## CHAPTER 995

An act to amend Section 1609 of the Revenue and Taxation Code, relating to property taxation.

[Approved by Governor September 15, 1976. Filed with  
Secretary of State September 16, 1976.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 1609 of the Revenue and Taxation Code is amended to read:

1609. The hearing need not be conducted according to technical rules relating to evidence and witnesses. Any relevant evidence may be admitted if it is the sort of evidence on which responsible persons are accustomed to rely in the conduct of serious affairs, regardless of the existence of any common law or statutory rule which might make improper the admission of such evidence over objection in civil actions. The applicant shall have the right to introduce evidence concerning the terms of sales of comparable property that has been sold.

---

CHAPTER 996

An act to amend Section 1241.1 of the Business and Professions Code, relating to clinical laboratory technology.

[Approved by Governor September 16, 1976. Filed with  
Secretary of State September 16, 1976.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 1241.1 of the Business and Professions Code is amended to read:

1241.1. On and after January 1, 1972, the department shall require a laboratory exempt from this chapter pursuant to subdivisions (b) or (g) of Section 1241 to demonstrate satisfactory performance in a proficiency testing program approved by the department in laboratory procedures which such a laboratory performs.

The department shall adopt regulations establishing the standards of satisfactory performance. Such standards shall not be higher than those established for licensed laboratories.

Physicians and surgeons who are tested under this section shall certify to the department, under penalty of perjury, that the proficiency test was performed in their own laboratory.

## CHAPTER 997

An act to add Sections 19019.1 and 19019.2 to the Welfare and Institutions Code, relating to rehabilitation, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 15, 1976 Filed with  
Secretary of State September 16, 1976.]

*The people of the State of California do enact as follows:*

**SECTION 1.** The Legislature finds that it is in the public interest that nonprofit corporations in the private sector continue to provide employment for blind and otherwise handicapped persons and to give them opportunity for training and experience on the job, which will enable them to contribute to their own support. In order to carry out such public purposes the Legislature declares that it is essential that such nonprofit corporations be able to attract private capital to achieve financial and economic recovery and that existing indebtedness to the state not hamper such recovery.

**SEC. 2.** Section 19019.1 is added to the Welfare and Institutions Code, to read:

**19019.1.** Notwithstanding Section 19019 the Director of General Services with the approval of the director shall take any or all of the following actions as are necessary to permit the nonprofit corporation operating manufacturing centers, salesrooms, or opportunity centers under Section 19019 to secure adequate working capital and achieve economic and financial recovery:

(a) Subordinate the state's interest in any real property held in trust by the nonprofit corporation in order to secure loans from private lenders. Any such loans shall be approved only under the following conditions:

(1) Loans shall be made consistent with the public policy of maintaining employment opportunities for blind and otherwise handicapped persons;

(2) An aggregate loan of at least one million one hundred thousand dollars (\$1,100,000) shall be obtained by the corporation on or before December 31, 1976; and,

(3) The trust created under Section 19019 shall not terminate during the term of such loan or loans except that in the event of foreclosure the property may be sold free of the trust and the net proceeds after satisfying any foreclosed loans secured by the real property shall be deposited into the General Fund of the State Treasury.

(b) Terminate the trust for the purpose of liquidating the real property; provided, however, that the proceeds from any such liquidation shall continue to be held in trust for the purpose of maintaining employment opportunities for blind and otherwise handicapped persons.

(c) Any sale of the real property shall be subject to approval by the Department of General Services before the sale shall be final and effective, and such sale shall not be approved unless the sale price is equal to the reasonable fair market value of such real property.

SEC. 2.5. Section 19019.2 is added to the Welfare and Institutions Code, to read:

19019.2. The nonprofit corporation under Section 19019 shall submit a quarterly report consisting of the quarterly operating statements and financial projections for future operations including sales and cash flow forecasts, to the Legislature through the department. The department shall transmit such report along with any of its findings or recommendations concerning the report to the Legislature within 10 days after its receipt.

SEC. 3. Because of hardships under past law and to promote financial and economic recovery the state shall defer the payments, including interest, due or to become due on any debt to the state incurred by the corporation at the time of transfer by the state under Section 19019 of the Welfare and Institutions Code until June 30, 1978. Sixty days prior to the deferred payment date the Department of Rehabilitation, if the corporation is substantially fulfilling the trust purposes under Section 19019, may submit to the Legislature a recommendation, approved by the Department of General Services, that the debt and all interest payments accrued shall be discharged as of the deferred payment date. Upon appropriate legislative action the debt shall be discharged at such time and upon such conditions as the Legislature may impose. Nothing in this section shall be deemed to effect a release or discharge by the state of any other debts of the corporation whether known or unknown, or held by public or private creditors; nor shall anything be deemed to release in any manner any action and cause of action of whatever kind or nature which the state or the nonprofit corporation may have against third parties; nor shall anything in this section be deemed to limit in any manner any legal remedies which the state or the nonprofit corporation may have against such third parties.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

It has been determined that the California Industries for the Blind and opportunity work centers should continue to be operated by a nonprofit corporation within the private sector rather than by the state. In order for the private corporation to achieve financial and economic recovery thereby continuing and enhancing the employment and earning capacity of the employees involved it is necessary that this act take immediate effect.

## CHAPTER 998

An act to add Article 5.5 (commencing with Section 26575) to Chapter 5 of Division 21 of the Health and Safety Code, relating to frozen products.

[Approved by Governor September 16, 1976. Filed with Secretary of State September 17, 1976.]

*The people of the State of California do enact as follows:*

**SECTION 1.** The Legislature declares its concern for the quality of meat, poultry, and fish. It is a fact that meat, poultry, and fish are often frozen after processing, thawed before display and sale, and then refrozen and thawed before meal preparation by the consumer. Such meat, poultry, or fish suffers a significant loss in quality. It is the intent of the Legislature to inform retail purchasers of meat, poultry, and fish as to whether the meat, poultry, or fish has ever been frozen.

**SEC. 2.** Article 5.5 (commencing with Section 26575) is added to Chapter 5 of Division 21 of the Health and Safety Code, to read:

**Article 5.5. Frozen Products**

26575. (a) No retail food production and marketing establishment shall advertise, label, or otherwise hold out as fresh any meat, poultry, or fish which has been previously frozen.

(b) For purposes of this section:

(1) "Frozen" means any meat, fish, or poultry stored in a room or compartment in which the temperature is plus five degrees Fahrenheit or lower.

(2) "Retail food production and marketing establishment" means any room, building, or place, or portion thereof, maintained, used, or operated for, or in conjunction with, the retail sale of food, or preparation of food. "Retail food production and marketing establishment" does not include any restaurant, such as any "itinerant restaurant," any "vehicle," and any "vending machine" as defined in Chapter 11 (commencing with Section 28520) of Division 22; any "bakery" as defined in Chapter 6 (commencing with Section 28190) of Division 22; any wholesale food manufacturing, distributing, or storage establishment, including, but not limited to, the licensed premises or branch office of any winegrower, any brandy manufacturer, or any wine blender, subject to the provisions of Chapter 7 commencing with Section 28280) of Division 22; and frozen food locker plant subject to the provisions of Chapter 12 (commencing with Section 28700) of Division 22; any health facility subject to the provisions of Chapter 2 (commencing with Section 1250) of Division 2; any community care facility subject to the provisions of Chapter 3 (commencing with Section 1500) of Division 2; or any "official establishment" subject to the provisions of Chapter

4 (commencing with Section 18650) of Part 3 of Division 9 of the Food and Agricultural Code.

SEC. 3. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to that section nor shall there be any appropriation made by this act because the Legislature recognizes that during any legislative session a variety of changes to laws relating to crimes and infractions may cause both increased and decreased costs to local government entities and school districts which, in the aggregate, do not result in significant identifiable cost changes.

---

## CHAPTER 999

An act to amend Section 9889.51 of the Business and Professions Code, relating to air pollution.

[Approved by Governor September 16, 1976 Filed with  
Secretary of State September 17, 1976.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 9889.51 of the Business and Professions Code is amended to read:

9889.51. (a) The department shall, with the cooperation of the State Air Resources Board and the Department of the California Highway Patrol, design and adopt a program for the mandatory periodic exhaust emission inspection of all motor vehicles registered in those portions of the Counties of Los Angeles, Orange, Riverside, San Bernardino, Santa Barbara, and Ventura that lie within the South Coast Air Basin, as described by regulation of the Air Resources Board in Section 60104 of Title 17 of the California Administrative Code, as that section read on January 1, 1976, and of all motor vehicles owned by governmental entities and public utilities and registered elsewhere in the state but garaged in such portions of such counties, except that:

(1) The department shall exempt from the exhaust emission inspection portion of the program every motorcycle, as defined in Section 400 of the Vehicle Code, and every motor vehicle weighing over 6,001 pounds, until such time when the department, in conjunction with the State Air Resources Board, determines that the inclusion of such vehicles is technologically and economically feasible.

(2) The department may, by regulation, exempt from the program classes of specialized motor vehicles which the department, in conjunction with the State Air Resources Board, determines would present prohibitive inspection problems.

The exhaust emission inspection of each motor vehicle shall include all of the following:

(1) A determination that all exhaust emission control equipment and devices required by state and federal law are installed and functioning correctly, and that the vehicle's engine is functioning correctly with respect to its level of emissions over its full normal range of operation.

(2) A measurement of the vehicle's hydrocarbon, carbon monoxide, and oxides of nitrogen emissions, performed with a dynamometer, or equivalent device, using a probe or other device to sample the vehicle's exhaust.

(3) A determination as to whether the vehicle complies with the exhaust emission standards for that vehicle's class and model year as prescribed by the State Air Resources Board pursuant to Section 43010 of the Health and Safety Code.

(4) Where applicable, a written indication to the vehicle's owner of the probable cause of any malfunction or misadjustment responsible for the vehicle's failure to comply with such standards and of any maintenance or repairs recommended to correct such malfunction or misadjustment.

---

## CHAPTER 1000

An act to amend Section 674 of, to add Section 690.31 to, and to repeal Sections 682b and 690.235 of, the Code of Civil Procedure, relating to execution and attachment.

[Approved by Governor September 16, 1976. Filed with Secretary of State September 17, 1976.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 674 of the Code of Civil Procedure is amended to read:

674. (a) An abstract of the judgment or decree of any court of this state, including a judgment entered pursuant to Chapter 1 (commencing with Section 1710.10) of Title 11 of Part 3, or a judgment of any court sitting as a small claims court, or any court of record of the United States, the enforcement of which has not been stayed on appeal or pursuant to Section 1710.50, certified by the clerk, judge or justice of the court where such judgment or decree was rendered, may be recorded with the recorder of any county and from such recording the judgment or decree becomes a lien upon all the real property of the judgment debtor, not exempt from execution, in such county, owned by him at the time, or which he may afterward and before the lien expires, acquire. Such lien continues for 10 years from the date of the entry of the judgment or decree unless the enforcement of the judgment or decree is stayed on appeal or pursuant to Section 1710.50 by the execution of a sufficient undertaking or the deposit in court of the requisite amount

of money as provided in this code, or by the statutes of the United States, in which case the lien of the judgment or decree, and any lien or liability now existing or hereafter created by virtue of an attachment that has been issued and levied in the action, unless otherwise by statutes of the United States provided, ceases, or upon an undertaking on release of attachment, or unless the judgment or decree is previously satisfied, or the lien otherwise discharged. The abstract above mentioned shall contain the following: title of the court and cause and number of the action; date of entry of the judgment or decree; names of the judgment debtor and of the judgment creditor; amount of the judgment or decree, and where entered in judgment book, where entry in a judgment book is required, minutes or docket in the justice court.

(b) An order made pursuant to subdivision (b) of Section 908 of the Welfare and Institutions Code shall be considered a judgment for the purposes of subdivision (a) of this section.

(c) With respect to real property containing a dwelling house judicially determined to be exempt from levy of execution pursuant to the provisions of Section 690.31, as distinguished from property subject to a declared homestead created pursuant to Title 5 (commencing with Section 1237) of Part 4 of Division 2 of the Civil Code, a judgment lien created pursuant to subdivision (a) of this section shall attach to such real property notwithstanding the exemption provided by Section 690.31.

SEC. 2. Section 682b of the Code of Civil Procedure is repealed.

SEC. 3. Section 690.235 of the Code of Civil Procedure is repealed.

SEC. 4. Section 690.31 is added to the Code of Civil Procedure, to read:

690.31. (a) A dwelling house in which the debtor or the family of the debtor actually resides shall be exempt from execution, to the same extent and in the same amount, except as otherwise provided in this section, as the debtor or the spouse of the debtor would be entitled to select as a homestead pursuant to Title 5 (commencing with Section 1237) of Part 4 of Division 2 of the Civil Code. For the purpose of this section, "dwelling house" means the dwelling house together with the outbuildings and the land on which the same are situated.

(b) The exemption provided in subdivision (a) does not apply:

(1) Whenever the debtor or the spouse of the debtor has an existing declared homestead on any property in this state other than property which is the subject of a proceeding under subdivision (c) of this section. The existence of a homestead declared by the debtor or the debtor's spouse under Section 1300 of the Civil Code shall not affect the right of the other spouse to an exemption under this section.

(2) Whenever a judgment or abstract thereof or any other obligation which by statute is given the force and effect of a judgment lien has been recorded prior to either:

(i) The acquisition of the property by the debtor or the spouse of the debtor; or

(ii) The commencement of residence by the debtor or the spouse of the debtor,  
whichever last occurs.

(3) Whenever the execution or forced sale is in satisfaction of judgments obtained:

(i) On debts secured by mechanics, contractors, subcontractors, artisans, architects, builders, laborers of every class, or materialmen's or vendors' liens upon the premises;

(ii) On debts secured by encumbrances on the premises executed and acknowledged by husband and wife, by a claimant of a married person's separate homestead, or by an unmarried claimant; or

(iii) On debts secured by encumbrances on the premises, executed and recorded prior to or in connection with the acquisition of the property by the debtor or the spouse of the debtor.

(c) Whenever a judgment creditor seeks to enforce a judgment against a dwelling house, the judgment creditor shall apply to the court in the county in which the dwelling house is located for the issuance of a writ of execution. The application shall be verified and describe the dwelling house and state that either or both of the following facts exist:

(1) The dwelling house is not exempt, the reasons therefor, and (i) that a reasonable search of the records of the office of the county recorder has not resulted in the finding of a declared homestead of the debtor or the spouse of the debtor on the subject dwelling house, and further, that a reasonable search of the records of the county tax assessor indicates that there is no current homeowner's exemption claimed by either the debtor or the spouse of the debtor on the subject dwelling house, or (ii) that the records of the county tax assessor indicate that there is a current homeowner's exemption claimed by either the debtor or the spouse of the debtor on the subject dwelling house but the judgment creditor believes for reasons which shall be stated in the application that the debtor or the spouse of the debtor is not entitled to the exemption provided in this section.

(2) The current value of the dwelling house, over and above all liens and encumbrances thereon, exceeds the amount of the allowable exemption.

If an application alleges facts solely pursuant to paragraph (2) or the court determines that a writ may issue only under the circumstances described in paragraph (2), and the court in which the proceeding is pending is a municipal or justice court, the court shall transfer further proceedings to the superior court. There shall be no filing fee imposed in the superior court upon such a transfer.

(d) Upon receipt of a complete application of a judgment creditor, the court shall set a time and place for hearing and order the debtor to show cause why a writ of execution should not issue. Prior to the hearing, a copy of the order to show cause, a copy of the

application filed by the judgment creditor and a copy of the following notice, in at least 10-point bold type, shall be served as prescribed for the giving of notice of sale of real property in Section 692:

**“IMPORTANT NOTICE TO HOMEOWNER AND RESIDENT**

1. Your house is in danger of being sold to satisfy a judgment obtained in court. You may be able to protect the house and real property described in the accompanying application from execution and forced sale if you or your family now actually reside on the property and presently do not have a declared homestead on any other property in the State of California. **YOU OR YOUR SPOUSE MUST COME TO THE HEARING TO SHOW THESE FACTS.**

2. If you or your spouse want to contest the forced sale of this property, you or your spouse must appear at \_\_\_\_\_

(location set forth in

\_\_\_\_\_ on \_\_\_\_\_ and be prepared to answer questions OSC) (date and time)

concerning the statements made in the attached application. **THE ONLY PURPOSE OF THE HEARING WILL BE TO DETERMINE WHETHER THE PROPERTY CAN BE SOLD, NOT WHETHER YOU OWE THE MONEY.**

**3. FOR YOUR OWN PROTECTION, YOU SHOULD PROMPTLY SEEK THE ADVICE OF AN ATTORNEY IN THIS MATTER.”**

(e) The burden of proof at the hearing shall be determined in the following manner:

(1) Where the application of the judgment creditor states a claim of nonexempt status, the debtor or the spouse of the debtor shall have the burden of proving his or her entitlement to the exemption; and

(2) Where the application of the judgment creditor asserts that the current value of the dwelling, over and above all liens and encumbrances thereon, exceeds the amount of the allowable exemption, the judgment creditor shall have the burden of proof on that issue.

(f) Upon a determination by the court that the dwelling house is not exempt or that, although exempt, the judgment creditor is entitled to levy against any excess, it shall make an order directing the issuance of a writ of execution. The order shall state whether or not the dwelling house is exempt and, if not exempt, state that the judgment creditor is entitled only to execution against the excess over the exempt amount. It shall also specify the amount of the exemption.

(g) Any such writ of execution issued upon a hearing at which the debtor, the spouse of the debtor, or his or her attorney did not appear shall be served in the manner prescribed for the giving of notice of

sale of real property in Section 692 and be accompanied by the following notice in at least 10-point bold type:

**“IMPORTANT NOTICE TO HOMEOWNER AND RESIDENT**

1. You were recently served with a court order requiring your presence at a hearing to determine why the court should not issue a writ of execution for the forced sale of your home. **YOU AND YOUR SPOUSE FAILED TO APPEAR AT THE HEARING AND THE COURT HAS ORDERED THAT YOUR HOME BE SOLD TO SATISFY A JUDGMENT AGAINST YOU.”**

2. Your absence at the hearing has contributed to the issuance of the accompanying writ of execution. If the absence of you or your attorney at the hearing was legally excusable and you believe in good faith that your home may be entitled to an exemption from execution, you should complete the form below and date, sign, and return the form below no later than \_\_\_\_\_. (Insert date no later than five days prior to date of sale.)

**3. FOR YOUR OWN PROTECTION, YOU SHOULD IMMEDIATELY SEEK THE ADVICE OF AN ATTORNEY.**

..... (Cut Out and Return This Form to).....  
\_\_\_\_\_ (Name and Title of Levying Officer)  
\_\_\_\_\_ (Street Address and City)  
\_\_\_\_\_ (Area Code and Telephone Number  
of Levying Officer)

I declare that my absence from the previous hearing on whether or not this property should be sold was legally excusable. I, or my spouse, currently reside in this property and I wish a further hearing so that I may assert my exemption rights under Code of Civil Procedure Section 690.31 and contest the sale of my home. I understand that the clerk of the court will notify me of the date and place for this hearing if I return this form immediately and that I must attend this hearing.

I declare under penalty of perjury that the foregoing is true and correct.

Executed on \_\_\_\_\_ at \_\_\_\_\_, California.

\_\_\_\_\_  
Signature of Debtor or Debtor’s Spouse

(h) If the debtor or spouse of the debtor declares that his or her absence or the absence of his or her attorney at the hearing was due to mistake, inadvertence, surprise or excusable neglect and declares that the subject dwelling house may be entitled to an exempt status, the levying officer shall, upon receipt of the declarations of the debtor five days prior to the scheduled sale date, cancel the sale pending further orders of the court and transmit the notice forthwith to the court. Upon receipt of the notice, the clerk shall set a hearing to determine whether the writ of execution should be recalled, and

shall give at least 10 days notice to the parties.

(i) Subsequent applications by a judgment creditor within 12 months of a denial of a writ of execution shall be supported by a statement under oath alleging that there is a material change of circumstances affecting the exemption, and setting forth facts supporting such claimed material change of circumstances.

(j) In the event of an execution sale, the proceeds of the sale shall be applied in the following order and priority: first, to the discharge of all liens and encumbrances, if any, on the property; second, to the debtor, or the debtor's spouse if such person is the exemption claimant, in the amount of the exemption provided by this section; third, to the satisfaction of the execution; and fourth, to the debtor, or the debtor's spouse if such person is the exemption claimant.

(k) That portion of the proceeds from the sale of real property pursuant to an order of the court directing the issuance of a writ of execution pursuant to subdivision (g) of this section, which portion represents the amount of the exemption, shall be exempt for a period of six months from the date of receipt of the proceeds. Where such exempt proceeds are used for the purchase of a dwelling house, in which the debtor or the family of the debtor actually reside, within a period of six months following receipt, the subsequently acquired dwelling shall be exempt from execution and for the purposes of subparagraphs (i) and (ii) of paragraph (2) of subdivision (b). The exemption for the subsequently acquired real property shall have the same effect as if allowed on the date of the acquisition of or the commencement of residence by the debtor or the spouse of the debtor, whichever last occurred, in the property previously determined to be exempt, except with respect to a judgment or other obligation which by statute is given the force and effect of a judgment lien against the subsequently acquired property prior to its acquisition.

SEC. 5. Nothing in this act shall be construed to alter, change, or modify the rights of any lienholder or encumbrancer vested prior to July 1, 1977, or the operative date of Chapter 1251 of the Statutes of 1974.

SEC. 6. This act shall become operative on July 1, 1977.

---

## CHAPTER 1001

An act to amend Section 21150.1 of the Business and Professions Code, relating to franchises.

[Approved by Governor September 16, 1976 Filed with  
Secretary of State September 17, 1976.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 21150.1 of the Business and Professions Code is amended to read:

21150.1. In all future franchise agreements no retail gasoline dealer who operates pursuant to a franchise shall be precluded by the franchisor from establishing his own hours of business or operation beyond the hour of 10 p.m. and prior to 6 a.m.

This section shall not apply:

(1) Where different hours of business or operation are required under the franchisor's prime lease or license from any governmental entity, airport, parking, marine or port authority, shopping center, or any private investor not affiliated with or controlled by the franchisor; or,

(2) Where the retail gasoline station subject to the franchise agreement is located within one-half mile access of any highway which is a part of the California freeway and expressway system, provided, however, that if there is not commercial property developed as a service station within one-half mile of an entry to or exit from any such highway, the exception shall extend to the first such development and extend one-quarter mile beyond in all directions. This section is also not applicable to any business which is not primarily a gasoline station, but which sells gasoline incidentally to its business.

---

## CHAPTER 1002

An act to amend Section 17508 of the Business and Professions Code, relating to false advertising.

[Approved by Governor September 16, 1976. Filed with Secretary of State September 17, 1976.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 17508 of the Business and Professions Code is amended to read:

17508. (a) It shall be unlawful for any person doing business in California and advertising to consumers in California to make false advertising claims that (1) purport to be based on factual, objective, or clinical evidence, or that (2) compare the product's effectiveness or safety to that of other brands or products.

(b) Upon written request of the Director of Consumer Affairs, the Attorney General, any city attorney, or any district attorney any person doing business in California and in whose behalf advertising claims are made to consumers in California that (1) purport to be based on factual, objective, or clinical evidence, or that (2) compare

the product's effectiveness or safety to that of other brands or products, shall provide to the department or official making the request evidence of the facts on which such advertising claims are based. Any such request shall be made within one year of the last day on which such advertising claims were made.

Any city attorney or district attorney who makes a request pursuant to this subdivision shall give prior notice of such request to the Attorney General.

(c) The Director of Consumer Affairs, Attorney General, any city attorney, or any district attorney may, upon failure of an advertiser to respond within a reasonable time, or if such Director of Consumer Affairs, Attorney General, city attorney, or district attorney shall have reason to believe that any such advertising claim is false, seek an immediate termination or modification of the claim by the person in accordance with Section 17535 and may disseminate information, taking due care to protect legitimate trade secrets, concerning the veracity of such claims to the consumers of this state.

(d) The relief provided for in subdivision (c) is in addition to any other relief which may be sought for a violation of this chapter. Section 17534 shall not apply to violations of this section.

(e) Nothing in this section shall be construed to hold any newspaper publisher or radio or television broadcaster liable for publishing or broadcasting any advertising claims referred to in subdivision (a), unless such publisher or broadcaster is the person making such claims.

---

## CHAPTER 1003

An act to amend Sections 9222, 9400, 9402, 9404, and 9461 of the Education Code, relating to instructional materials.

[Approved by Governor September 16, 1976. Filed with  
Secretary of State September 17, 1976 ]

*The people of the State of California do enact as follows:*

SECTION 1. Section 9222 of the Education Code is amended to read:

9222. "Instructional materials system" means a comprehensive collection of related instructional materials which are designed to improve learning in one or more subjects and are so designed that all parts of the system should be used to produce the results intended.

SEC. 2. Section 9400 of the Education Code is amended to read:

9400. The state board shall biennially adopt a list of textbooks and instructional materials for use in the elementary school grades subject to the following provisions:

(a) The state board shall adopt not less than five but not more than 15 of any of the following, per subject, per grade: (1) instructional materials, (2) instructional materials systems, (3) instructional materials sets, (4) a combination of instructional materials, instructional materials systems, and instructional materials sets. The state board may designate each instructional material, instructional material system, instructional material set, or any combination thereof, as basic or supplementary. The state board shall not adopt more than two instructional materials sets per subject.

(b) Fewer than five instructional materials, instructional materials systems, and instructional materials sets may be adopted per subject, per grade if publishers and manufacturers of instructional materials do not submit a sufficient number of educationally useful materials or systems, as determined by the state board; however, in no event shall the state board adopt less than two instructional materials systems per subject, per grade.

(c) In the event that a district board establishes to the satisfaction of the state board that the adoption of basic instructional materials does not promote the maximum efficiency of pupil learning in the district, the state board shall authorize that district board to use its instructional materials credit to purchase, through the Department of Education, additional instructional materials specified by the state board in accordance with standards and procedures established by the state board.

(d) The state board shall biennially adopt lists of instructional materials for the following subjects: (1) language arts, (2) arithmetic, (3) social sciences, (4) reading, (5) science, and (6) any other subject in which the board shall determine the need and desirability for instructional materials to promote the maximum efficiency of pupil learning. The state board may establish a cycle for adoptions by designating subjects to be adopted in even-numbered years and subjects to be adopted in odd-numbered years.

(e) The state board shall, at the time of the adoption, determine the date upon which state-adopted instructional materials shall be available for use by district boards.

(f) The state board may adopt instructional materials, instructional materials systems, and instructional materials-sets without designating a grade or subject and the state board may designate more than one grade or subject whenever the state board determines that a single subject designation or a single grade designation would not promote the maximum efficiency of pupil learning. Any materials so designated may be placed on a single grade or single subject list or may be placed on separate lists including other materials with similar grade or subject designations; however, all materials so designated shall be adopted subject to the numerical limitations of subdivision (a).

SEC. 3. Section 9402 of the Education Code is amended to read: 9402. Before final adoption of any instructional materials not currently listed, the state board shall make any instructional materials proposed for adoption available for public inspection for not less than 30 days at display centers designated by the Superintendent of Public Instruction. There shall be an adequate distribution of display centers throughout the state.

SEC. 4. Section 9404 of the Education Code is amended to read: 9404. The commission shall:

- (a) Recommend curriculum frameworks to the state board.
- (b) Develop criteria for evaluating instructional materials submitted for adoption so that the materials adopted shall adequately cover the subjects in the indicated grade or grades and which comply with the provisions of Article 3 (commencing with Section 9240) of Chapter 1 of this division. Such criteria shall be public information and shall be provided in written or printed form to any person requesting such information.
- (c) Study and evaluate instructional materials submitted for adoption.
- (d) Recommend to the state board instructional materials which it approves for adoption.

SEC. 5. Section 9461 of the Education Code is amended to read: 9461. District boards shall determine the necessary quantities and distribution pattern of instructional materials to pupils. No minimum order or ratio of materials shall be required, except that each district board shall provide sufficient quantities of state-adopted textbooks and instructional materials to meet the needs of their pupils and the requirements of Section 7.5 of Article IX of the California Constitution.

SEC. 6. Section 2 of this act shall not become operative if Senate Bill No. 1972 is enacted at the 1975-76 Regular Session of the Legislature.

---

## CHAPTER 1004

An act to add Article 5 (commencing with Section 12590) to Chapter 6 of Title 2 of Part 4 of the Penal Code, relating to peace officers.

[Approved by Governor September 16, 1976. Filed with  
Secretary of State September 17, 1976 ]

*The people of the State of California do enact as follows:*

SECTION 1. Article 5 (commencing with Section 12590) is

added to Chapter 6 of Title 2 of Part 4 of the Penal Code, to read:

### Article 5. Picketing

12590. (a) Any person who does any of the following acts while engaged in picketing, or other informational activities in a public place relating to a concerted refusal to work, is guilty of a misdemeanor:

(1) Carries concealed upon his person or within any vehicle which is under his control or direction any pistol, revolver, or other firearm capable of being concealed upon the person.

(2) Carries a loaded firearm upon his person or within any vehicle which is under his control or direction.

(3) Carries a deadly weapon, as defined in subdivision (f) of Section 3024.

(4) Wears the uniform of a peace officer, whether or not the person is a peace officer.

(b) This section shall not be construed to authorize or ratify any picketing or other informational activities not otherwise authorized by law.

(c) Section 12027 shall not be construed to authorize any conduct described in paragraph (1) of subdivision (a) of this section, nor shall subdivision (b) of Section 12031 be construed to authorize any conduct described in paragraph (2) of subdivision (a) of this section.

SEC. 2. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to this section nor shall there be an appropriation made by this act because the Legislature recognizes that during any legislative session a variety of changes to laws relating to crimes and infractions may cause both increased and decreased costs to local governmental entities and school districts which, in the aggregate, do not result in significant identifiable cost changes.

---

## CHAPTER 1005

An act to amend Section 3369 of the Civil Code, relating to judicial relief.

[Approved by Governor September 16, 1976. Filed with  
Secretary of State September 17, 1976.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 3369 of the Civil Code is amended to read:  
3369. 1. Neither specific nor preventive relief can be granted to

enforce a penalty or forfeiture in any case, nor to enforce a penal law, except in a case of nuisance or unfair competition.

2. Any person performing or proposing to perform an act of unfair competition within this state may be enjoined in any court of competent jurisdiction. The court may make such orders or judgments, including the appointment of a receiver, as may be necessary to prevent the use or employment by any person of any practice which constitutes unfair competition, as defined in this section, or as may be necessary to restore to any person in interest any money or property, real or personal, which may have been acquired by means of such unfair competition.

3. As used in this section, unfair competition shall mean and include unlawful, unfair or fraudulent business practice and unfair, deceptive, untrue or misleading advertising and any act denounced by Business and Professions Code Sections 17500 to 17535, inclusive.

4. As used in this section, the term person shall mean and include natural persons, corporations, firms, partnerships, joint stock companies, associations and other organizations of persons.

5. Actions for injunction under this section may be prosecuted by the Attorney General or any district attorney or any city attorney of a city having a population in excess of 750,000, and, with the consent of the district attorney, by a city prosecutor in any city or city and county having a full-time city prosecutor in the name of the people of the State of California upon their own complaint or upon the complaint of any board, officer, person, corporation or association or by any person acting for the interests of itself, its members or the general public.

6. Unless otherwise expressly provided, the remedies or penalties provided by this section and Section 3370.1 are cumulative to each other and to the remedies or penalties available under all other laws of this state.

---

## CHAPTER 1006

An act to add Section 3370.2 to the Civil Code, relating to injunctions.

[Approved by Governor September 16, 1976. Filed with  
Secretary of State September 17, 1976 ]

*The people of the State of California do enact as follows:*

SECTION 1. Section 3370.2 is added to the Civil Code, to read:  
3370.2. (a) Any person who intentionally violates any injunction prohibiting unfair competition issued pursuant to Section 3369 shall be liable for a civil penalty not to exceed six thousand dollars (\$6,000)

for each violation. Where the conduct constituting a violation is of a continuing nature, each day of such conduct is a separate and distinct violation. In determining the amount of the civil penalty, the court shall consider all relevant circumstances, including, but not limited to, the extent of the harm caused by the conduct constituting a violation, the nature and persistence of such conduct, the length of time over which the conduct occurred, the assets, liabilities, and net worth of the person, whether corporate or individual, and any corrective action taken by the defendant.

(b) The civil penalty prescribed by this section shall be assessed and recovered in a civil action brought in any county in which the violation occurs or where the injunction was issued in the name of the people of the State of California by the Attorney General or by any district attorney, or any city attorney in any court of competent jurisdiction within his jurisdiction without regard to the county from which the original injunction was issued. An action brought pursuant to this section to recover such civil penalties shall take precedence over all civil matters on the calendar of the court except those matters to which equal precedence on the calendar is granted by law.

(c) If such an action is brought by the Attorney General, one-half of the penalty collected pursuant to this section shall be paid to the treasurer of the county in which the judgment was entered, and one-half to the State Treasurer. If brought by a district attorney the entire amount of the penalty collected shall be paid to the treasurer of the county in which the judgment is entered. If brought by a city attorney or city prosecutor, one-half of the penalty shall be paid to the treasurer of the county in which the judgment was entered and one-half to the city.

---

## CHAPTER 1007

An act to add Section 64591.1 to the Food and Agricultural Code, relating to livestock.

[Approved by Governor September 16, 1976. Filed with  
Secretary of State September 17, 1976.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 64591.1 is added to the Food and Agricultural Code, to read:

64591.1. Notwithstanding other provisions of this article, the director shall, with or without nominations, appoint one member and one alternate member to the council to represent the general public,

in addition to the 20 members of the council otherwise provided for. Such persons shall not be affiliated in any way with the production or marketing of beef and shall have all of the rights and privileges, including voting, of any other member or alternate member of the council. The regular term of office of any member or respective alternate member appointed pursuant to this section shall be as close as possible to three full years and shall terminate on December 31 of the year which will provide for more than two but not more than three full years in office.

---

## CHAPTER 1008

An act to amend Section 16755 of the Business and Professions Code, relating to restraints of trade.

[Approved by Governor September 16, 1976. Filed with  
Secretary of State September 17, 1976.]

*The people of the State of California do enact as follows:*

**SECTION 1.** Section 16755 of the Business and Professions Code is amended to read:

16755. (a) Any violation of this chapter is a conspiracy against trade, and any person who engages in any such conspiracy or takes part therein, or aids or advises in its commission, or who as principal, manager, director, agent, servant or employee, or in any other capacity, knowingly carries out any of the stipulations, purposes, prices, rates, or furnishes any information to assist in carrying out such purposes, or orders thereunder or in pursuance thereof, is punishable by a fine of not more than one million dollars (\$1,000,000) if a corporation, or one hundred thousand dollars (\$100,000) if an individual, or by imprisonment in a state prison for not more than three years, or by imprisonment for not more than one year in a county jail, or by both such fine and imprisonment.

(b) Any action pursuant to this section may be commenced at any time within three years after the commission of the last act comprising a part of any violation.

(c) Subject to the provisions of Section 13521 of the Penal Code, all moneys received by any court in payment of any fine or civil penalty imposed pursuant to this section shall, as soon as practicable after the receipt thereof, be deposited with the county treasurer of the county in which such court is situated. Amounts so deposited shall be paid as soon as practicable as follows: 100 percent to the State Treasurer by warrant of the county auditor drawn upon the requisition of the clerk or judge of said court to be deposited in the

State Treasury on order of the State Controller if such moneys received resulted from an action initiated and prosecuted by the Attorney General. If such action was initiated and prosecuted by a district attorney then 100 percent shall be paid as soon as practicable to the treasurer of the county in which the prosecution is conducted. If such action was initiated and prosecuted jointly by the Attorney General and a district attorney or jointly by more than one district attorney, such amounts shall be paid to the State Treasurer and to the treasurer(s) of the county or counties in which the prosecution is conducted in a proportion agreed upon by the agencies jointly prosecuting such case and as approved by the court.

---

## CHAPTER 1009

An act to amend Sections 980, 980.5, and 981 of the Unemployment Insurance Code, relating to unemployment insurance, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 16, 1976. Filed with  
Secretary of State September 17, 1976.]

*The people of the State of California do enact as follows:*

**SECTION 1.** Section 980 of the Unemployment Insurance Code is amended to read:

**980.** (a) In determining the balance in the Unemployment Fund for the purpose of Section 977 or 978 there shall be excluded:

(1) Any amount credited to this state's account in the Unemployment Trust Fund pursuant to Section 903 of the Social Security Act, as amended, which has been appropriated for expenses of administration other than for capital assets, whether or not such amount has been withdrawn from such fund.

(2) Any unexpended advance from the federal unemployment account in the Unemployment Trust Fund received in accordance with Section 323 of this division and Title XII of the Social Security Act as amended.

(3) Any amount paid in advance into the Unemployment Fund by an employer under any type of coverage pursuant to which reimbursement of benefits is permitted or required in lieu of the contributions required of employers.

(4) Any amount paid in advance into the Unemployment Fund by the federal government under the provisions of any federal law that requires or permits this state to pay benefits from the Unemployment Fund and provides for advances by the federal government for reimbursement of all or part of such benefits.

(b) In determining the balance in the Unemployment Fund for the purpose of Section 977 or 978, there shall also be excluded any estimated or other contributions not legally due and payable with respect to the final calendar quarter of the calendar year, except any payment of contributions made under Section 1137 and except any payment of contributions by employers terminating business during any calendar quarter.

SEC. 2. Section 980.5 of the Unemployment Insurance Code is amended to read:

980.5. In determining the balance in the Unemployment Fund for the purpose of Section 977 or 978 there shall be included:

(a) The unreimbursed balance of all benefits paid from the Unemployment Fund to claimants when such benefits are based upon wages in employment under any type of coverage pursuant to which reimbursement of benefits is permitted or required in lieu of the contributions required of employers, whether or not the director has certified such benefits to the employer as due or payable.

(b) The unreimbursed balance of all benefits paid from the Unemployment Fund to claimants when and to the extent that such benefits are subject to reimbursement by the federal government under the provisions of any federal law that requires or permits this state to pay benefits from the Unemployment Fund and provides for reimbursement by the federal government of all or part of such benefits.

SEC. 3. Section 981 of the Unemployment Insurance Code is amended to read:

981. In determining wages in employment, for the purpose of Section 977 or 978, there shall be excluded all wages paid in employment under any type of coverage pursuant to which reimbursement of benefits is permitted or required in lieu of the contributions required of employers.

SEC. 4. The sum of forty-one thousand dollars (\$41,000) is appropriated from the General Fund to the State Controller, to be expended only for reimbursement to local governments for payments to classified school employees made pursuant to changing the unemployment compensation rates in accordance with Section 2231 of the Revenue and Taxation Code.

SEC. 5. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order for the Department of Benefit Payments to complete reimbursement to local governments for payments to classified school employees made pursuant to Chapter 1256, Statutes of 1975, a deficiency appropriation of forty-one thousand dollars (\$41,000) is necessary.

## CHAPTER 1010\*

An act to repeal and reenact the Education Code, relating to education law.

[Approved by Governor September 16, 1976. Filed with Secretary of State September 16, 1976.]

Note: The Education Code consists of this chapter as originally enacted, and also contains the amendments to the code made by Chapter 1011.

Chapters 1010 and 1011 are both *effective* January 1, 1977. However, the provisions of Chapter 1010 are not *operative* until April 1, 1977.

*The people of the State of California do enact as follows:*

SECTION 1. The Education Code is repealed.

SEC. 2. The Education Code is enacted, to read:

TITLE 1. GENERAL EDUCATION CODE PROVISIONS

DIVISION 1. GENERAL EDUCATION CODE PROVISIONS

PART 1. GENERAL PROVISIONS

CHAPTER 1. GENERAL PROVISIONS

Article 1. Construction of Provisions

1. This code shall be known as the Education Code.

(Amended by Stats. 1976, Ch. 1011.)

[ORIGINAL SECTION]

1. This act shall be known as the Education Code.

2. The code establishes the law of this state respecting the subjects to which it relates, and its provisions and all proceedings under it are to be liberally construed, with a view to effect its objects and to promote justice.

3. The provisions of this code, insofar as they are substantially the same as existing statutory provisions relating to the same subject matter, shall be construed as restatements and continuations, and not as new enactments.

4. Whenever reference is made to any portion of this code or of any other law of this state, such reference applies to all amendments and additions now or hereafter made.

5. Title, division, part, chapter, article, and section headings do not in any manner affect the scope, meaning, or intent of the provisions of this code.

6. If any provision of this code, or the application thereof to any

\* A cross-reference table showing the origin of each section appears in the appendix to the 1976 Statutes

person or circumstances is held invalid, the remainder of the code, and the application of such provision to other persons or circumstances, shall not be affected thereby.

7. Whenever a power is granted to, or a duty is imposed upon, a public officer, the power may be exercised or the duty may be performed by a deputy of the officer or by a person authorized, pursuant to law, by the officer, unless this code expressly provides otherwise.

8. Words giving a joint authority to three or more public officers or other persons are construed as giving such authority to a majority of them, unless it is otherwise expressed in the provisions of the code giving the authority.

9. The time in which any act provided by this code is to be done is computed by excluding the first day, and including the last, unless the last day is a holiday, and then it is also excluded.

10. Unless the provisions or the context otherwise requires these general provisions, rules of construction, and definitions shall govern the construction of this code.

## Article 2. Continuation of Rights and Duties

20. All persons who, at the time this code goes into effect, hold office under any of the acts repealed by this code, which offices are continued by this code shall continue to hold them according to their former tenure.

21. No action or proceeding commenced before this code takes effect, and no right accrued, is affected by the provisions of this code, but all procedure thereafter taken therein shall conform to the provisions of this code so far as possible.

22. No rights given by any license or certificate under any act repealed by this code are affected by the enactment of this code or by such repeal, but such rights shall hereafter be exercised according to the provisions of this code.

23. All persons who, at the time this code goes into effect, are entitled to a certificate or credential under any act repealed by this code, are thereby entitled to a certificate or credential under the provisions of this code so far as the provisions of this code are applicable.

## Article 3. Language of Instruction

30. English shall be the basic language of instruction in all schools.

The governing board of any school district, or community college district, and any private school may determine when and under what circumstances instruction may be given bilingually.

It is the policy of the state to insure the mastery of English by all pupils in the schools; provided that bilingual instruction may be offered in those situations when such instruction is educationally advantageous to the pupils. Bilingual instruction is authorized to the

extent that it does not interfere with the systematic, sequential, and regular instruction of all pupils in the English language.

Pupils who are proficient in English and who, by successful completion of advanced courses in a foreign language or by other means, have become fluent in that language may be instructed in classes conducted in that foreign language.

#### Article 4. Equal Opportunity Without Regard to Sex of the Student

40. (a) It is the policy of the state that elementary and secondary school and community college classes and courses, including nonacademic and elective classes and courses be conducted, without regard to the sex of the student enrolled in such classes and courses.

(b) No school district or community college district shall prohibit any student from enrolling in any class or course on the basis of the sex of the student, except a class subject to Section 51550.

(c) No school district or community college district shall require students of one sex to enroll in a particular class or course, unless the same class or course is also required of students of the opposite sex.

(d) No school counselor shall, on the basis of the sex of a student, offer vocational or school program guidance to students of one sex which is different from that offered to students of the opposite sex or, in counseling students, differentiate career, vocational or higher education opportunities on the basis of the sex of the student counseled.

(e) Participation in a particular physical education activity or sport, if required of students of one sex, shall be available to students of each sex.

41. (a) The Legislature finds and declares that female students are not accorded opportunities for participation in school-sponsored athletic programs equal to those accorded male students. It is the intent of the Legislature that opportunities for participation in athletics be provided equally to male and female students.

(b) Notwithstanding any other provisions of law, no public funds shall be used in connection with any athletic program conducted under the auspices of a school district or community college governing board or any student organization within the district, which does not provide equal opportunity to both sexes for participation and for use of facilities. Facilities and participation include, but are not limited to, equipment and supplies, scheduling of games and practice time, compensation for coaches, travel arrangements, per diem, locker rooms, and medical services.

(c) Nothing in this section shall be construed to require a school district or community college to require competition between male and female students in school-sponsored athletic programs.

### Article 5. General Provisions, Public Schools

50. The public schools other than those supported exclusively by the state, are day and evening elementary, and day and evening secondary schools.

51. Secondary schools may be established and maintained pursuant to this code.

52. The secondary schools of the state are designated as high schools, technical schools, adult schools, and community colleges.

53. The high schools of the state are designated as four-year high schools, junior high schools, senior high schools, continuation high schools, and evening high schools. Evening high schools may be designated as adult schools.

### Article 6. Administration and Certification of Oaths

60. The Superintendent of Public Instruction, Deputy and Assistant Superintendents of Public Instruction, secretary of the Superintendent of Public Instruction, members of the Board of Governors of the California Community Colleges, the Chancellor of the California Community Colleges, county superintendents of schools, school trustees, members of boards of education, secretaries and assistant secretaries of boards of education, city superintendents of schools, district superintendents of schools, assistant superintendents of schools, deputy superintendents of schools, principals of schools, and every other officer charged with the performance of duties under the provisions of this code may administer and certify oaths relating to officers or official matters concerning public schools.

### Article 7. Definitions

70. Writing includes any form of recorded message capable of comprehension by ordinary visual means. Whenever any notice, report, statement, or record is required or authorized by this code, it shall be made in writing in the English language unless it is expressly provided otherwise.

Wherever any notice or other communication is required by this code to be mailed by registered mail by or to any person or corporation, the mailing of such notice or other communication by certified mail shall be deemed to be a sufficient compliance with the requirements of law.

71. "Section" means a section of this code unless some other statute is specifically mentioned.

72. The present tense includes the past and future tenses, and the future, the present.

73. The masculine gender includes the feminine.

74. The singular number includes the plural, and the plural, the singular.

75. "Shall" is mandatory and "may" is permissive.

76. "Oath" includes affirmation.

77. "State" means the State of California, unless applied to the different parts of the United States. In the latter case, it includes the District of Columbia and the territories.

78. "Governing board" means board of school trustees, community college board of trustees, and city, and city and county board of education.

79. "City superintendent of schools" includes the superintendent of schools of a district lying wholly or partly within a city and county.

80. "Any school district" and "all school districts" mean school districts of every kind or class, except a community college district.

81. "Union school district" means a district composed of two or more school districts situated in the same county.

82. "Joint union school district" means a district composed of two or more school districts situated wholly or in part in different counties.

83. A unified school district means a district maintaining grades kindergarten or 1 through 12. A unified district may comprise territory in more than one county.

84. "City school district" includes a school district lying wholly or partly within a city and county.

85. Whenever "high school district" is used in this code, unless a contrary intent appears, it includes union high school districts, joint union high school districts, and county high school districts.

86. A high school district, other than a city high school district, comprising two or more elementary school districts lying wholly in the same county is a union high school district, and such designation shall be part of its name.

87. A school district lying in more than one county is a joint school district.

88. Whenever used in this code, in specifying or defining the rights of employees of school districts who are absent from their duties as employees of the district while in the active military service of the United States of America or of the State of California, or while assigned to duty with the military forces of the United States of America or of the State of California in the full-time paid service of the American Red Cross, the word "war" shall mean: (a) whenever Congress has declared war and peace has not been formally restored; (b) whenever the United States is engaged in active military operations against any foreign power, whether or not war has been formally declared; or (c) whenever the United States is assisting the United Nations, in actions involving the use of armed force, to restore international peace and security.

89. The word "department" whenever used in this code, unless the context otherwise requires, means the Department of Education.

90. With respect to the personnel of school districts and other educational agencies, the terms "certificated" and "certified" have the same meaning.

91. Any reference to junior colleges or junior college districts in any law shall be deemed to refer to community colleges and community college districts, respectively.

92. "County" or "counties" as used in Sections 2300, 12300 to 12307, inclusive, 41000 to 41964, inclusive, 42100 to 42128, inclusive, 46000 to 46392, inclusive, 76300 to 76342, inclusive, 84000 to 84874, inclusive, and 85000 to 85443, inclusive, whichever are in effect, includes a city and county.

## PART 2. COUNTY EDUCATIONAL AGENCIES

### CHAPTER 1. COUNTY BOARDS OF EDUCATION

#### Article 1. Election, Jurisdiction, Organization and Procedure

1000. Except in a city and county, there shall be a county board of education, which shall consist of five or seven members to be determined by the county committee on school district organization. Each member of the board shall be an elector of the trustee area which he represents and shall be elected by the electors of the trustee area. In chartered counties the manner of selection of the county board of education shall be prescribed in the county charter, or by the county board of supervisors. In a county unified school district or in a unified or elementary school district which includes all of the territory over which a county superintendent of schools has jurisdiction, the governing board of the district shall serve as the county board of education.

1001. (a) In those counties where the county superintendent of schools has jurisdiction over a school district situated in two or more counties, any qualified elector residing in the part of the school district situated in a county whose county superintendent of schools does not have jurisdiction of such school district shall be eligible to vote for one or more members of the county board of education of the county whose county superintendent of schools has jurisdiction over the school district. Each such elector shall be eligible to vote for the member of the county board of education representing the trustee area of such county having jurisdiction as designated by the county committee on school district organization. Such committee shall apportion the portion of the school district territory not situated in the county having jurisdiction to one or more trustee areas of the other county so that such territory shall, insofar as possible, be represented as if it were situated in the county having jurisdiction. The territory so apportioned shall not become a part of the trustee area to which apportioned for any other purpose. As used in this subdivision, "school district" means any joint union elementary school district, joint union high school district or joint unified school district but does not include any community college district.

(b) Any person who is a resident of a county and is made eligible to vote for the county board of education of another county pursuant

to subdivision (a) shall not be eligible to vote for the county board of education of the county of which he is a resident. Notwithstanding the foregoing provisions of this subdivision, a person shall be eligible to vote for both county boards of education if he is a resident or an elementary school district of any type which is included in a joint union high school district and the elementary school district and the joint union high school district are each under the jurisdiction of different county superintendents of schools.

This section shall not be applicable in a chartered county unless made so by the charter, or by the board of supervisors acting pursuant to the charter.

1002. Upon being so requested by the county board of education, the county committee on school district organization, by a two-thirds vote of the members, may either change the boundaries of any or all of the trustee areas of the county, or propose to increase or decrease the number of members of the county board of education, or both. The trustee areas shall be as nearly equal in population as may be, except that in establishing or changing the boundaries of the trustee areas the county committee may give consideration to the following factors: (a) topography, (b) geography, (c) cohesiveness, continuity, integrity, and compactness of territory, and (d) community of interests of the trustee areas. In any event, the county committee shall insure that such areas are as nearly equal in population as practicable. Changes in trustee area boundaries or a proposed reduction in the number of county board of education members shall be made in writing and filed with the county board of supervisors not later than the first day of March of any school year.

In those counties in which the election of members of county boards of education are required to be held on the same date as prescribed for the election of members of governing boards of school districts, as provided in Section 1007, the county committees on school district organization shall fix the boundaries of trustee areas, insofar as possible, to coincide with the boundaries of school districts.

Whenever the boundaries of trustee areas are changed so as to be coterminous with those of supervisorial districts of the county, the election for members of the county board of education shall be consolidated with the countywide election.

1003. When a county committee on school district organization proposes to reduce from seven to five or increase from five to seven the number of members of the county board of education, the county committee shall call and conduct a hearing on the matter. At the conclusion of the hearing, the county committee shall, by resolution, approve or disapprove the proposal.

1004. The resolution of the county committee approving a reduction or increase in the number of members of the county board of education shall constitute an order of election, and the proposal shall be presented to the electors of the county not later than the next succeeding election for members of the county board of education. The ballot shall contain the following words, as appropriate:

“For decreasing (increasing) the number of members of the county board of education from seven (five) to five (seven)—Yes”

“For decreasing (increasing) the number of members of the county board of education from seven (five) to five (seven)—No”

1005. The boundaries of any trustee area shall not at any time be changed so as to affect the term of office of any member of the county board of education who has been elected and whose term of office has not expired.

1006. Any registered voter is eligible to be a member of the county board of education except the county superintendent of schools, any member of his staff, or any employee of a school district.

1007. Members of the county board of education shall be elected on the date and in the manner prescribed for the election of members of governing boards of school districts, provided such elections are held throughout the county on the same date; otherwise the election shall be consolidated with the direct primary election. Once established, no subsequent change of circumstances shall require that the time of holding the election be changed. Where the elections for governing board members are held on the same date, then the provisions of Section 5303 of this code shall apply to the election of members of the county board of education. The first election held under this article shall be conducted by the county board of supervisors and thereafter by the county board of education. Members elected at the time of the direct primary shall take office on the first day of July, and members elected at the date on which members of school district governing boards are elected shall take office on the first day of April, subsequent to their election and shall serve for a term to be determined for each county by the county committee on school district organization. The county committee on school district organization shall also determine the manner in which the county board of education first elected shall effect a staggering of terms.

1008. When any vacancy exists on the county board of education of any county and the term in which the vacancy occurs has 12 months or less remaining until its completion, the vacancy shall be filled by the majority of the remaining members of the board for the duration of the unexpired term. In all other cases, the county superintendent of schools having jurisdiction shall call a special election within the county at which election the vacancy shall be filled.

The special election shall be consolidated with the next countywide election, or the next municipal election if the vacancy to be filled is that of a member representing such municipality, if (a) the vacancy occurs within six months of the next regularly scheduled countywide election or municipal election, as the case may be, (b) a quorum of the board still exists, and (c) the board requests the county superintendent of schools to consolidate the special election with the next regularly scheduled countywide election or municipal

election, as the case may be.

Any person elected shall fill out the unexpired term to which he was elected.

A special election shall be held and conducted in as nearly the same manner as is practicable as are elections of members of the county board of education.

If a request is made for a consolidation of the special election with the next regularly scheduled countywide election or municipal election and a vacancy would continue for three months or more until the next regularly scheduled countywide election or municipal election, the vacancy shall temporarily be filled by the majority of the remaining members of the board. The appointee shall hold office only until the next regularly scheduled countywide election or municipal election, as the case may be.

1009. The county board of education shall organize at a meeting held in each year by electing one of their number president of the board. The meeting at which the organization is conducted shall be either the first meeting on or after the first day of April, or the first meeting on or after the first day of July, depending upon whether, pursuant to Section 1007, the terms of office of board members commence on the first day of April or the first day of July.

1010. The county superintendent of schools is ex officio secretary and executive officer of the board.

1011. Regular meetings of the board shall be held at such time as it may determine, but not less than once per month.

1012. Special meetings may be called by the president whenever, in his judgment, the exigencies of the schools require them to be held. Upon the request of any three members, in writing, the president shall call a special meeting.

1013. A majority of the members shall constitute a quorum for the transaction of business.

1014. No teacher's certificate shall be issued or renewed, nor shall any books or apparatus be adopted except by an affirmative vote of at least a majority of the members of the board.

1015. On the call of any member, the ayes and nays shall be taken upon any proposition, and the vote shall be recorded in the minutes of the board.

1016. At special meetings, no business shall be transacted other than such as may be specified in the call of the president, except that certificates to teach, upon credentials, may be granted, and unexpired certificates to teach may be renewed at any meeting of the board.

1017. In those counties in which the election of members of county boards of education are required to be held on the same date as prescribed for the election of members of governing boards of school districts, as provided in Section 1007, the offices of those members of the county board of education whose terms have been fixed to expire in even-numbered years shall become vacant upon the expiration of those terms. The vacancies arising shall be filled by

the majority of the remaining members of the board, and the appointees shall hold office only until the first day of July following the election of their successors.

## Article 2. Duties and Responsibilities

1040. County boards of education shall:

(a) Adopt rules and regulations not inconsistent with the laws of this state, for their own government.

(b) Keep a record of their proceedings.

(c) Approve the annual budget of the county superintendent of schools before its submission to the county board of supervisors.

(d) Approve the annual county school service fund budget of the county superintendent of schools before its submission to the Superintendent of Public Instruction.

1041. County boards of education may:

(a) Adopt and use an official seal in authentication of their acts.

(b) Have such printing done as may be necessary.

1042. County boards of education may:

(a) Adopt rules and regulations governing the administration of the office of the county superintendent of schools.

(b) Review the county superintendent of schools annual itemized estimate of anticipated revenue and expenditures before such annual itemized estimate is filed with the auditor as required by Section 29040 of the Government Code and make such revisions, reductions or additions therein that it deems advisable and proper. No such itemized estimate shall be filed by the county superintendent of schools or be approved by the board of supervisors until it has first been so reviewed and approved by the county board of education.

(c) In the name by which the board of education is designated, acquire, hold and convey real property for the purpose of housing the offices and the services of the county superintendent of schools, except that this subdivision shall only apply to such county boards of education to which all the duties and functions of the county board of supervisors have been transferred pursuant to Section 1080.

1043. Upon the adoption of a resolution by the board of supervisors of the county consenting to the transfer of the functions specified in the sections set forth below in this section, the functions specified in such section shall be transferred from the county board of supervisors to the county board of education. The functions, including but not limited to the receipt of petition and reports and other papers, are those specified in Sections 4025, 4060, 4065, 4083, 4417, 35001, 35002, 35676, 35698, 35699, 35703, 35704, 35705, 35722, 35723, 35724, 72002, 74526, 74638, 74639, 74643, 74644, 74645, 74671, 74672, and 74673.

Upon the adoption of such resolution, any reference, with respect to that county, in such sections to the board of supervisors shall be deemed to be a reference to the county board of education of that

county and any reference to the clerk of the county board of supervisors shall be deemed to be a reference to the secretary of the county board of education of that county.

1044. Any county board of education may secure copyrights, in the name of the board, to all copyrightable works developed by the board, and royalties or revenue from such copyrights are to be for the benefit of the board securing such copyrights.

1045. Any county board of education may, in accordance with regulations adopted by the board and for educational use, sell, give, or exchange for similar published materials, published materials prepared by the board in connection with the curricular and special services that the board is authorized to perform. Unless restricted by the regulations of the board, the sale or gift may be made to, and the exchange may be made with, any person, political subdivision, public officer or agency, or educational institution. The distribution of the published material in accordance with this section is declared to be a public purpose and in furtherance of Section 1 of Article IX of the California Constitution.

Any county board of education may also license the use of copyrights held by the board, to the same persons or entities and for the same purposes as provided in the prior paragraph.

The board shall grant such a license to any public agency organized under the authority of this state, unless an exclusive license has previously been granted a private publisher.

Any charge which may be assessed such a public agency for the license to use the copyright or for materials, to which the board holds the copyright, shall not exceed the cost to the board of the preparation and reproduction of the materials.

Any granting of a license, by a county board of education, to reproduce copyrighted material is declared to be for a public purpose in furtherance of Section 1 of Article IX of the California Constitution.

1046. The county board of education in any county required to provide for the education and training of handicapped persons residing in the county, when in its judgment necessity therefor exists, may construct and maintain dormitories for use and occupancy by such persons, and shall fix the rates to be charged such persons, or parents or guardians of such persons, for quarters in the dormitories.

### Article 3. Transfer of Duties and Functions to County Board of Education

1080. The county board of supervisors, by resolution, may transfer all of the following duties and functions of the county board of supervisors to the county board of education:

(a) Approval of the county superintendent's estimate of anticipated revenue and expenditures pursuant to Section 1042 following which it shall be filed with the county board of supervisors.

(b) Allowance of the actual and necessary travel expenses, the

expenses of the office of the county superintendent of schools, and the expenses of providing housing for all the services of the county superintendent of schools pursuant to Sections 1200, 1201, 1202, and 1203.

(c) By agreement with the county board of education, any other duties and functions of an educational, or educational and recreational, nature which by law are required or permitted to be performed by the county board of supervisors.

(d) By agreement with the county board of education, in addition to the functions specified in Section 1043, any duties and functions relative to the organization or reorganization of school districts and community college districts.

(e) By agreement with the county board of education, the community recreation functions authorized by Chapter 10 (commencing with Section 10900) of Part 7 of this division.

The transfer of duties and functions under the provisions of this article shall not alter the requirement that the expenses for such duties and functions be paid out of the county general fund as provided elsewhere in this code, provided however that the county board of supervisors and the county board of education may agree that all or any portion of the expenses for such duties and functions which are by law required or permitted to be paid from the county general fund shall be included in that part of the single budget prepared by the county board of education for which a county tax is levied pursuant to Section 1623.

1081. Upon the transfer of duties and functions to the county board of education pursuant to Section 1080, the county superintendent of schools may, with the approval of the county board of education, pay actual and necessary travel expenses incurred by the county superintendent of schools or by his designated staff members in accordance with regulations established by the county board of education. The board may authorize an advance of funds to cover such necessary traveling expenses. Such advance shall be repaid or adjusted upon the filing of a regular claim for the actual and necessary traveling expenses incurred.

1082. A county board of education to which functions and duties under this article have been transferred may enter into agreements for the acquisition of real property or improvements as authorized by the County Employees Retirement Law of 1937.

#### Article 4. Salaries and Expenses

1090. The board of supervisors may allow to each member of the county board of education as compensation not less than ten dollars (\$10) nor more than forty dollars (\$40) for each meeting of the board actually attended; provided, that compensation shall not be allowed for more than three meetings in any calendar month. The amount shall be determined by the county board of supervisors or, in a county having a fiscally independent county board of education, by

the county board of education. There may also be allowed to each member who uses a privately owned automobile in the discharge of necessary official duties as a member of the county board of education the same amount as allowed any county official in the performance of his official duties. The mileage rates allowed in this section should be based on the total mileage claimed in a calendar month.

1091. If the members of the board of supervisors of any county are not allowed mileage, the board of supervisors of the county shall allow to each member of the county board of education of that county actual and necessary traveling expenses not exceeding twenty-five cents (\$.25) per mile one way in attending the meetings of the board.

1092. The secretary may be allowed the sum of ten dollars (\$10) per day for the actual time that the board may be in session.

1093. Compensation of the members of the board, shall be payable out of the county general fund.

1094. Expenses for printing required by the county board of education, and all incidental expenses incurred for stationery or other purposes in the performance of its duties, shall be audited and paid as other claims against the general fund of the county are paid.

1095. The county board of education may subscribe for membership in, or otherwise become a member of, any state or local organization of governing boards of school districts or members thereof, or of county boards of education or members thereof, or both, which has for its primary purpose the promotion and advancement of public education through research and investigation, and the cooperation with persons and associations whose interests and purposes are the betterment of the educational opportunities of the children of the state. The costs incurred for the purposes of this section shall be payable out of the county general fund.

1096. The county board of education of each county may select a member or members of the board to attend meetings of any society, association, or organization for which the board has subscribed for membership, or any convention to which the governing board of a school district or a community college district may pay the expenses of any employee. The actual expenses of the member or members shall be allowed and paid out of the county general fund with prior budgetary approval.

1097. Whenever a tax rate or portion thereof is levied by any county for the support of its county board of education and superintendent of schools, the assessed valuation of all, but only such portions of elementary and unified school districts under its jurisdiction, shall be considered. The tax rate or portion thereof so computed shall be levied uniformly in all such areas, irrespective of the county in which situated. All moneys collected in surrounding counties from the levy of such tax rate or portion thereof shall be remitted by the respective county auditors to the auditor of the

county of jurisdiction and shall be deposited by him to the credit of the fund or funds from which the support of his county board of education and superintendent of schools is derived.

This section shall be applicable to a chartered county if Section 1001 is applicable to it.

#### Article 5. Reports of Disruption at Schools

1110. The county board of education of any county may establish regulations requiring the reporting of information related to crime, violence, and disruption on campuses or in programs and activities in which any school or community college is engaged. Any board may establish a uniform reporting system and may periodically require the filing of reports by any or all of the public schools of the county. Such reports may include, but need not be limited to, the reporting of murders, assaults on personnel, assaults on pupils, possession of weapons, vandalism, and arson, provided that no pupil shall be individually identified in any report. Results of reporting required by this section may be made available to the school districts, the community college districts, and to other public and private agencies for use in developing programs of delinquency or crime prevention.

### CHAPTER 2. COUNTY SUPERINTENDENTS OF SCHOOLS

#### Article 1. Appointment, Qualifications, Salary and Expenses

1200. Each county superintendent shall receive his actual and necessary traveling expenses. The expenses shall be allowed by the board of supervisors, and be paid out of the county general fund.

1201. Each county superintendent shall also receive his actual and necessary traveling expenses, when, with the approval of the board of supervisors, he attends any convention or conference to which he is called by the State Board of Education, the Superintendent of Public Instruction, or the Board of Governors of the California Community Colleges, and when the board of supervisors delegates the power to perform services outside of his county either within or without the state.

1202. The expenses of the office of superintendent of schools for its stationery, blank books, postage, expressage, freight, telephone, telegraphing, and other necessary office expenses shall be allowed by the supervisors of the county and paid out of the general fund of the county in the same manner as other claims against the county are paid.

1203. The expense of providing housing for all the services of the county superintendent of schools shall be allowed by the board of supervisors of the county and paid out of the general fund of the county.

1204. For the purposes of the retirement system of which a county superintendent of schools is a member, all contributions by or on account of the county superintendent and all benefits to him shall be based, insofar as, and to the extent that, such contributions and benefits are based upon the compensation received by him as county superintendent of schools, upon the whole of his annual salary as county superintendent of schools regardless of the fund or funds from which paid, subject only to the maximum amount of salary on which contributions can be paid the system. If such contributions are required to be paid to the system from any fund from which any part of the annual salary of the county superintendent of schools is paid, then contributions shall be paid from each of the funds from which his annual salary is actually paid in the same proportion of the total contribution as that part of his annual salary paid from such fund is of the whole of his annual salary. Contributions which would have been made by any county superintendent of schools, or by an employer on account of said superintendent, if this section had been in effect on and after September 19, 1947, shall be made in accordance with the provisions of this section.

1205. For the purposes of prescribing the qualifications required of county superintendents of schools and fixing their salaries the counties are classified on the basis of the average daily attendance in the public schools of the state in the respective counties as follows:

Class one (1) includes all counties with an average daily attendance of seven hundred fifty thousand (750,000) and over.

Class two (2) includes all counties with an average daily attendance of one hundred forty thousand (140,000) to seven hundred forty-nine thousand nine hundred ninety-nine (749,999), inclusive.

Class three (3) includes all counties with an average daily attendance of sixty thousand (60,000) to one hundred thirty-nine thousand nine hundred ninety-nine (139,999), inclusive.

Class four (4) includes all counties with an average daily attendance of thirty thousand (30,000) to fifty-nine thousand nine hundred ninety-nine (59,999), inclusive.

Class five (5) includes all counties with an average daily attendance of fifteen thousand (15,000) to twenty-nine thousand nine hundred ninety-nine (29,999), inclusive.

Class six (6) includes all counties with an average daily attendance of seven thousand (7,000) to fourteen thousand nine hundred ninety-nine (14,999), inclusive.

Class seven (7) includes all counties with an average daily attendance of one thousand (1,000) to six thousand nine hundred ninety-nine (6,999), inclusive.

Class eight (8) includes all counties with an average daily attendance of under one thousand (1,000).

1206. Except as provided in this section no person shall hereafter be elected or appointed to office as county superintendent of schools of any county who does not possess a valid credential issued by the

State Board of Education of the type designated in Sections 1205 to 1212, inclusive, for each class.

Where a county changes from one class to another because of an increase in the average daily attendance in the public schools of such county, the incumbent county superintendent of schools in that county shall not be prohibited from continuing in office and shall be eligible for reelection to the same office regardless of whether he possesses a valid credential otherwise required in a county of that class.

1207. The qualifications of the county superintendent of schools in each county shall be as set forth in Sections 1205 to 1212, inclusive, for that class into which the county falls. The class into which each county falls shall be determined on October 1st of each year based upon the average daily attendance in the public schools of such county for the preceding school year as reported to the State Department of Education. In no case will the salary of the county superintendent be lowered during his term of office.

The salaries set forth in Section 1213 are payable to incumbent county superintendents of schools; provided, however, that the salary of an incumbent shall not be reduced during the term for which he was elected or appointed or for any consecutive new term to which he is elected or appointed.

1208. All county superintendents of schools in counties within class one (1) shall possess a valid certification document authorizing administrative services.

1209. All county superintendents of schools in counties within class two (2) shall possess a valid certification document authorizing administrative services.

1210. All county superintendents of schools in counties within class three (3) shall possess a valid certification document authorizing administrative services.

1211. For the purposes of Sections 1208, 1209 and 1210, the possession of a valid elementary administrative credential and a valid secondary administrative credential are equivalent to the possession of a valid general administrative credential.

1212. All county superintendents of schools within classes 4 to 8, inclusive, shall possess a valid certification document authorizing administrative services.

1213. On the effective date of the amendment to this section adopted at the 1972 Regular Session of the Legislature, or as soon thereafter as practicable, the salaries of the county superintendents of schools shall be computed in the following manner, provided that in no event shall the salary of any county superintendent of schools exceed the salary of the Superintendent of Public Instruction as provided for by Chapter 6 (commencing with Section 11550) of Part 1 of Division 3 of Title 2 of the Government Code.

For each of the eight classes of counties the amount which is the statewide average of teachers' salaries shall be multiplied by the amount which is the adjustment factor for the particular class of

county, as prescribed by this section. The product so obtained shall be the salary of the county superintendent of schools for a county within that class.

The adjustment factor for each of the eight classes of counties is set forth below opposite the class of county:

(a) Class one .....	3.561
(b) Class two .....	3.092
(c) Class three.....	2.717
(d) Class four.....	2.483
(e) Class five .....	2.249
(f) Class six.....	2.013
(g) Class seven .....	1.732
(h) Class eight.....	1.357

For the purposes of this section the statewide average of teachers' salaries shall be deemed to be twelve thousand seventy-two dollars (\$12,072).

The cost of salaries of any county superintendents of schools required to be paid by this section shall be divided between the state and the respective county as follows: For counties within class one (1) the state shall pay sixty-nine percent (69%) and the county shall pay thirty-one percent (31%); in all counties within class two (2) the state shall pay sixty-nine percent (69%) and the county shall pay thirty-one percent (31%); for counties within class three (3) the state shall pay seventy-one percent (71%) and the county shall pay twenty-nine percent (29%); for counties within class four (4) the state shall pay seventy-two percent (72%) and the county shall pay twenty-eight percent (28%); for counties within class five (5) the state shall pay seventy-four percent (74%) and the county shall pay twenty-six percent (26%); for counties within class six (6) the state shall pay eighty-one percent (81%) and the county shall pay nineteen percent (19%); for counties within class seven (7) the state shall pay eighty-eight percent (88%) and the county shall pay twelve percent (12%); for counties within class eight (8) the state shall pay eighty-three percent (83%) and the county shall pay seventeen percent (17%).

Article 2. Duties, Responsibilities, and General Powers

1240. The superintendent of schools of each county shall:

- (a) Superintend the schools of his county.
- (b) Visit and examine each school in his county at reasonable intervals to observe their operation and to learn of their problems. He may annually present a report of the state of the schools in his county, and of his office, including but not limited to his observations while visiting the schools, to the board of education and the board of supervisors of his county.
- (c) Distribute all laws, reports, circulars, instructions, and blanks

which he may receive for the use of the school officers.

(d) Keep in his office the reports of the Superintendent of Public Instruction, and the Board of Governors of the California Community Colleges.

(e) Keep a record of his official acts, and of all the proceedings of the county board of education, including a record of the standing, in each study, of all applicants for certificates who have been examined, which shall be open to the inspection of any applicant or his authorized agent.

1241. The county superintendent of schools shall also:

(a) Enforce the course of study.

(b) Enforce the use of state textbooks and of high school textbooks regularly adopted by the proper authority.

(c) Preserve carefully all reports of school officers and teachers.

(d) Deliver to his successor, at the close of his official term, all records, books, documents, and papers belonging to the office, taking a receipt for them, which will be filed in the office of the county clerk.

1242. The county superintendent of schools in each county shall annually inspect each school district maintaining classes in grades 7 or 9 through 12, and shall certify to the Superintendent of Public Instruction whether or not each high school district or unified school district under his jurisdiction has complied, in the maintenance of such grades, with the provisions of Sections 48432, 51260, and 51261. Upon satisfactory evidence being shown to the Superintendent of Public Instruction that the governing board of any high school district or unified school district has neglected or refused to establish only such courses of study as have been approved by the State Board of Education, or to comply with any of the other provisions of Sections 48432, 51260, and 51261, the Superintendent of Public Instruction shall withhold from the district, ten percent (10%) of all apportionments from the State School Fund, until the governing board fully complies with the provisions of Sections 48432, 51260, and 51261; provided that apportionments to a district shall not be reduced below one hundred twenty dollars (\$120) per pupil in average daily attendance in the district during the fiscal year.

1243. The county superintendent of schools shall make reports, when directed by the Superintendent of Public Instruction, or the Board of Governors of the California Community Colleges, showing such matters relating to the public schools in his county as may be required of him.

If he fails to make full and correct report as required under the provisions of this section at the time fixed by the Superintendent of Public Instruction or the Board of Governors of the California Community Colleges, he shall forfeit one hundred dollars (\$100) of his salary; and the county auditor whose duty it is to draw the warrant for the salary of the superintendent of schools shall deduct this amount from the warrant on receiving notice from the Superintendent of Public Instruction or the Board of Governors of

the California Community Colleges to the effect that the superintendent of schools has failed to make the report as directed.

1244. Each county superintendent of schools shall annually, at such time as is required by the Superintendent of Public Instruction or the Board of Governors of the California Community Colleges but not later than July 15th, submit to the Superintendent of Public Instruction or the Board of Governors of the California Community Colleges a complete report of the attendance credited to the public schools of the county for the school year closing June 30th immediately preceding July 15th. Forms for the reports shall be furnished by the Superintendent of Public Instruction or the Board of Governors of the California Community Colleges. Reports shall contain and be accompanied by such other information and reports relating to the computation of state apportionments as may be required by the Superintendent of Public Instruction or the Board of Governors of the California Community Colleges.

1245. Each county superintendent of schools shall submit such additional reports as may from time to time be required by the Superintendent of Public Instruction or the Board of Governors of the California Community Colleges. It shall be the duty of each school district and community college district to furnish to the county superintendent of schools any records, reports, documents, maps or other data pertaining to reports required by the Superintendent of Public Instruction or the Board of Governors of the California Community Colleges.

1246. Whenever the destruction of records of a county superintendent of schools is not otherwise authorized or provided for by law, the county superintendent of schools may destroy such records of his office in accordance with regulations of the Superintendent of Public Instruction or the Board of Governors of the California Community Colleges which either is herewith authorized to adopt.

1247. The county superintendent of schools may sell publications produced by him.

Sections 1247 to 1249, inclusive, do not authorize a county superintendent of schools to prepare or publish written materials, the preparation or publication of which is not otherwise authorized by law.

1248. The county superintendent of schools, with the approval of the county board of education, may fix the price not to exceed the estimated cost of production for the sale of any publication produced by him.

1249. All moneys received from the sale of publications produced by the county superintendent of schools shall be deposited to the credit of the fund against which the cost of printing the publication was charged.

1250. The county superintendent of schools, with the approval of the county board of education, may enter into an agreement with the governing board of any school district or community college district

under his jurisdiction, to provide for the use by the district of audiovisual equipment and apparatus. The county superintendent of schools is authorized to acquire by purchase, lease, or any other means the equipment and apparatus necessary to provide the service, and to establish facilities for maintaining and servicing such equipment, and for its distribution to school districts and community college districts. The title to all equipment and apparatus acquired by the county superintendent of schools under this section shall be vested in the office of the county superintendent of schools.

The agreement shall, among other matters, provide for the amount of the payment to be made by the districts to the county superintendent of schools, and the time the payments shall be made. The payments made by all districts that have entered into an agreement with the county superintendent of schools under this section shall not exceed the costs of rendering the service. The costs may include any expense necessary to carry out the provisions of this section.

The governing board of a school district or a community college district may withdraw from an agreement by giving notice six months prior to the beginning of the next fiscal year, and the agreement shall terminate on the last day of the then current fiscal year. The terms of an agreement may be changed by mutual consent at any time.

The county superintendent of schools shall transfer the amounts agreed upon, at the time or times agreed upon, from the general fund of the district to the special equipment and apparatus fund of the county superintendent of schools, which fund is hereby authorized. All funds received for the purposes of this section shall be deposited in said fund, and all expenditures made for the purposes of this section shall be made from the fund.

1251. The county superintendent of schools, with the approval of the county board of education, may enter into an agreement with a nonpublic institution of higher education or the governing board of any nonpublic school to provide for the use by the institution or school of audiovisual curriculum materials, including equipment and apparatus, under the control of the county superintendent of schools, in the same manner as public schools pursuant to Section 1250 except as otherwise provided in this section.

The agreement shall, among other matters, provide for the amount of the payment to be made by the nonpublic institution of higher education or the nonpublic school to the county superintendent of schools and the time payments shall be made. The payments made by the nonprofit institution of higher education or nonpublic school that has entered into an agreement with the county superintendent of schools under this section shall be equal to the cost incurred by the county superintendent of schools in connection with the handling of, and the loss, destruction or damage to the audiovisual curriculum materials, including equipment and apparatus, by the nonpublic institution of higher education or the nonpublic school.

The governing board of any nonpublic school may withdraw from an agreement by giving notice six months prior to the beginning of the next fiscal year, and the agreement shall terminate on the last day of the then current fiscal year. The terms of an agreement may be changed by mutual consent at any time.

All funds received for the purposes of this section shall be deposited in the special equipment and apparatus fund of the county superintendent of schools authorized by Section 1250, and all expenditures made for the purposes of this section shall be made from that fund.

The audiovisual curriculum materials, including equipment and apparatus, shall be available for use by the nonpublic institution of higher education or the nonpublic school pursuant to this section only when such materials, including equipment and apparatus, are not needed by the public schools or the county superintendent of schools.

As used in this section, "nonpublic school" means a school that satisfies the requirements of Section 48222 and is exempt from taxation under Section 214 of the Revenue and Taxation Code.

1252. The county superintendent of schools of any county may, with the approval of the State Compensation Insurance Fund, insure the liability for compensation of any school districts and community college districts under his jurisdiction, the governing boards of which consent thereto, with the State Compensation Insurance Fund under one policy or contract of insurance and pay the premium for the insurance from the county school service fund. Immediately following the payment of the final premium the county superintendent of schools shall transfer from the funds of each insured district to the county school service fund an amount which bears the same ratio to the premium as the payroll of each district bears to the total payroll of all the insured districts.

Any dividends earned on the premiums paid under the provisions of this section shall be credited to the individual districts in proportion to the amount of the premium charged to each district.

The expenses of the county superintendent of schools incurred under this section shall be charged to and paid from the county school service fund, which fund shall be reimbursed for such expenses from the general funds of the school districts and community college districts on whose behalf the expenditures are incurred.

1253. (a) Whenever any school district or community college district is situated partly within two or more counties, jurisdiction over it is, unless otherwise provided in this code, in the county superintendent of schools of the county in which the schoolhouse of the district is located, or, if there be a schoolhouse of the district in each of two or more counties, jurisdiction over the district is in the county superintendent of schools of the county in which the greatest area of the district lies.

(b) Jurisdiction once established pursuant to subdivision (a) over a school district or community college district situated in two or more counties, shall not be changed, regardless of changes in the schoolhouse maintained by the district in the several counties or changes in the areas of the several counties included within the district, except by a majority of the votes cast by the electors within the district on the proposition for change of such jurisdiction submitted at election.

1254. The county superintendent of schools of the county in which the greatest part of the assessed valuation of any unified school district lies has jurisdiction over the unified school district for the purposes specified in this code.

1255. In each community college district, the superintendent of schools of the county in which the community college buildings are located shall have jurisdiction over all matters in which his office is concerned.

1256. The county superintendent of schools shall, when there is sufficient money in the fund of any school district or community college district to maintain a free school in the district for 175 days of actual teaching, if the trustees neglect or refuse to employ a teacher, appoint a teacher, and open and keep the school. He may draw his requisition upon the county auditor, who shall draw his warrant upon the fund of the district for the expense incurred.

1257. In case of the failure of the governing board of any school district or community college district to employ a janitor as provided elsewhere in this code, the county superintendent shall appoint a janitor who shall be paid out of the school fund of the district.

If the governing board of any school district or community college district fails or refuses to issue an order for the compensation for services provided for in this section, he shall issue his requisition upon the county fund apportioned to the district.

1258. Whenever by this code the county superintendent of schools is authorized or required to prepare for, hold or conduct any election in or for any public school district, or community college district, as the case may be, such county superintendent may contract with the county clerk, or with the registrar of voters if such office has been established in the county, for the performance under the supervision of such county superintendent of any or all of the duties incident to the preparation for and holding of such.

The governing board of a school district or community college district, as the case may be, may contract with the county clerk, or with the registrar of voters if such office has been established in the county, for the performance under the supervision of the governing board of any or all duties incident to the holding or conducting of an election in the district for the issuance and sale of bonds of the district pursuant to Section 15100.

1259. The Director of Corrections may establish and maintain classes for inmates of institutions or facilities under the jurisdiction of the Department of Corrections by entering into an agreement

with the county superintendent of schools of a county in which the institution or facility is located, or of a county contiguous to such county, with the approval of the county board of education, under which the county shall maintain classes for such inmates.

Any agreement entered into between the county superintendent of schools and the Director of Corrections, pursuant to this section shall require the Department of Corrections to reimburse the county for the cost to the county of maintaining such classes. "Cost" as used herein includes contributions required to be made by the county superintendent to the State Teachers' Retirement System, but such cost shall not include an amount in excess of the amount expended by the superintendent for salaries of the teachers for such classes, increased by one-fifth. Salaries of such teachers for the purposes of this section shall not exceed the salaries as set by the county superintendent for teachers in other classes for adults maintained by the county.

Attendance or average daily attendance in classes established pursuant to this section shall not be reported to the State Department of Education or the Board of Governors of the California Community Colleges for apportionment and no apportionment from the State School Fund shall be made on account of average daily attendance in such classes.

No county superintendent of schools shall provide for the academic education of adult inmates of state institutions or facilities under the jurisdiction of the Department of Corrections except in accordance with this section.

1260. The county superintendent of schools with the approval of the county board of education may:

(a) Conduct studies through research and investigation as are determined by the county board to be required in connection with the future management, conditions, needs, and financial support of the schools within the county; or join with one or more school district or community college district governing boards in the conduct of such studies.

(b) Install and maintain exhibits of educational programs and activities of the school districts and community college districts within the county at any county fair or at any agricultural district fair.

(c) Inform and make known to the citizens of the county, the educational programs and activities of the school districts or community college districts within his jurisdiction.

(d) Subscribe for membership in any society, association, or organization which has for its primary purpose the promotion and advancement of public or private education, subject to the same restrictions as are imposed by Section 35173 and Section 72631 on governing boards of school districts or community college districts respecting such subscriptions.

1261. The county superintendent of schools may contract with any other county superintendent of schools for the purpose of providing the educational services or conducting programs

authorized for a county superintendent of schools for the education of educationally handicapped pupils, physically handicapped pupils, and mentally retarded pupils. A contract entered into pursuant to this section shall be approved by each board of education of the counties involved before it may be given effect.

1262. Each county superintendent of schools is authorized upon request to provide consultative or coordinative services for school districts and community college districts under his jurisdiction which have established educational programs that are designed to meet the requirements of federal law for the receipt of federal funds for the support of the programs, and that are supported in whole or in part by federal funds. Such services may be financed by such federal funds as may be provided.

1263. It is the intent of the Legislature that certificated personnel serving in the public schools have a responsible understanding of the nature and range of physical, mental, and emotional disabilities of children and youth and of the major implications of such disabilities. In furtherance of this intent, county superintendents of schools are encouraged, in cooperation with school districts, community college districts and colleges and universities, to sponsor workshops or similar activities for certificated personnel to provide opportunities to gain or increase these understandings.

It is not the intent of the Legislature that this section be interpreted as a requirement for the issuance or the renewal of any credential.

1264. The superintendent of schools of each county may require the governing board of any district, except a district governed by a city or city and county board of education, to repair the school buildings or property or to abate any nuisance in or about the premises if the cost of the repairs or abatement does not exceed fifty dollars (\$50) and there is a sufficient amount of money in the treasury to the credit of the district.

1265. The county superintendent of schools may also require the governing board, where practicable, to adorn the school grounds with fruit and ornamental trees and shrubbery. If the governing board neglects to do so, he may cause it to be done and pay for it on his requisition upon the county auditor, who shall draw his warrant payable out of any money to the credit of the district.

1266. Whenever the county superintendent of schools of any county provides for the maintenance and repair of the property of such school districts or community college districts, under his jurisdiction as elect to take advantage of the provisions of Sections 1264 to 1270, inclusive, he shall upon the request of the governing board of any such district transfer from the general fund of the district to the "school maintenance and repair fund" a sum not to exceed 1 percent of the amount apportioned from the State School Fund to the district during the fiscal year in which the governing board of the district notifies him of its election to take advantage of the provisions of Sections 1264 to 1270, inclusive.

(Amended by Stats 1976, Ch 1011.)

## [ORIGINAL SECTION]

1266. Whenever the county superintendent of schools of any county provides for the maintenance and repair of the property of such school districts or community college districts, under his jurisdiction as elect to take advantage of the provisions of this article, he shall upon the request of the governing board of any such district transfer from the general fund of the district to the "school maintenance and repair fund" a sum not to exceed 1 percent of the amount apportioned from the State School Fund to the district during the fiscal year in which the governing board of the district notifies him of its election to take advantage of the provisions of this article

1267. Out of the school maintenance and repair fund the superintendent of schools of the county shall purchase materials, bill the district on supplies and equipment, and employ labor to maintain and repair school premises and property of the school districts, and community college districts, under his jurisdiction which have elected to take advantage of the provisions of this article, and shall deliver a memorandum in triplicate of the cost of the service on or about the first of each calendar month to the school district.

1268. Upon receipt of the memorandum the governing board of the district or community college district shall draw an order on the funds of the district in favor of the county superintendent of schools in the amount of such cost and forward it with the duplicate and triplicate of the memorandum to the superintendent of schools who shall verify the cost and file the duplicate with the county auditor and the triplicate with the county treasurer. In lieu of the issuance of an order by the governing board of the district in payment of the supplies and equipment, the superintendent of schools of the county may transfer from the proper account of the school district to his school maintenance and repair fund a sum equal to the cost of the services as stated in the memorandum.

1269. The superintendent of schools of the county may employ such extra help as is necessary to perform the labor for the maintenance and repair work, as well as to provide for the supervision and transportation of the labor together with the equipment and materials for the work. The cost price of the maintenance and repair services to any school district or community college district is the original cost thereof and in addition a sum sufficient to reimburse the county superintendent of schools for all supervision, transportation, equipment, and other expenses, but the sum added shall not in any case exceed 10 percent of the cost of labor and supplies.

1270. The county superintendent of schools of any county may use schoolbuses to transport pupils attending schools or classes operated by the county superintendent pursuant to Article 12 (commencing with Section 1850), Article 14 (commencing with Section 1880), and Article 15 (commencing with Section 1920) of Chapter 6 of this part, including adults attending special classes for adults designed to serve the educational needs of handicapped adults operated pursuant to Section 52570 or 78440, and teachers or other employees employed by the county superintendent of schools, to and

from school athletic contests or other school activities, or to and from fairs or expositions held in the state or in any adjoining state and in which the pupils participate actively or as spectators. The transportation may be provided on any day or days throughout the school year.

1271. The county superintendent of schools may, with the approval of the county board of education, hold one trustees' meeting in each year as follows:

(a) One school trustee of each school district and community college district of the county shall attend the meeting and participate in its proceedings but more than one trustee of any district may attend if the board of trustees of that district so directs.

(b) School trustees of each school district and community college district shall select the trustee or trustees who shall attend the meeting.

(c) Each trustee selected to attend the meeting shall be allowed his actual traveling expenses for not to exceed one day incurred in going to and returning from the meeting. The expenses shall be verified by the county superintendent of schools.

(d) The county superintendent shall notify each trustee of the county at least 10 days prior to calling of the trustees meeting of the time and place of the meeting.

(e) Each session of the trustees meeting may be called at any hour on the day specified and may continue for such time as those meeting see fit.

(f) The county superintendent shall draw his requisition on the county auditor who shall draw his warrant on the county school service fund to pay the expenses of holding the trustees meeting.

### Article 3. Staff

1290. Except as otherwise provided by law, every county superintendent may appoint a deputy.

1291. A deputy appointed pursuant to Section 1290 shall not be allowed a salary, payable out of the school fund.

1292. The compensation of each deputy school superintendent of a city and county shall be not less than the minimum received by any high school principal in the city and county.

1293. A county superintendent of schools may enter into contracts of employment with persons employed by him in positions requiring certification qualifications for periods of not to exceed the end of the school year in which the term for which the county superintendent of schools was elected or appointed expires and in no event, for more than four years and six months.

1294. Each person employed by a county superintendent of schools in a position requiring certification qualifications, except employees included in the civil service system or in any merit system, or any person who holds an office by virtue of an election conducted under the provisions of the Elections Code or the

Education Code, and whose salary is paid from the county school service fund, has the same right with respect to leaves of absence, sick leave, and bereavement leave as a person employed by a school district or a community college district in a position requiring certification qualifications.

The provisions of Sections 44844, 44845, 44949, 44955, 44962 to 44976, inclusive, 44977, 44978, 44979, 44983, 44984, 44985, 87413, 87414, 87740, 87743, 87763 to 87779, inclusive, 87780, 87781, 87782, 87786, 87787, and 87788 apply to persons so employed by a county superintendent of schools and so paid from the county school service fund. Whenever, in such provisions, a duty or power is imposed upon or granted to the governing board of a school district or community college district or an employee thereof, such power or duty shall, for the purposes of this section, be deemed to be granted to or imposed on the county superintendent of schools or his employee, respectively. When "district" is used in such provisions, it shall, for the purposes of this section, be deemed to mean "county superintendent of schools." Compensation paid to such employees during such leaves shall be paid from the county school service fund.

The granting of leaves of absence to such employees pursuant to Section 44966 or Section 87767 shall be by the county superintendent of schools, upon approval by the county board of education.

1295. The county superintendent of schools, with the approval of the county board of education, may grant leaves of absence, with or without pay, to persons employed by him in positions not requiring certification qualifications in the same manner and to the same extent as is permitted of school district governing boards by Section 45190 and Section 88190.

1296. If the average daily attendance of the schools and classes maintained by a county superintendent of schools is 250 or more, each person who, after being employed for three complete consecutive school years by such superintendent in a teaching position in such schools or classes requiring certification qualifications and whose salary is paid from the county school service fund, is reelected for the next succeeding school year to such a position in such schools or classes, shall be classified as and become a permanent employee of the county superintendent of schools.

Such an employee shall have the same rights and duties as employees of school districts to which Section 44882 applies.

1297. For the purpose of insurance under the workers' compensation laws of this state, any person employed by a county superintendent of schools to supervise instruction or to give instruction in the school districts or community college districts under the jurisdiction of the county superintendent of schools shall be deemed an employee of the county. The cost of insuring any person employed to supervise instruction shall be paid by the county superintendent of schools from the county school service fund. The cost of insuring any person employed by the county superintendent of schools to give instruction shall be paid by the county

superintendent of schools from the county school service fund.

1298. By agreement between the county board of education and county board of supervisors, in counties in which the provisions of Article 4 (commencing with Section 1310) of Chapter 2 of this division have become operative and in which functions and duties have been transferred from the county board of supervisors to the county board of education in accordance with Sections 1043 and 1080, the county superintendent of schools may be authorized to employ an administrative adviser as part of the classified service. His compensation will be as fixed by the county board of education, and shall be paid from that part of the single budget prepared by the county board of education for which a county tax is levied pursuant to Section 1623. His duties shall be such administrative duties as are established by the county board of education and to counsel with and act as a coordinator between, the district attorney or county counsel, the county board of education, the county committee on school district organization, the personnel commission, the county superintendent of schools, school districts, and community college districts which request his services. The district attorney or county counsel shall continue to have and to discharge all of the authority and duties imposed upon him by law in the schools and education fields; however, such administrative adviser may be deputized by the district attorney or county counsel, in his discretion, if such adviser is admitted to practice law in this state.

1299. A supervisor of health employed by the county superintendent of schools shall perform such duties in connection with the supervision of the health of pupils as are prescribed by the county superintendent of schools.

#### Article 4. Classified County School Employees

1310. The provisions of this article shall become operative in any county upon adoption of a resolution by the county board of supervisors to make it operative.

1311. Each person employed by a county superintendent of schools in a position not requiring certification qualifications and whose salary is paid from the county school service fund shall be employed in accordance with the provisions of Chapter 1 (commencing with Section 44000) and Chapter 5 (commencing with Section 45100) of Part 25 of Division 3 of Title 2, and Chapter 1 (commencing with Section 87000) and Chapter 4 (commencing with Section 88000) of Part 51 of Division 7 of Title 3.

1312. County employees assigned to the office of the county superintendent of schools shall cease to be employees of the county upon the establishment of a separate budget for the office of the county superintendent of schools, and shall thereafter be paid from the county school service fund. Other county employees assigned to functions transferred to the county board of education pursuant to Article 3 (commencing with Section 1080) of Chapter 1 of this part

shall cease to be employees of the county upon the effective date of such transfer, and shall thereafter be paid from the county school service fund.

1313. Each county employee whose status is changed by this article, and who is in employment and a member of a county retirement system other than one provided by contract with the State Employees' Retirement System on the date of such change, shall become eligible for membership in the State Employees' Retirement System in accordance with the State Employees' Retirement Law with respect to his employment thereafter, and shall be subject to the reciprocal benefits provided by said systems; provided, that such employee may elect to continue in membership of such county retirement system with respect to such employment thereafter, in which event the same appropriations and transfers of funds shall be made to the retirement fund of the county system for such employee as those required of the county under the county retirement law, and such amounts shall be legal charges against the county school service fund. The election authorized by this section shall be made no later than the date preceding the date upon which his status is changed in accordance with procedures to be established by the board of supervisors, which shall allow at least 30 days to make the election. The election once made may not be rescinded. An employee who does not elect to continue membership in the county system shall be deemed to have discontinued county employment for purposes of the county system at the close of the day preceding the date upon which his status changes.

1314. County employees whose status is changed by this article shall retain all accumulated and unused sick leave, vacation, compensatory overtime and other benefits which can reasonably be construed to have been an earned right at the time of transfer from county service to the county school service fund.

1315. The county board of education may grant to employees whose salaries are paid from the county school service fund any employee benefit which the board of supervisors provides for county employees.

1316. No employee transferred from the county service to a position, the salary for which is paid from the county school service fund, shall suffer any loss of salary at the time of transfer or as to the future as relates to his status on the salary scale of the county in effect at the time of the transfer.

1317. The county board of education shall adopt the merit system as provided in Article 6 (commencing with Section 45240) of Chapter 5 of Part 25 of Division 3 of Title 2, and Article 3 (commencing with Section 88060) of Chapter 4 of Part 51 of Division 7 of Title 3, if the county has a merit (civil service) system in effect at the time of the adoption of this article as provided in Section 1310.

1318. The county board of education or county superintendent of schools may declare a holiday in the schools or offices operated by the county superintendent of schools whenever good reason exists.

## Article 5. Unemployment Insurance

1330. The Superintendent of Public Instruction or Board of Governors of the California Community Colleges as the case may be shall represent, and exercise all rights of appeal under this part on behalf of school employers or arrange with a county superintendent of schools or make designation thereof consistent with this section for the filing of appeals for school employers and for the representation of school employers at hearings held under Part 1 (commencing with Section 100) of Division 1 of the Unemployment Insurance Code. The cost of services provided by the Superintendent of Public Instruction or Board of Governors of the California Community Colleges under this section and under Article 6 (commencing with Section 821) of Chapter 3 of Part 1 of Division 1 of the Unemployment Insurance Code shall be paid from the Classified School Employees Fund. The Superintendent of Public Instruction or Board of Governors of the California Community Colleges is hereby authorized to obtain pertinent personnel records and data from any school employer and to act as an agent individually or collectively for school employers in matters pertaining to unemployment insurance.

Each county superintendent of schools, unless notified by the administrator or the Superintendent of Public Instruction or Board of Governors of the California Community Colleges to the contrary, shall perform such duties and render such services as required to implement such program. Any district, combination of districts, county, combination of counties, or combination of counties, school districts, or community college districts, may be designated by the Superintendent of Public Instruction or Board of Governors of the California Community Colleges whereby one agency may administer the program for the purpose of consolidation for economy and employment of specialists. This consolidation may include the services of a regional data center operated by a county superintendent of schools or the data-processing services of a school district, or community college district.

Each school employer shall perform pursuant to Article 6 (commencing with Section 821) of Chapter 3 of Part 1 of Division 1 of the Unemployment Insurance Code and shall respond to the Superintendent of Public Instruction or Board of Governors of the California Community Colleges and the county superintendent of schools or designated agency as soon as possible, in no case later than 48 hours, to inquiries made on behalf of such county superintendent or the Superintendent of Public Instruction or Board of Governors of the California Community Colleges in reference to any aspect of eligibility, notice of claim or appeal under the unemployment insurance program. Each county superintendent or agent thereof who is responsible for administering the unemployment insurance program shall be responsible for timely responses to any inquiry by

the administrator, Superintendent of Public Instruction, State Treasurer, State Controller, or other officer or person responsible for disbursements on behalf of the joint account, the Classified School Employees Fund in the State Treasury as established by Section 822 of the Unemployment Insurance Code, and the Unemployment Fund in the State Treasury. Any school employer which fails to pay the contributions, interest, charges or levies within the time required shall be liable for interest on moneys due at the rate of one-half percent (0.5%) per month or fraction thereof from and after the date of delinquency until paid. If, except as stated in Section 828 of the Unemployment Insurance Code with reference to Section 826 thereof, the school employer fails, without good cause, to pay any sums required within the time required a penalty of 10 percent of the amount noticed, billed or required shall be made by the administrator. The administrator may for good cause waive all or a portion of interest and penalty.

### CHAPTER 3. COUNTY BOARDS OF SUPERVISORS

1400. Except as provided in Sections 4040 to 4045, inclusive, all actions required by this code to be taken by the board of supervisors of the county in which a school district or community college district is located, shall, in the case of any joint school district, be taken by the concurrent action of the boards of supervisors of each county in which any part of the joint district is located.

(Amended by Stats. 1976, Ch. 1011.)

#### [ORIGINAL SECTION]

1400. Except as provided in Sections 4041 to 4045, inclusive, all actions required by this code to be taken by the board of supervisors of the county in which a school district or community college district is located, shall, in the case of any joint school district, be taken by the concurrent action of the boards of supervisors of each county in which any part of the joint district is located.

### CHAPTER 4. EXPENSES

#### Article 1. Expenses Payable From County School Service Fund

1500. All expenses shall be paid out of the county school service fund necessary for the county board of education and the county superintendent of schools to perform the duties, render the services and comply with the provisions of Sections 1250, 1252, 1270, 1297, 1299, 1330, 1601, 1602, 1702, 1925, 5050, 41020, 41360, 42621, 42622, 45035, 45056, 45208, 56072, 56720, 60601, 60602, 60605, 84040, 85221, 85222, 78842, 87809, 87829, and 88208 and with the provisions of Part 1 (commencing with Section 100) of Division 1 of the Unemployment Insurance Code.

The provisions of this section shall not be construed to prohibit support from the county general fund from being provided for duties and services performed pursuant to the sections and part enumerated above.

## Article 2. Expenses Payable From County General Fund

1510. Except as provided in Section 1500, all expenses necessary for the county board of education, the county committee on school district organization and the county superintendent of schools to comply with the following provisions are payable from the county general fund: 1090, 1091, 1092, 1093, 1094, 1095, 1096, 1200, 1201, 1202, 1203, 1240, 1241, 1243, 1244, 1245, 1290, 1298, 2600, 4208, 4293, 4298, 4299, 4406, 4407, 4408, 4410, 4411, 5425, 5426, 10020, 14200, 14201, 16061, 16166, 22800.5, 23000, 23002, 23003, 23004, 23005, 23006, 23008, 23009, 23010, 35102, 37066, 39121, 40000, 42124, 42636, 42638, 42643, 42662, 42670, 42671, 42672, 42673, 42674, 42675, 42676, 42677, 42678, 42690, 42691, 42692, 42693, 42694, 42800, 44310, 44316, 44323, 44348, 44422, 44427, 44428, 44429, 44430, 44433, 44434, 44435, 44436, 44437, 44804, 44816, 44817, 44818, 44819, 44820, 44842, 44843, 44857, 45034, 45056, 45057, 48263, 48674, 48675, 48914, 49406, 52550, 52551, 72100, 76041, 76406, 81110, 85112, 85236, 85238, 85243, 85272, 85280, 85281, 85282, 85283, 85284, 85285, 85286, 85287, 85288, 85300, 85301, 85302, 85303, 85304, 85400, 87200, 87226, 87332, 87337, 87338, 87339, 87340, 87343, 87344, 87345, 87346, 87347, 87411, 87412, 87426, 87703, 87713, 87714, 87808, 87829, and 87830.

The provisions of this section shall not be construed to prohibit support from the county general fund from being provided for duties and services performed pursuant to sections enumerated above for those counties operating under the provisions of Section 1080.

## CHAPTER 5. COUNTY SCHOOL SERVICE FUND

### Article 1. County School Service Fund

1600. There is hereby established in the treasury of each county the "county school service fund."

1601. Wherever any of the terms "unapportioned county elementary school fund," "county elementary school supervision fund," "unapportioned county high school fund," and "county school service fund" are used in this code or in any other law, such term shall be deemed to refer to and mean the "county school service fund."

1602. The county school service fund shall be employed by the county superintendent of schools to pay such charges against the fund as are provided in this code; and to provide with the approval of the county board of education (a) additional apportionments to any school district or community college district under his jurisdiction for current expenses which (1) has levied the maximum district tax and in which the annual average current cost per pupil does not exceed the annual average current cost per pupil for all districts of the same type within the county or under the jurisdiction

of the county superintendent of schools, or (2) which needs additional apportionments for current expenses because of temporary emergency conditions, and (b) additional apportionments to any school district or community college district under his jurisdiction for the transportation of pupils to and from school to meet temporary emergency conditions.

1603. A county superintendent of schools may, with the approval of the county board of education, lend funds from the county school service fund to a unified school district which was organized in 1970 and whose average daily attendance for the 1971-72 school year was between 39,000 and 41,000, if such a loan is required to enable the school district to complete its educational program for the then current school year and the governing board of the district requests such a loan. The county board of education shall determine the amount of the loan.

The amount of the loan, together with interest at a rate determined by the county treasurer, shall be repaid by the school district to the county superintendent of schools over not more than a three-year period. The county superintendent of schools may withhold from the apportionments to be made to the district from the State School Fund in each year the amount which is to be repaid in that year.

After disbursement of funds to the district and until the loan is fully repaid the county superintendent of schools with the cooperation of the Superintendent of Public Instruction shall from time to time review the financial management of the district and may make recommendations to the governing board of the district to correct or avoid financial problems of the district.

This section shall be in effect only until July 1, 1977, and as of that date is repealed.

1604. No moneys shall be expended from the county school service fund for any purpose in excess of the latest proposed expenditures for such purpose as approved by the Superintendent of Public Instruction or the Board of Governors of the California Community Colleges, as the case may be, under Section 14050, without the approval of the Superintendent of Public Instruction or the Board of Governors of the California Community Colleges, as the case may be.

It shall be the duty of the county auditor to approve warrants drawn on the county school service fund for expenses approved in the county school service fund budget.

1605. The title to all property purchased by the county superintendent of schools from the county school service fund is in the offices of the county superintendent of schools.

1606. The money credited to the county school service fund of a county pursuant to Section 16417 of the Government Code may be apportioned by the county superintendent of schools, with the approval of the county board of education, to school districts or community college districts within which there is land which has

been acquired by the United States.

**Article 2. Single Budget for: County School Service Fund,  
County Board of Education, County Committee, County  
Superintendent of Schools**

1620. The provisions of this article shall become applicable in any county upon adoption of a resolution to that effect by the county board of supervisors.

1621. On or before the date specified by the Superintendent of Public Instruction each year, the county board of education shall file with the Superintendent of Public Instruction a single-fund tentative budget showing all the purposes for which the county school service fund will need money.

The budget may also contain a general reserve in such sum as the county board of education may deem sufficient to meet the cash requirements of the next succeeding fiscal year until adequate proceeds of the taxes levied or apportionment of state funds are available.

The budget may also contain an undistributed reserve which shall be available for appropriation by a two-thirds vote of the members of the county board of education to cover expenditures that have not been provided for, that have been insufficiently provided for, or for unforeseen requirements as they may arise.

The single fund tentative budget shall include estimated cash balances, estimated apportionments from the State School Fund, and an estimate of revenues from sources other than taxes on the secured roll of the equalized assessment roll of the county.

1622. The single-fund budget shall be prepared in the form prescribed and furnished by the Superintendent of Public Instruction and shall be the county school service fund budget.

1623. On or before August 10, the county board of education shall hold a public hearing on the county school service fund budget. Notice of the public hearing shall be published at least once in a newspaper of general circulation published within the county not less than 10 days prior to the date set for the hearing. The cost of publication shall be a proper and legal charge against the county school service fund and shall not exceed the rate fixed by the board of supervisors for official advertising. The published notice shall include the time, place, and purpose of the public hearing, and such other information as may be determined by the county board of education, and shall state that any taxpayer directly affected by the county school service fund budget may appear before the county board of education and speak to the proposed budget or any item therein.

Following the public hearing, the final budget shall be adopted by the county board of education and filed with the Superintendent of Public Instruction, the board of supervisors, and the county auditor.

1624. On or before August 15, the county board of education shall

file with the board of supervisors a certified statement showing the amount of money to be raised by a county tax for purposes of this chapter. The board of supervisors shall fix a rate for the county tax sufficient to produce the amount specified in the statement and shall, at the time of levying other county taxes, levy the tax so fixed.

The proceeds of the tax levied pursuant to this section shall be credited to the single county school service fund of the county and any expenses of the county superintendent of schools, the county board of education, and the county committee on school district organization required by Section 1510 or any other sections of this code required to be paid from the county general fund shall not be paid from such fund but shall be paid from the money in the single county school service fund.

1625. The county school service fund shall be audited annually by a public accountant or a certified public accountant selected by the county superintendent of schools. The cost of the audit shall be a legal charge against the county school service fund.

## CHAPTER 6. COUNTY SCHOOL SERVICE FUND PROGRAMS AND SERVICES

### Article 1. General Provisions

1700. The Legislature hereby declares that it is in the interest of the state and of the people for the office of the county superintendent of schools, through the county school service fund, to provide coordination of the educational program among school districts and community college districts under his jurisdiction and to provide professional and financial assistance to school districts and community college districts which otherwise, because of size or location, would not be able to furnish a satisfactory program of education for their children. Such assistance is a matter of general concern inasmuch as the education of the children of the state is an obligation and function of the state.

In adopting this chapter, the Legislature considers that the coordination of the educational program constitutes the greatest continuing need to be met through the county school service fund. To meet this need the necessity is recognized to provide professional services to coordinate courses of study, guidance services, health services, school library services, special education, and attendance activities.

As an additional need, the Legislature recognizes the necessity to provide professional services in districts too small to supply such services for themselves economically and effectively, such as, (a) to prepare courses of study; (b) to supervise instructional practices; (c) to provide direct guidance services, health services, and attendance services normally provided in an educational program; (d) to provide for the purchase, distribution, and use of supplementary instructional materials and equipment; and (e) to provide

educational opportunity to normal and special pupils who would otherwise be denied it. It is recognized further that providing for professional service is a transitory function of the county school service fund to be assumed by school districts and community college districts when, through growth or reorganization, they will be able to perform the services for themselves.

It is the further intent of the Legislature that:

(a) Services involving the coordination of the educational program which have among others the purposes of (1) enforcing minimum standards, (2) improving the educational program, and (3) promoting order and reasonable uniformity in the educational program shall be provided, except as may be specifically authorized, at the district level, reserving to the district the opportunity and responsibility for internal improvement, and that such services will be provided in such a manner that recognition will be given to the responsibilities placed upon school districts and community college districts, by the Legislature to determine and administer their own educational program.

(b) Services to school districts and community college districts, which do not constitute coordination among districts shall be provided in such a manner that impetus will be given to strengthening school districts and community college districts, and to improving district organization to the end that more effective programs of education may be offered, and that the provision of services through the county school service fund shall not act to deter or delay any school districts and community college districts, from furnishing such services for themselves.

(c) Services to school districts and community college districts, shall be cooperatively provided by two or more county superintendents of schools without regard for county boundaries whenever a particular service may be so provided with economy and effectiveness.

(d) The direct operation of an educational program by the county superintendent of schools shall, except as specifically authorized by the Legislature, be limited to those emergency cases where children would otherwise be denied an opportunity for education.

1701. Any services of the county superintendent of schools authorized by this chapter which relate to the coordination of the educational program or coordination of the course of study among districts under his jurisdiction, the preparation of courses of study, the development of courses of study or curricula materials, or research or development studies in connection with the curricular and special services of the county superintendent of schools are subject to the budget and other restrictions of Section 14052 and any other applicable sections.

1702. The county school service fund shall be used to pay for those services provided by the county superintendent of schools that are authorized by this chapter, and for such other purposes as are specifically authorized in Section 1500.

1703. The county superintendent of schools may, with the approval of the county board of education and in accordance with regulations of the Superintendent of Public Instruction which he is authorized to adopt, employ qualified personnel to provide for the coordination of courses of study, guidance services, health services, school library services, special education, and attendance activities among the school districts under his jurisdiction. The regulations of the Superintendent of Public Instruction adopted pursuant to this section shall be adopted with the advice of an advisory committee to include county superintendents of schools, which the Superintendent of Public Instruction is herewith authorized to appoint.

1704. The services described in Section 1703 shall, except in advisory services in school business administration activities, clerical, accounting, and stenographic services, be performed by persons who hold a valid credential, or a life diploma based thereon, authorizing administrative services.

Any person who is, and continuously since September 7, 1955, has been, employed in the office of a county superintendent of schools and is performing any of the services described in Sections 1703 and 1704 may continue to perform such services without possessing the credential otherwise required as long as he remains continuously employed in his position.

1705. In addition to all other amounts payable to the county school service fund on account of special education schools, programs, and classes maintained by the county superintendent of schools for the education of physically handicapped pupils, mentally retarded pupils, severely mentally retarded pupils, and educationally handicapped pupils, there shall be paid by the school districts in which such pupils reside, an amount, per unit of average daily attendance of any such pupils being educated by the county superintendent of schools in the current fiscal year, equal to the amount produced in the district in the current fiscal year by the applicable tax rates specified in Section 41761 or 84731 per unit of the total average daily attendance of the district, but not to exceed the amount per average daily attendance computed pursuant to subdivision (b) (2) of Section 41703 or Section 41712. Whenever a county superintendent of schools provides education to pupils who reside in a licensed children's institution or a family home located either within or without the boundaries of the county, the county superintendent of schools shall be reimbursed by the county of residence pursuant to Section 42904.

In lieu of the payments to the county school service fund for mentally retarded pupils and severely mentally retarded pupils and physically handicapped pupils provided for in this section, the county superintendent of schools, with the approval of the county board of education, may add an amount equal to the amount of such payments to the amount, if any, he certifies in accordance with the provisions of Sections 1856, 1886, 1887, and 42909.

**Article 2. Special Education Program Coordination and Services**

1710. No educational programs for physically handicapped, educable mentally retarded, trainable mentally retarded, regional occupational centers, or regional occupational programs already in operation in school districts or community college districts shall be transferred to the county superintendent of schools without the approval of the Superintendent of Public Instruction or Board of Governors of the California Community Colleges, as the case may be.

The Superintendent of Public Instruction or Board of Governors of the California Community Colleges, as the case may be, shall approve such transfers only if he determines that it is in the best interest of the education and welfare of the pupils attending the program to be transferred.

1711. The county superintendent of schools shall have primary responsibility for coordinating all special programs maintained by the office of the county superintendent and by the school district or community college district under the jurisdiction of that office, for the education of physically handicapped pupils as defined in Article 1 (commencing with Section 56700) of Chapter 5 of Part 30 of Division 4 of Title 2, or Article 1 (commencing with Section 78700) of Chapter 5 of Part 48 of Division 7 of Title 3, and mentally retarded pupils as defined in Chapter 3 (commencing with Section 56500) of Part 30 of Division 4 of Title 2, or Article 1 (commencing with Section 78800) of Chapter 6 of Part 48 of Division 7 of Title 3.

The county superintendent of schools shall undertake the necessary measures to ensure that every pupil in the school district or community college district territory under his jurisdiction who is eligible to participate in any such special education program for physically handicapped pupils or mentally retarded pupils being provided in the territory, shall be afforded the opportunity to participate in an appropriate program.

The county superintendent of schools shall compile and maintain a tabulation of the number of all physically handicapped pupils and mentally retarded pupils enrolled in every category of the special education program in the school district or community college district territory under his jurisdiction and the schools in which such pupils are enrolled.

The county superintendent of schools shall maintain a current list of all physically handicapped pupils and mentally retarded pupils who have applied for but have been denied access to each category of the special education program in the school district or community college district territory under his jurisdiction.

It shall be the responsibility of the county superintendent of schools to render consultative and coordinative services to school districts under his jurisdiction maintaining special education programs for physically handicapped pupils and mentally retarded pupils, and to marshal and utilize, to the extent permitted by law, all private as well as public resources and services available to provide

education and training for physically handicapped and mentally retarded pupils.

### Article 3. Preparation of Courses of Studies

1720. The county superintendent of schools may, with the approval of the county board of education, and in cooperation with school districts and community college districts provide for the preparation of courses of study and the development of curriculum and instructional materials to be used in the elementary and secondary schools.

1721. The county superintendent of schools may, with the approval of the county board of education, enter into an agreement with the governing board of any school district and community college districts under his jurisdiction, other than specified in Section 1720, to provide for the preparation of courses of study by the county superintendent of schools for use in such districts. The agreement shall provide for the payment of the cost of services rendered.

1722. The county superintendent of schools, with the approval of the county board of education, and in cooperation with school districts and community college districts and the State Department of Education, or the board of governors, according to jurisdiction may participate in projects for developmental program planning.

1723. The services described in Sections 1720, 1721 and 1722, except clerical, accounting, and stenographic services, shall be performed by persons who hold a valid credential, or a life diploma based thereon, authorizing administrative services.

Any person who is, and continuously since September 7, 1955, has been, employed in the office of a county superintendent of schools and is performing the services described in this article may continue to perform such services without possessing the credential otherwise required as long as he remains continuously employed in his position.

### Article 4. Supervision of Instruction

1730. The county superintendent of schools may, with the approval of the county board of education, employ supervisors to supervise instruction in the elementary school districts under his jurisdiction which had less than 901 units of average daily attendance during the preceding fiscal year and in the elementary schools of unified school districts under his jurisdiction which had less than 1,501 units of average daily attendance during the preceding fiscal year. The services of supervisors shall be made available in such elementary and unified districts in which adequate supervision of instruction is not being provided by the district.

1731. The county superintendent of schools may, with the approval of the county board of education, enter into an agreement with the governing board of any elementary school district under his jurisdiction for the supervision of instruction in the district by the

county superintendent of schools. The agreement shall provide for the payment of the cost of providing the supervision of instruction. The county superintendent of schools shall transfer from the funds of the district to the county school service fund the amounts set forth in the agreement.

1732. The services described in Sections 1730 and 1731 shall be performed by persons who hold a valid credential issued by the State Board of Education or Commission for Teacher Preparation and Licensing authorizing such service.

#### Article 5. Supervision of Attendance

1740. The county superintendent of schools may, with the approval of the county board of education, employ personnel to supervise the attendance of pupils in elementary school districts under his jurisdiction which had less than 901 units of average daily attendance during the preceding fiscal year, in high school districts under his jurisdiction which had less than 301 units of average daily attendance during the preceding fiscal year, and in unified school districts under his jurisdiction which had less than 1,501 units of average daily attendance during the preceding fiscal year, if the districts are not served by any district supervisor of attendance.

1741. The county superintendent of schools may, with the approval of the county board of education, provide for the supervision of the attendance of pupils in school districts under his jurisdiction other than specified in Section 1740. The county superintendent of schools shall transfer from the funds of the district to the county school service fund an amount equal to the actual cost of providing for the supervision of attendance.

1742. The services described in Sections 1740 and 1741 shall be performed by persons who hold a valid credential issued by the State Board of Education or Commission for Teacher Preparation and Licensing authorizing performance of the service.

#### Article 6. Supervision of Health

1750. The county superintendent of schools may, with the approval of the county board of education, employ one or more supervisors of health, as supervisors of health are defined in Section 49420, to provide health services to pupils in elementary school districts under his jurisdiction which had less than 901 units of average daily attendance during the preceding fiscal year, to pupils in high school districts under his jurisdiction which had less than 301 units of average daily attendance during the preceding fiscal year, and to pupils in unified school districts under his jurisdiction which had less than 1,501 units of average daily attendance during the preceding fiscal year.

1751. In lieu of employing supervisors of health, the county superintendent of schools may, with the approval of the county

board of education, contract with the board of supervisors of the county in which he holds office, or with any local health district located wholly or partially within such county, for the provision of health services by employees of the county health department or local health district to pupils in the school districts specified in Section 1750.

1752. The county superintendent of schools may, with the approval of the county board of education, enter into an agreement with the governing board of any school district under his jurisdiction for the provision of any or all health services to the district by the county superintendent of schools. The agreement shall provide for the payment of the cost of providing the services. The county superintendent of schools shall transfer from the funds of the district to the county school service fund the amounts set forth in the agreement.

1753. The services described in Section 1750, 1751, and 1752 shall be performed by persons who hold a valid health and development credential, or life diploma based thereon, or a services credential with a specialization in health issued by the State Board of Education or Commission for Teacher Preparation and Licensing; provided, however, that a psychologist may be employed to perform psychological services or may perform psychological services under contract if he is the holder of a valid school psychologist credential issued by the State Board of Education.

1754. A supervisor of health employed by the county superintendent of schools shall perform such duties in connection with the supervision of health of pupils as are prescribed by the county superintendent of schools. All rules governing health services provided pursuant to Sections 1750, 1751, or 1752 shall be made by the county superintendent of schools.

#### Article 7. Provision of Guidance Services

1760. The county superintendent of schools may, with the approval of the county board of education, employ personnel to provide necessary guidance services to pupils in elementary school districts under his jurisdiction which had less than 901 units of average daily attendance during the preceding fiscal year, in high school districts under his jurisdiction which had less than 301 units of average daily attendance during the preceding fiscal year, and in unified school districts under his jurisdiction which had less than 1,501 units of average daily attendance during the preceding fiscal year; provided, adequate guidance services are not being furnished by the district.

1761. The county superintendent of schools may, with the approval of the county board of education, enter into an agreement with the governing board of any district for the provision of guidance services in the district by the county superintendent of schools. The agreement shall provide for the payment by the district of the cost

of providing the guidance services. The county superintendent of schools shall transfer from the funds of the district to the county school service fund the amounts set forth in the agreement.

1762. The services described in Section 1760 and 1761 shall be performed by persons who hold a valid credential issued by the State Board of Education or Commission for Teacher Preparation and Licensing authorizing performance of the services.

#### Article 8. Provision of Library Services

1770. (a) The county superintendent of schools may, with the approval of the board of supervisors and the county board of education, agree with the county librarian to take over all existing contracts for supplementary books and other material adopted for the course of study between the school districts or community college districts and the county librarian entered into pursuant to the provisions of Sections 18130 to 18139, inclusive. Thereafter the county superintendent of schools shall generally perform such library services for the school districts or community college districts as were theretofore performed by the county library.

(b) After the above agreement has been entered into, the governing board of any district which had not yet joined the county library may enter into an agreement with the county superintendent of schools for the performance of school library services upon such terms and conditions as are fixed in the contracts or agreements.

(c) Whenever the county superintendent of schools performs school library services for any district, the provisions of Sections 18130 to 18139, inclusive, so far as applicable, shall control. The county superintendent shall employ a librarian holding a valid credential authorizing services as a librarian issued by the State Board of Education or Commission for Teacher Preparation and Licensing. He shall also employ such assistants as may be necessary to carry on this service. The cost of the salaries of such librarian and assistants, and the other necessary expenses of maintenance of the library, including necessary supplies, equipment, and books, may be paid from the county school service fund.

1771. (a) The county superintendent of schools of any county in which no county library is maintained may, with the approval of the county board of education, establish and maintain a county school library service for such elementary school districts of the county as elect to participate in such service.

(b) Upon the governing board of any elementary school district electing to participate in such service, the governing board of the district shall enter into an agreement with the county superintendent of schools, and the provisions of Sections 18130 to 18139, inclusive, shall control and be applicable in the same manner as they apply to a school district which enters into an agreement for school library services from the county library.

(c) The county superintendent of schools shall have the same

powers, duties, responsibilities, and jurisdiction with respect to the furnishing and performance of library services to elementary school districts which have elected to participate in the county school library service as may be exercised by a county library with respect to school library services.

(d) Whenever the county superintendent of schools establishes and maintains a county school library service pursuant to subdivision (a) of this section, he shall employ a librarian holding a valid credential authorizing service as a school librarian issued by the State Board of Education or Commission for Teacher Preparation and Licensing.

(e) The county superintendents of schools of two or more contiguous counties which have established county school library services under the provisions of this section may cooperate with each other and to that end may enter into agreements with each other, and may do any and all things necessary or convenient to aid and cooperate in carrying out the provisions of this section.

1772. The county superintendent of schools may, with the approval of the county board of education, agree with the proper authorities of the county to transfer funds from the county school service fund to the county library for the purchase of such books and other materials as are adopted by the body authorized to adopt courses of study for the school districts of this county.

1773. The county superintendent of schools of any county maintaining one or more emergency elementary schools may, if the county maintains a county library, enter into an agreement with the proper authorities of the county to provide school library services in each of the schools under such terms and conditions as may be agreed upon. The agreement may, among other matters, provide for the payment by the county superintendent of schools to the proper authorities for the use of the county library from the county school service fund of such money at such times as may be agreed upon. All money transferred shall be used solely by the authorities of the county library for the purchase of books and other materials as may be adopted by the county board of education and for the care and distribution of such books and other materials to the schools.

1774. (a) The county superintendent of schools may establish a county teachers' library and expend from the county school service fund such amounts as are necessary for the purchase of books therefor and for the payment of the necessary expenses of maintenance thereof.

(b) If there is a county library in any county, the county superintendent of schools may enter into an agreement with the county library for the transfer to it of all books and other property belonging to the county teachers' library and may order such sums to be transferred from the county school service fund as are necessary for expenditure for the purchase and maintenance of books of professional interest to teachers. Thereupon the teachers' library shall be administered as a part of the county library.

1775. Whenever the county superintendent of schools assumes responsibility for the establishment of a library or the performance of library services pursuant to this article, the county superintendent shall, on or before August 31st, in each year, report to the State Department of Education on the condition of the libraries under his supervision, for the year ending June 30th preceding. The reports of the superintendent shall, in addition to other matters deemed expedient by the librarian and the superintendent, contain such statistical and other information as is deemed desirable by the State Department of Education. For this purpose the State Department of Education may send to the several county superintendents or librarians instructions or question blanks so as to obtain the material for a comparative study of library conditions in the state.

#### Article 9. Conservation and Training Program

1780. The county superintendent of schools, with the approval of the county board of education, or the county superintendents of two or more counties, jointly may contract with the United States, the State of California, any city, county, city and county or any combination thereof for the joint operation and maintenance of programs in youth conservation and training or for assistance in their operation and maintenance.

1781. Whenever the county superintendent of schools enters into a contract authorized by Section 1780 he may employ youths who reside in the county to help in carrying out the terms of the contract. The county superintendent of schools may seek the advice of the governing boards of districts maintaining high schools in the county to select youth to be employed.

1782. The county superintendent of schools may with the approval of the county board of education provide the coordination services authorized by Section 1703 in connection with meeting the requirements of a contract.

1783. The county superintendent is authorized to perform any function necessary in meeting the requirements of a contract and shall pay for the performance of such functions from funds paid by the agency with whom he contracts, or from funds contributed under law by other individuals or agencies.

1784. Funds received by a county superintendent of schools under a contract entered into pursuant to Section 1780 or contributed to the purposes of this article shall be deposited in the county school service fund of the county. The payment for performance of necessary functions under such a contract shall be paid from the county school service fund of the county.

#### Article 10. Technical, Agricultural and Natural Resource Conservation Schools

1790. The Legislature finds and declares: (1) that young people

who have dropped out of high school, thereby failing to receive a minimum education, are faced with limited opportunities and employment barriers because of their lack of training and skills; (2) that such young people comprise a disproportionately large segment of the unemployed or unemployables in this state; (3) that such young people are disproportionately involved in juvenile delinquency and youth offenses; (4) that such young people comprise a disproportionate share of those on the welfare rolls; (5) that there is an increasing shortage of the skilled and trained workers needed because of rapid technological change; (6) that many such young people by aptitude are not suited for purely academic studies; (7) that many such young people would benefit from technical, agricultural and natural resource conservation training so as to become independent, productive workers; and (8) that such technical, agricultural and natural resource conservation training would provide skilled workers needed by our rapidly developing technology.

It is the intent and purpose of the Legislature to encourage the establishment of technical, agricultural and natural resource conservation schools in those areas of the state where they are needed in order to reduce the number of school dropouts, combat juvenile delinquency, and to provide more skilled and trained workers. The provisions of this article shall be liberally construed to carry out these intents and purposes.

1791. The county superintendent of schools, with the approval of the county board of education, may establish and operate a technical, agricultural, and natural resource conservation school, or schools, for the purposes described in Section 1790.

1792. The operation of technical, agricultural and natural resource conservation schools shall be under the management and control of the county board of education, which board shall have in reference to the schools the same powers and duties which are now or may hereafter be assigned by law to a governing board for the management of other public schools.

1793. Any county board of education having management and control of a technical, agricultural and natural resource conservation school pursuant to this article may make such special rules and regulations for the operation of such school as are consistent with the provisions and purposes of this article and not contrary to law. Such governing board may provide for the maintenance, operation and supervision of such school, and the technical instruction of students. The board may acquire by purchase, gift, conditional or otherwise, or by the exercise of the power of eminent domain, the site or sites and provide for the construction of suitable buildings thereon. The board may also accept any gifts or donations and make all contracts for the equipment, maintenance and operation of such schools as may be necessary or advisable.

1794. Schools established pursuant to this article may be operated on a full-time placement care basis and facilities may be provided for

children in attendance to live at such schools if such arrangements are deemed appropriate. The county superintendent of schools maintaining such schools may provide necessary transportation to the pupils in attendance, if full-time placement care is not deemed in the best interest of the pupil.

1795. The county board of education maintaining one or more schools established pursuant to this article shall appoint a board of admissions to these schools consisting of a representative of the welfare department, a representative of the juvenile probation department, two school district administrators, one member of the lay public, and designated members of the staff of the county superintendent of schools. The president of the county board of education and the county superintendent of schools shall be ex officio members of the board of admissions. The board of admissions may enlist the assistance of any other qualified persons for consultation, evaluation of the needs of students, and advice regarding the admission program. The chairman of the board of admissions shall be appointed by the county superintendent of schools.

If two or more counties agree to operate such a school jointly each county shall select its own board of admissions as otherwise provided in this section. Any reference in this article to the board of admissions is to the board established by the county in which the child is resident if the school is jointly operated by two or more counties.

1796. Admission to, and continuation of attendance at, a school established pursuant to this article shall be only upon the recommendation of the board of admissions.

1797. The board of admissions, or persons designated by it, shall investigate the case of any student whose name is submitted in writing accompanied by a signed request for consideration for admission, and shall make recommendations in each case. The board of admissions shall observe the progress of each student for the purpose of recommending continuance or discontinuance of his attendance.

1798. Subject to the provisions of Section 1796, the county board of education maintaining a school established pursuant to this article shall admit to the school only minors from the age of 13 to 18 years, inclusive, who are qualified for technical or prevocational training by satisfactory completion of the eighth grade and a reasonable exhibition of aptitude, who are residents of the county having jurisdiction over the school. Such students may be considered for the school by the board of admissions upon the recommendation of the county superintendent of schools or the chief administrative officer of the school last attended by the minor. Students who are not residents of the county having jurisdiction over the school may be admitted to the school if approved by the board of admissions, provided that the county of residence shall pay by agreement to the governing board of the school all actual expenses of operation and instruction, including building and grounds, minus state and federal apportionments, not received from contracts with the parents or

guardians of the minor, or from the minor's school district of residence.

No minor shall be admitted to a technical, agricultural and natural resource conservation school without the written approval of his parent or guardian, or retained in such school following withdrawal of approval by his parent or guardian.

Juvenile court judges are hereby empowered to refer from their courts to the board of admissions of the county for study as to qualifications for admittance as a student, any minor brought before them who in their opinion can properly qualify for admission. Upon determination of the board of admissions that such minor is otherwise qualified for admission, if the juvenile court judge enters an order waiving jurisdiction of such minor for the purpose of allowing the minor to attend such technical, agricultural or natural resource conservation school, subject to consent by the minor's parent or guardian as provided in this section, the minor shall be admitted to the school.

1799. A program shall be outlined for each student admitted to the school. The board of admissions shall review the order of admission at frequent intervals, and at least twice each year, and upon review may recommend the continuance or termination of the stay of any student in the school.

1800. Subject to Section 1801 the course of study for the students and the methods used in planning the course of study for a technical, agricultural and natural resource conservation school shall be established by the county board of education and shall emphasize technical, agricultural, natural resource conservation and related subjects, giving consideration to job opportunities present and future, available in the county. Facilities and equipment for prevocation and trade training shall be provided where appropriate.

(Amended by Stats. 1976, Ch 1011.)

[ORIGINAL SECTION]

1800. Subject to Section 1801 the course of study for the students and the methods used in planning the course of study for a technical, agricultural and natural resource conservation school shall be established by the county board of education and shall emphasize technical, agricultural, natural resource conservation and related subjects, giving consideration to job opportunities present and future, available in the county. Facilities and equipment for prevocation and trade training shall be provided were appropriate

1801. The course of study shall include:

- (a) Two hours per week on the average of American history emphasizing American institutions and ideals, and California history.
- (b) Two hours per week on the average of world history, the history of western civilization, and world geography.
- (c) One hour per week on the average of American government emphasizing principles of the Constitution and the Declaration of Independence, and the principles of state and local government

under the Constitution of this state.

(d) Five hours per week on the average in the use of English, designed to teach the student to read rapidly and perceptively, to write clearly and correctly, and to present ideas orally. Such instruction shall include the principles of grammar and punctuation as instruments of reading and writing. Also a core of reading designed to familiarize the student with the variety of literary forms and to improve his reading ability shall be taught.

(e) A program to develop and maintain an adequate level of physical fitness.

1802. A student at a technical, agricultural, and natural resource conservation school may be assigned part time to a vocational course in a place of employment. Such courses may be developed through the cooperation of the county officials, the board of admission, school personnel, local employers and local labor organizations. Local representatives of the Department of Employment Development, the Department of Industrial Relations and the Division of Apprenticeship Standards, shall cooperate in the development of such courses.

Such vocational training shall be offered subject to the provisions of Article 2 (commencing with Section 1290) of Chapter 2 of Part 4, Division 2 of the Labor Code.

1803. The governing board of a school established pursuant to this article may require members of the staff to reside in the school where desirable, and may furnish suitable quarters, furniture, food, supplies, and laundry for staff members and their families as in its judgment are required in the best interests of the school.

1804. Each technical, agricultural and natural resource conservation school shall conduct a followup study and advise parents and school authorities regarding courses of study and treatment in the interests of the normal development of the student.

1805. The cost of securing sites or constructing and equipping buildings and the cost of housing and equipment in technical, agricultural, and natural resource conservation schools, including but not restricted to, the necessary dormitories, dining halls, and other living quarters for pupils and employees of the school shall be a charge against the funds of the county maintaining the school. Such buildings shall be deemed "school buildings" within the meaning of Section 15100.

1806. For purposes of schools established pursuant to this article the county board of education may direct the county superintendent of schools to call an election and submit to the voters of the county the question of whether the board of supervisors shall levy and collect the amount of money required to be raised by a countywide tax for the maintenance of the schools. Upon approval of a majority of the voters of the county, the county superintendent of schools, with the approval of the county board of education, shall certify to the county auditor and the county board of supervisors, on or before July 15th of each year, the amount of money required to be raised

by a countywide tax for the maintenance of the schools. The board of supervisors shall levy and collect the required amount in the same manner as other county taxes are levied or collected. The tax shall not exceed five cents (\$0.05) per each hundred dollars (\$100) of assessed valuation for the purposes of Section 1805 and this section. The amount received from this tax shall be deposited in the county school service fund.

The governing board may employ such certificated and noncertificated employees as are necessary in the judgment of the board for the proper conduct of the school. The expenses of lodging and boarding pupils, where applicable, residing within the buildings of a technical, agricultural and natural resource conservation school shall be paid from the sums received from contracts with the child's parents or guardians, from the funds of the county within which the school is located, and from the funds of the county of residence of the student.

1807. The school attendance of such students shall be credited to the county school service fund of the county superintendent of schools providing the education for the students; and State School Fund apportionments on account of such attendance shall be made to the fund in the amount, per unit of average daily attendance, as would be computed for the foundation program of a high school under Section 41712.

1808. A student shall be deemed to be a resident of the high school district in which he lived at the time of his admission to the program and the excess cost for a school year of educating such student shall be paid by the high school district of which he is a resident to the county superintendent who is providing education for the students. The excess cost shall be determined by dividing the total current expense of education as defined in Section 41372 and also excluding expense of boarding and lodging during such school year by the total number of units of average daily attendance in such school or classes during such school year, less state and federal apportionments on account of such average daily attendance.

Average daily attendance of students shall be computed, for purposes of this article, by dividing the number of days such student attended the schools or classes by the number of days that the schools or classes were taught, except that with respect to a student attending such schools or classes for more than 175 days in a school year, the average daily attendance shall be computed by using the divisor of 175.

For purposes of computing average daily attendance 180 minutes of class attendance shall be deemed to constitute a schoolday, and no more than 15 hours of class time per week shall be considered.

Not later than July 15th of each year, the superintendent of schools of the county providing education for students shall forward his claim for the excess expense reimbursement to the high school district of residence of each student during the preceding school year, and the governing board of such high school district shall upon receipt

thereof pay such claims.

The governing board of the high school district to which the claim is presented may include in its budget the amount necessary to pay the claim, and, if the amount is included in the budget, the board of supervisors shall levy a school district tax to raise the amount. The school district tax shall be in addition to any other school district tax authorized by law to be levied. All amounts raised by such a tax shall be expended only for the purposes of this article.

1809. This article may be cited as the "Garrigus-Lagomarsino Act."

#### Article 11. Provision of Audiovisual Services

1830. (a) The county superintendent of schools may, with the approval of the county board of education, establish, conduct, and maintain facilities, for use in the elementary and secondary schools of the school districts under his jurisdiction that elect to participate in the use of the facilities, which provide for audial and visual curriculum materials, including the necessary salaries, supplies, materials, apparatus, and equipment and other necessary expenses.

(b) The county superintendent of schools shall, with the approval of the county board of education, enter into an agreement with the governing board of any school district or community college district electing to participate which shall provide for payment by the district for the use of audiovisual facilities. The county superintendent of schools shall, with the approval of the county board of education, prescribe the method for determining the amount to be paid for the use of the facilities, but in no event shall the total payments made to the county superintendent of schools of any county by the districts of that county be less than one-half of an amount equal to the total cost of the use of the facilities provided to the districts electing to participate, less any restricted remaining balance and any amount received by the county superintendent of schools under the provisions of the National Defense Education Act of 1958 (Public Law 864, Eighty-fifth Congress) or under any similar provisions of any other act of Congress, except that the Superintendent of Public Instruction may provide county school service fund money in addition to the established ratio of support in those counties in which he determines that sparsity of population increases operational costs.

(c) Films and filmstrips shall be adopted by the county board of education before they are purchased by the county superintendent of schools.

1831. The services described in Section 1830, except clerical, accounting, and stenographic services, shall be performed by persons who hold a valid credential issued by the State Board of Education or Commission for Teacher Preparation and Licensing or the Board of Governors of the California Community Colleges of one or more of the types specified in Section 1704.

Any person who is employed in the office of a county superintendent of schools on the effective date of this section and is performing any of the services described in this article may continue to perform such services without possessing the credential otherwise required as long as he remains continuously employed in his position.

1832. The county superintendent of schools may, with the approval of the county board of education, enter into an agreement with the state, the Federal Bureau of Indian Affairs, any political subdivision, or any agency of the state or of any political subdivision, to conduct and maintain distribution among schools of districts under the jurisdiction of the county superintendent of schools, under such conditions as are agreed upon, of aural and visual instruction materials and apparatus approved by the constituted educational authorities. The state, any political subdivision, or any agency of the state or of any political subdivision may enter into any agreement with a county superintendent of schools authorized by this article.

1833. The agreement may, among other matters, provide for the payment by the county superintendent of schools, at such times as are agreed upon, from the county school service fund to the state, political subdivision, or agency, of money for the distribution of materials and apparatus among the schools under his jurisdiction. All money transferred shall be used by the authorities of the state, political subdivision, or agency solely for the acquisition of aural and visual materials and apparatus as may be designated by the constituted educational authorities and for the care and distribution to schools of the county of the materials and apparatus.

1834. The county superintendent of schools and the state or any political subdivision, or any agency of the state or of any political subdivision, may acquire materials and apparatus for distribution pursuant to this article, by purchase, rental, lease, loan, or donation, if the materials and apparatus have been adopted as required by law.

1835. The governing board of any school district or community college district may contract with the county superintendent of schools having jurisdiction over the district, with the state, any political subdivision, or any agency of the state or of any political subdivision, for the rendering to the schools of the district of any service authorized by this article, and may pay for the service out of any funds of the district.

All funds paid by a school district or community college district to a county superintendent of schools for services rendered to the schools of the district shall be deposited in the county school service fund.

1836. The governing board of any school district, or community college district, or the county superintendent of schools acting with its permission and on behalf of such a board, or boards, may enter into contracts, either alone or in cooperation with other districts, for the purpose of participating in or the procuring of television broadcasts for use in the educational program of the schools.

The governing board of any school district, a community college

district, or the county superintendent of schools, either alone or in cooperation with other districts or other county superintendents of schools, or with nonprofit corporations operating educational television stations as defined in Section 225.5 of the Revenue and Taxation Code, may purchase broadcast time over, and may own, lease, and operate, television transmitting facilities for use in providing instructional services, teachers' in-service educational services, which the governing board or the county superintendent of schools is otherwise authorized to provide, and may provide necessary services in connection therewith. The governing board of a school district, a community college district, or the county superintendent of schools, or a nonprofit corporation with a district or with a county superintendent of schools, which is the owner or lessee of television transmitting facilities may sell broadcast time, on a reimbursement basis, to any other school districts or county superintendent of schools for instructional services and teachers' in-service educational services upon such terms as are mutually agreed upon.

The governing board of a school district, a community college district, and a county superintendent of schools may accept grants-in-aid from any public or private source in carrying out the purposes of this section.

When television transmitting facilities owned, leased or operated by the governing board of a school district, a community college district, or county superintendent of schools, either alone or in cooperation with other districts or other county superintendents of schools pursuant to this section or a nonprofit corporation operating an educational television station, are not in use for providing instructional services or teachers' in-service educational services, such facilities may be used for transmitting community educational television programs if such use does not require the expenditure of any additional public funds of a school district or a county superintendent of schools.

For purposes of this section, the term "school district" shall include any school district library district formed under the provisions of Chapter 3 (commencing with Section 18300) of Part 11 of this division.

## Article 12. Education of Physically Handicapped Pupils

1850. The county superintendent of schools shall, under the direction of the county board of education, establish and maintain programs for physically handicapped pupils who come within the provisions of Section 56700, 56701, 78701, or 78702, including orthopedic or other health-impaired, visually handicapped, aurally handicapped, or multihandicapped, and who reside in the county and in elementary or unified school districts which have an average daily attendance of less than 8,000 in the elementary schools of the districts or in unified or high school districts which have an average

daily attendance of less than 8,000 in the high schools of the districts, whenever such districts have not provided nor entered into contract with other districts to provide such programs.

Such program shall, with the approval of the county board of education, be provided in one or more of the following ways:

(a) In special schools or classes of elementary and secondary grade and in remedial classes of elementary and secondary grade.

(b) By the employment of emergency teachers to provide special instruction in the regular schools of the districts of the county.

(c) By the maintenance of special classes of secondary grade.

(d) By the employment of home instructors to give individual instruction in the home or at the bedside in institutions, and by the employment of instructors to provide remedial instruction for physically handicapped pupils in regular, special day, and special training schools or classes which he may be authorized to conduct, and by the employment of instructors to provide individual instruction for pupils with speech disorders or defects who are at least three years of age for the purpose of remedying such speech disorders or defects.

(e) By cooperation with the Department of Rehabilitation in the provision of individual instruction and coordination services.

(f) By contract with the county superintendent of schools of another county or with the governing board of any school district.

(g) In integrated programs of instruction of elementary or secondary grade.

(h) By the employment of instructors to provide individual instruction, subject to the provision of Section 56716 or 78715, in schools or in the homes of pupils who are deaf or hard of hearing, as determined by the State Board of Education, and between the ages of three and six years of age.

The county superintendent of schools may establish and maintain programs for the physically handicapped pupils who come within the provisions of Section 56700, 56701, 78701, or 78702 and who reside in any district within the county with the approval of the county board of education and the agreement of the local governing board of the school district. Such programs may be carried out in accordance with subdivisions (a), (c), (f), (g), and (h).

Such schools and classes shall be established at centrally located places, and the county superintendent of schools shall provide transportation to the pupils attending them. In an instance where it would be impractical because of the transportation distances existing to bring a sufficient number of physically handicapped pupils within the meaning of Section 56700, 56701, 78701, or 78702 together in one place to form a school or special class, the county superintendent of schools, upon the annual approval of the Superintendent of Public Instruction, may defer compliance with the provisions of this section for the year in question.

Any elementary or unified school district which has an average daily attendance of less than 8,000 in the elementary schools of the

district and any unified or high school district which has an average daily attendance of less than 8,000 in the high schools of the district, with the approval of the county superintendent of schools, may establish and maintain programs for the physically handicapped who come within the provisions of Section 56700, 56701, 78701, or 78702.

The county superintendent of schools required to provide for the education of physically handicapped pupils residing in the county who come within the provisions of Section 56700, 56701, 78701, or 78702 may, with the approval of the Superintendent of Public Instruction, enter into agreements with an elementary, unified, or high school district for the latter to provide for the education of such physically handicapped pupils.

1851. A county superintendent of schools, with the approval of the county board of education, and any school district or community college district within his jurisdiction may enter into an agreement for the acquisition and utilization of mobile classrooms for the education of physically handicapped pupils enrolled in integrated programs, as set forth in Section 56702 or 78703, and the education and therapy of speech-handicapped pupils, as set forth in Section 56701 or 78702.

Such agreement may provide for the acquisition of mobile classrooms by a district and the rental, lease, or transfer of mobile classrooms to the county superintendent of schools.

Mobile classrooms may be used to provide services in any school district served by the county superintendent of schools, or as contracted for to any public or private agency authorized to provide and contract for such services.

1852. The county superintendent of schools may, with the approval of the county board of education, enter into an agreement with the governing board of any school district under his jurisdiction for the education in remedial classes of physically handicapped pupils who are excused from regular classes for a portion of a class period. The cost of the education to the school district shall not exceed the actual cost thereof to the county superintendent of schools.

1853. Each county superintendent of schools providing for the education of physically handicapped children pursuant to this article shall report annually to the Superintendent of Public Instruction on forms provided by him the total average daily attendance of physically handicapped pupils by types of instruction provided, the cost of educating the pupils, and such other information as may be required, for each elementary and high school district in which the education is provided.

1854. The Superintendent of Public Instruction shall prescribe the procedures for qualifying for and shall determine the amount of the allowances for special regular day classes and for authorized instruction in other than special regular day classes of physically handicapped pupils.

1855. For purposes of Section 1850, the average daily attendance

of the elementary schools of the district shall be computed by excluding the average daily attendance of pupils attending the seventh and eighth grades of a junior high school maintained by a high school district.

1856. The county superintendent of schools shall, with the approval of the county board of education, certify to the county auditor and the county board of supervisors, on or before August 15th of each year, the amount of money required to be raised by a county tax for the identification and education of physically handicapped pupils who come within the provisions of Section 56700, 56701, 78701, or 78702 and for the rental of property and the purchase of equipment by the county superintendent of schools for the schools or classes for such pupils.

The county superintendent of schools, when actually maintaining schools or classes for handicapped pupils for districts with an average daily attendance in excess of 8,000 in the elementary or secondary schools of the district when such education is by agreement of the governing board of such school district, shall with the approval of the county board of education certify to the county auditor and the county board of supervisors on or before August 15th of each year the amount of money required to be raised by tax for the education of physically handicapped pupils who come within the provisions of Section 56700, 56701, 78701, or 78702 under the same conditions and circumstances as an amount of money is certified and the tax levied for districts with less than 8,000 average daily attendance in the elementary or secondary schools of the district for the education of such physically handicapped pupils, but such tax in districts of more than 8,000 average daily attendance shall not include any amount for the education of physically handicapped pupils actually conducted by the local school district or for contract services of such education by another school district.

The amount shall be determined by subtracting from the total cost of the education of such pupils, including transportation, to the county superintendent of schools the total amounts to be apportioned by the Superintendent of Public Instruction to the county school service fund for the education of such physically handicapped pupils and by adding to the result the amount required for rental of property, the purchase of equipment, and capital outlay.

The board of supervisors shall, at the time of levying other county taxes, levy an identical rate of tax in all elementary or unified school districts which have an average daily attendance of less than 8,000 in the elementary schools in the district, and all unified or high school districts which have an average daily attendance of less than 8,000 in the high schools under the jurisdiction of the county superintendent of schools, and for which approval has not been granted by the county superintendent for the district to establish and maintain such classes for the education of physically handicapped pupils who come within the provisions of Section 56700, 56701, 78701, or 78702 upon the taxable property in such districts sufficient to produce such amounts.

The amount received from this tax shall be deposited in the county school service fund.

The tax shall be levied and collected on a current basis during the fiscal year on the basis of estimates of average daily attendance levels, assessed valuation levels, and the other factors involved. Excess amounts collected in any year may be applied to reduction of the tax in succeeding fiscal years, and the amount to be raised by the tax in any fiscal year may be increased by the amount of deficiency in the tax collected in prior fiscal years.

The Superintendent of Public Instruction shall adopt such rules and regulations as he may deem necessary to the implementation of this section.

### Article 13. Attendance of Handicapped Students

1870. The attendance of physically handicapped pupils instructed by the county superintendent of schools pursuant to Section 1850 shall be credited as follows:

(a) The attendance of elementary school pupils taught in emergency elementary schools and in special classes shall be credited to the emergency schools.

(b) The attendance of elementary school pupils given individual instruction in the home or at the bedside in institutions and of minors with speech disorders or defects who are at least three years of age and of minors who are deaf or hard of hearing and between the ages of three and six years and given individual instruction, subject to the provisions of Section 56716, in school or in the home or by cooperative arrangements with the Division of Vocational Rehabilitation of the State Department of Rehabilitation or in remedial classes or in integrated programs of instruction shall be credited to an emergency elementary school maintained for physically handicapped pupils, if such a school is maintained in the county, or if no such school is maintained in the county the attendance shall be credited to an emergency elementary school maintained in the county, but not to more than one emergency elementary school. If no emergency school is maintained in the county, the total number of days of attendance of pupils shall be divided by 175 to compute average daily attendance, and the average daily attendance so computed shall be credited to the county school service fund as attendance upon a single emergency elementary school for individual instruction of physically handicapped children.

(c) The attendance of pupils of secondary grade given individual instruction in the home or in institutions or by cooperative arrangement with the Division of Vocational Rehabilitation of the State Department of Rehabilitation, or instructed in special classes of secondary grade or in remedial classes or in integrated programs of instruction of secondary grade pursuant to Section 1850, shall be credited to the county school service fund.

(d) The attendance of pupils taught by emergency teachers in the

regular schools of the districts of any county shall be credited to the districts, except that the attendance of pupils taught by emergency teachers pursuant to Section 1852 in the regular elementary schools of the district of any county and the attendance of elementary pupils in remedial classes pursuant to Section 1850 shall be credited to the county school service fund in accordance with subdivision (b) of this section.

(e) The attendance of pupils residing in one county and educated under contract with the county superintendent of schools or governing board of a school district of another county, shall be credited to the county school service fund of the county, or district, in which the pupils are educated.

(f) If the county superintendent of schools maintains an integrated program of instruction as defined in Section 41864 or 84818 and contracts with a school district to provide instruction for part of the day in the regular classes of the district, the total attendance of pupils in such program shall be credited to the county school service fund at both the elementary and secondary levels.

(Amended by Stats 1976, Ch. 1011.)

[ORIGINAL SECTION]

1870 The attendance of physically handicapped pupils instructed by the county superintendent of schools pursuant to Section 1850 shall be credited as follows

(a) The attendance of elementary school pupils taught in emergency elementary schools and in special classes shall be credited to the emergency schools

(b) The attendance of elementary school pupils given individual instruction in the home or at the bedside in institutions and of minors with speech disorders or defects who are at least three years of age and of minors who are deaf or hard of hearing and between the ages of three and six years and given individual instruction, subject to the provisions of Section 56716, in school or in the home or by cooperative arrangements with the Division of Vocational Rehabilitation of the State Department of Rehabilitation or in remedial classes or in integrated programs of instruction shall be credited to an emergency elementary school maintained for physically handicapped pupils, if such a school is maintained in the county, or if no such school is maintained in the county the attendance shall be credited to an emergency elementary school maintained in the county, but not to more than one emergency elementary school. If no emergency school is maintained in the county, the total number of days of attendance of pupils shall be divided by 175 to compute average daily attendance, and the average daily attendance so computed shall be credited to the county school service fund as attendance upon a single emergency elementary school for individual instruction of physically handicapped children

(c) The attendance of pupils of secondary grade given individual instruction in the home or in institutions or by cooperative arrangement with the Division of Vocational Rehabilitation of the State Department of Rehabilitation, or instructed in special classes of secondary grade or in remedial classes or in integrated programs of instruction of secondary grade pursuant to Section 1850, shall be credited to the county school service fund

(d) The attendance of pupils taught by emergency teachers in the regular schools of the districts of any county shall be credited to the districts, except that the attendance of pupils taught by emergency teachers pursuant to Section 1852 in the regular elementary schools of the district of any county and the attendance of elementary pupils in remedial classes pursuant to Section 1850 shall be credited to the county school service fund in accordance with subdivision (b) of this section

(e) The attendance of pupils residing in one county and educated under contract with the county superintendent of schools or governing board of a school district of another county, shall be credited to the county district of another county, shall be

credited to the county school service fund of the county, or district, in which the pupils are educated.

(f) If the county superintendent of schools maintains an integrated program of instruction as defined in Section 41864 or 84818 and contracts with a school district to provide instruction for part of the day in the regular classes of the district, the total attendance of pupils in such program shall be credited to the county school service fund at both the elementary and secondary levels.

1871. The attendance of educationally handicapped pupils instructed by the county superintendent of schools pursuant to Section 56602 or 78602 shall be credited as follows:

(a) The attendance of elementary pupils taught in special classes maintained for educationally handicapped pupils shall be credited to the county school service fund as attendance upon a single emergency elementary school for special class instruction of such pupils. The attendance of pupils of secondary grade in special classes maintained for educationally handicapped pupils shall be credited to the county school service fund as attendance upon a single emergency secondary school for special class instruction for such pupils.

(b) The attendance of elementary pupils in learning disability groups maintained for educationally handicapped pupils shall be credited to the county school service fund as attendance upon a single emergency elementary school for learning disability group instruction of educationally handicapped pupils. The attendance of pupils of secondary grade in learning disability groups maintained for educationally handicapped pupils shall be credited to the county school service fund as attendance upon a single emergency secondary school for learning disability group instruction of educationally handicapped pupils.

(c) The attendance of elementary pupils given instruction in the home, hospital, or a regularly established licensed children's institution shall be credited to the county school service fund as attendance upon a single emergency elementary school for home, hospital, or a regularly established licensed children's institution instruction of educationally handicapped pupils. The attendance of pupils of secondary grade given instruction in the home, hospital, or a regularly established licensed children's institution shall be credited to the county school service fund as attendance upon a single emergency secondary school for home, hospital, or a regularly established licensed children's institution instruction of educationally handicapped pupils.

#### Article 14. Education of Mentally Retarded Pupils

1880. (a) The county superintendent of schools shall, under the direction of the county board of education, establish and maintain special training schools or classes for mentally retarded pupils who reside in the county and in elementary or unified school districts which have an average daily attendance of less than 901 in the elementary schools of the district and who come within the provisions of Section 56501 or 78801. The schools and classes shall be established at centrally located places, and the county superintendent of schools shall provide transportation to the pupils attending them.

Any elementary or unified school district which has an average daily attendance of less than 901 in elementary schools of the district, with the approval of the county superintendent of schools, may establish and maintain special training schools or classes for mentally retarded pupils who come within the provisions of Section 56501 or 78801.

A county superintendent of schools may enter into an agreement by which a public school in a state adjacent to the county will provide

the education required under this subdivision. Attendance resulting from such an agreement shall be reported by the county superintendent of schools to the Superintendent of Public Instruction who shall allow the county superintendent the same amount per unit of average daily attendance as set forth in Section 41704 or Section 41712 and in Section 41884 or 84834. The school district in which a pupil being educated pursuant to such an agreement resides shall make the payments required by Section 1705. Any costs of the agreement in excess of the computed allowances and the payments made by the school district shall be included in the amount to be raised by a county tax pursuant to Section 1886.

(b) The county superintendent of schools may, with the approval of the county board of education, establish and maintain special training schools or classes for mentally retarded pupils who reside in the county and who come within the provisions of Section 56501 or 78801 and contract with an elementary or unified school district with an average daily attendance of 901 or more in the elementary schools of the district, or with a high school district with an average daily attendance of less than 901, subject to such terms and conditions as may be agreed upon. The contract shall be approved by the county board of education and shall require the district to pay to the county school service fund of the county in which the district is located all costs of the education of pupils which are in excess of the amounts apportioned from the State School Fund for the average daily attendance of such pupils.

Whenever a special training school or class is established under the provisions of this subdivision, the computations prescribed by Sections 41703 and 41711 shall not apply.

(c) The county superintendent of schools shall establish and maintain special training schools or classes for mentally retarded pupils who reside in the county and in elementary or unified school districts which have an average daily attendance of less than 8,000 in the elementary schools of the district and in unified or high school districts which have an average daily attendance of less than 8,000 in the high schools of the district and who come within the provisions of Section 56515. Such schools and classes shall be established at centrally located places, and the county superintendent of schools shall provide transportation to the pupils attending them. In an instance where it would be impracticable because of the transportation distances existing to bring a sufficient number of mentally retarded pupils, within the meaning of Section 56515, together in one place to form a special training class, the county superintendent of schools upon the annual approval of the Superintendent of Public Instruction may defer compliance with the provisions of this section for the year in question.

Any elementary or unified school district which has an average daily attendance of less than 8,000 in elementary schools of the district and any unified or high school district which has an average

daily attendance of less than 8,000 in high schools of the district, with the approval of the county superintendent of schools, may establish and maintain special training schools or classes for mentally retarded pupils who come within the provisions of Section 56515.

A county superintendent of schools, required to provide for the education in special training schools or classes of mentally retarded pupils residing in the district who come within the provisions of Section 56515, may with the approval of the Superintendent of Public Instruction enter into agreement with an elementary, unified or high school district for the latter to provide for the education of such mentally retarded pupils.

(d) The county superintendent of schools may, with the approval of the county board of education, establish and maintain special training schools or classes for mentally retarded pupils who reside in the county and who come within the provisions of Section 56515 and agree with an elementary or unified school district with an average daily attendance of 8,000 or more in the elementary schools of the district and in unified or high school districts with an average daily attendance of 8,000 or more in the high schools of the district for the education by the county superintendent of schools of such pupils residing in such districts. Whenever a special training school or class is established under the provisions of this subdivision, the foundation program prescribed in Section 41704 for an elementary district with an average daily attendance of 901 or more shall apply for elementary schools, and the foundation program prescribed in Section 41712 shall apply for high schools.

1881. For purposes of Section 1880 the average daily attendance of the elementary schools of the district shall be computed by excluding the average daily attendance of pupils attending the seventh and eighth grades of a junior high school maintained by a high school district.

1882. In lieu of providing transportation to special training schools or classes maintained by a county superintendent of schools for mentally retarded pupils who come within the provisions of Section 56515 and who reside in elementary or unified school districts which have an average daily attendance of less than 8,000, the county superintendent of schools may, with the approval of the county board of education, pay to the parents or guardians of any such mentally retarded pupil the cost of food and lodging for the minor at a place convenient to a special training school or class maintained by the county superintendent, by the governing board of a school district within the county, or by a county superintendent of another county.

1883. Each county superintendent of schools maintaining special training schools or classes for mentally retarded minors pursuant to subdivision (c) of Section 1880 may limit the number of minors to be admitted to such schools or classes. Any minor who becomes 18 years of age while in attendance upon a special training school or class shall be permitted to continue to attend thereon for the remainder of the

time the school or class is maintained during the then current school year.

1884. Any county superintendent of schools otherwise required or authorized to maintain special training schools and classes under Section 1880 for mentally retarded pupils may provide for the education of such pupils in, and for the transportation of such pupils to, special training schools or classes maintained by a school district under Sections 56500 to 56534, inclusive, or Sections 78800 to 78820, inclusive, or by a county superintendent of schools under this article, subject to such terms and conditions as may be agreed upon. The agreement shall be approved by the county board of education.

1885. In lieu of entering into an agreement for the transportation of mentally retarded pupils by the school district or county superintendent of schools, in the special training schools and classes of which the education of such pupils is provided under Section 1884 or 56529, the school district or county superintendent of schools of the county required to provide for their education may provide such transportation.

(Amended by Stats. 1976, Ch. 1011.)

[ORIGINAL SECTION]

1885. In lieu of entering into an agreement for the transportation of mentally retarded pupils by the school district or county superintendent of schools, in the special training schools and classes of which the education of such pupils is provided under Section 1884, 56529, or 78815, the school district or county superintendent of schools of the county required to provide for their education may provide such transportation.

1886. The county superintendent of schools shall, with the approval of the county board of education, certify to the county auditor and the county board of supervisors, on or before August 15th of each year, the amount of money required to be raised by a county tax for the education of mentally retarded pupils who come within the provisions of Section 56501 or 78801 and for the rental of property and the purchase of equipment by the county superintendent of schools for special training schools and classes for such pupils. The amount shall be determined by subtracting from the total costs of the education of such pupils, including transportation, to the county superintendent of schools (1) the total of any balances remaining to be expended for this purpose, and (2) the total amount to be apportioned by the Superintendent of Public Instruction to the county school service fund for the education of mentally retarded pupils who come within the provisions of Section 56501 or 78801 and by adding to the result the amount required for rental of property and purchase of equipment.

The county auditor and the county board of supervisors shall determine the tax necessary to produce the amount certified when levied upon the taxable property of all the districts under the jurisdiction of the county superintendent of schools which have not been approved by the county superintendent of schools to maintain such schools or classes. The board of supervisors shall at the time of

levying other county taxes levy the tax so determined in each school district or community college district which had during the preceding fiscal year not been approved by the county superintendent of schools to maintain such schools or classes, except that the tax levied shall not exceed ten cents (\$.10) for each one hundred dollars (\$100) of assessed valuation and shall be levied notwithstanding the provisions of law prescribing a maximum tax rate.

The amount received from the tax shall be deposited in the county school service fund.

In the event the amount received from the tax levied is less than the amount certified by the county superintendent of schools the difference shall, with the approval of the Superintendent of Public Instruction, be paid the county superintendent of schools from the county school service fund contingency account pursuant to Section 14055.

1887. The county superintendent of schools shall, with the approval of the county board of education, certify to the county auditor and the county board of supervisors, on or before August 15th of each year, the amount of money required to be raised by a county tax for the education of mentally retarded pupils who come within the provisions of Section 56515 and for rental of property and the purchase of equipment by the county superintendent of schools for special training schools or classes for such pupils. The amount shall be determined by subtracting from the total cost of the education of such pupils, including transportation, to the county superintendent of schools the total amount to be apportioned by the Superintendent of Public Instruction to the county school service fund for the education of such mentally retarded pupils and by adding to the result the amount required for rental of property and the purchase of equipment. The board of supervisors may include in such amount a sum for capital outlay.

The board of supervisors shall, at the time of levying other county taxes, levy an identical rate of tax in all elementary or unified school districts which have an average daily attendance of less than 8,000 in the elementary schools in the district, and all unified or high school districts which have an average daily attendance of less than 8,000 in the high schools of the district under the jurisdiction of the county superintendent of schools, and for which approval has not been granted by the county superintendent for the district to establish and maintain such classes for the education of mentally retarded pupils who come within the provisions of Section 56515 and any school district with an elementary or high school average daily attendance of more than 8,000 for which the county superintendent maintains such class upon the taxable property in such districts sufficient to produce an amount equal to all costs of the education of such pupils which are in excess of the amounts apportioned from the State School Fund for the average daily attendance of such pupils. The amount received from this tax shall be deposited in the county school service fund.

The tax shall be levied and collected on a current basis during the fiscal year on the basis of estimates of average daily attendance levels, assessed valuation levels, and the other factors involved. Excess amounts collected in any year may be applied to reduction of the tax in succeeding fiscal years, and the amount to be raised by the tax in any fiscal year may be increased by the amount of deficiency in the tax collected in prior fiscal years.

1888. (a) The Superintendent of Public Instruction shall reduce the allowances to county school service funds to be made in a fiscal year under Section 14057 by an amount determined by: (1) multiplying sixty cents (\$0.60) by each one hundred dollars (\$100) of the total assessed valuation of all the elementary or unified school districts for whom the county superintendent of schools maintains schools or classes in grades kindergarten through eight, inclusive, pursuant to Section 1850; (2) dividing the product so derived by the total average daily attendance of pupils included in the foundation program computed for the districts for pupils in grades kindergarten through eight, inclusive, in the elementary or unified school districts for whom the county superintendent of schools maintains schools or classes in grades kindergarten through eight, inclusive, pursuant to Section 1850; and (3) multiplying the quotient so derived by the average daily attendance of pupils attending the special schools or classes maintained by the county superintendent of schools in grades kindergarten through eight, inclusive, pursuant to Section 1850.

(b) The Superintendent of Public Instruction shall reduce the allowances to county school service funds to be made in a fiscal year under Section 14058 by an amount determined by: (1) multiplying fifty cents (\$0.50) by each one hundred dollars (\$100) of the total assessed valuation of all the high school or unified school districts for which the county superintendent of schools maintains schools or classes in grades 9 through 12, inclusive, pursuant to Section 1850; (2) dividing the product so derived by the total average daily attendance of pupils included in the foundation program computed for the districts for pupils in grades 9 through 12, inclusive, in the high school or unified school districts for whom the county superintendent of schools maintains schools or classes in grades 9 through 12, inclusive, pursuant to Section 1850; and (3) multiplying the quotient so derived by the average daily attendance of pupils attending the special schools or classes maintained by the county superintendent of schools in grades 9 through 12, inclusive, pursuant to Section 1850.

1889. The Superintendent of Public Instruction shall prescribe the procedures for qualifying for and shall determine the amount of the allowances for special regular day classes and for authorized instruction in other than special regular day classes for education of mentally retarded pupils.

1890. The Superintendent of Public Instruction shall reduce the allowance to each county school service fund made pursuant to Sections 14057 and 14058 by an amount equal to the amount

computed pursuant to Section 1705.

1891. Notwithstanding any other provisions of this code, any school district having an average daily attendance of 400,000 or more, as shown by the annual report of the county superintendent of schools for the preceding year, may contract with a county superintendent of schools or with another school district, pursuant to Section 11001, for the education of physically handicapped pupils, mentally retarded pupils, or educationally handicapped pupils of any contracting party. Any such contract shall require the district whose pupils are receiving educational services thereunder to pay all costs of such educational services which are in excess of the amounts which may be received by the party providing the educational services, apportioned from the State School Fund for the average daily attendance of such pupils. Whenever a county superintendent of schools is a party to such a contract, no tax shall be levied to defray the costs of educational services under the contract by any party other than the school district whose pupils are receiving such educational services.

#### Article 14.5. Education of Prisoners

1900. The county superintendent of schools, with the approval of the county board of education and the board of supervisors, shall have power to establish and maintain classes or schools for prisoners in any county jail, or any county industrial farm or county or joint county road camp, for the purpose of providing instruction in civic, vocational, literacy, health, homemaking, technical, and general education.

1901. The county board of education shall have the authority to award diplomas or certificates to prisoners enrolled in classes or schools in any county jail, or any county industrial farm or county or joint county road camp upon successful completion of a prescribed course of study.

1902. The county board of education may provide for the maintenance on Saturday of classes for prisoners in any county jail, or any county industrial farm or county or joint county road camp.

1903. For purposes of attendance, "adult" means any prisoner confined in any county jail, or any county industrial farm or county or joint county road camp and who has enrolled in classes or schools authorized by Section 1900.

1904. For all schools or classes maintained by the county superintendent of schools as authorized by Section 1906 in any county jail, or any county industrial farm or county or joint county road camp, the Superintendent of Public Instruction shall allow the same amount as he would compute for the foundation program of a high school district under Section 41712.

For purposes of this section, the Superintendent of Public Instruction shall, by rules and regulations, establish minimum standards for the conduct of the schools or classes, including, but not

necessarily limited to, class size, attendance requirements, and requirements concerning records to be kept and reports to be submitted.

1905. The sheriff or other official in charge of county correctional facilities may, subject to the approval of the board of supervisors, provide for the rehabilitation of prisoners confined in the county jail, or any county industrial farm or county or joint county road camp. Such rehabilitation shall emphasize education and vocational training.

1906. The board of supervisors may, by ordinance, direct the county superintendent of schools to establish and maintain classes or schools for prisoners in any county jail, or any county industrial farm or county or joint county road camp established by the county. The county board of education shall have the same powers and duties with respect to such schools, including the establishment of the budget deemed necessary for the operation of the school programs, as the governing board of a school district would have were such schools maintained by a school district.

1907. The board of supervisors, in lieu of proceeding under Section 1906, may provide for the establishment and maintenance of classes or schools in connection with the jail facilities for the education and vocational training of the prisoners. The board, by ordinance, may provide for the establishment and maintenance of school facilities in the county jail, or any county industrial farm or county or joint county road camp, and such schools may be maintained by the governing board of any school district maintaining secondary schools.

1908. (a) The board of supervisors of the county shall transfer from the general fund of the county to the county school service fund of the county superintendent of schools such sums, in excess of the amount of money received from the state by the county superintendent of schools, as the county board of education has deemed necessary to maintain the school programs in the county jail, county industrial farm or county or joint county road camps as described in Section 1906.

(b) The board of supervisors, in lieu of proceeding under subdivision (a), shall agree with the governing board of the school district providing classes or schools for prisoners, to transfer from the general fund of the county to the general fund of the district such sums, in excess of the amount of money received from the state by the district, as is necessary to maintain its school programs in the county jail, county industrial farm or county or joint county road camps as described in Section 1907.

1909. The provisions of this article shall be applicable only to Riverside County and Marin County.

## Article 15. Emergency Schools

1920. In order to provide elementary education for children residing in the county, or in order to provide elementary education for children of migratory laborers engaged in seasonal industries within the county, the county superintendent of schools may, with the approval of the county board of education, when funds are not available from other sources and in his judgment it is necessary, do any one or more of the following acts:

(a) Establish and maintain one or more emergency elementary schools for children.

(b) Provide one or more emergency teachers for the regular elementary schools of the districts in the county for the pupils.

(c) Provide transportation for the children to an elementary school.

In lieu of providing transportation of any pupil, the county superintendent of schools may, with the approval of the county board of education, pay to the parents or guardian of the pupil the cost of food and lodging for the pupil at a place convenient to an elementary school. The amount so paid shall not exceed the cost of providing for the transportation of the pupil to and from his home and the school.

The county superintendent of schools may, with the approval of the county board of education, pay the expenses incurred in providing all the facilities and services authorized in this section, including necessary capital outlays, from the county school service fund.

All emergency schools shall be maintained in accordance with standards prescribed by the Superintendent of Public Instruction.

1921. The county superintendent of schools shall draw requisitions upon the unobligated funds of any suspended school district under his jurisdiction to pay in whole or in part the expenses incurred for the maintenance of emergency schools in the district.

1922. The county superintendent of schools may, with the approval of the county board of education, insure all real and personal property constructed, purchased, or otherwise provided by him for emergency schools established by him.

1923. The county superintendent of schools may, with the approval of the county board of education, transfer or sell the real and personal property of any emergency school maintained by him to any elementary school district under his jurisdiction, or to any other political subdivision of the state within which the school is located, upon such terms and conditions as are agreed upon by the county superintendent of schools, with the approval of the county board of education, and the governing board or authority of the district or other political subdivision. Districts and other political subdivisions may enter into such agreements and acquire such property. Any funds received by the county superintendent of schools under this section shall be paid by him into the county school service fund.

1924. The units of average daily attendance for a fiscal year in an emergency school maintained by the county superintendent of schools shall be computed by dividing the total number of days of pupils' attendance in the emergency school during the fiscal year by 175.

1925. The county superintendent of schools of any county may, with the consent of the county board of education, contract for the transportation of pupils attending schools or classes operated by the county superintendent of schools pursuant to Sections 1850 to 1946, inclusive, to and from any exposition or fair, school activities, or other activities which the county superintendent of schools determines to be for the benefit of the pupils, in this state, and may pay for the transportation out of the county school service fund.

#### Article 16. Institutes

1930. The county superintendent of schools may, with the approval of the county board of education, hold an annual teachers institute in each year as provided in Sections 10300 to 10319, inclusive.

Notwithstanding any other provision to the contrary, teachers employed in community colleges may be exempted from attendance at or participation in such institute by action of the community college district involved.

1931. The county superintendent of schools may, with the approval of the county board of education, hold an annual institute of noncertificated employees in each year as provided in Sections 10340 and 10341.

#### Article 17. Miscellaneous

1940. The county superintendent of schools may, with the approval of the county board of education, expend county school service funds for the purpose of administering and accounting for the county school service fund, or he may, with the approval of the county board of education, contract with and pay the board of supervisors for services rendered in administering and accounting for the county school service fund.

1941. The county superintendent of schools may, with the approval of the county board of education, provide services to school districts or community college districts in screening and directing teachers to the schools under his jurisdiction.

1942. The county superintendent of schools may, with the approval of the county board of education, pay actual and necessary travel expenses incurred in connection with curricular and special services by the county superintendent of schools or by his designated staff members in accordance with regulations established by the Superintendent of Public Instruction.

1943. The county superintendent of schools may, with the approval of the county board of education, employ personnel to conduct research in connection with the activities of the county superintendent of schools, and to develop systems, procedures and methods for applying such research findings to improve the effectiveness of those activities.

1944. The county superintendent of schools may with the approval of the county board of education provide for the publication of materials that are necessary in connection with the curricular and special services that the superintendent of schools is authorized to perform in the county. The county superintendent of schools may, in accordance with regulations adopted by the county board of education and for educational use, sell or give away the published materials or may exchange them for similar published materials. Unless restricted by the regulations of the county board of education, the sale or gift may be made to, and the exchange may be made with, any person, political subdivision, public officer or agency, or educational institution. The distribution of the published materials in accordance with this section is declared to be a public purpose and in furtherance of Article IX, Section 1, of the California Constitution.

1945. The county superintendent of schools may, with the approval of the county board of education, provide advisory services in school business administration activities, in maintenance of school building and grounds, and in the processing of special problems concerning credentials as designated by the State Department of Education.

1946. The county board of education may enter into agreements with the governing boards of any of the school districts or community college districts under the jurisdiction of the office of the county superintendent of schools for the conduct, under the direction of that office, of centralized in-service training programs for both certificated and classified employees of the school districts and community college districts and of that office.

Centralized in-service training program operations of the office of the county superintendent of schools shall be financed through the county school service fund, and shall be included in the budget prepared pursuant to Article 3 (commencing with Section 14050) of Chapter 1 of Part 9 of this division.

## CHAPTER 7. COUNTY SCHOOL TUITION FUND

### Article 1. Aid for Attendance in Adjoining States

2000. The county superintendent of schools of any county contiguous to an adjoining state may grant permission to pupils residing in the county to attend elementary school or high school in a school district of the adjoining state and may provide for the transportation of the pupils to the school.

2001. The average daily attendance of pupils residing in any

county of this state and attending an elementary school or high school in an adjoining state shall be credited to the county school tuition fund of said county and reported by the county superintendent of schools in his annual report to the Superintendent of Public Instruction, who shall include such average daily attendance in his report of average daily attendance in all the duly established schools of the state for the last preceding school year certified by him to the State Controller.

2002. The county superintendent of schools shall pay for the tuition of pupils residing in his county and attending school in an adjoining state from the county school tuition fund of his county pursuant to this article.

2003. The county superintendent of schools may provide for the transportation of such pupils to and from their homes and the school in an adjoining state attended by them. For this purpose the county superintendent of schools is authorized to purchase, maintain, and operate one or more schoolbuses and to contract with a responsible party or parties for the providing of such transportation by such party or parties.

In lieu of providing such transportation for any such pupil, the county superintendent of schools may pay the parent or guardian of each such pupil five cents (\$.05) per mile for each mile necessarily traveled by such pupil in going to and from his home and school except that if there is more than one such pupil in the household of the parent or guardian the county superintendent of schools may pay two and one-half cents (\$.025) for each such mile for each additional pupil in the household. The total amount paid to any parent or guardian hereunder shall not in any month exceed the sum of fifty dollars (\$50) for the one pupil in the household of such parent or guardian and twenty-five dollars (\$25) for each additional pupil in the same household.

2004. Any costs incurred by the county superintendent of schools for the transportation of pupils to a school in an adjoining state shall be paid by him by requisition drawn against the county school tuition fund.

2005. The superintendent of schools of any school district, or the principal of any school, in an adjoining state attended by pupils residing in an adjoining county in this state shall certify to the county superintendent of schools of the county not later than July 2nd of each year the average daily attendance of pupils from the county attending the school and the current expenditure, including transportation, incurred for the education of the pupils. Certification shall be made on forms furnished by the Superintendent of Public Instruction.

2006. The county superintendent of schools shall verify the certificates of attendance and cost of education of pupils attending schools in adjoining states and shall certify to the county auditor and the board of supervisors the amount of money required to be levied as a county school tuition tax. The amount shall not include any costs

for the transportation of the pupils in excess of the amounts permitted by this article. The amount shall be determined by subtracting from the total cost of the tuition and transportation allowed under this article, the amount to be apportioned by the Superintendent of Public Instruction, and the amount apportioned by the county superintendent of schools pursuant to Section 2000, to the county school tuition fund during the fiscal year.

2007. The board of supervisors shall levy a county school tuition tax upon the taxable property of the county sufficient to produce the amount required by this article.

2008. The county auditor shall report to the county superintendent of schools all amounts received from county school tuition taxes.

2009. The county superintendent of schools shall pay all costs of transportation and all verified claims for tuition of pupils attending school in adjoining states allowed under this article, by requisition drawn against the county school tuition fund.

2010. All requisitions drawn by the county superintendent of schools under this article shall be approved by the county auditor and paid by the county treasurer.

2011. The county superintendent of schools may with the approval of the county auditor transfer any unnecessary surplus in the county school tuition fund to the county school service fund whenever in his judgment the surplus will not be needed for the payment of tuition.

#### CHAPTER 8. COMMUNITY COLLEGE TUITION FUND

2100. Not later than August 8th of each year, the superintendent of schools of each county in which there is not a county community college shall certify the following items to the board of supervisors and to the county auditor of the county in accordance with the rules and regulations of the Board of Governors of the California Community Colleges which they are hereby authorized to adopt:

(a) The total current expense of education, exclusive of the expense for transportation of students, during the next preceding fiscal year of all nondistrict resident community college students, as defined in Section 68020, less state basic aid and federal apportionments received during the next preceding fiscal year for such community college students.

(b) The actual expense of transportation of such students not reimbursed by the state.

(c) An amount equal to three hundred dollars (\$300) per unit of average daily attendance of such students during the preceding fiscal year for the use of buildings and equipment

(d) The estimated amount needed as specified in subdivisions (a), (b), and (c) of this section for the current year.

The board of governors shall define, for the purposes of this section, the term "current total expense of education" and the term

“actual expense of transportation.”

If during any fiscal year the county superintendent of schools determines that an amount of at least one hundred dollars (\$100) more or an amount at least one hundred dollars (\$100) less than was required under either subdivision (a), (b), or (c) of this section was certified to the board of supervisors and the county auditor during a prior fiscal year, such amount shall, not later than the third succeeding fiscal year, be deducted from or added to the amount otherwise certified for subdivision (a), (b), or (c) for the current fiscal year, as appropriate.

2101. The governing board of the community college district shall forward the data supporting the certification, required of the county superintendent of schools in Section 2100, to the county superintendent of schools of the county wherein the district is located not later than July 15th of each year. The county superintendent of schools of the county wherein the district is located shall certify such data to the county superintendent of the county wherein the pupil resides not later than July 25th of each year.

2102. The board of supervisors with whom the certificate is filed shall at the time of making the tax levy for that year for county purposes, levy a special tax upon all taxable property in the county not situated in a community college district, sufficient in amount to defray all amounts specified in subdivisions (a), (b), and (c) of Section 2100.

2103. If the board of supervisors fails to make the tax levy, the auditor of the county shall make the levy.

2104. The tax when collected shall be paid into the county treasury and placed in the community college tuition fund which fund is continued in existence.

2105. The auditor shall notify the superintendent of schools of the amount in the funds when allocated, but in no case, later than the first Monday in February of each year for the first installment due on November 1, and not later than the first Monday in June of each year for the second installment due on February 1. The county superintendent of schools shall thereupon apportion the funds to the several community college districts, in his county or in other counties, in proportion to the amounts specified for subdivisions (a), (b), and (c) of Section 2100 for each of the districts; except that any apportionment otherwise allocable to a school district no longer maintaining a community college by virtue of the inclusion of that district in a newly formed or reorganized district maintaining a community college and established so as to be effective for all purposes pursuant to Section 4000 on or after July 1, 1961, shall be made to the new or reorganized district. The county superintendent of schools shall certify the apportionment to the auditor.

2106. The amount apportioned to each community college district under this article shall be paid into the treasury of the county whose superintendent of schools has jurisdiction over the district to the credit of the following funds of the district:

(a) An amount equal to the amounts specified in subdivisions (a) and (b) of Section 2100 shall be credited to the general fund of the district for community college purposes.

(b) Upon authorization by the governing board of the district, (1) all of the amount specified in subdivision (c) of Section 2100 may be credited for community college purposes to either the interest and sinking fund or the special reserve fund of the district; or (2) a portion of the amount may be credited to each of such funds. If no authorization is given by the governing board for the crediting of moneys to either fund, the amount shall be credited to the special reserve fund for community college purposes.

2107. The county superintendent of schools of a county having community college students attending a community college in another county shall draw his order on the county auditor in favor of the superintendent of schools of the county in which the students attend community college for any money belonging to any district outside of his county as provided in this chapter.

2108. The county auditor shall draw his warrant as directed by the superintendent of schools and the county treasurer shall pay it.

2109. A county superintendent of schools in whose favor the order is drawn shall pay the money into the county treasury to the credit of the following funds of the districts educating the students from the county paying the money:

(a) An amount equal to the amounts specified in subdivisions (a) and (b) of Section 2100 shall be credited to the general fund of the district.

(b) Upon authorization by the governing board of the district, (1) all of the amount specified in subdivision (c) of Section 2100 may be credited to either the interest and sinking fund or the special reserve fund of the district; or (2) a portion of the amount may be credited to each of such funds. If no authorization is given by the governing board for the crediting of moneys to either fund, the amount shall be credited to the special reserve fund.

2110. The board of governors shall furnish the forms and prescribe the procedures required of the community college districts and county superintendent of schools under this article.

2111. The special tax required by Section 2102 to be levied shall not be levied upon taxable property in any territory included in a newly formed community college district, during the first fiscal year for which the district is effective for all purposes, or in a unified district during the first fiscal year in which a community college is operated by the district or in any territory annexed to a community college district, during the first fiscal year for which the annexation is effective for all purposes, if the rate of community college district tax levied upon taxable property in such territory during such year for all community college purposes exclusive of bond interest and redemption, equals or exceeds the rate of tax which would be levied on taxable property in such territory under Section 2102 if this section were not in existence. The county auditor shall, on or before

September 25th of such year, determine and report to the county superintendent of schools the amount which would be raised if the tax prescribed by Section 2102 were levied in such territory during such year. The county superintendent of schools shall forthwith report the amount to the Board of Governors of the California Community Colleges, who shall forthwith certify such amount to the State Controller. The State Controller shall, on or before November 25th of such year, draw his warrant upon the General Fund, in the amount certified, payable to the county treasurer from the money appropriated by this section for such year. The county treasurer shall deposit the amount in the community college tuition fund, and the amount shall be apportioned under this article in the same manner as if it were the proceeds of the tax levied under Section 2102.

If the rate of the community college district tax levied upon taxable property in such territory during such year for all community college purposes, exclusive of bond interest and redemption, is less than the rate of tax which would be levied on taxable property in such territory in such year under Section 2102 if this section were not in existence, the board of supervisors at the time of levying the tax prescribed by Section 2102, shall levy in such territory, in lieu of the special tax prescribed by Section 2102, a special tax at a rate equal to the difference between the rate of tax levied under Section 2102 and the rate of district tax levied in the territory for all community college purposes, exclusive of bond interest and redemption. When collected the tax shall be paid into the county treasury and placed in the community college tuition fund. The county auditor shall, on or before September 25th of such year, determine and report to the county superintendent of schools the difference between the amount which would have been raised in such territory in such year if a special tax had been levied in such territory pursuant to Section 2102, and the amount which actually was or will be raised in such year from the levy of the special tax required by this paragraph. The county superintendent of schools shall forthwith report the amount to the board of governors, who shall forthwith certify such amount to the State Controller. The State Controller shall, on or before November 25th of such year, draw his warrant upon the General Fund, in the amount certified, payable to the county treasurer from the money appropriated by this section for such year. The county treasurer shall deposit the amount in the community college tuition fund and the amount shall be apportioned under this article in the same manner as if it were the proceeds of the tax levied under Section 2102.

There is hereby appropriated from the General Fund each year, commencing with the 1959-1960 fiscal year, to the Board of Governors of the California Community Colleges, the total of the amounts reported to him by each county superintendent of schools pursuant to this section, to be expended pursuant to this section.

**CHAPTER 9. INDIAN SCHOOL REIMBURSEMENT FUND**

2200. There is in the county treasury of each county receiving federal funds for the education and care of Indian children in accordance with contracts between the State Department of Education and the United States government a special fund known as the county Indian school reimbursement fund, which fund is continued in existence.

2201. The county superintendent of schools shall credit to the county Indian school reimbursement fund any money received from the federal government or from the State Department of Education under the terms of any contract between the federal government and the State Department of Education for the education and care of Indian children.

2202. The county superintendent of schools of each county may make temporary transfers from the county school service fund of his county in such amounts and at such times as he deems necessary to meet expenses incurred with the approval of the Superintendent of Public Instruction for the education and care of Indian children attending the public schools of the county. The amounts transferred shall be repaid to the county school service fund from the apportionments of federal funds subsequently received in the county Indian school reimbursement fund.

2203. Such portion of the money received in the county Indian school reimbursement fund as is not required for repayment of temporary transfers made from the county school service fund may be expended by the county superintendent of schools for the education and care of Indian children attending the public schools of the county in accordance with the provisions of a contract between the State Department of Education and the federal government and subject to the approval of the Superintendent of Public Instruction.

2204. Whenever by the provisions of any agreement entered into between the state or any officer or agency thereof and the government of the United States or any officer or agency thereof under the authority of any law for the education and welfare of Indian children, a school district or the governing board of a school district is required to execute a bond in favor of the government of the United States, or any officer or agency thereof, the bond may be executed by the governing board of the district and the cost shall be a proper charge against the funds of the district.

**CHAPTER 10. APPORTIONMENT OF COUNTY FOREST RESERVE SCHOOL MONEY**

2300. The county auditor of any county, receiving money from the government of the United States pursuant to any act of Congress providing for the distribution and payment to states and territories of a fixed and definite percentage of the money received by the

government of the United States from the forest reserves established therein, shall apportion the money pursuant to Section 29484 of the Government Code. The county superintendent of schools, with the approval of the county board of education, may allocate 15 percent of the funds from such money for use for the improvement of educational programs for students in the county. The balance of the money credited to the forest reserve account in the county school service fund from the United States Forest Reserve Fund in the State Treasury shall be apportioned by the county superintendent of schools to school districts and community college districts of the county lying within or adjacent to the United States forest reserve with approval of the county board of education in a manner which shall be prescribed prior to the 30th day of June of the fiscal year next following the year in which received.

When a portion of the area of a county is subject to the jurisdiction of the county superintendent of schools of another county or counties and such portion lies in or adjacent to the United States forest reserve, no apportionment of such money shall be made from the county school service fund without the approval of the county boards of education of both or all counties. In the event that both or all county boards of education do not concur in the apportionments of such money from the county school service fund prior to the first day of April of any year the county superintendent of schools of both or all counties shall on that date notify the Superintendent of Public Instruction or board of governors who shall, not later than 60 days following notification, make the apportionments. Apportionments made by the Superintendent of Public Instruction or board of governors are final.

Money apportioned pursuant to this section shall be deposited by the county auditor to the credit of the several funds as directed by the county superintendent of schools with the approval of the county board of education.

#### CHAPTER 11. COUNTY SCHOOL SUPPLY REVOLVING FUND

2400. The county superintendent of schools, or, when so directed by him, the county purchasing agent, shall, whenever a school supply revolving fund is established, purchase school supplies and equipment for the school districts and community college districts of the county which are required or authorized to purchase supplies or equipment through him, and upon requisition therefor by the proper authorities of the district shall deliver or cause the supplies to be delivered to the district together with a memorandum of the amount of the cost of the supplies delivered.

2401. Upon proper evidence of the receipt by any school district of the school supplies and equipment, and upon approval by the county superintendent of schools for payment of the invoice therefor, he shall draw his requisition upon the county auditor against the proper funds of the district in favor of the school supply

revolving fund for the cost of the supplies and equipment plus a charge, not to exceed 10 percent of the cost, to cover expenses of handling and possible losses. He shall thereupon draw his requisition upon the county auditor against the school supply revolving fund in favor of the vendor of the supplies and equipment in the amount of the approved invoice. The requisitions, when allowed and signed by the county auditor, constitute warrants on the county treasurer against the funds of the district and against the school supply revolving fund, respectively.

2402. The county superintendent of schools, or, if so directed by him, the county purchasing agent, may employ such help as is necessary to care for the receiving, handling, and forwarding of school supplies and equipment, and the necessary wages and expenses for the help shall be paid from the school supply revolving fund on requisition by the superintendent.

2403. The superintendent of schools may determine to abolish the school supply revolving fund in his county by serving notice in writing upon the auditor and treasurer of the county. Upon filing the notice discontinuing the fund, the superintendent of schools shall immediately arrange for the sale of supplies in his possession at their market price at the time of the sale plus any handling charges that may be charged against them. The sums secured from the sale shall be deposited by the superintendent of schools in the revolving fund which shall then be returned by the auditor to the respective districts from which it was created. A determination upon the part of the superintendent of schools to dispose of the school supply revolving fund shall not prejudice his right at a future time to recreate the fund.

## CHAPTER 12. COUNTY TAX RATES, COUNTY SUPERINTENDENTS

### Article 1. Maximum Tax Rates

2500. (a) The property tax rates that the county superintendent of schools is authorized to levy for special schools and classes shall be determined pursuant to this chapter.

(b) The maximum allowable tax rate for educable mentally retarded and the maximum allowable tax rate for trainable mentally retarded shall be determined for each in the following manner:

(1) The county superintendent shall determine the average expenditure per class, exclusive of capital outlay, for the 1972-73 fiscal year;

(2) He shall increase this amount by 5 percent;

(3) He shall multiply the amount determined in paragraph (2) by the number of classes estimated to be established for the 1973-74 fiscal year;

(4) He shall decrease the amount determined in paragraph (3) by the federal aid, all state aid, the local foundation program contribution of the districts, pursuant to Section 1705, and any other

local income other than secured roll property tax revenue;

(5) The remainder determined in paragraph (4), if any, may be raised by a tax rate levied on the assessed valuation on the secured roll of the school districts for which the program is available.

(c) The maximum allowable tax rate for special classes of physically handicapped shall be determined as follows:

(1) The county superintendent shall determine the average expenditure per type of class, exclusive of capital outlay, for the 1972-73 fiscal year;

(2) He shall increase this amount by 5 percent;

(3) He shall multiply the amount determined in paragraph (2) by the number of classes estimated to be established for the 1973-74 fiscal year;

(4) He shall decrease the amount determined in paragraph (3) by the federal aid, all state aid, the local foundation program contribution of the districts pursuant to Section 1705, and any other local income other than secured roll property tax revenue;

(5) The remainder determined in paragraph (4), if any, may be raised by a tax rate levied on the assessed valuation on the secured roll of the districts for which the program is available.

(d) The maximum allowable tax rate for each of the physically handicapped programs of remedial instruction including special blind instruction, remedial physical education, and individual instruction shall be determined in the following manner:

(1) The county superintendent of schools shall determine the expenditure per average daily attendance, excluding capital outlay, for the 1972-73 fiscal year;

(2) He shall increase the amount per average daily attendance by 5 percent;

(3) He shall multiply the amount determined in paragraph (2) by the estimated number of average daily attendance for the 1973-74 fiscal year;

(4) He shall decrease the amount determined in paragraph (3) by the federal aid, all state aid, local foundation program contribution of districts pursuant to Section 1705, and any other local income other than secured roll property tax revenue;

(5) The remainder from paragraph (4) may be raised by a tax rate over the assessed valuation on the secured roll of the districts for which each program is available.

(e) The maximum tax rate for the juvenile hall program shall be determined in the following manner:

(1) The county superintendent of schools shall determine an expenditure per unit of average daily attendance, excluding capital outlay, for the 1972-73 fiscal year;

(2) He shall increase the amount per average daily attendance by 5 percent;

(3) He shall multiply the amount determined in paragraph (2) by the estimated number of average daily attendance for the 1973-74 fiscal year;

(4) He shall decrease the amount determined in paragraph (3) by the federal aid, all state aid, and local income other than secured roll property tax revenue;

(5) The remainder from paragraph (4) may be raised by a tax rate over the assessed valuation on the secured roll of the county.

(f) The maximum tax rate for any program in subdivisions (b) to (e), inclusive, for each fiscal year subsequent to the 1973-74 fiscal year shall be determined by:

(1) Increasing the allowed average expenditure per class or average daily attendance for the prior year by a percentage equal to the percentage increase of foundation programs for unified school districts for the then current fiscal year;

(2) Multiplying the amount determined in paragraph (1) by the estimated number of classes or units of average daily attendance projected for the budget year;

(3) Adjusting the amount determined in paragraph (2) by the appropriate methods prescribed in subdivision (b) to (e), inclusive, but exclusive of the increases made pursuant to paragraph (2) of each of such subdivisions, and by any amount which resulted from over or underestimating the average expenditure per class or average daily attendance for the prior fiscal year; the number of classes pursuant to subdivisions (b) and (c); the number of average daily attendance pursuant to subdivisions (d) and (e); the revenue determined in subdivision (b) (4); (c) (4), (d) (4), and (e) (4), and determining the tax rate pursuant to the appropriate subdivision.

(g) The maximum allowable average expenditure per class or average daily attendance may be increased by a majority vote of the qualified electors of the county at an election which may be ordered by the county board of education. Such a proposition may be voted on only in conjunction with a general countywide election.

2500.1. Notwithstanding the provisions of Section 2500, where, on or after July 1, 1975, the powers and duties of a board of supervisors are transferred to a county board of education pursuant to Section 1080 of this code:

(a) The maximum tax rate for the juvenile hall program for the first budget year for which such transfer of authority is effective shall be determined in the following manner:

(1) The county superintendent shall determine the expenditure per unit of average daily attendance, excluding capital outlay, for the fiscal year immediately preceding the date upon which the transfer of the powers and duties of the board of supervisors to the county board of education is effective.

(2) He shall increase the amount per average daily attendance determined in paragraph (1) by the inflation adjustment determined by the Superintendent of Public Instruction and the Director of Finance.

(3) He shall multiply the amount determined in paragraph (2) by the estimated number of units of average daily attendance projected for the budget year.

(4) He shall reduce the amount determined in paragraph (3) by the federal aid, all state aid and local income other than secured roll property tax revenue, and by any amount which resulted from overestimating the units of average daily attendance for the prior year.

(5) The remainder from paragraph (4) may be raised by a tax rate over the assessed valuation on the secured roll of the county.

(b) The maximum tax rate for each year subsequent to the first year in which the transfer of authority is effective shall be determined in accordance with the provisions of subdivision (f) of Section 2500.

2501. The maximum tax rates the county superintendent of schools may levy for the purposes and under the terms and conditions of Sections 1705, 2006, 2102, 37109, 41203, 42909, and 84203 shall be that necessary to pay the estimated costs for each.

2502. The maximum tax rate the county superintendent of schools may levy pursuant to Section 1806, 52317, and 56811 shall be that necessary to fund the proposed authorized expenditures, exclusive of capital outlay, after all federal aid, state aid, and local income, other than from property tax revenue has been deducted, but in no case shall the rate exceed that limit prescribed in Section 1806, 52317, and 56811 for current expenses only.

2503. The county superintendent of schools may levy the tax rate necessary for payments required pursuant to any school building aid law.

2504. The county superintendent may levy a tax rate for capital outlay costs for all purposes, not funded in Section 2502, except that proceeds from this tax may not be used to construct any administration facilities or centers unless, and to the extent that, a tax was levied and collected for such purpose in the 1972-73 fiscal year. The tax rate shall be levied on the areas served, but the rate in any portion of the county shall not exceed five cents (\$0.05) per one hundred dollars (\$100) of assessed valuation.

2505. The county superintendent of schools may levy a tax rate necessary to pay tuition charges for excess costs which are billed the county superintendent for children enrolled in mandated programs.

2506. (a) The county superintendent shall have a maximum tax rate available for the operation, maintenance and housing of the county office, including any costs associated with the operation of the county board of education and the county committee on school district organization, and for any ongoing program, except children's center programs maintained by the county superintendent of schools, not included in any previous section of this article.

(b) For fiscally independent county superintendent offices, the maximum allowable tax rate shall be the rate levied for these purposes in 1971-72 or 1972-73, whichever is higher, minus that portion of the rate levied for capital outlay and juvenile hall purposes. This maximum rate may be exceeded in the amount and under the terms specified in Section 2266 of the Revenue and Taxation Code.

(c) For county superintendent offices which become independent on and after July 1, 1974, the maximum allowable tax rate shall be that rate which was levied or could have been levied in the preceding fiscal year pursuant to subdivision (d) of this section. This maximum rate may be exceeded in the amount and under the terms specified in Section 2266 of the Revenue and Taxation Code.

(d) For fiscally nonindependent county superintendent offices, the maximum allowable tax rate shall be computed by determining the amount of expenditures for the county superintendent of schools' office, exclusive of capital outlay expenditures and expenditures for juvenile hall purposes, in 1971-72 and 1972-73 which were funded from property tax revenues attributable to the county general fund. The amount for each year shall be converted to a tax rate equivalent for that year by dividing each amount by the assessed value of the county in that year and multiplying the quotient by 100; the higher of the two resulting tax rate equivalents shall be the maximum allowable tax rate. This maximum tax rate may be exceeded in the manner and under the terms specified in Section 2266 of the Revenue and Taxation Code.

(e) The maximum allowable tax rate described in this section is not intended to prohibit a county from augmenting the budget of the county superintendent of schools offices from general county funds. If the budget of the county superintendent of schools, as set by the county, does not require the full amount of the maximum allowable rate, the difference between the maximum rate and the actual rate required shall not be levied and shall not be available for any other county purpose.

(f) The maximum allowable tax rates described in this section may be increased by a majority vote of the qualified electors of the county at an election which may be ordered by the county board of education in fiscally independent county superintendent of schools offices or by the county board of supervisors in fiscally nonindependent county superintendent of schools offices. Such a proposition may be voted only in conjunction with a general countywide election.

(g) Notwithstanding any other provision of this section, where a board of supervisors transfers duties and functions to a board of education pursuant to Section 1080 on or after July 1, 1975, the maximum allowable tax rate described in this section shall be computed by determining the amount of expenditures for the county board of education, the county committee on school district organization and the county superintendent of schools' office, exclusive of capital outlay expenditures and expenditures for juvenile hall purposes in the year immediately preceding the date on which such transfer becomes effective, which were funded from property tax revenues attributed to the county general fund and from property tax revenues attributed to the tax rate authorized in subdivision (c) of this section. The amount for such budget year shall

be converted to a tax rate equivalent for that year by dividing the total of the property tax revenues by the assessed value of the county in that year and multiplying the quotient by 100. This maximum rate may be exceeded in the manner and under the terms specified in Section 2266 of the Revenue and Taxation Code.

2507. In any fiscal year, new maximum allowable rates shall be computed as if the maximum allowable rates were levied in the prior fiscal year, but such maximum allowable rates need not be levied.

2508. None of the rates authorized pursuant to this article shall be included in computing the maximum allowable tax rates for counties pursuant to Section 2261 of the Revenue and Taxation Code.

## Article 2. Tax Override for Outdoor Science and Conservation Program

2520. Notwithstanding Article 1 (commencing with Section 2500) of this chapter or Article 2 (commencing with Section 42230) of Chapter 7 of Part 24 of Division 5 of Title 2, in a county of the 21st class, which has authorized the use of a single-fund budget pursuant to this chapter, and in a county of the fifth class, the county superintendent of schools, with the approval of the county board of education and with the approval of the electors of the county at an election called therefor, may cause a tax to be levied pursuant to this section. The proceeds of the tax shall be used by the county superintendent of schools to acquire, maintain, and insure real and personal property and to construct, maintain, and insure buildings, facilities, and roads for a program in outdoor science education and conservation education conducted by the county superintendent pursuant to agreements with school districts and community college districts in the county.

The county superintendent of schools, with the approval of the county board of education, shall include in the single-fund budget and other documents required by this chapter, the amount of money required to be raised by a tax for the purposes set forth in this section. The amount shall be determined by subtracting from the total amount required for said purposes: (1) the total of any balances remaining to be expended for this purpose; and (2) the total amount to be received from school districts and community college districts for this purpose.

At the time of levying county taxes, the board of supervisors shall include as a part of the tax rate and levy authorized by Section 1624 a tax on all property in the county which will produce the amount specified for the purposes of this section; provided, however, that the maximum rate of tax levied pursuant to this section shall not exceed five cents (\$.05) on each one hundred dollars (\$100) of assessed valuation.

No provision of Section 8763 or of any other section of this code shall be deemed to require school districts and community college districts participating in such programs or classes to repay the funds

raised and expended pursuant to this section.

### CHAPTER 13. SCHOOL DISTRICT BOUNDARIES

2600. Every county superintendent shall inquire and ascertain whether the boundaries of the school districts and community college districts in his county are definitely and plainly described in the records of the board of supervisors and keep in his office a full and correct transcript of the boundaries.

If the boundaries of districts are conflicting or incorrectly described, or if, by reason of the resubdivision of land or other change of property lines, the location of the boundaries becomes indefinite or conflicts with lines of assessment, the board of supervisors may correct and relocate the boundaries to follow definite, established property lines, conforming as nearly as practicable to the general location of the former boundaries.

Where boundary lines are corrected or relocated, the relocation of the new lines shall be made in such a manner that the majority of the area of the parcel or property affected determines the district in which the parcel or property is located. Nothing herein contained authorizes the board of supervisors, in relocating the boundaries, to substantially alter the former boundaries of school districts, or community college districts.

2601. Whenever the boundary line of any school district or community college district is described as being "to" or "from" the ocean shore, such description means to or from a point three miles seaward from the shore.

Whenever the boundary line of any school district or community college district is described as being "along," "with," "by," or "on" the ocean shore, such description means on a line parallel with and three miles seaward from the shore.

Nothing contained in this section shall retroactively alter, enlarge, diminish or otherwise affect the powers, jurisdiction, rights, duties, responsibilities, obligations or liabilities of any such school district or community college district.

2602. Whenever any school district or community college district has been or is hereafter intersected by any county boundary line in the formation of any new county, or in changing the boundary of any county, and portions of the district then lie in different counties, the district shall, by operation of law, constitute and become established as a joint school district, at the time of the intersection, unless otherwise provided.

2603. The county superintendent may, if he deems it necessary, order a description of the boundaries of any district under his jurisdiction printed in pamphlet form and pay for the pamphlets out of the county school service fund.

**PART 3. ORGANIZATION AND REORGANIZATION OF  
SCHOOL DISTRICTS AND COMMUNITY COLLEGE  
DISTRICTS**

**CHAPTER 1. GENERAL PROVISIONS**

**Article 1. Definitions**

4000. Unless the context otherwise requires, the definitions set forth in this article govern the construction of this part.

4001. "An action to organize or reorganize districts" means an action to form, dissolve, or lapse a school district, or community college district to annex all or part of the territory of a district to another district, to transfer all or part of a district to another district, or the unification of school districts, or any combination or all of such actions. It also includes a reorganization proceeding under Chapter 2 (commencing with Section 4200) of this part.

4002. For the purposes of any reference in this part to "districts of the same kind," all elementary districts are districts of the same kind, all high school districts are districts of the same kind, all community college districts are districts of the same kind, and all unified districts are districts of the same kind.

4003. "Component district" means any of the following:

(a) An elementary district which is included within a high school district.

(b) A high school or unified school district which is included within a community college district.

(c) A portion of a high school or unified district which is included within a community college district.

4004. "Former district" means a district which has been wholly included in another district. The boundaries of a former district are those of the district as it existed immediately prior to being wholly included in another district.

4005. "County committee" means the county committee on school district organization or a county board of education organized and acting as provided for in Article 4 (commencing with Section 4290) of Chapter 2 of this part.

**Article 2. General Procedural Provisions**

4020. In any petition in an action to organize or reorganize school districts and community college districts there may be designated not to exceed three of the petitioners as chief petitioners for the purpose of receiving notice of any public hearings to be held on the petition.

4021. The persons securing the signatures to a petition of electors in an action to organize or reorganize school districts and community college districts, shall attach thereto an affidavit that all persons who signed the petition did so in the presence of the affiant and that each

signature is a genuine signature of the person whose name it purports to be.

4022. Except as otherwise provided, when an election is required in an action to organize or reorganize school districts and community college districts, the election shall be called, held, and conducted by the county superintendent of schools in the manner prescribed in Part 4 (commencing with Section 5000).

4023. The county superintendent shall canvass the returns of an election in an action to organize or reorganize school districts and community college districts. Upon completion of the canvass the county superintendent shall certify the results of the election to the governing boards of the districts affected. If the requisite number of the votes cast is in favor of the organization or reorganization proposition, he shall also certify the proceedings and the results to the county board of supervisors of each county in which is located any school district or community college district which is changed by the action as to boundaries, status, or kind.

4024. Unless otherwise specifically provided, the question of the organization or reorganization of school districts or community college districts submitted at an election is determined in favor of the organization or reorganization if a majority of the votes cast at the election favor the organization or reorganization.

4025. After the county board of supervisors acts upon and approves a petition in an action to organize or reorganize school districts or community college districts or receives a proper certificate of election or other proper evidence that an action to organize or reorganize school districts or community college districts has been approved as provided by law, the board of supervisors shall make an order to create, change, or terminate school districts or community college districts as may be required by the action and establish or reestablish the boundaries of the districts affected by the action. The order shall be entered in the county's record of school districts.

If the action results in the creation of a district or a change of district boundaries, of the type described in Section 54900 of the Government Code, the order of the board of supervisors shall include the legal description of each district created or changed in the action and, immediately after making the order, the board of supervisors shall cause a copy of the order and a map or plat indicating the boundaries established or reestablished for each district affected by the order to be filed as required by Chapter 8 (commencing with Section 54900), Part 1, Division 2, Title 5 of the Government Code.

4026. After the expiration of one year from the date of the order, the order shall be conclusive evidence that the school district or community college district has been legally organized, or the boundaries legally changed, as the case may be, and no suit shall be maintained which questions the validity of the organization or change of boundaries.

### Article 3. Organization and Reorganization Under Jurisdiction of Different Counties

4040. In any action to organize or reorganize school districts or community college districts so as to change the boundaries or status of one or more school districts or community college districts under the jurisdiction of different county superintendents of schools, the proceedings to be conducted or the actions to be taken by county officers or agencies shall be conducted or taken concurrently in each of the counties except as provided in this article or as otherwise provided by law.

4041. Any petition to a county officer or agency in an action referred to in Section 4040 shall be presented concurrently in each county. The sufficiency of the petition shall be determined jointly by the county superintendents who have jurisdiction over the elementary or unified districts in which any petitioners reside.

4042. Any election in an action referred to in Section 4040 shall be called and conducted by each county superintendent in the elementary or unified districts which are under his jurisdiction and in which the election is to be held. The designation of the date and hours of the election and the form and content of the ballot and the declaration of the result of the election shall be by joint action of the county superintendents who call and conduct the election.

4043. Any decision as to whether an election in an action referred to in Section 4040 shall be held or a public hearing conducted shall be made jointly by the county officers or agencies required by law to make the decision. Any advisory recommendations, statements, or findings required or permitted of county officials or agencies may be made either separately or jointly at the discretion of the officials or agencies of each county involved in the action.

4044. Any public hearing required or allowed to be held in an action referred to in Section 4040 may be conducted concurrently in each county or jointly in either county as appears most convenient and practical to the county officers or agencies conducting the hearing.

4045. Any decision in an action referred to in Section 4040 to grant or deny the proposed reorganization may be taken at or following a joint public hearing. If separate hearings are conducted concurrently in each county a decision to grant or deny the proposed reorganization shall be made only after findings and tentative conclusions of the hearings in each county have been transmitted to the officer or agency which conducted the concurrent hearings in each of the other counties. A decision to grant the proposed reorganization shall be effective only if the same decision is rendered in each of the counties involved in the matter.

**Article 4. Completion and Effective Dates for Action**

4060. An action to organize or reorganize a school district or community college district is complete when the board of supervisors makes the order required by Section 4025.

4061. An action to form a unified school district under Section 35503 is complete upon the date of completion of the action by which the boundaries of the districts comprising the unified district become coterminous.

4062. In any school district or community college district which is created or whose boundaries or status is changed by an action to organize or reorganize districts, the changes shall be effective on the date the action is completed for the purposes set forth below:

(a) The determination of the assessed valuation of any district or districts affected by the action.

(b) The appointment or election of members of the governing board.

(c) The preparation and submission of the school district or community college district budgets.

(d) The election or appointment of an executive officer and other employees required to service the immediate needs of the district.

(e) The election or appointment of employees for the ensuing school year.

(f) The calling and conducting of any elections authorized by law relative to the financing of the district, including bonded indebtedness, tax rates, and state school building aid.

(g) The expenditure of funds available to the district.

(h) The exercise by the governing board of the school district or community college district of other powers and duties vested in governing boards of the districts of the same type or class and not inconsistent with other provisions of this code.

(i) The receipt and expenditure of funds transferred pursuant to Section 42623 or 85223.

(j) The issuing and selling of bonds.

4063. Notwithstanding the provisions of Section 4062 any district which is reorganized so as to be wholly absorbed into one or more other districts shall continue to have the following powers after the date the action is complete and until the action is effective for all purposes:

(a) The appointment or election of members of the governing board.

(b) The preparation and submission of the school district or community college district budgets.

(c) The election or appointment of an executive officer and other employees required to service the immediate needs of the district.

(d) The election or appointment of employees for the ensuing school year.

(e) The calling and conducting of any elections authorized by law relative to the financing of the district, including bonded

indebtedness, tax rates, and state school building aid, subject however to the provisions of Section 4066.

(f) The expenditure of funds available to the district.

(g) The participation in any proceeding authorized by law for the further reorganization of the district.

(h) The exercise by the governing board of the school district or community college district of other powers and duties vested in governing boards of school districts of the same type or class and not inconsistent with other provisions of this code.

4064. Except as provided in Section 4065 any action to organize or reorganize a school district or community college district shall be effective for all purposes on the date set forth below, whichever is applicable:

(a) Any such action completed on or before January 1 of any school year shall be effective on the next succeeding July 1.

(b) Any such action completed after January 1 of any school year shall become effective on the second succeeding July 1.

4065. An order of a board of supervisors attaching the territory of a lapsed district to one or more adjoining districts shall be effective for all purposes on the date of the order.

4066. Any district which is reorganized so as to become wholly absorbed into one or more other districts shall continue as a district until the reorganization becomes effective for all purposes as provided in Section 4064. The territory may be included, however, in plans and recommendations for further reorganization. Such reorganized districts shall not call or conduct elections for the authorization to incur bonded indebtedness, or for the authorization to accept and expend apportionments pursuant to state school building aid laws, or to increase or continue the existing maximum tax rate, or enter into agreements or incur obligations that would extend beyond the date upon which the reorganization would become effective for all purposes without first having obtained the prior approval of the governing board of the district formed pursuant to such reorganization. Thereafter the wholly absorbed district shall cease to exist except insofar as specific provisions are made in this code for former districts.

#### Article 5. Territory of School Districts

4080. Except as provided in Section 4082, a new school district or community college district shall not be formed to include territory which is separated from other portions of the territory of the district by the territory of one or more other school districts or community college districts.

4081. Except as provided in Section 4082 no territory which is not contiguous to a school district or community college district may be made a part of the district.

4082. Whenever territory is removed from a district so that the district is separated into two or more noncontiguous parts, the

validity, powers, and duties of the district shall not be affected by the removal of the territory. Such a district may be annexed or attached to another district or included in the formation of a new district, or otherwise reorganized in the same manner as a district which does not include noncontiguous parts.

4083. Whenever any territory within a county is listed in the Annual Report of Assessed Valuation and Tax Rates as territory not included within the boundaries of both an elementary school district and a high school district, the county committee may, between July 1 and August 31, recommend to the board of supervisors of the county in which such territory is located that the territory be annexed to one or more adjoining school districts as the board of supervisors considers most convenient and proper.

Upon receipt of the recommendation of the report of the county committee, the board of supervisors may set a date of hearing and may give notice thereof as provided in Section 35703 or 74643.

The board of supervisors shall at the time and place fixed in the notice hear all persons interested in the matter and may continue the hearing from time to time but for not more than two weeks in all. After the hearing the board may make an order entered upon its minutes annexing the territory to such district as it deems proper and most convenient.

4084. The territory in any Indian reservation of the United States government may be formed into one or more school districts, or may be included in whole or in part in one or more school districts in the same manner as other territory.

4085. Any land owned by the United States and lying within the boundaries of any school district or community college district is a part of the school district or community college districts and has been continuously a part of the school district or community college districts from the time the land first lay within the boundaries of the school district or community college district.

4086. Whenever territory is transferred to another district or becomes a part of a district, by means of reorganization, in which trustee areas have been established, the territory being transferred shall become a part of the trustee areas to which it is contiguous. In the event that the territory being transferred is contiguous to more than one trustee area, terms of agreement to the transfer may include provisions for the division of the transferred territory among the trustee areas to which it is contiguous.

4087. Any change in district organization made pursuant to provisions of this code other than Chapter 2 (commencing with Section 4200) of this part, shall have no effect upon master plans for the school district or community college district organization of a county unless such master plans are amended to reflect such changes. Amendments to the master plan shall be made in accordance with the procedure provided in Chapter 2.

4088. Prior to the date upon which a newly organized or reorganized district becomes effective for all purposes the county

committee may include all or part of the territory in plans and recommendations for further reorganization.

#### Article 6. Tax Rates of Reorganized Districts

4100. When any district for which the voters have established a maximum tax rate in excess of that otherwise prescribed is reorganized the effect upon the maximum tax rate previously established for the districts is as provided in this article.

4101. When a new district is formed, any maximum tax rates previously established for the former districts are not thereby transferred to the new district except as provided in this article.

4102. When the boundaries of an existing district are changed by the addition or deletion of any territory or district, any maximum tax rate previously established for the existing district is not affected by the change of boundaries.

4103. When a district or part of a district is attached to another district by annexation, transfer, or otherwise, any maximum tax rate previously established for the former district is not thereby transferred to the district to which the territory is attached, except as provided in this article.

4104. When a unified district is formed because the boundaries of an elementary district and a high school district become coterminous, and either or both of the former districts had established a district tax rate in excess of the maximum otherwise prescribed, the amount of the excess portion of the rate for either or both districts shall, if the governing board of the unified school district so determines, be continued and added to the maximum rate otherwise prescribed for the unified district for a period not to exceed the remaining number of years for which the excess tax rate was previously authorized.

4105. If a community college district is formed with boundaries which are coterminous with the boundaries of a single high school district of any type and both districts are thereafter governed by governing boards of identical personnel, and if prior to the formation of the community college district the high school district had established a district tax rate in excess of the maximum rate otherwise prescribed, such excess tax rate shall be continued at the option of the governing boards of the high school and community college districts as the maximum combined tax rate of both districts for combined high school and community college purposes for a period not to exceed the remaining number of years for which the excess tax rate was previously authorized by the voters of the high school district.

Whenever the excess tax rate is continued as the maximum combined rate of both districts and the boundaries of the high school and community college districts thereafter become noncoterminous as a result of any community college district organization or reorganization proceedings, the excess tax rate shall be continued at

the option of the governing board of the high school district as the maximum tax rate of such district for high school purposes for a period not to exceed the remaining number of years for which the excess tax rate was previously authorized by the voters of the high school district.

Whenever the excess tax rate is continued as the maximum combined rate of the high school and community college districts, and while both districts are governed by governing boards of identical personnel, the governing boards of such districts may, by resolution, divide said maximum combined tax rate between the two districts, provided that the resulting maximum tax rate for either of the districts shall not be established at a rate lower than the applicable rate or rates otherwise established.

As used in this section, "high school district" includes a unified school district, and "high school purposes" include unified school district purposes.

#### Article 7. Disposition of Records, Funds, Property and Obligations When Reorganized

4120. When a community college district is formed to include territory in four or more counties, and the new district thereby acquires property of a former community college district which ceases to exist by virtue of its inclusion in the new district, no tax levy shall be made under the provisions of Article 8 (commencing with Section 4140) of this chapter against the assessed valuation within the territory of the former community college district, for the redemption of bond principal or payment of interest on indebtedness which was originally a liability against territory other than that of the former community college district until present or future bonds equal to the appraised value of the property acquired have been redeemed through the payment of principal and interest from revenue derived from a tax levy against the assessed valuation of all of the territory of the new district except the territory of the former community college district from which the property was acquired.

4121. When any school district or community college district is wholly annexed to another district or is included in a new district, pursuant to proceeding taken, all property, funds and obligations of the former district, except for bonded indebtedness, shall accrue to the annexing district or to the new district, as the case may be. Any funds derived from the sale of the school bonds issued by the former district shall be used for the acquisition, construction, or improvement of school property only in the territory which comprised the former district or to discharge bonded indebtedness of the former district, except that if the bond debt is assumed by the new district as provided in this article the funds may be used in any area of the new district for the purposes for which the bonds were originally voted.

This section does not apply to an annexed district which becomes a component district of its annexing district or the new district.

4122. When the entire territory of a school district or community college district is divided and the parts thereof are included in two or more other districts, and when the allocation of funds, property and obligations is not fixed by terms, conditions, or recommendations as provided by law, the funds, property, and obligations of the former district except for bonded indebtedness, shall be allocated as herein provided:

(a) The real property and personal property and fixtures normally situated thereat shall be the property of the district in which the real property is located.

(b) All other property and funds, after all obligations except bonded indebtedness have been discharged, shall be divided pro rata among the districts in which the territory of the former district is included. The basis for the division and allocation shall be the assessed valuation of the part of the former district which is included within each of the districts.

4123. When a portion of the territory of a district is withdrawn and annexed to or included in another district or is formed into a new district and a division of funds, property, and obligations is not set forth in terms and conditions or recommendations as provided by law, the funds, property, and obligations of the district from which the territory is taken, except for bonded indebtedness, shall be allocated as herein provided:

(a) The real property and any personal property and fixtures normally situated thereat shall be the property of the district in which the real property of the district is located.

(b) Except as provided otherwise by law, all other funds, property, and obligations shall remain with the district from which the territory was taken.

4124. If all of the territory of any school district or community college district becomes part of two or more school districts or community college districts of any type, and the inclusion in the two or more new school districts or community college districts of the several portions of territory comprising the whole of the original district is effective for all purposes on the same date, the records of the original district shall be disposed of as follows:

(a) All records of the original district which are required by law to be kept on file shall be deposited with the governing board of the district which, after the reorganization has become effective for all purposes, has located within its boundaries the former office of the superintendent of the original district.

(b) Records of employees shall be transferred to the district thereafter employing the personnel or thereafter maintaining the last place of employment.

(c) Records of pupils shall be transferred to the district which, after the date on which the reorganization becomes effective for all purposes, maintains the school in which a pupil was last enrolled.

4125. If all of the territory of any school district or community college district becomes part of two or more school districts or community college districts of any type, and the inclusion in the two or more new school districts or community college districts of the several portions of territory comprising the original district is effective for all purposes on the same date, the county superintendent of schools having jurisdiction over the original district shall assume responsibility for:

- (a) Completing all records and reports of the original district.
- (b) Paying all outstanding obligations, except obligations resulting from contracts which are to be assumed by a succeeding district.
- (c) Preparing for proper filing all records of the district required to be kept permanently by the provisions of any applicable code.
- (d) Distributing records as provided in Section 4124.
- (e) Employing an auditor as required in Section 41020 or 84040.
- (f) Discharging such other functions as he shall deem necessary to the dissolution of the district.

In discharging these duties the county superintendent may request the services of employees of the original district and the succeeding districts shall release such employees to the county superintendent for the purpose of accomplishing the requirements of this section. The salaries of such employees and all other necessary expenses of completing the requirements of this section shall be charged against the accumulated funds of the dissolved district prior to the final distribution of such funds to the succeeding districts.

#### Article 8. Bond Indebtedness of School Districts

4140. When a school district or community college district is created, annexed, or abolished, or the boundaries thereof changed, the liability to taxation for the outstanding bonded indebtedness of the district or the territory affected thereby is as provided in this article. The authorities whose duty it is to levy taxes for the payment of principal and interest on the outstanding bonds, shall levy the taxes upon the districts affected in such proportions as are provided in or are determined under the authority of this article.

4141. No territory shall be taken from any school district or community college district having any outstanding bonded indebtedness and made a part of another district where the action, if taken, would so reduce the last equalized assessed valuation of the district from which the territory was taken that the outstanding bonded indebtedness of the district would exceed 5 percent of the assessed valuation remaining in the district for each level maintained, on the date the reorganization is effective pursuant to Section 4025.

4142. When any school district or community college district is formed from any combination of whole districts or portions of districts, the district so formed shall be liable for the outstanding

bonded indebtedness of the districts or portions of districts included in the new district. When a portion of a district is included in a new district, the amount of the outstanding bonded indebtedness to be transferred to the new district shall be in the ratio which the total assessed valuation of the portion of the district bears to the total assessed valuation of the whole district during the year immediately preceding the date of formation for all purposes.

In preparing a plan for the formation of a new district, the county committee may prescribe a different method of dividing bonded indebtedness for the purpose of providing greater equity in the division. The county committee may give consideration to assessed valuation, numbers of pupils, property values, and other matters which the county committee deems pertinent.

4143. When any high school district or unified school district, or a portion of either district, which is not in any community college district, is made a part of a community college district by any procedure authorized by this code the reorganized community college district shall be liable for taxation for any outstanding bonded indebtedness of the community college district, and if a bonded debt is created pursuant to Section 74368, the combined outstanding bonded indebtedness of the community college district and the bonded indebtedness of the included territory shall be an obligation of the reorganized community college district.

4144. When any school district or community college district is in any manner merged with one or more school districts or community college districts so as to form a single district by any procedure, the district so formed is liable for all of the outstanding bonded indebtedness of the districts united or merged.

4145. Notwithstanding any other provision of this code, for the purposes of applying the State School Building Aid Law of 1952, Chapter 8 (commencing with Section 16000) of Part 10 of this division, the amount of outstanding bonded indebtedness, exclusive of interest, of the divided districts which is equal to the liability incurred by the acquiring district pursuant to Sections 4142 or 4147 shall be considered a liability of the acquiring district for purposes of computing bonding capacity of the district.

4146. When territory is taken from one school district or community college district and annexed to another school district or community college district and the area transferred contains no public school property or buildings, the territory shall drop any liability for outstanding bonded indebtedness in the district of which it was formerly a part and shall automatically assume its proportionate share of the outstanding bonded indebtedness of the district of which it becomes a part.

4147. When territory is taken from one district and annexed to or included in another district or a new district by any procedure and the area transferred contains public school buildings or property, the district to which the territory is annexed shall take possession of the building and equipment on the day when the annexation becomes

effective for all purposes. The territory transferred shall cease to be liable for the bonded indebtedness of the district of which it was formerly a part and shall automatically assume its proportionate share of the outstanding bonded indebtedness of any district of which it becomes a part.

The acquiring district shall pay the original district the greater of the amounts determined under provisions of subdivision (a) or (b).

(a) The proportionate share of the outstanding bonded indebtedness of the original district, which proportionate share shall be in the ratio which the total assessed valuation of the transferring territory bears to the total assessed valuation of the original district in the year immediately preceding the date on which the annexation is effective for all purposes. This ratio shall be used each year until the bonded indebtedness for which the acquiring district is liable has been repaid.

(b) That portion of the outstanding bonded indebtedness of the original district which was incurred for acquisition or improvement of school lots or buildings or fixtures located therein and situated in the territory transferred.

The county board of supervisors shall compute for the reorganized district an annual tax rate for bond interest and redemption which will include the bond interest and redemption on the outstanding bonded indebtedness specified in subdivision (a) or (b). The county board of supervisors shall also compute tax rates for the annual charge and use charge prescribed by former Sections 1822.2 and 1825 as they read on July 1, 1970, when such charges were established prior to November 23, 1970.

4148. Whenever an existing school district or community college district having authorized but unsold bonds is completely divided between two or more districts so that the existing district ceases to exist, pursuant to any provision of this part, the board of supervisors shall, prior to the date the action is effective for the purposes of Section 4064, make and enter an order in the minutes of its proceedings that the unsold bonds be canceled. After the date on which the reorganization is effective for all purposes, the bonds and the vote by which they were authorized to be issued shall cease to be of any validity.

4149. When a school district or community college district is lapsed pursuant to the provisions of Article 8 (commencing with Section 35720) of Chapter 3 of Part 21 of Division 3 of Title 2, or Article 5 (commencing with Section 74670) of Chapter 5 of Part 46 of Division 7 of Title 3 and ordered by the county board of supervisors annexed to an adjoining district, authorized but unsold bonds of the annexing district may be issued by the board of supervisors in the name of the annexing district to the same extent as though the territory of the lapsed district had formed a part of the annexing district on the date of the bonds authorized. The proceeds derived from the sale of such bonds shall be used only for the purpose or purposes for which the bonds were voted and for the benefit of

the entire territory of the district following the annexation. The territory so annexed shall assume its proportionate share of the bonded indebtedness resulting from the sale of such previously authorized but unsold bonds.

4150. Any unsold bonds of an elementary, high school, unified, or community college district which is included as a whole in a new school district and authorized at an election held either prior or subsequent to the date upon which the action to form the new district pursuant to Section 4064 was completed, may be issued by the board of supervisors in the name of the new district and the proceeds derived upon the sale thereof shall be the funds of the new district; provided that the proceeds derived upon the sale thereof shall be expended only within the territory of the school district which authorized said bonds and only for the purpose or purposes for which such bonds were authorized.

Until the bonded indebtedness described in the preceding paragraph shall have been assumed by the new district any tax levied pursuant to Section 15250 for the interest and redemption of said bonds shall be levied only within the territory of the district within which said bonds were authorized.

4151. Any unsold bonds of an elementary, high school, unified, or community college district which is included as a whole in a new school district and authorized at an election held either prior or subsequent to the date upon which the action to form the new district pursuant to Section 4064 was completed, if issued by the board of supervisors in the names of the old districts, shall be considered a liability of the new district for purposes of computing the bonding capacity of the new district when applying the State School Building Aid Law of 1952, Chapter 8 (commencing with Section 16000) of Part 10 of this division.

4152. When the territory of a school district or community college district is obligated for bonded indebtedness which has not been assumed by the district, an election may be held in the district to determine whether it shall assume the outstanding bonded indebtedness of any included districts or portions of districts. The election may be called upon the adoption of a resolution by the governing board of the district and shall be called upon petition of 10 percent of the qualified electors residing in the district. Such election shall be conducted in the same manner as elections for authorizing the sale of bonds. The ballot proposition at the election shall contain the words: "For assumption of liability for outstanding bonded indebtedness of \_\_\_\_\_ District(s)—Yes" and "For assumption of liability for outstanding bonded indebtedness of \_\_\_\_\_ District(s)—No." Such proposition shall carry if adopted by a percentage of voters prescribed by Section 18 of Article XVI of the California Constitution.

## CHAPTER 2. REORGANIZATION OF DISTRICTS

## Article 1. General Provisions

4200. It is the intent and purpose of the Legislature that the procedures prescribed by the provisions of this chapter and Article 2 (commencing with Section 4240) of this chapter be utilized primarily for the formation of unified school districts, and that this form of organization be ultimately adopted throughout the state. It is the further intent of the Legislature that in exercising the authority to approve master plans and plans and recommendations developed at the local level, the State Board of Education consider the boundaries of existing high school districts as the minimum geographical base for the organization of individual unified school districts, to be deviated from only in exceptional situations. The State Board of Education may approve proposals for the formation of districts based upon the division of the territory of existing high school districts, provided that the board has determined, with respect to the proposal and the resulting new districts that the following conditions are substantially met:

(a) That the new districts will be adequate in terms of number of pupils enrolled, having a projected average daily attendance of at least 10,000 by the beginning of the seventh fiscal year following the date that any such new district became effective for all purposes; provided that, if the assessed valuation per pupil in grades kindergarten to 12, inclusive, in the proposed new districts is greater than the statewide average assessed valuation per pupil in grades kindergarten to 12, inclusive, the board may approve of the formation where there will be an average daily attendance of more than 5,000 in the year following the date that the resulting districts would become effective for all purposes, or if the assessed valuation per pupil in grades kindergarten to 12, inclusive, in the proposed new districts is greater than the statewide average assessed valuation per pupil in grades kindergarten to 12, inclusive, the board may approve of the formation where there will be a projected average daily attendance of more than 7,000 by the beginning of the seventh fiscal year following the date that the resulting districts become effective for all purposes.

(b) That the new districts will be adequate in terms of financial ability. For purposes of determining financial ability, the board shall consider assessed valuations per pupil, revenue limits per pupil, and tax rates required for the revenue limits. For purposes of evaluating proposals pursuant to this section, the board may give such consideration as it deems appropriate to federal funds received by a school district under the act of Congress entitled "An act to provide financial assistance for local educational agencies in areas affected by federal activities, and for other purposes," approved September 30, 1950 (Public Law 874—81st Congress) or under any similar act of Congress. Except as otherwise provided in this section, the board

shall not approve of the formation of districts by division of the territory of existing high school districts, where the assessed valuation per pupil in grades kindergarten to 12, inclusive, in any of the proposed new districts varies from the average assessed valuation per pupil in such grades in all of the territory of which the proposed new districts are comprised by more than 10 percent, except that if the assessed valuation per pupil in grades kindergarten to 12, inclusive, in each and every proposed new district is greater than the statewide average assessed valuation per pupil in grades kindergarten to 12, inclusive, the board shall not approve of the formation where the assessed valuation per pupil in grades kindergarten to 12, inclusive, in any of the new districts varies by more than 15 percent from the average assessed valuation per pupil in such grades in all of the territory of which the proposed new districts are comprised.

(c) That the new districts are each organized on the basis of a substantial community identity.

(d) That the proposal will result in an equitable division of property and facilities of the original district.

(e) That the proposal and the formation of the new districts will not promote racial or ethnic discrimination or segregation. The State Board of Education may secure the advice and assistance of any other public agencies concerned with intergroup relationships for purposes of making determinations under this subdivision.

The State Board of Education may approve a proposal for the formation of two or more unified districts from the territory of a high school district if the board determines that it is not practical or possible to apply the criteria of this section literally, and that the circumstances with respect to the proposals provide an exceptional situation sufficient to justify approval of the proposals.

The board may require that proposals combine the area of existing high school districts, with respect to any proposed new or reorganized districts which would not meet the requirements prescribed by Section 41731 or come within the exceptions prescribed by Section 41733.

4201. When a proposal to unify a high school district has been defeated by the electors of a district three or more times, the county committee on school district organization may, within 18 months of the last election at which a unification proposal was defeated, submit to the State Board of Education a plan to divide such high school district into two or more unified districts, provided that such plan meets the criteria of Section 4200.

4202. Any district which became unified pursuant to the provisions of the Education Code added by Chapter 1273 of the Statutes of 1945, or as such provisions have been subsequently amended, revised, and recodified, or formed by operation of law, on or before July 1, 1948, shall be exempt from the requirements of Article 2 (commencing with Section 4240) of this chapter, and shall be deemed to be properly and adequately organized in all respects,

irrespective of failure to meet any of the standards prescribed in Sections 4200 and 4203, and irrespective of the disapproval, by the State Board of Education, of the inclusion of the district in any master plan formulated pursuant to Article 2, provided the county committee on school district organization approves of the organization of the district and the exemption thereof from the requirements of Section 4203.

The exemption granted by this section shall not prevent the subsequent reorganization of any territory of a unified school district which may have been annexed to, or transferred from, such unified school district.

4203. On or before June 4, 1968, an election shall be held within any school district territory which has not been included within a unified school district and within which no such election was held after July 1, 1964, on the question of the approval of a master plan developed under Article 2 (commencing with Section 4240) of this chapter, or plans and recommendations developed under this chapter, which will effect the reorganization of the territory involved to comply with standards prescribed. Like elections may be held in such territory at any time in odd-numbered years, and on the date of each presidential or gubernatorial primary election. Such like elections shall be called upon order of the county committee on school district organization, upon order resulting from the action of the governing boards of a majority of the school districts in the territory proposed to be reorganized, or by order resulting from the action of the governing boards of school districts which have enrolled in the schools under their collective jurisdictions a majority of the pupils in grades kindergarten through 12, inclusive, enrolled in all of the schools within the territory.

The county committee on school district organization shall, for purposes of any such election, develop any necessary master plan or plans and recommendations. In the event the county committee fails to do so, the election shall be based upon the master plan or plans and recommendations for the territory most recently approved by the State Board of Education.

A unified school district formed by operation of Section 35503 shall not be deemed to be unified for purposes of exemption from the requirements prescribed by the preceding provisions of this section, unless district conforms to the requirements prescribed by Section 41731 or Section 41733.

It is the intent and purpose of the Legislature that eligibility for the increase in foundation program provided for pursuant to Section 41735 for any school district shall be determined, for the, 1968-1969 fiscal year and fiscal years thereafter, on the basis of whether elections have been held within the time limits specified by this section.

With the approval of the State Board of Education, any school district territory in which, after June 1, 1964, and prior to July 1, 1971, two unification elections were conducted pursuant to this section

within a 12-month period, both of which elections were defeated, shall be exempt from the mandatory election provisions of this section.

4204. Any unified school district that became unified by operation of law as a result of the enactment of the provisions of Article 8 (commencing with Section 35720) of Chapter 3 of Part 21 of Division 3 of Title 2 or Article 5 (commencing with Section 74670) of Chapter 5 of Part 46 of Division 7 of Title 3 shall be deemed to be properly and adequately organized in all respects for purposes of Sections 14730 and 14731.

4205. Notwithstanding any provision of this chapter to the contrary, whenever final plans and recommendations for the formation of a unified school district are formulated and transmitted by the county committee on school district organization to the State Board of Education for approval, and the State Board of Education disapproves such final plans and recommendations, the county superintendent of schools shall, except where such final plans and recommendations do not meet the requirements set forth in Section 4200 or any other applicable law, call, hold, and conduct, in the manner specified in Chapter 3 (commencing with Section 5300) of Part 4 of this division, a special election in the districts included in whole or in part in the final plans and recommendations for the purpose of adopting or rejecting the final plans and recommendations. Whenever the State Board of Education disapproves such final plans and recommendations, the board shall set forth the reasons for such disapproval which shall be based only on statutory grounds.

The county superintendent of schools shall certify the results of such special election to the county board of supervisors, and if the final plans and recommendations of the county committee on school district organization are approved by two-thirds of all the votes cast at the special election, the county board of supervisors shall then issue the necessary orders and take such other action as is set forth in Section 4025. The approval by the voters of the final plans and recommendations at the special election and the subsequent orders and actions taken by the board of supervisors pursuant to Section 4025 shall be effective for all purposes for the formation of the unified school district in accordance with Section 4064.

4206. As used in this chapter "unified school district" means a unified school district formed under this chapter.

4207. As used in this chapter "reorganization" means the formation, annexation, transfer, uniting, unification, unionization, merger, division, transfer of territory, or change of boundaries, of school districts authorized by this code.

4208. Each county superintendent of schools, every other county officer, and officers or employees of any school district in any county shall furnish to the county committee any records, reports, documents, maps, or other data pertaining to the survey of the area by the county committee and shall confer with the county

committee concerning the problems of such county or portion thereof, when requested to do so by the county committee.

4209. If the reorganization of a school district under this chapter results in the relocation of district boundaries so that a portion of the students will not be residents of the district thereafter maintaining a school previously attended by the students, and if there is in the school an organized student body, the property, funds, and obligations of the student body shall be divided as determined by the committee except that the share shall not exceed an amount equal to the ratio which the number of students leaving the school bears to the total number of students enrolled. The ownership of the property, funds, and obligations, which is the proportionate share of each segment of the student body, shall be transferred to the student body of the school or schools in which the students are first enrolled during the school year next succeeding the reorganization. Funds from devises, bequests, or gifts made to the organized student body of a school shall remain the property of the organized student body of that school and shall not be divided.

4210. (a) An elementary school which has been included in a unified district because of a reorganization of districts under provisions of this chapter shall be maintained as an elementary school by the unified district unless discontinued as provided in this section. The governing board of the unified district may adopt a resolution or order to discontinue the elementary school at any regular or special meeting of the board and the order or resolution shall be in effect after 30 days unless within this period of time a petition is filed with the governing board requesting the continuance of the school signed by the parents or guardians of at least 10 or one-third, whichever number is the greater, of children of elementary school age, who are eligible to attend such school at the time of the petition. The signature of one parent is sufficient to represent all of the children of such parent. The parents or guardians eligible to sign such petitions shall be residents within the boundaries of the component elementary school district which maintained the school prior to the establishment of the unified school district, and shall be qualified electors within such district at the time the petition is filed, and shall have children of elementary school age who attend or are eligible to attend such school. An elementary school which is continued in operation by the filing of a petition pursuant to this section, shall remain in continuance for a period of three school years, unless the petition provides for a shorter period of continuance. If the governing board intends to discontinue the elementary school at the expiration of such period, it shall, commencing at least 90 days prior to the expiration of such period, publish in a newspaper of general circulation in the county, once each week for at least three weeks, a notice of intended discontinuance, and may thereafter adopt a resolution or order as heretofore provided. If a school is discontinued as herein provided, the governing board of the unified school district may maintain the

building for community and civic center and other lawful purposes.

(b) Subdivision (a) of this section does not apply to any unified school district which has an average daily attendance of 15,000 or more or to a school which is five miles or less from another elementary school.

4211. The county committee shall prepare and submit to the Superintendent of Public Instruction, upon his request, a report and recommendations respecting the urgency of need for school plant facilities, the kind and extent of the facilities required, and the development of improved local school administrative units and attendance areas in the case of school districts that seek state assistance in providing school plant facilities.

4212. The formation of a unified school district shall be deemed a unification of school districts within the meaning of Sections 44902 or 87464 and 44903.

4213. Any employee, other than special teachers, whose assignment to duties is on a districtwide level and requires certification qualifications, and any principal, in any school district, which district is included in whole in a new school district and does not constitute a component district of the new district, shall continue as an employee of the new school district under the terms of his then current contract; providing that the term of such employment shall not be less than two years; and provided also, that the governing board of the new school district may make any reasonable reassignment of his duties.

If any school district is included in part in a new district and does not constitute a component district of the new district any employee, other than special teachers, in a position requiring certification qualifications and whose assignment to duties is on a districtwide level may elect to remain an employee of the original district or to become an employee of the new district and accept employment as provided in the first paragraph of this section.

If all the territory of any school district becomes part of two or more new districts and the inclusion in the two or more new districts of the several portions of territory comprising the whole of such district is effective for all purposes upon the same date, any principal shall continue as an employee of the new district in which the school to which he was assigned is included, and any employee, other than special teachers, in a position requiring certification qualifications and whose assignment to duties is on a districtwide level shall continue as an employee of one of the new districts in which a portion of the former district is included, at the election of such employee. Continued employment shall be under the terms of the employee's current contract; providing that the term of such employment shall not be less than two years; and provided also, that the governing board of the new school district may make any reasonable reassignment of his duties.

4214. All provisions of this code relating to unified school districts not in conflict with, or inconsistent with this chapter apply to unified

school districts formed under this chapter and are hereby made a part of this chapter with the same force and effect as though set forth in this chapter as a part hereof.

4215. At any public meeting held pursuant to law concerning a proposed recommendation for the reorganization of a school district or a change in school district boundaries at which members of the county committee or the county superintendent of schools, or a representative of such committee or superintendent, participate and present their views on the recommendation, the agency conducting such meeting shall give reasonable notice of the time and place thereof to the governing board of any school district actually or prospectively affected by such recommendation, and the members of any such board, or their representative, shall be given a reasonable opportunity to express their views on the recommendation at such meeting.

4216. Any circular, pamphlet, letter, poster, or other campaign literature which is designed to promote either the passage or defeat of a ballot measure proposing the unification of school districts shall bear on its face, in a conspicuous place, either:

(a) The names and residence addresses of the chairman and secretary or the names and residence addresses of at least two officers of the organization issuing it, if issued by an organization; or

(b) The name and residence address, with the street and number, if any, of any individual responsible for it, if issued by an individual or individuals.

If any person eligible to vote upon such ballot measure has reason to believe that such campaign literature contains false and misleading statements, he may maintain an action in the superior court for injunctive relief against further circulation of the literature, and if the court finds that the literature does in fact contain false and misleading statements, it may enjoin any further circulation of the literature.

## Article 2. County Master Plans for School District Organization

4240. This article shall be administered by the Superintendent of Public Instruction.

4241. The State Board of Education shall adopt rules and regulations, not inconsistent with the provisions of this chapter, to carry out the provisions of this article.

4242. On or before September 15, 1963, each county committee shall prepare and submit to the State Board of Education a master plan for including all the territory of the county, including territory of adjacent counties where necessary, in school districts so that each school district shall provide an educational program including all grades from kindergarten or grade 1 through grade 12 together with other types of reorganization which would constitute intermediate steps to the establishment of districts operating all grades through grade 12. The master plan may include consideration of grades 13

and 14 and the establishment of districts for the provision of an educational program for these grades.

4243. The State Board of Education may extend for any period not extending beyond September 15, 1964, the date specified by Section 4242 for submission of a master plan, whenever it determines that the county committee seeking such extension of time has made substantial progress in its studies relating to the plan, and that difficulties peculiar to that county or locality have prevented formulation of a satisfactory plan on or before September 15, 1963.

4244. If a county committee fails to prepare and submit a master plan on or before September 15, 1963, the State Department of Education shall prepare the master plan for the county, and shall, on or before September 15, 1965, submit it to the State Board of Education for its approval.

4245. Within one year after the approval of a master plan by the State Board of Education a county committee may make alterations in the master plan and submit such alterations to the State Board of Education for its approval.

4246. The State Board of Education may approve all or any portion of a master plan or alterations thereof submitted by a county committee. When the State Board of Education approves all or part of a master plan it shall notify the county superintendent of schools and the county board of supervisors of the county or counties involved.

4247. Any elections required to carry out the proposals of a master plan or alterations of the master plan shall be called and conducted by the county superintendent of schools of the county in which all or the greater portion of the area is situated at the time recommended by the county committee but shall be held within two years after the date upon which the State Board of Education notifies the county superintendent of its approval.

4248. The procedures contained in this chapter, except Article 2 (commencing with Section 4240), and Article 11 (commencing with Section 35780) and Article 12 (commencing with Section 35800) of Chapter 3 of Part 21 of Division 2 of Title 2 shall be used in the study and preparation of the master plan. Nothing in this chapter shall prohibit a county committee from making plans and recommendations, as authorized by this chapter, except Article 2 (commencing with Section 4240), and Article 11 (commencing with Section 35780) and Article 12 (commencing with Section 35800) of Chapter 3 of Part 21 of Division 2 of Title 2 of this division, prior to the time when the State Board of Education approves the master plan for the county.

4249. If the State Board of Education does not approve all or any part of a master plan submitted by a county committee the board shall so notify the committee setting forth the reasons for not approving and the nature of additional data or study which it deems necessary. The county committee shall thereupon reconsider the matter and resubmit a plan covering the area, the original plan for

which was not approved, within six months from the date of the notice from the State Board of Education.

4250. A unified school district whose formation involved the division of a high school district and whose formation was approved by the State Board of Education and by the electorate of the school district at an election held on December 10, 1968, shall be a unified school district organized for all purposes in accordance with the standards and requirements prescribed by this division, and the territory included in the district shall not be subject to unification pursuant to the county master plan for school district organization; nor shall it be subject to the provisions of Article 3 (commencing with Section 41750) and Article 4 (commencing with Section 41760) of Chapter 5, and Chapter 8 (commencing with Section 42400) of Part 24 of Division 3 of Title 2, which relate to the computation of areawide aid for purposes of state apportionments and the levy and collection of areawide taxes.

### Article 3. Statewide Survey of School Districts

4280. The State Board of Education or board of governors as the case may be, shall

(a) Determine policies for, direct, and govern a statewide survey of all school districts for the purpose of effecting feasible unifications or other reorganizations of school districts.

(b) Approve plans formulated by county committees for the unification or other reorganization of school districts prior to the submission of the plans to the people of the areas affected for approval.

(c) Establish standards which shall be applied in approving plans for the unification or other reorganization of school districts.

(d) Utilize the resources, records, and personnel of the State Department of Education, or Chancellor's office of the California Community Colleges, as the case may be, whenever advantageous in carrying out the provisions of this chapter.

4281. In order to establish a system of unified districts throughout the state it is the intent of the Legislature that plans and recommendations for the establishment of unified districts proposed under provisions of Article 1 (commencing with Section 4200) and Article 2 (commencing with Section 4240) of this chapter, approved by the State Board of Education, and by the electors, shall supersede any organization or reorganization accomplished under other provisions of this code.

### Article 4. County Committees on School District Organization

4290. There is in each county, except a county which is also a city and county, a county committee on school district organization. The number of members of the county committee in each county shall be determined as provided in this article.

4291. If all of the territory of a county under the jurisdiction of the county superintendent of schools of the county is included in one unified school district the governing board of the unified school district shall constitute the county committee.

4292. Except as provided in Section 4291, if there are less than six districts under the jurisdiction of the county superintendent of schools of the county, he shall determine the number of, and appoint, the members of the county committee.

4293. In every county with six or more school districts or community college districts under the jurisdiction of the county superintendent of schools of the county, the county committee on school district organization shall have 11 members. A majority of the representatives of the governing boards, provided for in Section 35023 or 72403, at their annual meeting shall elect the members of the county committee to fill vacancies that will be created by the expiration of terms of office. No action to elect members of a county committee shall be taken at an annual meeting unless a quorum of the representatives is present.

An annual meeting of the representatives shall be called by the county superintendent of schools which shall be held between October 1 and December 1. Notice of the meeting shall be deemed sufficient and complete when deposited in the United States mail with postage prepaid, addressed to the clerk or secretary of the governing board of each district.

If the representatives fail to elect members of the county committee, the county superintendent of schools shall appoint the members.

4294. If the number of districts in a county with six or more districts decreases to less than six, Section 4291 or 4292, as the case may be, shall apply or if the number of districts in a county with less than six districts increases to six or more, Section 4293 shall apply. Each member of the county committee of a county in which such a change occurs shall serve out his term of office.

4295. Neither the county superintendent of schools nor any member of his staff nor any employee of a school district or community college district shall be a member of the county committee. At least two members of the county committee shall be elected from among the qualified electors of each county supervisorial district in the county.

4296. The term of office of each member of the county committee shall begin upon election or appointment pursuant to Sections 4292 and 4293 and shall be for four years and until his successor is elected or appointed, as the case may be, and qualified. The terms of the members first selected shall be determined by lot so that as nearly as possible thereafter one-fourth ( $\frac{1}{4}$ ) of the members shall be elected annually.

4297. Vacancies in the membership of the county committee are caused by the happening of any of the events specified in Section 1770 of the Government Code. In a county in which the members of

the county committee are appointed by the county superintendent of schools, he shall fill any vacancies. In a county in which the members of the county committee are elected by the representatives of the governing boards, vacancies shall be filled by the remaining members of the committee or, if they fail to fill such vacancies with qualified electors within 60 days, by the county superintendent of schools. Persons appointed to fill such vacancies shall hold office for the completion of the unexpired term.

4298. The members of the county committee shall serve without pay, but they shall receive their actual and necessary travel expenses incurred in the performance of their duties. The expenses shall be allowed by the board of supervisors, and be paid out of the county general fund.

4299. Funds for secretarial and stenographic services for county committee may be allowed by the board of supervisors, and shall be paid out of the county general fund.

4300. (a) The county counsel, or if there is no county counsel, the district attorney, may provide legal services to the county committee.

(b) In the event that the county counsel, or if there is no county counsel, the district attorney, is unable to provide legal services, the board of supervisors may provide the county committee with private legal counsel to be selected by the committee.

4301. The county committee shall organize by electing from its membership a chairman and a vice chairman. The county superintendent of schools shall act as the secretary of the county committee. Meetings of the county committee shall be held upon call of the chairman or of a majority of the members thereof. The first meeting of the county committee shall be held within 30 days after election or appointment on a call issued by the county superintendent of schools. A majority of the county committee shall constitute a quorum.

#### Article 5. County Administration of District Organization

4310. Upon order of the State Board of Education the county board of education of a county succeeds to and is vested with all duties, powers, purposes, responsibilities and jurisdiction vested in the county committee on school district organization in the county.

4311. Wherever in this division the phrases or terms "county committee on school district organization," "county committee," or "committee" or their variants are used, such terms shall be construed to refer to and mean a county board of education which has been ordered to act as a county committee on school district organization pursuant to Section 4310.

4312. Upon petition by a county committee of school district organization of a county or of the county board of education of such county, the State Board of Education may order that the county board of education act as a county committee of school district

organization pursuant to Section 4310. Within 90 days after receiving the petition the State Board of Education or the board of governors as the case may be, shall approve or reject the petition, and issue an appropriate order thereon.

Article 6. Formulation of Plans and Recommendations for the Organization and Reorganization of Districts

4320. Each county committee shall study the school district or community college district organization of the county and shall, under the direction of the State Board of Education, or the board of governors as the case may be, formulate plans and recommendations for the unification or other reorganization of the districts in the county or any portion thereof including, if necessary, a portion of one or more adjacent counties. The county committee may formulate plans and recommendations for the formation of a unified district comprising less than a high school district as an intermediate step to the unification of territory of the high school district, provided that all such plans and recommendations meet the requirements of Section 4200. It shall transmit the final plans and recommendations to the State Board of Education or Board of Governors of the California Community Colleges, as the case may be.

4321. On receipt of a petition signed by at least 10 percent or 250, whichever is the lesser, of the qualified electors residing in any district for a consideration of unification or other reorganization of any area, the county committee shall hold a public hearing and determine, following such hearing, whether the committee shall study further the matter petitioned in the manner herein described in this chapter. If the petition involves territory already under study by the county committee, no further hearings shall be required.

The public hearing required by this section shall be called by:

(a) Sending a notice to the governing board of each school district or community college district involved at least 10 days prior to the hearing, and

(b) Posting a notice of the hearing as provided in Section 5362 or publishing a notice of the hearing as provided in Section 5363.

The notices shall contain information as to the time, place, and purpose of the hearing.

4322. The county committee may select all or any portion of the county to be studied for possible recommendations for reorganization. The territory selected may include portions of one or more adjacent counties.

4323. At any time, and from time to time, after the county committee has selected all or any part of the county for study for possible recommendation for reorganization and prior to the adoption by the county committee of plans and recommendations for unification or other reorganization, a majority of the county committee may change the territory selected for study for possible recommendation for reorganization.

4324. Notice of each meeting of the committee shall be mailed to all members by the county superintendent of schools at least 10 days prior to the date of such meeting.

4325. The county committee shall adopt a tentative recommendation following which action it shall hold one or more public hearings in the area proposed for reorganization at least 30 days prior to submission of a final recommendation for unification or other reorganization to the State Board of Education or the board of governors as the case may be. The public hearing shall be called in the same manner as specified in Section 4321.

4326. No final recommendation for reorganization to be submitted to the State Board of Education or the board of governors as the case may be, shall be made until the county committee has adopted the recommendation by a majority of all entitled to vote and no such action shall be taken prior to the public hearing specified in Section 4325.

4327. Prior to submitting plans and recommendations for the unification of a school district or districts to the State Board of Education and for the purposes of Section 4405 the county committee shall notify, in writing, the board of supervisors of each county affected.

4328. When a county committee selects an area for study for possible recommendation for reorganization which includes territory of one or more school districts or community college districts under the jurisdiction of the county superintendent of schools of another county, the county committee shall so notify the members of the county committee of such other county. Thereafter the members of the county committee of such other county shall be notified by mail of each public hearing or meeting of the county committee at which the proposed reorganization will be considered at least 10 days prior to the day of such hearing or meeting.

4329. If plans and recommendations adopted by a county committee propose changes in the boundaries or status of school districts or community college districts under the jurisdiction of the superintendent of any adjacent county, the county committee of each such adjacent county shall be requested in writing to concur in the plans and recommendations.

If the county committee of an adjacent county concurs in the plans and recommendations, the concurrence shall accompany the recommendations transmitted to the State Board of Education or the board of governors as the case may be. The adoption and consideration of a resolution of concurrence by such committee or committees shall not be subject to the provisions of Section 4322, 4323, 4325, and 4326.

If the county committee of an adjacent county fails to respond to the request for concurrence within 90 days of the date of the request, such failure shall be deemed to be a concurrence in the plans and recommendations.

If a county committee of an adjacent county does not concur in the

plans and recommendations, it shall so notify the other county committee in writing and accompany the notification with plans and recommendations for the reorganization of school districts or community college districts of its county including territory that would be affected by the plans and recommendations of the other county committee. After 60 days from the notification of nonconcurrence, if the county committees are still unable to agree upon plans and recommendations for reorganization of the territory, the county committees, or any of them, may submit plans and recommendations to the State Board of Education or the board of governors as the case may be, and the board may approve or reject the plans, or any of them, in the same manner as other plans and recommendations.

#### Article 7. Contents of Plans and Recommendations

4360. After September 17, 1965, the plans and recommendations formulated by the county committee may, in connection with the proposed formation of a new unified school district to include within its boundaries a chartered city the boundaries of which will not be coterminous with those of the unified district, provide that the establishment and existence of the governing board of the district shall be governed exclusively by general law and not by the charter of the city. Upon adoption of plans and recommendations containing such provision, the establishment and existence of the governing board of the district shall thenceforth be governed exclusively by the general law and the board shall not be a city board of education of a chartered city, any provisions of Chapter 2 (commencing with Section 5200) of Part 4 of this division to the contrary notwithstanding.

4362. The plans and recommendations formulated by the county committee may include recommendations with reference to the location of school building or buildings after reorganization is accomplished. Suggestions made in accordance with this section shall not be considered a part of the reorganization proposition to be voted upon at the election for the adoption or rejection of the plans and recommendations of the county committee.

4363. In any proposal for unification or for the formation of a community college district recommended by a county committee, the county committee may include a provision for a governing board of either five or seven members and may include a provision for trustee areas. In establishing trustee areas each county committee shall provide for representation in accordance with population and geographic factors of the entire area of the unified school district or community college district. As many trustee areas as needed, not to exceed seven, may be established. The county committee shall designate the number of members of the governing board to be elected from among the registered voters of each trustee area so that a governing board of either five or seven members is provided. If the

committee includes a provision for trustee areas, it shall also include a provision for the election of members of the governing board by the registered voters of the entire school district or community college district or for the election of the member or members residing in each trustee area by the registered voters of that particular trustee area.

Provisions regarding the number of trustees or trustee areas and the election of trustees by the district at large or by the registered voters of each particular trustee area shall be considered as an inherent part of the proposal and not to be construed as a separate proposition. A provision for trustee areas shall indicate the boundaries of the proposed trustee areas.

4364. In any proposal for reorganization of school districts, except a community college district, recommended by a county committee, the committee shall include a provision for the authorization of a revenue limit per unit of average daily attendance for the proposed new district, and such provision shall be an inherent part of the proposal, and shall not be construed as a separate proposition. If the reorganization is approved by the registered voters of the area, such revenue limit per unit of average daily attendance shall be the maximum revenue limit per unit of average daily attendance for the type of new district formed until changed by Section 42238 or by the registered voters of the district in the manner prescribed in Section 42202. Such revenue limit per unit of average daily attendance shall not be less than the revenue limit which would be produced if (1) for the year prior to the fiscal year in which the reorganization becomes effective for all purposes, the sum of the revenue limit of each of the districts proposed to be wholly included and the proportional share of revenue limit of each district to be partially included in the proposed reorganized district is divided by the total number of units of average daily attendance that would have been in the proposed reorganized district had it been reorganized the year prior to the fiscal year in which the reorganization becomes effective for all purposes plus, (2) the revenue limit per unit of average daily attendance required to equal the amount of the difference between the average certificated and the average classified salary of all the component districts during the school year prior to that in which the district becomes effective for all purposes and the average certificated and average classified salary of high school district or districts included in the proposal multiplied by the number of employees in each category at the elementary level plus (3) the estimated adjustment to the revenue limit per average daily attendance pursuant to Section 42238 that the proposed reorganized district would be allowed had it been reorganized the year prior to the fiscal year in which the reorganization becomes effective for all purposes. In the event the salary schedule of an included elementary district or unified district is higher than that of a high school district, the county committee may for the purpose of determining a revenue limit under this section substitute that elementary or unified district

salary schedule for the high school district schedule.

This section shall be subject to Section 42245.

4365. The county committee may propose a revenue limit per unit of average daily attendance in excess of that provided in Section 4364 as a separate proposition. The ballot proposition shall contain substantially the words "Shall the revenue limit per unit of average daily attendance of the proposed new district be \_\_\_\_\_, such limit to be in effect for the school years \_\_\_\_\_ through \_\_\_\_\_, the funds from such revenue limit are to be used for \_\_\_\_\_ (insert proposed uses of the funds)?" or the words "Shall the revenue limit per unit of average daily attendance of the proposed new district be \_\_\_\_\_, such limit to be in effect for the school years commencing 19\_\_\_\_, the funds so raised are to be used for \_\_\_\_\_ (insert proposed uses of funds)?" Opposite such words in separate lines, the words "Yes" and "No" shall be printed with a voting square after each word. In the event the committee proposes a revenue limit per unit of average daily attendance under the provisions of both this section and Section 4364, the revenue limit per unit of average daily attendance proposed under this section shall be the revenue limit per unit of average daily attendance for the district if a majority of the votes cast are in favor of the proposition.

4366. The plans and recommendations for the formation of a new community college district formulated by the county committee may include recommendations to authorize the issuance of bonds by the new district in an amount determined by the county committee, all or a part of which may be used for purposes designated by the committee but not in conflict with Article 1 (commencing with Section 15100) of Chapter 2 of Part 10 of this division. The acquisition by a community college district formed in accordance with plans and recommendations adopted pursuant to this chapter from a high school district or unified school district of community college facilities of such high school district or unified school district shall be a purpose for which school district bonds may be issued and sold pursuant to Chapter 2 (commencing with Section 15100) of Part 10 of this division.

The transfer of funds derived from the issuance and sale of bonds by a community college district formed as a preliminary step to the inclusion of such district in a larger community college district pursuant to Section 74017, where such transfer of funds is to be made to the larger community college district, shall be a purpose for which school district bonds may be issued and sold pursuant to Chapter 2 (commencing with Section 15100) of Part 10 of this division.

4367. A recommendation made pursuant to Section 4366 shall be voted upon as a separate proposition at the election for the adoption or rejection of the plans and recommendations for the formation of the new community college district. The recommendation made pursuant to Section 4366 shall become effective if the percentage of votes required for the passage of the bond issue as provided in Section 18, of Article XVI of the Constitution are cast in favor of the

proposition for issuance of the bonds. The county committee may provide that the proposed districts shall not be formed unless the recommendation provided for in Section 4366 is approved.

4368. The county committee may propose plans and recommendations which include either one or both of the following provisions:

(a) Plans for the use of the school property of the districts proposed to be wholly or partially included in a new district, as provided in Section 4372.

(b) Plans for dividing the property, other than real property, of any school district proposed to be divided between two or more school districts, or proposed to be partially included in one or more school districts.

4369. Whenever the county committee on school district organization has provided for the formation of two unified districts, from the territory of two high school districts in which such districts a component elementary district lies partly in one and partly in the other, in its plans and recommendations, and it includes in the plans for the formation of the districts provisions for the division of the property, except real property, of such elementary district between the proposed unified districts and as a result of the elections held on the same day to form the districts only one such unified district was formed, the provisions for the division of property shall be null and void and the property shall be settled as provided in subdivision (a) of Section 4122. Other property shall be divided in proportion to average daily attendance. When it is not feasible to make an actual distribution of property a cash settlement may be made in lieu thereof.

4370. The plans and recommendations formulated by a committee may provide for the division of funds (including cash on hand and moneys due but uncollected on the date reorganization becomes effective for all purposes, and state apportionments based on average daily attendance earned in the year immediately preceding the date reorganization becomes effective for all purposes), obligations, other than bonded indebtedness, and property, other than real property, of a district whose territory is proposed to be divided. In providing for this division, the committee may consider the assessed valuation of each portion of the district, the number of children of school age residing in each portion of the district, the value and location of the school property, and such other matters as the members of the committee deem important and pertinent.

The amendment of this section made by the 1963 Regular Session of the Legislature does not constitute a change in, but is declaratory of, the preexisting law.

4371. During the first fiscal year of the existence of a newly formed unified school district, including districts which became effective for all purposes on July 1, 1953, under the provisions of this chapter the county superintendent of schools having jurisdiction

over the districts affected shall draw his requisition upon the county auditor to the credit of the districts affected in the amounts necessary to accomplish the division of funds required by Section 4370.

4372. When the county committee includes in its plans and recommendations proposals for the use of the school property of the component districts as provided in Section 4368, such proposal shall be deemed to be an integral part of the plans and recommendations, and a favorable vote on the question of reorganization, as provided in Article 8 (commencing with Section 4400) of this chapter, shall be deemed to be a favorable vote upon the plans and recommendations as a whole.

4373. Whenever the county committee on school district organization has adopted plans and recommendations for the formation of two or more unified school districts from the territory of one or more high school or unified districts or any combination thereof, it may also provide that the plans and recommendations shall be voted on as a single proposition. If a majority vote is cast in favor of the proposition, the proposed districts shall become effective as provided in Section 4064.

4374. Whenever the county committee on school district organization has adopted plans and recommendations for the formation of two or more unified school districts from the territory of one or more high school or unified districts or any combination thereof, the county committee may also provide that if the election to form the districts is held pursuant to Section 4373, the provisions of Article 3 (commencing with Section 41750) and Article 4 (commencing with Section 41760) of Chapter 5, and Chapter 8 (commencing with Section 42400) of Part 24 of Division 3 of Title 2 relating to areawide taxes, shall apply to the territory included in the proposition; provided that the county committee may fix the rate of the areawide tax, which rate shall not exceed the maximum tax rate computed under Section 4364 nor be less than that provided in Article 1 (commencing with Section 42400) and Article 2 (commencing with Section 42420) of Chapter 8 of Part 24 of Division 3 of Title 2.

4375. If the plans and recommendations of a county committee for an area provide for the exclusion of territory from a school district for the formation of a new district, the county committee shall determine if as to that district the election shall be held only in such territory. For plans and recommendations formed pursuant to Sections 4240 to 4249 for the formation of a new district the county committee shall determine the territory in which the election shall be held. The election shall be held in the district or portion thereof in accordance with such determination.

4376. When an elementary school district is excluded from a unification proposal, the elementary school district may, on petition of the governing board of the district, be joined to a contiguous high school district or unified district, within three years after the effective date of the unification proposal.

The petition shall be submitted to the board of supervisors of the county, the superintendent of schools of which has jurisdiction of the high school district or unified school district to which joinder is being sought. At the time of submitting such petition to the county board of supervisors, the governing board of the elementary school district shall also submit copies of the petition to the governing board of the high school district or the unified school district to which joinder is being sought. Within 60 days following the date upon which the petition was submitted to the county board of supervisors, that board shall issue an order effecting the joinder of the elementary school district to the high school district or unified school district, unless a formally adopted written protest to such joinder has in the meantime been submitted to the board of supervisors by the governing board of such high school district or unified school district.

If the elementary district, as a result of being excluded from the unification, becomes a unified district because its boundaries are coterminous with the boundaries of a high school district, it shall automatically again become an elementary district upon joining a contiguous high school district pursuant to this section.

#### Article 8. Approval and Adoption of Plans and Recommendations

4400. After the State Board of Education or the board of governors, as the case may be, has approved the plans and recommendations for the unification or other reorganization of the school districts or community college districts in any area, the secretary of the State Board of Education, or the board of governors as the case may be, shall give notice of the approval to the county superintendent of schools having jurisdiction over any of the districts whose boundaries or status would be affected by the reorganization as proposed.

4401. When a county committee submits a proposal providing for a reorganization of districts other than the formation of a new district, the approval of the proposal by the State Board of Education or the board of governors as the case may be, shall be deemed to be the filing of a verified petition with the county superintendent of schools, and the proposed reorganization of districts shall then be acted upon in accordance with the applicable provisions of law, except that not less than 30 days prior to action by the State Board of Education, or the board of governors as the case may be, the county committee shall conduct a public hearing as provided in Section 4325. After approval by the State Board of Education, or the board of governors as the case may be, the county superintendent of schools shall set the matter for hearing or for an election to decide the adoption or rejection of the proposal.

4402. Except as otherwise provided in Section 4375, the county superintendent of schools shall call, hold, and conduct, in the manner prescribed in Part 4 (commencing with Section 5000), a special

election in the elementary school district or unified school district, or districts included in whole or in part in the plans and recommendations of the county committee or committees for the formation of a unified school district for the purpose of adopting or rejecting the plans and recommendations.

4403. Proposals of the county committee on school district organization or proposals of the State Department of Education or of the Board of Governors of the California Community Colleges made pursuant to this chapter or approved at an election held under provisions of Part 46 (commencing with Section 74000) of Division 7 of Title 3 shall supersede any previous actions to organize or reorganize the districts of the territory.

4404. Proposals of the county committee on school district organization to annex all or part of some territory to a community college district may provide that an election be held in the territory as a whole, rather than by separate school districts, for the purpose of adopting or rejecting the plans and recommendations.

4405. The election required by Section 4402 shall be held in the school year in which the county superintendent of schools was given notice of the approval of the plans and recommendations by the State Board of Education, or the board of governors as the case may be, except that if the notice is not received on or before May 1, the election may be held during the following school year.

If the notice to the board of supervisors required by Section 4327 is not given on or before April 1 of the school year preceding notice by the State Board of Education or the board of governors as the case may be, under Section 4400, and if funds are not available for the conduct of the election, the board of supervisors of any such county may require the county superintendent of schools charged with the duty of holding the election on such plans and recommendations to postpone the holding of the election until on or after July 1 of the school year following the notice required by Section 4327.

4406. At least 10 days prior to the election the county committee or committees shall hold one or more public hearings within the area included in a proposal for unification. The county committee or committees may designate any member to hold and conduct any public hearing required to be held. The hearing shall be called by the county superintendent of schools, who shall post a notice of the hearing as provided in Section 5363 or publish a notice of the hearing as provided in Section 5364.

4407. The county superintendent of schools calling such election shall cause to be prepared and distributed, at least 10 days prior to the election, to each registered voter in each such district or portion of a district, as the case may be, in which the election is to be held a copy of the recommendations of the county committee. The copy of the recommendations shall include any proposal made in accordance with Section 4363.

4408. The county superintendent of schools shall prepare a statement of official information and statistics relating to the

proposed new unified area which shall include but is not limited to the assessed valuation, the tax rate, the rate of growth, the expected enrollment and the support from the state which can be expected if such area maintains an adequate school program. Such statistics shall be based upon the school year last completed before the date of the election. Upon approval by the State Department of Education the statement of official information shall be distributed to each registered elector in the proposed new unified area by the county superintendent of schools.

4409. The statement of official information and statistics prepared and distributed pursuant to Section 4408 in connection with proposals including the provisions specified in Section 4364 shall contain a statement by the county committee, of the amount by which the maximum tax rate, as shown on the ballot, of the new district, would be required to be increased in order to produce an amount of revenue equal to the sum of the revenues of each of the districts proposed to be partially or wholly included therein produced by all of the taxes levied, pursuant to statutes authorizing taxes to be levied for particular purposes without compliance with Section 85112, in such districts during the school year prior to the fiscal year in which the election for reorganization was held.

4410. The county superintendent of schools calling the election shall cause to be prepared and distributed a statement setting forth arguments for and against the recommendations of the county committee. The argument shall not exceed 500 words. The argument in favor of the recommendations shall be prepared by the chairman of the county committee, or by a proponent of the recommendations designated by the chairman. The argument against the recommendations shall be prepared by a member of the county committee who voted against the recommendations, or, if there be none, by an elector designated by the county superintendent of schools who has appeared before the committee or at a public hearing in opposition to the recommendations.

4411. The cost of preparation and distribution of the statement setting forth the arguments in favor of, and those opposed to, the recommendations of county committees and the cost of any election held hereunder shall be a charge against the general fund of the county in which the elementary school district or unified district is situated. If such district is situated in more than one county, the cost shall be prorated against each county in the same proportion as the assessed valuation of the district lying in such county bears to the total assessed valuation of the district.

When the election is held in more than one county because the recommendation of the committee calls for the formation of a new district situated in more than one county, the cost of the election shall be prorated against each county in the same proportion as the assessed valuation of the territory of the proposed new district lying in such county bears to the total assessed valuation of the proposed new district.

4412. Every qualified elector residing within the boundaries of each elementary school district or unified school district, or community college district or portion of district, as the case may be, in which the election is called shall be eligible to vote at such election.

4413. If the proposal for reorganization involves a question as to whether a countywide unified school district shall be established, the proposal may be submitted at a special election or at an election consolidated with a general, county or statewide election. If so consolidated, the polling places shall be those used in the general election. Consolidation with a statewide election shall be effected pursuant to Section 23314 of the Elections Code.

4414. Notwithstanding any other provisions of this code, proposals in a county master plan to form unified school districts providing in part for the division of each of two or more high school districts, and which include two or more existing unified school districts in the proposals, shall be voted upon by the electors of all the territory included in the county master plan at a single election. The results of such election shall in no way change the organizational status of the existing unified school districts. If a majority of votes is cast in favor of the proposals in any of the proposed unified school districts, the unified school district proposed is approved and formed. If a majority of votes is not cast in favor of the proposals in any of the proposed unified school districts, the unified school districts proposed are not approved and formed.

A county master plan provided for in this section shall be submitted to the State Board of Education on or before December 31, 1969. After approval by the State Board of Education, the county superintendent of schools shall set an election to decide the adoption or rejection of the proposals on or before June 2, 1970. Succeeding elections shall be made pursuant to this article.

If the proposals are either approved or disapproved at such election, the territory included within the entire county master plan, including the two or more existing unified school districts, shall be subject to the provisions of Sections 41750, 41762, 41763 and 41769, and the provision of Chapter 8 (commencing with Section 42400) of Part 24 of Division 3 of Title 2.

For the purposes of approving proposed new unified school districts under this code section the State Board of Education shall consider subdivisions (a), (c), (d), and (e) of Section 4200.

4415. In any proposal to form a community college district which includes territory of high school or unified districts maintaining community colleges, the county committee may include a provision for the authorization of a tax rate for the community college district of not more than ten cents (\$.10) for a period of not more than 10 years, which shall be in addition to the maximum rate of tax for such districts established pursuant to Section 85112, the proceeds of which shall be used only for the purpose of paying all or a portion of the cost of acquiring real and personal property used for community college

purposes by such districts.

The property shall be acquired on such terms as may be agreed upon by the governing boards of the community college district and the high school and unified districts concerned.

The provisions authorized by this section shall be considered an integral part of the plans and recommendations of the county committee and shall not be construed as a separate proposition.

In event the revenue from the tax authorized by this section exceeds that which is needed for the acquisition of the property, the excess shall be deposited to the credit of the special reserve fund of the community college district.

4416. The words to appear upon the ballots used for voting upon the adoption or rejection of the plans and recommendations of the county committee with respect to the unification of school districts shall be "Unification of school districts—Yes," and "Unification of school districts—No," or words of similar import. If the county committee made a proposal for trustee areas in accordance with Section 4363 such proposal shall be considered a part of the reorganization proposition to be voted upon and the ballot shall include wording to that effect.

The words to appear on the ballots used for voting upon maximum tax rate or the issuance of bonds to equalize a division of property shall be in accordance with Section 4365.

4417. Upon the completion of the canvass of the election returns and the absentee ballots the county superintendent of schools shall tabulate such returns and the absentee ballots and notify the board of supervisors of the number of votes cast for, and the number of votes cast against, the unification of school districts in each elementary school district or unified school district and also the total number of votes cast for, and the total number of votes cast against, the unification of school districts.

4418. When a majority of all the votes cast are cast in favor of the unification, the proposal carries.

4419. If the plans and recommendations of the county committee are rejected by the voters, the county committee shall resurvey the territory in the manner hereinbefore provided and make plans and recommendations.

When the new plans and recommendations are identical with those previously submitted, the county committee, without resubmitting the plans to the State Board of Education, or the board of governors, as the case may be, may determine that a second election shall be held thereon not later than a year from the previous election. The county superintendent of schools shall thereupon call and conduct an election as provided in this article.

When the new plans and recommendations are not identical with those previously submitted to the State Board of Education, or the board of governors, as the case may be, or when they are identical but the county committee does not make the determination referred to above in this section, the county committee shall transmit the new

plans and recommendations to the State Board of Education or the board of governors, as the case may be. If the State Board of Education or the board of governors, as the case may be, approves the new plans and recommendations, the county superintendent of schools shall thereupon call and conduct the election as provided in this article.

## PART 4. ELECTIONS

### CHAPTER 1. ELECTION OF SCHOOL DISTRICT BOARD MEMBERS

#### Article 1. Elections

5000. After the initial election of governing board members in any school district or community college district, a governing board member election shall be held biennially on the first Tuesday after the first Monday in March of each succeeding odd-numbered year to fill the offices of members whose terms expire on March 31st next succeeding the election. Except as provided in this chapter, or in Chapter 2 (commencing with Section 5200) of this part, the elections shall be held and conducted in accordance with the provisions of Chapter 3 (commencing with Section 5300) of this part.

5001. Notwithstanding the provisions of 5000, 5003, 5004 and 35105 to the contrary, when the first elected board of any newly formed unified school district was elected on the same date that the election was held for adopting the proposal for the formation of the new district, and such election was held on December 10, 1968, the majority of members receiving the highest number of votes of the first elected board shall serve until June 30 of the third succeeding odd-numbered year. The other members' terms shall expire on June 30 of the second succeeding odd-numbered year.

5002. (a) Notwithstanding the provisions of Section 5000, whenever, in a district which has been wholly absorbed into one or more other districts and continues in existence as a district pursuant to Section 4066 until the reorganization in which it has been included is effective for all purposes and a governing board member election is otherwise required to be held prior to such effective date of the reorganization, no such election shall be held. Instead, the county superintendent of schools shall appoint successors to the members whose terms expire on or before March 31st following the date upon which the election would otherwise have been held. Such appointees shall hold office until the reorganization becomes effective for all purposes.

(b) The provisions of subdivision (a) shall apply to any school district governed by a city board of education whenever such school district has been included with other school district territory within a unification effected pursuant to Chapter 2 (commencing with Section 4200) of Part 3 of this division, where:

(1) The charter of the city involved requires an election of city

school district governing board members to be held prior to the date the new unified district becomes effective for all purposes; and

(2) The governing board of the new unified school district is organized to be subject to the provisions of this code rather than the provisions of the city charter.

5003. Notwithstanding the provisions of Sections 35105 and 5000, in the case of a unified school district formed in an even-numbered year, where in connection with the formation of which the first governing board was elected in such even-numbered year, all of the members of such first elected governing board shall serve until March 31st of the second succeeding odd-numbered year. Their successors shall be elected at an election conducted on the first Tuesday after the first Monday in March of such second succeeding odd-numbered year. The majority of such successors receiving the highest number of votes shall serve until March 31st of the second odd-numbered year thereafter succeeding. The other members' terms shall expire on March 31st of the first odd-numbered year thereafter succeeding.

5004. Notwithstanding the provisions of Sections 35105 and 5000 to the contrary, when the first elected board of any newly formed district is elected on the same date that the election is held for adopting the proposal for the formation of the new district and when the terms of several members of the first governing board would expire prior to the date on which the district becomes effective for all purposes, no election shall be held in March of that odd-numbered year, but the several members whose terms expire shall serve until March 31st of the next succeeding even-numbered year. A governing board election shall be held, on the first Tuesday after the first Monday in March of that even-numbered year to fill the offices of such members whose terms expire on March 31st next succeeding the election. The terms of office of the members so elected shall expire on March 31st of the second succeeding odd-numbered year. Their successors shall be elected pursuant to Section 5000.

5005. An annual election for members of the board of education shall be held in each unified district which is coterminous with or includes in its boundaries all or any portion of a chartered city or city and county the charter of which provides for a board of education, of five members with five-year terms, with the term of one member expiring each year. The election shall be held annually on the first Tuesday after the first Monday in March. The election shall be called, held and conducted by the county superintendent of schools in substantially the same manner as prescribed by Section 5000.

5006. When an elementary, unified, high school, community college district or community college district trustee area, includes within its boundaries the same territory, or territory that is in part the same, as a city whose charter requires a regular city election to be held in each odd-numbered year, the consolidated governing board member elections of the elementary, unified, high school, community college district or community college district trustee

area may be held on a Tuesday in the odd-numbered year and may be further consolidated with the city election pursuant to Chapter 4 (commencing with Section 23300) of Part 2 of Division 12 of the Elections Code. Such consolidation shall be effected by the county superintendent of schools having jurisdiction of the elementary, unified, high school or community college district upon the written request of the governing board of the elementary, unified, high school or community college district, with the written consent of the legislative body of the city and the written consents of all of the governing boards of the districts whose governing board member elections are affected. The provisions of this section shall be controlling in the event of any conflict with a prior order of the county superintendent of schools made pursuant to Section 5340.

When a high school district, community college district, or community college trustee area election is consolidated with that of a city pursuant to this section, or when a high school district, community college district, or community college trustee area is governed by the charter of a city providing for elections on dates other than those specified in this code, and, in either case, such high school district, community college district, or community college trustee area also has within its boundaries component districts whose elections would otherwise be held on the date specified in this code, then the elections in the component districts may be consolidated with the election in the high school district, community college district, or community college trustee area. Such consolidation shall be effected by the county superintendent of schools having jurisdiction of the component districts upon the written request of the governing boards thereof and with the written consent of the governing boards of the districts whose governing board member elections are to be consolidated with those of the component districts.

5007. When an elementary, unified, high school, community college district includes within its boundaries the same territory, or territory that is in part the same, as a city which holds a city election on the first Tuesday after the first Monday in March in each even-numbered year, the consolidated governing board member elections of the elementary, unified, high school, or community college district, may, at the discretion of the county superintendent of schools, be held on the first Tuesday after the first Monday in March in the even-numbered year and may be further consolidated with the city election pursuant to Chapter 4 (commencing with Section 23300) of Part 2 of Division 12 of the Elections Code. Such consolidation shall be effected by the county superintendent of schools having jurisdiction of the elementary, unified, high school, or community college district upon the written request of the governing board of the elementary, unified, high school, or community college district, with the written consent of the legislative body of the city and the written consents of all of the governing boards of the districts whose governing board member

elections are affected. The provisions of this section shall be controlling in the event of any conflict with a prior order of the county superintendent of schools made pursuant to Section 5340.

Successors to incumbents holding office upon adoption of this section, who in the absence of this section would have been elected at a different time, shall be chosen for office at the election nearest the time the terms of office of such incumbents would have otherwise expired. If an incumbent's term of office is extended because of this section, he shall hold office until a successor qualifies therefor, but in no event shall the term of an incumbent be extended to exceed four years.

5008. (a) Notwithstanding any other provision of law, upon the recommendation of the county superintendent of schools and with the approval of the county board of supervisors, the election of governing board members of school districts whose boundaries are coterminous with the boundaries of the county, shall be consolidated with the November general elections held in the county pursuant to Chapter 4 (commencing with Section 23300) of Part 2 of Division 12 of the Elections Code.

In such case, the terms of members of the governing board elected in the general election pursuant to this section shall begin at noon on the first Monday after the first day in January following such general election and shall end at noon on the first Monday after the first day in January four years thereafter.

In such case, the terms of members of the governing board expiring on March 31 of any odd-numbered year next succeeding any general election, shall expire at noon on the first Monday after the first day in January following such general election.

(b) When the term of an incumbent expires at midnight March 31 of an odd-numbered year and no successor has been elected because of the provisions of subdivision (a) of this section, the members of the board whose terms have not expired shall appoint a successor to serve until a successor is elected and qualified pursuant to subdivision (a) of this section.

5009. The governing board of any school district or community college district having trustee areas and which elects more than one member from any of such trustee areas may, by resolution, provide for the staggering of terms of members elected from any of such multiple-member trustee areas.

The resolution shall provide that at the initial election after adoption of the resolution, one or more members elected from a trustee area will be elected for two-year terms and that one or more members elected from such trustee area will be elected for four-year terms, and that thereafter all members elected from such trustee area will be elected for four-year terms. Immediately after the initial election, the newly elected members from such trustee area shall draw lots to determine which of the members shall serve a two-year term and which of the members shall serve a four-year term.

5010. When a community college district or community college

district trustee area includes within its boundaries the same territory, or territory that is in part the same, as a chartered city which holds a city election on a date other than one of the two regular election dates established by Section 2504 of the Elections Code for the conduct of city elections in odd-numbered years, the governing board member elections of the community college district or community college district trustee area may be consolidated with the city election pursuant to Chapter 4 (commencing with Section 23300) of Part 2 of Division 12 of the Elections Code. Such consolidation shall be effected by the county superintendent of schools having jurisdiction of the community college district upon the written request of the governing board of the community college district, with the written consent of the legislative body of the city. The provisions of this section shall be controlling in the event of any conflict with a prior order of the county superintendent of schools made pursuant to Section 5340.

Successors to incumbents holding office upon adoption of this section, who in the absence of this section would have been elected at a different time, shall be chosen for office at the election nearest the time the terms of office of such incumbents would have otherwise expired. If an incumbent's term of office is extended because of this section, he shall hold office until a successor qualifies therefor, but in no event shall the term of an incumbent be extended to exceed four years.

5011. The county clerk, or the county registrar of voters if such office has been established, having jurisdiction over a governing board member election shall cause a notice to file declarations of candidacy and nominations of candidates to be published in a newspaper of general circulation published within the district, or if there is no such newspaper, then in any newspaper of general circulation that is regularly circulated in the district. Such notice shall be substantially in the form provided in subdivision (c) of Section 5032.

Publication of notice pursuant to this section shall be once each week for three successive weeks. Three publications in a newspaper regularly published once a week or oftener, with at least five days intervening between the respective publication dates not counting such publication dates, are sufficient.

The first publication shall be made not more than 110 days, and the last publication shall be made not less than 70 days, prior to the date set for the election.

Proof of publication may be by affidavit.

5012. In any school district or community college district governing board election the name of any registered voter shall be placed on the ballot if there is filed with the county clerk having jurisdiction not more than 89 days nor less than 59 days prior to the election:

(a) A declaration of candidacy substantially in the form set forth in subdivision (a) of Section 5032, containing the appropriate

information in the blank spaces and signed by the registered voter whose name is thereby to be placed on the ballot; or

(b) Nomination by sponsors, substantially in the form set forth in subdivision (b) of Section 5032, containing the appropriate information in the blank spaces and signed by at least three but not more than 10 persons each of whom is a registered voter and a parent of a pupil enrolled in a public school in the district.

No candidate whose declaration of candidacy or nomination by sponsors has been filed for any school district or community college district governing board election or county board of education election may withdraw as a candidate after the 59th day prior to the election.

Notwithstanding any other provision of law, no person shall file nomination papers for more than one district office, including a county board of education office, at the same election.

5013. The form of the ballot for governing board member elections shall state the date of the election, naming the district and the county or counties in which the district is located, and shall state clearly the number of offices to be filled and the number of candidates for whom the voter is entitled to vote. The names of the candidates shall be listed, one name to a line, with a square opposite each name in which the voter may cast his vote for the candidate.

If the governing board member election is consolidated with any other election, the provisions of Article 3 (commencing with Section 5340) of Chapter 3 of this part shall apply to the form of ballot to be used.

5014. Any election held for the purpose of electing governing board members of any school district, or community college district, including additional governing board members as provided by Section 5018 shall be held and conducted in accordance with the uniform procedures set forth in Chapter 3 (commencing with Section 5300) of this part.

5015. When one member of the governing board is to be elected, the candidate receiving the highest number of votes shall be elected. When two or more members are to be elected, the two or more candidates receiving the highest number of votes shall be elected. Each voter may vote for as many candidates as there are members to be elected. The ballot shall contain instructions stating the maximum number of candidates for whom each voter may vote.

5016. If a tie vote makes it impossible to determine either which of two or more candidates has been elected to the governing board or the term of office of a governing board member, the county superintendent of schools having jurisdiction shall so certify to the governing board. The governing board shall forthwith notify the candidates who have received the tie votes to appear before it either personally or by a representative at a time and place designated by the governing board. The governing board shall at that time and place determine the winner or winners by lot.

5017. Each person elected at a regular biennial governing board

member election shall hold office for a term of four years from April 1st next succeeding his election. Any member of the governing board of any school district or community college district whose term has expired shall continue to discharge the duties of his office until his successor has qualified. The term of the successor shall begin upon the expiration of the term of his predecessor.

5018. Whenever, in any elementary school district having a governing board of three members, the average daily attendance during the preceding fiscal year became 300 or more, the governing board of the district shall do either of the following:

(a) By its own action determine that the number of members of the governing board shall be increased to five, in which case two additional members shall be elected at the next regular governing board member election.

(b) Request the county superintendent of schools having jurisdiction to submit the question of whether the number of members of the governing board shall be increased to five to the voters of the elementary school district at the next regular governing board member election. At the same election two additional members shall be elected to take office if the number of governing board members is increased.

Candidates for the two additional offices or their sponsors shall state in the declarations of candidacy or nominations filed for the election that the candidates are candidates for the two additional offices separately from the other offices to be filled in the election and shall clearly indicate to the voters that they may vote for two of the candidates to take office if the voters approve the proposed increase in the number of board members.

If the voters at such election do not approve such an increase in membership of the governing board, the same question may be submitted to the voters at subsequent governing board member elections so long as the district continues to have an average daily attendance of 300 or more. Requests to the county superintendent to submit the question to the voters of a district shall be filed with him by the governing board of the district no later than 100 days prior to the election.

If, pursuant to either subdivision (a) or subdivision (b) of this section, two additional governing board members are authorized and elected, the one receiving the higher number of votes shall hold office for a term of four years from April 1st succeeding the election, and the other one shall hold office for a term of two years from April 1st succeeding the election. Thereafter the governing board shall be composed of five members elected in the same manner and for the same term as governing boards having five members.

5019. Except in a school district governed by a board of education provided for in the charter of a city or city and county, in any school district or community college district the county committee on school district organization shall have the power to establish trustee areas, rearrange the boundaries of trustee areas, and increase to

seven or decrease to five the number of members of the governing board, consistent with the provisions of Sections 5223, 5030, 35011, and 35012.

Any such proposal may be initiated by the county committee or made to the county committee by a petition signed by at least 2 percent or 50, whichever is the lesser, of the qualified electors residing in the district, or by resolution of the governing board of the district.

When any such proposal is made the county committee shall call and conduct a hearing in the district on the matter. At the conclusion of the hearing, the county committee shall approve or disapprove the proposal.

5020. The resolution of the county committee approving a proposal shall constitute an order of election, and the proposal shall be presented to the electors of the district not later than the next succeeding election for members of the governing board. For each proposal there shall be a separate proposition on the ballot. The ballot shall contain the following words:

“For the establishment (or rearrangement, or abolition) of trustee areas in \_\_\_\_\_ (insert name) School District—Yes” and “For the establishment (or rearrangement, or abolition) of trustee areas in \_\_\_\_\_ (insert name) School District—No.”

“For increasing the number of members of the governing board of \_\_\_\_\_ (insert name) School District from five to seven—Yes” and “For increasing the number of members of the governing board of \_\_\_\_\_ (insert name) School District from five to seven—No.”

“For decreasing the number of members of the governing board of \_\_\_\_\_ (insert name) School District from seven to five—Yes” and “For decreasing the number of members of the governing board of \_\_\_\_\_ (insert name) School District from seven to five—No.”

If more than one proposal appears on the ballot, all must carry in order for any to become effective.

5021. (a) If a proposal for the establishment of trustee areas formulated under Sections 5019 and 5020 is approved by a majority of the electors voting at the election, any affected incumbent board member shall serve out his term of office and succeeding board members shall be nominated and elected in accordance with Section 5030. In the event two or more trustee areas are established at such election which are not represented in the membership of the governing board of the school district, or community college district the county committee shall determine by lot the trustee area from which the nomination and election for the next vacancy on the governing board shall be made.

(b) If a proposal for rearrangement of boundaries is approved by a majority of the electors voting at the election, and if the boundary changes affect the board membership, any affected incumbent board member shall serve out his term of office and succeeding board members shall be nominated and elected in accordance with Section 5030.

(c) If a proposal for abolishing trustee areas is approved by a majority of the electors voting at the election, the incumbent board members shall serve out their terms of office and succeeding board members shall be nominated and elected at large from the district.

5022. If the number of members of the governing board is increased from five to seven, the two additional members of the board of trustees shall be appointed by the governing board of the district, with the term of one of such appointees being designated to expire on March 31st of the next succeeding odd-numbered year and the term of the other such appointee being designated to expire on March 31st of the second succeeding odd-numbered year.

5023. (a) Whenever an elementary, high school or unified school district or a portion of any such district is annexed to another school district in which trustee areas have been established the county committee on school district organization of the county having jurisdiction over the annexing district shall study and make recommendations with respect to trustee areas of the annexing district as enlarged. Procedures contained in Section 5019 shall be used for purposes of this section.

(b) Recommendations adopted under provisions of subdivision (a), if approved by the electors, shall become effective on the same date that the annexing district as enlarged becomes effective for all purposes.

5024. The county committee may provide that an election to elect trustees, pursuant to its recommendations under Section 5023, shall be held at the same time as is held the election to effect a change in trustee areas.

5025. In the event an election is called pursuant to Section 5020, the county superintendent of schools having jurisdiction shall, as to each trustee area having more than its allotted number of representatives in the membership of the governing board for the next succeeding school year, determine by lot which of said representatives shall relinquish their offices either immediately upon the election and qualification of the governing board members who are elected as provided in Section 5024 or on the first day of April next succeeding the election establishing trustee areas in the district, whichever is the later.

5026. Members elected to fill vacancies created pursuant to Section 5025 shall serve out the unexpired term of the office that was terminated.

The county committee shall designate by lot for each newly formed trustee area the expiring term of office for which a member shall be elected.

5027. Whenever the boundaries of a county high school district are coterminous with the boundaries of a county, the board shall consist of one member from each supervisory district in the county elected at large from the district.

5028. In every community college district which was divided into five wards on or before September 7, 1955, one member of the board

shall be elected from each ward by the registered voters of the ward. On or before January 1st of a fiscal year the governing board of the district may rearrange the boundaries of the wards to provide for representation in accordance with population and geographic factors or may abolish the wards.

5029. Notwithstanding any provision of Section 5028, when a community college trustee ward boundary line falls upon an election precinct boundary line, and such election precinct boundary line is changed pursuant to Chapter 1 (commencing with Section 1500) of Division 2 of the Elections Code, the governing board of the district shall, at least 90 days prior to any trustee election, change such ward boundary line to conform to precinct boundary lines, where possible.

5030. Except as provided in Sections 5027 and 5028, in any school district or community college district having trustee areas, the county committee on school district organization may, pursuant to Section 5019 at any time recommend one of the following alternate methods of electing governing board members:

(a) That each member of the governing board be elected by the registered voters of the entire district.

(b) That the member or members residing in each trustee area be elected by the registered voters of that particular trustee area.

(c) That each governing board member be elected by the registered voters of the entire school district or community college district, but reside in the trustee area which he represents.

The recommendation shall provide that any affected incumbent member shall serve out his term of office and that succeeding board members shall be nominated and elected in accordance with the method recommended by the county committee.

Whenever the trustee areas are established or rearranged in a district, provision shall be made for one of the alternative methods of electing governing board members.

In counties with a population of less than 25,000, the county committee on school district organization or the county board of education, if it has succeeded to the duties of the county committee, may at any time, by resolution, with respect to trustee areas established for any school district or community college district other than a community college district, amend the provision required by this section without additional approval by the electors, to require one of the alternate methods for electing board members to be utilized.

5031. Whenever a school district or community college district is divided for governing board membership purposes into wards, supervisorial districts, or trustee areas, the county superintendent of schools shall prepare and keep in his office a map showing the boundaries of such subdivisions of all districts under his jurisdiction.

He shall also prepare and keep in his office a record of all actions taken by the county committee on district organization in connection with trustee area boundaries.

5032. The forms for declaration of candidacy, nomination of

candidate by sponsors, and notice to declare candidacy for governing board election prescribed in this article are as provided in this section.

(a) The declaration of candidacy shall be in substantially the following form:

"I, \_\_\_\_\_, do hereby declare myself as a candidate for election to the governing board of \_\_\_\_\_ district, of the County of \_\_\_\_\_; I am a registered voter; if elected I will qualify and serve to the best of my ability; and I request my name be placed on the official ballots of the district, for the election to be held on the \_\_\_\_\_ day of \_\_\_\_\_, 19\_\_.

Residence address: \_\_\_\_\_"

In an election held under Section 5018 to elect additional governing board members all candidates for member of the governing board shall also indicate on their declaration of candidacy whether they are candidates for the existing office or for the new offices.

(b) The declaration of sponsors proposing a candidate for election to the governing board shall be in substantially the following form:

**DECLARATION OF CANDIDACY BY SPONSORS**

"I, the undersigned, am a registered voter of the \_\_\_\_\_ District. I hereby propose and sponsor \_\_\_\_\_, who resides at \_\_\_\_\_ (giving street address and name of city or town of residence, if any), \_\_\_\_\_ District, County of \_\_\_\_\_, State of California, and who is a registered voter in the district, as a candidate for election to the governing board of the \_\_\_\_\_ District, to be voted for at the election to be held on the \_\_\_\_\_ day of \_\_\_\_\_, 19\_\_, and I hereby assert as follows:

My knowledge of \_\_\_\_\_ is sufficient to warrant my urging his election to the governing board, and in my opinion he is mentally, morally, and physically fit for the office and should be elected to fill it.

My residence and occupation are correctly set forth after my signature hereto.

Name	Residence	Occupation
_____	_____	_____
_____	_____	_____
_____	_____	_____

I hereby accept the nomination as above proposed. If elected I will qualify and serve to the best of my ability.

Signature of proposed candidate"

In an election held under Section 5018 to elect additional governing board members, the declaration shall contain a statement whether the proposed candidate is a candidate for the existing office or for the new offices.

(c) Notices to declare candidacy for governing board elections shall be in substantially the following form:

**“NOTICE TO DECLARE CANDIDACY FOR GOVERNING BOARD  
MEMBER ELECTION**

“Notice is hereby given to all qualified persons that an election will be held in the \_\_\_\_\_ District, County of \_\_\_\_\_, State of California, on the \_\_\_\_\_ day of \_\_\_\_\_, 19\_\_\_\_, for the purpose of electing \_\_\_\_\_ members to the governing board of the school district.

“Forms for declaring candidacy and for the nomination of candidates for the election are available from the office of the County Clerk or County Registrar of Voters at \_\_\_\_\_ (giving address at which forms may be obtained), California.

“Declarations of candidacy and nominations by sponsors must be filed with the County Clerk or County Registrar of Voters at the above address not later than the \_\_\_\_\_ day of \_\_\_\_\_ 19\_\_\_\_.”

5033. No member of the governing board of any district included wholly or partially included in a unified school district formed under the provisions of Chapter 2 (commencing with Section 4200) of Part 3 of this division shall be a member of the governing board of the unified school district unless elected thereto.

**Article 2. Recall**

5050. Except in the case of a unified school district which includes a city or city and county, the charter of which provides for the recall of members of the governing board, any elected or appointed member of any elective school district or community college district governing board may be recalled pursuant to this article.

5051. A petition demanding the recall of any governing board member shall be filed for verification of signatures with the county clerk. If more than one governing board member is sought to be recalled, separate petitions shall be filed for each member sought to be recalled.

Before any signatures are obtained to a recall petition, a copy of the text of the petition and the name and address of at least one, but not more than five, proponents shall be filed with the county clerk of the county designated on the paper, and the recall proceedings shall be deemed to be pending from the date of such filing.

5052. No signature may be affixed to the petition until the proponents have served, filed and published a notice of intention to circulate a recall petition, containing the name of the officer sought to be recalled and the title of his office, a statement in not more than 500 words of the grounds on which the recall is sought, and the name and address of at least one, but not more than five, proponents. The notice of intention shall be served, personally or by certified mail, on the officer sought to be recalled, and a copy thereof with a certificate

of the time and manner of service shall be filed with the county clerk.

5053. Any voter who has signed a petition demanding the recall of any district governing board member shall have his signature withdrawn from the petition upon filing a written request therefore with the appropriate county clerk designated on the paper prior to the day the recall petition is filed.

5054. No recall petition shall be circulated or filed for verification of signatures against any governing board member until he has held his office for at least six months or during the six-month period immediately prior to the time at which the regular election would be held for his office.

5055. The recall petition shall not be circulated by any person other than a registered voter of the district.

5056. Within seven days after the filing of the notice of intention, the officer sought to be recalled may file with the county clerk an answer in not more than 500 words to the statement of the proponents and, if an answer is filed, shall serve a copy thereof, personally or by certified mail, on one of the proponents named in the notice of intention. The statement and answer are intended solely for the information of the voters and no insufficiency in the form or substance thereof shall affect the validity of the election or proceedings.

Before any signature may be affixed to a recall petition, the petition shall bear a copy of the notice of intention, statement and answer of the officer sought to be recalled, if any. If the officer sought to be recalled has not answered, the petition shall so state.

5057. The recall petition shall be signed by registered voters equal in number to at least 20 percent of the registered voters of the district as of the time of filing the petition for verification of signatures.

5058. The signatures to the recall petition need not all be appended to one paper. If the district is situated in more than one county, each paper of the recall petition shall designate one of the counties and, of the signatures appended to such paper, only the signatures of the voters of the county designated shall be valid. Each signer shall add to his signature his place of residence, giving street and number. If no street or number exists, then a designation of the place of residence shall be given which will enable the location to be readily ascertained.

The date on which each signature was placed on the petition shall be indicated thereon either by the signer or by the person circulating the petition.

5059. Each separate paper of each recall petition shall have attached to it an affidavit. The affidavit shall state that the affiant is a registered voter of the district; that the affiant circulated that particular paper and saw each signer write his signature and residence thereon; and that according to the best information and belief of the affiant:

(a) Each is the genuine signature of the person whose name it

purports to be.

(b) Each signer is a registered voter of the district.

(c) Each signature was obtained on the date indicated on the petition.

5060. No petition shall be valid for the purpose for which it was circulated unless it shall be filed for verification of signatures within six months after the date on which a copy of the text of the petition was filed.

5061. The signatures to the recall petition shall be verified as follows:

(a) If the school or community college district is wholly in one county, the county clerk shall examine the signatures and from the records of registration ascertain whether or not the petition is signed by the requisite number of registered voters and shall attach to it his certificate showing the results of his examination.

(b) If the district is situated in more than one county, each county clerk shall examine the signatures and from the records of registration ascertain the number of signatures of registered voters in the portion of the district lying in his county and shall attach to the papers his certificate showing the results of his examination and also showing the total number of registered voters in the portion of the district lying in his county.

5062. If the number of signatures is not sufficient, a supplemental petition, in form a duplicate of the original petition, but bearing additional signatures, may be filed with the appropriate county clerk within 10 days from the date on which the county clerk certified the results of his examination. The county clerk shall examine and certify the supplemental petition. If the signatures to the petition are still insufficient, no action shall be taken thereon. The petition shall remain on file as a public record, and the failure to secure sufficient signatures shall not prejudice the filing later of an entirely new petition to the same effect.

5063. (a) If the county clerk finds the petition, together with supplementary petitions, if any, sufficient he shall at once notify the governing board who shall call a special election to be held in the district within not less than 74 nor more than 89 days after the date of the call, to determine whether the voters will recall the governing board member. If a regular election for the election of members of the governing board of the district is to occur not less than 74 nor more than 89 days from the date of the call for the special election, the governing board may, in its discretion, order the holding of the special election at the time the regular election is held.

(b) If the governing board fails to call the special election, as prescribed in subdivision (a) of this section within 30 days after receipt of the notification from the county clerk, the county clerk shall set the date for holding the special election within the time periods prescribed in this section applicable to the governing board.

5064. The county superintendent of schools shall call the recall election by posting election notices in three public places in the

district at least 35 days before the election, and by publishing a notice of the election in the district pursuant to Section 6063 of the Government Code. If there is no newspaper of general circulation published in the district, notice need not be published.

5065. Except as provided in this article, the recall election shall be held and conducted by the county clerk in substantially the same manner as elections held under Article 1 (commencing with Section 5000) of this chapter and under Chapter 3 (commencing with Section 5300) of this part.

5066. Recall elections of two or more governing board members may be consolidated.

5067. Any registered voter of the district, except the governing board member whose recall is sought, may become a candidate for election at a recall election in the manner provided in Article 1 of this chapter. The nomination by sponsors or the declaration of candidacy, shall, in addition to the requirements of Article 1, state that the proposed candidate is a candidate in the recall election to succeed the incumbent (naming him) if he is recalled.

5068. If a vacancy occurs in the office of the member sought to be recalled after a recall petition is filed for verification of signatures, the election shall nevertheless proceed as provided in this article.

5069. The county clerk shall mail to each registered voter within the district a sample ballot on which there shall be printed in not more than 200 words the statement of the grounds on which the recall is sought set forth in the recall petition. Upon the same ballot there shall also be printed, in not more than 200 words, any statement submitted by the member sought to be recalled justifying his course in office.

5070. There shall be printed on the recall ballot, as to every member whose recall is sought, the following question: "Shall (name of person against whom the recall petition has been filed) be recalled from the office of (title of the office)?" following which question shall be the words "Yes" and "No" on separate lines, with a blank space at the right of each, in which the voter shall indicate, by stamping or writing a cross (+), his vote for or against the recall.

5071. On the recall ballots, under each question, there shall be printed the names of the candidates to succeed the incumbent if he is recalled. Following each list of candidates, the ballot shall provide one blank line with a blank square following, to allow the voter to write in a name not printed on the ballot. When the recall election is held on the third Tuesday in April of an odd-numbered year, the candidates for the office to succeed the incumbent if he is recalled shall be listed separately from the candidates to succeed governing board members whose recall is not sought.

5072. On the recall ballots there shall be printed the same statements which were printed on the sample ballots.

5073. No vote cast in the recall election shall be counted for any candidate for the office unless the voter also voted for or against the recall of the person sought to be recalled from that office.

5074. If a majority or exactly half of those voting on the question of the recall of any incumbent from office vote "No," the incumbent shall continue in office. If a majority vote "Yes," the incumbent shall be deemed recalled from office, upon the qualification of his successor.

5075. The inspector of the election shall deliver the returns to the county clerk. At the time and place fixed in the notice of the election, the county clerk shall publicly canvass the returns and declare the results. If a majority of the votes cast favor the recall of the member, the county clerk shall declare the candidate who has received the highest number of votes for the office elected for the remainder of the term and shall issue a certificate of election to him. If the elected candidate fails to qualify within 10 days after receiving the certificate of election, the office shall become vacant and shall be filled as provided in Article 3 (commencing with Section 5090) of this chapter.

5076. Governing board members may be recalled in the manner provided in this article, except that where the governing board member, whose recall is being sought, is elected from a ward pursuant to Section 72020, the required number of signatures on the recall petition set forth in Section 5057 shall be obtained from only the electors in the ward from which he was elected. Only those electors residing within the ward shall be eligible to vote in the recall election.

### Article 3. Vacancies

5090. Vacancies on school district governing boards or community college district boards are caused by any of the events specified in Section 1770 of the Government Code, or by a failure to elect. A vacancy resulting from resignation occurs when the written resignation is filed with the county superintendent of schools having jurisdiction over the district, except where a deferred effective date is specified in the resignation so filed, in which case the resignation shall become effective on that date. A written resignation, whether specifying a deferred effective date or otherwise, shall, upon being filed with the county superintendent of schools be irrevocable.

5091. (a) Whenever a vacancy occurs, or whenever a resignation has been filed with the county superintendent of schools containing a deferred effective date, the school district or community college district governing board shall, within 30 days of the vacancy or the filing of the deferred resignation, either call an election or make a provisional appointment to fill the vacancy.

(b) When an election is called, it shall be held on the next established election date provided pursuant to Section 2504 of the Elections Code not less than 74 days after the occurrence of the vacancy or after the written resignation is filed with the county superintendent of schools.

(c) If a provisional appointment is made within the 30-day period,

the registered voters of the district may, within 30 days from the date of the appointment, petition for the conduct of a special election to fill the vacancy. A petition shall be deemed to bear a sufficient number of signatures if signed by at least the appropriate percentage of registered voters of the district who voted in the last regular election for governing board members, as follows:

(1) In districts in which less than 75,000 voters voted 5 percent of the number of such voters.

(2) In districts in which 75,000 or more, but less than 200,000, voters voted 3,750 plus 2½ percent of the number, over 75,000, of such voters.

(3) In districts in which 200,000 or more voted 6,875 plus 1 percent of the number, over 200,000, of such voters.

The petition shall be submitted to the county superintendent of schools having jurisdiction who shall have 30 days to verify the signatures. If the petition is determined to be legally sufficient by the county superintendent of schools, the provisional appointment is terminated, and the county superintendent of schools shall call a special election to be conducted no later than the 120th day after the determination.

(d) A provisional appointment made pursuant to subdivision (a) confers no powers or duties of a governing board member upon the appointee during the 30-day period following his appointment and within which a petition calling for a special election may be filed. If a petition is not filed within the 30-day period, the appointee shall thereafter have all the powers and perform all the duties of a governing board member.

(e) A person appointed to fill a vacancy shall hold office only until the next regularly scheduled election for district governing board members, whereupon an election shall be held to fill the vacancy for the remainder of the unexpired term. A person elected at an election to fill the vacancy shall hold office for the remainder of the term in which the vacancy occurs or will occur.

(f) No person appointed as a successor to serve during the remainder of or a portion of a term in which a vacancy occurs shall be designated as an incumbent, a member of the governing board, a school board member, or other designation indicating incumbency, for purposes of the next general election of governing board members.

(g) Whenever a petition calling for a special election is circulated, the petition shall contain the clerk's estimate of the cost of conducting the special election.

(h) Elections held pursuant to subdivisions (b) and (c) shall be conducted in as nearly the same manner as practicable as other governing board member elections.

5092. Whenever a provisional appointment is made to the governing board of a school district pursuant to Section 5091, the board shall, within 10 days of the provisional appointment of a person to fill a vacancy which occurs or will occur, post notices of both the

actual vacancy or the filing of a deferred resignation and also the provisional appointment in three public places in the district and shall publish a notice pursuant to Section 6061 of the Government Code. If there is no newspaper of general circulation published in the district, notice need not be published.

The notice shall state the fact of the vacancy or resignation and the date of the occurrence of the vacancy or the date of the filing of, and the effective date of, the resignation. The notice shall also contain the full name of the provisional appointee to the board and the date of his appointment, and a statement that unless a petition calling for a special election, containing a sufficient number of signatures, is filed in the office of county superintendent of schools within 30 days of the date of the provisional appointment, it shall become an effective appointment.

5093. (a) There shall be no special election or appointment to fill a vacancy on a governing board if the vacancy occurs within four months of the end of the term of that position and the incumbent is not reelected to fill the position.

(b) Section 5091 shall not apply to a vacancy on a governing board if the vacancy occurs during the period between four months and 74 days prior to a regularly scheduled governing board election and the position is not scheduled to be filled at such election. In such a case, the position shall be filled at a special election for that position to be consolidated with the regular election. A person elected to fill a position under this subdivision shall take office at the next regularly scheduled meeting of the governing board following the election and shall serve only until the end of the term of the position which he was elected to fill.

(c) If a special election pursuant to Section 5091 could be consolidated with the next regular election for governing board members, and the vacant position is scheduled to be filled at such regular election, there shall be no special election.

5094. If for any reason vacancies should occur in a majority of the offices on any school district or community college district governing board, the president of the county board of education having jurisdiction may appoint members of the county board of education to the district governing board until new members of the governing board are elected or appointed.

5095. Whenever any of the offices on any school district governing board or community college district governing board is vacant, the remaining governing board member or members, if any, and any governing board member or members elected or appointed to fill the vacancies, who have qualified, shall have all the powers and perform all the duties of the governing board.

## CHAPTER 2. BOARDS OF EDUCATION

## Article 1. Districts Covered

5200. Any unified school district which is coterminous with or includes within its boundaries a chartered city or city and county shall be governed by the board of education provided for in the charter of the city or city and county. Sections 5000, 5017, 5050, 5090, 5091, 35013, 35101, and 35105 shall not apply to such unified school districts, except as follows:

(a) As provided in the charter of the city or city and county.

(b) If the charter of the city or city and county fails to provide for a board of education or for any or all of the matters specified in Sections 5000, 5017, 5050, 5090, 5091, 5222, 35013, 35101, and 35105 shall apply as to the matter not provided for in the charter.

5201. A school district, or community college district a portion of which is embraced within the limits of any city governed by a charter proposed and adopted as provided by Section 5 of Article XI of the California Constitution, may be subject to, controlled, and governed by the provisions of the charter relating to and providing for the management of public schools in the manner hereinafter in this article provided, upon approval of a majority of the electors of the districts voting at a regular biennial school district governing board member election.

The governing board of any such district may, in the resolution specifying the order of any such regular governing board member election, require that the question of whether the district shall be governed by the provisions of the charter be submitted to the voters of the district.

If the governing board so requires, the ballots used at the election shall contain the words "Shall the (name of district) be governed by the charter of the City of \_\_\_\_\_?" and the words "Yes" and "No" so placed that the voters may clearly indicate their choice in this connection.

If it appears from the returns that a majority of the votes cast on the proposition is in favor of the proposal, then the county superintendent of schools having jurisdiction shall certify the result to the board of education provided for in the charter of the city. From and after the date of the certificate the district shall be governed by the provisions of the charter relating to the establishment, management, and control of the public schools, and all of the qualified electors residing in the district, whether residing within or without the boundaries of the city, shall be entitled to vote for members of the board of education at any election held for that purpose.

5202. If any school district or community college district or portion of any such district is embraced within the corporate limits of a city having a charter, and the electors of the district have participated in and voted at any school election held subsequent to

the adoption of and under the provisions of the charter, they shall be deemed to have submitted to be governed in all matters relating to the management of public schools within the school district or high school district or community college district as fully and to all intents and purposes as though the electors of the district had by their votes elected to be governed by the provisions of the charter.

5203. If the charter of any city provides for or has within two years prior to January 1, 1955, provided for a board of education of five members of a unified school district, and said charter has been or is hereafter amended so that it fails to provide for a board of education, a new board of education composed of five members is created under this section immediately upon the effective date of such amendment; the positions thereto shall be filled by appointment of the county superintendent of schools. The terms of the members first so appointed shall expire the last day of March of an odd-numbered year next following the effective date of such charter amendment, and an election shall be held for the members of such board at the time fixed by law for the regular election of members of governing boards of school districts, and the members so elected shall assume office on the first day of April following. If the effective date of such charter amendment is such that a legal election for board members cannot be held as aforesaid prior to the first day of April of an odd-numbered year next following such charter amendment, then the county superintendent of schools shall again appoint the members of such board who shall assume office on the first day of April as aforesaid. The terms of the board members who take office on the first day of April as aforesaid and thereafter shall be as follows:

(a) If such members were elected, the three receiving the largest number of votes shall serve for four-year terms, and the remaining two members shall serve for two-year terms; and all subsequent members shall serve for four-year terms.

(b) If such members were appointed, the county superintendent of schools, upon making the appointments, shall designate three members to serve for four-year terms, and two members to serve for two-year terms.

Except as herein otherwise provided, the members of the board shall be elected at the last time fixed by law for the election of members of governing boards of school districts prior to the commencement of a new term of office. If a general municipal election is to be held within 60 days prior to the time when an election for board members would be held as aforesaid, the board of education may, by resolution filed with the governing body of such city at least 60 days prior to such municipal election, call the school district election to coincide with the municipal election and request the governing body of such city to consolidate such elections in that portion of the school district which lies within such city, and the governing body of such city shall order such elections to be consolidated and to be held as are consolidated elections under the

provisions of the Elections Code relating to consolidated elections, in which event the school district shall simultaneously with the holding of such consolidated election conduct an election in any portion of the district not included within such municipality. In the event of the holding of such consolidated election, the school district shall reimburse the city for its proportionate share of the costs of conducting such consolidated election in an amount to be agreed upon between the governing bodies of such school district and such city.

**5204.** Proceedings pursuant to Section 5203 may be conducted in conjunction with proceedings under Article 1 (commencing with Section 5000) of Chapter 1 of this part, including proceedings by the county committee on school district organization to establish trustee areas or to increase the number of members of the governing board of the school district or community college district from five to seven members, or both. In the event that the number of members of the governing board of the school district is so increased from five to seven members, the terms of office of the board members who take office at the expiration of the terms of office of the board members appointed by the county superintendent of schools shall be determined by lot. The terms of office of the majority of members of the board shall expire on June 30th of the second succeeding odd-numbered year, and the terms of the other members shall expire on June 30th of the first succeeding odd-numbered year. All subsequent members shall serve for four-year terms.

**5205.** The governing board of any elementary school district having an average daily attendance of 1,000 or more pupils and an assessed valuation of twenty million dollars (\$20,000,000) or more may, and upon petition signed by 25 percent of the heads of families resident in the district, shall order an election to determine whether or not, it shall have the rights, powers, and duties of a city board of education and whether or not the district shall for all purposes be deemed to be a district governed by a city board of education.

If the governing board of the district consists of three members, there shall be elected at the election, to take office if the proposal for change in the rights, powers, and duties of the board is approved, two additional members to the board. If the change is approved by a majority of the qualified electors voting on the proposition at the election, the board shall have the rights, powers, and duties of a city board of education, and the district shall for all purposes be deemed to be a district governed by a city board of education. Also, if the change is so approved, the two additional board members shall take office, the one receiving the highest number of votes to serve until the first day of April following the second succeeding regular election at which board members are elected, and the one receiving the next highest number of votes to serve until the first of April following the next such regular election. Thereafter, the governing board of the district shall consist of five members elected in the manner prescribed for other school districts for terms of four years

and until their successors are qualified, provided that vacancies shall be filled in the manner provided for unified school districts.

5206. Whenever a unified school district has within its boundaries a chartered city or a city with a population of more than 8,000 or whenever the average daily attendance of a unified school district is 1,500 or more, for all purposes the district shall be deemed a city school district governed by a city board of education and the governing board thereof shall be deemed a city board of education.

5207. Notwithstanding the provisions of Section 5206, whenever the average daily attendance of a unified school district, which becomes effective for all purposes on or after July 1, 1966, is 2,000 or more, for all purposes the district shall be deemed a city school district governed by a city board of education and the governing board thereof shall be deemed a city board of education.

5208. When outside territory has been annexed to a city for school purposes, the outside territory shall be deemed to be a part of the city for all matters connected with the school department of the city, for the annual levying and collecting of the property tax for the school fund of the city, and for all purposes specified in Chapter 2 (commencing with Section 15100) of Part 10 of this division.

The last assessment roll made by the county assessor shall be the only basis of taxation for the school district on the property outside the corporate limits annexed for school purposes.

## Article 2. Elections

5220. Boards of education are elected in cities under the provisions of the laws governing the respective cities, except as otherwise provided in this chapter.

5221. Whenever the charter of a city comprising in whole or in part an elementary school district, fails to provide for the manner in which, the times at which, and the terms for which the members of the board of education of such city are appointed, and for the number which shall constitute such board, the governing board of the elementary school district within which the city is located or with which the city is coterminous is the board of education of the city.

5222. Except as provided in Section 5221, whenever the charter of any city fails to provide for the manner in which, the times at which, or the terms for which the members of the city board of education shall be elected or appointed, for their qualifications, removal, or for the number which shall constitute such board, the provisions of this division shall apply to the matter not provided for.

5223. The members of any elective city board of education shall be elected at large from the territory within the boundaries of the school district or districts which are under the jurisdiction of the city board of education, whether sitting as a board of education, high school board, or community college board, and any qualified elector of the territory shall be eligible to be a member of such city board of education.

When outside territory has been annexed to a city for school purposes it shall be deemed a part of the city for the purpose of holding the general municipal election, and shall form one or more election precincts, as may be determined by the legislative authority of the city. The qualified electors of the annexed territory shall vote only for the board of education or the board of school trustees.

5224. In any school district or community college district situated wholly or partly within a city containing a population of over 1,900,000 according to the 1950 federal census, the governing board shall be composed of seven members holding office numbers 1, 2, 3, 4, 5, 6, and 7, and shall be elected at large at the same time and in the same manner as the members of the city council of said city, and shall serve for a term of four years. The four members of such board whose terms of office expire July 1, 1947, shall be considered as holding office numbers 1, 3, 5, and 7 (such members within 15 days after the effective date of Chapter 725 of the Statutes of 1945 to determine by lot at a regular board meeting the number of the office each holds), and the remaining offices shall be known as office numbers 2, 4, and 6 (to be allocated by lot in the same manner as hereinbefore provided for office numbers 1, 3, 5, and 7). All such members' terms shall commence on the first day of April next succeeding their election.

5225. Notwithstanding the provisions of Section 5033, when a unified school district is formed pursuant to Chapter 2 (commencing with Section 4200) of Part 3 of this division which includes a city school district having a city board of education as provided under Section 5224, the unified school district shall be governed by said city board of education and the governing board members thereof shall continue in office for the remainder of their terms as elected pursuant to the provisions of Section 5224.

5226. Elections of members of city boards of education, primary, general, or recall, may be consolidated with municipal elections, primary, general, or special, in accordance with the provisions of Chapter 4 (commencing with Section 23300) of Part 2 of Division 12 of the Elections Code. In event of consolidation, the cost and expense of the election shall be apportioned between the city and districts, elementary, high school, or community college, as provided in Section 5227.

5227. In those cases in which the boundaries of the school district, high school district, or community college district, governed by a city board of education, are not coterminous with the boundaries of the city, and where elections, either primary, general, or recall, of members of the board of education are by the provisions of the laws governing the cities held at times other than on the day of municipal elections, general or special, the cost and expense of the district elections shall be a legal charge against the funds of the district or districts governed by the board of education. The city shall be reimbursed by the district or districts for its actual cost and expense incurred in the conduct of the election or elections. The cost and

expense of conducting the election in territory common to two or more districts shall be borne by the districts in equal shares. In territory within a single district the cost shall be borne by the district.

In those cases in which the school district, high school district, or community college district is governed by a city board of education, and elections, either primary, general, or recall, of members of the board of education are by the provisions of the laws governing the cities held on the same day as municipal elections, general or special, a proportionate part of the actual cost and expense of the election shall be a legal charge against the school districts governed by the board of education. The city shall be reimbursed for the proportionate cost and expense incurred in the conduct of the election. The cost and expense of the elections within the boundaries of the city shall be apportioned between the city and the districts in the ratio that the total number of offices to be filled and propositions to be voted upon by the electors of the city and the school district or districts, respectively, bears to the total number of offices to be filled and propositions submitted. The cost and expense of the election in territory outside of the municipal boundaries shall be borne by the districts affected. As between the districts, costs and expense shall be apportioned as follows: In territory common to two or more districts the cost of conducting the election shall be borne in equal shares, and in territory within a single district the cost shall be borne by the district.

5228. An election for members of the governing board of a community college district which has been divided into wards as provided in Section 5227 may be held, at the discretion of the governing board, on the same date and in the same manner as the city election for any chartered city located within the boundaries of the community college district. Such election when held shall be conducted by the chartered city on behalf of the community college district with the expenses of the election within the boundaries of the city apportioned between the city and the school districts in the manner prescribed by Section 5227.

Where a city charter does not specify a date for such elections, city boards of education may, by unanimous vote, determine that governing board member elections for that district shall be held on the date prescribed for the regular biennial school district governing board member elections, in which event the provisions of Chapter 3 (commencing with Section 5300) of this part relating to the consolidation of governing board member elections shall apply.

5229. If a unified district governed by a board of education of five members includes a chartered city, the charter of which provides for a board of education, the members of which are to be elected pursuant to this code and to hold office for the terms provided by this code, and three members of such board of education were elected to hold office for a term expiring during the school year commencing on the date the district was formed for all purposes, the office of three members of the board of education shall be filled at the first

election of governing board members following such date of formation for all purposes.

The term of office of such three members shall be determined by lot. The term of one member shall expire on March 31st of the second succeeding odd-numbered year following his election; and the terms of two members shall expire on March 31st of the second succeeding odd-numbered year following their election. The persons elected to succeed such three members shall hold office for four years.

In a unified school district formed pursuant to Chapter 2 (commencing with Section 4200) of Part 3 of this division which includes a chartered city, the governing board of the district shall be the board of education of such city or city and county; provided, that all qualified electors residing within the unified school district are eligible to vote at all elections held for the election of members of the city board of education and any elector residing in the district, or in a trustee area if the district is divided into trustee areas, is eligible to serve as a member of said board.

In the event a unified district includes a chartered city the governing board of the unified district shall consist of either five or seven members and shall be elected at large or by trustee areas, as designated by the unification proposal, and any elector residing in the district, or in a trustee area if the district is divided into trustee areas, is eligible to serve as a member of the board. The first governing board of any such unified school district shall be elected in the manner prescribed by Section 35101, except where the charter of the included chartered city expressly provides for the election of the first governing board of a newly formed unified school district, in which case such provisions of the charter shall control the election of the governing board.

5230. In the event a newly unified district includes a chartered city, the first governing board of the district shall be selected pursuant to Section 35101 or, in the event the charter of such city expressly provides for the calling and setting of the election of the first governing board of a newly unified school district, the charter shall apply.

5231. Notwithstanding any other provision of law, when elections for school district governing board members in existing or newly formed school districts are conducted in conjunction with the municipal election of a chartered city on other than the first Tuesday after the first Monday in March, newly elected members, unless the charter provides otherwise, shall take office 37 days after the day of election; provided, however, if the charter of a city provides for a municipal nominating or primary election and a general municipal election, the newly elected members shall take office 37 days after the date fixed by the charter for the general municipal election. The terms of office of outgoing members shall expire on the day before such newly elected members take office.

(Amended by Stats. 1976, Ch. 1011.)

## [ORIGINAL SECTION]

5231. Notwithstanding any other provision of law, when elections for school district governing board members in existing or newly formed school districts are conducted in conjunction with the municipal election of a chartered city on other than the first Tuesday after the first Monday in March, newly elected members shall take office 30 days after the official verification of the results of such election. The terms of office of outgoing members shall expire on the day before such newly elected members take office.

## CHAPTER 3. CONDUCT OF ELECTIONS

## Article 1. General Provisions

5300. School district elections and community college district elections shall be governed by the Elections Code, except as otherwise provided in this code.

5301. The provisions of this chapter shall apply to all district elections, except as otherwise provided by law, or as otherwise provided in the charter of any city or city and county in the matters concerning which the provisions of such charters are afforded controlling force and effect by the Constitution or laws of the state.

5302. The duties of the county superintendent of schools having jurisdiction of a school district election or community college district election shall be:

(a) To call elections when ordered under the provisions of this code.

(b) To consolidate district elections.

(c) To prepare recommendations, statements, or arguments for any election in which they are required, as provided in this code.

(d) To receive petitions as authorized by this code.

5303. The county clerk or the registrar of voters, if such office has been established in the county, shall perform the duties incident to the preparation for, and holding of, all district elections.

In districts situated in two or more counties, or in elections to organize or reorganize districts in territory situated in two or more counties, the county clerks, or the registrars of voters in the counties in which any part of the district territory is situated, shall, by mutual agreement, provide for the performance of such duties.

5304. The duties of the governing board of any school district or community college district with respect to school district elections shall be:

(a) To order elections as authorized by this code.

(b) To resolve tie votes in governing board member elections.

5305. All school district elections and community college district elections shall be held on a Tuesday.

## Article 2. Order and Call of Elections

5320. The act authorized by this code of any officer, board, county committee, group of electors, or any other persons or agencies which commences an election proceeding, and any mandatory provision of

this code requiring that an election be held, is an "order of election."

5321. Whenever a valid and verified petition, authorized by this code and requesting that a board election be held in any school district or in territory contained in one or more school districts or community college district, is received by the officer or board designated by law to receive the petition, such petition shall be deemed an order for calling such election unless the officer or board is by law authorized to take some action upon the petition other than ordering the election requested in the petition. If an election is ordered, the county superintendent having jurisdiction shall prepare a resolution setting forth the specifications required in Section 5322 as preliminary procedure to the call of such election.

5322. Whenever an election is ordered, the governing board of the district or the board or officer authorized by this code to make such designations shall, concurrently with or after the order of election but not less than 80 days prior to the date set for the election, by resolution delivered to the county superintendent of schools specify the following, or such of the following as he or it may have authority to designate:

- (a) The date of the election.
- (b) The purpose of the election.

The resolution or resolutions shall be known as "specifications of the election order" and shall set forth the authority for ordering the election, the authority for the specification of the election order and the signature of the officer or the clerk of the board by law authorized to make the designations therein contained.

5323. The county superintendent having jurisdiction shall at least 120 days prior to the date of a governing board member election consolidated pursuant to Section 5340, notify the governing boards concerned of the order of consolidation of governing board elections under his jurisdiction. Such notice of consolidation shall be given in writing.

5324. At least 75 days prior to the date specified for the holding of any school election, the county superintendent of schools shall deliver to the county clerk or registrar of voters, if such office has been established in the county where the election is to be held, copies of:

- (a) The order of election.
- (b) If the election is to be consolidated, the order of consolidation.
- (c) The formal notice of election.

5325. Any school district election or community college district election ordered to be held in accordance with the provisions of this code shall be called by the county superintendent of schools having jurisdiction of the election by causing the:

- (a) Posting or publication of notices of election, and
- (b) Delivery of a copy of the formal notice of election to the county clerk or registrar of voters at least 75 days prior to the date of the election.

5326. If, immediately following the last time for filing pursuant to

Section 5012 of the Education Code, only one person has been nominated for each position of governing board member to be filled at that election or no person has been nominated for any such position, and a petition signed by 25 voters of the district indicating that a write-in campaign will be conducted has not been presented to the county superintendent by the 40th day prior to the election, an election shall not be held.

For purposes of this section it shall be deemed that there is only one candidate for each position of governing board member to be filled when there is more than one such position to be filled from a list of candidates for all such positions collectively and the number of candidates does not exceed the number of positions to be filled; to the extent that the number of such positions exceeds the number of candidates therefor, it shall be deemed that no person has been nominated.

The provisions of this section shall apply to elections for membership on the county board of education.

For purposes of this section and Sections 5327, 5328, and 5329, "nominated" or "nomination" includes becoming a candidate by a declaration of candidacy.

5327. The publication provided for in Section 5325 shall, instead of calling an election, state that no election is to be held but that the governing board shall appoint the one nominated for the position of governing board member or shall, if no person has been nominated, appoint any qualified person to the position.

5328. If pursuant to Section 5326 a district election is not held, the governing board shall, at a meeting held prior to the day fixed for the election, appoint to the position of governing board member the person nominated, or shall, if no person has been nominated, appoint any qualified person to such position. Any person thus appointed shall qualify, take office and serve as if elected at a district election.

5329. Notice that appointment pursuant to Section 5328 may be made in the event that only one or no nomination is made and no petition requesting an election is filed, shall be published in a newspaper of general circulation in the district, once, not less than 7 days and not more than 14 days prior to the final day on which nominations may be made.

### Article 3. Consolidation of Elections

5340. School district governing board or community college district governing board member elections for two or more districts of any type to be held in the same district or area on the same day shall be consolidated so that a person entitled to vote in both or all of such elections may do so at the same time and place and using the same ballot.

When a consolidated election is required by this section to be held, the basic unit for conducting the election shall be the elementary district, and the county superintendent of schools having jurisdiction

over the elementary districts affected shall order the consolidation of governing board elections at least 120 days prior to the date of the election, by notifying in writing the governing boards concerned that a consolidated election is required to be held.

5341. When a consolidated district governing board member election is required to be held there shall be as many separate lists of candidates as there are districts for which governing board members are to be elected. Each list of candidates shall be headed by the name of the district for which the persons listed are governing board member candidates. The name of each district shall be printed in capital letters, and shall be separated from the list of candidates beneath it by a line. The names of the districts with the list of candidates for governing board member of each district following each name shall be arranged in the following order, as the case may require:

(a) First, community college district if there be one; second, high school district; third, elementary school district; or

(b) First, community college district; second, unified district; or

(c) First, community college district; second, high school district.

The names of the candidates for the office of governing board member of one district shall not be separated from each other on the ballot by the names of candidates for governing board member of another district, and the list of candidates for each district shall be separated from the other lists by two double rules, one below the list of candidates and one above the name of the district which precedes the list.

Candidates for office in each district shall be listed on the ballot as follows, whether on a separate ballot for the district or on the list for the district on a consolidated ballot:

(a) The candidates shall be placed on a single list on the ballot regardless of how many members are to be elected;

(b) In an election held under Section 5018 to elect additional governing board members, the candidates for the new offices shall be listed separately from the candidates for the existing office and shall be voted for separately;

(c) When an election to recall a governing board member is held on the third Tuesday in April, the candidates for the office to succeed the incumbent if he is recalled shall be listed separately from the candidates to succeed governing board members whose recall is not sought.

5342. Whenever any school district election or community college district election is scheduled to be held on the same day, in the same territory, or in territory that is in part the same, as an election or elections called to be held by any other district, city, county or other political subdivision, the district election may be either completely or partially consolidated with such election or elections pursuant to the provisions of Chapter 4 (commencing with Section 23300) of Part 2 of Division 12 of the Elections Code.

Such consolidation shall be effected by the county superintendent

of schools having jurisdiction of the district upon receipt of both of the following:

(a) Written request for such consolidation by the governing board of the school district in which the election is to be held, which request must be submitted to the county superintendent of schools at least 80 days prior to election.

(b) Written approval of consent by the governing body of the other political subdivision or subdivisions holding an election or elections.

5343. If any school district election or community college district election is completely or partially consolidated with any other election, the notice of election need not set forth the precincts, place or places of holding the election, or the names of the officers appointed to conduct the election, but may instead state that the precincts, place or places of holding the elections and officers appointed to conduct the election shall be the same as those provided for such other election within the territory affected by the consolidation and set forth in the ordinance, order, resolution, or notice calling, providing for or giving notice of such other election, and reference shall be made to such ordinance, order, resolution, or notice by number and title or date of adoption, or by date or proposed date of publication and the name of the newspaper in which publication has been or will be made, or by any other definite description, except that no such reference need be made if the election is completely or partially consolidated with a statewide election.

5344. Within the territory affected by the order of consolidation the election precincts, polling places, voting booths and polling hours shall, in every case, be the same and there shall be only one set of election officers in each of the precincts. When the returns of elections consolidated pursuant to Chapter 4 (commencing with Section 23300) of Part 2 of Division 12 of the Elections Code are required to be canvassed by different canvassing boards, the elections shall be conducted separately in the same manner as if they had not been consolidated, except as provided in this section.

5345. In the event of consolidation of any school district election or community college district election with any other election the provisions of law governing such other election with respect to the manner of marking ballots shall also apply to the district election consolidated therewith.

#### Article 4. Election Notice

5360. As used in this chapter "formal notice" means the notice of election which is required to be published and posted in public places, and "card notice" means the notice of election which is required to be mailed to the registered voters of the area in which the election is to be held.

5361. The formal notice of election for any school district election

or community college district election shall be prepared by the county superintendent of schools and shall contain the following:

- (a) The date of the election.
- (b) The purpose of the election.

5362. As an alternative to publication by newspaper pursuant to Section 5363, publication of formal notice may be effected pursuant to this section. Not later than 20 days prior to the date of any school district or community college district election the county superintendent of schools having jurisdiction shall cause to be posted the formal notice of the election in public view at:

- (a) Every schoolhouse in the territory, district or districts in which the election is to be held.
- (b) At three public places in the territory, district or districts.

5363. Except where the procedure prescribed by Section 5362 is utilized, and except as otherwise provided for consolidated elections, the county clerk, or the county registrar of voters if such office has been established, having jurisdiction over any school district or community college district election shall cause formal notice of such election to be published in a newspaper of general circulation published within the district, or if there is no such newspaper, then in any newspaper of general circulation that is regularly circulated in the district.

Publication of notice pursuant to this section shall be once each week for three successive weeks. Three publications in a newspaper regularly published once a week or oftener, with at least five days intervening between the respective publication dates not counting such publication dates, are sufficient.

The first publication shall be made not more than 90 days, and the last publication shall be made not less than seven days, prior to the date set for the election.

Proof of such publication may be by affidavit.

5364. In the case of any school district or community college district election called or conducted under the provisions of this code, except as hereafter provided in this section, the county clerk, or the registrar of voters if such office has been established, of the county in which the majority of the territory of the district is located, shall, at the time provided in the Elections Code for the mailing of sample ballots for a statewide primary election, mail to each registered voter residing within the district, a sample ballot and a card designating the polling place and time of the election.

As used in this section, the word "card" means a card or other notice, as determined by the officer charged with the duty of mailing the same to the voters.

5365. (a) The officer charged with the duty of providing sample ballots for any election at which absent voter ballots may be cast shall cause to be printed on the envelope containing the sample ballot in heavy-faced gothic type, not smaller than 10-point, the following:

Notice: If you find that for any reason you will be unable to vote in person on election day, promptly contact the office of the \_\_\_\_\_

(county clerk or equivalent official, address, and phone number) for information regarding your right to vote by absent voter's ballot.

(b) In counties in which an application for absent voter's ballot is provided within the sample ballot envelope, such notice shall state, instead, the following:

Notice: If you find that for any reason you will be unable to vote in person on election day, promptly complete and sign the enclosed application for absent voter's ballot and return to \_\_\_\_\_ (county clerk or equivalent official, address and phone number).

Your application may be submitted not more than \_\_\_\_\_ days before the day of election but must reach the office of the \_\_\_\_\_ (county clerk or equivalent official) not less than \_\_\_\_\_ days before the day of election.

5366. Whenever the county clerk, registrar of voters, or other officer conducting a school district or community college district election is required to notify each voter of his polling place, the notice shall specify the location of the polling place, giving street and number, if any, with sufficient particularity to identify it. It shall not be compliance with such requirement to send to the voter a list of the precincts to be used at the election, and no such list shall be sent.

#### Article 5. Precinct Election Officers

5380. Any election officer serving at any school district election or community college district election may be paid out of the funds of the district as compensation for his services as an election officer such sum as is determined by the county clerk and approved by the county board of supervisors, not to exceed the amount paid from the county treasury to officers of the preceding general election. In districts in which the polls are kept open less than 12 hours, the maximum compensation for election officers shall be the sum bearing the same relation to the amount paid to election officers of the last preceding general election as the number of hours the polls were open at the election bears to the number of hours the polls were open in the preceding general election.

#### Article 6. Voters

5390. As used in this chapter "voter" means registered voter. In any school district or community college district election, any resident of the district, who is a voter of the county and who is registered in a general election precinct wholly or partially within the district at least 30 days before the election, may vote at the election.

5391. A voter shall cast his ballot only in the district precinct in which his place of residence is located.

5392. Any voter desiring to vote at the election shall write his name and address, or if he is unable to write, shall have his name and address written for him, on a roster of voters provided for that

purpose. He shall announce his name and address to one of the election officers, who shall in an audible tone of voice repeat the name and address. If another election officer finds the name on the printed index, and it has not been canceled, he shall in like manner repeat the name and address and deliver to the voter a ballot which he shall be allowed to vote.

The election clerk having in charge the copy of the index to the register or affidavits of registration shall, in like manner, repeat the name and shall write in the ruled space opposite the name, in figures, the line number designating the position of the name of the voter on the roster.

5393. In casting his vote the voter shall stamp a cross (+) in the square space immediately following the name of the candidate or candidates of his choice, or his choice of "Yes" or "No" to any proposition printed thereon. If the voter desires to vote for a person whose name does not appear on the ballot, he shall himself write the name of the person in the space provided for that purpose on the ballot. When the voter writes the name of a person on the ballot he may, but need not, place a cross (+) after the name. After properly marking his ballot the voter shall hand it to the inspector who shall, in the presence of the voter, deposit the ballot in the ballot box.

#### Article 7. Election Procedure

5400. In any school district or community college district election, the officer or board designating the polling places for the election shall furnish, or cause to be furnished, a sufficient number of places, booths, or compartments at or in which voters may conveniently mark their ballots so that they are screened from the observation of others.

5401. Subject to the provisions of Sections 5013 and 5341 of this code, the ballot used in any school district or community college district governing board election shall be subject to the following requirements:

(a) Ballot paper or punchcards, whichever is used, shall be acquired from the Secretary of State pursuant to Section 10001 of the Elections Code.

(b) All ballots used in district governing board member elections shall have printed immediately below the perforated line along the top of the ballot, and above any instructions to voters, in capital type at least 12-point in size the words "Ballot for School or Community College District Governing Board Member Election," followed by the name of the district. If a punchcard voting system is used, only the name of the election and the date of the election shall be printed on the stub attached to the punchcard and the words "Ballot for School District or Community College Governing Board Member Election," followed by the name of the district, shall be printed upon any ballot reference page or pages upon which is also printed, the instructions to the voters, office titles, names of candidates and the

ballot titles of measures, in conformance with the provisions of Division 9, Chapter 8 of the Elections Code.

(c) It shall comply with the provisions of the Elections Code as to ballot form and details including candidates occupational designation, excepting instructions to voters thereon shall be as provided for in local elections by the Elections Code.

No candidate shall assume a designation which would mislead the voters.

#### Article 8. Cost of Elections

5420. The cost of any school district or community college district election may include, but need not be limited to:

(a) Compensation of precinct election officers.

(b) Publication of notices.

(c) The cost of printing official ballots, sample ballots, indexes, arguments, statements, official notices, and card notices.

(d) Mailing charges for card notices, arguments, recommendations, statements, and sample ballots.

(e) Forms for rosters, tally sheets, certificates, envelopes, declaration of results forms, and legal forms required for bond elections.

(f) Precinct maps.

(g) The actual cost of supplies such as flags, ballot boxes, chairs and tables, booths, ink pads and stamps, and pencils; provided, that if any such can be borrowed from any state or county office, no charge for rental shall be included in the cost of elections.

5421. The cost of any election held within a single district shall be borne by the entire district, and shall be paid out of its funds. Election costs shall be determined by the county clerk or registrar of voters and approved by the county board of supervisors.

5422. The cost of elections, including consolidated elections, held in territory common to two or more districts shall be borne by the districts concerned in equal shares and paid from district funds.

5423. The cost of consolidated governing board elections shall be paid by the county superintendent of schools having jurisdiction from the county school service fund, and the cost shall be prorated among the districts concerned to reimburse the fund.

5424. The cost of any recall election shall be borne by the district in which the recall election is held and paid from district funds.

5425. The cost of the election for the formation of a community college district shall be paid from the county general fund.

5426. The cost of any election held under the provisions of Article 8 (commencing with Section 4400) of Chapter 2 of Part 3 of this division, or Article 7 (commencing with Section 35690) of Chapter 3 of Part 21 of Division 3 of Title 2, or Article 3 (commencing with Section 74630) of Chapter 5 of Part 46 of Division 7 of Title 3, where the election is being held for the assumption of bonded indebtedness of the district to which the territory is being transferred or where the

county board of supervisors requires an election to be held in the whole district from which the territory would be transferred, shall be paid from the county general fund.

#### Article 9. Miscellaneous Provisions

5440. The provisions of Division 11 (commencing at Section 20000) of the Elections Code, relating to election contests shall apply to school district elections.

5441. The returns of any school district or community college district election received by the county clerk or registrar of voters having jurisdiction shall, after the date of the declaration and certification of the final results of the election, be disposed of as follows:

(a) The sealed envelope containing the voted ballots, including ballots rejected for improper markings, shall be kept by the county superintendent unopened and unaltered for six months. If a contest or criminal prosecution is not commenced within the six-months' period as provided in Division 11 of the Elections Code, he shall destroy the envelope, or have it destroyed, without its being opened or its contents examined. This paragraph also applies to absent ballots and identification envelopes.

(b) The envelope containing spoiled, canceled, and defaced unused ballots shall remain unopened in the custody of the county superintendent and shall be held and disposed of as is the envelope provided for in paragraph (a) of this section.

(c) The envelope containing the tally sheet, challenge sheet, challenge list, assisted voter list, and affidavits of election officers assisting voters, shall be disposed of in the same manner, but the contents of this envelope may be made available to voters for inspection at any time following commencement of the official canvass of votes.

5442. If any voter by affidavit filed with the county clerk or registrar of voters shows facts sufficient reasonably to justify the belief that the vote of any precinct has not been correctly counted to the extent that a recount would change the result of the election, he may appear on the day and at the place fixed for the county clerk or registrar of voters to canvass the returns and demand a recount of the vote of the precinct that is claimed to have been incorrectly counted.

The cost of the recount shall be deemed to be a cost of the election, and shall be paid by the district involved pursuant to Article 8 (commencing with Section 5420) of this chapter.

This section shall apply to all school district and community college district elections of any type or class, except school district governing board member elections, and shall be liberally construed.

5443. (a) The county clerk or registrar of voters shall order a recount if the provisions of this subdivision are complied with. A recount shall be ordered upon the filing with the county clerk or

registrar of voters of an affidavit by any voter and his appearance and demand pursuant to this subdivision. The affidavit shall show that the vote was within: (1) the lesser of 10 votes or 1 percent of the total votes cast in any one precinct; or (2) the lesser of 100 votes or 1 percent of the total votes cast in all precincts. The voter who files the affidavit shall appear on the day and at the place fixed for the county clerk or registrar of voters to canvass the returns and shall demand a recount. Except as provided in subdivisions (b) and (c), if the affidavit is based upon the number or percentage of votes cast in one precinct, any recount shall be confined to that precinct. If the affidavit is based upon the number or percentage of votes cast in all precincts, the recount shall be conducted in all precincts.

(b) The county clerk or registrar of voters may, in his discretion, order a recount in all precincts whenever an affidavit is filed pursuant to subdivision (a).

(c) The county clerk or registrar of voters may, in his discretion, order a recount whenever there is filed with him by any voter an affidavit showing facts sufficient to justify the belief that the result of the election could be changed by a recount.

(d) The cost of the recount shall be deemed to be a cost of the election, and shall be paid by the school district involved pursuant to Article 8 (commencing with Section 5420) of this chapter.

(e) This section shall apply only to school district governing board member elections of any type or any class.

5444. Notwithstanding any other provision of this code, the county clerk or registrar of voters conducting any school election shall not be required to provide more than one ballot to the same voter for the purpose of voting on separate propositions at the same election. However, no voter shall be presented with a ballot containing a proposition on which he is not entitled to vote by virtue of not residing within the district or area affected by the proposition.

#### Article 10. Ballot Arguments

5450. As used in this article, "school measure" means any proposition, including but not limited to, a proposal for the issuance of bonds by a school district, or community college district an increase in the maximum tax rate of a school district or community college district, or the acceptance, expenditure, and repayment of state funds by a school district or community college district to enable the district to construct buildings and other facilities, submitted to the voters of the district at any election held in the district.

5451. Whenever a school measure qualifies for a place on the ballot, the county clerk shall transmit a copy of the measure to the county counsel or to the district attorney in any county which has no county counsel.

The county counsel or district attorney shall prepare an impartial analysis of the measure showing the effect of the measure on the

existing law and the operation of the measure.

The analysis shall be printed preceding the arguments for and against the measure. The analysis shall not exceed 500 words in length.

5452. The governing board of the district or any member or members of the board authorized by the board, or any individual voter or bona fide association of citizens, or any combination of such voters and associations may file a written argument for or against any school measure. No argument shall exceed 300 words in length. No more than five signatures shall appear with any argument submitted under this section. If an argument is signed by more than five persons, the names of only the first five persons signing, determined by the order in which their signatures appear, shall be printed with the argument. The person conducting the election shall cause an argument for and an argument against the measure to be printed, and shall transmit the arguments to the voters with the card giving notice of the election.

5453. Based on the time reasonably necessary to prepare and print the arguments, the person conducting the election shall fix and determine a reasonable date prior to the election after which no arguments for or against any school measure may be submitted to him for printing and distribution to the voters. Notice of the date fixed shall be published pursuant to Section 6061 of the Government Code. Arguments may be changed until and including the date fixed by the person conducting the election.

5454. If more than one argument for or more than one argument against any school measure is submitted to the person conducting the election within the time prescribed, the person conducting the election shall select one of the arguments in favor and one of the arguments against the measure for printing and distribution to the voters. In selecting the arguments the person conducting the election shall give preference and priority in the order named to the arguments of the following:

- (a) The governing board of the district or member or members of the board authorized by the board.
- (b) Bona fide associations of citizens.
- (c) Individual voters.

If more than one argument is filed within the category having the highest preference and priority, the person conducting the election shall appoint a committee of three people familiar with the issues presented by the measure who favor the position being advocated in the arguments but who have not filed an argument themselves, who shall within 10 days meet and select by majority vote the argument which most fairly and completely states the position being advocated. The decision of the committee shall be final.

5455. When the person conducting the election has selected the arguments for and against the measure which will be printed and distributed to the voters, he shall send copies of the argument in favor of the measure to the authors of the argument against, and

copies of the argument against to the authors of the argument in favor.

The authors may prepare and submit rebuttal arguments not exceeding 250 words.

The rebuttal arguments shall be filed with the county clerk not more than 10 days after the final date for filing direct arguments. Rebuttal arguments shall be printed in the same manner as the direct arguments. Each rebuttal argument shall immediately follow the direct argument which it seeks to rebut.

5456. All arguments prepared pursuant to this article and any statement submitted pursuant to Section 5455 shall be verified in the same manner as a pleading in a civil action.

5457. Any bona fide association of citizens which files a written argument pursuant to this article shall include therewith its fictitious name and the names of its officers.

If the argument of a bona fide association of citizens is selected for printing and distribution to the voters, the fictitious name and the names of the officers of the association shall appear in connection with the printed argument.

5458. Whenever a proposition relating to the approval of district bonds and a proposition, which is conditioned by the State Allocation Board on the approval of the bond issue, relating to the acceptance and expenditure of state school building aid funds are to be submitted to the voters of a district on the same ballot, both such propositions may be combined in such a manner that the proposed obligations of the district are clearly expressed and the voter may cast one "Yes" or "No" vote upon such combined proposition.

The combined proposition shall, as nearly as practicable, be worded in accordance with the statutory requirements for the wording of each such proposition.

#### CHAPTER 4. DISSEMINATION OF KNOWLEDGE OF ELECTION PROPOSITIONS

5500. For the purpose of encouraging the study and investigation of the various propositions and constitutional amendments which are submitted to the people and to stimulate interest in, and study of, the propositions by addresses, debates, and general discussions throughout the various institutions of learning of the state, the Secretary of State, shall, within six months after the adjournment of each session of the Legislature, have printed in the manner prescribed by Article 3 of Chapter 1 of Division 4 of the Elections Code a sufficient number of all propositions and constitutional amendments which are to be submitted to a vote of the people at any election.

5501. The Secretary of State shall supply each institution of higher learning with 25 copies, and each high school and elementary school with 10 copies of the propositions and constitutional amendments and deliver them to the Superintendent of Public Instruction.

5502. The Superintendent of Public Instruction or Board of Governors of the California Community Colleges, as the case may be, shall immediately prepare such instructions to the heads of the institutions and schools as he deems sufficient to properly accomplish the object expressed in Section 5500 and shall forward the propositions and constitutional amendments to the heads of the institutions and schools together with the instructions.

## PART 5. PUBLIC SCHOOL PERSONNEL

### CHAPTER 1. PERSONNEL—GENERAL PROVISIONS

#### Article 1. Prohibition of Communist Party Membership

7000. The Legislature of the State of California finds that:

(a) There exists a worldwide revolutionary movement to establish a totalitarian dictatorship based upon force and power rather than upon law.

(b) This worldwide revolutionary movement is predicated upon and it is designed and intended to carry into execution the basic precepts of communism as expounded by Marx, Lenin, and Stalin.

(c) Pursuant to the objectives of the world communism movement, in numerous foreign countries the legally constituted governments have been overthrown and totalitarian dictatorships established therein against the will of the people, and the establishment of similar dictatorships in other countries is imminently threatening. The successful establishment of totalitarian dictatorships has consistently been aided, accompanied, or accomplished by repeated acts of treachery, deceit, teaching of false doctrines, teaching untruth, together with organized confusion, insubordination, and disloyalty, fostered, directed, instigated, or employed by Communist organizations and their members in such countries.

(d) Within the boundaries of the State of California there are active disciplined Communist organizations presently functioning for the primary purpose of advancing the objectives of the world communism movement, which organizations promulgate, advocate, and adhere to the precepts and the principles and doctrines of the world communism movement. These Communist organizations are characterized by identification of their programs, policies, and objectives with those of the world communism movement, and they regularly and consistently cooperate with and endeavor to carry into execution programs, policies, and objectives substantially identical to programs, policies, and objectives of such world communism movement.

(e) One of the objectives of the world communism movement is to place its members in local government positions and in the public school system. If this objective is successful, propaganda can be

disseminated by the members of these organizations among public school pupils by those members who would have the opportunity to teach them and to whom, as teachers, they would look for guidance, authority, and leadership. The members of such groups would use their positions to advocate and teach their doctrines and teach the prescribed Communist Party line group dogma or doctrine without regard to truth or free inquiry. This type of propaganda is sufficiently subtle to escape detection in the classroom.

There is a clear and present danger, which the Legislature of the State of California finds is great and imminent, that in order to advance the program, policies and objectives of the world communism movement, Communist organizations in the State of California and their members will engage in concerted effort to hamper, restrict, interfere with, impede, or nullify the efforts of the governing boards of school districts or community college districts to comply with and enforce Section 51530 which prohibits the advocacy or teaching of communism with the intent to indoctrinate any pupil with or inculcate a preference in the mind of any pupil for communism for the purpose of undermining the patriotism for and the belief in the government of the United States and of the State of California in the minds of the pupils of the public school system.

The Legislature specifically finds that the requirement that all persons (certificated or noncertificated) now employed by the school districts or community college districts of this state, or hereafter making application for employment by any of such districts, shall declare under oath that they are not knowingly members of the Communist Party, is a reasonable measure to meet the clear and present danger hereinabove found.

The Legislature further specifically finds that an indirect or evasive answer to a question relating to any of the matters specified in Section 7004 or 7005, or an answer which neither affirms nor denies shall, for the purposes of this section and chapter, be considered as a failure and refusal to answer, regardless of the ground or explanation given for any such answer.

7001. No person who is knowingly a member of the Communist Party shall after September 9, 1953, be employed by, or, except as provided in Section 7002, retained in the employment of, any school district. Prior to the first day of service as an employee of any school district or community college districts, the applicant shall state under oath whether or not he is knowingly a member of the Communist Party. If the applicant states that he is knowingly a member of the Communist Party, he shall not become an employee of any school district or community college districts.

7002. Any employee of any school district or community college district who on September 9, 1953, is or since October 3, 1945, was knowingly a member of the Communist Party, and who has not previously filed the statement required by this section, shall within ninety (90) days of the effective date of the amendment of this section made at the 1955 Regular Session of the Legislature, file with

the governing board of the district employing him a verified statement that he is no longer a member of the Communist Party and that such membership has been terminated in good faith. Any such employee who fails to file such a statement within the time specified shall be guilty of insubordination and guilty of violating this section and shall be suspended and dismissed from his employment in the manner provided by law.

7003. Any employee of any school district or community college district who after September 9, 1953, knowingly becomes a member of the Communist Party shall be guilty of insubordination and guilty of violating this section and shall be suspended and dismissed from his employment in the manner provided by law.

7004. It shall be the duty of any employee of any school district or community college district who may be subpoenaed by a United States Congressional Un-American Activities Committee or a subcommittee thereof or a California Legislative Un-American Activities Committee or a subcommittee thereof or any other committee or subcommittee of the United States Congress or the California Legislature or of either house of either thereof to appear before said committee or subcommittee and specifically to answer under oath a question or questions propounded by any member or counsel of the committee or subcommittee relating to:

(a) Present personal advocacy by the employee of the forceful or violent overthrow of the government of the United States or of any state or political subdivision.

(b) Present knowing membership in any organization which, to the knowledge of such employee, advocates the forceful or violent overthrow of the government of the United States or of any state or political subdivision.

(c) Past knowing membership at any time since October 3, 1945, in any organization which, to the knowledge of such employee, during the time of the employee's membership advocated the forceful or violent overthrow of the government of the United States or of any state or political subdivision.

(d) Past knowing membership of such employee in the Communist Party at any time since October 3, 1945.

(e) Present knowing membership of such employee in the Communist Party.

(f) Present personal advocacy by the employee of the support of a foreign government against the United States in the event of hostilities.

Any employee who fails or refuses to answer under oath on any ground whatsoever any such question propounded by any member or counsel of any such committee or subcommittee shall be guilty of insubordination and guilty of violating this section and shall be suspended and dismissed from his employment in the manner provided by law.

7005. It shall be the duty of any employee of any school district or community college district who is ordered to appear before the

governing board of the employing school district to appear and specifically to answer under oath a question or questions propounded by a member or counsel of the governing board or by the superintendent of schools relating to any of the matters specified in Section 7004.

Any employee who fails or refuses to appear or to answer under oath on any ground whatsoever any such question propounded by a member or counsel of the governing board or by the superintendent of schools shall be guilty of insubordination and guilty of violating this section and shall be suspended and dismissed from his employment in the manner provided by law.

7006. It shall be sufficient cause for the suspension and dismissal, in the manner provided by law, of any employee of a school district when such employee is knowingly a member of the Communist Party.

7007. Any certificated employee of a school district or community college district who violates any of the provisions of Sections 7001 to 7006, inclusive, shall be guilty of unprofessional conduct and shall be suspended and dismissed in the manner provided by law.

## PART 6. EDUCATION PROGRAMS—STATE MASTER PLANS

### CHAPTER 1. VOCATIONAL EDUCATION

#### Article 1. California Advisory Council on Vocational Education and Technical Training

8000. The California Advisory Council on Vocational Education and Technical Training, hereinafter referred to as the council in this article, is hereby created, consisting of the Director of Employment Development or his representative, a member of the Assembly Education Committee appointed by the Speaker of the Assembly, a member of the Senate Education Committee appointed by the Senate Committee on Rules and 27 members appointed by the Governor. The 19 members originally appointed by the Governor pursuant to the terms of this section as added by Chapter 1555 of the Statutes of 1969, shall serve four-year terms, provided that of the initial appointments by the Governor, four shall serve one year, five shall serve two years, five shall serve three years, and five shall serve four years. Each of the three additional members appointed pursuant to this section as amended at the 1970 Regular Session shall serve for terms of four years. The terms of the five additional members appointed pursuant to this section as amended at the 1971 Regular Session shall be as follows: (a) the person representing the county offices of education shall serve a one-year term; (b) the two persons who are students currently enrolled in a vocational education program shall serve a two-year term; (c) the two persons representing a cross section of industrial, business, professional,

agricultural, and health service occupations shall serve a three-year term.

8001. The Members of the Legislature appointed to the council pursuant to Section 8000 shall meet with, and participate in, the work of the council to the extent that such participation is not incompatible with their positions as Members of the Legislature. The Members of the Legislature appointed to the council shall serve at the pleasure of the appointing power. For the purposes of this article, Article 5 (commencing with Section 2050) of Chapter 1 of Part 8 of this division, and Article 5 (commencing with Section 52380) of Chapter 9 of Part 28 of Division 4 of Title 2, such Members of the Legislature shall constitute a joint legislative committee on the subject of such articles and shall have the powers and duties imposed upon such committees by the Joint Rules of the Senate and Assembly.

8002. The members appointed by the Governor shall include:

(a) One person familiar with the vocational education needs and problems of organized labor.

(b) One person familiar with the vocational needs and problems of management.

(c) One person representing the state industrial and economic development agencies.

(d) Three persons representing the community colleges and other institutions of higher education, area vocational schools, technical institutes, and postsecondary or adult education agencies or institutions which may provide programs of vocational or technical education and training.

(e) One person familiar with the administration of state and local vocational education programs.

(f) One person having special knowledge, expertise, or qualifications with respect to vocational education who is not involved in the administration of state or local vocational education programs.

(g) One person familiar with programs of technical and vocational education, including programs of comprehensive secondary schools.

(h) One person representing local community college agencies.

(i) One person representing local secondary education agencies.

(j) One person representing community college governing boards.

(k) One person representing secondary school governing boards.

(l) One person representing elementary schools or elementary school boards.

(m) One person representing county offices of education.

(n) One person representing the manpower and vocational education agencies in the state and the comprehensive area manpower planning system of the state.

(o) One person representing school districts with large concentrations of academically, socially, economically, and culturally disadvantaged pupils.

(p) One person with special knowledge, experience, or qualifications with respect to the special educational needs of physically, emotionally, or mentally handicapped persons.

(q) Two persons who are students currently enrolled in a vocational education program.

(r) Two persons representing a cross section of industrial, business, professional, agricultural, and health service occupations.

(s) Two persons representing the general public, one of whom shall represent and be knowledgeable about the disadvantaged, who are not qualified for membership under any of the preceding subdivisions.

(t) Three persons representing private postsecondary education institutions not provided for in subdivision (d).

8003. Members of the council shall serve without compensation, except that they shall receive their actual necessary expenses incurred in the performance of their duties.

8004. The council shall have the following duties and responsibilities:

(a) Advise the State Board of Education and the Board of Governors of the California Community Colleges in the development and preparation of annual and long-range state plans for occupational education and training.

(b) Prepare and submit a statement to appropriate public agencies, as required pursuant to law, describing its consultation with the State Board of Education, the Board of Governors of the California Community Colleges, and the California Postsecondary Education Commission on the state plans.

(c) Advise the State Board of Education, the Board of Governors of the California Community Colleges, and the California Postsecondary Education Commission on policy matters arising in the administration of the state plans.

(d) Evaluate programs of occupational education and training maintained by local educational agencies, and publish and distribute the results thereof.

(e) Prepare and submit through the State Board of Education, the Board of Governors of the California Community Colleges, and the California Postsecondary Education Commission to the Legislature, United States Commissioner of Education, and the National Advisory Council on Vocational Education, an annual evaluation report accompanied by such additional comments as the state board and the board of governors deem appropriate which (1) evaluates the programs and services carried out in the year under review to meet the objectives set forth in the state plans; (2) recommends such changes as may be warranted by the evaluations.

(f) Perform functions identical with or analogous to those stated in subdivisions (a) to (e), inclusive, with respect to programs carried out under Part B of Title X of Public Law 92-318.

8005. The State Board of Education, the Board of Governors of the California Community Colleges, and the California

Postsecondary Education Commission shall either accept or reject each recommendation made by the council and shall immediately return to the council any recommendation which has been rejected, together with the reasons for the rejection.

8006. The council is authorized to obtain the services of such professional, technical, and clerical personnel as may be necessary to enable it to carry out its functions under this article, and to contract for such services as may be necessary to enable it to carry out its evaluation functions.

8007. There is in the Department of Education and the Board of Governors of the California Community Colleges, a vocational education staff responsible for the design, implementation, and maintenance of a basic integrated statewide information system for vocational education and technical training. The data gathering and analysis capabilities of the system shall include, but not be limited to, the following:

(a) Maintain comprehensive inventory of all programs of all vocational education and technical training programs which are maintained by the public schools.

(b) Facilitate an annual evaluation of programs of vocational education and technical training, including an analysis of the costs of individual programs, enrollment defined in terms of secondary students, postsecondary students and adults, the numbers of graduates of programs, the number of trainees trained for specific entry level occupations, dropout rates, and placement data.

(c) Provide for performing local, area, and state job projections and anticipated requirements of employers.

(d) Facilitate the preparation of reports required by state and federal agencies.

(e) Support the functions of the California Advisory Council on Vocational Education and Technical Training.

8008. The system provided for in Section 8007 shall be designed, implemented, and maintained in accordance with Chapter 7 (commencing with Section 10600) of Part 7 of this division.

8009. There is hereby appropriated from the General Fund a sum equal to the annual federal appropriation to California for state vocational advisory councils not to exceed one hundred fifty thousand dollars (\$150,000) for the 1974-75 fiscal year to the California Advisory Council on Vocational Education and Technical Training for purposes of carrying out the council's duties and responsibilities as provided for by this article.

## Article 2. Regional Adult and Vocational Education Councils

8020. There shall be created within the state, a number of regional adult and vocational education councils, which shall have boundaries as determined by local school districts, and approved by the Superintendent of Public Instruction and the Chancellor of the California Community Colleges. Regional boundaries shall be

coterminous with the boundaries of community college districts, and a region may consist of one or more adjacent community college districts. The superintendent and chancellor shall jointly publish guidelines for application by school districts and community college districts for the formation of regional adult and vocational councils.

8021. By June 30, 1976, each community college district, high school district, unified school district, and county office of education shall be a participant in a regional adult and vocational education council.

8022. Notwithstanding any other provision of law, existing adult continuing education coordinating councils with an average daily attendance of over 700,000 or having boundaries which are coterminous with those of a city and county, shall be designated regional adult and vocational education councils and all agreements, as to members, meetings, delineation of function, shall continue in force; and such councils shall comply with all other provisions of this article.

8023. To assure an orderly transition, the Superintendent of Public Instruction and Chancellor of the California Community Colleges shall prescribe and publish regulations for regional adult and vocational education councils within 90 days of the operative date of this article. Such regulations shall include procedures for nominating persons for election to membership on a regional adult and vocational council.

8024. Each regional adult and vocational education council, shall be composed of 11 members, as follows:

(a) Four representatives of high school or unified districts within the council boundaries, selected by a plurality of the votes cast by the governing boards of such districts. Each district governing board shall have one vote in the selection of each council member. In any instance where the region encompasses five or more unified or high school districts, selection of representatives shall be in accordance with the regulations established under Section 8023.

(b) Four representatives of the community college district or districts within the council boundaries, selected by the governing board or boards of such district or districts.

(c) A representative of a county office of education selected by the governing board. In any instance where the region spans portions of two or more counties, the governing board of the larger county by population shall make the selection.

(d) A representative of a prime sponsor under the Federal Comprehensive Employment and Training Act of 1973, or his designee.

(e) A representative of a private postsecondary educational institution selected by the administrators of the private postsecondary educational institutions in the region. Each private postsecondary educational institution shall have one vote in the election of the representative.

Members of the council shall serve terms of two years. Vacancies

shall be filled by the appointing power for the remainder of the term of the vacant position.

8025. The regional adult and vocational education council shall appoint a vocational and continuing education advisory committee to develop recommendations on the existing program, provide liaison between the programs and potential employers, and assist in the development of a plan for the short-term improvement of vocational and continuing education.

The committee shall be composed of not more than 18 members, consisting of single-member representation from each of the following agencies:

(a) Regional occupational centers and regional occupational programs.

(b) A state university or college or campus of the University of California.

(c) A field office of the Employment Development Department.

(d) One or more representatives from each of the following categories:

(1) Handicapped;

(2) Disadvantaged;

(3) Teachers;

(4) Business and industry;

(5) Labor, the Joint Apprenticeship Committee, and labor management;

(6) Any significant racial or ethnic minority, or both, in the region; and

(7) Students.

Each member of an advisory committee shall serve a term of three years. Vacancies shall be filled by the appointing power for the remainder of the term of the vacant position.

8026. The regional adult and vocational education council may retain staff to assist the council.

8027. Each regional adult and vocational education council shall meet and review:

(a) Adult continuing education plans and offerings delineated under Sections 8530, 8531, 8532, 8533, 8534 and 8535;

(b) Regional occupational programs and centers plans and offerings under Section 52300;

(c) Plans of a community college district or unified school district to change a course offered pursuant to Sections 51810 or 78300 to a course for which the district would receive state apportionments.

(d) Plans of a community college district to change a course offered as adult education to a regular graded course.

(e) All plans required to be submitted by Comprehensive Employment Training Act prime sponsors to either the State Board of Education or the California Manpower Services Council.

8028. Each regional adult and vocational education council shall make recommendations to the respective boards, in order to eliminate unnecessary duplication of offerings and to recommend

the appropriate level of instruction for new offerings. Each council shall submit to the Chancellor of the California Community Colleges, the Superintendent of Public Instruction and the California Postsecondary Education Commission the following:

(a) A delineation of function agreement which shall have been approved by the respective boards and which shall include a mutual agreement or agreements covering Sections 8530, 8531, 8532, 8533, and 8534, to be submitted within one year of the council's establishment.

(b) An articulation agreement between the respective boards, to be submitted within one year of the council's establishment.

8029. Each regional adult and vocational education council shall recommend plans and offerings reviewed pursuant to Section 8027 for approval for state apportionments by the Superintendent of Public Instruction and the Chancellor of the California Community Colleges, respectively. A recommendation for approval shall be agreed to by a majority of the members of the regional adult and vocational education council.

The superintendent and chancellor shall jointly promulgate regulations regarding criteria to be used by each council in reviewing courses and making recommendations for approval or disapproval for state apportionments. No course shall be recommended for approval by a council if the council determines it to be an unnecessary duplication. Final course approval for eligibility for apportionments shall be the responsibility of the superintendent and the chancellor, respectively.

Any affected district may appeal a decision of a regional adult and vocational education council. An appeal shall document the reasons for the appeal and shall be filed within 30 days of the decision of the council. The district may appeal to the Chancellor of the California Community Colleges, in the case of a community college district, or the Superintendent of Public Instruction, in the case of any other school district, within 30 days of the decision of the council. The chancellor or superintendent, as the case may be, shall notify the district and the respective council of his decision within 30 days of receiving the appeal.

The appellant district shall send a copy of any appeal filed with the Chancellor of the California Community Colleges or the Superintendent of Public Instruction to the California Postsecondary Education Commission.

8030. (a) Unnecessary duplication of courses shall be deemed to have occurred when two local education agencies or programs offer the same vocational or adult course to the same type of student population using similar operational characteristics as to prerequisites, unless one agency reports that it cannot meet the needs of all students requiring such services.

(b) Unnecessary duplication of services shall be deemed to have occurred when a local educational agency or program is opened to adults for the first time and draws students from existing approved

adult education programs, without mutual agreement, under Section 8516.

8031. Each regional adult and vocational education council shall, with the assistance of the advisory committee, develop a plan for the short-term improvement of vocational and continuing education, which includes a needs assessment of skills in demand to be determined from regional analysis. Subject to legislative appropriations therefor, a manpower management information system shall also be utilized in the development of plans.

Each regional adult and vocational education council shall annually file, on or before each June 30, a plan with the State Board of Education, the Board of Governors of the California Community Colleges, the affected district governing boards and regional occupational center and program, the California Advisory Council on Vocational Education and Technical Training, and the California Postsecondary Commission, for the short-term improvement of vocational and continuing education programs.

8032. Each regional adult and vocational education council shall meet on a regular basis and no less than once every two months.

8033. Each regional adult and vocational education council shall annually file, on or before each June 30, a report of its activities with the State Board of Education, the Board of Governors of the California Community Colleges, the California Postsecondary Education Commission, and affected district governing boards and regional occupational centers and programs.

8034. The Superintendent of Public Instruction and Chancellor of the California Community Colleges shall provide information relative to duplication for the use of the regional adult and vocational education council, and may prescribe further regulations to prevent unnecessary duplication, facilitate organization, reporting procedures and to insure public input and access to all decisions by the regional adult and vocational education councils.

8035. The Chancellor of the California Community Colleges and the Superintendent of Public Instruction shall each submit to the Legislature by August 1, 1976, a report regarding the establishment and operation of regional adult and vocational educational councils. The Legislative Analyst shall analyze the effectiveness of the regional adult and vocational education councils one year after the effective date of this article, and shall report thereon to the Legislature.

### Article 3. Local Advisory Committees

8070. The governing board of each school district and community college district participating in a vocational education program shall appoint a vocational education advisory committee to develop recommendations on the program and to provide liaison between the district and potential employers.

The committee shall consist of one or more representatives of the

general public knowledgeable about the disadvantaged, students, teachers, business, industry, school administration, and the field office of the Department of Employment Development.

#### Article 4. Expansion of Cosmetology Courses

8080. For purposes of this chapter the determination of definite need shall be established by the appropriate body as follows:

(a) The determination of need for a regional occupational center shall be established by the governing body of the agency maintaining the center.

(b) The determination of need for a high school shall be established by the governing body of the district maintaining the high school.

(c) The determination of need for a community college shall be established by the governing body of the district maintaining the community college.

(d) The determination of need for the state universities and colleges shall be established by the Trustees of the California State University and Colleges.

8081. (a) After November 23, 1970, no programs, courses, classes, or instruction in cosmetology, as defined by Section 7321 of the Business and Professions Code, shall, except as provided in subdivision (b), be initiated or expanded by any regional occupational center, high school, public community college, or campus of the California State University and Colleges unless and until a determination has been made, by the appropriate body pursuant to Section 8080, that a definite need exists for the initiation or expansion of such instruction and that existing private institutions offering the same or similar instruction are not adequately meeting that need.

(b) Notwithstanding the provision of subdivision (a) of this section, a regional occupational center, high school, public community college, or campus of the California State University and Colleges may initiate or expand programs, courses, classes, or instruction in cosmetology even though the appropriate body has determined that no definite need exists. In order to do so, the governing body maintaining the institution which will establish the programs, courses, classes, or instruction shall read the report of the appropriate body at a public meeting.

8082. The appropriate body, as defined in Section 8080, in making a determination of need as prescribed by Section 8081, shall give consideration to the existence of private institutions offering instruction in cosmetology within or near the service area of the public institution proposing to initiate or expand such instruction and the reasonableness of the cost to the students taking such instruction.

8083. The determination of need, as required by this chapter, shall not be applicable to the initiation or expansion of a program to the extent previously approved and implemented prior to

November 23, 1970, or with respect to expansion of a program to maximize the utilization of facilities acquired or approved for acquisition prior to November 23, 1970.

8084. The appropriate body, as referred to in Section 8080, shall report its findings within 90 days from the date of being notified by a regional occupational center, high school, community college, or campus of the California State University and Colleges of its intent to initiate or expand its teaching of cosmetology.

#### Article 5. Vocational Education Contracts

8090. Any state agency, including but not limited to school districts, and any community organization organized pursuant to the Economic Opportunity Act of 1964 (P.L. 452, 88th Congress (78 Stat. 508)) or any other similar training or retraining program authorized by the federal or state governments, may enter into contracts with private business, trade and technical schools to provide training and retraining programs when such private business, trade and technical schools have facilities available to provide such training and retraining. The attendance of pupils in courses of a private school pursuant to a contract authorized by this section shall not be counted for reporting to the Department of Education for the purpose of receiving apportionments from the State School Fund unless such contract also meets the requirements of Section 8092.

8091. Any state agency, including but not limited to local school districts, community college districts and any community organization organized pursuant to the Economic Opportunity Act of 1964 (Public Law 452, 88th Congress (78 Stat. 508)) or any other similar training or retraining program authorized by the federal or state governments, may use any federal, state, local, or private funds to provide training or retraining programs operated by private business, trade and technical schools.

8092. Any school district or districts; any community college district or districts; any county superintendent or superintendents; or the governing body of any agency maintaining a regional occupational center or program may contract with a private postsecondary school approved pursuant to the provisions of Chapter 3 (commencing with Section 94300) of Part 54 of Division 10 of Title 3 to provide vocational skill training authorized by this code.

All contracts between a public entity and a private educational institution entered into pursuant to this section shall:

(1) Be approved by the Department of Education or Chancellor of the California Community Colleges as appropriate pursuant to rules and regulations adopted by the State Board of Education or the board of governors as appropriate;

(2) Provide that the amount contracted for per student shall not exceed the total direct and indirect costs to provide the same training in the public schools or the tuition the private institution charges its private students, whichever is lower;

(3) Provide that the public school students receiving training in a private educational institution pursuant to such contract may not be charged additional tuition for any training included in the contract. The attendance of such students pursuant to a contract authorized by this section shall be credited to the public school entity for the purposes of apportionments from the State School Fund;

(4) Provide that all programs, courses, and classes of instruction shall meet the standards set forth in the California Plan for Vocational Education.

The students who attend a private postsecondary school pursuant to a contract under this section shall be enrollees of the public school entity and the attendance of such students at the private school shall be credited to the public school entity for the purposes of apportionments from the State School Fund.

The State Department of Finance and the Department of Education, or the board of governors, as the case may be, may audit the accounts of both the public entity and the private party involved in such contracts to the extent necessary to assure the integrity of the public funds involved.

(Amended by Stats. 1976, Ch. 1011.)

[ORIGINAL SECTION]

8092. Any school district or districts; any community college district or districts; any county superintendent or superintendents; or the governing body of any agency maintaining a regional occupational center or program may contract with a private postsecondary school approved pursuant to the provisions of Chapter 3 (commencing with Section 94300) of Part 54 of Division 10 of Title 3 to provide vocational skill training authorized by this code.

All contracts between a public entity and a private educational institution entered into pursuant to this section shall:

(1) Be approved by the State Department of Education or chancellor as appropriate pursuant to rules and regulations adopted by the State Board of Education or the board of governors as appropriate;

(2) Provide that the amount contracted for per student shall not exceed the total direct and indirect costs to provide the same training in the public school or the tuition the private institution charges its private students, whichever is lower;

(3) Provide that the public school students receiving training in a private educational institution pursuant to such contract may not be charged additional tuition for any training included in the contract. The attendance of such students pursuant to a contract authorized by this section shall be credited to the public school entity for the purposes of apportionments from the State School Fund;

(4) Provide that all programs, courses, and classes of instruction shall meet the standards set forth in the California Plan for Vocational Education.

The students who attend a private postsecondary school pursuant to a contract under this section shall be enrollees of the public school entity and the attendance of such students at the private school shall be credited to the public school entity for the purposes of apportionments from the State School Fund.

The State Department of Finance and the State Department of Education, or the board of governor, as the case may be, may audit the accounts of both the public entity and the private party involved in such contracts to the extent necessary to assure the integrity of the public funds involved

8093. The provisions of Article 3 (commencing with Section 39140) of Chapter 2 of Part 23 of Division 3 of Title 2, or Article 7 (commencing with Section 81130) of Chapter 1 of Part 49 of Division 7 of Title 3 shall not apply to any building which is used by a private

postsecondary school for purposes of providing vocational skill training for pupils pursuant to a contract under Section 8092 entered into by a public school entity and a private educational institution; provided that all of the following requirements are met:

(a) The building is not owned, leased, rented, or being purchased by, nor situated on property owned or being purchased by, a public school entity, and

(b) The only public school purpose for which such building is used is pursuant to a contract entered into pursuant to Section 8092, and

(c) Such building is not reconstructed, altered, or added to by a public school entity at a cost exceeding ten thousand dollars (\$10,000).

#### Article 6. Approval of Courses

8100. The Superintendent of Public Instruction or the board of governors as the case may be shall approve courses of vocational training for the purposes of loans authorized by Section 7185 of the Financial Code.

#### Article 7. Vocational Manpower Management Information System

8120. It is the intent of the Legislature to encourage the development of programs in the vocational educational curriculum which reflect the skill demands determined from local and area employment surveys.

8121. The Superintendent of Public Instruction in cooperation with the Director of Employment Development and the Chancellor of the California Community Colleges shall establish in the Department of Education a vocational manpower management information system to provide educators, students, and manpower planners in the state's vocational planning areas, standard metropolitan statistical areas, and other geographical areas in the state with statistical data and comprehensive information on current and projected occupational demand and supply relationships in local labor markets, and appropriate socioeconomic data, and to assist in gathering related information from all possible sources relevant to the process of effective vocational education and manpower development planning in the state.

### CHAPTER 2. CHILD DEVELOPMENT ACT

#### Article 1. General Provisions

8200. This chapter shall be known and may be cited as the Moretti-Lewis-Brown-Rodda Child Development Act.

8201. The purpose of this chapter is as follows:

(a) To provide as a concomitant part of the educational system an

integrated plan for the care and development of children in the absence of their parents which places primary emphasis upon: 1) the preparation of preschool age children for effective matriculation in the educational programs of their community when they reach school age, and 2) the improved educational performance of children of school age with particular emphasis upon those children who require special assistance including bilingual capabilities to attain their full potential.

(b) To provide parents with an opportunity to: 1) attain the capacity to provide support for their family through employment, 2) undertake educational activities which will assist them in providing an improved level of parental care and supervision of their children, and 3) participate with the child development program in assisting in provision of the full range of child development services contemplated by this division. It is the intent of the Legislature that any parent who enrolls his child in any child development program authorized by this division shall be allowed to participate in the planning, evaluation, and modification of child development programs.

(c) To provide a comprehensive system of child development services for prekindergarten and school-age children and their parents that includes a full range of education, supervision, health, and social services through full- and part-time programs.

8202. In recognition of the demonstrated relationship between food and good nutrition and the capacity of children to develop and learn, it is the policy of this state that no child shall be hungry while in attendance in child development facilities as defined in Section 8210 and that child development facilities have an obligation to provide for the nutritional needs of children in attendance.

8203. It is the intent of the Legislature that in providing child development programs the Superintendent of Public Instruction will give priority to children of families who qualify under federal regulations as former, current, or potential recipients of public assistance and other low-income and disadvantaged families. Federal reimbursement shall be claimed for any child receiving services under this division for whom federal funds are available.

It is further the intent of the Legislature to maximize the Department of Education's capacity to stimulate and coordinate resources, provide technical assistance, monitor program implementation, generate maximum federal reimbursement wherever possible for the federally eligible children, and to provide alternative funding from state and local agencies for those children eligible pursuant to Sections 8249 and 8380.

8204. The Department of Education is hereby designated as the single state agency responsible for the promotion, development and provision of care of children in the absence of their parents during the workday or while engaged in other activities which require assistance of a third party or parties.

8205. The Superintendent of Public Instruction shall, pursuant to

Section 204 of the Intergovernmental Cooperation Act of 1968, request such waivers of single state agency requirements as are necessary in order to utilize available federal funds for the purposes of this division.

8206. Until such waiver is granted by the federal government, the single state agency authorized by federal law to provide any child care service provided for in this division shall have only such functions, duties and responsibilities conferred by this division upon the Department of Education and the Superintendent of Public Instruction with respect to such child development services as are required by federal law and regulation. In such event, such single state agency shall provide child development services under a purchase of service agreement with the Superintendent of Public Instruction from funds appropriated for such services. The Superintendent of Public Instruction shall provide the necessary documents required by the federal government pursuant to this section to support the state's claim for federal reimbursement and shall certify that the school district, community college district, or other organization providing the care, has available the accounting records and other supporting documents to justify the claim for reimbursement and that such records are available for audit by the State Controller and by any authorized federal agency.

8207. As used in this chapter, "parent" includes any person having legal custody of a child.

8208. The term "workday" is defined as that time the parent requires temporary care for a child for any of the following reasons:

- (a) To undertake training in preparation for a job.
- (b) To undertake or retain a job.

(c) To undertake other activities which are essential to maintaining or improving the social and economic function of the family, are beneficial to the community, or are required because of health problems in the family.

8209. For the purposes of this chapter, "cost" shall mean all program costs that are related to the operation of child development programs. "Cost" shall include the state contribution and the school district's or community college district's portion of retirement costs, a pro rata share of the district's overhead, and any other program-related cost.

8210. Child development facility means any facility providing child care services pursuant to this division for less than 24 hours a day consistent with Section 8243 pursuant to this chapter.

8211. Child development services means child care provided for any part of a workday by public or private agencies and may include, but is not limited to, the following:

- (a) Developmental activities for prekindergarten children which are not a part of the formal school program but which will prepare them for effective matriculation into the formal school programs within the community and shall include, but not be limited to, practical life, sensorimotor, perceptual discrimination, language

development and symbol-formation activities.

(b) Full- or part-day supervision, developmental activities and instruction for children 14 years of age or younger in a program approved pursuant to this division.

(c) Full- or part-day supervision and developmental activities for children five years of age or younger in a program approved pursuant to this division.

(d) Full- or part-day supervision, developmental activities and instruction of children 14 years of age or younger, for less than 24 hours a day, in a home licensed pursuant to Section 1310 of the Health and Safety Code.

(e) Instruction in children's developmental activities for parents with prekindergarten children.

(f) Social services as necessary to insure parent-child adjustments to out-of-home-care situations, child development referral services, child placement counseling and other support services when the parent is employed, in training, or physically or mentally incapacitated.

(g) Health screening and health treatment to the extent provided by the Medi-Cal Act (Chapter 7 (commencing with Section 14000) of Part 3 of Division 9 of the Welfare and Institutions Code).

(h) Nutrition services to provide a balanced diet to needy children enrolled and instruction of food buying and preparation to the parents of children within the child development program.

(i) Night shift or late-hour supervision and developmental activities for children 14 years of age or younger in a program approved pursuant to this division.

(j) A nutritionally adequate breakfast or a nutritionally adequate lunch, or both.

For purposes of this article, a nutritionally adequate breakfast or lunch is a breakfast or lunch which meets one-third of the daily dietary allowance as established by the National Research Council. Where both breakfast and lunch are provided, they shall, together, provide one-half to two-thirds of this recommended daily dietary allowance.

8212. The term "elementary school" contained in Section 425 of Title 20 of the United States Code (the National Defense Education Act of 1958, Public Law 85-864, as amended) shall include early childhood education programs and preschool classes, including preschool classes in children's centers, for the purpose of the cancellation provisions of the Loans to Students in Institutions of Higher Learning.

8213. Applicant or operating agency means a school district, or community college district, county superintendent of schools, county, city, public agency, private non-tax-exempt agency, private tax-exempt agency, or other entity which is authorized to establish, maintain or operate services pursuant to this division. Private agencies and parent cooperatives, duly licensed by law, shall receive the same consideration as any other authorized entity with no loss of

parental decisionmaking prerogatives as consistent with the provisions of this chapter.

## Article 2. Administration

8240. The Department of Education shall develop and promote a full range of services as are essential to the creation of a child development program which will meet a wide variety of child needs. The range of services shall include as a minimum, all of the services listed in Section 8211.

Priority shall be given by the Department of Education to the employment of persons in child development programs with ethnic backgrounds which are similar to those of the child for whom child care services are provided.

8242. The Department of Education shall assist the state Departments of Employment Development, Benefit Payments, and Health by offering training and job opportunities in local child development programs for recipients of public assistance and to those persons who qualify under federal regulations as former, current or potential recipients of public assistance.

8243. The Superintendent of Public Instruction shall be responsible for the formulation, promotion, approval, and monitoring of a variety of child development programs and delivery systems in all communities of this state where the need therefor exists. The Superintendent of Public Instruction may continue or adapt child development programs currently contracted with the Department of Education pursuant to this division. Such programs shall provide child development services at the minimum cost possible consistent with required quality of service and the specific needs of the particular child.

8244. The Superintendent of Public Instruction shall, within the limitation of funds allocated for such purpose, enter into agreements with appropriate applicant or operating agencies for the establishment, maintenance or operation of child development services pursuant to this division. The Superintendent of Public Instruction may also enter into agreements with any public or private agency for the furnishing of property, facilities, personnel, supplies, equipment, and other necessary items.

8245. The Superintendent of Public Instruction shall adopt rules and regulations that provide for procedures and standards for the accreditation of neighborhood family day care homes. Neighborhood family day care homes may be accredited by the school district in which the home is located in accordance with the rules and regulations of the Superintendent of Public Instruction. Any neighborhood family day care home accredited by a school district shall be exempt from licensure required by the provisions of Chapter 3 (commencing with Section 1500) of Division 2 of the Health and Safety Code.

8246. The Superintendent of Public Instruction shall be

responsible for the formulation and conducting of public hearings essential to the establishment and promotion of all aspects of this division and shall be responsible for preparing any state plan required by federal law in order that this state may qualify for any federal funds available for the care of children.

8247. The Superintendent of Public Instruction shall provide the Director of Finance and the State Controller with a basic plan for the filing of claims and for reimbursement for the distribution of any federal funds which are received by this state for child development services. The Superintendent of Public Instruction and the State Controller shall establish the necessary plans to advance funds received from the federal government in order that the various school districts, or community college districts, county superintendents of schools or other authorized organizations will be able to provide the child development services described by this chapter.

8248. The Superintendent of Public Instruction shall adopt rules and regulations which shall include standards for determining eligibility and priority of service. Children who qualify for services pursuant to programs which are in whole or in part federally funded shall have first priority. Former, current or potential recipients shall be defined as those persons for whom federal reimbursement for care of children is allowed by any federal law or regulation relative to services to children or for child care or child development. The information necessary to establish eligibility of a child for federal reimbursement shall be completed as a part of intake procedures used in accepting a child for care or service.

In the event the superintendent is forced to curtail services, because of a lack of or limitation placed upon the availability of federal funds to carry out the purposes of this chapter, he shall reduce the scope of the program by giving priority for services to those persons who are engaged in a federal- or state-mandated education or training program.

The regulations formulated and promulgated pursuant to this section shall include the recommendations of the Department of Health relative to health care screening and the provision of health care services. The Superintendent of Public Instruction shall seek the advice and assistance of these health authorities in situations where service under this chapter includes or requires care of ill or handicapped children.

This section shall become operative on the same date as Reorganization Plan No. 1 of 1970 becomes operative.

8249. The Superintendent of Public Instruction shall establish a fee schedule for families utilizing child development services pursuant to this division. No recipient of public assistance shall pay a fee. The schedule shall define fees as a proportionate share of actual or maximum reimbursable program costs, whichever is less. This fee schedule may conform to and be an extension of that allowed by the federal social service regulations. If, when, and during such times as

the United States government increases the minimum and maximum income levels according to which federal regulations assess fees for social services, this fee schedule may be increased by the amounts permitted.

The fees assessed under this schedule shall begin at 10 percent of program costs for families whose gross monthly income, less thirty dollars (\$30), is 151 percent of the aid for families with dependent children payment standard and progresses proportionately to 50 percent of program costs for families whose gross monthly income, less thirty dollars (\$30), is 300 percent of the aid for families with dependent children payment standard. The aid for families with dependent children standard as referred to in this section is as defined within Section 11450 of the Welfare and Institutions Code. The further extension of this fee schedule shall be limited to families eligible to participate in the pilot study pursuant to Article 3 (commencing with Section 8280) of this chapter. The fee schedule as described within this section shall apply without priority statewide to the following family groups:

(a) Families who meet all federally eligible tests and whose gross monthly income, less thirty dollars (\$30), ranges from 151 percent to 233 $\frac{1}{3}$  percent of the aid to families with dependent children payment standard.

(b) Families who qualified as federally eligible during the 1972-73 fiscal year but lose federal eligibility because of changes in the federal social service regulations and include the following subgroups:

(1) Families with a gross monthly income equal to or less than 150 percent of the aid to families with dependent children payment standard whose loss of federal eligibility is based on factors other than income;

(2) Families whose gross monthly income, less thirty dollars (\$30), ranges from 151 percent to 233 $\frac{1}{3}$  percent of the aid to families with dependent children payment standard whose loss of federal eligibility is based on factors other than income; and

(3) Families whose gross monthly income, less thirty dollars (\$30), exceeds from 233 $\frac{1}{3}$  percent but is less than or equal to 300 percent of the aid to families with dependent children payment standard.

The hours of service available to families eligible under subdivision (b) shall not exceed the appropriation for such hours within subdivision (a) of Section 32 of the act which added this section. Priorities for allocation of hours within subdivision (b) shall be: first, families with incomes less than 233 percent of the aid to families with dependent children payment standard, and secondly, single parent families.

(c) Other low-income or disadvantaged families who do not qualify as current, former, or potential public assistance recipients under federal regulations in effect during the 1972-73 fiscal year.

The hours of service available under subdivision (c) shall not exceed the total hours utilized by families qualifying for services

within this category during the 1972-73 fiscal year. For the purposes of this section, the costs of child development services reimbursable under this fee schedule shall not exceed cost standards for services as established by the Superintendent of Public Instruction and such services must meet reasonable and uniform standards pursuant to Section 8251.

For purposes of this section, monthly family income for families eligible to services in migrant day care centers shall be defined as the average of monthly income received during the preceding calendar year.

The Superintendent of Public Instruction shall establish guidelines according to which the director or a duly authorized representative, of the child development centers will certify children as eligible for state reimbursement pursuant to this section. Until such time as the Department of Education receives the single state agency waiver pursuant to Section 8205, the Superintendent of Public Instruction, in cooperation with the Secretary of the Health and Welfare Agency or his designee and the Director of the Department of Social Welfare, shall establish guidelines to permit the director of a child development service to submit names of federally eligible candidates with supporting documents to the appropriate person at the county welfare departments so that these candidates may be verified as federally eligible pursuant to the requirements of the social service regulations.

This section shall remain in effect only until July 1, 1976, and as of that date is repealed.

8250. Notwithstanding any provision of law to the contrary, the Regents of the University of California, the Trustees of the California State University and Colleges, the governing boards of community college districts, and the governing bodies of any private nonprofit institution of postsecondary education may establish and maintain child development centers on or near their respective campuses.

The Department of Education may accept funds from the Regents of the University of California, the Trustees of the California State University and Colleges, the governing boards of community college districts, any other private nonprofit postsecondary institutions, student fees, parent fees, and any private funds or resources authorized by a public or private nonprofit agency as the 25-percent local share to obtain the 75-percent state matching funds. The governing board of any postsecondary education institution shall establish in its treasury a fund to be known as the "child development fund" into which shall be paid all funds received by the postsecondary institution for, or from the operation of, child development services under this division. The costs incurred in the maintenance and operation of child development services shall be paid as required pursuant to Section 8328.

The Superintendent of Public Instruction shall adopt rules and regulations to facilitate the funding and reimbursement procedures required by this division.

The Superintendent of Public Instruction, with approval by the State Board of Education, shall establish rules and regulations governing programs operated pursuant to this section which shall insure that subsidized day care provided to student families shall relate to the academic load of the child's parents. The definition of full- and part-time student shall be determined as the segment of postsecondary education defines full- and part-time student for academic purposes.

8250.1. A student family, for the purposes of this division, shall be defined as a family with a parent enrolled in an approved academic or vocational program, including one engaged in an educational work-in-training program, leading to a degree which will either further that person's educational or employment potential, or both.

A low-income student family, for purposes of this division, shall be defined as a family whose gross monthly income, less sixty dollars (\$60), is equal to or less than 300 percent of the Aid for Families With Dependent Children Program's minimum basic standard of adequate care.

8251. The Superintendent of Public Instruction shall establish reasonable standards and maximum reimbursement rates for the delivery of specific types of child development services pursuant to Section 8211 and consistent with Section 8243. No child development program shall be approved or maintained for the 1974-75 fiscal year unless the program costs are within these reimbursement rates and meet these reasonable standards.

The Superintendent of Public Instruction may establish such regulations as he deems advisable concerning conditions of service and hours of enrollment for children in the programs.

8252. No standard, rule or regulation shall require medical examination or immunization for admission to a children's center of a child whose parent or guardian files a letter with the governing board of the school district stating that such medical examination or immunization is contrary to his or her religious beliefs, or provide for the exclusion of a child from the center because of parent or guardian having filed such a letter; provided, however, that whenever there is good cause to believe that a child is suffering from a recognized contagious or infectious disease, the child may be temporarily excluded from the center until the governing board of the school district or community college district is satisfied that any contagious or infectious disease does not exist.

8253. The State Board of Education shall prescribe minimum educational standards for child development programs under this chapter and it shall be the responsibility of the Department of Education to see that such standards are complied with in all programs established.

8254. The Governor shall appoint an advisory committee composed of one representative from the State Advisory Health Council, one representative from the Department of Employment Development, one representative from the State Board of

Education, one representative from the State Benefit Payments Board, one representative of the Director of Education, one representative of the Director of Benefit Payments, one representative of the Director of Health, and one representative of private education, one representative of child welfare, one representative of private health care, one representative of a proprietary child care agency, one representative of a community action agency qualified under Title II of the Economic Opportunity Act of 1969, and five parents of children participating in the program appointed from names selected by a democratic process to assure representation of the parents of children being served, and three persons representing professional or civic groups or public or nonprofit private agencies, organizations or groups concerned with child development programs.

The advisory committee shall assist the Department of Education in developing a state plan for child development programs pursuant to this division.

The advisory committee shall continually evaluate the effectiveness of such programs and shall report thereon at each regular session of the Legislature.

A "proprietary child care agency" is an organization or facility providing child care, which is operated for profit.

8255. The Superintendent of Public Instruction shall arrange for the employment of the community social service personnel deemed necessary to provide the home care recruitment activities, child placement services, and the parent counseling services for those parent-child adjustment problems which arise. Such personnel shall be assigned in relation to the need therefor.

8256. (a) The Superintendent of Public Instruction shall establish standards for the qualification of child development facilities as places of instruction and on-the-job training in preschool and child development services for persons fulfilling requirements for teaching credentials and permits and persons enrolled in child development courses, subject to approval by the Trustees of the California State University and Colleges and the Board of Governors of the California Community Colleges. The standards shall be so designed that credit given for such instruction of community college students and on-the-job training courses may be accepted towards degrees offered by both the California State University and Colleges and the community colleges.

(b) To the extent that there are child development facilities qualified under subdivision (a), the California State University and Colleges, the community colleges, and school districts may conduct instruction in preschool and child development services at such child development facilities, pursuant to contracts with the body operating the child development facilities. Such contracts shall include provision for the payment of all costs of operation as related to the state universities and colleges, the community colleges, or the school districts, including overhead costs.

## Article 3. Pilot Study

8280. The Legislature declares the need for a two-year pilot study to develop and test a coordinated child care delivery system which shall provide the parent a choice in selecting quality child care at costs responsive to the parent's willingness and ability to pay.

The objectives of the pilot study shall include but not be limited to the following objectives:

(a) To measure the effectiveness and efficiency of a delivery system which permits the eligible parent to select and purchase child care services based on a fee schedule requiring the parent to pay a proportionate share of the child care costs; to determine the existing types of care and range of services; to measure changes in the use of these services and development of alternate types of care as determined by parent choice; to stimulate a variety of alternate child care resources; to describe the demographic characteristics of the population seeking these services and their incidence by type of service selected; to assess the costs of delivering these services.

(b) To determine the applicability of the fee schedule described in Section 8249, to define the income level at which the fee schedule no longer applies as measured by its limited utility in aiding low-income families to obtain or maintain employment; to define appropriate eligibility criteria and priorities for services; and to define appropriate standards for cost and quality of types of care and services.

(c) To develop and evaluate appropriate eligibility and certification procedures and parent fee payment procedures; to identify informational needs and accountability requirements of the child care delivery system; to develop and evaluate appropriate monitoring and accountability mechanisms required by the system.

(d) To develop the management guidelines, policies and techniques for administering the system statewide and to develop strategies for phasing out the existing system and introducing the new on a statewide basis.

8281. (a) The site for the pilot study shall be selected according to the following criteria:

(1) It is representative of the majority of the population requiring subsidized child care services throughout the state.

(2) It has a documented demand for child care services;

(3) The facilities and range of services are typical of those occurring throughout the state; and

(4) It has a documented interest in alternate child care arrangements and delivery systems.

(b) Eligibility to participate in the pilot study shall be limited to those families residing within the pilot study area who are: (1) current recipients of Aid for Families with Dependent Children, (2) defined within subdivisions (a), (b), and (c) of Section 8249, and (3) require child care services to obtain or maintain employment or training and whose gross family income falls within the limits of the

fee schedule as developed by the pilot study consistent with the objectives specified within subdivision (b) of Section 8280. The number of families eligible to participate within subdivision (b) (3) of this section shall be limited by the funds appropriated for the pilot study within Section 32 of the act which added this section and may not exceed 1,200 families or approximately 1,800 children.

(c) The eligibility of an agency or entity as defined within Section 8213 to provide child care services under the pilot study to eligible families residing within the study area shall be contingent upon (1) its selection by the eligible family and (2) its conformity to standards and regulations developed by the pilot study and consistent with this division.

8282. The Department of Education shall administer the pilot study described within Sections 8280 and 8281. The Superintendent of Public Instruction shall be responsible for conducting continuous evaluation of the study, and providing technical assistance to encourage development of child care resources within the pilot study area. He shall report to the Legislative Budget Committee the plan for implementing this pilot study no later than 45 days following the effective date of the act which added this section. He shall submit a progress report on the status and evaluation of the pilot study no later than June 1, 1974, and every six months thereafter until the conclusion of the study.

A final report shall be submitted to the Legislature by the Superintendent of Public Instruction on or before January 1, 1976, and such report shall include the results of the study and recommendations for implementing a coordinated, statewide child care delivery system based on these results.

8283. The Director of the Department of Finance and the Secretary of the Health and Welfare Agency or their designees shall serve in an advisory capacity to the Superintendent of Public Instruction for the purpose of reviewing, monitoring and evaluating the pilot study plan, implementation, and progress pursuant to Sections 8280 and 8281. The results of this review and evaluation shall be submitted to the Legislature with the reports required of the Superintendent of Public Instruction pursuant to Section 8282.

8284. The planning phase of this pilot study shall begin within 15 days of the effective date of the act which added this article. Implementation of the study within a selected test site shall begin no later than February 1, 1974, and shall continue through June 30, 1976.

8285. This article shall remain in effect only until July 1, 1976, and as of that date is repealed.

#### Article 4. Local Programs

8320. The governing board of any school district or community college district or a county superintendent of schools with the approval of the county board of education is authorized to establish and maintain child development programs upon the approval of, and

subject to the regulations of the Superintendent of Public Instruction.

8321. The county superintendent of schools in each county, with the approval of the county board of education and the Superintendent of Public Instruction, shall have the authority to establish and maintain children's centers in the same manner and to the same extent as governing boards of school or community college districts, except that nothing in this section shall be construed as vesting in the county superintendents of schools any authority to alone effect the levy and collection of any county, school, or other local taxes for the support of any such centers.

The establishment and maintenance of any children's center by the county superintendent of schools shall be undertaken, subject to the prior approval of both the county board of education and the Superintendent of Public Instruction, upon the application of one or more school districts under his jurisdiction, and such maintenance shall be upon such terms and conditions as may be provided for in a written contract entered into between the county superintendent of schools and the governing board of any such district.

8322. The governing board of any school district or community college district or the county superintendent of schools may accommodate in a child development facility maintained by it children residing in another district, upon such terms and under such conditions as may be agreed upon by the governing boards of both districts.

8323. The governing board of any school district or community college district or the county superintendent of schools may permit the use of and furnish maintenance for buildings, grounds, and equipment, and the use of existing administrative personnel for the purposes of this chapter.

8324. The employees of school districts or community college districts, or county superintendents of schools in preschool and other types of child development services under this division shall have the same rights and privileges as are granted to employees of the same agencies in children's centers.

8325. The governing board of any school district or community college or the county superintendent of schools may adopt such reasonable rules and regulations governing the child development services or facilities maintained by it as are not in conflict with law or the standards and regulations established for child development services by the Superintendent of Public Instruction.

8326. Notwithstanding any other provisions of this division, a public or private agency, a school district, a community college district or a county superintendent of schools operating child development facilities may enter into an agreement with the Department of Employment Development which will provide an opportunity to participants in work incentive programs under Division 2 (commencing with Section 5000) of the Unemployment Insurance Code for training in child development facilities. Training

pursuant to such agreement shall have the objective of preparation for a career in the field of child care.

8327. Notwithstanding any other provision of this chapter, the governing board of a school district or community college district maintaining a child development facility may enter into agreements with any city, city and county, or other public agency, or with a private foundation, nonprofit corporation, or proprietary child care agency as defined in Section 8254 for the furnishing to, or use by, the governing board in carrying out the provisions of this chapter, of property, facilities, personnel, supplies, equipment and other necessary items and such city, county, city and county, other public agency, or private foundation or nonprofit corporation, is authorized to enter into such agreements.

8328. The governing board of any school district or community college district or the county superintendent of schools shall establish in the county treasury a fund to be known as the "child development fund" into which shall be paid all funds received by the district or the county for, or from the operation of, child development services under this division. The costs incurred in the maintenance and operation of child development services shall be paid from the fund, with accounting to reflect specific funding sources.

No other funds of a district derived from the receipt of district taxes or derived from moneys apportioned to the district for the support of schools thereof, except state moneys appropriated for the support of child development services, fees, and federal funds, may be expended for, or in connection with child development services.

8329. The governing board of any school district or community college district maintaining a children's center program may include in its budget the amount necessary to carry out its program pursuant to this chapter and the board of supervisors shall levy a district tax or a county tax necessary to raise such amount. The tax shall be in addition to any other district tax or county tax authorized by law to be levied.

The revenue derived from taxes levied pursuant to this section may be used to purchase real property and fixtures, to make alterations or additions to existing buildings, and to purchase furniture, apparatus or equipment for children's center facilities maintained by the taxing district. As used in this section, "purchase" includes the acquisition of property under a lease-purchase agreement.

8330. The county superintendent of schools maintaining a children's center program may include in its budget the amount necessary to carry out its program pursuant to this chapter. The county board of supervisors shall levy a county tax necessary to raise such amount in only those school districts, or community college districts the governing board of which has entered into a contract with the county superintendent of schools for the maintenance of a children's center program pursuant to Section 5321. Such tax shall be at a rate not to exceed ten cents (\$.10) per one hundred dollars

(\$100) of assessed valuation and shall be in addition to any other county tax authorized by law to be collected.

#### Article 5. Children's Centers, Qualifications

8360. The governing board of a school district or community college district shall employ in a children's center only such persons who hold permits issued by the Commission for Teacher Preparation and Licensing. Any person holding a teaching credential issued by the State Board of Education or commission is deemed to hold a regular children's center permit that will authorize supervision and instruction of children or supervision of a children's program. The filing with the county superintendent of schools of a regulation of a governing board or a public health agency requiring a physical examination of persons employed in centers shall be deemed to be the issuance of a valid permit except for persons employed in positions pertaining to the supervision and instruction of children or supervision of a program. Each person employed by the governing board of a district for a position requiring a permit shall, not later than 95 days after the date fixed by the governing board of the district for the commencement of his service, file with the county superintendent of schools a valid permit issued on or before such date, authorizing him to serve in a position for which he was employed, and must, not later than 95 days after the renewal thereof, file the renewed permit in the same manner.

8361. Notwithstanding any other provision of law, a high school student or any other adult shall be selected by the governing board of a school district or a community college district or a county superintendent of schools to serve as nonteaching personnel as provided in Section 8242 to perform noninstructional work. A career ladder shall be utilized in the employment and promotion of such noninstructional personnel. Each such person shall have had a health examination made within the 12-month period preceding the date of employment. Each person shall also submit duplicate personal identification cards upon which shall appear legible fingerprints and a personal description of the applicant.

8362. The same fee as that prescribed for a credential provided in Section 44235 or 87272 shall be charged for either the issuance or renewal of each children's center permit authorizing service in the supervision and instruction of children in the children's centers or authorizing service as a supervisor in a program.

8363. Children's center permits issued to persons employed in positions pertaining to the supervision and instruction of children or supervision of a children's center program may consist of two types, regular and provisional. Requirements for each type of permit shall be prescribed by the Commission for Teacher Preparation and Licensing.

8363.5. A special child development permit shall be issued to any person employed as a supervisor, head teacher, or teacher by an

agency conducting a child care and development program under contract with a county who did not meet the requirements for an emergency instructional permit authorizing service in children's centers or a supervisor's permit with postponement of requirements authorizing service in a children's center in effect on October 15, 1974. A special child development permit issued pursuant to this section shall be valid for 36 months after its date of issuance. Within the 36-month period following the date of issuance of such a permit:

(a) A person employed as a head teacher or teacher who has completed 30 semester hours of coursework taken in an approved institution, including 12 semester hours of coursework in subject fields related to early childhood education, shall be issued an emergency instructional permit authorizing service in a children's center and be subject to the term and renewal regulations in effect on October 15, 1974.

(b) A person employed as a supervisor who has obtained a bachelor's degree from an approved institution and completed at least 12 semester hours of coursework in subject field related to early childhood education shall be issued a supervision permit with postponement of requirements authorizing service in children's centers and be subject to the term and renewal regulations in effect on October 15, 1974.

It is the intention of the Legislature that this section be liberally interpreted to insure that those experienced and qualified persons employed in county contract day care centers prior to July 1, 1974, maintain their positions and be given ample opportunity to upgrade their skills to meet revised educational standards.

8364. Service under a provisional permit shall not be included in computing the service required as a prerequisite to attainment of, or eligibility to, classification as a permanent employee of a children's center. Such persons employed on the effective date of Chapter 1717 of the Statutes of 1965 and who have been employed for three consecutive years prior to the effective date of this legislation shall be deemed to have met the requirements for a regular permit and shall not be subject to the requirements of a provisional permit.

8365. Each county or city and county board of education or community colleges board may issue temporary certificates for the purpose of authorizing salary payments to children's center employees whose children's center permit applications are being processed. The applicant for such a temporary certificate shall make a statement under oath that he has duly filed his application for a permit together with the required fee and that to the best of his knowledge no reason exists why he should not be issued a permit. Such certificate shall be valid for not more than 90 schooldays and only until the permit originally requested is either issued or denied by the Commission for Teacher Preparation and Licensing.

8366. Each person employed by a school district or community college district in a position requiring a children's center permit for the supervision and instruction of children, or for service as a

physician, dentist, or nurse, or in the supervision of the children's center program, shall be deemed to be employed in a position requiring certification qualifications.

Each other person employed by a district in a children's center under the provisions of this division shall be deemed for all purposes, including retirement, to be a person employed by the school district or community college district in a position not requiring certification qualifications.

The provisions of Section 45053, 45054, 87826, or 87827 of the Education Code, as enacted by the Legislature at its 1959 Regular Session, shall not apply to employees in children's centers.

A district may lay off an employee required to have such a permit at any time during the school year for lack of work or lack of funds or may provide for his employment for not to exceed 90 days in any one school year on an intermittent basis which shall not be deemed probationary service. The order of layoff shall be determined by length of service. The employee who has served the shortest time shall be laid off first, except that no permanent employee shall be laid off ahead of a probationary employee. A permanent employee who has been laid off shall hold reinstatement rights for a period of 39 months from the date of layoff.

Service performed prior to the effective date of Chapter 2 of the Statutes of 1959 shall not be included in computing the service required as a prerequisite for attainment of, or eligibility to, classification as a permanent children's center employee.

A person who is employed by a district as a probationary employee in a position requiring a children's center permit for the supervision and instruction of children, or for service as a physician, dentist, or nurse, or in the supervision of the children's program and who has served in such a position for three complete consecutive school years as defined in Sections 44908 or 87468 and 44975 or 87776 of the Education Code, immediately prior to the effective date of Chapter 2 of the Statutes of 1959 may be dismissed only in accordance with the provision of Section 44949 or 87740.

Other persons who are employed as probationary employees in positions requiring such permits on or after the effective date of Chapter 2 of the Statutes of 1959 may be dismissed in accordance with the provisions of Section 44949 or 87740.

8367. Any city, county, or city and county charter provision to the contrary notwithstanding, each person employed by a school district or community college district on July 1, 1955, and each person employed by a school district or community college district on September 11, 1957, who was theretofore excluded, solely by reason of the provisions of the predecessor of Section 16766 in effect prior to July 1, 1955, or who was therefore excluded solely by reason of the provisions of the predecessor of this section prior to September 11, 1957, from membership in any retirement system in which the district participates or to which it contributes for the purpose of providing retirement rights and benefits for employees of the district

not employed in a status requisite for membership in the State Teachers' Retirement System, shall become a member of the retirement system from which he was excluded, on July 1, 1955, or on September 11, 1957, if theretofore excluded solely by reason of the provisions of the predecessor of this section in effect prior to that date. Every such member shall be entitled to credit for service in children's centers rendered prior to July 1, 1955, or prior to September 11, 1957, if theretofore excluded, and before he became a member of the system, in the same manner as if he had not theretofore been excluded from membership in the retirement system, except that he shall not be required to make any contributions to the retirement system in respect to such service rendered prior to his membership, and all contributions necessary to provide benefits on account of such service shall be paid to the retirement system by the school district by which the member is employed. For the purpose of computing benefits for services rendered prior to July 1, 1955, as provided in this section, the average monthly salary earned by such employee in the fiscal year 1954-55 shall be used and for the purpose of computing benefits for service rendered between July 1, 1955, and September 11, 1957, for members receiving credit for service between those dates under the provisions of the predecessor of this section as amended by Chapter 1238 of the Statutes of 1957, the average monthly salary earned by such employees in the fiscal year 1956-57 shall be used.

Notwithstanding any other provisions of this section, for the purpose of computing benefits for any person retired on and after January 1, 1958, for services rendered prior to July 1, 1955, as provided in this section, and for the purpose of computing benefits for services rendered between July 1, 1955, and September 11, 1957, for members receiving credit for service between those dates under the provisions of this section, the "final compensation" of such person shall be computed in the same manner as for other employees who are included in the same retirement system and in the same class of retirement system members and who are not affected by this section. The amendment to this section enacted at the 1963 session shall be applied to increase the allowances, payable subsequent to October 1, 1963, in respect to those members who retired on or after July 1, 1955.

Notwithstanding any other provision of this section no increased allowance shall be paid, as authorized by this section, to any person who has retired between July 1, 1955, and October 1, 1963, unless the person to whom the increase would otherwise be payable mails written application for the increase to the appropriate retirement system prior to April 1, 1964.

8368. Any person who is employed in a child care center on October 1, 1965, and who was brought into membership in a retirement system on October 1, 1963, notwithstanding his prior election pursuant to Section 8367 or the predecessor of such section 8367 as it read prior to October 1, 1963, not to be a member of such

system, shall have the same rights under such system with respect to his service in child care centers as he would have had under Section 8367 or the predecessor of such section had he elected thereunder to be a member of such system.

8369. Every employee of a children's center who before his employment in such center was employed by the district maintaining such center in a position entitling him to membership in, and who was a member of, the retirement system maintained by such district, and if such employee's contributions to such retirement system were returned to him when he was employed in the children's center, such employee shall have the right to elect, by written document filed with the Board of Administration, Public Employees' Retirement System, at any time within 90 days after the date upon which the notice of the right to make such election is mailed by such system, either to the member's latest address on file in the office of such system, or to the office of the governing board of such district or districts, and prior to the date of retirement, to contribute to such system, subject to minimum payments fixed by the board of administration, and in one or more sums, or in not to exceed 60 monthly payments, an amount which, when added to his accumulated contributions, including interest, transferred as required in paragraph (1) of subdivision (b) of Section 24810, will make a total amount equal to the accumulated contributions, including interest, which would have been credited to him in such plan, if he had never had his contributions returned to him. Such employee shall pay to the Public Employees' Retirement System interest on the unpaid balance of the amount payable to such system, beginning with the date of transfer, at the rate of interest currently used from time to time under the system. If such employee elects to make, and makes, such contributions and pays such interest, but not otherwise, he shall receive credit under such employees' system, as state service, for all prior service rendered while he was not a member of such plan.

8370. The Commission for Teacher Preparation and Licensing shall establish standards for the issuance of the permits herein provided for. Such standards may be changed from time to time, but changes therein shall not affect then valid permits issued to persons.

#### Article 6. State Support

8380. The maximum reimbursement level for child-hour cost within a child development program for children age two years or over shall be one dollar and five cents (\$1.05), or the actual program costs, whichever is less, minus parent fees. For children under two years of age in child development programs, the maximum reimbursement level shall be one dollar and twenty-five cents (\$1.25), or actual program costs, whichever is less, minus parent fees. Care of children under two years of age is not authorized where the local public health agency has certified that the facilities and services

are such as to endanger the health of the infant.

(a) For development centers for handicapped minors, the Superintendent of Public Instruction shall apportion state funds as provided in Section 6880.20.

(b) The amount apportioned to each applicant or operating agency shall be the agency's cost, as defined within Section 8209, or the maximum reimbursement level, whichever is less.

8381. The State Department of Education is hereby authorized to accept funds from the government of the United States and to apportion them to the governing board of such school districts, community college districts, or county superintendent of schools or other public or private agencies as conduct child development programs which are hereby authorized to accept such funds or funds from any other source for any of the purposes of this chapter and all such funds may be accepted subject to such conditions as will further the purposes of this division.

8382. Any money appropriated to be apportioned by the Department of Education, for the purposes of this chapter, to school districts, community college districts, or county superintendent of schools or other public or private agencies maintaining child development programs pursuant to this chapter and to the governing authorities of state institutions maintaining child development programs, shall be apportioned to such districts, county and governing authorities solely in accordance with the provisions of this chapter.

State allocations or apportionments shall be paid to school districts, community college districts, or county superintendent of schools or other public or private agencies on a monthly basis by the Superintendent of Public Instruction.

8383. Children regularly enrolled in a children's center who are absent on account of illness or quarantine shall be considered to be in regular attendance for the number of hours per day for which they are enrolled for the purpose of reporting attendance for state apportionments, whenever the school district or community college district certifies that such absence was on account of illness or quarantine and is verified by the district in such manner as the Superintendent of Public Instruction shall require. All attendance shall be recorded and reported in accordance with the requirements of the Superintendent of Public Instruction.

8384. Each county shall, as a minimum, maintain the level of expenditure for child care services provided by the county during the 1970-1971 fiscal year. Funds provided pursuant to this division are to be utilized to expand child development services to children by supplementing, and not supplanting, the county share of expenditures for child care services provided by county funds during the 1970-1971 fiscal year.

**Article 7. Infant Care and Development Services**

8390. The Superintendent of Public Instruction may, with funds appropriated for such purpose, enter into agreements with school districts or community college districts or county superintendents of schools for the establishment and maintenance of programs for the care and development of infants, and the training of students in their roles as parents, as part of the high school program.

8391. The State Board of Education shall adopt rules and regulations for the administration of such programs.

8392. Infant care and development services include, but are not limited to, the following:

(a) Supervision and group care, providing for the physical and emotional needs of the infant in a manner which conveys concern and engenders trust.

(b) Educational stimulation from the earliest development stages onward.

(c) Health screening and treatment.

8393. Services available to parents, in which other students may participate on an elective basis, shall include, but are not limited to, the following:

(a) Providing supervised infant care, designed to facilitate completion of the parents' high school program.

(b) The teaching of parenthood education by staff and trained volunteers.

(c) The teaching of family planning.

(d) The development in student parents, and in other participating students, of reasonable expectations regarding infant behavior in order to minimize parental frustration and consequent child abuse.

8394. In school districts or community college districts maintaining more than one high school, the governing board, after soliciting the opinions of student parents and other interested persons, shall determine the location of the infant care and development center.

Infant care and development centers shall be located within high school buildings or within such proximity to high school buildings as would ensure convenient access by student parents and other students.

8395. In implementing infant care and development programs, the Superintendent of Public Instruction shall give priority to children of families who qualify under federal regulations as former, current, or potential recipients of public assistance, and other low-income individuals.

Federal reimbursement shall be claimed for any child receiving services under this section for whom federal funds are available.

8396. The Department of Education may accept funds from school districts or county superintendents of schools as matching funds to maximize the funds available for the program.

8397. Notwithstanding any other provisions of law, infants whose parent or parents are high school students may attend infant care and development centers while their parents attend high school.

### CHAPTER 3. ADULT EDUCATION

#### Article 1. Legislative Intent

8500. The Legislature finds and declares that adult continuing education is essential to the needs of society in an era of rapid technological, economic, and social change and that all adults in California are entitled to quality publicly supported continuing education opportunities.

It is further the intent of the Legislature to fund adequately adult continuing education.

#### Article 2. Definitions

8510. Unless the context clearly requires otherwise, the definitions set forth in this article govern the construction of this chapter.

8511. "Adult basic education" is education in communication and computational skills to and including the 12th grade level, including English as a second language and citizenship.

8512. "Adult continuing education" is the education of persons enrolled in classes for adults in high school, unified, and community college districts.

8513. "Classes for adults" are classes without a college grade level designation organized primarily for persons 18 years of age or older.

8514. "Course approval" is the process of approval by either the Department of Education or the chancellor's office of the California Community Colleges.

8515. "Graded college classes" are classes which comply with the standards set forth in Sections 55000 to 55002, inclusive, of Title 5 of the California Administrative Code as it read on March 7, 1973.

8516. "Mutual agreement" means an agreement between two or more governing boards of districts.

#### Article 3. Functions of Continuing Education Programs

8530. Adult basic education is the responsibility of high school and unified school districts except in those instances where by mutual agreement the responsibility is assigned to a community college district.

8531. The high school diploma program is the responsibility of the high school and unified school districts, but courses leading to a high school diploma may be offered by a community college district pursuant to a mutual agreement.

8532. Vocational and occupational training and retraining

programs for adults may be made available in high school, unified, and community college districts by mutual agreement.

8533. Adult continuing education, including but not limited to, parent education, consumer education, civic education, education in special fields, and education in the arts and the humanities, may be made available in high school, unified, and community college districts by mutual agreement.

8534. Programs for adults involving 13th and 14th grade level course content are the responsibility of community college districts.

8535. When governing boards agree to transfer an existing program, up to two years shall be allowed for such a transfer in order to permit all legal and contractual obligations to be met and an orderly transfer to be made.

8536. The governing board of every district affected by this chapter shall make all reasonable efforts to reach a mutual agreement when such an agreement is required and shall develop procedures for this purpose.

8537. If a mutual agreement cannot be reached by the district governing boards, the points of disagreement shall be resolved by the State Board of Education and the Board of Governors of the California Community Colleges.

#### CHAPTER 4. ENVIRONMENTAL EDUCATION

##### Article 1. Policy

8700. The Legislature finds and declares that throughout the state and nation, there is a growing public awareness of the serious environmental and resource use problems facing mankind, and that the citizens of the State of California expect the educational institutions of this state to equip students with the knowledge and attitudes necessary to develop solutions to these problems.

8701. The Legislature further finds and declares that an informed public working for the common environmental good through its democratic institutions at all educational and professional levels and among all interested private parties can break the chain of destructive land use, restore land which has been improperly abused, and build balance and beauty into our cities of the future.

8702. The Legislature further finds and declares that an educational program is needed which is designed to build necessary attitudes of stewardship toward the maintenance of the quality of our common environment and to enable all citizens to use wisely, and not destructively, the resources at their disposal.

8703. The Legislature further finds and declares that without appropriate long-term funding, and without effective programs to encourage efforts and innovations at the school district level, and without needed materials and meaningful outdoor study opportunities, conservation education will remain a stepchild in the crowded family of public education.

8704. The Legislature further finds and declares that man has a moral obligation to understand the world in which he lives and to protect, enhance, and make the highest use of the land and resources he holds in trust for future generations, and that the dignity and worth of the individual requires a quality environment in which he can develop the full potentials of his spirit and intellect.

8705. The Legislature further finds and declares that conservation education should be a means of achieving an educational philosophy that will help each student develop a healthy attitude of personal responsibility toward his environment and its resources and provide him with the concepts, the knowledge, and the skills needed to contribute meaningfully to the decisionmaking process on issues involving the environment and its resources.

8706. The Legislature further finds and declares that in all grade levels, environmental facts should be taught as they relate to each other, rather than as isolated bits of information, and that students should become aware of the interrelated nature of living processes, gain understanding of ecological relationships and of the effect of human activities upon these relationships, and become sensitive to the interdependence of man and natural resources.

8707. It is the intent of the Legislature in enacting this chapter to encourage development of educational programs for teachers and students commensurate with the importance of protecting scarce resources and safeguarding the quality of our environment.

## Article 2. Conservation Education Service

8720. There is in the Department of Education the Conservation Education Service.

8721. The Conservation Education Service shall encourage the development of educational opportunities specifically related to the conservation, the interpretation, and the use of the natural resources of the State of California, including, but not limited to, the development of nature centers, the development of conservation and wildlife education camps, and the development of the educational curriculum in relation to the conservation of natural resources and factors affecting environmental quality.

8722. The Conservation Education Service shall have the following additional powers and duties:

(1) To assist school districts, community college districts, and county superintendents of schools in preparing teachers to present concepts of conservation, the effects of pollution and major land alterations on ecological systems, and the factors affecting the quality of the environment.

(2) To cooperate with and assist community colleges, state colleges, and the University of California in the development of preservice programs designed to prepare teachers to present concepts and facts relating to conservation, the effects of pollution and major land alterations on ecological systems, and factors

affecting the quality of the environment.

(3) To assist school districts, community college districts, and county superintendents of schools in the development or acquisition, or both, of materials relating to wise use of resources and environmental issues.

(4) To assist districts in the development of educational curriculum and educational opportunities for students, relating to the conservation of resources, factors affecting ecological systems and the quality of man's environment. Such opportunities may include but shall not be limited to, the development of outdoor education programs, nature centers, conservation and wildlife education camps, and participation in field trips.

(5) To establish and maintain a central library and repository for conservation education materials pursuant to Article 3 (commencing with Section 8730) of this chapter.

(6) To review and to evaluate each application for a grant to, or a contract with, institutions of higher education, state and local education agencies, regional educational research organizations, and other public and private agencies, organizations and institutions (including libraries and museums) under the terms of the Federal Environmental Education Act (Public Law 91-516), to support research, demonstration, and pilot projects designed to educate the public on the problems of environmental quality and ecological balance, except that no grant can be made other than to a nonprofit agency, organization or institution.

8723. The Conservation Education Service shall have such other powers and duties as shall be vested in it by law.

### Article 3. Conservation Education Library

8730. There is in the Department of Education a Central Library and Repository for conservation education materials. Such materials may be developed by private conservation groups, by industry, and by professional, scientific, and governmental sources.

8731. The purpose of the library shall be to serve as a master source of materials for the Conservation Education Service, public school districts, county superintendents of schools, and any regional conservation education centers which may be established.

8732. The department shall, in establishing the library, explore new methods in data processing, new library procedures, and new means for distributing materials to local school districts, county superintendents of schools, and any regional conservation education centers which may be established.

8733. The library shall thoroughly evaluate new materials for validity, pertinence, objectivity, and usefulness, and shall advise the state board in the adoption of textbooks in regard to meeting the requirements for conservation education.

8734. The Superintendent of Public Instruction, upon the recommendation of the Conservation Education Service, is

authorized to make planning and implementation grants to individual school districts, or groups of school districts, unified school districts, county superintendents of schools, the University of California, the state universities and colleges, and the community colleges to assist such entities in the development of programs and curriculum in conservation education.

#### Article 4. Grants for Conservation Education

8750. The governing board of any school district, a county superintendent of schools, the governing board of any community college district, and any regional conservation education center which may be established may apply to the Conservation Education Service for planning and implementation grants for purposes of conservation education.

8751. In applying for grants pursuant to Section 8750, the governing board of any school district, a county superintendent of schools, the governing board of any community college district, and regional conservation centers shall assign priority to programs of in-service training in conservation education for teachers through cooperation with appropriate community, state, and federal agencies and university and college teacher education programs.

8752. Public universities and colleges maintaining teacher education programs may apply to the Conservation Education Service for grants to support special programs designed to provide preservice training for teachers in environmental control and the wise use of resources.

8753. State and local agencies, including cities, counties, regional boards and commissions, and special districts may apply to the Conservation Education Service for grants for programs to enhance conservation education in the public schools.

8754. The Superintendent of Public Instruction, upon the recommendation of the Conservation Education Service, is authorized to make grants pursuant to this article. Grants may also be made for the development of materials for use in the public schools, for support of education programs, and for special assistance to school districts, any regional conservation education centers which may be established, or county superintendents of schools in conjunction with approved programs.

#### Article 5. Outdoor Science, Conservation, and Forestry

8760. The governing board of any school district or community college district may:

(a) Conduct programs and classes in outdoor science education and conservation education within or without the boundaries of the district and for that purpose employ instructors, supervisors, and other personnel and provide necessary equipment and supplies.

(b) Acquire and maintain real or personal property needed for

outdoor science education and conservation education programs and classes either within or without the boundaries of the district either by purchase, rental, lease, gift, or other means in the same manner as if the property were within the boundaries of the school district or community college district.

(c) Contract with the United States, the State of California, any city, county, city and county or school district or community college district therein, or any combination thereof for the joint operation and maintenance of such programs and classes in outdoor science education and conservation education or for assistance in their operation and maintenance.

(d) Transport or arrange transportation of pupils, instructors, supervisors or other personnel to or from places where such programs and classes are being conducted, whether within or without the district; provided, such transportation is within the state.

8761. Notwithstanding any other provision of this code, whenever an outdoor science program involves studies in marine science, the governing board of any school district or community college district or a county superintendent of schools may transport, or arrange transportation of, pupils, instructors, supervisors, or other personnel aboard U.S. Coast Guard approved vessels in the waters of the Pacific Ocean for distances not to exceed five miles westerly of any offshore island which is a part of the State of California.

8762. The governing board of any school district or community college district may:

(a) Conduct courses in forestry, and for that purpose employ instructors and supervisors of classes, and acquire necessary equipment.

(b) Acquire forest lands outside the boundary of the district by lease for a period not exceeding five years, or purchase or sell such lands in the same manner as lands within the boundary of the district are purchased or sold.

(c) Afforest and reforest, and plant trees, shrubs, and vines on such lands; or upon any public lands which may be placed at its disposal, and enter into contracts and agreements with the government of the United States, the state, or any political subdivision thereof for such purpose.

(d) Transport pupils, instructors, or supervisors of classes to or from classes or places where such work is being done, whether within or without the district, in the same manner and subject to the same limitations as in transporting pupils to and from school.

8763. The county superintendent of schools may, with the approval of the county board of education, enter into agreements with the governing board of one or more school districts or community college districts, to provide programs and classes in outdoor science education and conservation education for pupils in the district. Except as otherwise provided in this article, the agreement shall provide for the payment by the district of the actual cost of providing such programs or classes. The county

superintendent of schools shall transfer from the funds of the district to the county school service fund the amounts set forth in the agreement.

8764. The school district, or community college district, or districts entering into such agreements with the county superintendent of schools may agree to make capital outlay expenditures, as well as pay for the other costs of the program. Title to all property acquired by such capital outlay expenditures shall be vested in the office of the county superintendent of schools, and the participating school districts shall have no interest in such property, nor in the proceeds of any sale, lease, exchange, or other disposition of such property, unless the parties otherwise provide in the agreement which authorizes the acquisition of such property.

8765. Except as otherwise provided, all of the powers and duties authorized for governing boards of school districts or community college districts, by Section 8760 are powers and duties of the county superintendent of schools whenever, pursuant to this article, he provides programs and classes in outdoor science education and conservation education.

8766. The county superintendent of schools may, with the approval of the county board of education, acquire by gift and maintain real or personal property needed for such programs and classes with title thereto vested in the office of the county superintendent of schools. The school districts or community college districts participating in such programs and classes shall not be required to reimburse the county superintendent of schools for use of real and personal property which is acquired by gift.

8767. The county superintendent of schools may, with the approval of the county board of education, provide the coordination services authorized by Section 1703 in connection with programs and classes in outdoor science education and conservation education and the participating districts shall not be required to reimburse the county superintendent for the cost of such coordination services.

8768. Any such agreement between the county superintendent of schools and school districts or community college districts may provide for the purchase or lease of any real property necessary to conduct classes in outdoor science education and conservation education. If real property is purchased pursuant to such an agreement, title to such real property shall be vested in the office of the county superintendent of schools and the participating school districts and community college districts shall have no interest in such property, nor in the proceeds of any sale, lease, exchange, or other disposition of such property, unless the parties otherwise provide in the agreement which authorizes the acquisition of such property.

8769. The county superintendent of schools may, with the approval of the county board of education, lease any real or personal property for the purpose of care, teaching and training of physically handicapped or mentally retarded children at such time as the

property is not required for outdoor science education and conservation education, upon such terms and conditions as are agreed upon.

8770. The county superintendent of schools may, with the approval of the county board of education, convey any real property, title to which is vested in the office of the county superintendent of schools, to the United States of America in exchange for other real property of comparable value, upon such terms and conditions as are agreed upon.

8771. The county superintendent of schools may, with the approval of the county board of education, sell, lease, exchange, or otherwise dispose of real or personal property, title to which is vested in his office, pursuant to the same procedures as are established by law for the sale, lease, exchange, or other disposition of real or personal property by a school district or community college district. Unless otherwise provided in the agreement which authorized the purchase of such real or personal property, the proceeds of any such sale, lease, exchange, or other disposition of real or personal property shall be vested in the office of the county superintendent of schools.

8772. All proceeds from the sale, lease, exchange, or other disposition of real or personal property received by the county superintendent of schools pursuant to the provisions of this article shall be used for the purpose of acquiring other real or personal property for use in connection with programs and classes in outdoor science education and conservation education or to pay the cost of conducting such programs and classes. The school districts and community college districts participating in such programs and classes shall not be required to reimburse the county superintendent of schools for use of the real or personal property acquired with such funds nor shall they be required to reimburse the county superintendent of schools for any of the costs of conducting such programs and classes which are paid by the county superintendent of schools out of such funds.

8773. If during a period of five consecutive school years, no programs and classes in outdoor science education and conservation education are conducted by the county superintendent of schools pursuant to this article, all real and personal property, title to which is vested in the county superintendent of schools, and all proceeds from the sale, lease, exchange, or other disposition of such real and personal property, shall become part of the county school service fund and may be used for any purpose authorized by the laws applicable to the fund, unless the parties otherwise provide in the agreement which authorizes the acquisition of such property.

**PART 7. JOINT PROGRAMS, SERVICES, AND POWERS  
(COUNTIES, SCHOOL DISTRICTS, AND HIGHER  
EDUCATION)**

**CHAPTER 1. EXCHANGE OF TEACHING PERSONNEL**

**Article 1. Schools—California State University and Colleges**

10000. Notwithstanding any other provision of law, the Trustees of the California State University and Colleges and any school district or community college district may enter into an agreement for the exchange of personnel between a university or college and the district.

Nothing in this chapter shall be construed to limit the present authority of the parties, which exists by law, to participate in other agreements concerning the exchange, transfer, or temporary assignment of personnel.

10001. An agreement authorized by Section 10000 shall provide that an employee of the California State University and Colleges engaged in teacher training may assume the duties of one of the certificated employees of the district engaged in classroom teaching, and that the certificated employee of the district may assume the duties of the state university or college employee engaged in teacher training.

10002. The agreement may be entered into for a term of one semester, one school year, or such other reasonable duration as may be agreed upon by the trustees and the school district or the community college district.

10003. During such time as an employee has assumed duties in another entity, pursuant to this chapter, he shall continue to be an employee of the California State University and Colleges, or school district, or community college district as the case may be, for all purposes, including, but not limited to, salary, membership in a retirement system, tenure rights, and all other incidents of employment.

**Article 2. Teacher Training Exchange**

10010. The governing board of any school district, or community college district, a county board of education, or the State Department of Education may execute a contract with any California teacher-training institution whereby certificated personnel of the school district, county, or the State Department of Education may be assigned to the teacher-training institution for full-time or part-time duty for a period not to exceed one year.

Any teacher-training institution in California may execute a contract with the governing board of any school district, or community college district, a county board of education, or the State Board of Education whereby certificated personnel of the institution

may be assigned to school districts, community college districts, county boards of education, or the State Department of Education for full-time or part-time duty for a period not to exceed one year.

Any such contract shall provide for the payment, by the entity to which a person is assigned to the employer, of a sum equivalent to the salary and other employment costs of any such employee. In place of such payment, the contract may provide for the exchange of certificated personnel between the district, county, or State Department of Education and the teacher-training institution. Any such employee shall retain his status as an employee of the school district, community college district, county, State Department of Education, or teacher-training institution from which he is assigned in all respects during the period of such assignment.

### Article 3. Teacher Aides

10020. Nothing in this chapter shall be construed as preventing school districts from hiring, employing, or otherwise using teacher aides, instructional aides, or teacher-assistants under the terms of existing law and financial support formulas. The commission may study the various roles of such paraprofessionals and routinely report its findings.

Public and private colleges, universities, and community colleges may develop cooperative programs with school districts or school governing boards to place undergraduate and graduate students in public and private classrooms as teacher aides or assistants. Such assignment may be, at the discretion of the institution, the basis for securing college credit.

A certificate to serve as a temporary teacher-assistant shall be issued, by the county superintendent of schools of the county in which service is to be rendered, to the holder of a recommendation from an accredited college, university, or community college. The certificate shall authorize the holder to serve as a teacher-assistant. No such certificate shall be granted for a period exceeding two years.

The teacher-assistant certificate shall not be used in lieu of a teaching credential. The holder of such a certificate shall work under the immediate supervision of a credentialed classroom teacher to whom the teacher-assistant is assigned, who shall be present in the classroom while the teacher-assistant is performing his classroom duties or who shall be available at all times to provide guidance and direction to the teacher-assistant.

## CHAPTER 2. DEMONSTRATION PROGRAM

10100. The Legislature recognizes that there are several hundred thousand California schoolchildren whose primary languages are not English. These children have shown their ability to perform in bilingual-crosscultural classes and large amounts of money are now available to expand the number of bilingual classrooms. The

Legislature recognizes, furthermore, that there is an insufficient number of qualified bilingual-bicultural teachers to staff present projects, and that many more such teachers will be needed as the new projects are established. It is, therefore, the intent of this chapter to establish programs designed to rapidly produce teachers who are fully bilingual, who are sensitive to cultural differences and knowledgeable about the origins of such differences, who can serve as models for these children to emulate, and who will qualify for credentials in bilingual-crosscultural education. Bilingual-bicultural teacher aides and the presently underutilized certificated teacher force shall be primary manpower sources for this program.

10101. The Commission for Teacher Preparation and Licensing shall develop, on or before January 15th of each year, a status report on local, state, and federally funded bilingual-crosscultural teacher preparation programs. Such report shall be made to the Legislature not later than February 15th of each year. The Board of Governors of the California Community Colleges, the Trustees of the California State University and Colleges, and the Regents of the University of California shall, by November 15 of each year, report to the Commission for Teacher Preparation and Licensing with reference to their programs in bilingual-crosscultural teacher training. Such report shall include information on special classes or programs leading to a bilingual-crosscultural teaching credential, preservice or in-service programs offered by these institutions to bilingual-bicultural teachers or teacher aides, and the number of persons enrolled in such programs.

10102. The Commission for Teacher Preparation and Licensing shall design career ladder programs which will allow bilingual teacher aides to become fully certificated bilingual teachers. This program shall provide grants for tuition and living expenses to needy applicants for part-time or full-time attendance at any public institution of higher education in California. Up to two years of credit toward credential requirements may be allowed for experience within the classroom as a teacher aide. The career ladder programs shall be adopted by regulations promulgated by the Commission for Teacher Preparation and Licensing and subject to Section 44232.

10103. The Commission for Teacher Preparation and Licensing shall, with the assistance of a representative appointed by the Superintendent of Public Instruction, the Chancellor of the California Community Colleges, the Chancellor of the California State University and Colleges, the President of the University of California, and with five presently practicing teachers appointed by the Superintendent of Public Instruction, design a comprehensive language and culture curriculum for teachers who are already certificated. Such curriculum shall be designed to enable teachers to qualify for the bilingual-crosscultural specialist credential. Initial programs to assist on the development of this shall be offered at not less than five public institutions of higher education in California, beginning not later than September 1, 1974.

10104. There is hereby established a Bilingual Teacher Development Grant Program. The Scholarship and Loan Commission shall administer the Bilingual Teacher Development Grant Program in accordance with general policies established by the Commission for Teacher Preparation and Licensing. Candidates shall be evaluated according to criteria developed by the Commission for Teacher Preparation and Licensing. Not less than 75 percent of the funds available for grants shall be awarded to bilingual aides participating in the career ladder program prescribed in Section 10102. Remaining funds shall be available to needy teachers who are enrolled in the curriculum prescribed in Section 10103.

10105. The Board of Governors of the California Community Colleges, the Trustees of the California State University and Colleges, and the Regents of the University of California shall, within their respective systems, establish a policy of recruitment and appointment of professors of bilingual-crosscultural education by June 1, 1974.

10106. The Department of Education shall serve as a clearinghouse for bilingual-bicultural teaching personnel, and shall, upon request, assist school districts in the recruitment of such personnel.

The Department of Education shall prepare a five-year projection on the needs for bilingual-crosscultural teaching personnel, which shall be submitted to the Legislature by September 1, 1974, and may be updated annually thereafter.

10107. This chapter shall be operative until July 1, 1979, and as of that date is repealed.

### CHAPTER 3. FAMILY LIFE EDUCATION PROGRAMS

10200. The Legislature hereby finds and declares that teachers who provide instruction in family life education should have professional preparation in this subject area and that teacher training courses and in-service training programs in family life education should be provided by appropriate teacher training institutions.

10201. It is the intent of the Legislature that the University of California and the California State University and Colleges shall, to the extent feasible, and, in cooperation with the Department of Education, and the board of governors undertake to develop and expand programs in family life education as part of their secondary and elementary teacher education curriculum.

10202. The Department of Education and the board of governors shall, to the extent feasible, cooperate with teacher education institutions and with local school districts and community college districts in the development of effective in-service teacher training programs in family life education for teachers who may provide family life education instruction at either the elementary or secondary school level or in community colleges.

10203. The department and board of governors shall utilize, for

the purposes specified in this chapter, all federal funds which may be available therefor.

## CHAPTER 4. INSTITUTES

### Article 1. Certificated Employees

10300. The superintendent of schools of every county in which there are 20 or more school districts, and of every city and county, and of every city school district governed by a city board of education and employing 70 or more teachers, may hold an annual teachers' institute in each year.

10301. In any county in which there are less than 20 school districts, the county superintendent of schools may hold an annual teachers' institute.

10302. The superintendents of schools of counties, or cities and counties, or city school districts may unite for the purpose of holding a joint teachers' institute, and shall direct the teachers of their respective counties, cities and counties, or city school districts to attend the joint teachers' institute in lieu of all or a designated part of the annual teachers' institute of the county, city and county, or city school district. Attendance shall be under the same conditions and compensations as provided for the annual teachers' institute of the county, city and county, or city school district.

10303. In lieu of an annual teachers' institute, the superintendent of schools of any county or of any school district employing 10 or more teachers, may hold during the school year, at places in the county, whether located within or outside the school district, chosen by the superintendent for their convenience and accessibility to teachers and patrons of the schools, local day or evening institutes or teachers' in-service meetings which shall provide at each of the chosen places, not less than the number of hours of institute work or teachers' in-service meetings as may be determined by the superintendent.

10304. The annual teachers' institute may be combined with local institutes, by holding an annual teachers' institute in the county, or city and county, or city school district, or other school district employing 100 or more teachers, and also holding during the school year local day or evening teachers' institutes or teachers' in-service meetings at convenient places in the county, or city and county, or city school district, the whole to provide not less than the number of hours of institute work as may be determined by the superintendent.

10305. The superintendent of schools of each county, city and county, or city school district shall preside over teachers' institutes held therein, and shall secure the attendance of lecturers competent to instruct in the art of teaching.

10306. Each superintendent of schools holding an institute, whether separately or as part of a joint institute, shall report to the governing board of each district under his jurisdiction the names of

all teachers of the district failing to attend any session of the institute.

10307. Every teacher employed in the schools of the county, city and county, or city school district holding an institute shall attend the institute and participate in its proceedings.

10308. Every teacher shall be paid his regular salary for the time covered by his attendance upon an institute. He shall also receive his actual and necessary traveling expenses incurred in attending the institute, not exceeding twenty-five cents (\$.25) a mile, excluding the first six miles, one way from the place of his employment to the place of the institute or thirty-five dollars (\$35), whichever is the lesser amount. Claims for traveling expenses are payable from the same fund as teachers' salaries upon verification and approval by the county superintendent of schools. When the institute is held during the time that teachers are employed in teaching, their pay shall not be diminished by reason of their attendance.

10309. The superintendent of any school district, community college district, or county holding an annual institute may, in his discretion and for good reason, authorize any teacher or instructor of the district or county, in lieu of attending one or more days of the institute held by him, to attend an institute held by the superintendent of schools of another district or county, or to attend an educational meeting held by the State Department of Education or the Board of Governors of the California Community Colleges, as the case may be, or by a recognized institution or organization in the same or another district or county, for an equivalent period.

The period of the attendance of a teacher upon an institute or meeting under the provisions of this section shall be equivalent to attendance for the same period upon the institute he is otherwise required to attend, but shall not constitute attendance upon an institute for the payment of traveling expenses under Section 10308.

10310. The county superintendent, the city and county superintendent, and the district superintendent, and the city superintendent shall each keep an accurate account of the actual expenses incurred by him in holding any teachers' institute or teachers' in-service meetings whether separate or joint.

10311. Each county superintendent of schools shall draw his requisition upon the county auditor, who shall draw his warrants on the county school service fund to pay the expenses of the county institute or teachers' in-service meetings.

10312. Each city and county superintendent shall draw his requisition upon the city and county auditor, who shall draw his warrant upon the funds of the school district or districts within the city and county to pay the expenses of the city and county institute.

10313. Each city superintendent of schools shall present a statement of the expenses incurred by him in holding the city district institute to the governing board of the city school district, which shall pay the expenses from the funds of the school district in the same manner as other claims against the funds of the district are paid.

10314. The expense of a joint teachers' institute shall be borne

proportionately by the counties, city and county, and city school districts participating therein. The amount paid by any county, city and county, or city school district toward the expenses of a joint institute shall not exceed the amount authorized to be expended by the county, city and county, or city school district for a separate annual teachers' institute.

10315. Not more than six hundred dollars (\$600) shall be paid for the expenses of any separate annual teachers' institute held by the superintendent of schools of any county, city and county, or city school district having less than 100 teachers regularly employed in the elementary and secondary schools of the county, city and county, or city school district. Where the number of teachers regularly employed in the elementary and secondary schools of any county, city and county, or city school district exceeds 100 teachers at the time of holding any separate annual teachers' institute, the superintendent of schools may expend money, in addition to six hundred dollars (\$600), at the rate of two dollars (\$2) per teacher for each teacher in excess of 100 teachers regularly employed at the time of holding the separate institute.

10316. Whenever the superintendent of any county, or city and county, or city school district, elects to hold local teachers' institutes, or the combination of annual teachers' institute with a local institute, he may expend money, in addition to the amount provided in Section 10315 for the expenses of any separate annual teachers' institute in his county, or city and county, or city school district at the rate of ten dollars (\$10) per teacher for each teacher regularly employed at the time of holding the first series of local institutes in any school year.

10317. The total expenditures for local institutes shall not at any time in the school year exceed one hundred dollars (\$100) multiplied by the number of local institutes held.

10318. Whenever the superintendent holds the combination of annual institute with local institutes each day of the annual institute shall be considered for purposes of expenditure the same as one series of local institutes.

10319. All expenses of local institutes and of combined annual and local institutes shall be paid in the same manner and from the same funds as are the expenses of separate and of joint institutes.

## Article 2. Classified Employees

10340. The superintendent of schools of every county and of every city and county, and of every city school district governed by a city board of education or community college district may hold at least one annual institute of persons employed in the classified service. The superintendents of schools shall designate the persons to attend the institute.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 6 (commencing with Section 45240) of Chapter 5 of Part 25 of

Division 3 of Title 2, or Article 3 (commencing with Section 88060) of Chapter 4 of Part 51 of Division 7 of Title 3.

10341. The superintendents of school districts or community college districts may unite institutes of classified employees, and may hold institutes of classified employees in the same manner as teachers' institutes. The expenses of such institutes shall be paid in the same manner and from the same funds as are teachers' institutes.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 6 (commencing with Section 45240) of Chapter 5 of Part 25 of Division 3 of Title 2, or Article 3 (commencing with Section 88060) of Chapter 4 of Part 51 of Division 7 of Title 3.

#### CHAPTER 5. COOPERATIVE IMPROVEMENT PROGRAMS

10400. It is the intent and purpose of the Legislature in enacting this chapter to encourage local school districts and community college districts to improve their educational systems and to enrich their educational offerings by utilizing, whenever possible and appropriate, resources which exist in the community. Such resources may include, but not be limited to, business, industry, institutions of higher learning, private consulting firms, other school districts, community college districts, the University of California, or the State of California itself. In the implementation of this chapter, particular emphasis is to be placed upon programs oriented toward agriculture, science, business and commerce, vocational education, teacher training, and, with reference to district administration, development of modern budgetary techniques, such as program planning and budgeting.

10401. Upon approval by the State Board of Education, or the Board of Governors of the Community Colleges, as the case may be, local school districts, community college districts, or schools within local districts, may enter into cooperative or contractual arrangements with business, industry, or elements within the community for improvement of the local education program. Such arrangements may include evaluation, planning, cooperation in the operation of educational programs, and use of noncertificated personnel, including the elderly, youth, college students, and other nonprofessionals.

10402. Approval by the State Board of Education or board of governors, as the case may be, of such proposals shall be based upon the recommendation of the State Superintendent of Public Instruction or chancellor, as the case may be.

10403. Nothing in this chapter is intended to modify the law with respect to experimental mathematics and reading programs established under the McAteer Act Chapter 4 (commencing with Section 54400) of Part 29 of Division 4 of Title 2 or is to be construed to authorize school districts or community college districts to contract for services required to be performed by classified school employees.

10404. The Department of Education or the Board of Governors of the Community Colleges, shall select a consultant to assist local districts or schools in the preparation of proposals to be submitted to the board. Such assistance shall include the securing of outside funds, if necessary. The consultant shall also assist the Superintendent of Public Instruction and the chancellor in establishing rules, regulations, and guidelines for proposals of cooperative improvement programs, and to evaluate the progress of such programs once underway.

10405. The Department of Education or board of governors shall encourage and seek out assistance from colleges and universities in order that college and university programs may be functional and effectively integrated with and provide assistance to the public schools.

10406. Planning grants may be made by the department, after approval by the State Board of Education, or by the board of governors for the purposes of developing, submitting, and implementing the initial phases of a cooperative improvement program pursuant to this chapter; provided, that no such grant shall be made for other than actual costs, and no more than fifteen thousand dollars (\$15,000) in such grants may be made in any biennium to any one recipient.

10407. The governing board of a school district, or community college district in its application, may request waiver of the provisions of any section or sections of this code relating to the educational programs or administrative functions described in Section 10400 if such waiver is necessary to establish and operate a program under this chapter. The need for a waiver shall be explained and justified in the application. The Superintendent of Public Instruction, or the Board of Governors of the Community Colleges, as the case may be, with the approval of the State Board of Education, or the Board of Governors of the Community Colleges, as the case may be, may grant, in whole, or in part, any such request.

CHAPTER 6. DATA-PROCESSING CENTERS

Article 1. Regional Data-Processing Centers

10500. The governing board of a school district and a county superintendent of schools may establish and maintain educational data processing centers. Such centers that meet the requirements of Section 10504 for eligible regional educational data processing centers are entitled to financial assistance from the state for the purpose of such centers as provided herein.

(Amended by Stats. 1976, Ch. 1011.)

[ORIGINAL SECTION]

10500. The governing board of a school district or community college district and a county superintendent of schools may establish and maintain educational

data-processing centers. Such centers that meet the requirements of Section 10504 for eligible regional educational data-processing centers are entitled to financial assistance from the state for the purpose of such centers as provided herein.

10501. A regional educational data processing center may consist of any of the following:

(a) One educational data processing center maintained by the governing board of any school district having an average daily attendance of 100,000 or more pupils.

(b) One educational data processing center maintained by the county superintendent of schools that provides data processing services to two or more school districts within or without the county, having a combined average daily attendance of not less than 100,000 nor more than 300,000 pupils.

(Amended by Stats. 1976, Ch. 1011.)

[ORIGINAL SECTION]

10501. A regional educational data-processing center may consist of any of the following:

(a) One educational data-processing center maintained by the governing board of any school district or community college district having an average daily attendance of 100,000 or more pupils.

(b) One educational data-processing center maintained by the county superintendent of schools that provides data-processing services to two or more school districts or community college district, within or without the county, having a combined average daily attendance of not less than 100,000 nor more than 300,000 pupils

10502. The governing board of any school district may contract with any county superintendent of schools for the rendering to the schools of the district of data processing services and may pay for the services out of any funds of the district.

(Amended by Stats. 1976, Ch. 1011.)

[ORIGINAL SECTION]

10502. The governing board of any school district or community college district may contract with any county superintendent of schools for the rendering to the schools of the district of data-processing services and may pay for the services out of any funds of the district

10503. The functions of regional educational data-processing centers shall include the processing and reporting of information relating, among other things, to programs of instruction, school business administration, and pupil personnel data.

10504. An eligible regional educational data-processing center is one that meets the following requirements:

(a) It possesses equipment, personnel and funds sufficient, as determined by regulations of the State Board of Education, or board of Governors as the case may be, to convert and correlate basic source material into data-processing form by use of a basic data system.

(b) It is a regional education data-processing center as defined in Section 10501.

(c) It meets the minimum standards established by the State Board of Education.

10505. The State Board of Education shall adopt rules and regulations necessary to implement the provisions of this chapter, including rules and regulations that:

(a) Establish minimum standards entitling regional educational data processing centers to receive an allowance under this chapter.

(b) Prescribe the procedure by which applications for allowance pursuant to this chapter shall be governed.

(Amended by Stats. 1976, Ch. 1011 )

[ORIGINAL SECTION]

10505. The State Board of Education or the board of governors shall adopt rules and regulations necessary to implement the provisions of this chapter, including rules and regulations that:

(a) Establish minimum standards entitling regional educational data-processing centers to receive an allowance under this chapter.

(b) Prescribe the procedure by which applications for allowance pursuant to this chapter shall be governed.

10506. The Superintendent of Public Instruction, upon proper application therefor made by a school district or county superintendent of schools maintaining an eligible regional educational data processing center, shall allow to the applicant the amount specified in this section appropriate to the fiscal year for which the application is made.

(a) The amount of an allowance for which application may be made shall not exceed thirty thousand dollars (\$30,000) for the first, twenty thousand dollars (\$20,000) for the second and ten thousand dollars (\$10,000) for the third, fiscal year for which an allowance is sought.

(b) An allowance shall be made for each of any three fiscal years for which a proper application is made by a school district or county superintendent of schools maintaining an eligible regional educational data processing center.

(c) A school district or county superintendent of schools shall not receive more than one allowance in any fiscal year nor more than three such allowances altogether.

(d) A new application shall precede such allowance.

(Amended by Stats. 1976, Ch. 1011.)

[ORIGINAL SECTION]

10506. The Superintendent of Public Instruction, upon proper application therefor made by a school district or community college district or county superintendent of schools maintaining an eligible regional educational data-processing center, shall allow to the applicant the amount specified in this section appropriate to the fiscal year for which the application is made.

(a) The amount of an allowance for which application may be made shall not exceed thirty thousand dollars (\$30,000) for the first, twenty thousand dollars (\$20,000) for the second and ten thousand dollars (\$10,000) for the third, fiscal year for which an allowance is sought

(b) An allowance shall be made for each of any three fiscal years for which a proper application is made by a school district or community college district or county superintendent of schools maintaining an eligible regional educational data-processing center.

(c) A school district or community college district or county superintendent of schools shall not receive more than one allowance in any fiscal year nor more than

three such allowances altogether.

(d) A new application shall precede such allowance.

10507. The Superintendent of Public Instruction shall make the allowances to school districts and county superintendents of schools pursuant to Section 10506 from any funds which may be provided for such purposes under any program established by or under authority of federal law.

(Amended by Stats. 1976, Ch. 1011.)

[ORIGINAL SECTION]

10507. The Superintendent of Public Instruction shall make the allowances to school districts or community college districts and county superintendents of schools pursuant to Section 10506 from any funds which may be provided for such purposes under any program established by or under authority of federal law.

## Article 2. Independent Data-Processing Centers

10550. This chapter applies to the territory under the jurisdiction of the County Superintendent of Schools of Sacramento County.

For the purpose of this chapter, "participating local educational agency" means:

- (a) The Grant Joint Union High School District.
- (b) The Los Rios Community College District.
- (c) The Sacramento County Superintendent of Schools.
- (d) The Sacramento City Unified School District.
- (e) The San Juan Unified School District.

10551. The independent data-processing center shall be administered by a board composed of one representative of each of the participating local educational agencies and one public member who shall be appointed by a majority of the representatives of the participating local educational agencies.

The public member shall serve for a four-year term and may be reappointed.

10552. The board of the independent data-processing center:

- (a) Shall adopt rules and regulations for its own government.
- (b) Shall determine the location of the center.
- (c) Shall establish and administer the operating budget of the center.
- (d) May contract with public or private agencies for service.
- (e) May contract with participating local educational agencies for services. In such cases, the personnel of the local educational agency shall remain agency employees for all purposes.
- (f) May borrow funds from the participating local educational agencies. Participating local educational agencies may lend funds to the center.
- (g) May order expenditures from the data-processing center account in the county school service fund.
- (h) May employ such staff as the board deems necessary, and determine the compensation thereof.
- (i) May accept gifts and grants from private persons; firms;

foundations; or federal, state, and local government.

10553. The county superintendent of schools shall create in the county school service fund a data-processing center account, expenditures from which may be ordered only by the board of the independent data-processing center.

Balances in the account are not balances of the county school service fund and shall not revert to the State Treasury.

10554. There shall be deposited into the data-processing center account all amounts allocated to the county superintendent of schools pursuant to Section 10555, any payment pursuant to a contract for services with a public or private entity, and any other funds accruing to the center.

10555. From funds appropriated by Section 4 of this act there shall be allocated to the County Superintendent of Schools of Sacramento County the sum of two hundred seventy-five thousand dollars (\$275,000) annually for each of the fiscal years 1975-76 to 1977-78, inclusive. Such funds shall be used exclusively for operation of the independent data-processing center. Immediately upon receipt thereof such funds shall be deposited in the data-processing center account.

Such allocation shall be made by the Department of Education pursuant to an agreement between the department and the county superintendent of schools, the terms and conditions of the agreement having first been approved by the board of the independent data-processing center. The agreement is subject to the approval of the Department of Finance.

The amounts allocated pursuant to this section shall be repaid during the five fiscal years 1978-79 to 1982-83, inclusive, together with interest computed at the same rate as the rate returned by the investment of state funds through the Pooled Money Investment Fund, as determined by the Department of Finance.

Participating local educational agencies shall be obligated for the repayment of funds allocated pursuant to this section. The amount to be repaid by each participating local educational agency shall be determined on the basis of the proportionate usage of the independent data-processing center, as measured by criteria established by unanimous consent of the participating agencies.

In the event the participating agencies do not unanimously agree as to the method of computing the amount of repayment or on criteria to measure proportionate usage, the amount of repayment to be made by each of the participating agencies shall be computed in any reasonable manner determined by the board of the independent data-processing center and approved by the Department of Finance.

The State Controller shall, commencing with fiscal year 1978-79 and in each of the following four fiscal years, deduct the total amount of the annual repayment due from a participating local educational agency by withholding equal amounts from each of the first and second principal apportionments made to such local agencies in each

of the five fiscal years commencing with 1978-79.

10556. Local educational agencies which do not participate in the operation of the center but which contract with the center for services shall pay a pro rata share of the cost of providing such services.

#### CHAPTER 7. CALIFORNIA EDUCATION INFORMATION SYSTEM

10600. It is the intent of the Legislature in enacting this article to make complete, current, and reliable information relating to education available to the Legislature and to all public educational agencies in California at maximum efficiency and economy through statewide compatibility in the development and application of information systems and electronic data-processing techniques insofar as they relate to data required in reports to the Department of Education.

10601. There is in the Department of Education the California Education Information System, hereinafter in this article called "the system." The function of the system is to establish, conduct, and by continuous concern keep up to date a basic, integrated, statewide information system for education.

10602. In establishing, maintaining, and operating the system, the department shall:

(a) Consult and cooperate with school districts, county superintendents, advisory committees on integrated data processing, task forces for implementing the development and utilization of a statewide information system, intergovernmental boards on electronic data processing and state electronic data processing policy committees created by statute or by executive order of the Governor.

(b) Cooperate with the Educational Management and Evaluation Commission in all matters relating to program budgeting.

(c) Maintain the system by incorporating necessary or desirable changes, modifications, and improvements.

(d) Provide sufficient flexibility within the system to allow local and state educational agencies to meet all of their educational information needs.

10603. In establishing and conducting the system, the department may consult and cooperate with public and private agencies and with educators and information specialists at the district, county, regional, state, and national levels.

10604. School districts maintaining kindergarten or any grade of grades 1 through 12, county superintendents of schools, and the department shall:

(a) Cooperate and consult in the joint development, establishment, and conduct of the system.

(b) Coordinate information-processing activities to preclude duplication of the developmental and operational aspects of the system.

(c) Conduct educational information-processing activities in accordance with regulations of the State Board of Education adopted pursuant to this chapter.

10605. The information-processing capabilities of the system shall include, but not be limited to, the following:

(a) Provision of a statewide common data base for educational research and other uses in education.

(b) Interchange of data with other educational institutions, including colleges and universities, and other agencies concerned with information about education.

(c) Machine processing aid to decisionmaking in educational administration and the use of modern management tools.

(d) Reduction of routine clerical activities in educational agencies.

(e) Facilitation of preparation of reports required by state and federal agencies.

(f) Support of functions of the Educational Management and Evaluation Commission.

10606. The department, in its establishment and conduct of the system shall, among other things:

(a) Develop for statewide educational use standards for:

(1) Coding structures.

(2) Common data base.

(3) File layout and design.

(4) Flow charts.

(5) Identification of data items.

(6) Input documentation and formats.

(7) Output report formats, including those required by local, county, state, and federal agencies.

(8) Procedural manuals.

(9) System design.

(10) Terminology.

(11) Other relevant material.

(b) Make available, without charge, to school districts, county superintendents, and other public agencies the system components, described in subdivision (a), as they are completed.

(c) Establish a pilot data-processing center to test systems, components, and procedures, and, when feasible, identify as centers to develop or demonstrate the appropriate use of the system and the system's procedures, those districts, county superintendents, and other public agencies that are successfully using the various components of the system.

(d) Establish safeguards to assure only appropriate access to confidential information.

(e) Disseminate information about the system, and its use and availability, including documentation, and procedural and operations manuals.

(f) Adopt regulations to implement this chapter.

10607. The regulations adopted pursuant to Section 10606 shall,

among other things:

(a) Require that the department and school districts use the system's standard terminology and formats specified in Section 10606 as the basis for all reports and other data specified in this code and related administrative codes.

(b) Provide departmental coordination in order to preclude costly duplication of the developmental and operational aspects of materials, equipment, programming, systems and procedures.

(c) Recognize that wise and appropriate use of automatic data-processing technology need not be restricted by school district or other boundaries.

10608. The system is intended to provide a basic package of services to school districts that will facilitate the gathering of data required for reporting to the state. An annual survey shall be made of school district participation in the system. The results of such surveys shall be annually reported to the Legislature, and the first such report shall be submitted no later than the fifth legislative day of the 1970 Regular Session of the Legislature.

10609. The department may accept federal or other funds for the purpose of financing activities pursuant to this article. School districts and county offices of education may assign to the department funds or other resources which may be identified in their budgets for planning, developing, or coordinating activities related to this article.

10610. The State Board of Education shall make recommendations to the Legislature as the state board deems appropriate concerning appropriate or necessary legislation related to this article.

## CHAPTER 8. ROADS TO SCHOOLHOUSES

10700. As used in this chapter, "school approach" means any highway or portion thereof which:

(a) Runs from a primary or secondary state highway, or from a county highway to a public school building maintained and used as such by the district.

(b) Is not more than one-half mile in length.

(c) Is entirely outside of the boundaries of any city.

10701. The governing board of any school district or community college district may contract with the Division of Highways for the construction, improvement, or maintenance of a school approach which runs from any state primary or secondary highway. The Division of Highways may enter into such contracts.

10702. The governing board of any school district or community college district may contract with the board of supervisors for the construction, improvement, or maintenance of a school approach which runs from any county highway. The board of supervisors may enter into such contracts.

10703. The governing board of any school district or community

college district may construct, improve, and maintain any school approach, and may use the funds of the district for the purpose or for the purpose of carrying out any contract entered into by the district pursuant to this chapter.

**CHAPTER 9. LEASE OF PROPERTY: DEPARTMENT OF  
EDUCATION, UNIVERSITY OF CALIFORNIA, CALIFORNIA STATE  
UNIVERSITY AND COLLEGES**

10800. The governing board of any school district or community college district may, with the approval of the Director of General Services, lease real property owned by the district to the State Department of Education, or the board of governors, as the case may be, to the Trustees of the California State University and Colleges, or to the Regents of the University of California upon such terms and conditions as may be agreed upon. The State Department of Education, or the board of governors, as the case may be, the Trustees of the California State University and Colleges, or the Regents of the University of California may enter into any agreement to lease real property pursuant to this section.

**CHAPTER 10. COMMUNITY RECREATION PROGRAMS**

10900. The purposes of this chapter are:

(a) To promote and preserve the health and general welfare of the people of the state and to cultivate the development of good citizenship by provision for adequate programs of community recreation.

(b) To authorize public corporations or districts having powers to provide recreation, cities, counties, cities and counties, and school districts or community college districts to organize, promote, and conduct such programs of community recreation as will contribute to the attainment of general educational and recreational objectives for children and adults of the state.

10901. The following terms, wherever used or referred to in this chapter have the following meanings, respectively, unless a different meaning clearly appears from the context:

(a) "Public authority" means any city of any class, city and county, county of any class, public corporation or district having powers to provide recreation, or school district or community college district in the state.

(b) "Governing body" means, in the case of a city, the city council, municipal council, or common council; in the case of a county or city and county, the board of supervisors; in the case of a public corporation or district, the governing board of the public corporation or district; and in the case of a school district, the governing board of the school district or community college district.

(c) "Recreation" means any activity, voluntarily engaged in, which contributes to the physical, mental, or moral development of

the individual or group participating therein, and includes any activity in the fields of music, drama, art, handicraft, science, literature, nature study, nature contacting, aquatic sports, and athletics, or any of them, and any informal play incorporating any such activity.

(d) "Community recreation" and "public recreation" mean such recreation as may be engaged in under direct control of a public authority.

(e) "Recreation center" means a place, structure, area, or other facility under the jurisdiction of a governing body of a public authority used for community recreation, whether or not it may be used primarily for other purposes, playgrounds, playing fields or courts, beaches, lakes, rivers, swimming pools, gymnasiums, auditoriums, libraries, parks adjacent to school sites, rooms for arts and crafts, camps, and meetingplaces.

Playgrounds, outdoor playing fields or courts, swimming pools, and camps, with necessary equipment and appurtenances for their operation, under the jurisdiction of a governing board of a public authority used for community recreation shall be considered recreation centers within the meaning of this chapter whether or not they may be used primarily for other purposes.

10902. The governing body of every public authority may (a) organize, promote, and conduct programs of community recreation, (b) establish systems of playgrounds and recreation, and (c) acquire, construct, improve, maintain, and operate recreation centers within or without the territorial limits of the public authority.

No events for which an admission price is charged shall be held pursuant to this chapter, except amateur athletic contests, demonstrations, or exhibits and other educational events.

Nothing in this section shall be construed to authorize the transportation of a school band in school buses for commercial purposes.

10903. Upon the transfer of duties and functions of the county board of supervisors to the county board of education, the county board of supervisors may provide by agreement with the county board of education that the county board of education will perform all or any portion of the duties and functions of the county under this chapter.

10904. A public authority may permit the use of a recreation center or facility by parent cooperative nursery groups on a nonexclusive and nondiscriminatory basis when such use does not unreasonably impair or interfere with the right of the public to use the center or facility. As used in this section, a "parent cooperative nursery group" means a group of parents who (1) are licensed by a state agency; (2) on a nonprofit basis; (3) to provide recreation for their preschool age children; (4) on a nondiscriminatory basis.

10905. The governing body of any public authority may cooperate with the federal government or any department thereof, and the governing bodies of any two or more public authorities may

cooperate with each other or with the federal government or any department thereof to carry out the purposes of this chapter, and to that end may enter into agreements with each other, and may do any and all things necessary or convenient to aid and cooperate in carrying out the purposes of this chapter, or to establish, improve or maintain campgrounds or other recreation facilities under the control of the federal government or any department thereof.

The governing bodies of any two or more public authorities having jurisdiction over any of the same territory or over contiguous territories may jointly establish a system or systems of recreation, and may jointly do any act which either is authorized to do under Section 10903. Nothing in this chapter shall be construed to prohibit any joint or cooperative action authorized by this section.

10906. The governing board of any union high school district located in a county of the third class which had an average daily attendance during the 1971-72 school year of between 17,500 and 18,500, and which, during the 1971-72 school year, had a modified assessed valuation per pupil of between twenty-one thousand dollars (\$21,000) and twenty-three thousand dollars (\$23,000), may cooperate with community nonprofit associations and corporations to carry out the purposes of this chapter including the acquisition, construction, improvement, maintenance, and operation of recreation centers within the territorial limits of and under the control of the governing board, and may enter into agreements with such nonprofit associations and corporations to share the costs of acquiring, constructing, improving, maintaining, and operating such recreation centers located on the property of the school district, provided that the board does not agree to contribute more than one-half the total cost of any one project.

10907. The governing body of any public authority other than a school district may designate any already existing board, officer, or employee of the public authority to exercise the powers granted by this chapter to carry out the purposes of this chapter, or may provide for the appointment of a board of recreation commissioners to exercise such powers. A school district or community college district may appoint one or more members of the board of trustees, officers or employees, to represent the district on a board of recreation commissioners.

10908. The board of recreation commissioners shall consist of either five members or seven members, as determined by the governing body or bodies providing for its appointment, who shall serve with or without compensation at the discretion of the governing body. If compensation is authorized by the governing body it shall not exceed twenty-five dollars (\$25) per meeting for not more than one meeting of the commission in any one calendar month. The governing body may provide that the members of the commission shall receive their actual and necessary traveling expenses to and from the place of meeting of the commission and while traveling in connection with the business of the commission.

10909. The board of recreation commissioners in each public authority, or the board, officer, or employee of the authority designated to exercise the powers, shall exercise such powers and perform such duties, pursuant to this chapter, as the governing body of the public authority may prescribe.

10910. The governing body of any school district or community college district may use the buildings, grounds, and equipment of the district, or any of them, to carry out the purposes of this chapter, or may grant the use of any building, grounds, or equipment of the district to any other public authority for the purposes, whenever the use of the buildings, grounds, or equipment for community recreational purposes will not interfere with use of the buildings, grounds, and equipment for any other purpose of the public school system. Nothing in this section is intended to repeal any provision of, or to restrict or otherwise affect the use of school buildings under Sections 40040 to 40058, and 82530 to 82547, inclusive.

10911. Every public authority may appoint, prescribe the duties of, and provide for the compensation and necessary expenses of such recreational directors, supervisors, custodians, assistants, deputies, and other employees as it deems reasonably necessary for carrying out the provisions and purposes of this chapter. Only persons employed in positions requiring certification qualifications shall be paid out of funds set aside for the payment of teachers' salaries.

10912. The governing body of a school district or community college district may require persons, other than students, or organizations desiring to use the recreational facilities on school grounds or belonging to a school or the facilities provided by the district at a community recreation center maintained solely by the district to pay such fees for such use as the said governing body may prescribe.

10913. The governing body of a school district or community college district may require persons or organizations desiring to use schoolbuses belonging to a school to pay such fees for such use as the governing body may prescribe.

10914. All necessary expenses incurred by the governing body of any school district or community college district in carrying out the purposes of this chapter are a charge against the funds of the district from whatever source the funds have been received. All such expenditures shall be made in the same manner as funds are expended for other school purposes.

Nothing in this chapter shall be construed to change in any way existing laws regarding the use of school grounds or school buildings by governing boards of school districts or community college districts, except as specifically provided in this chapter.

10915. The Department of Education or the board of governors as the case may be, may advise and assist public school authorities, and upon request any public authority other than school districts, or community college districts in establishing, developing, and maintaining a system or systems of recreation in accordance with this chapter.

**CHAPTER 11. INTERAGENCY POWERS TO CONTRACT, SELL, OR  
LEASE****Article 1. Powers to Contract With Other Agencies**

11000. The governing board of any school district or community college district and the county superintendent of schools having jurisdiction over the district may, with approval of the county board of education, enter into an agreement for service which by law the county superintendent of schools is authorized to render to be rendered by one for the other. The agreement shall provide for the payment of an amount not less than the cost of providing such service. The county superintendent of schools shall transfer from the funds of the district to the county school service fund or from the county school service fund to the funds of the district the amount set forth in the agreement.

11001. One school district or community college district may perform school services for another school district or community college district, and receive pay from the other district for the performance of the service, whenever a contract covering the performance of and the payment for school service has been entered into by and between the governing boards of the districts concerned. Nothing contained in this section shall be construed to authorize the establishment of separate schools for pupils for any reason other than those set forth in this code.

11002. The governing boards of two or more school districts or community college districts whose boundaries are contiguous or coterminous may enter into an agreement upon such terms and conditions as may be agreeable to the respective governing boards for the joint use and maintenance of school buildings and other school facilities.

11003. The governing board of any school district or community college district or the county superintendent of schools of any county may enter into agreements to render to a campus of the California State University and Colleges, to the University of California, or to any state institution any service which such governing board or county superintendent of schools is authorized to provide to school districts or community college districts. Any such agreement must provide for the payment for services rendered of an amount not less than the cost of rendering such service. The Trustees of the California State University and Colleges, the Regents of the University of California, and the Director of Finance are hereby authorized to enter into such agreements as to any state university or college, the University of California, and any state institution, respectively.

All funds received by a county superintendent of schools under this section shall be paid by him into the county treasury to the

county school service fund and all funds received by the governing board of a district under this section shall be paid by it into the county treasury to the credit of the general fund of the district.

11004. The governing board of any school district or community college district required or authorized to maintain special training schools or classes for exceptional children may, with the approval of the county superintendent of schools, contract with any campus of the California State University and Colleges situated within the boundaries of the county within which the school district is located, upon such terms and conditions as may be agreed upon, to provide for the education of such children in, and for the transportation of such children to, the laboratory classes for exceptional children established and maintained within or without the boundaries of the school district by or in conjunction with such campus of the California State University and Colleges pursuant to Article 2 (commencing with Section 89210) of Chapter 2 of Part 52 of Division 8 of Title 3. As used in this section, "exceptional children" means physically handicapped pupils, mentally retarded pupils, or educationally handicapped pupils required or allowed to be educated pursuant to Article 1 (commencing with Section 56600) and Article 2 (commencing with Section 56630) of Chapter 4 of Part 30 of Division 4 of Title 2, Article 1 (commencing with Section 78600) of Chapter 4 of Part 48 of Division 7 of Title 3, and Article 1 (commencing with Section 56500) of Chapter 3 of Part 30 of Division 4 of Title 2.

11005. The governing boards of two school districts or two community college districts governed by governing boards of identical personnel may enter into an agreement for the two districts upon such terms and conditions as may be agreeable to the respective governing boards for the joint use and maintenance of school buildings and other school facilities of one or both of the districts or for the use and maintenance of the school buildings and other school facilities of one district by the other district.

11006. The governing board of any school district or community college district or the county board of education of any county may enter into agreements with the California State University and Colleges, the University of California, or any other university or college accredited by the State Board of Education as a teacher education institution, to provide teaching experience through practice teaching and to provide for supervised field experience in the public schools in such areas as may be called for in the requirements of the various authorized credentials for public school service to students enrolled in teacher education curricula of such institutions. Any such agreement may provide for the payment for the services rendered by the school district or community college district or the county board of education of an amount not to exceed the actual cost to the district or the county board of education of the services rendered or such agreement may provide for the rendering of services to the district or the county board of education of a value

not to exceed the actual cost to the district or the county board of education of the services rendered by the district. The Trustees of the California State University and Colleges and the Regents of the University of California are hereby authorized to enter into such agreements with the governing board of any school district or community college district or the county board of education of any county as to any campus of the California State University and Colleges, and the University of California, respectively.

All funds received by the governing board of a school district or community college district or the county board of education of a county under this section shall be paid by it into the county treasury to the credit of the general fund of the district or county.

11007. The governing board of any school district or community college district or the county superintendent of schools with the approval of the county board of education may enter into an agreement or agreements to render any services which may be provided children enrolled in nonpublic schools within the district or within the area under jurisdiction of the county superintendent of schools under the act of Congress entitled "Elementary and Secondary Education Act of 1965" (Public Law 89-10). Any such agreement shall provide for the payment for services of an amount not less than cost of rendering such service.

All funds received by a county superintendent of schools under this section shall be paid by him into the county treasury to the county school service fund and all funds received by the governing board of a school district or community college district under this section shall be paid by it into the county treasury to the credit of the general fund of the district.

## Article 2. Sale or Lease Between Districts Having Coterminous Boundaries and Identical Board Members

11020. Whenever a high school district and a community college district have coterminous boundaries and the same persons comprise both governing boards, either district may sell, exchange, grant or quitclaim all or any of its interest in, or may lease for a term not exceeding 99 years, to the other, any real property belonging to the district which is not or will not at the time of delivery of title or possession be needed for school classroom buildings by the district owning it, as provided in this article.

11021. Any sale, exchange, lease or grant of an interest in real property by a school district pursuant to Section 11020 shall be upon such terms and conditions as the parties thereto may agree and may be entered into without complying with any provisions of this code except as provided in this article.

11022. The district owning the property shall not enter into and be a party to any such sale, exchange or lease unless the following conditions have been met:

- (a) A resolution authorizing such action and prescribing the terms

of the sale, exchange or lease has been adopted by the unanimous vote of all the members elected or appointed to the board;

(b) Such resolution has been published in a newspaper of general circulation published in the district, or if there be no such newspaper, in a newspaper having a general circulation in the district, once a week for three weeks prior to the making of the sale, exchange or the execution of the lease by the board.

11023. In any lease made pursuant to this article, it shall be competent to provide that the lessee may purchase the property at an agreed purchase price and that rental paid for the use of the property shall be applied in whole or in part upon the purchase price. The lessee may cancel the lease at the end of any budgetary year, and in such case shall not be obligated to complete the lease and shall be released from all obligations thereunder.

## PART 8. PARTICIPATION IN FEDERAL PROGRAMS AND INTERSTATE AGREEMENTS

### CHAPTER 1. ADMINISTRATION OF FEDERAL PROGRAMS—STATE BOARD OF EDUCATION

#### Article 1. No Agency Designated

12000. Whenever by any act of Congress funds are provided as federal aid to education to the several states and the disposition of the funds is not otherwise provided for by or under the act of Congress or by or under any law of this state, the apportionment and distribution thereof to school districts shall, insofar as consistent with the requirements prescribed by the federal law and implementing rules and regulations, be governed by the standards set forth in this article.

When any such federal law designates a state education agency or other agency or officer primarily responsible for state supervision of public schools, such designation shall be deemed to refer to the State Board of Education. The State Board of Education shall make timely application for any federal funds made available, and shall, pursuant to the federal law and the provisions of this article, direct the allocation and apportionment of the federal funds to local education agencies.

12001. The State Board of Education shall adopt rules and regulations for the allocation of federal funds to local school districts and other agencies entitled to receive federal funds for the support of schools. In determining the rules and regulations by which such allocations are to be made, the State Board of Education shall consider all factors of local effort and all educational programs maintained by such agencies. Such rules and regulations shall be based upon need and the agencies' abilities and efforts shall be carefully scrutinized.

12002. There is hereby created in the State Treasury the

**Auxiliary State School Fund.** Any funds received under act of Congress as federal aid to education, and not required by such act or any law of this state to be otherwise deposited, may be deposited in the Auxiliary State School Fund.

## Article 2. General Authority

12010. Whenever by the provisions of any act of Congress the act is to be administered in the state by the Superintendent of Public Instruction, Director of Education, Department of Education, State Board of Education, or any one or more of such officers, or agencies, the officers and agencies designated in the act of the Congress are authorized to administer the act in the state. Such officers and agencies are vested with all necessary power and authority to cooperate with the government of the United States, or any agency or agencies thereof in the administration of the act of Congress and rules and regulations lawfully adopted thereunder.

12011. (a) The Superintendent of Public Instruction may apply to the United States Office of Education for recognition as an accrediting agency for private vocational schools under his or her jurisdiction for the purposes of receiving federal funds.

(b) If the Superintendent of Public Instruction is recognized by the federal government as an accrediting agency for private vocational schools under his jurisdiction, he or she may impose a fee for services performed in connection with such accreditation in an amount sufficient to cover the costs incurred by him or her in performing that function.

## Article 3. Emergency School Construction and Federal Impact Aid

12020. The State Board of Education is designated as the state educational agency to carry out the purposes and provisions of Public Law 815 and Public Law 874 of the 81st Congress, and is vested with all necessary power and authority to perform all acts necessary to receive the benefits and to allocate, upon the advice and recommendations of the Board of Governors of the California Community Colleges, the funds provided by such acts of Congress to public community colleges.

## Article 4. Elementary and Secondary Education Act of 1965 and National Defense Education Act of 1958

12030. The people of the State of California accept the provisions of, and each of the funds provided by, the act of Congress entitled "An act to strengthen the national defense and to encourage and assist in the expansion and improvement of educational programs to meet critical national needs; and for other purposes" (National Defense Education Act of 1958), approved September 2, 1958, and

the act of Congress entitled "Elementary and Secondary Education Act of 1965."

12031. In accepting the benefits of these acts of Congress, the people of the state agree to comply with all of their provisions and to observe all of their requirements.

12032. The State Board of Education is designated as the state educational agency to carry out the purposes and the provisions of these acts of Congress. The State Board of Education is hereby vested with authority to prepare and submit the the United States Commissioner of Education any state plan required by said acts of Congress, to prepare and submit amendments to such state plans, and to administer such state plans or amendments thereto, in accordance with said acts of Congress and any rules and regulations adopted thereunder. The State Board of Education is hereby vested with all necessary power and authority to cooperate with the government of the United States, or any agency or agencies thereof in the administration of these acts of Congress and the rules and regulations adopted thereunder.

12033. The State Treasurer is designated as the custodian of all funds received by the state from the government of the United States, or of any agency or agencies thereof, under these federal acts and he is authorized to receive and provide for the custody of all moneys so received.

12034. The funds received by the state under the provisions of these federal acts shall be paid out by the State Treasurer on warrants drawn by the Controller and requisitioned by the State Board of Education in carrying out the purposes of these federal acts.

12035. The president or the administrative head of each community college and the State Nautical School may establish and administer student loan funds pursuant to the act of Congress known as the "National Defense Education Act of 1958." Money allocated for the purpose of establishing a student loan fund at the State Nautical School may be withdrawn from the State Treasury and deposited to the credit of that institution in a trust account in accordance with the provisions of Government Code Sections 16305 to 16305.7 for the purpose of making loans to students in accordance with the federal act.

12036. It is in the interests of the state and of the people thereof for the state to provide money for student loan funds in public institutions of higher learning on the basis of an amount equal to not less than one-ninth of federal capital contributions to such student loan funds as provided by the National Defense Education Act of 1958 for needy students at these publicly supported institutions.

#### Article 5. Vocational Education Acts

12050. The people of the state accept the provisions of, and each of the funds provided by, the act of Congress entitled "An act to provide for the promotion of vocational education; to provide for

cooperation with the states in the promotion of such education in agriculture and the trades and industries; to provide cooperation with the states in the preparation of teachers in vocational subjects; and to appropriate money and regulate its expenditure," and approved February 23, 1917.

12051. The people of the state accept the provisions of, and each of the funds provided by, the act of Congress entitled "An act to strengthen and improve the quality of vocational education and to expand the vocational opportunities in the Nation" approved December 17, 1963, and amended October 16, 1968.

12052. In accepting the benefits of the acts of Congress referred to in Sections 12050 and 12051 the people of the state agree to comply with all of their provisions and to observe all of their requirements.

12053. The State Board of Education is designated as the state board to carry out the purposes and the provisions of the acts of Congress, and is given all necessary power and authority to cooperate with the United States Commissioner of Education and the United States Office of Education in the administration of the provisions of the federal acts and of this article.

12054. For the purpose of implementing the program set forth in Chapter 2.5 (commencing with Section 10650) of Part 2 of Division 9 of the Welfare and Institutions Code, funds available may be used to provide vocational education services to present and potential recipients of public assistance, to the extent permitted by federal law.

12055. The Vocational Education Federal Fund in the State Treasury is hereby created. All grants of money received by this state from the United States, the expenditure of which is administered under the provisions of Sections 12050 to 12054, inclusive, and Sections 12020, 12220, and 12300 to 12307, inclusive, on order of the State Controller, shall be deposited in the Vocational Education Federal Fund.

12056. The State Treasurer, as required by the federal acts relating to vocational education referred to in Sections 12050 to 12054, inclusive, and Sections 12020, 12220, and 12300 to 12307, inclusive, shall receive and provide for the proper custody of all funds apportioned to the state under these acts. The amount received shall be deposited to the credit of the Vocational Education Federal Fund.

12057. The State Treasurer shall also receive and provide for the proper custody of all money appropriated by this article, of all money that may be hereafter appropriated for the purpose of carrying out the provisions of this article and of all money that may be received by the State Board of Education under the provisions of this article.

12058. All funds appropriated by the state for vocational education shall be expended pursuant to the provisions of this article.

12059. All money in the Vocational Education Federal Fund is hereby appropriated to the State Department of Education, without regard to fiscal years, for expenditure for the purposes for which the

money deposited therein is made available by the United States for expenditure by the state.

12060. The Director of Finance and the State Controller may approve any general plan whereby:

(a) Any expenditures which are a proper charge against money made available by the United States and deposited in the Vocational Education Federal Fund may be paid in the first instance from any appropriation from the General Fund, expenditures from which are administered under the provisions of Sections 12050 to 12054, inclusive, and Sections 12020, 12220, and 12300 to 12307, inclusive, and

(b) The General Fund shall be reimbursed for expenditures made therefrom that are a proper charge against the Vocational Education Federal Fund. Such a general plan may provide for advance transfer from the Vocational Education Federal Fund to the General Fund, based on estimates of such expenditures that will be subject to reimbursement from the Vocational Education Federal Fund pursuant to such plan, and may provide for reimbursement to the Vocational Education Federal Fund when necessary.

Requests for reimbursement or transfer pursuant to such a plan shall be furnished to the State Controller in writing by the Department of Education, accompanied by such financial statements as the plan may provide; and on order of the State Controller, the required amount shall be transferred in accordance therewith.

#### Article 6. Veterans' Education

12090. Subject to the provisions of this article, the Department of Education acting by and through the Director of Education is hereby authorized to enter into an agreement, or agreements, with the Veterans Administration, or any other agency of the federal government, for the education of veterans in any of the schools of the public school system, except the California State University and Colleges. Such contract shall provide for the payment to such schools through the Department of Education or otherwise of the maximum amount permitted by the act, or acts, of Congress under which the agreement, or agreements, is entered into by the Veterans Administration, or any other agency of the federal government.

12091. The Director of Education is vested with all necessary power and authority to cooperate with any such agency of the federal government in the administration of any applicable act of Congress and rules and regulations adopted thereunder.

12092. the Department of Education through the Director of Education is authorized to enter into agreements with governing boards of school districts for the education by such districts of veterans in accordance with the agreement between the Department of Education and the agency of the federal government.

12093. The governing board of any school district which entered into an agreement with the Department of Education under this

article may do any and all things required or authorized by such agreement of the board or district, including, but not limited to, the purchase of books, supplies and equipment for veterans educated under such agreement.

12094. The Department of Education shall exercise general supervision over, and shall provide for the coordination of, all services and facilities performed and provided by school districts for the education of veterans to the end that the needs of the veterans shall be met in the most adequate manner.

12095. The provisions of Sections 12020, 12220, and 12300 to 12307, inclusive, shall apply to all funds received by the state or any agency of the state under this article.

### Article 7. Surplus Federal Property

12110. The State Department of Education is hereby designated as the California State Educational Agency for Surplus Property.

12111. Said agency is authorized and directed to cooperate with the federal government and its agencies in securing the expeditious and equitable distribution of surplus property of the federal government to eligible institutions in California, to assist said institutions in securing such property and to do all things necessary to the execution of its powers and duties.

12112. Whenever by the provisions of any act of Congress or any rule or regulation adopted thereunder the agency is authorized to accept, receive, or purchase or resale from the federal government or any agency thereof, any property and to provide for its disposition or resale, it is authorized to do so and is vested with all necessary power and authority to accomplish such acceptance, purchase, receipt, disposition and resale. The agency is hereby exempted from the provisions of Article 2 (commencing with Section 14790), Chapter 6, Part 5.5, Division 3, Title 2 of the Government Code.

12113. (1) The California State Education Agency for Surplus Property in providing for the disposition of such property shall require the payment of such charges by the parties to whom property is transferred as the agency estimates will reimburse the agency for the average costs of procuring, storing, handling, and disposing of such property. All moneys received by the agency for charges under this section or its predecessor shall be paid into the State Treasury to the credit of the Educational Surplus Property Revolving Fund. The agency may reduce or eliminate charges on property found not to be usable for the purpose for which procured. Any moneys found by the agency to be in excess of the costs incurred in procuring, storing, handling and disposing of such property may, upon approval of the Department of Finance, be refunded to the parties from whom such moneys were received. Moneys refunded to the state agencies specified in subdivision (2) of this section shall be deposited in the State Treasury as provided in that subdivision.

(2) Notwithstanding any other provision of law, (a) the

revolving fund must be substantiated by vouchers filed with and audited by the Controller. From time to time, disbursements, supported by vouchers, may be reported to the Controller in connection with claims for reimbursement of the departmental revolving fund. At any time upon the demand of the Department of Finance or the Controller, such revolving fund must be accounted for and substantiated by vouchers and itemized statements submitted to and audited by the Controller.

#### Article 8. Libraries

12130. The State Department of Education is hereby named and designated as the proper state agency to accept, receive and administer any and all funds, moneys or library materials, granted, furnished, provided, appropriated, dedicated or made available by the United States or any of its departments, commissions, boards, bureaus or agencies for the purpose of giving aid to public libraries in the State of California.

### CHAPTER 2. ADMINISTRATION OF FEDERAL PROGRAMS— BOARD OF GOVERNORS

#### Article 1. Programs Prior to 1967

12200. The State Board of Education is vested with all necessary power and authority to perform all acts necessary to authorize governing boards of districts maintaining community colleges to receive the benefits and to expend the funds provided by any acts of Congress under which districts maintaining community colleges may be eligible to receive benefits, including, but not limited to, Title VII of the Housing Act of 1961 (Public Law 87-70), as amended, and any of the acts of Congress referred to in this chapter. The board is vested with all necessary power and authority to authorize districts maintaining community colleges to cooperate with the government of the United States, or any agency or agencies thereof, for the purpose of receiving the benefits and expending the funds provided by said acts of Congress, or any rules or regulations adopted thereunder, or any state plan or rules or regulations of the California Postsecondary Education Commission adopted in accordance with any of said acts of Congress under which the California Postsecondary Education Commission is designated in this chapter as the state educational agency. Whenever necessary to secure the full benefits of said acts of Congress, the governing board may give such security as may be required and may comply with such conditions as may be imposed by the federal government. The funds received by the district under the provisions of said acts of Congress shall be deposited in the county treasury as provided for in Section 84001.

This section shall be applicable to only those acts of Congress

Department of Education, acting for state agencies supported principally from the General Fund, and (b) state agencies supported principally from a special fund of the State Treasury, shall deposit refunds received under subdivision (1) of this section to the credit of the state fund from which the state agency receives its principal support. The Department of Finance shall determine the fund from which the state agency receives its principal support.

12114. Notwithstanding any other provision of law, any party receiving surplus food pursuant to this article which elects to take direct delivery thereof from the federal government shall be required to reimburse the agency only for the actual cost to the agency of processing the documents relating to each such direct delivery of surplus food. Any party electing to take direct delivery must demonstrate that party's capability for the proper storage and distribution of the surplus food in accordance with regulations adopted by the Superintendent of Public Instruction.

12115. There is hereby created in the State Treasury the Surplus Educational Property Revolving Fund. Accumulated reserves resulting from handling and service charges shall be transferred from the appropriation made by Chapter 95 of the Statutes of the First Extraordinary Session of the 56th Legislature to said fund, upon the approval of the Director of Finance. On and after July 1, 1947, all costs of the State Educational Agency for Surplus Property, including but not limited to costs of procuring, transporting, shipping, and storing surplus property of the federal government and its distribution to educational agencies, and costs of general assistance and real property procurement, shall be paid from this fund. The Surplus Educational Property Revolving Fund shall be reimbursed from the support appropriation for the agency for costs of general assistance and real property procurement in accordance with Sections 11251 and 11252 of the Government Code.

12116. The California State Educational Agency for Surplus Property may send representatives out of this state for the purpose of inspecting property or conferring with federal and other state officials, provided such traveling and expenses have been approved by the Governor and by the Department of Finance. Such out-of-state travel shall not come within the limitation imposed in Section 33335 or 71049.

12117. The State Educational Agency for Surplus Property may, without at the time furnishing vouchers or itemized statements, draw from the Surplus Educational Property Revolving Fund for use as a departmental revolving fund:

- (a) A sum not to exceed thirty thousand dollars (\$30,000), or
- (b) With the approval of Department of General Services a sum in excess of thirty thousand dollars (\$30,000).

Any moneys so withdrawn may only be used, in accordance with law and Board of Control rules, for payment of compensation earned, traveling expense, traveling expense advances or where immediate payment is otherwise necessary. All disbursements from such

which have been enacted prior to January 1, 1967.

### Article 2. Administration of Federal Funds by Chancellor

12210. To the extent permitted by federal law, the Chancellor of the California Community Colleges shall administer federal funds allocated to the public community colleges.

### Article 3. General Authority

12220. Whenever by the provisions of any act of Congress the act is to be administered in the state by the Board of Governors of the Community Colleges, or Chancellor of the California Community Colleges, or any one or more of such officers, or agencies, the officers and agencies designated in the act of the Congress are authorized to administer the act in the state. Such officers and agencies are vested with all necessary power and authority to cooperate with the government of the United States, or any agency or agencies thereof in the administration of the act of Congress and rules and regulations lawfully adopted thereunder.

## CHAPTER 3. ADMINISTRATION OF FEDERAL PROGRAMS—OTHER AGENCIES

### Article 1. State Allocation Board

12300. Notwithstanding any provisions of Section 12020, 12220, and 12300 to 12307, inclusive, whenever by any act of Congress funds are provided as federal aid to education to the several states for apportionment or allocation to school districts or community college districts for the purposes set forth in this section, and such act of Congress does not require that it be administered in this state by a state officer or agency other than the State Allocation Board, such act, with respect to the funds herein mentioned, shall be administered and such funds shall be apportioned by the State Allocation Board under the Local Agency Allocation Act.

The funds to which this section shall apply are funds appropriated by Congress for (a) the purchase and improvement of school sites; or (b) the purchase of furniture and equipment; or (c) the planning and construction, reconstruction, repair, alteration of, and addition to, school buildings and incidental facilities.

The State Allocation Board shall by rule provide for securing the recommendations or approval of the Department of Education or the Board of Governors of the California Community Colleges, as the case may be, as to the facilities to be provided.

Funds apportioned under this section shall be paid in accordance with the provisions of Section 12302 on claims submitted by the Director of General Services.

The State Allocation Board is hereby authorized to accept any such

funds on behalf of the state, and to cooperate with the government of the United States or any agency or agencies thereof in the administration of the act of Congress and rules and regulations lawfully adopted thereunder.

12301. The State Treasurer is designated as the custodian of all funds received by the state from the government of the United States or of any agency or agencies thereof and he is authorized to receive, and provide for the proper custody of, all moneys so received.

12302. The funds received by the state under the provisions of Sections 12020, 12220, and 12300 to 12307, inclusive, shall be expended by the officers or agency administering the program to carry out the provisions of the act of the Congress and rules and regulations lawfully adopted thereunder. Such funds are exempt from the provisions of Section 925.6 of the Government Code and shall be paid out by the Treasurer on warrants drawn by the State Controller on claims submitted by the Director of Education or the Chancellor of the California Community Colleges.

12303. The assent of the state is given to the provisions in the act of Congress entitled "An act to promote the mining of potash on the public domain," and approved by the President February 7, 1927, and to the provisions of the act of Congress entitled "An act to authorize exploration for and disposition of potassium," approved by the President October 2, 1917.

12304. All money derived from bonuses, royalties, and rentals under the provisions of the acts of Congress referred to in Section 12303, or either of said acts, and apportioned under the acts, or either of said acts, to the state shall be received by the State Treasurer and by him paid to the school districts and community college districts of the state as provided in Sections 12303 to 12307, inclusive.

12305. The money shall be apportioned among the school districts and community college districts in which potash leases or deposits are situated in the proportion which the total amount of rents, royalties, and other payments made to the United States from potash leases or deposits in each district bears to the total amount paid to the United States from leases or deposits in all districts.

12306. If any potash deposit or lease or any part thereof is wholly located within the boundaries of two or more elementary, high or unified school districts, or community college districts, the districts shall share equally in the apportionments made under Section 12305 which are attributable to the lease or deposit or part thereof situated within their boundaries.

12307. The payments shall be deposited in the general fund of the districts and shall be in addition to any other moneys paid or credited to the districts.

## Article 2. State Treasurer

12320. The assent of the state is given to the provisions in the act of Congress entitled "An act to promote the mining of coal,

phosphate, oil, oil shale, gas and sodium on the public domain," and approved by the President, February 25, 1920.

All money derived from bonuses, royalties, and rentals under the act of Congress referred to in this section and apportioned under the act to the state, shall be received by the State Treasurer and by him credited to the State School Fund.

#### CHAPTER 4. PARTICIPATION IN FEDERAL PROGRAMS

12400. The Board of Governors of the State Nautical School on behalf of the State Nautical School, the governing board of a school district on behalf of any school or community college maintained by the district, and any county superintendent of schools is vested with all necessary power and authority to perform all acts necessary to receive the benefits and to expend the funds provided by any act of Congress heretofore or hereafter enacted, and with all necessary power and authority to cooperate with, or enter into agreements with, the government of the United States, or any agency or agencies thereof, and with the State Board of Education and with other school districts and private or public nonprofit organizations for the purpose of receiving the benefits and expending the funds provided by any such acts of Congress, in accordance with such acts, or any rules or regulations adopted thereunder, or any state plan or rules or regulations of the State Board of Education adopted in accordance with such acts of Congress. Participation may also include the expenditure by the governing board of the State Nautical School, by the governing board of any school district, or the county superintendent of schools of whatever funds may be required by the federal government as a condition to such participation.

Participation in the act of Congress known as the "Emergency Employment Act of 1971" (P.L. 92-54) may be undertaken notwithstanding the provisions of Section 44858 or 87427.

12401. To the extent permitted by, and pursuant to, federal law, such agreements may be entered into by the governing board of a school district or community college district without prior approval of the State Board of Education or Board of Governors of the California Community Colleges, as the case may be.

12402. The governing board of a school district and the governing board of a community college district, on behalf of any school or community college maintained by the district, and any county superintendent of schools, is vested with all necessary power and authority to perform all acts necessary, provided such acts are consistent with other provisions contained in this code, to implement nutrition programs for the elderly, so long as there is available funding for such programs. Nutrition programs for the elderly shall include, but shall not be limited to, programs authorized pursuant to the McCarthy-Kennick Nutrition Program for the Elderly Act of 1972 as provided by Chapter 5.5 (commencing with Section 18325) of Part 6 of Division 9 of the Welfare and Institutions Code.

12403. All acts or proceedings heretofore taken, in connection with receiving the benefits or expending the funds provided by these acts of Congress are hereby ratified and confirmed.

12404. The governing board of any community college district may participate in any program, including but not limited to programs authorized by the National Defense Education Act of 1958, as amended; the Higher Education Act of 1965, as amended, and the Vocational Education Act of 1963, as amended; and has the authority to perform all acts necessary to receive the benefits and to expend the funds provided by these federal acts.

Such governing board may authorize the expenditure of district funds required by the federal government as matching funds as a condition of implementing student financial assistance programs.

12405. The governing board of any school district or community college district is authorized to accept the provisions of any act of Congress under which federal funds are available for purposes of this chapter, and may participate in any program provided thereunder in order to accept and expend such federal funds pursuant to such act of Congress and this chapter. Participation may include the expenditure by the district of whatever funds may be required by the federal government as a condition to such participation.

## CHAPTER 5. INTERSTATE AGREEMENTS

### Article 1. Interstate Agreement on Qualification of Educational Personnel

12500. The Interstate Agreement on Qualification of Educational Personnel is hereby entered into with all jurisdictions joining therein, in the form as follows:

#### Article I

#### Purpose, Findings, and Policy

1. The states party to this agreement, desiring by common action to improve their respective school systems by utilizing the teacher or other professional educational person wherever educated, declare that it is the policy of each of them, on the basis of cooperation with one another, to take advantage of the preparation and experience of such persons wherever gained, thereby serving the best interests of society, of education, and of the teaching profession. It is the purpose of this agreement to provide for the development and execution of such programs of cooperation as will facilitate the movement of teachers and other professional educational personnel among the states party to it, and to authorize specific interstate educational personnel contracts to achieve that end.

2. The party states find that included in the large movement of population among all sections of the nation are many qualified

educational personnel who move for family and other personal reasons but who are hindered in using their professional skill and experience in their new locations. Variations from state to state in requirements for qualifying educational personnel discourage such personnel from taking the steps necessary to qualify in other states. As a consequence, a significant number of professionally prepared and experienced educators is lost to our school systems. Facilitating the employment of qualified educational personnel, without reference to their states of origin, can increase the available educational resources. Participation in this compact can increase the availability of educational manpower.

## Article II

### Definitions

As used in this agreement and contracts made pursuant to it, unless the context clearly requires otherwise:

1. "Educational personnel" means persons who must meet requirements pursuant to state law as a condition of employment in educational programs.

2. "Designated state official" means the education official of a state selected by that state to negotiate and enter into, on behalf of his state, contracts pursuant to this agreement.

3. "Accept," or any variant thereof, means to recognize and give effect to one or more determinations of another state relating to the qualifications of educational personnel in lieu of making or requiring a like determination that would otherwise be required by or pursuant to the laws of a receiving state.

4. "State" means a state, territory, or possession of the United States; the District of Columbia; or the Commonwealth of Puerto Rico.

5. "Originating state" means a state (and the subdivision thereof, if any) whose determination that certain educational personnel are qualified to be employed for specific duties in schools is acceptable in accordance with the terms of a contract made pursuant to Article III.

6. "Receiving state" means a state (and the subdivisions thereof) which accept educational personnel in accordance with the terms of a contract made pursuant to Article III.

## Article III

### Interstate Educational Personnel Contracts

1. The designated state official of a party state may make one or more contracts on behalf of his state with one or more other party states providing for the acceptance of educational personnel. Any such contract for the period of its duration shall be applicable to and

binding on the states whose designated state officials enter into it, and the subdivisions of those states, with the same force and effect as if incorporated in this agreement. A designated state official may enter into a contract pursuant to this article only with states in which he finds that there are programs of education, certification standards or other acceptable qualifications that assure preparation or qualification of educational personnel on a basis sufficiently comparable, even though not identical to that prevailing in his own state.

2. Any such contract shall provide for:

(a) Its duration.

(b) The criteria to be applied by an originating state in qualifying educational personnel for acceptance by a receiving state.

(c) Such waivers, substitutions, and conditional acceptances as shall aid the practical effectuation of the contract without sacrifice of basic educational standards.

(d) Any other necessary matters.

3. No contract made pursuant to this agreement shall be for a term longer than five years but any such contract may be renewed for like or lesser periods.

4. Any contract dealing with acceptance of educational personnel on the basis of their having completed an educational program shall specify the earliest date or dates on which originating state approval of the program or programs involved can have occurred. No contract made pursuant to this agreement shall require acceptance by a receiving state of any persons qualified because of successful completion of a program prior to January 1, 1954.

5. The certification or other acceptance of a person who has been accepted pursuant to the terms of a contract shall not be revoked or otherwise impaired because the contract has expired or been terminated. However, any certificate or other qualifying document may be revoked or suspended on any ground which would be sufficient for revocation or suspension of a certificate or other qualifying document initially granted or approved in the receiving state.

6. A contract committee composed of the designated state officials of the contracting states or their representatives shall keep the contract under continuous review, study means of improving its administration, and report no less frequently than once a year to the heads of the appropriate education agencies of the contracting states.

#### Article IV

##### Approved and Accepted Programs

1. Nothing in this agreement shall be construed to repeal or otherwise modify any law or regulation of a party state relating to the approval of programs of educational preparation having effect solely on the qualification of educational personnel within that state.

2. To the extent that contracts made pursuant to this agreement deal with the educational requirements for the proper qualification of educational personnel, acceptance of a program of educational preparation shall be in accordance with such procedures and requirements as may be provided in the applicable contract.

## Article V

### Interstate Cooperation

The party states agree that:

1. They will, so far as practicable, prefer the making of multilateral contracts pursuant to Article III of this agreement.

2. They will facilitate and strengthen cooperation in interstate certification and other elements of educational personnel qualification and for this purpose shall cooperate with agencies, organizations, and associations interested in certification and other elements of educational personnel qualification.

## Article VI

### Agreement Evaluation

The designated state officials of any party state may meet from time to time as a group to evaluate progress under the agreement, and to formulate recommendations for changes.

## Article VII

### Other Arrangements

Nothing in this agreement shall be construed to prevent or inhibit other arrangements or practices of any party state or states to facilitate the interchange of educational personnel.

## Article VIII

### Effect and Withdrawal

1. This agreement shall become effective when enacted into law by two states. Thereafter it shall become effective as to any state upon its enactment of this agreement.

2. Any party state may withdraw from this agreement by enacting a statute repealing the same, but no such withdrawal shall take effect until one year after the Governor of the withdrawing state has given notice in writing of the withdrawal to the Governors of all other party states.

3. No withdrawal shall relieve the withdrawing state of any obligation imposed upon it by a contract to which it is a party. The

duration of contracts and the methods and conditions of withdrawal therefrom shall be those specified in their terms.

## Article IX

### Construction and Severability

This agreement shall be liberally construed so as to effectuate the purposes thereof. The provisions of this agreement shall be severable and if any phrase, clause, sentence, or provision of this agreement is declared to be contrary to the Constitution of any state or of the United States, or the application thereof to any government, agency, person, or circumstance is held invalid, the validity of the remainder of this agreement and the applicability thereof to any government, agency, person, or circumstance shall not be affected thereby. If this agreement shall be held contrary to the Constitution of any state participating therein, the agreement shall remain in full force and effect as to the state affected as to all severable matters.

12501. The "designated state official" for this state shall be the Superintendent of Public Instruction. He shall enter into contracts pursuant to Article III of the agreement only with the approval of the specific text thereof by the State Board of Education.

### Article 2. Compact for Education

12510. The Compact for Education is hereby entered into with all jurisdictions joining therein, in the form as follows:

#### Article I. Purpose and Policy

(a) It is the purpose of this compact to:

1. Establish and maintain close cooperation and understanding among executive, legislative, professional educational and lay leadership on a nationwide basis at the state and local levels.

2. Provide a forum for the discussion, development, crystallization and recommendation of public policy alternatives in the field of education.

3. Provide a clearinghouse of information on matters relating to educational problems and how they are being met in different places throughout the nation, so that the executive and legislative branches of state government and of local communities may have ready access to the experience and record of the entire country, and so that both lay and professional groups in the field of education may have additional avenues for the sharing of experience and the interchange of ideas in the formation of public policy in education.

4. Facilitate the improvement of state and local educational systems so that all of them will be able to meet adequate and desirable goals in a society which requires continuous qualitative and

quantitative advance in educational opportunities, methods and facilities.

(b) It is the policy of this compact to encourage and promote local and state initiative in the development, maintenance, improvement and administration of educational systems and institutions in a manner which will accord with the needs and advantages of diversity among localities and states.

(c) The party states recognize that each of them has an interest in the quality and quantity of education furnished in each of the other states, as well as in the excellence of its own educational systems and institutions, because of the highly mobile character of individuals within the nation, and because the products and services contributing to the health, welfare and economic advancement of each state are supplied in significant part by persons educated in other states.

## Article II. State Defined

As used in this compact, "state" means a state, territory or possession of the United States, the District of Columbia, or the Commonwealth of Puerto Rico.

## Article III. The Commission

(a) The Educational Commission of the States, hereinafter called "the commission," is hereby established. The commission shall consist of seven members representing each party state. One of such members shall be the governor, two shall be members of the state legislature selected by its respective houses and serving in such manner as the legislature may determine; and four shall be appointed by and serve at the pleasure of the governor, unless the laws of the state otherwise provide. If the laws of a state prevent legislators from serving on the commission, six members shall be appointed and serve at the pleasure of the governor, unless the laws of the state otherwise provide. In addition to any other principles or requirements which a state may establish for the appointment and service of its members of the commission, the guiding principle for the composition of the membership on the commission from each party state shall be that the members representing such state shall, by virtue of their training, experience, knowledge or affiliations be in a position collectively to reflect broadly the interests of the state government, higher education, the state education system, local education, lay and professional, public and nonpublic educational leadership. Of those appointees, one shall be the head of a state agency or institution, designated by the governor, having responsibility for one or more programs of public education. In addition to the members of the commission representing the party states, there may be not to exceed 10 nonvoting commissioners selected by the steering committee for terms of one year. Such

commissioners shall represent leading national organizations of professional educators or persons concerned with educational administration.

(b) The members of the commission shall be entitled to one vote each on the commission. No action of the commission shall be binding unless taken at a meeting at which a majority of the total number of votes on the commission are cast in favor thereof. Action of the commission shall be only at a meeting at which a majority of the commissioners are present. The commission shall meet at least once a year. In its bylaws, and subject to such directions and limitations as may be contained therein, the commission may delegate the exercise of any of its powers to the steering committee or the executive director, except for the power to approve budgets or requests for appropriations, the power to make policy recommendations pursuant to Article IV and adoption of the annual report pursuant to Article III (j).

(c) The commission shall have a seal.

(d) The commission shall elect annually, from among its members, a chairman, who shall be a governor, a vice chairman and a treasurer. The commission shall provide for the appointment of an executive director. Such executive director shall serve at the pleasure of the commission, and together with the treasurer and such other personnel as the commission may deem appropriate shall be bonded in such amount as the commission shall determine. The executive director shall be secretary.

(e) Irrespective of the civil service, personnel or other merit system laws of any of the party states, the executive director subject to the approval of the steering committee shall appoint, remove or discharge such personnel as may be necessary for the performance of the functions of the commission, and shall fix the duties and compensation of such personnel. The commission in its bylaws shall provide for the personnel policies and programs of the commission.

(f) The commission may borrow, accept or contract for the services of personnel from any party jurisdiction, the United States, or any subdivision or agency of the aforementioned governments, or from any agency of two or more of the party jurisdictions or their subdivisions.

(g) The commission may accept for any of its purposes and functions under this compact any and all donations, and grants of money, equipment, supplies, materials and services, conditional or otherwise, from any state, the United States, or any other governmental agency, or from any person, firm, association, foundation, or corporation, and may receive, utilize and dispose of the same. Any donation or grant accepted by the commission pursuant to this paragraph or services borrowed pursuant to paragraph (f) of this article shall be reported in the annual report of the commission. Such report shall include the nature, amount and conditions, if any, of the donation, grant, or services borrowed, and the identity of the donor or lender.

(h) The commission may establish and maintain such facilities as may be necessary for the transacting of its business. The commission may acquire, hold, and convey real and personal property and any interest therein.

(i) The commission shall adopt bylaws for the conduct of its business and shall have the power to amend and rescind these bylaws. The commission shall publish its bylaws in convenient form and shall file a copy thereof and a copy of any amendments thereto, with the appropriate agency or officer in each of the party states.

(j) The commission annually shall make to the governor and legislature of each party state a report covering the activities of the commission for the preceding year. The commission may make such additional reports as it may deem desirable.

#### Article IV. Powers

In addition to authority conferred on the commission by other provisions of the compact, the commission shall have authority to:

1. Collect, correlate, analyze and interpret information and data concerning educational needs and resources.

2. Encourage and foster research in all aspects of education, but with special reference to the desirable scope of instruction, organization, administration, and instructional methods and standards employed or suitable for employment in public educational systems.

3. Develop proposals for adequate financing of education as a whole and at each of its many levels.

4. Conduct or participate in research of the types referred to in this article in any instance where the commission finds that such research is necessary for the advancement of the purposes and policies of this compact, utilizing fully the resources of national associations, regional compact organizations for higher education, and other agencies and institutions, both public and private.

5. Formulate suggested policies and plans for the improvement of public education as a whole, or for any segment thereof, and make recommendations with respect thereto available to the appropriate governmental units, agencies and public officials.

6. Do such other things as may be necessary or incidental to the administration of any of its authority or functions pursuant to this compact.

#### Article V. Cooperation with Federal Government

(a) If the laws of the United States specifically so provide, or if administrative provision is made therefor within the federal government, the United States may be represented on the commission by not to exceed 10 representatives. Any such representative or representatives of the United States shall be appointed and serve in such manner as may be provided by or

pursuant to federal law, and may be drawn from any one or more branches of the federal government, but no such representative shall have a vote on the commission.

(b) The commission may provide information and make recommendations to any executive or legislative agency or officer of the federal government concerning the common educational policies of the states, and may advise with any such agencies or officers concerning any matter of mutual interest.

#### Article VI. Committees

(a) To assist in the expeditious conduct of its business when the full commission is not meeting, the commission shall elect a steering committee of 32 members which, subject to the provisions of this compact and consistent with the policies of the commission, shall be constituted and function as provided in the bylaws of the commission. One-fourth of the voting membership of the steering committee shall consist of governors, one-fourth shall consist of legislators, and the remainder shall consist of other members of the commission. A federal representative on the commission may serve with the steering committee, but without vote. The voting members of the steering committee shall serve for terms of two years, except that members elected to the first steering committee of the commission shall be elected as follows: 16 for 1 year and 16 for 2 years. The chairman, vice chairman, and treasurer of the commission shall be members of the steering committee and, anything in this paragraph to the contrary notwithstanding, shall serve during their continuance in these offices. Vacancies in the steering committee shall not affect its authority to act, but the commission at its next regularly ensuing meeting following the occurrence of any vacancy shall fill it for the unexpired term. No person shall serve more than two terms as a member of the steering committee; provided that service for a partial term of one year or less shall not be counted toward the two-term limitation.

(b) The commission may establish advisory and technical committees composed of state, local, and federal officials, and private persons to advise it with respect to any one or more of its functions. Any advisory or technical committee may, on request of the states concerned, be established to consider any matter of special concern to two or more of the party states.

(c) The commission may establish such additional committees as its bylaws may provide.

#### Article VII. Finance

(a) The commission shall advise the governor or designated officer or officers of each party state of its budget and estimated expenditures for such period as may be required by the laws of that party state. Each of the commission's budgets of estimated

expenditures shall contain specific recommendations of the amount or amounts to be appropriated by each of the party states.

(b) The total amount of appropriation requests under any budget shall be apportioned among the party states. In making such apportionment, the commission shall devise and employ a formula that takes equitable account of the populations and per capita income levels of the party states.

(c) The commission shall not pledge the credit of any party states. The commission may meet any of its obligations in whole or in part with funds available to it pursuant to Article III(g) of this compact, provided that the commission takes specific action setting aside such funds prior to incurring an obligation to be met in whole or in part in such manner. Except where the commission makes use of funds available to it pursuant to Article III(g) thereof, the commission shall not incur any obligation prior to the allotment of funds by the party states adequate to meet the same.

(d) The commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the commission shall be subject to the audit and accounting procedures established by its bylaws. However, all receipts and disbursements of funds handled by the commission shall be audited yearly by a qualified public accountant, and the report of the audit shall be included in and become part of the annual reports of the commission.

(e) The accounts of the commission shall be open at any reasonable time for inspection by duly constituted officers of the party states and by any persons authorized by the commission.

(f) Nothing contained herein shall be construed to prevent commission compliance with laws relating to audit or inspection of accounts by or on behalf of any government contributing to the support of the commission.

#### Article VIII. Eligible Parties; Entry Into and Withdrawal

(a) This compact shall have as eligible parties all states, territories, and possessions of the United States, the District of Columbia, and the Commonwealth of Puerto Rico. In respect of any such jurisdiction not having a governor, the term "governor," as used in this compact, shall mean the closest equivalent official of such jurisdiction.

(b) Any state or other eligible jurisdiction may enter into this compact and it shall become binding thereon when it has adopted the same: provided that in order to enter into initial effect, adoption by at least 10 eligible party jurisdictions shall be required.

(c) Adoption of the compact may be either by enactment thereof or by adherence thereto by the governor; provided that in the absence of enactment, adherence by the governor shall be sufficient to make his state a party only until December 31, 1967. During any period when a state is participating in this compact through gubernatorial action, the governor shall appoint those persons who,

in addition to himself, shall serve as the members of the commission from his state, and shall provide to the commission an equitable share of the financial support of the commission from any source available to him.

(d) Except for a withdrawal effective on December 31, 1967, in accordance with paragraph (c) of this article, any party state may withdraw from this compact by enacting a statute repealing the same, but no such withdrawal shall take effect until one year after the governor of the withdrawing state has given notice in writing of the withdrawal to the governors of all other party states. No withdrawal shall affect any liability already incurred by or chargeable to a party state prior to the time of such withdrawal.

### Article IX. Construction and Severability

This compact shall be liberally construed so as to effectuate the purposes thereof. The provisions of this compact shall be severable and if any phrase, clause, sentence or provision of this compact is declared to be contrary to the constitution of any state or of the United States, or the application thereof to any government, agency, person or circumstance is held invalid, the validity of the remainder of this compact and the applicability thereof to any government, agency, person or circumstance shall not be affected thereby. If this compact shall be held contrary to the constitution of any state participating therein, the compact shall remain in full force and effect as to the state affected as to all severable matters.

12511. Pursuant to Article III(i) of the compact, the commission shall file a copy of its bylaws and any amendment thereto with the Secretary of State.

12512. The Member of the Assembly who shall serve upon the Educational Commission of the States representing the State of California shall be selected by the Speaker of the Assembly, and the Member of the Senate who shall serve thereon shall be selected by the Senate Committee on Rules. Each legislative member shall serve at the pleasure of the appointing power. For the purposes of this chapter, such Members of the Legislature shall constitute a joint interim legislative committee on the subject of this chapter and shall have the powers and duties imposed upon such committees by the Joint Rules of the Senate and Assembly.

12513. At the same time as the report rendered to the governors and legislatures of the states is made available in California pursuant to Article III(j) of the compact, the California delegation to the Educational Commission of the States shall submit to the Governor and to the Legislature of this state a summary of its views that differ from the recommendations submitted by the Educational Commission of the States.

12514. The members of the California delegation to the Educational Commission of the States shall receive no salary, but

shall receive actual and necessary expenses incurred in fulfilling their duties.

12515. Notwithstanding any provisions of the Compact for Education set out in Section 12510 to the contrary, the four persons to be appointed by the Governor of California to serve as members of the Educational Commission of the States, shall be the following:

(a) Either a member of the State Board of Education, or a member of a local school district governing board.

(b) Either the Superintendent of Public Instruction, or another individual representing the public school system of this state or private elementary and secondary schools of this state.

(c) An individual representing the public institutions of higher education in this state.

(d) An individual representing the private institutions of higher education in this state.

12516. (a) This chapter shall remain operative until December 31, 1976, and after such date shall have no force or effect.

(b) The Legislature shall, at its 1973-74 Regular Session, and each fourth year thereafter, review the matter of California's participation in the Compact for Education to determine whether California should continue to be a party to the compact and thus whether the operation of this article should be extended.

## PART 9. FINANCE

### CHAPTER 1. STATE SCHOOL FUND

#### Article 1. Sources, Conditions of Apportionments, Amounts of Support Per Average Daily Attendance

14000. It is the intent of the Legislature that the administration of the laws governing the financial support of the public school system in this state be conducted within the purview of the following principles and policies:

The system of public school support should be designed to strengthen and encourage local responsibility for control of public education. Local school districts and community college districts should be so organized that they can facilitate the provision of full educational opportunities for all who attend the public schools. Local control is best accomplished by the development of strong, vigorous, and properly organized local school administrative units. It is the state's responsibility to create or facilitate the creation of local districts of sufficient size to properly discharge local responsibilities and to spend the tax dollar effectively.

Effective local control requires that all local administrative units contribute to the support of school budgets in proportion to their respective abilities, and that all have such flexibility in their taxing programs as will readily permit of progress in the improvement of the educational program. Effective local control requires a local

taxing power, and a local tax base which is not unduly restricted or overburdened.

The system of public school support should assure that state, local, and other funds are adequate for the support of a realistic foundation program. It is unrealistic and unfair to the less wealthy districts to provide for only a part of the financing necessary for an adequate educational program.

The system of public school support should permit and encourage local school districts and community college districts to provide and support improved district organization and educational programs. The system of public school support should prohibit the introduction of undesirable organization and educational practices, and should discourage any such practices now in effect. Improvement of programs in particular districts is in the interests of the state as a whole as well as of the people in individual districts, since the excellence of the programs in some districts will tend to bring about program improvement in other districts.

The system of public school support should make provision for the apportionment of state funds to local districts on a strictly objective basis that can be computed as well by the local districts as by the state. The principle of local responsibility requires that the granting of discretionary powers to state officials over the distribution of state aid and the granting to these officials of the power to impose undue restriction on the use of funds and the conduct of educational programs at the local level be avoided.

The system of public school support should effect a partnership between the state, the county, and the local district and community college districts, with each participating equitably in accordance with its relative ability. The respective abilities should be combined to provide a financial plan between the state and the local agencies known as the foundation program for public school support. Toward this foundation program, each county and district, through a uniform method should contribute in accordance with its true financial ability.

The system of public school support should provide, through the foundation program, for essential educational opportunities for all who attend the public schools. Provision should be made in the foundation program for adequate financing of all educational services.

The broader based taxing power of the state should be utilized to raise the level of financial support in the properly organized but financially weak districts of the state, thus contributing greatly to the equalization of educational opportunity for the students residing therein. It should also be used to provide a minimum amount of guaranteed support to all districts, for such state assistance serves to develop among all districts a sense of responsibility to the entire system of public education in the state. State assistance to all districts also would create a tax leeway for the exercise of local initiative.

14002. (a) The State Controller shall during each fiscal year

transfer from the General Fund of the state to that portion of the State School Fund restricted for elementary and high school purposes, hereinafter called Section A of the State School Fund such sums, in addition to the sums accruing from other sources, as shall provide in Section A of the State School Fund for apportionment during the fiscal year a total amount per pupil in average daily attendance during the preceding fiscal year credited to all elementary, high, and unified school districts and to all county superintendents of schools in the state, as certified by the Superintendent of Public Instruction, of one hundred eighty dollars (\$180).

(b) The Controller shall also transfer, as needed during each fiscal year, such additional amounts from the General Fund to Section A of the State School Fund as are certified from time to time by the Superintendent of Public Instruction to be necessary to meet actual computed apportionments from Section A of the State School Fund for the purposes set forth in Section 17303.5; provided that the total of such additional amounts transferred in a fiscal year shall not exceed, except pursuant to subdivision (c) of this section, two hundred thirteen dollars and ninety-six cents (\$213.96) for the fiscal year 1974-75 and fiscal years thereafter, per pupil in average daily attendance during the preceding fiscal year credited to all elementary, high, and unified school districts and to all county superintendents of schools in the state, as certified by the Superintendent of Public Instruction, less the amount, if any, by which seventy-nine cents (\$0.79) multiplied by the number of units of average daily attendance credited during the preceding fiscal year to all elementary, high, and unified school districts and to all county superintendents of schools in the state exceeds twenty-one dollars and fifty cents (\$21.50) multiplied by the total average daily attendance credited during the preceding school year to elementary school districts which during the preceding school year had less than 901 units of average daily attendance, to high school districts which during the preceding school year had less than 301 units of average daily attendance, and to unified districts which during the preceding school year had less than 1,501 units of average daily attendance.

(c) In addition to the amounts authorized to be transferred to Section A of the State School Fund under subdivisions (a) and (b) of this section, the Controller shall transfer from the General Fund to Section A of the State School Fund during the fiscal year, upon certification of the Superintendent of Public Instruction, if necessary to meet actual computed apportionments for the fiscal year for the purposes set forth in Sections 17303 and 17303.5, an amount not to exceed the lesser of: (1) 1 percent of the total apportionment from Section A of the State School Fund in the preceding fiscal year for the purposes set forth in Sections 17303 and 17303.5, or (2) the net amount, if any, by which the total amounts authorized to be transferred from the General Fund to Section A of the State School Fund under subdivisions (a) and (b) of this section in prior fiscal

years have exceeded the total amounts actually apportioned in prior fiscal years for the purposes set forth in Sections 17303 and 17303.5.

(d) He shall also transfer to Section A of the State School Fund any additional amounts appropriated thereto by the Legislature in augmentation of any of the amounts prescribed for any of the purposes set forth in Sections 17303 and 17303.5 and such additional amounts shall be allowed and apportioned by the Superintendent of Public Instruction and warrants therefor drawn by the Controller in the manner provided in Articles 1 (commencing with Section 17300), 2 (commencing with Section 17351), and 3 (commencing with Section 17401) of this chapter, in Sections 11256 and 17251, and in Chapter 3 (commencing with Section 17601) of this division.

(e) Commencing with the 1974-75 fiscal year, the unit amounts under subdivisions (a) and (b) of this section shall be considered to be cumulatively increased or decreased, as the case may be, by an amount equal to the percentage increase or decrease of the statewide ratio of assessed valuation per unit of kindergarten through grade 12 statewide average daily attendance, excluding defined adults, using in such ratios the data for the preceding year compared with the second preceding year.

For the 1974-75 fiscal year, each elementary and high school foundation program shall be increased by sixty dollars (\$60) except that if the percentage increase of the statewide ratio of assessed valuation per unit of average daily attendance in kindergarten and grades 1 to 12, inclusive, determined in subdivision (e) is less than seven, the sixty dollars (\$60) shall be reduced proportionately, but to no less than fifty dollars (\$50).

The Superintendent of Public Instruction shall prepare a report for the Legislature, to be submitted by December 1, 1976, which shall show the most current trends in costs for school districts, equalization of school district expenditures per average daily attendance, equalizations of property taxation for schools, adequacy levels in expenditures per average daily attendance, school enrollment, assessed valuations, assessed valuation per average daily attendance, and general cost changes in the state for the purpose of giving the Legislature information that the Legislature may use to enact new provisions about increases or decreases in the foundation programs for public school support.

(f) The amounts transferred pursuant to this section shall include the amounts required to be transferred by Section 16130 of the Government Code, exclusive of the amounts required to be transferred pursuant to Section 16130 of the Government Code for the educational need factor and the Early Childhood Educational Program (Chapter 1147, Statutes of 1972).

(Repealed and added by Stats. 1976, Ch. 1011.)

[ORIGINAL SECTION]

14002. (a) The State Controller shall during each fiscal year transfer from the General Fund of the state to that portion of the State School Fund restricted for elementary and high school purposes, hereinafter called Section A of the State School

Fund such sums, in addition to the sums accruing from other sources, as shall provide in Section A of the State School Fund for apportionment during the fiscal year a total amount per pupil in average daily attendance during the preceding fiscal year credited to all elementary, high, and unified school districts and to all county superintendents of schools in the state, as certified by the Superintendent of Public Instruction, of one hundred eighty dollars (\$180).

(b) The Controller shall also transfer, as needed during each fiscal year, such additional amounts from the General Fund to Section A of the State School Fund as are certified from time to time by the Superintendent of Public Instruction to be necessary to meet actual computed apportionments from Section A of the State School Fund for the purposes set forth in Section 41301: provided that the total of such additional amounts transferred in a fiscal year shall not exceed, except pursuant to subdivision (c) of this section, two hundred thirteen dollars and ninety-six cents (\$213.96) for the fiscal year 1974-75 and fiscal years thereafter, per pupil in average daily attendance during the preceding fiscal year credited to all elementary, high, and unified school districts and to all county superintendents of schools in the state, as certified by the Superintendent of Public Instruction, less the amount, if any, by which seventy-nine cents (\$0.79) multiplied by the number of units of average daily attendance credited during the preceding fiscal year to all elementary, high, and unified school districts and to all county superintendents of schools in the state exceeds twenty-one dollars and fifty cents (\$21.50) multiplied by the total average daily attendance credited during the preceding school year to elementary school districts which during the preceding school year had less than 901 units of average daily attendance, to high school districts which during the preceding school year had less than 301 units of average daily attendance, and to unified districts which during the preceding school year had less than 1,501 units of average daily attendance.

(c) In addition to the amounts authorized to be transferred to Section A of the State School Fund under subdivisions (a) and (b) of this section, the Controller shall transfer from the General Fund to Section A of the State School Fund during the fiscal year, upon certification of the Superintendent of Public Instruction, if necessary to meet actual computed apportionments for the fiscal year for the purposes set forth in Sections 41300 and 41301, an amount not to exceed the lesser of (1) 1 percent of the total apportionment from Section A of the State School Fund in the preceding fiscal year for the purposes set forth in Sections 41300 and 41301, or (2) the net amount, if any, by which the total amounts authorized to be transferred from the General Fund to Section A of the State School Fund under subdivisions (a) and (b) of this section in prior fiscal years have exceeded the total amounts actually apportioned in prior fiscal years for the purposes set forth in Sections 41300 and 41301.

(d) He shall also transfer to Section A of the State School Fund any additional amounts appropriated thereto by the Legislature in augmentation of any of the amounts prescribed for any of the purposes set forth in Sections 41300 and 41301 and such additional amounts shall be allowed and apportioned by the Superintendent of Public Instruction and warrants therefor drawn by the Controller in the manner provided in Article 1 (commencing with Section 14000) and Article 2 (commencing with Section 14040) of Chapter 1 of Part 9 of this division, and Article 3 (commencing with Section 41330) of Chapter 3 of Part 24 of Division 3 of Title 2, and in Sections 46304, 84503, and 41050, and Article 1 (commencing with Section 41600) of Chapter 4 of Part 24 of Division 3 of Title 2.

(e) Commencing with the 1974-75 fiscal year, the unit amounts under subdivisions (a) and (b) of this section shall be considered to be increased or decreased, as the case may be, by an amount equal to the percentage increase or decrease of the statewide ratio of assessed valuation per unit of kindergarten through grade 12 statewide average daily attendance, excluding defined adults, using in such ratios the data for the preceding year compared with the second preceding year.

The Superintendent of Public Instruction shall adjust the foundation program levels as follows:

For the 1974-75 fiscal year, each elementary and high school foundation program shall be increased by sixty dollars (\$60) except that if the percentage increase of the statewide ratio of assessed valuation per unit average daily attendance in kindergarten and grades 1 to 12, inclusive, determined in subdivision (e) is less than seven, the sixty

dollars (\$60) shall be reduced proportionately, but to no less than fifty dollars (\$50). The foundation program for defined adults in high school districts shall be increased by twenty-seven dollars (\$27).

For the 1975-76 fiscal year, each elementary and high school foundation program shall be increased by sixty-three dollars (\$63) except that if the percentage increase of the statewide ratio of assessed valuation per units of average daily attendance in kindergarten and grades 1 to 12, inclusive, determined in subdivision (e) is less than seven, the sixty-three dollars (\$63) shall be reduced proportionately, but to no less than fifty-three dollars (\$53). The foundation program for defined adults in high school districts shall be increased by twenty-nine dollars (\$29).

For the 1976-77 fiscal year, each elementary and high school foundation program shall be increased by sixty-six dollars (\$66) except that if the percentage increase of the statewide ratio of assessed valuation per units of average daily attendance in kindergarten and grades 1 to 12, inclusive, determined in subdivision (e) is less than seven, the sixty-six dollars (\$66) shall be reduced proportionately, but to no less than fifty-six dollars (\$56). The foundation program for defined adults in high school districts shall be increased by thirty-one dollars (\$31).

The Superintendent of Public Instruction shall prepare a report for the Legislature, to be submitted by December 1, 1976, which shall show the most current trends in costs for school districts, equalization of school district expenditures per average daily attendance, equalizations of property taxation for schools, adequacy levels in expenditures per average daily attendance, school enrollment, assessed valuations, assessed valuation per average daily attendance, and general cost changes in the state for the purpose of giving the Legislature information that the Legislature may use to enact new provisions about increases or decreases in the foundation programs for public school support. For the 1977-78 fiscal year and fiscal years thereafter, and if the Legislature does not provide otherwise, the increase in elementary and high school foundation programs shall be 6 percent times an amount which is determined as follows: (1) Multiply the unit elementary school foundation program for unified districts which have an elementary average daily attendance of 901 or more by the elementary foundation program units of average daily attendance of unified districts with 901 or more elementary average daily attendance, plus (2) multiply the unit high school foundation program for unified districts which have a high school average daily attendance of 301 or more, by the average daily attendance of unified districts with 301 or more high school average daily attendance, and (3) divide the result by the sum of the average daily attendance in unified districts with 901 or more elementary average daily attendance plus the average daily attendance in unified districts with 301 or more high school average daily attendance.

The increase in the foundation program for defined adults in high schools shall be 6 percent times the foundation program for defined adults of the prior year.

(f) The amounts transferred pursuant to this section shall include the amounts required to be transferred by Section 16130 of the Government Code, exclusive of the amounts required to be transferred pursuant to Section 16130 of the Government Code for the educational need factor and the Early Childhood Educational Program (Chapter 1147, Statutes of 1972).

14003. (a) The State Controller shall during each fiscal year, commencing with the 1974-75 fiscal year, transfer from the General Fund to Section A of the State School Fund such amount, in addition to all other amounts appropriated and transferred to Section A of the State School Fund, as shall provide in Section A of the State School Fund for apportionment during the fiscal year a total amount per pupil in average daily attendance during the preceding fiscal year credited to all elementary, high, and unified school districts and to all county superintendents of schools in the state as certified by the Superintendent of Public Instruction, of eleven dollars and sixty-four cents (\$11.64) in the 1974-75 fiscal year and an additional one dollar and fifty-nine cents (\$1.59) in each fiscal year thereafter to a

maximum of eighteen dollars (\$18).

The amounts transferred pursuant to this section shall be apportioned and disbursed by the Superintendent of Public Instruction as an increase per unit of average daily attendance in the foundation programs prescribed in Section 41716 or 84725.

14004. In addition to all other funds appropriated and transferred to Section A of the State School Fund, the Controller shall annually transfer from the General Fund to Section A of this State School Fund for apportionment during the fiscal year a total amount per pupil in average daily attendance during the preceding fiscal year credited to all elementary, high, and unified school districts and to all county superintendents of schools in the state as certified by the Superintendent of Public Instruction of fourteen cents (\$.14).

14005. (a) The amount to be transferred to Section A of the State School Fund under Section 14002 shall in each fiscal year be adjusted for errors of average daily attendance reported in prior fiscal years. Adjustment of such errors will be subject to the time limitations as provided in Section 41341. Such adjustments with regard to the amount to be transferred to Section A of the State School Fund shall be at the state's rate of contribution under Section 14002 in effect in the fiscal year to which the error applied, and shall be applied in accordance with the purposes set forth under Section 41300. The amount of any adjustment shall not, however, cause the amount to be transferred to Section A of the State School Fund during any fiscal year under Section 14002 to be less than one hundred eighty dollars (\$180) per pupil in average daily attendance during the preceding fiscal year credited to all elementary, high, and unified school districts and to all county superintendents of schools in the state.

(b) If in any fiscal year the amount transferred to Section A of the State School Fund under Sections 41304 and 41307 is reported to be in error, the Superintendent of Public Instruction shall notify the Controller of such error, and he shall add to or withhold from the next apportionment moneys due the district by transfers from or returns to the General Fund of such erroneous amounts.

14020. (a) The State Controller shall during each fiscal year transfer from the General Fund of the state to that portion of the State School Fund restricted for community college purposes, hereinafter called Section B of the State School Fund, such sums, in addition to the sums accruing from other sources, as shall provide in Section B of the State School Fund for apportionment during the fiscal year a total amount per pupil in average daily attendance during the preceding fiscal year credited to all community colleges and adult schools maintained in conjunction with community colleges in the state, as certified by the Chancellor of the California Community Colleges, of one hundred eighty dollars (\$180).

(b) The Controller shall also transfer, as needed during each fiscal year, such additional amounts from the General Fund to Section B of the State School Fund as are certified from time to time by the Chancellor of the California Community Colleges to be necessary to

meet actual computed apportionments from the State School Fund for the purposes set forth in Section 84300; provided that the total of such additional amounts transferred in a fiscal year shall not exceed, except pursuant to subdivision (c) of this section, three hundred one dollars and eighty-nine cents (\$301.89) for the 1974-75 fiscal year and fiscal years thereafter, per pupil in average daily attendance during the preceding fiscal year credited to all community colleges and adult schools maintained in conjunction with community colleges in the state, as certified by the Chancellor of the California Community Colleges.

(c) In addition to the amounts authorized to be transferred to Section B of the State School Fund from the General Fund under subdivisions (a) and (b) of this section, the Controller shall transfer from the General Fund to Section B of the State School Fund during the fiscal year, upon certification of the Chancellor of the California Community Colleges, if necessary to meet actual computed apportionments for the fiscal year for the purposes set forth in Section 84300, an amount not to exceed 1 percent of the total apportionment from Section B of the State School Fund in the preceding fiscal year for the purposes set forth in Section 84300.

(d) He shall also transfer to Section B of the State School Fund any additional amounts appropriated thereto by the Legislature in augmentation of any of the amounts prescribed for any of the purposes set forth in Section 84300 and such additional amounts shall be allowed and apportioned by the Chancellor of the California Community Colleges and warrants therefor drawn by the Controller in the manner provided in Article 1 (commencing with Section 14000) and Article 2 (commencing with Section 14040) of Chapter 1 of Part 9 of this division, and Article 3 (commencing with Section 41330) of Chapter 3 of Part 24 of Division 3 of Title 2, and in Sections 41050, 46304, and 84503, and Article 1 (commencing with Section 41600) of Chapter 4 of Part 24 of Division 3 of Title 2.

14021. (a) The amount to be transferred to Section B of the State School Fund under Section 14020 shall in each fiscal year be adjusted for errors of average daily attendance reported in prior fiscal years. Adjustment of such errors will be subject to the time limitations as provided in Section 41341 or 84330. Such adjustments with regard to the amount to be transferred to Section B of the State School Fund shall be at the state's rate of contribution under Section 14020 in effect in the fiscal year to which the error applied, and shall be applied in accordance with the purposes set forth under Section 84300. The amount of any adjustment shall not, however, cause the amount to be transferred to Section B of the State School Fund during any fiscal year under Section 14020 to be less than one hundred eighty dollars (\$180) per pupil in average daily attendance during the preceding fiscal year credited to all community colleges and adult schools maintained in conjunction with community colleges in the state.

14022. The State Controller shall during each fiscal year,

commencing with the 1974-75 fiscal year, transfer from the General Fund to Section B of the State School Fund such amount, in addition to all other amounts appropriated and transferred to Section B of the State School Fund, as shall provide in Section B of the State School Fund for apportionment during the fiscal year a total amount per pupil in average daily attendance during the preceding fiscal year credited to all community college districts in the state as certified by the Chancellor of the California Community Colleges of fourteen dollars and fifty-six cents (\$14.56) in the 1974-75 fiscal year and an additional two dollars and eighty cents (\$2.80) in each fiscal year thereafter to a maximum of twenty-five dollars and seventy-six cents (\$25.76).

The amounts transferred pursuant to this section shall be apportioned and disbursed by the Chancellor of the California Community Colleges as an increase per unit of average daily attendance in the foundation programs prescribed in Section 41716 or 84725.

14030. (a) The Controller shall also transfer from the General Fund to the State School Fund the sum of seventeen dollars (\$17) per unit of average daily attendance during the preceding fiscal year credited to all kindergarten, elementary, high school, community college, and adult schools in the state, and to the county school tuition funds.

(b) The Controller shall also transfer an amount sufficient to increase the foundation program for other than adults, as defined, in community colleges by sixty dollars (\$60) for the 1974-75 fiscal year, by sixty-three dollars (\$63) for the 1975-76 fiscal year, and by sixty-six dollars (\$66) for the 1976-77 fiscal year and each succeeding fiscal year thereafter, unless revised by the Legislature prior to July 1, 1977.

(c) The Controller shall also transfer an amount sufficient to increase the foundation program for adults, as adults are defined in Section 5756, in community colleges by 7 percent for the 1974-75, 1975-76, and 1976-77 fiscal years, and by 6 percent for the 1977-78 fiscal year, and fiscal years thereafter, unless revised by the Legislature prior to July 1, 1977.

The Superintendent of Public Instruction shall adjust the foundation program levels prescribed for community college districts in order to reflect the adjustments made pursuant to this subdivision.

14035. The county school service fund contingency account is hereby established in the General Fund. In each fiscal year the amount credited to the account shall be one hundred thousand dollars (\$100,000). Notwithstanding any provision of Section 14002 to the contrary, the amount to be credited to the county school service fund contingency account each fiscal year shall not be transferred from the General Fund as required or authorized to be transferred by Section 14002 but the amounts required or authorized to be transferred by Section 14002 shall be reduced by the amount to be credited to the contingency account and shall remain in the General

Fund to the credit of the contingency account.

The money in the General Fund to the credit of the contingency account shall be transferred by the Controller to the State School Fund in amounts as are certified from time to time by the Superintendent of Public Instruction to be necessary to meet actual costs to reimburse county superintendents of schools for expenses incurred in providing emergency education to pupils and making financial grants to school districts pursuant to Section 1602 and to reimburse county superintendents of schools for the actual and necessary travel expenses incurred in connection with cooperative county publication projects by the county superintendent of schools or members of his staff, and to reimburse county superintendents of schools for expenses incurred in making emergency financial grants to school districts pursuant to Section 1886.

Commencing with the 1964-65 fiscal year, the amount credited, pursuant to this section, in each fiscal year to the county school service fund contingency account in the General Fund shall be reduced by the amount of the balance remaining to the account on June 30 of the preceding fiscal year and an equal reduction shall be made in the amount of the reduction in the amounts required or authorized to be transferred under Section 14002 in accordance with this section.

## Article 2. Maintenance, Amount and Manner of Drawing Warrants

14040. The Controller shall keep a separate account of the State School Fund, and of the interest and income thereof, together with such money as is raised by special tax or otherwise for school purposes.

14041. (a) The Controller shall draw warrants on the State Treasury in favor of the county treasurer of each county in each month of each year in the amounts and manner as herein prescribed so as to provide in each warrant a portion of the total amount certified by the Superintendent of Public Instruction or Chancellor of the California Community Colleges as apportioned under the provisions of Sections 41330 to 41343 and 84320 to 84332, inclusive, and Chapter 4 (commencing with Section 41600) and Chapter 5 (commencing with Section 41700) of Part 24 of Division 3 of Title 2, inclusive, during the fiscal year from the State School Fund to the school districts under the jurisdiction of the county superintendent of schools of the county, to the county school service fund, and to the county school tuition fund of the county.

(1) Warrants for amounts allowed to the county school service funds under subsections (a) and (b) of Section 14054 shall be for amounts equal to 6 percent in July, 12 percent in August, 10 percent in September, and 8 percent in each remaining month of the fiscal year of the amounts certified by the Superintendent of Public Instruction or Chancellor of the California Community Colleges as

a part of the advance apportionment.

(2) Warrants for amounts apportioned to school districts and county school service funds for classes maintained by county superintendents of schools and to the county school tuition funds shall be for amounts equal to 6 percent in July, 12 percent in August, and 8 percent in September, October, November, December, and January, of the amounts certified by the Superintendent of Public Instruction or Chancellor of the California Community Colleges as a part of the advance apportionment.

(3) Warrants in the months of February to May, inclusive, shall be for amounts equal to one-sixth of the difference between the amounts certified by the Superintendent of Public Instruction or Chancellor of the California Community Colleges for school districts, community college districts, and county school service funds for classes maintained by county superintendents of schools and county school tuition funds as the first principal apportionment and the amounts required by subdivision (2) of this subdivision. An additional one-sixth of such difference shall be included in the warrants for the month of February.

(4) Warrants for the month of June shall be for amounts equal to the difference between the amounts certified by the Superintendent of Public Instruction or Chancellor of the California Community Colleges for school districts, community college districts, and county school service funds for classes maintained by county superintendents of schools and county school tuition funds as the second principal apportionment and the amounts required by subdivisions (2) and (3) of this subdivision.

(5) Warrants in the months of September to November, inclusive, shall include one-tenth of the estimated total amounts of the special purpose apportionment, as determined by the Superintendent of Public Instruction or Chancellor of the California Community Colleges. Warrants in December shall include one-tenth of the amounts certified by the Superintendent of Public Instruction or Chancellor of the California Community Colleges as the special purpose apportionment, as adjusted, if necessary, to correct excesses or deficiencies in the estimates made for purposes of the warrants in the months of September to November, inclusive. An additional one-tenth of the amounts of the special purpose apportionment shall be included in the warrants for the months from January to June, inclusive.

(6) Warrants in June shall include the total amounts certified by the Superintendent of Public Instruction or Chancellor of the California Community Colleges as the final apportionment.

(b) The drawing of the warrants required to be drawn during any one of the months mentioned may be postponed by the Controller for not to exceed 30 days, but the total amounts due the several counties during any fiscal year shall be paid within the fiscal year. The warrants shall be paid by the State Treasurer from the State School Fund and are not subject to the provisions of Government

Code Section 925.6.

14042. (a) If the Superintendent of Public Instruction does not certify to the Controller, on or before the 20th day of February, the amounts apportioned by him as the first principal apportionment, the Controller shall draw warrants on the State Treasury in favor of the county treasurer of each county in the month of February, and in each month thereafter until the month following his receipt of such certification, for amounts equal to the warrants drawn for January.

(b) In the month following the receipt of the certification of the amounts apportioned by the Superintendent of Public Instruction or the Chancellor of the California Community Colleges as the first principal apportionment, the Controller shall draw warrants on the State Treasury in favor of the county treasurer of each county in an amount equal to the difference between the amount of the warrants which would have been drawn pursuant to Section 14041 had the certification been received by the Controller not later than February 20th and the amount of the warrants drawn pursuant to subdivision (a) of this section.

(c) Warrants drawn under this section shall be drawn on the State School Fund and are not subject to the provisions of Government Code Section 925.6.

14043. All moneys received by the treasurer of any county from the apportionments of the State School Fund shall be immediately credited by the treasurer to the county school service fund, the county school tuition fund, and the general funds of the several school districts of the county exactly as apportioned by the Superintendent of Public Instruction or the Chancellor of the California Community Colleges.

### Article 3. County School Service Funds—Computation of Allowances and Budgetary Requirements

14050. The county superintendent of schools shall on or before April 1st of each year submit to the Superintendent of Public Instruction a budget for the succeeding fiscal year, in such form as the Superintendent of Public Instruction shall prescribe, setting forth all known and estimated revenues of the county school service fund for such fiscal year from all sources, and the proposed expenditures from the county school service fund for such fiscal year. The budget shall be approved by the Superintendent of Public Instruction. When a budget is submitted to the Superintendent of Public Instruction for his approval, he shall make a review of each program prior to approving the budget. No allowance shall be made under Sections 14050 to 14056, inclusive, whichever are in effect, to a county superintendent of schools for any item of current expenses or capital outlay with respect to which the county superintendent has failed to comply with the regulations of the Superintendent of Public Instruction which he is herewith authorized to adopt

applicable to such item. The regulations adopted by the Superintendent of Public Instruction hereunder shall not be limited to, but shall, among other matters:

(a) Prescribe procedures relating to budgeting, purchasing and replacing capital outlay items.

(b) Prescribe procedures relating to the purchase, replacement, operation and maintenance of automotive equipment.

(c) Prescribe the conditions under which the county superintendent of schools may provide services to districts by contract.

(d) Prescribe the conditions under which allowances may be made to the county superintendent of schools to contract for the services of special consultants.

(e) Prescribe the conditions under which allowances may be made to the county superintendent of schools to assume functions authorized by law to be performed either by the county superintendent of schools or another public agency.

(f) Prescribe conditions under which allowances will be made to meet conditions of an emergency nature requiring the establishment and maintenance of emergency schools, the providing of emergency teachers for regular elementary schools, the providing of emergency transportation to regular elementary schools, or emergency apportionments to school districts.

(g) Define county school service fund publications and prescribe the procedures to be followed relating to budgeting, printing and distributing such publications.

(h) Establish, solely for budget approval purposes, a classification of county school service fund personnel and a salary schedule for each classification.

Upon the approval of the budget by the Superintendent of Public Instruction, he shall note his approval thereon and transmit one copy thereof to the county superintendent of schools and one copy to the county auditor of the county.

14051. The amount of any expenditure by a county superintendent of schools in excess of the amount set forth for the particular program of the approved budget of a county school service fund shall be withheld by Superintendent of Public Instruction from the allowances made in the next succeeding fiscal year to that county school service fund.

14052. Whenever any budget is submitted to the Superintendent of Public Instruction which includes items for the preparation of courses of study, the development of courses of study or curricula materials, or research and development studies or development of publication in connection with curricular and special services of the county superintendent of schools, the county superintendent of schools submitting such budget shall submit with the budget documents in justification as may be required by the Superintendent of Public Instruction. In reviewing the budget pursuant to Section 14050, the Superintendent of Public Instruction shall also review the

justification documents and shall submit an analysis of the documents to the Legislature prior to the fifth day of each regular session.

The State Board of Education shall establish definitions for publications, and each county superintendent of schools, upon making any publication shall transmit a copy thereof to the State Board of Education.

In evaluating and analyzing justification documents, the Superintendent of Public Instruction shall be advised by an advisory committee composed of county superintendents of schools, which committee the Superintendent of Public Instruction is hereby authorized to appoint.

14053. In approving submitted budgets, the Superintendent of Public Instruction shall eliminate surpluses in the county school service fund by reducing the total amount requested in the submitted budget by the amount of the surplus in the fund. As used in this section "surplus" shall have the meaning prescribed in Sections 14071 and 14072. Trust funds and otherwise dedicated funds and amounts derived from county school taxes collected and levied prior to 1935, as described in Sections 14071 and 14072, shall be excluded in determining surpluses.

14054. The Superintendent of Public Instruction shall during each fiscal year allow to the county school service fund of each county from the State School Fund such amounts as the budget submitted by the county superintendent of schools and approved by the Superintendent of Public Instruction, under Section 14050, shows is necessary, but:

(a) The total amount allowed by the Superintendent of Public Instruction under this section to all county school service funds for supervision of instruction and health, attendance, and guidance services pursuant to Sections 1730 to 1762, inclusive, for pupils in elementary school districts which during the next preceding fiscal year had less than 901 units of average daily attendance, in high school districts which, during the preceding year had less than 301 units of average daily attendance, and in unified school districts which during the next preceding fiscal year had less than 1,501 units of average daily attendance shall not exceed the sum provided by law for such purpose or the amounts shown necessary by such budgets, for such purpose, whichever is the lesser.

(b) The total amount allowed by the Superintendent of Public Instruction under this section to all county school service funds for all other purposes shall not exceed the sum provided by law for such purposes or the amounts shown necessary by such budgets, whichever is the lesser.

14055. The Superintendent of Public Instruction shall allow at such times as needed to the county school service fund of each county eligible to receive reimbursement from the amount credited to the county school service fund contingency account in the State General Fund, the amounts claimed by the county superintendent of schools as expenditures from the county school service fund

eligible for reimbursement. No amounts for purposes specified in Section 14035 shall be included in the budgets submitted by a county superintendent of schools to the Superintendent of Public Instruction.

14056. The budget submitted pursuant to Section 14050 shall include an amount equal to that specified by law as the state's contribution toward payment of the annual salary of the county superintendent of schools to be used exclusively for the partial payment of the annual salary of the county superintendent of schools. Such amount shall be paid for such purpose from the allowance made to the county school service fund pursuant to Section 14054.

14057. The Superintendent of Public Instruction shall allow, in addition to all other allowances, to the county school service funds: (a) for all emergency schools maintained in each elementary school district of the county by the county superintendent of schools, (b) all special schools or classes for mentally retarded pupils and severely mentally retarded pupils maintained in each elementary school district of the county by the county superintendent of schools, (c) each elementary school maintained in juvenile halls, juvenile homes, and juvenile camps, by the county superintendent of schools, and all opportunity schools and classes maintained by the county superintendent of schools pursuant to Sections 48633 and 48634, and (d) all schools and classes for educationally handicapped pupils maintained in each elementary school district of the county by the county superintendent of schools, the same amount as he would compute as the foundation program of the elementary school district under Section 41703 or Section 41704.

No allowance shall be made for emergency schools which is in excess of the actual expense of maintaining the emergency school.

(Amended by Stats. 1976, Ch. 1011.)

[ORIGINAL SECTION]

14057. The Superintendent of Public Instruction shall allow, in addition to all other allowances, to the county school service funds: (a) for all emergency schools maintained in each elementary school district of the county by the county superintendent of schools, (b) all special schools or classes for mentally retarded pupils and severely mentally retarded pupils maintained in each elementary school district of the county by the county superintendent of schools, (c) each elementary school maintained in juvenile halls, juvenile homes, and juvenile camps, by the county superintendent of schools, and all opportunity schools and classes maintained by the county superintendent of schools pursuant to Sections 48635 and 48636, and (d) all schools and classes for educationally handicapped pupils maintained in each elementary school district of the county by the county superintendent of schools, the same amount as he would compute as the foundation program of the elementary school district under Section 41703 or Section 41704

No allowance shall be made for emergency schools which is in excess of the actual expense of maintaining the emergency school.

14058. For all physically handicapped pupils, mentally retarded minors and educationally handicapped minors of secondary grade, and handicapped adults, educated by the county superintendent of schools, for all secondary schools maintained in juvenile halls,

juvenile homes and juvenile camps by the county superintendent of schools, and for all students enrolled in grades 9 to 12, inclusive, in opportunity schools and classes and all continuation schools and classes maintained by the county superintendent of schools, the Superintendent of Public Instruction shall allow the same amount as he would compute for the foundation program of a high school district under Section 41712.

However, with respect to handicapped adults, the following limits shall apply:

(a) The total of allowances for education of handicapped adults in classes established by the county superintendent of schools pursuant to Section 52570 or 78440 shall not exceed fifty thousand dollars (\$50,000) in any one fiscal year. The Superintendent of Public Instruction shall establish a system of priorities that he shall by rule or regulation adopt which shall give highest priority to those counties in which no or an insufficient program for the education of handicapped adults is provided by the school districts within the county, in order to comply with the limitation prescribed by this subdivision.

(b) The Superintendent of Public Instruction shall allow for handicapped adults the amount specified in Section 41840 or 84780 for each unit of average daily attendance for adults for high school districts.

#### Article 4. Recovery of County School Service Fund Accumulated Surpluses

14070. After making all determinations provided for in Article 3 (commencing with Section 14050) of this chapter for the fiscal year 1961-62, but prior to authorizing any transfer of funds from the General Fund to the State School Fund under Sections 14000 to 14043, Sections 41300 to 41423, and Sections 84300 to 84374, the Superintendent of Public Instruction shall proceed as specified in this article to eliminate accumulated surpluses in the several county school service funds.

(Added by Stats. 1976, Ch. 1011.)

14071. The superintendent shall compute an amount equal to the surplus in each of the county school service funds as of June 30, as shown by each of the budgets for the preceding fiscal year submitted to him pursuant to Section 14050. For the purpose of this article the surplus for each county school service fund is the total beginning balances shown on the budget so submitted, exclusive of trust funds or funds otherwise dedicated. For the purpose of this section trust funds or funds otherwise dedicated are defined as

(1) Unexpended balance of any funds that have accrued to a county school service fund under a grant of federal funds, or a grant of private or foundation funds, required to have been expended for a specified purpose, plus the amounts of county school service fund

money committed for the specific purposes as required to receive the grant or trust;

(2) Unexpended balance of any state funds allocated on an average daily attendance basis for the purpose of maintaining juvenile hall schools, regional occupational centers and technical, agricultural, and natural resource conservation schools;

(3) Unexpended balances of a county or school district tax funds the levy for which was to maintain special schools and classes for the mentally retarded and physically handicapped, juvenile hall schools, children's institutions, regional occupational centers, and technical, agricultural, and natural resource conservation schools;

(4) The unexpended balance of any account within the county school service fund contributed by school districts for a specific purpose and from which account expenditures are made by the county superintendent of schools acting as an agent of the districts contributing to the account;

(5) The unexpended balance of the data processing and testing program account resulting from payments by school districts or other public agencies under contract with the county superintendent of schools for the furnishing of data processing and testing program services.

(6) Unexpended funds resulting from payments by school districts or other agencies under contract with the county superintendent which shall be returned to those districts or agencies at the completion of their contract.

(7) Unexpended funds resulting from payments by school districts or other agencies for costs in excess of basic state aid, state equalization aid, and local tax funds contributed to the foundation program for educationally handicapped classes or programs operated by the county superintendent, and the allowances provided by Section 41886 or 84836 or for costs other than the current expenses of such classes or programs.

14072. In addition to the amounts to be excluded in computing the balance in each of the county school service funds pursuant to Section 14071, there shall also be excluded any amounts derived from county school taxes levied and collected prior to 1935 which still remain in a county school service fund.

## CHAPTER 2. LOCAL TAXATION BY SCHOOL DISTRICTS AND COMMUNITY COLLEGE DISTRICTS

### Article 1. Determination of Tax Levies Required for School Districts and Community College Districts

14200. After approving the budget of a school district or community college district, the county superintendent of schools shall determine the amount of money which must be provided by a district tax.

14201. He shall determine this amount by deducting from the

total estimated needs of the school district or community college district as shown by its budget the total estimated income of the district from all sources other than a district tax for the current school year as estimated in the budget. The remainder, if any, shall be the minimum amount of the district tax to be levied by the board of supervisors for the particular school district or community college district.

14202. The board of supervisors shall fix such a rate for the district tax as will produce the amount of district tax money requested by the particular district.

14203. The board of supervisors shall determine the rate of district tax necessary to be levied as follows:

(a) They shall divide the amount of taxes as required to be raised by the unequalized value of the secured roll, exclusive of the assessed valuation increment used to allocate tax receipts to a redevelopment agency pursuant to Article 6 (commencing with Section 33670) of Chapter 6 of Part 1 of Division 24 of the Health and Safety Code, of the last assessment roll of the district after due allowance for delinquencies. The rate shall be such as will produce the amount determined as necessary to be raised by taxation on the secured roll.

(b) Except in counties that distribute property taxes according to Chapter 3 (commencing with Section 4701) of Part 8 of Division 1 of the Revenue and Taxation Code, the allowance for delinquencies shall be fixed by determining for three consecutive years of the preceding four years the percentage that the combined amounts of taxes uncollected at the end of each year bear to the total amount of taxes levied for those years.

(c) In counties that distribute property taxes according to Chapter 3 (commencing with Section 4701) of Part 8 of Division 1 of the Revenue and Taxation Code, an allowance for subsequent additions, cancellations, and corrections affecting the tax roll shall be fixed by determining for three consecutive years of the preceding four years the percentage that the combined amounts of such items at the end of each year bear to the total amount of taxes levied for those years.

An allowance for delinquencies may be fixed for which the maximum limit is established by determining for three consecutive years of the preceding four years the percentage that the combined amounts of all county levied uncollected taxes at the end of each year bears to the amount of all county levied taxes for those years.

14204. The board of supervisors of each county or city and county shall annually at the time and in the manner of levying county or city and county taxes levy and cause to be collected a district tax for each school district or community college district whose budget shows a district tax to be necessary.

14205. If the board of supervisors refuses or neglects to make the tax levy pursuant to Sections 14200 to 14205, 42200 to 42204, and 85100 to 85114, inclusive, and Sections 14240 and 42610 or 85210, the levy shall be made by the county auditor.

## Article 2. Taxes on School Districts Located in Two or More Counties

14220. When any school district or community college district is situated partly in two or more counties the assessor of each of the counties shall annually certify to the board of supervisors of each of the counties the assessed value of all taxable property in the county situated in the district as shown by the last assessment roll of his county.

14221. The certificate of the assessor shall be made in the same manner and at the same time as is required for school districts or community college districts located wholly within the boundaries of one county.

14222. The board of supervisors of each county, after receiving the certificate of the assessor, shall thereupon determine the rate of taxation necessary to be levied upon the property in the school district or community college district situated in the county.

14223. The rate of taxation shall be sufficient to meet the proportion of taxes necessary to be raised in the county for the purpose of paying the principal and interest of the bonds of the district and all other expenses of the district as shown by the estimate of the county superintendent of schools having jurisdiction over the district.

14224. The taxes shall be assessed, levied, and collected in the same manner and at the same time as county taxes are assessed, levied, and collected.

14225. The money received shall be deposited in the county treasury of the county whose superintendent of schools has jurisdiction over the school district or community college district, and such county treasury shall be the legal depository of the district.

14226. The money deposited shall be placed in the school fund of the school district or community college district to be expended in the same manner as money of other districts.

## Article 3. Disputed Revenues of School Districts

14240. The county auditor may impound the disputed revenues of school district or community college district taxes, upon secured or unsecured property, levied and collected in the 1954-1955 fiscal year, and thereafter, whenever, pursuant to Chapter 5 (commencing with Section 5096), Part 9, Division 1 of the Revenue and Taxation Code, a claim or action is filed for the return of such revenues, or the taxes have been paid under protest. The county auditor may continue to impound such revenues until the final disposition of such claim or action. If, under such final disposition, it is determined that such taxes were properly levied against such property, the auditor shall release such revenues to the school district or community college district, and he shall thereupon immediately notify, in writing, the Superintendent of Public Instruction or board of

governors as the case may be and the State Controller of such release.

## PART 10. SCHOOL BONDS

### CHAPTER 1. GENERAL DEFINITION

15000. As used in this part, "school district" includes community college district and "Department of Education" includes the Board of Governors of the California Community Colleges.

### CHAPTER 2. BONDS OF SCHOOL DISTRICTS AND COMMUNITY COLLEGE DISTRICTS

#### Article 1. Purposes for Authorizing Bonds

15100. Except as otherwise provided by law, the governing board of any school district may, when in its judgment it is advisable, and shall, upon a petition of the majority of the qualified electors residing in the school district or community college district, order the county superintendent of schools to call an election and submit to the electors of the district the question whether the bonds of the district shall be issued and sold for the purpose of raising money for the following purposes:

- (a) The purchasing of school lots.
- (b) The building or purchasing of school buildings.
- (c) The making of alterations or additions to the school building or buildings other than such as may be necessary for current maintenance, operation, or repairs.
- (d) The repairing, restoring, or rebuilding of any school building damaged, injured, or destroyed by fire or other public calamity.
- (e) The supplying of school buildings and grounds with furniture, equipment or necessary apparatus of a permanent nature.
- (f) The permanent improvement of the school grounds.
- (g) The refunding of any outstanding valid indebtedness of the district, evidenced by bonds, or of state school building aid loans.
- (h) The carrying out of the projects or purposes authorized in Section 39613 or 81613.

The purchase of schoolbuses the useful life of which is at least (20) years.

The demolition or razing of any school building with the intent to replace it with another school building, whether in the same or in any other location.

One or more of the purposes enumerated, except that of refunding any outstanding valid indebtedness of the district evidenced by bonds, may, by order of the governing board entered at a meeting, be united and voted upon as one single proposition.

Notwithstanding any provision of law to the contrary, no election shall be held pursuant to this chapter within 45 days before a statewide election or within 45 days after a statewide election.

unless conducted at the same time as such statewide election, subject to the provisions of Chapter 4 (commencing with Section 23300) of Part 2 of Division 12 of the Elections Code.

15102. The total amount of bonds issued shall not exceed 5 percent of the taxable property of the district as shown by the last equalized assessment of the county or counties in which the district is located, and as modified pursuant to Section 41201 or 84201.

15103. Notwithstanding any other provision of law, for the purpose of computing the limit on the amount of bonds which may be issued by a district pursuant to the provisions of this chapter, the taxable property of the district shall be determined upon the basis that the district's assessed value has not been reduced by the exemption of the assessed value of business inventories in the district or reduced by the homeowner's property tax exemption.

15104. The bond issuance limitation in Section 15102 may, upon a favorable vote of two-thirds of the votes cast thereon in the district, be increased to not to exceed 7 percent of the taxable property of the district as shown by the last equalized assessment of the county or counties in which the district is located, and as modified pursuant to Section 41201 or 84201.

All statutory references to the limitation in Section 15102 shall be deemed to refer to the limitations in Section 15102 or this section, whichever may be applicable.

This section shall remain in effect until July 1, 1975, and shall thereafter be of no force or effect, provided that the termination of the effective period of this section shall in no way be construed as affecting the validity of bonds authorized pursuant to authority afforded thereunder prior to July 1, 1975.

(Amended by Stats. 1976, Ch. 1011.)

[ORIGINAL SECTION]

15104. The bond issuance limitation in Section 15102 may, upon a favorable vote of two-thirds of the votes cast thereon in the district, be increased to not to exceed 7 percent of the taxable property of the district as shown by the last equalized assessment of the county or counties in which the district is located, and as modified pursuant to Section 41201 or 84201.

All statutory references to the limitation in Section 15102 shall be deemed to refer to the limitations in Section 15102 or this section, whichever may be applicable.

This section shall remain in effect until July 1, 1975, and shall thereafter be of no force or effect, provided that the termination of the effective period of this section shall in no way be construed as affecting the validity of bonds authorized pursuant to authority afforded thereunder prior to July 1, 1975.

15105. For the purpose of the provisions of Sections 15102 and 15706 which require that the valuation as shown on the last equalized assessment roll be modified pursuant to Section 41201 or 84201, the "current year" as used in Section 41201 or 84201 shall be deemed to be the latest fiscal year for which there exists a last equalized county assessment roll as ascertained in accordance with Chapter 2 (commencing with Section 2050) of Part 3 of Division 1 of the Revenue and Taxation Code, and the term "two immediate preceding years" shall be deemed to be the two fiscal years

immediately preceding the fiscal year for which such last equalized county assessment roll exists. Whenever in any year it becomes necessary to determine the modification under Sections 15102 and 15706, at a time between the date when the assessment roll for that year becomes the last equalized county assessment roll ascertained under Chapter 3 and the date when the factor for the current year is certified and becomes available, the factor for the current year shall be deemed to be 1.00.

15106. Any unified school district may issue bonds not to exceed 10 percent of the taxable property of the district as shown by such equalized assessment of the county or counties in which the district is located.

In computing the outstanding bonded indebtedness of any unified school district for all purposes of this section, except as provided in subdivision (b) of this section, any outstanding bonds shall be deemed to have been issued for elementary school purposes, and high school purposes, respectively, in the respective amounts that the proceeds of the sale of such outstanding bonds, excluding any premium and accrued interest received on said sale, were or have been allocated by the governing board of such unified school district to each of said purposes respectively.

(a) For the purposes of the State School Building Aid Law of 1952 with respect to applications for apportionments and apportionments filed or made prior to September 15, 1961, and to the repayment thereof, Chapter 6 (commencing with Section 15700) of this part, inclusive, only, any unified school district shall be considered to have a bonding capacity in the amount permitted by law for an elementary school district and a bonding capacity in the amount permitted by law for a high school district.

(b) For purposes of computing the bonding capacity of a school district under the preceding subdivisions of this section, the taxable property of the district as shown by the last equalized assessment of the county shall be modified pursuant to Section 41201 or 84201.

15107. In computing the limitation of indebtedness of any school district or community college district of any kind or class heretofore or hereafter formed or organized, hereinafter in this section referred to as the "bonding district," the outstanding indebtedness of any previously existing district all or any part of which forms a component part of such bonding district and the outstanding indebtedness of any district for which any territory which has become a part of such bonding district is liable shall be excluded and shall not be deemed, for the purposes of computing the limitation of indebtedness under Section 15102 or 15106, to constitute outstanding indebtedness of such bonding district, except to the extent that such outstanding indebtedness has been expressly assumed by such bonding district by vote of not less than two-thirds of the electors of such bonding district voting at an election at which the proposition of assuming such indebtedness is voted upon. Nothing herein contained shall operate to release any property from liability for

taxes to pay the principal and interest of indebtedness incurred by any component district or for which any territory which has become a part of such bonding district is liable and in which such taxable property is located at the time of the incurring of such indebtedness. It is the intent of the Legislature to provide in this section a special method of computing the limitation of indebtedness of school districts or community college districts irrespective of liability of the area embraced within such school districts for the payment of any bonded indebtedness.

15108. For the purpose of determining the limitation of indebtedness of a school district or community college districts of any type or class under Section 15102 or 15106, that portion of the bonded indebtedness of the district for which another district or territory in another district is liable shall be excluded and shall not be deemed to constitute outstanding bonded indebtedness of the district.

15109. Where an elementary school district and a high school district with a combined average daily attendance of 300,000 or more are governed by the same governing board, and the students in grades seven and eight in the districts are in attendance at high schools maintained by the high school district, the governing board, by resolution filed with the county auditor, may provide that the bond issuance limitations determined under Section 15102 shall be adjusted by reducing the bond issuance limitation of the elementary school district by 1 percent of its total and by augmenting the bond issuance limitation for the high school district by the amount by which that of the elementary district was reduced.

15110. An action to determine the validity of bonds and of the ordering of the improvement or acquisition may be brought pursuant to Chapter 9 (commencing with Section 860) of Title 10 of Part 2 of the Code of Civil Procedure. In such action, all findings, conclusions and determinations of the legislative body which conducted the proceedings shall be conclusive in the absence of actual fraud.

15111. (a) The governing board of each school district or community college district shall, within 30 days after the end of each fiscal year, submit to the county superintendent of schools who has jurisdiction over the school district or community college district a report containing the following information, concerning any election held pursuant to Sections 4152, 15120, 15121, and 16058 for the approval of the issuance of bonds or the assumption of any bonded indebtedness or other indebtedness:

(1) The total amount of the bond issue, bonded indebtedness or other indebtedness involved.

(2) The percentage of registered electors of the district who voted at the election.

(3) The results of the election, with the percentage of votes cast for and against the proposition involved.

(b) The county superintendent of schools of each county shall compile the information received under subdivision (a) and within

60 days after the end of each fiscal year transmit his compilation to the State Department of Education or the board of governors, whichever has jurisdiction.

## Article 2. General Provisions for Bond Elections

15120. The election shall be conducted as provided in Chapter 3 (commencing with Section 5300) of Part 4 of this division, except:

(1) As otherwise provided in Sections 15100 to 15126, inclusive.  
(2) That the formal notice of the election shall contain, in addition to the items specified in Section 5361:

(a) The purposes for which the bonds are to be issued.  
(b) The amount of the bonds.  
(c) The maximum rate of interest, not to exceed the maximum rate of interest allowed by Sections 15140 to 15143.

(d) The maximum number of years, not to exceed 25, not to exceed which the bonds or any series thereof are to run.

No election shall be held under the provisions of this section in any school district for a period of 90 days after such an election in the same school district.

15121. Any election called pursuant to Sections 15100 to 15141, inclusive, and Sections 15142 to 15261, inclusive, may be consolidated with any other election pursuant to the provisions of Chapter 4 (commencing with Section 23300) of Part 2 of Division 12 of the Elections Code.

15122. The words to appear upon the ballots shall be "Bonds—Yes" and "Bonds—No," or words of similar import. Each elector voting at the election shall mark a cross with a rubber stamp after the answer he desires to give. A brief statement of the proposition, setting forth the amount of the bonds to be voted upon, the maximum rate of interest, and the purposes for which the proceeds of the sale of the bonds are to be used, shall be printed upon the ballot. No defect in the statement other than in the statement of the amount of the bonds to be authorized shall invalidate the bonds election.

15123. The form and details of all ballots at school district or community college bond elections shall comply with ballot provisions of this code applicable to governing board member elections with additional requirements as provided for in this chapter.

15124. If it appears from the certificate of election results that two-thirds of the votes cast on the proposition of issuing bonds of the district are in favor of issuing the bonds; or, a majority of the votes cast, if the election is held to repair, reconstruct or replace school buildings in compliance with Section 39212 or 81162 or any other provision of law; the governing board of the school district or community college shall cause an entry of that fact to be made upon its minutes. The governing board shall then certify to the board of supervisors of the county whose superintendent of schools has

jurisdiction over the district, all proceedings had in the premises. The county superintendent of schools shall send a copy of the certificate of election results to the board of supervisors of the county.

15125. The proceedings relating to the authorization of bonds of a joint school district of any type need be certified only to the board of supervisors of the county whose superintendent of schools has jurisdiction over the district. Said board of supervisors may issue and sell such bonds and no action of the board of supervisors of any other county in which the district is situated shall be required in connection with such issuance and sale, and such bonds need not be signed by any officer of any such other county.

15126. No error, irregularity, or omission which does not affect the substantial rights of the taxpayers within the district or the electors voting at any election at which bonds of any district are authorized to be issued shall invalidate the election or any bonds authorized.

### Article 3. Issuance and Sale of Bonds

15140. Bonds of a school district shall be offered for sale by the board of supervisors of the county, the county superintendent of which has jurisdiction over the district, as soon as possible following receipt of a resolution duly adopted by the governing board of the school district. The resolution shall prescribe the total amount of bonds to be sold. The resolution may also prescribe the maximum acceptable interest rate, not to exceed 8 percent, and the time or times when the whole or any part of the principal of the bonds shall be payable, which shall not be more than 25 years from the date of the bonds.

15141. When authorized by the governing board of a school district or a community college district, bonds of a school district or a community college district may be offered for sale as a group by the board of supervisors of the county, the county superintendent of which has jurisdiction over the district, at a time determined by the board of supervisors following receipt of a resolution duly adopted by the governing board of the school district. The resolution shall prescribe the total amount of bonds to be sold. The resolution may also prescribe the maximum acceptable interest rate, not to exceed 8 percent, and the time or times when the whole or any part of the principal of the bonds shall be payable, which shall not be more than 25 years from the date of the bonds. Bidders shall be required to bid a lump sum bid on all bonds as a group. If bids satisfactory to the governing board of each school district included in the group are received, the bonds offered for sale shall be awarded to the bidder whose bid will result in the lowest net interest cost for the group or for the bonds of any district included within the group. Bonds shall be issued and sold in the name of each school district or a community college district in the same manner as provided in this chapter.

15142. The bonds shall be issued in such denomination or

denominations as the board may prescribe.

15143. The bonds shall not bear a rate of interest greater than 8 percent per annum, payable annually or semiannually.

15144. The number of years the whole or any part of the bonds are to run shall not exceed 25 years, from the date of the bonds or the date of any series thereof.

15145. The board of supervisors by an order entered upon its minutes shall prescribe the form of the bonds and of the interest coupons attached thereto, if any. Said bonds shall be signed by the chairman of the board of supervisors, or by such other member thereof as the board of supervisors shall, by resolution adopted by a four-fifths vote of all its members, authorize and designate for that purpose, and also signed by the treasurer or auditor of the county, and shall be countersigned by the county clerk or the clerk of the board of supervisors or by a deputy of either of such officers. The coupons of said bonds shall be signed by the treasurer or auditor. Unless the board of supervisors otherwise provides, all such signatures and countersignatures may be printed, lithographed, engraved, or otherwise mechanically reproduced except that one of said signatures or countersignatures to said bonds shall be manually affixed. Any such signature may be affixed in accordance with the provisions of the Uniform Facsimile Signatures of Public Officials Act, Chapter 6 (commencing with Section 5500) of Title 1 of the Government Code. All expense incurred for the preparation, sale, and delivery of the school bonds, including but not limited to, fees of an independent financial consultant, the publication of the official notice of sale of the bonds, the preparation, printing and distribution of the official statement, the obtaining of a rating, the purchase of insurance insuring the prompt payment of interest and principal, the preparation of the certified copy of the transcript for the successful bidder, the printing of the bonds, and legal fees of independent bond counsel retained by the school district or community college district issuing the bonds are legal charges against the funds of the district issuing the bonds and may be paid from the proceeds of sale of the bonds.

15146. The bonds shall be issued by the board of supervisors, payable out of the interest and sinking fund of the district, and shall be sold at the times and in the amounts prescribed by the school district or community college district governing board, but for not less than par. The proceeds of the sale of the bonds, exclusive of any premium received, shall be deposited in the county treasury to the credit of the building fund of the school district or community college district. The proceeds deposited shall be drawn out as other school moneys are drawn out. The bond proceeds withdrawn shall not be applied to any other purposes than those for which the bonds were issued. Any premium or accrued interest received from the sale of the bonds shall be deposited in the interest and sinking fund of the district.

15147. Before selling the bonds, or any part of them, the board of

supervisors shall advertise for bids at least two weeks in some daily or weekly newspaper of general circulation published in the county whose county superintendent of schools has jurisdiction over the district, or if there is no such newspaper published in the county, in a newspaper published in some other county in the state having a general circulation in the county.

15148. If satisfactory bids are received, the bonds offered for sale shall be awarded to the highest responsible bidder or bidders, and the county clerk shall prepare and certify to all of the proceedings on file in his office relative to the issuance and sale of said bonds, which transcript of proceedings shall be delivered to the successful bidder or bidders without charge. If no bids are received, or if the board determines that the bids received exceed either the maximum acceptable interest rate prescribed by the governing board or the maximum rate prescribed by Section 15143, or that they are not satisfactory as to price or responsibility of the bidders, the board may reject all bids received, if any, and without further authorization from the governing board, either readvertise or sell the bonds at private sale.

For the purpose of determining whether or not a bid exceeds the maximum acceptable interest rate, the interest rate of that bid shall be deemed to be the interest rate resulting from the total net interest cost arrived at by computing the total amount of interest which the district would be required to pay from the date of the bonds to the respective maturity dates thereof at the rate or rates specified in the bid and by deducting therefrom any premium bid.

15149. The issuing school district or community college district by action of its governing board may prepare, or have prepared, bond brochures to serve as a prospectus for bond buyers to assist in the satisfactory sale of the bonds, the expense of such brochures to be payable out of the funds of the district. Such brochures may be prepared only after the issuance of the bonds to be sold has been approved by the electors of the district pursuant to Sections 15120 to 15126, inclusive.

The issuing school district or community college district by action of its governing board may expend district funds for the purposes of advertising the availability of the bonds for purchase in any publication or newspaper which in the opinion of the governing board will give notice to prospective bond buyers that the bonds are available for purchase by bond buyers.

#### Article 4. Required Form of Bonds

15180. Whenever under the provisions of Section 15100 and 15102, and Sections 15107 to 15140, inclusive, and Sections 15142 to 15261, inclusive, any bonds are issued, the bonds may be issued either in the form of coupon bonds, or in the form of registered bonds, or some in the form of coupon bonds and some in the form of registered bonds, as may be provided in the proceedings for the issuance of the

bonds, and notwithstanding any language or provision to the contrary contained in any statute authorizing the issuance of the bonds, or in any other law.

15181. If any officer whose signature, countersignature, or attestation appears on any school bonds or coupons ceases to be an officer before the delivery of the bonds to the purchaser, the signature, countersignature, or attestation either on the bonds or the coupons, or on both, is nevertheless valid and sufficient for all purposes the same as if the officer had remained in office until the delivery of the bonds, and the signature upon the coupons of the person who is auditor at the date of the bonds, is valid although the bonds themselves may be attested by a different person who is auditor at the time of delivery of the bonds.

15182. Any bonds executed in the manner provided by the board of supervisors shall be valid, notwithstanding any change in the officers who signed the bonds or the coupons, or in the seal of the board of supervisors, occurring after the execution.

#### Article 5. Registration of Bonds

15190. Whenever the owner of any coupon bond or of any bond payable to bearer presents the bond to the treasurer or other officer of the county in which the district is located, who by law performs the duties of treasurer, with a request for the conversion of the bond into a registered bond, the treasurer or other officer shall cut off and cancel the coupons of the coupon bond, and shall stamp, print, or write upon the coupon bond or other bond payable to the bearer, either upon its back or upon its face, as may be convenient, a statement to the effect that the bond is registered in the name of the owner and that thereafter the interest and principal of the bond are payable to the registered owner.

15191. After registration any bond may be transferred by the registered owner in person, or by attorney duly authorized, on presentation of the bond to the treasurer or other officer performing the duties of treasurer. The bond may be again registered as before, a similar statement being stamped, printed, or written thereon.

15192. The statement stamped, printed, or written upon the bond may be substantially in the following form:

(Date, giving month, day, and year.)

This bond is registered pursuant to the statute in such cases made and provided in the name of (insert name of owner) and the interest and principal thereof are hereafter payable to the owner.

---

Treasurer (or other officer)

15193. After any bond has been registered as provided in this article, the principal and interest of the bond shall be payable to the registered owner.

15194. The treasurer or other officer shall keep in his office a book or books which shall at all times show what bonds are registered and in whose name respectively.

#### Article 6. Cancellation of Unsold Bonds

15200. If any bonds authorized under the provisions of Sections 15100 and 15102, and Sections 15107 to 15140, inclusive, and Sections 15142 to 15261, inclusive, have not been offered for sale for one year from the date of the election at which they were authorized or remain unsold for a period of six months after having been offered for sale in the manner prescribed by the board of supervisors, the governing board of the district, for which the bonds were authorized, may petition the board of supervisors that has jurisdiction of the issuance and sale of the bonds to cause the unsold bonds to be canceled.

15201. Upon receiving the petition, signed by a majority of the members of the governing board, the board of supervisors shall fix a time for hearing it, which shall not be more than 30 days after receipt of the petition, and shall cause a notice stating the time and place of the hearing, and the object of the petition in general terms, to be published for 10 days prior to the hearing, in a newspaper published in the school district or community college district, if there is one, and if there is no newspaper published in the school district, in a newspaper published at the county seat of the county.

15202. At the time and place designated in the notice, or at any subsequent time to which the hearing may be postponed, the board of supervisors shall hear any reasons that may be submitted for or against the granting of the petition.

15203. If the board of supervisors deem it for the best interests of the school district or community college district named in the petition that the unsold bonds be canceled, it shall make and enter an order in the minutes of its proceedings that the unsold bonds be canceled. Upon the entry of the order the bonds and the vote by which they were authorized to be issued shall cease to be of any validity.

15204. The governing board of any school district or community college district may petition the board of supervisors to cancel the remaining authorization of that district to issue and sell bonds resulting from any particular school bond election after the sale of at least ninety percent (90%) of the bonds authorized at such election where the amount of such remaining authorization is not more than twenty-five thousand dollars (\$25,000) and in the opinion of the governing board the sale of the remaining bonds would not be economically justified. The provisions of Sections 15201 and 15202 shall be applicable and at or following the hearing therein provided for, the board of supervisors, if it determines that the public interest will be served thereby, may make and enter an order in the minutes of its proceedings that the remaining authorization be canceled.

Upon the entry of the order the vote by which the remaining authorization was created shall cease to be of any validity with respect to such remaining authorization.

#### Article 7. Purchase of Bonds by Issuing School Districts and Community College Districts

15220. The governing board of a school district or community college district may purchase in the open market bonds issued by the district. The cost of bonds purchased may be paid out of any funds of the district not required by law to be set aside for teachers' salaries.

15221. When any bonds issued by a district have been purchased by the governing board of the district, the bonds shall be deemed canceled and of no further validity. The governing board of the district shall immediately, after purchasing the bonds, notify the board of supervisors of its action, describing the bonds purchased. At its first meeting thereafter the board of supervisors shall note the purchase and cancellation of the bonds in the minutes of its proceedings.

#### Article 8. Method of Bond Payment

15230. The board of supervisors by an order entered upon its minutes shall fix the time when the whole or any part of the principal of the bonds shall be payable, which shall not be more than 25 years from the date of the bonds. If the governing board of the district has prescribed in its resolution the time or times when the whole or any part of the bonds shall be payable, such times and amounts shall be fixed by the order of the board of supervisors.

Any bonds authorized at an election held after September 15, 1945, may be issued subject to call and redemption before maturity at the option of the governing board of the district. Said governing board may include in its resolution a requirement that all or any part of such bonds shall be issued subject to call and redemption before maturity and the price or prices at which said bonds shall be redeemed. The board of supervisors, in its order fixing the form of the bonds and the maturities thereof, shall provide that the bonds be redeemable at the option of said governing board and at the price or prices fixed in said resolution. Bonds issued subject to call and redemption prior to maturity shall contain a recital to that effect, and no bond shall be subject to call or redemption prior to maturity unless it contains such a recital. The board of supervisors in its order shall fix the method of giving notice of redemption to holders of bonds to be redeemed.

15231. The board of supervisors at the direction of governing board of the district may divide the principal amount of bonds authorized at any election into two or more series and may fix different dates for the bonds of each series, in which event the maximum maturity date of the bonds shall be calculated from the

date of each series respectively. When the issuance of bonds shall have been authorized pursuant to two or more propositions submitted at the same or different elections, all or any part of said bonds not theretofore issued may be combined and issued and sold as one or more series.

15232. The board of supervisors may make the principal and interest of the bonds payable at the office of the treasurer of the county, or at any other place within the United States which the board may designate, or at the office of the county treasurer, or at any other designated place at the option of the bondholder. The place of payment shall be specified in the bonds. The expense of paying the bonds elsewhere than at the office of the treasurer shall be a proper charge against the district to be paid out of the tax levied and collected for the payment of the bonds.

15233. The principal and interest on the bonds shall be paid by the county treasurer of the county, the superintendent of schools of which has jurisdiction of the district in behalf of which the bonds were issued, at the place required by the terms of the bonds, upon presentation and surrender of warrants drawn by the county auditor in payment thereof, after he has canceled the bonds and coupons, or upon the receipt of the registered owner, if the bonds are registered, after a proper warrant has been drawn by the auditor, out of the fund provided for their payment.

15234. Any money remaining in the interest and sinking fund of any district after the payment of all bonds and coupons payable from the fund, or any money in excess of an amount sufficient to pay all unpaid bonds and coupons payable from the fund, shall be transferred to the general fund of the district upon the order of the auditor.

15235. Any money paid into the county treasury of the county and credited to the interest and sinking fund of any district pursuant to subdivision (b) of Section 2106 or subdivision (b) of Section 2109 remaining after the payment of all bonds and coupons payable from the fund, or which is in excess of an amount sufficient to pay all unpaid bonds and coupons payable from the fund, shall be transferred to the special reserve fund of the district upon the order of the auditor, and may be used only for the purpose specified in Section 42840 or 85440 and for no other purpose.

#### Article 9. Tax for Payment of Bonds

15250. The board of supervisors of the county, the superintendent of schools of which has jurisdiction over any district, shall annually at the time of making the levy of taxes for county purposes, levy a tax for that year upon the property in the district for the interest and redemption of all outstanding bonds of the district. The tax shall not be less than sufficient to pay the interest on the bonds as it becomes due and to provide a sinking fund for the payment of the principal on or before maturity and may include an

allowance for an annual reserve, established for the purpose of avoiding fluctuating tax levies. The tax shall be sufficient to provide funds for the payment of the interest on the bonds as it becomes due and also such part of the principal and interest as is to become due before the proceeds of a tax levied at the time for making the next general tax levy can be made available for the payment of the principal and interest.

15251. All taxes levied, when collected shall be paid into the county treasury of the county whose superintendent of schools has jurisdiction over the school district in behalf of which the tax was levied, to the credit of the interest and sinking fund of the school district or community college district, and shall be used for the payment of the principal and interest of the bonds and for no other purpose.

15252. The board of supervisors of the county, the superintendent of schools of which has jurisdiction over any school district or community college district, shall annually at the time of making the levy of taxes for county purposes estimate the amount of money required to meet the payment of the principal and interest on bonds of the district authorized by the electors of the district and not sold, and which the governing board of the district informs the board in their belief will be sold before the next tax levy, and the board of supervisors shall levy a tax sufficient to pay the principal and interest so estimated.

15253. If the bonds are declared invalid or are not issued for any reason, the tax levied and collected shall, if the school district or community college district has other bonds outstanding, be retained in the interest and sinking fund of the district to meet the interest and principal falling due on such bonds. If the district has no bonds outstanding the proceeds of the tax levy shall be transferred to the general fund of the district on the order of the auditor.

#### Article 10. Tax for Payment of Bonds of School District or Community College District Located in Two or More Counties

15260. In case of a district lying in two or more counties, the assessor of each of the counties in which the district lies, shall annually as soon as the county assessments have been equalized by the State Board of Equalization, certify to the board of supervisors of each of the counties in which any portion of the district is situated, the assessed value of all taxable property in the county situated in the school district or community college district. The tax shall be levied according to the ratio which the assessed value of the property in the district in any county bears to the total assessed value of the property in the district. Each board of supervisors shall levy upon the property of the district and within its own county such rate of tax as will be sufficient to raise not less than the amount needed to pay the interest and such portion of the principal of the bonds as is to become due during the year.

15261. The tax shall be entered upon the assessment roll and collected in the same manner as other school taxes.

The tax when collected shall be paid into the county treasury of the county. The treasurer of any county, other than the one whose superintendent of schools has jurisdiction over the school, shall, upon order of the county auditor, pay the sum collected on account of the tax into the treasury of the county whose superintendent of schools has jurisdiction over the school.

## CHAPTER 5. SCHOOL CONSTRUCTION LAW OF 1957

### Article 1. General Provisions

15500. This chapter may be cited as the "State Project Area School Construction Law."

15501. In recognition of the impact which certain major state construction projects have on local school district building needs in the areas in which such projects are constructed, the Legislature declares that it is the policy of the state to bear a proportionate share of the construction costs of school buildings in the area affected in the manner and to the extent provided by this chapter.

15502. As used in this chapter:

(a) "State project" means any construction project undertaken by the state, or the state and federal government jointly, which will cause a sudden influx of people into the area affected and where sufficient housing, schools, and other community facilities are not available. For the purposes of this subdivision the Governor is hereby empowered to proclaim any major construction project undertaken by the state as a "state project" and define the area affected or likely to be affected thereby when:

1. He finds that the construction project will cause a sudden influx of people into the area; and

2. He is requested to do so by the county board of supervisors.

Such proclamation shall be in writing and shall take effect immediately. As soon thereafter as possible it shall be filed in the office of the Secretary of State.

(b) "Board" means the State Allocation Board, created by Section 7 of the Construction and Employment Act as amended.

(c) "Director" means the Director of Education for kindergarten and grades 1 to 12, inclusive, and the Board of Governors of the Community Colleges for grades 13 and 14.

(d) "Project" means the purposes for which a school district has applied for an apportionment.

(e) "Construction project" means the purposes for which a school district has applied for an apportionment at a given location.

(f) "Grade level maintained by a district" means (1) the kindergarten, if any, and grades 1 to 6, or grades 1 to 8, inclusive, maintained by an elementary school district or a unified school district; or (2) grades 7 to 12, grades 9 to 12, inclusive, or grades 7 to

10, inclusive, maintained by a high school district or unified school district; and (3) grades 13 and 14 maintained by a high school district, unified school district, or community college district, but not more than one grade level shall be claimed by any district under any one of the subdivisions of this paragraph.

(g) "Apportionment" means an apportionment made under this chapter unless the context otherwise requires.

(h) "Project children" means children of parents who have come to the district subsequent to the start of the state project and who are employed by the State of California or the federal government in connection with a state project and children of parents employed by any contractor or subcontractor of a state project.

(i) "Indirect project children" means children of parents who have come to the district subsequent to the start of the state project and who are not employed by a contractor or subcontractor of a state project but who are children in the area in addition to those which would be expected as a result of normal development and growth of the area as determined pursuant to regulations of the director which he is hereby authorized to adopt.

(j) "Parent" includes a legal guardian or other person standing in loco parentis.

(k) "Department" means the Department of Education, or board of governors within their respective jurisdictions.

15503. The Director of General Services shall administer this chapter and shall provide such assistance to the board as it may require.

15504. A fund in the State Treasury is hereby created, to be known as the State School Construction Fund. All money in the State School Construction Fund, including any money deposited in said fund from any source whatsoever after September 11, 1957, is hereby continuously appropriated without regard to fiscal years for expenditure pursuant to apportionments made under the provisions of this chapter.

## Article 2. Apportionments

15520. Apportionment from the State School Construction Fund to school districts or community college districts shall be made in the manner and subject to the conditions herein provided and in accordance with policies adopted by the board, for the following purposes: (a) the purchase and improvement of school sites which have been approved by the department; (b) the purchase of desks, tables, chairs, and equipment, as approved by the department; and (c) the planning and construction, reconstruction, alteration of, and addition to, school buildings for such facilities as are approved by the department as essential, all of which purposes are hereby declared to be, and are, public works.

Where a district is required by a contract entered into between itself and a contractor, to obtain at its own expense insurance

covering risks incurred during any construction, reconstruction or alteration for which an apportionment has been made, the cost thereof may be paid either directly, or by way of reimbursement, to said district out of said apportionment, or out of any apportionment made specifically covering such insurance; provided, that in other respects said apportionments are eligible for payment under provisions of this chapter.

15521. In addition to the purposes for which apportionments may be made to school districts under Section 15520, apportionments may also be made to school districts for the construction, repair, attachment or development of off-site facilities, utilities or improvements which the board determines are necessary to the proper operation or functioning of the school facilities for which apportionments are made, all of which purposes are hereby declared to be, and are, public works.

15522. In making applications for, and in expending, apportionments of funds under this chapter, a district acts as an agent of the state and all sites purchased and improved, all equipment purchased, and all buildings constructed, reconstructed, altered, or added to through the expenditure of funds apportioned under this chapter, are declared to be, and are, the property of the state. Upon the payment by the district of the amounts required to be paid by it to the state under this chapter, the board shall, in the name of the state, convey such property to the district.

15523. The board may require school districts to insure for the benefit of the state all sites, equipment and buildings which are the property of the state, against such risks and in such amounts as the board may deem necessary to protect the interests of the state. No state funds apportioned under this chapter shall be used to pay the premiums on said insurance.

15524. A district shall be eligible to an apportionment under this chapter if the estimated number of project children and indirect project children who will be in average daily attendance in the schools of the district during the period of the state project is at least 25 and is at least 5 percent of the estimated number of all children who will be in average daily attendance in the schools of the district during the current fiscal year.

15525. Any eligible school district may make application for an apportionment for a grade level which it maintains by submitting through the governing board an application therefor in such form and number as the board shall prescribe. Such application shall be addressed to the board and shall set forth a project for the construction of school facilities for the district in accordance with the provisions of this section.

(a) Each application and copy thereof shall contain and be supported by:

(1) A description of the project and the site therefor, preliminary drawings of the school facilities to be constructed thereon, and such other information relating to the project as the board may require.

(2) A statement of the estimated cost of the project certified by an architect or structural engineer.

(3) Evidence that the district has or will have title to the site upon which the facilities as specified in the application will be constructed.

(4) Assurance that the district will cause the work on the project to be commenced within a reasonable time and prosecuted to completion with reasonable diligence.

(b) The board shall require such changes in the plans which an applicant school district submits with its application as the board determines is necessary or desirable to assure completion of the project with available funds of the district and the amount of the apportionment to which the district is entitled under this chapter. For that purpose the board may delegate to the director or the Director of General Services, according to whether the subject matter of the revision of the plans is subject to the jurisdiction and approval of the director or the Director of General Services, the authority to require such revision in the plans as the board deems necessary or desirable to accomplish the purposes of this subdivision.

(c) Upon submission of an application for an apportionment under this chapter:

(1) The Director of General Services shall transmit a copy thereof to the director who shall as promptly as possible prepare a report and recommendation with respect thereto. Thereupon the director shall transmit his report and recommendation to the Director of General Services who shall refer them to the board if he finds them in proper form and otherwise sufficient. If the Director of General Services finds such documents to be lacking in any respect as to any matter subject to the jurisdiction of the director or the department, he shall refer them to the director who shall take such action as may be necessary.

(2) The Director of General Services shall determine the applicant district's financial ability with funds apportioned under this chapter and funds devoted by the district to the project to meet the cost of the project and submit his report thereon as promptly as possible to the board.

15526. At the next regular meeting of the board following the submission of the reports and recommendations required by Section 15525, the board shall, subject to the provisions of this chapter, approve or reject the application. If the board approves the application, it shall by resolution adopted by it, apportion to the district from the State School Construction Fund the amount applied for, or such portion thereof as the board determines proper. This shall be known as a conditional apportionment and shall become final only if the vote provided for in Section 15527 is favorable. The conditional apportionment shall remain in effect for a period of nine months from the date of the resolution of the board. If the apportionment does not become final within the time prescribed, it shall become void and the money so apportioned shall again become available for apportionment pursuant to this chapter.

15527. No apportionment to a school district or community college district under this chapter shall become final, nor any agreement authorized by Section 15528 be entered into unless at an election called by the governing board of the district, two-thirds of the qualified electors of the district voting thereat have authorized the governing board to accept, expend and repay as provided in this chapter an apportionment under the provisions thereof or, with respect to said agreement, to obligate the district in an amount equal to or in excess of the maximum amount which the district could be obligated by said agreement, or by any act of its governing board or for which it is responsible, contemplated or permitted thereby. Said election shall be called, held and conducted in the same manner as are elections to authorize the issuance of district bonds, except that the ballot shall contain substantially the following words:

“Shall the governing board of the district be authorized (1) to accept and expend an apportionment from the State of California under and subject to the provisions of the State Project Area School Construction Law, a portion of which amount is subject to repayment as provided by said law, or (2) to enter into an agreement or agreements with the state pursuant to Section 15528 of the Education Code, which will at the time of such agreement or agreements (or at the time of any subsequent act of the governing board, or for which it is responsible, contemplated or permitted thereby) commit the district to a total expenditure in connection with all such agreements of not more than \_\_\_\_\_ dollars. Yes \_\_\_\_\_ No \_\_\_\_\_,” or both.

15528. In addition to the powers granted the board under this chapter, the board shall have authority (1) to make apportionments to districts for the purchase of sites only, or for the construction or purchase of temporary or portable buildings, and for the cost of site preparation, including any necessary utility costs, in connection with their utilization and (2) to establish standards in conjunction with the Department of Education or board of governors, as the case may be, pertaining to such sites and buildings as a condition for making said apportionment. In addition the board may also expend moneys from the State School Construction Fund directly for the construction, acquisition, storage, maintenance and repair of such buildings, including administrative costs related thereto. In the latter event the board may lease, sell or transfer under a lease-purchase agreement such buildings to school districts eligible for aid under this chapter, under such terms as it deems fit. Agreements pertaining thereto may provide for the payment by the state of site preparation costs, including any necessary utility costs, sufficient to permit their utilization.

Any buildings leased for placement on the school property or under a purchase or a lease-purchase agreement shall be deemed the construction or alteration of a school building as those terms are defined in Sections 39140 to 39155, or 81130 to 81145, both inclusive.

The consideration provided by any agreement between the state

and districts pursuant to this section shall as nearly as possible reflect an amount which would return to the state a fair pro rata proportion of its capital investment and expenditures connected therewith in the light of the benefits conferred by said agreement. Such consideration shall be paid by the districts promptly when due, and Section 15573 shall not be deemed applicable to reduce the same, provided that the amounts so repaid shall be redeposited in the State School Construction Fund.

Whenever the board deems it economically desirable to do so it may dispose of any facilities acquired or constructed directly by it under this section to any public or private parties under such terms and in such manner as it deems fit, save insofar as the same is inconsistent with any agreement under this section between it and an affected district. The board is authorized to do any and all things necessary to effectuate the purposes of this section, and any eligible school district is authorized to enter into an agreement with the board to carry out the purposes hereof.

No agreement shall however be entered into under this section unless the department has with respect thereto, or as a condition of making the same, approved (1) the property to be transferred, including any incidental construction pertaining thereto, (2) whether the same shall be by lease or sale, and (3) the term of the transfer, if less than a sale, including any contingent or indefinite term. The term "sale," as used in this paragraph shall be deemed to include a lease-purchase. The jurisdiction of the department shall not otherwise extend to the terms of the agreement.

### Article 3. Apportionments, Computation

15540. The board shall compute for each applicant school district the amount to which the district is entitled under the provisions of this chapter in the manner prescribed by this article. The amount so computed shall be reduced by the amount received or to be received by the district under Public Law 815 of the 81st Congress, as amended, or any similar provisions of any other act of Congress, solely on account of the participation of the federal government in the state project or shall be reduced by the percentage of the cost of the project (as such term is defined in Section 41930) borne by the federal government, whichever is the greater amount.

15541. In the computation of the apportionments to applicant school districts or community college districts, the board may utilize the facilities and services of any department or agency of the state and may delegate the performance of any duties or functions, except those specifically delegated by this chapter to the director or department, to any officer or employee thereof as the board deems necessary and proper.

15542. The board shall multiply:

(a) The estimated number of project children in the district by the current construction cost per pupil in the area of the state project.

(b) The estimated number of indirect project children in the district by the current construction cost per pupil in such area, multiplied by 55 percent.

“Current construction cost per pupil” as used in this section means the average per pupil cost of constructing complete school facilities for the grade level maintained by the district for which application for an apportionment is made under this chapter.

The total of the amounts computed pursuant to subdivisions (a) and (b) shall be apportioned to the district.

15543. (a) The average per pupil cost of constructing complete school facilities in the area of the state project for the purposes of this article shall be determined by the board, after consultation with the department and the Department of General Services, on the basis of information obtained thereby and such other information as may be available to the department.

(b) Estimates of the number of project children and indirect project children for the purpose of this article shall be made by the applicant school district in accordance with rules prescribed by the director and shall be made as of the time the greatest number of such children will attend the schools of the district as a result of the state project. Such estimates shall be made on the basis of the best information available to the district at the time of the application. Approval of such estimates by the director, in whole or in part, shall be on the basis of the best information available to the director at the time of such approval. In the approval of estimates of the number of project children and indirect project children for the purposes of this article the director may utilize the facilities and services of any department or agency of the state as he deems necessary and proper. No estimate shall be used as a basis of an apportionment that has not been approved by the director.

#### Article 4. Apportionments, Payment

15550. Immediately after the result of the election required by Section 15527 has been determined, the county superintendent of schools shall make a certificate in duplicate stating whether the district has authorized the acceptance and expenditure of the apportionment. One copy of the certificate shall be sent to the board and one copy to the State Controller. Upon the receipt by the board of the certificate, the apportionment shall become final.

15551. The election by a school district or community college district upon the acceptance, expenditure, and repayment of an apportionment prescribed by Section 15527 may be called and held either before or after the making of an apportionment.

15552. Payment shall be made in accordance with the terms of a final apportionment, to a school district for expenditures, or commitments therefor, which have been made by the district subsequent to the date of the proclamation of the Governor

proclaiming a state project in the area including the district, for any items approved by the board in such apportionment; provided, however, that where expenditures were made for, or work was commenced with respect to, any item so approved, prior to the time the application of such district containing such item was received by the board, payment or reimbursement for such item shall be made only upon authorization of the board by special resolution citing this section.

15553. The board shall prescribe in such detail as it deems necessary, the purposes for which moneys apportioned by it to a district under this chapter may be expended and such prescription shall be binding upon the governing board of such district except as it may be, for good cause, modified by the board.

15554. Each apportionment made by the board under this chapter shall be certified by it to the State Controller who shall thereupon draw his warrant on the State Treasury in favor of the county treasurer of the county having jurisdiction over the district. The warrant shall be paid by the State Treasurer from the State School Construction Fund and is not subject to the provisions of Section 925.6 of the Government Code.

15555. The county treasurer of each county shall pay all moneys received by him under this chapter into the county treasury to the credit of the state school construction fund of such district, which fund is hereby created, exactly as apportioned by the board.

15556. The governing board of each school district to which an apportionment has been made under this chapter shall expend the moneys in the state school construction fund of the district only for the purposes for which said moneys were apportioned to the district and for no other purpose and shall make such reports relating to the expenditure of such moneys as the board and the State Controller shall require.

15557. It shall be the duty of the State Controller to make such audit or audits of the books and records of counties and school districts receiving apportionments under this chapter, as he may deem necessary from time to time, for the purpose of determining that the money received by school districts as apportionments hereunder has been expended for the purposes authorized by this chapter.

#### Article 5. Apportionments, Repayment

15570. Each school district or community college district to which an apportionment is made under this chapter shall repay the principal amount of such apportionment in the manner prescribed by this article.

15571. For purposes of computing such repayment, the state project shall be deemed completed on June 30th of the fiscal year in which the state project is completed and accepted by the state.

15572. The principal amount of the apportionment shall be

computed and repaid in the manner prescribed in this article.

(a) On or before the first day of January succeeding the completion of the state project, the State Controller shall compute the annual repayment of each apportionment for each grade level maintained by the district, as follows:

(1) He shall determine from the certification of the director the total amount of average daily attendance of project children, and the total amount of average daily attendance of indirect project children, in attendance in the grade level maintained by the district for the period commencing with the date of the proclamation of the Governor proclaiming the existence of a state project in the area including the district and ending on June 30th of the fiscal year in which the state project is completed.

(2) He shall divide the average daily attendance of such project children by 30 and multiply the quotient by the amount determined by the board pursuant to Section 15543 as the average per pupil cost of construction in the area of the state project.

(3) He shall multiply the average daily attendance of such indirect project children by 55 percent. The product shall be divided by 30 and the quotient multiplied by the amount determined by the board pursuant to Section 15543 as the average per pupil cost of construction in the area of the state project.

(4) The total of the amounts computed pursuant to subdivisions (2) and (3) shall be subtracted from the amount of the apportionment to the district. The remainder shall be divided by 30 and the quotient shall constitute the amount of the annual repayment of such apportionment.

(5) Upon application of the district and approval by the board, the total amount of the repayment may be paid in a lump sum or in fewer than 30 years.

15573. If on June 30th of the fiscal year in which the state project is completed there is classroom space constructed with funds apportioned under this chapter, that is not being used by the district, the board shall, upon application of the district, reduce the total amount to be repaid by the district on a proportionate basis until such time as the classroom space is used by the district. No payment shall be required by the district for the period during which such classroom space is not used by the district.

15574. The State Controller shall, during the fiscal year in which he determines the annual repayment as provided in Section 15572, and for each subsequent fiscal year not exceeding 30, deduct the total amount of the annual repayment of each district in equal amounts from each of the February, March, April, and May installments of the apportionments made to such district from the State School Fund under Sections 46304, 46305, 84503, 84504, and 92 or 41050, Sections 41330 to 41343, or 84320 to 84332, inclusive, and Sections 41600 to 41972, or 84700 to 84874, both inclusive, whichever are in effect, and, on order of the State Controller, the amount so deducted shall be transferred to the General Fund of the state.

15575. Upon computing in any fiscal year the amount to be deducted from the apportionments to the district from the State School Fund during such fiscal year, the State Controller shall notify the governing board of the district and the county auditor of the county, the county superintendent of which has jurisdiction over the district, of the amount to be deducted.

15576. The board of supervisors of the county, the county superintendent of which has jurisdiction over any district which under this chapter will have moneys withheld by the State Controller from the apportionments to be made to it from the State School Fund during any fiscal year, shall annually at the time the board of supervisors makes the next levy of taxes for county purposes, levy a tax upon the property in the district sufficient to raise for the district the amount of money withheld by the State Controller during the fiscal year preceding that in which the tax is levied. Such tax, when collected, shall be paid into the county treasury of the county, the county superintendent of schools of which has jurisdiction over the district for which the tax was levied, to the credit of the general fund of the district.

15577. Notwithstanding the provisions of Section 15572 to the contrary, if on or before June 30th of the fiscal year in which the state project is completed the district has received a final apportionment under Sections 16000 to 16207, inclusive, or if at any time thereafter the district receives a final apportionment under Sections 16000 to 16207, inclusive, the amount of the apportionment to the district under this chapter then remaining unpaid shall, upon request of the district, be added to the principal amount of the apportionment made to the district under Sections 16000 to 16207, inclusive. Thereupon the apportionment made to the district under this chapter shall be deemed to be an apportionment made to the district under Sections 16000 to 16207, inclusive, and subject to repayment in the manner therein prescribed, except that no interest shall be charged or collected upon the amount which is added to the principal amount of the apportionment made to the district under Sections 16000 to 16207, inclusive. For the purposes of Section 16083, any amount added to the principal amount of an apportionment pursuant to this section shall be deemed to have become final and disbursed to the district on the date the state project is deemed completed pursuant to Section 15571.

#### Article 6. Miscellaneous

15590. In addition to such other powers and duties as are granted the board by this chapter, the board shall:

(a) Establish such procedures and policies in connection with the administration of, and the expenditure of funds made available for the purpose of, this chapter as it deems necessary and which are not in conflict with the powers and duties of the Department of Education or of the director granted or imposed by this chapter.

(b) Adopt such rules and regulations for the administration of this chapter, requiring such procedure, forms, and information, as it may deem necessary.

15591. The State Allocation Board is continued in existence for the purposes of this chapter. The members of the board and the Members of the Legislature meeting with the board shall receive no compensation for their services under this chapter but shall be reimbursed for their actual and necessary expenses incurred in connection with the performance of their duties hereunder, to be paid out of the State School Construction Fund.

15592. Whenever the State Controller determines that any money apportioned to a school district under this chapter has been expended by such district for purposes not authorized by this chapter, or exceeds the final cost of the project which is authorized by this chapter to be paid therefrom, the State Controller shall furnish written notice to the board, the governing board of the school district, the county superintendent of schools, the county auditor, and the county treasurer of the county whose county superintendent of schools has jurisdiction over the school district, directing the school district and the county treasurer to pay into the State Treasury the amount of such unauthorized expenditures, or the amount of such excess apportionment, as the case may be. Upon receipt of such notice, such governing board shall order the county treasurer to pay to the State Treasurer, out of any moneys in the county treasury available to the school district for that purpose, the amount set forth in such notice. Such amount shall, upon order of the State Controller, be deposited in the State Treasury to the credit of the State School Construction Fund, to be reapportioned by the board.

It shall be the duty of such governing body and county treasurer to make the payments to the State Treasurer as provided in this section, and it shall be the duty of the State Controller to enforce such collection on behalf of the state.

## CHAPTER 6. STATE SCHOOL BUILDING AID LAW, 1949

### Article 1. General Provisions

15700. The Legislature hereby declares that it is in the interest of the state and of the people thereof for the state to aid school districts of the state in providing necessary and adequate school sites and buildings for the pupils of the public school system, such system being a matter of general concern inasmuch as the education of the children of the state is an obligation and function of the state.

In adopting this act, the Legislature considers that the great need in school construction is for adequate classrooms for the education of the pupils of the public school system. It is the intent of the Legislature to first satisfy this primary need to the greatest extent possible before providing additional educational facilities, regardless of how desirable such additional facilities may be. To the end that

school classrooms may be made available at once and to all school districts in need of such classrooms, provisions for other needed school facilities is necessarily subordinated.

15701. As used in this chapter:

(a) "Board" means the State Allocation Board, created by Section 7 of the Construction and Employment Act as amended.

(b) "Director" means the Director of Education for kindergarten and grades 1 to 12, inclusive, and the Board of Governors of the California Community Colleges for grades 13 and 14.

(c) "Project" means the purposes for which a school district has applied for an apportionment under this chapter.

(d) "Grade level maintained by a district" means (1) the kindergarten, if any, and grades 1 to 6, or grades 1 to 8, inclusive, maintained by an elementary school district or a unified school district; or (2) grades 7 to 12, grades 9 to 12, inclusive, or grades 7 to 10, inclusive, maintained by a high school district or unified school district; and (3) grades 13 and 14 maintained by a high school district, unified school district, or community college district, but not more than one grade level shall be claimed by any district under any one of the subdivisions of this paragraph.

(e) "Apportionment" means an apportionment made under this chapter unless the context otherwise requires.

15702. The Director of General Services shall administer this chapter and shall provide such assistance to the board as it may require.

15703. The State Allocation Board is continued in existence for the purposes of this chapter. The members of the board and the Members of the Legislature meeting with the board in an advisory capacity shall receive no compensation for their services under this chapter but shall be reimbursed for their actual and necessary expenses incurred in connection with the performance of their duties hereunder, to be paid out of the Public School Building Loan Fund.

15704. The board by the adoption of rules shall give priority in allocating funds to districts to those districts where the children will benefit most from additional schoolhouse facilities. This priority shall be based on acuteness of overcrowding, on sudden growth in attendance, on amount of local tax funds expended for housing of a character within the purposes of this chapter, and on the time the district's application has been ready for allotment. The board may make exceptions when it determines that it will be for the benefit of the children affected.

In adopting rules the board may provide for the granting of priority points to govern the allocation according to the following schedule:

(a) Two priority points may be granted for each percent of the latest computed average daily attendance of the district that is inadequately housed. The number of inadequately housed students is the latest computed average daily attendance of the district less

the sum of (1) any classrooms up to a total of two, multiplied by 25, and (2) any classrooms in excess of two, multiplied by 33. The term "classrooms" (for the purposes of this computation) shall mean any school classrooms, temporary and permanent, determined by the Department of Education to be safely usable.

(b) One priority point may be granted for each 5 percent of the latest computed average daily attendance of the district that represents an increase over the average daily attendance for the fifth preceding school year.

(c) One point of priority may be granted for each one-twentieth of 1 percent of the assessed valuation of the district, collected in taxes and expended for school housing within the scope of this chapter since July 1, 1944. Expenditure of the proceeds of the sale of bonds shall not be counted but expenditure for interest and retirement of bonds shall be counted.

(d) Not more than one point of priority shall be allowed for each calendar month that the completed application of the district has awaited funds.

If any computation of priority points made under this section results in a fraction of a point, such fraction shall be disregarded and the number of priority points shall be taken as the next lowest whole number.

These priorities shall be recomputed at least semiannually when funds are available for allocation, on the respective periods of time next preceding the date of computation. The State Department of Education representing kindergarten and grades 1 to 12, inclusive and the Board of Governors of the California Community Colleges representing grades 13 and 14 shall assist and cooperate with the board in determining priority ratings.

15705. In addition to such other powers and duties as are granted the board by this chapter, the board shall (1) establish such qualifications not in conflict with other provisions of this chapter as it deems will best serve the purposes of this chapter for determining the eligibility of school districts to apportionments of funds under this chapter; (2) establish such procedures and policies in connection with the administration of, and the expenditure of funds made available for the purpose of, this chapter as it deems necessary and which are not in conflict with the powers and duties of the Department of Education, or the Board of Governors of the California Community Colleges or of the director granted or imposed by this chapter; and (3) adopt such rules and regulations for the administration of this chapter, requiring such procedure, forms, and information, as it may deem necessary.

15706. Apportionment from the Public School Building Loan Fund to school districts shall be made in the manner and subject to the conditions herein provided and in accordance with policies adopted by the board, for the following purposes: (a) the purchase and improvement of school sites which have been approved by the State Department of Education, or the Board of Governors of the

California Community Colleges; (b) the purchase of desks, tables, chairs, and built-in or fixed equipment, as listed in Part III of the California School Accounting Manual contained in the Bulletin of the California State Department of Education, Volume XIII, No. 2, June, 1944, or as amended or revised; and (c) the planning and construction, reconstruction, alteration of, and addition to, school buildings for such facilities as are approved by the Department of Education or the Board of Governors of the California Community Colleges as essential, all of which purposes are hereby declared to be, and are, public works.

Where a district is required by a contract entered into between itself and a contractor, to obtain at its own expense insurance covering risks incurred during any construction, reconstruction or alteration for which an apportionment has been made, the costs thereof may be paid either directly, or by way of reimbursement, to said district out of said apportionment, or out of any apportionment made specifically covering such insurance; provided, that in other respects said apportionments are eligible for payment under provisions of this chapter.

15707. In addition to the purposes for which apportionments may be made to school districts under Section 15706, apportionments may also be made to school districts for the construction, repair, attachment or development of off-site facilities, utilities or improvements which the board determines are necessary to the proper operation or functioning of the school facilities for which apportionments are made, all of which purposes are hereby declared to be, and are, public works.

15708. In making application for, and in expending, apportionments of funds under this chapter, a school district acts as an agent of the state and all sites purchased and improved, all equipment purchased, and all buildings constructed, reconstructed, altered, or added to through the expenditure of funds apportioned under this chapter, are declared to be, and are, the property of the state. Upon the payment by the district of the amounts required to be paid by it to the state under this chapter the board shall, in the name of the state, convey such property to the district.

15709. The board may require school districts to insure for the benefit of the state all sites, equipment and buildings which are under Section 15708 the property of the state, against such risks and in such amounts as the board may deem necessary to protect the interests of the state. No state funds apportioned under this chapter shall be used to pay the premiums on said insurance.

15710. Where a district is required by a contract entered into between itself and a general construction contractor to obtain, at its own expense, insurance covering risks incurred during any construction for which an apportionment has been made, the cost thereof may be paid directly to said district out of the Public School Building Loan Fund.

It is the intent and purpose of this section to provide for

reimbursement to such school districts for all such builders' risk insurance as may have been furnished and paid for by such districts in connection with approved apportionments from the Public School Building Loan Fund from the time of the effective date of Chapter 1389 of the Statutes of 1949.

The Legislature in adopting this section expressly recognizes that eligible school districts in making provision for builders' risk insurance during the period of construction of new buildings has provided a saving for the taxpayers of such district, and also has reduced the amount which otherwise would have been paid out of the Public School Building Loan Fund to such district if the cost of such builders' risk insurance had been borne by the contractor with the district; for this reason the Legislature hereby finds, determines and declares that the adoption of this section having an effect retroactive to the effective date of said Chapter 1389 of the Statutes of 1949 is therefore lawful, proper and represents the saving of public funds for a lawful and public purpose.

The Controller of the State of California is hereby authorized and directed to cancel and annul any claims or demands against such school district arising out of, or in any way connected with, claims for reimbursement from such school districts to the Public School Building Loan Fund arising out of the direct purchase of builders' risk insurance on any construction by any such school district under an approved application by the board.

15711. A school district or community college district shall not expend money apportioned under this chapter unless the contracts under which the funds are expended have been let after competitive bids thereafter pursuant to this code.

15712. Funds apportioned to a school district or community college district under this chapter for a project, remaining unencumbered or unexpended one year from the date the application of the district for such apportionment was approved, shall not be encumbered or expended except as provided in this section.

The governing board of the district shall notify the board of its desire to encumber or expend such funds. The board shall immediately request the Department of Education or the Board of Governors for the California Community Colleges to, and that department shall, review the project for which apportionment was made. If the Department of Education or the Board of Governors for the California Community Colleges finds that the conditions existing at the time it approved the project for which the apportionment was made have so changed that the needs of the district are less than originally determined, it shall notify the board of its findings and of the respects in which the project should accordingly be modified. The board shall review the project and revise the project in such manner as it deems necessary, subject to the provisions of Section 15727, and make such changes in the purposes for which the apportionment may be expended as it deems necessary. The cost of

the project as revised by the board shall be computed in the manner prescribed by Section 15713 and the excess, if any, of the amount theretofore apportioned to the district over the computed cost of the revised project shall be deducted by the board from the apportionment made to the district. The board shall give notice of its action, in writing, to the State Controller, the governing board of the district, and the county auditor and the county treasurer having jurisdiction over the public school building fund of the district. If the amount of such excess, or any portion thereof, has not been paid to the district, such excess, or portion thereof, shall be made available for apportionment to other districts. If such excess, or portion thereof, has been paid to the district, it shall not be encumbered or expended by the district and shall become due and payable to the State of California. The governing board of the district and the county treasurer shall pay such amount to the State Treasurer, out of the funds, and in the manner specified in Section 15752. Such payment shall, on order of the State Controller, be deposited in the Public School Building Loan Fund in the State Treasury.

It shall be the duty of such governing body and county treasurer to make the payments to the State Treasurer as provided in this section, and it shall be the duty of the State Controller to enforce such collection on behalf of the state.

This section does not authorize the board to increase any apportionment made to a district.

15713. Each school district or community college district which desires an apportionment for a grade level maintained by it, shall submit through its governing board to the board an application therefor in such form and number of copies as the board shall prescribe. Each copy of the application shall be accompanied by a statement of the estimated cost of the project certified by an architect or structural engineer, and by layout plans showing the entire project for which the district desires an apportionment. Estimates of cost for new construction appearing in an application shall not exceed typical current costs of comparable new construction by school districts in the same area not receiving or not eligible for apportionment under this chapter, as determined by the Director of General Services, or if there has been no new construction by districts in the area, the estimates of cost shall not exceed the reasonable current cost of similar construction in the area as determined by the Director of General Services. Immediately upon receipt of an application in the prescribed form accompanied by the required estimate of cost, a copy thereof shall be transmitted by the board to the director and to the Director of General Services.

A district may at any time amend or supplement its application.

The Director of General Services shall determine the school district's financial ability to meet all or a portion of the cost of the project and the amount which the district can contribute toward the cost of the project out of its available funds, and shall submit his report thereon to the board.

The directors shall as promptly as possible prepare a report and recommendation with respect to the application and refer the application, report, and recommendation to the Director of General Services, who shall, if he finds said documents to be in proper form and otherwise sufficient, refer them to the board. If the Director of General Services finds said documents to be lacking in any respect as to any matter which is subject to the jurisdiction or approval of the director or Department of Education, or Board of Governors of the California Community Colleges, he shall refer to them to the director who shall take such action as may be necessary. The board shall, subject to the provisions of this chapter approve or reject each application referred to it by the Director of General Services. If the board approves of the application, either in whole or in part, it shall, by a resolution adopted by it, apportion to the district from the Public School Building Loan Fund the amount applied for, or such portion thereof as the board may deem appropriate; provided, that it may order that the apportionment or any part thereof shall be paid in progressive installments at such times and under such conditions as it may then prescribe. This shall be known as a conditional apportionment and shall become final only if the vote provided for in Section 15721 is favorable and if bonds are authorized and sold in the amounts prescribed by the board, and the proceeds of the bonds sold earmarked for the project as approved. The conditional apportionment shall remain effective for a period of nine months from the date of said resolution of the board, and if it does not become a final apportionment by the date, it shall become void and the money so apportioned shall become again available for apportionment pursuant to this chapter.

The board may for such good cause as it shall determine, reduce the amount of, or modify any provisions relating to, any contribution required of a district under the terms of an apportionment, other than any contribution required of such district under Section 15721 from the sale of bonds; provided, that the board may not, without the consent of the district, increase the amount of any district contribution under the terms of an apportionment, in the absence of mistake arising from any source, or misrepresentation, concealment, or omission, on the part of the district, intentional or otherwise. The provisions of this paragraph shall be applicable to apportionments heretofore or hereafter made.

15714. When an apportionment has been made by the board to a school district the board may, upon application of the governing board of such district, authorize the governing board to transfer funds from other authorized purposes if more than one purpose has been authorized in the district by the board, or to make additional apportionments to the district, or both, if the board determines that such additional apportionments or transfers are necessary to meet the actual cost of the specific school plant facilities or sites for which the original apportionment was made. An apportionment made under this section shall be final if the original apportionment has

become final, otherwise it shall become final if and when the original apportionment becomes final.

All provisions of this chapter shall apply to apportionments made under this section, except Sections 15713, 15721, 15722, 15725, and 15726 exclusive of the second paragraph of said Section 15726 and such other provisions as may relate to application and eligibility for apportionments.

15715. The board may approve, in whole or in part, an application submitted by a school district under Section 15713 and in such amount, not exceeding the amount applied for, as the board may deem appropriate.

The board may, upon approval of the application, in whole or in part, and subsequently from time to time, make a conditional apportionment or conditional apportionments not exceeding in the aggregate the total amount determined by the board as aforesaid, to the applicant school district from the Public School Building Loan Fund for such portion or portions of the project as the board determines the district is ready to proceed with. If the board has approved an application and made an apportionment as to a portion or portions of a project, the board may approve the remaining portion or portions of the project and make an additional apportionment or apportionments within two years after the original approval without requiring a district to issue additional bonds.

The total of the amounts of applications as approved by the board under this section shall not, when added to all amounts apportioned to school districts by the board under Section 15713, exceed 90 percent of the total amount of state school building bonds authorized to be issued and sold by Section 2 of Article XVI of the Constitution of the state.

Except as otherwise provided in this section, all provisions of this chapter relating to apportionments shall apply to apportionments made under this section.

Approval of an application under this section shall not be construed as creating or implying any obligation, commitment or promise on the part of the board or the state to make apportionments under this chapter.

15716. If, after a conditional apportionment has been made to a school district, legal proceedings initiated prior or subsequent to the making of such conditional apportionment prevent the taking, within the period during which the conditional apportionment remains effective under Section 15713, of the actions necessary to permit the conditional apportionment to become final, the conditional apportionment shall nevertheless remain effective for a period of nine months from the date upon which such legal proceedings are finally determined. The amount of the apportionment may be diminished by the board after a second investigation at which the board shall determine whether conditions existing at the time it approved the project for which apportionment was made have so changed that the needs of the district are less than

originally determined and if so the conditional apportionment shall be reduced by a corresponding amount.

15717. With respect to any apportionment made to a school district prior to December 26, 1950, the board may, on the application of the governing board of said district make additional apportionments to the school district for the purchase of such furniture as is authorized by Section 15706. An apportionment made under this section shall be final if the original apportionment has become final; otherwise it shall become final if and when the original apportionment becomes final.

All provisions of this chapter shall apply to apportionments made under this section, except Sections 15713, 15721, 15722, 15725, and 15726, exclusive of the second paragraph of said Section 15726, and such other provisions as may relate to applications and eligibility for apportionments.

15718. The sum of two million dollars (\$2,000,000) was by Chapter 13 of the Statutes of 1952 (First Extraordinary Session) made available from the Public School Building Loan Fund for apportionment by the board pursuant to this chapter, except as otherwise provided by this section and to be transferred by the Controller as needed into a separate account in the State School Building Fund which was created in the State Treasury.

Apportionments made under this section shall be available as grants to those school districts to which apportionments have been made under this chapter, prior to April 1, 1952, and only for such amounts thereof as are in excess of the apportionments the voters of such districts voted to accept and repay under Section 15721, 15722, and 15723.

If and when the electors of districts receiving apportionments under this section, vote to accept and repay additional amounts under Sections 15721, 15722, and 15723, the board may make apportionments under other sections of this chapter in substitution in whole or in part of the grants made under this section.

In the event the electors of the district fail to vote to accept and repay such additional amounts or if apportionments covering such amounts are not made under other sections of this chapter, beginning in September, 1953, and annually for nine years thereafter, apportionments made to such districts from the State School Fund under Sections 46304, 46305, 84503, 84504 and 92 or 41050, Sections 41330 to 41343, or 84320 to 84332, inclusive, and Sections 41600 to 41972, or 84700 to 84874, both inclusive, whichever are in effect, or any successor thereof, shall be reduced by an amount equivalent to one-tenth of the amount apportioned under this section. This section shall not be applied so as to reduce any average daily attendance apportionment below the constitutional minimum. During the year beginning September, 1953, and each year thereafter in which the Controller determines that the apportionment of any district is to be reduced as herein provided, he shall deduct the total amount of the annual repayment of each

district in equal amounts from each installment of the apportionments made to such district; and the amount so deducted shall, on order of the Controller, be transferred from the State School Building Fund to the General Fund at the time and for the purpose provided in Section 15903.

Notwithstanding any other provision of law, taxes in such districts shall be increased sufficiently to offset the amounts by which such average daily attendance apportionments are reduced under this section. Such tax increases shall be made in the manner prescribed under Section 15742 of this chapter.

Any amounts made available by this section which are not apportioned by June 30, 1953, and any recovery by substitution of apportionments made in accordance with this section shall be transferred to the Public School Building Loan Fund.

15719. No apportionment shall be made for new construction which when added to the area of adequate school construction existing in the applicant school district at the time of application, will provide a total area of school building construction per pupil of the estimated enrollment in excess of that computed under the following schedule:

Type of school	Enrollment	Square feet per pupil
Elementary school comprising kindergarten and grades 1 to 6, inclusive..	300 or more	55
Elementary school comprising grades 7 and 8 .....	750 or more	75
Junior high school comprising grades 7 to 9, inclusive.....	750 or more	75
Junior high school comprising grades 7 to 10, inclusive.....	750 or more	75
High school comprising grades 7 to 12, inclusive.....	750 or more	80
High school comprising grades 9 to 12, inclusive.....	750 or more	80
High school comprising grades 10 to 12, inclusive.....	750 or more	80
Community college comprising grades 13 and 14 .....	750 or more	80
Community college comprising grades 11 to 14, inclusive.....	750 or more	80

The maximum total building areas per pupil allowed to applicants having schools with smaller estimated enrollments than shown in the above schedule shall be determined by the Department of Education, or the Board of Governors of the California Community Colleges and shall be building areas to provide comparable facilities to those enumerated above, and shall be the least building area

required to house adequately the estimated enrollment and the normal instructional and other services.

No estimate of enrollment made by an applicant for the purpose of justifying an apportionment shall be made for a longer time than the second fiscal year beyond the fiscal year in which an application is made, and in no case shall be given effect unless approved by the Department of Education, or the Board of Governors of the California Community Colleges.

15720. Payment shall be made in accordance with the terms of a final apportionment, either directly or by way of reimbursement, to a school district for expenditures, or commitments therefor, which have been made by the district subsequent to December 5, 1949, for any items approved by the board in such apportionment; provided, however, that where expenditures were made for, or work was commenced with respect to, any item so approved, prior to the time the application of such district containing such item was received by the board, payment or reimbursement for such item, either with state funds or with district funds which the district is required to contribute by said apportionment, shall be made only upon authorization of the board by special resolution citing this section.

15721. No apportionment to a school district or community college district shall become final unless: (a) the total amount of outstanding bonds of the district exceeds ninety-five percent (95%) of the maximum amount of bonds which the district could have had outstanding under any law on the date the conditional apportionment is made, or (b) if the total amount of the bonds of the district outstanding and unpaid is less than ninety-five percent (95%) of the amount of the bonds permitted to be issued by the district, the amount of district bonds outstanding is within twenty-five thousand dollars (\$25,000) of the total bond limit permitted, as of the date on which the conditional apportionment is made. At the time the board makes a conditional apportionment pursuant to Section 15713, it shall determine what portion of the total amount of bonds which a district is permitted to issue and sell by law shall be issued and sold by such district, the proceeds of which shall be applied toward the cost of the project for which the apportionment is sought. The portion so determined by the board shall be not less than the minimum amount required for such apportionment to become final under this section. Any apportionment made by the board pursuant to Section 15713 shall be conditioned upon the approval and sale of such bonds by the district.

No apportionment to a district shall become final unless, at an election called by the governing board of the district, two-thirds of the qualified electors of the district voting thereat have authorized the governing board of the district to accept, expend, and repay, as provided in this chapter, an apportionment under the provisions of this chapter. Such election shall be combined with and held at the same time as the bond election to authorize the amount of bonds required by the board, if any, and shall be called, held, and

conducted in the same manner as are elections to authorize the issuance of district bonds, except that the ballot, in addition to the bond proposition, shall contain substantially the following words:

"Shall the governing board of the \_\_\_\_\_ school district be authorized to accept and expend an apportionment in an amount not to exceed \_\_\_\_\_ dollars (\$\_\_\_\_\_) from the State of California under and subject to the provisions of Chapter 6 (commencing with Section 15700) of Part 10 of Division 1 of Title 1 of the Education Code which amount is subject to repayment as provided by said chapter? Yes \_\_\_\_\_ No \_\_\_\_\_."

15722. Immediately after the result of the election has been determined, the county superintendent of schools shall make a certificate in duplicate stating whether the bonds have been authorized in the amount prescribed by the board and whether the school district has authorized the acceptance and expenditure of the apportionment. One copy of the certificate shall be sent to the board and one copy to the State Controller. When the bonds authorized have been issued and sold and the proceeds thereof made available for the purposes of the application, the county superintendent of schools shall also certify this fact to the board and the State Controller. Upon the receipt by the board of the certificate stating that the bonds have been issued and sold and the proceeds thereof made available for the purposes of the application, the apportionment shall become final.

15723. The election by a school district or community college district upon the acceptance, expenditure, and repayment of an apportionment prescribed by Section 15721 may be called and held either before or after the making of an apportionment.

All such elections held prior to October 13, 1950, whether before or after the making of an apportionment, are hereby validated and confirmed if otherwise called and held pursuant to law.

15724. Whenever a conditional apportionment has been made, and the county auditor has inadvertently and erroneously included in his certification of the outstanding bonded indebtedness of the school district or community college district the bonded indebtedness of another school district having the same, or substantially the same, boundaries, which bonded indebtedness is less than two percent (2%) of the total amount of the total bonded indebtedness certified, and thereafter an election upon the issuance of new bonds in the amount required by the board has been had and the vote thereon has been in favor of the issuance of the bonds, and the board has certified to the State Controller that the apportionment to the district has become final, such final apportionment is hereby confirmed, ratified, and validated, and any expenditure of money from the Public School Building Loan Fund according to the terms of such final apportionment is hereby confirmed, ratified, and validated.

Any bonds erroneously certified, however, shall not be taken into consideration in making the computation required by Section 15721.

15725. No apportionment shall be made to a school district for any grade level if the estimated cost of the project, as approved by the Director of General Services, is (1) an amount which would result in an apportionment to the district exceeding the amount authorized at the district election held under Section 15721, or (2) is an amount which if raised by the issuance and sale of bonds of the district running for 25 years bearing the current going rate of interest as determined by the board and the principal of which is payable in 25 equal annual payments, would require the levy of a tax under Section 15250 upon property in the district which would, when added to the tax actually being levied upon property in the district for the grade level as determined by the Director of General Services under said section, amount to less than thirty cents (\$.30) on each one hundred dollars (\$100) of assessed valuation of property in the district during the next fiscal year.

At the time the board makes an apportionment, it shall, with the approval of the Director of General Services, fix the interest to be paid by the district on the sum apportioned to it at a rate equal to the effective rate paid by the state upon the bonds sold from the proceeds of which the apportionment is made, giving effect to the price at which the bonds are sold and the premium, if any, paid thereon, adjusted to the next highest one-eighth of 1 percent, to cover the cost of sale and issuance of the bonds and costs of administration, to be compounded annually through the 30th day of June of each year.

15726. As used in Section 15725 of the Education Code, the phrase "adjusted to the next highest one-eighth of 1 percent" means "increased by a full one-eighth of 1 percent." It is hereby declared that this construction is not intended as a change in the present law, but as a declaration of the existing law, and shall apply to any interest rate heretofore or hereafter fixed by the board under said section.

15727. No apportionment shall be made to a district for the construction, reconstruction, or alteration of, or addition to, school buildings if the requirements prescribed by this code for the construction of school buildings are not met by the plans for the entire building program of the district in connection with which the district applied for an apportionment or for any project or part thereof which has not been approved by the Department of Education or the Board of Governors of the California Community Colleges.

15728. Each district to which an apportionment has been made under this chapter shall repay the principal amount of such apportionment and the accrued interest thereon in the amount and in the manner hereinafter provided in this chapter.

15729. The following definitions apply to the computations and determinations required to be made under Sections 15730, 15732, and 15733, and they apply with respect to each grade level of a district for which grade level an apportionment has become final during any preceding fiscal year.

(a) "Forty-cent tax amount" means the amount that would be produced by a tax of forty cents (\$0.40) on each one hundred dollars (\$100) of assessed valuation, excluding the assessed valuation of solvent credits and other intangible property, for the current fiscal year within the district;

(b) "Thirty-cent tax amount" means the amount that would be produced by a tax of thirty cents (\$0.30) on each one hundred dollars (\$100) of such assessed valuation; and

(c) "Ten-cent tax amount" means the amount that would be produced by a tax of ten cents (\$0.10) on each one hundred dollars (\$100) of such assessed valuation.

(d) "Eligible bonded debt service" means the amount raised and to be raised by the district during the current fiscal year for the repayment of principal and interest on the portion of the bonded indebtedness of the district that was incurred for each such grade level prior to the date of the first final apportionment for such grade level to said district under the provisions of this chapter, computed as provided in Section 15730.

15730. On or before the first day of December of each fiscal year, the Director of General Services shall determine for each grade level and certify to the State Controller the eligible bonded debt service for the district, as follows:

(a) He shall determine the amount of the bonded indebtedness that was incurred by the district for each grade level, when bonds were issued and sold for purposes of more than one grade level. When one or more additional apportionments have been made to a grade level of a district, conditioned upon the issuance and sale of additional bonds of the district, the Director of General Services shall determine and include in the eligible bonded debt service and in his certificate the amount raised and to be raised by the district during the current fiscal year for the payment of principal and interest on that portion of the additional bonded indebtedness of the district that was incurred for each such grade level as a condition to receiving such additional apportionment.

(b) If the Director of General Services determines in any fiscal year that the amount certified to the State Controller as the eligible bonded debt service during the last preceding fiscal year is more than the amount actually raised by the district for the repayment of principal and interest of the bonded indebtedness referred to in subdivision (d) of Section 15729 and subdivision (a) of this section, then the Director of General Services shall subtract from the amount determined as the eligible bonded debt service for the current fiscal year an amount equal to the difference between the amount actually raised by the district during the preceding fiscal year for the repayment of such bonded indebtedness and the amount so certified by the Director of General Services.

(c) If the Director of General Services determines in any fiscal year that the amount certified to the State Controller as the eligible bonded debt service during the last preceding fiscal year is less than

the amount actually raised by the district for the repayment of principal and interest of the bonded indebtedness referred to in subdivision (d) of Section 15729 and subdivision (a) of this section, then the Director of General Services shall add to the amount determined as the eligible bonded debt service for the current fiscal year an amount equal to the difference between the amount actually raised by the district during the preceding fiscal year for the repayment of such bonded indebtedness and the amount so certified by the Director of General Services.

15731. Notwithstanding any other provisions of this chapter, a school district otherwise eligible to receive a conditional apportionment under Chapter 8 (commencing with Section 16000) of this part may apply for an adjustment of annual repayment obligations under this chapter.

The board may require such information as is necessary to determine the number of units of estimated average daily attendance for which the district would have been eligible to construct school facilities under this chapter, if such conditional apportionment had been made and had become final. Such units shall be known as "eligible attendance units". The board shall then determine an "eligible facilities cost" by multiplying the number of such eligible attendance units by the average cost of housing elementary or high school pupils as set forth in the latest report to the Legislature required under Section 16098.

In any fiscal year in which the school district is, in the judgment of the board, operating sufficient year-round classes to provide housing for the eligible attendance units, the Director of General Services shall add to the amount which he is required to certify to the Controller under Section 15730 an amount equal to one-twentieth of such eligible facilities costs.

The additional amount so certified shall be considered for all purposes of this article as eligible bonded debt service.

15732. On or before the first day of January of each fiscal year, the State Controller shall compute for each grade level of a district for which grade level an apportionment has become final during any preceding fiscal year the 40-cent tax amount, the 30-cent tax amount and the 10-cent tax amount.

15733. On or before the first day of January of each fiscal year the State Controller shall determine the annual repayment, if any, to be due from each district during the next succeeding fiscal year, as follows:

(a) If, for any grade level of a district, the amount of the eligible bonded debt service exceeds the 40-cent tax amount, no annual repayment shall be due the state from such district with respect to such grade level during the next succeeding fiscal year.

(b) If, for any grade level of a district, the 40-cent tax amount is greater than the eligible bonded debt service, the amount of such excess shall constitute the annual repayment due the state with respect to such grade level during the next succeeding fiscal year;

except that if the eligible bonded debt service is less than the 10-cent tax amount, the annual repayment shall equal the 30-cent tax amount.

(c) The total repayment from each district is the sum of the annual repayments determined for each grade level of the district under this section.

15734. Notwithstanding any other provision of this chapter, and regardless of how many apportionments are made to a grade level of a school district under the provisions of this chapter, the total annual repayment for such grade level during any fiscal year, covering all such apportionments, shall not exceed the amount that would be computed under Sections 15729 to 15735, inclusive, for any one of such apportionments.

15735. The State Controller shall, during the next fiscal year following that in which he determines the annual repayment as herein provided, deduct the total amount of the annual repayment of each district in equal amounts from each of the February, March, April, and May installments of the apportionments made to such district from the State School Fund under Sections 46304, 46305, 84503, 84504, and 92 or 41050, Sections 41330 to 41343 or 84320 to 84332, both inclusive, and Sections 41600 to 41972, or 84700 to 84784, both inclusive, whichever are in effect; and, on order of the State Controller, the amount so deducted shall be transferred to the Public School Building Loan Fund. All money transferred to the Public School Building Loan Fund under the provisions of this section shall be available only for transfer to the General Fund under the provisions of Section 15903.

15736. Notwithstanding any provision of law to the contrary, whenever in any fiscal year, pursuant to Chapter 5, Part 9, Division 1 of the Revenue and Taxation Code, a refund is made or a judgment rendered, as the case may be, for the return of an amount collected as school district taxes levied during a previous year upon secured or unsecured personal property, because it was determined that such property was exempt from taxation, and such property so determined to be exempt equals 1 percent, or more, of the assessed valuation in the school district upon which school district taxes for such previous year were levied, the Controller shall reduce the annual repayment of the district and the amount deducted from the State School Fund apportionment of such district for the fiscal year next succeeding that in which such refund was made or judgment rendered, by that amount by which the annual repayment and deduction of the district would have been reduced for the fiscal year next succeeding that in which such taxes were levied had the assessed valuation upon which such annual repayment was computed not included an amount of assessed valuation equal to the amount of assessed valuation of the property so determined to be exempt.

The amount of annual repayment and deduction, reduced as required by this section, shall be the amount deducted by the

Controller for the purposes of Sections 15735, 15741, and 15742 for the fiscal year in which such reduction is made.

15737. (a) Upon request of the district, the Controller shall use in computing the "40-cent, 30-cent, and 10-cent tax amounts" under Section 15732 the difference between the total assessed valuation of property in a district as shown on the equalized assessment roll for the current fiscal year and the assessed valuation of property as shown on the equalized assessment roll for the current fiscal year, in excess of 2 percent of such total assessed valuation, with respect to which revenues of the district taxes levied in the 1954-1955 fiscal year, or thereafter, have been impounded by the county auditor pursuant to Section 14240. If such a request is received prior to August 1, 1955, with respect to the impounding of revenues of taxes levied during the 1954-1955 fiscal year, the Controller shall recompute the annual repayment of the district due during the 1955-1956 fiscal year on the basis of such reduced assessed valuation, and, on or before September 1, 1955, notify the officers and board referred to in Section 15741 of such recomputed annual repayment for the 1955-1956 fiscal year, and of the recomputed amount to be deducted from the State School Fund apportionment to such district during the 1955-1956 fiscal year.

(b) Whenever, after July 1, 1955, the county auditor notifies the Superintendent of Public Instruction, the Board of Governors of the California Community Colleges and the Controller of the release of impounded tax revenues to the school district, the Controller shall add to the annual repayment of the district, for the first fiscal year or second fiscal year next succeeding that in which such notification of release was made, that amount by which the annual repayment of the district for a previous fiscal year was reduced by reason of the exclusion of assessed valuation with respect to tax revenues impounded and thereafter released.

(c) The amount of annual repayment and deduction, increased or reduced as required by this section, shall be the amount deducted by the Controller for the purposes of Sections 15735, 15741, and 15742 for the fiscal year in which such increase or reduction occurs.

(d) If a request is received from a school district and an annual repayment reduced pursuant to subdivision (a) hereof, Section 15736 shall not apply with respect to any tax revenues to which subdivision (a) applies.

15738. The State Controller shall make the deduction provided by Section 15735 during each fiscal year, as herein provided, until the principal amount of the apportionment made to the district for such grade level, and all accrued interest due thereon, has been withheld; but no interest shall accrue or become due and payable to the state with respect to the principal amount of any such apportionment after the expiration of 25 years from the first day of July of the fiscal year next succeeding the date of the warrant issued by the State Controller covering the payment to the county treasurer of each portion of such apportionment. At the expiration of 30 years from the

first day of July of the fiscal year next succeeding the date of the warrant issued by the State Controller covering the payment to the county treasurer of each portion of such apportionment, any unpaid balance of the principal amount of any such apportionment, including all interest included in such principal amount, shall be canceled on the books of the State Controller, and the state shall have no further right to the repayment of such unpaid balance.

15739. The State Controller shall certify to the board the cancellation of the unpaid balance of the principal amount of such apportionment; and upon receipt of such certification, the board shall, in the name of the state, convey to the district all sites purchased and improved, all equipment purchased, and all buildings constructed, reconstructed, altered, or added to, from moneys provided by the apportionment covered by such cancellation.

15740. The State Controller shall determine and maintain a record of the amount due the state in connection with each apportionment made to each grade level of a district under the provisions of this chapter. He shall compute interest on the original amount of the apportionment at the rate fixed by the board, from the date of issuance of the State Controller's warrant covering the payment to the county treasurer of any portion of the apportionment until the first day of July of the fiscal year next succeeding that in which such warrant was issued. Thereafter, interest shall accrue to and be compounded as a part of the principal amount due the state pursuant to such apportionment through the 30th day of the following June of each year, until the principal and interest have been paid, or until the interest ceases to accrue, as provided in this chapter. Interest on unpaid school building aid apportionments shall be computed as if the annual repayment were credited on the first day of July of the fiscal year in which such repayment is withheld.

15741. Upon computing in any fiscal year the amount to be deducted from the apportionments to the district from the State School Fund during the succeeding fiscal year, the State Controller shall notify the governing board of the district and the county auditor of the county, the county superintendent of which has jurisdiction over the district, of the amount to be deducted.

15742. The board of supervisors of the county, the county superintendent of which has jurisdiction over any district which under this chapter will have moneys withheld by the State Controller from the apportionments to be made to it from the State School Fund during any fiscal year, shall annually at the time the board of supervisors makes the levy of taxes for county purposes, levy a tax upon the property in the district sufficient to raise for the district the amount of money to be withheld by the State Controller during the fiscal year in which the tax is levied. Such tax, when collected, shall be paid into the county treasury of the county, the county superintendent of schools of which has jurisdiction over the district for which the tax was levied, to the credit of the general fund of the district.

15743. The board shall prescribe in such detail as it deems necessary, the purposes for which moneys apportioned by it or which it requires the district to contribute toward, or in reduction of the cost of a project, may be expended, and such prescription shall be binding upon the governing board of the district, save as it may be changed or modified by the board for such cause as it sees fit. In determining funds which can be contributed by the district, the board may require the district to contribute unexpended balances of funds earmarked or encumbered by the district for furniture, equipment, or any other lawful purpose; provided, however, that changes or substitutions in the purposes for which such funds were earmarked or encumbered, with respect to such requirement under any apportionment heretofore or hereafter made, may be authorized by the board, or pursuant to its delegation, by the Director of General Services.

15744. Unless the board has received the certificates of the county superintendent of schools required by Section 15722 within nine months from the date of the conditional apportionment, it shall, at the expiration of said nine months' period, void said conditional apportionment and shall certify this fact to the State Controller. Each final apportionment made by the board under this chapter shall be certified by it to the State Controller who shall from time to time draw his warrant on the State Treasurer in favor of the county treasurer of the county having jurisdiction over the district in accordance with the terms of such final apportionment. The warrant shall be exempt from the provisions of Division 4 of Title 2 of the Government Code and shall be paid by the State Treasurer from the Public School Building Loan Fund.

15745. A public school building fund is hereby created in the county treasury in each county for each school district or community college district in such county. The county treasurer of each county shall pay into the public school building fund of each district, exactly as apportioned by the board, all moneys received by him under this chapter with respect to each such district.

15746. The governing board of each school district or community college district to which an apportionment is made under this chapter is authorized to, and shall, transfer to the Public School Building Fund of the district from all other funds of the district in which such moneys may be, all moneys of the district which under, or pursuant to, this chapter are required to be expended for the project for which such apportionment was made.

15747. A fund in the State Treasury is hereby created, to be known as the Public School Building Loan Fund. All money in the Public School Building Loan Fund, including any money deposited in said fund from any source whatsoever after July 29, 1949, is hereby continuously appropriated without regard to fiscal years for expenditure pursuant to apportionments made under the provisions of this chapter.

15748. Notwithstanding any provision of law to the contrary, the

State Allocation Board may from time to time by appropriate resolution order the transfer from the Public School Building Loan Fund to the State School Building Aid Fund of any amounts therein which it deems no longer desirable to retain for the purposes of this chapter and Sections 15900 to 15913, inclusive; providing, that nothing herein shall be deemed to apply to any moneys heretofore or hereafter deposited in the Public School Building Loan Fund by virtue of Sections 15735 and 15907, and former Section 5107 as added by Chapter 922 of the Statutes of 1949, and as subsequently amended; or to any moneys appropriated from the Public School Building Loan Fund by virtue of the Budget Acts of 1954 and 1955, and which remain available for expenditure. Upon such order or orders the Controller shall make appropriate transfers, and any sums so transferred shall be available for apportionment in the same manner as other moneys in the State School Building Aid Fund, except that to the amount available for apportionment on the fifth day of each month pursuant to Section 16409, there shall be added any amount transferred to the State School Building Aid Fund by virtue of this paragraph prior to the fifth day of the preceding month. Notwithstanding the provisions of Section 15904, after July 7, 1955, there shall be no further transfers to the General Fund from the Public School Building Loan Fund of any amounts deposited therein by virtue of Sections 15752, 15753, and 15754.

15749. The governing board of each school district or community college district to which an apportionment has been made under this chapter shall expend the moneys in the Public School Building Fund of the district exactly as apportioned by the board and only for the purposes for which said moneys were apportioned to the district, and for no other purpose, and shall make such reports relating to the expenditure of such moneys as the board and the State Controller shall require.

15750. A complete detailed report of expenditure of funds allocated pursuant to this chapter shall be made by the board annually to the Legislature. The report shall contain a detailed statement of facilities provided, type of construction, square footage provided and all other items which will enable the Legislature fully to understand the nature of the construction performed by the school districts.

15751. It shall be the duty of the State Controller to make such audit or audits of the books and records of counties and school districts receiving apportionments under this chapter, as he may deem necessary from time to time, for the purpose of determining that the money received by school districts as apportionments hereunder has been expended for the purposes and under the conditions authorized by this chapter.

15752. Whenever the State Controller determines that any money apportioned to a school district has been expended by such school district for purposes not authorized by this chapter, or exceeds the final cost of the project which is authorized by this chapter to be

paid therefrom, the State Controller shall furnish written notice to the board, the governing board of the school district, the county superintendent of schools, the county auditor, and the county treasurer of the county whose county superintendent of schools has jurisdiction over the school district, directing the school district and the county treasurer to pay into the State Treasury the amount of such unauthorized expenditures, or the amount of such excess apportionment, as the case may be. Upon receipt of such notice, such governing board shall order the county treasurer to pay to the State Treasurer, out of any moneys in the county treasury available to the school district for that purpose, the amount set forth in such notice. Such amount shall, upon order of the State Controller, be deposited in the State Treasury to the credit of the Public School Building Loan Fund.

It shall be the duty of such governing body and county treasurer to make the payments to the State Treasurer as provided in this section, and it shall be the duty of the State Controller to enforce such collection on behalf of the state.

If, upon petition of the district, the State Controller determines that the amount is in excess of the amount that may be paid out of taxes levied at the maximum rate increased by any increase in such rate authorized by the electors of the district pursuant to Section 42202 or 85112, without impairing essential district services, he may provide for the payment of the entire amount or any unpaid balance thereof in not exceeding three consecutive annual payments, commencing with the next school year. Each payment shall be an equal portion of the principal amount, plus accrued interest, and shall be paid not later than January 31st of each school year in which a payment is due. If the district fails to make the payment as specified, the State Controller shall deduct the amount thereof from the February payment made to the district under the provisions of Section 14041.

Deferred payments under this section shall bear interest at the same annual rate of interest as the apportionment from which the unauthorized expenditures or the amounts of excess apportionment were made.

15753. Any portion of an apportionment paid to a school district under this chapter shall be available for expenditure by its governing board for not less than one year nor more than three years, as the board shall determine, after the date on which the warrant covering such portion of the apportionment was issued by the State Controller. For the purposes of this chapter, an apportionment shall be deemed to be expended at the time and to the extent that the amount thereof on deposit in the county treasury has been encumbered by the creation of a valid obligation on the part of the school district. Upon the expiration of its period of availability, the unencumbered balance of any apportionment made under this chapter shall become due and payable to the State of California; and the governing board of the school district and the county treasurer

shall pay the amount of such unencumbered balance to the State Treasurer, out of the funds, and in the manner specified in Section 15752. Such payment shall, on order of the State Controller, be deposited in the Public School Building Loan Fund in the State Treasury.

It shall be the duty of such governing body and county treasurer to make the payments to the State Treasurer as provided in this section, and it shall be the duty of the State Controller to enforce such collection on behalf of the state.

15754. Whenever a school district receives an apportionment under this chapter for the purchase or improvement of a school building site and within a period of five years after the date on which the warrant covering the appropriate portion or portions of the apportionment was drawn on the State Treasurer from the Public School Building Loan Fund, (1) sells or otherwise disposes of such site or the improvements thereon, or any portion thereof, purchased or improved in whole or in part from such apportionment, or (2) within not less than one year nor more than five years, as the board shall determine, does not begin to use such site or the improvements thereon for the purpose or purposes for which said apportionment was made, the board shall make such determinations and take such action with respect thereto as it may deem necessary. If the board determines that the district has (1) sold or otherwise disposed of the site or the improvements thereon, or any portion thereof, or (2) has not used the site for the purpose for which the apportionment was made, it shall demand the return of the apportionment or such portion thereof as it deems proper.

Written notice of such demand, setting forth the amount due the state pursuant thereto, shall be furnished by the board to the governing board of the school district, the county superintendent of schools, the county auditor, the county treasurer of the county whose county has jurisdiction over the school district, and the State Controller. Upon receipt of such notice and demand, the governing board of the school district shall order the county treasurer to pay to the State Treasurer, out of any moneys in the county treasury available to the school district for that purpose, the amount set forth in such notice. Such amount shall, upon order of the State Controller, be deposited in the State Treasury to the credit of the Public School Building Loan Fund.

It shall be the duty of such governing board and county treasurer to make the payments to the State Treasurer as provided in this section, and it shall be the duty of the State Controller to enforce such collection on behalf of the state.

## Article 2. School Housing Aid for Reorganized Districts

15780. (a) As used in this article:

(1) "State-aided district" means a district to which a conditional or final apportionment has been made under this chapter.

(2) "Acquiring district" means a district in which all, or a part of, a state-aided district or an applicant district has been included.

(b) Except as otherwise provided in Section 15788, the effective date for the purposes of this article of any change of boundaries or annexation or other inclusion affecting a school district shall be the date such action became effective for the purposes of Section 4002.

15781. When a district has received conditional apportionments which have become final under this chapter, and there is a unification of said district prior to December 31, 1952, within the meaning of Section 4320, with another district having the same boundaries, the effective date of said unification for the purpose of the first district receiving additional apportionments pursuant to the terms of Section 15714 shall be July 1, 1953.

15782. Whenever, prior to the date on which a conditional apportionment is made by the board to an applicant district, (1) if an applicant district is annexed to or otherwise included in whole in another district which is ineligible for an apportionment under this chapter, no apportionment shall be made to the applicant district; (2) if less than the whole of an applicant district is included in a district which is ineligible for an apportionment under this chapter, the board may reconsider the application of the applicant district and make such determinations and take such action with respect thereto, including the making, subject to Article 1 of this chapter, of a conditional apportionment to such district, as the board may deem necessary because of such inclusion of less than the whole of the applicant district in the acquiring district; (3) if an applicant district is annexed to or otherwise included in whole or in part in a district which is eligible for an apportionment under this chapter and has made or does make an application for such an apportionment, the board may reconsider the applications of the applicant district and the acquiring district and make such determinations and take such action with respect thereto, including the making, subject to the provisions of Article 1 (commencing with Section 15700) of this chapter, of conditional apportionments to such districts, as the board may deem necessary because of such annexation or other inclusion in the acquiring district of the applicant district in whole or in part.

15783. Whenever, subsequent to the date on which a conditional apportionment is made by the board to an applicant district, but prior to the date on which said conditional apportionment becomes final, (1) if an applicant district is annexed to or otherwise included in whole in a district which is not eligible for an apportionment under this chapter, such conditional apportionment shall, notwithstanding any other provisions of this chapter, become void and the board shall promptly notify the State Controller in writing thereof and the date on which the apportionment became void; (2) if the district to which an applicant district is annexed or in which it is otherwise included in whole is eligible for an apportionment, has made or does make an application for such an apportionment under this chapter, the conditional apportionment made to the applicant

district shall, notwithstanding any other provisions of this chapter, become void but the board may reconsider the application of the acquiring district and make such determinations and take such action with respect thereto, including the making, subject to the provisions of Article 1 (commencing with Section 15700) of this chapter except as hereinafter provided, of additional conditional apportionments to the acquiring district, as the board may deem necessary as a result of such annexation or other inclusion in the acquiring district of the applicant district; (3) if less than the whole of an applicant district is included in another district, the conditional apportionment shall, notwithstanding any other provisions of this chapter become void, but the board may reconsider the application and make such determinations and take such actions with respect thereto, including the making, subject to the provisions of Article 1 (commencing with Section 15700) of this chapter except as hereinafter provided, of new conditional apportionments to the applicant district, as the board may deem necessary as a result of such inclusion of a portion of the applicant district in the acquiring district.

Notwithstanding anything in the first sentence of Section 15721 to the contrary, additional conditional apportionments made to a district under (2), or new conditional apportionments made to a district under (3) of the first paragraph of this section may, with the approval of the board, become final if the total amount of the bonds of the district outstanding and unpaid is within ten thousand dollars (\$10,000) of the amount required under Section 15721.

15784. Whenever, prior to the date on which conditional apportionments have been made to an applicant district for the full amount of state aid approved for the district under Section 15715, (1) if the applicant district is annexed to or otherwise included in whole in another district which is ineligible for an apportionment under this chapter, no further apportionment shall be made to the applicant district; (2) if the applicant district is annexed to or otherwise included in whole in a district which is eligible for an apportionment under this chapter and which has made or does make an application for such an apportionment, the board may reconsider the applications of the applicant district and the acquiring district and make such determinations and take such action with respect thereto, including the making, subject to the provisions of Article 1 (commencing with Section 15700) of this chapter, of a conditional apportionment or apportionments to such acquiring district as the board may deem necessary because of such annexation or other inclusion in the acquiring district of the applicant district; (3) if a portion of the applicant district is annexed to or otherwise included in another district, the board may reconsider the application of the applicant district and may, within two years after the first apportionment made under said approval, make such additional apportionments as it sees fit to the applicant district, but not in excess of the amount in which such application was originally approved,

without requiring the district to issue additional bonds.

15785. Notwithstanding, and in lieu of, any provisions of this chapter to the contrary, excepting Section 15725 if during the fiscal year 1950–1951, or any subsequent fiscal year, a conditional apportionment is or has been made to a district, hereinafter referred to as the original district, and if the original district (1) holds or has held all elections required by Section 15721, and (2) before such apportionment becomes final is or has been annexed to or included in whole in another district, hereinafter referred to as the acquiring district, which had prior thereto received its first final apportionment under this chapter during the same fiscal year, and (3) after such inclusion or annexation sells or has sold the bonds authorized by the aforesaid elections, the board may approve any application by the governing board of the acquiring district and make an apportionment, or apportionments, for any project for which the original district would have been eligible under this chapter had such inclusion not taken place. No apportionment shall be made to the acquiring district under this section unless the proceeds of the bonds which the board required the original district to sell are available for and will be contributed toward the cost of the approved project. Any apportionment made to the acquiring district under this section shall become final when made.

The computations provided in Sections 15729, 15730 and 15733 with respect to apportionments made under this section shall be made exactly as though the acquiring school district was comprised only of the original school district.

Any rate or amount of tax levied pursuant to or under the authority of Sections 14204 and 15742, or any other provision of law, for the purpose of producing the amount or any part thereof deducted by the State Controller with respect to apportionments made under this section, during any fiscal year under Sections 15735 and 15738 from apportionments to the acquiring district from the State School Fund shall be levied only on property in the original school district.

15786. Whenever, subsequent to the date when a conditional apportionment is made to a district and before such conditional apportionment becomes final the boundaries of such district are changed so that the territory of the district is reduced by not to exceed 1 percent of the assessed valuation of the district, as determined by the last equalized assessment roll immediately preceding the effective date of such change of boundaries, and the superintendent of schools of the county having jurisdiction over the district has failed to file the certificate required by Section 15795, showing such change of boundaries, and prior to April 15, 1952, the board has certified to the State Controller that the apportionment made to the district has become final, such final apportionment is hereby confirmed, ratified, and validated, and any expenditure of money from the Public School Building Loan Fund according to the terms of such final apportionment is hereby confirmed, ratified, and validated.

15787. Notwithstanding any provision of law to the contrary, whenever a conditional apportionment has been made to an elementary school district pursuant to Section 15714 prior to August 1, 1951, and the school district has subsequently voted to become a part of a union school district before the school district has voted to accept and repay an amount sufficient to include both said entire apportionment made pursuant to Section 15714, and all other apportionments made to said school district by the board prior to August 1, 1951, the elementary school district is continued in existence until September 1, 1953, for the purpose of (1) receiving any apportionment made to said district subsequent to August 1, 1951, under Section 15718, as if said elementary district had not voted to unionize with another school district, and (2) for the purpose of voting upon the acceptance and repayment of the apportionment mentioned in (1) or any other apportionment made to said district by the board subsequent to August 1, 1951.

If any elementary school district so described above shall vote, prior to September 1, 1953, to accept and repay any apportionment above mentioned (except of any apportionment made under Section 15718), said apportionment shall thereupon become final. Repayment of any apportionment referred to in this section shall be made by said elementary district pursuant to the applicable provisions of this chapter as if no change in boundaries had been made in said district.

15788. Whenever, subsequent to the date on which a conditional apportionment made to a district becomes final, the state-aided district is included in whole in another district, the acquiring district shall, on the effective date of such inclusion, succeed to and be vested with all of the duties, powers, purposes, jurisdiction, and responsibilities of the state-aided district with respect to said apportionment and the property acquired or to be acquired from funds provided thereby, and all funds in the public school building fund of the state-aided district shall be transferred to the public school building fund of the acquiring district. All amounts which would, after the effective date of such inclusion, have been otherwise paid to the state-aided district under the terms of or pursuant to said apportionment, shall be paid to the acquiring district. In addition, the acquiring district shall, on the effective date of the inclusion of the state-aided district in the acquiring district as fixed by Section 4000, become liable for the annual repayments and other payments due the state under the provisions of this chapter with respect to said apportionment or the property acquired or to be acquired therewith.

15789. Whenever one or more state-aided districts are included in whole in an acquiring district, and the acquiring district applies for and receives an apportionment, then after the effective date of such inclusion and upon the approval of the application of the acquiring district, the governing board of each component state-aided district shall immediately transfer to the acquiring district all moneys of such component district which are required to be, or have been,

earmarked for a project or projects of the district. The acquiring district, upon the transfer to it of such funds, may expend such funds for any projects of the acquiring district as to which its application was approved.

15790. Whenever, subsequent to the date on which a conditional apportionment made to a state-aided district becomes final, less than all of such district is included in another district, the Director of General Services shall determine what portion of such apportionment was expended or will be expended for property acquired or to be acquired by the acquiring district. Any determination made by the Director of General Services under this section may be redetermined by him, from time to time, until the project for which the apportionment was made has been completed, and the final cost thereof determined and the final determination has been made pursuant to such final cost. The Director of General Services shall promptly notify the State Controller, the governing board of the state-aided district and of the acquiring district, the superintendent of schools, the auditor, and the treasurer of the counties having jurisdiction over said districts of each determination and redetermination made by him under this section. No redetermination shall be retroactive nor affect the liability of any school district for any payment or annual repayment, or portion thereof, previously made by or on behalf of such district to the state under the provisions of this chapter.

On and after the date of such change of boundaries, the acquiring district succeeds to and is vested with all of the duties, powers, purposes, jurisdiction, and responsibilities of the state-aided district with respect to that portion of the apportionment which the Director of General Services has determined or redetermined under this section was expended, or will be expended, for property acquired or to be acquired by the acquiring district, and the unexpended part of such portion of the apportionment in the public school building fund of the state-aided district shall be transferred to the public school building fund of the acquiring district. In addition, and at the same time, the acquiring district shall become liable for the payment to the state of that portion of the annual repayment and all other payments due the state under the provisions of this chapter with respect to that portion of the apportionment which the Director of General Services has determined or redetermined was expended, or will be expended for property acquired, or to be acquired by the acquiring district, or, in the event such portion of such apportionment is a lower percentage of such apportionment than the percentage that the assessed valuation in the territory of the state-aided district which was transferred to the acquiring district is of the total assessed valuation of the state-aided district immediately preceding the effective date of the transfer, the acquiring district shall become liable for the payment to the state of that percentage of the annual repayment and all other repayments due to the state under provisions of this chapter with respect to such apportionment which

is equal to such percentage of assessed valuation in the territory transferred to the acquiring district.

Notwithstanding the foregoing, the liability of the acquiring district for the repayment of any portion of the aforesaid apportionment made to the aforesaid state-aided district shall not exceed the product of the highest percentage referred to above (whether relating to assessed valuation or to the portion of the apportionment expended in the property acquired), multiplied by the balance due on the apportionment made to the state-aided district at the time of the withdrawal on the effective date specified in Section 4064 of the territory referred to. Such limited liability is hereinafter referred to as "the maximum." It is the intent of the Legislature that the maximum shall be applied by the Controller, both retroactively and prospectively, provided that as a result of such application (1) no cash refund shall be made to any district; (2) in the event any district has, in the past, paid an amount greater than the maximum, assuming this paragraph had been in effect at such time, the excess shall be credited by the Controller against any apportionment balances for which said district is or may hereafter become liable; and (3) the Controller shall make retroactively any adjustments in the amounts due from other districts by virtue of any adjustments made under (2) above. Notwithstanding the foregoing, any computations required to be made pursuant to this paragraph shall not be reflected in any changes in deductions required to be made pursuant to Section 15735 prior to January 1, 1966.

If any subsection, clause, sentence or phrase of this section is for any reason held to be unconstitutional such decision shall not affect the validity of the remaining portions of this section. The Legislature hereby declares that it would have adopted this section, and each subsection, sentence, clause or phrase thereof irrespective of the fact that any one or more subsections, clauses, sentences or phrases be declared unconstitutional.

15791. Notwithstanding any change in the boundaries of a state-aided district or the annexation to, or the inclusion in, another district of a state-aided district, the state-aided district as it existed immediately prior to the effective date of such action shall be continued in existence for the determination of the assessed valuation of the property therein and for the purposes of the computations provided by Sections 15729, 15730, and 15733; and all the computations required to be made pursuant to said sections shall be made exactly as if there had been no such change of boundaries, annexations, or inclusion, except as otherwise provided in Sections 15792 and 15793.

15792. Whenever, subsequent to the date on which a conditional apportionment becomes final, territory is withdrawn from a state-aided district and no portion of the apportionment was expended for school property acquired by the acquiring district:

(1) If the acquiring district is a state-aided district, the assessed valuation in the territory acquired shall be included in determining

assessed valuation of the property in the acquiring district, and shall thereafter be excluded in determining assessed valuation of the property in the state-aided district, for purposes of the computations under Sections 15729 to 15733, inclusive;

(2) If the acquiring district is not a state-aided district, the State Controller shall determine the percentage relationship, at the time of the withdrawal, between (a) the assessed valuation in the territory acquired, together with the current assessed valuation in all other territory theretofore acquired by the acquiring district from the state-aided district since the date of its first conditional apportionment under this chapter, and (b) the current assessed valuation of the state-aided district as it was territorially constituted on such latter date.

If the percentage of assessed valuation in acquired territory is, in the aggregate, less than 10 percent, the assessed valuation in all such acquired territory shall be excluded, until the next withdrawal of territory from the state-aided district to the acquiring district, in determining the assessed valuation of the state-aided district for the purposes of the computations under Sections 15729 to 15733, inclusive.

If the percentage of assessed valuation in acquired territory is, in the aggregate, a percentage equal to or greater than 10 percent, the State Controller shall, by deducting such percentage from 100 percent, obtain the "complement percentage." Until the next withdrawal of territory from the state-aided district to the acquiring district, the assessed valuation of the state-aided district for purposes of the computations under Sections 15729 to 15733, inclusive, shall be determined by dividing the current assessed valuation of the state-aided district, as territorially constituted immediately subsequent to the last withdrawal, by the complement percentage.

Whenever, pursuant to this section, the assessed valuation of the state-aided district is adjusted for repayment computation purposes by use of the complement percentage, liability for the annual repayment computed shall be apportioned between the state-aided district and the acquiring district by multiplying such annual repayment by the complement percentage, the product representing the liability of the state-aided district, and the remainder of the computed repayment representing the liability of the acquiring district.

Notwithstanding the foregoing, the liability of the state-aided district shall not exceed the product of any "complement percentage" (as it may from time to time exist) times the balance due on the aforesaid final apportionment at the time such complement percentage is established; and the liability of the acquiring district (while a complement percentage remains unchanged) shall not exceed the remainder of the balance of the aforesaid final apportionment at the time such complement percentage is established. The maximum liability on the part of either the state-aided or acquiring districts established as above (and

until such time as such liability be altered by altering the "complement percentage") shall be hereinafter referred to in this section with respect to each such district as "the maximum."

(3) In the event that two or more non-state-aided districts acquire territory from the aforesaid state-aided district the Controller shall determine the formulae for apportioning liability for such annual repayment between the districts affected (including the formulae for determining what assessed valuations shall be used within the affected districts or territories withdrawn, and the dates of determination thereof) as will in his opinion best comply with the principles set forth above, irrespective of whether such formulae are in literal compliance therewith. The same percentage of annual repayment for which a district is liable at the time such a liability apportionment is made shall (unless and until such liability apportionment is subsequently changed pursuant to this paragraph) be deemed applicable to the liability of such district for the balance (as of the date such liability apportionment is made) due on the final apportionment to the state-aided district. Such liability for such balance shall, with respect to any affected district, be hereinafter referred to as the "maximum" for such district.

(4) It is the intent of the Legislature that the foregoing "maximums" shall be applied by the Controller both retroactively and prospectively, provided that as a result of such application (1) no cash refund shall be made to any district; (2) in the event any district has, in the past, paid an amount greater than its "maximum," assuming this paragraph and others to which it is referable had been in effect at such time, the excess shall be credited by the Controller against any apportionment balances for which said district is or may hereafter become liable; and (3) the Controller shall make retroactively any adjustments in the amounts due from any other district by virtue of any adjustments made under (2) above. Notwithstanding the foregoing, any computations required to be made pursuant to this paragraph shall not be reflected in any changes in deductions required to be made pursuant to Section 16080 prior to January 1, 1966.

If any subsection, clause, sentence or phrase of this section is for any reason held to be unconstitutional such decision shall not affect the validity of the remaining portions of this section. The Legislature hereby declares that it would have adopted this section and each subsection, sentence, clause or phrase thereof irrespective of the fact that any one or more subsections, clauses, sentences, or phrases be declared unconstitutional.

15793. Whenever, subsequent to the date on which a conditional apportionment becomes final, any territory is withdrawn from a non-state-aided district and annexed to the state-aided district, the assessed valuation in the territory so annexed shall be included with the valuation of the state-aided district for the purposes of making the computations provided by Sections 15729 to 15733.

15794. The State Controller shall compute, in accordance with Sections 15791, 15792, and 15793, the amount of the annual

repayment due the state on account of the apportionment or apportionments to each state-aided district and shall deduct from the respective apportionments made from the State School Fund under Sections 46304, 46305, 84503, 84504 and 92 or 41050, Sections 41330 to 41343 or 84320, inclusive, and Sections 41600 to 41972, or 84700 to 84874, inclusive, whichever are in effect, to the state-aided district and an acquiring district the portion thereof for which each is liable under the provisions of this article.

15795. When, after any application is filed, the applicant district is annexed to, or, by change of boundaries or otherwise, is included in whole or in part in another district or districts, the superintendent of schools of the county having jurisdiction over said applicant district shall, within 10 days after the effective date of such annexation, inclusion, or change of boundaries, file a certificate with the board, in writing, in such form as the board shall prescribe, setting forth (1) the effective date of such annexation, inclusion, or change of boundaries; (2) identification of the area of the school district affected by such change and the name of the school district or districts in which such area is included as a result thereof; and (3) such additional information in such form as the board may require.

The board shall, upon receiving the appropriate certificate from a county superintendent of schools as provided herein, promptly notify the State Controller, in writing, of (1) the effective date of annexation or other inclusion of a state-aided district by an acquiring district; (2) the name of the state-aided district; (3) the name of the acquiring district; and (4) the number and other identification of the apportionment affected.

#### CHAPTER 7. STATE SCHOOL BUILDING AID BOND LAW OF 1949

15900. For the purpose of creating a fund to provide aid to school districts of the state, the State School Building Finance Committee, created by Section 15909, shall be and it hereby is authorized and empowered to create a debt or debts, liability or liabilities, of the State of California in the manner and to the extent hereinafter provided, but not otherwise, nor in excess thereof.

15901. After the approval by the people of the constitutional amendment of the 1949 Regular Session of the Legislature adding Section 2 to Article XVI of the Constitution of the state, and immediately after adoption of any resolution by the State School Building Finance Committee, provided for in Section 15911, the State Treasurer shall arrange for the preparation of the requisite number of suitable bonds of the denomination of one thousand dollars (\$1,000), or multiples thereof, in accordance with the specifications contained in such resolution. The aggregate par value of all bonds issued under this chapter shall not exceed the sum of two hundred fifty million dollars (\$250,000,000) and shall bear interest at a rate not exceeding 5 percent per annum. Both principal and interest shall be payable in lawful money of the United States, at the office of the State Treasurer, or at the office of any duly authorized

agent of the State Treasurer.

All bonds issued under this chapter shall bear the facsimile signature of the Governor and the facsimile countersignature of the Controller and shall be endorsed by the State Treasurer either by original signature or by a signature stamp, and the bonds shall be signed, countersigned, and endorsed by the officers who shall be in office on the date of issuance thereof, and each of said bonds shall bear an impress of the Great Seal of the State of California. Interest coupons attached to each bond shall bear the facsimile signature of the State Treasurer who shall be in office on the date of issuance of the bond to which said coupons pertain. The bonds or coupons so signed, countersigned, endorsed, and sealed, when sold, shall be and constitute a valid and binding general obligation upon the State of California, although the sale thereof be made at a date or dates upon which the officers having signed, countersigned, and endorsed said bonds or coupons, or any or either of said officers, shall have ceased to be the incumbents of the offices held by them at the time of signing, countersigning, or endorsing said bonds or coupons. Each bond issue under this chapter shall contain a clause or clauses referring to this chapter and to the resolutions of the State School Building Finance Committee hereunder by virtue of which said bond is issued, and if subject to call or redemption prior to maturity, shall contain a recital to that effect.

15902. The State Treasurer shall, on the respective dates of maturity or prior redemption of said bonds, or as soon thereafter as said bonds are surrendered to him, pay the same out of the proceeds of the Controller's warrants drawn in his favor as provided in Section 15903 and perforate the bonds so paid with a suitable device in a manner to indicate such payment and the date thereof. The State Treasurer, or his duly authorized agent, shall also, on the respective dates of maturity, cancel all bonds and appurtenant coupons bearing said dates of maturity and remaining unsold, by perforation with a suitable device in a manner to indicate such cancellation and the date thereof; provided, however, new bonds may be prepared and executed in lieu of bonds canceled solely by reason of the fact that such bonds have not been sold prior to their fixed maturity dates, whenever the State School Building Finance Committee shall determine such new bonds shall be prepared and executed, subject to the condition the total indebtedness created hereunder shall not exceed the maximum limit herein specified. Not less than four years after the final maturity date of a particular issue of bonds, the State Treasurer, or his duly authorized agent, may destroy or cremate any bonds of such issue which have been previously paid or canceled as hereinbefore provided.

15903. All bonds herein authorized, which shall have been duly sold and delivered as herein provided, shall constitute valid and legally binding general obligations of the State of California, and the full faith and credit of the State of California is hereby pledged for the punctual payment of both principal and interest thereof. There

is hereby appropriated from the General Fund in the State Treasury such sum annually as will be necessary to pay the principal of and the interest on the bonds issued and sold pursuant to the provisions of this chapter as said principal and interest become due and payable.

There shall be collected annually in the same manner and at the same time as other state revenue is collected such a sum, in addition to the ordinary revenues of the state, as shall be required to pay the principal and interest on said bonds as herein provided, and it is hereby made the duty of all officers charged by law with any duty in regard to the collection of said revenue, to do and perform each and every act which shall be necessary to collect such additional sum.

On the several dates of maturity of said principal and interest in each fiscal year, there shall be transferred to the General Fund in the State Treasury, on order of the State Controller, all of the money in the Public School Building Loan Fund which was transferred into or deposited in said fund in accordance with the provisions of Sections 15735, 15752, 15753, and 15754 and the former Section 5107 as added by Chapter 922 of the Statutes of 1949, and as subsequently amended, together with all of the money deposited in the Public School Building Loan Fund under Section 15906 which was derived from premium and accrued interest on bonds sold pursuant to said Section 15906; but the amount to be transferred to the General Fund pursuant to this section shall not exceed the principal of and interest on the said bonds then due and payable, except as hereinafter provided for the prior redemption of said bonds, and, in the event such money so returned on said dates of maturity being less than the said principal and interest then due and payable, then the balance remaining unpaid shall be returned into the General Fund in the State Treasury out of said Public School Building Loan Fund as soon thereafter as it shall become available.

Both principal and interest of said bonds shall be paid when due upon warrants duly drawn against said appropriation from the General Fund by the State Controller in favor of the State Treasurer, or his duly authorized agent, upon claims audited by the State Controller. The State Allocation Board, by resolution approved by the State School Building Finance Committee, shall direct the State Treasurer redemption, to call bonds (which are then subject to redemption) if such call is desirable and whenever funds are available to effect such redemption, the part of each issue so called to be not less than all of the bonds maturing in any one year. Notice of such redemption shall be given by the State Treasurer in the manner provided in the resolution authorizing the issuance of said bonds.

15904. All money deposited in the Public School Building Loan Fund under Sections 15735, 15752, 15753, and 15754 shall be available only for transfer to the General Fund, as provided in Section 15903. When transferred to the General Fund, such money shall be applied as a reimbursement to the General Fund on account of principal and interest due and payable or paid from the General Fund on the

earliest issue of school building bonds for which the General Fund has not been fully reimbursed by such transfer of funds.

15905. The sum of seventy-five thousand dollars (\$75,000) was appropriated, by Chapter 922 of the Statutes of 1949, out of the General Fund to be used as a revolving fund to pay the expenses incurred by the State Treasurer in having said bonds prepared and in advertising their sale or their prior redemption. Whenever bonds are sold, out of the first money realized from the sale of said bonds, there shall be redeposited in the revolving fund such sums as the State Treasurer has expended for the purpose, which may be used for the same purpose and repaid in the same manner whenever additional sales are made. Whenever all the bonds authorized by this chapter have been sold, said revolving fund shall be refunded to the General Fund in the State Treasury.

15906. The bonds authorized to be issued under this chapter shall be sold by the State Treasurer to the highest bidder for cash at public sale upon sealed bids in such parcels and numbers as the State Treasurer shall be directed by the Governor of the state, under seal thereof, but the State Treasurer must reject any and all bids for said bonds, or for any of them, which shall be below the par value of said bonds so offered plus the interest which shall have accrued thereon between the date of purchaser's payment for said bonds and the last preceding interest maturity date; and the State Treasurer may from time to time, by public announcement at the place and time fixed for the sale, continue such sale, as to the whole of the bonds offered, or any part thereof offered, at such time and place as the State Treasurer may select. Each bid shall be in writing and signed by the bidder and sealed, and shall be accompanied by the deposit of a certified check or cashier's check for five thousand dollars (\$5,000), drawn on a bank or trust company authorized to transact and transacting business in the State of California, payable to the Treasurer of the State of California, such deposit not to bear interest. The deposit of each unsuccessful bidder shall be returned to him immediately upon the nonacceptance of his bid, and the deposit of the successful bidder shall immediately upon the acceptance of his bid become and be the property of the State of California and be placed in the State Treasury to the credit of the Public School Building Loan Fund, and shall be credited to the successful purchaser upon the purchase price of the bonds bid for in case such purchase price is paid in full by him within the time mutually agreed upon between the successful bidder and the State Treasurer. If the purchase price is not so paid, the successful bidder shall have no right in and to said bonds or by reason of said bid, or to the recovery of said deposit accompanying said bid, or to any allowance or credit by reason of such deposit unless it shall appear that the bonds would not be validly issued if delivered to the purchaser in the form and manner proposed. In case the purchase price is not so paid, the bonds so sold but not paid for shall be resold by the State Treasurer upon notice as provided in case of original sale.

Temporary or interim bonds, certificates, or receipts of any denomination whatever and with or without coupons attached thereto, to be signed by the State Treasurer, may be issued and delivered until the definitive bonds are executed and available for delivery. Signature of the State Treasurer may be by signature stamp.

15907. All money deposited in the Public School Building Loan Fund under the provisions of Section 15906 which is derived from premium and accrued interest on bonds sold pursuant to said section shall be reserved in said fund and shall be available only for transfer to the General Fund, as provided by Section 15903. When transferred to the General Fund, such money shall be applied as a reimbursement to the General Fund on account of principal and interest due and payable or paid from the General Fund on the particular issue of school building bonds from the sale of which such premium and accrued interests were derived.

15908. Due notice of the time and place of sale of all bonds shall be given by the State Treasurer by publication in one newspaper published in the City and County of San Francisco, by publication in one newspaper published in the City of Sacramento, and by publication in one newspaper published in the City of Los Angeles once a week during two weeks prior to such sale. In addition to the notice last above provided for, the State Treasurer may give further notice as he may deem advisable, but the expense and cost of such additional notice shall not exceed the sum of five hundred dollars (\$500) for each sale so advertised. The proceeds of the sale of such bonds and such amount as may have been paid as accrued interest thereon shall be forthwith paid over by the State Treasurer into the Public School Building Loan Fund and must be used exclusively to aid school districts of the state in purchasing and improving school sites, the purchasing of furniture and equipment for schools, and the planning and construction, reconstructing, repairing, alteration of, and making additions to, school buildings; provided, that the proceeds from the sale of said bonds may be used to pay the debt created by the issuance and sale thereof, the expense of preparing and of advertising the sale or prior redemption of said bonds, and the actual and necessary expenses of the State School Building Finance Committee.

15909. There is hereby created a State School Building Finance Committee composed of the Governor, State Controller, State Treasurer, Director of Finance, and Director of Education, all of whom shall serve thereon without compensation and a majority of whom shall be empowered to act for said committee. Two Members of the Senate appointed by the Senate Committee on Rules, and two Members of the Assembly appointed by the speaker, shall meet and advise with the committee to the extent that such advisory participation is not incompatible with their respective positions as Members of the Legislature. For the purposes of this chapter said Members of the Legislature shall constitute an interim investigating

committee on the subject of this chapter and as such shall have the powers and duties imposed upon such committees by the Joint Rules of the Senate and the Assembly. The Director of Finance shall provide such assistance to the State School Building Finance Committee as it may require. The Attorney General of the state shall be the legal adviser of the State School Building Finance Committee.

15910. Upon request of the State Allocation Board, supported by a statement of the apportionments made and to be made under Sections 15700 to 15795, inclusive, the State School Building Finance Committee shall determine whether or not it is necessary or desirable to issue any bonds authorized under this chapter in order to make such apportionments, and, if so, the amount of bonds then to be issued and sold. A sufficient number of bonds authorized under this chapter shall be issued and sold so that one hundred million dollar (\$100,000,000) will have been apportioned or will be available for apportionment on October 5, 1950, or as soon thereafter as such bonds can be issued and sold, and so that five million dollars (\$5,000,000) additional will become available for apportionment on November 5, 1950, and on the fifth day of each month thereafter until the total amount of bonds authorized by this chapter have been issued and sold. Successive issues of bonds may be authorized and sold to make such apportionments progressively, and it shall not be necessary that all of the bonds herein authorized to be issued shall be sold at any one time.

15911. Whenever the State School Building Finance Committee shall have determined that the sale of all or any part of the bonds authorized to be issued under this chapter is necessary or desirable to make such apportionments, in whole or in part, it shall adopt a resolution to this effect. The said resolution shall authorize and direct the State Treasurer to provide for the preparation of the requisite number of suitable bonds then authorized to be sold and shall specify as to such bonds then to be sold:

1. The aggregate number, aggregate par value, and the date of the bonds to be then sold. The date appearing on said bonds shall be deemed to be the date of issuance for all purposes of this chapter, irrespective of the actual date of delivery of such bonds and the payment of the purchase price thereof. Successive issues of bonds herein authorized shall be identified by the number of the issue, or the entire authorized issue may be divided into series or divisions appropriately identified by letter or number.

2. The date or dates of maturity, and the number and numerical sequence of the bonds maturing at each date of maturity, to be at annual or semiannual intervals.

3. The provisions for the retirement of said bonds at any time or times prior to their maturity, the manner of the call thereof, and the price or prices at which said bonds shall be redeemed.

4. The annual rate, or rates, of interest which the bonds to be issued shall bear, to be in multiples of one-fourth of 1 percent, which rate, or rates, at the discretion of said committee, may be determined

by the bidder at the time of sale of said bonds, not to exceed 5 percent.

5. The number, numerical sequence, amount or amounts, and dates of maturity of the interest coupons to be attached to said bonds.

6. The technical form and language of said bonds and of the interest coupons to be attached thereto.

In determining the date or dates of maturity of the said bonds and the amount of bonds maturing at each date of maturity, the State School Building Finance Committee shall be guided by the amounts and dates of maturity of the receipts estimated to accrue to the Public School Building Loan Fund from the transactions to be financed by each issue, and shall fix and determine said dates and amounts in such manner that, together with the dates and amounts of interest payments on the said bond issue, they shall coincide, as nearly as practicable, with the dates and amounts of such estimated receipts, provided, the bonds first to mature in each issue shall mature not later than five years and the bonds last to mature in each issue shall mature not later than 45 years from the date of issuance thereof.

The rate of interest to be borne by the bonds need not be uniform for all bonds of the same issue or series or division, and may be determined and fixed by the State School Building Finance Committee by resolution adopted at or after the sale of said bonds, but not exceeding in any case 5 percent per annum payable semiannually. The highest bid received on the sale of the bonds shall be determined by deducting the total amount of the premium bid (if any) from the total amount of interest which the state would be required to pay from the date of sale to the respective maturity dates of the bonds then offered for sale at the coupon rate or rates specified in the bid, and the award shall be made on the basis of the lowest net interest cost to the state. The lowest net interest cost to the state shall be computed between the dates aforesaid according to standard bond interest tables. The interest coupons first payable may, if the State School Building Finance Committee shall so determine and specify, be payable at any time within one year after the date of issuance of said bonds.

15912. All actual and necessary expenses of the State School Building Finance Committee and the legislative interim committee and of the members thereof incurred in the performance of their duties arising out of the provisions of this chapter shall be paid out of the Public School Building Loan Fund, upon approval of the State Board of Control and on Controller's warrant duly drawn for that purpose.

Whenever the State School Building Finance Committee deems that it will increase the salability or the price of the bonds to obtain a legal opinion as to the validity of the bonds, prior to or after sale, from attorneys other than the Attorney General, the committee may authorize the State Treasurer or the Department of Finance or both to obtain such a legal opinion. Payment for such legal services shall

be made from the Public School Building Loan Fund, upon approval of the State Board of Control and on Controller's warrant duly drawn for that purpose.

15913. The Controller, the State Treasurer and the State School Building Finance Committee shall keep full and particular account and record of all their proceedings under this chapter and they shall transmit to the Governor an abstract of all such proceedings thereunder, with an annual report, to be by the Governor laid before the Legislature biennially; and all books and papers pertaining to the matter provided for in this chapter shall at all times be open to the inspection of any party interested, or the Governor, or the Attorney General, or a committee of either branch of the Legislature, or a joint committee of both, or any citizen of the state.

## CHAPTER 8. STATE SCHOOL BUILDING AID LAW OF 1952

### Article 1. General Provisions

16000. This chapter may be cited as the State School Building Aid Law of 1952.

16001. The Legislature hereby declares that it is in the interest of the state and of the people thereof for the state to aid school districts of the state in providing necessary school sites and buildings for the pupils of the public school system, such system being a matter of general concern inasmuch as the education of the children of the state is an obligation and function of the state.

In adopting this chapter, the Legislature considers that the great need in school construction is for classrooms for the education of the pupils of the public school system. It is the intent of the Legislature to first satisfy this primary need to the greatest extent possible before providing additional educational facilities, regardless of how desirable such additional facilities may be. To the end that school classrooms may be made available at once and to all school districts in need of such classrooms, provisions for other needed school facilities is necessarily subordinated.

16002. As used in this chapter:

(a) "Board" means the State Allocation Board, created by Section 7 of the Construction and Employment Act as amended.

(b) "Director" means the Director of Education for kindergarten and grades 1 to 12, inclusive, and the Board of Governors of the California Community Colleges for grades 13 and 14.

(c) Notwithstanding any other provision of law, the term "project" shall be deemed to include any or all of the purposes for which a school district has applied for apportionments under this chapter, pursuant to such regulations as the State Allocation Board may adopt.

(d) "Grade level maintained by a district" means (1) the kindergarten, if any, and grades 1 to 6, or grades 1 to 8, inclusive, maintained by an elementary school district or a unified school

district; or (2) grades 7 to 12, grades 9 to 12, inclusive, or grades 7 to 10, inclusive, maintained by a high school district or unified school district; and (3) grades 13 and 14 maintained by a high school district, unified school district, or community college district, but not more than one grade level shall be claimed by any district under any one of the subdivisions of this paragraph.

(e) "Apportionment" means an apportionment made under this chapter unless the context otherwise requires. The term "apportionment" in Sections 16091, 16097, 16099, 16100, 16104, 16105, and any other section in this chapter where the context justifies, shall be deemed to include funds of a school district required by the board to be contributed toward the purposes thereof. It is hereby declared that this construction is not intended as a change in the present law but rather as a declaration of existing law.

16002.5. For the purposes of this chapter, the term "basic bond requirement", wherever used, has the following meaning: 5 percent of the assessed valuation of taxable property of the district for each grade level maintained by a district, as shown by the last equalized assessment of the county or counties in which the district is located, and as modified by Section 41201 or Section 84201.

16003. With respect to applications filed on and after the effective date of this section by a unified district and any apportionments and repayments made under such applications, "grade level maintained by the district" means (1) the kindergarten, if any, and grades 1 to 12, inclusive, maintained by the district, or (2) grades 13 and 14 maintained by the district.

A unified district if otherwise eligible, may apply for and receive an apportionment for either one or both of such grade levels.

This section shall not apply to a unified district during the first three years following the effective date of this section, or during the first three fiscal years in which the district is in existence for all purposes, if the governing board of the district transmits to the board a written notice stating the district desires to be exempted from this section during such period.

16004. Notwithstanding any provision of this chapter to the contrary, the board shall review each application and shall take such action to insure that apportionments are not made that will provide for construction of permanent facilities to meet temporary peak enrollments at any site or at any grade level. In cases deemed by the board to be hardship cases involving high school or unified school districts where any such district will not be able to house high school students under basic area limitation formulas prescribed in this chapter, the board may make apportionments for high school facilities in excess of such limitations. In such event the board may provide for the construction of portable facilities at any particular site for which such apportionments are made, particularly where the board determines that there will be, within a six- to nine-year period immediately following the apportionment for facilities at such site, a diminution in enrollment at such site justifying relocation of

facilities. In no event shall the board have any authority to make an apportionment for construction area at a high school attendance center which, when added to the area of adequate school construction at that center, would exceed the area permitted therefor by Sections 16053 and 16054.

16005. The Director of General Services shall administer this chapter and shall provide such assistance to the board as it may require.

16006. The State Allocation Board is continued in existence for the purposes of this chapter. The members of the board and the Members of the Legislature meeting with the board shall receive no compensation for their services under this chapter but shall be reimbursed for their actual and necessary expenses incurred in connection with the performance of their duties hereunder, to be paid out of the State School Building Aid Fund.

16007. The board by the adoption of rules shall give priority in allocating funds to districts to those districts where the children will benefit most from additional schoolhouse facilities. This priority shall be based on acuteness of overcrowding, on rapidity of growth in attendance, and on the time the district's application has been ready for allotment. The board may make exceptions when it determines that it will be for the benefit of the children affected.

The State Department of Education and Board of Governors of the California Community Colleges, shall assist and cooperate with the board in determining priorities.

16008. In allocating funds under this chapter, the board may give first priority to school districts for the replacement and repair of school buildings and necessary facilities appurtenant thereto damaged by any earthquake occurring subsequent to July 1, 1952. All of the provisions of this chapter apply to such districts except the provisions for the establishment of priorities.

Prior to making any apportionment under this section, the State Allocation Board may secure from the Department of General Services, a report showing the urgency of the work of replacement or repair for which an application has been filed. The report shall not be conclusive upon the State Allocation Board, but shall be advisory only.

16009. In addition to such other powers and duties as are granted the board by this chapter, the board shall:

(a) Establish such qualifications not in conflict with other provisions of this chapter as it deems will best serve the purposes of this chapter for determining the eligibility of school districts to apportionments of funds under this chapter.

(b) Establish such procedures and policies in connection with the administration of, and the expenditure of funds made available for the purpose of, this chapter as it deems necessary and which are not in conflict with the powers and duties of the Department of Education, of the Board of Governors of the California Community Colleges, or of the director granted or imposed by this chapter.

(c) Adopt such rules and regulations for the administration of this chapter, requiring such procedure, forms, and information, as it may deem necessary.

16010. The Department of Education, in addition to any responsibilities or approvals required under Sections 39000 to 39323, inclusive, or Sections 81031 to 81182, 81330 to 81353, and 81520 to 81531, inclusive, shall provide the following services to school districts making applications for apportionments under this chapter:

(1) It shall assist school districts in organizing a comprehensive planning effort. It shall guide a planning process through its appropriate steps and, when requested by a school district, it shall provide the school district with sources of expertise, either public or private, which may be able to contribute to the development of plans to find solutions for specific problems a school district may have.

(2) It shall provide continuing research in relation to all phases of educational programs and the school facilities that are required to implement these educational programs.

(3) It shall provide a review and evaluation service to school districts to assure the effectiveness of the facilities that have been provided in accommodating educational programs.

(4) It shall provide communication media through publications, seminars, and prepare planning guides and procedures containing recommendations, which guides shall be used to disseminate educational planning information to all school districts.

16011. Each school district which desires an apportionment of funds under this chapter shall, unless specifically exempted by the board, prepare a long-range comprehensive master plan for the district prepared in accordance with acceptable planning procedures. Information relating to the following factors should be included in this master plan:

(a) A statement of the educational programs and goals of the district in relation to its programs, both current and future.

(b) A comprehensive evaluation and report of the utilization of the school facilities now existing in the district.

(c) A comprehensive demographic study of the district, as it currently exists and as projected into the future.

(d) A policy statement regarding actual or potential human problems.

(e) A policy statement as to the priority in which the district proposes to solve its school housing problems.

(f) A policy statement regarding cooperation with other local public agencies to achieve total community development.

(g) A policy to insure continuous review so that plans will be kept up to date and changing conditions will be reviewed and accommodated by appropriate revision of plans.

The director shall review the long-range master plan and project development plan and shall report his findings and recommendations thereon to the board.

16012. The board shall prescribe instructions specifying the

manner in which property, real or personal, being replaced through the apportionment, shall be disposed of, and compliance with the instructions shall be a condition upon the making of the apportionment. The net proceeds derived from such a disposition shall be contributed in reduction of any apportionment. Any school district affected shall comply with instructions prescribed by the board. The board may require a district to transfer to the state, by any instruments deemed appropriate by the board, title to any such property, whereupon, the board shall dispose of the property in any manner it deems appropriate to insure the highest return to the state, and apply the proceeds therefrom in reduction of apportionments to the district. The district affected shall do all things deemed necessary by the board to implement such disposition. Whenever the board determines it to be in the best interests of the state, an apportionments may be made for the demolition of any facilities replaced through an apportionment. The provisions of this section shall be applicable to property replaced by apportionments heretofore or hereafter made under this chapter or Chapter 6 (commencing with Section 15700) of this part.

16013. Notwithstanding any other provisions of this chapter, the board may grant priority in the apportioning of funds to school districts to those districts which have sold facilities replaced under a previous application and have applied the proceeds therefrom in reduction of prior apportionments to the district. Apportionments so made shall not be in excess of the amount of the proceeds which were applied to prior apportionments subsequent to July 1, 1970 and shall be made only for projects which were approved by the board prior to July 1, 1970.

16014. Apportionment from the State School Building Aid Fund to school districts shall be made in the manner and subject to the conditions herein provided and in accordance with policies adopted by the board, for the following purposes, all of which purposes are hereby declared to be, and are, public works: (a) the purchase and improvement of school sites which have been approved by the State Department of Education or the board of governors, each within its own jurisdiction; (b) the purchase of necessary desks, tables, chairs and other movable furniture and equipment, as approved by the Department of Education; or the board of governors, each within its own jurisdiction; and (c) the planning and construction, reconstruction, alteration of, the moving of portable classroom buildings on an existing site or to another school site, and addition to, school buildings, including build-in or fixed equipment, for such facilities as are approved by the Department of Education or the board of governors each within its own jurisdiction as essential, except (1) a room used solely for an auditorium for a school of any type or class and (2) a room used solely for a gymnasium or a room used solely for a cafeteria for elementary schools. This section does not prohibit the Department of Education or the Board of Governors of the California Community Colleges from approving multipurpose

rooms which are rooms designed to be used for two or more of the following purposes:

- (a) Classroom
- (b) Auditorium
- (c) Gymnasium
- (d) Cafeteria

(e) Such other purposes as the district requires which are approved by the Department of Education or the Board of Governors of the California Community Colleges.

Where a district is required by a contract entered into between itself and a contractor, to obtain at its own expense insurance covering risks incurred during any construction, reconstruction or alteration for which an apportionment has been made, the cost thereof may be paid either directly, or by way of reimbursement, to said district out of said apportionment, or out of any apportionment made specifically covering such insurance; provided, that in other respects said apportionments are eligible for payment under provisions of this chapter.

In addition to the foregoing, the board may make an apportionment to a school district for the purchase from another school district of existing facilities, real or personal, including the site thereof, or any portion of any of the foregoing, providing that the board finds (1) that it is economical and good practice on the part of the acquiring district to purchase the same, and (2) that the consideration to be paid in the light of all the circumstances surrounding the transfer is fair and equitable both to the acquiring district and to the state.

16015. Notwithstanding any other provisions of this chapter, the board may make an apportionment to any school district for the cost of leasing portable classrooms during the period in which additional school facilities are being constructed by a previously approved project, provided:

(a) The district has received a final apportionment for the previously approved project and the construction of which has not yet been completed; and

(b) Estimates of average daily attendance used for justifying the previously approved project indicate either (1) an increase over the base period of projection of at least 15 percent, or (2) a substantial number of district classes being on triple session during the period of construction, as determined by the State Allocation Board; and

(c) The district is making maximum use of its existing facilities through the operation of one or more continuous school programs.

Any apportionment made to a school district pursuant to this section shall be added to the final apportionment for the previously approved project specified in subdivision (a), and the repayment thereof by the school district shall be made under the same terms and conditions as prescribed for the final apportionment.

16016. A leasehold or use permit interest held by a school district in land owned in fee simple by the government of the United States

may, for all purposes of this chapter, be deemed a purchase of land by the district and to vest title and ownership in the district.

16017. The board shall not make any apportionment with respect to an application for replacing inadequate school facilities unless it has first investigated and made a finding that it would not be economical or good practice to rehabilitate said facilities.

16018. In addition to the purposes for which apportionments may be made to school districts under Section 16014, apportionments may also be made to school districts for the construction, repair, attachment or development of offsite facilities, utilities or improvements which the board determines are necessary to the proper operation or functioning of the school facilities for which apportionments are made, all of which purposes are hereby declared to be, and are, public works.

16019. In making applications for, and in expending apportionments of funds under this chapter, a school district acts as an agent of the state and all sites purchased and improved, all equipment purchased, and all buildings constructed, reconstructed, altered, or added to through the expenditure of funds apportioned under this chapter, are declared to be, and are, the property of the state.

The Director of General Services shall file with the county recorder of the county in which any site purchased or improved through the expenditure of funds apportioned under this chapter is located a certificate, properly acknowledged, indicating the state's interest in real property of the district by virtue of this section, without the necessity of particularizing such real property. The recorder shall record and index the certificate in the same manner as abstracts of judgments and the certificate shall constitute constructive notice of the state's interest in the particular real property affected. Such certificate shall as to any party thereafter acquiring real property or any interest therein in the county from said school district have the same force, effect and priority as if it had been a judgment lien imposed upon real property which was not exempt from execution. Such effect shall commence upon recordation and continue until the certificate is discharged or released as provided herein.

Upon request the Director of General Services shall (1) issue a release of the state's interest in any real property or a portion thereof that the district has been authorized by the board to dispose of under Section 16105, provided that delivery of such release may be subject to such conditions as may be prescribed by the board to protect the state's interest; (2) issue a disclaimer of the state's interest in any real property or a portion thereof of the district, the disposition of which the board is not required to consent to under the terms of Section 16105, provided that the delivery of such disclaimer may be subject to such conditions as the board deems appropriate to protect the interests of the state, including conditions relating to the amount of consideration to be received from such disposition where the board

asserts an interest in the proceeds of such disposition under other provisions of this chapter. Such release or disclaimer shall conclusively protect any third party relying upon the same and shall be acknowledged to permit recordation by the county recorder.

Upon payment by the district of all amounts required to be paid by it or on its behalf to the state under this chapter (1) the Director of General Services shall file with the recorder a release of any such certificate which release shall be recorded and indexed in the same index as the aforesaid certificate; and (2) the title to personal property purchased by such school district with funds apportioned under this chapter shall revert thereto without further action by the state.

16020. The board may require school districts to insure for the benefit of the state all sites, equipment and buildings which are under Section 16019 the property of the state, against such risks and in such amounts as the board may deem necessary to protect the interests of the state. No state funds apportioned under this chapter shall be used to pay the premiums on said insurance.

16021. A school district shall not expend money apportioned under this chapter unless the contracts under which the funds are expended have been let after competitive bids thereafter pursuant to this code.

16022. Funds apportioned to a school district under Section 16024 of this chapter for a project, remaining unencumbered or unexpended one year from the date the application of the district for such apportionment was approved, shall not be encumbered or expended except as provided in this section.

The governing board of the district shall notify the board of its desire to encumber or expend such funds. The board shall immediately request the Department of Education or the board of governors, as may be appropriate, and that department shall, review the project for which apportionment was made. If the Department of Education or the board of governors finds that the conditions existing at the time it approved the project for which the apportionment was made have so changed that the needs of the district are less than originally determined, it shall notify the board of its findings and of the respects in which the project should accordingly be modified. The board shall review the project and revise the project in such manner as it deems necessary subject to the provisions of Section 16067, and make such changes in the purposes for which the apportionment may be expended as it deems necessary. The cost of the project as revised by the board shall be computed in the manner prescribed by Section 16024 and the excess, if any, of the amount theretofore apportioned to the district over the computed cost of the revised project shall be deducted by the board from the apportionment made to the district. The board shall give notice of its action, in writing, to the State Controller, the governing board of the district, and the county auditor and the county treasurer having jurisdiction over the state school building fund of the district.

If the amount of such excess, or any portion thereof, has not been paid to the district, such excess, or portion thereof, shall be made available for apportionment to other districts, if such excess, or portion thereof, has been paid to the district, it shall not be encumbered or expended by the district and shall become due and payable to the State of California. The governing board of the district and the county treasurer shall pay such amount to the State Treasurer, out of the funds, and in the manner specified in Section 16100. Such payment shall, on order of the State Controller, be deposited in the State School Building Aid Fund in the State Treasury.

It shall be the duty of such governing body and county treasurer to make the payments to the State Treasurer as provided in this section, and it shall be the duty of the State Controller to enforce such collection on behalf of the state.

This section does not authorize the board to increase any apportionment made to a school district.

16023. Notwithstanding any other provisions of this chapter, a district may apply, on a separate application, for an apportionment for the purchase of laboratory and vocational training equipment, whether or not such equipment is for use in connection with a construction project.

All of the provisions of this chapter apply to such application and apportionment except that:

(a) Any application for the equipment pursuant to this section which is received by the board shall be transmitted to the Department of Education or board of governors as appropriate. If the Department of Education or board of governors approves the application, it shall refer it to the board which shall either approve or reject the application pursuant to Section 16024. Any provision of Section 16024 inconsistent with this section shall not apply to such application.

(b) Section 16007 does not apply.

(c) If the application is approved and an apportionment granted therefor the district shall repay the full amount of such apportionment and the interest thereon. The repayment of the apportionment, and the interest thereon, may be over a period of years, not to exceed 20 years from the first day of January of the fiscal year next succeeding the fiscal year in which such apportionment became final. The number of years allowed for repayment shall be determined by the board at the time it fixes interest on the apportionment. Such repayment is in addition to any other repayment required under this chapter.

16024. Each school district which desires an apportionment for a grade level maintained by it, shall submit through its governing board to the board an application therefor in such form and number of copies as the board shall prescribe. Each copy of the application shall be accompanied by a statement of the estimated cost of the project certified by an architect or structural engineer, and by layout

plans showing the entire construction project for which the district desires an apportionment. Before the board approves an application for a construction project and makes an apportionment pursuant to this chapter, it shall after consultation with the Department of General Services establish standards for all new construction included therein. After such consultation the board shall establish current construction cost standards for such construction. Such standards shall not exceed typical comparable new construction by school districts in the same area not receiving or eligible for apportionment under this chapter, or if there has been no new construction by school districts in the area, the standards shall not exceed the reasonable current cost of similar construction in the area. The board shall determine such typical current costs or such reasonable current costs. In applying such standards the board shall take into account the size and type of the construction proposed and may make such deviations as in their judgment are justified. When a standard has been set by the board to cover any individual apportionment, no apportionment shall be made by the board in excess of such standard, unless the board shall find that in view of a rapid increase in building costs an adjustment is warranted. Immediately upon receipt of an application in the prescribed form accompanied by the required estimate of cost, a copy thereof shall be transmitted by the board to the director and to the Director of General Services.

A school district shall not let any contract for new construction included in an application for a construction project which has been approved by the board if the cost exceeds the construction cost standards fixed by the board under this section for such new construction.

A school district may at any time amend or supplement its application.

Each construction project for which a district applies for an apportionment shall be applied for on a separate application and shall be considered separately by the board. If a district applies for more than one construction project, at the same time or at different times, the priority points of the district shall be recalculated after the approval of each separate construction project and before a subsequent construction project is approved.

The Allocation Board shall require such changes in the plans which an applicant school district submits with its application as the board determines is necessary or desirable to reduce the cost of the project. The board may also by rule provide for the vesting in the director or in the Director of General Services of the responsibility for requiring such changes, according to whether the subject matter of the change is subject to the jurisdiction or approval of the director or the Director of General Services, respectively.

The board may for such good cause as it shall determine, reduce the amount of, or modify any provisions relating to, any contribution required of a school district under the terms of an apportionment,

other than any contribution required of such district under Section 16058 from the sale of bonds; provided, that the board may not, without the consent of the district, increase the amount of any district contribution under the terms of an apportionment, in the absence of mistake arising from any source, or misrepresentation, concealment, or omission, on the part of the district, intentional or otherwise. The provisions of this paragraph shall be applicable to apportionments heretofore or hereafter made.

The Director of General Services shall determine the school district's financial ability to meet all or a portion of the cost of the project and the amount which the school district can contribute toward the cost of the project out of its available funds, and shall submit his report thereon to the board.

The term "available funds" as used in the preceding paragraph means funds of the district other than funds received by gift or bequest.

The director shall as promptly as possible prepare a report and recommendation with respect to the application and refer the application, report, and recommendation to the Director of General Services, who shall, if he finds said documents to be in proper form and otherwise sufficient, refer them to the board. If the Director of General Services finds said documents to be lacking in any respect as to any matter which is subject to the jurisdiction or approval of the director or Department of Education, or the board of governors, as appropriate to their jurisdiction, he shall refer them to the director who shall take such action as may be necessary. The board shall, subject to the provisions of this chapter approve or reject each application referred to it by the Director of General Services. If the board approves of the application, either in whole or in part, it shall, by a resolution adopted by it, apportion to the district from the State School Building Aid Fund the amount applied for, or such portion thereof as the board may deem appropriate; provided, that it may order that the apportionment or any part thereof shall be paid in progressive installments at such times and under such conditions as it may then prescribe. This shall be known as a conditional apportionment and shall become final only if the vote provided for in Section 16058 is favorable and if bonds are authorized and sold in the amounts prescribed by the board, and the proceeds of the bonds sold earmarked for the project as approved. The conditional apportionment shall remain effective for a period of nine months from the date of said resolution of the board, and if it does not become a final apportionment by that date, it shall become void and the money so apportioned shall become again available for apportionment pursuant to this chapter.

16025. Notwithstanding any other provisions of this chapter, a school district otherwise eligible to receive a conditional apportionment under this chapter may apply for an adjustment of annual repayment obligations in lieu of receiving such conditional apportionment.

The board may require such information as is necessary to determine the number of units of estimated average daily attendance for which the district would have been eligible to construct school facilities under this chapter, if such conditional apportionment had been made and had become final. Such units shall be known as "eligible attendance units."

The board shall then determine an "eligible facilities cost" by multiplying the number of such eligible attendance units by the average cost of housing elementary or high school pupils as set forth in the latest report to the Legislature required under Section 16098.

In any fiscal year in which the school district is in the judgment of the board operating sufficient year-around classes to provide housing for the eligible attendance units aforementioned, the Director of General Services shall add to the amount which he is required to certify to the Controller under Sections 16072, 16084 and 16086 an amount equal to one-twentieth of such eligible facilities costs.

The additional amount so certified shall be considered for all purposes of this chapter as eligible bonded debt service.

16026. Notwithstanding any other provisions of this chapter, any school district whose governing board has adopted and put into effect a year-round school operation plan or continuous school program, as defined in Section 16030, or has adopted such a plan or program for operation in the following school year, may apply to the board and the board may provide financial assistance in furnishing and installing an air cooling system in those facilities which will be so operated, so long as the construction of any such facility was commenced prior to December 31, 1972. Financial assistance provided by the board may be in the form of (a) an apportionment pursuant to Section 16024, (b) an authorization to use proceeds from the sale of district bonds, or (c) an authorization to use the net proceeds derived from the sale of unused school sites whether or not there are unpaid apportionments outstanding against such sites.

The board shall establish cost standards applicable to the furnishing and installing of air cooling systems in existing schools. No apportionment or authorization shall be made by the board in excess of the standard established for such apportionment.

16027. In any fiscal year in which the school district is conducting a year-round school operation or continuous school program, as defined in Section 16030, utilizing a facility for which financial assistance was provided by the board under Section 16026, the Director of General Services shall add to the amount which he is required to certify to the Controller under Sections 16072, 16084 and 16086 an amount equal to the debt service for retirement of bonds authorized for use under Section 16026.

16028. Any authorization of the proceeds derived from the sale of an unused site pursuant to Section 16026 shall constitute a conversion of the unpaid portion of the apportionment to the application for an air cooling system as if an apportionment had originally been made therefor. Such converted apportionment shall be repaid pursuant to

Section 16069 irrespective of Section 16105.

16028.5. Whenever a school district has received an increased building cost allowance pursuant to Section 16024 or 16026 for the purpose of providing facilities for year-around school operation as defined in Section 16030, and in any fiscal year subsequent to the fiscal year in which the facilities are completed fails to conduct such a year-around school operation, the Director of General Services shall in the following fiscal year deduct an amount from the eligible bonded debt service of the district equal to one-twentieth of the amount of such increased cost allowance plus interest thereon. The total amount to be deducted in subsequent fiscal years after the completion of such facilities shall not exceed seven-twentieths of the amount of the increased allowance, plus interest.

16029. Notwithstanding any other provisions of this chapter, a school district qualifying for an adjustment of annual repayment obligations under Section 16025 or Section 15731 may apply for an apportionment under this chapter.

Such apportionment shall not exceed the "eligible facilities cost", as defined in Section 16025 or Section 15731, and may be made available, upon the review and recommendation of the Department of Education, or the board of governors, as appropriate to their jurisdiction, only for such modifications of existing facilities necessary for the implementation of continuous school program (as defined in Chapter 5 (commencing with Section 37600) of Part 22 of Division 3 of Title 2).

In allocating funds under this chapter, the board may give first priority to school districts for modifications to existing facilities to be made pursuant to this section when in the judgment of the board such modifications of existing facilities are necessary for operation of year-round classes. In no event shall apportionments be made for modifications to a standard greater than could have been constructed in a new school building under this article. All of the provisions of the chapter apply to such districts except the provisions for the establishment of priorities.

Any apportionment made under this section shall be deducted from the eligible facilities costs before the Director of General Services makes his computation of the adjustment under Section 16025 or 15731.

16030. A year-round school operation or continuous school program consists of a school schedule in which students in any one school are divided into groups of pupils who attend school in rotating shifts of sessions. A year-round school schedule or continuous school schedule shall consist of not less than 240 days per year in which the school is open. For purposes of state school support a pupil shall attend school for not less than 175 days.

16031. Notwithstanding any provision of this chapter to the contrary, no school district shall be required, except as provided in this section, to contribute toward the cost of a project for which an application for an apportionment is filed, any of the following funds

of the district:

(a) Amounts in the general fund of the district which are apportionments from the State School Fund.

(b) Amounts in the general fund of the district which are the proceeds of a tax levy and have not been earmarked by the governing board of the district or the electors of the district for any purposes for which school district bonds may be issued and sold.

In considering an application for an apportionment the board may review the purposes for which the district has expended or encumbered proceeds from the sale of district bonds authorized to be issued at an election held on or after September 3, 1952. Upon a finding by the board that any such proceeds have been expended or encumbered for purposes outside the scope and intent of this chapter, the board may require the district to contribute toward the project for which an apportionment is sought from any funds of the district, except those referred to in subdivision (a) above, an amount equal to the amount of district bonds proceeds expended or encumbered for purposes outside the scope and intent of this chapter. Proceeds from the sale of district bonds which have been encumbered or expended for the purchase of schoolbuses authorized by Section 15100 shall be deemed encumbered or expended for purposes outside the scope and intent of this chapter.

If a district is required pursuant to this section to make a contribution toward the project for which an apportionment is sought as a result of the purchase prior to January 1, 1967, of schoolbuses authorized by Section 15100 out of proceeds from the sale of district bonds, the district at the time that the board determines that the contribution is required may agree to pay the required contribution by payment into the State School Building Aid Fund by 10 or less annual installments payable without interest over a period not exceeding 10 years after the date of the final apportionment. The first installment shall be due and payable one year after the date of the final apportionment. The installment payments shall be made by the governing board of the district from moneys in the general fund of the district if money is available therefor. If the governing board of the district determines that money is not available in the general fund of the district for such purposes, the maximum rate of school district tax for any school year is hereby increased for any school year by such amount not to exceed the amount of the proposed payment into the State School Building Aid Fund as shown by the budget for such school year as finally adopted by the governing board of the district, less any unencumbered balances remaining at the end of the preceding school year derived from the revenue from the increase in the rate of tax provided by this section.

16032. Notwithstanding any other provisions of this chapter, whenever the board makes a finding pursuant to Section 16031 that *proceeds from the sale of district bonds* have been expended or encumbered by a school district for purposes outside the scope and

intent of this chapter the board, in lieu of requiring the district to contribute toward the project for which an apportionment is sought from any funds of the district, may stipulate that such bond funds expended or encumbered shall not be considered as "eligible bonded debt service" as defined in Section 16070 and 16084.

16033. The expenditure by a school district, prior to the filing of an application for an apportionment under this chapter, of proceeds from the sale of district bonds for the construction of a swimming pool, shall not in and of itself constitute grounds for denying an apportionment, but the board may require a contribution of district funds therefor under Section 16031.

16034. Before the board approves an application for a furniture or equipment project, or an application for a new construction project, including furniture and equipment, and after consultation with the Department of Education and the board of governors, it shall establish current furniture and equipment cost standards. Such standards shall not exceed the quantity and quality of furniture and equipment for comparable facilities purchased by school districts not receiving or not eligible for an apportionment under this chapter. Such standards shall consist of equipment costs for each type of classroom or pupil station which represents a differential in costs. The standards shall be reviewed quarterly by the board and adjustments made in accordance with current cost standards. When standards have been adopted by the board, no apportionment shall be made by the board in excess of such standards unless a rapid increase in costs warrants an adjustment.

Before the board approves an application for furniture and equipment in connection with an application for the replacement of, reconstruction of, alternation of, or addition to, a school building, the Department of Education or the board of governors, as appropriate to their jurisdiction, after full consideration of all the furniture and equipment existing in the applicant district that is in usable condition, shall recommend the amount that shall be approved in the application. The board may approve all or a portion of the amount so recommended.

16035. The board may approve, in whole or in part, an application submitted by a school district under Section 16024 and in such amount, not exceeding the amount applied for, as the board may deem appropriate.

The board may, upon approval of the application, in whole or in part, and subsequently from time to time, make a conditional apportionment or conditional apportionments not exceeding in the aggregate the total amount determined by the board as aforesaid, to the applicant school district from the State School Building Aid Fund for such portion or portions of the construction project as the board determines the district is ready to proceed with. If the board has approved an application and made an apportionment as to a portion or portions of a construction project, the board may approve the remaining portion or portions of the construction project and make

an additional apportionment or apportionments within two years after the original approval without requiring a district to issue additional bonds. The board may also make an additional apportionment or apportionments for a period of time in excess of two years after the original approval without requiring a district to issue additional bonds if it has made a finding that such additional apportionment or apportionments are justified by virtue of the fact that state funds were not available for apportionment within the two-year period after the original approval because of the inability of the state to sell authorized state bonds within the maximum permitted interest rate.

If the board determines that the actual cost is in excess of the estimated cost of the specific school plant facilities or sites for which an apportionment to a district has been made, or for which a district's application has been approved in whole or in part pursuant to this section, the board may make an additional apportionment to such district in an amount equal to such excess even though such additional apportionment will result in the total apportionments to the district exceeding the amount of the application originally approved by the board. Before such additional apportionment becomes final the district, pursuant to Section 16058, shall hold an election to repay the amount of such additional apportionment which is in excess of the amount which the district has previously voted to repay. Such additional apportionment shall become final when the county superintendent of schools transmits to the board and the State Controller a certificate in duplicate stating that the school district has authorized the acceptance and expenditure of the necessary amount of such excess. If such additional apportionments are made by the board within two years after the original approval, the district shall not be required to issue additional bonds.

Except as otherwise provided in this section, all provisions of this chapter relating to apportionments shall apply to apportionments made under this section.

Whenever an apportionment has heretofore been made or is hereafter made to a district for a site and the district heretofore or hereafter proposes to acquire the site through negotiation or condemnation but the total acquisition cost thereof, plus all other costs incidental to either the acquisition or condemnation of the site, exceeds or exceeded the apportionment for the site, the board may at any time hereafter make an additional apportionment to provide for the differential in total acquisition cost without the district being required to issue additional bonds to qualify, providing the board finds (1) that it is in the interest of the state to proceed with the acquisition despite the acquisition costs, and (2) that the district is unable to provide, or it would be a hardship to require it to provide, the excess costs. The board may also, in its discretion, as a condition of making such apportionment, require the district to repay in full all or any part of the excess apportionment, under such terms and conditions as the board deems desirable, and the district shall be

empowered and obligated to comply if it accepts the excess apportionment, notwithstanding any other law to the contrary; provided, (1) that no such repayment shall be required from any source that would be exempt from required contribution toward the cost of a project under Sections 16024 and 16031 (excepting amounts in the General Fund raised by taxes to pay any judgment requiring such repayment), and (2) that any portion of the apportionment not required to be repaid in full, shall be repayable in the same manner as a construction apportionment.

Approval of an application under this section shall not be construed as creating or implying any obligation, commitment or promise on the part of the board or the state to make apportionments under this chapter.

16036. The board shall, after consultation with the Department of Education, or the board of governors, as appropriate establish site cost standards which shall be used in evaluating the cost in relationship to the size of any site to be acquired wholly or partially with funds apportioned under this chapter. In determining such standards, consideration should be given to the following factors:

- (a) The grade level of the school.
- (b) The location of the school.
- (c) The enrollment to attend the school.
- (d) The purchase price of each acre of the site.
- (e) The site development cost.
- (f) Land use in the area.

16037. Notwithstanding any other provision of this chapter, whenever the board has made an apportionment more than two years after the original approval of and apportionment for any construction project, and pursuant to Section 16035 has required the district to issue additional qualifying bonds as a condition of such apportionment, the board may continue to make apportionments as it may consider necessary to complete the approved construction project without requiring further qualification by the district, provided such apportionments are made within two years of the date upon which the additional qualifying bonds were required.

16038. Notwithstanding the provisions of Section 16035, if the board has approved an application for a construction project and has made an apportionment therefor, the board may make an additional apportionment or apportionments for a period of time in excess of two years after the original approval without requiring a district to issue additional bonds; provided that: (1) the approved project provides for the structural rehabilitation of an unsafe school building, and (2) the apportionment is necessary to cover costs resulting from additional items of work necessary for compliance with structural safety requirements, and the need for such additional work was not foreseen at the time of the original apportionment.

16039. Notwithstanding any other provisions of this chapter, a district which applies for an apportionment for the purchase of a site or for the cost of the preparation of plans and specifications, which

is not a part of a construction project, shall make a separate application for such site or plans and specifications in the same manner as prescribed by Section 16024.

All of the provisions of this chapter apply to such application and apportionment except that:

(a) If the Department of Education determines that within five years in the case of an application for an elementary grade level maintained by the district, or within seven years, in the case of an application for a high school grade level maintained by the district, from the date of the application for the site or for the plans and specifications, there will be sufficient enrollment in the district, based upon enrollment projection criteria adopted by the board, to show the need of such site or for the plans and specifications, it may approve the application. The board may modify a determination respecting future enrollment in connection with an application for an elementary grade level maintained by the district to utilize a period of seven years from the date of the application if it is necessary to meet the emergency conditions existing in that certain district due to a rapid increase in the enrollment of pupils, or due to the scarcity of land within the district, or both. Any application referred to the board pursuant to this section may be either approved in whole or in part, not exceeding the amount applied for, as the board may deem appropriate, pursuant to Sections 16024 and 16035, except that the board may approve additional portions of an application and make an additional apportionment or apportionments within five years of the original approval without requiring a district to issue additional bonds. No additional approval pursuant to the original application or apportionment thereunder may be made unless the board first has investigated and determined the necessity of such additional approval or apportionment, and has received a report thereon from the Department of Education. Any provision of Section 16024 inconsistent with this section shall not apply to such application. As used in this section, and "elementary grade level maintained by the district" is a grade level composed of the grades and maintained by the districts specified in (1) of subdivision (e) of Section 16002. As used in this section a "high school grade level maintained by the district" is a grade level composed of the grades and maintained by the districts specified in (2) of subdivision (e) of Section 16002.

(b) Section 16007 does not apply.

(c) An application for a site pursuant to this section may include an amount for the preparation of plans and specifications for school facilities and for the development of the site, which will conform to those eligible for construction under this chapter.

(d) If the application is approved and an apportionment granted therefor the district shall repay the full amount of such apportionment and the interest thereon. The repayment of the apportionment for a site and the interest thereon, may be over a period of years, not to exceed 30 years from the first day of January

of the fiscal year next succeeding the fiscal year in which such apportionment became final. The repayment of the apportionment for plans and specifications, and the interest thereon, may be over a period of years, not to exceed 30 years from the first day of January of the second fiscal year succeeding the fiscal year in which such apportionment became final. The number of years allowed for repayment shall be determined by the board at the time it fixes interest on the apportionment. Such repayment is in addition to any other repayment required under this chapter. If an apportionment is granted pursuant to this section for a site and such site is subsequently used in a construction project for which an apportionment is received under other provisions of this chapter, or if an apportionment is granted pursuant to this section for plans and specifications and such plans and specifications are subsequently used in a construction project for which an apportionment is received under other provisions of this chapter, the district shall not be required to make any further repayments for the site, or the plans and specifications, as the case may be, pursuant to this section and the unpaid balance of the apportionment and interest owing on the apportionment for the site, or the plans and specifications, as the case may be, pursuant to this section shall be added to the principal amount of the apportionment and accrued interest thereon for the construction project. Such site shall be deemed to be "subsequently used in a construction project" within the meaning of the preceding sentence, if it is used in connection with a construction project at the same grade level by any district receiving a construction apportionment therefor, this being not intended as a change in the present law, but as a statement of the existing law. In addition, such site shall be deemed to be "subsequently used in a construction project" within the meaning of such reference, if it is used in connection with such construction project by any district receiving a construction apportionment therefor at a different grade level, providing that in such latter instance the board in its discretion consents by resolution to the combination of such site and construction apportionments.

16040. In any month in which the priority point procedures prescribed by Section 16007 are utilized, the board may apportion to school districts, under Section 16039, not more than the sum of four hundred thousand dollars (\$400,000).

16041. If an apportionment is or has been made at any time after September 9, 1953, for construction on a site for which an apportionment was made pursuant to Section 16039, from and after the date said apportionment for construction becomes, or became, final, no repayment deductions by the Controller pursuant to Section 16080 attributable to the apportionment for said site shall thereafter be made, except that any such repayment deductions attributable to such site apportionment which would otherwise be made by the Controller during the fiscal year in which such construction apportionment becomes final shall be made during such fiscal year

only. The balance of the principal amount of the apportionment for said site, and accrued interest thereon, shall be added by the Controller to and become part of the apportionment for construction, as of the date of such apportionment, and repaid in the manner otherwise prescribed by this article. The Controller shall promptly notify the governing board of the district and the county auditor of the county, the county superintendent of which has jurisdiction over the district, of any revision required by this section of any previous computation made by him pursuant to Section 16089.

16042. In addition to any powers granted the board under this chapter, the board shall have authority to make apportionments to school districts for the purchase of sites and construction or purchase of temporary and portable buildings thereon, or for such construction alone, and for the cost of site preparation, including necessary utility costs, in connection with their utilization. The board may establish standards in conjunction with the Department of Education and the board of governors, as appropriate to their jurisdiction, pertaining to said sites and facilities as a condition of making such apportionments.

In addition, the board may expend moneys from the State School Building Aid Fund directly for the construction, acquisition, storage, maintenance and repair of such buildings, and administrative costs relating thereto. In such event the board may lease, sell or transfer under a lease-purchase agreement such buildings to eligible school districts or to county superintendents of schools. Any such agreements with school districts may provide for the payment by the state of site preparation costs, including necessary utility costs, sufficient to permit the utilization of such facilities. Any building leased for placement on the school property or under a purchase or a lease-purchase agreement shall be deemed the construction or alteration of a school building as those terms are defined in Sections 39140 to 39155, or 81130 to 81145, inclusive. The consideration payable by either school districts or county superintendents for such facilities shall, as nearly as practicable, reflect an amount which would render to the state a fair return, as determined by the board, on its investment in said facilities and expenditures connected with their utilization, in the light of the benefits conferred by the agreement pertaining thereto.

The county superintendent of schools may contract with eligible school districts respecting and transfer to them by lease, lease-purchase or sale, facilities acquired by him from the board, provided that such agreements are not inconsistent with the rights of the state under any agreement between such superintendent and the board respecting such property. Repayments to the state as due shall be made by the county superintendent from the funds received from the affected school districts, and, if necessary to make the same when due, from the county school service fund, upon which he is authorized to draw requisitions for this purpose. Such fund shall be reimbursed for such withdrawals from any payments made by the

affected districts to the county superintendent not required when made for the discharge of any obligations of the county superintendent hereunder to the state.

No transfer of any property acquired directly by the board to any school district by lease or otherwise shall be made either by the board or county superintendents without the approval of the Department of Education or the board of governors, as appropriate to their jurisdiction, solely as to (1) the property to be transferred, including incidental construction, if any, connected therewith, (2) whether the same shall be by lease or sale, and (3) if less than a sale, the term of such lease, including any contingent or indefinite term.

The board, affected school districts, and county superintendents of schools are authorized to do any and all things necessary to carry out the purposes of this section. Payments required of any affected school districts under any agreement entered into pursuant to this section shall be made promptly when due. Whenever the board deems it economically desirable in the state's interest to do so, it may dispose of any facilities directly acquired by it to any public or private parties in such manner and under such terms as it deems best, providing that such disposition is not inconsistent with any agreements previously entered into under this section.

The term "eligible school districts" as used in this section, shall be deemed to refer to those districts which at the time an agreement contemplated hereunder is entered into would upon proper application have been eligible to receive an apportionment under this chapter, provided that solely for the purpose of determining such eligibility the board, or the county superintendent of schools in agreements with districts hereunder, may waive construction area restrictions pertaining to apportionments under this chapter.

16043. If, after a conditional apportionment has been made to a school district, legal proceedings initiated prior or subsequent to the making of such conditional apportionment prevent the taking, within the period during which the conditional apportionment remains effective under Section 16024, of the actions necessary to permit the conditional apportionment to become final, the conditional apportionment shall nevertheless remain effective for a period of nine months from the date upon which such legal proceedings are finally determined. The amount of the apportionment may be diminished by the board after a second investigation at which the board shall determine whether conditions existing at the time it approved the project for which apportionment was made have so changed that the needs of the district are less than originally determined, and if so, the conditional apportionment shall be reduced by a corresponding amount.

16044. No apportionment shall be made for new construction which, when added to the area of adequate school construction existing in the applicant school district at the time of application, will provide a total area of school building construction per unit of average daily attendance of the estimated average daily attendance

in excess of that computed in accordance with Sections 16047, 16052, 16053, 16054 and 16055.

As used in Sections 16047, 16052, 16053, 16054 and 16055, "maximum area" means maximum area of school building construction and "attendance unit" means unit of estimated average daily attendance.

As used in this section and Sections 16053, 16054, and 16055, "attendance center" means a school maintained or to be maintained at a given location within a district. The Department of Education or board of governors as is appropriate to their jurisdiction shall approve or disapprove the allocation by an applicant district of units of estimated average daily attendance among the attendance centers of the district.

To the building area permitted to an applicant school district by Sections 16047, 16052, 16053, 16054 and 16055, there may be added such additional building area as may be required to provide adequate facilities for exceptional children pursuant to Article 3 (commencing with Section 16190) of this chapter.

No estimate of average daily attendance made by an applicant for the purpose of justifying an apportionment shall be made for a longer time than the third fiscal year beyond the fiscal year in which an application is made, except that an estimate for the purpose of justifying an apportionment for a grade level maintained by a unified district, under an application filed prior to September 15, 1961, or by a high school district composed of grades 7 to 12, inclusive, 9 to 12, inclusive, or 7 to 10, inclusive, or of justifying an apportionment for a unified district for a junior high school or high school project under an application made on or after such effective date shall not be made for a longer time than the fourth fiscal year beyond the fiscal year in which the application is made. Except as otherwise provided by the board, the estimates of average daily attendance shall be based upon the number of family dwellings and mobilehome parks, as defined in Section 18214 of the Health and Safety Code, under construction or newly constructed and never occupied in the district and the number of children residing in the district. In no case shall an estimate be given effect unless approved by the board.

For the purposes of this chapter pupils attending grades 7 and 8 in an elementary district but residing in a high school district which maintains one or more junior high schools shall not be considered in determining or estimating the average daily attendance of the elementary district, unless the elementary district is maintaining and has continuously maintained grades 7 and 8 since a date prior to January 1, 1959. When such pupils are so considered in determining or estimating the average daily attendance of the elementary district, such pupils shall not be considered in determining or estimating average daily attendance of the high school district in making an apportionment to the high school district for junior high school purposes.

The board shall develop statewide or areawide averages of pupil

occupancy for family dwellings of various sizes and for mobilehomes of various sizes for use by applicant school districts in estimating the average daily attendance of family dwellings and mobilehome parks under construction or newly constructed and never occupied in the district.

(Amended by Stats. 1976, Ch. 1011.)

[ORIGINAL SECTION]

16044. No apportionment shall be made for new construction which, when added to the area of adequate school construction existing in the applicant school district at the time of application, will provide a total area of school building construction per unit of average daily attendance of the estimated average daily attendance in excess of that computed in accordance with Sections 16047, 16052, 16053, 16054 and 16055.

As used in Sections 16047, 16052, 16053, 16054 and 16055, "maximum area" means maximum area of school building construction and "attendance unit" means unit of estimated average daily attendance

As used in this section and Sections 16053, 16054, and 16055, "attendance center" means a school maintained or to be maintained at a given location within a district. The Department of Education or board of governors as is appropriate to their jurisdiction shall approve or disapprove the allocation by an applicant district of units of estimated average daily attendance among the attendance centers of the district.

To the building area permitted to an applicant school district by Sections 16047, 16052, 16053, 16054 and 16055, there may be added such additional building area as may be required to provide adequate facilities for exceptional children pursuant to Article 3 (commencing with Section 16190) of this chapter.

No estimate of average daily attendance made by an applicant for the purpose of justifying an apportionment shall be made for a longer time than the third fiscal year beyond the fiscal year in which an application is made, except that an estimate for the purpose of justifying an apportionment for a grade level maintained by a unified district, under an application filed prior to September 15, 1961 or by a high school district composed of grades 7 to 12, inclusive, 9 to 12, inclusive, or 7 to 10, inclusive, or of justifying an apportionment for a unified district for a junior high school or high school project under an application made on or after such effective date shall not be made for a longer time than the fourth fiscal year beyond the fiscal year in which the application is made. Except as otherwise provided by the board, the estimates of average daily attendance shall be based upon the number of family dwellings and mobilehome parks, as defined in Section 18214 of the Health and Safety Code, under construction or newly constructed and never occupied in the district and the number of children residing in the district. In no case shall an estimate be given effect unless approved by the board

For the purposes of this chapter pupils attending grades 7 and 8 in an elementary district but residing in a high school district which maintains one or more junior high schools shall not be considered in determining or estimating the average daily attendance of the elementary district, unless the elementary district is maintaining and has continuously maintained grades 7 and 8 since a date prior to January 1, 1959. When such pupils are so considered in determining or estimating the average daily attendance of the elementary district, such pupils shall not be considered in determining or estimating average daily attendance of the high school district in making an apportionment to the high school district for junior high school purposes

The board shall develop statewide or areawide averages of pupil occupancy for family dwellings of various sizes and for mobilehomes of various sizes for use by applicant school districts in estimating the average daily attendance of family dwellings and mobilehome parks under construction or newly constructed and never occupied in the district.

16045. The board by the adoption of rules shall provide for the manner of determining the area of adequate school construction existing in an applicant school district at the time of application. Such rules shall define and provide for the method of determining

building areas that are to be included in whole or in part, or to be excluded from the area of existing adequate school construction.

The board may make exceptions to the provisions of this section or to the rules adopted pursuant to such section when it determines that such will be for the benefit of children affected.

For the purposes of this section, "service area" may be defined as (1) buildings which when constructed were intended to be used for a purpose to which the provisions of Education Code Sections 39140 to 39155, or 81130 to 81145, both, inclusive, would not apply, whether or not such sections were in effect at the time when the building was constructed, or (2) buildings which when constructed were intended to be used for a purpose to which Education Code Sections 39140 to 39155, or 81130 to 81145, both, inclusive, would apply, whether or not such sections were in effect when the building was constructed, but which building has been converted or is intended to be converted, as shown by the application, to use for purposes to which such sections would not apply. Service area may include, but is not limited to, construction used as bus garages, maintenance shops, centrally located district storage and warehouses, custodial houses, utility shelters, administration offices, transformer vaults, and service yards.

In the event that a school district has expended funds for the purpose of constructing buildings used for housing certificated employees of the district and their families, the area of such buildings and the funds expended therefor shall be accounted for in the following manner:

(a) The area of such buildings constructed or acquired with the proceeds of a tax levied under Sections 14200 to 14240, 42200 to 42247, 45020, and 85110 to 85121, inclusive, shall be excluded from the building area of the district.

(b) The area of such buildings constructed or acquired with the proceeds from the sale of school district bonds prior to July 1, 1961, shall be excluded from the building area of the district, however, such bond funds shall not be considered as "eligible bonded debt service" as defined in subdivision (d) of Section 16070 and Section 16084.

The board shall exclude from the building area of a district:

(a) The area of any building which is or will be used exclusively for a parent cooperative nursery education facility, and for no other purpose, and which building at the time of acquisition thereof by the district was incidental to the purchase of a school site and unsuitable for classroom purposes or which was acquired by the district without expenditure of school district funds.

(b) The area of any building which is or will be used exclusively for a preschool educational program facility pursuant to the provisions of Chapter 4 (commencing with Section 54400) of Part 29 of Division 4 of Title 2 of this code, or Chapter 2.5 (commencing with Section 16150) of Part 4 of Division 9 of the Welfare and Institutions Code, or any combination thereof; provided, that the building was

constructed, leased, or purchased with local general funds, or federal or state funds allocated specifically for a preschool educational program.

The area of adequate school construction existing in a district at the time of application shall be initially computed as all of the construction area of a district except (1) such areas as may be eligible for replacement under standards established by the board, and (2) such areas in an existing structurally inadequate building for which an application has been filed for structural rehabilitation or in a building previously structurally rehabilitated under either Chapter 6 (commencing with Section 15700) of this part, inclusive, or Sections 16000 to 16207, inclusive, of the Education Code, that exceeds the maximum building area allowed by Section 16044 for a number of pupils, equivalent to those that could be housed in the building after rehabilitation. The board shall prescribe by rule the method of computing the number of pupils which could be so housed for the purposes of this subsection. If such area of adequate school construction, when added to the minimum facilities needed by the district, results in a total construction area in excess of the amount prescribed in Section 16044, then the board may make the following adjustments to the initial computation or such revisions thereof as the board, in its discretion, deems desirable:

(a) Service areas constructed prior to July 19, 1947, shall be excluded, except as provided in (c) below.

(b) Service areas constructed subsequent to July 19, 1947, shall be recomputed by multiplying the total number of square feet of said service area by the percentage determined from dividing the actual construction cost per square foot as determined by the Director of General Services by the estimated average cost per square foot of the new school facilities for which the district has made application.

(c) If any inadequate nonservice area constructed prior to July 19, 1947, is, or will be, converted to a service area, such area shall be recomputed by multiplying said area by the percentage determined by dividing the depreciated value of said area by the replacement cost as such value and cost are determined by the Director of General Services.

(d) If, after the revised computation of service areas is made as prescribed under subdivisions (a), (b), and (c) of this section, the existing and requested building area of the district is in excess of the schedule set forth in Section 16044, the existing building area of nonservice facilities may be determined on the basis of the number of pupils housed by such facilities at an allowance per pupil which is not more than 25 percent in excess of the amount per pupil prescribed in Section 16044.

The board shall prescribe by rule the method for computing the number of adequately housed pupils for purposes of this subsection.

16046. Any building area excluded from the computation of adequate school building construction by adjustments made under Section 16045 shall not be subsequently included in computing the

area of adequate school construction by reason of its having been converted to usable instructional area used exclusively for vocational educational programs, provided the conversion was accomplished with federal or district funds, allocated specifically for that purpose, other than state apportionment funds or bond funds required to be contributed to the State School Building Aid Program.

16047. There shall be allowed to each district with attendance units of 300 or more in kindergarten and grades 1 to 6, inclusive, a maximum area of 55 square feet for each attendance unit of the district in kindergarten and grades 1 to 6, inclusive.

The maximum total building area per attendance unit allowed to applicant districts with attendance units of less than 300 in kindergarten and grades 1 to 6, inclusive, for such attendance units shall be determined by the board, and shall be building area to provide comparable facilities to those provided by the first paragraph of this section, and shall be the least building area required to house adequately the estimated average daily attendance and the normal instructional and other services.

16048. The area of any building constructed by a school district after September 11, 1957 with funds given or bequeathed to the district after such effective date, and the area of any building given, devised or bequeathed to a school district after such effective date, including any building given to a district by any city, county or political subdivision of this state, shall not be included in any computation of the area of adequate school construction existing in any applicant school district under this chapter.

For the purposes of this section, any building leased to a school district for a term exceeding 24 years and for an annual rental of not exceeding five dollars (\$5), shall be construed as constituting a gift to the district.

16049. The area of any classroom or building used for adult education classes during the regular schoolday, except any such building area that has been constructed or acquired with the proceeds from the sale of school district bonds or state or federal funds allocated to the district under any state school building aid program, shall not be included in any computation of the area of adequate school construction existing in any applicant school district under this chapter.

16050. The area of any building, the construction of which was financed by the proceeds from a tax levied pursuant to former Section 16633, shall not be included in any computation of the area of adequate school construction existing in any applicant school district under this chapter.

16051. The area of any building which has not been constructed or reconstructed under the provisions of Sections 39140 to 39155, or 81130 to 81145, inclusive, shall not be included in any computation of the area of adequate school construction under this chapter, provided that such area is being used exclusively for adult education classes during the regular schoolday and that the operation of such

classes has been approved by the Department of Education or the board of governors, as is appropriate to their jurisdiction.

16052. There shall be allowed to each district a maximum area of 75 square feet for each attendance unit of the district in grades 7 and 8.

16053. The allowance of maximum area to a district for the attendance units in junior high schools of the district composed of grades 7 to 9, inclusive, or 7 to 10, inclusive, shall be determined pursuant to this section, rather than Sections 16052 and 16054. This section does not apply to junior high schools composed of grades 7 and 8 only.

There shall be allowed to each district a maximum area for the attendance units of the district in junior high schools determined by computing, in accordance with the following paragraph, the number of square feet for the attendance units at each junior high school attendance center of the district, and totaling the number of square feet so determined for all attendance units in all such junior high school attendance centers of the district.

There shall be allowed a maximum area of 75 square feet for each attendance unit of the junior high attendance center in grades 7 and 8. For each attendance unit in grade 9, or grades 9 and 10, as the case may be, at each junior high school attendance center, there shall be allowed a maximum area of a number of square feet equal to the number of square feet which would be allowed under Section 16054 for each attendance unit of an attendance center having a total number of attendance units equal to the total number of attendance units in grades 7 to 9, inclusive, or 7 to 10, inclusive, as the case may be, at the junior high school attendance center. The number of square feet which would be allowed under Section 16054 for each attendance unit of an attendance center shall be computed by determining in accordance with that section the total number of square feet which would be allowed at an attendance center and dividing such total number of square feet by the total number of attendance units at such attendance center.

16054. There shall be allowed to each district a maximum area for the attendance units of the district in grades 9 to 12, inclusive, determined by computing, for the attendance units in grades 9 to 12, inclusive, at each attendance center of the district, a number of square feet for the number of attendance units in such grades at each attendance center, in accordance with the following table, and totaling the number of square feet so determined for all attendance units in such grades of all attendance centers of the district:

Attendance units of attendance center	Maximum number of square feet of building area
1-50.....	18,000
51-100.....	18,000 plus 162 for each attendance unit over 50
101-200.....	26,100 plus 99 for each attendance

		unit over 100
201-300.....	36,000	plus 60 for each attendance unit over 200
301-600.....	42,000	plus 54 for each attendance unit over 300
601-1,800 .....	58,200	plus 80 for each attendance unit over 600
Over 1,800.....	154,200	plus 85 for each attendance unit over 1,800

16055. There shall be allowed to each district a maximum area for the attendance units of the district in grades 13 and 14, determined by computing, for the attendance units in grades 13 and 14, at each attendance center of the district, a number of square feet for the number of attendance units in such grades at each attendance center, in accordance with the following table, and totaling the number of square feet so determined for all attendance units in such grades of all attendance centers of the district:

Attendance units of attendance center	Maximum number of square feet of building area
1-50.....	18,000
51-100.....	18,000 plus 162 for each attendance unit over 50
101-200.....	26,100 plus 99 for each attendance unit over 100
201-300.....	36,000 plus 60 for each attendance unit over 200
301-400.....	42,000 plus 54 for each attendance unit over 300
401-600.....	47,400 plus 59 for each attendance unit over 400
601-1,800 .....	59,200 plus 88 for each attendance unit over 600
Over 1,800.....	164,800 plus 77 for each attendance unit over 1,800

16056. When a unified district which is otherwise qualified for an apportionment under this chapter applies for an apportionment and the area of adequate school construction existing in any one of the component elementary districts included in the unified district is of such an amount that the district is prevented, by Sections 16044 to 16055 inclusive, from receiving an apportionment, the maximum area of school construction for each unit of attendance, for elementary school construction prescribed by such sections, may be computed separately for each component elementary district without regard to the area of adequate school construction existing in the other component districts, and apportionments made to the unified district on the basis of such separate computations. On

request of the governing board of the unified district the State Superintendent of Public Instruction shall make or cause to be made a survey of building needs in the district and the area computations for elementary school construction. He shall report his findings and recommendations to the board for consideration in connection with any application before the board from the unified school district.

16057. Payment shall be made in accordance with the terms of a final apportionment, either directly or by way of reimbursement, to a school district for expenditures, or commitments therefor, which have been made by the district subsequent to the effective date of the constitutional amendment of the 1952 Second Extraordinary Session of the Legislature adding Section 2 to Article XVI, for any items approved by the board in such apportionment; provided, however, that where expenditures were made for, or work was commenced with respect to, any item so approved, prior to the time the application of such district containing such item was received by the board, payment or reimbursement for such item, either with state funds or with district funds which the district is required to contribute by said apportionment, shall be made only upon authorization of the board by special resolution citing this section.

16058. No apportionment to a school district shall become final unless: (a) the total amount of outstanding bonds of the district exceeds ninety-five percent (95%) of the basic bond requirement of the district on the date the conditional apportionment is made, or (b) if the total amount of the bonds of the district outstanding and unpaid is within twenty-five thousand dollars (\$25,000) of the basic bond requirement of the district, as of the date on which the conditional apportionment is made. At the time the board makes a conditional apportionment pursuant to Section 16024, it shall determine the total amount of bonds which shall be issued and sold by such district, the proceeds of which shall be applied toward the cost of the project for which the apportionment is sought; provided, that in the event the school district has previously received apportionments, or has become liable for the repayment of an apportionment, such proceeds shall first be applied toward the reduction, in chronological order beginning with the earliest, of any apportionments previously made to the district, or for the repayment of which the district has become liable in whole or in part, before being applied toward the cost of the project for which an apportionment is sought, provided further that no such proceeds shall be applied toward the reduction of any apportionment for a site made pursuant to Section 16039 prior to the combination of such site apportionment with a construction apportionment pursuant to subsection (d) of Section 16039. The amount so determined by the board shall be not less than the minimum amount required for such apportionment to become final under this section. Any apportionment made by the board pursuant to Section 16024 shall be conditioned upon the approval and sale of such bonds by the district. The amount of any apportionment for a construction project made

as a consequence of applying district bond proceeds toward the reduction of prior apportionments pursuant to this section instead of applying the district bond proceeds toward the cost of such construction project, shall be excluded in determining the amount chargeable against the apportionments authorized by the electorate of the district to be accepted, expended and repaid. It is hereby declared that this provision, added by the amendment to this section enacted at the 1958 First Extraordinary Session of the Legislature, is not intended as a change in the law, but rather as a declaration of existing law.

Any provision of this code to the contrary notwithstanding, whenever the electors of a district, subsequent to any requirement by the board for the sale of bonds in connection with an apportionment, authorize the issuance of bonds for any purpose for which an apportionment could lawfully be made, such authorization shall, in addition to the purposes specified, be deemed to constitute the consent of the electors to apply the proceeds of the bonds so required to be sold by the board toward the reduction of any apportionment previously made to such district. Any bond funds used to reduce any apportionment pursuant to this section shall be transferred to the State School Building Aid Fund and shall be available for reapportionment by the board. The amount so determined by the board shall be not less than the minimum amount required for such apportionment to become final under this section. Any apportionment made by the board pursuant to Section 16024 shall be conditioned upon the approval and sale of such bonds by the district.

No apportionment to a school district under this chapter shall become final, nor any agreement authorized by Section 16042 be entered into unless at an election called by the governing board of the district, two-thirds of the qualified electors of the district voting thereat have authorized the governing board to accept, expend and repay as provided in this chapter an apportionment under the provisions thereof or, with respect to said agreement, to obligate the district in an amount equal to or in excess of the maximum amount which the district could be obligated by said agreement, or by any act of its governing board or for which it is responsible, contemplated or permitted thereby. Said election shall be called, held and conducted in the same manner as are elections to authorize the issuance of school district bonds, except that the ballot shall contain substantially the following words:

“Shall the governing board of the district be authorized (1) to accept and expend an apportionment from the State of California under and subject to the provisions of Chapter 8 (commencing with Section 16000) of Part 10 of Division 1 of Title 1 of the Education Code, which amount is subject to repayment as provided by said chapter, or (2) to enter into an agreement or agreements with the state pursuant to Section 16042 of the Education Code, which will at the time of such agreement or agreements (or at the time of any

subsequent act of the governing board, or for which it is responsible, contemplated or permitted thereby) commit the district to a total expenditure in connection with all such agreements of not more than \_\_\_\_\_ dollars (\$\_\_\_\_\_), or both. Yes \_\_\_\_\_ No \_\_\_\_\_.”

16060. Notwithstanding any provisions of Section 16058, if an applicant district issues and sells bonds prior to an apportionment in an amount which results in its being on the date of such apportionment within five thousand dollars (\$5,000) of the basic bond requirement of the district, and makes the entire proceeds of said bond issue available for the purposes of the apportionment, or as a condition of an apportionment is required by the board to sell bonds to within five thousand dollars (\$5,000) of the basic bond requirement of the district, and to make the proceeds available for the purposes of Section 16058, the district shall remain qualified to receive an apportionment or apportionments prior to the next equalized assessment of the county or counties in which said district is located without being required to issue and sell additional bonds, notwithstanding the retirement of any bonds of the district or territorial changes therein subsequent to any apportionment referred to in this section and prior to such next equalized assessment.

16061. Immediately after the result of the election has been determined, the county superintendent of schools shall make a certificate in duplicate stating whether the bonds have been authorized in the amount prescribed by the board and whether the school district has authorized the acceptance and expenditure of the apportionment. One copy of the certificate shall be sent to the board and one copy to the State Controller. When the bonds authorized have been issued and sold and the proceeds thereof made available for the purposes of the application, the county superintendent of schools shall also certify this fact to the board and the State Controller. Upon the receipt by the board of the certificates stating that the bonds have been issued and sold and the proceeds made available for the purposes of the application, the apportionment shall become final.

16062. The election by a school district upon the acceptance, expenditure, and repayment of an apportionment prescribed by Section 16058 may be called and held either before or after the making of an apportionment except that no such election shall be held within 45 days before a statewide election or within 45 days after a statewide election unless conducted at the same time as such statewide election, subject to the provisions of Chapter 4 (commencing with Section 23300) of Part 2 of Division 12 of the Elections Code.

16063. Whenever a conditional apportionment has, prior to January 1, 1976, been made to an applicant school district pursuant to this chapter and thereafter the county superintendent of schools of the county having jurisdiction over such district has certified to the board and the State Controller that at an election called, held and

conducted in the district for that purpose, two-thirds of the qualified electors of the district voting thereat authorized the governing board of the applicant school district to accept, expend and repay an apportionment under the provisions of this chapter, and whenever thereafter said county superintendent of schools has certified to the board and the State Controller that the amount of bonds, if any, required by the board, as a condition to the apportionment becoming final, have been issued and sold and the proceeds thereof made available for the purposes of the application and the board has certified to the State Controller that the apportionment to the applicant school district has become final, such final apportionment is hereby confirmed, ratified, and validated, and any expenditure of money from the State School Building Aid Fund according to the terms of such final apportionment is hereby confirmed, ratified, and validated.

16064. If the board has made an apportionment to a school district after November 1, 1960, upon the condition that the district issue and sell district bonds in an amount prescribed by the board, and an election was heretofore held in the district at which two-thirds of the voters voting on the proposition to authorize the issuance and sale of bonds in an amount sufficient to meet the condition of the apportionment voted in favor thereof, all acts or proceedings heretofore taken by or on behalf of the school district, under any law, or under the color of any law, for the authorization, issuance, sale or exchange of such bonds of such school district for any public purpose are hereby confirmed, validated and declared legally effective. This shall include all acts and proceedings of the governing board of such school district, and of any person or officer, heretofore done or taken upon the authorization, issuance, or sale of such bonds.

All bonds of any such school district heretofore authorized to be issued and hereafter issued and delivered in accordance with such authorization shall be the legal, valid and binding obligations of the district.

As used in this section the word "hereafter" means any time on or subsequent to the effective date of this section and the word "heretofore" means any time prior to such effective date.

16065. Notwithstanding any provision to the contrary after June 28, 1955, at the time the board makes an apportionment, the board, with the approval of the Director of General Services, shall, pursuant to this section, fix the rate of interest to be paid by the district on the sum apportioned to it. The board shall compute the average of the rates of interest which the state pays upon the state school building bonds, authorized by Article XVI, sold at the three sales of state school building bonds occurring immediately prior to the apportionment, or, if the board so determines, at all of the sales of such bonds occurring in the two years immediately prior to the apportionment, giving effect to the price at which the state school building bonds sold at such sales, and the premium, if any paid, thereon. Such average rate shall be adjusted to the next highest

one-tenth of 1 percent to cover the cost of sale and issuance of the bonds and costs of administration. Such adjusted average rate shall be the rate paid by the district on its apportionment, and shall be compounded annually through the 30th day of June of each year.

16066. Apportionments may be made irrespective of whether there is on deposit at the time thereof a sufficient amount in the State School Building Aid Fund to permit the payment of such apportionments. Disbursements may be made under any apportionment which heretofore or hereafter becomes final from any funds in the State School Building Aid Fund; irrespective of whether there exists at the time of such disbursement a sufficient amount in such fund to permit the payment in full of all apportionments previously made; provided, that no disbursements shall be made from any funds in the State School Building Aid Fund required by law to be transferred to the General Fund, or from any moneys therein which the Controller deems necessary to satisfy appropriations from such fund for purposes other than apportionments.

16067. No apportionment shall be made to a district for the construction, reconstruction, or alteration of, or addition to, school buildings if the requirements prescribed by this code for the construction of school buildings are not met by the plans for the entire building program of the district in connection with which the district applied for an apportionment or for any project or part thereof which has not been approved by the Department of Education or the board of governors, as is appropriate to their jurisdiction.

16068. If any school district receives a final apportionment under this chapter and after November 12, 1952, receives money from the federal government as reimbursement for any expenditures by the state or school district for constructing any school facilities included in the construction project for which the district is receiving an apportionment, the amount of the district's annual repayment next succeeding the date on which the district receives such money shall be increased by the amount of the money so received; provided, however, that the annual repayment of the district shall not be so increased where the money received from the federal government constitutes a contribution toward the cost of school facilities which are to be acquired, in part, with an apportionment, and said federal funds are encumbered or expended by the district in accordance with the purposes of the apportionment.

16069. Each district to which an apportionment has been made under this chapter shall repay the principal amount of such apportionment and the accrued interest thereon in the amount and in the manner provided in this chapter.

16070. The following definitions apply to the computation and determinations required to be made under Section 16072, 16074, and 16075, and they apply with respect to each grade level of a district for which grade level an apportionment has become final during any

preceding fiscal year.

(a) "Forty-cent tax amount" means the amount that would be produced by a tax of forty cents (\$0.40) on each one hundred dollars (\$100) of assessed valuation, excluding the assessed valuation of solvent credits and other intangible property, for the current fiscal year within the district;

(b) "Thirty-cent tax amount" means the amount that would be produced by a tax of thirty cents (\$0.30) on each one hundred dollars (\$100) of such assessed valuation;

(c) "Ten-cent tax amount" means the amount that would be produced by a tax of ten cents (\$0.10) on each one hundred dollars (\$100) of such assessed valuation;

(d) "Eligible bonded debt service" means the amount raised and to be raised by the district during the current fiscal year for the repayment of principal and interest on the portion of the bonded indebtedness of the district that was incurred for each such grade level prior to the making of the first apportionment for such grade level to said district under the provisions of this chapter computed as provided in Section 16072 plus the amount of the annual repayment under Chapter 6 (commencing with Section 15700) of this part, provided that for the purposes hereof the first apportionment made to a district for a grade level after all previous apportionments to said district for that grade level have been repaid in full, excluding apportionments made under Section 16039 and not combined with construction apportionments, shall be deemed to be the "first apportionment for such grade level."

16071. This section applies only to unified school district filing an application on or after the effective date of this section for an apportionment for a grade level consisting of kindergarten, if any, and grades 1 to 12, inclusive, and the repayments required for apportionments made under such applications.

The following definitions apply to the computation and determinations required to be made under Sections 16072, 16074 and 16075, and they apply with respect to such grade level of a unified district for which grade level an apportionment has become final during any preceding fiscal year.

(a) "Forty-cent tax amount" means the amount that would be produced by a tax of eighty cents (\$0.80) on each one hundred dollars (\$100) of assessed valuation, excluding the assessed valuation of solvent credits and other intangible property, for the current fiscal year within the district;

(b) "Thirty-cent tax amount" means the amount that would be produced by a tax of sixty cents (\$0.60) on each one hundred dollars (\$100) of such assessed valuation; and

(c) "Ten-cent tax amount" means the amount that would be produced by a tax of twenty cents (\$0.20) on each one hundred dollars (\$100) of such assessed valuation.

(d) "Eligible bonded debt service" means the amount raised and to be raised by the district during the current fiscal year for the

repayment of principal and interest on the portion of the bonded indebtedness of the district that was incurred for each such grade level prior to the making of the first apportionment for such grade level to said district under the provisions of this chapter computed as provided in Section 16072 plus the amount of the annual repayment under Chapter 6 (commencing with Section 15700) of this part.

If the unified district's first apportionment under this chapter was for a grade level consisting of kindergarten, if any, and grades 1 to 6, inclusive, grades 1 to 8, inclusive, grades 7 to 12, inclusive, grades 9 to 12, inclusive, or 7 to 10, inclusive, "eligible bonded debt service" means the amount raised and to be raised by the district during the current fiscal year for the repayment of principal and interest on the portion of the indebtedness that was incurred for elementary and high school purposes prior to the making of such first apportionment under this chapter computed as provided in Section 16072 together with the amount of the annual repayment under Chapter 6 (commencing with Section 15700) of this part.

16072. On or before the first day of December of each fiscal year, the Director of General Services shall determine for each grade level and certify to the State Controller the eligible bonded debt service for the district, as follows:

(a) He shall determine the amount of the bonded indebtedness that was incurred by the district for each grade level, when bonds were issued and sold for purposes of more than one grade level. When one or more additional apportionments have been made to a grade level of a school district, conditioned upon the issuance and sale of additional bonds of the district or upon the requirement that the proceeds of bonds issued and sold be contributed for the purposes of the application for which the apportionment is made, the Director of General Services shall determine and include in the eligible bonded debt service and in his certificate the amount raised and to be raised by the district during the current fiscal year for the payment of principal and interest on that portion of the additional bonded indebtedness of the district that was incurred for each such grade level as a condition to receiving such additional apportionment or which was incurred for bonds issued and sold, the proceeds of which were required to be contributed for purposes for which the apportionment was made.

(b) If the Director of General Services determines in any fiscal year that the amount certified to the State Controller as the eligible bonded debt service during the last preceding fiscal year is more than the amount actually raised by the district for the repayment of principal and interest of the bonded indebtedness referred to in subdivision (d) of Section 16070 and subdivision (a) of this section, then the Director of General Services shall subtract from the amount determined as the eligible bonded debt service for the current fiscal year an amount equal to the difference between the amount actually raised by the district during the preceding fiscal year for the

repayment of such bonded indebtedness and the amount so certified by the Director of General Services.

(c) If the Director of General Services determines in any fiscal year that the amount certified to the State Controller as the eligible bonded debt service during the last preceding fiscal year is less than the amount actually raised by the district for the repayment of principal and interest of the bonded indebtedness referred to in subdivision (d) of Section 16070 and subdivision (a) of this section, then the Director of General Services shall add to the amount determined as the eligible bonded debt service for the current fiscal year an amount equal to the difference between the amount actually raised by the district during the preceding fiscal year for the repayment of such bonded indebtedness and the amount so certified by the Director of General Services.

(d) If an apportionment has been made to a district for a grade level for which the district also received an apportionment pursuant to Chapter 6 (commencing with Section 15700) of this part, the Controller shall determine the amount of the annual repayment, if any, due from the district during the next succeeding fiscal year for such grade level as required by Chapter 6 (commencing with Section 15700) of this part and such amount shall be included by the Controller in the eligible bonded debt service of the district for that grade level. For an apportionment to a unified district for a grade level consisting of kindergarten, if any, and grades 1 to 12, inclusive, for which an application for an apportionment was filed on or after the effective date of the amendment to this section made at the 1961 session of the Legislature, if an apportionment had also been made to the district pursuant to Chapter 6 (commencing with Section 15700) of this part for a grade level consisting of kindergarten, if any, and grades 1 to 6, inclusive, or 1 to 8, inclusive, or grades 7 to 12, inclusive, 9 to 12, inclusive, or 7 to 10, inclusive, the Controller shall determine the amount of the annual repayment, if any, due from the district during the next succeeding fiscal year for all of such grade levels as required by said Chapter 6 and such amount shall be included by the Controller in the eligible bonded debt service of the district for the grade level consisting of kindergarten, if any, and grades 1 to 12, inclusive.

16073. Whenever (a) a school district which has not sold bonds within two fiscal years immediately preceding the fiscal year in which a repayment computation is made pursuant to this article; and (b) such district is not eligible for deferment under Section 16084 or 16086 and has been required during the fiscal year in which repayment computations are made to issue bonds in order to qualify for an apportionment; and (c) no funds for the required bond issue have been provided during that year in the district's bond interest and redemption fund budget, the Director of General Services shall determine the eligible portion of the amount required from taxes for such required issue during the next succeeding fiscal year and shall certify the amount to the State Controller as additional eligible debt

service prior to the levy of taxes during such fiscal year. The provisions of this section shall apply to the qualifying bond requirements commencing with the 1972-73 fiscal year.

16074. On or before the first day of January of each fiscal year, the State Controller shall compute for each grade level of a district for which grade level an apportionment has become final during any preceding fiscal year the 40-cent tax amount, the 30-cent tax amount and the 10-cent tax amount.

16075. On or before the first day of January of each fiscal year the State Controller shall determine the annual repayment, if any, to be due from each district during the next succeeding fiscal year, as follows:

(a) If, for any grade level of a district, the amount of the eligible bonded debt service exceeds the 40-cent tax amount, no annual repayment shall be due the state from such district with respect to such grade level during the next succeeding fiscal year.

(b) If, for any grade level of a district, the 40-cent tax amount is greater than the eligible bonded debt service, the amount of such excess shall constitute the annual repayment due the state with respect to such grade level during the next succeeding fiscal year; except that if the eligible bonded debt service is less than the 10-cent tax amount, the annual repayment shall equal the 30-cent tax amount.

(c) The total repayment for each district is the sum of the annual repayments determined for each grade level of the district under this section.

16076. Whenever the Director of General Services has certified an additional amount of eligible debt service under the provisions of Section 16073, the State Controller shall make a recomputation of the annual repayment and notify, in writing, the board of supervisors of the county, the governing board of the district, the county auditor, and the county superintendent of schools having jurisdiction over the district of the revised repayment. The recomputation and notification shall be completed prior to the date on which the board of supervisors makes the levy of taxes for county purposes.

16077. If an apportionment is made for a project which includes a multipurpose room the board shall determine and specify the portion of the apportionment that is allocated to the cost of the multipurpose room.

If a district receives an apportionment a portion of which is for a multipurpose room it shall repay the principal amount of such portion of the apportionment as an additional payment as provided by this section. Interest on the total apportionment shall be paid as provided in Section 16083. Such repayment is in addition to the repayments required on the total of all apportionments to the district, which shall be repaid as otherwise provided in this chapter.

Notwithstanding the provisions of Sections 16083 and 16087 for cancellation of the principal amount of apportionments the State Controller shall continue to make the deduction provided by Section

16080 during each fiscal year thereafter until the principal amount of the portion of the apportionment that was allocated to the cost of the multipurpose room and was made and disbursed to the district has been withheld, or for an additional period of 10 years, whichever first occurs. At the expiration of 40 years from the first day of July of the fiscal year next succeeding the fiscal year in which such apportionment became final, the unpaid balance of the principal amount of such portion of the apportionment shall be canceled on the books of the State Controller and the provisions of Section 16083 shall thereupon become applicable thereto and the board shall execute a conveyance to the district as provided in Section 16087.

16078. If an apportionment is made to an elementary district for a project which includes space for pupils in grades 7 and 8, who reside in a high school district which maintains one or more junior high schools, the board shall determine and specify the portion of the apportionment that is allocated to the cost of such space.

If an elementary district receives an apportionment, a portion of which is for space for pupils in grades 7 and 8 who reside in a high school district which maintains one or more junior high schools, it shall repay the principal amount of such portion of the apportionment as an additional payment in equal amounts over a 30-year period. Interest on the total apportionment shall be paid as provided in Section 16083. Such repayment is in addition to the repayments required on the total of all apportionments to the district, which shall be repaid as otherwise provided in this chapter.

The State Controller shall make deductions provided by Section 16080 each fiscal year until the principal amount of the portion of the apportionment that was allocated for space for pupils in grades 7 and 8 who reside in a high school district which maintains one or more junior high schools has been withheld.

If an elementary school district has received an apportionment, a portion of which is for space for pupils in grades 7 and 8 who reside in a high school district which maintains one or more junior high schools and subsequently files an application for an apportionment, it may request that space for grades 7 and 8 approved in a previous apportionment be available for grades kindergarten through 6, and that the unpaid amount of the portion of the previous apportionment allocated for grades 7 and 8 be made a part of the new application and apportionment.

16079. Notwithstanding any other provision of this chapter, and regardless of how many apportionments are made to a grade level of a school district under the provisions of this chapter, the total annual repayment for such grade level during any fiscal year, covering all such apportionments, shall not exceed the amount that would be computed under Sections 16070 to 16080, inclusive, for any one of such apportionments.

16080. The State Controller shall, during the next fiscal year following that in which he determines the annual repayment as herein provided, deduct the total amount of the annual repayment

of each district in equal amounts from each of the February, March, April, and May installments of the apportionments made to such district from the State School Fund under Sections 46304, 46305, and 41050 or 84503 and 92, Sections 41330 to 41343, or 84320 to 84332, inclusive, and Sections 41600 to 41972, or 84700 to 84874, inclusive, whichever are in effect; and, on order of the State Controller, the amount so deducted shall be transferred to the State School Building Aid Fund. All money transferred to the State School Building Aid Fund under the provisions of this section shall be available only for transfer to the General Fund under the provisions of Section 16403.

(Amended by Stats. 1976, Ch. 1011.)

[ORIGINAL SECTION]

16080 The State Controller shall, during the next fiscal year following that in which he determines the annual repayment as herein provided, deduct the total amount of the annual repayment of each district in equal amounts from each of the February, March, April, and May installments of the apportionments made to such district from the State School Fund under Sections 46304, 46305, 84502, 84503 and 92 or 41050, Sections 41330 to 41343, or 84320 to 84332, inclusive, and Sections 41600 to 41972, or 84700 to 84874, inclusive, whichever are in effect; and, on order of the State Controller, the amount so deducted shall be transferred to the State School Building Aid Fund. All money transferred to the State School Building Aid Fund under the provisions of this section shall be available only for transfer to the General Fund under the provisions of Section 16403

16081. Notwithstanding any provision of law to the contrary, whenever in any fiscal year, pursuant to Chapter 5 (commencing with Section 5096), Part 9, Division 1 of the Revenue and Taxation Code, a refund is made or a judgment rendered, as the case may be, for the return of an amount collected as school district taxes levied during a previous year upon secured or unsecured personal property, because it was determined that such property was exempt from taxation, and such property so determined to be exempt equals 1 percent, or more, of the assessed valuation in the school district upon which school district taxes for such previous year were levied, the Controller shall reduce the annual repayment of the district and the amount deducted from the State School Fund apportionment of such district for the fiscal year next succeeding that in which such refund was made or judgment rendered, by that amount by which the annual repayment and deduction of the district would have been reduced for the fiscal year next succeeding that in which such taxes were levied had the assessed valuation upon which such annual repayment was computed not included an amount of assessed valuation equal to the amount of assessed valuation of the property so determined to be exempt.

The amount of annual repayment and deduction, reduced as required by this section, shall be the amount deducted by the Controller for the purposes of Sections 16080, 16089 and 16090 for the fiscal year in which such reduction is made.

16082. (a) Upon request of the district, the Controller shall use in computing the "40-cent, 30-cent, and 10-cent tax amounts" under Section 16070 the difference between the total assessed valuation of

property in a district as shown on the equalized assessment roll for the current fiscal year and the assessed valuation of property as shown on the equalized assessment roll for the current fiscal year, in excess of 2 percent of such total assessed valuation, with respect to which revenues of the district taxes levied in the 1954-1955 fiscal year, or thereafter, have been impounded by the county auditor pursuant to Section 14240. If such a request is received prior to August 1, 1955, with respect to the impounding of revenues of taxes levied during the 1954-1955 fiscal year, the Controller shall recompute the annual repayment of the district due during the 1955-1956 fiscal year on the basis of such reduced assessed valuation, and, on or before September 1, 1955, notify the officers and board referred to in Section 16089 of such recomputed annual repayment for the 1955-1956 fiscal year, and of the recomputed amount to be deducted from the State School Fund apportionment to such district during the 1955-1956 fiscal year.

(b) Whenever, after July 1, 1955, the county auditor notifies the Superintendent of Public Instruction or the board of governors and the Controller of the release of impounded tax revenues to the school district, the Controller shall add to the annual repayment of the district for the first fiscal year or second fiscal year next succeeding that in which such notification of release was made, that amount by which the annual repayment of the district for a previous fiscal year was reduced by reason of the exclusion of assessed valuation with respect to tax revenues impounded and thereafter released.

(c) The amount of annual repayment and deduction, increased or reduced as required by this section, shall be the amount deducted by the Controller for the purposes of Sections 16080, 16089 and 16090 for the fiscal year in which such increase or reduction occurs.

(d) If a request is received from a school district and an annual repayment reduced pursuant to subdivision (a) hereof, Section 16081 shall not apply with respect to any tax revenues to which subdivision (a) applies.

16083. The State Controller shall make the deduction provided by Section 16080 during each fiscal year, as herein provided, until the principal amount of the apportionment made and disbursed to the district for such grade level, and all accrued interest due thereon, has been withheld; but no interest shall accrue, or become due and payable, to the state with respect to the principal amount of any such apportionment, or any portion thereof, for any period of time following the expiration of 25 years after the first day of July of the fiscal year next succeeding the fiscal year in which such apportionment becomes final. At the expiration of 30 years from the first day of July of the fiscal year next succeeding the fiscal year in which such apportionment became final, any unpaid balance of the principal amount of any such apportionment disbursed to such district, including all interest included in such principal amount as provided in Section 16088, shall be canceled on the books of the State Controller; and the state shall have no further right to the repayment

of such unpaid balance. Notwithstanding the provisions of this section, that portion of the "annual repayment," if any, computed by the State Controller under Section 16075 prior to the date of cancellation of the principal amount of an apportionment under the provisions of this section, which has not been withheld by the State Controller, as provided by Section 16080, prior to the date of such cancellation, shall be withheld by the State Controller, as provided by said Section 16080, subsequent to the effective date of such cancellation; and the amount so withheld shall be credited to the school district in determining the principal amount of the apportionment, including all interest included therein, which is canceled under the provisions hereof. Such grade level shall be excluded from any computations provided under Sections 16070, 16071, 16072, 16074, and 16075, in making the computations, after the effective date of such cancellation, to determine the "annual repayment," if any, that may thereafter be due the state from such school district with respect to other grade levels thereof.

16084. If, on or before June 30th of any fiscal year, the governing board of any school district files a request with the State Controller for a deferment of the annual repayment due from such district during the next succeeding fiscal year for an apportionment received by the district pursuant to this chapter or Chapter 6 (commencing with Section 15700) of this part, and it is determined, in accordance with this section, that the district is entitled to a deferment of all or part of such annual repayment, the deferment shall be made in accordance with such determination. The request for deferment, having once been filed with the State Controller, shall remain in effect each ensuing year, and the State Controller shall continue to compute and allow the deferment in accordance with this section each year, until such time as the governing board of the school district files a written request with the State Controller to discontinue the deferment.

As used in the preceding paragraph, "any school district" means a district which is liable for the repayment of the principal amount of apportionments made to the district under the provisions of Chapter 6 (commencing with Section 15700) of this part and which has received a conditional apportionment under this chapter.

The portion of the annual repayment to be deferred under this section shall be determined as follows:

There shall be computed the amount required to be raised by taxes on property within the district, during the fiscal year in which the annual repayment is to be deducted pursuant to Sections 15735 and 16080, for the payment of principal and interest on (a) any bonded indebtedness incurred for school purposes prior to the first conditional apportionment to the school district under this chapter, (b) any bonded indebtedness which was incurred as a condition to any apportionment under this chapter, and (c) any bonded indebtedness incurred, the proceeds of which were required to be contributed for the purposes for which an apportionment was made

under this chapter. To this amount shall be added the amount required during such fiscal year, for the annual repayment of school building apportionments under Chapter 6 (commencing with Section 15700) of this part of this division and under this chapter. The total of these amounts shall constitute the "basic tax amount."

If the applicant district is a unified district, the amount to be deferred shall be separately considered for each grade level thereof. For this purpose, the basic tax amount shall only include the amounts specified in the preceding paragraph required to be raised for the repayment of principal and interest on bonded indebtedness which was incurred for, or as a condition to receiving an apportionment for, or required by the board to be contributed for the purposes of, the grade level being considered, plus those amounts required for the annual repayment of apportionments made under Chapter 6 (commencing with Section 15700) of this part for such grade level. It is hereby declared that this paragraph is not intended as a change in the present law but rather as a declaration of existing law.

There shall be computed the amount which would be produced by a tax of forty-five cents (\$.45) on each one hundred dollars (\$100) of assessed valuation of the district during such year, to be known as the "45-cent tax amount." The amount of the annual repayment to be deferred during the fiscal year in which the annual repayment is due shall be the amount, if any, by which the basic tax amount exceeds the 45-cent tax amount. The amount deferred shall be added to the annual repayment for the next succeeding fiscal year.

On or before the last day of July of each fiscal year, the State Controller shall request the Director of General Services to, and the Director of General Services shall, determine and certify to the State Controller the amount of bonded debt service included in the "basic tax amount." On or before the third Monday in August of each fiscal year, the State Controller shall request the county auditor of each county to, and the county auditor of each county shall, determine and certify to the State Controller the current assessed valuation of property within each district which has filed a request for a deferment under this section.

Before the date on which the board of supervisors makes the levy of taxes for county purposes, the State Controller shall make the deferment determination required by this section for each district requesting a deferment, and, for each district which is entitled to a deferment, shall notify, in writing, the board of supervisors of the county, the governing board of the district, the county auditor, and the county superintendent of schools having jurisdiction over the district of the amount of the repayment of the district which is to be deferred under this section.

For the purposes of this section the "annual repayment" means the amount of the annual repayment of the district due in a fiscal year as determined pursuant to Section 15733 and Section 16075, plus the then unpaid deferred amount of any annual repayment due in any previous fiscal years. Any repayments by a district of a deferred

amount shall be first applied to loans granted under Chapter 6 (commencing with Section 15700) of this part.

Notwithstanding any other provision of this chapter, if, at the end of the 30-year period provided in Section 15738 or Section 16083, as the case may be, there are any deferred amounts due in any previous fiscal year remaining unpaid, repayments shall continue to be made in the manner provided by this section during each fiscal year thereafter until the amounts are paid, or for an additional period of 10 years, whichever first occurs. At the expiration of the additional 10-year period the unpaid portion of the deferred amounts shall be canceled on the books of the State Controller, and the provisions of Section 15738 or Section 16083, as the case may be, shall thereupon become applicable thereto and the board shall execute a conveyance to the district as provided in Section 15739 or 16087, whichever is applicable.

16085. For purposes of computing, under Section 16084, the portion of the annual repayment to be deferred in the case of a unified school district which has applied for and received an apportionment under Section 16003, the "45-cent tax amount" shall be the amount produced by a tax of ninety cents (\$.90) on each one hundred dollars (\$100) of assessed valuation of the district during the year.

16086. The provisions of this section shall apply: (1) to any school district which has succeeded to and become vested with all duties, powers, purposes, jurisdiction, and responsibility with respect to a portion of an apportionment determined or redetermined to have been expended, or to be expendable, for property acquired or to be acquired by it, and which has become liable for a portion of the annual repayment of a portion of an apportionment, as provided in Section 16159; and (2) to any state-aided district a portion of the territory of which was transferred to a district described in (1), above, and in connection with which territory a portion of an apportionment made to such state-aided district has or will be expended for property acquired or to be acquired.

If, on or before June 30th of any fiscal year, the governing board of any such school district files a request with the State Controller for a deferment of the annual repayment due from such district during the next succeeding fiscal year for an apportionment received by the district pursuant to this chapter, and it is determined, in accordance with this section, that the district is entitled to a deferment of all or part of such annual repayment, the deferment shall be made in accordance with such determination. The request for deferment, once filed with the State Controller, shall remain in effect in each ensuing year, and the State Controller shall continue to compute and allow the deferment in accordance with this section each year, until such time as the governing board of the school district files a written request with the State Controller to discontinue the deferment.

The portion of the annual repayment to be deferred under this section shall be determined as follows:

There shall be computed the amount required to be raised by taxes on property within the district during the fiscal year in which the annual repayment is to be deducted pursuant to Section 16080, for the payment of principal and interest on: (a) that portion of the annual repayment and all other payments due the state under Section 16075 and other provisions of this chapter with respect to the portion of the apportionment for which the district has been determined to be liable under Section 16159; (b) any bonded indebtedness incurred for school purposes prior to the first conditional apportionment to the school district under this chapter; (c) any bonded indebtedness which was incurred as a condition to any apportionment under this chapter; and (d) any bonded indebtedness incurred, the proceeds of which were required to be contributed for the purposes for which an apportionment was made under this chapter. To this amount shall be added the amount required during such fiscal year, for the annual repayment of school building apportionments under this chapter. The total of these amounts shall constitute the "basic tax amount."

If the applicant district is a unified district, the amount to be deferred shall be separately considered for each grade level thereof. For this purpose, the basic tax amount shall only include the amounts specified in the preceding paragraph required to be raised for the repayment of principal and interest on bonded indebtedness which was incurred for, or as a condition to receiving an apportionment for, or required by the board to be contributed for the purposes of, the grade level being considered, plus those amounts required for the annual repayment of apportionments made under this chapter for such grade level.

There shall be computed the amount which would be produced by a tax of forty cents (\$0.40) on each one hundred dollars (\$100) of assessed valuation of the district during such year, to be known as the "40-cent tax amount." The amount of the annual repayment to be deferred during the fiscal year in which the annual repayment is due shall be the amount, if any, by which the basic tax amount exceeds the 40-cent tax amount. The amount deferred shall be added to the annual repayment for the next succeeding fiscal year.

On or before the last day of July of each fiscal year, the State Controller shall request the Director of General Services to, and the Director of General Services shall, determine and certify to the State Controller the amount of bonded debt service included in the "basic tax amount." On or before the third Monday in August of each fiscal year, the State Controller shall request the county auditor of each county to, and the county auditor of each county shall, determine and certify to the State Controller the current assessed valuation of property within each district which has filed a request for a deferment under this section.

Before the date on which the board of supervisors makes the levy of taxes for county purposes, the State Controller shall make the deferment determination required by this section for each district

requesting a deferment, and, for each district which is entitled to a deferment, shall notify, in writing, the board of supervisors of the county, the governing board of the district, the county auditor, and the county superintendent of schools having jurisdiction over the district of the amount of the repayment of the district which is to be deferred under this section.

For the purposes of this section the "annual repayment" means the amount of the annual repayment of the district due in a fiscal year as determined pursuant to Section 16075, plus the then unpaid deferred amount of any annual repayment due in any previous fiscal years.

Notwithstanding any other provision of this chapter, if, at the end of the 30-year period provided in Section 16083 there are any deferred amounts due in any previous fiscal year remaining unpaid, repayments shall continue to be made in the manner provided by this section during each fiscal year thereafter until the amounts are paid, or for an additional period of 10 years, whichever first occurs. At the expiration of the additional 10-year period the unpaid portion of the deferred amounts shall be canceled on the books of the State Controller, and the provisions of Section 16083 shall thereupon become applicable thereto and the board shall execute a conveyance to the district as provided in Section 16087.

16086.5. In any instance where a school district is subject to annual lease payments pursuant to Chapter 22 (commencing with Section 17700) of Part 10 of this division and is also subject to an annual repayment pursuant to Chapter 6 (commencing with Section 15700), or Chapter 8 (commencing with Section 16000) of this part, the annual repayment under said Chapter 6 or said Chapter 8 is subject to deferment as provided for in Section 16086.6.

16086.6. In an instance in which a school district is subject to annual lease payments pursuant to Chapter 22 (commencing with Section 17700) of Part 10 of this division, the basic tax amount referred to in Sections 16084 and 16086 shall be increased by the amount of such annual lease payments. In such cases the "45-cent tax amount" or the "40-cent tax amount" referred to in such sections shall be a "60-cent tax amount" for each grade level operated by the applicant district.

16087. The State Controller shall certify to the board the cancellation of the unpaid balance of the principal amount of such apportionment; and upon receipt of such certification, the board shall, in the name of the state, convey to the district all sites purchased and improved, all equipment purchased, and all buildings constructed, reconstructed, altered, or added to, from money provided by the apportionment covered by such cancellation.

16088. The State Controller shall determine and maintain a record of the amount due the state in connection with each apportionment made to each grade level of a district under the provisions of this chapter. He shall compute interest, at the rate fixed by the board, on each amount disbursed by the state pursuant to any

such apportionment, from the date of issuance of the State Controller's warrant covering the payment to the county treasurer of such amount until the first day of July of the fiscal year next succeeding that in which such warrant was issued. Thereafter, interest shall accrue to and be compounded as a part of the principal amount due the state pursuant to such apportionment, through the 30th day of the following June of each year, until the principal and interest have been paid, or until the interest ceases to accrue, as provided in this chapter. Interest on unpaid school building aid apportionments shall be computed as if the annual repayment were credited on the first day of July of the fiscal year in which such repayment is withheld.

16089. Upon computing in any fiscal year the amount to be deducted from the apportionments to the district from the State School Fund during the succeeding fiscal year, the State Controller shall notify the governing board of the district and the county auditor of the county, the county superintendent of which has jurisdiction over the district, of the amount to be deducted.

16090. The board of supervisors of the county, the county superintendent of which has jurisdiction over any district which under this chapter will have moneys withheld by the State Controller from the apportionments to be made to it from the State School Fund during any fiscal year, shall annually at the time the board of supervisors makes the levy of taxes for county purposes, levy a tax upon the property in the district sufficient to raise for the district the amount of money to be withheld by the State Controller during the fiscal year in which the tax is levied. Such tax, when collected, shall be paid into the county treasury of the county, the county superintendent of schools of which has jurisdiction over the district for which the tax was levied, to the credit of the general fund of the district.

16091. The board shall prescribe in such detail as it deems necessary, the purposes for which moneys apportioned by it or which it requires the district to contribute toward, or in reduction of the cost of a project, may be expended, and such prescription shall be binding upon the governing board of the district, save as it may be changed or modified by the board for such cause as it sees fit. In determining funds which can be contributed by the district, the board may require the district to contribute unexpended balances of funds earmarked or encumbered by the district for furniture, equipment, or any other lawful purpose; provided, however, that changes or substitutions in the purposes for which such funds were earmarked or encumbered, with respect to such requirement under any apportionment heretofore or hereafter made, may be authorized by the board, or pursuant to its delegation, by the Director of General Services.

16092. Unless the board has received the certificates of the county superintendent of schools required by Section 16061 within nine months from the date of the conditional apportionment, it shall,

at the expiration of said nine months' period, void said conditional apportionment and shall certify this fact to the State Controller. Each final apportionment made by the board under this chapter shall be certified by it to the State Controller who shall from time to time draw his warrant on the State Treasurer in favor of the county treasurer of the county having jurisdiction over the district in accordance with the terms of such final apportionment. The warrant shall be exempt from the provisions of Division 4 (commencing with Section 16100) of Title 2 of the Government Code and shall be paid by the State Treasurer from the State School Building Aid Fund.

16093. A state school building fund is hereby created in the county treasury in each county for each school district in such county. The county treasurer of each county shall pay into the state school building fund of each school district, exactly as apportioned by the board, all moneys received by him under this chapter with respect to each such school district.

16094. Interest earned on those portions of deposits in a state school building fund representing allocations from the proceeds of state school construction bonds received by the county treasurer for the benefit of a school district under this chapter shall be paid into the state school building fund created by Section 16093. Such interest which prior to the 1964-65 fiscal year was deposited in the general fund of the school district for which the state school building fund was established shall remain the property of that general fund.

16095. The governing board of each school district to which an apportionment is made under this chapter is authorized to, and shall, transfer to the state school building fund of the district from all other funds of the district in which such moneys may be, all moneys of the district which under, or pursuant to, this chapter are required to be expended for the project for which such apportionment was made.

16096. A fund in the State Treasury is hereby created, to be known as the State School Building Aid Fund. All money in the State School Building Aid Fund, including any money deposited in said fund from any source whatsoever after November 12, 1952, is hereby continuously appropriated without regard to fiscal years for expenditure pursuant to apportionments made under the provisions of this chapter.

16097. The governing board of each school district to which an apportionment has been made under this chapter shall expend the moneys in the state school building fund of the school district exactly as apportioned by the board and only for the purposes for which said moneys were apportioned to the district, and for no other purpose, and shall make such reports relating to the expenditure of such moneys as the board and the State Controller shall require.

16098. A complete detailed report of expenditure of funds allocated pursuant to this chapter shall be made by the board annually to the Legislature. The report shall contain a detailed statement of facilities provided, type of construction, square footage provided and all other items which will enable the Legislature fully

to understand the nature of the construction performed by the school districts.

16099. It shall be the duty of the State Controller to make such audit or audits of the books and records of counties and school districts receiving apportionments under this chapter, as he may deem necessary from time to time, for the purpose of determining that the money received by school districts as apportionments hereunder has been expended for the purposes and under the conditions authorized by this chapter.

16100. Whenever the State Controller determines that any money apportioned to a school district has been expended by such school district for purposes not authorized by this chapter, or exceeds the final cost of the project which is authorized by Section 16024 of this chapter to be paid therefrom, the State Controller shall furnish written notice to the board, the governing board of the school district, the county superintendent of schools, the county auditor, and the county treasurer of the county whose county superintendent of schools has jurisdiction over the school district, directing the school district and the county treasurer to pay into the State Treasury the amount of such unauthorized expenditures, or the amount of such excess apportionment, as the case may be. Upon receipt of such notice, such governing board shall order the county treasurer to pay to the State Treasurer, out of any moneys in the county treasury available to the school district for that purpose, the amount set forth in such notice. Such amount shall, upon order of the State Controller, be deposited in the State Treasury to the credit of the State School Building Aid Fund, to be reapportioned by the board.

It shall be the duty of such governing body and the county treasurer to make the payments to the State Treasurer as provided in this section, and it shall be the duty of the State Controller to enforce such collection on behalf of the state.

If, upon petition of the district, the State Controller determines that the amount to be included in the county settlement is in excess of the amount that may be paid out of taxes levied at the maximum rate authorized by law (increased by any increase in such rate authorized by the electors of the district pursuant to Section 42202 or 85112), without impairing essential district services, he may provide for the payment of the entire amount or any unpaid balance thereof in not exceeding three consecutive annual payments, commencing with the next school year. Each payment shall be an equal portion of the principal amount, plus accrued interest, and shall be paid not later than January 31st of each school year in which a payment is due. If the district fails to make the payment as specified, the State Controller shall deduct the amount thereof from the February payment made to the district under the provisions of Section 14041.

Deferred payments under this section shall bear interest at the same annual rate of interest as the apportionment from which the unauthorized expenditures or the amounts of excess apportionment were made.

16101. Notwithstanding any provision of law to the contrary, if an apportionment is or has been made at any time after October 1, 1953, to meet a construction low bid and if the State Allocation Board after approving such apportionment revises the apportionment, and the apportionment finally approved reveals that an applicant school district receives excess construction area to what they are entitled to pursuant to Section 16044, and if a judgment for the collection of such excess apportionment has not been rendered by a court prior to September 11, 1957, such excess apportionment shall be computed by the State Controller and shall be repaid pursuant to this section. The district shall repay the amount of excess apportionment, and the interest thereon, in equal annual installments within 20 years from the date it receives the excess apportionment. The rate of interest shall be the same rate as that fixed for the approved apportionment. The district may at any time before the end of the 20-year period for repayment elect to repay, and repay, the balance of the excess apportionment then unpaid, plus interest computed to the date of repayment of such balance.

16102. If the board, between April 5, 1963, and July 1, 1963, approves an application for an apportionment and makes a conditional apportionment to the district making the application and if after such approval it is determined that the projected enrollment of the district is less than that upon which the district's application was based, any apportionment made by the board under such application is hereby ratified and confirmed and payments shall be made to the district pursuant to such apportionment. The board shall as a condition to any apportionment made under such application require the district to repay in full that portion of the apportionment which it determines to be attributable to the excess projected enrollment upon which the application was based and the district shall be empowered and obligated to comply with such requirement if it accepts such portion of the apportionment. Such repayment shall be in equal annual installments made within 20 years from the date the district receives the apportionment. Such repayment shall be in addition to any other repayment required by this chapter. The rate of interest shall be the same rate as that fixed for the remainder of the apportionment.

If at any time the board determines that the amount of actual enrollment of the district attains the amount of the projected enrollment upon which the district's application, referred to above, was based, the board may, if it determines that the inclusion of such excess projected enrollment in the application occurred inadvertently, provide that the district shall not be required to pay any further installments for full repayment of that portion of the apportionment attributable to the excess projected enrollment and the unpaid balance of such portion and interest thereon shall thereafter be repaid under the same terms and in the same manner as the balance of the apportionment made under such application.

16103. If a school district entered into an agreement at any time beginning on October 1, 1954, and ending on December 31, 1954, whereby it agreed to lease a site and facilities situated thereon, for the purpose of constructing administrative facilities on the site in accordance with plans prepared by or for the district, the State Allocation Board may make an apportionment to the district for the acquisition of the site and facilities; provided, (1) that the district at the time of receiving the apportionment would otherwise be eligible to receive an apportionment for square footage of building area equal to or exceeding that of the facilities to be constructed; (2) the Department of Education approves of the acquisition on the basis that it is necessary to provide needed administrative facilities for the district; and (3) the board finds that the acquisition and the consideration being paid therefor is economically feasible and constitutes sound financial practice.

16104. Any portion of an apportionment paid to a school district under this chapter shall be available for expenditure by its governing board for not less than one year nor more than three years, as the board shall determine, after the date on which the warrant covering such portion of the apportionment was issued by the State Controller, provided that no such limitation on expenditure shall be applicable with respect to any items the payment or reimbursement of which is required to be made by special resolution pursuant to Section 16057, whether such special resolution is adopted prior or subsequent to the termination of the period of availability herein specified. For the purposes of this chapter, an apportionment shall be deemed to be expended at the time and to the extent that the amount thereof on deposit in the county treasury has been encumbered by the creation of a valid obligation on the part of the school district. Upon the expiration of its period of availability, the unencumbered balance of any apportionment made under this chapter shall become due and payable to the State of California; and the governing board of the school district and the county treasurer shall pay the amount of such unencumbered balance to the State Treasurer, out of the funds, and in the manner specified in Section 16100 of this code. Such payment shall, on order of the State Controller, be deposited in the State School Building Aid Fund in the State Treasury, to be reapportioned by the board.

It shall be the duty of such governing body and county treasurer to make the payments to the State Treasurer as provided in this section, and it shall be the duty of the State Controller to enforce such collection on behalf of the state, provided that notwithstanding the above such duties shall not be deemed to exist with respect to any amount heretofore or hereafter due the state occasioned by the termination of the period of availability of expenditure provided by this section where such period of availability of expenditure for the items representing such amount is subsequently made inapplicable by the adoption of a special resolution pursuant to Section 16057.

16105. Whenever a school district receives or has received an

apportionment for or toward the purchase or improvement of realty or personalty (hereafter referred to as "property") and within five years from the date of the written authorization from a duly authorized representative of the board for the expenditure therefor from state funds or from contributable district funds, sells, leases, exchanges or otherwise disposes of such property or any portion thereof without the consent of the board, the board may demand the return of the state apportionment or such portion thereof it deems proper, plus accrued interest at the prescribed rate, less any repayment made prior to such demand by the district on account of said apportionment. A district may not at any time while an apportionment remains unpaid or noncanceled, dispose of any property acquired therefrom without the consent of the board, excepting transfers provided for by Article 15 (commencing with Section 39540) of Chapter 3 of Part 23 of Division 3 of Title 2, or Article 2 (commencing with Section 81310) of Chapter 2 of Part 49 of Division 7 of Title 3, and existing improvements on an acquired site. Such consent may be subject to such conditions as may be imposed, which may include the application of the consideration received in reduction of any apportionments previously made to the district. Any property into which the consideration from such disposition is converted shall be and remain the property of the state as if an apportionment had originally been authorized therefor.

Whenever, in the judgment of the board, a district fails to use property for the purpose or purposes for which an apportionment has been made, within not less than one nor more than five years from the aforesaid authorization, as the board shall determine, the board may demand back the return of the apportionment, or portion thereof, with interest, as specified in the preceding paragraph. The board's interpretation of such "use" in any instance, and whether or not the district has complied therewith, shall be conclusive upon the district affected after a hearing and finding of the board. In addition to the foregoing, the board may at any time subsequent to the expiration of the last mentioned period, while an apportionment remains unpaid or uncanceled, determine that a site or portion thereof, purchased in whole or in part with said apportionment is not being used for the purpose or purposes for which such apportionment was made, which determination shall be conclusive upon the district after a hearing and finding of the board. Pursuant to such determination, the board may direct the sale or other disposition of such site or portion thereof by the state or by the district and apply the proceeds, after deducting expenses it determines necessary to facilitate such disposition, in reduction of said apportionment, plus accrued interest. Any excess shall be applied in reduction of any other unpaid or noncanceled apportionments, plus interest, as the board shall direct, any remaining proceeds thereafter being payable to the district. For the purposes of such determination of disposition, the district shall, whenever directed by the board, convey record title to such site or

portion thereof to the state and/or do any other acts deemed necessary by the board to facilitate such disposition or implement the terms thereof. Any disposition authorized to be made hereunder by the district shall be made in accordance with the procedure prescribed by this code for the disposition of unneeded school property, otherwise as directed by the board, provided that the consideration to be received shall be subject to the approval of the board or its delegate for that purpose.

Written notice of any demand prescribed by this section, setting forth the amount due the state pursuant thereto, shall be furnished by the board to the governing board of the school district, the county superintendent of schools, the county auditor, the county treasurer of the county whose county has jurisdiction over the school district, and the State Controller. Upon receipt of such notice and demand, the governing board of the school district shall order the county treasurer to pay to the State Treasurer, out of any moneys in the county treasury available to the school district for that purpose, the amount set forth in such notice. Such amount shall, upon order of the State Controller, be deposited in the State Treasury to the credit of the State School Building Aid Fund, to be reapportioned by the board.

Whenever a school district receives or has received an apportionment under this chapter for the purchase of a site which contains existing improvements, the board may require the district to dispose of such existing improvements as a condition of receiving an apportionment in such manner as the board deems proper, and contribute the net proceeds therefrom or the value of any consideration received therefor, in reduction of any apportionment. In the event that the district is not so required to dispose of such existing improvements but after receiving such apportionment subsequently disposes thereof, the net proceeds therefrom or the value of the consideration received therefor, shall be contributed by the district in reduction of any remaining indebtedness to the state under this chapter or Chapter 6 (commencing with Section 15700) of this part.

Where a district has been unable to use any building site acquired by an apportionment under this chapter because of the delay of the board in acting upon its application for an apportionment for the planning and construction of school buildings on such site, the board may withhold demand for repayment of the apportionment for such building site for a period of not less than one or more than three years after approval of the apportionment for planning and construction.

It shall be the duty of such governing body and county treasurer to make the payments to the State Treasurer as provided in this section, and it shall be the duty of the State Controller to enforce such collection on behalf of the state.

Whenever the consent of the board is required in this section, it may be given by written authorization of its authorized representative for that purpose. The provisions of this section,

including the term "apportionment" or "apportionments," shall be deemed to be applicable to apportionments heretofore or hereafter made under this chapter or Chapter 6 (commencing with Section 15700) of this part.

## Article 2. School Housing Aid for Reorganized Districts

16150. (a) As used in this article:

(1) "State-aided district" means a district to which a conditional or final apportionment has been made under this chapter.

(2) "Acquiring district" means a district in which all or a part of, a state-aided district or an applicant district has been included.

(3) "Original district" means a state-aided or applicant district included in whole or in part in an acquiring district.

(b) For the purposes of this article as it applies to an acquiring district, the effective date of any change of boundaries, annexation, formation of a new district, or other reorganization shall be:

(1) For granting conditional apportionments: the date such action became effective for the purposes of Sections 4062 and 4063.

(2) For making conditional apportionments final: the date such action became effective for the purposes of Sections 4062 and 4063.

(c) For the purposes of this article as it applies to an original district, the effective date of any change of boundaries, annexation, formation of a new district, or other reorganization in which the original district is included in whole or in part in an acquiring district shall be:

(1) For granting conditional apportionments: the date such action becomes effective for all purposes as specified in Section 4064.

(2) For making conditional apportionments final: the date such action became effective for all purposes as specified in Section 4064.

(3) No conditional apportionment may be made to any original district affected by any reorganization after the date such action became effective for the purposes of Sections 4062 and 4063 except upon an application that has the approval of the governing board of the acquiring district.

16151. On the date an acquiring district becomes effective for all purposes, as specified in Section 4064, the authority to accept a state loan voted by an original district pursuant to this chapter whose boundaries are coterminous with the boundaries of the acquiring district shall become authority of the acquiring district to accept a state loan; provided, however, that when the proceeds of bonds authorized and sold by the acquiring district are applied toward the reduction of apportionments made to an original district which is included in whole in the acquiring district pursuant to Section 16058, such amount of bond proceeds shall be excluded in determining the amount chargeable against any apportionment authorized to be accepted by the electorate of the original or acquiring district.

16152. Notwithstanding any other provision of this chapter, where an election is or has been held after April 1, 1972, in two

elementary districts for the purpose of forming a new elementary district from the territories of such districts, which reorganization would become effective for all purposes on July 1, 1973, and where one of said districts has prior to April 1, 1972, voted to accept, expend, and repay apportionments under this chapter but no such apportionments pursuant to such authorization has been made to said district as of April 1, 1972, the consent of the electors in said districts to the reorganization shall be deemed to constitute a consent on behalf of the newly formed district to accept, expend, and repay apportionments under this chapter to the extent that the former authorization for apportionments had not been utilized.

Further, the ballot for the election held for the purpose of forming the new elementary school district shall contain a statement to the effect that approval of reorganization shall be deemed to constitute a consent on behalf of the newly formed district to accept, expend, and repay apportionments under this chapter to the extent that the former authorization for apportionments has not been utilized.

16153. Whenever, prior to the date on which a conditional apportionment is made by the board to an applicant district, (1) if an applicant district is annexed to or otherwise included in whole in another district which is ineligible for an apportionment under this chapter, no apportionment shall be made to the applicant district; (2) if less than the whole of an applicant district is included in a district which is ineligible for an apportionment under this chapter, the board may reconsider the application of the applicant district and make such determinations and take such action with respect thereto, including the making, subject to Article 1 (commencing with Section 16000) of this chapter, of a conditional apportionment to such district, as the board may deem necessary because of such inclusion of less than the whole of the applicant district in the acquiring district; (3) if an applicant district is annexed to or otherwise included in whole or in part in a district which is eligible for an apportionment under this chapter and has made or does make an application for such an apportionment, the board may reconsider the applications of the applicant district and the acquiring district and make such determinations and take such action with respect thereto, including the making, subject to the provisions of Article 1 (commencing with Section 16000) of this chapter, of conditional apportionments to such districts, as the board may deem necessary because of such annexation or other inclusion in the acquiring district of the applicant district in whole or in part.

16154. Whenever, subsequent to the date on which a conditional apportionment is made by the board to an applicant district, but prior to the date on which said conditional apportionment becomes final, (1) if an applicant district is annexed to or otherwise included in whole in a district which is not eligible for an apportionment under this chapter, such conditional apportionment shall, notwithstanding any other provisions of this chapter, become void and the board shall promptly notify the State Controller in writing

thereof and the date on which the apportionment became void; (2) if the district to which an applicant district is annexed or in which it is otherwise included in whole is eligible for an apportionment, has made or does make an application for such an apportionment under this chapter, the conditional apportionment made to the applicant district shall, notwithstanding any other provisions of this chapter, become void but the board may reconsider the application of the acquiring district and make such determinations and take such action with respect thereto, including the making, subject to the provisions of Article 1 (commencing with Section 16000) of this chapter except as hereinafter provided, of additional conditional apportionments to the acquiring district, as the board may deem necessary as a result of such annexation or other inclusion in the acquiring district of the applicant district; (3) if less than the whole of an applicant district is included in another district, the conditional apportionment shall, notwithstanding any other provisions of this chapter, become void, but the board may reconsider the application and make such determinations and take such actions with respect thereto, including the making, subject to the provisions of Article 1 (commencing with Section 16000) of this chapter except as hereinafter provided, of new conditional apportionments to the applicant district, as the board may deem necessary as a result of such inclusion of a portion of the applicant district in the acquiring district.

Notwithstanding anything in the first sentence of Section 16058 to the contrary, additional conditional apportionments made to a district under (2), or new conditional apportionments made to a district under (3) of the first paragraph of this section may, with the approval of the board, become final if the total amount of the bonds of the district outstanding and unpaid is within twenty-five thousand dollars (\$25,000) of the amount required under Section 16058.

16155. If before or after the effective date of this section, an annexation or other inclusion of a portion of an applicant district in another district comprises less than 5 percent of the assessed valuation of the applicant district on the effective date of such change, no annexation or other inclusion shall be deemed to have taken place for the purposes of Sections 16154 and 16156.

16156. Whenever, prior to the date on which conditional apportionments have been made to an applicant district for the full amount of state aid approved for the district under Section 16035, (1) if the applicant district is annexed to or otherwise included in whole in another district which is ineligible for an apportionment under this chapter, no further apportionment shall be made to the applicant district; (2) if the applicant district is annexed to or otherwise included in whole in a district which is eligible for an apportionment under this chapter and which has made or does make an application for such an apportionment, the board may reconsider the applications of the applicant district and the acquiring district and make such determinations and take such action with respect

thereto, including the making, subject to the provisions of Article I (commencing with Section 16000) of this chapter, of a conditional apportionment or apportionments to such acquiring district as the board may deem necessary because of such annexation or other inclusion in the acquiring district of the applicant district; (3) if a portion of the applicant district is annexed to or otherwise included in another district, the board may reconsider the application of the applicant district and may, within two years after the first apportionment made under said approval, make such additional apportionments as it sees fit to the applicant district, but not in excess of the amount in which such application was originally approved, without requiring the district to issue additional bonds.

16157. Whenever, subsequent to the date on which a conditional apportionment made to a district becomes final, the state-aided district is included in whole in another district, the acquiring district shall, on the effective date of such inclusion, succeed to and be vested with all of the duties, powers, purposes, jurisdiction, and responsibilities of the state-aided district with respect to said apportionment and the property acquired or to be acquired from funds provided thereby, and all funds in the state school building fund of the state-aided district shall be transferred to the state school building fund of the acquiring district. All amounts which would, after the effective date of such inclusion, have been otherwise paid to the state-aided district under the terms of or pursuant to said apportionment, shall be paid to the acquiring district. In addition, the acquiring district shall, on the effective date of the inclusion of the state-aided district in the acquiring district as fixed by Section 4064, become liable for the annual repayments and other payments due the state under Section 16075 and other provisions of this chapter with respect to said apportionment or the property acquired or to be acquired therewith.

16158. Whenever one or more state-aided districts are included in whole in an acquiring district, and the acquiring district applies for and receives an apportionment, then after the effective date of such inclusion and upon the approval of the application of the acquiring district, the governing board of each component state-aided district shall immediately transfer to the acquiring district all moneys of such component district which are required to be, or have been, earmarked for a project or projects of the district. The acquiring district, upon the transfer to it of such funds, may expend such funds for any projects of the acquiring district as to which its application was approved.

16159. Whenever, subsequent to the date on which a conditional apportionment made to a state-aided district becomes final, less than all of such district is included in another district, the Director of General Services shall determine what portion of such apportionment was expended or will be expended for property acquired or to be acquired by the acquiring district. Any determination made by the Director of General Services under this

section may be redetermined by him, from time to time, until the project for which the apportionment was made has been completed, and the final cost thereof determined and the final determination has been made pursuant to such final cost. The Director of General Services shall promptly notify the State Controller, the governing board of the state-aided district and of the acquiring district, the superintendent of schools, the auditor and the treasurer of the counties having jurisdiction over said districts of each determination and redetermination made by him under this section. No redetermination shall be retroactive nor affect the liability of any school district for any payment or annual repayment, or portion thereof, previously made by or on behalf of such district to the state under the provisions of this chapter.

On and after the date of such change of boundaries, the acquiring district succeeds to and is vested with all of the duties, powers, purposes, jurisdiction, and responsibilities of the state-aided district with respect to that portion of the apportionment which the Director of General Services has determined or redetermined under this section was expended, or will be expended, for property acquired or to be acquired by the acquiring district, and the unexpended part of such portion of the apportionment in the state school building fund of the state-aided district shall be transferred to the state school building fund of the acquiring district. In addition, and at the same time, the acquiring district shall become liable for the payment to the state of that portion of the annual repayment and all other payments due the state under Section 16075 and other provisions of this chapter with respect to that portion of the apportionment which the Director of General Services has determined or redetermined was expended, or will be expended for property acquired, or to be acquired by the acquiring district, or, in the event such portion of such apportionment is a lower percentage of such apportionment than the percentage that the assessed valuation in the territory of the state-aided district which was transferred to the acquiring district is of the total assessed valuation of the state-aided district immediately preceding the effective date of the transfer, the acquiring district shall become liable for the payment to the state of that portion of the annual repayment and all other repayments due the state under Section 16075 and other provisions of this chapter with respect to such apportionment which is equal to such percentage of assessed valuation in the territory transferred to the acquiring district. "Annual repayment," as used in this section, refers to repayment computed under Sections 16070 to 16075, inclusive, and excludes amounts for which the state-aided district is liable under the provisions of Section 16039. Whenever a site for which repayments are being made under Section 16039 is transferred to an acquiring district the acquiring district shall be liable for the repayments required under Section 16039.

Notwithstanding the foregoing, the liability of the acquiring district for the repayment of any portion of the aforesaid

apportionment made to the aforesaid state-aided district shall not exceed the product of the highest percentage referred to above (whether relating to assessed valuation or to the portion of the apportionment expended in the property acquired), multiplied by the balance due on the apportionment made to the state-aided district at the time of the withdrawal on the effective date specified in Section 4064 of the territory referred to. Such limited liability is hereinafter referred to as "the maximum." It is the intent of the Legislature that the maximum shall be applied by the Controller, both retroactively and prospectively, provided that as a result of such application (1) no cash refund shall be made to any district; (2) in the event any district has, in the past, paid an amount greater than the maximum, assuming this paragraph had been in effect at such time, the excess shall be credited by the Controller against any apportionment balances for which said district is or may hereafter become liable; and (3) the Controller shall make retroactively any adjustments in the amounts due from other districts by virtue of any adjustments made under (2) above. Notwithstanding the foregoing, any computations required to be made pursuant to this paragraph shall not be reflected in any changes in deductions required to be made pursuant to Section 16080 prior to January 1, 1966.

If any subsection, clause, sentence or phrase of this section is for any reason held to be unconstitutional such decision shall not affect the validity of the remaining portions of this section. The Legislature hereby declares that it would have adopted this section and each subsection, sentence, clause or phrase thereof irrespective of the fact that any one or more subsections, clauses, sentences, or phrases be declared unconstitutional.

16160. Notwithstanding the provisions of Sections 16159 and 16161, in situations where an applicant district at the elementary grade level under this chapter is divided into three parts, each of which is included in a newly formed unified school district, each such part shall be excluded in determining the state loan repayment liability for any apportionment made to the original district subsequent to the date the unification is effective for purposes of Section 4062, provided:

(a) The assessed valuation of such part is less than 4 percent of the original district in the fiscal year immediately preceding the fiscal year the change is made effective for all purposes.

(b) The average daily attendance in such part is excluded in determining projected enrollment of the original district for additional state aid during the period after the change is effective for purposes of Section 4062 and prior to the effective date for all purposes.

(c) Such part contains no sites, plans, or school facilities, which were acquired under this chapter or under Chapter 6 (commencing with Section 15700) of this part.

16161. Notwithstanding any change in the boundaries of a state-aided district or the annexation to, or the inclusion in, another

district of a state-aided district, the state-aided district as it existed immediately prior to the effective date of such action shall be continued in existence for the determination of the assessed valuation of the property therein and for the purposes of the computations provided by Sections 16070, 16072, 16074, 16075 and 16084; and all the computations required to be made pursuant to said sections shall be made exactly as if there had been no such change of boundaries, annexation, or inclusion, except as otherwise provided in Sections 16163 and 16164; provided, however, that if a state-aided district shall be included entirely in another school district which subsequently becomes state aided, then the unpaid balances of the apportionments made to the original district shall be added to the balances of the apportionments made to the newly aided district. In such cases, no further computations as aforesaid, or repayments, shall be made with respect to the original district, but such computations and repayments shall thenceforth be based solely upon the territory and assessed valuation of such newly aided district, in the manner provided by Sections 16070, 16072, 16074, 16075 and 16084.

16162. If a unified school district, after the effective date of this section, applies for and is granted an apportionment under this chapter on the basis of grade levels as defined in Section 16003, all unpaid balances of prior apportionments made to the district, subject to the provisions of Section 16161, shall be added to the balances of the apportionments made on the basis of the provisions of Section 16003. In such cases, no further computations or repayments under Sections 16070, 16072, 16074, 16075 and 16084 shall be made with respect to the prior apportionments alone, but such computations and repayments shall thenceforth be based solely upon the combined apportionments, and shall be made as provided in Sections 16071, 16072, 16074, 16075 and 16084.

16163. Whenever, subsequent to the date on which a conditional apportionment becomes final, territory is withdrawn from a state-aided district and no portion of the apportionment was expended for school property acquired by the acquiring district:

(1) If the acquiring district is a state-aided district, the assessed valuation in the territory acquired shall be included in determining assessed valuation of the property in the acquiring district, and shall thereafter be excluded in determining assessed valuation of the property in the state-aided district, for purposes of the computations under Sections 16070 to 16075, inclusive;

(2) If the acquiring district is not a state-aided district, the State Controller shall determine the percentage relationship, at the time of the withdrawal, between (a) the assessed valuation in the territory acquired, together with the current assessed valuation in all other territory theretofore acquired by the acquiring district from the state-aided district since the date of its first conditional apportionment under this chapter, and (b) the current assessed valuation of the state-aided district as it was territorially constituted on such latter date.

If the percentage of assessed valuation in acquired territory is, in the aggregate, less than 10 percent, the assessed valuation in all such acquired territory shall be excluded, until the next withdrawal of territory from the state-aided district to the acquiring district, in determining the assessed valuation of the state-aided district for the purposes of the computations under Sections 16070 to 16075, inclusive.

If the percentage of assessed valuation in acquired territory is, in the aggregate, a percentage equal to or greater than 10 percent, the State Controller shall, by deducting such percentage from 100 percent, obtain the "complement percentage." Until the next withdrawal of territory from the state-aided district to the acquiring district, the assessed valuation of the state-aided district for purposes of the computations under Sections 16070 to 16075, inclusive, shall be determined by dividing the current assessed valuation of the state-aided district as territorially constituted immediately subsequent to the last withdrawal, by the complement percentage.

Whenever, pursuant to this section, the assessed valuation of the state-aided district is adjusted for repayment computation purposes by use of the complement percentage, liability for the annual repayment computed shall be apportioned between the state-aided district and the acquiring district by multiplying such annual repayment by the complement percentage, the product representing the liability of the state-aided district, and the remainder of the computed repayment representing the liability of the acquiring district.

Notwithstanding the foregoing, the liability of the state-aided district shall not exceed the product of any "complement percentage" (as it may from time to time exist) times the balance due on the aforesaid final apportionment at the time such complement percentage is established; and the liability of the acquiring district (while a complement percentage remains unchanged) shall not exceed the remainder of the balance of the aforesaid final apportionment at the time such complement percentage is established. The maximum liability on the part of either the state-aided or acquiring districts established as above (and until such time as such liability be altered by altering the "complement percentage") shall be hereinafter referred to in this section with respect to each such district as "the maximum."

(3) In the event that two or more non-state-aided districts acquire territory from the aforesaid state-aided district, the Controller shall determine the formulae for apportioning liability for such annual repayment between the districts affected (including the formulae for determining what assessed valuations shall be used within the affected districts or territories withdrawn, and the dates of determination thereof), as will in his opinion best comply with the principles set forth above, irrespective of whether such formulae are in literal compliance therewith. The same percentage of annual repayment for which a district is liable at the time such a liability

apportionment is made shall (unless and until such liability apportionment is subsequently changed pursuant to this paragraph) be deemed applicable to the liability of such district for the balance (as of the date such liability apportionment is made) due on the final apportionment to the state-aided district. Such liability for such balance shall, with respect to any affected district, be hereinafter referred to as the "maximum" for such district.

(4) It is the intent of the Legislature that the foregoing "maximums" shall be applied by the Controller both retroactively and prospectively, provided that as a result of such application (1) no cash refund shall be made to any district; (2) in the event any district has, in the past, paid an amount greater than its "maximum," assuming this paragraph and others to which it is referable had been in effect at such time, the excess shall be credited by the Controller against any apportionment balances for which said district is or may hereafter become liable; and (3) the Controller shall make retroactively any adjustments in the amounts due from any other district by virtue of any adjustments made under (2) above. Notwithstanding the foregoing, any computations required to be made pursuant to this paragraph shall not be reflected in any changes in deductions required to be made pursuant to Section 16080 prior to January 1, 1966.

If any subsection, clause, sentence or phrase of this section is for any reason held to be unconstitutional such decision shall not affect the validity of the remaining portions of this section. The Legislature hereby declares that it would have adopted this section and each subsection, sentence, clause or phrase thereof irrespective of the fact that any one or more subsections, clauses, sentences, or phrases be declared unconstitutional.

16164. Whenever, subsequent to the date on which a conditional apportionment becomes final, any territory is withdrawn from a non-state-aided district and annexed to the state-aided district, the assessed valuation in the territory so annexed shall be included with the valuation of the state-aided district for the purposes of making the computations provided by Sections 16070 to 16075, inclusive.

16165. The State Controller shall compute, in accordance with Sections 16161, 16163 and 16164, the amount of the annual repayment due the state on account of the apportionment or apportionments to each state-aided district and shall deduct from the respective apportionments made from the State School Fund under Sections 46304, 46305, 84502, 84503 and 92 or 41050, Sections 41330 to 41343, or 84320 to 84332, inclusive, and Sections 41600 to 41972, or 84700 to 84874, inclusive, whichever are in effect, to the state-aided district and an acquiring district the portion thereof for which each is liable under the provisions of this article (Sections 16150 to 16166, inclusive).

16166. When, after any application is filed, the applicant district is annexed to, or, by change of boundaries or otherwise, is included in whole or in part in another district or districts, the superintendent

of schools of the county having jurisdiction over said applicant district shall, within 10 days after the effective date of such annexation, inclusion, or change of boundaries, file a certificate with the board, in writing, in such form as the board shall prescribe, setting forth (1) the effective date of such annexation, inclusion, or change of boundaries; (2) identification of the area of the school district affected by such change and the name of the school district or districts in which such area is included as a result thereof; and (3) such additional information in such form as the board may require.

The board shall, upon receiving the appropriate certificate from a county superintendent of schools as provided herein, promptly notify the State Controller, in writing, of (1) the effective date of annexation or other inclusion of a state-aided district by an acquiring district; (2) the name of the state-aided district; (3) the name of the acquiring district; and (4) the number and other identification of the apportionment affected.

### Article 3. School Housing Aid for Exceptional Children

16190. The board may make apportionments from any sum appropriated by the Legislature at the 1952 Second Extraordinary Session and from any state bonds heretofore or hereafter authorized by the electorate for state school building aid, including the proceeds of bonds authorized by Section 2 of Article XVI of the California Constitution, for assistance to school districts in providing necessary housing and equipment for the education of exceptional children. All the provisions of Article 1 (commencing with Section 16000) and Article 2 (commencing with Section 16150) of this chapter, except Sections 16007 and 16044, shall apply to this article unless otherwise provided herein.

16191. As used in this article, "exceptional children" means physically handicapped pupils, mentally retarded pupils, educationally handicapped pupils, multihandicapped pupils, or pupils enrolled in development centers for the handicapped required or allowed to be educated pursuant to Sections 56700 to 56754, or 78701 to 78726 and 79130 to 79134, Sections 56800 to 56831, Sections 56500 to 56542, inclusive, and Sections 56600 to 56618, or 78601 to 78617.

16192. Allocations under this article for assistance to school districts in providing necessary housing and equipment for the education of pupils enrolled in development centers for the handicapped may be made only to those school districts which receive state funds for the operation of such development centers pursuant to the provisions of Article 1 (commencing with Section 56800) of Chapter 6 of Part 30 of Division 4 of Title 2.

16193. The State Allocation Board, in cooperation with the Department of Education, shall develop standards to be complied with in the construction of housing facilities for development centers for the handicapped with allowances provided pursuant to this article.

16194. The State Allocation Board shall establish guidelines and procedures to be utilized in determining the eligibility of school districts for allowances provided pursuant to this article with respect to facilities and equipment for the education of pupils enrolled in development centers for the handicapped. Such guidelines and procedures shall provide that in order to be eligible to receive such allowance the school district has no existing facilities which could be utilized for a development center for the handicapped.

16195. Allocations under this article may be made in such amount as may be necessary, and in such manner as to distribute the available funds equitably among school districts, giving consideration to the needs of each district and the number of children within each district who are blind, partially seeing, aphasic, deaf, hard of hearing, mentally retarded, orthopedic or other health impaired, multihandicapped, speech handicapped, educationally handicapped, or enrolled in development centers for the handicapped.

In computing the number of such children there shall be included:

- (a) The number of them residing in the district.
- (b) The number of handicapped minors who are actually living within the district five or more days a week, although their legal residence may be outside the district and who are educated pursuant to Section 56708 or 78709.
- (c) The number of them who reside outside of the district, except those described in subdivision (b), and who are to be educated by the district, excluding mentally retarded minors within the provisions of Section 56501 or 78801 who reside within a district having an average daily attendance of 900 or more and which does not meet the requirements of Section 16058 concerning outstanding bonded indebtedness.

Allocations for housing and equipment for minors having speech defects or disorders shall be allowed in new schools constructed after July 1, 1968, and in existing schools constructed between July 1, 1933, and July 1, 1968. Such housing and equipment shall be designed and provided to permit their utilization for remedial and other special services including speech therapy, speech reading (lipreading) and auditory training for the speech and hearing handicapped, screening and testing for speech and hearing defects, or both, psychological testing of exceptional children, subject matter tutoring for exceptional children, and other specialized activities required by such children. In addition to the maximum building area allowances provided in Sections 16047, 16052, 16053, and 16054, not more than an additional 200 square feet of building area shall be allowed for each new school so planned and constructed.

Each existing school, constructed between July 1, 1933, and July 1, 1968, shall be allowed not more than an additional 200 square feet of building area only for construction thereon of a new speech facility. At the option of the applicant district, the board may allocate funds

to convert existing facilities or to provide a combination of new construction and conversion of existing facilities to provide housing for such minors having speech defects or disorders, provided the cost of such conversion or combination of new construction and conversion does not exceed the computed cost for 200 square feet of new classroom construction based upon cost standards adopted by the board. At the further option of the applicant district, and in lieu of new building construction or conversion, the board may allocate funds for the acquisition of mobile speech therapy facilities, provided the cost of such mobile facilities does not exceed the combined computed cost for 200 square feet of new classroom construction, based upon cost standards adopted by the board, at all such schools which will be served by the mobile facility.

16196. Notwithstanding any provisions of this article to the contrary, apportionments for the construction of facilities and the purchase of essential furniture and equipment for the education of exceptional children may, subject to the approval of the Department of Education, be made to any school districts not otherwise eligible to receive apportionments under Article 1 (commencing with Section 16000) and Article 2 (commencing with Section 16150) of this chapter, for the education of blind, partially seeing, aphasic, deaf, hard-of-hearing, mentally retarded, orthopedic or other health-impaired, multihandicapped, and educationally handicapped minors, pupils having speech defects or disorders, or pupils enrolled in development centers for the handicapped.

The Department of Education may approve applications in those situations where the facilities will be used by a county superintendent of schools required to educate physically handicapped minors pursuant to Section 1850 and mentally retarded minors pursuant to Section 1880. A school district may educate such minors by agreement with a county superintendent of schools required to educate such minors. Priority in the use of such facilities shall be given to pupils from districts other than the applicant district.

Except as otherwise provided in this section, not more than 50 percent of the amount of any apportionment made pursuant to this section shall be repaid. Repayments shall be made in the following manner: Fifty percent of the amount of the apportionment shall be repaid in full with interest by the district, in such annual amounts and at such interest rate over such period as the State Allocation Board may determine, not to exceed 20 years from the date the apportionment became final. In any school year in which 50 percent or more of the pupils in average daily attendance, as determined by the county superintendent of schools, and served by such facilities are not pupils from districts other than the applicant district, the repayment for the succeeding fiscal year shall be an amount which would have been payable if such district had been required to repay 100 percent of the apportionment over such period.

The county board of supervisors of the county whose

superintendent of schools conducts classes in such facility during any fiscal year shall at such time or times within such fiscal year as may be agreed upon between the county and the school district, but in any case not later than the end of such fiscal year, pay to the school district having the obligation to repay the apportionment made under this section for the construction of such facility, an amount equal to 80 percent of the amount the district is required to repay in said fiscal year with respect to the apportionment described above.

The county board of supervisors shall raise the amount required through a general tax levy on the property within the participating districts, or through a tuition charge not to exceed one hundred sixty dollars (\$160) a year per pupil by the county superintendent of schools to the school districts of residence of pupils attending the facility other than the district having the obligation to repay, or through a combination of these.

The county superintendent of schools shall notify the county board of supervisors of his intention to approve a school district's application for an allocation under this article before he approves the application.

16197. Notwithstanding any other provisions of this article to the contrary, apportionments for the purchase of mobile classrooms for the education of physically handicapped pupils enrolled in integrated programs, as set forth in Section 56702 or 78703, and for the education and therapy of speech-handicapped pupils may, subject to the approval of the Department of Education, be made to any school district not otherwise eligible to receive apportionments under Article 1 (commencing with Section 16000) and Article 2 (commencing with Section 16150) of this chapter for such purpose.

The Department of Education may approve applications in those situations where mobile classrooms will be used by a county superintendent of schools required to educate physically handicapped minors pursuant to Sections 1850 and 56701 or 78702. Such mobile classrooms shall be used pursuant to an agreement authorized by Section 41308.

Except as otherwise provided in this section, not more than 50 percent of the amount of any apportionment made pursuant to this section shall be repaid. Repayments shall be made in the following manner: Fifty percent of the amount of the apportionment shall be repaid in full with interest by the district, in such annual amounts and at such interest rate over such period as the State Allocation Board may determine, not to exceed 20 years from the date the apportionment became final. In any school year in which 50 percent or more of the pupils in average daily attendance, as determined by the county superintendent of schools, and served by such facilities are not pupils from districts other than the applicant district, the repayment for the succeeding fiscal year shall be an amount which would have been payable if such district had been required to repay 100 percent of the apportionment over such period.

The county board of supervisors of the county whose superintendent of schools uses such mobile classrooms during any fiscal year shall at such time or times within such fiscal year as may be agreed upon between the county and the school district, but in any case not later than the end of such fiscal year, pay to the school district having the obligation to repay the apportionment made under this section for the purchase of such mobile classrooms, an amount equal to 100 percent of the amount the district is required to repay in such fiscal year with respect to the apportionment described above.

The county board of supervisors shall raise the amount required through a general tax levy on the property within the participating districts, or through a tuition charge not to exceed one hundred sixty dollars (\$160) a year per pupil by the county superintendent of schools to the school districts of residence of pupils attending the facility including the district having the obligation to repay, or through a combination of these.

The county superintendent of schools shall notify the county board of supervisors of his intention to approve a school district's application for an allocation under this article before he approves the application.

The Department of Education shall prepare specifications or regulations for the construction of mobile classrooms to provide for a useful life of no less than 20 years.

The use of mobile classrooms shall meet specifications described by the Department of Education as they relate to the needs of the physically handicapped pupils being served, as set forth in Section 56701 or 78702.

16198. Notwithstanding any provision of law to the contrary, the board shall control the amount of apportionments made for facilities for exceptional children. In so controlling these apportionments the board shall establish allowable building areas and cost standards comparable to the building areas and costs of similar facilities constructed by school districts which are not applicants under this chapter.

16199. The Department of Education may accept applications by school districts for the construction of facilities and the purchase of essential furniture and equipment, under a pilot project to maintain regional programs for physically exceptional children.

The Superintendent of Public Instruction shall establish standards with respect to such regional programs for the pilot project which shall include, among other things, the curriculum to be offered, the area to be served, and the supervision and instruction with respect to the programs. Of the school district applicants which meet the standards established, the Department of Education may designate not more than four school districts to receive apportionments as part of the pilot project to maintain regional programs for physically exceptional children.

The pilot project pursuant to this act shall begin with the 1972-1973

school year and shall terminate at the end of the 1974-1975 school year. The Department of Education shall provide for state evaluation of the pilot project and shall report to the Legislature on an annual basis as to the success of the project and shall make a final report on or before the fifth calendar day of the 1976 Regular Session.

With respect to school districts selected as part of the pilot project, the State Allocation Board may approve applications and make apportionments pursuant to Section 16196, notwithstanding that the school district is serving a district or districts with an average daily attendance in excess of 8,000.

In any school year in which 50 percent or more of the pupils in average daily attendance, as determined by the county superintendent of schools, and served by such facilities are not pupils from districts other than the applicant district, the repayment for the succeeding fiscal year shall be an amount which would have been payable if such district had been required to repay 100 percent of the apportionment over such period.

The districts participating in a pilot project may include in interdistrict attendance agreements the cost of making repayments in the same proportion to the total repayment as the number of pupils enrolled from each district bears to the total number of pupils enrolled.

16200. Notwithstanding any provisions of this article to the contrary, the board may make apportionments to school districts not otherwise eligible to receive apportionments under Article 1 (commencing with Section 16000) and Article 2 (commencing with Section 16150) of this chapter for the construction of special education facilities and the purchase of essential furniture and equipment for the purpose of either or both (1) educating those physically handicapped, mentally retarded, and educationally handicapped pupils who regularly reside in an established, licensed children's institution or family home and are being educated pursuant to Section 42902, and (2) educating handicapped pupils in development centers for handicapped pupils pursuant to Article 1 (commencing with Section 56800) of Chapter 6 of Part 30 of Division 4 of Title 2.

Only 50 percent of any amounts allocated and disbursed to a district under this section shall be repaid by the district. Each disbursement shall be repaid in 20 equal annual installments, including interest as determined by the board, and shall be computed and withheld by the State Controller. The first computation of repayment of any disbursement shall be made in the fiscal year following such disbursement and shall during the next fiscal year be deducted in equal amounts from the February, March, April, and May installments of the apportionment made to the district from the State School Fund under Sections 41330 to 41343, or 84320 to 84332, inclusive, and Sections 41600 to 41972, or 84700 to 84874, inclusive, whichever are in effect.

16201. Notwithstanding the provisions of Article 1 (commencing

with Section 16000) and Article 2 (commencing with Section 16150) of this chapter, the obligation of any district receiving an apportionment under this article to repay such apportionment shall not extend to more than one-half of the amount of the apportionment.

16202. With the approval of the county superintendent of schools, a school district may make application for an allocation under this article. Facilities for which an apportionment is made under this section shall be made available for use by the county superintendent of schools until he ceases to conduct such classes therein or until the superintendent of schools of a county other than the county whose superintendent of schools approved the application made under this section acquires jurisdiction over the location of such facility, whichever first occurs. Not more than 50 percent of the amount of any apportionment made pursuant to this section shall be repaid. Repayments shall be made in the following manner: Ten percent of the amount of the apportionment shall be subject to repayment by the district to the extent, and in the manner prescribed in Article 1 (commencing with Section 16000) of this chapter for apportionments other than those made pursuant to Section 16039. Forty percent of the amount of the apportionment shall be repaid in full with interest by the district, in such annual amounts and over such period as the board may determine, not to exceed 20 years from the date the apportionment became final. The county board of supervisors of the county whose superintendent of schools conducts classes in such facility during any fiscal year shall at such time or times within such fiscal year as may be agreed upon between the county and the school district, but in any case not later than the end of such fiscal year, pay to the school district having the obligation to repay the apportionment made under this section for the construction of such facility, an amount equal to the amount the district is required to repay in said fiscal year with respect to the 40 percent of the amount of the apportionment described above.

The county board of supervisors may raise the amount required through a general tax levy or through a tuition charge not to exceed one hundred sixty dollars (\$160) a year per pupil by the county superintendent of schools to the school districts of residence of pupils attending the facility other than the district having the obligation to repay or through a combination of these.

Upon application of a school district and written approval of the county superintendent of schools the board may amend any apportionment previously received by a district for exceptional children by providing that the same shall be deemed to have been made with reference to this section, in which event all the incidents of this section shall be deemed applicable thereto, except that only the unpaid balance of said apportionment at the time of the aforesaid amendment of the apportionment with interest accrued to said date shall be repaid as prescribed in this section.

The county superintendent of schools shall notify the county board

of supervisors of his intention to approve a school district's application for an allocation under this article before he approves the application.

16203. Not later than July 10th of each year the county superintendent of schools of each county in which there is a school district maintaining facilities for the education of exceptional children which have been constructed with funds apportioned to the district under this article shall certify to the board of supervisors and to the county auditor of the county the total number of units of average daily attendance of pupils enrolled in such facilities during the next preceding fiscal year who reside in a district other than the district maintaining such facilities. On or before July 10th of each year the county superintendent of schools shall notify the governing board of each affected school district of the total number of units of average daily attendance of pupils residing in that district who were in attendance at such facilities maintained by another district.

16204. On or before July 20th of each year, the governing board of a school district which has received a notification pursuant to Section 16203, shall determine, and notify the county board of supervisors and the county auditor, whether the amounts required to be paid on behalf of the district under Section 16207 shall be provided from the general fund of the district or by a special district tax levied by the county board of supervisors.

In the event that the district notification specifies that the amounts so required shall be provided by a special district tax, or if no notification is made, the board of supervisors with whom the certificate prescribed by Section 16203 is filed shall, at the time of making the tax levy for that year for county purposes, levy a special tax upon all taxable property in the district of residence of each pupil enrolled in the facilities other than the district maintaining such facilities, sufficient in amount to raise, for the use of the facilities, the sum of one hundred sixty dollars (\$160) per unit of average daily attendance, less any amounts per unit of such average daily attendance remaining in the county school building aid fund from levies and collections made in any prior year and not paid to the state pursuant to Section 16207.

16205. If the board of supervisors fails to make a district tax levy required under Section 16204, the auditor shall make the levy.

In the event the governing board of a school district has elected to provide from the district general fund the amounts required to be paid on behalf of the district from the county school building aid fund under Section 16207, the county superintendent of schools shall order the payment to be made in the amount required from the general fund of the district.

16206. In the event that the governing board of a school district determines, subject to the approval of the county superintendent of schools, that the amounts collected within the district by special taxes levied pursuant to Section 16204 or Section 16205 and credited to the district in the county school building aid fund are substantially in

excess of amounts required of the district for purposes of Section 16207 for the ensuing three-year period, the county superintendent may order the payment to the district from the county school building aid fund of so much of such excess moneys as he may deem appropriate.

16207. The county auditor shall, not later than the last Monday in December and the last Monday in May of each year, notify the superintendent of schools of the amount in the county school building aid fund. Thereupon the superintendent shall draw his order on the county auditor in favor of the State Treasurer for the amount in the county school building aid fund of the county, except that the total of such orders for any year may be limited to an amount not to exceed the total of one hundred sixty dollars (\$160) for each unit of average daily attendance during the next preceding fiscal year of students residing in a district other than a district maintaining the facilities. Such amount shall be paid by the county treasurer and, upon order of the State Controller, shall be deposited in the State Treasury to the credit of the State School Building Aid Fund. All money paid to the State School Building Aid Fund under the provisions of this section shall be available only for transfer to the General Fund under the provisions of Section 16403, and shall be credited to the repayment of the apportionment of funds to the school district maintaining the facilities.

#### Article 4. School Housing Aid for Compensatory Education Purposes

16210. Not to exceed thirty-five million dollars (\$35,000,000) of the proceeds of the sale of bonds authorized by the State School Building Aid Bond Law of 1966 may be expended pursuant to this article as grants to assist school districts.

Allocations and grants under this article shall be made by the State Allocation Board, upon application of an eligible school district, for the purposes and projects designated by the district and approved by the Director of Compensatory Education. The purposes and projects shall be provided for pupils in any or all of grades kindergarten through 9, inclusive, and for children participating in preschool programs. The Director of Compensatory Education may establish priorities for purposes of allocations and grants under this article based upon comparative needs of school districts and the urgency thereof. No interest shall be charged to a school district for an allocation or grant made under this article to the school district.

16211. Grants may be made pursuant to this article to districts which have been determined to be eligible for an apportionment under Article 5 (commencing with Section 54480) of Chapter 4 of Part 29 of Division 4 of Title 2, or districts maintaining schools for any of grades kindergarten through 6, inclusive, in areas designated pursuant to Section 54482 which have reduced the number of pupils to full-time equivalent classroom teachers in grades kindergarten

through 6, inclusive, in those schools to a ratio of 25 to 1, or better. The grants shall be made for the purposes, and subject to the conditions, following:

For expenditure by the district in areas designated pursuant to Section 54482 for:

(1) Acquisition, by purchase or lease, and the installation and equipping of portable classrooms for classroom instructional purposes.

(2) Acquisition of land for school sites.

(3) Construction and equipping of permanent school buildings and facilities.

(4) Reconstruction, renovation or remodeling of existing school buildings and facilities.

(5) Any combination of the above.

16212. In lieu of grants to districts pursuant to subdivision (1) of Section 6211 for the purpose of acquisition of portable buildings or other facilities and equipment, the board may expend moneys available for grants under this article for the acquisition of portable buildings and facilities and equipment by the state, and thereafter convey the same to the eligible districts. Such conveyance to eligible districts may take the form of sale, lease, outright grant or other suitable form of conveyance, as determined by the board.

16213. In formulating recommendations to the board under this article, the Department of Education, through the Director of Compensatory Education, shall be subject to standards established by rules and regulations of the State Board of Education.

16214. For each school district which receives a grant or allocation pursuant to this article, commencing with the fiscal year next succeeding the fiscal year in which the grant or allocation was received, and for each fiscal year thereafter, the State Controller shall compute an amount equal to one cent (\$.01) on each one hundred dollars (\$100) of the assessed valuation of property within the district. The State Controller shall, during the next fiscal year following that in which he makes the computation pursuant to the preceding sentence of this section, deduct the amount so computed in equal amounts from each of the February, March, April, and May installments of the apportionments made to such district from the State School Fund under Sections 41330 to 41343, or 84320 to 84332, inclusive, and Sections 41600 to 41972, or 84700 to 84874, inclusive, whichever are in effect; and, on order of the State Controller, the amount so deducted shall be transferred to the State School Building Aid Fund. All money transferred to the State School Building Aid Fund under the provisions of this section shall be available only for transfer to the General Fund under the provisions of Section 17204.

The State Controller shall make the computations and deductions required by this section for 30 fiscal years or until such time as the total of the amounts so deducted equal 50 percent of the amount of the grant or allocation which was made to the school district, whichever first occurs.

Notwithstanding any provision of law to the contrary, for each fiscal year for which a computation is made pursuant to the section, the maximum rate of school district tax for the school district for which the computation is made shall be increased by one cent (\$.01) per each one hundred dollars (\$100) of the assessed value of property within the district and shall be in addition to any amount of tax otherwise authorized to be levied, and amounts raised through the levy of such tax may be used to offset any reduction in equalization aid resulting from the deductions made pursuant to this section.

The increase in the maximum school district tax provided by this section shall be deemed to be for bonded debt service or current capital construction. If such 1-cent rate of school district tax levied by the district causes the tax levied by the district for bonded debt service and for current capital construction in the same year to exceed the 40-cent tax amount, as that term is defined by Section 16070 or 16071, whichever is applicable, for each grade level maintained by the district, the State Controller shall not make the deduction otherwise required by this section for such fiscal year.

16215. Sections 16000 to 16006, inclusive, Sections 16009, 16018, and 16021, and Sections 16091 to 16100, inclusive, shall be applicable to the administration of this article, unless the context of this article, as determined by the board, requires otherwise.

#### Article 5. School Housing Aid for Districts Impacted by Seasonal Agricultural Employment

16230. Not to exceed one million five hundred thousand dollars (\$1,500,000) of the amount of the proceeds of bonds issued under the State School Building Aid Bond Law of 1966 which are reserved pursuant to Section 17214 may be expended pursuant to this article.

Nothing in this article shall be construed to sanction, perpetuate or promote the racial or ethnic segregation, or the segregation by economic class, of pupils in the public schools.

The funds shall be expended by the State Allocation Board, for the acquisition of portable school and classroom buildings, and for the expenses incurred in the administration of this article.

The portable school and classroom buildings may be made available by the board, upon the recommendation of the Director of Compensatory Education, to any school district which, because of the influx for temporary periods in the school year of large numbers of persons employed in seasonal agricultural work, experiences emergency increases in school enrollments of such magnitude as to make it impossible or impractical to accommodate the additional pupils in existing school buildings and facilities available to the district.

16231. The portable school and classroom buildings acquired pursuant to this article shall be made available to a school district irrespective of whether the district is otherwise in receipt of or

eligible for assistance under any other provisions of this chapter.

The use of the portable school and classroom buildings may be made available to a school district by letting the same to the district free of charge, or by lease, or by conveying the same to the district under lease-purchase agreement, sale, or outright grant, as determined by the State Allocation Board upon consultation with, and the advice of, the Director of Compensatory Education. In addition the use of the portable school and classroom buildings may be made available to a school district by any of the means specified by Section 16041, as determined by the State Allocation Board upon consultation with, and the advice of, the Director of Compensatory Education.

16232. The use of the portable school and classroom buildings under this article shall be based upon application therefor submitted by the governing board of the school district to the Director of Compensatory Education, who shall review the same, make any modifications he deems appropriate, and transmit the approved application to the State Allocation Board with his recommendations as to the action to be taken thereon.

16233. If at any time the State Allocation Board shall determine that the need of the district for particular portable buildings which are made available to the district pursuant to this article has ceased, the board may take possession of such buildings on behalf of the state, and may dispose of the buildings to public or private parties in such manner and under such terms as it deems to be in the best interests of the state.

16234. Sections 16000 to 16006, inclusive, Sections 16009, 16018, and 16021, and Sections 16091 to 16100, inclusive, shall be applicable to the administration of this article, unless the context of this article, as determined by the board, requires otherwise.

16235. All moneys received from the rental, lease, or sale of portable school and classroom buildings pursuant to this article shall be deposited in the State Treasury and, on order of the State Controller, shall be credited to and in augmentation of the appropriation made by Section 16230.

All such moneys shall be available without regard to fiscal years for repairing, renovating, installing, moving, or maintaining such buildings or for acquiring additional portable school and classroom buildings for the purposes of this article.

#### Article 6. School Housing Aid for a Regional Occupational Center

16250. Not to exceed five million dollars (\$5,000,000) of the amount of the proceeds of bonds issued under the State School Building Aid Bond Law of 1966 may be expended pursuant to this article. The funds shall be allocated by the State Allocation Board to a Joint Powers Board of Education for the construction of a permanent campus for a newly created regional occupation center

school to be located in the south bay area of Los Angeles County, having a population in excess of 1,070,000, and a potential average daily attendance in excess of 10,000 persons. Not to exceed four hundred thousand dollars (\$400,000) of such sum shall be allocated and expended for architectural and engineering services in connection with the construction.

Sections 16000 to 16006, inclusive, Sections 16009, 16018 and 16021, inclusive, shall be applicable to the administration of this article, unless the context of this article, as determined by the board requires otherwise.

16251. The allocation of funds to the entity pursuant to this article shall be conditioned upon the prior approval of the proposed facilities and subject matter of the educational program by the Superintendent of Public Instruction.

16252. It is the intent of the Legislature in enacting this article to finance the capital expenditures involved in the construction, equipping, and establishment, to serve an area in great need of occupational preparation, of a regional occupational center school to be maintained by a Joint Powers Board of Education and entity. It is the further intent of the Legislature to improve the employment opportunities of persons residing in areas of need for said training, by providing educational programs of a nature that will serve the social and economic needs of that area. The program will also serve to upgrade the cultural and intellectual as well as the economic life of the area to be served.

The Legislature finds that the federal government has made available in the south bay area of Los Angeles County land to be used for a regional occupation center school, provided a permanent campus can be established on the land within 18 months. For this reason, it is essential that the money made available for purposes of this article be allocated to the establishment of a permanent campus for a regional occupational center school in the south bay area of Los Angeles County.

16253. (a) Any amounts allocated and disbursed to said Joint Powers Board of Education and entity pursuant to this article shall be a loan by the state to the entity and shall be fully repaid by the entity to the state within 10 years after the date of disbursement to the entity. Interest shall be paid at a rate determined by the board. Any such loan shall be repaid by the entity from proceeds of a tax under provisions of Section 52317, for sites, buildings and equipment, by a maximum tax levy of the assessed valuation of the entity not to exceed five cents (\$.05) on each one hundred dollars (\$100) of assessed valuation in said entity.

(b) The annual repayment shall be determined by agreement between the Director of Finance and the Superintendent of Public Instruction. The tax revenue referred to in subdivision (a) above shall be transferred by the County Auditor of Los Angeles County to the General Fund of the state in accordance with established regulations and procedures.

## Article 6.5. Fontana Occupational and Vocational Center

16255. Not to exceed four million one hundred seventy-eight thousand dollars (\$4,178,000) of the amount of the proceeds of bonds issued under the State School Building Aid and Earthquake Reconstruction and Replacement Bond Law of 1974 shall be allocated by the State Allocation Board to the Fontana Unified School District for the acquisition of a site and the construction of permanent facilities for a new occupational and vocational center to be located in San Bernardino County. The said funds shall be available for allocation to such school district for a period of not more than four years from the effective date of this article and during such period the district shall apply for such funds as are necessary to accomplish the purposes of this article. Funds may be allocated after such four-year period with respect to contracts executed during such four-year period.

Only Sections 16000 to 16006, inclusive, and Sections 16009, 16018, 16019, 16021, 16080, 16089, 16090, 16093, 16094, 16097, and 16099 of Article 1 (commencing with Section 16000) of this chapter shall be applicable to the administration of this article, unless the context of this article, as determined by the State Allocation Board, requires otherwise.

16256. It is the intent of the Legislature in enacting this article to finance the capital expenditures involved in the acquisition of site, construction, equipping, and establishment of an occupational and vocational training center to be maintained by the Fontana Unified School District, to serve an area in great need of occupational preparation. It is the further intent of the Legislature, by this article, to improve the employment opportunities of persons residing in areas of need for such training by providing educational programs of a nature that will serve the social and economic needs of that area. The program provided will also serve to upgrade the cultural and intellectual life, as well as the economic life, of the area to be served.

16257. (a) Any amounts allocated and disbursed to the Fontana Unified School District pursuant to this article shall be fully repaid with interest by the district to the state in 20 equal annual payments commencing with the second fiscal year after the date of disbursement to the district. Interest shall be paid at a rate determined by the State Allocation Board. Any such loan shall be repaid by the district from proceeds of a district tax levied in the manner prescribed in Section 52317, but at a rate on each one hundred dollars (\$100) of assessed valuation in the district sufficient to make the payments required by the board, notwithstanding the limitations contained in Section 52317.

(b) The tax revenue referred to in subdivision (a) shall be transferred by the County Auditor of San Bernardino County to the State Treasury for the credit of the State School Building Aid Fund in accordance with established regulations and procedures.

16258. Funds shall not be made available for allocation under this

article unless, at an election called by the governing board of the district, two-thirds of the qualified electors of the district voting on a proposition therefor have authorized the governing board to accept, expend, and repay as provided in this article such allocation or apportionment. Such election shall be called, held, and conducted in the same manner as are elections to authorize the issuance of school district bonds, except that the ballot shall contain substantially the following words: "Shall the Governing Board of the Fontana Unified School District, for the purpose of providing permanent facilities for a new occupational and vocational center, be authorized to accept, expend, and repay an apportionment from the State of California under and subject to the provisions of Article 6.5 (commencing with Section 16255) of Chapter 8 of Part 10 of Division 1 of Title 1 of the Education Code, in an amount not to exceed \_\_\_\_\_ dollars (\$\_\_\_\_\_). Yes \_\_\_\_ No \_\_\_\_."

16259. On or before the first day of January of each fiscal year, the State Controller shall determine the annual repayment due.

#### Article 7. Children's Center Construction Law of 1968

16260. This article shall be known as the Children's Center Construction Law of 1968.

16261. The Legislature hereby declares that it is in the interest of the state and of the people thereof for the state to provide assistance to school districts and to county superintendents of schools for the construction of children's center facilities. Children's centers are of general concern and interest to all the people of the state, and the education and care of children of working parents are a joint obligation of both the state and local agencies operating children's centers.

In enacting this article, the Legislature considers that the greatest need is to provide children's center facilities for the education and care of children during the time the sole parent is at work making the family economically self-sufficient, or is in school or in training to gain economic self-responsibility. The Legislature recognizes the need to encourage the provision of additional children's center facilities to permit more families to become economically self-sufficient.

16262. The following terms, whether used or referred to in this article, have the following meanings, unless a different meaning clearly appears from the context:

(a) "Local agency" means a school district or a county superintendent of schools operating or authorized to operate a children's center pursuant to this chapter.

(b) "Board" means the State Allocation Board.

(c) "Project" means the purposes for which a local agency has applied for assistance. A project may include the acquisition and improvement of sites, the planning and construction of permanent facilities, and the acquisition of equipment for children's centers.

(d) "Construction of facilities" means construction of permanent facilities which may include leased portable buildings.

16263. This article shall be administered by the State Allocation Board. The board shall adopt such rules and regulations as it deems necessary to carry out the purposes of this article. The rules and regulations of the board shall establish a system of priorities to determine the relative necessity to establish children's center facilities by a local agency. In establishing priorities with regard to the outlay of capital funds for the construction of new children's centers, or with regard to the rental or leasing of facilities for new centers, the board shall give special consideration to school districts as described under subdivision (a) of Section 54425 which are also certified by the State Department of Health as containing substantial numbers of families who are recipients of aid to families with dependent children or who are former or potential recipients of such aid and who might reasonably be expected to improve their ability to be self-supporting if child care services are made available. The Department of Benefit Payments shall provide the State Department of Health with any information in its possession necessary for the administration of this section.

16264. No local agency shall receive an initial allocation from any appropriation made for the purposes of this article more than an amount to be known as the local agency entitlement. This amount shall be computed as follows:

(a) Determine the percentage that the amount apportioned to the local agency in the previous fiscal year for operation purposes pursuant to Section 8380 bears to the total amount allocated to all local agencies under the same section.

(b) Determine the percentage that the statewide modified assessed valuation per average daily attendance for the grade level involved in the previous fiscal year bears to the assessed valuation per unit of average daily attendance of the local agency. Local agencies other than school districts shall use a percentage of 1.00.

(c) Determine the local agency eligibility factor by multiplying the percentage derived in (a) by that derived in (b).

(d) Determine the local agency entitlement by multiplying the district eligibility factor derived in (c) by the amount appropriated for this purpose.

Amounts of the appropriation initially unallocated may be allocated subsequently without regard to the limitation of the local agency entitlement. Amounts of local agency entitlement not applied for within 90 days of the notification of entitlement, and amounts approved pursuant to Section 16268 but not allocated pursuant to Section 16269, and not made available on an extended basis after one year from the date of the original approval, may also be allocated without regard to the limitation of local agency entitlement.

16265. Any local agency operating or authorized to operate a children's center may apply for assistance under this article to

undertake one or more projects. Any local agency not operating a children's center in the prior fiscal year shall have its eligibility and other factors determined by a method similar to that in Section 16264. Reasonable estimates may be used.

16266. Applications for assistance under this article shall be made on forms prescribed and furnished by the board. Such applications shall include, but not be limited to, the following data and information:

- (a) An outline and general description of the project to be undertaken;
- (b) An estimate of the cost of the project to be undertaken and the anticipated source of funds to complete the project;
- (c) The estimated number of children to be served by the project;
- (d) The waiting list of the local agency for children's centers; and
- (e) The amount expended by the local agency from local sources during the past five years for the provision of children's center facilities.

16267. Not more than 25 percent of any funds available under this article for allocation to local agencies under this article shall be allocated for the reconstruction or rehabilitation of existing children's center facilities. Not less than 75 percent of such funds shall be allocated for the planning and construction of new permanent facilities, including acquisition and improvement of sites and acquisition of equipment for such facilities.

16268. The board shall notify a local agency when a preliminary approval of project has been given, and shall reserve from the appropriation made a sum in the amount of the approval given.

16269. Funds allocated for a project shall be disbursed to the local agency upon certification to the Controller when the executive officer of the board has determined both of the following:

- (a) All required approvals of the projects have been granted; and
- (b) The local agency has subsequent to the effective date of this section, committed the expenditure through the granting of a contract or the authorization of an agreement which requires the payment of funds.

16270. In administering this article, the board shall approve the application. The executive officer of the board shall (a) prescribe and furnish application forms and (b) certify to the Controller the allocation of funds to which a local agency is eligible.

16271. All sites, plans, and specifications of the proposed facilities shall be approved by the Department of Education. Prior to such approval, the local agency shall certify to the Department of Education the unavailability of adequate, alternate facilities in the area to be served by the proposed facilities. Such facilities shall include but not be limited to vacant classrooms, auditoriums, multipurpose rooms, church or recreation facilities.

16272. For each one dollar (\$1) of money allocated to a local agency which is expended for a project, the local agency shall expend local funds for such project in an amount which bears the same

percentage to said one dollar (\$1) as the modified assessed valuation per unit of the average daily attendance of the local agency bears to the statewide modified assessed valuation per average daily attendance of all local agencies. Local agencies other than school districts shall use a percentage of 1.00.

(Amended by Stats. 1976, Ch. 1011.)

[ORIGINAL SECTION]

16272. For each one dollar (\$1) of money allocated to a local agency which is expended for a project, the local agency shall expend local funds for such project in an amount which bears the same percentage to said one dollar (\$1) as the modified assessed valuation per unit of the average daily attendance of the local agency bears to the statewide modified assessed valuation per average daily attendance of all local agencies. Local agencies other than school districts shall use a percentage of 1.00.

Local funds may include amounts received from federal sources for children eligible under subdivision (a), (g), or (h) of Section \_\_\_\_\_, or under Section \_\_\_\_\_ or \_\_\_\_\_.

### Article 7.5. Regional Occupational Center of Kern

16280. Not to exceed six million dollars (\$6,000,000) of the amount of the proceeds of bonds issued under the State School Building Aid and Earthquake Reconstruction and Replacement Bond Law of 1974 shall be allocated by the State Allocation Board to the Regional Occupational Center of Kern for the construction and equipping of a new regional occupational center to be located in Kern County. Such funds shall be available for allocation to such entity for a period of not more than four years from the effective date of this article and during such period the entity shall apply for such funds as are necessary to accomplish the purposes of this article. Funds shall be expended after such four-year period with respect to allocations made during such four-year period.

Only Sections 16000, 16001, 16003, 16005, and 16006, and Sections 16009, 16018, 16019, 16021, 16089, 16093, 16094, 16097, and 16099 of Article 1 (commencing with Section 16000) of this chapter shall be applicable to the administration of this article unless the context of this article as determined by the State Allocation Board requires otherwise.

16281. The Legislature finds that the Regional Occupational Center of Kern is comprised of three school districts in Kern County and it provides vocational training in areas of social and economic need. The Legislature further finds that such entity is in need of school building facilities and the participating school districts have levied the permissive override tax authorized by Education Code Section 52317 to meet the cost of such construction. Inflation dictates that construction must begin at the earliest possible time to minimize the overall cost. The Legislature intends, therefore, in enacting this article to make available the necessary funds for immediate construction of the needed school facilities. The Legislature intends, however, that such funds shall be paid back in full with interest as provided by this article so that the taxpayers of this state shall not be

required to pay for the support of such facilities.

16282. Any amounts allocated and disbursed to the Regional Occupational Center of Kern pursuant to this article shall be fully repaid with interest by the entity to the state in 20 equal annual payments commencing with the second fiscal year after the date of disbursement to the entity. Interest shall be paid at a rate determined by the State Allocation Board. Amounts allocated pursuant to this article shall be repaid by the entity from the proceeds of the tax levied by the participating school districts pursuant to Section 52317 and such payments shall be transferred by the County Auditor of Kern County to the State Treasury for the credit of the State School Building Aid Fund in accordance with established regulations and procedures.

16283. If at the time of considering the entity's application the State Allocation Board determines that the revenue to be received from the tax permitted by Section 52317 will be insufficient to pay the principal and interest of the loan in 20 equal annual payments, the board shall approve such application and allocate the funds therefor only upon condition that an election be called by the governing board of the entity and that two-thirds of the qualified electors of the entity voting on a proposition therefor, authorize the governing board to accept, expend and repay as provided in this article such allocation or apportionment. Such election shall be called, held, and conducted in the same manner as are elections to authorize the issuance of school district bonds, except that the ballot shall contain substantially the following words: "Shall the Governing Board of the Regional Occupational Center of Kern, for the purpose of providing permanent facilities for a regional occupational center, be authorized to accept, expend, and repay an apportionment from the State of California under and subject to the provisions of Article 7.5 (commencing with Section 16280) of Chapter 8, Part 10, Division 1, Title 1 of the Education Code, in an amount not to exceed \$\_\_\_\_\_. Yes\_\_\_\_\_ No\_\_\_\_\_"

16284. On or before the first day of January of each fiscal year the State Controller shall determine the annual repayment due.

#### Article 8. School Housing Aid for a Regional Occupational Center in San Joaquin County

16300. Not to exceed two million dollars (\$2,000,000) of the amount of the proceeds of bonds issued under the State School Building Aid Bond Law of 1966 shall be expended pursuant to this article. The funds shall be expended under the administrative direction of the State Allocation Board in cooperation with the Board of Education of the Stockton Unified School District for the construction of a permanent campus for a newly created regional occupational center school to be located in San Joaquin County. Not to exceed two hundred fifty thousand dollars (\$250,000) of such sum shall be allocated and expended for architectural and engineering

services in connection with the construction.

Sections 16000 to 16006, inclusive, and Sections 16009, 16018 and 16021, shall be applicable to the administration of this article, unless the context of this article, as determined by the board, requires otherwise. Except to the extent and for the purposes expressly provided herein, the provisions of other articles in this chapter shall not be applicable hereto.

16301. (a) It is the intent of the Legislature in enacting this article to finance the capital expenditures involved in the construction, equipping, and establishment of a regional occupational center to be maintained by the Stockton Unified School District, to serve an area in great need of occupational preparation. It is the further intent of the Legislature, by this article, to improve the employment opportunities of persons residing in areas of need for such training by providing educational programs of a nature that will serve the social and economic needs of that area. The program provided will also serve to upgrade the cultural and intellectual life, as well as the economic life, of the area to be served.

(b) The governing board of any school district maintaining a high school may, pursuant to Section 52301, cooperate with the Stockton Unified School District in the establishment and maintenance of the regional occupational center.

(c) In conjunction with the regional occupational center, regional occupational programs may be established in the Stockton Unified School District and in participating school districts.

(d) The cooperation in the establishment and maintenance of a regional occupational center pursuant to subdivision (b) and the establishment and maintenance of regional occupational programs pursuant to subdivision (c), may be undertaken pursuant to Article 1 (commencing with Section 6500) of Chapter 5 of Division 7 of Title 1 of the Government Code.

(e) Notwithstanding subdivisions (b), (c), and (d), the Stockton Unified School District has the sole duty to make the repayments to the state specified in subdivision (a) of Section 16302 and the sole duty to the state to operate and manage the regional occupational center and any regional occupational program authorized by this article.

(f) The amount computed for the Stockton Unified School District pursuant to subdivision (a) of Section 42233 shall be deemed to have been increased by the amount raised within the Stockton Unified School District for the support of a regional occupational center and program, except capital outlay expenditures, maintained during the 1972-73 fiscal year by the county superintendents of schools. The other computations required by Article 2 (commencing with Section 42230) of Chapter 7 of Part 24 of Division 3 of Title 2 shall be adjusted to appropriately reflect such increase. The revenue limit applicable to the county superintendent of schools shall be reduced by an amount equal to the increase in the revenue limit of the Stockton Unified School District made pursuant to this subdivision.

16302. (a) On the basis of the benefits to be realized by the citizens of City of Stockton and its environs, and particularly the Stockton Unified School District, as specified in Section 16301, the amount allocated and expended pursuant to this article shall be fully repaid with interest by the district to the state in such annual amounts and over such period as may be determined by the board, not to exceed 20 years from the date of the expenditure. Interest shall be paid at a rate determined by the board. The repayment to the state by the district shall be made from proceeds of a district tax levied in the manner prescribed in Section 52317, but at a rate on each one hundred dollars (\$100) of assessed valuation in the district sufficient to make the payments required by the board, notwithstanding the limitations contained in Section 52317.

(b) The tax revenue referred to in subdivision (a) above shall be transferred by the County Auditor of San Joaquin County to the State Treasury for the credit of the State School Building Aid Fund in accordance with established regulations and procedures.

16303. Notwithstanding anything to the contrary contained in Article 2 (commencing with Section 42230) of Chapter 7 of Part 24 of Division 3 of Title 2, the district tax authorized by subdivision (a) of Section 16302 may be levied and collected for the purposes specified in that subdivision and the proceeds of the tax shall not be included in any computation prescribed by that article.

#### Article 9. School Housing Aid for Rehabilitation and Replacement of Structurally Inadequate School Facilities

16310. Not to exceed thirty million dollars (\$30,000,000) of the proceeds of the sale of bonds authorized by the State School Building Aid Bond Law of 1966 may be expended pursuant to this article.

16311. Not to exceed two hundred fifty million dollars (\$250,000,000) of the proceeds of the sale of bonds authorized by the School Building Aid and Earthquake Reconstruction and Replacement Bond Law of 1972 may be expended pursuant to this article.

16312. The Legislature hereby declares that it is in the interest of the state and the people thereof to provide assistance to school districts in rehabilitating or replacing structurally unsafe school facilities inasmuch as the education of children is an obligation of the state, and such obligation carries with it a corresponding responsibility for the physical safety of children while attending school.

16313. It is the intent of the Legislature in enacting this article to provide a means through repayable state loans for school districts not otherwise eligible for assistance under this chapter (consisting principally of school districts in the urban centers of the state), to house their pupils in facilities that are structurally safe.

16314. The following terms, as used in this article, shall have the

following meanings, unless the State Allocation Board finds a different meaning is essential for properly carrying out the purposes of this article, or finds that a different meaning clearly appears from the context:

(a) "Board" means the State Allocation Board as defined in Article 1 (commencing with Section 16000) of this chapter.

(b) "Director" means the Director of Education or the Board of Governors of the California Community Colleges.

(c) "District" means an elementary, high school, unified school district, or community college district.

(d) "Project" means the purposes for which a district has applied for assistance in the rehabilitation or replacement of unsafe school facilities at a given attendance center.

(e) "Apportionment" means an apportionment made under this article, and unless the context otherwise requires, it shall be deemed to include funds of a district required by the board to be contributed toward the cost of a project.

(f) "Attendance center" means a school maintained or to be maintained at a given location within a district.

16315. The State Allocation Board shall administer this article. The Director of General Services shall provide such assistance to the board as it may require.

16316. In addition to such other powers and duties granted to the board by Article 1 (commencing with Section 16000) of this chapter, the board shall:

(a) Establish such qualifications as it deems will best serve the purposes of this article for determining the eligibility of districts to apportionments under this article.

(b) Establish such procedures and policies in connection with the administration of and expenditure of funds made available for the purpose of this article as it deems necessary.

(c) Adopt such rules and regulations for the administration of this article, requiring such procedure, forms, and information as it may deem necessary.

16317. The board, by the adoption of rules, shall give priority in allocating funds to districts which will benefit most from the reconstruction or replacement of schoolhouse facilities. This priority may be based on the age and structural safety of existing buildings at the school or schools where the construction or reconstruction will occur, acuteness of overcrowding and density of population in the attendance areas affected, or such other factors as will insure that the greatest need will be served in allocating funds under this article.

16318. The board shall prescribe instructions specifying the manner in which property, real or personal, being replaced through the apportionment, shall be disposed of, and compliance with the instructions shall be a condition upon the making of the apportionment. The net proceeds derived from such a disposition shall be contributed in reduction of any apportionment proportionate to the state's participating in the project. Any school

district affected shall comply with instructions prescribed by the board. The board may require a district to transfer to the state by any instruments deemed appropriate by the board, title to any such property, whereupon, the board shall dispose of the property in any manner it deems appropriate to insure the highest return to the state, and apply the applicable proceeds therefrom in reduction of apportionments to the district. The district affected shall do all things deemed necessary by the board to implement such disposition.

16319. Apportionments under this article from the State School Building Aid Fund shall be made for the sole purpose of reconstructing or replacing existing substandard buildings that present a potential threat to the safety of schoolchildren and which do not comply with the requirements of Article 3 (commencing with Section 39140) of Chapter 2 of Part 23 of Division 3 of Title 2 or Article 7 (commencing with Section 81130) of Chapter 1 of Part 49 of Division 7 of Title 3 or for the purpose of restoring facilities damaged by an earthquake after February 1, 1971, and for which there are no other state or federal funds available for such restoration. Such apportionments shall be made in the manner and subject to the conditions herein provided and in accordance with policies adopted by the board for the following purposes, all of which purposes are declared to be, and are, public works:

(a) The reconstruction, renovation, or remodeling of existing school buildings and facilities.

(b) The construction of permanent or temporary school buildings and facilities for replacement purposes.

(c) The acquisition, by purchase or lease, and the installation of classrooms for replacement purposes.

(d) The acquisition and development of school sites necessary for construction of buildings approved under this article.

(e) The construction, repair, attachment, or development of offsite facilities, utilities or improvements which the board determines are necessary to the proper operation or functioning of the school facilities for which apportionments are made.

(f) The acquisition of such additional furniture and equipment as is deemed necessary by the board to make the rehabilitated or replaced facilities properly function.

(g) Any combination of the above.

Except as is provided in Section 16320, apportionments shall not be made under this article for the purpose of reconstructing or replacing existing substandard buildings which have already been reconstructed or replaced using funds made available under Chapter 1575 of the Statutes of 1947, as amended, or Chapter 5 (commencing with Section 15500), Chapter 6 (commencing with Section 15700), and Chapter 8 (commencing with Section 16000) of this part.

As a part of such purposes, where a district is required by a contract entered into between itself and a contractor, to obtain at its own expense insurance covering risks incurred during any construction, reconstruction, or alteration for which an apportionment has been

made, the cost thereof may be paid either directly, or by way of reimbursement, to the district out of the apportionment, or out of any apportionment made specifically covering such insurance; provided, that in other respects the apportionments are eligible for payment under provisions of this chapter.

16320. Notwithstanding the provisions of Section 16319, apportionments under this article from the proceeds of bonds remaining from the authorization provided in the State School Building Aid Bond Law of 1966 may be made for the purposes of (1) reconstructing or replacing existing substandard school buildings or high school dormitories that present a potential threat to the safety of schoolchildren and which were not previously constructed or reconstructed in accordance with the requirements of Article 3 (commencing with Section 39140) of Chapter 1 of Part 23 of Division 3 of Title 2 or which if previously reconstructed to comply with the provisions of said Article 4, no longer meet the standards of structural safety prescribed under the authority of Article 4 in effect on April 10, 1933, or (2) reconstructing or replacing existing structures utilized by a school district as school buildings originally designed to house the United States Cavalry and used as World War II prisoner-of-war camp structures or an existing structure utilized by a school district as a school building which was originally designed as a mess facility for the United States Army Air Corps without regard to conditional or provisional structural approvals received by the district with respect to such buildings prior to the enactment of Chapter 500 of the Statutes of 1972.

Apportionments for the reconstruction or replacement of a dormitory shall only be made when the use and occupancy of the dormitory will be by resident pupils of the district who are in attendance at the high school of the district and when in the judgment of the board such pupils cannot be reasonably expected to travel by vehicle to the school on a daily basis.

16321. Notwithstanding the provisions of Section 16319, apportionments under this article from the proceeds of bonds remaining from the authorization provided in the State School Building Aid Bond Law of 1966 may be made for the purpose of replacing school buildings severely damaged by an earthquake in Sonoma County subsequent to September 30, 1969, and subsequently demolished by the school district in the interest of safety to the children, but not yet replaced by permanent facilities.

16321.5. Notwithstanding the provisions of Section 16319, 16326 and 16330, whenever a school district has had an application approved on July 16, 1974, for reconstruction of structurally inadequate facilities and the school site is one which is located in the Alquist-Priolo Geologic Hazards Zone of the San Andreas Fault and has been deemed by the Office of Architecture in the Department of General Services to be suitable only for low, compact, well-designed temporary school building structures not exceeding two classrooms in size and if there is more than reasonable doubt that

subsurface exploration, including trenching and test borings, could provide conclusive proof that the site would not be damaged by ground rupture in the event of a future major earthquake, then the application of the district and any apportionment made thereon shall be considered as including the acquisition of a new site and construction of new facilities thereon rather than reconstruction of the inadequate facilities on the unsafe site.

In such case the application may be revised and apportionments made to replace all existing permanent facilities which were previously constructed pursuant to Article 3 (commencing with Section 39140) of Chapter 1 of Part 23 of Division 3 of Title 2 on the new site and to move and reestablish all district-owned portable buildings on the new site, provided that in lieu of the construction and equipping of any portion of the permanent facilities for purposes other than classrooms, the board may, upon application of the district, apportion funds to remodel and equip any of such portables for such purposes, and to construct any portion of such permanent facilities as classrooms. The entire cost of replacing the buildings formerly constructed pursuant to Article 3 (commencing with Section 39140) of Chapter 1 of Part 23 of Division 3 of Title 2 and the moving or remodeling and equipping, as the case may be, of the district-owned portable facilities may be met only with apportionments from the unassigned balance from thirty million dollars (\$30,000,000) appropriated from the School Building Safety Fund by Chapter 500 of the Statutes of 1972 and conditioned upon the district levying the twenty-cent (\$.20) tax rate permitted under Section 39230 during the 1975-76 fiscal year and applying the proceeds therefrom as matching funds to the application. The net proceeds of the sale of the unsafe site shall be applied as a reduction in the apportionments made.

This section is repealed on July 1, 1976, and shall have no force or effect thereafter.

16322. The Department of Education shall provide the following services to school districts making applications for apportionments under this article:

(a) It shall assist school districts in organizing a comprehensive planning effort. It shall guide a planning process through its appropriate steps and, when requested by a school district, it shall provide the school district with sources of expertise, either public or private, which may be able to contribute to the development of plans to find solutions for specific problems a school district may have.

(b) It shall provide continuing research in relation to all phases of educational programs and the school facilities that are required to implement these educational programs.

(c) It shall provide a review and evaluation service to school districts to assure the effectiveness of the facilities that have been provided in accommodating educational programs.

(d) It shall provide communication media through publications and seminars, and prepare planning guides and procedures

containing recommendations, which guides shall be used to disseminate educational planning information to all school districts.

Unless specifically exempted by the State Allocation Board, each school district which files an application for an apportionment of funds under this article after July 1, 1973, shall prepare and submit to the board either, (1) a long-range comprehensive master plan justifying the application, prepared in accordance with acceptable planning procedures, or (2) a certification to the effect that replacement school buildings for which application has been made will all be located on existing school sites containing a school building or buildings, or (3) a certification that the applicant school maintains only one school. Specific information relating to the following factors must be included in the master plan:

(a) A statement of the educational programs and goals of the district in relation to its programs, both current and future.

(b) A comprehensive evaluation and report of the utilization of the school facilities now existing in the district together with preliminary plans of the facilities to be reconstructed or replaced under this article, prepared in accordance with the requirements of Section 39148 or 81138.

(c) A comprehensive demographic study of the district, as it currently exists and as projected into the future.

(d) A policy statement regarding actual or potential human problems.

(e) A policy statement as to the priority in which the district proposes to solve its school housing problems.

(f) A policy statement regarding cooperation with other local public agencies to achieve total community development.

(g) A policy to insure continuous review so that plans will be kept up to date and changing conditions will be reviewed and accommodated by appropriate revision of plans.

The director shall review the long-range master plan and project development plan and shall report his findings and recommendations thereon to the board. The board shall in no instance approve an application or make an apportionment therefor until it has determined to its satisfaction that the facility for which the apportionment is sought is justified by an appropriate estimate of average daily attendance and location within the district.

16323. Each school district which desires an apportionment shall submit through its governing board to the board an application therefor in such form and number of copies as the board shall prescribe. Each copy of the application shall be accompanied by a statement of the estimated cost of the project certified by an architect or structural engineer, and by layout plans showing the entire construction project for which the district desires an apportionment.

Estimates of costs for new construction or equipment appearing in an application shall conform to cost standards adopted by the board under Section 16024.

A school district shall not let any contract for new construction included in an application for a construction project which has been approved by the board if the cost exceeds the construction cost standards fixed by the board under Section 16024 for such new construction by more than 2 percent or except as otherwise provided in Section 16024. The amount, if any, by which the contract cost exceeds the construction cost standards fixed by the board shall be borne by the school district and shall not be included in the apportionment.

A school district may at any time amend or supplement its application.

Each construction project for which a district applies for an apportionment shall be applied for on a separate application and shall be considered separately by the board. If a district applies for more than one construction project, at the same time or at different times, the priority points of the district shall be recalculated after the approval of each separate construction project and before a subsequent construction project is approved.

The board shall require such changes in the plans which an applicant school district submits with its application as the board determines is necessary or desirable to reduce the cost of the project.

16324. A school district may at any time file an application or amend or supplement an application. Upon receipt of any application, the Director of General Services shall as promptly as possible prepare a report and recommendation with respect to the application after having received recommendations from the director in respect to any matter which is subject to the jurisdiction or approval of the director or Department of Education. The board shall, subject to the provisions of this article, approve, in whole or in part, or reject each application referred to it by the Director of General Services. If the board approves of the application, either in whole or in part, it shall, by a resolution adopted by it, apportion to the district from the State School Building Aid Fund the amount applied for, or such portion thereof as the board may determine appropriate; provided, that it may order that the apportionment or any part thereof shall be paid in progressive installments at such times and under such conditions as it may then prescribe. This shall be known as a conditional apportionment and shall become final only if the vote provided for in Section 16327 is favorable and if the county superintendent of schools furnishes a certificate satisfactory to the board certifying that there is on deposit in the state school building fund of the district the amount of district funds which, when added to the apportionment computed under Section 16330, will equal the estimated cost of the project approved under Section 16323.

Unless the board has received the certificates of the county superintendent of schools required by this section within nine months from the date of the conditional apportionment, it shall, at the expiration of the nine-month period, void the conditional apportionment and shall certify this fact to the State Controller. Each

final apportionment made by the board under this article, shall be certified by it to the State Controller who shall from time to time draw his warrant on the State Treasurer in favor of the county treasurer of the county having jurisdiction over the district in accordance with the terms of such final apportionment. The warrant shall be exempt from the provisions of Division 4 (commencing with Section 16100) of Title 2 of the Government Code and shall be paid by the State Treasurer from the State School Building Aid Fund.

16325. The board may, upon approval of the application, in whole or in part, and subsequently from time to time, make a conditional apportionment or conditional apportionments not exceeding in the aggregate the total amount approved for the application from the State School Building Aid Fund for such portion or portions of the project for which the board determines the district is ready to proceed. If the board has approved an application and made an apportionment as to a portion or portions of a project, the board may approve the remaining portion or portions of the project and make an additional apportionment or apportionments as it deems appropriate.

If the board determines that the actual cost is in excess of the estimated cost of the specific school plant facilities or sites for which an apportionment to a district has been made, or for which a district's application has been approved in whole or in part pursuant to this section, the board may make an additional apportionment to such district in an amount equal to such excess even though such additional apportionment will result in the total apportionments to the district exceeding the amount of the application originally approved by the board.

Approval of an application under this section shall not be construed as creating or implying any obligation, commitment or promise on the part of the board or the state to make apportionments under this chapter.

16326. The amount of new building area for which an apportionment may be made for the purpose of replacing unsafe school buildings shall be computed in accordance with regulations adopted by the board. Such regulation shall be based upon the number of units of average daily attendance which were housed in the unsafe buildings being replaced and the building area limitations contained in Sections 16047, 16052, 16053, 16054 and 16055 together with any adjustments necessary to alleviate hardships occurring as a result of only partial replacement of an entire attendance center. In no event shall an apportionment be made for new building area the chargeable area of which exceeds the chargeable area of the unsafe buildings being replaced. The chargeable area of any school building shall be computed in the uniform manner prescribed by the board.

16327. No payment of funds may be made pursuant to an apportionment unless the district holds an election at which the electorate of the district approve the acceptance, expenditure, and repayment of at least the amount apportioned pursuant to this

article. The election may be held prior to or subsequent to an apportionment. If the electors voting at such election fail to approve the proposition by the same majority required at a district bond election, within nine months from the date of the apportionment, the apportionment and the board's approval of the application become null and void.

Notwithstanding the foregoing, an election held prior to the effective date of Article 9 (commencing with Section 16310) of this chapter, pursuant to Section 16058, is valid for the purposes of the foregoing paragraph, provided that the district is not otherwise eligible to receive apportionments under Article 1 (commencing with Section 16000), Article 2 (commencing with Section 16150), and Article 3 (commencing with Section 16190) of this chapter.

16328. No apportionment shall be made to a district for the construction, reconstruction, or alteration of, or addition to, school buildings if the requirements prescribed by this code for the construction of school buildings are not met by the plans for the entire building program of the district in connection with which the district applied for an apportionment.

16329. Payment shall be made in accordance with the terms of an apportionment, either directly or by way of reimbursement, to a school district for expenditures, or commitments therefor, which have been made by the district subsequent to the effective date of this article for any items approved by the board in such apportionment; provided, however, that where expenditures were made for, or work was commenced with respect to, any item so approved, prior to the time the application of such district containing such item was received by the board, payment or reimbursement for such item, either with state funds or with district funds which the district is required to contribute by the apportionment, shall be made only upon authorization of the board by special resolution citing this section.

16330. The amount of the apportionment to a school district from the State School Building Aid Fund shall initially be computed by the board as follows:

(a) Determining the ratio which the school district's assessed valuation per pupil for the grade level of the project application bears to the statewide assessed valuation per pupil in that grade level, for the preceding fiscal year.

(b) Subtracting the amount computed under (a) from four.

(c) Dividing the amount computed under (b) by four plus the ratio which the school district's assessed valuation per pupil for the grade level of the project application bears to the statewide assessed valuation per pupil for that grade level, for the preceding fiscal year, which computation shall be denoted the "basic computed state matching ratio of assistance."

(d) The computation prescribed by subdivisions (a), (b), and (c) may be diagrammed as follows, with "A.V." representing the words "assessed valuation," and "a.d.a." representing the words "average

daily attendance.”

$$\begin{array}{l} \text{Basic computed} \\ \text{state matching} \\ \text{ratio of assistance} \end{array} = \frac{4 - \frac{\text{District A.V. per a.d.a.}}{\text{Statewide A.V. per a.d.a.}}}{4 + \frac{\text{District A.V. per a.d.a.}}{\text{Statewide A.V. per a.d.a.}}}$$

(e) The basic computed state matching ratio of assistance for a grade level of a school district shall not be less than 25 percent nor more than 80 percent of the cost of any specific project.

(f) When the final eligible costs of a project have been determined pursuant to the audit prescribed in Sections 16340 and 16099, the amount of the basic computed state matching ratio of assistance to the district shall be adjusted accordingly.

16331. A school district may obtain local funds to match the state assistance with any combination of funds available as follows:

(a) Through the issuance of school district bonds.

(b) Through the levy and collection of school district taxes. For such purposes proceedings may be undertaken pursuant to Section 85112 to increase the maximum tax rate of the district by the amount deemed necessary to produce the required funds. The proceeds of any such increase in the maximum tax rate shall be used exclusively for projects for which an apportionment or apportionments have been made under this article.

(c) Through the levy and collection of school district taxes as authorized by Section 39230 or 81180.

(d) From any other fund available for capital outlay purposes.

16332. Whenever a school district determines that it is in its best interest to provide facilities on a given school site in addition to those contained in the approved application, it may do so, with any excess funds it has available for capital outlay purposes, beyond those required under this article, by adding such excess funds to the total cost of the project. There shall be no penalties imposed under this article as a result of such expenditures.

16333. Whenever a school district has received an apportionment or apportionments of funds pursuant to Chapter 6 (commencing with Section 15700) or Chapter 8 (commencing with Section 16000) of this part, and, through the issuance of bonds, uses such bond proceeds as its source of funds to match its share of the eligible project cost of any project for which an apportionment of funds is made under this article, the amount of such bond funds shall be considered eligible bonded debt service in the computations made by the Director of General Services prescribed in Sections 15729 and 15730 and in Sections 16070 to 16090, inclusive.

16334. The interest on apportionments made under this article shall be established by the board, with the approval of the Director of General Services, as follows:

(1) The interest rate applicable to apportionments made pursuant to Article 1 (commencing with Section 16000) and determined in accordance with Section 16065 shall be established as of June 30 of each year.

(2) The applicable interest rate on June 30 shall apply to apportionments made under this article in the ensuing fiscal year, July 1 through June 30.

(3) Interest on the apportionment shall be compounded annually through the 30th day of June of each year.

16335. Each district to which an apportionment or apportionments has been made under this article shall repay the principal amount of such apportionment or apportionments and the accrued interest thereon in 20 equal annual payments. The first payment shall be made in the second fiscal year following the year in which the apportionment is made. In any year in which the equal annual repayment exceeds that amount which seventeen and one-half cents (\$.175) per one hundred dollars (\$100) of assessed valuation for each grade level (i.e. elementary, high school or community college) operated by the district would raise during the year of the computation, the repayment shall be reduced to the amount which the seventeen and one-half cents (\$.175) for each grade level would so raise. The amount of the reduction in computed repayment shall be canceled on the books of the State Controller. If more than one apportionment is made the annual amount payable shall be the sum of the amounts which would be payable on each amount if computed separately.

On or before the first day of January of each fiscal year the State Controller shall determine the annual repayment, if any, to be due from each district during the next succeeding fiscal year. The computation and collection procedures shall be in accordance with Sections 16080, 16089, and 16090.

16336. Notwithstanding any provisions of this article, any school district which has levied the entire twenty-cent (\$.20) tax rate per one hundred dollars (\$100) of assessed valuation permitted under Section 39230 or 81180 and has declared the entire proceeds therefrom available as local matching funds for a particular project, but lacks sufficient matching funds for such project as required under this article, may file an application thereunder prior to January 1, 1974. Under such circumstances the board may increase the basic computed state matching ratio of assistance in such amount, which, when added to the sum of the entire proceeds of the twenty-cent (\$.20) tax rate and such other funds which in the opinion of the board is or can be made currently available for the project, including funds authorized by the electors from bonds or otherwise, would be necessary to construct minimum essential facilities for the project as determined by the board. Not more than forty-five million dollars (\$45,000,000) available for the purposes of this article may be apportioned for increases in the basic computed state matching ratio pursuant to this section. The source of the forty-five million dollars (\$45,000,000) apportioned for this purpose shall be thirty million dollars (\$30,000,000) previously appropriated for this purpose from the School Building Safety Fund by Chapter 500 of the Statutes of 1972, plus an additional fifteen million dollars

(\$15,000,000) of bond funds remaining from the State School Building Aid Bond Law of 1966.

16337. Notwithstanding any provisions of this article, where less than thirty million dollars (\$30,000,000) has been apportioned or otherwise reserved by the board pursuant to Section 16336 on January 1, 1973, the board shall apportion as grants the remainder thereof under this section for matching purposes pursuant to this article to districts which the board determines has the greatest need. Such apportionments under this section may be made only to those districts (1) which would not have been eligible to apply under Section 16336 if they had levied the entire twenty-cent (\$.20) tax rate specified therein, and (2) which have filed an application by January 1, 1973 and received an apportionment under this article from the board by February 28, 1973.

16338. In the case of a school district which maintains only one school, or a high school district which has applied for an apportionment under this article for the rehabilitation or replacement of not more than one school, there may be included in apportionments made to eligible school districts under Section 16336 or 16337, amounts needed for the purpose of renting or leasing for up to two years temporary or portable school buildings, and necessary sites therefor, to house pupils temporarily displaced by the rehabilitation or replacement of unsafe school facilities if, in the judgment of the State Allocation Board, there are no other practical means of housing the pupils of the school during the period in which the reconstruction or replacement of unsafe school facilities is taking place, or if the nearest school to which pupils may be assigned during the period of construction is 10 or more miles in distance from the school being rehabilitated or replaced.

This section shall remain in effect only until July 1, 1976, and as of such date is repealed, unless a later enacted statute, which is chaptered before that date, deletes or extends such date.

16339. Notwithstanding any provisions of this article or Section 16336 thereof to the contrary, any school district which lacks sufficient matching funds for a particular project or projects, as required under this article, may file an application and the board may approve a project or projects conditioned upon the district levying, in the 1974-75 fiscal year, the entire twenty-cent (\$.20) tax rate per one hundred dollars (\$100) of assessed valuation permitted under Section 39230 or 81180 and applying the proceeds of such levy as local matching funds for such project or projects.

Under such circumstances, provided such applicant district was not eligible to receive a grant under the provisions of Section 16337, the board may increase the basic computed state matching ratio of assistance in such amount, which, when added to the sum of the entire proceeds of the twenty-cent (\$.20) tax rate and such other funds which in the opinion of the board are or can be made currently available for the project or projects, would be necessary to construct minimum essential facilities for the project or projects as determined

by the board. Not more than nineteen million dollars (\$19,000,000) of the proceeds of the sale of bonds authorized by Section 16310, may be apportioned pursuant to this section and in augmentation of the forty-five million dollars (\$45,000,000) made available under Section 16336.

16339.5. Notwithstanding any provisions of this article to the contrary, any district which does not have sufficient matching funds for a particular project as required under this article may file an application under Section 16339, and the board may approve the project conditioned upon the district levying in the 1975-76 fiscal year the entire twenty-cent (\$.20) tax rate per one hundred dollars (\$100) of the assessed valuation permitted under Section 39230.1 in lieu of the tax authorized by Section 16339 and applying the entire proceeds of such levy as local matching funds for such project providing:

(a) The district has levied a tax at the rate of at least ten cents (\$.10) per one hundred dollars (\$100) of assessed valuation of the tax permitted under Section 39230 for the 1973-74 fiscal year and of at least nine cents (\$.09) per one hundred dollars (\$100) of assessed valuation of the tax permitted under Section 39230 for the 1974-75 fiscal year.

(b) The district has sold the facilities to be replaced to a county prior to June 1972, but continued to use the facilities after the sale until June 1972.

16339.6. Notwithstanding any provisions of this article or Sections 16336 and 16339 thereof to the contrary, any school district, which has issued at least thirty-seven million dollars (\$37,000,000) in bonds for the purpose of replacing structurally unsafe buildings and which lacks sufficient matching funds for a particular project or projects, as required under this article, may apply and the board may approve, a project or projects conditioned upon the district having levied or being required to levy, in the fiscal years 1974-75, 1975-76, and 1976-77, the entire twenty-cent (\$.20) tax rate per one hundred dollars (\$100) of assessed valuation permitted under Section 39230 and applying the entire proceeds therefrom as local matching funds to an eligible project or projects.

Under such circumstances, the board may increase the basic computed state matching ratio of assistance in such amount which, when added to the sum of (1) the entire proceeds which have been collected from the aforementioned twenty-cent (\$.20) tax levies at the time of the application and not yet applied as matching funds to previously approved projects and (2) such other funds which in the opinion of the board are or can be made currently available for the project or projects, would be necessary to construct minimum essential facilities for the project or projects as determined by the board. Not more than six million dollars (\$6,000,000) of the proceeds of the sale of bonds authorized by Section 16310, may be apportioned pursuant to this section.

16340. Sections 16006, 16017, 16021, 16066, 16088, 16091, and 16093

to 16100, inclusive, shall be applicable to the administration of this article unless the context of this article as determined by the board, requires otherwise.

16341. Whenever a school district receives or has received an apportionment under this article for the purchase of a site which contains existing improvements, the board may require the district to dispose of such existing improvements as a condition of receiving an apportionment in such manner as the board deems proper. Whenever a district sells, leases or disposes of any site acquired under an apportionment or any improvements appurtenant to any site so acquired it shall contribute a portion of the net proceeds therefrom or the value of any consideration received therefor, in reduction of any apportionment, such portion being proportionate to the state's participation in the project.

16342. To determine the effect of school housing aid for reorganized districts, the applicable portions of Article 2 (commencing with Section 16150) of this chapter shall apply.

16343. Whenever a conditional apportionment has, prior to January 1, 1976, been made to an applicant school district pursuant to this chapter and thereafter the county superintendent of schools of the county having jurisdiction over such district has certified to the board and the State Controller that at an election called, held and conducted in the district for that purpose, the qualified electors of the district voting thereat authorized the governing board of the applicant school district, by the same majority vote required at a district bond election, to accept, expend and repay an apportionment under the provisions of this chapter, and whenever thereafter said county superintendent of schools has certified to the board and the State Controller that the amount of bonds, if any, required by the board, as a condition to the apportionment becoming final, have been issued and sold and the proceeds thereof made available for the purposes of the application and the board has certified to the State Controller that the apportionment to the applicant school district has become final, such final apportionment is hereby confirmed, ratified, and validated, and any expenditure of money from the State School Building Aid Fund or the School Building Safety Fund according to the terms of such final apportionment is hereby confirmed, ratified, and validated.

16344. Notwithstanding the provisions of Section 16319, if a school district otherwise eligible to receive an apportionment under this article operates sufficient continuous school programs (as defined in Chapter 5 (commencing with Section 37600) of Part 22 of Division 3 of Title 2)) to provide housing for students displaced from structurally inadequate facilities, the costs of modifying any existing facilities necessary for the implementation of such continuous school programs shall be eligible, upon the review and recommendation of the Department of Education, for an apportionment under this article from the proceeds of bonds remaining from the authorization provided in the State School Building Aid Law of 1966.

## Article 10. Santa Cruz Regional Occupation Center

16380. Not to exceed two million dollars (\$2,000,000) of the amount of the proceeds of bonds issued under the State School Building Aid and Earthquake Reconstruction and Replacement Bond Law of 1972 may be expended pursuant to this article. The funds shall be allocated by the State Allocation Board to the Santa Cruz County Career Education Center Joint Power Board, hereafter referred to as the entity, for the establishment and construction of a permanent campus for a regional occupational center, or regional occupational program, to be located in Santa Cruz County, such facility to be operated and maintained by the County Superintendent of Schools of Santa Cruz County and the Cabrillo Community College District. The said funds shall be available for allocation to such entity for a period of not more than three years from the effective date of this article and during such period the entity shall apply for such funds as are necessary to accomplish the purposes of this article. No funds shall be made available for allocation until the voters of the territory to be affected have approved of the repayment of such funds pursuant to Section 16385.

Only Sections 16000 to 16006, inclusive, and Sections 16009, 16018, 16021, 16080, 16089, 16090, 16093, 16094, 16097, and 16099 shall be applicable to the administration of this article except to the extent that the context of this article, as determined by the State Allocation Board, requires otherwise.

16381. It is the intent of the Legislature in enacting this article to make available the necessary funds for the construction, equipping, and establishment of a regional occupational center facility to be used both by the high schools of Santa Cruz County and the Cabrillo Community College District, but to be maintained by the entity, to serve an area in great need of occupational preparation. It is further the intent of the Legislature by enacting this article, to improve the employment opportunities of persons residing in Santa Cruz County by providing educational programs in areas of social and economic need. The program provided will also serve to upgrade the cultural and intellectual life, as well as the economic life, of the area to be served.

16382. Any amounts allocated and disbursed to the entity pursuant to this article shall be a loan by the state to the entity and shall be fully repaid with interest in 20 equal annual payments commencing with the second fiscal year after the date of disbursement. Interest shall be paid at a rate determined by the State Allocation Board pursuant to Section 16065.

16383. On or before the first day of December of each fiscal year, the Director of General Services shall determine and certify to the State Controller the ratio of the assessed valuation of each participating school district, including the Cabrillo Community College District, to twice the assessed valuation of the entire area encompassed by the boundaries of the territory under the

jurisdiction of the entity.

16384. On or before the first day of January of each fiscal year, the State Controller shall determine the annual repayment due and shall compute that portion of such amount applicable to each participating school district, including the Cabrillo Community College District, in accordance with the ratio certified under Section 16383. Each participating school district shall be individually liable for repayment of the amount so computed.

The county superintendent of schools shall reimburse each participating school district for all amounts repaid by them pursuant to this article and may levy a tax under the authority of Section 2503 for this purpose.

Such tax may be levied and collected notwithstanding any limitation prescribed by Article 1 (commencing with Section 2500) of Chapter 12 of Part 2 of this division or by Chapter 3 (commencing with Section 2201) of Part 4 of Division 1 of the Revenue and Taxation Code.

16385. (a) The County Superintendent of Schools of Santa Cruz County shall order a special election to be held in the territory to be affected by the provisions of this article. The special election shall be held in order to give the electors of the territory affected an opportunity to approve or disapprove of a ballot proposition as provided by subdivision (b).

(b) The ballot proposition used in the election shall contain the words "For the repayment of not to exceed \$\_\_\_\_\_ (amount of repayment) for the establishment of the Santa Cruz Regional Occupational Center" followed by the words "Yes" and "No" so placed that the voter may clearly indicate his choice.

16386. If at least two-thirds of the electors voting on the ballot proposition, as provided by subdivision (b) of Section 16385, vote "Yes", then the entity shall be permitted to establish the Santa Cruz Regional Occupational Center.

#### CHAPTER 9. STATE SCHOOL BUILDING AID BOND LAW OF 1952

16400. For the purpose of creating a fund to provide aid to school districts of the state, the State School Building Finance Committee, created by Section 15909, shall be and it hereby is authorized and empowered to create a debt or debts, liability or liabilities, of the State of California in the manner and to the extent hereinafter provided, but not otherwise, nor in excess thereof. The State School Building Finance Committee is continued in existence for the purposes of this chapter. The Members of the Legislature of such committee constitute an interim investigating committee on the subject of this chapter and as such shall have the powers and duties imposed upon such committees by the Joint Rules of the Senate and the Assembly.

16401. After the approval by the people of the constitutional amendment of the 1952 Second Extraordinary Session of the

Legislature adding Section 2 to Article XVI of the Constitution of the state, and immediately after adoption of any resolution by the State School Building Finance Committee, provided for in Section 16412, the State Treasurer shall arrange for the preparation of the requisite number of suitable bonds of the denomination of one thousand dollars (\$1,000), or multiples thereof, in accordance with the specifications contained in such resolution. The aggregate par value of all bonds issued under this chapter shall not exceed the sum of one hundred eighty-five million dollars (\$185,000,000) and shall bear interest at a rate not exceeding 5 percent per annum. Both principal and interest shall be payable in lawful money of the United States, at the office of the State Treasurer, or at the office of any duly authorized agent of the State Treasurer.

All bonds issued under this chapter shall bear the facsimile signature of the Governor and the facsimile countersignature of the Controller and shall be endorsed by the State Treasurer either by original signature or by a signature stamp, and the bonds shall be signed, countersigned, and endorsed by the officers who shall be in office on the date of issuance thereof, and each of said bonds shall bear an impress of the Great Seal of the State of California. Interest coupons attached to each bond shall bear the facsimile signature of the State Treasurer who shall be in office on the date of issuance of the bond to which said coupons pertain. The bonds or coupons so signed, countersigned, endorsed, and sealed, when sold, shall be and constitute a valid and binding general obligation upon the State of California, although the sale thereof be made at a date or dates upon which the officers having signed, countersigned, and endorsed said bonds or coupons, or any or either of said officers, shall have ceased to be the incumbents of the offices held by them at the time of signing, countersigning, or endorsing said bonds or coupons. Each bond issue under this chapter shall contain a clause or clauses referring to this chapter and to the resolutions of the State School Building Finance Committee hereunder by virtue of which said bond is issued, and if subject to call or redemption prior to maturity, shall contain a recital to that effect.

16402. The State Treasurer shall, on the respective dates of maturity or prior redemption of said bonds, or as soon thereafter as said bonds are surrendered to him, pay the same out of the proceeds of the Controller's warrants drawn in his favor as provided in Section 16403 and perforate the bonds so paid with a suitable device in a manner to indicate such payment on the date thereof. The State Treasurer, or his duly authorized agent, shall also, on the respective dates of maturity, cancel all bonds and appurtenant coupons bearing said dates of maturity and remaining unsold, by perforation with a suitable device in a manner to indicate such cancellation and the date thereof; provided, however, new bonds may be prepared and executed in lieu of bonds canceled solely by reason of the fact that such bonds have not been sold prior to their fixed maturity dates, whenever the State School Building Finance Committee shall

determine such new bonds shall be prepared and executed, subject to the condition the total indebtedness created hereunder shall not exceed the maximum limit herein specified. Not less than four years after the final maturity date of a particular issue of bonds, the State Treasurer, or his duly authorized agent, may destroy or cremate any bonds of such issue which have been previously paid or canceled as hereinbefore provided.

16403. All bonds herein authorized, which shall have been duly sold and delivered as herein provided, shall constitute valid and legally binding general obligations of the State of California, and the full faith and credit of the State of California is hereby pledged for the punctual payment of both principal and interest thereof. There is hereby appropriated from the General Fund in the State Treasury such sum annually as will be necessary to pay the principal of and the interest on the bonds issued and sold pursuant to the provisions of this chapter, as said principal and interest become due and payable.

There shall be collected annually in the same manner and at the same time as other state revenue is collected such a sum, in addition to the ordinary revenues of the state, as shall be required to pay the principal and interest on said bonds as herein provided, and it is hereby made the duty of all officers charged by law with any duty in regard to the collection of said revenue, to do and perform each and every act which shall be necessary to collect such additional sum.

On the several dates of maturity of said principal and interest in each fiscal year, there shall be transferred to the General Fund in the State Treasury, on order of the State Controller, all of the money in the State School Building Aid Fund which was transferred into or deposited in said fund in accordance with the provisions of Section 16080, together with all of the money deposited in the State School Building Aid Fund under Section 16406 which was derived from premium and accrued interest on bonds sold pursuant to said Section 16406; but the amount to be transferred to the General Fund pursuant to this section shall not exceed the principal of and interest on the said bonds then due and payable, except as hereinafter provided for the prior redemption of said bonds, and, in the event such money so returned on said dates of maturity being less than the said principal and interest then due and payable, then the balance remaining unpaid shall be returned into the General Fund in the State Treasury out of said State School Building Aid Fund as soon thereafter as it shall become available.

Both principal and interest of said bonds shall be paid when due upon warrants duly drawn against said appropriation from the General Fund by the State Controller in favor of the State Treasurer, or his duly authorized agent, upon claims audited by the State Controller. The State Allocation Board, by resolution approved by the State School Building Finance Committee, shall direct the State Treasurer to call bonds (which are then subject to redemption) if such call is desirable and whenever funds are available to effect such redemption, the part of each issue so called to be not less than all of

the bonds maturing in any one year. Notice of such redemption shall be given by the State Treasurer in the manner provided in the resolution authorizing the issuance of said bonds.

16404. All money deposited in the State School Building Aid Fund under Section 16080 shall be available only for transfer to the General Fund, as provided in Section 16403. When transferred to the General Fund, such money shall be applied as a reimbursement to the General Fund on account of principal and interest due and payable or paid from the General Fund on the earliest issue of school building bonds for which the General Fund has not been fully reimbursed by such transfer of funds.

16405. The sum of seventy-five thousand dollars (\$75,000) was appropriated, by Chapter 28 of the Statutes of 1952 (Second Extraordinary Session), out of the General Fund to be used as a revolving fund to pay the expenses incurred by the State Treasurer in having said bonds prepared and in advertising their sale or their prior redemption. Whenever bond are sold, out of the first money realized from the sale of said bonds, there shall be redeposited in the revolving fund such sum as the State Treasurer has expended for the purpose, which may be used for the same purpose and repaid in the same manner whenever additional sales are made. Whenever all the bonds authorized by this chapter have been sold, said revolving fund shall be refunded to the General Fund in the State Treasury.

16406. The bonds authorized to be issued under this chapter shall be sold by the State Treasurer to the highest bidder for cash at public sale upon sealed bids in such parcels and numbers as the State Treasury shall be directed by the Governor of the state, under seal thereof, but the State Treasurer must reject any and all bids for said bonds, or for any of them, which shall be below the par value of said bonds so offered plus the interest which shall have accrued thereon between the date of purchaser's payment for said bonds and the last preceding interest maturity date; and the State Treasurer may from time to time, by public announcement at the place and time fixed for the sale, continue such sale, as to the whole of the bonds offered, or any part thereof offered, at such time and place as the State Treasurer may select. Each bid shall be in writing and signed by the bidder and sealed, and shall be accompanied by the deposit of a certified check or cashier's check for five thousand dollars (\$5,000), drawn on a bank or trust company authorized to transact and transacting business in the State of California, payable to the Treasurer of the State of California, such deposit not to bear interest. The deposit of each unsuccessful bidder shall be returned to him immediately upon the nonacceptance of his bid, and a deposit of the successful bidder shall immediately upon the acceptance of his bid become and be the property of the State of California and be placed in the State Treasury to the credit of the State School Building Aid Fund, and shall be credited to the successful purchaser upon the purchase price of the bonds bid for in case such purchase price is paid in full by him within the time mutually agreed upon between the

successful bidder and the State Treasurer. If the purchase price is not so paid, the successful bidder shall have no right in and to said bonds or by reason of said bid, or to the recovery of said deposit accompanying said bid, or to any allowance or credit by reason of such deposit unless it shall appear that the bonds would not be validly issued if delivered to the purchaser in the form and manner proposed. In case the purchase price is not so paid, the bonds so sold but not paid for shall be resold by the State Treasurer upon notice as provided in case of original sale.

Temporary or interim bonds, certificates, or receipts of any denomination whatever and with or without coupons attached thereto, to be signed by the State Treasurer, may be issued and delivered until the definitive bonds are executed and available for delivery. Signature of the State Treasurer may be by signature stamp.

16407. All money deposited in the State School Building Aid Fund under the provisions of Section 16406 which is derived from premium and accrued interest on bonds sold pursuant to said section shall be reserved in said fund and shall be available only for transfer to the General Fund, as provided by Section 16403. When transferred to the General Fund, such money shall be applied as a reimbursement to the General Fund on account of principal and interest due and payable or paid from the General Fund on the particular issue of school building bonds from the sale of which such premium and accrued interest were derived.

16408. Due notice of the time and place of sale of all bonds shall be given by the State Treasurer by publication in one newspaper published in the City and County of San Francisco, by publication in one newspaper published in the City of Sacramento, and by publication in one newspaper published in the City of Los Angeles pursuant to Section 6066 of the Government Code. In addition to the notice last above provided for, the State Treasurer may give further notice as he may deem advisable, but the expense and cost of such additional notice shall not exceed the sum of five hundred dollars (\$500) for each sale so advertised. The proceeds of the sale of such bonds and such amount as may have been paid as accrued interest thereon shall be forthwith paid over by the State Treasurer into the State School Building Aid Fund and must be used exclusively to aid school districts of the state in purchasing and improving school sites, the purchasing of furniture and equipment for schools, and the planning and constructing, reconstructing, repairing, alteration of, and making additions to, school buildings; provided, that the proceeds from the sale of said bonds may be used to pay the debt created by the issuance and sale thereof, the expense of preparing and of advertising the sale or prior redemption of said bonds, and the actual and necessary expenses of the State School Building Finance Committee.

16409. Upon request of the State Allocation Board, supported by a statement of the apportionments made and to be made under

Article 1 (commencing with Section 16000) to Article 3 (commencing with Section 16190), inclusive, of Chapter 8 of this part the State School Building Finance Committee shall determine whether or not it is necessary or desirable to issue any bonds authorized under this chapter in order to make such apportionments, and, if so, the amount of bonds then to be issued and sold. A sufficient number of bonds authorized under this chapter shall be issued and sold so that twenty million dollars (\$20,000,000) will be available for apportionment on May 5, 1953, or as soon thereafter as such bonds can be issued and sold, and so that five million dollars (\$5,000,000) additional will become available for apportionment on June 5, 1953 and on the fifth day of each month thereafter until a total amount of one hundred sixty-five million dollars (\$165,000,000) has become available for apportionment. The remainder of the bonds, or so many thereof as may be necessary shall be issued and sold as provided in Section 16410. Successive issue of bonds may be authorized and sold to make such apportionments progressively, and it shall not be necessary that all of the bonds herein authorized to be issued shall be sold at any one time.

16410. The Director of Finance shall define and determine the surplus which exists in the General Fund as of June 30, 1953. If the estimated surplus so determined is less than five million dollars (\$5,000,000), the School Building Finance Committee shall issue and sell sufficient bonds, in an amount to the nearest one thousand dollars (\$1,000) but not in excess of twenty million dollars (\$20,000,000), to provide a surplus of five million dollars (\$5,000,000) in the General Fund, and the proceeds of the bonds so issued and sold shall be deposited in the General Fund.

16411. Notwithstanding the provisions of Section 16410, upon order of the Director of Finance, made when in his opinion such action is necessary to meet the needs of the General Fund, the State School Building Finance Committee shall issue and sell bonds in the amount of twenty million dollars (\$20,000,000) authorized by Article XVI, Section 2 of the Constitution. Proceeds of such bonds shall be used to repay the money appropriated from the General Fund at the 1952 Second Extraordinary Session for state school building aid, and shall be deposited in the General Fund.

The Legislature hereby declares that it has authority by virtue of Section 2 of Article XVI of the Constitution to authorize the sale of bonds referred to in the preceding paragraph irrespective of the adoption of the constitutional amendment of the 1958 First Extraordinary Session of the Legislature adding Section 2 to Article XVI of the Constitution, which confirms such authority.

16412. Whenever the State School Building Finance Committee shall have determined that the sale of all or any part of the bonds authorized to be issued under this chapter is necessary or desirable to make such apportionments, in whole or in part, it shall adopt a resolution to this effect. The said resolution shall authorize and direct the State Treasurer to provide for the preparation of the requisite

number of suitable bonds then authorized to be sold and shall specify as to such bonds then to be sold:

1. The aggregate number, aggregate par value, and the date of the bonds to be then sold. The date appearing on said bonds shall be deemed to be the date of issuance for all purposes of this chapter, irrespective of the actual date of delivery of such bonds and the payment of the purchase price thereof. Successive issues of bonds herein authorized shall be identified by the number of the issue, or the entire authorized issue may be divided into series or divisions appropriately identified by letter or number.

2. The date or dates of maturity, and the number and numerical sequence of the bonds maturing at each date of maturity, to be at annual or semiannual intervals.

3. The provisions for the retirement of said bonds at any time or times prior to their maturity, the manner of the call thereof, and the price or prices at which said bonds shall be redeemed.

4. The annual rate, or rates, of interest which the bonds to be issued shall bear, to be in multiples of one-fourth of 1 percent, which rate, or rates, at the discretion of said committee may be determined by the bidder at the time of sale of said bonds, not to exceed 5 percent.

5. The number, numerical sequence, amount or amounts, and dates of maturity of the interest coupons to be attached to said bonds.

6. The technical form and language of said bonds and of the interest coupons to be attached thereto.

In determining the date or dates of maturity of the said bonds and the amount of bonds maturing at each date of maturity, the State School Building Finance Committee shall be guided by the amounts and dates of maturity of the receipts estimated to accrue to the State School Building Aid Fund from the transactions to be financed by each issue, and shall fix and determine said dates and amounts in such manner that, together with the dates and amounts of interest payments on the said bond issue, they shall coincide, as nearly as practicable, with the dates and amounts of such estimated receipts; provided, the bonds first to mature in each issue shall mature not later than five years and the bonds last to mature in each issue shall mature not later than 45 years from the date of issuance thereof.

The rate of interest to be borne by the bonds need not be uniform for all bonds of the same issue or series or division, and may be determined and fixed by the State School Building Finance Committee by resolution adopted at or after the sale of said bonds, but not exceeding in any case 5 percent per annum payable semiannually. The highest bid received on the sale of the bonds shall be determined by deducting the total amount of the premium bid (if any) from the total amount of interest which the state would be required to pay from the date of sale to the respective maturity dates of the bonds then offered for sale at the coupon rate or rates specified in the bid and the award shall be made on the basis of the lowest net interest cost to the state. The lowest net interest cost to the state shall

be computed between the dates aforesaid according to standard bond interest tables. The interest coupons first payable may, if the State School Building Finance Committee shall so determine and specify, be payable at any time within one year after the date of issuance of said bonds.

16413. All actual and necessary expenses of the State School Building Finance Committee and the legislative interim committee and of the members thereof incurred in the performance of their duties arising out of the provisions of this chapter shall be paid out of the State School Building Aid Fund, upon approval of the State Board of Control and on Controller's warrant duly drawn for that purpose.

Whenever the State School Building Finance Committee deems that it will increase the salability or the price of the bonds to obtain a legal opinion as to the validity of the bonds, prior to or after sale, from attorneys other than the Attorney General, the committee may authorize the State Treasurer or the Department of Finance or both to obtain such a legal opinion. Payment for such legal services shall be made from the State School Building Aid Fund, upon approval of the State Board of Control and on Controller's warrant duly drawn for that purpose.

16414. The Controller, the State Treasurer and the State School Building Finance Committee shall keep full and particular account and record of all their proceedings under this chapter and they shall transmit to the Governor an abstract of all such proceedings hereunder, with an annual report, to be by the Governor laid before the Legislature biennially; and all books and papers pertaining to the matter provided for in this chapter shall at all times be open to the inspection of any party interested, or the Governor, or the Attorney General, or a committee of either branch of the Legislature, or a joint committee of both, or any citizen of the state.

#### CHAPTER 10. STATE SCHOOL BUILDING AID BOND LAW OF 1954

16500. This chapter may be cited as the State School Building Aid Bond Law of 1954.

16501. The State General Obligation Bond Law is adopted for the purpose of the issuance, sale, and repayment of, and otherwise providing with respect to, the bonds authorized to be issued by this chapter, and the provisions of that law are included in this chapter as though set out in full in this chapter. All reference in this chapter to "herein" shall be deemed to refer both to this chapter and such law.

16502. As used in this chapter, and for the purposes of this chapter as used in the State General Obligation Bond Law, the following words shall have the following meanings:

(a) "Committee" means State School Building Finance Committee, created by Section 15909.

(b) "Board" means State Allocation Board.

(c) "Fund" means State School Building Aid Fund.

16503. For the purpose of creating a fund to provide aid to school districts of the state in accordance with the provisions of the State School Building Aid Law of 1952, and of all acts amendatory thereof and supplementary thereto, the committee shall be and is hereby authorized and empowered to create a debt or debts, liability or liabilities, of the State of California, in the aggregate amount of one hundred million dollars (\$100,000,000) in the manner provided herein, but not otherwise nor in excess thereof.

16504. All bonds herein authorized, which shall have been duly sold and delivered as herein provided, shall constitute valid and legally binding general obligations of the State of California, and the full faith and credit of the State of California is hereby pledged for the punctual payment of both principal and interest thereof. There is hereby appropriated from the General Fund in the State Treasury such sum annually as will be necessary to pay the principal of and the interest on the bonds issued and sold pursuant to the provisions of this chapter, as said principal and interest become due and payable.

There shall be collected annually in the same manner and at the same time as other state revenue is collected such a sum, in addition to the ordinary revenues of the state, as shall be required to pay the principal and interest on said bonds as herein provided, and it is hereby made the duty of all officers charged by law with any duty in regard to the collection of said revenue, to do and perform each and every act which shall be necessary to collect such additional sum.

On the several dates of maturity of said principal and interest in each fiscal year, there shall be transferred to the General Fund in the State Treasury, all of the money in the fund, not in excess of the principal of and interest on the said bonds then due and payable, except as herein provided for the prior redemption of said bonds, and, in the event such money so returned on said dates of maturity is less than the said principal and interest then due and payable, then the balance remaining unpaid shall be returned into the General Fund in the State Treasury out of the fund as soon thereafter as it shall become available.

16505. All money deposited in the fund under Section 16080 of this code and Article 4.5 (commencing with Section 16480) of Chapter 3, Part 2, Division 4, Title 2 of the Government Code shall be available only for transfer to the General Fund, as provided in Section 16504. When transferred to the General Fund such money shall be applied as a reimbursement to the General Fund on account of principal and interest due and payable or paid from the General Fund on the earliest issue of school building bonds for which the General Fund has not been fully reimbursed by such transfer of funds.

16506. The sum of seventy-five thousand dollars (\$75,000) was appropriated, by Chapter 41 of the Statutes of 1954 (Extraordinary Session), out of the General Fund to be used as a revolving fund to pay the expenses incurred by the State Treasurer in having the bonds

prepared and in advertising their sale or their prior redemption, for expenses incurred by the committee pursuant to Government Code Section 16758, and for legal services, upon approval of the State Board of Control, pursuant to Government Code Section 16760. Whenever bonds are sold, out of the first money realized from their sale, there shall be redeposited in the revolving fund such sums as have been expended for the above purposes, which may be used for the same purpose and repaid in the same manner whenever additional sales are made. Whenever all the bonds authorized by this chapter have been sold, the amount of the appropriation made by this section shall revert to the unappropriated surplus in the General Fund.

16507. For the purposes of carrying out the provisions of this chapter the Director of Finance may by executive order authorize the withdrawal from the General Fund of an amount or amounts not to exceed the amount of the unsold bonds which the committee has by resolution authorized to be sold for the purpose of carrying out this chapter, and the amount necessary to carry out this chapter is hereby appropriated. The appropriation made by this section is made without regard to fiscal years. Any amounts withdrawn shall be deposited in a revolving fund to be allocated by the board in accordance with this chapter. Any moneys made available under this section to the board shall be returned by the board to the General Fund from moneys received from the sale of bonds sold for the purpose of carrying out this chapter.

16508. Upon request of the board, supported by a statement of the apportionments made and to be made under Article 1 (commencing with Section 16000) to Article 3 (commencing with Section 16190), inclusive, of Chapter 8 of this part the committee shall determine whether or not it is necessary or desirable to issue any bonds authorized under this chapter in order to make such apportionments, and, if so, the amount of bonds then to be issued and sold. A sufficient number of bonds authorized under this chapter shall be issued and sold so that five million dollars (\$5,000,000) will be available for apportionment on November 5, 1955, or as soon thereafter as such bonds can be issued and sold, and so that five million dollars (\$5,000,000) additional will become available for apportionment on December 5, 1955, and on the fifth day of each month thereafter until a total amount of one hundred million dollars (\$100,000,000) has become available for apportionment. Successive issue of bonds may be authorized and sold to make such apportionments progressively, and it shall not be necessary that all of the bonds herein authorized to be issued shall be sold at any one time.

16509. In any resolution determining that the sale of all or any part of the bonds herein authorized is necessary or desirable, the committee may in its discretion adopt provisions for the interexchange of bonds of different denominations, the issuance of new bonds of different denominations in lieu of, or in exchange for,

bonds of a like aggregate principal amount but of different denominations, and the authentication of any bonds by the State Controller or by any deputy state controller. If authentication is so required, no bond authorized herein shall be valid unless so authenticated in the manner so required.

16510. In computing the net interest cost under Section 16754 of the Government Code, interest shall be computed from the date of the bonds or the last preceding interest payment date, whichever is latest, to the respective maturity dates of the bonds then offered for sale at the coupon rate or rates specified in the bid, such computation to be made on a 360-day year basis.

16511. The committee may authorize the State Treasurer to sell all or any part of the bonds herein authorized at such time or times as may be fixed by the State Treasurer, and no direction of the Governor shall be required. The provisions of Sections 16750 and 16754 of the Government Code respecting the direction of the Governor shall not be applicable to such sale.

16512. All proceeds from the sale of the bonds herein authorized deposited in the fund, as provided in Section 16757 of the Government Code, except those derived from premium and accrued interest, shall be available for the purpose herein provided, but shall not be available for transfer to the General Fund pursuant to Section 16504 to pay principal and interest on bonds other than bonds herein authorized.

16513. With respect to the proceeds of bonds authorized by Section 2, Article XVI of the California Constitution, all the provisions of Article 1 (commencing with Section 16000) to Article 3 (commencing with Section 16190), inclusive, of Chapter 8 of this part shall apply except:

(a) Any reference in Article 1 (commencing with Section 16000) to Article 3 (commencing with Section 16190), inclusive, of Chapter 8 of this part, to "Section 2, Article XVI of the Constitution of this state" shall be deemed a reference to "Section 2, Article XVI of the Constitution of this state."

(b) Any reference in Article 1 (commencing with Section 16000) to Article 3 (commencing with Section 16190), inclusive, of Chapter 8 of this part, to "Section 16403" shall be deemed a reference to "Section 16504."

#### CHAPTER 11. STATE SCHOOL BUILDING AID BOND LAW OF 1957

16600. This chapter may be cited as the State School Building Aid Bond Law of 1957.

16601. The State General Obligation Bond Law is adopted for the purpose of the issuance, sale, and repayment of, and otherwise providing with respect to, the bonds authorized to be issued by this chapter, and the provisions of that law are included in this chapter as though set out in full in this chapter. All references in this chapter

to "herein" shall be deemed to refer both to this chapter and such law.

16602. As used in this chapter, and for the purposes of this chapter as used in the State General Obligation Bond Law, the following words shall have the following meanings:

(a) "Committee" means State School Building Finance Committee, created by Section 15909.

(b) "Board" means State Allocation Board.

(c) "Fund" means State School Building Aid Fund.

16603. For the purpose of creating a fund to provide aid to school districts of the state in accordance with the provisions of the State School Building Aid Law of 1952, and of all act amendatory thereof and supplementary thereto, the committee shall be and is hereby authorized and empowered to create a debt or debts, liability or liabilities, of the State of California, in the aggregate amount of one hundred million dollars (\$100,000,000) in the manner provided herein, but not otherwise nor in excess thereof.

16604. All bonds herein authorized, which shall have been duly sold and delivered as herein provided, shall constitute valid and legally binding general obligations of the State of California, and the full faith and credit of the State of California is hereby pledged for the punctual payment of both principal and interest thereof. There is hereby appropriated from the General Fund in the State Treasury such sum annually as will be necessary to pay the principal of and the interest on the bonds issued and sold pursuant to the provisions of this chapter, as said principal and interest become due and payable.

There shall be collected annually in the same manner and at the same time as other state revenue is collected such a sum, in addition to the ordinary revenues of the state, as shall be required to pay the principal and interest on said bonds as herein provided, and it is hereby made the duty of all officers charged by law with any duty in regard to the collection of said revenue, to do and perform each and every act which shall be necessary to collect such additional sum.

On the several dates of maturity of said principal and interest in each fiscal year, there shall be transferred to the General Fund in the State Treasury, all of the money in the fund, not in excess of the principal of and interest on the said bonds then due and payable, except as herein provided for the prior redemption of said bonds, and, in the event such money so returned on said dates of maturity is less than the said principal and interest then due and payable, then the balance remaining unpaid shall be returned into the General Fund in the State Treasury out of the fund as soon thereafter as it shall become available.

16605. All money deposited in the fund under Section 16080 of this code and Article 4.5 (commencing with Section 16480) of Chapter 3, Part 2, Division 4, Title 2 of the Government Code shall be available only for transfer to the General Fund, as provided in Section 16604. When transferred to the General Fund such money shall be applied as a reimbursement to the General Fund on account

of principal and interest due and payable or paid from the General Fund on the earliest issue of school building bonds for which the General Fund has not been fully reimbursed by such transfer of funds.

16606. The sum of seventy-five thousand dollars (\$75,000) was appropriated, by Chapter 18 of the Statutes of 1957 out of the General Fund to be used as a revolving fund to pay the expenses incurred by the State Treasurer in having the bonds prepared and in advertising their sale or their prior redemption, for expenses incurred by the committee pursuant to Government Code Section 16758, and for legal services, upon approval of the State Board of Control, pursuant to Government Code Section 16760. Whenever bonds are sold, out of the first money realized from their sale, there shall be redeposited in the revolving fund such sums as have been expended for the above purposes, which may be used for the same purpose and repaid in the same manner whenever additional sales are made. Whenever all the bonds authorized by this chapter have been sold, the amount of the appropriation made by this section shall revert to the unappropriated surplus in the General Fund.

16607. For the purposes of carrying out the provisions of this chapter the Director of Finance may by executive order authorize the withdrawal from the General Fund of an amount or amounts not to exceed the amount of the unsold bonds which the committee has by resolution authorized to be sold for the purpose of carrying out this chapter, and the amount necessary to carry out this chapter is hereby appropriated. The appropriation made by this section is made without regard to fiscal years. Any amounts withdrawn shall be deposited in a revolving fund to be allocated by the board in accordance with this chapter. Any moneys made available under this section to the board shall be returned by the board to the General Fund from moneys received from the sale of bonds sold for the purpose of carrying out this chapter.

16608. Upon request of the board, supported by a statement of the apportionments made and to be made under Article 1 (commencing with Section 16000) to Article 3 (commencing with Section 16190), inclusive, of Chapter 8 of this part, the committee shall determine whether or not it is necessary or desirable to issue any bonds authorized under this chapter in order to make such apportionments, and, if so, the amount of bonds then to be issued and sold. A sufficient number of bonds authorized under this chapter shall be issued and sold so that fifteen million dollars (\$15,000,000) will be available for apportionment on July 5, 1957, or as soon thereafter as such bonds can be issued and sold, and so that five million dollars (\$5,000,000) additional will become available for apportionment on August 5, 1957, and on the fifth day of each month thereafter until a total amount of one hundred million dollars (\$100,000,000) has become available for apportionment. Successive issue of bonds may be authorized and sold to make such apportionments progressively, and it shall not be necessary that all

of the bonds herein authorized to be issued shall be sold at any one time.

16609. In any resolution determining that the sale of all or any part of the bonds herein authorized is necessary or desirable, the committee may in its discretion adopt provisions for the interexchange of bonds of different denominations, the issuance of new bonds of different denominations in lieu of, or in exchange for, bonds of a like aggregate principal amount but of different denominations, and the authentication of any bonds by the State Controller or by any deputy state controller. If authentication is so required, no bond authorized herein shall be valid unless so authenticated in the manner so required.

16610. In computing the net interest cost under Section 16754 of the Government Code, interest shall be computed from the date of the bonds or the last preceding interest payment date, whichever is latest, to the respective maturity dates of the bonds then offered for sale at the coupon rate or rates specified in the bid, such computation to be made on a 360-day year basis.

16611. The committee may authorize the State Treasurer to sell all or any part of the bonds herein authorized at such time or times as may be fixed by the State Treasurer, and no direction of the Governor shall be required. The provisions of Sections 16750 and 16754 of the Government Code respecting the direction of the Governor shall not be applicable to such sale.

16612. All proceeds from the sale of the bonds herein authorized deposited in the fund, as provided in Section 16757 of the Government Code, except those derived from premium and accrued interest, shall be available for the purpose herein provided, but shall not be available for transfer to the General Fund pursuant to Section 16604 to pay principal and interest on bonds other than bonds herein authorized.

16613. With respect to the proceeds of bonds authorized by Section 2, Article XVI of the California Constitution, all the provisions of Article 1 (commencing with Section 16000) to Article 3 (commencing with Section 16190), inclusive, of Chapter 8 of this part shall apply except:

(a) Any reference in Article 1 (commencing with Section 16000) to Article 3 (commencing with Section 16190), inclusive, of Chapter 8 of this part, to "Section 2, Article XVI of the Constitution of this state" shall be deemed a reference to "Section 2, Article XVI of the Constitution of this state."

(b) Any reference in Article 1 (commencing with Section 16000) to Article 3 (commencing with Section 16190), inclusive, of Chapter 8 of this part, to "Section 16403" shall be deemed a reference to "Section 16604."

## CHAPTER 12. STATE SCHOOL BUILDING AID BOND LAW OF 1958

16700. This chapter may be cited as the State School Building Aid Bond Law of 1958.

16701. The State General Obligation Bond Law is adopted for the purpose of the issuance, sale, and repayment of, and otherwise providing with respect to, the bonds authorized to be issued by this chapter and the provisions of that law are included in this chapter as though set out in full in this chapter. All references in this chapter to "herein" shall be deemed to refer both to this chapter and such law.

16702. As used in this chapter, and for the purposes of this chapter as used in the State General Obligation Bond Law, the following words shall have the following meanings:

(a) "Committee" means State School Building Finance Committee, created by Section 15909.

(b) "Board" means State Allocation Board.

(c) "Fund" means State School Building Aid Fund.

16703. For the purpose of creating a fund to provide aid to school districts of the state in accordance with the provisions of Article 1 (commencing with Section 16000) to Article 3 (commencing with Section 16190), inclusive, of Chapter 8 of this part and of all acts amendatory thereof and supplementary thereto, and to provide funds in the total amount of thirty million dollars (\$30,000,000) for transfer to the Investment Fund pursuant to Chapter 15 of the 1958 First Extraordinary Session, the committee shall be and is hereby authorized and empowered to create a debt or debts, liability or liabilities, of the State of California, in the aggregate amount of two hundred twenty million dollars (\$220,000,000) in the manner provided herein, but not otherwise nor in excess thereof.

16704. All bonds herein authorized, which shall have been duly sold and delivered as herein provided, shall constitute valid and legally binding general obligations of the State of California, and the full faith and credit of the State of California is hereby pledged for the punctual payment of both principal and interest thereof. There is hereby appropriated from the General Fund in the State Treasury such sum annually as will be necessary to pay the principal of and the interest on the bonds issued and sold pursuant to the provisions of this chapter, as said principal and interest become due and payable.

There shall be collected annually in the same manner and at the same time as other state revenue is collected such a sum, in addition to the ordinary revenues of the state, as shall be required to pay the principal and interest on said bonds as herein provided, and it is hereby made the duty of all officers charged by law with any duty in regard to the collection of said revenue, to do and perform each and every act which shall be necessary to collect such additional sum.

On the several dates of maturity of said principal and interest in each fiscal year, there shall be transferred to the General Fund in the State Treasury, all of the money in the fund, not in excess of the

principal of and interest on the said bonds then due and payable, except as herein provided for the prior redemption of said bonds, and, in the event such money so returned on said dates of maturity is less than the said principal and interest then due and payable, then the balance remaining unpaid shall be returned into the General Fund in the State Treasury out of the fund as soon thereafter as it shall become available.

16705. All money deposited in the fund under Section 16080 of this code and pursuant to the provisions of Part 2, commencing with Section 16300, of Division 4, Title 2 of the Government Code, shall be available only for transfer to the General Fund, as provided in Section 16704. When transferred to the General Fund such money shall be applied as a reimbursement to the General Fund on account of principal and interest due and payable or paid from the General Fund on the earliest issue of school building bonds for which the General Fund has not been fully reimbursed by such transfer of funds.

16706. The sum of seventy-five thousand dollars (\$75,000) was appropriated, by Chapter 98 of the Statutes of 1958 (First Extraordinary Session) out of the General Fund to be used as a revolving fund to pay the expenses incurred by the State Treasurer in having the bonds prepared and in advertising their sale or their prior redemption, for expenses incurred by the committee pursuant to Government Code Section 16758, and for legal services, upon approval of the State Board of Control, pursuant to Government Code Section 16760. Whenever bonds are sold, out of the first money realized from their sale, there shall be redeposited in the revolving fund such sums as have been expended for the above purposes, which may be used for the same purpose and repaid in the same manner whenever additional sales are made. Whenever all the bonds authorized by this chapter have been sold, the amount of the appropriation made by this section shall revert to the unappropriated surplus in the General Fund.

16707. For the purposes of carrying out the provisions of this chapter the Director of Finance may by executive order authorize the withdrawal from the General Fund of an amount or amounts not to exceed the amount of the unsold bonds which the committee has by resolution authorized to be sold for the purpose of carrying out this chapter, and the amount necessary to carry out this section is hereby appropriated. The appropriation made by this section is made without regard to fiscal years. Any amounts withdrawn shall be deposited in a revolving fund to be allocated by the board in accordance with this chapter. Any moneys made available under this section to the board shall be returned by the board to the General Fund from moneys received from the sale of bonds sold for the purpose of carrying out this chapter.

16708. Upon request of the board, supported by a statement of the apportionments made and to be made under Article 1 (commencing with Section 16000) to Article 3 (commencing with

Section 16190), inclusive, of Chapter 8 of this part, the committee shall determine whether or not it is necessary or desirable to issue any bonds authorized under this chapter in order to make such apportionments, and, if so, the amount of bonds then to be issued and sold. A sufficient number of bonds authorized under this chapter shall be issued and sold so that in addition to the amount to be transferred to the Investment Fund pursuant to Chapter 15 of the 1958 First Extraordinary Session, the sum of eight million dollars (\$8,000,000) will be available for apportionment on January 5, 1959, or as soon thereafter as such bonds can be issued and sold, and so that eight million dollars (\$8,000,000) additional will become available for apportionment on February 5, 1959, and on the fifth day of each month thereafter until a total amount of one hundred ninety million dollars (\$190,000,000) has become available for apportionment. Successive issue of bonds may be authorized and sold to make such apportionments progressively, and it shall not be necessary that all of the bonds herein authorized to be issued shall be sold at any one time.

16709. In any resolution determining that the sale of all or any part of the bonds herein authorized is necessary or desirable, the committee may in its discretion adopt provisions for the interexchange of bonds of different denominations, the issuance of new bonds of different denominations in lieu of, or in exchange for, bonds of a like aggregate principal amount but of different denominations, and the authentication of any bonds by the State Controller or by any deputy state controller. If authentication is so required, no bond authorized herein shall be valid unless so authenticated in the manner so required.

16710. In computing the net interest cost under Section 16754 of the Government Code, interest shall be computed from the date of the bonds or the last preceding interest payment date, whichever is latest, to the respective maturity dates of the bonds then offered for sale at the coupon rate or rates specified in the bid, such computation to be made on a 360-day year basis.

16711. The committee may authorize the State Treasurer to sell all or any part of the bonds herein authorized at such time or times as may be fixed by the State Treasurer, and no direction of the Governor shall be required. The provisions of Sections 16750 and 16754 of the Government Code respecting the direction of the Governor shall not be applicable to such sale.

16712. All proceeds from the sale of the bonds herein authorized deposited in the fund, as provided in Section 16757 of the Government Code, except those derived from premium and accrued interest, shall be available for the purpose herein provided, but shall not be available for transfer to the General Fund pursuant to Section 16704 to pay principal and interest on bonds.

16713. With respect to the proceeds of bonds authorized by Section 2, Article XVI of the California Constitution, all the provisions of Article 1 (commencing with Section 16000) to Article

3 (commencing with Section 16190), inclusive, of Chapter 8 of this part shall apply except:

(a) Any reference in Article 1 (commencing with Section 16000) to Article 3 (commencing with Section 16190), inclusive, of Chapter 8 of this part to "Section 16.5, Article XVI of the Constitution of this state" shall be deemed a reference to "Section 2, Article XVI of the Constitution of this state."

(b) Any reference in Article 1 (commencing with Section 16000) to Article 3 (commencing with Section 16190), inclusive, of Chapter 8 of this part to "Section 16403" shall be deemed a reference to "Section 16704."

### CHAPTER 13. STATE SCHOOL BUILDING AID BOND LAW OF 1960

16800. This chapter may be cited as the State School Building Aid Bond Law of 1960.

16801. The State General Obligation Bond Law is adopted for the purpose of the issuance, sale, and repayment of, and otherwise providing with respect to, the bonds authorized to be issued by this chapter, and the provisions of that law are included in this chapter as though set out in full in this chapter. All references in this chapter to "herein" shall be deemed to refer both to this chapter and such law.

16802. As used in this chapter, and for the purposes of this chapter as used in the State General Obligation Bond Law, the following words shall have the following meanings:

(a) "Committee" means State School Building Finance Committee, created by Section 15909.

(b) "Board" means State Allocation Board.

(c) "Fund" means State School Building Aid Fund.

16803. For the purpose of creating a fund to provide aid to school districts of the state in accordance with the provisions of the State School Building Aid Law of 1952, and of all acts amendatory thereof and supplementary thereto, and to provide funds in the total amount of twenty million dollars (\$20,000,000) to repay any money appropriated and transferred from the General Fund for state school building aid pursuant to any law enacted for such purposes at the 1960 First Extraordinary Session, the committee shall be and is hereby authorized and empowered to create a debt or debts, liability or liabilities, of the State of California, in the aggregate amount of three hundred million dollars (\$300,000,000) in the manner provided herein, but not otherwise nor in excess thereof.

16804. All bonds herein authorized, which shall have been duly sold and delivered as herein provided, shall constitute valid and legally binding obligations of the State of California, and the full faith and credit of the State of California is hereby pledged for the punctual payment of both principal and interest thereof. There is hereby appropriated from the General Fund in the State Treasury such sum annually as will be necessary to pay the principal of and the

interest on the bonds issued and sold pursuant to the provisions of this chapter, as said principal and interest become due and payable.

There shall be collected annually in the same manner and at the same time as other state revenue is collected such a sum, in addition to the ordinary revenues of the state, as shall be required to pay the principal and interest on said bonds as herein provided, and it is hereby made the duty of all officers charged by law with any duty in regard to the collection of said revenue, to do and perform each and every act which shall be necessary to collect such additional sum.

On the several dates of maturity of said principal and interest in each fiscal year, there shall be transferred to the General Fund in the State Treasury, all of the money in the fund, not in excess of the principal of and interest on the said bonds then due and payable, except as herein provided for the prior redemption of said bonds, and, in the event such money so returned on said dates of maturity is less than the said principal and interest then due and payable, then the balance remaining unpaid shall be returned into the General Fund in the State Treasury out of the fund as soon thereafter as it shall become available.

16805. All money deposited in the fund under Section 16080 of this code and pursuant to the provision of Part 2 (commencing with Section 16300) of Division 4 of Title 2 of the Government Code, shall be available only for transfer to the General Fund, as provided in Section 16804. When transferred to the General Fund such money shall be applied as a reimbursement to the General Fund on account of principal and interest due and payable or paid from the General Fund on the earliest issue of school building bonds for which the General Fund has not been fully reimbursed by such transfer of funds.

16806. The sum of seventy-five thousand dollars (\$75,000) is hereby appropriated out of the General Fund to be used as a revolving fund to pay the expenses incurred by the State Treasurer in having the bonds prepared and in advertising their sale or their prior redemption, for expenses incurred by the committee pursuant to Government Code Section 16758, and for legal services, upon approval of the State Board of Control, pursuant to Government Code Section 16760. Whenever bonds are sold, out of the first money realized from their sale, there shall be redeposited in the revolving fund such sums as have been expended for the above purposes, which may be used for the same purpose and repaid in the same manner whenever additional sales are made. Whenever all the bonds authorized by this chapter have been sold, the amount of the appropriation made by this section shall revert to the unappropriated surplus in the General Fund.

16807. Upon request of the board, supported by a statement of the apportionments made and to be made under Article 1 (commencing with Section 16000) to Article 3 (commencing with Section 16190), inclusive, of Chapter 8 of this part, the committee shall determine whether or not it is necessary or desirable to issue

any bonds authorized under this chapter in order to make such apportionments, and, if so, the amount of bonds then to be issued and sold. A sufficient number of bonds authorized under this chapter shall be issued and sold so that there shall be immediately available for apportionment the sum of: twenty million dollars (\$20,000,000) less any amount transferred from the General Fund pursuant to any law providing for the appropriation and transfer of moneys from the General Fund for state school building aid enacted at the 1960 First Extraordinary Session; on November 5, 1960, or as soon thereafter as such bonds can be issued and sold, the sum of two million dollars (\$2,000,000); on December 5, 1960, the sum of two million dollars (\$2,000,000); on January 5, 1961, the sum of nine million dollars (\$9,000,000); on February 3, 1961, thirty million dollars (\$30,000,000); on the fifth day of February, 1961, and on the fifth day of each month thereafter the sum of ten million dollars (\$10,000,000) or, if the Legislature so provides by concurrent resolution adopted after January 1, 1961, the sum of twelve million dollars (\$12,000,000) for each month after the adoption of such resolution, except that on the fifth day of any month after October 1, 1961, should the board have determined that an additional three million dollars (\$3,000,000) is necessary, the sum of fifteen million dollars (\$15,000,000), until a total of three hundred million dollars (\$300,000,000) has become available for apportionment. Successive issues of bonds may be authorized and sold to make such apportionments progressively, and it shall not be necessary that all of the bonds herein authorized to be issued shall be sold at any one time.

16808. In any resolution determining that the sale of all or any part of the bonds herein authorized is necessary or desirable, the committee may in its discretion adopt provisions for the interexchange of bonds of different denominations, the issuance of new bonds of different denominations in lieu of, or in exchange for, bonds of a like aggregate principal amount but of different denominations, and the authentication of any bonds by the State Controller or by any deputy state controller. If authentication is so required, no bond authorized herein shall be valid unless so authenticated in the manner so required.

16809. In computing the net interest cost under Section 16754 of the Government Code, interest shall be computed from the date of the bonds or the last preceding interest payment date, whichever is latest, to the respective maturity dates of the bonds then offered for sale at the coupon rate or rates specified in the bid, such computation to be made on a 360-day year basis.

16810. The committee may authorize the State Treasurer to sell all or any part of the bonds herein authorized at such time or times as may be fixed by the State Treasurer, and no direction of the Governor shall be required. The provisions of Sections 16750 and 16754 of the Government Code respecting the direction of the Governor shall not be applicable to such sale.

16811. All proceeds from the sale of the bonds herein authorized

deposited in the fund, as provided in Section 16757 of the Government Code, except those derived from premium and accrued interest, shall be available for the purpose herein provided, but shall not be available for transfer to the General Fund pursuant to Section 16804 to pay principal and interest on bonds.

16812. With respect to the proceeds of bonds authorized by Section 2, Article XVI of the California Constitution, all the provisions of Article 1 (commencing with Section 16000) to Article 3 (commencing with Section 16190), inclusive, of Chapter 8 of this part, shall apply except:

(a) Any reference in Article 1 (commencing with Section 16000) to Article 3 (commencing with Section 16190), inclusive, of Chapter 8 of this part, to "Section 16.5, Article XVI of the Constitution of this state" shall be deemed a reference to "Section 2, Article XVI of the Constitution of this state."

(b) Any reference in Article 1 (commencing with Section 16000) to Article 3 (commencing with Section 16190), inclusive, of Chapter 8 of this part, to "Section 16403" shall be deemed a reference to "Section 16804."

#### CHAPTER 14. CALL AND REDEMPTION OF STATE SCHOOL CONSTRUCTION BONDS

16900. The State School Building Finance Committee or other governmental body empowered to make a determination of whether any or all of the bonds authorized to be issued by the state, under legislation enacted following the effective date of this section, for the purpose of assisting local school districts in the acquisition of sites, the construction of school buildings and related facilities, and the purchase of furniture and equipment, may instruct the State Treasurer to include in the bonds, or any of them, provisions permitting their call and redemption at the option of the state prior to their maturity and indicating the price at which such bonds shall be subject to redemption; and it shall be the duty of the State Treasurer to comply therewith. No bonds shall be subject to call or redemption prior to maturity unless they contain a recital to that effect.

#### CHAPTER 15. STATE SCHOOL BUILDING AID BOND LAW OF 1962

17000. This chapter may be cited as the State School Building Aid Bond Law of 1962.

17001. The State General Obligation Bond Law is adopted for the purpose of the issuance, sale, and repayment of, and otherwise providing with respect to, the bonds authorized to be issued by this chapter, and the provisions of that law are included in this chapter as though set out in full in this chapter. All references in this chapter to "herein" shall be deemed to refer both to this chapter and such law.

17002. As used in this chapter, and for the purposes of this chapter as used in the State General Obligation Bond Law, the following words shall have the following meanings:

(a) "Committee" means State School Building Finance Committee, created by Section 15909.

(b) "Board" means State Allocation Board.

(c) "Fund" means State School Building Aid Fund.

17003. For the purpose of creating a fund to provide aid to school districts of the state in accordance with the provisions of the State School Building Aid Law of 1952, and of all acts amendatory thereof and supplementary thereto, the committee shall be and is hereby authorized and empowered to create a debt or debts, liability or liabilities, of the State of California, in the aggregate amount of two hundred million dollars (\$200,000,000) in the manner provided herein, but not in excess thereof.

17004. All bonds herein authorized, which shall have been duly sold and delivered as herein provided, shall constitute valid and legally binding general obligations of the State of California, and the full faith and credit of the State of California is hereby pledged for the punctual payment of both principal and interest thereof.

There shall be collected annually in the same manner and at the same time as other state revenue is collected such a sum, in addition to the ordinary revenues of the state, as shall be required to pay the principal and interest on said bonds as herein provided, and it is hereby made the duty of all officers charged by law with any duty in regard to the collection of said revenue, to do and perform each and every act which shall be necessary to collect such additional sum.

On the several dates of maturity of said principal and interest in each fiscal year, there shall be transferred to the General Fund in the State Treasury, all of the money in the fund, not in excess of the principal of and interest on the said bonds then due and payable, except as herein provided for the prior redemption of said bonds, and, in the event such money so returned on said dates of maturity is less than the said principal and interest then due and payable, then the balance remaining unpaid shall be returned into the General Fund in the State Treasury out of the fund as soon thereafter as it shall become available.

17005. All money deposited in the fund under Section 16080 of this code and pursuant to the provision of Part 2 (commencing with Section 16300) of Division 4 of Title 2 of the Government Code, shall be available only for transfer to the General Fund, as provided in Section 17004. When transferred to the General Fund such money shall be applied as a reimbursement to the General Fund on account of principal and interest due and payable or paid from the General Fund on the earliest issue of school building bonds for which the General Fund has not been fully reimbursed by such transfer of funds.

17006. There is hereby appropriated from the General Fund in the State Treasury for the purpose of this chapter, such an amount

as will equal the following:

(a) Such sum annually as will be necessary to pay the principal of and the interest on the bonds issued and sold pursuant to the provisions of this chapter, as said principal and interest become due and payable.

(b) Such sum as is necessary to carry out the provisions of Section 17007, which sum is appropriated without regard to fiscal years.

17007. For the purposes of carrying out the provisions of this chapter the Director of Finance may by executive order authorize the withdrawal from the General Fund of an amount or amounts not to exceed the amount of the unsold bonds which the committee has by resolution authorized to be sold for the purpose of carrying out this chapter. Any amounts withdrawn shall be deposited in a revolving fund to be allocated by the board in accordance with this chapter. Any moneys made available under this section to the board shall be returned by the board to the General Fund from moneys received from the sale of bonds sold for the purpose of carrying out this chapter.

17008. Upon request of the board, supported by a statement of the apportionments made and to be made under Article 1 (commencing with Section 16000) to Article 3 (commencing with Section 16190), inclusive, of Chapter 8 of this part, the committee shall determine whether or not it is necessary or desirable to issue any bonds authorized under this chapter in order to make such apportionments, and, if so, the amount of bonds then to be issued and sold. A sufficient number of bonds authorized under this chapter shall be issued and sold so that seven million dollars (\$7,000,000) will be available for apportionment on September 5, 1962, or as soon thereafter as such bonds can be issued and sold, and so that twelve million dollars (\$12,000,000) will become available for apportionment on October 5, 1962 and a like amount on the fifth day of each month thereafter until a total of two hundred million dollars (\$200,000,000) has become available for apportionment. Successive issues of bonds may be authorized and sold to make such apportionments progressively, and it shall not be necessary that all of the bonds herein authorized to be issued shall be sold at any one time.

17009. In any resolution determining that the sale of all or any part of the bonds herein authorized is necessary or desirable, the committee may in its discretion adopt provisions for the interexchange of bonds of different denominations, the issuance of new bonds of different denominations in lieu of, or in exchange for, bonds of a like aggregate principal amount but of different denominations, and the authentication of any bonds by the State Controller or by any deputy state controller. If authentication is so required, no bond authorized herein shall be valid unless so authenticated in the manner so required.

17010. In computing the net interest cost under Section 16754 of the Government Code, interest shall be computed from the date of

the bonds or the last preceding interest payment date, whichever is latest, to the respective maturity dates of the bonds then offered for sale at the coupon rate or rates specified in the bid, such computation to be made on a 360-day year basis.

17011. The committee may authorize the State Treasurer to sell all or any part of the bonds herein authorized at such time or times as may be fixed by the State Treasurer.

17012. All proceeds from the sale of the bonds herein authorized deposited in the fund, as provided in Section 16757 of the Government Code, except those derived from premium and accrued interest, shall be available for the purpose herein provided, but shall not be available for transfer to the General Fund pursuant to Section 17004 to pay principal and interest on bonds.

17013. With respect to the proceeds of bonds authorized by this chapter, all the provisions of Article 1 (commencing with Section 16000) to Article 3 (commencing with Section 16190), inclusive, of Chapter 8 of this part, shall apply except:

(a) Any reference in Article 1 (commencing with Section 16000) to Article 3 (commencing with Section 16190), inclusive, of Chapter 8 of this part, to "Section 2, Article XVI of the Constitution of this state" shall be deemed a reference to this chapter.

(b) Any reference in Article 1 (commencing with Section 16000) to Article 3 (commencing with Section 16190), inclusive, of Chapter 8 of this part, to "Section 16403" shall be deemed a reference to "Section 17004."

#### CHAPTER 16. STATE SCHOOL BUILDING AID BOND LAW OF 1964

17100. This chapter may be cited as the State School Building Aid Bond Law of 1964.

17101. The State General Obligation Bond Law is adopted for the purpose of the issuance, sale, and repayment of, and otherwise providing with respect to, the bonds authorized to be issued by this chapter, and the provisions of that law are included in this chapter as though set out in full in this chapter. All references in this chapter to "herein" shall be deemed to refer both to this chapter and such law.

17102. As used in this chapter, and for the purposes of this chapter as used in the State General Obligation Bond Law, the following words shall have the following meanings:

(a) "Committee" means State School Building Finance Committee, created by Section 15909.

(b) "Board" means State Allocation Board.

(c) "Fund" means State School Building Aid Fund.

17103. For the purpose of creating a fund to provide aid to school districts of the state in accordance with the provisions of the State School Building Aid Law of 1952, and of all acts amendatory thereof and supplementary thereto, and to provide funds to repay any

money advanced or loaned to the State School Building Aid Fund under any act of the Legislature, together with interest provided for in that act, the committee shall be and is hereby authorized and empowered to create a debt or debts, liability or liabilities, of the State of California, in the aggregate amount of two hundred sixty million dollars (\$260,000,000) in the manner provided herein, but not in excess thereof.

17104. All bonds herein authorized, which shall have been duly sold and delivered as herein provided, shall constitute valid and legally binding general obligations of the State of California, and the full faith and credit of the State of California is hereby pledged for the punctual payment of both principal and interest thereof.

There shall be collected annually in the same manner and at the same time as other state revenue is collected such a sum, in addition to the ordinary revenues of the state, as shall be required to pay the principal and interest on said bonds as herein provided, and it is hereby made the duty of all officers charged by law with any duty in regard to the collection of said revenue, to do and perform each and every act which shall be necessary to collect such additional sum.

On the several dates of maturity of said principal and interest in each fiscal year, there shall be transferred to the General Fund in the State Treasury, all of the money in the fund, not in excess of the principal of and interest on the said bonds then due and payable, except as herein provided for the prior redemption of said bonds, and, in the event such money so returned on said dates of maturity is less than the said principal and interest then due and payable, then the balance remaining unpaid shall be returned into the General Fund in the State Treasury out of the fund as soon thereafter as it shall become available.

17105. All money deposited in the fund under Section 16080 of this code and pursuant to the provision of Part 2 (commencing with Section 16300) of Division 4 of Title 2 of the Government Code, shall be available only for transfer to the General Fund, as provided in Section 17104. When transferred to the General Fund such money shall be applied as a reimbursement to the General Fund on account of principal and interest due and payable or paid from the General Fund on the earliest issue of school building bonds for which the General Fund has not been fully reimbursed by such transfer of funds.

17106. There is hereby appropriated from the General Fund in the State Treasury for the purpose of this chapter, such an amount as will equal the following:

(a) Such sum annually as will be necessary to pay the principal of and the interest on the bonds issued and sold pursuant to the provisions of this chapter, as said principal and interest become due and payable.

(b) Such sum as is necessary to carry out the provisions of Section 17107, which sum is appropriated without regard to fiscal years.

17107. For the purposes of carrying out the provisions of this

chapter the Director of Finance may by executive order authorize the withdrawal from the General Fund of an amount or amounts not to exceed the amount of the unsold bonds which the committee has by resolution authorized to be sold for the purpose of carrying out this chapter. Any amounts withdrawn shall be deposited in the fund to be allocated by the board in accordance with this chapter. Any moneys made available under this section to the board shall be returned by the board to the General Fund from moneys received from the sale of bonds sold for the purpose of carrying out this chapter.

17108. Upon request of the board, supported by a statement of the apportionments made and to be made under Article 1 (commencing with Section 16000) to Article 3 (commencing with Section 16190), inclusive, of Chapter 8 of this part, the committee shall determine whether or not it is necessary or desirable to issue any bonds authorized under this chapter in order to make such apportionments, and, if so, the amount of bonds then to be issued and sold. A sufficient number of bonds authorized under this chapter shall be issued and sold so that seventy million dollars (\$70,000,000) will be available for apportionment on December 5, 1964, or as soon thereafter as such bonds can be issued and sold, and so that twelve million dollars (\$12,000,000) will become available for apportionment on January 5, 1965 and a like amount on the fifth day of each month thereafter until a total of two hundred sixty million dollars (\$260,000,000) has become available for apportionment. However, if the board determines that an additional three million dollars (\$3,000,000) is necessary, a sufficient number of bonds authorized under this chapter shall be issued and sold so that fifteen million dollars (\$15,000,000), rather than twelve million dollars (\$12,000,000), will become available for apportionment on the fifth day of any month after January, 1965. Successive issues of bonds may be authorized and sold to make such apportionments progressively, and it shall not be necessary that all of the bonds herein authorized to be issued shall be sold at any one time.

17109. In computing the net interest cost under Section 16754 of the Government Code, interest shall be computed from the date of the bonds or the last preceding interest payment date, whichever is latest, to the respective maturity dates of the bonds then offered for sale at the coupon rate or rates specified in the bid, such computation to be made on a 360-day year basis.

17110. The committee may authorize the State Treasurer to sell all or any part of the bonds herein authorized at such time or times as may be fixed by the State Treasurer.

17111. All proceeds from the sale of the bonds herein authorized deposited in the fund, as provided in Section 16757 of the Government Code, except those derived from premium and accrued interest, shall be available for the purpose herein provided, but shall not be available for transfer to the General Fund pursuant to Section 17104 to pay principal and interest on bonds.

17112. With respect to the proceeds of bonds authorized by this chapter, all the provisions of Article 1 (commencing with Section 16000) to Article 3 (commencing with Section 16190), inclusive, of Chapter 8 of this part, shall apply except:

(a) Any reference in Article 1 (commencing with Section 16000) to Article 3 (commencing with Section 16190), inclusive, of Chapter 8 of this part, to "Section 2, Article XVI of the Constitution of this state" shall be deemed a reference to this chapter.

(b) Any reference in Article 1 (commencing with Section 16000) to Article 3 (commencing with Section 16190), inclusive, of Chapter 8 of this part, to "Section 16403" shall be deemed a reference to "Section 17104."

17113. Out of the first money realized from the sale of bonds under this chapter, there shall be repaid any moneys advanced or loaned to the State School Building Aid Fund under any act of the Legislature, together with interest provided for in that act.

#### CHAPTER 17. STATE SCHOOL BUILDING AID BOND LAW OF 1966

17200. This chapter may be cited as the State School Building Aid Bond Law of 1966.

17201. The State General Obligation Bond Law is adopted for the purpose of the issuance, sale, and repayment of, and otherwise providing with respect to, the bonds authorized to be issued by this chapter, and the provisions of that law are included in this chapter as though set out in full in this chapter. All references in this chapter to "herein" shall be deemed to refer both to this chapter and such law.

17202. As used in this chapter, and for the purposes of this chapter as used in the State General Obligation Bond Law, the following words shall have the following meanings:

(a) "Committee" means State School Building Finance Committee, created by Section 15909.

(b) "Board" means State Allocation Board.

(c) "Fund" means State School Building Aid Fund.

17203. The committee is hereby authorized and empowered to create a debt or debts, liability or liabilities, of the State of California, in the aggregate amount of two hundred seventy-five million dollars (\$275,000,000), in the manner provided in this chapter, but not in excess thereof. Such debt or debts, liability or liabilities, shall be created for the purpose of providing a fund to be used, pursuant to statutes enacted or to be enacted by the Legislature, to aid school districts and county superintendents of schools in acquiring land, and in acquiring, by lease, purchase, or by any other appropriate means authorized by law, and in constructing buildings, equipment, and facilities, to be used for public school purposes. Such aid may be provided, pursuant to such statutes, in the form of grants or loans of money to school districts and county superintendents of schools, or

by the acquisition of buildings, facilities, and equipment by the state with subsequent sale, lease, grant, or other conveyance to school districts and county superintendents of schools, or by any combination thereof.

17204. All bonds herein authorized, which shall have been duly sold and delivered as herein provided, shall constitute valid and legally binding general obligations of the State of California, and the full faith and credit of the State of California is hereby pledged for the punctual payment of both principal and interest thereof.

There shall be collected annually in the same manner and at the same time as other state revenue is collected such a sum, in addition to the ordinary revenues of the state, as shall be required to pay the principal and interest on said bonds as herein provided, and it is hereby made the duty of all officers charged by law with any duty in regard to the collection of said revenue, to do and perform each and every act which shall be necessary to collect such additional sum.

On the several dates of maturity of said principal and interest in each fiscal year, there shall be transferred to the General Fund in the State Treasury, all of the money in the fund, not in excess of the principal of and interest on the said bonds then due and payable, except as herein provided for the prior redemption of said bonds, and, in the event such money so returned on said dates of maturity is less than the said principal and interest then due and payable, then the balance remaining unpaid shall be returned into the General Fund in the State Treasury out of the fund as soon thereafter as it shall become available.

17205. All money deposited in the fund under Section 16080, pursuant to any other provision of law requiring repayments to the state for assistance financed by the proceeds of the bonds authorized by this chapter, and pursuant to the provision of Part 2 (commencing with Section 16300) of Division 4 of Title 2 of the Government Code, shall be available only for transfer to the General Fund, as provided in Section 17204. When transferred to the General Fund such money shall be applied as a reimbursement to the General Fund on account of principal and interest due and payable or paid from the General Fund on the earliest issue of school building bonds for which the General Fund has not been fully reimbursed by such transfer of funds.

17206. There is hereby appropriated from the General Fund in the State Treasury for the purpose of this chapter, such an amount as will equal the following:

(a) Such sum annually as will be necessary to pay the principal of and the interest on the bonds issued and sold pursuant to the provisions of this chapter, as said principal and interest become due and payable.

(b) Such sum as is necessary to carry out the provisions of Section 17207, which sum is appropriated without regard to fiscal years.

17207. For the purposes of carrying out the provisions of this chapter the Director of Finance may by executive order authorize

the withdrawal from the General Fund of an amount or amounts not to exceed the amount of the unsold bonds which the committee has by resolution authorized to be sold for the purpose of carrying out this chapter. Any amounts withdrawn shall be deposited in the fund to be allocated by the board in accordance with this chapter. Any moneys made available under this section to the board shall be returned by the board to the General Fund from moneys received from the sale of bonds sold for the purpose of carrying out this chapter.

17208. Upon request of the board, supported by a statement of the apportionments made and to be made under Chapter 8 (commencing with Section 16000) of this part, or under any other provisions of law authorizing assistance to be provided for public school purposes from the proceeds of bonds authorized by this chapter, the committee shall determine whether or not it is necessary or desirable to issue any bonds authorized under this chapter in order to make such apportionments, and, if so, the amount of bonds then to be issued and sold. A sufficient number of bonds authorized under this chapter shall be issued and sold so that twelve million dollars (\$12,000,000) will become available for apportionment on July 5, 1966, and a like amount on the fifth day of each month thereafter until a total of two hundred seventy-five million dollars (\$275,000,000) has become available for apportionment. However, if the board determines that an additional three million dollars (\$3,000,000) is necessary, a sufficient number of bonds authorized under this chapter shall be issued and sold so that fifteen million dollars (\$15,000,000), rather than twelve million dollars (\$12,000,000), will become available for apportionment on the fifth day of any month after July, 1966. Successive issues of bonds may be authorized and sold to make such apportionments progressively, and it shall not be necessary that all of the bonds herein authorized to be issued shall be sold at any one time.

17209. In computing the net interest cost under Section 16754 of the Government Code, interest shall be computed from the date of the bonds or the last preceding interest payment date, whichever is latest, to the respective maturity dates of the bonds then offered for sale at the coupon rate or rates specified in the bid, such computation to be made on a 360-day year basis.

17210. The committee may authorize the State Treasurer to sell all or any part of the bonds herein authorized at such time or times as may be fixed by the State Treasurer.

17211. All proceeds from the sale of the bonds herein authorized deposited in the fund, as provided in Section 16757 of the Government Code, except those derived from premium and accrued interest, shall be available for the purpose herein provided, but shall not be available for transfer to the General Fund pursuant to Section 17204 to pay principal and interest on bonds.

17212. With respect to the proceeds of bonds authorized by this chapter, all the provisions of Chapter 8 (commencing with Section

16000) of this part shall apply except:

(a) Any reference in Chapter 8 (commencing with Section 16000) of this part to "Section 2, Article XVI of the Constitution of this state" shall be deemed a reference to this chapter.

(b) Any reference in Chapter 8 (commencing with Section 16000) of this part to "Section 16403" shall be deemed a reference to "Section 17204."

17213. Out of the first money realized from the sale of bonds under this chapter, there shall be repaid any moneys advanced or loaned to the State School Building Aid Fund under any act of the Legislature, together with interest provided for in that act.

17214. Notwithstanding any provisions in this chapter to the contrary, of the moneys made available by this chapter the sum of thirty-five million dollars (\$35,000,000) shall be available, upon application of school districts, for any of the purposes following, or any combination thereof:

(a) Acquisition and installation of portable classrooms.

(b) Acquisition of land for school sites.

(c) Construction of permanent school buildings and facilities.

(d) Reconstruction, renovation and remodeling of existing school buildings and facilities.

The funds set aside pursuant to this section may be expended only for the improvement of the education of minors, and only when legislation is enacted to authorize the expenditure of these funds for the improvement of the education of minors. These funds shall be made available to eligible school districts when the fiscal and other requirements prescribed by statutes enacted or to be enacted for this purpose are complied with.

## CHAPTER 18. URBAN SCHOOL CONSTRUCTION AID LAW OF 1968

### Article 1. General Provisions

17300. This chapter may be cited as the "Urban School Construction Aid Law of 1968."

17301. The Legislature hereby declares that it is in the interest of the state and of the people thereof for the state to aid urban school districts of the state in reconstructing, modernizing, or replacing school sites and buildings for pupils of the public school system who are now housed in substandard schools constructed prior to 1943.

17302. As used in this chapter:

(a) "Board" means the State Allocation Board, created by Section 7 of the Construction and Employment Act as amended.

(b) "Director" means the Director of Education or board of governors as appropriate to their jurisdiction.

(c) "Project" means the purpose or purposes for which a school district has applied for an apportionment or apportionments.

(d) "Apportionment" means an apportionment made under this chapter unless the context otherwise requires.

(e) "Urban district" means any school district, the boundaries of which are substantially identical to or which encompass the boundaries of a city having a population in 1960 of not less than 50,000 persons.

17303. The Director of General Services shall administer this chapter and shall provide such assistance to the board as it may require.

17304. The State Allocation Board is continued in existence for the purposes of this chapter. The members of the board and the Members of the Legislature meeting with the board shall receive no compensation for their services under this chapter but shall be reimbursed for their actual and necessary expenses incurred in connection with the performance of their duties hereunder, to be paid out of the Urban School Construction Aid Fund.

17305. The board by the adoption of rules shall give priority in allocating funds to urban districts to such districts where the children will benefit most from schoolhouse facilities. This priority shall be based upon the age of existing buildings and the acuteness of overcrowding at the school or schools where the construction or reconstruction will occur, the density of population in the attendance areas affected, or such other factors which will insure that the greatest need will be served.

17306. In addition to such other powers and duties as are granted the board by this chapter, the board shall:

(a) Establish such qualifications not in conflict with other provisions of this chapter as it deems will best serve the purposes of this chapter for determining the eligibility of school districts to apportionments of funds under this chapter.

(b) Establish such procedures and policies in connection with the administration of, and the expenditure of funds made available for the purpose of, this chapter as it deems necessary.

(c) Adopt such rules and regulations for the administration of this chapter, requiring such procedure, forms, and information, as it may deem necessary.

17307. The board shall prescribe instructions specifying the manner in which property, real or personal, being replaced through the apportionment, shall be disposed of, and compliance with the instructions shall be a condition upon the making of the apportionment. The net proceeds derived from such a disposition shall be contributed in reduction of any apportionment. Any school district affected shall comply with instructions prescribed by the board. The board may require a district to transfer to the state, by any instruments deemed appropriate by the board, title to any such property, whereupon, the board shall dispose of the property in any manner it deems appropriate to insure the highest return to the state, and apply the proceeds therefrom in reduction of apportionments to the district. The district affected shall do all things deemed necessary by the board to implement such disposition.

17308. Apportionments from the Urban School Construction Aid

Fund created by Section 17328 shall be limited to urban districts and shall be made for the sole purpose of reconstructing or replacing existing substandard buildings constructed prior to 1943. Such apportionments shall be made in the manner and subject to the conditions herein provided and in accordance with policies adopted by the board for the following purposes.

(1) The acquisition, by purchase or lease, and the installation and equipping portable classrooms for instructional purposes.

(2) The acquisition and development of school sites.

(3) The construction and equipping of permanent school buildings and facilities.

(4) The reconstruction, renovation, or remodeling of existing school buildings and facilities.

(5) Any combination of the above.

As a part of such purposes, where a district is required by a contract entered into between itself and a contractor, to obtain at its own expense insurance covering risks incurred during any construction, reconstruction or alteration for which an apportionment has been made, the cost thereof may be paid either directly, or by way of reimbursement, to said district out of said apportionment, or out of any apportionment made specifically covering such insurance, provided that in other respects said apportionments are eligible for payment under provisions of this chapter.

A leasehold or use permit interest held by a school district in land owned in fee simple by the government of the United States may, for all purposes of this chapter, be deemed a purchase of land by the district and to vest title and ownership in the district.

17309. The board shall not make any apportionment with respect to an application for replacing inadequate school facilities unless it has first investigated and made a finding that it would not be economical or good practice to rehabilitate said facilities.

17310. In addition to the purposes for which apportionments may be made to school districts under Section 17308, apportionments may also be made to school districts for the construction, repair, attachment or development of offsite facilities, utilities or improvements which the board determines are necessary to the proper operation or functioning of the school facilities for which apportionments are made, all of which purposes are hereby declared to be, and are, public works.

17311. In making applications for, and in expending apportionments of funds under this chapter, a school district acts as an agent of the state and all sites purchased and improved, all equipment purchased, and all buildings constructed, reconstructed, altered, or added to through the expenditure of funds apportioned under this chapter, are declared to be, and are, the property of the state.

The Director of General Services shall file with the county recorder of the county in which any site purchased or improved through the expenditure of funds apportioned under this chapter is

located a certificate, properly acknowledged, indicating the state's interest in real property of the district by virtue of this section, without the necessity of particularizing such real property. The recorder shall record and index the certificate in the same manner as abstracts of judgments and the certificate shall constitute constructive notice of the state's interest in the particular real property affected. Such certificate shall as to any party thereafter acquiring real property or any interest therein in the county from said school district have the same force, effect and priority as if it had been a judgment lien imposed upon real property which was not exempt from execution. Such effect shall commence upon recordation and continue until the certificate is discharged or released as provided herein.

Upon request the Director of General Services shall (1) issue a release of the state's interest in any real property or a portion thereof that the district has been authorized by the board to dispose of under this chapter, provided that delivery of such release may be subject to such conditions as may be prescribed by the board to protect the state's interest; (2) issue a disclaimer of the state's interest in any real property or a portion thereof of the district, the disposition of which the board is not required to consent to under this chapter, provided that the delivery of such disclaimer may be subject to such conditions as the board deems appropriate to protect the interests of the state, including conditions relating to the amount of consideration to be received from such disposition where the board asserts an interest in the proceeds of such disposition under other provisions of this chapter. Such release or disclaimer shall conclusively protect any third party relying upon the same and shall be acknowledged to permit recordation by the county recorder.

Upon payment by the district of all amounts required to be paid by it or on its behalf to the state under this chapter (1) the Director of General Services shall file with the recorder a release of any such certificate which release shall be recorded and indexed in the same index as said certificate; and (2) the title to personal property purchased by such school district with funds apportioned under this chapter shall revert thereto without further action by the state.

17312. A school district shall not expend money apportioned under this chapter unless the contracts under which the funds are expended have been let after competitive bids thereafter pursuant to this code.

17313. Each school district which desires an apportionment shall submit through its governing board to the board an application therefor in such form and number of copies as the board shall prescribe. Each copy of the application shall be accompanied by a statement of the estimated cost of the project certified by an architect or structural engineer, and by layout plans showing the entire construction project for which the district desires an apportionment.

Estimates of costs for new construction or equipment appearing in

an application shall not exceed typical current costs of comparable new construction or equipment by school districts in the same area not receiving an apportionment under this chapter, as determined by the Director of General Services, or if there has been no new construction by school districts in the area, the estimates of costs shall not exceed the reasonable current cost of similar construction or equipment in the area as determined by the Director of General Services.

A school district may at any time file an application or amend or supplement an application. Upon receipt of any application, the Director of General Services shall as promptly as possible prepare a report and recommendation with respect to the application after having received recommendations from the director in respect to any matter which is subject to the jurisdiction or approval of the director or Department of Education, or the board of governors, as appropriate to their jurisdiction. The board shall, subject to the provisions of this chapter, approve, in whole or in part, or reject each application referred to it by the Director of General Services. If the board approves of the application, either in whole or in part, it shall, by a resolution adopted by it, apportion to the district from the Urban School Construction Aid Fund the amount applied for, or such portion thereof as the board may determine appropriate; provided, that it may order that the apportionment or any part thereof shall be paid in progressive installments at such times and under such conditions as it may then prescribe.

17314. The board may approve, in whole or in part, an application submitted by a school district under Section 19263 and in such amount, not exceeding the amount applied for, as the board may deem appropriate.

The board may, upon approval of the application, in whole or in part, and subsequently from time to time, make a conditional apportionment or conditional apportionments not exceeding in the aggregate the total amount approved in the application of the district by the board to the applicant school district from the Urban School Construction Aid Fund for such portion or portions of the project as the board determines the district is ready to proceed with. If the board has approved an application and made an apportionment as to a portion or portions of a project, the board may approve the remaining portion or portions of the project and make an additional apportionment or apportionments as it deems appropriate.

If the board determines that the actual cost is in excess of the estimated cost of the specific school plant facilities or sites for which an apportionment to a district has been made, or for which a district's application has been approved in whole or in part pursuant to this section, the board may make an additional apportionment to such district in an amount equal to such excess even though such additional apportionment will result in the total apportionments to the district exceeding the amount of the application originally approved by the board.

Approval of an application under this section shall not be construed as creating or implying any obligation, commitment or promise on the part of the board or the state to make apportionments under this chapter.

17315. No apportionment shall be made for new construction, the area of which exceeds the area of the unsafe buildings being replaced under Section 17308. The area of school buildings shall be computed in a uniform manner as prescribed by the board.

17316. Payment shall be made in accordance with the terms of an apportionment, either directly or by way of reimbursement, to a school district for expenditures, or commitments therefor, which have been made by the district subsequent to the effective date of this chapter for any items approved by the board in such apportionment; provided, however, that where expenditures were made for, or work was commenced with respect to, any item so approved, prior to the time the application of such district containing such item was received by the board, payment or reimbursement for such item, either with state funds or with district funds which the district is required to contribute by said apportionment, shall be made only upon authorization of the board by special resolution citing this section.

17317. Notwithstanding any provision to the contrary, the board, with the approval of the Director of General Services, shall, pursuant to this section, fix the rate of interest to be paid by the districts on the sums apportioned during that fiscal year. Beginning each fiscal year the board shall compute the average of the rates of interest which the state pays upon the state school reconstruction and replacement bonds, sold at the three sales of state school reconstruction and replacement bonds occurring immediately prior to that fiscal year, or, if the board so determines, at all of the sales of such bonds occurring in the two years immediately prior thereto, giving effect to the price at which the state school reconstruction and replacement bonds sold at such sales, and the premium, if any paid, thereon. If an apportionment is made prior to the sale of state school reconstruction and replacement bonds, the board shall use the computed average rate of interest which the state paid on the last sale of state school building bonds. Such average rate shall be adjusted to the next highest one-tenth of 1 percent to cover the cost of sale and issuance of the bonds and costs of administration. Such adjusted average rate shall be the rate paid by districts on apportionments received during that fiscal year, and shall be compounded annually through the 30th day of June of each year.

17318. Apportionments may be made irrespective of whether there is on deposit at the time thereof a sufficient amount in the Urban School Construction Aid Fund to permit the payment of such apportionments. Disbursements may be made under any apportionment from any funds in the Urban School Construction Aid Fund irrespective of whether there exists at the time of such disbursement a sufficient amount in such fund to permit the

payment in full of all apportionments previously made; provided, that no disbursements shall be made from any funds in the Urban School Construction Aid Fund required by law to be transferred to the General Fund, or from any moneys therein which the Controller deems necessary to satisfy appropriations from such fund for purposes other than apportionments.

17319. No apportionment shall be made to a district for the construction, reconstruction, or alteration of, or addition to, school buildings if the requirements prescribed by this code for the construction of school buildings are not met by the plans for the entire building program of the district in connection with which the district applied for an apportionment.

17320. Each district to which an apportionment or apportionments has been made under this chapter shall repay a portion or all of the principal amount of such apportionment or apportionments and the accrued interest thereon in 30 equal annual payments, as shall be determined by the State Controller pursuant to this section. If more than one apportionment is made the annual amount payable shall be the sum of the amounts which would be payable on each apportionment if computed separately.

The State Controller shall determine the portion of the principal amount of the apportionment or apportionments made to each district to be repaid by the district by diminishing such principal amount by the product of the ratio which the assessed valuation of the district per unit of average daily attendance of pupils in the grades maintained by the district during the preceding fiscal year bears to the assessed valuation per unit of such average daily attendance in the same type of districts in the state and one-half of the principal amount of the apportionment or apportionments, except that the amount to be repaid shall not exceed the amount of the principal apportionment or apportionments.

The State Controller shall make the computation to determine the annual repayment due in the next fiscal year following the fiscal year in which the apportionment is made. In any year in which the annual repayment exceeds the amount which may be raised by a three-cent (\$.03) tax rate per one hundred dollars (\$100) of assessed valuation in the district, the governing board of the school district shall so certify to the State Controller whereupon the State Controller shall grant a deferment of the annual repayment which is in excess of the amount that would be produced by a tax rate of three cents (\$.03) per one hundred dollars (\$100) of assessed valuation of the district. The amount deferred shall be added to the annual repayment for the next succeeding fiscal year.

17321. The State Controller shall, during the next fiscal year following that in which he determines the annual repayment as herein provided, deduct the total amount of the annual repayment of each district in equal amounts from each of the February, March, April, and May installments of the apportionments made to such district from the State School Fund and, on order of the State

Controller, the amount so deducted shall be transferred to the Urban School Construction Aid Fund. All money transferred to the Urban School Construction Aid Fund under the provisions of this section shall be available only for transfer to the General Fund.

17322. The State Controller shall determine and maintain a record of the amount due the state in connection with each apportionment made to a district under the provisions of this chapter. He shall compute interest, at the rate fixed by the board, on each amount disbursed by the state pursuant to any such apportionment, from the date of issuance of the State Controller's warrant covering the payment to the county treasurer of such amount until the first day of July of the fiscal year next succeeding that in which such warrant was issued. Thereafter, interest shall accrue to and be compounded as a part of the principal amount due the state pursuant to such apportionment, through the 30th day of the following June of each year, until the principal and interest have been paid.

17323. Upon computing in any fiscal year the amount to be deducted from the apportionments to the district from the State School Fund during the succeeding fiscal year, the State Controller shall notify the governing board of the district and the county auditor of the county, the county superintendent of which has jurisdiction over the district, of the amount to be deducted.

17324. The board of supervisors of the county, the county superintendent of which has jurisdiction over any district which under this chapter will have moneys withheld by the State Controller from the apportionments to be made to it from the State School Fund during any fiscal year, shall annually at the time the board of supervisors makes the levy of taxes for county purposes, levy a tax upon the property in the district sufficient to raise for the district the amount of money to be withheld by the State Controller during the fiscal year in which the tax is levied. Such tax, when collected, shall be paid into the county treasury of the county, the county superintendent of schools of which has jurisdiction over the district for which the tax was levied, to the credit of the general fund of the district.

17325. The board shall prescribe in such detail as it deems necessary, the purposes for which moneys apportioned by it or which it requires the district to contribute toward, or in reduction of the cost of a project, may be expended, and such prescription shall be binding upon the governing board of the district, save as it may be changed or modified by the board for such cause as it sees fit.

17326. An urban school construction fund is hereby created in the county treasury in each county for each school district in such county. The county treasurer of each county shall pay into the urban school construction fund of each school district, exactly as apportioned by the board, all moneys received by him under this chapter with respect to each such school district.

17327. Interest earned on those portions of deposits in an urban

school construction fund representing allocations from the proceeds of state school reconstruction and replacement bonds received by the county treasurer for the benefit of a school district under this chapter shall be paid into the urban school construction fund created by Section 17328.

17328. A fund in the State Treasury is hereby created, to be known as the Urban School Construction Aid Fund. All money in the Urban School Construction Aid Fund, including any money deposited in said fund from any source whatsoever is hereby continuously appropriated without regard to fiscal years for expenditure pursuant to apportionments made under the provisions of this chapter.

17329. The governing board of each school district to which an apportionment has been made under this chapter shall expend the moneys in the urban school construction fund of the school district exactly as apportioned by the board and only for the purposes for which said moneys were apportioned to the district, and for no other purpose, and shall make such reports relating to the expenditure of such moneys as the board and the State Controller shall require.

17330. A complete detailed report of expenditure of funds allocated pursuant to this chapter shall be made by the board annually to the Legislature. The report shall contain a detailed statement of facilities provided, type of construction, square footage provided and all other items which will enable the Legislature fully to understand the nature of the construction performed by the school districts.

17331. It shall be the duty of the State Controller to make such audit or audits of the books and records of counties and school districts receiving apportionments under this chapter, as he may deem necessary from time to time, for the purpose of determining that the money received by school districts as apportionments hereunder has been expended for the purposes and under the conditions authorized by this chapter.

17332. Whenever the State Controller determines that any money apportioned to a school district has been expended by such school district for purposes not authorized by this chapter, or exceeds the final cost of the project which is authorized by this chapter to be paid therefrom, the State Controller shall furnish written notice to the board, the governing board of the school district, the county superintendent of schools, the county auditor, and the county treasurer of the county whose county superintendent of schools has jurisdiction over the school district, directing the school district and the county treasurer to pay into the State Treasury the amount of such unauthorized expenditures, or the amount of such excess apportionment, as the case may be. Upon receipt of such notice, such governing board shall order the county treasurer to pay to the State Treasurer, out of any moneys in the county treasury available to the school district for that purpose, the amount set forth in such notice. Such amount shall, upon order of the State Controller, be deposited

in the State Treasury to the credit of the Urban School Construction Aid Fund, to be reapportioned by the board.

It shall be the duty of such governing body and the county treasurer to make the payments to the State Treasurer as provided in this section, and it shall be the duty of the State Controller to enforce such collection on behalf of the state.

If the district fails to make the payment specified within one year after written notice of the amount due, the State Controller shall deduct the amount thereof with interest from date of the notice from the February payment made to the district under the provisions of Section 14041 in the next succeeding fiscal year.

17333. (a) As used in this chapter:

(1) "State-aided district" means a district to which an apportionment has been made under this chapter.

(2) "Acquiring district" means a district in which all or a part of, a state-aided district or an applicant district has been included.

(3) "Original district" means a state-aided or applicant district included in whole or in part in an acquiring district.

(b) For the purposes of this article as it applies to an original district or to an acquiring district, the effective date of any change of boundaries, annexation, formation of a new district, or other reorganization shall be the date such action became effective for the purposes of Section 4060.

17334. Whenever, subsequent to the date of an apportionment to a district, the state-aided district is included in whole or in part in another district, the acquiring district in which a state-aid project is located shall, on the effective date of such inclusion, succeed to and be vested with all of the duties, powers, purposes, jurisdiction, and responsibilities of the state-aided district with respect to any apportionment or apportionments for such project and the property acquired or to be acquired from funds provided thereby, and all funds in the urban school construction fund of the state-aided district shall be transferred to the urban school construction fund of the acquiring district. All amounts which would, after the effective date of such inclusion, have been otherwise paid to the state-aided district under the terms of or pursuant to said apportionment, shall be paid to the acquiring district. In addition, the acquiring district shall, on the effective date of the inclusion of the state-aided district in the acquiring district become liable for the annual repayments and other payments due the state under this chapter.

#### CHAPTER 19. STATE SCHOOL BUILDING AID AND EARTHQUAKE RECONSTRUCTION AND REPLACEMENT BOND LAW OF 1972

17400. This chapter may be cited as the State School Building Aid and Earthquake Reconstruction and Replacement Bond Law of 1972.

17401. The State General Obligation Bond Law (Chapter 4 (commencing with Section 16720) of Part 3 of Division 4 of Title 2 of the Government Code) is adopted for the purpose of the issuance,

sale, and repayment of, and otherwise providing with respect to, the bonds authorized to be issued by this chapter, and the provisions of that law are included in this chapter as though set out in full in this chapter. All references in this chapter to "herein" shall be deemed to refer both to this chapter and such law.

17402. As used in this chapter, and for the purposes of this chapter as used in the State General Obligation Bond Law, the following words shall have the following meanings:

(a) "Committee" means the State School Building Finance Committee created by Section 15909.

(b) "Board" means the State Allocation Board.

(c) "Fund" means the State School Building Aid Fund.

17403. For the purpose of creating a fund to provide aid to school districts of the state in accordance with the provisions of the State School Building Aid Law of 1952, and of all acts amendatory thereof and supplementary thereto, and to provide funds to repay any money advanced or loaned to the State School Building Aid Fund under any act of the Legislature, together with interest provided for in that act, and to be used to reimburse the General Obligation Bond Expense Revolving Fund pursuant to Section 16724.5 of the Government Code the committee shall be and is hereby authorized and empowered to create a debt or debts, liability or liabilities, of the State of California, in the aggregate amount of three hundred fifty million dollars (\$350,000,000) in the manner provided herein, but not in excess thereof.

17404. All bonds herein authorized, which shall have been duly sold and delivered as herein provided, shall constitute valid and legally binding general obligations of the State of California, and the full faith and credit of the State of California is hereby pledged for the punctual payment of both principal and interest thereof.

There shall be collected annually in the same manner and at the same time as other state revenue is collected such a sum, in addition to the ordinary revenues of the state, as shall be required to pay the principal and interest on said bonds as herein provided, and it is hereby made the duty of all officers charged by law with any duty in regard to the collection of said revenue, to do and perform each and every act which shall be necessary to collect such additional sum.

On the several dates of maturity of said principal and interest in each fiscal year, there shall be transferred to the General Fund in the State Treasury, all of the money in the fund, not in excess of the principal of and interest on the said bonds then due and payable, except as herein provided for the prior redemption of said bonds, and, in the event such money so returned on said dates of maturity is less than the said principal and interest then due and payable, then the balance remaining unpaid shall be returned into the General Fund in the State Treasury out of the fund as soon thereafter as it shall become available.

17405. All money deposited in the fund under Section 16080 of this code and pursuant to the provisions of Part 2 (commencing with

Section 16300) of Division 4 of Title 2 of the Government Code, shall be available only for transfer to the General Fund, as provided in Section 17404. When transferred to the General Fund such money shall be applied as a reimbursement to the General Fund on account of principal and interest due and payable or paid from the General Fund on the earliest issue of school building bonds for which the General Fund has not been fully reimbursed by such transfer of funds.

17406. There is hereby appropriated from the General Fund in the State Treasury for the purpose of this chapter, such an amount as will equal the following:

(a) Such sum annually as will be necessary to pay the principal of and the interest on the bonds issued and sold pursuant to the provisions of this chapter, as said principal and interest become due and payable.

(b) Such sum as is necessary to carry out the provisions of Section 17407, which sum is appropriated without regard to fiscal years.

17407. For the purposes of carrying out the provisions of this chapter the Director of Finance may by executive order authorize the withdrawal from the General Fund of an amount or amounts not to exceed the amount of the unsold bonds which the committee has by resolution authorized to be sold for the purpose of carrying out this chapter. Any amounts withdrawn shall be deposited in the fund to be allocated by the board in accordance with this chapter. Any moneys made available under this section to the board shall be returned by the board to the General Fund from moneys received from the sale of bonds sold for the purpose of carrying out this chapter.

17408. Upon request of the board, supported by a statement of the apportionments made and to be made under Article 1 (commencing with Section 16000) to Article 3 (commencing with Section 16190), inclusive, of Chapter 8 of this part, the committee shall determine whether or not it is necessary or desirable to issue any bonds authorized under this chapter in order to make such apportionments, and, if so, the amount of bonds then to be issued and sold. Seventy-five million dollars (\$75,000,000) shall be available for apportionment on July 5, 1972, and fifteen million dollars (\$15,000,000) shall become available for apportionment on the fifth day of each month thereafter until a total of three hundred fifty million dollars (\$350,000,000) has become available for apportionment. Successive issues of bonds may be authorized and sold to make such apportionments progressively, and it shall not be necessary that all of the bonds herein authorized to be issued shall be sold at any one time.

17409. In computing the net interest cost under Section 16754 of the Government Code, interest shall be computed from the date of the bonds or the last preceding interest payment date, whichever is latest, to the respective maturity dates of the bonds then offered for sale at the coupon rate or rates specified in the bid, such computation

to be made on a 360-day year basis.

17410. The committee may authorize the State Treasurer to sell all or any part of the bonds herein authorized at such time or times as may be fixed by the State Treasurer.

17411. All proceeds from the sale of the bonds herein authorized deposited in the fund, as provided in Section 16757 of the Government Code, except those derived from premium and accrued interest, shall be available for the purpose herein provided, but shall not be available for transfer to the General Fund pursuant to Section 17404 to pay principal and interest on bonds.

17412. With respect to the proceeds of bonds authorized by this chapter, all the provisions of Article 1 (commencing with Section 16000) to Article 3 (commencing with Section 16190), inclusive, of Chapter 8 of this part shall apply except:

(a) Any reference in Article 1 (commencing with Section 16000) to Article 3 (commencing with Section 16190), inclusive, of Chapter 8 of this part to "Section 2, Article XVI of the Constitution of this state" shall be deemed a reference to this chapter.

(b) Any reference in Article 1 (commencing with Section 16000) to Article 3 (commencing with Section 16190), inclusive, of Chapter 8 of this part to "Section 16403" shall be deemed a reference to "Section 17404."

17413. Out of the first money realized from the sale of bonds under this act, there shall be repaid any moneys advanced or loaned to the State School Building Aid Fund under any act of the Legislature, together with interest provided for in that act.

17414. Notwithstanding any provisions in this chapter to the contrary, of the moneys made available by this chapter not to exceed the sum of two hundred fifty million dollars (\$250,000,000) or such amount thereof that the board may determine necessary therefor, shall be available under the provisions of Article 9 (commencing with Section 16310) of Chapter 8 of this part for the purpose of rehabilitating, reconstructing, or replacing school facilities which are unsafe by virtue of not being in compliance with Article 6 (commencing with Section 39210) of Chapter 2 of Part 23 of Division 3 of Title 2 or for the purpose of repairing actual damage to school facilities caused by an earthquake after February 1, 1971, and for which there are no other state or federal funds available for such restoration. These funds shall be made available to eligible school districts when the fiscal and other requirements prescribed by Article 9 (commencing with Section 16310) of Chapter 8 of this part are complied with.

## CHAPTER 20. STATE SCHOOL BUILDING AID AND EARTHQUAKE RECONSTRUCTION AND REPLACEMENT BOND LAW OF 1974

17500. This chapter may be cited as the State School Building Aid and Earthquake Reconstruction and Replacement Bond Law of 1974.

17501. The State General Obligation Bond Law (Chapter 4

(commencing with Section 16720) of Part 3 of Division 4 of Title 2 of the Government Code) is adopted for the purpose of the issuance, sale and repayment of, and otherwise providing with respect to, the bonds authorized to be issued by this chapter, and the provisions of that law are included in this chapter as though set out in full in this chapter. All references in this chapter to "herein" shall be deemed to refer both to this chapter and such law.

17502. As used in this chapter, and for the purposes of this chapter as used in the State General Obligation Bond Law, the following words shall have the following meanings:

(a) "Committee" means the State School Building Finance Committee created by Section 15909.

(b) "Board" means the State Allocation Board.

(c) "Fund" means the State School Building Aid Fund.

17503. For the purpose of creating a fund to provide aid to school districts of the state in accordance with the provisions of the State School Building Aid Law of 1952, and of all acts amendatory thereof and supplementary thereto, and to provide funds to repay any money advanced or loaned to the State School Building Aid Fund under any act of the Legislature, together with interest provided for in that act, and to be used to reimburse the General Obligation Bond Expense Revolving Fund pursuant to Section 16724.5 of the Government Code the committee shall be and is hereby authorized and empowered to create a debt or debts, liability or liabilities, of the State of California, in the aggregate amount of one hundred fifty million dollars (\$150,000,000) in the manner provided herein, but not in excess thereof.

17504. All bonds herein authorized, which shall have been duly sold and delivered as herein provided, shall constitute valid and legally binding general obligations of the State of California, and the full faith and credit of the State of California is hereby pledged for the punctual payment of both principal and interest thereof.

There shall be collected annually in the same manner and at the same time as other state revenue is collected such a sum, in addition to the ordinary revenues of the state, as shall be required to pay the principal and interest on said bonds as herein provided, and it is hereby made the duty of all officers charged by law with any duty in regard to the collection of said revenue, to do and perform each and every act which shall be necessary to collect such additional sum.

On the several dates of maturity of said principal and interest in each fiscal year, there shall be transferred to the General Fund in the State Treasury, all of the money in the fund, not in excess of the principal of and interest on the said bonds then due and payable, except as herein provided for the prior redemption of said bonds, and, in the event such money so returned on said dates of maturity is less than the said principal and interest then due and payable, then the balance remaining unpaid shall be returned into the General Fund in the State Treasury out of the fund as soon thereafter as it shall become available.

17505. All money deposited in the fund under Section 16080 of this code and pursuant to the provisions of Part 2 (commencing with Section 16300) of Division 4 of Title 2 of the Government Code, shall be available only for transfer to the General Fund, as provided in Section 17504. When transferred to the General Fund such money shall be applied as a reimbursement to the General Fund on account of principal and interest due and payable or paid from the General Fund on the earliest issue of school building bonds for which the General Fund has not been fully reimbursed by such transfer of funds.

17506. There is hereby appropriated from the General Fund in the State Treasury for the purpose of this chapter, such an amount as will equal the following:

(a) Such sum annually as will be necessary to pay the principal of and the interest on the bonds issued and sold pursuant to the provisions of this chapter, as said principal and interest become due and payable.

(b) Such sum as is necessary to carry out the provisions of Section 17507, which sum is appropriated without regard to fiscal years.

17507. For the purposes of carrying out the provisions of this chapter the Director of Finance may by executive order authorize the withdrawal from the General Fund of an amount or amounts not to exceed the amount of the unsold bonds which the committee has by resolution authorized to be sold for the purpose of carrying out this chapter. Any amounts withdrawn shall be deposited in the fund to be allocated by the board in accordance with this chapter. Any moneys made available under this section to the board shall be returned by the board to the General Fund from moneys received from the sale of bonds sold for the purpose of carrying out this chapter.

17508. Upon request of the board, supported by a statement of the apportionments made and to be made under Article 1 (commencing with Section 16000) to Article 3 (commencing with Section 16190), inclusive, and Article 9 (commencing with Section 16310) of Chapter 8 of this part, the committee shall determine whether or not it is necessary or desirable to issue any bonds authorized under this chapter in order to make such apportionments, and, if so, the amount of bonds then to be issued and sold. Fifty million dollars (\$50,000,000) shall be available for apportionment on December 5, 1974, and five million dollars (\$5,000,000) shall become available for apportionment on the fifth day of each month thereafter until a total of one hundred fifty million dollars (\$150,000,000) has become available for apportionment. Successive issues of bonds may be authorized and sold to make such apportionments progressively, and it shall not be necessary that all of the bonds herein authorized to be issued shall be sold at any one time.

17509. In computing the net interest cost under Section 16754 of the Government Code, interest shall be computed from the date of

the bonds or the last preceding interest payment date, whichever is latest, to the respective maturity dates of the bonds then offered for sale at the coupon rate or rates specified in the bid, such computation to be made on a 360-day year basis.

17510. The committee may authorize the State Treasurer to sell all or any part of the bonds herein authorized at such time or times as may be fixed by the State Treasurer.

17511. All proceeds from the sale of the bonds herein authorized deposited in the fund, as provided in Section 16757 of the Government Code, except those derived from premium and accrued interest, shall be available for the purpose herein provided, but shall not be available for transfer to the General Fund pursuant to Section 17504 to pay principal and interest on bonds.

17512. With respect to the proceeds of bonds authorized by this chapter, all the provisions of Article 1 (commencing with Section 16000) to Article 3 (commencing with Section 16190), inclusive, of Chapter 8 of this part shall apply except:

(a) Any reference in Article 1 (commencing with Section 16000) to Article 3 (commencing with Section 16190), inclusive, of Chapter 8 of this part, to "Section 2, Article XVI of the Constitution of this state" shall be deemed a reference to this chapter.

(b) Any reference in Article 1 (commencing with Section 16000) to Article 3 (commencing with Section 16190), inclusive, of Chapter 8 of this part to "Section 16403" shall be deemed a reference to Section 17504.

17513. Out of the first money realized from the sale of bonds under this act, there shall be repaid any moneys advanced or loaned to the State School Building Aid Fund under any act of the Legislature, together with interest provided for in that act.

17514. Notwithstanding any provisions in this chapter to the contrary, of the moneys made available by this chapter, not to exceed the sum of fifty million dollars (\$50,000,000) or such amount thereof that the board may determine necessary therefor, shall be available under the provisions of Article 9 (commencing with Section 16310) of Chapter 8 of this part for the purpose of rehabilitating, reconstructing, or replacing school facilities which are unsafe by virtue of not being in compliance with Article 6 (commencing with Section 39210) of Chapter 2 of Part 23 of Division 3 of Title 2 or for the purpose of repairing actual damage to school facilities caused by an earthquake after March 1, 1974, and for which there are no other state or federal funds available for such restoration. These funds shall be made available to eligible school districts when the fiscal and other requirements prescribed by Article 9 (commencing with Section 16310) of Chapter 8 of this part are complied with.

#### CHAPTER 21. STATE SCHOOL BUILDING LEASE-PURCHASE BOND LAW OF 1976

17600. This act may be cited as the State School Building

Lease-Purchase Bond Law of 1976.

17601. The State General Obligation Bond Law (Chapter 4 (commencing with Section 16720) of Part 3 of Division 4 of Title 2 of the Government Code) is adopted for the purpose of the issuance, sale and repayment of, and otherwise providing with respect to, the bonds authorized to be issued by this chapter, and the provisions of that law are included in this chapter as though set out in full in this chapter. All references in this chapter to "herein" shall be deemed to refer both to this chapter and such law.

17602. As used in this chapter, and for the purposes of this chapter as used in the State General Obligation Bond Law, the following words shall have the following meanings:

(a) "Committee" means the State School Building Finance Committee created by Section 15901.

(b) "Board" means the State Allocation Board.

(c) "Fund" means the State School Building Lease-Purchase Fund.

17603. For the purpose of creating a fund to provide aid to school districts of the state in accordance with the provisions of the State School Building Lease-Purchase Law of 1976, and of all acts amendatory thereof and supplementary thereto, and to provide funds to repay any money advanced or loaned to the State School Building Lease-Purchase Fund under any act of the Legislature, together with interest provided for in that act, and to be used to reimburse the General Obligation Bond Expense Revolving Fund pursuant to Section 16724.5 of the Government Code the committee shall be and is hereby authorized and empowered to create a debt or debts, liability or liabilities, of the State of California, in the aggregate amount of two hundred million dollars (\$200,000,000) in the manner provided herein, but not in excess thereof.

17604. All bonds herein authorized, which shall have been duly sold and delivered as herein provided, shall constitute valid and legally binding general obligations of the State of California, and the full faith and credit of the State of California is hereby pledged for the punctual payment of both principal and interest thereof.

There shall be collected annually in the same manner and at the same time as other state revenue is collected such a sum, in addition to the ordinary revenues of the state, as shall be required to pay the principal and interest on said bonds as herein provided, and it is hereby made the duty of all officers charged by law with any duty in regard to the collection of said revenue, to do and perform each and every act which shall be necessary to collect such additional sum.

On the several dates of maturity of said principal and interest in each fiscal year, there shall be transferred to the General Fund in the State Treasury, all of the money in the fund, not in excess of the principal of and interest on the said bonds then due and payable, except as herein provided for the prior redemption of said bonds, and, in the event such money so returned on said dates of maturity is less than the said principal and interest then due and payable, then

the balance remaining unpaid shall be returned into the General Fund in the State Treasury out of the fund as soon thereafter as it shall become available.

17605. All money deposited in the fund under Section 17736 of this code and pursuant to the provisions of Part 2 (commencing with Section 16300) of Division 4 of Title 2 of the Government Code, shall be available only for transfer to the General Fund, as provided in Section 17604. When transferred to the General Fund such money shall be applied as a reimbursement to the General Fund on account of principal and interest due and payable or paid from the General Fund on the earliest issue of school building bonds for which the General Fund has not been fully reimbursed by such transfer of funds.

17606. There is hereby appropriated from the General Fund in the State Treasury for the purpose of this chapter, such an amount as will equal the following:

(a) Such sum annually as will be necessary to pay the principal of and the interest on the bonds issued and sold pursuant to the provisions of this chapter, as said principal and interest become due and payable.

(b) Such sum as is necessary to carry out the provisions of Section 17607, which sum is appropriated without regard to fiscal years.

17607. For the purposes of carrying out the provisions of this chapter the Director of Finance may by executive order authorize the withdrawal from the General Fund of an amount or amounts not to exceed the amount of the unsold bonds which the committee has by resolution authorized to be sold for the purpose of carrying out this chapter. Any amounts withdrawn shall be deposited in the fund to be allocated by the board in accordance with this chapter. Any moneys made available under this section to the board shall be returned by the board to the General Fund from moneys received from the sale of bonds sold for the purpose of carrying out this chapter.

17608. Upon request of the board, supported by a statement of the apportionments made and to be made under Sections 17700 to 17766, inclusive, the committee shall determine whether or not it is necessary or desirable to issue any bonds authorized under this chapter in order to make such apportionments, and, if so, the amount of bonds then to be issued and sold. Fifty million dollars (\$50,000,000) shall be available for apportionment on July 1, 1976, and seven million dollars (\$7,000,000) shall become available for apportionment on the fifth day of each month thereafter until a total of two hundred million dollars (\$200,000,000) has become available for apportionment. Successive issues of bonds may be authorized and sold to make such apportionments progressively, and it shall not be necessary that all of the bonds herein authorized to be issued shall be sold at any one time.

17609. In computing the net interest cost under Section 16754 of the Government Code, interest shall be computed from the date of

the bonds or the last preceding interest payment date, whichever is latest, to the respective maturity dates of the bonds then offered for sale at the coupon rate or rates specified in the bid, such computation to be made on a 360-day year basis.

17610. The committee may authorize the State Treasurer to sell all or any part of the bonds herein authorized at such time or times as may be fixed by the State Treasurer.

17611. All proceeds from the sale of the bonds herein authorized deposited in the fund, as provided in Section 16757 of the Government Code, except those derived from premium and accrued interest, shall be available for the purpose herein provided, but shall not be available for transfer to the General Fund pursuant to Section 19305 to pay principal and interest on bonds.

17612. With respect to the proceeds of bonds authorized by this chapter, all the provisions of Sections 17700 to 17766, inclusive, shall apply.

17613. Out of the first money realized from the sale of bonds under this act, there shall be repaid any moneys advanced or loaned to the State School Building Lease-Purchase Fund under any act of the Legislature, together with interest provided for in that act.

#### CHAPTER 22. STATE SCHOOL BUILDING LEASE-PURCHASE LAW OF 1976

17700. This chapter may be cited as the "Leroy F. Greene State School Building Lease-Purchase Law of 1976".

17701. The Legislature hereby declares that it is in the interest of the state and the people thereof for the state to issue general obligation bonds and use the proceeds thereof to reconstruct, remodel or replace existing school buildings which are educationally inadequate or which do not meet present-day structural safety requirements, and to acquire new school sites and buildings for the purpose of making them available to local school districts for the pupils of the public school system, such system being a matter of general concern inasmuch as the education of the children of the state is an obligation and function of the state.

17702. The following terms wherever used or referred to in this chapter, shall have the following meanings, respectively, unless a different meaning appears from the context:

(a) "Board" means the State Allocation Board.

(b) "Cost of project" includes, but is not limited to, the cost of all real estate property rights, and easements acquired, and the cost of developing the site and streets and utilities immediately adjacent thereto, the cost of construction of buildings and the furnishing and equipping of them, all financing charges, interest prior to, during, and for a period of six months prior to construction, engineering, architectural and legal expenses, the cost of plans, specifications, surveys, estimate of costs and revenues, administrative expenses or such other expenses that are necessary or incident to the financing

of the project.

(c) The term "lease" includes a lease with an option to purchase.

(d) "Project" means the facility being constructed or acquired by the state for rental to the applicant school district and may include the reconstruction or modernization of existing buildings, construction of new buildings, the grading and development of sites, acquisition of sites therefor and any easements or rights-of-way pertinent thereto or necessary for its full use including the development of streets and utilities.

(e) "Property" includes all property, real, personal or mixed, tangible or intangible, or any interest therein necessary or desirable for carrying out the purposes of this chapter.

17703. The Director of General Services shall administer this chapter and shall provide such assistance to the board as it may require.

17704. The State Allocation Board is continued in existence for the purpose of this chapter. The members of the board and the Members of the Legislature meeting with the board shall receive no compensation for their services under this chapter but shall be reimbursed for their actual and necessary expenses incurred in connection with the performance of their duties hereunder, to be paid as an administrative expense referred to herein.

17705. In addition to such other powers and duties as are granted the board by this chapter, other statute, or the Constitution, the board shall have power to:

(a) Establish such qualifications not in conflict with other provisions of this chapter, as it deems will best serve the purposes of this chapter, for determining the eligibility of school districts to lease projects under this chapter.

(b) Establish such procedures and policies in connection with the administration of this chapter as it deems necessary.

(c) Adopt such rules and regulations for the administration of this chapter, requiring such procedure, forms, and information, as it may deem necessary.

(d) Construct and control any project.

(e) Fix rates, rents or other charges for the use of any project acquired, constructed, equipped, furnished, or for services rendered in connection therewith, and to alter, change or modify the same at its pleasure, subject to any contractual obligation which may be entered into by the board with respect to the fixing of such rates, rents or charges.

17706. The board shall not enter into any leases with respect to an application for replacing inadequate school facilities unless it has first investigated and made a finding that it would not be economical or good practice to rehabilitate said facilities.

17707. The State School Building Finance Committee, created by Section 15909 and composed of the Governor, State Controller, State Treasurer, Director of Finance, and Director of Education, all of whom shall serve thereon without compensation and a majority of

whom shall constitute a quorum, is continued in existence for the purpose of this chapter. Two Members of the Senate appointed by the Senate Committee on Rules, and two Members of the Assembly appointed by the Speaker, shall meet with and advise the committee to the extent that such advisory participation is not incompatible with their respective positions as Members of the Legislature.

For purposes of this chapter said Members of the Legislature shall constitute an interim investigation committee on the subject of this chapter and as such shall have the powers and duties imposed upon such committees by the Joint Rules of the Senate and the Assembly. The Director of General Services shall provide such assistance to the committee as it may require. The Attorney General shall be the legal adviser of the committee.

17708. A fund is hereby created in the State Treasury to be known as the State School Building Lease-Purchase Fund. All money in the State School Building Lease-Purchase Fund including any money deposited in said fund from any source whatsoever is hereby continuously appropriated without regard to fiscal years for expenditure pursuant to the provisions of this chapter.

## Article 2. Projects

17710. The board may construct any project, and may acquire all property necessary therefor, on such terms and conditions as it may deem advisable. When any part of the work is to be done or performed by any public body or the United States jointly or in conjunction with the board, the portion of the cost thereof to be borne by the board may be turned over to the government of the United States or to any other public body, to be expended by it in the acquisition, construction or completion of the project.

17711. The board may use for the payment of the costs of acquisition, construction or completion of any project any funds made available to the board by the State of California or any other funds provided by the board from any source, to be expended for accomplishing the purposes set forth in this chapter, together with the proceeds of bonds issued and sold pursuant to Chapter 21 (commencing with Section 17600).

17712. The board has full charge of the acquisition, construction, completion, and control of all projects authorized by them and may proceed with such work forthwith.

17713. Title to all property acquired, constructed, or improved by the board and the revenues and income therefrom, is in the State of California. All such property, and the income therefrom are exempt from all taxation by the State of California or by any county, city and county, city, district, political subdivision or public corporation thereof.

17714. The board shall require the school district to make all necessary repairs, renewals and replacements to insure that a project is at all times kept in good repair, working order and condition. All

costs incurred for this purpose will be borne by the school district.

17715. The board shall require the school district to insure against public liability or property damage in connection with any project.

17716. The board, by the adoption of rules, may establish priorities for the construction and leasing of projects to those school districts the pupils of which will benefit most. The board may make exceptions from established priorities when it determines that to do so will benefit the pupils affected.

17717. Each school district which desires to lease a project for a grade level maintained by it, shall submit through its governing board an application therefor to the board in such form and number of copies as the board may prescribe. Immediately upon receipt of an application in the prescribed form accompanied by the required estimate of cost, a copy thereof shall be transmitted by the board to the Director of General Services.

Each copy of the application shall be accompanied by a statement of the estimated cost of the project certified by an architect or structural engineer, and by layout plans showing the entire construction project.

Before the board approves an application for a construction project, it shall establish cost standards for all new construction included therein. Such cost standards shall not exceed typical comparable new construction by school districts in the same area, or if there has been no new construction by school districts in the area, the cost standards shall not exceed the reasonable current cost of similar construction in the area. The board shall determine such typical current costs or such reasonable current costs. In applying cost standards the board shall take into account the size and type of the construction proposed and may make such deviations as in its judgment are justified. When a standard has been set by the board to cover any individual apportionment, no project shall be approved by the board in excess of such standard, unless the board shall find that in view of a subsequent increase in building costs an adjustment is warranted. No contract shall be let for a construction project which has been approved by the board if the cost exceeds the construction cost standards fixed by the board under this section for such new construction.

17718. In approving applications pursuant to this chapter, the board shall encourage the design and construction of facilities which will conserve unreplenishable energy resources by consideration of alternate design and insulation concepts as well as unconventional energy sources. In so doing, the board may increase cost allowances to reflect the difference between conventional and unconventional concepts when the board is satisfied that the life cycle cost of the project is not expected to exceed the life cycle cost of a conventionally designed project.

17719. Before the board approves any project which includes the acquisition of furniture or equipment, it shall establish current cost and quality standards for furniture and equipment. Such standards

shall not exceed the cost and quality of furniture and equipment for comparable facilities purchased by school districts in the same area. Such standards shall consist of furniture and equipment costs for each type of classroom or pupil station having different cost criteria. Such standards shall be reviewed quarterly by the board and adjustments made in accordance with actual current costs. When cost and quality standards have been adopted by the board, such standards shall not be exceeded unless a subsequent increase in actual current costs warrants an adjustment.

Before the board approves a project for the replacement, reconstruction, or alteration of, or addition to, a school building, full consideration shall be given to all usable furniture and equipment existing in the applicant district. The board may approve all or a portion of the amount applied for.

17720. Notwithstanding other provisions of this chapter, in order to expedite a total school facility a school district may first apply for a project which includes only the advance purchase of the land and preparation of plans and specifications. The acquisition of the site and the plans preparation shall be based on the justification documents for the total school facility. The school district may apply for a subsequent project or projects to complete the total school facility.

17721. No project shall be approved for the reconstruction, modernization or replacement of any school building which was constructed or reconstructed less than 30 years prior to the date of approval of the project applied for under this chapter.

17722. No project shall be acquired or constructed unless the applicant district has first held an election at which more than 50 percent of the qualified electors of the district voting thereat have approved the ballot proposition hereinafter referred to in this section. At such election, the electors may authorize an increase in the maximum tax rate by an amount which will produce revenues equal to the annual lease payments.

Before entering into a lease or agreement pursuant to this article, the governing board of the school district shall call, hold, and conduct an election in the manner provided in Section 42202, except that the ballot used in the election shall contain substantially the words:

“Shall the governing board of the district be authorized to enter into lease-purchase agreements with the State of California under and subject to the provisions of Chapter 22 (commencing with Section 17700) of Part 10 of Division 1 of Title 1 of the Education Code for the construction, reconstruction, alteration, or replacement of school facilities, which amount is subject to lease payments as provided in said chapter, the project costs of which shall not exceed \_\_\_\_\_ dollars (\$\_\_\_\_\_) Yes \_\_\_\_\_ No \_\_\_\_\_.”

17723. Nothing contained in this chapter shall be construed as changing the powers and duties of the Department of Education or the Department of General Services in respect to school sites and the construction of school buildings as contained in Chapter 1

(commencing with Section 39000) and Chapter 2 (commencing with Section 39100) of Part 23 of Division 2 of Title 2.

17724. The board shall not authorize a contract for the erection of any new school building, or for any addition to, or alteration of, any existing building, for lease-purchase to any school district subject to the provisions of Section 39118, unless the applicant district has submitted plans therefor to the Department of Education, and obtained the written approval of the plans by that department.

17725. The board shall not authorize a contract for the erection of any new school, or for the addition to, or alteration of, any existing building, for lease-purchase to any school district unless the applicant district has submitted plans therefor to the Department of General Services and obtained the written approval of such department pursuant to the provisions of Article 3 (commencing with Section 39140) of Chapter 1 of Part 23 of Division 3 of Title 2.

17726. Annual lease payments shall be established by the board in such amount as necessary to amortize the cost of the project over a period of not more than 30 years, including interest. The Director of General Services shall notify the State Controller, the governing board of the district, and the county auditor and county superintendent of schools of the county affected of the amounts due annually from each district under a lease entered into pursuant to this chapter. The State Controller shall, during the next fiscal year following notification by the Director of General Services, deduct the total amount of the annual payment due from each district in equal amounts from each of the February, March, April, and May installments of the apportionments made to such district from the State School Fund under Sections 92, 46304, and 46305, Sections 41330 to 41343, inclusive, and Sections 41600 to 41972, inclusive, whichever are in effect; and, on order of the State Controller, the amount so deducted shall be transferred to the State School Building Lease-Purchase Fund. All money so transferred under the provisions of this section shall be available only for purposes of making annual payments of interest and principal on the bonds issued by the state for the purpose of constructing facilities under this chapter.

The board of supervisors of the county, the county superintendent of which has jurisdiction over any district which under this section will have moneys withheld by the State Controller from the apportionments to be made to it from the State School Fund during any fiscal year, shall annually at the time the board of supervisors makes the levy of taxes for county purposes, levy a tax upon the property in the district at a rate sufficient to raise for the district the amount of money to be withheld by the State Controller during the fiscal year in which the tax is levied. Such tax, when collected, shall be paid into the county treasury of the county, the county superintendent of schools of which has jurisdiction over the district for which the tax was levied, to the credit of the general fund of the district.

17727. Whenever, subsequent to the date on which a project has

been approved under the provisions of this chapter, the boundaries of the applicant district are changed by any action, the territory comprising the boundaries of the applicant district at the time the project was approved shall remain obligated for payments required under a lease entered into in connection with the approved project.

17728. For the purposes of Sections 15102 and 15106, 50 percent of any remaining payments which would become due from a school district under any lease entered into by the district pursuant to this chapter, if such lease was to run its full term, shall be considered outstanding bonded indebtedness.

No district shall enter into any lease pursuant to this chapter if at the time 50 percent of any remaining rental payments thereunder, which would become due from the district pursuant to this chapter, or pursuant to Article 7 (commencing with Section 39240) of Chapter 1 of Part 23 Division 3 of Title 2, including the lease to be entered into, if such leases were to run their full term, plus the total amount of district bonded indebtedness outstanding at the time, shall exceed 7.5 percent in the case of an elementary school district or high school district, or 12.5 percent in the case of a unified school district, of the taxable property of the district as shown by the last equalized assessment of the county or counties in which the district is located. For the purpose of this section, the taxable property of the district shall be determined upon the basis that the district's assessed value has not been reduced by the exemption of the assessed value of business inventories in the district or reduced by the homeowners' property tax exemption.

17729. The board shall authorize the applicant school district to act as its agent in the performance of acts specifically approved by the board and all acts required pursuant to Article 3 (commencing with Section 39140) of Chapter 1 of Part 23 of Division 3. Such authorizations shall include, but are not limited to, the selection of school sites, the securing of appraisals, the contracting for architectural services, the advertisement for construction bids and the entering into of contracts therefor and the purchase of furniture and equipment.

17730. In expending funds for any project under this chapter, a school district acts as an agent of the state and all sites purchased and improved, all equipment purchased, and all buildings constructed, altered or added to through the expenditure of funds apportioned under this chapter, are declared to be, and are, the property of the state.

The Director of General Services shall file with the county recorder of the county in which any site purchased or improved through the expenditure of funds under this chapter is located a certificate, properly acknowledged, indicating the state's interest in real property of the district by virtue of this section, without the necessity of particularizing such real property. The recorder shall record and index the certificate in the same manner as abstracts of judgments and the certificate shall constitute constructive notice of

the state's interest in the particular real property affected. Such certificate shall, as to any party thereafter acquiring real property or any interest therein in the county from said school district, have the same force, effect and priority as if it had been a judgment lien imposed upon real property which was not exempt from execution. Such effect shall commence upon recordation and shall continue until the certificate is discharged or released as provided herein.

Upon request, the Director of General Services shall (1) issue a release of the state's interest in any real property or a portion thereof that the district has been authorized by the board to dispose of under Section 17739, provided that delivery of such release may be subject to such conditions as may be prescribed by the board to protect the state's interest; (2) issue a disclaimer of the state's interest in any real property or a portion thereof of the district, the disposition of which the board is not required to consent to under the terms of Section 17739, provided that the delivery of such disclaimer may be subject to such conditions as the board deems appropriate to protect the interest of the state, including conditions relating to the amount of consideration to be received from such disposition where the board asserts an interest in the proceeds of such disposition under other provisions of this chapter. Such release or disclaimer shall conclusively protect any third party relying upon the same and shall be acknowledged to permit recordation by the county recorder.

Upon payment by the district of all amounts required to be paid by it or on its behalf to the state under this chapter, (1) the Director of General Services shall file with the county recorder a release of any such certificate, which release shall be recorded and indexed in the same index as the aforesaid certificate; and (2) the title to personal property purchased by such school district with funds apportioned under this chapter shall revert thereto without further action by the state.

17731. The applicant district, acting as agent for the state, shall comply with all laws pertaining to the construction, reconstruction, or alteration of, or addition to school buildings.

17732. The board shall fix rents, charges, and fees for all projects acquired, constructed or completed under the terms of this chapter for the use thereof by any school district utilizing the facilities thereof. The board is authorized to change such rents, charges, and fees from time to time as may be needed to discharge any obligations or costs incurred or incurrable pursuant to this chapter. To the extent and in the manner provided in any indenture, all rents, charges, and fees shall at all times be fixed to yield annual revenue equal to all redemption payments and interest charges and reserve fund requirements on revenue bonds at any time issued and outstanding hereunder, as the same become due.

17733. Rent, charges, and fees collected in error may be refunded by the board in accordance with regulations prescribed by the board.

17734. A county school lease-purchase fund is hereby created in the county treasury within each county for each school district

project in such county.

17735. The board may from time to time authorize the State Controller to transfer such funds as the board may deem necessary from the State School Building Lease-Purchase Fund established for a given project to the corresponding county school lease-purchase fund in the county treasury.

17736. Funds may only be expended from the county school lease-purchase fund by the applicant school district upon specific authorization from the board.

17737. Interest earned on funds in the county school lease-purchase fund shall not be deposited in such fund but shall be retained by the district and used only for the purpose of reducing the amount required from district taxes necessary to offset the annual lease payments withheld by the State Controller pursuant to Section 19373.

17738. The board shall require school districts to insure at their own expense for the benefit of the state, all sites, equipment and buildings which are, under Section 17730, the property of the state, against such risks and in such amounts as the board may deem necessary to protect the interests of the state. No project funds shall be used to pay the premiums on such insurance. All payments resulting from claims made against said insurance shall be made payable to and retained by the board. Funds so received shall be utilized by the board for repair or replacement of the facilities for which claim was made. In no event may the amounts expended from such funds for such repair or replacement exceed the payments received.

17739. Any property, real or personal replaced by a project approved pursuant to this chapter shall be disposed of in a manner satisfactory to the board. The net proceeds received from any such disposition shall be expended, subject to approval by the board, either (1) for capital outlay purposes which would be eligible for a future project pursuant to this chapter; or (2) for the demolition of any facilities replaced by a project approved pursuant to this chapter, or pursuant to Chapter 8 (commencing with Section 16000), Part 9, of this division; or (3) for any other purpose approved by the board.

### Article 3. Allowances

17740. No project shall be approved, the building area of which, when added to the area of adequate school construction existing in the applicant school district at the time of application, will provide a total area of school building construction per unit of estimated average daily attendance in excess of that computed in accordance with Sections 17743, 17744, 17745, and 17746.

As used in Sections 17743, 17744, 17745, and 17746, "maximum area" means maximum area of school building construction and "attendance unit" means unit of estimated average daily attendance.

As used in this section and Sections 17745 and 17746, "attendance

center" means a school maintained or to be maintained at a given location within a district.

No estimate of average daily attendance made by an applicant district for the purpose of justifying an application for an elementary school project shall be made for a longer time than the third fiscal year beyond the fiscal year in which an application is made, or in the case of an application for a junior high school or high school project, for a longer time than the fourth fiscal year beyond the fiscal year in which the application is made. Except as otherwise provided by the board, the estimates of average daily attendance shall be based upon the number of family dwellings and mobilehome parks, as defined in Section 18214 of the Health and Safety Code, under construction or newly constructed and never occupied in the district and the number of children residing in the district. In no case shall an estimate be given effect unless approved by the board.

For the purposes of this chapter, pupils attending grades 7 and 8 in an elementary district, but residing in a high school district which maintains one or more junior high schools, shall not be considered in determining or estimating the average daily attendance of the elementary district, unless the elementary district is maintaining and has continuously maintained grades 7 and 8 since a date prior to January 1, 1975. When such pupils are so considered in determining or estimating the average daily attendance of the elementary district, such pupils shall not be considered in determining or estimating average daily attendance of the high school district for junior high school purposes.

17741. Notwithstanding Section 17740, whenever the area of adequate school construction existing in any attendance area is such as to prevent another attendance area from receiving the maximum area of school construction for each unit of attendance as specified for the district as a whole, the allowable building area may be computed separately for each attendance area. For the purposes of this section an "attendance area" is defined as the geographical area serving an existing or proposed high school and those junior high schools and elementary schools included therein.

17742. The board, by the adoption of rules, shall provide for the manner of determining the area of adequate school construction existing in an applicant school district at the time of application. Such rules shall define and provide for the method of determining building areas that are to be included in whole or in part, or to be excluded from the area of existing adequate school construction. Any building to which Article 3 (commencing with Section 39140) of Chapter 1 of Part 23 Division 3 of Title 2 would apply shall not be considered adequate school construction for the purpose of determining the maximum total building area per attendance unit.

The board may make exceptions to the provisions of this section, or to the rules adopted pursuant thereto, if it determines that such will be for the benefit of pupils affected.

17743. (a) There shall be allowed to each district with

attendance units of 300 or more in kindergarten and grades 1 to 6, inclusive, a maximum area of 55 square feet for each attendance unit of the district in kindergarten and grades 1 to 6, inclusive.

(b) The maximum total building area per attendance unit allowed to applicant districts with attendance units of less than 300 in kindergarten and grades 1 to 6, inclusive, for such attendance units shall be determined by the board, and shall be building area to provide comparable facilities to those provided by subdivision (a) of this section, and shall be the least building area required to house adequately the estimated average daily attendance and the normal instructional and other services.

17744. There shall be allowed to each district a maximum area of 75 square feet for each attendance unit of the district in grades 7 and 8.

17745. The maximum area allowed to a district for attendance units in junior high schools composed of grades 7 to 9, inclusive, or 7 to 10, inclusive, as the case may be, shall be determined pursuant to this section, rather than Sections 17744 and 17746. This section shall not apply to junior high schools composed of grades 7 and 8 only.

The maximum area allowed for attendance units in junior high schools shall be determined by computing, in accordance with this section, the number of square feet for the attendance units at each junior high school attendance center of the district, and totaling the number of square feet so determined for all attendance units in all such junior high school attendance centers of the district. There shall be allowed a maximum area of 75 square feet for each attendance unit of the junior high school attendance center in grades 7 and 8. For each attendance unit in grade 9, or grades 9 and 10, as the case may be, at each junior high school attendance center, there shall be allowed a maximum area equal to the number of square feet which would be allowed under Section 17746 for each attendance unit of an attendance center having a total number of attendance units equal to the total number of attendance units in grades 7 to 9, inclusive, or 7 to 10, inclusive, as the case may be, at such junior high school attendance center. The number of square feet which would be allowed under Section 17746 for each attendance unit of an attendance center shall be computed by determining in accordance with that section the total number of square feet which would be allowed at an attendance center and dividing such total number of square feet by the total number of attendance units at such attendance center.

17746. There shall be allowed to each district a maximum area for the attendance units of the district in grades 9 to 12, inclusive, determined by computing, for the attendance units in grades 9 to 12, inclusive, at each attendance center of the district, a number of square feet for the number of attendance units in such grades at each attendance center, in accordance with the following table, and totaling the number of square feet so determined for all attendance units in such grades of all attendance centers of the district:

Attendance units of attendance center	Maximum number of square feet of building area
1- 50.....	18,000
51- 100.....	18,000 plus 162 for each attendance unit over 50
101- 200.....	26,100 plus 99 for each attendance unit over 100
201- 300.....	36,000 plus 60 for each attendance unit over 200
301- 600.....	42,000 plus 54 for each attendance unit over 300
601-1,800.....	58,200 plus 80 for each attendance unit over 600
Over 1,800 .....	154,200 plus 85 for each attendance unit over 1,800

17747. The allowable new building area for the purpose of providing facilities for mentally retarded and physically handicapped pupils shall be computed in accordance with regulations adopted by the board.

17748. Whenever an existing building is to be reconstructed, rather than replaced, under an application pursuant to this chapter, there shall be allowed, for those attendance units to be housed in such reconstructed building, an additional five square feet of building area beyond the amounts set forth in Section 17743, 17744, 17745, or 17746.

17749. Whenever at least 10 percent of the allowable new building construction contained in an application is to be utilized for relocatable structures, an additional three square feet of building area shall be allowed, for those attendance units to be housed in new buildings under such application, beyond the amounts set forth in Section 17743, 17744, 17745, or 17746.

## PART 11. LIBRARIES

### CHAPTER 1. BOARD OF LIBRARY EXAMINERS

18000. There is in the state government a commission known as the Board of Library Examiners, consisting of the State Librarian, who is ex officio chairman of the board, the President of the California Library Association, the librarian of the Public Library of the City and County of San Francisco, and the librarian of the Los Angeles Public Library. The members of the board shall receive no compensation for their services, except their actual and necessary traveling expenses, to be paid out of the moneys appropriated for the support of the Division of Libraries.

18001. The board shall pass upon the qualifications of all persons desiring to become county librarians, maintain a register of all librarians who meet the qualifications prescribed by the board, and

maintain a register of qualified library assistants. The board may, in writing, adopt rules and regulations not inconsistent with law for its own government, and for carrying out the purposes of this chapter.

## CHAPTER 2. SCHOOL LIBRARIES

### Article 1. Establishment and Maintenance

18100. The governing board of each school district or community college district shall provide school library services for the pupils and teachers of the district by establishing and maintaining school libraries or by contractual arrangements with another public agency.

18101. The State Board of Education shall adopt standards, rules and regulations for school library services.

The Board of Governors of the California Community Colleges shall adopt standards, rules, and regulations for school library services for community colleges.

18102. Libraries may be established and maintained under the control of the governing board of any school district or community college district.

18103. The libraries shall be open to the use of the teachers and the pupils of the school district or community college district during the schoolday. In addition, the libraries may be open at such other hours, including evenings and Saturdays, as the governing board may determine. Libraries open to serve students during evening and Saturday hours shall be under the supervision of certificated personnel. Certificated personnel employed to perform full-time services in an elementary, junior high, or high school during the regular schoolday, may supervise, but shall not without their consent be required to supervise, a school library on evenings or Saturdays. If such a person agrees to supervise the school library during Saturday or evening hours, he shall be compensated in the amounts determined by the governing board of the district as indicated on the salary schedule.

### Article 2. Books

18110. County boards of education may adopt lists of books and other library materials for districts not employing a superintendent of schools or a librarian for full time. The lists may be distributed to all school districts or community college districts in a county for use in the selection of books and other library materials.

18111. The governing board of any school district or community college district may exclude from schools and school libraries all books, publications, or papers of a sectarian, partisan, or denominational character.

### Article 3. Management

18120. The governing board of a school district or community college district maintaining its own library or libraries may appoint a librarian or librarians to staff such libraries provided they qualify as librarians pursuant to Section 44868 or 87435.

18121. The governing board of a school district or community college district is accountable for the proper care and preservation of the school libraries of the district, and may make all necessary rules and regulations not provided for by the State Board of Education, or the Superintendent of Public Instruction, or the board of governors and not inconsistent therewith.

18122. The governing board of a school district shall, on or before August 31st, in each year, report to the State Department of Education or the board of governors as appropriate, on the condition of school libraries, for the year ending June 30th preceding. The report shall, in addition to other matters deemed expedient by the governing board or the librarians, contain such statistical and other information as is deemed desirable by the State Department of Education or the board of governors. For this purpose the State Department of Education or the board of governors may send to the several districts under their supervision, instructions or question blanks so as to obtain the material for a comparative study of library conditions in the state.

### Article 4. Affiliation With County and City Libraries

18130. Whenever the county in which a district is situated maintains a county library, the governing board of any school district or community college district may agree with the proper authorities of the county to contract for the provision of school library services by the county library. Either the governing board of the school district or community college district or the governing body of the county library may initiate proceedings for the provision of library services for the schools of the district. Such agreements shall be reviewed annually by contracting parties.

18131. Notwithstanding any other section of this article to the contrary, school districts or community college districts may purchase textbooks, reference books, periodicals, and other publications approved by any board authorized to adopt such materials in addition to those furnished by the county library.

18132. All funds transferred to a county library pursuant to this article shall be used by the county library only for: (a) the acquisition of such books and other materials as are adopted by the body authorized to adopt courses of study for the school districts or community college districts which have entered into an agreement for the provision of school library services by the county library, and (b) the care and distribution of the books and other materials to schools which are eligible to receive school library services from the county library.

18133. The county librarian may (a) at his discretion dispose of books and other materials no longer fit for service, and (b) with the approval of the county board of education dispose of any books or other materials no longer needed by the course of study.

18134. In any city conducting a public library owned and managed by the city, the governing board of any school district or community college district may enter into an arrangement with the governing body of the public library of the city similar to the arrangement authorized by this article between the governing boards of any school district or community college district and the county library.

18135. Whenever an agreement is made that school library services will be provided by a city, or county library, the county, or city and county, or city superintendent of schools may draw a warrant for the whole amount stipulated in the agreement, payable to the proper authorities of the library, upon the filing with him of a copy of the resolution of the governing board of the district embodying the agreement made with the library. The copy shall be duly certified as correct by the clerk of the district or other proper officer.

18136. The governing board of any high school district lying wholly or partly within a county maintaining a county free library may enter into a contract or agreement with the board of supervisors of the county by which the high school district may secure the advantages of the county free library upon such terms and conditions as are fixed in the contract or agreement.

18137. Whenever the governing board of a school district or community college district enters into an agreement with a county or city library for school library services the district shall provide for the care and custody of and assume responsibility for the books and other property delivered to it subject to the rules and regulations of the county or city library and the terms of the agreement.

18138. With the consent of the county superintendent of schools the governing board of the school district or community college district may agree with the proper authorities of the county or city to terminate the affiliation of the district with the county or city library. Either the governing board of the school district or community college district or the governing body of the county library may initiate termination proceedings. The proceedings shall be terminated prior to the first day of February of the school year in which begun and may provide for either:

(a) The complete withdrawal of affiliation effective on the first day of July next succeeding, or

(b) A gradual withdrawal over a period of not to exceed three years beginning on the first day of July next succeeding the termination of proceedings.

The governing board of the school district or community college district shall enter into a written agreement with the proper

authorities of the city or county providing for the terms of the gradual withdrawal, including the period to be covered, not to exceed three years, the amount of payment for each year, and the amount of service to be rendered.

Unless otherwise provided in the withdrawal agreement, the books purchased by a district during the period of the withdrawal become the property of the district.

All books purchased by a district shall be approved by the body authorized to adopt courses of study for the school districts or community college districts of the county.

18139. With the consent of the county board of education, in those counties in which the county superintendent of schools performs library services for the school library of any district, the governing board of the school district or community college district may agree with the proper authorities of the county to terminate the affiliation of the district with the county superintendent of schools with respect to library services. The proceedings shall be terminated prior to the first day of February of the school year in which begun and may provide for either:

(a) The complete withdrawal of affiliation effective on the first day of July next succeeding, or

(b) A gradual withdrawal over a period of not to exceed five years beginning on the first day of July next succeeding the termination of proceedings.

The county board of education shall adopt rules and regulations governing such a gradual withdrawal, including the period to be covered, not to exceed five years, the amount of payment for each year, and the amount of service to be rendered. The terms of such gradual withdrawal shall comply with such rules and regulations.

#### Article 5. Use of Library Fund

18170. The governing board of any school district or community college district shall expend the library fund, together with such money as is added thereto by donation, in the purchase of school apparatus and books for a school library, including books for supplementary work.

18171. No warrant shall be drawn by the superintendent of schools upon the order of any governing board of any school district or community college district against the library fund of any district unless the order is accompanied by an itemized bill, showing the books and apparatus, and the price of each in payment of which the order is drawn, and unless the books and apparatus, except in the case of library books and apparatus purchased by a district employing a district superintendent of schools or a school librarian for full time, have been adopted by the county, city, or city and county board of education.

18172. All orders of the governing board of any school district or community college district for books or apparatus shall in every case

be submitted to the superintendent of schools of the county, city, or city and county, respectively, for his approval, before the books or apparatus shall be purchased.

### CHAPTER 3. UNIFIED SCHOOL DISTRICTS AND UNION HIGH SCHOOL DISTRICTS PUBLIC LIBRARIES

#### Article 1. Definitions

18300. "Trustees," or "library trustees" as used in this chapter mean the regularly elected union high school trustees who reside within the library district.

18301. "Library," "library district," or "library districts" as used in this chapter mean "union high school library district."

#### Article 2. Unified School Districts

18310. For the purposes of this chapter a unified school district has all of the powers and duties of a union high school district. A library district may be formed upon the application of 50 or more taxpayers and residents of any unified district, and after an election, in the manner prescribed by this chapter for the formation of a library district upon the application of taxpayers and residents of a union high school district. If the requisite number of votes cast at the election are in favor of a unified school district library district the board of supervisors shall by resolution establish the library district and place the district in the control of the governing board of the unified school district.

18311. As used in this chapter the words "union high school district" mean union high school district or unified school district and the words "union high school" mean union high school or unified school district. Whenever the provisions of this chapter are being exercised by, or are being made applicable in, a unified school district, the words "union high school district" and "union high school" shall be deemed to mean unified school district.

18312. If there are formed substantially within the territory of a union high school library district two or more unified school districts, the library district shall become a unified school district library district which shall be governed by the governing board of the unified school district whose territory includes the largest portion of the territory of the library district.

#### Article 3. Establishment

18320. Any union high school district may establish, equip, and maintain a public library for the dissemination of knowledge of the arts, sciences, and general literature, in accordance with this chapter.

18321. The title to all property acquired for the purposes of the library, when not inconsistent with the terms of its acquisition, or not

otherwise designated, vests in the district in which the library is, or is to be, situated.

18322. Every union high school library established under this chapter shall be forever free to the inhabitants and nonresident taxpayers of the library district, subject always to such rules, regulations, and bylaws as may be made by the board of library trustees. For violations of any rule, regulation, or bylaw a person may be fined or excluded from the privileges of the library.

#### Article 4. Formation of District

18330. Upon the application by petition of 50 or more taxpayers and residents of any union high school district to the board of supervisors in the county in which the union high school district is located, praying for the formation of a library district, and setting forth the boundaries of the proposed district, the board of supervisors shall, within 10 days after receiving the petition, by resolution, order that an election be held in the proposed district for the determination of the question and shall appoint three qualified electors thereof to conduct the election.

18331. The election shall be called by posting notices in three of the most public places in the proposed library district, and by publication in a daily or weekly paper therein, if there is one, at least once a week for not less than 15 days. The notices shall specify the time, place, and the purpose of the election, and the hours during which the polls will be kept open.

18332. In districts with a population of 10,000 or over, the polls shall be opened at 8 o'clock a.m. and kept open until 7 o'clock p.m., and in districts where the population is less than 10,000, the polls shall not be opened before 1 o'clock p.m. and shall be kept open not less than six hours.

18333. The election shall be conducted in accordance with the general election laws of this state, where applicable, without reference to form of ballot or manner of voting, except that the ballots shall contain the words, "For Union High School Library District." The voter shall write or print after the words on his ballot the word "Yes" or the word "No."

18334. Every qualified elector, resident within the proposed district for the period requisite to enable him to vote at a general election, shall be entitled to vote at the election.

18335. The election officers shall report the result of the election to the board of supervisors within five days subsequent to the holding thereof.

18336. If two-thirds of the votes cast at the election are in favor of a union high school library district, the board of supervisors shall, by resolution, establish the library district, and place the district in the control of the governing board of the union high school district.

18337. If more than one-third of the votes cast in the election is against a library district, the board of supervisors shall, by order, so

declare and no other proceedings shall be taken in relation thereto until the expiration of one year from the date of presentation of the petition.

18338. The fact of the presentation of the petition and the order establishing the library district shall be entered on the minutes of the board of supervisors, and shall be conclusive evidence of the due presentation of a proper petition, and that each of the petitioners was, at the time of signature and presentation of the petition a taxpayer and resident of the proposed district, and of the fact and regularity of all prior proceedings of every kind and nature provided for by this article, and of the existence and validity of the district.

18339. Every library district shall be designated by the name and style of "\_\_\_\_\_ Library District (using the name of the district) of \_\_\_\_\_ County (using the name of the county in which the district is situated)." A number shall not be used as a part of the designation of any library district.

18340. In the name of the library district, the governing board may sue and be sued, and may hold and convey property for the use and benefit of the district.

18341. The trustees in whose control the library district has been placed shall severally hold office during the term for which they have been elected as trustees of the union high school district.

#### Article 5. Dissolution of Districts

18370. The district may at any time be dissolved if two-thirds of the votes cast at an election called by the library trustees upon the question of dissolution are in favor of the dissolution.

18371. The election shall be called and conducted in the same manner as other elections of the district.

18372. Upon dissolution, the property of the district shall vest in any union high school district in which the library is situated.

18373. If at the time of the election to dissolve the district, there is any outstanding bonded indebtedness of the district, the vote to dissolve the district shall dissolve it for all purposes excepting only the levy and collection of taxes for the payment of the indebtedness. From the time the district is dissolved until the bonded indebtedness, with the interest thereon, is fully paid, satisfied, and discharged, the board of supervisors is ex officio the library board of the district. The board shall levy such taxes and perform such other acts as are necessary in order to raise money for the payment of the indebtedness and the interest thereon.

#### Article 6. Meetings of Boards of Trustees

18380. The boards of library trustees shall meet at least once a month, at such time and place as it may fix by resolution.

18381. Special meetings may be called at any time by two trustees, by written notices served upon each member at least 12

hours before the time specified for the meeting.

18382. Three members constitute a quorum for the transaction of business.

18383. At its first meeting held after the first day of July the board shall organize by electing one of its number president, and another one of its number secretary. They shall serve as such for one year or until their successors are elected and qualified.

18384. The board shall cause a proper record of its proceedings to be kept.

18385. At the first meeting of the board of trustees of any library district formed under this chapter it shall immediately cause to be made out and filed with the Department of Education at Sacramento a certificate showing that the library has been established, with the date thereof, the names of the trustees, and the officers of the board chosen for the current fiscal year.

#### Article 7. Powers of Boards of Trustees

18400. The board of library trustees shall make and enforce all rules, regulations, and bylaws necessary for the administration, government, and protection of the library under its management, and all property belonging to the library.

18401. The board of library trustees shall administer any trust declared or created for the library and receive by gift, devise, or bequest, and hold in trust or otherwise, property situated in this state or elsewhere, and where not otherwise provided, dispose of the property for the benefit of the library.

18402. The board of library trustees shall prescribe the duties and powers of the librarian, secretary, and other officers and employees of the library, determine the number of and appoint all officers and employees, and fix their compensation. The officers and employees shall hold their offices and positions at the pleasure of the boards.

18403. The board of library trustees shall purchase necessary books, journals, publications, and other personal property.

18404. The board of library trustees shall purchase such real property, and erect or rent and equip such buildings or rooms, as in its judgment are necessary to properly carry out the provisions of this chapter.

18405. The board of library trustees may request the appropriate state officials to furnish the library with copies of any and all reports, laws, and other publications of the state not otherwise disposed of by law.

18406. The board of library trustees shall borrow books from, lend books to, and exchange books with other libraries, and shall allow nonresidents to borrow books upon such conditions as it may prescribe.

18407. The board of library trustees shall do and perform any and all other acts and things necessary or proper to carry out the provisions of this chapter.

18408. The board of library trustees shall file through the librarian on or before the last day in August of each year, a report with the State Librarian at Sacramento, giving the condition of its library and the number of volumes contained therein on the 30th day of June preceding. The report shall, in addition to other matters deemed expedient by the board of trustees or the district librarian, contain such statistical and other information as is deemed desirable by the State Librarian. For this purpose the State Librarian may send to the several district librarians instructions or question blanks so as to obtain the material for a comparative study of library conditions in the state.

18409. The board of library trustees shall designate the hours during which the library will be open for the use of the public.

18410. All public libraries established under this chapter shall be open for the use of the public at all reasonable times.

18411. Boards of library trustees and the boards of trustees of neighboring library districts, or the legislative bodies of neighboring municipalities, or boards of supervisors of the counties in which public libraries are situated, may contract to lend the books of the libraries to residents of the counties, neighboring municipalities, or library districts, upon a reasonable compensation to be paid by the counties, neighboring municipalities, or library districts.

#### Article 8. Library Commission

18440. A board of library trustees may appoint, by resolution or other order entered in the minutes of the board of library trustees, a library commission consisting of five members to manage and operate the library or libraries of the district. Before any board of library trustees appoints a library commission as provided herein, the board of library trustees shall hold at least one public hearing on the matter of the creation of a library commission; notice of such hearing shall be given by publication pursuant to Section 6066 of the Government Code, in a newspaper designated by the board of library trustees and circulated throughout the district, and by posting of the notice in three public places in the district at least 15 days prior to the date of the public hearing.

18441. The members of the library commission shall hold office for three years from the first day of July next succeeding their appointment and until their successors are appointed and qualified, and shall serve without compensation.

18442. The members of the first commission appointed shall be so classified by the board of library trustees at the time of their appointment that the term of office of one of the members shall expire on the first day of July one year after the first day of July next succeeding his appointment, two at the end of one additional year thereafter, and two at the end of two additional years thereafter.

18443. Vacancies shall be filled by the board of library trustees by appointment for the unexpired term.

18444. Within 30 days after their first appointment, and whenever vacancies in any office may occur and are filled, the commission shall meet and organize as a commission, electing a president and a secretary from their number, after which they may transact business. The commission shall meet at least once a month at such time and place as they may fix by resolution. Regular and special meetings shall be called and conducted as prescribed in Chapter 9 (commencing with Section 54950), Part 1, Division 2, Title 5 of the Government Code.

18445. A majority of the commission shall constitute a quorum for the transaction of business.

18446. The commission shall act only by resolution or motion. A majority vote of the members of the commission is required on each action taken, and the vote thereon shall be recorded.

18447. The commission shall cause a proper record of its proceedings to be kept and maintained.

18448. Members of the commission may be allowed actual necessary traveling and incidental expenses incurred in the performance of official business of the district as approved by the commission.

18449. The commission shall do and perform any and all powers and duties authorized or required of the board of library trustees in Article 7 (commencing with Section 18400) of this chapter with the exception of Section 18411, provided that the consent of the board of library trustees shall be necessary before the commission may dispose of property pursuant to Section 18401 and before the purchase, erection, rental, and equipment of buildings or rooms pursuant to Section 18404.

18450. Upon the receipt by the county auditor of an order of the library commission of the district, he shall issue his warrant upon the county treasurer for the amount stated in the order if sufficient funds be on deposit in the account of the district with the county treasurer.

18451. Annually, and on or before the first day of June of each and every year, the commission shall submit or cause to be submitted to the board of library trustees its proposed budget for the operating and maintaining of the library or libraries of the district for the ensuing fiscal year. The proposed budget shall include an estimate of the cost of any or all of the following:

- (a) Leasing of temporary quarters;
- (b) Purchasing of suitable real property;
- (c) Procuring plans and specifications, and erecting a suitable building or buildings;
- (d) Furnishing and equipping the library building, and fencing and ornamenting the grounds for the accommodation of the public library.

18452. The board of library trustees may dissolve the library commission created under the provisions of this article effective as of the 30th day of June next succeeding. Before taking action to dissolve a library commission, the board of library trustees shall hold

at least one public hearing on the matter; notice of such hearing shall be given by publication pursuant to Section 6066 of the Government Code, in a newspaper designated by the board of library trustees and circulated throughout the district, and by posting of the notice in three public places in the district at least 15 days prior to the date of the public hearing.

#### Article 9. Estimates of Funds Needed

18480. In any library district formed under this chapter which maintains a public library, or which has petitioned for and has been granted permission to establish, and intends to maintain, a public library in accordance with this chapter, the board of library trustees shall furnish to the board of supervisors of the county in which the library district is situated, each and every year, on or before the first day of September, an estimate of the cost of any or all of the following:

- (a) Leasing temporary quarters.
- (b) Purchasing a suitable lot.
- (c) Procuring plans and specifications and erecting a suitable building.
- (d) Furnishing and equipping the building, and fencing and ornamenting the grounds for the accommodation of the public library.
- (e) Conducting and maintaining the library for the ensuing fiscal year.

#### Article 10. Tax Levy

18490. When the estimate provided for in Section 18480 has been submitted to the board of supervisors of any county in which a library district has been established, the board of supervisors shall, at the time of levying county taxes, levy a special tax upon all taxable property within the limits of the library district.

18491. The tax levied shall be sufficient in amount to maintain the union high school library, or to purchase the site, erect and equip the building, improve the grounds or building, or for any or all of the purposes enumerated in Section 18480.

18492. The taxes levied shall be computed, entered upon the tax roll, and collected in the same manner as other taxes are computed, entered, and collected.

18493. The revenue derived from the tax, together with all money acquired by gift, devise, bequest, or otherwise for the purposes of the library, shall be paid into the county treasury to the credit of the library fund of the district in which the tax was collected, subject only to the order of the library trustees of the district.

18494. If the payment into the treasury is inconsistent with the terms or conditions of any gift, devise, or bequest, the board of library

trustees shall provide for the safety and preservation of the fund, and the application thereof to the use of the library, in accordance with the terms and conditions of the gift, devise, or bequest.

#### Article 11. Claims

18500. All claims for money or damages against the district are governed by Part 3 (commencing with Section 900) and Part 4 (commencing with Section 940) of Division 3.6 of Title 1 of the Government Code except as provided therein, or by other statutes or regulations expressly applicable thereto.

#### Article 12. Election for Issuance of Bonds

18510. The board of trustees of any union high school library district may, when in its judgment it is deemed advisable, and shall upon a petition of 50 or more taxpayers and residents of the library district, call an election and submit to the electors of the district the proposition of whether the bonds of the district shall be issued and sold for the purpose of raising money for any or all of the following purposes:

- (a) The purchase of suitable lots.
- (b) Procuring plans and specifications and erecting a suitable building.
- (c) Furnishing and equipping the building and fencing and ornamenting the grounds, for the accommodation of the union high school library.
- (d) Any or all of the purposes of this chapter.
- (e) Liquidating any indebtedness incurred for the purposes.
- (f) Refunding any outstanding valid indebtedness evidenced by bonds or warrants of the district.

18511. In determining the amount of bonds to be issued and sold, the board of trustees may include:

- (a) Legal or other fees incidental to or connected with the authorization, issuance and sale of the bonds.
- (b) The costs of printing the bonds and other costs and expenses incidental to or connected with the authorization, issuance and sale of the bonds.

If such a determination is made, the proceeds of the sale of the bonds may be used to pay such costs and fees.

18512. The hours during which the polls shall be opened at the election shall be as established by the board, but in no event for less than nine hours.

18513. Voting shall be by ballot, without reference to the general election law in regard to form of ballot or manner of voting, except that the words to appear on the ballot shall be "Bonds—Yes" and "Bonds—No." Persons voting at the bond election shall put a cross (+) upon their ballot with pencil or ink, after the words "Bonds—Yes" or "Bonds—No," as the case may be, to indicate

whether they have voted for or against the issuance of the bonds. The ballot shall be handed by the elector voting to the inspector, who shall then, in his presence, deposit it in the ballot box, and the judges shall enter the elector's name on the poll list.

18514. On the seventh day after the election, at 8 o'clock p.m., the returns having been made to the board of trustees, the board shall meet and canvass the returns.

18515. If it appears that two-thirds of the votes cast at the election are in favor of issuing the bonds, the board shall cause an entry of the fact to be made upon its minutes and shall certify to the board of supervisors of the county all the proceedings had in the premises.

18516. Notice of election shall be given substantially in the manner and for the time provided in Section 18331.

18517. Any election called pursuant to this article may be consolidated with any other election pursuant to the provisions of Chapter 4 (commencing with Section 23300) of Part 2 of Division 12 of the Elections Code. In such event, the provisions of law governing such other election with respect to the manner of marking ballots and hours of elections shall apply.

18518. No error, irregularity, or omission which does not affect the substantial rights of the taxpayers within the district or the electors voting at any election at which bonds of any district are authorized to be issued shall invalidate the election or any bonds authorized by such election.

### Article 13. Issuance and Sale of Bonds

18530. After the provisions of Sections 18510 to 18515, inclusive, have been complied with, the board of supervisors shall issue the bonds of the district, to the number and amount provided in the proceedings, payable out of the building fund of the district, naming it, and the money shall be raised by taxation upon the taxable property in the district, for the redemption of the bonds and the payment of the interest thereon.

18531. The total amount of bonds issued, shall not exceed 5 percent of the taxable property of the district, as shown by the last equalized assessment book of the county.

18532. The bonds shall not bear a rate of interest greater than 8 percent, payable annually or semiannually.

18533. The board of supervisors by an order entered upon its minutes shall prescribe the form of the bonds and of the interest coupons attached thereto.

18534. The board of supervisors by an order entered upon its minutes shall fix the time when the whole or any part of the principal of the bonds will be payable, which shall not be more than 40 years from the date thereof.

18535. The bonds shall be sold in the manner prescribed by the board of supervisors, but for not less than par.

18536. The proceeds of the sale of the bonds shall be deposited in

the county treasury to the credit of the building fund of the library district, and shall be drawn out for the purposes for which the bonds were issued as other library money is drawn out.

#### Article 14. Cancellation of Bonds

18550. Whenever any bonds issued under the provisions of this chapter remain unsold for the period of six months after having been offered for sale in the manner prescribed by the board of supervisors, the board of trustees of the library district for or on account of which the bonds were issued, or of any library district composed wholly or partly of territory which, at the time of holding the election authorizing the issuance of the bonds, was embraced within the district for or on account of which the bonds were issued, may petition the board of supervisors to cause the unsold bonds to be withdrawn from market and canceled.

18551. Upon receiving the petition, signed by a majority of the members of the board of trustees, the supervisors shall fix a time for hearing the petition, which shall not be more than 30 days thereafter, and shall cause a notice, stating the time and place of hearing, and the object of the petition in general terms, to be published for 10 days prior to the day of hearing in a newspaper published in the library district, if there is one, and if there is no newspaper published in the library district, then in a newspaper published at the county seat of the county in which the library district or part thereof is situated.

18552. At the time and place designated in the notice for hearing the petition, or at any subsequent time to which the hearing may be postponed, the supervisors shall hear any reasons that may be submitted for or against the granting of the petition, and if they deem it for the best interests of the library district named in the petition that the unsold bonds be canceled, they shall make and enter an order in the minutes of their proceedings that the unsold bonds be canceled.

18553. Thereupon the bonds and the vote by which they were authorized to be issued, shall cease to be of any validity whatever.

#### Article 15. Tax for Interest and Redemption of Bonds

18560. The board of supervisors, at the time of making a levy of taxes for county purposes, shall levy a tax for that year upon the taxable property in the district, at the equalized assessed value thereof for that year, for the interest and redemption of the bonds.

18561. The tax shall not be less than sufficient to pay the interest of the bonds for that year, and such portion of the principal as is to become due during the year. In any event the tax shall be high enough to raise, annually, for the first half of the term the bonds have to run, a sufficient sum to pay the interest thereon, and, during the balance of the term, high enough to pay the annual interest, and to pay annually, a proportion of the principal of the bonds equal to a

sum produced by taking the whole amount of the bonds outstanding and dividing it by the number of years the bonds then have to run.

18562. All money levied, when collected, shall be paid into the county treasury to the credit of the library district, and be used for the payment of principal and interest on the bonds, and for no other purpose.

#### Article 16. Payment of Interest and Bonds

18570. The principal and interest on the bonds shall be paid by the county treasurer, upon the warrant of the county auditor, out of the fund provided therefor.

18571. The county auditor shall cancel and file with the county treasurer the bonds and coupons as rapidly as they are paid.

### CHAPTER 4. PUBLIC LIBRARY SERVICES

#### Article 1. Policy

18700. The Legislature hereby declares that it is in the interest of the people and of the state to aid and encourage the development of free public libraries throughout the state by grants to public library systems for the purpose of:

(a) Assisting them in establishing, improving, and extending library services.

(b) Encouraging them to establish library systems in areas where such cooperation would facilitate improved library services.

18701. It is the intent of the Legislature under this act to distribute grants for the development and improvement of public library service to library systems by a formula that recognizes factors of need, ability, and effort. Need is recognized by basing the distribution, in part, on the population served by library systems and by allowing a special weighting for low density of population. Ability is recognized by adjusting the population estimates by the relative standing of such systems with respect to assessed valuation per capita. Effort is recognized by establishing as a qualification for receiving a grant a minimum level of local support, expressed either as a tax rate or as an amount of expenditure per capita, and by establishing minimum standards of service.

18702. In adopting this chapter, the Legislature declares that its policy shall be:

(a) To oppose the removal of the government and administration of public libraries from local control.

(b) To encourage adequate financing of public libraries from local sources with state aid to be furnished on a limited basis only as a supplement to local support.

(c) To make no requirements, as a condition for receiving aid, concerning library equipment, nonbook services, or particular book or periodical titles.

## Article 2. Definitions

18710. As used in this chapter:

(a) "Public agency" means a county, city and county, city, or any district or other agency (including but not limited to an agency created pursuant to Chapter 5 (commencing with Section 6500) of Division 7 of Title 1 of the Government Code) authorized by law to provide public library services.

(b) "Library" means a single public library, or two or more such libraries, operated by a public agency.

(c) "System" means a library system formed pursuant to this chapter.

(d) "Plan of service" means a statement describing the specific purposes for which a system is formed, the means and the agencies by which such purposes are to be accomplished, and an estimate of the funds necessary for their accomplishment and the public agency or agencies who are to receive those funds.

## Article 3. Administration

18720. The State Librarian shall administer the provisions of this chapter, and shall prescribe such rules and regulations as are necessary to carry out its provisions.

18721. The State Library may expend any funds appropriated for expenditure under this chapter.

## Article 4. Local Control

18730. Nothing in this chapter shall be construed as authorizing the state to require libraries, as a condition for receiving grants, to:

(a) Acquire or exclude any specific book, periodical, film, picture, or other material, or any specific equipment, or to acquire or exclude any classification of books or periodicals by author, subject matter or type.

(b) Institute or eliminate any particular type of library service.

(c) Include or exclude for employment any particular number or class of personnel or to include or exclude any specific person for employment.

(d) Require minimum qualifications of library personnel.

## Article 5. Library Systems

18740. A library system may consist of any of the following systems:

(a) A library system consisting of a library operated by a single public agency.

(b) A consolidated library system, in which two or more public agencies consolidate their libraries to form a single library.

(c) A cooperative library system in which two or more public

agencies enter into a written agreement to implement a plan of service for the agencies so contracting.

18741. The formation of a library system shall be accomplished in the following manner:

(a) An application for grants shall be submitted to the State Librarian, together with a plan of service approved by the participating public agency or agencies. The application for grants shall be accompanied by an official resolution passed by the city council in the case of a city, the county board of supervisors with respect to county libraries, or the governing board of a library district with respect to library district libraries. The system plan of service shall be incorporated by reference in the resolution. A plan of service shall, among other things, where a cooperative library system is involved, designate an executive committee for the system appointed by the governing bodies of the appropriate public agencies.

(b) The State Librarian shall not approve an application until funds are available for the grants sought.

(c) If the State Librarian approves the plan of service and the application, the public agency or agencies shall execute a contract with the State Librarian specifying the services to be rendered in order to implement the plan of service. The contracts shall be subject to the limitations provided in Article 4 (commencing with Section 18730) and shall contain the minimum provisions specified in Section 18752.

18742. The State Librarian shall assist public agencies in the preparation and submission of applications for inclusion in an existing library system.

18743. The State Librarian shall determine the final date each year for the submission of requests for grants, and any remaining funds which had been tentatively allocated for grants which subsequently did not qualify shall be distributed on a pro rata basis among those grants which did qualify.

18744. The governing board of a school district or community college district, whose territory is served by one or more public agencies authorized to provide public library services, may contract with one or more of them for the purpose of making such services available to the pupils attending the schools maintained by the district. Expenses incurred by a school district pursuant to such a contract shall be a pro rata charge upon the general fund of the school district.

#### Article 6. Grants in General

18750. There shall be a program of grants, as follows:

(a) Establishment grants.

(b) Annual per capita grants.

18751. To qualify for grants under this chapter, a library system, once established, must:

(a) Provide equal access to all participating libraries to all residents of the area served by the system. Nothing in this chapter shall prevent the negotiation of agreements, or the exchange of funds, or the establishment of individual user charges designed to wholly or partially correct any imbalance of service caused by adherence to this subdivision; provided that over a period of not less than one year, the public agencies exchanging funds or the public agency imposing the user fee find that an imbalance of service exists.

(b) Provide for the annual addition of at least 4,000 new book titles to each library system which has a population of less than 75 persons per square mile, and the annual addition of 7,000 book titles to each library system which has a population of 75 or more persons per square mile.

(c) Have available in each system having a population of less than 75 persons per square mile at least 100,000 volumes, 40,000 of which have been acquired within 10 years, and in each system having a population of 75 or more persons per square mile at least 200,000 volumes, 60,000 of which have been acquired within 10 years.

(d) Have available in the system at least 7,500 reference book titles in its noncirculation collection.

(e) Have acquired in each system having a population of less than 75 persons per square mile subscriptions to at least 400 periodicals, including both juvenile and adult types, with one-half of such periodicals being on microform or in back files for the past 10 years, and in each system having a population of 75 or more persons per square mile subscriptions to at least 700 periodicals, including both juvenile and adult types, with three-quarters of such periodicals being on microform or in back files for the past 10 years.

(f) Have expended funds from local sources for total operating expenses, excluding capital expenditures, for each library within the system, in the fiscal year immediately preceding that in which application is made, and also have budgeted for the year in which application is made equivalent to the minimum specified in this subdivision. That minimum shall be either (1) the equivalent of a tax rate of fifteen cents (\$.15) on each one hundred dollars (\$100) of the total assessed valuation of the area served by each library within the library system, as shown by the equalized assessment roll or rolls of such area for the preceding year, or (2) two dollars and fifty cents (\$2.50) annually per capita in the area served by each library within the library system, whichever is less.

(g) Not expend less funds per capita from local sources for operating expenditures than it did in the preceding year.

(h) Carry out the provisions of the contracts entered into with the State Librarian designed to implement the plan of service.

18752. All grants shall be made according to the provisions of this chapter and the terms of the written contracts entered into between the respective public agencies and the State Librarian. These contracts, for establishment and per capita grants, shall, among other things:

(a) Specify the public agency or agencies to which payment is to be made, and the purposes for which the grants are to be expended.

(b) Specify the amount, time, and manner of payment.

(c) Specify that payment is to be conditioned upon receipt by the board of any progress report from the system, if it is one which has been requested for submission by the date of payment by the State Librarian.

(d) Specify that the grant can be expended only in augmentation, and not in lieu of, local appropriations.

(e) Specify that all requirements of Section 18751 shall be met.

(f) Specify that if no state grants are made the public agencies will not be bound to follow any of the provisions of the contract.

18753. An establishment grant for a system shall not exceed 25 percent of the total operating expenditures for the library or each of the libraries within that system, excluding capital expenditures, for the last completed fiscal year, except where there were no expenditures for the library for the last completed fiscal year, in which case the establishment grant for the system shall be the maximum provided for in Section 18770.

#### Article 7. Establishment and Per Capita Grants

18770. Establishment grants in the annual maximum amount of ten thousand dollars (\$10,000) shall be made for the system:

(a) For the library of each public agency which joins with one or more other public agencies in forming a library system.

(b) For the library of each public agency which joins an established system.

(c) For each library which is established in a previously unserved area and which qualifies as part of a system for the purpose of receiving state aid.

An establishment grant shall be paid as to each library under subdivision (a), (b) or (c) of this section, in respect to each of the first two years during which it is part of a library system.

18771. From funds appropriated by the Legislature under this chapter, requirements for establishment grants shall have priority as determined by the State Librarian. From funds remaining after allocations for establishment grants, annual per capita grants shall be made for each library system which is formed following the procedure outlined in Article 5 (commencing with Section 18740) of this chapter and which meets the minimum standards specified in Article 6 (commencing with Section 18750) of this chapter as follows:

(a) Determine the assessed value of properties subject to taxation for library support in each single library area;

(b) Adjust the values determined by paragraph (a) by applying to them the factor provided for in Sections 41200 or 84200 and 41201 or 84261 of this code appropriate to the county wherein the values lie, but in no event shall any of the other provisions of those sections be applicable;

(c) Determine the sum of the populations taxed for library support of all single libraries in the state and, similarly, determine the sum of the assessed valuations computed in paragraph (b);

(d) Divide the total valuation assessed for library support in the state by the population of the state taxed for libraries; this will determine the assessed valuation per capita;

(e) For each single library divide adjusted assessed valuation of each library's area by its population to determine each single library's assessed valuation per capita;

(f) For each single library, divide the adjusted statewide assessed valuation per capita in the state by the adjusted assessed valuation per capita in the library area;

(g) Multiply the population in each library area by the figure of each such library as determined in accordance with paragraph (f); these figures shall be designated as basic weighted population values; and shall be the basis of determining the basic per capita grants;

(h) Multiply the basic weighted population of each of the library areas by a factor of 0.3 (or 30 percent) as to all library areas wherein the population per square mile is 100 or less; the resulting values shall be designated as supplementary weighted population values, and shall be the basis of determining supplementary project grants for such sparsely populated library areas;

(i) Determine the sum of the basic and supplementary weighted population for the entire state;

(j) Divide the amount available for distribution to the libraries by the total weighted population, basic and supplementary, of the state, in one-thousandths; the resulting amount may be apportioned on account of each one-thousandth of weighted population, basic and supplementary, in any single library;

(k) With regard to basic weighted populations, any qualifying library system is eligible to receive funds as determined in accordance with paragraph (j);

(l) With regard to supplementary weighted populations, any library system which has single-library populations of 100 or less per square mile may apply for project grants, but only up to a total amount equal to the sum of all of the supplementary weighted population in one-thousandths contained within the system multiplied by the figure determined in paragraph (j); those sums would be available as project grants for the purpose of extending and improving library services in such sparsely populated areas.

Money not distributed under initial allocations may be reapportioned to library systems on the basis of the shares that each system's basic weighted populations represent in relation to the basic weighted population of all the library systems receiving grants.

18772. If a public agency or two or more public agencies desiring to form a consolidated or cooperative system, applying for grants is unable to meet all of the minimum standards of Section 18751, the public agency or agencies may submit to the State Librarian a plan of service officially adopted by the public agency or agencies

concerned for meeting all of the standards within a period of four completed fiscal years, the plan to indicate how much progress towards meeting the standards it is anticipated will be achieved each year. The State Librarian may then approve grants in the full amount to which the public agencies would be eligible were they to meet all standards, subject to the condition that a review will be made by the State Librarian of the provisional annual reports for the library systems, and that the second annual per capita grant will be contingent upon satisfactory achievement of the goals set up for the first fiscal year, according to the plan of service.

## CHAPTER 5. MUNICIPAL LIBRARIES

### Article 1. Establishment

18900. The common council, board of trustees, or other legislative body of any city in the state may, and upon being requested to do so by one-fourth of the electors of the municipal corporation in the manner provided in this article, shall, by ordinance, establish in and for the municipality a public library if there is none already established therein.

18901. The request may be by a single petition, or by several petitions. The several petitions shall be substantially in the same form. The single petition, or several petitions in the aggregate, shall have, the signatures of the requisite number of electors.

### Article 2. Trustees

18910. The public library shall be managed by a board of library trustees, consisting of five members, to be appointed by the mayor, president of the board of trustees, or other executive head of the municipality, with the consent of the legislative body of the municipality.

18911. The trustees shall hold office for three years. The members of the first board appointed shall so classify themselves by lot that one of their number shall go out of office at the end of the current fiscal year, two at the end of one year thereafter, and two at the end of two years thereafter.

The legislative body of the municipality may, by ordinance, provide for the compensation of such trustees; provided that the respective compensation for such trustees shall not exceed fifty dollars (\$50) per month.

18912. Men and women are equally eligible to appointment as trustees.

18913. Vacancies shall be filled by appointment for the unexpired term in the same manner as the original appointments are made.

18914. Boards of library trustees shall meet at least once a month at such times and places as they may fix by resolution.

18915. Special meetings may be called at any time by three

trustees, by written notice served upon each member at least three hours before the time specified for the proposed meeting.

18916. A majority of the board shall constitute a quorum for the transaction of business.

18917. The board shall appoint one of its number president, who shall serve for one year and until his successor is appointed, and in his absence shall select a president pro tem.

18918. The board shall cause a proper record of its proceedings to be kept.

18919. The board of library trustees may make and enforce all rules, regulations, and bylaws necessary for the administration, government, and protection of the libraries under its management, and all property belonging thereto.

18920. The board of library trustees may administer any trust declared or created for the library, and receive by gift, devise, or bequest and hold in trust or otherwise, property situated in this state or elsewhere, and where not otherwise provided, dispose of the property for the benefit of the library.

18921. The board of library trustees may prescribe the duties and powers of the librarian, secretary, and other officers and employees of the library; determine the number of and appoint all officers and employees, and fix their compensation. The officers and employees shall hold their offices or positions at the pleasure of the board.

18922. The board of library trustees may purchase necessary books, journals, publications, and other personal property.

18923. The board of library trustees may purchase real property, and erect or rent and equip, such buildings or rooms, as may be necessary, when in its judgment a suitable building, or portion thereof, has not been provided by the legislative body of the municipality for the library.

18924. The board of library trustees may request the appropriate state officials to furnish the library with copies of any and all reports, laws, and other publications of the state not otherwise disposed of by law.

18925. The board of library trustees may borrow books from, lend books to, and exchange books with other libraries, and may allow nonresidents to borrow books upon such conditions as the board may prescribe.

18926. The board of library trustees may do and perform any and all other acts and things necessary or proper to carry out the provisions of this chapter.

18927. The board of library trustees, or if there is no board of trustees, then the administrative head of the library shall, on or before August 31st, in each year, report to the legislative body of the municipality and to the State Librarian on the condition of the library, for the year ending the 30th day of June preceding. The reports shall, in addition to other matters deemed expedient by the board of trustees or administrative head of the library, contain such statistical and other information as is deemed desirable by the State

Librarian. For this purpose the State Librarian may send to the several boards of trustees or administrative heads of the library instructions or question blanks so as to obtain the material for a comparative study of library conditions in the state.

### Article 3. Support of Libraries

18950. The legislative body of any municipality in which a public library is established pursuant to this chapter, shall in making the annual tax levy and as part thereof, if the construction and maintenance of the library has not been otherwise provided for, levy a tax for the purpose of construction and maintaining the library and purchasing property necessary therefor. The tax shall be in addition to other taxes, the levy of which is permitted in the municipality. The tax levy shall not exceed thirty cents (\$.30) per one hundred dollars (\$100) of assessed valuation. As used in this section, maintenance includes preserving, repairing and altering existing structures.

18951. The revenue derived from the tax, together with all money acquired by gift, devise, bequest, or otherwise, for the purposes of the library, shall be apportioned to a fund to be designated the library fund, and shall be applied to the purposes authorized in this chapter.

18952. If payment into the treasury is inconsistent with the conditions or terms of any gift, devise, or bequest, the board shall provide for the safety and preservation of the fund, and the application thereof to the use of the library, in accordance with the terms and conditions of the gift, devise, or bequest.

18953. Payments from the fund shall be made upon warrants issued after due audit by, and an order from, the library trustees. The warrants shall be signed by the president and secretary of the board of library trustees. The treasurer of the municipality shall pay such warrants without any further order or warrant from any other authority.

### Article 4. Government

18960. Every library established pursuant to this chapter shall be forever free to the inhabitants and nonresident taxpayers of the municipality, subject always to such rules, regulations, and bylaws as may be made by boards of library trustees. Any person who violates any rule, regulations, or bylaw may be fined or excluded from the privileges of the library.

18961. The board of library trustees and the legislative body of any neighboring municipality or the board of supervisors of the county in which the public library is situated, may contract for lending the books of the library to residents of the county or neighboring municipality, upon a reasonable compensation to be paid by the county or neighboring municipality.

18962. The title to all property acquired for the purposes of the

library, when not inconsistent with the terms of its acquisition, or otherwise designated, vests in the municipality in which the library is situated, and in the name of the municipal corporation may be sued for and defended by action at law or otherwise.

18963. Any municipal library which was established and existed on June 11, 1909, under the provisions of an act entitled "An act to establish free public libraries and reading rooms," approved April 26, 1880, is continued under the provisions of this chapter and shall be considered the same as if established under the provisions of this chapter. This chapter has no application to any library established or governed by a city charter, and any city charter is in no manner affected by this chapter.

18964. Any ordinance establishing a library adopted pursuant to this chapter shall be repealed by the body which adopted it upon being requested to do so by 51 percent of the electors of the municipal corporation, as shown by the great register. Upon the repeal of the ordinance the library is disestablished in the municipal corporation.

18965. Whenever the governing bodies of two or more cities or counties consolidate their existing public library services, as a joint exercise of powers under Chapter 5 (commencing with Section 6500), Division 7, Title 1 of the Government Code, and the ownership or management of the cities' and counties' library facilities and other library assets are turned over to a newly formed joint agency, any boards of public library trustees existing prior to the consolidation, may be dissolved by ordinance.

## CHAPTER 6. COUNTY FREE LIBRARIES

### Article 1. Establishment

19100. The boards of supervisors of the several counties may establish and maintain, within their respective counties, county free libraries pursuant to this chapter.

19101. The board of supervisors of any county may establish at the county seat or elsewhere in the county, a county free library for that part of the county lying outside of cities maintaining free public libraries, and outside of library districts maintaining district libraries, and for all such additional portions of the county as may elect to become a part of, or to participate in, the county free library system as provided in this chapter.

19102. At least once a week for two successive weeks prior to taking any action, the board of supervisors shall publish, in a newspaper designated by it and published in the county, notice of the contemplated action, giving the date of the meeting at which the action is proposed to be taken.

19103. After the establishment of a county free library, the board of trustees, common council, or other legislative body of any city in the county maintaining a free public library, or the board of trustees

of any library district maintaining a district library, may notify the board of supervisors that the city or library district desires to become a part of the county free library system. Thereafter the city or library district shall be a part of the system and its inhabitants shall be entitled to the benefits of the county free library, and the property within the city or library district shall be liable to taxes levied for county free library purposes.

19104. The board of trustees, common council, or other legislative body of any city or the board of trustees of any library district may on or before January 1st of any year, notify the board of supervisors that the city or library district no longer desires to be a part of the county free library system. The notice shall be accompanied by a statement complying with the requirements of Chapter 8 (commencing with Section 54900) of Part 1 of Division 2 of Title 5 of the Government Code. The clerk of the board of supervisors shall file the statement with the county assessor and the State Board of Equalization. Thereafter the city or library district shall cease to participate in the benefits of the county free library, and the property situated in the city or library district shall not be liable to taxes for county free library purposes.

19105. If the notice is given after January 1st of any year, the property situated in the city or library district shall be liable to taxes for county free library purposes during the immediately succeeding year, and the notice shall not be effective until the next succeeding year, and library service shall be rendered in the city or library district during the year for which taxes are levied for library purposes in the city or library district.

19106. Before any board of trustees, common council, or other legislative body of any city, or the board of trustees of any library district gives notice that the city or library district desires to become a part of the county free library system, or gives notice of withdrawal from the system, the board of trustees, common council, or other legislative body of the city or the board of trustees of the library district shall publish at least once a week for two successive weeks prior to the giving of either notice, in a newspaper designated by the board of trustees, common council, or other legislative body of the city or the board of library trustees of the library district, and circulating throughout the city or library district, notice of the contemplated action, giving the date and the place of the meeting at which the contemplated action is proposed to be taken.

19107. The board of supervisors of any county in which a county free library has been established may enter into contracts with any city maintaining a free public library, and any such city, through its board of trustees or other legislative body, may enter into contracts with the county to secure to the residents of the city the same privileges of the county free library as are granted to, or enjoyed by, the residents of the county outside of the city, or such privileges as are agreed upon in the contract, upon such consideration named in the contract as is agreed upon, to be paid into the county free library

fund. Thereupon the residents of the city shall have the same privileges with regard to the county free library as the residents of the county outside of the city, or such privileges as are agreed upon by the contract.

19108. The board of supervisors of any county in which a county free library has been established may enter into a contract with the board of supervisors of any other county to secure to the residents of the other county such privileges of the county free library as are agreed upon by the contract and upon such considerations as are agreed upon in the contract to be paid into the county free library fund. Thereupon the inhabitants of the other county shall have such privileges of the county free library as are agreed upon by the contract.

19109. The board of supervisors of any county may enter into a contract with the board of supervisors of another county in which a county free library has been established, and may levy a library tax, for the purpose of carrying out the contract.

19110. The board of supervisors of any county may contract with the board of supervisors of any other county or two or more other counties to provide for the services of a single qualified librarian to serve simultaneously as the county librarian of each county.

When so appointed the county librarian shall be required to establish a residence in but one of the counties in which he is appointed.

19111. The making of the contract shall not bar the board of supervisors of the county during the continuance of the contract from establishing a county free library under the provisions of this chapter if none is already established. Upon the establishment of any county free library, the contract may be terminated upon such terms as may be agreed upon by the parties thereto, or may continue for the term thereof.

19112. Instead of establishing a separate county free library, the board of supervisors may enter into a contract with the board of library trustees or other authority in charge of the free public library of any city and the board of library trustees, or other authority in charge of the free public library, may make such a contract. The contract may provide that the free public library of the city shall assume the functions of a county free library within the county with which the contract is made, including cities in the county. The board of supervisors may agree to pay annually into the library fund of the city such sum as may be agreed upon. Either party to the contract may terminate the contract by giving six months' notice of intention to do so.

19113. After a county free library has been established, it may be disestablished in the same manner as it was established. At least once a week for two successive weeks prior to taking any action, the board of supervisors shall publish, in a newspaper designated by them, and published in the county, notice of the contemplated action, giving therein the date of the meeting at which the contemplated action is

proposed to be taken.

19114. Whenever any of the territory being served by a county free library is annexed to, or otherwise included within, any municipal corporation not served by the county free library, the board of supervisors of the county shall order the county free library to continue to serve the territory annexed to, or otherwise included within the municipality, until the end of the fiscal year or years for which a tax has been levied upon the property of the annexed territory for the support of the county free library.

19115. The board of supervisors may establish a reasonable fee to be collected from persons who desire to participate in the services and benefits of the county free library and who are not residents of the territory in the county which is liable for taxes for county free library purposes. In establishing the fee, the board may also prescribe such regulations or limitations applicable to the use of the county free library by such persons as may reasonably be necessary.

## Article 2. County Librarian

19140. Upon the establishment of a county free library, the board of supervisors shall appoint a county librarian.

19141. If any county adopts a civil service system or a limited civil service system for county officers and employees, the county librarian shall be entitled to the benefits of such civil service system.

This section does not limit any powers conferred on any county by charter.

19142. No person is eligible to the office of county librarian unless prior to his appointment, he has received from the board of library examiners a certificate of qualification for the office.

19143. At the time of his appointment, the county librarian need not be a resident of the county nor a citizen of the State of California.

19144. Persons of either sex are eligible to certification for the office of county librarian.

19145. The county librarian shall, prior to entering upon his duties, file the usual oath, and he shall be required to file an official bond in an amount determined by the board of supervisors, unless he is covered by a master bond pursuant to Section 1481 of the Government Code.

19146. The county librarian shall, subject to the general rules adopted by the board of supervisors, build up and manage, according to accepted principles of library management, a library for the use of the people of the county, and shall determine what books and other library equipment shall be purchased.

19147. The salary of the county librarians shall be paid by each of the counties in equal monthly installments, at the same time and in the same manner and out of the same fund as the salaries of other county officers are paid.

19148. The board of supervisors of a county over 400,000 population, as determined by the 1960 decennial census, maintaining

a county free library may provide that the salary of the county librarian be paid from the same fund used for maintaining and operating the county free library.

Nothing in this section shall be construed as modifying the status of the county librarian as a county official pursuant to Section 24000 of the Government Code.

19149. The county librarian and his assistant shall be allowed actual and necessary traveling expenses incurred on the business of the office.

19150. Except when the county librarian is temporarily absent, no person shall serve in the position of county librarian under the title of acting county librarian, or assistant librarian in charge, or any other such title, unless the person has received from the Board of Library Examiners a certificate of qualification for the position of county librarian.

In the event qualified candidates for the position of the county librarian cannot be found, the county supervisors shall secure a written permission from the Board of Library Examiners to appoint an unqualified person to the position. This written permission may be granted by the library examiners for a period of time up to but not exceeding one year. The examiners may from time to time in their discretion renew the permit.

The provisions of this section shall not apply to the present appointment or reappointment of any person serving on September 11, 1957, in any position which is in lieu of the position of county librarian.

### Article 3. Government

19160. The county free library is under the general supervision of the board of supervisors, which may:

(a) Make general rules and regulations regarding the policy of the county free library.

(b) Establish, upon the recommendation of the county librarian, branches and stations throughout the county and may locate the branches and stations in cities wherever deemed advisable.

(c) Determine the number and kind of employees of the library.

(d) Appoint and dismiss the employees upon the recommendation of the county librarian.

19161. No employee shall be removed except for cause.

19162. If any removal is made upon the ground that the services of the employee are no longer required, the removed employee shall have the first right to be restored to the employment when his services are again required.

19163. The board of supervisors may, at the time of appointing any employee, and upon the recommendation of the county librarian, enter into an agreement that the employee is employed for a definite time only.

19164. All employees of the county free library whose duties

require special training in library work shall be graded in grades established by the county librarian, with the advice and approval of the State Librarian, according to the duties required of them, experience in library work and other qualifications for the service required.

19165. Before appointment to a position in the graded service, the candidate shall pass an examination appropriate to the position sought, satisfactory to the county librarian, and show a satisfactory experience in library work. Work in approved library schools or libraries, or certificates issued by the Board of Library Examiners, may be accepted by the county librarian in lieu of such examination.

19166. The county librarian may accept as apprentices, without compensation, candidates possessing personal qualifications satisfactory to him and may dismiss them at any time if in his judgment their work is not satisfactory to him.

19167. The county free libraries are under the general supervision of the State Librarian, who shall from time to time, either personally or by one of his assistants, visit the county free libraries and inquire into their condition. The actual and necessary expenses of the visits shall be paid out of the moneys appropriated for the support of the Division of Libraries.

19168. The State Librarian shall annually call a convention of county librarians, to assemble at such time and place as he deems most convenient, for the discussion of questions pertaining to the supervision and administration of the county free libraries, the laws relating thereto, and such other subjects affecting the welfare and interest of the county free libraries as are properly brought before it. All county librarians shall attend and take part in the proceedings of the convention. The actual and necessary expenses of the county librarians attending the convention shall be paid out of the county free library fund.

19169. The county librarian shall, on or before August 31st, in each year, report to the board of supervisors and to the State Librarian on the condition of the county free library, for the year ending June 30th preceding. The reports shall, in addition to other matters deemed expedient by the county librarian, contain such statistical and other information as is deemed desirable by the State Librarian. For this purpose the State Librarian may send to the several county librarians instructions or question blanks so as to obtain the material for a comparative study of library conditions in the state.

19170. The board of supervisors, after a county free library has been established, shall annually levy, in the same manner and at the same time as other county taxes are levied, and in addition to all other taxes, a tax not to exceed three mills (\$0.003) on the dollar (\$1) of assessed valuation upon all property in the county outside of cities maintaining free public libraries, union high school library districts maintaining district free public libraries, and outside of library districts maintaining district libraries, and upon all property within

cities and library districts, which have elected to become a part of any county free library system, for the purpose of purchasing property for, establishing, and maintaining the county free library.

19171. The county board of supervisors of any county may in its discretion allocate and appropriate any funds received by the county under the State and Local Fiscal Assistance Act of 1972 (Public Law 92-512) for the purpose of establishing, maintaining, and purchasing property for the county free library.

19172. In counties wherein a union high school library district, maintaining a district free public library was established prior to June 30, 1912, and such district has not elected to become a part of the county free library system, the board of supervisors may levy a tax in such amount as may be necessary upon all the property in the county outside of cities maintaining free public libraries, union high school library districts maintaining district free public libraries and outside of library districts maintaining district libraries, and upon all property within cities and library districts, which have elected to become a part of any county free library system, for the purpose of acquiring sites for, and constructing, leasing, building, rebuilding, furnishing, refurnishing, or repairing county free library buildings. In all other counties, county bonds may be issued, in the manner prescribed in Article 1 (commencing with Section 29900) of Chapter 6 of Division 3 of Title 3 of the Government Code, for the erection and equipment of county free library buildings and the purchase of land therefor.

19173. The board of supervisors may create special taxing zones within the territory of the county subject to taxation for county free library purposes for the purpose of levying special taxes within the zones when it is found by the board that the territory within the zones require special services or special facilities in addition to those provided generally by the county free library system and that the special tax levy is commensurate with the special benefits to be provided in the zones.

Taxes levied pursuant to this section, together with taxes levied pursuant to Section 19170, shall not exceed the higher of the limit provided by Section 19170 or the applicable provisions of Section 2263 of the Revenue and Taxation Code.

19174. The board of supervisors may receive, on behalf of the county, any gift, bequest, or devise for the county free library, or for any branch or subdivision of the library.

19175. The title to all property belonging to the county free library is vested in the county. All laws applicable to the collection of county taxes shall apply to the collection of the taxes provided in Sections 19170 and 19172. All moneys of the county free library, whether derived from taxation or otherwise, shall be in the custody of the county treasurer.

19176. Each claim against the county free library fund shall be authorized and approved by the county librarian, or in his absence from the county by his assistant. It shall then be acted upon in the

same manner as other claims against the county.

19177. In any county of this state where a law library exists under the provisions of Chapter 5 (commencing with Section 6300) of Division 3 of the Business and Professions Code, the board of supervisors of the county may enter into contracts, or agreements with the board of law library trustees of the law library for the cooperation of the law library and the county free library, and, in that connection, may contract or agree with the board of law library trustees of the law library that the county librarian and other employees of the county free library perform the duties required to be done or performed by the officers and employees of the law library for a compensation to be named in the contract or agreement, and to be paid into the county free library fund.

19178. The board of supervisors may accept on behalf of the county free library, all books and other property of school libraries and of the teachers' library, and may manage and maintain them as a part of the county free library.

19179. Any county library which was established and existed on April 26, 1911, under the provisions of an act entitled "An act to provide county library systems," approved April 12, 1909, is continued under the provisions of this chapter and shall be considered the same as if established under the provisions of this chapter. If a contract has been entered into between any county board of supervisors and any city pursuant to this article, the contract shall continue in force, and the provisions of Section 19112 shall be applicable thereto, until the establishment and equipment of a county free library under the provisions of this chapter, unless sooner terminated.

19180. The board of supervisors of any county in which there has been established a county free library which does not serve the entire county may, on behalf of the county free library, construct, build, repair or refurnish buildings to be used for county free library purposes, payment for which may be made from the general fund of the county. If payment is made from the county's general fund, the county auditor shall each fiscal year thereafter transfer from the county free library fund to the county's general fund as a prior claim against the county free library fund for as many years as are determined by the board of supervisors but not to exceed 20, an equal annual installment in such amount that over the designated period of years the entire payment from the county's general fund will be completely repaid. Payment of the costs of the construction of a county free library building may also be made from the employees retirement fund of a retirement system established under the authority of the County Employees Retirement Law of 1937 as an investment of that fund and under the conditions specified in that law.

## CHAPTER 7. STATE LIBRARY

## Article 1. Division of Libraries in Department of Education

19300. The Legislature hereby declares that it is in the interest of the people and of the state that there be a general diffusion of knowledge and intelligence through the establishment and operation of public libraries. Such diffusion is a matter of general concern inasmuch as it is the duty of the state to provide encouragement to the voluntary lifelong learning of the people of the state.

The Legislature further declares that the public library is a supplement to the formal system of free public education, and a source of information and inspiration to persons of all ages, and a resource for continuing education and reeducation beyond the years of formal education, and as such deserves adequate financial support from government at all levels.

19301. There is in the Department of Education the Division of Libraries.

19302. The division shall be in charge of a chief who shall be a technically trained librarian and shall be known as the "State Librarian."

19303. The State Librarian shall be appointed by and hold office at the pleasure of the Governor, subject to confirmation by the Senate.

19304. The State Librarian shall administer the State Library in accordance with law and such regulations as may be adopted by the State Board of Education, which board shall determine all policies for the conduct of the State Library.

19305. The State Librarian shall be in attendance at the library during office hours.

19306. The State Librarian may appoint an assistant who shall be a civil executive officer.

## Article 2. Powers and Duties

19320. The Department of Education may:

(a) Make rules and regulations, not inconsistent with law, for its government and for the government of the State Library.

(b) Authorize the librarian to appoint such other assistants as are necessary.

(c) Sell or exchange duplicate copies of books.

(d) Keep in order and repair the books and property in the library.

(e) Prescribe rules and regulations permitting persons other than Members of the Legislature and other state officers to have the use of books from the library.

(f) Collect and preserve statistics and other information pertaining to libraries, which shall be available to other libraries

within the state applying for the information.

(g) Establish, in its discretion, deposit stations in various parts of the state, under the control of an officer or employee of the State Library. No book shall be kept permanently away from the main library, which may be required for official use. Books and other library materials from public libraries of the state may be accepted for deposit, under agreements entered into by the State Librarian and the public libraries concerned, whereby materials which should be preserved but are rarely used in the region may be stored and made available for use under the same conditions that apply to materials in the State Library.

(h) Collect, preserve, and disseminate information regarding the history of the state.

(i) Serve as regional library for the blind, in cooperation with the Library of Congress.

(j) Give advisory, consultive, and technical assistance with respect to public libraries to librarians and library authorities, and assist all other authorities, state and local, in assuming their full responsibility for library services.

(k) Serve as the central reference and research library for the departments of state government and maintain adequate legislative reference and research library services for the Legislature.

(l) Acquire, organize and supply books and other library informational and reference materials to supplement the collections of other public libraries of the state with the more technical, scientific and scholarly works, to the end that through an established interlibrary loan system, the people of the state shall have access to the full range of reference and informational materials.

(m) Make studies and surveys of public library needs and adopt rules and regulations for the allocation of federal funds to public libraries.

(n) Contract, at its discretion, with other public libraries in the state to give public services of the types referred to in subdivisions (g) and (l) of this section, when service by contract appears to be a needed supplement to the facilities and services carried on directly by the State Library.

19321. The Department of Education shall also:

(a) Purchase books, maps, engravings, paintings, and furniture for the library.

(b) Number and stamp all books and maps belonging to the library, and keep a catalog thereof.

(c) Have bound all books and papers that require binding.

(d) Keep a register of all books and property added to the library, and of the cost thereof.

(e) Keep a register of all books taken from the library.

19322. The Department of Education may:

(a) Contract with counties, cities, or districts within this state, agencies of the state, and agencies of the United States government for the purpose of providing library services.

(b) Establish and operate library service centers.

19323. The State Librarian shall make available on a loan basis to legally blind persons, or to persons who are visually or physically handicapped to such an extent that they are unable to read conventional printed materials, in the state tape recordings of books and other related materials. The tape recordings shall be selected by the State Library on the same basis as the State Library's general program for providing library materials to legally blind readers.

19324. The State Librarian may duplicate any braille book master, other than textbook masters, presented by any legally blind person directly to the State Librarian for duplication. The State Librarian may duplicate any braille book master, other than textbook masters, presented by any other person or agency directly to the State Librarian for duplication.

### Article 3. Books

(Heading of Article 3 added by Stats 1976, Ch 1011)

19330. Books may be taken from the library by the Members of the Legislature and by other state officers at any time.

19331. The Controller, when notified by the Department of Education that any officer or employee of the state for whom he draws a warrant for salary has failed to return any book taken by him, or for which he has given an order, within the time prescribed by the rules, or the time within which it was agreed to be returned, and which notice shall give the value of the book, shall, after first informing the officer or employee of the notice, upon failure by him to return the book, deduct from the warrant for the salary of the officer or employee, twice the value of the book, and place the amount deducted in the General Fund.

19332. In case of the neglect or refusal on the part of any officer or employee of the state to return a book for which he has given an order or a receipt or has in his possession, the Department of Education may purchase for the library a duplicate of the book, and notify the Controller of the purchase, together with the cost of the book. Upon the receipt of the notice from the department, the Controller shall deduct twice the cost of the duplicate book from the warrant for the salary of the officer or employee, and place the amount deducted in the General Fund.

19333. The Department of Education may bring suit in its official capacity for the recovery of any book, or for three times the value thereof, together with costs of suit, against any person who has the book in his possession or who is responsible therefor. If the department has purchased a duplicate of any book, it may bring suit for three times the amount expended for the duplicate, together with costs of suit.

19334. Every person who injures or fails to return any book taken is liable in three times its value.

## CHAPTER 8. LIBRARY DISTRICTS

## Article 1. Formation, Annexation, Dissolution

19400. A library district may be organized, as provided in this chapter. The library district may establish, equip, and maintain a public library for the dissemination of knowledge of the arts, sciences, and general literature and may exercise the powers granted or necessarily implied pursuant to this chapter.

19401. The library district may include incorporated or unincorporated territory, or both, in any one or more counties, so long as the territory of the district consists of contiguous parcels and the territory of no city is divided.

19402. Whenever the formation of a library district is desired, a petition which may consist of any number of instruments, may be presented at a regular meeting of the board of supervisors of the county in which is located the largest proportionate value of the lands within the proposed district as shown by the last equalized county assessment roll. The board of supervisors to whom the petition is presented is designated in this chapter as the supervising board of supervisors.

19403. The petition shall be signed by registered voters residing within the proposed library district equal in number to at least 5 percent of the number of votes cast in the territory comprising the proposed district at the last preceding general state election at which a Governor was elected.

19404. The proceedings for the filing and hearing of the petition are governed and controlled by the provisions of Sections 58032, 58033, 58034, 58060, and 58061 of the Government Code.

19405. The proceedings for final hearing of the petition and the formation of the district are governed and controlled by the provisions of Article 4 (commencing with Section 58090), Article 5 (commencing with Section 58130), and Article 7 (commencing with Section 58200) of Chapter 1 of Title 6 of the Government Code.

19406. On the filing of written protests by registered voters residing in the proposed district equal in number to at least 50 percent of the number of votes cast in the territory comprising the proposed district at the last preceding general state election at which a Governor was elected, the proceeding for the formation of the district shall be terminated as provided in Sections 58103 and 58104 of the Government Code.

19407. No library district including territory in more than one county shall be organized under this chapter without the concurrent consent by resolution of each board of supervisors involved, as well as the consent of the governing body of each city to be included.

## Article 2. Trustees

19420. Within 30 days after the filing with the Secretary of State of the resolution declaring the organization of the district, a board of three library trustees shall be appointed for the district. The board shall consist of one trustee to be appointed from each unit, in the case of any unincorporated territory by the board of supervisors and in the case of a city by the governing body thereof.

If a board thus appointed would consist of more than three members, the supervising board of supervisors shall appoint three library trustees from the district at large.

If the board thus appointed consists of less than three members, the supervising board of supervisors shall appoint from the district at large enough additional members to make a board of three trustees.

As used in this section, "unit" means all unincorporated territory in the district which lies in a single county and also means each city in the district.

19421. The governing board of the district shall be called "the Board of Library Trustees of \_\_\_\_\_ Library District" (inserting the name of the particular district).

19422. The trustee shall hold office for the term of four years beginning on the second day of the calendar year next succeeding their appointment or election. In any existing district the term of office of the trustees expiring prior to the first general election to be held in an even-numbered year shall continue until his successor in office is duly elected in such election.

19423. The first board of library trustees appointed in a district shall at their first meeting so classify themselves by lot that their terms shall expire: one on the second day of the second calendar year next succeeding his appointment, one at the end of one year thereafter, and one at the end of two years thereafter.

19424. At its first meeting called after the original appointment of the board, and annually thereafter at its first meeting called after the second day of the calendar year, the board shall organize by electing one of its number president, and another one of its number secretary. They shall serve as such for one year or until their successors are elected and qualified.

19425. The board shall cause a proper record of its proceedings to be kept, and at the first meeting of the board of trustees of the library district, it shall immediately cause to be made out and filed with the Department of Education at Sacramento a certificate showing that the library district has been established, with the date thereof, the names of the trustees, and the officers of the board chosen for the current fiscal year.

19426. A vacancy in the board of library trustees shall be filled for the unexpired term by appointment of the supervising board of supervisors.

19427. Each library trustee shall hold office until his successor is

elected and qualified.

19428. The board of library trustees shall meet at least once a month, at such time and place as it may fix by resolution.

19429. Special meetings may be called at any time by two trustees, by written notices served upon each member at least 12 hours before the time specified for the meeting.

19430. Two members constitute a quorum for the transaction of business.

### Article 3. Powers

19460. The board of library trustees shall make and enforce all rules, regulations, and bylaws necessary for the administration, government, and protection of the library under its management, and all property belonging to the district.

19461. The board of library trustees shall administer any trust declared or created for the library, and received by gift, devise, or bequest, and hold in trust or otherwise, property situated in this state or elsewhere, and where not otherwise provided, dispose of the property for the benefit of the library.

19462. The board of library trustees shall prescribe the duties and powers of the librarian, secretary, and other officers and employees of the library, determine the number of and appoint all officers and employees, and fix their compensation. The officers and employees shall hold their offices and positions at the pleasure of the board.

19463. The board of library trustees shall purchase necessary books, journals, publications, and other personal property.

19464. The board of library trustees shall purchase real property, and erect or rent and equip, such buildings or rooms, as in its judgment are necessary properly to carry out the provisions of this chapter.

19465. The board of library trustees shall require the Secretary of State and other state officials to furnish the library with copies of any and all reports, laws, and other publications of the state not otherwise disposed of by law.

19466. The board of library trustees shall borrow books from, lend books to, and exchange books with other libraries, and may allow nonresidents of the district to borrow books upon such conditions as the board may prescribe.

19467. The board of library trustees shall borrow money, give security therefor, purchase on contract, and do and perform any and all other acts and things necessary or proper to carry out the provisions of this chapter.

19468. The board of library trustees shall file, through the librarian, on or before the last day of August of each year, a report with the State Librarian at Sacramento giving the condition of its library and the number of volumes contained therein on the 30th day of June preceding. The report shall, in addition to other matters deemed expedient by the board of trustees or the district librarian,

contain such statistical and other information as is deemed desirable by the State Librarian. For this purpose the State Librarian may send to the several district librarians instructions or question blanks so as to obtain the material for a comparative study of library conditions in the state.

19469. The board of library trustees shall designate the hours during which the library shall be open for the use of the public. All public libraries established under this chapter shall be open for the use of the public during every day in the year.

19470. Annually, at least 15 days before the first day of the month in which county taxes are levied, the board of library trustees of each library district shall furnish to the board of supervisors of the county in which the district or any part thereof is situated, an estimate in writing of the amount of money necessary for all purposes required under this chapter during the next ensuing fiscal year.

19471. Each board of supervisors in which any part of the district is situated shall thereupon levy a special tax upon all taxable property of the county lying within the district sufficient in amount to maintain the district.

19472. The tax shall in no case exceed the rate of fifteen cents (\$.15) on each one hundred dollars (\$100) of the assessed valuation of all taxable property within the district, but it may be in addition to all other taxes allowed by law to be levied upon the property.

19473. The tax shall be computed, entered upon the tax rolls, and collected in the same manner as county taxes are computed, entered, and collected. All money collected shall be paid into the county treasury to the credit of the particular library district fund and shall be paid out on the order of the district board, signed by the president and secretary.

19474. If the district embraces territory lying in more than one county, the amount estimated shall be ratably apportioned among the several counties in the district in proportion to the exact value of the property in the several counties included within the district as shown upon the last equalized assessment rolls of the counties. The estimates apportioned to the several counties shall be rendered to the respective boards of supervisors, and the tax shall be levied and collected by the officials of the counties upon the property of the district lying in each county.

19475. All money acquired by gift, devise, bequest, or otherwise, for the purposes of the library, shall be paid into the county treasury to the credit of the library fund of the district, subject only to the order of the library trustees of the district.

19476. If the payment into the treasury is inconsistent with the terms or conditions of any gift, devise, or bequest, the board of library trustees shall provide for the safety and preservation of the fund, and the application thereof to the use of the library, in accordance with the terms and conditions of the gift, devise, or bequest.

19477. Upon the receipt by the county auditor of an order of the library trustees of the district, he shall issue his warrant upon the

county treasurer for the amount stated in the order.

19478. When any warrant is presented to the treasurer for payment and it is not paid for want of funds, the treasurer shall endorse thereon "not paid for want of funds" with the date of presentation and sign his name thereto, and from that time the warrant bears interest at the rate of 6 percent per annum until it is paid or until funds are available for its payment and the county treasurer gives notice to the warrant holder that funds are available for the payment. The giving of the notice is deemed complete upon deposit thereof in the United States mail in a sealed envelope addressed to the warrant holder at his address given by him at the time of presentation of the warrant to the treasurer, with postage thereon fully prepaid and registered.

19479. Every library established under this chapter shall be forever free to the inhabitants and nonresident taxpayers of the library district, subject always to such rules, regulations, and bylaws as may be made by the board of library trustees. For violation of any rule, regulation, or bylaw a person may be fined or excluded from the privileges of the library.

19480. The title to all property acquired for the purposes of the library, when not inconsistent with the terms of its acquisition, or not otherwise designated, vests in the district in which the library is or is to be situated.

19481. Every library district shall be designated by the name and style of \_\_\_\_\_ Library District (using the name of the district) of \_\_\_\_\_ County (using the name of the county or counties in which the district is situated). In that name the trustees may sue and be sued, and may hold and convey property for the use and benefit of the district. A number shall not be used as a part of the designation of any library district.

19482. The board of library trustees and the boards of trustees of neighboring library districts, or the governing bodies of neighboring cities, or boards of supervisors of counties in which public libraries are situated, may contract to lend the books of libraries created under this chapter to residents of the counties, neighboring cities, or library districts, upon a reasonable compensation to be paid by the counties, neighboring cities, or library districts.

19483. Anything in Sections 19100 to 19179, inclusive, to the contrary, notwithstanding, the property in any library district created under this chapter subsequent to the establishment of a county free library is subject to taxation for county free library purposes as though the library district had not been created.

#### Article 4. Claims

19500. All claims for money or damages against the district are governed by Part 3 (commencing with Section 900) and Part 4 (commencing with Section 940) of Division 3.6 of Title 1 of the Government Code except as provided therein, or by other statutes

or regulations expressly applicable thereto.

#### Article 5. Annual Election of Trustees

19510. An election shall be held biennially in each library district for the election of one or more library trustees who shall hold office for four years beginning on the second day of the calendar year next succeeding his election. This election shall be known as the general district election and shall be held in the district on the same day as the state general election in the even-numbered years.

19511. To be qualified to vote at any library district election a person shall be a resident of the library district, a qualified elector of the county, and shall be registered in the district in which the election is held at least 54 days before the election.

19512. If on the 20th day prior to a general election one person only as been nominated for each of the positions of trustee to be filled at that election, or no person has been nominated for any such positions, and a petition signed by 5 percent of the registered voters requesting that the election be held has not been presented to the board, an election shall not be held.

19513. In such case the publication provided for in Section 19515 shall instead of calling an election state that no election is to be held but that the board of supervisors will appoint those nominated for the positions of trustee.

19514. If pursuant to Section 19512 a district election is not held, the board of supervisors of the county in which the district, or the largest part thereof in area, is situated shall at its next regular meeting appoint to the positions of trustee those persons nominated, and such persons shall qualify, take office, and serve exactly as if elected at a general district election. If no person has been nominated, the board of supervisors shall appoint any qualified voter of the district to the position.

19515. Sections 58000 to 58010, inclusive, of the Government Code and Sections 24020 to 74039, inclusive, of the Elections Code relating to notices and elections shall govern and control this chapter.

#### Article 6. Bonds

19520. The board of trustees of any library district may, when in their judgment it is deemed advisable, and shall, upon a petition of 50 or more taxpayers and residents of the library district, call an election and submit to the electors of the district, the proposition of whether the bonds of the district will be issued and sold for the purpose of raising money for any or all of the following:

- (a) The purchase of suitable lots.
- (b) Procuring plans and specifications and erecting a suitable building.
- (c) Furnishing and equipping the building and fencing and

ornamenting the grounds, for the accommodation of the public library.

(d) Any or all of the purposes of this chapter.

(e) Liquidating any indebtedness incurred for the purposes.

(f) Refunding any outstanding valid indebtedness, evidenced by bonds or warrants of the district.

19521. The bond election shall be called and conducted and the results thereof canvassed, returned, and declared in the manner provided in Sections 24020 to 24039, inclusive, of the Elections Code.

19522. The board of trustees shall set forth in the resolution calling for a bond election the amount and denomination of the bonds, the rate of interest, the number of years that all or any part of the bonds are to run, and the information required in Section 24030 of the Elections Code.

19523. Voting shall be by ballot, without reference to the general election law in regard to form of ballot, or manner of voting, except that the words to appear on the ballot shall be "Bonds—Yes," and "Bonds—No." Persons voting at the bond election shall put a cross (+) upon their ballots, with pencil or ink, after the words "Bonds—Yes," or "Bonds—No," as the case may be, to indicate whether they have voted for or against the issuance of the bonds.

19524. The board of library trustees shall meet on the seventh day after the election, at 8 o'clock p.m., and canvass the returns. If it appears that two-thirds of the votes cast at the election were cast in favor of issuing the bonds, the board shall enter the fact upon its minutes and shall certify all the proceedings to the supervising board of supervisors. Thereupon the board of supervisors shall issue the bonds of the district, in the number and amount provided in the proceedings, and the district shall be named on the bonds. The bonds shall be paid out of the building fund of the district.

The money for the redemption of the bonds and the payment of interest thereon shall be raised by taxation upon the taxable property in the district.

19525. The total amount of bonds issued shall not exceed 5 percent of the taxable property of the district, as shown by the last equalized assessment roll of the county or counties in which the district is situated.

19526. The supervising board of supervisors by an order entered upon its minutes shall prescribe the form of the bonds and of the interest coupons attached thereto, and shall fix the time when the whole or any part of the principal of the bonds shall be payable, which shall not be more than 40 years from the date thereof.

19527. The bonds shall not bear a greater amount of interest than 6 percent, to be payable annually or semiannually. The bonds shall be sold in the manner prescribed by the board of supervisors, but for not less than par, and the proceeds of the sale thereof shall be deposited in the county treasury to the credit of the building fund of the library district, and shall be drawn out for the purposes for which the bonds were issued as other library money is drawn out.

19528. The board of supervisors of each county in which any part of the district is situated, at the time of making the levy of taxes for county purposes, shall levy a tax for that year upon the taxable property in the district, at the equalized assessed value thereof for that year, for the interest and redemption of the bonds. The tax shall not be less than sufficient to pay the interest of the bonds for that year, and such portion of the principal as is to become due during the year. In any event the tax shall be high enough to raise, annually, for the first half of the term the bonds are to run, a sufficient sum to pay the interest thereon, and during the balance of the term, high enough to pay the annual interest and to pay, annually, a proportion of the principal of the bonds equal to a sum produced by taking the whole amount of the bonds outstanding and dividing it by the number of years the bonds then have to run.

19529. All money levied, when collected, shall be paid into the county treasury to the credit of the library district, and shall be used for the payment of principal and interest on the bonds, and for no other purpose. The principal and interest on the bonds shall be paid by the county treasurer, upon the warrant of the county auditor, out of the fund provided therefor. The county auditor shall cancel and file with the county treasurer the bonds and coupons as rapidly as they are paid.

19530. Whenever any bonds issued under this article remain unsold for the period of six months after having been offered for sale in the manner prescribed by the supervising board of supervisors, the board of trustees of the library district for or on account of which the bonds were issued, or of any library district composed wholly or partly of territory which, at the time of holding the election authorizing the issuance of the bonds, was embraced within the district for or on account of which the bonds were issued, may petition the supervising board of supervisors to cause the unsold bonds to be withdrawn from the market and canceled.

19531. Upon receiving the petition, signed by a majority of the members of the board of trustees, the supervising board of supervisors shall fix a time for hearing the petition, which shall be not more than 30 days thereafter, and shall cause a notice, stating the time and place of hearing, and the object of the petition in general terms, to be published as provided in this chapter.

19532. At the time and place designated in the notice for hearing the petition, or at any subsequent time to which the hearing is postponed, the supervising board of supervisors shall hear any reasons that are submitted for or against the granting of the petition, and if they deem it for the best interests of the library district named in the petition that the unsold bonds be canceled, they shall make and enter an order in the minutes of their proceedings that the unsold bonds be canceled. Thereupon the bonds, and the vote by which they were authorized to be issued, shall cease to be of any validity whatever.

## CHAPTER 9. LIBRARY DISTRICTS IN UNINCORPORATED TOWNS AND VILLAGES

### Article 1. Formation

19600. Any unincorporated town or village of this state may establish, equip, and maintain a public library for the dissemination of knowledge of the arts, sciences, and general literature, in accordance with this chapter.

19601. Upon the application, by petition, of 50 or more taxpayers and residents of any unincorporated town or village to the board of supervisors in the county in which the town or village is located, praying for the formation of a library district, and setting forth the boundaries of the proposed district, the board of supervisors shall, within 10 days after receiving the petition, by resolution, order that an election be held in the proposed district for the determination of the question and shall appoint three qualified electors of the proposed district to conduct the election.

19602. The election shall be called by posting notice in three of the most public places in the proposed library district, and by publication in a daily or weekly paper, if there is one, at least once a week for not less than 15 days. The notices shall specify the time, place, and the purposes of the election, and the hours during which the polls will be kept open.

19603. Within five days after the district formation election has been called, the legislative body which has called the election shall transmit, by registered mail, a written notification of the election call to the executive officer of the local agency formation commission of the county or principal county in which the territory or major portion of the territory of the proposed district is located. Such written notice shall include the name and a description of the proposed district, and may be in the form of a certified copy of the resolution adopted by the legislative body calling the district formation election.

The executive officer, within five days after being notified that a district formation election has been called, shall submit to the commission, for its approval or modification, an impartial analysis of the proposed district formation.

The impartial analysis shall not exceed 500 words in length and shall include a specific description of the boundaries of the district proposed to be formed.

The local agency formation commission, within five days after the receipt of the executive officer's analysis, shall approve or modify the analysis and submit it to the officials in charge of conducting the district formation election.

19604. The board of supervisors or any member or members of the board authorized by the board, or any individual voter or bona fide association of citizens entitled to vote on the district formation proposition, or any combination of such voters and associations of

citizens, may file a written argument for or a written argument against the proposed district formation.

Arguments shall not exceed 300 words in length and shall be filed with the officials in charge of conducting the election not less than 54 days prior to the date of the district formation election.

19605. If more than one argument for or more than one argument against the proposed district formation is filed with the election officials within the time prescribed, such election officials shall select one of the arguments for printing and distribution to the voters.

In selecting the arguments, the election officials shall give preference and priority in the order named to the arguments of the following:

(a) The board of supervisors or any member or members of the board authorized by the board.

(b) Individual voters or bona fide associations of citizens or a combination of such voters and associations.

19606. The officials in charge of conducting the election shall cause a ballot pamphlet concerning the district formation proposition to be voted on to be printed and mailed to each voter entitled to vote on the district formation question.

The ballot pamphlet shall contain the following in the order prescribed:

(a) The complete text of the proposition.

(b) The impartial analysis of the proposition prepared by the local agency formation commission.

(c) The argument for the proposed district formation.

(d) The argument against the proposed district formation.

The election officials shall mail a ballot pamphlet to each voter entitled to vote in the district formation election at least 10 days prior to the date of the election. Such a ballot pamphlet is "official matter" within the meaning of Section 10012 of the Elections Code.

19607. In districts with a population of 10,000 or over, the polls shall be opened at 8 o'clock a.m., and kept open until 7 o'clock p.m., and in districts where the population is less than 10,000, the polls shall not be opened before 1 o'clock p.m., and shall be kept open not less than six hours.

19608. The election shall be conducted in accordance with the general election laws of this state, where applicable, without reference to form of ballot or manner of voting, except that the ballots shall contain the words, "For library district," and the voter shall write or print after the words on his ballot the word "Yes," or the word "No."

19609. Every qualified elector, resident within the proposed district for the period requisite to enable him to vote at a general election, shall be entitled to vote at the election.

19610. The election officers shall report the result of the election to the board of supervisors within five days after the election.

19611. If a majority of the votes at the election is in favor of a library district, the board of supervisors shall by resolution, establish

the library district, and shall appoint five trustees, who shall be qualified electors and residents within the limits of the district, to be known as a board of library trustees of the town or village for which they are appointed.

19612. Vacancies shall be filled by the board of supervisors by appointment for the unexpired term.

19613. If a majority of the votes cast is against a library district, the board of supervisors shall, by order, so declare, and no other proceedings shall be taken in relation thereto until the expiration of one year from the date of presentation of the petition.

19614. The fact of the presentation of the petition, and the order establishing the library district and making the appointment of the five library trustees, shall be entered in the minutes of the board of supervisors and shall be conclusive evidence of the due presentation of a proper petition, and that each of the petitioners was, at the time of signature and presentation of the petition, a taxpayer and resident of the proposed district, and of the fact and regularity of all prior proceedings of every kind and nature provided for by this article and of the existence and validity of the district.

## Article 2. Powers

19640. The board of library trustees shall meet at least once a month, at such time and place as it may fix by resolution.

19641. Special meetings may be called at any time by three trustees, by written notices served upon each member at least 12 hours before the time specified for the meeting.

19642. Three members constitute a quorum for the transaction of business.

19643. At its first meeting held after the general district election the board shall organize by electing one of its number president, and another one of its number secretary. They shall serve as such for one year or until their successors are elected and qualified.

19644. The board shall cause a proper record of its proceedings to be kept, and at the first meeting of the board of trustees, it shall immediately cause to be made out and filed with the Department of Education at Sacramento a certificate showing that the library has been established, with the date thereof, the names of the trustees, and the officers of the board chosen for the current fiscal year.

19645. The board of library trustees shall make and enforce all rules, regulations, and bylaws necessary for the administration, government, and protection of the library under its management, and all property belonging to it.

19646. The board of library trustees shall administer any trust declared or created for the library, and receive by gift, devise, or bequest, and hold in trust or otherwise, property situated in this state or elsewhere, and where not otherwise provided, dispose of the property for the benefit of the library.

19647. The board of library trustees shall prescribe the duties and

powers of the librarian, secretary, and other officers and employees of the library, determine the number of and appoint all officers and employees, and fix their compensation. The officers and employees shall hold their offices and positions at the pleasure of the board.

19648. The board of library trustees shall purchase necessary books, journals, publications, and other personal property.

19649. The board of library trustees shall also purchase such real property, and erect or rent and equip, such building or rooms, as in its judgment is necessary to properly carry out the provisions of this chapter.

19650. The board of library trustees may request the appropriate state officials to furnish the library with copies of any and all reports, laws, and other publications of the state not otherwise disposed of by law.

19651. The board of library trustees shall borrow books from, lend books to, and exchange books with other libraries. It shall allow nonresidents to borrow books upon such conditions as it may prescribe.

19652. The board of library trustees shall do and perform any and all other acts and things necessary or proper to carry out the provisions of this chapter.

19653. The board of library trustees shall file, through the librarian, on or before the last day in the month of August of each year, a report with the State Librarian at Sacramento giving the condition of the library and the number of volumes contained therein on the 30th day of June preceding. The report shall, in addition to other matters deemed expedient by the board of trustees or the librarian, contain such statistical and other information as is deemed desirable by the State Librarian. For this purpose the State Librarian may send to the several district librarians instructions or question blanks so as to obtain the material for a comparative study of library conditions in the state.

19654. The board of library trustees shall designate the hours during which the library is open for the use of the public. All public libraries established under this chapter shall be open for the use of the public during every day in the year except on such legal holidays as may be determined by the board of library trustees.

19655. In any library district formed under the provisions of this chapter, which maintains a public library, or which has petitioned for and been granted permission to establish, and intends to maintain a public library in accordance with this chapter, the board of library trustees shall furnish to the board of supervisors of the county in which the library district is situated, each and every year, on or before the first day of September, an estimate of the cost of any or all of the following:

- (a) Leasing temporary quarters.
- (b) Purchasing a suitable lot.
- (c) Procuring plans and specifications and erecting a suitable building.

(d) Furnishing and equipping the building and fencing and ornamenting the grounds, for the accommodation of the public library.

(e) Conducting and maintaining the library for the ensuing fiscal year.

19656. The board of library trustees may, when in its judgment it is deemed advisable, and upon the petition of 50 or more taxpayers residing within the library district shall, call an election and submit to the electors of the library district the question of whether the bonds of the library district shall be issued and sold for any or all the purposes of this chapter.

19657. When the estimate has been submitted to the board of supervisors, the board of supervisors shall, at the time of levying county taxes, levy a special tax upon all of the taxable property within the limits of the library district, sufficient in amount to maintain the public library, or to purchase the site, erect and equip the building, improve the grounds or building, or for any or all of the purposes of this chapter. The taxes shall be computed, entered upon the tax roll, and collected in the same manner as other taxes are computed, entered, and collected.

19658. The revenue derived from the tax, together with all money acquired by gift, devise, bequest, or otherwise, for the purposes of the library, shall be paid into the county treasury, to the credit of the library fund of the district in which the tax is collected, subject only to the order of the library trustees of the district. If payment into the treasury is inconsistent with the terms or conditions of any gift, devise, or bequest, the board of library trustees shall provide for the safety and preservation of the fund, and the application thereof to the use of the library, in accordance with the terms and conditions of the gift, devise, or bequest.

19659. Upon the receipt by the county auditor of an order of the library trustees of the district he shall issue his warrant upon the county treasurer for the amount stated in the order.

19660. When any warrant is presented to the treasurer for payment and it is not paid for want of funds the treasurer shall endorse thereon "not paid for want of funds" with the date of presentation and sign his name thereto and from that time the warrant bears interest at the rate of 6 percent per annum until it is paid or until funds are available for its payment and the county treasurer gives notice to the warrant holder that funds are available for payment. The giving of the notice is deemed complete upon deposit thereof in the United States mail in a sealed envelope addressed to the warrant holder at his address given by him at the time of presentation of the warrant to the treasurer, with postage thereon fully prepaid and registered.

19661. Every library established under this chapter shall be forever free to the inhabitants and nonresident taxpayers of the library district, subject always to such rules, regulations, and bylaws as may be made by the board of library trustees. For any violation

of the rules, regulations, or bylaws a person may be fined or excluded from the privileges of the library.

19662. Boards of library trustees and the boards of trustees of neighboring library districts, or the legislative bodies of neighboring municipalities, or boards of supervisors of the counties in which public libraries are situated, may contract to lend the books of the libraries to residents of the counties or neighboring municipalities, or library districts, upon a reasonable compensation to be paid by the counties, neighboring municipalities, or library districts.

19663. The title to all property acquired for the purposes of the libraries, when not inconsistent with the terms of its acquisition, or not otherwise designated, vests in the district in which libraries are, or are to be situated.

19664. Every library district shall be designated by the name and style of \_\_\_\_\_ Library District, (using the name of the district), of \_\_\_\_\_ County, (using the name of the county in which the district is situated). In that name the trustees may sue and be sued, and may hold and convey property for the use and benefit of the district. A number shall not be used as a part of the designation of any library district.

### Article 3. Claims

19690. All claims for money or damages against the district are governed by Part 3 (commencing with Section 900) and Part 4 (commencing with Section 940) of Division 3.6 of Title 1 of the Government Code except as provided therein, or by other statutes or regulations expressly applicable thereto.

### Article 4. Annual Election of Trustees

19700. (a) Except as otherwise provided in this article, the Uniform District Election Law (Part 3 (commencing with Section 23500) of Division 12 of the Elections Code) shall govern and control the conduct of elections pursuant to this chapter. Elections shall be held biennially in the district on the same day as the school district election as specified in Section 5000 in the odd-numbered years.

(b) The trustees shall hold office for the term of four years beginning on the first day of July next succeeding their appointment or election. In any existing district the term of office of the trustees expiring prior to the first election to be held in an odd-numbered year shall continue until their successors in office are duly elected in such election and enter upon their offices.

For purposes of implementing the changes in the dates of election and in the dates of the commencement and termination of the terms of office of the trustees effected by the Legislature at the 1973-74 Regular Session, no election for trustees shall be held in conjunction with the 1974 general election. For such purposes trustees whose terms are expiring in January 1975, shall continue to serve in the

offices involved until June 30, 1975, and trustees whose terms are expiring in January 1977, shall continue to serve in the offices involved until June 30, 1977. All of the offices that will expire shall be filled by election conducted pursuant to subdivision (a) in the year in which the office expires.

(c) The members of the first board of library trustees appointed or elected in a district shall, at their first meeting, so classify themselves by lot that their terms shall expire: two on the 30th day of June of the first odd-numbered calendar year next succeeding their appointment or election, and three on the 30th day of June of the second succeeding odd-numbered calendar year.

19701. The number of library trustees for any library district established under the provisions of this chapter is five.

19702. Every elector, resident of the library district, who is a qualified elector of the county, and who is registered in the district where the election is held at least 54 days before the election, may vote at the election.

#### Article 5. Bonds

19720. The board of trustees of any library district may, when in their judgment it is deemed advisable, and shall upon a petition of 50 or more taxpayers and residents of the library district, call an election and submit to the electors of the district the question of whether the bonds of the district shall be issued and sold for the purpose of raising money for any or all of the following:

- (a) The purchase of suitable lots.
- (b) Procuring plans and specifications and erecting a suitable building.
- (c) Furnishing and equipping the building, and fencing and ornamenting the grounds, for the accommodation of the public library.
- (d) Any or all of the purposes of this chapter.
- (e) Liquidating any indebtedness incurred for the purposes.
- (f) Refunding any outstanding valid indebtedness, evidenced by bonds or warrants of the district.

19721. The election shall be called by posting notices, signed by the board, in three of the most public places in the district, for not less than 20 days before the election, and by publishing the notice not less than once a week for three successive weeks in a newspaper published in the district if there is one, or if there is none, in a newspaper published in the county.

19722. The notice shall contain:

- (a) Time and place of holding the election.
- (b) The names of inspectors and judges to conduct the election.
- (c) The hours during the day in which the polls will be open.
- (d) The amount and denomination of the bonds, the rate of interest, and the number of years, not exceeding 40, the whole or any part of the bonds are to be run.

19723. The election shall be conducted in accordance with the provisions relating to the election of trustees, insofar as they are applicable to the election for bonds.

19724. Voting shall be by ballot, without reference to the general election law in regard to form of ballot, or manner of voting, except that the words to appear on the ballot shall be, "Bonds—Yes," and "Bonds—No." Persons voting at the bond election shall put a cross (+) upon their ballots, with pencil or ink, after the words, "Bonds—Yes," or "Bonds—No," as the case may be, to indicate whether they have voted for or against the issuance of the bonds. The ballot shall be handed by the elector voting to the inspector, who shall then, in his presence, deposit the ballot in the ballot box, and the judges shall enter the elector's name on poll list.

19725. On the seventh day after the election, at 8 o'clock p.m., the returns having been made to the board of trustees, the board shall meet and canvass the returns, and if it appears that more than one-half of the votes cast at the election are in favor of issuing the bonds, then the board shall cause an entry of the fact to be made upon its minutes and shall certify to the board of supervisors, all the proceedings had in the premises. Thereupon the board of supervisors shall issue the bonds of the district, to the number and amount provided in the proceedings, payable out of the building fund of the district, naming the district.

19726. The money shall be raised by taxation upon the taxable property in the district, for the redemption of the bonds and the payment of the interest thereon.

19727. The total amount of bonds issued shall not exceed 5 percent of the taxable property of the district, as shown by the last equalized assessment book of the county.

19728. The board of supervisors by an order entered upon its minutes shall prescribe the form of the bonds and of the interest coupons attached thereto, and shall fix the time when the whole or any part of the principal of the bonds shall be payable, which shall not be more than 40 years from the date thereof.

19729. The bonds shall not bear a greater amount of interest than 6 percent, to be payable annually or semiannually. The bonds shall be sold in the manner prescribed by the board of supervisors, but for not less than par, and the proceeds of the sale thereof shall be deposited in the county treasury to the credit of the building fund of the library district, and shall be drawn out for the purposes for which the bonds were issued as other library moneys are drawn out.

19730. The board of supervisors, at the time of making the levy of taxes for county purposes, shall levy a tax for that year upon the taxable property in the district, at the equalized assessed value thereof for that year, for the interest and redemption of the bonds. The tax shall not be less than sufficient to pay the interest of the bonds for that year, and such portion of the principal as is to become due during the year. In any event the tax shall be high enough to raise, annually, for the first half of the term the bonds have to run,

a sufficient sum to pay the interest thereon, and during the balance of the term, high enough to pay the annual interest and to pay, annually, a proportion of the principal of the bonds equal to a sum produced by taking the whole amount of the bonds outstanding and dividing it by the number of years the bonds then have to run.

19731. All money levied, when collected, shall be paid into the county treasury to the credit of the library district, and shall be used for the payment of principal and interest on the bonds, and for no other purpose. The principal and interest on the bonds shall be paid by the county treasurer, upon the warrant of the county auditor, out of the fund provided therefor. The county auditor shall cancel and file with the county treasurer the bonds and coupons as rapidly as they are paid.

19732. Whenever any bonds issued under this article remain unsold for the period of six months after having been offered for sale in the manner prescribed by the board of supervisors, the board of trustees of the library district for or on account of which the bonds were issued, or of any library district composed wholly or partly of territory which, at the time of holding the election authorizing the issuance of the bonds, was embraced within the district for or on account of which the bonds were issued, may petition the board of supervisors to cause the unsold bonds to be withdrawn from market and canceled.

19733. Upon receiving the petition, signed by a majority of the members of the board of trustees, the supervisors shall fix a time for hearing the petition, which shall be not more than 30 days thereafter, and shall cause a notice, stating the time and place of hearing, and the object of the petition in general terms, to be published for 10 days prior to the day of hearing, in some newspaper published in the library district, if there is one, and if there is no newspaper published in the library district, then in a newspaper published at the county seat of the county in which the library district or part thereof is situated.

19734. At the time and place designated in the notice for hearing the petition, or at any subsequent time to which the hearing is postponed, the supervisors shall hear any reasons that are submitted for or against the granting of the petition, and if they deem it for the best interests of the library district that the unsold bonds be canceled, they shall make and enter an order in the minutes of their proceedings that the unsold bonds be canceled. Thereupon the bonds, and the vote by which they were authorized to be issued, shall cease to be of any validity whatever.

#### CHAPTER 10. CORPORATIONS TO ADMINISTER LIBRARIES

19800. Three or more persons may incorporate pursuant to this chapter for the purpose of establishing a library, to be conducted without pecuniary profit. The articles of incorporation shall state that the corporation is formed under this chapter but otherwise shall

contain the statements required by Section 9200 of the Corporations Code.

19801. Any such corporation shall not issue capital stock and its business shall not be carried on for profit. It shall have the capacity and right to receive and take any gift, bequest, devise, or conveyance of property either as grantee for its own use or as trustee and to be or be made the beneficiary of a trust.

19802. The trustees or directors of the corporation shall compose its members and shall have control and management of its affairs and property. The trustees or directors shall elect officers of the corporation from their number, fill by election vacancies occurring in their own number by death, incapacity, retirement, or otherwise, subject to the approval of the Commissioner of Corporations, and may fix the charges to be paid by persons using the property and quarters of the corporation.

19803. Each corporation incorporated under this chapter shall have the powers granted by the provisions of the Corporations Code and other laws of the state relating to private corporations, which are not inconsistent with those granted by this chapter.

19804. The corporation may appoint such agents and officers as its business requires, which may be either persons or corporations, and may employ such persons as are necessary in the conduct of its affairs.

19805. The corporation may purchase, lease or otherwise acquire, hold, own and enjoy, sell, lease, mortgage and otherwise encumber, and dispose of any, all, and every kind of real or personal property, including stock in other corporations, subject to the terms and conditions of bequests, donations, and gifts whenever applicable.

19806. The corporation may also carry on any and all operations necessary or convenient in connection with the transaction of any of its business, make contracts, borrow money, issue bonds, debentures, promissory notes, or other obligations and secure the obligations.

19807. No such corporation shall sell, or offer for sale, negotiate for the sale of, or take subscriptions for any security of its own issue until it has first applied for and secured from the Commissioner of Corporations a permit authorizing it so to do, and has complied with all the terms and conditions of the Corporate Securities Law, Division 1 of Title 4 of the Corporations Code. All provisions of the Corporate Securities Law are applicable to and binding upon corporations incorporated under this chapter.

19808. The corporation shall within one month after filing articles of incorporation, adopt a code of bylaws for its government and management not inconsistent with the provisions of this chapter. The vote or written assent of a majority of the trustees or directors shall be necessary to adopt the bylaws. The provisions of Sections 500, 501, and 502 of the Corporations Code which are not inconsistent with the provisions of this chapter shall apply to the bylaws.

19809. The corporation may also provide in its bylaws for the following matters:

(a) The manner of removal of any one or more of its trustees or directors, and of filling all vacancies in the board of trustees or directors.

(b) The terms and conditions under which bequests, donations, and gifts will be accepted, and the manner in which they will be administered.

(c) The method of fixing charges for the use of the property of the corporation, and the uses to which the property may be put.

19810. The right of a corporation claiming to be organized and incorporated and carrying on its business under this chapter, to do and continue its business, may be inquired into by quo warranto proceedings at the suit of the Attorney General, and not otherwise.

19811. The articles of incorporation shall not be accepted for filing by the Secretary of State without the endorsement upon them of the approval of the Attorney General. Such approval shall be given where it appears to the Attorney General that it is sought to organize the proposed corporation in good faith, and shall be refused where it does not appear that it is sought to organize the proposed corporation in good faith.

## CHAPTER 11. MISCELLANEOUS PROVISIONS

### Article 1. Deposit of Newspapers in Libraries

19900. The board of supervisors of any county may authorize the county recorder to deposit with any free public library maintained at the county seat, or with the State Library, such newspaper files, or portions thereof, as may be in the custody of the recorder by virtue of Chapter 110 of the Statutes of 1862, relating to the purchase and preservation of newspapers, or by virtue of any other act.

19901. Before making the deposit, the board of supervisors shall obtain from the board of trustees or authorities in charge of the free public library, or the Department of Education, or the board of governors, as the case may be, an agreement that it will properly preserve and care for the newspaper files, and make them accessible to the public.

19902. The board of supervisors of any county may authorize the boards of trustees or other authorities in charge of any free public library with which newspaper files have been deposited in accordance with Section 19900 to deposit the newspaper files with the State Library.

### Article 2. Offenses Against Libraries

19910. Any person who maliciously cuts, tears, defaces, breaks, or injures any book, map, chart, picture, engraving, statue, coin, model, apparatus, or other work of literature, art, mechanics, or object of curiosity, deposited in any public library, gallery, museum, collection, fair, or exhibition, is guilty of a misdemeanor.

The parent or guardian of a minor who willfully and maliciously commits any act within the scope of this section shall be liable for all damages so caused by the minor.

19911. Any person who willfully detains any book, newspaper, magazine, pamphlet, manuscript, or other property belonging to any public or incorporated library, reading room, museum, or other educational institution, for 30 days after notice in writing to return the article or property, given after the expiration of the time for which by the rules of the institution the article or property may be kept, is guilty of a misdemeanor.

The parent or guardian of a minor who willfully and maliciously commits any act within the scope of this section shall be liable for all damages so caused by the minor.

## PART 12. FOUNDATIONS AND STATE COMMITTEES AND COMMISSIONS

### CHAPTER 1. STATE COMMITTEES AND COMMISSIONS

#### Article 1. State Council of Educational Planning and Coordination

21000. There is in the state government a State Council of Educational Planning and Coordination consisting of nine members. The Superintendent of Public Instruction and the President of the University of California are ex officio members of the board.

Of the seven other members of the board, five shall be persons not engaged in any manner in the direction or supervision of education, not engaged, employed, or serving in any capacity in any body charged with the direction or supervision of education, and not engaged, employed, or serving in any capacity in any school, college, or university. Each of the appointed members of the board shall be appointed for a term of one year jointly by the State Board of Education and the Board of Regents of the University of California upon the joint nomination of the Superintendent of Public Instruction and the President of the University of California.

Thereafter their successors shall be chosen in like manner for a like term. Any vacancy shall be filled by appointment by the Superintendent of Public Instruction and the President of the University of California jointly. Any person appointed to fill a vacancy shall serve only for the balance of the unexpired term.

21001. The function of the State Council of Educational Planning and Coordination is to study problems affecting the relationships between the schools of the public school system and the University of California, and to make recommendations thereon jointly to the State Board of Education and the Regents of the University of California through the Superintendent of Public Instruction and the President of the University of California.

CHAPTER 2. FOUNDATIONS, TRUSTS, AND INSTITUTIONS OF ARTS  
AND SCIENCES

## Article 1. Foundations and Trusts

21100. Any person desiring in his lifetime to promote the public welfare by founding, endowing, and maintaining within this state a university, college, school, seminary of learning, mechanical institute, museum, botanic garden, public park, or gallery of art, or any or all thereof, may, for such purposes, by grant in writing convey to a trustee, or any number of trustees, named in the grant, and to their successors, any property, real or personal, belonging to him and situated within this state. If he is married and the property is community property, then both husband and wife shall join in the grant.

21101. The grantor may designate in the grant:

(a) The nature, object, and purposes of the institution to be founded, endowed, and maintained.

(b) The name by which it shall be known.

(c) The powers and duties of the trustees, and the manner in which they shall account, and to whom, if accounting is required. Such powers and duties shall not be exclusive of other powers and duties which may be necessary to enable the trustees to fully carry out the objects of the grant.

(d) The mode and manner, and by whom, the successors to the trustee or trustees named in the grant are to be appointed.

(e) Such rules and regulations for the management of the property conveyed as the grantor may elect to prescribe. Such rules shall, unless the grantor otherwise prescribes, be deemed advisory only, and shall not preclude the trustees from making such changes as new conditions may from time to time require.

(f) The place where and the time when the buildings necessary and proper for the institution shall be erected, and the character and extent thereof.

21102. The grantor may also provide for all other things necessary and proper to carry out the purposes of the grant, and especially may provide for the trades and professions which shall be taught in the institution, and the terms upon which deserving scholars of the public and private schools of the various counties of this state may be admitted to all the privileges of the institution, as a reward for meritorious conduct and good scholarship.

21103. The grantor may also provide for maintaining free scholarships for children of persons who have rendered service to or who have died in the service of the state and for maintaining free scholarships for children of mechanics, tradesmen, and laborers, who have died without leaving means sufficient to give their children a practical education, fitting them for the useful trades or arts.

21104. The grantor may also provide the terms and conditions upon which students in the public and private schools, and other

deserving persons, may, without cost to themselves, attend the lectures of any university established, and also the terms and conditions upon which the museums, art galleries, and conservatories of music, connected with any such institution, shall be open to all deserving persons without charge, and without their becoming students of the institution.

21105. The trustee or trustees named in the grant, and their successors, may, in the name of the institution, as designated in the grant, sue and defend, in relation to the trust property, and in relation to all matters affecting the institution.

21106. The grantor, by a provision in the grant, may elect, in relation to the property conveyed, and in relation to the erection, maintenance, and management of the institution, to perform, during his life, all the duties and exercise all the powers which, by the terms of the grant, are enjoined upon and vested in the trustee or trustees.

21107. If the grantor is a married person, he may further provide that if his wife survives him, she, during her life, may, in relation to the property conveyed, and in relation to the election, maintenance, and management of the institution, perform all the duties and exercise all the powers which, by the terms of the grant, are enjoined upon and vested in the trustee and trustees.

21108. In the cases referred to in Sections 21106 and 21107, the powers and duties conferred and imposed upon the trustee or trustees shall be exercised and performed by the grantor, or by his wife, during his or her life, as the case may be. Upon the death of the grantor, or his surviving wife, as the case may be, the powers and duties shall devolve upon and shall be exercised by the trustees named in the grant, and their successors.

21109. The grantor may reserve the right to alter, amend, or modify the terms and conditions of the grant, and the trusts created, in respect to any of the matters mentioned or referred to in Sections 21101 to 21104, inclusive.

21110. The grantor may also reserve, during his life, the right of absolute dominion over the personal property conveyed, and also over the rents, issues, and profits of the real property conveyed, without liability to account therefor in any manner whatever, and without any liability over against his estate.

21111. If the grantor is married, he may further provide in the grant that if his wife survives him, she, during her life, may have the same absolute dominion, over the personal property, and the rents, issues, and profits, without liability to account therefor in any manner whatever, and without liability over against the estate of either the grantor or his wife.

21112. The founder or founders, surviving founder, or wife or widow of any founder, of a university, college, school, seminary of learning, mechanical institute, museum, gallery of art, library or any other institution, or any or all thereof, founded pursuant to this article, may, by an instrument in writing, resign, relinquish, and surrender all the rights, powers, privileges and duties reserved to or

vesting in him, over, in, or concerning any of the property granted or given to the institution, or over or concerning the institution founded. Thereupon all estates, rights, powers, privileges, trusts, and duties which would otherwise vest in or devolve upon the trustee or trustees of the trusts and estates created upon the death of the person resigning, relinquishing, and surrendering, by the terms of the grant and amendments thereof, and by the terms of any grants, gifts, bequests, and devices supplementary thereto, or of any confirmatory grants, shall immediately vest in and devolve upon the trustee or trustees. Nothing herein contained shall prevent the person resigning, relinquishing and surrendering the rights, powers, privileges, or duties from thereafter becoming and serving as one of the trustees, or from becoming and serving as an officer of any board of trustees.

21113. The grantor may provide in the grant that the trustees and their successors, may, in the name of the institution, become the custodian of the person of minors. When any such provision is made in a grant, the trustees and their successors may take the custody and control in the manner and for the time and in accordance with the provisions of Chapter 4 (commencing with Section 3070) of Division 3 of the Labor Code.

21114. The grant shall be executed, acknowledged, and recorded in the same manner as is provided by law for the execution, acknowledgment, and recording of grants of real property.

21115. No suit, action, or proceeding shall be commenced or maintained by any person to set aside, annul, or affect the conveyance, or to affect the title to the property conveyed, or the right to the possession, or to the rents, issues, and profits thereof, unless the action is commenced within two years after the date of filing the grant for record. No defense shall be made to any suit, action, or proceeding commenced by the trustee or trustees named in the grant, or their successors, privies, or persons holding under them, which involves the legality of the grant, or affects the title to the property conveyed, or the right to the possession, or the rents, issues, and profits thereof, unless the defense is made in a suit, action, or proceeding commenced within two years after the grant has been filed for record.

21116. The property conveyed by the grant shall not, after a lapse of two years from the date of the filing for record of the grant, be subject to forced sale, under execution, or judicial proceedings of any kind, against the grantor or his privies, unless the action under which the execution is issued, or the proceedings under which the sale is ordered, has been commenced within two years after the grant has been filed for record. No property shall be subject to execution or forced sale under any judgment obtained in any proceedings instituted within two years, if there is other property of the grantor, subject to execution or forced sale sufficient to satisfy the judgment. Nothing in this section contained shall be construed to affect mechanics' or laborers' liens.

21117. Any person making the grant may, at any time thereafter, by last will or testament, devise and bequeath to the state all or any of the property, real and personal, mentioned in the grant, or in any supplemental grant, and the devise or bequest shall only take effect if, from any cause whatever, the grant is annulled or set aside, or the trusts therein declared for any reason fail. Such devise and bequest is permitted to be made by way of assurance that the wishes of the grantor shall be carried out, and in the faith that the state, if it succeeds to the property, or any part thereof, will, to the extent and value of the property, carry out, in respect to the objects and purposes of the grant, all the wishes and intentions of the grantor.

21118. No wish, direction, act, or condition expressed, made, or given by any grantor, under this article, as to religious instruction to be given in any school, college, seminary, mechanical institute, museum, or gallery of art, or in respect to the exercise of religious belief, on the part of any pupil of the school or institution of learning, shall be binding upon the state. The state shall not enforce, or permit to be enforced or carried out, any such wish, direction, act, or condition.

21119. The provisions of this article shall be liberally construed with a view to effect its objects and promote its purposes.

## Article 2. Institutions of Arts and Sciences

21140. Any person intending in his lifetime or by will or trust deed, to operate after his death, to found, maintain, and perpetuate in this state a public library, museum, gallery of art, or any or all thereof, for the diffusion of mechanical, scientific, artistic, and general knowledge, may for that purpose, convey in writing by words denoting a gift or grant to one or more trustees named in the gift or grant, and to their successors, any library or collection of books and works, for the public library, or any museum, or gallery of art in this state.

21141. The gift or grant may also express and shall be construed to be a conveyance of the future additions and accretions thereof.

21142. The grantor may also in like manner, convey by grant to the trustee or trustees any real property within this state belonging to him, which may be necessary or proper for the erection and maintenance of buildings suitable to the institution, and the buildings erected thereon, with grounds, conveniently adjacent thereto, and other lands, tenements, and hereditaments for the purpose of producing an income for the support and maintenance of the institutions and any collateral burdens which may be imposed by the terms of the foundation as part and parcel of the regulations for its conduct, and also personal property of all descriptions, which may subserve the purposes of the institution and maintenance of the library, museum, or gallery of art.

21143. Any contributions or gifts by any other person than the founder, of any property suitable to the general plan or support of

any institution mentioned in this article, shall immediately vest in the trustees, and become incorporated into and subject to the trust, and to all its terms and conditions, and be managed under the rules and regulations prescribed therefor.

21144. The person making the gift, grant, or conveyance, as founder may therein designate:

(a) The name by which the institution shall be known.

(b) Its nature, object, and purposes.

(c) The powers and duties of the trustees, which shall not be exclusive of other powers and duties that, in their judgment, may be necessary more effectually to carry out the purposes of the institution.

(d) The mode, manner, and by whom the successors to the trustees named in the gift or grant shall be appointed.

(e) Such rules and regulations for the management of the institution, and the furtherance of its purposes, as the grantor may elect to prescribe. Such rules and regulations shall, unless the grant shall otherwise prescribe, be deemed advisory only, and shall not preclude the trustees or their successors from making such changes as new conditions may, from time to time, require.

(f) The place or places where the necessary buildings shall be erected, and the general character thereof. The grantor may provide in the grant for all other things necessary or proper to carry out the purposes of the grant, or otherwise, by his last will or testament.

21145. The trustees named in the gift or grant, and their successors, may, in the name of the institution, sue and defend in relation to the trust property, and to all matters affecting the institution.

21146. By a provision in the gift or grant, the founder may elect, in respect to the personal and real property conveyed, and the additions and increase thereof, and in respect to the erection, maintenance, and management of any buildings auxiliary thereto, and in respect to any property connected with the institution, to reserve to himself a veto and right of annulment or modification of any act of the trustees.

21147. If he elects to veto, annul, or modify any act of the trustees, he shall, within 30 days after notice of the performance of the act, file in the office of the trustees, or deliver to their president or principal officer, a notice in writing, of the veto, annulment, or modification.

21148. Upon a like notice, in conformity with a provision in the gift or grant, he may elect to perform during his life all the powers which, by the terms of the grant, are vested in or enjoined upon the trustees, and their successors. Upon the death or disability to act of the founder and grantor, the powers and duties shall devolve upon, and be exercised by, the trustees, and their successors.

21149. The founder may also reserve the right to alter, amend, or modify, at any time during his life, or by his last will and testament, the terms and conditions of the grant, and the trust created in respect to the institution, its buildings, and the property conveyed.

21150. The founder may in the deed of trust name and describe the character and personality of any one or more of the immediate or future trustees, the librarian, and other officers, and name and impose any particular duty to be performed by any one or more trustees or other officers so described and characterized. He may declare and limit any compensation, and fix the character and method of the compensation he chooses to provide for the trustee or other officer whom the terms of his foundation may characterize, and upon whom specific or general duties are imposed.

21151. The gift or grant shall be executed, acknowledged, and recorded in the manner provided by law for the execution, acknowledgment, and recording of grants of real property.

21152. No suit, action, or proceeding shall be commenced or maintained by any person to set aside, annul, or affect any gift, grant, or conveyance, or to affect the title to the property conveyed, or the right to the possession or to the rents, issues, and profits thereof, unless the action is commenced within two years after the date of the filing of the grant for record.

21153. Any founder, making a gift or grant for any of the purposes mentioned in this article, may, at any time thereafter, by last will or testament, devise or bequeath to the state all or any of the property, real and personal, mentioned in the gift or grant, or in any supplemental grant or gift, and the devise or bequest shall take effect if, from any cause whatever, the gift or grant is annulled or set aside, or the trusts therein declared for any reason fail. Such devise or bequest is suffered to be made by way of assurance that the intentions of the grantor shall be carried out, and in the faith that the state, if it succeeds to the property, or any part thereof, will, to the extent and value of the property carry out, in respect to the objects and purposes of the grant, all the wishes and intentions of the grantor.

21154. The provisions of this article shall be liberally construed, with a view to effect its objects and purposes.

### Article 3. Legal Validation Proceedings

21180. The trustee or trustees of any trust or trusts created for the founding, endowment, and maintenance of a university, college, school, seminary of learning, mechanical institute, museum, gallery of art, library, or any other institution, or any or all thereof, pursuant to Article 1 (commencing with Section 21100) and Article 2 (commencing with Section 21140) of this chapter, may commence a special proceeding to determine all questions of law and fact affecting the existence of, and the due and voluntary execution and delivery, and the terms, validity, and legal effect of the grant founding the institution, and of all amendments or attempted amendments to the grant, and of any supplemental grants or gifts, and of any confirmatory conveyances, of the founder or surviving founder, or wife or widow of the founder.

21181. The special proceeding may also be commenced to determine all questions of law and fact affecting the due and voluntary execution and delivery, and the validity and legal effect, of any gift or grant made in general terms for the benefit of the institution, or of any department of the institution, or of any gift or grant made in general terms for the benefit of the institution, or of any department of the institution, or of any gift or grant made in general terms for the benefit of the institution, or of any department of the institution, upon the trusts provided for in the grant founding the institution, and amendments thereof and grants, bequests, and devises supplementary thereto.

21182. The special proceeding may also be commenced to determine all questions bearing upon the passing to the trustee or trustees of the legal title to the properties, real and personal, conveyed or attempted to be conveyed, so far as the property or the proceeds thereof, or any property acquired in exchange therefor or with proceeds thereof, is described in the petition provided for in this article, and the interest or title of the trustee or trustees in or to any property described in the petition.

21183. The special proceeding may also be commenced to determine all questions of law and fact affecting the due and voluntary execution and delivery, and the validity and legal effect, of any grant or surrender by any founder, surviving founder, or wife or widow of any founder, to, or in favor of, the trustee or trustees, of any rights, powers, privileges, or duties reserved to or vesting in any such person over or concerning any property described in the petition, or over or concerning the institution, which would otherwise vest in or devolve upon the trustee or trustees upon the death of the person granting or surrendering the right, powers, privileges, or duties, and of any relinquishment or release by the founder, surviving founder, or wife or widow of any founder, of any other rights, powers, privileges, or duties reserved to or vesting in any such person.

21184. The trustee or trustees of any trust created pursuant to Article 1 (commencing with Section 21100) and Article 2 (commencing with Section 21140) of this chapter, in the name of the institution or institutions, or in the name of the trustee or trustees of the institution, or in the name of the board of trustees of the institution, may file, in the superior court of the county in which the lands described in the founding grant, or some portion thereof, are situated, or, if no real estate has been granted to the trustees, then in the county where the main part of the institution is situated, a petition in writing, signed by counsel for the trustee or trustees, or by counsel for a majority thereof.

21185. The petition shall contain copies of all grants, amendments, attempted amendments, supplemental grants, instruments of gift, confirmatory conveyances, and grants and instruments of surrender, relinquishment or release, so far as known to the trustee or trustees.

21186. The petition shall allege in general terms the due and voluntary execution and delivery, and the validity, of any and all instruments, copies of which are set out in the petition, and shall describe all property, real and personal, the legal title to which is held or claimed to be held by the trustee or trustees under or by virtue of any or all of the instruments, whether or not the property is the original property conveyed, the proceeds thereof, or reinvested proceeds.

21187. The petition shall allege in general terms the estate or interest which the trustee or trustees have or claim in or to the property described.

21188. The petition shall pray, in effect, that the court:

(a) Examine and determine all questions of law and fact affecting the due and voluntary execution and delivery, and the terms, validity, and legal effect of all the instruments, copies of which are set out in the petition.

(b) Examine and determine all questions bearing upon the passing to the trustee or trustees, of the legal title to all the properties, real and personal, conveyed or attempted to be conveyed, so far as the property or the proceeds thereof, or any property acquired in exchange therefor or with the proceeds thereof, is described in the petition.

(c) Examine and determine the interest or title of the trustee or trustees in or to the property.

(d) Establish and determine that the trustee or trustees are rightfully vested with the legal title thereto.

21189. The court or judge shall fix the time for hearing the petition, and shall order the clerk of the court to post in at least three public places in the county a notice of the filing of the petition, attached to a copy of the petition, and order a copy of the notice together with a copy of the petition to be personally served upon the founder, if living, and upon the surviving wife or widow of any founder, and upon any living grantor or donor of any other grant or gift set out in the petition, and may order such other or further notice to be given as the judge or court may deem proper. The notice shall be posted and served at least 10 days before the hearing.

21190. If the court or judge finds upon the hearing that due and proper notice has not been given as provided in Section 21189, it shall reset the hearing and cause due and proper notice to be given.

21191. The notice and petition shall be entitled substantially in the following form:

In the Superior Court of the \_\_\_\_\_ County of \_\_\_\_\_, State of California.

In the matter of the petition of \_\_\_\_\_ (giving the name or names in which the petition is brought) for the ascertainment of the existence and terms of, and for the determination of the validity and legal effect of grants or other instruments creating, changing, or affecting trusts and estates for the founding, endowment, and maintenance of \_\_\_\_\_ (naming the institution or institutions founded).

21192. The notice shall state the time and place fixed for the hearing of the petition and shall be addressed to the founder or founders, if living, and to the surviving wife or widow of any deceased founder, and the living grantor or donor of any other grant or gift set out in the petition, and in general terms to all other persons having or claiming any interest in, or rights, powers, or duties over or concerning the property described in the petition; and shall direct that they and each of them appear and answer the petition on or before the time set for the hearing. The notice shall also state that unless they so appear and demur or answer, the petitioners will apply to the court to grant the prayer of the petition, and that each person failing to so appear and answer, shall be deemed to admit as true all the material allegations of the petition.

21193. Any person required to be served, or any other person interested may waive notice by written waiver filed with the clerk of the court.

21194. Any person interested in the determination of any of the questions presented by the petition may demur to or answer the petition and may set up any new matter affecting the determination of the questions.

21195. Any allegation of the petition or answer may be made upon information and belief.

21196. The provisions of the Code of Civil Procedure respecting the demurrer and the answer to a verified complaint, shall be applicable to a demurrer or answer to the petition.

21197. The persons demurring to or answering the petition shall be the defendants to the special proceeding and the petitioners shall be the plaintiffs.

21198. Every material statement of the petition not specifically controverted by the answer shall, for the purposes of the special proceeding, be taken as true, and each person failing to answer the petition shall be deemed to admit as true all the material allegations of the petition.

21199. The rules of pleading and practice provided for by the Code of Civil Procedure, which are not inconsistent with this article, are applicable to the special proceeding provided for.

21200. Upon the hearing of the special proceeding, the court shall examine into and determine all questions of law and fact within the scope of the proceeding herein provided for, whether presented by the petition or answer, or by the proofs upon the hearing.

The court shall find and determine whether the notice of the filing of the petition has been duly given for the time and in the manner prescribed in this article.

21201. The costs of the special proceeding may be allowed and apportioned between all parties, in the discretion of the court.

21202. A certified copy of the judgment of the court in the special proceeding shall be recorded in the office of the recorder of the county in which the action is brought and in the office of the recorder

of every county in which any of the real property affected is situated.

21203. The judgment of the court in the special proceeding is determinative of the terms and trusts upon which any property thereafter given for the benefit of the institution, or any department thereof, is held by the trustee or trustees, unless otherwise provided by the grantor or donor.

## PART 13. STATE TEACHERS' RETIREMENT SYSTEM

### CHAPTER 1. GENERAL PROVISIONS

22000. This part shall be known and may be cited as the State Teachers' Retirement Law and may be known and cited as the E. Richard Barnes Act.

22001. In order to provide a financially sound plan for the retirement, with adequate retirement allowances, of teachers in the public schools of this state, teachers in schools supported by this state, and other persons employed in connection with the schools, the State Teachers' Retirement System is established. The system is a unit of the Agriculture and Services Agency.

22002. The Legislature recognizes that the assets of the State Teachers' Retirement System are insufficient to meet the obligations of that system already accrued or to accrue in the future in respect to service credited to members of that system prior to July 1, 1972. Therefore, the Legislature declares the following policies in respect to the financing of the State Teachers' Retirement System:

(a) Members shall be required to contribute a percentage of salaries earned.

(b) The employing agencies shall contribute a percentage of total salaries on which member contributions are based.

(c) The state shall contribute a sum certain for a given number of years for the purpose of payment of benefits.

22003. The costs of administration of the system shall be paid from the Teachers' Retirement Fund and such costs may not exceed the amount made available by law during any fiscal period.

22004. The right of a person to a pension, retirement allowance, return of contributions, any optional benefit, or any other right accrued or accruing to any person under this part is exempt from taxation, including any inheritance tax, whether state, county, municipal, or district.

22005. The right of a person to an annuity, a retirement salary, or a retirement allowance, to the return of contributions, the annuity, retirement salary, or retirement allowance itself, any optional benefit, any other right or benefit accrued or accruing to any person under this part, and the moneys in the fund created under this part are not subject to execution, garnishment, attachment, or any other process whatsoever, and are unassignable except as specifically provided in this part.

22006. The obligations of any member of this system to this

system continue throughout his membership, and thereafter until all of the obligations of this system to or in respect to him have been discharged.

22007. For the purposes of payments into or out of the Teachers' Retirement Fund for adjustments of errors or omissions, the period of limitation of actions otherwise applicable shall not commence to run until the error or omission is discovered, as evidenced by the filing with this system of a claim or demand against this system or by the making of a claim or order for payment by this system against the former member, retirant, or his beneficiary, except that with respect to actions against a retirant, or beneficiary based upon erroneous payment from or to this system the period of limitation shall commence from the date of such payment.

22008. When the compensation of a member is a factor in any computation to be made under this part, including but not limited to computation of members' and school districts' or other employing agencies' contributions to the Teachers' Retirement Fund and excluding computation of compensation earnable during time prior to July 1, 1956, there shall be excluded from such computations any compensation based on overtime service performed by a member.

22009. The revision of the State Teachers' Retirement Law, including this section, enacted at the 1971 and 1972 Regular Sessions of the Legislature, shall not be construed to affect benefits of persons retired prior to July 1, 1972, or their beneficiaries, except as specifically provided.

22010. Notwithstanding any provision of this part to the contrary, the surviving spouse of a deceased member shall not be required to have been dependent upon or to have been receiving one-half of his support from the member at the time of the member's death in order to receive any benefits under this part.

22011. If any provision of this part or the application thereof to any person or circumstances is held invalid, such invalidity shall not affect other provisions or applications of this part which can be given effect without the invalid provision or application, and to this end the provisions of this part are severable.

22012. The retirement board has the authority to negotiate, and enter into agreements with other states of the United States on the subject of the transfer of members' contributions and regular interest between the retirement systems of California and other states.

## CHAPTER 2. DEFINITIONS

22100. Unless the context otherwise requires, the definitions set forth in this chapter govern the construction of this part.

22101. "Accumulated retirement contributions" means the sum of all member contributions with credited interest and does not include accumulated annuity deposit contributions and accumulated tax-sheltered annuity contributions.

22102. "Accumulated annuity deposit contributions" means the

sum of all the annuity deposits standing to the credit of the member's account, together with credited interest.

22103. "Accumulated tax-sheltered annuity contributions" means the tax-sheltered contributions made by a member and standing to the credit of the member's account, together with credited interest.

22104. "Actuarial equivalent" means a benefit of equal value when computed upon the basis of such tables and credited interest rates as are adopted by the board. The ages of members and beneficiaries shall be taken to the next lower completed quarter year in the determination of the actuarial equivalent.

22105. "Annual salary" means salaries earned during a school year excluding salaries for overtime service. For purposes of determining the amount of family allowances under Section 23804 and disability benefits under Section 24100, salary shall include any disability, survivor or family benefits that are part of a grant established and paid monthly to the teacher or his dependents prior to the teacher's death or disability and includes projected earned salary.

22106. "Annuity" means payments for life derived from the "accumulated annuity deposit contributions" or the "accumulated tax-sheltered annuity contributions" of a member.

22107. "Annuity deposit contributions" means additional contributions made by a member above those required for credited service for the purpose of providing additional retirement income.

22108. "Beneficiary" means any person receiving a survivor's allowance, death benefit, retirement allowance under option, or any other benefit. "Beneficiary" does not include a member, former member or retiree unless specifically named as a beneficiary or by operation of law. A corporation, trust, eleemosynary or parochial institution or public entity may only be designated as a beneficiary to receive death benefits under Sections 23100, 23800, 23803, and 23807 except as otherwise provided in this chapter.

22109. "Benefits" means any monthly payment due a retiree, disabled or other beneficiary, and includes lump-sum payments due on account of death.

22110. "Board" means the Teachers' Retirement Board.

22111. "California service" means service performed in California for which credit may be given.

22112. "Child" or "children" means:

(a) The dependent unmarried offspring of a member under 18 years of age, not adopted by a person other than the spouse and in the custody of or supported by the member on the date of the member's death or the effective date of disability allowance, or

(b) The unmarried child, under 18 years of age, adopted by the member and in the custody of or supported by the member on the effective date of disability allowance or death, or

(c) The dependent unmarried stepchild, under 18 years of age, in the custody of the member on the effective date of disability

allowance or death, or

(d) The dependent unmarried child described in subdivision (a), (b) or (c) above who is under the age of 22 and who is registered as a full-time student, as defined in Section 22128 on the effective date of disability allowance or death.

For those members receiving a disability allowance and who subsequently die, the maximum number of children for family benefits shall be those who were eligible on the effective date of disability allowance.

For purposes of Sections 23701, 23704 and 23705, "child" or "children" means any offspring or adopted children of the member, retirant or other beneficiary.

22113. "Compensation earnable" by a member means the compensation as determined by the board which would have been earned by the member if he were engaged in his duties on a full-time basis.

The computation for any absence of a member shall be based on the compensation earnable by him at the beginning of the absence and that for time prior to becoming a member shall be based on the compensation earnable by him in the position first held by him as a member.

For part-time service, "compensation earnable" means the compensation which would be earnable if the employment were on a full-time basis and the member worked full time.

22114. "Compensation" and "salary" mean remuneration in cash payable by the employer to the member, plus any payments in cash by the employer to one other than the member for the purpose of purchasing an annuity contract for the member under an annuity plan which meets the requirements of Section 403(b) of the Internal Revenue Code of the United States, plus any amount deducted from a member's wages for participation in a deferred compensation plan established pursuant to Chapter 8 (commencing with Section 18310) of Part 1 of Division 5 of Title 2 of the Government Code or pursuant to Article 1.1 (commencing with Section 53212) of Chapter 2 of Part 1 of Division 2 of Title 5 of the Government Code.

"Compensation" and "salary" do not mean and shall not include:

- (a) Job-related expenses.
- (b) Money paid to the employee for overtime service.
- (c) Compensatory damages and money paid to the member in excess of regular salary as a compromise settlement of a dispute arising from termination of a member's employment contract.
- (d) Lump-sum payments for accumulated sick leave or accumulated vacation leave.

(e) Money paid for summer school employment.

(f) Money paid as a bonus.

(g) Money not available for payment of salaries and which is applied by an employer for the purchase of annuity contracts or for other insurance programs including those which meet the requirements of Section 403(b) of the Internal Revenue Code of the United States.

Any such moneys paid under subdivisions (a) through (g) shall not be included as a part of the member's compensation subject to contributions reported to this system.

22115. "County" includes "city and county."

22116. "County superintendent" means the county superintendent of schools.

22117. "Credited service" means service for which the required contributions have been paid.

22118. "Death benefits," means the benefits provided by Sections 23100, 23800 and 23803, and the family benefits provided in Section 23804.

The lump-sum "death benefit" provided in the old age, survivors and disability insurance program under the Federal Social Security Act, is considered as provided from the member's contributions, and shall not be offset against any payments from this system.

22119. "Dependent parent" means a natural parent of a member, or a parent who adopted the member prior to the earlier of the occurrence of the member's marriage or his attaining age 18, and who was receiving one-half of his or her support from the member at the time of the member's death.

22120. "Disabilitant" means a member of this system receiving a disability allowance. A member becomes a disabilitant on the date upon which the disability allowance is granted.

22121. "Disability allowance" means monthly payments by this system to a disabilitant.

22122. "Disability" or "disabled" means any medically determinable physical or mental impairment which can be expected to be of long, continued and indefinite duration which prevents a member from performing his usual duties for his employer; or the duties of a position of comparable level for which he is qualified by education, training and experience, and excludes any condition resulting from willful, self-inflicted injury.

22123. "Effective date" means the date stated in the application upon and continuously after which should death occur the member is considered a retirant or disabilitant.

22124. "Employer" or "employing agency" means the state or any agency or political subdivision thereof by whom a member is paid.

22125. "Employment" means employment in a position requiring membership in the system.

22126. "Family benefits" means the benefits provided for in Section 23804.

22127. "Final compensation" means the highest average annual compensation earnable by a member during any period of three consecutive years during his membership in the system or time during which he was not a member but for which he has received credit under the system, except such time as was so credited pursuant to the provisions of Section 22718.

For the purposes of this section, periods of service separated by breaks in service may be aggregated to constitute a period of three consecutive years, if the periods of service are consecutive except for such breaks.

Time during which a member is in state service or in the employment of a local school district or of a county superintendent and is also a member of another retirement system to which the state, a county, or the university contributes shall not be considered to be an absence for the purposes of this section, and the determination of the final compensation of such a member shall take into consideration his compensation earnable while he was a member of such other system, providing retirement under this system is concurrent with the member's retirement under the other system.

The board may specify a different final compensation with respect to benefits based on part-time service performed prior to July 1, 1956, for which credit was given under this system under board rules in effect prior to such date.

22128. "Full-time student" means a surviving child in full-time attendance at an educational institution. The final determination whether a person qualifies as a full-time student shall be made by the board in light of standards and practices of the institution involved.

An individual shall be deemed to be a full-time student during any period of nonattendance where he has been in full-time attendance if such period of nonattendance is less than four consecutive calendar months and there is sufficient evidence to satisfy the retirement board that he intends to continue to be in full-time attendance at such educational institution immediately following such period of nonattendance. In any event a full-time student who is in full-time attendance at such educational institution immediately following such period of nonattendance shall continue to qualify as a full-time student both before and after such period of nonattendance.

An individual shall not qualify as a full-time student if his attendance at an educational institution is paid for and provided by his employer or is in the course of his on-the-job training, unless such on-the-job training is part of the regularly established school training for which he receives credit toward a diploma, certificate or graduation. An individual shall not qualify as a full-time student for any full-time course in which he may be enrolled, which is directly paid for and sponsored under the job corps of the Economic Opportunity Act or paid for or sponsored by any armed forces for this state or the United States of America.

An individual does not qualify as a full-time student during any period of nonattendance if the nonattendance is due to expulsion or suspension, notwithstanding such individual's intent to, or the fact he does, resume full-time attendance within four calendar months after the beginning of such period of nonattendance.

22129. "Final compensation" with respect to a member whose salary has been reduced by 5 or more percent after age 58 because of a reduction in school funds means the highest average annual

compensation earnable by the member during any three years during his membership in the system if the member elects to be subject to this section.

22130. "Educational institution" is any accredited public or private institution whose primary purpose is to provide classroom teaching and includes a high school, trade or vocational school or college, community college, or other college or university.

22131. "Improvement factor" means an increase of 2 percent in benefits for each year commencing on a September 1, following the first anniversary of the effective retirement date, or the date on which monthly benefits commenced to accrue to any beneficiary other than a retirant or such other periods as specifically stated in this part. Such factor shall not be compounded nor shall it be applicable to annuities payable from the accumulated annuity deposit contributions or the accumulated tax-sheltered annuity contributions. The Legislature reserves the right to adjust the amount of the "improvement factor" up or down as economic conditions dictate. No adjustments of the improvement factor shall reduce the monthly retirement allowance or benefit below that which would be payable to the recipient under this part had this section not been enacted.

22132. "Local system" means any retirement system, exclusive of this system, in which public school teachers are members, operated by a city, city and county, county, or other political subdivision of the state.

22133. "Member" means any person included in the membership of the system.

22134. "Month" means 20 days or four weeks of five days each, including legal holidays, with respect to the computation and crediting of service.

"Month," for all other purposes, means a period commencing on any day of a calendar month and extending through the day preceding the corresponding day of the succeeding calendar month, if there is any such corresponding day, and if not, through the last day of the succeeding calendar month.

22135. "Overtime" means the aggregate service performed as a member of the system in excess of the hours of work considered normal for employees on a full-time basis.

22136. "Other public systems" means the old age, survivors, disability and health insurance program provided by the Federal Social Security Act, the federal civil service retirement program, federal military disability, railroad retirement, a workman's compensation program, federal railroad retirement or any other public retirement system including any disability programs financed from public funds.

22137. "Parent" means a natural parent of a member or a parent who adopted the member prior to his attainment of 18 years of age or to the member's marriage, whichever occurs earlier.

22138. "Part-time basis with respect to service" means a basis of

service which is for less time than is required of persons serving on a full-time-day basis even though the employee may be subject to call at any time.

22139. "Pay period" means a pay period of not less than four weeks or more than one calendar month.

22140. "Payroll" includes registers, warrants, and any other documents upon which all persons receiving salary payments are listed.

22141. "Projected earned salary" means a 2-percent increase compounded annually applied to the highest annual salary earned by the member during any one of the three school years immediately preceding death, or disability and projected to the June 30th prior to age 60 from the July 1st of the year of death or disability.

22142. "Projected service" means the credited service plus the service which the member would have been credited with at age 60 had he continued to serve and receive credit at the same rate he was credited during the year covered by the earnings that were used in the calculation of the disability or family benefit.

22143. "Proof of death" means filing with the system a certified copy of the public record of death.

22144. "Public school" means any day or evening elementary school, and such day and evening secondary schools, community colleges, technical schools, kindergarten schools, and prekindergarten schools as may be established by the Legislature, or by municipal or district authority.

22145. "Regular interest" is interest which is compounded annually and is charged on payments made into the system by members and former members at a rate per annum adopted and revised from time to time by the board.

22146. "Credited interest" is that interest which is credited to members' accounts at a rate set annually by the board.

22147. "Return on investments" is those moneys received from the investments.

22148. "Retirement" means withdrawal from membership with a retirement allowance. A member of this system is retired with the mailing of the first warrant from this system.

22149. "Retirant" means a former member who has been retired for service or disability and is receiving a retirement allowance.

22150. "Retirement allowance" means the monthly payment from the system to a retirant or his beneficiary under an option.

22151. "Service" means service performed for compensation in a position requiring membership in the system except as provided in Sections 22700 to 22722.

22152. "Spouse" means a person who was married to the member at least 12 months prior to the death of the member unless a child is born to the union within the 12-month period or the surviving spouse is carrying the member's unborn child.

22153. "Tax-sheltered annuity" means payments for life derived from the accumulated tax-sheltered annuity contributions of a member.

22154. "Tax-sheltered annuity contributions" means contributions made by an employer for the purchase of an annuity contract for a member under an annuity plan which meets the requirements of Section 403 (b) of the Internal Revenue Code of the United States.

22155. "Survivor allowance" means the allowance provided for in Section 23804 as it read under the law in effect on June 30, 1972.,

22156. "System" means the "State Teachers' Retirement System."

22157. "Plan vesting" means the rights of the member upon completion of the minimum number of required years of credited service provided in the retirement plan to entitle the member or his beneficiary to a monthly retirement allowance, disability allowance, survivor, family or death benefit at a future date, prior to the completion of which the member upon resignation from service is entitled only to a refund of his accumulated contributions as provided in this part.

22158. "Provisional vesting" means the right of the member upon the completion of the minimum number of years of credited service and attainment of the minimum specified age after which the member may retire at any time and be entitled to receive a monthly retirement allowance.

22159. "Final vesting" means the right of a member or a beneficiary to receive a monthly retirement allowance, disability allowance, or a family benefit when the member has completed the minimum number of years of credited service, has attained the minimum specified age, has formally terminated his active service, has made application for retirement, or has been formally retired in accordance with Section 22148, after which the kind and amount of the retirement allowance is fixed and cannot thereafter be changed except as provided in this part.

### CHAPTER 3. RETIREMENT BOARD AND ADMINISTRATION

22200. The system is managed by the Teachers' Retirement Board. The members of the board are as follows:

- (a) The Superintendent of Public Instruction.
- (b) The State Controller.
- (c) The Director of Finance.
- (d) One member, who, at the time of appointment, is a member of the governing board of a school district or a community college district.
- (e) Three members of the State Teachers' Retirement System, at least two of whom at time of appointment are classroom teachers in grades kindergarten through 14.
- (f) One official of a life insurance company appointed by the Governor for a term of four years, subject to confirmation by the Senate.

(g) One official of a bank appointed by the Governor for a term of four years, subject to confirmation by the Senate.

The members of the board provided by subdivisions (d) and (e) shall be appointed by the Governor for four-year terms from a list submitted by the Superintendent of Public Instruction.

The members of the board shall annually elect a chairman and vice chairman.

22201. The chief executive officer is the chief administrative officer of the system. The office shall be filled by appointment by the board and the appointee shall serve at the pleasure of the board.

The chief executive officer may administer oaths.

22202. The board shall set policy and make rules and it has the sole power and authority to hear and determine all facts pertaining to application for benefits under the system or any matters pertaining to the administration thereof. The board shall meet at least once every calendar quarter.

22203. The board may appoint a committee of two or more of its members to perform any act within the power of the board itself to perform. The board may also delegate authority to the chief executive officer to perform any such act. Except where the board, in delegating such authority, provides that the committee or the chief executive officer may act finally, all acts of the committee or the chief executive officer shall be reported to the board at its next regular meeting and shall be subject to review, ratification or reversal by the board.

22204. The chief executive officer has the authority and responsibility for the administration of the system pursuant to the policies and rules adopted by the board. He may delegate to his subordinates any act or duty unless the board by motion or resolution recorded in its minutes has required him to act personally.

22205. The board shall appoint such employees as are necessary to administer the system.

22206. The board may authorize the transfer and disbursement of funds from the Teachers' Retirement Fund for the purpose of carrying into effect the provisions of this chapter upon the signature of either or both its chairman and vice chairman or the chief executive officer or any employee of the system designated by the chief executive officer.

22207. Each member of the board may administer oaths and affirmations to witnesses and others transacting the business of the system.

22208. As often as the board determines necessary, it may audit or cause to be audited the records of any public agency.

22209. The board shall perform any other acts necessary for the administration of the system in carrying into effect the provisions of this part.

22210. Any rules and regulations adopted by the board for the purpose of the administration, and not inconsistent with the provisions of this part have the force and effect of law.

22211. The board shall regulate the duties of employing agencies and other public authorities, imposed upon them by this part, and shall require reports from the employing agencies and authorities as it deems advisable in connection with the performance of its duties.

22212. Reversal by the board of any act of the committee or the chief executive officer shall be effective on the date fixed by the board.

Payment of benefits prior to the board's action of reversal may not be affected by such action, except for such recovery of the amounts paid, from the beneficiary receiving the amounts, as the board may direct.

22213. The board shall subpoena witnesses and compel their attendance to testify before it.

22214. The board shall determine the service performed by members to be credited toward qualification for retirement, and shall fix retirement allowances and modify the allowances.

22215. The board shall adopt, upon the recommendation of the actuary of the system, such mortality and other tables and interest rates as are necessary to:

(a) Permit valuation of the assets and liabilities of the system.

(b) Make any determination or calculation necessary to carry out the provisions of this part.

22216. The board may take such action as it deems necessary to insure the continued right of retirants, disabilitants or beneficiaries of members or retirants, to receive monthly payments.

22217. The board may in its discretion hold a hearing for the purpose of determining any question presented to it involving any right, benefit or obligation of a person under this part.

When a hearing is held, the proceedings shall be conducted in accordance with Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code, relating to administrative adjudication and the board shall have all of the powers granted therein. The provisions of Section 11508 of the Government Code relating to the location of the hearing shall not apply however and the hearing shall be held at such time and place as may be determined by the board.

22218. The board shall file annually with the Governor and with the Senate and Assembly a report on all phases of its work which could affect the need for public contributions for costs of administration of the system, including the subjects of benefits, programs, practices, procedures, and any comments on trends and developments in the field of retirement.

Such report shall be filed with the Governor at least 30 days prior to the first day of each year and shall be filed with the Senate and Assembly within the first five days of each year.

22219. The board shall establish and maintain an adequate system of records and accounts following recognized accounting principles and controls.

22220. The board shall employ a certified public accountant or

public accountant, who is not in public employment, to audit the financial statements of the State Teachers' Retirement System. The costs of such audit shall be paid from the income of the Teachers' Retirement Fund. The audit shall be made annually commencing with the year ending June 30, 1974. The board shall file a copy of the audit report with the Governor, the Secretary of the Senate, and the Chief Clerk of the Assembly.

Such audits shall not be duplicated by the Department of Finance or the Auditor General. The system shall be exempt from a pro rata general administrative charge for auditing.

**22221.** Data filed by any member or beneficiary with the board is confidential. No official or employee who has access to the individual records shall divulge any information concerning such records to any person other than the member to whom the information relates or his authorized representative, the governing board of the school district or agency by which he is employed, or any state department or agency. They shall be used by the board for the sole purpose of carrying into effect the provisions of this part.

The information is not open to inspection by anyone except the board and its officers and employees, and any person authorized by the Legislature to make inspections.

**22222.** The board has exclusive control of the investment of the Teachers' Retirement Fund, including the purchase of securities and the sale thereof. Except as investment is otherwise authorized by law, investments of the retirement fund are subject to the terms, conditions, limitations and restrictions imposed by the laws of the state upon savings banks in the making of investments.

**22223.** Investments may also be made in bonds issued pursuant to the Improvement Bond Act of 1915. The amount of principal and interest payable in any year on the issue of such bonds may not exceed an amount equal to an ad valorem tax on all property taxable by the public agency which authorized the issuance of such bonds, at a rate not exceeding ten cents (\$.10) for each one hundred dollars (\$100) of assessed value, computed as of the date of such investment.

**22224.** The board has exclusive control of the administration of the funds. No transfers or disbursements of any amount from the funds shall be made except upon the authorization of the board for the purpose of carrying into effect the provisions of this part.

**22225.** Subject to the approval of the Department of Finance, the board may subscribe for membership for the State Teachers' Retirement System in the National Council on Teacher Retirement.

**22226.** The board shall keep in convenient form such data as is necessary for the actuarial valuation of the system.

In not to exceed six-year periods, the board shall make an actuarial investigation into the mortality, service, and other experience of members and beneficiaries and shall make an actuarial valuation of the assets and liabilities of the system. From time to time, the board shall determine the rates of return on investments of the several funds. Upon the basis of any or all of such investigation, valuation,

and determination, the board shall adopt for the system such rates of return on investments, rates of contribution to the Teachers' Retirement Fund, mortality, service, and other tables as are deemed necessary.

22227. No adjustment shall be included in new rates of annuity contribution adopted by the board on the basis of such investigation, valuation, and determination or because of amendment to the Teachers' Retirement Law, for time prior to the effective date of the adoption or amendment, as the case may be.

No action of the board, other than correction of errors in calculating the annuity at the time of retirement, shall change the annuity payable to a retirant retired prior to the date the action is taken.

22228. The board shall issue to each member, after the close of the school year, a statement of his individual account.

#### CHAPTER 4. ESTABLISHMENT AND CONTROL OF FUNDS

22300. There is in the State Treasury a special trust fund to be known as the Teachers' Retirement Fund. There shall be deposited in that fund the assets of the system and its predecessors, consisting of employee contributions, employer contributions, state contributions, appropriations made to it by the Legislature, income on investments, other interest income, income from fees and penalties, donations, legacies, bequests made to it and accepted by the board and any other amounts provided by this part.

Disbursement of money from the Teachers' Retirement Fund of whatever nature shall be made upon claims duly audited in the manner prescribed for the disbursement of other public funds.

22301. Return on investments shall be collected by the State Treasurer, and together with any other moneys received for the Teachers' Retirement Fund shall be immediately deposited to the credit of that fund and reported forthwith to the system. Money in whatever form received directly by the system shall be deposited forthwith in the State Treasury to the credit of that fund.

22302. The board shall determine annually the rate of credited interest to be credited to members' accumulated retirement contributions for service performed after June 30, 1935, the accumulated annuity deposit contributions and the accumulated tax-sheltered annuity contributions excluding all accumulated contributions while being paid as allowances under the provisions of Sections 23804 and 24100.

The board shall credit interest to all other accumulated reserves at the actuarially assumed interest rate.

22303. Earned interest not credited to accounts and other income shall be used to provide the benefits under this part.

22304. The board may apply to reduce the book value of securities purchased, all or part of the excess of the proceeds of the sale or redemption prior to maturity of securities over the book value

of the securities sold or redeemed provided the purchase of securities is made with such proceeds and provided that the terms of both securities from the date of sale, redemption, or purchase, as the case may be, to the respective dates of maturity, do not differ by more than five years. All such applications of excess of sales or redemption proceeds, even with greater difference in terms, heretofore made by the board are hereby validated and confirmed.

22305. In addition to such other investments as are authorized by this chapter, the board may in its discretion invest the assets of the retirement fund in an amount, determined on the basis of cost, not to exceed 10 percent of the assets in the first two years after the effective date of this section, not to exceed 15 percent during the third year after the effective date of this section, and not to exceed 25 percent thereafter, in common stock or shares, and not to exceed 2 percent of the assets in the first year after the effective date of this section, not to exceed 3 percent during the second year after the effective date of this section, and not to exceed 5 percent thereafter, in preferred stock or shares, of corporations created or existing under the laws of the United States, or any state, district, or territory thereof; provided that

(a) Such stock is registered on a national securities exchange, as provided in the "Securities Exchange Act of 1934" as amended. Such registration shall not be required with respect to the following stocks:

(1) The common stock of a bank which is a member of the Federal Deposit Insurance Corporation or a bank holding company whose subsidiary or subsidiaries is such a member, and has capital funds represented by capital, surplus and undivided profits of at least fifty million dollars (\$50,000,000);

(2) The common stock of an insurance company or an insurance holding company which has capital funds, represented by capital, special surplus funds and unassigned surplus of at least fifty million dollars (\$50,000,000);

(3) Any preferred stock.

(b) Such corporation has total assets of at least one hundred million dollars (\$100,000,000);

(c) Bonds of such a corporation, if any are outstanding, qualify for investment of the retirement fund and there are no arrears of dividend payments on its preferred stock;

(d) Such corporation, or such corporation in combination with its predecessor corporation, has paid a cash dividend on its common stock in at least 8 of the 10 years next preceding the date of investment, and the aggregate net earnings available for dividends on the common stock of such corporation, or such corporation in combination with its predecessor corporation, for the whole of such period have been equal to the amount of such dividends paid, and such corporation, or such corporation in combination with its predecessor corporation, has paid a cash dividend in each of the last three years earned on an aggregate basis;

(e) Such investment in any one company may not exceed 5

percent of the common shares outstanding; and

(f) No single common stock investment, based on cost, may exceed 2 percent of the assets of the fund.

22306. The board may also invest in any stocks or shares of a diversified management investment company registered under the "Investment Company Act of 1940" which has total assets of at least fifty million dollars (\$50,000,000); except that the total investment in such stocks and shares, together with stocks and shares of all other corporations, may not exceed 25 percent of the assets of such fund determined on the basis of the cost of the stocks or shares.

22307. The board shall retain investment counsel or trust companies or trust departments of banks to advise the board in connection with its equity investments.

22308. The annual report of the board required under Section 22218 of this part shall include a description of all securities held and a comprehensive report of transactions involving the investment of the retirement fund similar to that required of a life insurance company licensed to do business in California.

In the matter of stock exchange commission fees and other fees paid to persons not employed by the state for services in connection with investments under this chapter, the names of those persons to whom such fees are paid and the amounts paid shall be clearly identified in the report.

#### CHAPTER 5. INFORMATION ON STATUS

22400. Each member and beneficiary shall furnish to the board such information affecting his status as a member or beneficiary of the system, as the board requires.

22401. Each member shall file a statement with the board, at the option of, and upon the form furnished by, the board, giving:

(a) His date of birth.

(b) All service previously performed by him in a position requiring membership in the system or its predecessors.

(c) The beneficiaries under the system to receive any benefits, payable upon the death of the member or beneficiary.

22402. Each county superintendent shall give immediate notice in writing to the board of the employment, death, resignation, or discharge of any person employed in a position requiring membership in the system, by the county or by a school district in the county.

Every other employing agency shall give similar notice with respect to each person employed by it in a position requiring membership in the system.

22403. The county superintendent and other employing agencies shall furnish such further information concerning any member or beneficiary as the board may require.

22404. The county superintendent or other employing agency shall withhold the salary of any member who fails to file information

required by the board in the administration of the system, or to pay amounts due from the members to the system.

The salary shall be withheld by the county superintendent or employing agency upon his own knowledge, if any, of the failure or upon notice from the board of the failure of the teacher to file or pay.

The salary shall be withheld and not released until notice is given by the board to the county superintendent or employing agency, or until the county superintendent or agency knows otherwise, that the information has been filed or the payment has been made.

## CHAPTER 6. MEMBERSHIP

22500. All persons who were members of the California State Teachers' Retirement System on June 30, 1944, are members of the system.

22501. All teachers employed in the public schools of this state are members of the system unless excluded from membership under Chapter 7 (commencing with Section 22600) of this part.

22502. Certificated librarians in elementary, secondary schools, or community colleges, or persons who serve partly as librarians and partly as teachers, are members of the system.

22503. All other employees in the public schools of this state who hold valid and unrevoked credentials issued by the State Board of Education, the Board of Governors of the California Community Colleges, or the Commission for Teacher Preparation and Licensing, and who are employed for at least 50 percent of each school month in work authorized by their credentials, are members of the system.

22505. Persons employed in the public schools or in county superintendents' offices of this state to perform duties usually performed by counselors, coordinators, and research directors, are members of the system.

22506. Superintendents, their deputies, and certificated employees under the direction of county superintendents are members of the system.

22507. Any person who has been a member for 30 years by reason of any previous employment as provided by this part and who leaves such employment to accept an exempt position in the executive or legislative branch of state government is a member of the system while he occupies such an exempt position unless he elects not to be a member by a writing filed in the office of the board within 90 days after employment in such exempt position.

22508. If a member is retired, or if his contributions are refunded to him upon termination of service, he shall cease to be a member.

For the purposes of this section, deposit in the United States mail of a warrant drawn in favor of a member, as refund of his contribution, and addressed to the latest address of the member on file in the office of this system, constitutes payment to the member of the amount for which the warrant is drawn.

Should a person to whom such warrant is mailed return the

warrant to the system's office for cancellation within 30 days from date of mailing of warrant, the board shall cancel the warrant and reinstate the person to membership restoring to him all the rights and privileges of membership which he had at the time of the cessation of membership.

22509. Members who on January 1, 1976, are in state service positions according to Section 22509 as it read on December 31, 1975, or who are employees of the Trustees of the California State University and Colleges, may elect in writing prior to July 1, 1976, not to continue as members of this system and to transfer membership to the Public Employees' Retirement System. Failure to execute and file the election which must be received in the office of this system by the close of business on June 30, 1976 shall be deemed a decision to remain as a member of this system.

22510. Members eligible to elect under Section 22509 and who elect to retain membership in this system shall be eligible only for those benefits available for all other members of this system, and not eligible for the benefits of the Berryhill Total Compensation Act, as amended, except for the reduced hospitalization insurance premiums. These members shall not be considered eligible for any additional benefits that may accrue to other state employees.

22511. If a member elects membership in the Public Employees' Retirement System under Section 22509, this election shall not be counted as a break in service if employment is continuous.

22512. Members who elect membership in the Public Employees' Retirement System and have achieved planned vesting according to Section 22157 of the Education Code shall retain the vested rights to survivor and disability benefits under this system until they qualify for the similar benefits in the Public Employees' Retirement System.

22513. Persons who have not achieved planned vesting shall qualify for eligibility for benefits under this system when total service under both systems equals the minimum required under Sections 23800, 23804, and 24101. These persons shall retain vested rights to survivor and disability benefits until they qualify for the similar benefits in the Public Employees' Retirement System.

## CHAPTER 7. EXCLUSIONS

22600. Persons employed in a position requiring membership in this system, but who are members of a local system or a county retirement system are excluded from membership in the system. A person so excluded shall retain the right to receive a retirement allowance for nonlocal service which is creditable in the system unless he withdraws his contributions therefor.

22601. Persons serving as exchange teachers or sojourn teachers from outside of this state are excluded from membership in the system.

22602. Persons employed on a substitute basis, who are not already members when they become employed and who perform

less than 100 complete days of service during the school year are excluded from membership in the system.

If, at the end of a pay period, a substitute teacher has performed 100 or more complete days of substitute service in that school year and subsequently performs one or more complete days of such service in that school year, he shall become a member on the first day of the pay period during which such additional service was performed.

**22603.** Persons not already members who are employed on a part-time basis and who will perform less than 60 hours of service per pay period, or persons who will serve less than 10 days per pay period on a daily basis are excluded from membership in the system. Members who will be employed on a part-time basis and will perform less than 60 hours of service per pay period or will serve less than 10 days per pay period on a daily basis may terminate their membership.

**22603.1.** Persons excluded from membership in Sections 22602 and 22603 may elect membership in the system at any time while employed in a substitute or part-time position which does not qualify for membership in this system. The election is irrevocable, shall be in writing, and shall be filed in the office of this system prior to submission of contributions.

**22603.2.** Persons who have been excluded from membership under Section 22602 or 22603 after January 1, 1976, and did not elect membership under Section 22603.1 and who subsequently become members of the system shall receive credit for the service performed while so excluded provided they elect to pay, and pay prior to retirement or payment of a disability allowance, whichever occurs first, and in a manner provided by the board, contributions equal to 16 percent of the salary earned for such service with regular interest.

**22603.3.** The intent of this section is to ensure that all necessary employer and employee contributions are made to the system for excluded service when a member elects to receive credit for that service.

Notwithstanding any other provisions in this chapter, persons who have been excluded from membership under Section 22602, 22603, 22604, or 22605, and school nurses excluded under Section 13968, who subsequently become members shall receive credit for the service performed while so excluded provided they elect to pay, and pay, prior to retirement or payment of a disability allowance, whichever occurs first, and in a manner provided by the board, all employer and employee contributions with respect to such service at the rate in effect on the date of election and the highest compensation earnable in any one of the three years prior to election.

Such contributions shall be equal to the rate of employer and employee contributions in effect upon the date of election.

Members may elect to pay for the excluded service as provided in Section 22813 as it read on December 30, 1975 until December 30, 1977.

22604. Persons not already members who are employed as instructors of adult education classes which have a duration of less than one school semester, or less than one school quarter of 12 weeks if the district operates its adult education program on that basis are excluded from membership in the system.

22605. Persons not already members who are employed as part-time teachers and who are concurrently employed in full-time positions as members of another retirement system, or a system administered and supported by the United States government, supported wholly or in part by public funds are excluded from membership in the system.

22606. Persons not already members who are employed for less than full time in positions requiring health and development credentials, a standard credential in designated services for health, or a designated services credential with a specialization in health are excluded from membership in the system.

The provisions of this section shall not apply to nurses employed in schools for at least 50 percent of a pay period.

22607. For the purposes of this chapter, a pay period may not be less than four weeks or more than one calendar month.

22609. A person employed as a teacher-assistant under the provisions of Section 44926 is excluded from membership in the system and the Public Employees' Retirement System.

22610. Nothing in this chapter shall be construed or applied to exclude from membership in this system any member who accepts a position requiring membership in this system in which position he has the right to elect membership in this or another retirement system and who elects membership in the other retirement system, or who enters a position which does not require membership in this system, but time served in which is included in this part.

Time served after becoming a member of the other system shall not be credited to the member under this system, nor shall contributions or benefits under this system be based upon such time or the salary received by the member during such time, except as provided in the definition of "final compensation" contained in Section 22127.

## CHAPTER 8. COMPUTATIONS OF ALLOWABLE SERVICE CREDIT

22700. This chapter governs the computation of service to be credited to a member for the purpose of determining whether the member qualifies for retirement, the amount of contributions required of the member, and the amount of benefits paid to a retiree.

22701. Claims for creditable service shall be corroborated by a statement from the superintendent of schools or custodian of records of the employing agency or public school where the service was performed.

Claims for creditable service performed outside the United States

or in federal schools within the United States shall be corroborated by a statement from the custodian of records.

When the official records of the service have been destroyed, the claim may be corroborated by one or more affidavits of knowledge of the service, preferably by persons who served with the member at the time the service was performed.

22702. Service performed prior to July 1, 1972, shall be credited according to the provisions of the law in effect at the time service was performed.

Service performed on or after July 1, 1972, by a member shall be credited in the proportion the compensation paid bears to the compensation the member would have received if he had been employed on a full-time day basis in the particular position in which he is employed throughout the school term, school year, or for a period of service at least the equivalent to a school term.

22703. Persons employed on a part-time basis, including persons employed in night schools and adult education programs, shall receive credit for time served in the proportion that the salary earned bears to the salary which would have been earned if employed full time. When a person is employed on an hourly or daily basis, full-time employment shall be considered as one hundred seventy-five (175) days or one thousand fifty (1,050) hours if the service is confined to a school term, or two hundred sixty (260) days or one thousand five hundred sixty (1,560) hours if the service extends for a full school year. The board shall make equitable adjustments for service which extends for a period greater than a school term but less than a school year.

22704. A member shall receive credit for service performed in a position prior to the date the position was made eligible for membership in this system or its predecessors.

22705. A member shall receive credit for time during which he is prevented from performing service in a position requiring membership, by act of God, or by reason of the closing of a school by any duly authorized officer or body. If by reason of a member's Japanese ancestry, he was required by the Wartime Civil Control Administration to leave his teaching position in California and returned prior to July 1, 1972, to a position requiring membership in the State Teachers Retirement System, he shall be given by the system four years of service credit in the system.

22706. A member shall receive credit for service performed in teaching positions in publicly supported and publicly administered universities and colleges in this state provided he does not have credited service therefor in any other retirement system.

22707. A member may receive credit for time served in certificated teaching positions in job corps centers administered by the United States government in this state providing education programs authorized by the State Department of Education in lieu of California public school programs.

A member may elect to receive job corps credit if he was

employed in a position requiring membership in the system within one year prior to entering such service, and returns to position requiring membership in the system within six months following the date of termination of service in the job corps. In no event shall a member receive credit for more than two years of job corps service nor shall a member receive credit for such service if he receives retirement allowance for such service from another retirement system.

A member who receives credit for job corps service shall pay employer and employee contributions plus regular interest in accordance with Section 22716. These contributions shall be based upon the full-time compensation the employee receives at the time the election is made to receive credit under the provisions of this section.

22708. A member shall receive credit for time served as an exchange teacher in any location.

22709. Service shall be computed by school years and not by calendar years, portions of years served being accumulated and counted as service. All of the service performed during any one school year in a position requiring membership in this system shall not count for more than one year, and the service credited under this system to any member as performed during any school year, shall not exceed the fraction of a year which makes one year of service, when added to the service credited to such member under the Public Employees' Retirement System, the Retiring Annuities System of the University of California, or any locally administered retirement system in California as performed during such year.

In lieu of any other benefits provided by this part, any member who performed service prior to July 1, 1956, shall receive retirement benefits for that service at least equal to the benefits which he would have received for that service under the provisions of this part as they existed on June 30, 1956. The provisions of this paragraph do not apply to service which is credited in the San Francisco City and County Employees Retirement System.

22710. No time shall be included for which a member is entitled to receive a pension in a lump sum or installment payments, for other than naval or military service from any source other than this system, or under the American Gratuity Act No. 4151 relating to service in the Philippine Islands under which 15 or more years of creditable service has accrued, or a local retirement system. If a retirant becomes entitled to such a pension, his retirement allowance shall be reduced thereafter to exclude the time upon which the pension is based, without other change in his retirement status.

22711. No time shall be included during which a person is a retirant or receiving disability allowance from this system.

22712. For the purposes of this chapter, war with a foreign power exists: (a) whenever Congress has declared war and peace has not been formally restored; (b) whenever the United States is engaged in active military operations against any foreign power, whether or

not war has been formally declared; or (c) whenever the United States is assisting the United Nations, in actions involving the use of armed force, to maintain or restore international peace and security.

22713. A member may elect to receive credit for time during which he serves in the active military service of the United States or of this state including active service in any uniformed auxiliary of, or to, any branch of such military service created or authorized as such auxiliary by the Congress of the United States of America or by the Legislature of the State of California, or in the full-time paid service of the American Red Cross performed prior to September 10, 1957, during war with any foreign power or during other national emergency, or in time of peace if he is drafted for such service by the United States government, if he was employed in a position requiring membership, or in a position time served in which is included in this part, within one year prior to entering such service.

Time during which a member for other cause is absent without compensation, on leave or otherwise, shall not be included.

Time included under this section shall be considered as served in the state in which the member was last employed before entering such service.

22714. A member who voluntarily requests or agrees to an extension of his original term of enlistment, service, or tour of duty shall not receive credit for time during which he serves in such military service and which is after January 1, 1958, or after the expiration of six months following the date of termination of such original term of enlistment, service, or tour of duty, whichever is later. In no event shall a member receive credit for more than four years of such military service performed after July 1, 1968.

22715. A member shall receive credit for time during which he is excluded from membership because of membership in any other retirement system and during which he serves in a position requiring membership in this system or its predecessors, if he subsequently ceases to be a member of, and ceases to be entitled to benefits from, the other retirement system and becomes a member of this system.

Such credit shall not be given if the member may redeposit withdrawn contributions and subsequently be eligible for any benefits in any other retirement system.

22716. Time during which a member is excused from performance of his duties, such as but not limited to, sick leave, holidays, or vacation, whether or not he is required to perform any portion of such duties during such time, and for which he receives compensation, including disability from any insurance carrier of his employer, under the Labor Code on account of industrial injury or disease, in an amount less than the full compensation earnable by him while performing his duties when not so excused, shall be credited as service in the proportion that the compensation paid to the member bears to the full compensation which would be earnable by him while performing his duties on a full-time basis. For purposes of this chapter, any certificated employee on a sabbatical leave as

provided under Section 44966 receives full-time service credit for time spent on such leave, after July 1, 1956, providing the member pays to the system additional contributions based on the compensation, which is the difference between compensation earned and the compensation earnable during the period of sabbatical leave, in the amount of:

(a) Eight percent of such compensation as employer and state cost of granting service credit, and

(b) The member's regular contribution rate as applied to such compensation. Regular interest shall be due on all contributions required under this section from the end of the school year during which the sabbatical leave was taken until date of payment of such contributions.

The employing school district may pay the amount required as employer and state costs in subdivision (a).

22717. Except as otherwise specifically provided in this chapter no member shall receive credit for service outside this state.

22718. Every person who was a member or retirant of the California State Teachers' Retirement System on June 30, 1944, may receive credit for time served outside this state prior to July 1, 1944, as follows:

(a) Credit for time served in a position which in this state requires membership, in other states of the United States and its territories and possessions and in Canada.

(b) Credit for time served in teaching positions in publicly supported and publicly administered universities or colleges in the United States and its territories and possessions and in Canada.

(c) Credit for time served in teaching positions in schools supported and administered by the United States government.

(d) Credit for time served as a physiotherapist during World War I in the Medical Department of the United States Army; provided, he was employed in a position requiring membership in this system within one year prior to entering such service.

(e) Credit for time served in publicly supported residential schools for the deaf and blind outside this state and credit for time served in the California School for the Deaf or the California School for the Blind, or in special classes maintained by the public schools of this state for the instruction of the deaf, the hard of hearing, the blind, or the semisighted.

22719. A member shall be credited at his retirement with credit for each day of accumulated and unused leave of absence for illness or injury for which full salary is allowed to which the member was entitled on the final day he rendered service to the school district or other employing agency by which he was last employed in a position requiring membership in this system. The number of years of service credit to be granted shall be the product of a factor and the number of days of accumulated and unused leave of absence for illness or injury. The factor shall be determined by dividing the number 1 by the number of days of service required by the member's contract of

employment during his final year of service in a position requiring membership in this system. When the member has made application for retirement pursuant to Section 23900, the school district or other employing agency shall certify to the Teachers' Retirement Board the number of days of accumulated and unused leave of absence for illness or injury to which the employee is entitled on his final day of employment.

22720. The employing school district or other employing agency shall pay the present value of the service credit awarded in Section 22719 to the Teachers' Retirement Fund. The present value shall be determined by the board, an approximate average figure based upon broad salary ranges and the experience in the prior school year, including any projected increases for the current year. The board shall determine the present value annually and publish same as a rule of the board.

This amount is due and payable to the Teachers' Retirement Fund within 30 days following the effective date of the member's retirement, and is delinquent thereafter. The board may assess a penalty on delinquent payments in accordance with the provisions affecting payment of employee and employer contributions.

22721. The benefits accorded pursuant to Section 22719 shall not be used in the calculation of final compensation under this system.

22722. Except as provided in Section 22719, no credit toward retirement shall be granted for any payment made for accumulated sick leave upon transfer from one district to another, upon termination of service, upon death, or retirement. No contributions shall be taken from such payments. Payments for accumulated sick leave shall not be included in any payroll warrant paid the teacher but shall be paid by separate warrant. Such payments shall not be included in the computation for the purposes of determining "final compensation". No continued leave of absence shall be granted a member solely for the purpose of allowing the member to receive compensation for accumulated sick leave for which the member could otherwise have elected to receive payment.

22723. A member shall receive full credit for time on and after July 1, 1972, during which he serves as an elected officer of any local, state or national educational organization provided that:

(a) The member is excused by his employing agency from performing the duties requiring membership in this system.

(b) The member makes the member contribution prescribed by Section 22804 with respect to any salary actually received from the employing agency and in addition pays monthly to the employing agency for transmission to the Teachers' Retirement Fund an amount equivalent to 16 percent of the salary that he would have earned, including any increases and other adjustments, had he not been excused from performance of his duties and pays regular interest on any contributions paid for time prior to the effective date of this section.

(c) The member is actively engaged as an elected and

compensated officer of the educational organization during the period of absence.

(d) The member was employed in a position requiring membership in this system in the month prior to commencement of the absence from regular duties and returns to a position requiring membership in this system or retires at the conclusion of the term of office.

(e) The maximum amount of service credit pursuant to this section does not exceed four calendar years.

(f) In the event that service pursuant to this section is included in computing final compensation for purposes of retirement, such final compensation shall be based upon the salary that the member would have received had he remained in a position requiring membership in this system.

22724. Notwithstanding any other provision of this chapter, a member employed on a part-time basis shall receive the credit he would receive if he was employed on a full-time basis and have his retirement allowance, as well as any other benefits that he is entitled to under this chapter, based upon the salary that he would have received if employed on a full-time basis, if he and his employer both elect to contribute to the Teachers' Retirement Fund the amount that would have been contributed if the member was employed on a full-time basis. This section shall be applicable only to members who have met the criteria provided in Sections 44922, 87483 or 89516 and are not older than 65 years and is limited to a period of five years of such part-time status. The employer shall maintain the necessary records to separately identify each employee receiving credit pursuant to this section.

## CHAPTER 9. CONTRIBUTIONS

22800. Contributions made by a member shall be credited to his individual account by the board.

22800.5. Acceptance of employment in a position requiring membership in the system is consent to have deductions from salary taken for the system.

22801. All members who enter the system on or after January 1, 1975, shall submit to the system proof of their date of birth after they attain five or more years of credited service. This proof shall meet the standards of the administrative procedure to establish record of birth, except for military records, as prescribed by the Department of Health.

Members of the system prior to January 1, 1975, shall not be required to furnish proof of date of birth if the birth dates in their retirement records have been consistent during the period of membership unless at time of retirement they elect an optional form of retirement when proof of date of birth of both member and beneficiary is required.

Persons required to furnish proof of date of birth because of a

discrepancy in date in the retirement record shall not be paid any allowance from the system until such proof has been received and accepted by the system.

22802. Any person to whom service performed outside of the state after January 1, 1914, is credited and any person who has claimed exemption from the provisions of the system or its predecessor or who is excluded from the system because of being a member of another retirement system while serving in a position requiring membership in this system or its predecessor, and who later becomes subject to its provisions may pay, in addition to the sum due under Section 22805 for each year of credited service performed prior to July 1, 1944, either outside the state or while exempt or while a member of any other system, regular interest on the amount which would have been contributed had he been a member of the system when the service was performed. Regular interest shall begin to accrue on the first day of July next following the end of the school year in which the service was performed.

22803. A member electing to pay contributions for nonmembership service shall pay for all such service.

22804. Each member of this system shall contribute to the Teachers' Retirement Fund an amount equivalent to 8 percent of salary earned, excluding salaries for overtime service.

22805. Members' accumulated retirement contributions and those other contributions required for credited service shall be in the amounts required based on rates of contribution applicable for the years included in such period.

22806. Accumulated contributions credited to a member whose date of birth is changed in the records of the system shall be adjusted to the corrected date by refund to the member or payment by the member, as the case may be.

22807. If at the time of retirement, disability or death, there are contributions remaining to the credit of the member which were made with respect to time on the basis of which the member will not be entitled to receive a benefit, the board shall refund to the member accumulated contributions as it may allocate to such time.

22808. If a member of a local retirement system transfers to the State Teachers' Retirement System as a member of the local system, and has accumulated contributions in his account in excess of those required by the State Teachers' Retirement System, the excess amount shall be refunded unless the individual makes application to have the excess amount credited to his (a) individual account in the Annuity Deposit Fund, or (b) member's account established under Chapter 91 of the Statutes of 1972.

Such application shall be submitted to the Los Angeles City Unified School District within 30 days of notification of the amount of excess contributions.

22809. Subject to rules prescribed by the board, any member may elect to make annuity deposits for the purpose of providing additional retirement income.

Contributions to the Annuity Deposit Fund may be remitted directly to the system by the member.

A member may at any time cancel such election and later again elect to make contributions to the Annuity Deposit Fund. Annuity Deposit Fund contributions made after June 30, 1956, may be withdrawn only as provided in Section 23100. Annuity Deposit Fund contributions made based on salary earned prior to July 1, 1944, may be withdrawn as provided in Section 23107.

22810. Subject to rules prescribed by the board, any member may elect to make tax-sheltered annuity contributions for the purpose of providing additional retirement income.

22811. Tax-sheltered contributions shall not exceed 20 percent of the compensation paid to him in any one year computed in accordance with applicable regulations of the Federal Internal Revenue Service.

22812. Employers of members, public officials and public agencies shall remit to the system, monthly or at other intervals fixed by the board, tax-sheltered annuity contributions made, and shall file with the board, reports of such contributions segregated according to members making them, all in accordance with such rules as may be adopted by the board.

#### CHAPTER 10. CONTRIBUTIONS FOR MILITARY SERVICE

22900. Except as provided in this part a member who elects to receive credited service for military or Red Cross service under Section 22713 shall pay such amounts as may be necessary, when added to contributions deducted by the employer during his absence, to make his contributions equal to those he would have made had he not been absent from the service. If the member was not employed in a position requiring membership at the time he entered the military service or an auxiliary thereof, or the service of the Red Cross his contributions for such service shall be based upon the salary he was receiving prior to entering on such service.

22901. If any member of the system required to pay contributions under Section 22900, does not pay such contributions while performing such service, the contributions may be paid by him directly to the system in a single payment before retirement or in monthly installments as provided by the board. Contributions paid under this section shall be paid for service performed after July 1, 1944, with regular interest accruing from the date of the member's discharge or release from military service to the date of payment. Failure to pay such contributions constitutes a break in service.

22902. No contributions shall be required for service credited under Section 22713 from a member for such service on account of an absence after September 15, 1940, if he returned to a position requiring membership in this system prior to March 19, 1948, or after that date if he returned to such employment within six months after the termination of such service and prior to January 1, 1950.

22903. No member may be required to pay contributions for service credited under Section 22713 which was performed prior to January 1, 1950, provided he was continuously performing such service prior to that date and returned to an employment in a position requiring membership in this system within six months after the termination of such service.

22904. No member may be required to pay contributions for service credited under Section 22713 while on a military leave of absence if he entered such service after January 1, 1950, and returned to a position requiring membership within six months after the termination of such service.

## CHAPTER 11. COLLECTION PROCEDURES

23000. The governing board of each school district, the county superintendent of schools, the county auditor and any other employing department or agency shall deduct from the salary of employee members of this system the contributions required by Section 22804 and shall pay to the system those contributions plus the contributions required by Section 23400.

23001. The county superintendent shall draw his requisitions for contributions required by Sections 22804 and 23400 in favor of the State Teachers' Retirement System, and the requisitions, when allowed and signed by the county auditor, shall constitute a warrant against the county treasury. The county superintendent thereupon shall forward the warrants to the board in Sacramento. The amounts received shall be deposited forthwith in the State Treasury to the Teachers' Retirement Fund.

23002. Member contributions required by Section 22804 and employer contributions required by Section 23400 are due and payable in the office of the system 20 calendar days immediately following the period covered by the monthly report upon which the salary earned during the period is being reported and from and upon which the contributions are due, and are delinquent 10 calendar days immediately thereafter.

23003. If a county superintendent of schools or employing agency other than a school district or community college district fails to make payment of contributions as provided in Section 23002, the board may assess penalties.

The board may charge interest on any delinquent contributions until they have been paid to the system, at a rate approximating the average rate yielded on moneys invested by the board during the previous year, but not to exceed 10 percent per annum. The penalties so assessed are deemed interest earned in the year in which received.

23004. The county superintendent of schools or employing agency other than a school district or a county or community college district shall make a report monthly to the system containing such information as the board may require in the administration of the system.

23005. Monthly reports are due in the office of the system 30 calendar days immediately following the month in which the salary being reported was earned, and are delinquent 15 calendar days immediately thereafter.

23006. If a county superintendent of schools or employing agency other than a school district or community college district submits monthly reports late or in unacceptable form, the board may assess penalties.

The board may assess penalties based on one-half of the sum of the contributions covered by the report for late or unacceptable submission of reports at a rate of interest approximating the average rate yielded on moneys invested by the board during the previous year, but not to exceed 5 percent per annum. The penalties so assessed are deemed interest earned in the year in which received.

23007. Should any county superintendent fail to make payment of any assessment by the board, the State Controller shall, upon order of the board, withhold subsequent payments from the State School Fund to the county for deposit in the county school service fund or, upon the request of a county superintendent of schools to the county auditor, he shall withhold payments to a school district for deposit in the district general fund until the contributions and report are received in acceptable form in the office of the system and the board directs the State Controller to make such payments less the amount of such assessments to the county as would have been paid had no payments been withheld. The State Controller shall thereupon pay to the system the amount of such assessments withheld for deposit in the State Treasury to the Teachers' Retirement Fund.

23008. If more or less than the correct amount of the contribution required by Sections 22804 and 23400 is paid to the system based on any salary payment to a member, including salary payments to exchange teachers for service outside of this state, proper adjustments shall be made, without interest, in connection with subsequent salary payments, or adjustments may be made by direct cash payments between the member, the employing agency and the board.

23009. If the board determines that contributions are due the system from a person who has retired, is receiving a disability allowance or died including one who has applied for retirement or disability allowance but has not received his first benefit check and the person is unable to pay the amount due, the board may withhold all or part of subsequent payments due the member, retirant, disabilitant or survivor, until the amounts so withheld equal the contributions due plus regular interest.

23010. Any overpayment made to or on behalf of any member, former member, disabilitant, survivor or retirant, including but not limited to contributions, interest, benefits of any kind, federal or state tax, or insurance premiums, and not recovered prior to or following a death shall be deducted from any death benefit that may

be payable by the system.

23011. Losses or gains resulting from overpayment or underpayment of contributions or other amounts within the limits set by the State Board of Control for automatic writeoff, and losses or gains in greater amounts specifically approved for writeoffs by the State Board of Control, shall be debited or credited, as the case may be, to the appropriate reserve in the Teachers' Retirement Fund.

23012. At any time upon the request of the system, the employing agency shall furnish a statement of the amount of contributions deducted from salary payments of any member, the services performed and the salary earned by him since the end of the period covered by the last report of the superintendent or employer. The system may use the information shown in the statement in determining contributions to be paid by or to the member or to a beneficiary, or use it in determining the member's status upon retirement, even though the member's and employer's contributions will not be received by the board until after the payment or determination.

## CHAPTER 12. RETURN OF CONTRIBUTIONS

23100. Upon the termination of a member's employment by any cause other than death or retirement there shall be paid to him, or if no other benefits are payable under this part upon the death of a member, there shall be paid to the beneficiary nominated by the deceased member:

- (a) The accumulated retirement contributions.
- (b) The accumulated annuity deposit contributions.
- (c) The accumulated tax-sheltered annuity contributions unless the withdrawal is made within five years of initial deposit of tax-sheltered contributions, in which case the refunded amount shall be without interest.

23101. When a member's contributions are returned to him, as provided in Section 23100, all rights to benefits pertaining to the service credits represented by those contributions are forfeited. Such rights and benefits, based upon service performed prior to refund, shall not be restored until the member has redeposited the total of the refunded contributions, and paid the regular interest thereon as provided in Chapter 13 (commencing with Section 23200) of this part.

23102. Prior to the system paying a refund of contributions, the employer or superintendent of schools shall certify that the member's employment has been terminated.

23103. The board shall deduct 4 percent of the refundable balance or twenty-five dollars (\$25), whichever is less, from each refund made upon termination of service. The amounts deducted are appropriated to the State Teachers' Retirement System and shall be credited to the support appropriation provided for in Section 22003 as reimbursements for the fiscal year during which such

amounts are deducted.

23104. Without terminating his membership a member may withdraw tax-sheltered contributions in his individual account. If the member withdraws such contributions within five years after the first contribution is made no interest is refundable thereon.

23105. Refunds to a member shall be made upon request of the member, or may be made without such request if it appears to the board that the member's employment is permanently terminated and the member does not have enough service under the system to qualify for receipt of a retirement benefit.

23106. If a member ceases to be entitled to credit for service in this system because he has become entitled to credit for such service in another retirement system supported wholly or in part by funds of the United States government, or any state government or political subdivision thereof, he is entitled to a refund of the accumulated retirement contributions made during the period for which he is entitled to credit in the other retirement system.

23107. Any member without terminating membership and upon making application on forms provided by the system shall be paid a refund of the accumulated annuity deposit contribution.

23108. Employing school districts and other employing agencies shall notify any member who terminates employment as to the member's eligibility to receive retirement benefits from this system. The notice shall include the rate of interest which will be earned if accumulated contributions are not withdrawn and shall inform persons with less than five years credited California service that the only benefit for which they are eligible at any time is the refund of accumulated contributions. Employing school districts and other employing agents shall transmit such information to the member as part of the usual separation documents.

### CHAPTER 13. REDEPOSIT OF CONTRIBUTIONS

23200. If a person whose accumulated retirement contributions have been refunded again becomes a member of the system he may elect to redeposit such contributions with regular interest, after he has subsequently performed one year of creditable service provided he repays all such contributions previously refunded.

For time prior to July 1, 1944, regular interest shall be at 2½ percent compounded annually. Such redeposit shall also include the administration expense provided in Section 23103.

23201. Repayment of withdrawn accumulated retirement contributions shall be made in one sum, or in not more than 60 monthly installments, provided that no installment, except the final installment, shall be less than twenty-five dollars (\$25).

23202. An election pursuant to Section 23200 to redeposit accumulated retirement contributions may be made by a member anytime prior to the date of his retirement or payment of disability allowance, whichever occurs first.

An election to redeposit refunded contributions shall be considered as an election to repay all contributions previously refunded.

If any payment due because of such election is not received at the Sacramento office of the system within 120 days of its due date, the election shall be canceled. Upon such cancellation of election any payments made under the election shall be refunded.

In the event of cancellation of the election the member may at any time prior to the date of his retirement or payment of disability allowance, whichever occurs first, again elect to redeposit accumulated retirement contributions previously withdrawn or refunded, in accordance with Section 23200 and all the laws, rules and regulations pertaining thereto.

A disabiltant who elected not to redeposit contributions may at any time and prior to the date of subsequent retirement elect to redeposit, pursuant to Section 23200, after attainment of three years of credited service subsequent to the last disability payment.

23203. Any person whose contributions were refunded to him and who has received, or will qualify for the receipt of a retirement allowance from the Public Employees' Retirement System, or from the University of California Retirement System or the Legislators' Retirement System or a local system may elect to redeposit the contributions refunded to him, with regular interest, without being employed in a status requiring membership in this system.

A person who elects to redeposit as provided herein shall not receive credit for service which might otherwise be creditable under the provisions of Section 22718.

#### CHAPTER 14. TRANSFER OF ASSETS

23300. This article details the provisions relating to the transfer of assets from the Los Angeles Unified School District Retirement System and the Los Angeles Community College District Retirement System to the State Teachers' Retirement System.

The purpose of the asset valuation method described in this chapter shall be to provide equality for each party.

The transfer of assets provided for in this chapter shall be in cash or in securities in kind. Without in any way limiting the definition of "securities" and so that it may be perfectly clear, this term shall include notes secured by mortgages or real estate mortgages.

23301. Sections 23302 to 23307, inclusive, apply to the transfer of assets as of June 30, 1972, as they relate to the Los Angeles Unified School District Retirement System.

23302. The total market value of the State Teachers' Retirement Funds' securities shall be established as of the close of business on June 30, 1972. The accrued income on the securities at June 30, 1972, cash on hand, the investment principal in course of collection and the members contributions receivable shall be added to the total market value of securities and, after deducting interest and principal

collected in advance and retirement claims payable and filed, this amount shall be divided by the total of member contribution reserves plus reserves for retirement annuities, death annuities, and survivor benefits. The quotient thus obtained, computed to eight places past the decimal, shall be divided into the total of the cash, market values of the securities in kind which are to be transferred to the State Teachers' Retirement System to enable that system to discharge the obligations for member contribution reserves plus reserves for retirement annuities, death annuities and survivor benefits being assumed by that system for the Los Angeles Unified School District Retirement System in Section 23605, established as of the close of business on June 30, 1972, and any accrued income thereon, to provide the values of the Los Angeles Unified School District's assets for transfer. To ensure uniform calculation of the reserves for retirement annuities, death annuities and survivor benefits, the reserves for both systems shall be calculated by applying the appropriate State Teachers' Retirement System's 1943 and 1962 State Teachers' Mortality Tables, 4 percent interest attained-age annuity factors to the benefits payable as of June 30, 1972.

Accrued income properly computed shall include any delinquent interest at the face rate on any item which, while in default, is guaranteed or insured by an agency of the United States government.

Values established in accordance with the above procedures shall be obtained and approved by each board, who may obtain the assistance of other parties and may, if they so desire, agree to binding valuations by a mutually agreed-upon independent party.

Either the Los Angeles Unified School District or the Teachers' Retirement Board may reject specified securities for transfer and recommend alternative selections.

Selection of securities to be transferred in kind shall not be made in a manner adverse to the Teachers' Retirement Fund. While a proportionate division of each holding shall not be required, the State Teachers' Retirement System shall be entitled to a division of the city local system's securities distributed between nonconvertible fixed income investments, equities, and securities convertible into equities in proportion to the book value of these security groupings to the total value of the city local system's portfolio as of June 30, 1972. However, the Teachers' Retirement Board may reject any securities which do not qualify under its investment resolution as amended December 18, 1970.

Should the respective parties be unable to reach agreement on market value of assets by October 15, 1972, the matter shall be submitted to arbitration by an independent party who, in making his determination shall be guided by the State Constitution, existing law, the formal investment resolution of the Teachers' Retirement Board as amended December 18, 1970, and the provisions of this chapter, and his decision shall be binding upon both parties to the extent that it is legal under state law. The arbitrator shall be mutually agreed

upon by the respective boards. If agreement cannot be reached, the market value shall be established by a panel of three arbitrators, one appointed by the Los Angeles Unified School District, one by the Teachers' Retirement Board and the third selected by mutual agreement of the first two. Decisions of the arbitration panel shall be binding upon the Los Angeles Unified School District and the State Teachers' Retirement System to the extent that it is legal under state law.

23303. To mitigate the possibility of conflicts arising because of changing market valuations over time, the transfer shall be effected as soon as possible. To this end, a partial transfer consisting of cash and securities in kind valued at market plus accrued income equivalent to 90 percent of the estimated value of the annuity savings (active member accumulated contributions) shown on the city system's records shall be made as soon after June 30, 1972, as possible with a subsequent adjustment in its valuation amount effected as soon as the aforementioned valuation quotient is computed. A decision as to which stocks shall be eligible for transfer must be agreed upon by both parties prior to the valuation date to avoid any possible inequity. For the total of the common and preferred stocks to be transferred, any change in the market value between the valuation date and the actual date of transfer shall bear a close relationship to the change in the Standard and Poor's Composite Stock Index of 500 Companies between the same dates.

23304. If the Los Angeles Unified School District Retirement System incurs a net realized loss from the transfer of assets at less than their book values, that loss shall be a charge against the residual funds remaining on deposit with the Los Angeles Unified School District.

23305. The transfer of cash and securities in kind from the Los Angeles Unified School District to the State Teachers' Retirement System shall be accomplished by that district delivering the cash and securities in kind at the office of the State Treasurer in Sacramento properly registered in the name of the State Teachers' Retirement System in accordance with the registration requirements of the State Teachers' Retirement System. This transfer shall be completed by June 30, 1973. Interest on the actual amount of any cash transfer shall be at the rate of 6 percent per annum from July 1, 1972, to date of the transfer. Any cash income payments or payments on securities received in the form of securities by the Los Angeles Unified School District after June 30, 1972, which are properly allocable to the Teachers' Retirement Fund shall be paid to the Teachers' Retirement Fund.

23306. If the Los Angeles Unified School District's assets contributed are recorded in the State Teachers' Retirement System's accounts at a total amount different than the total member annuity savings (active member accumulated contributions) and present value of retired roll being financed from local system reserves transferred to the State Teachers' Retirement the difference shall be

recorded in the State Teachers' Retirement System's account as a deferred item which is to be amortized over a 25-year period.

23307. All costs of the asset transfer, asset valuation, security registration, and the administrative cost incurred by the State Teachers' Retirement System in accomplishing the merger of the Los Angeles Unified School District Retirement System and the Los Angeles Community College District Retirement System into the system and the cost of administration, as they relate to the local system, shall be a charge against the residual funds remaining on deposit with the Los Angeles Unified School District and the Los Angeles Community College School District.

CHAPTER 15. PUBLIC CONTRIBUTIONS

23400. The school districts and other employing agencies in the state shall contribute monthly to the Teachers' Retirement Fund the following percentages of the total of the salaries upon which members' contributions are based:

- (a) For fiscal year ending June 30, 1973..... 3.2%
- (b) For fiscal year ending June 30, 1974 ..... 4%
- (c) For fiscal year ending June 30, 1975..... 4.8%
- (d) For fiscal year ending June 30, 1976 ..... 5.6%
- (e) For fiscal year ending June 30, 1977 ..... 6.4%
- (f) For fiscal year ending June 30, 1978 ..... 7.2%
- (g) For all fiscal years after June 30, 1978 ..... 8%

In a local district only the salaries of those members who are not contributing to the local system shall be included in the preceding computations of total contributions by the district.

23401. District taxes may be levied and collected annually pursuant to this section by the respective districts at the same time and in the same manner as other district taxes are levied and collected. The tax shall be in addition to any other district tax now or hereafter authorized by law, and shall not be considered in fixing maximum rates of taxes for school district and community college district purposes.

Such tax is for the purpose of providing funds to make contributions to the Teachers' Retirement Fund required of school districts and community college districts under Section 23400 and to local retirement systems, and the rate shall be such as necessary to raise the amount of difference between the estimated amount of contribution needed and the estimated amount of foundation support provided by Section 41716 or 84725.

The tax rate provided by this section shall not exceed ten cents (\$0.10) per each one hundred dollars (\$100) of the assessed value of property in an elementary school district or five cents (\$0.05) per each one hundred dollars (\$100) of the assessed value of property within a high school district or community college district.

In a unified school district the tax rate provided by this section shall not exceed fifteen cents (\$0.15) per each one hundred dollars (\$100)

of the assessed value of property within the district.

If at the end of any school year there remains an unencumbered balance derived from the revenue of the increase in tax rate provided by this section, such balance shall be used exclusively in the following school year for the expenditures of the school district or community college district during that year required by Section 23400.

23402. The state shall contribute one hundred thirty-five million dollars (\$135,000,000) annually to the Teachers' Retirement Fund for a period of 30 years beginning July 1, 1972. This amount shall be paid to the Teachers' Retirement Fund in equal monthly installments.

23403. The provisions of this part providing for state contributions do not constitute appropriations of money from the State Treasury. The sums required for state contributions shall be appropriated in each State Budget Act, or in such other manner as the Legislature may deem appropriate.

23404. Employer or state contributions made to the system are to finance the employer obligation for all of the members of the system and, therefore, shall not be credited to the individual accounts of the members of the system. Such contributions shall be held in the reserves of the system to finance the employers' share of the cost of all benefits payable by the system. Under no circumstances shall employer contributions be allocated or awarded to individual members, retirants, or their spouses or beneficiaries.

#### CHAPTER 16. SAN FRANCISCO LOCAL SYSTEM

23500. Notwithstanding any other provision of this code, the provisions of this chapter shall govern the matters included in this chapter.

23501. On July 1, 1972 and thereafter all persons who first enter employment in the San Francisco Unified School District and the San Francisco Community College District in positions requiring membership in State Teachers' Retirement System are members of State Teachers' Retirement System in accordance with Section 22501. These new members are excluded from coverage under the Old Age, Survivors, Disability and Health Insurance (Federal Social Security) Law for service performed as a member of State Teachers' Retirement System.

23502. Member and employer contributions for local service of a local system member shall be paid to the local system only for all service performed during the 1972-1973 school year.

23503. The former Permanent Fund contributions in the accounts of teachers who elected to be wholly covered by the San Francisco City and County Employees' Retirement System related to San Francisco local service performed prior to July 1, 1972, shall be retained in the Teachers' Retirement Fund during the 1972-1973 fiscal year. Credited interest shall be applied to these member accounts for the 1972-1973 fiscal year.

23504. Each credentialed member of the San Francisco City and County Employees' Retirement System on June 30, 1972, shall make an irrevocable election to be covered only by that system or to be covered only by the State Teachers' Retirement System for prior and future service performed in the San Francisco Unified School District or the San Francisco Community College District. This election shall be made no later than February 15, 1973, and shall be effective as of July 1, 1972.

This election shall be on a form and executed in such manner as the Superintendent of the San Francisco Unified School District and the Superintendent of the San Francisco Community College District shall specify.

Each district shall notify State Teachers' Retirement System of the individual's election with a copy thereof no later than March 1, 1973. Failure of a person to execute this election shall constitute an irrevocable election for coverage by the San Francisco City and County Employees' Retirement System.

23505. Those credentialed members of the San Francisco City and County Employees' Retirement System on June 30, 1972, who make an irrevocable election to be covered only by the State Teachers' Retirement System for prior and future service performed in San Francisco, shall be allowed to be covered for other certificated service concurrently, where the provisions of the city and county charter permit. This shall not include any credited service, as defined in Section 22117.

23506. All persons on the San Francisco system retired rolls on June 30, 1972, shall remain on the local rolls. The State Teachers' Retirement System will continue the subvention in Section 23526 for those persons, will apply the percentage update and annual improvement factor to payments being made by the State Teachers' Retirement System directly to the retirant, and will pay the two-thousand-dollar (\$2,000) retired death benefit upon their death. The retired death benefit will be reduced by the retired lump-sum death benefit payable by the San Francisco system.

The allowance that would have been payable had the member retired solely under the State Teachers' Retirement System, shall be taken into account in computing the amount of increase for the ten-dollar (\$10) a month per year of service minimum benefit.

23507. If a person dies, becomes disabled, or retires after June 30, 1972, and prior to the execution of an irrevocable election, the election of system coverage shall be made immediately and all benefits shall be paid in accordance with that election.

If a person has made the election to be covered only by the State Teachers' Retirement System and dies, becomes disabled or retires prior to July 1, 1973, benefits shall be paid as though the election had been executed on July 1, 1972.

23508. If a person has made an election to be covered only by the State Teachers' Retirement System and dies, becomes disabled or retires prior to July 1, 1973, the determination of a shortage or

overage in his account shall be made immediately, and any shortage due to the State Teachers' Retirement System which is payable by the member shall be paid prior to the payment of any benefit.

23509. Contributions payable by the member shall be paid with credited interest thereon through June 30, 1972, plus 6 percent interest on the June 30, 1972, balance for period from July 1, 1972, to date of payment.

23510. Persons who select to be covered only by the State Teachers' Retirement System and already have credit for classified or other noncertificated service in the San Francisco local system shall not have that credit transferred to the State Teachers' Retirement System.

23511. The San Francisco City and County Employees' Retirement System shall provide concurrent retirement benefits for classified and other noncertificated service in the San Francisco system according to the provisions applicable to miscellaneous employees of the time of the concurrent retirement for:

(a) Members of that system who transfer to the State Teachers' Retirement System after June 30, 1972; and

(b) Persons who were members of both retirement systems on June 30, 1972; and

(c) Any person who could have qualified under (b) if he had not taken a refund from either but not both systems, provided he qualifies for and redeposits prior to retirement.

23512. Notwithstanding the provisions in Section 23901, a member of the San Francisco local system may retire concurrently and receive credit for service performed in other states of the United States, its territories and possessions and the Dominion of Canada provided that person is eligible under Sections 22717 and 22718.

23513. If a person elects to be covered only by the State Teachers' Retirement System under Section 23504, there shall be deposited in the Teachers' Retirement Fund as of July 1, 1973:

(a) An amount equal to the contributions that would have been required had all service prior to July 1, 1972, been performed as a full-time member of State Teachers' Retirement System plus credited interest through June 30, 1972, plus 6 percent interest for the balance of the 1972-1973 fiscal year; plus

(b) An amount equal to 8 percent of the employee compensation as provided in Section 22114 for service performed during the 1972-1973 fiscal year, plus 6 percent interest; plus

(c) An amount equal to 3.2 percent of employee compensation as provided in Section 22114 as the employer's portion for service performed during the 1972-1973 fiscal year, plus 6 percent interest.

23514. If the accumulated contributions in the person's local fund account at the time of transfer to the State Teachers' Retirement System are not equal to those required in Section 23513, the difference between the amount in the account and the required amount is an unfunded liability and is the responsibility of the employer. The San Francisco City and County Employees'

Retirement System shall, at the time of the transfer of assets, provide the additional amount of accumulated contributions required to put each individual account in balance if the shortage is due to the rate of contributions which had been required by that local system. Such amount shall be a charge against the employer's reserve in the San Francisco City and County Employees' Retirement System attributable to the San Francisco Unified School District and the San Francisco Community College District.

Any funds transferred by the local system in addition to the accumulated contributions already in the member's account shall be deposited as employer contributions in the Teachers' Retirement Fund, and shall not be credited to the member's account and shall not be refundable.

Those persons in the San Francisco local system who elected the option to reduce their contributions by the amount of the old age portion of the social security contribution and those who are members of that system under San Francisco City Charter Section 8.507 are liable for this portion of any shortage in their accumulated contributions due to the Teachers' Retirement Fund, plus credited interest through June 30, 1972, and plus regular interest thereafter. This applies also to those persons who elected to have the required retroactive social security payment paid from their account in the local system at the time such coverage was adopted.

23515. Those persons who on June 30, 1972, were receiving a service retirement allowance from the State Teachers' Retirement System and who at the time such benefit was computed, had it reduced proportionately by the years of service in the local systems covered by social security, as compared with total service credit that otherwise would have been allowed, shall have one-half of such reduction restored prospectively, effective July 1, 1972. The San Francisco City and County Employees' Retirement System shall provide the amount required for such unfunded liability. The present value of the additional allowance shall be transferred to the State Teachers' Retirement System from the San Francisco City and County Employees' Retirement System as of June 30, 1972, and payable on August 1, 1972, plus accrued interest of 6 percent per annum after August 1, 1972.

23516. The San Francisco City and County Employees' Retirement System shall provide for and assume total financial responsibility for the full former Permanent Fund benefit earned through June 30, 1972, or those persons who elect to be covered only by the local system, as those benefits existed in subdivision (a) of Section 24000 on June 30, 1972. The Permanent Fund was terminated July 1, 1972. There shall be no reduction in local benefits because of this section.

23517. Adjustments to accounts caused by late discovery shall be made in accordance with Sections 23513 and 23514.

23518. The San Francisco Unified School District may continue the current annual report of member contributions and service for

fiscal year 1972-73 for all nonlocal certificated members working in the San Francisco Unified School District. The 8-percent employee and 3.2-percent employer contributions for these nonlocal members shall be remitted monthly. If an annual report is submitted instead of a monthly report, it is due on July 31, 1973, and is delinquent on August 31, 1973. The provisions of Section 23006 shall apply.

23519. All costs of the selection, asset transfer, asset valuation, security registration, and the administrative costs in the implementation of Chapter 1305 of the Statutes of 1971 shall be borne by the employer reserve in the San Francisco City and County Employees' Retirement System related to the unified school district and the community college account.

23520. For the members of the San Francisco local system who select to be covered only by the State Teachers' Retirement System, the transfer of assets from the San Francisco local system to the State Teachers' Retirement System shall be in cash or in securities in kind. While a proportionate division of each holding shall not be required, the securities transferred to the State Teachers' Retirement System shall be divided between nonconvertible fixed income investments, equities, and securities convertible into equities in proportion to the book value of these security groupings to the total value of the San Francisco local system portfolio as of March 31, 1972. For this purpose, cash will be counted as equivalent to a security valued at market.

The value of securities in kind that are to be transferred shall be determined as follows: Nonconvertible fixed income investments held in the portfolio on March 31, 1972, will be valued by discounting at the annualized earnings rate on the State Teachers' Retirement System's nonconvertible fixed income portfolio as of June 30, 1973, computed in accordance with established State Teachers' Retirement System procedures, plus an allowance for accrued income. However, where the value for any specific security when computed in this manner would be above the value at which the security may be redeemed at the first date at which it is callable or refundable, then the applied rate shall be computed to the redemption price at the first date at which the security is redeemable or refundable, whichever is later, plus an allowance for accrued income. Nonconvertible fixed income securities purchased after March 31, 1972, equities and securities convertible into equities shall be valued at market plus accrued interest if any. All securities to be transferred shall be valued as of June 30, 1973.

Either the San Francisco City and County Employees' Retirement System or the Teachers' Retirement Board may reject specific securities and recommend alternative assets. Selection of securities to be transferred in kind shall not be made in a manner adverse to the Teachers' Retirement Fund. Should the respective parties be unable to reach agreement by August 15, 1973, the matter shall be submitted to arbitration by a third party, and his decision shall be binding upon both parties. In making his determination, the third

party arbitrator shall be guided by the Constitution, other existing provisions of law, including this section, and the formal investment resolution of the Teachers' Retirement Board.

The arbitrator shall be mutually agreed upon. If agreement cannot be reached, the arbitrator shall be appointed by the Governor from a list of four names; two names each to be submitted independently by the San Francisco City and County Employees' Retirement System and the Teachers' Retirement Board.

23521. If a net realized loss occurs from the transfer of assets at less than their book values, that loss shall be a charge against the employer's reserve resident in the San Francisco City and County Employees' Retirement System attributable to the San Francisco Unified School District and the San Francisco Community College District.

23522. Residual employer funds shall remain in the San Francisco employer reserve in the local system, and shall be credited on a year-to-year basis as determined by the San Francisco City and County Employees' Retirement System to the employer's accounts in that reserve attributable to the San Francisco Unified School District and the San Francisco Community College District.

23523. The transfer of cash and securities in kind from the San Francisco City and County Employees' Retirement System to the Teachers' Retirement Fund shall be accomplished by that system delivering the cash and securities in kind at the office of the State Treasurer in Sacramento properly registered in the name of the State Teachers' Retirement System in accordance with the registration requirements of the State Teachers' Retirement System. This transfer shall be completed by September 1, 1973. Interest on any cash transfer shall be at the rate of 6 percent per annum from July 1, 1973, to date of the transfer. Any cash income payments or payments in securities made to the San Francisco local system after June 30, 1973, which are on securities to be transferred to the Teachers' Retirement Fund and are properly allocable to the Teachers' Retirement Fund shall be transferred to the Teachers' Retirement Fund.

23524. In the event that a preponderance of the members of the San Francisco local system elect to be fully covered by that system so as to require a transfer of cash and securities in kind from the Teachers' Retirement Fund to the San Francisco local system, the State Teachers' Retirement System shall be bound by the conditions enumerated in Sections 23520, 23521, and 23523.

23525. The San Francisco City and County Employees' Retirement System shall submit a list of all members of the system as of June 30, 1972, who have credential service which would qualify for membership in State Teachers' Retirement System. The list shall be submitted to State Teachers' Retirement System no later than October 31, 1972.

23526. The system shall pay to the San Francisco Unified School District and the San Francisco Community College District the

amounts due for subventions required prior to the amendments to this chapter during the 1971 Regular Session of the Legislature on account of persons who retired or died prior to July 1, 1972.

#### CHAPTER 17. LOS ANGELES UNIFIED SCHOOL DISTRICT PLAN

23600. Chapter 1305 of the Statutes of 1971, modified the State Teachers' Retirement System for improving benefits for, and providing a source of financing from teachers and school districts which did not maintain a local retirement system. These changes make it impossible to continue the prior relationship of the Los Angeles and San Francisco systems to the State Teachers' Retirement System. To enable these local systems to separately determine their future course of action, Chapter 1305 of the Statutes of 1971 makes no change in the local systems other than to terminate additional subventions after June 30, 1972.

The purpose of this chapter is to grant authority to the Los Angeles Unified School District to take any and all necessary steps to determine whether it wishes to merge with the State Teachers' Retirement System and thereby gain the advantage of the benefit improvements and financing structure of that system, or to continue to operate a separate system under a local benefit and financing program. This authority shall include the right to expend moneys out of the local system fund to cover the expenses of the investigation of the advantages of the merger and to consummate the merger if this course appears desirable, as well as to create and maintain reasonable contingency reserves to insure an orderly and adequate transition fully protecting the interests of the Los Angeles teachers.

23601. Notwithstanding any other provision of this code, the provisions of this chapter shall govern the matters included in this chapter.

23602. The modifications to the State Teachers' Retirement System retirement, disability and family allowances formulae contained in Chapter 1305 of the Statutes of 1971 shall not apply to the Los Angeles Unified School District Retirement System, hereinafter called the city local system.

23603. An election shall be held any time prior to July 1, 1972, to determine if the affected members of the city local system are to be covered only by that system or to be covered only by the State Teachers' Retirement System. The election shall be decided by a simple majority of those voting. The election shall be effective as of July 1, 1972.

The election shall be in such manner as specified by the governing board of the Los Angeles Unified School District and the results shall be transmitted to the State Teachers' Retirement System by that board no later than June 30, 1972. All costs of the election shall be borne by the employer reserve in the city local system.

23604. If affected members of the city local system on June 30, 1972, vote in an election held prior to July 1, 1972, to be covered only

by the State Teachers' Retirement System, Sections 23605 to 23616, inclusive, shall apply.

23605. The subvention to the city local system shall be canceled and the retired rolls transferred to the State Teachers' Retirement System as of July 1, 1972, together with the present value of the annuity and other benefits being paid from the employer and employees' reserves in the city local system less the present value of the benefit being provided out of subventions.

23606. There shall be no reduction of any benefit being paid to an individual as a result of Section 23605.

23607. All service credited to the individual accounts in the city local system shall be transferred to the State Teachers' Retirement System on the same basis as credentialed service is credited in the State Teachers' Retirement System.

23608. The Los Angeles Unified School District shall transfer to the Teachers' Retirement Fund as of July 1, 1972:

(a) An amount equal to the contributions that would have been required had all service prior to July 1, 1972, been performed as a nonlocal member of the State Teachers' Retirement System plus credited interest through June 30, 1972; plus

(b) An amount equal to 8 percent of the employee compensation as provided in Section 22114 for service performed on and after July 1, 1972.

23609. The Los Angeles Unified School District shall also deposit in the Teachers' Retirement Fund an amount equal to 3.2 percent of employee compensation as provided in Section 22114 as the employer's contribution for service performed on July 1, 1972, through June 30, 1973.

23610. If the accumulated contributions in the person's account at the time of transfer to the State Teachers' Retirement System are not equal to those required in Section 23608, the difference between the amount in the account and the required amount is an unfunded liability and is the responsibility of the employer. The Los Angeles Unified School District shall, at the time of the transfer of assets, provide the additional amount of accumulated contributions required to put each individual account in balance if the shortage is due to the rate of contributions which had been required by the city local system. Such amount shall be a charge against the residual funds remaining on deposit with the Los Angeles Unified School District. Clerical errors in assignment of rates or errors in rates due to incorrectly reported birth dates are the responsibility of the member.

23611. Any funds transferred by the governing board of the Los Angeles Unified School District in accordance with Section 23608 in addition to the accumulated contributions already in the member's account shall be deposited as employer contributions in the Teachers' Retirement Fund, and shall not be credited to the member's account and shall not be refundable.

23612. Persons who elected to retain the  $\frac{1}{70}$  formula when the  $\frac{1}{60}$

formula was adopted by the city local system are liable for the portion of contributions related to that election plus credited interest through June 30, 1972, and regular interest thereafter.

23613. Adjustments to accounts caused by late discovery shall be made in accordance with Sections 23608, 23609, 23610 and 23612.

23614. Those members who took a refund of their accumulated contributions from the former Los Angeles Unified School District Retirement System or the former Los Angeles Community College District Retirement System or the San Francisco City and County Employees' Retirement System, prior to July 1, 1972, and who have former Permanent Fund contributions only on deposit related to former local system service shall have those accumulated former Permanent Fund contributions on deposit as of July 1, 1972, treated in the same manner as accumulated retirement contributions of all nonlocal members. Upon discovery and notification to such members, they shall:

(a) Redeposit the contributions required to bring the account into full balance with regular interest prior to retirement; or

(b) Leave those former Permanent Fund accumulated contributions on deposit and receive a reduced retirement allowance under the law as it read on June 30, 1972.

23615. Those members who took a refund of their accumulated contributions from the former Los Angeles Unified School District Retirement System or the former Los Angeles Community College District Retirement System or the San Francisco City and County Employees' Retirement System, prior to July 1, 1972, and who also took a refund of their former Permanent Fund contributions from the State Teachers' Retirement System and who redeposited their contributions in the local system but did not redeposit their former accumulated Permanent Fund contributions in the State Teachers' Retirement System shall redeposit the contributions with regular interest required to bring the account into full balance when notified by the system. The redeposit may be made immediately without a waiting period and shall be made prior to retirement. Such redeposit shall be made in a lump sum or by installment payments as specified by the chief executive officer.

23616. The city local system shall submit a list of all members of that system as of June 30, 1972, who have credentialed service which would qualify for membership in the State Teachers' Retirement System. The list shall be submitted to the State Teachers' Retirement System no later than August 31, 1972.

## CHAPTER 18. BENEFICIARY DESIGNATIONS

23700. Whenever designation of a beneficiary is authorized by this part and no beneficiary has been designated or such designation has been revoked, the estate of the person authorized to make the designation is the beneficiary.

23701. If the estate is the beneficiary, and if the estate need not

be probated except for the payments due from the system, all of the amount due shall be paid directly without probate to the surviving next of kin of the deceased, or the guardians of the survivors' estates, share and share alike, payment to be made in the order in which the following groups are listed:

- (a) Husband or wife.
- (b) Children.
- (c) Father and mother.
- (d) Grandchildren.
- (e) Brothers and sisters.
- (f) Nieces and nephews.

No payment shall be made to persons included in any of the groups if, at the date of payment, there are living persons in any of the groups preceding it. Payment to the persons in any group, upon receipt from the persons of an affidavit upon a form supplied by the board, that there are no living individuals in the groups preceding it and that the estate of the deceased will not be probated, shall be in full and complete discharge and acquittance of the board and system on account of the death.

23702. A member or retirant may at any time designate a beneficiary to receive such benefits as may be payable under this part. Any change of beneficiary shall be in writing on a form prescribed by the system, executed by the member, witnessed by two witnesses, neither of whom may be beneficiaries or next of kin of the member, as listed in Section 23701. To be valid the instrument must be received in the office of the system before the member's death.

Such designation of beneficiary, other than a designation under options 2 and 3, may be revoked at the pleasure of the person making the nomination, and a different beneficiary designated in the same manner herein provided.

23703. A member's marriage, divorce, annulment of marriage or the termination of membership by refund constitutes a revocation of his previous designation of a beneficiary except as provided herein.

Any designation of beneficiary in effect on October 1, 1967, which was filed prior to the occurrence of any of the conditions specified herein is void.

After any revocation or voidance of a beneficiary designation, a member may designate the same or another beneficiary or beneficiaries in accordance with Section 23702.

A nomination of beneficiary filed with the system after an interlocutory decree in a dissolution of marriage action has been issued by the court shall continue to be valid after filing of the final decree of the dissolution of marriage.

23704. If after nomination of his child or children as a beneficiary, a married member, or retirant, has issue of his marriage and such child survives him, or is born after his death, such child shall receive an equal share with those children named as such beneficiaries unless he declares in a writing filed with the system that such child is

intentionally excluded as a beneficiary. No other evidence to rebut the presumption of such revocation can be received.

23705. Children of a deceased child (such child being a designated beneficiary or such afterborn beneficiary), of the member or retirant shall receive, share and share alike, the share that such child would have received were he living at the date of the death of such member or retirant.

23706. There is a 30-day claim period subsequent to notification of death before drawing a warrant in favor of the designated beneficiary.

23707. Whenever any member of the system dies while in active membership status, including those on a deferred membership status, or within four months after the termination of the member's employment in a status requisite for membership, benefits payable at death, unless a claim by someone other than the designated beneficiary or beneficiaries is filed with the system during the period provided in this chapter, shall be paid to the beneficiary designated by him on a form provided by the system and on file in the office of the system prior to the death of the member.

23708. Payment to a beneficiary designated in the form on file in the system at the date of death by a warrant drawn prior to any claim under a will or under community property rights constitutes full discharge of any and all liability of the board and system by reason of the member's death.

23709. The board, if the whereabouts of the nominated beneficiary cannot be determined, or if the beneficiary is the estate of the deceased person, may pay to the undertaker who conducted the funeral, or to any person who, or any organization which, has paid the undertaker from funds owned by the person or organization, in its discretion all or a portion of any amount payable under the system, but not to exceed the funeral expenses of the deceased person, or the portion of the expenses paid by the person or organization, as evidenced by the sworn itemized statement of the undertaker, person, or organization and by such other documents as the board may require.

The payment is in full and complete discharge and acquittance of the board and system up to the amount paid.

## CHAPTER 19. DEATH BENEFITS

23800. (a) Except as otherwise provided in Section 23804, 24202, or 24203 payment pursuant to subdivision (b) of this section shall be made upon receipt of proof of a member's death which occurred:

(1) Before the effective date of his retirement and within four months after the termination of the member's employment in a position requiring membership in this system, or

(2) While the member was physically or mentally disabled for performance of his duty, if such disability had been continuous from such termination.

(b) There shall be paid to the designated beneficiary:

(1) The accumulated retirement contributions made after June 30, 1935.

(2) The accumulated annuity deposit contributions.

(3) The accumulated tax-sheltered annuity contributions unless the withdrawal is made within five years of initial deposit of tax-sheltered contributions, in which case the refunded amount shall be without interest.

(4) The sum of two thousand dollars (\$2,000), provided the member had at least one year of credited service.

23801. The benefits provided in Section 23800, except as otherwise provided, are payable upon receipt of proof of a member's death which occurred:

(a) While he was employed in a position requiring membership in this system, and was receiving compensation because of such employment, and before the effective date of his retirement, or

(b) While the member was disabled, if disability had been continuous from the last day for which compensation was paid to him, or

(c) While he was on a leave of absence without compensation, granted in accordance with the Education Code and for reason other than disability, or military service, or

(d) Within four months after the termination of the member's employment in a position requiring membership in this system; provided, first that death was not included within the provisions of subdivision (b), or

(e) Within six months of his last day of service if an application for retirement was received by the system within four months of his last day of service, provided benefits are not payable under Section 24200.

(Amended by Stats 1976, Ch 1011 )

[ORIGINAL SECTION]

23801 The benefits provided in Section 23800, except as otherwise provided, are payable upon receipt of proof of a member's death which occurred

(a) While he was employed in a position requiring membership in this system, and was receiving compensation because of such employment, and before the effective date of his retirement or after such date if under the provisions of Section \_\_\_\_\_ he is to be considered as an active member at the time of death, or

(b) While the member was disabled, if disability had been continuous from the last day for which compensation was paid to him, or

(c) While he was on a leave of absence without compensation, granted in accordance with the Education Code and for reason other than disability, or military service, or

(d) Within four months after the termination of the member's employment in a position requiring membership in this system, provided, first that death was not included within the provisions of subdivision (b), or

(e) Within six months of his last day of service if an application for retirement was received by the system within four months of his last day of service, provided benefits are not payable under Section 24200

23802. From the amount determined under paragraph (4) of subdivision (b) of Section 23800 there shall be deducted an amount

equal to that portion of the benefit payable on account of the death by a local system or the Public Employees' Retirement System, which is provided from contributions of the employer, and is in addition to the portion of the benefit payable by such systems which is made up of the accumulated contributions of the member, and independently of any optional election made by the person at the time of his retirement, under which he received a reduced retirement allowance and a benefit was provided at his death.

23803. Upon receipt of proof of the death of a retirant there shall be paid to the designated beneficiary the sum of two thousand dollars (\$2,000) except for any reduction of the death benefit made under Section 23010.

From the death benefit provided in this section, there shall be deducted an amount equal to the lump-sum death benefit payable on account of death by a local system or by the Public Employees' Retirement System or the University of California Retirement System. The deduction shall be made whether such benefit is payable before or after retirement under such local or state system.

23804. If on the date of death the member has met the following conditions:

- (a) Death occurred after June 30, 1972, and
- (b) Has one or more years of credited service, and
- (c) If there has been a break in service of more than one year, one-half year of credited service has been performed after the end of last break, and
- (d) The provisions of Sections 23800 and 23801 have been met, or
- (e) Lacking the above, was a disabiltant receiving a disability allowance which began to accrue after June 30, 1972; a family allowance shall be paid subject to the provisions of this chapter and Section 24203 as follows:

(1) To the surviving spouse, having care of children there shall be paid an amount, in monthly installments, equal to 40 percent of the deceased's highest average monthly salary earned during any 12 consecutive months within the 36 months immediately preceding death, plus 10 percent of such salary for each child, up to a maximum of 90 percent of such salary, or

(2) If there is no surviving spouse or the surviving spouse subsequently dies and there are children who qualify under Section 22112, there shall be paid to the guardian of such children under age 18, or to the child if over age 18, an amount payable in monthly installments equal to 10 percent of the deceased's highest earned annual salary during any 12 consecutive months within the 36 months immediately preceding death, up to a maximum of 50 percent of such salary. If there are more than five such children, they shall share equally in the maximum of 50 percent, or

(3) If there is no allowance being paid under paragraphs (1) or (2) the unremarried spouse age 60 or over shall receive a monthly payment equal to the amount which would have been payable to such spouse based on projected service and projected earned salary,

had the member continued service to age 60 and at that time elected option number 3. The allowance payable under this paragraph shall be increased by application of the benefit improvement factor for time which elapses between the date the member would have reached age 60 and the date the allowances commence to accrue under this paragraph. For the calculation of the benefit, it shall be considered that the member died on the June 30 following the actual date of death and the spouse reached age 60 on the June 30 prior to attainment of that age, but the allowance shall not begin to accrue until the spouse attains age 60.

(4) If there is no surviving spouse or children entitled to allowances under paragraph (2), the dependent parent, age 60, or upon attainment of that age, shall receive an allowance based on projected service and projected earned salary equal to the amount which would have been paid if the member had retired at age 60 and elected option number 3. If there are two parents who qualify under this paragraph the total benefit will be computed on the assumption that the youngest parent is the beneficiary, and the total shall be divided equally for so long as there are two such qualifying parents. Otherwise, the total amount shall be payable to the one who qualifies.

Allowances payable under this section are in lieu of the death benefit payable under paragraph (1) of subdivision (b) of Section 23800 irrespective of the beneficiary designated to receive that benefit.

23805. If the person or persons to whom a family allowance is payable marries, dies or no longer qualifies for the allowance, the allowance shall be terminated on the last day of the month preceding such event.

23806. A stepchild or adopted child acquired subsequent to the death of the member shall not be entitled to any allowance and shall be excluded in the determination of allowances under this chapter.

23807. Upon termination of family allowances under Section 23804 and prior to such allowances totaling the amount payable under paragraph (1) of subdivision (b) of Section 23800, the balance shall be paid in a lump sum to the survivor who is the highest on the following list:

- (1) Nominated beneficiary.
- (2) Spouse.
- (3) Children, qualified under paragraph (1) or (2) of subdivision (e) of Section 23804.
- (4) Parent.
- (5) Estate of the last person who received a family allowance.

23808. Family benefits payable under Section 23804 shall be increased by the benefit improvement factor.

23809. Effective July 1, 1973, the benefits of persons eligible for survivor benefits pursuant to Section 23804 as it read on June 30, 1972, shall be increased as follows:

- (a) Those eligible for ninety dollars (\$90) per month shall be

increased to one hundred five dollars (\$105) per month

(b) Those eligible for one hundred eighty dollars (\$180) per month shall be increased to two hundred ten dollars (\$210) per month.

(c) Those eligible for two hundred fifty dollars (\$250) per month shall be increased to two hundred ninety-five dollars (\$295) per month.

These benefits shall be subject to the provisions of Section 22131 and 24400 with the first annual improvement to occur on September 1, 1974, and annually thereafter.

23810. Lump-sum payments provided under Section 23804 shall include credited interest on the unpaid balance calculated from: (1) the date of death to the date of payment if no benefits were paid under that section; (2) the date benefits, or rights to benefits, terminated to the date of payment if benefits were paid under paragraph (1) or (2) of subdivision (d) of that section; (3) the date of death to the date benefits commenced under that section, if benefits were paid under paragraph (4) of subdivision (d) of that section.

23811. There shall be deducted from the family benefit any benefits payable to a beneficiary from other public systems, exclusive of benefits payable for reasons other than the same event which caused payment of the family benefit.

23812. Survivor benefits payable on account of deaths which occurred prior to July 1, 1972, shall be continued in the amounts and under the conditions stated in Sections 23804 and 23811, as they read prior to July 1, 1972.

23813. If a member was employed in the educational institutions of the State of California, and because of a change of employment to a California state college or state university became a member of the Public Employees' Retirement System and subsequently died, his survivors shall be deemed eligible to receive survivor benefits as provided in Sections 23800 and 23804, as they existed on the date of the death of the member, less any benefits paid by any other California public retirement system.

This section shall apply only to survivors of members of this system who became members of Public Employees' Retirement System on September 1, 1971, and whose death occurred within 15 days following the expiration of the four-month extended coverage period in subdivision (e) of Section 23801.

This section shall cease to be operative 60 days after the effective date of the amendment enacted at the 1973-74 Regular Session.

23814. Benefits payable on account of deaths which occurred prior to July 1, 1972, and provided under former Section 14193, as it read prior to July 1, 1972, shall be continued. The provisions of former Sections 14195, and 14196 as they read prior to such date shall continue to apply to these payments.

## CHAPTER 20. RETIREMENT PROVISIONS

23900. A retirement or a disability allowance shall become effective upon any date designated by the member, provided:

(a) An application for retirement or disability allowance is filed on a form provided by the system, which is executed no earlier than six months before the effective date of retirement or disability,

(b) The designated effective date is later than the last day of service for which salary is payable to the member,

(c) The designated date does not fall on a weekend or holiday contiguous with the last day of service for which salary is paid to the member,

(d) The designated date is no earlier than the first day of the month in which the application is received by the system in Sacramento,

(e) The designated date is no earlier than the date upon and continuously after which the member is determined to the satisfaction of the board to have been mentally incompetent.

23901. Any member who comes within any of the following descriptions may be retired for service at his option upon written application therefor to the board:

(a) Who has attained age 55 years or more and who has at least five years of credited California service, if five of the final six years of credited service have been in this state.

(b) Who is credited with service which is not used as a basis for benefits under any other public retirement system, provided he has attained age 55 and retires concurrently under the Public Employees' Retirement System, or under the University of California Retirement System, or under a local system.

In the calculation of allowances of members who qualify for retirement under subdivision (b) of this section, and who are not qualified for retirement under subdivision (a) of this section, there shall be excluded any service performed in other states of the United States, its territories and possessions or in the Dominion of Canada.

Application for retirement under subdivision (b) may be made at any time, and such applicants are not subject to the provisions of Section 23907.

23902. A member may apply for a disability allowance if he has five or more years of credited service, the last five of which have been served in this state, and has not attained age 60 years, or has unused sick leave with sufficient days to have him receive salary on account of such sick leave to age 60 years, and has received compensation during any one of the 36 months immediately preceding the date on which the payment of disability allowance is to become effective.

23903. The board may authorize payment of a disability allowance to any member who is qualified upon application by the member, his guardian or conservator, or his employer, if such application is made:

(a) While the member is employed in a position requiring membership in this system and is receiving compensation because of such employment, or

(b) While he is physically or mentally incapacitated for performance of his duty and such incapacity has been continuous from the last day for which compensation was paid to him, or

(c) While he is on a leave of absence without compensation, granted for reason other than mental or physical incapacity for performance of his duty, and within four months after the last day of employment for which compensation was paid, or within 12 months while on an official district leave to study at an approved college or university, or

(d) Within four months after the termination of the member's employment in a position requiring membership in this system provided, first, that such application was not made under the provisions of subdivision (b) and, second, that such application was not made more than four months after the last day for which compensation was paid to him.

On receipt of an application for disability allowance the system may order a medical examination of a member to determine whether he is incapacitated for further service. If the applicant for disability allowance refuses to submit to the required medical examination, the application for disability allowance shall be canceled.

23904. Any member for whom the employer makes application for disability retirement and whom the board finds not to be disabled under the provisions of this chapter shall be reinstated to his former position upon receipt by the employer of notification from the board of the denial of the disability retirement.

23905. The disability allowance shall accrue and become payable as provided in Section 24600.

23906. If, prior to attaining the age of 55 years, a person who is entitled to receive a retirement allowance because of his retirement for disability prior to July 1, 1972, engages in a gainful occupation the board shall reduce the portion of his monthly retirement allowance which is not provided by his accumulated contributions, to an amount, which when added to the compensation earned monthly by him, does not exceed the amount of the compensation which would be earnable by a person holding the same or an equal position as or to that which he held at the time of his retirement, and in the same salary step or rating, or if no such position then exists such compensation earnable immediately prior to its abolition.

If his earnings are further altered, the board shall further alter such portion of his retirement allowance to the lower of the following amounts:

(a) The amount of such portion of his retirement allowance as it would be if not reduced under this section.

(b) An amount which, when added to the compensation earned by him, equals the amount of the compensation which would be

earnable by a person holding the same or an equal position as or to that which he held at the time of his retirement, and in the same salary step or rating, or if no such position then exists, such compensation earnable immediately prior to its abolition.

For purposes of this section the retirement allowance subject to adjustment is the unmodified allowance irrespective of the option elected.

When he attains the age of 55 years, his retirement allowance shall be made equal to the amount it would be if not reduced under this section, and may not again be modified under this section. The provisions of Section 23910 do not apply to those persons affected by this section.

23907. (a) If the last day of a member's service was performed prior to July 1, 1935, he shall have the right to make application for retirement or disability allowance only after performing additional service in a status requiring membership in this system, of not less than two years, after June 30, 1950.

(b) Subdivision (a) of this section shall not be applicable if a member performed at least three schooldays of service on or after July 1, 1935, and prior to July 1, 1950, even though compensation for such service was not paid out of any public funds, and if such person taught for 15 years or more before July 1, 1935. This provision became effective on November 10, 1969.

(c) Insofar as subdivision (b) of this section creates any rights to a retirement or disability allowance under this chapter, such allowance shall only be payable for periods commencing with November 10, 1969.

23908. The board may require any retirant retired for disability who has not attained the age of 58 years, to undergo a medical examination. If the examination, together with other available information, shows to the satisfaction of the board that he is no longer disabled, his retirement allowance shall cease, and he shall be reinstated to membership in the system. Should any such retirant refuse to submit to medical examination, as herein provided, payments to such retirant under disability retirement shall be discontinued and all rights of the retirant in the disability allowance shall be revoked.

23909. The board may require any member receiving a disability allowance, who has not attained the age of 60, to undergo annual medical examination. If the examination, together with other available information, shows to the satisfaction of the board that the member is no longer disabled, his disability allowance shall cease. Should any such member refuse to submit to medical examination, as herein provided, payments to such member under the disability shall be discontinued and all rights of the member in the disability allowance shall be revoked.

23910. If a person who begins to receive a disability allowance after June 30, 1972, is employed, or is self-employed in any capacity, the monthly benefit for disability shall be reduced by fifty cents

(\$0.50) for each dollar earned.

23911. When a person who has been granted a disability allowance after June 30, 1972, reaches age 60, or at such later date when there are no eligible children, his disability allowance shall be terminated and thereafter he shall receive the allowance payable for service retirement at that age, calculated on the projected earned salary and projected service. The allowance payable under this section, excluding tax-sheltered and annuity deposits, shall not be greater than the terminated disability allowance.

23912. Unless specifically provided to the contrary, no person retired for service shall accept employment in a position requiring membership in the system, or in any teaching capacity in a public school, within one year after the effective date of retirement. In no event shall a person accept such employment until after notifying the board at its office in Sacramento, and if retirement is for disability, until the system has determined by medical examination that he is no longer disabled. If any person fails to comply with these requirements the employment shall be invalid.

23913. If any person retired pursuant to this article is reemployed in a position requiring membership in the system or in any teaching capacity in a public school, or if any person retired for or receiving a disability allowance ceases to be incapacitated, his retirement allowance or disability allowance shall cease, and he shall be reinstated to membership in the system.

23914. Upon termination of a retirement or disability allowance which began to accrue on or after July 1, 1972, the person's individual account shall be credited with the amount of his accumulated retirement contributions as they were on the effective date of retirement or disability allowance, less the sum of all payments made under subdivision (a) of Section 24000 or Section 24100. The reduction shall not be greater than the total of such accumulated retirement contributions.

Upon the termination of a retirement, the person's accumulated annuity deposit contribution and accumulated tax-sheltered annuity contribution accounts shall be credited with the amounts of such contributions as they were on the effective date of retirement less the sum of all payments made under subdivisions (b) and (c) of Section 24000.

23915. Upon termination of the retirement allowance which began to accrue prior to July 1, 1972, the member's individual account shall be credited with amounts which are the actuarial equivalents at that time, as based on the disabled life, where retirement had been for disability, or on the active life where the retirement had been for service of the allowance and annuities being paid from accumulated retirement contributions, accumulated annuity deposit contributions or accumulated tax-sheltered annuity contributions. Such credited amounts shall not exceed the amount of his accumulated contributions as they were in those accounts at the date of retirement.

23916. If a retirant who did not elect an option dies prior to the date the total allowance, paid or payable, equals the accumulated contributions, and there are no further benefits due, except for the death benefit provided under Section 23803, the difference between the accumulated contributions and the total of such allowances shall be paid the person who will receive the benefit payable under Section 23803. If the retirant elected an option, and if the retirant and beneficiary both die before a sum equivalent to such contributions is paid, such difference shall be paid to the estate of the person last receiving or entitled to receive the allowance. This section does not apply to retirements which became effective prior to July 1, 1972.

23917. Allowances payable under subdivision (a) of Section 24000 or Section 24100 shall be increased by application of the improvement factor.

23918. Any retirant who retired for service, whose last employment as a member of the system prior to such retirement was in the California State University and Colleges, may, without reinstatement from retirement or any loss or interruption of benefits under this part, serve as a member of the teaching staff of the California State University and Colleges provided that such service does not exceed 90 teaching days in any one fiscal year, and the compensation payable to such persons for such service does not exceed four thousand dollars (\$4,000) in that fiscal year.

23919. Any retirant who is retired for service may be employed in a position requiring certification qualifications providing he is not paid more than four thousand dollars (\$4,000), including that compensation received under Section 23918, in any one fiscal year for such employment. The employment does not operate to reinstate the retirant as a member of this system, or to terminate or suspend his retirement allowance, and no deduction shall be made from his salary as contributions to this system. The retirant may be reemployed only if able to pass a physical examination prescribed by the State Board of Education.

At the end of each month in which a retirant performed service in a position requiring membership in the system, the employer or other authorized agency shall report to the system the retirant's name, social security number and salary.

A certificate from a physician or surgeon licensed under Chapter 5 (commencing with Section 2000) of Division 2 of the Business and Professions Code showing that he has submitted to and passed a physical examination within the immediately preceding 12-month period and filed with the county superintendent, or, in the case of a retirant to be employed as a substitute in a position requiring certification qualifications at the California School for the Deaf or the California School for the Blind, filed with the State Department of Education, shall be conclusive evidence of his passing the physical examination required by this section.

23920. A disabilitant may be employed in a position requiring certification qualifications. The employment does not operate to

terminate or suspend his disability allowance except as provided in Sections 23908 and 23910, and no deduction shall be made from his salary as contributions to this system.

23921. Effective July 1, 1972, a retiree receiving a disability retirement which was effective prior to July 1, 1972, may be employed in a position requiring certification qualification and earn no more than four thousand dollars (\$4,000) in a school year. The employment does not operate to terminate or suspend his disability retirement allowance except as provided in Sections 23906 and 23908 and no deductions shall be made from his salary as contributions to this system.

## CHAPTER 21. BENEFITS FOR SERVICE RETIREMENT

(Heading of Chapter 21 amended by Stats 1976, Ch 1011)

[ORIGINAL HEADING]

### CHAPTER 21 BENEFITS FOR DISABILITY

24000. Upon retirement for service which became effective after June 30, 1972, a member shall receive a retirement allowance which shall consist of:

(a) An annual allowance payable in monthly installments, upon retirement at age 60 or over, equal to 2 percent of the final compensation for each year of credited service. If the retirement is effective at less than age 60 this allowance shall be reduced by one-half of 1 percent for each full month, or fraction of a month which will elapse until the member would have reached age 60, and

(b) An annuity which shall be the actuarial equivalent of the accumulated annuity deposit contributions standing to the credit of his account at the time of his retirement, and

(c) A "tax-sheltered annuity" which shall be the actuarial equivalent of the accumulated tax-sheltered annuity contributions standing to the credit of his account at the time of his retirement.

In computing the above amounts, the age of the member at the last day of the month in which the member has requested his retirement be effective or such later date as provided in Section 23900 shall be used.

24001. Members who were retired under a previously existing local teachers' retirement system or the San Francisco City and County Employees' Retirement System prior to July 1, 1972, who have not retired under the State Teachers' Retirement System for the allowance which existed for local system service performed prior to July 1, 1972, shall have that part of the retirement allowance computed under the law in effect on June 30, 1972, whenever they retire in the future.

24002. For the purpose of calculating retirement allowances, credit for service performed between June 30, 1956, and July 1, 1968, on a part-time basis in each school year shall be based on the ratio that service performed bears to the minimum full-time service required for credit for a year of service.

24003. The minimum unmodified allowance, exclusive of annuities from accumulated annuity deposit contributions or accumulated tax-sheltered annuity contributions payable for service retirement, shall not be less than ten dollars (\$10) per month multiplied by the years of credited service. This guaranteed amount shall be reduced by the amount of an unmodified allowance payable from a local system based on service credited by this system. If the retirement is effective at less than age 60 this allowance shall be reduced by one-half of 1 percent for each full month or fraction of a month which will elapse until the member would have reached age 60.

24004. If a retirant reenters the system as a member and subsequently retires, the minimum retirement allowance is the allowance provided by Section 24003 adjusted for age in accordance with Chapter 24 (commencing with Section 24300) of this part.

24005. A person who was a member on June 30, 1972, and had five or more years of service and who had attained age 55, shall have the option of receiving the allowance payable under Section 14245, as it read on that date in lieu of the allowance payable under Section 24000(a).

## CHAPTER 22. BENEFITS, DISABILITY RETIREMENT

24100. Upon qualification for disability, a member shall receive a disability allowance, payable monthly, equal to 50 percent of the highest average monthly salary earned during any 12 consecutive months within the 36 months immediately preceding the effective date of disability, increased by 10 percent of such salary for each child to a maximum of four such children. A stepchild or adopted child acquired subsequent to eligibility for disability benefits shall not be entitled to any benefit and shall be excluded in the calculation of benefits under this section.

24101. Notwithstanding the provisions of Section 24100, any member who applied for a disability allowance to be effective during July, August or September 1972, and who has been or is in the future approved for a disability allowance with an effective date in July, August or September 1972, shall have that allowance recalculated effective on the first day of the month for which the disability allowance was or is approved, if the following conditions exist:

(a) The member has five or more years of credited service, the last five of which have been served in this state, and has not attained age 60, and

(b) Earned no service credit in the first two school years immediately preceding and less than a year of service credit in the third school year immediately preceding the effective date of the allowance, then the benefit shall be equal to 50 percent of the highest annual salary earned in any one of the four school years immediately preceding the effective date of the disability allowance, increased by 10 percent of such salary for each child to a maximum of four such children.

All other provisions of Section 24100 shall be applicable to a member who receives an allowance pursuant to the provisions of this section.

24102. Allowances payable under Section 24100 shall be reduced by an amount equal to the unmodified benefits paid or payable under other public systems.

24103. Allowances payable under Section 24100 on account of children shall be reduced when children become ineligible. Such reduction shall take into account the increases made by application of the improvement factor, however, the member's disability allowance shall not be less than it would have been if there had never been any eligible children.

### CHAPTER 23. OPTIONS

24200. Any member prior to mailing of his first retirement allowance check and those retirants receiving an estimated allowance under Section 24503 may elect an option which is an actuarially reduced retirement allowance payable throughout the life of the member and his designated beneficiary as follows:

(a) Option 2. Upon death a reduced retirement allowance equal to the reduced amount the member was receiving shall be paid to such person as the retirant has nominated by written designation duly executed and filed with the system at the time of his retirement; or

(b) Option 3. Upon the retirant's death, one-half of the reduced retirement allowance shall be continued throughout the life of such person as the retirant has nominated by written designation duly executed and filed with the system at the time of his retirement.

A member may revoke or change his election of an option at any time prior to the mailing of his first retirement allowance check. Those retirants receiving an estimated allowance under Section 24503 shall not change the election after it has been received in the system's office in Sacramento.

After the election has been signed and notarized, then the election of the option shall be in full force and effect. The election shall be void if not received in the system's office in Sacramento within 30 days after signature and notarization and the system shall proceed to compute the allowance on the basis that no option had been elected.

24201. Upon the termination of a disability allowance under Section 23911 the retirant may elect to modify the future service retirement allowance payable under subdivision (a) of Section 24000 in accordance with provisions of Section 24200. The actuarial equivalents computed under the option selection shall be based on the ages attained by the member and the beneficiary at the time the disability allowance is terminated.

24202. In the event of the death of a person who has filed an acceptable application for retirement allowance and did not elect

the unmodified allowance on the retirement application nor filed his final election of an option, the person shall be considered retired as of the effective date shown on that retirement application or such later date as specified under Section 23900 and to have formally elected option 2 naming the beneficiary shown on said application to receive benefits from this system.

24203. Any member who has qualified to make application for a retirement allowance under Section 23901 may elect, as provided in Section 24200, and without right of revocation or change after the effective date of his retirement to receive an actuarially reduced retirement allowance as of the date of his retirement, of the retirement allowance payable to him when and if he retires for service in a reduced retirement allowance according to the provisions of either option 2 or option 3 as stated in Section 24200. If the death of such member occurs after the date upon which the election has been signed and notarized, then the election shall be in full force and effect. The election shall be void if not received in the system's office in Sacramento within 30 days after the date of signature and notarization.

Upon such member's death, prior to the effective date of his retirement, the beneficiary who was nominated under the option elected and who survives shall receive an allowance calculated under such option, upon the assumption that such member retired on the date of death. The payment of such allowance to the beneficiary shall be in lieu of the family allowance provided in Section 23804 and the payment provided in subdivision (a) of Section 23100 and paragraph (1) of subdivision (b) of Section 23800, except that if the beneficiary dies before all accumulated contributions are paid the balance if any shall be paid to the estate of the person last receiving or entitled to receive the allowance. The accumulated annuity deposit contributions and accumulated tax-sheltered annuity contributions, and the amount provided in paragraph (4) of subdivision (b) of Section 23800, shall be paid the designated beneficiary in a lump sum.

If the member subsequently retires, regardless of whether the beneficiary nominated under the option elected is then living, a reduced retirement allowance computed under Section 23800 and the option elected shall be paid.

The amount of the retirement allowance prior to applying the option factor shall be calculated at the member's age at death before retirement, or age on the last day of the month in which the member requested retirement be effective, as the case may be. The reduction of such retirement allowance under the option elected shall be based on the ages of such member and the beneficiary nominated under such option, at the date the election was signed and notarized.

24204. The election of an irrevocable option as provided in Section 24203 shall preclude the payment of disability or family benefits to the member or any beneficiary. Members receiving a disability allowance under Section 24100 may not file an irrevocable election of option.

24205. If a member cancels the election made in Section 24203, that cancellation must be effective prior to the day preceding the effective date of retirement. Regardless of how the member elects to receive his retirement allowance, such allowance shall be reduced by one-half of 1 percent for each year or partial year that option 3 is in effect under Section 24203, or by three-fourths of 1 percent for each year or partial year that option 2 is in effect under Section 24203.

24206. If a member cancels an election under Section 24203, he may again elect an option under the provisions of that section. If he elects to change an option during any year, the reduction for that year will be that for the option 2.

24207. Allowances payable to beneficiaries on account of options elected under Section 24200 or 24203 shall be increased by application of the improvement factor. This factor shall be applicable on the same date when it would have been applied to the allowance of the deceased person.

#### CHAPTER 24. MULTIPLE RETIREMENTS

24300. The purpose of this chapter is to provide for the computation of retirement allowances to be granted to a person who:

(a) Previously retired from this system and subsequently reinstates as a member; or

(b) Previously received a disability allowance from this system and subsequently receives a service retirement under subdivision (a) of Section 24000.

24301. If the retirant returns to active service and performs less than three years of credited service prior to subsequent retirement, he shall have added to the retirement allowance he was receiving immediately prior to reentry an amount based on the service performed after his last reentry computed in accordance with the retirement formula provided in the law in effect on the date his subsequent retirement is effective but using the same final compensation that was used in the calculation of the retirement allowance he was receiving immediately prior to the last reentry.

If three or more years of credited service are performed after the last reentry, he shall receive the greater of his previous allowance recomputed on the basis of age, determined by deducting from his age at his subsequent retirement the time during which he was retired or the allowance he was receiving immediately prior to reentry, plus an amount based on service performed after his last reentry computed in accordance with Section 22127 and Section 24000.

24302. If less than three years of credited service are performed after his last reentry, he shall receive the lesser of the disability retirement allowance he was receiving at time of reentry or the service retirement allowance based on subdivision (a) of Section 24000 using the actual credited service, the final compensation upon which the disability allowance was based, and an age, but not less

than 55, determined by deducting from his age at his subsequent retirement the time he was retired, plus an amount based upon the credited service after his last reentry computed in accordance with subdivision (a) of Section 24000 using the final compensation which was used in the computation of his disability retirement allowance.

If three or more years of credited service are performed after his last reentry, he shall receive a retirement allowance calculated under the provisions of Section 22127 and subdivision (a) of Section 24000.

24303. If less than three years of credited service are performed after discontinuance of the disability allowance, he shall receive a retirement allowance which is the lesser of the service retirement allowance computed under subdivision (a) of Section 24000 based on actual and projected service and salary or the disability allowance he was receiving immediately prior to discontinuance of that allowance, exclusive of increments added for children. He may not elect to pay for or receive credit for service with which he was not credited on the effective date of the disability allowance.

If three or more years of credited service are performed after discontinuance of the disability allowance, he shall receive a retirement allowance computed under subdivision (a) of Section 24000 based on actual and projected service and salary. He may pay for and receive credit for creditable service with which he was not credited on the effective date of his disability allowance.

#### CHAPTER 25. INCREASES IN RETIREMENT BENEFITS

24400. The allowances which commenced to accrue prior to July 1, 1972, and payable on August 1, 1972, exclusive of annuities from the Annuity Deposit Fund and tax-sheltered annuities payable under former Sections 14193, 14280 and 14284, as those sections read under laws in effect on June 30, 1972, shall be increased by application of the benefit improvement factor on September 1, 1973, and annually thereafter.

24401. This chapter does not give any retirant, or his successors in interest, or his beneficiary, any claim against the system for any increase in any allowance paid or payable prior to July 1, 1972.

#### CHAPTER 26. ADVANCES ON RETIREMENT ALLOWANCES

24500. Whenever the system determines that payments in the correct amount due a member who has applied for retirement or disability cannot be made when payable because required information or documentation is not yet on file in the system, payment of estimated allowances based on preliminary information in the possession of the system, may be made; the system may present claims therefor, and the State Controller shall draw warrants in payment of such claims.

24501. Any loss incurred in connection with an estimated

allowance shall be a charge against the accumulated retirement contributions and the benefit provided in paragraph (4) of subdivision (b) of Section 23800.

Such payments of estimated allowances to a retirant or disabilitant shall not be made in excess of accumulated retirement contributions in the account and shall be a lien on such contributions until otherwise accounted for.

24502. If any such estimated allowances are more or less than the correct amount due to the retirant, disabilitant, or beneficiary, the difference between such correct amount and the estimated allowance shall be adjusted in subsequent payments or the State Controller may state an account with the retirant, disabilitant, or beneficiary, pursuant to Section 12419 of the Government Code.

24503. Whenever the board determines that payments to a member who has applied for retirement, and who has expressed an interest in an option but has not made his final election, cannot be made until after the first day of the month following that month for which such payments are due, the board may present claims for advances on retirement allowances which would normally be due a retired member of the system estimated on preliminary information in the possession of the board, and the State Controller shall draw warrants in payment of such claims.

If the member has applied for a service retirement allowance and has expressed an interest in option 2 or option 3, the estimated retirement allowance shall be in the amount of the monthly payment due on the assumption that the member had elected option 2.

## CHAPTER 27. PROCEDURES CONCERNING PAYMENT

24600. (a) The retirement or disability allowance begins to accrue on the first day of the month in which the retirement or disability is effective.

(b) On death of the retirant, a person receiving a disability allowance or a person who is reinstated to membership, the allowance ceases on the last day of the month preceding that in which the death or reinstatement occurs.

(c) Family benefits begin to accrue on the first day of the month in which the death of the member occurs.

(d) Option benefits begin to accrue on the first day of the month in which the retirant died.

(e) Family or disability allowances payable on account of a full-time student begin to accrue at the beginning of the month during which the full-time student qualified for the allowance. An allowance terminates at the beginning of the month in which the student no longer qualifies for it.

24601. Upon receipt of proof satisfactory to the board, that a warrant drawn in payment of a retirement allowance or in payment of any other account due from the system, has been lost, the Controller upon the request of the board shall issue a duplicate

warrant in payment of the same amount, without requiring a bond from the payee, and any loss incurred in connection therewith shall be charged against the fund from which the payment was derived.

24602. Persons entitled to receive allowances under this system may authorize deductions to be made from such allowances, in accordance with regulations established by the board, for the payment of group insurance premiums or dues or other charges of any plan of health and welfare benefits, as defined in Section 53200 of the Government Code.

No deductions may be made for the payment of such premiums, dues or other charges under any such policy or plan, unless the active and retired persons enrolled under such policy or plan, total not less than 1,000 in number.

24603. Payment pursuant to the board's determination in good faith of the existence, identity or other facts relating to entitlement of persons constitutes a complete discharge of and release of the system from liability for the payment so made.

Notwithstanding the provisions of Sections 5105 and 5125 of the Civil Code relating to community property interests, whenever payment or refund is made by this system to a member, former member, beneficiary of a member or estate of a member pursuant to any provision of this part, the payment shall fully discharge the system from all adverse claims thereto unless, before payment is made, the system has received at its office in Sacramento written notice of adverse claim.

24604. Any retirement allowance payable to a retirant, which has accrued and remains unpaid at the time of his death, shall be paid to:

- (a) The beneficiary entitled to payment in accordance with an optional settlement chosen by the member, or
- (b) The beneficiary entitled to receive the lump-sum death benefit provided upon death of a retirant if the member has not chosen an optional settlement, or
- (c) The estate of the retirant, if there is not a beneficiary entitled under either (a) or (b).

24605. Any disability allowance which has accrued and remains unpaid to a disabilitant at the time of his death shall be paid to:

- (a) The person entitled to receive a benefit under Section 23804, or if none, to
- (b) The beneficiary entitled to receive the death benefit under Section 23800.

24606. Where the member or retirant and the beneficiary have died and there is no sufficient evidence that they have died otherwise than simultaneously the proceeds of any death benefit shall be distributed as if the member had survived the beneficiary.

24607. If any person entitled to a benefit from the system is a minor who has no guardian of his estate, the benefit, not to exceed two thousand dollars (\$2,000), may be paid to the person entitled to the custody of the minor to hold for the minor, upon the written

statement, duly acknowledged and verified, of the person that the total estate of the minor does not exceed two thousand five hundred dollars (\$2,500) in value.

The payment shall constitute full discharge of any and all liabilities of the board and system.

The person shall account to the minor for the money when the minor reaches the age of majority.

Notwithstanding the provision of this section, a natural parent or an adoptive parent having custody of the minor will not be required to establish a guardianship for the purpose of collecting a survivor benefit, family benefit or death benefit.

24608. Whenever any warrant drawn in payment of contributions or accumulated contributions or benefits under this system remains unclaimed or the legal claimant cannot be found, the Teachers' Retirement Board shall redeposit the proceeds of such warrant in the Teachers' Retirement Fund, and shall hold such proceeds for the legal claimant without further accumulation of interest, and such redeposit shall not operate to reinstate the membership of the claimant in this system.

The above provisions shall apply to warrants drawn and canceled by the Controller pursuant to Section 17070 of the Government Code, except that upon notice of cancellation, the proceeds revert to and become a part of the Teachers' Retirement Fund, and shall be applied to meet the liabilities of the Teachers' Retirement Fund.

The board may at any time, after reversion of proceeds as provided above to the Teachers' Retirement Fund and upon receipt of proper information satisfactory to it, return from the Teachers' Retirement Fund an amount equal to such proceeds to the credit of the legal claimant.

24609. Whenever a refund cannot be made under the provisions of Section 23105, or a benefit cannot be paid because the member cannot be found, all accumulated contributions credited to his account shall be transferred to the Teachers' Retirement Fund.

If a person whose entire accumulated contributions were transferred to the Teachers' Retirement Fund returns to a position requiring membership, the system shall return all such contributions to his account with interest that would have been credited to his account had the funds not been transferred.

24610. (a) This section shall only be applicable to a district retirement salary plan in a unified district presently having an average daily attendance of less than 200,000 pupils and which was discontinued by the governing board of the district.

(b) The district shall continue to pay monthly to teachers and other persons who were retired prior to the date of such discontinuance an amount equal to the amount by which the retirement allowance to which any of such retired teachers or other persons were entitled under the plan exceeds the increase in the teacher's or other person's retirement allowance under the State Teachers' Retirement System resulting from the discontinuance.

The arrangement under which such amounts are paid by the district shall not be considered to be a local retirement system for the purposes of Sections 22000 to 24609, inclusive, nor shall such amount be taken into account in the calculation of retirement allowances under the State Teachers' Retirement System.

(c) The reserve fund created by the district from the assets delivered to it by the discontinued district retirement plan under former subdivision (c) of Section 14690 prior to its repeal is continued in existence and the amounts payable under subdivision (b) of this section shall be paid from that reserve fund.

24611. (a) The special reserve resulting from the discontinuance of a district retirement salary plan as provided in former Section 14690 prior to its repeal, and a part of which is used annually in the interest of the employees of the district at the discretion of the governing board, is continued in existence and shall continue to be used first as provided in this section.

(b) The district in which the district retirement plan was discontinued and which credited each teacher or other person employed by the district at the time of discontinuance, in a status requisite for membership in the State Teachers' Retirement System, with an amount which bears the same ratio to the portion of the assets delivered to the district pursuant to former subdivision (c) of Section 14690 prior to its repeal, which remained after the creation of the reserve fund for payments under former subdivision (d) of Section 14690 prior to its repeal, as required by former subdivision (e) of Section 14690 prior to its repeal, as the accumulated contributions credited to the member in his individual contribution account under the discontinued retirement plan at the time of discontinuance, bore to the total accumulated contributions so credited to all such teachers and persons, but such credit to any active member shall not exceed the amount of the member's accumulated contributions so credited at that time. The amount so credited to any person shall continue to be increased by interest at rates approved from time to time by the governing board of the district. The accumulated amount at the date upon which the person retires for service or disability under the State Teachers' Retirement System shall continue to be applied according to rates and tables adopted by the governing board and then in effect, to provide an annuity payable to the person throughout the balance of his life or a lump-sum payment of the total account balance on the date of retirement at the option of the governing board. If the person dies prior to retirement, the amount, with credited interest, shall be paid to his designated beneficiary, as it appears on the records of the district, if any, otherwise to the member's estate. If the person ceases to be employed by the district for any reason other than death, retirement, or attainment of the age at which his classification as a permanent employee ceases, he shall no longer be credited with or have any right to such accumulated amount, but the amount shall revert to and belong to the district. The arrangement under which

annuities and death benefits are paid by a district under this subdivision shall not be considered to be a local retirement system for the purposes of Sections 22000 to 24609, inclusive, nor shall such payments be taken into account in the calculation of retirement allowances under the State Teachers' Retirement System.

(c) The reserve fund created by the district from the assets delivered to it pursuant to former subdivision (c) of Section 14690 prior to its repeal is continued in existence and in the amount equal in amount to the total contributions credited to employees of the district, under former subdivision (b) of Section 14691 prior to its repeal, and the annuities and death benefits payable under former subdivision (b) of Section 14691 prior to its repeal shall continue to be paid from this reserve fund. If the reserve fund as first created proves insufficient to make the payments required under former subdivision (b), the district shall continue to make such additions to the reserve fund as may be necessary to provide for such payments.

(d) In addition to any other investments authorized by law for the investment of such funds, the funds of any specialized reserve or reserve fund established pursuant to former Section 14690 or former Section 14691 prior to their repeal may continue to be invested as authorized by Sections 31595 and 31595.4 of the Government Code for the investment of the funds of a county employees' retirement system.

The governing board may employ investment advisers to advise it on such investments and the fees for these services may be paid from the special reserve or reserve funds.

(e) The governing board may make additional cost-of-living adjustments in the payments to persons who retired prior to January 1, 1953.

#### CHAPTER 29. ADMINISTRATION, DISTRICT RETIREMENT SALARY PLAN

24800. All payments from the district retirement fund shall be made in the same manner as payments from school district funds but shall be subject to approval of the district retirement board. Warrants drawn on the fund shall be signed by at least one member of the district retirement board who shall be designated by the board.

The duties imposed upon the county treasurer shall be a part of his official duties, for the faithful performance of which he shall be liable upon his official bond.

24801. Any other provisions of law to the contrary notwithstanding, whenever any retirement benefits under a district retirement system payable solely by reason of death of the retired member to his estate, heir or beneficiary have been unclaimed for a period of four years from the date of notification, by the district retirement system, by means of United States mail, to the estate, heir or beneficiary, such funds shall revert to and become a part of the contributions of the district and shall be applied to reduce the cost

to the taxpayers of the district maintaining the retirement system.

The district retirement system may at any time after reversion of such benefits to the district and upon receipt of proper information satisfactory to it, return from district contributions, an amount equal to that which had, on account of such deceased member, reverted to the district.

24802. Any other provisions of law to the contrary notwithstanding, whenever any warrant drawn in payment of contributions or accumulated contributions or benefits under a district retirement system, remains unclaimed or the claimant cannot be found, the proceeds of such warrant shall be redeposited in the respective fund, or funds, from which they were derived, and held for the claimant, without further accumulation of interest, and such redeposit shall not operate to reinstate the membership of the claimant in the district retirement system. If said proceeds, whether heretofore or hereafter redeposited, are not claimed within four years after the date of redeposit, they shall revert to and become a part of the contributions of the district and shall be applied to reduce the cost to the taxpayers of the district maintaining the retirement system and on account of which said contributions were made.

The provisions of this section apply to warrants drawn under a district retirement system and which would become void under the provisions of Section 42660 or 85270.

The district retirement system may at any time, after the reversion of proceeds to the district maintaining the retirement system, and upon receipt of proper information satisfactory to it, return from district contributions, an amount equal to such proceeds, to the credit of the claimant to be administered in the manner prescribed under the district retirement system.

The deposit in such funds of the proceeds of unclaimed and unpaid warrants prior to September 7, 1955, in accordance with the procedure specified in this section, is hereby validated, ratified, and confirmed.

24803. If any benefit is payable by a district retirement system to the estate of a deceased person, whether because the estate is the beneficiary of the person or because no beneficiary was designated or because an allowance payable to the person had accrued and remained unpaid at the date of the death, and the estate would not be administered if no amount were due from said system, then such benefit shall be paid directly without procuring letters of administration to the surviving next of kin of the deceased, or the guardians of such survivors' estates, share and share alike.

Such payment shall be made in the same order in which the following groups are listed:

- (a) Husband or wife.
- (b) Children and issue of deceased children by right of representation.
- (c) Father and mother.
- (d) Brothers and sisters.

(e) Nieces and nephews.

Payment may also be made to such persons in the groups listed hereinabove to the extent such persons are the only beneficiaries under the last will and testament of a deceased former member of a district retirement system, without the probate of the will.

**24804.** Except in the case where the deceased former member of a district retirement system leaves a will, no payment shall be made to persons included in any group specified in Section 24803, if at the date of death of any person or persons to whom any benefit is payable by a district retirement system there are living persons in any of the groups preceding it, as listed. Payment to the persons in any group, upon receipt from them of an affidavit upon a form supplied by the system, that there were no surviving individuals in the groups preceding it, or that they are one of the beneficiaries in any group specified in Section 24803 under the will of the deceased former member, and that the estate of the deceased will not be administered, is in full discharge of the liability of the board and system on account of the death.

**24805.** Any other provision of the law to the contrary notwithstanding, whenever any member of the district retirement system dies while in active membership status, including those on a deferred membership status, or within four months after the termination of the member's employment in a status requisite for membership in the retirement system, benefits payable at death, unless a claim by someone other than the designated beneficiary or beneficiaries is filed with the retirement system during the period provided in this section, shall be paid to the beneficiary or beneficiaries designated by him on a form provided by the retirement system and on file in the office of the retirement system prior to the death of the member.

Payment to a beneficiary or beneficiaries designated in the form on file in the retirement system at the date of death by a warrant drawn prior to any claim under a will or under community property rights, shall constitute full discharge of any and all liability of the district retirement board and retirement system by reason of the member's death. The retirement system shall provide a 30-day claim period subsequent to notification of death before drawing a warrant in favor of the designated beneficiary or beneficiaries.

**24806.** (a) A district retirement salary plan established under Sections 24800 to 24812, inclusive, in any school district or districts, in which the average daily attendance of all districts combined is in excess of 200,000, governed by the same governing board may be discontinued by the governing board of the district or districts, with the consent of the majority of the active members of the system expressing their desires with respect to the discontinuance of the plan evidenced in such manner as the governing board may prescribe; but no discontinuance of any such retirement plan shall be effective for any purpose unless provision is made for retirement allowances for active and retired employees of the district as

provided in subdivisions (b), (c), (d), and (e) of this section.

(b) (1) Active and retired employees of the district or districts who otherwise would be members of such plan, other than teachers and persons employed in a status requisite for membership in the State Teachers' Retirement System or who were so employed prior to retirement, shall be made members and beneficiaries, respectively, of the Public Employees' Retirement System according to the provisions of Part 3 (commencing with Section 20000) of Division 5 of Title 2 of the Government Code, including transfer to said system of the accumulated contributions of said employees, together with such other assets of said plan as may be determined.

(2) With respect to persons who are members of such plan at its discontinuance, it shall be provided in the contract making such employees members of the Public Employees' Retirement System, that their respective rates of contribution thereunder shall be based on the age at the nearest birthday at July 1, 1944, or at the respective later effective dates of their membership in such plan, all instead of the age at the nearest birthday at the effective date of membership in such employees' system.

(3) Each employee of the district or districts who is included in such contract, but who during all or part of his employment in a status requisite for membership in such plan was not a member thereof, because of his election under an available option, or who failed to redeposit upon reentry into membership contributions previously withdrawn, shall have the right to elect by written document filed with the Board of Administration, Public Employees' Retirement System, at any time within 90 days after the date upon which the notice of the right to make such election is mailed by such system to the member's latest address on file in the office of such system, and prior to the date of retirement, to contribute to such system, subject to minimum payments fixed by the board of administration, and in one or more sums, or in not to exceed 60 monthly payments, an amount which, when added to his accumulated contributions, including interest, transferred as required in paragraph (1) of this subdivision (b), will make a total amount equal to the accumulated contributions, including interest, which would have been credited to him in such plan, if he had never elected not to be a member thereof, or if he had redeposited such withdrawn contributions upon such reentry, as the case may be. Such employee shall pay to the Public Employees' Retirement System interest on the unpaid balance of the amount payable to such system, beginning with the date of discontinuance of such plan at the rate of interest currently used from time to time under the system. If such employee elects to make, and makes such contributions, and pays such interest, but not otherwise, he shall receive credit under such employees' system, as state service, for all the service rendered while he was not a member of such plan, because of his optional exclusion, or for all service upon which the withdrawn contributions were based, and for the purpose of paragraph (2) shall be considered as

a member of such plan at its discontinuance and from November 1, 1937, or later beginning date of such service. Regardless of whether such contributions are made, such employee shall receive credit for service with which he was credited or would have been credited if he had been a member, as prior service under such plan. The contributions under this paragraph (3) shall be added to and administered in the same manner as the contributions transferred under paragraph (1) of this subdivision (b).

(4) Service rendered by active employees, who are made members of the Public Employees' Retirement System, prior to the assumption by the district or districts of the function under which the service was rendered, such as but not limited to cafeterias and student body activities, shall be credited under such employees' system; provided, such service qualified for credit under the discontinued plan.

(5) The contract making such active employees members of the Public Employees' Retirement System, shall include such employees with respect to service rendered in a status in which they are not eligible for membership in the State Teachers' Retirement System, as provided in Section 20491 of the Government Code, and also with respect to service rendered in a status in which they are eligible for such membership, but which is no longer credited under such retirement system, and such service shall be credited in the same manner applicable to service otherwise qualifying for credit.

(6) Retirement allowances being paid under the discontinued plan to retired employees of the district or districts, who are made beneficiaries of the Public Employees' Retirement System, shall be changed by action of the governing board of such districts, effective at the discontinuance of such plan, to retirement allowances calculated on the basis of service used in the calculation of the respective allowances under such plan, and average annual salary earnable during the highest three consecutive years of creditable service, calculated according to the methods used at the date of discontinuance, under such plan in determining salary earnable, but excluding any salary based on overtime as provided in Section 20025.2 of the Government Code, but otherwise according to the formulae under such employees' system which apply to active employees who are made members thereof. Such changed allowances shall be paid to such beneficiaries for time commencing on the date they are made beneficiaries of such employees' system. No allowance shall be reduced by such change.

(7) If two or more districts under the control and management of a single governing board are participants in such plan, one contract between the board of administration and such governing board may include all such districts. The governing board may apportion the total contributions required under the contract, among the districts on the basis of total salaries upon which the contributions are computed, and on the basis of other pertinent information.

(8) Paragraph (1) of this subdivision notwithstanding, the

contract making such active employees members of the Public Employees' Retirement System, shall include teachers and persons employed in a status requisite for membership in the State Teachers' Retirement System, with respect to service rendered in a status in which they would have been eligible for membership in the Public Employees' Retirement System, if such district or districts by which they were employed had been participating in that system under Part 3 of the Government Code of the State of California. Contributions deducted from salary earned by such employees in such service, together with credited interest, and standing to the credit of such employees at the effective date of discontinuance of such plan, shall be subject to the provisions of paragraph (1), in the same manner as they would have been so subject if said employees had been employed at the date of such discontinuance, in a status which was not requisite for such membership in the State Teachers' Retirement System. Such employees shall be members of the Public Employees' Retirement System with the same effect, but only with respect to such service, as if they had been employed in a status which would have qualified them for such membership under other paragraphs of this Section 24806. Such employees shall continue in such membership and shall be entitled to benefits in the same manner as if they individually were credited with at least five hundred dollars (\$500) in accumulated contributions. In the computation of such members' benefits under the Public Employees' Retirement System, their compensation earnable while they are members of the State Teachers' Retirement System shall be taken into consideration.

(c) Notwithstanding any other provisions of Sections 35161, 35162, 72200, 72201, Article 1 (commencing with Section 7000) of Chapter 1, Article 1 (commencing with Section 7100) of Chapter 2 of Part 5, Article 2 (commencing with Section 10010) of Chapter 1, Chapter 4 (commencing with Section 10300) of Part 7, Article 1 (commencing with Section 12500) of Chapter 5 of Part 8, this part, Article 5 (commencing with Section 32340) of Chapter 3 of Part 19, of this division, and Part 25 (commencing with Section 44000) of Division 3 of Title 2, Chapter 1 (commencing with Section 87000), Article 3 (commencing with Section 87250) and Article 4 (commencing with Section 87270) of Chapter 2, Article 1 (commencing with Section 87400), Article 2 (commencing with Section 87600), Article 5 (commencing with Section 87700), and Article 8 (commencing with Section 87800), Chapter 4 (commencing with Section 88000), of Part 51 of Division 7 of Title 3, contributions to the discontinued district retirement plan made by teachers and other persons employed by the district or districts in a status requisite for membership in the State Teachers' Retirement System standing to their individual credit at the date of discontinuance of the district retirement plan shall be deposited forthwith in the Retirement Annuity Fund with credited interest, to be applied on the amount due from said teachers, but not to exceed the amount so due. Likewise an amount

equal to the actuarial equivalent of the annuity portion of the retirement allowance to which the respective retired teachers and other persons employed by the district or districts, prior to retirement, in a status requisite for membership in the State Teachers' Retirement System were entitled under said plan, based on the interest rate and mortality tables used in its determination, shall be deposited in the Retirement Annuity Fund, to be applied on the amount due from said respective retired teachers, but not to exceed the amount so due. Any excess of the contributions with credited interest or the actuarial equivalents, as the case may be, over the respective amounts due under said sections, shall be paid forthwith to the respective active and retired teachers and other persons. Further amounts, if any, due under said sections after said deposits, shall be paid to the Retirement Annuity Fund by the respective active and retired teachers and other persons. If any of such teachers or other persons who is not retired, is not entitled to credit under the State Teachers' Retirement System for all or part of his service credited under such plan, or if any of such retired teachers or other persons is not entitled to a retirement allowance from such system, either before or after such discontinuance, the provisions of this subdivision (c) about contributions and credited interest or about the actuarial equivalent of annuity portions of retirement allowances, as the case may be, shall not apply to him with respect to service which is not credited under such state system, until and unless he becomes entitled to credit for such service or to an allowance from such state system, based on service which was credited to him under the discontinued plan. The balance of the assets held in the various funds of the discontinued district retirement plan after the transfers, deposits and payments required by this section, or after establishment of reserves from which such transfers, deposits and payments shall be made, shall be delivered to the district or districts in which the plan is discontinued.

(d) The district or districts in which the district retirement plan is discontinued shall pay monthly to teachers and other persons employed by the district or districts, prior to retirement, in a status requisite for membership in the State Teacher's Retirement System who were retired prior to the date of such discontinuance an amount equal to the amount by which the retirement allowance to which any of said retired teachers or other persons was entitled under said plan exceeds the increase in said teacher's or other person's retirement allowance under the State Teachers' Retirement System resulting from said discontinuance. If the amount payable to any such teacher or other person, under the sentence next preceding, is less than two dollars (\$2), the district or districts may pay, in lieu of such amount, one amount which shall be actuarially equivalent to such monthly amount thereafter payable, according to the interest rate and mortality table used in the determination of the teacher's or other person's retirement allowance under the said district retirement plan. The payment of such actuarially equivalent amount shall

discharge fully the district's liability to such teacher or other person under this subdivision (d). The arrangement under which said amounts are paid by said district shall not be considered to be a local retirement system for the purposes of Chapter 1 (commencing with Section 22000) to Chapter 15 (commencing with Section 23400), inclusive, of this part, nor shall said amount be taken into account in the calculation of retirement allowances under the State Teachers' Retirement System. If any of such teachers or other persons is not entitled to a retirement allowance from the State Teachers' Retirement System, either before or after such discontinuance, such district or districts shall pay monthly to him, an amount equal to his retirement allowance under said plan prior to such discontinuance. If any teacher or other person has left the service of the district or districts, and is in a status under such plan, which if continued would qualify him for a retirement allowance without his return to such service, but is in a status otherwise which would not qualify him for retirement under such state system, such district or districts shall pay monthly to such teacher or other person, beginning at the date upon which he would have qualified for service retirement under such plan, an amount equal to the retirement allowance for which he would have qualified if such plan had not been discontinued. If any teacher or other person has credit under such plan for service which does not qualify for credit under either the State Teachers' Retirement System or State Employees' Retirement System, such district or districts shall pay monthly to such teacher or other person, beginning on the date upon which he would have qualified for service retirement under such plan, an amount equal to the retirement allowance for which he would have qualified on the basis of such service if such plan had not been discontinued. If such individual at a later date becomes entitled to a retirement allowance from such state system, based on such service which was credited to him under the discontinued plan, such monthly payments shall cease, and he shall become subject forthwith to the provisions of subdivision (c) of this section, and the provisions of the first four sentences of this subdivision (d), in the same manner as he would have been subject, if he had been entitled to such a retirement allowance at the date of discontinuance, but calculation of actuarial equivalents and amounts payable shall be made as of the later date.

(e) If any person who was retired prior to such discontinuance from a position requisite for membership in the State Teachers' Retirement System, under a district retirement salary plan which is discontinued pursuant to this section, elected either under such plan or under such system, but not under both, to have retirement allowance modified according to an option under which he would receive a smaller allowance and provide a benefit for his beneficiary, such person shall have the right, to be exercised not later than sixty (60) days after the discontinuance of such plan to change his election under the State Teachers' Retirement System with respect to said options. Any computations of actuarial equivalent under a changed

election shall be made as of the date of discontinuance of the plan, and no adjustment shall be included in the computation on account of retirement allowance payments made prior to that date.

(Amended by Stats 1976, Ch 1011 )

[ORIGINAL SECTION]

24806 (a) A district retirement salary plan established under Sections 24800 to 24812, inclusive, in any school district or districts, in which the average daily attendance of all districts combined is in excess of 200,000, governed by the same governing board may be discontinued by the governing board of the district or districts, with the consent of the majority of the active members of the system expressing their desires with respect to the discontinuance of the plan evidenced in such manner as the governing board may prescribe; but no discontinuance of any such retirement plan shall be effective for any purpose unless provision is made for retirement allowances for active and retired employees of the district as provided in subdivisions (b), (c), (d), and (e) of this section

(b) (1) Active and retired employees of the district or districts who otherwise would be members of such plan, other than teachers and persons employed in a status requisite for membership in the State Teachers' Retirement System or who were so employed prior to retirement, shall be made members and beneficiaries, respectively, of the Public Employees' Retirement System according to the provisions of Part 3 (commencing with Section 20000) of Division 5 of Title 2 of the Government Code, including transfer to said system of the accumulated contributions of said employees, together with such other assets of said plan as may be determined

(2) With respect to persons who are members of such plan at its discontinuance, it shall be provided in the contract making such employees members of the Public Employees' Retirement System, that their respective rates of contribution thereunder shall be based on the age at the nearest birthday at July 1, 1944, or at the respective later effective dates of their membership in such plan, all instead of the age at the nearest birthday at the effective date of membership in such employees' system

(3) Each employee of the district or districts who is included in such contract, but who during all or part of his employment in a status requisite for membership in such plan was not a member thereof, because of his election under an available option, or who failed to redeposit upon reentry into membership contributions previously withdrawn, shall have the right to elect by written document filed with the Board of Administration, Public Employees' Retirement System, at any time within 90 days after the date upon which the notice of the right to make such election is mailed by such system to the member's latest address on file in the office of such system, and prior to the date of retirement, to contribute to such system, subject to minimum payments fixed by the board of administration, and in one or more sums, or in not to exceed 60 monthly payments, an amount which, when added to his accumulated contributions, including interest, transferred as required in paragraph (1) of this subdivision (b), will make a total amount equal to the accumulated contributions, including interest, which would have been credited to him in such plan, if he had never elected not to be a member thereof, or if he had redeposited such withdrawn contributions upon such reentry, as the case may be. Such employee shall pay to the Public Employees' Retirement System interest on the unpaid balance of the amount payable to such system, beginning with the date of discontinuance of such plan at the rate of interest currently used from time to time under the system. If such employee elects to make, and makes such contributions, and pays such interest, but not otherwise, he shall receive credit under such employees' system, as state service, for all the service rendered while he was not a member of such plan, because of his optional exclusion, or for all service upon which the withdrawn contributions were based, and for the purpose of paragraph (2) shall be considered as a member of such plan at its discontinuance and from November 1, 1937, or later beginning date of such service. Regardless of whether such contributions are made, such employee shall receive credit for service with which he was credited or would have been credited if he had been a member, as prior service under such plan. The contributions under this paragraph (3) shall be added to and administered in the same manner as the

contributions transferred under paragraph (1) of this subdivision (b)

(4) Service rendered by active employees, who are made members of the Public Employees' Retirement System, prior to the assumption by the district or districts of the function under which the service was rendered, such as but not limited to cafeterias and student body activities, shall be credited under such employees' system, provided, such service qualified for credit under the discontinued plan

(5) The contract making such active employees members of the Public Employees' Retirement System, shall include such employees with respect to service rendered in a status in which they are not eligible for membership in the State Teachers' Retirement System, as provided in Section 20491 of the Government Code, and also with respect to service rendered in a status in which they are eligible for such membership, but which is no longer credited under such retirement system, and such service shall be credited in the same manner applicable to service otherwise qualifying for credit.

(6) Retirement allowances being paid under the discontinued plan to retired employees of the district or districts, who are made beneficiaries of the Public Employees' Retirement System, shall be changed by action of the governing board of such districts, effective at the discontinuance of such plan, to retirement allowances calculated on the basis of service used in the calculation of the respective allowances under such plan, and average annual salary earnable during the highest three consecutive years of creditable service, calculated according to the methods used at the date of discontinuance, under such plan in determining salary earnable, but excluding any salary based on overtime as provided in Section 20025.2 of the Government Code, but otherwise according to the formulae under such employees' system which apply to active employees who are made members thereof. Such changed allowances shall be paid to such beneficiaries for time commencing on the date they are made beneficiaries of such employees' system. No allowance shall be reduced by such change.

(7) If two or more districts under the control and management of a single governing board are participants in such plan, one contract between the board of administration and such governing board may include all such districts. The governing board may apportion the total contributions required under the contract, among the districts on the basis of total salaries upon which the contributions are computed, and on the basis of other pertinent information.

(8) Paragraph (1) of this subdivision notwithstanding, the contract making such active employees members of the Public Employees' Retirement System, shall include teachers and persons employed in a status requisite for membership in the State Teachers' Retirement System, with respect to service rendered in a status in which they would have been eligible for membership in the Public Employees' Retirement System, if such district or districts by which they were employed had been participating in that system under Part 3 of the Government Code of the State of California. Contributions deducted from salary earned by such employees in such service, together with credited interest, and standing to the credit of such employees at the effective date of discontinuance of such plan, shall be subject to the provisions of paragraph (1), in the same manner as they would have been so subject if said employees had been employed at the date of such discontinuance, in a status which was not requisite for such membership in the State Teachers' Retirement System. Such employees shall be members of the Public Employees' Retirement System with the same effect, but only with respect to such service, as if they had been employed in a status which would have qualified them for such membership under other paragraphs of this Section 24806. Such employees shall continue in such membership and shall be entitled to benefits in the same manner as if they individually were credited with at least five hundred dollars (\$500) in accumulated contributions. In the computation of such members' benefits under the Public Employees' Retirement System, their compensation earnable while they are members of the State Teachers' Retirement System shall be taken into consideration.

(c) Notwithstanding any other provisions of Sections 35161, 35162, 72200, 72201, Article 1 (commencing with Section 7000) of Chapter 1, Article 1 (commencing with Section 7100) of Chapter 2 of Part 5, Article 2 (commencing with Section 10010) of Chapter 1, Chapter 4 (commencing with Section 10300) of Part 7, Article 1

(commencing with Section 12500) of Chapter 5 of Part 8, this part, Article 5 (commencing with Section 32340) of Chapter 3 of Part 19, of this division, and Part 25 (commencing with Section 44000) of Division 3 of Title 2, Chapter 1 (commencing with Section 87000), Article 3 (commencing with Section 87250) and Article 4 (commencing with Section 87270) of Chapter 2, Article 1 (commencing with Section 87400), Article 2 (commencing with Section 87600), Article 5 (commencing with Section 87700), and Article 8 (commencing with Section 87800), Chapter 4 (commencing with Section 88000), of Part 51 of Division 7 of Title 3, contributions to the discontinued district retirement plan made by teachers and other persons employed by the district or districts in a status requisite for membership in the State Teachers' Retirement System standing to their individual credit at the date of discontinuance of the district retirement plan shall be deposited forthwith in the Retirement Annuity Fund with credited interest, to be applied on the amount due from said teachers and other persons under Section \_\_\_\_\_ of this code, but not to exceed the amount so due Likewise an amount equal to the actuarial equivalent of the annuity portion of the retirement allowance to which the respective retired teachers and other persons employed by the district or districts, prior to retirement, in a status requisite for membership in the State Teachers' Retirement System were entitled under said plan, based on the interest rate and mortality tables used in its determination, shall be deposited in the Retirement Annuity Fund, to be applied on the amount due from said respective retired teachers and other persons under Section \_\_\_\_\_, but not to exceed the amount so due Any excess of the contributions with credited interest or the actuarial equivalents, as the case may be, over the respective amounts due under said sections, shall be paid forthwith to the respective active and retired teachers and other persons Further amounts, if any, due under said sections after said deposits, shall be paid to the Retirement Annuity Fund by the respective active and retired teachers and other persons If any of such teachers or other persons who is not retired, is not entitled to credit under the State Teachers' Retirement System for all or part of his service credited under such plan, or if any of such retired teachers or other persons is not entitled to a retirement allowance from such system, either before or after such discontinuance, the provisions of this subdivision (c) about contributions and credited interest or about the actuarial equivalent of annuity portions of retirement allowances, as the case may be, shall not apply to him with respect to service which is not credited under such state system, until and unless he becomes entitled to credit for such service or to an allowance from such state system, based on service which was credited to him under the discontinued plan The balance of the assets held in the various funds of the discontinued district retirement plan after the transfers, deposits and payments required by this section, or after establishment of reserves from which such transfers, deposits and payments shall be made, shall be delivered to the district or districts in which the plan is discontinued

(d) The district or districts in which the district retirement plan is discontinued shall pay monthly to teachers and other persons employed by the district or districts, prior to retirement, in a status requisite for membership in the State Teachers' Retirement System who were retired prior to the date of such discontinuance an amount equal to the amount by which the retirement allowance to which any of said retired teachers or other persons was entitled under said plan exceeds the increase in said teacher's or other person's retirement allowance under the State Teachers' Retirement System resulting from said discontinuance If the amount payable to any such teacher or other person, under the sentence next preceding, is less than two dollars (\$2), the district or districts may pay, in lieu of such amount, one amount which shall be actuarially equivalent to such monthly amount thereafter payable, according to the interest rate and mortality table used in the determination of the teacher's or other person's retirement allowance under the said district retirement plan The payment of such actuarially equivalent amount shall discharge fully the district's liability to such teacher or other person under this subdivision (d). The arrangement under which said amounts are paid by said district shall not be considered to be a local retirement system for the purposes of Chapter 1 (commencing with Section 22000) to Chapter 15 (commencing with Section 23400), inclusive, of this part, nor shall said amount be taken into account in the calculation of retirement allowances under the State Teachers' Retirement System If any of such teachers or other persons is not

entitled to a retirement allowance from the State Teachers' Retirement System, either before or after such discontinuance, such district or districts shall pay monthly to him, an amount equal to his retirement allowance under said plan prior to such discontinuance. If any teacher or other person has left the service of the district or districts, and is in a status under such plan, which if continued would qualify him for a retirement allowance without his return to such service, but is in a status otherwise which would not qualify him for retirement under such state system, such district or districts shall pay monthly to such teacher or other person, beginning at the date upon which he would have qualified for service retirement under such plan, an amount equal to the retirement allowance for which he would have qualified if such plan had not been discontinued. If any teacher or other person has credit under such plan for service which does not qualify for credit under either the State Teachers' Retirement System or State Employees' Retirement System, such district or districts shall pay monthly to such teacher or other person, beginning on the date upon which he would have qualified for service retirement under such plan, an amount equal to the retirement allowance for which he would have qualified on the basis of such service if such plan had not been discontinued. If such individual at a later date becomes entitled to a retirement allowance from such state system, based on such service which was credited to him under the discontinued plan, such monthly payments shall cease, and he shall become subject forthwith to the provisions of subdivision (c) of this section, and the provisions of the first four sentences of this subdivision (d), in the same manner as he would have been subject, if he had been entitled to such a retirement allowance at the date of discontinuance, but calculation of actuarial equivalents and amounts payable shall be made as of the later date.

(e) If any person who was retired prior to such discontinuance from a position requisite for membership in the State Teachers' Retirement System, under a district retirement salary plan which is discontinued pursuant to this section, elected either under such plan or under such system, but not under both, to have retirement allowance modified according to an option under which he would receive a smaller allowance and provide a benefit for his beneficiary, such person shall have the right, to be exercised not later than sixty (60) days after the discontinuance of such plan to change his election under the State Teachers' Retirement System with respect to said options. Any computations of actuarial equivalent under a changed election shall be made as of the date of discontinuance of the plan, and no adjustment shall be included in the computation on account of retirement allowance payments made prior to that date.

**24807.** The balance of the assets delivered to the district pursuant to subdivision (c) of Section 24806, after the transfers, deposits and payments required by such section, or after establishment of reserves from which such deposits and payments shall be made, shall be allocated and distributed as follows:

(a) Sixty-five percent of such balance shall be distributed to the undistributed reserve of the general fund of the district to be reduced to cash as necessary and appropriated in any year by majority vote of the governing board. Until the balance of the assets has been reduced to cash, the governing board may invest and reinvest the assets in securities legal for the investment of funds of the State Teachers' Retirement System when in the judgment of the governing board any sale and reinvestment is advisable. Ten percent of this amount shall be used only for maintenance operation.

(b) Twenty percent of such balance shall be transferred to a special account in the undistributed reserve of the district's general fund to be reduced to cash as necessary in order to be used only for the purpose of reducing the tax collected pursuant to Section 23401 in order to provide the contributions required by Section 23400 to the

Teacher's Retirement Fund. In the event that the special account is not wholly distributed for the purpose of making such contribution, the balance in the special account shall be released to the undistributed reserve. Until the balance of the assets has been reduced to cash, the governing board may invest and reinvest the assets in securities legal for the investment of funds of the State Teachers' Retirement System when in the judgment of the governing board any sale and reinvestment is advisable.

(c) Fifteen percent of such balance shall be held intact by the district in an annuity reserve fund from which shall be provided a supplementary annuity at time of retirement under any California public retirement system to or on behalf of those members of the local district retirement system who were on the active roll or members on the retired roll of such local district retirement system as of June 30, 1972, and those members added to the active and retired rolls between June 30, 1972, and any later date of discontinuance, and those probationary or permanent certificated employees of the district holding memberships in California public retirement systems other than the local district retirement system who are making contributions to such systems on June 30, 1972, or on any later date of discontinuance. The supplement annuity may be paid in lump sum or in installments for the life of the person eligible, or his beneficiary, after his retirement.

No such participant in the annuity reserve fund shall have vested rights to the benefits of this annuity reserve fund until he has continued in active service for a period of five years from the date of discontinuance of the local district retirement system, except participants who have separated from service by reason of retirement, including deferred retirement, or death.

An account shall be opened in the name of each person eligible to participate in the benefits of the annuity reserve fund to which shall be credited his share of the annuity reserve fund. The individual participant's share of this fund shall bear the same ratio to the total of this fund as his annuity savings contributions, including interest earned, to the retirement system, to which he is making annuity contributions as of June 30, 1972, or any later date of discontinuance, or, if a retired member, the date of retirement prior to June 30, 1972, bears to the total annuity savings contributions, including interest earned, of all such participants in the retirement systems to which they are making contributions at the date of discontinuance, including total contributions to the local district retirement system previously made by living members on the retired roll. The fund shall include principal and interest in the account of any participant forfeited because said participant separated from service, except by reason of retirement, including deferred retirement, or death, within five years from June 30, 1972, or other date of discontinuance. Such forfeiture shall be treated as earnings of the fund.

As of June 30 each year, the earnings of the preceding 12 months less administrative expense shall be credited to the accounts of the

remaining participants in the annuity reserve fund on the ratio that the participant's individual account balance bears to the total balance of the annuity reserve fund. The cost of administering the fund shall be charged against the assets of the fund, as approved by the governing board of the school district.

If a participant separates from service prior to June 30, of any year, the earnings since the preceding June 30 shall remain in the fund. Any member whose accumulated contributions to the local retirement system exceed the amount required by law to be deposited by the member in the State Teachers' Retirement System's Annuity Fund upon discontinuance of the local system may deposit to his credit all or part of such excess amount in the annuity reserve fund.

The governing board of the school district which maintained the discontinued local district retirement system shall establish an annuity reserve fund board of not more than seven members, the majority of whom shall be composed of certificated employees who are participants in the annuity reserve fund. The certificated employees on the annuity reserve fund board shall be elected by participants in the annuity reserve fund. The annuity reserve fund board shall have the authority to make rules and regulations necessary for the management of the annuity reserve fund in accordance with modern business practice. The local district retirement board shall continue to function as the annuity reserve board pending its establishment.

Annuity reserve fund board shall invest the funds in securities which are legal for the investment of funds of the State Teachers' Retirement System and shall sell the securities and reinvest the proceeds in securities legal for the investment of funds of the State Teachers' Retirement System when in the judgment of the annuity reserve fund board any sale and reinvestment is advisable.

All securities and cash of the annuity reserve fund shall be held in a trust fund in the county treasury. The county treasurer, as one of his official duties, shall be a member ex officio of the annuity reserve fund board established to invest the assets of this fund.

Any funds raised for the support of the local district retirement system and not appropriated to any specific account shall be transferred to the annuity reserve fund. All payments from the district's annuity reserve fund shall be made in the same manner as payments from school district funds.

The annuity reserve fund board may, at its discretion, request the district governing board to hold an election among existing annuity reserve fund participants as to whether the board should distribute existing funds in the annuity fund. The annuity reserve fund board may prescribe all rules and regulations regarding such an election and is authorized to distribute such funds if a majority of such members so elect.

24808. The governing board may provide that members of the annuity reserve fund board be paid fifty dollars (\$50) for each

meeting, not to exceed one meeting each month, when they are not being paid by the governing board for any other assignment at the time of the meeting. The compensation shall be a charge against the annuity reserve fund.

24809. The assets of the annuity reserve fund invested in common stocks or shares shall not exceed the percentage of annuity reserved fund assets so invested as of June 30, 1973, or 25 percent of the total assets of the fund whichever is lower. The assets invested in preferred stocks or shares shall not exceed 5 percent of the total assets of the fund. For the purposes of this section, valuation of fund assets, common stocks or shares, and preferred stocks or shares shall be determined on the basis of cost to the annuity reserve fund.

24810. (a) Notwithstanding the provisions of Section 24806, persons other than (1) teachers and (2) other persons employed in a status requisite for membership in the State Teachers' Retirement System, who are active or retired members of a district retirement salary plan established under Sections 24800 to 24812, inclusive, in any school district or districts in which the average daily attendance of all districts combined is in excess of 200,000, governed by the same governing board, may be transferred by the governing board of the district or districts, with the consent of the majority of such active members of the plan expressing their desires with respect to the transfer evidenced in such manner as the governing board may prescribe; but no transfer of such active and retired members shall be effective for any purpose unless provision is made for retirement allowances for active and retired employees of the district as provided in subdivision (b) of this section.

(b) (1) Active and retired employees, including future employees, of the district or districts who otherwise would be members of such plan, persons who are members of the district's retirement salary plan, and persons who were employees on June 30, 1957, and who attained age 65 or over during the 12 months immediately preceding July 1, 1957, other than teachers and persons employed in a status requisite for membership in the State Teachers' Retirement System or who were so employed prior to retirement, shall be made members and beneficiaries, respectively, of the Public Employees' Retirement System according to the provisions of Part 3 (commencing with Section 20000) of Division 5 of Title 2 of the Government Code, including transfer to said system of the accumulated contributions of said members, together with such other assets of said plan as may be determined. The total of such other assets transferred, however, shall not be greater than the portion of the reserves of such plan which is allocable to such active and retired employees, as determined by actuarial valuation. In such valuation the portion of the reserves allocable to such active and retired employees proposed to be transferred shall be determined as an amount which bears the same ratio to the total reserves under such plan as the liabilities under the plan on account of such active and retired employees bear to the total liabilities under the plan on

account of all active and retired employees thereunder. On the effective date of the contract making such active employees members of the Public Employees' Retirement System, such employees shall cease to be members of such plan, and neither they nor retired persons who are made beneficiaries of such state system, shall be paid or have any right to any allowance or other benefit under such plan for time beginning with said effective date.

(2) With respect to persons who are members of such plan at such transfer, it shall be provided in the contract making such employees members of the Public Employees' Retirement System, that their respective rates of contribution thereunder shall be based on the age at the nearest birthday at July 1, 1944, or at the respective later effective dates of their membership in such plan, all instead of the age at the nearest birthday at the effective date of membership in such employees' system.

(3) Each employee of the district or districts who is included in such contract, but who during all or part of his employment in a status requisite for membership in such plan was not a member thereof, because of his election under an available option, or who, while employed in a status not requisite for membership in such plan, was a member of the State Teachers' Retirement System and was contributing to that system, or who did not redeposit upon reentry into membership contributions previously withdrawn, shall have the right to elect by written document filed with the Board of Administration, Public Employees' Retirement System, at any time within 90 days after the date upon which the notice of the right to make such election is mailed by such system either to the member's latest address on file in the office of such system, or to the office of the governing board of such district or districts, and prior to the date of retirement, to contribute to such system, subject to minimum payments fixed by the board of administration, and in one or more sums, or in not to exceed 60 monthly payments, an amount which, when added to his accumulated contributions, including interest, transferred as required in paragraph (1) of this subdivision (b), will make a total amount equal to the accumulated contributions, including interest, which would have been credited to him in such plan, if he had never elected not to be a member thereof, or if he had been a member of such plan during the time he was a member of such State Teachers' Retirement System and was contributing thereto, or if he had redeposited such withdrawn contributions upon such reentry, as the case may be. Such employee shall pay to the Public Employees' Retirement System interest on the unpaid balance of the amount payable to such system, beginning with the date of transfer, at the rate of interest currently used from time to time under the system. If such employee elects to make, and makes such contributions, and pays such interest, but not otherwise, he shall receive credit under such employees' system, as state service, for all the service rendered while he was not a member of such plan, because of his optional exclusion, or for service rendered while he

was contributing to such State Teachers' Retirement System; provided, such service is no longer credited under such teachers' system, or for all service upon which the withdrawn contributions were based, and for the purpose of paragraph (2) shall be considered as a member of such plan at such transfer and from November 1, 1937, or later beginning date of such service. Regardless of whether such contributions are made, such employees shall receive credit for service with which he was credited or would have been credited if he had been a member, as prior service under such plan. The contributions under this paragraph (3) shall be added to and administered in the same manner as the contributions transferred under paragraph (1) of this subdivision (b).

(4) Service rendered by active employees who are made members of the Public Employees' Retirement System prior to or after the assumption by the district or districts of the function under which the service was rendered, but prior to the effective date of the contract making active employees such members, and the compensation for which was paid wholly or in part from funds other than the funds of the district or districts, shall be credited under such employees' system, provided such service qualified for credit under such plan.

(5) The contract making such active employees members of the Public Employees' Retirement System, shall include such employees with respect to service rendered in a status in which they are not eligible for membership in the State Teachers' Retirement System, as provided in Section 20491 of the Government Code, and also with respect to service rendered in a status in which they are eligible for such membership, but which is no longer credited under such teachers' retirement system, and such service shall be credited in the manner applicable to service otherwise qualifying for credit.

(6) Retirement allowances being paid under such plan to retired employees of the district or districts, who are made beneficiaries of the Public Employees' Retirement System, shall be changed by action of the governing board of such district, effective at such transfer, to retirement allowances calculated on the basis of service used in the calculation of the respective allowances under such plan, and average annual salary earnable during the highest three consecutive years of creditable service, calculated according to the methods used at the date of transfer, under such plan in determining salary earnable, but excluding any salary based on overtime as provided in Section 20025.2 of the Government Code, but otherwise according to the formulae under such employees' system which apply to active employees who are made members thereof. Such changed allowances shall be paid to such beneficiaries for time commencing on the date they are made beneficiaries of such employees' system. No allowance shall be reduced by such change.

(7) If two or more districts under the control and management of a single governing board are participants in such plan, one contract between the board of administration and such governing board may

include all such districts. The governing board may apportion the total contributions required under the contract, among the districts on the basis of total salaries upon which the contributions are computed, and on the basis of other pertinent information.

(8) The contract making such active employees members of the Public Employees' Retirement System shall provide that the service included in the calculation of the completed years of service as a basis for the portion of the basic death benefit provided in subdivision (b) of Section 21361 of the Government Code for persons who were members of such plan at transfer, shall not be limited to service under the Public Employees' Retirement System, but instead that service rendered as members of such plan shall also be included.

(Amended by Stats. 1976, Ch. 1011.)

[ORIGINAL SECTION]

24810. (a) Notwithstanding the provisions of Section 24806, persons other than (1) teachers and (2) other persons employed in a status requisite for membership in the State Teachers' Retirement System, who are active or retired members of a district retirement salary plan established under Sections 24800 to 24812, inclusive, in any school district or districts in which the average daily attendance of all districts combined is in excess of 200,000, governed by the same governing board, may be transferred by the governing board of the district or districts, with the consent of the majority of such active members of the plan expressing their desires with respect to the transfer evidenced in such manner as the governing board may prescribe, but no transfer of such active and retired members shall be effective for any purpose unless provision is made for retirement allowances for active and retired employees of the district as provided in subdivision (b) of this section.

(b) (1) Active and retired employees, including future employees, of the district or districts who otherwise would be members of such plan, persons who are members of the district's retirement salary plan under Section \_\_\_\_\_, and persons who were employees on June 30, 1957, and who attained age 65 or over during the 12 months immediately preceding July 1, 1957, other than teachers and persons employed in a status requisite for membership in the State Teachers' Retirement System or who were so employed prior to retirement, shall be made members and beneficiaries, respectively, of the Public Employees' Retirement System according to the provisions of Part 3 (commencing with Section 20000) of Division 5 of Title 2 of the Government Code, including transfer to said system of the accumulated contributions of said members, together with such other assets of said plan as may be determined. The total of such other assets transferred, however, shall not be greater than the portion of the reserves of such plan which is allocable to such active and retired employees, as determined by actuarial valuation. In such valuation the portion of the reserves allocable to such active and retired employees proposed to be transferred shall be determined as an amount which bears the same ratio to the total reserves under such plan as the liabilities under the plan on account of such active and retired employees bear to the total liabilities under the plan on account of all active and retired employees thereunder. On the effective date of the contract making such active employees members of the Public Employees' Retirement System, such employees shall cease to be members of such plan, and neither they nor retired persons who are made beneficiaries of such state system, shall be paid or have any right to any allowance or other benefit under such plan for time beginning with said effective date.

(2) With respect to persons who are members of such plan at such transfer, it shall be provided in the contract making such employees members of the Public Employees' Retirement System, that their respective rates of contribution thereunder shall be based on the age at the nearest birthday at July 1, 1944, or at the respective later effective dates of their membership in such plan, all instead of the age at the nearest birthday at the effective date of membership in such employees' system.

(3) Each employee of the district or districts who is included in such contract, but

who during all or part of his employment in a status requisite for membership in such plan was not a member thereof, because of his election under an available option, or who, while employed in a status not requisite for membership in such plan, was a member of the State Teachers' Retirement System and was contributing to that system, or who did not redeposit upon reentry into membership contributions previously withdrawn, shall have the right to elect by written document filed with the Board of Administration, Public Employees' Retirement System, at any time within 90 days after the date upon which the notice of the right to make such election is mailed by such system either to the member's latest address on file in the office of such system, or to the office of the governing board of such district or districts, and prior to the date of retirement, to contribute to such system, subject to minimum payments fixed by the board of administration, and in one or more sums, or in not to exceed 60 monthly payments, an amount which, when added to his accumulated contributions, including interest, transferred as required in paragraph (1) of this subdivision (b), will make a total amount equal to the accumulated contributions, including interest, which would have been credited to him in such plan, if he had never elected not to be a member thereof, or if he had been a member of such plan during the time he was a member of such State Teachers' Retirement System and was contributing thereto, or if he had redeposited such withdrawn contributions upon such reentry, as the case may be. Such employee shall pay to the Public Employees' Retirement System interest on the unpaid balance of the amount payable to such system, beginning with the date of transfer, at the rate of interest currently used from time to time under the system. If such employee elects to make, and makes such contributions, and pays such interest, but not otherwise, he shall receive credit under such employees' system, as state service, for all the service rendered while he was not a member of such plan, because of his optional exclusion, or for service rendered while he was contributing to such State Teachers' Retirement System; provided, such service is no longer credited under such teachers' system, or for all service upon which the withdrawn contributions were based, and for the purpose of paragraph (2) shall be considered as a member of such plan at such transfer and from November 1, 1937, or later beginning date of such service. Regardless of whether such contributions are made, such employees shall receive credit for service with which he was credited or would have been credited if he had been a member, as prior service under such plan. The contributions under this paragraph (3) shall be added to and administered in the same manner as the contributions transferred under paragraph (1) of this subdivision (b).

(4) Service rendered by active employees who are made members of the Public Employees' Retirement System prior to or after the assumption by the district or districts of the function under which the service was rendered, but prior to the effective date of the contract making active employees such members, and the compensation for which was paid wholly or in part from funds other than the funds of the district or districts, shall be credited under such employees' system, provided such service qualified for credit under such plan.

(5) The contract making such active employees members of the Public Employees' Retirement System, shall include such employees with respect to service rendered in a status in which they are not eligible for membership in the State Teachers' Retirement System, as provided in Section 20491 of the Government Code, and also with respect to service rendered in a status in which they are eligible for such membership, but which is no longer credited under such teachers' retirement system, and such service shall be credited in the manner applicable to service otherwise qualifying for credit.

(6) Retirement allowances being paid under such plan to retired employees of the district or districts, who are made beneficiaries of the Public Employees' Retirement System, shall be changed by action of the governing board of such district, effective at such transfer, to retirement allowances calculated on the basis of service used in the calculation of the respective allowances under such plan, and average annual salary earnable during the highest three consecutive years of creditable service, calculated according to the methods used at the date of transfer, under such plan in determining salary earnable, but excluding any salary based on overtime as provided in Section 20025 2 of the Government Code, but otherwise according to the formulae under such employees' system which apply to active employees who are made members thereof.

Such changed allowances shall be paid to such beneficiaries for time commencing on the date they are made beneficiaries of such employees' system. No allowance shall be reduced by such change.

(7) If two or more districts under the control and management of a single governing board are participants in such plan, one contract between the board of administration and such governing board may include all such districts. The governing board may apportion the total contributions required under the contract, among the districts on the basis of total salaries upon which the contributions are computed, and on the basis of other pertinent information.

(8) The contract making such active employees members of the Public Employees' Retirement System shall provide that the service included in the calculation of the completed years of service as a basis for the portion of the basic death benefit provided in subdivision (b) of Section 21361 of the Government Code for persons who were members of such plan at transfer, shall not be limited to service under the Public Employees' Retirement System, but instead that service rendered as members of such plan shall also be included.

24811. If two or more districts have been included in one contract between the Board of Administration of the State Employees' Retirement System, and the governing board of said districts, as provided in paragraph (7) of subdivision (b) of Section 24810, and if, since such inclusion, two or more of such districts have been combined into a unified district, the unified district, by amendment to said contract, may, notwithstanding the provisions of Section 20580 of the Government Code, be substituted therein for the districts so combined, and for all purposes of said contract.

24812. If two districts, one of which is a community college district, have been included in one contract between the Board of Administration of the Public Employees' Retirement System and the governing board of said districts, as provided in paragraph (7) of subdivision (b) of Section 24810 of the Education Code, and thereafter members of the governing board of the community college district are precluded by law from serving as members of the governing body of the other district, such contract shall be deemed a separate contract as to each district. The Board of Administration of the Public Employees' Retirement System shall determine the accumulated contributions held for or as having been made by each district and its employees, and shall credit such contributions to the respective contracts. Benefits based on all service of an employee to the districts prior to the date upon which employees' elections to serve the respective districts are effective shall be a liability of the contract of the district employing such person on such effective date. A person retired prior to such effective date shall, for all purposes of this section, be deemed an employee of the district other than the community college district.

24813. (a) The contract executed under the provisions of Section 24810, and making persons other than teachers and other persons employed in a status requisite for membership in the State Teachers' Retirement System, who are active or retired members of a district retirement salary plan established under Sections 24800 to 24812, inclusive, members and beneficiaries of the State Employees' Retirement System, shall be amended to include as members or

beneficiaries, teachers and other persons who were employed in a status requisite for membership in the State Teachers' Retirement System, who ceased to be members of such plan if it was discontinued, or if such plan was not discontinued, who resign instead of retiring and are refunded their accumulated contributions under that plan, or who retire or have retired under such district plan and relinquish or have relinquished their right to allowances from such plan with credit for service rendered in a status in which they would have been eligible for membership in the State Employees' Retirement System, if such district or districts by which they were employed had been participating in that system under Part 3 (commencing with Section 20000) of Division 5 of Title 2 of the Government Code, but only if such service qualified for credit under such plan and is not credited under any other retirement system.

(b) Such service of a person who so ceased to be a member, or resigns or has resigned instead of retiring, or who relinquishes or has relinquished, as the case may be, shall be administered under such contract in exactly the same manner as that applied to service of persons who were retired under the local retirement system at the effective date of such contract, and were made beneficiaries, or who were not retired and were made members of such system on that date. The retirement allowances being received by such relinquishing persons, on account of service which would have been credited under the State Employees' Retirement System as stated, shall be adjusted in the same manner that allowances were adjusted under paragraph (6) of subdivision (b) of Section 24810. Any member who is credited with service in accordance with this section, shall pay to the State Employees' Retirement System, at times and in the manner fixed by the board of administration of that system, an amount equal to contributions with interest, which such member received as a refund from such plan, and which were based on service so credited, plus interest from the date of refund to the date of such payment, at the interest rate in effect under such system at such date of payment. Contributions required of such district or districts shall be determined by proper valuation, and the contributions set forth in said contract shall be adjusted accordingly.

(c) A retirement allowance based on such credited service shall be payable and retirement shall become effective, under the State Employees' Retirement System beginning on the first day of the month next following the effective date of this section, in the case of a person who then is retired under the State Teachers' Retirement System, or otherwise on the later effective date of the member's retirement under such teachers' system. The allowance shall be based on the person's age when the allowance begins, and on the same average salary as that upon which his allowance under the State Teachers' Retirement System, is based.

(Amended by Stats. 1976, Ch 1011 )

## [ORIGINAL SECTION]

24813 (a) The contract executed under the provisions of Section 24810, and making persons other than teachers and other persons employed in a status requisite for membership in the State Teachers' Retirement System, who are active or retired members of a district retirement salary plan established under Sections 24800 to 24812, inclusive, members and beneficiaries of the State Employees' Retirement System, shall be amended to include as members or beneficiaries, teachers and other persons who were employed in a status requisite for membership in the State Teachers' Retirement System, who ceased to be members of such plan if it was discontinued, or if such plan was not discontinued, who resign instead of retiring and are refunded their accumulated contributions under that plan, or who retire or have retired under such district plan and relinquish or have relinquished their right to allowances from such plan, as permitted by Section \_\_\_\_\_, with credit for service rendered in a status in which they would have been eligible for membership in the State Employees' Retirement System, if such district or districts by which they were employed had been participating in that system under Part 3 (commencing with Section 20000) of Division 5 of Title 2 of the Government Code, but only if such service qualified for credit under such plan and is not credited under any other retirement system.

(b) Such service of a person who so ceased to be a member, or resigns or has resigned instead of retiring, or who relinquishes or has relinquished, as the case may be, shall be administered under such contract in exactly the same manner as that applied to service of persons who were retired under the local retirement system at the effective date of such contract, and were made beneficiaries, or who were not retired and were made members of such system on that date. The retirement allowances being received by such relinquishing persons, on account of service which would have been credited under the State Employees' Retirement System as stated, shall be adjusted in the same manner that allowances were adjusted under paragraph (6) of subdivision (b) of Section 24810. Any member who is credited with service in accordance with this section, shall pay to the State Employees' Retirement System, at times and in the manner fixed by the board of administration of that system, an amount equal to contributions with interest, which such member received as a refund from such plan, and which were based on service so credited, plus interest from the date of refund to the date of such payment, at the interest rate in effect under such system at such date of payment. Contributions required of such district or districts shall be determined by proper valuation, and the contributions set forth in said contract shall be adjusted accordingly.

(c) A retirement allowance based on such credited service shall be payable and retirement shall become effective, under the State Employees' Retirement System beginning on the first day of the month next following the effective date of this section, in the case of a person who then is retired under the State Teachers' Retirement System, or otherwise on the later effective date of the member's retirement under such teachers' system. The allowance shall be based on the person's age when the allowance begins, and on the same average salary as that upon which his allowance under the State Teachers' Retirement System, is based.

## CHAPTER 30. JOINT DISTRICT SALARY RETIREMENT PLAN

## Article 1. Establishment of Plan

24900. The governing boards of two or more school districts, in none of which the employees are entitled to the benefits of a pension or retirement system maintained by a city, city and county, or county in which the district, or a part thereof, is located, meeting in joint session, may in their discretion, submit to the qualified electors of the districts, and upon petition signed by not less than 10 percent of the qualified electors of each district the governing boards shall submit to the qualified electors of the districts the proposition of establishing

a joint plan for a retirement salary to be paid by the districts to all teachers fulfilling the requirements of the plan in the public schools of the districts and to such other employees of the districts as the governing boards may determine, or, in the case of a petition, such other employees as may be specified in the petition, and to provide, out of funds of the districts, a portion of the cost thereunder, including expenses incident to the administration of the plan.

24901. The proposition of establishing the plan may be submitted to the electors of the districts at any general or special election called and held in the districts, as the governing boards of the districts may determine. The governing boards of the school districts may order the elections which shall be called and held in accordance with the provisions of Chapter 3 (commencing with Section 5300) of this division.

24902. The governing boards calling the election shall consolidate the election and submit to the electors of the respective districts on the same day the question of whether a district retirement plan shall be established in the districts. Within the territory affected by the order of consolidation, the election precinct polling places and voting booths shall, in every case, be the same. There shall be only one set of election officers in each precinct. The propositions to be voted upon within the respective districts may be set forth on one ticket or ballot. All proceedings had in the premises shall be recorded in one set of election papers, and the election shall be held in all respects as though there were only one election.

24903. The election may be consolidated with any other election pursuant to Chapter 4 (commencing with Section 23300) of Part 2 of Division 11 of the Elections Code.

24904. The election shall be called by posting notices, signed by a majority of the governing board of each district, not less than 10 days before the election. If there is a newspaper of general circulation published in any of the districts, notice shall be published in such a newspaper at least once, and at least 10 days prior to the election.

24905. In all respects not otherwise specified the election shall be called and held, and returns canvassed and the result announced in the manner provided for the holding of elections for the purpose of authorizing bonds of the school districts, so far as the provisions of such laws are applicable. The governing boards of the school districts in which the election is held shall for the purposes of this section be considered as one board.

24906. There shall be printed on the ballots to be used at the election the proposition: "Shall the governing boards of (here insert the names of the districts under the control of the boards submitting the proposition) school districts be authorized to establish a plan for a joint district retirement salary for the teachers and such other employees of the districts as the governing boards or the petition determines." To the right of the proposition shall be printed the words "Yes" and "No" with voting squares.

24907. If, at the election, a majority of the voters in each district voting on the proposition cast their ballots in favor of the proposition, the governing boards shall establish a joint district retirement salary plan for the teachers and for such other employees of the districts as the boards or the petition determine.

24908. If a majority of the votes cast in each district on the proposition is in the negative, the governing boards shall not submit the proposition again within a period of six months after the date of the election.

## Article 2. Administration of the Plan

24920. Every teacher and every other employee of the school districts for which the plan for district retirement is adopted, who is employed by the districts at the time of the adoption of the plan, and who signs an agreement to be subject to the burdens of the district retirement plan, shall be entitled to the benefits and subject to the burdens of the plan and of this chapter. Every teacher employed in the public schools of the districts after the adoption of the provisions of this chapter by the governing boards of the districts, and such other employees as the boards or the petition determines, shall be bound by the benefits and burdens of this chapter.

24921. Any plan shall not be adopted or established until the governing boards, after such inquiry and hearing as they may direct, find that the respective contributions of the teachers and other employees and the districts provided for in the plan, are substantially in accordance with the more recent generally prevailing rates of contributions in public institutions which have established retirement systems, and that the plan is in accordance with sound business practice and with recognized actuarial methods.

24922. The plan may provide that the retirement salary shall be a stipulated monthly sum, or that all benefits under the retirement feature of the plan shall be based upon the monthly salary for each year of future active service in the district earned by the employee up to the date of retirement and upon the average monthly salary earned by the teacher or other eligible employee during the year immediately preceding the adoption of the plan and the number of years of past active service of the employee in the district, and subject to such provisions as may be made in the plan for minimum benefits. No employee with less than 15 years' service in the district prior to normal retirement age shall receive the benefit of the minimum. In no instance shall the retirement benefits be based upon or allowed for any amount of salary in excess of the sum of five hundred dollars (\$500) per month.

24923. In lieu of the authorizations or requirements provided for in Sections 24920 and 24922, the plan may provide only that the retirement salary shall be based on service rendered prior to the effective date of the plan or prior to July 1, 1944, and shall be an amount which, when added to the retirement allowance the

respective member is entitled to receive under the State Teachers' Retirement System, shall equal a sum of not less than one hundred dollars (\$100) per month and none of the provisions of Sections 24920 and 24922 shall be applicable thereto. The costs of the benefits under such a plan may be met by the contributions of the districts alone, any other provision of Sections 35161, 35162, 72200, 72201, Article 1 (commencing with Section 7000) of Chapter 1, Article 1 (commencing with Section 7100) of Chapter 2 of Part 5, Article 2 (commencing with Section 10010) of Chapter 1, Chapter 4 (commencing with Section 10300) of Part 7, Article 1 (commencing with Section 12500) of Chapter 5 of Part 8, this part, Article 5 (commencing with Section 32340) of Chapter 3 of Part 19 of this division, Part 25 (commencing with Section 44000) of Division 3 of Title 2, Chapter 1 (commencing with Section 87000), Article 3 (commencing with Section 87250) and Article 4 (commencing with Section 87270) of Chapter 2, Article 1 (commencing with Section 87400), Article 2 (commencing with Section 87600), Article 5 (commencing with Section 87700), and Article 8 (commencing with Section 87800) of Chapter 3, Chapter 4 (commencing with Section 88000) of Part 51 of Division 7 of Title 3, to the contrary notwithstanding, and only teachers who have credit for service rendered prior to said date shall be subject to the plan.

24924. (a) A plan established under this chapter which is intended to provide supplemental benefits only on account of service rendered before July 1, 1944, may be discontinued by the governing board of the district, subject to the following conditions:

1. Notwithstanding any other provisions of Sections 35161, 35162, 72200, 72201, Article 1 (commencing with Section 7000) of Chapter 1, Article 1 (commencing with Section 7100) of Chapter 2 of Part 5, Article 2 (commencing with Section 10010) of Chapter 1, Chapter 4 (commencing with Section 10300) of Part 7, Article 1 (commencing with Section 12500) of Chapter 5 of Part 8, this part, Article 5 (commencing with Section 32340) of Chapter 3 of Part 19 of this division, Part 25 (commencing with Section 44000) of Division 3 of Title 2, Chapter 1 (commencing with Section 87000), Article 3 (commencing with Section 87250) and Article 4 (commencing with Section 87270) of Chapter 2, Article 1 (commencing with Section 87400), Article 2 (commencing with Section 87600), Article 5 (commencing with Section 87700), and Article 8 (commencing with Section 87800) of Chapter 3, Chapter 4 (commencing with Section 88000) of Part 51 of Division 7 of Title 3, any teacher who is not retired on July 1, 1956, shall be entitled to the contributions made by him to the discontinued plan with interest credited in accordance with the rules and regulations of the local retirement plan to and including June 30, 1957. Likewise, a teacher who retired prior to July 1, 1956, shall be entitled to a refund equal to the actuarial equivalent, at his attained age, of the annuity which would have been provided by the total contributions required of the member under the system, based on interest and mortality tables currently in use, less the

amount of any contributions remaining unpaid on the date of discontinuance. The amount to which any teacher is entitled under this section shall be paid to him within 90 days of his request in writing on a form provided by and filed with the local retirement system. All such requests shall be filed prior to July 1, 1959.

2. The district in which the plan is discontinued shall pay monthly to teachers, who were retired prior to the date of such discontinuance, an amount equal to the amount by which the retirement allowance to which any said retired teacher was entitled under said plan exceeds the increase in said teacher's retirement allowance under the State Teachers' Retirement System after said discontinuance. In lieu of such monthly payment, the district may elect to pay in a single sum the amount which shall be the actuarial equivalent to such monthly amount thereafter payable, according to the interest rate and mortality table currently in use under said plan. Payment of such amount shall discharge fully the district's liability to such teacher under this subdivision. The arrangement under which such amounts are paid by said district shall not be considered to be a local retirement system for the purposes of Chapter 1 (commencing with Section 22000) to Chapter 27 (commencing with Section 24600), inclusive, of this part, nor shall said amount be taken into account in the calculation of the retirement allowances under the State Teachers' Retirement System.

(b) Any person who was retired prior to July 1, 1956, from a position requisite for membership in the State Teachers' Retirement System, under a district supplemental retirement salary plan which has been discontinued pursuant to this section, and elected either under said plan or under said system, but not under both, to have a portion of his retirement allowance modified according to an option under which he would receive a smaller allowance and provide for a benefit for his beneficiary, said person shall have the right, to be exercised not later than 60 days after July 5, 1956, to change his election under the State Teachers' Retirement System with respect to said options. Any computations of actuarial equivalents under a changed election shall be made as of the said effective date, and no adjustment shall be included in the computation on account of retirement allowance payments made prior to that date.

(c) When any local retirement plan is discontinued under the provisions of this section, all funds remaining in the district retirement fund of the local system shall be transferred to the general fund of the school district in which the plan is discontinued. Thereafter any payments to meet continuing obligations of the district arising from the establishment or discontinuance of the plan shall be paid from the general fund of the district.

24925. The governing boards, after the adoption of the plan, shall at regular intervals, each not exceeding a period of five years, secure a general survey and actuarial report of the plan, and the boards shall from time to time amend the plan in such manner as may be found to be advisable to meet changed conditions, or, as in the light of

experience, may be considered necessary.

24926. A plan under which the districts establishing it agree to pay to employees who become entitled to retirement salaries within a specified period, not exceeding 15 years, after the establishment of the plan, a specified sum which, during the life expectancy of the employees, will be approximately equal, in the aggregate, to the aggregate difference, during the life expectancy, between the maximum salary paid to employees in the respective classes of the retiring employees, and the salaries paid to beginning employees in the classes, shall be construed to comply with the provisions of this chapter requiring the plan to be in accordance with sound business practices and recognized actuarial methods.

24927. For the purpose of providing funds which may be necessary to make the payments required by any joint district retirement plan, district taxes shall be levied and collected annually by the respective districts at the same time and in the same manner as other district taxes are levied and collected. The tax shall be in addition to any other district tax now or hereafter authorized by law, and shall not be considered in fixing maximum rates of tax for school district or community college district purposes.

24928. Every joint district retirement plan shall provide that only those teachers and other employees who have served as teachers or employees of the districts for at least 20 years of service immediately preceding retirement, and who have reached a minimum age specified in the joint district retirement plan, which shall not be less than 55 years, shall be entitled to a district retirement salary.

24929. The plan may provide for the retirement of teachers or other employees on account of disability after 10 years of service immediately prior to the retirement, the proportion of the disability retirement salary to the full retirement salary to be specified in the plan.

24930. Absence from service by reason of a leave of absence granted by the governing board of an employing district shall not be construed as a break in the continuity of service or by any district retirement plan adopted pursuant to the provisions hereof, but the period of leave shall not be counted as time served toward retirement unless the period is so counted under the State Teachers Retirement Act.

24931. Time of service may be counted in the aggregate and fractions of years amounting to whole years may be counted as whole years when payments by the teacher or other employee have been made for all of the time counted.

24932. The governing boards of the districts shall in all cases determine the teachers and other employees who are entitled to retirement salaries, and make and keep a list of the teachers and other employees, known as the retired list. For the purpose of making the retired list the boards may take testimony and examine witnesses under oath which may be administered by any member of the board.

24933. The governing boards of the districts may make all necessary and proper rules and regulations in aid or furtherance of the provisions of this chapter and in order to carry out and administer such provisions.

24934. When a joint district retirement plan is established there shall be created in the treasury of the county in which the districts are located, or, if the districts are located in more than one county, in the treasury of the county selected by the governing boards of the districts meeting in joint session, and open upon the books of the auditor and treasurer of the county, a trust fund account designated as the "joint district retirement fund." All moneys, whether from contributions by teachers or other employees, or by the districts, or from any source, properly belonging to the joint district retirement fund shall be placed in the fund. Upon approval of the joint district retirement board all incidental expenses, including actual and necessary clerical or other help, incurred in carrying out the provisions of this chapter shall be paid out of the fund and in the same manner as other expenditures are paid from district funds.

24935. Members of governing boards shall discharge the powers, duties, purposes, responsibilities, and jurisdiction conferred or imposed upon the governing boards under this chapter without extra or additional compensation.

24936. The governing boards of the districts establishing the retirement plan shall provide for the administration of the funds and the payment of retirement salaries by a "joint district retirement board" composed of three persons not officers or employees of any of the districts, one representative of each district, one representative of the teachers of each district and one representative of the other employees of each district, who shall serve without compensation. The representatives chosen by the teachers and other employees shall be chosen by secret ballot. The county treasurer of the county in the county treasury of which the "joint district retirement fund" is created shall be ex officio a member of the joint district retirement board. All members of the retirement board shall serve for such terms as may be specified by the governing boards in establishing a plan. The joint district retirement board shall have such further powers and duties as may be prescribed by the governing boards of the districts.

24937. The joint district retirement board shall have charge and control of the district retirement fund of the district and of the payment of all retirement salaries and annuities payable from the fund. The joint district retirement board shall invest the funds in securities which are legal for the investment of funds of savings banks in this state and shall sell the securities and reinvest the proceeds in securities legal for investment of funds of savings banks when in the judgment of the joint district retirement board the sale and reinvestment is advisable. No investment in or sale of securities shall be made except upon authorization of the joint district retirement board at a meeting of the board.

The board also shall collect the income from the securities and pay it into the joint district retirement fund.

24938. The joint district retirement board may sue in its own name when necessary to carry out the powers and duties conferred upon it. The district attorney, or, if there is a county counsel, the county counsel of the county in which are employed the largest number of employees entitled to the benefits and subject to the burdens of the joint district retirement plan shall act as attorney for the joint district retirement board without additional compensation.

24939. All securities purchased by the joint district retirement board shall be deposited with the county treasurer for safe keeping.

24940. All payments from the joint district retirement fund shall be made in the same manner as payments from school district funds but shall be subject to approval of the joint district retirement board. Warrants drawn on the fund shall be signed by at least one member of the joint district retirement board who shall be designated by the board.

The duties imposed upon the county treasurer shall be a part of his official duties, for the faithful performance of which he shall be liable upon his official bond.

24941. The county auditor of the county in the county treasury of which the "joint district retirement fund" is created shall audit the accounts of the joint district retirement board at least once every 12 months and report upon the financial condition thereof to the governing boards of the districts.

24942. The retirement salaries provided for in this chapter shall be in addition to any other retirement salaries received by any person under Chapter 1 (commencing with Section 22000) to Chapter 27 (commencing with Section 24600), inclusive, of this part, or as may be otherwise provided by law.

24943. The retirement salaries provided for in this chapter for all other employees, shall be in addition to any other retirement salaries that may be provided by law.

24944. Whenever by the provisions of this chapter, the governing boards of two or more school districts are required, or authorized, to perform any act, the act may be done only at joint meetings of the boards, and no action shall be taken by the boards except upon the affirmative vote of a majority of the members of a majority of the boards.

## PART 19. MISCELLANEOUS

### CHAPTER 1. SCHOOL SAFETY—PUBLIC AND PRIVATE INSTITUTIONS

#### Article 1. Uniform Fire Signals

32000. The signal system provided for in this article shall be known as the California uniform fire code signal.

32001. Every public, private, or parochial school building having an occupant capacity of fifty (50) or more students or more than one classroom shall be provided with a dependable and operative fire warning system. Every person and public officer managing, controlling, or in charge of any public, private, or parochial school shall cause the fire alarm signal to be sounded upon the discovery of fire. Every person and public officer managing, controlling, or in charge of any public, private, or parochial school, other than a two-year community college, shall cause the fire alarm signal to be sounded not less than once every calendar month in the manner prescribed in this article except that when a fire alarm system having a distinctive tone, and which is used for no other purpose, is installed, the manner of sounding alarm shall not be subject to the provisions of Sections 32002, 32003, and 32004.

32002. When the signal is given by means of an apparatus emitting intermittent sound signals, the signal shall be given by repeated successive short intermittent signals for a full period of ten (10) seconds, to be immediately followed by an intermission or period of silence of five (5) full seconds before the signal is repeated.

32003. When the signal is given by means of an apparatus emitting prolonged or continuous sound signals, the signal shall be given by prolonged whistle blast or other sound signal continuously sounded for a full period of ten (10) seconds, to be immediately followed by an intermission or period of silence of five (5) full seconds before the signal is repeated.

32004. In no case shall the signal be given for less than a one-minute period, and then only in the manner indicated.

## Article 2. Gates to School Grounds

32020. The governing board of every public school district, and community college district, and the governing authority of every private school, which maintains any building used for the instruction or housing of school pupils on land entirely enclosed (except for building walls) by fences or walls, shall, through cooperation with the local law enforcement and fire protection agencies having jurisdiction of the area, make provision for the erection of gates in such fences or walls. The gates shall be of sufficient size to permit the entrance of the ambulances, police equipment, and firefighting apparatus, used by the law enforcement and fire protection agencies. There shall be no less than one such access gate and there shall be as many such gates as needed to assure access to all major building and grounds areas. If such gates are to be equipped with locks, the locking devices shall be designed to permit ready entrance by the use of the chain or bolt cutting devices with which the local law enforcement and fire protection agencies may be equipped.

## Article 3. School Eye Safety

32030. It shall be the duty of the governing board of every school district, and community college district and of every county superintendent of schools, and of every person, firm, or organization maintaining any private school, in this state, to equip schools with eye protective devices as defined in Section 32032, for the use of all students, teachers, and visitors when participating in the courses which are included in Section 32031. It shall be the duty of the superintendents, principals, teachers or instructors charged with the supervision of any class in which any such course is conducted, to require such eye protective devices to be worn by students, teachers, or instructors and visitors under the circumstances prescribed in Section 32031.

32031. The eye protective devices shall be worn in courses including, but not limited to, vocational or industrial arts shops or laboratories, and chemistry, physics or combined chemistry-physics laboratories, at any time at which the individual is engaged in, or observing, an activity or the use of hazardous substances likely to cause injury to the eyes.

Hazardous substances likely to cause physical injury to the eyes include materials which are flammable, toxic, corrosive to living tissues, irritating, strongly sensitizing, radioactive, or which generate pressure through heat, decomposition or other means as defined in the California Hazardous Substances Labeling Act.

Activity or the use of hazardous substances likely to cause injury to the eyes includes, but is not necessarily limited to, the following:

1. Working with hot molten metal.
2. Milling, sawing, turning, shaping, cutting, grinding and stamping of any solid materials.
3. Heat treating, tempering, or kiln firing of any metal or other materials.
4. Gas or electric arc welding.
5. Repairing or servicing of any vehicles, or other machinery or equipment.
6. Working with hot liquids or solids or with chemicals which are flammable, toxic, corrosive to living tissues, irritating, strongly sensitizing, radioactive, or which generate pressure through heat, decomposition, or other means.

32032. For purposes of this article the eye protective devices utilized shall be industrial quality eye protective devices which meet the standards of the American National Standards Institute for "Practice for Occupational and Educational Eye and Face Protection" (Z87.1-1968), and subsequent standards that are adopted by the American National Standards Institute for "Practice for Occupational and Educational Eye and Face Protection."

32033. The eye protective devices may be sold to the pupils and teachers or instructors at a price which shall not exceed the actual cost of the eye protective devices to the school or governing board.

32034. The term eye protective devices as used in Sections 32030 to 32033, inclusive, shall not include prescription lenses as defined in Chapter 5.4 (commencing with Section 2540), Division 2, Business and Professions Code. Prescription lenses which meet the standards set forth in Section 32032 may be used by persons doing the work described in Item 6 of Section 32031 in a classroom under the supervision of appropriate personnel.

#### Article 4. First Aid Equipment

32040. The governing board of any school district, or community college district, superintendent of schools, or principal in whom is vested the administration or supervision of any public or private school in the state shall equip the school with a first aid kit, whenever any pupils of the school are conducted or taken on field trips under the supervision or direction of any teacher in, or employee or agent of, the school.

(Amended by Stats. 1976, Ch 1011.)

#### [ORIGINAL SECTION]

32040. The governing board of any school district, or community college district, superintendent of schools, or principal in whom is vested the administration or supervision of any public or private school in the state shall equip the school with a first aid kit containing the articles mentioned in Section 32042, whenever any pupils of the school are conducted or taken on field trips under the supervision or direction of any teacher in, or employee or agent of, the school.

32041. The teacher, instructor agent, or employee shall have the first aid kit in his possession, or immediately available, while conducting the field trip.

32043. Whenever a field trip is conducted into an area which is commonly known to be infested by poisonous snakes, the first aid kit shall include a snake bite kit.

32044. Any member of the governing board of any school district, any community college district and any superintendent of schools, principal, teacher, instructor, or agent who willfully violates the provisions of this article is guilty of a misdemeanor.

#### Article 5. Hazing Laws

32050. As used in this article, "hazing" includes any method of initiation into a student organization or any pastime or amusement engaged in with respect to such an organization which causes, or is likely to cause, bodily danger or physical harm to any student or other person attending any school, community college, college, university or other educational institution in this state; but the term "hazing" does not include customary athletic events or other similar contests or competitions.

32051. No student, or other person in attendance at any public, private, parochial, or military school, community college, college, or other educational institution, shall conspire to engage in hazing, participate in hazing, or commit any act that injures, degrades, or

disgraces, or tends to injure, degrade, or disgrace any fellow student or person attending the institution.

The violation of this section is a misdemeanor, punishable by a fine of not less than fifty dollars (\$50), nor more than five hundred dollars (\$500), or imprisonment in the county jail for not more than six months, or both.

32052. Any person who participates in the hazing of another, or any corporation or association which knowingly permits hazing to be conducted by its members or by others subject to its direction or control, shall forfeit any entitlement to public funds, scholarships or awards which are enjoyed by him or by it and shall be deprived of any sanction or approval granted by any public educational institution or agency.

The governing board of any public school, public college, public university or other public educational institution or agency may adopt rules and regulations to implement this section.

If he has reason to believe that a forfeiture should be declared under this section, the Attorney General or the district attorney of any county or city and county may institute a special proceeding in the superior court to establish such forfeiture. Any funds so forfeited shall be deposited in the State Treasury and credited to the State School Fund.

## CHAPTER 2. SCHOOL SAFETY—PUBLIC INSTITUTIONS

### Article 1. Fire Drills

32200. Notwithstanding the provisions of Section 1714.5 of the Civil Code, no superintendent, principal, teacher, instructor or other employee of a school district or community college district employed in a position requiring or not requiring certification qualifications, and no person authorized by the governing board of the school district or community college district to assist any employee of the district, shall be held personally liable for civil damages on account of personal injury to or death of any person resulting from the participation of the person in a fire drill or other drill or test related to a potential emergency situation, ordered by lawful authority to be held in the schools of the employing district, unless negligence or the willfully act of the employee is the proximate cause of the injury or death.

### Article 2. Willful Disturbance, Public Schools or Meetings

32210. Any person who willfully disturbs any public school or any public school meeting is guilty of a misdemeanor, and shall be punished by a fine of not more than two hundred fifty dollars (\$250).

32211. (a) Any person who is not a student of the public school, a parent or guardian of a student of the public school, or an officer or employee of the school district maintaining the public school, or

who is not required by his employment to be in a public school building or on the grounds of the public school, and who has entered any public school building or the grounds of any public school, during school hours, and who is requested either by the principal of the public school or by the designee of the principal to leave a public school building or public school grounds, shall promptly depart therefrom and shall not return thereto for at least 48 hours. A request that a person depart from a public school building or public school grounds shall be made by the principal or his designee exclusively on the basis that it appears reasonable to the principal or his designee to conclude that the continued presence of the person requested to depart would be disruptive of, or would interfere with, classes or other activities of the public school program.

(b) Any person who fails to leave a public school building or public school grounds promptly upon request of the principal of the public school or the designee of the principal made pursuant to subdivision (a) or who, after leaving a public school building or public school grounds pursuant to a request of the principal of the public school or the designee of the principal made pursuant to subdivision (a), returns thereto, except pursuant to subdivision (d), within 48 hours, is guilty of a misdemeanor and shall be punished pursuant to Section 626.8 of the Penal Code.

(c) Any person who is requested pursuant to subdivision (a) to leave a public school building or school grounds may appeal to the superintendent of the school district in which the public school is located. Such an appeal shall be made not later than the second succeeding schoolday after the person has departed from the public school building or public school grounds. The superintendent shall, after reviewing the matter with the principal or his designee and the person seeking ingress to the public school during school hours, render his decision within 24 hours after the appeal is made, and such decision shall be binding upon both parties. A decision of the superintendent may be appealed by the person seeking ingress to the public school during public school hours to the governing board of the school district in which the public school is located. Such an appeal shall be made not later than the second succeeding schoolday after the superintendent has rendered his decision. The governing board of the school district shall consider and decide the appeal at its next scheduled regular or adjourned regular public meeting, and the decision of the governing board shall be final.

(d) Where the office of the superintendent of the school district or the office of the governing board of the school district or community college district is situated in the public school building or on the grounds of the public school from which a person has been requested, pursuant to subdivision (a), to depart, the person may enter the public school building or the grounds of the public school solely for the purpose of, and only to the extent necessary for, personally making at the office of the superintendent or the office of the governing board an appeal pursuant to subdivision (c).

(e) The governing board of every school district or community college district shall cause to have posted at every entrance to each school and grounds of the district a notice which shall set forth "school hours," which are hereby defined for the purposes of this section as the period commencing one hour before classes begin and one hour after classes end at any school, or as otherwise defined by the governing board of the school district.

(f) For the purposes of subdivision (a), a representative of a school employee organization engaged in activities related to representation, as defined by Section 7104, shall be deemed to be a person required by his employment to be in a school building or on the grounds of a school.

(g) Nothing in this section shall be construed as preempting any ordinance of any city, county, or city and county.

### Article 3. Insurance for Athletic Teams

32220. As used in this chapter:

(a) "Educational institution" means a school district or community college district, a state university or college, the University of California, and Department of Education special schools.

(b) "Governing board" means the governing board of a school district or community college district, the Trustees of the California State University and Colleges, and the Regents of the University of California.

(c) "Member of an athletic team" means member of any extramural athletic team engaged in athletic events on or outside the school grounds, maintained or sponsored by the educational institution or a student body organization thereof. "Member of an athletic team" also includes members of school bands or orchestras, cheerleaders and their assistants, pompon girls, team managers and their assistants, and any student or pupil selected by the school or student body organization to directly assist in the conduct of the athletic event, including activities incidental thereto, but only while such members are being transported by or under the sponsorship or arrangements of the educational institution or a student body organization thereof to or from a school or other place of instruction and the place at which the athletic event is being conducted.

Organized rooting sections, student body members who are spectators, and other spectator students, who are not actually participating in the conduct of the athletic event, are not members of an athletic team. Participants in a playday or field day activity occurring occasionally during a school year, in which students of one or more particular grade levels from two or more schools of a school district or community college district participate in athletic contests, are not members of an athletic team. Nothing in this section shall be construed as prohibiting a governing board from extending the applicability of the provisions of this article to any such persons,

should the governing board elect so to do.

(d) "Student body organization" means any student organization under supervision of the educational institution or its officers.

32221. The governing board of any educational institution, except a school district or community college district of any kind or class and Department of Education special schools as defined in Sections 59000, 59100, and 59200, shall provide accidental death insurance in an amount of at least five thousand dollars (\$5,000) for each member of an athletic team and shall in addition provide insurance protection for medical and hospital expenses resulting from accidental bodily injuries in an amount of at least five thousand dollars (\$5,000) for all such services for each member of an athletic team, through group, blanket or individual policies of accident insurance from authorized insurers, or through a benefit and relief association described in subparagraph (1) of subdivision (c) of Section 10493 of the Insurance Code, for the death or injury to members of athletic teams arising while such members are engaged in or are preparing for an athletic event promoted under the sponsorship or arrangements of the educational institution or a student body organization thereof or while such members are being transported by or under the sponsorship or arrangements of the educational institution or a student body organization thereof to or from school or other place of instruction and the place of the athletic event; provided that the Trustees of the California State University and Colleges and the Regents of the University of California may authorize and require the student body organizations designated pursuant to this section, to be responsible for such medical and hospital expenses in any amount the trustees or the regents may specify, up to two hundred fifty dollars (\$250), in which event such insurance protection for the health and accident expenses may include a deductible clause in the same amount.

The governing board of each school district or community college district of any kind or class and the Department of Education special schools as defined in Sections 59000, 59100, and 59200 shall provide accidental death insurance in an amount of at least one thousand five hundred dollars (\$1,500) for each member of an athletic team and shall in addition provide insurance protection for medical and hospital expenses resulting from accidental bodily injuries in one of the following amounts:

(a) A group or individual medical plan with accidental benefits of at least two hundred dollars (\$200) for each occurrence and major medical coverage of at least ten thousand dollars (\$10,000), with no more than one hundred dollars (\$100) deductible and no less than eighty percent (80%) payable for each occurrence.

(b) Group or individual medical plans which are certified by the Insurance Commissioner to be equivalent to the required coverage of at least one thousand five hundred dollars (\$1,500).

(c) At least one thousand five hundred dollars (\$1,500) for all such medical and hospital expenses.

Insurance protection in either of the above amounts shall be provided through group, blanket or individual policies of accident insurance from authorized insurers or through a benefit and relief association described in subparagraph (1) of subdivision (c) of Section 10493 of the Insurance Code, for the death or injury to members of athletic teams arising while such members are engaged in or are preparing for an athletic event promoted under the sponsorship or arrangements of the educational institution or a student body organization thereof or while such members are being transported by or under the sponsorship or arrangements of the school districts or community college districts or a student body organization thereof to or from school or other place of instruction and the place of the athletic event. Minimum medical benefits under any insurance required by this paragraph shall be equivalent to the three dollars and fifty cents (\$3.50) conversion factor as applied to the unit values contained in the minimum fee schedule adopted by the Division of Industrial Accidents of the State of California, effective October 1, 1966.

The Trustees of the California State University and Colleges and the Board of Regents of the University of California shall designate such student body organizations as they deem appropriate to bear the entire cost of the insurance under this article, in such proportions as they deem equitable, and shall make appropriate deductions from any such student body organization funds held by such institutions, or otherwise take such measures, as will assure the payment thereof.

The governing boards of the various school districts or community college districts and the Department of Education special schools shall require that each member of an athletic team have insurance protection as prescribed by this section, with the costs of such insurance protection to be paid either out of the funds of the district, the funds of the student body, or by any other persons on behalf of, the individual team members or students covered by such insurance. In the event that the governing board of a school district or community college district should determine that a member of an athletic team or the parents, guardians or other person having charge or control of a member of an athletic team are financially unable to pay the costs of such insurance protection, then the governing board shall require the costs of such protection to be paid either out of funds of the district or funds of the student body.

The insurance required by this article shall be issued by an admitted insurer, or through a benefit and relief association described in subparagraph (1) of subdivision (c) of Section 10493 of the Insurance Code.

The insurance otherwise required by this section shall not be required for any individual team member or student who has such insurance or a reasonable equivalent of health benefits coverage provided for him in any other way or manner, including, but not limited to, purchase by himself, or by his parent or guardian.

**32222.** Any claim for accidental bodily injuries or accidental

death described in this article which is subject to, and for which benefits have been paid under, the provisions of Division 4 (commencing with Section 3200) of the Labor Code is excluded from the required coverage and benefits under this article. Recreation activities under Chapter 10 (commencing with Section 10900) of Part 7 of this division, are excluded from the required coverage and benefits of this article.

32223. The coverage provided under this article shall not exclude additional or broader coverage by an educational institution or its student body organization.

(Amended by Stats. 1976, Ch. 1011.)

[ORIGINAL SECTION]

32223. The coverage provided under this article shall not exclude additional or broader coverage by an educational institution or its student body organization. Notwithstanding any other provision of this article, protection for medical and hospital expenses resulting from accidental bodily injuries, in amounts prescribed in Section 32221, may be provided by any corporation eligible to act as a carrier pursuant to Section \_\_\_ of the Welfare and Institutions Code, and such coverage will be deemed to meet the requirements of this article.

32224. The insurance coverage provided under this article may contain the following provisions:

(1) School administrative authorities shall certify whether an injured student applying for the insurance benefits is a student of the educational institution and is enrolled as a member of an athletic team.

(2) The injured student, or his parents or guardian, shall notify school administrative authorities of his injury not later than 60 days from the date of injury.

(3) Medical or hospital care or treatment must commence within 120 days from the date of injury.

(4) The period of time for which benefits shall be payable is limited to 52 weeks from the date the student received his first medical or hospital care or treatment. Benefits shall be payable only for such treatment as is given within the United States.

(5) Death benefits shall be paid only in the event death is medically determined to be caused by the injury and occurs within 52 weeks of the first medical or hospital care or treatment for such injury.

### CHAPTER 3. MISCELLANEOUS

#### Article 1. Printing and Binding

32300. All printing or binding required by the Superintendent of Public Instruction or the State Board of Education, or by any educational institution, except the University of California, supported entirely out of state funds, and all school registers and blank forms prescribed by the Superintendent of Public Instruction for the use of officers charged with the administration of the laws relating to the public schools, including blank teachers' certificates,

and diplomas of graduation from elementary schools in districts not governed by city boards of education, shall be performed by the Department of General Services in the form and manner and at the prices of other state printing, and be paid for in like manner.

## Article 2. Printing Schools

32310. No printing concern, institution, or other agency maintaining a printing plant or department for the purpose of instruction or the teaching of the art of printing, or allied arts, and whose purpose is to teach or instruct its students or members, shall produce, print, or cause to be printed any material whatsoever that may be placed on the market in competition with regularly established printing plants or concerns, if such printing concern, institution, or other agency is supported or operated from public or state funds or is tax free in any manner.

32311. This article does not apply to:

(a) Any institution classified as an educational institution within the meaning and intent of Section 101 of the Internal Revenue Code of the United States or of Section 23701d of the Revenue and Taxation Code and which, nevertheless, pays general state and county taxes within this state upon any printing plant and printing equipment owned by it.

(b) The production of forms, materials, and supplies at any state educational institution under the exclusive management and control of the state and authorized by law.

(c) Any publication, printed and produced at any state educational institution under the exclusive management and control of the state for the dissemination of technical or scientific information and which is sold at cost.

(d) Printing which may be classified as "instruction" or "student activity."

32312. The violation of this article is a misdemeanor.

## Article 3. Tuition and Fees for Children of Disabled Veterans

32320. No state-owned college, university, or other school shall charge any tuition, or incidental fees to:

(a) Any dependent receiving assistance under Article 2 (commencing with Section 890) of Chapter 4 of Division 4 of the Military and Veterans Code, or

(b) Any child of any veteran of the United States military service who has a service-connected disability, and whose annual income not including governmental compensation for such service-connected disability, does not exceed five thousand dollars (\$5,000), or

(c) Any child of any veteran who has been killed in service or has died of a service-connected disability, where the annual income of such child, including the value of any support received from a parent, and the annual income of a surviving parent, does not exceed

five thousand dollars (\$5,000).

Nothing contained in this section shall prevent the Regents of the University of California from charging to and collecting from nonresident students an admission fee and rate of tuition nor shall anything in this section prevent the charging and collecting of fees required of nonresident students admitted to schools under the jurisdiction of the Department of Education or the Director of Education or to a state university or college under the jurisdiction of the Trustees of the California State University and Colleges.

This section shall not apply to a dependent of a veteran within the meaning of paragraph (4) of subdivision (a) of Section 890 of the Military and Veterans Code.

#### Article 4. Use of County Funds for Agriculture

32330. The boards of supervisors of any county may appropriate and use county funds for the support and maintenance of extension work in agriculture and home economics. The extension work shall be designed for the benefit of the respective counties and conducted under the approval of the United States Department of Agriculture and in cooperation with the University of California.

#### Article 5. Unlawful Issuance of a Credential

32340. Any state, county, or city and county superintendent, or any state, county, or city and county board of education, who issues a credential, except as provided by law, is guilty of a misdemeanor.

32341. Except where such service is provided by a school district or a community college district pursuant to Section 44332.5 or 87212.5, each county or city and county board of education may provide for the registration of any valid certification or other document authorizing the holder thereof to serve in a position requiring certification qualifications as an employee of the county superintendent of schools of such county or city and county or of a school district under the jurisdiction of such county superintendent of schools.

#### Article 6. District Liability on Loaned Equipment

32350. Any person, corporation, firm, or public entity, or employee thereof, who gratuitously loans equipment of any description or the services of an employee to a school district or community college district shall not be liable, and the school district or community college district shall be liable, for damages because of personal injuries to, or the death of any person or damage to property resulting from the operation of such equipment or an act or omission of such employee occurring while such equipment or employee is under the supervision and control of the district.

This section does not apply to any person, corporation, firm, or

public entity who gratuitously loans mechanically defective equipment of any description or who gratuitously loans the services of an employee who is not fully qualified to perform such service, and such defect or lack of qualification is the cause of any damage or injury.

An employee whose services are loaned to a school district or community college district pursuant to this section remains an employee of his employer for all purposes, including the application of the provisions of the Labor Code relating to workmen's compensation.

For the purposes of this section, "public entity" includes the state, the Regents of the University of California, a county, city, city and county, district, public authority, public agency, or any other political subdivision or public corporation in this state.

#### Article 7. Copyright Laws

32360. No funds shall be expended by a school district, a community college district, a county board of education, or a county superintendent of schools to secure a copyright for any person or firm, but nothing in this section shall be construed to prevent the governing board of any school district, community college district, or county board of education from securing copyrights, in the name of the district or board, to all copyrightable works developed by the district or board.

32361. A school district, a community college district, a county board of education, or a county superintendent of schools shall not use the regular worktime of any employee to secure a copyright for any person or firm, but nothing in this section shall be construed to prevent the governing board of any school district, community college district, or county board of education from securing copyrights, in the name of the district or board, to all copyrightable works developed by the district or board.

## TITLE 2. ELEMENTARY AND SECONDARY EDUCATION

## DIVISION 2. STATE ADMINISTRATION

## PART 20. STATE EDUCATIONAL AGENCIES

## CHAPTER 1. STATE BOARD OF EDUCATION

## Article 1. Composition

33000. There is in the state government a State Board of Education, consisting of 10 members, who are appointed by the Governor with the advice and consent of two-thirds of the Senate.

33001. The term of office of the members of the board is four years, and they shall hold office until the appointment and qualification of their successors. The terms of the members of the board in office when this section takes effect shall expire as follows:

Three members January 15, 1960.

Two members January 15, 1961.

Three members January 15, 1962.

Two members January 15, 1963.

The terms shall expire in the same relative order as to each member as the term for which he holds office before this section takes effect.

33002. Any vacancy shall be filled by appointment by the Governor, subject to confirmation by two-thirds of the Senate. The appointee to fill a vacancy shall hold office only for the balance of the unexpired term.

33003. At the first meeting following any change in the membership of the board, the board shall reorganize by electing one of its members president.

33004. The Superintendent of Public Instruction shall be secretary and shall act as executive officer of the board. He shall have charge of all its correspondence and shall keep a record of its proceedings.

33005. The board shall appoint an acting secretary, who shall also act as executive officer of the board in the absence of the Superintendent of Public Instruction from the state, or in case of his incapacity for duty.

33006. Members of the board shall serve without pay. They shall receive their actual and necessary traveling expenses while on official business.

33007. The board shall meet at least six times a year at such times as it may by resolution determine; provided, that it shall meet at least once every three months.

33008. Special meetings may be called by the president. Upon the request of any four members in writing, the secretary shall call a special meeting.

33009. Notice of each meeting shall be given by the secretary by registered mail to each member of the board at least 10 days prior to the time of the meeting. Notice of the meeting may be waived in writing by all members of the board.

33010. The concurrence of six members of the board shall be necessary to the validity of any of its acts.

## Article 2. Powers and Duties

33030. The board shall determine all questions of policy within its powers.

33031. The board shall adopt rules and regulations not inconsistent with the laws of this state (a) for its own government, (b) for the government of its appointees and employees, (c) for the government of the day and evening elementary schools, the day and evening secondary schools, and the technical and vocational schools of the state, and (d) for the government of such other schools, excepting the University of California and the California State University and Colleges, as may receive in whole or in part financial support from the state.

The rules and regulations adopted shall be published for distribution as soon as practicable after adoption.

33032. The board shall study the educational conditions and needs of the state. It shall make plans for the improvement of the administration and efficiency of the public schools of the state.

33033. The State Board of Education may:

(a) Establish at the request of the governing authorities of any state institution, courses of instruction for the inmates of the institution.

(b) Examine under arrangements with the governing authorities of the institution the progress of students taking the courses and grant certificates of progress or completion as the State Board of Education may determine.

33034. The board shall issue subpoenas to compel the attendance of witnesses before the board, or any member thereof, in the same manner as any court in this state. Whenever the testimony of any witness upon any matter pending before it is material, the president shall cause the attendance of the witnesses before the board, or a member of the board, to testify concerning the matter, and the board may make a reasonable allowance for this purpose not exceeding the fees of witnesses in civil cases. The allowance shall be paid for out of the appropriation for the expense of the board, but in no instance shall an allowance be made in favor of a witness who appears in behalf of a claimant. The provisions of this section shall not apply to proceedings conducted in accordance with Chapter 5 of Part 1 of Division 3 of Title 2 of the Government Code.

33035. The board shall adopt and use an official seal in authentication of its acts.

33036. The board shall cause the Department of General Services

to do any printing required by it. All orders for printing shall first be approved by the Department of General Services.

33037. The board shall submit to the Governor biennially on or before the fifteenth day of September next preceding the regular session of the Legislature, a report of its transactions for the preceding two years, together with recommendations of its needs for the coming biennium, and such recommendations as to changes in laws or new educational legislation as may seem to it to be necessary.

33038. The Superintendent of Public Instruction shall recommend, and the State Board of Education shall adopt general guidelines for use by school districts and county superintendents of schools in the development of curriculum and the adoption of courses of study for the special instruction of mentally retarded minors enrolled in public schools as defined by Sections 56501 and 56515. The Superintendent of Public Instruction is authorized to employ on a part-time basis curriculum specialists to assist in the development of such guidelines.

33039. The State Board of Education shall develop guidelines which school districts may use in the development of teacher evaluation procedures pursuant to Article 11 (commencing with Section 44660) of Chapter 1 of Part 25 of Division 3 of this title, and shall distribute such guidelines to every school district.

33040. The State Board of Education and the governing bodies of any county, city, and fire protection district are authorized to enter into agreements providing for the assignment of employees of the fire departments of such counties, cities, and fire protection districts to serve as instructors in fire training programs conducted under the auspices of the State Board of Education and providing for the payment to such counties, cities, and fire protection districts by the State Board of Education from the funds appropriated for vocational education of such amount as may be agreed upon for the services of such employees.

## CHAPTER 2. SUPERINTENDENT OF PUBLIC INSTRUCTION

### Article 1. Appointment and Salaries

33100. A vacancy in the office of Superintendent of Public Instruction shall be filled by appointment by the Governor.

33101. The annual salary of the Superintendent of Public Instruction is provided for by Chapter 6 of Part 1 of Division 3 of Title 2 of the Government Code. He shall execute an official bond in the sum of ten thousand dollars (\$10,000).

33102. The actual and necessary traveling expenses of the Superintendent of Public Instruction, his deputy and assistants, shall be ordered and paid out of the appropriation made for the Department of Education.

## Article 2. Powers and Duties

33110. The Superintendent of Public Instruction may employ one Deputy Superintendent of Public Instruction and necessary clerical and expert assistants, and may fix the compensation of all statutory and other employees as provided by law, except as otherwise provided.

33111. The Superintendent of Public Instruction shall execute, under direction of the State Board of Education, the policies which have been decided upon by the board and shall direct, under general rules and regulations adopted by the State Board of Education, the work of all appointees and employees of the board.

33112. The Superintendent of Public Instruction shall:

(a) Superintend the schools of this state.

(b) Prepare, have printed, and furnish to teachers and to all officers charged with the administration of the laws relating to the public schools such blank forms and books as may be necessary to the discharge of their duties, including blank teachers' certificates to be used by county and city and county boards of education.

(c) Authenticate with his official seal all drafts or orders drawn by him, and all papers and writings issued from his office.

(d) Have bound, at the state bindery, all valuable school reports, journals, and documents in his office, or received by him.

(e) Deliver over, at the expiration of his term of office, on demand, to his successor, all property, books, documents, maps, records, reports, and other papers belonging to his office, or which may have been received by him for the use of his office.

33113. The Superintendent of Public Instruction shall prescribe regulations under which contracts, agreements or arrangements may be made with agencies of the federal government for funds, services, commodities, or equipment to be made available to schools of the public school system, except the California State University and Colleges.

33114. All such contracts, agreements or arrangements shall be entered into in accordance with regulations prescribed by the Superintendent of Public Instruction and in no other manner.

33115. The Superintendent of Public Instruction may enter into an agreement with the government of the United States or any agency thereof relative to the establishment of courses of study in aeronautics in the technical schools of the public school system, except the California State University and Colleges.

33116. The Director of Education may enter into agreements with any agency of the federal government for the education of persons in the service of the federal government in schools under the jurisdiction of the Department of Education. All money received from an agency of the federal government for the education of persons in any such school is hereby appropriated for the support of such school in addition to such other funds as may be appropriated therefor by the Legislature.

33117. The Director of Education may enter into agreements with agencies of the federal government, county superintendents of schools, county boards of education, any school district, and state college foundations or other auxiliary organizations, including those established pursuant to Sections 87300 and 90000 for the performance of any services for such agencies by any school under the jurisdiction of the Department of Education. All money received under any such agreement, except recovery of contributions to the Public Employees' Retirement Fund, is hereby appropriated for the support of such school in addition to such other funds as may be appropriated therefor by the Legislature.

33118. The Superintendent of Public Instruction shall, not later than the 25th day of July in each year, prepare an estimate of the amount of state school money that will be apportioned to each county or city and county during the current school year, and furnish a certified copy of the estimate to each county or city and county superintendent of schools.

33119. Other than for persons in the state civil service, the length of, and the time for, vacations of teachers, officers, and employees of the schools for the deaf, the school for the blind, and orientation centers for the blind shall be prescribed by the Director of Education, except that the length of vacations for teachers at orientation centers for the blind shall not exceed 30 days.

33120. The Director of Education may conduct experimental work in education through various media, including radio and television.

33121. The Director of Education may develop audial and visual curriculum materials, evolve means and methods, and prescribe standards, for the use of such materials in the public elementary and secondary schools.

33122. The Director of Education shall employ such persons as are necessary for the coordination and the supervision of services for hard-of-hearing children.

33123. The Director of Education may enter into an agreement with any political entity mentioned in Section 44853 for the exchange and employment of persons serving as teachers in schools under the jurisdiction of the Department of Education and employees of public schools of the political entity. The exchange and employment shall be made under comparable circumstances, subject to comparable conditions, with comparable effect as to tenure and retirement rights, subject to comparable requirements as to payment of salary and deductions therefrom, and for the same period of time as set forth in Sections 44853, 44854, and 44855 with respect to the exchange of school district employees, except that the circumstances, conditions, rights, and requirements shall be those appropriate to the employment relationship between the teachers and the Department of Education.

33124. The Superintendent of Public Instruction shall report on elementary textbooks to the Joint Legislative Budget Committee.

The report shall include such information relating to state textbooks as the Joint Legislative Budget Committee may require. The report shall be made at times required, and on forms prescribed by the Joint Legislative Budget Committee. The report shall be made at least once a year.

33125. The Director of Education, subject to such conditions as the State Board of Education may establish, may purchase annuity contracts for the employees of the California School for the Deaf provided for in Chapter 1 (commencing with Section 59000) of Part 32 of Division 4 of this title, the California School for the Blind provided for in Chapter 2 (commencing with Section 59100) of Part 32 of Division 4 of this title, and the diagnostic schools for neurologically handicapped children provided for in Chapter 3 (commencing with Section 59200) of Part 32 of Division 4 of this title, and shall reduce the salary of any such employee for whom such contract is purchased in the amount of the cost thereof; provided that each of the following conditions are met:

(a) The annuity contract is under an annuity plan which meets the requirements of subdivision (b) of Section 403 of the Internal Revenue Code of 1954 of the United States.

(b) The employee makes application to the director for such purchase and reduction of salary.

(c) All provisions of the Insurance Code applicable to the purchase of such annuities are satisfied.

### Article 3. Deputies and Associate Superintendents

33140. The duties of the Deputy Superintendent of Public Instruction and of the associate superintendents of public instruction appointed by the State Board of Education under Section 2.1 of Article IX of the Constitution of this state shall be such as are assigned to them by the Superintendent of Public Instruction.

33141. The annual salaries of the Deputy Superintendent of Public Instruction and of the associate superintendents of public instruction appointed by the State Board of Education under Section 2.1 of Article IX of the Constitution of this state shall be fixed by the Superintendent of Public Instruction with the approval of the Director of Finance.

### Article 4. Reports

33150. As used in this article:

(a) "School district" does not include an elementary school district with less than one hundred one (101) units of average daily attendance, a high school district with less than three hundred one (301) units of average daily attendance.

(b) "Teacher" means an employee of a school district, employed in a position requiring certification qualifications and whose duties require him to provide direct instruction to pupils in the schools of

that district for the full time for which he is employed. "Teacher" shall include, but not be limited to, teachers of special classes, teachers of exceptional children, teachers of physically handicapped minors, teachers of mentally retarded minors, substitute teachers, instructional television teachers, specialist mathematics teachers, specialist reading teachers, home and hospital teachers, and learning disability group teachers.

(c) "Classified employee" means an employee of a school district, employed in a position not requiring certification qualifications.

(d) "Administrative employee" means an employee of a school district, employed in a position requiring certification qualifications, but who does not come within the meaning of subdivision (b) or (e).

(e) "Pupil services employee" means an employee of a school district, employed in a position requiring a standard designated services credential, health and development credential, or a librarian credential, and who performs direct services to pupils. "Pupil services employee" shall include, but not be limited to, inschool librarians, school nurses, assistance inschool librarians, audiovisual personnel, counselors, psychologists, psychometrists, guidance and welfare personnel, attendance personnel, school social workers, and all other certificated personnel performing pupil-personnel services, health, or librarian services.

(f) "Classification" means one of the classifications specified in Section 33152.

33151. On or before December of each year, each school district shall submit to the Superintendent of Public Instruction, on forms that he shall provide and in accordance with regulations which he shall adopt, a report containing all of the following information as of the single date specified by the Superintendent of Public Instruction.

(a) The number of teachers employed by the district.

(b) The number of classified employees employed by the district.

(c) The number of administrative employees employed by the district.

(d) The number of pupil services employees employed by the district.

The number of employees in subdivisions (a), (b), (c), and (d) shall include the full-time equivalent of all fractional time of such employees.

33152. The Superintendent of Public Instruction shall place all districts in one of the following classifications:

(1) Elementary districts not operated by a common administration.

(2) High school districts not operated by a common administration.

(3) Unified school districts.

(4) Elementary and high school districts under one common administration.

33153. (a) After receiving reports pursuant to this article, the Superintendent of Public Instruction shall, for each classification,

perform the following functions: (1) compare the figures reported to him for teachers with those for classified employees and compute a ratio of such classified employees to each 100 teachers for each classification of district, (2) compare the figures reported to him for teachers with those for administrative employees and compute a ratio of such administrative employees to each 100 teachers for each classification of district, and (3) compare the figures reported to him for teachers with those for pupil services employees and compute a ratio of such pupil services employees to each 100 teachers for each classification of district.

(b) The Superintendent of Public Instruction shall rank each district in each classification on the basis of the ratio computed pursuant to subdivision (a), from the lowest ratio to the highest.

33154. The Superintendent of Public Instruction shall prepare a report containing the information computed pursuant to subdivision (b) of Section 33153, and submit it to the Legislature at each regular session. Upon request of the governing body of a school district, including a district specified in subdivision (a) of Section 33150, he shall transmit a copy of the report to the district.

33155. The report which is submitted to the Legislature under this article shall contain no editorial or subjective comment by the Superintendent of Public Instruction, or any other public officer, concerning the information required to be set forth in it.

#### Article 5. Verification of Private School Instruction

33190. Every person, firm, association, partnership, or corporation offering or conducting private school instruction on the elementary or high school level shall between the 1st and 15th day of October of each year, commencing on October 1, 1967, file with the Superintendent of Public Instruction an affidavit or statement, under penalty of perjury, by the owner or other head setting forth the following information for the current year:

(a) All names, whether real or fictitious, of the person, firm, association, partnership, or corporation under which it has done and is doing business.

(b) The address, including city and street, of every place of doing business of the person, firm, association, partnership, or corporation within the State of California.

(c) The address, including city and street, of the location of the records of the person, firm, association, partnership, or corporation, and the name and address, including city and street, of the custodian of such records.

(d) The names and addresses, including city and street, of the directors, if any, and principal officers of the person, firm, association, partnership, or corporation.

(e) The school enrollment, by grades, number of teachers, coeducational or enrollment limited to boys or girls and boarding facilities.

(f) That the following records are maintained at the address stated, and are true and accurate:

- (1) The records required to be kept by Section 48222.
- (2) The courses of study offered by the institution.
- (3) The names and addresses, including city and street, of its faculty, together with a record of the educational qualifications of each.

Whenever two or more private schools are under the effective control or supervision of a single administrative unit, such administrative unit may comply with the provisions of this section on behalf of each of the schools under its control or supervision by submitting one report.

Filing pursuant to this section shall not be interpreted to mean, and it shall be unlawful for any school to expressly or impliedly represent by any means whatsoever, that the State of California, the Superintendent of Public Instruction, the State Board of Education, the California State Department of Education, or any division or bureau thereof, or any accrediting agency has made any evaluation, recognition, approval, or endorsement of the school or course unless this is an actual fact.

The Superintendent of Public Instruction shall prepare and publish a list of private elementary and high schools to include the name and address of the school and the name of the school owner or administrator.

33191. (Repealed by Stats. 1976, Ch. 1011.)

[ORIGINAL SECTION]

33191. (a) The Superintendent of Public Instruction and the Attorney General shall take cognizance of the fact that both have definite duties and responsibilities under Sections 33190 to 33192, inclusive.

(b) The Superintendent of Public Instruction shall report any information concerning possible violations of this article to the Attorney General.

(c) The Attorney General shall make such investigations as are necessary to determine whether or not there has been compliance with the provisions of this article

33192. (Repealed by Stats. 1976, Ch. 1011.)

[ORIGINAL SECTION]

33192. The Attorney General is hereby authorized to take such actions as are necessary, including the obtaining of injunctive relief, to enforce the provisions of this article.

### CHAPTER 3. DEPARTMENT OF EDUCATION

#### Article 1. General Provisions

33300. There is in the state government a Department of Education.

33301. The Department of Education shall be administered through:

- (a) The State Board of Education which shall be the governing and policy determining body of the department.

(b) The Director of Education in whom all executive and administrative functions of the department are vested and who is the executive officer of the State Board of Education.

33302. The Department of Education shall be conducted under the control of an executive officer known as the Director of Education.

33303. The Superintendent of Public Instruction is ex officio Director of Education.

33304. The provisions of Article 2 (commencing with Section 11180), Chapter 2, Part 1, Division 3 of Title 2 of the Government Code, shall govern and apply to the conduct of the Department of Education in every respect as if such provisions were herein set forth at length.

33305. Wherever in Article 2 (commencing with Section 11180), Chapter 2, Part 1, Division 3 of Title 2 of the Government Code, the term "head of the department," or similar designation occurs, it shall, for the purposes of Section 33304, of this code mean the Director of Education.

33306. The Department of Education is the successor to, and is vested with all the duties, powers, purposes, responsibilities, and jurisdiction of the State Board of Education as they existed on July 30, 1921, of the board of directors of the California School for the Deaf and the Blind, and of the several officers, deputies, and employees of such bodies and offices.

33307. The Department of Education shall be in possession and control of all records, books, papers, offices, equipment, supplies, moneys, funds, appropriations, land, and other property, real or personal, now or hereafter held for the benefit of the bodies, offices, and officers whose duties, powers, purposes, responsibilities, and jurisdiction are transferred to and vested in the Department of Education.

33308. The Department of Education shall administer and enforce all laws now or hereafter imposing any duty, power, or function upon any of the bodies, offices, officers, deputies, or employees transferred to the Department of Education under the provisions of Section 33306.

33309. In addition to the Division of Libraries of the Department of Education, established by law, the State Board of Education may, upon recommendation of the Director of Education, establish such divisions as in the judgment of the board are necessary for the proper transaction of the business of the department.

33310. With the approval of the Department of General Services, the Department of Education may fix the price for the sale of any bulletin or publication of the department, or any institution of the department.

33311. When the Department of Education fixes the price of any publication, it shall specify the class of persons or institutions that may receive copies of the publication free of charge.

33312. Any county, or any school district, in this state may

purchase the publications described in Sections 33309 to 33313, inclusive, from the Department of Education.

33313. All moneys received from the sale of publications shall be deposited in the State Treasury to the credit of the fund against which the cost of printing the publication was charged.

33314. The State Board of Education may, upon recommendation of the Director of Education, establish in the Department of Education a school library consultant service to assist and advise local school districts in the establishment, development, and improvement of school libraries in the elementary and secondary schools of the state.

33316. The Department of Education shall:

- (a) Revise and update budget manuals, forms and guidelines.
- (b) Cooperate with federal and state agencies in prescribing rules and regulations, and instructions required by such agencies.
- (c) Assess the needs and methods of collecting and disseminating financial information.
- (d) Conduct workshops and conferences for the purpose of training school district and county personnel.
- (e) Provide consultant services to colleges and universities on courses of instruction relative to school budgets and accounting practices.

33317. The Department of Education shall cooperate with the Educational Management and Evaluation Commission and shall as requested by the commission:

- (a) Prepare and compile agenda items and research materials for the commission.
- (b) Prepare and direct the execution of any provisions of agreements entered into by the commission for the formulation of a program budgeting and accounting system.
- (c) Organize pilot projects for testing any program budgeting and accounting system.
- (d) Recommend any change or revision of law necessary to effectuate any program budgeting and accounting system.
- (e) Promote any program of budgeting and accounting system through cooperative working arrangements with interested public and private agencies and associations.
- (f) Coordinate the budgeting and accounting activities of interested public and private agencies and associations.

## Article 2. Finances

33330. The department may expend the money in any appropriation, or in any special fund in the State Treasury now remaining or made available by law for the administration of the provisions of any of the statutes enumerated in this article or for the use, support, or maintenance of any board, commission, office, or officer that is abolished by the provisions of former Section 361, and whose duties, powers, and functions are, by the provisions of Section

33306, transferred to and conferred upon the Department of Education, excepting that the funds of the State Board of Education in respect to functions retained by it, including such funds as are now or may hereafter be entrusted to the State Board of Education for administration, and the funds of the Superintendent of Public Instruction shall be administered as heretofore.

33331. The Department of Education may expend the moneys in any appropriation heretofore or hereafter made for the support of the State Board of Education.
