school district or a county superintendent of schools wishes to employ a person in a position requiring certification qualifications and that person has not previously been employed in a position requiring certification qualifications in this state, the

district or county superintendent shall require a medical certificate in such form as shall be prescribed by the State Board of Education showing that the applicant is free from any disabling disease unfitting the applicant to instruct or associate with children. The medical certificate shall be submitted directly to the governing board or county superintendent by a physician and surgeon licensed under the Business and Professions Code, a commissioned medical officer exempted from licensure by Section 2144 of the Business and Professions Code, or a commissioned medical officer in the United States Air Force. The medical examination shall have been conducted not more than six months before the submission of the certificate and shall be at the expense of the applicant. A governing board or county superintendent may offer a contract of employment to an applicant subject to the submission of the required medical certificate. Notwithstanding Section 44031, the medical certificate shall become a part of the personnel record of the employee and shall be open to the employee or his designee.

(b) The governing board of a school district or a county superintendent of schools may require certificated employees to undergo a periodic medical examination by a physician and surgeon licensed under the Business and Professions Code, or a commissioned medical officer exempted from licensure by Section 2144 of the Business and Professions Code, to determine that the employee is free from any communicable disease unfitting the applicant to instruct or associate with children. The periodic medical examination shall be at the expense of the school district or county superintendent. The medical certificate shall become a part of the personnel record of the employee and shall be open to the employee or his designee.

(c) The State Board of Education shall adopt rules and regulations relating to the implementation and administration of this section.

44840. Persons in positions requiring certification qualifications may be elected for the next ensuing school year on and after the 15th day of March, and each person so elected shall be deemed reelected from year to year except as provided in Section 35043, Sections 44221 to 44227, inclusive, Sections 44831 to 44891, inclusive, Sections 44893 to 44900, inclusive, Sections 44901 to 44906, inclusive, and Sections 44908 to 44919, inclusive.

At any time after the 31st day of December, any person not then employed in the school district may be elected for the next ensuing school year to a position requiring certification qualifications.

44841. Any certificated employee not under permanent tenure who fails to signify his acceptance within 45 consecutive calendar days after notice of his election or employment has been given him, or mailed to him by United States registered mail with postage thereon prepaid at his last known place of address, by the clerk or secretary of the governing board of the school district, shall be deemed to have declined the employment.

44842. If, without good cause, a permanent employee of a school

district fails prior to July 1st of any school year to notify the governing board of the district of his intention to remain or not to remain in the service of the district, as the case may be, during the ensuing school year if a request to give such notice, including a copy of this section, shall have been personally served upon him, or mailed to him by United States certified mail with return receipt requested to his last known place of address, by the clerk or secretary of the governing board of the school district, not later than the preceding May 30th, he may be deemed to have declined employment and his services as an employee of the district may be terminated on June 30th of that year.

44843. The county superintendent of schools shall be given immediate notice in writing by the governing board of the district of the employment of persons for positions requiring certification qualifications. The notice shall include but not be limited to such data as may be prescribed by the Superintendent of Public Instruction, in regulations he is herewith authorized to adopt.

44844. Except as otherwise provided in Sections 44831 to 44855, inclusive, every probationary or permanent employee employed before July 1, 1947, shall be deemed to have been employed on the date upon which he first accepted employment in a probationary position.

In case two or more employees accepted employment on the same date, the governing board of the district shall determine the order of employment by lots drawn by the employees concerned or assigned at random by an independent auditing firm employed in accordance with Section 44845 or by other means as determined pursuant to the procedures described in Article 1 (commencing with Section 7100) of Chapter 2 of Part 5 of Division 1 of Title 1.

44845. Every probationary or permanent employee employed after June 30, 1947, shall be deemed to have been employed on the date upon which he first rendered paid service in a probationary position.

Every certificated employee who first rendered paid service on the same date shall participate in a single drawing to determine the order of employment except that in school districts having an average daily attendance in excess of 15,000, an independent auditing firm may be employed to assign to such employees numbers at random which shall determine the order of employment. Any determination of an employee's order of employment pursuant to this section shall be made within 30 days of the date service was first rendered by the employee.

44846. The following general provisions shall apply regardless of date of employment:

The order once determined by lot shall be permanent, and shall be entered on the permanent records of the district.

Records showing date of employment, whether kept by the district or by the county, shall be accessible, on demand, to any certificated employee of the district or to his designated representative.

In the absence of records as to any of the matters referred to in the two preceding sections, the board, in accordance with evidence presented, shall determine the order of employment after giving employees a reasonable opportunity to present such evidence.

The order of employment in all districts, when required, shall be determined as prescribed by Sections 44830 to 44855, inclusive.

The board shall have power and it shall be its duty to correct any errors discovered from time to time in its records showing the order of employment.

44847. When any school or part thereof shall have been transferred from one district to another, employment for any employees who transfer with said school or part thereof shall date from the time said employees first accepted employment (if before July 1, 1947) or rendered paid service (if after June 30, 1947) as probationary employees in the district from which the school or part thereof and the said employees were transferred.

44848. When any certificated employee shall have resigned or been dismissed for cause and shall thereafter have been reemployed by the board, his date of employment shall be deemed to be the date on which he first accepted reemployment (if reemployed before July 1, 1947) or rendered paid service (if reemployed after June 30, 1947) after his reemployment.

When an employee's services are terminated for lack of enrollment or discontinuance of service or are otherwise interrupted in a manner declared by law not to constitute a break in service, his original order of employment shall stand.

44849. Nothing in Sections 35029, 35161, 35162, Sections 44030 to 44034, inclusive, Sections 44036 to 44048, inclusive, Sections 44800 to 44802, inclusive, Sections 44804 to 44824, inclusive, Sections 45021 to 45060, inclusive, Section 48913, Sections 87274 to 87299, inclusive, Sections 87462, 87463, 87469, 87713, 88021, 88071, Article 1 (commencing with Section 7000) of Chapter 1, Article 1 (commencing with Section 7100) of Chapter 2 of Part 5, Chapter 4 (commencing with Section 10300) of Part 7, Article 1 (commencing with Section 12500) of Chapter 5 of Part 8, Article 5 (commencing with Section 32340) of Chapter 3 of Part 19 of Division 1 of Title 1, Article 1 (commencing with Section 44000), Article 3 (commencing with Section 44060) of Chapter 1, Chapter 2 (commencing with Section 44200), Chapter 3 (commencing with Section 44400), Article 2 (commencing with Section 44830), Article 3 (commencing with Section 44930) of Chapter 4, Chapter 5 (commencing with Section 45100) of this part, Article 3 (commencing with Section 87250) of Chapter 2, Article 2 (commencing with Section 87600), Article 4 (commencing with Section 87660) of Chapter 3 of Part 51 of Division 7 of Title 3, shall be construed in such manner as to deprive any person of his rights and remedies in a court of competent jurisdiction on a question of law and fact.

44850. Nothing in Sections 35029, 35161, 35162, Sections 44030 to 44034, inclusive, Sections 44036 to 44048, inclusive, Sections 44800 to

44802, inclusive, Sections 44804 to 44824, inclusive, Sections 45021 to 45060, inclusive, Section 48913, Sections 87274 to 87299, inclusive, Sections 87462, 87463, 87469, 87713, 88021, 88071, Article 1 (commencing with Section 7000) of Chapter 1, Article 1 (commencing with Section 7100) of Chapter 2 of Part 5, Chapter 4 (commencing with Section 10300) of Part 7, Article 1 (commencing with Section 12500) of Chapter 5 of Part 8, Article 5 (commencing with Section 32340) of Chapter 3 of Part 19 of Division 1 of Title 1, Article 1 (commencing with Section 44000), Article 3 (commencing with Section 44060) of Chapter 1, Chapter 2 (commencing with Section 44200), Chapter 3 (commencing with Section 44400), Article 2 (commencing with Section 44830), Article 3 (commencing with Section 44930) of Chapter 4, Chapter 5 (commencing with Section 45100) of this part, Article 3 (commencing with Section 87250) of Chapter 2, Article 2 (commencing with Section 87600), Article 4 (commencing with Section 87660) of Chapter 3 of Part 51 of Division 7 of Title 3, shall be construed so as to repeal or negate any provisions concerning employees of school districts contained in the charter of any city, county, or city and county, adopted and approved in conformity with Article XI of the Constitution of this state.

44851. All employments under the provisions of Section 35161, Sections 44221 to 44227, inclusive, Sections 44831 to 44887, inclusive, Sections 44889 to 44891, inclusive, Sections 44893 to 44906, inclusive, Sections 44908 to 44919, inclusive, Sections 87462 and 87469, shall be subordinate to the right of the Legislature to amend or repeal Section 35161, Sections 44221 to 44227, inclusive, Sections 44831 to 44887, inclusive, Sections 44889 to 44891, inclusive, Sections 44893 to 44906, inclusive, Sections 44908 to 44919, inclusive, Sections 87462 and 87469, or any provision or provisions thereof at any time, and nothing herein contained shall be construed to confer upon any person employed pursuant to the provisions hereof a contract which will be impaired by the amendment or repeal of Section 35161, Sections 44221 to 44227, inclusive, Sections 44831 to 44887, inclusive, Sections 44889 to 44891, inclusive, Sections 44893 to 44906, inclusive, Sections 44908 to 44919, inclusive, Sections 87462 and 87469, or of any provision or provisions thereof.

44852. Nothing in this code shall be construed as prohibiting the employment of persons in positions requiring certification qualifications for less than a full school year in temporary schools or classes.

44853. The governing board of any school district, subject to the rules and regulations prescribed by the State Board of Education, may enter into an agreement with the proper authorities of any foreign country, or of any state, territory, or possession of the United States, or other district within the state, for the exchange and employment of regularly credentialed employees and employees of public schools of any foreign country, state, territory, or possession, or other district within this state. Any certificated person so employed as provided in this section shall be known as an "exchange

certificated employee." No exchange shall be made without the consent of the employee to be exchanged.

Due consideration shall be given to the general qualifications and professional status of the exchange employee as compared to the general qualifications and professional status of the employee for whom exchanged. However, it shall not be a requirement that an exchange certificated employee be a teacher of the same subject or grade, or both, as the employee for whom exchanged. If the service authorized is other than teaching, it shall not be a requirement that the service be at the same grade level or that the service be exactly the same as the employee for whom exchanged.

No person may be employed as an exchange employee by a school district in the state unless he holds the necessary valid credential or credentials issued by the Commission for Teacher Preparation and Licensing authorizing him to serve in a position requiring certification qualifications in the school district proposing to employ him for a period not to exceed one year, except that, by unanimous consent of the governing board, and of the certificated employees concerned, this period may be extended to two years. The commission may establish minimum standards for the credentials for exchange certificated employees, provided however, that no exchange certificated employee shall be required to pay any fee or other charge for the issuance to him of any necessary valid credential or credentials authorizing him to serve in a position requiring certification qualifications in any school district in this state.

44854. Acceptance of any exchange position by an employee of any school district in the state shall not affect his right to the permanent classification to which he is entitled, at the time of the acceptance, or any of his rights under the state teachers retirement salary provisions of this code, or under any local or district retirement plan, or system, and the time served in the exchange position shall be counted as time served in the service of the district in which he is employed immediately prior to acceptance of the exchange position in determining his status under the provisions of Sections 35029, 35161, 35162, Sections 44030 to 44034, inclusive, Sections 44036 to 44048, inclusive, Section 44800 to 44802, inclusive, Sections 44804 to 44824, inclusive, Sections 45021 to 45060, inclusive, Section 48913, Sections 87274 to 87299, inclusive, Sections 87462, 87463, 87469, 87713, 88021, 88071, Article 1 (commencing with Section 7000) of Chapter 1, Article 1 (commencing with Section 7100) of Chapter 2 of Part 5, Chapter 4 (commencing with Section 10300) of Part 7, Article 1 (commencing with Section 12500) of Chapter 5 of Part 8, Article 5 (commencing with Section 32340) of Chapter 3 of Part 19 of Division 1 of Title 1, Article 1 (commencing with Section 44000), Article 3 (commencing with Section 44060) of Chapter 1, Chapter 2 (commencing with Section 44200), Chapter 3 (commencing with Section 44400), Article 2 (commencing with Section 44830), Article 3 (commencing with Section 44930) of Chapter 4, Chapter 5 (commencing with Section 45100) of this part, Article 3

(commencing with Section 87250) of Chapter 2, Article 2 (commencing with Section 87600), Article 4 (commencing with Section 87660) of Chapter 3 of Part 51 of Division 7 of Title 3, and under the provisions of this code relating to state retirement salary, and under any local or district retirement plan.

44855. If the teacher from the district within the state who serves as an exchange teacher without the state and the governing board regularly employing him so agree, the district may pay his regular salary, making all deductions provided by law for retirement purposes, during the period of the exchange teaching. In such case the district shall not pay the salary of the exchange teacher from without the state, serving the district in exchange for its regular teacher.

In the event a teacher from a district within this state serving as an exchange teacher without the state and to whom the governing board of such district is paying the regular salary of such teacher as herein provided, is compelled to absent herself from her duties because of injury, illness or quarantine, the governing board of the district within this state may pay the substitute employed to take the place of such teacher and shall deduct the amount so paid the substitute from the compensation of the teacher.

44856. The governing board of a school district may, for the purposes of providing bilingual instruction, foreign language instruction, or cultural enrichment, in the schools of the district, subject to the rules and regulations of the State Board of Education conclude arrangements with the proper authorities of any foreign country, or of any state, territory, or possession of the United States, for the hiring of bilingual teachers employed in public or private schools of any foreign country, state, territory, or possession. To be eligible for employment the teacher must speak English fluently. Any persons so employed pursuant to this section shall be known as a "sojourn certificated employee."

No person may be hired as a sojourn certificate employee by a school district unless he holds the necessary valid credential or credentials issued by the Commission for Teacher Preparation and Licensing authorizing him to serve in a position requiring certification qualifications in the school district proposing to employ him. Such person may be employed only for a period not to exceed two years, except that thereafter such period of employment may be extended from year to year for a total period of not more than five years upon verification by the employing district that termination of such employment would adversely affect an existing bilingual or foreign language program or program of cultural enrichment and that attempts to secure the employment of a certificated California teacher qualified to fill such position have been unsuccessful. The commission shall establish minimum standards for the credentials for sojourn certificated employees.

44857. Each person employed by the governing board of a school district for a position requiring certification qualifications must, not

later than 60 days after the date fixed by the governing board of the district for the commencement of his service, register in the manner prescribed by Section 44310 a valid certification document, issued on or before said date, authorizing him to serve in the position for which he was employed, and must, not later than 60 days after the renewal thereof, register the renewed certification document in the manner prescribed by Section 44310. If any person so employed is the holder of a California State University and Colleges, or state teachers college, diploma accompanied by the certificate of the State Board of Education, or of an educational or life diploma of this state, and has presented the same to, and has had his name recorded by, the county superintendent of schools of the county as heretofore provided by this code, such person shall be deemed to have registered such diploma under Section 44310.

44858. The Legislature hereby declares that it is contrary to the interest of this state and of the people thereof for any governing board or any person or persons charged by the governing board of any school district with the responsibility of interviewing and recommending persons for employment in positions requiring certification to fail or refuse to do so for reason of the age or marital status of any applicant for such employment, except as otherwise provided in this code.

44859. No school district may adopt or maintain any rule or regulation which requires a candidate for a position requiring certification qualifications to be a resident of the district or to become a resident of the district, or which requires that an employee maintain residency within the district; nor may a district grant any preferential treatment to candidates or employees because they are residents of the district.

The Legislature in enacting this section recognizes that the public school system of this state is the property of all its citizens, and that all qualified candidates for positions of employment with school districts, regardless of residence, should be granted the opportunity to compete for and obtain such positions based solely on merit and fitness.

44860. No person shall be employed as principal of a school of six or more teachers, including the principal, unless he is the holder of a valid teacher's credential and either a valid school administration credential of the same grade as the school to be administered or a valid standard supervision credential authorizing service as a principal of a school of the same grade as the school to be administered.

44861. A substitute principal holding a valid teacher's credential of the same grade as the school to be administered may be employed without meeting the requirements of Section 44860 to meet an emergency for not more than five months of any school year.

44862. No person is eligible to teach in any public school in the state, or to receive a certificate to teach who has not attained the age of 18 years.

44863. No teacher holding a special certificate shall be employed to teach any subject not authorized in the certificate.

44864. Each teacher in a joint elementary district shall hold a valid certificate in the county in which the schoolhouse is located.

44865. The qualifications of a home teacher shall be a valid teaching credential issued by the State Board of Education, or the Commission for Teacher Preparation and Licensing, and special fitness to perform the duties of a home teacher.

44866. The qualifications of a home instructor of physically handicapped pupils shall be a valid teaching credential or a credential authorizing the teaching of exceptional children in an area of specialized preparation issued by the State Board of Education, or the Commission for Teacher Preparation and Licensing.

44867. Teachers in opportunity schools, classes, or programs shall have the same qualifications and shall be employed in the same manner as in other elementary and secondary schools of the school district in which the opportunity schools, classes, or programs are situated.

44868. No person shall be employed as a librarian in any elementary or secondary school, unless he holds a valid credential of proper grade authorizing service as a librarian, or a valid teaching credential issued by the Commission for Teacher Preparation and Licensing if he has completed the specialized area of librarianship.

44869. Any librarian when employed full time as librarian or serving full time, partly as librarian and partly as teachers, shall rank as a teacher.

44870. No one shall be employed to supervise the work of teachers for more than half time during any school week unless he is the holder of a valid teacher's certificate authorizing him to teach in the schools and classes in which he is to supervise instruction and a valid supervision certificate.

44871. The qualifications of supervisors of health shall be as provided in Sections 44873 to 44878, inclusive.

44872. For the purposes of Sections 44873 to 44878, inclusive, "standard designated services credential with a specialization in health" and "services credential with a specialization in health" includes a community college health services credential when the service is provided in grades 13 and 14.

44873. The qualifications for a physician employed to serve on a half-time or greater than half-time basis shall be a valid certificate to practice medicine and surgery issued by the State Board of Medical Examiners or Board of Osteopathic Examiners and either a services credential with a specialization in health or a valid credential issued prior to November 23, 1970. The qualifications for a physician employed for less than half time shall be a valid certificate to practice medicine and surgery issued by the State Board of Medical Examiners. Any school district may employ and compensate physicians meeting the foregoing qualifications for the performance

of medical services for that district and shall provide liability insurance coverage for the period of his employment.

As used in this section "medical services" includes, but is not limited to, any medical services required to be performed while required to be in attendance at high school athletic contests or meets.

44874. The qualifications for a psychologist or social worker are a valid certificate issued by the appropriate California agency authorized by law to certify such persons and a services credential with a specialization in health. Any school district may employ and compensate psychologists and social workers meeting the foregoing qualifications.

44875. The qualifications for a dentist are a valid certificate issued by the Board of Dental Examiners and a services credential with a specialization in health or a valid credential issued prior to November 23, 1970. Any school district may employ and compensate dentists meeting the foregoing qualifications.

44876. The qualifications for a dental hygienist shall be a valid certificate issued by the Board of Dental Examiners of California and either a health and development credential, a standard designated services credential with a specialization in health, or a services credential with a specialization in health.

44877. The qualifications for a nurse shall be a valid certificate of registration issued by the Board of Nurse Examiners of the State of California or the California Board of Nursing Education and Nurse Registration and either a health and development credential, a standard designated services credential with a specialization in health, or a services credential with a specialization in health.

The services credential with a specialization in health authorizing service as a school nurse shall not authorize teaching services unless the individual holds a baccalaureate degree, or its equivalent, and has completed a fifth year of preparation.

44878. The qualifications for an optometrist are a valid certificate issued by the State Board of Optometry and a services credential with a specialization in health or a credential issued prior to November 23, 1970. Any school district may employ and compensate optometrists meeting the foregoing qualifications.

44879. The qualifications for an audiometrist working under the direction of health services personnel pursuant to Section 49420 shall be a valid certificate or license issued by, or valid registration with, the California state agency authorized by law to issue the certificate or license, or to effect the registration, required for performance of the service.

44880. The principal of any public school may employ when so directed by the governing board of the school district, special lecturers well qualified in their subjects to speak before classes and assemblies of students of the school, without the lecturer being required to hold a teacher's credential or certificate.

No such lecturer may be employed by the principal of any school for more than four lectures in any term.

44882. Every employee of a school district of any type or class having an average daily attendance of 250 or more who, after having been employed by the district for three complete consecutive school years in a position or positions requiring certification qualifications, is reelected for the next succeeding school year to a position requiring certification qualifications shall, at the commencement of the succeeding school year be classified as and become a permanent employee of the district.

44883. Every certificated employee of a school district of any type or class having an average daily attendance of less than 250, and every certificated employee of any school district in a position requiring a supervision or administration credential, may be offered a continuing contract to cover a period longer than one year but not to exceed four years.

44884. At the discretion of the governing board of a district with 60,000 average daily attendance or more every employee of the district who, after having been employed by the district for two consecutive school years in a position or positions requiring certification qualifications, is reelected for the next succeeding school year to a position requiring certification qualifications may, at the commencement of the succeeding school year, be classified as and become a permanent employee of the district. If such board is the governing board of more than one district it may exercise the discretionary power given it by this section in each district under its jurisdiction, whether or not each of such districts has 60,000 average daily attendance.

44885. Every employee of a school district of any type or class having an average daily attendance of less than 250 pupils, who, after having been employed by the district for three complete consecutive school years in a position or positions requiring certification qualifications, is reelected for the next succeeding school year to a position requiring certification qualifications, may be classified by the governing board of the district as a permanent employee of the district. If the classification is not made the employee shall not attain permanent status and may be reelected from year to year thereafter without becoming a permanent employee until the classification is made.

44886. The governing board of a school district which employs in a position requiring certification qualifications any person who has become a permanent certificated employee in any school district may employ such person as a permanent certificated employee.

44887. When a teacher of classes for adults serves sufficient probationary time as provided in Sections 44882 to 44885 and 44908 to be eligible for election to permanent classification in that district, his tenure shall be for such service as is equivalent to the average number of hours per week which he has served during his probationary years. In no case shall such an employee be classified as permanent for more than one full-time assignment. The service for which such a person has acquired tenure may be reduced in

conformity with Sections 44955 and 44956.

Notwithstanding any other provision to the contrary, in a district which has, or in a district which is one of two or more districts governed by governing boards of identical personnel which have a combined, average daily attendance of 400,000 or more, as shown by the annual report of the county superintendent of schools for the preceding fiscal year, no person who is assigned 10 hours or less a week in adult classes in such a district shall be eligible for election to permanent classification in such district on account of such assignment in adult classes.

Notwithstanding any other provision to the contrary, any person who is employed to teach adults for not more than 60 percent of the hours per week considered a full-time assignment for permanent employees having comparable duties shall be classified as a temporary employee, and shall not become a probationary employee under the provisions of Section 44954.

44889. No employee of a school district or districts, in which the average daily attendance of all said districts combined is in excess of 200,000, governed by the same governing board shall hereafter acquire permanent certificated tenure or permanent noncertificated status, or a combination of such tenure and status, for more than one full-time position. Any employee who hereafter acquires any combination of permanent certificated tenure or permanent noncertificated status or both which exceeds that for one full-time position shall have a choice which tenure or status to retain so long as that retained does not exceed one full-time position.

It is the intent of this section that an employee holding permanent certificated tenure or permanent noncertificated status for a full-time position may not have permanent tenure or status protection for any additional time in either a certificated or a noncertificated position under any such school district governed by the same governing board.

44890. Nothing in Sections 44882 to 44885, inclusive, shall be construed to give permanent classification to a person in the adult school who is already classified as a permanent employee in the day school. In case a teacher obtains permanent classification in the evening school and later is eligible for the same classification in the day school by reason of having served the probationary period therein, he shall be given his choice as to which he shall take.

Notwithstanding any other provision to the contrary, service in the evening school shall not be included in computing the service required as a prerequisite to attainment of, or eligibility to, classification as a permanent employee in the day school, except service in the evening school rendered by a person rendering services in the day school who is directed or specifically requested by the school district to render services in the evening school either in addition to, or instead of, rendering service in the day school. Service in the day school shall not be included in computing the service required as a prerequisite to attainment of, or eligibility to,

classification as a permanent employee in the evening school, except service in the day school rendered by a person rendering services in the evening school who is directed or specifically requested by the school district to render service in the day school either in addition to, or instead of, rendering service in the evening school.

44891. Nothing in Sections 44882 to 44887, inclusive, Sections 44889 and 44890 shall be construed as affecting the classification of any employee as it existed on September 13, 1941.

44892. No permanent employee of a school district shall be dismissed without his consent or deprived of his classification as a permanent employee of the district when the district does not have sufficient funds to pay his salary.

44893. A permanent employee when advanced from a teaching position to an administrative or supervisory position, or assigned any special or other type of work, or given special classification or designation requiring certification qualifications, shall retain his permanent classification as a classroom teacher.

44894. (a) A permanent employee not qualified to render service as a classroom teacher, when advanced to an administrative or supervisory position, or assigned any special or other type of work, or given special classification or designation requiring certification qualifications, shall retain his permanent classification for the performance of the type of service for which he was qualified prior to such advancement, assignment, or special classification or designation.

(b) If an employee is authorized to render service in more than one type of position for which certification qualifications are required, either by virtue of his possession of one certification document authorizing service in two or more of such positions, or by virtue of his possession of separate certification documents authorizing service in two or more such positions, or any combination thereof, he shall, upon satisfying all other requirements prescribed by law, acquire permanent status as follows:

(1) If he is authorized to render service as a classroom teacher, he shall acquire permanent status as a classroom teacher.

(2) If he is not authorized to render service as a classroom teacher, he shall acquire permanent status below the administrative or supervisory level as a staff employee with multiple qualifications. His right to serve in one or more of the positions for which he is qualified to serve shall be subject to the power of assignment of the school district governing board.

44895. A permanent employee, as specified in Section 13314.3, when advanced to an administrative or supervisory position requiring certification qualifications, or assigned any special or other type of work requiring certification qualifications, or given special classification or designation requiring certification qualifications, shall retain his permanent classification as specified in Section 44894.

If such a person is advanced to an administrative or supervisory position not requiring certification qualifications, is assigned any

special or other type of work not requiring certification qualifications, or is given special classification or designation not requiring certification qualifications, his right to retain permanent classification shall be governed by the provisions of Article 3 (commencing with Section 44060) of Chapter 1 of this part.

44896. Whenever a person employed in an administrative or supervisory position requiring certification qualifications is transferred to a teaching position, the governing board of the school district shall give such employee, when requested by him, a written statement of the reasons for such transfer.

44897. A person employed in an administrative or supervisory position requiring certification qualifications upon completing a probationary period, including any time served as a classroom teacher, in the same district, shall, in a district having an average daily attendance of 250 or more pupils, be classified as and become a permanent employee as a classroom teacher. In a district having an average daily attendance of less than 250 pupils, he may be so classified.

44898. Notwithstanding the provisions of Section 44897 to the contrary, the governing board of any school district shall, with respect to each person who is employed in an administrative or supervisory position requiring certification qualifications under a contract of employment providing a four-year term of employment and who either has not been previously employed by the district in such position or has been employed in such position but not under such a four-year contract, determine prior to May 15 of the third year under such four-year contract of employment whether to grant or deny the person permanent classification as a classroom teacher. If it grants such classification, the person shall be classified as and become a permanent employee as a classroom teacher.

44899. A person employed in an administrative or supervisory position by more than one district shall be given permanent classification in whichever district he may select for the permanent classification. Other permanent classification shall be given to such an employee in a district situated wholly or partly within a city or city and county where the charter of the city or city and county provides for other classification.

44900. Any certificated employee having permanent classification in a district, who is granted a leave of absence and transfers to another district which is under the supervision of the same chief administrative officer or district superintendent as the district from which the employee is on leave, may acquire permanent classification in the district to which he transferred if he is employed for a second year in that district, at which time his permanent classification in the district from which he transferred shall expire.

44901. A certificated employee who has served in a position or positions requiring certification qualifications in two or more districts, each having an average daily attendance of 250 or more and

governed by governing boards of identical personnel, for a total of three complete consecutive school years, upon being elected for the fourth consecutive school year to a position or positions requiring certification qualifications in any of the districts, shall at the commencement of the fourth consecutive school year be classified as a permanent employee of the last district in which he was employed prior to his election for the fourth consecutive school year.

Where there are two or more districts, each having an average daily attendance of 250 or more and governed by governing boards of identical personnel, a certificated employee who has served in one of the districts for three complete consecutive school years, upon being elected for the fourth consecutive school year to a position or positions requiring certification qualifications in any of the districts, shall at the commencement of the fourth consecutive school year be classified as and become a permanent employee of the last district in which he was employed prior to his election for the fourth consecutive school year.

44902. The division, uniting, unionization, unification, or consolidation of any school district or districts, or any change in school district boundaries or organization, shall not affect the classification of certificated employees already employed by any school district affected. Such employees shall have the same status with respect to their classification by the district, including time served as probationary employees of the district after the division, uniting, unionization, unification, or consolidation, or change in school district boundaries or organization as they had prior thereto. If such division, uniting, unionization, unification, or consolidation, or change in school district boundaries or organization results in the school or other place in which any such employee is employed being maintained by another district, any such employee, if a permanent employee of the district which formerly maintained such school or other place of employment, shall be employed as a permanent employee of the district which thereafter maintains the school or other place of employment, unless such employee elects to continue in the employ of the first district. If such employee is a probationary employee of the district which formerly maintained such school or other place of employment, he shall be employed by the district which thereafter maintains the school or other place of employment, unless such probationary employee is terminated by such district pursuant to Section 44949 or 44955, and, if not so terminated, his status with respect to classification by such district shall be the same as it would have been had the school or other place of employment continued to be maintained by the district which formerly maintained it. As used in this paragraph, "the school or other place in which any such employee is employed" and all references thereto, includes, but is not limited to, the school services or school program which, as a result of any division, uniting, unionization, unification, or consolidation of a school district, will be provided by another district, irrespective of whether any particular building or buildings

in which such schoolwork or school program was conducted is physically located in the new district and irrespective of whether any new district resulting from such division elects to provide for the education of its pupils by contracting with another school district until such time as the new district constructs its own facilities.

As used in the preceding paragraph of this section "any change in school district boundaries or organization" includes, but is not limited to, the formation of a community college district which includes a high school district maintaining a community college, and the reorganization of a territory into a new different or additional high school or elementary school district or districts.

In case the unionization, unification, uniting, or consolidation of two or more school districts results in a district in which, under the provisions of this code then in effect, the certificated employees are entitled to probationary or permanent classification, the employees of the union, unified, or consolidated district, or of the school district formed by uniting two or more school districts shall be given such classification on the same basis as certificated employees in other districts of like average daily attendance.

44903. On the unionization, unification, uniting, or consolidation of one or more school districts in which the average daily attendance for the preceding school year was less than 250 pupils, with a district or districts in which the average daily attendance was or, as a result of the unionization, uniting, consolidation, or unification, becomes 250 or more pupils, the regular three-year probationary period shall be served after the effective date of the unionization, unification, uniting, or consolidation, by any probationary employee who has been serving in a district of less than 250 average daily attendance. The elected governing board of any such union, unified, or consolidated district, or of the school district formed by uniting two or more school districts, at its option, may classify as a permanent employee of the district, any probationary employee of the districts making up the union, unified, or consolidated district, or of the school district formed by uniting two or more school districts, who, prior to the unionization, unification, uniting, or consolidation of the districts, had been employed by any of the districts for three complete, consecutive school years in a position or positions requiring certification qualifications.

44904. Sections 44902 and 44903 shall apply to any division, uniting, unionization, unification, or consolidation of school districts, or change in school district boundaries or organization, made at any time subsequent to January 1, 1931, to the same extent as changes made subsequent to April 10, 1937, and the provisions hereof shall be retroactive to January 1, 1931.

Nothing in this section or in Sections 44902 and 44903 shall be construed to nullify or in any manner affect the classification of any employee of a district now or hereafter classified as a permanent employee thereof by operation of this or any other provision of law.

44905. Nothing in Sections 13304 to 13312, inclusive, Sections

13314 to 13318, inclusive, Sections 13320 to 13326, inclusive, and Sections 13328 to 13337, inclusive, shall be construed as affecting any permanent employee classified as such on August 14, 1931. No decrease in the average daily attendance of any school district shall operate to deprive any permanent employee of the district of his classification.

44906. Except in districts situated wholly or partly within the boundaries of a city or city and county where the charter of the city or city and county provides an age at which employees, including certificated employees of the districts, shall be retired, when a permanent or probationary employee reaches the age of 65 years, his permanent or probationary classification shall cease and thereafter employment shall be from year to year at the discretion of the governing board.

44907. The retirement of any employee of a school district under the provisions of any retirement law shall automatically effect the dismissal of the employee from the employ of the district at the end of the current school year.

44908. A probationary employee who, in any one school year, has served for at least 75 percent of the number of days the regular schools of the district in which he is employed are maintained shall be deemed to have served a complete school year. In case of evening schools, 75 percent of the number of days the evening schools of the district are in session shall be deemed a complete school year.

44909. The governing board of any school district may employ persons possessing an appropriate credential as instructors in classes conducted under contract with public or private agencies, or other categorically funded projects of indeterminate duration. The terms and conditions under which such persons are employed shall be mutually agreed upon by the employee and the governing board and such agreement shall be reduced to writing. Service pursuant to this section shall not be included in computing the service required as a prerequisite to attainment of, or eligibility to, classification as a permanent employee of a school district unless (1) such person has served pursuant to this section, for at least 75 percent of the number of days the regular schools of the district by which he is employed are maintained, and (2) such person is subsequently employed as a probationary employee in a position requiring certification qualifications. Such persons may be employed for periods which are less than a full school year and may be terminated at the expiration of the contract or specially funded project without regard to other requirements of this code respecting the termination of probationary or permanent employees.

This section shall not be construed to apply to any regularly credentialed teacher who has been employed to teach in the regular educational programs of the school district as a probationary employee before being subsequently assigned to any one of these programs.

44910. Service by a person as an instructor in classes conducted

at regional occupational centers or programs, as authorized pursuant to Section 52301, shall not be included in computing the service required as a prerequisite to attainment of, or eligibility to, classification as a permanent employee of a school district.

This section shall not be construed to apply to any regularly credentialed teacher who has been employed to teach in the regular educational programs of the school district and subsequently assigned as an instructor in regional occupational centers or programs, nor shall it affect the status of regional occupational center teachers classified as permanent or probationary at the time this section becomes effective.

44911. Service by a person under a provisional credential shall not be included in computing the service required as a prerequisite to attainment of, or eligibility to, classification as a permanent employee of a school district.

44912. Service under a credential authorizing service only as a teacher of basic military drill in high school cadet companies established under Chapter 1 of Part 2 of Division 2 of the Military and Veterans Code shall not be included in computing the service required as a prerequisite to attainment of, or eligibility to, classification as a permanent employee of a school district.

44913. Nothing in Sections 44882 to 44887, inclusive, Sections 44890, 44891, Sections 44893 to 44906, inclusive, and Sections 44908 to 44919, inclusive, shall be construed as permitting a certificated employee to acquire permanent classification with respect to employment in a summer school maintained by a school district, and service in connection with any such employment shall not be included in computing the service required as a prerequisite to attainment of, or eligibility to, classification as a permanent employee of the district. The provisions of this section do not constitute a change in, but are declaratory of, the preexisting law.

44914. If an employee of a school district has served as a probationary employee of the district in a position requiring certification qualifications, for one complete school year, and in the year immediately preceding the service as probationary employee has served as a substitute employee, or as a substitute and probationary employee, serving in both capacities during the same school year in the schools of the district, at least 75 percent of the number of days the regular schools of the district were maintained, the governing board of the district may count the year of employment as a substitute or as a substitute and probationary employee as one year of the probationary period which he is required by law to serve as a condition to being classified as a permanent employee of the district.

44915. Governing boards of school districts shall classify as probationary employees, those persons employed in positions requiring certification qualifications for the school year, who have not been classified as permanent employees or as substitute employees.

44916. The classification shall be made at the time of employment and thereafter in the month of July of each school year. At the time of initial employment during each academic year, each new certificated employee of the school district shall receive a written statement indicating his employment status and the salary that he is to be paid. If a school district hires a certificated person as a temporary employee, the written statement shall clearly indicate the temporary nature of the employment and the length of time for which the person is being employed. If a written statement does not indicate the temporary nature of the employment, the certificated employee shall be deemed to be a probationary employee of the school district, unless employed with permanent status.

44917. Except as provided in Sections 44888 and 44920, governing boards of school districts shall classify as substitute employees those persons employed in positions requiring certification qualifications, to fill positions of regularly employed persons absent from service.

After September 1 of any school year, the governing board of any school district may employ, for the remainder of the school year, in substitute status any otherwise qualified person who consents to be so employed in a position for which no regular employee is available, including persons retired for service under the State Teachers' Retirement System. Inability to acquire the services of a qualified regular employee shall be demonstrated to the satisfaction of the Commission for Teacher Preparation and Licensing.

Any person employed for one complete school year as a temporary employee shall, if reemployed for the following school year in a position requiring certification qualifications, be classified by the governing board as a probationary employee and the previous year's employment as a temporary employee shall be deemed one year's employment as a probationary employee for purposes of acquiring permanent status.

44918. Any employee classified as a substitute or temporary employee, who serves during one school year for at least 75 percent of the number of days the regular schools of the district were maintained in such school year and has performed the duties normally required of a certificated employee of the school district, shall be deemed to have served a complete school year as a probationary employee if employed as a probationary employee for the following school year.

Any such employee shall be reemployed for the following school year to fill any vacant positions in the school district for which the employee is certified and qualified to serve.

For purposes of this section, "qualified to serve" shall be defined to mean the possession of an appropriate credential plus completion of appropriate academic preparation or experience in the subject matter in which the vacant position occurs.

For purposes of this section, "vacant position" means a position in which the employee is qualified to serve and which is not filled by a permanent or probationary employee. It shall not include a

position which would be filled by a permanent or probationary employee except for the fact that such employee is on leave.

Any employee classified as a substitute or temporary employee who has rendered the service required to qualify under this section but who has not been reemployed due to a lack of a vacant position shall be reemployed as a substitute or temporary employee for the following school year.

In any district in which appointments are made from eligible lists established by examination, special eligible lists shall be established at the end of each school year which consist of the names of those employees who met the requirements of this section. Such lists shall be in rank order based on the final scores established by examination. Such lists shall be valid for at least two school years. Offers for appointments to probationary status during the ensuing school year shall be made from such special eligible lists established by examination; provided, however, permanent or probationary employees terminated during the preceding 39 months pursuant to Section 44955, shall be given priority in employment over persons on such special eligible lists.

Those employees classified as substitutes, and who are employed to serve in an on-call status to replace absent regular employees on a day-to-day basis shall not be entitled to the benefits of this section.

Permanent and probationary employees subjected to a reduction in force pursuant to Section 44955 shall, during the period of preferred right to reappointment, have prior rights to any vacant position in which they are qualified to serve superior to those rights hereunder afforded to temporary and substitute personnel who have become probationary employees pursuant to the provisions of this section.

44919. Governing boards of school districts shall classify as temporary employees those persons requiring certification qualifications, other than substitute employees, who are employed to serve from day to day during the first three school months of any school term to teach temporary classes not to exist after the first three school months of any school term or to perform any other duties which do not last longer than the first three school months of any school term, or to teach in special day and evening classes for adults or in schools of migratory population for not more than four school months of any school term. If the classes or duties continue beyond the first three school months of any school term or four school months for special day and evening classes for adults, or schools for migratory population, the certificated employee, unless a permanent employee, shall be classified as a probationary employee. The school year may be divided into not more than two school terms for the purposes of this section.

In any district, the governing board may, to prevent the stoppage of school district business when an actual emergency arises and persons are not immediately available for probationary classification, make an appointment to a position on a temporary basis for a period

not to exceed 20 working days. The person so appointed shall be deemed to be a temporary employee who is employed to serve from day to day. Service by a person in such an appointment on a temporary basis shall not be included in computing the service required as a prerequisite to attainment of, or eligibility to, classification as a permanent employee of a school district.

44920. Notwithstanding the provisions of Sections 44917 and 44919, the governing board of a school district may employ as a teacher, for a complete school year, but not less than one semester during a school year unless the date of rendering first paid service begins during the second semester and prior to March 15th, any person holding appropriate certification documents, and may classify such person as a temporary employee. The employment of such persons shall be based upon the need for additional certificated employees during a particular semester or year because a certificated employee has been granted leave for a semester or year, or is experiencing long-term illness, and shall be limited, in number of persons so employed, to that need, as determined by the governing board.

Any person employed for one complete school year as a temporary employee shall, if reemployed for the following school year in a vacant position requiring certification qualifications, be classified by the governing board as a probationary employee and the previous year's employment as a temporary employee shall be deemed one year's employment as a probationary employee for purposes of acquiring permanent status.

For purposes of this section "vacant position" means a position in which the employee is qualified to serve and which is not filled by a permanent or probationary employee. It shall not include a position which would be filled by a permanent or probationary employee except for the fact that such employee is on leave.

44921. Notwithstanding the provisions of Section 44919, the governing board of a unified or high school district may employ persons requiring certification qualifications for the first semester only, and classify such persons as temporary employees, whenever the district expects a reduction in student enrollment during the second semester due to students completing graduation requirements at midyear. The number of persons so employed shall be limited to requirements based on the anticipated reduced enrollment as determined by the governing board. Persons so employed who are continued in employment beyond the first semester shall be deemed probationary employees for the entire school year.

Any such employee shall be reemployed for the following semester or school year to fill any vacant positions in the school district for which the employee is certified. Preference for available positions shall be determined by the governing board using the method prescribed in Sections 44845 and 44846.

For purposes of this section "vacant position" means a position in

which the employee is qualified to serve and which is not filled by a permanent or probationary employee. It shall not include a position which would be filled by a permanent or probationary employee except for the fact that such employee is on leave.

**44922.** Notwithstanding any other provision, the governing board of a school district may establish regulations which allow their certificated employees to reduce their workload from full-time to part-time duties.

Such regulations shall include but shall not be limited to the following if such employees wish to reduce their workload and maintain retirement benefits pursuant to Section 22724 of this code or Section 20815 of the Government Code:

(a) The employee must have reached the age of 55 prior to reduction in workload.

(b) The employee must have been employed full time in a position requiring certification for at least 10 years of which the immediately preceding five years were full-time employment.

(c) The option of part-time employment must be exercised at the request of the employee and can be revoked only with the mutual consent of the employer and the employee.

(d) The employee shall be paid a salary which is the pro rata share of the salary he would be earning had he not elected to exercise the option of part-time employment but shall retain all other rights and benefits for which he makes the payments that would be required if he remained in full-time employment.

The employee shall receive health benefits as provided in Section 53201 of the Government Code in the same manner as a full-time employee.

(e) The minimum part-time employment shall be the equivalent of one-half of the number of days of service required by the employee's contract of employment during his final year of service in a full-time position.

(f) This option is limited in prekindergarten through grade 12 to certificated employees who do not hold positions with salaries above that of a school principal.

**44923.** In the event a permanent employee of a school district has tenure as a full-time employee of the district, any assignment or employment of such employee in addition to his full-time assignment may be terminated by the governing board of the district at any time.

**44924.** Except as provided in Sections 44937 and 44956, any contract or agreement, express or implied, made by any employee to waive the benefits of this chapter or any part thereof is null and void.

Notwithstanding provisions of this or any other section of this code, governing boards of school districts may employ persons in positions requiring certification qualifications on less than a full-time basis.

**44925.** The governing board of any school district may employ or engage as an independent contractor a qualified person to serve as limited-term or part-time reader assistant in connection with

instruction in composition and writing, and in mathematics, to teachers. Any person employed as a reader shall not be deemed to be employed in a position requiring certification qualifications, and, unless otherwise determined by the governing board, shall not be subject to the provisions of Chapter 5 (commencing with Section 45100) of this part. The governing board may pay such hourly or unit compensation rates as it deems proper for the services rendered. It is the intent of the Legislature in enacting this section not to authorize an increase in the number of pupils who may be assigned to any class, but to provide an opportunity for improvement in the quality of student writing and mathematics abilities through more frequent assignments of compositions and more work in mathematics made possible by the employment of suitably trained persons to assist the instructor in the careful marking and analysis of the pupils' work. Furthermore, the means adopted for employing persons as reader assistants is not intended as an encroachment upon the merit system of public employment, but is adopted as the most practical arrangement, since most work of such nature will be done as part-time work and in the home.

44926. The governing board of any school district may employ any qualified person who possesses a temporary certificate to serve as a teacher-assistant in a program conducted in cooperation with a California teacher training institution. No person shall be so employed unless he is enrolled as a student in a cooperating California teacher training institution at the time the service is rendered. Service by a person under a teacher-assistant certificate shall not be included in computing the service required as a prerequisite to the attainment of, or eligibility to, classification as a permanent employee of a school district. The governing board may make such payments as it deems proper for the services rendered.

Any person employed under this section shall not be subject to the provisions of Chapter 1 (commencing with Section 22000) to Chapter 27 (commencing with Section 24600), inclusive, of Part 13 of Division 1 of Title 1.

44927. The governing board of any school district, a county board of education, or the Department of Education may execute a contract with any California teacher-training institution whereby certificated personnel of the school district, county, or the Department of Education may be assigned to the teacher-training institution for full-time or part-time duty for a period not to exceed one year.

Any teacher-training institution in California may execute a contract with the governing board of any school district, a county board of education, or the Board of Education whereby certificated personnel of the institution may be assigned to school districts, county boards of education, or the Department of Education for full-time or part-time duty for a period not to exceed one year.

Any such contract shall provide for the payment, by the entity to which a person is assigned to the employer, of a sum equivalent to

the salary and other employment costs of any such employee. In place of such payment, the contract may provide for the exchange of certificated personnel between the district, county, or Department of Education and the teacher-training institution. Any such employee shall retain his status as an employee of the school district, county, Department of Education, or teacher-training institution from which he is assigned in all respects during the period of such assignment.

### Article 3. Resignations, Dismissals, and Leaves of Absence

44930. Governing boards of school districts shall accept the resignation of any employee and shall fix the time when the resignation takes effect, which shall not be later than the close of the school year during which the resignation has been received by the board.

44931. Whenever any certificated employee of any school district who, at the time of his resignation, was classified as permanent, is reemployed within 39 months after his last day of paid service, the governing board of the district shall, disregarding the break in service, classify him as, and restore to him all of the rights, benefits and burdens of, a permanent employee, except as otherwise provided in this code; provided, that time spent in active military service, as defined in Section 44800, subsequent to the last day of paid service shall not count as part of the aforesaid 39-month period; and provided further, that any such employee who has engaged in active military service subsequent to his last paid service and who resigned more than 39 months prior to October 1, 1949, shall be deemed to have complied with all requirements of this section if he is or has been reemployed before July 1, 1950.

44932. No permanent employee shall be dismissed except for one or more of the following causes:

- (a) Immoral or unprofessional conduct.
- (b) Commission, aiding, or advocating the commission of acts of criminal syndicalism, as prohibited by Chapter 188, Statutes of 1919, or in any amendment thereof.
- (c) Dishonesty.
- (d) Incompetency.
- (e) Evident unfitness for service.
- (f) Physical or mental condition unfitting him to instruct or associate with children.
- (g) Persistent violation of or refusal to obey the school laws of the state or reasonable regulations prescribed for the government of the public schools by the State Board of Education or by the governing board of the school district employing him.
- (h) Conviction of a felony or of any crime involving moral turpitude.
- (i) Violation of Section 51530 of this code or conduct specified in Section 1028 of the Government Code, added by Chapter 1418 of the

Statutes of 1947.

(j) Violation of any provision in Sections 7001 to 7007, inclusive, of this code.

(k) Knowing membership by the employee in the Communist Party.

44933. A permanent employee may be dismissed on grounds of unprofessional conduct consisting of acts or omissions other than those specified in Section 44932, but any such charge shall specify instances of behavior deemed to constitute unprofessional conduct.

44934. Upon the filing of written charges, duly signed and verified by the person filing them, with the governing board of the school district, or upon a written statement of charges formulated by the governing board, charging that there exists cause for the dismissal of a permanent employee of the district, the governing board may, upon majority vote, except as provided in this article if it deems the action necessary, give notice to the permanent employee of its intention to dismiss him at the expiration of 30 days from the date of service of the notice, unless the employee demands a hearing as provided in this article.

Any written statement of charges of unprofessional conduct or incompetency shall specify instances of behavior and the acts or omissions constituting the charge so that the teacher will be able to prepare his defense. It shall, where applicable, state the statutes and rules which the teacher is alleged to have violated, but it shall also set forth the facts relevant to each occasion of alleged unprofessional conduct or incompetency.

44935. No report on the fitness of a teacher in a dismissal proceeding shall be received from a statewide professional organization by a governing board unless the teacher shall have been given, prior to the preparation of the report in its final form, the opportunity to submit in writing his or her comments on the report and unless a copy of the report in final form is given to the teacher investigated at least 10 days prior to its submission to the board.

Such a report shall not be distributed other than to the governing board and those persons participating in its preparation, unless the teacher does not demand a hearing as provided by Section 44937.

44936. The notice shall not be given between May 15th and September 15th in any year. It shall be in writing and be served upon the employee personally or by United States registered mail addressed to him at his last known address. A copy of the charges filed, containing the information required by Section 11503 of the Government Code, together with a copy of the provisions of this article, shall be attached to the notice.

44937. If the employee does not demand a hearing by filing a written request for hearing with the governing board, he may be dismissed at the expiration of the 30-day period.

44938. The governing board of any school district shall not act upon any charges of unprofessional conduct or incompetency unless during the preceding term or half school year prior to the date of the

filing of the charge, and at least 90 days prior to the date of the filing, the board or its authorized representative has given the employee against whom the charge is filed, written notice of the unprofessional conduct or incompetency, specifying the nature thereof with such specific instances of behavior and with such particularity as to furnish the employee an opportunity to correct his faults and overcome the grounds for such charge. The written notice shall include the evaluation made pursuant to Article 11 (commencing with Section 44660) of Chapter 3 of this part, if applicable to the employee. "Unprofessional conduct" and "incompetency" as used in this section means, and refers only to, the unprofessional conduct and incompetency particularly specified as a cause for dismissal in Sections 44932 and 44933 and does not include any other cause for dismissal specified in Section 44932.

44939. Upon the filing of written charges, duly signed and verified by the person filing them with the governing board of a school district, or upon a written statement of charges formulated by the governing board, charging a permanent employee of the district with immoral conduct, conviction of a felony or of any crime involving moral turpitude, with incompetency due to mental disability, with willful refusal to perform regular assignments without reasonable cause, as prescribed by reasonable rules and regulations of the employing school district, with violation of Section 51530, with knowing membership by the employee in the Communist Party or with violation of any provision in Sections 7001 to 7007, inclusive, the governing board may, if it deems such action necessary, immediately suspend the employee from his duties and give notice to him of his suspension, and that 30 days after service of the notice, he will be dismissed, unless he demands a hearing.

If the permanent employee is suspended upon charges of knowing membership by the employee in the Communist Party or for any violation of Section 7001, 7002, 7003, 7006, 7007, or 51530, he may within 10 days after service upon him of notice of such suspension file with the governing board a verified denial, in writing, of the charges. In such event the permanent employee who demands a hearing within the 30-day period shall continue to be paid his regular salary during the period of suspension and until the entry of the decision of the Commission on Professional Competence, if and during such time as he furnishes to the school district a suitable bond, or other security acceptable to the governing board, as a guarantee that the employee will repay to the school district the amount of salary so paid to him during the period of suspension in case the decision of the Commission on Professional Competence is that he shall be dismissed. If it is determined that the employee may not be dismissed, the school board shall reimburse the employee for the cost of the bond.

44940. Whenever any certificated employee of a school district is charged with the commission of any sex offense as defined in Section 44010 by complaint, information or indictment filed in a court of

competent jurisdiction, the governing board of the school district shall immediately place the employee upon compulsory leave of absence for a period of time extending for not more than 10 days after the date of the entry of the judgment in the proceedings. The governing board of the school district may extend the compulsory leave of absence of the employee beyond such period by giving notice to the employee within 10 days after the entry of judgment in the proceedings that the employee will be dismissed at the expiration of 30 days from the date of service of the notice, unless the employee demands a hearing as provided in this article.

Any employee placed upon compulsory leave of absence pursuant to this section shall continue to be paid his regular salary during the period of his compulsory leave of absence if and during such time as he furnishes to the school district a suitable bond, or other security acceptable to the governing board, as a guarantee that the employee will repay to the school district the amount of salary so paid to him during the period of the compulsory leave of absence in case the employee is convicted of such charges, or fails or refuses to return to service following an acquittal of the offense or dismissal of the charges. If the employee is acquitted of the offense, or the charges against him are dismissed, the school district shall reimburse the employee for the cost of the bond upon his return to service in the school district.

If the employee does not elect to furnish bond, or other security acceptable to the governing board of the district, and if the employee is acquitted of the offense, or the charges against him are dismissed, the school district shall pay to the employee his full compensation for the period of the compulsory leave of absence upon his return to service in the school district.

Whenever any certificated employee of a school district is charged with the commission of any narcotics offense as defined in Section 12912.5, or a violation of subdivision 1 of Section 261 of the Penal Code, Sections 11357 to 11361, inclusive, 11363, 11364, or 11377 to 11382, inclusive, insofar as such sections relate to any controlled substances in paragraph (4) or (5) of subdivision (b) of Section 11056, or any controlled substances in subdivision (d) of Section 11054, except paragraphs (10), (11), (12), and (17) of such subdivision, of the Health and Safety Code, by complaint, information, or indictment filed in a court of competent jurisdiction, the governing board of the school district may immediately place the employee upon compulsory leave in accordance with the procedure in this section.

44941. The notice of suspension and intention to dismiss, shall be in writing and be served upon the employee personally or by United States registered mail addressed to the employee at his last known address. A copy of the charges filed, containing the information required by Section 11503 of the Government Code, together with a copy of the provisions of this article, shall be attached to the notice. If the employee does not demand a hearing within the 30-day period,

he may be dismissed upon the expiration of 30 days after service of the notice.

44942. (a) Any certificated employee may be suspended or transferred to other duties by the governing board if the board has reasonable cause to believe that the employee is suffering from mental illness of such a degree as to render him incompetent to perform his duties.

(b) The governing board shall forthwith, upon any suspension or transfer hereunder, give to the employee a written statement of the facts giving rise to the board's belief, and an opportunity to appear before the board within 10 days to explain or refute the charges.

(c) If, after the employee's appearance before the board, the board decides to continue the suspension or transfer, or if the employee chooses not to appear before the board, the employee shall then be offered, in writing, the opportunity of being examined by a panel of three psychiatrists selected by him from a list of psychiatrists to be provided by the board. To assist the panel in making their determination, the governing board shall supply to the panel, prior to the date scheduled for the psychiatric examination, a list of the duties of the position from which the employee was suspended or transferred. The employee shall continue to receive his regular salary and all other benefits of employment during the period dating from his suspension to the filing of the report of the panel with the governing board.

(d) The psychiatric examination shall be conducted at school district expense within 15 days of any suspension or transfer ordered hereunder. The employee shall submit to the examination, but shall be entitled to be represented by a psychiatrist or physician of his own choice, and any report of the psychiatrist or physician selected by him shall be filed with the panel at the request of the employee.

A written report of the panel on the examination of the suspended or transferred employee shall be submitted to the governing board within 10 days after completion of the examination. A copy shall be supplied to the employee upon request. The report shall contain a finding on whether the employee is suffering from mental illness of such a degree as to render him incompetent to perform his duties.

(e) If a majority of the panel conclude that the employee should be permitted to return to his duties, no written record of the suspension or of the determination of the panel shall be retained, and in all respects any written record concerning the employee shall appear as it did before the suspension was made.

(f) If a majority of the panel find in their report that the employee is suffering from mental illness of such a degree as to render him incompetent to perform his duties, the governing board may, upon receipt of the report, place the employee on mandatory sick leave of absence. Any mandatory sick leave of absence imposed under this section shall not exceed two years, during which period the employee shall be entitled to sick leave, hospital and medical benefits which he accrued during his employment by the governing

board but only to the extent of such accrual.

(g) Any employee placed on mandatory sick leave of absence pursuant to this section may in writing immediately demand a hearing. Thereupon the governing board shall file a complaint in the superior court of the county in which the school district or the major part thereof is located, setting forth the charges against the employee and asking that the court inquire into the charges and determine whether or not the charges are true, and if true, whether they constitute sufficient grounds for placing the employee on mandatory sick leave of absence, and for a judgment pursuant to its findings.

(h) If the court finds that the employee was not at the time of the suspension incompetent to perform his assigned duties and should not have been placed on mandatory sick leave of absence, the employee shall be immediately reinstated to the same or a substantially similar position with full back salary, and any written record of the suspension or transfer or any report of the panel shall be destroyed.

(i) If the court confirms the placing of the employee on mandatory sick leave, or if the employee does not seek a hearing, then upon written request of the employee made not earlier than six months nor later than two years after the date he was placed on mandatory sick leave of absence, a new panel of three psychiatrists shall be convened by, and at the expense of, the governing board to review its original conclusion. If the original conclusion is not changed by the new panel as a result of such review, the employee shall be continued on the mandatory sick leave of absence except that when the employee's total period of absence exceeds two years, the governing board shall either rescind its action and reinstate the employee to the same or a substantially similar position, or shall serve the employee with a notice of intention to dismiss him, and proceed according to Section 44943.

(j) If a majority of the new panel concludes in its report, or any subsequent review thereof, that the suspended employee or employee on mandatory sick leave of absence should be permitted to return to his duties, or if the court so concludes, the governing board shall take immediate action to restore the employee to the position from which he was suspended or transferred or to a substantially similar position.

(k) Every hearing and action by or before the governing board pursuant to this section shall be in executive session, and no decision, action, or occurrence therein shall be made public, unless the employee so requests in writing.

(l) Nothing in this section shall be construed to supersede Section 44949.

44943. When any employee who has been served with notice of the governing board's intention to dismiss him demands a hearing, the governing board shall have the option either (a) to rescind its action, or (b) schedule a hearing on the matter.

44944. (a) In the event a hearing is requested by the employee,

the hearing shall be commenced within 60 days from the date of the employee's demand for a hearing. The hearing shall be initiated, conducted, and a decision made in accordance with Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code, provided, however, that the hearing date shall be established after consultation with the employee and the governing board, or their representatives, and the Commission on Professional Competence shall have all the power granted to an agency therein, except that the right of discovery of the parties shall not be limited to those matters set forth in Section 11507.6 of the Government Code but shall include the rights and duties of any party in a civil action brought in a superior court. In all cases, discovery shall be completed prior to seven calendar days before the date upon which the hearing commences. If any continuance is granted pursuant to Section 11524 of the Government Code, the time limitation for commencement of the hearing as provided in this subdivision shall be extended for a period of time equal to such continuance; provided, however, that such extension shall not include that period of time attributable to an unlawful refusal by either party to allow the discovery provided for in this section.

If the right of discovery granted under the preceding paragraph is denied by either the employee or the governing board, all the remedies in Section 2034 of the Code of Civil Procedure shall be available to the party seeking discovery and the court of proper jurisdiction, to entertain his motion, shall be the superior court of the county in which the hearing will be held.

The time periods in this section and of Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code and of Article 3 (commencing with Section 2016) of Chapter 3 of Title 3 of Part 4 of the Code of Civil Procedure shall not be applied so as to deny discovery in a hearing conducted pursuant to this section.

The superior court of the county in which the hearing will be held may, upon motion of the party seeking discovery, suspend the hearing so as to comply with the requirement of the preceding paragraph.

No witness shall be permitted to testify at the hearing except upon oath or affirmation. No testimony shall be given or evidence introduced relating to matters which occurred more than four years prior to the date of the filing of the notice. Evidence of records regularly kept by the governing board concerning the employee may be introduced, but no decision relating to the dismissal or suspension of any employee shall be made based on charges or evidence of any nature relating to matters occurring more than four years prior to the filing of the notice.

(b) The hearing provided for in this section shall be conducted by a Commission on Professional Competence. One member of the commission shall be selected by the employee, one member shall be selected by the governing board, and one member shall be a hearing

officer of the State Office of Administrative Procedure who shall be chairman and a voting member of the commission and shall be responsible for assuring that the legal rights of the parties are protected at the hearing. If either the governing board or the employee for any reason fails to select a commission member at least seven calendar days prior to the date of the hearing, such failure shall constitute a waiver of the right to selection, and the county board of education or its specific designee shall immediately make the selection. When the county board of education is also the governing board of the school district or has by statute been granted the powers of a governing board, the selection shall be made by the Superintendent of Public Instruction, who shall be reimbursed by the school district for all costs incident to the selection.

The member selected by the governing board and the member selected by the employee shall not be related to the employee and shall not be employees of the district initiating the dismissal and shall hold a currently valid credential and have at least five years' experience within the past 10 years in the discipline of the employee.

(c) The decision of the Commission on Professional Competence shall be made by a majority vote and the commission shall prepare a written decision containing findings of fact, determinations of issues and a disposition either:

- (1) That the employee should be dismissed.
- (2) That the employee should not be dismissed.

The decision of the Commission on Professional Competence shall be deemed to be the final decision of the governing board.

The board may adopt from time to time such rules and procedures not inconsistent with provisions of this section, as may be necessary to effectuate this section.

The governing board and the employee shall have the right to be represented by counsel.

(d) (1) If the member selected by the governing board or the member selected by the employee is employed by any school district in California, such member shall, during any service on a Commission on Professional Competence, continue to receive salary, fringe benefits, accumulated sick leave, and other leaves and benefits from the district in which the member is employed, but shall receive no additional compensation or honorariums for service on the commission.

(2) If service on a Commission on Professional Competence occurs during summer recess or vacation periods, the member shall receive compensation proportionate to that received during the current or immediately preceding contract period from the member's employing district.

(e) If the governing board orders the dismissal of the employee, the governing board and the employee shall share equally the expenses of the hearing, including the cost of the hearing officer; and the state shall pay any costs incurred under subdivision (d) (2) above, and the reasonable expenses, as determined by the hearing officer,

of the member selected by the governing board and the member selected by the employee, and the cost of the substitute or substitutes, if any, for the member selected by the governing board and the member selected by the employee. The State Controller shall pay all claims submitted pursuant to this paragraph from the General Fund, and may prescribe reasonable rules, regulations and forms for the submission of such claims. The employee and the governing board shall pay their own attorney fees.

If the governing board orders that the employee not be dismissed, the governing board shall pay all expenses of the hearing, including the cost of the hearing officer, and any costs incurred under subdivision (d)(2) above, and the reasonable expenses, as determined by the hearing officer, of the member selected by the governing board and the member selected by the employee, and the cost of the substitute or substitutes, if any, for the member selected by the governing board and the member selected by the employee, and reasonable attorney fees incurred by the employee.

44945. The decision of the Commission on Professional Competence may, on petition of either the governing board or the employee, be reviewed by a court of competent jurisdiction in the same manner as a decision made by a hearing officer under Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code. The court, on review, shall exercise its independent judgment on the evidence. The proceeding shall be set for hearing at the earliest possible date and shall take precedence over all other cases, except older matters of the same character and matters to which special precedence is given by law.

44946. If the employee has been suspended pending the hearing, he shall be reinstated within five days after the governing board's decision in his favor, and shall be paid full salary by the governing board for the period of his suspension.

44947. If an employee is dismissed for immoral conduct or conviction of a felony or crime involving moral turpitude, the governing board shall transmit to the State Board of Education and to the county board of education which issued the certificate under which the employee was serving at the time of his dismissal, a copy of the reporter's transcript of the hearing accompanied by a request that any certificate issued by the county board of education to the employee be revoked if the employee is not reinstated upon appeal.

44948. Governing boards of school districts shall dismiss probationary employees during the school year for cause only, as in the case of permanent employees.

44949. (a) No later than March 15 and before an employee is given notice by the governing board that his services will not be required for the ensuing year, the governing board and the employee shall be given written notice by the superintendent of the district or his designee, or in the case of a district which has no superintendent by the clerk or secretary of the governing board, that it has been recommended that such notice be given to the employee,

and stating the reasons therefor.

If a probationary employee has been in the employ of the district for less than 45 days on March 15, the giving of such notice may be deferred until the 45th day of employment and all time period and deadline dates herein prescribed shall be coextensively extended.

Until the employee has requested a hearing as provided in subdivision (b) or has waived his right to a hearing, the notice and the reasons therefor shall be confidential and shall not be divulged by any person, except as may be necessary in the performance of duties; however, the violation of this requirement of confidentiality, in and of itself, shall not in any manner be construed as affecting the validity of any hearing conducted pursuant to this section.

(b) The employee may request a hearing to determine if there is cause for not reemploying him for the ensuing year. A request for a hearing must be in writing and must be delivered to the person who sent the notice pursuant to subdivision (a), on or before a date specified therein, which shall not be less than seven days after the date on which the notice is served upon the employee. If an employee fails to request a hearing on or before the date specified, his failure to do so shall constitute his waiver of his right to a hearing. The notice provided for in subdivision (a) shall advise the employee of the provisions of this subdivision.

(c) In the event a hearing is requested by the employee, the proceeding shall be conducted and a decision made in accordance with Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code and the governing board shall have all the power granted to an agency therein, except that: (1) the respondent shall file his notice of defense, if any, within five days after service upon him of the accusation and he shall be notified of such five-day period for filing in the accusation; (2) the discovery authorized by Section 11507.6 of the Government Code shall be available only if request is made therefor within 15 days after service of the accusation, and the notice required by Section 11505 of the Government Code shall so indicate; and (3) the hearing shall be conducted by a hearing officer who shall prepare a proposed decision, containing findings of fact and a determination as to whether the charges sustained by the evidence are related to the welfare of the schools and the pupils thereof. The proposed decision shall be prepared for the governing board and shall contain a determination as to the sufficiency of the cause and a recommendation as to disposition. However, the governing board shall make the final determination as to the sufficiency of the cause and disposition. None of the findings, recommendations, or determinations contained in the proposed decision prepared by the hearing officer shall be binding on the governing board or on any court in future litigation. Copies of the proposed decision shall be submitted to the governing board and to the employee on or before May 7 of the year in which the proceeding is commenced. All expenses of the hearing, including the cost of the hearing officer,

shall be paid by the governing board from the district funds. The board may adopt from time to time such rules and procedures not inconsistent with provisions of this section, as may be necessary to effectuate this section.

(d) The governing board's determination not to reemploy a probationary employee for the ensuing school year shall be for cause only. The determination of the governing board as to the sufficiency of the cause pursuant to this section shall be conclusive, but the cause shall relate solely to the welfare of the schools and the pupils thereof and provided that cause shall include termination of services for the reasons specified in Section 44955. The decision made after the hearing shall be effective on May 15 of the year the proceeding is commenced.

(e) Notice to the probationary employee by the governing board that his service will not be required for the ensuing year, shall be given no later than May 15.

(f) If a governing board notifies a probationary employee that his services will not be required for the ensuing year, the board shall, within 10 days after delivery to it of the employee's written request, provide him with a statement of its reasons for not reemploying him for the ensuing school year.

(g) Any notice or request shall be deemed sufficient when it is delivered in person to the employee to whom it is directed, or when it is deposited in the United States registered mail, postage prepaid and addressed to the last known address of the employee.

(h) In the event that the governing board does not give notice provided for in subdivision (e) of this section on or before May 15, the employee shall be deemed reemployed for the ensuing school year.

(i) If after request for hearing pursuant to subdivision (b) any continuance is granted pursuant to Government Code Section 11524, the dates prescribed in subdivisions (c), (d), (e) and (h) which occur on or after the date of granting the continuance shall be extended for a period of time equal to such continuance.

44950. Whenever the governing board of any school district dismisses an employee pursuant to Section 44948 or gives notice to an employee that his services will not be required for the ensuing year pursuant to Section 44949, the governing board shall on or before September 1 of the next succeeding school year transmit to the Department of Education a statement of the reasons for such dismissal or failure to rehire. The statement of reasons should be a true and exact copy of the statement of cause for dismissal or reasons for dismissal given the employee under Section 44948 or 44949 if such a statement is given, and the governing board shall so certify.

The statement so transmitted to the Department of Education shall be treated as confidential matter by the department. Such statements shall be referred to only to the extent necessary for accomplishment of the objectives of this section and shall be for all purposes the confidential property of the department.

The department shall prepare and maintain, from the statements so transmitted, a descriptive and statistical analysis, by category of causes or reasons of dismissal or failure to rehire, and shall report thereon to the Legislature each general session of the Legislature.

44951. Unless a certificated employee holding a position requiring an administrative or supervisory credential is sent written notice deposited in the United States registered mail with postage prepaid and addressed to his last known address by March 15 that he may be released from his position for the following school year or unless the signature of such an employee is obtained by March 15 on such written notice that he may be released from his position for the following year, he shall be continued in such position. The provisions of this section do not apply to a certificated employee who holds a written contract with an expiration date beyond the current school year, or to a certificated employee holding a position that is funded for less than a school year, or to a certificated employee assigned to an acting position whose continuing right to hold this position depends on his being selected from an eligible list established for the position, or to the termination of employment pursuant to Section 44955. A certificated employee serving under Section 35042 shall be notified by March 1 if the governing board determines on an individual basis that he may be released for the following school year.

44952. The provisions of Section 44949 shall not be construed as in any way modifying or affecting the provisions of Section 44948.

44953. Governing boards of school districts may dismiss substitute employees at any time at the pleasure of the board.

44954. Governing boards of school districts may dismiss temporary employees requiring certification qualifications at the pleasure of the board. A temporary employee who is not dismissed during the first three school months, or in the case of migratory schools during the first four school months of the school term for which he was employed and who has not been classified as a permanent employee shall be deemed to have been classified as a probationary employee from the time his services as temporary employee commenced.

44955. No permanent employee shall be deprived of his position for causes other than those specified in Sections 44892, 44907 and 44923, and Sections 44932 to 44947, inclusive, and no probationary employee shall be deprived of his position for cause other than as specified in Sections 44948 and 44949, except in accordance with the provisions of Sections 44955 to 44961, inclusive.

Whenever in any school year the average daily attendance in all of the schools of a district for the first six months in which school is in session shall have declined below the corresponding period of either of the previous two school years, or whenever a particular kind of service is to be reduced or discontinued not later than the beginning of the following school year, and when in the opinion of the governing board of said district it shall have become necessary by reason of either of such conditions to decrease the number of

permanent employees in said district, the said governing board may terminate the services of not more than a corresponding percentage of the certificated employees of said district, permanent as well as probationary, at the close of the school year; provided, that the services of no permanent employee may be terminated under the provisions of this section while any probationary employee, or any other employee with less seniority, is retained to render a service which said permanent employee is certificated and competent to render.

Notice of such termination of services either for a reduction in attendance or reduction or discontinuance of a particular kind of service to take effect not later than the beginning of the following school year, shall be given before the 15th of May in the manner prescribed in Section 44949, and services of such employees shall be terminated in the inverse of the order in which they were employed, as determined by the board in accordance with the provisions of Sections 44844 and 44845 of this code. In the event that a permanent or probationary employee is not given the notices and a right to a hearing as provided for in Section 44949, he shall be deemed reemployed for the ensuing school year.

The board shall make assignments and reassignments in such a manner that employees shall be retained to render any service which their seniority and qualifications entitle them to render.

44956. Any permanent employee whose services have been terminated as provided in Section 44955 shall have the following rights:

1. For the period of 39 months from the date of such termination, any employee who in the meantime has not attained the age of 65 years shall have the preferred right to reappointment, in the order of original employment as determined by the board in accordance with the provisions of Sections 44831 to 44855, inclusive, if the number of employees is increased or the discontinued service is reestablished, with no requirements that were not imposed upon other employees who continued in service; provided, that no probationary or other employee with less seniority shall be employed to render a service which said employee is certificated and competent to render.

2. The aforesaid right to reappointment may be waived by the employee, without prejudice, for not more than one school year, unless the board extends this right, but such waiver shall not deprive the employee of his right to subsequent offers of reappointment.

3. As to any such employee who is reappointed, the period of his absence shall be treated as a leave of absence and shall not be considered as a break in the continuity of his service, he shall retain the classification and order of employment he had when his services were terminated, and credit for prior service under any state or district retirement system shall not be affected by such termination, but the period of his absence shall not count as a part of the service required for retirement.

4. During the period of his preferred right to reappointment, any such employee shall, in the order of original employment, be offered prior opportunity for substitute service during the absence of any other employee who has been granted a leave of absence or who is temporarily absent from duty; provided, that his services may be terminated upon the return to duty of said other employee, that the compensation he receives shall be not less than the amount he would receive if he were being reappointed, and that said substitute service shall not affect the retention of his previous classification and rights.

4a. During the period of the employee's preferred right to reappointment, the governing board of the district, if it is also the governing board of one or more other districts, may assign him to service, which he is certificated and competent to render, in said other district or districts; provided, that the compensation he receives therefor may in the discretion of the governing board be the same as he would have received had he been serving in the district from which his services were terminated, that his service in the said other district or districts shall be counted toward the period required for both state and local retirement, as defined by Section 22102, as though rendered in the district from which his services were terminated, and that no permanent employee in said other district or districts shall be displaced by him.

It is the intent of this subsection that the employees of a school district, the governing board of which is also the governing board of one or more other school districts, shall not be at a disadvantage as compared with employees of a unified school district.

5. At any time prior to the completion of one year after his return to service, he may continue or make up, with interest, his own contributions to any state or district retirement system, for the period of his absence, but it shall not be obligatory on state or district to match such contributions.

6. Should he become disabled or reach retirement age at any time before his return to service, he shall receive, in any state or district retirement system of which he was a member, all benefits to which he would have been entitled had such event occurred at the time of his termination of service, plus any benefits he may have qualified for thereafter, as though still employed.

44957. Any probationary employee whose services have been terminated as provided in Section 44955 shall have the following rights:

(a) For the period of 24 months from the date of such termination, any employee who in the meantime has not attained the age of 65 years shall have the preferred right to reappointment, subject to the prior rights to reappointment by all permanent employees as set forth in Section 44956, in the order of original employment as determined by the governing board in accordance with the provisions of Sections 44831 to 44855, inclusive, if the number of employees is increased or the discontinued service is reestablished, with no requirements that were not imposed upon other employees

who continued in service; provided, that no probationary or temporary employee with less seniority shall be employed to render a service which such employee is certificated and competent to render and provided that such an employee shall be given a priority over employees whose right to a position is derived pursuant to Section 44918.

(b) As to any such employee who is reappointed, the period of his absence shall be treated as a leave of absence and shall not be considered as a break in the continuity of his service, he shall retain the classification and order of employment he had when his services were terminated, and credit for prior service under any state or district retirement system shall not be affected by such termination; provided, however, that the period of his absence shall not be counted as a part of the service required for attaining permanent status in the district or, except as provided in subdivision (c), for retirement purposes.

(c) During the period of his preferred right to reappointment, any such employee shall, in the order of original employment, and subject to the rights of permanent employees as set forth in Section 44956, be offered prior opportunity for substitute service during the absence of any other employee who has been granted leave of absence or who is temporarily absent from duty; provided, that his services may be terminated upon a return to duty of such other employee, that such substitute service shall not affect the retention of his previous classification and rights, and that such an employee shall be given a priority over employees whose right to a substitute position is derived pursuant to Section 44918.

(d) At any time prior to the completion of one year after his return to service, an employee reappointed under the provisions of this section may elect to continue or to reinstate his membership and interest in any state or district retirement system and to receive retirement benefits as if no absence from service had occurred. In the event of such election the employee shall pay into the retirement system the amount of his share of contribution and the district's share of contribution attributable to the period of absence and the amount of any contributions withdrawn, plus interest.

44958. If the services of any probationary employee are terminated, or if such employee is dismissed, because of a reduction in the attendance of pupils or the discontinuance of a particular kind of service, and such employee is reemployed within a period of 39 months from the last day of the school year within which his service was so terminated, or within 39 months after the cessation of hostilities, if such reduction in attendance or discontinuance of service was due to war conditions, the period of his absence shall not count as a part of the service required as a condition precedent to the classification of such employee as a permanent employee of the district, but such absence shall not be construed as a break in the continuity of the service of such employee.

Every such probationary employee who has been reemployed as

indicated in this section shall have all of the rights enumerated in Sections 44955 to 44961, inclusive, for permanent employees, except the right of reappointment, subject only to the prior rights of permanent employees.

The provisions of this section shall apply to any probationary employee who shall be or who shall have been dismissed or terminated after January 1, 1949, because of reduction in attendance or discontinuance of a particular kind of service.

44959. As to any permanent certificated employee whose services have been terminated because of the effect of wars in which the United States is engaged upon the attendance of pupils or upon the maintenance of a particular kind of service, the effective period covered by all rights enumerated in Section 44956 is extended until two years after the cessation of hostilities, and in addition thereto for a like period the said employees shall have the following rights:

1. He may voluntarily accept termination of service in other than the order of original employment and retain all of the other rights herein provided.

2. If he is engaged in any form of civilian or military war service, any credential or certificate he holds is continued in full force and effect until 90 days after the termination of his employment therein.

3. If, either before or after such termination, he engages in any form of war service for which provision is made in Section 44800 or elsewhere in the laws of this state, he shall retain all rights granted by such war service legislation as though still employed; provided, that the right to reappointment shall be in the order of original employment, as determined in accordance with the provisions of Sections 44844 and 44845.

The services of all permanent certificated employees dismissed since December 7, 1941, because of the effect of the wars upon attendance of pupils or the maintenance of service shall be deemed to have been terminated in accordance with the provisions of Section 44955, as amended, and said employees shall have all of the rights in this section provided.

44960. The services of any permanent certificated employee referred to in Section 44959 who has been appointed to substitute service in place of another employee who is on leave of absence for civilian or military war service may be terminated upon the return of said other employee from such leave of absence, but only at the end of the current semester or quarter and not less than 30 days after written notice that his services will no longer be required.

44961. In specifying or defining the rights of employees in Sections 44955 to 44961, inclusive, the effect of war refers to "war" as defined in Section 88.

44962. Governing boards of school districts may grant leaves of absence to persons employed in positions requiring certification qualifications.

44963. When any provision of this code expressly authorizes or requires the governing board of a school district to grant a leave of

absence for any purpose or for any period of time to persons employed in positions requiring certification qualifications, that express authorization or requirement does not deprive the governing board of the power to grant leaves of absence with or without pay to such employees for other purposes or for other periods of time, so long as the governing board does not deprive any employee of any leave of absence to which he is entitled by law.

44964. The governing board of any school district may provide for the leave of absence from duty and may grant compensation during the leave of absence to any employee of the district who is employed in a position requiring certification qualifications and who is compelled to absent himself from his duties because of accident or illness, whether or not the cause of absence arises out of and in the course of the employment of the employee, or because of quarantine which results from his contact with other persons having a contagious disease while performing his duties, or because of temporary inability to perform the services required of him because of illness, accident, or quarantine.

44965. The governing board of any school district shall provide for leave of absence from duty for any certificated employee of the district who is required to be absent from duties because of pregnancy, miscarriage, childbirth, and recovery therefrom. The length of the leave of absence, including the date on which the leave shall commence and the date on which the employee shall resume duties, shall be determined by the employee and the employee's physician.

Disabilities caused or contributed to by pregnancy, miscarriage, childbirth, and recovery therefrom are, for all job-related purposes, temporary disabilities and shall be treated as such under any health or temporary disability insurance or sick leave plan available in connection with employment by any school district.

Except as provided herein, written and unwritten employment policies and practices of any school district shall be applied to disability due to pregnancy or childbirth on the same terms and conditions applied to other temporary disabilities.

This section shall be construed as requiring the governing board of a school district to grant leave with pay only when it is necessary to do so in order that leaves of absence for disabilities caused or contributed to by pregnancy, miscarriage, or childbirth be treated the same as leaves for illness, injury, or disability.

44966. The governing board of any school district may grant any employee of the district employed in a position requiring certification qualifications, a leave of absence for not to exceed one year for the purpose of permitting study or travel by the employee which will benefit the schools and pupils of the district. The governing board may provide that such a leave of absence be taken in separate six-month periods or separate quarters rather than for a continuous one-year period, provided that the leave of absence for both of the separate six-month periods or any or all quarters shall be

commenced and completed within a three-year period. Any period of service by the individual intervening between the two separate six-month periods or separate quarters of the leave of absence shall comprise a part of the service required for a subsequent such leave of absence.

If any leave of absence commenced upon within three years prior to November 8, 1967, was taken in one or more separate periods of less than one year, the period of service intervening between such separate periods shall comprise a part of the service required for a subsequent such leave of absence.

44967. No leave of absence shall be granted to any employee under Section 44966 who has not rendered service to the district for at least seven consecutive years preceding the granting of the leave, and not more than one such leave of absence shall be granted in each seven-year period. The governing board granting the leave of absence may, subject to the rules and regulations of the State Board of Education, prescribe the standards of service which shall entitle the employee to the leave of absence. No absence from the service of the district under a leave of absence, other than a leave of absence granted pursuant to Section 44966, granted by the governing board of the district shall be deemed a break in the continuity of service required by this section, and the period of such absence shall not be included as service in computing the seven consecutive years of service required by this section. Service under a national recognized fellowship or foundation approved by the State Board of Education, for a period of not more than one year, for research, teaching or lecturing shall not be deemed a break in continuity of service, and the period of such absence shall be included in computing the seven consecutive years of service required by this section.

44968. Every employee granted a leave of absence pursuant to Section 44966 may be required to perform such services during the leave as the governing board of the district and the employee may agree upon in writing, and the employee shall receive such compensation during the period of the leave as the governing board and the employee may agree upon in writing, which compensation shall be not less than the difference between the salary of the employee on leave and the salary of a substitute employee in the position which the employee held prior to the granting of the leave. However, in lieu of such difference, the board may pay one-half of the salary of the employee on leave or any additional amount up to and including the full salary of the employee on leave.

44968.5. An employee granted a leave of absence pursuant to Section 44966 or 44967 may agree in writing with the governing board of the school district not to receive compensation during the period of the leave.

44969. Every employee, as a condition to being granted a leave of absence pursuant to Section 44966, shall agree in writing to render a period of service in the employ of the governing board of the district following his return from the leave of absence which is equal

to twice the period of the leave. Compensation granted by the governing board to the employee on leave for less than one year may be paid during the first year of service rendered in the employ of the governing board following the return of the employee from the leave of absence or, in the event that the leave is for a period of one year, such compensation may be paid in two equal annual installments during the first two years of such service following the return of the employee. The compensation shall be paid the employee while on the leave of absence in the same manner as if the employee were teaching in the district, upon the furnishing by the employee of a suitable bond indemnifying the governing board of the district against loss in the event that the employee fails to render the agreed upon period of service in the employ of the governing board following the return of the employee from the leave of absence. The bond shall be exonerated in event the failure of the employee to return and render the agreed upon period of service is caused by the death or physical or mental disability of the employee. If the governing board finds and by resolution declares that the interests of the district will be protected by the written agreement of the employee to return to the service of the district and render the agreed upon period of service therein following his return from the leave, the governing board in its discretion may waive the furnishing of the bond and pay the employee on leave in the same manner as though a bond is furnished.

44970. If the employee does not serve for the entire period of service agreed upon under Section 44969, the amount of compensation paid for the leave of absence shall be reduced by an amount which bears the same proportion to the total compensation as the amount of time which was not served bears to the total amount of time agreed upon. If the employee furnished an indemnity bond, upon default, the proceeds of the bond shall be divided between the employee and the school district in the same proportion as the actual amount of time served bears to the amount of time agreed upon.

44971. If a unified school district which includes a community college is reorganized so that a community college district is formed in addition to the unified school district, an employee who takes his leave from the unified school district before the reorganization may satisfy the two years' service required by Section 44969 by serving for two years in either the community college district or the unified school district, as they exist after the reorganization, or in both.

44972. Where one governing board serves as the governing board of two or more separate districts, an employee may fulfill the service requirements provided in Section 44967 or in 44969, or both, by service in any one or more of the districts under the jurisdiction of such governing board. At the option of the governing board the provisions of this section may apply in whole or in part to service rendered prior to October 1, 1949.

44973. At the expiration of the leave of absence of the employee, he shall, unless he otherwise agrees, be reinstated in the position held

by him at the time of the granting of the leave of absence.

44974. Both the governing board of any district and the district shall be freed from any liability for the payment of any compensation or damages provided by law for the death or injury of any employee of the district employed in a position requiring certification qualifications when the death or injury occurs while the employee is on any leave of absence granted under the provisions of Sections 44962 to 44976, inclusive.

44975. No leave of absence when granted to a probationary employee shall be construed as a break in the continuity of service required for the classification of the employee as permanent. The time during which the leave of absence is taken shall not be considered as employment within the meaning of Sections 44882 to 44891, inclusive, Sections 44893 to 44900, inclusive, Sections 44901 to 44906, inclusive, and Sections 44908 to 44919, inclusive.

44976. When any school or other place of employment shall have been transferred from one district to another, any certificated employees who transfer with said school or other place of employment shall be entitled to retain all sickness and injury, sabbatical and other leave rights accumulated by service prior to such transfer and the district to which such school or other place of employment has been transferred shall recognize or grant such rights, including any accumulated rights allowed by the governing board of the district from which the school or other place of employment was transferred, as fully as if there had been no change in the district maintaining such school or other place of employment.

44977. When a person employed in a position requiring certification qualifications is absent from his duties on account of illness or accident for a period of five school months or less, whether or not the absence arises out of or in the course of the employment of the employee, the amount deducted from the salary due him for any month in which the absence occurs shall not exceed the sum which is actually paid a substitute employee employed to fill his position during his absence or, if no substitute employee was employed, the amount which would have been paid to the substitute had he been employed. The school district shall make every reasonable effort to secure the services of a substitute employee.

The governing board of every school district shall adopt a salary schedule for substitute employees. The salary schedule shall indicate a salary for a substitute for all categories or classes of certificated employees of the district.

Excepting in a district the governing board of which has adopted a salary schedule for substitute employees of the district, the amount paid the substitute employee during any month shall be less than the salary due the employee absent from his duties.

When a person employed in a position requiring certification qualifications is absent from his duties on account of illness for a period of more than five school months, or when a person is absent from his duties for a cause other than illness, the amount deducted

from the salary due him for the month in which the absence occurs shall be determined according to the rules and regulations established by the governing board of the district. Such rules and regulations shall not conflict with rules and regulations of the State Board of Education.

Nothing in this section shall be construed so as to deprive any district, city, or city and county of the right to make any reasonable rule for the regulation of accident or sick leave or cumulative accident or sick leave without loss of salary for persons acquiring certification qualifications.

This section shall be applicable whether or not the absence from duty is by reason of a leave of absence granted by the governing board of the employing district.

44978. Every certificated employee employed five days a week by a school district shall be entitled to 10 days' leave of absence for illness or injury and such additional days in addition thereto as the governing board may allow for illness or injury, exclusive of all days he is not required to render service to the district, with full pay for a school year of service. A certificated employee employed for less than five schooldays a week shall be entitled, for a school year of service, to that proportion of 10 days' leave of absence for illness or injury as the number of days he is employed per week bears to five and is entitled to such additional days in addition thereto as the governing board may allow for illness or injury to certificated employees employed for less than five schooldays a week. Pay for any day of such absence shall be the same as the pay which would have been received had the employee served during the day. Credit for leave of absence need not be accrued prior to taking such leave by the employee and such leave of absence may be taken at any time during the school year. If such employee does not take the full amount of leave allowed in any school year under this section the amount not taken shall be accumulated from year to year with such additional days as the governing board may allow.

The governing board of each school district shall adopt rules and regulations requiring and prescribing the manner of proof of illness or injury for the purposes of this section. Such rules and regulations shall not discriminate against evidence of treatment and the need therefor by the practice of the religion of any well-recognized church or denomination.

Nothing in this section shall be deemed to modify or repeal any provision of law contained in Chapter 3 (commencing with Section 3110) of Division 4 of the Health and Safety Code.

The provisions of Section 44977 relating to compensation, shall not apply to the first 10 days of absence on account of illness or accident of any such employee employed five days a week or to the proportion of 10 days of absence to which such employee employed less than five days a week is entitled hereunder on account of illness or accident or to such additional days granted by the governing board. Any employee shall have the right to utilize sick leave provided for in this

section and the benefit provided by Section 44977 for absences necessitated by pregnancy, miscarriage, childbirth, and recovery therefrom.

(Amended by Stats. 1976, Ch 1011.)

[ORIGINAL SECTION]

44978 Every certificated employee employed five days a week by a school district shall be entitled to 10 days' leave of absence for illness or injury and such additional days in addition thereto as the governing board may allow for illness or injury, exclusive of all days he is not required to render service to the district, with full pay for a school year of service. A certificated employee employed for less than five schooldays a week shall be entitled, for a school year of service, to that proportion of 10 days' leave of absence for illness or injury as the number of days he is employed per week bears to five and is entitled to such additional days in addition thereto as the governing board may allow for illness or injury to certificated employees employed for less than five school days a week; pay for any day of such absence shall be the same as the pay which would have been received had the employee served during the day. Credit for leave of absence need not be accrued prior to taking such leave by the employee and such leave of absence may be taken at any time during the school year. If such employee does not take the full amount of leave allowed in any school year under this section the amount not taken shall be accumulated from year to year with such additional days as the governing board may allow.

The governing board of each school district shall adopt rules and regulations requiring and prescribing the manner of proof of illness or injury for the purposes of this section. Such rules and regulations shall not discriminate against evidence of treatment and the need therefor by the practice of the religion of any well-recognized church or denomination.

Nothing in this section shall be deemed to modify or repeal any provision of law contained in Chapter 3 (commencing with Section 3110) of Division 4 of the Health and Safety Code.

The provisions of Section 44977 relating to compensation, shall not apply to the first 10 days of absence on account of illness or accident of any such employee employed five days a week or to the proportion of 10 days of absence to which such employee employed less than five days a week is entitled hereunder on account of illness or accident or to such additional days granted by the governing board. Any employee shall have the right to utilize sick leave provided for in this section and the benefit provided by Section 44977 for absences necessitated by pregnancy, miscarriage, childbirth, and recovery therefrom.

44979. Any certificated employee of any school district who has been an employee of that district for a period of one school year or more and who accepts a position requiring certification qualifications in another school district at any time during the second or any succeeding school year of his employment with the first district, or who, within the school year succeeding the school year in which such employment is terminated, signifies acceptance of his election or employment in a position requiring certification qualifications in another school district, shall have transferred with him to the second district the total amount of leave of absence for illness or injury to which he is entitled under Section 44978. The State Board of Education shall adopt rules and regulations prescribing the manner in which the first district shall certify to the second district the total amount of leave of absence for illness or injury to be transferred. No governing board shall adopt any policy or rule, written or unwritten, which requires any certificated employee transferring to its district to waive any part or all of the leave of

absence which he may be entitled to have transferred in accordance with this section.

44980. Any certificated employee of any school district who accepts a position requiring certification qualifications in the office of any county superintendent of schools; or, any certificated employee of any county superintendent of schools who accepts a position requiring certification qualifications in a school district or office of another county superintendent of schools; or, any person employed by the State Department of Education in a position requiring certification qualifications or an employee of the office of the Chancellor of the California Community Colleges who accepts a position requiring certification qualifications in any school district or office of any county superintendent of schools; or, any certificated employee of the Commission for Teacher Preparation and Licensing who accepts a position requiring certification qualifications in any school district or office of any county superintendent of schools; shall have transferred with him to the second position his accumulated leave of absence for illness or injury. The amount of such leave to be transferred shall be determined in the same manner as provided in Section 44979. All other provisions of Section 44979 shall also apply to the employees and employers described in this section.

44981. Any days of leave of absence for illness or injury allowed pursuant to Section 44978 may be used by the employee, at his election, in cases of personal necessity. The governing board of each school district and each office of county superintendent of schools shall adopt rules and regulations requiring and prescribing the manner of proof of personal necessity for purposes of this section.

The employee shall not be required to secure advance permission for leave taken for any of the following reasons:

- (a) Death or serious illness of a member of his immediate family.
- (b) Accident, involving his person or property, or the person or property of a member of his immediate family.

No such accumulated leave in excess of six (6) days may be used in any school year for the purposes enumerated in this section.

44982. Any person employed by a school district or by a county superintendent of schools in a position requiring certification qualifications who accepts a professional education position in the Department of Education, the appointment to which is, or is intended to become, permanent, shall have transferred with him to the Department of Education his accumulated leave of absence for illness or injury. The amount of such leave to be transferred shall be determined in the same manner as provided in Section 44979, except in no case may the transferred accumulated sick leave exceed that amount of accumulated sick leave that the person would have earned as an employee in the system to which he is transferring. All other provisions of Section 44979 shall also apply to the employees and employers described in this section.

44983. Section 44977 shall not apply to any school district which adopts and maintains in effect a rule which provides that when a

person employed in a position requiring certification qualifications is absent from his duties on account of illness or accident for a period of five school months or less whether or not the absence arises out of or in the course of the employment of the employee, he shall receive 50 percent or more of his regular salary during the period of such absence and nothing in Section 44977 shall be construed as preventing the governing board of any district from adopting any such rule.

Notwithstanding the foregoing, when a person employed in a position requiring certification qualifications is absent from his duties on account of illness for a period of more than five school months, or when a person is absent from his duties for a cause other than illness, the amount deducted from the salary due him for the month in which the absence occurs shall be determined according to the rules and regulations established by the governing board of the district. Such rules and regulations shall not conflict with rules and regulations of the State Board of Education.

Nothing in this section shall be construed so as to deprive any district, city, or city and county of the right to make any reasonable rule for the regulation of accident or sick leave or cumulative accident or sick leave without loss of salary for persons requiring certification qualifications.

This section shall be applicable whether or not the absence from duty is by reason of a leave of absence granted by the governing board of the employing district.

44984. Governing boards of school districts shall provide by rules and regulations for industrial accident and illness leaves of absence for all certificated employees. The governing board of any district which is created or whose boundaries or status is changed by an action to organize or reorganize districts completed after the effective date of this section shall provide by rules and regulations for such leaves of absence on or before the date on which the organization or reorganization of the district becomes effective for all purposes as provided in Section 4064.

Such rules or regulations shall include the following provisions:

a. Allowable leave shall be for not less than 60 days during which the schools of the district are required to be in session or when the employee would otherwise have been performing work for the district in any one fiscal year for the same accident;

b. Allowable leave shall not be accumulated from year to year;

c. Industrial accident or illness leave shall commence on the first day of absence;

d. When a certificated employee is absent from his duties on account of an industrial accident or illness, he shall be paid such portion of the salary due him for any month in which the absence occurs as, when added to his temporary disability indemnity under Division 4 or Division 4.5 of the Labor Code, will result in a payment to him of not more than his full salary;

The phrase "full salary" as utilized in this subdivision shall be

computed so that it shall not be less than the employee's "average weekly earnings" as that phrase is utilized in Section 4453 of the Labor Code. For purposes of this section, however, the maximum and minimum average weekly earnings set forth in Section 4453 of the Labor Code shall otherwise not be deemed applicable.

e. Industrial accident or illness leave shall be reduced by one day for each day of authorized absence regardless of a temporary disability indemnity award;

f. When an industrial accident or illness leave overlaps into the next fiscal year, the employee shall be entitled to only the amount of unused leave due him for the same illness or injury.

Upon termination of the industrial accident or illness leave, the employee shall be entitled to the benefits provided in Sections 44977, 44978 and 44983, and for the purposes of each of these sections, his absence shall be deemed to have commenced on the date of termination of the industrial accident or illness leave, provided that if the employee continues to receive temporary disability indemnity, he may elect to take as much of his accumulated sick leave which, when added to his temporary disability indemnity, will result in a payment to him of not more than his full salary.

The governing board may, by rule or regulation, provide for such additional leave of absence for industrial accident or illness as it deems appropriate.

During any paid leave of absence, the employee may endorse to the district the temporary disability indemnity checks received on account of his industrial accident or illness. The district, in turn, shall issue the employee appropriate salary warrants for payment of the employee's salary and shall deduct normal retirement, other authorized contributions, and the temporary disability indemnity, if any, actually paid to and retained by the employee for periods covered by such salary warrants.

Any employee receiving benefits as a result of this section shall, during periods of injury or illness, remain within the State of California unless the governing board authorizes travel outside the state.

In the absence of rules and regulations adopted by the governing board pursuant to this section an employee shall be entitled to industrial accident or illness leave as provided in this section but without limitation as to the number of days of such leave.

44985. Every person employed by a school district in a position requiring certification qualifications is entitled to a leave of absence, not to exceed three days, or five days if out-of-state travel is required, on account of the death of any member of his immediate family. No deduction shall be made from the salary of such employee nor shall such leave be deducted from leave granted by other sections of this code or provided by the governing board of the district. The governing board may enlarge the benefits of this section and may expand the class of relatives listed below as members of the immediate family. Members of the immediate family, as used in this

section, means the mother, father, grandmother, grandfather, or a grandchild of the employee or of the spouse of the employee, and the spouse, son, son-in-law, daughter, daughter-in-law, brother, or sister of the employee, or any relative living in the immediate household of the employee.

#### Article 4. Increased Cost of Dismissal Procedure

45020. The amount determined pursuant to subdivision (g) of Section 42233 shall be adjusted to allow for any increased costs to a school district which may be incurred by it in carrying out the requirements imposed by the amendments made to Section 44949 by the act enacting this section.

#### Article 5. Salaries

45021. Females employed as teachers in the public schools of the state shall, in all cases, receive the same compensation as is allowed male teachers for like services, when holding the same grade certificates.

45022. The governing board of any school district shall fix and order paid the compensation of persons in public school service requiring certification qualifications employed by the board unless otherwise prescribed by law.

45023. The governing board of each school district shall adopt and cause to be printed and made available to each certificated employee a schedule of salaries to be paid.

45023.5. The governing board of each elementary, high, and unified school district shall provide equal salaries to all certificated employees for work performed beyond the instructional day. Such compensation, whether paid on an hourly or monthly basis, or on a flat rate basis or otherwise, shall be paid equally to employees based on the concept of like pay for comparable hours and responsibilities. Under no condition shall certificated employees who are working comparable hours and responsibilities beyond the instructional day be paid differently based on the employee's sex. Nothing in this section shall be construed as prohibiting a school district from establishing a salary schedule based on experience for persons who are employed for afterschool work.

Work performed beyond the instructional day includes, but is not limited to, all activities, whether athletic or academic, performed by the employee which are not part of the normal instructional day duties.

45024. Every person employed by the district in a position requiring certification qualifications in a day school of the district for not less than the minimum schoolday for each day the schools of the district are maintained during the school year is a full-time employee and his compensation shall be fixed accordingly. Governing boards may require persons employed in positions requiring certification

qualifications to serve a longer period time in each schoolday than the minimums defined in Sections 46112 to 46116, inclusive, and 46141, in order to be compensated as full-time employees, provided all such employees in similar grades or levels are similarly required to serve such longer periods of time, and provided that the duties required of such persons during such extended time shall be directly related to and restricted to their normal assignment. With respect to a unified school district, for the purposes of this section all day kindergarten and elementary schools of the unified school district shall be deemed to be maintained by one district and all day high schools of the unified school district shall be deemed to be maintained by a second and separate district.

45025. Any person employed by a district in a position requiring certification qualifications who serves less than the minimum schoolday as defined in Sections 46112 to 46116, inclusive, or 46141 may specifically contract to serve as a part-time employee. In fixing the compensation of part-time employees, governing boards shall provide an amount which bears the same ratio to the amount provided full-time employees as the time actually served by such part-time employees bears to the time actually served by full-time employees of the same grade or assignment. This section shall not apply to any person classified as a temporary employee under Sections 44919 and 44888, or any person employed as a part-time employee above and beyond his employment as a full-time employee in the same school district.

45026. City boards of education shall have full power to fix the salary of all employees.

45027. Any supervising principal shall receive such compensation from each board of trustees jointly employing him as may be agreed upon by the boards joining in his employment.

45028. Effective July 1, 1970, each person employed by a district in a position requiring certification qualifications except a person employed in a position requiring administrative or supervisory credentials, shall be classified on the salary schedule on the basis of uniform allowance for years of training and years of experience. Employees shall not be placed in different classifications on the schedule, nor paid different salaries, solely on the basis of the respective grade levels in which such employees serve.

In no case shall the governing board of a school district draw orders for the salary of any teacher in violation of this section, nor shall any superintendent draw any requisition for the salary of any teacher in violation thereof.

This section shall not apply to teachers of special day and evening classes in elementary schools, teachers of special classes for elementary pupils, teachers of special day and evening high school classes and substitute teachers.

45029. Teachers in an opportunity school or opportunity classes shall be paid in the same manner as in other elementary schools of the city, county, or the school district in which the

opportunity school or opportunity classes are situated.

45030. The governing board of any school district may employ such substitute employees of the district as it deems necessary and shall adopt and make public a salary schedule setting the daily or pay period rate or rates for substitute employees.

This section shall not be construed as modifying or repealing any law fixing a minimum annual salary for employees of district.

45031. The salaries of home teachers shall be paid from the city or district special school funds.

45032. The governing board of a school district may at any time during any school year increase the salaries of persons employed by the district in positions requiring certification qualifications, such increase to be effective on any date ordered by the governing board.

45033. The governing board of any school district shall not decrease the annual salary of a person employed by the district in a position requiring certification qualifications for failure to meet any requirement of the district that such person complete additional educational units, course of study, or work in any college or university or any equivalent thereof.

45034. No order for a warrant, and no warrant drawn pursuant to Section 42647, shall be drawn in favor of any person employed in a position requiring certification qualifications, unless such person is at the time the holder of a proper certification document in full force for the full time for which the requisition or warrant, as the case may be, is drawn, and on file or registered as required by law at the time and unless he is employed by the governing board of the unified school district, or district with over 10,000 average daily attendance or by the county superintendent of schools as provided in this code.

45035. If any school district fails to pay the salary of any person employed by it in a position requiring certification qualifications who has on file a contract of employment held valid by the legal adviser of the county superintendent of schools having jurisdiction over the district, such county superintendent of schools may transfer sufficient money from the funds of the district to the county school service fund and pay such salary from such fund.

45036. Whenever, on or after September 15, 1961, a person has rendered service in a position requiring certification qualifications, or the governing board of a district has employed a person in a position requiring certification qualifications, or the county superintendent has drawn an order for a warrant in favor of a person in a position requiring certification qualifications, for a period of service during which the person did not have a valid credential required for such position in force as required by law, and when as a result thereof the employment of the person to render such service, the rendering of such service, the inclusion of the attendance of pupils taught by the person in the average daily attendance of the district, or the drawing of the order warrant for the service of such person, is in violation of Sections 46300, 44830, 45034 or any other provision of this code, such employment, rendering of service,

inclusion of attendance, or drawing of the order for the warrant shall be deemed fully legal for all purposes if the State Board of Education approves thereof in accordance with this section.

The State Board of Education shall adopt rules and regulations to establish procedures for a review in such cases and shall determine whether the rendering of such service shall be approved and made fully legal for all purposes. If the board gives its approval to the rendering of such service, then such employment, inclusion of attendance, and drawing of the order for the warrant shall be automatically approved and made fully legal for all purposes.

The board shall not approve of the rendering of such service unless it determines that the person rendering the service had, in fact, the necessary qualifications, during the period of service in question, for the credential required by law for the position in which the service was rendered, and unless a valid credential required for such position has been issued to such person prior to review and action by the board.

In amending this section at the 1964 First Extraordinary Session of the Legislature, it is the intent of the Legislature to allow the State Board of Education to review cases involving service rendered prior to the effective date of such amendment in accordance with the provisions of this section as amended by such session.

45037. Notwithstanding any other provision of law, if prior to September 18, 1959 any certificated employee of any school district is discharged from a position requiring certification qualifications contrary to the provisions of this code and is thereafter restored to his position pursuant to judicial proceedings in a court of competent jurisdiction, the governing board of the school district may pay such employee an amount equal to the amount which would have been paid to such employee from the date of such discharge to the date of his restoration to his position, irrespective of whether such employee was the holder of a valid certification document during the period of such unlawful removal from his position.

45038. The governing board of any school district may arrange to pay the persons in positions requiring certification qualifications employed by it, or any one or more of such employees or one or more groups or categories of such employees, in either 10 or 11 or 12 equal payments instead of by the school month.

In lieu thereof, orders for the payment of salary, and payroll orders for the payment of salary and warrants for the payment of salary of employees employed in positions requiring certification qualifications may be drawn once each two weeks, twice a month, or once each four weeks as determined by the governing board.

45039. Where the governing board of any school district arranges to pay persons employed by it in 12 equal payments for the year, it may pay each monthly installment at the end of each calendar month, whether or not the persons are actually engaged in teaching during the month.

45040. The governing board of any school district not paying the

annual salaries of persons employed by the district in 12 equal monthly payments may withhold from each payment made to each employee an amount equal to 16% percent thereof.

The total of the amounts deducted from the salary of any employee during any school year shall be paid to him in two equal installments, one installment to be paid not later than the fifth day of August next succeeding, and one installment to be paid not later than the fifth day of September next succeeding.

In the event any employee leaves the service of the district by death or otherwise before receiving such moneys as may be due him, the amount due him shall be paid within 30 days to him or to any other person entitled thereto by law.

45041. A person in a position requiring certification qualifications who serves less than a full school year shall receive as salary only an amount that bears the same ratio to the established annual salary for the position as the number of working days he serves bears to the total number of working days plus institutes in the annual school term, and any other day when the employee is required by the governing board to be present at the schools of the district. Notwithstanding any provisions of this section to the contrary, a person in a position requiring certification qualifications who serves a complete semester shall receive not less than one-half of the established annual salary for the position. This section shall not be so construed as to prevent the payment of compensation to a person while on leave of absence when the payment of the compensation is authorized by law.

In the event any such person dies during the school year, his estate shall be entitled to receive, as salary owed to the decedent, an amount that bears the same ratio to the established annual salary for the position as the number of working days he served bears to the total number of working days plus institutes in the annual school term, and any other day when the employee was required by the governing board to be present at the schools of the district, less any salary paid to the decedent prior to his death.

45042. Notwithstanding the provisions of Section 45041, the governing board of a school district may adopt an alternative method of computing the salary received by a person requiring certification qualifications who serves less than a full school year.

Such method shall include the deduction from the employee's regular salary of only that amount actually paid to a substitute or, if a substitute is not employed, the amount which would have been paid to a substitute had a substitute been employed.

For the purposes of this section, the amount which would have been paid to a substitute is that amount established by the district in a published salary schedule for substitute employees.

Such alternative method shall only be applied upon authorization by the school board based upon individual employee application and shall be limited to no more than five days per school year for each employee.

45043. Notwithstanding the provisions of Section 45041 or any other provision of law to the contrary, if a person is employed by a school district in a position requiring certification qualifications at the beginning of the second semester of a school year for services during that semester, the compensation of such employee shall be not less than one-half of the annual compensation for that position.

45044. Whenever a salary schedule increasing the salaries of its certificated employees is adopted by a school district to be effective at the commencement of the second semester of a school year:

(a) The compensation of such employees shall not exceed one-half of the annual compensation for their positions under the former salary schedule for services during the first semester.

(b) The compensation of such employees shall not be less than one-half of the annual compensation for their positions under the newly adopted salary schedule for services during the second semester.

This section shall not be construed to limit the time at which any salary increase ordered by the governing board shall become effective.

45045. When a school district operates on a year-round schedule pursuant to Chapter 5 (commencing with Section 37600) of Part 22 of this division, the salary of an employee who is employed for the extended school year and who previously had been assigned to a 9- or 10-month teaching position in the same district shall be adjusted in accordance with the ratio of the extension in the number of days expected to be taught by said employee to the number of days expected to be taught by employees in the district in the school year prior to the commencement of year-round operation.

A full-time probationary or permanent classroom teacher currently employed by a school district which converts to a continuous school program shall not, without his written consent, be required to teach under such program more than 180 days during a school year, or more than the number of days the schools of the district were maintained during the year preceding implementation of the continuous school program, whichever is the greater. This section shall not be construed as limiting the power of school district governing boards to govern the schools of the district, including the assignment of teachers employed by the district.

45046. Except as otherwise provided in Section 45045, the governing board of a school district in which a continuous school program is in operation pursuant to Chapter 5 (commencing with Section 37600) of Part 22 of this division, but in fewer than all of the schools in the district or with fewer than all of the certificated employees participating therein, and in which revised salary schedules become effective on a date other than July 1, may adjust the salaries of certificated employees participating in the continuous school program so that the total amount payable to each such employee in a school year does not differ from the salary which would be payable to him over such a period if he were not

participating in the program.

45047. Service on a commission on professional competence pursuant to Section 44944, in the employing school district or in some other district, by a person employed by a district in a position requiring certification qualifications shall not be considered time off job with respect to Section 45041. Neither the amount paid to a substitute required to be hired to replace such a person serving on a commission on professional competence pursuant to Section 44945 in the employing school district or in some other district nor the amount which would have been paid to a substitute had a substitute been employed, shall be deducted from the person's salary pursuant to Section 45042.

45048. Each salary payment for any calendar month may be made on the last working day of the month and shall be paid not earlier than the last working day of the month and not later than the fifth day of the succeeding calendar month except that teachers employed for less than full time in classes for adults, in a day or evening high school, in a day or evening community college, or in a special day or evening class maintained in connection with an elementary school shall be paid on or before the 10th day of the succeeding calendar month for services performed during the preceding calendar month.

If the school district provides for the payment of the salary of employees employed in positions requiring certification qualifications once each two weeks, twice a month, or once each four weeks, pursuant to Section 45038, each salary payment may be made on the last working day of the payroll period and shall be made not earlier than the last working day of the payroll period and not later than the eighth working day of the following payroll period.

This section shall not prohibit a school district from making a payment of earned salary prior to the last working day of the month or payroll period.

45049. When any school district employs a certificated employee to perform teaching or other services in addition to his regular teaching duties, or when a school district employs a certificated employee to perform teaching or other services at a summer school maintained by the district, the district shall pay the employee for such services either in one lump sum or at an hourly, daily, biweekly, quadriweekly, or monthly rate of pay. If the pay is in one lump sum, the district shall pay the employee within 10 days after the termination of the services. If the pay is at an hourly, daily, biweekly, quadriweekly or monthly rate, the district shall pay the employee within 10 days after the end of each calendar month or pay period during which the services are performed.

45050. Instead of issuing a single warrant to each employee for salary or wages the district may use a payroll form of warrant making payment to two or more employees on one payroll warrant.

45051. When the payroll form of warrant is used, the approved and allowed payroll warrant shall be deposited with the county

treasurer, who shall make payment to the employee or his order.

45052. When the payroll form of warrant is used the name of each employee shall be listed.

45053. The governing board of each school district shall pay to each person employed in a day school of the district for full time in a position requiring certification qualifications and serving under other than an emergency or provisional credential an annual salary of not less than six thousand dollars (\$6,000).

The governing board of each school district shall pay to each person employed for less than full time in a position requiring certification qualifications and serving under other than an emergency or provisional credential an annual salary of not less than an amount which bears the same ratio to six thousand dollars (\$6,000) as the time required of the person bears to the time required of a person employed full time.

“Full time” means not less than the minimum schoolday for each day the schools of the district are maintained during the school year.

The provisions of this section shall not be construed as applying to substitute employees of a school district or to persons employed exclusively to teach driver training who possess only a standard designated subjects teaching credential in public safety and accident prevention.

45054. The governing board of each school district shall pay to each person employed in a day school of the district for full time in a position requiring certification qualifications and serving under an emergency credential or provisional credential an annual salary of not less than two thousand four hundred dollars (\$2,400).

The governing board of each school district shall pay to each person employed for less than full time in a position requiring certification qualifications and serving under an emergency credential or provisional credential an annual salary of not less than an amount which bears the same ratio to two thousand four hundred dollars (\$2,400) as the time required of the person bears to the time required of a person employed full time.

“Full time” means not less than the minimum schoolday for each day the schools of the district are maintained during the school year.

The provisions of this section shall not be construed as applying to substitute employees of a school district.

45055. Except as otherwise provided in this code, no warrant shall be drawn in favor of any teacher, unless the officer whose duty it is to draw the warrant is satisfied that the teacher has faithfully performed all the duties prescribed.

45056. Whenever a person is employed by two or more districts under the jurisdiction of a single county superintendent of schools, the governing boards of the districts may authorize, in writing, the county superintendent of schools to act as their agent in the payment of the salaries due such person from the districts. If such authorization is given, the county superintendent of schools may draw a warrant on the county school service fund in payment of the

total salaries due such person and shall immediately draw requisitions in favor of the county school service fund against the proper funds of each district for the amount paid by him to such person on account of such district.

45057. The salary payment due a certificated employee for his last month of service in any district during any fiscal year shall not be approved by the county superintendent of schools until all reports required from the employee have been filed with said superintendent.

45058. Whenever reports are required to be filed with the county superintendent of schools by certificated employees of districts authorized to issue warrants under the provision of Section 42647 and such reports have not been filed, the county superintendent of schools may direct the district in writing to withhold the salary payment due the certificated employee involved. Said payment should not be released to the certificated employee until directed in writing by the county superintendent of schools.

45059. For the purposes of Military and Veterans Code Section 395 or any other provision of law providing for the payment of salary or compensation as such employee to an employee of a school district while absent from duty because engaged in ordered military or naval duty, his salary or compensation as such employee for 30 days shall (a) with respect to an employee serving in a position requiring certification qualifications be deemed to be one-tenth of the annual salary established for such position and (b) with respect to an employee serving in a position not requiring certification qualifications be deemed to be one month's salary.

45060. The governing board of each school district when drawing an order for the salary payment due to a certificated employee of the district, shall with or without charge reduce the order by the amount which it has been requested in a revocable written authorization by the employee to deduct for the purpose of paying the dues of the employee for membership in any local professional organization or in any statewide professional organization, or in any other professional organization affiliated or otherwise connected with a statewide professional organization which authorizes such statewide organization to receive membership dues on its behalf and for the purpose of paying his pro rata share of the costs incurred by the district in making the deduction. No charge shall exceed the actual cost to the district for such dues deduction. Any revocation of a written authorization shall be in writing and shall be effective commencing with the next pay period. The governing board shall each month draw its order upon the funds of the district in favor of the organization designated by the employee for an amount equal to the total of the dues deductions made with respect to such organization during the month. The district shall retain and deposit in the general fund of the district the total amounts deducted from the employee's salary payment for the purpose of paying the employee's pro rata share of the costs incurred by the district in

making the dues deductions provided for in this section. If the employees of a district do not authorize the board to make a deduction to pay their pro rata share of the costs of making deductions for the payment of dues, the board shall deduct from the amount transmitted to the organization on whose account the dues payments were deducted the actual costs of making such deduction.

## CHAPTER 5. CLASSIFIED EMPLOYEES

### Article 1. Employment

45100. Article 2 (commencing with Section 10340) of Chapter 4 of Part 7 of Division 1, of Title 1, Articles 1 to 5, inclusive (commencing with Section 45100), Article 7 (commencing with Section 45340) of this chapter, and the applicable provisions of Sections 44047, 44048, Article 1 (commencing with Section 7000) of Chapter 1, Article 1 (commencing with Section 7100) of Chapter 2 of Part 5, of Division 1, of Title 1, Chapter 1 (commencing with Section 44000) of this part shall apply to all classified employees of a school district, including those authorized in Sections 35025, 35041, and 35045, whether a merit or nonmerit system district as authorized by this chapter unless the section specifically limits its application to nonmerit system districts. These provisions shall also apply to all persons who are part of the classified service who are employed by the county superintendent of schools, or any division thereof, and whose salaries are paid out of the county school service fund regardless of the origin of such fund moneys, and to all persons employed by any entity, including a regional occupational center or program, created or established by any two or more school districts pursuant to statute, including Chapter 14 (commencing with Section 7450) of Division 6, exercising any joint power pursuant to Article 1 (commencing with Section 6500) of Chapter 5 of Division 7 of Title 1 of the Government Code, or as otherwise conferred by law upon such districts.

These provisions shall not apply to employees of a school district lying wholly within a city and county which provides in its charter for a merit system of employment for employees employed in positions not requiring certification qualifications.

The positions authorized in Sections 35025, 35041, and 35045 may, by resolution of a governing board, be exempted from the provisions of Article 6 (commencing with Section 45240) of this chapter.

45101. Definitions as used in this chapter:

(a) "Classification" means that each position in the classified service shall have a designated title, a regular minimum number of assigned hours per day, days per week, and months per year, a specific statement of the duties required to be performed by the employees in each such position, and the regular monthly salary ranges for each such position.

(b) "Permanent" as used in the phrase "permanent employee"

includes tenure in the classification in which the employee passed the required probationary period, and includes all of the incidents of that classification.

(c) "Regular" as used in the phrase "regular classified employee" or any similar phrase, refers to a classified employee who has probationary or permanent status.

(d) "Demotion" means assignment to an inferior position or status, without the employee's written voluntary consent.

(e) "Disciplinary action" includes any action whereby an employee is deprived of any classification or any incident of any classification in which he has permanence, including dismissal, suspension, demotion, or any reassignment, without his voluntary consent, except a layoff for lack of work or lack of funds.

(f) "Reclassification" means the upgrading of a position to a higher classification as a result of the gradual increase of the duties being performed by the incumbent in such position.

(g) "Layoff for lack of funds or layoff for lack of work" includes any reduction in hours of employment or assignment to a class or grade lower than that in which the employee has permanence, voluntarily consented to by the employee, in order to avoid interruption of employment by layoff.

(h) "Cause" relating to disciplinary actions against classified employees means those grounds for discipline, or offenses, enumerated in the law or the written rules of a public school employer. No disciplinary action may be maintained for any "cause" other than as defined herein.

The provisions of this section shall not apply to school districts to which the provisions of Article 6 (commencing with Section 45240) of this chapter are applicable.

The provisions of this section shall not apply to any school district which, during the 1973-74 school year, had an average daily attendance of 100,000 or more.

45102. For the purposes of this section every classified employee shall be deemed to be employed for 12 months during each school year regardless of the number of months in which he is normally in paid status. Any school district which, in any school year, maintains school sessions at times other than during the regular September-June academic year shall assign for service during such times regular classified employees of the district. When it is necessary to assign classified employees not regularly so assigned to serve between the end of one academic year and the commencement of another, such assignment shall be made on the basis of qualifications for employment in each classification of service which is required. No classified employee whose regular yearly assignment for service excludes all, or any part of, the period between the end of the academic year in June to the beginning of the next academic year in September, shall be required to perform services during such period. A classified employee shall, for services performed as herein provided, receive, on a pro rata basis, not less

than the compensation and benefits which are applicable to that classification during the regular academic year.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 6 (commencing with Section 45240) of this chapter.

45103. The governing board of any school district shall employ persons for positions not requiring certification qualifications. The governing board shall, except where Article 6 (commencing with Section 45240) of this chapter or Section 45318 applies, classify all such employees and positions. The employees and positions shall be known as the classified service. Substitute and short-term employees, employed and paid for less than 75 percent of a school year, shall not be a part of the classified service. Part-time playground positions, apprentices and professional experts employed on a temporary basis for a specific project, regardless of length of employment, shall not be a part of the classified service. Full-time students employed part time, and part-time students employed part time in any college work-study program, or in a work experience education program conducted by a community college district pursuant to Article 7 (commencing with Section 51760) of Chapter 5 of Part 28, of Division 4, of this title and which is financed by state or federal funds, shall not be a part of the classified service.

The term "short-term employees" as used in this section shall be construed to mean any person who is employed to perform a service for the district, upon the completion of which, the service required or similar services will not be extended or needed on a continuing basis.

"Seventy-five percent of a school year" means 195 working days, including holidays, sick leave, vacation and other leaves of absences, irrespective of number of hours worked per day.

Employment of either full-time or part-time students in any college work-study program, or in a work experience education program shall not result in the displacement of classified personnel or impair existing contracts for services.

This section shall apply only to districts not incorporating the merit system as outlined in Article 6 (commencing with Section 45240) of this chapter.

45104. Every position not defined by this code as a position requiring certification qualifications and not specifically exempted from the classified service according to the provisions of Section 45103 or 45256 shall be classified as required by those sections and shall be a part of the classified service. Such positions may not be designated as certificated nor shall the assignment of a title to any such a position remove the position from the classified service, nor shall possession of a certification document be made a requirement for employment in any such position.

Nothing in this section shall be construed to prohibit the employment of any individual in a position described by this section as part of the classified service who is in possession of certification

qualifications, nor shall the possession of certification qualifications be grounds for the elimination of an individual for consideration for employment in such a position.

This section shall apply to districts which have adopted the merit system in the same manner and with the same effect as though it were a part of Article 6 (commencing with Section 45240) of this chapter.

45105. (a) Positions not requiring certification qualifications created by a governing board of a school district under the Manpower Development and Training Act of 1962, the Economic Opportunity Act of 1964, the Elementary and Secondary Education Act of 1965, or Section 11300 or Section 13650 of the Welfare and Institutions Code, any future federal or state legislative enactment, or any other special funding, and which are not a part of the regular school program shall, nevertheless, be a part of the classified service as established by Section 45103 or Section 45256 of this code.

Persons employed in such positions shall be classified employees and shall enjoy all of the rights, burdens and benefits accorded other classified employees. Their selection and retention shall be made on the same basis as that of persons selected for positions that are a part of the regular school program.

(b) Notwithstanding the provisions of subdivision (a), if specially funded positions are restricted to employment of persons in low-income groups, from designated impoverished areas and other criteria which restricts the privilege of all citizens to compete for employment in such positions, all such positions shall, in addition to the regular class title, be classified as "restricted." Their selection and retention shall be made on the same basis as that of persons selected and retained in positions that are a part of the regular school program, except that persons employed in the following categories of restricted positions shall not be subject to the provisions of Section 45272 or 45273:

(a) The position of instructional aide, as defined in Section 45343.

(b) Any other position involving personal contacts with pupils or parents that is established to assist school-staff personnel responsible for school-community relations; educational support services for such areas as counseling, library or health; or the correction or prevention of behavioral problems.

Persons employed in positions properly classified as "restricted" shall be classified employees for all purposes except:

(1) They shall not be accorded employment permanency under Section 45113 or Section 45301 of this code, whichever is applicable.

(2) They shall not acquire seniority credits for the purposes of Sections 45298 and 45308 of this code or, in a district not having the merit (civil service) system, for the purposes of layoff for lack of work or lack of funds as may be established by rule of the governing board.

(3) The provisions of Sections 45287 and 45289 shall not apply to "restricted" employees.

(4) They shall not be eligible for promotion into the regular classified service or, in districts that have adopted the merit system, shall not be subject to the provisions of Section 45241, until they have complied with the provisions of subdivision (c).

(c) At any time, after completion of six months of satisfactory service, a person serving in a "restricted" position shall be given the opportunity to take such qualifying examinations as are required for all other persons serving in the same class in the regular classified service. If such person satisfactorily completes the qualifying examination, regardless of final numerical listing on an eligibility list, he shall be accorded full rights, benefits and burdens of any other classified employee serving in the regular classified service. His service in the regular classified service shall be counted from the original date of employment in the "restricted" position and shall continue even though he continues to serve in a "restricted" position.

(d) This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 6 (commencing with Section 45240) of this chapter.

(e) It is the intent of the Legislature in enacting this section to clearly set forth that positions normally a part of the classified service are included therein regardless of the source of income to sustain such positions and to effectively implement specially funded programs intended to provide job opportunities for untrained and impoverished persons but to do so in a manner that will not be disruptive nor detrimental to the normal employment procedures relating to classified school service.

45106. Notwithstanding the provisions of Section 45103 or Section 45256, which exempt certain types of positions or categories of personnel from the classified service of a school district, persons serving in exempt positions or who serve in classified positions but are exempted from the classified service shall, nevertheless, be subject to the provisions of Sections 45122 to 45125, inclusive, and Section 49406. The governing board of every school district shall, by rule or regulation, provide for the implementation of this section.

The provisions of this section shall not apply to full-time day students regularly attending in the district of employment.

45107. (a) The "act" as used in this section shall mean the Federal Emergency Employment Act of 1971 (Public Law 92-54) or any similar federal law hereafter enacted to provide transitional employment in public service positions for unemployed or underemployed persons.

(b) Funds derived from the act shall not be expended for work that: (1) would otherwise have been performed at federal, state, or local expense; (2) will not result in an increase over the employment which would otherwise be available; (3) which will result in the displacement of permanent members of the classified service (including partial displacement, such as reduction in the hours of nonovertime work or wages or employment benefits); (4) or which

will impair existing rights of permanent members of the classified service.

(c) If during the term of a contract or renewal thereof, executed under the act, a school district is engaged in layoffs for lack of work or lack of funds of permanent classified employees serving in regular positions and is employing personnel or contemplates employing personnel in like or reasonably similar positions under the act, a report shall be submitted by the superintendent of schools to the governing board clearly demonstrating and substantiating the fact that the duties being performed by the permanent employees in regular positions who are being laid off will not be performed by personnel employed under the act.

Approval of the report by the governing board shall constitute its acceptance of the facts, as contained therein, and based thereon its affirmation of compliance with the contract executed under the act and this section.

This section shall apply to districts which have adopted the merit system in the same manner and with the same effect as though it were a part of Article 6 (commencing with Section 45240) of this chapter.

45108. If the governing board of any school district establishes positions in the categories described below and restricts initial appointments of new employees to persons in low-income groups or residing in specifically designated areas of the community, then such positions shall, in addition to the regular class title, be classified as "restricted." The positions shall be part of the classified service and persons so employed shall be classified employees for all purposes except that (1) they shall not be subject to the provisions of Section 45272 or 45273, and (2) they shall not acquire permanent status or seniority credit and shall not be eligible for promotion into the regular classified service until they have complied with the provisions of subdivision (c) of Section 45105.

The categories of positions for which the governing board may establish restrictions under this section are:

(a) The position of instructional aide, as defined in Section 45343.

(b) Any other position involving personal contacts with pupils or parents, that is established to assist school staff personnel responsible for school-community relations; educational support services for such areas as counseling, library, or health; or the correction or prevention of behavioral problems.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 6 (commencing with Section 45240) of this chapter.

This section shall remain in effect only until January 31, 1979, and as of that date is repealed.

45109. Governing boards shall fix and prescribe the duties to be performed by all persons in the classified service and other positions not requiring certification qualifications of the school district, except those persons employed as a part of a personnel commission staff as

provided in Article 6 (commencing with Section 45240) of this chapter.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 6 (commencing with Section 45240) of this chapter.

45110. Classified employees shall not be required to perform duties which are not fixed and prescribed for the position by the governing board in accordance with Section 45109, unless the duties reasonably relate to those fixed for the position by the board, for any period of time which exceeds five working days within a 15-calendar-day period except as authorized herein.

An employee may be required to perform duties inconsistent with those assigned to the position by the governing board for a period of more than five working days provided that his salary is adjusted upward for the entire period he is required to work out of classification and in such amounts as will reasonably reflect the duties required to be performed outside his normal assigned duties.

Notwithstanding the provisions of this section, a personnel commission and governing board, or a governing board in a nonmerit system district, may, by written rule, provide for an upward salary adjustment for any classified employee required to work out of classification for any period of time less than that required herein.

It is the intent of this section to permit school districts to temporarily work employees outside of their normal duties but in so doing to require that some additional compensation be provided the employee during such temporary assignments.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 6 (commencing with Section 45240) of this chapter.

45111. No school district may adopt or maintain any rule or regulation which requires a candidate for a position in the classified service to be a resident of the district or to become a resident of the district, or which requires that an employee maintain residency within the district; nor may a district grant preferential points or other preferential treatment to those candidates or employees who are residents of the district. This section shall not apply to restricted positions as provided for in Sections 45105 and 45103.

The Legislature in enacting this section recognizes that the public school system of this state is the property of all its citizens, and that all qualified candidates for positions in the classified service, regardless of residence, should be granted the opportunity to compete for and obtain such positions based solely on merit and fitness.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 6 (commencing with Section 45240) of this chapter.

45112. If the governing board of any school district employs staff assistants or field representatives to directly assist the governing

board or individual governing board members in carrying out their policymaking duties, such assistants or representatives shall be members of the classified service, except that such assistants or representatives shall be exempt from all provisions of this code relating to obtaining a permanent status in any position in the district, and procedures pertaining to the recruitment, appointment, classification, and salary of members of the classified service.

Staff assistants shall serve at the pleasure of a majority of the governing board, and each field representative appointed by the governing board to assist an individual member shall serve at the pleasure of such member.

It is the intent of the Legislature that persons employed under Section 45112 will not be utilized for election campaigns of board members during hours of their employment.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 6 (commencing with Section 45240) of this chapter.

45113. The governing board of a school district shall prescribe written rules and regulations, governing the personnel management of the classified service, which shall be printed and made available to employees in the classified service, the public, and those concerned with the administration of this section, whereby such employees are designated as permanent employees of the district after serving a prescribed period of probation which shall not exceed one year.

Any employee designated as a permanent employee shall be subject to disciplinary action only for cause as prescribed by rule or regulation of the governing board, but the governing board's determination of the sufficiency of the cause for disciplinary action shall be conclusive.

The governing board shall adopt rules of procedure for disciplinary proceedings which shall contain a provision for informing the employee by written notice of the specific charges against him, a statement of his right to a hearing on such charges, and the time within which such hearing may be requested which shall be not less than five days after service of the notice to the employee, and a card or paper, the signing and filing of which shall constitute a demand for hearing, and a denial of all charges. The burden of proof shall remain with the governing board, and any rule or regulation to the contrary shall be void.

No disciplinary action shall be taken for any cause which arose prior to the employee's becoming permanent, nor for any cause which arose more than two years preceding the date of the filing of the notice of cause unless such cause was concealed or not disclosed by such employee when it could be reasonably assumed that the employee should have disclosed the facts to the employing district.

This section shall apply only to districts not incorporating the merit system as outlined in Article 6 (commencing with Section 45240) of this chapter.

45114. Notwithstanding the provisions of Section 45113, the governing board may lay off and reemploy classified employees only in accordance with procedures provided by Sections 45298 and 45308, except the term "personnel commission" therein shall be construed to mean the governing board. "Governing board" as used in this section shall include districts governed by a common board or by different boards but with a common administration. Employees in common board or common administration districts shall, for the purpose of layoff for lack of work or funds, be considered as having been employed in a single district.

45115. Notwithstanding any other provision of law, any person who was subject to being, or was in fact, laid off for lack of work or lack of funds and who elected service retirement from the Public Employees' Retirement System shall be placed on an appropriate reemployment list. The district shall notify the Board of Administration of the Public Employees' Retirement System of the fact that retirement was due to layoff for lack of work or of funds. If he is subsequently subject to reemployment and accepts, in writing, the appropriate vacant position, the district shall maintain the vacancy until the Board of Administration of the Public Employees' Retirement System has properly processed his request for reinstatement from retirement.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 6 (commencing with Section 45240) of this chapter.

45116. A notice of disciplinary action shall contain a statement in ordinary and concise language of the specific acts and omissions upon which the disciplinary action is based, a statement of the cause for the action taken and, if it is claimed that an employee has violated a rule or regulation of the public school employer, such rule or regulation shall be set forth in said notice.

A notice of disciplinary action stating one or more causes or grounds for disciplinary action established by any rule, regulation, or statute in the language of the rule, regulation, or statute, is insufficient for any purpose.

A proceeding may be brought by, or on behalf of, the employee to restrain any further proceedings under any notice of disciplinary action violative of this provision.

This section shall apply to proceedings conducted under the provisions of Article 6 (commencing with Section 45240) of this chapter.

45117. (a) When, as a result of the expiration of a specially funded program, classified positions must be eliminated at the end of any school year, and classified employees will be subject to layoff for lack of funds, the employees to be laid off at the end of such school year shall be given written notice on or before May 29 informing them of their layoff effective at the end of such school year and of their displacement rights, if any, and reemployment rights. However, if the termination date of any specially funded program is

other than June 30, such notice shall be given not less than 30 days prior to the effective date of their layoff.

(b) When, as a result of a bona fide reduction or elimination of the service being performed by any department, classified employees shall be subject to layoff for lack of work, affected employees shall be given notice of layoff not less than 30 days prior to the effective date of layoff, and informed of their displacement rights, if any, and reemployment rights.

(c) Nothing herein provided shall preclude a layoff for lack of funds in the event of an actual and existing financial inability to pay salaries of classified employees, nor layoff for lack of work resulting from causes not foreseeable or preventable by the governing board, without the notice required by subsection (a) or (b) hereof.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 6 (commencing with Section 45240) of this chapter.

45118. Any division, uniting, unionization, annexation, merger, or change of school district boundaries shall not affect the rights of persons employed in positions not requiring certification qualifications to continue in employment for not less than two years and to retain the salary, leaves and other benefits which they would have had had the reorganization not occurred, and in the manner provided in this article:

(a) All employees of every school district which is included in any other district, or all districts included in a new district, shall become employees of the new district.

(b) When a portion of the territory of any district becomes part of another district employees regularly assigned to perform their duties in the territory affected shall become employees of the acquiring district. Employees whose assignments pertained to the affected territory, but whose employment situs was not in such territory, may elect to remain with the original district or become employees of the acquiring district.

(c) When the territory of any district is divided between or among two or more districts and the original district ceases to exist, employees of the original district regularly assigned to perform their duties in any specific territory of such district shall become employees of the district acquiring the territory. Employees not assigned to specific territory within the original district shall become employees of any acquiring district at their election.

(d) Employees regularly assigned by the original district to any school in said district shall be an employee of the district in which said school is located. Except as herein provided, nothing herein shall deprive the governing board of the acquiring district from making reasonable reassignments of duties.

45119. Whenever, by reason of any reorganization, other than the unification of districts, all or part of the territory of any school district which has adopted the merit system is included within any district, or in any new district, the governing board of the acquiring or new

district shall adopt such merit system. In the event that any district simultaneously acquires all or part of the territory of two or more districts which have previously adopted the merit system, the governing board of the acquiring or new district shall adopt a merit system containing such provisions as are necessary to afford to all employees the rights guaranteed by this section. The employees of the reorganized or new district shall retain all rights and privileges as if they had been employed under the provisions of Article 6 (commencing with Section 45240) of this chapter, with seniority commencing as of the date of original employment in their original district. Where there are more than a sufficient number of employees for a given classification under the provisions of Article 6 (commencing with Section 45240) of this chapter, such personnel shall be retained in employment for a period of not less than two years as if the reorganization had not occurred but without prejudice to the powers of the personnel commission and governing board of the reorganized district to reasonably reassign such persons. If at the expiration of such period, upon a finding made by the personnel commission that there are excess personnel in any given classification, such personnel shall, if the governing board so directs, be placed upon appropriate reemployment lists for 39 months and, if so placed, shall be offered and may accept positions of lower rank in their line of promotion in the order of seniority as established by this section in accordance with rules drawn in compliance with the provisions of Article 6 (commencing with Section 45240) of this chapter. The acceptance of a position in lower rank in accordance herewith shall not be deemed to constitute a waiver of the right to reemployment at the original level should a vacancy at such level occur within the period mentioned in this section.

45120. If all or any part of any district or districts which is unified with all or any part of a district, has, or have, the merit system prior to the date of the reorganization election, all employees not legally requiring certification qualifications of the reorganized district shall be employed in accordance with Article 6 (commencing with Section 45240) of this chapter. If on the date of such reorganization election, two or more of the said defined districts of such reorganized district have merit systems, the reorganized district shall adopt a single merit system which shall contain all provisions necessary to secure to all employees the rights guaranteed by Section 45121 of this code.

Seniority of the personnel of the reorganized district shall be established as of the date of original employment in the district or districts as defined above. Where there are more than a sufficient number of employees for a given classification under the provisions of Article 6 (commencing with Section 45240) of this chapter, such personnel shall be retained in employment for a period of not less than two years as if the reorganization had not occurred but without prejudice to the powers of the personnel commission and the governing board of the new unified district to reasonably reassign

such person. If at the expiration of such period, upon a finding made by the personnel commission that there are excess personnel in any given classification, such personnel shall, if the governing board so directs, be placed upon appropriate reemployment lists for 39 months, and shall, if so placed, be offered and may accept positions of lower rank in their line of promotion in the order of seniority as established by this section in accordance with rules drawn in compliance with the provisions of Article 6 (commencing with Section 45240) of this chapter. The acceptance of a position in lower rank in accordance herewith shall not be deemed to constitute a waiver of the right to reemployment at the original level should a vacancy at such level occur within the period mentioned in this section.

45121. Persons employed in positions not requiring certification qualifications in districts, all or part of whose territory is included in a unification of districts, shall continue as employees of the unified school district for not less than two years, and shall not, by reason of any unification, be deprived of any benefit which they would have had had the unification not taken place. In determining the rights of such employees, their salaries, accumulated leaves, and other rights shall be determined as of the date the unification election was conducted. No increase in benefits not previously conferred, granted by the governing board of any district, all or part of whose territory is included in a unification of districts, after such unification election, shall be binding on the governing board of the unified district, except that benefits granted in the districts comprising the new unified district which does not become effective until the second succeeding first day of July shall be binding on the governing board of the unified district. Nothing herein contained shall preclude the governing board of the unified school district from making any reasonable reassignment of the duties of such employees. The governing board of the unified district shall establish a system of uniform salaries, employee benefits and working conditions for employees performing like services in conformity with the provisions of this section.

45122. Whenever a governing board of a school district requires a physical examination to be taken by a classified employee or employees, either by rule or by its direction or the direction of its authorized district administrator; or when classified employees are required by law to submit to a physical examination for continuance in employment, the board shall either provide the required examination, cause it to be provided, or provide the employee with reasonable reimbursement for the required examination.

If the governing board requires a physical examination or an examination is required by law as a condition of preemployment, it may cause the required examination to be given. It may, if an applicant is required to take a preemployment physical examination, provide for reasonable reimbursement if the applicant is subsequently employed by the district.

The provisions of this section are not intended to supersede the provisions of Section 44014 of this code.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 6 (commencing with Section 45240) of this chapter.

45123. No person shall be employed or retained in employment by a school district who has been convicted of any sex offense as defined in Section 44010 or narcotics offense as defined in Section 44011. If, however, any such conviction is reversed and the person is acquitted of the offense in a new trial or the charges against him are dismissed, this section does not prohibit his employment thereafter.

Nothing in this section shall prohibit the employment by a school district of a person convicted of a narcotics offense involving the use or possession of marijuana if the governing board of the school district determines, from the evidence presented, that the person has been rehabilitated for at least five years.

The governing board shall determine the type and manner of presentation of the evidence, and the determination of the governing board as to whether or not the person has been rehabilitated is final.

45124. No person shall be employed or retained in employment by a school district who has been determined to be a sexual psychopath under the provisions of Article 1 (commencing with Section 6300), Chapter 2, Part 2, Division 6 of the Welfare and Institutions Code or under similar provisions of law of any other state. If, however, such determination is reversed and the person is determined not to be a sexual psychopath in a new proceeding or the proceeding to determine whether he is a sexual psychopath is dismissed, this section does not prohibit his employment thereafter.

45125. The governing board of any school district shall, within 10 working days of date of employment, require each person to be employed, or employed in, a position not requiring certification qualifications to have two 8" x 8" fingerprint cards bearing the legible rolled and flat impressions of such person's fingerprints together with a personal description of the applicant or employee, as the case may be, prepared by a local public law enforcement agency having jurisdiction in the area of the school district, which agency shall transmit such cards, together with the fee hereinafter specified, to the Department of Justice; except that a district, or districts with a common board, having an average daily attendance of 60,000 or more may process the fingerprint cards in the event the district so elects. "Local public law enforcement agency" as used herein and in Section 45126 includes a school district with an average daily attendance of 60,000 or more. Upon receiving such identification cards, the Department of Justice shall ascertain whether the applicant or employee has been arrested or convicted of any crime insofar as such fact can be ascertained from information available to the department and forward such information to the local public law enforcement agency submitting the applicant's or

employee's fingerprints at the earliest possible date. At its discretion, the Department of Justice may forward one copy of the fingerprint cards submitted to any other bureau of investigation it may deem necessary in order to verify any record of previous arrests or convictions of the applicant or employee.

The governing board of each district shall forward a request to the Department of Justice indicating the number of current employees who have not completed the requirements of this section. The Department of Justice shall direct when such cards are to be forwarded to it for processing which in no event shall be later than two years from the date of enactment of this section. Districts which have previously submitted identification cards for current employees to either the Department of Justice or the Federal Bureau of Investigation shall not be required to further implement the provisions of this section as it applies to those employees.

A plea or verdict of guilty or a finding of guilt by a court in a trial without a jury or forfeiture of bail is deemed to be a conviction within the meaning of this section, irrespective of a subsequent order under the provisions of Section 1203.4 of the Penal Code allowing the withdrawal of the plea of guilty and entering of a plea of not guilty, or setting aside the verdict of guilty, or dismissing the accusations or information.

The governing board shall provide the means whereby the identification cards may be completed and shall charge a fee determined by the Department of Justice to be sufficient to reimburse the department for the costs incurred in processing the application. The amount of such fee shall be forwarded to the Department of Justice, with two copies of applicant's or employee's fingerprint cards. The governing board may collect an additional fee not to exceed two dollars (\$2) payable to the local public law enforcement agency taking the fingerprints and completing the data on the fingerprint cards. Such additional fees shall be transmitted to the city or county treasury. If an applicant is subsequently hired by the board within 30 days of the application, such fee may be reimbursed to the applicant. Funds not reimbursed applicants shall be credited to the general fund of the district. If the fingerprint cards forwarded to the Department of Justice are those of a person already in the employ of the governing board, the district shall pay the fee required by this section, which fee shall be a proper charge against the general fund of the district, and no fee shall be charged the employee.

Notwithstanding the foregoing, substitute and temporary employees, employed for less than a school year, may be exempted from these provisions. The provisions of this section shall not apply to a district, or districts with a common board, which has an average daily attendance of 400,000 or greater, or to a school district wholly within a city and county, unless the governing board of such district or districts, by rule, provides for adherence to this section.

45126. Any provision of law to the contrary notwithstanding, the

Department of Justice, shall, as provided in Section 45125, furnish, upon application of a local public law enforcement agency all information pertaining to any such person of whom there is a record in its office.

45127. The workweek of a classified employee, as defined in Section 45103 or Section 45256, shall be 40 hours. The workday shall be eight hours. These provisions do not restrict the extension of a regular workday or workweek on an overtime basis when such is necessary to carry on the business of the district. Nothing in this section shall be deemed to bar the district from establishing a workday of less than eight hours or a workweek of less than 40 hours for all or any of its classified positions.

Notwithstanding the provisions of this section and Section 45128, a governing board may, with the approval of the personnel commission, where applicable, exempt specific classes of positions from compensation for overtime in excess of eight hours in one day, provided that hours worked in excess of 40 in a calendar week shall be compensated on an overtime basis. Such exemption shall be applied only to those classes which the governing board and personnel commission, where applicable, specifically find to be a subject to fluctuations in daily working hours not susceptible to administrative control, such as security patrol and recreation classes, but shall not include food service and transportation classes.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 6 (commencing with Section 45240) of this chapter.

45128. The governing board of each district shall provide the extent to which, and establish the method by which ordered overtime is compensated. The board shall provide for such compensation or compensatory time off at a rate at least equal to time and one-half the regular rate of pay of the employee designated and authorized to perform the overtime.

Overtime is defined to include any time required to be worked in excess of eight hours in any one day and in excess of 40 hours in any calendar week. If a governing board establishes a workday of less than eight hours but seven hours or more and a workweek of less than 40 hours but 35 hours or more for all of its classified positions or for certain classes of classified positions, all time worked in excess of the established workday and workweek shall be deemed to be overtime. The foregoing provisions do not apply to classified positions for which a workday of fewer than seven hours and a workweek of fewer than 35 hours has been established, nor to positions for which a workday of eight hours and a workweek of 40 hours has been established, but in which positions employees are temporarily assigned to work fewer than eight hours per day or 40 hours per week when such reduction in hours is necessary to avoid layoffs for lack of work or lack of funds and the consent of the majority of affected employees to such reduction in hours has been first obtained.

For the purpose of computing the number of hours worked, time during which an employee is excused from work because of holidays, sick leave, vacation, compensating time off, or other paid leave of absence shall be considered as time worked by the employee.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 6 (commencing with Section 45240) of this chapter.

45129. When compensatory time off is authorized in lieu of cash compensation, such compensatory time off shall be granted within 12 calendar months following the month in which the overtime was worked and without impairing the services rendered by the employing district.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 6 (commencing with Section 45240) of this chapter.

45130. Notwithstanding the provisions of Sections 45127 and 45128, a personnel commission, when applicable, or a governing board of a school district may specify certain positions or classes of positions as supervisory, administrative, or executive and exclude the employees serving in such positions and the positions from the overtime provisions.

To be excluded from such overtime provisions, the positions or classes of positions must clearly and reasonably be management positions. In approving positions or classes of positions for exclusion from the overtime provisions, the personnel commission, when applicable, or the governing board of a school district shall certify, in writing, that the duties, flexibility of hours, salary, benefit structure, and authority of the positions or classes of positions are of such a nature that they should be set apart from those positions which are subject to the overtime provisions, and that employees serving in such excluded positions or classes of positions will not be unreasonably discriminated against as a result of the exclusion.

Notwithstanding the provisions of this section, if a person serving in an excluded position is required to work on a holiday, as provided for in this code, or by action of a governing board, he shall be paid, in addition to his regular pay for the holiday, compensation, or given compensating time off, at a rate not less than his normal rate of pay.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 6 (commencing with Section 45240) of this chapter.

45131. Notwithstanding the provisions of Section 45127, the workweek shall consist of not more than five consecutive working days for any employee having an average workday of four hours or more during the workweek. Such an employee shall be compensated for any work required to be performed on the sixth or seventh day following the commencement of the workweek at the rate equal to 1½ times the regular rate of pay of the employee designated and authorized to perform the work.

An employee having an average workday of less than four hours

during a workweek shall, for any work required to be performed on the seventh day following the commencement of his workweek, be compensated for at a rate equal to  $1\frac{1}{2}$  times the regular rate of pay of the employee designated and authorized to perform the work.

Positions and employees excluded from overtime compensation pursuant to Section 45130 shall likewise be excluded from the provisions of this section.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 6 (commencing with Section 45240) of this chapter.

45132. Notwithstanding the provisions of Section 45131, a governing board of a district may establish a 10-hour-per-day, 40-hour, four-consecutive-day workweek for all, or certain classes of its employees, or for employees within a class when, by reason of the work location and duties actually performed by such employees, their services are not required for a workweek of five consecutive days, provided the establishment of such a workweek has the concurrence of the concerned employee, class of employees, or classes of employees as ascertained through the employee organization representing a majority of the concerned employees or class or classes, of employees, as determined by the payroll deduction authorizations for dues in classified employee organizations on file with the district on the last day of the month next preceding the date the board action was taken.

Where a board has previously established the workweek of not less than 35 hours, it may require the established workweek to be performed in four consecutive days by any class or classes of employees or by employees within a class, when by reason of the work location and duties actually performed by such employees their services are not required for a workweek of five consecutive days, with the concurrence of employee personnel as provided herein.

When a four-day workweek is established, the overtime rate shall be paid for all hours worked in excess of the required workday, which shall not exceed 10 hours. Work performed on the fifth, sixth and seventh days shall be compensated for at a rate equal to  $1\frac{1}{2}$  times the regular rate of pay of the employee designated and authorized to perform the work.

An employee working an average workday of five hours or less during a workweek shall, for any work required to be performed on the sixth or seventh day following the commencement of his workweek, be compensated for at a rate equal to  $1\frac{1}{2}$  times the regular rate of pay of the employee designated and authorized to perform the work.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 6 (commencing with Section 45240) of this chapter.

45133. In any school district situated wholly within the boundaries of a city having a population of more than five hundred thousand (500,000) but not exceeding five hundred fifty thousand

(550,000) as determined by the 1920 federal census, the janitors and other employees of the school district shall be employed in the same manner and under the same conditions as teachers are employed by the district and when employed shall be removed only for cause and after charges have been filed and heard by the board of education.

All employees who have been in the service of the school district continuously for a period of one year prior to July 27, 1917, shall be deemed to have been so employed.

The board of education may make and enforce all necessary rules and regulations to carry out the provisions of this section.

45134. (a) Notwithstanding any other provisions of law, no minimum or maximum age limits shall be established for the employment or continuance in employment of persons a part of the classified service.

(b) Any person possessing all of the minimum qualifications for any employment shall be eligible for appointment to that employment, and no rule or policy, either written or unwritten, heretofore or hereafter adopted, shall prohibit the employment or continued employment, solely because of the age of any such person in any school employment who is otherwise qualified therefor.

(c) This section does not authorize the employment of any person in particular school employment who has reached the retirement age for that particular employment prescribed by any retirement system applicable thereto, whether or not the person is a member of the retirement system, or entitled to a retirement salary thereunder, nor shall any person be employed in such employment while he is receiving a retirement allowance under any retirement system by reason of prior school employment.

(d) The provisions of subdivision (c) shall be inapplicable to persons who were employed in the classified service of any school district as of September 18, 1959, and who are still in the employ of the same district on the effective date of this subdivision, and the rights of such persons shall be fixed and determined as of September 18, 1959; and no such person shall be deprived of any right to any retirement allowance or eligibility for any such allowance to which he would have been entitled as of that date. Any such person who, by reason of any provision of law to the contrary, has been deprived of any right to retirement allowance or eligibility for such an allowance, shall, upon the filing of application therefor, be reinstated to such rights as he would have had had this subdivision been in effect on September 18, 1959.

(e) This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 6 (commencing with Section 45240) of this chapter, except that in a school district or districts, governed by the same governing board, in which the combined average daily attendance of all districts is in excess of 400,000, the permanent classification of any employee who is classified as a permanent employee under the provisions of Article 6 (commencing with Section 45240) of this

chapter shall cease at the close of the fiscal year in which the employee reaches the age of 65 years. In such district or districts the employment, or continued employment of any employee beyond the close of the fiscal year in which he reaches the age of 65 years shall be at the discretion of the governing board of the district, which may, at its pleasure, terminate the services of such employee at any time. Employment beyond age 65 in such districts shall be in accordance with rules and regulations governing such employment approved by the personnel commission, and adopted by the governing board of the district.

45135. Notwithstanding the provisions of subdivision (c) of Section 45134, a retired classified school employee may be employed by a school district, but only in accordance with the provisions of Article 5 (commencing with Section 21150) of Chapter 8 of Part 3 of Division 5 of Title 2 of the Government Code.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 6 (commencing with Section 45240) of this chapter.

45136. All probationary and permanent part-time classified employees shall be entitled to sick leave, and all other benefits conferred by law on classified employees. Part-time employees shall be entitled to all leaves and benefits granted by the governing board to a majority of the regular full-time employees in the classified service of the district or to regular full-time employees in the same classified positions or general class of positions; but such leaves and benefits may be prorated in the same ratio as the regular work hours per day, days per week, weeks per month, or months per year of such part-time employees bear to eight hours per day, 40 hours per calendar week, four calendar weeks per month, or 12 calendar months during the school year.

Except for prorating benefits for part-time employees as herein authorized, the governing board shall provide at least the same benefits for all regular employees in the classified service as it provides for the majority of such employees.

Nothing in this section shall be construed to prohibit the granting of additional benefits for some employees in recognition of nature of work, level of classification, or length of service.

This section shall not apply to employees properly designated as substitute, short-term, or limited-term employees, as defined in Sections 45103 and 45286 of this code, unless such employees are specifically included by a governing board, or by a personnel commission for those districts included under the provisions of Article 6 (commencing with Section 45240) of this chapter.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 6 (commencing with Section 45240) of this chapter.

This section shall not apply to those benefits authorized under the provisions of Article 1 (commencing with Section 53200) of Chapter 2 of Part 1 of Division 2 of Title 5 of the Government Code.

45137. A classified employee who works a minimum of 30 minutes per day in excess of his part-time assignment for a period of 20 consecutive working days or more, shall have his basic assignment changed to reflect the longer hours in order to acquire fringe benefits on a properly prorated basis as specified in Section 45136.

If a part-time employee's average paid time, excluding overtime for which the employee receives compensation at a rate at least equal to time and one-half, exceeds his average assigned time by 50 minutes or more per working day in any quarter, the hours paid per day for compensable leaves of absence and holidays in the succeeding quarter shall be equivalent to the average hours paid per working day in the preceding quarter, excluding overtime.

Except where vacation entitlement is accrued on the basis of actual hours of paid regular service, vacation entitlement shall be based on the average number of hours worked per working day during the portion of the school year in which the employee is assigned to duty.

It is the intent of the Legislature, in enacting this section, to insure that part-time employees are accorded fringe benefits on an appropriate prorated basis with full recognition given to the number of hours worked by the part-time employee rather than on the basis of time fixed to the position when the fixed time is not reasonably correlated with the actual time worked. This section is to be liberally construed in order that the provisions of Section 45136 may not be circumvented by requiring employees to work in excess of the regularly fixed hours for a position on an overtime basis but for which premium pay is not provided nor appropriate adjustment is not made in fringe benefit entitlement.

45138. The governing board of any school district may require the wearing of a distinctive uniform by classified personnel. The cost of the purchase, lease or rental of uniforms, equipment, identification badges, emblems, and cards required by the district shall be borne by the district.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 6 (commencing with Section 45240) of this chapter.

## Article 2. Salaries

45160. The governing board of any school district, including city boards of education, shall fix and order paid the compensation of persons a part of the classified service and other employees not requiring certification qualifications employed by the board unless otherwise prescribed by law.

45161. In any school district with an average daily attendance of more than 400,000 which includes within its boundaries a chartered city, the charter of which requires the fixing of wages and salaries at levels at least equal to the prevailing salary or wage for the same quality of service rendered to private employers under similar

employment when such prevailing salary or wage can be ascertained, the governing board of the district, in fixing the compensation of classified employees, shall fix salaries or wages by use of the same standard.

45162. (a) The governing board of any school district shall, not later than the date prescribed by law for approval of the publication budget of every year, fix the annual salaries for the ensuing school year for all persons employed by the district in positions not requiring certification qualifications. The governing board may, at the time, include an increase in such annual salaries, all or part of which increase is conditional upon the actual receipt by the district of anticipated revenue from all sources. If the revenue actually received is less than that anticipated, the governing board may, at any time during the school year, reduce such annual salaries by an amount not to exceed the amount which was granted subject to the receipt of such revenues.

(b) The governing board of a school district may, at any time during the school year, increase the salaries of persons employed by the district in positions not requiring certification qualifications for the remainder of the school year.

(c) A governing board may, at any time, increase the wages or salaries of classified employees if the board or, in a merit system district, the personnel commission approves a classification change in a position, a class of positions, or any or all of the positions or classes of positions a part of the classified service.

(d) The provisions of this section shall not be construed to permit a governing board to demote or dismiss an employee as a result of reclassification of a position or class of positions except as may otherwise be permitted by law.

(e) This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 6 (commencing with Section 45240) of this chapter.

45163. If the governing board of a school district cannot comply with the provisions of subdivision (a) of Section 45162 because it is engaged in a study, which was commenced prior to the commencement of the school year, to increase the salaries and wages of persons employed by such district in positions not requiring certification qualifications, the board may, by appropriate action taken prior to the final adoption of its budget, do either of the following:

(a) Adopt an interim salary schedule which shall be the same schedule as for the preceding year, except that increases may be granted at that time based upon increased cost-of-living indexes, and provide that the salaries and wages fixed as a result of the study shall be payable for the entire school year to include the period thereof in which the study was conducted and final board action taken.

(b) Provide that the salaries and wages fixed as a result of the study shall be effective only for that portion of the school year, as determined by the board at the time it takes action after the study

has been completed. "Portion of the school year," as used in this subdivision shall not be for any period of time less than the period of time remaining in the school year from the date the governing board adopts the salary schedule based on the study commenced prior to that school year.

45165. The governing board of any school district not paying the annual or monthly salaries of persons employed by the district in 12 equal monthly payments may withhold, upon election by the individual employee, from each payment made to such employee an amount as follows:

(a) For an employee employed 11 months of a year an amount equal to  $8\frac{1}{3}$  percent thereof and the total amount deducted to be paid not later than the 10th day of September next succeeding.

(b) For an employee employed 10 months of a year an amount equal to  $16\frac{2}{3}$  percent thereof and the total amount deducted to be paid in two equal monthly installments not later than the 10th day of August and the 10th day of September next succeeding.

(c) For an employee employed nine months a year an amount equal to 25 percent thereof and the total amount deducted to be paid in three equal monthly installments not later than the 10th day of July, the 10th day of August and the 10th day of September next succeeding.

If the provisions of Section 42644 are made applicable to any district the provisions of this section shall apply except that the amount deducted from each regular pay period and ultimate dates for payment of the amount deducted shall be computed and set in accordance with the system adopted under Section 42644.

Once an employee has elected to be brought under the provisions of this section such election shall not be revocable until the commencement of the next ensuing fiscal year. However, in the event any employee leaves the service of the district by death or otherwise before receiving such moneys as may be due him, the amount due him shall be paid within 30 days of the last working day to him or any other person entitled thereto by law.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 6 (commencing with Section 45240) of this chapter.

45166. Orders for the payment of wages and payroll orders and warrants for the payment of wages of employees a part of the classified service in any public school system shall be drawn at least once during each calendar month, for those districts not using the provisions of Sections 42644, 42645, or 42646 of this code. Such payment shall be made on the last working day of the month in which the employee was in paid status.

This section shall not prohibit a school district from making a payment of earned salary prior to the last working day of the pay period or of the month.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article

6 (commencing with Section 45240) of this chapter.

45167. Whenever it is determined that an error has been made in the calculation or reporting in any classified employee payroll or in the payment of any classified employee's salary, the appointing authority shall, within five workdays following such determination, provide the employee with a statement of the correction and a supplemental payment drawn against any available funds.

45168. The governing board of each school district when drawing an order for the salary or wage payment due to a classified employee of the district may, without charge, reduce the order by the amount which it has been requested in a revocable written authorization by the employee to deduct for the payment of dues in, or for any other service provided by, any bona fide organization, of which he is a member, whose membership consists, in whole or in part, of employees of such district, and which has as one of its objectives improvements in the terms or conditions of employment for the advancement of the welfare of such employees.

The revocable written authorization shall remain in effect until expressly revoked in writing by the employee. Whenever there is an increase in the amount required for such payment to the organization, the employee organization shall provide the employee with adequate and necessary data on such increase at a time sufficiently prior to the effective date of the increase to allow the employee an opportunity to revoke the written authorization, if desired. The employee organization shall provide the public school employer with notification of the increase at a time sufficiently prior to the effective date of the increase to allow the employer an opportunity to make the necessary changes and with a copy of the notification of the increase which has been sent to all concerned employees.

Upon receipt of a properly signed authorization for payroll deductions by a classified employee pursuant to this section, the governing board shall reduce such employee's pay warrant by the designated amount in the next pay period following the closing date for receipt of changes in pay warrants.

The governing board shall, on the same designated date of each month, draw its order upon the funds of the district in favor of the organization designated by the employee for an amount equal to the total of the respective deductions made with respect to such organization during the pay period.

The governing board shall not require the completion of a new deduction authorization when a dues increase has been effected or at any other time without the express approval of the concerned employee organization.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 6 (commencing with Section 45240) of this chapter.

45169. Upon initial employment and upon each change in classification thereafter, each classified employee shall be furnished

two copies of his class specification, salary data, assignment or work location, together with duty hours and the prescribed workweek. The salary data shall include the annual, monthly or pay period, daily, hourly, overtime and differential rate of compensation, whichever are applicable. One copy shall be retained by the employee and the other copy shall be signed and dated by the employee and returned to his supervisor.

The provisions of this section shall not apply to short-term, limited-term, or provisional employees, as those terms are defined in this chapter.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 6 (commencing with Section 45240) of this chapter.

### Article 3. Differential Compensation

45180. For purposes of this article, the following definitions shall apply unless the context indicates otherwise:

(a) "Differential compensation" means either a reduction in the number of hours required to be actually worked or an increase in salary.

(b) "Shift" means the number of hours worked and shall include a duty-free meal period of not less than one-half hour which, in the case of a seven- or eight-hour shift, shall occur approximately at the midpoint of the shift. This subdivision shall not apply to employees working six hours or less, or assigned to a split shift.

45181. The governing board of every school district, or the personnel commission in any merit system school district, shall, insofar as it is possible to do so, determine the practices relating to morning and night shift salary differentials in the private employment fields in which it must compete for employees for its classified staff and shall consider the advisability of providing comparable salary differentials for its classified staff.

45182. The governing board of any school district may provide differential compensation to those classified employees who perform duties of a distasteful, dangerous, or unique nature when, in the opinion of the board, such compensation is reasonably justified.

In a merit system district, such differentials shall be based upon findings and recommendations of the personnel commission and shall not be applied in a manner contrary to the principle of like pay for like service.

45183. Assignment to duties for which differential compensation is designated, other than a temporary assignment of less than 20 working days, shall be made on the basis of seniority among those employees within the appropriate class who request such an assignment.

45184. No employee assigned to work a shift entitled to differential compensation shall be demoted in class or grade as a result of such an assignment.

45185. An employee receiving differential compensation on the basis of his shift shall not lose such compensation if he is temporarily, for 20 working days or less, assigned to a shift not entitled to such compensation. The regular rate of pay for all purposes of an employee assigned to a shift which provides differential compensation shall be the differential rate.

45186. This article shall apply to school districts that have adopted the merit system in the same manner and effect as if it were a part of Article 6 (commencing with Section 45240) of this chapter.

#### Article 4. Resignation and Leaves of Absence

45190. Governing boards of school districts may grant leaves of absence and vacations, with or without pay, to persons employed in the classified service of the district.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 6 (commencing with Section 45240) of this chapter.

45191. Every classified employee employed five days a week by a school district shall be entitled to 12 days leave of absence for illness or injury and such additional days, in addition thereto, as the governing board may allow for illness or injury, exclusive of all days he is not required to render service to the district, with full pay for a fiscal year of service.

A classified employee, employed five days a week, who is employed for less than a full fiscal year is entitled to that proportion of 12 days leave of absence for illness or injury as the number of months he is employed bears to 12 and the proportionate amount, consistent with this formula, of such additional days, in addition thereto, authorized by the governing board for classified employees employed five days a week for a full fiscal year of service.

A classified employee employed less than five days per week shall be entitled, for a fiscal year of service, to that proportion of 12 days leave of absence for illness or injury as the number of days he is employed per week bears to five and is entitled to the proportionate amount, consistent with this formula, of such additional days, in addition thereto, authorized by the governing board for classified employees employed five days a week for a full fiscal year of service. When such persons are employed for less than a full fiscal year of service this and the preceding paragraph shall determine that proportion of leave of absence for illness or injury to which they are entitled.

Pay for any day of such absence shall be the same as the pay which would have been received had the employee served during the day. Credit for leave of absence need not be accrued prior to taking such leave by the employee and such leave of absence may be taken at any time during the year. However, a new employee of a district shall not be eligible to take more than six days, or the proportionate amount to which he may be entitled under this section, until the first day of

the calendar month after completion of six months of active service with the district.

If such employee does not take the full amount of leave allowed in any year under this section the amount not taken shall be accumulated from year to year with such additional days as the governing board may allow.

The governing board of each school district shall adopt rules and regulations requiring and prescribing the manner of proof of illness or injury for the purpose of this section. Such rules and regulations shall not discriminate against evidence of treatment and the need therefor by the practice of the religion of any well-recognized religious sect, denomination or organization.

The provisions of this section shall not apply to a school district or districts, governed by the same governing board, in which the combined average daily attendance of all districts is in excess of 400,000, provided such districts maintain sick leave policies not less than those in effect in such districts on January 1, 1961.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 6 (commencing with Section 45240) of this chapter.

45192. Governing boards of school districts shall provide by rules and regulations for industrial accident or illness leaves of absence for employees who are a part of the classified service. The governing board of any district which is created or whose boundaries or status is changed by an action to organize or reorganize districts completed after the effective date of this section shall provide by rules and regulations for such leaves of absence on or before the date on which the organization or reorganization of the district becomes effective for all purposes as provided in Section 4064.

Such rules and regulations shall include the following provisions:

(a) Allowable leave shall not be for less than 60 working days in any one fiscal year for the same accident.

(b) Allowable leave shall not be accumulative from year to year.

(c) Industrial accident or illness leave will commence on the first day of absence.

(d) Payment for wages lost on any day shall not, when added to an award granted the employee under the workers' compensation laws of this state, exceed the normal wage for the day.

(e) Industrial accident leave will be reduced by one day for each day of authorized absence regardless of a compensation award made under workers' compensation.

(f) When an industrial accident or illness occurs at a time when the full 60 days will overlap into the next fiscal year, the employee shall be entitled to only that amount remaining at the end of the fiscal year in which the injury or illness occurred, for the same illness or injury.

The industrial accident or illness leave of absence is to be used in lieu of entitlement acquired under Section 45191. When entitlement to industrial accident or illness leave has been exhausted,

entitlement or other sick leave will then be used; but if an employee is receiving workers' compensation the person shall be entitled to use only so much of the person's accumulated or available sick leave, accumulated compensating time, vacation or other available leave which, when added to the workers' compensation award, provide for a full day's wage or salary.

The governing board may, by rule or regulation, provide for such additional leave of absence, paid or unpaid, as it deems appropriate and during such leave the employee may return to the person's position without suffering any loss of status or benefits.

Periods of leave of absence, paid or unpaid, shall not be considered to be a break in service of the employee.

During all paid leaves of absence, whether industrial accident leave as provided in this section, sick leave, vacation, compensated time off or other available leave provided by law or the action of a governing board, the employee shall endorse to the district wage loss benefit checks received under the workers' compensation laws of this state. The district, in turn, shall issue the employee appropriate warrants for payment of wages or salary and shall deduct normal retirement and other authorized contributions. Reduction of entitlement to leave shall be made only in accordance with this section.

When all available leaves of absence, paid or unpaid, have been exhausted and if the employee is not medically able to assume the duties of the person's position, the person shall, if not placed in another position, be placed on a reemployment list for a period of 39 months. When available, during the 39-month period, the person shall be employed in a vacant position in the class of the person's previous assignment over all other available candidates except for a reemployment list established because of lack of work or lack of funds, in which case the person shall be listed in accordance with appropriate seniority regulations.

The governing board may require that an employee serve or have served continuously a specified period of time with the district before the benefits provided by this section are made available to the person provided that such period shall not exceed three years and that all service of an employee prior to the effective date of this section shall be credited in determining compliance with the requirement.

Any employee receiving benefits as a result of this section shall, during periods of injury or illness, remain within the State of California unless the governing board authorizes travel outside the state.

In the absence of rules and regulations adopted by the governing board, pursuant to this section, an employee shall be entitled to industrial and accident or illness leave as provided in this section but without limitation as to the number of days of such leave and without any requirement of a specified period of service.

An employee who has been placed on a reemployment list, as

provided herein, who has been medically released for return to duty and who fails to accept an appropriate assignment shall be dismissed.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 6 (commencing with Section 45240) of this chapter.

45193. The governing board of any school district may provide for such leave of absence from duty as it deems appropriate for any female employee in the classified service of the district who is required to absent herself from her duties because of pregnancy or convalescence following childbirth, and may adopt rules and regulations prescribing the manner of proof of pregnancy, the time during pregnancy at which the leave of absence shall be taken, and the length of time for which the leave of absence shall continue after birth of the child. The board may also provide in the rules and regulations whether leave granted under this section shall be with or without pay and, if with pay, the amount, if any, to be deducted from the salary due the employee for the period in which the absence occurs. However, nothing in this section shall be construed so as to deprive any employee of sick leave rights under other sections of this code for absences due to illness or injury resulting from pregnancy.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 6 (commencing with Section 45240) of this chapter.

45194. Every person employed in the classified service of any school district shall be granted necessary leave of absence, not to exceed three days, or five days if out-of-state travel is required, on account of the death of any member of his immediate family. No deduction shall be made from the salary of such employee nor shall such leave be deducted from leave granted by other sections of this code or provided by the governing board of the district. The governing board may enlarge the benefits of this section and may expand the class of relatives listed below as members of the immediate family. Members of the immediate family, as used in this section, means the mother, father, grandmother, grandfather, or a grandchild of the employee or of the spouse of the employee, and the spouse, son, son-in-law, daughter, daughter-in-law, brother, or sister of the employee, or any relative living in the immediate household of the employee.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 6 (commencing with Section 45240) of this chapter.

45195. A permanent employee of the classified service who has exhausted all entitlement to sick leave, vacation, compensatory overtime, or other available paid leave and who is absent because of nonindustrial accident or illness may be granted additional leave, paid or unpaid, not to exceed six months. The board may renew the leave of absence, paid or unpaid, for two additional six-month periods or such lesser leave periods that it may provide but not to exceed a total of 18 months.

An employee, upon ability to resume the duties of a position within the class to which he was assigned, may do so at any time during the leaves of absence granted under this section and time lost shall not be considered a break in service. He shall be restored to a position within the class to which he was assigned and, if at all possible, to his position with all the rights, benefits and burdens of a permanent employee.

If at the conclusion of all leaves of absence, paid or unpaid, the employee is still unable to assume the duties of his position, he shall be placed on a reemployment list for a period of 39 months.

At any time, during the prescribed 39 months, the employee is able to assume the duties of his position he shall be reemployed in the first vacancy in the classification of his previous assignment. His reemployment will take preference over all other applicants except for those laid off for lack of work or funds under Section 45298 in which case he shall be ranked according to his proper seniority. Upon resumption of his duties, the break in service will be disregarded and he shall be fully restored as a permanent employee.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 6 (commencing with Section 45240) of this chapter.

45196. When a person employed in the classified service is absent from his duties on account of illness or accident for a period of five months or less, whether or not the absence arises out of or in the course of employment of the employee, the amount deducted from the salary due him for any month in which the absence occurs shall not exceed the sum which is actually paid a substitute employee employed to fill his position during his absence.

Excepting in a district the governing board of which has adopted a salary schedule for substitute employees of the district, the amount paid the substitute employee during any month shall be less than the salary due the employee absent from his duties.

Entitlement to sick leave provisions under this section, if any, shall be considered "entitlement to other sick leave" for the purposes of computing benefits under the provisions of Section 45192 if the absence is for industrial accident or illness and shall be used after entitlement to all regular sick leave, accumulated compensating time, vacation or other available paid leave has been exhausted.

The foregoing provisions shall not apply to any school district which adopts and maintains in effect a rule which provides that a regular classified employee shall once a year be credited with a total of not less than 100 working days of paid sick leave, including days to which he is entitled under Section 45191. Such days of paid sick leave in addition to those required by Section 45191 shall be compensated at not less than 50 percent of the employee's regular salary. The paid sick leave authorized under such a rule shall be exclusive of any other paid leave, holidays, vacation, or compensating time to which the employee may be entitled. Nothing in this section shall preclude the governing board from adopting such a rule.

45197. (a) Every public school employer shall grant to regular classified employees an annual vacation at the regular rate of pay earned at the time the vacation is commenced. Such vacation shall be as determined by the public school employer, but not less than five-sixths of a day for each month in which the employee is in a paid status for more than one-half the working days in the month, provided the employee is regularly employed five days per week, seven to eight hours a day. An employee in a paid status for less than one-half the working days in a month shall have his vacation credit accrued on the basis provided for in subdivision (b) or (c).

(b) In lieu of accrual of vacation credit on a monthly basis and proration as prescribed in subdivision (a), a district may provide for accrual of vacation credit on any of the following bases:

(1) For all employees or classes of employees who work a full workweek of 40 hours the district shall provide 0.03846 hour of vacation credit for each hour of paid service, not including overtime.

(2) For all employees or classes of employees who work a full workweek of 37.5 hours the district shall provide 0.04087 hour of vacation credit for each hour of paid service, not including overtime.

(3) For all employees or classes of employees who work a full workweek of 35 hours the district shall provide 0.04379 hour of vacation credit for each hour of paid service, not including overtime.

(c) For all employees regularly employed for fewer than 35 hours a week, regardless of the number of hours or days worked per week, the vacation credit shall be computed at the rate of 0.03846 for each hour the employee is in paid status, not including overtime.

(d) Vacation may, with the approval of the employer, be taken at any time during the school year. If the employee is not permitted to take his full annual vacation, the amount not taken shall accumulate for use in the next year or be paid for in cash at the option of the governing board.

(e) Earned vacation shall not become a vested right until completion of the initial six months of employment.

(f) The employee may be granted vacation during the school year even though not earned at the time the vacation is taken.

(g) If an employee is terminated and had been granted vacation which was not yet earned at the time of termination of his services, the employer shall deduct from the employee's severance check the full amount of salary which was paid for such unearned days of vacation taken.

(h) Upon separation from service, the employee shall be entitled to lump-sum compensation for all earned and unused vacation, except that employees who have not completed six months of employment in regular status shall not be entitled to such compensation.

(i) This section shall not apply to substitute, short-term, or limited-term employees, as they are defined in Sections 45103 and 45286, unless such employees are specifically included by the public school employer.

(j) The public school employer may expand the benefits provided for in this section.

(k) This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 6 (commencing with Section 45240) of this chapter.

45198. When any provision of this code expressly authorizes or requires the governing board of a school district to grant a leave of absence for any purpose or for any period of time to persons employed in positions not requiring certification qualifications, that express authorization or requirement does not deprive the governing board of the power to grant leaves of absence with or without pay to such employees for other purposes or for other periods of time, so long as the governing board does not deprive any employee of any leave of absence to which he is entitled by law.

45199. Governing boards of school districts may grant leaves of absence to persons employed in positions not requiring certification qualifications, and at their discretion may pay compensation at such rate as the board prescribes, during the absence, to any such employee whose absence is caused by accident or illness, whether or not the absence arises out of or in the course of the employment of the employee, or because of quarantine which results from his contact with other persons having a contagious disease while performing his duties.

45200. Governing boards of school districts may allow permanent classified employees to interrupt or terminate vacation leave in order to begin another type of paid leave without a return to active service, provided the employee supplies adequate notice and relevant supporting information regarding the basis for such interruption or termination.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 6 (commencing with Section 45240) of this chapter.

45201. The governing boards of any school district may accept the resignation of any employee and may fix the time when the resignation shall take effect, which shall not be later than the close of the school year during which the resignation is received by the board.

45202. Any classified employee of any school district or county superintendent of schools who has been employed for a period of one calendar year or more whose employment is terminated for reasons other than action initiated by the employer for cause and who subsequently accepts employment with another school district or county superintendent of schools within one year of such termination of his former employment, shall have transferred with him to the second district or county superintendent of schools the total amount of earned leave of absence for illness or injury to which he is entitled under Section 45191. This transfer shall be in the same manner as is provided for certificated employees.

In any case where an employee was terminated as a result of action

initiated by the employer for cause, such a transfer may be made if agreed to by the governing board of the district or the county superintendent of schools newly employing the employee.

All or any part of the previous service, not separated by a break in service greater than one year as of the last day of paid service, may, if agreed to by the employing entity, be construed to have been served in the new district or county superintendent of schools of employment for seniority purposes, except that such previous service may not be counted, for seniority purposes, when position or personnel reduction is ordered, for any reason, by the board.

No governing board shall adopt any policy or rule, written or unwritten, which requires all classified employees, or any individual classification, or group of classifications of employees transferring to its district to waive any part or all benefits which they may be entitled to have transferred in accordance with this section.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 6 (commencing with Section 45240) of this chapter.

45203. All employees a part of the classified service shall be entitled to the following paid holidays provided they are in a paid status during any portion of the working day immediately preceding or succeeding the holiday: January 1, February 12 known as "Lincoln Day," the third Monday in February known as "Washington Day," the last Monday in May known as "Memorial Day," July 4, the first Monday in September known as "Labor Day," September 9 known as "Admission Day," November 11 known as "Veterans Day," that Thursday in November proclaimed by the President as "Thanksgiving Day," December 25, every day appointed by the President, or the Governor of this state, as provided for in subdivisions (b) and (c) of Section 37220 for a public fast, thanksgiving or holiday, or any day declared a holiday under Section 1318 or 37222 for classified or certificated employees. School recesses during the Christmas and Easter periods shall not be considered holidays for classified employees who are normally required to work during that period; provided, however, that this shall not be construed as affecting vacation rights specified in Section 45203.

Regular employees of the district who are not normally assigned to duty during the school holidays of December 25 and January 1 shall be paid for those two holidays provided that they were in a paid status during any portion of the working day of their normal assignment immediately preceding or succeeding the holiday period.

When a holiday herein listed falls on a Sunday, the following Monday shall be deemed to be the holiday in lieu of the day observed. When a holiday herein listed falls on a Saturday, the preceding Friday shall be deemed to be the holiday in lieu of the day observed. When a classified employee is required to work on any of said holidays, he shall be paid compensation, or given compensating time off, for such work, in addition to the regular pay received for

the holiday, at the rate of time and one-half his regular rate of pay.

The provisions of Article 3 (commencing with Section 37220) of Chapter 2 of Part 22 of this division shall not be construed to in any way limit the provisions of this section. nor shall anything in this section be construed to prohibit the governing board from adopting separate work schedules for the certificated and the classified services, or from providing holiday pay for employees who have not been in paid status on the days specified herein. Notwithstanding the adoption of separate work schedules for the certificated and the classified services, on any schoolday during which pupils would otherwise have been in attendance but are not and for which certificated personnel receive regular pay, classified personnel shall also receive regular pay whether or not they are required to report for duty that day.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 6 (commencing with Section 45240) of this chapter.

45204. Notwithstanding the provisions of Section 45203, if a school district establishes a position or class of positions for which employees are required to work exclusively on weekends and holidays, and for which a special salary rate is established that recognizes the exclusive weekend and holiday peculiarity, the employees and positions may be exempted, by the personnel commission, where applicable, or the governing board from the benefits of Section 45203. No governing board may create a position or a class of positions, under this section, to avoid payment of overtime.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 6 (commencing with Section 45240) of this chapter.

45205. Prior to July 1 of any school year, the governing board of any school district may designate other days during such year as the holidays to which classified employees are entitled in lieu of the holidays on February 12 known as "Lincoln Day," the third Monday in February known as "Washington Day," the last Monday in May known as "Memorial Day," September 9 known as "Admission Day," or November 11 known as "Veterans Day" as specified in Section 45203, provided that such designated days will provide for at least a three-day weekend. Classified employees shall be required to work on the regular holiday for which another day is designated pursuant to this section, and for work of eight hours or less, shall be paid compensation at their regular rate of pay.

If any classified employee would be entitled to the regular paid holiday but would not be in a paid status during any portion of the working day immediately preceding or succeeding the day so designated in lieu of such holiday and therefore would not be entitled to such day in lieu of the holiday, he shall be entitled to the regular holiday; however, if he is required to work on such holiday, he shall be paid compensation at the rate of time and one-half of his regular rate of pay in addition to the regular pay received for the

holiday.

This section shall not be construed to authorize the maintenance of schools on holidays other than as provided in Article 3 (commencing with Section 37220) of Chapter 2 of Part 22 of this division.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 6 (commencing with Section 45240) of this chapter.

45206. Any school district which requires any classified employee to work a workweek other than Monday through Friday, or if such classified employee consents to a workweek including Saturday or Sunday or both, pursuant to Section 44048, and as a result thereof the employee loses a holiday to which he or she would otherwise be entitled shall provide a substitute holiday for such employee, or provide compensation in the amount to which the employee would have been entitled had the holiday fallen within his or her normal work schedule.

45207. Any days of absence for illness or injury earned pursuant to Section 45191, may be used by the employee, at his election, in cases of personal necessity, including any of the following:

(a) Death of a member of his immediate family when additional leave is required beyond that provided in Section 13651.4 and that provided, in addition thereto, as a right by the governing board.

(b) Accident, involving his person or property, or the person or property of a member of his immediate family.

(c) Appearance in any court or before any administrative tribunal as a litigant, party, or witness under subpoena or any order made with jurisdiction.

(d) Such other reasons which may be prescribed by the governing board.

The governing board of each school district shall adopt rules and regulations requiring and prescribing the manner of proof of personal necessity for the purpose of this section. No earned leave in excess of six days may be used in any school year for the purposes enumerated in this section.

Immediate family has the same meaning as provided in Section 45194.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 6 (commencing with Section 45240) of this chapter.

This section shall also apply to school districts that may be exempted from the provisions of Section 45191. Authorized necessity leave shall be deducted from sick leave earned under the provisions of the exemption of Section 45191.

45208. Every regularly employed classified school employee employed by any of the following: (a) governing board of a school district, (b) county board of education, (c) county superintendent of schools, or (d) personnel commission of a school district which has a merit system as provided in Article 6 (commencing with Section

45240) of this chapter, shall be covered for unemployment insurance pursuant to Sections 135.3 and 605.2 of, and Article 6 (commencing with Section 821) of Chapter 3 of Part 1 of Division 1 of, the Unemployment Insurance Code.

As used in this section, "regularly employed classified school employee" includes all persons employed pursuant to Sections 1311, 35025, 35045, 45105, 45108, 45347, and Sections 45104 and 45256 and any other similar provisions heretofore or hereafter enacted. Persons serving as substitute, short-term, part-time playground, full-time day student employed part-time where enrolled, apprentice, temporary professional expert, emergency, limited-term, or provisional employees or volunteers are, unless otherwise eligible, excluded from the meaning of the term.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 6 (commencing with Section 45240) of this chapter.

(Amended by Stats. 1976, Ch. 1011.)

[ORIGINAL SECTION]

45208. Every regularly employed classified school employee employed by any of the following: (a) governing board of a school district, (b) county board of education, (c) county superintendent of schools, or (d) personnel commission of a school district which has a merit system as provided in Article 6 (commencing with Section 45240) of this chapter, shall be covered for unemployment insurance pursuant to Sections 135.3 and 605.2 of, and Article 6 (commencing with Section 821) of Chapter 3 of Part 1 of Division 1 of, the Unemployment Insurance Code.

As used in this section, "regularly employed classified school employee" includes all persons employed pursuant to Sections 1311, 35025, 35045, 45105, 45103, 45347, and Sections 45104 and 45256 and any other similar provisions heretofore or hereafter enacted. Persons serving as substitute, short-term, part-time playground, full-time day student employed part-time where enrolled, apprentice, temporary professional expert, emergency, limited term, or provisional employees or volunteers are, unless otherwise eligible, excluded from the meaning of the term.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 6 (commencing with Section 45240) of this chapter.

45209. The Director of Benefit Payments is the administrator of the system of unemployment insurance, as provided in Article 6 (commencing with Section 821) of Chapter 3 of Part 1 of Division 1 of the Unemployment Insurance Code.

### Article 5. Merit System Inclusion

45220. (a) "Common board" as used in this article means a board with identical members that governs more than one school district. "Common administration" as used in this section means the administration by a person employed by governing boards of more than one district or a common board to act as chief executive officer for more than one school district.

(b) The term "a district whose average daily attendance is 3,000 or greater" shall be construed to include any district which is the only district under the jurisdiction of the county superintendent of

schools regardless of its average daily attendance. It shall also include districts governed by a "common board" or which use a "common administration," as defined in this section.

45221. (1) On or after the effective date of this section the classified employees of any district whose average daily attendance is 3,000 or greater, may, in accordance with this article, petition the governing board to make the provisions of Article 6 (commencing with Section 45240) of this chapter applicable to their employer district. Said petition shall read substantially as follows:

"We, the undersigned classified employees of the \_\_\_\_\_ (name of school district), constituting 15 percent of the classified personnel entitled to vote, request the governing board to submit to election the question of whether or not the merit (civil service) system shall become applicable to this district.

NAME POSITION CLASSIFICATION"

"Classified employee" as used in this section shall be construed to include all personnel a part of the classified service as defined in Section 45103.

(2) Within 120 days after receipt of the petition the governing board shall: (a) Obtain the services of competent and qualified persons to present the pros and cons of the issue.

(b) Provide adequate and ample opportunity for all of its classified personnel to attend one or more meetings at which the issue is presented.

(c) Having complied with subsections (a) and (b), foregoing, conduct an election by secret ballot of its classified personnel to determine whether or not they desire to have the merit system applicable to the district. The ballot shall read:

"Shall the merit (civil service) system for classified employees be applicable in the \_\_\_\_\_ (name of school district)?

- Yes
- No"

The ballot shall not require the employees' signatures or other personal identifying requirements, but the board shall devise an identification system to insure against fraud in the balloting process.

(d) The board shall appoint a three- or five-person tabulating committee, at least one member of which shall be a member of the governing board, to canvass the ballots and present the results to the governing board. If a simple majority votes in favor of the merit system the same shall become applicable in the district.

(e) The tabulating committee required by this section shall certify the results of the election to the governing board at the next regular or special meeting of the board following the date the committee completes tabulation of the votes. If the tabulating committee completes the tabulation on the same day as the governing board meets in regular or special session, the committee shall certify the results of the election to the board at such meeting.

45222. Effective upon certification to a governing board by a tabulating committee that an election, as authorized in Section 45221

of this code, has been successful, all of the provisions of Article 6 (commencing with Section 45240) of this chapter that can reasonably be construed to be applicable to classified employees shall be applicable.

All of the provisions of Article 6 (commencing with Section 45240) of this chapter shall become fully effective upon appointment of at least two members of the personnel commission.

The commission shall immediately adopt existing rules and regulations of the district relating to classified personnel pending the establishment of its rules and which are not inconsistent with law.

45223. The governing board of a school district whose average daily attendance is less than 3,000 may, by affirmative vote of a majority of its members, adopt the procedure set forth in Article 6 (commencing with Section 45240) of this chapter. The motion or a resolution for adoption of the system shall specify the date that the provisions of Article 6 shall be applicable to the classified employees of the district, which shall not be later than July 1 next following the date of adoption.

45224. The governing board of a school district whose average daily attendance is 3,000 or more may, by affirmative vote of a majority of its members, and a county superintendent of schools, with the consent of the majority of the members of the county board of education, adopt the procedure set forth in Article 6 (commencing with Section 45240) of this chapter, provided a lawful petition has not been received as authorized in Section 45221, or may adopt the procedure at any time after a two-year period has elapsed following an unsuccessful election conducted in accordance with Section 45221 of this code.

The motion, order, or resolution for adoption of the procedure shall specify the date that the provisions of Article 6 shall be applicable to classified employees, which shall not be later than July 1 next following the date of adoption.

45224.5. The procedure set forth in Article 6 (commencing with Section 45240) of this chapter may also be adopted by a majority of the voting electors of the school districts assenting to the plan after it has been placed on the ballot upon the written petition of qualified electors not less in number than 10 percent of the number voting in the last election for a member of the governing board. The question of adoption shall be placed on the ballot at the next regular governing board member election, or the next primary or general election in a general election year, whichever is earlier after receipt of the petition by the registrar of voters.

The ballot measure shall specify the date that the provisions of Article 6 (commencing with Section 45240) of this chapter shall be applicable to classified employees, which shall not be later than July 1 next following the date of adoption.

45225. When an election has been held, as authorized in this article, and fails to receive a simple majority affirmative vote, the classified employees of that district may not again petition for an

election until at least two years has elapsed since the last election.

45226. Any person who intimidates, coerces, or discriminates in any way against any classified employee for the doing of any act authorized herein shall be personally liable to such employee for all damages suffered thereby and such exemplary damages as the court may allow.

#### Article 6. Merit System

45240. Any school district adopting the provisions of this article in accordance with Section 45222 or 45224.5 shall cause the personnel commission to be appointed in the manner prescribed in Sections 45245, 45246 and 45247. The personnel commission shall appoint the personnel director in the manner provided in Section 45264 after appointment of at least two of its members.

45241. In any district in which the procedure set forth in this article has been incorporated the governing board shall employ, pay, and otherwise control the services of persons in positions not requiring certification qualifications only in accordance with the provisions of this article.

No governing board shall remove a position from the classified service by title assignment or otherwise which would then require an incumbent to be credentialed if such position is not required by this code to be designated as certificated.

45243. In any district which has adopted the provisions of this article there shall be appointed a personnel commission composed of three members. If two or more districts are under the jurisdiction of governing boards of identical personnel, only one commission shall be appointed. In such cases this article shall apply alike to all of the districts, and the expenses of the commission shall be paid out of the general funds of all of the districts in proportion to the benefits derived therefrom as determined by the governing board.

45244. To be eligible for appointment or reappointment to the commission a person shall (a) be a registered voter and resident within the territorial jurisdiction of the school district and (b) be a known adherent to the principle of the merit system. No member of the governing board of any school district or a county board of education shall be eligible for appointment, reappointment, or continuance as a member of the commission. During his term of service, a member of the commission shall not be an employee of the school district.

As used in this section, "known adherent to the principle of the merit system," with respect to a new appointee, shall mean a person who by the nature of his prior public or private service has given evidence that he supports the concept of employment, continuance in employment, in-service promotional opportunities, and other related matters on the basis of merit and fitness. As used in this section, "known adherent to the principle of the merit system," with respect to a candidate for reappointment, shall mean a commissioner

who has clearly demonstrated through meeting attendance and actions that he does, in fact, support the merit system and its operation.

45245. One member of the commission shall be appointed by the governing board of the district and one member, nominated by the classified employees of the district, shall be appointed by the governing board of the district. Those two members shall, in turn, appoint the third member.

As used in this section, "classified employees" shall mean an organization of classified employees which represents the greatest number of classified employees of the district as determined by the board exercising its authority under Section 7110. If there is no such organization existing within the district the governing board shall, by written rule, prescribe the method by which the recommendation is to be made by its classified employees.

45246. (a) Within 30 days after adoption of the system the governing board shall publicly announce its intended appointee, and the appointee nominated by its classified employees. As soon after their appointment as practicable but within 30 days, the two members shall appoint the third member. They may consider the recommendations of the governing board, the classified employees, or other concerned citizens. If such two members do not make an appointment within the 30-day period, the Executive Officer of the State Personnel Board shall make the appointment.

"Adoption of the system" means, in the case of Section 45221, the day on which a successful election is certified to the governing board or, in the case of Section 45224, the day the governing board approves a motion, order, or resolution to adopt the system regardless of the date specified for operational commencement of the system.

(b) Where a system is already in existence and a vacancy will exist on December 1, by not later than September 30:

(1) The governing board shall publicly announce the name of the person it intends to appoint or reappoint, if the vacancy is its appointee.

(2) The appointee of the governing board and the appointee of the classified employees shall publicly announce the name of the person they intend to appoint, if the vacancy is their appointee.

(c) Where a system is already in existence and a vacancy in the position nominated by the classified employees will occur, the classified employees shall submit the name of its nominee to the governing board at least 30 days prior to the date on which the vacancy will occur and the governing board shall appoint that nominee to be effective on the date on which the vacancy would occur.

(d) At a board meeting to be held after 30 and within 45 days of the dates specified in subdivision (a) and subdivision (b) (1), as the case may be, the governing board in open hearing shall provide the public and employees and employee organizations the opportunity to express their views on the qualifications of those persons

recommended by the governing board for appointment.

The board at the time may make its appointment or may make a substitute appointment or recommendation without further notification or public hearing.

In the case of the nominees of the classified employees, the board shall appoint the nominee, unless the classified employees voluntarily withdraw the name of the nominee and submit the name of a new nominee. In the latter case, the board shall then appoint the new nominee.

(e) In the event a vacancy exists because of a failure of the classified employees to agree on a nominee, the board may make an emergency appointment as authorized in subdivision (b) of Section 45248. If there is no personnel director, the board may nevertheless make an emergency interim appointment under this subdivision.

45247. An appointee to a commission in a district which has newly adopted the system shall take office upon receipt of notification of his appointment but his term of office shall run from noon of the first day of December next succeeding.

The initial appointee of the governing board shall serve a three-year term, and the term of the appointee recommended by classified employees and the Executive Officer of the State Personnel Board shall be for two years and one year respectively.

Subsequent terms shall be for three years commencing at noon the first day of December.

The commission may perform any act authorized or required by law when two members have been appointed.

45248. (a) Appointment to vacancies occurring subsequent to the initial appointment shall be made by the original appointing authority either for a new full term or to fill an unexpired term. The procedures required in Sections 45245 and 45246 shall be followed in the appointment and recommendation for appointment to fill vacancies occurring subsequent to the initial appointments.

(b) Notwithstanding subsection (a) the governing board at the request of the personnel director shall declare that an emergency exists and shall make an interim appointment to fill a vacancy or vacancies to insure the continuance of the functions of the personnel commission. An interim appointment shall terminate on the date the notification of permanent appointment is received by the appointee.

(c) An interim appointee must meet the requirements of Section 45244 and be free of the restrictions contained therein.

(d) An interim appointment in no event shall be valid for more than 60 days.

45249. In a school district which has already adopted the provisions of this article on September 17, 1965, members of the personnel commission shall continue to be appointed alternately by the Superintendent of Public Instruction and by the Executive Officer of the State Personnel Board, each of whom may consider the recommendation of the governing board and other interested parties.

45250. The governing board may authorize payment to members of the commission an amount not to exceed fifteen dollars (\$15) per meeting and not to exceed seventy-five dollars (\$75) per month.

45251. In a unified school district with an average daily attendance in excess of 400,000, the governing board may authorize payment to members of the commission an amount not to exceed fifty dollars (\$50) per meeting, and not to exceed two hundred fifty dollars (\$250) per month.

45252. The governing board shall provide the commission with suitable office accommodations.

45253. The commission shall prepare an annual budget for its own office which, upon the approval of the county superintendent of schools, shall be included by the governing board in the regular budget of the school district. The annual budget of the commission may include amounts for the purposes of Section 45255.

The budget shall be prepared for a public hearing by the commission to be held not later than May 30 of each year. The commission shall forward a copy of its proposed budget to the governing board indicating the time, date and place for the public hearing of the budget and shall invite board and district administration representatives to attend and present their views. The commission shall fully consider the views of the governing board prior to adoption of its proposed budget. The commission shall then forward its proposed budget to the county superintendent of schools for action.

If the county superintendent of schools proposes to reject the budget as submitted by the commission, he shall, within 30 days after the commission's submission of the budget, hold a public hearing on the proposed rejection within the affected district. He shall have informed both the commission and the governing board of the date, time and place of the hearing. He may after such public hearing either reject, or, with the concurrence of the commission, amend the proposed budget. In the absence of agreement between the personnel commission and the county superintendent the budget of the preceding year shall determine the amount of the new budget, and the items of expenditure shall be determined by the commission.

45254. The budget for the first year shall be determined by the governing board. Pending receipt of money raised in the manner prescribed in this article, the governing board may advance funds for the establishment of the work of the commission.

45255. The commission may, with respect to the staff of the commission, expend funds for their orientation, training, retraining, and development and for any purpose prescribed by Article 9 (commencing with Section 45380) of this chapter.

45256. The commission shall classify all employees and positions within the jurisdiction of the governing board or of the commission, except those which are exempt from the classified service. The employees and positions shall be known as the classified service. Exempt from the classified service shall be:

- (a) Positions which require certification qualifications.
- (b) Part-time playground positions.
- (c) Full-time students employed part time.
- (d) Part-time students employed part time in any college work-study program, or in a work experience education program conducted by a community college district pursuant to Article 7 (commencing with Section 51760) of Chapter 5 of Part 28 of Division 4 of this title and which is financed by state or federal funds.

(e) Apprentice positions.

(f) Positions established for the employment of professional experts on a temporary basis for a specific project by the governing board or by the commission when so designated by the commission.

Employment of either full-time or part-time students in any college work-study program, or in a work experience education program shall not result in the displacement of classified personnel or impair existing contracts for services.

However, nothing in this section shall prevent an employee, who has attained regular status in a full-time position, from taking a voluntary reduction in time and retaining his regular status under the provisions of this law.

No person whose contribution consists solely in the rendition of individual personal services and whose employment does not come within the scope of the exceptions listed above shall be employed outside the classified service.

A part-time position is one for which the assigned time, when computed on an hourly, daily, weekly, or monthly basis, is less than 87½ percent of the normally assigned time of the majority of employees in the classified service.

45257. Nothing contained in Section 45256 shall be interpreted to exclude the employment of architectural and engineering firms employed on a temporary basis for a specific project by a governing board or the commission when so designated by the commission.

45258. In addition to the exemptions authorized in Section 45256, there shall be exempt from the classified service positions established for the employment of community representatives in advisory or consulting capacities for not more than 90 working days in a fiscal year, provided that:

(1) The authorized duties are not those normally assigned to a class of positions in the classified service,

(2) The authorized duties are approved by the personnel commission in advance of employment, and

(3) A regular classified employee of the school district shall not receive a concurrent appointment to such a position.

45259. If the governing board of any school district establishes positions and restricts initial appointment of new employees to persons having mental handicaps, then such positions shall, in addition to the regular class title, be classified as "restricted." The positions shall be part of the classified service and persons so employed shall be classified employees for all purposes except that

they shall not require permanent status or seniority credit and shall not be eligible for promotion into the regular classified service until they have complied with the provisions of subdivision (c) of Section 45105.

45260. The commission shall prescribe and amend, subject to this article, such rules as may be necessary to insure the efficiency of the service and the selection and retention of employees upon a basis of merit and fitness. The rules shall be binding upon the governing board.

45261. The rules shall provide for the procedures to be followed by the governing board as they pertain to the classified service regarding applications, examinations, eligibility, appointments, promotions, demotions, transfers, dismissals, resignations, layoffs, reemployment, vacations, leaves of absence, compensation within classification, job analyses and specifications, service ratings, public advertisement of examinations, rejection of unfit applicants without competition, and any other matters necessary to carry out the provisions and purposes of this article.

45262. The rules of the commission and copies of this article shall be printed and made available to each school, office, and permanent worksite where employees report and shall be distributed to school libraries for loan to employees.

Within one year of when a district adopts the merit system, the commission shall adopt rules pursuant to Section 45260 and shall give to each new regular employee a handbook which summarizes the basic rules and working conditions for classified employees and provides information regarding access to copies of the complete rules and the merit system.

45263. The commission may classify as apprentice positions certain positions where the principal requirement is that of learning to perform efficiently, by study and practice, specific duties concerning which a definite plan of systematic instruction and special supervision has been approved by the California Apprenticeship Council for the designated trade.

The apprenticeship training plan adopted by the governing board of the school district must be approved by the California Apprenticeship Council.

No assignment to any position classified as an apprentice position shall be allowed to continue beyond the predetermined apprenticeship period approved by the California Apprenticeship Council for the designated trade, except that the school district's joint apprenticeship committee may approve retention of an employee as an apprentice up to six months beyond the predetermined apprentice period.

Selection of eligibles shall be made in accordance with their position on employment lists established by competitive or qualifying examinations.

The provisions of Section 45134 shall be applicable to apprentice positions, provided that relative age may be considered as a factor in

the ranking of candidates for apprentice positions.

Credit for prior training in a regularly indentured apprenticeship program shall be given to qualified candidates.

In all cases of apprenticeship probationary periods, the standards of duration and qualifications shall be fixed by the commission insofar as they do not exceed the maximum standards set up by the California Apprenticeship Council. Termination for cause may be prescribed for any apprentice who fails to attain the predetermined standards of apprenticeship or for causes as prescribed by the rules of the commission.

The commission shall recommend to the governing board a graduated scale of compensation rates for the various levels of apprentices, taking into consideration the percentage relationship to the districts' journeyman wage of the trade as provided in the statement of policies of the California Apprenticeship Council.

The commission may determine that promotional examinations shall be held for entrance into various levels of apprentice positions and entrance into journeyman positions in a skilled trade.

45264. The commission shall appoint a personnel director within 90 days after the adoption of a merit system from an eligibility list established from a competitive examination given under the auspices of the commission. The commission shall also appoint all other employees paid from funds budgeted for the support of the commission from eligibility lists established pursuant to the provisions of this article. Such employees shall be classified employees of the school district and shall be accorded all the rights, benefits, and burdens of any other classified employee serving in the regular service of the district.

45265. Notwithstanding the provisions of Section 45264, the personnel commission, in a school district or a county superintendent of schools office employing 100 or fewer classified employees, may, with the consent of a majority of the classified employees, contract for the services of a qualified personnel director with another school district having the merit (civil service) system, or a city or a county governmental agency if the city or county has a civil service system for the management of its employee personnel.

Such a contract shall be for not more than two years and may be extended, with the approval of a majority of the classified employees, for additional periods not to exceed two years at one time.

If at the end of any contract period the district or county superintendent's office is employing more than 100 classified employees, the personnel commission shall then comply with the provisions of Section 45264.

A contract approved under the provisions of this section shall become null and void in the event of district reorganization when the provisions of the contract, if continued in force would supersede or be in conflict with the provisions of Sections 45119 or 45120.

45266. The personnel director shall be responsible to the commission for carrying out all procedures in the administration of

the classified personnel in conformity with this article and the rules of the commission. He shall also act as secretary of the commission and shall prepare, or cause to be prepared, an annual report which shall be sent by the commission to the governing board.

45267. The provisions of Sections 45123, 45124, 45160, 45198, 45199, 45201, and 45202 are applicable to the employees of school districts which have adopted a merit system pursuant to the procedure set forth in this article.

This section is declaratory of existing law. The sections here enumerated are to be construed and applied in the same manner and with the same effect as when they were applicable to the employees of such school districts prior to the enactment of Section 45100 by Chapter 1267 of the Statutes of 1959, and in accordance with the applicable provisions of this article and the rules of the Personnel Commission.

45268. The commission shall recommend to the governing board salary schedules for the classified service. The governing board may approve, amend, or reject these recommendations. No amendment shall be adopted until the commission is first given a reasonable opportunity to make a written statement of the effect the amendments will have upon the principle of like pay for like service. No changes shall operate to disturb the relationship which compensation schedules bear to one another, as the relationship has been established in the classification made by the commission.

45269. Any person who has been continuously employed in a position defined as a position in the classified service for a period of six months immediately preceding the date on which the procedure set forth in this article is adopted shall be deemed to be in the permanent classified service. No layoff or suspension of service during the time when the schools of the district are not in session shall count as an interruption of continuous service.

45270. All persons who have been continuously employed by a school district for less than six months immediately preceding the date on which the procedure set forth in this article is adopted shall be deemed to hold their positions under probationary classification.

45271. Any employee serving in a certificated position whose position is by virtue of change of law deemed to be in the classified service shall without examination become a member of the classified service in accordance with the terms of Sections 45269 and 45270. Full seniority rights shall be retained, except that no seniority credit shall be allowed by virtue of previous certificated service in case of layoff for lack of funds or lack of work.

Any employee serving in a classified position whose position is by virtue of change of law deemed to be in the certificated service shall without examination become an employee of the certificated service and shall be deemed to have the necessary certification qualifications for such position. Full seniority rights will be retained, except that no seniority credit will be allowed by virtue of previous classified service in case of layoff for lack of funds or lack of work. Any such person who

has been continuously employed in a regular position in the classified service for the length of time necessary to acquire permanency as a certificated employee shall be deemed to be a permanent certificated employee of the district. Any such person serving in a regular position in the classified service for an amount of time less than that deemed to be necessary to acquire permanency as a certificated employee shall be a certificated probationary employee of the district; such regular classified service shall be considered as probationary service toward the attainment of permanency by a certificated employee of the district.

45272. All vacancies in the classified service shall be filled pursuant to this article and the rules of the commission, from applicants on eligibility lists which, wherever practicable, as determined by the commission, shall be made up from promotional examinations, or appointments may be made by means of transfer, demotion, reinstatement, and reemployment in accordance with the rules of the commission. All applicants for promotional examinations shall have the required amount of service in classes designated by the commission or meet the minimum qualifications of education, training, experience, and length of service, which shall be determined by the commission to be appropriate for the class for which they have applied. Any promotional applicant who has served the required amount of time in a designated class or who meets the minimum qualifications for admission to a promotional examination shall be admitted to the examination. Applicants shall be placed on the eligibility lists in the order of their relative merit as determined by competitive examinations. Appointments shall be made from the first three applicants on the eligibility list who are ready and willing to accept the position. In examinations for classes designated as technical, professional, administrative, or executive by the commission, final scores of candidates shall be rounded to the nearest whole percent for all eligibles. All eligibles with the same percentage score will be considered as having the same rank. Appointments shall be made from the eligibles having the first three ranks on the list who are ready and willing to accept the position.

45273. Examinations shall be administered objectively and shall consist of at least two independent parts.

For classes of positions deemed by the commission to require an oral examination, the oral examination board shall include at least two members.

Unless specifically directed to evaluate candidates' technical knowledge and skills, the oral examination board shall confine itself to evaluating general fitness for employment in the class. When the oral examination board is directed to evaluate technical knowledge and skills, at least two members of the board shall be technically qualified in the specified occupational area. Members of the governing board or personnel commission shall not serve on an oral examination board. A district employee may serve on an oral examination board if he is not at the first or second level of

supervision over a vacant position in the class for which the examination is held.

The personnel commission shall provide for the proceedings of all oral examinations to be electronically recorded. In no case will an oral examination board be provided with confidential references on employees of the district who are competing in promotional examinations. Scores achieved by the candidate on other parts of the examination shall not be made available to the oral examination board.

45274. Examination records, including any recordings and the rating sheet of each member of the oral board for each candidate, shall be retained by the commission for a period of not less than 90 days after promulgation of an eligibility list. The commission shall prescribe procedures whereby candidates may review and protest any part of an examination. In promotional examinations for classes for which continuous examination procedures have not been authorized, the review and protest period shall be held prior to regular appointment from the eligibility list. Examination records shall not be available to the public or to any person for any purpose not directly connected with the examination and shall be considered confidential but shall, within reasonable time limits, be made available to a candidate or his representative.

45275. In a school district which has already adopted the provisions of the merit system article on September 17, 1965, appointments shall be made from the first three applicants on the eligibility list who are ready and willing to accept a position, provided that: (a) one of the top two eligibles is a relative, within the first degree of consanguinity, of an employee already working at the location where a specific position vacancy exists, or (b) one is the parent or legal guardian of an enrollee in the same elementary or secondary school or children's center where a specific position vacancy exists.

45276. The governing board shall fix the duties of all positions a part of the classified service as required by Section 45109. The board may recommend the minimum educational and work experience requirements for classified positions to the personnel commission. Minimum qualification requirements shall be subject to approval of the commission.

In approving minimum educational and work experience requirements for classified positions, the commission shall insure that such requirements reasonably relate to the duties of the position, as established by the governing board, and that they will admit an adequate field of competition. No requirements may be approved which unduly or unreasonably restrict the field of competition.

The position duties shall be prescribed by the board and qualification requirements for the position class shall be prepared and approved by the commission, required by this section, prior to issuance of an announcement calling for a competitive examination to fill position vacancies.

45277. Appointments may be made from other than the first two or three, as the case may be, applicants on the eligibility list when the ability to speak, read, or write a language in addition to English or possession of a valid driver's license is a requirement of the position to be filled. The recruitment bulletin announcing the examination shall indicate the special requirements which may be necessary for filling one or more of the positions in the class. Where such a position is to be filled, using the authority of this section, the appointment shall be made from among the highest two or three, as the case may be, applicants on the appropriate eligibility list who meet the special requirements and who are ready and willing to accept the position. If there are insufficient applicants who meet the special requirements, the commission shall certify the top applicant or applicants plus those applicants who meet the special requirements, not to exceed two or three candidates, as the case may be.

45278. Written notices concerning tests, vacancies, transfer opportunities, and other such selections of shifts, positions, assignments, classifications, or locations shall be posted at all work locations of employees who may be affected not later than 15 working days prior to the closing date of filing appropriate applications, together with the normal use of newspapers and bulletins for public notice for open or promotional vacancies. Whenever the subject of such notices may affect a probationary or permanent classified employee who will not be reporting at his work location during periods when such employee is not normally required to work, such as Christmas, Easter, summer recesses, and other paid or unpaid leaves of absences, including vacations, and who has previously requested notification, such notices shall be mailed to the employee. However, the failure of an employee to receive such notice shall not invalidate any procedure, if in fact the notice was placed in the mail and postage paid.

The foregoing provisions shall not apply to any school district which publishes and distributes to all work locations examination bulletins at least once each month, provided that records of employee requests for transfer and change of location are maintained and that the names of all candidates for transfer and change of location to a vacancy are certified to the appointing authority along with names of appropriate applicants from employment lists.

The personnel commission shall establish procedures for the maintenance of employee requests for transfer, change of location, change of shift, and notification of forthcoming examinations.

45279. A regular employee who is determined by the governing board to be incapable of performing the duties of his class because of illness or injury may, at the discretion of the governing board, be assigned duties which he is capable of performing. The position to which he is assigned shall be subject to classification by the personnel commission, but the employee shall receive no increase in a wage or

salary because of his assignment to the position unless he is appointed from an eligibility list resulting from a competitive examination. In the event that the position is classified and allocated to a higher wage or salary than that previously attained by the employee, he may be assigned to the position without competitive examination, but shall continue to receive the wage or salary of his former classification. If the position is classified and allocated to a lower wage or salary than that attained by the employee, he shall be paid the wage or salary appropriate to the position.

45280. The commission shall, by rule, provide for an open competitive examination and a promotional examination to be held at the same time for the position of business manager or for any other single position class which it declares to be at or above the level of business manager. It shall require that all educational and work experience requirements be developed to fit the needs of the position in such a manner that the position will attract competent and qualified applicants from within the classified service, among certificated personnel, or other persons meeting the minimum requirements established for the position.

Such rule shall provide: (a) that all permanent employees of the district, classified and certificated, who meet the established minimum qualifications, shall be eligible to compete in the examination as promotional candidates; (b) that promotional credits, including seniority credits, if any, shall be equally applicable to both classified and certificated promotional candidates; (c) that eligibility lists resulting from such an open competitive and promotional examination shall be merged according to the order of the examination scores into a single eligibility list, after the scores of each candidate on the promotional list have been adjusted for promotional credits, including seniority credits, if any; and (d) that the examination for any such position shall not be construed to be an entrance level position examination.

45281. The commission may by rule provide for the competition of persons employed by the governing board in positions required to have certification qualifications in promotional examinations for positions in the classified service.

45282. The commission shall, by rule, provide for an open competitive examination and a promotional examination to be held at the same time for the positions that existed or could be created, when such positions become available for competitive examination, under the provisions of subdivisions (m), (n), and (o) of Section 44065 as those subdivisions existed prior to their repeal by action of the 1965 General Session of the Legislature.

Such rule shall provide: (a) that all permanent employees of the district, classified and certificated, who meet the established minimum qualifications, shall be eligible to compete in the examination as promotional candidates; (b) that promotional credits, including seniority credits, if any, shall be equally applicable to both classified and certificated promotional candidates; (c) that eligibility

lists resulting from such an open competitive and promotional examination shall be merged according to the order of the examination scores into a single eligibility list, after the scores of each candidate on the promotional list have been adjusted for promotional credits, including seniority credits, if any; and (d) that the examination for any such position shall not be construed to be an entrance level position examination.

45283. In any school district which has geographical boundaries encompassing more than 200 square miles and which divides the area it serves into smaller areas for assignment of classified personnel, when an eligibility list is exhausted in one assignment area but there are available eligibles in another assignment area, an area eligibility list may be established for the assignment area in which the eligibility list is exhausted. The life of such new area eligibility list shall be one year. Seniority for the purpose specified in Section 45308 shall continue to be districtwide.

45284. When an open competitive examination and a promotional examination for a particular class are held at the same time, the commission may prior to the examination authorize certification for employment of candidates from the open competitive eligibility list before the promotional eligibility list has been exhausted if (1) the candidate on the open list has a higher score before adjustment for preferential credits than the score of the highest available candidate on the promotional list after seniority credits have been added, and also if (2) either the class has fewer than three positions in the class or the most recent promotional examination for the class has failed to provide an adequate number of available eligibles on a promotional list to fill all regular vacancies which developed during the first year of the life of the eligibility list.

45285. When all of the positions in a class are reclassified to a higher class, the incumbents of the positions who have been in the class for three or more years may be reclassified with their positions by the personnel commission. When a portion of the positions within a class are reclassified to a higher class an incumbent who has a continuous employment record of three or more years in one or more of the positions being reclassified may be reclassified with his position as provided by personnel commission rule.

The basis for reclassification of the position must be a gradual accretion of duties and not a sudden change occasioned by a reorganization or the assignment of completely new duties and responsibilities. Determinations as to gradual accretion will be on the basis of guidelines provided by personnel commission rules.

An employee who has been reclassified with his position shall be ineligible for subsequent reclassification with his position for a period of at least three years from the initial action.

45286. Whenever the appointing power shall require the appointment of a person to a position, the duration of which is not to exceed six months, or, in case of an appointment in lieu of an absent employee, is not to exceed the authorized absence of said

employee, he shall submit a request in which the probable duration of the appointment is stated. Eligibles shall be certified in accordance with their position on the appropriate employment list and their willingness to accept appointment to such position as limited-term employees. Limited-term employees shall be subject to such conditions affecting status and tenure during and after such employment as the commission may by rule determine.

45287. When no eligibility list exists for a position in the classified service, an employee may receive provisional appointments which may accumulate to a total of 90 working days. A 90-calendar-day interval shall then elapse during which the person will be ineligible to serve in any full-time provisional capacity. No person shall be employed in provisional capacities under a given governing board for a total of more than 126 working days in any one fiscal year, except that when no one is available on an appropriate eligibility list for a part-time position, as defined in Section 45256, successive 90 working days provisional appointments may be made to the part-time position for a total of more than 126 working days in any one fiscal year.

45288. The personnel commission may authorize the extension of a provisional employee's assignment for a period not to exceed 36 working days provided the following requirements are met:

(a) An examination for the class was completed during the first 90 working days of his provisional assignment.

(b) Evidence satisfactory to the personnel commission is presented indicating:

(1) That an adequate recruitment effort has been and is being made.

(2) That extension of the provisional assignment is necessary to carry on vital functions of the district.

(3) That the position cannot be satisfactorily filled by use of other employment lists or procedures.

45289. Successive provisional appointments of 90 working days or less each may be made in any class in the absence of an appropriate eligibility list; provided, that continuous examination procedures for the class have been authorized by the commission. Such successive provisional appointments may be made and persons employed in temporary capacities under a given governing board for a total of more than six months in any one year. Such appointments may continue for the length of time for which they were made, but may not be extended if a certification can be made from an appropriate eligibility list. While this section is in effect, it shall supersede any other provisions of this article (commencing at Section 45240) which are in conflict with this section, but only to the extent there is a conflict.

45290. The appointing power may, to prevent the stoppage of public business when an actual emergency arises and persons on eligibility lists are not immediately available, make appointments for a period not to exceed 15 working days, in accordance with

commission rule.

45291. Combinations of successive eligibility lists may be made during their first year. Eligibles on lists established within the first year of the life of another list may be placed in the order of their relative excellence in the examination on the like list, if lists so merged have been promulgated under conditions and techniques which are sufficiently similar to preserve their competitive character.

45292. The commission may by rule provide for the continuous examination of eligibles for classes of positions which the commission determines cannot be practicably filled by promotional examination only.

45293. No questions relating to political or religious opinions or affiliations, race, color, national origin or ancestry, sex, or marital status shall be asked of any applicant, or any candidate whose name has been certified for appointment, nor shall any discrimination be exercised therefor.

45294. "Veteran" as used in this article means any person who has served in the United States armed forces in time of war, or national emergency declared by the President of the United States of America, and who has been discharged or released under conditions other than dishonorable, proof of which shall be submitted to the commission at the time of the examination.

"Armed forces" means the United States Air Force, Army, Navy, Marine Corps, or Coast Guard.

45295. "Disabled veteran" as used in this article means any veteran, as defined in Section 45294, who is currently declared by the United States Veterans Administration to be 10 percent or more disabled as a result of service in the armed forces. Proof of disability shall be deemed conclusive if it is of record in the United States Veterans Administration.

45296. In the case of all entrance examinations, veterans with 30 days or more of service who become eligible for appointment by attaining the passing mark established for the examination, shall be allowed an additional credit of five points and disabled veterans shall be allowed an additional credit of 10 points, which shall be added to the percentages attained in the examinations by the veterans. Veterans shall be placed on eligible lists and be eligible for appointment in the order and on the basis of the percentages attained by them in examinations after the credit of five points, or 10 points in the case of disabled veterans, is added.

45297. Whenever during the absence of an employee of a school district or student body association operating under Sections 48930 to 48937, inclusive, in the active military service of the United States of America during any period of national emergency declared by the President of the United States of America, or during any war in which the United States of America is engaged, the position held by such employee at the time of his entrance into such military service is placed within the classified service of the district and an eligible

list is established for such position through competitive examination, the employee shall, at his request made within six months after his leaving such active military service under honorable conditions, be given forthwith an examination of substantially the same character and scope as the competitive examination through which the original eligibility list was established. The grade secured by such employee in such examination shall be deemed to be the grade he would have secured had he taken the competitive examination as a veteran and he shall be placed on the original eligibility list accordingly with all the rights and privileges to which he would have been entitled had he had such place on the original eligibility list at the time of its establishment.

45298. Persons laid off because of lack of work or lack of funds are eligible to reemployment for a period of 39 months and shall be reemployed in preference to new applicants. In addition, such persons laid off have the right to participate in promotional examinations within the district during the period of 39 months.

Employees who take voluntary demotions or voluntary reductions in assigned time in lieu of layoff or to remain in their present positions rather than be reclassified or reassigned, shall be granted the same rights as persons laid off and shall retain eligibility to be considered for reemployment for an additional period of up to 24 months; provided, that the same tests of fitness under which they qualified for appointment to the class shall still apply. The personnel commission shall make the determination of the specific period eligibility for reemployment on a class-by-class basis.

Employees who take voluntary demotions or voluntary reductions in assigned time in lieu of layoff shall be, at the option of the employee, returned to a position in their former class or to positions with increased assigned time as vacancies become available, and without limitation of time, but if there is a valid reemployment list they shall be ranked on that list in accordance with their proper seniority.

45299. Any classified employee who, after June 1, 1969, and prior to August 17, 1972, took a voluntary demotion or voluntary reduction in assigned time in lieu of layoff, and who continues to be in such status on September 23, 1974, shall, on and after September 23, 1974, be accorded the rights and benefits of the amendments to former Section 13737 made by Chapter 1034 of the Statutes of 1972; provided, however, that no appointment to a position made from a valid employment or promotional list subsequent to March 7, 1973, and prior to August 15, 1974, shall be nullified or otherwise affected by this section.

45300. Eligibility lists shall be established for a period of not less than one year except that when a list is exhausted for appointments to current vacancies, through use and eligibles being unavailable, the commission may, upon the recommendation of the officer charged with certifying eligibles, and after due notice to eligibles who may have made themselves unavailable for appointment, terminate it

before a year has expired. A list may be extended for an additional period of one year or less in the discretion of the commission.

45301. A person who has served an initial probationary period in a class not to exceed six months or 130 days of paid service, whichever is longer, as prescribed by the rules of the commission shall be deemed to be in the permanent classified service, except that the commission may establish a probationary period in a class not to exceed one year for classes designated by the commission as executive, administrative, or police classes. No employee shall attain permanent status in the classified service until he has completed a probationary period in a class. In any case the rules of the commission may provide for the exclusion of time while employees are on a leave of absence. The rights of appeal from disciplinary action prior to attainment of permanent status in the classified service shall be in accordance with the provisions of Section 45305.

45302. No person in the permanent classified service shall be demoted or removed except for reasonable cause designated by rule of the commission as detrimental to the efficiency of the service. This section shall not be construed to prevent layoffs for lack of work or lack of funds.

45303. In addition to any causes for suspension or dismissal which are designated by rule of the commission, employees in the classified service shall be suspended and dismissed in the manner provided by law for any one or more of the following causes:

(a) Knowing membership by the employee in the Communist Party.

(b) Violation of any provision in Sections 7001 to 7006, inclusive, of this code.

(c) Conduct specified in Section 1028 of the Government Code, added by Chapter 1418 of the Statutes of 1947.

45304. For reasonable causes an employee may be suspended without pay for not more than 30 days except as provided in this section or may be demoted or dismissed. In such case the personnel director shall within 10 days of the suspension, demotion, or dismissal file written charges with the commission and give to the employee or deposit in the United States registered mail with postage prepaid, addressed to the employee at his last known place of address, a copy of the charges.

Whenever an employee of a school district is charged with the commission of any sex offense as defined in Section 44010 or any narcotics offense as defined in Section 44011, or a violation of subdivision 1 of Section 261 of the Penal Code, Sections 11357 to 11361, inclusive, 11363, 11364, or 11377 to 11382, inclusive, insofar as such sections relate to, any controlled substances in paragraph (4) or (5) of subdivision (b) of Section 11056, or any controlled substances in subdivision (d) of Section 11054, except paragraphs (10), (11), (12), and (17) of such subdivision, of the Health and Safety Code by complaint, information or indictment filed in a court of competent jurisdiction, the governing board of the school district may

immediately suspend the employee for a period of time extending for not more than 10 days after the date of the entry of the court judgment; provided, that the suspension may be extended beyond such 10-day period in case the governing board gives notice within such 10-day period that it will dismiss the employee 30 days after the service of the notice, unless he demands a hearing. An employee so suspended shall continue to be paid his regular salary during the period of the suspension if and during such time as he furnishes to the school district a suitable bond, or other security acceptable to the governing board, as a guarantee that the employee will repay to the school district the amount of salary so paid to him during the period of the suspension in case the employee is convicted of such charges, or he does not return to service after such period of suspension. If the judgment determines that the employee is not guilty of such charges, or if the complaint, information or indictment is dismissed, the school district shall reimburse the employee for the cost of the bond; or, if the employee has not elected to furnish such bond, the school district shall pay to the employee his full compensation during the period of the suspension; provided, he returns to service after such period of suspension.

45305. Any employee in the permanent classified service who has been suspended, demoted, or dismissed may appeal to the commission within 14 days after receipt of a copy of the written charges by filing a written answer to the charges. Such an appeal is not available to an employee who is not in the permanent classified service except as provided by rules of the commission. An employee in the permanent classified service who has not served the time designated by the commission as probationary for the class may be demoted to the class from which promoted without recourse to an appeal or hearing by the commission, except as otherwise provided by rules of the commission; and provided, that such demotion does not result in the separation of the employee from the permanent classified service. Nothing in this section shall operate to alter the protections guaranteed under Section 45309.

45306. The commission shall investigate the matter on appeal and may require further evidence from either party, and may, and upon request of an accused employee shall, order a hearing. The accused employee shall have the right to appear in person or with counsel and to be heard in his own defense. The decision shall not be subject to review by the governing board.

45307. If the commission sustains the employee, it may order paid all or part of his full compensation from the time of suspension, demotion, or dismissal, and it shall order his reinstatement upon such terms and conditions as it may determine appropriate. The commission may modify the disciplinary action, but may not make the action more stringent than that approved by the board. In addition, the commission may direct such other action as it may find necessary to effect a just settlement of the appeal, including, but not limited to, compensation for all or part of the legitimate expenses

incurred in pursuit of the appeal, seniority credit for off-duty time pending reinstatement, transfer or change of location of the employee, and expunction from the employee's personnel record of disciplinary actions, cause, and charges which were not sustained by the commission. Upon receipt of the commission's written decision the board shall forthwith comply with the provisions thereof. When the board has fully complied with the commission's decision it shall so notify the commission in writing.

45308. Classified employees shall be subject to layoff for lack of work or lack of funds. Whenever a classified employee is laid off, the order of layoff within the class shall be determined by length of service. The employee who has been employed the shortest time in the class, plus higher classes, shall be laid off first. Reemployment shall be in the reverse order of layoff.

For purposes of this section, for service commencing or continuing after July 1, 1971, "length of service" means all hours in paid status, whether during the school year, a holiday, recess, or during any period that a school is in session or closed, but does not include any hours compensated solely on an overtime basis as provided for in Section 45128.

Nothing contained in this section shall preclude the granting of "length of service" credit for time spent on military leave of absence, or unpaid illness leave, or unpaid industrial accident leave.

"Hours in paid status" shall not be interpreted to mean any service performed prior to entering into a probationary or permanent status in the classified service of the district except service in restricted positions as provided in this chapter.

45309. Any permanent classified employee of a school district who voluntarily resigns from his permanent classified position may be reinstated or reemployed by the governing board of the district, within 39 months after his last day of paid service and without further competitive examination, to a position in his former classification as a permanent or limited-term employee, or as a permanent or limited-term employee in a related lower class or a lower class in which the employee formerly had permanent status.

If the governing board elects to reinstate or reemploy a person as a permanent employee under the provisions of this section, it shall disregard the break in service of the employee and classify him as, and restore to him all of the rights, benefits and burdens of a permanent employee in the class to which he is reinstated or reemployed.

45310. No warrant shall be drawn by or on behalf of the governing board of any district for the payment of any salary or wage to any employee in the classified service unless the assignment bears the certification of the personnel director that the person named in the assignment has been employed and assigned pursuant to this article and the rules of the commission.

Whenever the commission, after a public hearing, finds that any appointment has been made in violation of this article or the rules

of the commission as they apply to examination procedures, the commission may order that no salary warrant shall thereafter be drawn to the employee so appointed, for services rendered after the date of said order. Any violation of this article or the rules of the commission as they apply to examination procedures shall constitute grounds for the dismissal of the employee or employees guilty of such violation.

45311. The commission may conduct hearings, subpoena witnesses, require the production of records or information pertinent to investigation, and may administer oaths. It may, at will, inspect any records of the governing board that may be necessary to satisfy itself that the procedures prescribed by the commission have been complied with. Hearings may be held by the commission on any subject to which its authority may extend as described in this article.

45312. The commission may authorize a hearing officer or other representative to conduct any hearing or investigation which the commission itself is authorized by this article to conduct. Any such authorized person conducting such hearing or investigation may administer oaths, subpoena and require the attendance of witnesses and the production of books or papers, and cause the depositions of witnesses to be taken in the manner prescribed by law for like depositions in civil cases in the superior court of this state. The commission may instruct such authorized representative to present findings or recommendations. The commission may accept, reject or amend any of the findings or recommendations of the said authorized representative. Any rejection or amendment of findings or recommendations shall be based either on a review of the transcript of the hearing or investigation or upon the results of such supplementary hearing or investigation as the commission may order.

The commission may employ by contract or as professional experts or otherwise any such hearing officers or other representatives and may adopt and amend such rules and procedures as may be necessary to effectuate this section.

45313. The counsel of the governing board shall aid and represent the commission in all legal matters, and if he refuses, the commission may employ its own attorney, and the reasonable cost thereof shall constitute a legal charge against the general funds of the district.

45314. No person who is in the classified service or who is upon any eligibility list shall be appointed, demoted, or removed, or in any way discriminated against because of his political acts, opinions, or affiliations. No person in the classified service shall engage in political activities during his assigned hours of employment.

45315. No member of the governing board in any district in which the procedure has been adopted shall directly or indirectly solicit or be concerned in soliciting any assessment, contribution, or political service of any kind whatsoever for any political purpose from any person who is in the classified service or who is upon any eligibility list.

45316. No officer or employee of any governing board of any district in which the procedure has been adopted shall directly or indirectly coerce or attempt to coerce or in any way bring pressure or attempt to bring pressure upon any other such officer or employee, to support or refrain from supporting any political group for any political purpose whatever.

45317. Any person who willfully or through culpable negligence violates any of the provisions of this article is guilty of a misdemeanor. It is also unlawful for any person:

(a) Willfully by himself or in cooperation with another person to defeat, deceive, or obstruct any person with respect to his right of examination, application, or employment under this article or commission rule.

(b) Willfully and falsely to mark, grade, estimate, or report upon the examination or proper standing of any person examined or certified under this article or commission rule, or to aid in so doing, or make any false representation concerning the same or the person examined.

(c) Willfully to furnish to any person any special or secret information regarding contents of an examination for the purpose of either improving or injuring the prospects or chances of any person examined, or to be examined under this article or commission rule.

45318. In every school district coterminous with the boundaries of a city and county, employees not employed in positions requiring certification qualifications shall be employed, if the city and county has a charter providing for a merit system of employment, pursuant to the provisions of such charter providing for such system and shall, in all respects, be subject to, and have all rights granted by, such provisions; provided, however, that the governing board of the school district shall have the right to fix the duties of all of its noncertificated employees.

45319. If the governing board of a school district receives a written petition of qualified electors not less in number than 10 percent of the number voting in the last election for a member of the governing board calling for the termination of the merit (civil service) system and the system has been in operation for not less than five years, the governing board shall order the county superintendent of schools to place the question of termination of the system on the ballot at the next regular governing board member election, or the next primary or general election in a general election year, whichever is the earlier after receipt by the county superintendent of schools.

The statement of purpose of the election shall read:

“Shall the merit (civil service) system for school employees not requiring certification qualifications, as provided for in Article 6 (commencing with Section 45240) of Chapter 5 of Part 25, of Division 3 of Title 2 of the Education Code of the State of California, and which has been in operation for at least five years, be terminated by the \_\_\_\_\_ School District of \_\_\_\_\_ County (or counties, where

appropriate) on \_\_\_\_\_ (date to be specified by governing board)?”

The petition calling for the election, to be valid, must contain the statement of purpose for the election as contained in this section.

45320. If the majority of the qualified electors vote to terminate the merit system in a school district, the personnel commission shall cease to function on the date specified in the election and the law pertaining to merit system districts shall cease to have any force or effect in that district.

Simultaneously, with the termination of the merit system, the governing board shall adopt rules and regulations relating to classified school employees as required by Section 45113.

Notwithstanding an action to terminate the merit system in a school district, the provisions of Section 45221 shall be applicable at any time after at least two years have elapsed after the system has ceased to operate.

#### Article 7. Instructional Aides

45340. This article may be cited as the Instructional Aide Act of 1968. The provisions of this article shall apply to personnel referred to in Sections 35021, 44833, 44835, 54422, 54481, 54482, 54525, or any other section heretofore or hereafter enacted, who perform the duties of instructional aides.

45341. The Legislature recognizes the need to provide classroom teachers and other certificated personnel with more time to teach and to provide the means for them to utilize their professional knowledge and skills more effectively in the educational programs of the public schools. It is the intent of the Legislature to authorize the employment of instructional aides in order that classroom teachers and other certificated personnel may draw upon the services of such aides to assist them in ways determined to be useful in improving the quality of educational opportunities for pupils.

45342. Instructional aides shall not be utilized to increase the number of pupils in relation to the number of classroom teachers in any school, any school district, or in the state. Notwithstanding the foregoing provisions, class size ratios existing in special education classes prior to November 13, 1968, may be maintained or decreased, but not increased, by use of instructional aides.

All instructional aide positions in a school district shall be assigned the basic title of “instructional aide” or other appropriate title designated by the governing board. To provide for differences in responsibilities and duties, additions to the basic title may be assigned such as “instructional aide I or II” or “instructional aide—volunteer,” or other appropriate title.

45343. (a) As used in this article, “instructional aide” means a person employed to assist classroom teachers and other certificated personnel in the performance of their duties and in the supervision of pupils and in instructional tasks which, in the judgment of the

certificated personnel to whom the instructional aide is assigned, may be performed by a person not licensed as a classroom teacher.

(b) "Any school district" means a school district or a county superintendent of schools who employs classroom teachers in the public schools.

45344. (a) Subject to the provisions of this article, any school district may employ instructional aides to assist classroom teachers and other certificated personnel in the performance of duties as defined in Section 45343. An instructional aide shall perform only such duties as, in the judgment of the certificated personnel to whom the instructional aide is assigned, may be performed by a person not licensed as a classroom teacher. These duties shall not include assignment of grades to pupils. An instructional aide need not perform such duties in the physical presence of the teacher but the teacher shall retain his responsibility for the instruction and supervision of the pupils in his charge.

(b) Educational qualifications for instructional aides shall be prescribed by the school district employer and shall be appropriate to the responsibilities to be assigned.

45345. Notwithstanding the provisions of Section 48950, no instructional aide shall give out any personal information concerning any pupil who is not his own child or ward, except under judicial process, to any person other than a teacher or administrator in the school which the pupil attends. A violation of this section may be a cause for disciplinary action, including dismissal.

45346. Classroom teachers and other certificated personnel shall not be required to hold a standard supervision credential or a standard administration credential as a prerequisite to the supervision and direction of instructional aides.

45347. (a) An instructional aide shall not be deemed a certificated employee for the purposes of apportioning state aid and no regrouping of pupils with instructional aides shall be construed as a class for apportionment purposes.

(b) Instructional aides shall be classified employees of the district, and shall be subject to all of the rights, benefits, and burdens of the classified service, except as specified in Section 45105 for "restricted" positions.

45348. The school district shall pay to each person employed as an instructional aide compensation at a rate not less than the minimum hourly rate prescribed by federal law.

45349. Notwithstanding the provisions of this article, or any other provisions of law, a school district may utilize volunteers in the supervision and instruction of pupils, but any such volunteer shall be subject to the provisions of Section 35021 and this article.

#### Article 8. Teacher Aides

45360. It is the intent and purpose of the Legislature that teacher aides be employed in the elementary schools of the state, specifically

in grades one through six, to the end of assisting classroom teachers in carrying out activities directly related to the classroom instruction of pupils. From the moneys specially appropriated therefor by the Legislature, grants shall be made to school districts pursuant to the specifications of this article for teacher aide projects approved by the State Board of Education.

45361. The State Board of Education shall establish rules and regulations for the administration of this article which shall include, but not be limited to, the criteria upon which grants shall be made within the amounts appropriated by the Legislature and among the several districts of the state which may apply for such grants.

45362. School districts shall establish standards and procedures for the implementation and conduct of teacher aide projects, authorized under the provisions of this article, which shall meet, but not be limited to, the provisions of Section 45361. Such standards and procedures shall be made a part of a school district grant application as described in this article.

45363. The State Board of Education shall direct that apportionment grants for teacher aide projects be made to school districts on the basis of two thousand dollars (\$2,000) per school year per teacher aide employed, diminished by an amount derived by multiplying the ratio which the assessed valuation per unit of average daily attendance during the preceding fiscal year in grades kindergarten through eight in the district bears to the assessed valuation per unit of such average daily attendance in the state times one thousand dollars (\$1,000).

45364. All funds received by school districts under the provisions of this article shall be used for and restricted to the purpose of paying the salaries of teacher aides employed under the provisions of this article.

45365. Apportionments for the purpose of this article shall be made upon the order of the Superintendent of Public Instruction and by warrant of the State Controller. Funds apportioned shall be expended by school districts precisely in accordance with the rules and regulations established by the State Board of Education.

45366. Apportionments to a school district shall be in the form of grants, no part of which shall be required to be repaid to the state by the school district.

45367. Programs on projects conducted pursuant to this article shall be deemed a program of compensatory education, or an element thereof, and shall be coordinated with, and be an integral part of, the school district's overall compensatory education plan. The programs and projects shall be subject to the provisions of Section 54461.

#### Article 9. Retraining and Study

45380. In enacting this article the Legislature recognizes that technological and other changes are occurring which may displace

otherwise desirable classified employees in the public school systems of the state. The Legislature intends that the enactment of this article will encourage classified employees to prepare themselves for the changes that are occurring and will also encourage governing boards to utilize the article to further study and retraining by classified personnel.

45381. The governing board of any school district may grant any classified employee a leave of absence not to exceed one year for the purpose of permitting study by the employee or for the purpose of retraining the employee to meet changing conditions within the district.

The governing board may provide that such a leave of absence shall be taken in separate six-month periods or in any other appropriate periods, rather than for a continuous one-year period; provided, that the separate periods of leave of absence shall be commenced and completed within a three-year period. Any period of service by the individual intervening between the authorized separate periods shall comprise a part of the service required for a subsequent leave of absence for study or retraining purposes.

In school districts operating under the merit system, such leaves of absence shall be granted in accordance with rules established by the personnel commission.

45382. No leave of absence shall be granted under this article to any employee for study purposes who has not rendered service to the district for at least seven consecutive years, or for retraining purposes who has not rendered service to the district for at least three consecutive years preceding the granting of the leave, and no more than one such leave of absence shall be granted in each seven- or three-year period, respectively. The governing board, or personnel commission in merit system districts, may prescribe standards of service which shall entitle the employee to the leave of absence.

Any leave of absence granted under this article shall not be deemed a break in service for any purpose, except that such leave shall not be included as service in computing service for the granting of any subsequent leave under this article.

45383. Every employee granted a leave of absence pursuant to this article may be required to perform such services during the leave as the governing board of the district and the employee may agree upon in writing. The employee shall receive such compensation during the period of the leave as the governing board and the employee may agree upon in writing, which compensation shall be not less than the difference between the salary of the employee on leave and the salary of a substitute employee in the position which the employee held prior to the granting of the leave. However, in lieu of such difference, the board may pay one-half of the salary of the employee on leave or any additional amount up to and including the full salary of the employee on leave.

45384. Compensation granted by the governing board to the employee on leave may be paid in two equal annual installments

during the first two years of service rendered in the employ of the governing board following the return of the employee from the leave of absence. The compensation shall be paid the employee while on the leave of absence in the same manner as if the employee were working for the district, upon the furnishing by the employee of a suitable bond indemnifying the governing board of the district against loss in the event that the employee fails to render at least two years' service in the employ of the governing board following the return of the employee from the leave of absence. The bond shall be exonerated in the event the failure of the employee to return and render two years' service is caused by the death or physical or mental disability of the employee. If the governing board finds, and by resolution declares, that the interests of the district will be protected by the written agreement of the employee to return to the service of the district and render at least two years' service therein following his return from the leave, the governing board in its discretion may waive the furnishing of the bond and pay the employee on leave in the same manner as though a bond is furnished.

45385. Where one governing board serves as the governing board of two or more separate districts, an employee may fulfill the service requirements provided in Sections 45382 or 45384, or both, by service in any one or more of the districts under the jurisdiction of such governing board.

45386. This article shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 6 (commencing with Section 45240) of this chapter or other applicable provisions of this code that may hereafter be enacted.

45387. The governing board of any school district may grant reimbursement of the costs, including tuition fees, to any permanent classified employee who satisfactorily completes approved training to improve his job knowledge, ability, or skill. Programs eligible for such reimbursement shall include, but not be limited to, courses of study at approved academic institutions, seminars and training institutes conducted by recognized professional associations, and conferences, meetings and such other training programs as are designed to upgrade the classified service and to encourage retraining of employees who may otherwise be subject to layoff as the result of technological changes. Eligibility for reimbursement shall be in accordance with rules established by the personnel commission in those districts which have adopted a merit system. Provisions of this section shall not apply to any employee who is receiving training and is eligible for reimbursement by any other governmental agency, organization, or association.

#### Article 10. Bilingual Office Employees

45400. The Legislature hereby finds that when a public school that provides instruction in kindergarten or any of grades 1 through 12 has a substantial number of pupils who, together with their

parents or guardians, speak a single primary language other than English, and does not have in its employ one or more bilingual employees fluent in both English and the primary language of such pupils and their parents or guardians, a serious educational disadvantage results for the pupils. Effective communication between the school authorities and both the affected pupils and their parents and guardians is absolutely essential to an effective educational program. It is, therefore, the intent of the Legislature in enacting this article to remove some of the barriers that face pupils who, together with their parents or guardians, speak a single primary language other than English, and to provide them, through more effective communication, with the most beneficial education possible from the public elementary schools, junior high schools, and high schools of this state.

45401. When at least 15 percent of the pupils enrolled in a public school that provides instruction in kindergarten or any of grades 1 through 12 speak a single primary language other than English, the governing board of the school district in which such school is located shall hire a bilingual person for the administrative office of each such school, as soon as a position is available as provided by Section 45403, to serve as a bilingual community liaison person or a paraprofessional, clerical, or other qualified employee of each such school, in accordance with the provisions of Chapter 5 (commencing with Section 45100) of this part, who is fluent in both English and in the primary language spoken by such pupils and their parents or guardians.

45402. The bilingual person employed pursuant to this article shall have as a principal function the communication with parents or guardians of such students in the primary language of the parents or guardians.

The governing board of the school district may make additional, reasonable assignments of duties for such bilingual employees.

45403. This article shall not be construed as requiring school districts to replace existing classified personnel or to employ additional classified personnel. However, in any case in which additional classified positions are added to the administrative staff of a school which does not already employ a person as described in Section 45401, or if a vacancy is to be filled in a classified position in the administrative staff of such a school, the provisions of Section 45401 shall be adhered to in filling such position.

## DIVISION 4. INSTRUCTION AND SERVICES

PART 26. ATTENDANCE FOR COMPUTING  
APPORTIONMENTS

## CHAPTER 1. GENERAL PROVISIONS

## Article 1. Records

46000. Attendance in all schools and classes shall be recorded and kept according to regulations prescribed by the State Board of Education, subject to the provisions of this chapter.

## Article 2. Absences

46010. (a) The total days of attendance of a pupil upon the schools and classes maintained by a school district, or schools or classes maintained by the county superintendent of schools during the fiscal year shall be the number of days school was actually taught for not less than the minimum schooldays during the fiscal year less the sum of his absences.

(b) The absence of a pupil from school or class shall not be deemed an absence in computing the attendance of a pupil if such absence was:

- (1) Due to his illness, or
- (2) Due to quarantine under the direction of a county or city health officer, or
- (3) For the purpose of having medical, dental, or optometrical services rendered, or
- (4) For the purpose of attending the funeral services of a member of his immediate family, so long as such absence is not more than one day if the service is conducted in California and not more than three days if the service is conducted outside California, or
- (5) For the purpose of jury duty in the manner provided for by law.

“Immediate family,” as used in this subdivision, has the same meaning as that set forth in the last sentence of Section 45194 except that references therein to “employee” shall be deemed to be references to “pupil.”

The provisions of this subdivision shall not apply in the case of pupils attending summer school, adult schools, and classes, or regional occupational centers and programs other than pupils concurrently enrolled in a regular high school program and a regional occupational center or program.

46011. Absences due to illness or quarantine shall be verified by the district or the county superintendent of schools in such manner as the Superintendent of Public Instruction may provide.

46012. For purposes of any procedure for verification of absences from school, a student 18 years of age or over, with respect to his own

absences from school, shall have all of the responsibilities and powers which, in the case of a minor, would be charged to the parent, guardian, or other person having charge or control of the minor.

46014. Pupils, with the written consent of their parents or guardians, may be excused from school in order to participate in religious exercises or to receive moral and religious instruction at their respective places of worship or at other suitable place or places away from school property designated by the religious group, church, or denomination, which shall be in addition and supplementary to the instruction in manners and morals required elsewhere in this code. Such absence shall not be deemed absence in computing average daily attendance, if all of the following conditions are complied with:

(a) The governing board of the district of attendance, in its discretion, shall first adopt a resolution permitting pupils to be absent from school for such exercises or instruction.

(b) The governing board shall adopt regulations governing the attendance of pupils at such exercises or instruction and the reporting thereof.

(c) Each pupil so excused shall attend school at least the minimum school day for his grade for elementary schools, and as provided by the relevant provisions of the rules and regulations of the State Board of Education for secondary schools.

(d) No pupil shall be excused from school for such purpose on more than four days per school month.

It is hereby declared to be the intent of the Legislature that this section shall be permissive only.

## CHAPTER 2. ATTENDANCE—MAXIMUM CREDIT—MINIMUM DAY

### Article 1. Generally

46100. The governing board of each school district shall, subject to the provisions of this chapter, fix the length of the schoolday for the several grades and classes of the schools maintained by the district.

### Article 2. Kindergarten and Elementary Schools

46110. No pupil in a kindergarten or in any grade of an elementary school shall be credited with more than one day of attendance in any calendar day and nothing in this article shall be construed to the contrary.

46111. No pupil in a kindergarten shall be kept in school in any day more than four hours exclusive of recesses.

46112. The minimum schoolday in grades 1, 2, and 3 in elementary schools, except in opportunity schools, classes, or programs, is 230 minutes, except where the governing board of a school district has prescribed a shorter length for the schoolday

because of lack of school facilities which requires double sessions, in which case the minimum schoolday in such grades shall be 200 minutes.

46113. The minimum schoolday in grades 4, 5, 6, 7, and 8 in elementary schools and in special day and evening classes of an elementary school district, except in opportunity schools, classes, or programs, is 240 minutes.

46114. (a) The minimum schoolday in grades 1, 2, and 3 in elementary schools may be computed by determining the number of minutes of attendance in any 10 consecutive schooldays and dividing that number by 10. If the resulting quotient is 230 or more, the pupils shall be deemed to have complied with Section 46112, even if the number of minutes attended in any one schoolday is less than 230, but not less than 170.

(b) The minimum schoolday in grades 4, 5, 6, 7, and 8 in elementary schools may be computed by determining the number of minutes of attendance in any 10 consecutive schooldays and dividing that number by 10. If the resulting quotient is 240 or more, the pupils shall be deemed to have complied with Section 46113, even if the number of minutes attended in any one schoolday is less than 240, but not less than 180.

No computation authorized by this section shall result in any increase in state apportionments.

46115. The minimum schoolday in kindergartens and in grades 1 to 8, inclusive, in elementary schools, is exclusive of noon intermissions and, except in kindergartens, exclusive of recesses.

46116. With respect to educationally handicapped pupils provided instruction pursuant to Chapter 4 (commencing with Section 56600) of Part 30 of this division, the minimum schoolday in kindergarten is 180 minutes; in grades 1, 2, and 3 in elementary schools is 200 minutes; and in grades 4, 5, 6, 7, and 8 in elementary schools is 240 minutes.

46117. The minimum schoolday for pupils in kindergartens is 180 minutes inclusive of recesses, and no units of average daily attendance shall be credited for attendance in kindergarten classes if the minimum schoolday of such classes is less than 180 minutes.

46118. A single-session kindergarten class shall meet all of the following criteria:

(a) The class is maintained for a minimum of 180 minutes per schoolday.

(b) The kindergarten class teacher is assigned to only one session of kindergarten daily as a principal teacher.

(c) The kindergarten teacher is a full-time certificated employee.

(d) The full-time duties of the kindergarten teacher are directly related to the kindergarten program.

46119. The governing board of a school district which has fewer than 40 pupils enrolled in kindergarten classes may make application to the Superintendent of Public Instruction requesting approval to maintain two kindergarten classes of 150 minutes each inclusive of

recesses on the same day which are taught by the same teacher. The average daily attendance for such classes shall be adjusted by a multiplication factor of 0.500.

### Article 3. Junior High School and High School

46140. No pupil in a high school, other than a pupil in a vocational education program occupationally organized and conducted under federal approval, evening high school, continuation high school, or continuation education class, shall be credited with more than one day of attendance in any calendar day and nothing in this article shall be construed to the contrary.

46141. The minimum schoolday in any high school, except in an evening high school, a regional occupational center, an opportunity school and in opportunity classes, a continuation high school, in continuation education classes, in late afternoon or Saturday occupationally organized vocational training programs conducted under a federally approved plan for vocational education, and for students enrolled in a work experience education program approved under the provisions of Article 7 (commencing with Section 51760) of Chapter 5 of Part 28 of this division, is 240 minutes.

46142. The minimum schoolday in any junior high school or high school described in Section 46141 may be computed by determining the number of minutes of attendance in any 10 consecutive schooldays and dividing that number by 10. If the resulting quotient is 240 or more, the pupils shall be deemed to have complied with Section 46141, even if the number of minutes attended in any one schoolday is less than 240, but not less than 180.

No computation authorized by this section shall result in any increase in state apportionments.

46143. With respect to educationally handicapped pupils provided instruction pursuant to Chapter 4 (commencing with Section 56600) of Part 30 of this division, the minimum schoolday in any high school is 240 minutes.

46144. The minimum day in special day or Saturday vocational training programs and for students enrolled in a work experience education program approved under the provisions of Article 7 (commencing with Section 51760) of Chapter 5 of Part 28 of this division is 180 minutes.

46145. Notwithstanding Section 46141, the governing board of a school district may permit a 12th-grade student in his last semester or quarter, as the case may be, before graduation, who would complete all of the requirements for graduation by attending high school, except courses of physical education, for less than 240 minutes each day, to attend high school for less than a minimum day of 240 minutes, upon the written request of a parent or legal guardian or upon his own written request if he is 18 years of age or over. Attendance pursuant to this section shall, for apportionment purposes and for school district revenue limitation purposes, be

deemed to be attendance for a minimum day of 240 minutes.

46146. A day of attendance in grades 11 and 12 is 180 minutes of attendance.

46147. Notwithstanding Section 46144, the governing board of any school district may permit a 12th-grade student in his last semester or quarter, as the case may be, before graduation, who is enrolled in a work experience education program approved under the provisions of Article 7 (commencing with Section 51760) of Chapter 5 of Part 28 (commencing with Section 51000) of this division and who would complete all of the requirements for graduation by attending high school, except courses of physical education, for less than 180 minutes each day, to attend high school for less than a minimum day of 180 minutes, upon the written request of a parent or legal guardian or upon his own request if he is 18 years of age or over. Attendance pursuant to this section shall, for apportionment purposes, be deemed to be attendance for a minimum day of 180 minutes.

#### Article 4. Alternative Schedule—Junior High and High School

46160. Notwithstanding any other provision of law, the governing board of a school district which maintains a junior high school or high school may schedule classes in such schools so that each pupil attends classes for at least 1,200 minutes during any five-school day period.

Under such a schedule, any pupil may be authorized to attend school for less than the total number of days in which the school is in session during a week as long as he attends the required number of minutes per five-school day period.

Computations authorized by this section shall not result in an increase in state apportionments to a school district.

46161. If a pupil attends classes pursuant to a schedule adopted under the authority of this chapter, he shall be deemed to have complied with all of the requirements of this code relating to school attendance.

46162. Prior to implementing a program under the provisions of this chapter in any school of the district, the school district governing board shall consult in good faith in an effort to reach agreement with the certificated and classified employees of the school, with the parents of pupils who would be affected by the change, and with the community at large. Such consultation shall include at least one public hearing for which the board has given adequate notice to the employees and to the parents of pupils affected.

#### Article 5. Minimum Day—Continuation Schools

46170. In continuation high schools and continuation education classes, a day of attendance is 180 minutes of attendance but no pupil in any such school or class shall be credited with more than 15 hours of attendance in any calendar week.

### Article 6. Opportunity Schools

46180. The minimum day in an opportunity school or opportunity class is 180 minutes. A pupil may be enrolled in an opportunity program for not less than a class period of the school, nor more than 179 minutes per day. Attendance for a pupil enrolled in an opportunity program shall be credited to the regular class attendance.

A pupil who is enrolled in both an opportunity program and a regular school, shall attend school for a period of time not less than the minimum schoolday required for the grade level in which he is enrolled.

### Article 7. Adult School

46190. In classes for adults, a day of attendance is 180 minutes of attendance but no student shall be credited with more than 15 clock hours of attendance during any one school week unless he is enrolled in a class in elementary subjects, a class for which high school credit is given, a class in English for foreigners, a class in citizenship, or a class in a trade or industrial subject as trade or industrial subject is defined by the State Board of Education for grades 7 to 12, inclusive.

46191. In classes for adults maintained for adults in any county jail, or any county industrial farm or county or joint county road camp, a day of attendance is 180 minutes of attendance; but no pupil in such a class shall be credited with more than one day of attendance in any calendar day, nor with more than 15 clock hours of attendance during any one school week.

46192. Each clock hour of teaching time devoted to the individual instruction of physically handicapped adults who are patients in a tuberculosis ward or hospital maintained by one or more counties shall count as one day of attendance but no such adult shall be credited with more than one day of attendance in any calendar day.

## CHAPTER 3. AVERAGE DAILY ATTENDANCE

### Article 1. General Provisions

46300. (a) In computing the average daily attendance of a school district, there shall be included only the attendance of pupils while engaged in educational activities required of such pupils and under the immediate supervision and control of an employee of the district who possessed a valid certification document, registered as required by law, authorizing him to render service in the capacity and during the period in which he served. For the purposes of computing the average daily attendance of high school students in a school district, attendance shall also include pupil attendance and participation in an independent study program under the coordination, evaluation, and general, but not immediate, supervision of an employee of the

district who possessed a valid certification document. The nature, manner, and place of conducting any independent study program shall be determined by the school district pursuant to rules and regulations adopted by the State Board of Education and shall be an integral part of any decision pursuant to Section 48907.5 to suspend the expulsion action of the board. The school district shall ensure that the components of each individual study program for each individual pupil shall be set out in writing. A pupil enrolled in an independent study program shall not be credited with more than one day of attendance in any calendar day, and shall be a full-time student enrolled in regular classes meeting the requirements set forth in Section 46141.

(b) For the purpose of work experience education programs in the secondary schools meeting the standards of the California State Plan for Vocational Education, "immediate supervision" of off-campus work training stations means pupil participation in on-the-job training as outlined under a training agreement, coordinated by the school district under a state-approved plan, wherein the employer and certificated school personnel share the responsibility for on-the-job supervision. The pupil-teacher ratio in any such work experience program shall not exceed 125 students per full-time equivalent certificated coordinator. A pupil enrolled in such work experience program shall not be credited with more than one day of attendance in any calendar day, and shall be a full-time student enrolled in regular classes meeting the requirements set forth in Section 46141 or 46144.

(c) For the purposes of the rehabilitative schools, classes, or programs described in Section 48907.5, "immediate supervision" in such schools, classes or programs means pupil participation in such programs wherein the person to whom the pupil is required to report for training, counseling, tutoring, or other prescribed activity shares the responsibility for the supervision of the pupils in the rehabilitative activities with certificated personnel of the district. Such programs shall be approved by the Department of Education and certified by the county superintendent of schools.

A pupil enrolled in a rehabilitative school, class, or program shall not be credited with more than one day of attendance in any calendar day.

46301. Whenever it is necessary to compute the average daily attendance of a school of a district for any certain purpose and no provision is made for the computation thereof for such purpose, the average daily attendance of the school shall be computed by dividing the total number of days of pupil attendance allowed by the number of days school was actually taught in the regular day schools of the district, exclusive of Saturdays or Sundays.

46302. Where in a high school or elementary school four terms of school of at least 12 weeks each are maintained during a fiscal year, and where the course of instruction is so arranged that students may complete a full year's work in any three terms, the total number of

days of pupils attendance shall be divided by the greatest number of days school was actually taught in any three of the four terms, but in no case shall the divisor be less than 175.

46303. (a) If any computation of average daily attendance made under, or necessitated by, any provision of law, results in a fraction of less than one-half of a unit, the average daily attendance shall be taken as the next lowest whole number, except that if such computation results in an average daily attendance of less than one unit, the average daily attendance shall be deemed to be one unit; but if the fraction is one-half or more of a unit, the average daily attendance shall be taken as the next highest whole number.

(b) Whenever any reference is made to a specific whole number of units of average daily attendance said number shall include any fraction above said number which is less than one-half of a unit, and any fraction of one-half or more of a unit above the next lowest whole number.

46304. Notwithstanding anything in this code to the contrary when as a result of the unification or other reorganization of school districts, or the change of school district boundaries, and if the Superintendent of Public Instruction determines that a school district in which pupils reside does not have suitable quarters in which to maintain school for all the day pupils of the district, or that for other good and sufficient reasons the education of pupils in the district in which they reside is not practical or in the best interests of such pupils, the governing board of the district of residence shall contract with the governing board of another school district for the education of those pupils for whom suitable quarters are not available, or who should be educated in another district, as determined by the Superintendent of Public Instruction. No contract for the education of pupils under this paragraph shall be authorized subsequent to the close of the third fiscal year following that in which the district of residence is formed or reorganized, or the boundaries of the district changed, for all purposes.

Such contract shall provide for the payment of tuition in such amount and in the manner as may be agreed upon by the governing board of the district of attendance and the governing board of the district of residence. The tuition agreed upon shall not be an amount in excess of the actual cost to the district of attendance for the education of such pupils, less federal funds apportioned or allocated to the district of attendance on account of such pupils, and shall be payable during the current school year of attendance.

Any contract for the education of pupils residing in a school district made by the governing board of the district in accordance with the provisions of this section shall be deemed for all purposes to be or have been the maintenance of a school within the boundaries of the district. The average daily attendance of all pupils attending school in a district other than the district in which they reside, pursuant to such contract, shall be credited to the district of residence for apportionment purposes.

The provisions of this section shall apply to any contract made by governing boards of school districts pursuant to this section during the fiscal year 1953-54, and thereafter, and attendance of pupils under such a contract shall be credited in the manner prescribed by this section.

46305. Each elementary, high school, and unified school district shall report to the Superintendent of Public Instruction on forms prepared by the Department of Education in addition to all other attendance data as required, the active enrollment as of the third Wednesday of each school month and the actual attendance on the third Wednesday of each school month; except that if such day is a school holiday, the active enrollment and actual attendance of the first immediate preceding schoolday shall be reported. "Active enrollment" on a day a count is taken means the pupils in enrollment in the regular schooldays of the district on the first day of the school year on which the schools were in session, plus all later enrollees, minus all withdrawals since that day.

46306. Notwithstanding any other provision of law, the average daily attendance of pupils enrolled in summer schools shall be credited to the school district in the fiscal year in which the last day of the summer school falls.

## Article 2. Kindergartens and Elementary Schools

46320. The units of average daily attendance in the elementary schools of a district for a fiscal year shall be computed by dividing the total number of days of pupils attendance in all kindergarten and elementary schools and classes of the district during the fiscal year by the number of days school was actually taught in the regular day elementary schools of the district during the fiscal year, plus the units of average daily attendance credited to the district on account of the education of seventh and eighth grade pupils in a junior high school pursuant to Section 46333.

For the purposes of this article, a day of attendance in special training schools or classes defined by Section 56515 is based on a 180-minute minimum day. When the minimum day is less than 180 minutes, the average daily attendance shall be adjusted by a multiplication factor of 0.417.

## Article 3. High Schools

46330. The average daily attendance in the high schools of a district other than evening high schools, continuation high schools, and continuation education classes, for a fiscal year are the quotient arising from dividing the total number of days of pupils' attendance allowed in the regular day high schools, summer schools, special high school classes, and the part-time vocational courses of the district, exclusive of the number of days of pupils' attendance in the seventh and eighth grades of junior high schools, during the fiscal year by the

number of days school was actually taught in the regular day schools of the district during the fiscal year, exclusive of Saturdays or Sundays.

46331. The units of average daily attendance in the evening high schools, continuation high schools, and continuation education classes of a district for a fiscal year are the quotient arising from dividing the total number of days of pupils' attendance in such high schools and classes by 175.

46332. The total units of average daily attendance in the high schools of a district shall be total units of average daily attendance computed under Sections 46330 and 46331.

46333. The units of average daily attendance for a fiscal year of pupils residing in any elementary school district and attending the seventh and eighth grades of a junior high school shall be determined separately and shall be computed by dividing the total number of days of pupils' attendance in said grades by the number of days school was actually taught during the fiscal year in the regular day high schools of the district maintaining the junior high school. The average daily attendance so computed shall be credited to the elementary school district in which the pupils reside.

#### Article 4. Opportunity Schools

46340. Units of average daily attendance in the opportunity schools or classes for a fiscal year are the quotient arising from dividing the total number of days of pupils' attendance in such schools or classes during the fiscal year by 175.

#### Article 5. Adult Classes

46350. The units of average daily attendance in classes for adults for a fiscal year maintained by a school district shall be computed by dividing the total days of pupils' attendance in such classes during the fiscal year by 175.

46351. Whenever two or more school districts have entered into an interdistrict attendance agreement whereby one of the districts shall provide for the adult education classes for all districts included in the agreement, the average daily attendance of adults attending such classes shall, for apportionment purposes, be reported by and credited to the district in which such adult resides. This section shall only apply to those cases in which the school district providing adult education is a unified school district situated in a county of the sixth class and having, for the 1969-1970 school year, a high school average daily attendance of 9,600 or more.

#### Article 6. County School Service Fund

46360. The average daily attendance of physically handicapped elementary pupils given instruction by a county superintendent of

schools and whose attendance is credited to the county school service fund, shall be computed by dividing the total days of attendance of such pupils during the fiscal year by 175.

46361. The average daily attendance of physically handicapped pupils of secondary grade given instruction by a county superintendent of schools and whose attendance is credited to the county school service fund, shall be computed by dividing the total days of attendance of such pupils during the fiscal year by 175.

46362. The average daily attendance of mentally retarded pupils given instruction by a county superintendent of schools shall be computed by dividing the total days of attendance of such pupils during the fiscal year by 175 and the average daily attendance so computed shall be credited to the county school service fund; provided, however, that the average daily attendance of mentally retarded pupils coming within the provisions of Section 56515 for the purpose of computation of transportation allowances under Section 41863, subdivision (b), shall be computed by dividing the total number of days of attendance of such pupils during the fiscal year, including the days of attendance at an authorized summer session, by 175.

46363. Mentally retarded pupils who come within the provisions of Section 56501 and who are enrolled in a work-study program approved by the Department of Education shall be credited, for apportionment purposes, one full day of attendance for each day of attendance in the approved program. The average daily attendance of mentally retarded pupils enrolled in approved programs shall be computed by dividing the total number of days of attendance of the pupils by the number of days taught in the regular schools of the district. No such pupils shall be credited with more than five days of attendance per calendar week or more than the number of calendar days such special school or class is maintained by the district in each fiscal year.

46364. The average daily attendance of pupils attending an elementary school or secondary school maintained by a county superintendent of schools for the education of persons in a juvenile hall or in a juvenile home or camp, shall be computed by dividing the total days of pupils attendance in the school during the fiscal year by 175 and the average daily attendance so computed shall be credited to the county school service fund.

46365. The average daily attendance of educationally handicapped elementary pupils given instruction by a county superintendent of schools and whose attendance is credited to the county school service fund, shall be computed by dividing the total days of attendance of such pupils during the fiscal year by 175.

46366. The average daily attendance of educationally handicapped pupils of secondary grade given instruction by a county superintendent of schools and whose attendance is credited to the county school service fund, shall be computed by dividing the total days of attendance of such pupils during the fiscal year by 175.

46367. Computation of average daily attendance shall not include minors between the ages of 18 months and three years who are:

(a) Physically handicapped minors who receive instruction pursuant to Section 56713.

(b) Minors with speech disorders or defects who receive instruction pursuant to Section 56716.

(c) Minors who are deaf or hard of hearing who receive instruction pursuant to Section 56716.

#### Article 7. County School Tuition Fund

46380. The average daily attendance for the fiscal year of pupils residing in any county of this state and attending a school in an adjoining state under Article 5 (commencing with Section 1330) of Chapter 2, Article 1 (commencing with Section 1600) of Chapter 5, Article 1 (commencing with Section 2000) of Chapter 7, Chapter 8 (commencing with Section 2100), Chapter 10 (commencing with Section 2300), of Part 2 of Division 1 of Title 1, shall be computed by dividing the total number of days of attendance of such pupils in the school by the number of days the school was maintained during said fiscal year, but by not less than 175, and the average daily attendance so computed shall be credited to the county school tuition fund.

#### Article 8. Emergency Average Daily Attendance

46390. Where a school in a district maintaining more than one school is closed for a part of a term by order of a city or county board of health or of the State Board of Health, or because of fire, flood, impassable roads, epidemic, or other emergency, or by an order provided for in Section 41422, the average daily attendance of the school shall be estimated separately, as provided in Section 46392, and added to the average daily attendance of the other schools of the district.

46391. Whenever any attendance records of any district have been lost or destroyed, making it impossible for an accurate report on average daily attendance for the district for any fiscal year to be rendered, which fact shall be shown to the satisfaction of the Superintendent of Public Instruction by the affidavits of the members of the governing board of the district and the county superintendent of schools, the Superintendent of Public Instruction shall estimate the average daily attendance of such district. The estimated average daily attendance shall be deemed to be the actual average daily attendance for that fiscal year for the making of apportionments to the school district from the State School Fund.

46392. Whenever the average daily attendance of any school district during any fiscal year has been materially decreased during any fiscal year because of:

- (a) Fire,
- (b) Flood,

- (c) Impassable roads,
- (d) An epidemic,
- (e) The imminence of a major safety hazard as determined by the local law enforcement agency,
- (f) A strike involving transportation services to pupils provided by a nonschool entity, or
- (g) An order provided for in Section 41422,

such fact shall be established to the satisfaction of the Superintendent of Public Instruction by affidavits of the members of the governing board of the school district and the county superintendent of schools. The average daily attendance of the district for the fiscal year shall be estimated by the Superintendent of Public Instruction in such manner as to credit to the school district for determining the apportionments to be made to the district from the State School Fund approximately the total average daily attendance which would have been credited to the school district had the emergency not occurred or had the order not been issued.

The provisions of this section shall apply to any average daily attendance which occurs during any part of a school year.

#### CHAPTER 4. HANDICAPPED PUPILS—ATTENDANCE REQUIREMENTS

##### Article 1. Physically Handicapped Pupils

**46500.** Attendance of physically handicapped pupils in a graded special class for the same number of minutes as constitute a day of attendance in the same grade of regular classes shall constitute a day of attendance, except for such minors 16 years of age and over who are enrolled in an approved occupational training program or work experience education program. Each clock hour of teaching time devoted to individual instruction of physically handicapped pupils shall count as one day of attendance. Whenever one to four physically handicapped pupils are instructed at the same time by the same teacher in a remedial class conducted by a school district or the county superintendent of schools, the total attendance credited for such pupils shall equal one unit of attendance for each 60 minutes of instruction. The average daily attendance of all physically handicapped pupils shall be computed by dividing the total number of days of attendance of the pupils by the number of days taught in the regular schools of the district.

Notwithstanding any provision of this code to the contrary, however, when a physically handicapped minor 16 years of age or over is enrolled in an approved occupational training program pursuant to Sections 56070 and 56071, two clock hours of attendance in a special day school or class in combination with two clock hours of attendance in such an occupational training program shall count as one day of attendance.

Notwithstanding any provision of this code to the contrary,

however, when a physically handicapped minor 16 years of age or over is enrolled in an approved off-campus work experience education or work study program, one day of attendance may consist of either: (a) two class hours of attendance in a special or regular day class and two clock hours of attendance in such a program; or, (b) three class hours of attendance in a special or regular day class and one clock hour of attendance in such a program.

No such pupil shall be credited with more than five days of attendance per calendar week or more than the number of calendar days such special day school or class is maintained in such fiscal year.

46501. With respect to physically handicapped pupils given instruction at home or in a hospital or in the case of minors with speech disorders or defects who may be admitted at the age of three years for individual or small group instruction of four pupils or less at the school, each clock hour of teaching time devoted to the instruction of such pupils shall count as one day of attendance. No provision of this chapter limiting the number of days of attendance with which a pupil may be credited in any one calendar day is applicable to such pupils but no such pupil shall be given individual instruction for more than three hours in any one day or credited with more days of attendance for individual instruction during any fiscal year than the number of legal calendar days school may be maintained during such fiscal year.

46502. The attendance of all physically handicapped pupils given instruction by a school district, including those instructed under cooperative arrangements with the Bureau of Vocational Rehabilitation of the State Department of Education, shall be reported annually to the county superintendent of schools together with all other attendance on forms provided by the Superintendent of Public Instruction.

## Article 2. Educationally Handicapped Pupils

46510. Attendance of educationally handicapped pupils, as identified pursuant to Chapter 4 (commencing with Section 56600) of Part 30 of this division, enrolled in a special day class, who attend school for the same number of minutes as constitute a minimum schoolday prescribed in Sections 46116 and 46143, shall constitute a day of attendance. Each clock hour of teaching time devoted to individual instruction of educationally handicapped pupils shall count as one day of attendance. The average daily attendance of all educationally handicapped pupils shall be computed by dividing the total number of days of attendance of the pupils by the number of days taught in the regular schools of the district.

46511. With respect to educationally handicapped pupils given instruction at home, in a hospital, or in a regularly established nonprofit, tax-exempt, licensed children's institution, each clock hour of teaching time devoted to the individual instruction of such pupils shall count as one day of attendance. No provision of this

chapter limiting the number of days of attendance with which a pupil may be credited in any one calendar day is applicable to such pupils, but no such pupil shall be given individual instruction for more than three hours in any one day or credited with more days of attendance for individual instruction during any fiscal year than the number of legal calendar days school may be maintained during such fiscal year.

46512. The attendance of all educationally handicapped pupils given instruction by a school district shall be reported annually to the county superintendent of schools together with all other attendance on forms provided by the Superintendent of Public Instruction.

46513. The attendance of educationally handicapped pupils instructed by the county superintendent of schools pursuant to Section 56602 shall be credited as follows:

(a) The attendance of elementary pupils taught in special classes maintained for educationally handicapped pupils shall be credited to the county school service fund as attendance upon a single emergency elementary school for special class instruction of such pupils. The attendance of pupils of secondary grade in special classes maintained for educationally handicapped pupils shall be credited to the county school service fund as attendance upon a single emergency secondary school for special class instruction for such pupils.

(b) The attendance of elementary pupils in learning disability groups maintained for educationally handicapped pupils shall be credited to the county school service fund as attendance upon a single emergency elementary school for learning disability group instruction of educationally handicapped pupils. The attendance of pupils of secondary grade in learning disability groups maintained for educationally handicapped pupils shall be credited to the county school service fund as attendance upon a single emergency secondary school for learning disability group instruction of educationally handicapped pupils.

(c) The attendance of elementary pupils given instruction in the home, hospital, or a regularly established licensed children's institution shall be credited to the county school service fund as attendance upon a single emergency elementary school for home, hospital, or a regularly established licensed children's institution instruction of educationally handicapped pupils. The attendance of pupils of secondary grade given instruction in the home, hospital, or a regularly established licensed children's institution shall be credited to the county school service fund as attendance upon a single emergency secondary school for home, hospital, or a regularly established licensed children's institution instruction of educationally handicapped pupils.

## CHAPTER 5. INTERDISTRICT ATTENDANCE COMPUTATION

46600. The governing board of any school district may admit to the schools or classes maintained in the district any pupil who lives in another school district which maintains schools or classes of the grade levels which the pupil desires to attend. An agreement providing for such attendance shall be entered into between the governing board and the governing board of the district in which the pupil lives. The agreement shall stipulate the terms upon which the interdistrict attendance shall be permitted. The terms of the agreement shall require the payment to be determined in the manner provided by Section 46605.

46601. Effective July 1, 1973, the average daily attendance resulting from an interdistrict attendance agreement shall be credited to the district in which the pupil lives for purposes of determining a revenue limit except as otherwise allowed in Sections 46616 and 46617. In computing the 1972-73 base revenue pursuant to Article 2 (commencing with Section 42230) of Chapter 7 of Part 24 of Division 3 of this title, all amounts received in fiscal year 1972-73 by the school district of attendance pursuant to an interdistrict attendance agreement executed pursuant to Section 46600 may be included.

46602. An interdistrict attendance agreement shall be for a term of not to exceed five consecutive school years.

46603. If the governing board of either district neglects or refuses to enter into such an agreement within 30 days after the person having custody of any pupil has requested the board so to do:

(a) The person may appeal to the county board of education having jurisdiction over the district in which the pupil lives.

(b) The county board of education shall, within 30 days after filing of the appeal, determine whether the pupil should be permitted to attend in the district in which he desires to attend and for what period of time.

(c) If the county board of education determines that the pupil should be permitted to attend in the district in which he desires to attend, the county board of education shall determine what the tuition payment shall be. Such payment shall not exceed that allowed in Section 46605.

46604. If the county board of education determines that the pupil should be permitted to attend in the district in which he desires to attend, the pupil shall be admitted to school in the district without delay.

46605. If attendance in a district is pursuant to an interdistrict attendance agreement, or if the county board of education determines that the pupil should be permitted to attend in the district in which he desires to attend, the governing board of the district in which the pupil lives shall pay a tuition to the district of attendance no later than the next August 31, after the close of the fiscal year as follows:

(a) For attendance in regular day schools, summer schools, and adult schools and classes, the tuition per average daily attendance, if any, shall not exceed the actual cost per unit of average daily attendance for the grade level or program less any income, other than tuition, received by the district of attendance on account of such attendance.

(b) For attendance in programs for the physically handicapped as defined in Section 56700, the mentally retarded as defined in Section 56501 or 56515, the educationally handicapped as defined in Section 56600, or the mentally gifted as defined in Section 52200, the tuition per unit of average daily attendance shall be no greater than the expenditures per unit of average daily attendance as authorized by statute for that special program less any state and federal allowance per unit of average daily attendance for the program but no less than the appropriate unit foundation program pursuant to Section 41704 or 41711, as modified by subdivision (e) of Section 14002.

(c) For attendance in any other school or class not mentioned in subdivision (a) or (b) and for which an interdistrict attendance agreement pursuant to this article has been executed, the tuition, if any, shall be no greater than the actual cost per unit of average daily attendance for the grade level or program less any income, other than tuition, received by the district of attendance on account of such attendance.

(d) The district in which the pupil lives shall reduce its total revenue limit pursuant to Section 42233 or 42238 by the total excess, if any, of its revenue limit per average daily attendance multiplied by the total interdistrict attendance over the total tuition to be paid to districts of attendance.

The district in which the pupil lives may increase its total revenue limit pursuant to Section 42233 or 42238 by the total excess, if any, of the total tuition to be paid to district of attendance over the district of residence's revenue limit per average daily attendance multiplied by the total interdistrict average daily attendance.

46606. Attendance credited to a school district pursuant to Section 46351 shall not be included in the computation of the reduction of the revenue limit of the district prescribed by the first paragraph of subdivision (d) of Section 46605.

46607. A pupil may be admitted provisionally to the schools of a district, other than that in which he lives, by the governing board of the district for a period of not exceeding two school months, pending decision by the governing boards of the school districts concerned, or by the county board of education relative to his admittance.

If the interdistrict attendance is allowed, the average daily attendance may be counted for revenue limit and state apportionment purposes by the appropriate district pursuant to Sections 46601 and 46614.

If the interdistrict attendance is not allowed, the average daily attendance earned within the two school months period allowed by this section, shall be credited to the district of attendance for

purposes of state apportionments and revenue limit calculation.

46608. The provisions of Sections 46600 to 46607, inclusive, do not apply to the attendance of pupils in the seventh and eighth grades of a junior high school which is maintained by a high school district.

46609. Where the county boards of education of the two counties concerned agree that it is for the best educational and health interest of the child, a school district located in one county shall admit to the schools or classes maintained by it any pupil who resides in a school district located in another county.

46610. Whenever three-fourths of the electors residing in an elementary school district and having children attending in the schools of the district petition the governing board of the district so to do, the governing board of such district with the approval of all the members of the county board of education may provide for the education of all elementary school pupils in the district by another elementary or unified school district subject to such terms and conditions as the governing boards of the two districts may agree upon. The attendance of the pupils shall be credited to the district in which the pupil lives for revenue limit and state apportionment purposes. On the next succeeding July 1st, the district in which the pupil lives shall be subject to the provisions of Sections 35720 to 35724, inclusive.

46611. The governing board of a school district maintaining one or more elementary schools may admit to the kindergartens maintained by the district children eligible for admission to kindergarten classes who live in another district whenever an agreement is entered into between the governing board of each of such districts stipulating the terms upon which the interdistrict attendance shall be permitted.

46612. If the governing board of a school district in which pupils reside who are lawfully attending in another district fails or refuses to pay, when due, the amount required to be paid the district of attendance for the education of such pupils under any provision of this code, the county superintendent of schools having jurisdiction over the district of residence shall draw a requisition against the funds of the district of residence in favor of the district of attendance in payment of such amount and transmit the requisition to the governing board of the district of attendance.

46613. The governing board of any school district may admit to the schools or classes maintained in the district any pupils who reside in another school district during any of the first three fiscal years of existence for all purposes of the district of residence, whenever an agreement is entered into between the governing boards stipulating the terms upon which the interdistrict attendance shall be permitted.

46614. Except as may otherwise be specially provided, the average daily attendance of all pupils who live in one school district and attend school in another school district shall be credited to the district in which the pupil lives for foundation program apportionment purposes.

The district of attendance shall record and report separately for foundation program purposes the attendance of pupils who live in another school district. When such average daily attendance is credited to a district in which the pupil lives the average daily attendance so credited shall be used to determine additional district foundation program based on the appropriate unit foundation program and such average daily attendance shall not be added to the average daily attendance used in determining any necessary small school allowance for the district in which the pupil lives.

46615. For the purposes of apportionment pursuant to Sections 41882 to 41888, inclusive, 41890 and 52205, the average daily attendance of those special pupils who live in one school district and attend school in another district under an interdistrict attendance agreement shall be credited to the district of attendance, and the Superintendent of Public Instruction shall pay the allowances under those sections to the district of attendance.

For the purposes of apportionment pursuant to Section 41863, the district providing the transportation shall report the average daily attendance used to determine the special transportation allowance.

46616. (a) If a district of attendance charges a tuition for attendance of pupils from another district in its schools and classes the provisions of Sections 46601 and 46614 shall apply.

(b) If a district of attendance does not charge a tuition for attendance of pupils from another district in its schools and classes, the average daily attendance for such attendance shall be credited to the district of attendance for purposes of determining state apportionments and the revenue limit pursuant to Section 42233 or 42238. In such case the district of attendance shall, prior to the budget hearing required by Section 42103, include as a part of the budget process a public hearing on the estimated costs to its taxpayers for the attendance of pupils from other districts. This public hearing shall include a statement concerning the estimated average daily attendance involved, the estimated cost to the district of such attendance, with such cost also expressed as an estimated tax rate equivalent. Notice of the hearing shall be posted in a public place and furnished to the news media at least five days prior to the date of the public hearing.

46617. The attendance for a physically handicapped or mentally retarded pupil residing in one district and attending in another district pursuant to a contract with the county superintendent of schools, as authorized in Sections 1850 and 1880, shall be credited to the district of attendance for purposes of state apportionment and revenue limit computations. Any tuition shall be paid by the contracting county superintendent of schools.

46617.5. A county superintendent of schools may admit to regional occupational programs or regional occupational centers operated by the county superintendent of schools, pupils who reside in school districts which are not participating in such regional

occupational programs or centers by written agreement of the school district in which the pupils reside, or if the school district maintains a regional occupational program or regional occupational center, by written agreement with such regional occupational program or regional occupational center.

Cost of attendance of pupils pursuant to such an agreement shall be reimbursed to the county superintendent of schools by the pupil's school district at the full foundation program level or the school district's revenue limit, whichever is lower. There shall be no state financial support to the county superintendent of schools for such pupils. The agreement shall provide for reimbursement to the county superintendent of schools for the excess cost of education, if any.

46618. The governing board of a unified school district, whose boundaries are coterminous with the boundaries of a county, and which is contiguous to an adjoining state, may provide for the education of all or any number of the high school pupils of the district who reside in the district by the attendance of such pupils at the schools of a school district of an adjoining state. The governing board of the unified school district may enter an agreement with the school district of an adjoining state for the education of such pupils, subject to the terms and conditions agreed upon. The provisions of Sections 2000 to 2011, inclusive, do not apply to pupils educated pursuant to an agreement authorized by this section. The average daily attendance of pupils educated pursuant to such an agreement shall be credited to the district of residence for apportionment purposes. The superintendent of schools of the district, or the principal of the school, in the adjoining state attended by the pupils under such an agreement shall, not later than July 2 of each year, certify, to the county superintendent of schools having jurisdiction over the school district of residence of the pupils, the average daily attendance of the pupils of the district attending the schools of the school district in the adjoining state. Certification shall be made on forms furnished by the Superintendent of Public Instruction. The county superintendent of schools shall report such average daily attendance to the Superintendent of Public Instruction, who shall include such average daily attendance in his report of average daily attendance in all of the duly established schools of the state for the last preceding school year certified by him to the State Controller.

## PART 27. PUPILS

### CHAPTER 1. ADMISSION

#### Article 1. Kindergartens

48000. (a) A child shall be admitted to a kindergarten in any term during the first school month of the term, if he is of the age prescribed. For good cause the governing board of a school district

may permit a child of proper age to be admitted to a class after the first school month of the school term.

If there is but one term during the school year, the child shall be 4 years and 9 months of age on or before September 1st of the current school year. If there are two terms maintained during the school year, the child shall be 4 years and 9 months of age on or before September 1st of the current school year, before he may be admitted in the first term of the school year, or 4 years and 9 months of age on or before February 1st of the current school year, before he may be admitted in the second term in any school year.

A child who will be 4 years and 9 months of age on or before September 1st, may be admitted to the prekindergarten summer program maintained by the school district for pupils who will be enrolling in kindergarten in September.

(b) The governing board of any school district maintaining one or more kindergartens may admit to a kindergarten a child having attained the age of five years at any time during the school year with the approval of the parent or guardian. The governing board shall provide the parent or guardian with information as to the advantages and disadvantages and any other explanatory information as to the effects of this early admittance.

48001. All children living in a school district who qualify under Section 48000 shall be admitted to kindergarten.

48002. The parent or guardian of a child shall, prior to the admission of the child to the kindergarten or first grade of a school district, present proof to the authorities of the district evidencing that such child is of the minimum age fixed by law for admission thereto. Such evidence shall be in the form of a certified copy of a birth record or a statement by the local registrar or a county recorder certifying the date of birth, or a baptism certificate duly attested, or a passport, or, when none of the foregoing is obtainable, an affidavit of the parent, guardian, or custodian of the minor.

48003. Anything in Section 48002 to the contrary notwithstanding, governing boards of school districts having an average daily attendance of 60,000 or more pupils shall admit a child to the kindergarten or first grade of the school district upon presentation of such proof of age of the child as shall be prescribed by the governing board of the district.

## Article 2. Elementary Schools

48010. A child shall be admitted to the first grade of an elementary school during the first month of any school term if he is of the age prescribed in this section. For good cause, the governing board of a school district may permit a child of proper age to be admitted to a class after the first school month of the school term.

If there is but one term during the school year, the child shall be five years and nine months of age on or before September 1st, of the current school year. If there are two terms maintained during the

school year, the child shall be five years and nine months of age on or before September 1st, of the current year, before he may be admitted in the first term of the school year, or five years and nine months of age on or before February 1st, of the current school year, before he may be admitted in the second term of any school year.

48011. A child who has been lawfully admitted to the kindergarten, as defined by the State of California, maintained by a private or a public school in California or any other state, and who has completed one year therein shall be admitted to the first grade of an elementary school regardless of age.

A child who has been lawfully admitted to a public school kindergarten or a private school kindergarten in California and who is judged by the administration of the school district, in accordance with rules and regulations adopted by the State Board of Education, to be ready for first-grade work may be admitted to the first grade at the discretion of the school administration of the district and with the consent of the child's parent or guardian regardless of age.

Where a child has been legally enrolled in the public schools of another district within or out of the state, he may be admitted to school and placed in the grade of enrollment in the district of former attendance, at the discretion of the school administration of the district entered.

No child shall be admitted to the first grade of an elementary school pursuant to this section unless the child is at least five years of age.

48012. The children residing in any newly formed district, in any district whose boundaries have been changed, or in any joint district, may attend the school in the district or districts from which the newly formed district was constituted, until the first day of July next succeeding the formation or change.

48013. The day elementary schools of each school district may be open for the admission of adults if the governing body of the district deems the admission advisable.

### Article 3. Junior High Schools

48020. All minors who have completed the work of the sixth grade and such other minors as are, in the judgment of the principal of the junior high school and of the superintendent having immediate jurisdiction thereof, capable of doing the required work, may be admitted to a junior high school.

### Article 4. High Schools

48030. Any graduate of the elementary schools of this state and any other person who furnishes to the principal of the high school and to the county or to the city superintendent of schools having immediate jurisdiction over the high school, satisfactory evidence of his fitness for high school work, may attend high school in the district

in which he resides under such regulations as the high school board may prescribe.

48031. Any person who is eligible to attend high school and who does not reside in a high school district or in a unified school district may attend high school in any high school district or unified school district in the county in which he resides or in another county.

#### Article 5. Adult Schools

48040. Adult schools and evening high schools shall be open for the admission of adults and of such minors as in the judgment of the governing board may be qualified for admission thereto.

#### Article 6. Nonresidents

48050. The governing board of any school district may, with the approval of the county superintendent of schools, admit to the elementary and high schools of the district pupils living in an adjoining state which is contiguous to the school district. An agreement shall be entered into between the governing board and the governing board or authority of the school district in which the pupils reside providing for the payment by the latter of an amount sufficient to reimburse the district of attendance for the total cost of educating the pupil, including the total of the amounts expended per pupil for the current expenses of education, the use of buildings and equipment, the repayment of local bonds and interest payments and state building loan funds, capital outlay, and transportation to and from school. The amount of the tuition for the current expenses of education per unit of average daily attendance of pupils from the adjoining state shall equal the average current expenditure, exclusive of all transportation expenditures, per unit of average daily attendance in the district of attendance. The per pupil cost attributable to capital outlay shall be on the basis of an average expenditure for the preceding five years. The cost of transportation shall not exceed ten dollars (\$10) per month. Tuition payments shall be made during the school year with final payment at the end of the school year after all costs have been determined. If the amount paid is more or less than the total cost of education and transportation, adjustment shall be made for the following semester or school year. The attendance of the pupils shall not be included in computing the average daily attendance of the class or school for the purpose of obtaining apportionment of state funds. In lieu of entering an agreement with the governing board or authority of the school district in which the pupil from the adjoining state resides, the governing board of the school district in this state may enter an agreement with the parent or guardian of the pupil on the same terms as is provided in this section.

48051. Any person, otherwise eligible for admission to any class or school of a school district of this state, whose parents are or are not

citizens of the United States, whose actual and legal residence is in a foreign country adjacent to this state, and who regularly returns within a 24-hour period to said foreign country may be admitted to the class or school of the district by the governing board of the district.

48052. The governing board of the district shall, as a condition precedent to the admission of any person, under Section 48051, require the parent or guardian of such person to pay to the district an amount not more than sufficient to reimburse the district for the total cost of educating the person, including the total of the amounts expended per pupil for the current expenses of education, the use of buildings and equipment, the repayment of local bonds and interest payments and state building loan funds, capital outlay, and transportation to and from school. The per pupil cost attributable to capital outlay shall be on the basis of an average expenditure for the preceding five years. The cost of transportation shall not exceed ten dollars (\$10) per month. Tuition payments shall be made in advance for each month or semester during the period of attendance. If the amount paid is more or less than the total cost of education and transportation, adjustment shall be made for the following semester or school year. The attendance of the pupils shall not be included in computing the average daily attendance of the class or school for the purpose of obtaining apportionment of state funds. The school district shall not be eligible for nonimmigrant or noncitizen reimbursement under the provisions of Chapter 11 (commencing with Section 42900) of Part 24 of Division 3 of this title, Article 2 (commencing with Section 56865) of Chapter 6 of Part 30 of this division for these students.

48053. Notwithstanding any other provisions of this code, and except as provided in Section 3074.7 of the Labor Code, no charges or fees of any kind shall be required to be paid by any apprentice, or by his parents or guardian, for admission or attendance in any class in any school district which provides instruction under Section 3074 of the Labor Code in accord with the requirements of subdivision (d) of Section 3078 of that code. Nothing contained in this section, however, shall be construed as prohibiting the governing board of a school district providing nonresident apprentices of that district with such instruction under Section 3074 of the Labor Code from charging to, or collecting from, the school district in which such nonresident apprentices reside, tuition and other charges or fees in accordance with the definitions and provisions contained elsewhere in this code.

## CHAPTER 2. COMPULSORY EDUCATION LAW

### Article 1. Persons Included

48200. Each person between the ages of 6 and 16 years not exempted under the provisions of this chapter is subject to compulsory full-time education. Each person subject to compulsory

full-time education and each person subject to compulsory continuation education not exempted under the provisions of Chapter 3 (commencing with Section 48400) of this part shall attend the public full-time day school or continuation school or classes for the full time for which the public schools of the city, city and county, or school district in which the pupil lives are in session and each parent, guardian, or other person having control or charge of such pupil shall send the pupil to the public full-time day school or continuation school or classes for the full time for which the public schools of the city, city and county, or school district in which the pupil lives are in session.

48201. Any parent, guardian, or other person having control or charge of any minor between the ages of 6 and 16 years who removes the minor from any city, city and county, or school district before the completion of the current school term, shall enroll the minor in a public full-time day school of the city, city and county, or school district to which the minor is removed.

48202. The county board of education of each county may establish, by resolution, the following regulation requiring the reporting of various types of severance of attendance of or by any pupil subject to the compulsory education laws of California or of any one or more of the types of severance enumerated in subdivision (a) below and may require such reporting of any or all of the private and public schools of the county:

(a) The administration of each private school and public school district of the county shall, upon the severance of attendance by any pupil subject to the compulsory education laws of California, whether by expulsion, exclusion, exemption, transfer, suspension beyond 10 schooldays, or other reasons, report such severance to the county superintendent of schools in the jurisdiction. The report shall include names, ages, last known address and the reason for each such severance.

(b) It shall be the duty of the county superintendent of such county to examine such reports and draw to the attention of the county board of education and local district board of education any cases in which the interests of the child or the welfare of the state may need further examination.

(c) After preliminary study of available information in cases so referred to it, the county board of education may, on its own action, hold hearings on such cases in the manner provided in Sections 48915 through 48920 and with the same powers of final decision as therein provided.

48203. The administration of each private school and public school district of any county shall, upon the severance of attendance or the denial of admission of any child who is physically handicapped, mentally retarded, or multiple handicapped but is otherwise subject to the compulsory education laws of California, report such severance, expulsion, exclusion, exemption, transfer, or suspension beyond 10 schooldays to the county superintendent of schools in the

jurisdiction. The report shall include names, ages, last known address, and the reason for such severance, expulsion, exclusion, exemption, transfer, or suspension.

It shall be the duty of the county superintendent of such county to examine such reports and draw to the attention of the county board of education and local district board of education any cases in which the interests of the child or the welfare of the state may need further examination.

After preliminary study of available information in cases so referred to it, the county board of education may, on its own action, hold hearings on such cases in the manner provided in Section 48914 and with the same powers of final decision as therein provided.

### Article 2. Persons Excluded

48210. Children under six years of age are excluded from the public schools, except as provided in this code.

48211. The governing body of any school district may exclude children of filthy or vicious habits, or children suffering from contagious or infectious diseases.

48212. The governing board of the school may exclude from attendance on regular school classes any child whose physical or mental disability is such as to cause his attendance to be inimical to the welfare of other pupils.

### Article 3. Pupils Exempt

48220. The classes of children described in this article, shall be exempted by the proper school authorities from the requirements of attendance upon a public full-time day school.

48221. Children whose physical or mental condition is such as to prevent, or render inadvisable attendance at school or application to study shall be exempted, and the governing board of the school district shall require satisfactory evidence of the condition to be furnished.

48222. Children who are being instructed in a private full-time day school by persons capable of teaching shall be exempted. Such school shall, except under the circumstances described in Section 30, be taught in the English language and shall offer instruction in the several branches of study required to be taught in the public schools of the state. The attendance of the pupils shall be kept by private school authorities in a register, and the record of attendance shall indicate clearly every absence of the pupil from school for a half day or more during each day that school is maintained during the year.

Exemptions under this section shall be valid only after verification by the attendance supervisor of the district, or other person designated by the board of education, that the private school has complied with the provisions of Section 33190 requiring the annual filing by the owner or other head of a private school of an affidavit

or statement of prescribed information with the Superintendent of Public Instruction. The verification required by this section shall not be construed as an evaluation, recognition, approval, or endorsement of any private school or course.

48223. Children who are mentally gifted and who are being instructed in a private full-time day school by persons capable of teaching, where all or part of the courses of instruction required to be taught in the public schools of this state is taught in a foreign language with not less than 50 percent of the total daily instructional time taught in the English language, shall be exempted. The attendance of the pupils shall be kept pursuant to Section 48222.

48224. Children not attending a private, full-time, day school and who are being instructed in study and recitation for at least three hours a day for 175 days each calendar year by a private tutor or other person in the several branches of study required to be taught in the public schools of this state and in the English language shall be exempted. The tutor or other person shall hold a valid state credential for the grade taught. The instruction shall be offered between the hours of 8 o'clock a.m. and 4 o'clock p.m.

48225. The governing board of any school district which has children holding work permits to work temporarily in the entertainment or allied industries who are exempted from attending public full-time day school under the provisions of this article, or a county superintendent of schools, may contract with any person, firm or corporation responsible for the education of any children, so employed or acting on behalf thereof, to provide eligibility lists and placement services for qualified teaching and other necessary personnel for the tutoring of such children while so employed. Such personnel shall not for these purposes be deemed public employees. The contract shall require the payment of all costs of the school district, or the county superintendent of schools in providing the lists or services.

48226. Any child who is blind or deaf or partially blind or deaf to an extent which renders him incapable of receiving instruction in the regular elementary or secondary schools, but whose mental condition is such as to permit application to study shall be exempted from the provisions of this chapter, only when he is resident of a city, county, or school district which does not maintain special classes for the admission of such pupils and when he may not be admitted to the State School for the Blind, or the State School for the Deaf, but he shall be exempted only upon the written approval of the superintendent of schools of the county.

48227. Upon the recommendation of the principal of the school which any minor over the age of 14 years is attending and has been attending during the next preceding school year, the supervisor of attendance, or, if there is no supervisor of attendance, the superintendent of schools having jurisdiction over the place of the school attendance may assign the minor to a vocational course in a place of employment. The employment shall be in lieu of the regular

school course which the minor is pursuing.

48228. An assignment to a vocational course shall not be made until the recommendation of the school principal has been approved by the Superintendent of Public Instruction, and until a permit to work has been issued to the minor by the person authorized to issue permits to work. The permit to work shall specify the hours in which the minor shall be required to attend part-time continuation classes.

48229. Any minor assigned to a vocational course shall be continued under the jurisdiction of the school last attended and may at any time be returned to the classes therein by the supervisor of attendance making the assignment when in his judgment the educational, physical, or moral interests of the minor will be best served thereby.

48230. Children who hold permits to work shall be exempted, but such children shall be subject to compulsory attendance upon part-time classes.

#### Article 4. Supervisors of Attendance

48240. The board of education of any school district and of any county shall appoint a supervisor of attendance and such assistant supervisors of attendance as may be necessary to supervise the attendance of pupils in the district or county. The board shall prescribe the duties of the supervisor and assistant supervisors of attendance, not inconsistent with law, to include, among other duties that may be required by the board, those specific duties related to compulsory full-time education, truancy, work permits, compulsory continuation education, and opportunity schools, classes, and programs, now required of such attendance supervisors by this chapter and Article 4 (commencing with Section 48450) of Chapter 3 and Article 2 (commencing with Section 48630) of Chapter 4 of this part.

48241. In any city or city and county no supervisor of attendance or assistant supervisors of attendance shall be appointed, unless he has been lawfully certificated for the work by the county board of education.

48242. The board of school trustees of any district of a county may appoint a district supervisor of attendance to act under the direction of the county supervisor of attendance.

48243. Two or more districts may unite in appointing a district supervisor of attendance and in paying his compensation.

48244. A district may, with the approval of the county board of education, contract with the county superintendent of schools for the supervision of attendance of pupils in the school district. The county superintendent of schools shall transfer from the funds of the district to the county school service fund an amount equal to the actual cost of providing for the supervision of attendance.

48245. In any district or districts with an average daily attendance of 1,000 or more school children, according to the annual school

report of the last preceding school year, no district supervisor of attendance shall be appointed, unless he has been lawfully certificated for the work by the county board of education.

48246. The attendance supervisor, who is a full-time attendance supervisor performing no other duties, of any county, city and county, or school district in which any place of employment is situated, or the probation officer of the county, may at any time enter into any such place of employment for the purpose of examining permits to work or to employ of all minors employed in such place of employment, or for the purpose of investigating violations of the provisions of the Labor Code or of the provisions of this chapter, or Chapter 7 (commencing with Section 49100) of this part. If the attendance supervisor or probation officer is denied entrance to such place of employment, or if any violation of laws relating to the education of minors is found to exist, the attendance supervisor or probation officer shall report the denial of entrance or the violation to the Labor Commissioner. Such report shall be made within 48 hours and shall be in writing, setting forth the fact that he has good cause to believe that such laws are being violated in such place of employment and describing the nature of the violation.

#### Article 5. Truants

48260. Any pupil subject to compulsory full-time education or to compulsory continuation education who is absent from school without valid excuse more than three days or tardy in excess of 30 minutes on each of more than three days in one school year is a truant and shall be reported to the attendance supervisor or to the superintendent of the school district.

48261. Any pupil who has once been reported as a truant and who is again absent from school without valid excuse one or more days, or tardy on one or more days, shall again be reported as a truant to the attendance supervisor or the superintendent of the district.

48262. Any pupil is deemed an habitual truant who has been reported as a truant three or more times per school year, provided that no pupil shall be deemed an habitual truant unless an appropriate district officer or employee has made a conscientious effort to hold at least one conference with a parent or guardian of the pupil and the pupil himself, after the filing of either of the reports required by Section 48260 or Section 48261.

48263. If any pupil in any district of a county is an habitual truant, or is irregular in attendance at school, as defined in this article, or is habitually insubordinate or disorderly during attendance at school, the pupil may be referred to a school attendance review board. The supervisor of attendance, or such other persons as the governing board of the school district or county may designate, making such referral shall notify the minor and parents or guardians of the minor, in writing, of the name and address of the board to which the matter has been referred and of the reason for such referral. The notice shall

indicate that the pupil and parents or guardians of the pupil will be invited, along with the referring person, to meet with the school attendance review board to consider a proper disposition of the referral.

If the school attendance review board determines that available community services cannot resolve the problem of the truant or insubordinate pupil or if the pupil fails to respond to directives of the school attendance review board or to services provided, the school attendance review board shall direct the county superintendent of schools to, and, thereupon, the county superintendent of schools shall, request a petition on behalf of the pupil in the juvenile court of the county.

48264. The attendance supervisor, a peace officer, or any school administrator or his designee, may arrest or assume temporary custody, during school hours, of any minor subject to compulsory full-time education or to compulsory continuation education found away from his home and who is absent from school without valid excuse within the county, city, or city and county, or school district.

48265. Any person arresting or assuming temporary custody of a minor pursuant to Section 48264 shall forthwith deliver the minor either to the parent, guardian, or other person having control, or charge of the minor, or to the school from which the minor is absent, or to a nonsecure youth service or community center designated by the school or district for counseling prior to returning such minor to his home or school, or, if the minor is found to have been declared an habitual truant, he shall cause the minor to be brought before the probation officer of the county having jurisdiction over minors.

48266. Any person taking action pursuant to Sections 48264 and 48265 shall report the matter, and the disposition made by him of the minor to the school authorities of the city, or city and county, or school district and to the minor's parent or guardian.

48267. Any pupil who has once been adjudged an habitual truant or habitually insubordinate or disorderly during attendance at school by the juvenile court of the county, who is reported as a truant from school one or more days or tardy on one or more days without valid excuse, in the same school year or in a succeeding year, or habitually insubordinate, or disorderly during attendance at school, shall be brought to the attention of the pupil's probation or parole officer.

48268. The court, in addition to any judgment it may make regarding the pupil, may render judgment that the parent, guardian, or person having the control or charge of the pupil shall deliver him at the beginning of each schoolday, for the remainder of the school term, at the school from which he is a truant, or in which he has been insubordinate or disorderly during attendance, or to a school designated by school authorities.

48269. If the parent, guardian, or other person having control or charge of the child, within three days after the rendition of the judgment executes a good and sufficient bond to the governing board of the school district with sufficient sureties in the sum of two

hundred dollars (\$200), conditioned that the child will, during the remainder of the current school year, regularly attend some public or private school in the city, or city and county, or school district, and not be insubordinate or disorderly during his attendance, then the court may make an order suspending the execution of the judgment so long as the condition of the bond is complied with. The bond shall be approved by the judge of the court, and be filed with the secretary of the board of education, or clerk of the board of trustees.

48270. If the condition of the bond is violated, the court upon receiving satisfactory evidence of the fact in any action brought therefor, shall make an order declaring the bond forfeited, and directing judgment to be enforced.

48271. The governing board of the school district may, at any time within one year after the bond has been declared forfeited, have execution issued against any of the parties to the bond to collect the amount thereof. All money paid or collected on the bond shall be paid into the county treasury as provided for in Section 41001.

48272. The county superintendent of schools in each county shall annually report to the Superintendent of Public Instruction the number and types of referrals to school attendance review boards and of requests for petitions to the juvenile court pursuant to Section 48263 and shall certify to the Superintendent of Public Instruction whether or not each school district within the county has complied with provisions of this chapter. Reports shall be submitted on forms prepared by the Superintendent of Public Instruction.

48273. The governing board of each school district shall adopt rules and regulations to require the appropriate officers and employees of the district to gather and transmit to the county superintendent of schools the information required to be reported by the county superintendent of schools as required by this chapter.

#### Article 6. Violations

48290. The governing board of any school district, shall, on the complaint of any person, make full and impartial investigation of all charges against any parent, guardian, or other person having control or charge of any child, for violation of any of the provisions of this chapter.

48291. If it appears upon investigation that any parent, guardian or other person having control or charge of any child has violated any of the provisions of this chapter, the secretary of the board of education, except as provided in Section 48292, or the clerk of the board of trustees, shall make and file in the proper court a criminal complaint against the parent, guardian, or other person, charging the violation, and shall see that the charge is prosecuted by the proper authority.

48292. In counties, cities, and cities and counties, and in school districts having an attendance supervisor, the attendance supervisor shall make and file the complaint provided for by this article and

shall see that the charge is prosecuted by the proper authorities.

48293. Any parent, guardian, or other person having control or charge of any pupil who fails to comply with the provision of this chapter, unless excused or exempted therefrom, is guilty of a misdemeanor, and shall be punished as follows:

(1) Upon a first conviction, by a fine of not more than twenty-five dollars (\$25) or by imprisonment in the county jail for a period of not more than five days.

(2) Upon a second or subsequent conviction, by a fine of not less than twenty-five dollars (\$25) or more than two hundred fifty dollars (\$250), by imprisonment in the county jail for a period of not less than five days or more than 25 days, or by both such fine and imprisonment.

48294. All fines paid as penalties for the violation of any of the provisions of this chapter shall, when collected or received, be paid over by the justice, court or officer receiving them to the treasurer of the city, county, or city and county, in which the offense was committed, to be placed to the credit of the school fund of the school district in which the offense was committed.

48295. Any judge of a municipal or justice court in which the school district is located, or in which the offense is committed, has jurisdiction of offenses committed under this article.

48296. No fees shall be charged or received by any court or officer in any proceeding under this chapter.

#### Article 7. Compulsory Education for the Deaf

48310. Every parent, guardian, or other person having control of any minor over five years of age and less than 20 years of age who, by reason of deafness or impaired hearing, is unable to benefit materially by the methods of instruction in use in the public schools, shall send the minor to a school or class for the deaf maintained by a school district or by the state for the full time for which the school or class is in session. The minor shall attend the school or class year after year until completion of the prescribed course of study or until discharged for good reason by the principal or other person in charge of the school or class with the approval of the governing board.

48311. Every attending or consulting physician who examines any child under 20 years of age found to be totally deaf, or with impaired hearing, as defined by the State Board of Education, shall report at once to the Department of Education the name, age, residence, and the name of the parent or guardian of the minor.

#### Article 8. School Attendance Review Boards

48320. (a) In enacting this article it is the intent of the Legislature that intensive guidance and coordinated community services shall be provided to meet the special needs of pupils with school attendance problems or school behavior problems.

(b) Any school attendance review board, established pursuant to this article, which determines that available public and private services are insufficient or inappropriate to correct school attendance or school behavior problems of minors shall:

(1) Propose and promote the use of alternatives to the juvenile court system.

(2) Provide, in any proposed alternative, for maximum utilization of community and regional resources appropriately employed in behalf of minors prior to any involvement with the judicial system.

(3) Encourage an understanding that any alternative based on the utilization of community resources carries an inherent agency and citizen commitment directed toward the continuing improvement of such resources and the creation of resources where none exist.

48321. (a) There is in each county a county school attendance review board. The county school attendance review board shall include, but need not be limited to, a parent and representatives of (1) school districts, (2) the county probation department, (3) the county welfare department, and (4) the county superintendent of schools. The school district representatives on the county school attendance review board shall be nominated by the governing boards of school districts and shall be appointed by the county superintendent of schools. All other persons and group representatives shall be appointed by the county board of education.

(b) Local school attendance review boards may include, but need not be limited to, a parent and representatives of (1) school districts, (2) the county probation department, (3) the county welfare department, and (4) the county superintendent of schools. Other persons or group representatives shall be appointed by the county board of education.

(c) The county school attendance review board shall elect pursuant to regulations adopted pursuant to Section 48324, one member as chairman with responsibility for coordinating services of the county school attendance review board.

(d) The county school attendance review board shall provide for the establishment of local school attendance review boards in such number as shall be necessary to carry out the intent of this article.

(e) The county school attendance review board shall provide consultant services to, and coordinate activities of, local school attendance review boards in meeting the special needs of pupils with school attendance or school behavior problems.

(f) When the county school attendance review board determines that the needs of pupils as defined in this article can best be served by a single board, the county school attendance review board shall then serve as the school attendance review board for all pupils in the county, or, upon the request of any school district in the county, the county school attendance review board may serve as the school attendance review board for pupils of that district.

(g) Nothing in this article is intended to prohibit any agreement on the part of counties to provide such services on a regional basis.

48322. The county school attendance review board shall encourage local school attendance review boards to maintain a continuing inventory of community resources, including alternative educational programs, and to make recommendations for the improvement of such resources and programs or for the creation of new resources and programs where none exist.

48323. Each of the departments or agencies required to participate in school attendance review boards shall assign personnel to represent the department or agency on a continuing basis in accordance with the intent of this article. The duties, obligations, or responsibilities imposed on local governmental entities by this act are such that the related costs are incurred as a part of their normal operating procedures. The minor costs of such services shall be borne by each agency or department and each or all of the participants may apply for and utilize state or federal funds as may be available.

48324. The county school attendance review board shall adopt such rules and regulations not inconsistent with law, as are necessary for its own government and to enable it to carry out the provisions of this article. The rules and regulations shall be binding upon the local school attendance review boards which are established pursuant to subdivision (d) of Section 48321.

### CHAPTER 3. COMPULSORY CONTINUATION EDUCATION

#### Article 1. Pupils Subject To

48400. All persons 16 years of age or older and under 18 years of age, not otherwise exempted by this chapter, shall attend upon special continuation education classes maintained by the governing board of the high school district in which they reside, or by the governing board of a neighboring high school district, for not less than four 60-minute hours per week for the regularly established annual school term. Such minimum attendance requirement of four 60-minute hours per week may be satisfied by any combination of attendance upon special continuation education classes and regional occupational centers or programs.

48401. The complaint of any citizen of a school district that such school district has failed to meet the requirements of providing continuation education classes pursuant to this chapter shall be presented to the county superintendent of the county in which such district is located. If, upon investigation, the county superintendent of schools finds the complaint to be justified, he shall forward the complaint along with the results of his investigation to the Superintendent of Public Instruction who shall take steps to enforce compliance with the provisions of this chapter.

48402. Whenever a minor subject to the provisions of this chapter, who is not otherwise exempted by this chapter, cannot give satisfactory proof of regular employment he shall attend, for not less than 15 hours per week, special continuation education classes

during the period of unemployment. The minimum attendance requirement of 15 hours per week may be satisfied by any combination of attendance upon special continuation education classes and regional occupational centers or programs.

48403. If any person subject to the provisions of this chapter is an habitual truant or is irregular in attendance as required by this chapter or is habitually insubordinate or disorderly during attendance at school, the county superintendent of schools may request a petition on his behalf in the juvenile court of the county.

## Article 2. Pupils Exempt

48410. There are exempted from compulsory attendance in continuing education classes as otherwise required by Sections 48400 and 48402, persons who:

(a) Have been graduated from a high school maintaining a four-year course above the eighth grade of the elementary schools, or who have had an equal amount of education in a private school or by private tuition.

(b) Are in attendance upon a public or private full-time day school, or satisfactory part-time classes maintained by other agencies.

(c) Are disqualified for attendance upon these classes because of their physical or mental condition, or because of personal services that must be rendered to their dependents.

(d) Are satisfactorily attending a regional occupational program or center as provided in Section 48432.

(e) Have successfully demonstrated proficiency equal to or greater than standards as established by the Department of Education pursuant to Section 48412, and have verified approval submitted by their parent or guardian.

(f) Are subject to Section 48400 but not Section 48402 and are in attendance upon classes for adults for not less than four clock hours per calendar week.

48412. (a) Any person subject to compulsory continuation education or exempt from it pursuant to subdivision (b), (c), (d), or (f) of Section 48410 may apply to have his proficiency in basic skills taught in public high schools verified according to criteria established by the Department of Education.

The State Board of Education shall award a "certificate of proficiency" to pupils who demonstrate such proficiency. The certificate of proficiency shall be equivalent to a high school diploma, and the Department of Education shall keep a permanent record of the issuance of all such certificates.

(b) The Department of Education shall develop standards of competency in basic skills taught in public high schools and shall prepare and supply to centers approved by the department means to verify such competency in order to measure eligibility for exemption from compulsory continuation attendance as provided in subdivision (e) of Section 48410.

(c) The Department of Education may charge a fee for each examination application in an amount sufficient to recover the costs of administering the requirements of this section; provided, however, that such fee shall not exceed ten dollars (\$10) per examination application. All fees levied and collected pursuant to this section shall be deposited in the State Treasury for remittance to the current support appropriation of the Department of Education as reimbursement for costs of administering this section. Any reimbursements collected in excess of actual costs for administration of this section shall be transferred to the unappropriated surplus of the General Fund by order of the Director of Finance.

(d) The State Board of Education shall adopt such rules and regulations as are necessary for implementation of the provisions of this section.

48413. Persons 16 years of age or older and under 18 years of age who have not been graduated from high school shall be permitted by the governing board to enroll in continuation classes conducted by the school district pursuant to Article 3 (commencing with Section 48430) of this chapter if such enrollment does not preclude attainment of the goals of continuation education schools and classes prescribed in Article 3 (commencing with Section 48430) of this chapter, as determined by the governing board. The provisions of Article 5 (commencing with Section 48260) of Chapter 2 of this part shall be applicable to such persons.

48414. Any person 16 or 17 years of age exempt from compulsory continuation attendance laws by subdivision (e) of Section 48410 shall be permitted by the governing board of the school district from which the student came to reenroll in the district, without prejudice, as if he had never taken advantage of subdivision (e) of Section 48410.

48415. In the case of attendance upon private school, exemption from the requirements of attendance upon compulsory continuation education shall be valid only after verification by the attendance supervisor of the district, or other person designated by the board of education, that the private school has complied with the provisions of Section 33190 requiring the annual filing by the owner or other head of a private school of an affidavit or statement of prescribed information with the Superintendent of Public Instruction. The verification required by this section shall not be construed as an evaluation, recognition, approval, or endorsement of any private school or course.

### Article 3. Continuation Classes

48430. In enacting this article, it is the intent of the Legislature that continuation education schools and classes shall be established and maintained in order to meet the special educational needs of pupils to provide: (1) an opportunity for the completion of the

required academic courses of instruction to graduate from high school, (2) a program of individualized instruction that may emphasize occupational orientation or a work-study schedule which follows the intent and purposes of Sections 48435, 48436, 51055, and 51204, or (3) a specially designed program of individualized instruction and intensive guidance services to meet the special needs of pupils with behavior or severe attendance problems, or (4) a flexible program combining the features in (1), (2), and (3).

48431. The governing board of each high school district shall establish and maintain a program of guidance, placement, and followup for all minors within the district subject to compulsory continuation education.

48432. The governing board of each high school district and each unified school district shall establish and maintain within its boundaries special continuation education classes and may establish and maintain regional occupational centers or programs, in accordance with the provisions of Section 52301, whenever there are any minors residing within the district who are subject to compulsory continuation education; provided, that if there are fewer than 100 students enrolled in grade 12 in any school of the district maintaining that grade, the governing board of the district may apply to the State Department of Education for exemption of that school from the requirements of this section and such exemption may be granted in accordance with rules and regulations that shall be adopted by the State Board of Education to govern the granting of the exemptions. An exemption may also be granted to schools having an enrollment of more than 100 pupils in grade 12 if the district seeking the exemption has entered into an agreement with another high school district or unified school district to maintain special continuation education classes for minors residing in either of the districts, but shall not be granted if the agreement would make it necessary for such minors to travel an excessive distance from their homes to the continuation education classes.

If there is a regional occupational center or program as provided in Article 1 (commencing with Section 52300) of Chapter 9 of Part 28, of this division within a county, the governing board of any school district within that county may enroll minors, otherwise subject to, and in lieu of, continuation education, in the center or program in accordance with the provisions of Section 52314.

48433. Special continuation education classes or classes conducted by a regional occupational center or any combination thereof shall provide at least four 60-minute hours of instruction per week for each minor within the high school district who is subject to compulsory continuation education.

48434. (a) Except as otherwise provided in subdivision (b), such classes shall be maintained between the hours of 8 a.m. and 5 p.m. If the governing board of the school district determines that the special needs of the community or pupils require it, such classes may be maintained until 6:30 p.m.

(b) If the school district maintains classes for adults, the governing board of the school district may maintain continuation education classes during such hours and for such length of time during the day or evening as the classes for adults are maintained.

48435. Such classes shall provide suitable instruction for the various individuals for whose benefit they are established.

48436. The State Board of Education shall prescribe and enforce standards and regulations for the organization and administration of programs of guidance, placement and followup, for programs of coordination and instruction in continuation education, for the special reimbursement thereof, and for the certification of teachers and coordinators for continuation education.

48437. The governing board of a school district or school districts, as the case may be, maintaining special continuation education classes may accept and expend grants from the federal government or from other public or private sources for the purpose of this article.

48438. The governing board of a school district or school districts, as the case may be, maintaining special continuation education classes shall provide for an independent study of the effectiveness of such program and shall file a copy of the report on such study with the Department of Education.

#### Article 4. Violations

48450. Each parent, guardian, or other person having control or charge of any minor required to attend special continuation education classes, shall compel the attendance of the minor upon the classes. He shall retain a copy of the permit to work and shall present it upon request of any officer of the law, or other person authorized to enforce the provisions of this chapter.

48451. The governing board of any high school district in which a minor resides who violates the provisions of this chapter shall, on the complaint of any person, make full and impartial investigation of all charges against any parent, guardian, or other person having control or charge of the minor for violation of the provisions of Section 48450.

48452. If it appears upon the investigation that any parent, guardian, or other person having control or charge of the minor has violated the provisions of Section 48450, the clerk of the board, or other person authorized by the board to bring such actions, shall make and file in the proper court a criminal complaint against the parent, guardian, or other person having control or charge of the minor, charging the violation, and shall see that the charge is prosecuted by the proper authorities.

48453. In cities, and in cities and counties, and in school districts having an attendance supervisor, the attendance supervisor shall make and file the complaint provided for in this article, and shall see that the charge is prosecuted by the proper authorities.

48454. Any parent, guardian, or other person having control or

charge of any minor subject to this chapter who fails to perform any of the duties imposed upon him by the provisions of Section 48450 is guilty of a misdemeanor, and shall be punished as follows:

(1) Upon a first conviction, by a fine of not more than twenty-five dollars (\$25) or by imprisonment in the county jail for a period of not more than five days.

(2) Upon a second or subsequent conviction, by a fine of not less than twenty-five dollars (\$25) or more than two hundred fifty dollars (\$250), by imprisonment in the county jail for a period of not less than five days or more than 25 days, or by both such fine and imprisonment.

#### CHAPTER 4. ATTENDANCE AT ADJUSTMENT SCHOOLS

##### Article 1. Twenty-four Hour Elementary Schools

48600. The purpose of this article is to provide for the operation of 24-hour elementary schools, established pursuant to Article 18 (commencing with Section 940) of Chapter 2 of Part 1 of Division 1 of the Welfare and Institutions Code, for minors between the ages of 8 and 16 years and to provide for the attendance, maintenance, care, home supervision, guidance, observation, and education of minors attending the schools, and to provide the minors with such vocational, homemaking, mental, moral, physical, and other training as will tend to strengthen and develop them and enable them to become good and useful citizens. The staff of every 24-hour school shall make adjustment as rapidly as possible in order that the period of time the child is away from ordinary community life may be as brief as possible. They shall place the minors in properly licensed children's institutions where they will be assured of suitable educational opportunities, and shall cooperate with child placement agencies to this end and to stimulate proper care of the minors by their parents.

For purposes of this article, the county superintendent of schools shall have the primary authority to provide for the education and training of minors in 24-hour schools within his county.

48601. This article shall be construed in conformity with the intent as well as the express provisions thereof and shall confer upon the county probation officer, and the county superintendent or governing board, as the case may be, of any 24-hour school that may be created authority to do all those lawful acts which it may deem necessary to promote the prosperity of the school, or to promote the well-being and education of all minors entrusted to its charge.

48602. The county superintendent of schools or the governing board of the district, as the case may be, which shall have, in reference to 24-hour schools, the same powers and duties which are now or may hereafter be assigned by law for the management of other schools. A 24-hour school established by a school district maintaining elementary schools shall be one of the public

elementary schools of the district. The average daily attendance of each such school shall be reported to the Superintendent of Public Instruction for purposes of allowances and apportionments from the State School Fund in the manner otherwise prescribed by and pursuant to law.

48603. The cost of securing sites or constructing and equipping buildings and in general the cost of housing and equipping any 24-hour school, including the necessary dormitories, dining halls, and other living quarters for pupils and employees of the county or the district shall be a charge against the funds of the county or school district maintaining it. The county superintendent or governing board of any district, as the case may be, may employ such principals, assistants, teachers, and employees as it deems necessary for the proper conduct of the 24-hour school and may pay them from available funds. The expenses of lodging and boarding pupils residing within the buildings of any 24-hour school shall be paid from the sums received from contracts with the parents or guardians of the pupils, or from the funds of the county within which the school is located paid to the school district, if applicable, in pursuance of court orders for the maintenance of pupils.

48604. The superintendent appointed pursuant to Section 942 of the Welfare and Institutions Code may reside in the 24-hour school and may be furnished suitable quarters, furniture, food, supplies, and laundry for himself and his family. The county superintendent or governing board of the district, as the case may be, may make provision for the employment of such certificated personnel, including a principal, and such classified personnel at such school as may be necessary for the education and training of the minors enrolled.

48605. Admission and discharge of minors with behavioral disorders to programs provided under the provisions of this article shall be made only on the basis of an individual evaluation according to standards established by the State Board of Education and upon the recommendation of an admissions committee which shall include a teacher, a psychologist, a school nurse or social worker, a principal or supervisor, an attendance supervisor, a licensed physician, a representative of the probation department and a representative of the social welfare department of the county in which the 24-hour school is located.

48606. The board of admission, or some person or persons designated by it, shall investigate the case of any child whose name is submitted in writing accompanied by a signed statement for consideration for admission to the school and shall make recommendations in each case. The board of admission shall observe the progress of each child, and shall advise and recommend his release as soon as sufficient progress is indicated.

48607. The county superintendent or governing board, as the case may be, maintaining a 24-hour school may accept in the school any minor between the ages of 8 and 16 years who is a resident of

the county or the school district, as the case may be, whose parent or guardian does not exercise proper care, supervision, and guidance over him, or who is, by reason of insubordinate conduct, or refusal to obey the rules and regulations of the school authorities, in need of special educational training and discipline to prevent him from becoming subject to the provisions of the juvenile court law. The pupil may be assigned to the school by order of the county superintendent or the superintendent of schools of the district, as the case may be, approved in writing by the parent, or guardian in compliance with the recommendation of the board of admission. If the parent or guardian of the pupil enters into a contract with the county or school district, as the case may be, for the support of the pupil, he may be maintained in the school for the period of the assignment.

48608. If the parent or guardian of the pupil refuses to enter into a contract providing for the payment to the county or school district, as the case may be, of a sum sufficient to meet the average cost of maintaining a pupil within the school, including meals and a reasonable sum for lodging, and if the presence of the child within another school of the county or district, as the case may be, or within its home is a menace to the future welfare of other children or of the child itself, the county superintendent or superintendent of schools of the district, as the case may be, shall cause to be filed in the superior court of the county, acting in the department of the court performing the functions of the juvenile court or in any other court of competent jurisdiction, a complaint asking for an order of the court, committing the child to the 24-hour school and fixing the amount the parent or guardian shall pay for his maintenance until such time as the county superintendent or superintendent of schools of the district, as the case may be, reports to the court that the best interests of the minor will be served by his discharge from the school. A copy of the complaint shall at the same time be furnished the parent or guardian. If the parent or guardian is unable to pay the amount, the court may in the order provide for the payment by the county of a sum sufficient to cover the costs of maintenance of the child during the period of his commitment to the school.

48607. The principal of any school in the county or district, as the case may be, in which there has been established a 24-hour school shall report to the county superintendent or superintendent of schools of the district, as the case may be, after conference held with the parent or guardian, any pupil in his school who he believes comes within the provisions and intent of this article. This report shall be in writing and shall set forth the facts upon which he believes that the child comes within the provisions of this article.

48610. Any minor who has been placed in the care and control of the 24-hour school without the consent of the parent or guardian, shall remain therein, if placed by order of the court, for the duration of the period provided by the order, or until recommendation is made by the admissions and discharge committee to the court

requesting that consideration be given the minor's release.

48611. If the minor has been placed in the 24-hour school by order of the county superintendent or superintendent of schools of the district, as the case may be, the parent or guardian with whose consent the minor was placed in the school, upon application to the county superintendent or superintendent of schools, as the case may be, who placed him therein, may secure the release of the minor and his restoration to the care, custody, and control of the parent or guardian. The county superintendent or superintendent of the district, as the case may be, shall require a written report from the principal of the 24-hour school, giving the progress of the child and the advisability of the release of the child from the 24-hour school. If the report indicates that the minor is in need of further care and treatment and that his release would be detrimental to his own welfare or the welfare of others, the county superintendent or superintendent of the district, as the case may be, may report the minor to the juvenile court or other proper court for action.

48612. If, in the opinion of the principal of any 24-hour school, the further detention of any minor is detrimental to the minor, the minor may upon order of the principal be returned to the county superintendent or superintendent of schools of the district, as the case may be, in which the school is located or to the court which committed him, as may seem necessary for the best interest of the child.

48613. Any pupil who absents himself from any 24-hour elementary school without permission being first obtained from the principal shall be deemed an habitual truant within the meaning of Section 601 of the Welfare and Institutions Code, and dealt with as such.

Any person who contributes to the absence of any pupil from the school without permission first having been obtained from the principal, or advises, connives at, or aids or assists in such absence or conceals any pupil after such absence is guilty of a misdemeanor.

48614. The course of study for the pupils and the methods used in enforcing the course of study shall be approved by the county superintendent or the governing board of the district, as the case may be. There shall also be provided in the schools the proper facilities and equipment for vocational and trade training.

48615. Each 24-hour school may conduct clinics for the diagnosis and observation of children and may advise parents and school authorities regarding courses of study or treatment in the interests of the normal development of any child and to prevent waywardness and delinquency.

48616. The funding of the educational vocational program conducted in a 24-hour school shall be in the manner described by Section 41703 when maintained by the county superintendent of schools. Twenty-four-hour schools maintained by the county superintendent shall be considered a necessary small school as defined by Section 41702.

48617. The county probation officer having management and control of a 24-hour school may enter into a contract with any other county or state agency to provide for the supervision, care and treatment of the minors placed in the 24-hour school.

48618. The enrollment in each 24-hour school shall be limited to the standards established under Section 56615.

## Article 2. Opportunity Schools

48630. In enacting this article, it is the intent of the Legislature to provide an opportunity for pupils who are, or are in danger of becoming, habitually truant from instruction upon which they are lawfully required to attend, or who are, or are in danger of becoming, irregular in attendance, or who are, or are in danger of becoming, insubordinate or disorderly during their attendance upon instruction to resolve their problems so that they may maintain themselves in regular classes or reestablish themselves for return to regular classes or regular schools as soon as practicable.

48631. The assignment of any pupil to an opportunity school, class, or program shall be conducted with a view to the improvement of the pupil and to his restoration, as soon as practicable, to the regular school and regular class in which he would, if not so assigned, be required to attend. The governing board of a school district maintaining an opportunity school may confer a diploma upon any pupil who has satisfactorily completed the prescribed course of study of the school district in an opportunity school maintained by the district.

48632. "Opportunity program" as used herein refers to a program which is in accordance with the purposes and provisions of this article and is established in any elementary or secondary school of a school district for less than the minimum day required of opportunity school or class pupils.

48633. The governing board of any school district, or the county board of education, may establish schools or may set apart public school buildings or may set apart in public school buildings a room or rooms for pupils in grades 1 through 12, inclusive, as described in Section 48630. The school building so established or set apart shall be known as an opportunity school and the room or rooms set apart in a public school building shall be known as opportunity class or classes.

48634. Any governing board or county board of education establishing and maintaining an opportunity school or opportunity classes may make such special rules and regulations for its government and administration as are consistent with the provisions and purposes of this article, and not contrary to law.

48635. An opportunity school may be established as an elementary or secondary school, and an opportunity class or program may be established in any elementary or secondary school of any school district.

48636. The opportunity school, class, or program shall be

established and maintained specially for the instruction of such pupils in grades 1 through 12, inclusive, as are assigned thereto by the city superintendent of schools, or, if there is no city superintendent, the board of education of any city or city and county, or the county superintendent of schools as provided by this code.

48637. The governing board of any school district, or the district superintendent of schools, or any person designated by the governing board in writing, may assign pupils to an opportunity school, class, or program in accordance with the provisions and purposes of this article.

48638. If any pupil assigned to an established opportunity school, class, or program is a habitual truant, or is irregular in attendance at such opportunity school, class, or program, or is insubordinate or disorderly during attendance at such opportunity school, class, or program, the supervisor of attendance or such other persons as the governing board of the school district or county may designate shall refer the pupil to a school attendance review board in the county. If the school attendance review board determines that available community services cannot resolve the problem of the truant or insubordinate pupil, it shall direct the county superintendent of schools to, and, thereupon, the county superintendent of schools shall, request a petition on behalf of the pupil in the juvenile court of the county. If the court upon hearing the case finds that the allegations are sustained by the evidence, the court, in addition to any other judgment it may make regarding the pupil, may render judgment that the parent, guardian, or person having the control or charge of the child shall deliver him at the beginning of each schoolday, for the remainder of the school term, to the opportunity school, class, or program designated by school authorities.

48639. The governing board of a school district or school districts, as the case may be, or county board of education maintaining an opportunity school or opportunity class may accept and expend grants from the federal government or from other public or private sources for the purposes of this article.

48640. Opportunity schools established pursuant to this article by the county board of education shall be limited to counties which have an average daily attendance of less than 8,000.

48641. An opportunity school established by a county board of education in a county which has an average daily attendance of less than 8,000 shall be deemed to be in lieu of any continuation education program, and shall excuse the school districts within the county from complying with otherwise applicable statutes requiring the establishment of continuation education schools.

### Article 3. Adjustment Schools

48650. This article shall be construed in conformity with the intent as well as the expressed provisions thereof, and the governing board of any adjustment school may do all those lawful acts which it

deems necessary to promote the prosperity of the adjustment school, or to promote the well-being and education of all minors entrusted to its charge.

48651. The terms and provisions of Article 16 (commencing with Section 900) of Chapter 2 of Part 1 of Division 2 and Section 579 of the Welfare and Institutions Code shall, so far as applicable, govern and control proceedings under this article.

48652. The boards of supervisors or other governing bodies of counties and cities and counties may organize, establish, equip, and maintain, including the purchase of suitable sites and the construction of suitable buildings, adjustment schools in each county or city and county for the purpose of furnishing to minors under the age of 18 years pursuant to this article, care, custody, education, training, and adjustment to good citizenship, which shall be continuous and uninterrupted during the period the minors remain in school.

48653. The boards of supervisors of two or more counties may by regularly adopted resolutions or ordinances duly entered on the minutes or proceedings of their respective boards, unite in the organization, establishment, equipment, and maintenance of adjustment schools for the respective counties. In that event, the schools shall be located in one or more of the counties as shall be mutually agreed upon and designated in the resolutions or ordinances.

48654. If adjustment schools are organized by only one county or city and county, the government and management shall be vested in a governing board which shall be either the board of education, or similar school governing body, or the county probation committee of the juvenile court, or a board of trustees composed of seven members selected from both the board of education and the probation committee, as may be determined or chosen in the exercise of a sound discretion by the board of supervisors or other governing body of the county or city and county.

48655. If the adjustment schools are organized by the joint action of two or more counties, the boards of supervisors of the counties may by concerted action by duly adopted resolutions entrust the government and management to a governing board, which shall be any of the following:

(a) The board of education of the county in which at least one adjustment school is located.

(b) The probation committee of the juvenile court of the county in which at least one adjustment school is located.

(c) A board of trustees composed of seven members who shall represent all of the counties and each of whom may be selected from either the county board of education or the probation committee of the juvenile court of his respective county as shall be determined in the joint resolutions of the boards of supervisors.

48656. If a board of trustees is chosen to govern and manage the adjustment school the term of office of the trustees shall be six years,

except that of the seven trustees first selected, two shall hold office for two years, two shall hold office for four years, and three shall hold office for six years. Each of the two-, four-, and six-year terms shall be assigned by lot to each of the seven trustees.

48657. The governing board shall make all needful rules and regulations for the transaction of business and for the management and government of the adjustment school under its jurisdiction, and it shall see that proper care, custody, education, and training are provided for the minors under its care, to the end that the minors shall be adjusted to good citizenship and prepared to become honorable, self-supporting members of society.

48658. The governing board shall make all contracts for the organization, establishment, including the purchase of a suitable site and the construction of suitable buildings, equipment, operation, and maintenance of the adjustment school that may be necessary or advisable. In no event shall the amount of money appropriated for any such purpose or other limitation prescribed by law or by order of the governing board, be exceeded or violated.

48659. No member of the governing board, nor officer, nor employee of any adjustment school shall be interested, personally, directly, or indirectly, in any contract, purchase, or sale made, or in any business carried on in behalf of the school. Any money paid on such contracts or sales may be recovered by a civil suit, and the governing board upon the proof of such interest shall remove from office immediately the member, officer, or employee.

48660. The governing board of the adjustment school shall appoint a superintendent, not of its own number, who shall be a person qualified by training and experience for the character of work to be performed at the adjustment school, and who shall hold office at the pleasure of the governing board.

48661. The governing board shall determine the number, title, duties, and terms of office of all other officers and employees and shall fix their salaries, and that of the superintendent.

48662. The superintendent of the adjustment school shall, before entering upon the discharge of his duties, make and file with the governing board an oath that he will faithfully and impartially discharge his duties. He shall also file with the governing board a bond, running to the State of California in such sum as the board may determine, and with sureties to be approved by the board, conditioned upon the faithful performance of his duties. The premium of the bond shall be a part of the cost of maintaining the adjustment school.

48663. The superintendent, after making and filing the bond, shall, subject to the direction of the governing board, be invested with the custody of the lands, buildings, and all other property pertaining to or under the control of the adjustment school. He shall account to the governing board in such manner as it may require for all property entrusted to him and for all money received by him as superintendent of the adjustment school, or for any of the minors

entrusted to its care.

48664. The superintendent shall also, subject to the direction of the governing board, appoint all officers and employees of the adjustment school, who shall hold office at his pleasure. He shall exercise such supervisory, executive, and managing powers as are conferred upon him by the governing board.

48665. The superintendent shall reside in the adjustment school or one of the adjustment schools under his jurisdiction, and he shall be furnished suitable quarters, furniture, food supplies, and laundry for himself and his family. The governing board may make similar provision for such other officers and employees as the interests of the adjustment school may in its judgment require to reside on the premises.

48666. The adjustment school shall receive into its care, custody, and control all boys and girls under 18 years of age who are committed to it by order of the juvenile court of the county or city and county maintaining or contributing to the maintenance of the adjustment school.

48667. Any minor who has been committed to the care, custody, and control of any adjustment school shall remain in the school for the duration of the period provided in the order of commitment, or until further order of the juvenile court.

48668. The juvenile court shall review the order of commitment at least once each year, and upon review the court may continue, terminate, or modify the order of commitment.

48669. If at any time in the opinion of the superintendent of the adjustment school the further detention of the minor is detrimental to the interests of the school, the minor may immediately, upon order of the superintendent, be returned to the committing court, and the court may revoke its previous order, and proceedings may be resumed where they were suspended when the commitment was made.

48670. The governing board of any adjustment school shall cause the school to be conducted as may seem best calculated to carry out the intentions of this article.

48671. There shall be organized a course of study, corresponding as far as practicable with the course of study in the public schools of the state.

48672. There shall be provided in the adjustment school the proper facilities and equipment for vocational and trade training, in addition to such other public school education or training as may be determined upon by the governing board. Vocational or trade training education shall be given to each minor while under the care of the adjustment school, to the end that he may upon discharge be qualified for honorable and self-supporting employment.

48673. Any order of the juvenile court committing a minor to the care, custody, and control of an adjustment school may make provision for the expense of his support and maintenance by directing that the expense be paid in whole or in part by his parent,

guardian, or other person liable for his support and maintenance.

48674. If the adjustment school is organized, established, equipped, and maintained by only one county or city and county, the entire expense of the school shall be borne by the county or city and county, and the board of supervisors, or other governing body of the county or city and county shall make due and annual provision therefor. The necessary items of expense shall be set forth in the annual budget of the county or city and county.

48675. If an adjustment school is organized, established, equipped, and maintained by two or more counties, the initial expense of organizing, establishing, and equipping the school shall be apportioned between each of the counties on a pro rata basis in the ratio that the number of children of school age residing in each county bears to the number of children of school age residing in all of the counties.

48676. The annual expense of maintaining the school by two or more counties, shall be apportioned between the counties on a pro rata basis in the ratio that the average daily enrollment of minors placed in the school from each county during the preceding year bears to the total average daily enrollment in the school from all of the counties during the year.

48677. The governing board shall require any officer entrusted with money belonging to an adjustment school or to any of the minors entrusted to its care, or any officer placed in a position of trust and responsibility in the custody of property or in the handling of supplies belonging to the school, to file with the board a bond with sureties approved by the board and in such sum as it may determine, conditioned upon the faithful performance of the duties required, and upon the faithful accounting of all money and property coming into his hands or under his control by virtue of his office. The premiums on the bonds shall be a part of the cost of maintaining the adjustment school.

## CHAPTER 5. ATTENDANCE AT COMMUNITY COLLEGE

### Article 1. Advanced Education

48800. The governing board of any district maintaining a high school may determine which of the students in the 11th and 12th grades of the high school would benefit from advanced scholastic or vocational work. The governing board may authorize such students to attend a community college as special part-time students and to undertake one or more courses of instruction offered at the community college level. The number of students so authorized shall not exceed 15 percent of the number of students in the 11th and 12th grades at the high school at any one time.

48801. Any student authorized to attend a community college as a special part-time student pursuant to Section 48800 shall, nevertheless, be required to attend the high school for the minimum

school day, except as provided for in Section 46145 or 46147, and to undertake courses of instruction of a scope and duration sufficient to satisfy the requirements of law.

48802. For purposes of allowances and apportionments from the State School Fund, a community college shall be credited with additional units of average daily attendance attributable to the attendance of high school students at the community college as special part-time students pursuant to this article.

A district maintaining a high school whose 11th- and 12th-grade students attend a community college pursuant to this article shall, for purposes of allowances and apportionments from the State School Fund, continue to receive credit for attendance by such students computed in the manner prescribed by law, and a student's attendance at the high school for the minimum schoolday shall be deemed a day of attendance for purposes of making the computation.

## Article 2. Vocational Education Classes—11th and 12th Grades

48810. The principal of any high school may, with the approval of the governing board of the school district, permit 11th- and 12th-grade students to attend vocational education classes maintained by the community college district in which the high school is located, in accordance with Section 78009.

(Amended by Stats. 1976, Ch. 1011 )

### [ORIGINAL SECTION]

48810 The principal of any high school may, with the approval of the governing board of the school district, permit 11th- and 12th-grade students to attend vocational education classes maintained by the community college district in which the high school is located, in accordance with Section 76007.

## CHAPTER 6. PUPIL RIGHTS AND RESPONSIBILITIES

### Article 1. Suspension or Expulsion

48900. A teacher may suspend, for good cause, any pupil from his or her class for the day of the suspension and the day following. The teacher shall immediately report the suspension to the principal of the school and send the pupil to the principal for appropriate action. As soon as possible, the teacher shall ask the parent or guardian of the pupil to attend a parent-teacher conference regarding the suspension. A school administrator shall attend the conference if the teacher or the parent or guardian so requests. The pupil shall not be returned to the class from which he was suspended, during the period of the suspension, without the concurrence of the teacher of the class and the principal.

48901. The principal of a school may suspend, for good cause, any pupil from the school, subject to the provisions of Sections 48910, 48911, and 48912. The principal shall report the suspension of such a

pupil to the governing board of the school district or to the district superintendent in accordance with the regulations of the governing board.

Any suspension pursuant to this section shall not exceed five schooldays.

48902. As used in Sections 48900 and 48901, "good cause" includes those offenses enumerated in Section 48903, but is not limited to those offenses.

48903. Continued willful disobedience, habitual profanity or vulgarity, open and persistent defiance of the authority of the school personnel, or assault or battery upon a student, upon school premises or while under the authority of school personnel, or continued abuse of school personnel, assault or battery upon school personnel, or any threat of force or violence directed toward school personnel, at any time or place shall constitute good cause for suspension or expulsion from school; however, no pupil shall be suspended or expelled unless the conduct for which he is to be disciplined is related to school activity or school attendance.

48903.5. (a) Smoking or having tobacco on school premises, or while under the authority of school personnel, constitutes good cause for the suspension or expulsion of a pupil except as provided in this section.

(b) The governing board of any school district maintaining a high school may adopt rules and regulations permitting the smoking and possession of tobacco on the campus of a high school or while under the authority of school personnel by pupils of the high school; provided that such rules and regulations shall not permit students to smoke in any classroom or other enclosed facility which any student is required to occupy or which is customarily occupied by nonsmoking students.

(c) The governing board of any school district maintaining a high school shall take all steps it deems practical to discourage high school students from smoking.

48904. (a) For the protection of other pupils in the public school, the governing board of any school district may suspend, or expel, and the superintendent or a principal of any school district when previously authorized by the governing board may suspend, a pupil whenever it is established to the satisfaction of the board or the superintendent or principal, respectively, that the pupil has on school premises or elsewhere used, sold, or been in possession of narcotics or other hallucinogenic drugs or substances, or has inhaled or breathed the fumes of, or ingested, any poison classified as such by Schedule "D" in Section 4160 of the Business and Professions Code.

(b) Every sheriff or chief of police who arrests a minor of compulsory school attendance age or any pupil currently enrolled in a public school through grade 12 for using, selling, or possessing narcotics or other hallucinogenic drugs or substances, or for having inhaled or breathed the fumes of, or ingested any poison classified as

such in Section 4160 of the Business and Professions Code, when a petition is requested in juvenile court or a complaint filed in any court alleging that such minor is a person using, selling, or possessing narcotics or other hallucinogenic drugs or substances, or for having inhaled or breathed the fumes of, or ingested any poison classified as such in Section 4160 of the Business and Professions Code, shall without unnecessary delay give written notice to the superintendent of the school district of attendance.

(c) In any event where a sheriff or chief of police arrests a minor of compulsory school attendance age or any pupil currently enrolled in a public school through grade 12 for using, selling or possessing narcotics or other hallucinogenic drugs or substances, or for having inhaled or breathed the fumes of, or ingested any poison classified as such in Section 4160 of the Business and Professions Code and later releases such minor without filing a petition request with the juvenile court or a complaint in any court, the sheriff or chief of police may give written notice thereof to the superintendent of the school district of attendance if the sheriff or chief of police believes the school district will benefit by such notification.

(Amended by Stats. 1976, Ch. 1011.)

[ORIGINAL SECTION]

48904. (a) For the protection of other pupils in the public school, the governing board of any school district may suspend, or expel, and the superintendent or a principal of any school district when previously authorized by the governing board may suspend, a pupil whenever it is established to the satisfaction of the board or the superintendent or principal, respectively, that the pupil has on school premises or elsewhere used, sold, or been in possession of narcotics or other hallucinogenic drugs or substances, or has inhaled or breathed the fumes of, or ingested, any poison classified as such by Schedule "D" in Section 4160 of the Business and Professions Code.

(b) Every sheriff or chief of police who arrests a minor of compulsory school attendance age or any pupil currently enrolled in a public school through grade 12 for using, selling, or possessing narcotics or other hallucinogenic drugs or substances, or for having inhaled or breathed the fumes of, or ingested any poison classified as such in Section 4160 of the Business and Professions Code, when a petition is requested in juvenile court or a complaint filed in any court alleging that such minor is a person using, selling, or possessing narcotics or other hallucinogenic drugs or substances, or for having inhaled or breathed the fumes of, or ingested any poison classified as such in Section 4160 of the Business and Professions Code, shall without unnecessary delay give written notice to the superintendent of the school district of attendance.

(c) In any event where a sheriff or chief of police arrests a minor of compulsory school attendance age or any pupil currently enrolled in a public school through grade 12 for using, selling or possessing narcotics or other hallucinogenic drugs or substances, or for having inhaled or breathed the fumes of, or ingested any poison classified as such in Section 160 of the Business and Professions Code and later releases such minor without filing a petition request with the juvenile court or a complaint in any court, the sheriff or chief of police may give written notice thereof to the superintendent of the school district of attendance if the sheriff or chief of police believes the school district will benefit by such notification.

48905. It is unlawful for any pupil, enrolled in any elementary or secondary school of this state, to join or become a member of any secret fraternity, sorority, or club, wholly or partly formed from the membership of pupils attending the public schools, or to take part in

the organization or formation of any fraternity, sorority, or secret club. Nothing in this section shall be construed to prevent any pupil from joining the order of the Native Sons of the Golden West, Native Daughters of the Golden West, Foresters of America, or other kindred organizations not directly associated with the public schools of the state.

48906. Any governing board may enforce the provisions of Section 35291 by suspending, or, if necessary, expelling a pupil in any elementary or secondary school who refuses or neglects to obey any rules prescribed pursuant to that section.

48907. The governing board of any school district shall suspend or expel pupils for misconduct when other means of correction fail to bring about proper conduct.

48907.5. A governing board that has voted to expel a pupil may suspend the enforcement of such expulsion for a period of not more than one full semester in addition to the balance of the semester in which the board votes to expel and may, as a condition of such suspended action, assign the pupil to a school, class, or program which is deemed appropriate for rehabilitation of the pupil. In lieu of other authorized educational programs to which the pupil may be assigned, such school, class, or program may be offered as a community-centered classroom and may include experiences for the pupil as an observer or aide in governmental functions, as an on-the-job trainee, and as a participant in specialized tutorial experiences or individually prescribed educational and counseling programs. Such programs shall include an individualized learning program to enable the pupil to continue academic work for credit toward graduation and shall qualify for state apportionment based on average daily attendance for only those hours in courses which earn credit for graduation and which conform to the provisions of Section 46300.

At the conclusion of the designated period during which an expulsion action is suspended, the governing board shall: (1) reinstate a pupil who has satisfactorily participated in a school, class, or program to which such pupil has been assigned as a condition of the suspended action and permit the pupil to return to the school of former attendance or voluntarily to attend other programs offered by the district; or (2) if a pupil's conduct has been unsatisfactory, enforce the expulsion action previously voted by the board.

If the pupil is reinstated, the board may also take action to expunge the record of the expulsion action.

48908. The chief administrative employee at a school shall, prior to the suspension or expulsion of any pupil, notify the appropriate law enforcement authorities of the county or city in which the school is situated, of any acts of the student which may be violative of Section 245 of the Penal Code.

48909. Any minor whose willful misconduct results in injury or death to any student or any person employed by or performing volunteer services for a school district or who willfully cuts, defaces,

or otherwise injures in any way any property, real or personal, belonging to a school district is liable to suspension or expulsion, and the parent or guardian of an unemancipated minor shall be liable for all damages so caused by the minor. The liability of the parent or guardian shall not exceed two thousand dollars (\$2,000). The parent or guardian shall also be liable for the amount of any reward not exceeding two thousand dollars (\$2,000) paid pursuant to Section 53069.5 of the Government Code. The parent or guardian of a minor shall be liable to a school district for all property belonging to the school district loaned to the minor and not returned upon demand of an employee of the district authorized to make the demand.

48910. No pupil shall be suspended from an elementary school for more than two consecutive weeks.

No pupil shall be suspended from a secondary school for more than the duration of the current semester. For secondary schools not operated on the basis of a school term regularly divided into semesters, the governing board shall select a date approximating the midpoint of the term for purposes of the preceding sentence. All summer school sessions maintained at a secondary school shall, for purposes of this paragraph, be deemed to constitute a single semester.

On or before the third consecutive schoolday of any given period of suspension, the parent or guardian of the pupil involved shall be asked to attend a meeting with school officials, at which time the causes, the duration, the school policy involved, and other matters pertinent to the suspension, shall be discussed. If the parent or guardian fails to join in such a conference, the school officials shall send him by mail a letter stating the fact that suspension has been implemented and setting forth all other data pertinent to the action.

48911. Notwithstanding the provisions of Section 48910, no student shall be suspended from school for more than 20 days in a school year except he shall first be transferred to and enrolled in either one other regular school for adjustment purposes, an opportunity class in his school of residence, an opportunity school or class, or a continuation education school or class.

In the case of transfer to another regular school for adjustment purposes, additional days of suspension are limited to 10.

In a case where an action is pending in juvenile court in regard to a student, or where expulsion is being processed by the governing board, a superintendent, or other person designated by him in writing, may extend the suspension until such time as the juvenile court or the governing board has rendered a decision in the action.

48912. Whenever a pupil is suspended from school, the parent or guardian shall be notified of such action. Any notification to a pupil's parent or guardian concerning the suspension of the pupil shall be signed by the school principal or his designee.

48913. When a principal or other school official releases a minor pupil of such school to a peace officer for the purpose of removing the minor from the school premises, such school official shall take

immediate steps to notify the parent, guardian, or responsible relative of the minor regarding the release of the minor to such officer, and regarding the place to which the minor is reportedly being taken.

48914. The governing board of each school district shall establish rules and regulations governing procedures for the expulsion of pupils. Such procedures shall include, but are not necessarily limited to the following:

(a) The pupil and his parent or guardian shall be entitled to a hearing to determine whether the pupil should be expelled.

(b) Written notice of the hearing shall be forwarded to the pupil and his parent or guardian at least 10 days prior to the date of the hearing. Such notice shall include: the date and place of the hearing, a statement of the specific charges upon which the proposed expulsion is based, a copy of all the rules of the district which pertain to discipline adopted pursuant to Section 35291, the opportunity of the pupil or his parent or guardian to appear in person or to employ and be represented by counsel, and the opportunity of the pupil and his parent or guardian to present evidence, oral and documentary.

(c) Notwithstanding the provisions of Section 54950 of the Government Code and Section 35145 of this code, the governing board shall conduct a hearing to consider the expulsion of a pupil in a session closed to the public unless the pupil or his parents or guardian shall, in writing and at least five days prior to the date of the hearing, request that the hearing be a public meeting. If such request is served upon the governing board, the meeting shall be public.

(d) In lieu of conducting an expulsion hearing itself, the governing board of any school district may contract with the county hearing officer, or with the Office of Administrative Hearings of the State of California pursuant to Chapter 14 (commencing at Section 27720), Part 3, Division 2, Title 3 of the Government Code and Section 35207 of this code, for a hearing officer to conduct such hearing or the governing board may appoint an impartial administrative panel of three or more certificated employees of the district, none of whom shall be on the staff of the school in which the pupil is enrolled. In lieu of the appointment of district employees exclusively, the district may request the services of one or more certificated persons not employed by the district. Such hearing shall not be conducted in conflict with any procedures established in this section. Following such hearing, the hearing officer or administrative panel shall present findings of fact and recommendations to the board. The governing board shall thereafter accept the findings of fact and recommendations if such findings of fact and recommendations call for a rejection of expulsion. The governing board may reject the findings of fact and recommendations if such findings of fact and recommendations call for expulsion. All findings of fact and recommendations shall be based either upon a review of the transcript of the hearing or upon the results of such

supplementary hearing or investigation as the governing board may order.

(e) A record of the hearing shall be made. Such record, may be maintained by any means, including electronic recording, so long as a reasonably accurate written transcription of the proceedings can be made.

(f) Technical rules of evidence shall not apply to such hearing, but evidence may be admitted and given probative effect only if it is the kind of evidence upon which reasonable persons are accustomed to rely in the conduct of serious affairs. The decision of the governing board must be supported by substantial evidence.

(g) Whether a pupil expulsion hearing is conducted in closed or public session, by the governing board or before a hearing officer or administrative panel, the final action shall be taken by the governing board at a public meeting. Written notice of any decision to expel shall be sent to the pupil or parent or guardian and shall be accompanied by notice of the right to appeal such expulsion to the county board of education.

48915. If a pupil is expelled from school, the pupil or the parent or guardian of the pupil may appeal, within 30 days following the decision to expel by the governing board, to the county board of education which shall hold a hearing thereon and render its decision.

The county board of education shall establish rules and regulations governing procedures for expulsion appeals pursuant to this section and not in conflict with Sections 48917 through 48920, including, but not limited to notice of filing such appeal, setting the hearing date, certification to the county board of the record of the proceedings at the district level, hearing procedures, and preservation of a record of the hearing.

48916. Students of the public schools have the right to exercise free expression including, but not limited to, the use of bulletin boards, the distribution of printed materials or petitions, and the wearing of buttons, badges, and other insignia, except that expression which is obscene, libelous, or slanderous according to current legal standards, or which so incites students as to create a clear and present danger of the commission of unlawful acts on school premises or the violation of lawful school regulations, or the substantial disruption of the orderly operation of the school, shall be prohibited.

Each governing board of a school district and each county superintendent of schools shall adopt rules and regulations relating to the exercise of free expression by students upon the premises of each school within their respective jurisdictions, which shall include reasonable provisions for the time, place, and manner of conducting such activities.

48917. Notwithstanding the provisions of Section 54950 of the Government Code and Section 35145 of this code, the county board of education shall hear an appeal of an expulsion in executive session unless the pupil or his parent or guardian shall, in writing at least five

days prior to the date of the hearing, request that the hearing be a public meeting. If such request is served upon the county board, the meeting shall be public.

48918. The county board of education shall determine the appeal from a pupil expulsion upon the record of the hearing before the district governing board, together with such applicable documentation or regulations as may be ordered. No evidence other than that contained in the record of the proceedings of the school board may be heard unless a de novo proceeding is granted as provided in Section 48919.

It shall be the responsibility of the appellant to submit a written transcription for review by the county board. The cost of such transcript shall be borne by the appellant except (1) where the appellant certifies that he or she cannot reasonably afford the cost of the transcript because of limited income or exceptional necessary expenses, or both; or (2) in a case in which the county board reverses the decision of the local governing board pursuant to subdivision (b) of Section 48919, the county board shall require that the local board reimburse the appellant for the cost of such transcription. The review by the county board of the decision of the governing board shall be limited to the following questions:

(a) Whether the governing board has proceeded without or in excess of its jurisdiction.

(b) Whether there was a fair hearing before the governing board.

(c) Whether there was a prejudicial abuse of discretion in the hearing, as such abuse of discretion is described in subdivision (b) of Section 1094.5 of the Code of Civil Procedure.

(d) Whether there is relevant evidence, which, in the exercise of reasonable diligence, could not have been produced or which was improperly excluded at the hearing before the governing board.

48919. The decision of the county board shall be limited as follows:

(a) Where the county board finds that relevant evidence exists which, in the exercise of reasonable diligence, could not have been produced or which was improperly excluded at the hearing before the governing board, or finds that there was otherwise a denial of due process, it may:

(1) Remand the matter to the governing board for reconsideration and may in addition order the pupil reinstated pending such reconsideration; or, instead,

(2) Grant a hearing de novo upon reasonable notice thereof to the parent or guardian of the pupil and to the governing board. Such hearing shall be conducted in conformance with the procedures set forth in Section 48914.

(b) In all other cases, the county board shall enter an order either affirming or reversing the decision of the governing board. In any case in which the county board enters a decision reversing the local board, the county board may direct the local board to expunge the record of the pupil and the records of the district of any references

to the expulsion action and such expulsion shall be deemed not to have occurred.

48920. The decision of the county board of education shall be final and binding upon the pupil and the parent or guardian of the pupil, and upon the governing board of the school district. The final order of the county board shall be in writing and copies thereof shall be delivered to the pupil and the parent or guardian and to the governing board by personal service or by certified mail. The order shall become final when rendered.

48921. All pupils shall comply with the regulations, pursue the required course of study, and submit to the authority of the teachers of the schools.

## Article 2. Student Organizations

48930. Any group of students may organize a student body association within the public schools with the approval and subject to the control and regulation of the governing board of the school district. Any such organization shall have as its purpose the conduct of activities on behalf of the students approved by the school authorities and not in conflict with the authority and responsibility of the public school officials. Any student body organization may be granted the use of school premises and properties without charge subject to such regulations as may be established by the governing board of the school district.

48931. The governing board of any school district may authorize any organization composed entirely of pupils attending the schools of the district to maintain such activities as may be approved by the governing board. The governing board of any school district may authorize student organizations to sell food on school premises, subject to policy and regulations of the State Board of Education. The State Board of Education shall develop policy and regulations for the sale of food by student organizations in kindergarten and grades 1 through 12 which shall insure optimum participation in the school district's nonprofit food service programs and shall be in consideration of all programs approved by the governing board of any school district. Such policy and regulations shall be effective January 1, 1976.

Nothing in this section shall be construed as exempting from the California Restaurant Act, food sales which are authorized pursuant to this section and which would otherwise be subject to the California Restaurant Act.

48932. The governing board of any school district may authorize any organization composed entirely of pupils attending the schools of the district to maintain such activities, including fund-raising activities, as may be approved by the governing board.

The governing board of any school district may, by resolution, authorize any student body organization to conduct fund-raising activities on school property during school hours provided that the

governing board has determined that such activities will not interfere with the normal conduct of the schools.

48933. The funds of any student body organization established in the public schools of any school district shall, subject to approval of the governing board of the school district, be deposited or invested in one or more of the following ways:

(a) Deposits in a bank or banks whose accounts are insured by the Federal Deposit Insurance Corporation.

(b) Investment certificates or withdrawable shares in state-chartered savings and loan associations and savings accounts of federal savings and loan associations provided such associations are doing business in this state and have their accounts insured by the Federal Savings and Loan Insurance Corporation.

(c) Purchase of United States savings bonds (Series F and G) as authorized for investment by subdivision (a) of Section 16430 of the Government Code.

(d) Shares or certificates for funds received or any form of evidence of interest or indebtedness issued by any credit union in this state, organized under the provisions of Division 5 (commencing with Section 14000) of the Financial Code or the statutes of the United States relating to credit unions insured by the administrator of the National Credit Union Administration or a comparable agency as provided by a state government.

The funds shall be expended subject to such procedure as may be established by the student body organization subject to the approval of each of the following three persons which shall be obtained each time before any of such funds may be expended: an employee or official of the school district designated by the governing board, the certificated employee who is the designated adviser of the particular student body organization, and a representative of the particular student body organization.

48934. The funds of a student body organization established in the public schools for kindergarten and grades 1 to 6, inclusive, of any school district maintaining kindergarten and grades 1 to 6, inclusive, may be used to finance activities for noninstructional periods or to augment or to enrich the programs provided by the district.

48936. In addition to deposit or investment pursuant to Section 48933, the funds of a student body organization may be loaned or invested in any of the following ways:

(a) Loans, with or without interest, to any student body organization established in another school of the district for a period not to exceed three years.

(b) Invest money in permanent improvements to any school district property including, but not limited to, buildings, automobile parking facilities, gymnasiums, swimming pools, stadia and playing fields, where such facilities, or portions thereof, are used for conducting student extracurricular activities or student spectator sports, or when such improvements are for the benefit of the student body. Such investment shall be made on condition that the principal

amount of the investment plus a reasonable amount of interest thereon shall be returned to the student body organization as provided herein. Any school district approving such an investment shall establish a special fund in which moneys derived from the rental of school district property to student body organizations shall be deposited. Moneys shall be returned to the student body organization as contemplated by this section exclusively from such special fund and only to the extent that there are moneys in such special fund. Whenever there are no outstanding obligations against the special fund, all moneys therein may be transferred to the general fund of the school district by action of the local governing board.

Two or more student body organizations of the same school district may join together in making such investments in the same manner as is authorized herein for a single student body. Nothing herein shall be construed so as to limit the discretion of the local governing board in charging rental for use of school district property by student body organizations as provided in Section 48930.

48937. The governing board of any school district shall provide for the supervision of all funds raised by any student body or student organization using the name of the school.

The cost of supervision may constitute a proper charge against the funds of the district.

The governing board of a school district may also provide for a continuing audit of student body funds with school district personnel.

48938. In schools or classes for adults, regional occupational centers or programs, or in elementary schools in which the student body is not organized, the governing board may appoint an employee or official to act as trustee for student body funds and to receive said funds in accordance with procedures established by the board. These funds shall be deposited in a bank approved by the board and shall be expended subject to the approval of said appointed employee or official and also subject to such procedure as may be established by the board.

#### Article 4. Notification of Parent or Guardian

48980. At the beginning of the first semester or quarter of the regular school term the governing board of each school district shall notify the parent or guardian of its minor pupils regarding the right of the parent or guardian under Sections 46014, 49403, 49423, 49451, 49472, 51240, and 51550.

48981. The notice shall be sent at the time of registration for the first semester or quarter of the regular school term. The notice may be sent by regular mail or by any other method normally used to communicate with the parents or guardians in writing.

48982. The notice shall be signed by the parent or guardian and returned to the school. Signature of the notice is an acknowledgment by the parent or guardian that he has been informed of his rights but

does not indicate that consent to participate in any particular program has either been given or withheld.

48983. If any activity covered by the sections set forth in Section 48980 will be undertaken by the school during the forthcoming school term, the notice shall state that fact and shall also state the approximate date upon which any of such activities will occur.

48984. No school district shall undertake any activity covered by the sections set forth in Section 48980 with respect to any particular pupil unless the parent or guardian has been informed of such action pursuant to this article or has received separate special notification.

#### Article 5. Prohibition of Corporal Punishment

49000. The governing board of any school district may adopt rules and regulations authorizing teachers, principals, and other certificated personnel to administer reasonable corporal or other punishment to pupils when such action is deemed an appropriate corrective measure except and to the extent that such action is permissible as provided in Section 49001.

49001. (a) Corporal punishment shall not be administered to a pupil without the prior written approval of the pupil's parent or guardian. The written approval shall be valid for the school year in which it is submitted but may be withdrawn by the parent or guardian at any time.

(b) If a school district has adopted a policy of corporal punishment pursuant to Section 49000, at the beginning of the first semester or quarter of the regular school term the governing board of each such school district shall notify the parent or guardian in a manner similar to that provided pursuant to Section 48980 that corporal punishment shall not be administered to a pupil without the prior written approval of the pupil's parent or guardian.

#### Article 6. Athletic Programs

49020. It is the intent of the Legislature that opportunities for participation in interschool athletic programs in public high schools of the state be provided on as equal a basis as is practicable to male and female students. The costs of providing these equal opportunities may vary according to the type of sports contained within the respective male and female athletic programs. Additional sources of revenue should be determined to provide for these equal opportunity programs.

49021. It is the intent of the Legislature that opportunities for participation in athletics be provided on an equitable basis to all students.

It is the further intent of the Legislature that females be given the same opportunity to participate in athletics and compete with other females in individual and team sports as is available to males who compete with other males in individual and team sports.

49022. Insofar as practicable, in apportioning public funds school district governing boards shall apportion amounts available for athletics to ensure that equitable amounts will be allocated for all students, except that allowances may be made for differences in the costs of various athletic programs.

49023. Notwithstanding any other provision of law, no public funds shall be used in connection with athletic programs conducted under the auspices of a school district governing board or any student organization within the district, which do not provide facilities and opportunities for participation by both sexes on an equitable basis. Facilities and opportunities for participation include, but are not limited to, equipment and supplies, scheduling of games and practice time, compensation for coaches, travel arrangements, per diem, locker rooms, and medical services.

#### Article 7. Registering to Vote

49040. The last two full weeks in April and the last two full weeks in September shall be known as "high school voter weeks," during which time deputy registrars of voters shall be allowed to register students and school personnel on any high school campus in areas designated by the school administration, which are reasonably accessible to all students.

### CHAPTER 6.5. PUPIL RECORDS

#### Article 1. Legislative Intent

49060. It is the intent of the Legislature to resolve potential conflicts between California law and the provisions of Public Law 93-380 regarding parental access to, and the confidentiality of, pupil records in order to insure the continuance of federal education funds to public educational institutions within the state, and to revise generally and update the law relating to such records.

This chapter shall have no effect regarding public community colleges, other public or private institutions of higher education, other governmental or private agencies which receive federal education funds unless described herein, or, except for Sections 49068 and 49069 and subdivision (b) (5) of Section 49076, private schools.

The provisions of this chapter shall prevail over the provisions of Section 12400 of this code and Chapter 3.5 (commencing with Section 6250) of Division 7 of Title 1 of the Government Code to the extent that they may pertain to access to pupil records.

#### Article 2. Definitions

49061. As used in this chapter:

- (a) "Parent" means a natural parent, an adopted parent, or legal

guardian. If parents are divorced or legally separated, only the parent having legal custody of the pupil may consent to release records to others pursuant to Section 49075, provided, however, that either parent may grant consent if both parents have notified, in writing, the school or school district that such an agreement has been made. Whenever a pupil has attained the age of 18 years or is attending an institution of postsecondary education, the permission or consent required of, and the rights accorded to, the parents or guardian of the pupil shall thereafter only be required of, and accorded to, the pupil.

(b) "Pupil record" means any item of information directly related to an identifiable pupil, other than directory information, which is maintained by a school district or required to be maintained by an employee in the performance of his duties whether recorded by handwriting, print, tapes, film, microfilm or other means.

"Pupil record" shall not include informal notes related to a pupil compiled by a school officer or employee which remains in the sole possession of the maker and is not accessible or revealed to any other person.

(c) "Directory information" means one or more of the following items: student's name, address, date and place of birth, major field of study, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, degrees and awards received, and the most recent previous public or private school attended by the student.

(d) "School district" means any school district maintaining any of grades kindergarten through 12, any public school providing instruction in any of grades kindergarten through 12, the office of the county superintendent of schools, or any special school operated by the Department of Education.

(e) "Access" means a personal inspection and review of a record or an accurate copy of a record, or an oral description or communication of a record or an accurate copy of a record, or a request to release a copy of any record.

### Article 3. General Provisions

49062. School districts shall establish, maintain, and destroy pupil records according to regulations adopted by the State Board of Education. Such regulations shall establish state policy as to what items of information shall be placed into pupil records and what information is appropriate to be compiled by individual school officers or employees under the exception to pupil records provided in subdivision (b) of Section 49061. No pupil records shall be destroyed except pursuant to such regulations or as provided in subdivisions (b) and (c) of Section 49070.

49063. School districts shall notify parents of their rights under this chapter upon the date of the pupil's initial enrollment, and thereafter at the same time as notice is issued pursuant to Section

49079. The notice shall be, insofar as is practicable, in the home language of the pupil. The notice shall take a form which reasonably notifies parents of the availability of the following specific information:

(a) The types of pupil records and information contained therein which are directly related to students and maintained by the institution.

(b) The name and position of the official responsible for the maintenance of each type of record, the persons who have access to those records, and the purposes for which they have such access.

(c) The policies of the institution for reviewing and expunging those records.

(d) The right of the parent to access to pupil records.

(e) The procedures for challenging the content of pupil records.

(f) The cost if any which will be charged to the parent for reproducing copies of records.

(g) The categories of information which the institution has designated as directory information pursuant to Section 49073 and the parties to whom such information will be released unless the parent objects.

(h) Any other rights and requirements set forth in this chapter.

49064. A log or record shall be maintained for each pupil's record which lists all persons or organizations requesting or receiving information from the record excepting school personnel and the reasons therefor. The log shall be open to inspection only by a parent and the school official or his designee responsible for the maintenance of pupil records.

49065. Any school district may make a reasonable charge in an amount not to exceed the actual cost of furnishing copies of any pupil record; provided, however, that no charge shall be made for furnishing (1) up to two transcripts of former pupils' records or (2) up to two verifications of various records of former pupils.

49066. (a) When grades are given for any course of instruction taught in a school district, the grade given to each pupil shall be the grade determined by the teacher of the course and the determination of the pupil's grade by the teacher, in the absence of mistake, fraud, bad faith, or incompetency, shall be final.

(b) No grade of a pupil participating in a physical education class, however, may be adversely affected due to the fact that the pupil does not wear standardized physical education apparel where the failure to wear such apparel arises from circumstances beyond the control of the pupil.

49067. The governing board of each school district shall prescribe regulations requiring the evaluation of each pupil's achievement for each marking period and requiring a conference with, or a written report to, the parent of each pupil whenever it becomes evident to the teacher that the pupil is in danger of failing a course. The refusal of the parent to attend the conference, or to respond to the written report, shall not preclude failing the pupil at the end of the grading period.

Notwithstanding the provisions of subdivision (a) of Section 49061, the provisions of this section shall apply to the parent of any pupil without regard to the age of the pupil.

49068. Whenever a pupil transfers from one school district to another or to a private school, or transfers from a private school to a school district within the state, the pupil's permanent enrollment and scholarship record or a copy thereof shall be transferred by the former district or private school upon a request from the district or private school where the pupil intends to enroll. Any school district requesting such a transfer of a record shall notify the parent of his right to receive a copy of the record and a right to a hearing to challenge the content of the record. The State Board of Education is hereby authorized to adopt rules and regulations concerning the transfer of records.

#### Article 4. Rights of Parents

49069. Parents of currently enrolled or former pupils have an absolute right to access to any and all pupil records related to their children which are maintained by school districts or private schools. The editing or withholding of any such records is prohibited.

Each school district shall adopt procedures for the granting of requests by parents to inspect and review records during regular school hours, provided that access shall be granted no later than five days following the date of the request. Procedures shall include the notification to the parent of the location of all official pupil records if not centrally located and the providing of qualified certificated personnel to interpret records where appropriate.

49070. Following an inspection and review of a pupil's records, the parent of a pupil or former pupil of a school district may challenge the content of any pupil record.

(a) The parent of a pupil may file a written request with the superintendent of the district to remove any information recorded in the written records concerning his child which he alleges to be: (1) inaccurate, (2) an unsubstantiated personal conclusion or inference, (3) a conclusion or inference outside of the observer's area of competence, or (4) not based on the personal observation of a named person with the time and place of the observation noted.

(b) Within 30 days of receipt of such request, the superintendent or his designee shall meet with the parent and the certificated employee who recorded the information in question, if any, and if such employee is presently employed by the school district. The superintendent shall then sustain or deny the allegations.

If the superintendent sustains the allegations, he shall order the removal and destruction of the information.

If the superintendent denies the allegations and refuses to order the removal of the information, the parent may, within 30 days of the refusal, appeal the decision in writing to the governing board of the school district.

(c) Within 30 days of receipt of such an appeal, the governing

board shall, in closed session with the parent and the certificated employee who recorded the information in question, if any, and if such employee is presently employed by the school district, determine whether or not to sustain or deny the allegations.

If the governing board sustains the allegations, it shall order the superintendent to immediately remove and destroy the information from the written records of the pupil.

The decision of the governing board shall be final.

Records of these administrative proceedings shall be maintained in a confidential manner and shall be destroyed one year after the decision of the governing board, unless the parent initiates legal proceedings relative to the disputed information within the prescribed period.

(d) If the final decision of the governing board is unfavorable to the parent, or if the parent accepts an unfavorable decision by the district superintendent, the parent shall have the right to submit a written statement of his objections to the information. This statement shall become a part of the pupil's school record until such time as the information objected to is removed.

49071. (a) To assist in making determinations pursuant to Section 49070, a district superintendent or governing board may convene a hearing panel composed of the following persons, provided that the parent has given written consent to release information from the relevant pupil's records to the members of the panel so convened:

(1) The principal of a public school other than the public school at which the record is on file.

(2) A certificated employee appointed by the chairman of the certificated employee council of the district, or, if no such council exists, a certificated employee appointed by the parent.

(3) A parent appointed by the superintendent or by the governing board of the district, depending upon who convenes the panel.

(b) The persons appointed pursuant to paragraphs (2) and (3) of subdivision (a) shall, if possible, not be acquainted with the pupil, his parent or guardian, or the certificated employee who recorded the information, except when the parent or guardian appoints the person pursuant to paragraph (2).

(c) The principal appointed to the hearing panel shall serve as its chairman.

(d) The hearing panel shall, in closed session, hear the objections to the information of the parent and the testimony of the certificated employee who recorded the information in question, if any, and if such employee is presently employed by the school district.

The hearing panel shall be provided with verbatim copies of the information which is the subject of the controversy.

Written findings shall be made setting forth the facts and decisions of the panel, and such findings shall be forwarded to the superintendent or the governing board, depending upon who convened the panel.

The proceedings of the hearing shall not be disclosed or discussed by panel members except in their official capacities.

49072. Whenever there is included in any pupil record information concerning any disciplinary action taken by school district personnel in connection with the pupil, the school district maintaining such record or records shall allow the pupil's parent to include in such pupil record a written statement or response concerning the disciplinary action.

#### Article 5. Privacy of Pupil Records

49073. School districts shall adopt a policy identifying those categories of directory information as defined in subdivision (c) of Section 49061 which may be released. The district shall determine which officials or organizations may receive directory information, provided, however, that no information may be released to a private profitmaking entity other than employers, prospective employers and representatives of the news media, including, but not limited to, newspapers, magazines, and radio and television stations. The names and addresses of pupils enrolled in grade 12 or who have terminated enrollment prior to graduation may be provided to a private school or college operating under the provisions of Chapter 3 (commencing with Section 94300) of Part 59 of Division 10; provided, however, that no such private school or college shall use such information for other than purposes directly related to the academic or professional goals of the institution, and provided further that any violation of this provision is a misdemeanor, punishable by a fine of not to exceed two thousand five hundred dollars (\$2,500), and, in addition, the privilege of the school or college to receive such information shall be suspended for a period of two years from the time of discovery of the misuse of such information. Any district may, in its discretion, limit or deny the release of specific categories of directory information to any public or private nonprofit organization based upon a determination of the best interests of pupils.

Directory information may be released according to local policy as to any pupil or former pupil, provided that notice is given at least on an annual basis of the categories of information which the school plans to release and of the recipients. No directory information shall be released regarding any pupil when a parent has notified the school district that such information shall not be released.

49074. Nothing in this chapter shall preclude a school district from providing, in its discretion, statistical data from which no pupil may be identified to any public agency or entity or private nonprofit college, university, or educational research and development organization when such actions would be in the best educational interests of pupils.

49075. A school district may permit access to pupil records to any person for whom a parent of the pupil has executed written consent specifying the records to be released and identifying the party to whom the records may be released. The recipient must be notified

that the transmission of the information to others is prohibited. The consent notice shall be permanently kept with the record file.

49076. A school district is not authorized to permit access to pupil records to any person without written parental consent or under judicial order except that:

(a) Access shall be permitted to the following:

(1) School officials and employees of the district and members of a school attendance review board appointed pursuant to Section 48321, provided that any such person has a legitimate educational interest to inspect a record.

(2) Officials and employees of other public schools or school systems, including local, county, or state correctional facilities where educational programs leading to high school graduation are provided, where the pupil intends to or is directed to enroll, subject to the rights of parents as provided in Section 49068.

(3) Federal education officials, the United States Office for Civil Rights, the Superintendent of Public Instruction, or the county superintendent of schools, or their respective designees, where such information is necessary to audit or evaluate a state or federally funded program or pursuant to a federal or state law.

(4) Other state and local officials to the extent that information is specifically required to be reported pursuant to state law.

(5) Parents of an 18-year-old pupil who is a dependent as defined in Section 152 of the Internal Revenue Code of 1954.

(6) A pupil 16 years of age or older or having completed the 10th grade who requests such access.

(b) School districts may release information from education records to the following:

(1) Appropriate persons in connection with an emergency if the knowledge of such information is necessary to protect the health or safety of a student or other persons.

(2) Agencies or organizations in connection with a student's application for, or receipt of, financial aid.

(3) Accrediting associations.

(4) Organizations conducting studies for, or on behalf of, educational agencies or institutions for the purpose of developing, validating, or administering predictive tests, administering student aid programs, and improving instruction, if such studies are conducted in such a manner as will not permit the personal identification of students or their parents by persons other than representatives of such organizations and such information will be destroyed when no longer needed for the purpose for which it is conducted.

(5) Officials and employees of private schools or school systems where the pupil is enrolled or intends to enroll, subject to the rights of parents as provided in Section 49068. Such information shall be in addition to the pupil's permanent enrollment and scholarship record transferred pursuant to Section 49068.

No person, persons, agency, or organization permitted access to pupil records pursuant to this section shall permit access to any

information obtained from such records by any other person, persons, agency, or organization without the written consent of the pupil's parent; provided, however, that this paragraph shall not be construed as to require prior parental consent when information obtained pursuant to this section is shared with other persons within the educational institution, agency or organization obtaining access, so long as such persons have an equal legitimate interest in the information

49077. Information concerning a student shall be furnished in compliance with a court order. The parent and the pupil shall be notified in advance of such compliance by the school employee who complies and releases the information if lawfully possible within the requirements of the judicial order.

49078. The service of a subpoena upon a public school employee solely for the purpose of causing him to produce a school record pertaining to any pupil may be complied with by such employee, in lieu of personal appearance as a witness in the proceeding, by submitting to the court, or other agency issuing the subpoena, at the time and place required by the subpoena, a copy of such record, accompanied by an affidavit certifying that such copy is a true copy of the original record on file in the school or school office. The copy of the record shall be in the form of a photostat, microfilm, microcard, or miniature photograph or other photographic copy or reproduction, or an enlargement thereof.

## CHAPTER 7. EMPLOYMENT OF MINORS

### Article 1. Employment and Attendance

49100. No minor having a permit to work and no minor under 18 years of age, who is otherwise required by law to attend school, shall be out of school and unemployed for a period longer than 10 consecutive days while the public schools are in session, but shall enroll and attend school.

### Article 2. Permits to Work

49110. The superintendent of any school district in which any minor resides, or a person authorized by him in writing, may issue to certain minors permits to work. Where the minor resides in a portion of a county not under the jurisdiction of the superintendent of any school district, the permit to work shall be issued by the superintendent of schools of the county or by a person authorized by him, in writing. No permit to work shall be issued until the written request therefor from the parent or guardian has been filed with the issuing authority.

49111. A permit to work may be issued to any minor over the age of 12 years and under the age of 18 years to be employed on a regular school holiday, and during the regular vacation of the public school and during the period of a specified occasional public school vacation

in any of the establishments or occupations not otherwise prohibited by law.

49112. A permit to work may be issued to a minor under the age of 18 years and over the age of 14 years to work outside of school hours for a period of time not to exceed four hours in any day in which he is required by law to attend school if he has completed the equivalent of the seventh grade of a public school course.

49113. A permit to work may be issued to a minor who is under the age of 18 years and over the age of 14 years who is regularly enrolled in a high school or community college or who has been assigned to a vocational course in a place of employment, and who will work part time as a properly enrolled pupil in a work experience education course that meets all the requirements of such course as provided in Sections 51760 to 51769, inclusive.

49114. The person authorized to issue permits to work or to employ may issue to any minor a certificate of age when the minor accompanied by his parent, guardian, or other person in control or charge of the minor, presents to the authority, the evidence of age specified in this chapter. The certificate of age shall serve as a permit to employ a minor who is not by law required to attend school, and who is otherwise required to hold a permit to work.

49115. The permit to employ shall contain:

(a) The name, age, birth date, address and phone number of the minor.

(b) The place and hours of compulsory part-time school attendance for the minor, or statement of exemption therefrom, and the hours of compulsory full-time school attendance for the minor, if the permit is issued for outside of school hours.

(c) The maximum number of hours per day and per week the student may work while school is in session.

(d) The minor's social security number.

(e) The signature of the minor and the issuing authority.

(f) The date on which the permit expires.

49116. Except in personnel attendance occupations, as defined in the Industrial Welfare Commission Minimum Wage Order No. 1-74, and school approved work experience and cooperative vocational education programs, no employer shall employ a minor for more than four hours in any day in which such minor is required by law to attend school for 240 minutes or more each schoolday. No employer shall employ any minor under the age of 18 years in any agricultural occupation for more than 20 hours in any schoolweek in which such minor is required by law to attend school for 240 minutes or more each schoolday. Minors 16 and 17 years of age shall not work in any agricultural occupation more than six hours a day they are required to attend school for 240 minutes or more each schoolday. Minors 14 and 15 years of age shall not work in any agricultural occupation more than four hours on a schoolday. Holidays and days school is not in session are not covered by this section. If evidence is shown to the satisfaction of the person issuing the permit that the

schoolwork or the health of the minor is being impaired by the employment, the authority issuing the permit may revoke it.

49117. All permits to work or to employ, all certificates of age, and certificates of health pursuant to this chapter, shall be issued on forms prepared and provided by the Superintendent of Public Instruction. Local school districts authorized to issue permits to work may be authorized by the Superintendent of Public Instruction to produce permits to work.

49118. Permits to work issued during the school year shall expire five days after the opening of the next succeeding school year.

49119. Nothing in this article shall require a minor to obtain a permit to work in order for such minor to participate in horseback riding exhibitions, contests or events specified in paragraph (3) of subdivision (b) of Section 1308 of the Labor Code.

### Article 3. Permits to Work Full Time

49130. A permit to work full time may be issued to a minor under the age of 16 years and over the age of 14 years who holds a diploma of graduation from the prescribed elementary school course. A permit of this class shall be issued only when the parent, or foster parent, or guardian of the minor child presents a sworn statement that the parent or foster parent, or guardian of the minor is incapacitated for labor through illness or injury, or that through the death or desertion of the father of the minor the family is in need of the earnings of the minor and that sufficient aid cannot be secured in any other manner. In no case shall the permit be issued for a period of time to exceed the end of the current school year.

The person issuing the permit shall make a signed statement that he, or a competent person designated by him, has investigated the conditions under which the application for the permit has been made and has found that, in his judgment, the earnings of the minor are necessary for the family to support the minor and that sufficient aid cannot be secured in any other manner. Such minors shall be duly enrolled in a work experience education program.

49131. Notwithstanding Section 49130, 49132, or 49134 or subdivision (d) of Section 49133, a permit to work full time may be issued to a minor over the age of 16 and under the age of 18.

49132. No permit shall be issued until the minor accompanied by his parent or guardian, appears before the person authorized to issue the permit and makes application therefor.

This section shall be applicable only to minors subject to Section 49130.

49133. No permit shall be issued until the issuing authority has received, examined, approved, and filed, the following papers duly executed:

(a) The school record of the minor giving age, grade, and attendance for the current term signed by the principal or teacher.

(b) Evidence of age, such as the school record of enrollment, or

a certificate of birth, or a baptism certificate duly attested, or a passport, or affidavit of the parent, guardian, or custodian of the minor, such as shall convince the officer that the minor is of the age required by law.

(c) The written statement from a prospective employer that work is waiting for the minor and describing the nature of the work.

(d) A certificate signed by a physician appointed by the school board, or by other public medical officer, stating that the minor has been thoroughly examined by him, and, in his opinion, is physically fit to pursue the work specified. No fee shall be charged the minor for the physical certificate.

This section shall be applicable only to minors subject to Section 49130.

49134. The parent, guardian, or custodian accompanying the minor shall make oath that his statement of the name, address, birthplace, and age of the minor as entered upon the application for the permit to work are true and correct to the best of his knowledge and belief.

This section shall be applicable only to minors subject to Section 49130.

49135. The authority issuing any permit to work full time shall immediately notify, in writing, the person in charge of the organization and maintenance of part-time continuation classes of the place of the minor's prospective employment, and the parent or guardian of the minor shall send the minor to the classes designated.

#### Article 4. Exceptions

49140. Every owner, tenant, or operator of a farm employing thereon as agricultural labor any parent or guardian having minor children in his immediate care and custody shall post at a conspicuous place on the property or place of employment where it may be easily read by those employed, a notice stating that minor children are not allowed to work upon the premises unless legally permitted to do so by law and unless permits to work have been secured by the minor children from duly constituted authorities. All such notices shall be printed in both the English and Spanish languages.

49141. In order that children may be disciplined and trained in habits of work and industry by their parents, guardians, or other persons standing in the place of parents, nothing in this chapter shall require a permit to work to be issued to any minor or require a permit to employ to be issued to the parent or guardian when the work or intended work to be performed by the minor is for or under the control of his parent or guardian and is performed upon or in connection with the premises owned, operated, or controlled by the parent or guardian. Nothing in this section shall be held to affect existing provisions of law which require permits to work to be issued to minors employed in manufacturing, mercantile, or similar

commercial enterprises by their parents or guardians, or to do work which is otherwise forbidden by Section 1294, 1296, or 1308.5 of the Labor Code. All other provisions of law relating to compulsory education shall be effective as to the minor.

#### Article 5. Compliance

49150. An annual report of all permits to work issued during the year shall be made by the issuing authority to the county or city and county superintendents of schools. The reports shall be upon forms prepared and provided by the Superintendent of Public Instruction. The superintendent of schools of each county or city and county shall include in his annual report to the Superintendent of Public Instruction a summary of all such reports.

49151. Nothing in this chapter shall be construed to repeal or in any way modify the provisions of Sections 1298, 1390, 1394, 1396, and 1397 of the Labor Code.

#### Article 6. Duties of Employer

49160. No person, firm or corporation shall employ, suffer, or permit any minor under the age of 18 years to work in or in connection with any establishment or occupation except as provided in Section 49151 without a permit to employ, issued by the proper educational officers in accordance with law.

49161. Every person, firm, corporation, or agent or officer of a firm or corporation, employing minors under the age of 18 years shall keep on file all permits to employ minors under the age of 18 years during the term of the employment.

49162. The employer of any minor subject to this chapter shall send to the officer authorized to issue the permit to work a written notification of intent to employ a minor. The form of the intent to employ a minor shall be prescribed by the Department of Education and shall be furnished to the employer by the officer.

49163. The notification of intent to employ a minor shall contain:

(a) The name, address, phone number, and social security number of the minor.

(b) The name, address, phone number, and supervisor at the minor's place of employment.

(c) The kind of work the minor will perform.

(d) The maximum number of hours per day and per week the student will be expected to work for the employer.

(e) The signatures of the parent or guardian, of the minor, and of the employer.

49164. Permits to work and to employ and certificates of age shall always be open to inspection by supervisors of attendance, probation officers, designees of the Labor Commissioner, and by officers of the Superintendent of Public Instruction. Every permit to work or to employ and every certificate of age shall be subject to cancellation

at any time by the Superintendent of Public Instruction, the Labor Commissioner, or by the person issuing the permit or certificate whenever any person authorized to inspect such permits and certificates finds that the conditions for the legal issuance of the permit or certificate of age do not exist or did not exist at the time the permit or certificate was issued. A permit to work shall be revoked by the issuing authority when he is satisfied that the employment of the minor is impairing the health or education of the minor, or that any provision or condition of the permit is being violated, or that the minor is performing work in violation of any provision of law.

49165. Nothing in this article shall require a person to obtain a permit to employ in order for a minor to participate in horseback riding exhibitions, contests or events specified in paragraph (3) of subdivision (b) of Section 1308 of the Labor Code.

#### Article 7. Violations

49180. If upon inspection or investigation a supervisor of attendance, probation officer, or officer of the Superintendent of Public Instruction determines that a person is in violation of any statutory provision or rule or regulation relating to the employment of minors, he shall report the violation to the Labor Commissioner. Such report shall be made within 48 hours, and shall be in writing, setting forth the fact that he has good cause to believe that such statutory provision or rule or regulation is being violated by the person. Upon receipt of the report of violation, the Labor Commissioner shall make an inspection or investigation of the violation and shall take such action as is provided in Section 1287 of the Labor Code.

49181. Failure to produce a permit to work is prima facie evidence of the illegal employment of any minor whose permit to work is not produced.

49182. Any person, firm, corporation, or agent or officer of a firm or corporation, that violates or omits to comply with any of the provisions of this chapter, or that employs or suffers any minor under 18 years of age who is too old to be subject to compulsory full-time school attendance to be employed in violation thereof, is guilty of a misdemeanor and shall be punished by a fine of not less than fifty dollars (\$50), nor more than two hundred dollars (\$200), or by imprisonment in the county jail for not more than 60 days, or by both such fine and imprisonment for each and every offense.

49183. Every person authorized to sign any certificate of age or any permit to work or to employ which allows employment of any minor during or outside school hours, during a vacation of the public schools, or upon the regular school holiday who knowingly certifies to any false statement therein, is guilty of a misdemeanor, and is punishable by a fine of not less than five dollars (\$5) or more than fifty dollars (\$50), or imprisonment for not more than 30 days, or by

both such fine and imprisonment.

## CHAPTER 8. PUPIL SAFETY

### Article 1. School Safety Patrols

49300. The governing board of any school district may, subject to such rules and regulations as shall be adopted by the State Board of Education, establish and maintain a school safety patrol in any of the schools of the district for the purpose of assisting school pupils in safely crossing streets and highways adjacent to or near such school.

49301. A school safety patrol established in any school as herein provided shall be composed of pupils attending in such school. The members of the patrol shall be under the supervision and control of a qualified employee of the district designated by the board, except as otherwise provided in Sections 1299, 49472 to 49473, inclusive, 49510 to 49517, inclusive, Article 1 (commencing with Section 49400) to Article 5 (commencing with Section 49470), inclusive, Article 8 (commencing with Section 49500) of Chapter 9 of this part, and this article. The provisions of this section shall not, however, be deemed to require the physical presence of such employee at any particular street or highway location where any such school safety patrol is functioning.

49302. The pupils who serve as members of a school safety patrol shall be designated by the principal of the school in which the patrol is established, but no pupil shall be designated to serve on any patrol unless the pupil and the person having legal custody of such pupil consent, in writing, thereto. Upon the revocation, in writing, of the consent of either such pupil or such person, the pupil shall cease to be a member of the patrol.

49303. The State Board of Education is hereby authorized to adopt all rules and regulations necessary to effect the purposes of this act, and the governing board of each school district is hereby authorized to adopt additional rules and regulations not inconsistent therewith governing school safety patrols established under its jurisdiction.

49304. The members of a school safety patrol established hereunder shall be authorized and required only to give traffic signals and directions in order to assist school pupils in safely crossing streets and highways.

49305. The chief of police in each city, and the Commissioner of the California Highway Patrol in unincorporated territory, may upon the request of the governing board of any school district, cooperate in the establishment, supervision and control of a school safety patrol to such extent as may be agreed upon.

49306. The governing board of a school district which authorizes the establishment of a school safety patrol may provide for adequate hospital and medical attention to care for any injury or disability that may be suffered by any pupil while performing any act within and

arising out of his duties as a member of a school safety patrol provided, however, that no pupil shall be compelled to accept such services if his parent or guardian objects.

49307. Any person who shall disregard any traffic signal or direction given by a member of a school safety patrol, shall be guilty of a misdemeanor, and subject to the penalties provided in Section 42001 of the Vehicle Code.

## Article 2. Basic Work Station

49320. A basic work station in industrial education is defined as an assigned location where a student normally spends the majority of his class time performing the operational functions necessary to meet the performance objectives and goals of the course, including industrial safety education. For these purposes, the number of students in any industrial education facility or laboratory in elementary and secondary programs shall not exceed the number of basic work stations designed for the number of students assigned, as determined by the local governing board of the school district.

## CHAPTER 9. PUPIL AND PERSONNEL HEALTH

### Article 1. General Powers—School Boards

49400. The governing board of any school district shall give diligent care to the health and physical development of pupils, and may employ properly certified persons for the work.

49401. The governing board of any school district may provide for proper health supervision of the school buildings and pupils enrolled in the public schools under its jurisdiction.

49402. Contracts between any city, county, or local health district and the governing board of any school district located wholly or partially within such city, county, or local health district for the performance by the health officers or other employees of the health department of such city, county, or local health district of any or all of the functions and duties set forth in this chapter, Section 49404, and in Article 1 (commencing with Section 49300) of Chapter 8 of this part relating to health supervision of school buildings and pupils are hereby authorized.

In any such contracts the consideration shall be such as may be agreed upon by the governing board and the city, county, or local health district and shall be paid by the governing board at such times as shall be specified in the contract. This section shall not apply to any district which is under the control of a governing board which has under its control a district or districts having a total average daily attendance of 100,000 or more pupils.

49403. (a) Anything to the contrary notwithstanding, the governing board of any school district shall cooperate with the local health officer in measures necessary for the prevention and control

of communicable diseases in school age children. For that purpose the board may use any funds, property, and personnel of the district, and may permit any person licensed as a physician and surgeon, or any person licensed as a registered nurse acting under the direction of a supervising physician and surgeon as provided in subdivisions (b) and (c), to administer an immunizing agent to any pupil whose parents have consented in writing to the administration of such immunizing agent.

(b) A registered nurse, acting under the direction of a supervising physician and surgeon, may perform immunization techniques within the course of a school immunization program provided that the administration of an immunizing agent is upon the standing orders of a supervising physician and surgeon and in accordance with such written regulations as the State Department of Health may adopt pursuant to Section 303.5 of the Health and Safety Code.

"Supervising physician and surgeon," as used herein, means the physician and surgeon of the local health department or the physician and surgeon of the school district that is directing the school immunization program.

(c) While nothing in this section shall be construed to require the physical presence of the supervising physician and surgeon, the supervising physician and surgeon under whose direction the registered nurse is acting shall require such nurse to:

(1) Satisfactorily demonstrate competence in the administration of immunizing agents, including knowledge of all indications and contraindications for the administration of such agents, and in the recognition and treatment of any emergency reactions to such agents which constitute a danger to the health or life of the person receiving the immunization; and

(2) Possess such medications and equipment as required, in the medical judgment of the supervising physician and surgeon, to treat any emergency conditions and reactions caused by the immunizing agents and which constitute a danger to the health or life of the person receiving the immunization, and to demonstrate the ability to administer such medications and to utilize such equipment as necessary.

49404. The governing board of any school district is hereby authorized to expend funds under its jurisdiction for the purpose of carrying out the provisions of this chapter and Section 49404, Article 1 (commencing with Section 32000) to Article 4 (commencing with Section 32040) of Chapter 1 of Part 19 of Division 1, of Title 1, Chapter 8 (commencing with Section 49300) Article 6 (commencing with Section 49480) of Chapter 9 of this part, and the provisions of Chapter 8 (commencing with Section 3400) of Division 4 of the Health and Safety Code.

49405. The control of smallpox is under the direction of the State Board of Health, and no rule or regulation on the subject of vaccination shall be adopted by school or local health authorities.

49406. (a) Except as provided in subdivision (h), no person shall

be initially employed by a school district in a certificated or classified position unless the person has submitted to an examination within the past 60 days to determine that he is free of active tuberculosis, by a physician and surgeon licensed under Chapter 5 (commencing with Section 2000) of Division 2 of the Business and Professions Code. This examination shall consist of an X-ray of the lungs, or an approved intradermal tuberculin test, which, if positive, shall be followed by an X-ray of the lungs.

The X-ray film may be taken by a competent and qualified X-ray technician if the X-ray film is subsequently interpreted by a physician and surgeon licensed under Chapter 5 (commencing with Section 2000) of Division 2 of the Business and Professions Code.

(b) Thereafter all employees shall be required to undergo the foregoing examination at least once each four years or more often if directed by the governing board upon recommendation of the local health officer.

(c) After such examination, each employee shall cause to be on file with the district superintendent of schools a certificate from the examining physician and surgeon showing the employee was examined and found free from active tuberculosis. The county board of education may require, by rule, that all such certificates be filed in the office of the county superintendent of schools or shall require such files be maintained in the office of the county superintendent of schools if a majority of the governing boards of the districts within such county so petition the county board of education, except that in either case a district or districts with a common board having an average daily attendance of 60,000 or more may elect to maintain the files for its employees in that district. "Certificate" as used herein means a certificate signed by the examining physician and surgeon or a notice from a public health agency or unit of the Tuberculosis Association which indicates freedom from active tuberculosis. The latter, regardless of form, will constitute evidence of compliance with this section. Nothing in this section shall prevent the governing board from establishing a rule requiring a more extensive physical examination than required by this section but such rule shall provide for reimbursement on the same basis as hereinafter required.

(d) This examination is a condition of initial employment and the expense incident thereto shall be borne by the applicant unless otherwise provided by rules of the governing board. However, the board may, if an applicant is accepted for employment, reimburse such person in a like manner hereinafter prescribed for employees.

(e) The governing board of each district shall reimburse the employee for the cost, if any, of this examination. The board may provide for the examination required by this section or may establish a reasonable fee for such examination that is reimbursable to employees of the district complying with the provisions of this section.

(f) At the discretion of the governing board this section shall not apply to those employees not requiring certification qualifications

who are employed for any period of time less than a school year whose functions do not require frequent or prolonged contact with pupils.

The governing board may, however, require such examination and may as a contract condition require the examination of persons employed for construction or repair work if the board believes the presence of such persons in and around school premises would constitute a health hazard to pupils.

(g) If the governing board of a school district determines by resolution, after hearing, that the health of pupils in the district would not be jeopardized thereby, the provisions of this section shall not apply to any employee of the district who files an affidavit stating that he adheres to the faith or teachings of any well-recognized religious sect, denomination, or organization and in accordance with its creed, tenets, or principles depends for healing upon prayer in the practice of religion and that to the best of his knowledge and belief he is free from active tuberculosis. If at any time there should be probable cause to believe that such affiant is afflicted with active tuberculosis, he may be excluded from service until the governing board of the employing district is satisfied that he is not so afflicted.

(h) A person who transfers his employment from one school or school district to another shall be deemed to meet the requirements of subdivision (a) if such person can produce a certificate which shows that he was examined within the past four years and was found to be free of communicable tuberculosis, or if it is verified by the school previously employing him that it has such a certificate on file.

A person who transfers his employment from a private or parochial elementary school, secondary school, or nursery school to a school or school district subject to this section shall be deemed to meet the requirements of subdivision (a) if such person can produce a certificate as provided for in Section 3450 of the Health and Safety Code which shows that he was examined within the past four years and was found to be free of communicable tuberculosis, or if it is verified by the school previously employing him that it has such a certificate on file.

49407. Notwithstanding any provision of any law, no school district, officer of any school district, school principal, physician, or hospital treating any child enrolled in any school in any district shall be held liable for the reasonable treatment of a child without the consent of a parent or guardian of the child when the child is ill or injured during regular school hours, requires reasonable medical treatment, and the parent or guardian cannot be reached, unless the parent or guardian has previously filed with the school district a written objection to any medical treatment other than first aid.

49408. For the protection of a pupil's health and welfare, the governing board of a school district may require the parent or legal guardian of a pupil to keep current at the pupil's school of attendance, emergency information including the home address and telephone number, business address and telephone number of the

parents or guardian, and the name, address and telephone number of a relative or friend who is authorized to care for the pupil in any emergency situation if the parent or legal guardian cannot be reached.

## Article 2. Employment of Medical Personnel

49420. The governing board of any school district may appoint a supervisor of health, or supervisors of health, consisting of a physician, psychologist, psychiatrist, nurse, oculist, dentist, optometrist, otologist, podiatrist, audiologist, dental hygienist, or any one or more of such persons. In case of the appointment of more than one supervisor of health the supervisors may, in the discretion of the board, all be chosen from any one of the classes designated.

The board may also appoint such number of school audiometrists, physical therapists, and occupational therapists as it may deem necessary to work under the direction of the supervisor of health and may provide for the compensation of such employees. No money set aside for the payment of teachers' salaries or for library purposes shall be used for this purpose.

49421. The governing boards of two or more school districts in the same county may join in the employment of a supervisor of health, or supervisors of health, and may use funds not set aside for the payment of teachers' salaries or for library purposes for the expenses of the work. The boards may employ a nurse or nurses under the direction of a supervisor of health to examine the schools under their jurisdiction.

49422. No physician, psychiatrist, oculist, dentist, dental hygienist, optometrist, otologist, podiatrist, audiologist, or nurse not employed in such capacity by the State Department of Public Health, shall be, nor shall any other person be, employed or permitted to supervise the health and physical development of pupils unless he holds a services credential with a specialization in health or a valid credential issued prior to the operative date of the amendment to this section enacted at the 1970 Regular Session of the Legislature.

Any psychologist employed pursuant to Section 49403, and this article shall hold a school psychologist credential, a general pupil personnel services credential authorizing service as a school psychologist, a standard designated services credential with a specialization in pupil personnel services authorizing service as a psychologist, or services credential issued by the State Board of Education or Commission for Teacher Preparation and Licensing.

The services credential with a specialization in health authorizing service as a school nurse shall not authorize teaching services unless the individual holds a baccalaureate degree, or its equivalent, and has completed a fifth year of preparation.

No physician employed by a district to perform medical services pursuant to Section 44873, shall be required to hold a credential

issued by the State Board of Education or commission, provided he meets the requirements of Section 44873.

49423. Notwithstanding the provisions of Section 49422, any pupil who is required to take, during the regular school day, medication prescribed for him by a physician, may be assisted by the school nurse or other designated school personnel if the school district receives (1) a written statement from such physician detailing the method, amount, and time schedules by which such medication is to be taken and (2) a written statement from the parent or guardian of the pupil indicating the desire that the school district assist the pupil in the matters set forth in the physician's statement.

49424. A school psychologist is a credentialed professional whose primary objective is the application of scientific principles of learning and behavior to ameliorate school-related problems and to facilitate the learning and development of children in the public schools of California.

To accomplish this objective the school psychologist provides services to children, teachers, parents, community agencies, and the school system itself. These services include:

(a) Consultation with school administrators concerning appropriate learning objectives for children, planning of developmental and remedial programs for pupils in regular and special school programs, and the development of educational experimentation and evaluation.

(b) Consultation with teachers in the development and implementation of classroom methods and procedures designed to facilitate pupil learning and to overcome learning and behavior disorders.

(c) Consultation with parents to assist in understanding the learning and adjustment processes of children.

(d) Consultation with community agencies, such as probation departments, mental health clinics, and welfare departments, concerning pupils who are being served by such community agencies.

(e) Consultation and supervision of pupil personnel services workers.

(f) Psychoeducational assessment and diagnosis of specific learning and behavioral disabilities, including, but not limited to, case study evaluation, recommendations for remediation or placement, and periodic reevaluation of such children.

(g) Psychological counseling of and other therapeutic techniques with children and parents, including parent education.

49425. Notwithstanding the provisions of Section 49422, a licensed physician need not hold a credential if his sole service for a school district or county superintendent of schools is service as a member of a committee whose function is to consider written and oral information and reports concerning the pupil that are available to the committee and, upon the basis of such information and reports, to recommend the admission of the pupil to, or his discharge

from, special schools and classes for exceptional children.

### Article 3. Mental Health

49440. Upon the report of the principal of a school that a pupil shows evidence of impaired mental health and that a mental examination is desirable, the governing body of the school district may, with the written consent of the pupil's parent or guardian provide for the mental examination of said pupil.

The principal shall not be liable for damages or for any civil or criminal penalty for any report made in good faith in carrying out the provisions of this section.

49441. The governing board of any school district shall make such rules for the mental examination, as provided in Section 49440, of the pupils in the public schools under its jurisdiction as will insure proper care of the pupils and proper secrecy in connection with any condition of impaired mental health noted by the supervisor of health or his assistant and as may tend to the correction of such condition, and any such governing board may consult and cooperate with the Department of Mental Hygiene in formulating such rules. The Department of Mental Hygiene shall cooperate to the full extent of its capacities in aiding and assisting school districts in carrying out the duties imposed by this article.

49442. When evidence of impaired mental health has been noted by the supervisor of health or his assistant, a report shall be made to the parent or guardian of the child, asking the parent or guardian to take such action as will cure or correct the condition. Such report must be made on a form prescribed or approved by the Superintendent of Public Instruction and shall not include therein any recommendation suggesting or directing the pupil to a designated individual or class of practitioner for the purpose of curing or correcting any condition referred to in the report.

The provisions of this section do not prevent a supervisor of health from recommending in a written report that the child be taken to a public clinic or diagnostic and treatment center operated by a public hospital or by the state, county, or city department of public health.

49443. Notwithstanding the provisions of any law authorizing or requiring an officer or employee with duties connected with the public schools to provide for or arrange for, or otherwise engage in any activity directed to providing for, the psychological or psychiatric treatment, or both; of a pupil enrolled in a public school, no officer or employee of a school district, nor any county superintendent of schools nor any of his employees, nor any member of a county board of education nor any of its employees shall place, or participate in placing, a pupil enrolled in a public school in any public or private agency, institution, or place, outside of the pupil's school of attendance, for psychological treatment or psychiatric treatment, or both, unless the prior written consent of the parent or

guardian to such placement and treatment is first obtained.

This section does not authorize any officer or employee to administer psychological or psychiatric treatment to a pupil either within the school of the pupil's attendance or at a place outside of such school without the written consent of the parent or guardian.

49444. The governing board of any school district may enter into a contract with a mental health clinic or child guidance clinic for the furnishing to the district by the clinic of mental health services for the pupils of the district. The use of the words "mental health" and "mental health services" in this section does not express or imply legislative intent with regard to other health services. The terms and conditions governing the providing of such services shall be set forth in the contract. No payment shall be made by the district for services performed by persons who do not possess a credential issued by the State Board of Education or Commission for Teacher Preparation and Licensing covering such service, except as provided in Sections 44871 to 44879, inclusive. When the conditions of the contract have been fulfilled, the cost of services rendered pursuant to such contract may be paid from the funds of the district. The governing board of any city, county, or district which maintains a public mental health clinic or child guidance clinic or nonprofit health clinic is authorized to enter such an agreement.

#### Article 4. Physical Examinations

49450. The governing board of any school district shall make such rules for the examination of the pupils in the public schools under its jurisdiction as will insure proper care of the pupils and proper secrecy in connection with any defect noted by the supervisor of health or his assistant and may tend to the correction of the physical defect.

49451. A parent or guardian having control or charge of any child enrolled in the public schools may file annually with the principal of the school in which he is enrolled a statement in writing, signed by the parent or guardian, stating that he will not consent to a physical examination of his child. Thereupon the child shall be exempt from any physical examination, but whenever there is a good reason to believe that the child is suffering from a recognized contagious or infectious disease, he shall be sent home and shall not be permitted to return until the school authorities are satisfied that any contagious or infectious disease does not exist.

49452. The governing board of any school district shall, subject to Section 49451, provide for the testing of the sight and hearing of each pupil enrolled in the schools of the district. The test shall be adequate in nature and shall be given only by duly qualified supervisors of health employed by the district; or by certificated employees of the district or of the county superintendent of schools who possess the qualifications prescribed by the Commission for Teacher Preparation and Licensing; or by contract with an agency duly

authorized to perform such services by the county superintendent of schools of the county in which the district is located, under guidelines established by the State Board of Education; or accredited schools or colleges of optometry, osteopathy, or medicine. The records of the tests shall serve as evidence of the need of the pupils for the educational facilities provided physically handicapped individuals. The equipment necessary to conduct the tests may be purchased or rented by governing boards of school districts. The state, any agency, or political subdivision thereof may sell or rent any such equipment owned by it to the governing board of any school district upon such terms as may be mutually agreeable.

49453. A physician, dentist, or optometrist who holds a valid, unrevoked certificate to practice his profession in this state, may with the approval of the governing board of the school district perform, within the scope of their license, health examinations of schoolchildren upon school premises with the consent of a parent or guardian, and report findings and recommendations of health needs to the school health officer and parent or guardian.

Such persons conducting health examinations need not be employees of the district and shall be exempt from credential requirements as specified in Section 49422.

This section is applicable only to a school district with an average daily attendance in excess of 400,000.

49454. A person employed by a school district in a position requiring certification qualifications who holds a valid special credential authorizing the teaching of lipreading or the teaching of the deaf and hard of hearing or a standard teaching credential with specialized preparation in the area of the deaf and hard of hearing or in the area of the speech and hearing handicapped or who holds a certificate of registration to serve as a school audiometrist issued by the State Board of Public Health may, subject to Section 49451, test the hearing of pupils of the district through the use of an audiometer for the purpose of detecting pupils with impaired hearing.

49455. Upon first enrollment in a California school district of a child at a California elementary school, and at least every third year thereafter until the child has completed the eighth grade, the child's vision shall be appraised by the school nurse or other authorized person under Section 49452. This evaluation shall include tests for visual acuity and color vision; however, color vision shall be appraised once and only on male children, and the results of the appraisal shall be entered in the health record of the pupil. Color vision appraisal need not begin until the male pupil has reached the first grade. Gross external observation of the child's eyes, visual performance, and perception shall be done by the school nurse and the classroom teacher. The evaluation may be waived, if the child's parents so desire, by their presenting of a certificate from a physician and surgeon or an optometrist setting out the results of a determination of the child's vision, including visual acuity and color vision. The number of children so evaluated and the results of such

evaluations shall be reported by each elementary or unified school district to the Department of Education at the end of each school year, on forms to be provided by the department.

The provisions of this section shall not apply to any child whose parents or guardian file with the principal of the school in which the child is enrolling, a statement in writing that they adhere to the faith or teachings of any well-recognized religious sect, denomination, or organization and in accordance with its creed, tenets, or principles depend for healing upon prayer in the practice of their religion.

49456. (a) When a defect other than a visual defect has been noted by the supervisor of health or his assistant, a report shall be made to the parent or guardian of the child, asking the parent or guardian to take such action as will cure or correct the defect. Such report, if made in writing, must be made on a form prescribed or approved by the Superintendent of Public Instruction and shall not include therein any recommendation suggesting or directing the pupil to a designated individual for the purpose of curing or correcting any defect referred to in the report.

(b) When a visual defect has been noted by the supervisor of health or his assistant, a report shall be made to the parent or guardian of the child, asking the parent or guardian to take such action as will correct the defect. Such report, if made in writing, must be made on a form prescribed or approved by the Superintendent of Public Instruction and shall not include therein any recommendation suggesting or directing the pupil to a designated individual or class of practitioner for the purpose of correcting any defect referred to in the report.

(c) The provisions of this section do not prevent a supervisor of health from recommending in a written report that the child be taken to a public clinic or diagnostic and treatment center operated by a public hospital or by the state, county, or city department of public health.

49457. The supervisor of health shall make such reports from time to time as he deems best to the governing board of the school district, or as the board may call for, showing the number of defective children in the schools of the district and the effort made to correct the defects.

#### Article 5. District Medical Services and Insurance

49470. The governing board of any school district or districts may provide, or make available, medical or hospital service, or both, through nonprofit membership corporations defraying the cost of medical service or hospital service, or both, or through group, blanket or individual policies of accident insurance from authorized insurer, for pupils of the district or districts injured while participating in athletic activities under the jurisdiction of, or sponsored or controlled by, the district or districts or the authorities of any school of the district or districts. The cost of the insurance or

membership may be paid, from the funds of the district or districts, or by the insured pupil, his parent or guardian.

The insurance may be purchased from, or the membership may be taken in, only such companies or corporations as are authorized to do business in this state.

49471. If the governing board of any school district maintaining junior high schools or high schools does not provide or make available medical and hospital services for pupils of the district injured while participating in athletic activities, in accordance with Section 49470, the board shall notify, in writing, the parent or guardian of each pupil of the district participating in such athletic activities that the services are not provided or made available by the governing board.

49472. The governing board of any school district or districts which does not employ at least five physicians as full-time supervisors of health, or the equivalent thereof, may provide, or make available, medical or hospital service, or both, through nonprofit membership corporations defraying the cost of medical service or hospital service, or both, or through group, blanket or individual policies of accident insurance or through policies of liability insurance from authorized insurers, for injuries to pupils of the district or districts arising out of accidents occurring while in or on buildings and other premises of the district or districts during the time such pupils are required to be therein or thereon by reason of their attendance upon a regular day school of such district or districts or while being transported by the district or districts to and from school or other place of instruction, or while at any other place as an incident to school-sponsored activities and while being transported to, from and between such places. No pupils shall be compelled to accept such service without his consent, or if a minor without the consent of his parent or guardian. The cost of the insurance or membership may be paid, from the funds of the district or districts, or by the insured pupil, his parent or guardian.

Such insurance may be purchased from, or such membership may be taken in, only such companies or corporations as are authorized to do business in California.

49473. To facilitate the authority referred to in Sections 49470 and 49472 the governing board of the school district or school districts may authorize the distribution by district personnel of such printed matter as may be furnished by the insurer or membership corporation.

49474. The governing board of any school district or districts may provide, or make available, ambulance service, paid for out of school district funds, for pupils, instructors, spectators, and other individuals in attendance at athletic activities under the jurisdiction of, or sponsored or controlled by, the district or districts or the authorities of any school of the district or districts.

### Article 6. Notice to School of Nonepisodic Condition

49480. The parent or legal guardian of any public school pupil on a continuing medication regimen for a nonepisodic condition, shall inform the school nurse or other designated certificated school employee of the medication being taken, the current dosage, and the name of the supervising physician. With the consent of the parent or legal guardian of the pupil, the school nurse may communicate with the physician and may counsel with the school personnel regarding the possible effects of the drug on the child's physical, intellectual, and social behavior, as well as possible behavioral signs and symptoms of adverse side effects, omission, or overdose. The superintendent of each school district shall be responsible for informing parents of all pupils of the requirements of this section.

### Article 7. School Breakfast and Lunch Program

49490. The Legislature finds and declares that hunger and malnutrition among children from low-income families constitute one of the most critical child health problems in the state; that federal programs to meet child nutrition needs are providing nourishing meals to thousands of the state's poverty area children who previously could not participate in school lunch programs; that federal funds allocated for child nutrition to California are inadequate to meet critical needs; that the state and local communities bear a responsibility towards meeting these needs; and that the physical well-being of all of the children of the state is a matter of public concern and expenditures to secure such well-being serves a public purpose.

49491. No amount received by a school district or other public or private nonprofit school pursuant to this article or the National School Lunch Program shall be used to reduce the level of district or school expenditures for any existing program of free or reduced-price meals, unless free or reduced-price lunches are provided for each eligible needy child.

49492. Each school district or other public or private nonprofit school or agency receiving reimbursement pursuant to the provisions of this article shall meet standards adopted by the Superintendent of Public Instruction for the following:

(a) The definition of a "meal" and at what price a given meal may be considered to be a "reduced-price meal."

(b) Standards for the eligibility of children to receive free or reduced-price meals.

(c) Standards for the protection of the identity of children for whom reimbursement is made pursuant to this article.

49493. No allocation or reimbursement of funds shall be made pursuant to this article to any public or private nonprofit school or agency in behalf of any child who resides on the premises of such school or agency.

## Article 8. Meals

49500. The governing board of any school district may provide, without charge or at a reduced price, breakfasts for pupils within the district who are needy. The governing board may provide, without charge or at a reduced price, lunches for pupils who are needy. The governing board of any school district may provide, without charge, lunches for any or all other pupils whether they are needy or not, provided that the governing board has so provided such lunches without charge to all pupils of the district during the 1962-1963 school year. The governing board of any school district may provide, without charge or at a reduced price, other nutrition periods during the schoolday during which foods or beverages, or both, are served to pupils.

For purposes of this article a pupil who is "needy" is one who does not otherwise receive proper nourishment.

As used in this article "school meals" includes breakfasts, lunches, or the serving of foods or beverages, or both, during other nutrition periods, or any combination thereof.

49501. The governing board of any school district may, for purposes of Section 49500, establish rules by which to determine which pupils are needy. For purposes of this article, any pupil within the category of children eligible for aid or services under Chapter 2 (commencing with Section 11200) of Part 3 of Division 9 of the Welfare and Institutions Code shall be deemed needy.

49502. For the purpose of providing funds with which to obtain school meals for needy pupils and to provide facilities and equipment for providing school meals to needy pupils, the governing board of any school district may levy and collect a district tax over and above the maximum elsewhere specified in this code but not to exceed five cents (\$.05). Not more than 6 percent of such funds may be used for the administrative and clerical costs of conducting such a program.

49503. District funds may also be used for the purchase of school meals for pupils, as provided in Section 49500.

49504. Each official and department of the state having charge of the administering of funds for the relief of indigents may contribute and pay any of the funds subject to his disposal to any school district within the state, to be used by the district for the purchase of school meals for needy pupils. Every county, city and county, and city within the state may pay any of its funds available for the relief of indigents to any school district, within or partly within the county, city and county, and city for this purpose.

## Article 9. Nutrition

49510. This article shall be known and may be cited as the Duffy-Moscone Family Nutrition Education and Services Act of 1970.

49511. It is the intent of this article to establish an ongoing

program to assure that the nutritional requirements of pupils in receipt of public assistance are enhanced by a pervasive program of food supplementation while they are attending school.

It is the intent of the Legislature that the program established by this article shall in fiscal years subsequent to the year in which this article is enacted be funded according to customary budgetary procedures.

49512. The Department of Education, in cooperation with the Department of Social Welfare, shall establish a statewide program to provide nutritious meals at school for pupils. Either or both of such departments may cooperate with and enter into contracts with the United States Departments of Health, Education and Welfare and Agriculture in order to implement the provisions of this article.

The funds shall be allocated to the school districts in such a manner that priority shall be given to providing free meals to the neediest children. Determination with respect to the annual income of any household shall be made solely on the basis of an affidavit executed in such form as the United States Secretary of Agriculture may prescribe by an adult member of such household. The income poverty guidelines to be used for any fiscal year shall be those prescribed by the United States Secretary of Agriculture as of July 1 of each year.

49513. To the extent that school districts have an operational program of school meals for pupils, the program authorized by this article shall be integrated with such existing service.

In order to extend the program to those pupils attending schools which do not operate a school lunch program and are unable or unwilling to provide food required by this article, contracts shall be entered into with nonprofit organizations, other public agencies or proprietary agencies. In making such contracts, special consideration shall be given to utilizing the Business Enterprises Program for the Blind established under Article 5 (commencing with Section 19625) of Chapter 6 of Part 2 of Division 10 of the Welfare and Institutions Code. Such contracts shall be negotiated, approved and supervised by the Department of Education and terminated as soon as feasible upon certification by the Department of Education that the local school district or school is able and willing to establish a food service program.

49514. Notwithstanding the provisions of Section 49513, the Department of Education is authorized to approve, in school districts in which the provision of traditional meals under this article is not economically or physically feasible, demonstration projects which examine alternative methods of assuring that minimum nutritional requirements of needy pupils are met by the provision of fortified food supplements.

At least one such demonstration project shall be established which provides a nutritious fortified food supplement in lieu of a traditional meal to pupils qualified for the program. The nutritious fortified food supplement supplied in the demonstration project shall be approved

by the Department of Education, the Department of Public Health, and the participating school district. The Department of Education shall, as soon as significant results of the demonstration project are measurable, submit a report on the demonstration, together with recommendations for future action to the Legislature.

49515. Programs established under this article shall, to the extent feasible and practicable, include provisions for the use of parents of needy pupils in the planning, preparation and serving of meals at school, in order to provide practical experience and training for such parents as part of the educational component of public social services. It is the intent of the Legislature that necessary formal training for such purposes shall, to the maximum extent feasible, be provided under the work incentive programs established under Division 2 (commencing with Section 5000) of the Unemployment Insurance Code.

The use of volunteers in the planning, preparation and serving of school meals and nutritional supplements under this article shall also be encouraged in order to enlist the good will of the community toward the success of this program, and in order to reduce program costs.

49516. In order to encourage the development of a sense of fiscal responsibility among the pupils participating in the program, a nominal cash payment for school meals provided under this article may be required of any such pupil. Such payments shall be related to the income of the pupil's family.

For purposes of this article, a "nominal cash payment" means not less than five cents (\$.05) nor more than twenty cents (\$.20) per meal. The appropriate charge in relation to the income of the pupil's family shall be five cents (\$.05), ten cents (\$.10), fifteen cents (\$.15), or twenty cents (\$.20).

Funds received from payments by participating pupils shall be used to expand the programs under this article.

49517. In order to avoid unnecessary and costly duplication and overlap of activities, the Department of Education may contract with county welfare departments to identify those pupils who are eligible for the program under this article, and to determine the amount of cash payment that may be required of any pupil so eligible under the provisions of Section 49516.

49518. To the extent that available funds are insufficient to provide services under the program established by this article to all pupils defined as eligible, the following priorities for the provision of such services shall be observed by the Department of Education:

(a) First priority for services shall go to pupils within the category of children described in Section 11202 of the Welfare and Institutions Code.

(b) Second priority shall go to pupils eligible for social services only under Chapter 2 (commencing with Section 11200) of Part 3 of Division 9 of the Welfare and Institutions Code, and among such category of pupils the order of priorities shall decline progressively

according to the age of the pupils, with the youngest pupils receiving the highest priority.

49519. Each meal provided under this article shall include an appropriate serving of milk; provided, that the provisions of this section shall not be mandatory in the case of demonstration projects conducted pursuant to Section 49514.

49520. The Department of Education shall, by the 30th day after the Legislature convenes in each year file a detailed report to the Legislature showing the progress made in extending the program of school meals established under this article to needy pupils. The report shall present the total number of pupils in the state who are deemed needy under this article, and shall indicate the number of such pupils who are being served under this or any other program which provides for free or reduced-priced meals at school. The report shall also indicate the number of needy pupils who are not being served by this or any other such program, and shall set forth an analysis of the reasons that these pupils are not being served.

#### Article 10. Child Nutrition Act of 1974

49530. (a) The Legislature finds that (1) the proper nutrition of children is a matter of highest state priority, and (2) there is a demonstrated relationship between the intake of food and good nutrition and the capacity of children to develop and learn, and (3) the teaching of the principles of good nutrition in schools is urgently needed to assist children at all income levels in developing the proper eating habits essential for lifelong good health and productivity.

(b) It is the policy of the State of California that no child shall go hungry at school or a child development program and that schools and child development programs conducted pursuant to Chapter 2 (commencing with Section 8200) of Part 6 of Division 1 of Title 1 have an obligation to provide for the nutritional needs and nutrition education of all pupils during the schoolday and all children receiving child development services.

49530.5. As used in this article, "child nutrition entity" means any school district, county superintendent of schools, child development program operated pursuant to Chapter 2 (commencing with Section 8200) of Part 6 of Division 1 of Title 1, local agency, private school, or parochial school, which qualifies for federal aid under the federal school lunch program or the federal child nutrition program prescribed, respectively, by Chapter 13 (commencing with Section 1751) and Chapter 13A (commencing with Section 1771) of Title 42 of the United States Code.

49531. Any child nutrition entity may apply to the Department of Education for all available federal and state funds so that a nutritionally adequate breakfast or lunch, or both, may be provided to pupils each schoolday at each school in such districts or maintained by such county superintendents of schools, or at such private schools

and parochial schools and to children receiving child development services. The State Board of Education shall adopt rules and regulations for the operation of lunch and breakfast programs in school districts. A child nutrition entity which receives state funds pursuant to this article, shall provide breakfasts and lunches in accordance with state and federal guidelines.

For purposes of this article, a nutritionally adequate breakfast or lunch is a breakfast or lunch which meets one-third of the daily dietary allowance as established by the National Research Council. Where both breakfast and lunch are provided, they shall, together, provide at least one-half to two-thirds of this recommended daily dietary allowance.

49532. Any child nutrition entity which has inadequate or no food preparation facilities as determined by the Department of Education, and is, therefore, unable to provide a nutritionally adequate breakfast or lunch, or both, may contract with other school districts, county superintendents of schools, public agencies, or nonprofit private agencies for the preparation and delivery of such meals.

49533. A Child Nutrition Advisory Council composed of 11 members, shall be appointed by January 1, 1975, to recommend plans and guidelines for school meal service and nutrition education programs. The members of the council shall be appointed by the State Board of Education and shall include one member of the Department of Education, one school administrator, one school board member, one school food service director, one school food service supervisor or manager, one classroom teacher, one curriculum coordinator, one nutrition education specialist, one lay person, one senior-class high school student, and a qualified consultant specializing in nutrition, education, or health and welfare.

Initial appointments shall be made so that six of the members, including the student representative, serve for one year while the remainder serve for two years. Thereafter, members shall serve for a period of two years, except the student representative, who shall serve for one year. Council members shall serve without pay but shall be reimbursed for authorized travel costs according to established Department of Education procedures.

49534. (a) The Department of Education shall formulate the basic elements of nutrition education programs for child nutrition entities participating in programs established under this article. Such programs shall coordinate classroom instruction with the food service program and shall be of sufficient variety and flexibility to meet the needs of pupils in the total spectrum of education, including early childhood, elementary and secondary schools, special education classes and programs and child development programs.

(b) Nutrition education programs shall be maintained on a project approval basis. The State Board of Education shall establish rules and regulations for nutrition education projects. Such projects shall be approved by the State Board of Education upon

recommendation of the Department of Education. County offices of education may apply for and receive funds on behalf of school districts under their jurisdiction in order to implement projects.

Projects may include, but need not be limited to, innovative ways to coordinate the school meal service program with the nutrition education program; development of community resources for purposes of nutrition education; instructional programs for teachers, parents, food service employees; and training and utilization of paraprofessionals to assist the instructional staff.

49536. Funds allocated pursuant to subdivision (a) of Section 41350 to child nutrition entities for school and child care and development program meals pursuant to this article shall be disbursed on the basis of five cents (\$.05) for each breakfast and five cents (\$.05) for each lunch served.

The Department of Education shall, prior to July 1 of each year, prescribe an adjustment in the state meal contribution rates established pursuant to this section for the forthcoming fiscal year. Such adjustments shall reflect the changes in the cost of operating a school breakfast and lunch program and shall be made commencing on July 1 of each year. Such adjustment shall be the average of the separate indices of the "Food Away From Home Index" for Los Angeles and San Francisco as prepared by the United States Bureau of Labor Statistics.

In giving effect to the cost-of-living provisions of this section, the Department of Education shall use the same month for computation of the percentage change in the cost of living after July 1, 1975. The same month shall be used annually thereafter. The product of any percentage increase or decrease in the average index and the per meal reimbursement disbursement rate shall be adjusted by the amount of any cost-of-living change currently in effect pursuant to the provisions of this section.

#### Article 11. Meals for Needy Pupils in Kindergarten and Grades 1 to 12

49550. Notwithstanding any other provision of law, each school district and county superintendent of schools maintaining any kindergarten or any of grades 1 to 12 shall, commencing on July 1, 1977, provide for each needy pupil enrolled therein, one nutritionally adequate free or reduced-price meal during each schoolday.

49551. The State Board of Education shall adopt regulations prescribing standards and guidelines for carrying out the purposes of this article.

49552. For the purposes of this article, the State Board of Education shall adopt regulations defining needy children within the permissible limitations prescribed by the relevant federal statutes and regulations.

49553. For the purposes of this article, a nutritionally adequate breakfast or lunch is one which meets one-third of the daily

allowance as established by the National Research Council. Where both breakfast and lunch are provided, they shall, together, provide at least one-half to two-thirds of this recommended daily dietary allowance.

49554. Any school district or county superintendent of schools which has inadequate or no food preparation facilities as determined by the Department of Education, and is, therefore, unable to provide a nutritionally adequate breakfast or lunch, or both, may contract with other school districts, county superintendents of schools, public agencies, or nonprofit private agencies for the preparation and delivery of such meals.

49555. A school district or county superintendent of schools which is not providing each enrolled needy pupil with at least one nutritionally adequate free or reduced-price meal during each schoolday, shall submit to the Superintendent of Public Instruction no later than July 1, 1976, a plan of operation for implementation of Section 49550.

49556. The Superintendent of Public Instruction shall supervise the implementation of this article and shall investigate acts of alleged noncompliance. In the event the Superintendent of Public Instruction finds that a school district or county superintendent of schools has failed to comply with the provisions of this article, the Superintendent of Public Instruction shall certify such noncompliance to the Attorney General. The Attorney General shall conduct such investigations as may be necessary to document the noncompliance. The Attorney General shall seek injunctive relief to secure compliance with this article, when such action is requested by the Superintendent of Public Instruction.

## PART 28. GENERAL INSTRUCTIONAL PROGRAMS

### CHAPTER 1. EDUCATION PROGRAM

#### Article 1. Legislative Intent

51000. This chapter may be known as the George Miller, Jr., Education Act of 1968.

51001. It is the intent and purpose of the Legislature in enacting this division to provide for the development, conduct, and enforcement of educational programs in the elementary and secondary schools.

51002. The Legislature hereby recognizes that, because of the common needs and interests of the citizens of this state and the nation, there is a need to establish a common state curriculum for the public schools, but that, because of economic, geographic, physical, political and social diversity, there is a need for the development of educational programs at the local level, with the guidance of competent and experienced educators and citizens. Therefore, it is the intent of the Legislature to set broad minimum standards and

guidelines for educational programs, and to encourage local districts to develop programs that will best fit the needs and interests of the pupils, pursuant to stated philosophy, goals, and objectives.

51004. The Legislature hereby recognizes that it is the policy of the people of the State of California to provide an educational opportunity to the end that every student leaving school shall have the opportunity to be prepared to enter the world of work; that every student who graduates from any state-supported educational institution should have sufficient marketable skills for legitimate remunerative employment; that every qualified and eligible adult citizen shall be afforded an educational opportunity to become suitably employed in some remunerative field of employment; and that such opportunities are a right to be enjoyed without regard to race, creed, color, national origin, sex, or economic status.

The Legislature further recognizes that all students need to be provided with opportunities to explore and make career choices and to seek appropriate instruction and training to support those choices. The Legislature therefore finds that fairs as community resource and youth leadership activities are integral to assisting and guiding students in making such choices and therefore encourage the further expansion of cooperative activities between schools, youth leadership activities, and community resources. Among community resources of particular significance in providing information on various career opportunities are vocational and occupational exhibits, demonstrations and activities conducted at fairs.

51005. In order to carry out the intent of Section 51004, the Department of Education shall annually encourage school districts to plan programs and activities which utilize the resources of fairs and youth leadership activities as an integral part of the vocational instructional program and career decisionmaking.

## Article 2. Definitions

51010. Unless the context otherwise requires, the definitions set forth in this article govern the construction of this part.

51011. "Educational program" means the entire school-sponsored offering for pupils of a district, including in-class and out-of-class activities.

51012. "Common state curriculum" means the basic curriculum which is prescribed by the proper authority for all elementary schools, or all secondary schools, or all elementary and secondary schools.

51013. "Curriculum" means the courses of study, courses, subjects, classes and organized group activities provided by a school.

51014. "Course of study" means the planned content of a series of classes, courses, subjects, studies, or related activities.

51015. "Course" means an instructional unit of an area or field of organized knowledge, usually provided on a semester, year, or prescribed length-of-time basis.

51016. "Class" means an organized group of pupils within a school who are pursuing a particular course, subject or activity.

51017. "Governing board" means that board of education or governing board of any county, city and county, city, or district which has the duty to prescribe the course of study for the schools of the county, city and county, city, or district.

51018. "State board" means the State Board of Education.

51019. "Philosophy" means a composite statement of the relationship between the individual and society based upon beliefs, concepts, and attitudes from which the goals and objectives of the district are derived.

51020. "Goal" means a statement of broad direction or intent which is general and timeless and is not concerned with a particular achievement within a specified time period.

51021. "Objective" means a devised accomplishment that can be verified within a given time and under specifiable conditions which, if attained, advances the system toward a corresponding goal.

### Article 3. Role of Local Agency

51040. The governing board of every school district shall prepare and shall keep on file for public inspection the courses of study prescribed for the schools under its jurisdiction.

51041. The governing board of every school district shall evaluate its educational program, and shall make such revisions as it deems necessary. Any revised educational program shall conform to the requirements of this division.

### Article 4. Enforcement of Courses of Study

51050. The governing board of every school district shall enforce in its schools the courses of study and the use of textbooks and other instructional materials prescribed and adopted by the proper authority.

51051. The governing board of any school district with more than 8,000 pupils in average daily attendance shall prescribe and enforce in the schools a course of study for mentally retarded pupils as defined in Sections 56501 and 56515.

51052. Each county board of education shall prescribe and enforce a county course of study for mentally retarded pupils as defined in Sections 56501 and 56515. Such county course of study shall be used in special education programs for mentally retarded pupils conducted by the county superintendent of schools and in school districts with an average daily attendance of 8,000 or less.

51053. The course of study for preschool, kindergarten, grades 1 through 6, and grades 7 and 8 of those elementary districts maintaining grades 7 and 8, shall be prescribed and enforced by the governing board. The governing board of any school district may cooperate with the county board of education and the county

superintendent of schools in the development of the courses of study required by this section.

The development of any course of study by a school district governing board which involves the cooperation of the county board of education and the county superintendent of schools is a proper charge against whatever funds the county superintendent of schools may have for this purpose.

51054. Except as provided in Section 51053, the course of study for grades 7 through 12 shall be prepared under the direction of the governing board having control thereof and shall be subject to approval as may be required by the state board.

51055. Courses for continuation high schools shall be prepared under the direction of the governing board having control thereof. Insofar as possible courses shall meet the high school requirements set forth in Sections 51220 and 51222.

51056. A course of study for each adult school shall be prepared under the direction of the governing board of the district maintaining the adult school and shall be subject to approval of the Department of Education.

51057. Upon request of the governing board of any school district, the State Board of Education may, for a number of years to be specified by the board, grant the district exemption from one or more of the course of study requirements set forth in this division. The exemption may be renewed. Such exemption may be granted only if the board deems that the request made is an essential part of a planned experimental curriculum project which the board determines will adequately fit the educational needs and interests of the pupils.

The request for exemption shall include all of the following elements:

- (a) Rationale for the planned experimental curriculum project.
- (b) Objectives of the planned experimental curriculum project.
- (c) Plans for the administration and conduct of the planned experimental curriculum project, including the use of personnel, facilities, time, techniques, and activities.
- (d) Plans for testing and evaluation of the planned experimental curriculum project.
- (e) Plans for necessary revisions, if any, of the planned experimental curriculum project.
- (f) Plans for reporting to the State Board of Education on the planned experimental curriculum project.

## CHAPTER 2. REQUIRED COURSES OF STUDY

### Article 1. General Provisions

51200. Except as otherwise provided, the provisions contained in this chapter are the requirements for courses of study in grades 1 through 12.

51201. In addition to the course of study requirements set forth in this chapter, the governing board of any school district may include in the curriculum of any school such additional courses of study, courses, subjects, or activities which it deems fit the needs of the pupils enrolled therein.

51202. The adopted course of study shall provide instruction at the appropriate elementary and secondary grade levels and subject areas in personal and public safety and accident prevention; fire prevention; the protection and conservation of resources, including the necessity for the protection of our environment; and health, including the effects of alcohol, narcotics, drugs, and tobacco upon the human body.

51203. Instruction upon the nature of alcohol, narcotics, restricted dangerous drugs as defined in Section 11032 of the Health and Safety Code, and other dangerous substances and their effects upon the human system as determined by science shall be included in the curriculum of all elementary and secondary schools. The governing board of the district shall adopt regulations specifying the grade or grades and the course or courses in which such instruction with respect to alcohol, narcotics, restricted dangerous drugs as defined in Section 11032 of the Health and Safety Code, and other dangerous substances shall be included. All persons responsible for the preparation or enforcement of courses of study shall provide for instruction on the subjects of alcohol, narcotics, restricted dangerous drugs as defined in Section 11032 of the Health and Safety Code, and other dangerous substances.

51204. Any course of study adopted pursuant to this division shall be designed to fit the needs of the pupils for which the course of study is prescribed.

## Article 2. Course of Study, Grades 1 to 6

51210. The adopted course of study for grades 1 through 6 shall include instruction, beginning in grade 1 and continuing through grade 6, in the following areas of study:

(a) English, including knowledge of, and appreciation for literature and the language, as well as the skills of speaking, reading, listening, spelling, handwriting, and composition.

(b) Mathematics, including concepts, operational skills, and problem solving.

(c) Social sciences, drawing upon the disciplines of anthropology, economics, geography, history, political science, psychology, and sociology, designed to fit the maturity of the pupils. Instruction shall provide a foundation for understanding the history, resources, development, and government of California and the United States of America; the development of the American economic system including the role of the entrepreneur and labor; man's relations to his human and natural environment; eastern and western cultures and civilizations; and contemporary issues.

(d) Science, including the biological and physical aspects, with emphasis on the processes of experimental inquiry and on man's place in ecological systems.

(e) Fine arts, including instruction in the subjects of art and music, aimed at the development of aesthetic appreciation and the skills of creative expression.

(f) Health, including instruction in the principles and practices of individual, family, and community health.

(g) Physical education, with emphasis upon such physical activities for the pupils as may be conducive to health and vigor of body and mind, for a total period of time of not less than 200 minutes each 10 schooldays, exclusive of recesses and the lunch period.

(h) Such other studies as may be prescribed by the governing board.

51211. Instruction required by subdivision (c) of Section 51210 in the area of study of social sciences shall also provide a foundation for understanding the wise use of natural resources.

51212. It is the intent and purpose of the Legislature to encourage the establishment of programs of instruction in foreign language, with instruction beginning as early as feasible for each school district.

51213. Instruction in social sciences shall include the early history of California and a study of the role and contributions of American Negroes, American Indians, Mexicans, persons of oriental extraction, and other ethnic groups, and the role and contributions of women, to the economic, political, and social development of California and the United States of America, with particular emphasis on portraying the roles of these groups in contemporary society.

### Article 3. Courses of Study, Grades 7 to 12

51220. The adopted course of study for grades 7 through 12 shall offer courses in the following areas of study:

(a) English, including knowledge of and appreciation for literature, language, and composition, and the skills of reading, listening, and speaking.

(b) Social sciences, drawing upon the disciplines of anthropology, economics, geography, history, political science, psychology, and sociology, designed to fit the maturity of the pupils. Instruction shall provide a foundation for understanding the history, resources, development, and government of California and the United States of America; instruction in our American legal system, the operation of the juvenile and adult criminal justice systems, and the rights and duties of citizens under the criminal and civil law and the State and Federal Constitutions; the development of the American economic system including the role of the entrepreneur and labor; man's relations to his human and natural environment; eastern and western cultures and civilizations; and contemporary issues.

(c) Foreign language or languages, beginning not later than grade 7, designed to develop a facility for understanding, speaking,

reading, and writing the particular language.

(d) Physical education, with emphasis given to such physical activities as may be conducive to health and to vigor of body and mind.

(e) Science, including the physical and biological aspects, with emphasis on basic concepts, theories, and processes of scientific investigation and on man's place in ecological systems, and with appropriate applications of the interrelation and interdependence of the sciences.

(f) Mathematics, including instruction designed to develop mathematical understandings, operational skills, and insight into problem-solving procedures.

(g) Fine arts, including art, music, or drama, with emphasis upon development of aesthetic appreciation and the skills of creative expression.

(h) Applied arts, including instruction in the areas of consumer and homemaking education, industrial arts, general business education, or general agriculture.

(i) Vocational-technical education designed and conducted for the purpose of preparing youth for gainful employment in such occupations and in such numbers as appropriate to the manpower needs of the state and the community served and relevant to the career desires and needs of the students.

(j) Automobile driver education, designed to develop a knowledge of the provisions of the Vehicle Code and other laws of this state relating to the operation of motor vehicles, a proper acceptance of personal responsibility in traffic, a true appreciation of the causes, seriousness and consequences of traffic accidents, and to develop the knowledge and attitudes necessary for the safe operation of motor vehicles. A course in automobile driver education shall include education in the safe operation of motorcycles.

(k) Such other studies as may be prescribed by the governing board.

51221. Instruction required by subdivision (b) of Section 51220 in the area of study of social sciences shall also provide a foundation for understanding the wise use of natural resources.

51222. (a) All pupils, except pupils excused or exempted pursuant to Section 51241, shall be required to attend upon the courses of physical education for a total period of time of not less than 400 minutes each 10 schooldays. Any pupil may be excused from physical education classes during one of grades 10, 11, or 12 for not to exceed 24 clock hours in order to participate in automobile driver training. Such pupil who is excused from physical education classes to enroll in driver training shall attend upon a minimum of 7,000 minutes of physical education instruction during such school year.

(b) The governing board of each school district that maintains a high school and that elects to exempt pupils from required attendance in physical education courses pursuant to paragraph (1) or (2) or both of subdivision (b) of Section 51241 shall offer those

pupils so exempted a variety of elective physical education courses of not less than 400 minutes each 10 schooldays.

51223. Notwithstanding the provisions of Sections 51210 and 51222, instruction in physical education in an elementary school maintaining any of grades 1 to 8 shall be for a total period of time of not less than 200 minutes each 10 schooldays, exclusive of recesses and the lunch period.

51224. No pupil shall receive a diploma of graduation from grade 12 who has not completed the course of study and met the standards of proficiency prescribed by the governing board. Standards of proficiency in basic skills shall be such as will enable individual achievement and ability to be ascertained and evaluated. Requirements for graduation shall include:

- (a) English.
- (b) American history.
- (c) American government.
- (d) Mathematics.
- (e) Science.
- (f) Physical education, unless the pupil has been exempted pursuant to the provisions of this code.
- (g) Such other courses as may be prescribed.

51225. The governing board of any school district maintaining a high school shall adopt minimum academic standards for graduation from the high schools within its school district. Such minimum academic standards shall include separate courses of study including, but not limited to, a course of study designed to prepare prospective students for admission to state colleges and the state university and for vocational training. Such standards shall be made available to the public.

51226. The State Board of Education shall, on or after July 1, 1970, prepare, and distribute to each school district maintaining a high school for its consideration, examples of minimum academic standards for graduation. These examples shall be provided solely to assist each school district in the development of its own minimum academic standards for graduation as required by Section 51225.

Nothing in this section shall be construed to authorize or require the State Board of Education to adopt statewide minimum academic standards for graduation from high school.

51227. Instruction in social sciences shall include the early history of California and a study of the role and contributions of American Negroes, American Indians, Mexicans, persons of oriental extraction, and other ethnic groups, and the role and contributions of women, to the economic, political, and social development of California and the United States of America, with particular emphasis on portraying the roles of these groups in contemporary society.

## Article 4. Exemptions from Requirements

51240. Whenever any part of the instruction in health, family life education, and sex education conflicts with the religious training and beliefs of the parent or guardian of any pupil, the pupil, on written request of the parent or guardian, shall be excused from the part of the training which conflicts with such religious training and beliefs.

As used in this section, "religious training and beliefs" includes personal moral convictions.

51241. (a) The governing board of any school district may grant temporary exemption to a pupil from courses in physical education, if the pupil is:

(1) Ill or injured and a modified program to meet the needs of the pupil cannot be provided; or

(2) Enrolled for one-half, or less, of the work normally required of full-time pupils.

(b) The governing board of any school district may grant permanent exemption from courses in physical education if the pupil:

(1) Has completed the 10th grade; or

(2) Is 16 years of age or older and has been enrolled in the 10th grade for one academic year or longer; or

(3) Is enrolled as a postgraduate pupil.

(c) No pupil exempted under paragraph (1) or (2) of subdivision (b) shall be permitted to attend fewer total hours of courses and classes if he elects not to enroll in a physical education course than he would have attended if he had elected to enroll in a physical education course.

51242. The governing board of a school district may exempt any four-year or senior high school pupil from attending courses of physical education, if the pupil is engaged in a regular school-sponsored interscholastic athletic program carried on wholly or partially after regular school hours.

51243. Credit shall be given for purposes of the course of study requirements prescribed by school district governing boards or other authorities having jurisdiction for grades 9 through 12, inclusive, to courses in foreign languages in private schools on the basis of their being at least equivalent to those which would be required for the student in a foreign language class in the same grade level in the public schools. The State Board of Education shall adopt rules and regulations prescribing standards and conditions pursuant to which credit shall be given for those purposes to students in the public schools who have successfully completed foreign language studies in private schools.

51244. The provisions of Section 51243 giving credit for foreign language courses given in private schools shall apply to courses in the following languages: Chinese, French, German, Greek (classical and modern), Hebrew (classical and modern), Italian, Japanese, Jewish, Latin, Spanish, and Russian, and such other languages as the State

Board of Education shall designate.

51245. For purposes of the credit which may be given pursuant to Sections 51243 and 51244 for foreign language courses undertaken in private schools, it shall not be required that instructors in the private schools be regularly credentialed teachers.

51246. The governing board of a school district may exempt any pupil enrolled in his last semester or quarter, as the case may be, of the 12th grade who, pursuant to Section 46145 or 46147, is permitted to attend school less than 240 or 180 minutes per day, from attending courses of physical education; provided, however, that such pupil may not be exempted pursuant to this section from attending courses of physical education if such pupil would, after such exemption, attend school for 240 minutes or more per day.

### Article 5. Drug Education

51260. This article shall be known as "The Drug Education Act of 1971."

51261. The Legislature hereby finds and declares that the use of tobacco, alcohol, narcotics, restricted dangerous drugs, as defined in Section 11032 of the Health and Safety Code, and other dangerous substances poses a serious threat to the youth of California.

It is the intent and purpose of the Legislature by this article to provide for the establishment in public elementary and secondary schools of a comprehensive statewide program on drug education for all pupils whereby instruction on the nature and effects of the use of tobacco, alcohol, narcotics, restricted dangerous drugs, as defined in Section 11032 of the Health and Safety Code, and other dangerous substances is offered.

Further, it is the intent of the Legislature that such a program provide all of the following:

- (a) Sequential instruction in kindergarten and grades 1 through 12.
- (b) Preservice and in-service training for school personnel.
- (c) Instructional materials for pupils and teachers.
- (d) Identification and reporting of promising programs of instruction and counseling.
- (e) Promotion of effective liaison between school and community involving parents, pupils, community health agencies, law enforcement agencies, and other concerned community groups.

It is the intent of the Legislature that the Department of Education shall facilitate maximum cooperation with other state and federal agencies concerned with drug education and that the Department of Education shall endeavor to attain the maximum amount of federal financial assistance for the implementation of this article. Nothing in this article shall be construed as prohibiting school districts and other state and federal agencies from conducting educational programs beyond those provided by this article.

51262. Instruction shall be given in the elementary and

secondary schools on drug education and the effects of the use of tobacco, alcohol, narcotics, dangerous drugs, as defined in Section 11032 of the Health and Safety Code, and other dangerous substances.

In grades 1 through 6, instruction on drug education should be conducted in conjunction with courses given on health pursuant to subdivision (f) of Section 51210.

In grades 7 through 12, instruction on drug education shall be conducted in conjunction with courses given on health or in any appropriate area of study pursuant to Section 51220.

Such instruction shall be sequential in nature and suited to meet the needs of students at their respective grade level.

51263. The Department of Education shall develop a comprehensive statewide program on drug education by assuming the following functions:

(a) Assist in the development of model curricula for the public schools on drug education and the effects of the abusive use of tobacco, alcohol, restricted dangerous drugs, as defined by Section 11032 of the Health and Safety Code, and other dangerous substances.

(b) Identify innovative teaching methods for the instruction of drug education in the public school system.

(c) Develop methods of evaluating the effectiveness of instruction in drug education.

(d) Serve as the depository for the results of all research relative to drug education.

(e) Assist school districts in conducting teacher training programs on drug education.

(f) Assist teacher training institutions in development of courses on drug education.

(g) Administer pilot projects on drug education and conduct teacher training as may be directed by statute and funded by appropriation.

(h) Assist in the development of adult education programs which will include parents, students, community health agencies, law enforcement agencies, and other community groups. This program shall emphasize the development of coordinated school-community programs relative to drug education.

(i) Provide annual reports of its activities and findings regarding effective drug education programs to the Legislature, local school districts, appropriate agencies and organizations.

51264. The Department of Education shall develop and establish a drug education training program for public school teachers and administrators to provide training at the local district level.

51265. Regional training programs for school district teams of teachers, administrators, youth and community representatives shall be made available to every district under criteria established by the Department of Education.

51266. School district team members shall be reimbursed for

travel and expenses resulting from participation in regional training programs by the school district in which they are employed.

(a) All certificated teaching or administrative personnel attending a training program shall receive their regular salary for the time covered by this attendance, and shall also receive necessary traveling expenses, not exceeding twenty-five cents (\$.25) per mile, excluding the first six miles, one way from the place of their employment to the place of the training program or thirty-five dollars (\$35), whichever is the lesser amount. Claims for necessary traveling expenses shall be paid upon verification and approval by the county superintendent of schools.

(b) When the training is held during the time that the certificated personnel are employed in teaching, their regular pay shall not be diminished by reason of their attendance.

51267. Notwithstanding the provisions of Sections 44227 and 44228, the State Board of Education shall not accredit any teacher education institution for teacher certification purposes after the 1972-73 fiscal year unless it offers courses for prospective teachers on drug education and the effects of the use of tobacco, alcohol, narcotics, restricted dangerous drugs, as defined in Section 11032 of the Health and Safety Code, and other dangerous substances. The State Board of Education shall continually reevaluate approved teacher training institutions to insure that programs are in conformance with the intent of this section.

51268. The governing board of each district shall adopt a policy regarding its drug education program by resolution in accordance with guidelines approved by the State Board of Education, specifying, among other things: the curriculum to be utilized in teaching drug education; provisions for in-service training and curriculum assistance to teachers; minimum qualifications necessary for the certificated teachers assigned to teach drug education; and responsibility of certificated personnel in teaching or supervising drug-dependent or debilitated pupils, including the identification, counseling, and medical referral of these pupils.

51269. The supervisor of health or other individuals with similar duties appointed by school district governing boards shall initiate a program of identification, counseling and medical referral of drug-dependent and debilitated pupils. For this purpose, the board shall use any funds, property, or qualified personnel of the district.

The pupil determined to be drug dependent and debilitated according to standards established by the State Board of Education shall be insured proper care, procedure and secrecy pursuant to Sections 49407, 49450, and 49451.

## CHAPTER 3. DIPLOMAS AND CERTIFICATES

## Article 1. Elementary School Diploma

51400. The governing board of any school district maintaining an elementary school may provide for the conferring of diplomas of graduation, by examination, and may issue diplomas of graduation from the elementary schools of the district and from special day and evening classes of elementary grade maintained by the district of any type or class.

51401. Nothing in this article shall be construed as prohibiting the governing board of any school district from issuing diplomas of graduation without examination to the pupils in any school which has been accredited by the county board of education.

51402. The diplomas of graduation from elementary schools shall be conferred only upon the pupils who have completed the course of study prescribed.

51403. Elementary school diplomas granted by the governing board of a school district may be on blanks furnished by the Superintendent of Public Instruction or on forms provided by the district, which shall be subject to the approval of the Superintendent of Public Instruction. All diplomas shall be signed by a majority of the members of the board or its designated representative. Facsimile signatures or signature stamps may be used for this purpose.

## Article 2. Diplomas

51410. No diploma, certificate or other document which is conferred upon a pupil as evidence of his completion of a prescribed course of study or training shall bear any distinctive marking or words which indicate that the pupil upon whom it was conferred was, for purposes of his course of study or training, placed within a particular classification based upon his intellectual or mental capacity.

The provisions of this section shall not be construed to prevent a diploma, certificate or other document from indicating that the pupil upon whom it is conferred maintained exceptionally high grades during his course of study or training, or that he completed his course with honors, or to prevent the governing board of any school district from publicizing such information.

## Article 3. High School Equivalency Certificates

51420. The Superintendent of Public Instruction may issue a California high school equivalency certificate to any person who has not completed high school and who meets the following requirements:

(a) Is a resident of this state or is a member of the armed services assigned to duty in this state; and

(b) Has passed a general educational development test which has been approved by the State Board of Education and which administered by a testing center approved by the Department of Education, with a score determined by the State Board of Education to be equal to the standard of performance expected from high school graduates.

(c) Is at least 18 years of age or who would have graduated from high school had he remained in school and followed the usual course of study toward graduation.

51421. Applications for a California high school equivalency certificate shall be submitted by an applicant on a form prescribed by the Superintendent of Public Instruction. The superintendent may charge a fee, established by the State Board of Education, to be submitted with the application sufficient in amount to pay the cost of administering this article. The amount of each fee may not exceed ten dollars (\$10) per person.

51422. Each testing center shall, upon request of an applicant, provide the Superintendent of Public Instruction with a certificate of results of the applicant's general educational development test.

51423. The Superintendent of Public Instruction may provide for the administration of the general educational development test to persons confined to state or county hospitals or to institutions maintained by state or county correctional agencies.

Such agencies shall, upon request, reimburse the Superintendent of Public Instruction in an amount sufficient to pay the cost of administering the test.

51424. The Superintendent of Public Instruction shall keep a permanent record of California high school equivalency certificates issued pursuant to this article together with applications therefor.

51425. A California high school equivalency certificate shall be deemed to be a high school diploma for the purpose of meeting the requirements of employment by all state and local public agencies in this state.

51426. The State Board of Education shall adopt rules and regulations necessary to implement this article.

51427. All of the fees which may be prescribed by Sections 51421 and 51423 are hereby appropriated without regard to fiscal year for the support of the Department of Education to be used pursuant to this article.

#### Article 4. Veterans Education

440. (a) Subject to regulations which the State Board of Education shall prescribe, the governing board of any school district including a four-year high school or senior high school may, for any person included in subdivision (b), evaluate classes completed in any school, community college, or state college; grant credit toward such classes for military service and training received while in the service of the United States, and if satisfied that such person

completed the equivalent of the requirements for graduation from high school, grant him a diploma of graduation.

(b) Persons who may be granted a diploma pursuant to subdivision (a) are:

- (1) A veteran who is a resident of this state.
  - (2) A former member of the armed forces who is such a resident and who has received other than a dishonorable discharge.
  - (3) A member of the armed forces who is, and on the date he entered the armed forces was, such a resident.
51441. A veteran who entered the military service of the United States while a student in the 12th grade of a high school and who at the time of his entrance into such military service had satisfactorily completed the first half of the work required for the 12th grade shall be granted a diploma of graduation from such high school.
51442. "Veteran" as used in Sections 51440 and 51441 means a person who has served 90 days or more in the military service of the United States during a war with a foreign power or during any national emergency declared by the President of the United States and who has been honorably discharged from such service.

CHAPTER 4. PROHIBITED INSTRUCTION

Article 1. Prejudices

51500. No teacher shall give instruction nor shall a school district sponsor any activity which reflects adversely upon persons because of their race, sex, color, creed, national origin or ancestry.

51501. No textbook, or other instructional materials shall be adopted by the state board or by any governing board for use in the public schools which contains any matter reflecting adversely upon persons because of their race, sex, color, creed, national origin or ancestry.

Article 2. Prohibited Materials

51510. Except as to textbooks approved by the state board or a county board of education, no bulletin, circular, or publication may be used as the basis of study or recitation or to supplement the regular school studies if the material contained in the bulletin, circular, or publication has been disapproved by the governing board of the school district in which the school is situated.

51511. Nothing in this code shall be construed to prevent, or exclude from the public schools, references to religion or references to or the use of religious literature, art, or music or other thing having a religious significance when such references or uses do not constitute instruction in religious principles or aid to any religious sect, church, creed, or sectarian purpose and when such references or uses are incidental to or illustrative of matters properly included in the course of study.

51512. The Legislature finds that the use by any person, including a pupil, of any electronic listening or recording device in any classroom of the elementary and secondary schools without the prior consent of the teacher and the principal of the school given to promote an educational purpose disrupts and impairs the teaching process and discipline in the elementary and secondary schools, and such use is prohibited. Any person, other than a pupil, who willfully violates this section shall be guilty of a misdemeanor.

Any pupil violating this section shall be subject to appropriate disciplinary action.

This section shall not be construed as affecting the powers, rights, and liabilities arising from the use of electronic listening or recording devices as provided for by any other provision of law.

### Article 3. Solicitations

51520. During school hours, and within one hour before the time of opening and within one hour after the time of closing of school, pupils of the public school shall not be solicited on school premises by teachers or others to subscribe or contribute to the funds of, to become members of, or to work for, any organization not directly under the control of the school authorities, unless the organization is a nonpartisan, charitable organization organized for charitable purposes by an act of Congress or under the laws of the state, the purpose of the solicitation is nonpartisan and charitable, and the solicitation has been approved by the county board of education or by the governing board of the school district in which the school is located.

Nothing in this section shall be construed as prohibiting the solicitation of pupils of the public school on school premises by pupils of that school for any otherwise lawful purpose.

51521. No person shall solicit any other person to contribute to any fund or to purchase any item of personal property, upon the representation that the money received is to be used wholly or in part for the benefit of any public school or the student body of any public school, unless such person obtains the prior written approval of either the governing board of the school district in which such solicitation is to be made or the governing board of the school district having jurisdiction over the school or student body represented to be benefited by such solicitation, or the designee of either of such boards.

The prohibitions of this section shall not apply with respect to any solicitation or contribution the total proceeds of which are delivered to a public school, nor to a solicitation of a transfer to be effected by a testamentary act.

#### Article 4. Advocacy or Teaching of Communism

51530. No teacher giving instruction in any school, or on any property belonging to any agencies included in the public school system, shall advocate or teach communism with the intent to indoctrinate or to inculcate in the mind of any pupil a preference for communism.

In prohibiting the advocacy or teaching of communism with the intent of indoctrinating or inculcating a preference in the mind of any pupil for such doctrine, the Legislature does not intend to prevent the teaching of the facts about communism. Rather, the Legislature intends to prevent the advocacy of, or inculcation and indoctrination into, communism as is hereinafter defined, for the purpose of undermining patriotism for, and the belief in, the government of the United States and of this state.

For the purposes of this section, communism is a political theory that the presently existing form of government of the United States or of this state should be changed, by force, violence, or other unconstitutional means, to a totalitarian dictatorship which is based on the principles of communism as expounded by Marx, Lenin, and Stalin.

#### Article 5. Humane Treatment of Animals

51540. In the public elementary and high schools or in public elementary and high school school-sponsored activities and classes held elsewhere than on school premises, live vertebrate animals shall not, as part of a scientific experiment or any purpose whatever:

(a) Be experimentally medicated or drugged in a manner to cause painful reactions or induce painful or lethal pathological conditions.

(b) Be injured through any other treatments, including, but not limited to, anesthetization or electric shock.

Live animals on the premises of a public elementary or high school shall be housed and cared for in a humane and safe manner.

The provisions of this section are not intended to prohibit or constrain vocational instruction in the normal practices of animal husbandry.

#### Article 6. Sex Education Courses

51550. No governing board of a public elementary or secondary school may require pupils to attend any class in which human reproductive organs and their functions and processes are described, illustrated or discussed, whether such class be part of a course designated "sex education" or "family life education" or by some similar term, or part of any other course which pupils are required to attend.

If classes are offered in public elementary and secondary schools in which human reproductive organs and their functions and

processes are described, illustrated or discussed, the parent or guardian of each pupil enrolled in such class shall first be notified in writing of the class. Sending the required notice through the regular United States mail, or any other method which such local school district commonly uses to communicate individually in writing to all parents, meets the notification requirements of this paragraph.

Opportunity shall be provided to each parent or guardian to request in writing that his child not attend the class. Such requests shall be valid for the school year in which they are submitted but may be withdrawn by the parent or guardian at any time. No child may attend a class if a request that he not attend the class has been received by the school.

Any written or audiovisual material to be used in a class in which human reproductive organs and their functions and processes are described, illustrated, or discussed shall be available for inspection by the parent or guardian at reasonable times and places prior to the holding of a course which includes such classes. The parent or guardian shall be notified in writing of his opportunity to inspect and review such materials.

This section shall not apply to description or illustration of human reproductive organs which may appear in a textbook, adopted pursuant to law, on physiology, biology, zoology, general science, personal hygiene, or health.

Nothing in this section shall be construed as encouraging the description, illustration, or discussion of human reproductive organs and their functions and processes in the public elementary and secondary schools.

The certification document of any person charged with the responsibility of making any instructional material available for inspection under this section or who is charged with the responsibility of notifying a parent or guardian of any class conducted within the purview of this section, and who knowingly and willfully fails to make such instructional material available for inspection or to notify such parent or guardian, may be revoked or suspended because of such act. The certification document of any person who knowingly and willfully requires a pupil to attend a class within the purview of this section when a request that the pupil not attend has been received from the parent or guardian may be revoked or suspended because of such act.

51551. The provisions of Section 51550 shall not apply to any venereal disease education classes conducted pursuant to Section 51820.

## CHAPTER 5. AUTHORIZED CLASSES AND COURSES OF INSTRUCTION

### Article 1. Elementary Pupils

51700. The board of education of any city school district, upon the recommendation of the city superintendent of schools, or the board of school trustees of any elementary school district, upon recommendation of the county superintendent of schools, may establish and maintain separate classes for pupils who would profit more from a course other than the regular course of study prescribed for the elementary schools, and may substitute for the regular course of study other types of schoolwork or study approved by the superintendent of schools as being better adapted to the mental needs of the pupils.

51701. Pupils enrolled in such classes shall be required to use the state series of textbooks only insofar as the textbooks are adapted to the work of the classes. All textbooks and materials required in the classes shall be furnished free.

### Article 2. High School Evening Study Halls

51710. The governing board of any district maintaining a high school may establish evening study halls in the high school for the pupils of the high school. The evening study halls shall be under the supervision of certificated personnel employed at the high school, but only such personnel who volunteer their services for such supervision shall be employed for such work by the governing board of the district. The compensation of personnel employed in supervision of evening study halls shall, for such supervisory work, be in the amounts determined by the governing board of the district and shall be paid solely from revenues provided by the district. No state-apportioned moneys shall be expended for such compensation, nor shall any such expenditures be taken into account in computing state aid to the district.

### Article 3. Evening High School for Minors

51720. The governing board of a school district which maintains high schools and a continuation education program may establish and maintain evening high school programs in grades 9 to 12, inclusive, for minors subject to Section 48200.

51721. Notwithstanding any other provision of law, a governing board to which this article applies may establish the number of, and the specific days of the week on which such a program shall be in session. The governing board may further prescribe the number of hours during which the program shall be in session.

51722. An evening high school program shall consist of courses similar to the curriculum of the regular high schools of the district.

Credit for coursework satisfactorily completed shall be acceptable by all of the regular day high schools of the district.

51723. The attendance of a minor at an evening high school program shall be voluntary, but the written permission of the minor's parent or guardian is required.

51724. The attendance of a pupil in an evening high school program shall not result in the crediting of more than one unit of average daily attendance during the regular school year, even if the pupil also attends one or more classes in the regular high schools of the district.

#### Article 4. Elementary School Special Day and Evening Classes

51730. The governing body of any elementary school district may establish and maintain, in connection with any school under its jurisdiction, special day and evening classes and summer schools, consisting of special day classes or special evening classes or both, for the purpose of giving instruction in any of the branches of study prescribed and authorized for the elementary schools.

51731. These classes may be convened at such hours and for such length of time during the school day or evening, and at such period and for such length of time during the school year as may be determined by the governing authority in accordance with rules and regulations of the State Board of Education and with the prior written approval of the Superintendent of Public Instruction.

51732. The evening elementary schools and the special day and evening classes of the elementary schools of any school district shall be open for the admission of such minors and adults as in the judgment of the governing board of the school district maintaining the schools or classes may profit from the instruction offered.

#### Article 5. Instruction by Correspondence

51740. The governing board of a district maintaining one or more secondary schools may, subject to such rules and regulations as may be prescribed by the State Board of Education and upon the authorization of the Superintendent of Public Instruction, provide pupils enrolled in the regular day schools of the district with instruction by correspondence provided by the University of California, or other university or college in California accredited for teacher training under this code, in subjects included within or related to the course of study offered in the school and which for good reason cannot be taken by the pupil, and pay the cost thereof. Such instruction when provided for a pupil must be a part of the program of study approved for such pupil.

51741. Notwithstanding anything in Section 51740 to the contrary, the governing board of any school district may, subject to such rules and regulations as may be prescribed by the State Board of Education and upon the authorization of the Superintendent of

Public Instruction, provide veterans enrolled in schools or classes of the district with instruction by correspondence, provided by any university or college referred to in Section 51740 or by any other university, college, school, institution or organization approved by the Superintendent of Public Instruction in subjects which may be necessary to adjust the veteran to an occupation and which, for good reason, cannot be given by the school, and pay for the cost thereof.

#### Article 6. Military Science and Tactics

51750. The governing board of any school district maintaining a secondary school may establish in the school courses in military science and tactics complying with the laws of the United States made and provided with reference to Reserve Officers Training Corps units in educational institutions.

No student enrolled in any such school shall be required to enroll in any course in military science and tactics.

#### Article 7. Work Experience Education

51760. The governing board of any district maintaining a high school may:

(a) Provide for the instruction of pupils in the skills, attitudes, and understandings necessary to success in employment by means of courses of work experience education as provided in this article.

(b) Provide for guidance and supervision procedures designed to insure maximum educational benefit to students from placement in suitable work experience education courses.

(c) Provide for arranging, approving, coordinating, and awarding credit for work experience education courses, and for those purposes employ instructors, coordinators, and other necessary personnel.

(d) Provide for the district to purchase liability insurance for students enrolled in programs of study involving work experience or vocational education at locations off school grounds approved by the governing board, or require students to purchase insurance and to pass on all or a portion of the costs, at the discretion of the governing board, to the district.

51761. The State Board of Education shall establish standards for work experience education, including but not limited to, the following:

(a) Selection and approval of work stations.

(b) Supervision of pupils.

(c) Credit allowable for work experiences.

(d) Guidance procedures related to work experience education.

51762. The Department of Education shall adopt such rules and regulations as are necessary to implement the standards set by the State Board of Education, so as to maintain the educational purpose and character of work experience education.

51763. All laws or rules applicable to minors in employment

relationships are applicable to students enrolled in work experience education courses.

51764. Work experience education as authorized by this article includes the employment of pupils in part-time jobs selected or approved as having educational value for the students employed therein and coordinated by school employees.

51765. The governing board of any school district which establishes and supervises a work experience education program in which mentally retarded pupils are employed in part-time jobs may use funds derived from any source, to the extent permissible by appropriate law or regulation, to pay the wages of pupils so employed.

The Legislature hereby finds and declares that the authority granted by the provisions of this section is necessary to ensure that the work experience education program will continue to provide maximum educational benefit to students, particularly mentally retarded pupils, and that such program is deemed to serve a public purpose.

51766. Work experience education involving apprenticeable occupations shall be consistent with the purposes of Chapter 4 (commencing with Section 3070), Division 3 of the Labor Code and with standards established by the California Apprenticeship Council.

51767. The governing board of any school district which maintains one or more high schools may provide for the establishment and supervision of work experience education programs in contiguous areas outside the district.

51768. The governing board of any school district providing work experience and work study education may provide for employment under such program of pupils in part-time jobs located in areas outside the district and such employment may be by any public or private employer. Such districts may pay wages to persons receiving such training whether assigned within or without the district, except that no payments may be to or for private employers, and may provide workers' compensation insurance as may be necessary.

51769. Notwithstanding any provisions of this code or the Labor Code to the contrary, the school district or county superintendent of schools under whose supervision work experience education, or occupational training classes held in the community, as defined by regulations adopted by the State Board of Education, are provided shall be considered the employer under Division 4 (commencing with Section 3200) of the Labor Code of persons receiving such training unless such persons during such training are being paid a cash wage or salary by a private employer, or unless the person or firm under whom such persons are receiving work experience or occupational training elects to provide workers' compensation insurance. Whenever such work experience education, or occupational training classes held in the community, are under the supervision of a regional occupational center or program operated by two or more school districts pursuant to Section 52301 of the

Education Code, the district of residence of the persons receiving such training shall be deemed the employer for the purposes of this section.

51770. Sections 1292, 1293, and 1294 of the Labor Code shall not apply to work experience education programs established pursuant to this article; provided that the work experience coordinator determines that the students have been sufficiently trained in the employment or work otherwise prohibited, if parental approval is obtained, and the principal or the counselor of the student has determined that the progress of the student toward graduation will not be impaired.

### Article 8. Aviation Education

51790. The Department of Education shall aid and assist local school districts in the development and conduct of a program of aviation education. The Department of Aeronautics may aid and assist in the selection of airports and pilots used by the local school districts in flight indoctrination and instruction.

51791. The governing board of each district is encouraged to develop aims and purposes of aviation education designed to include: (a) integration of appropriate aviation concepts throughout the elementary school with units of instruction in science, social studies, and arithmetic; (b) aviation experiences in junior high schools in the areas of social studies, science, and arithmetic; and (c) elective courses in senior high schools and four-year high schools including air transportation, vocational training, economic, social and political implications of aviation, the science of flight, history of aviation, and flight experience where appropriate airports, planes, and pilots are available, and the need for such instruction is indicated. Periodic reports shall be made to the Department of Aeronautics concerning the flight indoctrination and instruction program.

51792. The Department of Aeronautics is authorized to make available to public schools offering actual flight experience as part of the regular curriculum a basic insurance program and to assure that adequate supervision and precautionary measures are taken by the flight school operators contracted to provide services for public school students. The governing board of any school district offering actual flight experience as part of the regular curriculum may participate in the basic insurance program provided by the commission and pay from the funds of the district a pro rata share of the cost of the insurance program.

### Article 9. Home Teaching

51800. The governing board of any school district, may employ teachers known as "home teachers" not exceeding one teacher for every 500 units of average daily attendance in the elementary or high schools of the district as shown by the report of the county

superintendent of schools for the next preceding school year.

51801. The home teacher shall work in the homes of the pupils, instructing children and adults in matters relating to school attendance and preparation therefor, in sanitation, in the English language, in household duties, such as purchase, preparation, and use of food and clothing, and in the fundamental principles of the American system of government and the rights and duties of citizenship.

51802. The governing board of any school district maintaining a home teaching program, or providing home instruction as authorized by law for pupils afflicted with any form of handicap, may provide such home teaching or instruction on Saturday.

No pupil shall be required to attend upon a home teaching program or home instruction on Saturday without the consent of his parent or guardian.

#### Article 10. Community Service Classes

51810. The governing board of any school district maintaining secondary schools is authorized without the approval of the State Department of Education to establish and maintain community service classes in civic, vocational, literacy, health, homemaking, technical and general education, including but not limited to classes in the fields of music, drama, art, handicraft, science, literature, nature study, nature contacting, aquatic sports and athletics. Such classes shall be designed to provide instruction and to contribute to the physical, mental, moral, economic, or civic development of the individuals or groups enrolled therein.

51811. Community service classes shall be open for the admission of adults and of such minors as in the judgment of the governing board may profit therefrom.

51812. Community service classes may be convened at such hours and for such length of time during the day or evening and at such period and for such length of time during the school year as may be determined by the governing board of the district.

51813. Governing boards shall have the authority to provide for granting appropriate certificates or other recognition of skill or accomplishment in such classes.

51814. Attendance or average daily attendance in community service classes pursuant to this article shall not be reported to the State Department of Education for apportionment. No apportionment from state funds shall be made to establish or maintain such classes.

51815. Governing boards may expend from the general fund of the district any money which is budgeted for community services to establish and maintain community service classes and may charge student fees not to exceed the cost of maintaining such classes or may provide instruction in such classes for remuneration by contract, or with contributions or donations of individuals or groups.

### Article 11. Venereal Disease Education Classes

51820. The governing board of any district maintaining elementary or secondary schools may offer units of instruction in venereal disease education in such schools with the assistance and guidance of the State Department of Education. The grade level at which such instruction shall be given shall be determined by the governing board of the school district.

Nothing in this section shall be construed as prohibiting or limiting any right provided for in Section 51240.

If venereal disease education classes are offered, the parent or guardian of each pupil enrolled or to be enrolled therein shall be notified in writing of the instructional program. Such notice shall be given at least 15 days prior to the commencement of the instructional program. The notice shall also advise the parent or guardian of his right to inspect the instructional materials to be used in such class and of his right to request the school authorities that his child not attend any such class.

Sending the required notice through the regular United States mail or any other method of delivery which the school district commonly uses to communicate individually in writing to all parents, meets the notification requirements of this section.

The parent or guardian may request that his child not participate in a venereal disease instruction program. Such request shall be in writing, but may be withdrawn by the parent or guardian at any time. No pupil may attend any class in venereal disease education, if a request that he not attend the class has been received by the school in the manner provided in this section.

The parent or guardian of any pupil enrolled or to be enrolled in any venereal disease education class shall be provided the opportunity to inspect the textbooks, audiovisual aids, and any other instructional materials to be used in such classes.

### Article 12. Consumer Economics Programs

51830. The Legislature hereby finds that many high school graduates lack the skills necessary to function effectively in the business world.

The Legislature also finds and declares that most youths are lacking in a basic knowledge of simple contracts, banking and credit transactions, and purchasing practices.

51831. It is the intent of the Legislature to provide pupils in the public school system with the opportunity to learn about the following: the market economy and the consumer's responsibility to make intelligent choices; the knowledge of goods and services necessary to make intelligent decisions; and statutes, regulations, public agencies, and governmental actions affecting consumers.

Furthermore, it is the intent of the Legislature to insure that there is made available to schools the program materials needed to enable

them to offer the basic information prescribed pursuant to this article to pupils enrolled in grades 7 through 12, inclusive.

51832. The Superintendent of Public Instruction shall, with the approval of the State Board of Education, plan and develop a one-semester instructional program entitled consumer economics for use in schools maintaining any of grades 7 through 12, inclusive. When completed, the program shall be made available to all school districts and schools with grades 7 through 12, inclusive.

51833. The instructional program shall include, but not be limited to, the following elements:

- (a) Fundamentals of banking for personal use;
- (b) Elementary contracts;
- (c) Consumer guides to purchasing;
- (d) Uses and costs of credit;
- (e) Types and costs of insurance; and
- (f) Forms of governmental taxation.

51834. To facilitate the development of an instructional program in consumer economics, the Superintendent of Public Instruction shall appoint from voluntary sources one attorney, one economist, one merchandiser, one representative of lending institutions, one consumer, one consumer protection specialist, and one additional member to a committee which shall serve in an advisory capacity to the Superintendent of Public Instruction. The advisory committee shall review existing materials from both governmental and private sources relative to the instructional program, evaluate the instructional materials with regard to the intent of the Legislature as prescribed in Section 51831, and determine what additional instructional materials are necessary. The Superintendent of Public Instruction shall cause to be published the findings of the advisory committee. Members of the committee shall serve for a term of one year or until the instructional program is completed, whichever is sooner.

This section shall remain in effect only until February 1, 1976, and as of that date is repealed.

51835. The Superintendent of Public Instruction shall submit to the Legislature, on or before January 1, 1977, a report on the instructional program in consumer economics together with all accessory data and material. The report shall include, but not be limited to, the following:

- (a) Response from school districts regarding the program;
- (b) Number of schools which currently offer such programs; and
- (c) Number of schools which currently do not offer such a program.

51836. The Superintendent of Public Instruction shall submit to the Legislature, on or before January 1, 1976, a report detailing the progress of the proposed instructional program authorized pursuant to this article.

This section shall remain in effect only until February 1, 1976, and as of that date is repealed.

## Article 13. Driver Training

51850. The governing board of a school district maintaining a high school or high schools, a county superintendent of schools, and the California Youth Authority and State Department of Education in providing programs of high school education, may prescribe regulations determining who can profit by and who shall receive instruction in automobile driver training; provided, however, that no pupil shall be permitted to enroll in automobile driver training unless such pupil is presently enrolled in a course of instruction in automobile driver education, or has satisfactorily completed such course. The regulations shall be subject to such standards for driver education and driver training as may be prescribed by the State Board of Education. Where driver training is provided, such course of instruction shall be given in one or more of the grades 9, 10, 11, or 12. Pupils shall be at least 15 years and six months of age at the time of completion of a driver training course.

51851. A course of instruction in automobile driver education shall:

(a) Be of at least 2½ semester periods and shall be taught by a qualified instructor;

(b) Provide the opportunity for students to take driver education within the regular schoolday, and within the regular academic year, as defined in Section 37250. Additional classes may be offered at the discretion of the local school district governing board, the county superintendent of schools, California Youth Authority, and the State Department of Education, to accommodate those who have failed or those who cannot otherwise enroll in the regular schoolday program. For purposes of this section, the regular schoolday shall be that time during which classes are maintained in the courses of instruction provided for in Chapter 1 (commencing with Section 51000), Chapter 2 (commencing with Section 51200), Article 1 (commencing with Section 51500), Article 2 (commencing with Section 51510), Article 3 (commencing with Section 51520), Article 4 (commencing with Section 51530), Article 6 (commencing with Section 51550) of Chapter 4 of this part, Article 11 (commencing with Section 51820) of this chapter, Chapter 2 (commencing with Section 58400) of Part 31 of this division; and

(c) Be completed by the student within the academic year or summer session in which it was begun.

51852. A course of instruction in the laboratory phase of driver education shall include, for each student enrolled in the class, instruction under one of the following plans:

(a) Plan One. A minimum of 12 hours allocated as follows:

(1) A minimum of six hours of on-street behind-the-wheel practice driving instruction in a dual-control automobile with a qualified instructor.

(2) A minimum of six hours in a dual-control automobile with a qualified instructor for the purposes of observation. Practice driving

on an off-street multiple-car driving range approved by the department under the supervision of a qualified instructor may be substituted for all or part of the observation time.

(b) Plan Two. A minimum of 24 hours allocated as follows:

(1) Three hours of on-street behind-the-wheel practice driving instruction in a dual-control automobile with a qualified instructor.

(2) Six hours in a dual-control automobile with a qualified instructor for the purposes of observation. Practice driving on an off-street multiple-car driving range approved by the department under the supervision of a qualified instructor may be substituted for all or part of the observation time.

(3) Twelve hours of instruction by a qualified instructor in a driving simulator approved by the department.

(4) At least three additional hours of instruction specified in one or more of paragraphs 1 through 3 of this subdivision.

(c) Plan Three. A minimum of 24 hours allocated as follows:

(1) Three hours of on-street behind-the-wheel practice driving instruction in a dual-control automobile with a qualified instructor.

(2) Six hours in a dual-control automobile with a qualified instructor for the purpose of observation.

(3) Twelve hours of instruction by a qualified instructor on an off-street multiple-car driving range.

(4) At least three additional hours of instruction specified in one or more of paragraphs 1 through 3 of this subdivision.

(d) Plan Four. A minimum of 24 hours allocated as follows:

(1) Two hours of on-street behind-the-wheel practice driving instruction in a dual-control automobile with a qualified instructor.

(2) Four hours in a dual-control automobile with a qualified instructor for the purpose of observation.

(3) Eighteen hours of instruction by a qualified instructor in a driving simulator approved by the department and on an off-street multiple-car driving range. The governing board of the district shall establish the proportion of time to be utilized in simulators and on the off-street multiple-car driving range.

For purposes of this section, one hour means 60 minutes including passing time.

Any deviation from the standard use of a simulator or off-street multiple-car driving range, or both, shall have prior approval by the Department of Education before the school district, county superintendent of schools, the California Youth Authority, or the Department of Education can be reimbursed for the students trained.

51853. Any reference in this code to automobile driver training shall be deemed to refer to the laboratory phase of driver education described by Section 51852.

## Article 14. Bicycle Safety Instruction

51860. The governing board of any school district having jurisdiction over any elementary, intermediate, or junior high school may provide time and facilities to any local law enforcement agency having jurisdiction over the schools of the district, for bicycle safety instruction.

## Article 15. Classroom Instructional Television

51870. The county superintendent of schools may contract on behalf of any school district under his jurisdiction and for the schools and classes operated by him, subject to the approval of the Superintendent of Public Instruction, to procure television broadcasts or closed-circuit television programs for use in the educational program of the schools in such district, and for the educational program of the schools and classes operated by the county superintendent.

51871. A school district may provide for or contract for, subject to the approval of the Superintendent of Public Instruction, the procuring of television broadcasts or closed-circuit television programs for use in the educational program of the schools of the district.

51872. (a) Under rules and regulations adopted pursuant to Section 51874, the Superintendent of Public Instruction shall administer a high-quality instructional television service for the public school pupils of California, such service to include but not be limited to:

(1) Providing for an equitable high-quality instructional television service to be made available to the largest feasible number of public school pupils utilizing the most appropriate delivery systems;

(2) Providing for contracts with local educational authorities acting on behalf of regional organizations, or directly with regional organizations if they are eligible to enter into such contracts, for assistance in carrying out the following activities:

(A) Developing and implementing an instructional television service in each region, the content and scheduling of which shall be determined by the local school districts which have elected to participate in the instructional television service provided by a regional organization.

(B) Developing and implementing statewide evaluation procedures to be administered by the regional organizations that utilize indicators of pupil progress such as standardized tests of educational achievement and observation of behavioral characteristics. Pupil progress shall be related to hours of viewing instructional television and the cost of providing such televised instruction. Evaluations shall be performed at least once a year and the results reported to the Legislature annually.

(C) Developing and implementing teacher training and parent

involvement programs to maximize the school and home use of instructional television;

(3) Providing for the production of the highest quality instructional television programs possible within the limits of available resources, for distribution by all of the regional organizations on a statewide basis, the content of which will be in the areas of highest priorities of statewide need as determined by the local school districts and the regional organizations in which they participate and with the advice of the State Instructional Television Advisory Committee;

(4) Providing technical assistance to the regional organizations to assist them in the production of the highest quality programming possible within the limitation of available resources, using local district funds. Subject areas for such production shall be determined by the local school districts and the regional organizations and it is expected that such programming will be needed to meet unique regional educational needs;

(5) Providing for the acquisition of programs for the instructional television service on behalf of the regional organizations; and

(6) Providing for statewide coordination among regional organizations, offices of county superintendents of schools, school districts, and other agencies concerned with instructional television services for the purpose of eliminating unnecessary duplication of effort and facilitating the development and economical provision of high-quality programming and utilization in the areas of highest priorities of need as defined by local school districts, regional organizations, the State Instructional Television Advisory Committee, and the Superintendent of Public Instruction.

51873. The following definitions, unless the context otherwise requires, shall govern the construction of this article:

(a) "Instructional television" means television programs whose content is closely related to the adopted formal curriculum of the public schools.

(b) "Instructional television programming" means all the functions necessary to the acquisition and production of instructional television.

(c) "Delivery system" means any form of telecommunications technology which may be used to transmit educational material, including but not limited to, one or more open-circuit broadcast stations, microwave systems, instructional television fixed service (ITFS), community antenna television (CATV), or other cable systems, broadcast translators, and computer-assisted information retrieval systems.

(d) "Open-circuit delivery system" means any public or noncommercial educational television station or any instructional television fixed service (ITFS) broadcast station.

(e) "Closed-circuit delivery system" means any microwave system or community antenna television system (CATV).

(f) "Regional organization" means any agency organized under

the auspices of one or more county superintendents of schools, or one or more school districts, or any combination of county superintendents of schools and school districts, pursuant to Article 1 (commencing with Section 6500) of Chapter 5 of Division 7 of Title 1 of the Government Code, or other appropriate authority, with a demonstrated interest in and capacity for providing services related to instructional television to students, their parents, teachers, and administrators in the area served by the regional organization. A regional organization shall include only county superintendents of schools or school districts of this state, or a combination of both. Regional organizations shall operate pursuant to such terms and conditions as may be adopted by the public school agency or the public school agencies comprising the regional organization and subject to the provisions of this article. The governing board of the regional organization shall include representation from students, teachers, administrators, at least one representative of all open-circuit delivery systems used, and at least one representative of all closed-circuit delivery systems used. The policies of the regional organization shall be adopted by a process which includes all interests represented in the regional organization.

(g) "State Instructional Television Advisory Committee" means a committee whose members shall be appointed by the State Board of Education on the recommendation of the Superintendent of Public Instruction or the members of the State Board of Education and shall consist of eight representatives of regional organizations, with a maximum of one from each region, three public school administrators or classroom teachers or students or parents or any combination thereof, and one professional with expertise in television programming, and one professional actively engaged in the management of delivery systems. Members of the State Instructional Television Advisory Committee shall serve without compensation, except that members shall be reimbursed for their actual and necessary travel expenses incurred in the performance of their duties. Terms for members shall be for a period of three years. Terms for the first members appointed to the committee shall be determined by lot at the first official meeting, as follows:

(1) Terms of two representatives of regional organizations shall be for one year, three for two years, and three for three years.

(2) Terms of one public school administrator, classroom teacher, student, or parent shall be for one year, one for two years, and one for three years.

(3) Other representatives shall serve for an initial term of three years.

Members of the committee may be reappointed for succeeding terms.

51874. The State Board of Education shall establish rules and regulations governing the administration of this article and may request assistance and advice from any interested entities and individuals in the exercise of this responsibility. The Superintendent

of Public Instruction shall enforce such board rules and regulations and shall make an annual report to the State Board of Education on all aspects of instructional television activity in the state. The State Board of Education shall report to the Legislature annually on instructional television activity.

51875. Nothing in this article shall be construed as limiting regional organizations, delivery systems, offices of county school superintendents, or school districts from expending their own funds for purposes related to instructional television programming, utilization, evaluation, or other activities.

51876. This article shall be known as the Quimby-Marler Instructional Television Act.

#### CHAPTER 6. EARLY CHILDHOOD EDUCATION

52000. For the purposes of this chapter, "early childhood education programs" are defined as all educational programs, except those for exceptional children as defined in Section 56030, offered in the public school system, including in-class and out-of-class activities, for children age 3 years and 9 months, to the completion of grade 3 or its equivalent, under a local school-by-school comprehensive master plan approved by the State Board of Education which is designed to assure:

(a) A comprehensive restructuring of primary education in California kindergarten through third grade to more fully meet the unique needs, talents, interests and abilities of each child.

(b) That early educational programs that are or may be made available to children who are 3 years and 9 months of age be coordinated with the restructuring of primary education in California in order to take advantage of the capacity for learning of children at this age level.

(c) The cooperation and participation of parents in the educational program to the end that the total community is involved in the development of the program.

(d) The pupils participating will develop an increased competency in the skills necessary to the successful achievement in later school subjects such as reading, language, and mathematics.

(e) Maximum use is made of existing state and federal funds in the implementation of coordinated early childhood education programs.

52001. As used in this chapter, "parent participation" means the parents taking an active part in the initial planning of early childhood education programs and the implementation, evaluation, and modification of the programs.

Parent participation shall be included in a manner which:

(a) Involves parents in the formal education of their children directly in the classroom and through the decisionmaking process of the California public school system.

(b) Maximizes the opportunity for teachers and parents to cooperatively develop the learning process and its subject matter.

This opportunity shall be a continuous permanent process.

(c) Recognizes that the continuity between the early childhood education program and the home is essential.

52002. The Legislature hereby finds and declares that a comprehensive program of early childhood education is needed to restructure public education in California. The Legislature, therefore, declares its intent to require that the State Board of Education develop a comprehensive program for children ages 3 years and 9 months to the completion of grade 3, or its equivalent. The objectives of this plan will include assurance that each child will have an individualized program to permit the development of his maximum potential and that all pupils who have completed the third grade of the state's educational system will have achieved a level of competence in the basic skills of reading, language, and mathematics sufficient to continued success in their educational experiences. The system will be based on the development of local school-by-school master plans for early childhood education developed and submitted by local school districts which shall include a phase-in program based on an increase in the number of schools in the state participating each year until maximum participation is achieved.

52003. Beginning with the 1972-1973 fiscal year each school district maintaining kindergarten, and grades 1 to 3, inclusive, or any one or more such class or grade, may develop and submit to the Department of Education for approval a master plan for early childhood education. In developing a master plan, the governing board of the school district shall seek direct community, parent, and teacher involvement in all phases of the planning and development of the plan prior to approval.

Application shall be made in accordance with rules and regulations adopted by the State Board of Education.

52004. The governing boards of any school districts maintaining any such class or grade may, with the approval of the Department of Education, develop and submit for approval a joint master plan for early childhood education.

52005. A master plan for early childhood education shall include a comprehensive statement setting forth the district's educational program for early childhood education on a school-by-school basis. The State Board of Education shall establish standards and criteria to be used in the evaluation of plans submitted by school districts. Such standards and criteria for review and approval of plans by the State Board of Education shall include, but need not be limited to provision for:

(a) Assessment of educational needs.

(b) A program of restructuring of kindergarten through third grade.

(c) Opportunities for educational programs for pupils 3 years and 9 months of age including children's center, day care, preschool, and child care services.

(d) Defined and measurable program objectives.

(e) A local program designed to systematically phase into the program all the schools of the district in no more than five years.

(f) Coordination of all district resources with the objectives of the local plan.

(g) Program of evaluation of pupils' health needs.

(h) Emphasis on an individualized diagnostic approach to instruction.

(i) Direct parental involvement in the classroom program and program evaluation.

(j) Programs for comprehensive parent education.

(k) Staff development and in-service training.

(l) Transportation of pupils participating in the program.

(m) Evaluation of the program by the governing board of the school district with the assistance of the administrators, teachers, and parents.

No plan shall be approved by the State Board of Education unless it determines that the plan was developed with the active cooperation of parents, community, and teachers in all stages of planning, approval, and implementation of the plan.

The State Board of Education shall not approve a plan which provides for the initiation of classes for pupils who have attained the age of 3 years and 9 months unless it also contains provisions for restructuring kindergarten and grades 1 through 3.

No district shall initiate classes for pupils of age 3 years and 9 months or over under a master plan for early childhood education until that district has demonstrated to the satisfaction of the State Board of Education that its program for restructuring kindergarten through grade 3, or its equivalent, is completed and successful and no child shall be admitted to such class until it is established that that child will benefit from such instruction. In no event shall such classes be initiated prior to the 1975-1976 fiscal year.

52006. School districts with master plans for early childhood education approved pursuant to Section 52005 shall be eligible for allowances authorized under Sections 52013 and 52014. Such allowances shall be apportioned to the extent that funds are available on a priority basis in accordance with a schedule established by the State Board of Education.

52007. In apportioning allowances in accordance with Section 52006 for early childhood education, the Department of Education shall give highest priority to (1) those districts which have the largest number of pupils determined to have educational need, and (2) those districts with the lowest measure of assessed valuation per pupil and making the most significant property tax effort.

The State Board of Education shall adopt regulations setting forth criteria for the determination of educational need which shall be based on low levels of pupil achievement and such factors as low levels of family income.

52008. Districts receiving allowances pursuant to this chapter shall provide that a minimum of 50 percent of the amount allowed

to the district in any one year shall be designated for schools with the largest number of pupils with educational need identified pursuant to Section 52007 until such time as allowances are authorized for all schools.

52009. The State Board of Education may further provide that, upon its determination, that a district has not met the objectives of its approved plan, allowances shall not be increased in accordance with the phase-in schedule of the district's approved plan. The board shall provide for an annual review of the success of each local district in meeting the objectives of its approved plan for early childhood education. The board shall adopt rules and regulations governing the termination of allowances to districts which are unsuccessful in meeting the objectives of their approved plan.

52010. The State Board of Education shall adopt pupil performance objectives in reading and mathematics for use in district early childhood education programs not later than the 1975-1976 school year. The board is authorized to take all actions necessary to effect the development, testing, validation, adoption and implementation of such objectives.

52011. (a) Each district receiving allowances pursuant to Section 52013 or Section 52014, or both, or implementing a master plan for early childhood education approved by the State Board of Education pursuant to Section 52005, shall submit to the Department of Education a report of its early childhood education program. Such report shall be submitted in a form and manner and at such times, but not less than annually, as prescribed by the State Board of Education. The report shall include, but not be limited to, factors relating to:

- (1) Fiscal expenditures.
- (2) Degree and success of program implementation.
- (3) Quantitative estimate of pupil progress.

(b) The Department of Education shall derive a composite score for each school which shall be obtained from each of the three factors listed in paragraphs (1), (2), and (3) of subdivision (a). In determining such score, the Department of Education shall, for the first year of participation by the school, assign a weight of 20 percent for factor (1), 70 percent for factor (2), 10 percent for factor (3). For the second year of participation by the school, the factors shall be assigned a weight of 10 percent for factor (1), 50 percent for factor (2), 40 percent for factor (3). For the third and each subsequent year of participation, only factors (2) and (3) shall be considered and shall receive equal weighting.

52012. The Department of Education shall compute an index of student attainment for each participating school, using factors which have been shown to be predictive of school success. The obtained score for each school shall be weighted by the degree this score meets or exceeds the predicted school achievement level. Obtained scores falling below the predicted level of attainment shall be treated as a zero score. The Department of Education shall inform each

participating district of the relative performance of their participating schools. Such data shall regularly be analyzed and evaluated and submitted to the Legislature in the form of an annual report not later than the fifth legislative day of each regular session of the Legislature.

52013. From the funds appropriated therefor by the Legislature for the purposes of this chapter, the Superintendent of Public Instruction shall allow school districts with approved master plans for the education of children pursuant to such plans:

(a) Five hundred dollars (\$500) per pupil in average daily attendance in the district in each class maintained for pupils who have attained the age of 3 years and 9 months.

(b) One hundred thirty dollars (\$130) per pupil in average daily attendance in each kindergarten class.

(c) One hundred thirty dollars (\$130) per pupil in average daily attendance in grades 1 to 3, inclusive.

52014. In addition to the allowances provided for in Section 52013, the Superintendent of Public Instruction shall provide grants for pupils determined by him to have demonstrated educational need, in accordance with Section 52007, as follows:

(a) One hundred dollars (\$100) per pupil in average daily attendance in each class for pupils who have attained the age of 3 years and 9 months.

(b) Sixty-five dollars (\$65) per pupil in average daily attendance in each kindergarten class.

(c) Sixty-five dollars (\$65) per pupil in average daily attendance in grades 1 to 3, inclusive.

52015. In computing allowances authorized pursuant to Section 52013 the Superintendent of Public Instruction shall reduce such allowances by the amount per pupil apportioned pursuant to Article 4 (commencing with Section 54160) of Chapter 2 of Part 29 of this division.

52016. Allowances under this chapter shall be made by the Superintendent of Public Instruction from funds appropriated therefor by the Legislature. The allowances shall be made as early as practicable in the fiscal year and upon order of the Superintendent of Public Instruction the State Controller shall draw his warrants upon the money appropriated, in favor of the eligible districts in the amounts ordered.

52017. The Department of Education shall continuously monitor and review to assure that all funds appropriated to school districts under this chapter are expended for the purposes intended.

52018. Allowances shall not be granted under this chapter to a district unless the fiscal effort of the district with respect to early childhood education for any fiscal year of participation under this chapter was not less than the fiscal effort for that purpose for the fiscal year preceding the district's participation under this chapter.

52019. Allowances shall not be granted to a district unless the fiscal effort of that district with respect to each child participating in

the early childhood education program for any fiscal year of participation under this chapter is no less than the fiscal effort of the district per elementary child not participating in the early childhood education program. The Department of Education shall annually review individual district expenditures to assure the comparability of local support based on rules and regulations adopted by the State Board of Education which take into account growth in district enrollment and increases in district costs.

52020. The State Board of Education shall have the power to adopt and promulgate all rules and regulations necessary to the effective administration of this chapter, including, but not necessarily limited to, those specifically required to be adopted by particular provisions of this chapter.

52021. The governing board of the school district, in its application for approval of a master plan, may request waiver of the provisions of any section or sections of this code if such waiver is necessary to establish and operate an early childhood education program. The need for waiver shall be explained and justified in the application. The Superintendent of Public Instruction, with approval of the State Board of Education, may grant, in whole, or in part, any such request when, in the opinion of the Superintendent of Public Instruction, failure to grant such request would hinder the implementation and maintenance of the district's program.

52022. A school district in its application for approval of a master plan for early childhood education may include how child development services are to be coordinated with the program.

52023. The governing board of any school district which has had a master plan for early childhood education approved by the Department of Education shall establish and maintain such number of classes for pupils who have attained the age of 3 years and 9 months, as are necessary to implement such approved master plan for children living in the district that are eligible for admission pursuant to Section 52024 but are not eligible for admission pursuant to Section 48000 and whose parents or guardians present them for admission.

52024. (a) A child may be admitted to a class established pursuant to Section 52023 during the first school month of the term if he is of the age prescribed. For good cause the governing board of a school district may permit a child of the proper age to be admitted to the class after the first school month of the school year.

The child shall be 3 years and 9 months of age on or before September 1 of the current school year.

(b) As an alternative to admitting all children 3 years and 9 months of age on or before September 1 at the beginning of each school year pursuant to subdivision (a), school districts may, as a part of their respective master plans approved under Section 52005, authorize the admission of all children on an individual basis at the time that each respective child reaches four years of age.

(c) The State Board of Education shall adopt rules for the

approval of state aid based upon late enrollment in any school year. For the purpose of this section, late enrollment shall be considered any enrollment after the first month of the school year.

52025. The State Board of Education shall establish minimum standards authorizing service of instructional personnel in classes established pursuant to Section 52023.

52026. The minimum schoolday for classes established pursuant to Section 52023 is 180 minutes inclusive of recesses.

52027. The computation of average daily attendance in classes established pursuant to Section 52023 for the purpose of determining allowances under Sections 52013 and 52014, shall be as prescribed in Sections 46117 and 46320. Sections 46010 to 46013, inclusive, Article 1 (commencing with Section 46000) of Chapter 1, Article 1 (commencing with Section 46100) of Chapter 2 of Part 26 of this division, and Sections 46110, 46111, 46115 and 46119 shall apply.

52028. So much of the moneys appropriated for allowances pursuant to Section 52014, as is needed, shall be for the purpose of providing state funds to be matched with available federal funds to provide public services for those pupils eligible to receive such services. Federal reimbursement shall be obtained by the Department of Benefit Payments for services to children of those families, designated by the Department of Education, eligible for federal financial participation. The Department of Benefit Payments and the Department of Education shall enter into a contract wherein the Department of Education agrees to provide educational services for such pupils wherein the Department of Benefit Payments agrees to pay to the Department of Education all costs of services to participants.

52029. Nothing in this chapter shall be construed to sanction, perpetuate, or promote the racial and ethnic segregation of pupils in public schools.

## CHAPTER 7. BILINGUAL EDUCATION

### Article 1. Bilingual Education Act of 1972

52100. The Legislature finds that there are large numbers of children in this state who come from families where the primary language is other than English. To determine more exactly the need in this area, an annual census is necessary. The inability to speak, read and comprehend English presents a formidable obstacle to classroom learning and participation which can be removed only by instruction and training in the pupils' dominant language. In many of the public schools an inordinately high percentage of pupils are unable to speak the English language. The Legislature further recognizes that high quality bilingual programs in the public schools would allow the acquisition by students of educational concepts and skills needed to improve the development of human resources in this state. The Legislature finds and declares that a primary goal of such programs

is, as effectively and efficiently as possible, to develop in each child fluency in English so that he may then be enrolled in the regular program in which English is the language of instruction.

The Legislature further recognizes that to achieve its intent and purpose it will be necessary to provide means and incentives to train and employ bilingual education teachers and paraprofessional personnel, and to stimulate the hiring of such personnel. It is the intent of the Legislature that public institutions of higher learning shall train bilingual personnel to meet the needs of school districts.

It is the purpose of this chapter to allow public schools of the State of California which choose to participate to establish bilingual education programs. The primary goals of such programs shall be to develop competence in two languages for all participating pupils, to provide positive reinforcement of the self-image of participating children, and to develop intergroup and intercultural awareness among pupils, parents and the staff in participating school districts. Insofar as the individual pupil is concerned, pupil participation is voluntary on the part of the parent. It is the intent of the Legislature to provide supplemental financial assistance to help school districts to meet most of the special costs of phasing-in bilingual education programs.

52101. The State Board of Education shall adopt all rules and regulations necessary for the effective administration of this chapter.

52102. (a) "Bilingual education" is the use of two languages, one of which is English, as a means of instruction in any subject or course. It is a means of instruction in which concepts and information are introduced in the dominant language of the student and reinforced in the second language. It recognizes that teaching of language skills is most meaningful and effective when presented in the context of an appreciation of cultural differences and similarities.

(b) "Children of limited-English-speaking ability" are defined as children who speak a language other than English in their home environment and who are less capable of performing schoolwork in English than in their primary language.

(c) A "non-English-speaking child" is a child who communicates in his or her home language only. Such child is unable to conduct basic conversations in English or take advantage from classroom instruction in English.

(d) "Primary language" is a language other than English which is the language which the child first learned or the language which is spoken in the child's home environment.

(e) "Bilingual teacher" means a teacher fluent in both English and the primary language of the limited-English-speaking pupils in a bilingual program. Such a teacher need not be certificated to teach in both languages, and may be exempted from other certification requirements as set out in Section 52112.

(f) "Bilingual aide" means an aide fluent in both English and the primary language of the limited-English-speaking pupils in a bilingual program.

(g) "Board" means the State Board of Education.

(h) "Superintendent" means the Superintendent of Public Instruction.

(i) "Project" means an organized undertaking in bilingual education which includes, but is not limited to (1) a description of the undertaking, (2) a listing of the goals and objectives to be achieved, (3) a statement of the teaching methods to be used, and (4) a statement of the methods to be used in evaluating the success of the project.

52103. Each school district shall ascertain, not later than the first day of March of each year, under regulations prescribed by the State Board of Education, the number of children of limited-English-speaking ability within their school system, and shall classify them according to their primary language. Those children who are non-English-speaking shall be counted separately. The results of this census shall be reported to the Department of Education by the first day of April of each year.

52104. Each non-English-speaking child shall receive special assistance from the school district which he attends. This instructional assistance shall be provided in any manner approved by the local board of education. This section shall not be construed to require participation by any school district in the bilingual program established by this chapter.

52105. Each participating school district shall prepare a determination of what actually exists, in terms of educational achievement levels in a given school district and the subsequent need for a bilingual program. This determination is a "need assessment." The need assessment shall be verified by a school district advisory committee composed of parents of potential participants in the bilingual program.

52106. Each school district which wishes to participate shall write a project on forms provided by the Department of Education, with the following components: (a) identified goals for bilingual education as determined by the local need assessment, (b) the identification of objectives for the attainment of these goals (the objectives to be stated in measurable terms), (c) a description of how the student is to demonstrate the knowledge or skill to be achieved, (d) the level of performance which will be accepted, (e) a management plan to organize, coordinate and monitor with distinctly outlined plans that will ensure success in the bilingual program, (f) teacher and aide preservice training which will identify and improve knowledge levels of each teacher and aide in teaching methodology, and bilingual philosophy and education, (g) an in-service training program for teachers and aides that is linked with an institution of higher education, which shall include the establishment of a liaison with a nearby institution of higher education and the solicitation of help from such institution in order to continually upgrade the bilingual educational program, (h) a parent-teacher communications plan, (i) a plan for the gradual

assumption of the costs of the bilingual program by the district.

52107. Each participating school district shall have an articulated sequential program of instruction in bilingual education, designed to develop competence in English and in the primary language of the limited-English-speaking participants. Such sequential program shall include criteria, developed with the assistance of the Department of Education, for the placement and removal of pupils in a bilingual program.

52108. At the beginning of each school year, the district shall evaluate each child to be placed in a bilingual program. His strengths and weaknesses in English and in the second language of instruction shall be assessed. At least annually there shall be submitted to the Department of Education an evaluation of the children's progress, including, but not limited to, reading comprehension and speaking skills, in English and the second language of instruction. Such evaluation shall be prepared in the form and manner prescribed by the Department of Education.

52109. In bilingual classes established pursuant to this chapter, there shall be an approximate balance between the number of children whose primary language is other than English, and children proficient in English. Not more than two-thirds of the children enrolled in any such class shall be limited-English-speaking children.

Instruction shall be conducted in both English and in the primary language of the limited-English-speaking children.

52110. All bilingual-bicultural programs which involve special state funding and all bilingual-bicultural programs which are financed by a combination of state funds and federal funds provided under Title VII of the Elementary and Secondary Education Act of 1965, as amended, shall be approved by the State Board of Education and selection shall be made on a priority basis in accordance with policies established by the State Board of Education. The application shall be made on forms provided by the superintendent, in accordance with the rules and regulations adopted by the board. The dates for making application shall be established by the superintendent.

The governing boards of two or more school districts may jointly apply for a project in bilingual-bicultural education.

52111. Each school district receiving state or federal funds for bilingual education shall establish a districtwide advisory committee in which parents (not employed by the district) of participating students shall constitute more than a simple majority, or shall designate for this purpose an existing districtwide advisory structure in which such parents constitute more than a simple majority. A parent advisory group in which parents of participating students shall constitute a simple majority shall be established, or designated from an existing parent group, at each school having a bilingual program.

The Department of Education shall develop guidelines for the process of selection of advisory group members.

52112. All teachers teaching classes funded by this chapter shall be bilingual teachers as defined in subdivision (e) of Section 52102.

In recognition of the shortage of qualified bilingual teachers, a district may, after diligent search and recruitment in California with the assistance of the Department of Education, request from the Superintendent of Public Instruction (a) waiver of certification requirements of such teachers, or (b) authorization to utilize for two years only, a monolingual teacher and a bilingual aide or aides for classes funded under this chapter.

52113. The Department of Education shall administer the provisions of this chapter. The responsibilities of the Department of Education in administering this chapter shall include, but are not limited to, the following:

(a) To review proposals from school districts made in accordance with this chapter, and to recommend acceptable projects for approval by the board;

(b) To encourage experimentation and innovation in the field of bilingual education at the school, district and state levels;

(c) To foster the maximum practicable involvement of parents of children enrolled in bilingual classes;

(d) To make recommendations to districts in the areas of in-service training for teachers and teacher aides, curriculum, testing and testing mechanisms, and the development of materials for bilingual education classes;

(e) To develop and recommend to the Commission for Teacher Preparation and Licensing standards for the certification of teaching personnel for bilingual classes;

(f) To develop an annual evaluation of bilingual programs within the state for submission to the Legislature and to the Governor.

52114. Funds allocated to school districts pursuant to this chapter may be used for the following purposes only:

(1) The employment of bilingual teacher aides;

(2) The purchase and development of special bilingual teaching materials;

(3) The costs of special in-service training and staff development with preference given to teachers and teacher aides employed as part of the bilingual program;

(4) Reasonable expenses (which may include transportation, child care, meals, and training) of parent advisory groups on bilingual education, at the school and district level;

(5) The purchase of special equipment to be used exclusively in the bilingual programs.

## Article 2. Bilingual Teacher Corps Program

52150. The Legislature finds and declares that it is in the best interests of the people of the state to have a corps of bilingual teachers and school administrators who are highly skilled in the techniques of teaching limited- and non-English-speaking children,

and who understand the particular needs of such children.

The Legislature further finds and declares that in order to provide limited- and non-English-speaking children with an equal educational opportunity it is necessary to have adequately prepared teachers and school administrators who understand the needs of such children.

52151. The Superintendent of Public Instruction shall establish a Bilingual Teacher Corps Program for the development of a corps of bilingual teachers qualified to meet the needs of the limited- and non-English-speaking children in the state. The program shall provide a stipend of one thousand five hundred dollars (\$1,500) per year, plus necessary expenses, to individuals serving as teaching aides providing direct instructional services in a public school classroom while such individuals are pursuing an educational program approved by the Department of Education directed toward a teaching credential in a cooperating institution of higher education. Such stipends shall supplement not supplant other state and federal student financial aid programs.

The Superintendent of Public Instruction may enter into contracts with local educational agencies, the California State University and Colleges, and the University of California for the training of these teacher candidates.

The State Board of Education shall adopt rules and regulations for the administration of the Bilingual Teacher Corps Program.

52152. The Superintendent of Public Instruction shall report to the Legislature annually for the duration of the program. Such report shall include the methods of recruitment of the corps members, the number of corps members, an evaluation of the experience provided to corps members and the number of limited- and non-English-speaking children served by the corps members.

## CHAPTER 8. MENTALLY GIFTED MINOR PROGRAM

52200. (a) "Mentally gifted minor," as used in this chapter, means a minor enrolled in a public primary or secondary school of this state who demonstrates such general intellectual capacity as to place him within the top 2 percent of all students having achieved his school grade throughout the state or who is otherwise identified as having such general intellectual capacity but for reasons associated with cultural disadvantages has underachieved scholastically.

(b) "Program" means a special educational program for mentally gifted children, including the identification of such children, which meets the standards established pursuant to this chapter and which is approved by the Superintendent of Public Instruction.

(c) "Participating pupil" means a pupil identified as a mentally gifted minor who for a school semester or a school year takes part in a program.

52201. For the purposes of this chapter, the general intellectual ability of a minor shall be evidenced by one or more of the following

factors:

- (a) Achievement in schoolwork.
- (b) Scores on tests measuring intellectual ability and aptitude.
- (c) The judgments of teachers and school administrators and supervisors who are familiar with the demonstrated ability of the minor.

The general intellectual ability of a minor determined to be culturally disadvantaged shall be evidenced by criteria developed for such purpose by the State Board of Education. In no event shall the general intellectual ability of a minor determined to be culturally disadvantaged be evidenced solely by the criterion of subdivision (b).

52202. The governing board of any school district may provide programs for mentally gifted minors living in the district who are enrolled in kindergarten or grades 1 through 12 in the schools of the district and who may be expected to benefit from a program suited to their abilities. The governing board, subject to such terms and conditions as may be agreed upon, may contract with another school district for furnishing programs for such minors or may so contract for the education of such minors including the furnishing of such programs.

The county superintendent may, with the approval of the county board of education and the governing board of the school district, provide programs under the provisions of this article, and transportation therefor, for mentally gifted minors who reside in any school district. For such purposes the terms "school district" and "governing board of a school district," as used in this chapter, shall be deemed to include the county superintendent of schools.

"Programs," as used in this chapter, shall consist of a special day class, or special services or activities which are provided each participating pupil for an amount of time each week which shall average a minimum of one class period per day. A program may qualify for one semester of pupil participation if it consists of special services or activities which are provided each participating pupil for 200 minutes per week for 17 weeks through two semesters (to be reported at the end of the second semester) or for 60 hours per semester during eight or more weeks of a given semester or for 120 minutes per day for 20 days during a summer session. The State Board of Education shall define a special day class and the special services or activities which may be provided.

Beginning July 1, 1970, any proposed program for mentally gifted minors shall receive prior approval of the Superintendent of Public Instruction before any apportionment is made under this chapter.

52203. The governing board of any school district which provides a program for mentally gifted minors in accordance with Section 52202, may:

- (a) Conduct programs, seminars and classes for mentally gifted minors, as defined in Section 52200, within or without the boundaries of the school district and for that purpose employ instructors,

supervisors, and other personnel and provide necessary equipment and supplies.

(b) Transport or arrange transportation of pupils, instructors, supervisors or other personnel to or from such places where such programs and classes are being conducted, whether within or without the district, but such transportation shall be within the state.

(c) For such purposes use such district facilities as are authorized under Article 5 (commencing with Section 8760) of Chapter 4 of Part 6 of Division 1 of Title 1 for outdoor science and conservation education.

Attendance of pupils at such programs, seminars, and classes shall be included in computing attendance and average daily attendance of the district for the purposes of apportionments from the State School Fund.

52204. The governing board of a school district, in providing programs under this chapter, may enter into agreements with a county superintendent of schools for those appropriate services to districts authorized in Section 1271, Sections 1920 to 1923, inclusive, Article 1 (commencing with Section 1700) to Article 8 (commencing with Section 1770), inclusive, Article 11 (commencing with Section 1830), Article 12 (commencing with Section 1850), Article 14 (commencing with Section 1880), Article 16 (commencing with Section 1930), Article 17 (commencing with Section 1940) of Chapter 6 of Part 2 of Division 1 of Title 1 and for conducting programs for gifted minors enrolled in the schools of the district.

52205. The Superintendent of Public Instruction, if he approves, shall apportion to each applicant school district or county superintendent of schools an amount equal to the following:

Fiscal year	Amount per pupil participating in program for one school year
1972-1973 .....	\$70
1973-1974 .....	80
1974-1975 .....	90
1975-1976 and fiscal years thereafter .....	100

The amount per pupil participating for one semester is one-half of the amount prescribed above for one year's participation.

The Superintendent of Public Instruction, if he approves, shall also apportion to each applicant school district or county superintendent of schools an amount equal to fifty dollars (\$50) for each pupil identified as a mentally gifted minor.

Apportionments made during a fiscal year pursuant to this section shall not be made on account of more than 3 percent of the units of average daily attendance of pupils during the preceding fiscal year credited to all kindergartens and grades 1 through 12 in all of the schools and classes maintained by school districts and county superintendents of schools.

Each applicant school district or county superintendent of schools shall report to the Superintendent of Public Instruction as a part of the annual financial report the total income, including the amount apportioned for special programs and services for mentally gifted pupils during the year, the total number of such pupils participating in special programs or services, and the amount per special program or service expended for them. If the Superintendent of Public Instruction finds that the amount of state funds allocated are in excess of the expenditures, such excess shall be withheld pursuant to the provisions of Section 41341.

52206. The State Board of Education shall adopt rules and regulations which:

(a) Prescribe the procedures, consistent with this chapter, by which a district shall identify pupils as mentally gifted minors for the purposes of this chapter.

(b) Establish minimum standards for programs.

(c) Investigate and establish separate criteria by which a district may identify culturally disadvantaged pupils as mentally gifted minors for the purposes of this chapter.

52207. The Superintendent of Public Instruction shall adopt rules and regulations which for the purposes of this chapter:

(a) Define "apportionment."

(b) Prescribe the form and manner of application for special apportionment.

52208. The Director of Education shall employ such persons as are necessary for the coordination and supervision of services for mentally gifted minors.

## CHAPTER 9. VOCATIONAL EDUCATION

### Article 1. Regional Occupational Centers

52300. In enacting this article, it is the intent of the Legislature to provide qualified students with the opportunity to attend a technical school or enroll in a vocational or technical training program, regardless of the geographical location of their residence in a county or region. The Legislature hereby declares that a regional occupational center will serve the state and national interests in providing vocational and technical education to prepare students for an increasingly technological society in which generalized training and skills are insufficient to prepare high school students and graduates, and out-of-school youth and adults for the many employment opportunities which require special or technical training and skills. The Legislature also declares that regional occupational centers will enable a broader curriculum in technical subjects to be offered, and will avoid unnecessary duplication of courses and expensive training equipment, and will provide a flexibility in operation which will facilitate rapid program adjustments and meeting changing training needs as they arise.

It is recognized by the Legislature that vocational programs may achieve great flexibility of planning, scope and operation by the conduct of such programs in a variety of physical facilities at various training locations.

It is the further intent of the Legislature that regional occupational centers and programs provide vocational and occupational instruction related to the attainment of skills so that trainees are prepared for gainful employment in the area for which training was provided, or are upgraded so they have the higher level skills required because of new and changing technologies or so that they are prepared for enrollment in more advanced training programs.

52301. The county superintendent of schools of each county, with the consent of the State Board of Education, may establish and maintain, or with one or more counties may establish and maintain, at least one regional occupational center, or regional occupational program, in the county to provide education and training in vocational courses. The governing boards of any school districts maintaining high schools in the county may, with the consent of the State Board of Education and of the county superintendent of schools, cooperate in the establishment and maintenance of a regional occupational center, or regional occupational program, except that if such a school district also maintains five hundred (500) or more schools its governing board may establish and maintain one or more regional occupational centers, or regional occupational programs, without such restrictions. A regional occupation center or regional occupation program may be established by two or more school districts maintaining high schools through the use of the staff and facilities of a community college or community colleges serving the same geographic area as the school districts maintaining the high schools, with the consent of the State Board of Education and the county superintendent of schools. The establishment and maintenance of a regional occupational center, or regional occupational program, by two or more school districts may be undertaken pursuant to Article 1 (commencing with Section 6500) of Chapter 5 of Division 7 of Title 1 of the Government Code. If a school district or school districts establish and maintain such a regional occupational center, or regional occupational program, pursuant to this chapter, the county superintendent of schools may, with the consent of the State Board of Education, establish and maintain a separate regional occupational center or centers, or regional occupational program or programs.

Notwithstanding other provisions of this section, a single school district located in a class 1 county, as defined in Section 1206, and having an average daily attendance of 50,000 or more, or a single school district located in a class 2 county, as defined in Section 1206, and having an average daily attendance of 100,000 or more, may apply to the State Board of Education through the county superintendent of schools for permission to establish a regional occupational center or program. The State Board of Education shall,

within 90 days of receipt of an application, prescribe a procedure whereby the district may establish a center or program in accordance with its application and in compliance with the provisions of the State Plan for Vocational Education. The county superintendent of schools may supervise establishment of the center or program.

52302. The school district or districts, or county superintendent or superintendents, sponsoring the regional occupational center or program shall conduct a job market survey in those areas in which they propose to establish a regional occupational center or program. The survey shall be conducted in cooperation with the local office of the Department of Human Resources Development, prospective employers, the district's advisory committee on vocational education, and the appropriate advisory committee for each of the proposed training programs. The survey shall include an analysis of existing vocational and occupational training programs maintained by high schools, community colleges, and private postsecondary schools in the area to insure that the anticipated employment demand for trainees in the proposed regional centers and programs justifies the establishment of the proposed courses of instruction.

52303. "Regional occupational program," as used in this chapter, means a vocational or technical training program which meets the criteria and standards of instructional programs in regional occupational centers and which is conducted in a variety of physical facilities which are not necessarily situated in one single plant or site.

52304. Subsequent to completing the survey required by Section 52302 and prior to establishing a regional occupational center or program authorized by Section 52301, the appropriate governing board, boards, or county superintendent of schools, as the case may be, shall determine whether or not the survey and analysis made pursuant to Section 52302 justifies the proposed skill training, and shall further determine whether the skill training will be offered through a regional occupational center or program, or through a contract with an approved private postsecondary school pursuant to the provisions of Section 8092.

52305. A regional occupational center or regional occupational program may:

(a) Be established pursuant to Section 52301 to provide day, including Saturday and Sunday, and evening full-time and part-time vocational education programs for minors and adults, the year around.

(b) Include within its vocational training programs, the establishment and operation of a sheltered workshop.

(c) Permit the establishment and operation of such business, commercial, trade, manufacturing, or construction activities as will best serve the aims and purposes of vocational education. Such activities shall also permit the sale of products or services to private or public corporations or companies, or to the general public.

52306. (a) Any business, commercial, trade, manufacturing, or

construction activity referred to in subdivision (c) of Section 52305 may be undertaken as part of a regional occupational center or program provided all the following conditions have been complied with:

(1) Any such facility or program operated pursuant hereto shall be only for the education or training of students enrolled in a regional occupational center or program.

(2) Any such facility or program shall be approved by the appropriate agency of the Department of Education according to requirements and standards of the State Plan for Vocational Education and rules and regulations adopted by the State Board of Education.

(3) Any such facility or program shall be operated on a nonprofit basis, with all revenues restricted in their use to cover instructional and operating costs.

(4) Notwithstanding any other provision of law, any such facility or program initially shall obtain the approval of the appropriate trade associations concerned with the activity proposed and the approval of the county labor council in the county in which the facility or program is located.

(b) An activity conducted by a regional occupational center or program may be conducted without the need to apply for or obtain local business licenses or permits, nor shall the activity be subject to payment of local business taxes.

(c) Attendance of students in any business, commercial, trade, manufacturing, or construction activity referred to in subdivision (c) of Section 52305, at any regional occupational center or regional occupational program, shall be credited to such facility or program for the purposes of apportionments from the State School Fund, except that the Superintendent of Public Instruction shall deduct from such apportionment any revenues earned by such facility or program in excess of operating costs.

52307. To the extent feasible, in establishing programs pursuant to subdivision (c) of Section 52305, efforts shall be made to work cooperatively with sheltered workshops which are located in the area of such programs.

52308. A regional occupational center or program may lease buildings of not more than one story or equipment for a term not to exceed 10 years without complying with any other provision of this code.

Any buildings leased hereunder shall be exempt from any of the provisions of Article 1 (commencing with Section 39100) to Article 7 (commencing with Section 39240), inclusive, of Chapter 2, Article 2 (commencing with Section 39300) of Chapter 3 of Part 23 of Division 3 of this title.

52309. The curriculum provided by a regional occupational center or regional occupational program shall be subject to the approval of the department and shall comply with all requirements and standards set forth in the State Plan for Vocational Education.

The department shall approve regional occupational centers only after giving due consideration to vocational education opportunities offered by community colleges serving the same geographical area. The State Board of Education shall adopt rules and regulations establishing guidelines and criteria for differentiating between courses appropriate for regional occupational centers or regional occupational programs and those appropriate for high schools.

52310. Credits earned from courses completed in a regional occupational center or regional occupational program may be applied toward fulfillment of requirements for a high school diploma. A governing board of a district maintaining a regional occupational center may confer a high school diploma upon any pupil who attends a regional occupational center maintained by the district full time and has satisfactorily completed the prescribed course of study of the school district of residence or the course of study prescribed by the county superintendent of schools, school district, or school districts, as the case may be, maintaining such center.

52311. Each regional occupational center shall be established at a readily accessible place selected to serve the pupils who will attend the center. The county superintendent of schools or district or districts, as the case may be, maintaining, or participating in the operation of, the center may provide necessary transportation to the pupils attending such center.

52312. For the purposes of this chapter the county superintendent of schools, the governing board of the school district, or the governing boards of school districts establishing a regional occupational center, or regional occupational program, may acquire a site for each regional occupational center or regional occupational program maintained by him or the district, or districts, as the case may be, and may plan, construct, purchase, or lease buildings therefor, and may purchase or lease furniture, equipment, fixtures, and other personal property therefor.

52313. The county superintendent of schools or governing board of a school district or districts, as the case may be, maintaining a regional occupational center, or regional occupational program, may accept and expend grants from the federal government or from other public or private sources for the purposes of this chapter.

52314. Any pupil eligible to attend a high school or adult school in a school district subject to the jurisdiction of a county superintendent of schools operating a regional occupational center or regional occupational center program, and who resides in a school district which by itself or in cooperation with other school districts, has not established a regional occupational center, or regional occupational program, is eligible to attend a regional occupational center or regional occupational program maintained by the county superintendent of schools. Any school district which in cooperation with other school districts maintains a regional occupational center, or regional occupational program, or any such cooperating school districts may admit to such center, or program, any pupil, otherwise

eligible, who resides in the district or in any of the cooperating districts. Any school district which by itself maintains a regional occupational center, or regional occupational program, may admit to such center, or program, any pupil, otherwise eligible, who resides in the district. No pupil, including adults and minors under subdivision (a) of Section 52305, shall be admitted to a regional occupational center, or regional occupational program, unless the county superintendent of schools or governing board of the district or districts maintaining the center, or program, as the case may be, determines that the pupil will benefit therefrom and approves of his admission to the regional occupational center or regional occupational program.

A pupil may be admitted on a full-time or part-time basis, as determined by the county superintendent of schools or governing board of the school district or districts maintaining the center, or program, as the case may be. A school district which by itself or in cooperation with other school districts maintains a regional occupational center, or regional occupational program, may admit pupils residing in other school districts under interdistrict attendance agreements made pursuant to Sections 46600 and 46605.

A county superintendent of schools maintaining a regional occupational program or regional occupational center may admit pupils residing in the county but outside of school districts participating in the county regional occupational program or regional occupational center pursuant to the provisions of Section 46617.5. The county superintendent of schools may authorize pupils who reside in school districts participating in the regional occupational center or regional occupational program conducted by the county superintendent of schools to enroll in other regional occupational programs or regional occupational centers when it is determined that it is in the best interest of the pupils to do so. Such attendance shall be pursuant to an attendance agreement specifying that the county superintendent of schools authorizes the regional occupational center or regional occupational program conducting the classes to report and be credited with the attendance of such pupils. Excess costs of education, if any, shall be paid by the contracting county superintendent of schools.

52315. Any visually handicapped, orthopedically handicapped, or deaf person who has been graduated from high school may attend a regional occupational center or regional occupational program on the same basis as a high school pupil. Additional special instruction and support services shall be provided to such persons.

If the Superintendent of Public Instruction determines that there would be a duplication of effort to such handicapped persons if a regional occupational center or regional occupational program provided services to such persons, in that other programs exist that are available to such persons, the superintendent may disapprove of the curriculum to provide programs to such persons pursuant to Section 52309 and of any state funding made available pursuant to

Section 41897 for such purposes.

52316. Any pupil enrolled in grade 10, 11, or 12, and who is also attending a regional occupational center or regional occupational program may be excused from attending courses in physical education by the governing board of the school district maintaining grade 10, 11, or 12, and in which the pupil is enrolled, if attendance upon such classes results in hardship because of travel time involved.

If a pupil is excused from physical education classes pursuant to this section, the minimum schoolday for him in his regular high school is 180 minutes.

52317. The county superintendent of schools, with the approval of the county board of education, and the governing board of each school district, or joint powers governing board, which maintains a regional occupational center or regional occupational program pursuant to this chapter, shall certify to the county auditor and to the county board of supervisors, on or before August 10 of each year, the amount of money required to be raised by a tax for the education of pupils attending the regional occupational center, or regional occupational program, maintained by the county superintendent of schools or by a school district, as the case may be, and for the purposes set forth in Section 52312.

The amount shall be determined by subtracting from the total cost of education of such pupils in the regional occupational center, or regional occupational program, including transportation, to the county superintendent of schools or school district, as the case may be, (1) the total of any balances remaining to be expended for this purpose and (2) the total amount to be apportioned by the Superintendent of Public Instruction to the county school service fund or to the school district, as the case may be, for the education of such pupils and by adding to the result the amount required for the purposes set forth in Section 52312. At the time of levying county taxes, the board of supervisors shall levy a district tax for each regional occupational center, or regional occupational program, maintained in the county by the governing board of a school district pursuant to this chapter upon the taxable property of the school district sufficient to produce the amount required by this section; and the board of supervisors may levy a county tax for each regional occupational center, or regional occupational program, maintained in the county by the county superintendent of schools pursuant to this chapter sufficient to produce the amount required by this section, upon the following taxable property within school districts under the jurisdiction of the county superintendent maintaining the regional occupational center or regional occupational center program:

(a) In a county in which the governing board of a school district is not maintaining a regional occupational center or regional occupational program pursuant to this chapter, upon all the taxable property within school districts under the jurisdiction of the county superintendent maintaining the regional occupational center or

regional occupational center program.

(b) In a county in which the governing boards of one or more school districts are maintaining a regional occupational center or regional occupational program pursuant to this chapter, upon the taxable property within that portion of the territory within school districts under the jurisdiction of the county superintendent maintaining the regional occupational center or regional occupational center program which is not included in territory of such school districts.

The amount received from this tax shall be deposited in the county school service fund, or, if the regional occupational center, or regional occupational program, for which such tax was levied is maintained by a school district, in the county treasury to the credit of the general fund of that school district.

The maximum rate of the countywide or district tax levied for the purposes of this section, except for the purposes set forth in Section 52312, shall not exceed ten cents (\$0.10) on each one hundred dollars (\$100) of assessed valuation within the county or district, as the case may be, and the maximum rate of the countywide or district tax levied under this section for the purposes set forth in Section 52312 shall not exceed five cents (\$0.05) on each one hundred dollars (\$100) of assessed valuation in the county or district, as the case may be.

As used in this section, school district includes each of those school districts which are cooperating in the maintenance of a regional occupational center, or regional occupational program, with the approval of the county superintendent of schools pursuant to Section 52301.

52318. If a single school district located in a class 2 county, as defined in Section 1205, and having an average daily attendance of 100,000 or more, establishes and maintains a regional occupational center or regional occupational program pursuant to Section 52301, the amount computed pursuant to subdivision (a) of Section 42233 shall be deemed to have been increased by the amount raised within the district by a countywide tax for the support of such a center or program during the 1972-73 fiscal year by the county superintendent of schools. The other computations required by Article 2 (commencing with Section 42230) of Chapter 7 of Part 24 of Division 3 of this title shall be adjusted to appropriately reflect such increase. The revenue limit applicable to a county superintendent of schools shall be reduced by an amount equal to the increase in the revenue limit of the school district made pursuant to this section.

52319. Whenever the establishment and maintenance of a regional occupational center by two or more school districts has been undertaken pursuant to an agreement entered into in accordance with the provisions of Article 1 (commencing with Section 6500) of Chapter 5 of Division 7 of Title 1 of the Government Code, and the terms of the agreement so authorize, provision may be made for the issuance of bonds for construction and other capital expenditure for

the regional occupational center. An election shall be called, held, and conducted in the manner provided in Chapter 3 (commencing with Section 5300) of Part 4 of Division 1 of Title 1 on the question of the approval of the issuance of such bonds. If, at the election, the requisite number of voters cast their ballots in favor of the issuance of bonds, the bonds shall be issued and sold in the manner provided by law for the issuance and sale of bonds of a high school district. The issuance and sale of such bonds shall be deemed to be an act of the governing board of a high school district.

The total amount of bonds issued shall not exceed one-half of 1 percent of the taxable property of the area served by the regional occupational center as shown by the last equalized assessment roll of the county or counties which the center serves, and as modified pursuant to Section 41201.

Bonds issued and sold pursuant to this section shall be retired from proceeds of the tax under the provisions of Section 52317.

52320. For the purposes of receiving advances of funds from the county treasury only, a regional occupational center shall be deemed to be a school district.

52321. A regional occupational center or program established and maintained pursuant to a joint powers agreement pursuant to the provisions of Article 1 (commencing with Section 6500) of Chapter 5 of Division 7 of Title 1 of the Government Code shall receive in annual operating funds from each of the participating school districts an amount per unit of average daily attendance equal to the revenue limit per unit of average daily attendance of such district computed pursuant to Article 2 (commencing with Section 42230) of Chapter 7 of Part 24 of Division 3 of this title or the foundation program of such district, whichever is the lesser.

52322. The State Board of Education shall make provision in allocating any funds received from the federal government pursuant to Public Law 576 of the 90th Congress to include regional occupational centers and programs that comply with the requirements of this chapter.

52323. No instruction shall be given in a regional occupational center except by a qualified teacher holding a certificate issued pursuant to Chapter 2 (commencing with Section 44200) of Part 25 of Division 3 of this title.

52324. Units of average daily attendance in the regional occupational centers or regional occupational programs of a county for a fiscal year are the quotient arising from dividing the total number of days of pupil's attendance in such centers, or programs, during the fiscal year by 175 and the average daily attendance so computed shall be credited to the county school service fund if the center, or program, is maintained by a county superintendent of schools or if the center, or program, is maintained by a school district, to the district maintaining the center or program.

Attendance in regional occupational centers, or regional occupational programs, operated under subdivision (a) of Section

52305 shall be considered pupil's attendance under this section, but attendance in regional occupational centers, or regional occupational programs, under subdivision (b) of Section 52305 shall not be so considered.

As used in this section, "school district" includes each of those districts which are cooperating in the maintenance of the center or program, with the approval of the county superintendent of schools, pursuant to Section 52301; and units of average daily attendance of pupils residing in such school district shall be credited to the school district or county office of education as may be appropriate.

52325. Any district or county superintendent who operates a 60-minute regional occupational program shall be credited with one-third of a unit of average daily attendance for each student in a 60-minute regional occupational program and two-thirds of a unit of average daily attendance in a 120-minute program.

52326. The minimum day in a regional occupational center is 180 minutes and the minimum day in a regional occupational program is 60 minutes.

52327. The Department of Education shall annually, on or before the 30th day of each year, submit to the Legislature an evaluation of the regional occupation centers and programs for the preceding fiscal year. The evaluation shall include an analysis of the costs of individual centers and programs, their enrollment defined in terms of high school students, post-high school students, and adults, number of graduates, number of trainees trained for specific entry level occupations as opposed to higher level entry occupations, dropout rates, and placement data.

52328. (a) Any school district, located in whole or in part in a county contiguous with the Republic of Mexico, or any county superintendent of schools of a county contiguous with the Republic of Mexico, which maintains a regional occupational center may enter into a student exchange agreement with a trade and technical training school located in the Republic of Mexico. Such student exchange agreement shall permit Mexican students to take all or part of their occupational training in the regional occupational center and shall permit United States students to take all or part of their occupational training in the Mexican trade and technical school.

(b) In computing the average daily attendance of the regional occupational center, the Superintendent of Public Instruction shall include any Mexican students in attendance if all of the following conditions are met:

(1) The student exchange agreement provides as nearly as practicable for the exchange of students on a one-for-one basis between the regional occupational center and the trade and technical school.

(2) The educational services provided the United States students in Mexico are at least equivalent in quality to the services provided in the regional occupational center.

(3) The student exchange agreement has been approved by the

Superintendent of Public Instruction prior to its operative date.

(c) No average daily attendance shall be credited to the regional occupational center for the United States students while in attendance at the Mexican trade and technical school.

52329. The governing board of a school district located in a county, or the county superintendent of schools maintaining a regional occupational program in a county, any of the boundaries of which are contiguous to the State of Arizona, may enter into an agreement with a public or private educational agency located in that state to provide to students living in the district and enrolled in a regional occupational program, vocational or technical training which, due to geographical isolation, is not otherwise available to such students.

The program of training at such public or private educational agency shall be approved by the Superintendent of Public Instruction of California and shall conform to the California State Plan for Vocational Education.

The attendance of pupils receiving vocational or technical training at a public or private educational agency as authorized by this section shall be included in the computation of average daily attendance as prescribed by Sections 52324 and 52325, and shall be credited to the county school service fund of the county of residence. In no event, however, shall the county school service fund be credited with more than one unit of average daily attendance per calendar year on account of a pupil participating in a program authorized by this section.

52330. The governing board of any school district or the county superintendent of schools that is operating or jointly operating a regional occupational center or program may establish and maintain regional occupational center or regional occupational program classes in industrial or school facilities located outside of the school district or the jurisdiction of the county superintendent of schools, respectively, for the purpose of providing training for students enrolled in such a center or program.

The governing board of a school district or the county superintendent of schools shall notify the Superintendent of Public Instruction, prior to the establishment of classes pursuant to this section, of the proposed establishment.

## Article 2. California Career Guidance Center

52340. The Legislature hereby finds and declares that there exists in this state a serious need to increase the effectiveness of career development programs. For this purpose, the Legislature intends that the one pilot California career guidance center, established pursuant to this chapter, shall serve as a regional guidance resource center, amply equipped with modern occupational measurement and career guidance materials and a professional resource staff. The Department of Education, in cooperation and consultation with the

advisory committee established pursuant to Section 52344, shall provide state-level guidance and supervision to the career guidance pilot project.

52341. Application for establishment of a career guidance center may be made to the State Board of Education by any county superintendent of schools or the governing board of any school district, either separately or jointly, upon forms provided by the Department of Education. The Board of Education shall select one applicant to be designated as a pilot California career guidance center.

52342. Upon recommendation of the Superintendent of Public Instruction, the State Board of Education shall adopt guidelines which shall include, but not be limited to, criteria for selection of an applicant pursuant to Section 52341, selection of project sites, fiscal accountability, and procedures relative to interagency contracting and overall project administration and evaluation.

52343. In the implementation of this chapter, the Department of Education shall, on a regular basis, advise and consult with representatives of the Department of Human Resources Development, the office of the Chancellor of the California Community Colleges, the California Postsecondary Education Commission, the University of California, the Chancellor of the California State University and Colleges, the Commission for Teacher Preparation and Licensing, the Department of Industrial Relations, the Department of Consumer Affairs, the California Advisory Council on Vocational Education and Technical Training, and the State Personnel Board.

52344. The career guidance center shall appoint a local advisory committee composed of 11 members, at least seven of whom shall be representatives of business, industry and labor, and the general public, and one a member of the local area vocational committee established pursuant to Article 2 (commencing with Section 8020) of Chapter 1 of Part 6 of Division 1 of Title 1, provided that such a vocational committee is operational in the area of the career guidance project site selected.

52345. The local advisory committee shall:

(a) Make annual formal findings and recommendations regarding the operation of the career guidance center and report thereon to the Department of Education.

(b) Cooperate and consult with the Department of Education for the purposes provided in Section 52340.

Members of the local advisory committee shall serve without compensation, but they shall receive actual and necessary traveling expenses in performing duties under this section.

52346. The career guidance center has such powers as are necessary to carry out the provisions of this chapter, in accordance with guidelines adopted by the State Board of Education including, but not limited to, contractual powers to employ staff and provide products and services pursuant to this chapter.

52347. The career guidance center shall develop and maintain a program consisting of, but not limited to, the following components:

(a) An inventory of career guidance measurement instruments for use in determining career aptitudes and interest.

(b) An inventory of resource material related to the preparation of occupational competencies.

(c) The development of techniques and practices for, and the conduction of, in-service training of staff in educational agencies implementing career development activities.

(d) A system for collecting, coordinating, and distributing career information at the local, state, and national levels.

(e) A basic set of functions for additional centers.

52348. On or before March 30, 1975, and annually thereafter, the career guidance center, shall submit to the State Board of Education an inventory of programs, current and planned, as follows: (a) occupational and job analyses, (b) occupational and job performance testing and evaluation, both written and nonwritten, (c) costs of job training for classroom, on-the-job, and home-study programs, (d) work experience evaluation, especially in relation to occupational competencies, (e) quality control techniques and practices for conducting job-training programs, (f) personnel selection techniques, practices, and respective costs thereof, (g) administration and evaluation of occupational training advisory committees for entry, but not necessarily including, professional levels, and (h) proportion of employees and students enrolled in job-training programs at entry, but not necessarily including, professional levels.

### Article 3. Prevocational Education

52350. It is the intent and purpose of the Legislature by the enactment of this chapter to curtail the growing rate of pupil dropouts or premature enrollment terminations in the public elementary and secondary schools, by authorizing special emphasis to be given prevocational training courses of study for the benefit of vocationally oriented pupils who are potential school dropouts, have demonstrated aptitudes for prevocational training, and who voluntarily elect to undertake a concentration of educational effort in prevocational training and whose parents or guardian consents to such training.

52351. The county superintendent or the governing board of any school district, as the case may be, maintaining any of grades 7, 8, and 9, may, upon application to, and approval by, the Superintendent of Public Instruction, establish a program having the following essential elements:

(a) Identification, by appraisal and recommendation of teachers and other school authorities, aptitude tests, and such other tests and means as may be authorized by the State Board of Education, of pupils whose academic attainment level and behavior as school

pupils indicate that in all probability they will terminate public school enrollment prior to completion of grade 12, but who demonstrate aptitude for one or more types of prevocational training afforded in the schools of the district.

(b) Prevocational courses of study arranged and conducted in such a manner as will permit pupils to concentrate educational effort in those courses of study pursuant to this chapter.

(c) Counseling and guidance procedures which will effectuate the purposes of this chapter.

The county superintendent shall have primary authority to establish the program within his county. Should he fail, for any reason, to establish or initiate action for the establishment of a program after receiving a written request therefor from the governing board of a school district, the governing board shall have full authority to establish a program.

52352. Notwithstanding any provisions of this division or any other provisions of law prescribing, on a mandatory basis, courses of study to be taught in grades 7, 8, and 9 to the contrary, the State Board of Education is authorized and directed to prescribe, by rule and regulation, the particular courses of study otherwise required by law to be afforded pupils in such grades which shall be waived or dispensed with in the case of pupils enrolled in programs under this chapter. The otherwise mandatory courses of study to be so waived or dispensed with shall be those of lower essentiality in connection with instilling in pupils the traits and attributes necessary for good citizenship, as determined by the board.

52353. Any pupil coming within the provisions of subdivision (a) of Section 52351 shall, as a matter of free personal choice, and with the consent of the pupil's parent or guardian, without duress or coercion, be authorized to elect to enroll in prevocational courses for which such pupil possesses demonstrated aptitudes, as follows:

(a) In grade 7, one such course of study in each semester of the school year.

(b) In grade 8, two such courses of study in each semester of the school year, provided that the pupil successfully completed any course of study in which enrolled under subdivision (a) during the preceding school year.

(c) In grade 9, three such courses of study in each semester of the school year, provided that the pupil successfully completed any course of study in which enrolled under subdivision (b) during the preceding school year.

52354. It shall be unlawful, for the governing board of a school district, a county board of education, a county superintendent of schools, or any officer or employee whatever of the public school system, to willfully:

(a) Cause, or aid or abet in the forced or coerced enrollment of a public school pupil in any prevocational course of study as a disciplinary measure, whether pursuant to this chapter or otherwise.

(b) Cause, or aid or abet in effecting any distinction in the form,

appearance, or content of any diploma issued upon graduation from elementary school or high school based on a pupil's having enrolled in a program under this chapter as distinguished from the regular educational programs of the district involved.

52355. The State Board of Education shall adopt rules and regulations prescribing the particular procedures, tests, and other methods to be utilized in identifying pupils who come within the provisions of subdivision (a) of Section 52351, and prescribing all other necessary standards and policies to govern the administration of programs established under this chapter.

The Superintendent of Public Instruction shall administer the provisions of this chapter, and shall adopt all necessary rules and regulations for those purposes. He shall have the power of initial and continuing review and approval of any programs established pursuant to this chapter and the power to deny or revoke approval of such programs. He may require the submission of such reports and other data as he may deem necessary for purposes of carrying out his duties under this chapter.

#### Article 4. High School Vocational Courses

52370. The governing board of any high school district may provide for the maintenance on Saturday of special day and evening classes in vocational training authorized and provided for by any program of national defense of the federal government, or any agency thereof, acting through the Department of Education.

No apportionments from state funds based upon average daily attendance in such special day or evening classes, whether maintained on Saturday or other days, shall be made where the total cost of the classes is borne by the federal government, or any agency thereof.

52371. Pilot programs may be established by school districts to provide for the maintenance on Saturday of classes in vocational training, upon the approval of the Superintendent of Public Instruction. Such vocational training may be a part of, but is not limited to, a program of national defense of the federal government, or any agency thereof.

No apportionments to such districts from state funds based upon average daily attendance in such classes, whether maintained on Saturday or other days, shall be made where the total cost of the classes is borne by the federal government, or any agency thereof.

52372. The governing board of any high school district, subject to the provisions of this code relating to courses of study for high schools, may establish and maintain, in connection with any high school under its jurisdiction, cooperative vocational courses in accordance with standards prescribed by the State Board of Education.

52373. The governing board of any high school district maintaining an agriculture course may transport pupils, instructors,

or supervisors of classes to and from any classes or places where the work of the classes is being done, whether within or without the district, in the same manner and subject to the same limitations as in transporting pupils to and from school.

52374. The duties, powers, purposes, responsibilities, and jurisdiction of the governing board of any high school district with respect to any high school established in the district prior to August 14, 1929, and not supported in whole or in part by any funds derived from the levy of any district tax may, with the approval of the State Board of Education, acting upon the recommendation of the Superintendent of Public Instruction, be transferred to the Chief of the Division of Vocational Education in the Department of Education who may appoint any qualified person to exercise immediate supervision over the school.

#### Article 5. Summer Vocational Education

52380. This article may be cited as the Summer Vocational and Technical Education Act of 1969.

52381. The Legislature finds that it is urgently necessary to reduce the continuing high level of unemployment among the youth and young adults by broadening and strengthening the existing vocational education programs to provide them with the necessary work skills in order that they will be equipped to participate in a meaningful manner in our ever increasingly technical society.

It is the intent of the Legislature by the provisions of this article to afford a means whereby school districts may broaden and strengthen the existing vocational education programs and to provide the districts with necessary financial support to enable them to implement vocational training and work programs during the summer months for the unemployed youth and young adults so that they may be trained in marketable work skills and earn such funds as may be necessary to enable them to continue their education.

52382. A program of summer vocational and technical education may be established pursuant to this article by the governing board of any school district maintaining one or more high schools. Pupils who have completed grades 9 to 12 may be permitted to participate in a program.

Summer vocational and technical education programs shall consist of training and instruction in any skills and crafts in which ample opportunities for gainful employment are to be found. The program may include work experience involving the gainful employment of pupils. The provisions of Article 2 (commencing with Section 1940) of Chapter 2 of Part 7 of the Labor Code, limiting the employment of aliens by public agencies shall not be applicable to the employment of pupils under this article.

52383. Wages earned by pupils participating in a program of summer vocational and technical education, shall be paid weekly, or, if not reasonably possible, biweekly.

52384. Any program of summer vocational and technical education established pursuant to this article shall be subject to the prior approval of the Department of Education, and no average daily attendance of pupils in such a program shall be credited to a district unless the program has been approved and is conducted pursuant to the rules, regulations, and standards prescribed by the department. School districts desiring to participate under the provisions of this article shall submit to the department applications which shall include plans for the establishment of a summer vocational and technical education program, and describing in detail its proposed content and operation.

52385. Each school district participating in the program shall submit a report annually on the conduct of its summer vocational and technical education programs, including an evaluation thereof, to the department on forms provided by the department.

52386. Upon approval by the department, the governing board of any school district may contract with and receive and expend funds from any other public or private agency, foundation, or corporation for the purposes of this article. The governing board of any school district may cooperate with public and private institutions of higher education in conducting programs pursuant to this article.

52387. The governing board of a school district whose program has been approved by the department, may, no more than 10 weeks prior to the beginning of the program for the forthcoming summer, employ sufficient staff to perform the administrative tasks necessary to implement the program.

52388. The department shall adopt such rules and regulations that are necessary to implement the provisions of this article. The rules and regulations shall include standards for the vocational and technical education programs provided for under this article.

52389. The department in cooperation with the school districts shall develop curriculums for purposes of this article.

52390. The department shall annually, on or before the 30th legislative day of the regular session of the Legislature, report to the Legislature on the operation and results of the programs established pursuant to this article, including in the report its recommendations in connection therewith.

52391. From funds appropriated by the Legislature for the purposes of this article, a school district, upon the approval of the department, shall be reimbursed for the current expense actually incurred by the district per pupil in average daily attendance participating in the program during the preceding fiscal year that is in excess of the foundation program amount for the district during such year for such pupil, plus any other state funds or federal funds received, or to be received, for operation of the program.

**Article 6. Summer Environmental Internship Program**

52410. Upon the approval of appropriate school district personnel, or the approval of the county superintendent of schools as to students under his jurisdiction, and with the written approval of the parent or guardian of the student, a student in grade 11 or 12, who will be at least 17 years of age at the commencement of his junior year, may be employed as an environmental intern by a federal, state, or local agency in California concerned with the regulation of natural resources or with the protection of the environment during the summer vacation period. These agencies shall include, but not be limited to, the Resources Agency, the Agriculture and Services Agency, the Business and Transportation Agency, the Department of Fish and Game, the Department of Conservation, the Department of Parks and Recreation, the Department of Water Resources, the State Water Resources Control Board, the State Air Resources Board, the State Lands Division, California regional water quality control boards, air pollution control districts, mosquito abatement districts, soil conservation districts, local planning agencies, and county and city park and recreation departments.

52411. Duties of environmental interns employed pursuant to this article shall be established by the employing agency in conjunction with the local school district or the county superintendent of schools and shall be oriented toward providing maximum exposure to problems of environmental control and resource use.

52412. Approval of environmental internships shall be required by the district superintendent or the county superintendent of schools.

52413. Successful completion of a summer program and submission by the environmental intern of a suitable project report to the school district may result in academic credit toward graduation from high school. Such students may be deemed to be temporarily employees of the agency involved for purposes of social security, unemployment insurance, and workers' compensation or may be deemed for these purposes to be employees of the school district or the county superintendent of schools.

52414. The school district or county superintendent of schools and the employing agency shall jointly apply to the Conservation Education Service for funds. The Superintendent of Public Instruction, upon the recommendation of the Curriculum Development and Supplemental Materials Commission, and with the approval of the State Board of Education, is authorized to make grants for the purposes of this article, and for remuneration of interns and for travel and other job-related expenses, in an amount per person not to exceed three hundred twenty dollars (\$320) per month.

## CHAPTER 10. ADULT SCHOOLS

## Article 1. General Provisions

52500. For the purposes of this chapter, "adult" means a person 21 years of age and older, and "minor" means a person less than 21 years of age, notwithstanding the provisions of Section 25 of the Civil Code or any other provisions of law.

52501. The governing board of any school district maintaining secondary schools shall have power with the approval of the Department of Education to establish and maintain classes for adults, except program and classes in outdoor science education and conservation education as the term is employed in Section 8760, for the purpose of providing instruction in civic, vocational, literacy, health, homemaking, technical and general education.

52502. The governing board of a high school district or unified school district may establish classes for adults. If such classes result in average daily attendance in any school year of 100 or more, such districts shall establish an adult school for the administration of the program.

52503. The governing board of a high school district or unified school district may establish and maintain one or more adult schools by resolution of the governing board.

52504. Classes for adults shall conform to any course of study and graduation requirements otherwise imposed by law or under the authority of law.

52505. Such classes may be convened at such hours and for such length of time during the day or evening and at such period and for such length of time during the school year as may be determined by the governing authority.

52506. The Department of Education shall establish standards including standards of attendance, curriculum, administration, and guidance and counseling service for such classes as a basis for the several apportionments of state funds provided herein for the support of such classes.

52507. Governing boards shall have the authority to provide for granting appropriate credits, certificates, diplomas or other recognition of skill or accomplishment in such classes which such districts are otherwise authorized to grant.

52508. The governing board of a high school district or a unified school district shall have the authority to award diplomas or certificates to adults and eligible minors enrolled in adult schools upon satisfactory completion of a prescribed course of study in an elementary school program.

52509. The governing board of any school district maintaining an adult school shall prescribe the requirements for the granting of diplomas.

52510. The governing board of each district maintaining an adult school and offering an elementary program shall prescribe

requirements for eighth grade graduation from the adult school.

52511. (a) Whenever the governing board of a school district maintaining an adult school or classes for adults is unable to maintain the school or classes in the district because of its inability to secure a teacher or teachers, or because of lack of facilities, the board may, with the approval of the county superintendent of schools and the Superintendent of Public Instruction, maintain the school or classes of the district elsewhere than within the district or contract for instruction of the students in such school or classes with the governing board of another district.

(b) Notwithstanding the provisions of subdivision (a) of this section, whenever the governing board of a school district offering automobile driver training in an adult school or classes for adults determines that such training cannot be conducted effectively wholly within the district's boundaries, it may cause the training to be conducted outside the boundaries of the district.

52512. Classes for adults may be maintained in conjunction with day or evening high schools, day or evening community colleges, day or evening adult schools, or day or evening regional occupational centers.

52513. The governing board of any high school district or unified school district may provide for the maintenance on Saturday and Sunday of classes for adults.

52514. High schools maintained in any state institution for adults or in any city, county, or city and county jail, road camp or farm shall consist only of classes for adults.

52515. No state funds shall be apportioned to any districts on account of the attendance of students enrolled in adult schools unless the courses have been approved by the Department of Education. Approval of courses for grades 13 and 14 shall be given in accordance with the provisions of Section 78200.

52516. The governing board of any school district maintaining an adult school shall have authority with the approval of the Department of Education to establish a prescribed course in elementary subjects appropriate to needs of adults.

52517. No class for adults shall be maintained by any district: (1) if the district receives compensation for such class from any public or private agency, individual or group of individuals, except fees authorized by Section 52612 and apportionments from the state and federal government; or (2) if such classes are not open to the general public; or (3) if the pupils attending such classes are paid for such attendance. The State Board of Education may adopt such regulations as may be necessary to define "payment" and "payment for attendance" as used in this section.

No classes for adults shall be maintained by any district if the cost of such class is paid entirely from federal funds.

52518. No class for adults in dancing or recreational physical education shall be maintained by any district for which the district receives money from the State School Fund.

## Article 2. Use of Hospitals

52530. The governing board of any district offering a nursing program, or related program in the healing arts, either in regular graded classes or in classes for adults, may maintain classes in such a program at hospitals located within or without the district for the purpose of providing the hospital training for students in such classes.

The governing board may purchase liability insurance for the students with district funds.

52531. Anything in this chapter to the contrary notwithstanding, whenever any county or city and county maintains a tuberculosis ward, hospital or sanatorium in another county of this state, the governing board of any school district of the county or city and county maintaining such institution, if authorized to maintain classes for adults, may establish and maintain such classes in such institution for pretuberculous, tuberculous, and convalescent minors and adults, and the attendance of pupils in the classes shall be credited to the district maintaining the classes.

## Article 3. Adult English Classes

52540. Upon application of 20 or more persons above the age of 18 years residing in a high school district who cannot speak, read, or write the English language to a degree of proficiency equal to that required for the completion of the eighth grade of the elementary schools, the governing board of the high school district shall establish classes in English.

52541. Application for classes shall be made in time to permit the board to arrange to meet the expenses of the classes.

52542. The board may establish the classes without demand and with a lesser number of students.

52543. The classes shall be held at least twice a week for a two-hour period.

52544. If the enrollment in any class falls to 10 or less for a one-month period, the governing board may discontinue the class for that year.

## Article 4. Classes in Citizenship

52550. In counties in which the U.S. district courts are located, the superintendent of schools of the county or city and county shall obtain monthly from the clerk of the U.S. district court the names and addresses of all persons filing their declarations of intention to become citizens of the United States or their petitions for naturalization.

52551. The superintendent of schools of the county or city and county, after obtaining the names and addresses of the applicants, shall send a written or printed notice to the applicants, stating that this article authorizes the governing board of any school district to

establish upon application classes in training for citizenship. The form of this notice shall be furnished by the Superintendent of Public Instruction.

52552. Upon application of 25 or more persons desiring training for citizenship and residing in a high school district, the governing board shall establish special classes in training for citizenship. Upon demand the board may establish the classes with a lesser number of applicants.

52553. Application for classes shall be made in time to permit the governing board to arrange to meet the expenses of the classes.

52554. Upon satisfactory evidence that any school district required to do so has failed to establish and maintain classes in training for citizenship, the Superintendent of Public Instruction and county superintendent of schools may withhold 5 percent of state and county apportionments until the district has complied with the provisions of this article.

52555. The course of study in training for citizenship shall consist of the teaching of U.S. history, state and community civics, and the Constitution of the United States, with special reference to those sections in the Constitution which relate directly to the duties, privileges, and rights of the individual, and such allied subjects, including English for foreigners, or activities as will properly prepare the applicants to understand and assume the responsibilities of citizenship.

52556. The classes shall be held at least twice a week for three months. At the close of this period, if the enrollment in any class has fallen to 10 or less for the month, the governing board of the district may discontinue the class for that year.

#### Article 5. Handicapped Adults

52570. The governing board of any school district maintaining secondary schools or the county superintendent of schools, shall have the power, with the approval of the Department of Education, to establish special classes for adults designed to serve the educational needs of handicapped adults. Such classes shall be directed to providing instruction in civic, vocational, literary, homemaking, technical, and general education.

Attendance of handicapped adults in such classes established by the county superintendent of schools shall be included for purposes of apportionments to the county school service fund.

52571. Special classes for handicapped adults may be conducted under the direction of the governing board of the school district in workshop and training facilities provided by nonprofit organizations, or in public school facilities.

52572. The governing board of any school district or the county superintendent of schools authorized by this article to establish special classes for adults designed to serve the educational needs of handicapped adults may contract for the providing of such classes by

any adjacent high school district or unified school district, subject to the approval of the Superintendent of Public Instruction. For purposes of apportionments, the average daily attendance in classes conducted pursuant to the contract shall accrue to and be reported by the district in which such student resides. Any contract entered into pursuant to this section shall be for a term of not to exceed one year but may be renewed or revised and renewed annually.

#### Article 6. Finances

52610. For the purpose of crediting attendance for apportionments from the State School Fund during the fiscal year, "adult" means any person who has attained his 21st birthday on or before (a) September 1st, January 1st, or March 1st of the quarter for which he is enrolled or (b) September 1st or February 1st of the semester for which he has enrolled, and who has enrolled in 10 periods of not less than 40 minutes each per week for high school districts.

Notwithstanding Section 25 of the Civil Code or any other provisions of law, "adults" for purposes of this chapter means persons 21 years of age or older.

52611. For the purpose of crediting attendance for apportionments from the State School Fund during the fiscal year, apprentices enrolled in any classes maintained by high schools pursuant to Section 3074 of the Labor Code shall be classified as regular students.

52612. Except as specified in this section, an adult enrolled in a class for adults may be required by the governing board of the district maintaining the class to pay a tuition for such class. No charge of any kind shall be made for a class in English and citizenship for foreigners or a class in an elementary subject. No tuition charge shall be made for a class designated by the governing board as a class for which high school credit is granted when such class is taken by a person who does not hold a high school diploma. The total of the tuition required and the apportionments from the State School Fund for all attendance in the classes shall not exceed the estimated cost of all such classes maintained.

52613. The governing board of a school district conducting classes for adults may establish an account in a bank for each school of the district in which classes for adults are maintained. The account shall be known as "The Incidental Expense Account of (insert name of school) School of (insert name of district) District." The governing board may establish regulations providing for the collection of an incidental fee from each pupil enrolled in such classes for adults as the governing board may determine. The fee collected from each pupil shall not exceed fifty cents (\$0.50) in any school year. All fees shall be deposited in the account for that school and shall be expended only for (1) materials, services, or supplies for the operation of classes for adults in such school; and (2) activities of

particular benefit to pupils in classes for adults in such school.

For the purposes of Section 52612, and Sections 52613 to 52615, inclusive, classes for adults maintained in connection with a school shall be deemed to be maintained in such school.

52614. The governing board of the district shall designate an employee or employees of the district to have custody of the incidental expense account, or accounts, who shall be responsible for the payment into the account, or accounts, of all moneys required to be paid into the account or accounts, and for all expenditures therefrom, subject to such regulations as the governing board prescribes.

52615. The regulations of the governing board may provide for the sale of materials purchased from the incidental expense account to pupils in classes for adults, for use in connection with such classes. The proceeds of all such sales shall be deposited in that account and shall be available for the purposes of that account.

## CHAPTER 11. MISCELLANEOUS

### Article 1. School Farms

52700. The governing board of any school district may, for the purpose of providing practical instruction in agriculture, establish one or more school farms for any one or more of the schools of the district whenever in its judgment it is advisable to do so.

52701. The cost of purchasing and equipping a school farm and all other costs not met from the receipts of the operation of the farm shall be a charge against the funds of the school district.

52702. The governing board of the district may provide for the general supervision of the farm and the cost of the supervision may be a charge against the funds of the district.

52703. All moneys received from the sale of produce, livestock and other products of a farm shall be paid into the county treasury to the credit of the general fund of the district.

52704. The governing board of the school district may, as an alternative to the procedure provided for in Section 52703, establish an account for each such farm established in the district, or for all such farms established by the district, in one or more banks to be known as "The School Farm Account" of (insert name of district) District. If the account is established for one of several farms, it shall be known as "The School Farm Account of (insert name of school) School of (insert name of district) District." All receipts of the school farm, or farms, derived from the sale of produce, livestock, and other products, may be withdrawn from the general fund in the same manner as other moneys may be withdrawn from funds of the district and deposited in the account for expenditure for the operation and maintenance of the farm, or farms, in accordance with the direction of the governing board.

52705. The governing board may designate an employee or

employees of the district to have custody of the account or accounts established under Section 52704, who shall be responsible for the payment into the account or accounts of all moneys received for or to be paid into the account or accounts, and for all expenditures therefrom, subject to such regulations as the governing board may prescribe.

52706. The governing board may buy feed, livestock, and materials and supplies for a farm and may sell produce, livestock and other products of a farm in accordance with rules and regulations adopted by the board notwithstanding any provision of this code in conflict with such rules and regulations.

## Article 2. Patriotic Exercises

52720. In every public elementary school each day during the school year at the beginning of the first regularly scheduled class or activity period at which the majority of the pupils of the school normally begin the schoolday, there shall be conducted appropriate patriotic exercises. The giving of the Pledge of Allegiance to the Flag of the United States of America shall satisfy the requirements of this section.

In every public secondary school there shall be conducted daily appropriate patriotic exercises. The giving of the Pledge of Allegiance to the Flag of the United States of America shall satisfy such requirement. Such patriotic exercises for secondary schools shall be conducted in accordance with the regulations which shall be adopted by the governing board of the district maintaining the secondary school.

## PART 29. PROGRAMS FOR DISADVANTAGED PUPILS

### CHAPTER 1. EDUCATIONALLY DISADVANTAGED YOUTH PROGRAMS

54000. It is the intent of the Legislature to provide quality educational opportunities for all children in the California public schools. The Legislature recognizes that because of differences in family income, differing language barriers, and pupil transiency, differing levels of financial aid are necessary to provide quality education for all students.

54001. From the funds appropriated by the Legislature for the purposes of this chapter, the Superintendent of Public Instruction, with the approval of the State Board of Education, shall administer this chapter and make apportionments to school districts to meet the total approved expense of the school districts incurred in establishing education programs for pupils who qualify economically and educationally in preschool, kindergarten, or any of grades 1 through 12, inclusive. Nothing in this chapter shall in any way preclude the use of federal funds for educationally disadvantaged youth. Districts

which receive funds pursuant to this chapter shall not reduce existing district resources which have been utilized for programs to meet the needs of low-income students.

54002. Maximum apportionments allowable to school districts shall be determined by the following factors:

(a) An index of "potential impact of bilingual-bicultural pupils" determined by dividing the percent of pupils in the district with Spanish and Oriental surnames, and Indian pupils, as determined by the annual ethnic survey conducted by the Department of Education, by the statewide average percentage of such pupils for unified, elementary, or secondary districts, as appropriate.

(b) A ratio of the district's "index of family poverty," defined as the district's Elementary and Secondary Education Act, Title I entitlement, divided by its average daily attendance in grades 1 through 12, or any thereof maintained, divided in turn by the state average index of family poverty for unified, elementary, or secondary districts, as appropriate.

(c) A ratio of the district's "index of pupil transiency," as computed from the relationship between the district's average daily attendance and its total annual enrollment, divided by the state average index of pupil transiency for unified, elementary, or secondary districts, as appropriate.

The district's total maximum apportionment under this chapter shall be determined by computing the product of (1) one-third the sum of the above three factors, except that if the resulting figure is higher than 2, the resulting figure shall be deemed to be 2, and if the resulting figure is lower than 1 no entitlement shall be computed for such a district, unless the district had an average daily attendance in excess of 60,000 for the 1972-73 school year and has more than 8,000 pupils receiving aid for dependent children, in which case the resulting figure shall be deemed to be 1; (2) the number of pupils receiving aid for dependent children support; and (3) a constant amount of three hundred dollars (\$300), or such amount as the Superintendent of Public Instruction may determine so that the sum of all allocations will not exceed the funds appropriated by the Legislature for the purposes of this chapter.

No allocation shall be made to a school district whose index computed pursuant to item (1) is less than 1, whose average daily attendance for the 1972-73 school year was more than 60,000, and which had more than 8,000 pupils receiving aid for dependent children, unless sufficient funds have been appropriated so that the Superintendent of Public Instruction is not required, because of insufficient funds, to reduce the allocation to other districts which receive such funds below the allocation for the 1973-74 fiscal year.

54003. In approving programs under this chapter, the State Board of Education shall give due consideration to the effectiveness of the program and shall not continue in operation any program that, upon evaluation, has been shown to be of low effectiveness and which has only limited possibility of improved effectiveness.

For the fiscal year 1974-75 and for each year thereafter, districts which demonstrate a high degree of program effectiveness shall continue to receive their computed entitlements. Districts which demonstrate low levels of program effectiveness may continue to receive their computed entitlements, but the Superintendent of Public Instruction shall reduce the entitlements due such districts if he determines that such programs have limited possibilities of improved achievements.

54004. The Superintendent of Public Instruction shall apportion the funds available for programs in accord with procedures specified in this chapter and policies which may be adopted by the State Board of Education. Funds shall be allocated to each district within its entitlement based upon a plan submitted by the district to the Superintendent of Public Instruction, and approved by the State Board of Education. The plan shall include (1) an explicit statement of what the district seeks to accomplish, (2) a description of the program and activities designed to achieve these purposes, and (3) a planned program of annual evaluation, including a statement of the criteria to be used to measure the effectiveness of the program.

54005. The State Board of Education shall adopt regulations setting forth the standards and criteria to be used in the administration, monitoring, evaluation, and dissemination of programs submitted for consideration. An amount not to exceed 1 percent of the total appropriation for the purposes of this chapter shall be retained by the Department of Education for these purposes. Funds appropriated for the purposes of this chapter not allocated as previously specified shall be allocated by the State Board of Education to promote the intent of this chapter to provide education programs to as many eligible pupils as possible and to stimulate the development, implementation, and evaluation of innovative programs.

54006. The Superintendent of Public Instruction shall submit annually to the Governor and to each house of the Legislature a report evaluating the programs established pursuant to this chapter, together with his recommendations concerning whether the same should be continued in operation.

54007. In approving projects under the "educational needs factor formula," as described above, the Superintendent of Public Instruction, with the concurrence of the Director of Finance, may, upon the request of the applicant district, designate a portion of the district's entitlement which may be expended for noninstructional costs, including, but not limited to, costs for vandalism, security, and insurance. In no event, shall the amount of funds in the aggregate designated for such purposes for all districts in the state exceed two million dollars (\$2,000,000).

CHAPTER 2. SPECIAL ELEMENTARY SCHOOL READING  
INSTRUCTION PROGRAM

Article 1. General Provisions

54100. This chapter may be cited as the Miller-Unruh Basic Reading Act of 1965.

54101. It is the intent and purpose of the Legislature that the elementary school reading instruction program provided for by this chapter shall be directed to the prevention of reading disabilities, and the correction of reading disabilities at the earliest possible time in the educational career of the pupil. The instruction program shall be provided in grades 1, 2, and 3 in the elementary schools. The instruction program may be provided in kindergarten if the governing board of a school district, by resolution, acts to make the program so applicable. With respect to any district in which the instructional program has been made applicable to kindergarten, the units of average daily attendance in kindergarten shall in no manner be utilized in the computation of the basic quota of specialist reading teachers, computation of allowances for specialist reading teachers, establishment of a system of priorities, or computation for the salary allotment for professional school librarians, nor shall any kindergarten teacher be eligible to apply for a scholarship grant for teachers of reading. It is the intent of the Legislature that the applicability of the instructional program to kindergarten shall in no manner affect the school districts' entitlements for the program authorized by this chapter or shall in no manner affect the statewide priorities established with respect to the program authorized by this chapter.

It is the further intent of the Legislature that the reading program in the public schools be of high quality, and that the program be designed to permit early development of reading skills, and the early correction of reading disabilities. The Legislature recognizes that early development of reading ability enhances the opportunity of each pupil for success in school and for success in a career upon leaving school. The Legislature further recognizes that to achieve its intent and purpose it will be necessary to provide means to employ teachers trained in the teaching of reading, to provide incentives to encourage such training, and to stimulate the establishment and maintenance of school libraries. To carry out its intent and purpose, the Legislature has enacted this chapter to provide salary payments for specialist teachers in reading, scholarships to encourage the development of skills in the teaching of reading, and salary payments for the employment of professional librarians in school districts. It is also the intent of the Legislature that the provisions of this chapter shall be administered to provide funds and services first to those school districts and to the schools in such districts where the need for reading instruction is greatest and the financial ability of the district to provide it is least. This program is voluntary and any school district

may participate or may decline to participate. If a district participates, it shall participate fully with respect to those schools in the district in which the program is established.

54102. During the 1966-67 school year, and thereafter, if a school district is unable to participate fully in the reading program established under this chapter on a school or district basis because of its inability to employ enough specialist teachers to fully meet the basic quota of certificated employees to be appointed specialist teachers as provided in Sections 54140 and 54141, the governing board of the district may request approval of the Superintendent of Public Instruction for participation in the program on a reduced basis. Such approval may be granted by the Superintendent of Public Instruction if he determines that:

(a) In districts having more than one school, all reasonable efforts are made to concentrate available teachers in the school or schools of the district where the need for the program is the greatest so that such schools may benefit from full participation in the program so far as possible.

(b) For the 1966-67 school year, the applicant district or school employs at least 30 percent of the basic quota of certificated employees to be appointed specialist teachers as computed under the provisions of Sections 54140 and 54141.

(c) For the 1967-68 school year, and thereafter, the applicant district or school employs at least 30 percent of the basic quota of certificated employees to be appointed specialist teachers as computed under the provisions of Sections 54140 and 54141.

54103. The State Board of Education shall have the power to adopt and promulgate all rules and regulations necessary to the effective administration of this chapter, including but not necessarily limited to those specifically required to be adopted by particular provisions of this chapter.

54104. As used in this chapter:

(a) "Specialist teacher" shall mean a person holding a credential as a specialist teacher in reading, issued by the Commission for Teacher Preparation and Licensing, and employed by a school district for the duties listed in Section 54146.

(b) "Average daily attendance" shall, except as otherwise specifically provided, mean average daily attendance during the preceding fiscal year.

54105. The State Board of Education shall prepare a consolidated application form for use by each school district making application for appointment of a specialist teacher. The consolidated application form shall include any request for funds under Titles I, II, and III of the Elementary and Secondary Education Act of 1965, as amended, the Education Improvement Act of 1969 (Article 1 (commencing with Section 54600) of Chapter 9 of this part), the Professional Development and Program Improvement Act of 1968 (Article 10 (commencing with Section 44630) of Chapter 3 of Part 25 of Division 3 of this title), the Special Teacher Employment Programs (Article

5 (commencing with Section 54480) of Chapter 4 of this part), and any other state or federal act which provides funds to assist in the reading program for grades 1, 2, and 3.

54106. Any school district making an application for appointment of a specialist teacher shall use the consolidated application form to make application for funds under any of the acts specified in Section 54105 that will be used to assist in the reading program in grades 1, 2, and 3. The application form shall be accompanied by a single coordinated project or program for all the funds for which application is made, as well as the funds of the district devoted to the project or programs.

54107. The coordinated project and program shall be approved as required by law and regulations adopted by the State Board of Education.

54108. The coordinated project or program shall include a specialist teacher, and any other educational component that is approved by the State Board of Education, including, but not limited to, teacher aides, tutors, interns, diagnosticians, nonconsumable and consumable materials and equipment, and administration, supervision or coordination. Each coordinated project or program shall include provisions for evaluation.

54109. If there are not sufficient funds to fully fund the SHARE programs established pursuant to Chapter 1199 of the Statutes of 1970 and programs operated under this chapter as budgeted for the 1971-1972 fiscal year, the Superintendent of Public Instruction shall, insofar as necessary, reduce the amounts allocable under the programs conducted pursuant to this chapter according to the following schedule of priorities:

1. He shall first reduce the amount to be expended for scholarship grants for teachers under Article 5 (commencing with Section 54170) of this chapter.

2. He shall next reduce the amount to be expended for allotments for professional school librarians under Article 6 (commencing with Section 54180) of this chapter.

3. He shall next reduce the amount to be expended for salary increases under Section 54148.

## Article 2. Specialist Reading Teacher

54120. The governing board of any school district maintaining grades 1, 2, and 3 in elementary schools may, in writing, nominate to the Commission for Teacher Preparation and Licensing qualified certificated employees of the district for the position of specialist teacher. The nominations shall be based upon the observed performance of the teacher in instructing elementary school pupils to read, and the written nominations to the commission shall so attest.

Any certificated employee of a school district who has not been so nominated may, in writing, petition the commission to be appointed

a specialist teacher. Thereupon, the commission shall appoint a panel of three persons, selected on the basis of criteria established by rules and regulations of the commission, who shall observe the performance of the employee in the classroom, and either nominate the employee for the position of specialist teacher or deny such nomination.

54121. Each certificated employee nominated for the position of specialist teacher shall be notified of the time and place at which a written examination will be held to determine whether such employee is qualified for appointment as a specialist teacher.

54122. The Commission for Teacher Preparation and Licensing shall designate a written examination to be administered by the Department of Education to each person nominated for the position of specialist teacher. The examination shall be one designed to test the knowledge of the nominee concerning the various approaches and techniques which have been determined by competent authority to be most effective in imparting reading instruction to young school pupils, and concerning the appropriate selection of various techniques to meet the requirement of different pupils. Such an examination shall be administered on a statewide basis at least once in each school year. For such purposes the commission may select an examination prepared by any competent public or private person, organization, or agency.

54123. Certificated school district employees nominated pursuant to Section 54120, who are determined by the department to have passed the examination prescribed by Section 54122, shall forthwith be granted certificates entitling them to accept employment as specialist teachers in reading.

54124. As an alternative to the examination and nomination procedure provided for by Sections 54120, 54121, 54122, and 54123, certificated school district employees qualified under this section may be examined for possible selection as specialist teachers in reading by a specialist teacher selection committee. A specialist teacher selection committee may be appointed by the governing board of any school district which maintains elementary schools. It shall be comprised of five members, including one college or university authority in the field of reading instruction, three district or county office personnel knowledgeable in reading instruction and in areas of human relationships, and one district administrator or supervisor. The reasonable and necessary expenses of the members of the committee shall be paid by the school district establishing the committee. The committee shall conduct appropriate proceedings to inquire into the qualifications of nominees and make determinations concerning whether or not individual nominees are qualified for selection as specialists teachers in reading. Each nominee shall, in order to be selected as a specialist teacher in reading meet the following minimum requirements:

(a) Completed two years of successful teaching in the primary grades, kindergarten and grades 1 to 3, inclusive.

(b) Fully credentialed by the State of California to teach in the primary grades, kindergarten and grades 1 to 3, inclusive.

(c) Successfully completed the following college or university courses:

(1) A basic course in the teaching of elementary school reading.

(2) A basic course in the diagnosis and remediation of reading disabilities.

(3) A course in directed clinical practice in the remediation of reading disabilities. Such course may be concurrent with the first year as a specialist teacher in reading.

54125. Certificated school district employees nominated pursuant to Section 54124, shall forthwith be granted certificates entitling them to accept employment as specialist teachers in reading.

### Article 3. Employment of Specialists

54140. Each school district which maintains grades 1, 2, and 3 at the elementary level shall compute a basic quota of certificated employees to be appointed specialist teachers, of one such employee for each 125 units of average daily attendance in grades 1, 2, and 3 and any additional fraction thereof; provided that:

(a) With respect to districts maintaining more than one school, each of which has an average daily attendance in grades 1, 2, and 3 of less than 50, the quota shall be one such employee for each 100 units of the average daily attendance in grades 1, 2, and 3 in those schools.

(b) With respect to all school districts in a county with an average daily attendance in grades 1, 2, and 3 of less than 50, the quota shall be one specialist teacher for each 100 units of average daily attendance in grades 1, 2, and 3 in those districts.

54141. For the 1967-68 school year and school years thereafter, for any school district in which thirty percent (30%) or more of the first grade pupils received scores falling below the first quartile of scores established on a statewide basis for the tests administered during the preceding school year pursuant to Section 60640, the basic quota established pursuant to Section 54140 shall be increased by one specialist teacher for each 300 units of average daily attendance in grades 1, 2, and 3, and fractional part thereof, maintained by the district.

For the 1967-68 school year and school years thereafter any school district in which forty percent (40%) or more of the first grade pupils received scores falling below the first quartile of scores established on a statewide basis for the tests administered during the preceding school year pursuant to Section 60640, the basic quota established pursuant to Section 54140 shall be increased as ordered by the Department of Education following an investigation of the circumstances of the district.

54142. Each school district maintaining grades 1, 2, and 3 may

employ specialist teachers in number not to exceed one hundred ten percent (110%) of the basic quota established for the district pursuant to Sections 54140 and 54141.

54143. Persons serving in the employ of school districts as specialist teachers under this chapter shall be considered as classroom teachers for purposes of all laws dealing with permanent status of certificated employees in the employment of school districts.

Such a specialist teacher employed by a school district may elect to serve for a period of not to exceed two consecutive school years in the employ of other school districts as a specialist teacher, in which case the district of the teacher's regular employment shall afford him a leave of absence for such period, and the teacher shall retain all personnel rights accumulated by him in the employ of such district of regular employment. Such employment with another district shall be pursuant to a written contract for a term of one school year, which contract may be renewed for an additional school year.

54144. A specialist teacher employed by a school district with an average daily attendance in grades 1, 2, and 3 of less than 50, shall serve under the direction of the county superintendent of schools.

54145. The governing board of a school district employing specialist teachers may employ qualified teachers who shall serve under the direction of the specialist teachers in instructing pupils in reading.

54146. Specialist teachers employed by a school district shall be relieved of all regular teaching and administrative responsibilities and shall devote their full time in performance of the following responsibilities, which shall be directed to training pupils to attain reading ability essential to success in studies to be undertaken beyond the grade 3 level:

(a) Supplementing the reading instruction otherwise provided in regular classes for all pupils in grade 1.

(b) Providing instruction to small groups of pupils, and to individual pupils, in grades 2 and 3 who have been determined to have reading disabilities.

(c) Administering reading tests to be given pupils in grades 2 and 3 under Article 3 (commencing with Section 60640) of Chapter 5 of Part 33 of this division.

54147. School districts shall establish in-service training programs to provide an opportunity for elementary school teachers of the district to observe on a regular basis the instructional techniques of the specialist teachers.

54148. The annual salary of a specialist teacher, employed as such by a school district for a school year, shall be increased by two hundred fifty dollars (\$250) over that otherwise payable to him under his regular contract of employment with the district in which he is regularly employed.

Such sum shall be paid by the school district in a lump sum payment to the specialist reading teacher, no later than June 30 of

each fiscal year, and the warrant on which the payment is made shall clearly identify the purpose for which the payment is being made with words to the effect of: "Special Stipend for State Basic Reading Program" appearing on the face of the warrant. Partial lump-sum payments for specialist reading teachers employed for a portion of the school year shall be paid no later than 30 days after the specialist teacher leaves the employ of the district.

#### Article 4. Allowances for Specialists

54160. Beginning with the 1966-67 fiscal year and each fiscal year thereafter, a school district which maintains grades 1, 2, and 3, may apply for an allowance for the employment of specialist teachers. Application shall be made in accordance with rules and regulations adopted by the Superintendent of Public Instruction on forms that he shall furnish.

For programs to be conducted during the 1969-70 fiscal year and each fiscal year thereafter, such applications shall be filed with the Superintendent of Public Instruction on or before July 1 in order to be eligible for an allowance during the year.

54161. Pursuant to its authority under Section 54103, the State Board of Education shall adopt, by rules and regulations, minimum standards of course content for basic reading programs authorized by this chapter, and criteria to be used by the Superintendent of Public Instruction in approving district applications for funds pursuant to Section 54160. No allowance for a special reading program shall be made to a school district unless the Superintendent of Public Instruction approves the district application and certifies that the minimum standards and criteria of the State Board of Education are met by the district.

Beginning with the 1969-70 fiscal year and in each fiscal year thereafter, the Superintendent of Public Instruction shall notify each district of his action on the application, including the estimated allowance to be provided based upon the application filed pursuant to Section 54160. Such notice shall be given to each district prior to September 1 following the receipt of the application. The total of the estimated allowances determined pursuant to this section for all applicant districts shall not exceed the funds appropriated therefor.

The superintendent shall not disapprove any application on the basis of the methodology of providing basic reading instruction pursuant to this chapter which the school district has selected.

54162. Allowances under this article shall be made by the Superintendent of Public Instruction from funds appropriated therefor by the Legislature. The allowances shall be made as early as practicable in the fiscal year and upon order of the Superintendent of Public Instruction the State Controller shall draw his warrants upon the money appropriated, in favor of the eligible districts in the amounts ordered.

54163. Allowances under this article shall be made by the

Superintendent of Public Instruction in accordance with a system of priorities that he shall by rule and regulation adopt, designed to carry out the intent and purpose of the Legislature stated in Section 54101.

The system shall be designed to give priority to districts in the following order:

(a) First, to insure that the districts participating in the program during the preceding school year, which continue to be eligible, will not be required to reduce programs below the level of the preceding year.

(b) Second, to insure that applications for expansion of programs and applications for new programs in eligible schools be considered on a priority basis in terms of the percentage of pupils in grade 1 who received scores which fell below the first quartile of scores established on a statewide basis for the tests administered during the preceding school year pursuant to Section 60640.

Allowances computed for a district that receive only basic aid in the preceding fiscal year shall be reduced by one-half.

The Superintendent of Public Instruction shall make no allowances in any year in excess of the amount appropriated by the Legislature for the purposes of this chapter.

54164. The Superintendent of Public Instruction shall by rule and regulation establish a procedure for each district provided an allowance pursuant to this article to report, on or before April 1 of each year, the program actually maintained. If the Superintendent of Public Instruction finds that the school district failed to conduct the program in full or in part as previously approved, the allowances shall be corrected accordingly.

54165. The Superintendent of Public Instruction shall allow to each district eligible to receive an allowance under this article an amount equal to the total of salaries to be paid specialist teachers employed by the district computed according to Section 54166 and the amounts computed as salary allotments for professional school librarians.

54166. The allowance for salaries of specialist reading teachers to each district shall be computed by multiplying the number of specialist reading teachers employed by such district by an amount equivalent to the statewide average salary, as determined by the Superintendent of Public Instruction, paid elementary teachers during the preceding fiscal year plus a sum of two hundred fifty dollars (\$250) per teacher. The salary allowance so computed shall not be more than the actual salary paid by the district for the services of the specialist reading teacher.

#### Article 5. Scholarship Grants

54170. Any regularly credentialed teacher in grades 1, 2, or 3 may, pursuant to this article, apply for a scholarship grant for teachers of reading. Each scholarship grant shall be in the amount of two hundred fifty dollars (\$250).

54171. Scholarship grants shall be made by the State Board of Education upon recommendation of the Superintendent of Public Instruction in accordance with rules and regulations adopted by the State Board of Education. The scholarship grants may be used to meet expenses of the grantee attending any regular session or summer session conducted by an institution accredited for teacher training purposes by the State Board of Education and enrolling for credit in courses designed to improve the teaching of reading that have been approved by the State Board of Education.

54172. The number of scholarship grants awarded by the State Board of Education in the 1966-67 fiscal year shall not exceed the number of specialist teachers in reading for whom allowances were provided during that year to school districts pursuant to Section 54165. In the 1967-68 fiscal year, the number of scholarship grants awarded shall not exceed one-half of the number of specialist teachers in reading for whom allowances were provided during that year. In the 1968-69 fiscal year and each fiscal year thereafter, the number of scholarship grants awarded shall not exceed one-fourth of the number of specialist teachers in reading for whom allowances were provided during each of such respective fiscal years.

54173. Scholarship grants awarded shall be paid from the amounts appropriated by the Legislature for the purposes of this chapter.

#### Article 6. Allotments for Librarians

54180. A salary allotment for a professional school librarian shall be computed by the Superintendent of Public Instruction whenever he determines with respect to any district that:

1. The district has employed 30 percent of its basic quota of specialist reading teachers, and
2. A librarian holding a credential authorizing service as a librarian pursuant to Sections 44868 and 44869 is employed full time in a school or schools in which one or more specialist reading teachers are employed.

The salary allotment for the professional school librarian shall be five hundred dollars (\$500) multiplied by the number of specialist teachers in reading employed full time in the school. The maximum allotment so authorized for a school district shall not exceed the total cost of salaries of librarians who come within the provisions of this section.

### CHAPTER 3. MATHEMATICS IMPROVEMENT PROGRAMS

#### Article 1. General Provisions

54300. It is the intent of the Legislature that the provisions of this chapter shall be administered to provide funds and services first to those school districts, and to particular schools within school districts,

for which the most comprehensive plans have been developed to evaluate the effectiveness of the programs authorized by this chapter, and secondly to those school districts in which the need for mathematics instruction is greatest and the financial ability of the districts to provide it is least.

54301. The programs provided for by this chapter shall be afforded for pupils in grades 1 to 12, inclusive. The programs shall be administered under the direction of the Superintendent of Public Instruction and pursuant to rules and regulations of the State Board of Education which may be adopted to implement the provisions of this chapter. The rules and regulations of the State Board of Education shall prescribe minimum standards and criteria for all programs, and shall provide for the submission of periodic reports by all school districts participating in programs.

The programs authorized by this chapter may be consolidated or conducted in conjunction with other mathematics programs being conducted in the public schools, if the Superintendent of Public Instruction determines that evaluation of the programs authorized by this chapter is not rendered impracticable.

The Department of Education shall enter into a contract with the Regents of the University of California by December 1, 1970, subject to the concurrence of the regents, for the recruitment, training, designation, and supervision of the mathematics specialists employed in the mathematics specialist program provided for pursuant to Section 54317. The cost of such contract shall not exceed fifty thousand dollars (\$50,000) and shall be allocated from funds appropriated by Item 265 of the Budget Act of 1970.

Mathematics specialists to be employed pursuant to Section 54317 shall be selected by the school districts based upon a list of teachers of proven mathematical attainment, submitted by the Regents of the University of California.

54302. The State Board of Education shall select achievement tests to be administered to pupils who are participating in programs authorized by this chapter. The selection of such tests shall be with the advice of the Advisory Committee on Educational Research in Basic Educational Programs.

54303. In addition to any tests otherwise required to be administered to pupils by this chapter, the State Board of Education, on the advice of the Advisory Committee on Educational Research in Basic Educational Programs, shall develop an achievement test in mathematics for grades 3, 6, and 8. The test shall measure the degree to which mathematics programs in the public schools meet the objectives of the revised outline of the mathematics curriculum developed by the Advisory Committee on Educational Research in Basic Educational Programs.

This test may be designated by the State Board of Education for use in studies to evaluate state-recommended course content as authorized by Section 60630 and for other appropriate assessment purposes.

## Article 2. Financing Programs

54340. The tests selected by the State Board of Education for purposes of the experimental programs in mathematics shall be provided and distributed by the Superintendent of Public Instruction free of charge, as needed, to school districts participating in the programs.

54341. Beginning with the 1968-1969 fiscal year and each fiscal year thereafter, a school district which maintains elementary grades and participates in the mathematics specialist program may apply for an allowance for the employment of mathematics specialist teachers. Application shall be made in accordance with rules and regulations adopted by the Superintendent of Public Instruction on forms that he shall furnish. No allowance for a mathematics specialist program shall be made to a school district unless the Superintendent of Public Instruction approves the district application and certifies that standards, requirements and criteria of the State Board of Education are met by the district.

54342. Allowances for the mathematics specialist program shall be made by the Superintendent of Public Instruction from funds appropriated therefor by the Legislature. The allowances shall be made as early as practicable in the fiscal year.

54343. Allowances for the mathematics specialist program shall be made by the Superintendent of Public Instruction in accordance with a system of priorities that he shall by rule and regulation adopt, designed to carry out the intent and purpose of the Legislature stated in Section 54300. As a basis for such system of priorities, the Superintendent of Public Instruction, upon receipt of all applications for a fiscal year, shall determine and use the relative financial ability of each applicant district as measured by the assessed valuation per unit of average daily attendance in the district. The Superintendent of Public Instruction may use additional factors as a basis for a system of priorities as long as such factors are not in conflict with the intent and purpose of the Legislature.

The Superintendent of Public Instruction shall make no allowances in any year in excess of the amount appropriated by the Legislature for the purposes of this chapter.

54344. The Superintendent of Public Instruction shall allow to each district eligible to receive an allowance for the mathematics specialist program an amount equal to the total of salaries to be paid mathematics specialists employed by the district, diminished by the product of the ratio which the assessed valuation per unit of average daily attendance during the preceding fiscal year in kindergarten and grades 1 through 8, inclusive, in the district bears to the assessed valuation per unit of such average daily attendance in the state and one-half of the total of salaries to be paid mathematics specialists employed in the district.

54345. From funds appropriated therefor by the Legislature, the Superintendent of Public Instruction shall pay the costs of the

regional in-service training programs for specialized teachers in mathematics including the salaries of persons employed to provide instruction and training. From such funds teachers in attendance shall be reimbursed for living and traveling expenses necessarily incurred for such purposes, and shall be paid a nominal stipend. All expenses incurred for training of the supervisors or administrators, or both, shall be borne by the districts.

54346. From funds which may be appropriated therefor, the Superintendent of Public Instruction shall reimburse school districts for the expenses incurred, pursuant to contractual arrangement, in securing the participation and cooperation of colleges and universities in providing the accelerated instructional program in mathematics in grades 7 to 12, inclusive.

54347. The State Board of Education and the Superintendent of Public Instruction shall take all necessary actions and steps to ensure that all federal funds which may be made available for any of the experimental pilot programs provided for under Article 2 (commencing with Section 54310) of this chapter shall be received and utilized for such purposes.

54348. All disbursements of state funds under this article shall be made by warrants drawn by the State Controller upon order of the Superintendent of Public Instruction.

#### CHAPTER 4. COMPENSATORY EDUCATION PROGRAMS FOR DISADVANTAGED CHILDREN

##### Article 1. General Provisions

54400. This chapter may be cited as the McAteer Act.

54401. The Legislature finds and declares that because of home, community, environmental and other conditions which give rise to language, cultural and economic disadvantages, the latent talents of many minors in the elementary and secondary schools in the state remain undiscovered and are not adequately developed by the general educational programs afforded by the public school system and private schools or school systems. It is the intent and purpose of the Legislature to encourage the establishment and development, by local officers and agencies of the public school system, of programs directed to identifying those pupils affected by language, cultural, and economic disadvantages who are potentially capable of completing the regular courses of instruction leading to graduation from the public elementary and secondary schools, and by special services, techniques, and activities to stimulating their interest in intellectual and educational attainment.

It is further recognized that to combat effectively the evils of such disadvantage a comprehensive, communitywide and statewide cooperative effort will be required together with a marshaling of all public and private resources and aids which may be useful in the endeavor. Securing cooperation, unity of action, and the

concentration and effective direction of available outside resources and aids, public and private, should be an essential element of the programs for compensatory education, at both the state and local levels.

The Legislature finds that such special undertakings are essential to the conservation and development of the cultural, economic and intellectual resources of the state and nation. The provisions of this chapter shall be liberally construed to carry out these intents and purposes.

Nothing in this chapter shall be construed to sanction, perpetuate or promote the racial or ethnic segregation of pupils in the public schools.

54402. For purposes of this chapter, a "disadvantaged minor" is a minor who is potentially academically able but scholastically underachieving, and must compensate for inability to profit from the normal educational program. He is a minor who:

(a) Is three years of age or more, but under 18 years of age and has not graduated from high school.

(b) Is potentially capable of successfully completing a regular educational program leading to graduation from the elementary or secondary school in which he is enrolled or required to be enrolled.

(c) Is, because of home and community environment, subject to such language, cultural, economic, and like disadvantages as will make improbable his completion of the regular program leading to graduation without special efforts on the part of school authorities, over, above, and, in addition to those involved in providing the regular educational programs, directed to the positive stimulation of his potential.

54403. A "program of compensatory education" is an undertaking by any school district maintaining any of grades kindergarten through 12, in the form prescribed by Article 2 (commencing with Section 54420) of this chapter, which is over, above, and in addition to the regular educational programs of the district, having the purpose of providing positive stimulation of the intellectual abilities of disadvantaged minors, and which embodies a positive plan for the identification of such minors. Participation in a program of compensatory education under this chapter shall not preclude an individual's participation in any other potentially beneficial program which may be offered in the public school system or otherwise.

54404. Each county superintendent of schools is authorized, upon request, to provide consultative and coordination services for the school districts under his jurisdiction which have established programs of compensatory education under this chapter. Such activity shall be financed through the county school service fund, and shall be subject to budget review pursuant to Section 14050.

54405. (a) The State Board of Education may establish programs of the following types:

(1) Establishment of new curricula or modification of existing

curricula in connection with the education and training of prospective teachers, to incorporate instruction in methods and techniques developed by competent authorities designed to enable teachers effectively to teach disadvantaged children.

(2) Research and consultative work projects undertaken to assist state and local public school agencies in carrying out their responsibilities under this chapter.

(3) Independently, or in cooperation with any public or private agency or organization, engaging in research and development undertakings directed to overcoming disadvantage, together with related activities involving evaluation, demonstration and dissemination of findings having to do with programs of compensatory education.

(b) It is the intent and aim of the Legislature that the University of California and the California State University and Colleges participate to the extent practicable with local public school agencies and the State Board of Education in their endeavors under this chapter. It is recommended that greater attention be devoted in the training of teachers to their preparation in the techniques and skills required to cope with the problems of disadvantaged children at the preschool as well as the elementary and secondary level. The university and the state colleges are urged to participate at the local level in the programs being administered by the local public school authorities and agencies, and to provide all technical and personnel services practicable.

54406. All compensatory preschool programs operated by school districts, regardless of source of funds, shall be subject to the regulations of the State Board of Education. The State Board of Education is authorized to establish standards for all compensatory preschool programs.

54407. The governing board of a school district, in its application, may request waiver of the provisions of any section or sections of this code for any compensatory education program if such waiver is necessary to establish and operate a program for low-income children. The need for a waiver shall be explained and justified in the application. The Superintendent of Public Instruction, at the discretion and upon recommendation of the Director of Compensatory Education, with the approval of the State Board of Education, may grant, in whole, or in part, any such request.

## Article 2. Compensatory Education

54420. The purpose of this article is to establish criteria to guide local school districts in making applications for federal funds under the Elementary and Secondary Education Act of 1965 as accepted in Sections 12400, 12402, 12403, 12404, Article 4 (commencing with Section 12030) of Chapter 1 of Part 8 of Division 1 of Title 1, or any state funds provided specially for the purposes of this chapter.

These criteria shall apply to the extent that they do not conflict

with the provisions of the Elementary and Secondary Education Act of 1965 or administrative regulations promulgated under that act.

54421. Each application of a local school district for federal funds or state funds shall include a comprehensive compensatory education plan which shall demonstrate that the district has fully utilized all other sources of funds, and the assistance of all volunteer aid offered by individuals and public and private organizations providing assistance for similar educational endeavors, and has effectively coordinated the same. This plan should emphasize a preventive program aimed at the child between the ages of three years and eight years, and have an ultimate goal of teaching the child to read, awakening the child's interest in learning, giving the child a sense of success in school achievement, preventing the child's alienation from the school, and preventing his possible early departure from school. It shall also include remedial programs for older children. Expenditures should be directed to schools with large concentrations of educationally disadvantaged children. If the situation involves disadvantaged children who speak English as a second language, any programs should include early English language instruction, and the use of teachers, teachers' aides or volunteers who are proficient in the child's primary language, and in-service training for teachers in that language.

54422. For purposes of applications for federal funds a plan should be comprehensive in scope, and may include any or all of the program components set out below.

The State Board of Education shall act, upon recommendation of the Advisory Compensatory Education Commission, to establish a priority listing of the following program elements which shall be used in the approval of school district plans to determine those elements which shall be emphasized on a statewide basis:

(a) Reduction of ratios of pupils to teachers, directed specifically to enabling more individual attention to be given to disadvantaged pupils.

(b) Special efforts in the area of reading instruction, including the employment of additional teachers, special reading teachers, teacher aides, and volunteer aides. Special reading programs authorized pursuant to this subdivision shall be conducted pursuant to standards established under Chapter 2 (commencing with Section 54100) of this part, Article 3 (commencing with Section 60640) of Chapter 5 of Part 33 of this division.

(c) Preschool programs provided through the use of either school facilities, other public or private facilities, or any combination thereof, for children three years of age or older, involving intensive parent participation, established pursuant to standards prescribed by the State Board of Education.

Preschool programs authorized pursuant to this subdivision shall be conducted pursuant to the educational standards established by the State Board of Education under Section 8253.

(d) In-service professional study involving instruction and

orientation of school district personnel to enable them to more effectively deal with disadvantaged students.

(e) School-home cooperation, including home visitation, parent education and participation, parent-teacher conferences utilizing, wherever necessary, bilingual interpreters.

(f) Cultural enrichment including the use of field trips, special speakers, motion pictures, records, library programs, concerts and other means which serve to broaden the educational and cultural experience of the students.

(g) After-school tutoring programs utilizing the services of qualified college and university students and volunteers from the community.

(h) Remedial and corrective programs directed to enhancing the pupils' interest and competence in the English language, including extended remedial reading programs, special speech and oral programs, and the teaching of English as a second language, as, for example, where Spanish-speaking children are involved.

(i) Evaluation, testing, and consultation, involving the formulation of evaluation standards which are as rigorous as feasible under the circumstances; the yearly administration of comprehensive achievement tests to all compensatory education students; and the development and use of data based on group controls which will provide evidence of contrast, and the assembly and classification of data for use at the statewide level. A school district plan of compensatory education under this chapter shall, in order to receive approval, contain this program element.

54423. In addition, the district may propose other programs, subject to the approval of the Director of Compensatory Education, to include the following elements:

(a) Employment of competent school-community coordinators, to secure effective coordination of the efforts of pupils, parents, schools, and the community.

(b) Curriculum revision and the development and use of new instructional equipment and facilities to reorient the education program to meet the particular needs of the disadvantaged pupils, with special attention to be given to the teaching of the English language.

(c) Effective use of auxiliary personnel, the services of whom may be made available not only by the public school system, but by other public and private agencies and organizations, including ethnic organizations.

54424. A school district may establish nursery schools and may admit thereto children who are at least three years of age. Nursery schools shall be maintained pursuant to standards set by the State Board of Education which standards shall provide for the qualifications of the teachers to be employed in the schools.

54425. The governing board of each school district maintaining a program of compensatory education shall, at the times and in the form and manner prescribed by the Director of Compensatory

Education but not less than once in each school year, submit information evaluating the program in all respects including but not limited to the following standards:

(a) The existence of residential areas within the school district likely to produce substantial numbers of disadvantaged children, which areas may properly be characterized as slum or depressed urban areas, areas of retarded socioeconomic development, remote rural areas, areas including impoverished homes, areas with concentrations of non-English-speaking populations (such as Spanish-speaking populations), Indian reservations, areas with concentrations of recent in-migrant families, areas with concentrations of migrant farm families, areas with concentrations of low-income racial and nationality minority populations.

(b) The general adequacy of the program in terms of the degree to which talent, knowledge, information, and all available outside resources and aids (including the Economic Opportunity Act of 1964, Public Law 452, 88th Congress) have been mobilized, precision in the definition of the objectives and the particular types of services, activities, and identification methods to be utilized, the projected term of the undertaking with reference to time required to accomplish objectives, and the measures provided to enable periodic evaluations of accomplishments.

(c) The operational promise of the program in terms of the adequacy of the district's facilities and resources to carry it out, the background and competency of program supervisors and personnel and any special training previously afforded them, and the degree to which the program is likely to enhance the skill and competency of supervisors and personnel in achieving the objectives of the program or other such programs.

(d) The economic efficiency of the program in terms of specific district expenditures actually being made over and above those incurred in carrying out the regular educational program, the justification of expenditures by procedures to be followed, the existence of a direct relationship between proposed expenditures and anticipated results, and the adequacy of financing to accomplish stated objectives.

(e) The extent to which the program will serve to facilitate the development of data and information which will serve to increase the general effectiveness of programs for education of educationally disadvantaged minors.

(f) The results of the comprehensive pupil achievement tests administered by the district to all students enrolled in compensatory education programs pursuant to subdivision (i) of Section 54422, together with test scores of appropriate control groups of students, developed in accordance with that subdivision.

## Article 3. Migrant Children

54440. The Legislature finds and declares that:

(a) A significant number of children under the age of 18 of migratory agricultural workers and migratory fishermen reside in California for at least a part of each year. These children, from among the least affluent segments of American Society, tend to move frequently, attend school irregularly, and suffer health defects and language handicaps which significantly inhibit their progress in school. This results in many becoming early school dropouts, poorly prepared for personal growth and fulfillment or economic success or upward social mobility.

(b) The problems of children of migratory agricultural parents and of migratory fisherman parents are of such magnitude and severity that local school districts have been unable to solve them with the resources normally available. It is, therefore, necessary for the state to aid local school districts through regional coordinating offices, and the provision of special programs of educational and related services for these children.

54441. As used in this article, "migrant child," means a child who has moved with a parent, guardian, or other person having custody from one school district to another either within California, or between California and another state within the 12-month period immediately preceding his identification as such a child, in order that a parent, guardian, or other member of his immediate family might secure temporary or seasonal employment in an agricultural activity, including the production, or processing, or both, of agricultural products, or in fishing or the preparation and processing of other seafood products.

54441.5. With the concurrence of his parents, a child who has been identified as a "migrant child" may be deemed to continue to be such a child for a period, not in excess of five years, during which he resides in an area where programs are provided for migrant children. Priority shall be given, however, to programs and activities for migrant children, and in no case shall migrant programs be provided solely for children who have ceased to migrate.

54442. The State Board of Education shall adopt and submit to the Legislature by April 1, 1974, a state master plan for services to migrant children. Such plan shall include provisions for the following:

(a) Instructional activities on a regular and extended year basis shall be designed to identify, diagnose, and provide treatment for academic deficiencies of migrant children. Special emphasis will be given to oral and written communications, reading and mathematics. Small group or individual instruction and tutorial services will be provided to assist migrant children to attain normal progress rates in all subject areas. All instructional services will be provided as supplements to regular programs of instruction provided by the public schools for all children.

(b) Health and welfare services shall be designed to identify, diagnose, and provide treatment for conditions of a physical, including dental, emotional, or environmental, nature which interfere with the learning processes of migrant children. Insofar as possible, existing community resources will be utilized to provide these services.

(c) Preservice and in-service education of professional and nonprofessional personnel shall be planned to prepare school administrators, teachers, aides and other personnel to meet the special needs of migrant children.

(d) Supportive services including transportation, family liaison, and other services necessary to the success of the programs.

(e) Child development activities including, but not limited to social, sensorimotor, conceptual and language development, and perceptual discrimination activities for migrant infants and pre-kindergarten-aged children too young to participate in instructional services normally provided by the public schools.

(f) The active involvement of parents, teachers, and community representatives in the local implementation of migrant education programs.

54443. Services to all migrant children, as defined by Section 54441, will be provided by the 1976-1977 school year.

(a) Services provided by the state plan will not reduce or replace services provided by local school districts or other governmental or private agencies.

(b) Services shall be coordinated with all existing federal, state, and local resources available to migrant families.

54444. In implementing the plan adopted by the State Board of Education, the Superintendent of Public Instruction is authorized to:

(a) Contract with county superintendents of school or local educational agencies to supply services to migrant children residing within specified geographical regions.

(b) Enter into agreements or otherwise cooperate with other states or agencies of the state or the federal government in providing or coordinating services to migrant children including participation in or utilization of the Migrant Student Record Transfer System.

54445. The State Board of Education shall adopt rules and regulations necessary to implement the provisions of this article.

#### Article 4. Administration

54460. There is in the Department of Education the office of Director of Compensatory Education. The Director of Compensatory Education shall be appointed by the State Board of Education, upon nomination by the Superintendent of Public Instruction, and he shall be subject to state civil service. In performing his duties and responsibilities under this chapter the director shall act as the representative of the Department of Education. The Director of Compensatory Education shall be

provided with such facilities and staffing necessary to provide him with such technical and clerical assistance as is required in order for him to carry out his duties under the provisions of this chapter.

54461. The Director of Compensatory Education shall, under the policy direction of the State Board of Education and the administrative direction of the Director of Education, have overall supervision and control of programs of compensatory education provided throughout the state, and shall take action necessary to coordinate all such programs. He shall, pursuant to the provisions of this chapter and the provisions of the Elementary and Secondary Education Act of 1965 and the regulations promulgated thereunder, be responsible for receiving and recommending approval or disapproval to the State Board of Education of local program applications and providing technical and consultative assistance to school districts.

The Director of Compensatory Education shall conduct continuing research and study of the subject of programs of compensatory education, involving not only the examination and evaluation of programs established under the provisions of this chapter but comparable undertakings in other states, to the end of effecting improvement in the administration of the programs for compensatory education established under the provisions of this chapter. He shall serve as a clearinghouse and center of information, and shall issue and disseminate to school districts participating in programs established under this chapter or otherwise affected by problems presented by the presence of disadvantaged minors anywhere, such publications and results of investigations as will tend to foster the establishment of sound programs for compensatory education and to enhance their effectiveness.

He shall collect and provide information concerning sources of federal, state, and local public funds, and private funds, which may be available for compensatory education purposes. It shall be the responsibility of the local officials and agencies of the public school system to take necessary measures to secure all outside financial assistance which may be available.

The State Board of Education, on recommendation of the Director of Compensatory Education, shall determine the eligibility of applicant school districts for grants provided under this chapter. Applications for approval of programs and for grants shall be comprehensive in scope. Applicant districts shall, to the extent practicable, provide programs at all grade levels, but special emphasis is to be given programs provided at the preschool and early elementary grade levels.

54462. The State Board of Education shall adopt rules and regulations necessary to implement the provisions of this chapter, including rules and regulations which:

- (a) Prescribe the procedure by which a district shall identify disadvantaged minors.
- (b) Establish minimum standards for programs.

(c) Require the annual submission of such reports by school districts as will permit the evaluation of the programs of compensatory education and the accumulation of data and information which will be useful in developing suggestions, policies, and requirements for improvement of such programs generally.

54463. The State Board of Education, on the recommendation of the Director of Compensatory Education, shall, for purposes of this chapter, in accordance with the provisions of this chapter and the rules and regulations of the State Board of Education implementing the same, have the power to approve, withhold approval of, or disapprove of any program of compensatory education.

54464. The Director of Compensatory Education shall not recommend, and the State Board of Education shall not approve, a project or program in compensatory education without assurance that the teacher in the class in which the project or program is to be conducted and other certificated personnel required to provide services under the project or program hold a regular credential.

The Director of Compensatory Education may waive this requirement where the school district submits evidence which is satisfactory to him that provisionally credentialed teachers have been provided through an established career opportunities program, a teacher corps program, or through a district career development plan designed to provide employment opportunities, concurrent training, and career advancement for capable persons of low-income background who wish to enter the teaching profession.

54465. For all purposes of this chapter the Director of Compensatory Education may array and assign priorities to the programs of compensatory education maintained by the different school districts on the basis of numbers, concentration or density of disadvantaged pupils in particular areas.

#### Article 5. Special Teacher Employment Programs
