54480. From moneys specially appropriated therefor by the Legislature, grants shall be made to school districts pursuant to this article for projects approved by the Director of Compensatory Education involving a particular school or schools to be expended for the employment and in-service education of teachers in grades kindergarten or 1 through 6, with special emphasis on kindergarten and primary grades, and any needed teacher materials and supplies to the end that the number of pupils in these grades in relation to each full-time equivalent classroom teacher in the particular school will be reduced to a ratio of 25 to 1.

For purposes of this article a full-time equivalent classroom teacher is a person employed in a position requiring certification qualifications and whose duties require him to teach pupils in regular day classes for the full time for which he is employed during the regular schoolday. In computing the total number of full-time equivalent classroom teachers, there shall be included, in addition to

the employees defined in the preceding sentence, the full-time equivalent of all fractional time for which employees in positions requiring certification qualifications are required to devote to teaching pupils in regular day classes during the regular schoolday.

54481. It is the intent and purpose of the Legislature that the money appropriated for the purposes of this article be expended primarily for the employment of teachers to the end that the number of pupils in the designated grades in relation to each full-time equivalent classroom teacher be reduced to and sustained at a ratio of 25 to 1. Emphases shall be placed on kindergarten and primary grades for the purpose of continuing to provide small classes for children with preschool experiences. The Director of Compensatory Education shall consider this intent in approving projects submitted pursuant to this article. In the event an applicant district is unable to employ the number of teachers necessary to effect the purposes of this article, the Director of Compensatory Education, notwithstanding the provisions of Section 54480, is authorized to approve projects that provide for the employment of noncertificated teachers' aides for grades kindergarten or 1 through 6, inclusive, to the end that the number of pupils in those grades in relation to the number of both classroom teachers and teachers' aides employed for such grades shall not exceed 20 to 1. All teachers' aides shall be trained in a specially designed in-service education program. Not more than 25 percent of the total allocated to a school district shall be devoted to the employment of teachers' aides. The use of any portion of the total allocated shall be approved for the employment of noncertificated teachers' aides by the Director of Compensatory Education only upon certification of the applicant district, approved by the county superintendent of schools which has jurisdiction over the applicant district, that teachers are unavailable for employment in accordance with the primary legislative intent of this article.

54482. Noncertificated teachers' aides employed under this article shall be under the immediate supervision and direction of certificated classroom teachers and shall not be utilized to carry out administrative duties other than those administrative duties which may be assigned by the classroom teacher.

A school district may employ as a teachers' aide any person determined to be qualified, including pupils in attendance in grades 11 and 12 in high schools, and students in attendance in community colleges and in colleges and universities. The employment may be on a regular full-time, or on a part-time basis. The employment of pupils in attendance in grades 11 through 14, in public high schools and community colleges, shall be arranged so that no reduction in attendance credit and State School Fund apportionments results therefrom. Teachers' aides shall be compensated by the employing school district at a rate no lower than the federal minimum hourly wage for time in which service was actually performed. A person employed as a teachers' aide shall be under the direct supervision of a certificated employee of the school district for no less than 75

percent of the time for which he is engaged in the performance of the duties during any day. The employment of college and university students as teachers' aides may, where appropriate, be undertaken for student teaching credit purposes.

54483. The Director of Compensatory Education, acting pursuant to rules and regulations adopted by the State Board of Education, upon the advice of the Directors of the Departments of Finance, Social Welfare, Human Resources Development, and Industrial Relations, shall designate the most concentrated areas of poverty and social tension in the state, taking into consideration such factors, among others, as the high incidence of poverty and low family and per capita incomes, unemployment, juvenile delinquency, persons receiving assistance under the program of Aid to Families with Dependent Children, and especially the low level of academic achievement by pupils in the public schools.

The Director of Compensatory Education shall allocate the funds available for programs under Section 54480 proportionately by public school population among the areas designated by him. He shall then approve projects proposed to be undertaken by school districts within such areas at particular schools with the highest concentrations of low-income children and with the lowest records of academic achievement. Funds not fully utilized in one designated area may be reallocated to the other designated areas. Upon the request of a school district, the Director of Compensatory Education may authorize funds to be used outside the designated areas to serve children from the designated areas.

54484. Apportionments for purposes of this article shall be made upon order of the Superintendent of Public Instruction and by warrant of the State Controller. Moneys apportioned shall be expended precisely as directed by the Director of Compensatory Education, with not more than five percent (5%) of the total apportionments expended for in-service education.

54485. Apportionments to a school district shall be in the form of grants, no part of which shall be required to be matched by a district as a condition to receiving state aid under this article.

In making allocations pursuant to this article the Director of Compensatory Education shall use an allocation factor equivalent to the average statewide teacher salary per full-time equivalent classroom teacher.

54486. The Director of Compensatory Education shall require that the class size reduction project undertaken pursuant to this article be coordinated with and be an integral part of the school district's overall compensatory education plan and evaluation report, and that a significant portion of all funds which may be received by a district for purposes of this chapter shall be devoted to the purposes of this article.

54487. Programs or projects pursuant to this article within a school district shall be deemed a program of compensatory education or an element thereof, and, except as otherwise specifically provided

in this article, shall be subject to all of the other provisions of this chapter.

Rules and regulations adopted by the State Board of Education for purposes of this chapter shall provide for the implementation of this article in all respects.

#### Article 6. Preschool Followthrough Programs

54520. It is the intent and purpose of the Legislature by this article to ensure that the instructional program in the early elementary grades in the public schools will complement preschool programs and reinforce the benefits afforded children who have participated therein, and will be directed to maintaining and raising the levels of educational achievement and potential of such children.

Preschool followthrough programs and projects conducted pursuant to this article shall comprise an essential component of compensatory education, and shall be included among and coordinated with other components of compensatory education programs. Except as otherwise specifically provided by this article, such programs and projects shall be subject to all other provisions of this chapter.

54521. From funds which may be appropriated therefor by the Legislature, or from federal funds which may be made available for the purpose, grants may be made to applicant school districts which have established projects or programs pursuant to this article. No matching-fund requirements shall be imposed as a condition upon entitlement to any such grant, unless otherwise required for purposes of establishing eligibility for federal funds. The grants shall be disbursed upon order of the Superintendent of Public Instruction and by warrants of the State Controller. Eligibility for grants and the expenditure thereof by the recipient school district shall be provided for by standards and requirements prescribed in rules and regulations of the State Board of Education.

54522. In accepting federal funds which may be made available for purposes of this article the people of the State of California agree to accept and comply with all conditions and requirements which may be prescribed in connection therewith by or under the authority of federal law.

The State Board of Education is designated as the state educational agency which shall carry out the purposes and provisions of any federal statute under which federal funds may be provided for purposes of this article. The board shall formulate and submit to the United States Commissioner or other designated federal officer or agency any state plan which may be required for such purposes, and shall have the power to revise and amend the same, as required, and shall have overall control and direction of its administration.

54523. Under the direction of the State Board of Education evaluations shall be made of the instructional programs provided in grades kindergarten, 1, 2, and 3 in selected elementary schools in the

state in which are enrolled substantial numbers of pupils who have participated in preschool programs. The evaluations shall be directed to making determinations concerning the matters following:

(a) The extent to which the instructional programs complement the preschool training, reinforce the benefits afforded the children by participation therein, and effect continuity in the efforts to raise the level of educational attainment and potential of the children. For such purposes the State Board of Education may prescribe and direct a system of evaluation.

(b) The particular elements or components of the educational programs which should be emphasized or accelerated to accomplish the purposes specified in subdivision (a), or the particular elements and components which might be incorporated into the instructional programs to accomplish such purposes.

54524. The State Board of Education shall provide for the establishment of pilot preschool followthrough programs and projects in schools maintaining grades kindergarten, 1, 2, and 3 at the elementary level. The programs and projects shall be subject to the provisions of Section 54461.

54525. Pilot preschool followthrough programs and projects shall serve disadvantaged minors in kindergarten, and grades 1, 2, and 3, who have participated in preschool programs conducted pursuant to this chapter or pursuant to any other law of this state, or pursuant to federal law under which funds are provided for the programs, and shall include, to the extent that funds are available, any one or more of the following elements and components (in addition to others which may be determined to be essential under Section 54523):

(a) Reduction of pupil-teacher ratios. Reduction of such ratios to 20 to 1, or lower, at the kindergarten level, and to 25 to 1 or lower in grades 1, 2, and 3 at the elementary level, shall be the basic standards to which such efforts shall be directed.

(b) Establishment of single-session kindergarten programs, with the individual classroom teacher to be responsible for one, rather than two kindergarten classes.

(c) Utilization of teacher aides and other supporting staff personnel.

(d) In-service professional study involving instruction and orientation of school district personnel, with emphasis on developing a better understanding of the disadvantaged children and their educational needs, and developing particular teaching techniques to meet those needs.

(e) Development of curricula and educational aides to meet the educational needs of disadvantaged children, with emphasis upon improving comprehension of, and facility in, the language, and cultural enrichment, and including the development of new approaches to the teaching of academic subjects which will enhance abstract thinking and sharpen the cognitive skills.

(f) Providing comprehensive health services, including medical

and dental examinations, programs in nutrition, psychological counseling and speech therapy.

(g) Experimentation in grouping of children to realize the maximum benefits for children.

54526. Pilot preschool followthrough programs and projects shall be established on the basis of a geographical dispersion throughout the state which is most appropriate for purposes of this article, as determined by the State Board of Education. The programs and projects shall serve as demonstration models for other school districts in the state in the coordination of prechool, kindergarten and elementary grade instrucional programs for the benefit of disadvantaged minors.

54527. Each school district maintaining a program or project pursuant to this article shall, at the times and in the form and manner prescribed by the Superintendent of Public Instruction, but no less than once each year, submit reports thereon.

54528. For purposes of securing consultative services in evaluating instructional programs in grades kindergarten and 1, 2, and 3, and in formulating pilot preschool followthrough programs and projects, the Director of Compensatory Education may appoint and direct the work of a professional task force on preschool followthrough programs, to serve as employees within the Department of Education.

54529. Federal funds which may be provided for purposes of this article shall bear all the costs of the administration of the provisions of this article by the State Board of Education and the Department of Education.

## CHAPTER 9. MISCELLANEOUS PROGRAMS

### Article 1. Education Improvement Act of 1969

54600. This chapter may be cited as the Educational Improvement Act of 1969.

54601. It is the intent of the Legislature that the funds provided by this chapter and the funds provided through Title I and Title III of the Elementary and Secondary Education Act of 1965, the Miller-Unruh Basic Reading Act of 1965 (Chapter 2 (commencing with Section 54100) of this part, Article 3 (commencing with Section 60640) of Chapter 5 of Part 33 of this division), and Chapter 106 of the Statutes of 1966, First Extraordinary Session, be expended in the most effective way possible, and that cost effectiveness measures be employed in the approval and evaluation of all projects. It is the further intent of the Legislature that all projects be evaluated annually as to the degree of program achievement and cost effectiveness produced; that highly effective projects shall be expended to further use in the district where operated and in other districts; and that less effective projects be replaced with ones of proven effectiveness, or by new projects which hold promise of high

effectiveness.

It is the intent of the Legislature that the effectiveness of a project be measured in terms of the objectives of the project, and that each district should be primarily concerned with the pupils' improvement in ability to read, to use and understand the English language, and to use and understand the concepts of mathematics.

The Legislature intends that each project be evaluated annually by the Department of Education to determine and identify its relative effectiveness; that such evaluation shall be assisted by an advisory committee competent to assess the effectiveness of the results of the project, and to make recommendations to the Department of Education and to the State Board of Education on projects to be expanded in use and those that should be modified or replaced to produce greater effectiveness.

54602. In approving projects under this chapter, or projects under Titles I and III of the Elementary and Secondary Education Act of 1965, the Miller-Unruh Basic Reading Act of 1965 (Chapter 2 (commencing with Section 54100) of this part, Article 3 (commencing with Section 60640) of Chapter 5 of Part 33 of this division), and Chapter 106 of the Statutes of 1966, First Extraordinary Session, the State Board of Education shall give due consideration to the effectiveness of the project and shall not continue in operation any project that, upon evaluation, has been shown to be of low effectiveness, and which has only a limited possibility of improved effectiveness.

54603. From moneys provided pursuant to subdivision (h) of Section 41301, the Superintendent of Public Instruction shall compute an allowance for each school district which meets each of the following requirements:

(a) The district, during the preceding fiscal year, had an average daily attendance, exclusive of the average daily attendance of adults, as adults are defined by Section 52610, of 500 or more.

(b) The entitlement for the district for funds under Title I of the Elementary and Secondary Education Act of 1965 for the preceding fiscal year for each unit of average daily attendance, exclusive of the average daily attendance of adults, as adults are defined by Section 52610, exceeds 150 percent of the statewide average entitlement.

For the purposes of this section, the average daily attendance of pupils in grades 7 and 8 attending a junior high school maintained by a high school district shall be credited to the high school district.

54604. The allowance for each eligible district under Section 54603 shall be computed pursuant to the provisions of Sections 54605 to 54610, inclusive.

54605. (a) The Superintendent of Public Instruction shall compute for each eligible district the actual amount of entitlement for the district for funds under Title I of the Elementary and Secondary Education Act of 1965 for the preceding fiscal year, per unit of average daily attendance, exclusive of the average daily attendance of adults, as adults are defined in Section 52610, during

the preceding fiscal year.

(b) He shall determine the lowest amount per unit of average daily attendance computed for any district in the state under subdivision (a). This amount shall be assigned the weighting value of 1.00. A weighting value for each other district shall be computed by dividing the amount per unit of average daily attendance computed under subdivision (a) by the lowest amount per unit of average daily attendance computed under this subdivision.

54606. (a) The Superintendent of Public Instruction shall determine the current tax rate as defined by Section 17604 for each eligible district, by type of district.

(b) He shall determine the lowest current tax rate in effect for each type of eligible district. Such lowest current tax rates shall be assigned the weighting value of 1.00 respectively.

(c) A weighting value for each other district current tax rate shall be computed by dividing the current tax rate for each district determined under subdivision (a) by the lowest current tax rate for each type of district determined under subdivision (b).

54607. (a) The Superintendent of Public Instruction shall determine the average achievement testing scores in terms of state percentiles in elementary school districts for grades 1, 3, and 6 or 8, whichever is the last grade in the particular elementary school within the school district, in high school districts for grade 12, and in unified school districts for grades 1, 3, 6 or 8, whichever is the last grade in the particular elementary school within the school district, and 12, as measured by the 1966-1967 statewide administered achievement tests.

(b) He shall compute the reciprocal value for each district achievement test score determined in subdivision (a).

(c) He shall determine the lowest reciprocal value for achievement test scores under subdivision (b). Such lowest reciprocal value shall be assigned the weighting value of 1.00.

(d) A weighting value for achievement test scores for each other district shall be computed by dividing the reciprocal value for each district determined under subdivision (b) by the lowest reciprocal value for achievement test scores determined under subdivision (c).

54608. The Superintendent of Public Instruction shall determine the composite weighting value for each district, by multiplying together the weighting values computed for each district pursuant to Sections 54605, 54606, and 54607.

54609. The Superintendent of Public Instruction shall compute for each eligible district a weighted average daily attendance by multiplying the composite weighting value for the district determined in Section 54608 by the number of units per average daily attendance, exclusive of the average daily attendance of adults, as adults are defined by Section 52610, of the district.

54610. The Superintendent of Public Instruction shall compute the entitlement for each district by dividing the total of the amount appropriated for the purposes of this chapter by the sum of the

weighted units of average daily attendance computed for all districts under Section 54609, and multiplying the quotient by the weighted average daily attendance for the district.

54611. The governing board of any district for which an allowance was computed under Section 54604 may apply to the Superintendent of Public Instruction for an apportionment of a part or all of the allowance computed for the district. The application shall contain a detailed plan or plans for the use of the allowance. The plan or plans shall be submitted in accordance with the provisions of Article 2 (commencing with Section 54420) of Chapter 4 of this part. The State Board of Education may adopt rules and regulations relating to the form and content of applications and procedures for review and approval thereof.

54612. Under the direction of the Superintendent of Public Instruction, the programs authorized by this chapter shall be administered by the Office of Compensatory Education. The Director of Compensatory Education shall insure that the programs of educational improvement maintained by eligible schools are coordinated with the district's ongoing program of compensatory education and the Miller-Unruh Basic Reading Act of 1965, prescribed in Chapter 2 (commencing with Section 54100) of this part, Article 3 (commencing with Section 60640) of Chapter 5 of Part 33 of this division.

54613. It is the intent of the Legislature that amounts allowed pursuant to this chapter be expended exclusively for purposes of the programs authorized by this chapter. The Department of Education shall, for purposes of this chapter, prescribe a system of accounts and records to be used by school districts participating in programs authorized by this chapter which will clearly reflect the relationship between amounts provided for such purposes and the amounts expended therefor.

54614. Applications shall be subject to the approval of the State Board of Education. Upon approval by the State Board of Education, the Superintendent of Public Instruction shall certify an apportionment or apportionments to the Controller in accordance with procedures established by the State Board of Education. The Controller shall draw warrants on the State Treasury in the amounts certified in favor of the county treasurer of the county which has jurisdiction over the applicant school district. The county treasurer shall immediately credit the general fund of the applicant school district exactly as apportioned by the Superintendent of Public Instruction.

## Article 2. School Improvement Act of 1970

54630. This chapter shall be known and may be cited as the School Improvement Act of 1970.

54631. It is the intent of the Legislature that program improvement schools be established throughout the state in not

more than five separate schools in different districts, and in not more than all of the schools in one elementary district, to offer educational programs which are developed by the director and staff of such schools in cooperation with representatives of the local community, including the parents of children served by the school. It is the further intent of the Legislature that the programs established under the provisions of this chapter be designed to facilitate an evaluation of the effectiveness of promising instructional methods, techniques, and staffing patterns that are intended to improve the level of pupil achievement in the areas of reading and mathematics.

54632. (a) A "program improvement school" is an elementary school, a junior high school, or a high school designated as such by the district and approved by the State Board of Education.

(b) A "community resource committee" is a committee appointed by the director of each program improvement school at least one-half of the membership of which is made up of parents of children participating in the program. The committee shall assist the director and his staff to plan and implement the educational program, identify community resources which could be utilized in the program, and inform the community of the proposed program. The membership of the community resource committee may include, in addition to parents of children participating in the program, but need not be limited to:

(1) Parents of other pupils served by the school.

(2) Pupils enrolled in the school.

(3) Representatives of the community college, campus of the California State University and Colleges, or university participating in the project.

(4) Other individuals representing business and industry, organized labor, and representatives of local law enforcement, welfare, and employment agencies.

(c) If a parent advisory committee has been established for the school pursuant to Title I of the Elementary and Secondary Education Act of 1965, the director may, at his election, designate it to serve as the community resource committee in lieu of the committee otherwise to be appointed pursuant to subdivision (b).

54633. A school may be designated a program improvement school when all of the following conditions are met:

(a) The school meets the criteria of Section 54483.

(b) The director of the school is appointed by the school district with the concurrence of the Superintendent of Public Instruction and the Director of the Office of Compensatory Education.

(c) The school has at least the staff for auxiliary and administrative services that would be present in an adequately staffed school.

(d) The governing board of the school district has delegated to the director of the program improvement school all powers, duties, and responsibilities related to the budget, curriculum, courses of study, pupil conduct, staffing, and class scheduling.

(e) The director of the proposed program improvement school

has appointed a community resource committee.

(f) The proposed program of educational improvement has been developed by the director and staff of the school in cooperation with an institution of higher education and has the concurrence of the community resource committee.

54634. Districts are encouraged to waive their existing administrative salary schedule for the individual proposed for the job of director in order to obtain an individual of demonstrated managerial talents who is committed to educational achievement.

54635. Any school may apply to establish a program improvement school provided all of the following conditions are met:

(a) Evidence that the proposed program improvement school meets the requirements of Section 54633, including evidence that the school district governing board has delegated to the director of the school all powers, duties and responsibilities defined in subdivision (d) of Section 54633.

(b) Evidence that the school district governing board intends to provide an entitlement for the proposed program improvement school to be allocated by the director for the development, implementation, and maintenance of the proposed program. The entitlement shall be equivalent to the total amount of resources from state and local funds which would otherwise be provided the school under the district's current budgeting procedures. The total amount of state support shall exclude state funds currently expended in the school under the provision of the Miller-Unruh Basic Reading Act, the Mathematics Improvement Program, and the State Compensatory Education Program.

54636. The application shall include a detailed plan for developing and implementing the proposed program including:

(a) A description of the proposed educational program, including the proposed staffing, class scheduling and instructional techniques, and a schedule for the implementation of the program.

(b) A description of the quantifiable achievement objectives of the proposed program.

(c) A description of the in-service training program to be provided by the teaching staff in the program improvement school, including evidence that the in-service training program has been cooperatively developed with an institution of higher education. Program improvement schools located in school districts which have established professional development programs authorized by Article 10 (commencing with Section 44630) of Chapter 3 of Part 25 of Division 3 of this title may utilize professional development centers for providing in-service training.

(d) Applications may also include the school's request for state and federal categorical aid funds which are deemed necessary to carry out the proposed program.

54637. The State Board of Education shall exempt from any and all provisions of the Education Code a program improvement school when, in the opinion of the director of the school, such provisions

would hinder the implementation and maintenance of the proposed program. Such exemption shall not decrease the district apportionment from the State School Fund. §

54638. For the purpose of state and federal categorical aid allocations, the program improvement schools shall be designated as school districts so that they may apply directly to the state for categorical aid funds to finance elements of the proposed program which could not be financed by the block grant authorized the school by the school district.

54639. The State Board of Education, on the advice of the Superintendent of Public Instruction and the Director of Compensatory Education, shall adopt rules and regulations necessary to implement the provisions of this chapter.

54640. The State Board of Education shall provide for the evaluation of the program improvement schools. The evaluation shall include an analysis of the improvement or lack of improvement in the achievement levels of pupils enrolled in the schools, the cost components of the instructional techniques and staffing arrangements utilized in effective programs, and the effectiveness of the community resource committees.

54641. Program improvement schools shall report to the State Board of Education the average scores of pupils in such schools on standardized achievement tests. In addition, the district in which the program improvement school is located shall report the average scores of pupils in other schools. The reports submitted by the program improvement schools and by the school district shall be compared to determine the amount of progress made by each pupil in the program improvement school and in nonprogram improvement schools for each year of instruction. The State Board of Education on the basis of such reports shall submit annually to the Legislature a comprehensive evaluation of the program, including a detailed analysis of the cost components of effective and ineffective programs.

54643. This chapter shall be administered by the Office of Compensatory Education.

54644. Persons employed to teach in and administer the program improvement schools shall be deemed to be on leave of absence from the school district whose employment they leave to accept employment in the program improvement school, and shall retain permanent status, or credit for service toward permanent status, in such school district during their employment with the program improvement schools. Such persons shall continue to be members of, and contribute to, the retirement system of which they were members at the time immediately prior to their employment in the program improvement schools.

54645. (a) Persons employed in the program improvement schools in positions not requiring certification qualifications shall be deemed to be on leave of absence from the school district whose employment they leave to accept employment in the program

improvement schools, and shall retain permanent status, or credit for service toward permanent status, in such school district during their employment with the program improvement schools. Such persons shall continue to be members of, and contribute to, the retirement system of which they were members at the time immediately prior to their employment in the program improvement schools.

(b) All sick leave, seniority, and other benefits to which they are entitled will be transferred with them to the program improvement school and transferred back to their school district upon termination of their leave of absence.

(c) Should their employment in the program improvement school be terminated for any reason, they shall be returned to the school district from which they are on leave of absence from and if a vacancy does not exist in the class from which they are on leave they shall have the right to displace an employee in that class with the least seniority in the class and who has less seniority than they do. Seniority, for the purposes of this section, shall mean the combined school district and program improvement school service.

### Article 3. The Elementary and Secondary School Dropout Prevention Act of 1969

54660. This chapter shall be known and may be cited as the Elementary and Secondary School Dropout Prevention Act of 1969.

54661. It is the intention of the Legislature that programs be established to reduce the number of children who do not complete their elementary and secondary education. Such programs are to be designed to develop and demonstrate effective educational practices for the reduction and prevention of dropouts in urban and rural schools with high concentrations of children from low-income families and with high dropout rates.

It is also the intention of the Legislature that all district, state, and federal programs related to dropout prevention be integrated and coordinated with the dropout prevention programs created by this article.

54662. As used in this article:

(a) "Dropout" means a person who withdraws from school enrollment, or is excluded from school by suspension or expulsion before completing his elementary and secondary school education.

This definition also includes students at the elementary or secondary level who are underachieving and who can be identified as potential dropouts.

(b) "Program" means an Elementary and Secondary School Dropout Prevention Program established pursuant to this article.

54663. Any school district may apply to establish a dropout prevention program. The application shall be submitted to the State Board of Education and shall contain a detailed plan which shall include all of the following:

(a) A description of the dropout prevention program proposed

including the innovative methods system, materials, or programs and performance objectives to be utilized which show promise of reducing the numbers of elementary and secondary children who do not complete their education.

(b) A description of the procedures to be established to coordinate the development and operation of programs with other local, state, and federal dropout prevention programs and with other public and private programs having the same or a similar purpose.

(c) A description of the evaluative techniques and objective measures to be utilized by the applicant school district to determine the reduction in the numbers of children who drop out of, or are excluded from, educational programs prior to achieving a proficiency required for graduation from high school.

(d) A description of the proposed educational and administrative staffing of the program.

(e) A description of the steps taken in the development of the proposed program including involvement of potential participants and their families.

(f) Evidence that the district has examined its existing dropout prevention programs supported from local, state, and federal funds with the Elementary and Secondary School Dropout Prevention Programs authorized by this article, and evidence that the district intends to integrate such effective programs into the programs authorized by this article to increase its overall expenditure for dropout prevention programs.

(g) Descriptive data indicating the district's dropout rate for the three years preceding the application for both elementary and secondary schools.

(h) Dropout prevention programs below grade 12 shall be designed longitudinally so as to extend into higher grades.

54664. In approving applications for program approval pursuant to this article, the State Board of Education shall give priority to the acceptable applications from (1) districts with the highest concentrations of children from families with an annual income of four thousand dollars (\$4,000) or less, and (2) districts which exceed the average statewide dropout rate.

54665. The State Board of Education shall adopt rules and regulations necessary to implement the provisions of this article.

The State Board of Education may grant waivers for any provision of the Education Code as may be necessary for the development of an effective dropout prevention program.

54666. School districts which have dropout prevention programs shall report to the State Board of Education the effectiveness of programs in reducing the number of school dropouts. The State Board of Education, on the basis of such reports, shall report annually to the Legislature on the success of the program and shall make recommendations to improve the program.

54668. The State Board of Education shall establish procedures for allocating funds to support the dropout prevention programs

authorized by this article.

54669. The Department of Education shall administer the provisions of this article and all programs financed under the provisions of Title VIII of the Elementary and Secondary Act of 1965 (Public Law 89-10, as amended).

54670. The State Board of Education shall approve the allocation of all funds annually received by the State of California under the provisions of Title VIII of the Elementary and Secondary Education Act of 1965 (Public Law 89-10, as amended) for the purposes specified in this article.

#### Article 4. Abstract Mathematics Program

54680. This article shall be known and may be cited as "The Abstract, Conceptually Oriented Mathematics Program Act."

54681. As used in this article:

(a) "Abstract, conceptually oriented mathematics" means mathematics which includes such general topics as algebra, number theory, set theory, elementary logic, coordinate geometry, combinatorics, and intuitive geometry and which are taught at secondary or college level of sophistication, with an approach aimed at the understanding of the underlying relationships and structure of mathematics.

(b) "Discovery method" means a mode of teaching that arrives at tentative answers through questioning and inductive reasoning.

(c) "Educationally needy children" means children who are enrolled in any school which meets the requirements for grants authorized by Title I of the Elementary and Secondary Education Act of 1965, as amended.

(d) "Elementary school" means a school organized to include any grades, or combination of grades, kindergarten and grades 1 through 8, inclusive.

(e) "Mathematics specialist" means a person who has at least the equivalent of 36 semester hour credits in mathematics or in the mathematical sciences from an accredited college or university.

54682. Any school district maintaining an elementary school which has a high percentage of educationally needy children, meeting the provisions of Title I of the Elementary and Secondary Education Act of 1965, as amended, is eligible for the abstract, conceptually oriented mathematics program prescribed in this article and may apply to the Superintendent of Public Instruction for approval of the establishment of such a program.

The number of school districts whose applications may be approved by the Superintendent of Public Instruction shall not exceed four.

54683. Abstract, conceptually oriented mathematics class sessions, consisting of at least 40 minutes, but not more than 60 minutes, each and utilizing the discovery method, shall be held not less than four times per week, provided that not more than one such

session shall be held per day per class with any grade placement from kindergarten through 6, inclusive.

54684. Abstract, conceptually oriented mathematics classes shall be in addition to regular mathematics classes for educationally needy children in participating elementary schools.

54685. In-service training of a local teaching staff shall be accomplished by having the regular classroom teacher present during the project class sessions. The mathematics specialist shall consult for at least one additional period per week with the school district staff involved in the project.

54686. The Superintendent of Public Instruction may contract with a nonprofit corporation which he determines to be most knowledgeable about such a program to carry out the provisions of this article, except the provisions of Sections 54682, 54687, 54688, and 54689, including, but not limited to, recruiting, training, selecting, placing, and supervising the mathematics specialists, coordinating all matters, and providing in-service training of local teaching staffs.

54687. The Superintendent of Public Instruction shall provide for an evaluation of the program prescribed by this article which shall include, but not be limited to, an assessment of its impact on the mathematics achievement of target pupils, and an analysis of changes in motivation, interest, and self-image among the same pupils. The Superintendent of Public Instruction shall contract with an independent, nonprofit agency to conduct all of the evaluation.

The contractual agreement between the Superintendent of Public Instruction, the independent, nonprofit agency, and the nonprofit corporation prescribed in Section 54686 shall specify the nature and frequency of the fiscal auditing of participating school districts. All costs for personnel, in-service education, and internal management shall be determined and included in the fiscal audit report.

The Superintendent of Public Instruction shall report at least annually the findings of such evaluations to the State Board of Education and to the Legislature.

54688. The program prescribed by this chapter shall be monitored by the Superintendent of Public Instruction to ensure that classes are staffed and conducted according to the contract prescribed in Section 54686. The Superintendent of Public Instruction shall withhold funding for classes that do not satisfy the contractual agreements for staffing, instruction, in-service training, data collection, accounting, and other program commitments.

The Superintendent of Public Instruction shall publish guidelines and directions for participating school districts which shall contain specific instructions for the systematic collection of necessary information.

54689. Funds appropriated to the Superintendent of Public Instruction for the purposes of this article shall, unless otherwise specified in such appropriation, be expended in accordance with the following schedule:

- (a) An amount not to exceed 12 percent of the appropriation shall

be used for the costs incurred by the Superintendent of Public Instruction in the administration of the programs prescribed by this article and for the costs of the evaluation of the program pursuant to Section 54687.

(b) The balance of the appropriation shall be available for the contracts prescribed in Section 54687, provided that not more than four thousand five hundred dollars (\$4,500) shall be allowed per class; however, the Superintendent of Public Instruction may increase this maximum amount for each fiscal year commencing with fiscal year 1973-1974 and thereafter by an amount determined by the application of the Consumer Price Index, all items, of the Bureau of Labor Statistics of the United States Department of Labor, measured by the calendar year next preceding the fiscal year to which it applies, to this maximum amount. The classes shall consist of not more than 35 students.

## PART 30. SPECIAL EDUCATION PROGRAMS

### CHAPTER 1. GENERAL PROVISIONS

#### Article 1. Reports on Handicapped Children

56000. As used in this article, "handicapped children" means any of the following:

(a) Physically handicapped pupils as defined in Chapter 5 (commencing with Section 56700) of this part.

(b) Mentally retarded pupils as defined by Sections 56500 and 56501.

(c) Severely mentally retarded pupils as defined by Sections 56500 and 56515.

(d) Educationally handicapped pupils as defined in Chapter 4 (commencing with Section 56600) of this part.

(e) Multihandicapped pupils which refers to any combination of (a), (b), (c), or (d).

56001. To compile sufficient information regarding handicapped children in order to assure these children of educational programs, on or before April 30, 1968, and April 30 of each year thereafter, the governing board of each school district shall make a report to the county superintendent of schools with jurisdiction over the district of each of the handicapped children who fall within any of the following categories for the fiscal year for which the report is made:

(a) Each handicapped child who is participating in a special class, school, or program of the school district for handicapped children.

(b) Each handicapped child who is not within the purview of subdivision (a), but whose parent, parents, guardian or other person having control or charge of the child applied to the school district for enrollment of the child in a special class, school, or program of the district for handicapped children. If the child was denied enrollment, the report shall so state. As used in this subdivision "applied" includes

an interview by school personnel of the district of the parent, parents, guardian or other person having charge of the child.

56002. The report required by subdivision (a) of Section 56001 may be limited to the particular programs in which pupils are participating and the numbers which are participating in each. The report required by subdivision (b) of Section 56001 shall contain all of the following information relative to each of the handicapped children reported:

(a) Name.

(b) Address.

(c) Date of birth.

(d) Names of the parent, parents, guardian or other person having control or charge of the child.

(e) Handicaps of the child insofar as they are known to the school district.

(f) Special class, school, or program, if any, in which the child is enrolled, with a statement of any suspensions of 10 days or more or expulsions from such special class, school or program suffered by the child.

56003. On or before June 30, 1968, and June 30 of each year thereafter, the county superintendent of schools of each county shall report for the fiscal year in which the report is made, to the Superintendent of Public Instruction, all of the handicapped children in the area under his jurisdiction who fall within the categories specified by Section 56000, including each of those handicapped children who are participating in a special class, school, or program provided by the county superintendent of schools, and each of those handicapped children who are not so participating, but for whom application for enrollment therein was made by the parent, parents, guardian or other person having charge or control over the child.

The report required pursuant to this section shall contain all of the information required by Section 56002 relative to each child reported, and in addition shall specify the school district which submitted such information to the county superintendent of schools pursuant to Section 56001.

56004. The governing board of each school district shall adopt rules and regulations to require the officers and employees of the district to gather the information required to be reported to the county superintendent of schools by this article.

56005. The Superintendent of Public Instruction shall adopt rules and regulations specifying the form of the reports required of school districts and the county superintendent of schools by this article.

## Article 2. Experimental Programs

56020. It is the intent of the Legislature, in enacting this section, to encourage school districts and county superintendents of schools to design, implement, and evaluate innovative, exemplary education

and training programs for the exceptional pupils enrolled in the public schools of this state. Therefore, the Superintendent of Public Instruction is hereby granted broad administrative discretion to approve exemplary experimental programs to operate at variance with Sections 46143, 46511, Sections 56600 to 56617, inclusive, Sections 56700 to 56725, inclusive, Sections 56800 to 56831, inclusive, Section 56833, Chapter 8 (commencing with Section 52200) of Part 28, Article 10 (commencing with Section 56160) of Chapter 1, Article 1 (commencing with Section 56500) of Chapter 3 of Part 30 of this division.

Such variance may include the guarantee of full apportionment for approved experimental programs which vary from maximum class size or duration or both and other provisions relating to deriving apportionment per average daily attendance when in the opinion of the Superintendent of Public Instruction the quality and innovativeness of the experimental program warrants.

Enrollment in experimental programs for exceptional pupils shall be limited to any combinations of children enrolled in programs for exceptional pupils as specified in this section, at the time of application for approval to operate the experimental program. In any event, no more than 5 percent of the statewide enrollment of exceptional pupils in each of the programs included in this section may be enrolled in experimental programs in a given fiscal year.

The State Board of Education shall adopt rules and regulations relating to the application for, operation of, and evaluation of, exemplary experimental programs for exceptional pupils.

### Article 3. Education for Exceptional Children for Whom No Public Facilities Are Available

56030. It is the intent and purpose of the Legislature in enacting this article to provide special educational facilities and services to exceptional children who, because the school district or county superintendent of schools of the county in which they reside has no appropriate special education facilities and services or they cannot reasonably be provided to fit their needs, or because the State of California has no facilities to educate them, are unserved by this state's school system or by state institutions or agencies. It is the further intent and purpose of the Legislature to provide the Department of Education with broad administrative discretion, consistent with the needs of exceptional children and the intent of this article, in carrying out its responsibilities under this article. The Superintendent of Public Instruction may adopt rules and regulations consistent with this article which he deems necessary for the effective administration thereof.

(a) As used in this article:

(1) An educationally handicapped pupil means an educationally handicapped pupil as defined by Chapter 4 (commencing with Section 56600) of this part.

(2) A physically handicapped pupil means a physically handicapped pupil as defined by Chapter 5 (commencing with Section 56700) of this part.

(3) A mentally retarded pupil means a mentally retarded pupil as defined by Sections 56500 and 56501.

(4) A severely mentally retarded pupil means a mentally retarded pupil as defined by Sections 56500 and 56515.

(5) A multihandicapped pupil as determined by the Superintendent of Public Instruction means a pupil with any combination of handicaps described above in paragraphs (1), (2), (3), and (4).

(6) Exceptional children includes all pupils defined in paragraphs (1) to (5), inclusive, of this subdivision.

(b) "Special educational facilities and services" means:

(1) In the case of an educationally handicapped pupil, the special educational facilities and services specified in Chapter 4 (commencing with Section 56600) of this part.

(2) In the case of a physically handicapped pupil, the special educational facilities and services specified in Article 1 (commencing with Section 56700) of Chapter 5 of this part and Sections 1850 to 1855, inclusive.

(3) In the case of a mentally retarded pupil, other than a severely mentally retarded pupil, the special educational facilities and services specified in Sections 1880 and 56501, insofar as applicable.

(4) In the case of a severely mentally retarded pupil, the special educational facilities and services specified in Sections 1880 and 56515, insofar as applicable.

(5) In the case of a multihandicapped pupil, the special educational facilities appropriate to the pupil's handicaps as determined by the county superintendent of schools.

56031. With the approval of the county superintendent of schools, any school district having a physically handicapped pupil, mentally retarded pupil, severely mentally retarded pupil, or multiply handicapped pupil for whom special education facilities and services as prescribed by Section 56030 are not available or cannot be reasonably provided, and for whom the State of California has no appropriate special education facilities and services, shall, and any school district having an educationally handicapped pupil for whom special education facilities and services as prescribed by Section 56030 are not available or cannot be reasonably provided, and for whom the State of California has no appropriate special education facilities and services, may, in lieu of establishing and maintaining the needed special education facilities and services at an unreasonable cost to the district, pay to the parent or guardian of such pupil toward the tuition for such pupil, enrolled in a public or private nonsectarian school, institution, or agency within or outside of California offering the special education facilities and services made necessary by the pupil's disabilities, an amount not to exceed the sum per unit of average daily attendance of the regular state

apportionment to the district for the fiscal year in question, the amount allowable per unit of average daily attendance for the particular category under Section 41882, 41884, 41885, or 41886, and paragraph (a) of subdivision (2) of Section 41888 for educationally handicapped pupils who are diagnosed as being autistic, the amount allowable per unit of average daily attendance for the particular category under Section 41863, and the amount per unit of average daily attendance provided from revenue derived from district taxation for the current expense of education of a normal child in the schools of the district. The amount per unit of average daily attendance provided from revenue derived from district taxation shall be the local share of the revenue limit determined pursuant to Sections 42233, 42238, and 42244. As used in this article "tuition" includes the cost to the parent or guardian of transporting a pupil enrolled in a public or private nonsectarian school, institution, or agency under this section to and from school.

The provisions of this section shall be applicable as well to situations where the special educational facilities and services are available but are an unreasonable distance away from the home of the pupil. The Superintendent of Public Instruction shall adopt rules and regulations to implement the determination of the unreasonableness of such cost and distance, and any other rules and regulations deemed necessary by him for the effective administration of this chapter. The county superintendent of schools shall make a finding as to the unreasonableness of such cost or distance for the school districts within his jurisdiction and shall report such findings to the Superintendent of Public Instruction, who, if he approves such findings, shall authorize payments pursuant to this section and Sections 56034 and 56035.

The provisions of this section shall be applicable as well to situations where the public special educational facilities and services are available but the attending physician of the physically handicapped, mentally retarded, severely mentally retarded, multiply handicapped, or educationally handicapped pupil or the attending optometrist of the physically handicapped pupil who is blind or partially seeing, or of the educationally handicapped pupil with a visual-perceptual disorder, has recommended that it is in the best interests of the health and welfare of such pupil that the pupil be enrolled in a private nonsectarian school, institution or agency offering the special education facilities and services made necessary by the pupil's disabilities, and such recommendation has been approved by the county health officer and the county superintendent of schools on forms specified by the Superintendent of Public Instruction.

Priority in providing special education facilities and services shall be given to public school, or state-operated, programs. State and school district support for an exceptional child's education at a private nonsectarian school, institution, or agency shall be approved pursuant to this chapter only if no publicly operated programs are

available to the pupil within a reasonable distance from his residence, or if such programs do not meet the specialized needs of the pupil, as determined under the procedures established by this chapter. Priority in approving private nonsectarian schools, institutions, or agencies shall be given to the nearest such school, institution, or agency from where the parent or guardian of the exceptional child resides and which provides training and education as defined in Section 56030.

In instances where public funds are paid to the parent or guardian of a pupil pursuant to this section, toward the tuition of such pupil enrolled in a private nonsectarian school, institution, or agency, the school, institution, or agency enrolling such pupil shall at the end of each school year submit a written progress report on each such pupil on forms provided by the Superintendent of Public Instruction, and shall forward such forms to the county superintendent of schools of the county authorizing placement. Such reports shall be used by the county superintendents of schools to determine continued eligibility for placement and reimbursement under this chapter.

In no event shall the total of any allowances or apportionments of state funds be made to a school district in behalf of a pupil receiving an allowance pursuant to this section in excess of the total of such amounts which would have been allowed or apportioned to the district if the pupil were in attendance at a school in the district.

56032. Whenever an admission committee is established for the purpose of determining eligibility for the tuition payments authorized by this article, the parent or guardian of the pupil shall have the rights of representation prescribed by Sections 56503, 56612, and 56706.

56033. The parent or guardian of a pupil who has been denied admission and who qualifies for tuition payment pursuant to Section 56031 shall make written application to the school district for the tuition payment prescribed in Section 56031. Within 30 days after receipt of the application, the school district shall in writing grant or deny the application, with reasons stated in case of a denial. If the application is denied, the parent or guardian may appeal to the county superintendent of schools, who shall review the decision of the school district and shall within 30 days after receipt of the appeal, either affirm or reverse the school district's decision. If the county superintendent of schools reverses the school district's decision, a report and claim shall be made by the school district in which the pupil resides, pursuant to Sections 56034 and 56035. Thereupon the county superintendent of schools may place and contract for the placing of the exceptional child in another school district within or without the county or county offering special educational services. The superintendent may then transfer to the district or county wherein the child is placed the amount of state aid the placing district receives for that child pursuant to Section 56035. If the county superintendent of schools affirms the school district's decision, the parent or guardian may, within 10 days following receipt of the

county superintendent of schools' decision, further appeal to the Department of Education for reconsideration. Within 30 days following receipt of the appeal, the department shall, in writing either affirm or reverse the decision of the county superintendent of schools, and in the case of an affirmation, shall append a statement of reasons. If the department affirms the decision of a county superintendent of schools that decision shall be final. If the department reverses the decision of a county superintendent of schools not to grant the application, a report and claim shall be made by the school district in which the pupil resides, pursuant to Sections 56034 and 56035.

56034. A school district having any pupil receiving the benefits of special education facilities and services under the provisions of Section 56031 shall pay to the parent or guardian of such pupil a monthly amount on a current basis toward the cost of tuition of such attendance. The monthly payments shall be based on estimated amounts computed pursuant to Section 56031 or the monthly tuition charge, whichever is lesser. The district shall report the attendance of such pupil and submit a claim for the regular and special-purpose apportionment to be used as reimbursement to the district for payment to the parent or guardian of such pupil, through the county superintendent of schools to the Superintendent of Public Instruction. The aforementioned report and claim shall be submitted at the time and in the manner prescribed by the Superintendent of Public Instruction. The county superintendent of schools shall verify the attendance reported and claim submitted in the manner prescribed by the Superintendent of Public Instruction.

56035. Upon verification of the attendance reported and the claim submitted, the Superintendent of Public Instruction shall apportion to the school district submitting the report and the claim of the parent or guardian of such pupil for the tuition in question an amount sufficient to satisfy the claim but not in excess of the sum per unit of average daily attendance of the regular state apportionment to the district for the fiscal year in question and the amount allowable per unit of average daily attendance for the particular category under Section 41882, 41884, 41885, or 41886, and the amount allowable per unit of average daily attendance for the particular category under Section 41863. In the case of a multihandicapped pupil the amount apportioned shall not exceed the sum per unit of average daily attendance of the regular state apportionment to the district for the fiscal year in question, the amount allowable per unit of average daily attendance under Section 41882, and the amount allowable per unit of average daily attendance for the particular category under Section 41863. The apportionments for physically handicapped, mentally retarded and multihandicapped shall be made from the funds reserved under the provisions of subdivision (c) of Section 41301. The apportionment for educationally handicapped shall be made from funds reserved under the provisions of subdivision (g) of Section 41301. The apportionment shall be made

for each fiscal year immediately following the fiscal year in which the attendance occurs.

56036. No claim shall be satisfied by the Superintendent of Public Instruction for the education of an exceptional child under this chapter unless the school, institution, or agency which the child will attend meets minimum educational standards established by the State Board of Education pursuant to Section 56037.

56037. Except as otherwise provided in Section 56038, the State Board of Education shall adopt, by rules and regulations, minimum educational standards which shall be met by any school, institution, or agency enrolling an exceptional child under the provisions of this article. Such minimum standards shall relate solely to the educational program to be offered by the school, institution, or agency.

56038. A claim concerning the attendance of an exceptional child at any school, institution, or agency in which there are insufficient numbers of properly credentialed teachers but which otherwise offers an acceptable educational program shall not be disallowed pursuant to Section 56036, if:

(a) The Department of Education has determined that there is in the area served by the school, institution, or agency a shortage of properly credentialed teachers, and

(b) The Department of Education determines that the needs of the exceptional children to be served by the school, institution, or agency will be more adequately served through an education at the school, institution, or agency than they would be if the children remain in their existing educational environments.

At such time that the Department of Education determines that there is in the area served by the school, institution, or agency a sufficient number of properly credentialed and employable teachers, the department shall require that properly credentialed teachers be employed by the school, institution, or agency before a claim may be satisfied for the education of an exceptional child at the school, institution, or agency.

This section shall apply only to a school, institution, or agency, enrolling an exceptional child under this chapter, which is situated in this state.

#### Article 4. Grants to Teachers of Physically Handicapped or Mentally Retarded Pupils

56050. The governing board of a school district or a county superintendent of schools, in order to assure having teachers qualified to teach physically handicapped and mentally retarded pupils enrolled in programs of special education maintained by such district or the county superintendent of schools, and any employee of the district or the county superintendent of schools holding a position requiring certification qualifications, or any certificated person under contract to the district or the county superintendent of schools to teach physically handicapped or mentally retarded

pupils, may enter into an agreement whereby the district or the county superintendent of schools may make a grant of financial assistance, in such amount not in excess of that specified in Section 56052, as they may in writing agree upon, for the said employee or certificated person under contract to undertake during the summers between academic school years specialized preparation to teach physically handicapped or mentally retarded minors as required by law and State Board of Education regulations.

56051. Not later than October 31 of each year the Superintendent of Public Instruction shall allow to each school district or county superintendent of schools making grants to employees or certificated persons under contract pursuant to the provisions of this article an amount sufficient to reimburse each such district or county superintendent of schools for the total of such grants made during the summer immediately preceding pursuant to the provisions of Section 56052.

56052. The amount of reimbursement allowed a school district or county superintendent of schools pursuant to Section 56051 for each such grant for specialized preparation undertaken during any given summer by any given employee or certificated person under contract shall not exceed the product of the number of semester hours taken in any given summer and fifty dollars (\$50). The total amount of reimbursement allowed for all such grants to any given employee or certificated person under contract undertaking such specialized preparation shall not exceed the product of the number of semester hours of specialized preparation required by law and State Board of Education regulations for the credential to teach the category of physically handicapped or mentally retarded pupils being sought and fifty dollars (\$50). No more than five years shall elapse between the first and final allowance in reimbursement of such grants for any given employee or certificated person under contract except by approval of the Superintendent of Public Instruction upon the recommendation of the governing board of the school district or the county superintendent of schools of such employee or certificated person under contract.

56053. The Superintendent of Public Instruction shall, upon approval of the State Board of Education, establish rules and regulations for the administration of the provisions of this article.

#### Article 5. Loans to Teachers of Educationally Handicapped Pupils

56060. In order to assure having for the ensuing year certificated personnel qualified to teach educationally handicapped pupils, as defined in Section 56600, enrolled in programs of special education maintained by a school district or a county superintendent of schools, the governing board of the school district or the county superintendent of schools may enter into an agreement with any employee holding a position requiring certification qualifications

who teaches, or any certified person under contract to teach, educationally handicapped pupils for the ensuing school year for the school district or the county superintendent of schools, whereby the school district or the county superintendent of schools may make a loan of financial assistance, in such amount not in excess of that specified in Section 56062, as they may in writing agree upon, for such employee or certificated person under contract to undertake during the summers between academic school years specialized preparation, including courses, workshops, or specialized offerings, to teach educationally handicapped pupils, as approved by the Superintendent of Public Instruction.

56061. Not later than October 31 of each year, the Superintendent of Public Instruction shall allow, out of funds appropriated to the Department of Education for the purpose, to each school district or county superintendent of schools making loans pursuant to the provisions of this article an amount sufficient to reimburse each such district or county superintendent of schools for the total of such loans made during the summer immediately preceding pursuant to the provisions of Section 56062.

56062. The amount of reimbursement allowed a school district or county superintendent of schools pursuant to Section 6791 for each such loan for specialized preparation undertaken during any given summer by any given employee or certificated person under contract shall not exceed the product of the number of semester hours taken in any given summer multiplied by fifty dollars (\$50). The total amount of reimbursement allowed for all such loans to any given employee or certificated person under contract undertaking such specialized preparation shall not exceed the product of 30 semester hours multiplied by fifty dollars (\$50). No more than five years shall elapse between the first and final allowance in reimbursement of such loans for any given employee or certificated person under contract.

56063. Loans made pursuant to this article shall be repaid to the Department of Education pursuant to rules and regulations adopted by the Superintendent of Public Instruction.

There shall be allowed a 20-percent credit in the repayment of a loan for each year the recipient of the loan teaches educationally handicapped minors.

56064. The Superintendent of Public Instruction shall establish rules and regulations for the administration of the provisions of this chapter and shall employ personnel necessary for the efficient administration of this article and Article 4 (commencing with Section 56050) of this chapter.

#### Article 6. Occupational Training for Physically Handicapped and Mentally Retarded Pupils, Sheltered Workshops

56070. The State Board of Education may adopt rules and regulations governing the establishment and conduct of programs

for preparing physically handicapped and mentally retarded pupils enrolled in special day classes for suitable occupations. Such programs shall provide for physically handicapped and mentally retarded pupils under the age of 21 years who are unable to profit by courses of work experience education as provided in Article 7 (commencing with Section 51760) of Chapter 5 of Part 28 of this division.

56071. For the purposes of this article, "minor" means any person under 21 years of age notwithstanding Section 25 of the Civil Code or any other provision of law.

56072. School districts and county superintendents of schools may contract with sheltered workshops and other work establishments approved for supervised occupational training of physically handicapped and mentally retarded pupils under the age of 21 years, and reimburse such sheltered workshops and work establishments for the expenses incurred in the training of such pupils.

The Superintendent of Public Instruction shall reimburse school districts and county superintendents of schools for the cost per pupil per year, or fraction thereof, for the services provided by sheltered workshops and work establishments.

Such reimbursement shall be the cost of such service not to exceed six hundred fifty dollars (\$650) per year, less the share of the school district or county superintendent of schools, as determined pursuant to rules and regulations adopted by the State Board of Education.

56073. The governing board of any school district, or the county superintendent of schools of any county, maintaining secondary schools may enter into contracts with the governing boards of other such school districts, or with a county superintendent of schools, and with any department or agency of the state to obtain or provide services and other assistance necessary in connection with providing effective rehabilitation services, to include but not limited to occupational training, mobility training, sheltered workshops and work-experience programs.

Any school district governing board, or the county superintendent of schools of any county, which enters into a contract with the State Department of Rehabilitation under this section may employ, or allow to be employed, in the school district or with a county superintendent of schools, employees of the State Department of Rehabilitation or other persons not employed by the department but certified by the department to be fully qualified for such employment. A certification to the Department of Education by the State Department of Rehabilitation that the individual meets all the requirements and fulfills all the qualifications of that department for the position for which he is being considered shall serve as evidence that the individual meets the academic, professional and experience requirements for a services credential with a specialization in pupil personnel services as a rehabilitation counselor or mobility instructor for the blind, in accordance with requirements adopted by the Commission for Teacher Preparation and Licensing, which the

individual must obtain in order to render services in the public schools.

Notwithstanding any other provision of this code, when an individual is so certified by the State Department of Rehabilitation as qualified for employment, other teacher certification requirements required by this code or by Title V of the California Administrative Code shall be waived for that individual.

56074. County superintendent of schools, high school districts and unified school districts which do not have a sheltered workshop available to them within a reasonable commuting distance may sponsor or operate sheltered workshops or training centers for handicapped students and individuals eligible to attend high school or adult school, develop job-training situations based upon the capabilities of the individual by entering into contracts or subcontracts to produce goods for, and provide services for public and private agencies, private business and industry, and pay such students and individuals on a piece-rate basis from revenues derived from any source not otherwise prohibited by law, as regulated by state and federal wage and hour laws applicable to persons employed in a sheltered workshop.

56075. The governing board of a high school district or unified school district, the administration in charge of a regional occupational center or regional occupational program, or a county superintendent of schools, hereinafter referred to as the "agency" may establish and operate a sheltered workshop or new rehabilitation service. Prior to commencing such a sheltered workshop or new rehabilitation service, however, an agency shall publish, not less than 30 days before the commencement of such a workshop or rehabilitation service, its intention to operate a sheltered workshop or new rehabilitation service in a newspaper of general circulation within the area in which such sheltered workshop or new rehabilitation service will be commenced, or if there is no such newspaper, then in any newspaper of general circulation that is regularly circulated in the county in which such sheltered workshop or new rehabilitation service will commence. In addition, a copy of such publication, along with the pertinent details of the sheltered workshop or new rehabilitation service, shall be sent to the Department of Education and the State Department of Rehabilitation. Said departments may comment on the advisability of commencing such sheltered workshop or new rehabilitation service, or any other aspect of such sheltered workshop or new rehabilitation service deemed advisable, to the agency planning to commence such a sheltered workshop or new rehabilitation center and if commented upon, shall make their comments available to the public.

56076. As used in this article, "rehabilitation facility" is defined to mean an organization and physical facility, publicly, privately, or cooperatively sponsored, in which a program of integrated and coordinated services is offered. These services are provided for

emotional, developmental, social and vocational restoration or personal adjustment of adults and minors with handicaps and disabilities. The range of services may include, but not be limited to, evaluation, education, training, sheltered or extended employment and placement. A rehabilitation facility shall include, but not be limited to, a sheltered workshop, activity center, semisheltered workshop, and facilities which provide work skills development programs.

#### Article 7. Notice to Parents Prior to Placement

56130. No pupil may be required to participate in any special class or program unless the parent or guardian of the pupil is first apprised of the facts which make participation in the special program necessary or desirable.

56131. For the purposes of this article, "special class or program" includes any class or program for which a criterion for participation involves the physical or mental condition of the pupil, as defined by the State Board of Education, that would qualify him for placement in a special education program.

#### Article 8. Handicapped Minors From State Hospitals

56140. As used in this article:

(a) "Regional center or other local agency," means a regional center established pursuant to Chapter 3 (commencing with Section 38100) of Division 25 of the Health and Safety Code, or a local agency which performs the services of a regional center, and any local agency providing community mental health services for the mentally disordered pursuant to Chapter 1 (commencing with Section 5600) of Part 2 of Division 5 of the Welfare and Institutions Code.

(b) "Development center," means a development center for handicapped minors established pursuant to Sections 56800 to 56831, inclusive, and 56833.

(c) "County of placement," means the county providing the educational program, or the county in which the school district providing the educational program is located, and to which a minor has been or will be transferred from a state hospital.

(d) "Handicapped minor," means any minor coming within the definition of "handicapped children" in Section 56000 and, for purposes of this article, a mentally disordered minor, or any minor eligible for enrollment in a development center or in an educational program for handicapped minors maintained by a school district or a county superintendent of schools.

56141. When a handicapped minor between the ages of 3 and 18 is deemed to need an educational training program, the appropriate regional center or local mental health program shall send a notice to the county superintendent of schools of the county of residence of

such minor and to the county superintendent of schools of the county of placement where such minor is proposed to be transferred from the state hospital.

56142. After having received notification of the proposed transfer pursuant to Section 56141, the county superintendent of schools of the county of placement shall, within 30 days, certify to the Superintendent of Public Instruction and to the Director of Health whether or not appropriate public or private educational facilities and programs exist or are planned in the county for the minors proposed to be transferred.

56143. If appropriate public or private educational training facilities or programs are not available or are not planned in the county or counties of placement, the county superintendent shall report to the county mental health advisory board, the county mental health program or the regional center and the developmental disabilities area board, whichever is appropriate. This data shall be used in the development of the annual county mental health plan, or the annual developmental disabilities area plan, or in both such annual plans.

56144. The Superintendent of Public Instruction shall report annually to the State Board of Education and to the Commission on Special Education in the Department of Education the number of handicapped minors transferred from a state hospital to a regional center or other local agency, who are not currently enrolled in a public or private educational program.

56145. In the event that state apportionments authorized for pupils transferred to local jurisdictions requiring development center services for handicapped minors are insufficient to provide programs for all such eligible minors, the Superintendent of Public Instruction shall prepare a supplemental budget request to provide funds sufficient to apportion one dollar and seventy-five cents (\$1.75) per hour of attendance of each such eligible minor for operating costs of development centers pursuant to Section 56810 and six hundred seventy-five dollars (\$675) per each such unit of average daily attendance for the reimbursement of transportation expenses pursuant to Section 56830.

The Superintendent of Public Instruction shall furnish a copy of the budget to the appropriate developmental disabilities area board or local mental health program.

#### Article 9. Experimental Programs

56160. Pupils who are deaf, severely hard of hearing, blind, deaf-blind, or other multihandicapped pupils as determined by the State Board of Education, and who are between the ages of 18 months and 3 years, may be enrolled in experimental programs conducted by a school district or county superintendent of schools. Experimental programs for such minors shall be approved in advance by the Superintendent of Public Instruction and shall be

conducted in accordance with rules and regulations established by him. Instruction in such experimental programs shall be afforded by a teacher possessing full qualifications to teach deaf, severely hard-of-hearing, blind, deaf-blind, or other multihandicapped pupils as prescribed by rules and regulations of the Commission for Teacher Preparation and Licensing.

Notwithstanding any provision of this code to the contrary, attendance of deaf, severely hard-of-hearing, blind, deaf-blind, or other multihandicapped pupils enrolled in experimental programs authorized by this section shall be credited to the school district or county superintendent of schools providing such instruction in the same manner as authorized for minors receiving special schooling pursuant to this chapter and Sections 1850 to 1855, inclusive, and Section 41308.

Notwithstanding any provision of this code to the contrary, computations of allowances and apportionments from the State School Fund for deaf, severely hard-of-hearing, blind, deaf-blind, or other multihandicapped pupils enrolled in experimental programs authorized by this section shall be credited to the district or county superintendent of schools providing such instruction in the same manner as authorized for pupils receiving special schooling pursuant to this article and Sections 1850 to 1855, inclusive, and Section 41308.

Notwithstanding any provision of this code to the contrary, physically handicapped pupils as described in Section 1856 shall include deaf, severely hard-of-hearing, blind, deaf-blind, or other multihandicapped pupils enrolled in experimental programs authorized by this section.

56161. Physically handicapped pupils who come within any one or more of subdivisions (a), (b), (c), (d), (e), and (h) of Section 56701 and who are between the ages of 18 months and 3 years, may be enrolled in experimental programs conducted by a county superintendent of schools upon the prior approval of the Superintendent of Public Instruction pursuant to this section. Experimental programs for such pupils shall be conducted in accordance with rules and regulations established by the Superintendent of Public Instruction.

In no case shall the Superintendent of Public Instruction authorize more than one such experimental class in a county, and no more than five county superintendents of schools may conduct programs pursuant to this section.

Notwithstanding any provisions of this code to the contrary, transportation allowances for such pupils and computations of allowances and apportionments from the State School Fund for such pupils shall be credited to county superintendents of schools providing instruction pursuant to this section, in the same manner as authorized for pupils receiving special schooling pursuant to this chapter and Sections 1850 to 1855, inclusive, and Section 41308; provided, that the total of all such allowances and apportionments made for each fiscal year pursuant to this section shall not exceed one

hundred twenty-five thousand dollars (\$125,000).

This section shall remain in effect only for a period of two years following September 27, 1974, and shall have no force or effect on or after such date.

The Superintendent of Public Instruction shall, not later than January 1, 1976, report to the Legislature with recommendations regarding the extension of this section.

56161.5. The governing board of any school district or a county superintendent of schools, with the approval of the county board of education and the Superintendent of Public Instruction, may establish and maintain an experimental program for deaf or severely hard-of-hearing children who are at least six months of age. Not more than two such experimental programs shall be established pursuant to this section. Program approval shall be given to such school district or county superintendent of schools which is presently operating such a program or which is otherwise prepared to undertake the type of program authorized by this section.

With the approval of the Superintendent of Public Instruction, these experimental programs shall be permitted to operate differently from regular class programs. The Superintendent of Public Instruction may, upon application of the governing board or county superintendent of schools, as the case may be, waive such provisions of this code as he deems necessary in order to provide the necessary flexibility for these experimental programs.

It is the intent of the Legislature that, in connection with these experimental programs, proper recognition be given to the needs of parents, through provision of parents' home training and parent counseling, the audiological needs of the child, and the purchase of necessary supplies and equipment. The Legislature also intends that proper recognition be given to the need for the promotion and initiation of early identification activities. However, for the purposes of these experimental programs, it is not intended that actual identification activities be undertaken of the infant population at large.

The Superintendent of Public Instruction shall prepare and submit to the Legislature 24 months after initiation of such a program, but no later than July 1, 1977, an interim evaluation report of the results of the programs, and no later than June 30, 1978, a final evaluation report of the results of the programs. Authorization to conduct such experimental programs shall expire on July 30, 1978.

56162. (Repealed by Stats. 1976, Ch. 1011.)

[ORIGINAL SECTION]

56162. Physically handicapped pupils who because of another primary handicap, as defined in Sections 56501, 56515, 56600, 56700, and 56701, are already enrolled in special education classes or are receiving special services in programs conducted by a county superintendent of schools are eligible to receive experimental individualized instruction conducted by a county superintendent of schools, upon the prior approval of the Superintendent of Public Instruction, pursuant to this section. Experimental programs for such pupils shall be conducted in accordance with rules and regulations established by the Superintendent of Public Instruction

In no case shall the Superintendent of Public Instruction authorize more than five county superintendents of schools to conduct programs pursuant to this section.

Any county superintendent of schools approved to conduct an experimental individualized instruction program pursuant to this section shall be entitled to an apportionment equal to the amount which would have been credited to him if such pupils had been enrolled in a program for individual instruction authorized under subdivision (e) of Section 56702; provided, that the total of all such allowances and apportionments made for each fiscal year pursuant to this section shall not exceed sixty-five thousand dollars (\$65,000) and the total of all such allowances and apportionments made to any one such county superintendent of schools in any one fiscal year shall not exceed thirteen thousand dollars (\$13,000).

This section shall remain in effect for a period of two years following September 27, 1974, and shall have no force or effect on or after such date.

The Superintendent of Public Instruction shall, not later than January 1, 1976, report to the Legislature with recommendations regarding the extension of this section.

## CHAPTER 2. EDUCATIONAL SERVICES FOR INDIVIDUALS WITH EXCEPTIONAL NEEDS

### Article 1. General Provisions

56300. The Legislature finds and declares that the current range of educational programs for individuals with exceptional needs has developed over time in response to the specific needs of identifiable groups. These programs were established without particular regard to gradations in the severity of disabilities among individuals in such programs. Consequently, there are 28 separate programs for individuals with exceptional needs which tend to segregate them on the basis of their disabilities. Many individuals with exceptional needs are not served by any existing program with the result that they are either inappropriately placed in one of those programs or they are excluded from receiving any educational program or service. Moreover, some existing programs for individuals with exceptional needs are statutorily permissive so that some who would otherwise be eligible do not have access to such programs.

56301. The Legislature finds and declares that all individuals with exceptional needs have a right to participate in appropriate programs of publicly supported education, and that the existing educational programs for these persons are in need of revision in order to assure them of this right to an appropriate educational opportunity.

It is the further intent of the Legislature that such pupils be returned to the regular class when special education services are no longer needed.

Furthermore, it is the intent of the Legislature that the comprehensive restructuring of current educational programs for individuals with exceptional needs required by this chapter should be systematically implemented in no more than 10 local comprehensive plans during fiscal years 1975-76, 1976-77, and 1977-78. Thereafter, statewide implementation of this chapter shall be determined by the Legislature.

Therefore, the Legislature hereby authorizes the Superintendent of Public Instruction to implement and administer, under a master plan adopted by the State Board of Education, a pilot program to determine if the educational services provided under this chapter will better meet the educational requirements of individuals with exceptional needs. This pilot program shall provide that:

(a) Each individual with exceptional needs is assured an education appropriate to his or her needs through an individually developed plan in publicly supported programs.

(b) Early educational opportunities are available to children between the ages of three and five who require intensive service in special programs.

(c) Early educational opportunities may be made available to children younger than three years of age who require intensive service in special programs at the discretion of local educational agencies.

(d) Education programs are provided under an approved plan for special education which comprehensively sets forth the elements of the programs in accordance with the provisions of this chapter.

(e) Individuals with exceptional needs are offered special assistance in a program which promotes maximum interaction with the general school population in a manner which is appropriate to the needs of both.

(f) Educational programs are coordinated with other public and private agencies.

(g) Continuous evaluation of the effectiveness of these special education programs by the responsible local agency shall be made to insure the highest quality educational offerings.

56302. As used in this chapter, unless the context otherwise requires:

(a) "Board" means the State Board of Education.

(b) "Department" means the Department of Education.

(c) "Individuals with exceptional needs" means all pupils whose educational needs cannot be met by the regular classroom teacher with modification of the regular school program, who require the benefit of special instruction and services, and who are one of the following:

(1) Between the ages of three and four years and nine months, inclusive, who have been identified by the educational assessment service as defined by subdivision (b) of Section 56336 as requiring an intensive full-time special education service as defined by the State Board of Education.

(2) Between the ages of four years and nine months and 18 years of age, inclusive, whose educational needs cannot be met by the regular classroom teacher in the regular school program.

(3) Aged 19 or 20 who were enrolled in or eligible for a program under this chapter or other special education program prior to their 19th birthday and who have not yet completed their prescribed education program. Any such person who becomes 21 years of age

while participating in a program under this chapter may be permitted by the responsible local agency to continue his or her participation in the program for the remainder of the then current school year.

This definition does not include persons whose educational needs are due solely or primarily to unfamiliarity with the English language or to cultural differences.

(d) "Local comprehensive plan" means a plan which meets the requirements of Article 3 (commencing with Section 56330) of this chapter and which is submitted by a responsible local agency.

(e) "Parent" or "guardian" as used in this chapter includes any person having legal custody of a child. "Parent" or "guardian," in addition, includes any adult pupil for whom no guardian has been appointed and the person having custody of a minor if neither the parent or legal guardian can be notified of the educational actions under consideration.

(f) "Responsible local agency" means the school district or office of the county superintendent of schools designated in the local comprehensive plan as the agent responsible for the coordination of the plan.

(g) "Special education" means programs or services designed to meet the educational requirements of individuals with exceptional needs. Communicatively handicapped programs serve those pupils with disabilities in one or more of the oral communication skills such as listening and speaking. Physically handicapped programs serve those pupils with physical disabilities such as vision and mobility impairments and orthopedic or other health impairments. Learning handicapped programs serve pupils with significant disabilities in learning or behavior such as learning disabilities, behavior disorders, and educational retardation. Severely handicapped programs serve pupils with profound disabilities and who require intensive instruction and training such as the developmentally handicapped, trainable mentally retarded, autistic, and seriously emotionally disturbed.

(h) "Superintendent" means the Superintendent of Public Instruction.

56303. This chapter shall apply, and the following sections shall not apply, to districts and counties to the extent of an approved comprehensive plan and the programs conducted thereunder: Sections 1261, 1711, Sections 1850 to 1855, inclusive, Sections 41308, 41863, 41864, 41866, 51051, 51052, Article 10 (commencing with Section 1880) of Chapter 6 of Part 2 of Division 1 of Title 1, Article 11 (commencing with Section 41880) of Chapter 5 of Part 24 of Division 3 of this title, Article 3 (commencing with Section 56030), Article 6 (commencing with Section 56070), Article 7 (commencing with Section 56080) of Chapter 1, Chapter 3 (commencing with Section 56500) to Chapter 6 (commencing with Section 56800), inclusive, of this part.

56304. Except as provided in paragraphs (2) and (3) of

subdivision (c) of Section 56337, every individual with exceptional needs, as defined pursuant to Section 56302, who is eligible to receive such educational services authorized under this chapter is entitled to educational programs or services free of charge in the public schools of this state.

## Article 2. Administration

56310. The State Board of Education shall:

(a) Establish and periodically update the California Master Plan for Special Education.

(b) Adopt rules and regulations necessary for the efficient administration of this chapter.

(c) Adopt criteria and procedures for the review and approval of local comprehensive plans submitted under Sections 56313, 56314, and 56315.

(d) Approve no more than 10 local comprehensive plans for a period not to exceed three years.

(e) Adopt criteria and procedures for the evaluation of all educational programs and services provided under the California Master Plan for Special Education and report annually thereon to the Legislature and the Governor.

(f) Recommend to the Commission for Teacher Preparation and Licensing standards for the certification of teacher personnel for special education programs conducted pursuant to this chapter.

(g) Make recommendations to the Department of Health and out-of-school agencies to assure an appropriate education for individuals with exceptional needs consistent with the standards applicable to the public schools.

56311. Any responsible local agency in its application for approval of a plan, may request the board to grant a waiver of the provisions of any specifically enumerated sections of this code except Sections 56304, 56330, 56337, 56338, 56340, 56341, and 56352, Chapter 1 (commencing with Section 44000) of Part 25, or Article 6 (commencing with Section 39210) of Chapter 2 of Part 23 of Division 3 of this title, if such waiver is necessary to establish and operate a special education program.

The board, after considering the recommendation of the superintendent, may grant, in whole or in part, any such request when the facts indicate that failure to do so would hinder the implementation or maintenance of the special education program.

56312. The superintendent shall administer the provisions of this chapter and shall:

(a) Grant preliminary approval of the organization of the local comprehensive plans within each county.

(b) Review and recommend to the board for approval, local comprehensive plans developed and submitted in accordance with this chapter.

(c) Encourage experimentation and innovation in the field of

special education at the school, district, county, and state levels.

(d) Monitor the implementation of local comprehensive plans by conducting onsite audits as appropriate.

(e) Encourage the maximum practicable involvement of parents and guardians of children enrolled in special education classes.

(f) Make recommendations in the areas of in-service training for teachers and teacher aides, curriculum, testing and testing mechanisms, and the development of materials for special education classes.

(g) Prepare for board approval as necessary, any state plan required by federal law in order that this state may qualify for any federal funds available for the education of individuals with exceptional needs.

(h) Maintain the state special schools in accordance with Part 32 (commencing with Section 59000) of this division, Part 43 (commencing with Section 70000) of Division 6 of Title 3 so that such schools may supplement the services of responsible local agencies.

(i) Develop in accordance with Section 56351 an annual evaluation report of special education programs authorized under this chapter for submission to the board.

(j) Apportion funds in accordance with Article 5 (commencing with Section 56360) of this chapter and approved local comprehensive plans.

(k) Assist districts and counties in the development of local comprehensive plans under this chapter, and resolve differences between them on aspects of the local comprehensive plan.

(l) Assist districts and counties in the improvement and evaluation of their programs.

(m) Provide review to any parent, guardian, or adult pupil who is denied educational services under this chapter as provided in subdivision (b) of Section 56341.

56313. Each county superintendent of schools may:

(a) With the approval of the county board of education, submit to the Superintendent of Public Instruction a local comprehensive plan for the education of all individuals in the county with exceptional needs except for those individuals served by districts within such county pursuant to a district-prepared local comprehensive plan. Any such plan may include more than one county and districts in more than one county. Such plans shall meet the requirements of local comprehensive plans set forth in Article 3 (commencing with Section 56330) of this chapter.

(b) Carry out any responsibility assigned to him pursuant to a local comprehensive plan.

56314. The county superintendent of schools shall:

(a) Submit to the superintendent, a description of how districts within the county intend to develop local comprehensive plans, if any, together with his comments thereon.

(b) Review any proposed local comprehensive plan submitted by a district, and send it with his comments and recommendations, if

any, back to the district within 45 days.

(c) Submit any final district local comprehensive plans to the superintendent with recommendations within an additional 30 days.

(d) Assure that any district plan reviewed by him is compatible with other district plans in the county and any county plan.

(e) Submit any county plan to the Superintendent of Public Instruction.

(f) Review the district's implementation of an approved local comprehensive plan and report thereon to the district and the Superintendent of Public Instruction.

(g) Consider any appeal made to him from a decision of a responsible local agency under subdivision (a) of Section 56341.

(h) Coordinate the development of local comprehensive plans in the county to insure that special education services are provided to all individuals with exceptional needs.

56315. The governing board of a school district may elect to do one of the following:

(a) Adopt, in accordance with Section 56330, a local comprehensive plan for the education of all individuals with exceptional needs residing in the district.

(b) In conjunction with one or more other districts, adopt, in accordance with Section 56330, a local comprehensive plan for the education of all individuals with exceptional needs residing in such districts. Such plan shall designate one of the participating districts as the responsible local agency to insure that the provisions of the plan are satisfied. Any participating district may perform any of the services required by the plan.

(c) Join with the office of a county superintendent of schools to adopt, in accordance with Section 56330, a local comprehensive plan for the education of all individuals with exceptional needs residing in the district. Such plan may provide that the district perform some of the educational services required by the plan.

56316. In developing a local comprehensive plan under Section 56315, each district shall:

(a) Cooperate with the office of the county superintendent of schools and other school districts in the geographic area in planning its option under Section 56315 and notify the office of the county superintendent of schools of its selection at a time specified by the Superintendent of Public Instruction.

(b) Cooperate with the office of the county superintendent of schools to assure that the plan is compatible with other local comprehensive plans in the county and any county plan of a contiguous county.

(c) Submit to the office of the county superintendent of schools for review any plan developed under subdivision (a) or (b) of Section 56315.

56317. Any county superintendent of schools or governing board of a school district shall carry out the responsibilities assigned to it in a local comprehensive plan, may provide for the education of

individual children in special education programs maintained by other districts or counties, and may include within their special education programs children who reside in other districts or counties. Section 46600 shall apply to interdistrict attendance agreements for programs conducted pursuant to this chapter.

### Article 3. Elements of Local Comprehensive Plans and Programs

56330. Any local comprehensive plan submitted under this chapter shall:

(a) Provide for seeking out all individuals with exceptional needs residing in the area served by the plan, including preschool and other children not currently enrolled in school programs, the assessment of their exceptional needs, and the planning of an instructional program to best meet the assessed needs. Identification procedures shall include systematic methods of utilizing referrals of pupils from teachers, parents, agencies, appropriate professional persons, and from other members of the public. Assessment procedures shall also include an educational assessment of the person's development in cognitive, affective, and sensory motor functioning.

(b) Provide for differential grouping of individuals according to their identified needs.

(c) Describe how each of the components set forth in Section 56332 will be made available to meet the needs of all individuals with exceptional needs who are or may be identified.

(d) Include evaluation procedures as set forth in Article 4 (commencing with Section 56350) of this chapter.

(e) Provide for an advisory committee to the responsible local agency composed of parents and guardians, including parents and guardians of individuals with exceptional needs, regular classroom teachers, special education teachers and other school personnel, and representatives of other public and private agencies and persons concerned with the needs of individuals with exceptional needs. The majority of such committee shall be composed of parents and guardians and shall advise the district, county, or other responsible local agency in the development of the local comprehensive plan and the evaluation of programs under such plan.

(f) Describe the procedures for notifying parents of the steps in the assessment procedures pursuant to Section 56337.

(g) Describe how and to what degree the district or county intends to make use of the services offered by the state special schools and how pupils eligible for such services will be identified and referred to such schools.

(h) Set forth program objectives in terms of pupil performance.

(i) Provide for review of decisions as provided in Sections 56340 and 56341.

(j) Specify the number and responsibilities of program specialists required as described in Section 56335.

(k) Indicate maximum use of all existing local, state, and federal resources that are available to individuals with exceptional needs.

(l) Provide for curriculum development, in-service education, and consultation.

(m) Provide for appropriate qualified staff to fulfill the responsibilities of the plan consistent with the credentialing requirements of this code.

(n) Designate a responsible local agency as the agent of the parties to administer the plan.

(o) Provide opportunities for career development.

56331. Any plan submitted or approved under this chapter may include a preschool project for individuals with exceptional needs who are below the age of three but whose need for services under this chapter meets standards set by the State Board of Education.

56332. In addition to the general requirements of Section 56330, each local comprehensive plan submitted for approval under this chapter shall also include the following program components:

(a) Instructional components:

(1) Special classes and centers which enroll pupils with similar and more intensive educational needs. Such classes and centers shall enroll such pupils for a majority of the schoolday and shall facilitate their interaction with other pupils in the regular school program.

(2) A resource specialist program, as described in Section 56333.

(3) Designated instruction and specific services not normally provided in a regular or special class or by the resource specialist program.

(4) Nonpublic, nonsectarian school services, including services by public and private agencies, provided under contract with the responsible local agency when such services can more appropriately meet the needs of the pupil. Pupils enrolled in nonpublic schools under this subdivision shall be deemed to be enrolled in public schools for all purposes related to making apportionments and allowances from Section A of the State School Fund and Section 42238. In the event that a contract is entered into between a nonpublic, nonsectarian school and a responsible local agency under this subdivision, the school district shall be eligible to receive allowances under subdivisions (c) through (h) of Section 56360 for services that are provided to individuals with exceptional needs pursuant to the contract. The responsible local agency shall pay to the nonpublic, nonsectarian school the full amount of the tuition for individuals with exceptional needs that are enrolled in programs provided by the nonpublic, nonsectarian school pursuant to such contract.

(b) Supportive components:

(1) Identification, assessment, and instructional planning as described in Sections 56335 and 56337.

(2) Management and support service as defined by the board.

(3) Special transportation services. This includes transportation in special vehicles, transportation for pupils not attending school of

residence, transportation to work stations and work-training programs, and providing room and board in lieu of transportation.

(4) Capital outlay to provide equipment and adequate, safe facilities for special education programs.

56333. The resource specialist program shall:

(a) Provide instruction and services for those pupils whose needs have been identified in a written instructional plan developed by the school appraisal team or the educational assessment service and who are assigned to regular classroom teachers for a majority of a schoolday.

(b) Coordinate educational services and guidance to individuals with exceptional needs and their parents or guardians.

(c) Provide consultant services, resource information, and material regarding individuals with exceptional needs to regular staff members and their parents or guardians.

(d) Coordinate with program specialists as described in Section 56335 in establishing, maintaining, and coordinating special education services.

(e) Evaluate pupil progress on a regular basis, revise individual instructional plans as appropriate, and refer pupils who do not indicate appropriate progress to the educational assessment service.

56334. (a) The resource specialist program described in Section 56333 shall be under the direction of a resource specialist who is a credentialed special education teacher or who meets standards prescribed by the State Board of Education, who has had three or more years of full-time teaching experience, and who has completed or is enrolled in an advanced preparation program in special education.

(b) Maximum caseloads for resource specialists shall be stated in the local comprehensive plan under standards established by the board.

(c) Each resource specialist shall be provided with one or more instructional aides.

(d) Resource specialists shall not be utilized as regular classroom teachers nor have specific pupils assigned to them for a majority of a schoolday. Resource specialists and aides shall be deemed to be pupil services employees for the purposes of Sections 33150 and 41402.

56335. A program specialist is a credentialed special education teacher with advanced training in the education of individuals with exceptional needs and with specialized knowledge of communicatively handicapped, physically handicapped, learning handicapped, or severely handicapped pupils. The program specialist shall assist the resource specialist and shall consult, coordinate, plan programs, provide curricular resources for, and assess program effectiveness in, the programs for individuals with exceptional needs. The program specialist shall also participate in each school's in-service training, research, program development and innovation of special methods and approaches.

56336. In addition to the requirements set forth in Sections 56330 and 56332, each plan shall also include at least the following levels of identification, assessment, and instructional planning:

(a) A school appraisal team. This team shall consist of the school administrator, resource specialist, designated instruction teachers, and appropriate program specialists. The team shall also utilize the services of the school psychologist, physician, social worker, nurse, counselors, and other pupil personnel workers as needed. The school appraisal team shall provide for a semiannual review of the progress of each pupil consistent with the standards for placement in the special education program, a review of each referral, confer with parents and guardians regarding program recommendations, develop a written instructional plan for each pupil provided special education services, and recommend specific special education program services in their school. The team shall refer to the educational assessment service those pupils who the team has determined require a more definitive assessment, those whose instructional plan has not been effective or those whose parents or guardians have requested such a review. The responsible local agency shall annually notify parents or guardians of their right to request a review by the educational assessment service whenever they believe the pupil is not making appropriate progress.

(b) An educational assessment service. This service shall consist of professional specialists representing health, psychology, social work, speech and language, management services, and diagnostic teaching, and shall perform the following functions:

(1) Review referrals from school appraisal teams and program specialists.

(2) Recommend needed additional assessments.

(3) Develop written instructional goals for each pupil who either has been required to leave the school of his residence, attend special classes or centers, or whose parent or guardian is appealing a school appraisal team decision.

(4) Recommend program components.

(5) Confer with parents and guardians.

(6) Coordinate community resources with those provided by the schools.

(7) Review program recommendations of pupils returning to the district or county from the state schools and hospitals.

(8) Refer selected pupils to the superintendent for further assessment or individual instructional planning in connection with the California Schools for the Deaf or Blind or the Diagnostic Schools for Neurologically Handicapped Children.

56337. (a) Whenever an assessment is to be conducted by a school appraisal team or an educational assessment service, the parent or guardian of the pupil shall be given written notice of the intended assessment at least 10 days prior to its scheduled date. This written notice shall be in ordinary and concise language and in the primary language of the pupil's home and shall fully explain the

procedure and objective of the assessment and the facts which make an assessment necessary or desirable. The written notice shall state that no educational placement will result from the assessment without the consent of the pupil's parent or guardian.

The assessment of any pupil referred to a school appraisal team or an educational assessment service shall be completed within 45 days of the referral. Those persons assessing the pupil shall maintain a complete and specific written record of diagnostic procedures employed, the conclusions reached, the suggested course of education or treatment best suited to the pupil's needs, its anticipated duration, and the specific objectives to be attained. Such assessment shall remain confidential and be used only for the administration of the special education programs, including, but not limited to, assuring that each special education program is meeting the objectives for the children assigned to it.

(b) Admission of a pupil to a special education program under this chapter shall be made only on the basis of an individual assessment according to standards established by the board and upon an individual recommendation of either a school appraisal team or an educational assessment service. Section 56506 shall apply to pupils admitted to special education programs under this chapter because of their educational retardation. Pupils admitted to special education programs prior to the implementation of this chapter on the basis of procedures and criteria in effect at the time of such admission shall be admitted to programs under this chapter on the same basis as pupils recommended by a school appraisal team or an education assessment service.

(c) The parent or guardian of the pupil shall be notified in writing in ordinary and concise language and in the primary language of the pupil's home, of the findings of the assessment, the recommended educational decision, and the reasons therefor. The notice shall state that:

(1) A conference with the parent or guardian and his or her representative will be scheduled upon request.

(2) If the parent or guardian disagrees with the recommended educational decision, he or she has the right to procure an independent assessment of the child from qualified specialists, as defined by rules and regulations of the board, which assessment will become a part of the pupil's record.

(3) Such independent assessment shall not be at the expense of the district or responsible local agency unless the district or agency agrees to pay the cost thereof.

(4) The parent or guardian has the right to have the recommended educational decision reviewed.

(d) Whenever a pupil transfers into a school district from another school district in which his last enrollment was in a special education program the administrator of a local program under this chapter may place the pupil in a comparable program for a period not to exceed 30 schooldays. Such an interim placement may be made without the

complete documentation specified in subdivision (a). Before the expiration of the 30-school day period such interim placement shall be reviewed by the school appraisal team or the educational assessment service and a final recommendation shall be made by the team or service in accordance with the requirements of this chapter. The team or service may utilize information, records, and reports from the admission proceedings of the school district or county program from which the pupil transferred.

(e) Any diagnostic procedure used for placement of individuals with exceptional needs shall be appropriate to the individual's ethnic, cultural, and linguistic background. All such procedures shall be approved by the board. No procedure shall be approved by the board which discriminates against any minority or ethnic group or fails to account for the home experience and environment of minority and ethnic groups.

(f) The board shall insure that a psychological assessment of pupils admitted to programs under this chapter because of their educational retardation or learning disability is conducted and interpreted by a credentialed school psychologist who is adequately trained and prepared to evaluate cultural and ethnic factors.

56338. No pupil may be required to participate in any special class or program under this chapter unless the parent or guardian of the pupil is first informed of the facts which make participation in the special program necessary or desirable and thereafter consents in writing to such participation.

After consultation with a member of the school appraisal team, such consent may be withdrawn at any time.

56339. Whenever a pupil is being assessed by a school appraisal team or an educational assessment service, the parents and guardians shall be notified in advance of their rights pursuant to Sections 56340 and 56341 that they have the right to present information to the team or service in person or through a representative, and to attend and participate in the meeting devoted to recommendations and program planning.

56340. (a) Any parent or guardian who disagrees with the findings or recommendations of the educational assessment service regarding the placement or services offered to his or her child, either in its initial evaluation or on its annual evaluation, has the right to request a review as provided for in this section and Section 56341. The purpose of the review shall be to determine whether to: (1) affirm the decision of the education assessment service regarding placement or services offered, (2) modify the recommendations of the education assessment service regarding placement or services offered, or (3) direct the responsible local agency to provide a contractual agreement for nonpublic, nonsectarian school services which are appropriate to meet the exceptional needs of the individual as set forth in paragraph (4) of subdivision (a) of Section 56332.

While such review is pending, unless the responsible local agency

and the parent or guardian agree otherwise, the pupil shall remain in his or her then current program or, if applying for initial admission to a public school, shall, with the written consent of the parent or guardian, be placed in the program recommended by the educational assessment service until the review is completed.

(b) The parent or guardian shall notify the superintendent of the responsible local agency within 30 days following receipt of the written decision of the educational assessment service if he or she intends to seek a review of such decision.

(c) The hearing before the superintendent of the responsible local agency or his designee shall be held within 30 days following receipt of such notice from a parent or guardian at a reasonable time and place, with at least two weeks notice to the parent or guardian of the date, time, and place of the hearing, and such hearing shall be recorded.

The parent or guardian shall have the right to represent himself or herself, or to select a representative, to have an interpreter present if necessary, to have access to all relevant school records, notwithstanding Section 48950, to present additional written or oral evidence, to call witnesses, and to request the presence of and question any person involved in the evaluation procedure and placement decision, and the notice of the hearing shall so state. School employees that are witnesses shall have the right to select a representative.

(d) Within 15 days after submission of all evidence and argument, the superintendent of the responsible local agency shall render his decision.

When the decision is rendered the parent or guardian shall be given written notice of the decision in ordinary and concise language and in the primary language of the pupil's home. The notice shall state that if a parent, guardian, or responsible local agency disagrees with the decision, the parent or guardian has a right to a further review.

56341. Any parent or guardian who disagrees with the finding, recommendation, or decision of a superintendent of a responsible local agency may petition for a review, within 30 days following receipt of the decision of the responsible local agency, to the Superintendent of Public Instruction whose decision shall be final. The Superintendent of Public Instruction shall afford the parent or guardian an opportunity to present an oral or written argument, or both, within 30 days following receipt of the appeal. Within 15 days after such argument, the Superintendent of Public Instruction shall render a written reasoned decision based upon the pupil's entire record, transmit a copy of the decision to the parent or guardian, and inform the parent or guardian of the effective date of the decision.

## Article 4. Evaluation, Audits, and Information

56350. Each responsible local agency shall submit to the Superintendent of Public Instruction at least annually a report in a form and manner prescribed by the superintendent. Such reports shall include that information necessary for the superintendent to carry out his responsibilities described in Section 56351 and such other statistical data, program descriptions, and fiscal information as the superintendent may require.

56351. Under the criteria and procedures adopted pursuant to subdivision (e) of Section 56310, the Superintendent of Public Instruction shall submit to the State Board of Education, the Legislature, the Governor, the United States Office of Education, and each responsible local agency an annual evaluation of the special education programs implemented under this chapter. This evaluation shall include:

(a) The degree to which the responsible local agency has served all individuals with exceptional needs.

(b) The degree to which the responsible local agency has integrated individuals with exceptional needs into the general school population, and the impact of such integration on individuals with exceptional needs and the rest of the student body.

(c) The extent to which individuals with exceptional needs met the objectives set for them in written instructional plans.

(d) A general assessment of the relative effectiveness of programs conducted under this chapter compared to special education programs not conducted under this chapter.

(e) The overall capability of the responsible local agency to implement the local comprehensive plan as approved by the State Board of Education.

Based on these annual evaluations the State Board of Education shall make recommendations to the Legislature on or before January 1, 1978, regarding the extension of the provisions of this chapter to all special education programs conducted in California.

56352. The annual reports required under Sections 56350 and 56351 shall also identify the numbers of individuals with exceptional needs, their racial and ethnic data, and the special education programs in the following classifications and subclassifications as further defined by the State Board of Education:

(a) Communicatively handicapped, including deaf, deaf and blind, severely hard of hearing, severely language handicapped including aphasic, and language and speech handicapped.

(b) Physically handicapped, including blind, partially seeing, orthopedically handicapped, and other health impairments including drug dependency and pregnancy.

(c) Learning handicapped, including educationally retarded and learning disabilities and behavior disorders.

(d) Severely handicapped, including developmentally handicapped, trainable mentally retarded, autistic, and seriously

emotionally disturbed.

56353. The superintendent shall periodically sponsor or conduct workshops and seminars for the education of district or county personnel assigned to and responsible for the evaluation of local special education programs.

56354. The superintendent shall review and conduct onsite audits of each program approved under this chapter. In performing such reviews and audits, the superintendent may utilize the services of persons outside of the department chosen for their knowledge of special education programs.

#### Article 5. Funding of Special Educational Programs

56360. In addition to any other apportionments provided by law, the superintendent shall apportion from the State School Fund to each school district and office of the county superintendent of schools participating in a local comprehensive plan, through the coordination of the responsible local agency, the following allowances for the fiscal year ending June 30, 1976:

(a) For each special class, the sum of seventeen thousand five hundred dollars (\$17,500).

(b) For each special center for the severely handicapped, the sum of seventeen thousand five hundred dollars (\$17,500) per class.

(c) For each resource specialist program, the sum of twenty thousand four hundred forty dollars (\$20,440).

(d) For designated instruction and services, the sum of twenty dollars (\$20) per instructional hour per specialist.

(e) For non-public-school services, the maximum sum of one thousand four hundred sixty dollars (\$1,460) per pupil enrolled in a nonpublic school.

(f) For identification, assessment and instructional planning, the sum of one hundred dollars (\$100) per pupil enrolled in special education services, apportioned as follows: educational assessment services at seventy dollars (\$70) per pupil; and program specialists at thirty dollars (\$30) per pupil.

(g) For management and support services, the sum of fifty dollars (\$50) per pupil enrolled in special education services, apportioned as follows: instructional materials at fifteen dollars (\$15) per pupil; equipment at fifteen dollars (\$15) per pupil; evaluation services at five dollars (\$5) per pupil; and administrative services at fifteen dollars (\$15) per pupil. In addition to the above, the department shall apportion fifteen dollars (\$15) per pupil for instructional materials and fifteen dollars (\$15) per pupil for equipment for each new special education program approved under this chapter.

(h) For special transportation services, the amount of six hundred ten dollars (\$610) per unit of average daily attendance for those pupils eligible for such services as determined by rules and regulations adopted by the board.

(i) Each fiscal year, the superintendent shall adjust the amounts

set forth in subdivisions (a) through (h) to reflect the difference in costs due to fluctuations of monetary value. The adjustment factor shall be jointly determined by the Department of Education and the Department of Finance.

56361. It is also the intent of the Legislature to provide financial assistance on an equalization basis for capital outlay for individuals with exceptional needs. The superintendent shall develop a proposal that shall implement this intent in a report to the Legislature by January 1, 1976.

56362. For the 1976-77 fiscal year and each fiscal year thereafter, the department shall include in its budget for the State School Fund sufficient funds to make apportionments under this chapter and an amount sufficient for the administration by the department of the provisions of this chapter.

56363. Apportionments under this chapter shall be made by the superintendent as early as practicable in the fiscal year. Upon order of the Superintendent of Public Instruction, the State Controller shall draw warrants upon the money appropriated, in favor of the eligible districts or counties in the amounts ordered.

56364. (a) Where the approved local comprehensive plan provides for special centers under paragraph (1) of subdivision (a) of Section 56332 in lieu of development centers for handicapped pupils pursuant to Article 1 (commencing with Section 56800) of Chapter 6 of this part, the governing board or county superintendent of schools may levy and use the tax set forth in Section 56811 for the support of such centers.

(b) Where the approved local comprehensive plan provides for programs under this chapter by the county superintendent of schools, in lieu of the tax rate authorized in subdivisions (b), (c), and (d) of Section 2500, the county superintendent may levy a tax over the districts served for the operations of the county superintendent's programs in the comprehensive plan, but such tax shall not exceed the expenditures of his programs less the state aid for the pupils in the programs.

56365. Each district participating in special education programs authorized by this chapter shall maintain a fiscal effort with respect to each child participating in special education programs that is no less than the fiscal effort of the district per elementary, intermediate or secondary child not participating in a special education program. The department shall annually review individual district expenditures to assure the comparability of local support. This review shall be based on rules and regulations adopted by the board which take into account growth in district enrollment and increases in district costs.

56366. The department shall continuously monitor and review all special education programs approved under this chapter to assure that all funds appropriated to school districts under this chapter are expended for the purposes intended.

56367. This chapter shall have no force or effect after July 1, 1978.

## CHAPTER 3. MENTALLY RETARDED PUPILS

56500. "Mentally retarded pupils" means all pupils under the age of 21 years who because of retarded intellectual development as determined by individual psychological examination are incapable of being educated efficiently and profitably through ordinary classroom instruction.

56501. The education of mentally retarded pupils who are of compulsory school age and who may be expected to benefit from special educational facilities designed to make them economically useful and socially adjusted shall be provided all eligible pupils in the manner set forth in Sections 56500 to 56534, inclusive, and in Sections 1880 to 1889, inclusive, and Section 1856. Such special education may be provided to mentally retarded pupils who are between 5 years 9 months and 6 years of age and those above compulsory school age and less than 21 years of age.

An annual report shall be made by each school district or county superintendent of schools to the Department of Education indicating the number of eligible pupils for whom no such special education is provided and the reason therefor.

56502. (a) Admission of a pupil to a special educational program for the mentally retarded established under the provisions of Sections 56500 to 56534, inclusive, and in Sections 1880 to 1887, inclusive, shall be made only on the basis of an individual evaluation according to standards established by the State Board of Education and upon individual recommendation of a local admission committee which shall include an administrator in charge of special education programs in the district or county or other administrator designated by the school district or county superintendent of schools, an experienced special education teacher, a school nurse, and a school psychologist who has examined the child under consideration for eligibility and placement.

Whenever possible, the person serving on the admission committee for mentally retarded pupils may also serve on the admission committee for educationally handicapped minors.

The admission committee shall use such medical reports as are needed to properly evaluate the child. The admission committee shall have the services or presence of other pupil personnel workers, educational specialists, school nurses, social workers, or physicians as the committee may require and request. Such recommendation shall include a statement that in the professional judgment of the members of the admission committee the pupil recommended for placement in any program for the mentally retarded can reasonably be expected to benefit from such placement. Any member of the local admission committee dissenting from the final committee recommendation shall attach to the final recommendation a statement of reasons for such objection.

(b) The administrative head of a school district or office of the

county superintendent of schools may make an interim placement of a pupil in a program for the mentally retarded for a period not to exceed 30 schooldays whenever a pupil transfers into the school district from another school district in which his last enrollment was in a program for mentally retarded pupils. Such an interim placement may be made without the complete documentation specified in subdivision (a). Before the expiration of the 30-day period such interim placement shall be reviewed by the admission committee and a final recommendation shall be made by the committee in accord with the requirements of this chapter. The committee may utilize information, records, and reports from the admission committee proceedings of the school district or county program from which the pupil transferred.

56503. Whenever any pupil is being evaluated for placement in a program for mentally retarded pupils by an admission committee pursuant to Section 56502, the parent or guardian of the pupil shall have the right to be present at all meetings of the admission committee concerning only that pupil, the right to a 48-hour prior written notice of such meetings, and may have a physician, optometrist, psychologist, social worker, or teacher, whether certificated or not, represent the pupil and present additional material, if any, to assist the admission committee in its determination with respect to the pupil.

The representative so selected shall have no decisionmaking power with respect to any determination to be made by the admission committee. The representative so selected may be an employee of the school district.

56504. The Legislature finds and declares that the people of California have a primary interest in providing equal educational opportunity to children of all ethnic, socioeconomic, and cultural groups and that pupils should not be assigned to special classes or other special programs for the mentally retarded if they can be served in regular classes.

The Legislature hereby finds and declares that there should not be disproportionate enrollment of any socioeconomic, minority, or ethnic group pupils in classes for the mentally retarded and that the verbal portion of the intelligence tests which are utilized by some schools for such placement tends to underestimate the academic ability of such pupils.

56505. Before any pupil is admitted to a special education program for mentally retarded pupils established pursuant to this chapter or Article 14 (commencing with Section 1880) of Chapter 6 of Part 2 of Division 1 of Title 1, the pupil shall be given verbal or nonverbal individual intelligence tests in the primary home language in which the pupil is most fluent and has the best speaking ability and capacity to understand. Such tests shall be selected from a list approved by the State Board of Education.

56506. No pupil shall be placed in a special education class for the mentally retarded if he scores higher than two standard deviations

below the norm, considering the standard error of measurement, on an individual intelligence test selected from a list approved by the State Board of Education except as provided in Section 56508.

No pupil shall be placed in a special education program for the mentally retarded when he is being tested in a language other than English if he scores higher than two standard deviations below the norm, considering the standard error of measurement, on the nonverbal intelligence test or on the nonverbal portion of an individual intelligence test which includes both verbal and nonverbal portions except as provided in Section 56508.

No pupil may be placed in a special education program for the mentally retarded unless a complete psychological examination by a credentialed school psychologist investigating such factors as developmental history, cultural background, and school achievement substantiates the retarded intellectual development indicated by the individual test scores. This examination shall include estimates of adaptive behavior. Until adaptive behavior scales are normed and approved by the State Board of Education, such adaptability testing shall include, but is not limited to, a visit, with the consent of the parent or guardian, to the pupil's home by the school psychologist or a person designated by the chief administrator of the district, upon the recommendation of the school psychologist, and interviews of members of the pupil's family at their home. If the language spoken in the home is other than English, such interviews shall be conducted in the language of the home.

In the case of a pupil whose primary home language is other than English, the psychological evaluation shall be conducted in the pupil's primary home language. It shall be administered by a credentialed school psychologist fluent in the language of the pupil. In the event such a person is not available, an interpreter qualified in the primary home language of the pupil shall be provided to assure effective communication between the pupil and the school psychologist administering the evaluation. The district shall provide the interpreter with in-service training in the application of evaluation techniques and procedures, such training to be given under the direction of a school psychologist according to guidelines established by the State Board of Education.

After a pupil has been screened and referred, written permission for the individual psychological evaluation shall be secured in a conference with a school official and the parent or guardian or his authorized representative. After the individual psychological evaluation is completed, the psychologist shall confer with the parent or guardian or his authorized representative regarding the recommendation to the admission committee. Following the admission committee meeting, a committee member shall meet with the parent or guardian or his authorized representative to discuss the committee conclusion and to obtain written permission for placement.

No pupil shall be placed in a special education class for the

mentally retarded without the written consent of the parent or guardian of the child after a complete explanation of the special education program. Permission documents for individual psychological evaluation, and placements, shall be written in English and in the language of the parent or guardian. Conferences and notices to inform the parent or guardian of the nature of the placement process, the committee conclusion, and the special education program shall be in the home language of the parent or guardian.

56507. If a parent or guardian objects to the withdrawal of his child or ward from a special education class or program provided pursuant to Section 56501 or 56515, he may request a hearing regarding such withdrawal. The hearing shall be held not less than 20 nor more than 30 days after the request is made.

For purposes of Section 56501, the hearing panel shall consist of a credentialed school psychologist, a teacher currently instructing a special education class at the same grade level in which the pupil is enrolled, but who is not an employee of the school district involved, and a special education administrator, each of whom shall be designated by the county superintendent of schools. In any case in which it is not practicable to secure the services on the panel of a person or persons having the qualifications herein specified, the county superintendent of schools may designate for service on the panel a person or persons not having such qualifications but whom the superintendent deems otherwise qualified to serve. The panel, by majority vote, may uphold or reverse the action taken by the district to withdraw the pupil from the program. The decision of the panel is binding upon the school district. Upon a decision by the panel to reverse the district decision, the pupil shall be readmitted to a special education class for the mentally retarded notwithstanding Section 56506, except that in no case shall a pupil scoring higher than one standard deviation below the norm, considering the standard error of measurement, be readmitted to such a class.

For purposes of Section 56515, the hearing panel shall consist of a credentialed school psychologist designated by the county superintendent of schools of the county in which the school is located, the medical director or his appointee of the nearest regional center for the mentally retarded, and a teacher, designated by the county superintendent of schools, currently instructing a special education class at the same grade level in which the pupil is enrolled, but who is not an employee of the school district involved. The panel, by majority vote, may uphold or reverse the action taken by the district to withdraw the pupil from the program. The decision of the panel is binding upon the school district. Upon a decision by the panel to reverse the district decision, the pupil shall be readmitted to a special education class for the mentally retarded notwithstanding Section 56506, except that in no case shall a pupil scoring higher than one standard deviation below the norm,

considering the standard error of measurement, be readmitted to such a class.

The hearings shall be conducted pursuant to rules and regulations adopted by the State Board of Education.

56508. In exceptional circumstances, after an examination of all pertinent information, including relevant cultural and adaptive behavior data, the admission committee may by unanimous vote agree to place a pupil in a special education class for the mentally retarded in spite of an individual test score higher than two standard deviations below the norm considering the standard error of measurement. The committee shall take notice of and be guided by the legislative intent expressed in Section 56504. Upon such unanimous agreement, a written report indicating the decision of the committee, and the reasons therefor, shall be sent to the parent or guardian of the pupil.

Beginning in the 1971-1972 school year, each school district shall report annually to the Department of Education:

(a) The ethnic breakdown of the children placed in special education classes for the mentally retarded in the district.

(b) The ethnic breakdown of the children newly placed in such classes:

(1) By the standard admissions procedure, and

(2) By the exceptional unanimous consent procedure described in this section.

If the percentage of children from any minority ethnic group in such classes varies by 15 percent or more from the percentage of such children in the district as a whole, an explanation for such variation shall be attached to the report to the Department of Education.

56509. The Superintendent of Public Instruction shall annually report to the State Board of Education on those districts in which there is a significant variance in racial and ethnic composition between special education classes for mentally retarded pupils established pursuant to Sections 56500 to 56534, inclusive, and the regular enrollment of the district.

56510. Mentally retarded pupils who come within the provisions of Section 56501 may be enrolled in integrated programs of instruction conducted by a school district or a county superintendent of schools.

(a) An integrated program of instruction for mentally retarded pupils shall be defined as a program in which mentally retarded pupils, who are enrolled in a special day class taught by a teacher holding a valid credential to teach exceptional children shall be so designated when they are integrated in regular classes in which the content and method of instruction has been modified to the extent the mentally retarded pupils can benefit from such integration.

The school district or county superintendent of schools conducting the integrated program of instruction shall be entitled to an apportionment equal to the amount which would have been credited to them had these pupils been enrolled full time in a special day class

for the mentally retarded.

(b) Whenever the number of mentally retarded pupils is less than six in each of one or more schools of a district or schools served by a county superintendent and the distance between any school also having mentally retarded pupils is excessive, prohibiting the reasonable transportation of pupils, such pupils may be instructed in the regular classes of the district or county with prior approval of the Superintendent of Public Instruction, providing an instructional aide is employed in each such regular class for the regular schoolday and that supervision of the instructional program for mentally retarded pupils is provided by a person holding credentials to teach the mentally retarded. School districts providing integrated programs under this subdivision shall be qualified for the individual apportionment under subdivision (h) of Section 41888.

(c) Such programs shall be conducted in accordance with rules and regulations established by the State Board of Education.

56511. Programs for mentally retarded pupils identifiable pursuant to Section 56502 are:

(a) Special day classes (elementary and secondary). A class established for mentally retarded pupils (as defined by Section 56502). The class shall be maintained for at least the minimum schoolday. The class shall be taught by a full-time teacher whose responsibility is to teach pupils enrolled in the class for the schoolday as established by the governing board for regular classes for pupils who are at the highest grade level in the special class.

(b) An integrated program of instruction. A program for mentally retarded pupils in which mentally retarded pupils, who are enrolled in a special day class taught by a teacher holding a valid credential to teach exceptional children, are integrated in regular classes in which the content and method of instruction has been modified to the extent that mentally retarded pupils can benefit from such integration. Such programs shall be conducted in accordance with rules and regulations established by the State Board of Education.

56512. The maximum enrollment of pupils enrolled in special day classes as defined by subdivision (a) of Section 56511 shall be 18 pupils except that when the chronological age span is more than four years the appropriate maximum enrollment shall be 15 pupils.

The Superintendent of Public Instruction may waive the maximum class size standards prescribed by this section whenever it approves a project submitted by a school district or county superintendent of schools to conduct experimental studies to determine the proper class size standards.

If after the beginning of the school year it is determined that classes are at maximum size, that additional pupils will be without schooling unless additional classes are established, and that additional qualified teachers are not available for employment, or additional classroom space is not available, a school district or a county superintendent of schools may, on forms provided for this purpose by the Department of Education, request permission of the

Superintendent of Public Instruction to exceed the maximum class size for all or a part of the remainder of the school year. The Superintendent of Public Instruction may approve such request for all or a part of the remainder of the school year, provided the maximum size is not increased by more than two pupils above the maximum enrollment specified, and the requesting district has consulted with the specific teacher involved. Such approval, when based on a lack of additional classroom space, shall not be given for any school year commencing July 1, 1977, or thereafter.

56513. Continuance of pupils in special education programs for the mentally retarded authorized under Section 56501 shall be the subject of annual review and recommendation by the local admission committee to determine whether continued placement in the special educational program is appropriate.

56514. No pupil shall be required to participate in a program for mentally retarded pupils unless the local admission committee or a member of the local admission committee appointed by such committee has personally consulted with the parent or guardian of the pupil regarding the retarded intellectual development of the pupil.

56515. The education of mentally retarded pupils who do not come within the provisions of Section 56501, who are six or more, and less than 18 years of age and who may be expected to benefit from special educational facilities designed to educate and train them to further their individual acceptance, social adjustment, and economic usefulness in their homes and within sheltered environment, shall be provided for in the manner set forth in Sections 56500 to 56543, inclusive, and in Sections 1880 to 1889, inclusive, and Section 1856. The education of such mentally retarded pupils who are three or more and less than six years of age may be provided for in the manner set forth in Sections 56500 to 56543, inclusive, and in Sections 1880 to 1889, inclusive, and Section 1856.

Any such pupil who becomes 18 years of age while in attendance upon a special training school or class shall be permitted to continue to attend thereon for the remainder of the time such school or class is maintained during the then current school year.

Notwithstanding other provisions of this section any such pupil who is participating regularly in an approved occupational training program in the manner set forth in Sections 56070 and 56072 may be permitted by the governing board of the district or county superintendent of schools, as the case may be, maintaining such training program to continue thereon until his 21st birthday.

The reference to "21st birthday" in this section is not affected by Chapter 1748 of the Statutes of 1971.

56516. Mentally retarded pupils identified pursuant to Section 56515 shall participate in a special day class program for mentally retarded pupils. The class shall be maintained for at least the minimum schoolday. The class shall be taught by a full-time teacher whose responsibility is to teach pupils enrolled in the class for the

school day established by the governing board for regular classes for pupils who are at the highest grade level in the special class.

56517. The maximum enrollment of pupils in a special day class (as defined by Section 56516) shall be 12 pupils.

The Superintendent of Public Instruction may waive the maximum class size standards prescribed by this section whenever he approves a project submitted by a school district or county superintendent of schools to conduct experimental studies to determine the proper class size standards.

If after the beginning of the school year it is determined that classes are at maximum size, that additional pupils will be without schooling unless additional classes are established, and that additional qualified teachers are not available for employment, or additional classroom space is not available, a school district or a county superintendent of schools may, on forms provided for this purpose by the Department of Education, request permission of the Superintendent of Public Instruction to exceed the maximum class size for all or a part of the remainder of the school year. The Superintendent of Public Instruction may approve such request for all or a part of the remainder of the school year, provided the maximum size is not increased by more than two pupils above the maximum enrollment specified, and the requesting district has consulted with the specific teacher involved. Such approval, when based on a lack of additional classroom space, shall not be given for any school year commencing July 1, 1977, or thereafter.

56518. An annual report shall be made by each school district or county superintendent of schools to the Department of Education indicating the number of eligible pupils under Section 56515 for whom no such education is provided and the reason therefor.

56519. The governing board of any elementary or unified school district which has an average daily attendance of 900 or more in the elementary schools of the district, or any high school district which has an average daily attendance of 900 or more shall provide for the education in special training schools or classes of mentally retarded pupils residing in the district who come within the provisions of Section 56501 and who are not in attendance upon other special training schools or classes maintained under the provisions of Sections 56500 to 56534, inclusive.

The governing board of any elementary or unified school district which has an average daily attendance of 8,000 or more in the elementary schools of the district, and any unified or high school district which has an average daily attendance of 8,000 or more in the high schools of the district shall provide for the education in special training schools or classes of mentally retarded pupils residing in the district who come within the provisions of Section 56515 and who are not in attendance upon other special training schools or classes maintained under the provisions of Sections 56500 to 56534, inclusive.

With the approval of the county superintendent of schools, the governing board of any elementary or unified school district which

has an average daily attendance of less than 8,000 in the elementary schools of the district, and any unified or high school district which has an average daily attendance of less than 8,000 in the high schools of the district may provide for the education in special training schools or classes of mentally retarded pupils residing in the district who come within the provisions of Section 56515 as may be admitted to such schools or classes.

The governing board of any elementary, unified or high school district, required to provide for the education in special training schools or classes of mentally retarded minors residing in the district who come within the provisions of Section 56515, may, with the approval of the Superintendent of Public Instruction, enter into an agreement with a county superintendent of schools for the latter to provide for the education of such mentally retarded pupils.

The governing boards of elementary, unified, and high school districts may enter into agreements for the education in special training schools or classes of mentally retarded pupils residing in the districts. Parties to such agreements providing such agreements are reported through the county superintendent of schools to the Superintendent of Public Instruction.

56520. The Superintendent of Public Instruction shall adopt regulations prescribing the conditions under which the education of mentally retarded pupils under Sections 56501 and 56515 shall be the responsibility of either the elementary schools or the high schools maintained by school districts, and for determining when such pupils in classes maintained by a school district or a county superintendent of schools shall be designated as of elementary or secondary grade for attendance and state apportionment purposes.

56521. The county superintendent of schools of a county with more than 25,000 pupils in average daily attendance, and in which at least 50 percent of the mentally retarded pupils in the county are enrolled in classes conducted by the county superintendent, shall employ at least one full-time certificated person to coordinate activities involved in the preparation, adoption, revision, use and enforcement of a course of study for mentally retarded pupils in special schools and classes conducted by the county superintendent and by school districts in which the county course of study is required to be used. The minimum professional requirement for employment in such position shall be the holding of a regular teaching credential with authorization to teach the mentally retarded.

A county board of education of a county with 25,000 or less pupils in average daily attendance or the governing board of any school district with an average daily attendance of more than 8,000 may cooperate with a county superintendent of schools of 25,000 or more pupils in average daily attendance in the development of a course of study for mentally retarded pupils educated by them.

56522. The governing board of a unified or high school district with an average daily attendance of 900 or more shall provide a four-year secondary school program for each mentally retarded

pupil residing in the district who comes within the provisions of Section 56501 and for whom the district is required to provide an education in special training schools or classes pursuant to Section 56519.

56523. The governing board of any high school district which has an average daily attendance of less than 900 may establish and maintain special training schools or classes for the education of such mentally retarded pupils as may be admitted to such schools or classes by the governing board of the district.

56524. The Department of Education shall establish minimum standards for all such special schools and classes and shall enforce these standards throughout the state.

56525. The governing board of each unified or high school district which is required or authorized to maintain special training schools for mentally retarded pupils who come within the provisions of Section 56501 shall issue a diploma or other certificate of graduation to each person who has met the minimum standards of the State Board of Education for such special schools and such diploma or certificate of graduation shall not contain any notation or other evidence which indicates that the graduate is a mentally retarded person.

56526. The Director of Education shall employ such persons as are necessary to carry out the purposes of Sections 56500 to 56543, inclusive, and of Sections 1880 to 1889, inclusive, and Section 1856.

56527. Before any child is placed in a school or class for mentally retarded children, he shall be given a careful individual examination by a competent psychologist holding a credential for that purpose issued by the State Board of Education or Commission for Teacher Preparation and Licensing, or by a person serving under the supervision of such a psychologist and holding a credential for that purpose issued by the State Board of Education or commission, and a consultation with his parents or guardian held. A psychiatrist may be consulted in any specific case when the governing board of the district deems it necessary.

56528. No examination as specified in Sections 56500 to 56543, inclusive, shall be given if the parent or guardian objects on the ground that such examination is contrary to the religious beliefs of such parent or guardian.

56529. The governing board of any school district otherwise required or authorized to maintain special training schools and classes under Sections 56519 and 56523 for mentally retarded pupils may provide for the education of such pupils in, and for the transportation of such pupils to, special training schools or classes maintained by another school district under Sections 56500 to 56543, inclusive, or by a county superintendent of schools under Sections 1880 to 1889, inclusive, and Section 1856, subject to such terms and conditions as may be agreed upon.

56530. In lieu of entering into an agreement for the transportation of mentally retarded pupils by the school district or

county superintendent of schools, in the special training schools and classes of which the education of such pupils is provided under Section 56529 or 1884, the school district or county superintendent of schools of the county required to provide for their education may provide such transportation.

56531. No person shall be employed as a teacher of mentally retarded pupils who does not hold a valid credential for the education of mentally retarded children. Nothing herein shall be deemed to prohibit the employment, as a substitute teacher of each special training class of mentally retarded children for not more than 20 schooldays in any school year, of a person holding some other valid credential authorizing substitute teaching.

56532. Notwithstanding Section 56531, any person may be employed to teach mentally retarded pupils in a sheltered workshop, occupational training program, or any other vocational education program if that person holds a designated subjects teaching credential in a subject related to the program in which the person is employed.

56533. Individual counseling and guidance in social and vocational matters shall be provided as part of the instructional program for mentally retarded pupils. Upon approval by the Department of Education the governing board of any school district may separately, or in cooperation with the governing board or boards of one or more other school districts, or in cooperation with the Bureau of Vocational Rehabilitation of the Department of Education, employ a special coordinator, who shall make a study of employment and occupational opportunities and shall assist in the coordination of the education of the mentally retarded pupils with the commercial and industrial pursuits of the community, so as to prepare the pupils for employment.

56534. The Superintendent of Public Instruction shall prescribe the procedures for qualifying for and shall determine the amount of the allowances for special regular day classes and for authorized instruction in other than special regular day classes of mentally retarded pupils.

56536. Whenever any school district maintains special training schools or classes for the education of mentally retarded pupils who come within the provisions of Section 56515, or special schools, classes or integrated programs where a qualified special teacher is provided for the education of physically handicapped pupils who come within the provisions of Sections 56700 and 56701, the governing board of the school district may apply to the Superintendent of Public Instruction for an apportionment pursuant to Sections 56536 to 56541, inclusive.

56537. The application shall be made prior to September 1st of each school year in the form and manner prescribed by the Superintendent of Public Instruction and shall include an estimate of the average daily attendance that will be credited to such schools, classes or integrated programs during the school year for which an advance apportionment is requested. Such estimate shall be based

upon the number of pupils residing in the district or in an adjacent district that come within the provisions of Sections 56700, 56701, and 56515 and who will attend such schools, classes or integrated programs, and shall be subject to the approval of the Superintendent of Public Instruction.

56538. Not later than 30 days after such application, the Superintendent of Public Instruction, if he approves, shall apportion to each applicant school district from the State General Fund, as an advance against future apportionments from the State School Fund to such district, an amount equal to the maximum amount allowable for each type of program included in the request per unit of average daily attendance to school districts for the excess expense of educating mentally retarded pupils who come within the provisions of Section 56515, and physically handicapped pupils who come within the provisions of Sections 56700 and 56701 multiplied by eight and the product thereof multiplied by the number of special classes or integrated programs maintained by the applicant school district for such pupils.

56539. The Superintendent of Public Instruction shall furnish an abstract of all apportionments made to school districts of any county under Sections 56536 to 56541, inclusive, to the State Controller, the Department of Finance and to the county auditor, county treasurer and county superintendent of schools of the county and shall certify such apportionments to the State Controller who shall thereupon draw his warrants on the State General Fund in favor of the county treasurer of each county for the amounts apportioned to the districts of the county.

56540. All moneys received by the treasurer of a county under Sections 56536 to 56541, inclusive, shall be credited by the treasurer to the general fund of the school district of the county exactly as apportioned by the Superintendent of Public Instruction.

56541. During the next two fiscal years after the fiscal year in which such apportionment is advanced to a school district under Sections 56536 to 56541, inclusive, the State Controller shall deduct from apportionments made to each such school district from the State School Fund an amount equal to the amount apportioned to such district under Sections 56536 to 56541, inclusive, and pay the same into the State General Fund.

56542. Every mentally retarded, physically handicapped, or multihandicapped pupil, as defined in Section 56030, is entitled to training or an education free of charge in the public schools of this state.

#### CHAPTER 4. EDUCATIONALLY HANDICAPPED PUPILS

##### Article 1. General Provisions

56600. As used in this chapter, "educationally handicapped pupils" are pupils under the age of 21 years who, by reason of marked

learning or behavior disorders, or both, cannot benefit from the regular educational program, and who, as a result thereof, require the special education programs authorized by this chapter. Such learning or behavior disorders shall be associated with a neurological handicap or emotional disturbance and shall not be attributable to mental retardation.

56601. (a) The education of educationally handicapped pupils who are diagnosed as being autistic shall be provided all eligible pupils in the manner set forth in this chapter.

(b) The governing board of any elementary or unified school district which has an average daily attendance of 8,000 or more in the elementary schools of the district, or any high school district which has an average daily attendance of 8,000 or more shall provide for the education, in special education classes or programs, of autistic pupils residing in the district who are not in attendance upon other special education classes or programs.

(c) The county superintendent of schools shall establish and maintain special education classes or programs for autistic pupils who reside in the county and in elementary or unified school districts which have an average daily attendance of less than 8,001 in the elementary schools of the district, or who reside in the county and in a high school district which has an average daily attendance of less than 8,001. The classes and programs shall be established at centrally located places, and the county superintendent of schools shall provide transportation to the pupils attending them.

(d) The State Board of Education shall adopt rules and regulations which shall prescribe standards for special education programs for autistic pupils. Such rules and regulations shall ensure that no county has more than four autistic pupils enrolled in special education classes or program for autistic pupils per 10,000 average daily attendance. The Superintendent of Public Instruction may waive the number of autistic pupils allowed to be served within each county if he determines that such waiver is necessary to meet the exceptional needs of autistic pupils.

56602. The governing board of any school district or a county superintendent of schools with the approval of the county board of education, maintaining schools in juvenile halls or juvenile homes, ranches, or camps as authorized by the Welfare and Institutions Code, may provide for any one or more of the special educational programs for educationally handicapped pupils authorized in this section. A county superintendent of schools may enter into an agreement pursuant to Section 56608 with the governing board of a school district having less than 901 average daily attendance in the elementary schools or less than 901 in the high schools of the district to provide any one or more of such special educational programs for the district, or the county superintendent of schools may enter into an agreement pursuant to Section 56608 with the governing board of a school district having an average daily attendance of 901 or more in the elementary schools of the district or 901 or more in the high

schools of the district to provide only those special educational programs for the district which are set forth in subdivision (a), (c), or (d), or any combination thereof. Whenever a special educational program for educationally handicapped pupils set forth in subdivision (a) or (d) of this section is provided by a county superintendent of schools for a district with an average daily attendance of 901 or more in the elementary schools of the district or 901 or more in the high schools of the district, pursuant to an agreement entered into pursuant to Section 56608, the foundation program prescribed in Section 41704 for an elementary district with an average daily attendance of 901 or more shall apply to educationally handicapped pupils of the elementary schools of the district who are in such a special education program and the foundation program prescribed in Section 41712 shall apply to educationally handicapped pupils of the high schools of the district who are in such a special educational program.

Such special educational programs shall be provided in accordance with standards for each approved by the State Board of Education. Such standards shall emphasize fundamental school subjects with the aim of returning the pupils to the regular school program at the earliest possible date consistent with the interest of the pupil.

The special educational programs for educationally handicapped pupils are:

(a) Special day classes (elementary and secondary). Under this program, educationally handicapped pupils unable to function in a regular class are assigned to a special day class. The special day class shall be maintained for not less than the minimum schoolday. In this program, fundamental school subjects shall be emphasized as prescribed by the State Board of Education.

(b) Learning disability groups (elementary and secondary). In this program, the pupil remains in his regular class but is scheduled for individual or small group instruction given by a special teacher. Whenever one to four educationally handicapped pupils are instructed at the same time by the same teacher in a learning disability group conducted by a school district or county superintendent of schools, the total attendance credited for such pupils shall equal one unit of attendance for each 60 minutes of instruction.

(c) Specialized consultation to teachers, counselors, and supervisors (elementary and secondary). Under this program, specialized consultation is provided teachers, counselors, and supervisors relative to the learning disabilities of individual pupils and special education services required by such pupils.

(d) Home and hospital instruction (elementary and secondary). Under this program, a pupil who is unable to function in a school setting and who does not attend school receives instruction at the appropriate grade level at home or in a hospital.

(e) Regular class instruction. Under this program, whenever the number of educationally handicapped pupils is less than six in each

of one or more schools of a district or schools served by a county superintendent and the distance between any school also having educationally handicapped pupils is excessive, prohibiting the reasonable transportation of pupils, such pupils may be instructed in the regular classes of the district or county with prior approval of the Superintendent of Public Instruction, providing an instructional aide is employed in each such regular class for the regular schoolday, and that supervision of the instructional program for educationally handicapped pupils is provided by a credentialed person having expertise and experience in teaching the educationally handicapped. School districts providing regular class instruction for educationally handicapped pupils under this subdivision shall be qualified for the individual apportionment under subdivision (i) of Section 41888.

56603. The maximum size for the special educational programs for educationally handicapped pupils defined in Sections 56601 and 56602 shall be as follows:

(a) For special day classes the maximum enrollment shall be 12 pupils per class.

If after the beginning of the school year it is determined that classes are at maximum size, that additional pupils will be without schooling unless additional classes are established, and that additional qualified teachers are not available for employment, a school district or a county superintendent of schools may, on forms provided for this purpose by the Department of Education, request permission of the Superintendent of Public Instruction to exceed the maximum class size for all or a part of the remainder of the school year. The Superintendent of Public Instruction may approve such request for all or a part of the remainder of the school year, provided the maximum size is not increased by more than two pupils above the maximum enrollment specified.

(b) For classes for autistic pupils, as defined by the Superintendent of Public Instruction, conducted by a school district or county superintendent of schools, the maximum class size shall be six pupils. The maximum class size prescribed herein may be exceeded upon a determination by the Superintendent of Public Instruction that to do so is in the best interests of the pupils and of the school district or county superintendent of schools maintaining such classes.

(c) For learning disability groups the maximum enrollment shall be 32; however, participation in any given learning disability group shall be for at least 30 minutes and shall not exceed eight pupils at any one time.

The instruction provided by a full-time teacher, whether offered by a single teacher or two or more part-time teachers, shall result in not more than eight units of average daily attendance being credited as the result of such instruction.

56604. The governing board of each school district may provide for instruction of educationally handicapped pupils who reside in all regularly established nonprofit, tax-exempt, licensed children's

institutions within the district. Under such a program, a pupil who is unable to function in a school setting and who does not attend school receives instruction at the appropriate grade level in the institution, or a pupil who resides in the institution and who is able to function in a school setting receives instruction at the appropriate grade level in the public school facilities.

The governing board may contract with the county superintendent of schools for the provision of such programs.

56605. A school district maintaining special educational programs for educationally handicapped pupils shall not enroll at any given time more than 2 percent of total district enrollment in such programs except as permitted by special authorization of the Superintendent of Public Instruction. As used in this section, total district enrollment means the average number of pupils, exclusive of pupils for whom a tuition payment is charged pursuant to Chapter 11 (commencing with Section 42900) of Part 24 of Division 3 of this title, enrolled at the end of the first school month and the sixth school month of the school year.

The superintendent shall report to each regular session of the Legislature (1) the school districts, and county superintendents of schools permitted to exceed the 2 percent during the preceding school year, (2) the number of additional pupils involved, and (3) the reasons existing that resulted in granting the permission requested.

A county superintendent of schools maintaining schools in juvenile halls or juvenile homes, ranches, or camps as authorized by the Welfare and Institutions Code shall not enroll at any given time more than 2 percent of the juvenile population thereof in programs for educationally handicapped pupils except as permitted by the Superintendent of Public Instruction.

The 2-percent limitation prescribed by this section does not include pupils participating in a program for educationally handicapped pupils pursuant to Section 56604.

56606. In any fiscal year, extension of an existing program by a school district or county superintendent of schools which exceeds 120 percent of the enrollment at the end of the sixth school month of the prior year shall receive the prior approval of the Superintendent of Public Instruction before any allowance or apportionment is made therefor for the purposes of this article.

56607. Approval of the Superintendent of Public Instruction pursuant to Section 56606 shall be based on but not limited to the following:

(a) Actual demand for the program as demonstrated by the recommendations for placement by the local admission committee authorized in Section 56610.

(b) District experience in the operation of programs for educationally handicapped pupils.

(c) The demonstrated ability of the district to return educationally handicapped pupils, who can participate effectively, to the regular school program.

56608. The governing board of a school district which has an average daily attendance of less than 901 in the elementary schools of the district or less than 901 in the high schools of the district may enter into agreement with the county superintendent of schools to provide special educational programs for educationally handicapped pupils. The governing board of a school district may enter into agreements with the governing boards of other school districts for the education of educationally handicapped pupils. The district of residence having pupils receiving special education under the provisions of this section shall pay all current expenses entailed in providing such special education which are over and above all state apportionments made to the county superintendent or school district providing the program.

56609. Before initiating any program for educationally handicapped pupils the governing board of a school district or county superintendent of schools shall apply to the Superintendent of Public Instruction for approval to do so and shall furnish such relevant information with respect to such proposed special education programs as may be required by the Superintendent of Public Instruction. Such application and such information shall be on forms provided by the Superintendent of Public Instruction.

56610. (a) Admission of minors to programs for the educationally handicapped established under the provisions of this chapter shall be made only on the basis of an individual evaluation according to standards established by the State Board of Education and upon individual recommendation of an admission committee which shall include an administrator in charge of special education programs in the school district or county or administrator designated by the school district or county superintendent of schools, an experienced special education teacher, a school nurse, and a school psychologist who has examined the child under consideration for eligibility and placement. The admission committee shall use such health reports as are needed to properly evaluate the child. The admission committee shall have the services or presence of other pupil personnel workers, educational specialists, school nurses, social workers, optometrists, or physicians as the committee may require and request.

The recommendation shall include a statement, that in the professional judgment of the members of the admission committee the minor is recommended for placement in a program for educationally handicapped minors to ameliorate a marked learning disability or behavior disorder, or both, associated with a neurological handicap or emotional disturbance, or both. Any member of the admission committee dissenting from the final committee recommendation shall attach to the final recommendation a statement of reasons for such objection and alternative recommendations.

(b) The administrative head of a school district or office of the county superintendent of schools may make an interim placement of a pupil in a program for the educationally handicapped for a period

not to exceed 90 days whenever a pupil transfers into the school district from another school district in which his last enrollment was in a program for educationally handicapped minors, such an interim placement may be made without the complete documentation specified in subdivision (a). Before the expiration of the 90-day period such interim placement shall be reviewed by the admission committee and a final recommendation shall be made by the admission committee in accord with the requirements of this chapter. The committee may utilize information, records, and reports from the admission committee proceedings of the school district or county program from which the pupil transferred.

56611. The admission committee shall annually (1) review the appropriateness of the placement of pupils in special educational programs under the provisions of this chapter and (2) submit recommendations as to the return of such pupils to the regular school program, continuance in the program for the educationally handicapped, transfer to other special educational programs, or referral to other agencies.

56612. Whenever any pupil is being evaluated for placement in a program for the educationally handicapped by an admission committee pursuant to Section 56610 or a review and recommendation procedure is being conducted by an admission committee pursuant to Section 56611, the parent or guardian of the pupil shall have the right to be present at all meetings of the admission committee concerning only that pupil, the right to a 48-hour prior written notice of such meetings, and the right to have a physician, optometrist, psychologist, social worker, or teacher, whether certificated or not, represent the pupil and present additional material, if any, to assist the admission committee in its determination with respect to the pupil.

The representative so selected shall have no decisionmaking power with respect to any determination to be made by the admission committee. The representative so selected may be an employee of the school district.

56613. No pupil shall be required to participate in a program for educationally handicapped pupils unless the admission committee or a member of the admission committee appointed by such committee has personally consulted with the parent or guardian of the pupil regarding the learning disorders of the pupil and the objectives of the program, and the parent or guardian has subsequent to such counseling and prior to participation in a special educational program, filed written consent to such participation with the governing board of the school district or with the office of the county superintendent of schools.

56614. The State Board of Education shall adopt rules and regulations which shall prescribe standards for the individual identification and evaluation of educationally handicapped pupils and their admission to special education programs for educationally handicapped pupils. In arriving at such standards the State Board of

Education shall receive assistance from an advisory committee consisting of one member from the Department of Education and one member from the State Department of Health, such members to be appointed by the heads of the respective departments named. In addition, such advisory committee may consist of such additional members as are appointed by the State Board of Education.

56615. The State Board of Education shall adopt rules and regulations which shall prescribe standards for special educational programs for educationally handicapped pupils which shall include, but need not be limited to, individual evaluation of pupils and curriculum content for each type of program authorized pursuant to this chapter, and provisions for periodic examination, reevaluation, or transfer of educationally handicapped pupils participating in special educational programs maintained for each type of program authorized under the provisions of this chapter.

The Commission for Teacher Preparation and Licensing shall adopt rules and regulations which prescribe standards for teacher qualifications for each type of program authorized pursuant to this chapter.

56616. The testing or screening of all pupils in a particular grade, school, or district shall not be a condition of eligibility for apportionment under the provisions of Article 11 (commencing with Section 41880) of Chapter 5 of Part 24 of Division 3 of this title. In the event the governing board of a school district elects to do such testing or screening, only such tests or screening procedures as are approved by the State Board of Education for this purpose shall be used. School districts intending to do such testing or screening shall give written notice to the parents or guardians of the pupils concerned at least 15 days prior to such testing or screening and shall provide copies of any written instruments to be used for such testing or screening in the office of the principal of the school the pupils attend for examination by such parents or guardians. No pupil shall be required to participate in such screening or testing unless the parent or guardian files prior written consent to such participation with the governing board of such school district.

56617. The Director of Education shall employ such persons as are necessary for the coordination and supervision of services for educationally handicapped pupils.

56618. The Superintendent of Public Instruction shall:

(a) Prescribe the form and manner of notification of intention to initiate a program.

(b) Prescribe the procedures for qualifying for allowances for special day classes, and for authorized instruction in other than special day classes of educationally handicapped pupils.

56619. This chapter may be cited as "The Waldie Act."

Article 2. Educationally Handicapped Minors for Whom No  
Public Facilities Are Available

56630. With the approval of the Superintendent of Public Instruction, any school district having an educationally handicapped pupil as defined by this chapter for whom, because of the severity of the handicap, special education facilities and services are not available and cannot be reasonably provided under the provisions of this chapter, and for whom the State of California has no appropriate special education facilities and services, may, in lieu of establishing and maintaining the needed special education facilities and services at an unreasonable cost to the district, pay to the parent or guardian of such pupil toward the tuition for such pupil, enrolled in a public or private nonsectarian school within or outside of California offering the special education facilities and services made necessary by the pupil's handicap, an amount not to exceed the sum per unit of average daily attendance of the regular state apportionment to the district for the fiscal year in question, the maximum amount allowable per unit of average daily attendance for excess current expenses under Sections 41863 and 41882, and the amount per unit of average daily attendance provided from revenue derived from district taxation for support of the schools of the district. As used in this article "tuition" includes the cost to the parent or guardian of transporting a pupil enrolled in a public or private nonsectarian school under this section to and from school.

56631. A school district having an educationally handicapped pupil receiving the benefits of special education facilities and services under the provisions of Section 56630 shall report the attendance of such pupil and submit any claim the district may have for the regular and special purpose apportionment to be used in payment to the parent or guardian of such pupil toward any tuition arising out of such attendance through the county superintendent of schools to the Superintendent of Public Instruction. The aforementioned report and claim shall be submitted at the time and in the manner prescribed by the Superintendent of Public Instruction. The county superintendent of schools shall verify the attendance reported and claim submitted in the manner prescribed by the Superintendent of Public Instruction.

56632. Upon verification of the attendance reported and the claim submitted, the Superintendent of Public Instruction shall apportion to the school district submitting the report and the claim of the parent or guardian of such pupil for the tuition in question an amount sufficient to satisfy the claim but not in excess of the sum per unit of average daily attendance of the regular state apportionment to the district for the fiscal year in question and the maximum amount allowable per unit of average daily attendance for reimbursement of excess current expenses under Sections 41863 and 41882. The apportionments shall be made from the funds reserved under the provisions of subdivision (c) of Section 41301 for each fiscal

year immediately following the fiscal year in which the attendance occurs.

## CHAPTER 5. PHYSICALLY HANDICAPPED PUPILS

### Article 1. General Provisions

56700. Subject to the provisions of this article and Section 1850, the governing board of any school district may make such special provisions as in its judgment may be necessary for the education of physically handicapped pupils. "Physically handicapped pupil," as used in this article means a physically defective or handicapped person under the age of 21 years who is in need of education.

56701. Any pupil who, by reason of a physical impairment, cannot receive the full benefit of ordinary education facilities, shall be considered a physically handicapped individual for the purposes of this chapter. Such pupils include the following, as defined by the State Board of Education:

- (a) The deaf or hard of hearing.
- (b) The blind or partially seeing.
- (c) Orthopedic or health impaired.
- (d) The aphasic.
- (e) The speech handicapped.
- (f) Other pupils with physical illnesses or physical conditions which make attendance in regular day classes impossible or inadvisable.
- (g) Pupils with physical impairments so severe as to require instruction in remedial physical education.
- (h) Multihandicapped.

56702. Programs for physically handicapped pupils are:

(a) Special day classes (elementary and secondary). A class established for a group of pupils with a similar handicapping condition defined in Section 56701. The special day class shall be maintained for at least the minimum schoolday. The class shall be taught by a full-time teacher whose responsibility is to teach pupils enrolled in the class for the schoolday established by the governing board for regular classes at the grade level of the pupils in the special day class who are at the highest grade level in the class.

(b) Regular day class program. A program of assistance to physically handicapped pupils enrolled in regular day classes who require special services and equipment beyond the services provided to pupils not determined to be physically handicapped to benefit fully from the regular classroom instruction. Such services may include, but are not limited to, supplemental teaching, transportation, teaching aides and specialized equipment.

(c) Integrated instructional programs. A program in which physically handicapped pupils who receive their education in regular classrooms from regular teachers, but receive, in addition, supplementary teaching services of a full-time special teacher

credentialed to teach physically handicapped pupils of the type enrolled in the program. Such special teacher shall serve within the employing or other district being served, such physically handicapped pupils for the full schoolday established by the governing board for regular pupils in the public school or public schools enrolling such physically handicapped pupils.

(d) Remedial instruction. A remedial class providing physically handicapped pupils who are excused in small numbers, for not to exceed one class period or one hour from their regular or special program, remedial instruction or remedial physical education.

(e) Individual instruction. A program of individual instruction to physically handicapped pupils in hospitals, sanitariums, preventoriums, in the home, or under other circumstances as defined by the State Board of Education.

(f) Special speech instruction through speech aides. In counties having a total average daily attendance of less than 30,000 or defined as class five through class eight counties, inclusive, by Section 1205, a program of remediation for speech-handicapped pupils may be conducted through the use of specially trained instructional aides in structured programs of language and articulation under the direction and guidance of a credentialed speech therapist. Reimbursement for such speech instruction shall be as provided by subdivision (j) of Section 41888. No more than two speech aides may be supervised by one speech therapist. The therapist shall be responsible for establishing goals and objectives and evaluating the aide's performance.

56703. The maximum size for any special day class authorized by subdivision (a) of Section 56702 is as follows:

Types of pupils in class	Ages 3	Ages 9
	through 8 years	through 20 years
Deaf .....	6	8
Severely hard of hearing.....	8	10
Combination of deaf and severely hard of hearing.....	6	8
Blind.....	8	10
Partially seeing.....	10	12
Combination of blind and partially seeing.....	8	10
Orthopedic or other health impaired .....	12	16
Aphasic.....	6	8
Other physically handicapped .....	—	20
Deaf-blind multihandicapped .....	3	5
Other multihandicapped.....	6	8

The State Board of Education may waive the maximum class size standards prescribed by this section whenever it approves a project submitted by a school district or county superintendent of schools to conduct experimental studies to determine the proper maximum

class size standards.

If, after the beginning of the school year, it is determined that classes for a given category of physically handicapped pupils are at maximum size, that additional such pupils will be without schooling unless additional classes are established, and that additional qualified teachers are not available for employment, or additional classroom space is not available, a school district or a county superintendent of schools may request permission of the Superintendent of Public Instruction to exceed the maximum class size for the remainder of the school year, using the form provided for this purpose by the Department of Education. The superintendent may approve such request for the remainder of the school year, providing the maximum size is not increased by more than two pupils of that provided herein, and the requesting district has consulted with the specific teacher involved. Such approval, when based on a lack of additional classroom space, shall not be given for any school year commencing July 1, 1977, or thereafter.

56704. The Superintendent of Public Instruction shall promote and direct special instruction in the public schools for physically handicapped pupils. He may employ such professional and other personnel as are necessary for this purpose, and may perform such other duties as are necessary to give full effect to this article.

56705. The Director of Education shall employ such persons as are necessary for the coordination and supervision of services of multihandicapped pupils.

56706. Whenever any pupil is being evaluated for placement in a program conducted pursuant to this chapter by an admission committee established by a school district or county superintendent of schools, the parent or guardian of the pupil shall have the right to be present at all meetings of the admission committee concerning only that pupil, the right to a 48-hour prior written notice of such meetings, and may have a physician, optometrist, psychologist, social worker, or teacher, whether certificated or not, represent the pupil and present additional material, if any, to assist the admission committee in its determination with respect to the pupil.

The representative so selected shall have no decisionmaking power with respect to any determination to be made by the admission committee. The representative so selected may be an employee of the school district.

56707. The Department of Education may prescribe minimum standards for the special education of physically handicapped pupils. No apportionment of state funds shall be made by the Superintendent of Public Instruction to any school district on account of the instruction of physically handicapped pupils unless the standards prescribed for the instruction are complied with.

56708. Any school district furnishing education to physically handicapped pupils pursuant to this article shall furnish such education to all such handicapped pupils actually living within the district five or more days a week, although their legal residence may

be outside the district.

56709. Subject to the provisions of Section 1850, any school district which does not maintain facilities for the education of physically handicapped pupils shall enter into a contract with a school district in the same county, or a county superintendent of schools maintaining such facilities. If there is no district in the same county or county superintendent of schools maintaining such facilities, the governing board of the school district shall enter into a contract with a school district maintaining such facilities in any other county. If the governing board of the district should determine the same to be more economical and practical, it may enter into a contract with a school district situated in another county, in lieu of entering into a contract with the county superintendent of schools or a school district in the county in which such district is situated.

If any question arises concerning the adequacy of the facilities provided for the education of physically handicapped pupils by the school district in which the child is actually living, the parent or guardian of such child may appeal to the county superintendent of schools, and if the county superintendent of schools determines that the facilities offered are inadequate, he shall order the school district in which the child is actually living either to provide the facilities or enter into a contract with a school district maintaining adequate facilities.

Such contract shall provide for the payment of the cost of tuition by the district in which the physically handicapped pupil actually lives and may provide for payment of the cost of the use of the buildings and equipment. The cost of tuition shall not be greater than the difference between current expenditures per unit of average daily attendance, including transportation, or the education of a pupil in the particular category of physically handicapped pupils to which the pupil belongs and the apportionment of state funds for the education of physically handicapped pupils in that category.

The amount shall be determined not later than the last Monday in December and the last Monday in May of each year by the county superintendent of schools of the county in which the child attends schools and certified to the superintendent of schools having jurisdiction over the schools of the school district in which the child actually lives. The amount shall be forthwith paid from any funds of the school district available for that purpose.

56710. The Superintendent of Public Instruction shall adopt regulations (a) to prescribe the conditions under which the education of physically handicapped pupils shall be the responsibility of either the elementary schools or the high schools maintained by school districts, and (b) to determine when such pupils who are in classes maintained by a school district, or a county superintendent of schools, shall be designated in elementary or secondary grades for attendance and state apportionment purposes.

56711. Subject to the provisions of Section 1850 the governing board of a school district may provide for the transportation of pupils

assigned to special schools or classes for physically handicapped pupils, and shall provide transportation for those pupils whose physical handicaps prevent their walking to school.

56712. Subject to the provisions of Section 1850 the governing board of the school district in which any physically handicapped pupil is actually living, although the residence of his parents or guardian is outside the district, shall provide for the transportation of such pupil to the school at which education is furnished, if his handicap prevents his walking to school or if the distance is greater than one mile, regardless of whether such education is furnished within or without the district.

56713. Physically handicapped pupils may be admitted at the age of three years, or upon the prior approval of the Superintendent of Public Instruction, may be admitted at the age of 18 months, to special schools or classes established for such pupils.

When the school district of residence of a pupil between the ages of three and six years who is deaf, blind, orthopedic or other health impaired, aphasic, or multihandicapped does not maintain a special class in the category of the pupil's handicapping condition, but such a special class or special school is maintained by the county superintendent of schools or by another school district, such a pupil shall be admitted to a special school or special class so maintained when all of the following circumstances exist:

(a) The pupil is eligible for enrollment under the regulations of the county superintendent or the governing body of the district maintaining such special class, as applicable.

(b) The governing board of the district or the county superintendent maintaining the special day class is willing to admit the pupil.

(c) The parents of the pupil file a written request that the pupil be so admitted and a physician's statement that the pupil is physically able to attend such a class. Such request and statement shall be filed with the district superintendent of schools when the class is maintained by a school district or with the county superintendent of schools when the class is maintained by the latter.

If a pupil is admitted pursuant to this section, the district of the pupil's residence shall enter into a contract as provided by Section 56709, and the provisions of Section 56709 with respect to payment of cost of tuition and the cost of buildings and equipment shall apply.

56714. Necessary care may be provided during school hours for pupils whose attendance has been irregular because of physical handicaps, and such employees as may be needed may be employed to provide the care.

56715. Subject to the provisions of Section 1850 the governing board of a school district may establish regulations determining who can profit by and who shall receive the special instruction provided by this article. The regulations shall be subject to such standards as may be prescribed by the Department of Education.

56716. Subject to the provisions of Section 1850 physically

handicapped pupils may be instructed in special schools or special classes, in hospitals, sanatoriums, or preventoriums, in the home through the employment of home instructors, by cooperative arrangement with the Department of Rehabilitation, or by any other means approved by the Department of Education.

Pupils with speech disorders or defects may be admitted at school for individual instruction, or small group instruction of four pupils or less, for the purpose of remedying such speech disorders or defects. With the prior approval of the Superintendent of Public Instruction, such pupils may be admitted at the age of 18 months for such instruction.

Pupils who are deaf or hard of hearing, as determined by the State Board of Education, and between the ages of three years and six years may be admitted at school for individual instruction or be instructed in the home through the employment of a home instructor, provided there are fewer than five such educable pupils in the community making the establishment of a special day class impracticable, or the establishment of a special day class for such pupils is impracticable because there are fewer than five such pupils in the community within reasonable travel distance of a school suitable for the establishment of such a special day class, and provided, further, that such instruction is afforded by a teacher or home instructor possessing full qualifications for the credential to teach deaf pupils as prescribed by the regulations of the State Board of Education. With the prior approval of the Superintendent of Public Instruction such pupils may be admitted at the age of 18 months for such instruction.

56717. Pupils between the ages of 3 and 21 and who are multihandicapped, as determined by the State Board of Education, may be enrolled in special day classes for the multihandicapped conducted by a school district or county superintendent of schools. Special day classes for multihandicapped pupils shall be approved in advance by the Superintendent of Public Instruction.

The Superintendent of Public Instruction shall approve not more than 100 classes during the 1970-1971 fiscal year and not more than 50 additional classes each fiscal year thereafter, not to exceed a total of 400 classes.

The Superintendent of Public Instruction shall report annually to the Legislature the progress being made in the education of multihandicapped pupils including but not limited to, the number of authorized classes, the numbers of pupils enrolled, the nature of handicapping conditions of pupils enrolled in classes, a description of the instruction being provided, objectives of the program, achievement outcomes, and recommendations for further program development.

56718. Subject to the provisions of Section 1850 special classes or individual instruction provided for pretuberculous, tuberculous, convalescent, or other physically handicapped pupils in hospitals, sanatoriums, and preventoriums, may be maintained in the

institutions within or without the school district, and the attendance of pupils in the institutions shall be credited to the district providing the instruction. The minimum schoolday for such classes is 180 minutes.

56719. No pupil shall be required to take advantage of the special provisions for the education of physically handicapped pupils if the parent or guardian of the pupil files a statement with the governing board of the school district showing that the pupil is receiving adequate educational advantages.

56720. Subject to the provisions of Section 1850 a pupil with cerebral palsy may attend a special school or class maintained by any school district for pupils with cerebral palsy. The governing board of the district of residence shall pay to the district of attendance at the close of each school year the total current expenditures of the district of attendance, for the education of such pupil during such school year, less all apportionments of state and federal funds made on account of the attendance of such pupils. The governing board of the district of residence may agree to reimburse the district of attendance for use of buildings and equipment. If the district of residence has insufficient funds to make such payment, the county superintendent of schools having jurisdiction over the district of residence shall apportion to the district from the county school service fund such sum as may be necessary to permit the district to meet its obligation under this section.

56721. The Superintendent of Public Instruction shall prescribe the procedures for qualifying for, and shall determine the amount of the allowances for special regular day classes and for the authorized instruction in other than special regular day classes of physically handicapped pupils.

56722. The Department of Education may appoint counselors to assist blind pupils attending public schools in the state to solve problems in connection with their school program. The counselors may visit blind pupils attending any public school in the state, in their homes to advise them and discuss with their parents the solution of problems pertaining to their school attendance. The counselors shall be available to teachers and administrators in the public schools where blind pupils are in attendance to advise and counsel them regarding the best methods and procedures for teaching blind children. The counselors shall be persons who have had special training for such work, and shall be thoroughly familiar with problems peculiar to the blind and their public school education. Blindness shall not be grounds to disqualify persons for these positions.

56723. Individual counseling and guidance in social and vocational matters shall be provided as part of the instructional program for physically handicapped pupils. Upon approval by the Department of Education the governing board of any school district may separately, or in cooperation with the governing board or boards of one or more other school districts, or in cooperation with the

Department of Rehabilitation, employ a special coordinator, who shall make a study of employment and occupational opportunities and shall assist in the coordination of the education of the physically handicapped pupils with the commercial and industrial pursuits of the community, so as to prepare the pupils for employment.

56724. The Department of Employment Development shall, through the State Employment Development Service, cooperate with local school officials and the State Department of Education in the placement of physically handicapped individuals.

56725. No person shall be employed to teach blind, partially seeing, deaf, hard-of-hearing, speech-handicapped, or orthopedically handicapped pupils in a special day or remedial class for such pupils who does not hold a valid credential authorizing such teaching or a designated subject credential in the area of vocational education. Nothing herein shall be deemed to prohibit the employment, as a substitute teacher of each such special day class for not more than 20 schooldays in any school year, of a person holding some other valid credential authorizing substitute teaching. Upon application by the school district or county superintendent of schools the Superintendent of Public Instruction may approve an extension of the 20-day period for a given person but not beyond the end of the school year in which submitted.

56726. On and after September 1, 1975, no person shall be employed to teach deaf, severely hard-of-hearing, blind, partially seeing, aphasic, or speech-handicapped pupils in the home, hospital, or licensed children's institution who does not hold a valid credential authorizing such teaching.

Nothing in this section shall be deemed to prohibit the employment of a person holding some other valid credential authorizing substitute teaching for not more than 20 schooldays in a given school year to serve as a substitute for the appropriately credentialed teacher absent because of illness or other reason acceptable to the employing school district or county superintendent of schools.

Upon application by the school district or county superintendent of schools the Superintendent of Public Instruction may approve an extension of the 20-day period for a given person but not beyond the end of the school year in which submitted.

56727. On and after September 1, 1975, no person shall be employed to teach multihandicapped pupils, as defined in Section 56701, who does not hold a valid credential to teach exceptional children.

56728. Notwithstanding Section 56725, 56726, or 56727, any person may be employed to teach physically handicapped pupils in a sheltered workshop, occupational training program, or any other vocational education program if that person holds a designated subjects teaching credential in a subject related to the program in which the person is employed.

56729. The Department of Education may cooperate with the

American Printing House for the Blind in the provision and distribution of Braille books and other materials and equipment available from the American Printing House for the Blind for the use of blind pupils in the public schools of California under the provisions of an act entitled: "An act to amend the act to promote the education of the blind, approved March 3, 1879, as amended, so as to authorize wider distribution of books and other special instructional material for the blind, to increase the appropriations authorized for this purpose, and for other purposes," approved August 2, 1956 (Public Law 922, 84th Congress, 2d Session).

## Article 2. Schools and Classes in County Institutions

56750. Whenever a school district maintains a school or classes at a tuberculosis or polio ward, hospital or sanatorium established and maintained by a county or group of counties, any person who has been admitted to such ward, hospital or sanatorium is, if otherwise qualified, eligible to attend such school or classes but shall be deemed to be, for the purposes of this code, a resident of the school district in which he resided prior to his admission to such tuberculosis or polio ward, hospital or sanatorium.

The minimum schoolday for such classes is 180 minutes. Whenever two or more districts are authorized and operate such schools or classes the governing boards of the districts may jointly employ personnel to administer and conduct the programs.

The school district maintaining the school shall, no later than 30 days following the date of enrollment of a student who resides in another school district under this section, notify the district of residence of the student's enrollment.

56751. The cost for a school year of educating any person who attends such a school or class and who is deemed to be a resident of the district in which he resided prior to his admission to such tuberculosis or polio ward, hospital, or sanatorium shall be paid by the school district of which any such person is a resident to the district maintaining a school or class in which such person is enrolled pursuant to this article.

Pupils in such schools or classes shall be apportioned excess cost apportionments for handicapped pupils as stated elsewhere in this code.

The Superintendent of Public Instruction shall adopt standards and regulations relating to administration, attendance, accounting and counseling in hospital schools and classes.

No interdistrict attendance agreement is required for the attendance described by this section but the provisions of Chapter 5 (commencing with Section 46600) of Part 26 of this division, relating to crediting average daily attendance and tuition, shall apply to such attendance.

56752. Not later than July 15th of each year, the district maintaining such school or classes shall forward its claim to the

district of residence, for the cost of educating persons who are residents of such district during the preceding school year, and the governing board of such district shall upon the receipt thereof pay such claim.

## CHAPTER 6. DEVELOPMENT CENTERS FOR HANDICAPPED PUPILS

### Article 1. General Provisions

56800. The purpose of the Legislature in enacting this chapter is to recognize that each severely mentally retarded or physically handicapped pupil eligible for enrollment in development centers, as defined in this chapter, is entitled to an appropriate program in the public schools of this state. Such centers have successfully demonstrated that there is a need for programs to provide for pupils from an earlier age; that such centers can prevent the breakup of families; and that such centers reduce the need for institutional placement.

It is the further intent of the Legislature that during the period between July 1, 1974, and September 1, 1978, there be an orderly phase-in of pupils identified as being eligible for the program, so that by September 1, 1978, all eligible pupils shall be served.

56801. This chapter shall be known and may be cited as the Alan Short Development Centers for the Handicapped Act of 1974.

56802. The governing body of any school district or a county superintendent of schools with the approval of the county board of education is authorized to establish and maintain, upon the approval of the Superintendent of Public Instruction, one or more development centers for physically handicapped and mentally retarded pupils between 3 years and 21 years of age residing in, and in the custody of persons residing in, the district or county. The governing body or county superintendent shall determine the hours, days, and months during which the development center is to be maintained.

The establishment and maintenance of any development center for physically handicapped and mentally retarded pupils by the county superintendent of schools shall be undertaken subject to the prior approval of the county board of education, upon the application of one or more school districts under his jurisdiction, and such establishment and maintenance shall be upon such terms and conditions as may be provided for in a written contract between the county superintendent of schools and the governing body of any school district.

Pupils who are otherwise eligible for development center placement as determined by the Superintendent of Public Instruction, and who are between 18 months and 3 years of age, may be enrolled in experimental programs conducted by a school district or county superintendent of schools maintaining a development

center. Experimental programs for such pupils shall be approved in advance by the Superintendent of Public Instruction and shall be conducted in accordance with rules and regulations established by the State Board of Education.

This section shall remain in effect only until September 1, 1978, and as of such date is repealed, unless a later enacted statute, which is chaptered before September 1, 1978, deletes or extends such date.

56803. As used in this chapter, "parent" includes any person having legal custody of a child, "center" means a development center for handicapped pupils, "governing board of any school district" includes a county board of education, and "school district" includes a county superintendent of schools, unless a different meaning clearly appears from the context.

56804. (a) The governing board or county superintendent shall annually certify to the Superintendent of Public Instruction that each child enrolled in a development center for handicapped pupils has been found to be eligible for such program by the local admissions and evaluation committee pursuant to eligibility requirements established by the State Board of Education.

(b) The governing board or county superintendent of schools maintaining a center shall annually report to the Superintendent of Public Instruction the number of pupils identified as eligible for center programs in the jurisdiction and the number of pupils enrolled in such programs.

56805. The State Board of Education shall establish and the Superintendent of Public Instruction shall enforce reasonable and uniform standards for development centers for handicapped pupils, and shall establish standards for the admission of a child. The board may change the standards whenever it deems it advisable. However, in no case shall the State Board of Education adopt any rule or regulation which precludes enrolling or maintaining of a pupil in a development center on the basis of any means test. Eligibility for enrollment shall be based on the physical and mental handicapping conditions of each pupil.

56806. With the consent of the parent or guardian, each eligible handicapped pupil, between 3 years and 21 years of age residing in the district, shall be enrolled by the district in either a center maintained by the district or a center maintained pursuant to a contract for the district. If a parent or guardian seeks to enroll his child in a center and enrollment is denied, or if a parent or guardian disagrees with the proposed enrollment of a child in a center, provision shall be made for a fair hearing, including prior notice and an opportunity to be heard, on the issue of whether or not the child shall be enrolled.

The State Board of Education shall adopt rules and regulations relating to the conduct of such hearings.

The hearing may be before the board itself or before a panel composed of persons designated by the board and the parent or guardian.

Each governing board shall adopt rules and regulations relating to the conduct of such hearings.

56807. A governing board maintaining a center may accommodate in the center children residing in another district upon such terms and under such conditions as may be agreed upon by the governing boards of both districts. Such terms and conditions shall include the payment of the cost required or authorized to be paid from the district general fund or a special development center tax levied by the operating district. The amount shall be paid from any funds of the contracting school district available for that purpose.

56808. The governing board may permit the use of, and furnish maintenance for, buildings, grounds, and equipment of the district, and may use existing administrative personnel for the purposes of this chapter.

56809. The governing board may enter into agreements with any city, county, or city and county or other public agency for the furnishing to, or use by, the governing board in carrying out the provisions of this chapter, of property, facilities, personnel, supplies, equipment and other necessary items, and such city, county, city and county, or other public agency is authorized to enter into such agreements.

Agreements for the furnishing of property, facilities, supplies, equipment, and other necessary items may be entered into between governing boards and private nonprofit entities.

56810. The Superintendent of Public Instruction shall apportion state funds to the districts or county superintendents of schools in such amounts as are necessary for the operation of such centers, except that in no event shall the amount apportioned exceed the sum obtained by multiplying one dollar and seventy-five cents (\$1.75) and the number of hours of child attendance earned by such center.

56811. Pursuant to Section 45020, Chapter 2 (commencing with Section 14200) of Part 9 of Division 1 of Title 1, Chapter 6 (commencing with Section 42100) to Chapter 8 commencing with Section 42400), inclusive, Article 1 (commencing with Section 42600), and Article 2 (commencing with Section 42610) of Chapter 9 of Part 24 of Division 3 of this title, the governing board of any school district or county superintendent of schools maintaining a center may include in its budget the amount necessary to carry out its program pursuant to this chapter and the board of supervisors shall levy a school district tax or county tax necessary to raise such amount. The tax shall be in addition to any other school district tax or county tax authorized by law to be levied.

Funds derived from such tax may be expended in addition to state funds, and shall not operate to affect the operation of the formula for apportioning state funds provided for in Section 56810.

Any tax funds raised pursuant to this section may be used to purchase land or buildings, to make alterations or additions to existing buildings, and to purchase furniture, apparatus or equipment for a center.

56812. (a) State support, in accordance with the formula specified in Sections 56810 and 56830, shall be provided during the 1975-76 fiscal year for the number of pupils enrolled in centers on the effective date of this section for whom no state support was provided.

(b) The tax rate for the support of a school district or county superintendent of schools is reduced for the 1975-76 fiscal year by the amount sufficient to reduce the local tax revenues of the entity by the amount which the entity will receive pursuant to subdivision (a).

56813. Any school district which has entered into a contract with a county superintendent of schools or with another school district and any county superintendent of schools who has entered into a contract with a school district or another county superintendent of schools for services of a center shall be deemed for the purpose of Section 56811 to be maintaining a center.

56814. In addition to any other payments required by this chapter, where the education of handicapped pupils is provided in development center buildings or facilities owned by the school district or county superintendent of schools, the county or city and county of the pupil's residence shall pay to the school district or county superintendent of schools, for the pupil's use of the buildings and facilities and appurtenant equipment, an amount per unit of average daily attendance of such pupils during the school year prescribed by whichever of the following subdivisions is applicable:

- (a) Thirty-five dollars (\$35) if an elementary school district.
- (b) Fifty-five dollars (\$55) if a high school district.
- (c) Forty-two dollars (\$42) if a unified school district.
- (d) Forty-four dollars (\$44) if a county superintendent of schools.

The moneys so received by the school district shall be deposited to the credit of its bond interest and redemption fund or its building fund. The moneys so received by the county superintendent of schools shall be deposited to the credit of the county school service fund of the county for use in providing school buildings and facilities for the use of the county superintendent of schools in establishing and maintaining development centers.

56815. The governing board shall establish in the county treasury a fund to be known as the "development center for handicapped pupils fund" into which shall be paid all funds received by the district for, or from the operation of, centers established pursuant to this article. The costs incurred in the maintenance and operation of centers shall be paid from the fund.

No other funds of a district derived from the receipts of district taxes, except a district tax levied under Section 56811, or derived from moneys apportioned to the district for the support of the schools thereof, except state moneys expressly appropriated from the General Fund for the support of centers, may be expended for, or in connection with, a center.

56816. Contributions authorized or required by law to be paid by the district to a retirement system on account of services of employees of a center rendered in connection with center services

furnished to persons participating in a work incentive program pursuant to Section 432 of the Social Security Act.

56817. If during any fiscal year there is apportioned to the "development center for handicapped pupils fund" more or less than the amount to which the fund was entitled, the Superintendent of Public Instruction during the next or any succeeding fiscal year shall withhold from, or add to, the apportionment during such next or succeeding year, the amount of such excess or deficiency.

56818. The county superintendent of schools shall establish and maintain development centers for handicapped pupils who reside in the county and in elementary or unified school districts which have an average daily attendance of less than 8,000 in the elementary schools of the districts or in unified or high school districts which have an average daily attendance of less than 8,000 in the high schools of the districts, whenever such districts have not entered into a contract with other counties or districts to provide such programs.

Any elementary or unified school district which has an average daily attendance of more than 8,000 in the elementary schools of the district and any unified or high school district which has an average daily attendance of more than 8,000 in the high schools of the district shall establish and maintain development centers for the handicapped.

The county superintendent of schools may establish development centers for handicapped pupils who reside in any district within the county with the approval of the county board of education and the agreement of the governing board of the school district.

Any elementary or unified school district which has an average daily attendance of less than 8,000 in the elementary schools of the district and any unified or high school district which has an average daily attendance of less than 8,000 in the high schools of the district, with the approval of the county superintendent of schools, may establish and maintain programs for such pupils.

The county superintendent of schools required to provide development centers for handicapped pupils may, with the approval of the Superintendent of Public Instruction, enter into agreements with an elementary, unified or high school district for the latter to provide for the education of such handicapped pupils.

Pupils who are otherwise eligible for development center placement as determined by the Superintendent of Public Instruction, and who are between 18 months and 3 years of age, may be enrolled in experimental programs conducted by a school district or county superintendent of schools maintaining a development center. Experimental programs for such pupils shall be approved in advance by the Superintendent of Public Instruction and shall be conducted in accordance with rules and regulations established by the State Board of Education.

This section shall become operative on September 1, 1978.

56819. The Department of Education is hereby authorized to accept funds from the government of the United States and to

apportion them to the governing board of such school districts as conduct centers which are hereby authorized to accept such funds or funds from any other source for any of the purposes of this chapter and all such funds may be accepted subject to such conditions as will further the purposes of this chapter.

56820. The Superintendent of Public Instruction shall establish standards for the issuance of permits for persons to be employed in centers established under this chapter. Such standards may be changed from time to time, but changes therein shall not affect then valid permits issued to persons.

56821. The governing board shall employ in a center only such persons who hold credentials issued by the State Board of Education or Commission for Teacher Preparation and Licensing or permits issued by the commission. The filing with the county superintendent of schools of a regulation of a governing board or a public health agency requiring a physical examination of persons employed in centers shall be deemed to be the issuance of a valid permit except for persons employed in positions pertaining to the supervision and training of children or supervision of a center program. Each person employed by the governing board of a school district for a position requiring a credential or permit shall, not later than 60 days after the date fixed by the governing board of the district for the commencement of his service, file with the county superintendent of schools a valid credential or permit issued on or before said date, authorizing him to serve in the position for which he was employed, and must, not later than 60 days after the renewal thereof, file the renewed credential or permit in the same manner. A school district or a county superintendent of schools maintaining one or more centers shall designate one person in each center to serve as a supervising head teacher. Such supervising head teacher shall hold a valid credential to teach exceptional children.

56822. Each person employed in a center in a position requiring certification shall be subject to the same rules and regulations and eligible for the same benefits as provided for all teachers within the school district maintaining the center. Other personnel employed by a school district or a county superintendent of schools in a center under the provisions of this chapter shall be deemed for all purposes, including retirement, to be a person employed by the school district in a position not requiring certification qualifications; provided, however, that any person who is a member of the State Teachers' Retirement System because of employment to perform duties which are requisite for membership and who subsequently is employed by a school district or a county superintendent of schools in a center under the provisions of this chapter shall continue to be a member of the State Teachers' Retirement System with respect to his duties as such employee in such a center upon assuming such duties, unless he elects by a writing filed in the office of the State Teachers' Retirement System within 90 days after such entry, not to continue as a member with respect to his new duties. The provisions of this

section shall apply with equal effect to any member who shall have been employed by a school district or county superintendent of schools in a center under the provisions of this chapter prior to the effective date of this section. Continuance of his membership in the State Teachers' Retirement System of any person so employed prior to the effective date of this section, is hereby ratified, validated and confirmed, and for all purposes he shall be considered as having been a member without interruption as far as such employment is concerned, unless such person elects within 90 days after the date upon which notice of such right to elect, is mailed by the State Teachers' Retirement System to the member's latest address on file in the office of said system, not to be a member of the system with respect to the duties which, but for the provisions of this section, otherwise would not be so requisite for membership therein.

56823. The governing board may adopt such reasonable rules and regulations governing the center or centers maintained by it as are not in conflict with the law or the standards and regulations established for centers by the State Board of Education. The rules and regulations adopted by the governing board may include, among others, rules and regulations relating to the admission of children to, and their exclusion from, such center or centers.

56824. No standard, rule or regulation shall require medical examination or immunization for admission to a center of a child whose parent or guardian files a letter with the governing board of the school district stating that such medical examination or immunization is contrary to his or her religious beliefs, or provide for the exclusion of a child from the center because of parent or guardian having filed such a letter; provided, however, that whenever there is good cause to believe that a child is suffering from a recognized contagious or infectious disease, the child may be temporarily excluded from the center until the governing board of the school district is satisfied that any contagious or infectious disease does not exist.

56825. Children regularly enrolled in a center who are absent on account of illness or quarantine shall be considered to be in regular attendance for the number of hours per day for which they are enrolled for the purpose of reporting attendance for state apportionments, whenever the school district certifies that such absence was on account of illness or quarantine and is verified by the district in such manner as the Superintendent of Public Instruction shall require. All attendance shall be recorded and reported in accordance with the requirements of the Superintendent of Public Instruction.

56826. Any center may be discontinued at any time at the discretion of the governing board of the district upon the giving of the notice herein prescribed.

Not less than 30 days before the discontinuance of a center the governing board shall mail to each person having custody of a child in attendance at such center a notice of the intended discontinuance

of the center and the date the discontinuance will become effective, and shall post a similar notice at the center.

56827. Any unencumbered balance remaining in a district "development center for handicapped pupils fund" may be deposited in the general fund of the school district one year after the discontinuance of its center program pursuant to Section 56826.

56828. The governing board shall insure against the liability, other than a liability which may be insured against under Division 4 of the Labor Code, imposed upon the district by any law of this state, in any insurance company authorized to do business in this state. The cost of such insurance shall be paid out of the "development center for handicapped pupils fund" of the district.

56829. An Advisory Committee on Development Centers for Handicapped Pupils shall be established to aid in setting standards for admission to centers, and to advise the Department of Education in the administration and operation of centers. The advisory committee shall consist of one member from the Department of Benefit Payments to be appointed by the Director of Benefit Payments, one member from the State Department of Health to be appointed by the Director of Health, one member from the Department of Education to be appointed by the Director of Education, one lay member from the general public and one parent of a handicapped pupil to be appointed by the Director of Education, and four members each from a school district or a county superintendent of schools office participating in the program to be appointed by the Director of Education. The member from the Department of Education shall serve as secretary of the committee.

The members of the committee shall serve without compensation, except that they may receive their actual and necessary expenses incurred in the performance of their duties and responsibilities, including travel expenses.

56830. The governing board of any school district, or any county superintendent of schools, may provide for the transportation of pupils between their homes and the center attended by them as provided by a school district, or may make payments to parents or guardians for providing transportation.

The Superintendent of Public Instruction shall allow to each school district or county superintendent of schools an amount equal to the current expense of transporting severely handicapped pupils or making payments to parents or guardians for such purpose, but not to exceed the cost of six hundred seventy-five dollars (\$675), for each unit of average daily attendance in a center per year resulting from the attendance of such pupils transported between home and the center. Average daily attendance as used herein shall be determined on the basis of 230 days per year.

56831. The Director of Education shall employ such persons as are necessary to the coordination and supervision of services provided by development centers for the handicapped.

56832. Whenever a school district governing board or county

superintendent of schools is required to close temporarily a development center maintained under this chapter, because of fire, flood, epidemic, an order described in Section 41422, or other emergency, the Superintendent of Public Instruction shall determine the approximate amounts of state funds which would have been earned under Section 56810 by the school district or county superintendent for the period involved if there had been no closure. The amount so determined shall be granted to the school district or county superintendent of schools provided that the fact of such closure has been established to the satisfaction of the Superintendent of Public Instruction by the affidavits of the county superintendent of schools or of the members of the governing board of any such school district involved.

56833. Notwithstanding any other provisions of this chapter or of Article 3 (commencing with Section 16190) of Chapter 8 of Part 10 of Division 1 of Title 1, whenever the school district wherein the development center is located does not have adequate facilities to provide for the education of physically handicapped or mentally retarded pupils in development centers, such school district shall apply pursuant to Section 16200 for such funds as may be necessary to construct needed facilities for the education of such pupils. The applicant school district shall accept such funds as are disbursed pursuant to the application whether or not the funds constitute the maximum amount applied for, and shall repay such funds in accordance with the provisions of Article 3 (commencing with Section 16190) of Chapter 8 of Part 10 of Division 1 of Title 1.

In addition to the payments required by Section 56814 when the district is providing education to any physically handicapped or mentally retarded pupils in a development center, facilities constructed pursuant to an application and apportionments under Section 16200, the county or city and county of the pupil's residence shall pay to the school district maintaining such facilities a pro rata share of the repayment required pursuant to Section 16200. The pro rata share shall be based upon the ratio in the previous fiscal year of units of average daily attendance of physically handicapped or mentally retarded pupils being educated in development centers from the county or city and county of residence to the total number of such units of average daily attendance. Payments so received by the school district maintaining the facilities shall be deposited in the general fund of the district to offset amounts withheld by the State Controller pursuant to Section 16200.

56834. The enrollment of otherwise eligible pupils shall be on a first-come, first-served basis. Enrollment priorities shall not favor the admission of an otherwise eligible pupil living with a parent or guardian over an otherwise eligible pupil living in an out-of-home residential placement who has applied earlier in time for admission if such pupil is a resident of the school district, or if the pupil is not a resident of the school district but an interdistrict attendance agreement has been made with the district of residence pursuant to

## Section 56807.

## Article 2. Admission of Residents of Children's Homes

56865. The governing board of a school district or a county superintendent of schools which maintains and operates one or more development centers for handicapped pupils may admit to such centers pupils who live in regularly established licensed children's institutions or in a family home, pursuant to a commitment or placement under Chapter 2 (commencing with Section 500) of Part 1 of Division 2 of the Welfare and Institutions Code, located either within or without the district or county.

In the event that a child lives in a regularly established licensed children's institution or in a family home, pursuant to a commitment or placement under Chapter 2 (commencing with Section 500) of Part 1 of Division 2 of the Welfare and Institutions Code in a school district or county which maintains and operates a development center for handicapped pupils, the governing board of such a school district or the county superintendent of schools may admit such a pupil, provided that the county board of education of the county or city and county in which the child resided prior to his admission to the children's institution or family home approves of the admission and agrees to reimburse the school district or county maintaining the development center for the actual local costs of educating each such child.

If the child's prior residence cannot be ascertained or if his residence was outside the state, the district or county shall be reimbursed for the actual local cost of educating such pupil by the county or city and county in which the institution or family home is located, provided that admission has been approved by the county board of education of that county. The pupil residing in an institution or family home under this section does not acquire residence in the district wherein the institution or family home is located during the period of living in the institution or family home.

Claims by a school district or county superintendent of schools for actual local cost of educating pupils admitted to development centers for handicapped pupils shall be processed and paid in the same manner as provided in this chapter for other pupils and the applicable provisions of this chapter shall govern the process and payment of such claims.

## PART 31. EXPERIMENTAL SCHOOL PROGRAMS

## CHAPTER 1. DEMONSTRATION SCHOLARSHIP ACT OF 1973

## Article 1. General Provisions

58000. This chapter shall be known and may be cited as the Demonstration Scholarship Act of 1973.

It is the intent of the Legislature to enable one or more school districts in the State of California to participate in no more than four demonstration programs designed to develop and test the use of education scholarships for schoolchildren.

58001. The Demonstration Scholarship Program is designed to test the proposition that permitting schoolchildren and parents to choose among schools, including schools offering differing approaches to instruction will develop a school system more responsive to the students it serves.

The program in each participating school district shall be designed to produce maximum flexibility and versatility in all aspects of the development of the program including, but not limited to, budgeting, research, evaluation, parent-teacher relations, curriculum, and staffing.

58002. As used in this chapter:

(a) "Demonstration Scholarship Program" means a program for developing and testing the use of demonstration education scholarships for schoolchildren in kindergarten and grades 1 to 12, inclusive, or any combination thereof.

(b) "Demonstration area" means the area located within the boundaries of a school district designated by the participating local board for the purposes of a demonstration program.

(c) "Scholarship" means the drawing right, certificate or other document made available to participating parents or legal guardians by the demonstration board, which may not be redeemed except by participating schools which satisfy the requirements of this chapter.

(d) "Demonstration board" means a high school, unified or elementary school district governing board, or a combination of such school district governing boards or a board appointed by the participating local board or boards for the duration of the demonstration under the terms and conditions established by the local board or boards, contracting with a state or federal governmental agency to conduct a demonstration scholarship program.

(e) "Participating school" is a school located within the boundaries of a school district which has been selected by a demonstration board to receive demonstration scholarships, and otherwise meets the requirements of this chapter.

(f) "Contract" means the agreement entered into by a local board and a state or federal governmental agency for the purpose of conducting a demonstration scholarship program.

(g) "Participating local board" means the governing board of a school district participating in a demonstration scholarship program.

## Article 2. Establishment and Administration

58010. There is hereby established the Demonstration Scholarship Program, to exist for not more than seven years commencing upon the effective date of this section.

58011. A school district governing board, or combination of school district governing boards, may contract with a state or federal governmental agency to establish a demonstration scholarship program and to receive funds to support such programs. There shall be no more than four demonstration scholarship programs.

58012. Any decision by a governing board to participate in a demonstration scholarship program, and any decision by the board relating to such a program, is a proper subject for meeting and conferring under Chapter 2 (commencing with Section 7100) of Part 5 of Division 1 of Title 1.

58013. The demonstration board shall control and administer the demonstration program, and shall adopt rules and regulations for the efficient administration of the demonstration scholarship program. These rules and regulations shall provide for the following:

(a) Comprehensive information on all eligible schools, as defined in Section 58019, shall be disseminated by the demonstration board to the parent or guardian of each eligible child in the demonstration area within a reasonable period of time prior to the commencement of the school year for which the demonstration scholarships are to be issued.

Provision shall be made to advise all eligible recipients of the opportunities available to them under this chapter.

(b) The demonstration board shall ascertain that no arbitrary action by any school would invalidate the admissions standards established in this chapter, and may review, approve or disapprove the expulsion or suspension of any student by any eligible school.

There shall be an advisory board consisting of parents, teachers, administrators, and other appropriate persons selected by such procedures as may be developed by the demonstration board.

58014. The scholarship funds may be made available for the 1973-74 school year, and for each subsequent year of the demonstration.

58015. The demonstration board shall award a scholarship to each schoolchild residing in the demonstration area, subject only to such age and grade restrictions which it may establish.

The scholarship funds shall be made available to the parents or legal guardian of a scholarship recipient in the form of a voucher, drawing right, certificate, or other document which may not be redeemed except by participating schools which satisfy the requirements of this chapter.

58016. All scholarships are exempt from state income taxes.

58017. The demonstration board shall establish the amount of the scholarship in a fair and impartial manner, as follows:

(a) There shall be a basic scholarship for every eligible student in the demonstration area. The method of computing the value of the scholarship shall be included in the contract.

(b) In addition, there shall be a compensatory scholarship for disadvantaged children. The amount of such compensation scholarships and the manner by which children may qualify for them

shall be included in the contract.

58018. The contract shall provide for additional pupil transportation costs incurred by the district as a result of the demonstration. The contract shall provide funds for increased costs by the transition and operation of a demonstration scholarship program.

58019. The demonstration board shall authorize the parents or legal guardian of scholarship recipients to use the demonstration scholarships at any school in which the scholarship recipient is enrolled which also:

(a) Meets all health and safety standards required by law.

(b) Does not discriminate in the admission of students and the hiring of teachers on the basis of race, religion, color, national origin, economic status, political affiliation, or sex and has filed a certificate with the State Board of Education that the school is in compliance with Title VI of the Civil Rights Act of 1964 (Public Law 88-352); and provides that students from disadvantaged racial or bilingual minority groups be admitted in proportion as such students make application; and takes an affirmative position to secure a racially, ethnically, and socioeconomically integrated student body which shall, to the greatest possible extent, reflect the racial, ethnic, and socioeconomic composition of the demonstration area. Any school that receives applications in excess of enrollment capacity shall fill at least 50 percent of its enrollment capacity by a lottery among the applicants, to further assure nondiscriminatory admissions procedures, except when the contract provides that students currently enrolled and their younger siblings are not subject to the lottery. Enforcement of this subdivision shall be vested in the demonstration board. The demonstration board shall immediately investigate all complaints of violations of this subdivision and, after adequate notice and hearings, shall suspend redemption of any scholarships by any school in violation of this subdivision. The decision of the demonstration board shall be final, except that nothing in this subdivision shall be construed so as to deny judicial review. In the event an otherwise eligible school is subsequently found to be ineligible, the demonstration board shall immediately notify the parents of the students in attendance of such ineligibility. In such a case the district shall provide for the continuing education of the child at another school.

(c) In no case levies or requires any tuition, fee, or charge to the participating student above the value of the education scholarship.

(d) Files with the demonstration board a statement of financial responsibility in compliance with standards established by the demonstration board.

(e) Provides public access to all financial and administrative records and provides to the parent or guardian of each eligible child in the demonstration area comprehensive information, in written form, on the courses of study offered, curriculum, materials and textbooks, the qualifications of the teachers, administrators, and

paraprofessionals employed, the minimum schoolday, the salary schedules, the actual amount of money spent per pupil and such other information as may be required by the demonstration board. In no case shall the public have access to personal information concerning individual pupils without the express approval of the students' parents or guardians.

(f) Offers a comprehensive course of study in the basic skill areas of mathematics and the English language.

(g) Maintains a register of reports, including monthly attendance, and any other information as may be required by the demonstration board.

(h) Expends the scholarship funds exclusively for the secular education of students.

58020. (a) No participating local board shall require a certificated employee of the district to serve in a participating school except under such circumstances and in accordance with such procedures as are approved by the certificated employee council of the demonstration area.

(b) Each participating local board shall provide for the advice and assistance of the certificated employees of the district in the development of the demonstration scholarship program. Such duties for certificated employees shall be instead of the classroom or other duties normally performed by them.

(c) The participating local board shall employ a teacher coordinator in each participating school. Such person shall be selected by the teachers of the participating school from among their number, and shall be assigned the coordinator duties in place of a portion of his regular teaching assignments.

(d) Each participating local board shall make in-service training relevant to the demonstration scholarship program available to teachers in participating schools.

58021. The demonstration board may suspend redemption of any scholarships by any school not complying with the provisions of this chapter, after appropriate notice and hearings.

58022. Each demonstration board shall establish a parent-teacher needs assessment committee whose function shall be to evaluate how well the educational needs of pupils within the demonstration area are being met by the participating schools.

58023. The Superintendent of Public Instruction and other officers of the public school system shall take such actions as are within their power to assure that the demonstration board and participating schools have the flexibility needed to effectively carry out the intent of this chapter as defined in Section 58001.

58024. The Superintendent of Public Instruction may, upon the request of a demonstration board, waive selectively the application of any provision of this code to a participating school, except for the provisions of this chapter.

Such waivers may be requested on behalf of participating schools, and on behalf of an appropriate number of schools in the

demonstration area which are not participating in the demonstration scholarship program.

The purpose of making waivers available to nonparticipating schools is to permit the establishment of a control group of schools of comparable characteristics and size with the flexibility to innovate in education without using demonstration scholarships. This may be done in order to compare the progress of students and the type and variety of educational offerings of control group schools with that of schools participating in the Demonstration Scholarship Program.

No statutory financial penalties shall be assessed during the period of the demonstration which are associated with those sections of this code which may be waived by the participating local board for the purposes of the demonstration.

58025. The demonstration board may rent or lease any of its property, equipment, buildings, or other facilities for the duration of the program.

58026. The demonstration board may authorize any certificated or classified employee to take a leave of absence for the duration of the demonstration scholarship program for the purpose of accepting employment directly related to the demonstration scholarship program.

58027. The demonstration board may:

- (a) Employ a staff for the demonstration board.
- (b) Receive and expend funds to support the demonstration board and scholarships for children in the demonstration area.
- (c) Contract with other governmental agencies and private persons or organizations to provide or receive services, supplies, facilities, and equipment.
- (d) Determine rules and regulations for use of scholarships in the demonstration area.
- (e) Adopt rules and regulations for its own government.
- (f) Receive and expend funds from the state or federal governmental agency necessary to pay for the costs incurred in administering the program.
- (g) Establish criteria for the selection of textbooks and make selection of textbooks different from that prescribed elsewhere in this code. No explicit waivers of the provisions of this code are necessary for this purpose.
- (h) The demonstration board shall develop and publicize an evaluation system for the demonstration scholarship program.
- (i) Undertake other such activities as are necessary and incidental to carry out the purposes of this program.
- (j) Make any appropriate use of participating school facilities, equipment, and supplies.

58028. The meetings of the demonstration board shall be open to the public and the residents of the demonstration area shall be afforded the regular opportunity to express themselves before the demonstration board.

## Article 3. Attendance

58040. The participating local board shall receive all public funds allocable to the demonstration area, and shall transfer these funds to the demonstration board. These funds shall include moneys apportioned to the district from the State School Fund and the proceeds of the property taxes levied for the district. For the purpose of this chapter, the participating local board shall not take any discretionary action to reduce the local property tax rate during the demonstration period.

The demonstration board shall use these funds for the demonstration scholarship program as provided in this chapter and the terms of the demonstration contract.

58041. Participating schools may receive grants or gifts from foundations, charitable trusts, governmental agencies, or other public or private sources. Participating schools shall maintain financial records which clearly report all income, trusts, bequests, gifts, grants, or donations which are used to defray the actual costs of educating students in attendance. This section may not be construed, however, to permit schools to receive funds for the purpose of supplementing the demonstration scholarships.

## Article 4. Control by State Officers

58050. The purpose of this article is to permit the demonstration board to include privately owned schools among the choices from which parents and pupils may select in using a demonstration scholarship, to broaden the range of parental choice.

A demonstration board may permit privately owned schools to participate in the demonstration scholarship project on a selective and experimental basis; provided that a privately owned school which participates in the program, for the duration of such participation, shall operate under the exclusive control of officers of the public schools within the meaning of Section 8 of Article IX of the California Constitution, and shall meet all requirements of this code, except such requirements as are waived pursuant to this chapter.

Each privately owned school which becomes a participating school shall enter into an agreement with the demonstration board setting the terms of participation. Such terms shall assure the exclusive control required by Section 8 of Article IX of the California Constitution and this chapter.

58051. For the purposes of this article:

(a) "Officers of the public schools" means the demonstration board.

(b) "Privately owned school" or "privately owned schools" means an educational institution or institutions which are not controlled by any religious creed, church, or sectarian denomination whatever, nor have as their objective the furtherance of any religious sect, church,

creed, or sectarian purpose, either directly or indirectly.

(c) "Exclusive control" means:

(1) The power to promulgate general rules and regulations regarding the use of demonstration scholarships.

(2) The power to establish the amount of the scholarship.

(3) The power to prescribe rules and regulations which are binding upon participating schools.

(4) The power to establish standards for teachers, instructors, and textbooks.

(5) The power to review and approve the suspension or expulsion of a pupil of a participating school.

(6) The power to make any appropriate use of participating school facilities, equipment, and supplies.

### Article 5. Construction of Chapter

58060. The provisions of this chapter shall be liberally construed with a view to effect its object and promote its purposes.

58061. If any section, subdivision, sentence, clause, or phrase of this chapter is for any reason held to be unconstitutional, such decision shall not affect the validity of the remaining portions of this chapter. The Legislature hereby declares that it would have enacted this chapter and each section, subdivision, sentence, clause, or phrase thereof, irrespective of the fact that any one or more of the sections, subdivisions, sentences, clauses, or phrases be declared unconstitutional.

### CHAPTER 2. INDIVIDUAL INSTRUCTION

58400. The Legislature hereby finds and declares that several schools have developed programs of individualized instruction based upon performance criteria, including the integration of vocational education with the regular coursework, which have greatly improved their students' achievement and that the success of such programs offers great promise for improving the effectiveness of education throughout the state. The Legislature intends to extend the use of individualized instruction programs on a large scale and to immediately organize a comprehensive program of individualized instruction based upon performance criteria in a major urban school district. Such a comprehensive program shall:

(a) Address the range of socioeconomic-educational problems of urban school children which will be faced by other urban school districts which may desire to develop individualized instruction programs.

(b) Convert the entire curriculum for kindergarten through 12th grade and articulate the curriculum with a community college.

(c) Fully integrate vocational education with the regular curriculum in order to acquaint students with a variety of career alternatives and to provide them with flexible opportunities to

acquire the combination of vocational and academic skills required for their individual educational and career objectives.

(d) Draw together existing experience, techniques, and material in the field of individualized instruction, and produce an increased fund of economically reproducible instructional resources to accelerate large-scale conversion of schools in other school districts of the state.

(e) Provide a careful evaluation of the effectiveness of individualized instruction and the problems of conversion, including teacher training, curriculum design and production, integration of vocational education with the regular coursework, and plant utilization. Such an evaluation will help other school districts avoid pitfalls and unnecessary expenditures and permit their programs of individualized instruction to be developed with maximum efficiency and effectiveness.

(f) Provide a major opportunity to design and test the criteria and tools for measuring educational performance. Such an opportunity shall contribute essential information and experience to efforts to set goals and measure performance in all the schools of this state.

(g) Provide the Governor and the Legislature with more precise information on the fiscal requirements for converting schools in this state to programs of individualized instruction.

58401. As used in this chapter "individualized instruction based upon performance criteria" means an educational method in which (a) aptitudes, interests, motivations, and other characteristics of each student play a major role in the selection of educational objectives and the determination of the sequence of study and choice of materials and procedures; (b) the time spent by each student in a given subject area is determined by his performance; and (c) the progress of each student is measured by comparing his performance with a specific objective, rather than with the performance of other students.

58402. The Legislature further finds and declares that funds are needed to convert the regular curriculum to individualized instruction and integration of vocational education and that once such conversion and integration have been accomplished, such program shall operate on the funds regularly available to the school districts.

58403. The State Board of Education shall establish application procedures and select a school district to undertake an individualized instruction program pursuant to this chapter. The specific goal of the individualized instruction program authorized by this article shall be to convert at least one high school and the network of elementary and junior high schools which provide students to that high school to a program of individualized instruction based upon performance criteria, including the full integration of vocational education with the regular coursework, and to articulate this program with a community college. In authorizing this program, the Legislature recognizes that conversion of the entire network of schools may

require incremental development beginning, for example, with a high school, one junior high school, and one elementary school.

58404. In selecting a school district to undertake an individualized instruction program pursuant to this chapter, the board shall use the following criteria:

(a) The school district shall be a large urban unified district, which had an average daily attendance of not less than 30,000 for the school year 1967-1968, and which has an agreement with a community college to articulate their curricula.

(b) The high school and network of junior high and elementary schools shall be representative of the range of socioeconomic-educational problems faced by urban schools.

(c) The local board of education and administrators of the school district and the administrators and teachers of the schools to be involved shall be strongly committed to the goals of the individualized instruction program.

(d) The individualized instruction program shall be carried out with maximum participation of the teachers and administrators of the individual schools and with substantial flexibility for each school to establish its own program within the framework of general goals and requirements for the overall program within the school district.

(e) The school district shall have a plan for community involvement with the program, including students, parents, and representatives of business, industry, organized labor, community and civic organizations, and the general public.

(f) The cost experience of the individualized instruction program and the instructional technology used in the school district shall be readily transferable to other schools in the state.

(g) The schools selected by the district to participate in the program shall receive entitlement equivalent to the total amount of resources from state, local and federal funds which would otherwise be provided the schools under the district's current budgeting procedures.

(h) The instructional program shall include the full integration of vocational education with the regular curriculum and shall acquaint students in all grades with career alternatives and the relevancy of the school curricula to achieving career objectives.

(i) The school district shall have a written statement adopted by the local board of education setting forth the goals, and to the extent feasible, the measurable objectives of education in the district.

58405. In selecting the school district to undertake the individualized instruction program pursuant to this chapter, the State Board of Education shall conduct a thorough field review in order to make independent judgments of the suitability of a district to participate in the program. The field review shall include a rating of the levels of commitment of the teachers and administrators to the individualized instruction program set forth in this chapter.

58406. The district selected to undertake the program authorized by this chapter shall have complete responsibility for the program's

progress and success. The staff of the Department of Education shall serve as a resource team that shall provide technical assistance and advice to the school district.

58407. The State Board of Education may waive any provision of the Education Code, with the exception of Sections 15501 to 15518, inclusive, and Article 3 (commencing with Section 39140) of Chapter 2 of Part 23 of Division 3 of this title, which it deems is necessary to waive to assure the success of the program authorized by this chapter.

58408. The district selected pursuant to this chapter shall, at the inception of the program, design an evaluation system for the program and shall submit an evaluative report to the Governor, the Legislature, and State Board of Education annually following each year of program operation for three years.

The district may seek the advice of the Joint Committee on Goals and Evaluation in designing the evaluation system.

The evaluation system shall be based upon the set of goals and objectives established by the school district and the evaluation system shall compare the effectiveness of the schools funded under this article against the other schools in the district striving for the same set of goals and objectives. The evaluation system shall include, but need not be limited to:

(a) Measuring the relative success of students in defining and achieving their individual educational and career objectives.

(b) Measuring changes in student performance, student attendance, student attitudes toward school, community support of the schools, and teacher morale.

(c) Measuring the costs of converting to the individualized instruction program and any differences between the newly developed program of individualized instruction and the prior educational program. One purpose of the cost measurements shall be to provide the Governor and the Legislature with more precise information on the fiscal requirements for converting other public schools in this state to individualized instruction programs.

58409. District evaluation and reporting requirements required by this article shall not supersede other legal requirements.

It is the intent of the Legislature, however, that the State Board of Education and the Department of Education make every effort to use the evaluation and reporting requirements under this chapter in fulfilling any other legal requirements in order to minimize the administrative burdens on the school district.

58410. The Legislative Analyst shall:

(a) Review the quality of the evaluation system designed in accordance with Section 58408 and report to the Legislature on the outcome of such review.

(b) Analyze the problems of converting the curriculum to individualized instruction, including, but not limited to, teacher training, curriculum design and production, the integration of vocational education with the regular coursework, and plant

utilization.

(c) Analyze the problems of basing the curriculum or performance criteria, including setting goals, designing measurement criteria, and measuring performance.

(d) Analyze the transferability of components of the individualized instruction program curriculum to other school districts which may desire to convert to programs of individualized instruction.

(e) Analyze the waiver of any provision of the Education Code that was requested by the school district and granted by the State Board of Education to determine if statutory or constitutional changes are necessary to encourage and assure success of conversion of other districts to individualized instruction.

(f) Carry out such other analytical tasks as he may deem appropriate.

58411. The Legislative Analyst shall file a final report on his evaluative findings with the Governor, the Legislature, and the State Board of Education not later than the January 5 following four years of operation of the individualized instruction program authorized by this chapter.

58412. In order to provide this state with a long-term program for educational conversion, the Department of Education shall develop a plan to systematically individualize instruction in the schools of this state and to integrate vocational education with the regular curriculum. The plan shall:

(a) Be submitted on or before September 15, 1973, to the Joint Legislative Budget Committee, the Chairman of the Senate Committee on Education, and the Chairman of the Assembly Committee on Education to allow for the legislative policy committees to hold public hearings and carry out such other activities as may be necessary to develop legislative proposals.

(b) Specify the fiscal requirements for the school conversion effort and the support of such schools following conversion to individualized instruction and integration of vocational education. In determining such requirements, the department shall prescribe the role, if any, which funds from at least the following sources shall play:

- (1) The Elementary Secondary Education Act.
- (2) The National Defense Education Act.
- (3) The Economic Opportunity Act.
- (4) The Vocational Education Act; and
- (5) The Miller-Unruh Basic Reading Act.

(c) Specify criteria for selection of school districts, including, but not be limited to, the criteria set forth in subdivisions (c), (d), (e), (g), and (h) of Section 58404. Such criteria shall also indicate that the next schools to participate in the conversion program shall each reflect distinctly different educational environments such as a high concentration of racial or ethnic minority students, a significant percentage of bilingual or non-English-speaking students, or very low assessed valuation per average daily attendance.

(d) Present a design for a long-term evaluation of the success and progress of the conversion program.

(e) Outline the requirements for technical assistance to school districts in the conversion program, including a description of the most effective involvement of the staff of the Department of Education.

(f) Specify changes needed in the state textbook policy to assist the conversion program.

(g) Set forth such other information as the department may deem necessary.

### CHAPTER 3. ALTERNATIVE SCHOOLS

58500. The governing board of any school district may establish and maintain one or more alternative schools within the district.

For the purposes of this article, an alternative school is defined as a school or separate class group within a school which is operated in a manner designed to:

(a) Maximize the opportunity for students to develop the positive values of self-reliance, initiative, kindness, spontaneity, resourcefulness, courage, creativity, responsibility, and joy.

(b) Recognize that the best learning takes place when the student learns because of his desire to learn.

(c) Maintain a learning situation maximizing student self-motivation and encouraging the student in his own time to follow his own interests. These interests may be conceived by him totally and independently or may result in whole or in part from a presentation by his teachers of choices of learning projects.

(d) Maximize the opportunity for teachers, parents and students to cooperatively develop the learning process and its subject matter. This opportunity shall be a continuous, permanent process.

(e) Maximize the opportunity for the students, teachers, and parents to continuously react to the changing world, including but not limited to the community in which the school is located.

58501. The following notice shall be sent along with the notification of parents and guardians required by Section 48980:

#### “Notice of Alternative Schools

California state law authorizes all school districts to provide for alternative schools. Section 58500 of the Education Code defines alternative school as a school or separate class group within a school which is operated in a manner designed to:

(a) Maximize the opportunity for students to develop the positive values of self-reliance, initiative, kindness, spontaneity, resourcefulness, courage, creativity, responsibility, and joy.

(b) Recognize that the best learning takes place when the student learns because of his desire to learn.

(c) Maintain a learning situation maximizing student

self-motivation and encouraging the student in his own time to follow his own interests. These interests may be conceived by him totally and independently or may result in whole or in part from a presentation by his teachers of choices of learning projects.

(d) Maximize the opportunity for teachers, parents and students to cooperatively develop the learning process and its subject matter. This opportunity shall be a continuous, permanent process.

(e) Maximize the opportunity for the students, teachers, and parents to continuously react to the changing world, including but not limited to the community in which the school is located.

In the event any parent, pupil, or teacher is interested in further information concerning alternative schools, the county superintendent of schools, the administrative office of this district, and the principal's office in each attendance unit have copies of the law available for your information. This law particularly authorizes interested persons to request the governing board of the district to establish alternative school programs in each district."

Further, a copy of the notice shall be distributed to each teacher of the district before March 1 of each year and copies shall be posted in at least two places normally visible to pupils, teachers, and visiting parents in each attendance unit for the entire month of March in each year.

58502. The parent or guardian of any pupil may request the governing board of a school district to establish an alternative school program or programs in the district pursuant to this chapter.

58503. Teachers employed and students enrolled in the alternative school shall be selected entirely from volunteers.

58504. Previous classroom performance shall not be a criterion limiting any student from the opportunity of attending an alternative school.

58505. Each school district may enroll not more than 10 percent of its total average daily attendance during the preceding fiscal year in alternative schools. A district may establish alternative schools in each attendance area or on a districtwide basis, with enrollment open to all students districtwide, or any combination thereof.

58506. The maximum percentage prescribed by Section 58505 may be waived by the Superintendent of Public Instruction on a showing by the district that it has been or is in a position to continue to operate its program in an alternative school manner without the loss of its experimental value. However, if any school district has more than 10 percent of its total average daily attendance during the preceding fiscal year in alternative schools, the Superintendent of Public Instruction shall not be permitted to waive any provision of this code in the operation of such schools as otherwise authorized pursuant to Section 58509.

58507. Alternative schools shall be operated in a manner to maximize the opportunity for improvement of the general school curriculum by innovative methods and ideas developed within the

alternative school operation and to improve the general level of education in the State of California as provided in Section 58510.

Any alternative school shall be maintained and funded by the school district at the same level of support as other educational programs for children of the same age level operated by the district.

58508. There shall be no racial, sex, or ethnic discrimination in any aspect of the operation of alternative schools.

58509. For the operation of alternative schools as herein defined, the Superintendent of Public Instruction may, upon application of a school district, waive any provisions of this code other than those relating to earthquake safety and the provisions of this article.

58510. Each district operating an alternative school shall annually evaluate such school. The evaluation shall include pre- and post-testing of basic skills for student participants, and must identify the variables which may have affected student academic achievement. The process of evaluation shall also include teacher, parent, and student input from the alternative school itself. These evaluation reports will be sent to the Superintendent of Public Instruction on or before August 1st of the following year.

58511. The Superintendent of Public Instruction shall establish minimum standards to further implement the definition of alternative schools as used in Section 58500 and may also establish such further guidelines as may be deemed by him necessary to the proper administration of this article.

58512. The governing board of a school district maintaining an alternative school may provide in whole or in part for the transportation of a pupil attending the alternative school. In lieu of providing such transportation, the governing board may pay to the parents or guardian of the pupil a sum not to exceed the cost of actual and necessary travel incurred in transporting such pupils in cases where transportation is provided by or paid for by the parents or guardian; provided, that in no case shall the district's state apportionment for transportation expenses be increased because of the operation of an alternative school.

58513. On or before February 1st of each year, the Superintendent of Public Instruction shall submit to the Legislature a report showing the number and type of alternative schools operated by school districts pursuant to Section 58509 and the success of such programs as reported by the district operating them. The superintendent shall include in such report his comments regarding the effectiveness of alternative school programs.

58514. The chapter shall become operative on July 1, 1976, shall cease to be operative on July 1, 1980, and, as of July 1, 1980, is repealed.

#### CHAPTER 4. DEMONSTRATION PROGRAMS IN INTENSIVE INSTRUCTION

58600. It is the intent and purpose of the Legislature that exemplary programs be established for intensive instruction in reading and mathematics to serve as demonstration projects aimed solely at developing, within pupils, above-average competence in these basic skill subjects. The program shall be developed to serve pupils in grade 7, 8, or 9 who attend school in designated areas of disadvantage, and who otherwise would find difficulty in achieving complete success in high school.

It is the further intent of the Legislature that these programs in intensive instruction in reading and mathematics be operated by school districts directly, or by school districts through contract for partial or complete operation with any competent public or private agency, foundation or corporation. It is also the intent of the Legislature that authority be granted to permit the waiver of any provision of the Education Code by the program approving agency, if such is necessary for the development of model demonstration programs in the intensive instruction in reading and mathematics.

(Amended and renumbered Section 58601 and added by Stats. 1976, Ch 1011 )

##### [ORIGINAL SECTION]

58600. From the funds appropriated therefor by the Legislature to the Department of Education for the purposes of this chapter, the Superintendent of Public Instruction, with the approval of the State Board of Education, shall administer this chapter and make apportionments to school districts to meet the total approved expense of the school districts incurred in establishing demonstration programs in the intensive instruction in reading and mathematics for pupils in grades 7, 8, or 9

No project expenditures of a district in excess of the average expenditure of the district for the prior fiscal year per unit of average daily attendance, excluding categorical funds, for any single project shall exceed 50 percent of the average expenditure of the district for the prior fiscal year per unit of average daily attendance, excluding categorical funds. The State Board of Education, in approving projects, shall ensure that selected projects differ in project cost per pupil by at least three hundred dollars (\$300)

58601. From the funds appropriated therefor by the Legislature to the Department of Education for the purposes of this chapter, the Superintendent of Public Instruction, with the approval of the State Board of Education, shall administer this chapter and make apportionments to school districts to meet the total approved expense of the school districts incurred in establishing demonstration programs in the intensive instruction in reading and mathematics for pupils in grades 7, 8, or 9.

No project expenditures of a district in excess of the average expenditure of the district for the prior fiscal year per unit of average daily attendance, excluding categorical funds, for any single project shall exceed 50 percent of the average expenditure of the district for the prior fiscal year per unit of average daily attendance, excluding categorical funds. The State Board of Education, in approving projects, shall ensure that selected projects differ in project cost per

pupil by at least three hundred dollars (\$300).

(Amended and renumbered Section 58602 and added by Stats. 1976, Ch. 1011.)

[ORIGINAL SECTION]

58601. The governing board of any district which maintains grades 7, 8, or 9 on account of any school or schools located in any area designated by the Superintendent of Public Instruction pursuant to the provisions of Section 54483, may make application to establish and operate a program under this article. The application shall be in the form and shall contain such data and information as the superintendent shall specify, including how demonstration programs shall include dissemination and replication activities.

58602. The governing board of any district which maintains grades 7, 8, or 9 on account of any school or schools located in any area designated by the Superintendent of Public Instruction pursuant to the provisions of Section 54483, may make application to establish and operate a program under this article. The application shall be in the form and shall contain such data and information as the superintendent shall specify, including how demonstration programs shall include dissemination and replication activities.

(Amended and renumbered Section 58603 and added by Stats. 1976, Ch. 1011.)

[ORIGINAL SECTION]

58602. The governing board of a school district, in its application, may request waiver of the provisions of any section or sections of this code for any compensatory education program if such waiver is necessary to establish and operate a program for low-income children. The need for a waiver shall be explained and justified in the application. The Superintendent of Public Instruction, with the approval of the State Board of Education, may grant, in whole, or in part, any such request.

58603. The governing board of a school district, in its application, may request waiver of the provisions of any section or sections of this code for any compensatory education program if such waiver is necessary to establish and operate a program for low-income children. The need for a waiver shall be explained and justified in the application. The Superintendent of Public Instruction, with the approval of the State Board of Education, may grant, in whole, or in part, any such request.

(Amended and renumbered Section 58605 and added by Stats. 1976, Ch. 1011.)

[ORIGINAL SECTION]

58603. The State Board of Education shall adopt regulations setting forth the standards and criteria to be used in the evaluation of applications submitted by school districts. The standards and criteria adopted by the State Board of Education, among other items, shall include a statement of specific goals to be sought in the program both in terms of pupil achievement and for the purpose of establishing a model program, and the requirements for evaluation of the program

Projects shall be approved only if it can be shown that, if successful, the cost effectiveness of the project (a) will be adaptable within the budgets of other similar school districts throughout the state, or (b) can be replicated using other existing compensatory education funds in grades 7, 8, and 9, or (c) can be replicated if additional compensatory education funds become available for use in grades 7, 8, or 9

All project approvals shall show if the project was approved under provision (a), (b), or (c), above.

Projects shall be continually reviewed regarding their effectiveness in improving the achievement levels of pupils in reading and mathematics. Projects which are least cost effective shall be terminated and shall be replaced with ones of proven

effectiveness or by new projects which hold promise of increased effectiveness.

58604. The governing board of the school district may make application to establish and operate a demonstration program under this article directly, or may make application to provide for partial or complete operation of such a program through a contract with any competent public or private agency, foundation or corporation.

(Amended and renumbered Section 58607 and added by Stats. 1976, Ch. 1011 )

[ORIGINAL SECTION]

58604. No later than January 30 of each year, the Superintendent of Public Instruction, with approval of the State Board of Education, shall submit a report to the Legislature on the implementation and evaluation of demonstration programs under this chapter, including the achievement of pupils, dissemination and replication activities, the number of school districts that have replicated the demonstration projects and the funding sources used for such replication, and an analysis of the costs of each demonstration project detailed in terms of the costs of design, implementation and continuing operational expenses, including the degree of cost effectiveness of each project. The report shall also include recommendations concerning improvement, retention, extension or other aspects of the program. In addition, the report shall further include a description of how the Department of Education will use the demonstration programs as models for replication if other compensatory education funds are available for use in grades 7, 8, or 9.

The report shall also set forth the number of waivers authorized by the Superintendent of Public Instruction under Section 58602, the number of pupils who participated in programs for which waivers were granted, and whether or not the waivers had a positive effect upon the reading or mathematics skill of participating pupils.

Not later than November 1 of each year, the Superintendent of Public Instruction shall submit to the Department of Finance and the Legislative Analyst a synopsis of available data produced for the evaluation report.

58605. The State Board of Education shall adopt regulations setting forth the standards and criteria to be used in the evaluation of applications submitted by school districts. The standards and criteria adopted by the State Board of Education, among other items, shall include a statement of specific goals to be sought in the program both in terms of pupil achievement and for the purpose of establishing a model program, and the requirements for evaluation of the program.

Projects shall be approved only if it can be shown that, if successful, the cost effectiveness of the project (a) will be adaptable within the budgets of other similar school districts throughout the state, or (b) can be replicated using other existing compensatory education funds in grades 7, 8, and 9, or (c) can be replicated if additional compensatory education funds become available for use in grades 7, 8, or 9.

All project approvals shall show if the project was approved under provision (a), (b), or (c), above.

Projects shall be continually reviewed regarding their effectiveness in improving the achievement levels of pupils in reading and mathematics. Projects which are least cost effective shall be terminated and shall be replaced with ones of proven effectiveness or by new projects which hold promise of increased effectiveness.

(Amended and renumbered Section 58608 and added by Stats. 1976, Ch. 1011.)

## [ORIGINAL SECTION]

58605 This chapter shall have no force or effect after September 1, 1978

58606. Upon approval by the State Board of Education of an application under this article, the Superintendent of Public Instruction shall certify the amount to be apportioned to the applicant school district.

(Added by Stats. 1976, Ch. 1011.)

58607. No later than January 30 of each year, the Superintendent of Public Instruction, with approval of the State Board of Education, shall submit a report to the Legislature on the implementation and evaluation of demonstration programs under this chapter, including the achievement of pupils, dissemination and replication activities, the number of school districts that have replicated the demonstration projects and the funding sources used for such replication, and an analysis of the costs of each demonstration project detailed in terms of the costs of design, implementation and continuing operational expenses, including the degree of cost effectiveness of each project. The report shall also include recommendations concerning improvement, retention, extension or other aspects of the program. In addition, the report shall further include a description of how the Department of Education will use the demonstration programs as models for replication if other compensatory education funds are available for use in grades 7, 8, or 9.

The report shall also set forth the number of waivers authorized by the Superintendent of Public Instruction under Section 58602, the number of pupils who participated in programs for which waivers were granted, and whether or not the waivers had a positive effect upon the reading or mathematics skill of participating pupils.

Not later than November 1 of each year, the Superintendent of Public Instruction shall submit to the Department of Finance and the Legislative Analyst a synopsis of available data produced for the evaluation report.

(Added by Stats. 1976, Ch. 1011.)

58608. This chapter shall have no force or effect after September 1, 1978.

(Added by renumbering Section 58605, by Stats. 1976, Ch. 1011.)

## PART 32. STATE SCHOOLS FOR THE HANDICAPPED

### CHAPTER 1. CALIFORNIA SCHOOL FOR THE DEAF

#### Article 1. Administration

59000. There are two state schools for the deaf, known and designated as the California School for the Deaf, Northern California, and the California School for the Deaf, Southern California. The term

“California School for the Deaf” shall refer to both schools unless the context otherwise requires.

59001. The California School for the Deaf is a part of the school system of the state except that it derives no revenue from the State School Fund, and has for its object the education of the deaf who, by reason of their infirmity, cannot be taught in the public schools.

59002. The school is under the administration of the State Department of Education.

59003. The Department of Education in relation to the California School for the Deaf shall:

(a) Prescribe rules for the government of the school.

(b) Appoint the superintendent and other officers and employees.

(c) Remove for cause any officer, teacher, or employee.

(d) Fix the compensation of officers, teachers, and employees.

59004. The superintendent of the school shall have had not less than three years' experience in the art of teaching the deaf and shall hold a credential issued by the State Board of Education authorizing him to teach in secondary schools of this state.

59005. The powers and duties of the superintendent are such as are assigned to him by the Superintendent of Public Instruction.

59006. The Superintendent of Public Instruction may authorize the California School for the Deaf to establish and maintain teacher training courses designed to prepare teachers of the public schools and such other persons holding a credential issued by the State Board of Education as are recommended by the president of a campus of the California State University and Colleges, to give instruction to the deaf and the hard of hearing. The Superintendent of Public Instruction shall prescribe standards for the admission of persons to the courses, and for the content of the courses.

The California School for the Deaf may enter into agreements with the Trustees of the California State University and Colleges, the University of California, any other university or college accredited by the State Board of Education as a teacher training educational institution, to provide practice teaching required for issuance of the credential authorizing the holder to teach the deaf and severely hard of hearing. Such agreement may provide a reasonable payment, for services rendered, to teachers of the California School for the Deaf who have practice teachers under their direction.

59007. The Department of Education may employ any person, otherwise qualified, who has retired for service under either the Public Employees' Retirement System or the State Teachers' Retirement System as a substitute in a position requiring certification qualifications at the California School for the Deaf; provided, that the total of such service and any service rendered pursuant to Section 23919 shall not exceed 90 teaching days in any one fiscal year.

## Article 2. Pupils

59020. Every deaf person between the ages of 3 and 21 years, who is a resident of the state and who meets the criteria set forth in this section, is entitled to an education in the California School for the Deaf free of charge.

Priority in admission to the California School for the Deaf shall be given to elementary age deaf minors residing in sparsely populated regions and to secondary age deaf minors in need of a high school program, for whom appropriate comprehensive educational facilities and services are not available or cannot be reasonably provided by their local school districts or county educational agencies.

The criteria of admission to California Schools for the Deaf and Blind shall be administratively determined by the Superintendent of Public Instruction.

59021. On or before July 15, the superintendent of each California School for the Deaf shall report in writing to the governing board of each school district of residence the name of each pupil and the number of days attended by each pupil during the fiscal year. For each such pupil in attendance at a California School for the Deaf, under the provisions of this chapter, the school district of residence shall annually pay to the Department of Education an amount determined by (1) dividing the income credited to the general fund of the school district from the levy of the district tax rate, exclusive of taxes levied under Sections 15250, 15733, 16090, 42200, and 56811, by the average daily attendance of the school district, and (2) multiplying the quotient obtained by the ratio that the number of days the pupil attended the school for the deaf bears to the number of days the school for the deaf was in session.

For determining the school district responsible under the provisions of this section for making the payment when the pupil resides in other than a unified school district, pupils 15 years of age or older as of September 1 of each fiscal year shall be considered a resident of the high school district, and pupils 14 years of age or under as of September 1 shall be considered a resident of the elementary district.

The payment shall be made by the Controller withholding from the second principal apportionment of the fiscal year following the year of attendance the amount due on account of the attendance of pupils of the district at the California Schools for the Deaf as reported to the Controller by the Superintendent of Public Instruction, except that in no case shall the apportionment to a district be reduced below the amount prescribed by Section 6 of Article IX of the Constitution. The Controller shall transfer the amount withheld to, or in augmentation of, the appropriate Department of Education support appropriation for the support and maintenance of the appropriate school for the deaf.

59022. If a school district makes a payment in excess of the

amount due the department under the provisions of Section 59021, the department shall refund to the district, from the appropriation to which the payment was credited, the amount that is in excess of the amount due.

59023. If the parent or guardian of any pupil in the school is unable either himself or from the estate of the child to clothe the child, or pay for its transportation to and from school, or for necessary dental work, eye care, operations, and hospitalization of the child while at the school, or is unable either himself or from the estate of the child to reimburse the Department of Education for expenses incurred by it in providing dental work, eye care, operations, or hospitalization for the child in an emergency, the parent or guardian may apply for a certificate to that effect to the superior court of the county of which the parent or guardian of the child is a resident. If the court is satisfied that the parent or guardian either himself or from the estate of the child is unable to pay for any such service, it shall issue a certificate to that effect. The application for the certificate may also be made to the court by the superintendent of the school.

59024. If it appears to the satisfaction of the court that the parent or guardian has sufficient pecuniary ability or that there are sufficient funds in the estate of the child to provide the service for the child or to reimburse the Department of Education for expenses incurred by it in providing the service for the child in an emergency, the court shall not issue the certificate, but shall, according to the nature of the application before it, either order the superintendent to provide the child with the service or order the parent or guardian either himself or from the estate of the child, as the court determines, to reimburse the Department of Education for expenses incurred by it in providing the service for the child in an emergency.

59025. If the Department of Education is not reimbursed by the parent or guardian personally or from the estate of the child for expenditures made by the superintendent under the order of the court or if the parent or guardian does not comply with an order of the court to reimburse the Department of Education either personally or from the estate of the child for expenses incurred by it in providing the service for the child in an emergency, the superintendent may sue the parent or guardian, in the name of the state, to recover any money paid out by order of the court or due the Department of Education as reimbursement under an order of the court.

59026. All money expended under the authority of any such certificate for clothing and transportation, necessary dental work, eye care, operations, and hospitalization, and all money expended by the Department of Education for expenses incurred by it in providing dental work, eye care, operations, or hospitalization for the child in an emergency for which the Department of Education cannot be reimbursed by the parent or guardian of the child as shown by the certificate, constitutes a legal charge against the county

from which the certificate is issued. Expenditures for clothing and transportation shall not exceed the sum of three hundred eighty-five dollars (\$385) for the 1974-75 school year, and an amount thereafter which shall be adjusted annually in conformance with the Consumer Price Index, all items, of the Bureau of Labor Statistics of the United States Department of Labor, measured for the calendar year next preceding the fiscal year to which it applies. The State Controller shall determine the amount authorized pursuant to this section for the 1975-76 school year and thereafter.

59027. The certificate shall be presented to the superintendent of the school. When the certificate shows that the parent or guardian of the child is unable either himself or from the estate of the child to clothe the child, or pay for his transportation to and from school, or for necessary dental work, eye care, operations, and hospitalization of the child while in school, the superintendent shall clothe the child and provide the transportation, necessary dental work, eye care, operations, and hospitalization. The expense of the services, or any of them, shall be advanced by the Department of Education out of money appropriated for the support of the school.

59028. Upon presentation to the county in which the certificate is issued, of an itemized claim, duly sworn to by the superintendent of the school before an officer authorized to administer oaths, for the expense for clothing, transportation, and other items provided and furnished under the authority of the certificate, or for the reimbursement of the Department of Education, the claim shall be processed and paid pursuant to the provisions of Chapter 4 (commencing with Section 29700) of Division 3 of Title 3 of the Government Code. The amount paid and all reimbursements of the Department of Education under this section shall be credited to the current appropriation for the support and maintenance of the school.

59029. All pupils in the school shall be maintained at the expense of the state, except as provided in Sections 59021, 59023 to 59028, inclusive, 59030, and 59031.

59030. The governing board of each school district of residence shall, from the general fund of the school district, pay for the transportation cost of each pupil of the district in attendance at the California School for the Deaf as a day-class pupil.

For determining the school district responsible under the provisions of this section for making the payment when the pupils reside in other than a unified school district, pupils 15 years of age or older as of September 1 of each fiscal year shall be considered residents of the high school district, and pupils 14 years of age or under as of September 1 shall be considered residents of the elementary district.

59031. Deaf persons not residents of this state may be admitted to the benefits of the school upon paying to the Department of Education the school year cost for the maintenance, care, and instruction of persons at the school, payable quarterly in advance. The cost of the care, maintenance, and instruction shall be

determined by the Department of Education with the approval of the Department of Finance.

### Article 3. Services

59040. The Department of Education, in connection with the California School for the Deaf, may establish and maintain a preschool and kindergarten service for the care and teaching of children under school age. The department shall prescribe the rules and regulations which shall govern the conduct of the preschool and kindergarten service, appoint such teachers as it determines necessary, and fix their salaries.

59041. The Department of Education, in connection with the California School for the Deaf, may offer courses of instruction to parents of a deaf child to assist and instruct the parents in the early care and training of such child, to train the child in play, and to do everything which will assure the child's physical, mental and social adjustment to its environment.

59042. The Superintendent of Public Instruction may authorize the California School for the Deaf to establish and maintain a testing center for deaf and hard-of-hearing minors. It shall be the purpose of this center to test hearing acuity and to give such other tests as may be necessary for advising parents and school authorities concerning an appropriate educational program for the child.

59043. Nothing in this article and no rule or regulation established thereunder shall authorize the compulsory physical examination or medical treatment of any child or minor if the parent or guardian objects on the ground that such examination or treatment is contrary to the religious beliefs of such parent or guardian.

59044. The Department of Education, in connection with the California School for the Deaf which maintains automobile driver training courses, may purchase from available funds public liability, property damage, collision, fire, theft, and comprehensive automobile insurance for motor vehicles, whether owned by private parties or such school for the deaf, used in connection with such courses.

59045. The Superintendent of Public Instruction, in conjunction with the California School for the Deaf, shall provide assessment and instructional planning services for individuals who are referred for such services by responsible local agencies under subdivision (b) of Section 56336.

## CHAPTER 2. CALIFORNIA SCHOOL FOR THE BLIND

### Article 1. Administration

59100. There is one state school for the blind, known and designated as the California School for the Blind.

59101. The California School for the Blind is a part of the school system of the state except that it derives no revenue from the State School Fund, and has for its object the education of the blind, who, by reason of their infirmity, cannot be taught in the public schools.

59102. The school is under the administration of the Department of Education.

59103. The Department of Education in relation to the California School for the Blind shall:

- (a) Prescribe rules for the government of the school.
- (b) Appoint the superintendent and other officers and employees.
- (c) Remove for cause any officer, teacher, or employee.
- (d) Fix the compensation of officers, teachers, and employees.

## Article 2. Teaching Force

59110. The superintendent of the school shall have had not less than three years' experience in the art of teaching the blind and shall hold a credential issued by the State Board of Education authorizing him to teach in secondary schools of this state.

59111. The powers and duties of the superintendent are such as are assigned to him by the Superintendent of Public Instruction.

59112. There is hereby created at the California School for the Blind the position of field worker to be appointed by the superintendent of the school with the approval of the Superintendent of Public Instruction. The field worker shall be a member of the teaching staff of the California School for the Blind and shall receive a salary fixed and payable in accordance with law.

The fieldworker shall visit graduates and former pupils of the school in their homes to advise them regarding the extension and continuance of their education, to assist them in securing remunerative employment, to improve their economic condition in all possible ways, and to provide them with preparatory instruction found necessary for a selected occupation. The fieldworker shall be a person who has had special training for such work. Blindness shall not be grounds to disqualify a person for this position.

59113. The Department of Education may employ any person, otherwise qualified, who has retired for service under either the Public Employees' Retirement System or the State Teachers' Retirement System as a substitute in a position requiring certification qualifications at the California School for the Blind; provided, that the total of such service and any service rendered pursuant to Section 23919 shall not exceed 90 teaching days in any one fiscal year.

## Article 3. Pupils

59120. Every blind person resident of this state, of suitable age and capacity, is entitled to an education in the California School for the Blind free of charge.

59121. On or before July 15, the Superintendent of the California School for the Blind shall report in writing to the governing board of each school district of residence the name of each pupil and the number of days attended by each pupil during the fiscal year. For each such pupil in attendance at the California School for the Blind, under the provisions of this chapter, the school district of residence shall annually pay to the Department of Education an amount determined by (1) dividing the income credited to the general fund of the school district from the levy of the district tax rate, exclusive of taxes levied under Sections 15250, 15733, 16090, 42200, and 56811, by the average daily attendance of the school district, and (2) multiplying the quotient obtained by the ratio that the number of days the pupil attended the school for the blind bears to the number of days the school for the blind was in session.

For determining the school district responsible under the provisions of this section for making the payment when the pupil resides in other than a unified school district, pupils 15 years of age or older as of September 1 of each fiscal year shall be considered a resident of the high school district, and pupils 14 years of age or under as of September 1 shall be considered a resident of the elementary district.

The payment shall be made by the Controller withholding from the second principal apportionment of the fiscal year following the year of attendance the amount due on account of the attendance of pupils of the district at the California School for the Blind as reported to the Controller by the Superintendent of Public Instruction except that in no case shall the apportionment to a district be reduced below the amount prescribed by Section 6 of Article IX of the Constitution. The Controller shall transfer the amount withheld to, or in augmentation of, the appropriate Department of Education support appropriation for the support and maintenance of the school for the blind.

59122. If a school district makes a payment in excess of the amount due the department under the provisions of Section 59121, the department shall refund to the district, from the appropriation to which the payment was credited, the amount that is in excess of the amount due.

59123. All pupils in the school shall be maintained at the expense of the state, except as provided in Sections 59121, 59124 to 59128, inclusive, and 59131.

59124. The governing board of each school district of residence shall, from the general fund of the school district, pay for the transportation cost of each pupil of the district in attendance at the California School for the Blind as a day-class pupil.

For determining the school district responsible under the provisions of this section for making the payment when the pupils reside in other than a unified school district, pupils 15 years of age or older as of September 1 of each fiscal year shall be considered residents of the high school district, and pupils 14 years of age or

under as of September 1 shall be considered residents of the elementary district.

59125. If the parent or guardian of any pupil in the school is unable either himself or from the estate of the child to clothe the child, or pay for its transportation to and from school, or for necessary dental work, eye care, operations, and hospitalization of the child while at the school, or is unable either himself or from the estate of the child to reimburse the Department of Education for expenses incurred by it in providing dental work, eye care, operations, or hospitalization for the child in an emergency, the parent or guardian may apply for a certificate to that effect to the superior court of the county of which the parent or guardian of the child is resident. If the court is satisfied that the parent or guardian either himself or from the estate of the child is unable to pay for any such service, it shall issue a certificate to that effect. The application for the certificate may also be made to the court by the superintendent of the school.

59126. The certificate shall be presented to the superintendent of the school and the superintendent when the certificate shows the parent or guardian of the child is unable either himself or from the estate of the child to clothe the child, or pay for his transportation to and from school, or for necessary dental work, eye care, operations, and hospitalization of the child while in school, shall clothe the child and provide the transportation, dental work, eye care, operations, and hospitalization. The expense of the services, or any of them, shall be advanced by the Department of Education out of money appropriated for the support of the school.

59127. All money expended under the authority of any such certificate for clothing and transportation, necessary dental work, eye care, operations and hospitalization, and all money expended by the Department of Education for expenses incurred by it in providing dental work, eye care, operations, or hospitalization for the child in an emergency for which the Department of Education cannot be reimbursed by the parent or guardian of the child as shown by the certificate, constitutes a legal charge against the county from which the certificate is issued. Expenditures for clothing and transportation shall not exceed the sum of three hundred eighty-five dollars (\$385) for the 1974-75 school year, and an amount thereafter which shall be adjusted annually in conformance with the Consumer Price Index, all items, of the Bureau of Labor Statistics of the United States Department of Labor, measured for the calendar year next preceding the fiscal year to which it applies. The State Controller shall determine the amount authorized pursuant to this section for the 1975-76 school year and thereafter.

59128. Upon presentation to the county in which the certificate is issued, of an itemized claim, duly sworn to by the superintendent of the school before an officer authorized to administer oaths, for the expense for clothing, transportation, and other items provided and furnished under the authority of the certificate, or for the reimbursement of the Department of Education, the claim shall be

processed and paid pursuant to the provisions of Chapter 4 (commencing with Section 29700) of Division 3 of Title 3 of the Government Code. The amount paid and all reimbursements of the Department of Education under this section shall be credited to the current appropriation for the support and maintenance of the school.

59129. If it appears to the satisfaction of the court that the parent or guardian has sufficient pecuniary ability or that there are sufficient funds in the estate of the child to provide the service for the child or to reimburse the Department of Education for expenses incurred by it on providing the service for the child in an emergency, the court shall not issue the certification, but shall according to the nature of the application before it, either order the superintendent to provide the child with the service, or order the parent or guardian either himself or from the estate of the child, as the court determines, to reimburse the Department of Education for expenses incurred by it in providing the service for the child in an emergency.

59130. If the Department of Education is not reimbursed by the parent or guardian personally or from the estate of the child for expenditures made by the superintendent under the order of the court or if the parent or guardian does not comply with an order of the court to reimburse the Department of Education either personally or from the estate of the child for expenses incurred by it in providing the service for the child in an emergency the superintendent may sue the parent or guardian, in the name of the state, to recover any money paid out by order of the court or due the Department of Education as reimbursement under an order of the court.

59131. Blind persons not residents of this state may be admitted to the benefits of the school upon paying to the Department of Education the sum of the school year cost for the maintenance, care, and instruction of persons at the school, payable quarterly in advance. The cost of the care, maintenance, and instruction shall be determined by the Department of Education with the approval of the Department of Finance.

#### Article 4. Services and Courses

59140. The Department of Education, in connection with the California School for the Blind, shall establish and maintain a kindergarten service for the care and teaching of children under school age. The department shall prescribe the rules and regulations which shall govern the conduct of the kindergarten service, appoint such teachers as it determines necessary, and fix their salaries.

59141. The Department of Education shall create the position of visiting teacher to blind children of preschool age. With the consent of the parents of any blind child of preschool age it shall be the duties of such visiting teacher to assist and instruct the parents in the early care and training of said child, to train the child in play, and to do everything which will assure the child's physical, mental and social

adjustment to its environment. The Department of Education shall maintain a sufficient number of visiting teachers to adequately serve the needs of parents of preschool blind children in accordance with the known number of such children. In any event the caseload of each visiting teacher shall not exceed a number of clients that can be adequately and fully served.

59142. The Department of Education, in addition to the teaching and education of the blind of suitable age, shall adopt measures and prescribe rules for the giving of vocational training to the pupils at the school, in order that they may be equipped upon their graduation to engage in occupations or industries by which they may become self-supporting. The board shall determine the nature and scope of the vocational training, with the view of best adapting the blind to follow useful and productive pursuits, after the completion of their education.

59143. The Superintendent of Public Instruction may authorize the California School for the Blind to establish and maintain, either independently or in cooperation with the University of California or the Trustees of the California State University and Colleges, teacher training courses for teachers of the blind. The Superintendent of Public Instruction shall establish standards for the admission of persons to the courses, and for the content thereof.

The California School for the Blind may enter into agreements with the Trustees of the California State University and Colleges, the University of California, or any other university or college accredited by the State Board of Education as a teacher training educational institution, to provide practice teaching required for issuance of the credentials authorizing the holder to teach the visually handicapped, the deaf-blind, or provide orientation and mobility instruction. Such agreement may provide a reasonable payment, for services rendered, to teachers of the California School for the Blind who have practice teachers under their direction.

59144. The Superintendent of Public Instruction, in conjunction with the California School for the Blind, shall provide assessment and instructional planning services for individuals who are referred for such services by responsible local agencies under subdivision (b) of Section 53336.

### CHAPTER 3. SCHOOLS FOR NEUROLOGICALLY HANDICAPPED CHILDREN

#### Article 1. Administration

59200. There are three schools for neurologically handicapped children known and designated as Diagnostic School for Neurologically Handicapped Children, Northern California, Diagnostic School for Neurologically Handicapped Children, Central California, and Diagnostic School for Neurologically Handicapped Children, Southern California.

59201. The diagnostic schools for neurologically handicapped children are a part of the school system of the state, except that they derive no revenue from the Public School Fund, and have for their object diagnosis, and the determination of the treatment, and educational program of children with neurological handicaps. These schools provide temporary residence for children, who, by reason of their handicaps, need educational diagnostic services not available in regular public school classes.

59202. The schools are under the administration of the Superintendent of Public Instruction.

59203. The Superintendent of Public Instruction in relation to the diagnostic schools for neurologically handicapped children shall:

- (a) Prescribe rules for the government of the schools.
- (b) Appoint the superintendents and other officers and employees.
- (c) Remove for cause any officer, teacher or employee.
- (d) Fix the compensation of teachers.
- (e) Determine the length of, and the time for, vacations of teachers.
- (f) Contract with the University of California or with other public or private hospitals or schools of medicine for the establishment and maintenance of diagnostic service and treatment centers for neurologically handicapped children.

59204. The Superintendent of Public Instruction, in connection with the diagnostic schools for neurologically handicapped children, shall also:

- (a) Make comprehensive diagnostic evaluations of individuals referred for such service by responsible local agencies under subdivision (b) of Section 56336.
- (b) Provide instructional planning services for individuals evaluated under subdivision (a).
- (c) Provide counseling services for parents, guardians, and families of neurologically handicapped and seriously emotionally disturbed children.
- (d) Conduct experimental assessment projects designed to meet needs of those categories of neurologically handicapped children selected by the Superintendent of Public Instruction.

## Article 2. Teaching Force

59210. The powers and duties of the superintendents of the schools are such as are assigned to them by the Superintendent of Public Instruction.

59211. The Superintendent of Public Instruction may, in cooperation with an accredited college or university, authorize the California schools for neurologically handicapped children to establish and maintain teacher training courses designed to prepare teachers to instruct neurologically handicapped children in special classes in the public school system. The Superintendent of Public

Instruction, in cooperation with an accredited college or university, shall prescribe standards for the admission of persons to the courses, and for the contents of the courses. Courses conducted in the schools shall be counted toward requirements of a credential in the area of the educationally handicapped upon the establishment of such a credential.

The diagnostic schools for neurologically handicapped children may enter into agreements with the Trustees of the California State University and Colleges, the University of California, or any other university or college accredited by the State Board of Education as a teacher training educational institution, to provide practice teaching required for issuance of the credential authorizing the holder to teach the educationally handicapped. Such agreement may provide a reasonable payment, for services rendered, to teachers of the diagnostic schools for neurologically handicapped children who have practice teachers under their direction.

### Article 3. Pupils

59220. Every resident of California less than 21 years of age, of suitable age and capacity, as determined by means of diagnosis at the diagnostic and treatment schools for neurologically handicapped children, is entitled to enrollment in a school for neurologically handicapped children, free of charge.

Children with neurological handicaps, not residents of California, may be admitted to the benefits of the schools upon paying to the Department of Education, quarterly in advance, the actual support cost at the average cost of maintaining pupils in the school for the period in question. This cost shall be determined by the Department of Education with the approval of the Department of Finance.

59221. On or before July 15 of each year, the superintendent of each California diagnostic school for neurologically handicapped children shall report in writing to the governing board of each school district of residence the name of each pupil and the number of days attended by each pupil during the fiscal year. For each such pupil in attendance at a California diagnostic school for neurologically handicapped children, under the provisions of this chapter, the school district of residence shall annually pay to the Department of Education an amount determined by (1) dividing the income credited to the general fund of the school district from the levy of the district tax rate, exclusive of taxes levied under Sections 15250, 15733, 16090, 42200, and 56811, by the average daily attendance of the school district, and (2) multiplying the quotient obtained by the ratio that the number of days the pupil attended the school for the neurologically handicapped bears to the number of days the school for the neurologically handicapped was in session.

For determining the school district responsible under the provisions of this section for making the payment when the pupil resides in other than a unified school district, pupils 15 years of age

or older as of September 1 of each fiscal year shall be considered a resident of the high school district, and pupils 14 years of age or under as of September 1 shall be considered a resident of the elementary district.

The payment shall be made by the Controller withholding from the second principal apportionment of the fiscal year following the year of attendance the amount due on account of the attendance of pupils of the district at the California diagnostic schools for neurologically handicapped children as reported to the Controller by the Superintendent of Public Instruction, except that in no case shall the apportionment to a district be reduced below the amount prescribed by Section 6 of Article IX of the Constitution. The Controller shall transfer the amount withheld to, or in augmentation of, the appropriate Department of Education support appropriation for the support and maintenance of the appropriate school for the neurologically handicapped.

59222. If a school district makes a payment in excess of the amount due the Department of Education under the provisions of Section 59221, the department shall refund to the district, from the appropriation to which the payment was credited, the amount that is in excess of the amounts due.

## PART 33. INSTRUCTIONAL MATERIALS AND TESTING

### CHAPTER 1. INSTRUCTIONAL MATERIALS

#### Article 1. Legislative Intent

60000. It is the intent and purpose of the Legislature in enacting this part to provide for the acquisition of instructional materials for the elementary and secondary schools.

60001. For the purposes of any provision of the California Constitution which requires the adoption of textbooks for use in the elementary schools, the state board shall have the power, subject to the provisions of this division, to adopt one or more separate series of textbooks or instructional materials systems for any of the several courses offered in the elementary schools, or for any combination of such courses. For such purposes the term "elementary schools" shall have the meaning prescribed by Section 60024.

60002. The Legislature hereby recognizes that, because of the common needs and interests of the citizens of this state and the nation, there is a need to establish broad minimum standards and general educational guidelines for the selection of instructional materials for the public schools, but that, because of economic, geographic, physical, political, educational, and social diversity, specific choices about instructional materials need to be made at the local level.

60003. The Legislature further recognizes that by enacting Chapter 1 (commencing with Section 51000) and Chapter 2

(commencing with Section 51200) of Part 28 of this division it gave school district governing boards broad powers to establish courses of study, and that school district governing boards must have the ability to choose instructional materials which are appropriate to their courses of study.

## Article 2. Definitions

60010. For the purpose of this part the definitions set forth in this article shall govern the construction of this part.

60011. "Instructional material" means all materials designed for use by pupils and their teachers as a learning resource and which help pupils to acquire facts, skills, or opinions or to develop cognitive processes. Instructional materials may be printed or nonprinted and may include textbooks, educational materials and tests.

60012. "Basic instructional material" means instructional materials designed for use by pupils as a principal learning resource and which meet in organization and content the basic requirements of the intended course.

60013. "Supplementary instructional materials" means instructional materials designed to serve, but not limited to, one or more of the following purposes, for a given subject, at a given grade level:

(1) To provide more complete coverage of a subject or subjects included in a given course.

(2) To provide for meeting the various learning ability levels of pupils in a given age group or grade level.

(3) To provide for meeting the diverse educational needs of pupils with a language disability in a given age group or grade level.

(4) To provide for meeting the diverse educational needs of pupils reflective of a condition of cultural pluralism.

60014. "Instructional materials system" means a comprehensive collection of related instructional materials which are designed to improve learning in one or more subjects and are so designed that all parts of the system are necessary to produce the results intended.

60015. "Instructional materials set" means a collection of related instructional materials produced and submitted as a set by a single publisher or manufacturer and which are so designed that each part of the set is related to the same subject; however, not all parts of a set shall be necessary to promote the maximum efficiency of pupil learning in that subject. All parts of a set shall have a common educational purpose and methodology, and each part of a set shall be identified, marked, or imprinted with a common title or name.

60016. "Textbook" means a book designed for use by pupils as a source of instructional material, or a teachers edition of the same book.

60017. "Education material" means any audiovisual or manipulative device including, but not limited to films, tapes, flashcards, kits, phonograph records, study prints, graphs, charts and

multimedia systems. Educational materials do not constitute equipment as defined in the California School Accounting Manual.

60018. "Test" means any device used to measure the knowledge or achievement of students.

60019. "State board" means the State Board of Education.

60020. "Commission" means the Curriculum Development and Supplemental Materials Commission.

60021. "District board" means that board of education or governing board of any county, city and county, city or other district which has the duty to provide for the education of the children in its county, city and county, city, or district.

60022. "Governing boards" means the state board and any one or more district boards.

60023. "School official" means any member of any governing board, any city, county, city and county or district superintendent of schools, and any principal, teacher or other employee under his charge.

60024. "Elementary school" means all public schools in which instruction is given through grade 8 or in any one or more of such grades.

60025. "High school" means all public schools other than elementary schools in which instruction is given through grade 12, or in any one or more of such grades.

60026. "Nonpublic school" means a school satisfying the requirements of Section 48222, if such school is exempt from taxation under Section 214 of the Revenue and Taxation Code.

60027. "Learner verification" means the continuous and thorough evaluation of instructional materials for their effectiveness with pupils.

60028. "Curriculum framework" means an outline of the components of a given course of study designed to provide state direction to school districts in the provision of instructional programs.

### Article 3. Requirements, Materials

60040. When adopting instructional materials for use in the schools, governing boards shall include only instructional materials which, in their determination, accurately portray the cultural and racial diversity of our society, including:

(a) The contributions of both men and women in all types of roles, including professional, vocational, and executive roles.

(b) The role and contributions of American Indians, American Negroes, Mexican Americans, Asian Americans, European Americans, and members of other ethnic and cultural groups to the total development of California and the United States.

(c) The role and contributions of the entrepreneur and labor in the total development of California and the United States.

60041. When adopting instructional materials for use in the

schools, governing boards shall include only instructional materials which accurately portray, whenever appropriate:

(a) Man's place in ecological systems and the necessity for the protection of our environment.

(b) The effects on the human system of the use of tobacco, alcohol, narcotics and restricted dangerous drugs as defined in Section 11032 of the Health and Safety Code, and other dangerous substances.

60042. When adopting instructional materials for use in the schools, governing boards shall require such materials as they deem necessary and proper to encourage thrift, fire prevention and the humane treatment of animals and people.

60043. When adopting instructional materials for use in the schools, the governing board shall require, when appropriate to the comprehension of pupils, that textbooks for social science, history or civics classes contain the Declaration of Independence and the Constitution of the United States.

(Amended by Stats. 1976, Ch. 1011 )

[ORIGINAL SECTION]

60043. When adopting instructional materials for use in the schools governing boards shall require, when appropriate to the comprehension of pupils, that textbooks for social science, history or civics classes contain the Declaration of Independence and the Constitution of the United States

60044. No instructional materials shall be adopted by any governing board for use in the schools which, in its determination, contains:

(a) Any matter reflecting adversely upon persons because of their race, color, creed, national origin, ancestry, sex or occupation.

(b) Any sectarian or denominational doctrine or propaganda contrary to law.

60045. All instructional materials adopted by any governing board for use in the schools shall be, to the satisfaction of the governing board, accurate, objective, and current and suited to the needs and comprehension of pupils at their respective grade levels.

60046. Any governing board may conduct an investigation of the compliance of any instructional materials which it adopts with the requirements of this article.

60047. In the event that after the good faith acquisition of instructional materials by a governing board, the instructional materials are found to be in violation of this article and the governing board is unable to acquire other instructional materials which meet the requirements of this article in time for them to be used when the acquired materials were planned to be used, the governing board may use the acquired materials but only for that academic year.

#### Article 4. Requirements, Publishers and Manufacturers

60060. Every publisher or manufacturer of instructional materials offered for adoption or sale in California shall comply with

all the requirements and provisions of this part.

60061. A publisher or manufacturer shall:

(a) Furnish the instructional materials offered by him at a price in the State of California which, including all costs of transportation to that place, shall not exceed the lowest price at which the publisher offers said instructional materials for adoption or sale to any state or school district in the United States.

(b) Automatically reduce the price of said instructional materials to any governing board to the extent that reductions are made elsewhere in the United States.

(c) Provide any instructional materials free of charge in the State of California to the same extent as that received by any state or school district in the United States.

(d) Guarantee that all copies of any instructional materials sold in California shall be at least equal in quality to the copies of such instructional materials that are sold elsewhere in the United States, and shall be kept revised, free from all errors, and up to date as may be required by the state board.

(e) Not in any way, directly or indirectly, become associated or connected with any combination in restraint of trade in instructional materials, and that he will not enter into any understanding, agreement, or combination to control prices or restrict competition in the sale of instructional materials for use in the State of California.

(f) Maintain an office and depository in the State of California or arrange with an independently owned and operated depository in the State of California to receive and fill orders for instructional materials.

For purposes of the preceding paragraph of this subdivision, "instructional materials" shall mean textbooks, or instructional materials systems or instructional materials sets which include textbooks.

For purposes of textbook purchases by governing boards pursuant to subdivision (b) of Section 60264 and Section 60401, the provisions of this subdivision shall apply to every publisher or manufacturer except one whose total orders for textbooks from all governing boards in California under any section of this division are or will be, for the particular school year, less than 1,000 copies of any single title or less than 10,000 copies of multiple titles.

(g) Upon the willful failure of the publisher or manufacturer to comply with the requirements of this section, be liable to the governing board in the amount of three times the total sum which the publisher or manufacturer was paid in excess of the price required under subdivisions (a) and (b) and (e), and in the amount of three times the total value of the instructional materials and services which the governing board is entitled to receive free of charge under subdivision (c).

60062. The provisions of Section 60061 shall apply to the purchase of instructional materials under Sections 18132 and 18171.

60063. Any governing board shall order any publisher or

manufacturer who violates any provision of this division to cease to offer or sell any instructional materials to that governing board. If such an order is made, it shall be unlawful for such publisher or manufacturer to sell instructional materials to that governing board until such publisher or manufacturer has demonstrated, to the governing board which made such order, that it is no longer violating the specified provision of this part.

#### Article 5. Prohibited Acts

60070. No school official shall require any pupil, except pupils in classes for adults to purchase any instructional material for the pupils' use in the school.

60071. No publisher or manufacturer of instructional materials, nor any of his representatives, shall offer or give any emolument, money, or other valuable thing, or any inducement, to any school official to directly or indirectly introduce, recommend, vote for, or otherwise influence the adoption or purchase of any instructional material.

60072. No school official shall accept any emolument, money or other valuable thing, or any inducement to directly or indirectly introduce, recommend, vote for, or otherwise influence the adoption or purchase of any instructional material.

60073. Any publisher or manufacturer of instructional materials or his representative, or any school official who violates any of the provisions of this article is guilty of a misdemeanor. Any school official who violates any of the provisions of this article shall, in addition to any other penalty, be removed from his official position.

60074. Nothing in this article shall be construed to prevent any publisher, manufacturer, or agent from supplying for purposes of examination necessary sample copies of instructional materials to any school official.

60075. Nothing in this article shall be construed to prevent a school official from receiving sample copies of instructional materials.

60076. Nothing contained in this article shall be construed to prohibit or restrict a school official from receiving royalties or other compensation from the publisher or manufacturer of instructional materials written, designed, or prepared by such school official, and adopted or purchased by any governing board, other than compensation paid as commission to the school official for negotiating sales to governing boards. No district shall have or claim the right to receive any such royalty or other compensation due to any school official employed by the district unless the instructional material was written or prepared during the normal schoolday during which the school official is required by the district to be on duty.

## Article 6. Reports

60090. Each district board shall make reports, whenever required, directly to the Superintendent of Public Instruction, concerning the instructional materials used in its schools.

## Article 7. Application of Part

60100. No provision of this part shall be construed as requiring the district board of any district to provide instructional materials, free of charge, or otherwise, to any adult enrolled in a class for adults, nor shall any of the provisions of this part be construed as applicable to instructional materials required or authorized to be used by adults in classes for adults.

60101. No provision of this part shall be construed as prohibiting any district board, or any county library, from ordering and purchasing from their own funds such instructional materials as they may require, including state listed materials at a price equal to that computed pursuant to Section 60243.

60102. If any provision of this part, or the application thereof to any person or circumstances is held invalid, such invalidity shall not affect other provisions or applications of the part which can be given effect without the invalid provision or application, and to this end the provisions of this part are severable.

## Article 8. Instructional Materials on Drug Education

60110. It is the intent of the Legislature that the State Board of Education give high priority to the adoption of instructional materials on drug education for classroom use by teachers and pupils. Such materials shall be designed to assist the teacher in presenting instruction on drug education and to meet the needs of pupils at their respective grade levels. Such materials shall be accurate, objective, and current.

60111. The Department of Education shall establish an information center of current drug education materials which may be used by school districts and teachers for instruction on drug education. The information center shall include, but not be limited to, all the following: current state and federal drug laws; samples of effective courses of study, curriculum guides, teaching materials, reference materials, reports of current and school district policies related to drug education.

## CHAPTER 2. ELEMENTARY SCHOOL MATERIALS

### Article 1. Selection and Adoption

60200. The state board shall biennially adopt a list of textbooks and instructional materials for use in the elementary school grades

subject to the following provisions:

(a) The state board shall adopt not less than five but not more than 15 of any of the following, per subject, per grade: (1) instructional materials, (2) instructional materials systems, (3) instructional materials sets, (4) a combination of instructional materials, instructional materials systems, and instructional materials sets. The state board may designate each instructional material, instructional material system, instructional material set, or any combination thereof, as basic or supplementary. The state board shall not adopt more than two instructional materials sets per subject.

(b) Fewer than five instructional materials, instructional materials systems, and instructional materials sets may be adopted per subject, per grade if publishers and manufacturers of instructional materials do not submit a sufficient number of educationally useful materials or systems, as determined by the state board; however, in no event shall the state board adopt less than two basic instructional materials systems per subject, per grade.

(c) In the event that a district board establishes to the satisfaction of the state board that the adoption of basic instructional materials does not promote the maximum efficiency of pupil learning in the district, the state board shall authorize that district board to use its instructional materials credit to purchase, through the Department of Education, additional instructional materials specified by the state board in accordance with standards and procedures established by the state board.

(d) The state board shall biennially adopt lists of instructional materials for the following subjects: (1) language arts, (2) arithmetic, (3) social sciences, (4) reading, (5) science, and (6) any other subject in which the board shall determine the need and desirability for instructional materials to promote the maximum efficiency of pupil learning. The state board may establish a cycle for adoptions by designating subjects to be adopted in even-numbered years and subjects to be adopted in odd-numbered years.

(e) The state board shall, at the time of the adoption, determine the date upon which state-adopted instructional materials shall be available for use by district boards.

(f) The state board may adopt instructional materials, instructional materials systems, and instructional materials sets without designating a grade or subject and the state board may designate more than one grade or subject whenever the state board determines that a single subject designation or a single grade designation would not promote the maximum efficiency of pupil learning. Any materials so designated may be placed on a single grade or single subject list or may be placed on separate lists including other materials with similar grade or subject designations; however, all materials so designated shall be adopted subject to the numerical limitations of subdivision (a).

60201. In adopting the biennial list of instructional material the state board may do any one or more of the following:

(a) Retain any instructional materials from the previous biennial list, or any instructional materials adopted by it prior to October 1, 1972, and make any adjustment in prices based on information provided pursuant to Section 60223.

(b) Delete from the previous biennial list any instructional materials adopted by it prior to October 1, 1972, or any material which it determines is obsolete pursuant to Section 60500, or which received no order from any district board during the previous biennial period.

(c) Add instructional materials not previously submitted for adoption, or materials previously submitted which have been revised to comply with any recommendations of the state board.

60202. Before final adoption of any instructional materials not currently listed, the state board shall make any textbooks proposed for adoption available for public inspection for 30 days at display centers designated by county superintendents of schools. There shall be at least five display centers in Los Angeles County, three each in Orange County and San Diego County, and two each in Alameda County and Santa Clara County.

60203. The state board shall give the commission a public hearing before making any adoption of instructional materials for use in the elementary schools of the state.

60204. The commission shall:

(a) Recommend curriculum frameworks to the state board.

(b) Develop criteria for evaluating instructional materials submitted for adoption so that the materials adopted shall adequately cover the subjects in the indicated grade or grades and which comply with the provisions of Article 3 (commencing with Section 60040 of Chapter 1 of this part. Such criteria shall be public information and shall be provided in written or printed form to any person requesting such information.

(c) Study and evaluate all instructional materials submitted for adoption.

(d) Recommend to the state board instructional materials which it approves for adoption.

60205. The commission may, in order to fulfill its duties pursuant to Section 60204, appoint task forces or committees of subject matter experts to assist and advise them. Each task force or committee appointed by the commission shall include classroom teachers as defined in Section 33150 and representatives of the various ethnic groups and of the various types of school districts. Accurate records of the advice and recommendations of each task force or committee member shall be maintained by the commission, and made available to the state board at its request.

## Article 2. Duties of Publishers and Manufacturers

60220. All publishers and manufacturers submitting instructional materials for adoption by the state board shall comply with the

provisions of Article 1 (commencing with Section 60000) to Article 7 (commencing with Section 60100), inclusive, of this part.

60221. Publishers and manufacturers submitting instructional materials for adoption shall provide sample copies of such materials in quantities to be determined by the state board.

60222. Publishers and manufacturers shall, at a time designated by the commission, submit the following information:

(a) Detailed specifications of the physical characteristics of such material. Such specifications shall be complied with by the publisher or manufacturer if the material is adopted and purchased in completed form by the state board or any district board. If the material is adopted under a lease contract, the Department of General Services shall follow comparable specifications in manufacturing the material. Changes in specifications may be made when approved by the state board and the publisher or manufacturer.

(b) A price schedule for the sale of completed materials to the state, including all costs of transportation pursuant to subdivision (a) of Section 60061, a statement of the cost to the State of California of purchasing a single unit of each item of instructional material, and any discounts for quantity purchases and any discounts for payment within any specified period of time.

(c) A price schedule for the lease and/or purchase by the state of films, dies, and other materials to be used by the state to manufacture such materials.

(d) A price schedule of royalty costs to be paid to the publisher or manufacturer whenever the state manufactures and distributes to school districts any such materials.

60223. Publishers and manufacturers may submit revisions to price schedules submitted pursuant to Section 60222 for any materials being considered for relisting pursuant to subdivision (a) of Section 60201.

60224. Publishers and manufacturers shall make available for purchase by any governing board any diagnostic, criterion-referenced, or other tests that they may develop.

60225. At the request of any district board and with the approval of the county superintendent of schools, publishers and manufacturers or other qualified persons or organizations shall provide in-service training in the use of instructional materials produced by them. The in-service training shall be provided on terms agreed to by the publisher or manufacturer or other qualified person or organization and may be paid for by the district board. If the publisher or manufacturer or other qualified person or organization does not provide the in-service training at no cost to the district board, and the district board does not agree to pay for the in-service training, no penalties shall be imposed upon the publisher or manufacturer or other qualified person or organization.

60226. Publishers and manufacturers shall, in accordance with rules and regulations adopted by the state board, develop plans to

improve the quality and reliability of instructional materials through learner verification. Governing boards shall be encouraged to permit publishers and manufacturers to have limited access to classrooms for necessary testing and observation. Publishers and manufacturers shall provide copies of test results and evaluations made as part of learner verification at the request of any governing board.

### Article 3. State Instructional Materials Fund

60240. There is hereby created the State Instructional Materials Fund, effective July 1, 1973. The fund shall be a means of annually funding the acquisition of instructional materials as required by the Constitution of the State of California. All money in the fund is continuously appropriated to the Department of Education without regard to fiscal years for carrying out the purposes of this division. It is the intent of the Legislature that the fund shall provide for flexibility of instructional materials.

60241. The fund shall be administered by the Department of Education under policies established by the state board. The state board shall encumber part of the fund to:

(a) Pay for the cost of royalties, warehousing, and shipping for those textbooks in the state textbook warehouse as of July 1, 1973, and adopted by the state board prior to March 7, 1973.

(b) Pay for the costs of instructional materials to be loaned to nonpublic school pupils pursuant to Section 60315.

(c) Pay for the costs of braille and large print textbooks to be furnished for visually handicapped pupils pursuant to Sections 60312 and 60313.

(d) Pay for the costs of warehousing and transporting textbooks printed by the Department of General Services. Such costs shall not exceed 10 percent of the cost of each textbook printed by the Department of General Services.

(e) Establish, commencing with the 1974-75 fiscal year, a reserve account, of not to exceed two hundred thousand dollars (\$200,000) to pay for the cost of:

(1) Acquisition of instructional materials, including those ordered for purchase by persons and entities pursuant to subdivisions (a) and (b) of Section 60310.

(2) Replacement of instructional materials obtained by a school district with its credit, which are lost or destroyed by reason of fire, theft, natural disaster, or vandalism.

60242. After the application of Section 60241, the state board shall encumber the balance of the fund for the purpose of:

(a) Establishing a credit for each district board with which instructional materials adopted by the state board may be ordered.

(b) Establishing a cash allotment in an amount determined by the state board for use in purchasing instructional materials from any source, or for the purchase of tests or in-service training pursuant to Sections 60224 and 60225.

(c) Obtaining instructional materials in subsequent fiscal years.

In establishing the credit and cash allotments for each school district, the board may take into consideration estimated increases or decreases in average daily attendance for the year in which the instructional materials are to be used.

60243. District boards ordering instructional materials from lists adopted by the state board shall have deducted from their credit a unit cost based on the information provided by publishers or manufacturers pursuant to subdivision (b) of Section 60222. In the event that the state board arranges for the manufacture of such instructional materials at a lower actual cost the savings shall be deposited in the State Instructional Materials Fund, to be used for additional textbook credit in subsequent years.

60244. Where the adoption period of any adoption made prior to October 1, 1972, has expired after such date but prior to the first biennial adoption to be made for that subject pursuant to the statutes enacted at the 1972 Regular Session of the Legislature, the state board may extend the prior adoption period for such books for any period up to but not beyond the date determined by the state board pursuant to subdivision (e) of Section 60200 for the first biennial adoption in that subject. Acquisition and distribution of books under an extended adoption shall be in accordance with the law and agreements with publishers in effect at the time of original adoption except that:

(a) No minimum order or ratio of textbooks shall be required of district governing boards, except that each district board shall provide sufficient quantities of the state-adopted textbooks to meet the needs of their pupils and the requirements of Section 7.5 of Article IX of the California Constitution.

(b) The unit cost price of books ordered for use after July 1, 1974, whether by purchase from the publisher or printed by the Department of General Services shall be deducted from the credit of the district board ordering such books.

(c) In the event that the books under an extended adoption are found to be in violation of the requirements in Article 3 (commencing with Section 60040) of Chapter 1 of this part, and the governing board is unable to acquire other books which meet the requirements of that article in time for them to be used when the acquired books were planned to be used, the governing board may use the acquired books but only for that academic year.

This section shall remain in effect until July 1, 1977, and on that date is repealed.

60245. The fiscal yearend unexpended balance of any cash allotment or credit of any district board shall be separately encumbered for the district board and shall be separately carried over into the subsequent fiscal year for their respective uses by the district board.

60246. The State Controller shall during each fiscal year, commencing with fiscal year 1973-1974, transfer from the General

Fund of the state to the State Instructional Materials Fund, an amount of seven dollars (\$7) per pupil in average daily attendance in the public and nonpublic elementary schools during the preceding fiscal year, as certified by the Superintendent of Public Instruction, except that this amount shall be adjusted annually in conformance with the Consumer Price Index, all items, of the Bureau of Labor Statistics of the United States Department of Labor, measured for the calendar year next preceding the fiscal year to which it applies. For purposes of this section, average daily attendance in the nonpublic schools shall be the enrollment reported pursuant to Section 33190.

60247. This article shall become operative on July 1, 1973. This article shall remain in effect only until June 30, 1977, and as of that date is repealed.

#### Article 4. Local Ordering Procedures

60260. It is the intent of the Legislature in adopting this article that district boards order instructional materials which meet the needs of pupils in their district, and which relate to their courses of study as adopted pursuant to law.

60261. District boards shall determine the necessary quantities and distribution pattern of instructional materials to pupils. No minimum order or ratio of materials shall be required, except that each district board shall provide sufficient quantities of state-adopted textbooks and instructional materials to meet the needs of their pupils and the requirements of Section 7.5 of Article IX of the California Constitution. District boards shall order all parts of any instructional material system which they order, except that, upon furnishing evidence to show that it already possesses any part or parts of a system, a district board shall not be required to order that quantity of those parts of the system. District boards may order any quantity of any part of any instructional materials set.

60262. District boards shall provide for substantial teacher involvement and shall promote the involvement of parents and other members of the community in selecting instructional materials.

60263. District boards shall order state-adopted textbooks and instructional materials on forms prescribed by the Department of Education. Such forms shall include, or be accompanied by, information concerning the grade or grades and subject or subjects for which each instructional material is intended, and the unit cost of such material, as computed pursuant to Section 60243, which will be deducted from the credit of the district when ordered. District boards may order instructional materials from lists adopted by the state board without regard to the subject or grade designated by the state board and may use such instructional materials in any manner which will promote the maximum efficiency of pupil learning.

60264. (a) All district orders for state-adopted instructional materials shall be forwarded as directed by the Superintendent of

Public Instruction for procurement of such materials in the most economical and timely manner pursuant to Article 5 (commencing with Section 60280) of this chapter. However, in cases where the district does not qualify as a city school district and is an elementary district with fewer than 901 average daily attendance or a unified district with fewer than 1,501 average daily attendance, the county superintendent of schools shall approve the orders for instructional materials by such districts before forwarding as directed by the Superintendent of Public Instruction.

(b) All district orders for instructional materials not adopted by the state shall be placed directly with the publisher or manufacturer at any of its offices in the State of California or at any publishers' or manufacturers' depository in the State of California, except that all district orders for instructional materials other than textbooks, and other than instructional materials systems and instructional materials sets which include textbooks, may be placed directly with the publisher or manufacturer. The provisions of this paragraph with respect to the purchase of textbooks are subject to the numerical limitations of subdivision (f) of Section 60061.

60265. After any instructional material, including any state-adopted textbook, has been placed in use by a district board subsequent to a biennial adoption, it shall be retained in use by the district for a period of not less than two years nor more than six years after the date of its first use.

Any textbook which has been placed in use by a district board prior to July 1, 1974, pursuant to a state board adoption made prior to August 15, 1972, may be retained in use by the district up to but not beyond the date determined by the state board pursuant to subdivision (e) of Section 60200 for the second biennial adoption in that particular subject.

However, the Superintendent of Public Instruction may exempt materials from these requirements whenever the district board demonstrates that the continued use of the material will contribute to the maximum efficiency of pupil learning.

#### Article 5. State Procurement

60280. The state board shall cause to be acquired and distributed any instructional materials ordered by district boards pursuant to Article 4 (commencing with Section 60260) of this chapter.

60281. The state board may acquire instructional materials included in any list adopted by the board for use in the elementary schools, by any one or more of the following means determined by the board to be in the best interests of the state:

(a) Purchase them directly from the publisher or manufacturer at any of its offices in the State of California or from any publishers' or manufacturers' depository in the State of California, except that instructional materials other than textbooks, and other than instructional materials systems and instructional materials sets which

include textbooks, may be purchased directly from the publisher or manufacturer.

(b) Compile them, or cause them to be compiled and manufacture them.

(c) Lease films, dies, maps, engravings, or copyright or patented matter for use in manufacturing them.

(d) Contract for, or lease copyrights for use in compiling, printing, or publishing them.

(e) Provide for either the payment of royalties or for the leasing of films or both, or for making the whole or any part of the material and do any or all things that may be necessary for the purpose of procuring materials for use in the elementary schools.

(f) Arrange for the printing of textbooks by the Department of General Services.

(g) Produce or contract for the production of textbooks in braille, large print, recordings or other media for the use of handicapped minors, including the visually handicapped.

For the purposes of acquiring the various parts of any instructional materials system adopted pursuant to Section 60200, the state board may use any one or combination of the foregoing means in order to acquire all or any part of the instructional materials system.

60282. Each contract executed for the procurement of instructional materials shall include the right of the state to transcribe and reproduce the material in braille, large print, recordings or other media for the use of handicapped minors, including the visually handicapped, unable to use the book in conventional print and form. Such right shall include those corrections, revisions and other modifications as may be necessary.

60283. Each contract executed pursuant to Section 60282 shall specify that the royalty, if required, for such materials shall be that specified in the contract for the regular materials designed for nonhandicapped pupils. Any contract for the purchase of instructional materials shall establish a royalty, if required, for permission to transcribe or reproduce in braille, large print, recordings or other media for use of handicapped minors, including the visually handicapped.

60284. The cost of instructional materials acquired in any manner pursuant to Section 60281 shall be paid out of the State Instructional Materials Fund.

60285. The state board, in order to procure textbooks, shall tabulate all orders for each textbook title received from school districts and nonpublic school pupils. The Department of General Services shall select from the tabulation those titles which can be manufactured by that department at a unit cost lower than that specified in the price schedule submitted by the publisher or manufacturer pursuant to subdivision (b) of Section 60222 and which that department can complete manufacture of in time to permit delivery to the school districts and nonpublic school pupils prior to the opening of school in the year in which the textbooks are to be

used.

60286. All textbooks not printed pursuant to Section 60285 and all other instructional materials shall be obtained by the state board pursuant to Section 60281.

60287. Subject to the approval of the state board or a representative of the state board appointed to supervise the work, the Department of General Services shall have supervision of all the mechanical work connected with the printing of such textbooks as may be compiled and adopted. The Department of General Services, after printing and binding the books, shall deliver them to the Superintendent of Public Instruction.

60288. The Department of General Services shall receive payment on the approval of the items of cost by the state board or its duly authorized agent.

60289. The amount fixed for royalty and costs of films or copyright or patented matter in favor of any company, or individual, shall be presented by the Superintendent of Public Instruction to the state board for its approval. Claims shall be paid quarterly, in the same manner as other claims upon the State Treasury.

60290. The Department of General Services shall furnish one copy of a cost-finding report showing items of work and the materials and the exact cost of each item for each of the lot of books, to the state board.

60291. On receiving a copy of the cost-finding report and the estimated cost of the publishing of any book, the state board shall determine and fix the cost price of the books. The cost price shall be determined by adding: (a) the cost of manufacture, and (b) the contract price to be paid as royalty or for the use of films, maps, engravings, or copyrighted or patented matter.

60292. The cost price shall be deemed to be the whole cost of producing the material at Sacramento.

60293. The Department of General Services shall on the first day of each month furnish to the state board a detailed statement showing the name and number of books printed and bound by it during the preceding month, and the number in course of being printed and bound.

60294. The Superintendent of Public Instruction shall arrange for the warehousing and shipping of all instructional materials printed by the Department of General Services in the most economical and timely manner. All other state-adopted instructional materials shall be warehoused and shipped pursuant to subdivision (f) of Section 60061.

60295. The Superintendent of Public Instruction shall arrange for the redistribution of surplus instructional materials to districts reporting insufficient quantities of such materials.

## Article 6. Other Uses

60310. The following individuals or organizations may order instructional materials from lists adopted by the state board:

- (a) The head of any state institution offering instruction in the elementary grades, or giving instruction in the teaching of elementary subjects.
- (b) Governing boards or nonpublic schools.
- (c) Individuals for use only in California.

Such materials shall be purchased at the unit cost determined pursuant to Section 60243.

60311. The Superintendent of Public Instruction shall keep an accurate account of the amount of money received from the sale of instructional materials and report to the Controller in accordance with provisions of Chapter 1 (commencing with Section 16300) of Part 2 of Division 4 of Title 2 of the Government Code. The amount of money collected therefor shall be paid into the Treasury to the credit of the State Instructional Materials Fund.

60312. The state board shall make available copies of adopted textbooks in large print for pupils enrolled in the elementary schools whose visual acuity is 20/70 or less or who have other visual impairment making the use of such textbooks necessary. The state board shall make available adopted textbooks in braille characters for pupils enrolled in elementary schools whose corrected visual acuity is 20/200 or less.

60313. The Superintendent of Public Instruction shall establish and maintain a central clearinghouse-depository and duplication center for specialized textbooks, reference books, recordings, study materials, tangible apparatus, equipment and other similar items for the use of visually handicapped students enrolled in the public schools of California who may require their use as shall be determined by the state board.

Such instructional materials in specialized media shall be available to other handicapped minors enrolled in the public schools of California who are unable to benefit from the use of conventional print copies of textbooks, reference books, and other study materials in a manner determined by the state board.

The specialized textbooks, reference books, recordings, study materials, tangible apparatus, equipment and other similar items shall be available for use by visually handicapped students enrolled in the public community colleges, California State University and Colleges, and the University of California.

60314. The Superintendent of Public Instruction shall loan to pupils entitled to attend the public schools of California, but in attendance at a school other than a public school under the provisions of Section 48222, the items specified in Section 60313, without cost to the pupils or to the nonpublic school which they attend.

60315. The Superintendent of Public Instruction shall lend to

pupils entitled to attend the public elementary schools of the district, but in attendance at a school other than a public school under the provisions of Section 48222, instructional materials adopted by the state board for use in the public elementary schools. No charge shall be made to any pupil for the use of such adopted materials.

Materials shall be loaned pursuant to this section only after, and to the same extent that, materials are made available to students in attendance in public elementary schools. However, no cash allotment may be made to any nonpublic school.

Materials shall be loaned for the use of nonpublic elementary school students after the nonpublic school student certifies to the State Superintendent of Public Instruction that such materials are desired and will be used in a nonpublic elementary school by the nonpublic elementary school student.

### CHAPTER 3. HIGH SCHOOL TEXTBOOKS

#### Article 1. Adoption and Purchase

60400. The district board of each district maintaining one or more high schools shall adopt textbooks for use in the high schools under its control. Only textbooks of those publishers who comply with the requirements of Article 3 (commencing with Section 60040) and Article 4 (commencing with Section 60060) of Chapter 1 of this part and of Section 60226 may be adopted by the district board.

60401. The state board shall designate the kinds of books which shall be classified as textbooks for the purposes of this chapter. All textbooks and instructional materials systems and instructional materials sets which include textbooks, shall be purchased directly from the publisher or manufacturer at any of its offices in the State of California or from any publishers' or manufacturers' depository in the State of California. The provision of the preceding sentence, with respect to the purchase of textbooks, is subject to the numerical limitations of subdivision (f) of Section 60061. Instructional materials not classified as textbooks, and instructional materials sets or instructional materials systems not including textbooks, may be purchased by district boards without reference to the provisions of this chapter.

60402. The textbooks adopted shall be put into use in the district not later than the school year next following their adoption.

60403. After any textbook has been adopted by the district board and placed in use, it shall be retained in use for a period of not less than three years after the date of its adoption, as shown by the official records of the district board.

60404. The clerk, secretary, or other person named by the district board for the purpose shall purchase textbooks on order of the district board of the high school district and shall examine the books when received. If they are found to be correct and in accordance with the order, a warrant shall be drawn for the proper amount,

including the cost of transporting the textbooks, against any fund of the high school district available for the purpose and remitted to the publisher within 30 days after receipt of the books.

## Article 2. Furnishing Textbooks to Pupils

60410. The district board of each high school district may fix a charge not to exceed the cost of the books to the high school district for books furnished pupils in classes for adults. In lieu of fixing such charge, the board may lend books to such pupils and require the making of deposits by the pupils, the amount of deposit made by a pupil to be refunded to him upon the return by him of the books lent him in good condition, reasonable wear and tear excepted.

60411. The district board of each high school district shall purchase textbooks and may purchase supplementary books for the use of pupils enrolled in the high schools of the district. The textbooks and supplementary books shall at all times remain the property of the district, and shall be supplied to the pupils for use without charge.

60412. The district board of each high school district shall make all necessary provisions and arrangements to place the books purchased within easy reach and accessible for the use of all the pupils in the schools under its control.

60413. The district board of a high school district may at the end of any school term sell textbooks and supplementary books owned by the district to pupils of the district at prices which shall not exceed the actual value of the textbooks and supplementary books. The district board shall not require pupils of the district to purchase textbooks or supplementary books offered for sale by the board.

The proceeds of the sales shall be placed in the county treasury to the credit of the general fund of the school district.

60414. The district board of a high school district may purchase textbooks for the use of students residing in the district but attending a public high school in an adjoining state which does not furnish textbooks free of charge. Such textbooks shall remain the property of the district in which the students reside and shall be issued to such students at the discretion of the district board of that district.

## Article 3. Disposal of Old Textbooks

60420. The district board of a district maintaining one or more high schools may provide for the disposition of high school textbooks that have been declared obsolete by the district board, in the manner provided in Section 60510, except that the manner of disposal stipulated in Section 60510 shall not preclude the district board from selling high school textbooks pursuant to Section 60413 nor from selling on the secondhand market high school textbooks that are in fit condition to use, and may provide for the disposition of high school textbooks that have been determined by the board to be unusable for educational purposes in the manner provided in Section 60530.

## CHAPTER 4. OBSOLETE MATERIALS

## Article 1. Determination of Obsolescence

60500. For the purposes of this chapter, governing boards shall adopt rules, regulations and procedures for prescribing standards for determining when instructional materials adopted by them and either loaned by them or in their possession are obsolete, and if such materials are usable or unusable for educational purposes.

## Article 2. Donation or Sale

60510. The state board, any district board which employs a superintendent of schools, and other school districts with the approval of the county superintendent of schools, may dispose of surplus or undistributed obsolete instructional materials in its possession which are usable for educational purposes in any of the following ways:

(a) By donation to any governing board, county free library or other state institution.

(b) By donation to any public agency or institution of any territory or possession of the United States, or the government of any country which formerly was a territory or possession of the United States.

(c) By donation to any nonprofit charitable organization.

(d) By donation to children or adults in the State of California, or foreign countries for the purpose of increasing the general literacy of the people.

(e) By sale for a nominal price for use within the State of California to any organization which agrees to use such materials solely for educational purposes.

60511. Any organization, agency or institution receiving obsolete instructional materials under the provisions of this article must certify to the governing board that it agrees to use the materials for educational purposes and agrees to make no charge of any kind to the persons to whom the organization gives or lends such materials.

60512. In order to ship the obsolete instructional materials to recipients named in Section 60510, governing boards may utilize funds from the State Instructional Materials Fund, in any instance in which the board determines that the cost of shipping will be lower than the estimated cost of storing or otherwise disposing of the obsolete instructional materials involved.

60513. The state board shall pay the publisher or manufacturer the royalties agreed to pursuant to subdivision (e) of Section 60281 for any instructional material that the state board designates as obsolete, but which it provides to district boards that have previously ordered that instructional material.

### Article 3. Disposition of Sale Proceeds

60520. Any money received by the state board from sale of obsolete instructional materials pursuant to the provisions of this chapter shall be deposited in the State Instructional Materials Fund.

60521. Any money received by a district board from the sale of obsolete instructional materials pursuant to the provisions of this chapter shall be deposited in any such fund of the school district as the district board prescribes and shall be used for school district purposes.

### Article 4. Destruction

60530. The state board, any district board which employs a superintendent of schools, and other school districts with the approval of the county superintendent of schools may dispose of unusable surplus or undistributed obsolete instructional materials, or such materials which are usable but cannot be distributed pursuant to Section 60510 in any of the following ways:

(a) Mutilated as not to be salable as instructional materials and sold for scrap or for use in the manufacture of paper pulp or other substances at the highest price that can be obtained.

(b) Destroyed by any economical means, provided that no instructional material shall be destroyed until 30 days after the governing board has given notice to all persons who have filed a request for such notice.

## CHAPTER 5. SCHOOL TESTING PROGRAMS

### Article 1. General Provisions

60600. This chapter may be cited as the California School Testing Act of 1969.

60601. It is the intent of the Legislature in enacting this chapter to determine the effectiveness of school districts and schools in assisting pupils to master the fundamental educational skills toward which instruction is directed. The program of statewide testing shall provide the public, the Legislature, and school districts evaluative information regarding the various levels of proficiency achieved by different groups of pupils of varying socioeconomic backgrounds, so that the Legislature and individual school districts may allocate educational resources in a manner to assure the maximum educational opportunity for all pupils. The program of statewide testing shall identify unusual success or failure and the factors which appear to be responsible, so that appropriate action may be taken at the district and state level to obtain the highest quality education for all public school pupils.

60602. As used in this chapter:

(a) "Achievement test" means any standardized test which

measures or attempts to measure the level of performance which a pupil has attained in one or more courses of study. It shall include (1) tests in basic skills courses administered annually and (2) tests in content courses administered from time to time as designated by the State Board of Education.

(b) "Physical performance test" means any test which measures or attempts to measure the physical fitness of a pupil.

(c) "Testing program" means the systematic achievement testing of all pupils in grades 6 and 12, and the physical performance testing of all pupils in any three grades designated by the State Board of Education, required by this chapter in all schools within each school district by means of tests designated by the State Board of Education.

(d) "Basic skills courses" means those subjects which involve, among other skills, memorization and mastery of specific functions, including, but not limited to, reading, spelling, basic mathematics, and effectiveness of written expression.

(e) "Content courses" means those subjects which require the integration of factual matter, logical analysis, the solution by the student of posed problems, and the communication of ideas, including, but not limited to, literature, history, advanced mathematics, and science.

60603. The State Board of Education shall:

(a) Require a testing program in all school districts.

(b) Require the Department of Education to submit and recommend achievement tests to the State Board of Education for approval and adoption. The adopted tests shall be printed or purchased and distributed to the various school districts in the state by the Department of Education.

(c) The State Board of Education shall develop a testing method that will obtain an accurate estimate of statewide performance, school district performance, and school performance of pupils in grades 6 and 12, in basic skills courses.

Under such a testing method, the Department of Education shall annually require that each district administer a statewide test to all pupils in grades 6 and 12. The department shall determine whether pupils in a given school shall be administered the entire test or whether the pupils shall be administered a portion of the test which will be representative of all the test objectives, goals, or categories of items on the entire test.

The procedure required by this section shall be implemented not later than the 1975-76 school year.

(d) Designate the physical performance test to be used during the ensuing school year.

(e) Adopt regulations for the conduct and administration of the testing program.

60604. The State Board of Education may develop, publish, and administer tests of its own devising, and the board may utilize the expert services of any persons or groups of persons in public or private employment.

60605. The governing board of each district shall, in accordance with the rules and regulations of the State Board of Education, conduct a testing program within the district. The governing board may also administer other tests.

60606. No group test directed to ascertaining the intelligence quotient of a pupil, except intelligence tests administered on an individual basis for the purposes of placement in special education programs, shall be given to any elementary or secondary pupil who has come to the United States for the first time from a foreign country in which English is not the primary language until such student has resided in the United States for two years.

60607. The governing board of each school district shall submit all answer sheets for the achievement tests administered pursuant to this article on a per-school basis to the Department of Education for scoring.

The districtwide results of the testing program, but not the score or relative position of individual pupils, shall be reported to the governing board of the district at least once a year at a regularly scheduled meeting.

60608. During either the month of March, April, or May, the governing board of each school district maintaining any grade designated by the State Board of Education pursuant to subdivision (c) of Section 60602 shall administer to each pupil in those grades the physical performance test designated by the State Board of Education. Each physically handicapped pupil and each pupil who is physically unable to take all of the physical performance test shall be given as much of the test as his condition will permit.

Upon request of the Department of Education, a school district shall submit to the department at least once every two years the results of its physical performance testing.

60609. At the request of the State Board of Education, and in accordance with rules and regulations which the board may adopt, each county superintendent of schools shall cooperate with and give assistance to school districts under his jurisdiction in carrying out the testing programs of such districts and other duties imposed on school districts by this chapter.

60610. With the exception of physical performance tests, no city, county, city and county, or district superintendent of schools or any principal or teacher of any elementary or secondary school under his charge shall carry on any program of specific preparation of the pupils within the district for the testing program as such or the particular test used therein.

60611. No provision of this chapter or Chapter 8 (commencing with Section 52200) of Part 28 of this division shall be construed to mean, or represented to require, that graduation from a high school or promotion to another grade level is in any way dependent upon successful performance on any test administered as a part of the testing program.

60612. The State Board of Education shall determine which, if

any, of the results attained by pupils on the achievement tests administered in grades 6 and 12 may be recorded on the pupil's cumulative school record.

60613. The State Board of Education may replace the grade specification for the administration of specific tests pursuant to this article with a specification of age or time elapsed since the pupil entered school where such a specification is more consistent with patterns of school organization.

The Department of Education shall submit a report to the Joint Legislative Budget Committee explaining the reasons for replacing the grade specification. The report shall be submitted at least six months prior to any such change.

60614. No school district shall administer, in connection with the statewide testing program, or otherwise, any standardized group test which provides or attempts to provide a single measure of general scholastic aptitude of a pupil, to any pupil or group of pupils in the district, except:

(a) A school district may administer or allow to be administered scholastic aptitude tests for placement in special educational programs for mentally gifted minors provided pursuant to Chapter 8 (commencing with Section 52200) of Part 28 of this title or in postsecondary education or for the purpose of determining eligibility of students for scholarship awards, grants, or other awards relating to postsecondary education.

(b) A school district, with the prior approval of the Superintendent of Public Instruction, may administer group scholastic aptitude tests for research purposes, provided, that the district has a Superintendent of Public Instruction approved group testing plan which includes:

- (1) A current schedule of testing;
- (2) A statement of purposes of the uses of the tests; and
- (3) Provisions that such tests are administered and the results interpreted under the direct supervision of a qualified school psychologist, psychometrist, or school counselor.

## Article 2. Content, Course Evaluation

60630. From time to time, as the State Board of Education may determine, the board shall conduct studies of the effectiveness of the various content courses offered by the public schools of this state. Such studies shall include details of the specific objectives of the courses and the level of achievement attained by students enrolled in such courses and, for this purpose, the board may use the results of any test administered under the provisions of this chapter.

60631. Upon the completion of a study by the board pursuant to Section 60630, the board shall report its findings, and recommendations, if any, to the Governor and the Legislature not later than January 1 of the year succeeding completion of the study.

60632. In making reports to the Legislature pursuant to Section

60631, the board shall maintain the anonymity of all individual students involved. The board may make analyses involving other factors, including, but not limited to, general categories of pedagogies in use, type of district organization, geographic area, socioeconomic data, size of school district, or other analytical items which may prove useful.

60633. The governing board of any school district shall cooperate fully with the State Board of Education in making its schools available for studies; provided, that the State Board of Education shall provide all necessary materials and consultant services free of charge to the district.

60634. The State Board of Education may accept federal or other funds for the purpose of financing studies under this article. Such studies shall be conducted by the board on an ad hoc basis, and the board may utilize the expert services of any persons or groups of persons in public or private employment.

### Article 3. Testing, Miller-Unruh Basic Reading Act

60640. The State Board of Education shall require each school district to administer uniform tests to each pupil not later than his third month of attendance in the first grade. The first-grade entry level test shall obtain a composite estimate for each pupil of skills related to learning and memory, attention, visual perception, and auditory comprehension. The answer sheets shall be transmitted to the Department of Education for scoring. If no published test is deemed suitable, the State Board of Education may combine parts of available tests or develop a new test.

The State Board of Education shall also require each school district to administer uniform tests in reading annually to pupils in grades 2 and 3. Such tests shall be recommended by the Department of Education and shall be submitted to the State Board of Education for approval and adoption. If no published test is deemed suitable, the Department of Education may combine parts of available tests or develop a new test. Any test so adopted shall be equated to nationally normed tests so that the performance of California pupils may be compared to that of a national sample. The tests which have been approved and adopted by the board shall be printed or purchased and distributed to the various school districts in the state by the Department of Education. The answer sheets shall be transmitted to the Department of Education for scoring.

The State Board of Education shall develop a testing method that will obtain an accurate estimate of statewide performance of pupils in grades 2 and 3 in reading. Under such a testing method, the Department of Education shall determine whether pupils in a given school shall be administered the entire test or whether the pupils shall be administered a portion of the test which will be representative of all test objectives, goals, or categories of items on the entire test.

The procedure required by this section shall be implemented not later than the 1975-76 school year.

The State Board of Education shall determine the form in which the answer sheets for the first-grade entry level test shall be transmitted to the Department of Education for scoring, and the form in which the answer sheets for the uniform tests in reading for grades 2 and 3 shall be transmitted to the Department of Education for scoring.

The State Board of Education shall analyze the progress achieved by third grade pupils using the first-grade entry level test results as a basis for identifying comparable pupils receiving various kinds of reading instruction.

The State Board of Education shall adopt rules and regulations governing the time, place, and methods for administration of the testing program under this article.

Pupils who have been determined to be mentally retarded, as defined in this code, shall be exempted from the testing requirement imposed by Chapter 2 (commencing with Section 54100) of Part 29 of this division.

Pupils who have been determined to be educationally handicapped, as defined in this code, shall be subject to the testing requirement imposed by Chapter 2 (commencing with Section 54100) of Part 29 of this division, except such pupils shall be tested separately from regular pupils. The Department of Education shall annually prepare a comparative analysis of the scores or results of tests administered to educationally handicapped pupils and regular pupils. The Department of Education shall annually report to the Legislature the scores or results of the tests administered to educationally handicapped pupils.

The tests administered pursuant to this article shall be employed to determine each school district's quota of specialist reading teachers, as required by Article 3 (commencing with Section 54140) of Chapter 2 of Part 29 of this division.

Commencing with tests administered in the 1972-1973 school year, school districts shall submit answer sheets and related pupil information on a per-school basis.

60641. Scores for individual pupils on the first-grade entry level test shall not be used by school districts or teachers for individual diagnosis or placement or as a basis for any other decisions which would affect the pupil's elementary school experience. Scores from this test shall not in any manner be included on the pupil's cumulative school record.

The State Board of Education shall determine which, if any, of the scores attained by pupils on the tests administered in grades 2 and 3 may be recorded on the pupil's cumulative school record.

60642. The State Board of Education shall direct each school district to report annually its methods used to assess pupil performance in reading during grades 1, 2, and 3. The Department of Education shall assist the school districts to improve their local

programs of assessing pupil performance in reading.

60643. The scores of tests provided pursuant to Section 60640 of those pupils in grades 2 and 3 who have participated in a remedial program shall be maintained and treated separately.

From a study of the results of these tests in districts which conduct a basic reading program pursuant to this chapter, and the test results in districts which do not conduct such a program, the Superintendent of Public Instruction shall evaluate basic reading programs, and he shall report his findings annually to the State Board of Education.

The State Board of Education shall report its findings regarding the implementation of, and experience under, basic reading programs, together with any recommendations for any adjustments in the program, to the Legislature at each regular session. This report and the report required pursuant to Section 60660 may be consolidated into a single annual report.

60644. Except for the first-grade entry level test required by Section 60640, the State Board of Education may replace the grade specification for the administration of specific tests pursuant to this article with a specification of age or time elapsed since the pupil entered school where such a specification is more consistent with patterns of school organization.

The Department of Education shall submit a report to the Joint Legislative Budget Committee explaining the reasons for replacing the grade specification. The report shall be submitted at least six months prior to any such change.

#### Article 4. Tests

60650. No test, questionnaire, survey, or examination containing any questions about the pupil's personal beliefs or practices in sex, family life, morality and religion, or any questions about his parents', or guardians' beliefs and practices in sex, family life, morality and religion, shall be administered to any pupil in kindergarten or grade 1 through grade 12, inclusive, unless the parent or guardian of the pupil is notified in writing that such test, questionnaire, survey, or examination is to be administered and the parent or guardian of the pupil gives written permission for the pupil to take such test, questionnaire, survey, or examination.

#### Article 5. Testing, Evaluation and Analysis

60660. The Department of Education shall prepare and submit an annual report to the Legislature, the State Board of Education, and to each school district in the state containing an analysis, on a district-by-district basis, of the results and test scores of the testing program in basic skills courses, including tests administered pursuant to the Miller-Unruh Basic Reading Act of 1965, Chapter 2 (commencing with Section 54100) of Part 29 of this division and

Article 3 (commencing with Section 60640) of Chapter 5 of this part. The report shall include an analysis of the operational factors that appear to have a significant relationship to or bearing on the results.

The analysis may include, but need not be limited to, the following factors:

- (a) Demographic characteristics.
- (b) Financial characteristics.
- (c) Pupil and parent characteristics.
- (d) Instructional and staff characteristics.
- (e) Specially funded programs.

School districts shall submit to the Department of Education whatever information the department deems necessary to carry out the provisions of this section.

60661. The report to the Legislature required by Section 60660 and the report to the Legislature required pursuant to Section 60643 may be consolidated into a single annual report.

60662. The State Board of Education shall make recommendation to the Legislature as the board deems appropriate concerning appropriate or necessary legislation with respect to the results of the testing program and the evaluation and analysis thereof required by this chapter.

60663. Whenever the State Board of Education designates a new test to be administered under this chapter, the Department of Education shall study the compatibility and test results of the new test and existing tests and shall annually report the results of such study to the Legislature at the same time it submits its report pursuant to Section 60660.

60664. The Superintendent of Public Instruction shall perform an analysis of selected schools to identify educational factors which produce the distinction between unusually high-performing districts and unusually low-performing districts, such performance as measured by standard measures of school achievement.

The schools selected for study shall be comparable in social and demographic characteristics and shall vary only on student attainment.

The study shall last two calendar years so that variables discovered the first year may be verified the second year.

The Superintendent of Public Instruction shall report to the Legislature by January 5, 1975, on the identification and description of those socioeconomic, financial, and educational variables affecting school performance which tend to distinguish between unusually high-performing districts and unusually low-performing districts. By January 5, 1976, the Superintendent of Public Instruction shall issue a final report to the Legislature including information regarding the verifiability of the relative impact of the variables discovered during the first year of the study.

Article 6. Private School Testing, National Defense Education Act, Title V

60670. For the purposes of Title V of the National Defense Education Act of 1958, secondary education means education furnished by any public or private school in any grade not below grade 7 nor beyond grade 12.

60671. Upon the request of any private school providing secondary education, as defined in Section 60670, and pursuant to a state plan approved by the United States Commissioner of Education under Title V of the National Defense Education Act of 1958, the State Board of Education may enter into a contract with such school for a project for the testing of students regularly enrolled and attending grades 7 to 12, inclusive, in the school to identify students with outstanding aptitudes and ability. The State Board of Education may expend for the costs thereof any money received under Section 504 of Title V of the National Defense Education Act of 1958.

60672. It is in the interest of the state and of the people thereof for the state to permit the State Board of Education to provide for the identification of students with outstanding aptitudes and ability in public and private schools under a state plan to be approved by the United States Commissioner of Education under Title V of the National Defense Education Act of 1958 and for the state to expend for the costs of such testing any money received from the federal government for the purpose.

**TITLE 3. POSTSECONDARY EDUCATION****DIVISION 5. GENERAL PROVISIONS****PART 40. DONAHOE HIGHER EDUCATION ACT****CHAPTER 1. TITLE OF PART**

**66000.** This part shall be known and may be cited as the Donahoe Higher Education Act.

**CHAPTER 2. GENERAL PROVISIONS**

**66010.** Public higher education consists of (a) all public community colleges heretofore and hereafter established pursuant to law, (b) the California State University and Colleges, and each campus, branch, and function thereof heretofore and hereafter established pursuant to law, (c) each campus, branch and function of the University of California heretofore and hereafter established by the Regents of the University of California, and (d) the California Maritime Academy.

**66011.** It is hereby declared to be the policy of the Legislature that all resident applicants to California institutions of public higher education, who are determined to be qualified by law or by admission standards established by the respective governing boards, should be admitted to either (1) the public community colleges, (2) the California State University and Colleges, or (3) the University of California.

**66012.** It is hereby declared to be the intent of the Legislature that the fixed master plan approach in the development of public postsecondary education be replaced by a continuous planning process which includes:

(a) A legislative study of California postsecondary education at 10-year intervals to reevaluate the planning process and provide guidelines regarding goals, societal needs and general missions of public higher education and its components.

(b) Continuous planning by a state commission including a five-year plan which is to be updated annually.

**66013.** Each segment of public higher education shall strive for excellence in its sphere, as assigned in this part.

**66014.** The provisions of this part shall supersede the provisions of any other law which conflict with the provisions of this part.

**66014.5.** The Legislature hereby finds and declares that there is a great need of providing students with a true economic and academic freedom of choice in selecting a college or university they wish to attend. The Legislature further finds that this need shall be met by offering students financial assistance who wish to attend public or independent colleges and universities and who have

demonstrated financial need.

66016. It is the intent of the Legislature that opportunities for participation in intercollegiate athletic programs in the community colleges, in the campuses of the California State University and Colleges, and in the campuses of the University of California be provided on as equal a basis as is practicable to male and female students. The costs of providing these equal opportunities may vary according to the type of sports contained within the respective men's and women's athletic programs. Additional sources of revenue should be determined to provide additional funds for these equal opportunity programs.

66017. The chief administrative officer of a community college, state university or college, or the University of California shall take appropriate disciplinary action against any student, member of the faculty, member of the support staff, or member of the administration of the community college, state college, state university who, after a prompt hearing by a campus body, has been found to have willfully disrupted the orderly operation of the campus. Nothing in this section shall be construed to prohibit, where an immediate suspension is required in order to protect lives or property and to insure the maintenance of order, interim suspension pending a hearing; provided that a reasonable opportunity be afforded the suspended person for a hearing within 10 days. The disciplinary action may include, but need not be limited to, suspension, dismissal, or expulsion. The provisions of Sections 89538 to 89540, inclusive, shall be applicable to any state university or college employee dismissed pursuant to this section. The chief administrative officer of each such institution shall submit periodic reports as to the nature and disposition of cases acted upon pursuant to this section to his governing board.

66018. Each institution of public higher education shall require that all applications for any type of financial aid for students shall disclose all taxable income and all nontaxable income.

66019. (a) Each state university and college, when determining eligibility for any state university or college educational opportunity program, and each governing board of a community college district, when determining eligibility for any community college educational opportunity program, shall consider nontaxable income.

(b) The Regents of the University of California are requested to provide that nontaxable income be considered in all determinations of eligibility for any educational opportunity programs at the University of California.

66020. Within such differentiation of segmental function in public postsecondary education the institutions shall undertake intersegmental cooperation when it can:

(a) Enhance the achievement of the institutional missions shared by the segments.

(b) Enable public and private postsecondary education to more effectively meet the educational needs of a geographic region.

(c) Provide more effective planning of postsecondary education on a statewide basis.

66021. (Amended and renumbered Section 79023 by Stats. 1976, Ch 1011.)

[ORIGINAL SECTION]

66021 All public schools and educational institutions throughout the state shall hold exercises in memory of Abraham Lincoln and George Washington on February 12th and February 22nd, respectively, or on the day in which school is in session next preceding, if the specified day is a holiday

66022. (Amended and renumbered Section 79026 by Stats. 1976, Ch 1011 )

[ORIGINAL SECTION]

66022 February 15th of each year, the anniversary of the birthday of Susan B. Anthony, is designated and set apart as Susan B Anthony Day.

All public schools and educational institutions shall observe this day with suitable exercises, directing attention to the development of the political and economic status of women in the United States, through the efforts of Susan B Anthony.

### CHAPTER 3. CAPITAL OUTLAY FUND

66100. A fund in the State Treasury is hereby created, to be known as the Capital Outlay Fund for Public Higher Education. All money in the Capital Outlay Fund for Public Higher Education, including any money deposited in said fund from any source whatsoever after the effective date of this chapter, shall be available, when appropriated by the Legislature, for expenditure for capital outlay purposes relating to public higher education including, but not limited to, acquisition of sites and construction of new institutions of public higher education thereon.

66101. As used in this chapter, "fund" means the Capital Outlay Fund for Public Higher Education.

66102. For purposes of this chapter, "public higher education" shall consist of (a) all public community colleges heretofore and hereafter established pursuant to law, (b) the California State University and Colleges, and each campus, branch, and function thereof, heretofore and hereafter established pursuant to law, (c) each campus, branch and function of the University of California heretofore and hereafter established by the Regents of the University of California, and (d) the California Maritime Academy.

66103. The Director of Finance shall cause all moneys in the fund which are in excess of current requirements to be invested and reinvested from time to time in securities described in Section 16430 of the Government Code, and such securities may be sold or exchanged if in his opinion such sale or exchange is in the best interests of the state in effectuating the purposes of this chapter. All income derived from such investment, reinvestment, sale, or exchange shall be credited to the fund.

### CHAPTER 4. ADMISSIONS

66200. It has been and continues to be the intent of the Legislature that all qualified California youth be insured the

opportunity to pursue higher learning.

The enrollment situation and admissions policies and procedures among California's public institutions of higher learning have been the subject of extensive public concern, and admissions practice has failed to reduce public uncertainties.

66201. It is the intent of the Legislature that each resident of California who has the capacity and motivation to benefit from higher education should have the opportunity to enroll in an institution of higher education. Once enrolled he should have the opportunity to continue as long and as far as his capacity and motivation, as indicated by his academic performance and commitment to educational advancement, will lead him to meet academic standards and institutional requirements.

The Legislature hereby reaffirms the commitment of the State of California to provide an appropriate place in California public higher education for every student who is willing and able to benefit from attendance.

66202. It is further the intent of the Legislature that the following categories be established insofar as practicable in the following order for the purpose of enrollment planning and admission priority practice at the undergraduate resident student level for the California State University and Colleges and the University of California:

- (1) Continuing undergraduate students in good standing.
- (2) California residents who have successfully completed the first two years of their baccalaureate program.
- (3) California residents entering at the freshman or sophomore levels.

It is further the intent of the Legislature that within each of the preceding enrollment categories, the following groups of applicants receive priority consideration in admissions practice in the following order:

- (a) Residents of California who are recently released veterans of the armed forces of the United States.
- (b) Transfers from California public community colleges.
- (c) Applicants who have been previously enrolled at the campus to which they are applying, provided they left such institution in good standing.
- (d) Applicants who have a degree or credential objective that is not generally offered at other public institutions of higher learning within California.
- (e) Applicants for whom the distance involved in attending another institution would create financial or other hardships.

It is further the intent of the Legislature that those veterans referred to in paragraph (a) who were enrolled in good standing at a campus of the University of California or at one of the California state universities or colleges prior to military service receive priority over other veterans recently released from military service.

- (4) Residents of other states and foreign countries.

The segments may, in implementing these enrollment plans and admissions priorities, consider the overall needs of students in maintaining a balanced program and a quality curriculum.

66203. The California State University and Colleges and the University of California shall keep a record of the applicants denied admission and develop and utilize an information collection system which will indicate the number of qualified applicants who could not be accommodated at their campus of first choice and were redirected to campuses of alternate choice and the number of qualified redirected applicants who declined an offer of admission to an alternate campus.

66204. The Trustees of the California State University and Colleges and the Regents of the University of California shall submit to the Legislature on January 5 of each year a report on the progress made on the implementation of the enrollment plans and admissions priorities system and on the establishment of the information system and the findings that are made available.

#### CHAPTER 5. RULES OF STUDENT CONDUCT

66300. The Regents of the University of California, the Trustees of the California State University and Colleges, and the governing board of every community college district, shall adopt or provide for the adoption of specific rules and regulations governing student behavior along with applicable penalties for violation of such rules and regulations. Such institutions shall adopt procedures by which all students will be informed of such rules and regulations, with applicable penalties, and any revisions thereof.

66301. The provisions of this chapter shall apply to the Regents of the University of California to the full extent authorized by Section 9 of Article IX of the California Constitution, and it is the intent of the Legislature that the regents adopt rules and procedures which they deem appropriate for carrying out the purposes of this chapter.

#### CHAPTER 6. ACADEMIC MATERIALS

66400. No person shall prepare, offer to prepare, cause to be prepared, sell, or otherwise distribute any term paper, thesis, dissertation, or other written material for another person, for a fee or other compensation, with the knowledge, or under circumstances in which he should reasonably have known, that such term paper, thesis, dissertation, or other written material is to be submitted by any other person for academic credit at any public or private college, university, or other institution of higher learning in this state.

66401. No person shall make or disseminate, with the intent to induce any other person to enter into any obligation relating thereto, any statement, written or oral, that he will prepare, cause to be prepared, sell, or otherwise distribute any term paper, thesis, dissertation, or other written material, for a fee or other

compensation, for or on behalf of any person who has been assigned the written preparation of such term paper, thesis, dissertation, or other written material for academic credit at any public or private college, university, or other institution of higher learning in this state.

66402. Any court of competent jurisdiction is hereby authorized to grant such relief as is necessary to enforce the provisions of this chapter, including the issuance of an injunction.

66403. Actions for injunction under the provisions of this chapter may be brought in the name of the people of the State of California upon their own complaint or upon the complaint of any person, or in the name of any public or private college, university, or other institution of higher learning, acting for the interest of itself, its students, or the general public.

66404. The provisions of this chapter are not exclusive. Nothing in this chapter shall be construed to preempt or in any other way limit, diminish, or imply the absence of rights of any party, public or private, against any person in connection with any of the acts described in Section 66400 or Section 66401.

66405. As used in this chapter, "person" means any individual, partnership, corporation, or association.

As used in this chapter, "prepare" means to put into condition for intended use. "Prepare" does not include the mere typing or assembling of papers, nor the mere furnishing of information or research.

## CHAPTER 7. UNIVERSITY OF CALIFORNIA

66500. The University of California may provide instruction in the liberal arts and sciences and in the professions, including the teaching professions. It shall have exclusive jurisdiction in public higher education over instruction in the profession of law and over graduate instruction in the professions of medicine, dentistry, and veterinary medicine. It has the sole authority in public higher education to award the doctoral degree in all fields of learning, except that it may agree with the California State University and Colleges to award joint doctoral degrees in selected fields. It shall be the primary state-supported academic agency for research.

66501. The university may make reasonable provision for the use of its library and research facilities by qualified members of the faculties of other institutions of public higher education in this state.

## CHAPTER 8. CALIFORNIA STATE UNIVERSITY AND COLLEGES

66600. The California State University and Colleges shall be administered by a board designated as the Trustees of the California State University and Colleges, which is hereby created.

66601. Whenever, in any law, the term "Trustees of the State College System of California" or the term "chief executive officer of the state college system" is used, such terms shall be deemed to mean

the Trustees of the California State University and Colleges and the Chancellor of the California State University and Colleges, respectively.

66602. The board shall be composed of the following four ex officio members: the Governor, the Lieutenant Governor, the Superintendent of Public Instruction, and the person named by the trustees to serve as the Chancellor of the California State University and Colleges; and 16 appointive members appointed by the Governor and subject to confirmation by two-thirds of the Senate. There shall also be appointed by the Governor for a one-year term, a student from a California state university or college who shall have at least a junior year standing at the institution he or she attends, and shall remain in good standing as a student for the one-year term. In the selection of a student as a member of the board, the Governor shall appoint such student from a list of names of not more than five persons furnished by student representatives of each of the universities and colleges of the California State University and Colleges. The student representative of a university or college shall be the elected student body president or, in the case of a university or college not having an elected student body president, the person receiving the highest number of votes cast at a student body election held to select such student representative. The Speaker of the Assembly shall be an ex officio member, having equal rights and duties with nonlegislative members.

66603. The term of the appointive trustees shall be eight years.

66604. The expiration of a trustee's term of office as a member of the State Board of Education or any earlier vacancy in that office shall create a vacancy in his trusteeship, unless the term ascribed thereto by lot has already expired. In case of any vacancy on the board of trustees, the Governor shall appoint a successor for the balance of the term as to which such vacancy exists.

66605. If the trustees and the Regents of the University of California both consent, the Chancellor of the California State University and Colleges shall sit with the Regents of the University of California in an advisory capacity and the President of the University of California shall sit with the trustees in an advisory capacity.

66606. The Trustees of the California State University and Colleges shall succeed to the powers, duties and functions with respect to the management, administration and control of the state colleges heretofore vested in the State Board of Education or in the Director of Education, including all powers, duties, obligations, and functions specified in Article 2 (commencing with Section 90010) of Chapter 8 of Part 55 of Division 8 of this title, and all obligations assumed by the State Board of Education pursuant to that article prior to July 1, 1961.

On and after July 1, 1961, the Trustees of the California State University and Colleges shall have full power and responsibility in the construction and development of any state university or college

campus, and any buildings or other facilities or improvements connected with the California State University and Colleges. Such powers shall be exercised by the Trustees of the California State University and Colleges notwithstanding the provisions of Chapter 2 (commencing at Section 14100) and Chapter 3 (commencing at Section 14250) of Part 5 of Division 3 of Title 2 of the Government Code, except that the powers shall be carried out pursuant to the procedures prescribed by these laws.

The Trustees of the California State University and Colleges may accept gifts of land, or gifts of options on land, may accept and expend gifts of money for the purchase of land or options on land and may enter into negotiations and contracts for the purchase of land for a future state college site in the vicinity of any of the areas specified in the recommendations contained in the Master Plan for Higher Education printed on page 42, paragraph 5, Senate Journal (Regular Session) for February 1, 1960, except that such gifts, expenditures, negotiations, and contracts shall not obligate the expenditure of any state funds for the purchase of such land or for development on such land, unless the Legislature shall subsequently approve the obligation by appropriating the funds for that specific purpose.

Any such acceptance or acceptance and expenditure or negotiations and contract may be conditioned upon an automatic reversion back to the donor or automatic termination of the negotiations and contract if a new state university or college is not established at a specific site prior to a specific date designated by the trustees and the donor or the trustees and the person or corporation with whom the trustees are negotiating or contracting.

66607. The California State University and Colleges shall be entirely independent of all political and sectarian influence and kept free therefrom in the appointment of its trustees and in the administration of its affairs, and no person shall be debarred admission to any department of the state university and colleges on account of sex.

66608. The California State University and Colleges shall have as its primary function the provision of undergraduate instruction and graduate instruction through the master's degree. Presently established two-year programs in agriculture are authorized, but other two-year programs shall be permitted only when mutually agreed upon by the Trustees of the California State University and Colleges and the Board of Governors of the California Community Colleges. The doctoral degree may be awarded jointly with the University of California, as provided in Section 66500, or jointly with a private institution of postsecondary education accredited by the Western Association of Schools and Colleges and provided the proposed doctoral program is approved by the California Postsecondary Education Commission. Faculty research is authorized to the extent that it is consistent with the primary function of the California State University and Colleges.

66609. All state employees employed on June 30, 1961, in carrying out functions transferred to the Trustees of California State University and Colleges by this chapter, except persons employed by the Director of Education in the Division of State Colleges and Teacher Education of the Department of Education, are transferred to the California State University and Colleges.

Nonacademic employees so transferred shall retain their respective positions in the state service, together with the personnel benefits accumulated by them at the time of transfer, and shall retain such rights as may attach under the law to the positions which they held at the time of transfer. All nonacademic positions filled by the trustees on and after July 1, 1961, shall be by appointment made in accordance with Chapter 5 (commencing with Section 89500) of Part 55 of Division 8 of this title, and persons so appointed shall be subject to the provisions of Chapter 5.

The trustees shall provide, or cooperate in providing, academic and administrative employees transferred by this section with personnel rights and benefits at least equal to those accumulated by them as employees of the state colleges, except that any administrative employee may be reassigned to an academic or other position commensurate with his qualifications at the salary fixed for that position and shall have a right to appeal from such reassignment, but only as to whether the position to which he is reassigned is commensurate with his qualifications. All academic and administrative positions filled by the trustees on and after July 1, 1961, shall be filled by appointment made solely at the discretion of the trustees. The trustees shall establish and adjust the salaries and classifications of all academic, nonacademic, and administrative positions and neither Section 18004 of the Government Code nor any other provision of law requiring approval by a state officer or agency for such salaries or classifications shall be applicable thereto. In establishing and adjusting such salaries, consideration shall be given to the maintenance of the state university and colleges in a competitive position in the recruitment and retention of qualified personnel in relation to other educational institutions, private industry or public jurisdictions which are employing personnel with similar duties and responsibilities. The establishment and adjustment of salaries for nonacademic employees shall be in accordance with the standards prescribed in Section 18850 of the Government Code. The trustees, however, shall make no adjustments which require expenditures in excess of existing appropriations available for the payment of salaries. The provisions of Chapter 5 (commencing with Section 89500) of Part 52 of Division 8 of this title relating to appeals from dismissal, demotion or suspension shall be applicable to academic employees.

Persons excluded from the transfer made by this section shall retain all the rights and privileges conferred upon civil service employees by law. Personnel of state agencies employed in state university and college work other than those transferred by this

section and who are employed by the trustees prior to July 1, 1962, shall be provided with personnel rights and benefits at least equal to those accumulated by them as employees of such state agencies.

#### CHAPTER 9. COMMUNITY COLLEGES

66700. The public community colleges are secondary schools and shall continue to be a part of the public school system of this state. The Board of Governors of the California Community Colleges shall prescribe minimum standards for the formation and operation of public community colleges and exercise general supervision over public community colleges.

66701. Public community colleges shall offer instruction through but not beyond the second year of college. These institutions may grant the associate in arts and the associate in science degree. Their program may include but shall not be limited to: standard collegiate courses for transfer to other institutions; vocational and technical fields leading to employment; general or liberal arts courses; and community services.

#### CHAPTER 10. INTERSTATE ATTENDANCE AGREEMENTS

66800. The Legislature recognizes that existing community colleges in California may benefit from larger and more heterogeneous enrollment in certain curricula and that additional enrollment may often be added with little or no increase in the total operational cost of a given curriculum. It also recognizes that California residents can be provided more complete and more useful curricula in many cases if the curricula is planned and offered on the basis of the needs of an entire region.

The Legislature encourages California community college districts and the Board of Governors of the California Community Colleges to include the educational needs of, and facilities available in, territory adjacent to California in their planning and to make use of those needs and facilities to the extent possible in the conduct of community college education in California.

66801. The Board of Governors of the California Community Colleges is authorized to enter into an interstate attendance agreement with any statewide public agency of another state, which is responsible for public schools providing instruction in grades 13 and 14 and which is an agency of a state which is a party to the Western Interstate Compact for Higher Education, for the exchange of residents, on a one-for-one basis, for the purposes of instruction. The agreement shall contain such terms as the board of governors may adopt and which are consistent with the authority and responsibility of California community college districts and the community colleges they maintain. In no event shall such an agreement permit or require the entry of California residents into institutions in another state on terms substantially different from

those governing the admission of residents of the other state to California community colleges. Such agreements shall contain the provision that no additional state funds shall be required to carry out the provisions of this chapter.

66802. The governing board of each California community college district is authorized to participate in an interstate attendance agreement entered into by the board of governors. The governing board of a California community college district elects to participate by adopting a resolution to that effect and filing that resolution with the board of governors. The participation may be limited in any manner which is consistent with terms of the interstate attendance agreement in which the district desires to participate.

66803. If the governing board of a California community college district elects to participate in an interstate attendance agreement, it may waive, as a condition to such participation, all or part of the nonresident tuition required by Section 90019 in accordance with the terms of that interstate attendance agreement. Such a waiver shall apply only to students attending a community college maintained by that district pursuant to the provisions of that interstate attendance agreement.

66804. The board of governors may adopt rules and regulations to implement the provisions of this article as these provisions apply to California community college districts or to the State of California. Such rules and regulations shall contain the provision that no additional state funds shall be required to carry out the provisions of this chapter. The board of governors shall file a report on the operation of this article on or before January 8, 1975.

## CHAPTER 11 CALIFORNIA POSTSECONDARY EDUCATION COMMISSION

66900. The Legislature finds that coordination and planning are vital elements in providing postsecondary education to meet the needs of the people of the State of California.

The Legislature intends to create a statewide agency to assure the effective utilization of public postsecondary education resources, thereby eliminating waste and unnecessary duplication, and to promote diversity, innovation, and responsiveness to student and societal needs through planning and coordination.

It is further the intent of the Legislature that educational policy recommendations of the commission shall be a primary consideration in developing state policy and funding for postsecondary education.

It is further the intent of the Legislature that the commission shall have adequate staffing and funding to carry out its duties and responsibilities.

It is further the intent of the Legislature that the commission shall encourage the participation of faculty members, students,

administrators, and members of the general public in carrying out its duties and responsibilities.

66901. There is hereby created the California Postsecondary Education Commission, which shall be advisory to the Governor, the Legislature, other appropriate governmental officials, and institutions of postsecondary education. The commission shall be composed of the following members:

(1) Two representatives of the Regents of the University of California designated by the regents, two representatives of the Trustees of the California State University and Colleges designated by the trustees, and two representatives of the Board of Governors of the California Community Colleges designated by the board. Representatives of the regents, the trustees, and the board of governors shall be chosen from among the appointed members of their respective boards, but in no instance shall an ex officio member of a governing board serve on the commission.

(2) Two representatives of the independent California colleges and universities which are accredited by a national or regional association which is recognized by the United States Office of Education. These members shall be appointed by the Governor from a list or lists submitted by an association or associations of such institutions.

(3) The chairmen of the California Advisory Council on Vocational Education and Technical Training and the Council for Private Postsecondary Educational Institutions or their designees from among the other members of their respective councils.

(4) The President of the State Board of Education or his designee from among the other members of the board.

(5) Twelve representatives of the general public appointed as follows: four by the Governor, four by the Senate Rules Committee, and four by the Speaker of the Assembly. It is the intent of the Legislature that the commission be broadly and equitably representative of the general public in the appointment of its public members and that the appointing authorities, therefore, shall confer to assure that their combined appointments include adequate representation on the basis of sex and on the basis of the significant racial, ethnic, and economic groups in the state.

No person who is regularly employed in any administrative, faculty, or professional position by any institution of public or private postsecondary education shall be appointed to the commission.

The commission members designated in subdivisions (1), (3), and (4) shall serve at the pleasure of their respective appointing authorities. The member designated in subdivision (2) shall serve a three-year term. The members designated in subdivision (5) shall each serve a six-year term. When vacancies occur prior to expiration of terms, the respective appointing authority may appoint a member for the remainder of the term.

Any person appointed pursuant to this section may be reappointed to serve additional terms.

No person appointed pursuant to this section shall, with respect to any matter before the commission, vote for or on behalf of, or in any way exercise the vote of, any other member of the commission.

The commission shall meet as often as it deems necessary to carry out its duties and responsibilities.

Any member of the commission who in any calendar year misses more than one-fourth of the meetings of the commission forfeits his office, thereby creating a vacancy.

The commission shall select a chairman from among the members representing the general public. The chairman shall hold office for a term of one year and may be selected to successive terms.

There is established an advisory committee to the commission and the director, consisting of the chief executive officers of each of the public segments, or their designees, the Superintendent of Public Instruction or his designee, and an executive officer from each of the groups of institutions designated in subdivisions (2) and (3) of Section 66901 to be designated by the respective commission representative or representatives from such groups. Commission meeting agenda items and associated documents shall be provided to the committee in a timely manner for its consideration and comments.

The commission may appoint such subcommittees or advisory committees as it deems necessary to advise it on matters of educational policy. Such advisory committees may consist of commission members or nonmembers or both, including students, faculty members, segmental representatives, governmental representatives, and representatives of the public.

The commission shall appoint and may remove a director in the manner hereinafter specified. He shall appoint persons to such staff positions as the commission may authorize.

The commission shall prescribe rules for the transaction of its own affairs, subject, however, to the following requirement and limitations: (1) The votes of all representatives shall be recorded, (2) effective action shall require the affirmative vote of a majority of all the members of the commission and (3) the affirmative votes of two-thirds of all the members of the commission shall be necessary to the appointment of the director.

66902. The commission shall have power to require the governing boards and the institutions of public postsecondary education to submit data on plans and programs, costs, selection and retention of students, enrollments, plant capacities and other matters pertinent to effective planning, policy development, articulation and coordination, and shall furnish information concerning such matters to the Governor and to the Legislature as requested by them.

66903. The commission shall have the following functions and responsibilities in its capacity as the statewide postsecondary education planning and coordinating agency and adviser to the Legislature and Governor:

- (1) It shall require the governing boards of the segments of public

postsecondary education to develop and submit to the commission institutional and systemwide long-range plans in a form determined by the commission after consultation with the segments.

(2) It shall prepare a five-year state plan for postsecondary education which shall integrate the planning efforts of the public segments and other pertinent plans. The commission shall seek to resolve conflicts or inconsistencies among segmental plans in consultation with the segments. If such consultations are unsuccessful the commission shall report the unresolved issues to the Legislature with recommendations for resolution.

In developing such plan, the commission shall consider at least the following factors: (a) the need for and location of new facilities, (b) the range and kinds of programs appropriate to each institution or system, (c) the budgetary priorities of the institutions and systems of postsecondary education, (d) the impact of various types and levels of student charges on students and on postsecondary educational programs and institutions, (e) appropriate levels of state-funded student financial aid, (f) access and admissions of students to postsecondary education, (g) the educational programs and resources of private postsecondary institutions, and (h) the provisions of this division differentiating the functions of the public systems of higher education.

(3) It shall update the state plan annually.

(4) It shall participate in appropriate stages of the executive and legislative budget processes as requested by the executive and legislative branches and shall advise the executive and legislative branches as to whether segmental programmatic budgetary requests are compatible with the state plan. It is not intended that the commission hold independent budget hearings.

(5) It shall advise the Legislature and Governor regarding the need for and location of new institutions and campuses of public higher education.

(6) It shall review proposals by the public segments for new programs and make recommendations regarding such proposals to the Legislature and the Governor.

(7) It shall, in consultation with the public segments, establish a schedule for segmental review of selected educational programs, evaluate the program review processes of the segments, and report its findings and recommendations to the Governor and the Legislature.

(8) It shall serve as a stimulus to the segments and institutions of postsecondary education by projecting and identifying societal and educational needs and encouraging adaptability to change.

(9) It shall develop and submit plans to the Legislature and the Governor for the funding and administration of a program to encourage innovative educational programs by institutions of postsecondary education.

(10) It shall collect or conduct or both collect and conduct studies of projected manpower supply and demand, in cooperation with

appropriate state agencies, and disseminate the results of such studies to institutions of postsecondary education and to the public in order to improve the information base upon which student choices are made.

(11) It shall periodically review and make recommendations concerning the need for and availability of postsecondary programs for adult and continuing education.

(12) It shall develop criteria for evaluating the effectiveness of all aspects of postsecondary education.

(13) It shall maintain and update annually an inventory of all off-campus programs and facilities for education, research and community service operated by public and private institutions of postsecondary education.

(14) It shall act as a clearinghouse for postsecondary education information and as a primary source of information for the Legislature, the Governor, and other agencies, and develop a comprehensive data base insuring comparability of data from diverse sources.

(15) It shall establish criteria for state support of new and existing programs, in consultation with the public segments, the Department of Finance, and the Joint Legislative Budget Committee.

(16) It shall comply with the appropriate provisions of the Education Amendments of 1972 (P.L. 92-318) as specified in Section 67000.

(17) It shall consider the relationships between academic and occupational and vocational education programs and shall actively encourage the participation of state and local and public and private persons and agencies with a direct interest in these areas.

(18) It shall review all proposals for changes in eligibility pools for admission to public institutions and segments of postsecondary education and shall make recommendations to the Legislature, Governor, and institutions of postsecondary education.

(19) It shall report annually on or before January 1st to the Legislature and the Governor regarding the financial conditions of independent institutions, their enrollment and application figures, the number of student spaces available, and the respective cost of utilizing those spaces as compared to providing additional public spaces. Such reports shall include recommendations concerning state policies and programs having a significant impact on independent institutions.

(20) It shall, upon request of the Legislature or the Governor, submit to the Legislature and the Governor a report on all matters so requested which are compatible with its role as the statewide postsecondary education planning and coordinating agency and may, from time to time, submit to the Governor and the Legislature a report which contains recommendations as to necessary or desirable changes, if any, in the functions, policies, and programs of the several segments of public and private postsecondary education.

(21) It may undertake such other functions and responsibilities as

are compatible with its role as the statewide postsecondary education planning and coordinating agency.

66904. It is the intent of the Legislature that sites for new institutions or branches of the University of California and the California State University and Colleges, and such classes of off-campus centers as the commission shall determine, shall not be authorized or acquired unless recommended by the commission.

It is further the intent of the Legislature that California community colleges shall not receive state funds for acquisition of sites or construction of new institutions, branches, or off-campus centers unless recommended by the commission. Acquisition or construction of non-state-funded community college institutions, branches, and off-campus centers shall be reported to the commission.

It is further the intent of the Legislature that existing or new institutions of public education, other than those described in subdivisions (2) and (3) of Section 66010 shall not be authorized to offer instruction beyond the 14th grade level.

All proposals for new postsecondary educational programs shall be forwarded to the commission for review together with such supporting materials and documents as the commission may specify. The commission shall review such proposals within a reasonable length of time, which time shall not exceed 60 days following submission of the program and the specified materials and documents. For the purposes of this section, "new postsecondary educational programs" means all proposals for new schools or colleges, all series of courses arranged in a scope or sequence leading to (1) a graduate or undergraduate degree, or (2) a certificate of a type defined by the commission, which have not appeared in a segment's or district's academic plan within the previous two years, and all proposals for new research institutes or centers which have not appeared in a segment's or district's academic plan within the previous two years.

It is further the intent of the Legislature that the advice of the commission be utilized in reaching decisions on requests for funding new and continuing graduate and professional programs, enrollment levels, and capital outlay for existing and new campuses, colleges, and off-campus centers.

66905. The provisions of Section 66904 concerning community colleges shall not be applicable to a community college constructed in a territory annexed to an existing community college district, where such annexation became effective, for all purposes, on July 1, 1968.

66906. Each member of the commission shall receive a stipend of fifty dollars (\$50) for each day in which he or she attends any meeting of the commission or any meeting of any committee or subcommittee of the commission, of which committee or subcommittee he or she is a member, and which committee or subcommittee meeting is conducted for the purpose of carrying out

the powers and duties of the commission and, in addition, shall receive his or her actual and necessary traveling expenses incurred in the course of his or her duties.

66907. Initial appointments to the commission shall be made in the following manner:

(1) The Governor shall appoint one member for a one-year term, one member for a two-year term, one member for a four-year term, and one member for a six-year term.

(2) The Senate Rules Committee shall appoint one member for a one-year term, one member for a two-year term, one member for a four-year term, and one member for a six-year term.

(3) The Speaker of the Assembly shall appoint one member for a one-year term, one member for a two-year term, one member for a four-year term, and one member for a six-year term.

Initial appointments to the California Postsecondary Education Commission shall become effective on January 10, 1974. All subsequent terms will begin on January 1 of the year in which the respective terms are to start.

The Superintendent of Public Instruction shall convene and chair meetings of the commission in January, February and March of 1974. In March 1974, the commission shall select a chairman and shall have adopted procedures for recruitment and appointment of a director.

The Coordinating Council for Higher Education shall continue in existence until March 31, 1974. The California Postsecondary Education Commission shall, on April 1, 1974, succeed to the powers, duties, and functions vested in the Coordinating Council for Higher Education.

Responsibilities heretofore assigned to the Coordinating Council for Higher Education through legislative resolution and budget language shall be assumed by the commission on April 1, 1974. All ongoing projects, information, and files of the council shall be transferred to the commission on that date.

## CHAPTER 12. FEDERAL ASSISTANCE FOR HIGHER EDUCATION

67000. The people of the State of California accept the provisions of and each of the funds provided by Title 1 and Title X of the Education Amendments of 1972 (Public Law 92-318).

67001. In accepting the benefits of the act of Congress, the people of the state agree to comply with all of the provisions and to observe all of its requirements.

67002. The California Postsecondary Education Commission is designated as the state educational agency to carry out the purposes and provisions of the Education Amendments of 1972 (Public Law 92-318) as follows:

(a) The commission is designated as the state commission required to be established pursuant to Section 1202 of Title X of the Higher Education Act of 1965 (Public Law 89-329) as amended by the Education Amendments of 1972 (Public Law 92-318);

(b) The commission is designated as the state administrative agency required to be established pursuant to Section 1055 of Title X of the Higher Education Act of 1965 (Public Law 89-329) as amended by the Education Amendments of 1972 (Public Law 92-318), unless such designation is determined by the federal government to be in conflict with federal law or regulations;

(c) The commission is designated as the state administrative agency required to be established pursuant to Section 105 of Title I, Section 122 of Title III, Section 603 of Title VI and Section 704 of Title VII of the Higher Education Act of 1965 (Public Law 89-329) as amended by the Education Amendments of 1972 (Public Law 92-318). The California Postsecondary Education Commission is hereby vested with authority to prepare and submit to the United States Commissioner of Education any state plan required by said act of Congress, to prepare and submit amendments to such state plans, and to administer such state plans or amendments thereto, in accordance with said act of Congress and any rules and regulations adopted thereunder. Any such state plan or amendment thereto prepared by the California Postsecondary Education Commission shall be subject to the approval of the Department of Finance to the extent required by Section 13326 of the Government Code. The California Postsecondary Education Commission is hereby vested with all necessary power and authority to cooperate with the government of the United States, or any agency or agencies thereof in the administration of the act of Congress and the rules and regulations adopted thereunder.

67003. The Trustees of the California State University and Colleges on behalf of the California State University and Colleges, the Regents of the University of California on behalf of the university, the Board of Governors of the California Community Colleges on behalf of the community colleges and the Board of Governors of the California Maritime Academy on behalf of the California Maritime Academy, are vested with all power and authority to perform all acts necessary to receive the benefits and to expend the funds provided by said act of Congress and with all necessary power and authority to cooperate with the government of the United States, or any agency or agencies thereof, and with the California Postsecondary Education Commission for the purpose of receiving the benefits and expending the funds provided by said act of Congress, in accordance with said act, or any rules or regulations adopted thereunder, or any state plan or rules or regulations of the California Postsecondary Education Commission adopted in accordance with said act of Congress. Whenever necessary to secure the full benefits of said act of Congress for loans or grants for academic facilities, such trustees, regents, or boards of governors may give such security as may be required and may comply with such conditions as may be imposed by the federal government.

67004. The State Treasurer is designated as the custodian of all funds received by the state from the government of the United

States, or of any agency or agencies thereof, under the federal act and he is authorized to receive and provide for the custody of all moneys so received.

67005. The funds received by the state under the provisions of the federal act shall be paid out by the State Treasurer on warrants drawn by the Controller and requisitioned by the California Postsecondary Education Commission in carrying out the purposes of the federal act.

67006. The office of the Governor is designated as the state educational agency to carry out the purposes and the provisions of Section 802 of Title VIII of the Housing Act of 1964.

The office of the Governor is hereby vested with authority to prepare and submit any state plan required by said section of said act of Congress, to prepare and submit amendments to such state plan, and to administer such state plan or amendments thereto, in accordance with said act of Congress, and any rules and regulations adopted thereunder. Any such state plan or amendment thereto prepared by the office of the Governor shall be subject to the approval of the Department of Finance.

The office of the Governor is hereby vested with all necessary power and authority to cooperate with the government of the United States, or any agency or agencies thereof in the administration of the act of Congress and the rules and regulations adopted thereunder.

67007. The State Board of Education is vested with all necessary power and authority to perform all acts necessary to authorize governing boards of districts maintaining community colleges to receive the benefits and to expend the funds provided by any acts of Congress under which districts maintaining community colleges may be eligible to receive benefits, including, but not limited to, Title VII of the Housing Act of 1961 (Public Law 87-70), as amended, and any of the acts of Congress referred to in this chapter. The board is vested with all necessary power and authority to authorize districts maintaining community colleges to cooperate with the government of the United States, or any agency or agencies thereof, for the purpose of receiving the benefits and expending the funds provided by said acts of Congress, or any rules or regulations adopted thereunder, or any state plan or rules or regulations of the California Postsecondary Education Commission adopted in accordance with any of said acts of Congress under which the California Postsecondary Education Commission is designated in this chapter as the state educational agency. Whenever necessary to secure the full benefits of said acts of Congress, the governing board may give such security as may be required and may comply with such conditions as may be imposed by the federal government. The funds received by the district under the provisions of said acts of Congress shall be deposited in the county treasury as provided for in Section 84001.

This section shall be applicable to only those acts of Congress which have been enacted prior to January 1, 1967.

**PART 41. UNIFORM STUDENT RESIDENCY  
REQUIREMENTS**

**CHAPTER 1. STUDENT RESIDENCY REQUIREMENTS**

**Article 1. General Provisions**

68000. It is the intent of the Legislature that the public institutions of higher education shall apply uniform rules, as set forth in this chapter and not otherwise, in determining whether a student shall be classified as resident or a nonresident.

**Article 2. Definitions**

68010. The definitions set forth in this article shall govern the construction of this part.

68011. "Institution" means the University of California, the California State University and Colleges, the California Maritime Academy, or a California community college.

68012. "Governing board" means the Regents of the University of California, the Trustees of the California State University and Colleges, the Board of Governors of the California Maritime Academy, or the Board of Governors of the California Community Colleges.

68013. "District governing board" means the governing board of a district maintaining one or more community colleges.

68014. "Parent" means a minor's father; or if he has no father, his mother; or, if both parents are deceased, his legal guardian.

68015. "Student" means a person enrolled in or applying for admission to an institution.

68016. "Continuous attendance," as it refers to attendance at an institution, means a student claiming continuous attendance who has been enrolled full time, as determined by the governing board, for a normal academic year at such institution since the beginning of the period for which continuous attendance is claimed. Nothing in this section shall require a student to attend summer sessions or other terms beyond the normal academic year in order to render his attendance "continuous."

68017. A "resident" is a student who has residence, pursuant to Article 5 (commencing with Section 68060) of this chapter in the state for more than one year immediately preceding the residence determination date.

68018. A "nonresident" is a student who does not have residence in the state for more than one year immediately preceding the residence determination date.

68019. A "district resident" is a resident who has residence within a district in the state.

68020. A "nondistrict resident" is a resident who does not have residence within a district in the state, or a student who, (a) within

39 months period immediately preceding the residence determination date, was graduated from a high school which is situated in territory not within a district, and (b) whose parent resides in such territory.

68021. "District" means a community college district maintaining one or more community colleges.

68022. "Resident classification" means classification as a resident, pursuant to Section 68017, at the University of California, the California State University and Colleges, and the California Maritime Academy, and as a district resident, pursuant to Section 68019, or a nondistrict resident, pursuant to Section 68020, at a California community college.

68023. "Residence determination date" is a date or day established by the governing boards for each semester, quarter, or term to determine a student's residence.

### Article 3. Classification

68040. Each student shall be classified as: (a) a resident or nonresident at the University of California, the California State University and Colleges, or the California Maritime Academy; or (b) a district resident, nondistrict resident or nonresident at a California community college.

68041. Each student enrolled or applying for admission to an institution shall provide such information and evidence of residence as deemed necessary by the governing board to determine his classification. An oath or affirmation may be required in connection with taking testimony necessary to ascertain a student's classification. The determination of a student's classification shall be made in accordance with the provisions of this part and the residence determination date for the semester, quarter, or term for which the student proposes to attend an institution.

68042. The governing board or district governing board may appoint persons to administer oaths or affirmations in connection with taking testimony necessary to ascertain a student's classification.

68043. A student classified as a nonresident shall not obtain resident classification as a result of maintaining continuous attendance at an institution without meeting the other requirements of this part for obtaining such classification.

68044. The governing boards shall adopt rules and regulations for determining a student's classification and for establishing procedures for review and appeal of that classification. Such rules and regulations shall include, but are not limited to, the evidence necessary to determine residence, procedures for obtaining residence information and procedures for administering oaths in connection with taking of testimony relative to residence. A district governing board may adopt rules and regulations which are not inconsistent with those adopted by the Board of Governors of the California Community Colleges.

#### Article 4. Nonresident Tuition

68050. A student classified as a nonresident shall be required, except as otherwise provided in this part, to pay, in addition to other fees required by the institution, nonresident tuition.

68051. Unless otherwise provided by law, the governing board shall adopt rules and regulations relating to the method of calculation of the amount of nonresident tuition, the method of payment, and the method and amount of refund.

#### Article 5. Determination of Student Residence

68060. Every person has, in law, a residence.

68061. Every person who is married or 18 years of age, or older, and under no legal disability to do so, may establish residence.

68062. In determining the place of residence the following rules are to be observed:

(a) There can only be one residence.

(b) A residence is the place where one remains when not called elsewhere for labor or other special or temporary purpose, and to which he returns in seasons of repose.

(c) A residence cannot be lost until another is gained.

(d) The residence can be changed only by the union of act and intent.

(e) A man or woman may establish his or her residence. A woman's residence shall not be derivative from that of her husband.

(f) The residence of the parent with whom an unmarried minor child maintains his place of abode is the residence of the unmarried minor child. When the minor lives with neither parent his residence is that of the parent with whom he maintained his last place of abode, provided the minor may establish his residence when both parents are deceased and a legal guardian has not been appointed.

(g) The residence of an unmarried minor who has a parent living cannot be changed by his own act, by the appointment of a legal guardian, or by relinquishment of a parent's right of control.

#### Article 6. Exceptions to Residence Determination

68070. A student who remains in this state after his parent, who was theretofore domiciled in California for at least one year immediately prior to leaving and has, during the student's minority and within one year immediately prior to the residency determination date, established residence elsewhere, shall be entitled to resident classification until he has attained the age of majority and has resided in the state the minimum time necessary to become a resident, so long as, once enrolled, he maintains continuous attendance at an institution.

68071. A student who has been entirely self-supporting and actually present in California for more than one year immediately

preceding the residence determination date, with the intention of acquiring a residence therein, shall be entitled to resident classification until he has resided in the state the minimum time necessary to become a resident.

68072. A student who has not been an adult for more than one year immediately preceding the residence determination date for the semester, quarter or term for which he proposes to attend an institution shall have his immediate premajority derived California residence, if any, added to his postmajority residence to obtain the one year of California residence required by Section 68017.

68073. A student shall be entitled to resident classification if, immediately prior to enrolling at an institution, he has lived with and been under the continuous direct care and control of any adult or adults, other than a parent, for a period of not less than two years, provided that the adult or adults having such control have been domiciled in California during the year immediately prior to the residence determination date. This exception shall continue until the student has attained the age of majority and has resided in the state the minimum time necessary to become a resident, so long as continuous attendance is maintained at an institution.

68074. A student who is a natural or adopted child, stepchild, or spouse who is a dependent of a member of the armed forces of the United States stationed in this state on active duty shall be entitled to resident classification until he has resided in the state the minimum time necessary to become a resident.

Should that member of the armed forces of the United States, whose dependent natural or adopted child, stepchild, or spouse is in attendance at an institution, be thereafter transferred on military orders to a place outside the continental United States where the member continues to serve in the armed forces of the United States, the student dependent shall not lose his resident classification until he has resided in the state the minimum time necessary to become a resident.

68075. A student who is a member of the armed forces of the United States stationed in this state on active duty, except a member of the armed forces assigned for educational purposes to state-supported institutions of higher education, shall be entitled to resident classification until he has resided in the state the minimum time necessary to become a resident.

68076. A student who is an adult alien shall be entitled to resident classification if he has been lawfully admitted to the United States for permanent residence in accordance with all applicable laws of the United States; provided, that he has had residence in the state for more than one year after such admission prior to the residence determination date for the semester, quarter or term for which he proposes to attend an institution.

68077. A student who is a minor alien shall be entitled to resident classification if both he and his parent have been lawfully admitted to the United States for permanent residence in accordance with all

applicable laws of the United States; provided, that the parent has had residence in the state for more than one year after such admission prior to the residence determination date for the semester, quarter or term for which he proposes to attend an institution.

68078. A student holding a valid credential authorizing service in the public schools of this state who is employed by a school district in a full-time position requiring certification qualifications for the college year in which the student enrolls in an institution shall be entitled to resident classification if such student meets any of the following requirements:

(a) Holding of a provisional credential and enrollment at an institution in courses necessary to obtain another type of credential authorizing service in the public schools.

(b) Holding a credential issued pursuant to Section 44250 and enrollment at an institution in courses necessary to fulfill credential requirements.

(c) Enrollment at an institution in courses necessary to fulfill the requirements for a fifth year of education prescribed by subdivision (b) of Section 44259.

68079. A student who is a full-time employee of an institution or a student who is a child or spouse of a full-time employee of an institution may be entitled to resident classification, as determined by the governing boards, until he has resided in the state the minimum time necessary to become a resident.

68080. A student who is a minor and resides with either his father or mother in a district or territory not in a district shall be entitled to resident classification, provided that the father or mother has been domiciled in California for more than one year prior to the residence determination date for the semester, quarter or term for which he proposes to attend a community college and provided that he meets the other requirements of this part.

68081. A student who is an apprentice, as defined in Section 3077 of the Labor Code, shall be entitled to resident classification for attendance at a community college.

## Article 7. Rules and Regulations

68090. The governing boards shall adopt appropriate rules and regulations to insure the orderly implementation of this part. The district governing boards may adopt rules and regulations, which are not inconsistent with those adopted by the Board of Governors of the California Community Colleges, in order to insure the orderly implementation of this part.

The residence determination date and a summary of the rules and regulations adopted by governing boards and district governing boards pursuant to this chapter shall be published in the respective institutional catalogs. The statute law and the rules and regulations adopted by the governing board shall be made available to the

students at each institution.

It is the intent of the Legislature that the governing boards, insofar as possible, adopt uniform rules and regulations, to insure consistent application of residency requirements among all institutions.

#### Article 8. Community College District Residence

68100. A district may classify a student as a district resident if he lives with a parent who earns a livelihood primarily by performing agricultural labor for hire in California and other states and the parent has performed such labor in this state for at least two months per year in each of the two preceding years, the parent lives within the district which maintains the community college attended by the student, and the parent claims the student as a dependent on his state or federal personal income tax returns if he has sufficient income to have a personal income tax liability.

A district may also classify a student as a district resident if he earns a livelihood primarily by performing agricultural labor for hire in California and other states and he has performed such labor in this state for at least two months per year in each of the two preceding years.

The Board of Governors of the California Community Colleges shall prescribe rules and regulations for the implementation of this section.

#### Article 9. Alien Residency

68110. Commencing with the 1973-74 fiscal year and thereafter, notwithstanding the provisions of Sections 85132 and 68076, and for the purpose of crediting attendance for apportionments from the State School Fund and computing the revenue limit of any school district maintaining a community college, students lawfully admitted to the United States for permanent residence in accordance with all applicable laws of the United States and enrolled at a community college in a class in English and citizenship for foreigners as provided in Section 78462 shall be counted as resident students to the extent of their enrollment in such classes.

#### Article 10. Provisions Related to Particular Institutions

68120. (a) Notwithstanding any other provisions of law to the contrary, no fees or tuition of any kind shall be required of or collected by the Regents of the University of California from any surviving child, natural or adopted, of a person who is a resident of this state employed by a public agency whose principal duties consist of active law enforcement service or active fire suppression and prevention, except a person whose principal duties are clerical even though such a person is subject to occasional call or is occasionally called upon to perform duties within the scope of active law

enforcement or active fire suppression and prevention, who is killed in the performance of active law enforcement or active fire suppression and prevention duties or who dies as a result of an accident or an injury caused by external violence or physical force, incurred in the performance of his active law enforcement or active fire suppression and prevention duties.

(b) As used in this section, "public agency" means the state or any city, county, district, or other local authority or public body of or within this state.

68121. (a) Notwithstanding any other provisions of law to the contrary, no fees or tuition of any kind shall be required of or collected by the Trustees of the California State University and Colleges from any surviving child, natural or adopted, of a person who is a resident of this state employed by a public agency whose principal duties consist of active law enforcement service or active fire suppression and prevention, except a person whose principal duties are clerical even though such a person is subject to occasional call or is occasionally called upon to perform duties within the scope of active law enforcement or active fire suppression and prevention, who is killed in the performance of active law enforcement or active fire suppression and prevention duties or who dies as a result of an accident or an injury caused by external violence or physical force, incurred in the performance of his active law enforcement or active fire suppression and prevention duties.

(b) As used in this section, "public agency" means the state or any city, county, district, or other local authority or public body of or within this state.

68122. The trustees may not charge a student the nonresident tuition fee if the student meets all of the following criteria:

(a) He is a citizen of a foreign country and has not been admitted into the United States for permanent residence.

(b) He has lived continuously in this state for at least three years immediately preceding the residence determination date, during which time he has attended California public schools, having a regular curriculum, as a full-time student for six consecutive academic semesters, culminating in his receipt of a high school diploma.

(c) He is not receiving assistance from any public or private agency or any government.

This section shall remain in effect only until January 1, 1978, and as of that date is repealed.

68123. Notwithstanding any other provision of law, the Trustees of the California State University and Colleges may enter into agreements with other universities or colleges located within the state whereby qualified students from campuses of the California State University and Colleges may attend such other universities or colleges without payment of some or all fees or tuition, or both, charged by such institutions, and students from such institutions may attend campuses of the California State University and Colleges

without payment of some or all of the fees or tuition, or both, charged by the state university or college; provided that during any year, the number of students attending campuses of the California State University and Colleges from other universities or colleges, pursuant to such agreements entered in between the Trustees of the California State University and Colleges and other universities and colleges, shall not exceed the number of students of the California State University and Colleges attending such other institutions.

68124. The trustees may enter into agreements with public colleges and universities in other states whereby qualified students from the California State University and Colleges may attend such other college or university without payment of any tuition fee charged by that institution to persons who are nonresidents of the state in which it is situate, and students from that institution may attend the California State University and Colleges without payment of the nonresident tuition established pursuant to Section 89705. No nonresident tuition shall be charged of students attending a campus of the California State University and Colleges pursuant to an agreement entered into under this section; provided, that during any year, the number of students attending the California State University and Colleges from a particular public college or university in another state, pursuant to such agreement, shall not exceed the number of the California State University and Colleges students attending such institution under that agreement.

#### Article 11. Miscellaneous Provisions

68130. The governing boards and district governing boards may waive nonresident tuition in whole or in part pursuant to Sections 89705, 89707, 68126, and 76140.

68131. The governing boards and district governing boards may enter into agreements with appropriate agencies and institutions of higher education in other states and foreign countries providing for the exchange of students in higher educational institutions in this state and other states or countries pursuant to Sections 68124, 76140, and Chapter 10 (commencing with Section 66800) of Part 40 of this division.

68132. A person in continuous attendance at an institution who has resident classification on the operative date of this chapter shall not lose such classification as a result of this chapter until the attainment of the degree for which he is currently enrolled.

68133. If an action is brought against a governing board as the result of the application of this chapter that governing board shall inform the governing boards of the other institutions regarding the litigation. If an action is brought against a district governing board as a result of the application of this chapter that district governing board shall inform the Board of Governors of the California Community Colleges, who shall inform the Regents of the University of California, the Trustees of the California State University and

Colleges, and the Board of Governors of the California Maritime Academy regarding the pending litigation.

68134. No provision of this part shall be applicable to the University of California unless the Regents of the University of California, by resolution, make such provision applicable.

## PART 42. STUDENT FINANCIAL AID PROGRAM

### CHAPTER 1. FAMILY PHYSICIAN TRAINING PROGRAM

69270. The Legislature hereby finds and declares that physicians engaged in family practice are in very short supply in California. The current emphasis placed on specialization in medical education has resulted in a shortage of physicians trained to provide comprehensive primary health care to families. The Legislature hereby declares that it regards the furtherance of a greater supply of competent family physicians to be a public purpose of great importance and further declares the establishment of the program pursuant to this chapter to be a desirable, necessary and economical method of increasing the number of family physicians to provide needed medical services to the people of California. The Legislature further declares that it is to the benefit of the state to assist in increasing the number of competent family physicians graduated by colleges and universities of this state to provide primary health care services to families within the state.

The Legislature finds that the shortage of family physicians can be improved by the placing of a higher priority by public and private medical schools, hospitals, and other health care delivery systems in this state, on the recruitment and improved training of medical students and residents to meet the need for family physicians. To help accomplish this goal, each medical school in California is encouraged to organize a strong family practice program or department. It is the intent of the Legislature that such programs or departments be headed by a physician who possesses specialty certification in the field of family practice, and has broad clinical experience in the field of family practice.

The Legislature further finds that encouraging the training of primary care physician's assistants and primary care nurse practitioners will assist in making primary health care services more accessible to the citizenry, and will, in conjunction with the training of family physicians, lead to an improved health care delivery system in California.

Community hospitals in general and rural community hospitals in particular, as well as other health care delivery systems, are encouraged to develop family practice residencies in affiliation or association with accredited medical schools, to help meet the need for family physicians in geographical areas of the state with recognized family primary health care needs. Utilization of expanded resources beyond university-based teaching hospitals

should be emphasized, including facilities in rural areas wherever possible.

It is the intent of the Legislature to provide for a program designed primarily to increase the number of students and residents receiving quality education and training in the specialty of family practice and as primary care physician's assistants and primary care nurse practitioners and to maximize the delivery of primary care family physician services to specific areas of California where there is a recognized unmet priority need. This program is intended to be implemented through contracts with accredited medical schools, programs which train primary care physician's assistants and programs which train primary care nurse practitioners, hospitals, and other health care delivery systems based on per-student or per-resident capitation formulas. It is further intended by the Legislature that the programs will be professionally and administratively accountable so that the maximum cost effectiveness will be achieved in meeting the professional training standards and criteria set forth in this article.

This article may be cited as the "Song-Brown Family Physician Training Act."

69271. The term "family physician" as used in this article means a primary care physician who is prepared to and renders continued comprehensive and preventative health care services to families and who has received specialized training in an approved family practice residency for three years after graduation from an accredited medical school.

The terms "associated" and "affiliated," as used in this article, mean that relationship that exists by virtue of a formal written agreement between a hospital or other health care delivery system and an approved medical school which pertains to the family practice training program for which state contract funds are sought. This definition shall include such agreements which may be entered into subsequent to the effective date of this article as well as those relevant agreements which are in existence prior to the effective date of this article.

The term "commission," as used in this article, shall mean the Health Manpower Policy Commission.

The term "programs which train primary care physician's assistants" as used in this article shall mean a program which has been approved for the training of primary care physician's assistants pursuant to Section 2515 of the Business and Professions Code.

The term "programs which train primary care nurse practitioners" as used in this article shall mean a program for the training of primary care nurse practitioners which is operated by an approved medical school or which is affiliated with a school of nursing approved by the Board of Registered Nursing pursuant to Section 2786 of the Business and Professions Code.

69272. There is hereby created a state medical contract program with accredited medical schools, programs which train primary care

physician's assistants, programs which train primary care nurse practitioners, hospitals, and other health care delivery systems to increase the number of students and residents receiving quality education and training in the specialty of family practice and to maximize the delivery of primary care family physician services to specific areas of California where there is a recognized unmet priority need for such services.

69273. There is hereby created a Health Manpower Policy Commission. The commission shall be composed of nine members who shall serve at the pleasure of their appointing authorities:

(a) Six members appointed by the Governor, as follows: one representative of the University of California medical schools, from a nominee or nominees submitted by the University of California; one representative of the private medical schools accredited in California from individuals nominated by each of such schools; one representative of practicing family physicians; one representative of undergraduate medical students in a family practice program or residence in family practice training; one representative of trainees in a primary care physician's assistant program or a practicing physician's assistant; one representative of trainees in a primary care nurse practitioners program or a practicing nurse practitioner; and one representative of the State Department of Health, from nominees submitted by the director.

(b) Two consumer representatives of the public who are not elected or appointed public officials, one appointed by the Speaker of the Assembly and one appointed by the Chairman of the Senate Rules Committee.

(c) The Chief of the Health Manpower Development Section, or his designee, shall serve as executive secretary for the commission.

69273.5. The members of the commission, other than state employees, shall receive compensation of twenty-five dollars (\$25) for each day's attendance at a commission meeting, in addition to actual and necessary travel expenses incurred in the course of attendance at a commission meeting.

69274. The duties of the commission shall be:

(a) To determine specific areas of the state where unmet priority needs for primary care family physicians exist.

(b) To establish standards for family practice training programs and family practice residency programs and programs which train primary care physician's assistants and programs which train primary care nurse practitioners, including appropriate provisions to encourage family physicians and primary care physician's assistants and primary care nurse practitioners who receive training in accordance with this article to provide needed services in areas of unmet need within the state. Standards for family practice residency programs shall provide that all such residency programs contracted for pursuant to this article shall (i) meet the American Medical Association's "Essentials" for Residency Training in Family Practice, (ii) be approved by the Residency Review Committee for Family

Practice of the American Medical Association, and (iii) be affiliated or associated with accredited medical schools in California. Every program shall include a component of training designed for medically underserved multicultural communities, lower socioeconomic neighborhoods, or rural communities, and shall be organized to prepare family physicians or primary care physician's assistants or primary care nurse practitioners for service in such neighborhoods and communities. Medical schools receiving funds under this article shall have programs or departments that recognize family practice as a major independent specialty.

(c) To review and make recommendations to the Director of Health concerning the funding of family practice programs or departments, family practice residencies and programs for the training of primary care physician's assistants and primary care nurse practitioners which are submitted to the Health Manpower Development Section, for participation in the contract program established by this article. Where the commission determines that a program proposal which has been approved for funding or which is the recipient of funds under this article does not meet the standards established by the commission, it shall submit to the Director of Health and the Legislature a report detailing its objections. The commission may request the Department of Health to make advance allocations for program development costs from amounts appropriated for the purposes of this article.

(d) To establish contract criteria and single per-student and per-resident capitation formulas which shall determine the amounts to be transferred to institutions receiving contracts for the training of family practice students and residents and primary care physician's assistants and primary care nurse practitioner pursuant to this article. Institutions applying for or in receipt of contracts pursuant to this article may appeal to the director for waiver of these single capitation formulas. The director may grant such waiver in exceptional cases upon a clear showing by the institution that a waiver is essential to the institution's ability to provide a program of a quality comparable to those provided by institutions which have not received waivers, taking into account the public interest in program cost-effectiveness. Recipients of funds appropriated by this article shall, as a minimum, maintain the level of expenditure for family practice or physician's assistant training provided by such recipients during the 1973-74 fiscal year. Funds appropriated by this article shall be used to develop new programs or to expand existing programs and shall not replace funds supporting current family practice training programs. Institutions applying for or in receipt of contracts pursuant to this article may appeal to the director for waiver of this maintenance of effort provision. The director may grant such waiver if he determines that there is reasonable and proper cause to grant such waiver.

(e) To review and evaluate these programs regarding proper compliance with the provisions of this article and to submit annual

progress reports to the Legislature on or before September 30 of each year, commencing September 30, 1974. One standard for evaluation shall be the number of recipients who, after completing the program, actually go on to serve in areas of unmet priority needs in California.

69275. Pursuant to the provisions of this article, the Director of Health shall:

(a) Determine whether family practice, primary care physician's assistant training programs proposals, and primary care nurse practitioner training program proposals submitted to the Health Manpower Policy Commission for participation in the state medical contract program established by this article meet the standards established by the commission.

(b) Select and contract on behalf of the state with accredited medical schools, programs which train primary care physician's assistants, programs which train primary care nurse practitioners, hospitals, and other health care delivery systems for the purpose of training undergraduate medical students and residents in the specialty of family practice. Contracts shall be awarded to those institutions which best demonstrate the ability to provide quality education and training and to retain students and residents in specific areas of California where there is a recognized unmet priority need for primary care family physicians. Contracts shall be based upon the recommendations of the commission and in conformity with the contract criteria and program standards established by said commission.

(c) Be empowered to terminate, upon 30 days' written notice, the contract of any institution whose program does not meet the standards established by the commission or which otherwise does not maintain proper compliance with the provisions of this article, except as otherwise provided in contracts entered into by the director pursuant to this article.

69276. The Director of Health shall adopt, amend, or repeal such regulations as are necessary to enforce the provisions of this article, which shall include criteria which training programs must meet in order to qualify for waivers of single capitation formulas or maintenance of effort requirements authorized by Section 31913.5. Regulations for the administration of this article shall be adopted, amended, or repealed as provided in Chapter 4.5 (commencing with Section 11371) of Part 1 of Division 3 of Title 2 of the Government Code.

## CHAPTER 2. STUDENT FINANCIAL AID PROGRAMS

### Article 1. Purposes

69500. The Legislature finds and declares that:

(a) Student assistance programs have the primary purpose of providing equal opportunity and access to postsecondary education for persons of both sexes, and all races, ancestries, incomes, ages, and

geographies in California;

(b) Student aid programs should enhance the ability of individuals to choose the most appropriate postsecondary educational opportunity and among different institutions;

(c) Student aid programs should assist students to progress through the educational program in accordance with the individual's educational objectives;

(d) Student aid programs should provide assistance to individuals who desire to enroll in an independent college or university;

(e) Student aid programs should, furthermore, complement more general statewide goals for public postsecondary education;

(f) State purposes regarding student aid programs should complement the purposes of federal student assistance programs so as to enhance the effectiveness of state programs; the state's purposes mentioned above serve to enhance the purposes of the Federal Basic Educational Opportunity Grant Program.

## Article 2. The Student Aid Commission

69510. The State Scholarship and Loan Commission is hereby renamed the Student Aid Commission, and shall be composed of the following 11 members:

(a) One representative from public, proprietary, or nonprofit postsecondary schools located in California.

(b) One representative from a California independent college or university.

(c) One representative each from the University of California, the California State University and Colleges, and the California community colleges.

(d) Two members each of whom must be a student enrolled in a California postsecondary educational institution at the time of appointment.

(e) Three public members.

(f) One representative from a California secondary school.

69511. (a) Each member of the commission shall have a four-year term; provided, that members appointed pursuant to subdivision (d) of Section 69510 shall have two-year terms.

(b) One student representative shall be appointed by the Governor and one shall be appointed by the Speaker of the Assembly. Such appointments shall be effective January 1, 1976.

(c) The member appointed pursuant to subdivision (a) of Section 69510 shall be appointed effective January 1, 1976, by the Senate Rules Committee.

(d) The member appointed pursuant to subdivision (f) of Section 69510 shall be appointed effective January 1, 1976, by the Governor.

(e) At no time shall both student representatives be enrolled in a California independent college or university or the University of California or the California State University and Colleges or a California community college.

(f) Current members of the State Scholarship and Loan Commission shall serve on the commission for the remainder of the terms for which they were appointed, and such members may be reappointed. Notwithstanding Section 69510, the commission shall consist of 13 members in 1976, 12 members in 1977, 1978, and 1979, and 11 members thereafter.

(g) Vacancies on the commission shall be filled by the Governor, the Speaker of the Assembly, or the Senate Rules Committee, on a rotating basis as such vacancies occur. The Governor, the Speaker of the Assembly, and the Senate Rules Committee shall fill the first, second, and third vacancies, respectively. Such order of rotating the appointments to the commission shall be maintained thereafter. Appointments to fill vacancies shall be made in consultation with postsecondary educational institutions and student groups.

(h) The member appointed pursuant to subdivision (a) of Section 69510 shall be appointed from a list of nominees submitted jointly by the California Advisory Council on Vocational Education and Technical Training and the Council for Private Postsecondary Educational Institutions. The member appointed pursuant to subdivision (b) of Section 69510 shall be appointed from a list of nominees submitted by an association or associations of independent California colleges and universities. The members appointed pursuant to subdivision (c) of Section 69510 shall be appointed from lists of nominees each submitted by the Regents of the University of California, the Trustees of the California State University and Colleges, and the Board of Governors of the California Community Colleges, respectively. The members appointed pursuant to subdivision (d) of Section 69510 shall be appointed from lists of nominees submitted by student organizations. No list of nominees as specified in this subdivision shall contain less than three names.

(i) Whenever by the provisions of any act of Congress a program of scholarships or grants for undergraduate students is established which permits administration of such program within a state by a state agency, the Student Aid Commission, as established by Section 69510, shall administer such act within the state if the Governor and the Student Aid Commission, by a majority vote of its entire membership, determine that the participation by the state in the federal scholarship or grant program under such act would not interfere with or jeopardize the continuation of the scholarship program established under Sections 69530 to 69547, inclusive.

The commission shall constitute the state commission on federal scholarships or grants and is hereby empowered to formulate a plan for development and administration of any such federal scholarship or grant program within the state.

Subject to the provisions of this chapter, the commission is hereby vested with all necessary power and authority to cooperate with the government of the United States, or any agency or agencies thereof, in the administration of any act of Congress establishing a scholarship or grant program and the rules and regulations adopted thereunder.

Before adopting a state plan the Student Aid Commission, acting as the state commission on federal scholarships or grants, shall hold public hearings as provided in the California Administrative Procedure Act.

69512. The members of the commission shall select a chairman from the members of the commission at any meeting which is the first meeting held after there has been a change in membership.

69513. The commission shall appoint a director who shall be the chief executive officer for the commission, and shall serve at the pleasure of the commission. The Legislature hereby requests the commission to designate such executive officer as the person holding the position confidential to it, within the meaning of subdivision 5, of Section 4, Article XXIV of the Constitution.

The commission may employ such other employees as it deems necessary to carry out its functions under this chapter.

69514. The commission shall:

(a) Report on or before January 1, 1978, and every two years thereafter, the impact and effectiveness of state-funded programs; the commission shall utilize common criteria in determining the impact of these programs, and shall have the authority to obtain any data from postsecondary educational institutions necessary for such reports.

(b) Collect and disseminate data concerning the financial resources and needs of students and potential students, and the scope and impact of existing state, federal, and institutional student aid programs.

(c) Report on or before January 1, 1977, and every other year thereafter, the aggregate financial need of individuals seeking access to postsecondary education and the degree to which current student aid programs meet this legitimate financial need.

(d) Develop and report annually to the Legislature, the Governor, postsecondary educational institutions, and the California Postsecondary Education Commission the criteria utilized in distributing available student aid funds;

(e) Expend six dollars (\$6) for each authorized Cal Grant for the purpose of disseminating information about all institutional, state, and federal student aid programs to potential applicants. Such distribution of information shall primarily focus on potential applicants with the greatest financial need.

69515. As used in this division, "commission" means the Student Aid Commission created by this chapter.

### Article 3. California Educational Opportunity Grant Program

69530. The Legislature finds and declares that:

(a) The enactment of the Federal Basic Educational Opportunity Grant Program requires substantial changes in current state student aid programs if state programs are to effectively supplement federal student assistance.

(b) The entire student aid system, due to a proliferation of programs has resulted in substantial confusion and inefficiencies.

(c) One statewide student assistance program supplementary to the Federal Basic Educational Opportunity Grant Program would increase simplicity and effectiveness.

69531. There is hereby established a state educational opportunity grant program, which shall be known as the California Educational Opportunity Grant program or "Cal Grant." No new awards shall be granted under the provisions of Chapter 4 (commencing with Section 69560), 5 (commencing with Section 69580), or 6 (commencing with Section 69600) of this division after the 1976-1977 fiscal year.

69532. There shall be 20,425 new Cal Grant awards for first-time recipients for the 1977-1978 fiscal year and each year thereafter, except that new scholarships in subdivision (a) in excess of 4.25 percent of the number of high school graduates of the previous fiscal year, in subdivision (b) in excess of 3,100, and in subdivision (c) in excess of 700 shall not be awarded unless there are federal student financial aids funds available to the State Scholarship and Loan Commission in an amount necessary to fund such awards or unless the Legislature acts in the future to fund such awards. First priority for federal state student incentive grant funds shall be for students originally funded from state student incentive grant funds who are eligible for renewal. Such grants shall be allocated as follows:

(a) 14,900 awards for the 1977-1978 fiscal year, and each fiscal year thereafter, to be utilized for tuition and student fees pursuant to Section 40405.

(b) 4,550 awards for the 1977-1978 fiscal year and each fiscal year thereafter, to be utilized for tuition, student fees, and subsistence costs pursuant to Section 40406.

(c) 975 awards for the 1977-1978 fiscal year and each fiscal year thereafter, to be utilized for occupational or technical training pursuant to Sections 69539 through 69543.

69533. Cal Grant awards authorized pursuant to Section 69532 shall be defined as full-time equivalent grants. Awards to part-time students shall be a fraction of a full-time grant, as determined by the commission.

69534. The commission, in consultation with postsecondary institutions, shall develop and make available a single, common application form and a single, common financial statement, so that by July 1, 1977, the form shall be utilized for the Cal Grant program, all other programs funded by the state or a public institution of postsecondary education, and all federal programs administered by a public institution of postsecondary education. Supplemental forms may be utilized if such forms are essential to accomplishing the objectives of individual programs, as determined by the commission. All supplemental forms utilized by public postsecondary educational institutions must be approved by the commission, and such forms shall be identical for programs with similar objectives, as determined

by the commission. Public postsecondary institutions may decide whether or not to use the single common application form and the single common financial statement for funds provided by private donors.

69535. Cal Grant awards shall be based upon the financial need of the applicant, but for the applicants so qualifying, academic criteria or criteria related to past performances shall be utilized as the criteria in determining eligibility for grants. The level of financial need of each applicant shall be determined by the commission, taking into account the financial resources of the applicant and the applicant's family. All Cal Grant recipients shall be residents of California, as determined by the commission, and shall remain eligible only if they are in attendance and making satisfactory progress through the instructional programs, as determined by the commission. Part-time students shall not be discriminated against in the award of Cal Grants, and awards to part-time students shall be roughly proportional to the time spent in the instructional program, as determined by the commission. Cal Grants shall be awarded without regard to race, religion, creed, sex, or age. First-time Cal Grant recipients who are part-time students shall be eligible for a full-time renewal award. No applicant shall receive more than one type of Cal Grant award concurrently. A Cal Grant recipient shall be a citizen of the United States or, if he is under 21 years of age and not a citizen of the United States, either he or his parent or parents must have been admitted to the United States on a permanent resident visa.

The Student Aid Commission may, for students who accelerate college attendance, increase the amount of award for one academic year proportional to the period of additional attendance resulting from attendance at a summer term, session, or quarter. In the aggregate, the total amount a student may receive in a four-year period may not be increased as a result of accelerating his progress to a degree by attending summer terms, sessions, or quarters. The Student Aid Commission may provide by appropriate rules and regulations for such reports, accounting, and statements from the award winner and college or university of attendance pertaining to the use or application of the award as it may deem proper.

The Student Aid Commission may establish Cal Grants in one hundred dollar (\$100) increments.

69536. A Cal Grant award for tuition and student fees as provided in subdivision (a) of Section 69532 may be utilized at any California postsecondary educational institution or program eligible to participate in the Federal Basic Educational Opportunity Grant Program, or any institution recognized as a candidate for accreditation by the Western Association of Schools and Colleges or approved under the requirements of paragraph (2) of subdivision (a) of Section 94310, provided that such award may not be utilized by a student enrolled in an instructional program of less than two years. No such award may exceed the cost of tuition and fees, and

shall in no event exceed the sum of two thousand seven hundred dollars (\$2,700). Such awards may not be utilized for graduate study, and may be renewed for a total of four years of full-time attendance in an instructional program or an equivalent thereof, provided that financial need continues to exist.

69537. An individual who is awarded a Cal Grant award authorized pursuant to subdivision (a) of Section 69532 and enrolls in a public community college may elect to have the award held in trust for him for a period not to exceed two academic years, except that the commission may extend the period in which his award may be held in trust up to a period of three academic years if, in the commission's judgment, the student's rate of academic progress has been as rapid as could be expected for the personal and financial conditions which the student has encountered. The commission shall, in such case, hold the award in trust, to be granted to the award winner upon receipt of his request therefor within such period, provided that at the time of making the request he meets all of the requirements of this chapter. Upon receipt of the request the commission shall assess or reassess the financial needs of the award winner. The commission may prescribe the forms and procedures to be utilized for the purposes of this section. The commission may award to another eligible individual any award being so held in trust, subject to the provisions of this section and any other conditions and restrictions that may be imposed by the commission, to the end that all authorized awards are being continually utilized. Following the first year for which any such award is made, such awards shall be included in the number of the continuing awards available for any year and not the authorized new awards for the year.

69538. To be eligible for a Cal Grant award for tuition, student fees, and subsistence costs as provided in subdivision (b) of Section 69532 the student shall be a disadvantaged student under criteria to be established by the commission, which shall take into consideration those financial, educational, cultural, language, home, community, environmental, and other conditions which tend to make difficult the gaining access to and persisting in postsecondary programs. Such awards may be utilized for tuition, student fees, living expenses, transportation, supplies, and books.

The Legislature recognizes that the role of the community colleges, as the least expensive level of California higher education, is a crucial role in increasing the higher education opportunities for disadvantaged students, and it is the intent of the Legislature that the additional opportunities for higher education provided pursuant to this chapter shall be initiated primarily on the public community college level.

Grants awarded under this chapter shall be for living expenses, transportation, supplies and books, according to the student's financial need, and shall not be in excess of one thousand one hundred dollars (\$1,100) per academic year. The Student Aid Commission may also award such grants and an additional amount

to pay tuition and fees to attend college at a public or private four-year college or university. Any eligible student who has been awarded an initial grant on the basis of need and attendance at a public community college may transfer to another eligible college without being eliminated from the program. In such cases, no adjustments to the initial grant shall be made for tuition and fees.

In no case shall Cal Grant awards exceed the sum of three thousand four hundred dollars (\$3,400), and such awards may not be utilized for graduate study. The awards may be utilized at any California postsecondary educational institution or program eligible to participate in the Federal Basic Educational Opportunity Grant Program, or any institution recognized as a candidate for accreditation by the Western Association of Schools and Colleges or approved under the requirements of paragraph (2) of subdivision (a) of Section 94310, provided that such award may not be utilized by a student enrolled in an instructional program of less than nine months. The awards may be renewed for a total of four years of full-time attendance in an instructional program or an equivalent thereof, provided that financial need continues to exist.

69539. A Cal Grant award pursuant to subdivision (c) of Section 69532 shall be utilized for occupational or technical training in any California institution or program eligible to participate in the Federal Basic Educational Opportunity Grant Program, or any institution recognized as a candidate for accreditation by the Western Association of Schools and Colleges or approved under the requirements of paragraph (2) of subdivision (a) of Section 94310. As used in this section, "occupational or technical training" shall mean that phase of education coming after the completion of a secondary school program and leading toward recognized occupational goals approved by the commission.

69540. The commission may use criteria it deems appropriate in selecting students with occupational talents to receive grants for occupational or technical training.

69541. The recipients of such grants for occupational or technical training shall be eligible for renewal of their grants until they have completed their occupational or technical training in conformance with terms prescribed by the commission. In no case shall such grants exceed two calendar years, except that recipients enrolled in three-year, hospital-based programs to train licensed registered nurses may receive grants for a maximum of three calendar years. The average annual grant for recipients enrolled in three-year, hospital-based programs to train nurses shall not exceed in amount the average annual grant for two-year nursing programs. No grant shall be awarded for a course of training of less than four months duration.

69542. Grants awarded for occupational or technical training shall be for institutional fees, charges, and other costs in the nature of tuition, not to exceed two thousand dollars (\$2,000) for the calendar year, plus up to five hundred dollars (\$500) for

training-related costs, such as special clothing, local transportation, required tools, equipment, supplies and books, according to the student's financial need. In determining the amount of grants and training-related costs, the commission shall take into account other state and federal programs available to the applicant.

69543. Grants for occupational or technical training shall be awarded in areas of manpower need as determined by the commission after consultation with appropriate state and federal agencies.

69544. The commission from time to time shall adopt such rules and regulations as it may determine, not in conflict with this chapter, as may be necessary or appropriate for effectuating the provisions of this chapter.

69545. If any section, subdivision, sentence, clause or phrase of this chapter is for any reason held to be unconstitutional, such decision shall not affect the validity of the remaining portions of this chapter. The Legislature hereby declares that it would have passed this chapter, and each section, subdivision, sentence, clause or phrase thereof, irrespective of the fact that any one or more of the sections, subdivisions, sentences, clauses or phrases be declared unconstitutional.

69546. The Student Aid Commission shall each year recommend to the Legislature concerning the allocation of funds from the federal state student incentive grant program and the programs authorized in subdivisions (a), (b), and (c) of Section 69532.

69547. As used in this division, "part-time student" means a student who is enrolled in not less than one-half of the course load of a full-time student as determined by the commission.

#### Article 4. Competitive Scholarship Program

69560. The Legislature hereby declares that it regards the collegiate education of its qualified citizens to be a public purpose of great importance; and further declares the establishment of competitive scholarships pursuant to this chapter to be a desirable and economical method of furthering this public purpose. The Legislature has come to the conclusion that the benefit to the state in assuring the development of the talents of its qualified citizens will bring tangible benefits to the state in the future.

The Legislature further declares that there is an urgent need at present for the establishment of a state scholarship program, and that the most efficient and economical way to meet this need is through the plan prescribed in this chapter.

The Legislature further declares that it does not intend that this chapter be construed as granting any present or future right to the Legislature, or any other instrumentality of the state, to control or influence the policies of any educational institution involved in the state scholarship program.

69561. There are hereby created state competitive scholarships

which shall be maintained by the state and awarded and administered pursuant to this chapter, and used by the award winner for undergraduate higher education study.

69562. State competitive scholarships shall be awarded without regard to race, religion, creed, national origin or ancestry, or sex.

69563. No person shall be awarded a scholarship unless:

(a) He is a resident of California as determined under the provisions of this code for determining the resident status of a student of a state college for the purposes of state college admission fees and rates of tuition. Wherever such provisions refer to the trustees the reference shall, for the purposes of this section, be deemed to be to the commission, any reference to "the opening day of a semester during which a person proposes to attend a state college" shall be deemed to be the day upon which a person will receive a scholarship as determined by the commission, and any reference to "immediately prior to first entering any California institution of higher learning" shall be deemed to be immediately prior to the day upon which a person will receive a scholarship, as determined by the commission.

(b) He has graduated from high school or has been accepted for admission by an accredited college.

(c) He has demonstrated his financial need for such scholarship. The financial status of his parents shall be taken into consideration in determining his financial need.

(d) He has demonstrated high moral character, good citizenship, and dedication to American ideals.

(e) He has applied for a state competitive scholarship and has, by competitive examination, been determined to be eligible for such scholarship.

(f) He has complied with all of the rules and regulations adopted by the commission for the award, regulation, and administration of state competitive scholarships adopted pursuant to this chapter.

(g) He is a United States citizen; if he is under 18 years of age and is not a United States citizen, his parent or parents shall have a permanent resident visa.

69564. There shall be available for the 1975–1976 fiscal year such scholarships in an amount equal to 4.25 percent and for the 1976–1977 fiscal year such scholarships in the amount equal to 4.625 percent of the number of California high school graduates of the previous year, plus such scholarships for all state scholarship winners who meet all standards for renewal of their awards prescribed by the Education Code and by regulations of the commission, except that new scholarships in excess of 4.25 percent of the number of high school graduates shall not be awarded unless there are federal student financial aid funds available to the State Scholarship and Loan Commission in an amount necessary to fund such awards. First priority for federal state student incentive grant funds shall be for students originally funded from state student incentive grant funds who are eligible for renewal.

69565. A scholarship award winner may use his scholarship at any one of the institutions of collegiate grade located in California if such institution offers a two-year junior college or four-year college course and is accredited or accepted as a recognized candidate for accreditation by the Western Association of Schools and Colleges. Nothing contained in this chapter shall be interpreted to require any such institution to admit into such institution, or once admitted to continue in such institution, an award winner.

69566. Each competitive scholarship is for the period of one academic year and the award shall be for three hundred dollars (\$300) to not to exceed two thousand seven hundred dollars (\$2,700) in one hundred dollar (\$100) amounts at the college the award winner will attend, as required by applicant's financial need, as determined by the commission, but in no event in excess of an amount equal to the tuition or necessary fees, or both tuition and fees, for the academic year, including summer terms, sessions, or quarters of the institution at which the scholarship is used. No competitive scholarship awarded to an applicant under this section for the period of one academic year shall exceed the total amount of two thousand seven hundred dollars (\$2,700); except that the commission may, for students who accelerate college attendance, increase the amount of award for one academic year proportional to the period of additional attendance resulting from attendance at a summer term, session, or quarter. In the aggregate, the total amount a student would receive in a four-year period may not be increased as a result of accelerating his progress to a degree by attending summer terms, sessions, or quarters. The commission may provide by appropriate rules and regulations for such reports, accounting, and statements from the award winner and college or university of attendance pertaining to the use or application of the award as it may deem proper. A competitive scholarship may be renewed annually without an additional competitive examination until the award winner has received four annual awards or until he has been graduated from such an institution in an undergraduate course, whichever is the earlier, provided that at or prior to such renewal the commission shall reassess the financial needs of such award winner and establish the amount of the award within the limits prescribed by this section. The scholarship shall remain in effect only during the period that the award winner achieves satisfactory academic progress and is regularly enrolled as a full-time student in an institution of collegiate grade, as described in Section 69565.

69567. Notwithstanding the provisions of Section 41007 the award may be granted and renewed during the first four years of full-time college attendance following first admission to college, as defined by the commission.

69568. In any instance where the commission shall deem necessary, a competitive scholarship may be granted for a single semester or quarter or for two quarters of an academic year, and the award payment therefor shall be prorated accordingly. In any event

a scholarship is vacated by virtue of the award winner withdrawing from college, the commission may award the scholarship to another fully qualified student who has met all the requirements for a scholarship.

In any instance when a student who has been awarded a state scholarship attends a college at which the normal course of study, as announced by the college, for the baccalaureate degree is completed in three years rather than four years, the commission may increase the amount of the annual award authorized in Section 69566 by up to one-third. In no event shall the scholarship of a student enrolled in a baccalaureate degree program of three years' duration exceed in the aggregate the total amount he would have received if enrolled in a four-year baccalaureate degree program.

69569. An individual who is awarded a competitive scholarship and enrolls in a public community college may elect to have the scholarship held in trust for him for a period not to exceed two academic years, except that the commission may extend the period in which his scholarship may be held in trust up to a period of three academic years if, in the commission's judgment, the student's rate of academic progress has been as rapid as could be expected for the personal and financial conditions which the student has encountered. The commission shall, in such case, hold the scholarship in trust, to be granted to the award winner upon receipt of his request therefor within such period, provided that at the time of making the request he meets all of the requirements of this chapter. Upon receipt of the request the commission shall assess or reassess the financial needs of the award winner. The commission may prescribe the forms and procedures to be utilized for the purposes of this section. The commission may award to another eligible individual any scholarship being so held in trust, subject to the provisions of this section and any other conditions and restrictions that may be imposed by the commission, to the end that all authorized scholarships are being continually utilized. Following the first year for which any such scholarship is awarded, awards thereof shall be included in the number of the continuing scholarships available for any year and not the authorized new scholarships for the year.

69570. The commission shall require all applicants to take a test administered under secure conditions on a national or statewide test date and acceptable for admission purposes at a college or university eligible to participate in the state scholarship program. In deciding upon the use of one or more tests which meet the conditions specified in this chapter, the commission shall appoint a panel of five psychologists or psychometrists who shall report to the commission on the appropriateness of each of the tests for scholarship purposes. If more than one test meets the conditions specified in this chapter, the panel shall also investigate and report to the commission its findings concerning the comparability of the tests. On the basis of the results of such examinations, plus other academic criteria which the

commission may require, the commission shall determine the award winners for the next ensuing academic year. Such commission also shall determine which of the current award winners are making satisfactory academic progress and are entitled to an annual renewal of their scholarships.

69571. The commission from time to time shall adopt such rules and regulations as it may determine, not in conflict with this chapter, as may be necessary or appropriate for effectuating the provisions of this chapter.

69572. If any section, subsection, sentence, clause or phrase of this chapter is for any reason held to be unconstitutional, such decision shall not affect the validity of the remaining portions of this chapter. The Legislature hereby declares that it would have passed this chapter, and each section, subsection, sentence, clause or phrase thereof, irrespective of the fact that any one or more of the sections, subsections, sentences, clauses or phrases be declared unconstitutional.

69573. This chapter shall be effective until June 1, 1982, and on such date is repealed.

#### Article 5. College Opportunity Grant Program

69580. (a) The Legislature finds and declares that because of financial and home and community environmental conditions numerous students with substantial potential for success in college and for future leadership in the community are unable to pursue a higher education and attain their full educational potential. It further recognizes that to effectively combat the forces which prevent these students from pursuing a higher education different programs and methods must be tried. There is hereby created a state financial assistance program to be known as the "College Opportunity Grant Program." It is the purpose of this program to provide financial assistance for undergraduate study to disadvantaged students who are not necessarily able to avail themselves of present state competitive scholarships by the use of conventional selection methods, pursuant to Chapter 4 (commencing with Section 69560) of this part.

(b) The Legislature further recognizes that the role of the community colleges, as the least expensive level of California higher education, is a crucial role in increasing the higher education opportunities for disadvantaged students.

69581. The College Opportunity Grant Program shall be a program administered by the commission, which shall adopt rules and regulations necessary or appropriate to effectuate the provisions of this chapter and may use experimental methods and subjective judgments as well as conventional selection methods.

69582. There shall be 3,100 new grants available for the 1975-1976 fiscal year and 4,550 new grants available for the 1976-1977 fiscal year, except that new grants in excess of 3,100 shall not be awarded

unless there are federal student financial aid funds available to the State Scholarship and Loan Commission in an amount necessary to fund such awards. First priority for federal state student incentive grant funds shall be for students originally funded from state student incentive grant funds who are eligible for renewal.

69583. The recipients of such grants shall be eligible for renewal of their awards until they have completed an A.B. degree or its equivalent in conformance with the terms prescribed by the commission, which terms shall not be in conflict with this chapter. Such grants may be awarded to eligible students who attend public community colleges for vocational purposes terminating with a two-year course of study. Such grants may be utilized at summer quarters or terms; provided, that the aggregate amount of aid received over a four-year period may not be increased as a result of attending a summer term.

69584. To be eligible for a grant under this chapter, a student shall meet all of the following:

(a) Be a disadvantaged student under criteria to be established by the commission, which shall take into consideration those financial, educational, cultural, language, home, community, environmental, and other conditions which tend to make difficult the gaining access to and persisting in postsecondary programs.

(b) Be in need of financial assistance to attend college.

(c) Have demonstrated substantial potential for successfully participating at an institution of higher education and for future leadership in the community.

(d) Be a resident of the State of California, as defined in Article 5 (commencing with Section 68060) of Chapter 1 of Part 41.

(e) Be a citizen of the United States or have been admitted to permanent residence.

(f) Be admitted to and enrolled in a California public community college either accredited by or accepted as a recognized candidate for accreditation by the Western Association of Schools and Colleges, or be admitted to and enroll in a California public or private college accredited by the Western Association of Schools and Colleges as a full-time undergraduate student.

(g) Maintain satisfactory progress toward a degree and eligibility as defined by the commission.

69585. Grants awarded under this chapter shall be for living expenses, transportation, supplies and books, according to the student's financial need, and shall not be in excess of one thousand one hundred dollars (\$1,100) per academic year. The commission may also award such grants and an additional amount to pay tuition and fees to attend college at a public or private four-year college or university. Any eligible student who has been awarded an initial grant on the basis of need and attendance at a public community college may transfer to another eligible college without being eliminated from the program. In such cases, no adjustments to the initial grant shall be made for tuition and fees.

69586. The commission shall submit to the Legislature at each regular session, an evaluation of the operation of the College Opportunity Grant Program.

69587. The commission is hereby authorized to accept and receive any federal funds made available under any act of Congress for purposes of this chapter, and to participate in any federal program under such act of Congress in order to secure such funds. The commission shall assist any person eligible for a grant under this chapter to secure or obtain any scholarships or loans which such person might be eligible to receive, in order to minimize the expense of this program to the State of California.

69588. This chapter shall be effective until June 1, 1981, and on such date is repealed.

#### Article 6. Occupational Education and Training Grant Program

69600. The Legislature hereby finds that there are students who have the aptitude and desire to train for specific occupations, vocations or technical careers, but do not have financial resources to enter public or private training programs and that a greater supply of competent, technically trained, skilled manpower in critical occupations is a public purpose of great importance; and, further, that the establishment of a program pursuant to this chapter is a desirable, necessary, and economical method of aiding such students and strengthening the economic base of the state.

69601. There is hereby created a state competitive occupational education and training grant program, with grants to be provided by the state and administered by the commission.

Occupational education and training grants shall be awarded without regard to race, creed, national origin or ancestry, or sex.

69602. To be eligible for an occupational education and training grant under this chapter, an applicant shall meet all of the following requirements:

(a) Be a resident of the State of California, as defined in Article 5 (commencing with Section 68060) of Chapter 1 of Part 41.

(b) Be a citizen of the United States or have been admitted to permanent residence.

(c) Demonstrate occupational achievement or aptitude and financial need. In determining occupational achievement or aptitude, the commission may use acceptable testing procedures to the extent these are available. In determining financial need of an applicant, the commission shall expect each student to make a self-help contribution toward occupational or technical training costs and the financial status of his parents shall be taken into consideration.

(d) Use his grant for occupational or technical training in California in institutions either accredited or accepted as a recognized candidate for accreditation by the Western Association of Schools and Colleges or by a national accrediting association

recognized by the United States Office of Education. As used in this section, "occupational or technical training" shall mean that phase of education coming after the completion of a secondary school program and leading toward recognized occupational goals approved by the commission, which shall include three-year hospital-based programs to train licensed registered nurses approved by the Board of Registered Nursing.

(e) Have applied for a state occupational education and training grant and have met the criteria established by the commission for eligibility for such grant.

(f) Have complied with all of the rules and regulations adopted by the commission for the award, regulation, and administration of state occupational education and training grants adopted pursuant to this chapter.

69603. The commission shall adopt rules and regulations necessary or appropriate to effectuate the provisions of this chapter.

The commission may use criteria it deems appropriate in selecting students with occupational talents to receive grants.

The commission shall seek the aid and advice of a committee of nine members appointed by the commission and composed of individuals who shall be representatives of both proprietary and public institutions and who shall be knowledgeable in the area of occupational and technical education and training. At least a majority of the members of the committee shall be actively working or otherwise involved in the area of occupational and technical education and training.

69604. There shall be 700 new grants for the 1975-1976 fiscal year and 975 new grants for the 1976-1977 fiscal year, except that new grants in excess of 700 shall not be awarded unless there are federal student financial aid funds available to the State Scholarship and Loan Commission in an amount necessary to fund such awards. First priority for federal state student incentive grant funds shall be for students originally funded from state student incentive grant funds who are eligible for renewal.

69605. The recipients of such grants shall be eligible for renewal of their grants until they have completed their occupational or technical training in conformance with terms prescribed by the commission. In no case shall such grants exceed two calendar years, except that recipients enrolled in three-year, hospital-based programs to train licensed registered nurses may receive grants for a maximum of three calendar years; nor shall such grants be awarded for a course of training of less than six weeks duration.

69606. Grants awarded under this chapter shall be for institutional fees, charges, and other costs in the nature of tuition, not to exceed two thousand dollars (\$2,000) for the calendar year, plus up to five hundred dollars (\$500) for training-related costs, such as special clothing, local transportation, required tools, equipment, supplies and books, according to the student's financial need. In determining the amount of grants and training-related costs, the

commission shall take into account other state and federal programs available to the applicant.

69607. Grants shall be awarded in areas of manpower need as determined by the commission after consultation with appropriate state and federal agencies.

69608. Prior to awarding grants under this chapter, the commission shall adopt procedures for evaluation of the occupational education and training grant program. In determining these procedures, the commission shall consider the advisability of limiting either the number of occupational programs or the number of geographic areas or both to facilitate evaluation.

69609. Nothing in this chapter shall be interpreted to require any institution to admit an award winner into such institution, or to continue him once he is admitted.

69610. The commission shall submit to the Legislature on the fifth legislative day of each calendar year an evaluation of the operation of the occupational education and training grant program.

69611. This chapter shall be effective until June 1, 1980, and on such date is repealed.

#### Article 7. California State University and Colleges Educational Opportunity Program

69620. There is a state student assistance program which shall be known as the State University and Colleges Educational Opportunity Program. It shall be the purpose of the program to provide educational assistance and grants for undergraduate study at the California State University and Colleges to students who are economically disadvantaged or educationally and economically disadvantaged, but who display potential for success in accredited curricula offered by the California State University and Colleges.

For the purposes of this chapter:

(a) "Trustees" means the Trustees of the California State University and Colleges.

(b) "Educational agency" means an agency, other than a federal agency, which is supported in whole or in part by funds appropriated for educational purposes.

(c) "State agency" means every state office, officer, department, division, bureau, board, and commission.

(d) The residence of a recipient shall be determined in accordance with the rules for determining residence prescribed by Chapter 1 (commencing with Section 68000) of Part 41 and Article 1 (commencing with Section 89700) of Chapter 6 of Part 52 of this code.

69621. California State University and Colleges Educational Opportunity Program grants may be awarded to persons selected for enrollment in programs authorized by the trustees according to the procedures established by the trustees, provided that they are residents of this state, are high school graduates or have, pursuant to

such procedures, equivalent qualifications, and have been nominated by their high school, the Veterans Administration, a state agency or educational agency designated by the trustees, or a state university or college president. The trustees shall determine eligibility for grants awarded pursuant to this chapter. Such grants may be granted and renewed according to standards set by the trustees until the student has received a baccalaureate degree or has completed four academic years, whichever occurs first. In special circumstances, such as illness or military service, or family hardship, the trustees may renew the grant beyond the fourth year of study, provided the student has not received a baccalaureate degree. When the recipient is an enrollee in a special educational opportunity program approved by the trustees, for the purposes of this chapter, the state university or college sponsoring the program shall receive from the trustees reimbursement of up to sixty dollars (\$60) per month per enrollee up to 12 months support.

69622. Grants shall be provided for students who display potential for success in accredited curricula offered by the California State University and Colleges, but lack the necessary funds to pay for tuition, books, and room and board, provided such students meet the standards of the state university or college which they are attending or the requirements for the special admissions program established by the trustees.

69623. Grants awarded pursuant to this chapter shall be in an amount sufficient to pay the costs of a student, during his course of study, for tuition, books, and room and board in accordance with his needs as shall be determined by the trustees. No student shall be awarded a grant in excess of seven hundred dollars (\$700) per academic year.

69624. Each high school in this state may nominate to the trustees students it deems deserving of the grants made available under this chapter. The trustees shall compile a list of students so nominated from which it may select students for grants in accordance with standards set by the trustees pursuant to this chapter. The Veterans Administration, state agencies and educational agencies and California State University and Colleges presidents may nominate persons whom they deem eligible for such grants.

69625. Records of the academic progress of each student attending a campus of the California State University and Colleges under a grant shall be kept by each campus of the California State University and Colleges having a program and forwarded to the trustees in order that the program created by this chapter may be evaluated.

69626. Each campus of the California State University and Colleges may submit plans for a special educational opportunity program for approval by the trustees. Each program qualifying shall be authorized a program director and may be authorized such special qualified counselors and advisers and such related operating and equipment support as is appropriate.

69627. This chapter shall be known as the California State University and Colleges Educational Opportunity Act.

Article 8. Community College Extended Opportunity Programs and Services

69640. It is the intent of the Legislature that the California community colleges recognize the need and accept the responsibility for extending the opportunities for community college education to all who may profit therefrom regardless of economic, social and educational status. It is the intent and purpose of the Legislature to encourage local community colleges to establish and develop programs directed to identifying those students affected by language, social, and economic handicaps to establish and develop services, techniques, and activities directed to the recruitment of such students to and their retention in community colleges and to the stimulation of their interest in intellectual, educational and vocational attainment.

The Legislature finds that the establishment and development of extended opportunity programs and services are essential to the conservation and development of the cultural, social, economic, intellectual and vocational resources of the state.

69641. An "extended opportunity program or service" is an undertaking by a community college, to be taught by instructors approved by the governing board, in the form and in accordance with procedures prescribed by this article, which is over, above, and in addition to, the regular educational programs of the college, having as its purpose the provision of positive encouragement directed to the enrollment of students handicapped by language, social, and economic disadvantages, and to the facilitation of their successful participation in the educational pursuits of the college. Participation in an extended opportunity program or service shall not preclude participation in any other program which may be offered in the college.

69642. Definitions:

(a) "District" means any community college district in California that maintains one or more community colleges.

(b) "College" means a community college established by the governing board of a community college district authorized to provide community college instruction.

(c) "Extended opportunity program" means a special program or method of instruction designed to facilitate the language, educational or social development of a student and increase his potential for success in the college.

(d) "Extended opportunity services" means a program of assistance designed to aid students with socioeconomic handicaps to permit them to enroll in and participate in the educational activities of the college.

(Amended by Stats 1976, Ch. 1011.)

## [ORIGINAL SECTION]

**69642** Definitions.

(a) "Board" means the Board of Governors of the California Community Colleges as created by Articles 1 and 3 and Sections 71090 to 71028 of Chapter 1 of Part 44

(b) "District" means any community college district in California that maintains one or more community colleges.

(c) "College" means a community college established by the governing board of a community college district authorized to provide community college instruction.

(d) "Extended opportunity program" means a special program or method of instruction designed to facilitate the language, educational or social development of a student and increase his potential for success in the college.

(e) "Extended opportunity services" means a program of assistance designed to aid students with socioeconomic handicaps to permit them to enroll in and participate in the educational activities of the college

**69643.** There is in the state government the Advisory Committee on Extended Opportunity Programs and Services. It shall be comprised of nine members appointed by the board, two members appointed by the Speaker of the Assembly and two members appointed by the Senate Committee on Rules. The nine members appointed by the board shall serve for four-year terms, except the first term of each shall be determined by lot at the first meeting of the board. Three shall serve for four years, three shall serve for three years, and three shall serve for two years. The two members appointed by the Speaker of the Assembly and the two members appointed by the Senate Committee on Rules shall serve at the pleasure of the respective appointing powers.

**69644.** The chairman and vice chairman of the committee shall be designated by the board from among the members appointed by the board.

**69645.** The members of the committee shall serve without compensation, but shall be reimbursed for necessary traveling and other expenses incurred in performing their duties and responsibilities.

**69646.** The committee shall serve as an advisory body to the board, shall formulate and present such policy recommendations as it determines will effect statewide establishment and conduct of community college programs of extended opportunities and services, shall review annually and report to the board the progress made under this article with the California community colleges toward the extension of educational opportunities for all students who may profit from instruction, and make other recommendations to implement the provisions of this article. The chancellor of the community colleges shall be executive secretary of the committee, shall report to the board on the actions of the committee, and at the recommendation of the committee and its direction shall make recommendations to the board pursuant to this article.

**69647.** All meetings of the committee shall be open and public, and all persons shall be permitted to attend any meeting of the committee.

**69648.** The board shall adopt rules and regulations necessary to

implement the provisions of this article including rules and regulations which:

(a) Prescribe the procedure by which a district shall identify a student eligible for extended opportunity programs or services.

(b) Establish minimum standards for the establishment and conduct of extended opportunity programs and services.

(c) Require the submission of such reports by districts as will permit the evaluation of the program and services offered.

69649. The governing board of a community college district may, with the approval of the board, establish an extended opportunity program. Such program may include, but need not be limited to:

(a) The provision of tutorial services.

(b) The establishment of remedial and developmental courses.

(c) The establishment of a program of multicultural studies.

(d) The provision of counseling services.

(e) The provision of recruitment services.

69650. The governing board of a community college district may, with the approval of the board, establish extended opportunity services. Such services may include, but need not be limited to:

(a) Loans or grants to meet living costs or a portion thereof.

(b) Loans or grants to meet the cost of student fees.

(c) Loans or grants to meet cost of transportation between home and college.

(d) The provision of scholarships.

(e) Work-experience programs.

(f) Job placement programs.

69651. The governing board of a community college district may use any funds under its control not specified to be used for another particular purpose for the programs and services authorized by Sections 69649 and 69650, the administration of such programs and services, and may use such funds to meet the matching requirements to receive federal funds, or funds granted by nonprofit foundations, designated for the same purposes.

69652. The governing board of a community college district may apply to the board for an allowance to meet all or a portion of the cost of establishing and operating extended opportunity programs or services authorized by this article. The application shall contain a detailed plan or plans for use of the allowance. The plan or plans shall be submitted in accordance with rules and regulations adopted by the board. The board may also adopt rules and regulations relating to the form and content of applications and procedures for review, evaluation, and approval thereof.

69653. Applications shall be subject to the approval of the board. Upon approval by the board, it shall certify an apportionment or apportionments to the Controller. The Controller shall draw warrants on the State Treasury in the amounts certified in favor of the county treasurer of the county which has jurisdiction over the applicant district in accordance with a schedule of payments established by the board and approved by the Department of

Finance. The county treasurer shall immediately credit the general fund of the applicant school district exactly as apportioned by the board.

69654. The board shall review the need for state funds to carry out the purposes of this chapter and shall include an estimate of such need in its budget for each year.

#### Article 9. Fellowships for Graduate Study

69670. There is hereby created a state competitive graduate fellowship program with fellowships to be provided by the state and used by award winners for graduate study in colleges and universities located in California and accredited by the Western Association of Schools and Colleges, or in a professional school with a program leading to a graduate level professional law degree which is located in California and which is accredited pursuant to Chapter 4 (commencing with Section 6000) of Division 3 of the Business and Professions Code. As used in this section "graduate study" shall mean that phase of education coming after the completion of the baccalaureate degree and leading toward a recognized graduate or professional degree. Awards shall be granted to students with academic ability and financial need. The financial status of the applicant's parents shall be taken into consideration in determining the applicant's financial need. In determining the financial need of an applicant, the commission shall also expect each student to make a self-help contribution toward college costs through loans or employment or a combination of loans and employment.

69671. The general purpose of the fellowship program is to afford opportunity for graduate study to unusually able persons. The awards shall be tenable for graduate work in the sciences, social sciences, humanities, the arts, mathematics, engineering, business, education, and any other graduate or professional field determined by the commission to be appropriate.

69672. The Legislature finds and declares that because of financial, home, and community environmental conditions, numerous students with unusual ability and substantial potential for success in graduate school are unable to pursue a graduate education and attain their full educational potential. It is further recognized that to combat effectively the forces which prevent these students from pursuing a graduate education, financial assistance is required. To further this purpose, the state graduate fellowship program shall provide financial assistance to unusually able persons, and the commission, in selecting unusually able persons, shall give consideration to students who are disadvantaged as defined by the commission. The Graduate Fellowship Advisory Committee created pursuant to Section 69673 shall present to the commission a comprehensive plan of selection of graduate fellowship winners which shall give consideration to unusual ability and achievement and shall recognize special problems of selecting students with

unusual ability and achievement with substantial potential for success in graduate school who may come from a disadvantaged background.

69673. The program for granting fellowships for graduate study shall be conducted under the general supervision of the commission, with the aid and advice of a committee of nine members appointed by the commission and composed of college and university teachers and graduate deans from the colleges and universities in California which are accredited or are candidates for accreditation by the Western Association of Schools and Colleges.

The commission shall prescribe the forms for all applications and certificates required in connection with the fellowship program. The commission shall, from time to time, adopt such rules and regulations as it may determine not in conflict with this chapter as may be necessary, or appropriate, for effecting the provisions of this chapter.

69674. Awards shall be for one academic year of graduate study, and may be renewed for up to three additional years if necessary for the student's degree objective if he is making normal progress toward a degree as determined by the commission. Awards of graduate fellowships shall be made upon a competitive basis. The commission may use experimental methods and subjective judgments, as well as conventional methods, in making its determination as to who qualifies as award recipients. The commission may take into account such factors as the following:

(a) Grades at the undergraduate level in the subject field in which the student wishes to do graduate work.

(b) Grades in the total undergraduate program.

(c) Aptitude for graduate work in the subject field, insofar as it is measurable.

(d) General aptitude for graduate study, insofar as it is measurable.

(e) Critical manpower needs in fields eligible for fellowships for graduate study.

69675. The graduate study fellowships shall be awarded:

(a) Without regard to race, religion, creed or sex.

(b) For not more than one academic year, plus one summer term if necessary, except as provided in Section 42204.

69676. No person shall be granted a fellowship unless:

(a) He is a resident of California.

(b) He has received, or will have received, a baccalaureate degree prior to the time of enrollment in a graduate school or has been accepted for admission by a graduate or professional school.

69677. Candidates for the awards shall apply for the awards to the commission and comply with all of the rules and regulations adopted by the commission for the award, regulation and administration of the state graduate fellowship program pursuant to this chapter.

69678. There shall be graduate fellowships, including renewals, for each academic year equal in number to 2 percent of the total number of baccalaureate degrees awarded during the next

preceding academic year by colleges and universities located in California and accredited by the Western Association of Schools and Colleges.

69679. Awards shall be made for full-time graduate study, as defined by the institution which the student attends. Income received through teaching assistantships, research assistantships, or other fellowships shall be considered at full value in determining the financial need of an applicant.

69680. The candidates for the award must apply for the awards to the commission and comply with all the rules and regulations adopted by the commission for the award regulation and the administration of the state graduate fellowship program pursuant to this chapter.

69681. The award may be in a lump sum or in periodic payments as determined by the commission.

69682. The Legislature hereby declares that it is to the benefit of the state to assist in the development of the talents of able students in graduate education and that it regards the graduate education of its qualified citizens to be a public purpose of great importance; and further declares the establishment of a graduate fellowship program to be a desirable and economical method of furthering this public purpose.

#### Article 10. Tuition Grant Program

69700. The Legislature hereby finds and declares that there is an apparent need to narrow the gap in student charges between public universities and colleges and independent institutions of higher education in California; to provide students from lower- and middle-income families with true economic and academic freedom of choice in selecting a college; to give independent colleges a reasonable opportunity to compete with public institutions in recruiting all qualified students; and to help assure that independent colleges will continue to contribute to the overall quality and diversity of higher education in California.

69701. (a) There is hereby created a pilot program of tuition grants to be administered by the commission for California resident undergraduate students enrolled in independent institutions of collegiate grade accredited by the Western Association of Schools and Colleges. To be eligible for a tuition grant, a student must meet the academic eligibility requirements for a scholarship under the state competitive scholarship program as determined in accordance with this chapter and the financial eligibility requirements established in subdivision (d).

(b) Tuition grants shall be available to students who are residents of the State of California as defined in subdivision (a) of Section 69563 and who are entering independent colleges as undergraduate students. Such grants shall be renewable on an annual basis, shall not exceed four years or the completion of the baccalaureate degree,

whichever first occurs, and shall be administered insofar as not inconsistent with the provisions of Chapter 4 (commencing with Section 69560) of this part.

(c) A tuition grant shall be in the amount of nine hundred dollars (\$900) per academic year or one-third of the cost of tuition per academic year, whichever is less.

(d) No student shall be eligible for financial aid under this section if such student's annual financial resources as determined by the commission exceed by more than one thousand five hundred dollars (\$1,500) the resources of a student eligible for a minimum state scholarship award at the institution attended. Nor shall any student receive aid hereunder during any year in which such student is eligible for and accepts financial aid from the state competitive scholarship program or the college opportunity grant program.

(e) There shall be available up to 1,250 new grants in each of the 1975-76, 1976-77, and 1977-78 fiscal years, and the recipients of such grants shall be eligible for renewal of their awards on an annual basis, subject to such limitations as may be established by or pursuant to subdivisions (a), (b), and (d) and such recipients' continuance of satisfactory progress toward a degree, as such progress may be defined by the commission.

(f) The commission shall adopt such rules and regulations as may be necessary to carry out the provisions of this section.

69702. The commission shall review the effect of the program in expanding the educational freedom of choice of California students and shall report its findings and recommendations to the Legislature prior to January 1 of the years 1976, 1977, and 1978.

## Article 11. California Community Service Fellowship Program

69720. In enacting the California Community Service Fellowship Program, the Legislature makes the following findings and determinations relative to the factors contributing to the need for such a program:

(a) Society provides substantial incentives which urge young individuals to enter a formal institution of higher education.

(b) Active involvement in the community between an individual's experience in high school and entrance into higher education and during periods which the young person interrupts his college or university experience should be viewed as equally legitimate learning options by both the young person and the society.

(c) Many college and university students drop out or attend reluctantly because they see the traditional college experience as not fulfilling and not appropriate to their individual learning needs. These individuals suffer a substantial personal loss and impose unnecessary costs upon the state.

(d) Student learning is viewed by many as an active process involving the factor of individual motivation. Traditional higher education continues to emphasize the passive involvement of students.

(e) Veterans who continue to attend college and universities under the Servicemen's Readjustment Act have proven to possess an increased commitment to learning and greater motivation than those students who entered higher education directly upon graduation from high school.

(f) The young person's academic program and career choices are very often based upon inadequate information and minimal nonschool experiences.

69721. For purposes of this chapter, the term "community service" includes, but is not limited to, work performed for a community service agency in such fields as environmental quality, health care, education, local, state, and federally funded public assistance programs, public safety, crime prevention and control, transportation, recreation, housing and neighborhood improvement, rural development, conservation, child care, outdoor beautification, and other fields of human betterment and community improvement.

69722. Any individual shall be eligible to participate in the program if employed in community service work for an average of 20 hours or more per week, and is paid not more than the federal minimum wage.

69723. An individual meeting the eligibility requirements prescribed by Section 69722 and participating in the program shall accrue fellowship benefits at the rate of one hundred dollars (\$100) per month while performing community service work, and shall receive benefits only if such service is for a period of not less than six months. Participants shall not accrue additional benefits after participating in the program for 24 months. Service of less than one month shall be credited proportionately.

69724. A fellowship, entitling the participant to receive the accrued benefits, shall be awarded to the participant at the time he or she enrolls at a public or private postsecondary educational institution. The accrued benefits shall be paid to the participant at monthly intervals during the academic year and in amounts selected by the participant, but not to exceed two hundred dollars (\$200) per month, until the accrued benefits are exhausted.

69725. A fellowship may be awarded at any time within eight years following the rendition of qualifying community service.

69726. Fellowships awarded pursuant to this chapter shall be funded from moneys appropriated for such purpose by the Legislature.

#### Article 12. Administration of Federal Scholarship Program

69740. Whenever by the provisions of any act of Congress a program of scholarships for undergraduate students is established which permits administration of such program within a state by a state agency, the commission, as established by Section 69510 shall administer such act within the state if the Governor and the

commission, by a majority vote of its entire membership, determine that the participation by the state in the Federal Scholarship Program under such act would not interfere with or jeopardize the continuation of the scholarship program established under Chapter 4 (commencing with Section 69580) of this part.

69741. The commission shall constitute the State Commission on Federal Scholarships and is hereby empowered to formulate a plan for development and administration of the Federal Scholarship Program within the state.

69742. Subject to the provisions of this chapter, the commission is hereby vested with all necessary power and authority to cooperate with the government of the United States, or any agency or agencies thereof, in the administration of the act of Congress establishing a scholarship program and the rules and regulations adopted thereunder.

Before adopting a state plan the State Commission on Federal Scholarships shall hold public hearings as provided in the California Administrative Procedure Act.

69743. The commission is authorized to enter into a contract with the United States Commissioner of Education for purposes of conducting programs to encourage full utilization of educational talent authorized by Section 408(a) of Title IV of Public Law 89-329.

### Article 13. State Guaranteed Loan Program

69760. There is hereby established a State Guaranteed Loan Program for college students, to be consistent with Title IV of the act of Congress entitled the "Higher Education Act of 1965" (P.L. 89-329), and extensions thereof, or any similar act of Congress and the rules and regulations adopted thereunder.

69761. The purpose of the guaranteed loan program shall be as follows:

(a) To provide a source of credit to students who are residents of California to assist them in meeting educational costs at a community college, college, or university of their choice which is accredited by an accreditation association recognized by the United States Commissioner of Education for this purpose.

(b) To accept, receive and administer the funds provided under Title IV of the "Higher Education Act of 1965," and extensions thereof, or any similar act of Congress.

69762. State guaranteed loans made pursuant to this chapter shall be made without regard to race, religion, creed or sex.

69763. The commission shall administer the guaranteed loan program established pursuant to this chapter. The commission is hereby vested with authority to enter into any contract with the United States Commissioner of Education or any other federal officer or agency under Title IV of the Higher Education Act of 1965, any extension thereof, or any similar act of Congress, and is hereby vested with all other necessary power and authority to cooperate

with the government of the United States, or any agency or agencies thereof, in administration of the act of Congress and the rules and regulations adopted thereunder. The commission shall adopt any rules and regulations it deems necessary for the proper administration of this chapter.

69764. In the event that the amount of loans applied for under this chapter exceeds the amount of the loans that may be guaranteed pursuant to this chapter, the commission may establish a system of priorities for the approval of loans.

69765. (a) The commission shall guarantee any student loan made pursuant to this chapter at 100 percent of the amount of the loan.

(b) The commission shall establish the ratio of reserve funds to loans outstanding.

69766. There is hereby created in the State Treasury the State Guaranteed Loan Reserve Fund. All money received from federal, state or local governments, or from other private or public sources, for the purposes of this chapter shall be deposited in the fund. The money deposited in the fund is hereby appropriated, without regard to fiscal years, for purposes of this chapter.

The total amount of all outstanding debts, obligations, and liabilities which may be incurred or created under this chapter, including any obligation to repay to the United States any funds provided under Title IV of the "Higher Education Act of 1965," and extensions thereof, or any similar act of Congress, is limited to the amount contained in the State Guaranteed Loan Reserve Fund, and the state shall not be liable beyond the amount contained in such fund for such debts, obligations, and liabilities.

69767. The State Treasurer shall invest, pursuant to statute, any surplus money in the State Guaranteed Loan Reserve Fund. The interest or other accretions as a result of the investment of such money may accrue to the fund or be expended for administration pursuant to federal regulations.

69768. The funds in the State Guaranteed Loan Reserve Fund shall be paid out by the State Treasurer on warrants drawn by the Controller and requisitioned by the commission in carrying out the purposes of this chapter and the federal act.

69769. The commission shall establish a Loan Study Council. The Loan Study Council shall be comprised of 10 members, appointed as follows:

(a) Two of the members shall be appointed by the commission from among the members of the commission.

(b) Two of the members shall be appointed by the commission from persons representative of the private lending institutions of the state.

(c) Two of the members shall be appointed by the Governor.

(d) Two of the members shall be appointed by the Speaker of the Assembly.

(e) Two of the members shall be appointed by the Senate

Committee on Rules.

The appointments authorized by this section shall be made on or before June 30, 1966.

69770. The Loan Study Council shall study the operation of the State Guaranteed Loan Program under this chapter and shall periodically report to the Legislature with recommendations as to any changes or modifications it finds are needed in the operation of the program.

69771. This chapter shall be applicable to the extent that its provisions do not conflict with Title IV of the Higher Education Act of 1965, or any extensions thereof, or any similar act of Congress, and the rules and regulations adopted thereunder.

#### Article 14. Contracts for Study of Medicine

69790. The Legislature hereby declares that it regards the furtherance of a greater supply of competent physicians and surgeons to be a public purpose of great importance and further declares the establishment of the program pursuant to this chapter to be a desirable, necessary, and economical method of increasing the number of physicians and surgeons to provide needed medical services to the people of California. The Legislature further declares and finds that some of the independent institutions of higher education in the State of California currently offering a program providing the necessary educational requirements leading toward a doctor of medicine degree have substantial assets in terms of available facilities, equipment and personnel and are capable of increasing enrollment in such programs at a cost substantially below that which it would cost the state to provide such services such as by the establishment of a new medical school in a state college or university and thus maximize the use of state resources for the support or expansion of existing educational programs. The Legislature further declares that it is to the benefit of the state to assist in increasing the number of competent physicians and surgeons graduated by colleges and universities of this state to practice medicine within the state.

69791. As used in this chapter, "study" means that phase of education in an accredited medical school leading toward a recognized doctor of medicine degree. The terms "college" and "university" mean any college or university which conducts a recognized educational program leading to the award of the degree of doctor of medicine.

69792. There is hereby created a state medical contract program for study in the field of medicine leading toward a doctor of medicine degree in colleges and universities located in California and accredited by the Joint Liaison Committee of the American Medical Association and the Association of American Medical Colleges.

69793. The commission shall have the authority to contract on behalf of the state with private colleges and universities maintaining

and operating a recognized school of medicine and accredited by the Joint Liaison Committee of the American Medical Association and the Association of American Medical Colleges, which have an affirmative action program approved by the State Fair Employment Practice Commission for the equitable recruitment of instructors and medical students, for the purpose of inducing such colleges and universities to refrain from reducing enrollment and to increase enrollment in the medical schools located in California.

To further this purpose, the commission is authorized to contract with non-state-supported medical schools to increase their enrollment above the number of total students enrolled for the 1970-71 academic year. The commission is authorized to make annual payments of twelve thousand dollars (\$12,000) for each medical student enrolled up to the total enrollment above the enrollment for the 1970-71 academic year. The annual payment for each additional medical student enrolled shall be decreased by the amount of any federal funds granted per medical student enrolled in any such schools during the academic year. The commission may also enter into similar contracts with medical schools formed on or after January 1, 1971, which have at least provisional accreditation from the Joint Liaison Committee of the American Medical Association and the Association of American Medical Colleges.

#### Article 15. Forfeiture of State Aid to Students

69810. In accepting a scholarship, loan, fellowship, grant-in-aid, or any other financial aid given or guaranteed by the state for assistance, every recipient thereof who is a student at a public or private university, college, or other institution of higher education, shall be deemed to have agreed to observe the rules and regulations promulgated by the governing authority of the university, college, or other institution of higher education, for the government thereof.

Any recipient of such state financial aid who, on the campus of the university, college, or other institution of higher education, willfully and knowingly commits any act likely to disrupt the peaceful conduct of the activities of such campus, and is arrested and convicted of a public offense arising from such act, may be determined to be ineligible for any such state financial aid for a period not to exceed the ensuing two academic years.

Any recipient of such state financial aid who, after a hearing, is found to have willfully and knowingly disrupted the orderly operation of the campus, but has not been arrested and convicted, may be determined to be ineligible for any state financial aid for such period as the hearing board may determine, not to exceed the ensuing two academic years.

Any such recipient who is suspended from an institution of higher education for such acts shall be ineligible for such state financial aid for a period not less than the time of such suspension.

The governing authority of the university, college, or other

institution of higher education shall, for purposes of this section, cause to be reviewed the record of each recipient and shall, as soon as practicable, notify a hearing board established by it of the name of any recipient who committed any such act and was arrested and convicted of any such public offense, or is found to have willfully and knowingly disrupted the orderly operation of the campus, or has been suspended from an institution of higher education for such acts.

69811. Upon receipt of notice, as provided in Section 69810 that any recipient has committed any act likely to disrupt the peaceful conduct of the activities of the campus and was convicted of a public offense in connection therewith, or is found to have willfully and knowingly disrupted the orderly operation of the campus, or has been suspended from an institution of higher education for such acts, the hearing board shall immediately give the recipient written notice of the report. The notice shall inform the recipient of the pendency of the proceedings for the suspension of assistance. It shall inform the recipient that he may present evidence of mitigating circumstances to the hearing board within 14 calendar days of the date of the mailing of the notice, and shall specify the procedures and means by which such evidence is to be presented, including the date at which any hearing to be afforded him is to be held. The hearing board may prescribe any procedures and means for such purposes which it may deem appropriate, provided that any hearing which may be afforded the recipient shall not be held sooner than seven days after the date of the mailing of the notice.

If no response to the hearing board's notice is made within the period specified in this section, the hearing board may suspend further assistance to the recipient and the suspension shall remain in effect not to exceed the ensuing two academic years.

After the conclusion of proceedings provided for in this section, the hearing board shall, by majority vote, determine whether further assistance to the recipient shall be suspended. If the recipient was arrested and convicted of a public offense arising from campus disruption, the suspension may remain in effect for a period not to exceed the ensuing two academic years. If the recipient is found by the hearing board to have willfully and knowingly disrupted the orderly operation of the campus, but has not been arrested and convicted, the hearing board may suspend further assistance to the recipient for such period as the hearing board may determine not to exceed the ensuing two academic years. If the recipient was suspended from an institution of higher education for such acts, the hearing board shall suspend further assistance to the recipient for a period not less than the time of such suspension. The findings of the hearing board shall be in writing.

The hearing board shall notify the appropriate state agencies of any suspension of state financial aid pursuant to this section, and no state financial aid shall be extended to the recipient during such period.

Any notice required to be made by this section shall be sufficient

when it is deposited in the United States registered or certified mail, postage paid, addressed to the last known address of the addressee.

69812. Nothing in this chapter shall be construed to prohibit any public or private university, college, or other institution of higher education from suspending or refusing to grant scholarships, loans, fellowships, grants-in-aid, or any other financial aid given or guaranteed by the state for academic assistance to any individual because of any other misconduct which in its judgment bears adversely on his fitness for such assistance.

69813. For the purposes of this chapter, "state financial aid" means any assistance given or guaranteed by the state which is predicated on attendance at an institution of higher education.

## DIVISION 6. CALIFORNIA MARITIME ACADEMY

### PART 43. CALIFORNIA MARITIME ACADEMY

#### CHAPTER 1. THE ACADEMY

##### Article 1. The School

70000. A state nautical school shall be maintained at the Port of San Francisco to provide instruction on the nautical sciences, marine engineering, and related fields, including all those necessary to provide the highest quality licensed officers for the American Merchant Marine and California maritime industries. Said instruction shall be based upon the foundation of general studies for the purpose of preparing students for said Merchant Marine and industries and licensing therein.

70001. "Port of San Francisco" as used in this part, includes all of San Francisco, San Pablo, and Suisun Bays, and all rivers flowing into the bays or the straits connecting them.

70002. The nautical school may be known as the California State Nautical School, the California Maritime Academy, or by such other name as the board of governors determines. The terms "college" or "university" shall not be used in any such designation.

##### Article 2. Board of Governors

70010. There is within the Department of Education a California Maritime Academy. The California Maritime Academy shall be administered by a board of governors, designated as the California Maritime Academy Board of Governors. The board shall be composed of seven members appointed by the Governor. Two of the appointive members shall be educators from the field of higher education. Three of the appointive members shall be public lay members, one of whom shall be selected by the other members to serve as the chairman of the board. Two of the appointive members shall be representatives of the maritime industry. The board of

governors shall request the Federal Maritime Administration to appoint a representative of the administration to meet with the board. Such a representative shall not have a vote.

70011. Except as provided in this section, the term of office of the members of the board is four years, and they shall hold office until the appointment and qualification of their successors. Vacancies shall be filled by appointment for the unexpired term. The terms of members of the board serving on July 1, 1973, shall be classified by lot so that:

(a) Of the two appointive members who shall be educators from the field of higher education, one term shall expire on January 15, 1974, and the other on January 15, 1977.

(b) Of the three appointive members who shall be public lay members, one term shall expire on January 15, 1975, another term shall expire on January 15, 1976, and the third shall expire on January 15, 1977.

(c) Of the two members who shall be representatives of the maritime industry, one term shall expire on January 15, 1975, and the other on January 15, 1976.

70012. The members of the board of governors shall serve without pay, but each shall be allowed his actual expenses incurred in attending any regular or called meeting of the board of governors, or in performing any service for the board of governors at the direction of the board, or in attending the session of any duly appointed subcommittee of the board or in performing any service for the subcommittee at the direction of the chairman thereof. The expenses shall be paid from any appropriations which are provided for the purposes of the nautical school.

70013. The board may appoint a secretary of the board, determine his duties, and fix his compensation. He shall hold office at the pleasure of the board.

### Article 3. Administration and Degrees

70020. The board of governors shall provide, maintain, manage, and control a state nautical school pursuant to this part.

70021. The board shall:

(a) Appoint, and may remove, a superintendent of the school and all necessary instructors and other employees.

(b) Determine the powers, duties, and compensation of the superintendent, instructors, and employees.

(c) Fix the terms upon which students shall be received and instructed in the school, and suspended, discharged, or graduated therefrom.

(d) Make all regulations necessary for the procurement or purchase of supplies and materials for any vessel while she is cruising and for her management and control.

(e) Provide from time to time for cruises in and from San Francisco Harbor.

70022. The board of governors shall obtain the following services from the Trustees of the California State University and Colleges pursuant to a contract providing for compensation, either in direct payment or by means of the exchange of services or use of facilities, to the trustees for such services:

(a) Legal services.

(b) Legislative representation.

(c) Assistance in curriculum development to the extent requested by the board of governors.

70023. The California Maritime Academy Board of Governors may contract with the Department of Education or other appropriate state agency or agencies to provide for personnel services.

70024. The board may secure in the City and County of San Francisco suitable rooms and accommodations necessary for carrying on the work of the board.

70025. The board shall provide all necessary books, charts, instruments, apparatus, and supplies required in the work of the school and for the proper accommodation, comfort, recreation, and keep of the superintendent, instructors, crew, and pupils.

70026. The board may receive from the federal government or from other sources and use for the accommodation of the school, a vessel or vessels detailed or furnished by the federal government or from other sources with all apparel, charts, books, and instruments of navigation, and a reservation or reservations with all buildings and equipment thereon.

70027. The Governor may make application in writing to the federal government to furnish a suitable vessel with all her apparel, charts, books, and instruments of navigation and a reservation or reservations with all buildings and equipment thereon to be used for the benefit of the school.

70028. The board of governors may with the approval of the Director of Finance accept on behalf of, and in the name of, the state, such gifts, donations, bequests, and devises as are made to the school, by whatever name the school is known, which in the judgment of the board will be of benefit to the state and to the school. The gifts, donations, bequests, and devises may be made subject to such conditions or restrictions as the board of governors deems advisable.

70029. The board may annually expend for the purposes of the school any funds which the Legislature appropriates, and also any funds which are received from the federal government for the purpose of aiding in the maintenance of the school. All such money shall be expended according to law on vouchers, certified by the superintendent or in his absence from the state, by the chairman of the board of governors. The board shall cause to be kept full and detailed accounts of all such expenditures and shall make a complete report thereof, with a list of all the work of the school, annually to the Governor.

70030. The board may appoint as superintendent and as

instructors of the school such officer or officers as are designated for that purpose by the Secretary of the Navy.

70031. The State Personnel Board shall establish and adjust the salaries of the superintendent, members of the teaching staff, officers and employees of the California Maritime Academy in the same manner and following the same procedures as in the establishment and adjustment of state civil service salaries. The State Personnel Board shall establish and adjust the classifications of the superintendent, members of the teaching staff, officers and employees of the California Maritime Academy in the same manner and following the same procedures as in the establishment and adjustment of state civil service classifications.

70032. The superintendent of the school is also the commander of the school. He has, subject to the regulations of the board, the direct control, supervision, and management of the school and of all the property of the school, and has such additional powers and duties as are provided by the regulations of the board.

70033. The board shall, before each regular session of the Legislature, prepare and submit to the Governor a budget or estimate of the sum required for the maintenance and support of the school and its cruises for the ensuing biennium.

70034. The board of governors may confer any appropriate degree, including the degree of bachelor of nautical science, upon the students who successfully complete the requirements therefor established by the board of governors.

70035. The Legislature hereby finds that attendance at the California Maritime Academy is a full-time occupation which does not allow opportunity for student employment. For that reason, it is impossible for students attending the academy to contribute to the cost of their education through employment while attending. This limits the opportunity for students who have no financial ability to contribute to the payment of their cost of education.

For these reasons, the board of governors shall develop a positive policy providing opportunities for financial help for students to attend the academy and to actively recruit students from economically disadvantaged backgrounds. In order to implement this policy, the board may make full use of any and all state and federal funds available and may receive private contributions, including those from the maritime industry for this purpose.

70036. The board of governors shall take all necessary steps, in accordance with state law, to receive the maximum possible amount of federal funds from all available sources.

70037. The Legislature recognizes that the California Maritime Academy has unique facilities, such as a deep-water dock, the ship Golden Bear, several smaller vessels, and equipment which provide potential resources to the California State University and Colleges.

The Trustees of the California State University and Colleges and the board of governors are encouraged to cooperate in programs designed to increase the sharing and lending of facilities and to allow

the exchange of students and instructors when such action is not inconsistent with the primary goals of each institution.

#### Article 4. Revolving Funds

70050. The board may, out of any appropriation made for the support of the school, without at the time furnishing vouchers and itemized statements, withdraw a sum or sums not to exceed thirty thousand dollars (\$30,000) to be paid to the commanding officer of the vessel used by the school to provide for the payment of expenses of cruises. The sum or sums so drawn for any cruise or cruises shall, not later than two months following the termination of the cruise or cruises, be accounted for and substantiated by vouchers and itemized statements submitted to and audited by the State Controller. Any unexpended balance of the sum or sums so withdrawn shall be returned to the appropriation from which originally withdrawn.

70051. The commanding officer, in such manner as the board by regulations provides, shall account for the advances by proper vouchers, filed with the board within 30 days after the termination of the cruise. Any unexpended balance of the advances after the termination of the cruise, shall be returned by the commanding officer to the board for credit to the appropriation from which the sums were originally withdrawn.

70052. The commanding officer shall give a bond in the sum of thirty thousand dollars (\$30,000), with a surety or sureties approved by the board for the proper disbursement of and accounting for the advances.

70053. The board of governors, or any person authorized by the board of governors, may withdraw, without at the time furnishing vouchers and itemized statements, from any appropriation made for the support of the school a sum not to exceed two thousand dollars (\$2,000), as a revolving fund known as the "clothing and small stores fund" which fund is continued in existence. The fund shall be used to purchase clothing, textbooks, and other equipment required of students of the school, not furnished by the school, for the purpose of resale to the students of the school. Receipts from the sale of the clothing, textbooks, and other equipment shall be credited to the fund. The receipts from sales together with the purchase price of materials unsold shall at all times be not less than equivalent in value to the principal amount of the fund.

#### Article 5. Students

70060. Any resident of the state who has the required qualifications may be admitted to the school as a student. Each such student shall pay the tuition fee fixed by the board of governors but such fee shall not be fixed at less than one hundred thirty-five dollars (\$135) a trimester.

The board of governors may waive the required qualifications for up to 4 percent of the students.

70061. The tuition fee required of a pupil under Section 70060 may be reduced by the board of governors, with the approval of the Department of Education and the Department of Finance, in the amount received by the state on account of such student from the federal government or other governmental agency. Money received from such payments shall be transmitted to the State Treasury as credit to the academy's support appropriation current at the date of issuance of the State Controller's receipt therefor as may be designated by the academy prior to its deposit in the State Treasury. Such moneys so credited are hereby appropriated for the support of the academy.

70062. Nonresident students, as defined in Section 68018, may be admitted to the school when vacancies occur, subject to the payment of a tuition fee in such amount as the board of governors may fix but such fee shall not be fixed at less than two hundred twenty-five dollars (\$225) a trimester.

70063. The board of governors may provide for the payment of fees charged students by installments payable at such intervals as the board from time to time determines.

70064. All fees collected shall be reported to the State Controller at the end of each month and at the same time shall be remitted to the State Treasurer for deposit in the General Fund. All fees collected and deposited are appropriated for the support of the school in addition to such other funds as are appropriated therefor by the Legislature.

70065. Under rules and regulations established by the board with approval of the Director of Education, refunds of any fees paid by any student or a part thereof, may be made to a student withdrawing from the school or ceasing to be a pupil. Any student who upon enrollment does not qualify for financial assistance from the federal government or other governmental agency but is subsequently found to qualify for such assistance shall for the period for which he qualifies for financial assistance from the federal government receive a refund in the amount of the difference between the tuition paid by him and the tuition required of students qualified to receive such assistance.

70066. Students at the school are eligible for state competitive scholarships and the board of governors is encouraged to present a proposal to the Legislature to provide funds for an educational opportunity program for which students at the school are eligible.

## DIVISION 7. COMMUNITY COLLEGES

### PART 44. BOARD OF GOVERNORS

#### CHAPTER 1. BOARD OF GOVERNORS

##### Article 1. Composition and Organization

71000. There is in the state government a Board of Governors of the California Community Colleges, consisting of 15 members, who

are appointed by the Governor with the advice and consent of two-thirds of the Senate.

71001. The terms of office of the members of the board shall commence on January 15, 1968, and the members shall enter upon their duties on that date and shall classify their terms of office by lot so that four of the terms of such appointive members shall expire on January 15, 1969, four of the terms of such appointive members shall expire on January 15, 1970, four of the terms of such appointive members shall expire on January 15, 1971, and three of the terms of such appointive members shall expire on January 15, 1972. Thereafter, the terms of office of the members of the board shall be four years.

At the first meeting of the board, and annually thereafter, the members shall select two of their members to serve as chairman, and vice chairman, respectively.

71002. Members of the board shall be selected from outstanding lay citizens of California who have a strong interest in the further development and improvement of the public community colleges.

71003. Any vacancy on the board shall be filled by appointment by the Governor, subject to confirmation by two-thirds of the Senate. The appointee to fill a vacancy shall hold office only for the balance of the unexpired term.

71004. Members of the board shall serve without pay. They shall receive their actual and necessary traveling expenses while on official business. The headquarters of the board and the chief executive officer shall be in Sacramento.

## Article 2. Powers and Duties

71020. The board shall have the power to adopt such rules and regulations, not inconsistent with law, as are necessary for its own government and to enable the board to carry out all powers and responsibilities vested in it by law.

71021. All official acts of the board shall require the affirmative vote of at least eight members. The vote of all members shall be recorded.

71022. All meetings of the board shall be open and public except as otherwise provided.

The board may hold executive sessions closed to the public to consider the employment of any person, or the dismissal or other form of disciplinary action to be taken against any officer or employee under the jurisdiction of the board, except where such person, officer, or employee requests a public hearing. The board

may exclude from any such meeting, whether public or closed to the public, during the examination of a witness, any or all other witnesses in the matter being investigated.

71023. It is the intent of the Legislature that the Board of Governors of the California Community Colleges shall provide leadership and direction in the continuing development of community colleges as an integral and effective element in the structure of public higher education in the state. The work of the board shall at all times be directed to maintaining and continuing, to the maximum degree permissible, local autonomy and control in the administration of the community colleges.

71024. The Board of Governors of the California Community Colleges has the duties, powers, purposes, responsibilities, and jurisdiction heretofore vested in the State Board of Education, Superintendent of Public Instruction, the Department of Education, and the Director of Education with respect to the management, administration, and control of the community colleges.

Whenever in any law other than a provision of the Education Code, enacted prior to January 1, 1977, relating to the management, administration and control of the community colleges reference is made to the State Board of Education, Superintendent of Public Instruction, the Department of Education, or the Director of Education, such reference shall be deemed to mean the Board of Governors of the California Community Colleges.

71025. The Board of Governors of the California Community Colleges shall adopt rules and regulations fixing minimum standards entitling districts to receive state aid for the support of community colleges.

71026. The chancellor's office shall annually investigate each community college to determine whether it has met the standards prescribed pursuant to Section 71025. As part of such investigation, representatives of the chancellor's office may participate in the accreditation visits conducted by the regional accrediting agency, and one representative of the chancellor's office, who may be appointed by the chancellor, may serve as a member of the accrediting commission which accredits the public community colleges.

71027. The Board of Governors of the California Community Colleges shall establish criteria and standards for graded classes in grades 13 and 14.

71028. The board of governors shall review and approve academic master plans and master plans for facilities for each community college district. Such plans shall be submitted to the board of governors by the local governing board of each community college district. Master plans for facilities submitted pursuant to Chapter 4 (commencing with Section 81800) of Part 49 of Division 7 of this title shall satisfy the requirements of this section in relation to master plans for facilities. Each district shall annually submit changes in its approved academic master plan for approval by the

board of governors.

71029. The board of governors shall prescribe regulations under which contracts, agreements or arrangements may be made with agencies of the federal government for funds, services, commodities, or equipment to be made available to schools of the community college system, except the California State University and Colleges.

71030. All such contracts, agreements or arrangements shall be entered into in accordance with regulations prescribed by the board of governors and in no other manner.

71031. The board of governors may enter into an agreement with the government of the United States or any agency thereof relative to the establishment of courses of study in aeronautics in the community colleges.

71032. The board of governors may enter into agreements with any agency of the federal government for the education of persons in the service of the federal government in schools under the jurisdiction of the board of governors. All money received from an agency of the federal government for the education of persons in any such school is hereby appropriated for the support of such school in addition to such other funds as may be appropriated therefor by the Legislature.

71033. The board of governors may enter into agreements with agencies of the federal government, county superintendents of schools, county boards of education, any school district, and state university or college foundations or other auxiliary organizations, including those established pursuant to Sections 89300 and 90000, for the performance of any services for such agencies by any school under the jurisdiction of the board of governors. All money received under any such agreement, except recovery of contributions to the State Employees' Retirement Fund, is hereby appropriated for the support of such school in addition to such other funds as may be appropriated therefor by the Legislature.

71034. The board of governors shall, not later than the 25th day of July in each year, prepare an estimate of the amount of state school money that will be apportioned to each community college district during the current school year, and furnish a certified copy of the estimate to each community college district.

71035. The board of governors may conduct experimental work in education through various media, including radio and television.

71036. The board of governors may develop aural and visual curriculum materials, evolve means and methods, and prescribe standards, for the use of such materials in the community college district.

71037. The board of governors shall employ such persons as are necessary for the coordination and the supervision of services for hard-of-hearing children.

71038. The board of governors may enter into an agreement with any political entity mentioned in Section 87422 for the exchange and employment of persons serving as instructors in schools under the

jurisdiction of the board of governors and employees of public schools of the political entity. The exchange and employment shall be made under comparable circumstances, subject to comparable conditions, with comparable effect as to tenure and retirement rights, subject to comparable requirements as to payment of salary and deductions therefrom, and for the same period of time as set forth in Sections 87422, 87423, and 87424 with respect to the exchange of community college district employees, except that the circumstances, conditions, rights, and requirements shall be those appropriate to the employment relationship between the instructors and the board of governors.

71039. The board of governors may establish in the chancellor's office, community colleges, a school library consultant service to assist and advise local community college districts in the establishment, development, and improvement of school libraries in the community colleges of the state.

71041. The board of governors shall:

- (a) Revise and update budget manuals, forms and guidelines.
- (b) Cooperate with federal and state agencies in prescribing rules and regulations, and instructions required by such agencies.
- (c) Assess the needs and methods of collecting and disseminating financial information.
- (d) Conduct workshops and conferences for the purpose of training school district and county personnel.
- (e) Provide consultant services to colleges and universities on courses of instruction relative to school budgets and accounting practices.

71042. The board of governors and a statewide association composed exclusively of community college district governing boards, school district governing boards, or county boards of education, or all of them acting jointly, may conduct annual workshops within this state. Such workshops shall include but are not limited to study and instruction on the subjects of school finance, the Education Code and related laws, and the ethics, duties, and responsibilities of community college district governing boards and county boards of education. A reasonable fee not to exceed the estimated pro rata cost of the workshop may be charged board members and members-elect who attend.

71043. The Board of Governors of the California Community Colleges shall maintain a permanent record of each community college district and county board of education member who successfully completes a workshop and shall issue a certificate of completion to such member.

71044. Any member or member-elect of a community college district governing board who attends and successfully completes a workshop as authorized by this article may be reimbursed for expenses as provided for in Section 72631.

71046. The Board of Governors of the California Community Colleges may, with the approval of the Director of Finance, accept

on behalf of, and in the name of, the state such gifts, donations, bequests, and devises as may be made to the board of governors, or to any school or other institution under the jurisdiction of the board of governors which in his judgment would be of benefit to the state and, if made to a community college or other institution, would be of benefit to the community college or other institution. Gifts, donations, bequests, and devises may be made subject to such conditions or restrictions as the board of governors may deem advisable.

71047. Money received under Section 71046 may, with the approval of the Director of Finance, be deposited by the board of governors to the credit of the board of governors or of the community college or institution designated by them, in accounts in banks or transmitted by them to the State Treasurer for deposit in trust accounts. Withdrawals may be made from any such bank account or trust account by the board of governors or any employee of the board of governors authorized to make withdrawals therefrom.

71048. All moneys received by or for any community college under the jurisdiction of the Board of Governors of the California Community Colleges from any agency of the federal government, directly or indirectly, for the education of veterans, is hereby appropriated for the support of such community college in addition to such other funds as may be appropriated therefor by the Legislature.

71049. For the purposes of Government Code Section 11032, the following constitute, among other proper purposes of like or different character, state business for officers and employees of the board of governors and the chancellor's office for which the officers and employees shall be allowed actual and necessary traveling expenses:

(a) Attending meetings of any national association or organization having as its principal purpose the study of matters relating to education or to a particular field or fields of education, or any agency of such association.

(b) Conferring with officers or employees of the United States, or appearing before committees of either house of the Congress of the United States, relative to problems relating to education in California.

(c) Conferring with officers or employees of other states engaged in the performance of similar duties.

(d) Obtaining information useful to the agency in the conduct of its work.

When traveling is outside the state, traveling and expense shall be approved by the Governor and Director of Finance as provided in Government Code Section 11032.

## Article 3. Delineation of Functions

71060. By enacting this article the Legislature declares its intent to more specifically delineate the powers, duties, and functions of the Board of Governors of the California Community Colleges and the powers, duties, and functions of the local district governing boards operating community colleges. This article shall be construed as an expression of the policy of the Legislature with regard to the functions of the above-mentioned boards, but shall not be construed as an enactment of specific legal provisions. Nothing contained in this article shall supplant existing law. Upon passage of this article by the Legislature, however, the Board of Governors of the California Community Colleges may take whatever steps are necessary to implement the policies contained in this article.

71061. As used in this article, "board of governors" means the Board of Governors of the California Community Colleges. "District governing board" means the governing board of a community college district. "District" means a community college district.

71062. The board of governors shall adopt rules and regulations not inconsistent with the laws of this state for the government and supervision of the public community colleges.

71063. The board of governors shall exercise general supervision over the formation of new community college districts and the reorganization of existing community college districts, including the approval or disapproval of plans therefor, and shall provide advisory service in connection with such formations or reorganizations. The board of governors shall encourage county committees on school district organization to include all territory of the state within public community college districts.

71064. The board of governors shall coordinate and encourage interdistrict, regional, and statewide development of public community college programs and facilities.

71065. The board of governors shall approve the offering of out-of-district classes by public community college districts.

71066. The board of governors shall establish minimum standards to govern student academic standards relating to graduation requirements and probation, dismissal, and readmission policies.

71067. The board of governors shall establish criteria and standards for graded and nongraded classes in community colleges.

71068. The board of governors shall establish minimum standards for the employment of academic and administrative staff in community colleges.

71069. The board of governors shall conduct necessary statewide research on community colleges and shall provide appropriate information services, including, but not limited to, definitions for the purpose of uniform reporting, collection, compilation and analysis of data for effective planning and coordination, and dissemination of information.

71070. The board of governors shall facilitate articulation with

other segments of higher education and with secondary education.

71071. The board of governors shall represent the community colleges before state and national legislative and executive agencies.

71072. The board of governors shall administer state support programs, both operational and capital outlay, and those federally supported programs for which the board of governors has responsibility pursuant to state or federal law.

71073. The board of governors shall establish a uniform system of budgeting and accounting for districts.

71074. The board of governors shall establish out-of-state tuition fees and advise district governing boards on procedures governing the admission of out-of-state students and foreign students.

71075. The board of governors shall establish procedures governing interdistrict attendance agreements and restrictions on attendance between districts.

71076. The board of governors shall establish space and utilization standards for facility planning in order to determine eligibility for state funds for construction purposes.

71077. The board of governors shall establish recommended procedures regarding campus site selection.

71078. The board of governors shall plan for, and advise on, financial assistance and scholarship programs for community college students.

71079. The board of governors shall establish minimum procedures to be used by district governing boards to insure to faculty and students the opportunity to express their opinions at the campus level and to insure that these opinions are given every reasonable consideration.

#### Article 4. Office of Chancellor

71090. The board shall appoint a chief executive officer, to be known as the Chancellor of the California Community Colleges, and fix his salary.

71091. The chief executive officer shall serve at the pleasure of the appointing power. He shall execute such duties and responsibilities as may be delegated to him by the board.

71092. The chief executive officer shall employ and fix the compensation, in accordance with law, of such assistants, clerical, and other employees as he may deem necessary for the effective conduct of the work of the board and the chief executive officer.

71093. The chancellor, subject to such additional conditions as the board of governors may establish, may purchase annuity contracts for permanent employees of the board of governors and shall reduce the salary of an employee for whom such contract is purchased by the amount of the cost thereof provided that all of the following conditions are met:

(a) The annuity contract is under an annuity plan which meets the requirements of Section 403(b) of the Internal Revenue Code of

1954 and Section 17512 of the Revenue and Taxation Code.

(b) The employee makes application to the chancellor for such purchase and reduction of salary.

(c) All provisions of the Insurance Code and the Government Code applicable to the purchase of such annuities are satisfied.

## PART 45. DISTRICTS AND GOVERNING BOARDS

### CHAPTER 1. GENERAL PROVISIONS

#### Article 1. Naming

72000. The first governing board of any new community college district shall, at the first meeting of the board or as soon as practicable thereafter, name the district.

72001. The name "California community colleges" is the property of the state. No person shall, without permission of the Board of Governors of the California Community Colleges, use this name, or any abbreviation of it, or any name of which these words are a part in any of the following ways:

(1) To designate any business, social, political, religious, or other organization, including but not limited to, any corporation, firm, partnership, association, group, activity or enterprise; or

(2) To imply, indicate or otherwise suggest that any such organization is connected or affiliated with, or is endorsed, favored or supported by, or is opposed by one or more California community colleges, the Board of Governors of the California Community Colleges, or the office of the Chancellor of the California Community Colleges; or

(3) To display, advertise, or announce these names publicly at or in connection with any meeting, assembly, or demonstration, or any propaganda, advertising or promotional activity of any kind which has for its purpose or any part of its purpose the support, endorsement, advancement, opposition or defeat of any strike, lockout, or boycott or of any political, religious, sociological, or economic movement, activity or program.

The provisions of this section shall not preclude the use of the name "California community colleges" by any person or organization otherwise subject to this section using the name immediately prior to March 4, 1972.

Nothing in this section shall interfere with or restrict the right of any person to make a true and accurate statement in the course of stating his experience or qualifications for any academic, governmental, business, or professional credit or enrollment, or in connection with any academic, governmental, professional or other employment whatsoever.

Every person violating provisions of this section is guilty of a misdemeanor.

72002. Whenever a petition is presented to the board of

supervisors, signed by at least 15 qualified electors of any community college district, asking that the name of the district be changed, the board of supervisors shall designate a day upon which it will act upon the petition, which shall not be less than 10 days nor more than 40 days after the receipt of the petition.

The clerk of the board of supervisors shall give notice to all parties interested by sending by registered mail to each of the governing board members of the community college district a notice of the time for the hearing of the petition. Notices shall be mailed at least 10 days before the day set for hearing. At the hearing the board shall by resolution either grant or deny the petition, and, if granted, the clerk shall notify the county superintendent of the change of the name of the district.

### Article 2. Establishment and Maintenance

72010. Community colleges shall be established and maintained in community college districts pursuant to law.

72011. The governing board of each community college district shall establish and maintain one or more community colleges.

72012. Community colleges may be maintained as separate day or evening community colleges. Evening community colleges may be designated as adult schools.

### Article 3. Organization of District Boards

72020. In any community college district coterminous with a unified district, the governing board of the unified district shall, except as provided in this section or in Section 74128, constitute the community college board and after organizing as a community college board shall have the management and control of the community college in the district. If the district is divided into two or more unified districts, or if any territory is included within the boundaries of such community college district by annexation thereto or by change of boundaries thereof, which territory is not included within the unified district, such community college district shall be governed by a board of five members who shall be elected in the same manner, for the same terms, and at the same time as are members of the governing boards of other districts. Within 15 days after the effective date of the annexation or change of boundaries for the purpose of electing members of the governing board, the county superintendent of schools having jurisdiction over the community college district shall call an election. The election shall be called and conducted in the manner provided by law for an election to choose the first governing board members of a newly formed community college district.

72021. In every community college district which was divided into five wards on or before September 7, 1955, one member of the board shall be elected from each ward by the registered voters of the

ward. On or before January 1st of a fiscal year the governing board of the district may rearrange the boundaries of the wards to provide for representation in accordance with population and geographic factors or may abolish the wards.

72022. The county committee on school district organization, upon petition of the governing board of any community college district, may provide for the establishment, rearrangement, or abolishment of trustee areas in any community college district or increase or decrease the number of members of the governing board, in the same manner as trustee areas may be provided for in other districts under Sections 5020 to 5024, inclusive.

When trustee areas are established or rearranged under this section, governing board members shall be elected for four-year terms, and shall be either five or seven in number. The number of trustee areas shall not be less than two nor more than seven. The terms of trustees shall, except as otherwise provided, be staggered so that as nearly as practicable one-half of the trustees shall be elected in each odd-numbered year.

Subject to provisions of this section, any resident and registered elector of the school district not disqualified by the Constitution or laws of the state is eligible to candidacy for, and appointment and election to, the governing board of a community college district in which trustee areas have been provided under this section.

When trustee areas are established or rearranged under this section, the petition to the county committee by the governing board shall provide for election of trustees by one of the following methods:

(a) Election of an elector residing in and registered to vote in the trustee area he seeks to represent, by only the registered electors of the same trustee area;

(b) Election, of an elector residing in and registered to vote in the trustee area he seeks to represent, by the registered electors of the entire community college district.

72023. In every community college district in which trustee areas have not been established, there shall be a governing board of either five or seven members elected at large from the district to serve a term of four years. If trustee areas have been established in a community college district the governing board shall consist of a member or members from each trustee area. The terms of trustees shall, except as otherwise provided, be staggered so that as nearly as practicable one-half of the trustees shall be elected in each odd-numbered year.

In the Peralta Community College District, the governing board may consist of not to exceed 15 members, if the governing board so determines, whether or not trustee areas have been established.

72024. Within 20 days after the appointment of the community college board provided for by Section 72023, the county superintendent of schools having jurisdiction shall call a meeting of the board by giving at least 10 days' notice by registered mail to each member, for the purpose of organizing the community college board.

72025. At the meeting the community college board shall organize by electing a president from its members and a secretary, and may transact any other business relating to the affairs of the community college district.

72026. Notwithstanding any provision of law to the contrary, if the governing board of a community college district finds that the boundaries of trustee areas do not conform to the district's geography or population distribution due to annexation of territory to the district after the trustee boundaries were formed, the board may, in its discretion, order a special election seeking voter approval for rearrangement of such areas in the manner provided in this section.

Upon adoption of a resolution by a majority of the members, the board shall call and conduct at least one (1) public hearing on the proposed rearrangement of trustee area boundaries by publishing notice thereof in accordance with Section 6061 of the Government Code. The notice shall be published at least 10 days prior to each hearing to be held and shall state the time and place of the hearing and the general nature of the proposed boundary rearrangement.

At the conclusion of such public hearing or hearings, the board may adopt a resolution by majority vote of the members thereof ordering a special election on the proposed rearrangement of trustee areas within the district. The election shall be consolidated with the next scheduled primary or general statewide election and shall be called and conducted by the county superintendent of schools having jurisdiction in the manner otherwise prescribed for elections in Chapter 3 (commencing with Section 5300) of Part 4 of Division 1 of Title 1.

The ballot shall contain the following words properly located thereon: "For the rearrangement of trustee areas in \_\_\_\_\_ (insert name) District—Yes" and "For the rearrangement of trustee areas in \_\_\_\_\_ (insert name) District—No."

If the proposal for the rearrangement of trustee areas within the district pursuant to this section is approved by a majority of the electors voting at the election and it appears that one or more trustee areas in the district will not be represented in the membership of the governing board or that one or more trustee areas will have more than its allotted number of representatives in the membership of the governing board, the county superintendent of schools having jurisdiction shall call and conduct an election to determine who shall represent such trustee area or areas at the next regular election for community college trustees as otherwise provided by law. The term of office of a newly elected and qualified member shall expire on the date the term of the former member would have expired if the former member had remained in office. If the offices of two or more members become vacant due to the operation of this paragraph, the superintendent shall determine by lot which term of office of former members shall be assumed by which of the newly elected and qualified members.

72027. Upon the formation of a community college district the county superintendent of schools having jurisdiction shall call and set the date of an election for the purpose of electing the governing board of the district. Such call shall be issued not later than 30 days after the formation of the district. The election shall be called, held, and conducted as are elections for members of governing boards of elementary school districts.

72028. The first members of the governing board shall take office on the third Monday following their election. The term of office of subsequent members of the board shall begin on April 1st following their election.

72029. Notwithstanding the provisions of Section 72027, the county superintendent of schools having jurisdiction may call and set the date for an election for the purpose of electing the governing board of the district on the same date that the election is held for the formation of the community college district. The call for both elections shall be issued at the same time. The election shall be called, held and conducted as are elections for members of the governing boards of elementary school districts.

72030. At the initial meeting of the governing board of a newly formed community college district it shall elect one of its members as chairman, and shall designate a secretary.

The majority of members of the first elected board of any newly formed community college district, the members of which majority received the highest number of votes, shall serve until March 31st of the second succeeding odd-numbered year. The terms of the other members shall expire on March 31st of the first succeeding odd-numbered year. All such members shall continue in office until their successors are elected and qualified.

72031. When a community college district, members of the governing board of which are also members of the governing board of a city school district with an average daily attendance of 400,000 or more in grades kindergarten through 12, serves a greater area than the city school district, the persons who serve as members on the governing board of the community college district shall not serve also as members of the city school district board. Those persons who serve as members of the governing boards of both the community college district and the city school district shall, on or before December 31, 1968, elect on which of the two boards they will continue to serve. Those persons who elect to serve as members of either the governing board of the community college district or the governing board of the city school district shall continue to serve also as members of the governing board from which they have elected to withdraw until their successors on such board are elected at the governing board election next following December 31, 1968, and have assumed office.

Prior to December 1, 1968, the governing board shall identify each position the wages or salary of which is paid in whole or in part from

the funds of the community college district and shall so notify each incumbent. Each employee whose regular-position wages or salary is paid exclusively from the funds of either district as of June 30, 1969, shall be deemed on July 1, 1969, to be an employee of the district paying the wages or salary. Each classified employee whose regular-position wages or salary was upon written notification made after July 1, 1968, paid in part from community college district funds and in part from city school district funds, and each certificated employee paid 50 percent or more from the funds of the community college districts, shall make an irrevocable, written election on or before December 31, 1968, as to the district in which he will serve. Upon the effective date of the election, a classified employee in either district shall have the right, based upon his seniority in the position classification in which he is then serving, to transfer to a position in the same position classification in the other district and to displace a classified employee with lesser seniority in such class employed in the other district, under rules established by the personnel commission serving the city school district. Should such an employee fail to make such election he shall be deemed to have elected to serve the city school district. Such election shall become effective on July 1, 1969, unless the employee has prior to June 30, 1969, voluntarily accepted regular assignment to a regular position the wages or salary of which is paid on June 30, 1969, exclusively by one district, and he is the incumbent in such position on said date. After June 30, 1969, no such employee shall have tenure or classification as a permanent employee in other than the district in which he elects to serve.

If both the city school district and the community college district have adopted a merit system as provided in Article 3 (commencing with Section 88060), Chapter 4 of Part 51 of this division, and were served by a single personnel commission as provided in Section 88063, then a new personnel commission shall be appointed for the community college district effective January 1, 1969, or as soon thereafter as possible, under the procedures applicable to the original appointments to the personnel commission which has served both districts. Subsequent appointments shall be made in accordance with Section 88069. The new personnel commission shall be empowered to meet prior to July 1, 1969, for the purpose of appointing a personnel director, and may enter into a contract with the personnel commission which has served both districts for the necessary selection procedures. It may also take action on all other matters necessary for the orderly transition of responsibility between the two personnel commissions. The new personnel commission shall appoint a personnel director in the manner provided in Section 88074 within 90 days after the appointment of at least two of its members, but not before July 1, 1969. The personnel commission which had served both districts may continue to serve both districts pursuant to the terms of a contract which may be entered into by the personnel commissions of both school districts until such time as the

newly appointed personnel commission determines that it can serve the community college district.

Except as otherwise provided in this section, the rights, benefits and burdens of regular classified employees of both the city school district and the community college district shall be fixed in accordance with the provisions of Sections 88018 and 88019. The personnel commission of the community college district shall initially adopt the rules of the personnel commission which had served both districts. The governing board of the community college district shall fix the compensation of classified employees in accordance with Section 88161. The community college district shall maintain for a period of two years after June 30, 1969, at least the same benefits of salary, vacation, hospital-medical insurance, paid illness leave, and other paid leaves provided for classified employees on June 30, 1969.

A classified employee who has probationary status in either district on June 30, 1969, shall remain in probationary status, with accumulated seniority credit, until he completes his probationary period. A classified employee who has permanent status on June 30, 1969, shall have the rights and privileges listed below on and after the separation of the community college and city school boards of education:

(a) Seniority for all purposes for all creditable service, as provided by the rules of the appropriate personnel commission, in either district.

(b) In case of layoff from one district the right of reemployment in the other district, including the exercise of bumping rights, if the employee has the least seniority in his class in the employing district. Such reemployment and bumping rights shall apply to employees laid off on or before June 30, 1970; and through August 31, 1970, to employees whose layoff or bumping would have been effective as of June 30, 1970, except for delay caused by the process of determining relative seniority and bumping rights of employees. Subject to the approval of the employing district, the privilege of being reinstated after layoff in either district in a parallel class for a period of 27 months commencing July 1, 1970.

(c) Subject to the approval of the employing district, the privilege of reinstatement after resignation or voluntary demotion, and the privilege of transfer or voluntary demotion in either district, with the approval of both districts, for a period of 39 months after July 1, 1969.

(d) The right to compete in promotional examinations in both districts through June 30, 1970, for classes for which he is qualified.

(e) The retention of all accrued vacation and illness leave benefits.

All classified eligibility lists which are in effect on June 30, 1969, shall continue to be in effect in both districts, for applicable classes, until they expire in accordance with Section 88119. Employees of both the city school district and the community college district who are on such lists on June 30, 1969, may be certified for and may accept

appointments to positions in either district.

For the purposes of Section 88091, the community college district shall be deemed to be a school district which had already adopted the merit system prior to September 17, 1965.

It is the intent of the Legislature in enacting this act to continue the rights, benefits, and privileges of regular classified employees, insofar as practicable, without disruption which may be caused by the separation of the community college and city boards of education.

Any part or all of the land, buildings, fixtures, leases, and other real property which are jointly owned by the city school district and the community college district may, at the option of the city school district, become the property of the city school district subject to the requirement that the city school district pay cash, or other valuable consideration acceptable to the community college district, to the community college district for its proportionate interest in such real property. Such payments may be made in installments over a five-year period, commencing July 1, 1969. Not less than 20 percent of such proportionate interest of the community college district shall be paid in any one installment. Such property shall be valued at its insurable value as of May 1, 1969. In cases where the value of real property cannot be established by reference to insurable value the market value of the property shall be used for valuation purposes. In order to provide for such payments, and for cash payments authorized in this section for the purpose of purchasing equipment, supplies, fixtures, vehicles, and other personal property, the maximum school district tax for such city school district is hereby increased by such amount as will produce the amount of such payments made pursuant to this section, and the increase shall be in addition to any other school district tax authorized by law to be levied. Such maximum school district tax increase may be levied commencing July 1, 1968, and shall remain in effect until all payments to the community college district for its interest in such real and personal property have been made.

All equipment and supplies, including fixtures, and other personal property located in any school shall remain with and become the property of the district operating such school. Any part or all of the equipment, supplies, fixtures, and other personal property, located in a facility owned jointly by both such districts, and which property has been used jointly by both such districts may, at the option of the city school district, become the property of the city school district subject to the requirement that the city school district pay cash, or other valuable consideration acceptable to the community college district, to the community college district for its proportionate interest in such personal property. Such personal property shall be valued at its insurable value as of May 1, 1969.

Equipment, supplies, and other stores possessed jointly by both districts as of July 1, 1969, shall be distributed in kind or in cash value in accordance with the costs as reflected in the records of the

community college district and the city school district.

Vehicles jointly owned or jointly used by the city school district and by the community college district, including those used for grading, landscaping, building or ground maintenance, cleaning, and for materials handling purposes, regardless of location, may, at the option of the city school district, become the property of the city school district, subject to the requirement that the city school district pay cash, or other valuable consideration acceptable to the community college district, to the community college district for its proportionate interest in such personal property. Such personal property shall be valued at its insurable value as of May 1, 1969.

One district may contract with the other district for the performance of services under such terms and conditions as may be agreed upon by the two districts.

Whenever in this code a section refers to a district, or to two or more districts, governed by a single governing board, or by governing boards of identical personnel, or to a district or districts in which the average daily attendance is in excess of 400,000, or makes a similar such reference, all provisions of such section shall apply with equal force to both such city school district and community college district.

72032. It is the intent and purpose of the Legislature, by this section, to make more particular provision concerning the governing board membership status of the individuals who, pursuant to Section 72031, have on or before December 31, 1968, made the election to serve either as members of the city board of education or as members of the governing board of the community college district.

If an individual whose term is to expire on June 30, 1971, elects to serve as a member of the governing board of the community college district only, such act shall be deemed to have created a vacancy in his membership on the city board of education, but such individual shall, nevertheless, continue to serve as a member of the city board of education until June 30, 1969, as though appointed to fill the vacancy until that time. Subject to such limitation, the vacancy shall be filled as provided by law, or by or under authority of the city charter, whichever is controlling. The individual shall, after July 1, 1969, serve as a member of the governing board of the community college district until the expiration of his term of office on June 30, 1971.

In 1969, at the same time and in the same manner as members of the city board of education are elected, an election shall be held in the community college district to elect members of the community college district governing board to fill the positions of the governing board members whose terms will expire on June 30, 1969, and the other governing board members, if any, whose terms will expire on June 30, 1971, and who have elected, pursuant to Section 72031, to serve as members of the city board of education only. Of the members elected to the governing board of the community college district in the 1969 general election, those receiving the lowest

numbers of votes shall be deemed to have been elected to the positions, if any, held by members whose terms would otherwise have expired on June 30, 1971, and who elected to serve on the city board of education only.

The first term of office of any such newly elected member receiving such lower number of votes shall expire on June 30, 1971. The election shall be held throughout the community college district, and the members elected to the community college district governing board thereat shall be elected at large.

For purposes of Section 5225, the governing board of the community college district shall assign office numbers 1, 3, 5, and 7 to members whose first terms of office will expire on June 30, 1971, and office numbers 2, 4, and 6 to members whose terms will expire on June 30, 1973.

72033. When a community college district is coterminous with a high school district, the governing board of the high school district shall not constitute the governing board of the community college district. Those persons who on the effective date of this section are serving as members of the governing boards of both a community college district and a coterminous high school district shall, however, continue to so serve until the expiration of their present terms, provided they may on or after July 2, 1969, elect on which of the two boards they will continue to serve. Such election shall be in writing, shall specify the effective date, and shall be filed with the county superintendent of schools having jurisdiction over the district. Those persons electing to withdraw as members of either the governing board of the community college district or the governing board of the high school district shall continue to discharge the duties of the office from which they have withdrawn until their successors on such board are appointed pursuant to Section 5090 or 5096 and have qualified.

72034. (a) The members of the governing board of any district maintaining a community college, except a unified district having an average daily attendance of 100,000 or more as of October, 1971, shall call an election for the purpose of determining whether the members shall continue to serve also as members of the governing board of any unified school district having boundaries which are coterminous with the boundaries of the community college district. The election shall be held at the general election in accordance with the provisions of this code for conducting a regular election of governing board members. The ballots used in such election shall contain the words "Separate Community College Board—Yes" and "Separate Community College Board—No." Each elector voting at the election shall indicate the answer he desires to give in accordance with regular election procedures.

(b) If the proposition receives a majority "yes" vote, then those persons who serve as members of the governing boards of both a community college district and any such unified school district shall, on or before December 31, 1972, choose on which of the two boards

they will continue to serve. Those persons who choose to serve as members of either the governing board of a community college district or the governing board of any such unified school district shall continue to serve also as members of the governing board from which they have chosen to withdraw until their successors on such boards are elected, or appointed after December 31, 1972, and have assumed office.

72035. (a) The members of the governing board of any unified district which has an average daily attendance of 100,000 or more as of October, 1971, and which maintains a community college shall call an election for the purpose of determining whether the members shall continue to serve also as members of the governing board of any unified school district having boundaries which are coterminous with the boundaries of the community college district. The election shall be held at the general election in accordance with the provisions of this code for conducting a regular election of governing board members. The ballots used in such election shall contain the words "Separate Community College Board—Yes" and "Separate Community College Board—No." The governing board of the district maintaining a community college shall prepare an impartial statement explaining the ballot measures and the expected results of continuing a common governing board or establishing two separate boards and such statement shall be distributed to the voters with the sample ballot and "pro" and "con" arguments, if any, as provided by law. Each elector voting at the election shall indicate the answer he desires to give in accordance with regular election procedures.

(b) If the proposition for a separate community college governing board receives a majority "yes" vote than those persons who serve as members of the governing boards of both a community college district and any such unified school district shall, on or before June 1, 1973, choose on which of the two boards they will continue to serve. Those persons who choose to serve as members of either the governing boards of a community college district or the governing board of any such unified school district shall continue to serve also as members of the governing board from which they have chosen to withdraw until their successors on such boards are elected after June 1, 1973, and have assumed office. If the city charter of the city in which the unified school district is located in whole or in part governs the appointment, nomination, or election of members of the governing board of the unified school district, the new governing board of the community college district also shall be governed by such city charter so that the separate governing boards of both the unified and community college districts after June 1, 1973, shall be appointed or nominated and elected at the same elections, under the same conditions and for the same terms of office set forth in such city charter.

(c) The election of the members of the first community college governing board shall be conducted no later than the next election held for the nomination and election of governing board members

of the unified district and under the same conditions and for the same terms of office pursuant to city charter except as set forth below. Prior to such elections, and only for those elections, the governing board of the unified district shall designate three positions on the new community college district governing board for which the initial term of office shall be four years and two positions for which the initial term of office shall be two years. Thereafter, all elections of the governing board members of the community college district shall be held under the same conditions, at the same times, and for the same terms as elections for the unified district governing board pursuant to city charter. The governing board of the unified district shall continue to govern the community college district until members of the new governing board of the community college district are elected and qualified to serve, at which time the governance of the community college district shall pass to the new governing board of the community college district.

(d) The governing board of the unified district may, if it deems such action appropriate, call two special elections within the community college district prior to the dates set forth by law for the primary and general elections of members of the governing board of the unified district, for the purpose of permitting the people of the community college district to nominate and elect governing board members of the community college district at the earliest possible time after the November 7, 1972, election. If such special primary and general elections are called, the governing board of the unified district shall designate for such elections, and only for such elections, (1) three positions on the new community college district governing board for which the initial term of office shall be four years plus the necessary number of days to allow such term to end on the same date as the end of the term of a member of the unified district governing board whose term expires in December, 1977, and (2) two positions on the new community college district governing board for which the initial term of office shall be two years plus the necessary number of days to allow such term to end on the same date as the end of the term of a member of the unified district governing board whose term expires in December, 1975. Such elections shall be held, insofar as possible, under the same conditions as elections for the unified district governing board pursuant to a city charter. Thereafter, all elections of governing board members of the community college district shall be held under the same conditions, at the same times, and for the same terms as elections for the unified district governing board pursuant to a city charter. The governing board of the unified district shall continue to govern the community college district until members of the new governing board of the community college district are elected and qualified to serve, at which time the governance of the community college district shall pass to the new governing board of the community college district.

(e) Each member of the separate governing board of the community college district shall receive the same compensation as

received by members of the separate governing board of the unified district under Section 72425, notwithstanding any requirements to the contrary contained in such section.

(f) Notwithstanding subdivisions (c) and (d) of this section, if a person serving on the common governing board chooses, prior to June 1, 1973, to serve on the governing board of the community college district, he shall serve as a member of the community college district governing board until the expiration of the term of the office to which he was last elected as a member of that board.

## CHAPTER 2. MEETINGS AND MEMBERS

### Article 1. Membership

72100. Within 20 days after the appointment or election of the interim or initial governing board of any newly formed district, the county superintendent of schools having jurisdiction over the district shall call a meeting of the board, by giving each member of the board at least 10 days' notice of such meeting by registered mail. At the meeting the board shall appoint such officers as boards of its class are required to appoint at annual meetings pursuant to Chapter 4 (commencing with Section 72400), of this part, name the district pursuant to Article 1 (commencing with Section 72000) of Chapter 1 of this part, and may conduct or transact any other business relating to the affairs of the district which can properly be conducted or transacted at a regular meeting of the board.

72101. In newly formed districts for which an interim governing board is appointed by the county superintendent of schools, a governing board member election shall be held:

(a) When the action necessary for the formation of a new community college district is completed on or before the first of January of any odd-numbered year, on the first Tuesday after the first Monday in March of such year.

(b) When the action necessary for the formation of a new community college district is completed after the first of February of any year, whether even-numbered or odd-numbered, on the first Tuesday after the first Monday in March of the next succeeding year.

The terms of the members elected at the initial election shall begin on the first day of April, and the terms of their predecessors shall expire on the 31st day of March, following the election.

72101.5. Subject to the procedures prescribed by Section 5007 with respect to newly formed community college districts, the majority of members of the first elected board of any newly formed community college district, the members of which majority received the highest number of votes, shall serve until March 31 of the second succeeding odd-numbered year. The other members' terms shall expire on March 31 of the first succeeding odd-numbered year. All such members shall continue in office until their successors are elected and qualified.

72102. When a member of the governing board of a community college district which is being reorganized and which will cease to exist takes office as a member of the initial or interim governing board of a newly formed community college district, he shall cease to be a member of the governing board of the district being reorganized.

The county board of education shall then appoint another person who is eligible to serve on the governing board of the district being reorganized to the vacant position for the duration of the existence of the district being reorganized, but in no case for longer than 12 months.

72103. Any person, regardless of sex, who is 18 years of age or older, a citizen of the state, a resident of the community college district, a registered voter, and who is not disqualified by the Constitution or laws of the state from holding a civil office, is eligible to be elected or appointed a member of a governing board of a community college district.

72104. No member of the governing board of a community college district shall, during the term for which he was elected, be eligible to serve on the governing board of a high school district whose boundaries are coterminous with those of the community college district.

72105. In any community college board member election including recall elections, at least one polling place in each of the elementary and unified school districts located in the community college district shall be designated; provided, that, except when a consolidated election is being conducted in which the suspended district participates, a suspended elementary school district may be combined with a contiguous elementary school district for the purpose of the election and the voters of both shall vote at the polling place designated in the active school district.

## Article 2. Meetings

72120. Subject to the provisions of this article the governing board of any community college district shall by rule and regulation fix the time and place for its regular meetings. Such action shall be proper notice to all members of the board of the regular meetings.

72121. Except as provided in Sections 54957 and 54957.6 of the Government Code and in Section 72122 of, and subdivision (c) of Section 76041 of, this code, all meetings of the governing board of any community college district shall be open to the public, and all actions authorized or required by law of the governing board shall be taken at such meetings and shall be subject to the following requirements:

(a) Minutes must be taken at all such meetings, recording all actions taken by the governing board. Such minutes shall constitute public records, and shall be available to the public. Until the governing board adopts such minutes as the official minutes, such minutes shall be labeled the unadopted minutes. The official minutes

shall also constitute public records and shall be available to the public.

(b) A list of items that will constitute the agenda for all regular meetings shall be posted at a place where parents and teachers may view the same at least 48 hours prior to the time of said regular meeting, and, in the case of special meetings, at least 24 hours prior to said special meeting.

72122. Notwithstanding the provisions of Section 72121 of this code and Section 54950 of the Government Code, the governing body of a community college district shall, unless a request by the parent has been made pursuant to this section, hold executive sessions if the board is considering the suspension of, or disciplinary action or any other action except expulsion in connection with any student of the community college district, if a public hearing upon such question would lead to the giving out of information concerning students which would be in violation of Section 48950 of this code.

Before calling such executive session of the governing board of the district to consider these matters, the governing board of the district shall, in writing, by registered or certified mail or by personal service, if the student is a minor, notify the student and his parent or guardian, or the student if the student is an adult, of the intent of the governing board of the district to call and hold such executive session. Unless the student, or his parent, or guardian shall, in writing, within 48 hours after receipt of such written notice of intention, request that the hearing of the governing board be held as a public meeting, then the hearing to consider such matters shall be conducted by the governing board in executive session. If such written request is served upon the clerk or secretary of the governing board, the meeting shall be public except that any discussion at such meeting that might be in conflict with the right to privacy of any student other than the student requesting the public meeting or on behalf of whom such meeting is requested, shall be in executive session. Whether the matter is considered at an executive session or at a public meeting, the final action of the governing board of the school district shall be taken at a public meeting and the result of such action shall be a public record of the school district.

72123. Each member of the governing board of a community college district may be allowed for travel necessary to attend annual, regular monthly, and special meetings of the governing board the rate of mileage determined by the governing board. Mileage shall not be allowed to any member to attend any meeting except for travel required in excess of 10 miles. Orders for travel allowances shall be drawn upon the funds of the district and signed by a majority of the governing board exclusive of the payee.

72124. The first meeting of any newly elected or appointed community college district governing board, and any annual meeting required by law to be held by such board for purposes of its organization, shall be deemed a regular meeting of the board for purposes of any requirement of law that periodic meetings shall be

held by such board, and the regular business of the board may be transacted at such a meeting.

72125. (a) The governing board of each community college district shall hold an annual organizational meeting. In a year in which a regular election for governing board members is conducted, the meeting shall be held on a day within a 15-day period that commences with the date upon which a governing board member elected at that election takes office. Organizational meetings in years in which no such regular election for governing board members is conducted shall be held during the same 15-day period on the calendar. Unless otherwise provided by rule of the governing board, the day and time of the annual meeting shall be selected by the board at its regular meeting held immediately prior to the first day of such 15-day period, and the board shall notify the county superintendent of schools of the day and time selected. The secretary of the board shall, within 15 days prior to the date of the annual meeting notify in writing all members and members-elect of the date and time selected for the meeting.

If the board fails to select a day and time for the meeting, the county superintendent of schools having jurisdiction over the district shall, prior to the first day of such 15-day period and after the regular meeting of the board held immediately prior to the first day of such 15-day period, designate the day and time of the annual meeting. The day designated shall be within the 15-day period. He shall notify in writing all members and members-elect of the date and time.

At the annual meeting, the governing board of the community college district shall organize by electing a president from its members and a secretary.

(b) As an alternative to the procedures set forth in subdivision (a), in a community college district the boundaries of which are coterminous with the boundaries of a city and county, the governing board members of which district are elected in accordance with a city and county charter, the annual organizational meeting of the governing board may be held between January 8 and January 31, inclusive, as provided in rules and regulations adopted by the board. At the annual organizational meeting each such community college district governing board shall organize by electing a president and vice president from its members.

72126. Every community college board shall hold regular monthly meetings at such times as may be provided in the rules and regulations adopted by them for their own government, except that in community college districts composed of two or more high school districts, the regular meetings may be quarterly.

72129. Special meetings may be held at the call of the president of the board or upon a call issued in writing and signed by a majority of the members of the board, except that by unanimous consent a special meeting may be convened at any time.

72130. The date set or special meetings shall be at least 24 hours subsequent to the completion of the call.

72131. No business shall be transacted at a special meeting other than that specified in the call, except that by unanimous consent any business matter may be transacted at any special meeting.

72132. The community college board shall meet in a public building which is owned or leased by the community college district, or if in the judgment of the governing board, the interests of the district may be better served by holding its meetings elsewhere, it may meet at such other place in the community college district, high school districts, unified districts, or any combination thereof served by such community college district as it may by resolution determine.

A notice identifying the location, date, and time of the meeting shall be posted in each community college maintained by the district at least 10 days prior to the meeting and shall remain so posted to and including the time of the meeting.

### CHAPTER 3. POWERS AND DUTIES

#### Article 1. General Provisions

72200. The governing board of a community college district may execute any powers delegated by law to it or to the district of which it is the governing board, and shall discharge any duty imposed by law upon it or upon the district of which it is the governing board.

72201. In the name by which the district is designated the governing board may sue and be sued, and hold and convey property for the use and benefit of the community college district.

72202. Every official action taken by the governing board of every community college district shall be affirmed by a formal vote of the members of the board, and the governing board of every community college district shall keep minutes of its meetings, and shall maintain a journal of its proceedings in which shall be recorded every official act taken.

72203. The governing board shall act by majority vote of all of the membership constituting the governing board.

72204. Notwithstanding any other provision of law, if a community college district governing board consists of seven (7) members and not more than two vacancies occur on the governing board, the vacant position or positions shall not be counted for purposes of determining how many members of the board constitute a majority; and, whenever any of the provisions of this code require unanimous action of all or a specific number of the members elected or appointed to the governing board, the vacant position or positions shall be excluded from determination of the total membership constituting the governing board.

72205. The governing board of each community college district shall establish and maintain a historical inventory, or an audit trace inventory system, or any other inventory system authorized by the board of governors, which shall contain the description, name,

identification numbers, and original cost of all items of equipment acquired by it whose current market value exceeds two hundred dollars (\$200) per item, the date of acquisition, the location of use, and the time and mode of disposal.

72206. The governing board of a community college district having more than one college may appoint an advisory committee of not more than five members from each college to advise the governing board concerning the needs of that college. The members of such advisory committees shall serve at the pleasure of the governing board.

72207. The governing board of a community college district may secure copyrights, in the name of the district, to all copyrightable works developed by the district, and royalties or revenue from said copyrights are to be for the benefit of the district securing said copyrights.

72208. The governing board of a community college district shall adopt and cause to be printed and made available to each certificated employee of the district reasonable rules and regulations providing for the evaluation of the performance of certificated employees in their assigned duties.

72209. No governing board of a community college district shall require any minor student to be transported for any purpose or for any reason without the written permission of the parent or guardian.

This section shall not apply to the transportation of a student in an emergency arising from illness or injury to the student.

72210. No community college student shall, because of his race, creed, or color, be assigned to or be required to attend a particular community college.

## Article 2. Powers and Duties

72230. Every community college district shall be under the control of a board of trustees.

72231. The governing board of each community college district shall prescribe and enforce rules not inconsistent with law or with the rules prescribed by the board of governors, for its own government.

72231.5. The district governing board shall:

(a) Establish policies for, and approve, current and long-range educational plans and programs and promote orderly growth and development of the community colleges within the district.

(b) Establish policies for, and approve, academic master plans and long-range master plans for facilities. The district governing board shall submit such master plans to the board of governors for review and approval.

72233. On and after January 1, 1976, the governing board of any community college district, may initiate and carry on any program, activity, or may otherwise act in any manner which is not in conflict with or inconsistent with, or preempted by, any law and which is not

in conflict with the purposes for which school districts are established.

72234. The governing board of any community college district shall maintain schools and classes as provided by law.

72236. The governing board of any community college district shall visit each school in its district at least once each term, and examine carefully into the management, needs, and conditions of the schools. In any district which employs district superintendents of schools, it shall either visit the schools or provide that they shall be visited by the district superintendent of schools or his assistants.

72237. The governing board of a community college district may provide by appropriate rules and regulations that grades, transcripts, diplomas, and registration privileges, or any combination thereof, shall be withheld from any student or former student properly charged with the possession of library books or other library materials when such books or materials are not returned to the library when due.

Grades, transcripts, diplomas, and registration privileges shall be released from the prescribed restrictions when the student either:

(a) Returns the overdue library books or other library materials;  
or

(b) Pays the charge for the replacement of the library books or other library materials, if such books or materials were lost.

72239. The governing board of a community college district may rent or purchase academic caps and gowns for faculty use at ceremonies.

72240. The governing board of a community college district may employ as a community college instructor of an academic subject matter area or areas a person who does not hold a credential issued by the Board of Governors of the California Community Colleges authorizing such service if the person has been granted a master's degree or a doctor's degree in the academic subject matter area for which he is employed to teach. No such person shall teach classes in grades below grades 13 and 14 in any community college. No such person shall be employed for an aggregate period which is greater than three school years unless he fulfills the requirement of Section 87215.

No person shall be employed pursuant to this section until he has complied with the prerequisites to issuance of a certification document prescribed by Sections 87214, 87216, 87219, and 87220, and no person shall be so employed who has been determined to come within any of the provisions of Section 44345 or Section 44346. The board of governors shall make necessary provision for enforcing compliance with the preceding sentence.

The governing board of each community college district shall, in the manner and form prescribed by the board of governors, promptly after the close of each school year file with the board of governors a report identifying each person employed pursuant to this section during the preceding school year and certifying that all

applicable laws, rules, and regulations were complied with in his employment. The board of governors shall compile and maintain a roster of the individuals employed under this section, to be utilized in administering the provisions of this section.

Any person employed pursuant to this section shall be deemed to be a certificated employee in a position requiring certification qualifications for all purposes.

For the purposes of this section "academic subject matter area" refers exclusively to the natural sciences, the social sciences (other than education and educational methodology), the humanities, mathematics, and the fine arts. The board of governors may consider a given subject matter major, whatever its title, to be an academic subject matter major if it finds that at the specific institution the required courses and the content of such courses within the major are equivalent to those of an academic subject matter major.

72240.5. Notwithstanding any other provision of law to the contrary, the governing board of any community college district may employ any student enrolled in the district who is an exconvict or who is on parole, other than a person determined to be a sexual psychopath, to perform noninstructional duties and such student workers shall not be considered to be classified employees.

72241. The governing board of any community college district may accept on behalf of, and in the name of, the district such gifts, donations, bequests, and devises as are made to the district for community college purposes or to or for the benefit of any community college administered by the district. Such gifts, donations, bequests, and devises may be made subject to such conditions or restrictions as the governing board may prescribe. In no event shall the approval of any state agency be a prerequisite to acceptance of such a gift, donation, bequest, or devise. No real or personal property, including money, accepted by a governing board pursuant to this section shall be considered in determining the eligibility of the district for an apportionment from the State School Fund nor in determining the amount thereof.

72242. The governing board of any community college district may authorize faculty members and students of that college to participate in cocurricular activities conducted within or without the state held in conjunction with the educational program of the college. The governing board may authorize payment of travel and other necessary expenses of participants in these activities pursuant to rules and regulations adopted by the governing board. These payments shall be a proper charge against district funds.

As used in this section, "cocurricular activities" means those activities and events which are designed to complement the academic program of the community college and which meet all the following criteria:

- (a) The activity or event is approved by the governing board.
- (b) Students of the community college are participating in the activity or event.

(c) The activity or event is supported in part from nondistrict funds.

(d) The activity or event is an extension of classroom instruction or related community college programs.

72243. (a) The governing board of any community college district may establish an account for each cocurricular activity with designations such as "the music account," "the journalism account," or "the drama account." All income derived from each designated cocurricular activity shall be deposited in the account for expenditures for the operation of the cocurricular activity maintaining the account, in accordance with the rules and regulations of the governing board.

(b) The governing board may designate an employee or employees of the district as the custodian of the account or accounts and such person or persons shall be responsible for the payment into the account or accounts of all moneys received for or to be paid into the account or accounts, and for all expenditures therefrom, subject to the rules and regulations of the governing board.

(c) As used in this section, "cocurricular activities" has the same meaning as defined in Section 72242.

72244. The governing board of any community college district may provide health supervision and services, including direct or indirect medical and hospitalization services, and operate a student health center or centers wherein students in grades 13 and 14 and other persons authorized by the governing board may be diagnosed and treated. School physicians shall be authorized to provide medical treatment at such centers.

72245. The governing board of a community college district may impose a fee on a participating student for the additional expenses incurred when physical education courses are required to use nondistrict facilities.

72246. (a) The governing board of a district maintaining a community college may require of pupils in attendance in grades 13 and 14, the payment of a fee in the total amount of not more than ten dollars (\$10) for the regular school year for health supervision and services, including direct or indirect medical and hospitalization services, or the operation of a student health center or centers, authorized by Section 72244, or both.

(b) If pursuant to this section a fee is required, the governing board of a district shall prorate the amount of the fee, if any, that a part-time student, including a summer school student or evening student is required to pay.

(c) The governing board of a district maintaining a community college shall adopt rules and regulations that either exempt low-income students from any fee required pursuant to subdivision (a) or provide for the payment of the fee from other sources.

(d) The governing board of a district maintaining a community college shall adopt rules and regulations that exempt students who depend exclusively upon prayer for healing in accordance with the

teachings of a bona fide religious sect, denomination, or organization and students who are attending a community college under an approved apprenticeship training program from any fee required pursuant to subdivision (a).

(e) All of such fees shall be deposited in the general fund of the district, and shall be expended only for the purposes for which such fees were collected.

72247. The governing board of a community college district may require of students in attendance in grades 13 and 14 and employees of the district, the payment of a toll, in an amount not to exceed twenty dollars (\$20) per semester or forty dollars (\$40) per regular school year to be fixed by the board, for parking services.

Such toll shall only be required of students and employees using such services.

All such tolls collected shall be deposited in the general fund of the district and shall be expended only for parking services or for purposes of reducing the costs to students and faculty of the college of using public transportation to and from the college.

Tolls collected for use of parking services provided for by investment of student body funds under the authority of Section 76064 shall be deposited in a special fund for repayment to the student organization.

“Parking services,” as used in this section, means the purchase, construction, and operation and maintenance of parking facilities.

72248. (a) The governing board of a community college district may require of students in attendance in grades 13 and 14 and employees at a campus of the district the payment of a fee for purposes of reducing fares for services provided by common carriers or municipally owned transit systems to such students and employees, as provided in subdivision (b).

(b) Fees authorized by subdivision (a) for transportation services may be required only of students and employees using such services, or, in the alternative, of either of the following groups of people:

(1) Upon the favorable vote of a majority of the students and a majority of the employees of a campus of the district, voting at an election on the question of whether or not the governing board should require all students and employees at the campus to be assessed fees for transportation services for a two-year period, the fees may be required of all students and all employees of a campus of the community college district; or

(2) Upon the favorable vote of a majority of the students at a campus of the district voting at an election on the question of whether or not the governing board should require all students to be assessed fees for transportation services for a two-year period, the fees may be required of all students at the campus of the community college district; provided that the employees shall not be entitled to use such services.

(c) In the event that fees are required to be assessed to all students and employees or all students as provided in subparagraphs

(1) and (2) of subdivision (b) for a two-year period, such authorization may be continued for additional two-year periods by the governing board maintaining the campus, upon the favorable vote of a majority of the students and a majority of the employees or, in the case of subdivision (b) (2), upon the favorable vote of a majority of the students of such campus, voting in an election on the question of whether or not such required fees should be continued.

(d) If pursuant to this section a fee is required of students for transportation services, any fee required of a part-time student shall be a pro rata lesser amount than full-time students, depending on the number of units for which such part-time student is enrolled. In addition, a governing board maintaining transportation services shall adopt rules and regulations governing the exemption of low-income students from required fees, and may adopt rules and regulations that provide for the exemption of others.

(e) The total fees to be fixed by the governing board of a community college district pursuant to this section and Section 72247 shall not exceed the amount prescribed in Section 72247.

72250. The governing board of a community college district may impose a fee, not to exceed one dollar (\$1), for the actual pro rata cost for services relative to a program change consisting of adding or dropping one or more courses any time after two weeks from the commencement of instruction in any term. Such fee shall not be charged for changes initiated or required by the community college.

72251. The governing board of any community college district may impose a late application fee of not to exceed two dollars (\$2) for any application for admission or readmission which is filed after the date established by the governing board for the filing of applications for admission or readmission to the community college.

72252. Notwithstanding any provisions to the contrary, at the request of a community college district, the chancellor may approve a program of studies on a quarter system or a trimester basis in accordance with rules and regulations prescribed by the Board of Governors of the California Community Colleges.

72253. The governing body of any community college district may by rule or regulation provide for the payment of the costs of replacing or repairing property of an employee, such as eyeglasses, hearing aids, dentures, watches, articles of clothing necessarily worn or carried by the employee, or vehicles when any such property is damaged in the line of duty without fault of the employee or if such property is stolen from the employee by robbery or theft while the employee is in the line of duty. If the property is damaged beyond repair or stolen, the actual value of such property may be paid. The value of such property shall be determined as of the time of the damage thereto or the robbery or theft. Limits may be established for the payment for such damaged or stolen property.

In the event the employee is paid the costs of replacing or repairing such property, or the actual value of such property, the community college district shall, to the extent of such payments, be

subrogated to any right of the employee to recover compensation for such damaged or stolen property. The community college district may file and prosecute an action to enforce its subrogation right in the *small claims court if the amount of the claim is within that court's monetary jurisdiction* or may enforce its subrogation right in any other court of competent jurisdiction.

72254. The governing board of a community college district may by resolution limit campaign expenditures or contributions in elections to district offices.

### Article 3. Delineation of Functions

72280. By enacting this article the Legislature declares its intent to more specifically delineate the powers, duties, and functions of the community college district governing boards and the powers, duties, and functions of the Board of Governors of the California Community Colleges. This article shall be construed as an expression of the policy of the Legislature with regard to the functions of the above-mentioned boards, but shall not be construed as an enactment of specific legal provisions. Nothing contained in this article shall supplant existing law. Upon passage of this article by the Legislature, however, the Board of Governors of the California Community Colleges is hereby directed to take whatever steps are necessary to implement the policies contained in this article.

72281. As used in this article, "board of governors" means the Board of Governors of the California Community Colleges. "District governing board" means the governing board of a community college district. "District" means a community college district.

72282. The district governing board shall establish rules and regulations not inconsistent with the regulations of the board of governors and the laws of this state for the government and operation of one or more community colleges in the district and delegate appropriate authority to officers, employees or committees of the district, the college, or the governing board.

72283. The district governing board shall:

(a) Establish policies for, and approve, the total educational program of the community college or colleges in the district.

(b) Approve all classes for adults and shall submit such classes as are eligible for state apportionments to the board of governors for approval.

(c) Approve and provide such classes, programs and facilities under the provisions of the Community Service Act, the Civic Center Act, and the Recreation Act as deemed appropriate.

(d) Establish policies for, and approve, all other programs and services of the community college except as provided in Section 78200.

(e) Establish policies for, and approve, procedures for the adoption of instructional materials.

72284. The district governing board shall determine which

holidays it will observe and on what days it will observe them within the framework of providing the necessary number of days of instruction to qualify for state apportionments.

72285. The district governing board shall establish academic standards, probation and dismissal and readmission policies, and graduation requirements not inconsistent with the minimum standards adopted by the board of governors.

72286. The district governing board shall determine and control the district's operational and capital outlay budgets and shall present the budgets to county authorities for the purposes of establishing the district tax rates. The district governing board shall determine the need for elections for override tax levies and bond measures and to request that such elections are called.

72287. The district governing board shall manage and control district property. The district governing board may contract for the procurement of such goods and services as authorized by law.

72288. The district governing board may receive and administer gifts, grants, and scholarships.

72289. The district governing board may establish such student fees as it is authorized to establish by law.

72290. The district governing board shall employ and assign all personnel not inconsistent with the minimum standards adopted by the board of governors. The district governing board shall establish employment practices, salaries, and benefits for all employees not inconsistent with the laws of this state.

72291. The district governing board shall provide such auxiliary services as deemed necessary to achieve the purposes of the community college.

72292. The district governing board shall establish rules and regulations governing student conduct. The district governing board shall establish procedures not inconsistent with those established by the board of governors to insure faculty and students the opportunity to express their opinions at the campus level.

72293. The district governing board is authorized to apply directly to federal agencies or state agencies operating federal programs in order to obtain federal funds in accordance with general policies established by the board of governors.

#### Article 4. Powers—Property

72300. The governing board of any community college district may select and acquire sites within the boundaries of the district, and may acquire or construct thereon school facilities, as provided by law.

72300.5. The governing board of any community college district may acquire by eminent domain any property necessary to carry out any of the powers or functions of the district.

72301. The governing board of any community college district may acquire property, construct buildings, and maintain classes

outside its boundaries on sites immediately adjacent to school sites of the district within its boundaries.

72302. The governing board of any community college district may acquire and pay for educational and athletic equipment, supplies and materials, and other personal property necessary to its operation of the schools, as provided by law.

72303. The governing board of any community college district may accept on behalf of, and in the name of, the district, such gifts, donations, bequests, and devises as are made to the district or to or for the benefit of any college administered by the district. Such gifts, donations, bequests and devises may be made subject to such conditions or restrictions as the governing board may prescribe. In no event shall the approval of any state agency be a prerequisite to acceptance by the governing board of a community college district of such a gift, donation, bequest, or devise.

72304. Where a gift of land has been accepted by the governing board of a community college district upon condition or agreement that the same be devoted to school purposes of the district, whether such condition or agreement is written or oral and whether the terms thereof are recited or referred to in any instrument executed in connection with the conveyance of the gift, and the board subsequently determines that the land cannot feasibly be utilized for any school purpose of the district, the board may cause the same to be reconveyed to the donor without consideration to the district; provided, that failure to do so shall not affect the rights of any bona fide purchaser or encumbrancer of such land.

72305. The governing board of any community college district shall meet with appropriate local government recreation and park authorities to review all possible methods of coordinating planning, design, and construction of new school facilities and school sites or major additions to existing school facilities and recreation and park facilities in the community. Any community college district planning, designing, or constructing new school facilities and school sites or major additions to existing school facilities shall file, at least annually, a report with the board of governors setting forth its plans to achieve (a) a greater use of any joint or contiguous recreation and park facilities by the schoolchildren and (b) possible use by the total community of such school facilities and school sites and recreation and park facilities.

72306. Notwithstanding any other provision of law, in the event there are two or more identical lowest or highest bids, as the case may be, submitted to a school district for the purchase, sale, or lease of real property, supplies, materials, equipment, services, bonds, or the awarding of any contract, pursuant to a provision requiring competitive bidding, the governing board of any community college district may determine by lot which bid shall be accepted.

### Article 5. Community Participation

72320. This article shall be applicable only to community college districts located in a county with a population in excess of 800,000, as measured in the 1970 federal census.

72321. The governing board of a community college district may implement any one or more of the following procedures to achieve greater community participation in the operation of the community college district:

(a) Retaining the present pattern of board representation of trustee areas and administrative organization, increase the involvement of students, faculty, and the community so as to make it more effective and more satisfying to the participants.

(b) Strengthen board relationships to the area each trustee represents by greater involvement of the community through advisory boards established geographically to serve as a source of information and recommendation for each board member.

(c) Establish at each college in the district, in a form developed at the college and approved by the governing board, a five-member advisory committee in accordance with Section 1005.

(d) Develop a district plan for selecting community representatives, to be implemented at each college in accordance with guidelines established by the governing board.

### Article 6. College Police

72330. The governing board of a community college district may establish a community college police department and employ, in accordance with the provisions of Chapter 4 (commencing with Section 88000) of Part 51 of this division such personnel as may be necessary for its needs.

Persons employed and compensated as members of a community college police department, when so appointed and duly sworn, are peace officers only upon the campus of the community college and in or about other grounds or properties owned, operated, controlled, or administered by the community college, or the state on behalf of the community college.

72331. Every member of a community college police department shall be supplied with, and authorized to wear, a badge bearing the words "Community College Police", prefaced by the name of the district, and shall be issued a suitable identification card bearing his physical description, photograph, and authority for peace officer status, countersigned by the chief administrative officer of the district. The governing board may direct the wearing of a distinctive uniform and shall prescribe such a uniform. The governing board shall pay for the required uniforms, equipment, identification cards, and badges.

72332. The governing board of a community college district which establishes a police department may provide and maintain

motor vehicles for the use of the patrol. Any vehicle, when operated in the performance of his duties by any member of the police department, is an authorized emergency vehicle and may be equipped and operated as such as provided by the Vehicle Code.

72333. Persons employed and compensated as members of a police department of a community college district, when appointed and duly sworn, are peace officers, as defined by Section 830.4 of the Penal Code, but only for the purpose of carrying out the duties of their employment.

72334. Persons employed and compensated as members of a police department of a community college district shall be supplied with and authorized to wear a badge bearing the name of the district. The employee shall carry a suitable identification card bearing his photograph and signature and the signature of the superintendent of the community college district, and such other identification data as may be required by local law enforcement agencies. The governing board may direct the wearing of a distinctive uniform and shall prescribe same. The costs of required uniforms, equipment, identification badges and cards shall be borne by the district.

72335. The governing board of a community college district which establishes a police department may provide and maintain motor vehicles for the use of the police. Any vehicle, when operated in the performance of his duties by any member of the police department, is an authorized emergency vehicle and may be equipped and operated as such as provided by the Vehicle Code.

#### Article 7. Instructions From Electors

72340. The governing board of a community college district having a city board of education, may, and upon a petition signed by a majority of the electors resident in the district shall, call meetings of the qualified electors of the district for consultation in regard to any affairs in the district. A meeting so called shall be competent to instruct the governing board, and the board shall, in all cases, be bound by such instructions upon the following subjects:

(a) The location or change of location of the schoolhouse, if the proposal to instruct the board in regard to changing the location of the schoolhouse is passed by a vote of two-thirds of all the electors voting at the meeting upon the proposition.

(b) The use of the community college for other than school purposes, but in no case shall the community college be used for purposes which necessitate the removal of any school desks or other school furniture.

(c) The sale and purchase of school sites.

(d) The prosecution, settlement, or compromise of any litigation in which the district is engaged, or is likely to become engaged.

The meeting may vote money not exceeding one hundred dollars (\$100) in any one year, for any of these purposes in addition to any amount which may be raised by the sale of district school property,

and the insurance of property destroyed by fire, except that the proceeds of the insurance of the library and apparatus shall be paid into the library fund. All funds raised by the sale of school property may be disposed of by direction of a district meeting.

72341. The meeting provided for in Section 72340 shall be called by posting three notices in public places, one of which shall be in a conspicuous place at the community college campus, for not less than 10 days prior to the time for which the meeting is called. The notices shall specify the purposes for which the meeting is called, and no other business shall be transacted at the meeting.

72342. Any district meeting called pursuant to Sections 72340 and 72341 shall be organized by choosing a chairman from the electors present. The district clerk or secretary shall be clerk of the meeting, and shall enter the minutes on the records of the district. Any district meeting may be adjourned from time to time as found necessary. All votes instructing the board of trustees shall be taken by ballot, or by "ayes" and "noes" vote as the meeting may determine.

#### CHAPTER 4. OFFICERS AND AGENTS

72400. The governing board of each community college district shall fix and prescribe the duties to be performed by all persons in public school service in the district.

72401. Notwithstanding any other provisions of law, any person may be permitted by the governing board of any community college district to perform the duties specified in Section 87711 or 87712, or to serve as a nonteaching volunteer aide under the immediate supervision and direction of the certificated personnel of the district to perform noninstructional work which serves to assist such certificated personnel in performance of teaching and administrative responsibilities. Such a nonteaching volunteer aide shall not be an employee of the district and shall serve without compensation of any type or other benefits accorded to employees of the district, except as provided in Section 72509 and Section 3364.5 of the Labor Code.

No district may abolish any of its classified positions and utilize volunteer aides, as authorized herein, in lieu of classified employees who are laid off as a result of the abolition of a position; nor may a district refuse to employ a person in a vacant classified position and use volunteer aides in lieu thereof.

It is the intent of the Legislature to permit community college districts to use volunteer aides to enhance its educational program but not to permit displacement of classified employees nor to allow districts to utilize volunteers in lieu of normal employee requirements.

72402. Every community college district governing board consisting of five or more members shall, at its initial meeting and at each annual meeting, elect a president from among its members.

72403. The governing board of each community college district

shall annually at its initial meeting select one of its members as its representative who shall have one vote for each member to be elected to the county committee provided by Article 4 (commencing with Section 4290) of Chapter 2 of Part 3 of Division 2 of Title 1. The secretary or clerk of the district shall furnish the county superintendent of schools with a certificate naming the representative selected by the board.

72404. The governing board of any community college district may appoint an executive committee. In the case of a governing board which has appointed a clerk, the committee shall consist of the president, the clerk, and one other member of the board. In the case of a governing board which has not appointed a clerk the committee shall consist of the president and two members of the board. The committee shall attend to the routine business of the board. Its action shall be reported to the board for ratification at its first meeting ensuing.

72405. The governing board of any community college district may employ a person not a member of the board to act as secretary and bookkeeper for the board, and may delegate to such secretary the duties prescribed in subdivisions (a) and (c) of Section 72600.

72406. The governing board of any community college district may employ a district superintendent for one or more schools and may delegate to the district superintendent any of the duties provided for in Section 72600.

72407. The governing board of a community college district employing a district superintendent and having an average daily attendance of 1,500 or more students may employ such deputy, associate, and assistant superintendents as the board deems necessary.

72408. No person shall be eligible to hold a position as district superintendent, deputy superintendent, associate superintendent, or assistant superintendent of community colleges unless he is the holder of both a valid school administration certificate and a valid instructor's certificate, but any person employed as a deputy, associate, or assistant superintendent in a purely clerical capacity shall not be required to hold any certificate.

72409. A community college governing board may waive any credential requirement for the chief administrative officer of the community college district under its jurisdiction. Any individual serving as the chief administrative officer of a community college district who does not hold a credential may be required by the local governing board to pursue a program of in-service training conducted pursuant to guidelines approved by the board of governors.

No individual serving as the chief administrative officer of a community college district shall be subject to the provisions of the merit system specified in Article 3 (commencing with Section 88060) of Chapter 4 of Part 51 of this division or any other similar merit system.

72410. No governing board shall affix the title of deputy, associate or assistant superintendent to any position not defined by this code as a position requiring certification qualifications or which does not qualify under the provisions set forth by the Board of Governors of the California Community Colleges as a position requiring certification qualifications; except that any such title may be assigned to the position of business manager or a related business position but such position shall not, if so designated, be deemed to be a position requiring certification qualifications nor shall the employee be deemed to be a certificated employee.

72411. Any superintendent of schools, or deputy, associate, or assistant superintendent of schools, may be elected for a term of four years. The governing board of a community college district, with the consent of the employee concerned, may at any time terminate, effective on the next succeeding first day of July, the term of employment of, and any contract of employment with, the superintendent of schools, or any associate, deputy, or assistant superintendent of schools of the district, and reelect or reemploy the employee, on such terms and conditions as may be mutually agreed upon by the board and the employee, for a new term to commence on the effective date of the termination of the existing term of employment. In the event the governing board of a district determines the superintendent of schools of the district is not to be reelected or reemployed as such superintendent upon the expiration of his term, the superintendent of schools shall be given written notice thereof by the governing board at least six months in advance of the expiration of his term. In the event the governing board of a district fails to reelect or reemploy the superintendent of schools of the district as such superintendent and the written notice herein provided for has not been given, the superintendent shall be deemed reelected for a term of the same length as the one completed, and under the same terms and conditions and with the same compensation.

72411.5. A superintendent, assistant superintendent, or deputy superintendent of a community college district shall be employed, and the president of a community college may be employed, by the governing board of the district by a contract not to exceed four years. The contract may be extended for periods of no more than four years at the discretion of the governing board. The dismissal and imposition of penalties on a superintendent or president employed by contract pursuant to this section shall be in accordance with the terms of the contract of employment.

72412. Notwithstanding Section 72411, the governing board of a community college district may at any time during any school year increase the salaries of any superintendent of schools and deputy, associate, or assistant superintendent of schools without terminating the term of employment of, and reelecting or reemploying, such employee and such increase may be effective on any date ordered by the governing board.

72413. The superintendent of each community college district shall, in addition to any other powers and duties granted to or imposed upon him:

(a) Be the chief executive officer of the governing board of the district.

(b) Excepting in districts where the governing board has appointed or designated an employee other than the superintendent, or a deputy, or assistant superintendent, to prepare and submit a budget, prepare and submit to the governing board of the district, at such time as it may direct, the budget of the district for the next ensuing school year, and revise and take such other action in connection with the budget as the board may desire.

(c) Subject to the approval of the governing board, assign all employees of the district employed in positions requiring certification qualifications, to the positions in which they are to serve. Such power to assign includes the power to transfer an instructor from one campus or college to another campus or college at which the instructor is certificated to serve within the district when the superintendent concludes that such a transfer is in the best interest of the district.

(d) Upon adoption, by the district board, of a district policy concerning transfers of instructors from one campus or college to another campus or college within the district, have authority to transfer instructors consistent with such policy.

(e) Determine that each employee of the district in a position requiring certification qualifications has a valid certificated document registered as required by law authorizing him to serve in the position to which he is assigned.

(f) Enter into contracts for and on behalf of the district pursuant to Section 81655.

(g) Submit reports showing the financial and budgetary conditions of the district, including outstanding obligations, to the governing board at least once every three months during the school year.

72414. The clerk of a community college district shall perform all duties prescribed in Section 72600 not delegated by the governing board to the secretary or to the district superintendent.

72416. In any community college district the governing board of which is required to elect a clerk, the superintendent of schools of the county shall appoint one of the members of the governing board to fill the office of district clerk if a clerk is not elected by the governing board on the date prescribed, or if, except as provided in Section 72417, a vacancy occurs in the position of district clerk.

72417. If the clerk of the community college district refuses to perform the duties prescribed in Section 72600 or by the governing board, the board may at a regular meeting dismiss him and appoint another member clerk. It shall immediately notify the superintendent of schools of the county of its action.

72418. The clerk, secretary, and superintendent of the

community college district shall, in addition to the duties prescribed by this chapter, perform such other duties as may be prescribed by the governing board of the district.

72419. Anything in a city, county, or city and county charter to the contrary notwithstanding, the governing board of a community college may appoint an administrative adviser and fix and order paid his compensation. The duties of the administrative adviser are to render administrative advice to the superintendent of community colleges and to other officers and employees of the district such other administrative duties as may be assigned by the superintendent and the governing board of the district, and to assist the legal counsel of the district in the preparation and conduct of district litigation. The employee shall have been admitted to practice law in the state, and shall not be required to have any certification qualifications.

72419.5. Anything in a city, county, or city and county charter to the contrary notwithstanding, the governing board of any community college district or the governing boards of any community college districts and any county superintendent of schools may, in lieu of appointing an administrative adviser pursuant to Section 72419, appoint a legal counsel and fix and order paid his compensation. The duties of the legal counsel may include rendering legal advice to the superintendent of schools and to other officers and employees of the community college district or districts and such other administrative duties as may be assigned by the superintendent of schools and the governing board of the district or governing boards of the districts, and serving as the legal counsel of the district or districts in the preparation and conduct of school district litigation and administrative proceedings, and rendering advice in relation to school bond and tax increase measures and prepare all legal papers and forms necessary for the voting of school bonds and tax increase measures in the district or districts. The person appointed as legal counsel shall have been admitted to practice law in the state, and shall not be required to have any certification qualifications.

Neither the county counsel or district attorney shall have a duty to perform for a school district or districts any legal services which the legal counsel, while employed by such district or districts, is authorized by this section to perform and which are assigned to legal counsel by the superintendent of schools or the governing board of a district or governing boards of the districts.

In the event a district or districts ceases to employ legal counsel and requests the resumption of legal services by the county counsel or district attorney, the district or districts shall notify the county counsel or district attorney of such fact on or before January 1 of the year preceding the fiscal year in which services are to be resumed.

72420. The governing board of any community college district, may contract for the services of an attorney in private practice or utilize an administrative adviser to prepare and conduct district litigation, or to assist it in the preparation and conduct of district

litigation, and compensation of such attorney pursuant to contract shall be a proper use of district funds but the district shall first obtain the written views of the district attorney or county counsel as to the merits of the litigation and the form of the proposed contract of employment with the private attorney. The district attorney or the county counsel shall furnish his written views within seven days from the time he is requested by the governing board of the district.

72421. The governing board of any community college district, may, with the concurrence in writing of the district attorney or county counsel having jurisdiction thereof, contract with a qualified attorney in private practice to provide specialized legal services. Compensation of such attorney in private practice pursuant to contract under this section shall be a proper use of district funds, but the district shall first obtain the written views of the district attorney or county counsel, which shall be furnished within seven days from the time of the request by the governing board, as to the need for specialized legal services and on the form of the proposed contract with the private attorney.

72422. Whenever in their judgment it is deemed advisable, the governing boards of any two or more community college districts may jointly employ a supervisor of instruction, who shall devote such time to the supervision of instruction in the several districts as may be agreed upon by the several boards of trustees.

72423. The governing board of each community college district shall provide for the payment of the traveling expenses of any representatives of the board when performing services directed by the board.

72424. The governing board of any community college district having an average daily attendance of 10,000 or more may appoint a director of school building planning, who shall be a person qualified by training, experience and demonstrated ability to manage the building, construction and contracting business of the district. The director shall be responsible for the coordination of the building program of the district and shall advise the superintendent and other employees of the district with respect to the negotiation and performance of building construction contracts let by the governing board of the district.

72425. In any community college district in which the average daily attendance exceeds 60,000, and which is not located in a city and county, or in any community college district in which the average daily attendance exceeded 60,000 in the 1963-64 school year and was less than 60,000 in the 1972-73 school year or any subsequent school year, and which is not located in a city and county, the governing board may prescribe, as compensation for the services of each member of the board, the sum of seventy-five dollars (\$75) for each meeting of the board actually attended, not to exceed seven hundred fifty dollars (\$750) in any month. In any community college district in which the average daily attendance for the school year 1972-1973 was less than 60,000, except a district which also comes within the

terms of the preceding sentence, but more than 25,000, each member of the governing board of the district may receive as compensation for his services not to exceed forty dollars (\$40) for each meeting of the board actually attended, not to exceed three hundred dollars (\$300) in any month. In any community college district in which the average daily attendance for the school year 1972-1973 was 25,000 or less but more than 10,000, each member of the governing board of the district may receive as compensation for his services not to exceed thirty dollars (\$30) for each meeting of the board actually attended, but not to exceed two hundred dollars (\$200) in any month. In any community college district in which the average daily attendance for the school year 1972-1973 was 10,000 or less but more than 1,000, each member of the governing board of the district may receive as compensation for his services not to exceed twenty dollars (\$20) for each meeting of the board actually attended, not to exceed one hundred twenty dollars (\$120) in any month. In any community college district in which the average daily attendance for the 1972-1973 school year was 1,000 or less but more than 150, each member of the governing board of the district may receive as compensation for his services not to exceed ten dollars (\$10) for each meeting of the board actually attended, but not to exceed sixty dollars (\$60) in any month.

(b) The compensation of members of the governing board of a community college district newly organized or reorganized after June 30, 1973, shall be governed by subdivision (a). For such purposes the total average daily attendance in all of the community colleges of the district in the school year in which the organization or reorganization became effective pursuant to Section 4062 shall be deemed to be the average daily attendance in the district for the school year 1972-73.

(c) A member may be paid for any meeting when absent if the board by resolution duly adopted and spread upon its minutes finds that at the time of the meeting he is performing services outside the meeting for the community college district. The compensation shall be a charge against the funds of the district.

## CHAPTER 5. LIABILITIES, INSURANCE, AND CORRUPT PRACTICES

### Article 1. Liabilities

72500. The governing board of any community college district is liable as such in the name of the district for all debts and contracts, including the salary due any instructor not made in excess of the moneys accruing to the district and usable for the purposes of the debts and contracts during the school year for which the debts and contracts are made. The district shall not be liable for debts and contracts made in violation of this section.

For the purposes of this section, moneys transferred to the funds of a newly organized district pursuant to Section 85223 are deemed

district moneys accruing to the district and usable for the purposes of contracts made for the school year preceding the date the district became effective for all purposes.

72501. The governing board of any community college district shall pay any judgment for debts, liabilities, or damages out of the funds to the credit of the district, subject to the limitation on the use of the funds provided in the California Constitution. If any judgment is not paid during the tax year in which it was recovered:

(a) And if, in the opinion of the board, the amount is not too great to be paid out of taxes for the ensuing year, the board shall include in its budget for the ensuing tax year a provision to pay the judgment, and shall pay it immediately upon the obtaining of sufficient funds for that purpose.

(b) And if, in the opinion of the board, the amount of the judgment is so great that undue hardship will arise if the entire amount is paid out of taxes for the next ensuing tax year, the board shall provide for the payment of the judgment in not exceeding 10 annual installments with interest thereon up to the date of each payment, and shall include provision for the payment in each budget for not exceeding 10 consecutive tax years next ensuing. Each payment shall be of an equal portion of the principal of the judgment, except that the board, in its discretion, may provide for the prepayment of any one or more installments or any part of an installment.

72502. All claims for money or damages against a district are governed by Part 3 (commencing with Section 900) and Part 4 (commencing with Section 940) of Division 3.6 of Title 1 of the Government Code except as provided therein, or by other statutes or regulations expressly applicable thereto.

72503. Upon request of the governing board of the community college district, the district attorney of the county in which a district is located shall, without fee or other charge, defend:

(a) The district in any suit brought against the district pursuant to Part 2 (commencing with Section 814) of Division 3.6 of Title 1 of the Government Code.

(b) Any member of the governing board of the community college district, or any employee or servant of the district, as provided in Part 7 (commencing with Section 995) of Division 3.6 of Title 1 of the Government Code.

72504. Notwithstanding any provisions of law to the contrary, as an alternative to contracting with private counsel or for the use of an administrative adviser, the governing board of any community college district, may elect to supplement the legal services that customarily are being rendered by the office of county counsel or district attorney by contracting with either the office of county counsel or office of district attorney, or both, for additional services. Such additional services shall be performed at a fee and in a manner agreed upon by the governing board and the office of county counsel or office of district attorney, or both.

72505. The governing board of any community college district, may contract for the services of a hearing officer pursuant to the provisions of Chapter 14 (commencing with Section 27720) of Part 3, Division 2 of Title 3 of the Government Code and, for purposes of that chapter, the governing board is deemed to be a local body and the district a local public entity.

72506. (a) The governing board of any community college district shall insure against:

(1) The liability, other than a liability which may be insured against under the provisions of Division 4 (commencing with Section 3200) of the Labor Code, of the district for damages for death, injury to person, or damage or loss of property; and

(2) The personal liability of the members of the board and of the officers and employees of the district for damages for death, injury to a person, or damage or loss of property caused by the negligent act or omission of the member, officer or employee when acting within the scope of his office or employment.

(b) The insurance may be written in any insurance company authorized to transact the business of insurance in the state, or in a nonadmitted insurer to the extent and subject to the conditions prescribed by Section 1763 of the Insurance Code.

(c) Nothing in this section is intended to limit or restrict the authority of the district to insure under Part 6 (commencing with Section 989) of Division 3.6 of Title 1 of the Government Code.

72507. Nothing in this code shall be construed as prohibiting the governing board of any community college district from insuring, pursuant to Section 72506, against the liability of the district for damages for death, injury to person, or damage or loss of property arising out of any aviation education conducted pursuant to Article 5 (commencing with Section 78270) of Chapter 2 of Part 48 of this division or against the personal liability of the members of the board and of the officers and employees of the district for damages for death, injury to a person, or damage or loss of property caused by the negligent act or omission of the member, officer, or employee when acting within the scope of his office or employment in conducting any aviation education pursuant to Article 5 (commencing with Section 78270) of Chapter 2 of Part 48 of this division.

72508. The governing board of any community college district maintaining a course of automobile driver training shall advise the parents or guardians or persons having custody of minors of the district participating in automobile driver training courses under the jurisdiction of, or sponsored or controlled by, the district, who have signed the statement required by Section 12650 of the Vehicle Code or an application for a driver's license under Section 17701 of the Vehicle Code, of each of the following:

(a) Any civil liability of the minor which will be imposed on the parent, guardian, or other person by reason of such minor operating a motor vehicle.

(b) The insurance coverage carried by the community college

district, with respect to the use of motor vehicles in connection with such courses, specifically including any limitations of such coverage which limit such coverage to an amount less than the liability imposed on the parent, guardian, or other person, or which limit the nature of such coverage to exclude any activity or situation included within the liability so imposed.

72509. Notwithstanding Section 72506 of this article, the governing board of any community college district may provide for persons authorized by the governing board to perform volunteer services for the district insurance coverage which is the same as or comparable to that provided for employees of the district including coverage under the provisions of Division 4 (commencing with Section 3200) of the Labor Code.

72510. The governing body of a community college district may provide by rule or regulation for the reimbursement of any person or persons for the loss, destruction, or damage by arson, burglary or vandalism of personal property used in the district. Reimbursement shall be made only when approval for the use of the personal property in the district was given before the property was brought to school and when the value of the property was agreed upon by the person or persons bringing the property and the district administrator or person appointed by him for this purpose at the time the approval for its use was given. The governing body may establish a maximum value of reimbursement which will be paid.

72511. The board of governors of a community college district with 50,000 or more average daily attendance may provide protection from its own funds for the purpose of covering the liability of the district, its officers, agents, and employees, in lieu of carrying insurance in insurance companies as provided in Section 72506. Nothing contained herein shall be construed as prohibiting the board of the district from providing protection against such liability partly by means of its own funds and partly by means of insurance written by insurance companies as provided in Section 72506.

## Article 2. Corrupt Practices

72530. The offering of any valuable thing to any member of the governing board of any community college district, with the intent to influence his action in regard to the granting of any instructor's certificate, the appointment of any instructor, superintendent, or other officer or employee, the adoption of any textbook, or the making of any contract to which the board of which he is a member is a party, or the acceptance by any member of the governing board of any valuable thing, with corrupt intent, is a misdemeanor.

72531. Any contract or appointment obtained from the governing board of any community college district by corrupt means is void.

72532. Any person may be compelled to testify in any lawful investigation or judicial proceeding against any person who is

charged with any offense described in Sections 72530 or 72531.

72533. No member of the governing board of any community college district shall be interested in any contract made by the board of which he is a member.

72534. Except as provided in Section 72535, no contract or other transaction entered into by the governing board of any community college district is either void or voidable under the provisions of Section 72533, nor shall any member of such board be disqualified or deemed guilty of misconduct in office under said provisions, if the circumstances specified in the following subdivisions exist:

(a) The fact of such interest is disclosed or known to the governing board and noted in the minutes, and the governing board thereafter authorizes, approves, or ratifies the contract or transaction in good faith by a vote sufficient for the purpose without counting the vote or votes of such interested member or members, and

(b) The contract or transaction is just and reasonable as to the district at the time it is authorized or approved.

72535. The provisions of Section 72534 shall not be applicable if the circumstances specified in any of the following subdivisions exist:

(a) The contract or transaction is between the community college district and a member of the governing board of that district.

(b) The contract or transaction is between the district and a partnership or unincorporated association of which any member of the governing board of that district is a partner or in which he is the owner or holder, directly or indirectly, of a proprietorship interest.

(c) The contract or transaction is between the district and a corporation in which any member of the governing board of that district is the owner or holder, directly or indirectly, of five percent (5%) or more of the outstanding common stock.

(d) A board member is interested in a contract or transaction within the meaning of Section 72533, and without first disclosing such interest to the governing board at a public meeting of the board, influences or attempts to influence another member or members of the board to enter into the contract or transaction.

72536. No contract entered into by the governing board of a community college district is either void or voidable under the provisions of Sections 72533 and 72535, nor shall any member of such board be disqualified or deemed guilty of misconduct in office under such provisions, if the contract is a contract of employment of any spouse or child of any member of the governing board, and such employment is as a limited-term employee under Section 88105 or a short-term employee under Section 88003 whichever is applicable, and is made on a competitive basis between persons who are eligible, under written qualifications, and competent to fulfill the duties and responsibilities of such employment.

72537. The question of the validity or invalidity of a contract or other transaction entered into by the governing board of a community college district where a member of the governing board of that district is interested in such contract or transaction, as well as

the question of disqualification or misconduct in office of such interested member, shall be exclusively governed by the provisions of the Education Code which are hereby declared to and shall supersede (1) any and all provisions of law contained in any code or law of this state, except those which specifically refer to members of the governing boards of community college districts and which might otherwise be applicable and (2) any and all provisions of law contained in any charter or ordinance of a city, county or city and county, which might otherwise be applicable.

72538. A board member shall not be deemed to be interested in a contract within the meaning of Section 72533 solely by reason of his membership in a nonprofit corporation formed under the Agricultural Code, or in a nonprofit corporation formed under the Corporations Code for the sole purpose of engaging in the merchandising of agricultural products providing that the fact of such membership is disclosed or known to the governing board and noted in the minutes, and the governing board thereafter authorizes, approves, or ratifies the contract in good faith by a vote sufficient for the purpose without counting the vote of such member.

72539. Any contract made in violation of Section 72533 is void.

## CHAPTER 6. MISCELLANEOUS PROVISIONS

### Article 1. Records and Reports

72600. The governing board of every community college district shall:

(a) Certify or attest to actions taken by the governing board whenever such certification or attestation is required for any purpose.

(b) Keep an accurate account of the receipts and expenditures of district moneys.

(c) Make an annual report, on or before the first day of July, to the county superintendent of schools in the manner and form and on the blanks prescribed by the board of governors.

(d) Make or maintain such other records or reports as are required by law.

72601. Whenever in any school year the community college register of any instructor, or other records of any district are destroyed by conflagration or public calamity, preventing the instructor and school officers from making their annual reports in the usual manner and with accuracy, affidavits of the instructor, the president, or other officers of the district, certifying as to the contents of the destroyed register or other records, shall be accepted by all school authorities for all purposes appertaining to the district, except that of average daily attendance.

72602. Whenever the average daily attendance of a community college district has been materially affected in any school year by conflagration, public calamity, or epidemic of unusual duration and

prevalence, the regular annual reports of the instructor, the president, or officers of the district, shall be accepted by all school officers for all matters appertaining to the district, except that of average daily attendance.

72603. Whenever the destruction of records of a district is not otherwise authorized or provided for by law, the governing board of the district may destroy such records of the district in accordance with regulations of the board of governors which they are authorized to adopt.

72604. The governing board of a community college district may make microfilm or photographic copies of any records of the district. The original of any records of which a photographic or microfilm copy has been made may be destroyed when provision is made for permanently maintaining such photographic or microfilm copies in the files of the district, except that no original record that is basic to any required audit shall be destroyed prior to the second July 1st succeeding the completion of the audit.

72605. In any joint community college district, all returns, reports, certificates, estimates, petitions, and other papers of any kind relating to community colleges and community college districts, required by law to be filed with or presented to the board of supervisors or county superintendent of schools, shall be filed with or presented to the supervisors or superintendent of schools of each county in which any portion of the district is situated.

## Article 2. Counseling Services

72620. The governing board of a community college district may provide in each school within the district an organized and functioning counseling program. Counseling shall include, but not be limited to, the following:

(a) Educational counseling, in which the student is assisted in planning and implementing his immediate and long-range educational program.

(b) Career counseling, in which the student is assisted in assessing his aptitudes, abilities, and interests in order to make realistic career decisions.

(c) Personal counseling, in which the student is helped to develop his ability to function with social and personal responsibility.

(d) Evaluating and interpreting test data.

(e) Counseling and consultation with parents and staff members on learning problems and guidance programs for students.

For purposes of this section, a person performing counseling services to students shall be a school counselor possessing a valid credential with a specialization in student personnel services and assigned specific times to directly counsel students regarding their educational, vocational, and social adjustment.

A governing board of a community college district which offers such counseling services, may contract with the governing boards of

any other districts, or private schools, or other public and private agencies or organizations, to render such counseling services. In so contracting, the governing board of a community college district shall not contract at less than cost to a private school, or private agency or organization.

Nothing in this section shall be construed as prohibiting persons participating in an organized advisory program approved by the governing board of a community college district, and supervised by a district counselor, from advising students pursuant to the organized advisory program.

Notwithstanding any provisions of this section to the contrary, any person who is performing such counseling services pursuant to law authorizing the performance thereof in effect before the effective date of this section shall be authorized to continue to perform such services on and after March 4, 1972, without compliance with the additional requirements imposed by this section.

### Article 3. Promoting Education

72630. The governing board of a community college district may:

(a) Conduct studies through research and investigation as are determined by it to be required in connection with the present and future management, conditions, needs, and financial support of the district; or join with other community college district governing boards in the conduct of such studies.

(b) Install and maintain exhibits of educational programs and activities of the district at any county fair held in the county in which the district is located in whole or in part, or at any agricultural district fair held in the county in which the district is located in whole or in part.

(c) Inform and make known to the citizens of the district, the educational programs and activities of the colleges therein.

(d) Subscribe for membership for a college under its jurisdiction in any society, association, or organization which has for its purpose the promotion and advancement of public or private education.

(e) Subscribe for membership in, or otherwise become a member of, any national, state or local organization of governing boards of community college districts or members thereof which has for its purposes the promotion and advancement of public education through research and investigation, and the cooperation with persons and associations whose interests and purposes are the betterment of the educational opportunities of the students of the state.

(f) Select a member or members of the board to attend meetings of any society, association, or organization for which the district has subscribed for membership, or any convention to which it may pay the expenses of any employee.

72631. The actual expenses of the member or members selected to attend a meeting or convention pursuant to subdivision (f) of

Section 72630 shall be allowed and paid out of the funds of the district, and the governing board of the district may authorize an advance of funds to cover such expenses, with the advance to be repaid or adjusted upon the filing of a regular claim for the actual expenses incurred. Except as otherwise provided in this section, the governing board of any district may pay out of the same funds the actual and necessary expenses incurred in connection with activities pursuant to subdivisions (a), (b), and (d) of Section 72630.

If any studies are undertaken jointly by two or more districts pursuant to subdivision (a) of Section 72630, the costs thereof shall be apportioned among the participating districts as determined by the agreement of the governing boards. Expenses, including transportation expenses, incurred in connection with installing, maintaining and returning exhibits provided pursuant to subdivision (b) of Section 72630 may be paid only out of funds of the district not required to be used for other purposes.

72632. The governing board of any community college district or any member of the governing board of a district may prepare or disseminate information or may make public or private appearances or statements for the purpose of urging the passage or defeat of any school measure of the district.

As used in the section, "school measure" includes any proposition for the issuance of bonds of the district, an increase in the maximum tax rate of the district, the acceptance, expenditure, and repayment of state funds by the district to enable the district to construct buildings and other facilities, or the candidacy of any person for election to the governing board of the district.

No community college district funds, services, supplies, or equipment shall be used for the purpose of urging the passage or defeat of any school measure of the district, including, but not limited to, the candidacy of any person for election to the governing board of the district.

Nothing in this code shall be construed as prohibiting any administrative officer of a district from appearing at any time before a citizens group, which requests his appearance, to discuss the reasons why the governing board of the district called an election to submit to the voters of the district a proposition for the issuance of bonds or for an increase in the maximum tax rate of the district and to answer questions put to him by any taxpayer concerning the cost of such proposals.

#### Article 4. Excursions to a Foreign Country

72640. The governing board of a community college district may:

(a) Conduct field trips or excursions in connection with courses of instruction or school-related social, educational, cultural, athletic, or college band activities to and from places in the state, any other state, the District of Columbia, or a foreign country for students enrolled in a college. A field trip or excursion to and from a foreign country

may be permitted to familiarize students with the language, history, geography, natural sciences, and other studies relative to the district's course of study for such pupils.

(b) Engage such instructors, supervisors, and other personnel as desire to contribute their services over and above the normal period for which they are employed by the district, if necessary, and provide equipment and supplies for such field trip or excursion.

(c) Transport by use of district equipment, contract to provide transportation, or arrange transportation by the use of other equipment, of students, instructors, supervisors or other personnel to and from places in the state, any other state, the District of Columbia, or a foreign country where such excursions and field trips are being conducted; provided that, when district equipment is used, the governing board shall secure liability insurance, and if travel is to and from a foreign country, such liability insurance shall be secured from a carrier licensed to transact insurance business in such foreign country.

(d) Provide supervision of students involved in field trips or excursions by certificated employees of the district.

No student shall be prevented from making the field trip or excursion because of lack of sufficient funds. To this end, the governing board shall coordinate efforts of community service groups to supply funds for students in need of them.

No group shall be authorized to take a field trip or excursion authorized by this section if any student who is a member of such an identifiable group will be excluded from participation in the field trip or excursion because of lack of sufficient funds.

No expenses of students participating in a field trip or excursion to any other state, the District of Columbia, or a foreign country authorized by this section shall be paid with district funds. Expenses of instructors, chaperons, and other personnel participating in a field trip or excursion authorized by this section may be paid from district funds, and the district may pay from district funds all incidental expenses for the use of district equipment during a field trip or excursion authorized by this section.

The attendance or participation of a student in a field trip or excursion authorized by this section shall be considered attendance for the purpose of crediting attendance for apportionments from the State School Fund in the fiscal year. Credited attendance resulting from such field trip or excursion shall be limited to the amount of attendance which would have accrued had the students not been engaged in the field trip or excursion, but shall not exceed 10 schooldays.

All persons making the field trip or excursion shall be deemed to have waived all claims against the district or the State of California for injury, accident, illness, or death occurring during or by reason of the field trip or excursion. All adults taking out-of-state field trips or excursions and all parents or guardians of students taking out-of-state field trips or excursions shall sign a statement waiving such claims.

No transportation allowances shall be made by the board of governors for expenses incurred with respect to field trips or excursions which have an out-of-state destination. A community college district which transports students, instructors or other employees of the district in schoolbuses within the state and to destinations within the state, pursuant to the provisions of this section, shall report to the board of governors on forms prescribed by them the total mileage of schoolbuses used in connection with such educational excursions.

72641. The governing board of any community college district conducting excursions and field trips pursuant to this article shall provide, or make available, medical or hospital service, or both, through nonprofit membership corporations defraying the cost of medical service or hospital service, or both, or through group, blanket or individual policies of accident insurance from authorized insurer, for students of the district injured while participating in such excursions and field trips under the jurisdiction of, or sponsored or controlled by, the district or the authorities of any college of the district. The cost of the insurance or membership may be paid, from the funds of the district, or by the insured student, his parent or guardian.

The insurance may be purchased from, or the membership may be taken in, only such companies or corporations as are authorized to do business in this state.

72642. No air transportation may be provided under this article unless the air transportation is provided by chartered aircraft operated exclusively by an air carrier or foreign air carrier as defined in subsections (3) and (19) of Section 101 of Title 1 of the "Federal Aviation Act of 1958" (Public Law 85-726; 72 Stat. 731) engaged in air transportation as defined in subdivision (10) of the same section while there is in force a certificate or permit issued by the Civil Aeronautics Board of the United States, or its successor, authorizing such air carrier to engage in such transportation.

#### Article 5. Scholarship and Loan Funds

72650. The governing board of a community college district may establish and maintain a scholarship and loan fund, to be administered by a committee composed of the members of the governing board of the district, the district superintendent, and such other community, faculty, administrative, and student representatives as the governing board shall determine.

The governing board shall, by rules and regulations, determine the terms of office and the method of selection of such community, faculty, administrative, and student representatives.

72651. The superintendent of the community college district shall be the chairman of the committee and shall be the chief executive officer of the fund.

72652. The committee shall meet at least once each fiscal year and at such other times as it may be called into session by the chairman.

72653. The committee may accept on behalf of, and in the name of, the fund, such gifts, donations, bequests, and devises as are made for the purposes of the fund. Such gifts, donations, bequests, and devises may be made subject to such conditions or restrictions as the committee may prescribe.

Any donor to the fund may impose conditions to his gift, donation, bequest, or devise. The committee shall review all such conditions and make a recommendation to the governing board as to the compatibility of such conditions with the intent and purpose of the fund. The governing board shall have the authority to prohibit the committee from accepting any proposed donation to the fund if conditions with respect to the gift, donation, bequest, or devise are incompatible with the intent and purpose of the fund, as determined by the governing board.

Except as provided in this section, in no event shall the approval of any state agency be a prerequisite to acceptance by the committee of any gift, donation, bequest, or devise.

72654. Money in the fund shall be deposited in a bank or other institution whose accounts are insured by the Federal Deposit Insurance Corporation, and any money so deposited shall be in an account or accounts fully covered by such insurance.

The committee shall establish and maintain procedures to identify clearly all money in the fund and its separate and distinct impressed trusts, if any, and from whom and to whom such money was received and disbursed.

72655. All money in the fund shall be available for making interest-free loans for educational advancement, for scholarship, or for grants-in-aid to eligible persons. An eligible person for such loans shall be any of the following:

(a) A bona fide organization of a college under the jurisdiction of the governing board of the district.

(b) An enrollee at a college under the jurisdiction of the governing board of the district.

(c) A graduate of a college under the jurisdiction of the governing board of the district.

72656. An applicant for a loan from the fund shall make application therefor in accordance with reasonable rules and regulations established by the governing board of the district, provided that such rules and regulations shall not include any conditions limiting eligibility on account of race, creed, or country of origin.

72657. All expenses in the administration of the fund including, but not limited to, operating costs, audits, promotion of the fund, and physical housing for the committee, shall be a proper charge against the funds of the district and the annual budget of the districts shall include funds for such expenses.

72658. The governing board of the community college district shall arrange for an annual audit of the fund in the same manner as prescribed in Section 84040.

72659. The chief executive officer of the fund shall make periodic reports, but not less frequently than annually, to the governing board of the district with respect to the status and activity of the fund.

#### Article 6. Auxiliary Organizations

72670. The governing board of a community college district may establish auxiliary organizations for the purpose of providing supportive services and specialized programs for the general benefit of students, as determined by the governing board, and which are not provided by the general fund of the district. Such services and programs shall be consistent with the purposes of the college and shall conform with the policies and regulations of the governing board. Commercial services operated by an auxiliary organization shall be self-supporting. Nothing in this article shall be construed as granting to any auxiliary organization any power which exceeds any power of a governing board of a community college district.

72671. Auxiliary organizations formed pursuant to this article may be incorporated under the laws of the State of California. Each auxiliary organization so organized shall have a board of directors whose size and membership shall be established by the governing board of the district. Each board of directors shall hold at least one business meeting in each fiscal year.

No member of the board of directors shall be financially interested in any contract or other transaction entered into by the board of directors.

72672. The governing board of the community college district may establish a fund for each auxiliary organization into which proceeds derived from the operation of the organization or from fees, sales, grants, contracts, bequests, trusts, or gifts shall be deposited. Moneys from such sources shall be deposited or invested in one or more of the following ways:

(a) Deposits in a bank or banks whose accounts are insured by the Federal Deposit Insurance Corporation.

(b) Investment certificates or withdrawable shares in state-chartered savings and loan associations and savings accounts of federal savings and loan associations provided such associations are doing business in this state and have their accounts insured by the Federal Savings and Loan Insurance Corporation.

(c) Purchase of United States securities pursuant to subdivision (a) of Section 16430 of the Government Code.

72673. Any employee, not a student or substitute employee, employed by an auxiliary organization shall be a member of the classified service of the district.

76474. The board of directors of each auxiliary organization shall have prepared annually a budget which shall be submitted to the

governing board of the district for approval.

72675. Funds established under this article shall be audited pursuant to Section 84040.

## PART 46. DISTRICT FORMATION, ANNEXATION, AND TRANSFER

### CHAPTER 1. DISTRICT ORGANIZATION AND REORGANIZATION

#### Article 1. Board of Governors' Approval of Proposals

(Heading of Article 1 amended by Stats 1976, Ch. 1011)

[ORIGINAL SECTION]

Article 1. Board of Governors' Approval on Proposals

74000. All community college district organization or reorganization proposals, by whatever procedure, shall be submitted to the Board of Governors of the California Community Colleges for approval.

#### Article 2. Policy and Procedures

74010. The Legislature hereby declares as its policy that all of the territory of the state shall be included in community college districts, except that of counties the residents of which account for fewer than 250 units of average daily attendance in grades 13 and 14 in community colleges in the state in the preceding fiscal year. However, the territory of such counties may be included in community college districts pursuant to procedures prescribed by law.

For purposes of this section and Section 74011, references to "counties" in the case of Modoc County and Sierra County shall be deemed to refer to all of the community college district territory under the jurisdiction of the county superintendents of schools of those counties, and not to the territory precisely included within the boundaries of the counties, where such community college district territory extends into Siskiyou or Plumas County. The remaining provisions of this article shall be construed and applied in accordance with such meaning, where applicable.

74011. On or before September 15, 1973, the county committee on school district organization of each county in which the residents account for 250 or more units of average daily attendance in grades 13 and 14 in community colleges in the state in the 1972-73 fiscal year shall submit to the Board of Governors of the California Community Colleges approvable plans and recommendations for the inclusion of all of the territory of the county in one or more community college districts or for the annexation to existing community college districts of territory not a part of any community college district. The county committee on school district organization of any other county may

submit such plans and recommendations at any time. A single plan for annexation may contain alternative proposals respecting the community college district or districts to which annexation is proposed.

When, in any fiscal year after the 1972-73 fiscal year, the residents of a county for the first time account for 250 or more units of average daily attendance in grades 13 and 14 in community colleges in the state, the county committee on school district organization shall, in the next succeeding fiscal year, submit such plans and recommendations to the board of governors.

Notwithstanding the provision of Section 74300, if the plan prepared by the county committee proposes the annexation of territory to an existing community college district which maintains not more than two community colleges, an agreement to the annexation by the community college board shall not be required.

Plans and recommendations which are not approved by the board of governors shall be returned to the county committee on school district organization for revision and resubmission to the office of the Chancellor of the California Community Colleges.

74012. If the board of governors does not approve all or any part of a plan submitted by a county committee, the board shall so notify the committee, setting forth the reasons for not approving and the nature of additional data or study which it deems necessary. The county committee shall thereupon reconsider the matter and resubmit the plan within six months from the date of notice from the board of governors.

74013. The board of governors may approve all or any portion of a plan submitted by a county committee. When the board of governors approves all or part of a plan, it shall notify the county superintendent of schools and the county board of supervisors of the county or counties involved.

74014. Elections to carry out the proposals of a plan approved by the board of governors shall be called and conducted by the county superintendent of schools of the county in which all or the greater portion of the area is situated at the time the plan is recommended by the county committee and shall be held pursuant to the provisions of Section 4405, but in any event within one year after date of notification of original approval or by September 15, 1975, whichever is earlier, for plans required to be submitted on or before September 15, 1973. For plans required to be submitted after September 15, 1973, the election shall be held within one year after the date of notification of original approval. Alternative annexation proposals contained in a single approved plan shall be submitted to the electors as separate alternative propositions. When alternative annexation propositions are submitted to the electors, that proposition receiving the approval of the majority of qualified electors voting shall be adopted. In the event that more than one annexation proposition receives the approval of the majority of the qualified electors voting, that proposition which receives the greatest number of favorable

votes in excess of the majority shall be adopted.

If a county committee on school district organization has submitted a plan and recommendation to the board of governors prior to September 23, 1974, and an election on such plan and recommendation has not been held prior to such date, the county committee or school district organization may subsequently determine that the intent of Section 74010 may equally be satisfied by annexation of the territory to either of two community college districts. Following a public hearing it may amend its plan and recommendation by a majority of all those entitled to vote and submit its amended proposal to the board of governors. The amended proposal shall be submitted within 60 days after such effective date. The board of governors may approve or disapprove any such amended proposal.

74015. Notwithstanding the provision of Section 74011, the Board of Governors of the California Community Colleges may grant an extension of time for submitting plans and recommendations upon request of the county committee on school district organization and the executive officer of the board of governors. Such time extension shall expire on or before March 15, 1974.

The Board of Governors of the California Community Colleges may grant a further extension of time for the submitting of plans and recommendations where such submission is its responsibility. Such extension shall not extend beyond September 15, 1974.

74016. If the county committee on school district organization fails to submit plans and recommendations, as provided in Section 74011, except when an extension of time has been given under the provisions of Section 74015 and this section, the office of the Chancellor of the California Community Colleges, shall prepare a plan or plans and submit them to the Board of Governors of the California Community Colleges on or before September 15 in the fiscal year following the fiscal year in which such plans and recommendations were required to be submitted for its approval. If an extension of time has been given under the provisions of Section 74015 and this section, and the county committee fails to submit a plan, the Chancellor of the California Community Colleges shall prepare a plan or plans and submit them to the Board of Governors of the California Community Colleges within one year from the date of expiration of such extension for its approval.

When submitting of plans and recommendations for a territory has become the responsibility of the Chancellor of the California Community Colleges, and such territory may be affected by a study of the feasibility of an interstate or community college district, the board of governors may grant an extension of time for the preparation of plans and recommendations. Such extension shall not extend beyond the last date upon which the county committee on school district organization was required to have submitted its plans and recommendations.

Elections shall be conducted prior to the date specified in Section

74014 on all organization plans pursuant to Section 74014. If at the end of the above procedures, any territory of the state required to be included in a community college district is not included in a community college district, the board of governors shall adopt a resolution placing such territory in one or more community college districts, and shall notify the proper boards of supervisors to make the necessary orders and shall inform all other agencies concerned of its actions. Such resolution shall be adopted by the board of governors on or before September 15 in the second fiscal year following the fiscal year in which such plans and recommendations were required to have been submitted, and the required notices shall be sent by registered mail to be received by all agencies not later than December 1 in the year of the adoption of the resolution.

74017. A county committee on school district organization may formulate plans and recommendations for the formation of a community college district as a preliminary step to the inclusion of such district in a larger community college district for which plans and recommendations have been or are being formulated. The plans and recommendations for the proposed district to be formed as a preliminary step and the plans and recommendations for the proposed larger district shall be submitted to and considered by the board of governors at the same time, as though the whole were a single proposal.

Plans and recommendations formulated pursuant to this section may include a requirement that bonds of the preliminary community college district be authorized in an amount specified by the county committee on school district organization for the purpose of paying an equitable share of the cost of the property to be owned or held by the larger community college district in which the preliminary community college district is to be included. When such a requirement is included in the plans and recommendations, the county superintendent shall call and conduct a bond election to be held concurrently with the election on formation of the preliminary community college district.

Sections 74101 and 74102 shall not apply to the formation of a community college district as a preliminary step to the inclusion of such district in a larger community college district.

If plans and recommendations submitted pursuant to this section are approved by the board of governors, the county superintendent of schools shall call elections on the question of approval of each of the proposals on dates fixed by the county committee on school district organization, but with the dates of the elections on the formation of the preliminary community college district and the formation of the larger community college district to be no less than 60 days apart. The election on the formation of the larger community college district shall be held only if the election on the formation of the preliminary community college district and, if required, the bond election are successful.

If an election to form a community college district as a preliminary

step to the inclusion of such a district in a larger community college district is successful, the district shall not become effective for any purpose until the formation of the larger community college district has been approved at an election and the election results have been certified as required by law.

74018. Notwithstanding any provision of law to the contrary, the governing board of a community college district formed as a preliminary step to the inclusion of such district in a larger community college district pursuant to Section 74017, may request the county superintendent of schools to transfer to the larger community college district any funds derived from the issuance and sale of bonds authorized by the district for transfer to the larger community college district. The county superintendent of schools shall order the transfer to the larger community college district as requested. Any funds so transferred may, after inclusion in the larger community college district of the community college district organized as a preliminary step to inclusion, be expended for purposes authorized by law, throughout the area of such larger community college district.

74019. Notwithstanding Section 4066, specific provision is made that a community college district formed pursuant to Section 74017 as a preliminary step to inclusion in a larger community college district also formed pursuant to Section 74017 shall continue to exist as a district for the purpose of issuing and selling bonds in the amount specified by the county committee on school district organization, the proceeds of which are to be transferred to the larger community college district on or after the date the formation of such larger community college district becomes effective for all purposes.

74020. The procedures contained in Chapter 2 (commencing with Section 4200) of Part 3 of Division 1 of Title 1 shall be used in the development of plans and recommendations for the inclusion of territory in community college districts. The terms of the plan for the inclusion of territory may be based on any provision of Part 3 (commencing with Section 4000) of Division 1 of Title 1.

74021. The plans and recommendations for the formation of a community college district prepared by a county committee on school district organization pursuant to this article may propose the formation of a community college district or the annexation of territory to a community college district to include either all or a part of a union or joint union high school district or unified district.

The portion of a union or joint union high school district or unified district excluded from a proposed community college district may be excluded only for the purpose of becoming a part of another community college district. If the excluded portion fails to become a part of a community college district within a period of five years after its exclusion it shall become a part of the community college district of which the union or joint union high school district or unified district is a component. Any portion of a union or joint union high school district or unified district excluded from a newly formed

community college district under provisions of this section may be included in a proposal to form a new community college district or annexed to a community college district under provisions of Chapter 2 (commencing with Section 74100) of this part or Chapter 2 (commencing with Section 4200) of Part 3 of Division 1 of Title 1.

### Article 3. Limitations

74030. Whenever any community college district boundary change, whether proposed under this code or under any other provision of law, involves the withdrawal from a district maintaining three or more community colleges of territory containing community college land, buildings, or facilities owned by that district, such proposal shall not be effected without the prior express approval of the governing board of that district.

74031. During the first five years following the formation of a community college district, no territory shall be removed from the district under any procedure unless the consent of the governing board of the district has been given prior to commencement of the proceedings for removal or unless the removal of such territory is provided for in the plans and recommendations of the county committee.

74032. On and after February 1, 1963, no district, except a community college district, shall be formed to maintain a community college. No district, except a community college district, shall maintain a community college on and after July 1, 1970.

A separate community college district may be formed by a unified school district pursuant to the provisions of Article 3 (commencing with Section 74140) of Chapter 2 of this part.

## CHAPTER 2. NEW DISTRICTS

### Article 1. Standards for Formation of Community College Districts

74100. The board of governors shall establish minimum standards for the formation of community college districts.

74101. Except as provided in Section 74104, no community college district shall be formed, and the board of governors shall not approve a petition to form a community college district if the estimated potential average daily attendance of the district is less than 1,000 units of average daily attendance.

74102. Except as provided in Section 74104, no community college district shall be formed and the board of governors shall not approve a petition to form a community college district if the assessed valuation of taxable property in the proposed district is less than one hundred fifty thousand dollars (\$150,000) for each unit of estimated potential average daily attendance. For the purposes of this section, the assessed valuation of the territory in the district shall

be that shown by the last equalized assessment roll of the county or counties in which the district will be located as of the time the petition to form the district is presented to the board of governors.

74103. For the purposes of Sections 74101 and 74102, the estimated potential average daily attendance means the estimate made pursuant to this section.

For each petition for the formation of a community college district, the board of governors shall estimate the attendance of resident pupils who will be in grades 13 and 14 of the proposed district during the second school year after the date the district is in existence for all purposes.

As used in this section, "resident students" means students who reside or will reside in the proposed district.

74104. If the Board of Governors determines that the proposed district will serve an area which is isolated from other existing community colleges or if existing community colleges are inaccessible to residents of the area to be served, the Board of Governors may approve the formation of a new district community college with a smaller estimated potential average daily attendance or assessed valuation for each unit of estimated potential average daily attendance than that required by Sections 74101 and 74102.

74105. This article does not apply to the formation of a new community college district which consists wholly or partially of territory of a unified district or union high school district maintaining a community college on September 15, 1961.

## Article 2. Formation by Petition of Boards of Trustees

74110. Community college districts shall be formed pursuant to this article.

74111. "High school district," as used in this chapter, means high school district or unified school district.

74112. A community college district may include all or part of the territory of one high school or unified district or two or more high school or unified districts and may, with the approval of the Board of Governors of the California Community Colleges, include noncontiguous territory; provided, however, that the terms of this section shall not be applicable to any districting proposals initiated prior to March 1, 1967. A districting proposal shall be deemed to have been initiated when the board of trustees of a community college district and the board of trustees of the district seeking annexation have adopted resolutions ratifying the terms of the annexation agreement.

74113. A community college district may be formed to include all or a part of the territory of an existing community college district and one or more high school and unified districts.

74114. The governing board of any high school district or the governing boards of two or more high school districts, or the governing board of a community college district and the governing

board of one or more high school districts, may present to the board of governors a petition asking permission to call an election for the formation of a community college district to include all, or a portion of, the territory in the high school district or districts, as the case may be. The petition may include a proposal to form trustee areas in the proposed community college district, and shall state whether five or seven members shall constitute the governing board of the district. The board of governors shall make or cause to be made a survey of the proposed community college district and of other high school districts which, in whole or in part, may appropriately be included in the proposed district.

74115. The cost of the survey shall be borne by the high school district, the governing board of which signed the petition, or, if there are two or more high school districts petitioning the cost shall be borne by the high school districts in proportion to their assessed valuation. The cost of the survey to a high school district is a proper charge against the maintenance fund of the district.

74116. If the board of governors approves the petition, it shall within 30 days after approval notify the superintendent of schools of the county in which the greatest area of the proposed community college district lies.

74117. Within 30 days after receiving the notice the superintendent of schools of the county within which the greatest area of the proposed community college district lies, shall call an election to be held in every elementary district and unified district or portion thereof included in the proposed community college district. He shall establish one or more precincts in each elementary or unified district, or portion thereof, and appoint three qualified electors in each precinct to conduct the election.

74118. The election shall be called by posting notices in three public places in each district, one of which shall be a public schoolhouse of the district, at least two weeks before the election, and by publishing the notice at least once a week for two successive weeks in a newspaper having a general circulation in the proposed community college district. The first publication shall be not less than two weeks before the election. The notice shall specify the polling places, and, in cities, the precinct lines.

74119. The expenses of printing notices and ballots and other necessary expenses incurred in the calling, holding, and conducting of the election shall be paid by the board of supervisors out of the county general fund.

74120. The election shall be held separately and simultaneously at a public schoolhouse in each elementary school district or in each precinct, and shall be conducted in the manner provided for conducting elections of governing boards of elementary school districts.

74121. The ballots used in any election held for the purpose of forming a new community college district at the election in each district shall contain the words "Community college district—Yes"

and "Community college district—No." The ballots used in any election held pursuant to Sections 74145 and 74150 for the purpose of separating the community college from an existing unified or high school district and thus forming a new community college district with boundaries identical to those of the existing unified or high school district shall contain the words "In favor of separation of the community college from the unified district (or high school district) to form a separate community college district—Yes" and "In favor of separation of the community college from the unified district (or high school district) to form a separate community college district—No." Each elector voting at the election shall make a cross with a pencil, pen, or a rubber stamp after the answer he desires to give.

74122. The election officers in each district or precinct shall canvass the vote of the election as soon as the polls are closed. They shall report the result to the superintendent of schools who called the election within five days after the election.

74123. Within 10 days after receiving the returns of the election, the superintendent of schools shall combine the votes "for" and the votes "against" the formation of the community college district and declare and record the result, with the details of the vote in each district, in a book kept by him for that purpose.

74124. If a majority of the votes cast at the elections is in favor of the formation of the community college district, he shall file with the county clerk of the county or of each of the counties in which the proposed community college district lies, a certificate showing the total number of votes cast in each district in favor of the community college district, the total number of votes in each district against the community college district, the aggregate result of the election, and the boundaries of the proposed district.

74125. If it appears from the certificate filed by the superintendent of schools that a majority of the votes cast at the election is in favor of the formation of the community college district, the community college district is formed effective as provided in Sections 4062 and 4064. The county clerk shall record the certificate in full in his record of school districts.

74126. If a unified district is formed to include a high school district and the boundaries of the high school district are coterminous with a community college district and with the boundaries of the newly formed unified school district, the community college district shall remain a separate district and shall not become an integral part of the unified district.

This section shall not affect the status of any unified district formed and maintaining a community college on or before July 1, 1961, and shall not be deemed to require the formation of a community college district for the maintenance of any community college now operated by a unified district.

Notwithstanding the provisions of Section 72020 the governing board having jurisdiction over the community college district at the

time unification of the component district or districts takes place shall constitute the governing board of the community college district.

A community college district remaining a separate district pursuant to this section shall not be deemed a newly created district within the meaning of Chapter 8 (commencing with Section 54900), Part 1, Division 2, Title 5 of the Government Code.

74127. Upon the formation of a community college district the boundaries of which are coterminous with the boundaries of a single existing high school district of any type and which districts are thereafter governed by governing boards of identical personnel, if prior to the formation of such community college district the voters of the high school district at an election had voted a district tax rate in excess of the maximum rate prescribed by Article 3 (commencing with Section 85130) of Chapter 7 of Part 50 of this division such excess tax rate shall be continued at the option of the governing boards of the high school and community college districts as the maximum combined tax rate of both of said districts for combined high school and community college purposes for a period not to exceed the period of time for which such excess tax rate was so previously authorized by the voters of the high school district.

Whenever the excess tax rate is continued as the maximum combined rate of the high school and community college districts, and while both districts are governed by governing boards of identical personnel, the governing boards of such districts may, by resolution, divide said maximum combined tax rate between the two districts, provided that the resulting maximum tax rate for either of the districts shall not be established at a rate lower than the applicable rate or rates established by Article 3 (commencing with Section 85130) of Chapter 7 of Part 50 of this division.

As used in this section, "high school district" includes a unified school district, and "high school purposes" includes unified school district purposes.

74128. Every community college district formed under the provisions of this article shall be given the name selected for it by the governing board of the district and shall be designated as the "\_\_\_\_\_ (using the name of the district) Community College District." In the name by which the district is so designated the district and its governing board may sue and be sued and hold and convey property for the benefit of the district.

The governing board of a community college district may, by resolution, change the name of the district or of any of the community colleges maintained by the district; provided, however, that the name shall continue to contain the words "Community College District" or "Community College," as the case may be.

Article 3. Alternate Provisions for Formation of a Community  
College District From Territory of a Unified District  
Maintaining a Community College

74140. Where a unified school district maintains one or more community colleges, a community college district may, pursuant to this article, be formed for purposes of maintaining the one or more community colleges. The provisions of Article 1 (commencing with Section 74100) of this chapter shall not apply to proceedings to form a community college district under this article. Proceedings to form a community college district pursuant to this article shall not require approval by the Board of Governors of the California Community Colleges.

74141. The governing board of the unified district may by resolution form a separate community college district coterminous with the boundaries of the unified district. The governing board of the unified district shall serve also as the governing board of the community college district.

74142. The governing board shall establish, for community college purposes, separate fiscal procedures, including a separate budget, separate policy development, and separate agenda consideration at meetings of the governing board. Such fiscal procedures, policy development, and agenda shall be separate from those of the unified district.

74143. In any case where a community college district and a unified district have a common governing board pursuant to the provisions of this article, such governing board shall submit to the county committee on school district organization, or where there is no such county committee, the county board of education a list of real and personal property, funds and other assets, and obligations of the original unified school district. The common governing board, subject to the approval of the county committee on school district organization, or where there is no such county committee, the county board of education, shall provide for the evaluation and division between the community college district and the unified school district of the real and personal property, funds and other assets, outstanding and unissued bonds, and other obligations of the original unified school district. In addition the common governing board, subject to the approval of the county committee on school district organization, or where there is no such county committee, the county board of education, shall establish procedures for handling the separate fiscal operations.

The evaluation and division of outstanding and unissued bonds between the unified and community college district shall be accomplished without an election of the voters of either district and only the pro rata amount of bonded indebtedness divided hereunder shall be a liability of each district for purposes of determining the total authorized bonded indebtedness of each district. The common governing board, subject to the approval of the county committee on

school district organization, or where there is no such county committee, the county board of education, shall select a date for evaluation purposes under this article.

All other evaluation and division of any assets and liabilities of each district not expressly provided for in this article shall be completed by the common governing board in accordance with a plan approved by the county committee on school district organization, or where there is no such county committee, the county board of education.

74144. (a) In any case where a community college district and a unified district have a common governing board pursuant to the provisions of this article, such governing board may, on or before December 31 in any even-numbered year, on its own initiative, determine that a separate community college district governing board be established and require the members of the common board to elect as to which board they shall serve upon. The community college board so created shall be composed of the same number of members as the common board.

(b) If an individual serving on a common governing board elected pursuant to city charter, whose term on the common governing board is to expire in December of the second succeeding odd-numbered year following the even-numbered year set out in subdivision (a), elects to serve on the community college district governing board only, such act shall be deemed to have created a vacancy in his membership on the unified district governing board commencing on the first Monday after the first day in December of the first odd-numbered year following such even-numbered year. Such vacancy shall be filled as provided by the city charter.

In any odd-numbered year first succeeding the year set out pursuant to Section 74144 on the same date upon which the election for members of the common governing board is held pursuant to city charter, an election shall be held in the community college district to elect members to the community college district governing board to fill the positions of the governing board members whose terms will expire in December of such odd-numbered year, and the other governing board members, if any, whose terms will expire in December of the next succeeding odd-numbered year, and who have elected, pursuant to subdivision (a), to serve as members of the unified district board only. Of the members elected to the governing board of the community college district at that election, those receiving the lowest number of votes shall be deemed to have been elected to the positions, if any, held by members whose terms would otherwise have expired in the next succeeding odd-numbered year and who elected to serve on the unified district governing board only. The first term of office of any such newly elected member receiving such lower number of votes shall expire in December of the next succeeding odd-numbered year pursuant to the provisions of the city charter governing the election of governing board members of the unified district. Thereafter, all elections of governing board members of the community college district shall be held under

the same terms and conditions and at the same times as elections of governing board members of the unified district pursuant to city charter.

74145. If an individual whose term on the common governing board is to expire on March 31 of the second succeeding odd-numbered year following the even-numbered year set out in Section 74144, elects to serve on the community college district governing board only, such act shall be deemed to have created a vacancy in his membership on the unified district governing board commencing on the first day of April of the first odd-numbered year following such even-numbered year. Such vacancy shall be filled as provided by law.

In any odd-numbered year first succeeding the year set out pursuant to Section 74144 on the same date upon which the election for members of the common governing board is held, an election shall be held in the community college district to elect members to the community college district governing board to fill the positions of the governing board members whose terms will expire on March 31 of such odd-numbered year, and the other governing board members, if any, whose terms will expire on March 31 of the next succeeding odd-numbered year, and who have elected, pursuant to Section 74144, to serve as members of the unified district board only. Of the members elected to the governing board of the community college district at that election, those receiving the lowest number of votes shall be deemed to have been elected to the positions, if any, held by members whose terms would otherwise have expired in the next succeeding odd-numbered year and who elected to serve on the unified district governing board only. The first term of office of any such newly elected member receiving such lower number of votes shall expire on March 31 of the next succeeding odd-numbered year. The election shall be held throughout the community college district, and the members elected to the community college district governing board thereat shall be elected at large.

74148. Whenever, under the procedure prescribed in this article, a community college district is formed to assume the maintenance and operation of any community college previously maintained and operated by a unified school district, all employees of such unified district who are designated by the governing board of the unified school district as having been employed in connection with such community college during the school year preceding the school year in which the newly formed community college district becomes effective for all purposes shall choose whether to be designated employees of the new community college district or be designated employees of the unified district. All employees shall retain all personal rights, benefits, and status which they had accumulated or to which they were entitled in such unified district. Employees who are members of a local district retirement plan which has been discontinued shall retain membership and all rights in such retirement plan, and shall continue to receive the other benefits

from any reserve fund which has been established in accordance with a plan adopted by the common governing board and approved by the county committee on school district organization, or where there is no such county committee, the county board of education.

74149. When a community college district is established pursuant to this article in a unified district not subject to the provisions of Article 3 (commencing with Section 88060) of Chapter 4 of Part 51 of this division, the common board of the two districts shall adopt policies, relating to the classified service, which permit transfers, promotions, or other assignments between the two districts as if the single unified district, including the community college system, was being maintained. The common board may specify that certain rules are applicable only to the classified service of the community college or that the rule is applicable only to the classified service of the unified district, to meet the special problems of the two districts.

Should the common board be dissolved as provided for in Section 74144, the rights, benefits, and burdens of classified employees will be fixed pursuant to Section 45118 and Section 45121 even though the type of district reorganization required herein is not specifically defined in those two sections. The governing board of the community college district shall, initially, adopt the rules and regulations governing its classified service which had prevailed under the common board.

74150. Notwithstanding other provisions of law to the contrary, when a unified district was subject to the provisions of Article 3 (commencing with Section 88060) of Chapter 4 of Part 51 of this division prior to the separation as provided for in this article, the personnel commission of the unified district shall also serve as the personnel commission for the community college district. It may, however, adopt certain rules specifically applicable only to the community college district to meet special problems of that district, and it may, in any rule, provide that the rule is not applicable to the community college district.

The commission shall provide for transfers, promotional opportunities, and other matters referred to in Sections 88080 and 88081 or other applicable provisions for classified personnel of both districts as if the single unified district, which included the community college system, was being maintained.

Should the common board be dissolved as provided for in Section 74144, the provisions of Sections 45118 and 45121 shall apply. The governing board of the community college district shall cause a personnel commission to be established under law applicable to the personnel commission of the unified district. The personnel commission of the community college district shall, initially, adopt the rules and regulations of the personnel commission which had served both districts.

**Article 4. Formation of New District From Existing Districts**

74160. A new community college district may be formed pursuant to this article to include all or part of the territory of one or more existing districts of the same kind as the new district or to include territory which is a part of a district not of the same kind as the new district, or both. If a new district is to be formed only from all of the territory of two or more districts of the same kind as the new district, the district shall be formed pursuant to Article 5 (commencing with Section 74180) of this chapter and not pursuant to this article.

74161. An action to form a new community college district is initiated upon the filing with the county superintendent of schools of a petition for the new district signed by either of the following:

(a) At least 25 percent of the registered voters residing in the territory proposed to be included in the new district.

(b) A majority of the members of the governing board of each district which would be components of the proposed new district.

74162. The county superintendent of schools shall, within 20 days after the petition for a new district is filed, examine the petition, and, if he finds it to be sufficient and signed as required by law, transmit the petition to the office of the secretary of the board of governors.

74163. When a petition for a new district is received in the office of the chancellor the secretary shall set the petition for hearing at a regular or special meeting of the board. At least 30 days prior to the date of the hearing he shall send by registered mail a notice containing a general statement of the purpose of the petition and the time and place of the hearing to each of the following persons or agencies:

(a) The governing board and district superintendent of each district whose boundaries would be affected.

(b) The county superintendent and county committee of each county which has jurisdiction over any of the districts whose boundaries would be affected.

(c) The persons designated in the petition as "chief petitioners."

74164. After hearing those who present themselves to speak on the petition and after hearing any findings and recommendations of the chancellor's office, the board of governors shall approve or disapprove the formation of the proposed new district. If the board approves the formation, it shall determine whether the election shall be held only in the territory or district proposed to be included in the new district or whether the election shall be held in the district or in each of the districts from which territory would be removed to form the new districts.

74165. If the board of governors approves the formation of the proposed new district the secretary of the board shall immediately notify the county superintendent of schools. Within 20 days after receiving the notification, he shall call an election, in the manner prescribed in Part 4 (commencing with Section 5000) of Division 1

of Title 1, in the territory or districts as determined by the board of governors. The ballot used in the election shall contain the words "For the formation of the new \_\_\_\_\_ Community College District with a revenue limit per unit of average daily attendance of \_\_\_\_\_, such limit to be in effect for the school year commencing \_\_\_\_\_" followed by the words "Yes" and "No" so placed that the voter may clearly indicate his choice.

74166. The Chief Executive Officer of the Board of Governors of the California Community Colleges shall prepare a statement of official information and statistics relating to the proposed new community college district which shall include, but is not limited to, the assessed valuation, the tax rate, the rate of growth, the expected enrollment, and the support from the state which can be expected if such new district maintains an adequate school program. Such statistics shall be based upon the school year last completed before the date of the election. Upon approval by the board of governors, the statement of official information shall be distributed to each registered elector in the territory in which the election will be held.

74167. The county superintendent of schools shall compute a revenue limit for the proposed new community college district which in his judgment will be adequate to meet the needs of the district. Such revenue limit shall appear on the ballot as prescribed by Section 74165.

74168. The statement of official information and statistics prepared and distributed pursuant to Section 74166 in connection with the proposed new community college district shall contain a statement by the county superintendent of schools, of the amount by which the revenue limit, as computed by him pursuant to Section 74167, of the new district, would be required to be increased in order to produce an amount of revenue equal to the sum of the revenues of each of the districts proposed to be partially or wholly included therein produced by all of the taxes levied, pursuant to statutes authorizing taxes to be levied for particular purposes without compliance with Section 85112 in such districts during the school year prior to the fiscal year in which the election for reorganization was held.

74169. The county superintendent of schools calling the election shall cause to be prepared and distributed a statement setting forth arguments for and against the measure. The arguments shall not exceed 500 words. The argument in favor of the measure shall be prepared by an elector who signed the petition submitted pursuant to subdivision (a) of Section 74161 or by a member of the majority of a governing board pursuant to subdivision (b) of Section 74161. The argument against the measure shall be prepared by an opponent of the measure designated by the county superintendent of schools.

74170. The cost of preparation and distribution of the statement setting forth the arguments in favor of, and those opposed to, the measure and the cost of any election held hereunder shall be a charge against the general fund of the county in which the proposed

new community college district is situated. If such district is situated in more than one county, the cost shall be prorated against each county in the same proportion as the assessed valuation of the district lying in such county bears to the total assessed valuation of the district.

When the election is held in more than one county because the proposed new community college district is to be situated in more than one county, the cost of the election shall be prorated against each county in the same proportion as the assessed valuation of the territory of the proposed new district lying in such county bears to the total assessed valuation of the proposed new district.

#### Article 5. Formation of New District by Combining Districts of the Same Kind

74180. A new community college district may be formed pursuant to this article by combining two or more existing community college districts.

74181. An action to form a new district by combining existing community college districts is initiated upon the filing with the county superintendent of schools of a petition for the new district. The petition shall be signed by either of the following:

(a) At least 25 percent of the registered electors residing in each of the districts proposed to be combined.

(b) The governing boards of each of the districts.

74182. The county superintendent of schools shall, within 20 days after the petition to form a new district is filed, examine the petition and, if he finds it to be sufficient and signed as required by law, order an election in each of the petitioning districts. The ballot shall contain the words "For the formation of the new \_\_\_\_\_ district" followed by the words "Yes" and "No" so placed that the voter may clearly indicate his choice. If a majority of the votes cast in each of the districts is in favor of the new district, it shall be formed.

### CHAPTER 3. ANNEXATION

#### Article 1. Annexation of High School District Upon Petition of Electors

74300. A majority of the registered electors residing in any high school district, as shown by the affidavits of one or more of the petitioners, may present to the superintendent of schools who has jurisdiction over the community college district, a petition for the annexation of the high school district to the community college district. The petition shall be accompanied by an agreement, signed by a majority of the members of the governing board of the community college district to which annexation is desired, and by a majority of the trustees of the high school district, consenting to the annexation and setting forth the terms of the annexation. The

superintendent of schools shall, after verifying the signatures and finding them sufficient, transmit the petition and agreement to the board of supervisors of his county with his recommendations.

74301. The board of supervisors, after receiving the petition and agreement, and the recommendation of the superintendent, may make an order annexing the high school district to the community college district upon the terms agreed on.

74302. The order of the board of supervisors annexing the high school district to a community college district shall be entered by the clerk of the board in his record of community college districts. He shall send a copy of the order to the county clerk of each county in which any part of the community college district is situated, who shall enter it in his record of community college districts.

## Article 2. Annexation of High School District Upon Petition of Community College Board

74310. Whenever a president of a community college in any community college district presents to the governing board of the community college district a statement made under oath that the average daily attendance in the community college, of students whose parents reside in a high school district not maintaining a community college, was an average of three or more for the two school years next preceding, setting forth the names of the students, the governing board of the community college district may petition the board of supervisors of the county, the superintendent of schools of which has jurisdiction over the high school district, to annex the high school district to the community college district.

Where a community college was maintained by a high school district which has been formed as a community college district or portion thereof, the governing board of the community college district so formed may petition the board of supervisors of the county, the superintendent of schools of which has jurisdiction over another high school district, to annex such other high school district if it does not maintain its own community college and the president of the community college presents to the governing board of the community college district a statement, made under oath, that the average daily attendance in the community college of pupils whose parents reside in such other high school district was three or more for the two school years next preceding, setting forth the names of the students.

74311. Upon presentation of the petition, accompanied by the sworn statement of the president of the community college concerning the attendance and residence of the students, and the verification of the facts by the county superintendent of schools having jurisdiction over the community college district, the board of supervisors shall set the petition for hearing at a regular meeting of the board and shall publish in a newspaper of general circulation in the county once each week for at least two weeks prior to the hearing

a notice containing a general statement of the purpose of the petition and the time and place when and where the petition will be heard. The clerk of the board of supervisors shall mail a copy of the notice to each of the trustees of the high school district at least 10 days prior to the hearing.

74312. The board of supervisors shall at the time and place named in the notice meet to receive any protest which interested persons may present. If no protest is filed it shall make an order annexing the high school district to the community college district.

74313. If a petition protesting against the annexation, signed by 20 percent or more of the qualified electors of the high school district, as shown by the affidavit of one of the petitioners, is filed at the meeting, the board of supervisors shall order an election in the high school district to be held on the next established election date not less than 74 days after the making of the order, to determine the question. The election shall be called and held in the same manner as the elections for high school district bonds, except that the words to appear upon the ballot shall be "For annexation to (insert name of) Community College District—Yes" and "For annexation to (insert name of) Community College District—No," and except that the returns shall be made to the board of supervisors.

74314. If it appears that a majority of the votes cast at the election is in favor of the annexation, the board of supervisors shall make an order annexing the high school district to the community college district. The order shall be entered by the clerk of the board in his record of high school districts. He shall send a copy of the order to the county clerk of each county in which any part of the community college district is situated, who shall enter it in his record of community college districts.

74315. If it appears that a majority of the votes cast at the election is against the annexation, no other election shall be called on the question of annexation until one year from the date of the filing of the original petition.

74316. Whenever the governing board of each of two or more community college districts, under the provisions of this article, petitions the board of supervisors having jurisdiction for the annexation of the same high school district, the board shall refer the matter to the county superintendent of schools having jurisdiction over the high school district. The county superintendent shall make a recommendation on the matter, after which the board of supervisors shall make an order stating to which of the community college districts the high school district may be annexed.

74317. After the annexation of a high school district pursuant to this article, all property belonging to the original community college district is the property of the new community college district so formed.

### Article 3. Annexation of High School District Upon Petition of a High School Board

74320. The governing board of a high school district in which reside persons attending a regular day community college in a community college district may petition the board of supervisors of the county having jurisdiction over the high school district to annex the high school district to the community college district.

74321. The petition shall be accompanied by a verified copy of a resolution adopted by the governing board of the community college district named in the petition consenting to the annexation thereto of the high school district. Upon receipt of the petition and the resolution of consent, the board of supervisors shall call an election to be held in each elementary school district in the high school district named in the petition for the purpose of determining whether the high school district shall be annexed to the community college district.

74322. The election shall be called, held, and conducted in the same manner as are the elections of governing boards of elementary school districts, except that the words to appear upon the ballot shall be:

“For annexation to \_\_\_\_\_ (insert name) Community College District—Yes” and “For annexation to \_\_\_\_\_ (insert name) Community College District—No.”

74323. If it appears that a majority of all votes cast at the election were cast in favor of the annexation, the board of supervisors shall make an order annexing the high school district to the community college district. Upon the making of the order the annexation shall be deemed to have been made effective pursuant to the provisions of Sections 4060 and 4062.

### Article 4. Annexation of One Community College District by Another

74340. A community college district, hereinafter in this article called the petitioning district, may be annexed to another community college district, hereinafter in this article called the admitting district, upon such terms and conditions as may be agreed upon between the governing board of the petitioning district and the governing board of the admitting district.

74341. The proceedings for annexation of one community college district to another community college district may be commenced by the petitioning district in either of the following ways:

(a) The presentation to the superintendent of schools of each county in which any of the area of the petitioning district and of the admitting district lies, of a petition asking for the annexation of the district to a community college district, signed by 25 percent of the registered electors of the petitioning district.

(b) The presentation to the superintendent of schools of each

county in which any of the area of the petitioning district and of the admitting district lies, of a resolution of the governing board of the petitioning district asking for the annexation of the district to a community college district.

The petition or resolution presented pursuant to this section shall be accompanied by an agreement signed by a majority of the members of the governing board of the admitting district consenting to and agreeing to the annexation and setting forth the terms and conditions upon which the annexation shall be made.

74342. Upon presentation of a petition, the county superintendent or superintendents of schools, as the case may be, shall, after verifying the signatures thereon and finding them sufficient, within 20 days, call an election in the petitioning district in his county for the determination of the question and shall appoint three qualified electors in each component elementary or unified school district of the petitioning district to conduct the election.

Upon presentation of a resolution of the governing board of the district, the county superintendent or superintendents of schools shall, within 20 days, call the election in the petitioning district in his county for determination of the question and shall appoint three qualified electors in each elementary or unified school district of the petitioning district to conduct the election.

74343. The election shall be called in all respects as specified in Sections 4021, 4022, 5362, 72000, 74180, 74181, and 74182, whichever are applicable except that the form of the ballot shall be: "For annexation to the \_\_\_\_\_ Community College District—Yes" and "For annexation to the \_\_\_\_\_ Community College District—No" or words of similar import. If a majority of the votes cast in the entire petitioning district is in favor of the annexation, the annexation is complete. The result of the election shall be reported by the election officers in each elementary or unified school district to each superintendent of schools of any county in which the district is situated within five days after the election.

74344. Whenever a community college district is annexed to another community college district pursuant to this article, all funds, property, and obligations of the petitioning district shall become the funds, property, and obligations of the admitting district.

74345. Upon the effective date of the annexation of the district, for all purposes, to another district, the governing board of the district annexed ceases to exist.

#### Article 5. Annexation of Districts

74360. Any district may be annexed to a contiguous district of the same kind so that the annexed district ceases to exist and its territory is merged with and becomes a part of the annexing district.

74361. A high school or unified district may be annexed to a contiguous community college district so that the annexed district becomes a component district of the annexing district.

74362. Whenever provision is made in this article for the annexation of one school district to another, two or more school districts adjoining each other may be annexed simultaneously to a school district contiguous to one or more of the adjoining districts. If the proposed annexation of one of the adjoining districts fails and by reason of the failure any of the districts voting to be annexed would be noncontiguous to the annexing district, the annexation of the district or districts shall be void and of no effect.

74363. An annexation action pursuant to this article is initiated upon the filing with the county superintendent of schools of a petition for annexation and an agreement to the annexation.

74364. The petition for annexation shall be signed by 25 percent of the registered electors of the district proposed to be annexed or by a majority of the members of the governing board of that district.

74365. The agreement to the annexation shall be signed by a majority of the members of the governing board of the district to which annexation is proposed and of the governing board of the district of which the transferring district is a component.

74366. Terms and conditions for the annexation may be agreed upon by the governing board of the district seeking annexation and the governing board of the district to which annexation is sought. Such terms and conditions shall be signed by a majority of the members of governing boards agreeing thereto.

74367. The county superintendent of schools shall, within 20 days after receiving the petition for annexation, examine the petition and agreement and, if he finds them to be sufficient and signed as required by law, order an election to be held in the petitioning district to determine the question. The ballot used in the election shall contain the words "For annexation of the (name of petitioning district) District to the (name of annexing district) District" followed by the words "Yes" and "No" so placed that the voter may clearly indicate his choice.

74368. An agreement to the annexation of a unified district, or a part of a high school or unified school district, to a community college district may include as a term or condition for such annexation the authorization and issuance of bonds of the unified district, or of the part of the high school or unified school district, in a specified amount for the purpose of paying an equitable share of the cost of the property owned or held by the community college district. In such event, the county superintendent of schools shall call and conduct a bond election within the unified district, or within the portion of the high school or unified school district to be annexed, to be held concurrently with the election or annexation. The governing board of the unified district or of the high school or unified district of which the territory to be annexed is a part may request the board of supervisors to issue and sell the bonds in the name of the unified district, and may request the county superintendent of schools to transfer to the community college district any funds derived from such sale of bonds. The county superintendent of schools shall order

such transfer as requested. Any funds so transferred may, after the annexation becomes effective, be expended for purposes authorized by law, throughout the community college district. Bonds issued pursuant to this section shall not be considered outstanding bonded indebtedness of the unified district or of the high school or unified district of which the territory to be annexed is a part for the purposes of Section 15106; however, such bonds shall be considered bonded indebtedness of the community college district for the purposes of Section 15104.

74369. (Repealed by Stats. 1976, Ch. 1011.)

[ORIGINAL SECTION]

74369. An agreement to the annexation of a high school or unified district, or any portion of such district or districts, to a contiguous community college district may include, as a term or condition for such annexation, the collection of a sum of money upon annexation, from within the area of the annexed district or portion of a district, for capital outlay purposes; and such condition shall be considered an inherent part of the annexation agreement and shall not be construed as a separate proposition. For purposes of raising this sum, the maximum tax rate for community college purposes within any district or portion of any district which has been annexed to a contiguous community college district pursuant to Article 5 (commencing with Section 74360) of Chapter 3 of this part is hereby increased by such amount as will produce within 10 fiscal years the sum included in any annexation agreement between the two districts. Any funds collected from such an increase shall be deposited to the credit of the community college district for expenditure for purposes authorized by law.

In addition to the words to be contained on the ballot pursuant to Section 74367, the ballot used in the election shall contain a statement that the maximum tax rate within the annexed districts or portions of districts will be increased by a specified amount as will produce the sum included in the annexation agreement.

The increase provided by this section shall not exceed twenty cents (\$.20) for each one hundred dollars (\$100) of the assessed value of the property within the high school or unified district, or portion thereof, and the increase shall be in addition to any other school district tax authorized by law to be levied.

The increase provided by this section shall remain in effect until the 10th consecutive fiscal year following the effective date of the annexation, or until such time as the sums agreed to in the annexation agreement referred to herein have been collected by the community college district, from within the annexed school district, or portion thereof, whichever period occurs first.

This section shall not apply whenever Section 74368 applies.

74370. Notwithstanding the prohibition established in Section 74369, the conditions of annexation may provide that the amount of bonds authorized pursuant to Section 74368 shall be reduced by the amount of funds raised pursuant to Section 74369. At no time may a tax be levied under both Sections 74368 and 74369 simultaneously.

## Article 6. Uniting of Districts

74380. Two or more contiguous community colleges may be united to form a single community college district in the same manner as provided in this code for the uniting of two or more contiguous elementary school districts.

## CHAPTER 4. TRANSFER

## Article 1. Transfer of Component Districts Between Community College Districts

74500. A high school or unified district may be transferred from one community college district to another pursuant to this chapter.

74501. An action to transfer a component district from one community college district to another district is initiated upon the filing with the county superintendent of schools of a petition for transfer and an agreement to the transfer.

74502. The petition shall be signed by 25 percent of the registered electors residing in the component district or community college district of which the component district is a part.

74503. The agreement to the transfer shall be signed by a majority of the members of the governing board of the community college district to which it is proposed to transfer the component district.

(Amended by Stats. 1976, Ch. 1011.)

## [ORIGINAL SECTION]

74503 The agreement to the transfer shall be signed by a majority of the members of the governing board of the high school or community college district to which it is proposed to transfer the component district.

74504. The county superintendent of schools shall, within 20 days after the filing of the petition for transfer, examine the petition and if he finds it to be sufficient and signed as required by law, transmit the petition to the office of the chancellor.

74505. When a petition for transfer of a component district is received in the office of the chancellor he shall set the petition for hearing at a regular or special meeting of the board. At least 30 days prior to the date of the hearing, he shall send by registered mail a notice containing a general statement of the purpose of the petition and the time and place of the hearing to each of the following persons or agencies:

(a) The governing board and district superintendent of each district whose boundaries would be affected by the proposed transfer.

(b) The county superintendent and county committee of each county which has jurisdiction over any of the districts whose boundaries would be affected.

(c) The persons designated in the petition as "chief petitioners."

74506. After hearing those who present themselves to speak on the petition, the Board of Governors of the California Community Colleges shall approve or disapprove the proposed transfer of the component district. Before approving or disapproving, the board of governors shall hear the findings and recommendations of the office of the Chancellor of the California Community Colleges. If the board approves the transfer, it shall determine whether the election shall be held only in the component district proposed to be transferred or

whether the election shall be held in the whole of the community college district from which the component district would be removed.

(Amended by Stats. 1976, Ch. 1011 )

[ORIGINAL SECTION]

74506. After hearing those who present themselves to speak on the petition, the Board of Governors of the California Community Colleges shall approve or disapprove the proposed transfer of the component district. Before approving or disapproving, the board of governors shall hear the findings and recommendations of the office of the Chancellor of the California Community Colleges. If the board approves the transfer, it shall determine whether the election shall be held only in the component district proposed to be transferred or whether the election shall be held in the whole of the high school or community college district from which the component district would be removed.

74507. If the board of governors approves the proposed transfer of the component district, the chancellor shall immediately notify the county superintendent of schools. Within 20 days after receiving the notification, he shall order an election in the district as determined by the board of governors. The ballot used in the election shall contain the words "For the transfer of \_\_\_\_\_ District from the \_\_\_\_\_ (community college) District to the \_\_\_\_\_ (community college) District" followed by the words "Yes" and "No" so placed that the voter may clearly indicate his choice.

(Amended by Stats 1976, Ch. 1011 )

[ORIGINAL SECTION]

74507. If the board of governors approves the proposed transfer of the component district, the chancellor shall immediately notify the county superintendent of schools. Within 20 days after receiving the notification, he shall order an election in the district as determined by the board of governors. The ballot used in the election shall contain the words "For the transfer of \_\_\_\_\_ District from the \_\_\_\_\_ (high school or community college) District to the \_\_\_\_\_ (high school or community college) District" followed by the words "Yes" and "No" so placed that the voter may clearly indicate his choice.

## Article 2. Transfer of Territory, General Provisions

74520. Whenever a district acquires or leases for a year or more a school site which is contiguous to its boundaries but which is not included in the boundaries of a chartered city, the site is transferred to the district which acquired or leased it. The county superintendent shall certify to the county supervisors that the property has been acquired or leased and the board shall issue the boundary change orders as provided in Section 4025.

74521. When territory is acquired or leased by a community college district and is transferred thereto pursuant to Section 74520 the territory is transferred also to a component district of the community college district.

74522. No proceedings affecting community college district boundaries shall operate to exclude a school site from the district owning the same if after such proceedings are complete the school site remains contiguous to the boundaries of the district. The school

site remains contiguous for the purpose of this section although separated from the boundaries of the district by a road, street, stream, or other natural or artificial barrier or right-of-way. Notwithstanding such proceedings the site shall continue to be a part of the district owning or occupying the same, and the buildings and improvements thereon shall remain the property of such district, except that, a plan for the formation of a new district from territory included in a union high school district, prepared by a committee, may specify whether the original or a new district shall have possession of the property.

74523. Territory annexed to a city which is not contiguous to a community college district within the city shall not automatically become a part of any community college district within such city pursuant to Section 35502.

74524. Territory annexed to a city pursuant to Articles 3, 4, 7, and 8 (commencing with Sections 35200, 35250, 35450, and 35470, respectively) of Chapter 1, Part 2, Division 2, Title 4 of the Government Code shall not automatically become a part of any school district within such city pursuant to Section 35502.

(Repealed and added by renumbering Section 74525 by Stats. 1976, Ch. 1011.)

[ORIGINAL SECTION]

74524. When territory is annexed to a city pursuant to the Annexation Act of 1913 (commencing with Government Code Section 35100) or the Annexation of Uninhabited Territory Act of 1939 (commencing with Government Code Section 35300), the territory does not thereby become a part of the school district of the city pursuant to Section 35502 unless the resolution required by Government Code Section 35117 or Section 35306, as the case may be, contains a statement that the annexed territory shall become a part of the school district of the city. A statement to transfer the annexed territory to the city school district shall not be included in such a resolution unless the territory is contiguous to the school district of the city and the governing boards of each of the districts whose boundaries would be changed have agreed in writing to the transfer. If the boundaries of three or more districts would be affected and only one of the districts is not in agreement with the others, the matter may be referred to the board of governors whose decision in the matter will be final.

74525. (Amended and renumbered Section 74524 by Stats. 1976, Ch. 1011.)

[ORIGINAL SECTION]

74525. Territory annexed to a city pursuant to Articles 3, 4, 7, and 8 (commencing with Sections 35200, 35250, 35450, and 35470, respectively) of Chapter 1, Part 2, Division 2, Title 4 of the Government Code shall not automatically become a part of any school district within such city pursuant to Section 35502.

74526. (Repealed by Stats. 1976, Ch. 1011.)

[ORIGINAL SECTION]

74526. Whenever a city is incorporated, except a general law city, the board of supervisors of the county may transfer to the city for school purposes only, the remainder, or any part of the remainder, of the district or districts from which the city was organized, whenever a majority of the electors residing therein petition for such transfer.

The board of supervisors either when the district is formed or subsequently may include more territory than the remainder of the district or districts from which the city was organized, whenever a petition for this purpose is presented to them, signed by the majority of the electors residing in the additional territory.

The territory transferred may be in either the same or a different county than that of the community college district to which it is transferred. If the territory transferred

lies in a county other than the county in which the district to which the territory is transferred lies, the district shall not become a joint district by reason of the transfer of such territory.

## CHAPTER 5. MISCELLANEOUS

### Article 1. Change of Boundaries and Transfer of Territory

74600. Whenever the boundary of any high school or unified district included in a community college district is changed by annexation, withdrawal, transfer of territory, operation of law or in any other manner, such change shall not effect a corresponding change in community college district boundaries, unless such change is provided for in the petition, the terms of agreement for annexation or transfer of territory or is recommended by the county committee on school district organization and unless the change is also approved by the governing boards of the community college districts affected.

74601. The boundaries of every community college district as the same were established for the purpose of the levy and collection of taxes for the fiscal year 1947-48, are hereby confirmed, validated, and declared legally effective for all purposes.

74602. If a new high school or unified district is formed from territory entirely within an existing community college district, the new high school or unified district shall continue to be a part of the community college district.

74603. Whenever a new high school or unified school district is formed to include territory of one or more community college districts, or from territory partly in a community college district and partly in no community college district, the boundary lines of the community college district or districts shall not change unless the county committee provides for a change of such boundaries in its plans for the formation of the high school or unified district.

74604. No part of a community college district may be changed by transfer of territory, annexation, withdrawal, operation of law, or any other manner unless the change is approved by the governing boards of the community college districts affected, or unless the electorate, by a majority vote of those voting at an election held for that purpose, approves the proposed change in accordance with procedures established by law.

### Article 2. Exclusion of High School Districts

74610. On or before the first day of February in any school year a majority of the electors residing in a community college district, and two-thirds of the electors residing in any high school district which is a part of the community college district, as shown by the affidavit of one or more of the petitioners, may present to the superintendent of schools who has jurisdiction over the community college district, petitions asking for the exclusion of the high school

district from the community college district for the purpose of permitting the territory in the high school district to be formed into a community college district or to become a part of another community college district. The petitions shall be accompanied by an agreement signed by a majority of the governing board of the community college district, and a majority of the trustees of the high school district consenting to the exclusion and setting forth the terms of the agreement. The superintendent of schools shall, after verifying the signatures to the petitions and agreements and finding them sufficient, transmit the petitions and agreement to the board of supervisors of his county with his recommendations.

74611. The board of supervisors, after the receipt of the petitions and agreements, together with the recommendations of the superintendent of schools, may make an order excluding the high school district from the community college district upon the terms agreed on. The order withdrawing the high school district from the community college district shall not become effective until the high school district becomes a community college district or becomes a part of a community college district.

74612. The order of the board of supervisors excluding a high school district from a community college district shall be entered by the clerk of the board in his record of community college districts. He shall send a copy of the order to the county clerk of each county in which any part of the community college district is situated, who shall enter it in his record of community college districts.

### Article 3. Transfer of Territory From One Community College District to Another

74630. Any part of a community college district which is less than the whole of the district may be transferred from that district to another community college district pursuant to this article.

74631. An action to transfer inhabited territory from one community college district to another community college district is initiated upon the filing with the county superintendent of schools of a petition for transfer signed by either:

(a) Twenty-five percent of the registered electors residing in the territory proposed to be transferred, or

(b) A majority of the members of the governing board of each community college district affected by the proposed change.

A petition to be presented to electors for signature pursuant to subdivision (a) shall contain the proponent's statement of the reason or reasons for the proposed transfer.

This section shall not be applicable to any transfer to which the provisions of Section 74635 apply.

74632. An action to transfer uninhabited territory from a community college district is initiated upon the filing with the county superintendent of schools of a petition signed by either:

(a) A majority of the members of the governing board of each

district affected by the proposed change.

(b) The owner of the property, provided said owner has filed a tentative subdivision map with the appropriate county agency.

74633. Within 20 days after the filing of a petition under subdivision (b) of Section 74632, the county superintendent of schools shall transmit the petition to the governing board of the district to which the territory is to be transferred. Such governing board shall set a date for a hearing on the petition which shall be within 30 days of the receipt of the petition and the county superintendent shall notify the chief petitioner or petitioners of the time and place of the hearing. At the hearing the petitioners and any other interested persons shall be given an opportunity to present their views on the petition. The governing board then shall either approve or deny the petition. No transfer shall be made unless a majority of the members of the governing board sign a statement agreeing to the transfer. Upon completion of the hearing the governing board shall return the petition together with a notice of action of the governing board to the county superintendent of schools.

74634. The county superintendent of schools shall within 20 days after the filing of a petition under subdivision (a) or (b) of Section 74631 or subdivision (a) of Section 74632, examine it and, if he finds it to be sufficient and signed as required by law, transmit the petition to the county committee on school district organization.

If the petition is filed under subdivision (b) of Section 74632, accompanied by the statement agreeing to the transfer by the governing board of the district to which the territory is to be transferred, it shall be transmitted to the county committee on school district organization.

74635. An action to transfer inhabited territory from a community college district which is situated within a county of the first class to another such community college district is initiated upon the filing with the county superintendent of schools of a petition for transfer signed by:

(a) Ten percent of the registered electors residing in the district from which the territory is proposed to be transferred, and

(b) A majority of the members of the governing board of each school district affected by the proposed change.

74636. Within 20 days after the filing of a petition under Section 74635, the county superintendent of schools shall transmit the petition to the governing boards of the districts affected by the proposed change. Each governing board shall set a date for a hearing on the petition which shall be within 30 days of the receipt of the petition and the county superintendent shall notify the petitioners of the times and places of the hearings. At the hearings the petitioners and any other interested persons shall be given an opportunity to present their views on the petition. The governing boards then shall either approve or deny the petition. No transfer shall be made unless a majority of the members of both governing boards each sign a

statement agreeing to the transfer. Upon completion of the hearings the governing boards shall return the petition, together with a notice of action from each governing board, to the county superintendent of schools.

74637. The county superintendent of schools shall within 20 days after the filing of the petition pursuant to Section 74635, examine it and, if he finds it to be sufficient and signed as required by law, transmit the petition to the county committee on school district organization.

Notwithstanding any provision of this article to the contrary, if the transfer involves a minor change in district boundaries, defined as a transfer of territory involving less than 5 percent of the territory of the district from which the transfer is being made, the petition may be transmitted directly to the county board of supervisors by the county superintendent of schools, without submission to the county committee on school district organization, provided that this submission may not occur more than once every five years.

74638. A petition transmitted to the county committee pursuant to this article shall be considered at the next regular meeting of the committee or at a special meeting called for the purpose.

The county committee shall prepare a report and recommendation. It shall report as to whether or not in the opinion of the committee the proposed transfer would adversely affect the school district organization of the county; whether it is compatible with any master plans approved by the board of governors; and how, in the judgment of the committee, the proposed transfer will affect racial or ethnic integration of the schools of the districts affected. The report shall also contain a statement of the committee's findings on the adequacy of the proponent's stated reason or reasons for the proposed transfer, as set forth in the petition pursuant to Section 74631.

The report may include other pertinent matter which the county committee desires to bring to the attention of the board of governors, board of supervisors, or county board of education, as the case may be.

74639. If the county committee finds that the proposed transfer is compatible with the master plan of the county and would not adversely affect racial or ethnic integration of the schools of the districts affected, the petition and report shall be transmitted to the county board of supervisors or county board of education, as the case may be, by the county superintendent of schools.

If the county committee finds that the proposed transfer is incompatible with the master plan of the county or will adversely affect racial or ethnic integration of the schools of the districts affected, the report and petition shall be transmitted to the board of governors by the county superintendent of schools.

74640. The board of governors shall adopt guidelines which may be used by county committees in making their determination of whether a transfer of territory would adversely affect racial or ethnic

integration of the schools of the districts affected.

74641. (a) Any person questioning the finding of the county committee pursuant to Section 74639 that the proposed transfer of territory will not adversely affect the racial or ethnic integration of the schools of the districts affected, may appeal a decision made upon such a finding. The appeal shall be made to the board of governors within 30 days. The appeal shall be based upon factual and statistical evidence.

If the board of governors denies the appeal, the decision of the county board of supervisors or the county board of education shall stand. If the board of governors approves the appeal it shall review the findings of the county board of supervisors or the county board of education at a regular meeting of the board.

The board of governors shall notify the county committee, the county board of supervisors, or the county board of education of its decision on the appeal. For purposes of this section if the board of governors approves the appeal, the county board of supervisors or the county board of education shall transmit a copy of the proceedings to the board of governors within 30 days after receipt of notice. The board of governors shall review the transcript, considering all factors involved. The board of governors may affirm the decision of the county board of supervisors, or the county board of education, or if it appears that inadequate consideration was given to the effect of the transfer on integration of the schools of the districts affected, it shall direct the county board of supervisors or the county board of education to reconsider its decision and for this purpose to hold another hearing. The board of governors shall transmit a copy of its findings and recommendations to the county board of supervisors or the county board of education and the county committee on school district organization.

(b) The governing board of a community college district whose boundaries would be affected by the proposed change and the chief petitioners, if any have been designated, may appeal the decision of the county board of supervisors or the county board of education made following receipt of the report and recommendation of the county committee pursuant to Section 74638. The appeal shall be made to the board of governors within 30 days and shall be based upon factual evidence.

The appeal shall be heard in the same manner as a petition for a new district as provided in Section 74163. After hearing the matter, the board of governors shall grant or deny the appeal. If the board of governors denies the appeal, the decision of the county board of supervisors or the county board of education shall stand. If the board of governors grants the appeal, it may (1) reverse the decision of the county board of supervisors or the county board of education, (2) direct the county board of supervisors or county board of education to reconsider its decision, or (3) order an election to be held in the territory comprising the districts, the boundaries of which would be affected.

The board of governors shall notify the county committee, the county board of supervisors, the county board of education, the governing board of each district affected, and the chief petitioners, if any have been designated, of its decision.

74642. The petition shall be heard by the board of governors in the same manner as a petition for a new district as provided in Section 74163.

After hearing the matter, the board of governors shall grant or deny the petition. If the petition is granted, the board may order that the transfer be effected or order an election to be held in the territory. The board may determine that the election shall be held only in the territory proposed to be transferred or in the entire district from which the transfer is proposed to be made.

The chancellor shall return the petition to the county superintendent of schools together with a notice of the decision of the state board.

74643. After receiving notice of the action taken by the board of governors the county superintendent of schools shall (a) file the order of the board with the county board of supervisors which board shall make the order required by Section 4025, or (b) call and conduct an election as ordered by the board of governors.

74644. When the petition, report and recommendation are transmitted to the county board of supervisors, the county superintendent of schools shall set the matter for hearing by the board of supervisors at a regular meeting of the board.

At least 10 days prior to the date of the hearing the county superintendent shall send by certified mail a notice of hearing and a copy of the report and recommendation of the county committee to the chief petitioners, if any have been designated, and to the governing board of each community college district whose boundaries would be affected by the proposed change and shall post copies of the notice as provided in Section 5362 or publish a copy of the notice as provided in Section 5363.

74645. After hearing all interested persons, the board of supervisors shall grant or deny the petition or require an election to be held. If the board grants the petition it shall determine whether all or only a part of the territory shall be transferred. If the board requires an election to be held it shall determine whether the election shall be held in the whole community college district from which the territory would be transferred or whether the election shall be held only in the territory proposed to be transferred. The county superintendent of schools shall call, hold, and conduct any election required by this section.

74646. Notwithstanding any provisions of Section 74645 or other sections to the contrary:

(a) The governing board of the district to which the territory is to be transferred may file written opposition to the transfer with the county superintendent of schools prior to the hearing by the board of supervisors required to be held in accordance with Section 74644.

If written opposition to the transfer of inhabited territory is so filed, the county superintendent of schools shall require an election to be held on the question. The election shall be held in the community college district to which the territory is to be transferred.

(b) The governing board of the district from which the territory is to be transferred may file written opposition to the transfer with the county superintendent of schools prior to the hearing by the board of supervisors. If written opposition to the transfer of inhabited territory is so filed, the county superintendent of schools shall require an election to be held in the entire community college district from which the territory will be taken.

74647. An election conducted under provisions of this article shall be determined by the majority of votes cast.

#### Article 4. Transfer of Part of a Component District From One Community College District to Another Community College District

74660. Whenever parts of a high school or unified district are included in more than one community college district, any part or parts of the component districts may be transferred to the community college district which includes another part of the same component district pursuant to this article.

74661. An action to transfer a part of a component district from one community college district to another pursuant to this article is initiated upon the filing with the county superintendent of schools of a petition and agreement for transfer.

74662. The petition shall be signed by 25 percent of the registered electors residing in the part of the district proposed to be transferred or by a majority of the members of the governing board of the community college district from which the territory would be taken.

74663. The agreement to the transfer shall be signed by a majority of the members of the governing board of the community college district to which it is proposed to transfer the territory.

74664. The petition shall be acted upon in the same manner as is a petition for transfer of territory pursuant to Sections 74638 to 74644, inclusive.

#### Article 5. Lapse of Districts

74670. Any community college district which has been organized for more than three years shall be lapsed as provided in this article if the number of registered electors in the district is less than six or if the average daily attendance of pupils in the school or schools maintained by the district is less than 11 in grades 13 and 14.

74671. Within 30 days after the close of each school year the county superintendent of schools shall report to the county board of supervisors the name of any community college district under his jurisdiction wherein the number of registered electors is less than six

or the average daily attendance during the school year has been less than the numbers specified in Section 74670. The county superintendent shall at the same time recommend to the board of supervisors the district or districts to which the territory may best be annexed after the district has been lapsed.

74672. When the county board of supervisors receives the report of the county superintendent as provided in Section 74671 it shall order the district or districts to be lapsed. It shall also either order the territory of the lapsed district annexed to one or more adjoining districts as the county superintendent has recommended or it shall order a public hearing to be held on the question. If a public hearing is ordered the board shall fix the time thereof and shall provide that a notice be sent by registered mail at least 10 days before the hearing to each member of the governing boards of each of the community college districts which adjoin the lapsed district and to the persons who were members of the governing board of the lapsed district immediately prior to its lapsation. After the hearing the board of supervisors shall order the territory of the lapsed district annexed to one or more adjoining districts as seems to the board to be in the best interests of the adjoining districts and of the residents of the lapsed district.

74673. If the board of supervisors orders the territory of a lapsed district annexed to more than one adjoining district it may provide for such a division of funds, property, and obligations of the lapsed district as it deems most equitable in the circumstances. If no division is provided for by the board the general provisions of Article 7 (commencing with Section 4120) of Chapter 1 of Part 3 of Division 1 of Title 1 shall apply to the division of funds, property and obligations of the lapsed district.

## PART 47. STUDENTS

### CHAPTER 1. GENERAL PROVISIONS

#### Article 1. Admission of Students

76000. The governing board of a community college district maintaining a two-year community college shall admit to the community college any person possessing a high school diploma or the equivalent thereof.

Such governing board may admit to the community college any apprentice, as defined in Section 3077 of the Labor Code, who, in the judgment of the governing board or of the president of the community college if he is so authorized by rule of the governing board, is capable of profiting from the instruction offered.

Such governing board may by rule determine whether there shall be admitted to the community college any other person who is over 18 years of age and who, in the judgment of the board or of the president of the community college if he is so authorized by the rule,

is capable of profiting from the instruction offered. If the governing board determines to admit such other persons, any such person shall be admitted as a provisional student and thereafter shall be required to comply with the rules and regulations prescribed by the Board of Governors of the California Community Colleges or the chancellor's office pertaining to the scholastic achievement and other standards to be met by provisional or probationary students, as a condition to being readmitted in any succeeding semester. The provisions of this paragraph shall not apply to persons in attendance in special classes and programs established for adults pursuant to Chapter 3 (commencing with Section 78400) of Part 48, or to any persons attending on a part-time basis only.

76001. The president of any two-year community college may admit to the community college as a special part-time student any 11th- or 12th-grade high school student whose admission is recommended by his high school principal. A principal of a high school may recommend a high school student as a special part-time student pursuant to rules and regulations which may be adopted by the governing board of the district maintaining the high school. A principal of a high school shall not recommend a number of high school students in excess of 15 percent of the total number of 11th- and 12th-grade students enrolled in the high school at the time of recommendation.

The attendance of a student at community college as a special part-time student pursuant to this section is authorized attendance and the student shall receive credit for community college courses which he completes in the same manner as if he were a regularly enrolled community college student unless, upon agreement between the two districts, the student receives high school credit for the course completed.

Each special part-time student shall attend high school classes for at least the minimum schoolday.

76002. The president of any two-year community college may admit to the summer session of the community college as a special student any high school student who has completed the 11th grade and whose admission to summer session is recommended by the principal of the high school in which the student completed the 11th grade. A principal of a high school may recommend such a student as a special student pursuant to rules and regulations which may be adopted by the governing board of the district maintaining the high school. A principal of a high school shall not recommend a number of students who have completed the 11th grade in excess of 5 percent of the total number of students in the high school who have completed the 11th grade immediately prior to the time of recommendation.

The attendance of a student at community college as a special summer session student pursuant to this section shall be credited to the district maintaining the community college for the purposes of allowances and apportionments from the State School Fund, and the

student shall receive credit for community college courses which he completes, in the same manner as if he were a regularly enrolled community college student.

Sections 76001 and 48800 to 48802, inclusive, do not apply to the special students authorized to be admitted to a community college summer session pursuant to this section.

76003. The president of any community college may, in accordance with such rules as the governing board of the district maintaining the community college may adopt, admit to the community college any person who has served in the active military service of the United States or of the State of California for at least 90 days during a war with any foreign power or during any period of national emergency declared by the President of the United States.

76004. Any person, otherwise eligible for admission to any class or school of a school district of this state, whose parents are or are not citizens of the United States, whose actual and legal residence is in a foreign country adjacent to this state, and who regularly returns within a 24-hour period to said foreign country may be admitted to the class or school of the district by the governing board of the district.

76005. The governing board of the community college district shall, as a condition precedent to the admission of any person, under Section 76004, require the parent or guardian of such person to pay to the district an amount not more than sufficient to reimburse the district for the total cost of educating the person, including the total of the amounts expended per student for the current expenses of education, the use of buildings and equipment, the repayment of local bonds and interest payments and state building loan funds, capital outlay, and transportation to and from school. The per pupil cost attributable to capital outlay shall be on the basis of an average expenditure for the preceding five years. The cost of transportation shall not exceed ten dollars (\$10) per month. Tuition payments shall be made in advance for each month or semester during the period of attendance. If the amount paid is more or less than the total cost of education and transportation, adjustment shall be made for the following semester or school year. The attendance of the pupils shall not be included in computing the average daily attendance of the class or school for the purpose of obtaining apportionment of state funds. The school district shall not be eligible for nonimmigrant or noncitizen reimbursement under the provisions of Chapter 11 (commencing with Section 42900) of Part 24 of Division 1 of Title 1 for these students.

(Amended by Stats. 1976, Ch. 1011.)

[ORIGINAL SECTION]

76005 The governing board of the community college district shall, as a condition precedent to the admission of any person, under Section 76004, require the parent or guardian of such person to pay to the district an amount not more than sufficient to reimburse the district for the total cost of educating the person, including the total

of the amounts expended per pupil for the current expenses of education, the use of buildings and equipment, the repayment of local bonds and interest payments and state building loan funds, capital outlay, and transportation to and from school. The per pupil cost attributable to capital outlay shall be on the basis of an average expenditure for the preceding five years. The cost of transportation shall not exceed ten dollars (\$10) per month. Tuition payments shall be made in advance for each month or semester during the period of attendance. If the amount paid is more or less than the total cost of education and transportation, adjustment shall be made for the following semester or school year. The attendance of the pupils shall not be included in computing the average daily attendance of the class or school for the purpose of obtaining apportionment of state funds. The school district shall not be eligible for nonimmigrant or noncitizen reimbursement under the provisions of Chapter 11 (commencing with Section 42900) of Part 24 of Division 1 of Title 1 for these students.

76006. Notwithstanding any other provisions of this code, and except as provided in Section 3074.7 of the Labor Code, no charges or fees of any kind shall be required to be paid by an apprentice, or by his parents or guardian, for admission or attendance in any class in any school district which provides instruction under Section 3074 of the Labor Code in accord with the requirements of subdivision (d) of Section 3078 of that code. Nothing contained in this section, however, shall be construed as prohibiting the governing board of a school district providing nonresident apprentices of that district with such instruction under Section 3074 of the Labor Code from charging to, or collecting from, the school district in which such nonresident apprentices reside, tuition and other charges or fees in accordance with the definitions and provisions contained elsewhere in this code.

### Article 2. Exclusion of Students

(Heading of Article 2 amended by Stats. 1976, Ch. 1011)

[ORIGINAL HEADING]

#### Article 2. Exclusions of Students

76020. The governing body of any community college district may exclude students of filthy or vicious habits, or students suffering from contagious or infectious diseases.

76021. The governing board of the community college may exclude from attendance on regular classes any student whose physical or mental disability is such as to cause his attendance to be inimical to the welfare of other students.

### Article 3. Suspension or Expulsion

76030. An instructor may suspend, for good cause, any student from his or her class for the day of the suspension and the day following. The instructor shall immediately report the suspension to the president of the college and send the student to the president for appropriate action. If the student is a minor, the instructor shall ask the parent or guardian of the student to attend a parent conference regarding the suspension as soon as possible. A college administrator shall attend the conference if the instructor or the parent or guardian

so requests. The student shall not be returned to the class from which he was suspended, during the period of the suspension, without the concurrence of the instructor of the class and the president.

76031. The president of a college may suspend, for good cause, any student from the college, subject to the provisions of Section 76040. The president shall report the suspension of such a student to the governing board of the college district or to the district superintendent in accordance with the regulations of the governing board.

Any suspension pursuant to this section shall not exceed five schooldays.

76032. As used in Sections 76030 and 76031, "good cause" includes those offenses enumerated in Section 76033, but is not limited to those offenses.

76033. Continued willful disobedience, habitual profanity or vulgarity, open and persistent defiance of the authority of the college personnel, or assault or battery upon a student, upon college premises or while under the authority of college personnel, or continued abuse of college personnel, assault or battery upon college personnel, or any threat of force or violence directed toward college personnel, at any time or place shall constitute good cause for suspension or expulsion from the college; however, no student shall be suspended or expelled unless the conduct for which he is to be disciplined is related to college activity or college attendance.

76033.5. (a) Smoking or having tobacco on college premises, or while under the authority of college personnel, constitutes good cause for the suspension or expulsion of a student except as provided in this section.

(b) The governing board of a community college district may adopt rules and regulations permitting the smoking and possession of tobacco on the campus of a community college while under the authority of school personnel by students of the community college provided that such rules and regulations shall not permit students to smoke in any classroom or other enclosed facility which any student is required to occupy or which is customarily occupied by nonsmoking students.

76034. (a) For the protection of other students in the public college, the governing board of any community college district may suspend, or expel, and the superintendent or a president of any district when previously authorized by the governing board may suspend, a student whenever it is established to the satisfaction of the board or the superintendent or president, respectively, that the student has on community college premises or elsewhere used, sold, or been in possession of narcotics or other hallucinogenic drugs or substances, or has inhaled or breathed the fumes of, or ingested, any poison classified as such by Schedule "D" in Section 4160 of the Business and Professions Code.

76035. It is unlawful for any student, enrolled in any community college of this state, to join or become a member of any secret

fraternity, sorority, or club, wholly or partly formed from the membership of students attending the public schools, or to take part in the organization or formation of any fraternity, sorority, or secret club. Nothing in this section shall be construed to prevent any student from joining the order of the Native Sons of the Golden West, Native Daughters of the Golden West, Foresters of America, or other kindred organizations not directly associated with the community colleges of the state.

76036. Any governing board may enforce the provisions of Section 72235 by suspending, or, if necessary, expelling a student in any community college who refuses or neglects to obey any rules prescribed pursuant to that section.

76037. The governing board of any community college district shall suspend or expel students for misconduct when other means of correction fail to bring about proper conduct.

76038. The chief administrative employee at a community college shall, prior to the suspension or expulsion of any student, notify the appropriate law enforcement authorities of the county or city in which the school is situated, of any acts of the student which may be violative of Section 245 of the Penal Code.

76039. Any minor whose willful misconduct results in injury or death to any student or any person employed by or performing volunteer services for a community college district or who willfully cuts, defaces, or otherwise injures in any way any property, real or personal, belonging to a community college district is liable to suspension or expulsion, and the parent or guardian of an unemancipated minor shall be liable for all damages so caused by the minor. The liability of the parent or guardian shall not exceed two thousand dollars (\$2,000). The parent or guardian shall also be liable for the amount of any reward not exceeding two thousand dollars (\$2,000) paid pursuant to Section 53069.5 of the Government Code. The parent or guardian of a minor shall be liable to a community college district for all property belonging to the community college district loaned to the minor and not returned upon demand of an employee of the district authorized to make the demand.

76040. Whenever a minor student is suspended from a community college, the parent or guardian shall be notified of such action. Any notification to a student's parent or guardian concerning the suspension of the minor shall be signed by the college president or his designee.

76042. All students shall comply with the regulations, pursue the required course of study, and submit to the authority of the instructors of the colleges.

76043. A violation or violations of any law, ordinance, regulation, or rule regulating or pertaining to the parking of vehicles, shall not be cause for the suspension or expulsion of a student from a community college.

## Article 4. Student Organizations

76060. Any group of students may organize a student body association within the community colleges with the approval and subject to the control and regulation of the governing board of the community college district. Any such organization shall have as its purpose the conduct of activities on behalf of the students approved by the school authorities and not in conflict with the authority and responsibility of the community colleges officials. Any student body organization may be granted the use of community college premises and properties without charge subject to such regulations as may be established by the governing board of the community college district.

76062. The governing board of any community college district may authorize any organization composed entirely of students attending the colleges of the district to maintain such activities, including fundraising activities, as may be approved by the governing board.

The governing board of any community college district may, by resolution, authorize any student body organization to conduct fundraising activities on community college property during school hours provided that the governing board has determined that such activities will not interfere with the normal conduct of the community colleges.

76063. The funds of any student body organization established in the public schools of any community college district shall, subject to approval of the governing board of the district, be deposited or invested in one or more of the following ways:

(a) Deposits in a bank or banks whose accounts are insured by the Federal Deposit Insurance Corporation.

(b) Investment certificates or withdrawable shares in state-chartered savings and loan associations and savings accounts of federal savings and loan associations provided such associations are doing business in this state and have their accounts insured by the Federal Savings and Loan Insurance Corporation.

(c) Purchase of United States savings bonds (Series F and G) as authorized for investment by subdivision (a) of Section 16430 of the Government Code.

(d) Shares or certificates for funds received or any form of evidence of interest or indebtedness issued by any credit union in this state, organized under the provisions of Division 5 (commencing with Section 14000) of the Financial Code or the statutes of the United States relating to credit unions insured by the administrator of the National Credit Union Administration or a comparable agency as provided by a state government.

The funds shall be expended subject to such procedure as may be established by the student body organization subject to the approval of each of the following three persons which shall be obtained each time before any of such funds may be expended: an employee or

official of the community college district designated by the governing board, the certificated employee who is the designated adviser of the particular student body organization, and a representative of the particular student body organization.

76064. In addition to deposit or investment pursuant to Section 76063, the funds of a student body organization may be loaned or invested in any of the following ways:

(a) Loans, with or without interest, to any student body organization established in another community college of the district for a period not to exceed three years.

(b) Invest money in permanent improvements to any community college district property including, but not limited to, buildings, automobile parking facilities, gymnasiums, swimming pools, stadia and playing fields, where such facilities, or portions thereof, are used for conducting student extracurricular activities or student spectator sports, or when such improvements are for the benefit of the student body. Such investment shall be made on condition that the principal amount of the investment plus a reasonable amount of interest thereon shall be returned to the student body organization as provided herein. Any community college district approving such an investment shall establish a special fund in which moneys derived from the rental of community college district property to student body organizations shall be deposited. Moneys collected by the governing board for automobile parking facilities as authorized by Section 72246 shall be deposited in the special fund if the parking facilities were provided for by investment of student body funds under this section. Moneys shall be returned to the student body organization as contemplated by this section exclusively from such special fund and only to the extent that there are moneys in such special fund. Whenever there are no outstanding obligations against the special fund, all moneys therein may be transferred to the general fund of the school district by action of the local governing board.

Two or more student body organizations of the same community college district may join together in making such investments in the same manner as is authorized herein for a single student body. Nothing herein shall be construed so as to limit the discretion of the local governing board in charging rental for use of community college district property by student body organizations as provided in Section 76060.

76065. The governing board of any community college district shall provide for the supervision of all funds raised by any student body or student organization using the name of the college.

The cost of supervision may constitute a proper charge against the funds of the district.

The governing board of a community college district may also provide for a continuing audit of student body funds with community college district personnel.

76066. In schools or classes for adults, regional occupational

centers or programs, or in elementary schools in which the student body is not organized, the governing board may appoint an employee or official to act as trustee for student body funds and to receive said funds in accordance with procedures established by the board. These funds shall be deposited in a bank approved by the board and shall be expended subject to the approval of said appointed employee or official and also subject to such procedure as may be established by the board.

76067. Any student political organization which is affiliated with the official youth division of any political party that is on the ballot of the State of California may hold meetings on a community college campus and may distribute bulletins and circulars concerning its meetings, provided that there is no endorsement of such organization by the school authorities and no interference with the regular educational program of the school.

#### Article 5. Athletic Programs

76100. It is the intent of the Legislature that opportunities for participation in athletics be provided on an equitable basis to all students.

It is the further intent of the Legislature that females be given the same opportunity to participate in athletics and compete with other females in individual and team sports as is available to males who compete with other males in individual and team sports.

76101. Insofar as practicable, in apportioning public funds school district governing boards shall apportion amounts available for athletics to ensure that equitable amounts will be allocated for all students, except that allowances may be made for differences in the costs of various athletic programs.

76102. Notwithstanding any other provision of law, no public funds shall be used in connection with athletic programs conducted under the auspices of a school district governing board or any student organization within the district, which do not provide facilities and opportunities for participation by both sexes on an equitable basis. Facilities and opportunities for participation include, but are not limited to, equipment and supplies, scheduling of games and practice time, compensation for coaches, travel arrangements, per diem, locker rooms, and medical services.

#### Article 6. Meals and Lodging for Athletes

76110. The governing board of a community college district may provide meals and lodging for each member of an athletic team comprised of students at the community college attending upon and participating in an athletic event at a place other than the school which the members of the athletic team attend, where the event is of such a distance from the school as to necessitate obtaining meals or lodging away from home. The governing board may pay for such

meals and lodging out of any funds of the district available for the purpose.

### Article 7. Exercise of Free Expression

76120. The governing board of a community college district shall adopt rules and regulations relating to the exercise of free expression by students upon the premises of each community college maintained by the district, which shall include reasonable provisions for the time, place, and manner of conducting such activities.

Such rules and regulations shall not prohibit the right of students to exercise free expression including, but not limited to, the use of bulletin boards, the distribution of printed materials or petitions, and the wearing of buttons, badges, or other insignia, except that expression which is obscene, libelous or slanderous according to current legal standards, or which so incites students as to create a clear and present danger of the commission of unlawful acts on community college premises, or the violation of lawful community college regulations, or the substantial disruption of the orderly operation of the community college, shall be prohibited.

### Article 8. Administration of Punishment to Students

76130. The governing board of any community college district shall adopt rules and regulations authorizing instructors, supervisors, and other certificated personnel to administer reasonable corporal or other punishment to students when such action is deemed an appropriate corrective measure except as provided in Section 76131.

(Amended by Stats. 1976, Ch. 1011.)

#### [ORIGINAL SECTION]

76130. The governing board of any community college district shall adopt rules and regulations authorizing instructors, supervisors, and other certificated personnel to administer reasonable corporal or other punishment to pupils when such action is deemed an appropriate corrective measure except as provided in Section 76131.

76131. No corporal punishment shall be administered to an educationally handicapped student, a physically handicapped student, or a mentally retarded student, as defined pursuant to Section 56515, 56802, 78600, 78702, or 78801, enrolled in special education classes, without the prior written consent of the student's parent or guardian.

(Amended by Stats. 1976, Ch. 1011.)

#### [ORIGINAL SECTION]

76131 No corporal punishment shall be administered to an educationally handicapped pupil, a physically handicapped pupil, or a mentally retarded pupil, as defined pursuant to Section 56515, 56802, 78600, 78702, or 78801, enrolled in special education classes, without the prior written consent of the pupil's parent or guardian

## Article 9. Nonresident Tuition

76140. A community college district may admit and shall charge a tuition fee to nonresident students. The district may exempt from all or parts of the fee nonresidents who (a) enroll for six units or less or (b) are both citizens and residents of a foreign country. Any exemptions shall be made with regard to all nonresidents described in (a) or (b) and shall not be made on an individual basis.

A district may, with the approval of the Board of Governors of the California Community Colleges contract with a state, a county contiguous to California, the federal government, a foreign country, or an agency thereof, for payment of all or a part of a nonresident student's tuition fee.

The nonresident tuition fee shall be paid in equal installments at the beginning of each term as determined by the governing board of the district and shall be set by the governing board of each community college district not later than January 1st of each year. The fee shall represent the amount per student enrolled in the district, which is expended by the district for the current costs of education as defined by the California Accounting Manual for students enrolled in grades 13 and 14.

The district governing board shall establish the nonresident tuition on the basis of one of the following computations: (a) the amount per student enrolled, derived by dividing the current costs expended from funds from all sources during the preceding year by the average daily attendance during the same year in grades 13 and 14, or (b) the statewide average current expenditure per unit of average daily attendance in grades 13 and 14 during the preceding fiscal year. The same fee shall be charged irrespective of the type of class in which the student is enrolled. Any loss in revenue generated by the nonresident tuition fee shall not be offset by additional state funding due to the loss of revenues derived therefrom.

The governing board of each community college district shall also adopt a per-unit tuition fee for nonresidents on less than a full-time basis by dividing the fee for full-time nonresidents by 30 (units) for colleges operating on the semester system, and 45 (units) for colleges operating on the quarter system. The same per-unit rate shall be charged all nonresident students attending any terms or sessions maintained by the community college outside of the instructional year. The rate charged shall be the rate established for the fiscal year in which the term or session ends.

A district shall report annually to the Board of Governors of the California Community Colleges the number of nonresidents enrolled for six units or less, the number of nonresidents enrolled for more than six units, and the total amount of fees collected from each category.

The provisions of this section which require a mandatory fee for nonresidents shall not apply to any district which borders on another state and has fewer than 500 average daily attendance, except that

the provisions of this section which require annual reports to be filed with the Board of Governors of the California Community Colleges on the number of such students enrolled shall apply to such districts in the same manner as to any other district.

76141. The governing board of a necessary small community college district, as defined in Section 84722, which has constructed and is operating student dormitories financed under provisions of the Community College Revenue Bond Act of 1961 (Chapter 5 (commencing with Section 81900) of Part 49 of this division) or with district funds may elect to be exempted from the provisions of Section 76140 until January 1, 1980, provided that such governing board shall charge a nonresident tuition fee equal to the statewide average current expenditure for education in the preceding fiscal year. The same per-unit rate shall be charged all nonresident students attending any summer sessions maintained by the community college district.

76142. No fee may be charged to any apprentice who is not a resident of California for attendance in a California community college in classes of related and supplemental instruction as provided under Section 3074 of the Labor Code and in accord with the requirements as set forth in subdivision (d) of Section 3078 of that code.

76143. For purposes of the nonresident tuition fee, a community college district shall disregard the time during which a student living in the district resided outside the state, if:

(1) The change of residence to a place outside the state was due to a job transfer and was made at the request of the student's employer or, in the case of a student who resided with, and was a dependent of, the student's parents, the change of residence was made at the request of an employer of either of the student's parents.

(2) Such absence from the state was for a period of not more than four years.

(3) At the time of application for admission to a college maintained by the district, the student would qualify as a resident if the period of the student's absence from the state was disregarded.

A nonresident tuition fee shall not be charged to a student who meets each of the conditions specified in subdivisions (1) to (3), inclusive.

#### Article 10. Miscellaneous

76160. Any student under 21 years of age, and any student under 25 years of age who has been honorably discharged or is otherwise returning from active or inactive military service with the armed forces of the United States, who resides in this state and more than ninety (90) miles from the nearest public community college attendance center where grades 13 and 14 are maintained, measured by the usual vehicular route between his home and such attendance center, may at his request attend grades 13 and 14 at any public

community college in the state, whether or not his residence is in a district maintaining a community college. The governing board of the district maintaining such community college designated by the student shall admit the student provided he otherwise qualifies for admission.

The provisions of the preceding paragraph of this section shall be inapplicable to any student residing in a district maintaining a community college if the Chancellor, California Community Colleges determines that such district maintains adequate dormitories or housing facilities or provides adequate transportation for such student between his home and the community college attendance center.

If the student resides in a district maintaining a community college, the district of the student's residence shall pay to the district of the student's attendance an amount on account of such attendance computed pursuant to Section 2100. The computation shall be made and other procedures shall be undertaken in accordance with such requirements as may be prescribed by the board of governors, by or under authority of the governing board of the community college district of attendance, and shall be approved by the county superintendent of schools having jurisdiction of such district with the certification of the amount owing to be transmitted by him to the district of the student's residence. The governing board of the district of residence shall, on or before June 1st, order payment of the amount computed as owing the district of attendance for the fiscal year, and upon failure of the governing board so to do, the county superintendent of schools having jurisdiction of the district shall draw a requisition against the funds of the district in favor of the district of attendance in payment of such amount and transmit the same to the district of attendance. For purposes of all provisions of this code dealing with allowances and apportionments from the State School Fund for support of community colleges, the district of the student's residence and the district of his attendance shall be deemed to have entered into an interdistrict attendance agreement with respect to the student.

If the student resides within territory not included within any community college district the provisions of Chapter 8 (commencing with Section 2100) of Part 2 of Division 1 of Title 1 shall be applicable.

In addition to the payments required under the preceding paragraphs of this section, there shall be paid to the parents or other persons having charge or control of such student at his residence and directly to adult students and married minors, by the district in which the student attends, a maintenance allowance of one dollar and fifty cents (\$1.50) per calendar day or not more than two dollars (\$2) per calendar day, if the county board of supervisors of the county of residence determines such larger amount to be more appropriate, for the period in which the student is enrolled full time in regular classes in a community college under this section. Such amount shall be paid on or before the 15th day after the close of the

school year in which the student was so enrolled. Such payments made by a district maintaining a community college at which the student attends shall be included in that district's transportation expense as payments made in lieu of providing for transportation of students between their homes and regular full-time day schools, for purposes of Article 9 (commencing with Section 84810) of Part 50 of this division and the amount thereof not reimbursed by the state shall be included in the computation of the amount to be paid by the district of the student's residence, or the community college tuition fund, as the case may be.

For the purpose of this section, a person shall be deemed to be honorably discharged from the armed forces (a) if he was honorably discharged from the armed forces of the United States or (b) if he was inducted into the armed forces of the United States under the "Universal Military Training and Service Act," and (1) satisfactorily completes his period of training and service under such act and is issued a certificate to that effect pursuant to such act, or (2) having served honorably on active duty was transferred to a reserve component of the armed forces of the United States pursuant to such act, or (3) was otherwise released pursuant to such act under honorable conditions.

For the purposes of this section, the term "armed forces of the United States" shall include all regular and reserve components of the uniformed services which are subject to the jurisdiction of the Secretary of Defense, the Secretaries of the Army, Navy, and Air Force, and all components of the Coast Guard.

## CHAPTER 1.5. STUDENT RECORDS

### Article 1. Legislative Intent

76200. It is the intent of the Legislature to resolve potential conflicts between California law and the provisions of Public Law 93-380 regarding the confidentiality of student records in order to insure the continuance of federal education funds to public community colleges within the state, and to revise generally and update the law relating to such records.

### Article 2. Definitions

76210. As used in this chapter:

(a) "Student record" means any item of information directly related to an identifiable student, other than directory information, which is maintained by a community college or required to be maintained by any employee in the performance of his duties whether recorded by handwriting, print, tapes, film, microfilm or other means.

"Student record" shall not mean information provided by a student's parents relating to applications for financial aid or

scholarships, nor shall it mean information related to a student compiled by a community college officer or employee which remains in the sole possession of the maker and is not accessible or revealed to any other person, including information related to a student created or maintained by a physician, psychiatrist, psychologist, or other recognized professional or paraprofessional acting in his professional or paraprofessional capacity, or assisting in that capacity, and which are created, maintained, or used only in connection with the provision of treatment to the student and are not available to anyone other than persons providing such treatment; provided, however, that such records may be personally reviewed by a physician or other appropriate professional of the student's choice.

(b) "Student record" shall not mean information maintained by a law enforcement unit if the personnel of the unit do not have access to student records pursuant to Section 76243, if the information maintained by the unit is kept apart from information maintained pursuant to subdivision (a) of this section, if the information is maintained solely for law enforcement purposes, and if the information is not made available to persons other than law enforcement officials of the same jurisdiction.

(c) "Directory information" means one or more of the following items: student's name, address, telephone number, date and place of birth, major field of study, class schedule, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, degrees and awards received, the most recent previous public or private school attended by the student, and any other information authorized in writing by the student.

(d) "Access" means a personal inspection and review of a record or an accurate copy of a record, or an oral description or communication of a record or an accurate copy of a record, or a request to release a copy of any record.

### Article 3. General Provisions

76220. Community college districts shall establish, maintain, and destroy student records according to regulations adopted by the Board of Governors of the California Community Colleges. Such regulations shall establish state policy as to what items of information shall be placed into student records and what information is appropriate to be compiled by individual community college officers or employees under the exception to student records provided in subdivisions (a) and (b) of Section 76210. No student records shall be destroyed except pursuant to such regulations or as provided in subdivisions (b) and (c) of Section 76232.

76221. Community college districts shall notify students of their rights under this chapter upon the date of the student's enrollment next following its effective date, and at least annually thereafter. The notice shall be, insofar as is practicable, in the home language of the

student. The notice shall take a form which reasonably notifies students of the availability of the following specific information:

(a) The types of student records and information contained therein which are directly related to students and maintained by the institution.

(b) The official responsible for the maintenance of each type of record, the persons who have access to those records, and the purposes for which they have such access.

(c) The policies of the institution for reviewing and expunging those records.

(d) The right of the student to access to his records.

(e) The procedures for challenging the content of student records.

(f) The cost if any which will be charged for reproducing copies of records.

(g) The categories of information which the institution has designated as directory information pursuant to Section 76240 and the parties to whom such information will be released unless the student objects.

(h) Any other rights and requirements set forth in this chapter.

76222. A log or record shall be maintained for each student's record which lists all persons or organizations requesting or receiving information from the record excepting school personnel and the reasons therefor. The log shall be open to inspection only by the student and the community college official or his designee responsible for the maintenance of student records.

76223. Any community college may make a reasonable charge in an amount not to exceed the actual cost of furnishing copies of any student record; provided, however, that no charge shall be made for furnishing (1) up to two transcripts of former students' records or (2) up to two verifications of various records of former students.

76224. (a) When grades are given for any course of instruction taught in a community college district, the grade given to each student shall be the grade determined by the instructor of the course and the determination of the student's grade by the instructor, in the absence of mistake, fraud, bad faith, or incompetency, shall be final.

(b) No grade of a student participating in a physical education class, however, may be adversely affected due to the fact that the student does not wear standardized physical education apparel where the failure to wear such apparel arises from circumstances beyond the control of the student.

76225. Whenever a student transfers from one community college or public or private institution of postsecondary education to another within the state, appropriate records or a copy thereof shall be transferred by the former community college, college or university, or school or school district upon a request from the community college, college or university, or school or school district where the student intends to enroll; provided, however, that the community college, college or university, or school or school district

from which the student is transferring may notify the community college, college or university, or school or school district making such a request that the student's records will be transferred upon payment by the student of all fees and charges due the community college, college or university, or school or school district. Any community college, college or university, or school or school district making such a transfer of such records shall notify the student of his right to receive a copy of the record and his right to a hearing to challenge the content of the record.

The Board of Governors of the California Community Colleges may adopt rules and regulations concerning transfer of such records to, from, or between schools under its jurisdiction.

#### Article 4. Rights of Students

76230. Any currently enrolled or former student has a right to access to any and all student records relating to him maintained by community colleges. The editing or withholding of any such records is prohibited.

Each community college district shall adopt procedures for the granting of requests by students to inspect and review records during regular school hours, provided that access shall be granted no later than five days following the date of the request. Procedures shall include notification of the location of all official student records if not centrally located and the providing of qualified personnel to interpret records where appropriate.

76231. A student may be requested to waive his right to access to student records devoted solely to confidential recommendations for career placement or postsecondary admission, provided that the student shall be notified, upon request, of the names of all persons making confidential recommendations. Such waivers may not be required as a condition for admission to, receipt of financial aid from, or receipt of any other services or benefits from a community college.

76232. (a) Any student may file a written request with the chief administrative officer of a community college district to remove information recorded in his student records which he alleges to be: (1) inaccurate; (2) an unsubstantiated personal conclusion or inference; (3) a conclusion or inference outside of the observer's area of competence; or (4) not based on the personal observation of a named person with the time and place of the observation noted.

(b) Within 30 days of receipt of such request, the chief administrative officer or his designee shall meet with the student and the certificated employee who recorded the information in question, if any, and if such employee is presently employed by the community college district. The chief administrative officer shall then sustain or deny the allegations.

If the chief administrative officer sustains the allegations, he shall order the removal and destruction of the information.

If the chief administrative officer denies the allegations and refuses to order the removal of the information, the student may, within 30 days of the refusal, appeal the decision in writing to the governing board of the community college district.

(c) Within 30 days of receipt of such an appeal, the governing board shall, in closed session with the student and the certificated employee who recorded the information in question, if any, and if such employee is presently employed by the community college district, determine whether to sustain or deny the allegations.

If the governing board sustains the allegations, it shall order the chief administrative officer to immediately remove and destroy the information.

The decision of the governing board shall be final.

Records of these administrative proceedings shall be maintained in a confidential manner and shall be destroyed one year after the decision of the governing board, unless the student initiates legal proceedings relative to the disputed information within the prescribed period.

(d) If the final decision of the governing board is unfavorable to the student, or if the student accepts an unfavorable decision by the chief administrative officer, the student shall have the right to submit a written statement of his objections to the information. This statement shall become a part of the student's record until such time as the information objected to is removed.

76233. Whenever there is included in any student record information concerning any disciplinary action taken by community college personnel in connection with the student, the student shall be allowed to include in such record a written statement or response concerning the disciplinary action.

#### Article 5. Privacy of Student Records

76240. Community college districts shall adopt a policy identifying those categories of directory information as defined in subdivision (c) of Section 76210 which may be released. The district shall determine which officials or organizations may receive directory information, provided, however, that no information may be released to a private profitmaking entity other than prospective employers and representatives of the news media, including, but not limited to, newspapers, magazines, and radio and television stations. The names and addresses of students may be provided to a private school or college operating under the provisions of Sections 8080-8093, 33190-33192, 60670-60672, 94000-94409, provided, however, that no such private school or college shall use such information for other than purposes directly related to the academic or professional goals of the institution, and provided further that any violation of this provision is a misdemeanor, punishable by a fine of not to exceed two thousand five hundred dollars (\$2,500), and, in addition, the privilege of the school or college to receive such

information shall be suspended for a period of two years from the time of discovery of the misuse of such information.

Any community college district may, in its discretion, limit or deny the release of specific categories of directory information to any public or private nonprofit organization based upon a determination of the best interests of students.

Directory information may be released according to local policy as to any student currently attending the community college, provided that public notice is given at least annually of the categories of information which the district plans to release and of the recipients. No directory information shall be released regarding any student when the student has notified the school that such information shall not be released.

76241. Nothing in this chapter shall preclude a community college from providing, in its discretion, statistical data from which no student may be identified to any public agency or entity or private nonprofit college, university, or educational research and development organization when such actions would be in the best educational interests of students.

76242. A community college district may permit access to student records to any person for whom the student has executed written consent specifying the records to be released and identifying the party to whom the records may be released. The recipient must be notified that the transmission of the information to others is prohibited. The consent notice shall be permanently kept with the record file.

76243. A community college or community college district is not authorized to permit access to student records to any person without the written consent of the student or under judicial order except that:

(a) Access shall be permitted to the following:

(1) Officials and employees of the college or district, provided that any such person has a legitimate educational interest to inspect a record.

(2) Federal or state education officials or the county superintendent of education, or their respective designees, or the United States Office for Civil Rights, where such information is necessary to audit or evaluate a state or federally funded program or pursuant to a federal or state law.

(3) Other state and local officials to the extent that information is specifically required to be reported pursuant to state law.

(4) Parents of a student who is a dependent as defined in Section 152 of the Internal Revenue Code of 1954.

(b) Access may be permitted to the following:

(1) Appropriate persons in connection with an emergency if the knowledge of such information is necessary to protect the health or safety of a student or other persons.

(2) Officials and employees of other public or private schools or school systems, including local, county, or state correctional facilities

where educational programs are provided, where the student has been enrolled, intends to enroll, or is directed to enroll, subject to the rights of students as provided in Section 76225 of this code.

(3) Agencies or organizations in connection with a student's application for, or receipt of, financial aid.

(4) Accrediting associations carrying out accrediting functions.

(5) Organizations conducting studies for, or on behalf of, educational agencies or institutions for the purpose of developing, validating, or administering predictive tests, administering student aid programs, and improving instruction, if such studies are conducted in such a manner as will not permit the personal identification of students or their parents by persons other than representatives of such organizations and such information will be destroyed when no longer needed for the purpose for which it is conducted.

No person, persons, agency or organization permitted access to student records pursuant to this section shall permit access to any information obtained from such records by any other person, persons, agency, or organization without the written consent of the student; provided, however, that this paragraph shall not be construed as to require prior student consent when information obtained pursuant to this section is shared with other persons within the educational institution, agency or organization obtaining access, so long as such persons have an equal legitimate interest in the information.

76244. Information concerning a student shall be furnished in compliance with a court order. The student shall be notified in advance of such compliance by the college employee who complies and releases the information if lawfully possible within the requirements of the judicial order.

76245. The service of a subpoena upon a community college employee solely for the purpose of causing him to produce a school record pertaining to any student may be complied with by such employee, in lieu of personal appearance as a witness in the proceeding, by submitting to the court, or other agency issuing the subpoena, at the time and place required by the subpoena, a copy of such record, accompanied by an affidavit certifying that such copy is a true copy of the original record on file in the community college or community college office. The copy of the record shall be in the form of a photostat, microfilm, microcard, or miniature photograph or other photographic copy or reproduction, or an enlargement thereof.

76246. The Board of Governors of the California Community Colleges shall adopt appropriate rules and regulations to insure the orderly implementation of this chapter. A community college district governing board may adopt rules and regulations which are not inconsistent with this chapter or with those adopted by the board of governors in order to ensure the orderly implementation of this chapter.

**CHAPTER 2. ATTENDANCE****Article 1. General Provisions**

76300. Attendance in all schools and classes shall be recorded and kept according to regulations prescribed by the board of governors, subject to the provisions of this chapter.

76301. The governing board of each community college district shall, subject to the provisions of this chapter, fix the length of the schoolday for the several grades and classes of the schools maintained by the district.

76302. The total days of attendance of a student in a regular full-time day community college during the fiscal year shall be the number of days actually taught for not less than the minimum college days during the fiscal year.

**Article 2. Minimum Schoolday**

76310. In any community college district students in 13th- and 14th-grade courses shall not be credited, on a district average, with more than 18 class hours of attendance during any five-day week of each regular semester or quarter, exclusive of attendance at summer schools.

The chancellor's office shall adopt such regulations as may be necessary to carry out the provisions of this section.

76311. The minimum schoolday in any community college, other than an evening community college, is 180 minutes.

76312. With respect to educationally handicapped students provided instruction pursuant to Chapter 4 (commencing with Section 78600), of Part 48 of this division, the minimum schoolday in any high school is 240 minutes.

76313. The minimum day in special day or Saturday vocational training programs and for students enrolled in a work experience education program approved under the provisions of Article 4 (commencing with Section 78240) of Chapter 2 of Part 48 of this division is 180 minutes.

**Article 3. Adults**

76320. In classes for adults, a day of attendance is 180 minutes of attendance but no student shall be credited with more than 15 clock hours of attendance during any one school week unless he is enrolled in a class in elementary subjects, a class for which high school credit is given, a class in English for foreigners, a class in citizenship, or a class in a trade or industrial subject as trade or industrial subject is defined by the chancellor's office for community colleges.

76321. In classes for adults maintained for adults in any county jail, or any county industrial farm or county or joint county road camp, a day of attendance is 180 minutes of attendance; but no

student in such a class shall be credited with more than one day of attendance in any calendar day, nor with more than 15 clock hours of attendance during any one school week.

76322. Each clock hour of instruction time devoted to the individual instruction of physically handicapped adults who are patients in a tuberculosis ward or hospital maintained by one or more counties shall count as one day of attendance but no such adult shall be credited with more than one day of attendance in any calendar day.

#### Article 4. Physically Handicapped Students

76330. Attendance of physically handicapped students in a graded special class for the same number of minutes as constitute a day of attendance in the same grade of regular classes shall constitute a day of attendance, except for such minors 16 years of age and over who are enrolled in an approved occupational training program or work experience education program. Each clock hour of teaching time devoted to individual instruction of physically handicapped students shall count as one day of attendance. Whenever one to four physically handicapped students are instructed at the same time by the same instructor in a remedial class conducted by a community college district or the county superintendent of schools, the total attendance credited for such students shall equal one unit of attendance for each 60 minutes of instruction. The average daily attendance of all physically handicapped students shall be computed by dividing the total number of days of attendance of the students by the number of days taught in the regular schools of the district.

Notwithstanding any provision of this code to the contrary, however, when a physically handicapped minor 16 years of age or over is enrolled in an approved occupational training program pursuant to Sections 78840 and 78842, two clock hours of attendance in a special day school or class in combination with two clock hours of attendance in such an occupational training program shall count as one day of attendance.

Notwithstanding any provision of this code to the contrary, however, when a physically handicapped minor 16 years of age or over is enrolled in an approved off-campus work experience education or work-study program, one day of attendance may consist of either: (a) two class hours of attendance in a special or regular day class and two clock hours of attendance in such a program; or, (b) three class hours of attendance in a special or regular day class and one clock hour of attendance in such a program.

No such student shall be credited with more than five days of attendance per calendar week or more than the number of calendar days such special day school or class is maintained in such fiscal year.

76331. With respect to physically handicapped students given instruction at home or in a hospital or in the case of minors with speech disorders or defects who may be admitted at the age of three

years for individual or small group instruction of four students or less at the school, each clock hour of teaching time devoted to the instruction of such students shall count as one day of attendance. No provision of this chapter limiting the number of days of attendance with which a student may be credited in any one calendar day is applicable to such student but no such student shall be given individual instruction for more than three hours in any one day or credited with more days of attendance for individual instruction during any fiscal year than the number of legal calendar days school may be maintained during such fiscal year.

76332. The attendance of all physically handicapped students given instruction by a community college district, including those instructed under cooperative arrangements with the Bureau of Vocational Rehabilitation of the State Department of Education, shall be reported annually to the county superintendent of schools together with all other attendance on forms provided by the board of governors.

#### Article 5. Educationally Handicapped Students

76340. Attendance of educationally handicapped students as identified pursuant to Chapter 4 (commencing with Section 78600) of Part 48 of this division enrolled in a special day class, who attend school for the same number of minutes as constitute a minimum schoolday prescribed in Section 76312 shall constitute a day of attendance. Each clock hour of teaching time devoted to individual instruction of educationally handicapped students shall count as one day of attendance. The average daily attendance of all educationally handicapped students shall be computed by dividing the total number of days of attendance of the students by the number of days taught in the regular schools of the district.

(Amended by Stats. 1976, Ch. 1011 )

#### [ORIGINAL SECTION]

76340. Attendance of educationally handicapped students as identified pursuant to Chapter 4 (commencing with Section 78600) of Part 48 of this division enrolled in a special day class, who attend school for the same number of minutes as constitute a minimum schoolday prescribed in Section 76312, shall constitute a day of attendance. Each clock hour of teaching time devoted to individual instruction of educationally handicapped pupils shall count as one day of attendance. The average daily attendance of all educationally handicapped students shall be computed by dividing the total number of days of attendance of the students by the number of days taught in the regular schools of the district.

76341. With respect to educationally handicapped students given instruction at home, in a hospital, or in a regularly established nonprofit, tax-exempt, licensed children's institution, each clock hour of teaching time devoted to the individual instruction of such students shall count as one day of attendance. No provision of this chapter limiting the number of days of attendance with which a student may be credited in any one calendar day is applicable to such students, but no such student shall be given individual instruction for more than three hours in any one day or credited with more days of

attendance for individual instruction during any fiscal year than the number of legal calendar days school may be maintained during such fiscal year.

76342. The attendance of all educationally handicapped students given instruction by a community college district shall be reported annually to the county superintendent of schools together with all other attendance on forms provided by the board of governors.

### CHAPTER 3. STUDENT HEALTH SERVICES AND SUPERVISION

#### Article 1. General Provisions

76400. The governing board of any community college district shall give diligent care to the health and physical development of students, and may employ properly certified persons for the work.

76401. The governing board of any community college district may provide for proper health supervision of the school buildings and students enrolled in the public schools under its jurisdiction.

76402. Contracts between any city, county, or local health district and the governing board of any community college district located wholly or partially within such city, county, or local health district for the performance by the health officers or other employees of the health department of such city, county, or local health district of any or all of the functions and duties set forth in this chapter and in Article 1 (commencing with Section 49300) of Chapter 8 of Part 27 of Division 4 of Title 2 relating to health supervision of school buildings and students are hereby authorized.

In any such contracts the consideration shall be such as may be agreed upon by the governing board and the city, county, or local health district and shall be paid by the governing board at such times as shall be specified in the contract. This section shall not apply to any district which is under the control of a governing board which has under its control a district or districts having a total average daily attendance of 100,000 or more students.

76403. (a) Anything to the contrary notwithstanding, the governing board of any community college district shall cooperate with the local health officer in measures necessary for the prevention and control of communicable diseases in students. For that purpose the board may use any funds, property, and personnel of the district, and may permit any person licensed as a physician and surgeon, or any person licensed as a registered nurse acting under the direction of a supervising physician and surgeon as provided in subdivisions (b) and (c), to administer an immunizing agent to any student. Parents shall have consented in writing to the administration of such immunizing agent.

(b) A registered nurse, acting under the direction of a supervising physician and surgeon, may perform immunization techniques within the course of a school immunization program provided that the administration of an immunizing agent is upon the standing

orders of a supervising physician and surgeon and in accordance with such written regulations as the State Department of Health may adopt pursuant to Section 303.5 of the Health and Safety Code.

“Supervising physician and surgeon,” as used herein, means the physician and surgeon of the local health department or the physician and surgeon of the district that is directing the school immunization program.

(c) While nothing in this section shall be construed to require the physical presence of the supervising physician and surgeon, the supervising physician and surgeon under whose direction the registered nurse is acting shall require such nurse to:

(1) Satisfactorily demonstrate competence in the administration of immunizing agents, including knowledge of all indications and contraindications for the administration of such agents, and in the recognition and treatment of any emergency reactions to such agents which constitute a danger to the health or life of the person receiving the immunization; and

(2) Possess such medications and equipment as required, in the medical judgment of the supervising physician and surgeon, to treat any emergency conditions and reactions caused by the immunizing agents and which constitute a danger to the health or life of the person receiving the immunization, and to demonstrate the ability to administer such medications and to utilize such equipment as necessary.

76404. The governing board of any community college district is hereby authorized to expend funds under its jurisdiction for the purpose of carrying out the provisions of this chapter and Chapter 1 (commencing with Section 32000) of Part 19 of Division 1 of Title 1, and the provisions of Chapter 8 (commencing with Section 3400) of Division 4 of the Health and Safety Code.

76405. The control of smallpox is under the direction of the State Board of Health, and no rule or regulation on the subject of vaccination shall be adopted by community college or local health authorities.

76406. (a) Except as provided in subdivision (h), no person shall be initially employed by a community college district in a certificated or classified position unless the person has submitted to an examination within the past 60 days to determine that he is free of active tuberculosis, by a physician and surgeon licensed under Chapter 5 (commencing with Section 2000) of Division 2 of the Business and Professions Code. This examination shall consist of an X-ray of the lungs, or an approved intradermal tuberculin test, which, if positive, shall be followed by an X-ray of the lungs.

The X-ray film may be taken by a competent and qualified X-ray technician if the X-ray film is subsequently interpreted by a physician and surgeon licensed under Chapter 5 (commencing with Section 2000) of Division 2 of the Business and Professions Code.

(b) Thereafter all employees shall be required to undergo the foregoing examination at least once each four years or more often if

directed by the governing board upon recommendation of the local health officer.

(c) After such examination, each employee shall cause to be on file with the district superintendent a certificate from the examining physician and surgeon showing the employee was examined and found free from active tuberculosis. The county board of education may require, by rule, that all such certificates be filed in the office of the county superintendent of schools or shall require such files be maintained in the office of the county superintendent of schools if a majority of the governing boards of the districts within such county so petition the county board of education, except that in either case a district or districts with a common board having an average daily attendance of 60,000 or more may elect to maintain the files for its employees in that district. "Certificate" as used herein means a certificate signed by the examining physician and surgeon or a notice from a public health agency or unit of the Tuberculosis Association which indicates freedom from active tuberculosis. The latter, regardless of form, will constitute evidence of compliance with this section. Nothing in this section shall prevent the governing board from establishing a rule requiring a more extensive physical examination than required by this section but such rule shall provide for reimbursement on the same basis as hereinafter required.

(d) This examination is a condition of initial employment and the expense incident thereto shall be borne by the applicant unless otherwise provided by rules of the governing board. However, the board may, if an applicant is accepted for employment, reimburse such person in a like manner hereinafter prescribed for employees.

(e) The governing board of each district shall reimburse the employee for the cost, if any, of this examination. The board may provide for the examination required by this section or may establish a reasonable fee for such examination that is reimbursable to employees of the district complying with the provisions of this section.

(f) At the discretion of the governing board this section shall not apply to those employees not requiring certification qualifications who are employed for any period of time less than a school year whose functions do not require frequent or prolonged contact with students.

The governing board may, however, require such examination and may as a contract condition require the examination of persons employed for construction or repair work if the board believes the presence of such persons in and around school premises would constitute a health hazard to students.

(g) If the governing board of a community college district determines by resolution, after hearing, that the health of students in the district would not be jeopardized thereby, the provisions of this section shall not apply to any employee of the district who files an affidavit stating that he adheres to the faith or teachings of any well-recognized religious sect, denomination, or organization and in

accordance with its creed, tenets, or principles depends for healing upon prayer in the practice of religion and that to the best of his knowledge and belief he is free from active tuberculosis. If at any time there should be probable cause to believe that such affiant is afflicted with active tuberculosis, he may be excluded from service until the governing board of the employing district is satisfied that he is not so afflicted.

(h) A person who transfers his employment from one campus or community college district to another shall be deemed to meet the requirements of subdivision (a) if such person can produce a certificate which shows that he was examined within the past four years and was found to be free of communicable tuberculosis, or if it is verified by the school previously employing him that it has such a certificate on file.

A person who transfers his employment from a private or parochial elementary school, secondary school, or nursery school to the community college district subject to this section shall be deemed to meet the requirements of subdivision (a) if such person can produce a certificate as provided for in Section 3450 of the Health and Safety Code which shows that he was examined within the past four years and was found to be free of communicable tuberculosis, or if it is verified by the school previously employing him that it has such a certificate on file.

76407. Notwithstanding any provision of any law, no community college district, officer of any community college district, college president or superintendent, physician, or hospital treating any minor enrolled in any school in any district shall be held liable for the reasonable treatment of a minor without the consent of a parent or guardian of the child when the minor is ill or injured during regular schools hours, requires reasonable medical treatment, and the parent or guardian cannot be reached, unless the parent or guardian has previously filed with the district a written objection to any medical treatment other than first aid.

76408. For the protection of a student's health and welfare, the governing board of a community college district may require the parent or legal guardian of a minor to keep current at the minor's school of attendance, emergency information including the home address and telephone number, business address and telephone number of the parents or guardian, and the name, address and telephone number of a relative or friend who is authorized to care for the student in any emergency situation if the parent or legal guardian cannot be reached.

## Article 2. Employment of Medical Personnel

76420. The governing board of any community college district may appoint a supervisor of health, or supervisors of health, consisting of a physician, psychologist, psychiatrist, nurse, oculist, dentist, optometrist, otologist, podiatrist, audiologist, dental

hygienist, or any one or more of such persons. In case of the appointment of more than one supervisor of health the supervisors may, in the discretion of the board, all be chosen from any one of the classes designated.

The board may also appoint such number of school audiometrists, physical therapists, and occupational therapists as it may deem necessary to work under the direction of the supervisor of health and may provide for the compensation of such employees. No money set aside for the payment of instructors' salaries or for library purposes shall be used for this purpose.

76421. The governing boards of two or more community college districts in the same county may join in the employment of a supervisor of health, or supervisors of health, and may use funds not set aside for the payment of teachers' salaries or for library purposes for the expenses of the work. The boards may employ a nurse or nurses under the direction of a supervisor of health to examine the schools under their jurisdiction.

76422. No physician, psychiatrist, oculist, dentist, dental hygienist, optometrist, otologist, podiatrist, audiologist, or nurse not employed in such capacity by the State Department of Public Health, shall be, nor shall any other person be, employed or permitted to supervise the health and physical development of students unless he holds a services credential with a specialization in health or a valid credential issued prior to November 27, 1970.

Any psychologist employed pursuant to Sections 76420 to 76425, inclusive, shall hold a school psychologist credential, a general pupil personnel services credential authorizing service as a school psychologist, a standard designated services credential with a specialization in pupil personnel services authorizing service as a psychologist, or services credential issued by the board of governors or Commission for Teacher Preparation and Licensing.

The services credential with a specialization in health authorizing service as a school nurse shall not authorize teaching services unless the individual holds a baccalaureate degree, or its equivalent, and has completed a fifth year of preparation.

No physician employed by a district to perform medical services pursuant to Section 87440, shall be required to hold a credential issued by the board of governors or commission, provided he meets the requirements of Section 87440.

76423. Notwithstanding the provisions of Section 76422 any student who is required to take, during the regular schoolday, medication prescribed for him by a physician, may be assisted by the school nurse or other designated school personnel if the district receives (1) a written statement from such physician detailing the method, amount, and time schedules by which such medication is to be taken and (2) if the student is a minor, a written statement from the parent or guardian of the minor indicating the desire that the district assist the minor in the matters set forth in the physician's statement.

76424. A school psychologist is a credentialed professional whose primary objective is the application of scientific principles of learning and behavior to ameliorate school-related problems and to facilitate the learning and development of children in the public schools of California.

To accomplish this objective the school psychologist provides services to children, teachers, parents, community agencies, and the school system itself. These services include:

(a) Consultation with school administrators concerning appropriate learning objectives for children, planning of developmental and remedial programs for students in regular and special school programs, and the development of educational experimentation and evaluation.

(b) Consultation with instructors in the development and implementation of classroom methods and procedures designed to facilitate student learning and to overcome learning and behavior disorders.

(c) Consultation with parents to assist in understanding the learning and adjustment processes of minors.

(d) Consultation with community agencies, such as probation departments, mental health clinics, and welfare departments, concerning students who are being served by such community agencies.

(e) Consultation and supervision of student personnel services workers.

(f) Psychoeducational assessment and diagnosis of specific learning and behavioral disabilities, including, but not limited to, case study evaluation, recommendations for remediation or placement, and periodic reevaluation of such students.

(g) Psychological counseling of and other therapeutic techniques with minors and parents, including parent education.

76425. Notwithstanding the provisions of Section 76424, a licensed physician need not hold a credential if his sole service for a community college district or county superintendent of schools is service as a member of a committee whose function is to consider written and oral information and reports concerning the student that are available to the committee and, upon the basis of such information and reports, to recommend the admission of the student to, or his discharge from, special schools and classes for exceptional students.

### Article 3. Mental Health

76440. Upon the report of the president of a college that a student shows evidence of impaired mental health and that a mental examination is desirable, the governing board of the community college district may, with the written consent of the student's parent or guardian if the student is a minor, provide for the mental examination of said student.

The president shall not be liable for damages or for any civil or criminal penalty for any report made in good faith in carrying out the provisions of this section.

76441. The governing board of any community college district shall make such rules for the mental examination, as provided in Section 76440, of the students in the schools under its jurisdiction as will insure proper care of the students and proper secrecy in connection with any condition of impaired mental health noted by the supervisor of health or his assistant and as may tend to the correction of such condition, and any such governing board may consult and cooperate with the Department of Mental Hygiene in formulating such rules. The Department of Mental Hygiene shall cooperate to the full extent of its capacities in aiding and assisting school districts in carrying out the duties imposed by this article.

76442. When evidence of impaired mental health has been noted by the supervisor of health or his assistant, a report shall be made to the parent or guardian of the minor, asking the parent or guardian to take such action as will cure or correct the condition. Such report must be made on a form prescribed or approved by the board of governors and shall not include therein any recommendation suggesting or directing the student to a designated individual or class of practitioner for the purpose of curing or correcting any condition referred to in the report.

The provisions of this section do not prevent a supervisor of health from recommending in a written report that the minor be taken to a public clinic or diagnostic and treatment center operated by a public hospital or by the state, county, or city department of public health.

76443. Notwithstanding the provisions of any law authorizing or requiring an officer or employee with duties connected with the public schools to provide for or arrange for, or otherwise engage in any activity directed to providing for, the psychological or psychiatric treatment, or both, of a minor student enrolled in a public school, no officer or employee of a community college district shall place, or participate in placing, a student enrolled in a public school in any public or private agency, institution, or place, outside of the minor's school of attendance, for psychological treatment or psychiatric treatment, or both, unless the prior written consent of the parent or guardian to such placement and treatment is first obtained.

This section does not authorize any officer or employee to administer psychological or psychiatric treatment to a minor either within the school of the minor's attendance or at a place outside of such school without the written consent of the parent or guardian.

76444. The governing board of any community college district may enter into a contract with a mental health clinic or child guidance clinic for the furnishing to the district by the clinic of mental health services for the students of the district. The use of the words "mental health" and "mental health services" in this section does not express or imply legislative intent with regard to other

health services. The terms and conditions governing the providing of such services shall be set forth in the contract. No payment shall be made by the district for services performed by persons who do not possess a credential issued by the board of governors or Commission for Teacher Preparation and Licensing covering such service, except as provided in Sections 87438 to 87446, inclusive. When the conditions of the contract have been fulfilled, the cost of services rendered pursuant to such contract may be paid from the funds of the district. The governing board of any city, county, or district which maintains a public mental health clinic or child guidance clinic or nonprofit health clinic is authorized to enter such an agreement.

#### Article 4. Physical Examinations

76450. The governing board of any community college district shall make such rules for the examination of the students in the public schools under its jurisdiction as will insure proper care of the students and proper secrecy in connection with any defect noted by the supervisor of health or his assistant and may tend to the correction of the physical defect.

76451. A parent or guardian having control or charge of any minor enrolled in the community college may file annually with the president of the college in which he is enrolled a statement in writing, signed by the parent or guardian, stating that he will not consent to a physical examination of his child. Thereupon the minor shall be exempt from any physical examination, but whenever there is a good reason to believe that the minor is suffering from a recognized contagious or infectious disease, he shall be sent home and shall not be permitted to return until the college authorities are satisfied that any contagious or infectious disease does not exist.

76453. A physician, dentist, or optometrist who holds a valid, unrevoked certificate to practice his profession in this state, may with the approval of the governing board of the community college district perform, within the scope of their license, health examinations of minors upon school premises with the consent of a parent or guardian, and report findings and recommendations of health needs to the school health officer and parent or guardian.

Such persons conducting health examinations need not be employees of the district and shall be exempt from credential requirements as specified in Section 76422.

This section is applicable only to a school district with an average daily attendance in excess of 400,000.

76454. A person employed by a community college district in a position requiring certification qualifications who holds a valid special credential authorizing the teaching of lipreading or the teaching of the deaf and hard of hearing or a standard teaching credential with specialized preparation in the area of the deaf and hard of hearing or in the area of the speech and hearing handicapped or who holds a certificate of registration to serve as a school

audiometrist issued by the State Board of Public Health may, subject to Section 76451 test the hearing of pupils of the district through the use of an audiometer for the purpose of detecting students with impaired hearing.

76455. (a) When a defect other than a visual defect has been noted by the supervisor of health or his assistant, a report shall be made to the parent or guardian of the minor asking the parent or guardian to take such action as will cure or correct the defect. Such report, if made in writing, must be made on a form prescribed or approved by the board of governors and shall not include therein any recommendation suggesting or directing the student to a designated individual for the purpose of curing or correcting any defect referred to in the report.

(b) When a visual defect has been noted by the supervisor of health or his assistant, a report shall be made to the parent or guardian of the minor, asking the parent or guardian to take such action as will correct the defect. Such report, if made in writing, must be made on a form prescribed or approved by the board of governors and shall not include therein any recommendation suggesting or directing the student to a designated individual or class of practitioner for the purpose of correcting any defect referred to in the report.

(c) The provisions of this section do not prevent a supervisor of health from recommending in a written report that the minor be taken to a public clinic or diagnostic and treatment center operated by a public hospital or by the state, county, or city department of public health.

76456. The supervisor of health shall make such reports from time to time as he deems best to the governing board of the community college district, or as the board may call for, showing the number of defective minors in the schools of the district and the effort made to correct the defects.

## Article 5. Medical Service and Insurance

76470. The governing board of any community college district or districts may provide, or make available, medical or hospital service, or both, through nonprofit membership corporations defraying the cost of medical service or hospital service, or both, or through group, blanket or individual policies of accident insurance from authorized insurers, for students of the district injured while participating in athletic activities under the jurisdiction of, or sponsored or controlled by, the district or the authorities of any school of the district. The cost of the insurance or membership may be paid, from the funds of the district, or by the insured student or his parent or guardian.

The insurance may be purchased from, or the membership may be taken in, only such companies or corporations as are authorized to do business in this state.

76471. The governing board of any community college district or districts which does not employ at least five physicians as full-time supervisors of health, or the equivalent thereof, may provide, or make available, medical or hospital service, or both, through nonprofit membership corporations defraying the cost of medical service or hospital service, or both, or through group, blanket or individual policies of accident insurance or through policies of liability insurance from authorized insurers, for injuries to students of the district or districts arising out of accidents occurring while in or on buildings and other premises of the district or districts during the time such pupils are required to be therein or thereon by reason of their attendance upon a regular day school of such district or districts or while being transported by the district or districts to and from school or other place of instruction, or while at any other place as an incident to school-sponsored activities and while being transported to, from and between such places. No student shall be compelled to accept such service without his consent, or if a minor without the consent of his parent or guardian. The cost of the insurance or membership may be paid, from the funds of the district or districts, or by the insured student, his parent or guardian.

Such insurance may be purchased from, or such membership may be taken in, only such companies or corporations as are authorized to do business in California.

76472. To facilitate the authority referred to in Sections 76470 and 76471 the governing board of the community college district or districts may authorize the distribution by district personnel of such printed matter as may be furnished by the insurer or membership corporation.

76473. The governing board of community college district or districts may provide, or make available, ambulance service, paid for out of district funds, for students, instructors, spectators, and other individuals in attendance at athletic activities under the jurisdiction of, or sponsored or controlled by, the district or districts or the authorities of any school of the district or districts.

#### Article 6. School Meals for Students

76480. The governing board of any community college district may provide, without charge or at a reduced price, breakfasts for students within the district who are needy. The governing board may provide, without charge or at a reduced price, lunches for students who are needy. The governing board of any community college district may provide, without charge, lunches for any or all other students whether they are needy or not, provided that the governing board has so provided such lunches without charge to all students of the district during the 1962-1963 school year. The governing board of any district may provide, without charge or at a reduced price, other nutrition periods during the schoolday during which foods or beverages, or both, are served to students.

For purposes of this article a student who is "needy" is one who does not otherwise receive proper nourishment.

As used in this article "school meals" includes breakfasts, lunches, or the serving of foods or beverages, or both, during other nutrition periods, or any combination thereof.

76481. The governing board of any community college district may, for purposes of Section 76480, establish rules by which to determine which students are needy. For purposes of this article, any student within the category of minors eligible for aid or services under Chapter 2 (commencing with Section 11200) of Part 3 of Division 9 of the Welfare and Institutions Code shall be deemed needy.

76482. (a) For the purpose of providing funds with which to obtain school meals for needy students and to provide facilities and equipment for providing school meals to needy students, the governing board of any community college district may levy and collect a district tax over and above the maximum elsewhere specified in this code but not to exceed five cents (\$.05). Not more than 6 percent of such funds may be used for the administrative and clerical costs of conducting such a program.

76483. District funds may also be used for the purchase of school meals for students, as provided in Section 76480.

76484. Each official and department of the state having charge of the administering of funds for the relief of indigents may contribute and pay any of the funds subject to his disposal to any community college district within the state, to be used by the district for the purchase of school meals for needy students. Every county, city and county, and city within the state may pay any of its funds available for the relief of indigents to any community college district, within or partly within the county, city and county, and city for this purpose.

#### Article 7. Notice to School of Nonepisodic Condition

76490. The parent or legal guardian of any minor student on a continuing medication regimen for a nonepisodic condition, shall inform the school nurse or other designated certificated school employee of the medication being taken, the current dosage, and the name of the supervising physician. With the consent of the parent or legal guardian of the student, the school nurse may communicate with the physician and may counsel with the community college personnel regarding the possible effects of the drug on the student's physical, intellectual, and social behavior, as well as possible behavioral signs and symptoms of adverse side effects, omission, or overdose. The superintendent of each community college district shall be responsible for informing parents of all minors of the requirements of this section.

PART 48. COMMUNITY COLLEGES, EDUCATION  
PROGRAMS

CHAPTER 1. EDUCATION PROGRAMS

Article 1. General Provisions

78000. Each community college shall provide for the education of students in the 13th and 14th grades and for the education of such adults and minors as may properly be admitted but who are not classifiable by grade.

Persons 21 years of age or over enrolled in less than 10 class hours as defined in Section 78460 in classes of any kind whatsoever maintained in connection with a community college, except classes maintained in English and citizenship for foreigners, classes in elementary subjects, and classes which are required in order that the participant may qualify for a high school diploma, where no charge of any kind shall be made, may be required by the governing board of the district maintaining the class to pay a tuition for such classes. The total of the tuition required and the apportionments from the State School Fund on account of the attendance in the classes shall not exceed the estimated cost of all such classes maintained.

78001. The governing board of a community college district may contract with the Trustees of the California State University and Colleges for the maintenance of a community college in a state university or college situated in the district. Any contract executed pursuant to this section shall include among its provisions a requirement that all expenditures incurred for community college maintenance shall be payable only on order of the governing board as all other expenditures of the district are payable, and an additional provision that the president of the state university or college shall serve as president of the community college and in that capacity shall be responsible to the governing board through the superintendent of schools of the district if there is one. Otherwise he shall be responsible directly to the governing board.

78002. The Chancellor of the California Community Colleges may designate one community college district to provide, on a pilot basis for three years, the maintenance of community college classes for credit on Sunday. Attendance at classes conducted on Sunday shall be at the election of the student. Attendance in classes conducted on Sunday shall be counted for purposes of computing average daily attendance. The district shall report to the chancellor's office at the end of each fiscal year the number of separate courses conducted on Sunday, and the number of students enrolled.

Any class which is required for attainment of an associate of arts degree or a certificate, which is offered on Sunday, shall also be offered during the regular Monday-through-Friday school week.

In the district designated to provide community college classes for credit on Sunday, no full-time contract or regular certificated

employee shall, without his or her written consent, be required to perform his or her duties on Sunday, or for more than five days per workweek.

No classified school employee currently employed by such district shall, without his or her written consent, be required to change his or her workweek to include Sunday. Enactment of this section shall not be construed to require or cause any change or disruption in the present workweek of any classified employee, as defined in Section 88026, without written consent of such employee.

Enactment of this section shall not be construed as limiting the powers of any governing board of any community college district to govern the colleges of the district, including the assignment of certificated or classified personnel employed by such district.

The Board of Governors of the California Community Colleges shall evaluate the pilot program, if one is established, and the feasibility of maintaining such classes on a statewide basis and shall report its findings and recommendations to the Legislature on or before September 1, 1978.

This section shall remain in effect until July 1, 1978, and as of that date is repealed.

**78003.** The governing board of any community college district in which is located a high school district required to maintain only one or more junior high schools, may establish and maintain special continuation education classes and, in such case, the governing board of the high school district shall not be required to establish and maintain any such classes under any other provisions of this code.

Special continuation education classes established and maintained under this section shall be deemed to be established and maintained by the governing board of the high school district for all the purposes of Sections 48431 to 48436, inclusive, Sections 48400 to 48415, inclusive, and Sections 48450 to 48454 inclusive.

**78004.** The governing board of a community college district may conduct community college classes and acquire the necessary property and erect the necessary buildings therefor, outside of the boundaries of the school district if all of the following conditions exist:

(a) The proposed location is within the state.

(b) The activities, trades, businesses, or work to be carried on at the proposed location is such as to offer educational opportunities to students who are residents of the district in the subject or all of the subjects proposed to be taught at that location, and facilities for such instruction are not available either at the location of the principal buildings of the community college, or elsewhere within the district.

**78005.** The governing board of a community college district may establish courses outside the district primarily for students who are nonresidents of the district, providing the following conditions are fulfilled:

(a) The governing board of a high school district, not a part of the community college district, with the approval of the county board of education of the county having jurisdiction over the high school

district, requests that community college classes be offered in the high school district.

(b) The district community college requests and receives annually the prior written approval of the board of governors before establishing or continuing such classes outside its district.

78006. The governing board of a community college district may conduct community college classes for students who are residents of the district and utilize existing facilities necessary therefor outside of the boundaries of the district if the district is unable to construct adequate facilities within the district because of the failure of the electors of the district to authorize the issuance of bonds for such purpose at an election held for such purpose and if the district is unable to obtain adequate facilities within the district with the funds available to the district for such purpose.

78007. The governing board of a community college district may enter into a contract on a full-cost basis with the federal government or any agency of the federal government to provide community college courses and classes to persons in the military service of the United States at any military camp, post, installation, base, vessel, or location, whether within or outside the district or the state.

78008. The governing board of a community college district may maintain a summer school at any of its community colleges during the period between the close of one academic year and the beginning of the succeeding academic year in accordance with rules and regulations of the board of governors and with the prior written approval of the board of governors.

The term "academic year" as used in this section means that portion of the school year during which the regular day community college is maintained, which period must include not less than the number of days of teaching required to entitle the district to apportionments of state funds.

78009. The president of any two-year community college may admit 11th- and 12th-grade students to vocational education classes maintained for such students who may profit from the instruction and are recommended by the high school principal, provided:

(a) The high school students are enrolled in a high school within the community college district.

(b) A contract is entered into between the governing board of the district maintaining the high school and the community college district for the payment of the current expense to the community college district incurred on account of such attendance.

(c) Notwithstanding the provisions of Section 84500, the hours of attendance of such students is credited to the high school district of enrollment but in no case shall the credited hours of attendance of a student in both attendance centers exceed one day of attendance on any one calendar day.

(d) Scholastic credit for courses completed is at the high school level.

For the purposes of this section, such vocational education classes

may be considered to be classes maintained by the high school within the boundaries of the district maintaining the high school.

78010. Notwithstanding any provision in this code to the contrary, the governing board of any school district maintaining a high school and the governing board of a community college district may enter into a contract, subject to the approval of the Superintendent of Public Instruction, and the board of governors for the education of community college students in vocational education classes to be conducted for such students by the district maintaining the high school. The average daily attendance of community college students enrolled in such classes, under the provisions of this section, shall be credited to the community college district and college credit may be granted students who satisfactorily complete the course of instruction in such classes.

78011. Notwithstanding any provision of this code to the contrary, in any county with population of 75,000 or less, the county superintendent of schools and the governing board of a community college district, in such counties, may enter into a contract, subject to the approval of the Superintendent of Public Instruction and the board of governors for the education of community college students in vocational educational classes to be conducted for such students in the regional occupational program operated by the county superintendent of schools. The average daily attendance of community college students enrolled in such classes under the provisions of this section shall be credited to the regional occupational program at the level for all other students in the regional occupational program and community college credit may be granted students who satisfactorily complete the course of instruction in such classes.

78012. Notwithstanding any provision in this code to the contrary, the governing board of a community college district and a proprietary or nonprofit organization, a public entity, or a proprietary or nonprofit private corporation may enter into a contract for the education of community college students whose capacity to function is impaired by physical deficiency or injury, in vocational education classes to be conducted for such students by the proprietary or nonprofit organization, the public entity, or the proprietary or nonprofit private corporation maintaining the vocational education classes. All instruction pursuant to this section shall be approved of and supervised by the governing board of the community college school district and shall be conducted by credentialed instructors. The average daily attendance of such community college students attending classes, under the provisions of this section, shall be credited to the community college district and college credit may be granted students who satisfactorily complete the course of instruction in such classes.

78013. No diploma, certificate or other document which is conferred upon a student as evidence of his completion of a prescribed course of study or training shall bear any distinctive

marking or words which indicate that the student upon whom it was conferred was, for purposes of his course of study or training, placed within a particular classification based upon his intellectual or mental capacity.

The provisions of this section shall not be construed to prevent a diploma, certificate or other document from indicating that the student upon whom it is conferred maintained exceptionally high grades during his course of study or training, or that he completed his course with honors, or to prevent the governing board of any community college district from publicizing such information.

## Article 2. Interdistrict Attendance

78030. (a) Subject to the provisions of Sections 76000 to 76003, inclusive, a district resident, as defined for purposes of Part 41 (commencing with Section 68000) of Division 5 of this title, shall be admitted to a community college in another district unless such admission would be contrary to the terms of an interdistrict attendance agreement or a notice of restriction.

(b) A district resident may be entitled to enroll and may be admitted to a community college in another district; provided, that the governing board of the receiving community college district has approved such admission and has determined that space is available at that community college. The admission of such person shall not be subject to an interdistrict attendance agreement or a notice of restriction, if the student pays on behalf of the district in which he resides the tuition computed under Section 78031 on account of such attendance. In the absence of an interdistrict attendance agreement and subject to the provisions of subdivision (c) of Section 78031, the tuition shall be computed as specified in Section 2100, including the specified charge of three hundred dollars (\$300) per unit of average daily attendance for the use of buildings and equipment.

(c) Attendance of such students shall be separately recorded and reported to the Chancellor's Office of the California Community Colleges.

(d) Basic aid shall be apportioned to the district of attendance, and the district of attendance shall not include the attendance of such students in the determination of the district's revenue limit pursuant to Section 85132.

(e) The governing board of each community college district shall prescribe rules and regulations for the implementation of this section.

78031. (a) An interdistrict attendance agreement may be entered into between two districts specifying the terms and conditions under which district residents of one district may attend a community college in the other district. The agreement may be for any period agreed upon but for not less than one year.

(b) Tuition charges including charges for use of buildings and equipment may be specified as part of the terms and conditions of

an interdistrict attendance agreement. Such charges shall be not less than the apportionments provided by the state to the district of attendance because of attendance of students under the agreement nor shall such charges be more than would be computed as specified in Section 2100.

(c) If either district is within the first three years of its existence and has not acquired facilities from a preceding district, the three hundred dollars (\$300) charge for use of buildings and equipment specified in Section 2100 shall not be charged to either district.

78032. A district may restrict admission of its residents in a community college of another district or it may restrict admission of residents of another district into its community college or colleges by means of a notice of restriction. The notice of restriction shall be sent to the district to which it applies, to the county superintendent of each county containing all or part of both districts, and shall be published in the catalog of the district issuing the notice and of the district to which the notice applies. A notice of restriction shall be effective with the school session immediately following the next succeeding April 1 after receipt of the notice by the district to which it is directed. It shall continue in effect until withdrawn. A district receiving a notice of restriction shall not permit attendance contrary to the notice.

78033. If within 30 days after having requested permission to enroll in a community college of another district, a resident student is not permitted to attend because of the terms of an interdistrict attendance agreement or a notice of restriction, an appeal may be made to the county board of education in the county of the student's residence. The appeal may be made by the student, his parent, or his guardian.

Within 30 days after the filing of the appeal the county board of education or its delegated representative shall grant or deny the appeal.

If the appeal is granted and attendance is allowed, the district of residence shall pay tuition to the district of attendance in accordance with an interdistrict attendance agreement which is in effect between the districts. In the absence of an interdistrict attendance agreement and subject to the provisions of subdivision (c) of Section 78031 the rate of tuition shall be computed as specified in Section 2100 including the specified three hundred dollars (\$300) charge per unit of average daily attendance for use of buildings and equipment.

78034. The governing board of any community college district shall admit to a community college maintained by it any nondistrict resident, as defined in Section 68020, who meets the requirements of Sections 76000 to 76003, inclusive.

### Article 3. Accreditation

78050. The governing board of a community college district may pay the costs of accreditation of the community colleges within the

district by the regional accrediting association serving California.

(a) On each accrediting commission for community colleges, there shall be a representative of the chancellor's office appointed by the chancellor.

(b) On each visiting team assigned by the accrediting association to review the program and facilities of a California community college, there shall be a representative of the chancellor's office appointed by the chancellor, except when illness or other emergency prevents such representative from serving and there is not sufficient time for the chancellor to appoint a replacement.

78051. The provisions of Section 78050 do not prohibit the governing board of a community college district from paying the costs for accreditation by other accrediting agencies recognized by the United States Department of Health, Education, and Welfare, Office of Education.

## CHAPTER 2. COURSES OF STUDY

### Article 1. Courses of Study

78200. Courses of instruction and educational programs shall be prepared under the direction of the governing board of each community college district. Such educational programs shall be submitted to the board of governors for approval. Courses of instruction which are not offered in approved educational programs shall be submitted to the board of governors for approval. The district governing board shall establish policies for, and approve, individual courses which are offered in approved educational programs without referral to the board of governors.

The board of governors shall review, and may approve, all educational programs and all courses which are required by this section to be submitted to it for approval.

For the purposes of this section, "course of instruction" means an instructional unit of an area or field of organized knowledge, usually provided on a quarter, semester, year, or prescribed length-of-time basis.

For the purposes of this section, "educational program" is an organized sequence of courses leading to a degree, a certificate, a diploma, a license, or transfer to another institution of higher education.

The provisions of this section apply to classes for adults as well as regular classes of community colleges.

78201. The course of study for two-year community colleges shall be designed to fit the needs of students of the 13th and 14th grades and may include courses of instruction designed to prepare for admission to the upper division of higher institutions of learning and such other courses of instruction designed to prepare persons for agricultural, commercial, homemaking, industrial and other vocations, and such courses of instruction as may be deemed

necessary to provide for the civic and liberal education of the citizens of the community.

78202. The courses of instruction in social sciences shall include a study of the role, participation, and contribution of black Americans, American Indians, Mexicans, persons of oriental extraction, and other ethnic groups to the economic, political, and social development of California and the United States of America.

78203. No state funds shall be apportioned to a community college district on account of the attendance of students enrolled in a community college course unless the course was offered in an educational program, as defined by Section 78200, approved by the board of governors or the course itself was approved by the board of governors.

In any other law having an effect, in relation to community colleges, similar to that of this section, "courses" shall be interpreted in a manner consistent with the provisions of this section.

78204. The governing board of each community college district shall prescribe requirements for graduation from community college courses.

78205. The minimum requirement for graduation from a two-year community college course of study shall be at least 60 credit hours of work.

78206. One credit hour of community college work is approximately three hours of recitation, study, or laboratory work per week throughout a term of 16 weeks. Where a term is more or less than 16 weeks more or less than one credit hour shall be allowed in the same ratio that the length of the term is to 16 weeks.

78207. To the extent of and subject to such requirements as the Board of Governors of the California Community Colleges may, by regulation prescribe, the governing board of a community college district may grant credit to any student based on examinations approved and conducted by proper authorities of the college.

78208. The governing board of each community college district may offer a course of study leading to an associate in arts degree in bilingual, bicultural teacher assisting. The curriculum may include courses of study in bilingual, bicultural education and practicum in bilingual, bicultural teacher assisting.

## Article 2. Correspondence Instruction

78220. The governing board of a community college may, subject to such rules and regulations as may be prescribed by the board of governors and upon the authorization of the board of governors provide students enrolled in the regular day schools of the district with instruction by correspondence provided by the University of California, or other university or college in California accredited for teacher training under this code, in subjects included within or related to the course of study offered in the school and which for good reason cannot be taken by the student, and pay the cost thereof.

Such instruction when provided for a student must be a part of the program of study approved for such student.

78221. Notwithstanding anything in Section 78220 to the contrary, the governing board of any community college district may, subject to such rules and regulations as may be prescribed by the board of governors and upon the authorization of the board of governors, provide veterans enrolled in schools or classes of the district with instruction by correspondence, provided by any university or college referred to in Section 78220 or by any other university, college, school, institution or organization approved by the board of governors in subjects which may be necessary to adjust the veteran to an occupation and which, for good reason, cannot be given by the school, and pay for the cost thereof.

### Article 3. Military Science

78230. The governing board of any community college district may establish in the community college courses in military science and tactics complying with the laws of the United States made and provided with reference to Reserve Officers Training Corps units in educational institutions.

No student enrolled in any such community college shall be required to enroll in any course in military science and tactics.

### Article 4. Work-Experience Education

78240. The governing board of any community college district may:

(a) Provide for the instruction of students in the skills, attitudes, and understandings necessary to success in employment by means of courses of work-experience education as provided in this article.

(b) Provide for guidance and supervision procedures designed to insure maximum educational benefit to students from placement in suitable work-experience education courses.

(c) Provide for arranging, approving, coordinating, and awarding credit for work-experience education courses, and for those purposes employ instructors, coordinators, and other necessary personnel.

(d) Provide for the district to purchase liability insurance for students enrolled in programs of study involving work-experience or vocational education at locations off school grounds approved by the governing board, or require students to purchase insurance and to pass on all or a portion of the costs, at the discretion of the governing board, to the district.

78241. Board of governors shall establish standards for work-experience education, including but not limited to, the following:

- (a) Selection and approval of work stations.
- (b) Supervision of students.
- (c) Credit allowable for work experiences.

(d) Guidance procedures related to work-experience education.

78242. The board of governors shall adopt such rules and regulations as are necessary to maintain the educational purpose and character of work-experience education.

78243. All laws or rules applicable to minors in employment relationships are applicable to students enrolled in work-experience education courses.

78244. Work-experience education as authorized by this article includes the employment of students in part-time jobs selected or approved as having educational value for the students employed therein and coordinated by school employees.

78245. The governing board of any community college district which establishes and supervises a work-experience education program in which mentally retarded students are employed in part-time jobs may use funds derived from any source, to the extent permissible by appropriate law or regulation, to pay the wages of students so employed.

The Legislature hereby finds and declares that the authority granted by the provisions of this section is necessary to ensure that the work-experience education program will continue to provide maximum educational benefit to students, particularly mentally retarded students and that such program is deemed to serve a public purpose.

78246. Work-experience education involving apprenticeable occupations shall be consistent with the purposes of Chapter 4 (commencing with Section 3070) of Division 3 of the Labor Code and with standards established by the California Apprenticeship Council.

78247. The governing board of any community college district may provide for the establishment and supervision of work-experience education programs in contiguous areas outside the district.

78248. The governing board of any community college district providing work-experience and work-study education may provide for employment under such program of students in part-time jobs located in areas outside the district and such employment may be by any public or private employer. Such districts may pay wages to persons receiving such training whether assigned within or without the district, except that no payments may be to or for private employers, and may provide workers' compensation insurance as may be necessary.

78249. Notwithstanding any provisions of this code or the Labor Code to the contrary, the community college district under whose supervision work-experience education, or occupational training classes held in the community, as defined by regulations adopted by the board of governors, are provided shall be considered the employer under Division 4 (commencing with Section 3201) of the Labor Code of persons receiving such training unless such persons during such training are being paid a cash wage or salary by a private employer, or unless the person or firm under whom such persons are

receiving work-experience or occupational training elects to provide workers' compensation insurance. Whenever such work-experience education, or occupational training classes held in the community, are under the supervision of a regional occupational center or program operated by two or more community college districts pursuant to Section 52301, the district of residence of the persons receiving such training shall be deemed the employer for the purposes of this section.

78250. Sections 1292, 1293, and 1294 of the Labor Code shall not apply to work-experience education programs established pursuant to this article; provided that the work-experience coordinator determines that the students have been sufficiently trained in the employment or work otherwise prohibited, if parental approval is obtained, and the principal or the counselor of the student has determined that the progress of the student toward graduation will not be impaired.

#### Article 5. Aviation

78270. The board of governors shall aid and assist local school districts in the development and conduct of a program of aviation education. The Department of Aeronautics may aid and assist in the selection of airports and pilots used by the local school districts in flight indoctrination and instruction.

78271. The Department of Aeronautics is authorized to make available to community colleges offering actual flight experience as part of the regular curriculum a basic insurance program and to assure that adequate supervision and precautionary measures are taken by the flight school operators contracted to provide services for community college students. The governing board of any community college district offering actual flight experience as part of the regular curriculum may participate in the basic insurance program provided by the commission and pay from the funds of the district a pro rata share of the cost of the insurance program.

78272. The governing board of a community college district may establish and maintain community college classes outside of the state, comprising a part of an aircraft pilot training program conducted by the district under an agreement with the federal government or any agency thereof, during the time that it is unlawful by reason of any law or order of the federal government or any agency thereof for such classes to be maintained within the district.

The governing board may make such expenditures and do such things in connection with the establishment and maintenance of classes under this section as it could do were the classes established and maintained within the district.

78273. The governing boards of community college districts are urged to design courses including air transportation, vocational education, career opportunities in civil and military aviation, technical training, flight experience, and ground instruction in

localities where the needs of the youth in these communities warrant such a course in these schools.

#### Article 6. School Farms

78280. The governing board of any community college district may, for the purpose of providing practical instruction in agriculture, establish one or more school farms for any one or more of the schools of the district whenever in its judgment it is advisable to do so.

78281. The cost of purchasing and equipping a school farm and all other costs not met from the receipts of the operation of the farm shall be a charge against the funds of the district.

78282. The governing board of the district may provide for the general supervision of the farm and the cost of the supervision may be a charge against the funds of the district.

78283. All moneys received from the sale of produce, livestock and other products of a farm shall be paid into the county treasury to the credit of the general fund of the district.

78284. The governing board of the community college district may, as an alternative to the procedure provided for in Section 78283, establish an account for each such farm established in the district, or for all such farms established by the district, in one or more banks to be known as "The School Farm Account" of (insert name of district) District. If the account is established for one of several farms, it shall be known as "The School Farm Account of (insert name of school) School of (insert name of district) District." All receipts of the school farm, or farms, derived from the sale of produce, livestock, and other products, may be withdrawn from the general fund in the same manner as other moneys may be withdrawn from funds of the district and deposited in the account for expenditure for the operation and maintenance of the farm, or farms, in accordance with the direction of the governing board.

78285. The governing board may designate an employee or employees of the district to have custody of the account or accounts established under Section 78284, who shall be responsible for the payment into the account or accounts of all moneys received for or to be paid into the account or accounts, and for all expenditures therefrom, subject to such regulations as the governing board may prescribe.

78286. The governing board may buy feed, livestock, and materials and supplies for a farm and may sell produce, livestock and other products of a farm in accordance with rules and regulations adopted by the board notwithstanding any provision of this code in conflict with such rules and regulations.

#### Article 7. Community Service Classes

78300. The governing board of any community college district is authorized without the approval of the board of governors to

establish and maintain community service classes in civic, vocational, literacy, health, homemaking, technical and general education, including but not limited to classes in the fields of music, drama, art, handicraft, science, literature, nature study, nature contacting, aquatic sports and athletics. Such classes shall be designed to provide instruction and to contribute to the physical, mental, moral, economic, or civic development of the individuals or groups enrolled therein.

78301. Community service classes shall be open for the admission of adults and of such minors as in the judgment of the governing board may profit therefrom.

78302. Community service classes may be convened at such hours and for such length of time during the day or evening and at such period and for such length of time during the school year as may be determined by the governing board of the district.

78303. Governing boards shall have the authority to provide for granting appropriate certificates or other recognition of skill or accomplishment in such classes.

78304. Attendance or average daily attendance in community service classes pursuant to this article shall not be reported to the board of governors for apportionment. No apportionment from state funds shall be made to establish or maintain such classes.

78305. Governing boards may expend from the general fund of the district any money which is budgeted for community services to establish and maintain community service classes and may charge student fees not to exceed the cost of maintaining such classes or may provide instruction in such classes for remuneration by contract, or with contributions or donations of individuals or groups.

#### Article 8. Instructional Television

78310. The county superintendent of schools may contract on behalf of any community college district under his jurisdiction subject to the approval of the board of governors, to procure television broadcasts or closed-circuit television programs for use in the educational program of the schools in such district.

78311. A community college district may provide for or contract for, subject to the approval of the board of governors, the procuring of television broadcasts or closed-circuit television programs for use in the educational program of the schools of the district.

### CHAPTER 3. ADULT SCHOOLS

#### Article 1. General Provisions

78400. For the purposes of this chapter, "adult" means a person 21 years of age and older, and "minor" means a person less than 21 years of age, notwithstanding the provisions of Section 25 of the Civil Code or any other provisions of law.

78401. The governing board of any community college district shall have power with the approval of the board of governors to establish and maintain classes for adults, except programs and classes in outdoor science education and conservation education as the term is employed in Section 8760, for the purpose of providing instruction in civic, vocational, literacy, health, homemaking, technical and general education.

78402. Classes for adults shall conform to any course of study and graduation requirements otherwise imposed by law or under the authority of law.

78403. Adult schools and evening schools shall consist of classes for adults. Such classes shall be open for the admission of adults and of such minors as in the judgment of the governing board may be qualified for admission thereto.

78404. Such classes may be convened at such hours and for such length of time during the day or evening and at such period and for such length of time during the school year as may be determined by the governing authority.

78405. The board of governors shall establish standards including standards of attendance, curriculum, administration, and guidance and counseling service for such classes as a basis for the several apportionments of state funds provided herein for the support of such classes.

78406. Governing boards shall have the authority to provide for granting appropriate credits, certificates, diplomas or other recognition of skill or accomplishment in such classes which such districts are otherwise authorized to grant.

78407. The governing board of any community college district maintaining an adult school shall prescribe the requirements for the granting of diplomas.

78409. Whenever the governing board of a community college district maintaining an adult school or classes for adults is unable to maintain the school or classes in the district because of its inability to secure a teacher or teachers, or because of lack of facilities, the board may, with the approval of the county superintendent of schools and the board of governors, maintain the school or classes of the district elsewhere than within the district or contract for instruction of the students in such school or classes with the governing board of another community college district.

78410. Classes for adults may be maintained in conjunction with day or evening community colleges, and day or evening adult schools.

78411. Community colleges maintained in any state institution for adults or in any city, county, or city and county jail, road camp or farm shall consist only of classes for adults.

78412. No state funds shall be apportioned to any community college district on account of the attendance of students enrolled in adult schools unless the courses have been approved by the board of governors. Approval of courses for grades 13 and 14 shall be given in

accordance with the provisions of Section 78200.

78413. (Repealed by Stats. 1976, Ch. 1011.)

[ORIGINAL SECTION]

78413. The governing board of any community college district maintaining an adult school shall have authority with the approval of the board of governors to establish a prescribed course in elementary subjects appropriate to needs of adults

## Article 2. Use of Hospitals

78430. The governing board of any community college district offering a nursing program, or related program in the healing arts, either in regular graded classes or in classes for adults, may maintain classes in such a program at hospitals located within or without the district for the purpose of providing the hospital training for students in such classes.

The governing board may purchase liability insurance for the students with district funds.

78431. Anything in this chapter to the contrary notwithstanding, whenever any county or city and county maintains a tuberculosis ward, hospital or sanatorium in another county of this state, the governing board of any community college district of the county or city and county maintaining such institution, if authorized to maintain classes for adults, may establish and maintain such classes in such institution for pretuberculous, tuberculous, and convalescent minors and adults, and the attendance of students in the classes shall be credited to the district maintaining the classes.

## Article 3. Education of Handicapped

78440. The governing board of any community college district or the county superintendent of schools, shall have the power, with the approval of the board of governors, to establish special classes for adults designed to serve the educational needs of handicapped adults. Such classes shall be directed to providing instruction in civic, vocational, literary, homemaking, technical, and general education.

Attendance of handicapped adults in such classes established by the county superintendent of schools shall be included for purposes of apportionments to the county school service fund.

78441. Special classes for handicapped adults may be conducted under the direction of the governing board of the community college district in workshop and training facilities provided by nonprofit organizations, or in public school facilities.

78442. The governing board of any community college district or the county superintendent of schools authorized by this article to establish special classes for adults designed to serve the educational needs of handicapped adults may contract for the providing of such classes by any adjacent high school district or unified school district, subject to the approval of the board of governors. For purposes of apportionments, the average daily attendance in classes conducted pursuant to the contract shall accrue to and be reported by the

district in which such student resides. Any contract entered into pursuant to this section shall be for a term of not to exceed one year but may be renewed or revised and renewed annually.

#### Article 4. Restrictions

78450. No class for adults shall be maintained by any community college district: (1) if the district receives compensation for such class from any public or private agency, individual or group of individuals, except fees authorized by Section 78462 and apportionments from the state and federal government; or (2) if such classes are not open to the general public; or (3) if the pupils attending such classes are paid for such attendance. The Board of Governors of the California Community Colleges may adopt such regulations as may be necessary to define "payment" and "payment for attendance" as used in this section.

No classes for adults shall be maintained by any district if the cost of such class is paid entirely from federal funds.

78451. No class for adults in dancing or recreational physical education shall be maintained by any community college district for which the district receives money from the State School Fund.

#### Article 5. Finances

78460. For the purpose of crediting attendance for apportionments from the State School Fund during the fiscal year, "adult" means any person who has attained his 21st birthday on or before (a) September 1st, January 1st, or March 1st of the quarter for which he is enrolled or (b) September 1st or February 1st of the semester for which he has enrolled, and who has enrolled in less than 10 class hours as defined in Section 84527 for community college districts.

Notwithstanding Section 25 of the Civil Code or any other provisions of law, "adults" for purposes of this chapter means persons 21 years of age or older.

78461. Apprentices enrolled in any classes maintained by community colleges pursuant to Section 3074 of the Labor Code shall be reported separately, and the high school foundation program for regular students shall be used in computing district apportionments.

78462. Except as specified in this section, an adult enrolled in a class for adults may be required by the governing board of the district maintaining the class to pay a tuition for such class. No charge of any kind shall be made for a class in English and citizenship for foreigners or a class in an elementary subject. No tuition charge shall be made for a class designated by the governing board as a class for which high school credit is granted when such class is taken by a person who does not hold a high school diploma. The total of the tuition required and the apportionments from the State School Fund for all attendance in the classes shall not exceed the estimated cost

of all such classes maintained.

78463. The governing board of a community college district conducting classes for adults may establish an account in a bank for each school of the district in which classes for adults are maintained. The account shall be known as "The Incidental Expense Account of (insert name of school) School of (insert name of district) District." The governing board may establish regulations providing for the collection of an incidental fee from each pupil enrolled in such classes for adults as the governing board may determine. The fee collected from each student shall not exceed fifty cents (\$0.50) in any school year. All fees shall be deposited in the account for that school and shall be expended only for (1) materials, services, or supplies for the operation of classes for adults in such school; and (2) activities of particular benefit to students in classes for adults in such school.

For the purposes of Sections 78462 to 78465, inclusive, classes for adults maintained in connection with a school shall be deemed to be maintained in such school.

78464. The governing board of the district shall designate an employee or employees of the district to have custody of the incidental expense account, or accounts, who shall be responsible for the payment into the account, or accounts, of all moneys required to be paid into the account or accounts, and for all expenditures therefrom, subject to such regulations as the governing board prescribes.

78465. The regulations of the governing board may provide for the sale of materials purchased from the incidental expense account to students in classes for adults, for use in connection with such classes. The proceeds of all such sales shall be deposited in that account and shall be available for the purposes of that account.

## CHAPTER 4. EDUCATIONALLY HANDICAPPED STUDENTS

### Article 1. General Provisions

78600. As used in this chapter, "educationally handicapped students" are students under the age of 21 years who, by reason of marked learning or behavior disorders, or both, cannot benefit from the regular educational program, and who, as a result thereof, require the special education programs authorized by this chapter. Such learning or behavior disorders shall be associated with a neurological handicap or emotional disturbance and shall not be attributable to mental retardation.

78601. (a) The education of educationally handicapped students who are diagnosed as being autistic shall be provided all eligible pupils in the manner set forth in this chapter.

(b) The governing board of any community college district which has an average daily attendance of 8,000 or more shall provide for the education, in special education classes or programs, of autistic students residing in the community college district who are not in

attendance upon other special education classes or programs.

(c) The county superintendent of schools shall establish and maintain special education classes or programs for autistic students who reside in the county and in elementary or unified school districts which have an average daily attendance of less than 8,001 in the elementary schools of the district, or who reside in the county and in a high school district which has an average daily attendance of less than 8,001. The classes and programs shall be established at centrally located places, and the county superintendent of schools shall provide transportation to the students attending them.

(d) The board of governors shall adopt rules and regulations which shall prescribe standards for special education programs for autistic students. Such rules and regulations shall ensure that no county has more than four autistic students enrolled in special education classes or program for autistic students per 10,000 average daily attendance. The board of governors may waive the number of autistic students allowed to be served within each county if he determines that such waiver is necessary to meet the exceptional needs of autistic students.

**78602.** The governing board of any community college district or a county superintendent of schools with the approval of the county board of education, maintaining schools in juvenile halls or juvenile homes, ranches, or camps as authorized by the Welfare and Institutions Code, may provide for any one or more of the special educational programs for educationally handicapped students authorized in this section.

Such special educational programs shall be provided in accordance with standards for each approved by the board of governors. Such standards shall emphasize fundamental school subjects with the aim of returning the students to the regular school program at the earliest possible date consistent with the interest of the student.

The special educational programs for educationally handicapped students are:

(a) Special classes. Under this program, educationally handicapped students unable to function in a regular class are assigned to a special class. In this program, fundamental school subjects shall be emphasized as prescribed by the board of governors.

(b) Learning disability groups. In this program, the student remains in his regular class but is scheduled for individual or small group instruction given by a special instructor. Whenever one to four educationally handicapped students are instructed at the same time by the same instructor in a learning disability group conducted by a community college district or county superintendent of schools, the total attendance credited for such students shall equal one unit of attendance for each 60 minutes of instruction.

(c) Specialized consultation to instructors, counselors, and supervisors. Under this program, specialized consultation is provided instructors, counselors, and supervisors relative to the learning disabilities of individual students and special education services

required by such students.

(d) Home and hospital instruction. Under this program, a student who is unable to function in a school setting and who does not attend school receives instruction at the appropriate level at home or in a hospital.

(e) Regular class instruction. Under this program, whenever the number of educationally handicapped students is less than six in each of one or more community colleges of a district and the distance between any school also having educationally handicapped students is excessive, prohibiting the reasonable transportation of students, such students may be instructed in the regular classes of the district or county with prior approval of the board of governors, providing an instructional aide is employed in each such regular class for the regular schoolday, and that supervision of the instructional program for educationally handicapped students is provided by a credentialed person having expertise and experience in teaching the educationally handicapped. Community college districts providing regular class instruction for educationally handicapped students under this subdivision shall be qualified for the individual apportionment under subdivision (i) of Section 84838.

78603. The maximum size for the special educational programs for educationally handicapped students defined in Sections 78601 and 78602 shall be as follows:

(a) For special day classes the maximum enrollment shall be 12 students per class.

If after the beginning of the school year it is determined that classes are at maximum size, that additional students will be without schooling unless additional classes are established, and that additional qualified teachers are not available for employment, a community college district may, on forms provided for this purpose by the board of governors, request permission of the board of governors to exceed the maximum class size for all or a part of the remainder of the school year. The board of governors may approve such request for all or a part of the remainder of the school year, provided the maximum size is not increased by more than two students above the maximum enrollment specified.

(b) For classes for autistic students, as defined by the board of governors, conducted by a community college district, the maximum class size shall be six students. The maximum class size prescribed herein may be exceeded upon a determination by the board of governors that to do so is in the best interests of the students and of the community college district maintaining such classes.

(c) For learning disability groups the maximum enrollment shall be 32; however, participation in any given learning disability group shall be for at least 30 minutes and shall not exceed eight students at any one time.

The instruction provided by a full-time instructor, whether offered by a single instructor or two or more part-time instructors, shall result in not more than eight units of average daily attendance being

credited as the result of such instruction.

78604. The governing board of each community college district may provide for instruction of educationally handicapped students who reside in all regularly established nonprofit, tax-exempt, licensed children's institutions within the district. Under such a program, a student who is unable to function in a school setting and who does not attend school receives instruction at the appropriate grade level in the institution, or a student who resides in the institution and who is able to function in a school setting receives instruction at the appropriate grade level in the public school facilities.

The governing board may contract with the county superintendent of schools for the provision of such programs.

78605. A community college district maintaining special educational programs for educationally handicapped students shall not enroll at any given time more than 2 percent of total district enrollment in such programs except as permitted by special authorization of the board of governors. As used in this section, total district enrollment means the average number of students, exclusive of students for whom a tuition payment is charged pursuant to Chapter 11 (commencing with Section 42900) of Part 24 of Division 3 of Title 2, enrolled at the end of the first school month and the sixth school month of the school year.

The board of governors shall report to each regular session of the Legislature (1) the community college districts, permitted to exceed the 2 percent during the preceding school year, (2) the number of additional students involved, and (3) the reasons existing that resulted in granting the permission requested.

The 2-percent limitation prescribed by this section does not include students participating in a program for educationally handicapped students pursuant to Section 78604.

78606. In any fiscal year, extension of an existing program by a community college district which exceeds 120 percent of the enrollment at the end of the sixth school month of the prior year shall receive the prior approval of the board of governors before any allowance or apportionment is made therefor for the purposes of this article.

78607. Approval of the board of governors pursuant to Section 78606 shall be based on but not limited to the following:

(a) Actual demand for the program as demonstrated by the recommendations for placement by the local admission committee authorized in Section 78609.

(b) District experience in the operation of programs for educationally handicapped students.

(c) The demonstrated ability of the district to return educationally handicapped students, who can participate effectively, to the regular school program.

78608. Before initiating any program for educationally handicapped students the governing board of a community college

district shall apply to the board of governors for approval to do so and shall furnish such relevant information with respect to such proposed special education programs as may be required by the board of governors. Such application and such information shall be on forms provided by the board of governors.

78609. (a) Admission of minors to programs for the educationally handicapped established under the provisions of this chapter shall be made only on the basis of an individual evaluation according to standards established by the board of governors and upon individual recommendation of an admission committee which shall include an administrator in charge of special education programs in the community college district or county or administrator designated by the community college district or, an experienced special education teacher, a school nurse, and a school psychologist who has examined the student under consideration for eligibility and placement. The admission committee shall use such health reports as are needed to properly evaluate the child. The admission committee shall have the services or presence of other student personnel workers, educational specialists, school nurses, social workers, optometrists, or physicians as the committee may require and request.

The recommendation shall include a statement, that in the professional judgment of the members of the admission committee the minor is recommended for placement in a program for educationally handicapped minors to ameliorate a marked learning disability or behavior disorder, or both, associated with a neurological handicap or emotional disturbance, or both. Any member of the admission committee dissenting from the final committee recommendation shall attach to the final recommendation a statement of reasons for such objection and alternative recommendations.

(b) The administrative head of a community college district may make an interim placement of a student in a program for the educationally handicapped for a period not to exceed 90 days whenever a student transfers into the district from another district in which his last enrollment was in a program for educationally handicapped minors, such an interim placement may be made without the complete documentation specified in subdivision (a). Before the expiration of the 90-day period such interim placement shall be reviewed by the admission committee and a final recommendation shall be made by the admission committee in accord with the requirements of this chapter. The committee may utilize information, records, and reports from the admission committee proceedings of the district or county program from which the student transferred.

78610. The admission committee shall annually (1) review the appropriateness of the placement of students in special educational programs under the provisions of this chapter and (2) submit recommendations as to the return of such students to the regular school program, continuance in the program for the educationally

handicapped, transfer to other special educational programs, or referral to other agencies.

78611. Whenever any student is being evaluated for placement in a program for the educationally handicapped by an admission committee pursuant to Section 78609 or a review and recommendation procedure is being conducted by an admission committee pursuant to Section 78610, the parent or guardian of the student shall have the right to be present at all meetings of the admission committee concerning only that student, the right to a 48-hour prior written notice of such meetings, and the right to have a physician, optometrist, psychologist, social worker, or instructor, whether certificated or not, represent the student and present additional material, if any, to assist the admission committee in its determination with respect to the student.

The representative so selected shall have no decisionmaking power with respect to any determination to be made by the admission committee. The representative so selected may be an employee of the community college district.

78612. No student shall be required to participate in a program for educationally handicapped students unless the admission committee or a member of the admissions committee appointed by such committee has personally consulted with the parent or guardian of the student regarding the learning disorders of the student and the objectives of the program, and the parent or guardian has subsequent to such counseling and prior to participation in a special educational program, filed written consent to such participation with the governing board of the community college district.

78613. The board of governors shall adopt rules and regulations which shall prescribe standards for the individual identification and evaluation of educationally handicapped students and their admission to special education programs for educationally handicapped students. In arriving at such standards the board of governors shall receive assistance from an advisory committee consisting of one member from the board of governors and one member from the State Department of Health, such members to be appointed by the heads of the respective departments named. In addition, such advisory committee may consist of such additional members as are appointed by the board of governors.

78614. The board of governors shall adopt rules and regulations which shall prescribe standards for special educational programs for educationally handicapped students which shall include, but need not be limited to, individual evaluation of students and curriculum content for each type of program authorized pursuant to this chapter, and provisions for periodic examination, reevaluation, or transfer of educationally handicapped students participating in special educational programs maintained for each type of program authorized under the provisions of this chapter.

The board of governors shall adopt rules and regulations which prescribe standards for teacher qualifications for each type of

program authorized pursuant to this chapter.

78615. The testing or screening of all students in a particular grade, school, or district shall not be a condition of eligibility for apportionment under the provisions of Article 10 (commencing with Section 84830) of Chapter 5 of Part 50 of this division. In the event the governing board of a community college district elects to do such testing or screening, only such tests or screening procedures as are approved by the board of governors for this purpose shall be used. School districts intending to do such testing or screening shall give written notice to the parents or guardians of the minor students concerned at least 15 days prior to such testing or screening and shall provide copies of any written instruments to be used for such testing or screening in the office of the president of the school the pupils attend for examination by such parents or guardians. No minor student shall be required to participate in such screening or testing unless the parent or guardian files prior written consent to such participation with the governing board of such school district.

78616. The board of governors shall employ such persons as are necessary for the coordination and supervision of services for educationally handicapped students.

78617. The board of governors shall:

(a) Prescribe the form and manner of notification of intention to initiate a program.

(b) Prescribe the procedures for qualifying for allowances for special day classes, and for authorized instruction in other than special day classes of educationally handicapped students.

## Article 2. Loans to Instructors

78640. In order to assure having for the ensuing year certificated personnel qualified to teach educationally handicapped students, as defined in Section 78600, enrolled in programs of special education maintained by a community college district, the governing board of the community college district or the county superintendent of schools may enter into an agreement with any employee holding a position requiring certification qualifications who instructs, or any certified person under contract to instruct, educationally handicapped students for the ensuing school year for the community college district, whereby the district may make a loan of financial assistance, in such amount not in excess of that specified in Section 78642, as they may in writing agree upon, for such employee or certificated person under contract to undertake during the summers between academic school years specialized preparation, including courses, workshops, or specialized offerings, to teach educationally handicapped students, as approved by the board of governors.

78641. No later than October 31 of each year, the board of governors shall allow, out of funds appropriated to the board of governors for the purpose, to each community college district making loans pursuant to the provisions of this chapter an amount

sufficient to reimburse each such district for the total of such loans made during the summer immediately preceding pursuant to the provisions of Section 78642.

78642. The amount of reimbursement allowed a community college district pursuant to Section 78641 for each such loan for specialized preparation undertaken during any given summer by any given employee or certificated person under contract shall not exceed the product of the number of semester hours taken in any given summer multiplied by fifty dollars (\$50). The total amount of reimbursement allowed for all such loans to any given employee or certificated person under contract undertaking such specialized preparation shall not exceed the product of 30 semester hours multiplied by fifty dollars (\$50). No more than five years shall elapse between the first and final allowance in reimbursement of such loans for any given employee or certificated person under contract.

78643. Loans made pursuant to this chapter shall be repaid to the board of governors pursuant to rules and regulations adopted by the board of governors.

There shall be allowed a 20-percent credit in the repayment of a loan for each year the recipient of the loan teaches educationally handicapped minors.

78644. The board of governors shall establish rules and regulations for the administration of the provisions of this chapter and shall employ personnel necessary for the efficient administration of this chapter and Article 3 (commencing with Section 78860) of Chapter 6 of this part.

## CHAPTER 5. EDUCATION—PHYSICALLY HANDICAPPED STUDENTS

### Article 1. General Provisions

78700. For purposes of this chapter a student is a high school graduate, or equivalent, or between the ages of 18 and 21 inclusive, as defined in Section 76000.

78701. Subject to the provisions of this article and Section 1850, the governing board of any community college district may make such special provisions as in its judgment may be necessary for the education of physically handicapped students. "Physically handicapped student," as used in this article means a physically defective or handicapped person under the age of 21 years who is in need of education.

78702. Any student who, by reason of a physical impairment, cannot receive the full benefit of ordinary education facilities, shall be considered a physically handicapped individual for the purposes of this chapter. Such students include the following, as defined by the board of governors:

- (a) The deaf or hard of hearing.
- (b) The blind or partially seeing.

- (c) Orthopedic or health impaired.
- (d) The aphasic.
- (e) The speech handicapped.
- (f) Other students with physical illnesses or physical conditions which make attendance in regular day classes impossible or inadvisable.
- (g) Students with physical impairments so severe as to require instruction in remedial physical education.
- (h) Multihandicapped.

78703. Programs for physically handicapped students are:

(a) Special classes. A class established for a group of students with a similar handicapping condition defined in Section 78702. The special class shall be maintained for at least the minimum schoolday. The class shall be taught by a full-time teacher whose responsibility is to teach students enrolled in the class for the schoolday established by the governing board for regular classes at the grade level of the students in the special class who are at the highest grade level in the class.

(b) Regular day class program. A program of assistance to physically handicapped students enrolled in regular day classes who require special services and equipment beyond the services provided to students not determined to be physically handicapped to benefit fully from the regular classroom instruction. Such services may include, but are not limited to, supplemental teaching, transportation, teaching aides and specialized equipment.

(c) Integrated instructional programs. A program in which physically handicapped students who receive their education in regular classrooms from regular teachers, but receive, in addition, supplementary teaching services of a full-time special teacher credentialed to teach physically handicapped students of the type enrolled in the program. Such special teacher shall serve within the employing or other district being served, such physically handicapped students for the full schoolday established by the governing board for regular students in the public school or public schools enrolling such physically handicapped students.

(d) Remedial instruction. A remedial class providing physically handicapped students who are excused in small numbers, for not to exceed one class period or one hour from their regular or special program, remedial instruction or remedial physical education.

(e) Individual instruction. A program of individual instruction to physically handicapped students in hospitals, sanitariums, preventoriums, in the home, or under other circumstances as defined by the board of governors.

(f) Special speech instruction through speech aides. In counties having a total average daily attendance of less than 30,000 or defined as class five through class eight counties, inclusive, by Section 1205, a program of remediation for speech-handicapped students may be conducted through the use of specially trained instructional aides in structured programs of language and articulation under the

direction and guidance of a credentialed speech therapist. Reimbursement for such speech instruction shall be as provided by subdivision (j) of Section 84838. No more than two speech aides may be supervised by one speech therapist. The therapist shall be responsible for establishing goals and objectives and evaluating the aide's performance.

78704. The maximum size for any special day class authorized by subdivision (a) of Section 78703 is as follows:

	Ages 8 through 20 years
Types of pupils in class	
Deaf .....	8
Severely hard of hearing.....	10
Combination of deaf and severely hard of hearing .....	8
Blind .....	10
Partially seeing.....	12
Combination of blind and partially seeing .....	10
Orthopedic or other health impaired .....	16
Aphasic.....	8
Other physically handicapped .....	20
Deaf-blind multihandicapped .....	5
Other multihandicapped .....	8

The board of governors may waive the maximum class size standards prescribed by this section whenever it approves a project submitted by a community college district to conduct experimental studies to determine the proper maximum class size standards.

If, after the beginning of the school year, it is determined that classes for a given category of physically handicapped students are at maximum size, that additional such students will be without instruction unless additional classes are established, and that additional qualified instructors are not available for employment, or additional classroom space is not available, a community college district may request permission of the board of governors to exceed the maximum class size for the remainder of the school year, using the form provided for this purpose by the board of governors. The board may approve such request for the remainder of the school year, providing that the maximum size is not increased by more than two students of that provided herein, and the requesting district has consulted with the specific instructor involved. Such approval, when based on a lack of additional classroom space, shall not be given for any school year commencing July 1, 1977, or thereafter.

78705. The board of governors shall promote and direct special instruction in the community colleges for physically handicapped students. He may employ such professional and other personnel as are necessary for this purpose, and may perform such other duties as are necessary to give full effect to this article (commencing at Section 78701).

78706. The board of governors shall employ such persons as are necessary for the coordination and supervision of services of multihandicapped students.

78707. Whenever any student is being evaluated for placement in a program conducted pursuant to this chapter by an admission committee established by a community college district, the parent or guardian of the student shall have the right to be present at all meetings of the admission committee concerning only that student, the right to a 48-hour prior written notice of such meetings, and may have a physician, optometrist, psychologist, social worker, or instructor, whether certificated or not, represent the student and present additional material, if any, to assist the admission committee in its determination with respect to the student.

The representative so selected shall have no decisionmaking power with respect to any determination to be made by the admission committee. The representative so selected may be an employee of the district.

78708. The board of governors may prescribe minimum standards for the special education of physically handicapped students. No apportionment of state funds shall be made by the board of governors to any community college district on account of the instruction of physically handicapped students unless the standards prescribed for the instruction are complied with.

78709. Any community college district furnishing education to physically handicapped students pursuant to this article shall furnish such education to all such handicapped students actually living within the district five or more days a week, although their legal residence may be outside the district.

78710. Subject to the provisions of Section 1850, any community college district, which does not maintain facilities for the education of physically handicapped students may enter into a contract with a community college district in the same county, or a county superintendent of schools maintaining such facilities. If there is no district in the same county or county superintendent of schools maintaining such facilities, the governing board of the community college district may enter into a contract with a district maintaining such facilities in any other county. If the governing board of the district should determine the same to be more economical and practical, it may enter into a contract with a district situated in another county, in lieu of entering into a contract with the county superintendent of schools or a district in the county in which such district is situated.

Such contract shall provide for the payment of the cost of tuition by the district in which the physically handicapped student actually lives and may provide for payment of the cost of the use of the buildings and equipment. The cost of tuition shall not be greater than the difference between current expenditures per unit of average daily attendance, including transportation, for the education of a student in the particular category of physically handicapped students

to which the student belongs and the apportionment of state funds for the education of physically handicapped students in that category.

The amount shall be determined not later than the last Monday in December and the last Monday in May of each year by the county superintendent of schools of the county in which the student attends schools and certified to the superintendent of schools having jurisdiction over the schools of the district in which the student actually lives. The amount shall be forthwith paid from any funds of the district available for that purpose.

78711. Subject to the provisions of Section 1850 the governing board of a community college district may provide for the transportation of students assigned to special classes for physically handicapped students, and shall provide transportation for those students whose physical handicaps prevent their walking to the community college.

78712. Subject to the provisions of Section 1850 the governing board of the community college district in which any physically handicapped student is actually living, although the residence of his parents or guardian is outside the district, shall provide for the transportation of such student to the school at which education is furnished, if his handicap prevents his walking to the community college or if the distance is greater than one mile, regardless of whether such education is furnished within or without the district.

78713. Necessary care may be provided during school hours for students whose attendance has been irregular because of physical handicaps, and such employees as may be needed may be employed to provide the care.

78714. Subject to the provisions of Section 1850 the governing board of a community college district may establish regulations determining who can profit by and who shall receive the special instruction provided by this article. The regulations shall be subject to such standards as may be prescribed by the board of governors.

78715. Subject to the provisions of Section 1850 physically handicapped students may be instructed in special schools or special classes, in hospitals, sanatoriums, or preventoriums, in the home through the employment of home instructors, by cooperative arrangement with the Department of Rehabilitation, or by any other means approved by the board of governors.

78717. Subject to the provisions of Section 1850 special classes or individual instruction provided for pretuberculous, tuberculous, convalescent, or other physically handicapped students in hospitals, sanatoriums, and preventoriums, may be maintained in the institutions within or without the community college district, and the attendance of students in the institutions shall be credited to the district providing the instruction. The minimum schoolday for such classes is 180 minutes.

78718. The board of governors shall prescribe the procedures for qualifying for, and shall determine the amount of the allowances for

special classes and for the authorized instruction in other than special classes of physically handicapped students.

78719. The board of governors may appoint counselors to assist blind students attending public schools in the state to solve problems in connection with their school program. The counselors may visit blind students attending any public school in the state, in their homes to advise them and discuss with their parents the solution of problems pertaining to their community college attendance. The counselors shall be available to instructors and administrators in the community colleges where blind students are in attendance to advise and counsel them regarding the best methods and procedures for instructing blind students. The counselors shall be persons who have had special training for such work, and shall be thoroughly familiar with problems peculiar to the blind and their public school education. Blindness shall not be grounds to disqualify persons for these positions.

78720. Individual counseling and guidance in social and vocational matters shall be provided as part of the instructional program for physically handicapped students. Upon approval by the board of governors the governing board of any community college district may separately, or in cooperation with the governing board or boards of one or more other districts, or in cooperation with the Department of Rehabilitation, employ a special coordinator, who shall make a study of employment and occupational opportunities and shall assist in the coordination of the education of the physically handicapped students with the commercial and industrial pursuits of the community, so as to prepare the students for employment.

78721. The Department of Employment Development shall, through the State Employment Development Service, cooperate with local school officials and the board of governors in the placement of physically handicapped individuals.

78722. No person shall be employed to instruct blind, partially seeing, deaf, hard-of-hearing, speech-handicapped, or orthopedically handicapped students in a special or remedial class for such students who does not hold a valid credential authorizing such instruction or a designated subject credential in the area of vocational education. Nothing herein shall be deemed to prohibit the employment, as a substitute teacher of each such special class for not more than 20 schooldays in any school year, of a person holding some other valid credential authorizing substitute instruction. Upon application by the community college district the board of governors may approve an extension of the 20-day period for a given person but not beyond the end of the school year in which submitted.

78723. On and after September 1, 1975, no person shall be employed to instruct deaf, severely hard-of-hearing, blind, partially seeing, aphasic, or speech-handicapped students in the home, hospital, or licensed institution who does not hold a valid credential authorizing such instruction.

Nothing in this section shall be deemed to prohibit the

employment of a person holding some other valid credential authorizing substitute instruction for not more than 20 schooldays in a given school year to serve as a substitute for the appropriately credentialed instructor absent because of illness or other reason acceptable to the employing community college district. Upon application by the district or county superintendent of schools the board of governors may approve an extension of the 20-day period for a given person but not beyond the end of the school year in which submitted.

78724. On and after September 1, 1975, no person shall be employed to instruct multihandicapped students as defined in Section 78702, who does not hold a valid credential to instruct exceptional students.

78725. Notwithstanding Section 78722, 78723, or 78724, any person may be employed to teach physically handicapped students in a sheltered workshop, occupational training program, or any other vocational education program if that person holds a designated subjects instructor's credential in a subject related to the program in which the person is employed.

78726. The board of governors may cooperate with the American Printing House for the Blind in the provision and distribution of braille books and other materials and equipment available from the American Printing House for the Blind for the use of blind students in the public schools of California under the provisions of an act entitled: "An act to amend the act to promote the education of the blind, approved March 3, 1879, as amended, so as to authorize wider distribution of books and other special instructional material for the blind, to increase the appropriations authorized for this purpose, and for other purposes," approved August 2, 1956 (Public Law 922, 84th Congress, 2d Session).

## CHAPTER 6. EDUCATION OF MENTALLY RETARDED STUDENTS

### Article 1. Education of Mentally Retarded Students

78800. "Mentally retarded students" means all students under the age of 21 years who because of retarded intellectual development as determined by individual psychological examination are incapable of being educated efficiently and profitably through ordinary classroom instruction.

78801. The education of mentally retarded students who may be expected to benefit from special educational facilities designed to make them economically useful and socially adjusted may be provided to mentally retarded students who are above compulsory school age and less than 21 years of age.

An annual report shall be made by each community college district to the board of governors indicating the number of eligible students for whom no such special education is provided and the reason therefor.

No community college district shall initiate new programs relating to mentally retarded students after May 1, 1973, except programs planned before July 1, 1972, or programs which are not solely or partially financed by state funds.

78802. (a) Admission of a student to a special educational program for the mentally retarded established under the provisions of this article and in Sections 1880 to 1887, inclusive, shall be made only on the basis of an individual evaluation according to standards established by the board of governors and upon individual recommendation of a local admission committee which shall include an administrator in charge of special education programs in the district or county or other administrator designated by the community college district, an experienced special education instructor, a school nurse, and a school psychologist who has examined the student under consideration for eligibility and placement.

Whenever possible, the person serving on the admission committee for mentally retarded students may also serve on the admission committee for educationally handicapped students.

The admission committee shall use such medical reports as are needed to properly evaluate the student. The admission committee shall have the services or presence of other student personnel workers, educational specialists, school nurses, social workers, or physicians as the committee may require and request. Such recommendation shall include a statement that in the professional judgment of the members of the admission committee the student recommended for placement in any program for the mentally retarded can reasonably be expected to benefit from such placement. Any member of the local admission committee dissenting from the final committee recommendation shall attach to the final recommendation a statement of reasons for such objection.

(b) The administrative head of a community college district may make an interim placement of a student in a program for the mentally retarded for a period not to exceed 30 schooldays whenever a student transfers into the district from another district in which his last enrollment was in a program for mentally retarded students. Such an interim placement may be made without the complete documentation specified in subdivision (a). Before the expiration of the 30-day period such interim placement shall be reviewed by the admission committee and a final recommendation shall be made by the committee in accord with the requirements of this chapter. The committee may utilize information, records, and reports from the admission committee proceedings of the district or county program from which the student transferred.

78803. Whenever any student is being evaluated for placement in a program for mentally retarded pupils by an admission committee pursuant to Section 78802, the parent or guardian of the student shall have the right to be present at all meetings of the admission committee concerning only that student, the right to a 48-hour prior

written notice of such meetings, and may have a physician, optometrist, psychologist, social worker, or instructor, whether certificated or not, represent the student and present additional material, if any, to assist the admission committee in its determination with respect to the student.

The representative so selected shall have no decisionmaking power with respect to any determination to be made by the admission committee. The representative so selected may be an employee of the community college district.

78804. The Legislature finds and declares that the people of California have a primary interest in providing equal educational opportunity to students of all ethnic, socioeconomic, and cultural groups and that students should not be assigned to special classes or other special programs for the mentally retarded if they can be served in regular classes.

The Legislature hereby finds and declares that there should not be disproportionate enrollment of any socioeconomic, minority, or ethnic group students in classes for the mentally retarded and that the verbal portion of the intelligence tests which are utilized by some schools for such placement tends to underestimate the academic ability of such students.

78805. No student shall be placed in a special education class for the mentally retarded if he scores higher than two standard deviations below the norm, considering the standard error of measurement, on an individual intelligence test selected from a list approved by the board of governors.

No student shall be placed in a special education program for the mentally retarded when he is being tested in a language other than English if he scores higher than two standard deviations below the norm, considering the standard error of measurement, on the nonverbal intelligence test or on the nonverbal portion of an individual intelligence test which includes both verbal and nonverbal portions.

No student may be placed in a special education program for the mentally retarded unless a complete psychological examination by a credentialed school psychologist investigating such factors as developmental history, cultural background, and school achievement substantiates the retarded intellectual development indicated by the individual test scores. This examination shall include estimates of adaptive behavior. Until adaptive behavior scales are normed and approved by the board of governors, such adaptability testing shall include, but is not limited to, a visit, to the student's home by the school psychologist or a person designated by the chief administrator of the district, upon the recommendation of the school psychologist, and interviews of members of the student's family at their home. If the language spoken in the home is other than English, such interviews shall be conducted in the language of the home.

In the case of a student whose primary home language is other than English, the psychological evaluation shall be conducted in the

pupil's primary home language. It shall be administered by a credentialed school psychologist fluent in the language of the student. In the event such a person is not available, an interpreter qualified in the primary home language of the student shall be provided to assure effective communication between the student and the school psychologist administering the evaluation. The district shall provide the interpreter with in-service training in the application of evaluation techniques and procedures, such training to be given under the direction of a school psychologist according to guidelines established by the board of governors.

After a student has been screened and referred, written permission for the individual psychological evaluation shall be secured in a conference with a school official. After the individual psychological evaluation is completed, the psychologist shall recommend to the admission committee. Following the admission committee meeting, a committee member shall meet with the student to discuss the committee conclusion and to obtain written approval for placement.

78806. Any student who is determined to be misplaced in a special education program for the mentally retarded shall be withdrawn from such a program upon consultation with his parents or guardian. Such a student may be placed in a compensatory education program or any similar supplementary educational program conducted by the district with the goal of accelerating his educational attainment so that he may participate in the regular instruction of the district.

If a parent or guardian objects to the withdrawal of his child or ward from a special education class or program provided pursuant to Section 78801, he may request a hearing regarding such withdrawal. The hearing shall be held not less than 20 nor more than 30 days after the request is made.

For purposes of Section 78801, the hearing panel shall consist of a credentialed school psychologist, an instructor currently instructing a special education class at the same level in which the student is enrolled, but who is not an employee of the community college district involved, and a special education administrator, each of whom shall be designated by the county superintendent of schools. In any case in which it is not practicable to secure the services on the panel of a person or persons having the qualifications herein specified, the county superintendent of schools may designate for service on the panel a person or persons not having such qualifications but whom the superintendent deems otherwise qualified to serve. The panel, by majority vote may uphold or reverse the action taken by the district to withdraw the student from the program. The decision of the panel is binding upon the community college district. Upon a decision by the panel to reverse the district decision, the student shall be readmitted to a special education class for the mentally retarded notwithstanding Section 78805, except that in no case shall a student scoring higher than one standard deviation

below the norm, considering the standard error of measurement, be readmitted to such a class.

The hearings shall be conducted pursuant to rules and regulations adopted by the board of governors.

78807. Mentally retarded students who come within the provisions of Section 78801 may be enrolled in integrated programs of instruction conducted by a community college district.

(a) An integrated program of instruction for mentally retarded students shall be defined as a program in which mentally retarded students, who are enrolled in a special day class taught by an instructor holding a valid credential to instruct exceptional students shall be so designated when they are integrated in regular classes in which the content and method of instruction has been modified to the extent that mentally retarded students can benefit from such integration.

The community college district conducting the integrated program of instruction shall be entitled to an apportionment equal to the amount which would have been credited to them had these students been enrolled full time in a special class for the mentally retarded.

(b) Whenever the number of mentally retarded students is less than six in each of one or more schools of a district or schools served by a county superintendent and the distance between any school also having mentally retarded students is excessive, prohibiting the reasonable transportation of students, such students may be instructed in the regular classes of the district or county with prior approval of the board of governors, providing an instructional aide is employed in each such regular class for the regular schoolday and that supervision of the instructional program for mentally retarded students is provided by a person holding credentials to teach the mentally retarded. Community college districts providing integrated programs under this subdivision shall be qualified for the individual apportionment under subdivision (h) of Section 84838.

(c) Such programs shall be conducted in accordance with rules and regulations established by the board of governors.

78808. Programs for mentally retarded students identifiable pursuant to Section 78802 are:

(a) Special day classes. A class established for mentally retarded students (as defined by Section 78802). The class shall be maintained for a least the minimum schoolday. The class shall be taught by a full-time teacher whose responsibility is to teach students enrolled in the class for the schoolday as established by the governing board for regular classes for students who are at the highest grade level in the special class.

(b) An integrated program of instruction. A program for mentally retarded students in which mentally retarded students who are enrolled in a special day class taught by a teacher holding a valid credential to teach exceptional students, are integrated in regular classes in which the content and method of instruction has been

modified to the extent that mentally retarded students can benefit from such integration. Such programs shall be conducted in accordance with rules and regulations established by the board of governors.

78809. The maximum enrollment of students enrolled in special classes as defined by subdivision (a) of Section 78808 shall be 18 students except that when the chronological age span is more than four years the appropriate maximum enrollment shall be 15 students.

The board of governors may waive the maximum class size standards prescribed by this section whenever it approves a project submitted by a community college district to conduct experimental studies to determine the proper class size standards.

If after the beginning of the school year it is determined that classes are at maximum size, that additional students will be without schooling unless additional classes are established, and that additional qualified instructors are not available for employment, or additional classroom space is not available, a community colleges district on forms provided for this purpose by the board of governors, request permission of the board of governors to exceed the maximum class size for all or a part of the remainder of the school year. The board of governors may approve such request for all or a part of the remainder of the school year, provided the maximum size is not increased by more than two students above the maximum enrollment specified, and the requesting district has consulted with the specific instructor involved. Such approval, when based on a lack of additional classroom space, shall not be given for any school year commencing July 1, 1977, or thereafter.

78810. Continuance of students in special education programs for the mentally retarded authorized under Section 78801 shall be the subject of annual review and recommendation by the local admission committee to determine whether continued placement in the special educational program is appropriate.

78812. The board of governors shall employ such persons as are necessary to carry out the purposes of Sections 78800 to 78820, inclusive.

78813. Before any student is placed in a school or class for mentally retarded students, he shall be given a careful individual examination by a competent psychologist holding a credential for that purpose issued by the board of governors or Commission for Teacher Preparation and Licensing, or by a person serving under the supervision of such a psychologist and holding a credential for that purpose issued by the board of governors or commission, and a consultation with his parents or guardian held. A psychiatrist may be consulted in any specific case when the governing board of the district deems it necessary.

78814. No examination as specified in Sections 78800 to 78820, inclusive, shall be given if the student objects on the ground that such examination is contrary to the religious beliefs of such parent or guardian.

78816. In lieu of entering into an agreement for the transportation of mentally retarded students by the community college district, in the special training schools and classes of which the education of such students is provided under Section 1884, the community college district required to provide for their education may provide such transportation.

78817. No person shall be employed as an instructor of mentally retarded students who does not hold a valid credential for the education of mentally retarded students. Nothing herein shall be deemed to prohibit the employment, as a substitute teacher of each special training class of mentally retarded students for not more than 20 schooldays in any school year, of a person holding some other valid credential authorizing substitute instruction.

78818. Notwithstanding Section 78817, any person may be employed to instruct mentally retarded students in a sheltered workshop, occupational training program, or any other vocational education program if that person holds a designated subjects instructors credential in a subject related to the program in which the person is employed.

78819. Individual counseling and guidance in social and vocational matters shall be provided as part of the instructional program for mentally retarded students. Upon approval by the board of governors the governing board of any community college district may, separately, or in cooperation with the governing board or boards of one or more other community college districts, or in cooperation with the Bureau of Vocational Rehabilitation of the State Department of Education, employ a special coordinator, who shall make a study of employment and occupational opportunities and shall assist in the coordination of the education of the mentally retarded students with the commercial and industrial pursuits of the community, so as to prepare the students for employment.

78820. The board of governors shall prescribe the procedures for qualifying for and shall determine the amount of the allowances for special classes and for authorized instruction in other than special classes of mentally retarded students.

78821. Whenever any community college district maintains special training schools or classes for the education of mentally retarded students who come within the provisions of Section 78801, or special schools, classes or integrated programs where a qualified special teacher is provided for the education of physically handicapped students who come within the provisions of Sections 78701 and 78702, the governing board of the community college district may apply to the board of governors for an apportionment pursuant to Sections 78821 to 78826, inclusive.

78822. The application shall be made prior to September 1st of each school year in the form and manner prescribed by the board of governors and shall include an estimate of the average daily attendance that will be credited to such schools, classes or integrated programs during the school year for which an advance

apportionment is requested. Such estimate shall be based upon the number of students residing in the district or in an adjacent district that come within the provisions of Sections 78701 and 78702 and who will attend such schools, classes or integrated programs, and shall be subject to the approval of the board of governors.

78823. Not later than 30 days after such application, the chancellor, if he approves, shall apportion to each applicant community college district from the State General Fund, as an advance against future apportionments from the State School Fund to such district, an amount equal to the maximum amount allowable for each type of program included in the request per unit of average daily attendance to community college districts for the excess expense of educating mentally retarded students who come within the provisions of Section 78801, and physically handicapped students who come within the provisions of Sections 78701 and 78702 multiplied by eight and the product thereof multiplied by the number of special classes or integrated programs maintained by the applicant district for such students.

78824. The chancellor shall furnish an abstract of all apportionments made to community college districts of any county under Sections 78821 to 78826, inclusive, to the State Controller, the Department of Finance and to the county auditor, county treasurer and county superintendent of schools of the county and shall certify such apportionments to the State Controller who shall thereupon draw his warrants on the State General Fund in favor of the county treasurer of each county for the amounts apportioned to the districts of the county.

78825. All moneys received by the treasurer of a county under Sections 78821 to 78826, inclusive, shall be credited by the treasurer to the general fund of the community college district of the county exactly as apportioned by the chancellor.

78826. During the next two fiscal years after the fiscal year in which such apportionment is advanced to a community college district under Sections 78821 to 78826, inclusive, the State Controller shall deduct from apportionments made to each such community college district from the State School Fund an amount equal to the amount apportioned to such district under Sections 78821 to 78826, inclusive, and pay the same into the State General Fund.

78827. Every mentally retarded, physically handicapped, or multihandicapped student, as defined in Section 56030, is entitled to training or an education free of charge in the public schools of this state.

(Added by Stats. 1976, Ch. 1011 )

## Article 2. Occupational Training

78840. The board of governors may adopt rules and regulations governing the establishment and conduct of programs for preparing

physically handicapped and mentally retarded students enrolled in special day classes for suitable occupations. Such programs shall provide for physically handicapped and mentally retarded students under the age of 21 years who are unable to profit by courses of work experience education as provided in Article 4 (commencing with Section 78240) of Chapter 2 of this part.

78841. For the purposes of this article, "minor" means any person under 21 years of age notwithstanding Section 25 of the Civil Code or any other provision of law.

78842. Community college districts may contract with sheltered workshops and other work establishments approved for supervised occupational training of physically handicapped and mentally retarded students under the age of 21 years, and reimburse such sheltered workshops and work establishments for the expenses incurred in the training of such students.

The board of governors shall reimburse school districts for the cost per student per year, or fraction thereof, for the services provided by sheltered workshops and work establishments.

Such reimbursement shall be the cost of such service not to exceed six hundred fifty dollars (\$650) per year, less the share of the community college district, as determined pursuant to rules and regulations adopted by the board of governors.

78843. The governing board of any community college district, of any county, maintaining secondary schools may enter into contracts with the governing boards of other such districts, or with a county superintendent of schools, and with any department or agency of the state to obtain or provide services and other assistance necessary in connection with providing effective rehabilitation services, to include but not limited to occupational training, mobility training, sheltered workshops and work-experience programs.

Any community college district governing board, which enters into a contract with the State Department of Rehabilitation under this section may employ, or allow to be employed, in the community college district or with a county superintendent of schools, employees of the State Department of Rehabilitation or other persons not employed by the department but certified by the department to be fully qualified for such employment. A certification to the board of governors by the State Department of Rehabilitation that the individual meets all the requirements and fulfills all the qualifications of that department for the position for which he is being considered shall serve as evidence that the individual meets the academic, professional and experience requirements for a services credential with a specialization in student personnel services as a rehabilitation counselor or mobility instructor for the blind, in accordance with requirements adopted by the Commission for Teacher Preparation and Licensing, which the individual must obtain in order to render services in the public schools.

Notwithstanding any other provision of this code, when an

individual is so certified by the State Department of Rehabilitation as qualified for employment, other teacher certification requirements required by this code or by Title 5 of the California Administrative Code shall be waived for that individual.

78844. The governing board of a community college district hereinafter referred to as the "agency" may establish and operate a sheltered workshop or new rehabilitation service. Prior to commencing such a sheltered workshop or new rehabilitation service, however, an agency shall publish, not less than 30 days before the commencement of such a workshop or rehabilitation service, its intention to operate a sheltered workshop or new rehabilitation service in a newspaper of general circulation within the area in which such sheltered workshop or new rehabilitation service will be commenced, or if there is no such newspaper, then in any newspaper of general circulation that is regularly circulated in the county in which such sheltered workshop or new rehabilitation service will commence. In addition, a copy of such publication, along with the pertinent details of the sheltered workshop or new rehabilitation service, shall be sent to the Chancellor, California Community Colleges, Department of Education and the State Department of Rehabilitation. Said departments may comment on the advisability of commencing such a sheltered workshop or new rehabilitation service, or any other aspect of such sheltered workshop or new rehabilitation service deemed advisable, to the agency planning to commence such a sheltered workshop or new rehabilitation center and if commented upon, shall make their comments available to the public.

78845. As used in this article, "rehabilitation facility" is defined to mean an organization and physical facility, publicly, privately, or cooperatively sponsored, in which a program of integrated and coordinated services is offered. These services are provided for emotional, developmental, social and vocational restoration or personal adjustment of adults and minors with handicaps and disabilities. The range of services may include, but not be limited to, evaluation, education, training, sheltered or extended employment and placement. A rehabilitation facility shall include, but not be limited to, a sheltered workshop, activity center, semisheltered workshop, and facilities which provide work skills development programs.

### Article 3. Grants to Instructors of Mentally Retarded Students

78860. The governing board of a community college district, in order to assure having instructors qualified to instruct physically handicapped and mentally retarded students enrolled in programs of special education maintained by such district and any employee of the district holding a position requiring certification qualifications, or any certificated person under contract to the district to instruct physically handicapped or mentally retarded students, may enter

into an agreement whereby the district may make a grant of financial assistance, in such amount not in excess of that specified in Section 78862, as they may in writing agree upon, for the said employee or certificated person under contract to undertake during the summers between academic school years specialized preparation to instruct physically handicapped or mentally retarded students as required by law and board of governors regulations.

78861. Not later than October 31 of each year the board of governors shall allow to each community college district making grants to employees or certificated persons under contract pursuant to the provisions of this article an amount sufficient to reimburse each such district or county superintendent of schools for the total of such grants made during the summer immediately preceding pursuant to the provisions of Section 78862.

78862. The amount of reimbursement allowed a community college district pursuant to Section 78861 for each such grant for specialized preparation undertaken during any given summer by any given employee or certificated person under contract shall not exceed the product of the number of semester hours taken in any given summer and fifty dollars (\$50). The total amount of reimbursement allowed for all such grants to any given employee or certificated person under contract undertaking such specialized preparation shall not exceed the product of the number of semester hours of specialized preparation required by law and regulations for the credential to instruct the category of physically handicapped or mentally retarded students being sought and fifty dollars (\$50). No more than five years shall elapse between the first and final allowance in reimbursement of such grants for any given employee or certificated person under contract except by approval of the board of governors upon the recommendation of the governing board of the community college district of such employee or certificated person under contract.

78863. The Chancellor of the California Community Colleges shall, upon approval of the board of governors, establish rules and regulations for the administration of the provisions of this article.

## CHAPTER 7. INSTRUCTIONAL MATERIALS

### Article 1. Prohibited Acts

78900. No publisher or manufacturer of instructional materials, nor any of his representatives, shall offer or give any emolument, money, or other valuable thing, or any inducement, to any community college official to directly or indirectly introduce, recommend, vote for, or otherwise influence the adoption or purchase of any instructional material.

78902. No community college official shall accept any emolument, money or other valuable thing, or any inducement to directly or indirectly introduce, recommend, vote for, or otherwise

influence the adoption or purchase of any instructional material.

78903. Any publisher or manufacturer of instructional materials or his representative, or any community college official who violates any of the provisions of this article is guilty of a misdemeanor. Any community college official who violates any of the provisions of this article shall, in addition to any other penalty, be removed from his official position.

78904. Nothing in this chapter shall be construed to prevent any publisher, manufacturer, or agent from supplying for purposes of examination necessary sample copies of instructional materials to any community college official.

78905. Nothing in this chapter shall be construed to prevent a community college official from receiving sample copies of instructional materials.

78906. Nothing contained in this chapter shall be construed to prohibit or restrict a community college official from receiving royalties or other compensation from the publisher or manufacturer of instructional materials written, designed, or prepared by such community college official, and adopted or purchased by any governing board, other than compensation paid as commission to the community college official for negotiating sales to governing boards. No district shall have or claim the right to receive any such royalty or other compensation due to any community college official employed by the district unless the instructional material was written or prepared during the normal schoolday during which the community college official is required by the district to be on duty.

78907. The Legislature finds that the use by any person, including a student, of any electronic listening or recording device in any classroom of the secondary schools without the prior consent of the instructor and the president of the college given to promote an educational purpose disrupts and impairs the teaching process and discipline in the community colleges, and such use is prohibited. Any person, other than a student who willfully violates this section shall be guilty of a misdemeanor.

Any student violating this section shall be subject to appropriate disciplinary action.

This section shall not be construed as affecting the powers, rights, and liabilities arising from the use of electronic listening or recording devices as provided for by any other provision of law.

## Article 2. Reports

78920. Each district board shall make reports, whenever required, directly to the board of governors, concerning the instructional materials used in its colleges.

### Article 3. Application of Chapter

78930. No provision of this chapter shall be construed as requiring the district board of any community college district to provide instructional materials free of charge, or otherwise, to any student enrolled in any community college, nor shall any of the provisions of this division be construed as applicable to instructional materials required or authorized to be used by students in any community college.

78931. No provision of this chapter shall be construed as requiring the district board of any district to provide instructional materials, free of charge, or otherwise, to any adult enrolled in a class for adults, nor shall any of the provisions of this division be construed as applicable to instructional materials required or authorized to be used by adults in classes for adults.

78932. No provision of this chapter shall be construed as prohibiting any district board, or any county library, from ordering and purchasing from their own funds such instructional materials as they may require, including state-listed materials at a price equal to that computed pursuant to Section 60243.

78933. If any provision of this chapter, or the application thereof to any person or circumstances is held invalid, such invalidity shall not affect other provisions or applications of the division which can be given effect without the invalid provision or application, and to this end the provisions of this chapter are severable.

## CHAPTER 8. SCHOOL TERMS

### Article 1. General Provisions

79000. The school year begins on the first day of July and ends on the last day of June.

79001. (a) A school month is 20 days or four weeks of five days each, including legal holidays; provided, however, that for the purposes of counting attendance only in providing for a school calendar the Christmas vacation period, or any portion thereof, may be excluded by the community college district in the definition of a school month.

(b) The provisions of subdivision (a) of this section are limited to defining a school month for attendance counting purposes only. A school month for employee pay purposes may be designated by the governing board to begin on any day of the week.

79002. Except where a school has been closed by order of a city or a county board of health, or of the State Board of Health, on account of contagious disease, or where the school has been closed on account of fire, flood, or other public disaster, the governing board of any community college district shall maintain all of the day community colleges established by it for an equal length of time during the school year.

79003. When it is necessary for the convenience of the residents of any district that the school be maintained a part of the year in one portion of the district, and a part of the year in another portion of the district, the aggregate of the time the school is maintained in the different portions of the district shall be the time for which a school has been maintained in the district during a school year.

## Article 2. Closing Schools

79010. During the continuance of a state of war between the United States and any foreign power, the board of governors, with the approval of the Governor, may, whenever in its opinion it is necessary for the planting or harvesting of crops or for other agricultural or horticultural purposes and is for the welfare of the state, make an order closing, for such time as may be specified, any or all, or any grade or class thereof, and may, in like manner, by similar order, postpone the opening of any or all such community college, or any grade or class thereof, during the continuance of a state of war.

79011. The annual school term shall not be reduced to less than six months pursuant to this article.

79012. Whenever any educational institution is closed, or the opening is delayed pursuant to this article, the salary of any instructor regularly employed shall be paid according to any written contract between the governing board of the educational institution and the teacher, or, if there is no written contract, according to any salary schedule adopted by the board. If there is neither contract nor salary schedule, the total salary paid for any school year in which the order closing or postponing the opening of schools is made shall not be less than the salary paid by the governing board of the educational institution for similar services during the preceding school year.

79013. An order issued under this article may be made applicable to any district, or any group thereof, as the board of governors may determine and specify, and may be altered, amended, or rescinded from time to time.

79014. Nothing contained in this article shall in any manner affect the amount of money apportioned to any community college district during any school year.

## Article 3. Holidays and Observances

79020. Except as otherwise provided the public schools shall continue in session or close on specified holidays as follows:

(a) The public schools shall close on January 1st, February 12th known as "Lincoln Day," the third Monday in February known as "Washington Day," the last Monday in May known as "Memorial Day," July 4th, the first Monday in September known as "Labor Day," September 9th known as "Admission Day," November 11th known as "Veterans Day," that Thursday in November proclaimed

by the President as "Thanksgiving Day," and December 25th.

(b) The Governor in appointing any other day for a public fast, thanksgiving, or holiday may provide whether the public schools shall close on the day. If the Governor does not provide whether the public schools shall close, they shall continue in session on all special or limited holidays appointed by the Governor, but shall close on all other days appointed by the Governor for a public fast, thanksgiving, or holiday.

(c) The public schools shall close on every day appointed by the President as a public fast, thanksgiving, or holiday, unless it is a special or limited holiday.

(d) The public schools shall continue in session on all legal holidays other than those designated by or pursuant to this section and shall hold proper exercises commemorating the day.

(e) When any of the holidays on which the schools would be closed fall on Sunday, the public schools shall close on the Monday following.

(f) When any of the holidays on which the schools would be closed fall on Saturday, the public schools shall close on the preceding Friday, and such Friday shall be declared a state holiday.

(g) If any holiday on which the public schools are required to close pursuant to subdivision (a) occurs under federal law on a date different than the date specified in subdivision (a), the governing board of any community college district may close the public schools of the district on the date recognized by federal law and maintain classes on the date specified in subdivision (a).

(h) Nothing in this section is to be interpreted as authorizing a community college district governing board to maintain community colleges in its district for a lesser number of days during the school year than the minimum established by law.

79021. (a) Notwithstanding any other provision of this article, whenever the Governor appoints any other day as a holiday and does not provide for the closing of the public schools, but such public schools do close, such closing shall be deemed a closing for a holiday declared by the governing board pursuant to the provisions of Section 79022.

(b) All certificated employees shall be deemed to have served the public schools on holidays appointed by the Governor during the calendar year of 1969.

All payments to certificated employees of the public schools for the holidays appointed by the Governor heretofore made during the calendar year 1969, shall be deemed to have been earned and the payments therefore are validated, and any certificated employee of the public schools shall be granted and paid for such holidays appointed by the Governor during the calendar year 1969 as provided for in Section 87815, if the appointed holiday occurred during the school term. In the event the holiday occurred during summer school, the certificated employee shall be paid for the appointed holiday in an amount such certificated employee would

have received had he served on such holiday, which amount shall be determined in accordance with the rate of pay he is receiving pursuant to Section 87822.

(c) All classified employees shall be deemed to have served the public schools on holidays appointed by the Governor during the calendar year of 1969.

All payments to classified employees of the public schools for the holidays appointed by the Governor heretofore made during the calendar year 1969, shall be deemed to have been earned and the payments therefore are validated. Any school district which closed schools during calendar year 1969 for holidays appointed by the Governor but did not pay classified employees for those holidays shall do so, and employee entitlement shall be established under Section 88203.

79022. Notwithstanding any other provision of this article, and Section 52370, the governing board of any community college district may declare a holiday in the public schools under its jurisdiction when good reason exists.

79023. All public schools and educational institutions throughout the state shall hold exercises in memory of Abraham Lincoln and George Washington on February 12th and February 22nd, respectively, or on the day in which school is in session next preceding, if the specified day is a holiday.

(Added by renumbering Section 66021 by Stats 1976, Ch 1011 )

79026. February 15th of each year, the anniversary of the birthday of Susan B. Anthony, is designated and set apart as Susan B. Anthony Day.

All public schools and educational institutions shall observe this day with suitable exercises, directing attention to the development of the political and economic status of women in the United States, through the efforts of Susan B. Anthony.

(Added by renumbering Section 66022 by Stats. 1976, Ch. 1011.)

79024. All community colleges shall include in the schoolwork on or near the anniversary of the adoption of the Constitution of the United States exercises and instruction for students suitable to their ages in the purpose, meaning, and importance of the Constitution of the United States, including the Bill of Rights.

79025. March 7th of each year, the anniversary of the birthday of Luther Burbank, is set apart and designated Conservation, Bird, and Arbor Day.

All community colleges shall observe Conservation, Bird, and Arbor Day not as a holiday, but by including in the schoolwork of the day, suitable exercises having for their object instruction as to the economic value of birds and trees, and the promotion of a spirit of protection toward them, and as to the economic value of natural resources, and the desirability of their conservation.

79027. March 5th of each year, the anniversary of the death of Crispus Attucks, the first black American martyr of the Boston

Massacre, is designated and set apart as Black American Day to direct attention to the development of black people in the United States of America.

All community colleges shall observe this day with suitable exercises.

79027.5. All public schools and educational institutions throughout the state shall, on January 15th of each year, the anniversary of the birth of Dr. Martin Luther King, Jr., hold suitable exercises commemorating, and directing attention to the history of, the civil rights movement in the United States, and particularly the role therein of Dr. Martin Luther King, Jr.

79028. The governing board of any community college district may provide for the maintenance of community college classes on Saturday or Sunday.

Saturday and Sunday classes may be counted toward the 175-day minimum required for a regular day college, when, due to unforeseen circumstances, the college is closed, or the public schools are closed, by order of the President of the United States or the Governor of the State of California.

79029. During any national emergency declared by the President of the United States of America, or during any war in which the United States of America is engaged, upon a finding by the Department of Employment Development that spoilage of a perishable crop will result because of a critical shortage of farm labor the governing board of a community college district in which such crop is located may maintain the schools of the district on Saturdays, the first day of January, the 12th day of February, the third Monday of February, the last Monday of May, and the fourth Monday in October, in order to make students of the district available for the harvesting of crops without undue reduction in the number of days the schools of the district are maintained.

79030. Whenever climatic conditions of a community college district are such as to render it necessary that the schools be closed as early in the year as possible or opened as late in the year as possible, the governing board of the community college district may maintain schools and classes on any days other than Saturday, Sunday, the 25th day of December, the first day of January, the fourth day of July, and any day appointed by the President or the Governor for a public thanksgiving.

When classes are maintained on holidays pursuant to this section, proper exercises shall be held commemorating the day.

79031. In every community college there shall be conducted daily appropriate patriotic exercises. The giving of the pledge of allegiance to the Flag of the United States of America shall satisfy such requirement. Such patriotic exercises for secondary schools shall be conducted in accordance with the regulations which shall be adopted by the governing board of the community college district.

79032. Notwithstanding any other provisions of this article, the governing board of any community college district providing, or any

county superintendent of schools providing by agreement with the governing board of one or more community college districts, programs and classes in outdoor science education and conservation education pursuant to Article 5 (commencing with Section 8760) of Chapter 4 of Part 6 of Division 1 of Title 1 may maintain the programs and classes in outdoor science education and conservation education (a) on the fourth day of July when it does not fall on either a Saturday or a Sunday or (b) when it falls on either a Saturday or a Sunday, on the respective Friday or Monday which would otherwise, pursuant to subdivision (f) or (e), respectively, of Section 79020, be a holiday on which the public schools would be required to be closed.

Credit may be granted for attendance at programs and classes authorized by this section only for those students attending the program.

## CHAPTER 9. MISCELLANEOUS

### Article 1. Child Development Centers

79120. The governing board of any community college district may establish and maintain a child development center on or near each community college campus pursuant to the provisions of Chapter 2 (commencing with Section 8200) of Part 6 of Division 1 of Title 1.

79121. The governing board and any other public or private nonprofit agency may contract with the Department of Education to establish and maintain such campus child development centers. The governing boards may accept student fees, parent fees, and private funds to operate campus child development centers and may be reimbursed for eligible costs pursuant to Sections 8209 and 8380. Nothing in this chapter shall be construed to permit the governing board to expend state funds appropriated to the district for support of the community college for the direct operating costs of a campus child development center.

79122. Notwithstanding any other provision of law, children under two years of age whose parent or parents are students may attend child development centers consistent with the priorities established pursuant to law.

79123. Children of students of that particular campus shall have first priority for attendance at a campus child development center.

Student families, as defined in Section 8250.1, whose gross monthly income falls within the fee schedule established pursuant to Section 8249 shall pay fees according to the fee schedule.

Highest priority shall be given to student families with the greatest income deficit, and lowest priority to student families with the greatest income.

For the purposes of assigning eligibility priority, applicant student families shall be grouped according to the amount of their income in one-hundred-dollar (\$100) monthly increments. All student families

within a particular income range shall be treated as if their incomes were the same, and priority for eligibility within each particular income range shall be assigned on the following basis:

(1) Single-parent student families.

(2) Two-parent families, where both parents are students or where one parent is a student and the other is working.

Student families who are recipients of public assistance shall be subject to the same assignment of priority as other student families whose incomes fall in the same income range.

79124. Every child development center maintained pursuant to Section 79120 shall have an advisory council composed of representatives of the parent-users and persons from fields related to the well-being of children.

## Article 2. Classes in County Institutions

79130. Whenever a community college district maintains a school or classes at a tuberculosis or polio ward, hospital or sanatorium established and maintained by a county or group of counties, any person who has been admitted to such ward, hospital or sanatorium is, if otherwise qualified, eligible to attend such school or classes but shall be deemed to be, for the purposes of this code, a resident of the district in which he resided prior to his admission to such tuberculosis or polio ward, hospital or sanatorium.

The minimum schoolday for such classes is 180 minutes. Whenever two or more districts are authorized and operate such schools or classes the governing boards of the districts may jointly employ personnel to administer and conduct the programs.

The community college district maintaining the school shall, no later than 30 days following the date of enrollment of a student who resides in another district under this section, notify the district of residence of the student's enrollment.

79131. The cost for a school year of educating any person who attends such a school or class and who is deemed to be a resident of the district in which he resided prior to his admission to such tuberculosis or polio ward, hospital, or sanatorium shall be paid by the community college district of which any such person is a resident to the district maintaining a school or class in which such person is enrolled pursuant to this article.

Students in such schools or classes shall be apportioned excess cost apportionments for handicapped students as stated elsewhere in this code.

The board of governors shall adopt standards and regulations relating to administration, attendance, accounting and counseling in hospital schools and classes.

No interdistrict attendance agreement is required for the attendance described by this section but the provisions of Chapter 5 (commencing with Section 46600) of Part 26 of Division 1 of Title 2, relating to crediting average daily attendance and tuition, shall

apply to such attendance.

79132. Not later than July 15th of each year, the district maintaining such school or classes shall forward its claim to the district of residence, for the cost of educating persons who are residents of such district during the preceding school year, and the governing board of such district shall upon the receipt thereof pay such claim.

### Article 3. Educational Opportunities for Selected Inmates

79140. (a) There is hereby created a one-year pilot program designed to provide regular community college educational opportunities for selected inmates confined in California correctional institutions, and for selected wards confined in facilities of the California Youth Authority.

(b) The governing board of any community college district may contract with the warden or superintendent of any state institution or facility under the jurisdiction of the Department of Corrections or the Department of Youth Authority for educational services, courses or programs for inmates conducted pursuant to Section 2079.5 of the Penal Code.

(c) The attendance of inmates or wards in such classes shall not be included in the regular average daily attendance of the community college district, but such attendance shall be separately reported by the district to the chancellor's office.

(d) On or before November 1, 1975, the governing board of any community college district contracting under subdivision (b) shall report to the chancellor's office on the nature and scope of all contracts entered into pursuant to Section 2079.5 of the Penal Code and this section.

### Article 4. Pilot Program for Cooperative Education

79150. The office of the Chancellor of the California Community Colleges shall conduct a pilot program of up to three years' duration in cooperative education for not more than five community college districts. For the purposes of this act, "cooperative education" means on-the-job experience directly related to the student's educational goals. Cooperative education requires the supervision of an appropriately credentialed faculty member and is not limited to vocational education.

In order to enroll in a cooperative education program, a student must have earned at least 12 semester units or 18 quarter units at the community college at which he seeks to enroll in the program.

A student enrolled in a cooperative education program may not receive more than one semester unit for each five hours of fieldwork per week or one quarter unit for each 3½ hours of fieldwork per week.

No student may receive more than 16 units of semester credit or

24 units of quarter credit for cooperative education classes. No student may enroll in a cooperative education program for more than eight units per semester or 12 units per quarter.

No student may enroll jointly in a cooperative education program and a work-experience education program. Any credit for work-experience education which had been earned by a student prior to his enrollment in a cooperative education program shall be deducted from the maximum number of units for cooperative education allowable under the fourth paragraph of this section.

Average daily attendance in cooperative education shall be computed pursuant to Section 84530. The Chancellor of the California Community Colleges shall approve cooperative education programs which comply with existing regulations for new educational program approval and the other provisions of this section.

Followup evaluations and recommendations for new cooperative education programs, based upon the findings of the three-year study, shall be made by the office of the Chancellor of the California Community Colleges.

#### Article 5. Basic Work Station

79160. A basic work station in industrial education is defined as an assigned location where a student normally spends the majority of his class time performing the operational functions necessary to meet the performance objectives and goals of the course, including industrial safety education. For these purposes, the number of students in any industrial education facility or laboratory in community college programs shall not exceed the number of basic work stations designed for the number of students assigned, as determined by the governing board of the community college district.

### PART 49. COMMUNITY COLLEGES, EDUCATION FACILITIES

#### CHAPTER 1. SCHOOL SITES

##### Article 1. Location

81000. Except as provided in this article, any regular day school required to be maintained by the governing board of a community college district shall be maintained within the boundaries of the district.

81003. The governing board of a community college district, may establish and maintain outside of the boundaries of the district, for persons in the service of the United States or of the state assigned to, or serving at any camp, post, or other place under the jurisdiction of the United States or of the state, or for persons employed or living

on any such camp, post, or other place, or for persons evacuated from the district by order of any military officer of the United States or of the state, to meet an emergency created by war, or of any civil officer of the United States, the state, or any county, city and county, or city authorized to order such evacuation to meet an emergency created by war, and for the students any schools or classes which the board may lawfully establish and maintain within the boundaries of the district.

The governing board of the district shall not maintain any school or class for other than students evacuated from the district, under the provisions of this section in any other community college district without the consent of the governing board of the other district.

81004. The governing board of any community college district situated in a county with a population of 228,309 or more may enter into an agreement with the federal government in the form of a term special use permit whereunder the community college district is authorized to construct, maintain and operate school buildings and facilities upon National Forest Service land. Such agreement shall be for a term of 20 years or more, unless sooner terminated by the federal government. Subject to the approval of the board of governors, such agreement shall be on such terms and conditions as may be agreed upon between the governing board of the community college district and the agency of the federal government executing such agreement.

All acts and proceedings heretofore undertaken by the governing board of any community college district under any law, or under color of any law, pursuant to any such agreement or term special use permit whereunder the community college district has constructed, or operated and maintained, or both, school buildings and facilities are hereby validated and declared legally effective.

81005. Notwithstanding any other provision of this code to the contrary, whenever under the provisions of Section 310 of the act of Congress entitled, "An act relating to the construction of school facilities in areas affected by federal activities, and for other purposes" (Public Law 81-815), or under any similar provisions of any other act of Congress, school facilities are constructed by any agency of the federal government on federal property for the education of students residing on property owned by the federal government, the governing board of the community college district in which such facilities are located or the governing board of any adjacent community college district, with the approval of the Board of Governors of the California Community Colleges, may make arrangements with the agency of the federal government to maintain school in such facilities. The students residing on such federal property and attending such school shall be deemed to be residents of the district maintaining such school.

81006. The maintenance of a school by a district outside the boundaries of the district as provided in Section 50, 1256 and 80003,

shall be deemed for all purposes to be or have been the maintenance of a school within the boundaries of the district.

(Amended by Stats. 1976, Ch 1011.)

[ORIGINAL SECTION]

81006 The maintenance of a school by a district outside the boundaries of the district as provided in Sections 50, 1256, 80002 and 80003, shall be deemed for all purposes to be or have been the maintenance of a school within the boundaries of the district.

81007. The making of a contract by the governing board of a district as provided in Section 81003, shall be deemed to be or have been the maintenance of a school within the boundaries of the district except that the attendance of the students under such contract shall be reported by, and allowances because of the attendance of students under such a contract shall be made to, the district of attendance. For the purposes of this section, the average daily attendance of the district in which such students reside who are educated under such contract shall be the average daily attendance of the students educated under such contract.

81008. The governing board of a community college district coterminous with the boundaries of a city and county, may conduct classes at the airport and at the county jail which are owned and operated by the city and county, outside of the boundaries of the community college district.

81009. The governing board of any community college district may enter into agreements with any agency of the federal government for the construction of housing and other educational facilities for students and faculties of a community college maintained by the district if the governing board determines that the income, rent and charges for the use of the facilities will be sufficient in amount to repay the principal and interest on the amount secured from the federal government for the construction of the facilities. Whenever necessary to secure the full benefits of any federal statutes pertaining to loans or grants to educational institutions for housing and other educational facilities, the governing board may give such security as may be required and may comply with such conditions as may be imposed by the federal government.

## Article 2. School Sites

81031. The board of governors shall establish standards for school sites.

81032. The governing board of any community college district may, and when so directed by a vote of the voters within the district shall, purchase or improve school lands.

81033. The governing board of a community college district, prior to acquiring any site on which it proposes to construct any school building as defined in Section 81131 shall have the site, or sites, under consideration investigated by competent personnel to ensure

that the final site selection is determined by an evaluation of all factors affecting the public interest and is not limited to selection on the basis of raw land cost only. The investigation shall include such geological and soil engineering studies by competent personnel as are needed to provide an assessment of the nature of the site and potential for earthquake damage.

The geological and soil engineering studies of the site shall be of such a nature as will preclude siting of a school in any location where the geological characteristics are such that the construction effort required to make the site safe for occupancy is economically unfeasible. The evaluation shall also include location of the site with respect to population, transportation, water supply, waste disposal facilities, utilities, traffic hazards, surface drainage conditions, and other factors affecting the operating costs, as well as the initial costs, of the total project.

No school building shall be constructed or situated on the trace of an active geological fault. For purposes of this section, an active geological fault is defined as one along which surface rupture can be reasonably expected to occur within the life of the building.

Similar geological and soil engineering investigations shall be made as deemed necessary by the Department of General Services for the construction of any school building as defined in Section 81131 or, if the estimated cost exceeds ten thousand dollars (\$10,000), the reconstruction or alteration of or addition to any such school building for work which alters structural elements. No such study need be made if the site or sites under consideration have been the subject of adequate prior study.

A copy of the report of each investigation conducted pursuant to this section shall be submitted to the Department of General Services and the board of governors pursuant to Article 7 (commencing with Section 81130) of Chapter 1 of this part. The cost of geological and soil engineering studies and investigations conducted pursuant to this section may be treated as a capital expenditure.

81034. The reconstruction of any school on all or a portion of a site which has been used for public school purposes uninterruptedly since prior to 1890 may be financed through the State School Building Aid and Earthquake Reconstruction and Replacement Bond Law of 1972 (Chapter 19 (commencing with Section 17400) of Part 8 of Division 1 of Title 1), if the legal title to such site or a portion thereof is held either by: (a) a city school district, or (b) a charter city, and a city school district has obtained or is in the process of obtaining a lease of not less than 50 years on such site or portion thereof from the charter city.

81035. To promote the safety of students and comprehensive community planning the governing board of each district before acquiring title to property for a new school site or for an addition to a present school site, shall give the planning commission having jurisdiction notice in writing of the proposed acquisition. The

planning commission shall investigate the proposed site and within 30 days after receipt of the notice shall submit to the governing board a written report of the investigation and its recommendations concerning acquisition of the site.

The governing board shall not acquire title to the property until the report of the planning commission has been received. If the report does not favor the acquisition of the property for a school site, or for an addition to a present school site, the governing board of the district shall not acquire title to the property until 30 days after the commission's report is received.

81036. To promote the safety of students, comprehensive community planning, and greater educational usefulness of school sites, the governing board of each community college district, if the proposed site is within two miles, measured by air line, of that point on an airport boundary which is nearest the site and excluding them if the property is not so located, before acquiring title to property for a new school site or for an addition to a present site, shall give the board of governors notice in writing of the proposed acquisition and shall submit any information required by the board of governors.

Immediately after receiving notice of the proposed acquisition of property which is within two miles, measured by air line, of that point on an airport boundary which is nearest the site, the board of governors shall notify the Department of Aeronautics, in writing, of the proposed acquisition. The Department of Aeronautics shall make an investigation and report to the board of governors within 25 days after receipt of the notice. If the Department of Aeronautics is no longer in operation, the board of governors shall, in lieu of notifying the Department of Aeronautics, notify the Federal Aviation Administration or any other appropriate agency, in writing, of the proposed acquisition for the purpose of obtaining from the authority or other agency such information or assistance as it may desire to give.

The board of governors shall investigate the proposed site and within 30 days after receipt of the notice shall submit to the governing board a written report and its recommendations concerning acquisition of the site. The governing board shall not acquire title to the property until the report of the board of governors has been received. If the report does not favor the acquisition of the property for a school site or an addition to a present school site, the governing board shall not acquire title to the property until 30 days after the department's report is received and until the board of governors' report has been read at a public hearing duly called after 10 days' notice published once in a newspaper of general circulation within the community college district, or if there is no such newspaper, then in a newspaper of general circulation within the county in which the property is located.

81037. Notwithstanding the provisions of Section 81036 immediately after receiving notice of a proposed acquisition of property which is within two miles, measured by air line, of that

point on an airport boundary which is nearest the site, the board of governors shall notify the Department of Aeronautics, in writing, of the proposed acquisition. The Department of Aeronautics shall make an investigation and report to the board of governors within 25 days after receipt of the notice. As part of such investigation the Department of Aeronautics shall give notice thereof to the owner and operator of such airport who shall be afforded the opportunity to comment upon the proposed school site.

Notwithstanding the provisions of Section 81036, if the report of the board of governors required by that section does not favor the acquisition of the property for a school site, or an addition to a present school site, the governing body shall not acquire title to the property until 30 days after the board of governors' report is received and until the board of governors' report has been read at a public hearing duly called after 10 days' notice by publication in a newspaper of general circulation within the community college district, or if there is no such newspaper, then in a newspaper of general circulation within the county in which the property is located.

81038. If, with respect to a proposed site located within two miles of an operative airport runway, the report of the board of governors submitted to a community college district governing board under Section 81036 or Section 81037 does not favor the acquisition of the site on the sole or partial basis of the unfavorable recommendation of the Department of Aeronautics, no state agency or officer shall grant, apportion, or allow to such community college district for expenditure in connection with that site, any state funds otherwise made available under any state law whatever for school site acquisition or school building construction, or for expansion of existing sites and buildings, and no funds of the community college district or of the county in which the district lies shall be expended for such purposes; provided that the provisions of this section shall not be applicable to sites acquired prior to January 1, 1966, nor to any additions or extensions to such sites.

If the recommendation of the Department of Aeronautics is unfavorable, such recommendation shall not be overruled without the express approval of the board of governors and the State Allocation Board.

81039. No action undertaken by the board of governors or by any other state agency or by any political subdivision pursuant to this chapter, or in compliance with this chapter, shall be construed to affect any rights arising under the provisions of Section 19 of Article I of the California Constitution.

(Amended by Stats. 1976, Ch. 1011 )

[ORIGINAL SECTION]

81039 No action undertaken by the board of governors or by any other state agency or by any political subdivision pursuant to this chapter, or in compliance with this chapter, shall be construed to affect any rights arising under the provisions of Section 14 of Article I of the California Constitution

81040. The governing board of any community college district may acquire and pay for an option upon a school site. The option agreement may provide that if the option is not exercised by the district during the period for which it is granted that, upon an additional payment by the district, made on or before the last day of such period, the option may be extended for a further period. Any such option agreement may contain provisions for additional successive renewals.

Before acquiring any such option the governing board shall comply with Sections 81035 and 81036.

81041. Where a city, district, or other political corporation or subdivision of the state is authorized by law to furnish sewerage, water, or other utility facilities to a community college district and is not required to provide for the installation thereof to such community colleges district at its own expense, it may enter into an agreement with such district whereby the cost of installation will be paid by the district under such terms as the parties may agree to, with reimbursement from charges made or to be made to other users of such facilities as may be agreed upon between the parties, save insofar as other provisions of law control the terms of such reimbursement. Any agreement made prior to September 11, 1957, between a community college district and any of the aforesaid entities, which is otherwise in accordance with this section shall be deemed to be as valid and effective as if such agreement had been entered into subsequent to September 11, 1957.

The governing body of any entity mentioned in the preceding paragraph may by contract reimburse a community college district for such portion of such utility facilities as it deems constructed for the benefit of or usable by persons outside of the school site, provided such facilities are dedicated by the district to the public. Such contract shall provide that the governing body may collect from any person using such facilities, for the benefit of property not within the school site, a reasonable charge for such use. The term "person" herein includes districts formed for the purpose of constructing or maintaining sewers.

81043. The governing board of a community college district may acquire a site for a school building contiguous to the boundaries of the district and upon the acquisition of such site it shall become a part of the district. The site shall not be acquired until the county committee on district organization of the county or of each of the counties concerned has received the proposal for acquisition of the site and reported its recommendations thereon to the governing boards of the districts concerned and to each county superintendent of schools concerned. The report of the county committee shall be made within 60 days from the time the proposal for acquisition of the site was submitted to it. The power of eminent domain may be used for the purposes of this section.

A school site is contiguous for the purpose of this section although separated from the boundaries of the district by a road, street,

stream, or other natural or artificial barrier or right-of-way.

### Article 3. Powers and Duties of Board of Governors

81050. The board of governors shall establish and make rules and regulations needed for the expeditious handling of the work required to carry out the purposes of this article.

81051. All money collected by the board of governors under the provisions of this article shall be available for the use of the board of governors pursuant to appropriations for such use as may from time to time be made by the Legislature.

### Article 4. Constructing School Buildings

81060. The governing board of a community college district may, and when directed by a vote of the district shall, build and maintain a schoolhouse.

81061. In bidding on contracts to be made pursuant to Section 81526, bidders may include in their bids abstractions of their quotations indicating the pricing structure used to compute the annual lease or rental payments for the sole purpose of identifying that portion of each annual lease or rental payment which may represent tax exemption reimbursement to the vendor, lessor or to their assignees.

81062. The governing board of a community college district, whenever in its judgment it is desirable to do so, may establish additional colleges in the district.

81063. The governing board of a community college district may purchase property and construct and equip buildings in an area after the legal action has been taken that will result in annexation of the area to the district, but before the annexation has become effective.

81064. The provisions of Article 7 (commencing with Section 81130) and Article 8 (commencing with Section 81160) of this chapter do not apply to an offsite building during the time such building is used wholly or in part for community college purposes if such building is neither owned by a community college district or leased by a community college district under a lease containing an option to purchase such building; provided, however, that this section shall not affect the validity of any action taken pursuant to any provision of Article 7 (commencing with Section 81130) or Article 8 (commencing with Section 81160) of this chapter prior to the effective date of enactment of this section. For the purposes of this section an "offsite building" is a building which is situated on land which is neither owned by a community college district nor leased by a community college district under a lease containing an option to purchase such land.

## Article 5. Factory-Built Buildings

81080. It is the intent of this article to provide an alternative procedure to Article 7 (commencing with Section 81130) of this chapter for the construction and installation of factory-built school buildings not over 1,000 square feet in area designed or intended for use as school buildings. As used in this article, a "factory-built building" means any building designed or intended for use as a school building which is either wholly manufactured or is in substantial part manufactured at an offsite location in accordance with standards prescribed by the Department of General Services, to be assembled or erected on a school site. Any such building purchased or leased by a community college district shall be deemed to be the construction or alteration of a school building as those terms are used in Article 6 (commencing with Section 81100) and Article 7 (commencing with Section 81130) of this chapter, and all of the provisions of each of those articles, not inconsistent with the provisions of this article, shall apply with respect to factory-built buildings designed or intended for use as school buildings.

81081. The Department of General Services shall adopt standards as to the safety of design and construction of factory-built buildings for use as school buildings, and shall prescribe procedures for the plans, specifications, methods of construction, and estimates of cost of a factory-built school building to be submitted to the department for approval as provided in Section 81082. Such standards shall comply with but not be limited by the provisions of Article 6 (commencing with Section 81100) and Article 7 (commencing with Section 81130) of this chapter.

81082. A manufacturer of factory-built buildings designed or intended for use as school buildings shall submit to the Department of General Services and the board of governors for approval, its plans, specifications, methods of construction, and estimates of cost of such buildings. At the same time the manufacturer shall pay to the Department of General Services a deposit to be applied toward the actual expenses in an amount as determined by the Department of General Services based on the estimated cost of such factory-built buildings, but not exceeding 0.5 percent of such estimated cost. The minimum deposit in any case shall be fifty dollars (\$50). The manufacturer shall reimburse the Department of General Services and the board of governors for the actual expenses incurred by those departments in the review of such plans and specifications.

All fees received by the Department of General Services pursuant to this article are subject to the provisions of Section 81137.

81083. All plans, specifications and estimates shall be prepared by a certified architect holding a valid license under Chapter 3 (commencing with Section 5500) of Division 3 of the Business and Professions Code or by a structural engineer holding a valid certificate to use the title structural engineer under Chapter 7 (commencing with Section 6700) of Division 3 of the Business and

Professions Code, and the supervision of the work of construction in the factory shall be under the responsible charge of such an architect or structural engineer.

81084. The Department of General Services, in accordance with standards and procedures adopted pursuant to Section 81081, and as such standards and procedures may thereafter be modified, shall either approve or reject such plans, specifications, and methods of construction. Approval shall not be given unless such plans, specifications, and methods of construction are in accordance with standards adopted by the department pursuant to Section 81081. The department may establish procedures for the inspection of the facilities and manufacturing processes of a manufacturer to determine the manufacturer's ability to produce factory-built school buildings in accordance with the plans, specifications, and methods of construction which the manufacturer has submitted to the department. The Department of General Services shall notify the board of governors of its approval of a manufacturer's plans, specifications, and methods of construction of a factory-built school building.

81085. The Department of General Services shall provide for competent, adequate, and continuous inspection during construction in the factory to insure that all work has been performed and materials used and installed, in every particular, in accordance with the approved plans and specifications. The manufacturer shall reimburse the department for the costs incurred for such inspection as determined by the department.

81086. From time to time, as the work of construction in the factory progresses and whenever the Department of General Services requires, the certified architect or structural engineer in responsible charge of the supervision of the work of construction in the factory, the inspector on the work, and the manufacturer shall each make to the Department of General Services a report, duly verified by him, upon a form prescribed by the Department of General Services, showing, of his own personal knowledge, that the work during the period covered by the report has been performed, and materials used and installed, in every particular, in accordance with the approved plans and specifications, setting forth such detailed statements of fact as are required by the Department of General Services.

81087. Upon the Department of General Services' approval of a manufacturer's plans, specifications, and methods of construction of a factory-built school building, a community college district, whenever it is otherwise required by any of the provisions of Article 6 (commencing with Section 81100), or Article 7 (commencing with Section 81130) of this chapter to submit to the Department of General Services or to the board of governors the plans and specifications for the construction of a school building may, instead, include in its application for approval to each of such departments a notification that it intends to utilize such factory-built school

building. The plans and specifications for the factory-built building to be utilized shall be submitted with the application and notification for identification purposes. Before granting its approval for the use of such buildings, the Department of General Services shall insure that the plans, specifications, and methods of construction of such buildings have been approved and are in accordance with standards adopted by the department pursuant to Section 81081 which are in effect at the time such application for approval is passed upon by the department. Whenever a community college district complies with the alternative procedure prescribed by this section it shall not be required to pay the filing fee prescribed by Sections 81106 and 81136, except that a fee shall be charged for onsite work pursuant to Section 81088. If the submitted plans and specifications have not been previously approved the application shall be rejected. In such case a new application together with required documents shall be filed for approval of plans and specifications by either the manufacturer pursuant to the provisions of Section 81082 or by the district pursuant to the provisions of Article 7 (commencing with Section 81130) of this chapter.

81088. Whenever a community college district has contracted for the purchase or lease of a factory-built school building and where such building is to be supported by foundations, underpinning, pedestals, or similar type elements which extend more than 18 inches above natural grade at any point, or on temporary blocks or jacks of any height, all the provisions of Article 7 (commencing with Section 81130) of this chapter shall apply to the design and construction of onsite work except that, for fee purposes, only the estimated cost of onsite work need be considered. The minimum amount in any case shall be fifty dollars (\$50).

81089. The provisions of Sections 81105, 81108, 81109, 81136, 81138, and 81141 shall not apply with respect to the manufacture, sale, or lease of factory-built school buildings if the provisions of this article are otherwise complied with.

81090. The provisions of Sections 81134, 81138, 81140, 81141, and 81143 shall not apply with respect to the design and construction of onsite work except where required by the provisions of Section 81088.

#### Article 6. Plans

81100. As used in Sections 81100 to 81106, inclusive, "school buildings" refers to only one-story schoolhouses of not more than nine classrooms.

81101. The board of governors shall:

(a) Establish a pool of duplicate plans for school buildings appropriate for community college districts in rural areas. The series shall be composed of plans designed to meet the requirements of community college districts located in rural areas of varying characteristics. The plans may include landscape suggestions.

(b) Provide specifications for the design and construction of such school buildings.

81102. Any community college district may request sets of such plans and specifications appropriate for use in constructing a school building of the type desired by the district. Such plans and specifications shall be furnished to the district subject to the payment of the actual expense incurred by the board of governors, but such expense shall not exceed more than 2 percent of the total cost of the project. Any payments received for such plans and specifications shall be paid into the State Treasury to the credit of the General Fund.

81103. The plans and specifications for any school building as defined in Section 81131, together with estimates of cost, shall be submitted by the board to the Department of General Services for approval.

81104. All provisions of Sections 81130 to 81145, inclusive, are made applicable to school buildings as defined in Section 81131 constructed from plans and specifications furnished under Sections 81100 to 81106, inclusive, except as otherwise provided in the latter sections.

81105. The district shall furnish its own architect or structural engineer, or both, for necessary structural engineering and supervision of construction.

81106. The governing board of a community college district shall, before letting any contract for the construction of a school building as defined in Section 81131 according to such plans and specifications, file a set of the plans and specifications with the Department of General Services accompanied by a fee in the amount fixed by Section 81156.

81107. Except in cities having boards of education, the superintendent of schools of each county shall pass upon and approve or reject all plans for schoolhouses. To enable him to do so, the governing board, before adopting any plans for school buildings, shall submit the plans to him for his approval.

81108. Any contract entered into by and between the governing board of any community college district and any certified architect or structural engineer pursuant to Section 81138 shall provide that all plans, specifications and estimates prepared pursuant thereto shall be and remain the property of the district.

81109. The governing board of a community college district shall, upon completion of any school building let pursuant to Section 81130 to 81145, inclusive, file with the Department of General Services on an ozalid type reproducible duplicate set of architect plans for the new school building plant.

81110. The county superintendent of schools may appoint a director of school building planning, who shall be a person qualified by training, experience and demonstrated ability to supervise the building, construction and contracting business of the community college districts of the county having an average daily attendance of

less than 10,000. The director shall be responsible for the coordination of the building program of the school districts of the county having such average daily attendance and shall advise the governing boards and other employees of the districts with respect to the negotiation and performance of the school building construction contracts let by the governing boards of the districts.

81111. The county superintendent of schools of two or more contiguous counties may cooperate with each other and to that end may enter into agreements with each other for the appointment of a joint director of school building planning, and may do all things necessary or convenient to aid and cooperate in carrying out the provisions of Sections 81110 to 81113, inclusive.

81112. Before letting any contract for the preparation of plans and specifications for any construction or alteration of any school building, the governing board of any community college district having an average daily attendance of less than 10,000 shall consult the director of school building planning of the county and secure the benefit of his technical knowledge with respect to the negotiation and letting of any contract for the construction or alteration of a school building.

81113. If any community college district having an average daily attendance of less than 10,000 receives a final apportionment of state school building aid funds under Sections 16000 to 16207, inclusive, the governing board of such district shall consult the director of school building planning on all matters relating to the construction of the project for which the apportionment was granted until final completion of the project.

#### Article 7. Approvals

81130. The Department of General Services under the police power of the state shall supervise the design and construction of any school building or, if the estimated cost exceeds ten thousand dollars (\$10,000), the reconstruction or alteration of or addition to any school building, to ensure that plans and specifications comply with the rules and regulations adopted pursuant to this article and building regulations published in the State Building Standards Code, and to ensure that the work of construction has been performed in accordance with the approved plans and specifications, for the protection of life and property. Nothing in this section shall be construed to allow a community college district to perform work with its own forces in excess of the limitations set forth in Sections 81640 and 81649.

81131. "School building" as used in this article means and includes any building used, or designed to be used, for community college purposes and constructed, reconstructed, altered, or added to, by the state or by any city or city and county, or by any political subdivision, or by any district of any kind within the state, or by any regional occupational center or program created by or authorized to

act by an agreement under joint exercise of power, or by the United States government, or any agency thereof.

81131.4. Any school building, as defined in Section 81131, operated by a county official, board, or commission which on the effective date of this section is in violation of this article, where compliance therewith was otherwise required, may be continued in use as a school building after June 30, 1975, provided that no such building shall be operated after that date unless such county official, board, or commission requests and obtains from the State Allocation Board authority for use of such building for a specific period after such date.

Concurrent with such request such county official, board, or commission shall file with the State Allocation Board a statement or resolution declaring an intention to utilize the building as a school building after June 30, 1975, pending its repair, reconstruction, or replacement.

The State Allocation Board shall not authorize such county official, board, or commission to use such building after June 30, 1975, unless it has first determined that the affected authority has already proceeded with a plan of total repair, reconstruction, or replacement in a timely manner and the contract has been let for any phase of, and work commenced on, such project.

In no event shall the State Allocation Board authorize the use of such unsafe facilities for a period extending beyond the completion of the replacement facilities or beyond June 30, 1977, whichever occurs first.

81131.5. Where the primary use of either a building or complex within which such building is situated, operated by an official or board of a city, city and county or county, is for purposes other than educational, such as but not limited to correctional, forestry, or hospital purposes, such building shall not be considered to be a "school building" within the meaning of Section 81131 notwithstanding any educational use thereof incidental to such primary purpose.

81132. "Construction or alteration" as used in this article includes any construction, reconstruction, or alteration of, or addition to, any school building.

81133. The Department of General Services shall pass upon and approve or reject all plans for the construction or, if the estimated cost exceeds ten thousand dollars (\$10,000), the alteration of any school building. To enable it to do so, the governing board of each community college district and any other school authority before adopting any plans for such school building shall submit the plans to the Department of General Services for approval, and shall pay the fees prescribed in this article.

81134. Before letting any contract for any construction or alteration of any such school building, the written approval of the plans, as to safety of design and construction, by the Department of General Services, shall be first had and obtained.

81135. In each case the application for approval of the plans shall be accompanied by the plans and full, complete, and accurate specifications, and structural design computations, and estimates of cost, which shall comply in every respect with any and all requirements prescribed by the Department of General Services.

81136. The application shall be accompanied by a filing fee in amounts as determined by the Department of General Services based on the estimated cost, and such fee shall not exceed one-half of 1 percent of the estimated cost.

The minimum fee in any case shall be fifty dollars (\$50). If the actual cost exceeds the estimated cost by more than 10 percent, a further fee shall be paid to the Department of General Services, based on the above schedule and computed on the amount by which the actual cost exceeds the amount of the estimated cost.

81137. All fees shall be paid into the State Treasury and credited to the Division of Architecture Public Building Fund, which fund is continued in existence and is retitled the Architecture Public Building Fund, and are available without regard to fiscal years for the use of the Department of General Services, subject to approval of the Department of Finance, in carrying out the provisions of this article and Article 5 (commencing with Section 81080).

Adjustments in the amounts of the fees, as determined by the Department of General Services and approved by the Department of Finance, will be made within the limits set in Sections 81082 and 81136 in order to maintain a reasonable working balance in the fund.

81138. All plans, specifications, and estimates shall be prepared by a certified architect holding a valid license under Chapter 3 of Division 3 of the Business and Professions Code or by a structural engineer holding a valid certificate to use the title structural engineer under Chapter 7 of Division 3 of the Business and Professions Code, and the observation of the work of construction shall be under the responsible charge of such an architect or structural engineer, except that where plans, specifications, and estimates for alterations or repairs do not involve architectural or structural changes said plans, specifications, and estimates may be prepared and work of construction may be observed by a professional engineer duly qualified to perform such services and holding a valid certificate under Chapter 7 of Division 3 of the Business and Professions Code for performance of services in that branch of engineering in which said plans, specifications, and estimates and work of construction are applicable.

81139. As of January 1, 1976, the persons employed as inspectors of record to inspect the construction, reconstruction or alteration of any school building shall be either (a) persons who are registered as construction inspectors in the divisions in which they are to be used, as defined by Section 9101 of the Business and Professions Code or (b) persons who are regularly employed for building code enforcement by the local agency having responsibility for such inspection, and are qualified to perform such inspections under the

civil service laws or regulations of such local agency.

Persons employed as assistants to inspectors of record shall be registered construction inspectors or shall be enrolled as inspectors-in-training in the divisions in which they are to be used, as defined by Section 9101.1 of the Business and Professions Code. This section shall not apply to any architect, structural engineer, civil engineer, land surveyor, mechanical engineer, engineering geologist, or electrical engineer, who holds a valid certificate of registration in this state, insofar as he is practicing within the provisions of the law under which he is registered. This section shall not apply to an inspector approved by the Office of Architecture and Construction and employed pursuant to a particular building contract prior to January 1, 1976, during the performance of that building contract.

81140. No contract for the construction or alteration of any school building, made or executed by the governing board of any community college district or other public board, body, or officer otherwise vested with authority to make or execute such a contract, is valid, and no public money shall be paid for any work done under such a contract or for any labor or materials furnished in constructing or altering any such building, unless the plans, specifications, and estimates comply in every particular with the provisions of this article and the requirements prescribed by the Department of General Services and unless the approval thereof in writing has first been had and obtained from the Department of General Services.

81141. From time to time, as the work of construction or alteration progresses and whenever the Department of General Services requires, the licensed architect or structural engineer in charge of observation of construction or registered engineer in charge of observation of other work, the inspector on the work, and the contractor shall each make to the Department of General Services a report, duly verified by him, upon a form prescribed by the Department of General Services, based upon his own personal knowledge, indicating that the work during the period covered by the report has been performed and materials have been used and installed, in every material respect, in compliance with the approved plans and specifications, setting forth such detailed statements of fact as are required by the Department of General Services.

The term "personal knowledge" as used in this section and as applied to the architect, and the registered engineer, means the personal knowledge which is obtained from periodic visits to the project site of reasonable frequency for the purpose of general observation of the work, and also which is obtained from the reporting of others as to the progress of the work, testing of materials, inspection and superintendence of the work that is performed between the above-mentioned periodic visits of the architect or the registered engineer. The exercise of reasonable diligence to obtain the facts is required.

The term "personal knowledge" as applied to the inspector means

the actual personal knowledge which is obtained from his personal continuous inspection of the work of construction in all stages of its progress at the site where he is responsible for inspection and, when work is carried out away from the site, that personal knowledge which is obtained from the reporting of others on the testing or inspection of materials and workmanship for compliance with plans, specifications or applicable standards. The exercise of reasonable diligence to obtain the facts is required.

The term "personal knowledge" as applied to the contractor means the personal knowledge which is obtained from the construction of the building. The exercise of reasonable diligence to obtain the facts is required.

81142. The Department of General Services may from time to time make such rules and regulations as it deems necessary, proper, or suitable effectually to carry out the provisions of this article.

81143. The State Department of General Services shall make such inspection of the school buildings and of the work of construction or alteration as in its judgment is necessary or proper for the enforcement of this article and the protection of the safety of the students, the instructors, and the public. The community college district, city, city and county, or the political subdivision within the jurisdiction of which any school building is constructed or altered shall provide for and require competent, adequate, and continuous inspection during construction or alteration by an inspector satisfactory to the architect or structural engineer and the Department of General Services. The inspector shall act under the direction of the architect or structural engineer as the board may direct, and be responsible to the governing board.

81144. Any person who violates any of the provisions of this article or makes any false statement in any verified report or affidavit required pursuant to this article, is guilty of a felony.

81145. Upon written request by the governing board of any community college district or upon written request by at least 10 percent of the parents having students enrolled in any community college district as certified to by the county superintendent of schools, the Department of General Services shall make an examination and report on the structural condition of any public school building of the district, subject to the payment by the governing board of the actual expenses incurred by the Department of General Services. Payment of the expenses may be waived by the Department of General Services on recommendation of the board of governors when it appears to it that the district in which the public school building is located cannot afford to pay them.

81146. Any public school building which has been approved by the Department of General Services for occupancy shall be deemed to meet the local building requirements for use as a private school.

## Article 8. Fitness for Occupancy

81160. The Legislature finds and declares as follows:

(a) By an urgency act (Stats. 1933, Ch. 59), the Legislature at the 1933 General Session established reasonable minimum standards for the design and construction of new school buildings, as now defined in Section 81131. Although it was not required that then existing school buildings incorporate these standards, it was intended by the Legislature that in the intervening years continuous progress would be made in the repair, reconstruction or replacement of such school buildings.

(b) Progress toward this end has been outstanding in some community college districts. In other community college districts the matter has been ignored, thus prolonging a dual level of safety for the community college students of California.

81161. It is the intent of the Legislature to re-examine the progress under this article from time to time. To enable it to do so, and to expedite the provision of safe educational facilities for California community college students, the Legislature intends that the governing board of each community college district adopt a plan for the orderly repair, reconstruction, or replacement of school buildings not repaired, reconstructed, or replaced in accordance with this article.

81162. The governing board of any community college district which had in use for school purposes any school buildings which were not constructed under approved plans and the supervision and inspection requirements of Article 7 (commencing with Section 81130) of this chapter shall have such buildings examined pursuant to this section and shall have completed on or before January 1, 1970, the examination, reporting and estimate requirements of this section and Section 81174.

Whenever an examination of the structural condition of any school building of a community college district has been made by the Department of General Services, or by any licensed structural engineer or licensed architect for the governing board of the district, or under the authorization of law, and a report of the examination, including the findings and recommendations of the agency or person making the examination, has been made to the governing board of the district, and the report shows that the building is unsafe for use, the governing board of the district shall immediately have prepared an estimate of the cost necessary to make such repairs to the building or buildings as are necessary, or, if necessary, to reconstruct or replace the building so that the building when repaired or reconstructed, or any building erected to replace it, shall meet such standards of structural safety as are established in accordance with law. The estimate shall be based on current costs and may include other costs to reflect modern educational needs. Also an estimate of the cost of replacement based on the standards established by the State Allocation Board for area per student and cost per square foot,

shall be made and reported.

The report required by this section shall include a statement that each of the buildings examined is safe or unsafe for school use. For the purpose of this statement the sole consideration shall be protection of life and the prevention of personal injury at a level of safety equivalent to that established by Article 7 (commencing with Section 81130) of this chapter and the rules and regulations adopted thereunder, disregarding, insofar as possible, such building damage not jeopardizing life which would be expected from one disturbance of nature of the intensity used for design purposes in said rules and regulations.

The governing board, utilizing the information acquired from the examination and report developed pursuant to this section, shall establish a system of priorities for the repair, reconstruction, or replacement of unsafe school buildings.

81163. Whenever an examination of the geological characteristics of the site on which any public school building constructed prior to 1957 is situated has been made at the request of the governing board by a licensed geologist prior to the effective date of the act which enacted this section, and the report shows that the school building is situated on the trace of an active geological fault along which it can reasonably be expected that surface rupture will occur within the life of such building, such building shall be deemed structurally unsafe for school use. Such building shall be subject to replacement at another location in accordance with the procedure provided for repair, reconstruction, or replacement in Section 81162 as though it had not been constructed in conformance with Article 7 (commencing with Section 81130) of this chapter.

This section shall remain in effect only until July 1, 1976, and as of that date is repealed.

81164. "School building" as used in this article excludes any building which is used for community college district administrative buildings located on a site separate from the community college campuses of the district, and into which students are not required to enter.

81165. "School building" as used in this article excludes any building which is used exclusively for warehouse, storage, garage, or districtwide administrative office purposes, into which pupils are not required to enter, and off-campus buildings utilized by adult schools or community colleges for voluntary adult education courses or registered apprentice courses.

"School building" as used in this article excludes any building owned or occupied by a unified school district, high school district, or a county superintendent of schools, and which on July 1, 1975, and continuously since then, was used exclusively for adult education purposes.

If any building so excluded was not constructed in accordance with Article 7 (commencing with Section 81130) of this chapter and was not repaired, reconstructed, or replaced in accordance with this

article, there shall be posted in a conspicuous place on such building a public notice stating that such building does not meet the structural standards imposed by law for earthquake safety.

81166. After securing the estimates, the governing board of the district shall, if the district has sufficient funds to its credit to permit the repairs, reconstruction, or replacement, and such funds do not represent the proceeds of a bond issue previously authorized by the electorate of the district for other purposes, immediately proceed in such manner as is authorized by law to secure the necessary authorization for the expenditure of the funds. If authorization to expend the funds is not required by law, the board shall within six months from the receipt of the report of the examination of the building or buildings initiate action for the repair, reconstruction, or replacement of the building or buildings.

81167. If the district does not have sufficient funds available to permit the governing board of the district to proceed with the repair, reconstruction, or replacement of the building or buildings, the governing board shall within 12 months after receiving the report of the examination of the building or buildings, call an election. At such election there shall be submitted to the qualified electors of the district either proposition (a) or (b), or both propositions (a) and (b), as determined by the governing board of the district, as follows:

(a) (1) Authorization of bonds of the district in an amount sufficient, as shown by the estimate, to provide funds for the repair, or reconstruction, of the building or buildings, in accordance with the governing board's plan; or

(2) Authorization of bonds of the district in an amount sufficient as shown by the estimate obtained by the district to construct new school facilities on the site of one or more of the unfit building or buildings, or on other sites, in accordance with the governing board's plan.

(b) Authorization of the increase of the maximum tax rate of the district for such length of time as will permit raising sufficient funds by district taxation for the repair, reconstruction, or replacement of the building in accordance with the governing board's plan.

In connection with the submission of either proposition (a) or (b), or both propositions (a) and (b), the governing board of the district may submit to the qualified electors of the district a proposition for the abandonment of the building and the use of tents or other temporary structures for school purposes in lieu of the building abandoned.

Neither of the propositions under (a) and (b) shall be required to make provision for financing of the entire repair, reconstruction or replacement program of the district, but shall at least provide funds for commencement of such repair, reconstruction or replacement, consistent with the governing board's plan.

81168. Where authorization of the qualified electors for the expenditure of the funds is required under any law of this state, the proposition to authorize the expenditure shall be submitted at the

election.

81169. The resolution ordering and the notice calling the election shall specify the building or buildings initially proposed to be repaired, reconstructed, or replaced, and those proposed to be repaired, reconstructed, or replaced pursuant to the governing board's plan.

81170. The election shall be called, held and conducted in the manner provided in Chapter 3 (commencing with Section 5300) of Part 4 of Division 1 of Title 1. Each elector shall be entitled to vote upon each of the propositions.

81171. If, at the election, the requisite number of voters cast their ballots in favor of the issuance of bonds, the bonds shall be issued and sold in the manner provided by law for the issuance and sale of bonds of the district, and the proceeds used for the purpose or purposes specified in the resolution or notice calling the election. In such event, the results of the voting upon the proposition calling for an increase in the maximum tax rate of the district submitted at the election shall be disregarded.

81172. If, at the election, issuance of bonds of the district is not authorized, and if, on the proposition of increasing the tax rate of the district the number of votes cast in the affirmative is sufficient to authorize an increase in the tax rate of the district, the increase shall be authorized, and the governing board shall proceed to increase the rate and to use the proceeds of the increased tax solely for the purpose or purposes specified in the resolution or notice calling the election.

81173. If at the election, no proposition which is required to be submitted to the qualified electors is approved and authorized, the governing board of the district shall, in accordance with the same or a modified plan, submit either the proposition to authorize the issuance of bonds, or the proposition to increase the tax rate, or both, no later than five years following the last submission of either or both of these propositions to the qualified electors of the district. The result of the voting on the proposition to authorize the use of tents or other temporary structures shall be considered by the governing board as an advisory vote, and the tents or other temporary structures may be used for school purposes to the extent that such use is deemed necessary by the governing board.

81174. The governing board of each community college district required to act pursuant to Section 81162 shall, within 12 months after receiving the report of the examination of the building or buildings, place on file with the board of governors a summary of all reports of examinations and estimates relating to school buildings which have not been repaired, reconstructed or replaced in accordance with law, including a summary of previous elections held and actions taken concerning this matter, if any, and a statement of intentions to repair, reconstruct or replace such buildings which shall constitute the governing board's plan. The plan shall include the approximate date it is contemplated that such actions to repair,

reconstruct or replace each such building will occur.

81175. The board of governors shall summarize and report to the Legislature every two years, commencing with the 1968 Regular Session, the data placed on file with the board pursuant to Section 81174.

81176. Except as provided in Section 81177, nothing in this article shall be construed as relieving any member of the governing board of a community college district of any liability for injury to persons or damage to property imposed by law.

81177. No member of the governing board of a community college district shall be held personally liable for injury to persons or damage to property resulting from the fact that a school building was not constructed under the requirements of Article 7 (commencing with Section 81130) of this chapter, if such governing board complies with the provisions of this article. Such limit on liability shall commence when such governing board initiates action to comply with the provisions of Section 81162.

A licensed structural engineer or licensed architect employed by a governing board to examine any school building under this article shall not be held personally liable for injury to persons or damage to property as a result of the structural inadequacy and failure of a building, provided he has exercised normal professional diligence in carrying out his functions under Article 7 (commencing with Section 81130) of this chapter and the provisions of this article.

81178. No school building examined and found to be unsafe for school use pursuant to Section 81162 and not repaired or reconstructed in accordance with the provisions of this article, and no school building which has never met the requirements of Article 7 (commencing with Section 81130), of this chapter, shall be used as a school building for community college purposes after June 30, 1975, except as permitted by Article 15 (commencing with Section 81520) of this chapter, unless the governing board of the community college district has requested and obtained from the State Allocation Board authority for use of such building for a specific period beyond such date. Prior to requesting such authority, the governing board shall adopt a resolution declaring the board's intention to utilize the building as a school building after June 30, 1975, pending its repair, reconstruction, or replacement. The State Allocation Board shall not authorize any community college district to use such a building beyond June 30, 1975, unless it has first determined that the district has already proceeded with a plan of total repair, reconstruction or replacement in a timely manner and a contract has been let for any phase of, and work commenced on, such project. In no event shall the State Allocation Board authorize the use of such unsafe facilities for a period extending beyond the completion of the replacement facilities or beyond June 30, 1977, whichever occurs first.

81179. Notwithstanding any other provision of this article or Article 9 (commencing with Section 16310) of Chapter 8 of Part 10 of Division 1 of Title 1, whenever a community college district does

not have funds available to repair, reconstruct, or replace the school buildings referred to in this article or Section 16320, the community college district shall apply for such funds as may be necessary to accomplish such repair, reconstruction, or replacement pursuant to the provisions of Article 9. The school district shall also accept such funds as are disbursed to the district pursuant to Article 9, whether or not the funds constitute the maximum amount applied for, and shall repay such funds in accordance with the provisions of Article 9. In cases in which funds derived from a tax increase levied pursuant to Section 81180 or 81180.1 are utilized to match amounts disbursed to a school district under an apportionment made pursuant to Article 9 (commencing with Section 16310) of Chapter 8 of Part 10 of Division 1 of Title 1, such disbursement and repayment may be made without the necessity of a vote of the electorate of the district as prescribed in any provision of Chapter 8 (commencing with Section 16000) of Part 10 of Division 1 of Title 1.

81180. The governing board of a community college district may undertake corrective measures relating to earthquake safety recommended to the governing board pursuant to Section 81162 in connection with any school building under the jurisdiction of the governing board without compliance with the procedures otherwise prescribed by Section 81167.

The maximum rate of tax of any community college district for the fiscal years 1974-75 to 1976-77, inclusive, is hereby increased by such amount as will produce the amount necessary to have any school buildings examined as required by Section 81162 and to effect the corrective structural repairs, reconstruction or replacement relating to earthquake safety recommended pursuant to Section 81162, as shown by the budget of the district for such school year as finally adopted by the governing board of the district, less any unencumbered balances remaining at the end of the preceding school year derived from revenue from the increase in the rate of tax provided by this section. The funds provided by such increase in the tax rate may be used to provide for the housing of students temporarily displaced by the repair, reconstruction, or replacement of school buildings required in order to meet earthquake safety standards.

The increase provided by this section shall not exceed a total increase of ten cents (\$0.10) for each one hundred dollars (\$100) of the assessed valuation of property within the district in each fiscal year, unless additional funds are specifically required by the district to match the state funds provided pursuant to Article 9 (commencing with Section 16310) of Chapter 8 of Part 10 of Division 1 of Title 1. If such additional funds are required by the district, the maximum increase in tax rate provided by this section may be increased by not to exceed an additional ten cents (\$0.10) for each one hundred dollars (\$100) of assessed valuation of property within the district in each fiscal year such additional funds are required pursuant to Article 9, prior to and including the 1973-74 fiscal year.

Such additional tax money may be levied in the 1974-75 fiscal year only if the State Allocation Board has first approved an application of the district pursuant to Article 9. After the 1974-75 fiscal year, any district which has levied the entire twenty-cent (\$.20) amount permitted by this section in the preceding fiscal year and has deposited in the State School Building Fund of the district, the proceeds derived therefrom as matching funds in an application or applications under Article 9 may levy the same twenty-cent (\$.20) tax or so much thereof as necessary for matching funds for an application or applications under Article 9 in any succeeding fiscal year, including, but not beyond, the 1976-77 fiscal year.

Any balance derived from the revenue of the increase in tax rate levied for matching purposes of Article 9, as herein provided, which is not expended under an application or applications approved pursuant to Article 9 at the completion of the construction project and approval of final costs thereof by the State Allocation Board shall be applied as a repayment of any apportionment heretofore or hereafter outstanding against the district under the provisions of Article 9.

This section shall remain operative only until July 1, 1978, and as of such date is repealed. This section shall remain in effect until such date regardless of the repeal or expiration of former Section 15517.

Notwithstanding the provisions of this section, the governing board shall comply with the provisions of Section 81167 whenever such compliance is necessary to continue the program of corrective structural repairs, reconstruction, or replacement required pursuant to the provisions of this article.

81180.5. Notwithstanding the provisions of Section 81180, a district having an approved application under the provisions of Section 16339.6 may levy a tax at the rate of twenty cents (\$.20) per one hundred dollars (\$100) of assessed valuation for the 1975-76 fiscal year only.

81181. Whenever the geological characteristics of a school site in which any public school building is located is subject to Section 81163, the governing board of the community college district may undertake corrective measures relating to earthquake safety recommended to the governing board pursuant to Section 81162 in connection with any school building under the jurisdiction of the governing board without compliance with the procedures otherwise prescribed by Section 81167.

The maximum rate of tax of any such community college district for the fiscal years 1974-75 and 1975-76 is hereby increased by such amount as will produce the amount necessary to have any school buildings, subject to Section 81163, examined as required by Section 81162 and to effect the corrective structural replacement relating to earthquake safety recommended pursuant to Sections 81162 and 81163, as shown by the budget of the district for such school year as finally adopted by the governing board of the district, less any unencumbered balances remaining at the end of the preceding

school year derived from revenue from the increase in the rate of tax provided by this section. The funds provided by such increase in the tax rate may be used to provide for the housing of students temporarily displaced by the replacement of school buildings required in order to meet earthquake safety standards.

The increase provided by this section shall not exceed a total increase of ten cents (\$.10) for each one hundred dollars (\$100) of the assessed valuation of property within the district in each fiscal year.

If at the end of any school year, there remains an unencumbered balance derived from the revenue of the increase in tax rate hereby provided, such balance may be accumulated until the date specified in this section for the termination of its effect and shall be used exclusively for expenditures of the community college district for purposes of this section.

The increase in tax rate provided by this section shall not be deemed to be in addition to the increase provided by Section 81180. During any period in which both this section and Section 81180 are in effect and operative, this section shall be deemed alternative to Section 81180 in any instance in which both are applicable to any particular factual situation.

This section shall remain in effect until July 1, 1976, and as of that date is repealed. This section shall remain in effect until such date regardless of the repeal or expiration of Section 81180.

Notwithstanding the provisions of this section, the governing board shall comply with the provisions of Section 81167 whenever such compliance is necessary to continue the program of corrective structural repairs, reconstruction, or replacement required pursuant to the provisions of this article.

81182. Any revenue derived from an increase in the rate of tax provided by Section 81180 prior to July 1, 1975, and which is unexpended on that date, may be used after July 1, 1975, by the governing board of a community college district to complete the corrective structural repair, reconstruction, or replacement of any school building subject to Section 81162 which had not been completed on that date.

## CHAPTER 2. PROPERTY—SALE, LEASE, USE, AND EXCHANGE

### Article 1. Conveyances

81300. The governing board of a community college district shall receive in the name of the district conveyances for all property received and purchased by it, and shall make in the name of the district conveyances of all property belonging to the district and sold by it.

81301. The governing board of a community college district shall have the power to execute and deliver quitclaim deeds, either with or without consideration to the owners of real property adjacent to

any real property owned by the district, for the purpose of removing defects in and otherwise clearing up the title to such adjacent real property.

## Article 2. Dedication of Real Property

81310. The governing board of a community college district may, pursuant to this article, dedicate or convey to the state, or any political subdivision or municipal corporation thereof, for public street or highway purposes, either with or without consideration and without a vote of the electors of the district first being taken, any real property belonging to the district, either in fee or any lesser estate or interest therein, including abutter's right of access to any public street or highway; and may dedicate or convey to any public corporation, or private corporation engaged in the public utility business, without a vote of the electors of the district first being taken, an easement to lay, construct, reconstruct, maintain, and operate water, sewer, gas, or storm drain pipes or ditches, electric or telephone lines, and access roads used in connection therewith, over and upon any land belonging to the community college district, upon such terms and conditions as the parties thereto may agree.

81311. Before ordering the dedication or conveyance of any property the governing board shall in regular open meeting by a two-thirds vote of all its members adopt a resolution declaring its intention to dedicate or convey the property. The resolution shall describe the property proposed to be dedicated or conveyed in such manner as to identify it, and shall specify the purposes for which and the terms upon which it will be dedicated or conveyed, and shall fix a time not less than 10 days thereafter for a public meeting of the governing board to be held at its regular place of meeting for a public hearing upon the question of making the dedication or conveyance.

81312. Notice of adoption of the resolution and of the time and place of holding the meeting shall be given by posting copies of the resolution signed by the members of the board, or by a majority thereof, in three public places in the district not less than 10 days before the date of the meeting, and by publishing the notice once not less than five days before the date of the meeting in a newspaper of general circulation, published in the district, if there is one, or, if there is no such newspaper published in the district, then in a newspaper published in the county in which the district or any part thereof is situated and having a general circulation in the district.

81313. At the time and place fixed in the resolution for the meeting of the governing board the public hearing shall be held, and the governing board may at the meeting, or at any other meeting of the governing board held within 60 days thereafter, unless a protest is entered, adopt a resolution by a two-thirds vote of all its members authorizing and directing the president of the governing board, or any other presiding officer, or the secretary, or the members thereof, to execute a deed of dedication or conveyance of the property and

to deliver it. Upon the delivery and acceptance of the deed the dedication or conveyance is fully effective.

81314. A petition protesting against the proposed dedication or conveyance signed by at least 10 percent of the qualified electors of the district, as shown by the affidavit of one of the petitioners, may be filed with the governing board at the meeting held at the time and place fixed in the resolution. If a protest is filed, the governing board shall, before taking any further action on the proposed dedication or conveyance, submit the question of whether the proposed dedication or conveyance should be made, to the superintendent of schools of the county having jurisdiction over the district, whose decision is final. If the superintendent approves the proposed dedication or conveyance, the board may proceed as provided in Section 82533. If the superintendent of schools does not approve the proposed dedication or conveyance, no further proceedings shall be had thereon.

81315. Whenever community college districts are required to improve and dedicate real property to the centerline of streets or highways adjacent to a school site or forming an intersection at a school site location, and when such street or highway rights-of-way are being conveyed to the city or county or by the city or county to the community college district, the requirements of this article shall be deemed satisfied solely by posting a notice of intention to convey in an appropriate location before conveyance.

### Article 3. Leasing School Buildings

81330. Any community college district may enter into leases and agreements relating to real property and buildings to be used by the district pursuant to this article. As used in this article, "building" includes (a) one or more buildings located or to be located on one or more sites; (b) the remodeling of any building located on a site to be leased pursuant to this article; (c) onsite and offsite facilities; utilities or improvements which the governing board determines are necessary for the proper operation or function of the school facilities to be leased. It also includes the permanent improvement of school grounds. As used in this article, "site" includes one or more sites, and also may include any building or buildings located or to be located on a site.

81331. As used in this article "lease or agreement" shall include a lease purchase agreement.

81332. Before the governing board of a community college district enters into a lease or agreement pursuant to this article, it shall have available a site upon which a building to be used by the district may be constructed and shall have complied with the provisions of law relating to the selection and approval of sites, and it shall have prepared and shall have adopted plans and specifications for such building which have been approved pursuant to Sections 81107 to 81109, and Sections 81130 to 81145, inclusive. A district has

a site available for the purposes of this section if it owns a site or if it has an option on a site which allows the community college district or the designee of the district to purchase the site. Any community college district may acquire and pay for an option containing such a provision.

81333. The term of any lease or agreement entered into by a school district pursuant to this article shall not exceed 40 years.

81334. Sections 81360 to 81378, inclusive, shall not apply to leases made pursuant to this article.

81335. The governing board of a community college district may let, at a minimum rental of one dollar (\$1) a year, to any person, firm, or corporation any real property which belongs to the district if the instrument by which such property is let requires the lessee therein to construct on the demised premises, or provide for the construction thereon of, a building or buildings for the use of the community college district during the term thereof, and provides that title to such building shall vest in the community college district at the expiration of such term. Such instrument may provide for the means or methods by which such title shall vest in the community college district prior to the expiration of such term, and shall contain such other terms and conditions as the governing board may deem to be in the best interest of the community college district.

81336. The governing board of a community college district may enter into an agreement with any person, firm, or corporation under which such person, firm, or corporation shall construct, or provide for the construction of, a building to be used by the district upon a designated site and lease such building and site to the district. Such instrument shall provide that the title to such building and site shall vest in the district at the expiration of such lease, and may provide the means or method by which the title to the building and site shall vest in the district prior to the expiration of such lease, and shall contain such other terms and conditions as the governing board of the district deems to be in the best interest of the district.

The agreement entered into shall be with the lowest responsible bidder who shall give such security as the board requires. The board may reject all bids. For the purpose of securing bids the board shall publish at least once a week for two weeks in some newspaper of general circulation published in the district, or if there is no such paper, then in some paper of general circulation circulated in the county, a notice calling for bids, stating the proposed terms of the agreement and the time and place where bids will be opened.

81337. The governing board of a community college district shall call and hold an election, pursuant to Section 81338 or 81341, before or after entering a lease or agreement, as the case may be, except that if the lease or agreement does not affect an increase in the existing applicable maximum tax rate, the election requirements of this section shall not apply.

81338. Before entering into a lease or agreement pursuant to this article, the governing board of the district shall call, hold, and

conduct an election in the manner provided in Section 85112, except that the ballot used in the election shall contain substantially the words: "Shall the governing board of the \_\_\_\_\_ District purchase (a site, sites) prepare plans and specifications, [the reference to the site or sites and plans and specifications shall not be included if, prior to calling the election, the governing board of the district has acquired a site or sites or proposes to lease a site or sites and has prepared plans and specifications] and lease (a site and, sites and) (a building, buildings) to be constructed for use by the community college district [designating the location of the site or sites on which the building or buildings will be constructed and generally describing the building or buildings], and, for such purposes, shall the maximum tax rate of the district be increased by not to exceed \_\_\_\_\_, such increase to be in effect in the \_\_\_\_\_ District for the years 19\_\_ to \_\_\_\_\_, be authorized and the amount of such increase used solely and exclusively for such purposes?"

81339. The governing board of the district, if the district proposes at an election held pursuant to Section 81338 to lease more than one building, may include in the ballot measure used in the election a statement that the district reserves the right to lease less than all of the proposed buildings designated in the ballot measure. If such a statement is included in the ballot measure, the governing board may at any time thereafter determine to not lease one or more of the buildings included in the ballot measure, and such determination shall not breach any obligation of the district to the voters of the district.

81340. An election held pursuant to Section 81338 or Section 81341 shall be held in conjunction with either a statewide primary or general election, or an election date specified in Section 2504 of the Elections Code.

81341. In lieu of calling an election pursuant to Section 81338, the governing board of a school district may call an election pursuant to this section. Within 10 days after the governing board has opened the proposals pursuant to Section 81345 or has adopted a resolution pursuant to Section 81345 it may accept a proposal, if proceeding under Section 81344, and execute the lease or agreement, and immediately thereafter call an election pursuant to this section.

The governing board of the district shall call, hold, and conduct an election in the manner provided in Section 85112 except that the ballot used in the election shall contain substantially the words: "Shall the governing board of the \_\_\_\_\_ District lease [a site (sites) and] a building [buildings] to be constructed for use by the district [designating the location of the site or sites on which the building or buildings will be constructed, and generally describing the building or buildings and the cost thereof], and, for such purposes, shall the maximum tax rate of the district be increased by not to exceed \_\_\_\_\_, such increase to be in effect in the \_\_\_\_\_ District for the years 19\_\_ to \_\_\_\_\_, be authorized and the amount of such increase used solely and exclusively for such purposes?"

81342. If, at the election held pursuant to Section 81338 or Section 81341, a majority of the electors voting on the proposition vote "Yes," the governing board may proceed pursuant to this article.

81342.5. Whenever the electors of a community college district, at an election held pursuant to Section 81338 or 81341, have approved an increase in the maximum tax rate of the district for the purpose of enabling the district to enter into a lease or agreement for a site or building, or both, and before such lease or agreement is entered into, or during the term of such lease or agreement, territory is taken from the district and annexed to or included in another district by any means, the acquiring district shall automatically assume and shall pay to the district from which the territory is transferred a proportionate share of any remaining payments due under the lease or agreement, as such payments become due, for so long as such lease or agreement runs.

The acquiring district's proportionate share shall be in the ratio which the total assessed valuation of taxable property in the transferred territory bore to the total assessed valuation of taxable property in the whole district from which the territory is transferred for the year immediately preceding the date on which the transfer became effective for all purposes.

This section shall be applicable only with respect to transfers of community college district territory which become effective for all purposes after June 4, 1975, and shall be applicable whether the election under Section 81338 or 81341 occurred prior to or after June 4, 1975.

81343. If the governing board of the district fails to enter into a lease pursuant to this article within three years after the result of an election, held pursuant to Section 81338, at which a majority of the votes cast favors the proposition submitted, the authorization for an increase in the maximum tax rate shall become void.

81344. After the governing board of a community college district has complied with Section 81332, it shall, in a regular open meeting, adopt a resolution declaring its intention to enter into a lease or agreement pursuant to this article. The resolution shall describe, in such manner as to identify it, the available site upon which the building to be used by the district shall be constructed, shall generally describe the building to be constructed and state that the building shall be constructed pursuant to the plans and specifications adopted by the governing board therefor, shall, if such is the case, state the minimum yearly rental at which the governing board will lease real property belonging to the district upon which the building is to be constructed, and shall state the maximum number of years for which the community college district will lease the building or site and building, as the case may be, and shall state that the proposals submitted therefor shall designate the amount of rental, which shall be annual, semiannual, or monthly, to be paid by the community college district for the use of the building, or building and site, as the case may be. The resolution shall fix a time, not less than three weeks

thereafter for a public meeting of the governing board to be held at its regular place of meeting, at which sealed proposals to enter such a lease or agreement with the community college district will be received from any person, firm, or corporation, and considered by the governing board. Notice thereof shall be given in the manner provided in Section 81368.

At the time and place fixed in the resolution for the meeting of the governing body, all sealed proposals which have been received shall, in public session, be opened, examined, and declared by the board. Of the proposals submitted which conform to all terms and conditions specified in the resolution of intention to enter a lease or agreement and which are made by responsible bidders, the proposal which calls for the lowest rental shall be finally accepted, or the board shall reject all bids. The board is not required to accept a proposal, or else reject all bids, on the same day as that in which the proposals are opened.

81345. As an alternative to obtaining sealed proposals as required by Sections 81336 and 81344, the governing board may, in a public meeting, adopt a resolution declaring its intention to enter into a lease or agreement pursuant to this article with a nonprofit corporation organized under Part 1 (commencing with Section 9000) of Division 2 of Title 1 of the Corporations Code if the articles of incorporation or bylaws of the nonprofit corporation provide: (1) that no person shall be eligible to serve as a member or director of the nonprofit corporation except a person initially approved by resolution of the governing board of the community college district, and (2) that no part of the net earnings of the nonprofit corporation shall inure to the benefit of any member, private shareholder, individual, person, firm or corporation excepting only the district. The resolution shall describe, in such manner as to identify it, the available site upon which the building to be used by the district shall be constructed, shall generally describe the building to be constructed and state that the building shall be constructed pursuant to the plans and specifications adopted by the governing board therefor, shall, if such is the case, state the minimum yearly rental at which the governing board will lease real property belonging to the district upon which the building is to be constructed, and shall state the maximum number of years for which the community college district will lease the building, or building and site, as the case may be.

Any building constructed by a nonprofit corporation pursuant to a lease or agreement entered into pursuant to this section shall be constructed under a contract awarded to the lowest responsible bidder pursuant to Chapter 3.5 (commencing with Section 4220) of Division 5 of Title 1 of the Government Code. Section 81350 of this code shall apply to such contract.

81346. Any bonds, notes, warrants or other evidences of indebtedness to be issued by a nonprofit corporation to finance the construction of a building pursuant to a lease or agreement entered

into pursuant to Section 81345 shall be sold pursuant to Chapter 10 (commencing with Section 5800) of Division 6 of Title 1 of the Government Code.

81347. All such bonds, notes, warrants or other evidences of indebtedness referred to in Section 81346 and the interest thereon are exempt from all taxation in the state other than inheritance, gift and franchise taxes.

81348. Any building constructed for the use of a community college district pursuant to this article is subject to Sections 81130 to 81145, inclusive.

81349. For the purposes of Sections 15102 and 15106, 50 percent of any remaining payments for use of the building or site and building which would become due from the district under any leases and agreements entered into by the district pursuant to this article, if such leases and agreements were to run their full term, shall be considered outstanding bonded indebtedness.

81350. The governing board of the community college district shall ascertain the general prevailing rate of per diem wages in the locality in which the building is to be constructed for each craft, classification or type of workman needed for the construction of the building and shall specify in the resolution and in the notice, required by Section 81344, or in the resolution required by Section 81345 and in the lease or agreement made pursuant to this article, what the general prevailing rate of per diem wages and the general prevailing rate for holiday and overtime work in the locality is for each craft, classification or type of workmen needed for the construction of the building. The holidays upon which such rate shall be paid need not be specified by the governing board, but shall be all holidays recognized in the collective bargaining agreement applicable to the particular craft, classification or type of workmen employed on the project.

In determining such rates, the governing board shall ascertain and consider the applicable wage rates established by collective bargaining agreements and such rates as may have been predetermined for federal public works, within the locality and in the nearest labor market area. Where such rates do not constitute the rates actually prevailing in the locality, the governing board shall obtain and consider further data from the labor organizations and employers or employer associations concerned, including the recognized collective bargaining representatives for the particular craft, classification or type of work involved. The rate fixed for each craft, classification or type of work shall not be less than the prevailing rate paid in such craft, classification or type of work.

Any agreement or lease entered into pursuant to this article shall require that such general prevailing rates will be paid. It shall also require that work performed by any workman employed upon the project in excess of eight hours during any one calendar day shall be permitted only upon compensation for all hours worked in excess of eight hours per day at not less than 1½ times the basic rate of pay.

There may also be included in leases or agreements entered into pursuant to this article any other requirements with respect to matters related to the subject of this section which the governing board deems necessary or desirable.

81351. The provisions of this article prevail over any provisions of law which conflict therewith.

81352. All acts and proceedings taken prior to August 27, 1974, by or on behalf of any district under this article, or under color of this article, for the authorization of an increase in the maximum tax rate of such district and for the leasing of a building or buildings for the purposes of the district are hereby confirmed, ratified, validated, and declared legally effective. This shall include all acts and proceedings of the governing board of such district and of any person, public officer, board, or agency, heretofore done or taken upon the question of the authorization of such tax rate increase or such leasing. Whenever an election has been called and held prior to the effective date of the enactment of this section, for the purpose of submitting to the voters of any district the question of an increase in the maximum tax rate of such district and for the leasing of a building or buildings for the purposes of the district, such election and all proceedings attendant thereon are hereby confirmed, ratified, validated, and declared to be legally effective for all purposes, and such tax rate increase, if authorized by the required vote and in accordance with the proceedings heretofore taken, shall be a legal and valid authorization, in accordance with its terms, and any tax heretofore or hereafter levied pursuant to such authorization shall be legal and valid. The foregoing provisions of this section shall operate to supply such legislative authorization as may be necessary to validate any such acts and proceedings heretofore taken which the Legislature could have supplied or provided for in this article. The foregoing provisions of this section shall be limited to the validation of acts and proceedings to the extent to which the same can be effectuated under the California and United States Constitutions. The foregoing provisions of this section shall not operate to confirm, ratify, validate, or legalize any act, proceeding, or other matter the legality of which is being contested or inquired into in any legal proceeding now pending and undetermined or which may be pending and undetermined during the period of 30 days from and after the effective date of this section, and shall not operate to confirm, ratify, validate, or legalize any act, proceeding, or other matter which has heretofore been determined in any legal proceeding to be illegal, void, or ineffective.

In any district in which an election was called and held prior to August 27, 1974, in which the voters of such district authorized an increase in the maximum tax rate of such district and the leasing of a building or buildings for the purposes of the district, the law in effect at the date of the district election shall govern the terms of the lease, the terms of the sale of related bonds, notes, and warrants, and the school district's maximum bonded indebtedness.

81353. The governing board of a community college district may enter into an agreement pursuant to this article without complying with Sections 81337 to 81343, inclusive, subject to the following conditions, to be ascertained and approved prior to execution of any lease or agreement, by the Department of Finance:

(a) That the agreement be limited to providing dormitory facilities to be made available to students enrolled in grades 13 and 14 at any community college maintained by the district.

(b) That revenues to be produced from the dormitory facilities will be adequate to meet all of the district's obligations thereunder throughout the term thereof.

(c) That under the entire transaction no lien, charge, or liability is to arise against the State of California, against the governing board of the district, or against any of the property or funds of the state, district or governing board.

81354. (a) This section shall apply only to a community college district in which the electorate authorizes an increase in the maximum tax rate of the district pursuant to the provisions of this article for the lease of one or more schools, and there exists at the time of such election on a site owned by the district a school facility not owned by the district meeting all of the requirements of Article 7 (commencing with Section 81130) of this chapter, which site and school facility are designated and described in the ballot proposition approved by the voters.

(b) Notwithstanding any other provisions of law, a community college district may lease from a California nonprofit corporation such existing school and may pay rentals therefor from funds derived from the increase in the maximum tax rate approved by the voters at such election; provided, further that the purchase price of the school paid by the nonprofit corporation to the owners of the school shall not exceed the actual audited cost of construction thereof including actual interest paid on money borrowed to finance such construction. Prior to the purchase of the school by the nonprofit corporation, an independent certified public accountant shall be retained by the school district to verify the actual cost of construction and any interest paid to finance such construction, and the nonprofit corporation may conclusively rely upon any certificate or opinion setting forth such actual cost of construction and such interest prepared by the independent certified public accountant.

(c) A community college district, the electorate of which, prior to the effective date of this section, authorized an increase in the maximum tax rate in the manner, for the purposes, and under the circumstances specified in subdivision (a), may avail itself of the authority afforded by subdivision (b).

#### Article 4. Sale or Lease of Real Property

81360. The governing board of a community college district may sell any real property belonging to the district or may lease for a term

not exceeding 99 years, any real property, together with any personal property located thereon, belonging to the district which is not or will not be needed by the district for school classroom buildings at the time of delivery of title or possession. The sale or lease may be made without first taking a vote of the electors of the district, and shall be made in the manner provided by this article.

81360.5. The sale of real property pursuant to this article shall be subject to the provisions of Article 8 (commencing with Section 54220) of Chapter 5 of Part 1 of Division 2 of Title 5 of the Government Code.

81361. The governing board of any community college district which has by majority vote established a standard rate or rates for the lease pursuant to this article of its real property may by majority vote delegate to such officer or employee as the governing board may designate, the power to enter into leases, for and in behalf of the district, of any real property of the district, with respect to which real property the district has received only one sealed proposal which conforms with the existing standard rate or rates, from a responsible bidder and no oral bid which would meet the requirements of Section 81371.

81362. The sale may be made for cash, or for part cash and upon such terms of deferred payments secured by purchase money, mortgage, or deed of trust as are determined by the action of the governing board.

81363. The funds derived from the sale or from a lease with an option to purchase shall be used for capital outlay; provided, however, that the proceeds of property sold or leased in accordance with subdivision (a) or (b) of Section 81363.5 may be deposited in the general fund of the district if, prior to such sale or lease, the community college district governing board and the Board of Governors of the California Community Colleges have determined that the district has no anticipated need for additional sites or building construction for the five-year period following such sale or lease.

81363.5. The sale or lease with an option to purchase of real property by a community college district shall be in accordance with the following priorities and procedures.

(a) First, the property shall be offered for park or recreational purposes pursuant to Article 8 (commencing with Section 54220) of Chapter 5 of Part 1 of Division 2 of Title 5 of the Government Code, in any instance in which such article is applicable.

(b) Second, the property shall be offered for sale or lease with an option to purchase, at fair market value;

(1) In writing, to the state, the Regents of the University of California, the Trustees of the California State University and Colleges, the county and city in which the property is situated, and to any public housing authority in the county in which the property is situated; and

(2) By public notice to any public district, public authority, public

agency, public corporation, or any other political subdivision in this state, to the federal government, and to nonprofit charitable corporations organized pursuant to Part 3 (commencing with Section 10200) of Division 2 of Title 1 of the Corporations Code. Public notice shall consist of at least publishing its intention to dispose of the real property in a newspaper of general circulation within the district, or if there is no such newspaper, then in any newspaper of general circulation that is regularly circulated in the district. The notice shall specify that the property is being made available to all public districts, public authorities, public agencies, and other political subdivisions or public corporations in this state, and to other nonprofit charitable corporations.

Publication of notice pursuant to this section shall be once each week for three successive weeks. Three publications in a newspaper regularly published once a week or oftener, with at least five days intervening between the respective publication dates not counting such publication dates, are sufficient. The written notice required by paragraph (1) of this subdivision shall be mailed no later than the date of the second published notice.

The entity desiring to purchase or lease the property shall, within 60 days after the third publication of notice, notify the community college district of its intent to purchase or lease the property. If the entity desiring to purchase or lease the property and the district are unable to arrive at a mutually satisfactory price or lease payment during the 60-day period, the property may be disposed of as otherwise provided in this section. In the event the district receives offers from more than one entity pursuant to this subdivision, the school district governing board may, in its discretion, determine which of such offers to accept.

(c) Fourth, the property may be disposed of in any other manner authorized by law.

81364. Any lease may be made upon such consideration or for such rental, as is authorized by the action of the governing board.

81365. Before ordering the sale or lease of any property the governing board, in a regular open meeting, by a two-thirds vote of all its members, shall adopt a resolution, declaring its intention to sell or lease the property, as the case may be. The resolution shall describe the property proposed to be sold or leased in such manner as to identify it and shall specify the minimum price or rental and the terms upon which it will be sold or leased and the commission, or rate thereof, if any, which the board will pay to a licensed real estate broker out of the minimum price or rental. The resolution shall fix a time not less than three weeks thereafter for a public meeting of the governing board to be held at its regular place of meeting, at which sealed proposals to purchase or lease will be received and considered.

81366. In lieu of the declaration of intention to lease real property provided in Section 81365, the governing board of a community college district having an average daily attendance of 400,000 or

more as shown by the annual report of the county superintendent of schools for the preceding year may publish a notice three times in a period of not less than 15 days in a newspaper of general circulation published in the district. The notice shall describe the property proposed to be leased in such manner as to identify it and shall specify the minimum rental and terms upon which it will be leased. The notice shall fix a time not less than 15 days thereafter for a public meeting of the governing board to be held at its regular place of meeting at which proposal to lease will be received and considered.

The governing board by majority vote may adopt a ruling delegating to such officer or employee of the district as the board may designate, authority to perform the duties prescribed in this section.

Bids received under this section shall be received, accepted, or rejected in accordance with the provisions of this article.

81367. If, in the discretion of the board, it is advisable to offer to pay a commission to a licensed real estate broker who is instrumental in obtaining any proposal, the commission shall be specified in the resolution. No commission shall be paid unless there is contained in or with the sealed proposal or stated in or with the oral bid, which is finally accepted, the name of the licensed real estate broker to whom it is to be paid, and the amount or rate thereof. Any commission shall, however, be paid only out of money received by the board from the sale or rental of the real property.

81368. Notice of the adoption of the resolution and of the time and place of holding the meeting shall be given by posting copies of the resolution signed by the board or by a majority thereof in three public places in the district, not less than 15 days before the date of the meeting, and by publishing the notice not less than once a week for three successive weeks before the meeting in a newspaper of general circulation published in the county in which the district or any part thereof is situated, if any such newspaper is published therein.

81369. Whenever it is proposed to lease real property and the governing board unanimously determines in the resolution that in its opinion, the monthly rental value of the property does not exceed the sum of fifty dollars (\$50), the resolution need not be posted and may, before the date of the meeting, be published in two successive issues of a weekly newspaper or in five successive issues of a daily newspaper. The newspaper in which the notice is published shall be one published in the district and having a general circulation there; or if there is no such newspaper, then one having a general circulation in the district; or if there is no such newspaper, then in one having a general circulation in a county in which the district or any part thereof is situated.

81370. At the time and place fixed in the resolution for the meeting of the governing body, all sealed proposals which have been received shall, in public session, be opened, examined, and declared by the board. Of the proposals submitted which conform to all terms

and conditions specified in the resolution of intention to sell or to lease and which are made by responsible bidders, the proposal which is the highest, after deducting therefrom the commission, if any, to be paid a licensed real estate broker in connection therewith, shall be finally accepted, unless a higher oral bid is accepted or the board rejects all bids.

81371. Before accepting any written proposal, the board shall call for oral bids. If, upon the call for oral bidding, any responsible person offers to purchase the property or to lease the property, as the case may be, upon the terms and conditions specified in the resolution, for a price or rental exceeding by at least 5 percent, the highest written proposal, after deducting the commission, if any, to be paid a licensed real estate broker in connection therewith, then the oral bid which is the highest after deducting any commission to be paid a licensed real estate broker, in connection therewith, which is made by a responsible person, shall be finally accepted. Final acceptance shall not be made, however, until the oral bid is reduced to writing and signed by the offeror.

81372. The governing board by majority vote may adopt a rule delegating to an officer or employee of the district the authority to perform the duties required to be performed by the governing board under Sections 81370 and 81371. If such rule is adopted, the resolution required in Section 81365 shall specify, in lieu of the public meeting of the governing board to be held at its regular place of meeting, the place at which the designated officer or employee will receive and open sealed proposals to purchase or lease and will call for oral bids.

All other provisions of this article not in conflict with the delegation of this authority are applicable. However, the final acceptance of a bid, or rejection of all bids, shall be made by the governing board at a public meeting.

81373. In the event of a sale on a higher oral bid to a purchaser procured by a licensed real estate broker, other than the broker who submitted the highest written proposal, and who is qualified as provided in Section 81367, the board shall allow a commission on the full amount for which the sale is confirmed. One-half of the commission on the amount of the highest written proposal shall be paid to the broker who submitted it, and the balance of the commission on the purchase price to the broker who procured the purchaser to whom the sale was confirmed.

81374. The final acceptance by the governing body may be made either at the same session or at any adjourned session of the same meeting held within the 10 days next following.

81375. The governing body may at the session, if it deems such action to be for the best public interest, reject any and all bids, either written or oral, and withdraw the property from sale or lease.

81376. Any resolution of acceptance of any bid made by the governing body authorizes and directs the president of the governing body, or other presiding officer, or the members thereof, to execute a deed or lease and to deliver it upon performance and

compliance by the purchaser or lessee of all the terms or conditions of his contract to be performed concurrently therewith.

81377. Nothing in Sections 81360 to 81363, inclusive, shall prevent the governing board of a community college district from acquiring, leasing or subleasing property pursuant to Section 1261 of the Military and Veterans Code.

81378. The governing board of a community college district may, without complying with any other provision of this article, let in the name of the district any buildings, grounds, or space therein, together with any personal property located thereon, not needed for school classroom buildings upon such terms and conditions as may be agreed upon by the governing board of the district and the lessee thereof for a period not exceeding five separate or consecutive calendar days or portions thereof in each fiscal year.

81379. In addition to any other authority to lease real property, the governing board of a community college district, by a two-thirds vote of its members, may lease, for a term not exceeding three months, district property having a residence thereon, which cannot be developed for district purposes because of the unavailability of funds. The lease shall be upon such terms and conditions as the parties thereto may agree and may be entered into without complying with any provisions in this code except as provided in this section.

81380. The governing board of a community college district may, with the approval of the county board of supervisors, sell or lease any building of the district together with the site upon which such building is located, without complying with any other provisions of this article, provided that the county board of supervisors finds that all of the following conditions exist:

(a) The sale or lease is to be made to an incorporated nonprofit tax-exempt community or civic organization with a membership comprised predominantly of persons residing in the community in which the building and site are situated.

(b) The building is not suitable for school purposes.

(c) The building has an historic value and its preservation and utilization for the benefit of the community will best be ensured by sale or lease to an organization specified in subdivision (a).

(d) The sale or lease is to be executed for a consideration to inure to the district reflecting the fair market value of the property, or its fair rental value, as the case may be.

(e) Adequate provision has been made in connection with the sale or lease transaction to protect the district against all civil liabilities which might arise in connection with any use of the building and site.

81381. The governing board of a community college district may lease property in an adjoining district for garage, warehouse, or other utility purposes or may purchase property in an adjoining district for such purposes and may dispose of such property in the same manner as property within the boundary of the district is purchased and disposed of.

The power of eminent domain shall not be applicable and such acquisitions by purchase shall be subject to the approval of the governing board of the community college district in which the property is located.

81382. The failure to comply with the provisions of this article shall not invalidate the transfer or conveyance of real property to a purchaser or encumbrancer for value.

#### Article 5. Joint Occupancy

81390. Any community college district may enter into leases and agreements relating to real property and buildings to be used jointly by the district and any private person, firm, or corporation pursuant to this article. As used in this article, "building" includes onsite and offsite facilities, utilities and improvements which as agreed upon by the parties are appropriate for the proper operation or function of the building to be occupied jointly by the district and the private person, firm, or corporation. It also includes the permanent improvement of school grounds.

Nothing in this article shall authorize the joint occupancy or the entry into any contract for the joint occupancy, by a community college district and any other contracting party, of any building utilized in whole or in part for classroom purposes or other purposes involving group participation by students unless such classroom use or student participation is in connection with a voluntary adult education program. Except in connection with a voluntary adult education program, the occupancy of a building utilized for classroom purposes or other purposes involving group participation by students shall be exclusively by the district.

81391. Before the governing board of a community college district enters into a lease or agreement pursuant to this article, it shall own a site upon which a building to be used by the district and private person, firm, or corporation may be constructed and shall have complied with the provisions of law relating to the selection and approval of sites.

81392. The term of any lease or agreement entered into by a community college district pursuant to this article shall not exceed 66 years.

81393. Sections 81360 to 81378, inclusive, shall not apply to leases made pursuant to this article.

81394. The governing board of a community college district may let to any private person, firm, or corporation, any real property which belongs to the district if the instrument by which such property is let requires the lessee therein to construct on the demised premises, or provide for the construction thereon of, a building or buildings for the joint use of the district and the private person, firm, or corporation during the term of the agreement; provided that title to that portion of the building to be occupied by the private individual, firm or corporation shall remain exclusively

the personal property of the private party during the term of the lease and the title to such portion of the building to be occupied by the district shall vest in the district upon completion thereof and acceptance thereof by the district; provided further that no rental fee or other charge for the use of the building shall be paid by the district.

81395. Any lease of real property by a community college district to a private person, firm, or corporation pursuant to this article shall be upon such terms and conditions as the parties thereto may agree and may be entered into without complying with any provisions of this code except as provided in this article; provided, however, that any such lease or agreement shall be subject to the provisions of Article 2 (commencing with Section 72530) of Chapter 5 of Part 45 of this division.

81396. Before entering into a lease or agreement pursuant to this article, the governing board of a community college district shall comply with the provisions of Section 81397.

81397. For the purposes of receiving proposals for the joint occupancy of a building to be constructed on school property, the board shall, in a regular open meeting, adopt a resolution declaring its intention to consider the proposals. The resolution shall describe the proposed site on which the building to be jointly occupied is to be constructed in such a manner as to identify said site, shall specify the intended use of that portion of the building which is to be occupied by the district and shall fix a time not less than 90 days thereafter for a public meeting of the governing board to be held at its regular place of meeting, at which meeting the board shall receive and consider all plans or proposals submitted.

81398. Notice of adoption of the resolution and the time and place of holding the meeting shall be given by publishing the resolution at least once a week for three weeks in a newspaper of general circulation published in the district if there is one, or if none is published in the district, in a newspaper published in the county.

81399. At the time and place fixed in the resolution for the meeting of the governing board, the board shall meet and consider all plans and proposals submitted for the joint occupancy of the building to be constructed on the proposed school site.

81400. After considering all proposals submitted, the governing board of the community college district shall have the authority, subject to the provisions of Section 81401, to select the plan or proposal which best meets the needs of the district and to enter into a contract incorporating that plan or proposal either as submitted or as revised by the district's governing board; provided, however, that the governing board shall not approve any proposal nor enter into a lease or contract incorporating a proposal until the governing board has submitted the proposal to the board of governors, and the board of governors has approved such proposal. The board of governors shall, within 45 days of the date of submission, notify the governing board of its approval or disapproval.

The governing board shall require any person, firm or corporation with whom it enters into a lease or agreement pursuant to this article to file a bond, executed by either two or more good and sufficient sureties or by a corporate surety, for the performance of such lease or agreement.

81401. Any building constructed for the use of a community college district pursuant to this article is subject to Sections 81130 to 81145, inclusive, and all other provisions of this code relating to the physical structure of school buildings.

81402. The provisions of this article prevail over any provisions of law which conflict therewith.

81403. This article shall remain in effect until June 1, 1980, and shall have no force or effect after that date.

#### Article 6. Joint Use, School Property

81420. A community college district may enter into a lease or agreement with a city, county, or city and county for the joint occupancy, or a private education institution for its sole occupancy, of the real property and buildings of the district, provided that no such occupancy of school buildings and grounds shall occur during normal school hours when the school is in session.

81421. As used in this article, "building" includes onsite and offsite facilities, utilities and improvements which as agreed upon by the parties are appropriate for the proper operation or function of the building to be jointly occupied and used. It also includes the permanent improvement of school grounds.

81422. Prior to entering into a lease or agreement pursuant to this article, the community college district governing board shall determine that the proposed joint occupancy and use of district property or buildings will not interfere with the educational program or activities of any school or class conducted upon the real property or in any such building.

81423. No such lease or agreement shall exceed a term of five years, but may be renewed on the same or different conditions at the end of such term.

#### Article 7. Sale or Lease Between Agencies

81430. The governing boards of any community college district may sell, exchange, grant or quitclaim all or any of its interest in, or may lease for a term not exceeding 99 years, to the federal government or its agencies, to the state, or to any county, city and county, city or special district, or to any other school district, any real property belonging to the district, and which is not or will not at the time of delivery of title or possession be needed for school classroom buildings by the district owning it, as provided in this article.

81431. Any sale, exchange, lease or grant of an interest in real property by a community college district pursuant to Section 81430

shall be upon such terms and conditions as the parties thereto may agree and may be entered into without complying with any provisions of this code except as provided in this article.

81432. The board shall not enter into and be a party to any such sale, exchange, or lease unless the following conditions have been met:

(a) A resolution authorizing such action and prescribing the terms of the sale, exchange, or lease has been adopted by the unanimous vote of all the members elected or appointed to the board;

(b) Such resolution has been published in a newspaper published in the district and having a general circulation there; or if there be no such newspaper, then in a newspaper having a general circulation in the district; or, if there is no such newspaper, then in a newspaper having a general circulation in a county in which the district or any part thereof is situated. Notice shall be published no less than once a week for three weeks prior to the making of the sale, exchange, or the execution of the lease by the board.

81433. In any lease made pursuant to this article, it shall be competent to provide that the community college district lessee may purchase the property at an agreed purchase price and that rental paid for the use of the property shall be applied in whole or in part upon the purchase price. The district lessee may cancel the lease at the end of any budgetary year, and in such case shall not be obligated to complete the lease and shall be released from all obligations thereunder.

#### Article 8. Sale or Lease—Personal Property Between Agencies

81440. The governing board of any community college district may sell any personal property or school supplies belonging to the district to the federal government or its agencies, to the state, to any county, city and county, city or special district, or to any other school district and the governing board of another school district may purchase the property, for an amount equal to the cost thereof plus the estimated cost of purchasing, storing, and handling the property, without advertisement for or receipt of bids or compliance with any other provisions of this code. The governing board of any community college district may purchase any personal property or school supplies for the purpose of selling them, pursuant to this section.

81441. The governing board of any community college district may sell or lease used personal property belonging to the district to the federal government or its agencies, to the state, to any county, city and county, city or special district, or to any other school district, and the governing board of another school district may purchase or lease the property. The selling price and the terms of sale, or the lease price and the terms of lease shall be fixed by the governing boards of the community college districts effecting the sale or lease, and approved by the county superintendent of schools. The sale or lease may be made without advertisement for or receipt of bids, or

compliance with any other provisions of this code.

### Article 9. Sale of Personal Property

81450. The governing board of a community college district may sell for cash any personal property belonging to the district if the property is not required for school purposes, or if it should be disposed of for the purpose of replacement, or if it is unsatisfactory or not suitable for school use. There shall be no sale until notice has been given by posting in at least three public places in the district for not less than two weeks, or by publication for at least once a week for a period of not less than two weeks in a newspaper published in the district and having a general circulation there; or if there is no such newspaper, then in a newspaper having a general circulation in the district; or if there is no such newspaper, then in a newspaper having a general circulation in a county in which the district or any part thereof is situated. The board shall sell the property to the highest responsible bidder, or shall reject all bids.

81451. Notwithstanding the provisions of Section 81450, the governing board of a community college district may, with the consent of a county purchasing agent, utilize his services for the sale of personal property, as authorized by Section 25505 of the Government Code.

81452. (a) If the board, by a unanimous vote of those members present, finds that the property does not exceed in value the sum of the five hundred dollars (\$500) it may be sold at private sale without advertising, by any member or employee of the board empowered for that purpose by the majority vote of the board.

(b) If the board, by a unanimous vote of those members present, finds that the property is of insufficient value to defray the costs of arranging a sale, it may be disposed of in the local public dump on order of any member or employee of the board empowered for that purpose by the majority vote of the board.

81453. The money received from the sale shall be placed to the credit of the fund from which the original expenditure for the purchase of the property was made.

81454. The governing board of any community college district may dispose of personal property belonging to the district for the purpose of replacement by providing in the notice calling for bids for furnishing new materials, articles, or supplies that each bidder shall agree in his bid to purchase the property being replaced and to remove it from the school grounds and shall state in his bid the amount which he will deduct from the price bid for furnishing new materials, articles, or supplies as the purchase price for the personal property being purchased from the district. The board shall let the contract to any responsible bidder whose net bid is the lowest, or shall reject all bids.

81455. The governing board of any community college district may enter into contracts with manufacturers or suppliers for the

exchange of household appliances and equipment belonging to the district and used for instructional purposes for new property of like class and kind for a similar use without advertising for or taking bids; provided, the cost to the district for such exchange shall not exceed the excess, if any, of the manufacturer's or supplier's selling price of the new property over the original cost to the district of the property being disposed of by the district, plus any applicable tax.

81456. The governing board of any community college district may, when calling for bids and letting contracts for constructing new school buildings, or repairing, altering, adding to, or reconstructing existing school buildings, or demolishing existing school buildings, require each bidder for the performance of the work to agree in his bid to purchase and to remove from the school grounds all old materials required by the specifications to be removed from any existing school building on the same school grounds and not required for school purposes and to state in his bid the amount which he will deduct from the price bid for the work as the purchase price of the old materials. The board shall let the contract to any responsible bidder whose net bid is the lowest, or shall reject all bids.

81457. The governing board of a community college district may authorize any officer or employee of the district to sell to any pupil personal property of the district which has been fabricated by such student, at the cost to the district of the materials furnished by the district and used therein.

81458. The governing board of a community college district may sell to persons enrolled in classes for adults maintained by the district such materials as may be necessary for the making of articles by such persons in such classes. The materials shall be sold at not less than the cost thereof to the district and any article made therefrom shall be the property of the person making it.

81459. A community college district may, in accordance with regulations adopted by the governing board of the district and for educational use, sell, give, or exchange for similar published materials, published materials prepared by the district in connection with the curricular and special services that the district is authorized to perform. Unless restricted by the regulations of the governing board, the sale or gift may be made to, and the exchange may be made with, any person, political subdivision, public officer or agency, or educational institution. The distribution of the published material in accordance with this section is declared to be a public purpose and in furtherance of Section 1 of Article IX of the California Constitution.

A community college district may also license the use of copyrights held by the district, to the same persons or entities and for the same purposes as provided in the above paragraph.

The district shall grant a license to any public agency organized under the authority of this state, unless an exclusive license has previously been granted a private publisher.

Any charge which may be assessed such a public agency for the

license to use the copyright or for materials, to which the district holds the copyright, shall not exceed the cost to the district of the preparation and reproduction of the materials.

Any granting of a license, by a district, to reproduce copyrighted material is declared to be for a public purpose in furtherance of Section 1 of Article IX of the California Constitution.

81460. Notwithstanding any other provision of law, the governing board of any community college district owning land upon which agricultural products are grown may enter into agreements with an agricultural cooperative or association for the purpose of maintaining, harvesting or selling such products.

#### Article 10. Exchange of Real Property

81470. The governing board of a community college district may exchange any of its real property for real property of another person or private business firm. Any exchange shall be upon such terms and conditions as the parties thereto may agree and may be entered into without complying with any provisions in this code except as provided in this article.

81471. Before ordering any exchange of real property the board shall adopt, by a two-thirds vote of its members, a resolution declaring its intention to exchange the property. The resolution shall describe the properties to be exchanged in such manner as to identify them, and the terms and conditions, not including the price, upon which they will be exchanged.

81472. The board and the other party to the exchange each shall appoint one member of a board of appraisers, and the third member shall be selected by the county superintendent of schools. The governing board and the other party to the exchange shall agree on the compensation of the board of appraisers. The amount for the board's appraiser and one-half of the amount for the appraiser appointed by the county superintendent of schools shall be a legal charge against the funds of the district exchanging the property.

The board of appraisers shall make a report to the parties to the exchange and the county superintendent of schools of its determination of the cash values of the properties proposed to be exchanged. The report may provide for payment by one of the parties to compensate for any difference in appraised values of the properties.

81473. If the county superintendent of schools approves the report of the appraisers and the terms and conditions set forth in the resolution, the governing board shall publish at least once a week for two weeks in a newspaper of general circulation, circulated in the county, the resolution and a notice stating the time and place within the district at which a public meeting of the board will be held to consider the report of the appraisers and the exchange of the real properties described in the resolution.

81474. At the time and place fixed in the published notice, the

board shall meet and consider the report of the appraisers. It then may order the exchange pursuant to the terms and conditions set forth in the resolution and the report of the appraisers.

#### Article 11. Exchange of Property

81480. The governing board of any community college district which has acquired title to property included within an application which has been approved by the State Allocation Board for state school building aid and which property is to be used as an access roadway to such school site may exchange such property for other property to be used as an access roadway which abuts a state highway, if in the opinion of the Division of Highways in the Department of Public Works there is objection to the first access roadway, and if in the opinion of the governing board the property acquired by such exchange will afford more safety to the students of the district.

81481. The governing board of any community college district owning real property or any interest or estate therein, a boundary line of which is uncertain or is in dispute, may, by unanimous vote of all the members elected or appointed to the board and without complying with any provision of this code except as provided in this article, exchange with the owner of the adjoining property, which is involved in the uncertainty or dispute, such portion or interest or estate in such school property for property of equal value of such owner adjacent to the property of the district for the purpose of settling such boundary line uncertainty or dispute. The question of value of the properties to be exchanged shall be determined by a panel of three disinterested and qualified real estate appraisers, one appraiser to be appointed by the governing board of the district, one appraiser to be appointed by the owner of the other property involved in the boundary line question, and the two appraisers so appointed to jointly select a third appraiser. One-half of the fee of each of said appraisers and one-half the fee of any surveyor employed to establish lines in connection with the determination of the boundary line uncertainty or dispute shall be a proper charge against the funds of the district, provided that no such appraiser, including the selection of the other party and the selected third appraiser, or surveyor, shall be employed for any purpose herein authorized unless and until a resolution of intention so to employ is adopted by the governing board of the district, and provided further that said resolution shall contain a statement substantially to the effect that the district shall notify any appraiser or surveyor before being so employed that he may collect only one-half his fee from the district.

#### Article 12. Temporary Transfer of Water Stock

81490. The governing body of any community college district owning shares of stock in a mutual water company, which stock is not

appurtenant to any land, may rent, lease, or assign such shares, for a term not to exceed one year, if the board determines the water to which the district is entitled by ownership of such shares is not required to meet the needs of the district during the term for which it is rented, leased or assigned.

81491. The rental, lease, or assignment of the shares of stock shall be made upon such consideration, and such terms and conditions, as may be fixed by action of the board.

81492. No rental, lease, or assignment of shares of stock shall be made until notice has been given by posting in at least three public places in the district for not less than two weeks, or by publication for a period of not less than two weeks in a newspaper published in the district and having a general circulation there; or if there is no such newspaper, then in a newspaper having a general circulation in the district; or if there is no such newspaper, then in a newspaper having a general circulation in a county in which the district or any part thereof is situated.

#### Article 13. Ownership of Fixtures

81500. When any territory withdrawn from a school district or community college district pursuant to this code contains a school building, site or real property, the building or site, together with the fixtures thereof, shall, upon the withdrawal of the territory becoming effective, become the property of the district of which the territory becomes a part or the whole.

81501. If a dispute arises between the governing boards of the two districts concerned as to what constitutes fixtures, a board of arbitrators shall be appointed who shall determine what articles in a school building located within territory withdrawn from any district are fixtures thereof. The board shall consist of one person selected by the district from which the territory is withdrawn, one person selected by the district of which it has become a part, and a third person appointed by the county superintendent of schools of the county in which the districts are located. The two districts involved may mutually agree that the person appointed as arbitrator by the county superintendent of schools may act as sole arbitrator of the matters to be submitted to arbitration. The necessary expenses and compensation of the arbitrators shall be divided equally between the two districts, and the payment of the portion of the expenses is a legal charge against the funds of the districts. The arbitrator or arbitrators shall proceed to view and examine such property, articles, equipment, and fixtures as they are requested to pass upon by the respective districts and make a written finding as to what property, articles, or equipment constitute fixtures. The written finding and determination of a majority of the board of arbitrators is final and binding upon the districts submitting the question to the board of arbitration.

### Article 14. Leasing for Production of Gas

81510. The governing board of a community college district may, upon complying with the provisions of this article, enter into and be a party to a community lease to which a city or other public agency and one or more private persons or private agencies are also parties for the leasing of the parcels of lands owned by the district and the other parties for the extraction and taking of gas not associated with oil, on such terms and conditions as the governing board of the district may prescribe. Such lease may be entered into without complying with any provisions of this code except as provided in this article.

81511. The board shall not enter into and be a party to any such lease unless the following conditions have been met:

(a) A resolution authorizing such action and prescribing the terms of the lease has been adopted by the unanimous vote of all the members elected or appointed to the board;

(b) Such resolution has been published in a newspaper of general circulation published in the district, or if there be no such newspaper, in a newspaper having a general circulation in the district, once a week for three weeks prior to the execution of the lease by the board.

81512. No well for the production of gas shall be drilled on any land owned by the district and leased pursuant to this article.

### Article 15. Lease and Lease-Purchase of Sites, Buildings, and Facilities

81520. The provisions of this article shall govern the lease or lease-purchase of sites, buildings, and facilities by the governing board of community college district whenever the district is the lessee or purchaser and the lease or lease-purchase is not subject to Section 18 of Article XVI of the California Constitution.

81521. For purposes of this article the following definitions shall govern:

(a) "Temporary-use building" is any building for which the intended use by the district at the time of entering into a lease contract or agreement is not for more than three years from the date of first occupancy.

(b) "Relocatable structure" is any structure that is designed to be relocated.

81522. (a) The governing board of a community college district may lease land for a term extending to the expected duration of use by the district.

(b) Any lease contract or agreement entered into pursuant to this section shall be initiated by resolution authorizing such action and prescribing the terms thereof adopted by vote of a majority of the members of the governing board.

81523. (a) The governing board of a community college district may lease temporary-use buildings for a term extending to the

expected duration of use by the district.

(b) Any lease agreement or contract entered into pursuant to this section shall be initiated by resolution authorizing such action and prescribing the terms thereof adopted by vote of a majority of the members of the governing board.

(c) A governing board of a community college district shall not enter into a lease pursuant to subdivision (a), unless the resolution adopted pursuant to subdivision (b) has been published in a newspaper published in the district and having a general circulation there; or if there is no such newspaper, then in a newspaper having a general circulation in the district; or if there is no such newspaper, then in a newspaper having a general circulation in a county in which the district or any part thereof is situated. Notice shall be published no less than once a week for three weeks prior to the execution of the lease by the board.

(d) Any temporary-use building in which students are expected to enter and which is leased under one, or successive leases, for a total time in excess of three years, or under a lease-purchase contract, shall be subject to the provisions of Article 7 (commencing with Section 81130) and Article 8 (commencing with Section 81160) of this chapter.

81524. Any lease contract or agreement entered into pursuant to Section 81523 shall be subject to the condition that the site on which any temporary-use building is located shall be owned by the district, or shall be under the control of the community college district pursuant to a lease or lease-purchase contract or agreement under the terms of which the land is leased to the district for a term at least as long as the intended use of the building, and under conditions that are compatible with the intended use of the building.

81525. Any lease contract or agreement entered into pursuant to Section 81523 may provide for the joint use and occupancy by any public or private entity.

81526. (a) The governing board of a community college district may lease relocatable structures for a term extending to the expected duration of use by the district, but not to exceed 10 years.

(b) Any lease agreement or contract entered into pursuant to this section shall be initiated by resolution authorizing such action and prescribing the terms thereof adopted by vote of a majority of the members of the governing board.

81527. In any lease made pursuant to Section 81526, it shall be competent to provide that the community college district lessee may purchase the relocatable structure at an agreed purchase price and that rental paid for the use of such structure or building shall be applied in whole or in part upon the purchase price.

81528. Any lease contract or agreement entered into pursuant to Section 81526 shall be subject to the following conditions:

(a) A leased relocatable structure in which students are expected to enter and which is to be used for school purposes for a total time in excess of three years shall be subject to the provisions of Article

7 (commencing with Section 81130) and Article 8 (commencing with Section 81160) of this chapter.

(b) Subdivision (a) of this section shall not apply to trailer coaches used for classrooms or laboratories if such trailer coaches conform to the requirements of Part 2 (commencing with Section 18000) of Division 13 of the Health and Safety Code, and the rules and regulations promulgated thereunder concerning mobilehomes, are not expanded or fitted together with other sections to form one unit greater than 16 feet in width, are used for special educational purposes, and are used by not more than 12 students at a time, except that such trailer coaches may be used by not more than 20 students at a time for driver training purposes.

(c) The site on which a leased relocatable structure is located shall be owned by the community college district, or shall be under the control of the district pursuant to a lease or a permit.

81529. (a) Notwithstanding any other provision of law to the contrary, the governing board of a community college district may designate a building, which is primarily used for other than public school purposes, as an "offsite location" for the purpose of conducting instruction in educational programs as prescribed by the governing board, provided that such educational programs require an "offsite location" in order to adequately fulfill the objective of the educational program.

(b) Any building used as an "offsite location" pursuant to subdivision (a) shall not be subject to Article 7 (commencing with Section 81130) of, or Article 8 (commencing with Section 81160) of, this chapter.

81530. The governing board of a community college district may:

(a) Lease buildings and other facilities such as administrative offices, warehouses, athletic facilities, outdoor assembly facilities, auditoriums, quarters for adult education, transportation facilities, and communication facilities, for a period of not to exceed 12 years.

(b) Lease property from the federal government, the state, or any county, city and county, city, or district for the purpose of constructing school buildings and facilities thereon.

(c) Except as otherwise provided, any building leased for a total time in excess of three years, or under a lease-purchase agreement, shall be deemed the construction or alteration of a school building, as those terms are used in Article 7 (commencing with Section 81130) of this chapter.

81531. Any lease or lease-purchase contract or agreement executed prior to the effective date of this article shall remain in full force and effect. The renewal of such contracts or agreements, however, shall be governed by the provisions of this article.

81532. Notwithstanding any limitations or requirements imposed by this article upon the leasing or renewal of leasing of relocatable structures on and after August 27, 1974, all acts and proceedings heretofore taken by or on behalf of any community college district for the lease of, or the renewal of a lease of, relocatable structures,

including but not limited to trailers, are hereby confirmed, validated and declared to be legally effective and such lease agreements or renewals of such lease agreements are legal, valid and binding obligations if such lease agreements or renewals of such lease agreements would have otherwise been authorized under former Education Code Section 15352 or 15352.5 had such sections not been repealed on August 27, 1974, by Chapter 547 of the Statutes of 1974.

#### Article 16. Leasing of Equipment

81550. A community college district may, as lessee, enter into a lease or lease-purchase agreement for equipment or service systems with any person, firm, corporation or public agency. As used in this article "equipment" includes (1) schoolbuses, (2) other motor vehicles, (3) test materials, educational films, and audiovisual materials, and (4) all other items defined as equipment or service systems in the Community College Budget and Accounting Manual.

81551. Before a lease or lease-purchase agreement may be entered into the lessee shall comply with all applicable provisions for bids and contracts prescribed by Article 3 (commencing with Section 81640) of Chapter 3 of this part. Each contract shall show the total price for an outright purchase of any item and also its total cost for the entire specified term of the contract.

81552. The term of any lease or lease-purchase agreement shall not exceed the estimated useful life of the item but in no event shall the term exceed 10 years. A lease, but not a lease-purchase agreement, may be renewable at the option of the lessee and the lessor, jointly, at the end of each term at a rate not more than 7 percent annually above the rate set pursuant to the existing agreement. In no event shall the combined period of the original lease and renewals or extensions exceed 10 years. Any contract for the lease or lease-purchase of equipment or service systems which was in existence prior to the effective date of this act shall remain in effect and such terms are hereby ratified.

81553. As a lessor, a community college district governing board is authorized to let, or let with option to purchase, any land, buildings, or equipment it determines is not needed for school purposes for a term extending to the end of the expected nonuse of the land, buildings, or equipment and under any conditions it deems reasonable. All such leases and leases with options to purchase to nonpublic agencies or individuals shall comply with the provisions of Sections 81450, 81452, 81453, and 81454.

## CHAPTER 3. MANAGEMENT AND CONTROL OF PROPERTY

## Article 1. General Provisions

81600. The governing board of a community college district shall manage and control school property within its district.

81601. The governing board of a community college district shall furnish, repair, insure against fire, and in its discretion rent the school property of its districts. The governing board may also insure the property against other perils. The insurance shall be written in any admitted insurer, or in any nonadmitted insurer to the extent and subject to the conditions prescribed in Section 1763 of the Insurance Code. Insurance on property of a district may be, in the discretion of the governing board, of the deductible type of coverage. By deductible type of coverage is meant a form of insurance under which the insurance becomes operative when the loss and damage exceeds an amount stipulated in the policy or policies.

The governing board, in their notice of bid for district construction, may indicate that it may elect to assume the cost of fire insurance by adding the coverage to the district's existing policy and in such event bids made on such construction shall be made in the alternative, with and without the fire insurance coverage included, and the governing board shall make its election as to who shall secure and pay for such insurance at the time of accepting the bid. The deductible amount of fire insurance for any community college district may exceed one thousand dollars (\$1,000) for each occurrence.

81602. The governing board of a community college district may, by resolution, establish a fund for losses to district property in the county treasury for the purpose of covering, with respect to district property, the deductible amount under deductible types of insurance policies or losses due to noninsured perils. In the fund shall be placed such sums, to be provided in the budget of the district, as will create an amount which, together with investments made from the fund, will be sufficient in the judgment of the governing board to protect the district from losses on any part of its school property due to the deductible amount under deductible types of insurance policies or losses due to noninsured perils. Nothing in this section shall be construed as prohibiting the governing board from providing protection against losses to district property partly by means of the fund and partly by means of insurance written by admitted insurers as provided in Section 81601.

Annual contributions to the fund shall not exceed one-half of 1 percent of the general fund budget of the community college district or fifty thousand dollars (\$50,000), whichever is the greater.

The fund shall be considered as separate and apart from all other funds of the district, and the balance therein shall not be considered as being part of the working cash of the district in compiling annual budgets or fixing annual tax rates.

Warrants shall not be drawn on or transfers made from the fund so created, except to reimburse or indemnify the community college

district for losses as herein specified, and only upon resolution duly adopted by the board of education.

The cash placed in the fund may be invested and reinvested by the county treasurer, with the advice and consent of the governing board of the district, in securities which are legal investments for surplus county funds in this state. The income derived from such investments, together with interest earned on uninvested funds, shall be considered revenue of and be deposited in the fund.

81603. Nothing in the Education Code shall be construed as prohibiting two or more community college districts subject to Section 81601 from performing the powers prescribed in Section 81602, through a joint powers agreement made pursuant to Article 1 (commencing with Section 6500) of Chapter 5 of Division 7 of Title 1 of the Government Code.

81605. In community college districts situated within or partly within cities having a population of over five hundred thousand (500,000) as determined by the 1920 federal census any board of education may establish a fund in the county treasury for the purpose of covering fire losses to school property in lieu of carrying fire insurance in admitted insurers as provided in Section 81601 of this code. In such fund shall be placed such sums, to be provided in the budget of the district, as will create an amount which, together with investments made from such fund, will be sufficient in the judgment of the board of education upon the advice of competent actuaries to protect such board of education against losses by fire on all or any part of the school property within its jurisdiction. Nothing contained herein shall be construed as prohibiting the board of education from providing protection against fire losses partly by means of such fund and partly by means of fire insurance written by admitted insurers as provided in Section 81601.

Such fund shall be considered as separate and apart from all other funds of the district and the balance therein shall not be considered as being part of the working cash of the district in compiling annual budgets or fixing annual tax rates.

Warrants shall not be drawn on or transfers made from the fund so created except to reimburse the district for losses by fire and then only after resolution duly adopted by the county board of education based upon findings by competent appraisers.

The cash placed in such fund may be invested and reinvested by the county treasurer with the advice and consent of the county board of education in securities which are legal investments for surplus county funds in this state. The income derived from such investments together with interest earned on uninvested funds shall be considered revenue of and be deposited in such fund.

The county treasurer shall make quarterly reports to the county board of education as to the condition of the fund, using as a basis for such report the cost or market value, whichever may be the lower, of the securities held as investments plus the cash in such fund.

81606. The governing board of any community college district

may grade, pave, construct sewers, or otherwise improve streets and other public places in front of real property owned or controlled by it, and also may construct in immediate proximity to any school or site owned or controlled by the district, pedestrian tunnels, overpasses, footbridges, sewers and water pipes when required for school or administrative purposes, may acquire property, easements and rights-of-way for such purpose, and may appropriate money to pay the cost and expense of the improvements, whether made by the board under contract executed by the board, or under contracts made in pursuance of any of the general laws of the state respecting street improvements, or under other contracts made in pursuance of the charter of any county or municipality.

81607. Any provision to the contrary notwithstanding, the governing board of any community college district, with over 50,000 students in average daily attendance during the preceding fiscal year, may construct pedestrian walks, footbridges, and pedestrian tunnels when required for the safety of students attending the schools of the district, may acquire easements and rights-of-way for such purposes, and may appropriate money to acquire such easements and rights-of-way and to pay the cost and expense of the improvements, whether made by the board under contract executed by the board, or under contracts made in pursuance of any of the general laws of the state respecting street improvements, or under other contracts made in pursuance of the charter of any county or municipality. Such pedestrian walks, footbridges, and pedestrian tunnels shall be constructed, and such easements or rights-of-way for such purposes shall be acquired, within one mile of the school for the students of which such walks, bridges, and tunnels are necessary.

81608. The governing board of any community college district may install and maintain a lighting system in any underpass in the vicinity of a schoolhouse.

81609. The governing board of any community college district may appropriate money to pay assessments, for the improvement of streets or other public places, levied against any real property owned by, or under the control of, the board, when the property is included within an assessment district formed in pursuance of any general law of the state or under the charter of any municipality. The assessments may be paid out of any funds belonging to the district, except funds derived from the sale of bonds or required by law to be used for teachers' salaries.

81610. The governing board of every community college district shall provide a warm, healthful place in which students who bring their own lunches to school may eat the lunches.

81610.5. The governing board of a community college district may construct a mobilehome site on the grounds of any school or schools maintained by the district, including all necessary appurtenances and fixtures, and may pay the cost of utilities, insurance, and necessary services, for the purpose of enabling a responsible person or persons to install and occupy a mobilehome on

such site. Such person or persons, who need not be classified as employees of the district, shall, in return for being permitted to install and occupy a mobilehome on the school site on terms and conditions acceptable to the governing board, agree to maintain any surveillance over the school grounds as the school district governing board requires, and to report to school authorities illegal or suspicious activities that are observed.

81611. The governing board of any community college district, when leasing a building for housing of district employees, may lease such building for any period they deem necessary.

81612. The governing board of every community college district shall provide, as an integral part of each school building, or as part of at least one building of a group of separate buildings, sufficient patent flush water closets for the use of the students. In districts where the water supply is inadequate, chemical water closets may be substituted for patent flush water closets by the board.

This section shall apply to all buildings existing on September 19, 1947, or constructed after such date.

81613. In addition to the other powers granted the governing board of each community college district may provide sewers and drains adequate to treat and/or dispose of sewage and drainage on or away from each school property. For this purpose it may construct adequate systems or acquire adequate disposal rights in systems constructed or to be constructed by others for these purposes without regard to their proximity. The cost thereof may be paid from the building fund, including any bond moneys therein.

81614. The governing board of each community college district shall provide for the annual cleaning, sterilizing, and necessary repair of football equipment of their respective community colleges pursuant to Sections 81614 to 81616, inclusive.

81615. All football equipment actually worn by students shall be cleaned and sterilized at least once a year. Football equipment used in spring training shall be cleaned and sterilized before it is used in the succeeding fall term.

81616. Any contract with a dealer or craftsman for the repair of football equipment belonging to the community college district shall specifically state or describe the materials to be used by the dealer or craftsman in repairing such equipment.

## Article 2. Duties of District Clerks

81630. The clerk of each community college district shall, under the direction of the governing board, keep the schoolhouses in repair during the time school is taught therein, and exercise a general care and supervision over the school premises and property during the vacations of the school.

## Article 3. Contracts

81640. The governing board of any community college district shall let any contracts involving an expenditure of more than five thousand dollars (\$5,000) for work to be done or more than eight thousand dollars (\$8,000) for materials or supplies to be furnished, sold, or leased to the district, to the lowest responsible bidder who shall give such security as the board requires, or else reject all bids. This section applies to all materials and supplies whether patented or otherwise.

81641. For the purpose of securing bids the community college board shall publish at least once a week for two weeks in some newspaper of general circulation published in the district, or if there is no such paper, then in some newspaper of general circulation, circulated in the county a notice calling for bids, stating the work to be done or materials or supplies to be furnished and the time when and the place where bids will be opened. Whether or not bids are opened exactly at the time fixed in the public notice for opening bids, a bid shall not be received after that time.

81642. Notwithstanding any other provisions of Sections 81640 to 81654, inclusive, the governing board of any community college district without advertising for bids may authorize by contract, lease, requisition or purchase order, any public corporation or agency within the county whose superintendent of schools has jurisdiction over such district, to lease data processing equipment, purchase materials, supplies, equipment, automotive vehicles, tractors and other personal property for the district in the manner in which such other public corporation or agency is authorized by law to make such leases or purchases. Upon receipt of any such personal property, provided the same complies with the specifications set forth in the contract, lease, requisition or purchase order, the community college district shall draw a warrant in favor of such other public corporation or agency for the amount of the approved invoice, including the reasonable costs to such other public corporation or agency for furnishing the services incidental to the lease or purchase of such personal property.

81643. Nothing in this code shall preclude the governing board of any community college district from purchasing materials, equipment or supplies through the Department of General Services pursuant to Government Code Section 14814.

81644. Continuing contracts for work to be done, services to be performed, or for apparatus or equipment to be furnished, sold, built, installed, or repaired for the district, or for materials or supplies to be furnished or sold to the district may be made with an accepted vendor as follows: for work or services, or for apparatus or equipment, not to exceed five years; for materials or supplies, not to exceed three years.

81645. Continuing contracts for the lease of electronic data-processing systems may be made with an acceptable lessor until

the governing board of the community college district determines that it is in the best interests of that district to replace the present electronic data-processing systems. The governing board may make such contracts with an acceptable lessor who is one of the three lowest responsible bidders.

81646. Notwithstanding any other provision of law, including Chapter 6 (commencing with Section 10500) of Part 7 of Division 1 of Title 1, or Section 88003, the governing board of any community college district may contract for electromechanical or electronic data-processing work to be done or related services to be performed by a vendor or lessor acceptable to the board. Contracts for electromechanical or electronic data processing that are entered into pursuant to this section shall be subject to Sections 81640 and 81641 if any such contract involves an expenditure of funds for either work to be done or materials or supplies to be furnished, sold, or leased in a dollar amount greater than that provided in Section 81640.

81647. Nothing contained in this article shall be construed to limit the authority of any community college district to contract for electromechanical or electronic data-processing work to be done or related services to be performed with any other public agency pursuant to the provisions of Article 1 (commencing with Section 6500) of Chapter 5 of Division 7 of Title 1 of the Government Code or Section 11000 or 11001 of this code.

81648. In an emergency when any repairs, alterations, work or improvement is necessary to permit the continuance of existing school classes, or to avoid danger to life or property, the board may by unanimous vote, with the approval of the county superintendent of schools, make a contract in writing or otherwise on behalf of the district for the performance of labor and furnishing of materials or supplies for the purpose without advertising for or inviting bids.

81649. In each community college district, the governing board may make repairs, alterations or additions to school buildings, repair or build apparatus or equipment, make improvements on the school grounds, and erect new buildings by day labor, or by force account, whenever the total cost of labor on the job does not exceed three thousand five hundred dollars (\$3,500) or the total number of hours on the job does not exceed 350 hours, whichever is greater, provided that in any district situated wholly or partly within a city containing a population of over 1,900,000 according to the 1950 federal census, the governing board may, in addition, make repairs to school buildings, grounds, apparatus, or equipment by day labor or by force account whenever the total cost of labor on the job does not exceed three thousand dollars (\$3,000) or the total number of hours on the job does not exceed 750 hours, whichever is greater.

For purposes of this section, day labor shall include the use of maintenance men, whether employed on a permanent or temporary basis.

81650. The governing board of any community college district defined hereafter, in addition to any other authority granted by law,

may employ as classified employees, in accordance with rules and regulations established by the personnel commission, any certificated employees of the district or districts during vacation periods, or on any other day or days when the certificated employee is not required to perform services for the district, to repair or build apparatus or equipment related to their duties as certificated employees even though the total cost of labor exceeds one thousand dollars (\$1,000). This section applies only when the average daily attendance of any school district, or of two or more school districts governed by governing boards of identical personnel, is 400,000 or more, as shown by the annual report of the county superintendent of schools for the preceding school year.

81651. The governing board of any community college district may purchase supplementary textbooks, library books, and educational films, audiovisual materials, test materials, or workbooks in any amount needed for the operation of the schools of the district without taking estimates or advertising for bids.

81652. Notwithstanding any limitations imposed by this article specifically with respect to electromechanical or electronic data-processing work to be done or related services to be performed, the governing board of a district, the boundaries of which are coterminous with those of the City and County of San Francisco, may contract for such work to be done or related services to be performed, without regard to such limitations.

81653. The governing board of any community college district may purchase from the federal government or any agency thereof any surplus property, as defined in the Surplus Property Act of 1944, in any amount needed for the operation of the schools of the district without taking estimates or advertising for bids.

81654. The governing board of any community college district shall determine the method of payment for construction contracts, including progress payments for completed portions of the work or for materials delivered on the ground or stored subject to the control of the board and unused.

81655. Wherever in this code the power to contract is invested in the governing board of the community college district or any member thereof, such power may by a majority vote of the board be delegated to its district superintendent, or to such persons as he may designate, or if there be no district superintendent then to such other officer or employee of the district as the board may designate. Such delegation of power may be limited as to time, money or subject matter or may be a blanket authorization in advance of its exercise, all as the governing board may direct; provided, however, that no contract made pursuant to such delegation and authorization shall be valid or constitute an enforceable obligation against the district unless and until the same shall have been approved or ratified by the governing board, said approval or ratification to be evidenced by a motion of said board duly passed and adopted. In the event of malfeasance in office, the district official invested by the governing

board with such power of contract shall be personally liable to the district employing him for any and all moneys of the district paid out as a result of such malfeasance.

81656. The governing board by majority vote may adopt a rule, delegating to such officer or employee of the district as the board may designate, the authority to purchase supplies, materials, apparatus and equipment. No such rule shall authorize any officer or employee to make any purchases involving an expenditure by the district of ten thousand dollars (\$10,000) or more. The rule shall prescribe the limits of the delegation as to time, money, and subject matter. All transactions entered into by such officer or employee shall be reviewed by the governing board every 60 days.

In the event of malfeasance in office, the community college district officer or employee invested by the governing board with the power to contract shall be personally liable for any and all moneys of the district paid out as a result of such malfeasance.

81657. The governing board of any community college district with an average daily attendance of not less than 60,000 may by majority vote authorize its district superintendent, or such person as he may designate, to expend up to one hundred dollars (\$100) per transaction for work done, compensation for employees or consultants, and purchases of equipment, supplies, or materials. Ratification by the governing board shall not be required with respect to transactions entered into pursuant to this section. In the event of malfeasance in office, the district official invested by the governing board with authority to act under this section shall be personally liable for any and all moneys of the district paid out as a result of such malfeasance.

81658. If any change or alteration of a contract governed by the provisions of this article is ordered by the governing board of the community college district, such change or alteration shall be specified in writing and the cost agreed upon between the governing board and the contractor. The board may authorize the contractor to proceed with performance of the change or alteration without the formality of securing bids, if the cost so agreed upon does not exceed the greater of:

(a) The amount specified in Section 81640 or 81649, whichever is applicable to the original contract; or

(b) Ten percent (10%) of the original contract price.

The governing board of any community college district, or of two or more districts governed by governing boards of identical personnel, having an average daily attendance of 400,000 or more as shown by the annual report of the county superintendent of schools for the preceding year, may also authorize any change or alteration of a contract for reconstruction or rehabilitation work other than for the construction of new buildings or other new structures, where the cost of the change or alteration is in excess of the limitations in subdivisions (a) and (b) but does not exceed 25 percent of the original contract price, without the formality of securing bids, when

such change or alteration is a necessary and integral part of the work under the contract and the taking of bids would delay the completion of the contract. Changes exceeding 15 percent of the original contract price shall be approved by an affirmative vote of not less than 75 percent of the members of the governing board.

#### Article 4. Community College Property

81670. The governing board of any community college district, when in its judgment necessity therefor exists, may construct and maintain dormitories in connection with any community college within the district for use and occupancy by students in attendance at the community college, and shall fix the rates to be charged the students for quarters in the dormitories.

81671. Moneys received by a district from rental of quarters in dormitories constructed with moneys derived from the sale of bonds may, in lieu of being deposited in the county treasury to the credit of the general fund of the district, be deposited in the county treasury to the credit of the interest and sinking fund of the district.

81672. If satisfactory quarters in a suitable location are offered at a rental which makes it advisable to accept them, the governing board of the community college may lease the quarters for a period not to exceed three years.

At the expiration of the lease or other arrangement, the board may continue to renew said lease or other arrangement, for a period not to exceed three years and may continue to renew for periods not to exceed three years as long as the facilities are needed.

81673. Whenever the cafeteria in any community college is used as a laboratory or classroom for the quantity preparation of food, the governing board may make such financial and administrative arrangements as it may see fit to cover the use of the cafeteria as a laboratory or classroom and the disposition or sale of the food prepared.

81674. The governing board of any community college district may construct and maintain student centers, student union or activity buildings or facilities, vehicle parking facilities, health service facilities, bookstores or other auxiliary facilities for use by students or faculty members of the community college or employees of the district.

81675. Notwithstanding any of the provisions of Article 4 (commencing with Section 81360) of Chapter 2 of this part to the contrary, the governing board of any community college district may lease real property owned by the district to a student body organization established pursuant to Section 76060, upon such terms and conditions as the board may determine, for use as a student center, student union or activity building or facility, food service facility, health service facility, bookstore or any combination of such facilities. Such a student body organization may agree to lease real property pursuant to this section. .

81676. The governing board of any community college district may establish a bookstore on district property for the purpose of offering for sale textbooks, supplementary textbooks, school supplies, stationery supplies, confectionary items, and related auxiliary school supplies and services.

The governing board may establish a bookstore fund into which the proceeds derived from the operation of a community college bookstore may be transferred. Moneys in a bookstore fund shall be deposited or invested in one or more of the following ways:

(a) Deposits in a bank or banks whose accounts are insured by the Federal Deposit Insurance Corporation.

(b) Investment certificates or withdrawable shares in state-chartered savings and loan associations and savings accounts of federal savings and loan associations provided such associations are doing business in this state and have their accounts insured by the Federal Savings and Loan Insurance Corporation.

(c) Purchase of United States securities pursuant to subdivision (a) of Section 16430 of the Government Code.

The governing board shall designate an employee or official of the district to act as trustee for funds derived from the operation of a community college bookstore and to receive such funds in accordance with procedures established by the board. Any person who is employed in a bookstore maintained by a community college pursuant to this section is a member of the classified service of the district in accordance with Section 88020. In the case of a person who, immediately preceding becoming a member of the classified service of a school district pursuant to this section, was employed, other than as a student or substitute employee, in a community college bookstore maintained by a student body organization pursuant to Section 81675, such prior service shall, for all purposes, be deemed service in the classified service of the employing community college district. All necessary expenses, including salaries, wages and costs of capital improvements, may be deducted from the revenue of a community college bookstore. Net proceeds from the operation of a community college bookstore shall be used for the general benefit of the student body as determined by the governing board. Money may be expended for services and property, including, but not limited to, parking facilities, stadia, student centers, student unions, health centers, bookstores or auxiliary facilities for use of students or faculty members of the community college or employees of the district. Funds derived from the operation of a community college bookstore shall be subject to audit pursuant to Section 84040.

81677. The governing board of any community college district may establish and operate a fire department upon any community college campus governed by it and located wholly outside any city, fire protection district or other local agency which provides fire protection service. No such fire department shall be established until the board has first received approval in writing from the local agency formation commission for the county in which all or the major

portion of such campus is located.

The board of trustees of any district within which the fire department is established pursuant to this section may enter into mutual aid agreements with other governmental agencies providing fire protection, and may contract with owners or occupants of property within the vicinity of the campus on which such department is located for fire protection service, but only during such time as such property is not within the territory of any city, fire protection district or other local agency which provides fire protection service.

Any fire department established pursuant to this section may be continued notwithstanding the subsequent annexation of any portion of the campus on which it is located to any city, fire protection district or other local agency providing fire protection service. As used in this section, the operation of a fire department shall be deemed to include the maintenance and operation of ambulances and rescue and first aid services.

During the time any department is operated pursuant to this section, the board may on behalf of its fire department maintain membership in any local, state or national group or association organized or operated for the promotion or the preservation of life and property from the hazards of fire and panic.

81678. The governing board of any community college district in the City and County of San Francisco may lease buildings and other facilities in the City and County of San Francisco which meet the requirements of Article 8 (commencing with Section 81160) of Chapter 1 of this part, relating to the examination of the structural conditions of such buildings or facilities, for a period of not to exceed 12 years, and with an option to renew such lease for a period of not to exceed 12 years.

#### CHAPTER 4. COMMUNITY COLLEGE CONSTRUCTION ACT OF 1967

##### Article 1. Definitions and General Provisions

81800. This chapter may be cited as the Community College Construction Act of 1967.

81801. As used in this chapter, the term "community college" shall mean grades 13 and 14 of a community college; and the term "community college district" shall mean any community college district.

81802. As used in this chapter, the term "project" means the purpose for which a community college district has applied for assistance under this chapter for one or more institutions under its authority or for districtwide facilities. A project may include the acquisition and improvement of community college sites, the planning, construction, reconstruction, or remodeling of any permanent structure necessary for use as a classroom, laboratory, library, related facilities necessary for the instruction of students or

for administration of the educational program, maintenance or utility facilities essential to the operation of the foregoing facilities, and the initial acquisition of equipment. A project shall not include the planning or construction of dormitories, student centers other than cafeterias, stadia, the improvement of site for student or staff parking, or single-purpose auditoriums.

81803. As used in this chapter, the term "weekly student contact hours" means the product of the number of students and the scheduled class periods in which they are enrolled, in graded and ungraded community college classes convened prior to 10 o'clock p.m. during a census week. A class period is not less than 50 minutes and not more than 60 minutes.

81804. As used in this chapter, "chancellor" means the Chancellor of the California Community Colleges.

81805. This chapter shall be administered by the chancellor, and for purposes of such administration the board of governors may adopt all necessary rules and regulations.

For purposes of this chapter, the chancellor shall assemble statewide data on facility and construction costs, and on the basis thereof formulate cost standards and construction standards. The formulation of standards shall include also the formulation of average ratios of equipment cost to total project costs, unit equipment costs per faculty or other staff measure, and unit costs as related to floor areas.

81806. Any action of the chancellor in administering this chapter may be appealed to the Board of Governors of the California Community Colleges by the governing board of an affected community college district. The appeal shall be placed on the agenda of the board in accordance with the general agenda practices of the board. The decision of the board on such appeals shall be final.

81807. Funds appropriated for a project of a community college district for purposes of this chapter shall be allocated and disbursed upon order of the chancellor, and by warrants of the State Controller issued pursuant thereto.

81808. In the event an existing community college district is included in a newly formed community college district, any unused funds appropriated or authorized to be appropriated for a finally approved project of the included district pursuant to this chapter shall be transferred to the newly formed or including community college district on the date that such district is effective for all purposes, or prior to such effective date where the governing boards of the districts agree to such earlier transfer.

81809. Upon completion of a project the governing board of the community college district shall submit to the chancellor a final report on all expenditures in connection with the project and the sources of the funds expended.

**Article 2. Plans for Capital Construction**

81820. On or before November 1, 1967, the governing board of each community college district shall prepare and submit to the chancellor a plan for capital construction for community college purposes of the district for the 10-year period commencing with that date. After January 1, 1975, the plan shall reflect capital construction for community college purposes of the district for the five-year period commencing with the next proposed year of funding. The plan shall be subject to continuing review by the governing board and each year shall be extended one year, and there shall be submitted to the chancellor, on or before the first day of November in each succeeding year, a report outlining the required modifications or changes, if any, in the plan.

81821. The plan for capital construction shall set out the estimated capital construction needs of the district with reference to elements including at least all of the following:

(a) The plans of the district concerning its future academic programs, and the effect on estimated construction needs which may arise because of particular courses of instruction or subject matter areas to be emphasized.

(b) The enrollment projections for each district formulated by the Department of Finance, expressed in terms of weekly student contact hours. The enrollment projections for each individual college within a district shall be made cooperatively by the Department of Finance and the community college district.

(c) The current enrollment capacity of the district expressed in terms of weekly student contact hours and based upon the space and utilization standards for community college classrooms and laboratories adopted by the board of governors.

(d) District office, library and supporting facility capacities as derived from the physical plant standards for office, library and supporting facilities adopted by the board of governors.

(e) An annual inventory of all facilities of the district using standard definitions, forms, and instructions adopted by the board of governors.

81822. The chancellor shall, on or before March 1, 1968, review, and evaluate the plan for capital construction submitted by the governing board of each community college district in terms of the elements of the capital construction program specified in Section 81821, and shall, on the basis of such review and evaluation, make such revision and changes therein as are appropriate, and approve the same. A similar review and evaluation of continuing five-year plans for capital construction submitted by the governing board of each district maintaining a community college shall be made on or before each succeeding first day of December. The chancellor shall, promptly after such approval, notify the governing board of each community college district of the approved form and content of the district's plan for capital construction.

### Article 3. Project Proposals and Approvals

81830. Any community college district may submit to the chancellor for review and approval a proposed project. The proposed project shall be an element of the district's plan for capital construction. It shall be in such form and contain such detail, pursuant to rules and regulations of the board of governors, as will permit its evaluation and approval with reference to the elements of the capital construction program specified in Section 81821.

81831. The chancellor shall review and evaluate each proposed project with reference to the elements of the capital construction program specified in Section 81821, and if he approves the same, shall transmit the approved proposed project to the Department of Finance not later than April 1, 1968, and April 1st of each year thereafter. A proposed project not approved shall be returned to the governing board of the community college district with recommendations concerning changes deemed necessary by the chancellor.

81832. The Department of Finance shall review, evaluate, and approve proposed project submitted to it by the chancellor. The review and evaluation shall be directed particularly to ascertaining whether the proposed project is of appropriate size, is appropriately timed and is justified in terms of the elements of the capital construction program specified in Section 81821. Any proposed project which is not approved shall be returned to the governing board of the community college district with recommendations deemed necessary by the Department of Finance.

81833. A proposed project submitted by the governing board of a community college district to the chancellor pursuant to Section 81830 prior to the 15th day of January 1968, and of each year thereafter, shall be finally acted upon by the chancellor pursuant to Section 81831 on or before the next succeeding first day of April 1968, and each year thereafter. A proposed project submitted to the Department of Finance pursuant to Section 81831, shall be finally acted upon by the department pursuant to Section 81832 on or before the first day of July 1968, and each year thereafter.

81834. Upon securing approval of a proposed project pursuant to Sections 81831 and 81832, the governing board of a community college may submit to the chancellor for approval preliminary plans for the project. In order that a project shall be eligible for inclusion in the budget and the Budget Bill submitted to the Legislature by the Governor at each regular session of the Legislature, the preliminary plans for the project shall be submitted by the governing board of the district to the chancellor prior to the first day of October each year preceding the commencement of such regular session.

Preliminary plans for a project shall include outline specifications, and drawings, and all other data and information necessary to determine detailed estimates of cost.

In the event that the governing board of a community college

district has decided to submit a request for funds for working drawings only, in the first fiscal year, it may submit initial preliminary plans based upon the program for the project and include drawings and all other data necessary to show location, function, scope, and approximate cost.

81835. The chancellor shall review and evaluate preliminary plans for a project and shall either finally approve or disapprove the same on or before the 15th day of November each year following the date of their submission by the governing board of the district. Following the review and evaluation, approved preliminary plans for a project shall be transmitted to the Department of Finance not later than the 15th day of November each year. Preliminary plans not receiving approval may be returned to the governing board of the community college submitting them.

For purposes of this section, the chancellor shall have the authority to confer with and advise the governing board of a community college district or the representatives of such board and to effect modifications and alterations in preliminary plans for a project.

81836. The chancellor shall:

(a) Advise the governing board of each community college district on the acquisition of new college sites, and, after a review of available plots, give the governing board of the district in writing a list of the approved locations in the order of their merit, considering especially the matters of educational merit, reduction of traffic hazards, and conformity to the organized regional plans as presented in the master plan of the planning commission having jurisdiction, and charge the governing board of the community college district a fee of twenty-five dollars (\$25) for each 10 acres or fraction thereof of school site reviewed.

(b) Establish standards for community college facilities.

(c) Review all plans and specifications for all construction in every community college district required to submit plans and specifications therefor to it for approval.

The chancellor's office shall charge community college districts for the review of plans and specifications, a fee of one-seventh of 1 percent of the estimated cost determined by the chancellor's office except for those projects intended to be funded totally with district funds in which case a fee of one-twentieth of 1 percent will be charged. The minimum fee in any case shall be ten dollars (\$10).

(d) Approve plans and specifications submitted by governing boards of community college districts, and return without approval and with recommendation for changes, any plans not conforming to established standards.

(e) Make, upon the request of the governing board of any community college district, except a city board of education, a survey of the building needs of the district, advise the governing board concerning the building needs, suggest plans for financing a building program to meet the needs, and collect the cost of the survey, exclusive of the salaries of the state employees participating therein,

from the district.

(f) Employ experts, and clerical and stenographic assistants as may be required for expediting the checking and approving of plans and specifications.

81837. The governing board of each community college district, except districts governed by a city board of education, before letting any contract or contracts totaling ten thousand dollars (\$10,000) or more, for the erection of any new community college facility, or for any addition to, or alteration of, an existing community college facility, shall submit plans therefor to the chancellor's office, and obtain the written approval of the plans by the office. No contract for construction made by any governing board of a community college district contrary to the provisions of this section is valid, nor shall any public money be paid for erecting, adding to, or altering any facility in contravention of this section.

81838. The review and evaluation of preliminary plans for a project by the chancellor shall include the following elements:

(a) An architectural analysis to determine costs of the various phases of the project, with particular attention to be directed to the type of construction, unit costs, and the efficiency of particular buildings and facilities in terms of effective utilization of area.

(b) Determining the amount of federal funds available for the project, and taking appropriate measures to ensure that the project will qualify for the maximum amounts of federal funds practicable under the circumstances.

"Federal funds" means any construction and equipment moneys provided by the federal government to a community college district for the project or any part of the project, which are or will be available to the district for the project.

(c) Determining the total cost of the project, reducing the same by the amount of federal funds available therefor, and determining the respective shares of the remainder thereof to be borne by the state and by the district. The determination of the respective shares of the project to be borne by the state and the district shall be made on the basis of the relative district ability. If the relative district ability is one (1), the state and district shall share the cost equally; if the relative district ability is less than one (1) the state shall bear more of the cost than the district; and if the relative district ability is greater than one (1), the state shall bear less of the cost than the district.

"Relative district ability" is the quotient obtained by dividing (1) the assessed valuation of the district for the academic year in which an application for a project is submitted to the chancellor, divided by the annual average weekly student contact hours in the district for the same academic year, by (2) the total of assessed valuation for all community college districts in the state for the same academic year, divided by the total annual average weekly student contact hours in all community college districts of the state for the same academic year.

(d) Determining the total of funds immediately required for the first phase of the project to be provided by the state by appropriation, and the funds immediately required to be provided by the district.

81839. Notwithstanding Section 81838, the relative district ability of a community college district formed after June 30, 1964, from territory other than that which included a unified or high school district which maintained a community college, or a community college district, shall be computed according to one of the following: (1) for a district which became effective for all purposes between June 30, 1964, and June 30, 1967, by dividing the 1968–1969 assessed valuation of the district by the 1974–1975 projected enrolled weekly student contact hours of the district, or (2) for a district which became effective for all purposes between July 1, 1967, inclusive, and June 30, 1969, the lesser dividend of the 1968–1969 assessed valuation of the district divided by the 1975–1976 projected enrolled weekly student contact hours of the district, or the projected enrolled weekly student contact hours of the district five years from the semester or quarter during which day classes are first offered, or (3) for a district which becomes effective for all purposes after June 30, 1969, by dividing the assessed valuation of the district by the projected enrolled weekly student contact hours of the district five years from the semester or quarter during which day classes are first offered.

Relative district ability shall be computed pursuant to Section 20081 for fiscal year 1975–1976 and each year thereafter for a district which became effective for all purposes between June 30, 1964, and June 30, 1967, and for the sixth fiscal year after day classes are first offered and each year thereafter for a district which became effective for all purposes on July 1, 1967, inclusive and thereafter.

The projected enrolled weekly student contact hours for purposes of this section shall be determined by the Department of Finance in cooperation with the Board of Governors of the California Community Colleges and the community college district affected.

Expenditures made by a district during the 1969–1970 fiscal year for projects approved or approvable pursuant to Chapter 4 (commencing with Section 81800) of this part which exceeds that required for local expenditure for such projects by the matching ratio established by provisions of this section shall be allowed as local matching funds for projects approved for the fiscal years 1970–1971 to 1975–1976, inclusive.

81840. Community college districts which become eligible under the provisions of Section 81839 shall remain eligible beyond the termination date specified in Section 81839 until the district has received a combination of state and district funds in the amount of two hundred fifty-three dollars (\$253) per weekly student contact hour. The number of weekly student contact hours used for the purpose of this section shall be the number used in computing the district relative district ability factor pursuant to Section 81839.

81841. The Department of Finance shall review preliminary plans for a project approved and submitted to it by the chancellor, and the estimated state and district shares in the funding thereof determined by the chancellor. If the Department of Finance approves the preliminary plans, the state's share of the funding thereof for the first fiscal year shall be included in the budget and the Budget Bill submitted to the Legislature at the next ensuing regular session of the Legislature, so that such state funds as may be appropriated therefor by the Legislature shall be available to the community college district as soon as practicable after the commencement of the next ensuing fiscal year.

81842. The capacity of a project or portion of a project for which an aviation maintenance technician school certificate has been received from the Federal Aviation Administration, shall be determined by using, as a component in the formula for space standards, 510 square feet per station.

81843. Portions of the state's share of any project not appropriated to the community college district pursuant to Section 81841, may be included in the budget and the Budget Bill submitted by the Governor for either or both of the next two succeeding fiscal years, as determined by the Department of Finance.

81844. A community college district may begin work on, or receive or award bids for, any portion of an approved project prior to the appropriation by the Legislature of the state's share of the funding thereof pursuant to Section 81841, if such district has demonstrated both of the following facts to the satisfaction of the Board of Governors of the California Community Colleges and the Department of Finance:

(a) The capital construction program of the district and the construction dates contained therein support the need of the district to begin work on, or award bids for, the project before the appropriation is made.

(b) The district has the financial capability to complete the work begun before the appropriation is made in the event the Legislature fails to appropriate the necessary state funding.

For the purposes of this section, an "approved project" is a project which has been approved by the chancellor pursuant to Section 81838, and approved by the Department of Finance pursuant to Section 81841 after April 1, 1971.

The Department of Finance shall review preliminary plans for the 1975-76 Capital Outlay Program for a project approved and submitted to it by the chancellor, and the estimated state and district shares in the funding thereof determined by the chancellor. If the Department of Finance approves the preliminary plans, such approval shall not preclude reimbursement of the district by future state funding pursuant to Section 81841, nor shall preferential consideration be granted because of such approval.

81845. The governing board of a community college district may include a proposed site in its plans for a project and may enter into

an agreement with the owner of property constituting such proposed site whereby the district, for an annual consideration to be borne by the district, is given an option to purchase, or a lease with an option to purchase such property at an unspecified future date, as a building site.

The existence of such an agreement shall in no way affect the determination of the share of the cost of the project to be borne by the state under this chapter, and the consideration paid by the district for such option or lease shall not be considered part of the cost of the project in determining the state's share of the funding thereof.

Such option or lease agreement shall constitute an obligation of the district and shall not be construed as in any way creating an obligation on the part of the state.

#### CHAPTER 5. COMMUNITY COLLEGE REVENUE BOND ACT OF 1961

81900. This chapter may be cited as "the Community College Revenue Bond Act of 1961."

81901. The governing board of any community college district may issue revenue bonds pursuant to this chapter.

81902. The following terms wherever used or referred to in this chapter, or in any indenture entered into pursuant hereto, shall have the following meanings, respectively, unless a different meaning appears from the context:

(a) "Board" means the governing board of a community college district.

(b) "Community college" means a community college maintained by the district issuing bonds under this article.

(c) The term "project" means any one or more dormitories or other housing facilities, boarding facilities, student union or activity facilities, vehicle parking facilities or any other auxiliary or supplementary facilities for individual or group accommodation, owned or operated or authorized to be acquired, constructed, furnished, equipped and operated by the board for use by students, faculty members or other employees of any one or more community colleges, or a combination of such facilities, which may include facilities already completed and facilities authorized for future completion, designated by the board as a project in providing for the issuance of revenue bonds.

(d) The term "bonds" or "revenue bonds" means the written evidence of any obligation issued by the board, payment of which is secured by a pledge of revenues or any part of revenues, as provided in this article, in order to obtain funds with which to carry out the purposes of this chapter, irrespective of the form of such obligations.

(e) The term "revenues" means and includes any and all fees, rates, rentals and other charges received or receivable in connection with, and any and all other incomes and receipts of whatever kind

and character derived by, the board from the operation of or arising from a project, including any such revenue as may have been or may be impounded or deposited in any fund in the county treasury created by this chapter for the security of any revenue bonds issued hereunder, or for the purpose of providing for the payment thereof or the interest thereon.

(f) The "holder of bonds" or "bondholder" or any similar terms shall mean any person who shall be the bearer of any outstanding revenue bond or bond registered to bearer or not registered or the registered owner of any such outstanding revenue bond or bond which shall at the time be registered other than to bearer.

(g) The term "indentures" means an agreement entered into by the board pursuant to which revenue bonds are issued, regardless of whether such agreement is expressed in the form of a resolution of the board or by other instrument.

(h) The term "person" includes any individual, firm, corporation, association, copartnership, trust, business trust or receiver or trustee or conservator for any thereof, but does not include this state or any public corporation, political subdivision, city, county, district or any agency thereof or of this state.

(i) "County treasurer" means the treasurer of the county in which all or a majority of the assessed valuation of the district lies at the time bonds are issued under this chapter.

(j) "County" means the county, or city and county, in which all or a majority of the assessed valuation of the community college district lies at the time bonds are issued under this chapter.

81903. The board, for the purpose of this chapter, has power and is hereby authorized, in addition to and amplification of all other powers conferred upon said board by the Constitution of the State of California or by any statute of the State of California:

(a) To acquire subject to the state law, by grant, purchase, gift, devise, lease, or by the exercise of the right of eminent domain, and to hold and use any real or personal property necessary or convenient or useful for the carrying on of any of its powers pursuant to the provisions of this chapter.

(b) To construct, operate and control any project.

(c) To fix rates, rents or other charges for the use of any project acquired, constructed, equipped, furnished, operated or maintained by the board, or for services rendered in connection therewith, and to alter, change or modify the same at its pleasure, subject to any contractual obligation which may be entered into by the board with respect to the fixing of such rates, rents or charges.

(d) To enter into covenants to increase rates or charges from time to time as may be necessary pursuant to any such contract or agreement with the holders of any bonds of the board.

(e) At any time and from time to time to issue revenue bonds in order to raise funds for the purpose of establishing any project or of acquiring lands for any project, or of acquiring, constructing, improving, equipping or furnishing any project, or of refinancing any

project, or for any combination of such purposes, which bonds may be secured as hereinafter provided.

(f) To exercise, subject to state law, the right of eminent domain for the condemnation of private property or any right or interest therein.

(g) To adopt such rules and regulations as may be necessary to enable the board to exercise the powers and to perform the duties conferred or imposed upon the board by this chapter.

(h) Nothing contained in this section or elsewhere in this article shall be construed directly or by implication to be in any wise in derogation of or in limitation of powers conferred upon or existing in the board by virtue of provisions of the Constitution or statutes of this state.

81904. The validity of the authorization and issuance of any revenue bonds by the board is not dependent on nor affected in any way by:

(a) Proceedings taken by the board for the acquisition, construction or completion of any project or any part thereof.

(b) Any contracts made by the board in connection with the acquisition, construction or completion of any project.

(c) The failure to complete any project for which bonds are authorized to be issued.

81905. The board shall issue revenue bonds in its name and as its obligation, but no bond issued or sold pursuant to this chapter shall be or become a lien, charge or liability against the State of California, against the community college district, or against the board or against the property or funds of the state, district, or board, except to the extent of the pledge of revenues or part of revenues of the project, as may be provided by the indenture pursuant to which revenue bonds are issued, and every such bond issued by the board shall contain a recital on the face thereof, stating that neither the payment of the principal nor any part thereof, nor any interest thereon, constitutes a debt, liability or obligation of the State of California or of the community college district.

81906. The board shall determine the time, form and manner of the issuance of revenue bonds.

81907. The community college board may enter into indentures providing for the aggregate principal amount, date or dates, maturities, interest rates, denominations, form, registration, transfer and interchange of any revenue bonds and coupons issued pursuant to this chapter, and the terms and conditions on which the same shall be executed, issued, secured, sold, paid, redeemed, funded and refunded. Reference on the face of the bonds to such indenture by its date of adoption, or the apparent date on the face thereof, is sufficient to incorporate all of the provisions thereof and of this chapter into the body of the bonds and their appurtenant coupons. Each taker and subsequent holder of the bonds or coupons, whether the coupons are attached to or detached from the bonds, has recourse to all of the provisions of the indenture and of this chapter, and is bound thereby.

81908. An indenture pursuant to which bonds are issued may include any and all such covenants and agreements on the part of the board as the board deems necessary or advisable for the better security of the bonds issued thereunder.

81909. An indenture may provide that payments of principal and interest of bonds shall be secured by all or by part of revenues.

81910. An indenture may include a clause relating to the bonds issued thereunder requiring the board to pay or cause to be paid punctually the principal of all such bonds and the interest thereon on the date or dates, or at the place or places, and in the manner mentioned in such bonds and in the coupons appertaining thereto in accordance with such indenture.

81911. An indenture may include a clause relating to the bonds issued thereunder, requiring the board to operate the project continuously, to the extent practicable under conditions as they may from time to time exist, in an efficient and economical manner.

81912. An indenture may include a clause relating to the bonds issued thereunder requiring the board to make all necessary repairs, renewals and replacements to any project, and to keep the project at all times in good repair, working order and condition.

81913. An indenture may include a clause relating to the bonds issued thereunder requiring the board to preserve and protect the security of the bonds and the rights of the holders thereof and to warrant and defend such rights.

81914. An indenture may include a clause relating to the bonds issued thereunder requiring the board to pay and discharge or cause to be paid and discharged all lawful claims for labor, materials and supplies or other charges which, if unpaid, might become a lien or charge upon the revenues, or any part thereof, of any project acquired, constructed or completed from the proceeds of the sale of the bonds, or upon any physical properties, or which might impair the security of the bonds.

81915. An indenture may include a clause relating to the bonds issued thereunder which limits, restricts, or prohibits any right, power or privilege of the board to mortgage or otherwise encumber, sell, lease or dispose of any improvements constructed from the proceeds of the bonds, or to enter into any lease or agreement which impairs or impedes the operation of a project, or any part thereof, necessary to secure adequate revenues or which otherwise impairs or impedes the rights of the holders of the bonds with respect to such revenues.

81916. An indenture may include a clause relating to the bonds issued thereunder requiring the board to fix, prescribe and collect rates, rentals or other charges in connection with the services and facilities furnished from the project acquired, constructed or purchased from part or all of the proceeds of the bonds, sufficient to pay the principal of and interest on the bonds as they become due and payable, together with such additional sums as may be required

for any fund created by this article, for the further security of such bonds or as a depreciation charge or other charge in connection with such project.

81917. An indenture may include a clause relating to the bonds issued thereunder requiring the board to hold or cause to be held in trust the revenues or any part of revenues pledged to the payment of such bonds and the interest thereon, or to any reserve or other fund created by this article for the further protection of the bonds, and to apply such revenues or any part of revenues or cause them to be applied only as provided in the indenture.

81918. An indenture may include a clause defining the power of the board in applying the proceedings of the sale of any issue of bonds for the acquiring, constructing, or completing of any project or any part thereof.

81919. An indenture may include a clause limiting the power of the board to issue additional bonds for the purpose of acquiring, constructing or completing any project or any part thereof.

81920. An indenture may include a clause requiring, specifying or limiting the kind, amount and character of insurance to be maintained by the board on any project, or any part thereof, and the use and disposition of the proceeds of any such insurance thereafter collected.

81921. An indenture may include a clause providing the events of default and the terms and conditions upon which any or all of the bonds of the board then or thereafter issued may become or be declared due and payable prior to maturity, and the terms and conditions upon which such declaration and its consequences may be waived.

81922. An indenture may include a clause designating the rights, limitations, powers and duties arising upon breach by the board of any of the covenants, conditions, or obligations contained in any indenture.

81923. An indenture may include a clause prescribing a procedure by which the terms and conditions of the indenture may be subsequently amended or modified with the consent of the board and the vote or written assent of the holders of a specified principal amount or specified proportion of the bonds issued and outstanding. Such clause may provide for meetings of bondholders and for the manner in which the consent of the bondholders may be given. The clause shall specifically state the effect of such amendment or modification upon the rights of the holders of all of the bonds and interest coupons appertaining thereto, whether attached thereto or detached therefrom.

With respect to any clause providing for the modification or amendment of an indenture, the board may agree that bonds held by the county treasurer, the United States or any instrumentality thereof, or the State of California or any political subdivision thereof (including every municipal corporation, district, public corporation, board or agency of any kind or class) shall not be counted as

outstanding bonds, or be entitled to vote or assent, but shall, nevertheless, be subject to any such modification or amendment.

81924. An indenture may include a clause or clauses providing for such other acts and matters as may be necessary or convenient or desirable in order better to secure the bonds or to make the bonds more marketable.

81925. The county treasurer shall act as trustee for the board and the holders of bonds issued hereunder, and the board may authorize the trustee to act on behalf of the holders of the bonds, or any stated percentage thereof, and to exercise and prosecute on behalf of the holders of the bonds such rights and remedies as may be available to the holders. The board may provide in the indenture for the deposit of all revenues received from the project with such trustee to be held in a separate account in the community college dormitory revenue fund of the district created by this article. The money in such fund shall be disbursed only as provided in the indenture.

81926. The board shall prescribe the duties and powers of any such trustee with respect to the issuance, authentication, sale and delivery of the bonds and the payment of principal and interest thereof, the redemption of the bonds, the registration and discharge from registration of the bonds, and the management of any sinking fund or other funds provided as security for the bonds.

81927. The board may provide for one or several issues of bonds and may issue bonds in series or may divide any issue into one or more divisions and fix different maturities or dates of such bonds, different rates of interest, or prescribe different terms and conditions for the bonds of the several series or divisions. It is not necessary that all bonds of the same authorized issue be of the same kind or character, have the same security, or be of the same interest rate, but the terms thereof shall in each case be provided for by the board at or prior to the issue thereof.

81928. Bonds may be issued as coupon bonds or as registered bonds. The board may provide for the interchange of coupon bonds for registered bonds and registered bonds for coupon bonds, and may provide that the bonds shall be registered as to principal only, or as to both principal and interest, or otherwise as the board may determine.

81929. Bonds shall bear interest at a rate of not to exceed 8 percent per annum, payable annually or semiannually or in part annually and in part semiannually.

81930. Bonds may be callable upon such terms, conditions, and upon such notice as the board may determine, and upon the payment of such premium as may be fixed by the board in the proceedings for the issuance of the bonds. No bond is subject to call or redemption prior to its fixed maturity date unless the right to exercise such call is expressly stated on the face of the bond.

81931. The board may provide for the payment of the principal and interest of bonds at any place within or without the State of California, and in specified coin or currency of the United States.

81932. The board may provide for the execution and authentication of bonds by the manual, lithographed or printed facsimile signature of officers of the board and by additional authentication by the county treasurer as trustee. If any of the officers whose signatures or countersignatures appear upon the bonds or coupons cease to be officers before the delivery of the bonds or coupons, their signatures or countersignatures are nevertheless valid and of the same force and effect as if the officers had remained in office until the delivery of the bonds and coupons.

81933. Bonds shall bear dates prescribed by the board. Bonds may be serial bonds or sinking fund bonds with such maturities as the board may determine. No bond by its terms shall mature in more than 50 years from its own date and, in the event any authorized issue is divided into two or more series or divisions, the maximum maturity date herein authorized shall be calculated from the date on the face of each bond separately, irrespective of the fact that different dates may be prescribed for the bonds of each separate series or division of any authorized issue.

81934. Immediately after the adoption of a resolution by the board, directing the preparation of any bonds authorized under this article, the county treasurer shall prepare the requisite number of suitable bonds of the denominations, and in accordance with the specifications contained in such resolution.

81935. When the bonds authorized to be issued under this chapter shall be duly executed, they shall be sold by the county treasurer, for cash, in such parcels and numbers as the said treasurer shall be directed by the board, after a resolution requesting such sale shall have been adopted by the board. Before offering any of said bonds for sale, the said treasurer shall detach therefrom all coupons, if any, which have matured or will mature before the day fixed for such sale.

81936. Bonds may be sold at either public or private sale. The board may fix terms and conditions for the sale or other disposition of any authorized issue of bonds. The county treasurer, when authorized by resolution of the board, may sell bonds at less than their par or face value, but no bond may be sold at a price below the par or face value thereof which would result in a sale price yielding to the purchaser an average of more than 8 percent per annum, payable semiannually, according to standard tables of bond values.

81937. The board may provide for the security of bonds. The board may use and expend all or any part of any funds or proceeds of any property owned by it, whether received by gift, appropriation or otherwise, if not restricted as to the use of such funds or proceeds of property by the terms of any gift or trust or provision of law for the redemption of bonds issued pursuant to the provisions of this chapter and the payment of interest due thereon.

81938. All costs and expenses incident to the issuance and sale of bonds may be paid out of the proceeds of the sale of the bonds. Interest on bonds may be paid out of the proceeds of the sale of the

bonds during the actual construction of any project for the acquisition, construction or completion of which the bonds have been issued, and for a period of not to exceed two years thereafter as provided for in the indenture.

81939. The board may provide that the bonds and the interest thereon shall be secured by all or by part of revenues of a project upon the basis of which revenue bonds are issued or authorized to be issued, and shall constitute such lien upon the revenues of such project as may be provided for in the indenture.

81940. Pending the actual issuance or delivery of revenue bonds, the board may issue temporary or interim bonds, certificates or receipts of any denomination whatsoever, and with or without coupons, to be exchanged for definitive bonds when ready for delivery.

81941. The board may provide for the replacement of lost, destroyed or mutilated bonds, or coupons.

81942. Bonds issued pursuant to the provisions of this chapter and the interest or income therefrom are exempt from all taxation in this state other than gift, inheritance and estate taxes.

81943. Notwithstanding any other provision of law, all bonds sold and delivered pursuant to this chapter are legal investments for all trust funds and for the funds of all insurance companies, banks, both commercial and savings, trust companies, the state school funds, and any public or private funds which may be invested in county, municipal or community college district bonds, and may be deposited as security for the performance of any act whenever the bonds of any county, municipality or community college district may be so deposited, and may also be used as security for the deposit of public moneys in banks in this state.

81944. The board may provide for the issuance, sale, or exchange of refunding bonds for the purpose of redeeming or retiring any revenue bonds issued under the provisions of this chapter. All provisions of this chapter applicable to the issuance of revenue bonds are applicable to the funding or refunding bonds and to the issuance, sale or exchange thereof.

81945. Funding or refunding bonds may be issued in a principal amount sufficient to provide funds for the payment of all bonds to be funded or refunded thereby, and in addition for the payment of all expenses incident to the calling, retiring or paying of such outstanding bonds, and the issuance of such funding or refunding bonds. These expenses include the difference in amount between the par value of the funding or refunding bonds and any amount less than par for which the funding or refunding bonds are sold, any amount necessary to be made available for the payment of interest upon such funding or refunding bonds from the date of sale thereof to the date of payment of the bonds to be funded or refunded or to the date upon which the bonds to be funded or refunded will be paid pursuant to the call thereof or agreement with the holders thereof, and the premium, if any, necessary to be paid in order to call or retire

the outstanding bonds and the interest accruing thereon to the date of the call or retirement.

81946. All bonds issued under the provisions of this article are negotiable instruments, except when registered in the name of a registered owner.

81947. Before issuing any bond or bonds pursuant to the provisions of this chapter, the board shall by resolution declare the purpose for which the proceeds of the bonds proposed to be issued shall be expended and shall specify the maximum amount of bonds to be issued or sold for such purpose, and bonds shall not be issued or sold for such purpose in an amount exceeding such specified maximum except with the consent of bondholders, pursuant to amendment or modification of an indenture, as provided in Section 81923. Nothing in this section contained shall be construed to prevent the board from amending any such resolution prior to the issuance of bonds authorized thereby to increase or decrease the maximum amount of bonds to be issued or sold. The issuance of bonds for one or more projects may be included in a single resolution of authorization.

81948. The board has full charge of the acquisition, construction and completion of all projects authorized by them and may proceed with such work forthwith.

81949. The board may construct any project and acquire all property necessary therefor on such terms and conditions as it may deem advisable. When any part of the work is to be done or performed by any public body or by the United States jointly or in conjunction with the board, the portion of the cost thereof to be borne by the board may be turned over to the government of the United States or to any other public body to be expended by it in the acquisition, construction or completion of the project.

81950. Title to all property acquired by the board and the revenues and income therefrom is in the community college district. The title to any moneys, revenues, sinking funds, reserve funds and other funds created by this chapter and the income thereof pledged to the payment of the principal or interest or any bonds issued thereunder is subject to trusts declared in favor of the bondholders. All such property, and the income therefrom, are exempt from all taxation by the State of California or by any county, city and county, city, district, political subdivision or public corporation thereof.

81951. At all times the operation, maintenance, control, repair, construction, reconstruction, alteration and improvement of any project are vested in the board subject to such authorized leases as may be permitted by any indenture. The board shall comply with all applicable county and city zoning, building and health regulations.

81952. The board may use for the payment of the costs of acquisition, construction or completion of any project any funds made available to the board by the State of California or any other funds provided by the board from any source, to be expended for the accomplishing of the purposes set forth in this chapter, together with

the proceeds of revenue bonds issued and sold by the board.

81953. The board may insure against loss of revenues from any cause whatsoever and the proceeds of any such insurance shall be used solely for the payment of bonds and the interest thereon.

81954. The board may insure against public liability or property damage. The board may provide in an indenture for the carrying of such or any other insurance in such amount and of such character as it shall determine, and for the payment of the premiums thereon.

81955. When authorized by resolution of the board, as provided in this chapter, the county treasurer shall prepare and procure the printing or engrossing of bonds, coupons, indenture or other instruments and contracts or agreements of every kind required or convenient for or pertaining to the issuance or sale of bonds.

81956. The board shall fix rents, charges and fees for all projects acquired, constructed or completed under the terms of this article for the use thereof by any persons utilizing the facilities thereof, subject to such contractual obligations as may be entered into by the board and the holders of bonds issued under this chapter. The board is authorized to change rents, charges and fees from time to time, as conditions warrant. All rents, charges and fees shall at all times be fixed to yield annual revenue equal to annual operating and maintenance expenses, including repairs and insurance costs and all redemption payments and interest charges and reserve fund requirements on revenue bonds at any time issued and outstanding hereunder, as the same become due.

81957. Rent, charges, and fees collected in error may be refunded by the board in accordance with regulations prescribed by the board. Refunds of rent, charges, and fees collected for facilities requested by students and not utilized by them may be made for good cause by the board in such amounts and under such conditions as may be prescribed by regulations adopted by the board.

81958. The board may include in an indenture such limitations as to competitive projects, both as to location and comparative rentals, as may be deemed necessary or desirable for the security of revenue bonds issued pursuant to this chapter.

81959. The board may also include in an indenture a covenant that no project acquired, constructed or completed from the proceeds of revenue bonds issued under the provisions of this chapter shall be used without charge therefor or any facilities thereof be furnished free of charge to any person.

81960. The holder of any bond issued pursuant to this article may by mandamus or other appropriate proceeding require and compel the performance of any of the duties imposed upon the board or upon any official or employee or assumed by any thereof, in connection with the acquisition, construction, operation, maintenance, repair, reconstruction or insurance of any project, or the collection, deposit, investment, application and disbursement of rents, rates, charges, fees and all other revenues derived from the operation and use of any project or in connection with the deposit,

investment and disbursement of the proceeds received from the sale of bonds under this chapter. The enumeration of such rights and remedies do not, however, exclude the exercise or prosecution of any other rights or remedies available to the holders of bonds issued pursuant to this chapter.

81961. The proceeds from the sale of all bonds authorized under the provisions of this chapter shall be deposited forthwith by the county treasurer, on order of the county auditor, in the county treasury to the credit of a fund to be designated as the community college dormitory construction fund of the district, which fund is hereby created in each county treasury for each district in the county issuing bonds pursuant to this chapter. The money in such construction fund shall be expended, pursuant to claims filed by the board with the county auditor, for the purposes authorized by this chapter, or as provided in the indenture, and for such other purposes, subject to the restrictions provided by law or by the indenture, as may be authorized by resolution of the board. Moneys required to meet the costs of acquisition or construction and all expenses and costs incidental to the acquisition, construction, furnishing and equipping of any project authorized by this chapter shall be paid from the said construction fund as herein provided upon claim filed by the board and after audit by the county auditor in the manner provided by law and upon warrants drawn by the county auditor.

81962. All revenues received from the operation of any project acquired or constructed by the board under the provisions of this chapter shall be transmitted by the board at least once in every calendar month, to the county treasurer. On order of the county auditor, the county treasurer shall deposit such revenues in the county treasury to the credit of the community college dormitory revenue fund of the district, which fund is hereby created in each county treasury for each district in the county issuing bonds under this chapter. Moneys in the community college dormitory revenue fund shall be used to pay the costs of operation and maintenance of the projects authorized by this chapter, including refunds authorized by Section 81975, to provide the amounts required for interest and redemption of bonds as provided in this chapter, and for any other purposes authorized by resolution of the board, subject to any restrictions provided by law or the indenture.

81963. For the payment of the principal and interest of the bonds authorized to be issued under this chapter, an interest and redemption fund is hereby created in each county treasury for each community college district issuing bonds under this chapter, to be designated the community college dormitory interest and redemption fund of the district. From the money deposited in the community college dormitory construction fund of the district, the county treasurer, on order of the county auditor, shall transfer to the community college dormitory interest and redemption fund of the district such sums as may be required to pay the interest as it becomes due on all bonds sold and outstanding for the construction

or acquisition of a particular project of the district authorized under this chapter during the period of actual construction or acquisition thereof and during such period thereafter as may be provided in the indenture or authorized by resolution of the board. The county treasurer, on order of the county auditor, shall thereafter transfer from the community college dormitory revenue fund of the district to the community college dormitory interest and redemption fund of the district such sums as may be required to pay the interest on said bonds and redeem the principal thereof as such interest payments and bond redemptions fall due for all bonds issued under the provisions of this chapter.

81964. Any balance remaining in any of the funds created by this chapter after payment of all costs, expenses, and charges authorized to be expended therefrom, may be allocated and used for such other purposes incidental to the acquisition, construction, furnishing, equipping, operation and maintenance of such projects authorized under the provisions of this chapter as the board may determine.

81965. Moneys in the community college dormitory construction fund of each district may be invested by the board, subject only to such limitations as may be provided in an indenture providing for the issuance of revenue bonds. All securities or other investments made under the provisions of this chapter shall be held by the county treasurer as custodian thereof. All interest or other earnings received pursuant to such investments shall be collected by the county treasurer, and, on order of the county auditor, shall be deposited in the county treasury to the credit of the fund from which such interest or other earnings are derived.

81966. After all of the revenue bonds shall have been fully paid and discharged, or provision for their payment and discharge irrevocably made, any surplus moneys in the community college dormitory construction fund of a district shall, subject to the limitations and restrictions in any indenture providing for the issuance of the revenue bonds, remain available for the acquisition of sites for, and for the construction, equipping and furnishing of, buildings for community colleges maintained by the district.

81967. This chapter shall be liberally construed to carry out the objects and purposes and the declared policy of the State of California as in this chapter set forth.

## CHAPTER 6. COMMUNITY COLLEGE CONSTRUCTION

### Article 1. Legislative Intent

82100. The Legislature hereby declares that it is in the interest of the state and of the people thereof for the state to provide assistance to community college districts for the construction of community college facilities. The community college system is of general concern and interest to all the people of the state and the education of community college students is a joint obligation and function of

both the state and community college districts.

In adopting this chapter, the Legislature considers that the greatest need is to provide community college facilities that will be required to house the great increase of community college students resulting from growth in population and from legislative policies expressed through implementation of the Master Plan for Higher Education.

## Article 2. Definitions and Administration

### 82110. Definitions:

(a) "Community college district" means any district maintaining a community college that is effective for all purposes on July 1, 1963.

(b) "Board of Governors" means the Board of Governors of the California Community Colleges.

(c) "Project" means the purposes for which a community college district has applied for assistance under this chapter. A project may include the acquisition and improvement of community college sites, the planning and construction of permanent community college facilities, and the acquisition of equipment. A project shall not include the planning or construction of dormitories, student centers other than cafeterias, stadia, or single-purpose auditoriums.

(d) "Unit of average daily attendance" means a unit of average daily attendance during the preceding fiscal year in a graded class in grade 13 or 14 exclusive of summer school of a community college of students who are residents of the applicant district and who are not adults as defined in Section 78460.

(e) "The average cost of providing community college facilities" means the cost per unit of average daily attendance housed in community college facilities constructed during the two preceding years as determined by the board of governors after consultation with the Division of Architecture.

82111. This chapter shall be administered by the board of governors. The board of governors shall adopt such rules and regulations as it deems necessary to carry out the purposes of this chapter.

## Article 3. Applications

82120. Any community college district may apply for assistance under this chapter to undertake one or more projects, on or before December 1, 1963.

82121. Applications for assistance under this chapter to undertake a project shall be made on forms prescribed and furnished by the board of governors. Such forms shall include, but not be limited to, the following data and information:

(a) An outline and general description of the project to be undertaken.

(b) An estimate of the cost of the project to be undertaken and

the anticipated source of funds to complete the project.

(c) The estimated units of average daily attendance in growth for a two-year period determined by Section 82122.

(d) The present average daily attendance of the district as determined by Section 82123.

(e) A two-year projection of the average daily attendance of the district as defined and determined by Section 82124.

82122. The estimated units of average daily attendance in growth for a two-year period means the sum of 5 percent of the total units of average daily attendance as defined in subdivision (d) of Section 82110 in the district in each of the 1961-62 and 1962-63 fiscal years.

For the purposes of this section, the estimated units of average daily attendance in growth of a community college district that was not in existence for all purposes for two years prior to July 1, 1963, shall be determined by the board of governors by computing 10 percent of 42 percent of the sum of the enrollments of the 12th grade on October 31, 1961, and October 31, 1962, in all high school or unified districts which on the date the estimate is made are contained in the community college district. For the purposes of this section a newly formed district which includes a district which maintained a community college shall not be deemed to be a new district.

82123. Present average daily attendance means the number of units of average daily attendance of nonresident students in attendance in the graded community college classes of the district plus the average daily attendance of students in graded community college classes who are residents of the applicant district excluding the attendance of adults as defined by Section 78460 and the attendance in summer school during the last completed year preceding the deadline date for making the application.

For the purposes of this section the present average daily attendance of a community college district which has not maintained graded community college classes in any of the years preceding the deadline date for making application shall be determined by the department on the basis of the October report of enrollment of such district and in accordance with rules and regulations of the board of governors which it is herewith authorized to adopt.

82124. A two-year projection of average daily attendance means the difference between present average daily attendance as defined in Section 82123 and the number of units of average daily attendance of such students in graded classes, excluding adults as adults are defined in Section 78460 and the attendance in summer school, reported for the year during the preceding two years in which the least number of units of average daily attendance were reported, multiplied by the ratio of average daily attendance of resident students to present average daily attendance.

For any district that has not maintained graded community college classes during all of the three fiscal years preceding the date of making the application, a two-year projection of average daily attendance means twice the difference between present average

daily attendance as defined in Section 82123 and the number of units of average daily attendance of such students in graded classes, excluding adults as adults are defined in Section 78460 and the attendance in summer school, reported for any of the three fiscal years preceding the date of making the application, or the quotient of 1 percent of the assessed valuation of the district and the average cost of providing community college facilities during the two preceding years as determined by the board of governors after consultation with the Division of Architecture, whichever is greater, multiplied by the ratio of average daily attendance of resident students to present average daily attendance. For the purposes of this section a newly formed district which includes a district which maintained a community college shall not be deemed to be a new district.

#### Article 4. Entitlement and Reservation of Funds

82130. For each community college district eligible to receive a tentative entitlement, the department, within 30 days after the deadline date for submitting applications, shall compute an entitlement by:

(a) Dividing the average assessed valuation per estimated unit of average daily attendance in growth for a two-year period in all community college districts in the state eligible to receive a tentative entitlement by the assessed valuation per estimated unit of growth for a two-year period in the district as determined by Section 82122.

(b) Multiplying the quotient derived under subdivision (a) by the estimated units of average daily attendance in growth for a two-year period in the district as determined by Section 82122.

(c) Multiplying the product derived for each community college district under subdivision (b) by one-fourth of the average cost of providing community college facilities. If the total of these products is more than ten million dollars (\$10,000,000), it shall be deemed to be only ten million dollars (\$10,000,000) and adjustments made for each community college district.

(d) Dividing the average assessed valuation per unit of the two-year projection of average daily attendance in all community college districts in the state eligible to receive a tentative entitlement by the assessed valuation per unit of the two-year projection of average daily attendance in the district as determined by Section 82124. It is further provided that all equalization factors below .5 shall be deemed to be .5 and all equalization factors above 3.0 shall be deemed to be 3.0.

(e) Multiplying the quotient derived under subdivision (d) by the two-year projection of average daily attendance in the district as determined by Section 82124.

(f) Computing the total of the products derived under subdivision (e) for each community college district.

(g) Dividing the difference between twenty million dollars

(\$20,000,000) and the total of the products derived under subdivision (c) by the total of the products derived under subdivision (f).

(h) Multiplying the quotient derived under subdivision (g) by the product derived under subdivision (e).

(i) Computing the total for each community college district of the products derived under subdivision (c) and subdivision (h).

This total is the maximum tentative entitlement for each community college district and shall constitute a reservation of funds for each eligible applicant district.

82131. The amount of funds reserved for a district shall be continued in reservation until the district is qualified to receive an allocation of funds, but not longer than 54 months after the deadline date fixed by law for filing the applications.

Notwithstanding any provisions of this chapter to the contrary, an entitlement computed for a community college district under Section 82130 may be transferred upon request of that district by the department to a community college district which was formed subsequent to the computation of entitlements under Section 82130 and which includes all of the territory of the district requesting the transfer.

82132. Notwithstanding any provision of this chapter to the contrary, an entitlement computed under Section 82130 for a community college district at the time it made application for the entitlement, may be transferred by the board of governors upon request, to a subsequently formed community college district which made the application for the entitlement.

#### Article 5. District Contributions to Projects

82150. Each community college project for which a reservation of funds is made shall be financed with both state and local funds. The amount of local funds contributed to each project for which application is made by a district shall be at least the difference between the greater of the estimated units of average daily attendance in growth determined for the district under Section 82122 and the two-year projection of average daily attendance determined for the district under Section 82124 multiplied by the average cost of providing community college facilities, and the total of the funds reserved for the district under subdivision (i) of Section 82130, except that the amount of local funds need not exceed three times the amount of state funds in the project. Where a district has become effective for all purposes as of July 1, 1960, and has been formed as a new district to include seventy-five percent (75%) or more of the territory of a county, and has, since becoming effective, authorized bonds equal to one percent (1%) or more of the assessed valuation of the district, and has spent or committed such bond funds for community college facilities, then the amount of local funds need not exceed the amount of state funds in the project.

## CHAPTER 7. SUPPLEMENTARY SERVICES

## Article 1. Transportation

82300. The governing board of any community college district may provide for the transportation of pupils to and from school whenever in the judgment of the board such transportation is advisable and good reasons exist therefor. The governing board may purchase or rent and provide for the upkeep, care, and operation of vehicles, or may contract and pay for the transportation of students to and from school by common carrier or municipally owned transit system, or may contract with and pay responsible private parties for the transportation. Such contracts may be made with the parent or guardian of a minor being transported. A governing board may allow the transportation in schoolbuses owned or operated by the district of preschool or nursery school pupils. No state reimbursement may be received by a district for the transportation of such students.

Whenever the term "municipally owned transit system" appears in this chapter, it means a transit system owned by a city, or by a district created under Part 1 (commencing with Section 24501) of Division 10 of the Public Utilities Code.

82301. The governing board of any community college district may contract with the county superintendent of schools to provide necessary transportation services. The county superintendent of schools, acting pursuant to such a contract, shall have all the powers and duties granted to governing boards by this chapter.

82302. In order to procure the service at the lowest possible figure consistent with proper and satisfactory service, the governing board shall, whenever an expenditure of more than five thousand dollars (\$5,000) is involved, secure bids pursuant to Sections 81640 and 81641 whenever it be contemplated that a contract may be made with a person or corporation other than a common carrier or a municipally owned transit system or a parent or guardian of minors to be transported. The governing board may let the contract for the service to other than the lowest bidder. No board shall make any purchase or enter into any contract for the service without securing the written approval of the county superintendent of schools.

82303. (a) Continuing contracts for the furnishing of transportation of students in community college districts to and from school, if made, shall be made for a term not to exceed five years. Such contracts shall be renewable at the option of the district and the party contracting to provide transportation services, jointly, at the end of each term of the contract. The contract as renewed shall include, other than the rates of the previous contract, all of the terms and conditions of the previous contract, including any provisions increasing rates based on increased costs.

(b) Continuing contracts may be made for the lease or rental of schoolbuses, not to exceed five years, except that if such a lease or rental contract provides that the district may exercise an option

either to purchase the buses or to cancel the lease at the end of each annual period during the period of the contract, such contract may be made for a term not to exceed 10 years.

(c) Notwithstanding any other provisions of law to the contrary, continuing contracts executed under the provisions of this section may be negotiated annually within the contract period when economic factors indicate such negotiation is necessary to maintain an equitable pricing structure. Such renegotiation shall be subject to the approval of both contracting parties.

(d) Any rental, lease, or lease-purchase of a schoolbus shall comply with all applicable provisions of Article 16 (commencing with Section 81550) of Chapter 2 of Part 49 of Division 5 of Title 3.

82304. When the governing board provides for the transportation of students to and from school by contract with a common carrier, municipally owned transit system, or responsible private party, the governing board may require the parents or guardians of all or some of the students transported to pay a portion of the cost of such transportation in an amount determined by the board. The amount determined by the board shall be no greater than that paid for transportation on a common carrier or municipally owned transit system by other students in the district who do not use the transportation provided by the contract of the district. No charge under this section shall be made for the transportation of handicapped students.

82305. In bidding on contracts to be made pursuant to Section 82303, bidders may include in their bids abstractions of their quotations indicating the pricing structure used to compute the annual lease or rental payments for the sole purpose of identifying that portion of each annual lease or rental payment which may represent tax exemption reimbursement to the vendor, lessor or to their assignees.

82305.5. The governing board of a community college district may contract for the transportation of matriculated or enrolled adults, or provide transportation to adults in district-owned equipment for educational purposes other than to and from school.

Any district which contracts to provide or provides transportation to adults pursuant to this section may charge adults all or part of the costs of contracting for or providing such transportation services.

82305.6. When the governing board of a community college district provides for the transportation of students to and from schools in accordance with the provisions of Section 82300, the governing board of the district may require the parents and guardians of all or some of the students transported, to pay a portion of the cost of such transportation in an amount determined by the governing board provided that such district does not qualify to receive reimbursement from the State School Fund for transportation under Article 9 (commencing with Section 84810) of Chapter 5 of Part 50 in the year in which the requirement to pay is made. The amount determined by the board shall be no greater than

that paid for transportation on a common carrier or municipally owned transit system by other students in the district who do not use the transportation provided by the district. The governing board shall exempt from such charges students of parents and guardians who are indigent as set forth in rules and regulations adopted by the board. No charge under this section shall be made for the transportation of handicapped students. Nothing in this section shall be construed to sanction, perpetuate, or promote the racial or ethnic segregation of students in the community colleges.

82306. In lieu of providing in whole or in part for the transportation of a student attending the schools of a district, the governing board may pay to the parents or guardian of the minor a sum not to exceed the cost of actual and necessary travel incurred in transporting such students to and from the regular day schools of the district. No payments shall be made pursuant to this section unless it will be more economical to make the payments than to provide for said transportation.

82307. In lieu of furnishing transportation to students attending the schools of a community college district, the governing board may pay to the parents or guardian of each minor the cost of food and lodging of the minor at a place convenient to the schools. The amount paid on account of each minor shall not exceed the estimated cost to the district of providing for the transportation of the minor to and from his home and the school he attends.

## Article 2. Schoolbuses

82320. The cost of maintaining schoolbuses may be paid out of any funds of the district except funds derived from the sale of bonds and funds required by law to be set aside for teachers' salaries.

82321. A schoolbus is defined as any motor vehicle while being used for the transportation of any student at or below the 12th-grade level to and from a public or private school or to and from public or private school activities, except the following:

(a) A passenger vehicle designed for and when actually carrying not more than eight persons, including the driver.

(b) A 9-passenger or 10-passenger station wagon when used for the transportation of not more than eight students and the driver, other than the regular transportation of pupils to and from a public or private school or the transportation of mentally retarded or physically handicapped pupils.

(c) A motor vehicle of any type carrying only members of the household of the owner thereof.

(d) A motor vehicle operated by a common carrier, or by and under exclusive jurisdiction of a publicly owned transit system, on scheduled runs but not used exclusively for the transportation of students.

(e) A motor vehicle operated by a common carrier, or by and

under the exclusive jurisdiction of a publicly owned transit system, or by a passenger charter-party carrier and used under a contractual agreement to transport students to and from school activities but not used regularly to transport students to and from a public or private school.

Notwithstanding any other provisions of this section, the governing board of a community college may, by resolution, designate any motor vehicle operated by or for the district, a schoolbus within the meaning of this section, while it is being used for the transportation of any community college students to and from a public community college or to and from public community college activities. The designation shall not be effective until written notification thereof has been filed with the Superintendent of Public Instruction.

This section shall become operative on January 1, 1977.

(Repealed and added by renumbering Section 82321 5 by Stats 1976, Ch. 1011 )

[ORIGINAL SECTION]

82321. A schoolbus is defined as any motor vehicle while being used for the transportation of any student at or below the 12th-grade level to and from a public or private school or to and from public or private school activities, except the following:

(a) A passenger vehicle designed for and when actually carrying not more than eight persons, including the driver.

(b) A 9-passenger or 10-passenger station wagon when used for the transportation of not more than eight students and the driver, other than the regular transportation of pupils to and from a public or private school or the transportation of mentally retarded or physically handicapped pupils

(c) A motor vehicle of any type carrying only members of the household of the owner thereof.

(d) A motor vehicle operated by a common carrier, or by and under exclusive jurisdiction of a publicly owned transit system, on scheduled runs and which is available to the general public

(e) A motor vehicle operated by a common carrier, or by and under the exclusive jurisdiction of a publicly owned transit system, or by a passenger charter-party carrier and used under a contractual agreement to transport students to and from school activities but not used regularly to transport students to and from a public or private school.

Notwithstanding any other provisions of this section, the governing board of a community college may, by resolution, designate any motor vehicle operated by or for the district, a schoolbus within the meaning of this section, while it is being used for the transportation of any community college students to and from a public community college or to and from public community college activities. The designation shall not be effective until written notification thereof has been filed with the Superintendent of Public Instruction

This section shall remain in effect only until January 1, 1977, and as of that date is repealed.

82321 5 (Amended and renumbered Section 82321, by Stats. 1976, Ch 1011 )

[ORIGINAL SECTION]

82321.5 A schoolbus is defined as any motor vehicle while being used for the transportation of any student at or below the 12th-grade level to and from a public or private school or to and from public or private school activities, except the following

(a) A passenger vehicle designed for and when actually carrying not more than eight persons, including the driver

(b) A 9-passenger or 10-passenger station wagon when used for the transportation

of not more than eight students and the driver, other than the regular transportation of pupils to and from a public or private school or the transportation of mentally retarded or physically handicapped pupils.

(c) A motor vehicle of any type carrying only members of the household of the owner thereof.

(d) A motor vehicle operated by a common carrier, or by and under exclusive jurisdiction of a publicly owned transit system, on scheduled runs but not used exclusively for the transportation of students.

(e) A motor vehicle operated by a common carrier, or by and under the exclusive jurisdiction of a publicly owned transit system, or by a passenger charter-party carrier and used under a contractual agreement to transport students to and from school activities but not used regularly to transport students to and from a public or private school

Notwithstanding any other provisions of this section, the governing board of a community college may, by resolution, designate any motor vehicle operated by or for the district, a schoolbus within the meaning of this section, while it is being used for the transportation of any community college students to and from a public community college or to and from public community college activities. The designation shall not be effective until written notification thereof has been filed with the Superintendent of Public Instruction.

This section shall become operative on January 1, 1977

### Article 3. Contracts for Transportation

82340. The governing board of any community college district may contract for the transportation of students attending schools within the district to and from any exposition or fair, school activities, or other activities which the governing board determines to be for the benefit of the students, in this state, and may pay for the transportation out of any funds of the district available for the purpose.

### Article 4. Cafeterias—Establishment

82360. The term "cafeteria" as used in this code is considered synonymous with the term "food service."

82361. The governing board of any community college district may establish cafeterias in the schools under its jurisdiction whenever in its judgment it is advisable to do so.

82362. Food shall not be sold at any cafeteria operated by a community college district to anyone except students and employees of any community college district, members of the governing board thereof, and members or employees of the fund or association maintaining the cafeteria; provided, however, that nothing herein contained shall prohibit the use of the cafeteria facilities by any work or harvest camp maintained by or within the district, and by persons entitled to use the school under the Civic Center Act; and provided further, that the governing board of any district operating a cafeteria may exempt by formal resolution of the board other individuals and organizations from the operation of this section.

82363. Perishable foodstuffs and seasonal commodities needed in the operation of cafeterias may be purchased by the community

college district in accordance with rules and regulations for such purchase adopted by the governing board of said district notwithstanding any provisions of this code in conflict with such rules and regulations.

82364. The food served shall be sold to the patrons of the cafeterias at such a price as will pay the cost of maintaining the cafeterias, exclusive of the costs made a charge against the funds of the community college district by this chapter, and items made a charge against the funds of the community college district by resolution of the governing board under authority of this chapter.

#### Article 5. Cafeterias—Funds and Accounts

82370. Money received for the sale of food or for any services performed by the cafeterias may be paid into the county treasury to the credit of the "cafeteria fund" of the particular community college district.

82371. The cafeteria fund shall be used only for such expenditures as are necessary for the operation of school cafeterias. However, when the governing board deems it necessary, it may make expenditures from the cafeteria fund for the lease or purchase of additional cafeteria equipment for the central food processing plant, and of vending machines and their installation and housing.

The governing board of any community college district, or of two or more school districts governed by governing boards of identical personnel, having an average daily attendance of 400,000 or more as shown by the annual report of the county superintendent of schools for the preceding year, may also make expenditures from the cafeteria fund for the construction, alteration, or improvement of a central food processing plant, for the installation of additional cafeteria equipment for the central food processing plant, and for the lease or purchase of vehicles used primarily in connection with the central food processing plant.

82372. The governing board of any community college district may establish an account for each cafeteria established in a school of the district, or for all cafeterias established in the schools of the district, in one or more banks. The account shall be known as "The Cafeteria Account of (insert name of district) District." If the account is established for one of several cafeterias, it shall be known as "The Cafeteria Account of the (insert name of school) School of (insert name of district) District." All receipts of the cafeteria, or cafeterias, as the case may be, derived from the sale of food shall be deposited in the account and shall be expended only for the maintenance of the cafeteria, or cafeterias, exclusive of items made a charge against the funds of the community college district by this chapter, and items made a charge against the funds of the district by resolution of the governing board under authority of this chapter.

82373. The governing board of the community college district shall designate an employee or employees of the district to have

custody of the account or accounts, who shall be responsible for the payment into the account or accounts of all moneys required to be paid into the account or accounts, and for all expenditures therefrom, subject to such regulations as the governing board prescribes.

82374. Upon the order of the governing board of any district having a cafeteria fund in the county treasury and establishing an account, or accounts, the county treasurer shall deposit the money in the fund to the account, or accounts, and shall notify the county auditor and county or city and county superintendent of schools of his action. If the money is to be deposited in more than one account, the governing board of the district shall designate the amount to be placed in each account.

#### Article 6. Cafeterias—Allocation of Charges

82380. The cost of housing and equipping cafeterias is a charge against the funds of the community college district. However, when the governing board of a community college district deems it necessary, the governing board may make the cost of the lease or purchase of additional cafeteria equipment for a central food processing plant, and of vending machines and their installation and housing, a charge against cafeteria funds. If community college district funds are expended for the lease or purchase of additional cafeteria equipment for a central food processing plant, or for the lease, purchase, installation, or housing of vending machines, the governing board may at any time within five years after such expenditure reimburse community college district funds from cafeteria funds.

The governing board of a community college district may by resolution make the cost of maintenance of the physical plant used in connection with cafeterias, the cost of replacement of equipment and the cost of telephone charges, water, electricity, gas, coal, wood, fuel oil, and garbage disposal a charge against the funds of the community college district.

The governing board of any community college district, or of two or more school districts governed by governing boards of identical personnel, having an average daily attendance of 400,000 or more as shown by the annual report of the county superintendent of schools for the preceding year, may also make the cost of the construction, alteration, or improvement of a central food processing plant and the installation of additional cafeteria equipment a charge against cafeteria funds. If district funds are expended for these purposes, the governing board also may at any time within five years after such expenditure reimburse district funds from cafeteria funds.

82381. The governing board of any community college district operating school cafeterias may establish and maintain a cafeteria fund reserve for the replacement of wornout or obsolete cafeteria equipment, to be known as the accumulative cafeteria equipment replacement reserve. The funds for this reserve are to be derived

from the sales of food in the school cafeterias in an amount to be determined by the governing board and may be accumulated from year to year until expended for this purpose.

Each community college district maintaining an accumulative cafeteria equipment replacement reserve may include in the annual cafeteria fund budget of the district an amount to be allocated to said reserve, as determined by the governing board, which amount shall be a charge against the operations of the cafeterias for that year as a depreciation cost for wear and tear on cafeteria equipment. The cost of replacing cafeteria equipment may be charged to the accumulative cafeteria equipment reserve of the cafeteria fund of the district.

Nothing in this section shall prohibit any community college district from replacing cafeteria equipment from district funds as provided in Section 82380 of this chapter.

82382. The governing board of a community college district shall employ persons for food service positions as a part of the classified service. Wages, salaries and benefits including employer retirement contributions for all food service personnel shall be paid from the general fund of the community college district. Costs of wages, salaries and benefits including employer retirement contributions and other purposes classed as food service shall be excluded from the definition of "current expense of education" as defined in Section 84362. The governing board may, at any time, order reimbursement from the cafeteria fund or the cafeteria account to the general fund of the district for payments under this section in such amounts as it prescribes but not to exceed food service employee salary, wage and benefit costs then incurred or anticipated.

Any reimbursements in excess of the amount actually required shall be refunded to the cafeteria fund or the cafeteria account not later than the close of the current fiscal year.

The reimbursements from the cafeteria fund or the cafeteria account shall be considered expenses of the cafeteria fund or the cafeteria account, as the case may be, and only those payments made from the general fund which are not reimbursed from the cafeteria fund or the cafeteria account shall be considered expenses of the general fund.

Accounting for such transactions shall be as prescribed in Section 84030.

## CHAPTER 8. MISCELLANEOUS

## Article 1. Apparatus and Supplies

82500. The governing board of each community college district shall, except as otherwise provided in this code, purchase school furniture, including musical instruments, and apparatus, and such other articles as are necessary for the use of schools, and may, in its discretion, purchase uniforms and other regalia for the use of school bands, orchestras and choirs, and including uniforms and equipment necessary for the use of athletic teams. The provisions of Article 1 (commencing with Section 4300) of Chapter 4 of Division 5 of Title 1 of the Government Code shall not apply to the purchase of musical instruments made pursuant to this section. Any such articles purchased shall always remain the property of the community college district purchasing them.

82501. The governing board of any community college district may purchase any necessary school supplies and equipment, including standard school supplies and equipment listed by the county board of education, in the manner provided in this chapter, or the governing board of any district may purchase such supplies and equipment directly from the vendor. Such direct purchase may be as a single district or two or more districts acting as a cooperative.

82502. The clerk of each community college district shall, under the direction of the board of trustees, provide all school supplies authorized by this chapter.

82503. If in any county a school supply revolving fund is not established, payment for school supplies and equipment purchased through the county superintendent of schools or through the county purchasing agent shall be made by order of the governing board of the community college district purchasing them, in the same manner as other payments are made from community college district funds.

82504. The governing board of each community college district throughout the state shall provide for each schoolhouse under its control, a suitable Flag of the United States, which shall be hoisted above each schoolhouse during all school sessions and on school holidays, weather permitting.

The governing board of each community college district shall provide smaller and suitable United States Flags to be displayed in each schoolroom at all times during the school sessions.

The governing board of each community college district shall enforce this section.

82505. If a board of school trustees of a community college district refuses or neglects to purchase and display United States Flags as provided in Sections 82504 and 82505, the county superintendent of schools shall purchase the flags and direct the instructor or instructors to display the flags as provided by law.

The superintendent shall draw his warrant on the current expense fund of the district in payment of the cost of such flags as he finds

necessary to purchase.

82506. Writing and drawing paper, pens, inks, blackboards, blackboard erasers, crayon, lead pencils, and other necessary supplies for the use of the schools, shall be furnished under direction of the governing boards of the community college districts.

82507. Charges for supplies shall be audited and paid in the same manner as other claims against the county school fund of the districts.

82508. The governing board of a community college district may pay in advance for postage stamps, permits and services provided by other governmental agencies, subscriptions to, or purchases or rentals of, newspapers, magazines, periodicals, single copies of books, films, filmstrips, recordings, and other publications, and for the maintenance of equipment under agreements not exceeding one year for the district and the schools thereof when such action will result in a decrease in the cost to the district or which cannot be secured without payment in advance.

82509. The governing board of a community college district may rent or lease personal property needed for district purposes.

82510. The governing board of any community college district may rent or purchase academic caps and gowns for faculty use at ceremonies.

82511. The governing board of a community college district may lend school band instruments, music, uniforms, and other regalia to persons who are or have been, during the prior school year, members of the school band for use by them on excursions to foreign countries whether or not such an excursion is sanctioned by the governing board.

The governing board may require the borrower to make a deposit or take other measures to insure that the items borrowed will be returned in usable condition.

## Article 2. Use of School Property, Public Purposes

82530. The governing board of any community college district may grant the use of school buildings or grounds for public, literary, scientific, recreational, educational, or public agency meetings, or for the discussion of matters of general or public interest upon such terms and conditions as the board deems proper, and subject to the limitations, requirements, and restrictions set forth in this chapter.

The governing board of any community college district may grant the use of school buildings or grounds to any church or religious organization for the conduct of religious services for temporary periods where such church or organization has no suitable meeting place for the conduct of such services upon such terms and conditions as the board deems proper, and subject to the limitations, requirements, and restrictions set forth in this chapter. Notwithstanding the provisions of Section 82542, the governing board shall charge the church or religious organization using such property for the conduct of religious services an amount at least

sufficient to pay the cost to the district of supplies, utilities and salaries paid school district employees necessitated by such use of such property.

82531. No use shall be inconsistent with the use of the buildings or grounds for school purposes, or interfere with the regular conduct of schoolwork.

82532. No use shall be granted in such a manner as to constitute a monopoly for the benefit of any person or organization.

82533. No privilege of using the buildings or grounds shall be granted for a period exceeding five years in the case of a community college district. The privilege is renewable and revocable in the discretion of the board at any time.

82534. The governing board of a community college district may allow the use of school buildings, facilities, grounds, and equipment for child care or day care programs established in cooperation with any city to provide supervision and activities for children of preschool and elementary school age. The governing board may also provide such supervisory, consultant, custodial, clerical, or other services as it deems advisable with respect to the need of such program and the service to the community.

82535. The governing board of a community college district may grant the use of school buildings, grounds, and equipment without charge to public agencies for the purpose of holding examinations for the selection of personnel, and for the instruction of precinct board members.

82536. The governing board of a community college district may grant the use of school buildings, grounds and equipment to public agencies, including the American Red Cross, for mass care and welfare shelters during disasters or other emergencies affecting the public health and welfare, and may cooperate with such agencies in furnishing and maintaining such services as the governing board may deem necessary to meet the needs of the community.

82537. There is a civic center at each and every public school building and grounds within the state where the citizens, parent-teachers' association, Camp Fire Girls, Boy Scout troops, farmers' organizations, school-community advisory councils, senior citizens' organizations, clubs, and associations formed for recreational, educational, political, economic, artistic, or moral activities of the public school districts may engage in supervised recreational activities, and where they may meet and discuss, from time to time, as they may desire, any subjects and questions which in their judgment appertain to the educational, political, economic, artistic, and moral interests of the citizens of the communities in which they reside. Governing boards of the community college districts may authorize the use, by such citizens and organizations of any other properties under their control, for supervised recreational activities.

82538. The use of any public schoolhouse and grounds for any meeting is subject to such reasonable rules and regulations as the

governing board of the district prescribes and shall in nowise interfere with the use and occupancy of the public schoolhouse and grounds, as is required for the purposes of the public schools of the state.

82539. The management, direction, and control of the civic center is vested in the governing board of the community college district.

82540. The governing board of the community college district shall make all needful rules and regulations for conducting the civic meetings and for such recreational activities as are provided for in this chapter and which aid, assist, and lend encouragement to the activities.

82541. The governing board of a community college district may appoint a person who shall have charge of the grounds, preserve order, protect the school property, plan, promote, and supervise recreational activities, and do all things necessary in the capacity of a representative of the board.

82542. The use of schoolhouses, property, and grounds pursuant to this chapter shall be granted free, except as otherwise provided by Section 82543, to public agencies, or to senior citizens' organizations or to other organizations, clubs, or associations organized for cultural activities (such as folk and square dancing) and general character building or welfare purposes.

For any other use of schoolhouses, property, and grounds pursuant to this chapter, including uses for which charges may be made under Section 82543, the governing board of a community college district may charge not to exceed an amount sufficient to pay the cost to the district of supplies, utilities, and salaries paid community college district employees necessitated by such use of schoolhouses, property, and grounds of the district.

82543. In the case of entertainments or meetings where admission fees are charged or contributions are solicited and the net receipts of the admission fees or contributions are not expended for the welfare of the students of the district or for charitable purposes a charge shall be made for the use of the schoolhouses, property, and grounds which charge shall not be less than the fair rental value for the use of such schoolhouses, property and grounds, as determined by the governing board of the district.

The governing board may, however, permit such use, without charge, by organizations, clubs, or associations organized for senior citizens and for cultural activities and general character-building or welfare purposes, when membership dues or contributions solely for the support of the organization, club, or association, or the advancement of its cultural, character-building or welfare work, are accepted.

82544. Lighting, heating, janitor service, and the services of the person when needed, and other necessary expenses, in connection with the use of public school buildings and grounds pursuant to this chapter, shall be provided for out of the county or special school

funds of the respective community college districts in the same manner and by the same authority as similar services are provided for.

82545. Any use, by any individual, society, group, or organization for the commission of any act intended to further any program or movement the purpose of which is to accomplish the overthrow of the government of the United States or of the state by force, violence, or other unlawful means shall not be permitted or suffered.

Any individual, society, group, or organization which commits any act intended to further any program or movement the purpose of which is to accomplish the overthrow of the government by force, violence or other unlawful means while using school property pursuant to the provisions of this chapter, is guilty of a misdemeanor.

82546. No governing board of a community college district shall grant the use of any school property to any person or organization for any use in violation of Section 82545.

For the purpose of determination by such governing board whether or not any individual, society, group or organization applying for the use of such school property intends to violate Section 82545, the governing board shall require the making and delivery to such governing board, by such applicant of a written statement of information in the following form:

#### STATEMENT OF INFORMATION

The undersigned states that, to the best of his knowledge, the school property for use of which application is hereby made will not be used for the commission of any act intended to further any program or movement the purpose of which is to accomplish the overthrow of the government of the United States by force, violence or other unlawful means;

That \_\_\_\_\_, the organization on whose behalf he is making application for use of school property, does not, to the best of his knowledge, advocate the overthrow of the government of the United States or of the State of California by force, violence, or other unlawful means, and that, to the best of his knowledge, it is not a Communist-action organization or Communist-front organization required by law to be registered with the Attorney General of the United States. This statement is made under the penalties of perjury.

---

(Signature)

The community college board may require the furnishing of such additional information as it deems necessary to make the determination that the use of school property for which application is made would not violate Section 82545.

Any person applying for the use of school property on behalf of any society, group or organization shall be a member of such applicant group and, unless he is an officer of such group, must present written

authorization from such applicant group to make such application.

The governing board of any community college district may, in its discretion, consider any statement of information or written authorization made pursuant to the requirements of this section as being continuing in effect for the purposes of this section for the period of one year from the date of such statement of information or written authorization.

82547. Written statements of information as required by Section 82546 need not be under oath, but shall contain a written declaration that they are made under the penalties of perjury, and any person so signing such statements who willfully states therein as true any material matter which he knows to be false, is subject to the penalties prescribed for perjury in the Penal Code.

## PART 50. FINANCE

### CHAPTER 1. STATE FINANCIAL MANAGEMENT AND CONTROL

#### Article 1. Moneys to Districts

84000. No assessor, tax collector, city, city and county, or county treasurer shall charge or receive any fees or compensation for assessing, collecting, receiving, keeping, or disbursing any school moneys, but the whole moneys collected shall be paid to the city, city and county, or county treasurer.

84001. The governing board of every community college district shall pay all moneys received or collected by it from any source and all moneys apportioned to it from taxes levied and collected under the authority of city councils for school purposes, into the county treasury to be placed to the credit of the proper fund of its district. All money collected by the city council or other governing body of any municipality from taxes levied for school purposes when received shall be paid into the county treasury to the credit of the school district for the schools of which the taxes were levied. All deposits and payments required by this section shall be made daily, unless the county superintendent of schools authorizes them to be made weekly or otherwise, but in no event less frequently than monthly.

84002. All moneys received by a community college district or paid into the county or city and county treasury to the credit of the district from state apportionments, county, district or municipal taxes, other than moneys required to be placed in a special reserve fund, a building fund or bond interest and sinking fund, and moneys authorized to be paid into a cafeteria fund or account, or school farm account, or moneys received for the rental or lease of real property which by resolution of the governing board may be deposited in any authorized fund of the district, shall be deposited in the general fund of the district, which fund is continued in existence in each county and city and county treasury.

Nothing in this section shall be construed as discontinuing, nor as affecting the disposition of moneys in emergency cash funds, in revolving funds for warehouse stock, in cafeteria funds or accounts, or school farm accounts, in special reserve funds, in building funds, or in bond interest and sinking funds created or established under this code.

84003. The governing board of a community college district may, by resolution, specify the particular fund or funds maintained for the district into which shall be deposited moneys received for the rental or lease of real property.

84004. The board of governors shall provide for a uniform system of accounting for all community colleges and shall by rule and regulation define and establish methods for accounting for revenues and expenses for community college purposes.

84005. The governing board of each community college district shall report annually the revenues and expenses of the district in accordance with rules and regulations of the board of governors and on forms furnished by the office of the chancellor.

84006. The maximum rate of tax of any community college district is hereby increased by such amount as will produce the amount proposed to be expended by the district pursuant to any lease agreement for plant and equipment as shown by the budget as finally adopted by the governing board of the district for the current fiscal year, less any unencumbered balances remaining at the end of the preceding fiscal year derived from the increase in the rate of tax provided by this section. A district shall not expend any of the revenue for costs incurred under a joint-powers agreement between two community college districts or between a community college district and another district or a governmental agency consummated after July 1, 1973.

The increase provided by this section shall not exceed the rate of tax levied in the county pursuant to Section 2102 during the fiscal year next preceding the formation of the district for all purposes, or ten cents (\$.10) per each one hundred dollars (\$100) of the assessed value of the property within the district, whichever is the greater.

If the district is situated in two or more counties, the increase provided by this section shall not exceed the highest rate of tax levied in any of the counties in which the district is situated pursuant to Section 2102 during the fiscal year next preceding the formation of the district for all purposes, or ten cents (\$.10) per each one hundred dollars (\$100) of the assessed value of property within the district, whichever is the greater.

If at the end of any school year there remains an unencumbered balance derived from the revenue of the increase in tax rate hereby provided, such balance shall be used exclusively in the following school year for the payment of any obligation incurred under the terms of a lease agreement for such school year.

The increases provided by this section to produce the amounts proposed to be expended pursuant to this section shall remain in

effect until the end of the third consecutive fiscal year following the date of the first election at which the first district bond issue for community college purposes is passed, or until the end of any four-year period in which no bond issue is submitted to the voters.

84007. (a) The increase in the maximum rate of tax authorized by Section 84006 shall remain in effect until the end of the seventh consecutive fiscal year following the date of the first election at which a bond issue for a community college was passed in any community college district in which such seventh consecutive fiscal year ends on June 30, 1975, and such first bond issue passed provided for the issuance of bonds at a rate of interest of 5 percent.

(b) The increase in the maximum rate of tax authorized by Section 84006 shall remain in effect until the end of the seventh consecutive fiscal year following the date of the first election at which a bond issue for a community college was passed in any community college district in which such seventh consecutive fiscal year ends on June 30, 1976.

(c) The increase in the maximum rate of tax authorized by Section 84006 shall remain in effect until the end of the seventh consecutive fiscal year following the date of the first election at which a bond issue for a community college was passed in any community college district in which such seventh consecutive fiscal year ends on June 30, 1978.

(d) The increase in the maximum rate of tax authorized by Section 84006 shall remain in effect until the end of the fourth consecutive fiscal year following the date the annexation by the community college district of the territory of a unified school district is effective for all purposes.

84008. The increase in the maximum rate of tax authorized by Section 84006 shall remain in effect until the end of the eighth consecutive fiscal year following the date of the first election at which a bond issue for a community college was passed in any community college district in which such eighth consecutive fiscal year ends on June 30, 1978.

This section shall remain in effect until June 30, 1978, and as of that date is repealed.

84009. Whenever the excess tax rate authorized by the voters of a single high school district of any type at an election prior to the formation of a community college district, the boundaries of which are coterminous with the boundaries of the high school district and which districts are governed by governing boards of identical personnel, is continued at the option of the governing boards of said districts as the maximum combined rate of both of said districts for combined high school and community college purposes pursuant to Section 74127 and the boundaries of such high school and community college districts thereafter become noncoterminous as a result of any community college district organization proceedings pursuant to this chapter or otherwise, such excess tax rate shall be continued at the option of the governing board of the high school district as the

maximum tax rate of said district for high school purposes for a period not to exceed the period of time for which such excess tax rate was so previously authorized by the voters of the high school district and so continued pursuant to said Section 74127.

## Article 2. Accounting, Budget Controls and Audits

84030. The accounting system used to record the financial affairs of any community college district shall be in accordance with the definitions, instructions, and procedures published in the Budget and Accounting Manual, California Community Colleges, as approved by the board of governors and furnished by the board of governors. No accounting manual so approved shall expressly or by implication affect the content of any educational program or objective, except as otherwise specifically provided for by this code. The Legislature hereby finds that such content shall be best determined by those involved in the administration of educational programs, including community college district governing boards, local administrators, instructors, students, and parents.

84031. The accounting system used to record the financial affairs of any community college district shall be designed to provide separate recording and clear distinction between expenditures for salaries of classroom instructors employed by the district and expenditures for other purposes of the district.

As used in this section "salaries of classroom instructors" means:

(a) The salary paid to each instructor employed by the district whose duties require that the full time for which the instructor is employed be devoted to the instruction of students of the district.

(b) The portion of the salary of each instructor whose duties require that a part, but not all, of the full time for which the instructor is employed be devoted to the instruction of students of the district, which is equal to the portion of such full time actually devoted by the instructor to teaching students of the district.

(c) The salary paid to each instructional aide employed by the district, any portion of whose duties are required to be performed under the supervision of an instructor.

As used in this section an "instructor" means an employee of the district employed in a position requiring certification qualifications and whose duties require him to teach students of the district for at least one full instructional period each schoolday for which the employee is employed. An instructional period is the number of minutes equal to the number of minutes of the regular academic period in the community college in which the instructor is employed.

84032. For purposes of determining allowances pursuant to Chapter 4 (commencing with Section 78600), Chapter 5 (commencing with Section 78700), and Chapter 6 (commencing with Section 78800) of Part 48 of this division the board of governors shall require the use of a uniform cost accounting procedure, as set forth in the Program Cost Accounting, of the Budget and Accounting

Manual, California Community Colleges.

84033. For the purpose of achieving clarity and uniformity in the budgeting and reporting of community college district expenditures by funds, whenever certain expenditures for any special program fund, for which a special fund is required by law, are: (1) authorized by law and by action of the governing board to be paid from the general fund of the district, or (2) required by law to be paid from the general fund of the district, the amount estimated or actually required to meet these expenditures shall be transferred or paid from the general fund to the special fund as appropriate.

Any amount transferred or paid in excess of the amount actually required shall be refunded to the general fund.

The board of governors is hereby authorized to adopt rules and regulations governing the method of accounting for said payments and transfers.

84034. Excepting only as provided in Articles 1 and 2 of this chapter, all constitutional and statutory limitations on the purposes for which moneys derived from particular specified sources may be expended, and all statutory provisions relative to the establishment of specified community college district funds, shall be administered by county superintendents of schools, or in the discretion of county auditors, by county superintendents of schools and county auditors by means of budgetary accounting and not by the establishment and maintenance in the county or city and county treasury of special community college district funds.

84035. The governing board of any community college district which, on or after May 28, 1943, has funds in a special reserve fund of the district or any surplus moneys not required for the immediate necessities of the district, is hereby authorized to invest all or any part of such funds in bonds, notes, bills, certificates, debentures or other obligations, issued by the United States of America, or obligations issued by banks for cooperatives, federal land banks, federal intermediate credit banks, federal home loan banks, the Federal Home Loan Bank Board, the Tennessee Valley Authority, or in obligations, participations, or other instruments of or issued by, or fully guaranteed as to principal and interest by, the Federal National Mortgage Association; or in participation certificates evidencing beneficial interests in obligations, or in the right to receive interest and principal collections therefrom, which obligations have been subjected by one or more government agencies to a trust or trusts for which any executive department, agency, or instrumentality of the United States (or the head thereof) has been named to act as trustee.

Any bonds, notes, bills or certificates, debentures or other obligations, so purchased may be sold and the proceeds reinvested in similar bonds, notes, bills or certificates, debentures or other obligations, of the United States of America, its agencies, or its instrumentalities, or placed in the county treasury for credit to the fund of the district from which purchased. This section shall not be

construed as in any way limiting or modifying the application of any other law providing for or authorizing the investment of any funds of a community college district. Notwithstanding any other provision of law, interest earned on funds representing the proceeds of bonds of the district shall be deposited and retained in the interest and sinking fund of the district to meet the principal and interest falling due on such bonds.

84036. The governing board of a community college district which has made an investment pursuant to the authority of Section 84035 may deposit such security for safekeeping with a state or national bank or trust company located within this state or with the Federal Reserve Bank of San Francisco or any branch thereof within the state, or with any Federal Reserve bank or with any state or national bank located in any city designated as a reserve city by the Board of Governors of the Federal Reserve System. The governing board shall take from such bank a receipt for the security so deposited. The county treasurer with whom such funds if uninvested would be deposited shall not be responsible for securities delivered to and receipted for by a bank under the authority of this section until they are withdrawn from the bank by said treasurer.

84037. The governing board of any community college district may deposit in one or more bank accounts as clearing accounts any miscellaneous receipts, including receipts from the sale of property or materials pursuant to Section 81457 or 81458, received or collected by the district, and may provide for the withdrawals from such accounts. All moneys in any such bank account shall be paid into the county treasury within the time periods specified pursuant to Section 84001. Cashiers' checks, certified checks, and money placed in the custody of the community college district as security that a bidder will execute or faithfully perform a contract, if awarded to him, may be deposited in any such bank account but shall not be paid into the county treasury to the credit of the district unless forfeited or unless unclaimed by the bidder for a period of 12 months.

Such bank accounts shall not be subject to the deposit of funds under the provisions of Article 2 (commencing with Section 53630), Chapter 4, Part 1, Division 2, Title 5 of the Government Code, except to the extent provided by Section 53679 of the Government Code.

84038. The governing board of any community college district having an average daily attendance of 100,000 or more may deposit in one or more bank accounts moneys received from the temporary rental of property acquired by a district pending construction of school facilities on such property. The moneys may be held in such accounts for a period of not to exceed three years and may be used to pay any proper costs incurred as a result of such temporary rental, provided that when such moneys are not being used to pay such costs they may be invested, along with all other moneys deposited in clearing accounts, pursuant to Section 84035 as determined by the governing board of any community college district.

84039. The governing board of any community college district

which maintains clearing accounts, cafeteria accounts, and other accounts in a bank or banks, pursuant to Section 84037 or 84002, or pursuant to any other provisions of law, may contract and pay for the expenses of transporting money to and from such bank or banks.

84040. Not later than the first day of May of each fiscal year each county superintendent of schools shall provide for an audit of all funds under his jurisdiction and control and the governing board of each community college district shall either provide for an audit of the books and accounts of the district or make arrangements with the county superintendent of schools having jurisdiction over the district to provide for such auditing. In the event the governing board of a community college district has not provided for an audit of the books and accounts of the district by April 1st, the county superintendent of schools having jurisdiction over the district shall provide for the audit.

Each audit shall include all funds of the district including the student body and cafeteria funds and accounts and any other funds under the control or jurisdiction of the district.

The cost of the audits provided for by the county superintendent of schools shall be paid from the county school service fund and the county superintendent of schools shall transfer the pro rata share of the cost chargeable to each district from district funds.

The cost of the audit provided for by a governing board shall be paid from district funds. The audit of the funds under the jurisdiction and control of the county superintendent of schools shall be paid from the county school service fund.

The audits shall be made by a certified public accountant or a public accountant, licensed by the State Board of Accountancy. Not later than November 15th, a report of each audit for the preceding fiscal year shall be filed with the county clerk and the county superintendent of schools of the county in which the district is located, the board of governors and the Department of Finance. The submission date may be extended to, but not later than, December 31 for justifiable cause upon written request by the auditor and approval by the county superintendent of schools. The board of governors shall make any adjustments necessary in future apportionments of state funds, to correct any discrepancies revealed by such audit reports under the provisions of Section 84330.

If a governing board or county superintendent of schools fails or is unable to make satisfactory arrangements for audit pursuant to this section, the Department of Finance may make arrangements for the audit and the cost of such audit shall be paid from district funds or the county school service fund as the case may be.

The Department of Finance with the cooperation of the board of governors shall prescribe the statements and other information to be included in the audit reports filed with the state. The Department of Finance may make such audits, surveys and reports, and may develop suggested procedures for carrying out the purposes of this section, as in the judgment of the department will serve the best

interests of the state.

Nothing in this section shall be considered as authorizing examination into or report on the curriculum used or provided for in any community college district.

84041. The governing board of every community college district shall require each employee of the district, whose duty it is to handle funds of the district, and may, in its discretion, require employees of the district, whose duty it is to handle property of the district, to be bonded under a suitable bond indemnifying the district against loss. Such bond may be a name schedule bond, schedule position bond or blanket bond, and shall be in such amount and type as the board shall consider necessary and desirable. The boards shall pay from the funds of the district the cost of the premium necessary to provide the bond.

84042. Except as provided in this section, any election held for the purpose of permitting a community college district to exceed the expenditure of district funds fixed by the Constitution or by the statutes of the state shall be called, held, and conducted as nearly as possible as are elections for the issuance of district bonds.

The notice of election shall contain only the following:

- (a) The time and place or places of holding the election.
- (b) The names of the officers appointed to conduct the election.
- (c) The hours during the day in which the polls will be open.
- (d) The amount by which it is proposed to increase the expenditures of the district during the school year.
- (e) The total amount of proposed expenditures of the district, including the proposed increase, for the school year.

The ballots used at the election shall contain the following language: "Shall the total authorized expenditures of the district be increased from \_\_\_\_\_ (naming the sum) to \_\_\_\_\_ (naming the sum) for the school year \_\_\_\_\_ (naming the school year)?"

The hours during which the polls at the election are open shall be fixed in accordance with the provisions of Section 14206 of the Elections Code.

### Article 3. Foundation Trust Fund

84050. Any community college district which receives bequests or gifts of money which is surplus money not required for the immediate necessities of the district may invest it pursuant to the provisions of this article.

84051. Any gift or bequest of money which is to be invested pursuant to this article shall be placed in a district special fund in the county treasury, to be designated as the foundation trust fund. If the gift or bequest of money is required to be used for specific purposes according to the terms of the gift or bequest, the governing board shall place the money in a separate account in the foundation trust fund, and may by resolution designate the separate account by the name that it shall be known, including in its name the term

“foundation trust account.”

84052. The money deposited in a separate account in the foundation trust fund shall be invested pursuant to this article or expended only for the purposes of the gift or bequest.

84053. The governing board of a community college district which has placed funds in the foundation trust fund is hereby authorized to invest all or any part of such funds as it deems wise and expedient as follows:

(a) In the securities, warrants, or instruments of indebtedness specified by Section 53601 of the Government Code.

(b) In corporate securities other than corporate shares, provided that the amount of investment under this subdivision shall not exceed 50 percent of the amount invested under subdivision (a).

Any security, warrant, or instrument of indebtedness purchased pursuant to this section may be sold and the proceeds reinvested in similar securities, warrants, or instruments, or placed in the foundation trust fund.

84054. The governing board of a community college district may deposit such securities, warrants, or instruments purchased under Section 84053 for safekeeping pursuant to Section 84036.

84055. The governing board of a community college district which places money in the foundation trust fund pursuant to this article shall appoint an advisory committee equal in number to the number of members of the governing board. The committee shall be composed of qualified electors of the district and may include members of the governing board. Members of the committee shall serve without compensation.

84056. The advisory committee shall advise the governing board as to the investments to be made pursuant to this article.

84057. The governing board shall adopt rules and regulations to effectuate the purposes of this article, not inconsistent with law.

84058. Except as may be otherwise provided in this article, other provisions of this chapter shall be applicable to the money placed in the foundation trust fund pursuant to this article.

#### Article 4. Miscellaneous

84070. Whenever the assessed valuation of a community college district is reduced as a result of the operation of Section 992 of the Revenue and Taxation Code, the district shall receive replacement revenue from the state for the loss of revenue to the district.

A community college district shall be eligible for replacement revenue when the assessed valuation exempted as the result of the operation of Section 992 of the Revenue and Taxation Code is 30 percent or more of the district's assessed valuation in the 1970-1971 fiscal year. A district shall be ineligible for replacement revenue when its assessed valuation has increased 250 percent or more over the 1970-1971 fiscal year assessed valuation.

84071. Whenever reference is made to “adults” in this division in

the context of apportionments to community college districts such reference shall be deemed to refer to persons 21 years of age or over notwithstanding any other provision of law.

Whenever reference is made to "minors" in this part in the context of apportionments to community college districts, such reference shall be deemed to refer to persons under 21 years of age notwithstanding Section 25 of the Civil Code or any other provision of law.

## CHAPTER 2. PROPERTY VALUATIONS FOR ALLOCATIONS

84200. On the basis of computations made by the State Board of Equalization, the secretary of that board shall certify on or before October 1st of each year to the Chancellor of the California Community Colleges the factor, carried to three decimal places, by which the total assessed value of all tangible property on the current local roll of each county must be modified to conform to the statewide average assessment level.

84201. Any state department, board, or agency which allocates funds to any community college district on the basis of the assessed valuation of property within the district, or which makes any computation on this basis for school building fund repayment purposes, shall average the factor certified for the current year under Section 84200 for the local roll of the county in which the district is located with the factors so certified for the two immediately preceding years. The department, board, or agency shall then modify that part of the valuation of the district shown on the local roll by application of this three-year-average factor carried to three decimal places. If a district is located in more than one county, this modification shall be made by applying the average factor appropriate for the assessed value of the property upon the local roll of each county within which the district is located.

84202. Notwithstanding any other provision of this code, whenever the assessed valuation of the community college district has been modified upward under Section 84201, measures to provide additional local tax revenues to provide the funds required to offset the decrease in school equalization aid resulting from such modification of the assessed value shall be undertaken pursuant to Section 84203.

84203. Whenever it appears that a community college district's state equalization aid and supplementary support will be less than they would be if no modification of the district's assessed valuation were required under Section 84201, the governing board of the district shall estimate the amount of the difference and shall certify the amount to the county superintendent of schools.

The county superintendent of schools shall certify to the county auditor of the county in which the districts are included the amounts required to offset such decrease of equalization aid, or supplemental support, or both, in all the districts under his jurisdiction. The county

auditor shall certify such amounts to the county board of supervisors who shall, at the time other taxes are levied, levy a tax upon all the assessed valuation of the county sufficient to provide the total of the amounts certified. Upon the collection of such taxes the county auditor shall pay to each community college district the amount certified as required to offset the decrease in equalization aid or supplemental support.

84204. Notwithstanding any provision of this chapter or any other provision of law to the contrary, the certifications required by Section 84203 may be made at any time prior to the time county and district taxes are required to be levied.

Notwithstanding the provisions of Sections 85200 and 85210 or any other provision of this code to the contrary, the governing board of a community college district may budget and use the amounts paid to the community college district collected from any such tax levied pursuant to Section 84203.

84205. If, for any reason, the tax required by Section 84203 to be levied and collected during a fiscal year to offset decreases in state equalization aid and supplemental support is not so levied and collected during the fiscal year, the same shall be levied and collected during the next succeeding fiscal year. The county superintendent of schools and the county auditor shall make the certifications of the amount to be raised by such tax in the manner prescribed by Section 84203, and the board of supervisors shall, in such succeeding fiscal year, at the time other taxes are levied, levy a tax on all the assessed valuation of the county sufficient to provide the total of the amounts certified, and the same shall be paid to the affected school districts as otherwise required by Section 84203.

84206. The Legislature hereby declares that its sole motive in enacting this chapter is to provide a reasonable and equitable method for ascertaining the value of property located within community college districts for use in connection with the administration of state laws providing for the allocation of state funds to such districts for school purposes on the basis of value. The Legislature hereby further declares that in enacting this chapter it has no intention to affect in any way, whether directly or indirectly, any determination of the assessed value of property for tax purposes; and that it has no intention by such enactment to modify any phase or aspect of the process of property taxation in any respect whatsoever, except to the limited extent necessary for tax levy adjustment purposes in accordance with this chapter.

### CHAPTER 3. STATE SCHOOL FUND

#### Article 1. Maintenance, Disbursements and Sources

84300. The amount transferred to Section B of the State School Fund pursuant to subdivision (a) of Section 14020 shall be expended for community college basic aid, equalization aid, and allowances for

adults in programs maintained in conjunction with community colleges, to be apportioned on account of average daily attendance.

84301. The amount transferred to Section B of the State School Fund pursuant to subdivision (b) of Section 14030 shall be expended in accordance with the following schedule:

(a) Two hundred eighty-nine dollars and seventy cents (\$289.70) multiplied by the total average daily attendance credited to community college districts during the preceding fiscal year for basic aid and equalization aid to be apportioned to community college districts on account of average daily attendance.

(b) Five dollars and eighty-five cents (\$5.85) multiplied by total average daily attendance credited to community college districts during the preceding fiscal year for the purposes of Chapter 4 (commencing with Section 78700) and Chapter 5 (commencing with Section 78800) of Part 48 of this division, and Sections 84817 and 84820.

(c) One dollar and seventy-six cents (\$1.76) multiplied by the total average daily attendance credited to community college districts during the preceding fiscal year for the purposes of Chapter 4 (commencing with Section 78600) of Part 48 of this division.

(d) One dollar and seventy-six cents (\$1.76) multiplied by the total average daily attendance credited to community college districts during the preceding fiscal year for the purposes of Article 9 (commencing with Section 84810) of Chapter 5 of this part.

(e) Two dollars and eighty-two cents (\$2.82) multiplied by the average daily attendance during the preceding school year credited to all community college districts for the purpose of Article 11 (commencing with Section 84850) of Chapter 5 of this part.

84302. The chancellor shall report to the Controller, on or before the 25th day of September of each year, the total average daily attendance during the preceding fiscal year credited to all community college and adult schools in the state.

84303. To provide for the operation of newly organized community college districts, moneys in the School District Organization Revolving Fund in the State Treasury shall be utilized for purposes of making loans to newly organized community college districts pursuant to Article 4 (commencing with Section 84340) of this chapter. The School District Organization Revolving Fund shall be comprised of five hundred thousand dollars (\$500,000) appropriated from the County School Service Fund Surplus Account, and an additional amount of one hundred thousand dollars (\$100,000) otherwise transferable from the General Fund to the State School Fund.

Notwithstanding any provision of Section 14002 to the contrary, the amount to be transferred from the General Fund to the State School Fund in the 1967-1968 fiscal year pursuant to subdivision (b) of Section 14002 shall be reduced by one hundred thousand dollars (\$100,000), and such amount shall be paid into the School District Organization Revolving Fund.

## Article 2. Emergency Apportionments

84309. A governing board of a community college district which determines during a fiscal year that its revenues are less than the amount necessary to meet its current year expenditure obligations may request an emergency apportionment through the board of governors subject to the requirements and repayment provisions of this article.

It is not the intent of the Legislature that this section authorize emergency loans to community college districts for the purpose of meeting cash flow requirements pending the receipt of local taxes and other funds.

It is further the intent of the Legislature that no such emergency apportionments occur unless funds have been specifically appropriated therefor by the Legislature.

(Amended by Stats. 1976, Ch. 1011.)

## [ORIGINAL SECTION]

84309. A governing board of a community college district which determines during a fiscal year that its revenues are less than the amount necessary to meet its current year expenditure obligations may request an emergency apportionment through the board of governors subject to the requirements and repayment provisions of Article 2 (commencing with Section 84310) of this chapter

It is not the intent of the Legislature that this section authorize emergency loans to community college districts for the purpose of meeting cash flow requirements pending the receipt of local taxes and other funds.

It is further the intent of the Legislature that no such emergency apportionments occur unless funds have been specifically appropriated therefor by the Legislature.

84310. Before any apportionment is made pursuant to the provisions of Section 84309, the following requirements shall be met:

(a) The community college district requesting the apportionment shall submit to the county superintendent of schools having jurisdiction over the district a report prepared by an independent auditor approved by the county superintendent of schools on the financial and budgetary conditions of the district, a written management review conducted by a qualified management consultant approved by the county superintendent of schools, and a plan adopted by the governing board to resolve the financial problems of the district.

(b) The county superintendent of schools shall review the independent auditor's report, the management review, and the district plan.

(c) The county superintendent of schools shall submit to the chancellor, the Joint Legislative Audit Committee, the Joint Legislative Budget Committee, and the Director of Finance a copy of the reports and plan specified in subdivision (a).

(d) The chancellor shall review the reports submitted to him by the county superintendent of schools and shall certify to the Director of Finance that the action taken to correct the financial problems of the district is realistic and will result in placing the district on a sound financial basis.

(e) The Legislature shall have specifically appropriated sufficient funds to make the apportionment. The act making such appropriation shall contain a schedule of repayments made pursuant to this article.

84311. The governing board of a community college district requesting apportionment shall, in its annual budget for the year succeeding the year in which it requests apportionment, expressly indicate the utilization of the plan to resolve its financial problems. If such plan extends beyond the next succeeding year, then subsequent budgets for years to which the plan is applicable shall similarly indicate such utilization.

84312. No more than 18 months after the disbursement of funds to the community college district, the county superintendent of schools shall make a followup review on the action taken and shall submit a report to the chancellor and the Director of Finance of the results of the action taken to correct the financial problems of the district.

84313. The emergency apportionment shall be repaid to the state over a three-year period, or less, together with interest at a rate equal to the rate established for the most recent sale of state bonds as of the date of the disbursement of funds to the district.

84314. The chancellor shall withhold from the apportionments to be made to the district from Section B of the State School Fund in each year an amount equal to the amount which becomes due in the year.

### Article 3. Duties of the Chancellor

84320. The Chancellor of the California Community Colleges shall on or before July 15th of each year certify to the Controller the amounts estimated to be apportioned to each effective community college district during the current fiscal year on the basis of the report of the districts for the second principal apportionment of the preceding fiscal year, and the amounts estimated by the Chancellor of the California Community Colleges to be apportioned to the county school service fund during the current fiscal year under subdivisions (a) and (b) of Section 23004. This apportionment shall be called the advance apportionment.

84321. If, due to changes in federal legislation, the entitlement under Public Law 874 of the 81st Congress for the 1972-1973 fiscal year has been reduced substantially in a district, the district superintendent may petition the chancellor for an advance of funds from the General Fund during such fiscal year of a part of the first principal apportionment to such district for the 1973-1974 fiscal year, which advance shall not exceed the amount of the computed reduction. There is hereby appropriated from the General Fund sufficient funds as needed to make the advance of funds as authorized pursuant to this section.

If, upon review of a request, the Director of Finance and the chancellor deem it necessary to provide an advance of funds, they shall certify to the Controller the amount of the advance to be allowed, and the Controller shall transfer such amount to the district, to be repaid by reducing the first principal apportionment to be made to the district during the 1973-1974 fiscal year or alternatively, at the option of the district with the approval of the Director of Finance and the chancellor, by the withholding of equal amounts from the first principal apportionments to be made to the district during the 1973-1974, 1974-1975, and 1975-1976 fiscal years. The total amount withheld shall equal the amount of the advance, plus interest, if repayment is not made during the 1973-1974 fiscal year, at a rate to be determined by the Director of Finance.

84322. The chancellor shall on or before February 20th of each year apportion to each community college district, the total amounts allowed to them under Sections 84760, 84770, 84780, 84781, 84817, 84820, 84832, 84834, 84835, 84836, and 84838. This apportionment shall be called the first principal apportionment.

84323. The chancellor shall on or before December 10th of each year apportion:

To each community college district, the total of amounts allowed to them under Sections 84810 to 84816, inclusive.

This apportionment shall be called the special purpose apportionment.

84324. The chancellor shall on or before June 25th of each year apportion to each community college district, the total amounts allowed to them under Sections 84760, 84770, 84780, 84781, 84817, 84820, 84832, 84834, 84835, 84836 and 84838. This apportionment shall be called the second principal apportionment.

84325. The chancellor shall on or before June 25th of each year apportion to each community college district the total of the amounts allowed to the district under Section 84882. This apportionment shall be called the final apportionment.

(Amended by Stats. 1976, Ch. 1011.)

[ORIGINAL SECTION]

84325 The chancellor shall on or before June 25th of each year apportion to each community college district the total of the amounts allowed to the district under Section 41972. This apportionment shall be called the final apportionment.

84326. The chancellor shall apportion at such times as needed the amounts allowed pursuant to Section 14055.

84327. The chancellor shall withhold from the apportionment to a community college district, as a part of the first principal apportionment and second principal apportionment, the amount allowed the district for the average daily attendance in grades 13 and 14 by reason of the operation of Section 84721 of pupils residing in the district who were in attendance at a community college in another district. The amount withheld per unit of average daily attendance shall be determined by dividing the total amount of basic

state aid and state equalization aid computed for the district of residence of such students by the total foundation program average daily attendance of the district.

The chancellor shall add the amount withheld to the apportionment required to be made to the community college district maintaining the community college at which the students were in attendance.

84328. The chancellor shall certify each apportionment made by him under Sections 84322 to 84329, inclusive, whichever are in effect, to the State Controller.

84329. The chancellor shall furnish an abstract of each apportionment of the State School Fund to the State Controller, the Department of Finance and to the county and city and county auditors, county and city and county treasurers, and to the county superintendents of schools of the several counties of the state.

84330. If during any fiscal year there is apportioned to a community college district or to any fund from Section B of the State School Fund at least one hundred dollars (\$100) more or at least one hundred dollars (\$100) less than the amount to which the district or fund was entitled, the chancellor, in accordance with regulations that he is herewith authorized to adopt not later than the third succeeding fiscal year shall withhold from, or add to, the apportionment made during such fiscal year, the amount of such excess or deficiency, as the case may be. Notwithstanding, any other provision of this code to the contrary, excesses withheld or deficiencies added by the chancellor under this section shall be added to or allowed from any portion of Section B of the State School Fund except that portion reserved as allowances for basic state aid.

84331. When any judgment has been rendered which requires the apportionment from Section B of the State School Fund to any district, to any other agency, or to any fund for any fiscal year of more than the amount actually apportioned thereto during such fiscal year, the difference shall be apportioned to the district, agency, or fund by the chancellor from Section B of the State School Fund during the fiscal year following that in which the judgment becomes final before any other apportionment from Section B of the State School Fund is made. Upon the becoming final of any judgment which requires the apportionment from Section B of the State School Fund to any community college district, to any other agency, or to any fund for any fiscal year of less than the amount actually apportioned thereto during any fiscal year, the difference shall be deducted from the apportionment made to such district, agency, or fund by the chancellor from Section B of the State School Fund during the fiscal year following that in which the judgment becomes final.

84332. Wherever the attendance of students is not included in the computation of the average daily attendance of a community college district for any fiscal year because the certification document of the person employed by the district to instruct such students was not in

force during the period of such attendance, the governing board of the district may, upon payment of the salary of such person pursuant to Section 87810, or similar provisions of law, report such attendance to the chancellor during the fiscal year in which such salary is paid. Such report shall be made in such form as shall be prescribed and furnished by the chancellor. Thereafter the chancellor shall add to the apportionment from the State School Fund to the district during the next succeeding fiscal year or years, as determined by him but not exceeding three, the additional amount to which the district would have been entitled in the fiscal year next succeeding that in which such attendance was not included in the computation of the average daily attendance of the district if such amount is at least one hundred dollars (\$100) or more.

Any such additional amount shall be apportioned from the State School Fund before any other apportionment from such fund is made and shall be allowed from any portion of such fund except that portion reserved as allowances for basic state aid.

84333. The Board of Governors of the California Community Colleges shall allow to each community college district for the education of severely mentally retarded students in special classes during the current fiscal year an amount computed as follows:

(a) It shall divide the average daily attendance in each particular class-size category by the maximum class size established for each particular class-size category, and increase the quotient to the next highest integer where a fractional amount is produced.

(b) It shall then determine for each particular class-size category the product of the amount computed under subdivision (a) multiplied by the maximum class size established by law for special day classes for the particular category.

(c) It shall then multiply the amount computed under subdivision (b) by the following amount of the particular level and category:

	Community college grades (13-14)
Category	
Mentally retarded (as defined in Section 6903)	
Class-size maximum of 12 .....	\$630

Article 4. Loans and Advances to New Districts

84340. Loans may be made by the Chancellor of the California Community Colleges from the Community College District Organization Revolving Fund at any time during the period from the date the action to form the district was completed and the date the district becomes effective for all purposes, or during the first three years of the existence of any newly formed community college district in amounts necessary to enable the district to meet the current expenses of operation. A loan may be made upon approval,

by the chancellor, of an application therefor submitted by the governing board of a newly formed community college district. A loan may be made only if the chancellor determines that the applicant newly formed community college district is in need of funds to meet the current expenses of operation, and that the general purpose tax rate of the district for the fiscal year in which the application is submitted is at least equal to the average of such rates applicable at that time in other districts maintaining community colleges in the same county or in adjacent counties.

For purposes of this section the chancellor may prescribe the form in which applications are to be submitted, and may require the submission of such information and data by the applicant district as he may deem necessary to make any required determinations.

During each of the five fiscal years immediately succeeding the fiscal year in which a loan is made under this section, the State Controller shall deduct from apportionments made from Section B of the State School Fund to the newly formed community college district an amount equal to one-fifth of the amount loaned to the district, and pay the same amount into the Community College District Organization Revolving Fund.

84341. Upon approval of the Board of Governors of the California Community Colleges, an advance of apportionments from Section B of the State School Fund may be made to any community college district applying therefor for the purpose of meeting the cost of developing preliminary plans for the construction of community college facilities in the district.

The board of governors may approve an advance in apportionments to a district when it has first been shown to the satisfaction of the board that: (a) the district has no uncommitted funds available to meet the cost of developing preliminary plans; and (b) the inability to develop preliminary plans will delay the placing of an application for state support for construction, and the ultimate completion of the community college facility.

The Controller shall withhold from apportionments from Section B of the State School Fund to the district receiving an advance apportionment, one-third of the amount advanced, in each of the three subsequent fiscal years, plus interest as determined by the Director of Finance.

## Article 5. Use of Apportionments

84360. The governing board of each community college district shall, except as may otherwise be specifically provided by law, use all money apportioned to the district from the State School Fund during any fiscal year exclusively for the support of the school or schools of the district for that year.

84361. If at the end of any fiscal year during which the schools of a community college district have been maintained for the period required or permitted by law, there is standing to the credit of the

district an unexpended balance of money received from the State School Fund, it may be expended for the payment of claims against the district outstanding, or it may be expended during the succeeding fiscal year.

84362. For purposes of this section:

(a) "Salaries of classroom instructors" and "instructors" shall have the same meanings as prescribed by Section 84031 provided, however, that the cost of all health and welfare benefits provided to the instructors by the community college district shall be included within the meaning of salaries of classroom instructors.

(b) "Current expense of education" means expenditures for certificated salaries other than certificated salaries for student transportation, food services, and community services; classified salaries other than classified salaries for student transportation, food services, and community services; employee benefits other than employee benefits for student transportation personnel, food services personnel, and community services personnel; books, supplies, and equipment replacement other than for student transportation and food services; and community services, contracted services, and other operating expenses other than for student transportation, food services, and community services. "Current expense of education," for purposes of this section shall not include expenditures classified as sites, buildings, books, and media and new equipment (object of expenditure 6000 of the Accounting Manual for California Community Colleges) or expenditures for facility acquisition and construction.

There shall be expended during each fiscal year for payment of salaries of classroom instructors by a community college district, fifty percent (50%) of the district's current expense of education.

If the board of governors determines that a district has not expended the applicable percentage of current expense of education for the payment of salaries of classroom instructors during the preceding fiscal year, the board shall, in apportionments made to the district from the State School Fund after April 15 of the current fiscal year, designate an amount of such apportionment or apportionments equal to the apparent deficiency in district expenditures. Any amount so designated by the board of governors shall be deposited in the county treasury to the credit of the community college district, but shall be unavailable for expenditure by the district pending the determination to be made by the board of governors on any application for exemption which may be submitted to the board of governors. In the event it appears to the governing board of a community college district that the application of the preceding paragraphs of this section during a fiscal year results in serious hardship to the district, or in the payment of salaries of classroom instructors in excess of the salaries of classroom instructors paid by other districts of comparable type and functioning under comparable conditions, the governing board may, with the written

approval of the county superintendent of schools having jurisdiction over the district apply to the board of governors in writing not later than September 15th of the succeeding fiscal year for exemption from the requirements of the preceding paragraphs of this section for the fiscal year on account of which the application is made. Upon receipt of such application, duly approved, the board of governors shall grant the district exemption for any amount that is less than one thousand dollars (\$1,000), and if the amount is one thousand dollars (\$1,000), or greater may grant the district exemption, to the extent deemed necessary by him, from such requirements for the fiscal year on account of which the application is made. If such exemption is granted, the designated moneys shall be immediately available for expenditure by the community college district governing board. If no application for exemption is made or exemption is denied, the board of governors shall order the designated amount or amount not exempted to be added to the amounts to be expended for salaries of classroom instructors during the next fiscal year.

The board of governors shall enforce the requirements prescribed by this section, and may adopt necessary rules and regulations to that end. It may require the submission during the school year, by community college district governing boards and county superintendents of schools, of such reports and information as may be necessary to carry out the provisions of this section.

(Amended by Stats. 1976, Ch. 1011.)

[ORIGINAL SECTION]

84362 For purposes of this section:

(a) "Salaries of classroom instructors" and "instructors" shall have the same meanings as prescribed by Section 84031 provided, however, that the cost of all health and welfare benefits provided to the instructors by the community college district shall be included within the meaning of salaries of classroom instructors.

(b) "Current expense of education" means expenditures for certificated salaries other than certificated salaries for student transportation, food services, and community services, classified salaries other than classified salaries for student transportation, food services, and community services, employee benefits other than employee benefits for student transportation personnel, food services personnel, and community services personnel; books, supplies, and equipment replacement other than for student transportation and food services; and community services, contracted services, and other operating expenses other than for student transportation, food services, and community services "Current expense of education," for purposes of this section shall not include expenditures classified as sites, buildings, books, and media and new equipment (object of expenditure 6000 of the California School Accounting Manual) or expenditures for facility acquisition and construction.

There shall be expended during each fiscal year for payment of salaries of classroom instructors by a community college district, fifty percent (50%) of the district's current expense of education.

If the board of governors determines that a district has not expended the applicable percentage of current expense of education for the payment of salaries of classroom instructors during the preceding fiscal year, the board shall, in apportionments made to the district from the State School Fund after April 15 of the current fiscal year, designate an amount of such apportionment or apportionments equal to the apparent deficiency in district expenditures. Any amount so designated by the board of governors shall be deposited in the county treasury to the credit of the community college district, but shall be unavailable for expenditure by the district pending the determination to be made by the board of governors on any application for exemption

which may be submitted to the board of governors. In the event it appears to the governing board of a community college district that the application of the preceding paragraphs of this section during a fiscal year results in serious hardship to the district, or in the payment of salaries of classroom instructors in excess of the salaries of classroom instructors paid by other districts of comparable type and functioning under comparable conditions, the governing board may, with the written approval of the county superintendent of schools having jurisdiction over the district apply to the board of governors in writing not later than September 15th of the succeeding fiscal year for exemption from the requirements of the preceding paragraphs of this section for the fiscal year on account of which the application is made. Upon receipt of such application, duly approved, the board of governors shall grant the district exemption for any amount that is less than one thousand dollars (\$1,000), and if the amount is one thousand dollars (\$1,000), or greater may grant the district exemption, to the extent deemed necessary by him, from such requirements for the fiscal year on account of which the application is made. If such exemption is granted the designated moneys shall be immediately available for expenditure by the school district governing board. If no application for exemption is made or exemption is denied, the board of governors shall order the designated amount or amount not exempted to be added to the amounts to be expended for salaries of classroom instructors during the next fiscal year.

The board of governors shall enforce the requirements prescribed by this section, and may adopt necessary rules and regulations to that end. It may require the submission during the school year, by community college district governing boards and county superintendents of schools, of such reports and information as may be necessary to carry out the provisions of this section.

84363. The board of governors shall, no later than the 10th calendar day of each year of the Legislature, submit to the Legislature a written report on the operation, effect, and the extent of compliance with the provisions of Section 84362 by community college districts in the state during the two most recently ended fiscal years. The report shall describe the activities of the board of governors, and the chancellor's office, undertaken to insure compliance with the provisions of Section 84362, and may contain recommendations for legislation pertaining to that subject.

#### Article 6. Disqualifying Districts for Apportionments

84370. No community college district, other than one newly formed, shall, except as otherwise provided in this article, receive any apportionment from the State School Fund unless it has maintained the regular day schools of the district for at least 175 days during the next preceding fiscal year.

For the purposes of this article, the Board of Governors of the California Community Colleges shall establish standards to determine whether the districts within its jurisdiction have maintained the regular day schools of the district for at least 175 days during the next preceding fiscal year.

84371. A community college district is a newly formed district up to the close of the fiscal year in which its formation became effective for all purposes.

84372. A community college district which is prevented from maintaining its schools during a fiscal year for at least 175 days because of fire, flood, or epidemic, or because of any order of any

military officer of the United States or of the state to meet an emergency created by war, or of any civil officer of the United States, of the state, or of any county, city and county, or city authorized to issue such order to meet an emergency created by war, or because of other extraordinary conditions, or because of inability to secure or hold an instructor, or because of the illness of the instructor, which fact shall be shown to the satisfaction of the board of governors by the affidavits of the members of the governing board of the community college district and of the county superintendent of schools, shall receive the same apportionment from the State School Fund as it would have received had it not been so prevented from maintaining school for at least 175 days.

84373. No community college district shall receive any apportionment from the State School Fund on account of any community college which has failed for three consecutive years to comply with the standards prescribed by the board of governors for accredited community colleges.

84374. When a community college district is formed to include all of the territory of a high school district or a unified district, no apportionment of funds from the State School Fund shall be made to the high school district or the unified district on account of students attending community college in such district during the school year in which the new community college district becomes effective for all purposes or thereafter.

#### CHAPTER 4. AVERAGE DAILY ATTENDANCE

##### Article 1. General Provisions

84500. (a) For purposes of computing the average daily attendance of a community college district, attendance shall also include student attendance and participation in approved coordinated instruction systems programs of instruction using television, computer-assisted instruction, automated audiovisual systems, programmed learning materials, and other similar teaching techniques, under the coordination and evaluation of an employee who possessed an appropriate certification document, but not requiring the immediate supervision of such employee. Approved coordinated instruction systems programs of instruction are those recommended by the governing board of the district maintaining the community college and approved by the Board of Governors of the California Community Colleges. One student contact hour is to be counted for each unit of coordinated instruction systems credit in which a student is enrolled during any census period. The state aid apportionment made by the board of governors shall not be greater than one-half the current costs of conducting approved coordinated instruction systems programs of instruction. Coordinated instruction systems programs of instruction shall be conducted by employees of the district who possess valid credentials or certification documents,

who shall determine the need for immediate supervision of the programs of instruction. Such employees shall evaluate individual student progress and assign appropriate grades for students enrolled in classes taught by the coordinated instruction systems programs of instruction.

(b) For the purpose of work experience education programs in the secondary schools meeting the standards of the California State Plan for Vocational Education, "immediate supervision" of off-campus work training stations means pupil participation in on-the-job training as outlined under a training agreement, coordinated by the school district under a state-approved plan, wherein the employer and certificated school personnel share the responsibility for on-the-job supervision. The pupil-teacher ratio in any such work experience program shall not exceed 125 students per full-time equivalent certificated coordinator. A pupil enrolled in such work experience program shall not be credited with more than one day of attendance in any calendar day, and shall be a full-time student enrolled in regular classes meeting the requirements set forth in Section 76313.

(c) For purposes of computing the average daily attendance of a community college district, attendance shall also include student attendance and participation in in-service training courses in the areas of police, fire, corrections, and other criminal justice system occupations that conform to all apportionment attendance and course of study requirements otherwise imposed by law; provided that such courses are fully open to the enrollment and participation of the public pursuant to subdivision (2) of Section 78450; and provided further, that prerequisites for such courses shall not be established or construed so as to prevent academically qualified persons not employed by agencies in the criminal justice system from enrolling in and attending such courses.

(d) In the event that certain in-service training courses are restricted to employees of police, fire, corrections, and other criminal justice agencies, attendance for such restricted courses shall not be reported for purposes either of state apportionments or district revenue limits computed pursuant to Sections 85132 and 85140. Notwithstanding the provisions of Section 78450, a community college district which restricts enrollment in such in-service training courses may contract with any public agency to provide compensation for the cost of conducting such courses.

(e) Positive records of student admissions and daily attendance in all in-service training courses in the areas of police, fire, corrections, and other criminal justice system occupations, as described in subdivision (c), shall be maintained by each district and shall be separately reported annually to the chancellor's office of the California Community Colleges.

84501. Whenever it is necessary to compute the average daily attendance of a community college of a district for any certain

purpose and no provision is made for the computation thereof for such purpose, the average daily attendance of the school shall be computed by dividing the total number of days of student attendance allowed by the number of days school was actually taught in the regular day schools of the district, exclusive of Saturdays or Sundays.

(Added by Stats. 1976, Ch. 1011.)

84502. (a) If any computation of average daily attendance made under, or necessitated by, any provision of law results in a fraction of less than one-half of a unit, the average daily attendance shall be taken as the next lowest whole number, except that if such computation results in an average daily attendance of less than one unit, the average daily attendance shall be deemed to be one unit; but if the fraction is one-half or more of a unit, the average daily attendance shall be taken as the next highest whole number.

(b) Whenever any reference is made to a specific whole number of units of average daily attendance said number shall include any fraction above said number which is less than one-half of a unit, and any fraction of one-half or more of a unit above the next lowest whole number.

84503. Notwithstanding anything in this code to the contrary when as a result of the reorganization of community college districts, or the change of community college district boundaries, and if the board of governors determines that a community college district in which students reside does not have suitable quarters in which to maintain college for all the day students of the district, or that for other good and sufficient reasons the education of students in the district in which they reside is not practical or in the best interests of such students, the governing board of the district of residence shall contract with the governing board of another community college district for the education of those for whom suitable quarters are not available, or who should be educated in another district, as determined by the board of governors. No contract for the education of students under this paragraph shall be authorized subsequent to the close of the third fiscal year following that in which the district of residence is formed or reorganized, or the boundaries of the district changed, for all purposes.

Such contract shall provide for the payment of tuition in such amount and in the manner as may be agreed upon by the governing board of the district of attendance and the governing board of the district of residence. The tuition agreed upon shall not be an amount in excess of the actual cost to the district of attendance for the education of such students, less federal funds apportioned or allocated to the district of attendance on account of such students, and shall be payable during the current college year of attendance.

Any contract for the education of students residing in a community college district made by the governing board of the district in accordance with the provisions of this section shall be deemed for all

purposes to be or have been the maintenance of a college within the boundaries of the district. The average daily attendance of all students attending college in a district other than the district in which they reside, pursuant to such contract, shall be credited to the district of residence for apportionment purposes.

The provisions of this section shall apply to any contract made by governing boards of community college districts pursuant to this section during the fiscal year 1953-54, and thereafter, and attendance of students under such a contract shall be credited in the manner prescribed by this section.

(Amended by Stats 1976, Ch. 1011.)

[ORIGINAL SECTION]

84503. Notwithstanding anything in this code to the contrary when as a result of the reorganization of community college districts, or the change of community college district boundaries, and if the board of governors determines that a community college district in which students reside does not have suitable quarters in which to maintain school for all the day students of the district, or that for other good and sufficient reasons the education of students in the district in which they reside is not practical or in the best interests of such students, the governing board of the district of residence shall contract with the governing board of another community college district for the education of those for whom suitable quarters are not available, or who should be educated in another district, as determined by the board of governors. No contract for the education of students under this paragraph shall be authorized subsequent to the close of the third fiscal year following that in which the district of residence is formed or reorganized, or the boundaries of the district changed, for all purposes.

Such contract shall provide for the payment of tuition in such amount and in the manner as may be agreed upon by the governing board of the district of attendance and the governing board of the district of residence. The tuition agreed upon shall not be an amount in excess of the actual cost to the district of attendance for the education of such students, less federal funds apportioned or allocated to the district of attendance on account of such students, and shall be payable during the current school year of attendance.

Any contract for the education of students residing in a community college district made by the governing board of the district in accordance with the provisions of this section shall be deemed for all purposes to be or have been the maintenance of a school within the boundaries of the district. The average daily attendance of all students attending school in a district other than the district in which they reside, pursuant to such contract, shall be credited to the district of residence for apportionment purposes.

The provisions of this section shall apply to any contract made by governing boards of community college districts pursuant to this section during the fiscal year 1953-54, and thereafter, and attendance of students under such a contract shall be credited in the manner prescribed by this section.

84504. Notwithstanding any other provision of law, the average daily attendance of students enrolled in summer schools shall be credited to the community college district in the fiscal year in which the last day of the summer school falls.

## Article 2. Computation

84520. The units of average daily attendance for apportionment purposes of regularly enrolled students of a community college district in 13th- and 14th-grade courses during the academic year, as

defined in Section 71027, exclusive of adults as defined in Section 78460, shall be computed by multiplying the weekly student contact hours of enrollment as recorded for the census day of the fourth week of five or six consecutive schooldays each semester or quarter by statewide factors heretofore established by the board of governors, subject to review by the Department of Finance. The census day shall be Monday of the fourth week of regularly scheduled classes in the semester or quarter.

Such factors shall be reviewed from time to time by the board of governors, subject to review by the Department of Finance.

Attendance of such students enrolled in classes conducted in summer sessions, as distinct from summer quarters, of four weeks or more shall be counted in the computation of average daily attendance for apportionment purposes under the provisions of this section using the following formula: Multiply the sum of the weekly student contact hours of enrollment in each class during the census week of each class of the summer session by the number of scheduled weeks for each class, multiply the product so derived by the statewide factors established by the board of governors, subject to review by the Department of Finance, and divide by 525. The census day shall be Monday of the second week. For classes of less than four weeks, the units of average daily attendance shall be computed by dividing the total actual class hours of attendance by 525.

84521. For the purposes of this section a short-term class, exclusive of Sections 84500 and 84530, is any class scheduled for less than a full quarter, semester, or other sessions as approved by the Chancellor of the California Community Colleges to meet the requirements of Section 84370.

Notwithstanding Section 84520, units of average daily attendance of students, including adults as defined in Section 78460, enrolled in credit and noncredit short-term classes qualifying for a state apportionment in the 1974-75, 1975-76, 1976-77, and 1977-78 school years shall be computed by dividing actual class hours of attendance by 525. The attendance of adults as defined in Section 78460 shall be kept separately from all other attendance.

This section shall remain in effect only until July 1, 1978, and is repealed as of that date.

84522. The board of governors shall, with the approval of the Department of Finance, determine two census weeks for each term of the regular academic year, and a single census week for summer sessions.

The board of governors, after appropriate study, shall develop a drop date for reporting students in active attendance which shall be no later than the day prior to the beginning of the second census week in regular academic terms; and such census weeks shall be used for all apportionment purposes for the fiscal year beginning July 1, 1975, and subsequent fiscal years.

In its study, the board of governors shall consider the needs of students, most particularly those who are unable to complete a term

due to illness or other extenuating circumstances, while at the same time making the drop date meaningful to the measurement of average daily attendance.

In implementing the intent of this section, the board of governors shall insure that local governing boards maintain sufficient administrative flexibility to provide adequately for the academic needs of students.

The board of governors, in cooperation with the Department of Finance, shall develop factors reflecting the relationship of actual attendance to contact hours of enrollment for the census week or weeks. The board of governors, during the 1973-74 and 1974-75 fiscal years, shall collect data necessary to the establishment of such census week or weeks and drop date.

Beginning with the fiscal year 1975-76, the new census week or weeks and factors shall be used for all computations of state apportionment in lieu of those prescribed in Section 84520. In the event it is determined by the board of governors and the Department of Finance that this new procedure cannot be wholly implemented in the 1975-76 fiscal year, provision shall be made by joint determination for a phase-in period of no longer than three years.

The chancellor's office shall study and test the validity of such factors in the 1976-77 fiscal year, and periodically thereafter, and the board of governors may make such adjustments as are necessary and as are agreed to by the Department of Finance.

84523. For the experimental 4-1-4 academic calendar year program operated in the Cabrillo Community College District, the units of average daily attendance for graded classes shall be based upon active enrollment on regular census dates as provided for in Section 84525 occurring during the two 16-week terms with application of the usual factors and procedures prescribed in Section 84520. No state apportionment shall be calculated for enrollment or attendance during the one-month intersession in the Cabrillo Community College District. In the event the 4-1-4 academic year does not comply with the requirement of 175 days instruction for an academic year as prescribed by Section 84370, such requirement may be waived during the experimental period, provided that the governing board of the Cabrillo Community College District and the Board of Governors of the California Community Colleges cooperate in determining how the district can comply with Section 84370. These exceptions to the computation of units of average daily attendance shall apply only to the Cabrillo Community College District for the 1974-75, 1975-76, 1976-77, and 1977-78 fiscal years.

This section shall only be operative until July 1, 1978, and as of such date is repealed.

(Amended by Stats. 1976, Ch. 1011 )

[ORIGINAL SECTION]

84523 For the experimental 4-1-4 academic calendar year program operated in the Cabrillo Community College District, the units of average daily attendance for graded classes shall be based upon active enrollment on regular census dates as provided for in Section 84525 occurring during the two 16-week terms with application of the usual factors and procedures prescribed in Section 84520. No state apportionment shall be calculated for enrollment or attendance during the one-month intercession in the Cabrillo Community College District. The computation of average daily attendance for the summer sessions at Cabrillo Community College District shall be in accordance with Section \_\_\_\_\_. In the event the 4-1-4 academic year does not comply with the requirement of 175 days instruction for an academic year as prescribed by Section 84370, such requirement may be waived during the experimental period, provided that the governing board of the Cabrillo Community College District and the Board of Governors of the California Community Colleges cooperate in determining how the district can comply with Section 84370. These exceptions to the computation of units of average daily attendance shall apply only to the Cabrillo Community College District for the 1974-75, 1975-76, 1976-77, and 1977-78 fiscal years.

This section shall only be operative until July 1, 1978, and as of such date is repealed

84524. The attendance of adults as defined in Section 78460 shall be kept separately from all other attendance. The units of average daily attendance of defined adults resident of the community college district enrolled in regular 13th- and 14th-grade courses during the academic year and in summer session shall be computed in the manner prescribed in Section 84520 except that the factor prescribed therein shall be adjusted as required to reflect the attendance of resident adults. The attendance of such resident adults in summer schools and classes for adults shall be computed in the manner prescribed in Sections 84520 and 84525, respectively.

84525. The Department of Finance, in cooperation with the board of governors, shall determine the census day or days and establish the factor or factors representing the relationship between class or contact hours and average daily attendance of students in classes for adults. The average daily attendance shall be computed by multiplying the applicable factor or factors by the sum of the applicable class or contact hours per week for which students are regularly enrolled, multiplying the product so derived by the number of weeks scheduled for the class in the term, and dividing the resulting product by 525.

Any factor or factors established for such purposes shall be reviewed from time to time by the Department of Finance in cooperation with the board of governors.

84526. The attendance of all students not residents of a community college district, including adults as defined by Section 78460, enrolled in regular 13th- and 14th-grade courses during the

academic year shall be kept separately from all other attendance and the units of average daily attendance for such students and adults shall be computed on an individual basis in the manner prescribed in Section 84520 except that for adults the factor shall be adjusted as required in Section 84524.

The units of average daily attendance of students and adults not residents of the community college district enrolled in summer schools and classes for adults shall be kept separately from all other attendance and be computed on an individual basis in the manner prescribed in Section 84520 and Section 84525, as appropriate.

84527. For purposes of this article, the class hour unit for graded and ungraded classes is defined as not less than 50 consecutive minutes exclusive of passing time. In block scheduling of more than one class hour only one contact hour may be counted in each clock hour of 60 minutes, except that a fractional part of a class hour beyond the last full clock hour may be counted from and including the 51st minute of the last full clock hour, providing there is no class break in the last full clock hour or the partial class hour. The divisor for this fractional part of a class hour shall be 50.

The chancellor's office of the California community colleges may, by rule and regulation, make any and all other provisions necessary to carry out the provisions of this article.

84528. The total units of average daily attendance in the community colleges of a district shall be the total of units of average daily attendance computed under Sections 84520, 84524, 84526, and 84530.

84529. If 50 percent or more of the enrollment in a police or fire training course at a community college consists of students who are residents of community college districts other than the district offering the course, all such students enrolled shall be deemed to be resident students of the district for such courses for the purposes of this article.

84530. For the purposes of computing average daily attendance of community college students in cooperative education or work experience education programs, the following provisions shall apply:

(a) One student contact hour is to be counted for each unit of cooperative education or work experience credit in which a student is enrolled during any census period. In no case shall duplicate student contact hours be counted for classroom study and cooperative education or work experience. The maximum contact hours counted for a student shall not exceed the maximum number of cooperative education or work experience units for which the student may be granted credit under the rules and regulations of the chancellor's office of the California community colleges.

(b) "Immediate supervision" of off-campus work stations shall be defined as student participation in on-the-job training as outlined under a training agreement, coordinated by the community college district under a state-approved plan, wherein the employer and the certificated community college coordinator share responsibility for

on-the-job supervision.

84531. Students under the jurisdiction of the Department of the Youth Authority attending a regular community college attendance center shall be deemed district residents, as defined in Section 68019, for purposes of computing units of average daily attendance under Section 84520.

84532. Upon approval of the board of governors, the governing board of any community college may utilize a system of attendance accounting and reporting on a districtwide basis.

84533. The attendance of a community college student shall be recorded and reported separately if both that portion of the district of which he is a resident and that portion of the district in which he attends a community college are part of a single vocational area formed pursuant to the provisions of Article 2 (commencing with Section 8020) of Chapter 1 of Part 6 of Division 1 of Title 1, if both such districts have approved a master plan for that vocational area, and if the following conditions are satisfied:

(a) The student is enrolled in a vocational program in the community college which he attends which is not offered by a community college maintained by the community college district of which he is a resident, and all the community college districts which are a part of the applicable vocational area have agreed that the provisions of this section shall be applicable in that vocational area, or

(b) The student is enrolled in a vocational program in the community college which he attends, which program is offered, but is not available to him, in a community college maintained by the community college district of which he is a resident; and the district of which he is a resident and the district in which he is attending a community college have agreed that the provisions of this section shall be applicable.

### Article 3. Adult Education

84550. The units of average daily attendance in classes for adults for a fiscal year maintained by a community college district shall be computed as set forth in Section 84525.

### Article 4. Mentally Retarded Students

84560. Mentally retarded students who come within the provisions of Section 78801 and who are enrolled in a work-study program approved by the board of governors shall be credited, for apportionment purposes, one full day of attendance for each day of attendance in the approved program. The average daily attendance of mentally retarded students enrolled in approved programs shall be computed by dividing the total number of days of attendance of the students by the number of days taught in the regular schools of the district. No such students shall be credited with more than five

days of attendance per calendar week or more than the number of calendar days such special school or class is maintained by the district in each fiscal year.

#### Article 5. Emergency Average Daily Attendance

84570. Where a community college in a district maintaining more than one community college is closed for a part of a term by order of a city or county board of health or of the State Board of Health, or because of fire, flood, impassable roads, epidemic, or other emergency, or by an order provided for in Section 84372, the average daily attendance of the community college shall be estimated separately, as provided in Section 84572, and added to the average daily attendance of the other community colleges of the district.

84571. Whenever any attendance records of any district have been lost or destroyed, making it impossible for an accurate report on average daily attendance for the district for any fiscal year to be rendered, which fact shall be shown to the satisfaction of the board of governors by the affidavits of the members of the governing board of the district and the county superintendent of schools, the board of governors shall estimate the average daily attendance of such district. The estimated average daily attendance shall be deemed to be the actual average daily attendance for that fiscal year for the making of apportionments to the district from the State School Fund.

84572. Whenever the average daily attendance of any community college district during any fiscal year has been materially decreased during any fiscal year because of:

- (a) Fire,
- (b) Flood,
- (c) Impassable roads,
- (d) An epidemic,
- (e) The imminence of a major safety hazard as determined by the local law enforcement agency,
- (f) A strike involving transportation services to students provided by a nonschool entity, or
- (g) An order provided for in Section 84372; such fact shall be established to the satisfaction of the board of governors by affidavits of the members of the governing board of the community college district and the county superintendent of schools. The average daily attendance of the districts or the fiscal year shall be estimated by the board of governors in such manner as to credit to the community college district for determining the apportionments to be made to the district from the State School Fund approximately the total average daily attendance which would have been credited to the community college district had the emergency not occurred or had the order not been issued.

The provisions of this section shall apply to any average daily attendance which occurs during any part of a school year.

CHAPTER 5. COMPUTATIONS OF ALLOWANCES AND  
APPORTIONMENTS FROM SECTION B OF THE  
STATE SCHOOL FUND

Article 1. General Provisions

84700. For the purposes of computing allowances and apportionments from Section B of the State School Fund for the advance apportionment, first principal apportionment, and second principal apportionment on the basis of average daily attendance each community college district shall be deemed to comprise the 13th and 14th grades maintained by the district.

84701. For the purposes of this chapter, the governing board of each community college district shall report to the Chancellor of the California Community Colleges during each fiscal year the average daily attendance of the district for all full school months during (1) the period between July 1st and December 31st, inclusive, to be known as the "first period" report for the first principal apportionment, and (2) the period between July 1st and April 15th, inclusive, to be known as the "second period" report for the second principal apportionment. If the average daily attendance in the regular day schools of a district for the period of time between July 1 and June 30 is greater or lesser than the average daily attendance in the regular day schools reported for the second period report, the appropriate increases and decreases in the several categories of attendance for which separate foundation programs are required to be computed shall be recomputed on the basis of the foundation program and assessed valuation of the district of the fiscal year in which such increases and decreases in average daily attendance were applicable and the appropriate increases and decreases in apportionments shall be added or withheld in the next succeeding fiscal year pursuant to Section 84330.

Each report shall be prepared in accordance with instructions on forms prescribed and furnished by the Chancellor of the California Community Colleges and average daily attendance shall be computed in the following manner:

(a) If the average daily attendance in schools and classes maintained by community college districts other than regular day schools and classes for the period of time between July 1 and June 30 is greater or lesser than the average daily attendance in such schools and classes reported for the second period report, the separate state support which is provided for attendance in such schools and classes shall be recomputed on the basis of the fiscal year average daily attendance, and increases and decreases in apportionments shall be added or withheld in the next succeeding fiscal year pursuant to Section 84330.

(b) The average daily attendance in grades 13 and 14 of the regular day schools of each community college shall be determined pursuant to the provisions of Article 2 (commencing with Section

84520) of Chapter 4 of this part. For community colleges under the provisions of this paragraph, the "first period" shall be the summer session and the fall semester for semester system colleges, the summer and fall quarter for colleges on the three-quarter system, and the summer and fall quarters for colleges on the four-quarter system. The "second period" shall be the "academic year" which is the summer session plus the first and second semester for semester system colleges, the summer session plus the first and second quarters for three-quarter-system colleges, and the summer, fall, and winter quarters for four-quarter-system colleges.

The "academic year" for three- or four-quarter-system colleges is reported on the annual report and adjustments shall be made as set forth in the first paragraph of this section.

(c) The average daily attendance in summer school and outdoor science and conservation education classes maintained during the period between the last day the regular day schools are in session during the preceding year and the first day the regular day schools are in session during the current year shall be reported on both the first period and second period reports. The hours of attendance shall be divided by 525 for all classes of less than four weeks duration. For summer sessions of four weeks or more, average daily attendance shall be computed as provided in Section 84520.

(d) The days of attendance in classes for adults maintained after the last full school month of the second period of the preceding year and prior to the end of each reporting period shall be reported on each report. To compute the average daily attendance in community colleges, the divisor for contact hours of adult classes is 300 for the first period and 525 for the second period.

84702. The governing board of a community college district affected by fluctuations in enrollments and attendance levels to a degree which will, in all likelihood, result in an actual total of average daily attendance for the fiscal year in excess of that shown in the second period report for the second principal apportionment provided for in Section 84701, may, with the approval of the Chancellor of the California Community Colleges, submit, in lieu of such second period report, a report of the estimated total average daily attendance for the fiscal year. The report shall be in the form prescribed by the Chancellor of the California Community Colleges, and shall be utilized for purposes of the second principal apportionment. If the average daily attendance in the regular day schools of a district for the period of time between July 1 and June 30 exceeds the estimated total average daily attendance reported under this section, the appropriate increases and decreases in the several categories of attendance for which separate foundation programs are required to be computed shall be brought forward to the corresponding categories of the second period report for the next succeeding fiscal year. In the event the estimated total average daily attendance reported under this section exceeds the actual average daily attendance for the fiscal year, the Chancellor of the California

Community Colleges shall withhold, pursuant to Section 84330, from apportionments made during the succeeding fiscal year, the amount of the excess moneys which may have been apportioned as a result thereof.

84703. The amounts computed as allowable to any community college district for state equalization aid shall be reduced by fifty percent (50%) of miscellaneous funds, as defined in Section 84704. In no event shall the reduction exceed the total amount allowable as equalization aid to the district for the fiscal year.

Should the amount of miscellaneous funds, as defined in Section 84704, actually received by a community college district for any fiscal year be more or less than that reported to the Chancellor of the California Community Colleges, the Chancellor of the California Community Colleges shall during the fiscal year next succeeding withhold from or add to the apportionment made to the district from the State School Fund the amount of the excess or deficiency in the apportionment of state equalization aid from the State School Fund for the preceding year, if the amount of the excess or deficiency in such apportionment was one hundred dollars (\$100) or more.

84704. "Miscellaneous funds" as used in Section 84703 means the amount the county superintendent of schools has determined and reported to the Chancellor of the California Community Colleges in accordance with regulations the Chancellor of the California Community Colleges is hereby authorized to adopt that the district has received and which has been deposited to the credit of the general fund of the district for a fiscal year on account of in-lieu taxes or income from bonuses, royalties, rentals or any other income from district property or property within the district or state not being assessed for tax purposes and not being used for school purposes. Federal forest reserve funds received by a district shall not be considered miscellaneous funds as defined by this section.

84705. If any computation made under, or necessitated by, Sections 84500 to 84504, inclusive, Sections 84320 to 84332, inclusive, and Sections 84700 to 84874, inclusive, results in an amount which is:

(a) Less than one dollar (\$1), the amount shall be counted as one dollar (\$1).

(b) More than one dollar (\$1) and includes a fraction of one-half dollar (\$0.50) or more, the fraction shall be counted as one dollar (\$1).

(c) More than one dollar (\$1) and includes a fraction of less than one-half dollar (\$0.50), the fraction shall not be counted.

84706. For the purposes of computation of allowances and apportionments from the State School Fund, whenever computations of apportionments based on average daily attendance are made for community college districts only the attendance in all classes of grades 13 and 14 and all types of ungraded classes, including classes for adults, which have been reported as attached to, or as a part of, a community college which maintains grades 13 and 14 shall be included.

84707. No real or personal property, including money, accepted pursuant to Section 72303 by the governing board of a community college district shall be considered in determining the eligibility of the district for an apportionment from the State School Fund nor in determining the amount thereof.

## Article 2. Computation of Foundation Program

84720. The Chancellor of the California Community Colleges shall compute for each community college district the appropriate amount of a foundation program of school support therefor, in the manner prescribed by this article, using the dollar amounts contained in the various sections of this article which apply.

84721. (a) Except for a community college district which qualifies under subdivision (b), for each community college district, the chancellor shall multiply the number of units of average daily attendance, during the fiscal year, in grades 13 and 14 computed for the district under Sections 84520 and 84550, subject to the provisions of Section 17611, by one thousand twenty dollars (\$1,020) for the 1973-74 fiscal year, by one thousand eighty dollars (\$1,080) for the 1974-75 fiscal year, by one thousand one hundred forty-three dollars (\$1,143) for the 1975-76 fiscal year, by one thousand two hundred nine dollars (\$1,209) for the 1976-77 fiscal year, and by an amount cumulatively increased by sixty-six dollars (\$66) for each succeeding fiscal year thereafter, unless revised by the Legislature prior to July 1, 1977.

(b) For each community college district which has an average daily attendance of less than 1,001 and qualifies as a necessary small community college district as defined in Section 84722, the Chancellor of the California Community Colleges shall make one of the following computations selected with regard only to the number of certificated employees employed or average daily attendance, whichever provides the lesser amount.

Average daily attendance	Minimum number of full-time certificated employees	Amount to be computed in each fiscal year			
		1973-74	1974-75	1975-76	1976-77
1 - 150 .....	12	\$274,000	\$290,000	\$307,000	\$325,000
151 - 200 .....	15	357,000	378,000	400,000	423,000
201 - 300 .....	18	440,000	466,000	493,000	522,000
301 - 400 .....	21	523,000	554,000	586,000	620,000
401 - 500 .....	24	606,000	642,000	679,000	718,000
501 - 600 .....	27	689,000	730,000	772,000	817,000
601 - 700 .....	30	771,000	816,000	864,000	914,000
701 - 800 .....	33	854,000	904,000	957,000	1,012,000
801 - 900 .....	36	937,000	992,000	1,050,000	1,111,000
901 - 1,000 .....	39	1,020,000	1,080,000	1,143,000	1,209,000

(c) For purposes of this section and Section 84760, the average daily attendance of a community college district shall, subject to the provisions of Section 84706, be computed in the manner prescribed by Sections 84520 and 84550, except that there shall be excluded from the computation the attendance of all students deemed "nonresident" as defined in Section 68018.

The Chancellor of the California Community Colleges shall exclude from the computation provided by this section the average daily attendance during the fiscal year of adults, as adults are defined in Section 5756, and of inmates of any state penal institution for adults or of any city, county, or city and county jail, road camp, or farm for adults.

(d) For fiscal year 1977-78 and subsequent years, he shall make adjustments in the foundation program amounts pursuant to subdivision (b) proportionate to the foundation program determined pursuant to subdivision (a).

84722. For the purposes of Section 84721, a necessary small community college district is a community college district with an average daily attendance of less than 1,001 during the fiscal year, and which comes within the following conditions:

(a) The projection of the average daily attendance, as used and defined in Section 84721, for the district for the next three immediately succeeding fiscal years shall not exceed 1,001.

(b) Any one of the following conditions applies:

(1) One campus of the community college district is more than 30 miles by a well-traveled road from the nearest other public community college; and either 90 percent of the students, exclusive of adults as defined in Section 78460, would be required to travel 20 miles, or 25 percent of the students, exclusive of adults as defined in Section 78460, would be required to travel 30 miles one way from a point on a well-traveled road to the nearest other public community college.

(2) The conditions under paragraph (1) of this subdivision do not apply, but on annual application of the district the board of governors has determined for the fiscal year that the district is located in an area sufficiently remote so as to necessitate local current expenditures significantly higher than statewide average current expenditures for community colleges.

84723. (a) Except as provided in subdivision (b), each computation required by this article (commencing at Section 84720) for community college districts shall be made after excluding from the average daily attendance for the fiscal year the average daily attendance of adults, as adults are defined in Section 78460, and the average daily attendance in classes for inmates of any state penal institution for adults or of any city, county, or city and county jail, road camp or farm for adults during the fiscal year.

(b) The attendance of an inmate, except an adult as defined in Section 78460, attending a community college class or program pursuant to Section 2690 of the Penal Code shall not be excluded

pursuant to this section.

84724. The Chancellor of the California Community Colleges may increase the various foundation programs in accordance with the specifications in the Budget Act in order to apportion amounts specifically appropriated in the Budget Act for cost increases due to inflation. Such increases shall be effective only during the fiscal year for which such appropriation is made.

In increasing the necessary small school foundation programs computed for community college districts with an average daily attendance of less than 1,001, he shall compute the increase as if it were for the maximum number of students allowed in the applicable necessary small school range in which the districts fall.

84725. Except for the areawide foundation programs the Chancellor of the California Community Colleges shall increase the various foundation programs for each school unit of average daily attendance by sixteen dollars (\$16) in the 1972-73 fiscal year and an additional four dollars (\$4) in each fiscal year thereafter to a maximum of forty dollars (\$40). The Chancellor of the California Community Colleges shall compute the increased foundation support pursuant to this section as though no areawide school support programs were in operation in the state. The Chancellor of the California Community Colleges may adjust the small school foundation programs at the community college levels in accordance with this increase in the regular foundation program.

In addition the Chancellor of the California Community Colleges shall in making the computation prescribed in Sections 84731 and 84780 increase the computational tax in Sections 84731 and 84780 by:

- (a) Eight-tenths of one cent (\$.008) in the 1972-73 fiscal year and an additional two-tenths of one cent (\$.002) in each fiscal year thereafter to a maximum of two cents (\$.02) in a community college district.

Further, the Chancellor of the California Community Colleges shall identify to each community college district the amount of increased foundation support granted under this section which shall be used as a limitation on the taxes that may be levied and collected annually under the provisions of Section 23401.

### Article 3. Computation of District Aid

84730. On or before November 15th of each year, the county auditor of each county shall furnish to the Chancellor of the California Community Colleges the assessed valuation and tax rates of each community college district or portion of district situated within his county, as shown by the equalized assessment roll of the county for the year.

84731. The Chancellor of the California Community Colleges shall compute for each community college district described herein the amount, to be known as district aid, which a tax levied on each one hundred dollars (\$100) of 100 percent of the assessed valuation

in such district as shown by the equalized assessment roll of the district for the current year, as modified pursuant to Section 84201, would produce if levied, if such tax was thirty-nine cents (\$.39).

84732. (a) Upon the request of the district, the Chancellor of the California Community Colleges shall use in computing district aid the difference between: (1) the total assessed valuation of property in a district as shown on the equalized assessment roll for the fiscal year; and (2) the assessed valuation of property as shown on the equalized assessment roll for the fiscal year, with respect to which revenues of the district taxes levied in the 1954-1955 fiscal year, or thereafter, are impounded, or could, if paid, be impounded, by the county auditor pursuant to Section 14240. The county auditor shall from time to time determine and certify to the Chancellor of the California Community Colleges the amounts of assessed valuation of property described in subpart (2) of the preceding sentence.

(b) Whenever, after July 1, 1955, the county auditor notifies the Chancellor of the California Community Colleges and the Controller of the release of impounded tax revenues to the community college district, or of the receipt of tax revenues which would have been impounded if paid when due, the Chancellor of the California Community Colleges shall compute and certify to the Controller the amount to be deducted, and the Controller shall deduct, from the apportionment or apportionments from the State School Fund to the district, in the first fiscal year or the second fiscal year succeeding such notification of release or receipt, that amount apportioned to the district in any prior year or years by reason of the exclusion of assessed valuation with respect to tax revenues impounded and thereafter released, or with respect to tax revenues which would have been impounded, if paid when due, and which were subsequently paid, as the case may be, plus interest of 3½ percent compounded annually.

The provisions of this section shall not apply to impounded tax receipts derived from assessment of water, where the procedures of Section 84733 have been utilized.

84733. When the total tax revenues realized in respect to any school district from the levy of district taxes for any fiscal year are less than would have been realized from the total assessed value of property in the district because of allocations of tax receipts to a redevelopment agency pursuant to Article 6 (commencing at Section 33670) of Chapter 6 of Division 24 of the Health and Safety Code, the governing board of a community college district may request the Chancellor of the California Community Colleges to compute district aid for the district under this section. Upon receipt of such a request, the Chancellor of the California Community Colleges shall, in computing district aid, reduce the amount of the total assessed valuation in the district as shown by the equalized assessment roll for the year by the amount of such assessed valuation upon which such tax receipts for such fiscal year are to be allocated to the redevelopment agency.

84734. (a) Upon request of a district, the Chancellor of the California Community Colleges shall use in computing district aid the total assessed valuation of property in a district as shown on the equalized assessment roll for the fiscal year, reduced by the portion thereof representing the total assessed valuation of water with respect to which revenues of the district taxes levied in the 1958-1959 fiscal year or thereafter are impounded by the county auditor pursuant to Section 26906.1 of the Government Code.

(b) Whenever, after July 1, 1959, the county auditor notifies the Chancellor of the California Community Colleges and the Controller of the release of such impounded tax revenues to the community college district, the Chancellor of the California Community Colleges shall compute and certify to the Controller the amount to be deducted, and the Controller shall deduct, from the apportionment or apportionments from the State School Fund to the district, in the first fiscal year or the second fiscal year succeeding such notification of release, that amount apportioned to the district in any prior year or years by reason of the exclusion under this section, of assessed valuation with respect to tax revenues impounded and thereafter released.

84735. For the purpose of computing allowances and apportionments, other than severance aid, from the State School Fund for community college districts qualifying for severance aid as provided in Section 84870, the total assessed valuation in the district as shown by the equalized assessment roll shall be increased as follows: For the first year qualifying property is excluded from the assessment roll as exempt property, there shall be added to the total assessed valuation an amount equal to the assessed value of said qualifying property as used to compute the amount of severance aid. The next following year there shall be added to the total assessed valuation four-fifths of the assessed value of qualifying property as used to compute the amount of severance aid; the second following year there shall be added three-fifths of said assessed value; the third following year there shall be added two-fifths of said assessed value, and the fourth following year there shall be added one-fifth of said assessed value.

In the event more than one allowance of severance aid is payable because qualifying property is acquired during more than one fiscal year, the increase in total assessed valuation required by this section shall be made separately as to qualifying property acquired in each such year.

"Qualifying property" for the purposes of this section means property acquired for state highway purposes which, by reason of its assessed value, either alone or in combination with other property, and the identity of the acquiring agency or agencies, qualifies the district to receive severance aid.

84736. Whenever the assessed valuation of motion pictures, including the negatives and prints thereof, is lowered because of the operation of Section 988 of the Revenue and Taxation Code and

whenever any community colleges district receives replacement funds from the state for the loss of revenue to a district occasioned by the operation of Section 988, the Chancellor of the California Community Colleges shall, in computing district aid, add the amount of assessed valuation which was the basis for the allocation of state replacement funds to the actual assessed value of the district before computing apportionments to the districts.

84737. Whenever, subsequent to the date of formulation of the last equalized assessment roll in a county, the county superintendent of schools finds that the assessment equalizations conducted under Part 3 (commencing with Section 1601) of Division 1 of the Revenue and Taxation Code have resulted in a substantial reduction or increase in the assessed valuation of property of a community colleges district as compared to that reported pursuant to Section 84730, the county auditor shall notify and furnish to the Chancellor of the California Community Colleges, on or before the 15th of April in the fiscal year, the corrected assessed valuation of property within the district. The Chancellor of the California Community Colleges shall utilize the corrected valuation amounts for purposes of making all computations prescribed by this article for the district for this fiscal year. Upon receipt thereof, the Chancellor of the California Community Colleges shall make the necessary revisions in all computations affecting the district made under this article.

84738. The Chancellor of the California Community Colleges shall, in computing district aid, add the amount of assessed valuation which was the basis for the allocation of state replacement funds pursuant to Section 84070 to the actual assessed valuation of the district before computing apportionments to the district.

#### Article 4. Computation of Basic Aid

84760. The Chancellor of the California Community Colleges shall allow to each community college district one hundred twenty-five dollars (\$125) for each unit of average daily attendance in grades 13 and 14.

Average daily attendance for the purpose of this section shall be computed under Sections 84520 and 84550, subject to the provisions of Sections 84706 and 84721.

The Chancellor of the California Community Colleges shall exclude from the computation of allowances provided by this section the average daily attendance of nonresident students, adults as defined in Section 78460, and of inmates of any state penal institution for adults or of any city, county, or city and county jail, road camp or farm for adults.

#### Article 5. Equalization Aid

84770. The Chancellor of the California Community Colleges shall compare the total of the amounts allowed to, and computed for,

each community college district pursuant to Sections 84731 and 84760, with the amount of the foundation program computed for each district pursuant to Section 84550.

If the total amount computed for any district pursuant to Sections 84731 and 84760, is less than the amount of the foundation program computed for such district pursuant to Section 84550, he shall add to the amount computed for such district pursuant to Sections 84731 and 84760, such additional amount, to be known as state equalization aid, as may be necessary to equal that computed for such district pursuant to Section 84550.

84771. No state equalization aid shall be allowed unless there shall have been levied pursuant to this code, for a district during the fiscal year, a tax, exclusive of taxes levied under Sections 8329, 15250, 15743, 16090, and 85110 of not less than thirty-five cents (\$.35).

84772. The Chancellor of the California Community Colleges shall compute the state equalization aid pursuant to this article upon the basis that the district's assessed value has not been reduced by the partial exemption for business inventories in the district or reduced by the homeowner's property tax exemption.

#### Article 6. Allowances—Education of Adults and Inmates

84780. The allowance for each unit of average daily attendance during the fiscal year for adults, as adults are defined in Section 78460, shall be:

(a) For each unit of average daily attendance attached to a community college, five hundred fifty-six dollars (\$556) less the product of twenty-four cents (\$.24) multiplied by each one hundred dollars (\$100) of the assessed valuation of the district, as modified pursuant to Section 84201, per unit of average daily attendance exclusive of adults. The allowance for each unit of average daily attendance attached to a community college shall be increased by 7 percent for the 1974-75, 1975-76, and 1976-77 fiscal years and by 6 percent for the 1977-78 fiscal year, and fiscal years thereafter, unless revised by the Legislature prior to July 1, 1977.

The allowance provided by this section for each unit of average daily attendance of an adult, as an adult is defined in Section 78460, not residing in the district and not residing in any district maintaining a community college shall be limited to one hundred twenty-five dollars (\$125) as basic state aid and no allowance shall be made based on state equalization aid. The total of basic and equalization aid allowed each district shall not be less than one hundred twenty-five dollars (\$125) for each unit of average daily attendance during the fiscal year for resident adults, exclusive of average daily attendance in classes for inmates of any state institution for adults and for inmates of any city, county, or city and county jail, road camp or farm for adults; unless the inmate is attending a community college class or program pursuant to Section 2690 of the Penal Code, in which case such attendance shall be included.

84781. The Chancellor of the California Community Colleges shall allow to each community college district an amount equal to the actual current expense of the district of maintaining adult education classes for prisoners in any county jail, or any county industrial farm or county or joint county road camp for the current fiscal year. The amount so allowed to a district for each unit of average daily attendance in such classes shall in no event exceed the total of the amounts allowed to the district as basic state aid and state equalization aid for each unit of average daily attendance of the district exclusive of the average daily attendance of the district in classes for adults.

For purposes of this section, the Chancellor of the California Community Colleges shall, by rules and regulations, establish minimum standards for the conduct of the adult education classes, including, but not necessarily limited to, attendance requirements and requirements concerning records to be kept and reports to be submitted.

#### Article 7. Students Not Residents

84790. For each fiscal year, the Chancellor of the California Community Colleges shall allow to each community college district for each unit of average daily attendance of students not residing in the district and not residing in any district maintaining a community college, one hundred twenty-five dollars (\$125) as basic state aid.

There shall be excluded from the computation of allowances provided by this section the average daily attendance of adults, as adults are defined in Section 78460, and of inmates of any state penal institution for adults or of any city, county, or city and county jail, road camp, or farm for adults; unless the inmate is attending a community college class or program pursuant to Section 2690 of the Penal Code, in which case such attendance shall be included.

#### Article 8. Vocational Education Programs

84800. Notwithstanding any other provision of law, the Chancellor of the California Community Colleges shall allow for each unit of average daily attendance reported pursuant to Section 84533, the sum equal to the average amount apportioned as basic state aid and state equalization aid for each unit of average daily attendance in grades 13 and 14 in all of the districts participating in the vocational program in which the students whose attendance is so reported are enrolled.

No other amount shall be apportioned for such units of average daily attendance.

## Article 9. Transportation

84810. The Chancellor of the California Community Colleges shall not allow under this article, except under Section 84817 whichever is in effect, during any fiscal year a total amount in excess of the amount provided by law.

84811. The Chancellor of the California Community Colleges shall allow to each community college district such amount as is required by this article.

84812. (a) "Transportation" as used in this article means, unless the context otherwise requires:

(1) The transportation of students between their homes and the regular full-time day schools attended by them as provided by a school district.

(2) The payment of moneys by a community college district to parents or guardians of students in lieu of providing for the transportation of such students between their homes and the regular full-time day schools attended by them.

(3) The providing of board and lodging to students by a community college district in lieu of providing for the transportation of such students between their homes and the regular full-time day schools attended by them.

(b) "Total current expenses of transportation" as used in Sections 41856, 41857, and 41859 does not include:

(1) Current expenses for the transportation of students for whose transportation the Chancellor of the California Community Colleges makes an allowance to the district under Section 84817, whichever is in effect; or,

(2) Any amount of rental of schoolbuses which is in excess of the amount allowable to community colleges districts for replacement of district-owned buses in accordance with regulations of the Chancellor of the California Community Colleges relating to allowances for student transportation. Renting or leasing a schoolbus does not include a lease with option to purchase.

84813. The Chancellor of the California Community Colleges shall make all allowances under this article during a fiscal year in accordance with regulations, not in conflict with this article, adopted by him, and he is hereby authorized and directed to adopt such regulations. None of such regulations shall be binding upon any community college district, but no allowance shall be made under this article to a community college district for any item of current expense or capital outlay with respect to which the community college district has failed to comply with the regulations of the Chancellor of the California Community Colleges applicable to such item.

The regulations adopted by the Chancellor of the California Community Colleges hereunder shall, among other matters:

(a) Prescribe the records to be kept by, and reports to be made by, community college districts.

(b) Fix the minimum distances for the sole purpose of determining the total current expenses of a district for transportation.

(c) Determine what expenditures constitute "current expenses."

(d) Establish and prescribe formulae for the sole purpose of computing financial allowances under which schoolbuses may be acquired in accordance with the provisions of Section 41860.

(e) Provide for the review and approval of all expenditures upon which allowances are computed.

(f) Establish and prescribe formulae for the sole purpose of computing financial allowances for reimbursement of replacement expenses incurred by a community college district replacing schoolbuses.

84814. For purposes of any regulation making the time or hours during a schoolday during which a schoolbus is operated, a factor in the computation of transportation allowances, the Chancellor of the California Community Colleges shall utilize no less than the period of time between the time when the schoolbus departs from the location in which it is customarily stationed when not in use, and the time when the schoolbus is returned there at the end of the day, excluding the time during which the schoolbus is not in use between trips during the day.

84815. Of the funds allocated for expenditure for transportation in each fiscal year, there shall be reserved the amount necessary to provide the allowances prescribed by this section, but not to exceed one and one-half percent (1.5%) of the amount designated in subdivision (d) of Section 84301.

The allowances prescribed by this section shall be provided in each fiscal year for any eligible community college district upon application therefor submitted to the Chancellor of the California Community Colleges by the governing board of such district. Such allowance shall be provided only if the Chancellor of the California Community Colleges determines that the transportation expense of the district for the preceding fiscal year is substantially affected by sparsity of population in all or a portion of the district, such as to require that excessive distances be traveled to transport relatively few students to the regular day classes of the district.

The Chancellor of the California Community Colleges shall allow to each eligible district the amount computed as follows:

(a) He shall compute from the annual report of transportation expense of the district the portion of the total transportation expense which is due to travel for excessive distances to transport relatively few students.

(b) He shall compute from the annual report of transportation expense of the district, prior to the application of any deficit under Section 84819, the percentage of the approved transportation expense represented by the allowances to the district provided by the other provisions of this article.

(c) He shall multiply the portion of the total transportation

expense computed under subdivision (a) by the percentage computed under subdivision (b).

The Chancellor of the California Community Colleges may adopt rules and regulations defining "excessive distances" and "relatively few students," and making provision for any other matter he may deem essential to the effective administration of this section.

84816. The Chancellor of the California Community Colleges in approving, under this article, current expenses of community college districts for the transportation of students shall apply the same standards and basis for such approval to expenditures for such transportation provided by a district in schoolbuses owned and operated by the district and expenditures for such transportation provided by a contract with a common carrier, municipally owned transit system as defined in Section 82300, or a private party.

84817. (a) In addition to all other amounts allowed to a community college district under this article, the Chancellor of the California Community Colleges shall allow to each community college district for transporting blind, deaf, aphasic, orthopedic or other health-impaired, and other physically impaired students handicapped in mobility, mentally retarded students who come within the provisions of Section 56515, autistic students who come within the provisions of Section 78604, and multihandicapped students, to and from special day classes, three hundred eighty-nine dollars (\$389) for each unit of average daily attendance of such students during the fiscal year resulting from the attendance of such students on the special day classes to and from which they are transported by the district.

In addition to all other amounts allowed to a community college district under this article, the Chancellor of the California Community Colleges shall allow to each community college district for transporting deaf, severely hard-of-hearing, blind, deaf-blind, or other multihandicapped students who come within the provisions of Section 56160, to and from experimental programs approved by him, three hundred eighty-nine dollars (\$389) for each unit of average daily attendance of such students during the fiscal year resulting from the attendance of such minor students in the experimental programs to and from which they are transported by the district.

(b) As used in this section, "physically impaired minors handicapped in mobility" means those minors who are deemed eligible for special class placement as defined by the board of governors.

(c) If the Chancellor of the California Community Colleges determines that the current expense of providing transportation under this section does not equal or exceed the allowance provided for such purpose, then the amount of the deficiency shall be withheld from state apportionments to the community college district, in accordance with the procedure prescribed in Section 84330. Such

amounts withheld shall then be apportioned, on a pro rata basis against the expenses, to those districts which maintain and operate vehicles exclusively for the transportation of handicapped students. In no case shall any district receive an amount greater than its total current expense in providing such transportation.

(Amended by Stats 1976, Ch. 1011 )

{ORIGINAL SECTION}

84817 (a) In addition to all other amounts allowed to a community college district under this article, the Chancellor of the California Community Colleges shall allow to each community college district for transporting blind, deaf, aphasic, orthopedic or other health-impaired, and other physically impaired students handicapped in mobility, mentally retarded students who come within the provisions of Section 56515, autistic students who come within the provisions of Section 78604, and multihandicapped students, to and from special day classes, three hundred eighty-nine dollars (\$389) for each unit of average daily attendance of such students during the fiscal year resulting from the attendance of such students on the special day classes to and from which they are transported by the district.

In addition to all other amounts allowed to a community college district under this article, the Chancellor of the California Community Colleges shall allow to each community college district for transporting deaf, severely hard-of-hearing, blind, deaf-blind, or other multihandicapped students who come within the provisions of Section 56160, to and from experimental programs approved by him, three hundred eighty-nine dollars (\$389) for each unit of average daily attendance of such students during the fiscal year resulting from the attendance of such minor students in the experimental programs to and from which they are transported by the district.

(b) As used in this section, "physically impaired minors handicapped in mobility" means those minors who are deemed eligible for special class placement as defined by the board of governors.

(c) If the Chancellor of the California Community Colleges determines that the current expense of providing transportation under this section does not equal or exceed the allowance provided for such purpose, then the amount of the deficiency shall be withheld from state apportionments to the community college district or the county superintendent of schools, as the case may be, in accordance with the procedure prescribed in Section 84330. Such amounts withheld shall then be apportioned, on a pro rata basis against the expenses, to those districts which maintain and operate vehicles exclusively for the transportation of handicapped students. In no case shall any district receive an amount greater than its total current expense in providing such transportation.

84818. As used in Section 84817, "blind" includes partially seeing, "deaf" includes hard of hearing, and "special day classes" includes integrated programs of instruction for physically handicapped minors including those handicapped in vision or hearing where the services of a qualified special teacher are provided.

An integrated program of instruction for physically handicapped minors including those handicapped in vision or hearing shall be defined as any program in which such physically handicapped

minors receive their education in regular classrooms from regular classroom instructors, but receive, in addition, supplementary instructing services of a full-time special instructor, possessing a valid credential to instruct exceptional minors of the type enrolled in the program. Such supplementary instruction may include instruction in the appropriate tool skills, the provision of special materials and use of appropriate special equipment, and counseling and guidance necessary to enable physically handicapped minors and those handicapped in vision and hearing to benefit fully from their instruction.

As used in this section, physically handicapped minors means those physically handicapped minors who are deemed eligible for special class placement as defined by the board of governors.

84820. In addition to all other amounts allowed to a community college district under this article, the Chancellor of the California Community Colleges shall allow to each community college district for transporting minor students whose vision or hearing is impaired to a degree making it practical to transport them to the California School for the Blind or to the California School for the Deaf or to some location in another community college district where specialized instruction may be afforded, three hundred eight-nine dollars (\$389) for each unit of average daily attendance of such students during the fiscal year resulting from the attendance of such students on the classes of specialized instruction to and from which they are transported as day class students.

For each community college district furnishing transportation under circumstances requiring the operation of vehicles exclusively for that purpose, the Chancellor of the California Community Colleges shall allow 75 percent of any expense in excess of three hundred eighty-nine dollars (\$389), but the additional allowance shall not exceed seventy-three dollars (\$73), per unit of average daily attendance of such students. Such amount shall be allowed as a part of the second principal apportionment upon special request made therefor to, and upon approval by, the Chancellor of the California Community Colleges.

Allowances under this section shall be subject to the approval of the Chancellor of the California Community Colleges of the practicality of transporting the students involved in any particular instance to the place where specialized instruction is afforded.

If the Chancellor of the California Community Colleges determines that the current expense of providing transportation under this section does not equal or exceed the allowance provided for such purpose, then the amount of the deficiency shall be withheld

from state apportionments to the community college district in accordance with the procedure prescribed in Section 84330. Such amounts withheld shall then be apportioned, on a pro rata basis against the expenses, to those districts which maintain and operate vehicles exclusively for the transportation of handicapped students. In no case shall any district receive an amount greater than its total current expense in providing such transportation.

#### Article 10. Special Education

84830. The Chancellor of the California Community Colleges shall allow, during the current fiscal year, to each community college district maintaining special day classes for the education of physically handicapped students (as defined by Sections 78701 and 78702), mentally retarded students (as defined by Sections 78800 and 78801), educationally handicapped students (as defined by Section 78600), the amounts prescribed by this article for each of the respective types of class maintained for the fiscal year.

84831. As used in this article, "special day classes" includes integrated programs of instruction for physically handicapped students including those handicapped in vision or hearing where the services of a qualified special instructor are provided.

An integrated program of instruction for physically handicapped students including those handicapped in vision or hearing shall be defined as any program in which such physically handicapped students receive their education in regular classrooms from regular classroom instructors, but receive, in addition, supplementary instruction of a full-time special instructor, possessing a valid credential to teach exceptional children of the type enrolled in the program. Such supplementary services may include instruction in the appropriate tool skills, the provision of special materials and use of appropriate special equipment, and counseling and guidance necessary to enable physically handicapped students and those handicapped in vision and hearing to benefit fully from their instruction.

As used in this section, physically handicapped students means those physically handicapped students who are deemed eligible for special class placement as defined by the board of governors.

84832. The Chancellor of the California Community Colleges shall allow to each district for the education of physically handicapped students in special classes during the current fiscal year an amount computed as follows:

(a) He shall divide the average daily attendance in each particular class-size category by the maximum class size established for each particular class-size category, and increase the quotient to the next highest integer where a fractional amount is produced.

(b) He shall then determine for each particular class-size category the product of the amount computed under subdivision (a) multiplied by the maximum class size established by law for special

day classes for the particular category.

(c) He shall then multiply the amount computed under subdivision (b) by the following amount of the particular level and category:

Category	Community college grades (13-14)
Physically handicapped	
Class-size maximum of 5 .....	\$2,810
Class-size maximum of 8 .....	1,510
Class-size maximum of 10 .....	1,080
Class-size maximum of 12 .....	800
Class-size maximum of 16 .....	435
Class-size maximum of 20 .....	220

84834. The Chancellor of the California Community Colleges shall allow to each community college district for the education of mentally retarded students in special classes during the current fiscal year an amount computed as follows:

(a) He shall divide the average daily attendance in each particular class-size category by the maximum class size established for each particular class-size category, and increase the quotient to the next highest integer where a fractional amount is produced.

(b) He shall then determine for each particular class-size category the product of the amount computed under subdivision (a) multiplied by the maximum class size established by law for special day classes for the particular category.

(c) He shall then multiply the amount computed under subdivision (b) by the following amount of the particular level and category:

Category	Community college grades (13-14)
Mentally retarded (as defined in Section 78801)	
Class-size maximum of 15 .....	\$280
Class-size maximum of 18 .....	130

84836. The Chancellor of the California Community Colleges shall allow to each district for the education of educationally handicapped students in special classes during the current fiscal year an amount computed as follows:

(a) He shall divide the average daily attendance in each particular class-size category by the maximum class size established for each particular class-size category, and increase the quotient to the next highest integer where a fractional amount is produced.

(b) He shall then determine for each particular class-size category the product of the amount computed under subdivision (a) multiplied by the maximum class size established by law for special day classes for the particular category.

(c) He shall then multiply the amount computed under subdivision (b) by the following amount of the particular level and category:

	Community college grades (13-14)
Category	
Educationally handicapped	
Class-size maximum of 12 .....	\$710
Autistic	
Class-size maximum of 6 .....	\$2,745

84837. The governing board of a community college district during the fiscal year may apply to the Chancellor of the California Community Colleges whenever sparsity of population or transportation distances make it impossible to maintain classes of the maximum size as prescribed by this code or by the board of governors. If the Chancellor of the California Community Colleges, upon review, finds that it is impossible to maintain classes of the maximum size as prescribed by this code or by the board of governors, he may add to the amounts allowed under Sections 84832 to 84836, inclusive, an amount sufficient to provide for the needed classes, but not more per special class than the applicable amounts computed in those sections.

It is the intent of the Legislature that the additional allowances authorized by this section be provided primarily for community college districts with an average daily attendance of less than 2,000. Allowances for community college districts with a current average daily attendance of 2,000 or more shall be provided, in any fiscal year, for no more than 2 percent of the community college districts having a current average daily attendance of 2,000 or more.

84838. (1) In addition to the allowance, provided under Sections 84832 to 84836, inclusive, the Chancellor of the California Community Colleges shall allow to community college districts for each unit of average daily attendance an amount as follows:

(a) For instruction of educationally handicapped students in learning disability groups, one thousand eight hundred eighty dollars (\$1,880).

(b) For instruction of educationally handicapped students in homes or in hospitals, one thousand three hundred dollars (\$1,300).

(c) For instruction of physically handicapped students in remedial physical education, seven hundred seventy-five dollars (\$775).

(d) For remedial instruction of physically handicapped students in other than physical education, two thousand dollars (\$2,000).

(e) For instruction of blind students when a reader has actually been provided to assist the student with his studies, or for individual instruction in mobility provided blind students under regulations prescribed by the board of governors, or when braille books are purchased, ink print materials are transcribed into braille, or sound recordings and other special supplies and equipment are purchased for blind students, or for individual supplemental instruction in vocational arts, business arts, or homemaking for blind students, nine hundred ten dollars (\$910).

Braille books purchased, braille materials transcribed from ink print, sound recordings purchased or made, and special supplies and equipment purchased for blind students for which state or federal funds were allowed are property of the state and shall be available for use by blind students throughout the state as the board of governors shall provide.

(f) For other individual instruction of physically handicapped students, one thousand three hundred dollars (\$1,300).

(g) For the instruction of physically handicapped students in regular day classes, one thousand eighteen dollars (\$1,018).

(h) For the instruction of mentally retarded students in regular day classes, one thousand eighteen dollars (\$1,018).

(i) For the instruction of educationally handicapped students in regular day classes, one thousand eighteen dollars (\$1,018).

(j) In lieu of benefits provided under subdivision (d) of Section 84838, there shall be allowed for the individualized remedial instruction of speech handicapped students by specially trained noncredentialed instructing assistants under the direct guidance of a speech therapist, one thousand eighteen dollars (\$1,018).

(2) (a) The allowances provided under Sections 84832 to 84836, inclusive, may be increased proportionately on account of special day classes convened, or other instruction provided a student, for days in a school year which are in excess of the number of days in the school year on which the regular day schools of a district are convened.

(b) The Chancellor of the California Community Colleges shall compute for each applicant community college district in providing in such year a program of specialized consultation to instructors, counselors and supervisors for educationally handicapped students, an amount equal to the product of ten dollars (\$10) and the average daily attendance of students enrolled in special day classes, learning disability groups, and home and hospital instruction for educationally handicapped students.

(Amended by Stats. 1976, Ch. 1011 )

[ORIGINAL SECTION]

84838. (1) In addition to the allowances provided under Sections 84832 to 84836, inclusive, the Chancellor of the California Community Colleges shall allow to community college districts for each unit of average daily attendance an amount as follows.

(a) For instruction of educationally handicapped students in learning disability groups, one thousand eight hundred eighty dollars (\$1,880)

(b) For instruction of educationally handicapped students in homes or in hospitals, one thousand three hundred dollars (\$1,300).

(c) For instruction of physically handicapped students in remedial physical education, seven hundred seventy-five dollars (\$775).

(d) For remedial instruction of physically handicapped students in other than physical education, two thousand dollars (\$2,000).

(e) For instruction of blind students when a reader has actually been provided to assist the student with his studies, or for individual instruction in mobility provided blind students under regulations prescribed by the board of governors, or when braille books are purchased, ink print materials are transcribed into braille, or sound recordings and other special supplies and equipment are purchased for blind students, or for individual supplemental instruction in vocational arts, business arts, or homemaking for blind students, nine hundred ten dollars (\$910).

Braille books purchased, braille materials transcribed from ink print, sound recordings purchased or made, and special supplies and equipment purchased for blind students for which state or federal funds were allowed are property of the state and shall be available for use by blind students throughout the state as the board of governors shall provide.

(f) For other individual instruction of physically handicapped students, one thousand three hundred dollars (\$1,300).

(g) For the instruction of physically handicapped students in regular day classes, one thousand eighteen dollars (\$1,018).

(h) For the instruction of mentally retarded students in regular day classes, one thousand eighteen dollars (\$1,018).

(i) For the instruction of educationally handicapped students in regular day classes, one thousand eighteen dollars (\$1,018)

(j) In lieu of benefits provided under subdivision (d) of Section 84838, there shall be allowed for the individualized remedial instruction of speech handicapped students by specially trained noncredentialed instructing assistants under the direct guidance of a speech therapist, one thousand eighteen dollars (\$1,018)

(2) (a) The allowances provided under Sections 84832 to 84836, inclusive, may be increased proportionately on account of special day classes convened, or other instruction provided a student, for days in a school year which are in excess of the number of days in the school year on which the regular day schools of a district are convened.

(b) The Chancellor of the California Community Colleges shall compute for each applicant community college district and county superintendent of schools in providing in such year a program of specialized consultation to instructors, counselors and supervisors for educationally handicapped students, an amount equal to the product of ten dollars (\$10) and the average daily attendance of students enrolled in special day classes, learning disability groups, and home and hospital instruction for educationally handicapped students

84839. For each special class or program for which a state allowance is provided under this article or under Section 84817 or 84820, each community college district maintaining such special classes or programs shall report annually to the Chancellor of the California Community Colleges, on forms he shall provide, all expenditures and income related to each special class or program.

If the Chancellor of the California Community Colleges determines that the current expense of operating a special class or program as defined in the Budget and Accounting Manual, California Community Colleges does not equal or exceed the sum of basic state aid, and state equalization aid provided in the regular foundation program per unit of average daily attendance and the allowance

provided under this article, and any amount of local tax funds contributed to the foundation program for each student in average daily attendance in the special class or program maintained by a community college district for each student in average daily attendance in special classes or programs maintained by the county superintendent of schools, then the amount of such deficiency shall be withheld from state apportionments to the community college district or the county superintendent of schools, as the case may be, in the succeeding fiscal year in accordance with the procedure prescribed in Section 84330.

Beginning with the 1971-72 fiscal year, expenditures for equipment that the Chancellor of the California Community Colleges determines are necessary for instruction in a special class or program for physically handicapped students shall be considered as current expense for purposes of this section. In any year the district's allowable expenditure for such equipment may not exceed 1 percent of the current expense of operating the district's physically handicapped program.

(Amended by Stats. 1976, Ch. 1011.)

[ORIGINAL SECTION]

84839. For each special class or program for which a state allowance is provided under this article or under Section 84817 or 84820, each community college district and each county superintendent of schools maintaining such special classes or programs shall report annually to the Chancellor of the California Community Colleges, on forms he shall provide, all expenditures and income related to each special class or program.

If the Chancellor of the California Community Colleges determines that the current expense of operating a special class or program as defined in the Budget and Accounting Manual, California Community Colleges does not equal or exceed the sum of basic state aid, and state equalization aid provided in the regular foundation program per unit of average daily attendance and the allowance provided under this article, and any amount of local tax funds contributed to the foundation program for each student in average daily attendance in the special class or program maintained by a community college district for each student in average daily attendance in special classes or programs maintained by the county superintendent of schools, then the amount of such deficiency shall be withheld from state apportionments to the community college district or the county superintendent of schools, as the case may be, in the succeeding fiscal year in accordance with the procedure prescribed in Section 84330.

Beginning with the 1971-72 fiscal year, expenditures for equipment that the Chancellor of the California Community Colleges determines are necessary for instruction in a special class or program for physically handicapped students shall be considered as *current expense for purposes of this section*. In any year the district's allowable expenditure for such equipment may not exceed 1 percent of the current expense of operating the district's physically handicapped program.

84840. The provisions of this article shall supersede any other provisions of this code in conflict therewith. Allowances under this article shall be provided pursuant to regulations of the board of governors and standards and requirements established by the board of governors.

## Article 11. Handicapped Students

84850. (a) The Chancellor of the California Community Colleges shall apportion to each community college district for the purpose of funding the excess direct district cost of providing special facilities, special educational material, educational assistance, mobility assistance, and transportation for physically handicapped students 21 years of age or older enrolled at a community college who have demonstrated a financial need for such benefits, an amount not exceeding four hundred dollars (\$400) in each fiscal year for each physically handicapped student 21 years of age or older enrolled at a community college who has demonstrated a financial need therefor.

(b) Each district applying for the apportionments authorized by this section shall require each physically handicapped student for whom benefits are to be provided to submit to the community college a statement of his financial condition. The community college shall grant such benefits on the basis of the demonstrated financial need of the applicant therefor. The Board of Governors shall adopt rules and regulations for determining when such financial need exists. The financial status of his parents shall be taken into consideration in determining the financial need of an applicant.

(c) No community college district may apply for an apportionment pursuant to this section unless it first certifies that it has made every reasonable effort to secure federal funds or other state funds for the purpose, and has been unable to secure sufficient funds.

## Article 12. Instructional Television

84860. The Chancellor of the California Community Colleges shall allow to each community college district participating in a program for instructional television established pursuant to Section 78310 or 78311, fifty cents (\$.50) multiplied by the number of students of the district present in the classroom and instructed by such instructional television programs during the preceding fiscal year. The amount of such allowance to a community college district shall not exceed one-half the total cost to the district of providing television broadcasts or closed-circuit television programs pursuant to Section 78310 or 78311. For the purpose of this section, no student shall be counted more than once per school year.

The allowances to community college districts and county superintendents of schools under this section shall be made from such moneys as may be appropriated therefor by the Legislature.

It is the intention of the Legislature that the system of allowances prescribed by this section shall remain in effect only until such time as a new apportionment formula for funding instructional television is developed and moneys are appropriated therefor. The board of governors shall adopt appropriate procedures to insure an orderly

transition to the new apportionment formula.

### Article 13. Severance Aid

84870. Whenever real property within a community college district is acquired for state highway purposes, the Chancellor of the California Community Colleges shall allow to the community college district an amount of severance aid as provided in this section, in addition to any other allowances provided by this chapter. For the five years following the acquisition of such property the Chancellor of the California Community Colleges shall allow to the community college district severance aid based on the amount of tax revenues the community college district would have received from such property if there had been no such acquisition, computed as follows: For the year following such acquisition, the district shall be allowed the amount of tax revenues, except revenues for bond interest and redemption, which would have been paid during the year of acquisition if the taxes assessed on the property acquired were then paid in full; for the second year the district shall be allowed 80 percent of such amount; for the third year the district shall be allowed 60 percent of such amount; for the fourth year the district shall be allowed 40 percent of such amount; and for the fifth year the district shall be allowed 20 percent of such amount.

84871. For community college districts in which the land acquisition was completed on or subsequent to June 30, 1962, but prior to November 23, 1970, the Chancellor of the California Community Colleges shall perform the computation prescribed in Section 84870 and compute the total amount of severance aid for a five-year period commencing with the date of completion of the acquisition. He shall determine an amount equal to 30 percent of the amount computed and certify the amount determined to the State Controller in the manner prescribed in Section 84874.

84872. Community college districts may apply for severance aid as provided in this article on forms provided by the Chancellor of the California Community Colleges, and in accordance with regulations which he is authorized to adopt.

84873. No allowance of severance aid shall be made as provided in Section 84870 or 84871 unless the total assessed value of taxable real property within the community college district is reduced by one-half of one (0.5) percent or more during a fiscal year by reason of acquisitions giving rise to severance aid as provided in Section 84870 or 84871. In determining whether or not the value of such acquisitions is equal to one-half of one (0.5) percent or more of the value of taxable real property, all such acquisitions made during each fiscal year shall be considered as one sum.

84874. On or before May 25th in each fiscal year, the Chancellor of the California Community Colleges shall determine and certify to the State Controller the amount of severance aid computed and to be allowed to community college districts under Section 84870 or

84871 for the fiscal year. On or before June 15th in each fiscal year, the State Controller shall order the transfer, from the Motor Vehicle Transportation Tax Account in the Transportation Tax Fund to the State School Fund, of the amount of severance aid computed and to be allowed to community college districts for the fiscal year as so certified, and the amount so computed and certified is hereby appropriated for purposes of such transfer. The Department of Public Works may charge or allocate to the appropriate particular projects on account of which severance aid was computed, the amounts so transferred. In the case of severance aid determined pursuant to Section 84871, the allowance shall be apportioned to the community college district in two equal annual installments.

#### Article 14. Recomputations of Allowances

84880. The total amount apportioned from Section B of the State School Fund shall not exceed the amount provided by law therefor. If the total amount provided for Section B of the State School Fund is greater than the total apportioned, the balance from any specified expenditure authorization in Sections 84300 and 84301 shall be used to decrease deficits in apportionments from Section B of the State School Fund in the order prescribed in Section 84882.

84881. If the total amount allowed for each subdivision in Sections 84300 and 84301 is less than the apportionments named in the subdivision, the apportionments shall be reduced proportionately or as otherwise prescribed. Prior to the close of the fiscal year, such reductions shall be restored to the extent possible pursuant to Section 84880.

84882. Balances available from any apportionments from Section B of the State School Fund and funds provided by subdivision (c) of Section 14030 shall be used to the extent necessary as follows:

(a) First, to restore any reduction in apportionments for basic aid and equalization aid for community college districts.

(b) Second, to restore any reduction in apportionments pursuant to Section 84819.

(c) Third, to restore any reduction in apportionments pursuant to Sections 84817, 84820, 84832, 84834, 84835, and paragraphs (c), (d), (e), (f), and (g) of subdivision (1) of Section 84838.

(d) Fourth, to restore any reduction in apportionments pursuant to Section 84836 and paragraphs (a) and (b) of subdivision (1) of, and paragraph (b) of subdivision (2), of Section 84838.

Any remaining balances otherwise transferable under subdivisions (b) and (c) of Section 14030 shall revert to the General Fund.

#### Article 15. Community College Academic Calendar and Student Measurement

84890. There is a pilot program for more flexible and effective nontraditional calendar and course scheduling in the community colleges.

The pilot program shall be limited to six community college districts, to be selected by the Board of Governors of the California Community Colleges.

The board of governors shall monitor and evaluate the costs and benefits of experimental, nontraditional calendars to be undertaken in the pilot districts and report its findings to the 1977-78 Regular Session of the Legislature. One objective of this chapter is to study use of a full-time equivalent measure of enrollment that produces a count as similar as possible to the previous average daily attendance count, while eliminating factors that theoretically convert enrollment to attendance. Inasmuch as the nationally recognized measure of semester course credit is defined for a term of 16 weeks, a second objective of this chapter is to evaluate a minimum instructional year of 160 days for community colleges similar to that of other segments of higher education while retaining the 175-day academic year. In addition, under provisions of this chapter, organization of instructional modules are no longer limited to the traditional quarter or semester modes. Flexible calendar scheduling will, among other effects, facilitate articulation of community college students with other segments of higher education, allow programs and courses to be designed on the basis of need and subject content, and provide opportunity to smooth peak student course demand within an educationally and fiscally responsible framework.

This chapter applies only to community college districts included in the pilot program.

In order to carry out the purposes of the pilot program the board of governors may waive the provisions of Sections 72252, 76302, 76310, 76311, 76312, 76320, 76321, 78008, 78200, 78206, 78460, 79002, 79028, 84370, 84372, 84520, 84522, 84524, 84525, 84526, 84528, 84531, 84532, 84533, 84550, 84701, 84706, 84760 and any other related sections as applied only to pilot districts.

84891. Beginning with fiscal year 1976-77, the academic year for community colleges shall be no less than 175 workdays, of which a minimum of 160 days, exclusive of Saturdays and Sundays, shall be devoted to instruction or examination or both in scheduled courses. Specific college calendars shall be determined by the district governing board.

All college personnel under contract for the academic year are to be accountable, as determined by the district, for the 175 workdays, which include, but are not limited to, the following activities:

- (a) Course instruction and examination;
- (b) Student personnel services;
- (c) Learning resource services;
- (d) Community and public services;
- (e) Related activities, such as student advising, guidance and orientation; staff development and in-service training; course, curriculum, and learning resource development; department and division meetings, conferences and workshops; program

development and evaluation; and institutional research; and

(f) The necessary supporting activities for the above.

The governing board of a community college district may provide for community college courses on Saturday or Sunday or both.

These days may be counted toward the 160-day minimum required when, due to unforeseen circumstances, a college is closed by order of the President of the United States or the Governor of the State of California.

Number and length of courses and sessions or terms scheduled during the academic year shall be determined by the governing board of the district.

84892. Community colleges shall be permitted to conduct, in addition to courses and sessions or terms scheduled during the academic year, other sessions and courses, graded and ungraded, any time during the fiscal year for any length of time during any day or days of the week, including Saturdays and Sundays. All such courses shall qualify for state and local fiscal support.

84893. The unit of student workload measurement shall be based upon contact hours of enrollment. The unit measure shall be student full-time equivalent contact hours of enrollment and, in graded courses, is derived by dividing the product of the mean average of active enrollment counts at specified census dates and the total contact hour value of each course by an appropriate divisor.

Contact hours of enrollment in ungraded courses (classes for adults) shall be divided by a divisor that produces a comparable unit of student workload measurement.

These divisors shall be determined by the Board of Governors of the California Community Colleges in cooperation with the Department of Finance.

For purposes of any other provision of this code, the unit of student workload measurement as defined under provisions of this section and set forth in Title 5 of the California Administrative Code shall be deemed to be average daily attendance for all community college purposes.

(a) Contact hours of enrollment in graded, term or session-length courses during the academic year shall be based upon two census counts of students enrolled on the days nearest one-fifth and three-fifths of the way through the term or session.

(b) Contact hours of enrollment in graded courses scheduled for longer or shorter periods than regular terms or sessions of the academic year or at other times during the fiscal year shall be based upon two census counts of students enrolled on the course meeting days nearest one-fifth and three-fifths of the way through the course; provided, that the first census would not occur earlier than the second meeting for courses scheduled to meet two or more times and that the second census would not be taken for courses meeting 12 times or less.

For purposes of subdivisions (a) and (b), the drop date for reporting students in active enrollment, as specified by rules and

regulations adopted by the Board of Governors of the California Community Colleges, shall be no later than the day prior to the second census date.

(c) Contact hours of enrollment in ungraded courses (classes for adults) shall be based upon a count of students present at each course meeting.

(d) Contact hours of enrollment of adults, as defined in Section 78460, shall be reported separately.

(e) Contact hours of enrollment of all students not residents of a community college district shall be reported separately.

(f) Contact hours of enrollment of all students not residents of California shall be reported separately.

84894. One semester credit hour of community college work is approximately 48 hours of lecture, study, recitation, demonstration-discussion, and laboratory work or any combination thereof, over any period of time.

84895. Provisions of this chapter shall be implemented at no gain or loss in district operating revenue per unit of student workload. This may be accomplished without changing base revenue and state aid for individual districts in the year of implementation. To the extent that counts of the new units of student workload differ from average daily attendance only because of new measurement techniques, there may need to be proportionate changes in a district's revenue base per student and in the state foundation programs.

The Board of Governors of the California Community Colleges shall adopt rules and regulations setting forth definitions, procedures, and guidelines to implement this chapter.

84896. Notwithstanding any provision of this chapter, state apportionments to community colleges shall continue to be calculated on the basis of a 175-day academic year.

## CHAPTER 6. DISTRICT FINANCIAL STATEMENTS AND BUDGET REQUIREMENTS

### Article 1. Financial Statements

85000. On or before the 15th day of August of each year the governing board of each community college district shall prepare and keep on file for public inspection a statement of all receipts and expenditures of the district for the preceding fiscal year and a statement of the estimated total expenses for the district for the current fiscal year.

85001. The statement shall be in the form prescribed by the board of governors.

85002. The budget of the governing board for the current fiscal year shall be a part of the statement.

85003. Except in community college districts where no district tax is levied, the publication budget for the ensuing school year to

which it is intended to apply, showing program expenditures, cash balances, and all the appropriations from the state as required to be tabulated in Section 85021 for the ensuing and last preceding fiscal year, and the district tax requirement for the school year to which the publication budget is intended to apply and for the last preceding school year, including a summary of the district tax requirements for the ensuing fiscal year to be derived by levies on the secured roll as shown on the budget form prescribed for this purpose by the board of governors, shall be published by the county superintendent of schools at least once in a newspaper of general circulation published within the district, or if there is no such newspaper, then in any newspaper of general circulation in the district, prior to its adoption. The cost of the publication shall be a proper and legal charge against the community college district or districts for which the publication is made, and shall not exceed the rate fixed by the board of supervisors for official advertising. Publication shall be made during the last week in July of each year, and shall contain a notice that a public hearing will be held before the governing board of the community college district, in a schoolhouse in the district, or in some other place conveniently accessible to the residents of the district, during the first week in August at which any taxpayer in the district may appear and object to the proposed budget or any item of the budget. The hearing may be concluded on such publication budget when there are no requests on file for further hearing. The budget shall not be finally adopted by the governing board of the district until after the public hearing has been held. In the case of a community college district or districts in which the average daily attendance of all said districts combined is in excess of 200,000, governed by the same governing board, the public hearing during the first week in August need not be held if there has been at least one public meeting on the publication budget prior to the first week of August, at which public meeting any changes proposed to be made in the publication budget for the final budget shall have been presented.

85004. Any violation of this chapter or a failure to comply with its provisions by the county superintendent of schools or by the governing board of a community college district is punishable under Section 1222 of the Government Code.

85005. The governing board of a community college district may print and distribute in pamphlet form an annual financial statement of the receipts and expenditures of the district, and may include in the pamphlet a general report concerning the conduct and condition of the schools of the district. Similar information of value to the public regarding the school system may be printed and distributed from time to time, or published not oftener than once a year, in a newspaper of general circulation published within the district.

## Article 2. Budget Requirements

85020. As used in this article, "budget" includes the preliminary budget, the tentative budget and the adopted budget of a community college district.

85021. The adopted annual financial and budget report of a community college district shall show, as specified by the office of the Chancellor of the California Community Colleges, a statement of the proposed expenditures and of the estimated revenues for the ensuing fiscal year, together with a comparison of each item of revenue and expenditures, with the actual revenues and expenditures of the fiscal year just completed. The tentative as well as the publication annual financial and budget reports may show estimated where actual figures cannot be determined at the time.

The county superintendent of schools shall from his own records supply to the community college district any information that it may need to make the comparisons required by this section.

85022. Each annual financial and budget report shall be made in quintuplicate as the form is prescribed by the office of the Chancellor of the California Community Colleges. Standard forms shall be prepared to show the budgeting items and comparisons required by this article.

85023. (a) On or before the first day of July in each year, each community college district shall file a tentative budget with the county superintendent of schools.

(b) On or before July 15, in each year, the county superintendent of schools:

(1) Shall examine and may make technical corrections to the tentative budget, and indicate changes he deems desirable or necessary to determine the tax requirement; and

(2) Shall make any recommendations he deems necessary to insure that the proposed expenditures do not exceed the anticipated revenues and that the anticipated revenues are realistic, and shall transmit to the governing board of the community college district a written explanation of the reasons for such changes.

(c) On or before July 20 in each year, the governing board shall make such changes in the tentative budget as it deems necessary or desirable and shall return the budget to the county superintendent of schools. Such budget shall constitute the publication budget for the period to which it is intended to apply. A copy of this publication district budget shall be sent to the county auditor in such form.

(d) On or before the eighth day of August, the governing board of each community college district shall adopt a final budget and shall file such budget with the county superintendent of schools, the county auditor, the county board of supervisors, and the Chancellor of the California Community Colleges.

(e) On or before the 15th day of August, the county superintendent shall approve the adopted budget for each community college district as officially adopted and submitted by its

governing board, and shall file one copy of the adopted budget of each community college district with the board of supervisors, one copy with the auditor of his county, and one copy with the office of the Chancellor of the California Community Colleges, together with a statement showing the amount of community college district taxes required by each community college district of the county.

85024. If the governing board of any community college district neglects or refuses to make a community college district budget as prescribed by the office of the Chancellor of the California Community Colleges, the county superintendent of schools may not make any apportionment of state or county money to the particular community college district for the current community college fiscal year.

## CHAPTER 7. LOCAL TAXATION BY DISTRICTS

### Article 1. Maximum Tax Rates

85100. Notwithstanding the provisions of this article or any other provisions of law to the contrary, the governing board of a community college district may have levied and collected community college district taxes, over a period of three years, without limitation as to rate, for purposes of providing funds for the annual district share of any project approved pursuant to Chapter 4 (commencing with Section 81800) of Part 49 of this division, including any funds required to obtain federal funds for such project or any part of the project and such state funds as are allocated pursuant to Section 16352.5 of the Government Code. If at the end of any fiscal year there remains an unencumbered balance derived from the revenue of the tax rate hereby provided, such balance shall be used exclusively for the purpose of providing funds for the district matching share of any project approved pursuant to Chapter 4 (commencing with Section 81800) of Part 49 of this division.

### Article 2. Increase or Decrease of Maximum Tax Rate

85110. The maximum rate of community college district tax for any school year is hereby increased by such amount as will produce the amount of the proposed expenditures of the community college district required or authorized pursuant to Sections 82530 to 82547, inclusive, and Sections 10900 to 10915, inclusive, as shown by the budget of the district for such school year, as finally adopted by the governing board of the district, less any unencumbered balances remaining at the end of the preceding school year derived from the revenue from the increase in the rate of tax provided by this section.

The increase provided by this section shall not exceed five cents (\$.05) per each one hundred dollars (\$100) of the assessed value of property within the district, and said increase shall be in addition to any other community college district tax authorized by law to be levied.

If at the end of any school year there remains an unencumbered balance derived from the revenue of the increase in tax rate hereby provided, such balance shall be used exclusively in the following school year for the expenditures of the community district during that year required or authorized by Sections 87710 and 87711 and Sections 82530 to 82547, inclusive, and Sections 10900 to 10915, inclusive.

85111. Notwithstanding the provisions of Section 85110, a district may accumulate from year to year any unencumbered balance derived from the tax levied under Section 85110, provided that the accumulated money is ultimately expended for a purpose authorized by Sections 87710 and 87711, Sections 82530 to 82547, inclusive, or Sections 10900 to 10915, inclusive.

85112. Effective September 4, 1973, and thereafter, the revenue limit per unit of average daily attendance for any community college district, as computed pursuant to law for any school year affected, may be increased and, having been increased, may be decreased, by an amount equal to or less than the amount of such increase, by a majority vote of the qualified electors of the district at an election which may be ordered by the governing board of the community college district of its own motion and shall be ordered within 90 days after the filing with the governing board of a petition signed by not less than 10 percent of the registered voters of the district, requesting that an election be ordered, unless the petitioners request that the election be consolidated with the annual election for members of the governing board, or that the election be consolidated with the general election.

The governing board shall determine whether the increase or decrease shall remain in effect for a specified or unspecified period of time, unless the petition filed by the electors provides for a specified or unspecified period of time. If a specified period is provided for in the petition or determined upon by the governing board, such period shall be stated on the ballot.

Pursuant to the order of the governing board, the election shall be called, held, and conducted as nearly as is practicable in accordance with the provisions of Chapter 3 (commencing with Section 5300) of Part 4 of Division 1 of Title 1.

The specification of the election order shall contain the information provided in Section 5322 and shall be furnished by the governing board of the district for all revenue limit increase or decrease elections ordered by it.

The costs incurred by the county clerk or registrar of voters and the county superintendent of schools in connection with this section shall be paid out of the funds of the district.

Except as otherwise herein provided, the ballot used in the election shall contain substantially the words "Shall there be authorized an (increase, decrease) in the revenue limit per unit of average daily attendance in the amount of \_\_\_\_\_ dollars

(\$ \_\_\_\_\_), such (increase, decrease) to be effective in the \_\_\_\_\_ Community College District for (the school year 19\_\_\_\_ only; the school years 19\_\_\_\_ through 19\_\_\_\_; \_\_\_\_\_ school years commencing 19\_\_\_\_), the revenues of which are to be used for \_\_\_\_\_?

“This (increase, decrease) would constitute an (increase, decrease) for the school year 19\_\_\_\_ from approximately \_\_\_\_\_ dollars (\$ \_\_\_\_\_) to approximately \_\_\_\_\_ dollars (\$ \_\_\_\_\_) per unit of average daily attendance.

“The proposed (increase, decrease) of the revenue limit of \_\_\_\_\_ dollars (\$ \_\_\_\_\_) per unit of average daily attendance will authorize an (increase, decrease) in the estimated maximum general purpose tax rate of the district in the first year 19\_\_\_\_ from approximately \_\_\_\_\_ dollars (\$ \_\_\_\_\_) [the approximate maximum general purpose tax rate which would be applicable in 19\_\_\_\_ in the event this proposition is not approved, although the maximum general purpose tax rate of the district for 19\_\_\_\_ was approximately \_\_\_\_\_ dollars (\$ \_\_\_\_\_)] to approximately \_\_\_\_\_ dollars (\$ \_\_\_\_\_) for each one hundred dollars (\$100) of assessed valuation of property.” (The explanatory language set forth above in brackets may, at the option of the district governing board, be eliminated or appropriately modified.) Opposite such words, in separate lines, the words “Yes” and “No” shall be printed, with a voting square opposite each such word. If, at any prior election held in the district after July 11, 1973, the revenue limit of the district had been increased for a specified period of time, and if the election is called for the purpose of continuing in effect the previously authorized increase in the revenue limit per unit of average daily attendance of the district, the ballot shall contain substantially the words “Shall the existing revenue limit increase of \_\_\_\_\_ dollars (\$ \_\_\_\_\_) per unit of average daily attendance be continued in the \_\_\_\_\_ Community College District for the school years 19\_\_\_\_ through 19\_\_\_\_, the revenues of which are to be used for \_\_\_\_\_?” Opposite such words in separate lines, the words “Yes” and “No” shall be printed with a voting square opposite each such word. Each voter shall stamp a cross in the voting square after the answer he desires to give.

Whenever the revenue limit per unit of average daily attendance of a district is increased for either a specified or unspecified period of time and during such period an election is called for the purpose of further increasing the revenue limit per unit of average daily attendance of the district, the ballot used in the election shall show only the authorized revenue limit increase per unit of average daily attendance of the district in effect at the time of the election and the proposed revenue limit increase per unit of average daily attendance.

If an election for a decrease in an increased revenue limit of a district is held in any year prior to or concurrently with the district election for governing board members, any decrease adopted at such

election shall become effective on July 1 following the election. If an election for a decrease in a revenue limit of a district is held in any year after the date of the district election for governing board members, any decrease adopted at such election shall not become effective until July 1 of the next succeeding year.

85113. The repeal, by the act enacting this section, of Section 85112 shall not operate to invalidate the results of any election ordered, called or conducted prior to April 25, 1974, and the legal effectiveness of any ballot proposition used in any such election, which ballot proposition substantially complies with the wording authorized by such repealed sections, or with the purpose and intent of such repealed sections, is hereby ratified and confirmed to the full extent of the power of the Legislature to do so. A community college district election for an increase or decrease in the revenue limit of such district ordered by the governing board prior to, in which the ballot proposition substantially complies with the wording authorized by Section 85112, as added by the act enacting this section, or which substantially complies with the intent and purpose of the newly added sections, shall be as fully effective as they would be had the newly added Section 85112 become effective prior to the ordering of such elections.

85114. Any such increase or decrease in tax rates or revenue limits shall remain in effect only for the period specified on the ballot, if such period was specified by the governing board.

85115. Whenever a high school district and a community college district which are coterminous have, pursuant to provisions of Section 85112, increased the combined tax rate otherwise applicable to the districts, and thereafter, the districts cease to be coterminous, the maximum tax rate of the high school district shall be the previously authorized combined tax rate less thirty-five cents (\$.35) on each one hundred dollars (\$100) of assessed valuation.

85116. Notwithstanding any provision of law to the contrary, no election for the purpose of increasing or decreasing any maximum tax rate for a community college district shall be held within 45 days before a statewide election or within 45 days after a statewide election unless conducted at the same time as such statewide election, subject to the provisions of Chapter 4 (commencing with Section 23300) of Part 2 of Division 12 of the Elections Code.

85117. Any election called pursuant to Sections 85110 to 85114, inclusive, may be consolidated with any other election pursuant to the provisions of Chapter 4 (commencing with Section 23300) of Part 2 of Division 12 of the Elections Code.

85121. (a) This section shall only apply to those counties having a population in excess of 4,000,000 and to every community college district within such a county for which the board of supervisors fixes the annual district tax rate.

(b) Upon written request of the governing board of any community college district submitted to the county assessor on or before the 20th day of February, the county assessor shall not later

than the succeeding 15th day of May advise in writing the governing board of the district the estimated total assessed valuation of taxable property in the district for the next succeeding fiscal year, together with the estimated total assessed valuation of all taxable property appearing on the secured roll, the unsecured roll, and solvent credits.

### Article 3. Property Tax Revenue Control

85130. Any voted increase in the maximum tax rate, to be effective commencing with the 1973-74 fiscal year, which does not have a termination date shall be added to the 1972-73 and 1971-72 tax rates used to determine the 1972-73 base revenue per unit of average daily attendance.

Any voted increase in the maximum tax rate, to be effective commencing with the 1973-74 fiscal year, which does have a termination date shall be multiplied by the total estimated assessed valuation for 1973-74, and the result divided by the estimated foundation program average daily attendance of the second principal apportionment for 1973-74. This override tax revenue per average daily attendance shall be added to the revenue per average daily attendance for 1973-74 prior to the computation of the revenue limit of the district for 1973-74 pursuant to subdivision (f) of Section 20934 as that section read on July 1, 1974. For the computation of the revenue limit of the district for the year immediately following the last year of authorization of the voted override, the amount of this increase as it actually affected the revenue limit shall not be included.

85131. Notwithstanding Section 85130, any voted increase in the maximum tax rate, to be effective commencing with the 1973-74 fiscal year, which does have a termination date and whose sole purpose was the providing of construction funds shall not be subject to Section 85130, but shall, for each of the applicable fiscal years, be added to the maximum general purpose tax rate otherwise required to be levied.

85132. (a) For the 1974-75 fiscal year and each fiscal year thereafter, the maximum general purpose tax rate shall be computed pursuant to this section by the county superintendent of schools for each community college district in the county.

(b) The foundation program for 1974-75 fiscal years and subsequent fiscal years is as prescribed in Sections 84721 and 84810.

(c) The revenue limit per foundation program unit of average daily attendance for the district for the prior fiscal year shall be divided into the appropriate inflated foundation program amount per unit of average daily attendance for the prior year. If the quotient is greater than 1, it shall be deemed to be 1.

(d) The foundation program per unit of average daily attendance for the prior year used as the dividend in subdivision (c) shall be as specified pursuant to Section 84721 for the appropriate fiscal year.

(e) For the fiscal years 1974-75, 1975-76, 1976-77, and fiscal years thereafter, the increase in the foundation program amount per unit of average daily attendance for the budget year compared with the preceding year shall be determined for each district in accordance with Section 84721.

(f) The amount determined pursuant to subdivision (e) shall be multiplied by the quotient determined pursuant to subdivision (c). The resultant amount shall constitute the revenue limit inflation adjustment of the district.

(g) The revenue limit inflation adjustment for a district shall be added to the prior year revenue limit per foundation program unit of average daily attendance of the district. The sum shall be multiplied by the estimated foundation program units of average daily attendance of the budget year. The product shall be the revenue limit of the district for the budget year.

The average daily attendance for purposes of this subdivision shall include adults and other-than-adults resident students, but shall exclude residents of other districts, nondistrict residents, and nonresident students.

(h) Any district which has a revenue limit computed pursuant to subdivision (g) which is less than the foundation program computed for the budget year may increase its revenue limit computed pursuant to subdivision (g) to the lesser of the foundation program level of the district or the prior year revenue limit increased by 15 percent.

Notwithstanding the preceding paragraph if, due to changes in federal legislation or administrative policy, the entitlement under Public Law 81-874 is reduced or discontinued and is not replaced by other federal funding, and if a district experiencing such loss has a revenue limit less than the budget year foundation program, it shall be allowed to increase the revenue limit for fiscal years 1973-74, 1974-75, and 1975-76, by an amount equal to the difference between the Public Law 81-874 income per foundation program average daily attendance of the prior year and the estimated Public Law 81-874 income per foundation program average daily attendance of the budget year, if any, multiplied by the estimated foundation program average daily attendance of the budget year. Such increased revenue limit shall not exceed the foundation program of the budget year.

(i) From the amount computed pursuant to subdivision (g) or (h), there shall be subtracted the basic and equalization aid to be received for the budget year and the amount of income to be received from the equalization offset tax pursuant to Section 84203.

(j) The amount determined pursuant to subdivision (i) shall be adjusted sufficiently to allow for the mandated increases for district contributions for the State Teachers' Retirement System as required by Section 23400. Such adjustment, together with any rate levied in any prior year pursuant to Section 23401, shall not exceed the revenue derived by the tax rate provided in Section 23401. The adjusted amount shall be the local revenue limit of the district for the budget year.

(k) From the amount computed pursuant to subdivision (j), there shall be subtracted the amount of money collected or to be collected as taxes on property on the unsecured roll of the budget year, excluding the amounts collected through the levy of taxes provided in Sections 4147, 8329, 15250, 15742, 16090, 81180, 84006, 85100, and 85110 of the Education Code and Section 5302.5 of the Streets and Highways Code.

(l) For the purposes of this subdivision, the assessed valuation used in computing the maximum tax rate is defined as the total actual assessed valuation, including business inventory and homeowners exemption and exclusive of the assessed valuation increment used to allocate tax receipts to a redevelopment agency pursuant to Article 6 (commencing with Section 33670) of Chapter 6 of Part 1 of Division 24 of the Health and Safety Code.

The amount determined pursuant to subdivision (k) shall be divided by the amount of actual assessed valuation of the district on the secured roll after due allowance for delinquencies, pursuant to Section 14203. The quotient multiplied by 100 shall be the tax rate on each one hundred dollars (\$100) of such assessed valuation and shall be the maximum general purpose tax rate which may be levied in the district during the 1973-74 fiscal year, exclusive of taxes provided in Sections 4147, 8329, 15250, 15742, 16090, 81180, 84006, 85100, and 85110 of this code and Section 5302.5 of the Streets and Highways Code. The revenue limit in subdivision (h) notwithstanding, in no case for districts receiving equalization aid, shall the tax rate be reduced below thirty-five cents (\$.35).

(Amended by Stats. 1976, Ch. 1011.)

[ORIGINAL SECTION]

85132. (a) For the 1974-75 fiscal year and each fiscal year thereafter, the maximum general purpose tax rate shall be computed pursuant to this section by the county superintendent of schools for each community college district in the county.

(b) The foundation program for 1974-75 fiscal years and subsequent fiscal years is as prescribed in Sections 84721 and 84810.

(c) The revenue limit per foundation program unit of average daily attendance for the district for the prior fiscal year shall be divided into the appropriate inflated foundation program amount per unit of average daily attendance for the prior year. If the quotient is greater than 1, it shall be deemed to be 1.

(d) The foundation program per unit of average daily attendance for the prior year used as the dividend in subdivision (c) shall be as specified pursuant to Section 84721 for the appropriate fiscal year.

(e) For the fiscal years 1974-75, 1975-76, 1976-77, and fiscal years thereafter, the increase in the foundation program amount per unit of average daily attendance for the budget year compared with the preceding year shall be determined for each district in accordance with Section 84721.

(f) The amount determined pursuant to subdivision (e) shall be multiplied by the quotient determined pursuant to subdivision (c). The resultant amount shall constitute the revenue limit inflation adjustment of the district.

(g) The revenue limit inflation adjustment for a district shall be added to the prior year revenue limit per foundation program unit of average daily attendance of the district. The sum shall be multiplied by the estimated foundation program units of average daily attendance of the budget year. The product shall be the revenue limit of the district for the budget year.

The average daily attendance for purposes of this subdivision shall include adults and other-than-adults resident students, but shall exclude residents of other districts, nondistrict residents, and nonresident students

(h) Any district which has a revenue limit computed pursuant to subdivision (g) which is less than the foundation program computed for the budget year may increase its revenue limit computed pursuant to subdivision (g) to the lesser of the foundation program level of the district or the prior year revenue limit increased by 15 percent.

Notwithstanding the preceding paragraph if, due to changes in federal legislation or administrative policy, the entitlement under Public Law 81-874 is reduced or discontinued and is not replaced by other federal funding, and if a district experiencing such loss has a revenue limit less than the budget year foundation program, it shall be allowed to increase the revenue limit for fiscal years 1973-74, 1974-75, and 1975-76, by an amount equal to the difference between the Public Law 81-874 income per foundation program average daily attendance of the prior year and the estimated Public Law 81-874 income per foundation program average daily attendance of the budget year, if any, multiplied by the estimated foundation program average daily attendance of the budget year. Such increased revenue limit shall not exceed the foundation program of the budget year.

(i) From the amount computed pursuant to subdivision (g) or (h), there shall be subtracted the basic and equalization aid to be received for the budget year and the amount of income to be received from the equalization offset tax pursuant to Section 84203.

(j) The amount determined pursuant to subdivision (i) shall be adjusted sufficiently to allow for the mandated increases for district contributions for the State Teachers' Retirement System as required by Section 23400. Such adjustment, together with any rate levied in any prior year pursuant to Section 23401, shall not exceed the revenue derived by the tax rate provided in Section 23401. The adjusted amount shall be the local revenue limit of the district for the budget year.

(k) From the amount computed pursuant to subdivision (j), there shall be subtracted the amount of money collected or to be collected as taxes on property on the unsecured roll of the budget year, excluding the amounts collected through the levy of taxes provided in Sections 4147, 8329, 15250, 15742, 16090, 81180, 84006, 85100, and 85110 of the Education Code and Section 5302.5 of the Streets and Highways Code.

(l) For the purposes of this subdivision, the assessed valuation used in computing the maximum tax rate is defined as the total actual assessed valuation, including business inventory and homeowners exemption and exclusive of the assessed valuation increment used to allocate tax receipts to a redevelopment agency pursuant to Article 6 (commencing with Section 33670) of Chapter 6 of Part 1 of Division 24 of the Health and Safety Code.

The amount determined pursuant to subdivision (k) shall be divided by the amount of actual assessed valuation of the district on the secured roll after due allowance for delinquencies, pursuant to Section 14203. The quotient multiplied by 100 shall be the tax rate on each one hundred dollars (\$100) of such assessed valuation and shall be the maximum general purpose rate which may be levied in the district during the 1973-74 fiscal year, exclusive of taxes provided in Sections 4147, 8329, 15250, 15742, 16090, 81180, 84006, 85100, and 85110 of this code and Section 5302.5 of the Streets and Highways Code. The revenue limit in subdivision (h) notwithstanding, in no case for districts receiving equalization aid, shall the tax rate be reduced below thirty-five cents (\$.35).

85133. Commencing September 4, 1973, the revenue limit prescribed by Section 85132 may be exceeded upon approval of a majority of the electors of the district voting on a proposition to that effect pursuant to Section 85112. Such approval may be granted for any period of time, and shall be added to the budget year revenue limit per foundation program unit of average daily attendance of the district as determined in subdivision (h) of Section 85132 in computing the maximum general purpose tax rate for each year in

which the voted revenue limit increase is effective.

For the fiscal year following the last year in which the voted revenue limit increase is authorized, the amount of the voted revenue limit increase as it actually affected the revenue limit shall be subtracted from the revenue limit per foundation program unit of average daily attendance of the district as determined in subdivision (h) of Section 85132.

85133.5. The revenue limit per unit of average daily attendance of a community college district the boundaries of which are coterminous with those of a city and county shall be increased, or decreased, as the case may be, by the amount necessary to reflect or accommodate any change in the property tax revenues allocable to the district for public school purposes or any change in expenditures required of the district for public school purposes resulting from an election affecting such revenues or expenditures conducted pursuant to the charter of the city and county. Such revised revenue limit shall be in effect for the entire 1975-76 fiscal year.

85134. The unexpended proceeds of any permissive tax rate, the authorization for the levy and collection of which has been made inoperative by this article, shall be transferred to the general fund of the district on July 1, 1973. The consolidation of all tax rates previously permitted and now included to the extent needed within the total general fund rate does not preclude districts from expending funds for the purposes normally supported by such permissive restricted overrides in prior years.

85135. Commencing with 1973-74 fiscal year and thereafter, notwithstanding the provisions of Sections and 85132 68076, and for the purpose of crediting attendance for apportionments from the State School Fund and computing the revenue limit of a community college district, students lawfully admitted to the United States for permanent residence in accordance with all applicable laws of the United States and enrolled at a community college in a class in English and citizenship for foreigners as provided in Education Code Section 78462 shall be counted as resident students to the extent of their enrollment in such classes.

(Amended by Stats 1976, Ch. 1011 )

[ORIGINAL SECTION]

85135 Commencing with the 1973-74 fiscal year and thereafter, notwithstanding the provisions of Sections 8132 and 68076, and for the purpose of crediting attendance for apportionments from the State School Fund and computing the revenue limit of a community college district, students lawfully admitted to the United States for permanent residence in accordance with all applicable laws of the United States and enrolled at a community college in a class in English and citizenship for foreigners as provided in Education Code Section 78462 shall be counted as resident students to the extent of their enrollment in such classes.

85136. Commencing with the 1974-75 fiscal year, a community

college district shall reduce its revenue limit as authorized in Section 85132 by the estimated amount of open-space subvention to be received pursuant to Sections 16148 to 16153, inclusive, of the Government Code. The Chancellor of the California Community Colleges shall prescribe the method of estimating the open-space subvention to be received. This section shall be subject to the provisions of Section 85139.

85137. Each community college district shall increase its 1974-75 base revenue limit as authorized in Section 85132 by the amount of open-space subvention it received for the 1972-73 fiscal year pursuant to Sections 16148 to 16153, inclusive, of the Government Code.

85138. New community college districts without an operating tax rate for 1972-73 shall develop a base revenue figure for 1973-74, subject to approval of the chancellor's office and the Department of Finance. This base revenue shall include payment of any obligation incurred under the terms of interdistrict attendance agreements during that year. The 1973-74 base revenue amount shall be based on data from districts which are comparable on such factors as population density, projected assessed valuation per average daily attendance, enrollment and enrollment projections, and socioeconomic composition of the district. After 1973-74, the procedure for determining annual adjustments to the 1973-74 base revenue for such districts shall be the same as that for all other districts.

85139. Whenever the computations required by Section 85132 result, because of estimating errors, in a total revenue limit in an amount more or less than actual data would have produced for a community college district, the district's revenue limit for the succeeding fiscal year shall be reduced a like amount if the total produced was more, and shall be increased by such an amount if the total produced was less.

85140. Any proposal for the formation of a new community college district after July 1, 1973, shall include base revenue and tax rate estimates for the first full year of district operation. This base revenue estimate shall be an inherent part of the proposition at the election for the adoption or rejection of the plans and recommendations for the formation of the new community college district.

85141. (a) A community college district may add in Section 85132 for purposes of increasing its revenue limit for the budget year when it is anticipated that the second principal apportionment units of average daily attendance, excluding summer sessions and adults as defined in Section 78460 will be less than those of the preceding year, an estimated number of units of average daily attendance determined as follows:

- (1) When such reduction is less than 1 percent, no adjustment.
- (2) When such reduction is more than 1 percent but less than 2 percent, the allowable estimated units of average daily attendance

shall be the actual estimated units of average daily attendance increased by the fraction of a percent by which the percentage reduction of estimated units of average daily attendance exceeds 1 percent reduction.

(3) When such percentage estimated reduction is more than 2 percent, the allowable estimated units of average daily attendance shall be the actual estimated units of average daily attendance increased by half of the estimated numerical percentage reduction anticipated.

(b) This adjustment in estimated units of average daily attendance shall be allowed without requiring a reduction in the revenue limit of the district in the subsequent year which otherwise would be required pursuant to Section 85139. However, to the extent that actual data differ from the estimated units of average daily attendance used in this section, Section 85139 shall apply. Adjustments are on a year-to-year basis and are not cumulative.

## CHAPTER 8. EXPENDITURES AND APPROPRIATIONS

### Article 1. Control by Budgets

85200. The total amount budgeted as the proposed expenditure of the community college district for each major classification of district expenditures listed in the district budget forms prescribed by the board of governors shall be the maximum amount which may be expended for that classification of expenditures for the school year. Transfers may be made from the undistributed reserve to any expenditure classification or between expenditure classifications at any time by written resolution of the board of education of any district governed by a board of education, when filed with the county superintendent of schools and the county auditor, or by written resolution of the board of trustees of a community college district not governed by a board of education, when approved by the county superintendent of schools and filed with the county auditor. A resolution providing for the transfer from the undistributed reserve to any expenditure classification must be approved by a two-thirds vote of the members of the governing board; a resolution providing for the transfer between expenditure classifications must be approved by a majority of the members of the governing board. Nothing in this section shall be construed as affecting the provisions of Sections 85112 and 85114.

85201. At the close of any school year the county superintendent of schools may, with the consent of the governing board of a community college district previously given, make such transfers between the undistributed reserve and any expenditure classification or classifications or balance any expenditure classifications of the budget of the district for such school year as are necessary to permit the payment of obligations of the district incurred during such school year.

85202. Notwithstanding the provisions of Sections 85200 and 85210 or any provision of this code to the contrary, the governing board of any community college district may, by a majority vote of its membership, and with the approval of the county superintendent of schools, budget and use any unbudgeted income provided during the fiscal year from any source other than local property taxes or the State School Fund, provided that increases in apportionments from the State School Fund to be received during the fiscal year on account of the average daily attendance of students in a special program financed by categorical aid from the federal or other governmental source may be budgeted and used under the provisions of this section.

85203. The governing board of any district may direct that moneys held in any special or restricted fund or account may be temporarily transferred from one or more of these accounts or funds to the general fund of the district to be used for the payment of obligations of the general fund of the district. Such a transfer can be made not more than twice within a fiscal year from the same fund or account and only when the district will receive income sufficient to repay the amount transferred. The amount transferred shall be repaid to the special restricted fund or account either in the same or the following fiscal year, but in any case not more than 120 calendar days after the transfer. No more than 75 percent of the maximum of moneys held in any special or restricted fund or account during a current fiscal year may be transferred pursuant to the provisions of this section during that fiscal year.

## Article 2. Appropriation of Excess Income

85210. All income accruing to the community college district in excess of the amounts required to finance the total proposed expenditures, including transfers to other community college districts and funds, as shown in the budget of the district shall be added to the general reserve of the district, and shall not be available for appropriation by the district for the current fiscal year except by the following procedure. The governing board of the district shall, by formal action of the board, pass a resolution setting forth the need according to major classification of district expenditures to be met from any portion of the general reserve derived from assured income in excess of the total amount anticipated in the budget. The resolution shall be submitted to the county superintendent of schools. If the resolution is approved by the county superintendent of schools it shall, if it involves a sum in excess of one thousand dollars (\$1,000), be published in the same manner as the budget of the district concerned is published. Upon the approval of the resolution and, where its publication is required, following its publication, the amount named in the resolution shall be appropriated to the major classification or classifications from the general reserve as set forth in the resolution.

The county superintendent of schools shall approve any resolution for the appropriation of income provided from state or federal sources for emergency needs of the community college district to the extent that such income was not anticipated in the budget of the district.

Nothing in this section shall be construed to authorize the appropriation for current year purposes of income which would deplete the general reserve for the next succeeding fiscal year as provided in the budget of the district.

On the first day of July of each year, the general reserve together with unexpended balances of appropriations and income in excess of anticipated income for the preceding fiscal year shall be placed to the credit of the district, and the district shall include all money so credited in the balance shown in the budget for the ensuing fiscal year.

### Article 3. Temporary Transfer, County to District, Excess Balances

85220. Whenever prior to the receipt by a community college district of its state, county, city and county, or district funds, any district does not have sufficient money to its credit to meet current expenses of maintenance, the board of supervisors of the county or city and county shall order, and the auditor and treasurer of the county or city and county shall make a temporary transfer from any funds of the county or city and county not immediately needed to pay claims against them to the school fund of the district of the amount needed, not exceeding 85 percent of the amount of money which will accrue to the community college district during the fiscal year. Upon the making of the transfer the auditor shall immediately notify the superintendent of schools of the county, or city and county, of the amount transferred. Each transfer of funds requested under this section shall be granted in order of receipt by the board of supervisors, regardless of whether sufficient county funds are available for transfer to meet pending or anticipated requests of community college districts.

The funds transferred under this section to the credit of a community college district shall be retransferred by the auditor and treasurer to the fund from which they were taken from the first moneys accruing to the district or county school service fund and before any other obligation of the district is paid from the money accruing.

85221. The county superintendent of schools of each county with the approval of the county board of education, may make temporary transfers to a community college district which does not have sufficient money to its credit to meet current operating expenses from the county school service fund, in such amounts and at such times as he deems necessary. Such transfers shall not exceed 85 percent of the amount of money accruing to the district at the time

of transfer. The amounts so transferred shall be repaid to the county school service fund prior to June 30 of the current year from any funds subsequently received by the district.

85222. The county superintendent of schools, with the approval of the county board of education, may make an apportionment to a community college district from the county school service fund conditional upon the repayment to the fund during the next succeeding fiscal year of the amount apportioned to the district and shall, during the next succeeding fiscal year, transfer the amount of such apportionment from the general fund of the district to the county school service fund.

85223. Upon the request of the county board of education on behalf of a newly organized community college district, and upon the order of the county board of supervisors of the county or city and county, the auditor and treasurer of the county or city and county shall make a temporary transfer from any funds of the county or city and county not immediately needed to pay claims against them to the general fund of the newly organized community college district for the purpose of meeting the current expense of the district until such time as the district receives its first state apportionments or district tax funds. Upon the making of the transfer, the auditor shall immediately notify the superintendent of schools of the county or the city and county of the amount transferred.

The funds transferred under this section to the general fund of a newly organized district shall be retransferred by the auditor and the treasurer to the fund from which they were taken from the first moneys accruing to the district after it becomes effective for all purposes pursuant to Section 4000 and before any other obligation of the district is paid from the money accruing.

#### Article 4. Requisitions and Warrants

85230. Except as otherwise provided in this code, money shall be paid from the funds of any community college district for the payment of the expenses of the district, only as provided in this article.

85231. All payments from the funds of a community college district shall be made by written order of the governing board of the district. Orders shall be on forms prescribed by the county superintendent of schools. Forms shall be printed and furnished by the board of supervisors.

85232. Each order drawn on the funds of a community college district shall be signed by at least a majority of the members of the governing board of the district, or by a person or persons authorized by the governing board to sign orders in its name. No person other than an officer or employee of the district shall be authorized to sign orders.

85233. The governing board of each community college district shall be responsible for filing or causing to be filed with the county

superintendent of schools the verified signature of each person, including members of the governing board, authorized to sign orders in its name. No order on the funds of any district shall be approved by the county superintendent of schools unless the signatures are on file in his office and he is satisfied that the signatures on the order are those of persons authorized to sign the order.

85234. Each order drawn against the funds of a community college district shall be numbered and shall state: (a) the particular fund or funds of the district against which it is drawn, (b) the amount of the payment to be made from each fund, and (c) the rate of salary and the period of service of any employee of the district for whom an order is issued for payment of salary or wages. If drawn for any purpose other than the payment of salaries or wages of district employees, the order shall be accompanied by an itemized bill showing the separate items and the price of each.

85235. Each order drawn against the funds of a community college district shall be transmitted to the county superintendent of schools, and, if approved and signed by him shall become a requisition on the county auditor.

85236. The county superintendent of schools shall examine each order on community college district funds transmitted to him, in the order in which it is received in his office. If it appears that the order is properly drawn for the payment of legally authorized expenses against the proper funds of the district, and that there are sufficient moneys in the fund or funds against which the order is drawn to pay it, he shall endorse upon it "examined and approved," and shall, in attestation thereof, affix his signature and number and date the requisition and transmit it directly to the county auditor, in the order in which the order is received in his office.

85237. If at any time during a fiscal year the county superintendent of schools concludes that the expenditures of a community college district within his jurisdiction are likely to exceed the anticipated income of the district for that fiscal year, he shall notify such district in writing of such conclusion and he may conduct a comprehensive review of the financial and budgetary conditions of the district. The superintendent shall report his findings and recommendation to the governing board of the district and may include recommendations of methods by which the budgeted expenditures for the balance of the fiscal year may be brought into balance with the revenue of the district. Such report shall be made to the governing board at a public meeting of the governing board. The governing board shall, no later than 15 days after receipt of such report, notify the county superintendent of schools of its proposed actions on his recommendations.

85238. If the order is disapproved by the county superintendent of schools, it shall be returned to the governing board of the community college district, except as otherwise provided in this code for the registration of warrants, with a statement of his reasons for disapproving the order.

85239. The county auditor shall examine each order and requisition on community college district funds transmitted to him by the county superintendent of schools. If he allows the order and requisition, he shall endorse thereon "examined and allowed," and shall date, number, and sign it, whereupon it shall become a warrant on the county treasurer. The auditor shall detach any bill attached to the requisition, and shall number the bill, giving it the same number which he gives the warrant, and file it in his office. He shall thereupon return the order, requisition, and warrant to the county superintendent of schools who shall transmit it to the governing board of the district for issuance to the payee or to his order.

Any requisition of the county superintendent of schools, whether based upon written order of the governing board of a school district or authorized by law, shall constitute full authority for the signature for allowance thereof by the county auditor as a warrant on the county treasurer, and no other authority shall be necessary or required for such action by the county auditor.

"Requisition," as used in this section, includes any order or demand signed by the county superintendent of schools directing the county auditor to draw his warrant on the county treasurer.

85240. In lieu of drawing his warrant as provided in Section 85239 the county auditor may, with the approval of the governing board of the community college district, endorse, date, and number the order and requisition and may prepare a separate warrant on the county treasurer for the same amount as the order and requisition. The warrant shall show that it had been drawn on the order of a community college district naming the community college district and shall show, the payee, date of issue, as well as other information deemed appropriate by the auditor.

The auditor shall draw such separate warrant by signing it and no other signature shall be required. Thereupon the auditor shall transmit the separate warrant to the county superintendent of schools who shall transmit it to the governing board of the district for issuance to the payee or to his order, or with the approval of the governing board of the district, shall transmit it to the payee.

The order and requisition may direct the transfer of the amount of the separate warrant from the funds of the district to a clearing fund in the county treasury (to be known as the schools commercial revolving fund), to the end that separate warrants for all districts may be drawn against a single revolving fund.

85241. The governing board of any community college district may, with the approval of the county auditor and county treasurer, in lieu of issuing single orders for the payment of the salary or wages of each employee, issue payroll orders, on forms prescribed by the county superintendent of schools and approved by the Chancellor of the California Community Colleges, for the payment of the salaries or wages of two or more employees. Payroll orders may be drawn only for the payment of salaries and wages of employees, and shall constitute requisitions on the county auditor and warrants on the

county treasurer when approved and signed by the county superintendent of schools and allowed and signed by the county auditor, respectively.

85242. Each payroll order drawn pursuant to this article shall be drawn, approved, and issued in the same manner and shall contain the same minimum content as prescribed for single orders. Each payroll order shall list the names of all employees in whose favor the order is drawn and shall state the amount of money due each.

85243. The superintendent of schools of each county shall keep, open to the inspection of the public, a register of warrants, showing the fund upon which the requisitions have been drawn, the number, in whose favor, and for what purpose they were drawn.

85244. Orders for the payment of wages and payroll orders for the payment of wages of employees employed full time in positions not requiring certification qualifications shall be drawn twice during each calendar month on days designated in advance by the governing board of each community college district to which this section is made applicable. Labor performed between the 1st and 15th days, inclusive, of any calendar month shall be paid for between the 16th and 26th day of the month during which the labor was performed, and labor performed between the 16th and the last day inclusive, of any calendar month, shall be paid for between the 1st and 10th day of the following month.

The governing board of each community college district which has an average daily attendance of 5,000 or more, and the governing board of each district with an average daily attendance of less than 5,000 in a county with a population in excess of 4,000,000 persons as determined by the 1960 federal census, shall make the provisions of this section applicable to the board, whenever a majority of the employees of the district employed full time in positions not requiring certification qualifications petition the board in writing to do so.

The governing board of a community college district which has an average daily attendance of less than 5,000, other than such a school district situated in a county with a population in excess of 4,000,000 persons as determined by the 1960 federal census, may, on the petition in writing of a majority of the employees of the district employed full time in positions not requiring certification qualifications, make the provisions of this section applicable to the board.

## Article 5. Warrants

85260. In any county, the county superintendent of schools, with the approval of the board of governors, the county board of education and the county auditor, may prescribe a payroll procedure, to be followed by designated community college districts in the county, under which the community college district governing boards, by use of payroll orders, shall authorize and direct the county

superintendent of schools and the county auditor to draw separate payroll warrants in the names of the individual district employees for the respective amounts set forth therein to the end that each employee may be furnished with a statement of the amount earned and an itemization of the amounts withheld therefrom under requirements of the law or by direction of the employee.

Such payroll warrants shall show the closing date of the pay period for which issued and the date of issue and a statement that it is drawn by order of the governing board of the district and shall bear the signature of the county auditor.

To obtain the advantage of a uniform pay period and pay date within districts, the payroll procedure may specify the ending date of the pay period and, notwithstanding Sections 87814, 87821, and 85244, the date of issue for payroll warrants, except that the issue date shall be on or before the 10th calendar day following the end of the pay period. The payroll procedure may provide for salary payments, including salary advances, more frequently than once a month.

The payroll procedure may provide for payroll orders authorizing salary payments to individual employees on a continuing basis until such time as notifications of changes or adjustments are submitted by the community college districts, provided that an itemized listing of payments made under this procedure is furnished to the community college district on or before the date of issue of the payroll warrants.

The payroll order may direct the transfer from the districts' funds to a clearing fund in the county treasury, to be known as the schools payroll revolving fund, of the total of the amount of the payroll warrants to be issued under the order to the end that payroll warrants for all districts may be drawn against a single revolving fund. The payroll order may further direct the transfer from the districts' funds of the totals of the various deductions set forth therein to the trust funds in the county treasury entitled to receive credit for them and may further direct the proper disbursement of such trust amounts.

When the payroll procedure provides for payment of salary once each month the payment shall be made on the last working day of the month as required by Section 88165.

85261. With the approval of the board of governors, the governing board of a community college district, may cause to be drawn all warrants on the county treasurer against all the funds, except debt service, of the district in the county treasury in the payment of the expenses of the district. The warrants shall be issued by a person designated as the district auditor or district disbursing officer for the community college district on the county treasurer in favor of the persons entitled thereto in payment of all claims chargeable against the district which have been legally examined, allowed, and ordered paid by the governing board. The district auditor shall issue warrants on the county treasurer for all debts and demands against the district when the amounts are fixed by law. The form of the warrant shall be as prescribed by the governing board

and approved by the county auditor or county treasurer having jurisdiction.

Notwithstanding Section 85231, the cost of printing the warrants shall be borne by the district.

No county officer shall be responsible for producing reports, statements, and other data relating to or based on these payments of the expenses of the districts. Those districts issuing warrants as provided by this section shall provide the county superintendent of schools, in the form prescribed by him, with the data necessary to make retirement reports and other reports required of him by law. All warrants, vouchers, and supporting documents shall be kept by the districts that draw their own warrants.

Notwithstanding Section 27005 of the Government Code, or any other section requiring orders for warrants or warrants to be signed by the county superintendent of schools or the county auditor, or both, the county treasurer shall pay the warrant, if money is available.

Notwithstanding Section 84000, except for assessing and tax collecting, the county auditor and the county treasurer may charge those districts that draw their own warrants for the cost of all fiscal services.

The person authorized by the governing board of the district to issue warrants pursuant to this section shall execute an official bond in an amount fixed by the governing board conditioned upon the faithful performance of his duties under this section. A county superintendent of schools or a county auditor shall not be liable under the terms of their bonds or otherwise for any warrant issued pursuant to this section. It is not intended that this provision shall be applied so as to impair the obligation of any contract in the bond of such officer in effect on the effective date of this section.

A listing of the warrants issued under this section by each community college district shall be forwarded to the county auditor having jurisdiction, upon his request, and to the county superintendent of schools having jurisdiction over the district on the same day warrants are issued. The listing, which may be magnetic tape, punched cards, or in other form, shall report, among other things, the warrant number, date of the warrant, amount of the warrant, the name of the payee, and the fund on which drawn.

The form and content of the warrant listing shall be as prescribed by the governing board and approved by the county auditor having jurisdiction.

Each community college district, which issues warrants pursuant to this section shall furnish monthly to the county superintendent of schools and the county auditor of the county of jurisdiction, upon his request, a statement showing for the current fiscal year to date, for each required expenditure classification, the amount budgeted, actual expenditures, encumbrances and unencumbered balances.

In order to obtain the approval of the board of governors, a community college district shall file a written application with the

county superintendent of schools of jurisdiction on forms which the board of governors shall prescribe. Upon receipt of an application from the district, the county superintendent of schools shall cause a survey to be made of the district's accounting controls by an independent certified public accountant or public accountant in accordance with standards prescribed by the Department of Finance. The certified public accountant or public accountant shall report his findings and recommendations to the county superintendent, county auditor, and to the applicant district. The county superintendent shall forward the district's application, together with his recommendations and the recommendations of the county auditor and the report of survey, to the board of governors who shall approve or disapprove the application. The board of governors shall approve the application only if he finds the accounting controls of the district are adequate. If the board of governors determines that such controls are inadequate, he shall disapprove the application. The county superintendent of schools shall be reimbursed from the district funds for all costs incident to the accounting controls survey made pursuant to the district's application.

When approved by the board of governors, the issuance of warrants pursuant to this section shall be effective at the beginning of the fiscal year, provided that the approval had been made prior to the preceding first day of January. If disapproved, the board of governors and the county superintendent of schools shall state the specific steps which must be taken by the community college district in order to receive approval. If at any time the county superintendent of schools determines that the accounting controls of the district have become inadequate, he may recommend to the board of governors that the approval be revoked effective at the first of the fiscal year next following.

85262. The provisions of Article 3 (commencing with Section 29850) of Chapter 5 of Division 3 of Title 3 of the Government Code shall be applicable to any community college district, authorized to issue warrants pursuant to Section 85261 of this code; except that whenever any reference is made in said Article 3 to (1) the county auditor, or (2) the general fund of the county, such reference shall be deemed, for purposes of this section, to be to (1) the person authorized to issue warrants pursuant to Section 85261 of the Education Code and (2) the general fund of the district, respectively.

85263. (a) With the approval of the Board of Governors of the California Community Colleges, the governing board of any community college district may cause to be drawn all warrants on the county treasurer against all the funds of the district in the county treasury, except debt service, in payment of the expenses of the district. The warrants shall be issued on the county treasurer, by a person authorized by the governing board of the community college district, in favor of the persons entitled thereto in payment of all legal

claims chargeable against the district which have been examined, allowed, and ordered paid by the governing board. The form of the warrant shall be as prescribed by the governing board and approved by the county auditor or county treasurer having jurisdiction. Notwithstanding Section 42631 of the Education Code, the cost of printing the warrants shall be borne by the community college district.

(b) The person so authorized by the district governing board shall issue warrants on the county treasurer for all debts and demands against the district when the amounts are fixed by law.

(c) Notwithstanding Section 27005 of the Government Code, or any other section requiring orders for warrants or warrants to be signed by the county superintendent of schools or the county auditor, or both, the county treasurer shall pay the warrant issued by the community college district if money is available.

(d) No county officer shall be responsible for producing reports, statements, or other data relating to or based on payments of the expenses of the community college districts. Community college districts issuing warrants as authorized by this section shall provide the county superintendent of schools, in a form approved by him, with the data necessary to make retirement reports and other reports required of him by law. All warrants, vouchers, and supporting documents shall be kept by the community college districts which draw their own warrants.

(e) Notwithstanding Section 41000 of the Education Code, except for assessing and tax collecting, the county auditor and the county treasurer may charge those community college districts which draw their own warrants a fee as reimbursement for the cost of those fiscal services rendered to the districts.

(f) The person authorized by the governing board of the community college district to issue warrants pursuant to this section shall execute an official bond in an amount fixed by the governing board conditioned upon the faithful performance of duties under this section. A county superintendent of schools or a county auditor shall not be liable under the terms of their bonds or otherwise for any warrant issued pursuant to this section. It is not intended that this provision shall be applied so as to impair the obligation of any contract in the bond of such officer in effect on the effective date of this section.

(g) A listing of the warrants issued under this section by each community college district shall be forwarded to the county auditor having jurisdiction, upon his request, on the same day warrants are issued. The listing, which may be on magnetic tape, punched cards, or in any other form, shall report, among other things, the warrant number, the date of the warrant, the amount of the warrant, the name of the payee, and the fund on which drawn. The form and content of the warrant listing shall be as prescribed by the community college governing board and approved by the county auditor having jurisdiction.

Each community college district which issues warrants pursuant to this section shall furnish monthly to the county superintendent of schools, upon his request, and to the county auditor of the county of jurisdiction, upon his request, a statement showing for the current fiscal year to date, for each required expenditure classification, the amount budgeted, actual expenditures, encumbrances and unencumbered balances.

(h) In order to obtain the approval of the Board of Governors of the California Community Colleges, the governing board of a community college district shall file a written application with the board of governors on a form which the board of governors shall prescribe. Information copies of the application shall be sent to the county superintendent of schools, the county treasurer, and the county auditor of the county having jurisdiction in which the community college district is located, at the same time the application is filed with the board of governors.

(i) Upon receipt of an application from the district, the Board of Governors of the California Community Colleges shall cause a survey to be made of the district's accounting controls by an independent certified public accountant or public accountant in accordance with standards prescribed by the Department of Finance. The certified public accountant or public accountant shall report the findings and recommendations of his survey to the Board of Governors of the California Community Colleges, the county superintendent of schools, the county auditor, the county treasurer, and the applicant district. The cost of such survey and report shall be a legal expense of the applicant district.

(j) The county superintendent of schools, the county auditor, the county treasurer, and the applicant district may forward their comments on the accountant's report of survey to the board of governors, who shall approve or disapprove the application within a reasonable period of time. The board of governors shall approve such application only if it finds the accounting controls of the district are adequate. If the board of governors determines that such controls are inadequate, it shall disapprove the application.

(k) If the district's application is approved by the board of governors, a survey of the district's accounting controls shall henceforth be included in each annual audit review of the district's records and accounts as required by Section 41020.

(l) When approved by the Board of Governors of the California Community Colleges, the issuance of warrants pursuant to this section shall be effective at the beginning of the next fiscal year, provided that the approval had been made prior to the preceding first day of January.

(m) If the application of the district is not approved, the Board of Governors of the California Community Colleges shall state the specific steps which must be taken by the community college district in order to receive approval. If at any time the board of governors determines, from the annual audit review required in subdivision

(k), that the accounting controls of the district have become inadequate, the board of governors may revoke its approval effective at the beginning of the fiscal year next following such determination.

85264. The provisions of Article 3 (commencing with Section 29850) of Chapter 5 of Division 3 of Title 3 of the Government Code shall be applicable to any community college district authorized to issue warrants pursuant to Section 85263; except that whenever any reference is made in said Article 3 to (1) the county auditor, or (2) the general fund of the county, such reference shall be deemed, for purposes of this section, to be to (1) the person authorized by the community college district governing board to issue warrants pursuant to Section 85263, and (2) the general fund of the community college district, respectively.

#### Article 6. Void Warrants

85270. Unless otherwise provided by county ordinance, any school warrant not presented to the county treasurer within six months after it was issued is void and any order issued by the governing board of a community college district, but not approved by the county superintendent of schools for want of funds, is void if not presented to the county superintendent of schools within two years after notice has been given that the order will be approved on presentation. The county auditor shall each month inform the county superintendent of schools of warrants which have become void during the preceding month and the county superintendent of schools shall transmit such information to the governing board of the district together with information as to orders which have become void.

Any time within two years from the date on which the original warrant became void, the payee, assignee, or the legal representative or heir of a deceased payee of any warrant which is void as provided in this section may present such warrant to the governing board of the community college district which issued the order on which the warrant was drawn, or declare by affidavit that such warrant has been lost or destroyed, and the governing board may adopt an order instructing the county auditor to draw a new warrant in favor of the payee in the same amount as the original warrant, or the governing board may by resolution authorize the county auditor to draw new warrants within the limitations prescribed by the resolution without prior individual order of the governing board, provided the limitations prescribed by this section have been complied with. Any such new warrant shall be subject to the same limitations as the original warrant which it replaces.

85271. Any warrant drawn on the funds of a district retirement system and issued to the claimant thereof but not presented for payment to the county treasurer within two years after it was issued is void and the proceeds of such warrants shall revert to and become a part of the contributions of the district and shall be applied to

reduce the cost to the taxpayers of the district maintaining the retirement system. The county auditor shall each month inform the county superintendent of schools of warrants which have become void during the preceding month, and the county superintendent of schools shall transmit such information to the governing board of the community college district.

85272. The county superintendent of schools shall keep a record of all orders, or warrants which have become void.

#### Article 7. Registration of Orders, Issuance of Warrants

85280. When any order against the funds of a community college district is presented to the county superintendent of schools, and the order constitutes a valid claim against the funds of the district, and moneys are not available in the funds of the district from which to pay the order, he shall endorse on the order the words "Not approved for want of funds" and shall register the order in the records of his office.

85281. The county superintendent of schools shall number and date the registered order and shall transmit the registered order to the governing board of the community college district which drew the order, and it shall deliver the registered order to the payee or his order. From the date of registration the registered order shall bear interest at the rate of 5 percent per annum until the date upon which notice is given, pursuant to this article, that the county superintendent of schools is ready to approve the registered order.

85282. Whenever moneys are available for the payment of the registered order the county superintendent of schools shall give notice, in a newspaper published in the county, or if there is no newspaper, by written notice posted at the courthouse, stating that he is ready to approve the order. The notice may list any number of registered orders of one or more districts for the payment of which moneys are available, giving the name or names of the district or districts and listing the registered orders in the order of registration for each district.

85283. At the time of giving the notice the county superintendent of schools shall set aside in the funds of each district for a period of 60 days the amount necessary for the payment of the registered orders of the district listed in the notice. If any registered order is not presented to the county superintendent of schools for payment within 60 days after the notice has been given, and moneys are not available to pay the registered order at the time of presentation, it shall not be approved until money becomes available for that purpose and notice is again given that the county superintendent of schools is ready to pay it.

85284. The county superintendent of schools shall approve the registered orders of each district, and sign them as requisitions on the county auditor, in the order of their presentation. He shall enter on each the amount of interest due and the total amount, including

principal and interest, payable. Each approved registered order shall thereupon be governed by the procedure established in this code relative to payments from community college district funds.

85285. As an alternative to the method provided in Section 85284, when any corporation, firm, or person presents two or more registered orders for payment at the same time, registered on the same date, and issued against the funds of the same district, the registered orders may be approved, allowed, and consecutively numbered by the county superintendent of schools and the county auditor as requisitions and warrants on the funds of the district, and a special interest requisition may be issued by the county superintendent of schools against the funds of the district for the total amount of the interest payable on the registered orders.

85286. The special interest requisition shall bear upon its face substantially the following notation: "In full payment of interest due on warrants numbered \_\_\_\_\_ to \_\_\_\_\_, inclusive, of the \_\_\_\_\_ Community College District."

85287. The special interest requisition shall be numbered by the county superintendent of schools and county auditor, being given the number immediately succeeding the number assigned to the last of the requisitions and warrants referred to in Section 85285.

85288. The county superintendent of schools shall report to the county treasurer and the county auditor within 10 days after the end of each month the amount of the interest computed pursuant to this article. The report shall show each district for which interest has been computed, the numbers of the registered orders for which the interest is to be paid, and the total amount of the interest charged to each district. He shall also, upon transmitting to the governing board of a community college district registered orders which have been approved and allowed as warrants against the funds of the district, report in writing to the clerk or secretary of the district the amount of interest computed on the registered orders and the numbers of the registered orders for which the interest is to be paid.

#### Article 8. Optional Method of Registering Warrants

85300. In lieu of the method provided in Article 7 (commencing with Section 85280) of this chapter, inclusive, for the registration of community college district orders, the provisions of this article may be followed upon resolution adopted by the county board of supervisors of any county.

85301. When any order on community college district funds is received by the county superintendent of schools and there is insufficient money in the fund or funds against which the order is drawn to pay the order in full, the county superintendent shall endorse on the order "to be registered for lack of sufficient funds," sign, date, and number it as a requisition on the county auditor, and transmit the requisition to the county auditor. The county auditor shall endorse on the order "examined and allowed," sign, date, and

number it as a warrant on the county treasurer, and return the warrant to the county superintendent of schools who shall transmit it to the governing board of the community college district for issuance to the payee or to his order.

85302. When the warrant is presented to the county treasurer for payment, he shall endorse, register, advertise, and pay it, with interest at the rate of 5 percent per annum, in the manner prescribed, as nearly as may be, for county warrants in Sections 29821 to 29824, inclusive, and Sections 29826 and 29827 of the Government Code.

85303. If the warrants are not again presented for payment within 60 days from the time the notice provided for in Section 29823 of the Government Code is given, the fund set aside for the payment of the warrants shall be applied by the treasurer to the payment of unpaid warrants next in order of registry.

85304. Within 10 days after the end of each month, the county auditor shall report to the superintendent of schools the amount of interest added to registered warrants and paid during the preceding month. The report shall show each district to whose registered warrants, paid during the month covered by the report, interest was added and the amount of the interest for the district. The superintendent of schools shall immediately report, in writing, to the clerk or secretary of each district for which interest was paid, the amount of the interest paid for the district.

## CHAPTER 9. REVOLVING FUNDS

### Article 1. Revolving Cash Fund

85400. The governing board of a community college district may, with the consent of the county superintendent of schools, establish a revolving cash fund for the use of the chief accounting officer of the district, by adopting a resolution setting forth the necessity for the revolving cash fund, the officer for whom and the purposes for which the revolving cash fund shall be available, and the amount of the fund. The purposes for which the revolving cash fund shall be available shall include the purposes specified in Section 88166. The amount of the fund shall not be more than 2 percent of the district's estimated expenditures for the current fiscal year and shall not in any event exceed twenty-five thousand dollars (\$25,000) for any community college district. Three certified copies of the resolution shall be transmitted to the county superintendent of schools. If he approves the establishment of the fund, the county superintendent shall endorse his consent on the resolution and return one copy to the governing body of the district, and transmit one copy to the county auditor.

85401. (a) Except as otherwise provided in subdivision (b) of this section, the officer for whose use the revolving cash fund is created shall file with the governing body of the district a bond in

favor of the district, executed by him as principal and by a surety company authorized under the laws of the state to execute bonds as surety, in an amount not less than double the amount of the revolving cash fund. The bond shall be conditioned upon the faithful administration of the revolving cash fund and upon the willingness and ability of the principal to account for and pay over the revolving cash fund at any time upon the demand of the governing board of the district. The premium on the bond shall be a legal charge against the district, payable from the funds of the district.

(b) In lieu of the bond required by subdivision (a) of this section, an officer may be bonded as provided by Section 84041.

85402. No bond shall be required when the revolving cash fund does not at any time exceed twenty-five dollars (\$25).

85403. The governing board of the community college district shall draw an order, on the form and in the manner required by law for order, requisition, and warrant for the payment of school moneys, payable from the county or special fund of the district, in favor of the officer for whose use the revolving cash fund is created, for the amount of the revolving cash fund, and transmit the order to the county superintendent of schools accompanied by the bond and a certified copy of the resolution. Upon his approving the order, the county superintendent of schools shall detach and retain the bond. Upon his allowing and signing the warrant, the county auditor shall detach and retain the certified copy of the resolution and the county treasurer shall pay the warrant.

85404. The person entrusted with the revolving fund shall not be authorized to expend any portion of the fund except for services or material, the securing or purchasing of which is a legal charge against the district, and no expenditure shall be made unless a receipt is obtained therefor setting forth the date and the purpose of the expenditure and the amount expended. The governing board of a community college district may establish an account for the revolving fund in one or more banks. The account shall be known as "The Revolving Fund Account of (insert name of district) District" and shall be established in the custody of the officer for whose use the revolving cash fund is created who shall be responsible for the payment into the account or accounts of all moneys required to be reimbursed into the account or accounts, and for all expenditures therefrom, subject to such regulations as the governing board prescribes. A bill shall be presented to the district monthly, or oftener if necessary, for the reimbursement of the fund in the same manner as other bills are presented. Bills shall be supported by the receipts required. All sums received in payment of the bills shall be returned to the revolving cash fund or bank account or accounts and each person entrusted with the revolving cash fund shall, upon demand of the county superintendent of schools or the county auditor or of the governing board of the district, give an account of the fund.

85405. The governing board of the district may at any time

reduce or discontinue any revolving cash fund established by its order. Whenever the fund is ordered reduced the person using it shall immediately return to the county treasury the amount necessary to reduce the fund, as ordered by the board. If the fund is discontinued, the person using it shall immediately refund the amount thereof to the county treasurer. In either event a reasonable time shall be allowed the person to reimburse himself by bills presented to the community college district for expenditures legally made from the fund.

## Article 2. Alternative Revolving Cash Fund

85410. In addition to establishing or maintaining a revolving cash fund under the provisions of Article 1 (commencing with Section 85400) of this chapter, the governing board of any community college district having an average daily attendance of 20,000 or more may, by resolution, establish revolving cash funds for use by presidents and other administrative officials designated by the governing board and acting in accordance with regulations prescribed by the governing board, for services or matériel and for the purposes specified in Section 83166. The resolution shall set forth the necessity for the revolving cash funds, the presidents and other administrative officials of the community college district designated by the governing board, the purposes for which the revolving cash funds shall be made available, and the amount of such funds. The total amount of such funds for each district shall not exceed 3 percent of the current year's instructional supply budget.

The governing board of a community college district may establish a checking account for the revolving fund in one or more banks. The account shall be established in the custody of the principal or other administrative official designated by the governing board for whose use the revolving cash fund is created. The principal or administrative official in whose name the revolving cash fund is created shall be responsible for all expenditures therefrom, subject to such regulations as the governing board prescribes. The governing board shall provide for an audit of such funds on a regular basis.

The revolving cash fund for supplies shall be subject to the bonding provisions of Section 85401.

## Article 3. Prepayment Funds

85420. The governing board of any community college district may establish a revolving cash fund in any bank, whose deposits are insured by the Federal Deposit Insurance Corporation, for the purpose of paying bills as prescribed in Section 85421. The provisions of Article 1 (commencing with Section 85400) of this chapter shall not apply to the revolving cash fund established pursuant to this article.

The governing board may appropriate money from the county or

joint school district fund in the county treasury belonging to the community college district to establish the revolving cash fund.

The maximum amount in the revolving cash fund shall be as follows:

(a) In a community college district with 20,000 or more units of average daily attendance, ten thousand dollars (\$10,000).

(b) In a community college district with 5,000 or more, but less than 20,000 units of average daily attendance, five thousand dollars (\$5,000).

(c) In a community college district with 500 or more, but less than 5,000 units of average daily attendance, two thousand five hundred dollars (\$2,500).

(d) In a community college district with less than 500 units of average daily attendance, one thousand dollars (\$1,000).

85421. The governing board of any community college district which has established a revolving cash fund pursuant to Section 85420 shall designate a person or persons who shall be authorized to make immediate payments by check, drawn on the revolving cash fund, for purchases in an amount of one hundred dollars (\$100) or less, including tax and freight, or at the time of preparing the order for such purposes to make such check payable to the vendor permitting him to fill in the amount to be paid upon shipment of the purchases, such check to state on its face that it is not valid for more than one hundred dollars (\$100).

A monthly list of such payments shall be submitted to the governing board by the designated person or persons for approval.

Upon approval of such expenditures by the governing board, the clerk of the governing board shall draw an order for the replenishment of the revolving cash fund from the county or joint school district fund in the county treasury belonging to the community college district. Such order shall be treated in the same manner as prescribed for payment of other claims against the funds of the district.

Any person who issues a check drawn on the revolving cash fund shall be personally liable for the amount of the check only if the expenditure is in violation of rules and regulations established by the governing board with respect to the revolving cash fund.

#### Article 4. Warehouse Stock Revolving Funds

85430. The governing board of any community college district may, if the district maintains a stock of merchandise for school use, establish a revolving fund for budget control and stock accounting purposes, by adopting a resolution setting forth the necessity for the revolving fund, the purpose for which it shall be used and the amount thereof. Three certified copies of the resolutions shall be submitted to the county superintendent of schools, who, if he approves the establishment of the fund, shall endorse his consent upon the resolution, return one copy to the governing board of the community

college district and transmit one copy to the county auditor.

The governing boards of two or more community college districts of any type may, if the districts maintain a stock of merchandise for school use, establish a common revolving fund for budget control and stock accounting purposes, by adopting a resolution of each district setting forth the necessity for the revolving fund, the purpose for which it shall be used and the amount thereof. Three certified copies of the resolutions shall be submitted to the county superintendent of schools, who, if he approves the establishment of the fund, shall endorse his consent upon the resolution, return one copy to the governing board of the community college districts and transmit one copy to the county auditor.

85431. The amount of the revolving fund shall not exceed an amount from the general fund of the district equal to the average daily attendance of the district for the next preceding year multiplied by fifteen dollars (\$15) plus such amounts as the governing board of the district may, in its discretion, appropriate from other funds of the district, including building funds, and shall be determined as follows: The inventory of stores on hand including the cost of receiving and storing such stores of the community college district at the time of the establishment of the fund, which stores and costs have been paid for from district funds and reported to the county superintendent, plus whatever sum the governing board in its discretion may appropriate from the various funds of the district, including building funds, not to exceed an aggregate sum determined as above, including stores on hand, costs of receiving and storing such stores and designated appropriations, shall be the amount to constitute the revolving fund of the district.

Where a common revolving fund is established for two or more community college districts, the amount of the revolving fund shall not exceed an amount from the general funds of the districts equal to the average daily attendance of the districts for the next preceding year multiplied by fifteen dollars (\$15) plus such amounts as the governing boards of the districts, in their discretion, appropriate from other funds of the districts, including building funds, and shall be determined as follows: The inventory of stores on hand including the cost of receiving and storing such stores of each district at the time of the establishment of the fund which stores and costs have been paid for from district funds and reported to the county superintendent, plus whatever sums the governing board of each district in its discretion may appropriate from the various funds of the district, including the building fund, not to exceed an aggregate sum as determined above, including stores on hand, costs of receiving and storing such stores and designated appropriations, shall be the amount to constitute the revolving fund, and each district shall retain its equity in the common fund.

The amount of any revolving fund once established as herein prescribed may be increased to an amount from general funds not in excess of the average daily attendance of the next preceding year

multiplied by fifteen dollars (\$15) plus such amounts as the governing board, in its discretion, may appropriate from other funds of the district, including building funds, or decreased, in the discretion of the governing board, as the needs of the district may require, in the same manner and by the same procedure as herein prescribed for establishment of such fund.

Amounts expended from the revolving fund are restored thereto through payments into the revolving fund by warrants drawn on the various funds of the districts, including building funds, for shipments from stores for the use of the districts. The warrants shall be made payable to the "revolving fund of \_\_\_\_\_." (Here insert name or names of the community college district or community college districts establishing the fund.)

85432. The revolving fund, when established, shall be used for the purchase of stores to be placed in stock and may be used for the payment of costs of receiving, storing, and delivering stores. Purchases shall be made in the manner prescribed by law. Nothing contained in this article shall be construed as repealing any other provisions of law relating to district funds.

85433. The revolving fund shall be kept by the county treasurer as a separate fund and shall be subject to such uses only as are provided by law.

85434. The warehouse is a school plant and the costs of maintaining and operating it is a legal charge of the community college district, and shall be audited and paid as other claims against the funds of the district.

#### Article 5. Special Reserve Fund

85440. The governing board of a community college district may provide for the accumulation over a period of school years of funds for capital outlay purposes and salaries of district employees whose work is directly related to projects financed by such funds, derived from the receipt of taxes levied for the district and from other sources including balances, and not required to be used for other than capital outlay purposes.

85441. Upon the filing of identical copies of a resolution of the governing board with the superintendent of schools, auditor, and treasurer of the county specifying the purpose or purposes of a special reserve fund, the fund shall be established for such purpose or purposes. From time to time thereafter, the governing board may file identical copies of resolutions specifying additional purposes of the fund or withdrawing any purpose previously designated. The auditor and treasurer shall transfer from the general fund to the special reserve fund of the district such amounts as may be specified by the governing board during the fiscal year.

85442. The governing board may expend the money in the fund for the purpose or purposes specified in any resolution filed pursuant to Section 85441 unless the purpose has been withdrawn pursuant to that section.

85443. Any moneys remaining in the special reserve fund of the district, except moneys placed in the fund pursuant to subdivision (b) of Section 2106 or subdivision (b) of Section 2109 shall be transferred to the general fund of the district by the auditor and treasurer upon written request to the superintendent of schools, auditor, and treasurer of the county by the governing board of the district, and the auditor and treasurer shall discontinue the special reserve fund.

## PART 51. EMPLOYEES

### CHAPTER 1. PROVISIONS APPLYING TO ALL EMPLOYEES

#### Article 1. General Provisions

87000. Unless the context otherwise requires, the definitions set forth in Sections 87001 to 87011, inclusive, shall govern the construction of this part.

87001. "Education position" or "position requiring certification qualifications" includes every type of service for which certification qualifications are established by or pursuant to Sections 87000 to 87012, inclusive, and Section 87063, and Chapter 2 (commencing with Section 44200) of Part 25 of Division 3 of Title 2.

87002. A "credential" is a document issued by the State Board of Education, Commission for Teacher Preparation and Licensing, or the Board of Governors of the California Community Colleges authorizing a person to engage in the service specified in the credential.

87003. A "life diploma" is a document issued on the basis of a credential upon completion by the applicant of specified requirements.

87004. The word "certificate" used as a noun refers to the document issued by a county board of education to license the holder to perform the service specified in the certificate.

87005. The word "certificate" used as a verb refers to the act of licensing individuals for employment in educational positions.

87006. The term "certificated person" refers to a person who holds one or more documents such as a certificate, a credential, or a life diploma, which singly or in combination license the holder to engage in the school service designated in the document or documents.

87007. The term "certification document" as used in this code includes only certificates, credentials and life diplomas.

87008. A termination of probation and dismissal of an accusation or information pursuant to Section 1203.4 of the Penal Code shall not, for the purpose of this division have any effect.

87009. A plea or verdict of guilty or a finding of guilt by a court in a trial without a jury is deemed to be a conviction within the

meaning of Sections 87290, 87335, 87346, 87405, and 88022 of this code, irrespective of a subsequent order under the provisions of Section 1203.4 of the Penal Code allowing the withdrawal of the plea of guilty and entering a plea of not guilty, or setting aside the verdict of guilty, or dismissing the accusations or information. The record of such conviction of a sex offense as defined in Section 87010 or of a narcotics offense defined in Section 87011 shall be sufficient proof of conviction of a crime involving moral turpitude for the purposes of Sections 87453, 87467, 87484, and 87732 inclusive, relating to the dismissal of permanent employees.

87010. "Sex offense" as used in Sections 87290, 87335, 87346, 87405, and 88022 means any one or more of the offenses listed below:

(a) Any offense defined in Sections 266, 267, 285, 286, 288, 288a, 647a, subdivision 3 or 4 of Section 261, or subdivision (a) or (d) of Section 647 of the Penal Code.

(b) Any offense defined in former subdivision 5 of former Section 647 of the Penal Code repealed by Chapter 560 of the Statutes of 1961, or any offense defined in former subdivision 2 of former Section 311 of the Penal Code repealed by Chapter 2147 of the Statutes of 1961 if the offense defined in such sections was committed prior to September 15, 1961, to the same extent that such an offense committed prior to such date was a sex offense for the purposes of this section prior to September 15, 1961.

(c) Any offense defined in Section 314 of the Penal Code committed on or after September 15, 1961.

(d) Any offense defined in former subdivision 1 of former Section 311 of the Penal Code repealed by Chapter 2147 of the Statutes of 1961 committed on or after September 7, 1955, and prior to September 15, 1961.

(e) Any offense involving lewd and lascivious conduct under Section 272 of the Penal Code committed on or after September 15, 1961.

(f) Any offense involving lewd and lascivious conduct under former Section 702 of the Welfare and Institutions Code repealed by Chapter 1616 of the Statutes of 1961 if such offense was committed prior to September 15, 1961, to the same extent that such an offense committed prior to such date was a sex offense for the purposes of this section prior to September 15, 1961.

(g) Any offense defined in Section 286 or 288a of the Penal Code prior to the effective date of the amendment of either section enacted at the 1975-76 Regular Session of the Legislature committed prior to the effective date of the amendment.

(h) Any attempt to commit any of the above-mentioned offenses.

(i) Any offense committed or attempted in any other state which, if committed or attempted in this state, would have been punishable as one or more of the above-mentioned offenses.

87011. "Narcotics offense" as used in Sections 87290, 87335, 87346, 87405, and 88022 means any one or more of the following offenses:

(a) Any offense in Sections 11350 to 11355, inclusive, 11366, 11368,

and 11550 of the Health and Safety Code.

(b) Any offense committed or attempted in any other state or against the laws of the United States which, if committed or attempted in this state, would have been punished as one or more of the above-mentioned offenses.

(c) Any offense committed under former Sections 11500 to 11503, inclusive, 11557, 11715, and 11721 of the Health and Safety Code.

(d) Any attempt to commit any of the above-mentioned offenses.

87012. Any record of conviction of any applicant for, or holder of, a certification document, shall, for the purposes of this division, be admissible in evidence in any civil action or administrative proceedings pertaining to the issuance, suspension or revocation of such certification document, any provision of law to the contrary notwithstanding.

87013. In order to assist community college district employees to secure employment during vacation periods in occupations which tend to contribute to their rendering improved service as employees of the community college district, any governing board of a district or districts, in which the average daily attendance of all said districts combined is in excess of 200,000, is authorized to provide service necessary for aiding its employees in securing such employment.

87014. (a) Whenever any employee of a community college district is attacked, assaulted, or menaced, by any student, it shall be the duty of such employee, and the duty of any person under whose direction or supervision such employee is employed in the public school system who has knowledge of such incident, to promptly report the same to the appropriate law enforcement authorities of the county or city in which the same occurred. Failure to make such report shall be a misdemeanor punishable by a fine of not more than two hundred dollars (\$200).

(b) An act by any member of the governing board of a community college district, or any employee of any community college district which is designed directly or indirectly to influence or urge a person under a duty to make the report prescribed by subdivision (a) not to make such report, shall be a misdemeanor, and shall be punishable by a fine of not less than one hundred dollars (\$100) or more than two hundred dollars (\$200).

87015. The governing board of a community college district may make awards to employees who:

(a) Propose procedures or ideas which thereafter are adopted and effectuated, and which result in eliminating or reducing district expenditures or improving operations; or

(b) Perform special acts or special services in the public interest; or

(c) By their superior accomplishments, make exceptional contributions to the efficiency, economy or other improvement in operations of the district.

Before any such awards are made, the governing board shall adopt rules and regulations. The board may appoint one or more merit

award committees made up of district officers, district employees, or private citizens to consider employee proposals, special acts, special services, or superior accomplishments and to act affirmatively or negatively thereon or to provide appropriate recommendations thereon to the board.

Any award granted under the provisions of this section which may be made by an awards committee under appropriate district rules, shall not exceed two hundred dollars (\$200), unless a larger award is expressly approved by the governing board.

When an awards program is established in a district under the provisions of this section, the governing board shall budget funds for this purpose but may authorize awards from funds under its control whether or not budgeted funds have been provided or the funds budgeted are exhausted.

87016. Whenever any person is requested by a community college district to travel to the headquarters of such district for the purpose of being interviewed and examined prior to possible employment, the district may reimburse such candidate for expenses necessarily incurred in traveling from his place of residence to the place of interview or examination.

87017. Notwithstanding any provision of law to the contrary, a community college district may, from funds under its jurisdiction, pay the surviving spouse of any employee who is murdered while in the course of his employment the amount that the deceased would have received if he had lived to complete the time remaining in his contract with the district.

This section shall be applicable to the surviving spouse of any such employee who was murdered during or after the 1973-74 school year.

## Article 2. Rights and Duties

87030. Any president, instructor, employee, or community college officer who refuses or willfully neglects to make such reports as are required by law is guilty of a misdemeanor and is punishable by a fine of not more than one hundred dollars (\$100).

87031. Materials in personnel files of employees which may serve as a basis for affecting the status of their employment are to be made available for the inspection of the person involved.

Such material is not to include ratings, reports, or records which (1) were obtained prior to the employment of the person involved, (2) were prepared by identifiable examination committee members, or (3) were obtained in connection with a promotional examination.

Every employee shall have the right to inspect such materials upon request, provided that the request is made at a time when such person is not actually required to render services to the employing district.

Information of a derogatory nature, except material mentioned in the second paragraph of this section, shall not be entered or filed unless and until the employee is given notice and an opportunity to

review and comment thereon. An employee shall have the right to enter, and have attached to any such derogatory statement, his own comments thereon. Such review shall take place during normal business hours, and the employee shall be released from duty for this purpose without salary reduction.

87032. The governing board of a community college district shall provide for the payment of the actual and necessary expenses, including traveling expenses, of any employee of the district incurred in the course of performing services for the district, whether within or outside the district, under the direction of the governing board. The board may authorize an advance of funds to cover such necessary expense. Such advance shall be repaid or adjusted upon filing of a regular claim for the actual and necessary expenses incurred. The governing board may direct any employee of the district to attend any convention or conference or to visit schools for the discussion or observation of any school matter appertaining to the duties of the employee or any question of interest to the district.

In implementing this section, a governing board of any community college district may, by rule or regulation, delegate to the district superintendent the authority to perform all powers described in this section; provided, that funds expended pursuant to such delegation shall not exceed the amount previously budgeted for such purposes by the governing board.

87033. The governing board of a community college district may provide for the reimbursement of employees of the district for the use of automobiles owned by the employees and used in the performance of regularly assigned duties, by establishing an allowance for such use on a mileage or monthly basis.

87034. Neither any local legislative body nor any community college district governing board shall enact or enforce any ordinance or promulgate or enforce any rule or regulation which limits, during their off-duty hours, the participation of employees in political activities not prohibited by the Education Code.

87035. (a) The governing board of a community college district may grant leaves of absence to employees to appear as a witness in court other than as a litigant or to respond to an official order from another governmental jurisdiction for reasons not brought about through the connivance or misconduct of the employee.

(b) The governing board of a community college district may grant leaves of absence to employees, in positions requiring certification qualifications, regularly called for jury duty in the manner provided for by law.

(c) The governing board may grant such leaves of absence with pay up to the amount of the difference between the employee's regular earnings and any amount he receives for jury or witness fees.

87036. The governing board of a community college shall grant leave of absence to any employee, serving in a position not requiring certification qualifications, regularly called for jury duty in the

manner provided for by law. The governing board shall grant such leave with pay up to the amount of the difference between the employee's regular earnings and any amount he receives as juror's fees.

It is unlawful for the governing board or personnel commission of any community college district to adopt or maintain any rule, regulation, or policy which has as its purpose or effect a tendency to encourage employees to seek exemption from jury duty, or to directly or by indirection solicit or suggest to any employee that he seek exemption from jury duty, or to discriminate against any employee with respect to assignment, employment, promotion, or in any other manner because of such employee's service on any jury panel.

The board or personnel commission may, however, provide by rule that only a percentage of its staff, which percentage shall not be less than 2 percent, shall be granted such leave, with pay, at any one time.

Nothing in the foregoing provisions shall preclude the district superintendent or his agent from discussing with the affected employee the practicality of seeking exemption when acceptance would tend to materially disrupt the district's operations.

87037. The governing board of a community college district may use district funds for cash deposits, when required to guarantee payment for transportation purchased on credit for district employees or other representatives who are directed by the governing board to travel on district business.

87038. The governing board of a community college district may use district funds for cash deposits, when required to guarantee payment for health plans purchased on credit for district employees.

87039. It shall be unlawful for any person authorized to invoke disciplinary action against any employee of a community college district or employee in the office of the county superintendent of schools either in his individual capacity or as a member of any board, to invoke or attempt to invoke disciplinary action against any such employee or to discriminate against such employee in the terms, conditions and privileges of employment solely because of the employee's appearance before the governing board of a district, the county board of education, legislative committees, or any other duly constituted governmental board, commission or council, whether such appearance was undertaken voluntarily or otherwise.

Violation of the provisions of this section shall be a misdemeanor.

87040. The governing board of each community college district when drawing an order for the salary payment due to employees of the district shall, without charge, reduce the order by the amount which it has been requested in a revocable written authorization by the employee to deduct for any or all of the following purposes: participating in a deferred compensation program offered by the district which provides for investments in corporate stocks, bonds, securities, mutual funds, or annuities, except as prohibited by the

Constitution, or paying premiums on any policy or certificate of group life insurance for the benefit of the employee or for group disability insurance, or legal expense insurance, or any of them, for the benefit of the employee or his dependents issued by an admitted insurer on a form of policy or certificate approved by the Insurance Commissioner, or paying rates, dues, fees, or other periodic charges on any hospital service contract for the benefit of the employee, or his dependents, issued by a nonprofit hospital service corporation on a form approved by the Insurance Commissioner pursuant to the provisions of Chapter 11a (commencing with Section 11491) of Part 2 of Division 2 of the Insurance Code, or paying periodic charges on any medical and hospital service agreement or contract for the benefit of the employee, or his dependents, issued by a nonprofit membership corporation lawfully operating under Section 9200 or Section 9201 of the Corporations Code, or paying periodic charges on any legal services contract for the benefit of the employee, or his dependents issued by a nonprofit membership corporation lawfully operating under Section 9200 or 9201.2 of the Corporations Code. The governing board of the district shall, beginning with the month designated by the employee and each month thereafter until authorization for the deduction is revoked, draw its order upon the funds of the district in favor of the insurer which has issued the policies or certificates or in favor of the nonprofit hospital service corporation which has issued hospital service contracts, or in favor of the nonprofit membership corporation which has issued medical and hospital service or legal service agreements or contracts, for an amount equal to the total of the respective deductions therefor made during the month. The governing board may require that the employee submit his authorization for the deduction up to one month in advance of the effective date of coverage.

“Group insurance” as used in this section shall mean only a bona fide group program of life or disability or life and disability insurance where a master contract is held by the community college district or an employee organization but it shall, nevertheless, include annuity programs authorized by Section 403(b) of the Internal Revenue Code when approved by the governing board.

87041. Community college districts may, but shall not be required to, provide payroll deduction for the collection of insurance premiums except as expressly authorized by Section 87040.

87042. Any school employee of a community college district who is absent because of injury or illness which arose out of and in the course of the person's employment, and for which the person is receiving temporary disability benefits under the workers' compensation laws of this state, shall not be entitled to receive wages or salary from the district which, when added to the temporary disability benefits, will exceed a full day's wages or salary.

During such periods of temporary disability so long as the employee has available for the employee's use sick leave, vacation, compensating time off or other paid leave of absence, the district

shall require that temporary disability checks be endorsed payable to the district. The district shall then cause the employee to receive the person's normal wage or salary less appropriate deductions including but not limited to employee retirement contributions.

When sick leave, vacation, compensating time off or other available paid leave is used in conjunction with temporary disability benefits derived from workers' compensation, as provided in this section, it shall be reduced only in that amount necessary to provide a full day's wage or salary when added to the temporary disability benefits.

**87043.** Notwithstanding the provisions of Sections 87042, 87787 and 88192, a community college district may waive the requirement that temporary disability checks be endorsed payable to the district, and may in lieu thereof, permit the employee to retain his temporary disability check, providing that notice be given to the district that such check has been delivered to the employee. In such cases, the district shall then cause the employee to receive his normal wage or salary less appropriate deductions, including, but not limited to, employee retirement contributions, and an amount equivalent to the face amount of the temporary disability check, which the employee has been permitted to retain. In all cases, employee benefits are to be computed on the basis of the employee's regular wage or salary prior to the deduction of any amounts for temporary disability payments.

Nothing contained herein shall be deemed to in any way diminish those rights and benefits which are granted to a school employee pursuant to the provisions of Sections 87042, 87787 and 88192.

**87044.** When a president or other community college official releases a minor student of such school to a peace officer for the purpose of removing the minor from the school premises, such school official shall take immediate steps to notify the parent, guardian, or responsible relative of the minor regarding the release of the minor to such officer, and regarding the place to which the minor is reportedly being taken.

**87045.** A classified school employee currently employed by any community college district which decides to maintain classes on Saturday or Sunday, or both, shall not, without his or her written consent, be required to change his or her workweek to include Saturday or Sunday, or both. No such classified employee shall be assigned to perform services on a Saturday or Sunday if such classified employee objects in writing that such assignment would conflict with his or her religious beliefs or practices. Enactment of this section shall cause no change or disruption in existing work schedules which may already include Saturday or Sunday as regular workdays.

This section shall not be construed as limiting the power of any governing board of a community college district to govern the schools of the district, including the assignment of classified employees employed by such district.

This section shall not be construed as modifying or otherwise affecting in any way the provisions of Sections 88026, 88027, or 88030, or any other provisions of this code relating to employment of classified employees.

### Article 3. Personnel Interchange Between Certificated and Classified Positions

87060. The purpose of this article is to provide a basis of determination as to what constitutes a supervisory or administrative classified position or a position requiring certification qualifications not clearly defined in other sections of this code; to provide an interchange of qualified personnel between the certificated and classified services of the public school systems; and to secure rights and benefits to employees moving between the two services, all to the end of assuring better educational systems for the students of the public school systems.

The provisions of this article are not intended, nor may they be construed, to invalidate any other sections of this code which were enacted prior to the enactment of this article, relating to positions requiring certification qualifications or the classified service covered in Article 3 (commencing with Section 88060) of Chapter 4 of this part, unless specifically provided herein. This article shall where appropriate apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 3 (commencing with Section 88060) of Chapter 4 of this part.

87061. If an employee of a community college district, including a district having the merit system as outlined in Article 3 (commencing with Section 88060) of Chapter 4 of this part, employed in a position requiring certification qualifications is assigned to a position in the classified service of the same district, the employee shall retain all sickness and injury, sabbatical leave, and other rights and benefits. All seniority and tenure rights accumulated by him at the time of assignment to the position in the classified service shall be secured to him for a period of 39 months from the time of acceptance of the classified position. His return to certificated service at any time within the 39 months shall be treated as if there had not been an interruption in his certificated service.

87062. If an employee of a community college district, including a district having the merit system as outlined in Article 3 (commencing with Section 88060) of Chapter 4 of this part, employed in a position in the classified service is assigned to a position in the same district requiring certification qualifications, the employee shall retain all sick leave, vacation, and other rights and benefits accumulated by him at the time he is assigned to a position requiring certification qualifications. All seniority and permanency rights shall be secured to such an employee for a period of 39 months and his return shall be treated as if there had not been an interruption in his classified service.

87064. No governing board of a community college district or a county board of education or a county superintendent of schools or other appointing authority shall require a credential or specify certification qualifications, per se, as a prerequisite for employment in any position under its jurisdiction which does not, by statute, require credentials or certification qualifications.

87065. Any person who, on September 15, 1961, is serving in a position for which a credential was issued or certification qualifications required pursuant to former Section 13150 or 13292 prior to the repeal of such sections, shall be deemed to be an employee in a position requiring such credential or certification qualifications for as long as he holds such position after September 15, 1961.

87067. (a) Any person who, on September 17, 1965, was serving in a position as business manager and had been assigned a title listed in Section 72408 shall be deemed to be an employee in a position requiring certification qualifications for so long as he holds such position in the same district.

(b) Any person who, on November 22, 1971, was serving in a position of business manager and that position had been declared, by the governing board, to be one requiring certification qualifications in accordance with the authority extended in this section prior to November 22, 1971, shall be deemed to be an employee in a position requiring certification qualifications for so long as he holds such position in the same district.

(c) Except as provided in subdivision (d), on and after November 22, 1971, no person employed in a position of business manager shall be required to be credentialed and no title assignment, work, duty statement or other device, including but not limited to educational or other requirements of applicants, which may be established by the governing board, may be construed to require certification qualifications for any such position or reasonably related position.

(d) The governing board of a community college district with less than 3,000 units of average daily attendance in the prior fiscal year may require any person employed in a position of business manager to be credentialed.

## CHAPTER 2. CREDENTIALS FOR COMMUNITY COLLEGE PERSONNEL

### Article 1. Issuance of Temporary Certificates

87200. Nothing in this chapter shall be construed as preventing community college districts from hiring, employing, or otherwise using teacher aides, instructional aides, or teacher assistants under the terms of existing law and financial support formulas. The Board of Governors of the California Community Colleges may study the various roles of such paraprofessionals and routinely report its findings.

## Article 2. Credentials and Certificates

87210. Except where such service is provided by a community college district pursuant to Section 87213.5, each county or city and county board of education may provide for the registration of any valid certification or other document authorizing the holder thereof to serve in a position requiring certification qualifications as an employee of the county superintendent of schools of such county or city and county or of a community college district under the jurisdiction of such county superintendent of schools. Such registration shall authorize the service of the holder as an employee of the county superintendent of schools or of any community college district under his jurisdiction in the capacity in which and for the period of time for which the certification or other document is valid.

87211. County boards of education may renew any certificate legally issued by them prior to October 1, 1945, and now in force; provided, that no certificate granted upon a credential issued by the State Board of Education or commission for a limited period shall be renewed or extended unless the credential upon which it was issued has been renewed or extended, and then only for the period of the renewal or extension of the credential.

87212. Except where such service is provided by a community college district authorized to register certification documents pursuant to Section 87213.5, each county or city and county board of education may issue temporary certificates for the purpose of authorizing salary payments to certified employees whose credential applications are being processed or to personnel employed in child development programs whose permit applications are being processed. The applicant for such a temporary certificate shall make a statement under oath that he has duly filed his application for a credential or permit together with the required fee and that to the best of his knowledge no reason exists why he should not be issued a certificate or permit. Such certificate or permit shall be valid for not more than 120 schooldays, and only until the credential or permit originally requested is either issued or denied by the board of governors or commission.

87212.5. A community college district which may issue warrants pursuant to Section 85261 may, at its discretion, provide for the registration of any valid certification or other document authorizing the holder thereof to serve in a position requiring certification qualifications as an employee of the community college district.

87213. The standard for the exchange credential shall be as prescribed by the commission pursuant to Section 87422.

This credential shall authorize service in a position requiring certification qualifications as an exchange certified employee for performance of the services specified in the credential. Services for which a license is required by the Business and Professions Code may not be authorized unless the applicant holds such a license.

87214. Except as provided in this code, no certification document

shall be granted to any person unless and until he has subscribed to the following oath or affirmation: "I solemnly swear (of affirm) that I will support the Constitution of the United States of America, the Constitution of the State of California, and the laws of the United States and the State of California." The oath or affirmation shall be subscribed and certified or declared, pursuant to Section 2015.5 of the Code of Civil Procedure, and shall be filed with the Board of Governors of the California Community Colleges. Any certificated person who is a citizen or subject of any country other than the United States, and who is employed in any capacity in any of the public schools of the state shall, before entering upon the discharge of his duties, subscribe to an oath to support the institutions and policies of the United States during the period of his sojourn within the state. Upon the violation of any of the terms of the oath or affirmation, the Board of Governors of the California Community Colleges shall suspend or revoke the credential which has been issued.

87215. The issuance of any teaching credential requires (1) the passing of a satisfactory examination on the provisions and principles of the Constitution of the United States in a community college, college, or university of recognized merit or (2) the satisfactory completion of two semester units of work on the provisions and principles of the Constitution of the United States in any university or college from which undergraduate credits earned are accepted by the commission as meeting undergraduate credit requirements for credentials issued by the commission or in any publicly supported community college in the state. Public and private institutions in California may be authorized to attest to the individual's satisfaction of this requirement.

87216. When required by the Board of Governors of the California Community Colleges, the application for a certification document or the renewal thereof shall be accompanied by a certificate in such form as shall be prescribed by the Board of Governors of the California Community Colleges, from a physician and surgeon licensed under the provisions of the Business and Professions Code showing that the applicant is free from any contagious and communicable disease or other disabling disease or defect unfitting the applicant to instruct or associate with students.

87217. No person otherwise qualified shall be denied the right to receive credentials from the board of governors, to receive training for the purpose of becoming an instructor, or to engage in practice teaching in any community college, on the grounds he is physically handicapped; nor shall any community college district refuse to engage an instructor on such grounds, provided, that such physically handicapped instructor is able to carry out the duties of the position for which he applies in the community college district. "Physically handicapped" as used in this section includes total or partial visual or hearing impairments, orthopedic impairments, and other physical impairments.

87218. No person otherwise qualified shall be denied the right to receive credentials issued by the board of governors, to receive training for the purpose of becoming an instructor, or to engage in practice teaching in any school, on the ground he has physical deformities; provided, that such physical deformities do not constitute a health hazard to other persons with whom he may become associated.

87219. The Board of Governors of the California Community Colleges shall adopt, in addition to any other regulations authorized by law, regulations requiring every applicant for a credential, or for the renewal of a credential, to submit reasonable evidence of identification and good moral character.

87220. Each applicant for a credential, or for the renewal of a credential, shall submit with his application duplicate personal identification cards provided by the Board of Governors of the California Community Colleges, upon which shall appear the legible fingerprints and a personal description of the applicant.

The Board of Governors of the California Community Colleges is authorized to, and shall adopt such regulations as may in its judgment be necessary for the administration of this section.

87221. The Board of Governors of the California Community Colleges is authorized to secure information, records, reports, and other data relative to the identification or fitness of any applicant for a credential or for the renewal of a credential from any agency or department of the state and for that purpose, any provision of law to the contrary notwithstanding:

(a) The State Bureau of Criminal Identification and Investigation shall furnish, upon application of the Board of Governors of the California Community Colleges, all information pertaining to any applicant of whom there is a record in its office.

(b) Each state hospital under the jurisdiction of the State Department of Health shall furnish upon application of the Board of Governors of the California Community Colleges and with the consent of the holder or applicant, all information and records pertaining to that holder or applicant of whom there is a record in its office.

The Board of Governors of the California Community Colleges, upon written request of any private school authority, shall release to that private school authority information and other data relative to the identification or fitness of any applicant for an instructing position in the private school so long as not otherwise prohibited by any other privileged communication statute.

87222. Teachers, principals, presidents, supervisors, school librarians, superintendents and assistant superintendents, and other certified personnel who are presently employed in public schools in California shall not be adversely affected by this chapter. However, presently employed personnel and those in preparation shall be permitted to seek initial or renewal certification under the terms of this chapter.

87225. The terms of credentials shall be as specified in this article.

87226. Except as otherwise specifically required in this chapter, the board of governors shall establish regulations pertaining to the expiration dates of initially issued and renewed credentials.

87227. Each credential issued by the board of governors shall clearly state the kind of service that it authorizes, the grades or classes, or the types of schools in which it authorizes service, and shall have such other content as the board of governors may prescribe or as may be prescribed by authority of the board of governors.

87228. Each credential issued shall contain its date of expiration and shall be issued on a form prescribed by the board of governors, and shall bear the signatures of the secretary and the chairman of the board of governors or their facsimile signatures.

87229. Whenever the date of expiration of any credential occurs while the person holding the credential is in the active military service of the United States of America or of the State of California, including active service in any uniformed auxiliary of, or to, any branch of such military service created or authorized as such auxiliary by the Congress of the United States of America or by the Legislature of the State of California or in the service of the United States Merchant Marine, or in the full-time paid service of the American Red Cross, during any national emergency declared by the President of the United States of America, or during a war in which the United States of America is engaged, or within six months after such person honorably leaves such service or has been placed on inactive duty, the credential is hereby continued in force until six months after such person honorably leaves such service or has been placed on inactive duty.

The holder of a credential so extended shall be entitled to a renewal of the credential prior to its date of expiration as herein fixed, subject to provisions of this code relating to the renewal of credentials.

87230. Whenever satisfactory proof is presented to the board of governors by any person to whom the board of governors has granted a credential that has been lost or destroyed, the board of governors shall issue to him a new credential of the same kind, grade, character, and tenure as that lost or destroyed.

For issuance of the new credential the board of governors shall require a fee to cover the cost of replacement not to exceed the fee for issuance of an original credential pursuant to Section 44235. The revenues from the fee provided for in this section shall not be available for expenditure until appropriated.

87231. Satisfactory proof shall consist of an affidavit by the person, giving the kind of the credential, the date of issue, if possible, and the basis upon which it was issued, together with such other information as the issuing authority may require.

87232. Any oath required of an applicant for a credential may be administered by any of the persons enumerated in Section 60, by such employees of the community colleges as the board of governors may designate.

Article 3. Jurisdiction of Board of Governors, Commission for Teacher Preparation and Licensing, and State Board of Education Over Community College Credentials

87250. In Chapter 1549 of the Statutes of 1967, the Legislature established the Board of Governors of the California Community Colleges (hereinafter referred to as the board of governors) and gave to it the powers which the State Board of Education, the Superintendent of Public Instruction, the State Department of Education, and the Director of Education (hereinafter referred to collectively as the Board of Education) held with respect to the management, administration, and control of community colleges. It was the intent of the Legislature that the board of governors succeed to the powers of the Board of Education in relation to certification of personnel for service in grades 13 and 14. In order to make this succession of power effective and to clarify the authority of each of these bodies and officers in relation to certification, the Legislature has enacted this article.

87251. As used in this article "credential" means any credential authorizing service both in grades 13 and 14 and in other grades.

87252. The authority over credentials and certificates which authorize service both in grades 13 and 14 and in other grades shall be divided between the board of governors and the Board of Education or the Commission for Teacher Preparation and Licensing. The board of governors shall have the authority to issue, suspend, revoke, or take any other lawful action on such credentials in relation to their authorization for service in grades 13 and 14. Whenever in this division reference is made to the "State Board of Education" or the "Commission for Teacher Preparation and Licensing" with respect to the administration of community college credentials, such reference shall be deemed to mean the Board of Governors of the California Community Colleges. The Board of Education or the Commission for Teacher Preparation and Licensing shall have the authority to issue, suspend, revoke, or take any other lawful action on such credentials in relation to their authorization for services in grades other than grades 13 and 14.

87253. Notwithstanding the provisions of Sections 87252 and 87254, the Board of Education or the Commission for Teacher Preparation and Licensing shall have the authority to renew any credential which was issued by it before the effective date of the enactment of this article.

87254. In all respects, credentials under the jurisdiction of either the board of governors or the Board of Education or the Commission for Teacher Preparation and Licensing shall be considered separate and apart from credentials under the jurisdiction of the other board even though both boards may act pursuant to the same provision of this code. A person who desires to have available the full

authorization of such a credential must hold both a credential issued by the Board of Education or the Commission for Teacher Preparation and Licensing and a credential issued by the board of governors.

87255. Persons holding credentials which are presently in force shall not be required to obtain new credentials from the board of governors and the Board of Education or the Commission for Teacher Preparation and Licensing. A person who holds a credential issued on the basis of a partial fulfillment of requirements shall be entitled to complete his program for fulfillment as approved by the Board of Education or the Commission for Teacher Preparation and Licensing and to receive his fully satisfied credential from the Board of Education or the Commission for Teacher Preparation and Licensing.

87256. The Board of Education or the Commission for Teacher Preparation and Licensing shall complete any action which it is taking in relation to a credential and which is not completed on the effective date of the enactment of this article. "Complete any action" includes the retention of jurisdiction by the committee of credentials and the Board of Education or the Commission for Teacher Preparation and Licensing of any matter until it is finally resolved by the Board of Education or the Commission for Teacher Preparation and Licensing or by judicial review.

87257. The board of governors and the Board of Education or the Commission for Teacher Preparation and Licensing are encouraged to maintain as similar as possible, the requirements for credentials issued by either of them under authorization of the same provision of the Education Code, although the Legislature recognizes that the needs and problems in grades 13 and 14 and the other grades are different. The board of governors and the Board of Education or the Commission for Teacher Preparation and Licensing are directed to keep each other fully informed of actions taken by either of them with respect to such requirements.

#### Article 4. General Requirements for Community College Credentials

87270. The board of governors or the Commission for Teacher Preparation and Licensing may enter into a written agreement pursuant to which the department or commission shall perform administrative tasks relating to credentials and certificates of qualification issued by the board. The department or commission shall receive all fees paid in connection with credentials and certificates of qualifications for which it renders services to the board in full payment for such services and for the materials and equipment it uses to carry out its duties pursuant to such an agreement.

87271. There is in the State Treasury the Community College Credentials Fund. All fees levied and collected by the community

colleges shall be deposited in the Community College Credentials Fund, and are hereby continuously appropriated to support the activities and functions of the board of governors.

It is the intent of the Legislature that fees levied for the issuance of teachers' credentials shall be sufficient to offset the cost of all activities of the board of governors, including the committee of credentials and any services provided by the Department of Education.

87272. Fees shall be levied by the board of governors for the issuance and renewal of teaching and related credentials. The fees shall be set by the board in such a manner that revenues sufficient to support all activities and functions, including continuing research and evaluation activities, shall be produced. In no case shall a fee exceed twenty dollars (\$20) without express legislative approval.

87273. Any fee or excess amount of fee paid under Section 87272 may be refunded by the board of governors from the Community College Credentials Fund when the applicant does not qualify for a credential or when such fee or excess is paid in error, and the amount of any such refund is hereby appropriated for the making of such refund.

87274. An individual employed by a community college district in grades 13 and 14 as an instructor, supervisor, administrator, librarian, counselor, or student personnel worker shall be required to possess a credential or certification document specified in this article. The board of governors may prescribe, by regulation, the standards as to equivalency and standards for professional, vocational training, or experience, or any combination thereof, wherever referred to in this article and such additional minimum standards as they deem appropriate for the administration and enforcement of this article.

87275. The minimum requirements for the community college instructor credential shall be either (a) or (b) and (c), as follows:

(a) Possession of a master's degree, or its equivalent, from an accredited institution, in any field except professional education; or

(b) Professional or vocational training or experience, or any combination thereof, established as adequate pursuant to regulations adopted by the board of governors; and

(c) Compliance with the provisions of Sections 87214, 87216, 87219, 87220, and 87221 with respect to credentials authorized by this article.

87276. The community college instructor credential shall be issued by the board of governors following a determination that (a) the applicant meets the requirements specified in subdivision (a) or (b) of Section 87275, and (b) a determination by the board of governors that the applicant has complied with subdivision (c) of Section 87275.

87277. The community college instructor credential shall authorize the holder to perform the following functions:

(a) Teach, in grades 13 to 14, inclusive, any course in a subject

matter area in which the holder of the credential has a major or has earned a master's degree, or its equivalent.

(b) Teach any course in classes for adults.

(c) Teach, in grades 13 and 14, any course in a subject matter area in which the holder of the credential has completed a minor, if the governing board of the district employing the holder specifically authorizes the holder to teach such courses by resolution. This authorization may be renewed annually by resolution of the governing board. If the credential is issued based on professional or vocational training or experience, or any combination thereof, the holder shall perform only the teaching functions authorized by regulations adopted by the board of governors.

87278. The minimum requirements for the community college supervisor credential shall be either (a) or (b), (c), and (d), as follows:

(a) Possession of a master's degree, or its equivalent, from an accredited institution, in any field; or

(b) Professional or vocational training or experience, or any combination thereof, established as adequate pursuant to regulations adopted by the board of governors; and

(c) A combination of not less than two years of teaching or counseling, or both, library science, research, administrative experience in higher education, or its equivalent in postsecondary education, or its equivalent in training and development experience in other related fields; and

(d) Compliance with the provisions of Sections 87214, 87219, 87220, and 87221 with respect to credentials authorized by this article.

87279. The community college supervisor credential shall be issued by the board of governors following a determination that (a) the applicant meets the requirements specified in subdivisions (a) or (b) and (c) of Section 87278, and (b) a determination by the board of governors that the applicant has complied with subdivision (d) of Section 87278.

87280. The community college supervisor credential shall authorize the holder to be employed as a supervisor in a community college district.

87281. The minimum requirements for the community college chief administrative officer credential shall be (a), either (b), or (c), and (d), as follows:

(a) Possession of a master's degree, or its equivalent, from any accredited institution, in any field; and

(b) A combination of not less than two years of teaching or counseling, or both, library science, research, and administrative experience in higher education, or its equivalent in postsecondary education, or its equivalent in training and development experience in other related fields; or

(c) Eminence in administration in higher education; and

(d) Compliance with the provisions of Sections 87214, 87219,

87220, and 87221 with respect to credentials authorized by this article.

87282. The community college chief administrative officer credential shall be issued by the board of governors following a determination that (a) the applicant meets the requirements specified in subdivisions (a) and either (b) or (c) of Section 87281, and (b) a determination by the board of governors that the applicant has complied with subdivision (d) of Section 87281.

87283. The community college chief administrative officer credential shall authorize the holder to be employed as a chief administrative officer of a community college, a superintendent of a community college district, or both.

87284. The minimum requirements for the community college librarian, counselor, or student personnel worker credential shall be (a) and (b), as follows:

(a) Possession of a master's degree, or its equivalent, from an accredited institution, in a field related to library, counseling, or student personnel work, respectively; and

(b) Compliance with the provisions of Sections 87214, 87219, 87220, and 87221 with respect to credentials authorized by this article.

87285. The community college librarian, counselor, or student personnel worker credential shall be issued by the board of governors following a determination that (a) the applicant meets the requirements specified in subdivision (a) of Section 87284 and (b) a determination by the board of governors that the applicant has complied with subdivision (b) of Section 87284.

87286. The community college librarian, counselor, or student personnel worker credential shall authorize the holder to be employed as a librarian, counselor, or student personnel worker, respectively, in a community college district.

87288. No applicant otherwise qualified for a credential authorized by this article shall be denied the right to receive credentials from the board of governors on the grounds he is totally or partially blind; nor shall any community college district refuse to engage an instructor on such grounds, provided, that such blind instructor is able to carry out the duties of the position for which he applies in the community college district.

87289. The board of governors may deny any application for the issuance of a credential authorized by this article made by any applicant who:

(a) Is physically so disabled as to be rendered unfit to perform the duties authorized by the credential for which he applies.

(b) Is addicted to the use of intoxicating beverages to excess.

(c) Is addicted to the use of narcotics or habit-forming drugs.

(d) Has committed any act involving moral turpitude.

(e) Has had a certification document revoked.

(f) Has intentionally practiced or attempted to practice any material deception or fraud in his application.

(g) Fails or refuses to furnish reasonable evidence of identification or good moral character.

(h) Has been convicted of any offense defined in subdivision (1) of Section 314 of the Penal Code.

87290. The board of governors shall deny any application for the issuance of a credential authorized by this article made by any applicant who comes within any of the following classes:

(a) Has been determined to be a mentally disordered sex offender under the provisions of Article 1 (commencing with Section 6300), Chapter 2, Part 2, Division 6 of the Welfare and Institutions Code or under similar provisions of law of any other state.

(b) Has been convicted of any sex offense as defined in Section 87010.

(c) Has been convicted of a narcotics offense as defined in Section 87011.

87291. (a) A credential which was issued prior to November 10, 1969, shall remain in force as long as it is valid and continues to be valid under the law and regulations of the board of governors. The board of governors may not by regulation invalidate such valid credential in relation to service in grades 13 and 14 unless it issues to the holder thereof, in substitution, a new credential authorized by other sections of this article of an equivalent type in relation to service in grades 13 and 14 and which new credential is no less restrictive than the credential for which it is substituted with respect to the kind of service which it authorizes in grades 13 and 14, and the grades or classes of types of schools in which it authorizes service in relation to grades 13 and 14.

(b) Credentials issued prior to November 10, 1969, and credentials issued under subdivision (c) of this section may be renewed in accordance with regulations in effect on November 10, 1969.

(c) Within the scope of the power given to it by the provisions of Article 3 (commencing with Section 87250) of this chapter, the board of governors shall issue the appropriate credentials authorized by the law operative, and the rules and regulations in effect, on November 10, 1969, to any person who is working toward meeting the requirements of a prior regular credential and is enrolled in an education program for such purpose on November 10, 1969. No credential shall be issued under this subdivision after January 1, 1971.

87292. (a) A provisional credential may be issued to instructional personnel in accordance with the regulations adopted by the board of governors.

The minimum standards for a provisional credential shall be prescribed by the board of governors.

The regulations adopted by the board of governors prescribing the minimum standards for a provisional credential shall give consideration to training and teaching experience in California schools and shall establish the term of renewal for such a credential.

Any issuance of a provisional credential shall comply with the provisions of Sections 87214, 87219, 87220, and 87221 with respect to

credentials authorized by this article.

(b) A limited service credential may be issued to instructional personnel in accordance with the regulations adopted by the board of governors.

The minimum standards for a limited service credential shall be prescribed by the board of governors.

The regulations adopted by the board of governors prescribing the minimum standards for a limited service credential shall give consideration to training and teaching experience in California schools and shall establish the term of renewal for such a credential.

A limited service credential shall be issued to persons teaching 40 percent or less of the number of hours considered as a full-time assignment for regular employees having similar duties in the community colleges of the district in which he is employed.

Any issuance of a limited service credential shall comply with the provisions of Sections 87214, 87219, 87220, and 87221 with respect to credentials authorized by this article.

87293. The governing board of a community college district may, by resolution, establish administrative and supervisory positions in the classified service not requiring certification where such positions relate to business, research, or community service functions.

87294. A credential or certification document issued pursuant to this article may identify the subject area authorization and the extent or type of service permitted. Such identification shall be made with such requirements as the board of governors may authorize.

87295. The board of governors shall, by regulation, establish minimum standards authorizing service for instructors of classes for adults and shall establish procedures for the issuance of appropriate certificates of qualification.

87296. The Commission for Teacher Preparation and Licensing shall have no authority over or in relation to credentials or certification documents issued pursuant to this article.

87297. The board of governors may issue a community college instructor credential, supervisor credential, librarian credential, counselor credential, health services credential, and student personnel worker credential to any person who has partially fulfilled the minimum requirements for the particular credential on the condition that such person completely fulfill such requirements within a reasonable period of time. The board of governors may by rule establish the requirements for granting a credential under this section and establish the period of time within which the requirements for the credential must be completely fulfilled.

87298. The board of governors shall issue a community college health services credential. The minimum requirements for this credential are all of the following:

(a) Possession of a valid license, certificate, or registration, appropriate to the health service to be designated, issued by the California agency authorized by law to license, certificate, or register persons to practice that health service in California.

(b) Five years, or its equivalent, of college or university education, or five years of professional preparation approved by the board of governors.

(c) Compliance with the provisions of Sections 87214, 87219, 87220, and 87221.

A community college health services credential shall authorize the holder to perform those health services for which the holder is licensed by the State of California as a part of the operation of a community college.

87299. The board of governors may issue an eminence credential to any person who has achieved eminence in a field of endeavor, authorizing service by such person in a community college district. The board of governors shall adopt criteria for determining eminence.

Minimum requirements for the issuance of an eminence credential shall be:

(a) Certification by the governing board of a community college district to the board of governors that the board, the faculty of the related department or division, and the administration of the college have concurred that a need exists and have concurred in the determination of eminence in accordance with established criteria.

If concurrence cannot be reached as in this subdivision, the governing board of employing district may request the credential using the alternate requirement contained in subdivision (b).

(b) A certification from the employing district governing board to the board of governors that a need exists. The determination of eminence shall be made, based on established criteria, by a statewide committee representative of the administration, boards, and faculty appointed by the board of governors.

Such credential shall authorize the holder to perform the following functions:

(1) Teach only in the community college district that has requested the credential and certified to the need thereof.

(2) Teach either graded courses or classes for adults in the subject matter field for which the credential was issued.

The credential may be issued authorizing service for a two-year period. The credential may be renewed for successive two-year periods, pursuant to the procedure set forth in this section.

Any issuance of an eminence credential shall comply with the provisions of Sections 87219, 87220, and 87221.

## Article 5. Revocation or Suspension of Credentials and Certificates

87330. Should any person employed by a community college district in a position requiring certification qualifications refuse, without good cause, to fulfill a valid contract of employment with such district or leave the service of such district without the consent of the superintendent, if any, or the governing board, of such district

except in the manner provided for by law, the board of governors shall, after proof of such fact is made to it, suspend the credentials theretofore issued to him by the commission for not more than one year.

If the credentials issued to the person by the board of governors have once been suspended pursuant to this section, the board of governors may, if such credentials again become subject to suspension under this section, suspend such credentials for not more than two years.

87331. The board of governors shall revoke or suspend for immoral or unprofessional conduct, or for persistent defiance of, and refusal to obey, the laws regulating the duties of persons serving in the public school system, or for any cause which would have warranted the denial of an application for a credential or the renewal thereof, or for evident unfitness for service.

87332. Whenever the holder of any credential issued by the board of governors, State Board of Education, or the Commission for Teacher Preparation and Licensing is charged with immoral or unprofessional conduct or evident unfitness for service or persistent defiance of, and refusal to obey, the laws regulating the duties of his position, the board of governors in its discretion after notifying the person charged of its intention to do so, may require the county board of education of the county in which he is serving or has last served to give notice of, and conduct, a hearing of the charges in the manner prescribed by law for the hearing of charges for the revocation or suspension of a certificate by a county board of education.

The county board of education, after the hearing, shall report to the board of governors its findings, and a summary of the evidence, and shall make a definite recommendation concerning the revocation or suspension of the credential.

Upon receipt of a copy of the findings, summary of evidence, and recommendation, the board of governors may suspend or revoke the credential for the causes stated, or order the charges dismissed.

87333. Whenever the holder of any credential issued by the board of governors or the State Board of Education requests in writing that the credential held by him be revoked, the board of governors shall revoke such credential.

87334. Upon the becoming final of the conviction of the holder of any credential issued by the board of governors, or State Board of Education of a violation, or attempted violation, of any one or more of Penal Code Sections 187 to 191, 192 insofar as said section relates to voluntary manslaughter, 193, 194 to 232, both inclusive, 244, 245, 261 to 267, both inclusive, 424, 425, 484 to 488, both inclusive, insofar as said sections relate to felony convictions, 503 and 504, or of Penal Code Section 272, the board of governors shall forthwith revoke the credential.

87335. Whenever the holder of any credential issued by the board of governors or the State Board of Education has been convicted of

any sex offense as defined in Section 87010 or narcotics offense as defined in Section 87011, the board of governors shall forthwith suspend the credential. If the conviction is reversed and the holder is acquitted of the offense in a new trial or the charges against him are dismissed, the board of governors shall forthwith terminate the suspension of the credential. When the conviction becomes final or when imposition of sentence is suspended, the board of governors shall forthwith revoke the credential.

87336. Whenever the holder of any credential issued by the board of governors or State Board of Education has been determined to be a sexual psychopath under the provisions of Article 1 (commencing with Section 6300) of Chapter 2 of Part 2 of Division 6 of the Welfare and Institutions Code or under similar provisions of law of any other state, the board of governors shall forthwith suspend the credential. If the determination is reversed and the holder is determined not to be a sexual psychopath in a new proceeding or the proceeding to determine whether he is a sexual psychopath is dismissed, the board of governors shall forthwith terminate the suspension of the credential. When the determination becomes final, the board of governors shall forthwith revoke the credential.

87337. County boards of education may revoke or suspend, for immoral or unprofessional conduct, evident unfitness for instructing, or persistent defiance of, and refusal to obey the laws regulating the duties of instructors the certificates granted by them.

87338. No certificate shall be revoked or suspended, except upon the written request of its holder, until after a hearing before the county board of education, and then only upon the affirmative vote of at least four members of the board.

87339. All charges of immoral or unprofessional conduct, of evident unfitness for teaching, or persistent defiance of, and refusal to obey the laws regulating the duties of instructors, shall be presented to the board of governors in writing and shall be verified under oath.

87340. Notice of the time of hearing and a full and complete copy of the charges shall be furnished to the accused at least 10 days before the hearing.

87341. The accused shall be given a fair and impartial hearing and shall have the right to be represented by counsel.

87342. The hearing shall be governed by and conducted under the rules of the board of governors.

87343. If any instructor employed by a board of community college trustees for a specified time, leaves the school before the expiration of the time, without the consent of the trustees, in writing, the instructor is guilty of unprofessional conduct, and the board of education of the county, upon receiving notice of the fact, may suspend the certificate of the instructor for the period of one year.

87344. Each city or city and county board of examination may for immoral and unprofessional conduct, profanity, intemperance, or evident unfitness for teaching, recommend to the city or city and

county board of education, the revocation of any certificate previously granted by the board of education in the city or city and county.

87345. Upon the becoming final of the conviction of the holder of a certificate issued by a county board of education of a violation or attempted violation of any one or more of Penal Code Sections 187 to 191, 192 insofar as said section relates to voluntary manslaughter, 193, 194 to 232, both inclusive, 244, 245, 261 to 267, inclusive, 273a, 273f, 273g, 278, 285 to 288a, both inclusive, 424, 425, 484 to 488, both inclusive, insofar as said sections relate to grand theft, 503 and 504, or of Penal Code Section 272, the county board of education shall forthwith revoke the certificate.

87346. Whenever the holder of a certificate issued by a county board of education has been convicted of any sex offense as defined in Section 87010 or narcotics offense as defined in Section 87011, the county board of education shall forthwith suspend the certificate. If the conviction is reversed and the holder is acquitted of the offense in a new trial or the charges against him are dismissed, the board shall forthwith terminate the suspension of the certificate. When the conviction becomes final or when imposition of sentence is suspended the board shall forthwith revoke the certificate.

87347. Whenever the holder of a certificate issued by a county board of education has been determined to be a sexual psychopath under the provisions of Article 1 (commencing with Section 6300), Chapter 2, Part 2, Division 6 of the Welfare and Institutions Code or under similar provisions of law of any other state, the county board of education shall forthwith suspend the certificate. If the determination is reversed and the holder is determined not to be a sexual psychopath in a new proceeding or the proceeding to determine whether he is a sexual psychopath is dismissed, the board shall forthwith terminate the suspension of the certificate. When the determination becomes final, the board shall forthwith revoke the certificate.

### CHAPTER 3. EMPLOYMENT

#### Article 1. General Provisions

87400. Governing boards of community college districts shall employ for positions requiring certification qualifications, only persons who possess the qualifications therefor prescribed by law. It shall be contrary to the public policy of this state for any person or persons charged, by said governing boards, with the responsibility of recommending such persons for employment by said boards to refuse or to fail to do so for reasons of race, color, religious creed, sex, or national origin of said applicants for such employment.

87401. Governing boards of community college districts shall employ persons in public school service requiring certification qualifications as provided in this code.

87403. Notwithstanding any provision of law to the contrary, on and after January 1, 1975, the governing board of a community college district may employ an individual in any administrative or supervisory position, irrespective of whether or not such individual holds any supervisory or administrative credential; provided the individual so employed meets all of the following criteria:

- (1) He holds a valid teaching credential;
- (2) He has completed fifteen (15) years' service as an instructor, as defined in Section 84031, including ten (10) years of teaching service in the employ of the district which appoints him to an administrative or supervisory position; and
- (3) The last ten (10) years of service immediately preceding his appointment to an administrative or supervisory position were as an instructor of the natural sciences, the social sciences (other than education or educational methodology), the humanities, mathematics, and the fine arts.

87404. A student providing services in child development facilities as a nonteaching aide shall perform no instructional work; but shall, under the immediate supervision and direction of a certificated employee, perform noninstructional work which serves to assist certificated personnel in performance of teaching and administrative responsibilities.

87405. Governing boards of community college districts shall not employ or retain in employment persons in public school service who have been convicted of any sex offense as defined in Section 87010 or narcotics offense as defined in Section 87011. If, however, any such conviction is reversed and the person is acquitted of the offense in a new trial or the charges against him are dismissed, this section does not prohibit his employment thereafter.

87406. Governing boards of community college districts shall not employ or retain in employment any person in public school service who has been determined to be a sexual psychopath under the provisions of Article 1 (commencing with Section 5500), Chapter 1, Part 1.5, Division 6 of the Welfare and Institutions Code or under similar provisions of law of any other state. If, however, such determination is reversed and the person is determined not to be a sexual psychopath in a new proceeding or the proceeding to determine whether he is a sexual psychopath is dismissed, this section does not prohibit his employment thereafter.

87407. The governing board of a community college district shall, as a condition to employment, require an applicant for a position requiring certification qualification to furnish a statement of the military service of the applicant and, if any was rendered, a copy of the discharge or release from service. If no such document is available, the governing board may accept other suitable evidence of the conditions under which the military service of the applicant was terminated.

87408. (a) When a community college district or a county

superintendent of schools wishes to employ a person in a position requiring certification qualifications and that person has not previously been employed in a position requiring certification qualifications in this state, the district or county superintendent shall require a medical certificate in such form as shall be prescribed by the board of governors showing that the applicant is free from any disabling disease unfitting the applicant to instruct or associate with students. The medical certificate shall be submitted directly to the governing board or county superintendent by a physician and surgeon licensed under the Business and Professions Code, a commissioned medical officer exempted from licensure by Section 2144 of the Business and Professions Code, or a commissioned medical officer in the United States Air Force. The medical examination shall have been conducted not more than six months before the submission of the certificate and shall be at the expense of the applicant. A governing board or county superintendent may offer a contract of employment to an applicant subject to the submission of the required medical certificate. Notwithstanding Section 87031, the medical certificate shall become a part of the personnel record of the employee and shall be open to the employee or his designee.

(b) The governing board of a community college district or a county superintendent of schools may require certificated employees to undergo a periodic medical examination by a physician and surgeon licensed under the Business and Professions Code, or a commissioned medical officer exempted from licensure by Section 2144 of the Business and Professions Code, to determine that the employee is free from any communicable disease unfitting the applicant to instruct or associate with students. The periodic medical examination shall be at the expense of the district or county superintendent. The medical certificate shall become a part of the personnel record of the employee and shall be open to the employee or his designee.

(c) The board of governors shall adopt rules and regulations relating to the implementation and administration of this section.

(Amended by Stats 1976, Ch 1011 )

[ORIGINAL SECTION]

87408 (a) When a community college district or a county superintendent of schools wishes to employ a person in a position requiring certification qualifications and that person has not previously been employed in a position requiring certification qualifications in this state, the district or county superintendent shall require a medical certificate in such form as shall be prescribed by the board of governors showing that the applicant is free from any disabling disease unfitting the applicant

to instruct or associate with students The medical certificate shall be submitted directly to the governing board or county superintendent by a physician and surgeon licensed under the Business and Professions Code, a commissioned medical officer exempted from licensure by Section 2144 of the Business and Professions Code, or a commissioned medical officer in the United States Air Force The medical examination shall have been conducted not more than six months before the submission of the certificate and shall be at the expense of the applicant A governing board or county superintendent may offer a contract of employment to an applicant subject to the submission of the required medical certificate. Notwithstanding Section 87031, the medical certificate shall become a part of the personnel record of the employee and shall be open to the employee or his designee.

(b) The governing board of a community college district or a county superintendent of schools may require certificated employees to undergo a periodic medical examination by a physician and surgeon licensed under the Business and Professions Code, or a commissioned medical officer exempted from licensure by Section 2144 of the Business and Professions Code, to determine that the employee is free from any communicable disease unfitting the applicant to instruct or associate with children The periodic medical examination shall be at the expense of the district or county superintendent The medical certificate shall become a part of the personnel record of the employee and shall be open to the employee or his designee

(c) The board of governors shall adopt rules and regulations relating to the implementation and administration of this section

**87409.** Persons in positions requiring certification qualifications may be elected for the next ensuing school year on and after the 15th day of March, and each person so elected shall be deemed reelected from year to year except as provided in Section 72422, Section 87210, Sections 87401 to 87452, inclusive, Sections 87454 to 87462, inclusive, Sections 87464 to 87466, inclusive, and Sections 87468 to 87480, inclusive.

At any time after the 31st day of December, any person not then employed in the community college district may be elected for the next ensuing school year to a position requiring certification qualifications.

(Added by Stats 1976, Ch 1011 )

**87410.** Any certificated employee not a regular employee who fails to signify his acceptance within 45 consecutive calendar days after notice of his election or employment has been given him, or mailed to him by United States registered mail with postage thereon prepaid at his last known place of address, by the clerk or secretary of the governing board of the community college district, shall be deemed to have declined the employment.

**87411.** If, without good cause, a regular employee of a community college district fails prior to July 1st of any school year to notify the governing board of the district of his intention to remain or not to remain in the service of the district, as the case may be, during the

ensuing school year if a request to give such notice, including a copy of this section, shall have been personally served upon him, or mailed to him by United States certified mail with return receipt requested to his last known place of address, by the clerk or secretary of the governing board of the community college district, not later than the preceding May 30th, he may be deemed to have declined employment and his services as an employee of the district may be terminated on June 30th of that year.

87412. The county superintendent of schools shall be given immediate notice in writing by the governing board of the district of the employment of persons for positions requiring certification qualifications. The notice shall include but not be limited to such data as may be prescribed by the board of governors, in regulations they are herewith authorized to adopt.

87413. Except as otherwise provided in Sections 87401 to 87424, inclusive, every contract or regular employee employed before July 1, 1947, shall be deemed to have been employed on the date upon which he first accepted employment in a probationary position.

In case two or more employees accepted employment on the same date, the governing board of the district shall determine the order of employment by lots drawn by the employees concerned or assigned at random by an independent auditing firm employed in accordance with Section 87414 or by other means as determined pursuant to the procedures described in Article 1 (commencing with Section 7100) of Chapter 2 of Part 5 of Division 1 of Title 1.

87414. Every contract or regular employee employed after June 30, 1947, shall be deemed to have been employed on the date upon which he first rendered paid service in a probationary or contract position.

Every certificated employee who first rendered paid service on the same date shall participate in a single drawing to determine the order of employment except that in community college districts having an average daily attendance in excess of 15,000, an independent auditing firm may be employed to assign to such employees numbers at random which shall determine the order of employment. Any determination of an employee's order of employment pursuant to this section shall be made within 30 days of the date service was first rendered by the employee.

87415. The following general provisions shall apply regardless of date of employment:

The order once determined by lot shall be permanent, and shall be entered on the permanent records of the district.

Records showing date of employment, whether kept by the district or by the county, shall be accessible, on demand, to any certificated employee of the district or to his designated representative.

In the absence of records as to any of the matters referred to in the two preceding sections, the board, in accordance with evidence presented, shall determine the order of employment after giving employees a reasonable opportunity to present such evidence.

The governing board of every community college district shall establish the order of employment of all contract or regular employees of the district in the manner prescribed by Sections 87400 to 87424, inclusive, and shall keep a roster of same as a public record.

Whether or not such a roster is kept in other districts, the order of employment in all districts, when required, shall be determined as prescribed by Sections 87400 to 87424, inclusive.

The board shall have power and it shall be its duty to correct any errors discovered from time to time in its records showing the order of employment.

87416. When any school or part thereof shall have been transferred from one community college district to another, employment for any employees who transfer with said school or part thereof shall date from the time said employees first accepted employment (if before July 1, 1947) or rendered paid service (if after June 30, 1947) as contract employees in the district from which the school or part thereof and the said employees were transferred.

87417. When any certificated employee shall have resigned or been dismissed for cause and shall thereafter have been reemployed by the board, his date of employment shall be deemed to be the date on which he first accepted reemployment (if reemployed before July 1, 1947) or rendered paid service (if reemployed after June 30, 1947) after his reemployment.

When an employee's services are terminated for lack of enrollment or discontinuance of service or are otherwise interrupted in a manner declared by law not to constitute a break in service, his original order of employment shall stand.

87418. Nothing in Sections 72400, 72405, 72419, 72422, 72424, Article 1 (commencing with Section 7100) of Chapter 2 of Part 5, Article 2 (commencing with Section 10010) of Chapter 1, Chapter 4 (commencing with Section 10300) of Part 7, Part 13 (commencing with Section 22000), Article 5 (commencing with Section 32340) of Chapter 3 of Part 19, of Division 1 of Title 1 and this part, shall be construed in such manner as to deprive any person of his rights and remedies in a court of competent jurisdiction on a question of law and fact.

87419. Nothing in Sections 72400, 72405, 72419, 72422, 72424, Article 1 (commencing with Section 7100) of Chapter 2 of Part 5, Article 2 (commencing with Section 10010) of Chapter 1, Chapter 4 (commencing with Section 10300) of Part 7, Part 13 (commencing with Section 22000), Article 5 (commencing with Section 32340) of Chapter 3 of Part 19, of Division 1 of Title 1 and this part, shall be construed so as to repeal or negate any provisions concerning employees of community college districts contained in the charter of any city, county, or city and county, adopted and approved in conformity with Article XI of the Constitution of this state.

87420. All employments made under the provisions of Sections 72422, 87210, Sections 87401 to 87452, inclusive, Sections 87454 to 87462, inclusive, Sections 87464 to 87466, inclusive, Sections 87468 to

87480, inclusive, shall be subordinate to the right of the Legislature to amend or repeal Sections 72422, 87210, Sections 87401 to 87452, inclusive, Sections 87454 to 87462, inclusive, Sections 87464 to 87466, inclusive, Sections 87468 to 87480, inclusive, or any provision or provisions thereof at any time, and nothing herein contained shall be construed to confer upon any person employed pursuant to the provisions hereof a contract which will be impaired by the amendment or repeal of Sections 72422, 87210, Sections 87401 to 87452, inclusive, Sections 87454 to 87462, inclusive, Sections 87464 to 87466, inclusive, and Sections 87468 to 87480, inclusive, or of any provision or provisions thereof.

87421. Nothing in this code shall be construed as prohibiting the employment of persons in positions requiring certification qualifications for less than a full school year in temporary schools or classes.

87422. The governing board of a community college district, subject to the rules and regulations prescribed by the board of governors may enter into an agreement with the proper authorities of any foreign country, or of any state, territory, or possession of the United States, or other district within the state, for the exchange and employment of regularly credentialed employees and employees of public schools of any foreign country, state, territory, or possession, or other district within this state. Any certificated person so employed as provided in this section shall be known as an "exchange certificated employee." No exchange shall be made without the consent of the employee to be exchanged.

Due consideration shall be given to the general qualifications and professional status of the exchange employee as compared to the general qualifications and professional status of the employee for whom exchanged. However, it shall not be a requirement that an exchange certificated employee be an instructor of the same subject or grade, or both, as the employee for whom exchanged. If the service authorized is other than teaching, it shall not be a requirement that the service be at the same grade level or that the service be exactly the same as the employee for whom exchanged.

No person may be employed as an exchange employee by a community college district in the state unless he holds the necessary valid credential or credentials issued by the board of governors authorizing him to serve in a position requiring certification qualifications in the community college district proposing to employ him for a period not to exceed one year, except that, by unanimous consent of the governing board, and of the certificated employees concerned, this period may be extended to two years. The board of governors may establish minimum standards for the credentials for exchange certificated employees, provided however, that no exchange certificated employee shall be required to pay any fee or other charge for the issuance to him of any necessary valid credential or credentials authorizing him to serve in a position requiring certification qualifications in any community college district in this state.

87423. Acceptance of any exchange position by an employee of a community college district in the state shall not affect his right to the permanent classification to which he is entitled, at the time of the acceptance, or any of his rights under the state teachers retirement salary provisions of this code, or under any local or district retirement plan, or system, and the time served in the exchange position shall be counted as time served in the service of the district in which he is employed immediately prior to acceptance of the exchange position in determining his status under the provisions of Sections 72400, 72405, 72419, 72422, 72424, Article 1 (commencing with Section 7100) of Chapter 2 of Part 5, Article 2 (commencing with Section 10010) of Chapter 1, Chapter 4 (commencing with Section 10300) of Part 7, Part 13 (commencing with Section 22000), Article 5 (commencing with Section 32340) of Chapter 3 of Part 19, of Division 1 of Title 1, this part, and under the provisions of this code relating to state retirement salary, and under any local or district retirement plan.

87424. If the instructor from the district within the state who serves as an exchange instructor without the state and the governing board regularly employing him so agree, the district may pay his regular salary, making all deductions provided by law for retirement purposes, during the period of the exchange teaching. In such case the district shall not pay the salary of the exchange instructor from without the state, serving the district in exchange for its regular instructor.

In the event an instructor from a district within this state serving as an exchange instructor without the state and to whom the governing board of such district is paying the regular salary of such instructor as herein provided, is compelled to absent himself or herself from his or her duties because of injury, illness or quarantine, the governing board of the district within this state may pay the substitute employed to take the place of such instructor and shall deduct the amount so paid the substitute from the compensation of the instructor.

87425. The governing board of a community college district may, for the purposes of providing bilingual instruction, foreign language instruction, or cultural enrichment, in the colleges of the district, subject to the rules and regulations of the board of governors and conclude arrangements with the proper authorities of any foreign country, or of any state, territory, or possession of the United States, for the hiring of bilingual instructors employed in public or private schools of any foreign country, state, territory, or possession. To be eligible for employment the instructor must speak English fluently. Any persons so employed pursuant to this section shall be known as a "sojourn certificated employee."

No person may be hired as a sojourn certificated employee by a community college district unless he holds the necessary valid credential or credentials issued by the board of governors

authorizing him to serve in a position requiring certification qualifications in the community college district proposing to employ him. Such person may be employed only for a period not to exceed two years, except that thereafter such period of employment may be extended from year to year for a total period of not more than five years upon verification by the employing district that termination of such employment would adversely affect an existing bilingual or foreign language program or program of cultural enrichment and that attempts to secure the employment of a certificated California instructor qualified to fill such position have been unsuccessful. The board of governors shall establish minimum standards for the credentials for sojourn certificated employees.

87426. Each person employed by the governing board of a community college district for a position requiring certification qualifications must, not later than 60 days after the date fixed by the governing board of the district for the commencement of his service, register in the manner prescribed by Section 87210 a valid certification document, issued on or before said date, authorizing him to serve in the position for which he was employed, and must, not later than 60 days after the renewal thereof, register the renewed certification document in the manner prescribed by Section 87210. If any person so employed is the holder of a California State University and Colleges, or state teachers college, diploma accompanied by the certificate of the board of governors, or of an educational or life diploma of this state, and has presented the same to, and has had his name recorded by, the county superintendent of schools of the county as heretofore provided by this code, such person shall be deemed to have registered such diploma under Section 87210.

87427. The Legislature hereby declares that it is contrary to the interest of this state and of the people thereof for any governing board or any person or persons charged by the governing board of a community college district with the responsibility of interviewing and recommending persons for employment in positions requiring certification qualifications to fail or refuse to do so for reason of the age or marital status of any applicant for such employment, except as otherwise provided in this code.

87428. No community college district may adopt or maintain any rule or regulation which requires a candidate for a position requiring certification qualifications to be a resident of the district or to become a resident of the district, or which requires that an employee maintain residency within the district; nor may a district grant any preferential treatment to candidates or employees because they are residents of the district.

The Legislature in enacting this section recognizes that the public school system of this state is the property of all its citizens, and that all qualified candidates for positions of employment with community college districts, regardless of residence, should be granted the opportunity to compete for and obtain such positions based solely on

merit and fitness.

87429. No person shall be employed as president of a community college of six or more instructors, including the president, unless he is the holder of a valid teacher's credential and either a valid school administration credential of the same grade as the community college to be administered or a valid standard supervision credential authorizing service as a president of a school of the same grade as the community college to be administered.

87430. A substitute president holding a valid instructor's credential of the same grade as the community college to be administered may be employed without meeting the requirements of Section 87429 to meet an emergency for not more than five months of any school year.

87431. No person is eligible to teach in any public school in the state, or to receive a certificate to instruct who has not attained the age of 18 years.

87432. No instructor holding a special certificate shall be employed to teach any subject not authorized in the certificate.

87433. The qualifications of a home instructor shall be a valid instructing credential issued by the Board of Governors of the California Community Colleges and special fitness to perform the duties of a home instructor.

87434. The qualifications of a home instructor of physically handicapped students shall be a valid teaching credential or a credential authorizing the teaching of exceptional students in an area of specialized preparation issued by the Board of Governors of the California Community Colleges.

87435. No person shall be employed as a librarian in any community college district, unless he holds a valid credential of proper grade authorizing service as a librarian, or a valid teaching credential issued by the Board of Governors of the California Community Colleges if he has completed the specialized area of librarianship.

87436. Any librarian when employed full time as librarian or serving full time, partly as librarian and partly as an instructor, shall rank as an instructor.

87437. No one shall be employed to supervise the work of instructors for more than half time during any school week unless he is the holder of a valid instructor's certificate authorizing him to teach in the schools and classes in which he is to supervise instruction and a valid supervision certificate.

87438. The qualifications of supervisors of health shall be as provided in Sections 87440 to 87445, inclusive.

87439. For the purposes of Sections 87440 through 87445, inclusive, "standard designated services credential with a specialization in health" and "services credential with a specialization in health" includes a community college health services credential when the service is provided in grades 13 and 14.

87440. The qualifications for a physician employed to serve on a

half-time or greater than half-time basis shall be a valid certificate to practice medicine and surgery issued by the State Board of Medical Examiners or Board of Osteopathic Examiners and either a services credential with a specialization in health or a valid credential issued prior to November 23, 1970. The qualifications for a physician employed for less than half time shall be a valid certificate to practice medicine and surgery issued by the State Board of Medical Examiners. Any community college district may employ and compensate physicians meeting the foregoing qualifications for the performance of medical services for the district and shall provide liability insurance coverage for the period of his employment.

As used in this section "medical services" includes, but is not limited to, any medical services required to be performed while required to be in attendance at community college athletic contests or meets.

87441. The qualifications for a psychologist or social worker are a valid certificate issued by the appropriate California agency authorized by law to certify such persons and a services credential with a specialization in health. Any community college district may employ and compensate psychologists and social workers meeting the foregoing qualifications.

87442. The qualifications for a dentist are a valid certificate issued by the Board of Dental Examiners and a services credential with a specialization in health or a valid credential issued prior to November 23, 1970. Any community college district may employ and compensate dentists meeting the foregoing qualifications.

87443. The qualifications for a dental hygienist shall be a valid certificate issued by the Board of Dental Examiners of California and either a health and development credential, a standard designated services credential with a specialization in health, or a services credential with a specialization in health.

87444. The qualifications for a nurse shall be a valid certificate of registration issued by the Board of Nurse Examiners of the State of California or the California Board of Nursing Education and Nurse Registration and either a health and development credential, a standard designated services credential with a specialization in health, or a services credential with a specialization in health.

The services credential with a specialization in health authorizing service as a school nurse shall not authorize teaching services unless the individual holds a baccalaureate degree, or its equivalent, and has completed a fifth year of preparation.

87445. The qualifications for an optometrist are a valid certificate issued by the State Board of Optometry and a services credential with a specialization in health or a credential issued prior to November 23, 1970. Any community college district may employ and compensate optometrists meeting the foregoing qualifications.

87446. The qualifications for an audiometrist working under the direction of health services personnel pursuant to Section 76420 shall be a valid certificate or license issued by, or valid registration with,

the California state agency authorized by law to issue the certificate or license, or to effect the registration, required for performance of the service.

87447. The president of any community college may employ when so directed by the governing board of the community college district, special lecturers well qualified in their subjects to speak before classes and assemblies of students of the school, without the lecturer being required to hold a teacher's credential or certificate.

No such lecturer may be employed by the superintendent or president of any school for more than four lectures in any term.

87449. When an instructor of classes for adults serves sufficient probationary time as provided in Section 87468 to be eligible for election to permanent classification in that district, his tenure shall be for such service as is equivalent to the average number of hours per week which he has served during his probationary years. In no case shall such an employee be classified as permanent for more than one full-time assignment. The service for which such a person has acquired tenure may be reduced in conformity with Sections 87743 and 87744.

Notwithstanding any other provision to the contrary, in a district which has, or in a district which is one of two or more districts governed by governing boards of identical personnel which have a combined, average daily attendance of 400,000 or more, as shown by the annual report of the county superintendent of schools for the preceding fiscal year, no person who is assigned 10 hours or less a week in adult classes in such a district shall be eligible for election to permanent classification in such district on account of such assignment in adult classes.

87450. No employee of a community college district or districts, in which the average daily attendance of all said districts combined is in excess of 200,000, governed by the same governing board shall hereafter acquire permanent certificated tenure or permanent noncertificated status, or a combination of such tenure and status, for more than one full-time position. Any employee who hereafter acquires any combination of permanent certificated tenure or permanent noncertificated status or both which exceeds that for one full-time position shall have a choice which tenure or status to retain so long as that retained does not exceed one full-time position.

It is the intent of this section that an employee holding permanent certificated tenure or permanent noncertificated status for a full-time position may not have permanent tenure or status protection for any additional time in either a certificated or a noncertificated position under any such community college district governed by the same governing board.

87451. Nothing in Section 87468, shall be construed to give regular classification to a person in the adult school who is already classified as a regular employee in the day school. In case an instructor obtains permanent classification in the evening school and later is eligible for the same classification in the day school by reason

of having served the contract period therein, he shall be given his choice as to which he shall take.

Notwithstanding any other provision to the contrary, service in the evening school shall not be included in computing the service required as a prerequisite to attainment of, or eligibility to, classification as a regular employee in the day school, except service in the evening school rendered by a person rendering services in the day school who is directed or specifically requested by the community college district to render services in the evening school either in addition to, or instead of, rendering service in the day school. Service in the day school shall not be included in computing the service required as a prerequisite to attainment of, or eligibility to, classification as a regular employee in the evening school, except service in the day school rendered by a person rendering services in the evening school who is directed or specifically requested by the community college district to render service in the day school either in addition to, or instead of, rendering service in the evening school.

87452. Nothing in Sections 87449 to 87451, inclusive, shall be construed as affecting the classification of any employee as it existed on September 13, 1941.

87453. No regular employee of a community college district shall be dismissed without his consent or deprived of his classification as a regular employee of the district when the district does not have sufficient funds to pay his salary.

87454. A regular employee when advanced from an instructing position to an administrative or supervisory position, or assigned any special or other type of work, or given special classification or designation requiring certification qualifications, shall retain his classification as a classroom instructor.

87455. (a) A regular employee not qualified to render service as a classroom instructor, when advanced to an administrative or supervisory position, or assigned any special or other type of work, or given special classification or designation requiring certification qualifications, shall retain his permanent classification for the performance of the type of service for which he was qualified prior to such advancement, assignment, or special classification or designation.

(b) If an employee is authorized to render service in more than one type of position for which certification qualifications are required, either by virtue of his possession of one certification document authorizing service in two or more of such positions, or by virtue of his possession of separate certification documents authorizing service in two or more such positions, or any combination thereof, he shall, upon satisfying all other requirements prescribed by law, acquire permanent status as follows:

(1) If he is authorized to render service as a classroom instructor, he shall acquire regular status as a classroom instructor.

(2) If he is not authorized to render service as a classroom instructor, he shall acquire regular status below the administrative or

supervisory level as a staff employee with multiple qualifications. His right to serve in one or more of the positions for which he is qualified to serve shall be subject to the power of assignment of the community college district governing board.

87456. A regular employee, as specified in Section 87455, when advanced to an administrative or supervisory position requiring certification qualifications, or assigned any special or other type of work requiring certification qualifications, or given special classification or designation requiring certification qualifications, shall retain his regular classification as specified in Section 87455.

If such a person is advanced to an administrative or supervisory position not requiring certification qualifications, is assigned any special or other type of work not requiring certification qualifications, or is given special classification or designation not requiring certification qualifications, his right to retain regular classification shall be governed by the provisions of Article 3 (commencing with Section 87060) of Chapter 1 of this part.

87457. Whenever a person employed in an administrative or supervisory position requiring certification qualifications is transferred to a teaching position, the governing board of the community college district shall give such employee, when requested by him, a written statement of the reasons for such transfer.

87458. A person employed in an administrative or supervisory position requiring certification qualifications upon completing a contract period, including any time served as a classroom instructor, in the same district, shall, in a district having an average daily attendance of 250 or more students, be classified as and become a regular employee as a classroom instructor. In a district having an average daily attendance of less than 250 students, he may be so classified.

87459. Notwithstanding the provisions of Section 87458 to the contrary, the governing board of any community college district shall, with respect to each person who is employed in an administrative or supervisory position requiring certification qualifications under a contract of employment providing a four-year term of employment and who either has not been previously employed by the district in such position or has been employed in such position but not under such a four-year contract, determine prior to May 15 of the third year under such four-year contract of employment whether to grant or deny the person regular classification as a classroom instructor. If it grants such classification, the person shall be classified as and become a regular employee as a classroom instructor.

87460. A person employed in an administrative or supervisory position by more than one district shall be given regular classification in whichever district he may select for the regular classification. Other regular classification shall be given to such an employee in a district situated wholly or partly within a city or city and county

where the charter of the city or city and county provides for other classification.

87461. Any certificated employee having permanent classification in a district, who is granted a leave of absence and transfers to another district which is under the supervision of the same chief administrative officer or district superintendent as the district from which the employee is on leave, may acquire regular classification in the district to which he transferred if he is employed for a second year in that district, at which time his permanent classification in the district from which he transferred shall expire.

87462. A permanent employee of a high school district who was classified as such while serving in a community college maintained by the high school district shall, if the high school district is included in a community college district, be classified as a regular employee of the community college district if employed by the community college district in a position requiring certification qualifications.

87463. Any employee in a position requiring certification qualifications of a community college district who instructs in a four-year state institution of higher education maintained on the campus of the community college pursuant to contracts entered into between the Trustees of the California State University and Colleges and said district, shall, without regard to subject or grade taught, whether of community college level or higher, acquire and retain all rights to employment in said district the same as though said employee were teaching exclusively in a community college of the said district; provided, that nothing in this section shall be construed to prevent said employee from resigning from employment in said district pursuant to the provisions of Section 87730.

87464. The division, uniting, unification, or consolidation of any community college district or districts, or any change in district boundaries or organization, shall not affect the classification of certificated employees already employed by any district affected. Such employees shall have the same status with respect to their classification by the district, including time served as contract employees of the district after the division, uniting, unification, or consolidation, or change in district boundaries or organization as they had prior thereto. If such division, uniting, unification, or consolidation, or change in district boundaries or organization results in the school or other place in which any such employee is employed being maintained by another district, any such employee, if a regular employee of the district which formerly maintained such school or other place of employment, shall be employed as a regular employee of the district which thereafter maintains the school or other place of employment, unless such employee elects to continue in the employ of the first district. If such employee is a contract employee of the district which formerly maintained such school or other place of employment, he shall be employed by the district which thereafter maintains the school or other place of employment, unless

such contract employee is terminated by such district pursuant to Section 87740 or 87743, and, if not so terminated, his status with respect to classification by such district shall be the same as it would have been had the school or other place of employment continued to be maintained by the district which formerly maintained it. As used in this paragraph, "the school or other place in which any such employee is employed" and all references thereto, includes, but is not limited to, the school services or school program which, as a result of any division, uniting, unification, or consolidation of a district, will be provided by another district, irrespective of whether any particular building or buildings in which such schoolwork or school program was conducted is physically located in the new district and irrespective of whether any new district resulting from such division elects to provide for the education of its students by contracting with another school district until such time as the new district constructs its own facilities.

As used in the preceding paragraph of this section "any change in district boundaries or organization" includes, but is not limited to, the formation of a community college district.

In case the uniting, or consolidation of two or more community college districts results in a district in which, under the provisions of this code then in effect, the certificated employees are entitled to contract or regular classification, the employees of the union, unified, or consolidated district, or of the district formed by uniting two or more community college districts shall be given such classification on the same basis as certificated employees in other districts of like average daily attendance.

(Amended by Stats. 1976, Ch. 1011.)

[ORIGINAL SECTION]

87464. The division, uniting, unionization, unification, or consolidation of any community college district or districts, or any change in district boundaries or organization, shall not affect the classification of certificated employees already employed by any district affected. Such employees shall have the same status with respect to their classification by the district, including time served as contract employees of the district after the division, uniting, unionization, unification, or consolidation, or change in district boundaries or organization as they had prior thereto. If such division, uniting, unionization, unification, or consolidation, or change in district boundaries or organization results in the school or other place in which any such employee is employed being maintained by another district, any such employee, if a regular employee of the district which formerly maintained such school or other place of employment, shall be employed as a regular employee of the district which thereafter maintains the school or other place of employment, unless such employee

elects to continue in the employ of the first district. If such employee is a contract employee of the district which formerly maintained such school or other place of employment, he shall be employed by the district which thereafter maintains the school or other place of employment, unless such contract employee is terminated by such district pursuant to Section 87740 or 87743, and, if not so terminated, his status with respect to classification by such district shall be the same as it would have been had the school or other place of employment continued to be maintained by the district which formerly maintained it. As used in this paragraph, "the school or other place in which any such employee is employed" and all references thereto, includes, but is not limited to, the school services or school program which, as a result of any division, uniting, unionization, unification, or consolidation of a district, will be provided by another district, irrespective of whether any particular building or buildings in which such schoolwork or school program was conducted is physically located in the new district and irrespective of whether any new district resulting from such division elects to provide for the education of its students by contracting with another school district until such time as the new district constructs its own facilities.

As used in the preceding paragraph of this section "any change in district boundaries or organization" includes, but is not limited to, the formation of a community college district.

In case the uniting, or consolidation of two or more community college districts results in a district in which, under the provisions of this code then in effect, the certificated employees are entitled to contract or regular classification, the employees of the union, unified, or consolidated district, or of the district formed by uniting two or more community college districts shall be given such classification on the same basis as certificated employees in other districts of like average daily attendance.

87465. Section 87464 shall apply to any division, uniting, unification, or consolidation of community college districts, or change in community college district boundaries or organization, made at any time subsequent to January 1, 1931, to the same extent as changes made subsequent to April 10, 1937, and the provisions hereof shall be retroactive to January 1, 1931.

Nothing in this section or in Sections 87464 shall be construed to nullify or in any manner affect the classification of any employee of a district now or hereafter classified as a regular employee thereof by operation of this or any other provision of law.

(Amended by Stats. 1976, Ch. 1011.)

[ORIGINAL SECTION]

87465 Section 87464 shall apply to any division, uniting, unionization, unification, or consolidation of community college districts, or change in community college district boundaries or organization, made at any time subsequent to January 1, 1931, to the same extent as changes made subsequent to April 10, 1937, and the provisions hereof shall be retroactive to January 1, 1931.

Nothing in this section or in Sections 87464 shall be construed to nullify or in any manner affect the classification of any employee of a district now or hereafter classified as a regular employee thereof by operation of this or any other provision of law.

87466. Except in districts situated wholly or partly within the boundaries of a city or city and county where the charter of the city or city and county provides an age at which employees, including certificated employees of the districts, shall be retired, when a regular or contract employee reaches the age of 65 years, his regular or contract classification shall cease and thereafter employment shall be from year to year at the discretion of the governing board.

87467. The retirement of any employee of a community college district under the provisions of any retirement law shall automatically effect the dismissal of the employee from the employ of the district at the end of the current school year.

87468. A contract employee who, in any one school year, has served for at least 75 percent of the number of days the regular schools of the district in which he is employed are maintained shall be deemed to have served a complete school year. In case of evening schools, 75 percent of the number of days the evening schools of the district are in session shall be deemed a complete school year.

87469. Notwithstanding Section 87468, a contract employee employed by a community college district who, in any school year consisting of two semesters or three quarters, has served more than 75 percent of the number of hours considered as a full-time assignment for regular employees having similar duties in the community colleges of the district in which he is employed, shall be deemed to have served a complete school year.

87470. The governing board of any community college district may employ persons possessing an appropriate credential as instructors in classes conducted under contract with public or private agencies, or other categorically funded projects of indeterminate duration. The terms and conditions under which such persons are employed shall be mutually agreed upon by the employee and the governing board and such agreement shall be reduced to writing. Service pursuant to this section shall not be included in computing the service required as a prerequisite to attainment of, or eligibility to, classification as a regular employee of a community college district unless (1) such person has served pursuant to this section, for at least 75 percent of the number of days the regular schools of the district by which he is employed are maintained, and (2) such person is subsequently employed as a contract employee in a position requiring certification qualifications. Such persons may be employed for periods which are less than a full school year and may be terminated at the expiration of the contract or specially funded project without regard to other requirements of this code respecting the termination of contract or regular employees.

This section shall not be construed to apply to any regularly credentialed instructor who has been employed to instruct in the regular educational programs of the district as a contract employee before being subsequently assigned to any one of these programs.

87471. Service by a person as an instructor in classes conducted

at regional occupational centers or programs, as authorized pursuant to Section 52301, shall not be included in computing the service required as a prerequisite to attainment of, or eligibility to, classification as a regular employee of a community college district.

This section shall not be construed to apply to any regularly credentialed instructor who has been employed to instruct in the regular educational programs of the district and subsequently assigned as an instructor in regional occupational centers or programs, nor shall it affect the status of regional occupational center instructors classified as regular or contract at the time this section becomes effective.

87472. Service by a person under a provisional credential shall not be included in computing the service required as a prerequisite to attainment of, or eligibility to, classification as a regular employee of a community college district.

87473. Service under a credential authorizing service only as an instructor of basic military drill in community college cadet companies established under Chapter 1 (commencing with Section 500) of Part 2 of Division 2 of the Military and Veterans Code shall not be included in computing the service required as a prerequisite to attainment of, or eligibility to, classification as a regular employee of a community college district.

87474. Nothing in Sections 87449 to 87452, inclusive, Sections 87454 to 87462, inclusive, Sections 87464 to 87466, inclusive, and Sections 87468 to 87480, inclusive, shall be construed as permitting a certificated employee to acquire regular classification with respect to employment in a summer school maintained by a community college district, and service in connection with any such employment shall not be included in computing the service required as a prerequisite to attainment of, or eligibility to, classification as a regular employee of the district. The provisions of this section do not constitute a change in, but are declaratory of, the preexisting law.

87475. If an employee of a community college district has served as a contract employee of the district in a position requiring certification qualifications, for one complete school year, and in the year immediately preceding the service as contract employee has served as a substitute employee, or as a temporary and contract employee, serving in both capacities during the same school year in the schools of the district, at least 75 percent of the number of days the regular schools of the district were maintained, the governing board of the district may count the year of employment as a temporary or as a temporary and contract employee as one year of the probationary period which he is required by law to serve as a condition to being classified as a regular employee of the district.

87476. Governing boards of community college districts shall classify as contract employees, those persons employed in positions requiring certification qualifications for the school year, who have not been classified as regular employees or as temporary employees.

87477. The classification shall be made at the time of employment

and thereafter in the month of July of each school year. At the time of initial employment during each academic year, each new certificated employee of the community college district shall receive a written statement indicating his employment status and the salary that he is to be paid. If a community college district hires a certificated person as a temporary employee, the written statement shall clearly indicate the temporary nature of the employment and the length of time for which the person is being employed. If a written statement does not indicate the temporary nature of the employment, the certificated employee shall be deemed to be a contract employee of the community college district, unless employed with regular status.

87478. Except as provided in Sections 87481 and 87482, governing boards of community college districts shall classify as temporary employees those persons employed in positions requiring certification qualifications, to fill positions of regularly employed persons absent from service.

After September 1 of any school year, the governing board of a community college district may employ, for the remainder of the school year, in temporary status any otherwise qualified person who consents to be so employed in a position for which no regular employee is available, including persons retired for service under the State Teachers' Retirement System. Inability to acquire the services of a qualified regular employee shall be demonstrated to the satisfaction of the board of governors.

Any person employed for one complete school year as a temporary employee shall, if reemployed for the following school year in a position requiring certification qualifications, be classified by the governing board as a contract employee and the previous year's employment as a temporary employee shall be deemed one year's employment as a contract employee for purposes of acquiring regular status.

87479. (Repealed by Stats. 1976, Ch. 1011 )

[ORIGINAL SECTION]

87479. Any employee classified as a substitute or temporary employee, who serves during one school year for at least 75 percent of the number of days the regular schools of the district were maintained in such school year and has performed the duties normally required of a certificated employee of the school district, shall be deemed to have served a complete school year as a probationary employee if employed as a probationary employee for the following school year

Any such employee shall be reemployed for the following school year to fill any vacant positions in the school district for which the employee is certified and qualified to serve

For purposes of this section, "qualified to serve" shall be defined to mean the possession of an appropriate credential plus completion of appropriate academic preparation or experience in the subject matter in which the vacant position occurs.

For purposes of this section, "vacant position" means a position in which the employee is qualified to serve and which is not filled by a permanent or probationary employee. It shall not include a position which would be filled by a permanent or probationary employee except for the fact that such employee is on leave.

Any employee classified as a substitute or temporary employee who has rendered the service required to qualify under this section but who has not been reemployed due to a lack of a vacant position shall be reemployed as a substitute or temporary employee for the following school year.

In any district in which appointments are made from eligible lists established by examination, special eligible lists shall be established at the end of each school year which consist of the names of those employees who met the requirements of this section. Such lists shall be in rank order based on the final scores established by examination. Such lists shall be valid for at least two school years. Offers for appointments to probationary status during the ensuing school year shall be made from such special eligible lists established by examination, provided, however, permanent or probationary employees terminated during the preceding 39 months pursuant to Section 87743, shall be given priority in employment over persons on such special eligible lists.

Those employees classified as substitutes, and who are employed to serve in an on-call status to replace absent regular employees on a day-to-day basis shall not be entitled to the benefits of this section.

Permanent and probationary employees subjected to a reduction in force pursuant to Section 87743 shall, during the period of preferred right to reappointment, have prior rights to any vacant position in which they are qualified to serve superior to those rights hereunder afforded to temporary and substitute personnel who have become probationary employees pursuant to the provisions of this section.

**87480.** Governing boards of community college districts shall classify as temporary employees those persons requiring certification qualifications, other than substitute employees, who are employed to serve from day to day during the first three school months of any school term to instruct temporary classes not to exist after the first three school months of any school term or to perform any other duties which do not last longer than the first three school months of any school term, or to instruct in special day and evening classes for adults or in schools of migratory population for not more than four school months of any school term. If the classes or duties continue beyond the first three school months of any school term or four school months for special day and evening classes for adults, or schools for migratory population, the certificated employee, unless a regular employee, shall be classified as a contract employee. The school year may be divided into not more than two school terms for

the purposes of this section.

In any district, the governing board may, to prevent the stoppage of district business when an actual emergency arises and persons are not immediately available for contract classification, make an appointment to a position on a temporary basis for a period not to exceed 20 working days. The person so appointed shall be deemed to be a temporary employee who is employed to serve from day to day. Service by a person in such an appointment on a temporary basis shall not be included in computing the service required as a prerequisite to attainment of, or eligibility to, classification as a regular employee of a community college district.

87481. Notwithstanding the provisions of Sections 87478 and 87480, the governing board of a community college district may employ as an instructor, for a complete school year, but not less than one semester during a school year unless the date of rendering first paid service begins during the second semester and prior to March 15th, any person holding appropriate certification documents, and may classify such person as a temporary employee. The employment of such persons shall be based upon the need for additional certificated employees during a particular semester or year because a certificated employee has been granted leave for a semester or year, or is experiencing long-term illness, and shall be limited, in number of persons so employed, to that need, as determined by the governing board.

Any person employed for one complete school year as a temporary employee shall, if reemployed for the following school year in a vacant position requiring certification qualifications, be classified by the governing board as a contract employee and the previous year's employment as a temporary employee shall be deemed one year's employment as a contract employee for purposes of acquiring permanent status.

For purposes of this section "vacant position" means a position in which the employee is qualified to serve and which is not filled by a regular or contract employee. It shall not include a position which would be filled by a regular or contract employee except for the fact that such employee is on leave.

87482. Notwithstanding the provisions of Section 87480, the governing board of a community college district may employ as an instructor in grade 13 or grade 14, for a complete school year but not less than a complete semester or quarter during a school year, any person holding appropriate certification documents, and may classify such person as a temporary employee. The employment of such persons shall be based upon the need for additional certificated employees for grades 13 and 14 during a particular semester or quarter because of the higher enrollment of students in those grades during that semester or quarter as compared to the other semester or quarter in the academic year, or because a certificated employee has been granted leave for a semester, quarter, or year, or is experiencing long-term illness, and shall be limited, in number of

persons so employed, to that need, as determined by the governing board.

Such employment may be pursuant to contract fixing a salary for the entire semester or quarter.

No person shall be so employed by any one district for more than two semesters or quarters within any period of three consecutive years.

Notwithstanding any other provision to the contrary, any person who is employed to teach adult or community college classes for not more than 60 percent of the hours per week considered a full-time assignment for regular employees having comparable duties shall be classified as a temporary employee, and shall not become a contract employee under the provisions of Section 87604.

87483. Notwithstanding any other provision, the governing board of a community college district may establish regulations which allow their certificated employees to reduce their workload from full-time to part-time duties.

Such regulations shall include but shall not be limited to the following if such employees wish to reduce their workload and maintain retirement benefits pursuant to Section 22724 or Section 20815 of the Government Code:

(a) The employee must have reached the age of 55 prior to reduction in workload.

(b) The employee must have been employed full time in a position requiring certification for at least 10 years of which the immediately preceding five years were full-time employment.

(c) The option of part-time employment must be exercised at the request of the employee and can be revoked only with the mutual consent of the employer and the employee.

(d) The employee shall be paid a salary which is the pro rata share of the salary he would be earning had he not elected to exercise the option of part-time employment but shall retain all other rights and benefits for which he makes the payments that would be required if he remained in full-time employment.

The employee shall receive health benefits as provided in Section 53201 of the Government Code in the same manner as a full-time employee.

(e) The minimum part-time employment shall be the equivalent of one-half of the number of days of service required by the employee's contract of employment during his final year of service in a full-time position.

(g) This section shall not be applicable to persons who are administrators in community colleges.

87484. In the event a regular employee of a community college district has tenure as a full-time regular employee of the district, any assignment or employment of such employee in addition to his full-time regular assignment may be terminated by the governing board of the district at any time.

(Amended by Stats 1976, Ch 1011 )

## [ORIGINAL SECTION]

87484 In the event a regular employee of a school district has tenure as a full-time regular employee of the district, any assignment or employment of such employee in addition to his full-time regular assignment may be terminated by the governing board of the district at any time

87485. Except as provided in Section 87744, any contract or agreement, express or implied, made by any employee to waive the benefits of this chapter or any part thereof is null and void.

Notwithstanding provisions of this or any other section of this code, governing boards of community college districts may employ persons in positions requiring certification qualifications on less than a full-time basis.

87486. The governing board of any community college district may employ or engage as an independent contractor a qualified person to serve as limited-term or part-time reader assistant in connection with instruction in composition and writing, and in mathematics, to instructors. Any person employed as a reader shall not be deemed to be employed in a position requiring certification qualifications, and, unless otherwise determined by the governing board, shall not be subject to the provisions of Chapter 4 (commencing with Section 88000) of Part 51 of this division. The governing board may pay such hourly or unit compensation rates as it deems proper for the services rendered. It is the intent of the Legislature in enacting this section not to authorize an increase in the number of students who may be assigned to any class, but to provide an opportunity for improvement in the quality of student writing and mathematics abilities through more frequent assignments of compositions and more work in mathematics made possible by the employment of suitably trained persons to assist the instructor in the careful marking and analysis of the students' work. Furthermore, the means adopted for employing persons as reader assistants is not intended as an encroachment upon the merit system of public employment, but is adopted as the most practical arrangement, since most work of such nature will be done as part-time work and in the home.

(Amended by Stats 1976, Ch 1011 )

## [ORIGINAL SECTION]

87486. The governing board of any district may employ or engage as an independent contractor a qualified person to serve as limited-term or part-time reader assistant in connection with instruction in composition and writing, and in mathematics, to instructors. Any person employed as a reader shall not be deemed to be employed in a position requiring certification qualifications, and, unless otherwise determined by the governing board, shall not be subject to the provisions of Chapter 4 (commencing with Section 88000) of Part 51 of this division. The governing board may pay such hourly or unit compensation rates as it deems proper for the services rendered. It is the intent of the Legislature in enacting this section not to authorize

an increase in the number of students who may be assigned to any class, but to provide an opportunity for improvement in the quality of student writing and mathematics abilities through more frequent assignments of compositions and more work in mathematics made possible by the employment of suitably trained persons to assist the instructor in the careful marking and analysis of the students' work. Furthermore, the means adopted for employing persons as reader assistants is not intended as an encroachment upon the merit system of public employment, but is adopted as the most practical arrangement, since most work of such nature will be done as part-time work and in the home.

87487. The governing board of any community college district may employ any qualified person who possesses a temporary certificate to serve as a teacher assistant in a program conducted in cooperation with a California teacher training institution. No person shall be so employed unless he is enrolled as a student in a cooperating California teacher training institution at the time the service is rendered. Service by a person under a teacher assistant certificate shall not be included in computing the service required as a prerequisite to the attainment of, or eligibility to, classification as a permanent employee of a district. The governing board may make such payments as it deems proper for the services rendered.

Any person employed under this section shall not be subject to the provisions of Chapter 1 (commencing with Section 22000) of Part 13 of Division 1 of Title 1.

## Article 2. Employment of Certificated Community College Personnel

87600. The provisions of this article govern the employment of persons by a district to serve in positions for which certification qualifications are required and establish certain rights for such employees. Other provisions of the law which govern the employment of persons in positions requiring certification qualifications by a community college district or establish rights and responsibilities for such persons shall be applied to persons employed by community college districts in a manner consistent with the provisions of this article.

87601. For the purposes of this article:

(a) "Contract employee" means an employee of a district who is employed on the basis of a contract in accordance with the provisions of Section 87605 or subdivision (b) of Section 87608.

(b) "District" means a community college district.

(c) "Positions requiring certification qualifications" are those positions which provide the services for which certifications have been established in this code.

(d) "Regular employee" means an employee of a district who is employed in accordance with the provisions of subdivision (c) of

Section 87608 or Section 87609.

(e) "Academic year" means that period between the first day of a fall semester or quarter and the last day of the following spring semester or quarter.

87602. For the purposes of other provisions of law:

(a) A contract employee is a probationary employee.

(b) A regular employee is a permanent employee.

87603. The provisions of this article do not apply to the employment of persons as a superintendent, assistant superintendent, or deputy superintendent of a community college district or as a president of a community college employed by contract pursuant to Section 87621.

87604. The governing board of a community college district shall employ each certificated person as one of the following: contract employee, regular employee, or temporary employee.

87605. The governing board of a district shall employ persons to serve in positions requiring certification qualifications for the first academic year of his employment or portion thereof by contract. Any person who, at the time an employment contract is offered to him by the district, is neither a regular employee of the district nor a contract employee then serving under a second contract entered into pursuant to Section 87608 shall be deemed to be employed for "the first academic year of his employment or a portion thereof."

87606. An employment contract shall contain such terms and conditions as the governing board and the proposed employee shall agree upon and as are consistent with the provisions of the law.

87607. Before making a decision relating to the continued employment of a contract employee, the following requirements shall be satisfied:

(a) The employee has been evaluated in accordance with the evaluation standards and procedures established in accordance with the provisions of Article 4 (commencing with Section 87660) of this chapter, a fact determined solely by the governing board.

(b) The governing board has received statements of the most recent evaluations.

(c) The governing board has received recommendations of the superintendent of the district and, if the employee is employed at a community college, the recommendations of the president of that community college.

(d) The governing board has considered the statement of evaluation and the recommendations in a lawful meeting of the board.

87608. If a contract employee is working under his first contract, the governing board, at its discretion and not subject to judicial review except as expressly provided herein, shall elect one of the following alternatives:

(a) Not enter into a contract for a second academic year.

(b) Enter into a contract for a second academic year.

(c) Employ the contract employee as a regular employee for all

subsequent academic years.

87609. If a contract employee is employed under his second consecutive contract entered into pursuant to Section 87608, the governing board, at its discretion and not subject to judicial review except as expressly provided herein, shall elect one of the following alternatives:

(a) Employ the contract employee as a regular employee for all subsequent academic years.

(b) Not employ the contract employee as a regular employee.

87610. The governing board shall give written notice of its decision under Section 87608 and the reasons therefor to the employee on or before March 15 of the academic year covered by the existing contract. Failure to give the notice as required to a contract employee under his first contract shall be deemed an extension of the existing contract without change for the following academic year. The governing board shall give written notice of its decision under Section 87609 and the reasons therefor to the employee on or before March 15 of the academic year covered by the existing contract. Failure to give the notice as required to a contract employee under his second consecutive contract shall be deemed a decision to employ him as a regular employee for all subsequent academic years.

87611. If the contract employee objects to the decision of the governing board made pursuant to Section 87609, he may request a hearing. The hearing shall be requested and conducted, and the proposed decision shall be prepared, in accordance with the provisions of Section 87740.

87612. Until terminated in accordance with provisions of law, a part-time regular employee shall be assigned, and compensated, for a period of service less than 75 percent of the number of days the colleges of the district are maintained during each academic year. The governing board of the employing district may establish an assignment for any period of days less than 75 percent.

At its discretion, the governing board of the employing district may assign and compensate a part-time regular employee for a period of service of 75 percent or more of the number of days the colleges of the district are maintained during each academic year. Such an assignment shall not change the employee's classification to that of full-time regular employee unless an assignment of this type is made for two consecutive academic years.

### Article 3. Certificated Employees

87620. The provisions of this article apply to all persons employed by a community college district in positions requiring certification qualifications.

87621 (Repealed by Stats. 1976, Ch 1011 )

[ORIGINAL SECTION]

87621 A superintendent, assistant superintendent, or deputy superintendent of a community college district shall be employed, and the president of a community

college may be employed, by the governing board of the district by a contract not to exceed four years. The contract may be extended for periods of no more than four years at the discretion of the governing board. The dismissal and imposition of penalties on a superintendent or president employed by contract pursuant to this section shall be in accordance with the terms of the contract of employment

**87622.** The employment, rights, responsibilities, dismissal, imposition of penalties for persons employed by a community college district in positions requiring certification qualifications shall be governed by the provisions of Article 2 (commencing with Section 87600), and Article 4 (commencing with Section 87660) of this chapter, with the exception given in Section 87621. The employment of certificated employees by a community college district shall otherwise be governed as provided by law and in a manner consistent with the provisions of Articles 2 and 4 and with the provisions of this article (hereinafter referred to in this article, collectively, as "this act").

Whenever in Sections 87733 to 87739, inclusive, the term "Commission on Professional Competence" is used, it shall be deemed for the purposes of this chapter to mean either "arbitrator" or "hearing officer," whichever is the case.

The provisions of this act shall take precedence, for the purposes of certificated persons employed by a community college district, over any other act enacted by the Legislature at any session which, explicitly or implicitly, would result in certificated persons employed by a community college district being governed by provisions inconsistent with the provisions of this act.

**87623.** The enactment of this act shall not be interpreted in any way to cause certificated employees of the community college districts who are permanent employees as of the operative date of this act to lose their rights as permanent employees. After September 1, 1972, they shall be, and have all the rights of, regular employees under the provisions of this act.

**87624.** Certificated employees of community college districts who are probationary employees on September 1, 1972 shall be classified in accordance with the following:

(a) A probationary employee who has been employed for, and served on, at least 75 percent of the days during which the colleges of the district maintained classes during the academic year (as defined in Section 87601) immediately preceding the operative date of this act shall be classified as a regular employee for the 1972-1973 fiscal year and all fiscal years thereafter or a contract employee under his second contract for the 1972-1973 fiscal year. The classification shall be made at the sole discretion of the governing board no later than the 30th day after this act becomes operative. The governing board of the district shall give written notice to each employee of his classification. The notice shall be delivered no later than 10 days after the classification is made.

(b) A probationary employee who has not met the requirements set forth in subdivision (a) shall be classified as a contract employee

under his first contract for the 1972-1973 fiscal year. The governing board shall give each such employee written notice of his classification no later than the 10th day following September 1, 1972.

87625. Substitute and short-term employees shall be employed, beginning on September 1, 1972, as temporary employees.

87626. Rules and regulations adopted in relation to the evaluation process shall assure that the standards and procedures of the evaluation process in each district will be fair and in accordance with the intent of this act and that the evaluation processes of all of the districts are basically similar in substance and intent. These regulations shall permit and encourage a district governing board to establish evaluation procedures and standards which meet the particular needs of that district.

#### Article 4. Evaluations

87660. The provisions of this article govern the evaluation of, the dismissal of, and the imposition of penalties on, certificated personnel employed by a community college district. Other provisions of this code which govern the evaluation of, dismissal of, and the imposition of penalties on, certificated personnel employed by a community college district in a manner consistent with the provisions of this article.

87661. For the purposes of this article:

(a) "Contract employee" means an employee of a district who is employed on the basis of a contract in accordance with the provisions of Section 87605 or subdivision (b) of Section 87608.

(b) "District" means a community college district.

(c) "Positions requiring certification qualifications" are those positions which provide the services for which certifications have been established in this code.

(d) "Regular employee" means an employee of a district who is employed in accordance with the provisions of subdivision (c) of Section 87608 or Section 87609.

(e) "Academic year" means that period between the first day of a fall semester or quarter and the last day of the following spring semester or quarter.

87662. The provisions of this article do not apply to persons employed as a superintendent, assistant superintendent, or deputy superintendent of a community college district or as a president of a community college employed by contract pursuant to Section 87621.

87663. Contract employees shall be evaluated at least once in each academic year. Regular employees shall be evaluated at least once in every two academic years.

Whenever an evaluation is required of a certificated employee by a community college district, the evaluation shall be conducted in accordance with the standards and procedures established by the rules and regulations of the governing board of the employing district.

87664. The governing board of each district in consultation with the faculty shall adopt rules and regulations establishing the specific procedures for the evaluation of its contract and regular employees on an individual basis and setting forth reasonable but specific standards which it expects its certificated employees to meet in the performance of their duties. Such procedures and standards shall be uniform for all contract employees of the district with similar general duties and responsibilities and shall be uniform for all regular employees of the district with similar general duties and responsibilities.

87665. The governing board may terminate the employment of a temporary employee at its discretion at the end of a day or week, whichever is appropriate. The decision to terminate the employment is not subject to judicial review except as to the time of termination.

87666. During the school year, all contract and regular employees are subject to dismissal and the imposition of penalties on the grounds and pursuant to procedures set forth in this article.

87667. A contract or regular employee may be dismissed or penalized for one or more of the grounds set forth in Section 87732.

87668. A governing board may impose one of the following penalties:

(a) Suspension for up to one year.

(b) Suspension for up to one year and a reduction or loss of compensation during the period of suspension.

87669. The governing board shall determine whether a contract or regular employee is to be dismissed or penalized. If the employee is to be penalized, the governing board shall determine the nature of those penalties. If the employee is to be dismissed or penalized, the governing board shall determine whether the decision shall be imposed immediately or postponed in accordance with Section 87672.

87670. The procedure set forth in this article does not apply to an immediate suspension required by Section 87736.

87671. A contract or regular employee may be dismissed or penalized if one or more of the grounds set forth in Section 87732 are present and the following are satisfied:

(a) The employee has been evaluated in accordance with standards and procedures established in accordance with the provisions of this article.

(b) The district governing board has received all statements of evaluation which considered the events for which dismissal or penalties may be imposed.

(c) The district governing board has received recommendations of the superintendent of the district and, if the employee is working for a community college, the recommendations of the president of that community college.

(d) The district governing board has considered the statements of

evaluation and the recommendations in a lawful meeting of the board.

87672. If a governing board decides it intends to dismiss or penalize a contract or regular employee, it shall deliver a written statement, duly signed and verified, to the employee setting forth the complete and precise decision of the governing board and the reasons therefor.

The written statement shall be delivered by serving it personally on the employee or by mailing it by United States registered mail to the employee at his address last known to the district.

A governing board may postpone the operative date of a decision to dismiss or impose penalties for a period not to exceed one year, subject to the employee's satisfying his legal responsibilities as determined by statute and rules and regulations of the district. At the end of this period of probation, the decision shall be made operative or permanently set aside by the governing board.

87673. If the employee objects to the decision of the governing board or the reasons therefor on any ground, he shall notify in writing the governing board, the superintendent of the district which employs him, and the president of the college at which he serves of his objection within 30 days of the date of the service of the notice.

87674. Within 30 days of the receipt by the district governing board of the employee's demand for a hearing, the employee and the governing board shall agree upon an arbitrator to hear the matter. When there is agreement as to the arbitrator, the employee and the governing board shall enter into the records of the governing board written confirmation of the agreement signed by the employee and an authorized representative of the governing board. Upon entry of such confirmation, the arbitrator shall assume complete and sole jurisdiction over the matter.

87675. The arbitrator shall conduct proceedings in accordance with the provisions of Chapter 5 (commencing with Section 11500) of Part 1, Division 3, Title 2, of the Government Code except that the right of discovery of the parties shall not be limited to those matters set forth in Section 11507.6 of the Government Code but shall include the rights and duties of any party in a civil action brought in a superior court. In all cases, discovery shall be completed prior to one week before the date set for hearing. He shall determine whether there is cause to dismiss or penalize the employee. If he finds cause, he shall determine whether the employee shall be dismissed and determine the precise penalty to be imposed, and he shall determine whether his decision should be imposed immediately or postponed pursuant to Section 87672.

No witness shall be permitted to testify at the hearing except upon oath or affirmation. No testimony shall be given or evidence introduced relating to matters which occurred more than four years prior to the date of the filing of the notice. Evidence of records regularly kept by the governing board concerning the employee

may be introduced, but no decision relating to the dismissal or suspension of any employee shall be made based on charges or evidence of any nature relating to matters occurring more than four years prior to the filing of the notice.

87676. In the case in which the arbitrator determines that the operation of his decision should be postponed, any question of terminating the postponement shall be determined by the arbitrator.

87677. The district alone shall pay the fees of the arbitrator, his expenses, and such expenses as he shall determine are a cost of the proceedings. The "cost of the proceedings" does not include any expenses paid by the employee for his counsel, witnesses, or the preparation or presentation of evidence on his behalf.

87678. If within 30 days of the receipt of the notification by the district governing board, no written confirmation of agreement of the employee and the governing board as to an arbitrator has been submitted to the secretary of the governing board for entry into its records, the governing board shall certify the matter to the Office of Administrative Hearings and request the appointment of an administrative hearing officer.

87679. The administrative hearing officer shall conduct proceedings in accordance with the provisions of Chapter 5 (commencing with Section 11500) of Part 1, Division 3, Title 2, of the Government Code except that the right of discovery of the parties shall not be limited to those matters set forth in Section 11507.6 of the Government Code but shall include the rights and duties of any party in a civil action brought in a superior court. In all cases, discovery shall be completed prior to one week before the date set for hearing. The written notice delivered to the employee pursuant to Section 87672 shall be deemed an accusation. The written objection of the employee delivered pursuant to Section 87673 shall be deemed the notice of defense.

87680. The hearing officer shall determine whether there is cause to dismiss or penalize the employee. If he finds cause, he shall determine whether the employee shall be dismissed and determine the precise penalty to be imposed, and he shall determine whether his decision should be imposed immediately or postponed pursuant to Section 87672.

No witness shall be permitted to testify at the hearing except upon oath or affirmation. No testimony shall be given or evidence introduced relating to matters which occurred more than four years prior to the date of the filing of the notice. Evidence of records regularly kept by the governing board concerning the employee may be introduced, but no decision relating to the dismissal or suspension of any employee shall be made based on charges or evidence of any nature relating to matters occurring more than four years prior to the filing of the notice.

87681. In the case in which the hearing officer determines that the operation of his decision should be postponed, any question of

terminating the postponement shall be brought to the hearing officer.

87682. The decision of the arbitrator or hearing officer, as the case may be, may, on petition of either the governing board or the employee, be reviewed by a court of competent jurisdiction in the same manner as a decision made by a hearing officer under Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code. The court, on review, shall exercise its independent judgment on the evidence. The proceeding shall be set for hearing at the earliest possible date and shall take precedence over all other cases, except older matters of the same character and matters to which special precedence is given by law.

87683. The charges levied by the Office of Administrative Hearings shall be paid by the district.

87684. If a contract or regular employee is dismissed or penalized for immoral conduct or conviction of a felony or crime involving moral turpitude, the governing board shall transmit to the Chancellor of the California Community Colleges, and to the county superintendent of schools which issued the certificate under which the employee was serving at the time of his dismissal or the imposition of his penalty, a statement setting forth the acts of the employee and a request that any certificate issued by the county board of education to the employee be revoked if the employee is not reinstated upon appeal.

(Amended by Stats. 1976, Ch. 1011 )

[ORIGINAL SECTION]

87684. If a contract or regular employee is dismissed or penalized for immoral conduct or conviction of a felony or crime involving moral turpitude, the governing board shall transmit to the Chancellor, California Community Colleges, and to the county superintendent of schools which issued the certificate under which the employee was serving at the time of his dismissal or the imposition of his penalty, a statement setting forth the acts of the employee and a request that any certificate issued by the county board of education to the employee be revoked if the employee is not reinstated upon appeal.

## Article 5. Rights and Duties of Certificated Personnel

87700. Every person employed by a community college district as a contract or regular employee in a position requiring certification qualifications who enters the active military service of the United States of America or of the State of California, including active service in any uniformed auxiliary of, or to, any branch of such military service, created or authorized as such auxiliary by the Congress of the United States of America or by the Legislature of the State of California, or in the service of the United States Merchant Marine, or in full-time paid service of the American Red Cross,

during any period of national emergency declared by the President of the United States of America or during any war in which the United States of America is engaged, shall be entitled to absent himself from his duties as an employee of the district.

Such absence shall not affect in any way the classification of such employee. In the case of a contract employee, the period of such absence shall not count as part of the service required as a condition precedent to the classification of such employee as a regular employee of the district, but such absence shall not be construed as a break in the continuity of the service of such employee for any purpose.

The dismissal or termination of any contract employee because of reduced attendance due to war conditions, after his entry into the active military service or service in the American Red Cross, shall not deprive him of any of the benefits of this section.

Within six months after such employee honorably leaves such service or has been placed on inactive duty he shall, subject to the provisions of this section, be entitled to return to the position held by him at the time of his entrance into such service, at the salary to which he would have been entitled had he not absented himself from the service of the district under this section.

If such employee was employed under a lawful contract for a period in excess of one year in a position in which he had not become a regular employee of the district, he shall be entitled to return to such position for the period his contract of employment had to run at the time he entered such service. Notwithstanding any provision of this code to the contrary, a person employed to take the place of any such employee shall not have any right to such position following the return of such employee to the position.

87701. Every person employed by a community college district as a permanent employee in a position requiring certification qualifications who is elected to the Legislature shall be granted a leave of absence from his duties as an employee of the district by the governing board of the district.

During the term of such leave of absence, the employee may be employed by the district to perform such less than full-time service requiring certification qualifications, for such compensation and upon such terms and conditions, as may be mutually agreed upon.

Such absence shall not affect in any way the classification of such employee.

Within six months after the term of office of such employee expires he shall be entitled to return to the position held by him at the time of his election, at the salary to which he would have been entitled had he not absented himself from the service of the district under this section.

Notwithstanding any provision of this code to the contrary, a person employed to take the place of any such employee shall not have any right to such position following the return of such employee to the position.

This section shall apply to any permanent certificated district employee who held the office of Member of the Assembly or State Senator on or after January 4, 1965.

87702. The governing board of any community college district may provide for the payment of the actual and necessary traveling expenses of student teachers of vocational agriculture who hold certificates issued pursuant to Section 87212 when performing the duties of their positions.

All payments heretofore made to student instructors of vocational agriculture on account of actual and necessary traveling expenses incurred by them when performing the duties of their respective positions are hereby confirmed, ratified, and validated.

87703. Every instructor in the public schools shall before taking charge of a school, and one week before closing a term of school, notify the county superintendent of the fact, naming the day of opening or closing.

The governing board of a community college district shall in every case give to the instructor a notice of at least two weeks of its intention to close the term of school under its charge.

No superintendent shall draw any requisition for the last month's salary of any instructor until the instructor has filed with him the notice of the closing of the term.

87704. Every instructor in the public schools shall enforce the course of study, the use of legally authorized textbooks, and the rules and regulations prescribed for community colleges.

87705. Each instructor shall endeavor to impress upon the minds of the students the principles of morality, truth, justice, patriotism, and a true comprehension of the rights, duties, and dignity of American citizenship, including kindness toward domestic pets and the humane treatment of living creatures, to teach them to avoid idleness, profanity, and falsehood, and to instruct them in manners and morals and the principles of a free government.

87706. Notwithstanding any other provision of this code, no community college district, or any officer or employee of such district or board shall be responsible or in any way liable for the conduct or safety of any student of the public schools at any time when such student is not in school property, unless such district has undertaken to provide transportation for such student to and from the school premises, has undertaken a school-sponsored activity off the premises of such school, has otherwise specifically assumed such responsibility or liability or has failed to exercise reasonable care under the circumstances.

In the event of such a specific undertaking, the district shall be liable or responsible for the conduct or safety of any student only while such student is or should be under the immediate and direct supervision of an employee of such district or board.

87707. Every minor over 16 years of age or adult who is not a student of the community college, including but not limited to any such minor or adult who is the parent or guardian of a student of the

school, who comes upon any school ground or into any schoolhouse and there willfully interferes with the discipline, good order, lawful conduct, or administration of any school class or activity of the school, with the intent to disrupt, obstruct, or to inflict damage to property or bodily injury upon any person, is guilty of a misdemeanor, and is punishable by a fine of not less than fifty dollars (\$50) nor more than five hundred dollars (\$500), or by imprisonment in the county jail for not more than six months, or both.

87708. Every parent, guardian, or other person who upbraids, insults, or abuses any instructor of the public schools, in the presence or hearing of a community college student is guilty of a misdemeanor.

87709. Any parent, guardian, or other person who insults or abuses any instructor in the presence of other school personnel or students and at a place which is on school premises or public sidewalks, streets, or other public ways adjacent to school premises or at some other place if the instructor is required to be at such other place in connection with assigned school activities is guilty of a misdemeanor, and is punishable by a fine of not less than fifty dollars (\$50) nor exceeding five hundred dollars (\$500).

87710. The governing board of every community college district shall allow each instructor employed for full time in any regular day school in which two or more instructors are employed, one duty-free lunch period each day in the manner and at the time prescribed by regulation of the board of governors.

The board of governors shall adopt rules and regulations fixing the duration of the duty-free lunch period of certificated employees of community college districts, the time of day when the lunch period shall be granted, and prescribing the conditions under which the duty-free lunch period shall be allowed.

87711. Recognizing that an adequate lunch period free from duty is essential to the health, morale and efficiency of instructors employed full time in any regular day school, the Legislature declares that it is the policy of the state to encourage community college districts to provide for an adequate duty-free lunch period for instructors.

In order to provide for such duty-free lunch periods, the governing board of any community college district may utilize recreation personnel or other suitable persons to supervise the students of the district during the school lunch period.

The provisions of this section shall prevail over any provision of Section 87710 which conflicts herewith.

87712. The governing board of any community college district may also utilize persons not having certification qualifications to supervise the students of the district during any breakfast period or other nutrition period. The compensation of such personnel may be paid from funds from which the compensation of personnel employed under Section 87711 may be paid.

87713. Each community college president shall make an annual

report to the district superintendent of schools, or, if no superintendent is employed in the district, to the county superintendent of schools on forms furnished by the board of governors.

87714. Each general superintendent of community colleges shall make an annual report of the schools under his jurisdiction to the county superintendent of schools on forms furnished by the board of governors which report shall include an affidavit that all employees in positions requiring certification qualifications were properly certificated for the work performed.

87715. A full-time contract or regular classroom instructor currently employed by a community college district which decides to maintain classes on Saturday or Sunday, or both, shall not, without his written consent, be required to instruct under such program for more than 180 full days during a school year, or for more than the number of full days the schools of the district were maintained during the year preceding implementation of weekend classes, whichever is greater. This section shall not be construed as limiting the power of any governing board of a community college district to govern the schools of the district, including the assignment of instructors employed by the district. No such classroom instructor shall be assigned to perform services on a Saturday or Sunday if such instructor objects in writing that such assignment would conflict with his or her religious beliefs or practices.

#### Article 6. Instructor Dismissal Procedures

87730. Governing boards of community college districts shall accept the resignation of any employee and shall fix the time when the resignation takes effect, which shall not be later than the close of the school year during which the resignation has been received by the board.

87731. Whenever any certificated employee of any community college district who, at the time of his resignation, was classified as regular, is reemployed within 39 months after his last day of paid service, the governing board of the district shall, disregarding the break in service, classify him as, and restore to him all of the rights, benefits and burdens of, a regular employee, except as otherwise provided in this code; provided, that time spent in active military service, as defined in Section 87700, subsequent to the last day of paid service shall not count as part of the aforesaid 39-month period; and provided further, that any such employee who has engaged in active military service subsequent to his last paid service and who resigned more than 39 months prior to October 1, 1949, shall be deemed to have complied with all requirements of this section if he is or has been reemployed before July 1, 1950.

87732. No regular employee shall be dismissed except for one or more of the following causes:

- (a) Immoral or unprofessional conduct.

(b) Commission, aiding, or advocating the commission of acts of criminal syndicalism, as prohibited by Chapter 188, Statutes of 1919, or in any amendment thereof.

(c) Dishonesty.

(d) Incompetency.

(e) Evident unfitness for service.

(f) Physical or mental condition unfitting him to instruct or associate with children.

(g) Persistent violation of or refusal to obey the school laws of the state or reasonable regulations prescribed for the government of the public schools by the board of governors or by the governing board of the community district employing him.

(h) Conviction of a felony or of any crime involving moral turpitude.

(i) Conduct specified in Section 1028 of the Government Code, added by Chapter 1418 of the Statutes of 1947.

(j) Violation of any provision in Sections 7000 to 7007, inclusive.

(k) Knowing membership by the employee in the Communist Party.

87733. No report on the fitness of an instructor in a dismissal proceeding shall be received from a statewide professional organization by a governing board unless the instructor shall have been given, prior to the preparation of the report in its final form, the opportunity to submit in writing his or her comments on the report and unless a copy of the report in final form is given to the instructor investigated at least 10 days prior to its submission to the board.

Such a report shall not be distributed other than to the governing board and those persons participating in its preparation unless the instructor does not demand a hearing as provided by law.

87734. The governing board of any community college district shall not act upon any charges of unprofessional conduct or incompetency unless during the preceding term or half school year prior to the date of the filing of the charge, and at least 90 days prior to the date of the filing, the board or its authorized representative has given the employee against whom the charge is filed, written notice of the unprofessional conduct or incompetency, specifying the nature thereof with such specific instances of behavior and with such particularity as to furnish the employee an opportunity to correct his faults and overcome the grounds for such charge. The written notice shall include the evaluation made pursuant to Article 4 (commencing with Section 87660) of this chapter, if applicable to the employee. "Unprofessional conduct" and "incompetency" as used in this section means, and refers only to, the unprofessional conduct and incompetency particularly specified as a cause for dismissal in Section 87732 and does not include any other cause for dismissal specified in Section 87732.

87735. Upon the filing of written charges, duly signed and verified by the person filing them with the governing board of a

community college district, or upon a written statement of charges formulated by the governing board, charging a permanent employee of the district with immoral conduct, conviction of a felony or of any crime involving moral turpitude, with incompetency due to mental disability, with willful refusal to perform regular assignments without reasonable cause, as prescribed by reasonable rules and regulations of the employing district, with knowing membership by the employee in the Communist Party or with violation of any provision in Sections 7000 to 7007, inclusive, the governing board may, if it deems such action necessary, immediately suspend the employee from his duties and give notice to him of his suspension, and that 30 days after service of the notice, he will be dismissed, unless he demands a hearing.

If the regular employee is suspended upon charges of knowing membership by the employee in the Communist Party or for any violation of Section 7001, 7002, 7003, 7006, or 7007, he may within 10 days after service upon him of notice of such suspension file with the governing board a verified denial, in writing, of the charges. In such event the regular employee who demands a hearing within the 30-day period shall continue to be paid his regular salary during the period of suspension and until the entry of the decision of the hearing officer, if and during such time as he furnishes to the district a suitable bond, or other security acceptable to the governing board, as a guarantee that the employee will repay to the district the amount of salary so paid to him during the period of suspension in case the decision of the Commission on Professional Competence is that he shall be dismissed. If it is determined that the employee may not be dismissed, the district shall reimburse the employee for the cost of the bond.

87736. Whenever any certificated employee of a community college district is charged with the commission of any sex offense as defined in Section 87010 by complaint, information or indictment filed in a court of competent jurisdiction, the governing board of the district shall immediately place the employee upon compulsory leave of absence for a period of time extending for not more than 10 days after the date of the entry of the judgment in the proceedings. The governing board of the district may extend the compulsory leave of absence of the employee beyond such period by giving notice to the employee within 10 days after the entry of judgment in the proceedings that the employee will be dismissed at the expiration of 30 days from the date of service of the notice, unless the employee demands a hearing as provided in this article.

Any employee placed upon compulsory leave of absence pursuant to this section shall continue to be paid his regular salary during the period of his compulsory leave of absence if and during such time as he furnishes to the community college district a suitable bond, or other security acceptable to the governing board, as a guarantee that the employee will repay to the district the amount of salary so paid to him during the period of the compulsory leave of absence in case

the employee is convicted of such charges, or fails or refuses to return to service following an acquittal of the offense or dismissal of the charges. If the employee is acquitted of the offense, or the charges against him are dismissed, the district shall reimburse the employee for the cost of the bond upon his return to service in the district.

If the employee does not elect to furnish bond, or other security acceptable to the governing board of the district, and if the employee is acquitted of the offense, or the charges against him are dismissed, the district shall pay to the employee his full compensation for the period of the compulsory leave of absence upon his return to service in the district.

Whenever any certificated employee of a community college district is charged with the commission of any narcotics offense as defined in Section 87011 of the Education Code, or a violation of subdivision 1 of Section 261 of the Penal Code, Sections 11357 to 11361, inclusive, 11363, 11364, or 11377 to 11382, inclusive, insofar as such sections relate to any controlled substances in paragraph (4) or (5) of subdivision (b) of Section 11056, or any controlled substances in subdivision (d) of Section 11054, except paragraphs (10), (11), (12), and (17) of such subdivision, of the Health and Safety Code, by complaint, information, or indictment filed in a court of competent jurisdiction, the governing board of the district may immediately place the employee upon compulsory leave in accordance with the procedure in this section.

87737. The notice of suspension and intention to dismiss, shall be in writing and be served upon the employee personally or by United States registered mail addressed to the employee at his last known address. A copy of the charges filed, containing the information required by Section 11503 of the Government Code, together with a copy of the provisions of this article, shall be attached to the notice. If the employee does not demand a hearing within the 30-day period, he may be dismissed upon the expiration of 30 days after service of the notice.

87738. (a) Any certificated employee may be suspended or transferred to other duties by the governing board if the board has reasonable cause to believe that the employee is suffering from mental illness of such a degree as to render him incompetent to perform his duties.

(b) The governing board shall forthwith, upon any suspension or transfer hereunder, give to the employee a written statement of the facts giving rise to the board's belief, and an opportunity to appear before the board within 10 days to explain or refute the charges.

(c) If, after the employee's appearance before the board, the board decides to continue the suspension or transfer, or if the employee chooses not to appear before the board, the employee shall then be offered, in writing, the opportunity of being examined by a panel of three psychiatrists selected by him from a list of psychiatrists to be provided by the board. To assist the panel in making their determination, the governing board shall supply to the panel, prior

to the date scheduled for the psychiatric examination, a list of the duties of the position from which the employee was suspended or transferred. The employee shall continue to receive his regular salary and all other benefits of employment during the period dating from his suspension to the filing of the report of the panel with the governing board.

(d) The psychiatric examination shall be conducted at community college district expense within 15 days of any suspension or transfer ordered hereunder. The employee shall submit to the examination, but shall be entitled to be represented by a psychiatrist or physician of his own choice, and any report of the psychiatrist or physician selected by him shall be filed with the panel at the request of the employee.

A written report of the panel on the examination of the suspended or transferred employee shall be submitted to the governing board within 10 days after completion of the examination. A copy shall be supplied to the employee upon request. The report shall contain a finding on whether the employee is suffering from mental illness of such a degree as to render him incompetent to perform his duties.

(e) If a majority of the panel conclude that the employee should be permitted to return to his duties, no written record of the suspension or of the determination of the panel shall be retained, and in all respects any written record concerning the employee shall appear as it did before the suspension was made.

(f) If a majority of the panel find in their report that the employee is suffering from mental illness of such a degree as to render him incompetent to perform his duties, the governing board may, upon receipt of the report, place the employee on mandatory sick leave of absence. Any mandatory sick leave of absence imposed under this section shall not exceed two years, during which period the employee shall be entitled to sick leave, hospital and medical benefits which he accrued during his employment by the governing board but only to the extent of such accrual.

(g) Any employee placed on mandatory sick leave of absence pursuant to this section may in writing immediately demand a hearing. Thereupon the governing board shall file a complaint in the superior court of the county in which the school district or the major part thereof is located, setting forth the charges against the employee and asking that the court inquire into the charges and determine whether or not the charges are true, and if true, whether they constitute sufficient grounds for placing the employee on mandatory sick leave of absence, and for a judgment pursuant to its findings.

(h) If the court finds that the employee was not at the time of the suspension incompetent to perform his assigned duties and should not have been placed on mandatory sick leave of absence, the employee shall be immediately reinstated to the same or a substantially similar position with full back salary, and any written record of the suspension or transfer or any report of the panel shall be destroyed.

(i) If the court confirms the placing of the employee on mandatory sick leave, or if the employee does not seek a hearing, then upon written request of the employee made not earlier than six months nor later than two years after the date he was placed on mandatory sick leave of absence, a new panel of three psychiatrists shall be convened by, and at the expense of, the governing board to review its original conclusion. If the original conclusion is not changed by the new panel as a result of such review, the employee shall be continued on a mandatory sick leave of absence except that when the employee's total period of absence exceeds two years, the governing board shall either rescind its action and reinstate the employee to the same or a substantially similar position, or shall serve the employee with a notice of intention to dismiss him.

(j) If a majority of the new panel concludes in its report, or any subsequent review thereof, that the suspended employee or employee on mandatory sick leave of absence should be permitted to return to his duties, or if the court so concludes, the governing board shall take immediate action to restore the employee to the position from which he was suspended or transferred or to a substantially similar position.

(k) Every hearing and action by or before the governing board pursuant to this section shall be in executive session, and no decision, action, or occurrence therein shall be made public, unless the employee so requests in writing.

(l) Nothing in this section shall be construed to supersede Section 87740.

87739. The governing board of a community college district shall dismiss certificated employees under the provisions of subdivision (i) of Section 87738 in accordance with the provisions of Article 4 (commencing with Section 87660) of this chapter.

87739.5. If the employee has been suspended pending the hearing, he shall be reinstated within five days after the governing board's decision in his favor, and shall be paid full salary by the governing board for the period of his suspension.

87740. (a) No later than March 15 and before an employee is given notice by the governing board that his services will not be required for the ensuing year, the governing board and the employee shall be given written notice by the superintendent of the district or his designee, or in the case of a district which has no superintendent by the clerk or secretary of the governing board, that it has been recommended that such notice be given to the employee, and stating the reasons therefor.

If a contract employee has been in the employ of the district for less than 45 days on March 15, the giving of such notice may be deferred until the 45th day of employment and all time periods and deadline dates herein prescribed shall be coextensively extended.

Until the employee has requested a hearing as provided in subdivision (b) or has waived his right to a hearing, the notice and the reasons therefor shall be confidential and shall not be divulged

by any person, except as may be necessary in the performance of duties; however, the violation of this requirement of confidentiality, in and of itself, shall not in any manner be construed as affecting the validity of any hearing conducted pursuant to this section.

(b) The employee may request a hearing to determine if there is cause for not reemploying him for the ensuing year. A request for a hearing must be in writing and must be delivered to the person who sent the notice pursuant to subdivision (a), on or before a date specified therein, which shall not be less than seven days after the date on which the notice is served upon the employee. If an employee fails to request a hearing on or before the date specified, his failure to do so shall constitute his waiver of his right to a hearing. The notice provided for in subdivision (a) shall advise the employee of the provisions of this subdivision.

(c) In the event a hearing is requested by the employee, the proceeding shall be conducted and a decision made in accordance with Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code and the governing board shall have all the power granted to an agency therein, except that: (1) the respondent shall file his notice of defense, if any, within five days after service upon him of the accusation and he shall be notified of such five-day period for filing in the accusation; (2) the discovery authorized by Section 11507.6 of the Government Code shall be available only if request is made therefor within 15 days after service of the accusation, and the notice required by Section 11505 of the Government Code shall so indicate; and (3) the hearing shall be conducted by a hearing officer who shall prepare a proposed decision, containing findings of fact and a determination as to whether the charges sustained by the evidence are related to the welfare of the schools and the students thereof. The proposed decision shall be prepared for the governing board and shall contain a determination as to the sufficiency of the cause and a recommendation as to disposition. However, the governing board shall make the final determination as to the sufficiency of the cause and disposition. None of the findings, recommendations, or determinations contained in the proposed decision prepared by the hearing officer shall be binding on the governing board or on any court in future litigation. Copies of the proposed decision shall be submitted to the governing board and to the employee on or before May 7 of the year in which the proceeding is commenced. All expenses of the hearing, including the cost of the hearing officer, shall be paid by the governing board from the district funds. The board may adopt from time to time such rules and procedures not inconsistent with provisions of this section, as may be necessary to effectuate this section.

(d) The governing board's determination not to reemploy a contract employee for the ensuing school year shall be for cause only. The determination of the governing board as to the sufficiency of the cause pursuant to this section shall be conclusive, but the cause shall

relate solely to the welfare of the schools and the students thereof and provided that cause shall include termination of services for the reasons specified in Section 87743. The decision made after the hearing shall be effective on May 15 of the year the proceeding is commenced.

(e) Notice to the contract employee by the governing board that his service will not be required for the ensuing year, shall be given no later than May 15.

(f) If a governing board notifies a contract employee that his services will not be required for the ensuing year, the board shall, within 10 days after delivery to it of the employee's written request, provide him with a statement of its reasons for not reemploying him for the ensuing school year.

(g) Any notice or request shall be deemed sufficient when it is delivered in person to the employee to whom it is directed, or when it is deposited in the United States registered mail, postage prepaid and addressed to the last known address of the employee.

(h) In the event that the governing board does not give notice provided for in subdivision (e) of this section on or before May 15, the employee shall be deemed reemployed for the ensuing school year.

(i) If after request for hearing pursuant to subdivision (b) any continuance is granted pursuant to Government Code Section 11524, the dates prescribed in subdivisions (c), (d), (e) and (h) which occur on or after the date of granting the continuance shall be extended for a period of time equal to such continuance.

87741. Unless a certificated employee holding a position requiring an administrative or supervisory credential is sent written notice deposited in the United States registered mail with postage prepaid and addressed to his last known address by March 15 that he may be released from his position for the following school year or unless the signature of such an employee is obtained by March 15 on such written notice that he may be released from his position for the following year, he shall be continued in such position. The provisions of this section do not apply to a certificated employee who holds a written contract with an expiration date beyond the current school year, or to a certificated employee holding a position that is funded for less than a school year, or to a certificated employee assigned to an acting position whose continuing right to hold this position depends on his being selected from an eligible list established for the position, or to the termination of employment pursuant to Section 87743.

87742. Governing boards of community college districts may dismiss temporary employees at any time at the pleasure of the board.

87743. No regular employee shall be deprived of his position for causes other than those specified in Sections 87453, 87467 and 87484, and Sections 87732 to 87739, inclusive, and no contract employee shall be deprived of his position for cause other than as specified in Section

87740 except in accordance with the provisions of Section 87463 and Sections 87743 to 87762, inclusive.

Whenever in any school year the average daily attendance in all of the schools of a district for the first six months in which school is in session shall have declined below the corresponding period of either of the previous two school years, or whenever a particular kind of service is to be reduced or discontinued not later than the beginning of the following school year, and when in the opinion of the governing board of said district it shall have become necessary by reason of either of such conditions to decrease the number of regular employees in said district, the said governing board may terminate the services of not more than a corresponding percentage of the certificated employees of said district, regular as well as contract, at the close of the school year; provided, that the services of no regular employee may be terminated under the provisions of this section while any contract employee, or any other employee with less seniority, is retained to render a service which said regular employee is certificated and competent to render.

Notice of such termination of services either for a reduction in attendance or reduction or discontinuance of a particular kind of service to take effect not later than the beginning of the following school year, shall be given before the 15th of May in the manner prescribed in Section 87740 and services of such employees shall be terminated in the inverse of the order in which they were employed, as determined by the board in accordance with the provisions of Sections 87413 and 87414. In the event that a regular or contract employee is not given the notices and a right to a hearing as provided for in Section 87740, he shall be deemed reemployed for the ensuing school year.

The board shall make assignments and reassignments in such a manner that employees shall be retained to render any service which their seniority and qualifications entitle them to render.

87744. Any regular employee whose services have been terminated as provided in Section 87743 shall have the following rights:

1. For the period of 39 months from the date of such termination, any employee who in the meantime has not attained the age of 65 years shall have the preferred right to reappointment, in the order of original employment as determined by the board in accordance with the provisions of Sections 87401 to 87424, inclusive, if the number of employees is increased or the discontinued service is reestablished, with no requirements that were not imposed upon other employees who continued in service; provided, that no contract or other employee with less seniority shall be employed to render a service which said employee is certificated and competent to render.

2. The aforesaid right to reappointment may be waived by the employee, without prejudice, for not more than one school year, unless the board extends this right, but such waiver shall not deprive

the employee of his right to subsequent offers of reappointment.

3. As to any such employee who is reappointed, the period of his absence shall be treated as a leave of absence and shall not be considered as a break in the continuity of his service, he shall retain the classification and order of employment he had when his services were terminated, and credit for prior service under any state or district retirement system shall not be affected by such termination, but the period of his absence shall not count as a part of the service required for retirement.

4. During the period of his preferred right to reappointment, any such employee shall, in the order of original employment, be offered prior opportunity for temporary service during the absence of any other employee who has been granted a leave of absence or who is temporarily absent from duty; provided, that his services may be terminated upon the return to duty of said other employee, that the compensation he receives shall be not less than the amount he would receive if he were being reappointed, and that said temporary service shall not affect the retention of his previous classification and rights.

4a. During the period of the employee's preferred right to reappointment, the governing board of the district, if it is also the governing board of one or more other districts, may assign him to service, which he is certificated and competent to render, in said other district or districts; provided, that the compensation he receives therefor may in the discretion of the governing board be the same as he would have received had he been serving in the district from which his services were terminated, that his service in the said other district or districts shall be counted toward the period required for both state and local retirement, as defined by Section 22102, as though rendered in the district from which his services were terminated, and that no regular employee in said other district or districts shall be displaced by him.

It is the intent of this subsection that the employees of a community college district, the governing board of which is also the governing board of one or more other community college districts, shall not be at a disadvantage as compared with employees of a unified school district.

5. At any time prior to the completion of one year after his return to service, he may continue or make up, with interest, his own contributions to any state or district retirement system, for the period of his absence, but it shall not be obligatory on state or district to match such contributions.

6. Should he become disabled or reach retirement age at any time before his return to service, he shall receive, in any state or district retirement system of which he was a member, all benefits to which he would have been entitled had such event occurred at the time of his termination of service, plus any benefits he may have qualified for thereafter, as though still employed.

87745. Any contract employee whose services have been

terminated as provided in Section 87743 shall have the following rights:

(a) For the period of 24 months from the date of such termination, any employee who in the meantime has not attained the age of 65 years shall have the preferred right to reappointment, subject to the prior rights to reappointment by all regular employees as set forth in Section 87744, in the order of original employment as determined by the governing board in accordance with the provisions of Sections 87401 to 87424, inclusive, if the number of employees is increased or the discontinued service is reestablished, with no requirements that were not imposed upon other employees who continued in service; provided, that no contract or temporary employee with less seniority shall be employed to render a service which such employee is certificated and competent to render and provided that such an employee shall be given a priority over employees whose right to a position is derived pursuant to Section 87479.

(b) As to any such employee who is reappointed, the period of his absence shall be treated as a leave of absence and shall not be considered as a break in the continuity of his service, he shall retain the classification and order of employment he had when his services were terminated, and credit for prior service under any state or district retirement system shall not be affected by such termination; provided, however, that the period of his absence shall not be counted as a part of the service required for attaining regular status in the district or, except as provided in subdivision (c), for retirement purposes.

(c) During the period of his preferred right to reappointment, any such employee shall, in the order of original employment, and subject to the rights of regular employees as set forth in Section 87744, be offered prior opportunity for temporary service during the absence of any other employee who has been granted leave of absence or who is temporarily absent from duty; provided, that his services may be terminated upon a return to duty of such other employee, that such temporary service shall not affect the retention of his previous classification and rights, and that such an employee shall be given a priority over employees whose right to a temporary position is derived pursuant to Section 87479.

(d) At any time prior to the completion of one year after his return to service, an employee reappointed under the provisions of this section may elect to continue or to reinstate his membership and interest in any state or district retirement system and to receive retirement benefits as if no absence from service had occurred. In the event of such election the employee shall pay into the retirement system the amount of his share of contribution and the district's share of contribution attributable to the period of absence and the amount of any contributions withdrawn, plus interest.

87746. If the services of any contract employee are terminated, or if such employee is dismissed, because of a reduction in the attendance of students or the discontinuance of a particular kind of

service, and such employee is reemployed within a period of 39 months from the last day of the school year within which his service was so terminated, or within 39 months after the cessation of hostilities, if such reduction in attendance or discontinuance of service was due to war conditions, the period of his absence shall not count as a part of the service required as a condition precedent to the classification of such employee as a regular employee of the district, but such absence shall not be construed as a break in the continuity of the service of such employee.

Every such contract employee who has been reemployed as indicated in this section shall have all of the rights enumerated in Section 87463 and Sections 87743 to 87762, inclusive, for regular employees, except the right of reappointment, subject only to the prior rights of regular employees.

The provisions of this section shall apply to any contract employee who shall be or who shall have been dismissed or terminated after January 1, 1949, because of reduction in attendance or discontinuance of a particular kind of service.

#### Article 7. Instructors' Leaves of Absence

**87760.** As to any regular certificated employee whose services have been terminated because of the effect of wars in which the United States is engaged upon the attendance of students or upon the maintenance of a particular kind of service, the effective period covered by all rights enumerated in Section 87744 is extended until two years after the cessation of hostilities, and in addition thereto for a like period the said employees shall have the following rights:

1. He may voluntarily accept termination of service in other than the order of original employment and retain all of the other rights herein provided.

2. If he is engaged in any form of civilian or military war service, any credential or certificate he holds is continued in full force and effect until 90 days after the termination of his employment therein.

3. If, either before or after such termination, he engages in any form of war service for which provision is made in Section 87700, or elsewhere in the laws of this state, he shall retain all rights granted by such war service legislation as though still employed; provided, that the right to reappointment shall be in the order of original employment, as determined in accordance with the provisions of Sections 87413 and 87414.

The services of all regular certificated employees dismissed since December 7, 1941, because of the effect of the wars upon attendance of students or the maintenance of service shall be deemed to have been terminated in accordance with the provisions of Section 87743, as amended, and said employees shall have all of the rights in this section provided.

**87761.** The services of any regular certificated employee referred to in Section 87760 who has been appointed to temporary service in

place of another employee who is on leave of absence for civilian or military war service may be terminated upon the return of said other employee from such leave of absence, but only at the end of the current semester or quarter and not less than 30 days after written notice that his services will no longer be required.

87762. In specifying or defining the rights of employees in Section 87463 and Sections 87743 to 87762, inclusive, the effect of war refers to "war" as defined in Section 88.

87763. Governing boards of community college districts may grant leaves of absence to persons employed in positions requiring certification qualifications.

87764. When any provision of this code expressly authorizes or requires the governing board of a community college district to grant a leave of absence for any purpose or for any period of time to persons employed in positions requiring certification qualifications, that express authorization or requirement does not deprive the governing board of the power to grant leaves of absence with or without pay to such employees for other purposes or for other periods of time, so long as the governing board does not deprive any employee of any leave of absence to which he is entitled by law.

87765. The governing board of a community college district may provide for the leave of absence from duty and may grant compensation during the leave of absence to any employee of the district who is employed in a position requiring certification qualifications and who is compelled to absent himself from his duties because of accident or illness, whether or not the cause of absence arises out of and in the course of the employment of the employee, or because of quarantine which results from his contact with other persons having a contagious disease while performing his duties, or because of temporary inability to perform the services required of him because of illness, accident, or quarantine.

87766. The governing board of a community college district shall provide for leave of absence from duty for any certificated employee of the district who is required to be absent from duties because of pregnancy, miscarriage, childbirth, and recovery therefrom. The length of the leave of absence, including the date on which the leave shall commence and the date on which the employee shall resume duties, shall be determined by the employee and the employee's physician.

Disabilities caused or contributed to by pregnancy, miscarriage, childbirth, and recovery therefrom are, for all job-related purposes, temporary disabilities and shall be treated as such under any health or temporary disability insurance or sick leave plan available in connection with employment by any school district.

Except as provided herein, written and unwritten employment policies and practices of a community college district shall be applied to disability due to pregnancy or childbirth on the same terms and conditions applied to other temporary disabilities.

This section shall be construed as requiring the governing board

of a community college district to grant leave with pay only when it is necessary to do so in order that leaves of absence for disabilities caused or contributed to by pregnancy, miscarriage, or childbirth be treated the same as leaves for illness, injury, or disability.

87767. The governing board of a community college district may grant any employee of the district employed in a position requiring certification qualifications, a leave of absence not to exceed one year for the purpose of permitting study or travel by the employee which will benefit the schools and students of the district. The governing board may provide that such a leave of absence be taken in separate six-month periods or separate quarters rather than for a continuous one-year period, provided that the leave of absence for both of the separate six-month periods or any or all quarters shall be commenced and completed within a three-year period. Any period of service by the individual intervening between the two separate six-month periods or separate quarters of the leave of absence shall comprise a part of the service required for a subsequent such leave of absence.

If any leave of absence commenced upon within three years prior to September 15, 1961, was taken in one or more separate periods of less than one year, the period of service intervening between such separate periods shall comprise a part of the service required for a subsequent such leave of absence.

87768. Notwithstanding any other provision of this code, the governing board of any community college district may grant a leave of absence under Section 87767 to any employee engaged in a teaching position in grade 13 or 14 who has rendered service to the district for at least six consecutive years preceding the granting of the leave, but not more than one such leave of absence shall be granted in each six-year period. The governing board granting the leave of absence may, subject to the rules and regulations of the board of governors, prescribe the standards of service which shall entitle the employee to the leave of absence. No absence from the service of the district under a leave of absence, other than a leave of absence granted pursuant to Section 87767, granted by the governing board of the district shall be deemed a break in the continuity of service required by this section, and the period of such absence shall not be included as service in computing the six consecutive years of service required by this section. Service under a national recognized fellowship or foundation approved by the board of governors, for a period of not more than one year, for research, teaching or lecturing shall not be deemed a break in continuity of service, and the period of such absence shall be included in computing the six consecutive years of service required by this section.

87769. Every employee granted a leave of absence pursuant to Section 87767 may be required to perform such services during the leave as the governing board of the district and the employee may agree upon in writing, and the employee shall receive such compensation during the period of the leave as the governing board and the employee may agree upon in writing, which compensation

shall be not less than the difference between the salary of the employee on leave and the salary of a substitute employee in the position which the employee held prior to the granting of the leave. However, in lieu of such difference, the board may pay one-half of the salary of the employee on leave or any additional amount up to and including the full salary of the employee on leave.

87769.5. An employee granted a leave of absence pursuant to Section 87767 or 87768 may agree in writing with the governing board of the community college district not to receive compensation during the period of the leave.

87770. Every employee, as a condition to being granted a leave of absence pursuant to Section 87767, shall agree in writing to render a period of service in the employ of the governing board of the district following his return from the leave of absence which is equal to twice the period of the leave. Compensation granted by the governing board to the employee on leave for less than one year may be paid during the first year of service rendered in the employ of the governing board following the return of the employee from the leave of absence or, in the event that the leave is for a period of one year, such compensation may be paid in two equal annual installments during the first two years of such service following the return of the employee. The compensation shall be paid the employee while on the leave of absence in the same manner as if the employee were teaching in the district, upon the furnishing by the employee of a suitable bond indemnifying the governing board of the district against loss in the event that the employee fails to render the agreed upon period of service in the employ of the governing board following the return of the employee from the leave of absence. The bond shall be exonerated in event the failure of the employee to return and render the agreed upon period of service is caused by the death or physical or mental disability of the employee. If the governing board finds and by resolution declares that the interests of the district will be protected by the written agreement of the employee to return to the service of the district and render the agreed upon period of service therein following his return from the leave, the governing board in its discretion may waive the furnishing of the bond and pay the employee on leave in the same manner as though a bond is furnished.

87771. If the employee does not serve for the entire period of service agreed upon under Section 87770, the amount of compensation paid for the leave of absence shall be reduced by an amount which bears the same proportion to the total compensation as the amount of time which was not served bears to the total amount of time agreed upon. If the employee furnished an indemnity bond, upon default, the proceeds of the bond shall be divided between the employee and the community college district in the same proportion as the actual amount of time served bears to the amount of time agreed upon.

87772. If a unified school district which includes a community

college is reorganized so that a community college district is formed in addition to the unified school district, an employee who takes his leave from the unified school district before the reorganization may satisfy the two years' service required by Section 87770 by serving for two years in either the community college district or the unified school district, as they exist after the reorganization, or in both.

87773. Where one governing board serves as the governing board of two or more separate districts, an employee may fulfill the service requirements provided in Section 87770, by service in any one or more of the districts under the jurisdiction of such governing board. At the option of the governing board the provisions of this section may apply in whole or in part to service rendered prior to October 1, 1949.

87774. At the expiration of the leave of absence of the employee, he shall, unless he otherwise agrees, be reinstated in the position held by him at the time of the granting of the leave of absence.

87775. Both the governing board of a community college district and the district shall be freed from any liability for the payment of any compensation or damages provided by law for the death or injury of any employee of the district employed in a position requiring certification qualifications when the death or injury occurs while the employee is on any leave of absence granted under the provisions of Sections 87763 to 87779, inclusive.

87776. No leave of absence when granted to a contract employee shall be construed as a break in the continuity of service required for the classification of the employee as regular. The time during which the leave of absence is taken shall not be considered as employment within the meaning of Sections 87449 to 87452, inclusive. Sections 87454 to 87462, inclusive, Sections 87464 to 87466, inclusive, and Sections 87468 to 87480, inclusive.

87777. Whenever any permanent or probationary employee of a high school district is employed by a community college district pursuant to Section 87462 or 87464 such employee shall be entitled to retain all sickness and injury, sabbatical and other leave rights accumulated by service prior to such employment and the district shall recognize and grant such rights, including any accumulated rights allowed by the governing board of the high school district, as fully as if there was no change in the community college district.

87778. Whenever a permanent or probationary certificated employee of a high school district is granted a leave of absence from the high school district and is employed by a community college district which is governed by a governing board composed of identical personnel as the governing board of the high school district from which the employee is on leave, such employee may, at the discretion of the governing board of the community college district, be allowed to retain all sickness and injury, sabbatical and other leave rights accumulated by service with the high school district prior to employment with the community college district, including any accumulated rights allowed by the governing board of the high

school district prior to the transfer, as fully as if there were no change in employment from the high school district to the community college district. This section shall be applicable whether the transfer of employment occurred before or after May 12, 1970.

87779. When a community college or other place of employment shall have been transferred from one district to another, any certificated employees who transfer with said school or other place of employment shall be entitled to retain all sickness and injury, sabbatical and other leave rights accumulated by service prior to such transfer and the district to which such school or other place of employment has been transferred shall recognize or grant such rights, including any accumulated rights allowed by the governing board of the district from which the school or other place of employment was transferred, as fully as if there had been no change in the district maintaining such school or other place of employment.

87780. When a person employed in a position requiring certification qualifications is absent from his duties on account of illness or accident for a period of five school months or less, whether or not the absence arises out of or in the course of the employment of the employee, the amount deducted from the salary due him for any month in which the absence occurs shall not exceed the sum which is actually paid a temporary employee employed to fill his position during his absence or, if no temporary employee was employed, the amount which would have been paid to the temporary employee had he been employed. The community college district shall make every reasonable effort to secure the services of a temporary employee.

The governing board of every community college district shall adopt a salary schedule for temporary employees. The salary schedule shall indicate a salary for a temporary employee for all categories or classes of certificated employees of the district.

Excepting in a district the governing board of which has adopted a salary schedule for temporary employees of the district, the amount paid the temporary employee during any month shall be less than the salary due the employee absent from his duties.

When a person employed in a position requiring certification qualifications is absent from his duties on account of illness for a period of more than five school months, or when a person is absent from his duties for a cause other than illness, the amount deducted from the salary due him for the month in which the absence occurs shall be determined according to the rules and regulations established by the governing board of the district. Such rules and regulations shall not conflict with rules and regulations of the board of governors.

Nothing in this section shall be construed so as to deprive any district, city, or city and county of the right to make any reasonable rule for the regulation of accident or sick leave or cumulative accident or sick leave without loss of salary for persons requiring certification qualifications.

This section shall be applicable whether or not the absence from duty is by reason of a leave of absence granted by the governing board of the employing district.

87781. Every certificated employee employed five days a week by a community college district shall be entitled to 10 days' leave of absence for illness or injury and such additional days in addition thereto as the governing board may allow for illness or injury, exclusive of all days he is not required to render service to the district, with full pay for a school year of service. A certificated employee employed for less than five schooldays a week shall be entitled, for a school year of service, to that proportion of 10 days' leave of absence for illness or injury as the number of days he is employed per week bears to five and is entitled to such additional days in addition thereto as the governing board may allow for illness or injury to certificated employees employed for less than five schooldays a week; pay for any day of such absence shall be the same as the pay which would have been received had the employee served during the day. Credit for leave of absence need not be accrued prior to taking such leave by the employee and such leave of absence may be taken at any time during the school year. If such employee does not take the full amount of leave allowed in any school year under this section the amount not taken shall be accumulated from year to year with such additional days as the governing board may allow.

The governing board of each community college district shall adopt rules and regulations requiring and prescribing the manner of proof of illness or injury for the purposes of this section. Such rules and regulations shall not discriminate against evidence of treatment and the need therefor by the practice of the religion of any well-recognized church or denomination.

Nothing in this section shall be deemed to modify or repeal any provision of law contained in Chapter 3 (commencing with Section 3110) of Division 4 of the Health and Safety Code.

The provisions of Section 87780 relating to compensation shall not apply to the first 10 days of absence on account of illness or accident of any such employee employed five days a week or to the proportion of 10 days of absence to which such employee employed less than five days a week is entitled hereunder on account of illness or accident or to such additional days granted by the governing board. Any employee shall have the right to utilize sick leave provided for in this section and the benefit provided by Section 87780 for absences necessitated by pregnancy, miscarriage, childbirth, and recovery therefrom.

87782. Any certificated employee of a community college district who has been an employee of that district for a period of one school year or more and who accepts a position requiring certification qualifications in another school district or community college district at any time during the second or any succeeding school year of his employment with the first district, or who, within the school year succeeding the school year in which such employment is terminated,

signifies acceptance of his election or employment in a position requiring certification qualifications in another district, shall have transferred with him to the second district the total amount of leave of absence for illness or injury to which he is entitled under Section 87781. The board of governors shall adopt rules and regulations prescribing the manner in which the first district shall certify to the second district the total amount of leave of absence for illness or injury to be transferred. No governing board shall adopt any policy or rule, written or unwritten, which requires any certificated employee transferring to its district to waive any part or all of the leave of absence which he may be entitled to have transferred in accordance with this section.

87783. Any certificated employee of a community college district who accepts a position requiring certification qualifications in the office of any county superintendent of schools; or, any certificated employee of any county superintendent of schools who accepts a position requiring certification qualifications in a school district or office of another county superintendent of schools; or, any person employed by the board of governors in a position requiring certification qualifications or an employee of the office of the Chancellor of the California Community Colleges who accepts a position requiring certification qualifications in a community college district or office of any county superintendent of schools; or, any certificated employee of the Commission for Teacher Preparation and Licensing who accepts a position requiring certification qualifications in any community college district; shall have transferred with him to the second position his accumulated leave of absence for illness or injury. The amount of such leave to be transferred shall be determined in the same manner as provided in Section 87782. All other provisions of Section 87782 shall also apply to the employees and employers described in this section.

87784. Any days of leave of absence for illness or injury allowed pursuant to Section 87781 may be used by the employee, at his election, in cases of personal necessity. The governing board of each community college district shall adopt rules and regulations requiring and prescribing the manner of proof of personal necessity for purposes of this section.

The employee shall not be required to secure advance permission for leave taken for any of the following reasons:

- (a) Death or serious illness of a member of his immediate family.
- (b) Accident, involving his person or property, or the person or property of a member of his immediate family.

No such accumulated leave in excess of six (6) days may be used in any school year for the purposes enumerated in this section.

87785. Any person employed by a community college district, in a position requiring certification qualifications who accepts a professional education position in the chancellor's office of the California community colleges, the appointment to which is, or is intended to become, permanent, shall have transferred with him to

the chancellor's office of the California community colleges his accumulated leave of absence for illness or injury. The amount of such leave to be transferred shall be determined in the same manner as provided in Section 87782, except in no case may the transferred accumulated sick leave exceed that amount of accumulated sick leave that the person would have earned as an employee in the system to which he is transferring. All other provisions of Section 87782 shall also apply to the employees and employers described in this section.

87786. Section 87780 shall not apply to any community college district which adopts and maintains in effect a rule which provides that when a person employed in a position requiring certification qualifications is absent from his duties on account of illness or accident for a period of five school months or less whether or not the absence arises out of or in the course of the employment of the employee, he shall receive 50 percent or more of his regular salary during the period of such absence and nothing in Section 87780 shall be construed as preventing the governing board of any district from adopting any such rule.

Notwithstanding the foregoing, when a person employed in a position requiring certification qualifications is absent from his duties on account of illness for a period of more than five school months, or when a person is absent from his duties for a cause other than illness, the amount deducted from the salary due him for the month in which the absence occurs shall be determined according to the rules and regulations established by the governing board of the district. Such rules and regulations shall not conflict with rules and regulations of the board of governors.

Nothing in this section shall be construed so as to deprive any district, city, or city and county of the right to make any reasonable rule for the regulation of accident or sick leave or cumulative accident or sick leave without loss of salary for persons requiring certification qualifications.

This section shall be applicable whether or not the absence from duty is by reason of a leave of absence granted by the governing board of the employing district.

87787. Governing boards of community college districts shall provide by rules and regulations for industrial accident and illness leaves of absence for all certificated employees. The governing board of any district which is created or whose boundaries or status is changed by an action to organize or reorganize districts completed after January 1, 1976, shall provide by rules and regulations for such leaves of absence on or before the date on which the organization or reorganization of the district becomes effective for all purposes as provided in Section 4064.

Such rules or regulations shall include the following provisions:

a. Allowable leave shall be for not less than 60 days during which the schools of the district are required to be in session or when the employee would otherwise have been performing work for the

district in any one fiscal year for the same accident;

b. Allowable leave shall not be accumulated from year to year;

c. Industrial accident or illness leave shall commence on the first day of absence;

d. When a certificated employee is absent from his duties on account of an industrial accident or illness, he shall be paid such portion of the salary due him for any month in which the absence occurs as, when added to his temporary disability indemnity under Division 4 or Division 4.5 (commencing with Section 6100) of the Labor Code, will result in a payment to him of not more than his full salary;

The phrase "full salary" as utilized in this subdivision shall be computed so that it shall not be less than the employee's "average weekly earnings" as that phrase is utilized in Section 4453 of the Labor Code. For purposes of this section, however, the maximum and minimum average weekly earnings set forth in Section 4453 of the Labor Code shall otherwise not be deemed applicable.

e. Industrial accident or illness leave shall be reduced by one day for each day of authorized absence regardless of a temporary disability indemnity award;

f. When an industrial accident or illness leave overlaps into the next fiscal year, the employee shall be entitled to only the amount of unused leave due him for the same illness or injury.

Upon termination of the industrial accident or illness leave, the employee shall be entitled to the benefits provided in Sections 87780, 87781 and 87786, and for the purposes of each of these sections, his absence shall be deemed to have commenced on the date of termination of the industrial accident or illness leave, provided that if the employee continues to receive temporary disability indemnity, he may elect to take as much of his accumulated sick leave which, when added to his temporary disability indemnity, will result in a payment to him of not more than his full salary.

The governing board may, by rule or regulation, provide for such additional leave of absence for industrial accident or illness as it deems appropriate.

During any paid leave of absence, the employee may endorse to the district the temporary disability indemnity checks received on account of his industrial accident or illness. The district, in turn, shall issue the employee appropriate salary warrants for payment of the employee's salary and shall deduct normal retirement, other authorized contributions, and the temporary disability indemnity, if any, actually paid to and retained by the employee for periods covered by such salary warrants.

Any employee receiving benefits as a result of this section shall, during periods of injury or illness, remain within the State of California unless the governing board authorizes travel outside the state.

In the absence of rules and regulations adopted by the governing board pursuant to this section an employee shall be entitled to

industrial accident or illness leave as provided in this section but without limitation as to the number of days of such leave.

87788. Every person employed by a community college district in a position requiring certification qualifications is entitled to a leave of absence, not to exceed three days, or five days if out-of-state travel is required, on account of the death of any member of his immediate family. No deduction shall be made from the salary of such employee nor shall such leave be deducted from leave granted by other sections of this code or provided by the governing board of the district. The governing board may enlarge the benefits of this section and may expand the class of relatives listed below as members of the immediate family. Members of the immediate family, as used in this section, means the mother, father, grandmother, grandfather, or a grandchild of the employee or of the spouse of the employee, and the spouse, son, son-in-law, daughter, daughter-in-law, brother, or sister of the employee, or any relative living in the immediate household of the employee.

#### Article 8. Salaries

87800. Females employed as instructors in the public schools of the state shall, in all cases, receive the same compensation as is allowed male teachers for like services, when holding the same grade certificates.

87801. The governing board of a community college district shall fix and order paid the compensation of persons in public school service requiring certification qualifications employed by the board unless otherwise prescribed by law.

87802. The governing board of each community college district shall adopt and cause to be printed and made available to each certificated employee a schedule of salaries to be paid.

87803. Every person employed by the district in a position requiring certification qualifications in a day school of the district for not less than the minimum schoolday for each day the schools of the district are maintained during the school year is a full-time employee and his compensation shall be fixed accordingly.

87804. The governing board of a community college district may employ such temporary employees of the district as it deems necessary and shall adopt and make public a salary schedule setting the daily or pay period rate or rates for temporary employees.

This section shall not be construed as modifying or repealing any law fixing a minimum annual salary for employees of district.

87805. The salaries of home instructors shall be paid from the city or district special school funds.

87806. The governing board of a community college district may at any time during any school year increase the salaries of persons employed by the district in positions requiring certification qualifications, such increase to be effective on any date ordered by the governing board.

87807. The governing board of a community college district shall not decrease the annual salary of a person employed by the district in a position requiring certification qualifications for failure to meet any requirement of the district that such person complete additional educational units, course of study, or work in any college or university or any equivalent thereof.

87808. No order for a warrant, and no warrant drawn pursuant to Section 85261, shall be drawn in favor of any person employed in a position requiring certification qualifications, unless such person is at the time the holder of a proper certification document in full force for the full time for which the requisition or warrant, as the case may be, is drawn, and on file or registered as required by law at the time and unless he is employed by the governing board of the community college district as provided in this code.

87809. If a community college district fails to pay the salary of any person employed by it in a position requiring certification qualifications who has on file a contract of employment held valid by the legal adviser of the county superintendent of schools having jurisdiction over the district, such county superintendent of schools may transfer sufficient money from the funds of the district to the county school service fund and pay such salary from such fund.

87810. Whenever, on or after September 15, 1961, a person has rendered service in a position requiring certification qualifications, or the governing board of a district has employed a person in a position requiring certification qualifications, or the county superintendent has drawn an order for a warrant in favor of a person in a position requiring certification qualifications, for a period of service during which the person did not have a valid credential required for such position in force as required by law, and when as a result thereof the employment of the person to render such service, the rendering of such service, the inclusion of the attendance of students taught by the person in the average daily attendance of the district, or the drawing of the order warrant for the service of such person, is in violation of Sections 84500, 87400, 87808 or any other provision of this code, such employment, rendering of service, inclusion of attendance, or drawing of the order for the warrant shall be deemed fully legal for all purposes if the board of governors approves thereof in accordance with this section.

The board of governors shall adopt rules and regulations to establish procedures for a review in such cases and shall determine whether the rendering of such service shall be approved and made fully legal for all purposes. If the board gives its approval to the rendering of such service, then such employment, inclusion of attendance, and drawing of the order for the warrant shall be automatically approved and made fully legal for all purposes.

The board shall not approve of the rendering of such service unless it determines that the person rendering the service had, in fact, the necessary qualifications, during the period of service in question, for the credential required by law for the position in which the service

was rendered, and unless a valid credential required for such position has been issued to such person prior to review and action by the board.

In amending this section at the 1964 First Extraordinary Session of the Legislature, it is the intent of the Legislature to allow the board of governors to review cases involving service rendered prior to the effective date of such amendment in accordance with the provisions of this section as amended at such session.

87811. Notwithstanding any other provision of law, if prior to September 18, 1959, any certificated employee of any community college district is discharged from a position requiring certification qualifications contrary to the provisions of this code and is thereafter restored to his position pursuant to judicial proceedings in a court of competent jurisdiction, the governing board of the district may pay such employee an amount equal to the amount which would have been paid to such employee from the date of such discharge to the date of his restoration to his position, irrespective of whether such employee was the holder of a valid certification document during the period of such unlawful removal from his position.

87812. The governing board of a community college district may arrange to pay the persons in positions requiring certification qualifications employed by it, or any one or more of such employees or one or more groups or categories of such employees, in either 10 or 11 or 12 equal payments instead of by the school month.

In lieu thereof, orders for the payment of salary, and payroll orders for the payment of salary and warrants for the payment of salary of employees employed in positions requiring certification qualifications may be drawn once each two weeks, twice a month, or once each four weeks as determined by the governing board.

87813. Where the governing board of a community college district arranges to pay persons employed by it in 12 equal payments for the year, it may pay each monthly installment at the end of each calendar month, whether or not the persons are actually engaged in teaching during the month.

87814. The governing board of a community college district not paying the annual salaries of persons employed by the district in 12 equal monthly payments may withhold from each payment made to each employee an amount equal to 16 $\frac{2}{3}$  percent thereof.

The total of the amounts deducted from the salary of any employee during any school year shall be paid to him in two equal installments, one installment to be paid not later than the fifth day of August next succeeding, and one installment to be paid not later than the fifth day of September next succeeding.

In the event any employee leaves the service of the district by death or otherwise before receiving such moneys as may be due him, the amount due him shall be paid within 30 days to him or to any other person entitled thereto by law.

87815. A person in a position requiring certification qualifications who serves less than a full school year shall receive as salary only an

amount that bears the same ratio to the established annual salary for the position as the number of working days he serves bears to the total number of working days plus institutes in the annual school term, and any other day when the employee is required by the governing board to be present at the schools of the district. Notwithstanding any provisions of this section to the contrary, a person in a position requiring certification qualifications who serves a complete semester shall receive not less than one-half of the established annual salary for the position. This section shall not be so construed as to prevent the payment of compensation to a person while on leave of absence when the payment of the compensation is authorized by law.

In the event any such person dies during the school year, his estate shall be entitled to receive, as salary owed to the decedent, an amount that bears the same ratio to the established annual salary for the position as the number of working days he served bears to the total number of working days plus institutes in the annual school term, and any other day when the employee was required by the governing board to be present at the schools of the district, less any salary paid to the decedent prior to his death.

87816. Notwithstanding the provisions of Section 87815, the governing board of a community college district may adopt an alternative method of computing the salary received by a person requiring certification qualifications who serves less than a full school year.

Such method shall include the deduction from the employee's regular salary of only that amount actually paid to a substitute or, if a substitute is not employed, the amount which would have been paid to a substitute had a substitute been employed.

For the purposes of this section, the amount which would have been paid to a substitute is that amount established by the district in a published salary schedule for substitute employees.

Such alternative method shall only be applied upon authorization by the community college board based upon individual employee application and shall be limited to no more than five days per school year for each employee.

87817. Notwithstanding the provisions of Section 87815 or any other provision of law to the contrary, if a person is employed by a community college district in a position requiring certification qualifications at the beginning of the second semester of a school year for services during that semester, the compensation of such employee shall be not less than one-half of the annual compensation for that position.

87818. Whenever a salary schedule increasing the salaries of its certificated employees is adopted by a community college district to be effective at the commencement of the second semester of a school year:

(a) The compensation of such employees shall not exceed one-half of the annual compensation for their positions under the

former salary schedule for services during the first semester.

(b) The compensation of such employees shall not be less than one-half of the annual compensation for their positions under the newly adopted salary schedule for services during the second semester.

This section shall not be construed to limit the time at which any salary increase ordered by the governing board shall become effective.

87820. Service on a commission on professional competence as provided by law, in the employing community college district or in some other district, by a person employed by a district in a position requiring certification qualifications shall not be considered time off the job with respect to Section 87815. Neither the amount paid to a substitute required to be hired to replace such a person serving on a commission on professional competence in the employing district or in some other district nor the amount which would have been paid to a temporary had a temporary been employed, shall be deducted from the person's salary pursuant to Section 87820.

87821. Each salary payment for any calendar month may be made on the last working day of the month and shall be paid not earlier than the last working day of the month and not later than the fifth day of the succeeding calendar month except that instructors employed for less than full time in classes for adults, in a day or evening community college, shall be paid on or before the 10th day of the succeeding calendar month for services performed during the preceding calendar month.

If the community college district provides for the payment of the salary of employees employed in positions requiring certification qualifications once each two weeks, twice a month, or once each four weeks, pursuant to Section 87812, each salary payment may be made on the last working day of the payroll period and shall be made not earlier than the last working day of the payroll period and not later than the eighth working day of the following payroll period.

This section shall not prohibit a district from making a payment of earned salary prior to the last working day of the month or payroll period.

87822. When any community college district employs a certificated employee to perform instruction or other services in addition to his regular instructing duties, or when a district employs a certificated employee to perform instructing or other services at a summer school maintained by the district, the district shall pay the employee for such services either in one lump sum or at an hourly, daily, biweekly, quadriweekly, or monthly rate of pay. If the pay is in one lump sum, the district shall pay the employee within 10 days after the termination of the services. If the pay is at an hourly, daily, biweekly, quadriweekly or monthly rate, the district shall pay the employee within 10 days after the end of each calendar month or pay period during which the services are performed.

87823. Instead of issuing a single warrant to each employee for

salary or wages the district may use a payroll form of warrant making payment to two or more employees on one payroll warrant.

87824. When the payroll form of warrant is used, the approved and allowed payroll warrant shall be deposited with the county treasurer, who shall make payment to the employee or his order.

87825. When the payroll form of warrant is used the name of each employee shall be listed.

87826. The governing board of each community college district shall pay to each person employed in a day school of the district for full time in a position requiring certification qualifications and serving under other than an emergency or provisional credential an annual salary of not less than six thousand dollars (\$6,000).

The governing board of each community college district shall pay to each person employed for less than full time in a position requiring certification qualifications and serving under other than an emergency or provisional credential an annual salary of not less than an amount which bears the same ratio to six thousand dollars (\$6,000) as the time required of the person bears to the time required of a person employed full time.

"Full time" means not less than the minimum schoolday for each day the schools of the district are maintained during the school year.

The provisions of this section shall not be construed as applying to temporary employees of a community college district or to persons employed exclusively to teach driver training who possess only a standard designated subjects teaching credential in public safety and accident prevention.

87827. The governing board of each community college district shall pay to each person employed in a day school of the district for full time in a position requiring certification qualifications and serving under an emergency credential or provisional credential an annual salary of not less than two thousand four hundred dollars (\$2,400).

The governing board of each community college district shall pay to each person employed for less than full time in a position requiring certification qualifications and serving under an emergency credential or provisional credential an annual salary of not less than an amount which bears the same ratio to two thousand four hundred dollars (\$2,400) as the time required of the person bears to the time required of a person employed full time.

"Full time" means not less than the minimum schoolday for each day the schools of the district are maintained during the school year.

The provisions of this section shall not be construed as applying to temporary employees of a district.

87828. Except as otherwise provided in this code, no warrant shall be drawn in favor of any instructor, unless the officer whose duty it is to draw the warrant is satisfied that the teacher has faithfully performed all the duties prescribed.

87829. Whenever a person is employed by two or more districts under the jurisdiction of a single county superintendent of schools,

the governing boards of the districts may authorize, in writing, the county superintendent of schools to act as their agent in the payment of the salaries due such person from the districts. If such authorization is given, the county superintendent of schools may draw a warrant on the county school service fund in payment of the total salaries due such person and shall immediately draw requisitions in favor of the county school service fund against the proper funds of each district for the amount paid by him to such person on account of such district.

87830. The salary payment due a certificated employee for his last month of service in any district during any fiscal year shall not be approved by the county superintendent of schools until all reports required from the employee have been filed with said superintendent.

87831. Whenever reports are required to be filed with the county superintendent of schools by certificated employees of districts authorized to issue warrants under the provision of Section 85261 and such reports have not been filed, the county superintendent of schools may direct the district in writing to withhold the salary payment due the certificated employee involved. Said payment should not be released to the certificated employee until directed in writing by the county superintendent of schools.

87832. For the purposes of Military and Veterans Code Section 395 or any other provision of law providing for the payment of salary or compensation as such employee to an employee of a community college district while absent from duty because engaged in ordered military or naval duty, his salary or compensation as such employee for 30 days shall (a) with respect to an employee serving in a position requiring certification qualifications be deemed to be one-tenth of the annual salary established for such position and (b) with respect to an employee serving in a position not requiring certification qualifications be deemed to be one month's salary.

87833. The governing board of each community college district when drawing an order for the salary payment due to a certificated employee of the district, shall with or without charge reduce the order by the amount which it has been requested in a revocable written authorization by the employee to deduct for the purpose of paying the dues of the employee for membership in any local professional organization or in any statewide professional organization, or in any other professional organization affiliated or otherwise connected with a statewide professional organization which authorizes such statewide organization to receive membership dues on its behalf and for the purpose of paying his pro rata share of the costs incurred by the district in making the deduction. No charge shall exceed the actual cost to the district for such dues deduction. Any revocation of a written authorization shall be in writing and shall be effective commencing with the next pay period. The governing board shall each month draw its order upon the funds of the district in favor of the organization designated by the

employee for an amount equal to the total of the dues deductions made with respect to such organization during the month. The district shall retain and deposit in the general fund of the district the total amounts deducted from the employee's salary payment for the purpose of paying the employee's pro rata share of the costs incurred by the district in making the dues deductions provided for in this section. If the employees of a district do not authorize the board to make a deduction to pay their pro rata share of the costs of making deductions for the payment of dues, the board shall deduct from the amount transmitted to the organization on whose account the dues payments were deducted the actual costs of making such deduction.

#### Article 9. Instructor Preparation

87860. On and after July 1, 1974, each school with a substantial population of students of diverse ethnic backgrounds shall provide an in-service preparation program designed to prepare instructors and other professional school service personnel to understand and effectively relate to the history, culture, and current problems of these students and their environment. For purposes of this article a school shall be considered to have a substantial population of students of diverse ethnic backgrounds where 25 percent or more of all the students in the school are of diverse ethnic backgrounds.

87861. The board of governors shall develop a list of approved courses which shall be considered acceptable for meeting the requirements of this article. The board shall cause a list of approved courses to be published and distributed to interested instructors, administrators, and governing boards of community college districts. The board shall be responsible for coordinating the efforts of community college districts and colleges to develop adequate course offerings to satisfy the requirements of this article.

87862. In-service programs designed to fulfill the requirements of this article may include, but need not be limited to, courses offered by community colleges and colleges and universities approved by the board of governors. A district may provide an in-service program consisting in whole or in part of preparation other than college courses.

Such a program shall be developed cooperatively with the board of governors and shall have prior approval of the board of governors. An in-service program which meets the intent of this article shall encompass the history, culture, and current problems of the students of diverse ethnic background.

All college courses approved by the board of governors for the purposes of this article shall be considered acceptable for salary credit purposes by any community college district. District in-service programs shall specify an amount of equivalent credit which shall be acceptable for salary credit purposes in the district providing the in-service program.

87863. The board of governors shall provide in its budget for the

necessary funds to employ appropriate staff to implement the intent of this article.

87864. The board of governors shall make a progress report to the Legislature not later than the fifth legislative day of the 1972 Regular Session. The board shall further report not later than the fifth legislative day of the 1974 Regular Session the number of districts to which this article is applicable at that time and the extent to which implementation has been achieved. The board shall continually evaluate the results of this article.

## CHAPTER 4. CLASSIFIED EMPLOYEES

### Article 1. Employment

88000. Article 1 (commencing with Section 88000), Article 2 (commencing with Section 88050), Article 4 (commencing with Section 88160), Article 5 (commencing with Section 88180), Article 6 (commencing with Section 88190), and Article 8 (commencing with Section 88240) of this chapter, Sections 10340 and 10341, and the applicable provisions of Part 5 (commencing with Section 7000) of Division 1 of Title 1 and Chapter 1 (commencing with Section 87000) of this part shall apply to all classified employees of a community college district, including those authorized in Sections 72405, 72419, and 72424, whether a merit or nonmerit system district as authorized by this chapter unless the section specifically limits its application to nonmerit system districts.

These provisions shall not apply to employees of a community college district lying wholly within a city and county which provides in its charter for a merit system of employment for employees employed in positions not requiring certification qualifications.

The positions authorized in Sections 72405, 72419, and 72424 may, by resolution of a governing board, be exempted from the provisions of Article 3 (commencing with Section 88060) of this chapter.

88001. Definitions as used in this chapter:

(a) "Classification" means that each position in the classified service shall have a designated title, a regular minimum number of assigned hours per day, days per week, and months per year, a specific statement of the duties required to be performed by the employees in each such position, and the regular monthly salary ranges for each such position.

(b) "Permanent" as used in the phrase "permanent employee" includes tenure in the classification in which the employee passed the required probationary period, and includes all of the incidents of that classification.

(c) "Regular" as used in the phrase "regular classified employee," or any similar phrase, refers to a classified employee who has probationary or permanent status.

(d) "Demotion" means assignment to an inferior position or status, without the employee's written voluntary consent.

(e) "Disciplinary action" includes any action whereby an employee is deprived of any classification or any incident of any classification in which he has permanence, including dismissal, suspension, demotion, or any reassignment, without his voluntary consent, except a layoff for lack of work or lack of funds.

(f) "Reclassification" means the upgrading of a position to a higher classification as a result of the gradual increase of the duties being performed by the incumbent in such position.

(g) "Layoff for lack of funds or layoff for lack of work" includes any reduction in hours of employment or assignment to a class or grade lower than that in which the employee has permanence, voluntarily consented to by the employee, in order to avoid interruption of employment by layoff.

(h) "Cause" relating to disciplinary actions against classified employees means those grounds for discipline, or offenses, enumerated in the law or the written rules of a public school employer. No disciplinary action may be maintained for any "cause" other than as defined herein.

The provisions of this section shall not apply to districts to which the provisions of Article 3 (commencing with Section 88060) of this chapter are applicable.

The provisions of this section shall not apply to any district which, during the 1973-74 school year, had an average daily attendance of 100,000 or more.

88002. For the purposes of this section every classified employee shall be deemed to be employed for 12 months during each school year regardless of the number of months in which he is normally in paid status. Any community college district which, in any school year, maintains school sessions at times other than during the regular September-June academic year shall assign for service during such times regular classified employees of the district. When it is necessary to assign classified employees not regularly so assigned to serve between the end of one academic year and the commencement of another, such assignment shall be made on the basis of qualifications for employment in each classification of service which is required. No classified employee whose regular yearly assignment for service excludes all, or any part of, the period between the end of the academic year in June to the beginning of the next academic year in September, shall be required to perform services during such period. A classified employee shall, for services performed as herein provided, receive, on a pro rata basis, not less than the compensation and benefits which are applicable to that classification during the regular academic year.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 3 (commencing with Section 88060) of this chapter.

88003. The governing board of any community college district shall employ persons for positions not requiring certification qualifications. The governing board shall, except where Article 3

(commencing with Section 88060) of this chapter or Section 88137 applies, classify all such employees and positions. The employees and positions shall be known as the classified service. Substitute and short-term employees, employed and paid for less than 75 percent of a school year, shall not be a part of the classified service. Part-time playground positions, apprentices and professional experts employed on a temporary basis for a specific project, regardless of length of employment, shall not be a part of the classified service. Full-time students employed part time, and part-time students employed part time in any college work-study program, or in a work experience education program conducted by a community college district pursuant to Article 4 (commencing with Section 78240) of Chapter 2 of Part 48 of this division and which is financed by state or federal funds, shall not be a part of the classified service.

The term "short-term employees" as used in this section shall be construed to mean any person who is employed to perform a service for the district, upon the completion of which, the service required or similar services will not be extended or needed on a continuing basis.

"Seventy-five percent of a school year" means 195 working days, including holidays, sick leave, vacation and other leaves of absences, irrespective of number of hours worked per day.

Employment of either full-time or part-time students in any college work-study program, or in a work experience education program shall not result in the displacement of classified personnel or impair existing contracts for services.

This section shall apply only to districts not incorporating the merit system as outlined in Article 3 (commencing with Section 88060) of this chapter.

**88004.** Every position not defined by this code as a position requiring certification qualifications and not specifically exempted from the classified service according to the provisions of Section 88003 or 88076 shall be classified as required by those sections and shall be a part of the classified service. Such positions may not be designated as certificated nor shall the assignment of a title to any such a position remove the position from the classified service, nor shall possession of a certification document be made a requirement for employment in any such position.

Nothing in this section shall be construed to prohibit the employment of any individual in a position described by this section as part of the classified service who is in possession of certification qualifications, nor shall the possession of certification qualifications be grounds for the elimination of an individual for consideration for employment in such a position.

This section shall apply to districts which have adopted the merit system in the same manner and with the same effect as though it were a part of Article 3 (commencing with Section 88060) of this chapter.

**88005.** (a) Positions not requiring certification qualifications

created by a governing board of a school district under the Manpower Development and Training Act of 1962, the Economic Opportunity Act of 1964, the Elementary and Secondary Education Act of 1965, or Section 11300 or Section 13650 of the Welfare and Institutions Code, any future federal or state legislative enactment, or any other special funding, and which are not a part of the regular school program shall, nevertheless, be a part of the classified service as established by Section 88003 or Section 88076 of this code.

Persons employed in such positions shall be classified employees and shall enjoy all the rights, burdens and benefits accorded other classified employees. Their selection and retention shall be made on the same basis as that of persons selected for positions that are a part of the regular school program.

(b) Notwithstanding the provisions of subdivision (a), if specially funded positions are restricted to employment of persons in low-income groups, from designated impoverished areas and other criteria which restricts the privilege of all citizens to compete for employment in such positions, all such positions shall, in addition to the regular class title, be classified as "restricted." Their selection and retention shall be made on the same basis as that of persons selected and retained in positions that are a part of the regular school program, except that persons employed in the following categories of restricted positions shall not be subject to the provisions of Section 88091 or 88092:

(a) The position of instructional aide, as defined in Section 88243.

(b) Any other position involving personal contacts with students or parents that is established to assist school-staff personnel responsible for school-community relations; educational support services for such areas as counseling, library or health; or the correction or prevention of behavioral problems.

Persons employed in positions properly classified as "restricted" shall be classified employees for all purposes except:

(1) They shall not be accorded employment permanency under Section 88013 or Section 88120 of the Education Code, whichever is applicable.

(2) They shall not acquire seniority credits for the purposes of Sections 88117 and 88127 of the Education Code or, in a district not having the merit (civil service) system, for the purposes of layoff for lack of work or lack of funds as may be established by rule of the governing board.

(3) The provisions of Sections 88106 and 88108 shall not apply to "restricted" employees.

(4) They shall not be eligible for promotion into the regular classified service or, in districts that have adopted the merit system, shall not be subject to the provisions of Section 88061, until they have complied with the provisions of subdivision (c).

(c) At any time, after completion of six months of satisfactory service, a person serving in a "restricted" position shall be given the opportunity to take such qualifying examinations as are required for

all other persons serving in the same class in the regular classified service. If such person satisfactorily completes the qualifying examination, regardless of final numerical listing on an eligibility list, he shall be accorded full rights, benefits and burdens of any other classified employee serving in the regular classified service. His service in the regular classified service shall be counted from the original date of employment in the "restricted" position and shall continue even though he continues to serve in a "restricted" position.

(d) This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 3 (commencing with Section 88060) of this chapter.

(e) It is the intent of the Legislature in enacting this section to clearly set forth that positions normally a part of the classified service are included therein regardless of the source of income to sustain such positions and to effectively implement specially funded programs intended to provide job opportunities for untrained and impoverished persons but to do so in a manner that will not be disruptive nor detrimental to the normal employment procedures relating to classified school service.

88006. Notwithstanding the provisions of Section 88003 or Section 88076, which exempt certain types of positions or categories of personnel from the classified service of a community college district, persons serving in exempt positions or who serve in classified positions but are exempted from the classified service shall, nevertheless, be subject to the provisions of Sections 76406, 88021, 88022, 88023 and 88024. The governing board of every district shall, by rule or regulation, provide for the implementation of this section.

The provisions of this section shall not apply to full-time day students regularly attending in the district of employment.

88007. (a) The "act" as used in this section shall mean the Federal Emergency Employment Act of 1971 (Public Law 92-54) or any similar federal law hereafter enacted to provide transitional employment in public service positions for unemployed or underemployed persons.

(b) Funds derived from the act shall not be expended for work that: (1) would otherwise have been performed at federal, state, or local expense; (2) will not result in an increase over the employment which would otherwise be available; (3) which will result in the displacement of permanent members of the classified service (including partial displacement, such as reduction in the hours of nonovertime work or wages or employment benefits); (4) or which will impair existing rights of permanent members of the classified service.

(c) If during the term of a contract or renewal thereof, executed under the act, a community college district is engaged in layoffs for lack of work or lack of funds of permanent classified employees serving in regular positions and is employing personnel or contemplates employing personnel in like or reasonably similar

positions under the act, a report shall be submitted by the superintendent of schools to the governing board clearly demonstrating and substantiating the fact that the duties being performed by the permanent employees in regular positions who are being laid off will not be performed by personnel employed under the act.

Approval of the report by the governing board shall constitute its acceptance of the facts, as contained therein, and based thereon its affirmation of compliance with the contract executed under the act and this section.

This section shall apply to districts which have adopted the merit system in the same manner and with the same effect as though it were a part of Article 3 (commencing with Section 88060) of this chapter.

88008. If the governing board of a community college district establishes positions in the categories described below and restricts initial appointments of new employees to persons in low-income groups or residing in specifically designated areas of the community, then such positions shall, in addition to the regular class title, be classified as "restricted." The positions shall be part of the classified service and persons so employed shall be classified employees for all purposes except that (1) they shall not be subject to the provisions of Section 88091 or 88092, and (2) they shall not acquire permanent status or seniority credit and shall not be eligible for promotion into the regular classified service until they have complied with the provisions of subdivision (c) of Section 88005.

The categories of positions for which the governing board may establish restrictions under this section are:

- (a) The position of instructional aide, as defined in Section 88243.
- (b) Any other position involving personal contacts with pupils or parents, that is established to assist school-staff personnel responsible for school-community relations; educational support services for such areas as counseling, library, or health; or the correction or prevention of behavioral problems.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 3 (commencing with Section 88060) of this chapter.

This section shall remain in effect only until January 31, 1979, and as of that date is repealed.

88009. Governing boards shall fix and prescribe the duties to be performed by all persons in the classified service and other positions not requiring certification qualifications of the community college district, except those persons employed as a part of a personnel commission staff as provided in Article 3 (commencing with Section 88060) of this chapter.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 3 (commencing with Section 88060) of this chapter.

88010. Classified employees shall not be required to perform

duties which are not fixed and prescribed for the position by the governing board in accordance with Section 88009, unless the duties reasonably relate to those fixed for the position by the board, for any period of time which exceeds five working days within a 15-calendar-day period except as authorized herein.

An employee may be required to perform duties inconsistent with those assigned to the position by the governing board for a period of more than five working days provided that his salary is adjusted upward for the entire period he is required to work out of classification and in such amounts as will reasonably reflect the duties required to be performed outside his normal assigned duties.

Notwithstanding the provisions of this section, a personnel commission and governing board, or a governing board in a nonmerit system district, may, by written rule, provide for an upward salary adjustment for any classified employee required to work out of classification for any period of time less than that required herein.

It is the intent of this section to permit community college districts to temporarily work employees outside of their normal duties but in so doing to require that some additional compensation be provided the employee during such temporary assignments.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 3 (commencing with Section 88060) of this chapter.

88011. No community college district may adopt or maintain any rule or regulation which requires a candidate for a position in the classified service to be a resident of the district or to become a resident of the district, or which requires that an employee maintain residency within the district; nor may a district grant preferential points or other preferential treatment to those candidates or employees who are residents of the district. This section shall not apply to restricted positions as provided for in Sections 88005 and 88008.

The Legislature in enacting this section recognizes that the public school system of this state is the property of all its citizens, and that all qualified candidates for positions in the classified service, regardless of residence, should be granted the opportunity to compete for and obtain such positions based solely on merit and fitness.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 3 (commencing with Section 88060) of this chapter.

88012. If the governing board of any community college district employs staff assistants or field representatives to directly assist the governing board or individual governing board members in carrying out their policymaking duties, such assistants or representatives shall be members of the classified service, except that such assistants or representatives shall be exempt from all provisions of this code relating to obtaining a permanent status in any position in the

district, and procedures pertaining to the recruitment, appointment, classification, and salary of members of the classified service.

Staff assistants shall serve at the pleasure of a majority of the governing board, and each field representative appointed by the governing board to assist an individual member shall serve at the pleasure of such member.

It is the intent of the Legislature that persons employed under Section 88012 will not be utilized for election campaigns of board members during hours of their employment.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 3 (commencing with Section 88060) of this chapter.

88013. The governing board of a community college district shall prescribe written rules and regulations, governing the personnel management of the classified service, which shall be printed and made available to employees in the classified service, the public, and those concerned with the administration of this section, whereby such employees are designated as permanent employees of the district after serving a prescribed period of probation which shall not exceed one year.

Any employee designated as a permanent employee shall be subject to disciplinary action only for cause as prescribed by rule or regulation of the governing board, but the governing board's determination of the sufficiency of the cause for disciplinary action shall be conclusive.

The governing board shall adopt rules of procedure for disciplinary proceedings which shall contain a provision for informing the employee by written notice of the specific charges against him, a statement of his right to a hearing on such charges, and the time within which such hearing may be requested which shall be not less than five days after service of the notice to the employee, and a card or paper, the signing and filing of which shall constitute a demand for hearing, and a denial of all charges. The burden of proof shall remain with the governing board, and any rule or regulation to the contrary shall be void.

No disciplinary action shall be taken for any cause which arose prior to the employee's becoming permanent, nor for any cause which arose more than two years preceding the date of the filing of the notice of cause unless such cause was concealed or not disclosed by such employee when it could be reasonably assumed that the employee should have disclosed the facts to the employing district.

This section shall apply only to districts not incorporating the merit system as outlined in Article 3 (commencing with Section 88060) of this chapter.

88014. Notwithstanding the provisions of Section 88013, the governing board may lay off and reemploy classified employees only in accordance with procedures provided by Sections 88117 and 88127, except the term "personnel commission" therein shall be construed to mean the governing board. "Governing board" as used in this

section shall include districts governed by a common board or by different boards but with a common administration. Employees in common board or common administration districts shall, for the purpose of layoff for lack of work or funds, be considered as having been employed in a single district.

88015. Notwithstanding any other provision of law, any person who was subject to being, or was in fact, laid off for lack of work or lack of funds and who elected service retirement from the Public Employees' Retirement System shall be placed on an appropriate reemployment list. The district shall notify the Board of Administration of the Public Employees' Retirement System of the fact that retirement was due to layoff for lack of work or of funds. If he is subsequently subject to reemployment and accepts, in writing, the appropriate vacant position, the district shall maintain the vacancy until the Board of Administration of the Public Employees' Retirement System has properly processed his request for reinstatement from retirement.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 3 (commencing with Section 88060) of this chapter.

88016. A notice of disciplinary action shall contain a statement in ordinary and concise language of the specific acts and omissions upon which the disciplinary action is based, a statement of the cause for the action taken and, if it is claimed that an employee has violated a rule or regulation of the public school employer, such rule or regulation shall be set forth in said notice.

A notice of disciplinary action stating one or more causes or grounds for disciplinary action established by any rule, regulation, or statute in the language of the rule, regulation, or statute, is insufficient for any purpose.

A proceeding may be brought by, or on behalf of, the employee to restrain any further proceedings under any notice of disciplinary action violative of this provision.

This section shall apply to proceedings conducted under the provisions of Article 3 (commencing with Section 88060) of this chapter.

88017. (a) When, as a result of the expiration of a specially funded program, classified positions must be eliminated at the end of any school year, and classified employees will be subject to layoff for lack of funds, the employees to be laid off at the end of such school year shall be given written notice on or before May 29 informing them of their layoff effective at the end of such school year and of their displacement rights, if any, and reemployment rights. However, if the termination date of any specially funded program is other than June 30, such notice shall be given not less than 30 days prior to the effective date of their layoff.

(b) When, as a result of a bona fide reduction or elimination of the service being performed by any department, classified employees shall be subject to layoff for lack of work, affected employees shall be

given notice of layoff not less than 30 days prior to the effective date of layoff, and informed of their displacement rights, if any, and reemployment rights.

(c) Nothing herein provided shall preclude a layoff for lack of funds in the event of an actual and existing financial inability to pay salaries of classified employees, nor layoff for lack of work resulting from causes not foreseeable or preventable by the governing board, without the notice required by subdivisions (a) or (b) hereof.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 3 (commencing with Section 88060) of this chapter.

88018. Any division, uniting, unionization, annexation, merger, or change of community college district boundaries shall not affect the rights of persons employed in positions not requiring certification qualifications to continue in employment for not less than two years and to retain the salary, leaves and other benefits which they would have had had the reorganization not occurred, and in the manner provided in this article:

(a) All employees of every community college district which is included in any other district, or all districts included in a new district, shall become employees of the new district.

(b) When a portion of the territory of any district becomes part of another district employees regularly assigned to perform their duties in the territory affected shall become employees of the acquiring district. Employees whose assignments pertained to the affected territory, but whose employment situs was not in such territory, may elect to remain with the original district or become employees of the acquiring district.

(c) When the territory of any district is divided between or among two or more districts and the original district ceases to exist, employees of the original district regularly assigned to perform their duties in any specific territory of such district shall become employees of the district acquiring the territory. Employees not assigned to specific territory within the original district shall become employees of any acquiring district at their election.

(d) Employees regularly assigned by the original district to any school in said district shall be an employee of the district in which said school is located. Except as herein provided, nothing herein shall deprive the governing board of the acquiring district from making reasonable reassignments of duties.

88019. Whenever, by reason of any reorganization, other than the unification of districts, all or part of the territory of any community college district which has adopted the merit system is included within any district, or in any new district, the governing board of the acquiring or new district shall adopt such merit system. In the event that any district simultaneously acquires all or part of the territory of two or more districts which have previously adopted the merit system the governing board of the acquiring or new district shall adopt a merit system containing such provisions as are necessary to

afford to all employees the rights guaranteed by this section. The employees of the reorganized or new district shall retain all rights and privileges as if they had been employed under the provisions of Article 3 (commencing with Section 88060) of this chapter, with seniority commencing as of the date of original employment in their original district. Where there are more than a sufficient number of employees for a given classification under the provisions of Article 3 (commencing with Section 88060) of this chapter, such personnel shall be retained in employment for a period of not less than two years as if the reorganization had not occurred but without prejudice to the powers of the personnel commission and governing board of the reorganized district to reasonably reassign such persons. If at the expiration of such period, upon a finding made by the personnel commission that there are excess personnel in any given classification, such personnel shall, if the governing board so directs, be placed upon appropriate reemployment lists for 39 months and, if so placed, shall be offered and may accept positions of lower rank in their line of promotion in the order of seniority as established by this section in accordance with rules drawn in compliance with the provisions of Article 3 (commencing with Section 88060) of this chapter. The acceptance of a position in lower rank in accordance herewith shall not be deemed to constitute a waiver of the right to reemployment at the original level should a vacancy at such level occur within the period mentioned in this section.

88020. Any person not a student or substitute employee, who has been employed in a community college bookstore maintained by a student body organization pursuant to Section 81675 for a period of at least six months immediately preceding becoming a member of the classified service pursuant to Section 81676, shall, without examination, be deemed to be a permanent classified service employee of the community college district.

Any person not a student or substitute employee employed in a community college bookstore maintained by a student body organization pursuant to Section 81675 for less than six months immediately preceding becoming a member of the classified service pursuant to Section 81676 shall, without examination, be deemed to be a probationary classified employee of the district.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 3 (commencing with Section 88060) of this chapter.

88021. Whenever a governing board of a community college district requires a physical examination to be taken by a classified employee or employees, either by rule or by its direction or the direction of its authorized district administrator; or when classified employees are required by law to submit to a physical examination for continuance in employment, the board shall either provide the required examination, cause it to be provided, or provide the employee with reasonable reimbursement for the required examination.

If the governing board requires a physical examination or an examination is required by law as a condition of preemployment, it may cause the required examination to be given. It may, if an applicant is required to take a preemployment physical examination, provide for reasonable reimbursement if the applicant is subsequently employed by the district.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 3 (commencing with Section 88060) of this chapter.

88022. No person shall be employed or retained in employment by a community college district who has been convicted of any sex offense as defined in Section 87010 or narcotics offense as defined in Section 87011. If, however, any such conviction is reversed and the person is acquitted of the offense in a new trial or the charges against him are dismissed, this section does not prohibit his employment thereafter.

Nothing in this section shall prohibit the employment by a district of a person convicted of a narcotics offense involving the use or possession of marijuana if the governing board of the district determines, from the evidence presented, that the person has been rehabilitated for at least five years.

The governing board shall determine the type and manner of presentation of the evidence, and the determination of the governing board as to whether or not the person has been rehabilitated is final.

88023. No person shall be employed or retained in employment by a community college district who has been determined to be a sexual psychopath under the provisions of Article 1 (commencing with Section 6300), Chapter 2, Part 2, Division 6 of the Welfare and Institutions Code or under similar provisions of law of any other state. If, however, such determination is reversed and the person is determined not to be a sexual psychopath in a new proceeding or the proceeding to determine whether he is a sexual psychopath is dismissed, this section does not prohibit his employment thereafter.

88024. The governing board of any community college district shall, within 10 working days of date of employment, require each person to be employed, or employed in, a position not requiring certification qualifications to have two 8" x 8" fingerprint cards bearing the legible rolled and flat impressions of such person's fingerprints together with a personal description of the applicant or employee, as the case may be, prepared by a local public law enforcement agency having jurisdiction in the area of the district, which agency shall transmit such cards, together with the fee hereinafter specified, to the Department of Justice; except that a district, or districts with a common board, having an average daily attendance of 60,000 or more may process the fingerprint cards in the event the district so elects. "Local public law enforcement agency" as used herein and in Section 88025 includes a community college district with an average daily attendance of 60,000 or more. Upon

receiving such identification cards, the Department of Justice shall ascertain whether the applicant or employee has been arrested or convicted of any crime insofar as such fact can be ascertained from information available to the department and forward such information to the local public law enforcement agency submitting the applicant's or employee's fingerprints at the earliest possible date. At its discretion, the Department of Justice may forward one copy of the fingerprint cards submitted to any other bureau of investigation it may deem necessary in order to verify any record of previous arrests or convictions of the applicant or employee.

The governing board of each district shall forward a request to the Department of Justice indicating the number of current employees who have not completed the requirements of this section. The Department of Justice shall direct when such cards are to be forwarded to it for processing which in no event shall be later than two years from the date of enactment of this section. Districts which have previously submitted identification cards for current employees to either the Department of Justice or the Federal Bureau of Investigation shall not be required to further implement the provisions of this section as it applies to those employees.

A plea or verdict of guilty or a finding of guilt by a court in a trial without a jury or forfeiture of bail is deemed to be a conviction within the meaning of this section, irrespective of a subsequent order under the provisions of Section 1203.4 of the Penal Code allowing the withdrawal of the plea of guilty and entering of a plea of not guilty, or setting aside the verdict of guilty, or dismissing the accusations or information.

The governing board shall provide the means whereby the identification cards may be completed and shall charge a fee determined by the Department of Justice to be sufficient to reimburse the department for the costs incurred in processing the application. The amount of such fee shall be forwarded to the Department of Justice, with two copies of applicant's or employee's fingerprint cards. The governing board may collect an additional fee not to exceed two dollars (\$2) payable to the local public law enforcement agency taking the fingerprints and completing the data on the fingerprint cards. Such additional fees shall be transmitted to the city or county treasury. If an applicant is subsequently hired by the board within 30 days of the application, such fee may be reimbursed to the applicant. Funds not reimbursed applicants shall be credited to the general fund of the district. If the fingerprint cards forwarded to the Department of Justice are those of a person already in the employ of the governing board, the district shall pay the fee required by this section, which fee shall be a proper charge against the general fund of the district, and no fee shall be charged the employee.

Notwithstanding the foregoing, substitute and temporary employees, employed for less than a school year, may be exempted from these provisions. The provisions of this section shall not apply

to a district, or districts with a common board, which has an average daily attendance of 400,000 or greater, or to a community college district wholly within a city and county, unless the governing board of such district or districts, by rule, provides for adherence to this section.

88025. Any provision of law to the contrary notwithstanding, the Department of Justice, shall, as provided in Section 88024, furnish, upon application of a local public law enforcement agency all information pertaining to any such person of whom there is a record in its office.

88026. The workweek of a classified employee, as defined in Section 88033 or Section 88076, shall be 40 hours. The workday shall be eight hours. These provisions do not restrict the extension of a regular workday or workweek on an overtime basis when such is necessary to carry on the business of the district. Nothing in this section shall be deemed to bar the district from establishing a workday of less than eight hours or a workweek of less than 40 hours for all or any of its classified positions.

Notwithstanding the provisions of this section and Section 88027, a governing board may, with the approval of the personnel commission, where applicable, exempt specific classes of positions from compensation for overtime in excess of eight hours in one day, provided that hours worked in excess of 40 in a calendar week shall be compensated on an overtime basis. Such exemption shall be applied only to those classes which the governing board and personnel commission, where applicable, specifically find to be subject to fluctuations in daily working hours not susceptible to administrative control, such as security patrol and recreation classes, but shall not include food-service and transportation classes.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 3 (commencing with Section 88060) of this chapter.

88027. The governing board of each community college district shall provide the extent to which, and establish the method by which ordered overtime is compensated. The board shall provide for such compensation or compensatory time off at a rate at least equal to time and one-half the regular rate of pay of the employee designated and authorized to perform the overtime.

Overtime is defined to include any time required to be worked in excess of eight hours in any one day and in excess of 40 hours in any calendar week. If a governing board establishes a workday of less than eight hours but seven hours or more and a workweek of less than 40 hours but 35 hours or more for all of its classified positions or for certain classes of classified positions, all time worked in excess of the established workday and workweek shall be deemed to be overtime. The foregoing provisions do not apply to classified positions for which a workday of fewer than seven hours and a workweek of fewer than 35 hours has been established, nor to positions for which a workday of eight hours and a workweek of 40

hours has been established, but in which positions employees are temporarily assigned to work fewer than eight hours per day or 40 hours per week when such reduction in hours is necessary to avoid layoffs for lack of work or lack of funds and the consent of the majority of affected employees to such reduction in hours has been first obtained.

For the purpose of computing the number of hours worked, time during which an employee is excused from work because of holidays, sick leave, vacation, compensating time off, or other paid leave of absence shall be considered as time worked by the employee.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 3 (commencing with Section 88060) of this chapter.

**88028.** When compensatory time off is authorized in lieu of cash compensation, such compensatory time off shall be granted within 12 calendar months following the month in which the overtime was worked and without impairing the services rendered by the employing district.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 3 (commencing with Section 88060) of this chapter.

**88029.** Notwithstanding the provisions of Sections 88026 and 88027, a personnel commission, when applicable, or a governing board of a community college district may specify certain positions or classes of positions as supervisory, administrative, or executive and exclude the employees serving in such positions and the positions from the overtime provisions.

To be excluded from such overtime provisions, the positions or classes of positions must clearly and reasonably be management positions. In approving positions or classes of positions for exclusion from the overtime provisions, the personnel commission, when applicable, or the governing board of a district shall certify, in writing, that the duties, flexibility of hours, salary, benefit structure, and authority of the positions or classes of positions are of such a nature that they should be set apart from those positions which are subject to the overtime provisions, and that employees serving in such excluded positions or classes of positions will not be unreasonably discriminated against as a result of the exclusion.

Notwithstanding the provisions of this section, if a person serving in an excluded position is required to work on a holiday, as provided for in this code, or by action of a governing board, he shall be paid, in addition to his regular pay for the holiday, compensation, or given compensating time off, at a rate not less than his normal rate of pay.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 3 (commencing with Section 88060) of this chapter.

**88030.** Notwithstanding the provisions of Section 88026 the workweek shall consist of not more than five consecutive working days for any employee having an average workday of four hours or

more during the workweek. Such an employee shall be compensated for any work required to be performed on the sixth or seventh day following the commencement of the workweek at a rate equal to  $1\frac{1}{2}$  times the regular rate of pay of the employee designated and authorized to perform the work.

An employee having an average workday of less than four hours during a workweek shall, for any work required to be performed on the seventh day following the commencement of his workweek, be compensated for at a rate equal to  $1\frac{1}{2}$  times the regular rate of pay of the employee designated and authorized to perform the work.

Positions and employees excluded from overtime compensation pursuant to Section 88029 shall likewise be excluded from the provisions of this section.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 3 (commencing with Section 88060) of this chapter.

88031. Notwithstanding the provisions of Section 88030, a governing board of a district may establish a 10-hour-per-day, 40-hour, four-consecutive-day workweek for all, or certain classes of its employees, or for employees within a class when, by reason of the work location and duties actually performed by such employees, their services are not required for a workweek of five consecutive days, provided the establishment of such a workweek has the concurrence of the concerned employee, class of employees, or classes of employees as ascertained through the employee organization representing a majority of the concerned employees or class, or classes, of employees, as determined by the payroll deduction authorizations for dues in classified employee organizations on file with the district on the last day of the month next preceding the date the board action was taken.

Where a board has previously established the workweek of not less than 35 hours, it may require the established workweek to be performed in four consecutive days by any class or classes of employees or by employees within a class, when by reason of the work location and duties actually performed by such employees their services are not required for a workweek of five consecutive days, with the concurrence of employee personnel as provided herein.

When a four-day workweek is established, the overtime rate shall be paid for all hours worked in excess of the required workday, which shall not exceed 10 hours. Work performed on the fifth, sixth and seventh days shall be compensated for at a rate equal to  $1\frac{1}{2}$  times the regular rate of pay of the employee designated and authorized to perform the work.

An employee working an average workday of five hours or less during a workweek shall, for any work required to be performed on the sixth or seventh day following the commencement of his workweek, be compensated for at a rate equal to  $1\frac{1}{2}$  times the regular rate of pay of the employee designated and authorized to perform the work.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 3 (commencing with Section 88060) of this chapter.

88032. In any community college district situated wholly within the boundaries of a city having a population of more than five hundred thousand (500,000) but not exceeding five hundred fifty thousand (550,000) as determined by the 1920 federal census, the janitors and other employees of the district shall be employed in the same manner and under the same conditions as instructors are employed by the district and when employed shall be removed only for cause and after charges have been filed and heard by the board of education.

All employees who have been in the service of the school district continuously for a period of one year prior to July 27, 1917, shall be deemed to have been so employed.

The board of education may make and enforce all necessary rules and regulations to carry out the provisions of this section.

88033. (a) Notwithstanding any other provisions of law, no minimum or maximum age limits shall be established for the employment or continuance in employment of persons a part of the classified service.

(b) Any person possessing all of the minimum qualifications for any employment shall be eligible for appointment to that employment, and no rule or policy, either written or unwritten, heretofore or hereafter adopted, shall prohibit the employment or continued employment, solely because of the age of any such person in any school employment who is otherwise qualified therefor.

(c) This section does not authorize the employment of any person in particular school employment who has reached the retirement age for that particular employment prescribed by any retirement system applicable thereto, whether or not the person is a member of the retirement system, or entitled to a retirement salary thereunder, nor shall any person be employed in such employment while he is receiving a retirement allowance under any retirement system by reason of prior school employment.

(d) The provisions of subdivision (c) shall be inapplicable to persons who were employed in the classified service of any community college district as of September 18, 1959, and who are still in the employ of the same district on the effective date of this subdivision, and the rights of such persons shall be fixed and determined as of September 18, 1959; and no such person shall be deprived of any right to any retirement allowance or eligibility for any such allowance to which he would have been entitled as of that date. Any such person who, by reason of any provision of law to the contrary, has been deprived of any right to retirement allowance or eligibility for such an allowance, shall, upon the filing of application therefor, be reinstated to such rights as he would have had had this subdivision been in effect on September 18, 1959.

(e) This section shall apply to districts that have adopted the

merit system in the same manner and effect as if it were a part of Article 3 (commencing with Section 88060) of this chapter, except that in a community college district governed by the same governing board, in which the combined average daily attendance of all districts is in excess of 400,000, the permanent classification of any employee who is classified as a permanent employee under the provisions of Article 3 (commencing with Section 88060) of this chapter shall cease at the close of the fiscal year in which the employee reaches the age of 65 years. In such district or districts the employment, or continued employment of any employee beyond the close of the fiscal year in which he reaches the age of 65 years shall be at the discretion of the governing board of the district, which may, at its pleasure, terminate the services of such employee at any time. Employment beyond age 65 in such districts shall be in accordance with rules and regulations governing such employment approved by the personnel commission, and adopted by the governing board of the district.

88034. Notwithstanding the provisions of subdivision (c) of Section 88033, a retired classified school employee may be employed by a community college district, but only in accordance with the provisions of Article 5 (commencing with Section 21150) of Chapter 8 of Part 3 of Division 5 of Title 2 of the Government Code.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 3 (commencing with Section 88060) of this chapter.

88035. All probationary and permanent part-time classified employees shall be entitled to sick leave, and all other benefits conferred by law on classified employees. Part-time employees shall be entitled to all leaves and benefits granted by the governing board to a majority of the regular full-time employees in the classified service of the district or to regular full-time employees in the same classified positions or general class of positions; but such leaves and benefits may be prorated in the same ratio as the regular work hours per day, days per week, weeks per month, or months per year of such part-time employees bear to eight hours per day, 40 hours per calendar week, four calendar weeks per month, or 12 calendar months during the school year.

Except for prorating benefits for part-time employees as herein authorized, the governing board shall provide at least the same benefits for all regular employees in the classified service as it provides for the majority of such employees.

Nothing in this section shall be construed to prohibit the granting of additional benefits for some employees in recognition of nature of work, level of classification, or length of service.

This section shall not apply to employees properly designated as substitute, short-term, or limited-term employees, as defined in Sections 88003 and 88105, unless such employees are specifically included by a governing board, or by a personnel commission for those districts included under the provisions of Article 3

(commencing with Section 88060) of this chapter.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 3 (commencing with Section 88060) of this chapter.

This section shall not apply to those benefits authorized under the provisions of Article 1 (commencing with Section 53200) of Chapter 2 of Part 1, of Division 2 of Title 5 of the Government Code.

88036. A classified employee who works a minimum of 30 minutes per day in excess of his part-time assignment for a period of 20 consecutive working days or more, shall have his basic assignment changed to reflect the longer hours in order to acquire fringe benefits on a properly prorated basis as specified in Section 88035.

If a part-time employee's average paid time, excluding overtime for which the employee receives compensation at a rate at least equal to time and one-half, exceeds his average assigned time by 50 minutes or more per working day in any quarter, the hours paid per day for compensable leaves of absence and holidays in the succeeding quarter shall be equivalent to the average hours paid per working day in the preceding quarter, excluding overtime.

Except where vacation entitlement is accrued on the basis of actual hours of paid regular service, vacation entitlement shall be based on the average number of hours worked per working day during the portion of the school year in which the employee is assigned to duty.

It is the intent of the Legislature, in enacting this section, to insure that part-time employees are accorded fringe benefits on an appropriate prorated basis with full recognition given to the number of hours worked by the part-time employee rather than on the basis of time fixed to the position when the fixed time is not reasonably correlated with the actual time worked. This section is to be liberally construed in order that the provisions of Section 88035 may not be circumvented by requiring employees to work in excess of the regularly fixed hours for a position on an overtime basis but for which premium pay is not provided nor appropriate adjustment is not made in fringe benefit entitlement.

88037. The governing board of any community college district may require the wearing of a distinctive uniform by classified personnel. The cost of the purchase, lease or rental of uniforms, equipment, identification badges, emblems, and cards required by the district shall be borne by the district.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 3 (commencing with Section 88060) of this chapter.

## Article 2. Inclusion in the Merit System

88050. (a) "Common board" as used in this article means a board with identical members that governs more than one school district. "Common administration" as used in this section means the

administration by a person employed by governing boards of more than one district or a common board to act as chief executive officer for more than one school district.

(b) The term "a district whose average daily attendance is 3,000 or greater" shall be construed to include any district which is the only district under the jurisdiction of the county superintendent of schools regardless of its average daily attendance. It shall also include districts governed by a "common board" or which use a "common administration," as defined in this section.

88051. (1) On or after November 8, 1967, the classified employees of any district whose average daily attendance is 3,000 or greater, may, in accordance with this article, petition the governing board to make the provisions of Article 3 (commencing with Section 88060) of this chapter applicable to their employer district. Said petition shall read substantially as follows:

"We, the undersigned classified employees of the \_\_\_\_\_ (name of school district), constituting 15 percent of the classified personnel entitled to vote, request the governing board to submit to election the question of whether or not the merit (civil service) system shall become applicable to this district.

NAME \_\_\_\_\_ POSITION CLASSIFICATION"

"Classified employee" as used in this section shall be construed to include all personnel a part of the classified service as defined in Section 88003.

(2) Within 120 days after receipt of the petition the governing board shall: (a) Obtain the services of competent and qualified persons to present the pros and cons of the issue.

(b) Provide adequate and ample opportunity for all of its classified personnel to attend one or more meetings at which the issue is presented.

(c) Having complied with subsections (a) and (b), foregoing, conduct an election by secret ballot of its classified personnel to determine whether or not they desire to have the merit system applicable to the district. The ballot shall read:

"Shall the merit (civil service) system for classified employees be applicable in the \_\_\_\_\_ (name of school district)?

Yes  
 No"

The ballot shall not require the employees' signatures or other personal identifying requirements, but the board shall devise an identification system to insure against fraud in the balloting process.

(d) The board shall appoint a three- or five-person tabulating committee, at least one member of which shall be a member of the governing board, to canvass the ballots and present the results to the governing board. If a simple majority votes in favor of the merit system the same shall become applicable in the district.

(e) The tabulating committee required by this section shall certify the results of the election to the governing board at the next regular or special meeting of the board following the date the

committee completes tabulation of the votes. If the tabulating committee completes the tabulation on the same day as the governing board meets in regular or special session, the committee shall certify the results of the election to the board at such meeting.

88052. Effective upon certification to a governing board by a tabulating committee that an election, as authorized in Section 88051 of this code, has been successful, all of the provisions of Article 3 (commencing with Section 88060) that can reasonably be construed to be applicable to classified employees shall be applicable.

All of the provisions of Article 3 (commencing with Section 88060) shall become fully effective upon appointment of at least two members of the personnel commission.

The commission shall immediately adopt existing rules and regulations of the district relating to classified personnel pending the establishment of its rules and which are not inconsistent with law.

88053. The governing board of a community college district whose average daily attendance is less than 3,000 may, by affirmative vote of a majority of its members, adopt the procedure set forth in Article 3 (commencing with Section 88060) of this chapter. The motion or a resolution for adoption of the system shall specify the date that the provisions of Article 3 (commencing with Section 88060) shall be applicable to the classified employees of the district, which shall not be later than July 1 next following the date of adoption.

88054. The governing board of a community college district whose average daily attendance is 3,000 or more may, by affirmative vote of a majority of its members, and a county superintendent of schools, with the consent of the majority of the members of the county board of education, adopt the procedure set forth in Article 3 (commencing with Section 88060) of this chapter, provided a lawful petition has not been received as authorized in Section 88051, or may adopt the procedure at any time after a two-year period has elapsed following an unsuccessful election conducted in accordance with Section 88051.

The motion, order, or resolution for adoption of the procedure shall specify the date that the provisions of Article 3 shall be applicable to classified employees, which shall not be later than July 1 next following the date of adoption.

88055. When an election has been held, as authorized in this article, and fails to receive a simple majority affirmative vote, the classified employees of that district may not again petition for an election until at least two years has elapsed since the last election.

88056. Any person who intimidates, coerces, or discriminates in any way against any classified employee for the doing of any act authorized herein shall be personally liable to such employee for all damages suffered thereby and such exemplary damages as the court may allow.

88057. The procedure set forth in Article 3 (commencing with Section 88060) of this chapter may also be adopted by a majority of

the voting electors of the school districts assenting to the plan after it has been placed on the ballot upon the written petition of qualified electors not less in number than 10 percent of the number voting in the last election for a member of the governing board. The question of adoption shall be placed on the ballot at the next regular governing board member election, or the next primary or general election in a general election year, whichever is earlier after receipt of the petition by the registrar of voters.

The ballot measure shall specify the date that the provisions of Article 3 (commencing with Section 88060) of this chapter shall be applicable to classified employees which shall not be later than July 1 next following the date of adoption.

### Article 3. Merit System

88060. Any community college district adopting the provisions of this article in accordance with Section 88052 or 88057 of this chapter shall cause the personnel commission to be appointed in the manner prescribed in Sections 88065, 88066 and 88067. The personnel commission shall appoint the personnel director in the manner provided in Section 88084 after appointment of at least two of its members.

88061. In any district in which the procedure set forth in this article has been incorporated the governing board shall employ, pay, and otherwise control the services of persons in positions not requiring certification qualifications only in accordance with the provisions of this article.

No governing board shall remove a position from the classified service by title assignment or otherwise which would then require an incumbent to be credentialed if such position is not required by this code to be designated as certificated.

88063. In any district which has adopted the provisions of this article there shall be appointed a personnel commission composed of three members. If two or more districts are under the jurisdiction of governing boards of identical personnel, only one commission shall be appointed. In such cases this article shall apply alike to all of the districts, and the expenses of the commission shall be paid out of the general funds of all of the districts in proportion to the benefits derived therefrom as determined by the governing board.

88064. To be eligible for appointment or reappointment to the commission a person shall (a) be a registered voter and resident within the territorial jurisdiction of the community college district and (b) be a known adherent to the principle of the merit system. No member of the governing board of any community college district or a county board of education shall be eligible for appointment, reappointment, or continuance as a member of the commission. During his term of service, a member of the commission shall not be an employee of the district.

As used in this section, "known adherent to the principle of the

merit system," with respect to a new appointee, shall mean a person who by the nature of his prior public or private service has given evidence that he supports the concept of employment, continuance in employment, in-service promotional opportunities, and other related matters on the basis of merit and fitness. As used in this section, "known adherent to the principle of the merit system," with respect to a candidate for reappointment, shall mean a commissioner who has clearly demonstrated through meeting attendance and actions that he does, in fact, support the merit system and its operation.

88065. One member of the commission shall be appointed by the governing board of the district and one member, nominated by the classified employees of the district, shall be appointed by the governing board of the district. Those two members shall, in turn, appoint the third member.

As used in this section, "classified employees" shall mean an organization of classified employees which represents the greatest number of classified employees of the district as determined by the board exercising its authority under Section 7110 of this code. If there is no such organization existing within the district the governing board shall, by written rule, prescribe the method by which the recommendation is to be made by its classified employees.

88066. (a) Within 30 days after adoption of the system the governing board shall publicly announce its intended appointee, and the appointee nominated by its classified employees. As soon after their appointment as practicable but within 30 days, the two members shall appoint the third member. They may consider the recommendations of the governing board, the classified employees, or other concerned citizens. If such two members do not make an appointment within the 30-day period, the Executive Officer of the State Personnel Board shall make the appointment.

"Adoption of the system" means, in the case of Section 88051, the day on which a successful election is certified to the governing board or, in the case of Section 88054, the day the governing board approves a motion, order, or resolution to adopt the system regardless of the date specified for operational commencement of the system.

(b) Where a system is already in existence and a vacancy will exist on December 1, by not later than September 30:

(1) The governing board shall publicly announce the name of the person it intends to appoint or reappoint, if the vacancy is its appointee.

(2) The appointee of the governing board and the appointee of the classified employees shall publicly announce the name of the person they intend to appoint, if the vacancy is their appointee.

(c) Where a system is already in existence and a vacancy in the position nominated by the classified employees will occur, the classified employees shall submit the name of its nominee to the governing board at least 30 days prior to the date on which the vacancy will occur and the governing board shall appoint that

nominee to be effective on the date on which the vacancy would occur.

(d) At a board meeting to be held after 30 and within 45 days of the dates specified in subdivision (a) and subdivision (b) (1), as the case may be, the governing board in open hearing shall provide the public and employees and employee organizations the opportunity to express their views on the qualifications of those persons recommended by the governing board for appointment.

The board at the time may make its appointment or may make a substitute appointment or recommendation without further notification or public hearing.

In the case of the nominees of the classified employees, the board shall appoint the nominee, unless the classified employees voluntarily withdraw the name of the nominee and submit the name of a new nominee. In the latter case, the board shall then appoint the new nominee.

(e) In the event a vacancy exists because of a failure of the classified employees to agree on a nominee, the board may make an emergency appointment as authorized in subdivision (b) of Section 88065. If there is no personnel director, the board may nevertheless make an emergency interim appointment under this subdivision.

88067. An appointee to a commission in a district which has newly adopted the system shall take office upon receipt of notification of his appointment but his term of office shall run from noon of the first day of December next succeeding.

The initial appointee of the governing board shall serve a three-year term, and the term of the appointee recommended by classified employees and the Executive Officer of the State Personnel Board shall be for two years and one year respectively.

Subsequent terms shall be for three years commencing at noon the first day of December.

The commission may perform any act authorized or required by law when two members have been appointed.

88068. (a) Appointment to vacancies occurring subsequent to the initial appointment shall be made by the original appointing authority either for a new full term or to fill an unexpired term. The procedures required in Sections 88065 and 88066 shall be followed in the appointment and recommendation for appointment to fill vacancies occurring subsequent to the initial appointments.

(b) Notwithstanding subdivision (a) the governing board at the request of the personnel director shall declare that an emergency exists and shall make an interim appointment to fill a vacancy or vacancies to insure the continuance of the functions of the personnel commission. An interim appointment shall terminate on the date the notification of permanent appointment is received by the appointee.

(c) An interim appointee must meet the requirements of Section 88064 and be free of the restrictions contained therein.

(d) An interim appointment in no event shall be valid for more than 60 days.

88069. In a community college district which has already adopted the provisions of this article on September 17, 1965, members of the personnel commission shall continue to be appointed alternately by the board of governors and by the Executive Officer of the State Personnel Board, each of whom may consider the recommendation of the governing board and other interested parties.

88070. The governing board may authorize payment to members of the commission an amount not to exceed fifteen dollars (\$15) per meeting and not to exceed seventy-five dollars (\$75) per month.

88071. In a community college district with an average daily attendance in excess of 40,000 and which is located in a metropolitan area with a population of more than 4,000,000, the governing board may authorize payment to members of the commission an amount not to exceed thirty dollars (\$30) per meeting, and not to exceed one hundred fifty dollars (\$150) per month.

88072. The governing board shall provide the commission with suitable office accommodations.

88073. The commission shall prepare an annual budget for its own office which, upon the approval of the county superintendent of schools, shall be included by the governing board in the regular budget of the community college district. The annual budget of the commission may include amounts for the purposes of Section 88075.

The budget shall be prepared for a public hearing by the commission to be held not later than May 30 of each year. The commission shall forward a copy of its proposed budget to the governing board indicating the time, date and place for the public hearing of the budget and shall invite board and district administration representatives to attend and present their views. The commission shall fully consider the views of the governing board prior to adoption of its proposed budget. The commission shall then forward its proposed budget to the county superintendent of schools for action.

If the county superintendent of schools proposes to reject the budget as submitted by the commission, he shall, within 30 days after the commission's submission of the budget, hold a public hearing on the proposed rejection within the affected district. He shall have informed both the commission and the governing board of the date, time and place of the hearing. He may after such public hearing either reject, or, with the concurrence of the commission, amend the proposed budget. In the absence of agreement between the personnel commission and the county superintendent the budget of the preceding year shall determine the amount of the new budget, and the items of expenditure shall be determined by the commission.

88074. The budget for the first year shall be determined by the governing board. Pending receipt of money raised in the manner prescribed in this article, the governing board may advance funds for the establishment of the work of the commission.

88075. The commission may, with respect to the staff of the commission, expend funds for their orientation, training, retraining,

and development and for any purpose prescribed by Article 7 (commencing with Section 88220) of this chapter.

88076. The commission shall classify all employees and positions within the jurisdiction of the governing board or of the commission, except those which are exempt from the classified service. The employees and positions shall be known as the classified service. Exempt from the classified service shall be:

- (a) Positions which require certification qualifications,
- (b) Part-time playground positions,
- (c) Full-time students employed part time,
- (d) Part-time students employed part time in any college work-study program, or in a work experience education program conducted by a community college district pursuant to Article 4 (commencing with Section 78240) of Chapter 2 of Part 48 of this division and which is financed by state or federal funds,
- (e) Apprentice positions,
- (f) Positions established for the employment of professional experts on a temporary basis for a specific project by the governing board or by the commission when so designated by the commission.

Employment of either full-time or part-time students in any college work-study program, or in a work experience education program shall not result in the displacement of classified personnel or impair existing contracts for services.

However, nothing in this section shall prevent an employee, who has attained regular status in a full-time position, from taking a voluntary reduction in time and retaining his regular status under the provisions of this law.

No person whose contribution consists solely in the rendition of individual personal services and whose employment does not come within the scope of the exceptions listed above shall be employed outside the classified service.

A part-time position is one for which the assigned time, when computed on an hourly, daily, weekly, or monthly basis, is less than 87½ percent of the normally assigned time of the majority of employees in the classified service.

88077. Nothing contained in Section 88076 shall be interpreted to exclude the employment of architectural and engineering firms employed on a temporary basis for a specific project by a governing board or the commission when so designated by the commission.

88078. In addition to the exemptions authorized in Section 88076, there shall be exempt from the classified service positions established for the employment of community representatives in advisory or consulting capacities for not more than 90 working days in a fiscal year, provided that:

- (1) The authorized duties are not those normally assigned to a class of positions in the classified service,
- (2) The authorized duties are approved by the personnel commission in advance of employment, and
- (3) A regular classified employee of the community college

district shall not receive a concurrent appointment to such a position.

88079. If the governing board of any community college district establishes positions and restricts initial appointment of new employees to persons having mental handicaps, then such positions shall, in addition to the regular class title, be classified as "restricted." The positions shall be part of the classified service and persons so employed shall be classified employees for all purposes except that they shall not acquire permanent status or seniority credit and shall not be eligible for promotion into the regular classified service until they have complied with the provisions of subdivision (c) of Section 88003.

88080. The commission shall prescribe and amend, subject to this article, such rules as may be necessary to insure the efficiency of the service and the selection and retention of employees upon a basis of merit and fitness. The rules shall be binding upon the governing board.

88081. The rules shall provide for the procedures to be followed by the governing board as they pertain to the classified service regarding applications, examinations, eligibility, appointments, promotions, demotions, transfers, dismissals, resignations, layoffs, reemployment, vacations, leaves of absence, compensation within classification, job analyses and specifications, service ratings, public advertisement of examinations, rejection of unfit applicants without competition, and any other matters necessary to carry out the provisions and purposes of this article.

88082. The rules of the commission and copies of this article shall be printed and made available to each school, office, and permanent worksite where employees report and shall be distributed to school libraries for loan to employees.

Within one year of when a district adopts the merit system, the commission shall adopt rules pursuant to Section 88080 and shall give to each new regular employee a handbook which summarizes the basic rules and working conditions for classified employees and provides information regarding access to copies of the complete rules and the merit system.

88083. The commission may classify as apprentice positions certain positions where the principal requirement is that of learning to perform efficiently, by study and practice, specific duties concerning which a definite plan of systematic instruction and special supervision has been approved by the California Apprenticeship Council for the designated trade.

The apprenticeship training plan adopted by the governing board of the community college district must be approved by the California Apprenticeship Council.

No assignment to any position classified as an apprentice position shall be allowed to continue beyond the predetermined apprenticeship period approved by the California Apprenticeship Council for the designated trade, except that the school district's joint apprenticeship committee may approve retention of an

employee as an apprentice up to six months beyond the predetermined apprentice period.

Selection of eligibles shall be made in accordance with their position on employment lists established by competitive or qualifying examinations.

The provisions of Section 88033 shall be applicable to apprentice positions, provided that relative age may be considered as a factor in the ranking of candidates for apprentice positions.

Credit for prior training in a regularly indentured apprenticeship program shall be given to qualified candidates.

In all cases of apprenticeship probationary periods, the standards of duration and qualifications shall be fixed by the commission insofar as they do not exceed the maximum standards set up by the California Apprenticeship Council. Termination for cause may be prescribed for any apprentice who fails to attain the predetermined standards of apprenticeship or for causes as prescribed by the rules of the commission.

The commission shall recommend to the governing board a graduated scale of compensation rates for the various levels of apprentices, taking into consideration the percentage relationship to the districts' journeyman wage of the trade as provided in the statement of policies of the California Apprenticeship Council.

The commission may determine that promotional examinations shall be held for entrance into various levels of apprentice positions and entrance into journeyman positions in a skilled trade.

88084. The commission shall appoint a personnel director within 90 days after the adoption of a merit system from an eligibility list established from a competitive examination given under the auspices of the commission. The commission shall also appoint all other employees paid from funds budgeted for the support of the commission from eligibility lists established pursuant to the provisions of this article. Such employees shall be classified employees of the community college district and shall be accorded all the rights, benefits, and burdens of any other classified employee serving in the regular service of the district.

88085. Notwithstanding the provisions of Section 88084, the personnel commission, in a community college district employing 100 or fewer classified employees, may, with the consent of a majority of the classified employees, contract for the services of a qualified personnel director with another school district having the merit (civil service) system, or a city or a county governmental agency if the city or county has a civil service system for the management of its employee personnel.

Such a contract shall be for not more than two years and may be extended, with the approval of a majority of the classified employees, for additional periods not to exceed two years at one time.

If at the end of any contract period the district is employing more than 100 classified employees, the personnel commission shall then comply with the provisions of Section 88084.

A contract approved under the provisions of this section shall become null and void in the event of district reorganization when the provisions of the contract, if continued in force would supersede or be in conflict with the provisions of Section 88019.

88086. The personnel director shall be responsible to the commission for carrying out all procedures in the administration of the classified personnel in conformity with this article and the rules of the commission. He shall also act as secretary of the commission and shall prepare, or cause to be prepared, an annual report which shall be sent by the commission to the governing board.

88086.5. The provisions of Sections 88022, 88023, 88160, 88198, 88199, 88201, and 88022 are applicable to the employees of school districts which have adopted a merit system pursuant to the procedure set forth in this article.

This section is declaratory of existing law. The sections here enumerated are to be construed and applied in the same manner and with the same effect as when they were applicable to the employees of such school districts prior to the enactment of Section 88000 by Chapter 1267 of the Statutes of 1959, and in accordance with the applicable provisions of this article and the rules of the personnel commission.

88087. The commission shall recommend to the governing board salary schedules for the classified service. The governing board may approve, amend, or reject these recommendations. No amendment shall be adopted until the commission is first given a reasonable opportunity to make a written statement of the effect the amendments will have upon the principle of like pay for like service. No changes shall operate to disturb the relationship which compensation schedules bear to one another, as the relationship has been established in the classification made by the commission.

88088. Any person who has been continuously employed in a position defined as a position in the classified service for a period of six months immediately preceding the date on which the procedure set forth in this article is adopted shall be deemed to be in the permanent classified service. No layoff or suspension of service during the time when the schools of the district are not in session shall count as an interruption of continuous service.

88089. All persons who have been continuously employed by a community college district for less than six months immediately preceding the date on which the procedure set forth in this article is adopted shall be deemed to hold their positions under probationary classification.

88090. Any employee serving in a certificated position whose position is by virtue of change of law deemed to be in the classified service shall without examination become a member of the classified service in accordance with the terms of Sections 88088 and 88089. Full seniority rights shall be retained, except that no seniority credit shall be allowed by virtue of previous certificated service in case of layoff for lack of funds or lack of work.

Any employee serving in a classified position whose position is by virtue of change of law deemed to be in the certificated service shall without examination become an employee of the certificated service and shall be deemed to have the necessary certification qualifications for such position. Full seniority rights will be retained, except that no seniority credit will be allowed by virtue of previous classified service in case of layoff for lack of funds or lack of work. Any such person who has been continuously employed in a regular position in the classified service for the length of time necessary to acquire permanency as a certificated employee shall be deemed to be a permanent certificated employee of the district. Any such person serving in a regular position in the classified service for an amount of time less than that deemed to be necessary to acquire permanency as a certificated employee shall be a certificated probationary employee of the district; such regular classified service shall be considered as probationary service toward the attainment of permanency by a certificated employee of the district.

88091. All vacancies in the classified service shall be filled pursuant to this article and the rules of the commission, from applicants on eligibility lists which, wherever practicable, as determined by the commission, shall be made up from promotional examinations, or appointments may be made by means of transfer, demotion, reinstatement, and reemployment in accordance with the rules of the commission. All applicants for promotional examinations shall have the required amount of service in classes designated by the commission or meet the minimum qualifications of education, training, experience, and length of service, which shall be determined by the commission to be appropriate for the class for which they have applied. Any promotional applicant who has served the required amount of time in a designated class or who meets the minimum qualifications for admission to a promotional examination shall be admitted to the examination. Applicants shall be placed on the eligibility lists in the order of their relative merit as determined by competitive examinations. Appointments shall be made from the first three applicants on the eligibility list who are ready and willing to accept the position. In examinations for classes designated as technical, professional, administrative, or executive by the commission, final scores of candidates shall be rounded to the nearest whole percent for all eligibles. All eligibles with the same percentage score will be considered as having the same rank. Appointments shall be made from the eligibles having the first three ranks on the list who are ready and willing to accept the position.

88092. Examinations shall be administered objectively and shall consist of at least two independent parts.

For classes of positions deemed by the commission to require an oral examination, the oral examination board shall include at least two members.

Unless specifically directed to evaluate candidates' technical knowledge and skills, the oral examination board shall confine itself

to evaluating general fitness for employment in the class. When the oral examination board is directed to evaluate technical knowledge and skills, at least two members of the board shall be technically qualified in the specified occupational area. Members of the governing board or personnel commission shall not serve on an oral examination board. A district employee may serve on an oral examination board if he is not at the first or second level of supervision over a vacant position in the class for which the examination is held.

The personnel commission shall provide for the proceedings of all oral examinations to be electronically recorded. In no case will an oral examination board be provided with confidential references on employees of the district who are competing in promotional examinations. Scores achieved by the candidate on other parts of the examination shall not be made available to the oral examination board.

88093. Examination records, including any recordings and the rating sheet of each member of the oral board for each candidate, shall be retained by the commission for a period of not less than 90 days after promulgation of an eligibility list. The commission shall prescribe procedures whereby candidates may review and protest any part of an examination. In promotional examinations for classes for which continuous examination procedures have not been authorized, the review and protest period shall be held prior to regular appointment from the eligibility list. Examination records shall not be available to the public or to any person for any purpose not directly connected with the examination and shall be considered confidential but shall, within reasonable time limits, be made available to a candidate or his representative.

88094. In a community college district which has already adopted the provisions of the merit system article on September 17, 1965, appointments shall be made from the first three applicants on the eligibility list who are ready and willing to accept a position, provided that: (a) one of the top two eligibles is a relative, within the first degree of consanguinity, of an employee already working at the location where a specific position vacancy exists, or (b) one is the parent or legal guardian of an enrollee in the same elementary or secondary school or children's center where a specific position vacancy exists.

88095. The governing board shall fix the duties of all positions a part of the classified service as required by Section 88009. The board may recommend the minimum educational and work experience requirements for classified positions to the personnel commission. Minimum qualification requirements shall be subject to approval of the commission.

In approving minimum educational and work experience requirements for classified positions, the commission shall insure that such requirements reasonably relate to the duties of the position, as established by the governing board, and that they will admit an

adequate field of competition. No requirements may be approved which unduly or unreasonably restrict the field of competition.

The position duties shall be prescribed by the board and qualification requirements for the position class shall be prepared and approved by the commission, as required by this section, prior to issuance of an announcement calling for a competitive examination to fill position vacancies.

88096. Appointments may be made from other than the first two or three, as the case may be, applicants on the eligibility list when the ability to speak, read, or write a language in addition to English or possession of a valid driver's license is a requirement of the position to be filled. The recruitment bulletin announcing the examination shall indicate the special requirements which may be necessary for filling one or more of the positions in the class. Where such a position is to be filled, using the authority of this section, the appointment shall be made from among the highest two or three, as the case may be, applicants on the appropriate eligibility list who meet the special requirements and who are ready and willing to accept the position. If there are insufficient applicants who meet the special requirements, the commission shall certify the top applicant or applicants plus those applicants who meet the special requirements, not to exceed two or three candidates, as the case may be.

88097. Written notices concerning tests, vacancies, transfer opportunities, and other such selections of shifts, positions, assignments, classifications, or locations shall be posted at all work locations of employees who may be affected not later than 15 working days prior to the closing date of filing appropriate applications, together with the normal use of newspapers and bulletins for public notice for open or promotional vacancies. Whenever the subject of such notices may affect a probationary or permanent classified employee who will not be reporting at his work location during periods when such employee is not normally required to work, such as Christmas, Easter, summer recesses, and other paid or unpaid leaves of absences, including vacations, and who has previously requested notification, such notices shall be mailed to the employee. However, the failure of an employee to receive such notice shall not invalidate any procedure, if in fact the notice was placed in the mail and postage paid.

The foregoing provisions shall not apply to any school district which publishes and distributes to all work locations examination bulletins at least once each month, provided that records of employee requests for transfer and change of location are maintained and that the names of all candidates for transfer and change of location to a vacancy are certified to the appointing authority along with names of appropriate applicants from employment lists.

The personnel commission shall establish procedures for the maintenance of employee requests for transfer, change of location,

change of shift, and notification of forthcoming examinations.

88098. A regular employee who is determined by the governing board to be incapable of performing the duties of his class because of illness or injury may, at the discretion of the governing board, be assigned duties which he is capable of performing. The position to which he is assigned shall be subject to classification by the personnel commission, but the employee shall receive no increase in wage or salary because of his assignment to the position unless he is appointed from an eligibility list resulting from a competitive examination in the event that the position is classified and allocated to a higher wage or salary than that previously attained by the employee, he may be assigned to the position without competitive examination, but shall continue to receive the wage or salary of his former classification. If the position is classified and allocated to a lower wage or salary than that attained by the employee, he shall be paid the wage or salary appropriate to the position.

88099. The commission shall, by rule, provide for an open competitive examination and a promotional examination to be held at the same time for the position of business manager or for any other single position class which it declares to be at or above the level of business manager. It shall require that all educational and work experience requirements be developed to fit the needs of the position in such a manner that the position will attract competent and qualified applicants from within the classified service, among certificated personnel, or other persons meeting the minimum requirements established for the position.

Such rule shall provide: (a) that all permanent employees of the district, classified and certificated, who meet the established minimum qualifications, shall be eligible to compete in the examination as promotional candidates; (b) that promotional credits, including seniority credits, if any, shall be equally applicable to both classified and certificated promotional candidates; (c) that eligibility lists resulting from such an open competitive and promotional examination shall be merged according to the order of the examination scores into a single eligibility list, after the scores of each candidate on the promotional list have been adjusted for promotional credits, including seniority credits, if any; and (d) that the examination for any such position shall not be construed to be an entrance level position examination.

88100. The commission may by rule provide for the competition of persons employed by the governing board in positions required to have certification qualifications in promotional examinations for positions in the classified service.

88101. The commission shall, by rule, provide for an open competitive examination and a promotional examination to be held at the same time for the positions that existed or could be created, when such positions become available for competitive examination, under the provisions of subdivisions (m), (n), and (o) of former Section 13055 as those subdivisions existed prior to their repeal by

action of the 1965 General Session of the Legislature.

Such rule shall provide: (a) that all permanent employees of the district, classified and certificated, who meet the established minimum qualifications, shall be eligible to compete in the examination as promotional candidates; (b) that promotional credits, including seniority credits, if any, shall be equally applicable to both classified and certificated promotional candidates; (c) that eligibility lists resulting from such an open competitive and promotional examination shall be merged according to the order of the examination scores into a single eligibility list, after the scores of each candidate on the promotional list have been adjusted for promotional credits, including seniority credits, if any; and (d) that the examination for any such position shall not be construed to be an entrance level position examination.

88102. In any community college district which has geographical boundaries encompassing more than 200 square miles and which divides the area it serves into smaller areas for assignment of classified personnel, when an eligibility list is exhausted in one assignment area but there are available eligibles in another assignment area, an area eligibility list may be established for the assignment area in which the eligibility list is exhausted. The life of such new area eligibility list shall be one year. Seniority for the purpose specified in Section 88127 shall continue to be districtwide.

88103. When an open competitive examination and a promotional examination for a particular class are held at the same time, the commission may, prior to the examination, authorize certification for employment of candidates from the open competitive eligibility list before the promotional eligibility list has been exhausted if (1) the candidate on the open list has a higher score before adjustment for preferential credits than the score of the highest available candidate on the promotional list after seniority credits have been added, and also if (2) either the class has fewer than three positions in the class or the most recent promotional examination for the class has failed to provide an adequate number of available eligibles on a promotional list to fill all regular vacancies which developed during the first year of the life of the eligibility list.

88104. When all of the positions in a class are reclassified to a higher class, the incumbents of the positions who have been in the class for three or more years may be reclassified with their positions by the personnel commission. When a portion of the positions within a class are reclassified to a higher class an incumbent who has a continuous employment record of three or more years in one or more of the positions being reclassified may be reclassified with his position as provided by personnel commission rule.

The basis for reclassification of the position must be a gradual accretion of duties and not a sudden change occasioned by a reorganization or the assignment of completely new duties and responsibilities. Determinations as to gradual accretion will be on the basis of guidelines provided by personnel commission rules.

An employee who has been reclassified with his position shall be ineligible for subsequent reclassification with his position for a period of at least three years from the initial action.

88105. Whenever the appointing power shall require the appointment of a person to a position, the duration of which is not to exceed six months, or, in case of an appointment in lieu of an absent employee, is not to exceed the authorized absence of said employee, he shall submit a request in which the probable duration of the appointment is stated. Eligibles shall be certified in accordance with their position on the appropriate employment list and their willingness to accept appointment to such position as limited-term employees. Limited-term employees shall be subject to such conditions affecting status and tenure during and after such employment as the commission may by rule determine.

88106. When no eligibility list exists for a position in the classified service, an employee may receive provisional appointments which may accumulate to a total of 90 working days. A 90-calendar-day interval shall then elapse during which the person will be ineligible to serve in any full-time provisional capacity. No person shall be employed in provisional capacities under a given governing board for a total of more than 126 working days in any one fiscal year, except that when no one is available on an appropriate eligibility list for a part-time position, as defined in Section 88076, successive 90 working days provisional appointments may be made to the part-time position for a total of more than 126 working days in any one fiscal year.

88107. The personnel commission may authorize the extension of a provisional employee's assignment for a period not to exceed 36 working days provided the following requirements are met:

(a) An examination for the class was completed during the first 90 working days of his provisional assignment.

(b) Evidence satisfactory to the personnel commission is presented indicating:

(1) That an adequate recruitment effort has been and is being made.

(2) That extension of the provisional assignment is necessary to carry on vital functions of the district.

(3) That the position cannot be satisfactorily filled by use of other employment lists or procedures.

88108. Successive provisional appointments of 90 working days or less each may be made in any class in the absence of an appropriate eligibility list; provided, that continuous examination procedures for the class have been authorized by the commission. Such successive provisional appointments may be made and persons employed in temporary capacities under a given governing board for a total of more than six months in any one year. Such appointments may continue for the length of time for which they were made, but may not be extended if a certification can be made from an appropriate

eligibility list. While this section is in effect, it shall supersede any other provisions of this article which are in conflict with this section, but only to the extent there is a conflict.

(Repealed and added by Stats. 1976, Ch. 1011.)

[ORIGINAL SECTION]

88108. "Beneficiary" means any person receiving a survivor's allowance, death benefit, retirement allowance under option, or any other benefit. "Beneficiary" does not include a member, former member or retirant unless specifically named as a beneficiary or by operation of law. A corporation, trust, eleemosynary or parochial institution or public entity may only be designated as a beneficiary to receive death benefits under Sections 14070-23100, 14180-23800, 14185-23803, and 14186.3-23807, except as otherwise provided in this chapter

88109. The appointing power may, to prevent the stoppage of public business when an actual emergency arises and persons on eligibility lists are not immediately available, make appointments for a period not to exceed 15 working days, in accordance with commission rule.

88110. Combinations of successive eligibility lists may be made during their first year. Eligibles on lists established within the first year of the life of another list may be placed in the order of their relative excellence in the examination on the like list, if lists so merged have been promulgated under conditions and techniques which are sufficiently similar to preserve their competitive character.

88111. The commission may by rule provide for the continuous examination of eligibles for classes of positions which the commission determines cannot be practicably filled by promotional examination only.

88112. No questions relating to political or religious opinions or affiliations, race, color, national origin or ancestry, sex, or marital status shall be asked of any applicant, or any candidate whose name has been certified for appointment, nor shall any discrimination be exercised therefor.

88113. "Veteran" as used in this article means any person who has served in the United States armed forces in time of war, or national emergency declared by the President of the United States of America, and who has been discharged or released under conditions other than dishonorable, proof of which shall be submitted to the commission at the time of the examination.

"Armed forces" means the United States Air Force, Army, Navy, Marine Corps, or Coast Guard.

88114. "Disabled veteran" as used in this article means any veteran, as defined in Section 88113, who is currently declared by the United States Veterans Administration to be 10 percent or more disabled as a result of service in the armed forces. Proof of disability shall be deemed conclusive if it is of record in the United States Veterans Administration.

88115. In the case of all entrance examinations, veterans with 30 days or more of service who become eligible for appointment by attaining the passing mark established for the examination, shall be

allowed an additional credit of five points and disabled veterans shall be allowed an additional credit of 10 points, which shall be added to the percentages attained in the examinations by the veterans. Veterans shall be placed on eligible lists and be eligible for appointment in the order and on the basis of the percentages attained by them in examinations after the credit of five points, or 10 points in the case of disabled veterans, is added.

88116. Whenever during the absence of an employee of a community college district or student body association operating under Sections 76060 to 76065, inclusive, in the active military service of the United States of America during any period of national emergency declared by the President of the United States of America, or during any war in which the United States of America is engaged, the position held by such employee at the time of his entrance into such military service is placed within the classified service of the district and an eligible list is established for such position through competitive examination, the employee shall, at his request made within six months after his leaving such active military service under honorable conditions, be given forthwith an examination of substantially the same character and scope as the competitive examination through which the original eligibility list was established. The grade secured by such employee in such examination shall be deemed to be the grade he would have secured had he taken the competitive examination as a veteran and he shall be placed on the original eligibility list accordingly with all the rights and privileges to which he would have been entitled had he had such place on the original eligibility list at the time of its establishment.

88117. Persons laid off because of lack of work or lack of funds are eligible to reemployment for a period of 39 months and shall be reemployed in preference to new applicants. In addition, such persons laid off have the right to participate in promotional examinations within the district during the period of 39 months.

Employees who take voluntary demotions or voluntary reductions in assigned time in lieu of layoff or to remain in their present positions rather than be reclassified or reassigned, shall be granted the same rights as persons laid off and shall retain eligibility to be considered for reemployment for an additional period of up to 24 months; provided, that the same tests of fitness under which they qualified for appointment to the class shall still apply. The personnel commission shall make the determination of the specific period of eligibility for reemployment on a class-by-class basis.

Employees who take voluntary demotions or voluntary reductions in assigned time in lieu of layoff shall be, at the option of the employee, returned to a position in their former class or to positions with increased assigned time as vacancies become available, and without limitation of time, but if there is a valid reemployment list they shall be ranked on that list in accordance with their proper seniority.

88118. Any classified employee who, after June 1, 1969, and prior

to March 7, 1973, took a voluntary demotion or voluntary reduction in assigned time in lieu of layoff, and who continues to be in such status on September 23, 1974, shall, on and after September 23, 1974, be accorded the rights and benefits of the amendments to former Section 13737 made by Chapter 1034 of the Statutes of 1972; provided, however, that no appointment to a position made from a valid employment or promotional list subsequent to March 7, 1973, and prior to August 15, 1974, shall be nullified or otherwise affected by this section.

88119. Eligibility lists shall be established for a period of not less than one year except that when a list is exhausted for appointments to current vacancies, through use and eligibles being unavailable, the commission may, upon the recommendation of the officer charged with certifying eligibles, and after due notice to eligibles who may have made themselves unavailable for appointment, terminate it before a year has expired. A list may be extended for an additional period of one year or less in the discretion of the commission.

88120. A person who has served an initial probationary period in a class not to exceed six months or 130 days of paid service, whichever is longer, as prescribed by the rules of the commission shall be deemed to be in the permanent classified service, except that the commission may establish a probationary period in a class not to exceed one year for classes designated by the commission as executive, administrative, or police classes. No employee shall attain permanent status in the classified service until he has completed a probationary period in a class. In any case the rules of the commission may provide for the exclusion of time while employees are on a leave of absence. The rights of appeal from disciplinary action prior to attainment of permanent status in the classified service shall be in accordance with the provisions of Section 88124.

88121. No person in the permanent classified service shall be demoted or removed except for reasonable cause designated by rule of the commission as detrimental to the efficiency of the service. This section shall not be construed to prevent layoffs for lack of work or lack of funds.

88122. In addition to any causes for suspension or dismissal which are designated by rule of the commission, employees in the classified service shall be suspended and dismissed in the manner provided by law for any one or more of the following causes:

(a) Knowing membership by the employee in the Communist Party.

(b) Violation of any provision in Sections 7002 to 7006, inclusive, of this code.

(c) Conduct specified in Section 1028 of the Government Code, added by Chapter 1418 of the Statutes of 1947.

88123. For reasonable causes an employee may be suspended without pay for not more than 30 days except as provided in this section or may be demoted or dismissed. In such case the personnel director shall within 10 days of the suspension, demotion, or dismissal

file written charges with the commission and give to the employee or deposit in the United States registered mail with postage prepaid, addressed to the employee at his last known place of address, a copy of the charges.

Whenever an employee of a community college district is charged with the commission of any sex offense as defined in Section 87010 or any narcotics offense as defined in Section 87011, or a violation of subdivision 1 of Section 261 of the Penal Code, Sections 11357 to 11361, inclusive, 11363, 11364, or 11377 to 11382, inclusive, insofar as such sections relate to, any controlled substances in paragraph (4) or (5) of subdivision (b) of Section 11056, or any controlled substances in subdivision (d) of Section 11054, except paragraphs (10), (11), (12), and (17) of such subdivision, of the Health and Safety Code by complaint, information or indictment filed in a court of competent jurisdiction, the governing board of the district may immediately suspend the employee for a period of time extending for not more than 10 days after the date of the entry of the court judgment; provided, that the suspension may be extended beyond such 10-day period in case the governing board gives notice within such 10-day period that it will dismiss the employee 30 days after the service of the notice, unless he demands a hearing. An employee so suspended shall continue to be paid his regular salary during the period of the suspension if and during such time as he furnishes to the district a suitable bond, or other security acceptable to the governing board, as a guarantee that the employee will repay to the district the amount of salary so paid to him during the period of the suspension in case the employee is convicted of such charges, or he does not return to service after such period of suspension. If the judgment determines that the employee is not guilty of such charges, or if the complaint, information or indictment is dismissed, the district shall reimburse the employee for the cost of the bond; or, if the employee has not elected to furnish such bond, the district shall pay to the employee his full compensation during the period of the suspension; provided, he returns to service after such period of suspension.

88124. Any employee in the permanent classified service who has been suspended, demoted, or dismissed may appeal to the commission within 14 days after receipt of a copy of the written charges by filing a written answer to the charges. Such an appeal is not available to an employee who is not in the permanent classified service except as provided by rules of the commission. An employee in the permanent classified service who has not served the time designated by the commission as probationary for the class may be demoted to the class from which promoted without recourse to an appeal or hearing by the commission, except as otherwise provided by rules of the commission; and provided, that such demotion does not result in the separation of the employee from the permanent classified service. Nothing in this section shall operate to alter the protections guaranteed under Section 88128.

88125. The commission shall investigate the matter on appeal and

may require further evidence from either party, and may, and upon request of an accused employee shall, order a hearing. The accused employee shall have the right to appear in person or with counsel and to be heard in his own defense. The decision shall not be subject to review by the governing board.

88126. If the commission sustains the employee, it may order paid all or part of his full compensation from the time of suspension, demotion, or dismissal, and it shall order his reinstatement upon such terms and conditions as it may determine appropriate. The commission may modify the disciplinary action, but may not make the action more stringent than that approved by the board. In addition, the commission may direct such other action as it may find necessary to effect a just settlement of the appeal, including, but not limited to, compensation for all or part of the legitimate expenses incurred in pursuit of the appeal, seniority credit for off-duty time pending reinstatement, transfer or change of location of the employee, and expunction from the employee's personnel record of disciplinary actions, cause, and charges which were not sustained by the commission. Upon receipt of the commission's written decision the board shall forthwith comply with the provisions thereof. When the board has fully complied with the commission's decision it shall so notify the commission in writing.

88127. Classified employees shall be subject to layoff for lack of work or lack of funds. Whenever a classified employee is laid off, the order of layoff within the class shall be determined by length of service. The employee who has been employed the shortest time in the class, plus higher classes, shall be laid off first. Reemployment shall be in the reverse order of layoff.

For purposes of this section, for service commencing or continuing after July 1, 1971, "length of service" means all hours in paid status, whether during the school year, a holiday, recess, or during any period that a school is in session or closed, but does not include any hours compensated solely on an overtime basis as provided for in Section 88027.

Nothing contained in this section shall preclude the granting of "length of service" credit for time spent on military leave of absence, or unpaid illness leave, or unpaid industrial accident leave.

"Hours in paid status" shall not be interpreted to mean any service performed prior to entering into a probationary or permanent status in the classified service of the district except service in restricted positions as provided in this chapter.

88128. Any permanent classified employee of a community college district who voluntarily resigns from his permanent classified position may be reinstated or reemployed by the governing board of the district, within 39 months after his last day of paid service and without further competitive examination, to a position in his former classification as a permanent or limited-term employee, or as a permanent or limited-term employee in a related lower class or a lower class in which the employee formerly had permanent status.

If the governing board elects to reinstate or reemploy a person as a permanent employee under the provisions of this section, it shall disregard the break in service of the employee and classify him as, and restore to him all of the rights, benefits and burdens of a permanent employee in the class to which he is reinstated or reemployed.

88129. No warrant shall be drawn by or on behalf of the governing board of any district for the payment of any salary or wage to any employee in the classified service unless the assignment bears the certification of the personnel director that the person named in the assignment has been employed and assigned pursuant to this article and the rules of the commission.

Whenever the commission, after a public hearing, finds that any appointment has been made in violation of this article or the rules of the commission as they apply to examination procedures, the commission may order that no salary warrant shall thereafter be drawn to the employee so appointed, for services rendered after the date of said order. Any violation of this article or the rules of the commission as they apply to examination procedures shall constitute grounds for the dismissal of the employee or employees guilty of such violation.

88130. The commission may conduct hearings, subpoena witnesses, require the production of records or information pertinent to investigation, and may administer oaths. It may, at will, inspect any records of the governing board that may be necessary to satisfy itself that the procedures prescribed by the commission have been complied with. Hearings may be held by the commission on any subject to which its authority may extend as described in this article.

88131. The commission may authorize a hearing officer or other representative to conduct any hearing or investigation which the commission itself is authorized by this article to conduct. Any such authorized person conducting such hearing or investigation may administer oaths, subpoena and require the attendance of witnesses and the production of books or papers, and cause the depositions of witnesses to be taken in the manner prescribed by law for like depositions in civil cases in the superior court of this state. The commission may instruct such authorized representative to present findings or recommendations. The commission may accept, reject or amend any of the findings or recommendations of the said authorized representative. Any rejection or amendment of findings or recommendations shall be based either on a review of the transcript of the hearing or investigation or upon the results of such supplementary hearing or investigation as the commission may order.

The commission may employ by contract or as professional experts or otherwise any such hearing officers or other representatives and may adopt and amend such rules and procedures as may be necessary to effectuate this section.

88132. The counsel of the governing board shall aid and represent

the commission in all legal matters, and if he refuses, the commission may employ its own attorney, and the reasonable cost thereof shall constitute a legal charge against the general funds of the district.

88133. No person who is in the classified service or who is upon any eligibility list shall be appointed, demoted, or removed, or in any way discriminated against because of his political acts, opinions, or affiliations. No person in the classified service shall engage in political activities during his assigned hours of employment.

88134. No member of the governing board in any district in which the procedure has been adopted shall directly or indirectly solicit or be concerned in soliciting any assessment, contribution, or political service of any kind whatsoever for any political purpose from any person who is in the classified service or who is upon any eligibility list.

88135. No officer or employee of any governing board of any district in which the procedure has been adopted shall directly or indirectly coerce or attempt to coerce or in any way bring pressure or attempt to bring pressure upon any other such officer or employee, to support or refrain from supporting any political group for any political purpose whatever.

88136. Any person who willfully or through culpable negligence violates any of the provisions of this article is guilty of a misdemeanor. It is also unlawful for any person:

(a) Willfully by himself or in cooperation with another person to defeat, deceive, or obstruct any person with respect to his right of examination, application, or employment under this article or commission rule.

(b) Willfully and falsely to mark, grade, estimate, or report upon the examination or proper standing of any person examined or certified under this article or commission rule, or to aid in so doing, or make any false representation concerning the same or the person examined.

(c) Willfully to furnish to any person any special or secret information regarding contents of an examination for the purpose of either improving or injuring the prospects or chances of any person examined, or to be examined under this article or commission rule.

88137. In every community college district coterminous with the boundaries of a city and county, employees not employed in positions requiring certification qualifications shall be employed, if the city and county has a charter providing for a merit system of employment, pursuant to the provisions of such charter providing for such system and shall, in all respects, be subject to, and have all rights granted by, such provisions; provided, however, that the governing board of the district shall have the right to fix the duties of all of its noncertificated employees.

88138. If the governing board of a community college district receives a written petition of qualified electors not less in number than 10 percent of the number voting in the last election for a member of the governing board calling for the termination of the

merit (civil service) system and the system has been in operation for not less than five years, the governing board shall order the county superintendent of schools to place the question of termination of the system on the ballot at the next regular governing board member election, or the next primary or general election in a general election year, whichever is the earlier after receipt by the county superintendent of schools.

The statement of purpose of the election shall read:

“Shall the merit (civil service) system for school employees not requiring certification qualifications, as provided for in Article 3 (commencing with Section 88060) of Chapter 4 of Part 51 of Division 7 of Title 3 of the Education Code of the State of California, and which has been in operation for at least five years, be terminated by the \_\_\_\_\_ School District of \_\_\_\_\_ County (or counties, where appropriate) on \_\_\_\_\_ (date to be specified by governing board)?”

The petition calling for the election, to be valid, must contain the statement of purpose for the election as contained in this section.

88139. If the majority of the qualified electors vote to terminate the merit system in a community college district, the personnel commission shall cease to function on the date specified in the election and the law pertaining to merit system districts shall cease to have any force or effect in that district.

Simultaneously, with the termination of the merit system, the governing board shall adopt rules and regulations relating to classified school employees as required by Section 88013.

Notwithstanding an action to terminate the merit system in a school district, the provisions of Section 88051 shall be applicable at any time after at least two years have elapsed after the system has ceased to operate.

#### Article 4. Salaries

88160. The governing board of any community college district, including city boards of education, shall fix and order paid the compensation of persons a part of the classified service and other employees not requiring certification qualifications employed by the board unless otherwise prescribed by law.

88161. In any community college district with an average daily attendance of more than 400,000 which includes within its boundaries a chartered city, the charter of which requires the fixing of wages and salaries at levels at least equal to the prevailing salary or wage for the same quality of service rendered to private employers under similar employment when such prevailing salary or wage can be ascertained, the governing board of the district, in fixing the compensation of classified employees, shall fix salaries or wages by use of the same standard.

88162. (a) The governing board of any community college district shall, not later than the date prescribed by law for approval

of the publication budget of every year, fix the annual salaries for the ensuing school year for all persons employed by the district in positions not requiring certification qualifications. The governing board may, at the time, include an increase in such annual salaries, all or part of which increase is conditional upon the actual receipt by the district of anticipated revenue from all sources. If the revenue actually received is less than that anticipated, the governing board may, at any time during the school year, reduce such annual salaries by an amount not to exceed the amount which was granted subject to the receipt of such revenues.

(b) The governing board of a community college district may, at any time during the school year, increase the salaries of persons employed by the district in positions not requiring certification qualifications for the remainder of the school year.

(c) A governing board may, at any time, increase the wages or salaries of classified employees if the board or, in a merit system district, the personnel commission approves a classification change in a position, a class of positions, or any or all of the positions or classes of positions a part of the classified service.

(d) The provisions of this section shall not be construed to permit a governing board to demote or dismiss an employee as a result of reclassification of a position or class of positions except as may otherwise be permitted by law.

(e) This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 3 (commencing with Section 88060) of this chapter.

88163. If the governing board of a community college district cannot comply with the provisions of subdivision (a) of Section 88162 because it is engaged in a study, which was commenced prior to the commencement of the school year, to increase the salaries and wages of persons employed by such district in positions not requiring certification qualifications, the board may, by appropriate action taken prior to the final adoption of its budget, do either of the following:

(a) Adopt an interim salary schedule which shall be the same schedule as for the preceding year, except that increases may be granted at that time based upon increased cost-of-living indexes, and provide that the salaries and wages fixed as a result of the study shall be payable for the entire school year to include the period thereof in which the study was conducted and final board action taken.

(b) Provide that the salaries and wages fixed as a result of the study shall be effective only for that portion of the school year, as determined by the board at the time it takes action after the study has been completed. "Portion of the school year," as used in this subdivision shall not be for any period of time less than the period of time remaining in the school year from the date the governing board adopts the salary schedule based on the study commenced prior to that school year.

88164. The governing board of any community college district

not paying the annual or monthly salaries of persons employed by the district in 12 equal monthly payments may withhold, upon election by the individual employee, from each payment made to such employee an amount as follows:

(a) For an employee employed 11 months of a year an amount equal to  $8\frac{1}{3}$  percent thereof and the total amount deducted to be paid not later than the 10th day of September next succeeding.

(b) For an employee employed 10 months of a year an amount equal to  $16\frac{2}{3}$  percent thereof and the total amount deducted to be paid in two equal monthly installments not later than the 10th day of August and the 10th day of September next succeeding.

(c) For an employee employed nine months a year an amount equal to 25 percent thereof and the total amount deducted to be paid in three equal monthly installments not later than the 10th day of July, the 10th day of August and the 10th day of September next succeeding.

If the provisions of Section 85244 are made applicable to any district the provisions of this section shall apply except that the amount deducted from each regular pay period and ultimate dates for payment of the amount deducted shall be computed and set in accordance with the system adopted under Section 85244.

Once an employee has elected to be brought under the provisions of this section such election shall not be revocable until the commencement of the next ensuing fiscal year. However, in the event any employee leaves the service of the district by death or otherwise before receiving such moneys as may be due him, the amount due him shall be paid within 30 days of the last working day to him or any other person entitled thereto by law.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 3 (commencing with Section 88060) of this chapter.

88165. Orders for the payment of wages and payroll orders and warrants for the payment of wages of employees a part of the classified service in any public school system shall be drawn at least once during each calendar month, for those districts not using the provisions of Sections 85244 or 85260. Such payment shall be made on the last working day of the month in which the employee was in paid status.

This section shall not prohibit a school district from making a payment of earned salary prior to the last working day of the pay period or of the month.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 3 (commencing with Section 88060) of this chapter.

88166. Whenever it is determined that an error has been made in the calculation or reporting in any classified employee payroll or in the payment of any classified employee's salary, the appointing authority shall, within five workdays following such determination, provide the employee with a statement of the correction and a

supplemental payment drawn against any available funds.

88167. The governing board of each community college district when drawing an order for the salary or wage payment due to a classified employee of the district may, without charge, reduce the order by the amount which it has been requested in a revocable written authorization by the employee to deduct for the payment of dues in, or for any other service provided by, any bona fide organization, of which he is a member, whose membership consists, in whole or in part, of employees of such district, and which has as one of its objectives improvements in the terms or conditions of employment for the advancement of the welfare of such employees.

The revocable written authorization shall remain in effect until expressly revoked in writing by the employee. Whenever there is an increase in the amount required for such payment to the organization, the employee organization shall provide the employee with adequate and necessary data on such increase at a time sufficiently prior to the effective date of the increase to allow the employee an opportunity to revoke the written authorization, if desired. The employee organization shall provide the public school employer with notification of the increase at a time sufficiently prior to the effective date of the increase to allow the employer an opportunity to make the necessary changes and with a copy of the notification of the increase which has been sent to all concerned employees.

Upon receipt of a properly signed authorization for payroll deductions by a classified employee pursuant to this section, the governing board shall reduce such employee's pay warrant by the designated amount in the next pay period following the closing date for receipt of changes in pay warrants.

The governing board shall, on the same designated date of each month, draw its order upon the funds of the district in favor of the organization designated by the employee for an amount equal to the total of the respective deductions made with respect to such organization during the pay period.

The governing board shall not require the completion of a new deduction authorization when a dues increase has been effected or at any other time without the express approval of the concerned employee organization.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 3 (commencing with Section 88060) of this chapter.

88168. Upon initial employment and upon each change in classification thereafter, each classified employee shall be furnished two copies of his class specification, salary data, assignment or work location, together with duty hours and the prescribed workweek. The salary data shall include the annual, monthly or pay period, daily, hourly, overtime and differential rate of compensation, whichever are applicable. One copy shall be retained by the employee and the other copy shall be signed and dated by the employee and returned

to his supervisor.

The provisions of this section shall not apply to short-term, limited-term, or provisional employees, as those terms are defined in this chapter.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 3 (commencing with Section 88060) of this chapter.

#### Article 5. Differential Compensation

88180. For purposes of this article, the following definitions shall apply unless the context indicates otherwise:

(a) "Differential compensation" means either a reduction in the number of hours required to be actually worked or an increase in salary.

(b) "Shift" means the number of hours worked and shall include a duty-free meal period of not less than one-half hour which, in the case of a seven- or eight-hour shift, shall occur approximately at the midpoint of the shift. This subdivision shall not apply to employees working six hours or less, or assigned to a split shift.

88181. The governing board of every community college district, or the personnel commission in any merit system district, shall, insofar as it is possible to do so, determine the practices relating to morning- and night-shift salary differentials in the private employment fields in which it must compete for employees for its classified staff and shall consider the advisability of providing comparable salary differentials for its classified staff.

88182. The governing board of any community college district may provide differential compensation to those classified employees who perform duties of a distasteful, dangerous, or unique nature when, in the opinion of the board, such compensation is reasonably justified.

In a merit system district, such differentials shall be based upon findings and recommendations of the personnel commission and shall not be applied in a manner contrary to the principle of like pay for like service.

88183. Assignment to duties for which differential compensation is designated, other than a temporary assignment of less than 20 working days, shall be made on the basis of seniority among those employees within the appropriate class who request such an assignment.

88184. No employee assigned to work a shift entitled to differential compensation shall be demoted in class or grade as a result of such an assignment.

88185. An employee receiving differential compensation on the basis of his shift shall not lose such compensation if he is temporarily, for 20 working days or less, assigned to a shift not entitled to such compensation. The regular rate of pay for all purposes of an employee assigned to a shift which provides differential

compensation shall be the differential rate.

88186. This article shall apply to community college districts that have adopted the merit system in the same manner and effect as if it were a part of Article 3 (commencing with Section 88060) of this chapter.

#### Article 6. Resignations and Leaves of Absence

88190. Governing boards of community college districts may grant leaves of absence and vacations, with or without pay, to persons employed in the classified service of the district.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 3 (commencing with Section 88060) of this chapter.

88191. Every classified employee employed five days a week by a community college district shall be entitled to 12 days leave of absence for illness or injury and such additional days, in addition thereto, as the governing board may allow for illness or injury, exclusive of all days he is not required to render service to the district, with full pay for a fiscal year of service.

A classified employee, employed five days a week, who is employed for less than a full fiscal year is entitled to that proportion of 12 days leave of absence for illness or injury as the number of months he is employed bears to 12 and the proportionate amount, consistent with this formula, of such additional days, in addition thereto, authorized by the governing board for classified employees employed five days a week for a full fiscal year of service.

A classified employee employed less than five days per week shall be entitled, for a fiscal year of service, to that proportion of 12 days leave of absence for illness or injury as the number of days he is employed per week bears to five and is entitled to the proportionate amount, consistent with this formula, of such additional days, in addition thereto, authorized by the governing board for classified employees employed five days a week for a full fiscal year of service.

When such persons are employed for less than a full fiscal year of service this and the preceding paragraph shall determine that proportion of leave of absence for illness or injury to which they are entitled.

Pay for any day of such absence shall be the same as the pay which would have been received had the employee served during the day. Credit for leave of absence need not be accrued prior to taking such leave by the employee and such leave of absence may be taken at any time during the year. However, a new employee of a district shall not be eligible to take more than six days, or the proportionate amount to which he may be entitled under this section, until the first day of the calendar month after completion of six months of active service with the district.

If such employee does not take the full amount of leave allowed in any year under this section the amount not taken shall be

accumulated from year to year with such additional days as the governing board may allow.

The governing board of each community college district shall adopt rules and regulations requiring and prescribing the manner of proof of illness or injury for the purpose of this section. Such rules and regulations shall not discriminate against evidence of treatment and the need therefor by the practice of the religion of any well-recognized religious sect, denomination or organization.

The provisions of this section shall not apply to a district or districts, governed by the same governing board, in which the combined average daily attendance of all districts is in excess of 400,000, provided such districts maintain sick leave policies not less than those in effect in such districts on January 1, 1961.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 3 (commencing with Section 88060) of this chapter.

88192. Governing boards of community college districts shall provide by rules and regulations for industrial accident or illness leaves of absence for employees who are a part of the classified service. The governing board of any district which is created or whose boundaries or status is changed by an action to organize or reorganize districts completed after January 1, 1975, shall provide by rules and regulations for such leaves of absence on or before the date on which the organization or reorganization of the district becomes effective for all purposes as provided in Section 4064.

Such rules and regulations shall include the following provisions:

(a) Allowable leave shall not be for less than 60 working days in any one fiscal year for the same accident.

(b) Allowable leave shall not be accumulative from year to year.

(c) Industrial accident or illness leave of absence will commence on the first day of absence.

(d) Payment for wages lost on any day shall not, when added to an award granted the employee under the workers' compensation laws of this state, exceed the normal wage for the day.

(e) Industrial accident leave will be reduced by one day for each day of authorized absence regardless of a compensation award made under workers' compensation.

(f) When an industrial accident or illness occurs at a time when the full 60 days will overlap into the next fiscal year, the employee shall be entitled to only that amount remaining at the end of the fiscal year in which the injury or illness occurred, for the same illness or injury.

The industrial accident or illness leave of absence is to be used in lieu of entitlement acquired under Section 88191. When entitlement to industrial accident or illness leave has been exhausted, entitlement to other sick leave will then be used; but if an employee is receiving workers' compensation the person shall be entitled to use only so much of the person's accumulated or available sick leave, accumulated compensating time, vacation or other available leave

which, when added to the workers' compensation award, provide for a full day's wage or salary.

The governing board may, by rule or regulation, provide for such additional leave of absence, paid or unpaid, as it deems appropriate and during such leave the employee may return to the person's position without suffering any loss of status or benefits.

Periods of leave of absence, paid or unpaid, shall not be considered to be a break in service of the employee.

During all paid leaves of absence, whether industrial accident leave as provided in this section, sick leave, vacation, compensated time off or other available leave provided by law or the action of a governing board, the employee shall endorse to the district wage loss benefit checks received under the workers' compensation laws of this state. The district, in turn, shall issue the employee appropriate warrants for payment of wages or salary and shall deduct normal retirement and other authorized contributions. Reduction of entitlement to leave shall be made only in accordance with this section.

When all available leaves of absence, paid or unpaid, have been exhausted and if the employee is not medically able to assume the duties of the person's position, the person shall, if not placed in another position, be placed on a reemployment list for a period of 39 months. When available, during the 39-month period, the person shall be employed in a vacant position in the class of the person's previous assignment over all other available candidates except for a reemployment list established because of lack of work or lack of funds, in which case the person shall be listed in accordance with appropriate seniority regulations.

The governing board may require that an employee serve or have served continuously a specified period of time with the district before the benefits provided by this section are made available to the person provided that such period shall not exceed three years and that all service of an employee prior to the effective date of this section shall be credited in determining compliance with the requirement.

Any employee receiving benefits as a result of this section shall, during periods of injury or illness, remain within the State of California unless the governing board authorizes travel outside the state.

In the absence of rules and regulations adopted by the governing board, pursuant to this section, an employee shall be entitled to industrial and accident or illness leave as provided in this section but without limitation as to the number of days of such leave and without any requirement of a specified period of service.

An employee who has been placed on a reemployment list, as provided herein, who has been medically released for return to duty and who fails to accept an appropriate assignment shall be dismissed.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article

3 (commencing with Section 88060) of this chapter.

88193. The governing board of any community college district may provide for such leave of absence from duty as it deems appropriate for any female employee in the classified service of the district who is required to absent herself from her duties because of pregnancy or convalescence following childbirth, and may adopt rules and regulations prescribing the manner of proof of pregnancy, the time during pregnancy at which the leave of absence shall be taken, and the length of time for which the leave of absence shall continue after birth of the child. The board may also provide in the rules and regulations whether leave granted under this section shall be with or without pay and, if with pay, the amount, if any, to be deducted from the salary due the employee for the period in which the absence occurs. However, nothing in this section shall be construed so as to deprive any employee of sick leave rights under other sections of this code for absences due to illness or injury resulting from pregnancy.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 3 (commencing with Section 88060) of this chapter.

88194. Every person employed in the classified service of any community college district shall be granted necessary leave of absence, not to exceed three days, or five days if out-of-state travel is required, on account of the death of any member of his immediate family. No deduction shall be made from the salary of such employee nor shall such leave be deducted from leave granted by other sections of this code or provided by the governing board of the district. The governing board may enlarge the benefits of this section and may expand the class of relatives listed below as members of the immediate family. Members of the immediate family, as used in this section, means the mother, father, grandmother, grandfather, or a grandchild of the employee or of the spouse of the employee, and the spouse, son, son-in-law, daughter-in-law, brother, or sister of the employee, or any relative living in the immediate household of the employee.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 3 (commencing with Section 88060) of this chapter.

88195. A permanent employee of the classified service who has exhausted all entitlement to sick leave, vacation, compensatory overtime, or other available paid leave and who is absent because of nonindustrial accident or illness may be granted additional leave, paid or unpaid, not to exceed six months. The board may renew the leave of absence, paid or unpaid, for two additional six-month periods or such lesser leave periods that it may provide but not to exceed a total of 18 months.

An employee, upon ability to resume the duties of a position within the class to which he was assigned, may do so at any time during the leaves of absence granted under this section and time lost shall not

be considered a break in service. He shall be restored to a position within the class to which he was assigned and, if at all possible, to his position with all the rights, benefits and burdens of a permanent employee.

If at the conclusion of all leaves of absence, paid or unpaid, the employee is still unable to assume the duties of his position, he shall be placed on a reemployment list for a period of 39 months.

At any time, during the prescribed 39 months, the employee is able to assume the duties of his position he shall be reemployed in the first vacancy in the classification of his previous assignment. His reemployment will take preference over all other applicants except for those laid off for lack of work or funds under Section 88117 in which case he shall be ranked according to his proper seniority. Upon resumption of his duties, the break in service will be disregarded and he shall be fully restored as a permanent employee.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 3 (commencing with Section 88060) of this chapter.

88196. When a person employed in the classified service is absent from his duties on account of illness or accident for a period of five months or less, whether or not the absence arises out of or in the course of employment of the employee, the amount deducted from the salary due him for any month in which the absence occurs shall not exceed the sum which is actually paid a substitute employee employed to fill his position during his absence.

Excepting in a district the governing board of which has adopted a salary schedule for substitute employees of the district, the amount paid the substitute employee during any month shall be less than the salary due the employee absent from his duties.

Entitlement to sick leave provisions under this section, if any, shall be considered "entitlement to other sick leave" for the purposes of computing benefits under the provisions of Section 88192 if the absence is for industrial accident or illness and shall be used after entitlement to all regular sick leave, accumulated compensating time, vacation or other available paid leave has been exhausted.

The foregoing provisions shall not apply to any community college district which adopts and maintains in effect a rule which provides that a regular classified employee shall once a year be credited with a total of not less than 100 working days of paid sick leave, including days to which he is entitled under Section 88191. Such days of paid sick leave in addition to those required by Section 88191 shall be compensated at not less than 50 percent of the employee's regular salary. The paid sick leave authorized under such a rule shall be exclusive of any other paid leave, holidays, vacation, or compensating time to which the employee may be entitled. Nothing in this section shall preclude the governing board from adopting such a rule.

88197. (a) Every community college district shall grant to regular classified employees an annual vacation at the regular rate of pay earned at the time the vacation is commenced. Such vacation

shall be as determined by the community college district, but not less than five-sixths of a day for each month in which the employee is in a paid status for more than one-half the working days in the month, provided the employee is regularly employed five days per week, seven to eight hours a day. An employee in a paid status for less than one-half the working days in a month shall have his vacation credit accrued on the basis provided for in subdivision (b) or (c).

(b) In lieu of accrual of vacation credit on a monthly basis and proration as prescribed in subdivision (a), a district may provide for accrual of vacation credit on any of the following bases:

(1) For all employees or classes of employees who work a full workweek of 40 hours the district shall provide 0.03846 hour of vacation credit for each hour of paid service, not including overtime.

(2) For all employees or classes of employees who work a full workweek of 37.5 hours the district shall provide 0.04087 hour of vacation credit for each hour of paid service, not including overtime.

(3) For all employees or classes of employees who work a full workweek of 35 hours the district shall provide 0.04379 hour of vacation credit for each hour of paid service, not including overtime.

(c) For all employees regularly employed for fewer than 35 hours a week, regardless of the number of hours or days worked per week, the vacation credit shall be computed at the rate of 0.03846 for each hour the employee is in paid status, not including overtime.

(d) Vacation may, with the approval of the employer, be taken at any time during the school year. If the employee is not permitted to take his full annual vacation, the amount not taken shall accumulate for use in the next year or be paid for in cash at the option of the governing board.

(e) Earned vacation shall not become a vested right until completion of the initial six months of employment.

(f) The employee may be granted vacation during the school year even though not earned at the time the vacation is taken.

(g) If an employee is terminated and had been granted vacation which was not yet earned at the time of termination of his services, the employer shall deduct from the employee's severance check the full amount of salary which was paid for such unearned days of vacation taken.

(h) Upon separation from service, the employee shall be entitled to lump-sum compensation for all earned and unused vacation, except that employees who have not completed six months of employment in regular status shall not be entitled to such compensation.

(i) This section shall not apply to substitute, short-term, or limited-term employees, as they are defined in Sections 88003 and 88105, unless such employees are specifically included by the public school employer.

(j) The public school employer may expand the benefits provided for in this section.

(k) This section shall apply to districts that have adopted the

merit system in the same manner and effect as if it were a part of Article 3 (commencing with Section 88060) of this chapter.

88198. When any provision of this code expressly authorizes or requires the governing board of a community college district to grant a leave of absence for any purpose or for any period of time to persons employed in positions not requiring certification qualifications, that express authorization or requirement does not deprive the governing board of the power to grant leaves of absence with or without pay to such employees for other purposes or for other periods of time, so long as the governing board does not deprive any employee of any leave of absence to which he is entitled by law.

88199. Governing boards of community college districts may grant leaves of absence to persons employed in positions not requiring certification qualifications, and at their discretion may pay compensation at such rate as the board prescribes, during the absence, to any such employee whose absence is caused by accident or illness, whether or not the absence arises out of or in the course of the employment of the employee, or because of quarantine which results from his contact with other persons having a contagious disease while performing his duties.

88200. Governing boards of community college districts may allow permanent classified employees to interrupt or terminate vacation leave in order to begin another type of paid leave without a return to active service, provided the employee supplies adequate notice and relevant supporting information regarding the basis for such interruption or termination.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 3 (commencing with Section 88060) of this chapter.

88201. The governing boards of any community college district may accept the resignation of any employee and may fix the time when the resignation shall take effect, which shall not be later than the close of the school year during which the resignation is received by the board.

88202. Any classified employee of a community college district or county superintendent of schools who has been employed for a period of one calendar year or more whose employment is terminated for reasons other than action initiated by the employer for cause and who subsequently accepts employment with another district or county superintendent of schools within one year of such termination of his former employment, shall have transferred with him to the second district or county superintendent of schools the total amount of earned leave of absence for illness or injury to which he is entitled under Section 88191. This transfer shall be in the same manner as is provided for certificated employees.

In any case where an employee was terminated as a result of action initiated by the employer for cause, such a transfer may be made if agreed to by the governing board of the district or the county superintendent of schools newly employing the employee.

All or any part of the previous service, not separated by a break in service greater than one year as of the last day of paid service, may, if agreed to by the employing entity, be construed to have been served in the new district or county superintendent of schools of employment for seniority purposes, except that such previous service may not be counted, for seniority purposes, when position or personnel reduction is ordered, for any reason, by the board.

No governing board shall adopt any policy or rule, written or unwritten, which requires all classified employees, or any individual classification, or group of classifications of employees transferring to its district to waive any part or all benefits which they may be entitled to have transferred in accordance with this section.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 3 (commencing with Section 88060) of this chapter.

88203. All employees a part of the classified service shall be entitled to the following paid holidays provided they are in a paid status during any portion of the working day immediately preceding or succeeding the holiday: January 1, February 12 known as "Lincoln Day," the third Monday in February known as "Washington Day," the last Monday in May known as "Memorial Day," July 4, the first Monday in September known as "Labor Day," September 9 known as "Admission Day," November 11 known as "Veterans Day," that Thursday in November proclaimed by the President as "Thanksgiving Day," December 25, every day appointed by the President, or the Governor of this state, as provided for in subdivisions (b) and (c) of Section 79020 for a public fast, thanksgiving or holiday, or any day declared a holiday under Section 1318 or 79022 for classified or certificated employees. School recesses during the Christmas and Easter periods shall not be considered holidays for classified employees who are normally required to work during that period; provided, however, that this shall not be construed as affecting vacation rights specified in Section 88203.

Regular employees of the district who are not normally assigned to duty during the school holidays of December 25 and January 1 shall be paid for those two holidays provided that they were in a paid status during any portion of the working day of their normal assignment immediately preceding or succeeding the holiday period.

When a holiday herein listed falls on a Sunday, the following Monday shall be deemed to be the holiday in lieu of the day observed. When a holiday herein listed falls on a Saturday, the preceding Friday shall be deemed to be the holiday in lieu of the day observed. When a classified employee is required to work on any of said holidays, he shall be paid compensation, or given compensating time off, for such work, in addition to the regular pay received for the holiday, at the rate of time and one-half his regular rate of pay.

The provisions of Article 3 (commencing with Section 79020) of Chapter 8 of Part 48 of this division shall not be construed to in any

way limit the provisions of this section, nor shall anything in this section be construed to prohibit the governing board from adopting separate work schedules for the certificated and the classified services, or from providing holiday pay for employees who have not been in paid status on the days specified herein. Notwithstanding the adoption of separate work schedules for the certificated and the classified services, on any schoolday during which students would otherwise have been in attendance but are not and for which certificated personnel receive regular pay, classified personnel shall also receive regular pay whether or not they are required to report for duty that day.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 3 (commencing with Section 88060) of this chapter.

88204. Notwithstanding the provisions of Section 88203, if a community college district establishes a position or class of positions for which employees are required to work exclusively on weekends and holidays, and for which a special salary rate is established that recognizes the exclusive weekend and holiday peculiarity, the employees and positions may be exempted, by the personnel commission, where applicable, or the governing board from the benefits of Section 88203. No governing board may create a position or a class of positions, under this section, to avoid payment of overtime.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 3 (commencing with Section 88060) of this chapter.

88205. Prior to July 1 of any school year, the governing board of any community college district may designate other days during such year as the holidays to which classified employees are entitled in lieu of the holidays on February 12 known as "Lincoln Day," the third Monday in February known as "Washington Day," the last Monday in May known as "Memorial Day," September 9 known as "Admission Day," or November 11 known as "Veterans Day" as specified in Section 88203, provided that such designated days will provide for at least a three-day weekend. Classified employees shall be required to work on the regular holiday for which another day is designated pursuant to this section, and for work of eight hours or less, shall be paid compensation at their regular rate of pay.

If any classified employee would be entitled to the regular paid holiday but would not be in a paid status during any portion of the working day immediately preceding or succeeding the day so designated in lieu of such holiday and therefore would not be entitled to such day in lieu of the holiday, he shall be entitled to the regular holiday; however, if he is required to work on such holiday, he shall be paid compensation at the rate of time and one-half of his regular rate of pay in addition to the regular pay received for the holiday.

This section shall not be construed to authorize the maintenance

of schools on holidays other than as provided in Article 3 (commencing with Section 79020) of Chapter 8 of Part 48 of this division.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 3 (commencing with Section 88060) of this chapter.

88206. Any community college district which requires any classified employee to work a workweek other than Monday through Friday, or if such classified employee consents to a workweek including Saturday or Sunday or both, pursuant to Section 87015, and as a result thereof the employee loses a holiday to which he or she would otherwise be entitled shall provide a substitute holiday for such employee, or provide compensation in the amount to which the employee would have been entitled had the holiday fallen within his or her normal work schedule.

88207. Any days of absence for illness or injury earned pursuant to Section 88191, may be used by the employee, at his election, in cases of personal necessity, including any of the following:

(a) Death of a member of his immediate family when additional leave is required beyond that provided in Section 88194 and that provided, in addition thereto, as a right by the governing board.

(b) Accident, involving his person or property, or the person or property of a member of his immediate family.

(c) Appearance in any court or before any administrative tribunal as a litigant, party, or witness under subpoena or any order made with jurisdiction.

(d) Such other reasons which may be prescribed by the governing board.

The governing board of each community college district shall adopt rules and regulations requiring and prescribing the manner of proof of personal necessity for the purpose of this section. No earned leave in excess of six days may be used in any school year for the purposes enumerated in this section.

Immediate family has the same meaning as provided in Section 88194.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 3 (commencing with Section 88060) of this chapter.

This section shall also apply to community college districts that may be exempted from the provisions of Section 88191. Authorized necessity leave shall be deducted from sick leave earned under the provisions of the exemption of Section 88191.

88208. Every regularly employed classified school employee employed by any of the following: (a) governing board of a community college district, or (b) personnel commission of a community college district which has a merit system as provided in Article 3 (commencing with Section 88060) of this chapter, shall be covered for unemployment insurance pursuant to Sections 135.3 and 605.2 of, and Article 6 (commencing with Section 821) of Chapter 3

of Part 1 of Division 1 of, the Unemployment Insurance Code.

As used in this section, "regularly employed classified school employee" includes all persons employed pursuant to Sections 1311, 72405, 72424, 88004, 88005, 88076 and 88247 and any other similar provisions heretofore or hereafter enacted. Persons serving as substitute, short-term, part-time playground, full-time day student employed part-time where enrolled, apprentice, temporary professional expert, emergency, limited term, or provisional employees or volunteers are, unless otherwise eligible, excluded from the meaning of the term.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 3 (commencing with Section 88060) of this chapter.

88209. The Director of Benefit Payments is the administrator of the system of unemployment insurance, as provided in Article 6 (commencing with Section 821) of Chapter 3 of Part 1 of Division 1 of the Unemployment Insurance Code.

#### Article 7. Retraining and Study

88220. In enacting this article the Legislature recognizes that technological and other changes are occurring which may displace otherwise desirable classified employees in the public school systems of the state. The Legislature intends that the enactment of this article will encourage classified employees to prepare themselves for the changes that are occurring and will also encourage governing boards to utilize the article to further study and retraining by classified personnel.

88221. The governing board of any community college district may grant any classified employee a leave of absence not to exceed one year for the purpose of permitting study by the employee or for the purpose of retraining the employee to meet changing conditions within the district.

The governing board may provide that such a leave of absence shall be taken in separate six-month periods or in any other appropriate periods, rather than for a continuous one-year period; provided, that the separate periods of leave of absence shall be commenced and completed within a three-year period. Any period of service by the individual intervening between the authorized separate periods shall comprise a part of the service required for a subsequent leave of absence for study or retraining purposes.

In community college districts operating under the merit system, such leaves of absence shall be granted in accordance with rules established by the personnel commission.

88222. No leave of absence shall be granted under this article to any employee for study purposes who has not rendered service to the district for at least seven consecutive years, or for retraining purposes who has not rendered service to the district for at least three consecutive years preceding the granting of the leave, and no more

than one such leave of absence shall be granted in each seven- or three-year period, respectively. The governing board, or personnel commission in merit system districts, may prescribe standards of service which shall entitle the employee to the leave of absence.

Any leave of absence granted under this article shall not be deemed a break in service for any purpose, except that such leave shall not be included as service in computing service for the granting of any subsequent leave under this article.

88223. Every employee granted a leave of absence pursuant to this article may be required to perform such services during the leave as the governing board of the district and the employee may agree upon in writing. The employee shall receive such compensation during the period of the leave as the governing board and the employee may agree upon in writing, which compensation shall be not less than the difference between the salary of the employee on leave and the salary of a substitute employee in the position which the employee held prior to the granting of the leave. However, in lieu of such difference, the board may pay one-half of the salary of the employee on leave or any additional amount up to and including the full salary of the employee on leave.

88224. Compensation granted by the governing board to the employee on leave may be paid in two equal annual installments during the first two years of service rendered in the employ of the governing board following the return of the employee from the leave of absence. The compensation shall be paid the employee while on the leave of absence in the same manner as if the employee were working for the district, upon the furnishing by the employee of a suitable bond indemnifying the governing board of the district against loss in the event that the employee fails to render at least two years' service in the employ of the governing board following the return of the employee from the leave of absence. The bond shall be exonerated in the event the failure of the employee to return and render two years' service is caused by the death or physical or mental disability of the employee. If the governing board finds, and by resolution declares, that the interests of the district will be protected by the written agreement of the employee to return to the service of the district and render at least two years' service therein following his return from the leave, the governing board in its discretion may waive the furnishing of the bond and pay the employee on leave in the same manner as though a bond is furnished.

88225. Where one governing board serves as the governing board of two or more separate districts, an employee may fulfill the service requirements provided in Sections 88222 or 88224, or both, by service in any one or more of the districts under the jurisdiction of such governing board.

88226. This article shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 3 (commencing with Section 88060) of this chapter or other applicable provisions of this code that may hereafter be enacted.

88227. The governing board of any community college district may grant reimbursement of the costs, including tuition fees, to any permanent classified employee who satisfactorily completes approved training to improve his job knowledge, ability, or skill. Programs eligible for such reimbursement shall include, but not be limited to, courses of study at approved academic institutions, seminars and training institutes conducted by recognized professional associations, and conferences, meetings and such other training programs as are designed to upgrade the classified service and to encourage retraining of employees who may otherwise be subject to layoff as the result of technological changes. Eligibility for reimbursement shall be in accordance with rules established by the personnel commission in those districts which have adopted a merit system. Provisions of this section shall not apply to any employee who is receiving training and is eligible for reimbursement by any other governmental agency, organization, or association.

#### Article 8. Instructional Aides

88240. This article may be cited as the Instructional Aide Act of 1968. The provisions of this article shall apply to personnel referred to in Section 72401 or 87404 or any other section heretofore or hereafter enacted, who perform the duties of instructional aides.

88241. The Legislature recognizes the need to provide classroom instructors and other certificated personnel with more time to instruct and to provide the means for them to utilize their professional knowledge and skills more effectively in the educational programs of the public schools. It is the intent of the Legislature to authorize the employment of instructional aides in order that classroom instructors and other certificated personnel may draw upon the services of such aides to assist them in ways determined to be useful in improving the quality of educational opportunities for students.

88242. Instructional aides shall not be utilized to increase the number of students in relation to the number of classroom teachers in any school, any community college district, or in the state. Notwithstanding the foregoing provisions, class size ratios existing in special education classes prior to November 13, 1968, may be maintained or decreased, but not increased, by use of instructional aides.

All instructional aide positions in a community college district shall be assigned the basic title of "instructional aide" or other appropriate title designated by the governing board. To provide for differences in responsibilities and duties, additions to the basic title may be assigned such as "instructional aide I or II" or "instructional aide—volunteer," or other appropriate title.

88243. As used in this article, "instructional aide" means a person employed to assist classroom instructors and other certificated personnel in the performance of their duties and in the supervision

of students and in instructional tasks which, in the judgment of the certificated personnel to whom the instructional aide is assigned, may be performed by a person not licensed as a classroom instructor.

88244. (a) Subject to the provisions of this article, any community college district may employ instructional aides to assist classroom instructors and other certificated personnel in the performance of duties as defined in Section 88243. An instructional aide shall perform only such duties as, in the judgment of the certificated personnel to whom the instructional aide is assigned, may be performed by a person not licensed as a classroom instructor. These duties shall not include assignment of grades to students. An instructional aide need not perform such duties in the physical presence of the instructor but the teacher shall retain his responsibility for the instruction and supervision of the students in his charge.

(b) Educational qualifications for instructional aides shall be prescribed by the community college district employer and shall be appropriate to the responsibilities to be assigned.

88245. Notwithstanding the provisions of Section 66015, no instructional aide shall give out any personal information concerning any student who is not his own child or ward, except under judicial process, to any person other than an instructor or administrator in the school which the student attends. A violation of this section may be a cause for disciplinary action, including dismissal.

88246. Classroom instructors and other certificated personnel shall not be required to hold a standard supervision credential or a standard administration credential as a prerequisite to the supervision and direction of instructional aides.

88247. (a) An instructional aide shall not be deemed a certificated employee for the purposes of apportioning state aid and no regrouping of students with instructional aides shall be construed as a class for apportionment purposes.

(b) Instructional aides shall be classified employees of the district, and shall be subject to all of the rights, benefits, and burdens of the classified service, except as specified in Section 88005 for "restricted" positions.

88248. The community college district shall pay to each person employed as an instructional aide compensation at a rate not less than the minimum hourly rate prescribed by federal law.

88249. Notwithstanding the provisions of this article, or any other provisions of law, a community college district may utilize volunteers in the supervision and instruction of students, but any such volunteer shall be subject to the provisions of Section 72401 and this article.

## DIVISION 8. CALIFORNIA STATE UNIVERSITY AND COLLEGES

## PART 55. CALIFORNIA STATE UNIVERSITY AND COLLEGES

## CHAPTER 1. GENERAL PROVISIONS

## Article 1. General Provisions

89000. As used in this division, "trustees" means the Trustees of the California State University and Colleges, created under Section 66600.

89001. The California State University and Colleges includes the institutions for higher education whose locations are listed in this section.

- (a) San Jose.
- (b) San Francisco.
- (c) Chico.
- (d) Humboldt.
- (e) San Diego.
- (f) Fresno.
- (g) California Polytechnic State University, San Luis Obispo.
- (h) California State Polytechnic University, at or near the Cities of San Dimas and Pomona.
- (i) Long Beach.
- (j) Los Angeles.
- (k) Sacramento.
- (l) Hayward.
- (m) San Fernando Valley.
- (n) Fullerton.
- (o) Stanislaus.
- (p) Sonoma.
- (q) San Bernardino.
- (r) Dominguez Hills.
- (s) Contra Costa.
- (t) Kern.
- (u) Redwood City.
- (v) Ventura.

89002. The campuses authorized in subdivisions (s), (u) and (v) of Section 89001 shall commence construction only upon resolution of the trustees, approved by the California Postsecondary Education Commission.

89003. The trustees shall provide the following services to the California Maritime Academy Board of Governors pursuant to contract providing for compensation, either in direct payment or by means of the exchange of services or use of facilities, to the trustees for such services:

- (a) Legal services.

(b) Legislative representation.

(c) Assistance in curriculum development to the extent requested by the board of governors.

89004. The trustees, or a designated committee thereof, shall be a board of visitors to the Board of Governors of the California Maritime Academy and shall meet with the board of governors to discuss policies and concepts common to the two institutions, and to advise the board of governors.

However, such status as a board of visitors shall in no way affect the exclusive authority of the board of governors to administer the academy, and the California State University and Colleges or the trustees shall not be legally responsible in any way for the acts or omissions of the California Maritime Academy or the board of governors.

89005. All references in any law or regulation to the "California State Colleges," to "state colleges" or to any particular state college shall be deemed to refer, respectively, to the California State University and Colleges, to the institutions of higher education which comprise the California State University and Colleges as authorized in Section 89001, and to the particular institution of higher education as named pursuant to Section 89033. All references to the California State University and Colleges shall include all campuses, branches and functions thereof. The term "campus" shall mean any of the institutions included within the California State University and Colleges specified in Section 89001.

89006. It is unlawful for any person to utilize any information, not a matter of public record, which is received by him by reason of his employment by, or contractual relationship with, the trustees, the California State University and Colleges or an auxiliary organization of the California State University and Colleges as defined in Section 89033, for personal pecuniary gain, not contemplated by the terms of such employment or contract, regardless of whether he is or is not so employed or under contract at the time such gain is realized.

89007. For the purposes of Section 11032 of the Government Code, the following constitute, among other proper purposes of like or different character, state business for officers and employees of the trustees for which the officers and employees shall be allowed actual and necessary traveling expenses:

(a) Attending meetings of any association, organization or agency having as its principal purpose the study of matters relating to education or to a particular field or fields of education, or any agency of such association.

(b) Conferring with officers or employees of this state or the United States, or appearing before committees of either house of the Congress of the United States, relative to problems relating to education in California.

(c) Conferring with officers or employees of other states engaged in the performance of similar duties.

(d) Obtaining information useful to the trustees in the conduct of their work.

The provisions of Section 11032 of the Government Code, requiring approval by the Governor and Director of Finance of traveling and expenses outside the state shall not be applicable to the officers and employees of the trustees.

## Article 2. Powers of the Trustees

89030. The trustees shall adopt rules and regulations not inconsistent with the laws of this state for:

- (a) The government of the trustees
- (b) The government of their appointees and employees
- (c) The government of the California State University and Colleges.

The rules and regulations shall be published for distribution as soon as practicable after adoption.

This section shall be liberally construed in order that the purposes of the Donahoe Higher Education Act pursuant to Part 40 (commencing with Section 66010) of Division 5 of this title, may be effectuated.

89031. The trustees may establish rules and regulations for the government and maintenance of the buildings and grounds of the California State University and Colleges. Every person who violates or attempts to violate the rules and regulations is guilty of a misdemeanor.

89032. Criteria for including the words "state university" in the name of any of the particular institutions designated in Section 89001 shall be jointly developed and approved by the Trustees of the California State University and Colleges and the California Postsecondary Education Commission.

89033. The name of any particular institution named in Section 89001 may be changed to read "California State University, \_\_\_\_\_," or "\_\_\_\_\_ State \_\_\_\_\_" (College or University, as the case may be), except that the institutions named in subdivisions (a), (b), (d), (e), (g), and (h) of Section 89001 shall be changed to read "San Jose State University," "San Francisco State University," "Humboldt State University," "San Diego State University," "California Polytechnic State University, San Luis Obispo," and "California State Polytechnic University, Pomona," respectively; provided that the term "university" may be used in the name of a particular institution only after affirmative action by the trustees and the California Postsecondary Education Commission after consideration of the criteria developed pursuant to Section 89032.

89034. The designation of the California State University and Colleges and the authority vested in the trustees to select and change the name of any institution of higher education in the California State University and Colleges shall not be construed to contravene or conflict with the provisions of Section 66608.

89035. Wherever in this code a power is vested in the trustees, the

trustees by majority vote may adopt a rule delegating such power to any officer, employee, or committee as the trustees may designate. The rule shall prescribe the limits of such delegation.

89036. The trustees may enter into agreements with any public or private agency, officer, person, or institution, corporation, association, or foundation for the performance of acts or for the furnishing of services, facilities, materials, or equipment by or for the trustees or for the joint performance of an act or function or the joint furnishing of services and facilities by the trustees and the other party to the agreement.

The trustees may enter into agreements with the federal government or any agency thereof in accordance with the procedures prescribed by the federal government or such agency in order to receive the benefits of any federal statute extending benefits to the California State University and Colleges or to the California State University and Colleges students, including, but not limited to:

(a) Agreements with any agency of the federal government for the education of persons in the service of the federal government.

(b) Agreements with any agency of the federal government for the education of veterans, provided that such agreements shall provide for payment of the maximum amount permitted under the act, or acts, of Congress under which the agreement is entered into.

Notwithstanding any other provision of law, the trustees have all power necessary to perform such acts and comply with conditions required or imposed by the federal government in order to receive such benefits. The trustees are vested with all necessary power and authority to cooperate with any such agency of the federal government in the administration of any applicable act of Congress and rules and regulations adopted thereunder.

The provisions of Article 1 (commencing with Section 4300) of Chapter 4 of Division 5, Title 1 of the Government Code shall not apply to the purchase by the trustees of musical instruments for the use of students of the California State University and Colleges.

89037. The trustees may establish facilities for training deaf persons at the campus of the California State University and Colleges which the trustees shall designate for such purpose. The trustees shall:

(a) Request the Department of Rehabilitation to refer deaf students to the designated state university or college.

(b) Recognize the designated campus of the California State University and Colleges as a professional center for training deaf persons and take all action necessary to facilitate the receipt by such campus of state and federal funds.

89038. The trustees may enter into agreements with any agency of the federal government for the construction of housing and other educational facilities for students and faculties of any campus of the California State University and Colleges under the jurisdiction of the trustees if they determine that the income, rent and charges for the use of the facilities will be sufficient in amount to repay the principal

and interest on the amount secured from the federal government for the construction of the facilities.

The trustees may also enter into agreements with any agency of the federal government which result in grants, matching funds, or any other kind of financial aid for construction of housing and other educational facilities for students and staff of any campus of the California State University and Colleges under the jurisdiction of the trustees.

Notwithstanding any other provision of law, whenever necessary to secure the full benefits of any federal statutes pertaining to loans, grants, matching funds, or any other kind of financial aid to educational institutions for housing and other educational facilities, the trustees may give such security as may be required and may comply with such conditions as may be imposed by the federal government.

89039. Notwithstanding anything to the contrary in Article 2 (commencing with Section 1940) of Chapter 2 of Part 7 of Division 2 of the Labor Code, the trustees may enter into an agreement with any political entity mentioned in Section 87422 for the exchange and employment of persons serving as teachers in state college laboratory demonstration elementary schools and employees of public schools of the political entity. The exchange and employment shall be made under comparable circumstances, subject to comparable conditions, with comparable effect as to tenure and retirement rights, subject to comparable requirements as to payment of salary and deductions therefrom, and for the same period of time as set forth in Sections 87422, 87423, and 87424 with respect to the exchange of school district employees, except that the circumstances, conditions, rights, and requirements shall be those appropriate to the employment relationship between the teachers and the trustees.

89040. The trustees may insure the owner of any motor vehicle used in driver training and employees of the California State University and Colleges and the students instructed by them against any liability, other than a liability which may be insured against under Division 4 (commencing with Section 3200) of the Labor Code, for injuries or damages resulting from the negligent operation of any motor vehicle while such motor vehicle is operated by the employees or by students in connection with the giving of instruction in the operation of motor vehicles within the curricula of the campus of the California State University and Colleges.

89041. The trustees may give in the name of the State of California such bond as may be required by the federal government, or any officer or agency thereof, for the care, safekeeping, and return of property of the United States issued to the California State University and Colleges for the Reserve Officer Training Corps unit maintained at such campus.

89042. The trustees may issue subpoenas to compel the attendance of witnesses before the trustees, or any member thereof,

in the same manner as any court in this state. Whenever the testimony of any witness upon any matter pending before them is material, the trustees shall cause the attendance of the witnesses before the trustees, or a member of the trustees, to testify concerning the matter, and the trustees may make a reasonable allowance for this purpose not exceeding the fees of witnesses in civil cases. The allowance shall be paid for out of the appropriation for the expenses of the trustees, but in no instance shall an allowance be made in favor of a witness who appears in behalf of a claimant. The provisions of this section shall not apply to proceedings conducted in accordance with Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code.

89043. The trustees shall have the powers conferred upon heads of departments of the state by Article 2 (commencing with Section 11180), Chapter 2, Part 1, Division 3, Title 2 of the Government Code.

89044. The trustees may budget an amount to be expended in accordance with rules and regulations adopted by the State Board of Control for use in carrying out the community relation responsibilities of the president of each campus of the California State University and Colleges and of the chancellor, as defined by the trustees.

89045. The trustees shall establish an internal audit staff which shall include such staff positions as may be presently authorized for internal auditing. The internal auditing staff shall report directly to the trustees and shall be available for consultation with any audit committee of the trustees which may be established by the trustees.

The duties of the internal audit staff shall include, but shall not be limited to, auditing, reviewing, cost and systems analysis, analyzing, and recommending operating procedures for the California State University and Colleges.

Management audits shall be made to determine the effectiveness and efficiency of the organization, operation, and procedures of each state college, each auxiliary organization, and the office of the chancellor. Officials and employees of each state university or college, each auxiliary organization, and the office of the chancellor shall furnish all books, papers, contracts, management charts, and related information necessary for such management audits.

89046. The trustees, with the approval of the Director of Finance, may lease any property of a state college for any purpose which they determine is not inconsistent with the functions of the California State University and Colleges, including, but not limited to:

(a) The lease of state university or college property to a nonprofit organization composed exclusively of students of the university or college or of members of the faculty of the university or college or both, for purposes related to the activities of the university or college or for the activities of student or faculty organizations;

(b) The lease of state university or college property to any nonprofit organization for the purpose of constructing and using thereon buildings as living quarters for students of the university or

college and as meetingplaces;

(c) The lease to any student or faculty organization of the college of property for the purpose of establishing and maintaining cooperative stores, and cafeterias in connection with such stores.

Any rental received under this section shall be deposited in the State Treasury and credited to the support appropriation of the California State University and Colleges current during the period of occupancy.

89047. The trustees, with the approval of the Director of General Services, and the governing board of any school district within which a campus of the California State University and Colleges is located, may enter into an agreement providing for the leasing by the state of a school building of the school district for use by such campus as a laboratory demonstration elementary school on such terms and conditions as may be agreed upon by the trustees and the governing board of the school district except as otherwise herein provided.

The lease may be for a period of not to exceed 20 years and shall in addition to any other terms and conditions set forth therein (a) require the school district to maintain the building at its own expense, (b) require such campus to maintain a school therein open to pupils of the school district residing in the attendance district for the school as established by the governing board of the district, and (c) require the school district to pay annually to the state on or before the end of each fiscal year an amount determined by computing the current expenditures per pupil in the elementary schools of the district for the fiscal year and multiplying the amount so computed by the average daily attendance for the fiscal year in the school in excess of 400.

Only the average daily attendance in the school in excess of 400 shall be credited to the school district.

The average daily attendance of pupils in the school shall be computed separately in the same manner as the average daily attendance in other schools of the same grade maintained by the school district.

### Article 3. Advisory Boards

89060. For each campus of the California State University and Colleges, except as otherwise provided in this article, there shall be an advisory board of not less than seven nor more than 13 members, who shall be appointed by the trustees. Each member of the advisory board of a campus of the California State University and Colleges shall reside in the area in which such campus is located. No person shall be appointed to serve as a member of an advisory board who at the time holds any salaried educational position, except that any member of a county board of education or of a governing board of a school district may serve on an advisory board; provided that no more than three members of an advisory board may also be members of a county board of education or a governing board of a school district.

89061. The terms of office of the members of each board shall be four years, except as otherwise provided, and they shall hold office until the appointment and qualification of their successors. The terms of the first members of each advisory board shall be fixed by the trustees and in such manner as will provide for the expiration each year of the terms of, as nearly as may be possible, one-fourth of the members.

89062. A vacancy shall be filled by appointment by the trustees. The appointee shall hold office only for the balance of the unexpired term.

89063. The members of each board shall select a chairman from the members of the board. The president of the campus of the California State University and Colleges shall be the executive secretary of the board.

89064. Each board shall consult and advise with the president of the campus of the California State University and Colleges with respect to the improvement and development of such campus.

89065. Each board shall meet at least once each year and shall meet at such other times as the chairman or executive secretary may designate.

89066. The executive secretary of each board shall keep the trustees fully informed with respect to the activities of the board and immediately following each meeting thereof shall forward to the trustees a complete report of the meeting, including all recommendations made by the board.

89067. This article does not apply to the California State Polytechnic University.

#### Article 4. Academic Year Operations

89080. It is the intent of the Legislature, while maintaining the maximum utilization of funds provided for the support of public higher education, to provide increased access to high education for all residents of this state, to permit maximum use of existing facilities and academic resources of the California State University and Colleges campuses, to provide for the orderly growth and expansion of the state's system of higher education, and to allow for effective long-range planning to meet the needs of our institutions of higher education while maintaining the quality of that education.

Thus, it is the intent of the Legislature to establish year-round operations at the California State University and Colleges where practical.

89081. The trustees shall maintain year-round operations at the following campuses: California Polytechnic State University, San Luis Obispo, California State Polytechnic University, Pomona, California State University, Los Angeles, and California State University, Hayward.

89082. Any campus of the California State University and

Colleges, other than those specified in Section 89081, which has a full-time equivalent academic year enrollment of 10,000 or greater shall operate on a year-round basis within two years of the effective date of an appropriation by the Legislature of sufficient planning money to effectuate an orderly transition of campus operations to the year-round basis.

89083. All student fees and charges established for an academic year shall be uniformly allocated over all the terms of operation under this article.

89084. Any campus of the California State University and Colleges which operates on a year-round basis on November 23, 1970, shall continue to operate on such basis.

## CHAPTER 2. EDUCATION PROGRAMS

### Article 1. Noncommercial Television

89200. The trustees, on behalf of any campus of the California State University and Colleges, may enter into contracts for the purpose of participating in or the procuring or transmitting of television broadcasts, may purchase broadcast time over, and may own, lease and operate television transmitting facilities for use in providing educational, noncommercial television broadcasts, and may provide necessary services in connection therewith.

### Article 2. Laboratory Classes for Exceptional Children

89210. It is the intent and purpose of the Legislature in providing for the establishment at or in conjunction with individual state universities or colleges, under this article, of laboratory classes for exceptional children, to accomplish the following general aims:

(a) Improve programs presently offered within the California State University and Colleges system for the training of teachers in the education of exceptional children, and afford prospective teachers with direct experience with typical exceptional children.

(b) Provide facilities and workshops where needed systematic continuing research in the development of methods, means, and techniques in teaching of exceptional children shall be conducted.

(c) Accelerate the recruitment and training of prospective teachers of exceptional children and provide in-service training for credentialed teachers to improve their skills.

(d) Provide a combined and comprehensive university or college level program of research and teacher training to meet the needs of exceptional children such as will serve to attract and effectively utilize available public and private funds and grants.

(e) Provide for increased and improved special educational services for exceptional children through cooperation and coordination with local school districts and county offices.

89211. For purposes of state financial support, the laboratory

classes for exceptional children established at or in conjunction with state universities or colleges under this article shall be separately budgeted for in each budgeting request submitted by the California State University and Colleges, and in the Budget Act.

89212. The trustees are authorized to accept and devote to the financial support of any of the laboratory classes for exceptional children maintained in conjunction with any state university or college, any federal funds and any other public or private funds which may be allotted or granted for such purposes, and shall have the power to take all measures necessary to effect compliance with the terms and conditions under which such an allotment or grant may be made.

### Article 3. Vocational Teachers

89220. There is hereby continued in existence a board of examiners for vocational teachers. The board shall consist of the Commission for Vocational Education, as created and established by the State Board of Education and two other members, selected by the trustees who are presidents of state colleges and who shall hold office at the pleasure of the trustees.

89221. The board shall set up an examination or shall evaluate the qualifications of vocational teachers desirous of qualifying for the baccalaureate degree. The evaluation shall be based upon the education, completion of approved vocational teacher training, occupational experience, supervisory experience, and managerial experience of the candidate. The board is authorized to recommend to state colleges the number of units to be allowed towards a baccalaureate degree, but shall not recommend that a candidate be granted more than 40 units for occupational experience, supervisory experience and managerial experience. The evaluation shall be at the discretion of the board.

89222. On the basis of the examination and an evaluation of the candidate's experience and other qualifications made by the board, it shall recommend the granting of a baccalaureate degree in vocational arts by the California State University and Colleges.

89223. Any candidate for a baccalaureate degree shall be a high school graduate, shall have had not less than seven years actual experience in the trade or occupation in which he desires to qualify, and shall have had a minimum of 1,620 hours teaching experience in an approved vocational class, or 1,000 hours teaching experience in an approved trade extension class.

In lieu of the educational qualifications, the board may evaluate and make recommendations concerning such other qualifications as it deems applicable for persons lacking the formal educational qualifications.

#### Article 4. Instructionally Related Activities

89230. "Instructionally related activities" are those activities and laboratory experiences which are at least partially sponsored by an academic discipline or department and which are, in the judgment of the president of a particular campus, with the approval of the trustees, integrally related to its formal instructional offerings.

Activities which are considered to be essential to a quality educational program and an important instructional experience for any student enrolled in the respective program may be considered instructionally related activities.

Instructionally related activities include, but are not limited to:

(a) Intercollegiate athletics: costs which are necessary for a basic competitive program including equipment and supplies and scheduled travel, not now provided by the state. Athletic grants should not be included.

(b) Radio, television, film: costs related to the provisions of basic "hands-on" experience not now provided by the state. Purchase or rental of films as instructional aids shall not be included.

(c) Music and dance performance: costs to provide experience in individual and group performance, including recitals, before audiences and in settings sufficiently varied to familiarize students with the performance facet of the field.

(d) Drama and musical productions: basic support of theatrical and operatic activities sufficient to permit experience not only in actual performance but production, direction, set design and other elements considered a part of professional training in these fields.

(e) Art exhibits: support for student art shows given in connection with degree programs.

(f) Publications: the costs to support and operate basic publication programs including a periodic newspaper and other laboratory experience basic to journalism and literary training. Additional publications designed primarily to inform or entertain should not be included.

(g) Forensics: activities designed to provide experience in debate, public speaking, and related programs, including travel required for a competitive debate program.

(h) Other activities: activities associated with other instructional areas which are consistent with purposes included in the above may be added as they are identified.

Pursuant to this section and other provisions of this code the Chancellor of the California State University and Colleges shall develop a program of fiscal support, and shall consult with the Student Presidents' Association, the Academic Senate, and the Chancellor's Council of Presidents regarding such program.

The provisions of this section shall not become operative unless funds are appropriated to meet the instructionally related needs of the campuses of the California State University and Colleges.

### Article 5. Athletic Programs

89240. It is the intent of the Legislature that opportunities for participation in athletics be provided on as nearly an equal basis to male and female students as is practicable, and that comparable incentives and encouragements be offered to females to engage in athletics.

It is the further intent of the Legislature that females be given the same opportunity to participate in athletics and compete with other females in individual and team athletics as is available to males who participate with other males in individual and team athletics.

89241. Insofar as practicable, from the total amount of funds available for athletics from the General Fund, the trustees shall ensure that reasonable amounts will be allocated to male and female students, except that allowances may be made for differences in the costs of various athletic programs.

89242. The trustees shall report annually to the Legislature on the progress made in providing comparable incentives and encouragements to females to engage in athletics.

89243. (Repealed by Stats. 1976, Ch. 1011.)

[ORIGINAL SECTION]

89243. The president of each campus of the California State University and Colleges shall provide for the annual cleaning, sterilizing, and necessary repair of football equipment of his campus of the California State University and Colleges pursuant to Sections 90511 and 90512.

89244. (Repealed by Stats. 1976, Ch. 1011.)

[ORIGINAL SECTION]

89244. All football equipment actually worn by pupils shall be cleaned and sterilized at least once a year. Football equipment used in spring training shall be cleaned and sterilized before it is used in the succeeding fall term.

89245. (Repealed by Stats. 1976, Ch. 1011.)

[ORIGINAL SECTION]

89245. Any contract with a dealer or craftsman for the repair of football equipment belonging to the district or the state college shall specifically state or describe the materials to be used by the dealer or craftsman in repairing such equipment.

## CHAPTER 3. STUDENTS

### Article 1. Student Body Organizations

89300. A student body organization may be established at any state college or university under the supervision of the college or university officials for the purpose of providing essential activities closely related to, but not normally included as a part of, the regular instructional program of the college or university. Such an organization may also operate a campus store, a cafeteria, and other projects not inconsistent with the purposes of the college or university, and property of the college or university may be leased to such an organization for such purposes.

The trustees may fix fees for voluntary membership in such

organization established at a state college or university.

Notwithstanding any provisions of law to the contrary, if a student body organization is established at any state college or university, upon the favorable vote of two-thirds of the students voting in an election held for this purpose, in such manner as the trustees shall prescribe, and open to all regular students enrolled in such college or university, the trustees shall fix a membership fee which shall be required of all regular, limited and special session students attending such college or university. No fees shall be charged to students registering solely in extension classes.

Such required fee shall be subject to referendum at any time upon the presentation of a petition to the president of the college or university containing the signatures of 20 percent of the regularly enrolled students at such college or university. A successful referendum shall take effect with the beginning of the academic year following that in which the election was held.

Payment of membership fees pursuant to this section shall be a prerequisite to enrollment in the college or university, except that if sufficient funds are available any state college or university student may at his option and subject to the regulations of the trustees establishing standards in that regard, agree to work off the amount of the fee at the prevailing rate of the college or university for student assistants. The trustees may adopt regulations setting standards for determining which students shall be eligible to work off the amount of the fee. No student shall be required to pay student body membership fees in an aggregate amount exceeding twenty dollars (\$20) per academic year.

The revenues raised pursuant to this section may, in addition to expenditures for other lawful purposes involved in the operations of the student body organization, be expended to provide for the support of governmental affairs representatives who may be attending upon the State Legislature or upon offices and agencies in the executive branch of the state government.

89301. Notwithstanding any provision of law to the contrary, except as provided pursuant to Section 89707.5 with respect to nonresident students who are citizens and residents of a foreign country and who are not citizens of the United States, student body organization membership fees authorized under the provisions of Section 89300 hereof shall be collected by the officials of the college, together with all tuition and material and service fees, at the time of registration. All unexpended funds and money collected on behalf of or by student body organizations, except funds and money collected from commercial services as provided in Section 89905, shall, with the approval of an appropriate officer of the student body organization, be deposited in trust by the chief fiscal officer of the state college and such money shall, subject to the approval of the trustees, be deposited or invested in any one or more of the following ways:

- (a) Deposits in trust accounts of the centralized State Treasury

system pursuant to Sections 16305 to 16305.7, inclusive, of the Government Code or in the State Colleges Trust Fund or in a bank or banks whose accounts are insured by the Federal Deposit Insurance Corporation.

(b) Investment certificates or withdrawable shares in state-chartered savings and loan associations and savings accounts of federal savings and loan associations, provided such associations are doing business in this state and have their accounts insured by the Federal Savings and Loan Insurance Corporation; and provided further that any money so invested or deposited is invested or deposited in certificates, shares, or accounts fully covered by such insurance.

(c) Purchase of any of the securities authorized for investment by Section 16430 of the Government Code or investment by the State Treasurer in those securities.

(d) Participation in funds which are exempt from federal income tax pursuant to Section 501(c)(3) of the Internal Revenue Code and which are open exclusively to nonprofit colleges, universities, and independent schools.

All moneys received by a state college from any agency of the state or federal government for the payment of student body organizations membership fees of students attending the college shall be deposited or invested as provided above.

89302. All money collected by a campus of the California State University and Colleges on behalf of a student body organization under Sections 89046, 89047, 89300, 89301 and 89750, shall be available for such purposes of the student body organization as are approved by the trustees.

The chief fiscal officer of each campus of the California State University and Colleges shall be custodian of these moneys and provide the necessary accounting records and controls thereof.

These funds may be expended by the custodian only upon the submission of an appropriate claim schedule by officers of the student body organization.

The campus of the California State University and Colleges shall be reimbursed by the student body organization an amount to cover the cost of the custodial and accounting services provided by the campus of the California State University and Colleges in connection with these funds.

Student body funds used for scholarships, grants-in-aid, stipends, loans, and similar expenditures shall conform to the regulations of the trustees, which shall be adopted by February 27, 1970, and shall be approved by the college financial aids office before such funds are expended and shall be reflected on the student's record kept in that office. The student's financial aid record shall include all such funds received by the student.

89303. The trustees may provide for the construction of a building to serve as a student body center to be financed entirely or in part by fees required of students as authorized in Section 89304

pursuant to the provisions of the State College Revenue Bond Act of 1947.

89304. Upon the favorable vote of two-thirds of the students voting in an election held for the purpose at a state college, in such manner as the trustees shall prescribe, and open to all regular students enrolled in the university or college, the trustees are authorized to fix, in addition to any other student fee the trustees are authorized to fix, a building and operating fee not to exceed twenty dollars (\$20) per student per academic year which shall be required of all students attending the university or college. All unexpended funds and money collected by any state college under this section shall be available for financing, operating and constructing a student body center, and until so used, shall, subject to the approval of the trustees, be deposited or invested in trust by the chief fiscal officer of that university or college in any one or more of the following ways:

(a) Deposits in trust accounts of the centralized State Treasury system pursuant to Sections 16305 to 16305.7, inclusive, of the Government Code or in the State Colleges Trust Fund or in a bank or banks whose accounts are insured by the Federal Deposit Insurance Corporation.

(b) Investment certificates or withdrawable shares in state-chartered savings and loan associations and savings accounts of federal savings and loan associations; provided such associations are doing business in this state and have their accounts insured by the Federal Savings and Loan Insurance Corporation; and provided further that any money so invested or deposited is invested or deposited in certificates, shares, or accounts fully covered by such insurance.

(c) Purchase of any of the securities authorized for investment by Section 16430 of the Government Code or investment by the State Treasurer in those securities.

(d) Participation in funds which are exempt from federal income tax pursuant to Section 501(c)(3) of the Internal Revenue Code and which are open exclusively to nonprofit colleges, universities, and independent schools.

The chief fiscal officer of each college shall be custodian of those moneys and provide the necessary accounting records and controls thereof.

The state university or college shall be reimbursed from these funds in an amount to cover the cost of the custodial and accounting services provided by the university or college in connection with these funds.

These funds may be expended by the custodian only upon the submission of an appropriate claim schedule by an elected representative of the student body or his appointee.

## Article 2. Travel Expenses

89310. The trustees may authorize the allowance of actual and necessary traveling expenses to students, who are serving on study teams, task forces, or similar groups formed by the trustees or by the office of the chancellor, and are attending meetings of any association, organization, or agency having as its principal purpose the study of matters relating to education at state universities and colleges or to a particular field or fields of education at the state universities and colleges. Traveling expenses shall not be allowed with respect to student lobbyists or representatives in Sacramento or for travel out of the state.

The provisions of Section 11032 of the Government Code shall not apply to allowances authorized by this section.

Article 4. Pilot Project for California Residents 60  
Years of Age or Older

89330. The Trustees of the California State University and Colleges may authorize the establishment at two institutions of the California State University and Colleges of a two-year pilot project which allows persons 60 years of age or older to enroll in regular credit courses without requiring the payment of the application for admission fee or regular session registration fees.

89331. The pilot project established pursuant to this article shall be maintained in accordance with the following standards:

(a) Enrollment shall be limited to qualified persons who are residents, as defined by Section 68017, and are 60 years of age or older on the residence determination date.

(b) Persons enrolling in the project shall be registered last, after regular students have been registered for classes.

(c) No special classes limited to, or designed particularly for, senior citizens shall be established.

89332. Fee waivers authorized pursuant to this article shall not be in place of fee waivers for disadvantaged students.

89333. The Trustees of the California State University and Colleges shall adopt regulations for the effective administration of this article.

89334. The Trustees of the California State University and Colleges shall make a preliminary report after the first year of the pilot project established pursuant to this article and a final report after the second year of the pilot project to the Governor, the Legislature, and the California Postsecondary Education Commission on the operation of the pilot project, including, but not limited to, the characteristics of the students participating in the pilot project and a breakdown of the costs incurred.

89335. This article shall remain in effect only until July 1, 1978, and as of that date is repealed.

## CHAPTER 4. CHILD DEVELOPMENT CENTERS

## Article 1. General Provisions

89400. The Trustees of the California State University and Colleges and any other public or private nonprofit agency may contract with the Department of Education to establish and maintain a child development center on or near each state university or college campus pursuant to the provisions of Chapter 2 (commencing with Section 8200) of Part 6 of Division 1 of Title 1.

89401. The trustees and any other public or private nonprofit agency may contract with the Department of Education to establish and maintain such campus child development centers. Such operating agencies may accept student fees, parent fees, and private funds to operate child development centers and may be reimbursed for eligible costs pursuant to Sections 16708 and 16780.

89402. Notwithstanding any other provision of law, children under two years of age whose parent or parents are students may attend child development centers consistent with the priorities established.

89403. Children of students of that particular campus shall have first priority for attendance at a campus child development center.

Student families, as defined in Section 8250.1, whose gross monthly income falls within the fee schedule established pursuant to Section 8249 shall pay fees according to the fee schedule.

Highest priority shall be given to student families with the greatest income deficit, and lowest priority to student families with the greatest income.

For the purposes of assigning eligibility priority, applicant student families shall be grouped according to the amount of their income in one-hundred-dollar (\$100) monthly increments. All student families with a particular income range shall be treated as if their incomes were the same, and priority for eligibility within each particular income range shall be assigned on the following basis:

(1) Single-parent student families.

(2) Two-parent families, where both parents are students or where one parent is a student and the other is working.

Student families who are recipients of public assistance shall be subject to the same assignment of priority as other student families whose incomes fall in the same income range.

89404. Each child development center maintained pursuant to Section 89400 shall have an advisory council, composed of representatives of the parent-users and persons from fields related to the well-being of children.

## Article 2. San Francisco State University

89410. The California State University, San Francisco may maintain a child care center as an integral part of the state university.

The center shall be used for observation, demonstration, study, student experience, and student teaching.

89411. The trustees shall determine the fee which the state university shall charge the parents or guardian of any child admitted to the center. All fees shall be used to reimburse the state university for the cost of operating and maintaining the center.

89412. No child shall be admitted to the center unless he meets the requirements for admittance to a child development center.

89413. The budget for the center may be prepared and submitted to the trustees with the budget of the state university.

## CHAPTER 5. PERSONNEL

### Article 1. General Provisions

89500. Notwithstanding any other provision of law, the trustees shall provide by rule for the government of their appointees and employees, pursuant to the provisions of this chapter and other applicable provisions of law, including, but not limited to, appointment, classification, terms, duties, pay and overtime pay, leave of absence, tenure, vacation, layoff, dismissal, demotion, suspension, sick leave and reinstatement.

The rules adopted by the trustees relating to tenure, layoff, dismissal, demotion, suspension, and reinstatement of academic and administrative employees shall be adopted on or before February 1, 1962 and become effective on July 1, 1962, with respect to employees who are academic teaching and administrative employees as defined in subdivision (1) (e) of Section 24301 as added by Chapter 1010 of the Statutes of 1972.

89501. The trustees shall make an annual report to the Governor and to each house of the Legislature on matters pertaining to and affecting the salaries, wages, hours of work, conditions of work and other matters relating to personnel under the jurisdiction of the trustees. The report shall be filed with the Governor and each house of the Legislature within five days after the opening day of the Legislature in each year.

89502. It is the policy of the state that the workweek of the employees of the California State University and Colleges shall be 40 hours, and the workday of such employees eight hours, except that workweeks and workdays of a different number of hours may be established in order to meet the varying needs of the different campuses and facilities. It is the policy of the state to avoid the necessity for overtime work whenever possible.

This policy does not restrict the extension of regular working-hour schedules on an overtime basis when such action is necessary to carry on the business of the California State University and Colleges properly during a manpower shortage.

The trustees may provide for the payment of overtime in designated classes for work performed after the normal scheduled

workday or normal scheduled workweek, when such designation is appropriate to such designated class.

89503. (a) The trustees may authorize payments into a private fund to provide health and welfare benefits to nonpermanent employees of the class specified in Section 18853 of the Government Code employed by the trustees, upon a finding by the trustees as to any such position that the criteria stated in Section 18853.5, subdivision (a), of the Government Code are satisfied.

(b) Payments made by the state pursuant to this section to any such fund on behalf of any employees shall be in lieu of benefits such as vacation allowance, sick leave, and retirement which are now or may hereafter be granted directly by the state in accordance with law.

(c) The trustees are empowered to determine the equitable application of this section to insure that the employees receive benefits comparable to, but not in excess of, those provided in comparable private employment.

(d) The payments authorized by this section shall be a proper charge against any funds available for the support of the California State University and Colleges.

89504. Upon separation from service, without fault on his part, a nonacademic employee is entitled to a lump-sum payment as of the time of separation for any unused or accumulated vacation or for any time off to which he is entitled by reason of previous overtime work where compensating time off for overtime work is provided for by the trustees.

Such sum shall be computed by projecting the accumulated time on a calendar basis so that the lump sum will equal the amount which the employee would have been paid had he taken the time off but not separated from the service. A nonacademic employee separated from service through fault of his own is entitled to a lump-sum payment for such compensating time off for overtime work, similarly computed, and in addition, such portion, if any, of unused vacation as the trustees may determine.

89505. The trustees, subject to such conditions as they may establish, may purchase annuity contracts for any of their employees, and shall reduce the salary of any such employee for whom such contract is purchased in the amount of the cost thereof; provided that each of the following conditions are met:

(a) The annuity contract is under an annuity plan which meets the requirements of Section 403(b) of the Internal Revenue Code of 1954 of the United States.

(b) The employee makes application to the trustees for such purchase and reduction of salary.

(c) All provisions of the Insurance Code applicable to the purchase of such annuities are satisfied.

89506. The trustees, subject to such conditions as they may establish, may enter into contracts of group life insurance and contracts of group disability insurance or protection with respect to

any class of their employees they may designate or with respect to all such employees, with any insurer, medical service plan, or nonprofit hospital service plan corporation they may select; provided, that all applicable provisions of state law relating to any such coverage, or to the qualifications of the provider of coverage, are satisfied.

89507. The trustees, subject to such conditions as they may impose, may establish a program of motor vehicle liability and automobile insurance with respect to any class of their employees they may designate or with respect to all such employees, with any insurer or insurers, insurance broker or brokers, or insurance agent or agents, they may select, provided that all applicable provisions of the Insurance Code relating to any such insurance, or to the qualifications of the insurer, broker, or agent, are satisfied. The premiums of such a program of insurance shall be borne by the employees participating therein.

89508. Each person holding a four-year term appointment under Section 80507 on June 30, 1961, regardless of when the term commenced, shall on that date be entitled to all personnel benefits and rights under the law which would have attached to his position if he had been appointed and had served throughout his state college employment under the provisions of law applicable to persons serving under appointments made pursuant to Article 2 (commencing with Section 89530) of this chapter.

On and after July 1, 1961, each such person shall be entitled to all personnel benefits and rights conferred by Section 66609 of this code upon state employees appointed pursuant to said Article 2 and transferred to the Trustees of the California State University and Colleges by that section.

89509. The employment of any employee of the trustees, excepting those employees who on October 1, 1949, and on September 7, 1955, were members of the State Teachers' Retirement System, shall terminate on the first day of the calendar month next succeeding that in which he attains mandatory retirement age, except as provided in this section.

An academic or administrative employee may elect to continue in active service until the end of the college term or academic year during which he attains mandatory retirement age. An academic employee who reaches the mandatory retirement age, if mentally and physically sound, may be employed from year to year without tenure, for the good of the service, at the discretion of the trustees. The payment of retirement allowances by either the State Teachers' Retirement System or the Public Employees' Retirement System, or both of said systems, to such a person employed from year to year shall be suspended during the period of such employment or reemployment and such suspension shall not serve to reinstate such a person to membership in either of said systems. If a person should die during such a period of suspension, said systems shall pay any death benefits that would have been payable had the death not

occurred during such a period. A period of suspension shall end on the last day of the month during which such employment or reemployment is terminated. Said systems shall then resume the payment of the retirement allowance to such a person without change from what it was at the beginning of the latest period of suspension except for any change in the provisions governing the calculation of the allowance which was made during said period and made applicable to the persons then retired.

Any person over the mandatory retirement age who otherwise has the qualifications of an academic or administrative employee and who is not retired under the State Teachers' Retirement System or the Public Employees' Retirement System, if mentally and physically sound, may be employed from year to year without tenure at the discretion of the trustees. Such employment shall not entitle him to become a member of nor serve to reinstate him as a member of either of said systems.

As used in this section, "mandatory retirement age" means the mandatory retirement age as provided in Government Code Section 20981.

89510. The trustees may grant a leave of absence without compensation, for not to exceed one year, to any nonacademic employee after he has been employed by them for not less than one year. A leave of absence may be granted to a nonacademic employee with less than one year of service but only for the reason that he is temporarily incapacitated by illness.

89511. A leave of absence granted pursuant to Section 89510 to any nonacademic employee may be extended for not to exceed one year by the trustees except that during any national emergency declared by the President of the United States of America, such a leave of absence may be extended from year to year by the trustees.

89512. Upon the expiration of the leave of absence granted pursuant to Section 89510 or 89511 the employee to whom the leave of absence was granted is entitled to reinstatement in the position he held at the time the leave of absence was granted him, if the position is still in existence, or to any other comparable existing vacant position for which he is qualified.

89513. Every employee who has entered or who hereafter enters the active military service of the United States of America or of the State of California, including active service in any uniformed auxiliary of, or to, any branch of such military service created or authorized as such auxiliary by the Congress of the United States of America or by the Legislature of the State of California, or in the full-time paid service of the American Red Cross, during any period of national emergency declared by the President of the United States of America or during any war in which the United States of America is engaged, shall be deemed to have been entitled or shall be entitled to absent himself from his duties.

Within six months after such employee honorably leaves such service or has been placed on inactive duty he shall be entitled to

return to the position held by him at the time of his entrance into such military service, at the salary to which he would have been entitled had he not absented himself from his duties.

89514. The time during which an employee of the trustees is on leave of absence without compensation shall not be credited toward retirement under any retirement system of the state. If such employee receives compensation during such leave of absence the time for which he receives such compensation shall be credited toward retirement. The period of any leave of absence shall not be construed as a break in the continuity of service required toward retirement.

89515. The trustees shall eliminate all policies which detrimentally and unreasonably affect the employment status of females hired by the California State University and Colleges. To accomplish this purpose, the trustees shall:

(a) Review hiring, wages, job classifications, and advancement practices as applied to female employees and take corrective measures where inequities exist;

(b) Review selection procedures utilized for employment of female employees to determine disparate selection practices;

(c) Assure opportunity of advancement for qualified female employees to executive positions within departments and divisions.

89516. The trustees may establish rules and regulations which allow academic employees to reduce their workload from full-time to part-time duties.

Such regulations shall include but shall not be limited to the following if such employees wish to reduce their workload and maintain retirement benefits pursuant to Section 20815 of the Government Code.

(a) The employee must have reached the age of 55 prior to reduction in workload.

(b) The employee must have been employed full time as an academic employee for at least 10 years of which the immediately preceding five years were full-time employment.

(c) The option of part-time employment must be exercised at the request of the employee and can be revoked only with the mutual consent of the employer and the employee.

(d) The employee shall be paid a salary which is the pro rata share of the salary he would be earning had he not elected to exercise the option of part-time employment but shall retain all other rights and benefits for which he makes the payments that would be required if he remained in full-time employment.

The employee shall receive health benefits in the same manner as a full-time employee.

This section shall only be applicable to academic teaching employees who receive no higher salary than the maximum paid to a department chairman.

89517. The minimum and maximum salary limits for laborers, workmen, and mechanics employed on an hourly or per diem basis

need not be uniform throughout the state, but the trustees shall ascertain, as to each such position, the general prevailing rate of such wages in the various localities of the state.

In fixing such minimum and maximum salary limits within the various localities of the state, the trustees shall take into account the prevailing rates of wages in the localities in which the employee is to work and other relevant factors, and shall not fix the minimum salary limits below the general prevailing rate so ascertained for the various localities.

89518. Any librarian employed by the trustees on a 12-month basis in a fiscal year has the right to elect to be employed for one or more fiscal years on a 10-month basis. The compensation of any librarian making the election shall be reduced for any such fiscal year in the same proportion as the compensation of instructional academic employees whose fiscal year employment basis is changed from a 12-month basis to a 10-month basis.

## Article 2. Appointment, Tenure, Layoff and Dismissal of Employees

89530. (a) As used in this article, unless the context otherwise requires:

(1) "Dismissal" means dismissal for cause.

(2) "Layoff" means separation from a position for lack of funds or lack of work.

(3) "Probation" means the period an employee must serve before becoming entitled to permanent employment.

(4) "Permanent" means that the employee has a right to continued employment unless dismissed or laid off.

(b) This article does not apply to the California State University and Colleges presidents.

(c) This article does not apply to student assistants.

89531. Every nonacademic employee shall be appointed for one year which is a probationary period. On reappointment for the second year, the employee shall be permanent at the same level and salary step or higher salary step as at completion of the probationary year.

89532. All vacant nonacademic positions shall, as far as practicable and consistent with the best interest of the California State University and Colleges be filled from qualified nonacademic employees serving in lower positions in the same or related series.

89533. Any nonacademic employee shall be required to serve only one probationary period to gain permanent status in a position or in a substantially similar position. If such an employee is promoted to a position with substantially different duties or to a position that requires additional duties and abilities, he shall serve an additional probationary period; but if he does not become permanent in the new position, he shall have the right to return to any class in which he was permanent or to the class in which he was serving before his

promotion. An employee who is promoted before he completed the probationary period in the lower class and is returned to such class without having become permanent in the new position shall receive credit toward permanent status in the lower class for the period of time he had previously performed satisfactorily therein. An employee who is promoted before he completed the probationary period in the lower class shall earn permanent status in the lower class at the end of one year from the original appointment date in the lower class, provided the duties in the higher class are substantially similar to the duties in the lower class and the employee's performance in both classes has been satisfactory.

89534. The trustees shall adopt rules prescribing the form, time and method of notice of rejection at any time during the probationary period to any probationary nonacademic employee, or notice of intention not to recommend reappointment of an academic employee for the succeeding year to any such employee not having permanent status.

89535. Any permanent or probationary employee may be dismissed, demoted, or suspended for the following causes:

- (a) Immoral conduct.
- (b) Unprofessional conduct.
- (c) Dishonesty.
- (d) Incompetency.
- (e) Addiction to the use of narcotics or habit-forming drugs.
- (f) Failure or refusal to perform the normal and reasonable duties of the position.
- (g) Conviction of a felony or conviction of any misdemeanor involving moral turpitude.
- (h) Fraud in securing appointment.
- (i) Drunkenness on duty.

89536. Any permanent or probationary employee who is physically or mentally unfit for the position occupied may be suspended, demoted, or dismissed pursuant to the provisions of Sections 89538, 89539, and 89540.

89537. "Unprofessional conduct" as used in Section 89535 includes, but is not limited to:

(a) Membership in, or active support of, a "communist front," a "communist action" organization, or a communist organization, as those terms are now defined in the act of the Congress of the United States designated as "Internal Security Act of 1950."

(b) Persistent active participation in public meetings conducted or sponsored by an organization mentioned in subdivision (a) of this section.

(c) Willful advocacy of the overthrow of the government of the United States or of the state, by force, violence or other unlawful means, either on or off the campus.

(d) Willful advocacy of communism, either on or off the campus, for the purpose of undermining the patriotism of pupils, or with the intent to indoctrinate any student with communism or inculcate a

preference for communism in the mind of any student.

89538. Notice of dismissal, demotion, or suspension for cause of an employee shall be in writing, signed by the chancellor or his designee and be served on the employee, setting forth a statement of causes, the events or transactions upon which the causes are based, the nature of the penalty and the effective date, and a statement of the employee's right to answer within 20 days and request a hearing before the State Personnel Board.

Notice of the reassignment of an administrative employee pursuant to Section 66609 shall be in writing and shall be served on the employee setting forth a statement of the employee's right to answer within 20 days and request a hearing before the trustees but only on the question of whether the position to which he is reassigned is commensurate with his qualifications.

89539. Any employee dismissed, suspended, or demoted for cause may request a hearing by the State Personnel Board by filing such a request, in writing, with the board within 20 days of being served with the notice. The request may be on the grounds that the required procedure was not followed; that there is no ground for dismissal, suspension, or demotion; that the penalty is excessive, unreasonable, or discriminatory; or that the employee did not do the acts or omissions alleged as the events or transactions upon which the causes are based; or that the acts or omissions alleged as the events or transactions upon which the causes are based were justified.

The State Personnel Board shall hold a hearing, following the same procedure as in state civil service proceedings and shall render a decision affirming, modifying or revoking the action taken. In a hearing, the burden of proof shall be on the party taking the dismissal action.

An administrative employee reassigned pursuant to Section 66609 may request a hearing by the trustees by filing a request for a hearing, in writing, with the trustees within 20 days of being served with the notice. The request may be on the grounds that the required procedure was not followed or that the position to which the employee is reassigned is not commensurate with his qualifications. The trustees shall hold a hearing, and shall render a decision affirming, modifying, or revoking the action taken.

89540. If the dismissal, suspension, or demotion or the reassignment is revoked or modified by the State Personnel Board or the trustees, the employee shall be restored to his position in accord with the decision, and shall be paid back salary equal to that which the employee would have earned if continuously employed in accord with the decision.

89541. Absence without leave of an employee, whether voluntary or involuntary, for five consecutive working days is an automatic resignation from state service, as of the last date on which the employee worked.

An employee may within 90 days of the effective date of such separation file a written request with the State Personnel Board for

reinstatement. If the appointing authority has notified the employee of his automatic resignation, any request for reinstatement must be in writing and filed within 15 days of the service of notice of separation. Notice may be personally served or it may be served by mail to the last known residence or business address of the addressee and is complete on mailing. Proof of service, either personal or by mail, shall be made by affidavit. Reinstatement may be granted only if the employee makes a satisfactory explanation to the board as to the cause of his absence and his failure to obtain leave therefor, and the board finds that he is ready, able, and willing to resume the discharge of the duties of his position or, if not, that he has obtained the consent of his appointing power to a leave of absence to commence upon reinstatement.

Any employee so reinstated shall not be paid salary for the period of his absence or separation or for any portion thereof.

89542. If a petition to set aside the resignation of any employee is filed with the State Personnel Board within 30 days after the last date upon which services to the state university or college are rendered, or the date the resignation is tendered, whichever is later, the resignation may be set aside on the ground that it was given or obtained pursuant to or by reason of mistake, fraud, duress, undue influence, or that for any other reason it was not the free, voluntary, and binding act of the person resigning. The State Personnel Board shall hold a hearing and render a decision on the petition following the same procedure as in the state civil service procedures governing resignations from the state civil service.

89542.5. The Trustees of the California State University and Colleges shall establish grievance and disciplinary action procedures for all academic employees, including all temporary employees who have been employed for more than one semester or quarter, whereby:

(a) Grievances and disciplinary actions shall be heard by a faculty hearing committee composed of full-time faculty members, selected by lot from a panel elected by the campus faculty, which shall make a recommendation to the president of the state university or college.

(b) The grievance or disciplinary hearing shall be open to the public at the option of the person aggrieved or the person charged in a disciplinary hearing.

(c) Each party to the dispute shall have the right of representation by a faculty adviser or counsel of his choice and to be provided access to a complete record of the hearing.

(d) If there is disagreement between the faculty hearing committee's decision and the university or college president's decision, the matter shall go before an arbitrator whose decision shall be final.

(e) The costs incurred in arbitration shall be paid by the university or college.

(f) If the parties cannot agree upon an arbitrator, either party may petition either the Federal Mediation Service, the State

Conciliation Service, or the American Arbitration Association for a list of seven qualified, disinterested persons, from which list each party shall alternate in striking three names, and the remaining person shall be designated as the arbitrator.

The grievance procedure established pursuant to this section shall be exclusive with respect to any grievance which is not subject to a State Personnel Board hearing. In the case of a grievance or disciplinary action which is subject to a State Personnel Board hearing, pursuant to Sections 89535 to 89539, inclusive, and Section 89542 the procedures provided for in those sections or those provided for in this section may be utilized. The academic employee shall have the choice of which procedures shall be utilized.

For purposes of this section, a "grievance" is an allegation by an employee that he was directly wronged in connection with the rights accruing to his job classification, benefits, working conditions, appointment, reappointment, tenure, promotion, reassignment, or the like. A grievance does not include matters, such as the salary structure, which require legislative action.

89543. The trustees shall adopt regulations for determination of the order in which nonacademic employees shall be laid off for lack of funds or because of lack of work. To the extent the trustees shall deem practical such regulations shall provide for layoff in the inverse order of employment.

The trustees shall adopt rules governing the reemployment of nonacademic employees laid off, pursuant to this section. To the extent the trustees deem practical, such regulations shall include provision that for a period of five years following layoff, an employee shall have a preferential right to reemployment in the same or a comparable position, in the event of a vacancy. This preferential right shall give the employee laid off the right to reemployment in a position comparable to that from which he was laid off over any person not employed at the time the particular employee was laid off.

89544. A permanent nonacademic employee may, with his consent and the approval of the trustees, be employed at less than full time and retain permanent status. Seniority credit and any other credit shall be gained only in the proportion the actual time employed is to full-time employment in the position.

89545. Whenever a new campus of the California State University and Colleges is established and an employee is transferred from an existing campus of the California State University and Colleges to the newly established campus before or during the first academic year of the newly established campus, each employee so transferred shall be entitled to retain all sickness and injury, sabbatical and other leave rights and all seniority and tenure rights accumulated as an employee of the existing campus of the California State University and Colleges as though the rights had been accumulated as an employee of the newly established campus of the California State University and Colleges.

Whenever the educational program of a newly established campus of the California State University and Colleges is, during the first year of its existence, limited to an off-campus educational program rather than a regular educational program, any employee transferring from an existing campus of the California State University and Colleges to the newly established campus of the California State University and Colleges before or during the first three academic years of the newly established campus shall be entitled to retain all sickness and injury, sabbatical and other leave rights and all seniority and tenure rights accumulated as an employee of the existing campus as though the rights had been accumulated as an employee of the newly established campus.

### Article 3. California State University and Colleges Police

89560. The trustees may appoint one or more persons to constitute a police department for the headquarters and for each campus of the California State University and Colleges. Persons employed and compensated as members of a California State University and Colleges police department, when so appointed and duly sworn, are peace officers; provided that such officers shall not exercise their powers or authority except (a) at the headquarters or upon any campus of the California State University and Colleges and in an area within one mile of the exterior boundaries of each such campus or the headquarters, and in or about other grounds or properties owned, operated, controlled, or administered by the California State University and Colleges, or by trustees or the state on behalf of the California State University and Colleges, and (b) as provided in Section 830.2 of the Penal Code.

89561. Every member of a California State University and Colleges police department shall be supplied with, and authorized to wear, a badge bearing the words "California State University and Colleges Police."

## CHAPTER 6. FINANCE

### Article 1. Fees, Rents, and Charges

89700. The trustees may by rule require all persons to pay fees, rents, deposits, and charges for services, facilities or materials provided by the trustees to such persons, except that fees relating to parking shall be subject to the approval of the Director of General Services. The trustees may, by rule, provide for the method of collecting such fees, rents, deposits, and charges, and may, by rule, provide for the refund in whole or part of such fees, rents, deposits, and charges collected in error or collected for facilities, services, or materials not utilized.

89701. The trustees are authorized to acquire, pursuant to the Property Acquisition Law (Part 11 (commencing with Section

15850), Division 3, Title 2, Government Code) or by lease or other means, real property and to construct, operate and maintain motor vehicle parking facilities thereon for state college officers, employees, students, or other persons. The trustees may prescribe the terms and conditions of such parking, and of parking on facilities existing on the effective date of this section, including the payment of parking fees in such amounts and under such circumstances as may be determined by the trustees. Varying rates of parking fees may be established for different localities or for different parking facilities. In determining rates of parking fees the trustees may consider the rates charged in the same locality by other public agencies and by private employers for employee parking, and the rates charged to students by other universities and colleges.

Except as otherwise provided in this section, revenues received by the trustees from any of the hereinabove motor vehicle parking facilities, as well as from all parking facilities existing on the effective date of this section, shall be transmitted to the State Treasurer and shall be deposited by that officer in the State Treasury to the credit of the State College Parking Revenue Fund, which fund is hereby created. The trustees may pledge all or any part of such revenues in connection with bonds or notes issued pursuant to the State College Revenue Bond Act of 1947 (Article 2 (commencing with Section 90010) of Chapter 8) of this part in which case such revenues shall be deposited, transmitted and used in the manner provided by that act. All revenues received by the trustees from parking facilities, to the extent not pledged in connection with bonds or notes issued pursuant to the State College Revenue Bond Act of 1947, are hereby appropriated, without regard to fiscal years, to the trustees for the acquisition, construction, operation and maintenance of motor vehicle parking facilities on real property acquired hereunder or on real property otherwise under the jurisdiction of the trustees, and for the study of alternate methods of transportation for students and employees of the California State University and Colleges. Moneys in the State College Parking Revenue Fund may be invested by the State Treasurer, upon approval of the trustees, in those eligible securities listed in Section 16430 of the Government Code. All interest or other earnings received pursuant to such investments shall be collected by the State Treasurer, and shall be deposited in the State Treasury to the credit of the State College Parking Revenue Fund.

The Legislature by this section does not intend to authorize the institution of a private parking program unrelated to state purposes in competition with private industry.

89702. The Trustees of the California State University and Colleges may acquire, pursuant to the Property Acquisition Law (Part 11 (commencing with Section 15850), Division 3, Title 2, of the Government Code) or by lease or other means, real property and may construct and improve student health centers entirely or in part by the use of funds acquired pursuant to this section.

The trustees may prescribe under Section 89700 a fee to provide for the acquisition, construction, and improvement of such facilities, in such amounts and under such circumstances as may be determined by the trustees.

Except as otherwise provided in this section, revenues received by the trustees from such facilities fee shall be transmitted to the State Treasurer and shall be deposited by that officer in the State Treasury to the credit of the State University and College Facilities Revenue Fund, which fund is hereby created. The trustees may pledge all or any part of such revenues in connection with bonds or notes issued pursuant to the State University and College Revenue Bond Act of 1947 (Article 2 (commencing with Section 90010) of Chapter 8 of this part), in which case such revenues shall be deposited, transmitted and used in the manner provided by that law. All revenues received by the trustees from such facilities fee, to the extent not pledged in connection with bonds or notes issued pursuant to the State University and College Revenue Bond Act of 1947, are hereby appropriated, without regard to fiscal years, to the trustees for the acquisition, construction, and improvement of student health centers on real property acquired hereunder or on real property otherwise under the jurisdiction of the trustees. Moneys in the State University and College Facilities Revenue Fund may be invested by the State Treasurer, upon approval of the trustees, in those eligible securities listed in Section 16430 of the Government Code. All interest or other earnings received pursuant to such investments shall be collected by the State Treasurer, and shall be deposited in the State Treasury to the credit of the State University and College Facilities Revenue Fund.

All capital outlay projects in excess of sixty-five thousand dollars (\$65,000) to be constructed with revenue from the fee established pursuant to this section shall be approved by the Legislature.

89703. Except as otherwise provided, the total tuition fees charged any student in the California State University and Colleges shall not exceed twenty-five dollars (\$25) per year or twelve dollars and fifty cents (\$12.50) per term.

89704. Notwithstanding any other provision of law to the contrary, revenues received by the Trustees of the California State University and Colleges from extension programs, special session and other self-supporting instructional programs, including but not limited to fees and charges required by the trustees, shall be transmitted to the State Treasurer and shall be deposited by that officer in the State Treasury to the credit of the State University and College Continuing Education Revenue Fund, which fund is hereby created, and which is hereby designated as successor to the State College Extension Program Revenue Fund.

All such revenues are hereby appropriated, without regard to fiscal years, to the trustees for the support and development of self-supporting instructional programs of the California State University and Colleges; provided, nevertheless, that proposed

expenditures or obligations to be incurred during any fiscal year from the State University and College Continuing Education Revenue Fund shall be contained in the budget submitted for that fiscal year by the Governor pursuant to Section 12 of Article IV of the Constitution, and shall be subject to the provisions of Article 2 (commencing with Section 13320) of Chapter 3, Part 3, Division 3, Title 2, of the Government Code.

Moneys in the State University and College Continuing Education Revenue Fund may be invested by the State Treasurer, upon approval of the trustees, in those eligible securities listed in Section 16430 of the Government Code. All interest or other earnings received pursuant to such investments shall be collected by the State Treasurer and shall be deposited in the State Treasury to the credit of the State University and College Continuing Education Revenue Fund.

89705. (a) Except as otherwise specially provided, an admission fee and rate of tuition fixed by the trustees shall be required of each nonresident student. The rate of tuition to be paid by each nonresident student, as defined in Section 68018, shall not be less than three hundred sixty dollars (\$360) per year. The rate of tuition paid by each nonresident student who is a citizen and resident of a foreign country and not a citizen of the United States, except as otherwise specifically provided, shall be fixed by the trustees and shall not be less than three hundred sixty dollars (\$360) per year. The tuition fee for a nonresident student who is a citizen and resident of a foreign country and who was in attendance at a state university or college during the fall term of 1969, may be waived by the trustees if they determine that the increased tuition fee will cause a severe financial hardship on the student. Such waivers may be granted through the spring term of 1973 or until the student receives a baccalaureate degree, whichever occurs first.

(b) The trustees may waive entirely, or reduce below the rate, or the minimum rate, fixed by this section, the tuition fee of a nonresident student who is a citizen and resident of a foreign country and not a citizen of the United States and who attends a state university or college under an agreement entered into by a governmental agency or a nonprofit corporation or organization with a similar agency, or corporation or association, domiciled in and organized under laws of a foreign country, where a principal purpose of the agreement is to encourage the exchange of students with the view of enhancing international good will and understanding. The trustees shall, in each instance, determine whether the conditions for such exemption from fees exist and may prescribe appropriate procedures to be complied with in obtaining the exemption.

89706. The trustees have the power, on the basis of demonstrated financial need and scholastic achievement, to waive entirely, or to reduce below the rate, or the minimum rate, fixed by Section 89705, the tuition fee of a nonresident student, as defined in Section 68018, who is a citizen and resident of a foreign country who is an

undergraduate student of exceptional scholastic ability and prior scholastic achievement who is enrolled in a course of study of no less than 10 semester units.

The number of reductions and waivers granted by the trustees under this section shall at no time exceed 7½ percent of the nonresident undergraduate students who are citizens and residents of a foreign country, then enrolled in the California State University and Colleges.

89707. The trustees shall have the power, on the basis of demonstrated financial need and scholastic achievement, to waive entirely, or to reduce below the rate, or the minimum rate, fixed by Section 89705, the tuition fee of a nonresident student or a nonresident student, as defined in Section 68018, who is a citizen and resident of a foreign country who is a graduate student of exceptional scholastic ability and prior scholastic achievement who, while not employed full time by a university or state college, is employed 20 hours or more a week by a university or state college or is enrolled in a course of study of not less than 10 semester or quarter units.

The number of reductions and waivers granted by the trustees under this section shall at no time exceed twenty-five percent (25%) of the nonresident graduate students, including nonresident graduate students who are citizens and residents of a foreign country, then enrolled in the California State University and Colleges.

89707.5. Notwithstanding the provisions of Section 89301, a nonresident student who is a citizen and resident of a foreign country and not a citizen of the United States may pay the nonresident tuition fee required of such students in three equal installments per semester if attending on the semester system or in two equal installments per quarter if attending on the quarter system. Any such student shall pay all registration fees required of resident students by the same date as required for resident students. The first installment of the nonresident tuition fee for a nonresident student who is a citizen and resident of a foreign country and not a citizen of the United States shall be due no sooner than 30 days following the deadline for payment of registration fees by resident students. The trustees shall establish an appropriate payment schedule for payment of the nonresident tuition fee and may assess a service charge to finance the cost of administering this installment plan consistent with the provisions of this section.

89708. Tuition fees adequate, in the long run, to meet the cost of maintaining special sessions in the California State University and Colleges shall be required of, and collected from, students enrolled in each such special session under and pursuant to rules and regulations prescribed by the trustees.

“Special sessions” as used in this division shall mean self-supporting instructional programs conducted by the California State University and Colleges. Such special sessions shall include, but not be limited to, career enrichment and retraining programs. It is the intent of the

Legislature that those programs, currently offered on a self-supporting basis by the California State University and Colleges during summer sessions, may be provided throughout the year, and shall be known as special sessions. Such self-supporting special sessions shall not supplant regular course offerings available on a non-self-supporting basis during the regular academic year.

89709. The trustees may require and collect special fees to cover cost of materials for specific services and other fees to cover the cost of accommodation services and other services provided students from students enrolled in each special session.

89710. To enhance the opportunities for California State University and Colleges employees to participate in training and career development the trustees may, subject to such rules and regulations as they may establish, waive entirely or reduce any or all fees for such employees who enroll in work-related courses offered by the California State University and Colleges necessary for improving skills for existing jobs or advancement in accordance with a career development plan at the California State University and Colleges.

## Article 2. Revenues

89720. The trustees may accept on behalf of the state any gift, bequest, devise, or donation of real or personal property whenever such gift and the terms and conditions thereof will aid in carrying out the primary functions of the state colleges as specified in Section 66608. Neither Section 11005 of the Government Code nor any other provision of law requiring approval by a state officer of gifts, bequests, devises, or donations shall apply to such gifts, bequests, devises, or donations. Such gifts, bequests, devises, or donations, and the disposition thereof, shall be annually reported to the California Postsecondary Education Commission, the Joint Legislative Budget Committee and the Department of Finance by January 5 of each year.

89721. Notwithstanding any other provision of law to the contrary, the chief fiscal officer of each campus of the California State University and Colleges shall deposit into and maintain in local trust accounts or in trust accounts in accordance with the provisions of Sections 16305 to 16305.7, inclusive, of the Government Code, or in the California State University and Colleges Trust Fund, moneys received in connection with the following sources or purposes:

(a) Gifts, bequests, devises, and donations received under Section 89720.

(b) Any student loan or scholarship fund program, including but not limited to, student loan programs of the state, federal government (including programs referred to in Section 89723), local government, or private sources.

(c) Advance payment for anticipated expenditures or encumbrances in connection with federal grants or contracts.

(d) Room, board, and similar expenses of students enrolled in the international program of the California State University and Colleges.

(e) Cafeteria replacement funds.

(f) Miscellaneous receipts in the nature of deposits subject to return upon approval of a proper application.

(g) Fees and charges for services and materials authorized by Section 89100 where such fees or charges are required of those persons who, at their option, use the services or are provided the materials, for which the fees or charges are made. Fees and charges so received and deposited shall be used solely to meet the costs of providing such services and materials.

89722. The California State University and Colleges Trust Fund is hereby created in the State Treasury. Money in the California State University and Colleges Trust Fund is appropriated to the trustees as provided in Section 89724. Interest accruing upon the investment of moneys of the California State University and Colleges Trust Fund shall be paid into and credited to such fund. The trustees shall apportion as of June 30 and December 31 of each year the revenues earned and deposited in the fund during the six calendar months ending with such dates. There shall be apportioned and credited to each campus of the California State University and Colleges having deposits in the fund, an amount directly proportionate to the total deposits in the fund and the length of time such deposits remained therein. The chief fiscal officer of each campus of the California State University and Colleges may allocate further this amount to the extent considered necessary.

89723. The trustees are vested with all necessary power to perform acts, receive and expend funds, and cooperate with state and federal agencies as provided in Section 12400 for the purpose of receiving and spending the funds provided by the act of Congress entitled "An act to strengthen the national defense and to encourage and assist in the expansion and improvement of educational programs to meet critical national needs; and for other purposes" (National Defense Education Act of 1958), approved September 2, 1958, and the act of Congress entitled "An act to amend the Public Health Service Act to increase the opportunities for training professional nursing personnel, and for other purposes" (Nurse Training Act of 1964), approved September 4, 1964.

The trustees may provide for the establishment and maintenance of student loan funds pursuant to any of said acts of Congress. Money allocated for the purpose of establishing a student loan fund at a campus of the California State University and Colleges may be withdrawn from the State Treasury and deposited to the credit of that institution in a trust account in accordance with the provisions of Sections 16305 to 16305.7, inclusive, of the Government Code for the purpose of making loans to students in accordance with the federal acts.

89724. (a) All money received from the sale of publications

pursuant to Section 90500, all money received under an agreement entered into pursuant to Section 89036, and except as to the fees and charges specified in subdivision (g) of Section 89721, all money collected as fees from students in any state university or college and from other persons under Section 89030, Sections 89036 to 89040, inclusive, and Sections 89100, 89705, 89708, 89709, 89720, and 89721, and by reason of Section 2080.9 of the Civil Code, is hereby appropriated for the support of the California State University and Colleges in addition to such other amounts as may be appropriated therefor by the Legislature. Money received under Sections 89720 and 89721, or received by reason of Section 2080.9 of the Civil Code, is appropriated without regard to fiscal year; provided, that money received by reason of Section 2080.9 of the Civil Code shall be used for student scholarships and loans pursuant to such regulations as the trustees shall provide, and while held pending the grant of a scholarship or loan, may be invested by the State Treasurer upon approval of the trustees, in those eligible securities listed in Section 16430 of the Government Code. All interest or other earnings received pursuant to such investment shall also be used for such scholarships and loans; and provided further, that money received by reason of Sections 89720 and 89721 may be invested by the State Treasurer upon approval of the trustees, in those eligible securities listed in Section 16430 of the Government Code, in which case all interest and other earnings received pursuant to such investment shall also be used for such purposes as may be established by the trustees consistent with the terms and conditions of the gift, bequest, devise, donation, or agreement under Sections 89720 and 89721. Except as otherwise provided with respect to money received by reason of Section 2080.9 of the Civil Code and Sections 89720 and 89721 of the Education Code, all money received pursuant to this section shall augment the support appropriation to the California State University and Colleges for the fiscal year to which the collections apply.

(b) All money received from the sale or the disposition of real property acquired by or on behalf of a particular state university or college by gift, devise, or donation pursuant to Section 89720 or pursuant to the predecessor of that section is hereby appropriated to the trustees for expenditure for capital outlay for the acquisition and improvement of real property for such particular state university or college, in addition to such other amounts as may be appropriated therefor by the Legislature. All money received from the sale or other disposition of personal property, other than money, acquired by or on behalf of a particular state university or college by gift, bequest, or donation pursuant to Section 89720 or pursuant to the predecessor of that section is hereby appropriated to the trustees for expenditure for capital outlay for, or the acquisition and improvement of real or personal property for, such particular state university or college, in addition to such other amounts as may be appropriated therefor by the Legislature. No money shall be

expended by the trustees under this subdivision without the approval of the Director of Finance. Such money shall augment such support or capital outlay appropriation of the California State University and Colleges current at the date of issuance of the State Controller's receipt therefor as may be designated by the trustees prior to their deposit in the State Treasury.

89725. Notwithstanding any other provision of law to the contrary, grants, revenues and funds of any nature received by the trustees for research, workshops, conferences, institutes and special projects from the state, federal government, local government, or private persons, may be transmitted to the State Treasurer and, if transmitted, shall be deposited in the State Treasury to the credit of the California State University and Colleges Special Projects Fund, which fund is hereby created.

All such grants, revenues and funds are hereby appropriated without regard to fiscal years to the trustees for the operation, support, and development of research, workshops, conferences, institutes, and special projects in the California State University and Colleges.

Provision shall be made by the trustees for reimbursements to the General Fund for the cost of space and services furnished to projects funded by the California State University and Colleges Special Projects Fund.

Notwithstanding any other provision of the law to the contrary, the trustees shall have authority to establish the rules and procedures under which the fund shall operate. All expenditures shall be made in accordance with such rules and procedures, without prior approval of the Department of General Services or the Department of Finance. All expenditures shall receive an annual postaudit by the Audits Division of the Department of Finance.

Moneys in the California State University and Colleges Special Projects Fund may be invested by the State Treasurer, upon approval of the trustees in those eligible securities listed in Section 16430 of the Government Code. All interest or other earnings received pursuant to such investments shall be collected by the State Treasurer and shall be deposited in the State Treasury to the credit of the California State University and Colleges Special Projects Fund.

### Article 3. Budgeting Systems

89730. The Legislature does not regard budgeting by standardized formulas as necessarily the most effective nor efficient way to govern dissimilar institutions of higher education. The Legislature recognizes the need to determine if a more efficient allocation of state resources may ensue if more decisionmaking power were decentralized to the campus and departmental levels.

89731. The trustees shall initiate a pilot management, planning, and budgeting system at selected state colleges beginning with the 1972-1973 fiscal year. The system shall be designed and implemented

by the trustees, with the full participation and approval of the Department of Finance.

89732. The pilot management, planning and budgeting system shall incorporate:

(a) A maximum delegation to the individual state colleges for utilizing physical and human resources within the total budget approved by the Legislature, the Department of Finance, and the trustees.

(b) The development of management systems and of sophisticated cost-benefit data.

89733. The Department of Finance and the trustees may delegate such authority to the individual state colleges selected for participation in the pilot management, planning, and budgeting system prescribed in this article as is needed to carry out the intent of this article.

89734. The trustees and the Department of Finance shall conduct fiscal postaudits and management reviews with respect to the pilot management, planning, and budgeting system prescribed in this article.

#### Article 4. Expenditures and Control

89750. The trustees shall control and expend all money appropriated for the support and maintenance of the California State University and Colleges, and all money received as donations pursuant to Section 89720.

89751. The State Treasurer is designated as the custodian of all funds received by the state from the government of the United States or of any agency or agencies thereof under any agreement for the education of veterans, and he may receive, and provide for the proper custody of, all money so received.

The funds received by the state shall be expended by the officers or agency administering the program to carry out the provisions of the act of the Congress and rules and regulations lawfully adopted thereunder. Such funds are exempt from the provisions of Section 925.6 of the Government Code and shall be paid out by the Treasurer on warrants drawn by the State Controller on claims submitted by the trustees.

89752. The trustees shall prescribe rules and regulations subject to the approval of and audit by the Department of Finance covering the collection, custody, and disposition of any and all money collected by any state college.

89753. All appropriations for the support of the California State University and Colleges and the trustees shall be subject to the provisions of Section 13320 of the Government Code and applicable Budget Act restrictions, with the following exceptions:

(a) The trustees may approve any transfer of funds within functions for which funds are appropriated for the support of the California State University and Colleges. In addition, the trustees

may authorize the augmentation of the amount available for a category designated in any schedule set forth for such appropriation by transfer from any of the other designated categories, including additional reimbursements within the same schedule, and shall furnish the Joint Legislative Budget Committee a report of such authorizations given during the preceding quarter.

(b) The trustees may approve the substitution of one item of equipment for another within budgetary functions and the use of savings in equipment allotments.

(c) The trustees may approve travel, both within and outside the state, and the payment of allowances and expenses related to travel, moving and the relocation of employees in accordance with the allowances established by the State Board of Control and within funds appropriated for this purpose.

(d) The trustees may, within funds appropriated for the support of the California State University and Colleges, establish new positions and make changes in existing positions and the position payroll roster, provided that all such new positions and significant changes, as defined by the Department of Finance, in grade or class of existing positions shall be shown as administrative adjustments in the subsequent budgetary submissions and shall be subject to review during the legislative budget process.

89754. The intent of Section 89753 is to give the trustees maximum responsibility within available funds. It is the further intent of the Legislature by said provisions to allow the trustees greater flexibility in their financial affairs and to allow the individual campuses greater flexibility in the expenditure of their appropriations.

89755. All actions of the trustees taken pursuant to Section 89753 are limited to the fiscal year in which the action is taken and subject to audit by the Department of Finance, as well as legislative review, prior to extension into the subsequent fiscal year.

89756. Notwithstanding any other provision of law, the chief administrative officer of each campus of the California State University and Colleges shall be responsible for the propriety of the expenditure, and the integrity of the financial reporting, of the following funds received by such campus:

- (1) State appropriations.
- (2) Gifts.
- (3) Bequests.
- (4) Trust funds.
- (5) Grants, loans, or combinations thereof.

The chief administrative officer shall also be responsible for the propriety of all expenditures, and the integrity of the financial reporting, made by auxiliary organizations. The chief administrative officer of a state university or college is, for the purpose of this section, the president of the university or college.

89757. (Repealed by Stats. 1976, Ch. 1011.)

## [ORIGINAL SECTION]

89757 Notwithstanding any other provision of law, the Trustees of the California State University and Colleges may initiate on a pilot basis, an exemption for two university campuses from salary savings requirements. This exemption is authorized in order to determine if a more effective administration of allocated resources can be implemented without fixed salary savings restrictions. In the event funds are necessary to support such an exemption, funds may be transferred from funds appropriated to the California State University and Colleges and the State Emergency Fund Provisions for such exemption, if initiated, shall be developed by the Trustees of the California State University and Colleges, subject to the approval of the Department of Finance and in cooperation with the office of the Legislative Analyst.

This section shall be operative from June 30, 1974, until June 30, 1976, and as of the latter date is repealed.

## CHAPTER 7. AUXILIARY ORGANIZATIONS

## Article 1. General Provisions

89900. (a) A certified public accountant shall be selected by each auxiliary organization described in Section 89901. Upon being notified of the certified public accountant selected by an auxiliary organization, the office of the chancellor shall forward the applicable auditing and reporting procedures to the selected certified public accountant. In accordance with procedures prescribed by the Department of Finance, such certified public accountant shall annually audit any and all state university or college auxiliary funds. The auxiliary organizations shall contract for and receive such audit annually, and shall submit such audit to the trustees and to the Director of Finance. Auxiliary organizations shall annually publish an audited statement of their financial condition which shall be disseminated as widely as feasible and be available to any person on request. In the case of an auxiliary organization primarily serving a single campus of the California State University and Colleges, publication in the campus student newspaper shall be deemed compliance with this requirement. In the case of an auxiliary organization serving the trustees or the California State University and Colleges, distribution of the published audited statement of its financial condition at a regularly scheduled meeting of the trustees shall be deemed compliance with this requirement.

(b) In the case of an auxiliary organization primarily serving a single campus of the California State University and Colleges, the president of that state university or college shall be responsible for ascertaining that all expenditures are in accordance with policies of the trustees, the propriety of all expenditures, and the integrity of the financial reporting, made by auxiliary organizations.

(c) The operation of auxiliary organizations shall be conducted in conformity with regulations established by the trustees, and the accounting procedures of such auxiliary organizations shall be approved by the Director of Finance. The regulations shall include provisions requiring the governing board of each auxiliary organization to provide salaries, working conditions and benefits, exclusive of retirement and permanent status benefits, for the

full-time employees of each auxiliary organization which are comparable to those provided California State University and Colleges employees performing similar services. For those employees whose duties are not comparable to classes in California State University and Colleges employment the salaries established shall be at least equal to the salaries prevailing in other educational institutions in the area.

89901. As used in this article, the term "auxiliary organization" includes the following entities:

(a) Any entity in which any official of the California State University or Colleges participates as a director as part of his official position.

(b) Any entity formed or operating pursuant to Article 1 (commencing with Section 89300) of Chapter 3 of this part.

(c) Any entity which operates a commercial service for the benefit of a campus of the California State University and Colleges on a campus or other property of the California State University and Colleges.

(d) Any entity whose governing instrument provides in substance that:

(1) Its purpose is to promote or assist any campus of the California State University and Colleges, or to receive gifts, property and funds to be used for the benefit of such campus or any person or organization having an official relationship therewith; and

(2) Any of its directors, governors, or trustees are either appointed or nominated by, or subject to, the approval of an official of any campus of the California State University and Colleges, or selected, ex officio, from the membership of the student body or the faculty or the administrative staff of such campus.

(e) Any entity whose governing instrument provides in substance that:

(1) Its purpose is to promote or assist the trustees of the California State University and Colleges, or to receive gifts, property and funds to be used for the benefit of the trustees of the California State University and Colleges or any person or organization having an official relationship therewith; and

(2) Any of its directors, governors, or trustees are either appointed or nominated by, or subject to, the approval of the trustees or an official of the California State University and Colleges, or selected, ex officio, from the membership of the trustees or the administrative staff of the California State University and Colleges.

(f) Any entity which, exclusive of the foregoing subdivisions of this section, is designated as an auxiliary organization by the trustees.

89902. This article shall not apply to any student body organization not formed or operating pursuant to Article 1 (commencing with Section 89300) of Chapter 3 of this part nor to any student or faculty society, social club, fraternity, or sorority, nor to any alumni association, whether officially recognized as a campus organization or not, unless it is described in Section 89901.

This section shall not be construed to alter or limit the powers of the trustees to establish rules and regulations governing organizations which maintain an official relationship with any campus of the California State University and Colleges or which use the name or facilities of such campus.

89903. Each auxiliary organization formed pursuant to this article, shall have a board of directors composed, both as to size and categories of membership, in accordance with regulations established by the Trustees of the California State University and Colleges.

Each governing board shall, during each fiscal year, hold at least one business meeting each quarter. The board shall have the benefit of the advice and counsel of at least one attorney admitted to practice law in this state and at least one licensed certified public accountant. Neither the attorney at law nor the certified public accountant need be members of the board.

No auxiliary organization shall accept any grant, contract, bequest, trust, or gift, unless it is so conditioned that it may be used only for purposes consistent with policies of the trustees.

89904. All expenditures and fund appropriations of auxiliary organizations described in Section 89903 shall be approved by the governing board of the auxiliary organization. Appropriations of funds for use outside of the normal business operations of the auxiliary organization shall be approved in accordance with trustee policy and regulations by an officer designated by the trustees.

The trustees in consultation with the Department of Finance and the governing boards of the various auxiliary organizations described in Section 89903, on or before the beginning of the 1970-1971 fiscal year, shall:

(a) Institute a standard systemwide accounting and reporting system for businesslike management of the operation of such auxiliary organizations.

(b) Implement financial standards which will assure the fiscal viability of such various auxiliary organizations. Such standards shall include proper provision for professional management, adequate working capital, adequate reserve funds for current operations and capital replacements, and adequate provisions for new business requirements.

(c) Institute procedures to assure that transactions of the auxiliary organizations are within the educational mission of the state colleges.

(d) Develop policies for the appropriation of funds derived from indirect cost payments not required to implement subdivision (b). Uses of such funds shall be regularly reported to the trustees.

89905. Operations of commercial services on a campus of the California State University and Colleges, such as a food service or bookstore, or such commercial services as may be provided in a university or college union, shall, when operated by an auxiliary organization, be self-supporting.

Any surplus funds from commercial operations shall be used for

such purposes as are consistent with regulations of the trustees.

89906. No member of the governing board of an auxiliary organization shall be financially interested in any contract or other transaction entered into by the board of which he is a member, and any contract or transaction entered into in violation of this section is void.

89907. No contract or other transaction entered into by the governing board of an auxiliary organization is void under the provisions of Section 89906, nor shall any member of such board be disqualified or deemed guilty of misconduct in office under said provisions, if the circumstances specified in the following subdivisions exist:

(a) The fact of such financial interest is disclosed or known to the governing board and noted in the minutes, and the governing board thereafter authorizes, approves, or ratifies the contract or transaction in good faith by a vote sufficient for the purpose without counting the vote or votes of such financially interested member or members, and

(b) The contract or transaction is just and reasonable as to the auxiliary organization at the time it is authorized or approved.

89908. The provisions of Section 89907 shall not be applicable if the circumstances specified in any of the following subdivisions exist:

(a) The contract or transaction is between an auxiliary organization and a member of the governing board of that auxiliary organization.

(b) The contract or transaction is between an auxiliary organization and a partnership or unincorporated association of which any member of the governing board of that auxiliary organization is a partner or in which he is the owner or holder, directly or indirectly, of a proprietorship interest.

(c) The contract or transaction is between an auxiliary organization and a corporation in which any member of the governing board of that auxiliary organization is the owner or holder, directly or indirectly, of 5 percent or more of the outstanding common stock.

(d) A member of the governing board of an auxiliary organization is interested in a contract or transaction within the meaning of Section 89906, and without first disclosing such interest to the governing board at a public meeting of the board, influences or attempts to influence another member or members of the board to enter into the contract or transaction.

89909. It is unlawful for any person to utilize any information, not a matter of public record, which is received by him by reason of his membership on the governing board of an auxiliary organization, for personal pecuniary gain, regardless of whether he is or is not a member of the governing board at the time such gain is realized.

## CHAPTER 8. HOUSING AND AUXILIARY SERVICES

## Article 1. Housing

90000. Student housing facilities may be established and maintained at any state university or college for the accommodation of students of the university or college.

90001. The trustees may require unmarried minor students of the state university or college, not living with a parent or guardian, to reside in private homes or other dwellings approved by the university or college, or to occupy student housing facilities provided at the university or college by the state.

90002. All student housing and any other related facilities operated by the College Auxiliary Enterprise Fund are hereby designated a "project" under the State College Revenue Bond Act of 1947 and subject to the provisions of that act. All assets, liabilities and fund balances of the College Auxiliary Enterprise Fund are hereby transferred from that fund to a separate account to be established by the trustees within the California State University and Colleges Dormitory Revenue Fund.

## Article 2. The State College Revenue Bond Act of 1947

90010. This article may be cited as "The State College Revenue Bond Act of 1947."

90011. The following terms wherever used or referred to in this article, or in any indenture entered into pursuant hereto, shall have the following meanings, respectively, unless a different meaning appears from the context:

(a) "Board" means the Trustees of the California State University and Colleges.

(b) "State college" and "campus of the California State University and Colleges" each means any of the institutions included within the California State University and Colleges as specified in Section 89001.

(c) The term "project" means any one or more dormitories or other housing facilities, boarding facilities, student union or activity facilities, vehicle parking facilities or any other auxiliary or supplementary facilities for individual or group accommodation, owned or operated or authorized to be acquired, constructed, furnished, equipped and operated by the board for use by students, faculty members or other employees of any one or more campuses of the California State University and Colleges, or a combination of such facilities, which may include facilities already completed and facilities authorized for future completion, designated by the board as a project in providing for the issuance of revenue bonds or notes.

(d) The term "bonds" or "revenue bonds" means the written evidence of any obligation, other than revenue bond anticipation notes, issued by the board with the approval of the State Board of Control, payment of which is secured by a pledge of revenues or any

part of revenues, as provided in this article, in order to obtain funds with which to carry out the purposes of this article, irrespective of the form of such obligations.

(e) The terms “notes” and “revenue bond anticipation notes” mean the written evidence of any obligation issued by the board, pursuant to Section 90013, in anticipation of the sale of revenue bonds, for the purpose of obtaining funds to carry out the purposes of this article.

(f) The term “revenues” means and includes any and all fees, rates, rentals and other charges received or receivable in connection with, and any and all other incomes and receipts of whatever kind and character derived by, the board from the operation of or arising from a project, including any such revenue as may have been or may be impounded or deposited in any fund in the State Treasury created by this article for the security of any notes or bonds issued hereunder, or for the purpose of providing for the payment thereof or the interest thereon.

(g) The “holder of bonds” or “bondholder” or any similar terms shall mean any person who shall be the bearer of any outstanding revenue bond or bond registered to bearer or not registered or the registered owner of any such outstanding revenue bond or bond which shall at the time be registered other than to bearer.

(h) The term “indenture” means an agreement entered into by the board pursuant to which revenue bonds are issued, regardless of whether such agreement is expressed in the form of a resolution of the board or by other instrument.

(i) The term “person” includes any individual, firm, corporation, association, copartnership, trust, business trust or receiver or trustee or conservator for any thereof, but does not include this state or any public corporation, political subdivision, city, county, district or any agency thereof or of this state.

(j) (1) The present tense includes the past and future tenses; and the future, the present.

(2) The masculine gender includes the feminine and neuter.

(3) The singular number includes the plural, and the plural the singular.

(4) “Shall” is mandatory and “may” is permissive.

90012. The board, for the purposes of this article has power and is hereby authorized, in addition to and amplification of all other powers conferred upon said board by the Constitution of the State of California or by any statute of the State of California:

(a) To acquire subject to the Property Acquisition Law, Part 11 (commencing with Section 15850) of Division 3 of Title 2 of the Government Code, by grant, purchase, gift, devise, or lease, and to hold and use any real or personal property necessary or convenient or useful for the carrying on of any of its powers pursuant to the provisions of this article.

(b) To construct, operate and control any project.

(c) To fix rates, rents or other charges for the use of any project

acquired, constructed, equipped, furnished, operated or maintained by the board, or for services rendered in connection therewith, and to alter, change or modify the same at its pleasure, subject to any contractual obligation which may be entered into by the board with respect to the fixing of such rates, rents or charges.

(d) To enter into covenants to increase rates or charges from time to time as may be necessary pursuant to any such contract or agreement with the holders of any bonds of the board.

(e) At any time and from time to time, with the approval of the State Board of Control, to issue revenue bonds in order to raise funds for the purpose of establishing any project or of acquiring lands for any project, or of acquiring, constructing, improving, equipping or furnishing any project, or of refinancing any project, including payment of principal and interest on revenue bond anticipation notes, or for any combination of such purposes, which bonds may be secured as hereinafter provided.

(f) At any time and from time to time, with the approval of the State Board of Control, to issue revenue bond anticipation notes pursuant to Section 90013.

(g) To adopt such rules and regulations as may be necessary to enable the board to exercise the powers and to perform the duties conferred or imposed upon the board by this article.

(h) Nothing contained in this section or elsewhere in this article shall be construed directly or by implication to be in anywise in derogation of or in limitation of powers conferred upon or existing in the board by virtue of provisions of the Constitution or statutes of this state.

90013. The board, with the approval of the State Board of Control, may issue revenue bond anticipation notes, in anticipation of the sale of revenue bonds. Before issuing any such notes, the board shall, by resolution approved by the State Board of Control, authorize their issuance, declare the purpose for which the proceeds of the notes shall be expended and specify the maximum amount of notes to be issued for such purpose.

Revenue bond anticipation notes shall bear interest at such rate or rates as the board may determine, not exceeding 7 percent per annum, payable annually or semiannually, and shall mature on such date or dates as the board may determine and set forth in the resolution authorizing their issuance, but not more than three years from their date.

The proceeds from the sale of notes shall be used only for the purposes for which the proceeds of the sale of bonds may be used in anticipation whereof the notes are issued.

All notes issued, including renewal notes, and the interest thereon shall be payable from the proceeds of the sale of the bonds, the revenues of the project, any appropriations made for that purpose or all such sources, and not otherwise, except that in the event that the sale of the bonds shall not have occurred prior to the maturity of the notes issued in anticipation thereof, the board, with the approval of

the State Board of Control, may issue renewal notes in order to pay the notes then maturing. No renewal notes shall be issued after the sale of the bonds in anticipation of which the original note was issued.

Revenue bond anticipation notes may be secured by a pledge of, and lien upon, the proceeds of the sale of bonds, the revenues of the project and any other legally available funds.

A resolution authorizing the issuance of revenue bond anticipation notes may include such provisions as the board deems necessary or advisable for the security of the notes issued thereunder, and may include any and all provisions authorized to be included in indentures by this article.

90014. Notes authorized to be issued under this article shall be sold by the State Treasurer, for cash, in such manner as the said Treasurer shall be directed by a resolution requesting such sale adopted by the board and approved by the State Board of Control.

90015. The validity of the authorization and issuance of any revenue bonds or revenue bond anticipation notes by the board, with the approval of the State Board of Control, is not dependent on nor affected in any way by:

(a) Proceedings taken by the board for the acquisition, construction or completion of any project or any part thereof.

(b) Any contracts made by the board in connection with the acquisition, construction or completion of any project.

(c) The failure to complete any project for which bonds or notes are authorized to be issued.

90016. The board, with the approval of the State Board of Control, shall issue revenue bonds and revenue bond anticipation notes in its name and as its obligation, but no bond or note issued or sold pursuant to this article shall be or become a lien, charge or liability against the State of California or against the board or against the property or funds of either, except, in the case of revenue bonds, to the extent of the pledge of revenues or part of revenues of the project, as may be provided by the indenture pursuant to which revenue bonds are issued, and, in the case of notes, to the extent of the pledge of revenues of the project and proceeds of the sale of bonds, as may be provided in the resolution authorizing the issuance of the notes. Every such bond and note issued by the board shall contain a recital on the face thereof, stating that neither the payment of the principal nor any part thereof, nor any interest thereon, constitutes a debt, liability or obligation of the State of California.

90017. The board, with the approval of the State Board of Control, shall determine the time, form and manner of the issuance of revenue bonds and revenue bond anticipation notes.

90018. The board, with the approval of the State Board of Control, may enter into indentures providing for the aggregate principal amount, date or dates, maturities, interest rates, denominations, form, registration, transfer and interchange of any revenue bonds and coupons issued pursuant to this article, and the terms and conditions on which the same shall be executed, issued,

secured, sold, paid, redeemed, funded and refunded. Reference on the face of the bonds to such indenture by its date of adoption, or the apparent date on the face thereof, is sufficient to incorporate all of the provisions thereof and of this article into the body of the bonds and their appurtenant coupons. Each taker and subsequent holder of the bonds or coupons, whether the coupons are attached to or detached from the bonds, has recourse to all of the provisions of the indenture and of this article, and is bound thereby.

90019. An indenture pursuant to which bonds are issued may, with the approval of the State Board of Control, include any and all such covenants and agreements on the part of the board as the board deems necessary or advisable for the better security of the bonds issued thereunder.

90020. An indenture may provide that payments of principal and interest of bonds shall be secured by all or by part of revenues.

90021. An indenture may include a clause relating to the bonds issued thereunder requiring the board to pay or cause to be paid punctually the principal of all such bonds and the interest thereon on the date or dates, or at the place or places, and in the manner mentioned in such bonds and in the coupons appertaining thereto in accordance with such indenture.

90022. An indenture may include a clause relating to the bonds issued thereunder, requiring the board to operate the project continuously, to the extent practicable under conditions as they may from time to time exist, in an efficient and economical manner.

90023. An indenture may include a clause relating to the bonds issued thereunder requiring the board to make all necessary repairs, renewals and replacements to any project, and to keep the project at all times in good repair, working order and condition.

90024. An indenture may include a clause relating to the bonds issued thereunder requiring the board to preserve and protect the security of the bonds and the rights of the holders thereof and to warrant and defend such rights.

90025. An indenture may include a clause relating to the bonds issued thereunder requiring the board to pay and discharge or cause to be paid and discharged all lawful claims for labor, materials and supplies or other charges which, if unpaid, might become a lien or charge upon the revenues, or any part thereof, of any project acquired, constructed or completed from the proceeds of the sale of the bonds, or upon any physical properties, or which might impair the security of the bonds.

90026. An indenture may include a clause relating to the bonds issued thereunder which limits, restricts, or prohibits any right, power or privilege of the board to mortgage or otherwise encumber, sell, lease or dispose of any improvements constructed from the proceeds of the bonds, or to enter into any lease or agreement which impairs or impedes the operation of a project, or any part thereof, necessary to secure adequate revenues or which otherwise impairs or impedes the rights of the holders of the bonds with respect to such revenues.

90027. An indenture may include a clause relating to the bonds issued thereunder requiring the board to fix, prescribe and collect rates, rentals or other charges in connection with the services and facilities furnished from the project acquired, constructed or purchased from part or all of the proceeds of the bonds, sufficient to pay the principal of and interest on the bonds as they become due and payable, together with such additional sums as may be required for any fund created by this article, for the further security of such bonds or as a depreciation charge or other charge in connection with such project.

90028. An indenture may include a clause relating to the bonds issued thereunder requiring the board to hold or cause to be held in trust the revenues or any part of revenues pledged to the payment of such bonds and the interest thereon, or to any reserve or other fund created by this article for the further protection of the bonds, and to apply such revenues or any part of revenues or cause them to be applied only as provided in the indenture.

90029. An indenture may include a clause defining the power of the board in applying the proceeds of the sale of any issue of bonds for the acquiring, constructing, or completing of any project or any part thereof.

90030. An indenture may include a clause limiting the power of the board to issue additional bonds for the purpose of acquiring, constructing or completing any project or any part thereof.

90031. An indenture may include a clause requiring, specifying or limiting the kind, amount and character of insurance to be maintained by the board on any project, or any part thereof, and the use and disposition of the proceeds of any such insurance thereafter collected.

90032. An indenture may include a clause providing the events of default and the terms and conditions upon which any or all of the bonds of the board then or thereafter issued may become or be declared due and payable prior to maturity, and the terms and conditions upon which such declaration and its consequences may be waived.

90033. An indenture may include a clause designating the rights, limitations, powers and duties arising upon breach by the board of any of the covenants, conditions, or obligations contained in any indenture.

90034. An indenture may include a clause prescribing a procedure by which the terms and conditions of the indenture may be subsequently amended or modified with the consent of the board, subject to the approval of the State Board of Control, and the vote or written assent of the holders of a specified principal amount or specified proportion of the bonds issued and outstanding. Such clause may provide for meetings of bondholders and for the manner in which the consent of the bondholders may be given. The clause shall specifically state the effect of such amendment or modification upon

the rights of the holders of all of the bonds and interest coupons appertaining thereto, whether attached thereto or detached therefrom.

With respect to any clause providing for the modification or amendment of an indenture, the board, with the approval of the State Board of Control, may agree that bonds held by the State Treasurer, the United States or any instrumentality thereof, or the State of California or any political subdivision thereof (including every municipal corporation, district, public corporation, board or agency of any kind or class) shall not be counted as outstanding bonds, or be entitled to vote or assent, but shall, nevertheless, be subject to any such modification or amendment.

90035. An indenture may include a clause or clauses providing for such other acts and matters as may be necessary or convenient or desirable in order better to secure the bonds or to make the bonds more marketable.

90036. The State Treasurer shall act as trustee for the board and the holders of bonds issued hereunder, and the board may authorize the trustee to act on behalf of the holders of the bonds, or any stated percentage thereof, and to exercise and prosecute on behalf of the holders of the bonds such rights and remedies as may be available to the holders. The board may provide in the indenture for the deposit of all revenues received from the project with such trustee to be held in a separate account in the State College Dormitory Revenue Fund created by this article. The money in such fund shall be disbursed only as provided in the indenture.

90037. The board, with the approval of the State Board of Control, shall prescribe the duties and powers of any such trustee with respect to the issuance, authentication, sale and delivery of the bonds and the payment of principal and interest thereof, the redemption of the bonds, the registration and discharge from registration of the bonds, and the management of any sinking fund or other funds provided as security for the bonds.

90038. With the approval of the State Board of Control, the board may provide for one or several issues of bonds and may issue bonds in series or may divide any issue into one or more divisions and fix different maturities or dates of such bonds, different rates of interest, or prescribe different terms and conditions for the bonds of the several series or divisions. It is not necessary that all bonds of the same authorized issue be of the same kind or character, have the same security, or be of the same interest rate, but the terms thereof shall in each case be provided for by the board, with the approval of the State Board of Control, at or prior to the issue thereof.

90039. Bonds may be issued as coupon bonds or as registered bonds. With the approval of the State Board of Control, the board may provide for the interchange of coupon bonds for registered bonds and registered bonds for coupon bonds, and may provide that the bonds shall be registered as to principal only, or as to both principal and interest, or otherwise as the board may determine.

90040. Bonds shall bear interest at a rate of not to exceed 7 percent per annum, payable annually or semiannually or in part annually and in part semiannually.

90041. Notwithstanding the provisions of Sections 90013, 90040, and 90048, the rate of interest which bonds or notes may bear and the yield resulting to the purchaser thereof may exceed the maximum rates specified in said sections to the extent of any debt service grant applicable to such interest which the United States of America has agreed, pursuant to any federal statute, to pay with respect to the bonds or notes.

90042. Bonds may be callable upon such terms, conditions, and upon such notice as the board, with the approval of the State Board of Control, may determine, and upon the payment of such premium as may be fixed by the board, with the approval of the State Board of Control, in the proceedings for the issuance of the bonds. No bond is subject to call or redemption prior to its fixed maturity date unless the right to exercise such call is expressly stated on the face of the bond.

90043. The board, with the approval of the State Board of Control, may provide for the payment of the principal and interest of bonds at any place within or without the State of California, and in specified coin or currency of the United States.

90044. The board, with the approval of the State Board of Control, may provide for the execution and authentication of bonds and notes by the manual, lithographed or printed facsimile signature of officers of the board and, in the case of bonds, by additional authentication by the State Treasurer as trustee. If any of the officers whose signatures or countersignatures appear upon the notes, bonds or coupons cease to be officers before the delivery of the notes, bonds or coupons, their signatures or countersignatures are nevertheless valid and of the same force and effect as if the officers had remained in office until the delivery of the notes, bonds or coupons.

90045. Bonds shall bear dates prescribed by the board, with the approval of the State Board of Control. Bonds may be serial bonds or sinking fund bonds with such maturities as the board, with the approval of the State Board of Control, may determine. No bond by its terms shall mature in more than 50 years from its own date and, in the event any authorized issue is divided into two or more series or divisions, the maximum maturity date herein authorized shall be calculated from the date on the face of each bond separately, irrespective of the fact that different dates may be prescribed for the bonds of each separate series or division of any authorized issue.

90046. Immediately after the adoption of a resolution by the board and its approval by the State Board of Control, directing the preparation of any bonds or notes authorized under this article, the State Treasurer shall prepare the requisite number of suitable bonds or notes of the denominations, and in accordance with the specifications contained in such resolution.

90047. When the bonds authorized to be issued under this article

shall be duly executed, they shall be sold by the State Treasurer, for cash, in such parcels and numbers as the said Treasurer shall be directed by the Governor of the state, under seal thereof, after a resolution requesting such sale shall have been adopted by the board and approved by the State Board of Control. Before offering any of said bonds for sale, the said Treasurer shall detach therefrom all coupons, if any, which have matured or will mature before the day fixed for such sale.

90048. Bonds and notes may be sold at either public or private sale. The board, with the approval of the State Board of Control, may fix terms and conditions for the sale or other disposition of any authorized issue of bonds or notes. The State Treasurer, when authorized by resolution of the board approved by the State Board of Control, may sell bonds and notes at less than their par or face value, but no bond or note may be sold at a price below the par or face value thereof which would result in a sale price yielding to the purchaser an average of more than 7 percent per annum, payable semiannually, according to standard tables of bond values.

90049. The board may provide for the security of bonds. The board may use and expend all or any part of any funds or proceeds of any property owned by it, whether received by gift, appropriation or otherwise, if not restricted as to the use of such funds or proceeds of property by the terms of any gift or trust or provision of law for the redemption of bonds issued pursuant to the provisions of this article and the payment of interest due thereon.

90050. All costs and expenses incident to the issuance and sale of notes may be paid out of the proceeds of the sale of the notes. All costs and expenses incident to the issuance and sales of bonds and all costs and expenses incident to the redemption of revenue bond anticipation notes retired with proceeds from the sale of the bonds may be paid out of the proceeds of the sale of the bonds. Interest on bonds may be paid out of the proceeds of the sale of the bonds during the actual construction of any project for the acquisition, construction or completion of which the bonds have been issued, and for a period of not to exceed two (2) years thereafter as provided for in the indenture.

90051. The board, with the approval of the State Board of Control, may provide that notes or bonds and the interest thereon shall be secured by all or by part of revenues of a project upon the basis of which the notes or bonds are issued or authorized to be issued, and shall constitute such lien upon the revenues of such project as may be provided for in such notes or in any indenture.

90052. Pending the actual issuance or delivery of revenue bonds, the board, with the approval of the State Board of Control, may issue temporary or interim bonds, certificates or receipts of any denomination whatsoever, and with or without coupons, to be exchanged for definitive bonds when ready for delivery.

90053. The board, with the approval of the State Board of Control, may provide for the replacement of lost, destroyed or

mutilated notes, bonds, and coupons.

90054. Bonds and notes issued pursuant to the provisions of this article and the interest or income therefrom are exempt from all taxation in this state other than gift, inheritance and estate taxes.

90055. Notwithstanding any other provision of law, all notes and bonds hereafter sold and delivered pursuant to the provisions of this article are legal investments for all trust funds and for the funds of all insurance companies, banks, both commercial and savings, trust companies, and the state school funds, and may also be used as security for the deposit of public moneys in banks in this state. Such bonds are also legal investments for any public or private funds which may be invested in county, municipal or school district bonds, and may be deposited as security for the performance of any act whenever the bonds of any county, municipality or school district may be so deposited.

90056. The board, with the approval of the State Board of Control, may provide for the issuance, sale, or exchange of refunding bonds for the purpose of redeeming or retiring any revenue bonds issued under the provisions of this article. All provisions of this article applicable to the issuance of revenue bonds are applicable to the funding or refunding bonds and to the issuance, sale or exchange thereof.

90057. Funding or refunding bonds may be issued in a principal amount sufficient to provide funds for the payment of all bonds to be funded or refunded thereby, and in addition for the payment of all expenses incident to the calling, retiring or paying of such outstanding bonds, and the issuance of such funding or refunding bonds. These expenses include the difference in amount between the par value of the funding or refunding bonds and any amount less than par for which the funding or refunding bonds are sold, any amount necessary to be made available for the payment of interest upon such funding or refunding bonds from the date of sale thereof to the date of payment of the bonds to be funded or refunded or to the date upon which the bonds to be funded or refunded will be paid pursuant to the call thereof or agreement with the holders thereof, and the premium, if any, necessary to be paid in order to call or retire the outstanding bonds and the interest accruing thereon to the date of the call or retirement.

90058. All bonds and notes issued under the provisions of this article are negotiable instruments, except when registered in the name of a registered owner.

90059. Before issuing any bond or bonds pursuant to the provisions of this article, the board shall by resolution, approved by the State Board of Control, declare the purpose for which the proceeds of the bonds proposed to be issued shall be expended and shall specify the maximum amount of bonds to be issued or sold for such purpose, and bonds shall not be issued or sold for such purpose in an amount exceeding such specified maximum except with the consent of bondholders, pursuant to amendment or modification of

an indenture, as provided in Section 90034 of this article. Nothing in this section contained shall be construed to prevent the board, with the approval of the State Board of Control, from amending any such resolution prior to the issuance of bonds authorized thereby to increase or decrease the maximum amount of bonds to be issued or sold. The issuance of bonds for one or more projects may be included in a single resolution of authorization.

90060. The board has full charge of the acquisition, construction and completion of all projects authorized by them and may proceed with such work forthwith.

90061. The board may construct any project and acquire all property necessary therefor on such terms and conditions as it may deem advisable. When any part of the work is to be done or performed by any public body or by the United States jointly or in conjunction with the board, the portion of the cost thereof to be borne by the board may be turned over to the government of the United States or to any other public body to be expended by it in the acquisition, construction or completion of the project.

90062. Title to all property acquired by the board and the revenues and income therefrom is in the State of California. The title to any moneys, revenues, sinking funds, reserve funds and other funds created by this article and the income thereof pledged to the payment of the principal or interest or any bonds issued thereunder is subject to trusts declared in favor of the bondholders. All such property, and the income therefrom, are exempt from all taxation by the State of California or by any county, city and county, city, district, political subdivision or public corporation thereof.

90063. At all times the operation, maintenance, control, repair, construction, reconstruction, alteration and improvement of any project are vested in the board subject to such authorized leases as may be permitted by any indenture.

90064. The board may use for the payment of the costs of acquisition, construction or completion of any project any funds made available to the board by the State of California or any other funds provided by the board from any source, to be expended for the accomplishing of the purposes set forth in this article, together with the proceeds of revenue bonds and revenue bond anticipation notes issued and sold by the board.

90065. The board may insure against loss of revenues from any cause whatsoever and the proceeds of any such insurance shall be used solely for the payment of bonds and notes and the interest thereon.

90066. The board may insure against public liability or property damage. The board may, with the approval of the State Board of Control, provide in an indenture for the carrying of such or any other insurance in such amount and of such character as it shall determine, and for the payment of the premiums thereon.

90067. When authorized by resolution of the board, as provided in this article, the State Treasurer shall prepare and procure the

printing or engrossing of notes, bonds, coupons, indentures or other instruments and contracts or agreements of every kind required or convenient for or pertaining to the issuance or sale of notes or bonds.

90068. The board shall fix rents, charges and fees for all projects acquired, constructed or completed under the terms of this article for the use thereof by any persons utilizing the facilities thereof, subject to such contractual obligations as may be entered into by the board and the holders of notes and bonds issued under this article. The board is authorized to change rents, charges and fees from time to time, as conditions warrant. To the extent and in the manner provided in the indenture, all rents, charges and fees shall at all times be fixed to yield annual revenue equal to annual operating and maintenance expenses, including repairs and insurance costs and all redemption payments and interest charges and reserve fund requirements on revenue bonds at any time issued and outstanding hereunder, as the same become due.

90069. Rent, charges, and fees collected in error may be refunded by the board in accordance with regulations prescribed by the board. Refunds of rent, charges, and fees collected for facilities requested by students and not utilized by them may be made for good cause by the board in such amounts and under such conditions as may be prescribed by regulations adopted by the board.

90070. The board, with the approval of the State Board of Control, may include in an indenture such limitations as to competitive projects, both as to location and comparative rentals, as may be deemed necessary or desirable for the security of revenue bonds issued pursuant to this article.

90071. The board, with the approval of the State Board of Control, may also include in an indenture a covenant that no project acquired, constructed or completed from the proceeds of revenue bonds issued under the provisions of this article shall be used without charge therefor or any facilities thereof be furnished free of charge to any person.

90072. The holder of any bond or note issued pursuant to this article may by mandamus or other appropriate proceeding require and compel the performance of any of the duties imposed upon the board or upon any official or employee or assumed by any thereof, in connection with the acquisition, construction, operation, maintenance, repair, reconstruction or insurance of any project, or the collection, deposit, investment, application and disbursement of rents, rates, charges, fees and all other revenues derived from the operation and use of any project or in connection with the deposit, investment and disbursement of the proceeds received from the sale of bonds and notes under this article. The enumeration of such rights and remedies does not, however, exclude the exercise or prosecution of any other rights or remedies available to the holders of bonds and notes issued pursuant to this article.

90073. The proceeds from the sale of all bonds and notes authorized under the provisions of this article, except those proceeds

used to redeem outstanding notes, shall be deposited forthwith by the State Treasurer, on order of the State Controller, in the State Treasury to the credit of a fund to be designated as the California State University and Colleges Dormitory Construction Fund, which fund is hereby created. The money in such construction fund shall be expended, pursuant to claims filed by the board with the State Controller, for the purposes authorized by this article, or as provided in the indenture or notes, and for such other purposes, subject to the restrictions provided by law, by the notes, or by the indenture, as may be authorized by resolution of the board approved by the State Board of Control. Moneys required to meet the costs of acquisition or construction and all expenses and costs incidental to the acquisition, construction, furnishing and equipping of any project authorized by this article shall be paid from the said construction fund as herein provided upon claim filed by the board and after audit by the State Controller in the manner provided by law and upon warrants drawn by the Controller.

90074. To the extent and in the manner provided in the indenture or in a resolution authorizing the issuance of notes, all revenues received from the operation of any project acquired or constructed by the board under the provisions of this article shall be transmitted by the board at least once in every calendar month, to the State Treasurer. On order of the State Controller, the said Treasurer shall deposit such revenues in the State Treasury to the credit of the California State University and Colleges Dormitory Revenue Fund, which fund is hereby created. Moneys in the California State University and Colleges Dormitory Revenue Fund shall be used to pay the costs of operation and maintenance of the projects authorized by this article, including refunds authorized by Section 90069, to provide the amounts required for interest and redemption of notes and bonds as provided in this article, and for any other purposes authorized by resolution of the board approved by the State Board of Control, subject to any restrictions provided by law, a resolution authorizing the issuance of notes, or the indenture.

90075. For the payment of the principal and interest of the notes and bonds authorized to be issued under this article, an interest and redemption fund in the State Treasury is hereby created, to be designated the California State University and Colleges Dormitory Interest and Redemption Fund. From the money deposited in the California State University and Colleges Dormitory Construction Fund, the State Treasurer, on order of the State Controller, shall transfer to the California State University and Colleges Dormitory Interest and Redemption Fund such sums as may be required to pay the interest as it becomes due on all notes and bonds sold and outstanding for the construction or acquisition of a particular project authorized under this article during the period of actual construction or acquisition thereof and during such period thereafter as may be provided in the indenture or authorized by resolution of the board approved by the State Board of Control. The State Treasurer, on

order of the State Controller, shall thereafter transfer from the California State University and Colleges Dormitory Revenue Fund to the California State University and Colleges Dormitory Interest and Redemption Fund such sums as may be required to pay the interest on said notes and bonds and redeem the principal thereof as such interest payments and note and bond redemptions fall due for all notes and bonds issued under the provisions of this article.

90076. Any balance remaining in any of the funds created by this article after payment of all costs, expenses, and charges authorized to be expended therefrom, may be allocated and used for such other purposes incidental to the acquisition, construction, furnishing, equipping, operation and maintenance of such projects authorized under the provisions of this article as the board, with the approval of the State Board of Control, may determine.

90077. Moneys in the California State University and Colleges Dormitory Construction Fund may be invested by the board, with the approval of the State Board of Control, subject only to such limitations as may be provided in any resolution authorizing the issuance of revenue bond anticipation notes or in any indenture providing for the issuance of revenue bonds. All securities or other investments made under the provisions of this article shall be held by the State Treasurer as custodian thereof. All interest or other earnings received pursuant to such investments shall be collected by the State Treasurer, and, on order of the State Controller, shall be deposited in the State Treasury to the credit of the fund from which such interest or other earnings are derived.

90078. After all of the notes and revenue bonds shall have been fully paid and discharged, or provision for their payment and discharge irrevocably made, any surplus moneys in the California State University and Colleges Dormitory Construction Fund shall, subject to the limitations and restrictions in any resolution authorizing the issuance of the notes or in any indenture providing for the issuance of the revenue bonds, remain available for the acquisition of sites for, and for the construction, equipping and furnishing of, buildings for the California State University and Colleges.

90079. All money in the funds created by the provisions of this article is hereby appropriated for expenditure in carrying out the purposes herein provided.

90080. The article shall be liberally construed to carry out the objects and purposes and the declared policy of the State of California as in this article set forth.

CHAPTER 9. STATE UNIVERSITY AND COLLEGES CONTRACT  
LAW

Article 1. General Provisions

90100. This chapter may be cited as the California State University and Colleges Contract Law.

90101. As used in this chapter:

(a) "Project" includes the erection, construction, alteration, repair or improvement of any state structure, building, road, or other state improvement of any kind which will exceed in cost a total of ten thousand dollars (\$10,000).

(b) "Trustees" means the Trustees of the California State University and Colleges.

(c) "Service contract" means any contract for services in connection with a project other than a project contract, and includes, but is not limited to, contracts for architectural, engineering, planning, testing, general studies, or feasibility services.

90102. Contracts for the purchase of supplies or materials, which are purchased through the Department of General Services, are not subject to this chapter, even though the seller is required to perform some incidental work or service in connection with the delivery of the material or supplies.

90103. Work done directly by any public utility company pursuant to order of the Public Utilities Commission or other public authority, is not subject to this chapter, whether or not done under public supervision or paid for in whole or part out of public funds.

90104. The project shall be under the sole and direct control of the trustees, pursuant to the powers and responsibilities invested in them by Chapter 8 (commencing with Section 66600) of Part 40 of Division 5 of this title.

90105. Where the nature of the work in the opinion of the trustees is such that the application of all of the provisions of this chapter in connection therewith are not required, it may, with the approval of the Department of Finance, carry out the project pursuant to this section if the estimated cost does not exceed one hundred thousand dollars (\$100,000).

If the estimated total cost of any construction project or work carried out under this section exceeds five thousand dollars (\$5,000), the trustees shall solicit bids in writing and shall award the work to the lowest responsible bidder or reject all bids. The trustees may carry out work in excess of five thousand dollars (\$5,000) under the provisions of this section by day labor if they deem that the award of a contract, the acceptance of bids, or the acceptance of further bids is not in the best interests of the state, but the amount of work performed by day labor under this section shall not exceed the sum of twenty thousand dollars (\$20,000).

90106. The trustees and the Department of General Services may enter into an agreement under which the Department of General

Services will carry out any of the functions of the trustees under this chapter, upon such terms as are mutually agreed upon.

90107. The trustees may enter into service contracts. Such contracts shall be subject only to Section 90220 and to such other provisions of this chapter, if any, as the trustees may from time to time designate as applicable.

## Article 2. Plans and Specifications

90120. Before entering into any contract for a project, the trustees, pursuant to the powers invested in them by Chapter 8 (commencing with Section 66600) of Part 40 of Division 5 of this title, shall cause to be prepared full, complete, and accurate plans and specifications and estimates of cost, giving such directions as will enable any competent mechanic or other builder to carry them out.

90121. The plans, specifications, and estimates of cost shall be approved by the trustees and the original draft or a certified copy filed permanently in the office of the trustees before further action is taken.

90122. Work on all projects shall be done under contract awarded to the lowest responsible bidder pursuant to this chapter, except that it may be done by day's labor under the direction of the trustees, by contract upon informal bids, or by a combination thereof:

(a) In case of emergency due to an act of God, earthquake, flood, storm, fire, landslide, public disturbance, or vandalism which causes damage to a state-owned building, state-owned real property or any improvements thereon, for work and remedial measures which are required immediately and which are necessary to protect the public health, safety, and welfare.

(b) At any time after the approval of plans, specifications and estimates of cost, if the trustees deem the advertising or award of a contract, the acceptance of any bid, or the acceptance of any further bids after the rejection of all submitted bids, is not in the best interests of the state.

90123. Upon the approval of the trustees the authorized employees of the trustees may, when proceeding upon the basis of day's labor, let any subdivision or unit of the work by contract upon informal bids; but such work shall be let only to a holder of a valid state contractor's license unless such work is exempt from such licensing requirement by any other provision of law.

90124. Bids may be received and contracts awarded on a unit basis, that is, the bids compared upon the basis of estimates of the quantities of the work to be done.

90125. Except in unit basis contracts, contracts shall not be made exceeding in amount the estimates of costs approved by the trustees. Plans and specifications and estimates of costs including expense of advertising and inspection, shall not be approved by the trustees requiring a greater expenditure of money than is appropriated for the specific purpose in the law authorizing the expenditure.

90126. The trustees may receive bids for the construction of several public works projects at one campus of the California State University and Colleges as a single project. Where more than one appropriation has been made for the several projects united as a single project under the provisions of this section, payments for the single project shall be made from the separate appropriations on such proportional basis as may be determined by the trustees and approved by the Department of Finance.

### Article 3. Advertisement for Bids

90140. When it appears from the estimates of cost that the estimated contract price of any project will not exceed fifteen thousand dollars (\$15,000), the trustees may direct that public notice to bidders be given as follows:

(a) By publication for two consecutive insertions in a weekly trades paper of general circulation, published either in Los Angeles or San Francisco, devoted primarily to the dissemination of contract news among contracting firms; and

(b) Once a week for two consecutive weeks in a newspaper of general circulation in the county in which the project is located, or, if located in more than one county in such a newspaper in a county in which a major portion of the work is to be done.

90141. The notices shall state the time and place for the receiving and opening of sealed bids and describe in general terms the work to be done.

90142. When it appears that the estimated contract price will exceed fifteen thousand dollars (\$15,000), public notice to bidders shall be given by publication once a week for at least two consecutive weeks, or once a week for more than two consecutive weeks if such longer period of advertising is deemed necessary by the trustees, next preceding the day set for the receiving of bids:

(a) In two trade papers of general circulation, one published in Los Angeles and one in San Francisco, devoted primarily to the dissemination of contract and building news among contracting and building material supply firms; or

(b) In the discretion of the trustees, in one newspaper of general circulation published in the county in which the major portion of the project is located, and in one such trade paper published in the county group, as defined in Section 187 of the Streets and Highways Code, in which the work is to be done.

90143. The notices shall state the time and place for the receiving and opening of sealed bids and that the bids will be required for the entire project and for the performance of segregate designated parts of the entire project, when the trustees determines that segregation is advisable.

## Article 4. Bids and Bidders

90160. The trustees may, and on contracts the estimated cost of which exceeds fifty thousand dollars (\$50,000) the trustees shall, require from prospective bidders answers to questions contained in a standard form of questionnaire and financial statement including a complete statement of the prospective bidder's financial ability and experience in performing public works. When completed, the questionnaire and financial statement shall be verified under oath by the bidder in the manner in which pleadings in civil actions are verified.

90161. The trustees shall adopt and apply a uniform system of rating bidders, on the basis of the standard questionnaires and financial statements, in respect to the size of the contracts upon which each bidder is qualified to bid.

90162. In all projects for road, street and bridge work where federal funds are involved and where a bidder is required to be and has been prequalified pursuant to Sections 90160 and 90161, no bid submitted or contract thereafter awarded shall be invalidated by the failure of the bidder or contractor to be properly licensed in accordance with the laws of this state, nor shall any such contractor be denied payment under any such contract because of such failure; provided, however, that the first payment for work or material under such contract shall not be made by the State Controller unless and until the Registrar of Contractors certifies to him that the records of the Contractors State License Board indicate that such contractor was or became properly licensed between the time of bid opening and the making of the certification. Any bidder or contractor not so licensed shall be subject to all legal penalties imposed by such laws, including but not limited to any appropriate disciplinary action by the Contractors State License Board, and the trustees shall include a statement to that effect in the standard form of prequalification questionnaire and financial statement.

90163. The questionnaires and financial statements are not public records and are not open to public inspection.

90164. The trustees shall furnish to each bidder a standard proposal form, which, when filled out and executed may be submitted as his bid. Bids not presented on forms so furnished shall be disregarded. The trustees shall not furnish proposal forms to any person who is required to submit and has not submitted a questionnaire and financial statement for prequalification at least five days prior to the date fixed for publicly opening sealed bids and been prequalified for at least one day prior to that date.

90165. All bids shall be presented under sealed cover and accompanied by one of the following forms of bidder's security: cash, a cashier's check, certified check, or a bidder's bond executed by an admitted surety insurer, made payable to the trustees. The security shall be in an amount equal to at least 10 percent of the amount bid. A bid shall not be considered unless one of the forms of bidder's

security is enclosed with it.

90166. Whether or not bids are opened exactly at the time fixed in the public notice for opening bids, a bid shall not be received after that time.

90167. Any bid may be withdrawn at any time prior to the time fixed in the public notice for the opening of bids only by written request for the withdrawal of the bid filed with the trustees. The request shall be executed by the bidder or his duly authorized representative. The withdrawal of a bid does not prejudice the right of the bidder to file a new bid.

This section does not authorize the withdrawal of any bid after the time fixed in the public notice for the opening of bids.

#### Article 5. Award of Contracts

90180. On the day named in the public notice the trustees shall publicly open the sealed bids and award the contracts to the lowest responsible bidders.

90181. If the successful bidder fails to execute the contract, his bidder's security shall be forfeited to the state. The cash or proceeds shall be deposited in the fund out of which the expenses of preparation and printing of the plans and specifications, estimates of cost, and publication of notice are paid.

90182. If the trustees deem it is for the best interest of the state, they may, on the refusal or failure of the successful bidder to execute the contract, award it to the second lowest responsible bidder.

If the second lowest responsible bidder fails or refuses to execute the contract, the trustees may likewise award it to the third lowest responsible bidder.

On the failure or refusal of the second or third lowest bidder, to whom a contract is so awarded, to execute it, his bidder's security shall be likewise forfeited to the state.

90183. The failure of the successful bidder to furnish any bond required of him by law, within the time fixed for his execution of the contract, constitutes a failure to execute the contract.

90184. The bidder's security of the second and third lowest responsible bidders may be withheld until the contract has been finally executed. The cash, cashier's checks and certified checks submitted by all other unsuccessful bidders shall be returned to them within 10 days after the contract is awarded, and their bidders' bonds shall be of no further effect.

90185. If the trustees deem the acceptance of the lowest responsible bid or bids is not for the best interests of the state, they may reject all bids and proceed by day's labor or advertise for other bids in the manner required by this chapter.

## Article 6. Relief of Bidders

90200. A bidder shall not be relieved of his bid nor shall any change be made in his bid because of mistake, but he may bring an action against the trustees in a court of competent jurisdiction in the county in which the bids were opened for the recovery of the amount forfeited, without interest or costs.

The bond of an admitted surety insurer shall be filed with the complaint, in such sum as the court may fix, but not less than five hundred dollars (\$500), conditioned that, if the plaintiff fails to recover judgment, he shall pay all costs incurred by the trustees in the suit, including a reasonable attorney's fee to be fixed by the court.

90201. The complaint shall be filed, and summons served on the trustees, or an appearance made, within 90 days after the opening of the bid; otherwise, the action shall be dismissed.

90202. The bidder shall establish to the satisfaction of the court that:

(a) A mistake was made.

(b) He gave the trustees written notice within five days after the opening of the bids of the mistake, specifying in the notice in detail how the mistake occurred.

(c) The mistake made the bid materially different than he intended it to be.

(d) The mistake was made in filling out the bid and not due to error in judgment or to carelessness in inspecting the site or the work, or in reading the plans or specifications.

90203. Other than the notice to the trustees, no claim is required to be filed before bringing the action.

90204. A bidder who claims a mistake or who forfeits his bid security shall be prohibited from participating in further bidding on the project on which the mistake was claimed or security forfeited.

90205. In all actions brought under the provisions of this article, all courts wherein such actions are or may hereafter be pending, shall give such actions preference over all other civil actions therein, in the matter of setting the same for hearing or trial, and in hearing the same, to the end that all such actions shall be quickly heard and determined.

## Article 7. Contract Requirements

90220. Every contract awarded under this chapter shall be submitted to the Attorney General or the attorney appointed according to law and authorized to represent the trustees. Such a contract is not binding on the state until the appropriate attorney finds it to be in accordance with the requirements of this chapter, and endorses such finding thereon.

A certified copy of each contract shall be filed with the Controller, but the failure so to file does not invalidate it.

90221. Every contract shall provide for the filing of separate

performance and payment bonds by the contractor executed by an admitted surety insurer, subject to the approval of the trustees.

90222. Each bond shall be in a sum equal to at least one-half of the contract price, except as otherwise provided in Section 3248 of the Civil Code.

90223. The payment bond shall secure the payment of the claims of laborers, mechanics or materialmen employed on the work under the contract and shall contain all other provisions required by law.

90224. The performance bond shall guarantee the faithful performance of the contract by the contractor.

90225. Whenever the trustees have cause to believe that the surety has become insufficient, they may demand in writing of the contractor such further bonds or additional surety, not exceeding that originally required, as in their opinion is necessary, considering the extent of the work remaining to be done. Thereafter no payment shall be made upon such contract to the contractor or any assignee of the contractor until the further bonds or additional surety has been furnished.

90226. Every contract shall contain a provision in regard to the time when the whole or any specified portion of the work contemplated shall be completed, and shall provide that for each day completion is delayed beyond the specified time, the contractor shall forfeit and pay to the state a specified sum of money, to be deducted from any payments due or to become due to the contractor. A contract for a road project may also provide for the payment of extra compensation to the contractor, as a bonus for completion prior to the specified time, such provision, if used, to be included in the specifications and to clearly set forth the basis for such payment.

90227. Every contract shall provide that the trustees may make changes in the plans and specifications pursuant to this chapter.

#### Article 8. Modifications; Performance; Payment

90240. The trustees may increase or decrease quantities of work to be done under a unit basis contract during the progress of the work.

90241. The trustees may cause the insertion of provisions in any contract for the performance of such extra work and the furnishing of materials therefor by the contractor as the trustees require for the proper completion or construction of the whole work contemplated, if the bidders have equal opportunity of knowing the proposed terms for the extra work.

90242. The trustees may grant such extensions of time for completion as they deem for the best interests of the state.

90243. If the trustees deem that a contractor has failed to supply an adequate working force, or material of proper quality, or has failed in any other respect to prosecute the work with the diligence and force specified by the contract, the trustees may:

- (a) After written notice of at least five days to the contractor,

specifying the defaults to be remedied, provide any such labor or materials and deduct the cost from any money due or to become due to the contractor under the contract; or

(b) If the trustees consider that the failure is sufficient ground for such action, they may give written notice of at least five days to the contractor and the contractor's sureties, that if the defaults are not remedied the contractor's control over the work will be terminated.

90244. If the defaults are not remedied within the time specified in the notice, the contractor's control shall terminate as of the expiration of that time.

90245. Upon such termination, the trustees may take possession of and use all or any part of the contractor's materials, tools, equipment, and appliances upon the premises to complete the contract. Thereupon, the trustees may permit the surety to complete or cause the contract work to be completed, or they may direct that all or any part of the work be completed by day's labor or by employment of other contractors on informal contracts, or both.

90246. Such informal contracts may be awarded only after a proposal form has been prepared, a copy is served upon the contractor whose control has been terminated, and upon his surety, and three days allowed thereafter so that he may cause others to bid. Any person who is prequalified therefor under Article 4 (commencing with Section 90160) of this chapter may bid on informal contracts.

90247. The provisions of this chapter, except as to prequalifications, are not applicable to the award of informal contracts.

90248. If the control of a contractor is terminated or he abandons the work, and the work is performed by day's labor or informal contract as provided in Section 90245, he is not entitled to receive any portion of the amount to be paid under the contract until it is fully completed. After completion, if the unpaid balance exceeds the sum of the amount expended by the state in finishing the work, plus all damages sustained or to be sustained by the state, the excess not otherwise required by law to be retained shall be paid to the contractor, but if such sum exceeds the unpaid balance, the contractor and his surety are liable to the state for the excess. If the surety completes the contract work, as provided in Section 90245, such surety shall be subrogated to money due under the contract and to money which shall become due in the course of completion by the surety, to the extent provided by law.

90249. On the completion of the contract, the original contractor is entitled to the return of all his unused materials, and his equipment, tools, and appliances, except that he shall have no claim on account of usual and ordinary depreciation, loss, and wear and tear.

90250. The notices required by this article may be served on the contractor or on his agent having charge of the work, personally, or by registered mail addressed to the contractor or his agent, or, if

neither can be located or their addresses are unknown, by posting in a conspicuous place upon the premises of the project.

90251. Payments upon contracts shall be made as the trustees prescribe upon estimates made and approved by the trustees, but progress payments shall not be made in excess of 95 percent of the percentage of actual work completed plus a like percentage of the value of material delivered on the ground or stored subject to or under the control of the state, and unused. The trustees shall withhold not less than 5 percent of the contract price until final completion and acceptance of the project. The Controller shall draw his warrants upon estimates so made and approved by the trustees and the Treasurer shall pay them.

90252. At the request and expense of the contractor, and with the approval of the trustees, any amount withheld pursuant to Section 90251 may be deposited with the State Treasurer as the escrow agent, who shall pay such moneys to the contractor upon the placing of securities eligible for the investment of state funds under Section 16430 of the Government Code or bank certificates of deposit into such escrow account by the contractor.

"Approval of the trustees," as used in this section, means that the trustees may, in their discretion, allow or deny the request of the contractor to avail itself of the provisions of this section and that the trustees may, in their discretion, allow the request of the contractor upon the satisfaction of conditions which may be specified by the trustees.

The contractor shall be beneficial owner of any securities in an escrow account pursuant to this section and shall receive any interest thereon.

Any escrow agreement entered into pursuant to this section shall contain as a minimum, the following provisions:

(a) The amount of securities to be deposited; such amount shall not be less than the amount which would otherwise be withheld pursuant to Section 90251;

(b) The terms and conditions of conversion to cash in case of the default of the contractor; and

(c) The termination of the escrow upon completion of the contract.

## Article 9. Offenses

90270. Any officer or employee of the trustees who corruptly performs any official act to the injury of the state, is guilty of a felony.

90271. Any contractor or his agent or employee who corruptly permits the violation of any contract awarded under this chapter to the injury of the state, is guilty of a felony.

90272. Any subcontractor or agent or employee of any contractor or subcontractor, who has knowledge of any work being done in violation of any contract under this chapter and does not immediately notify the trustees or the inspector or resident engineer

upon the project of the violation, is guilty of a felony.

90273. Such felonies are punishable by imprisonment in the state prison for not less than one nor more than five years.

90274. Such persons are also liable to the state for double the amount the state may have lost, or be liable to lose by reason of the acts made crimes by this article.

## CHAPTER 10. SPECIFIC PROVISIONS RELATING TO PARTICULAR CAMPUSES

### Article 1. California State Polytechnic University

90400. The California State Polytechnic University included within the California State University and Colleges is comprised of the two separate campuses or complexes of buildings, facilities, and land described as follows:

(a) The campus or complex situated within the County of San Luis Obispo.

(b) The campus or complex situated within the County of Los Angeles and within or near the City of Pomona and the City of San Dimas.

90401. The trustees shall have all power necessary to provide for the establishment of a separate California State Polytechnic University at the campus or complex situated in the County of Los Angeles, more particularly described in subdivision (b) of Section 90400, including the power to execute any necessary agreements and to receive, on behalf of the state, any property or interest in property which may be conveyed to the state in connection therewith or for any purposes of this section.

From and after the date upon which final action for the establishment of such separate university has been taken by the trustees, there shall be, within the California State University and Colleges, two separate California state polytechnic universities, comprised of the respective campuses or complexes described in Section 90400. The provisions of Section 89067, the provisions of Sections 90404 to 90406, inclusive, and any provisions of law limited in applicability specifically to the California State Polytechnic University, unless otherwise therein specified, shall be deemed applicable to either or both of such California state polytechnic universities.

90402. It is the intent and purpose of the Legislature, in authorizing the establishment of the separate California State Polytechnic University in the County of Los Angeles at the campus or complex described in subdivision (b) of Section 90400, that the educational program there provided continue to be conducted in accordance with the essential aims and policies expressed in Section 90404, and in that certain grant deed dated November 22, 1949, as amended or modified by subsequent agreements and conveyances, whereby the W. K. Kellogg Foundation, a Michigan corporation, has

granted to the State of California, for the use and benefit of the California State Polytechnic University, certain real property situated in the County of Los Angeles, which will form a part of such separate California State Polytechnic University.

90403. Other sections to the contrary notwithstanding, tuition fees adequate to meet the cost of maintaining limited residence programs which are established by the trustees in the area of military installations and which are designed primarily for the benefit of military and nonmilitary personnel at such installations, shall be required of, and collected from resident and nonresident students enrolled in such programs, under and pursuant to rules and regulations prescribed by the trustees. Students whose enrollment is entirely in such programs shall not be required to pay nonresident tuition established pursuant to Section 89705.

The trustees shall not establish a limited residence program in the area of a military installation which is designed primarily for the benefit of military and nonmilitary personnel at such installation without the prior approval of the Coordinating Council for Higher Education.

The enactment of this section is intended to prohibit, and the provisions of this section shall be construed as prohibiting, the state from providing capital outlay expenditures for any limited residence program in the area of a military installation which is designed primarily for the benefit of military and nonmilitary personnel at such installation.

The effect of this section is limited to the classes provided by California Polytechnic State University at Vandenberg Air Force Base.

If any provision of this section or the application thereof to any person or circumstances is held invalid, such invalidity shall not affect other provisions or applications of the section which can be given effect without the invalid provision or application, and to this end the provisions of this section are severable.

90404. In addition to the functions provided by Section 66608 the California State Polytechnic University shall be authorized to emphasize the applied fields of agriculture, engineering, business, home economics and other occupational and professional fields. This article shall be liberally construed.

90405. The California State Polytechnic University Agricultural Project Revolving Fund in the sum of ten thousand dollars (\$10,000) is continued in existence. The fund shall be used for loans to needy and deserving students for the purchase of livestock, poultry, seed, feed, and such other materials as are necessary for the conducting of projects by students under supervision of instructors in the school. All sums borrowed shall be returned to the revolving fund as soon as projects are completed.

90406. The trustees, with the consent of the Director of Finance, may sell or trade such of the property belonging to the state and used for the California State Polytechnic University as may in the

judgment of the trustees be disposed of advantageously. The proceeds of the sale shall be used for the purchase of such other land for the use of the California State Polytechnic University as the trustees and the Director of Finance may deem necessary.

#### Article 2. California State University, Fresno

90420. Notwithstanding any other provision of law, the Director of General Services, with the approval of the State Public Works Board and the Trustees of the California State University and Colleges, may rent, lease, sell, trade, or otherwise dispose of the property belonging to the state and used as California State University, Fresno, Ratcliffe Stadium, located on Blackstone Avenue between University Avenue and Cambridge Avenue in the City of Fresno, California.

All proceeds derived from such rental, lease, sale, trade, or other disposition shall be used for the acquisition, construction, improvement, or leasing of an athletic stadium for California State University, Fresno, and are hereby appropriated for the purposes described herein without regard to fiscal year.

#### Article 3. California State University, Northridge

90430. All property, both real and personal, of the San Fernando campus of the Los Angeles State College of Applied Arts and Sciences is hereby assigned to the state university or college located in the San Fernando Valley.

90431. Each employee of the Los Angeles State College of Applied Arts and Sciences who is transferred to the state university or college located in the San Fernando Valley on or before the beginning date of the academic school year 1958–59 shall be entitled to retain all sickness and injury, sabbatical and other leave rights and all seniority and tenure rights accumulated as an employee of the Los Angeles State College of Applied Arts and Sciences as fully as though there had been no change in the name or operation of the college.

#### Article 4. San Francisco State University

90440. Notwithstanding any other provision of law, the trustees may rent, lease, sell, or trade the property belonging to the state and used for the San Francisco State University Downtown Center, located at 540 Powell Street, San Francisco, California. All proceeds derived from such renting, leasing, sale, or trade shall be used for the acquisition, construction, improvement, or leasing of a downtown center for the California State University, San Francisco.

## CHAPTER 11. MISCELLANEOUS

## Article 1. State University and College Publications

90500. All printing and binding required by the trustees shall be performed by the Department of General Services in the form and manner, and at the prices of other state printing, and be paid for in like manner, except that the trustees may fix the price for the sale of any bulletin or publication of the trustees or any state university or college, and may specify the class of persons or institutions that may receive copies of any publication free of charge.

Any county, or any school district, or community college district in this state may purchase from the trustees any publications of the trustees or any state university or college.

## Article 2. Football Equipment

90510. The president of each campus of the California State University and Colleges shall provide for the annual cleaning, sterilizing, and necessary repair of football equipment of his campus of the California State University and Colleges pursuant to Sections 90511 and 90512.

90511. All football equipment actually worn by pupils shall be cleaned and sterilized at least once a year. Football equipment used in spring training shall be cleaned and sterilized before it is used in the succeeding fall term.

90512. Any contract with a dealer or craftsman for the repair of football equipment belonging to the district or the state college shall specifically state or describe the materials to be used by the dealer or craftsman in repairing such equipment.

## DIVISION 9. UNIVERSITY OF CALIFORNIA

## PART 57. UNIVERSITY OF CALIFORNIA

## CHAPTER 1. GENERAL PROVISIONS

## Article 1. Name of the University

92000. The name "University of California" is the property of the state. No person shall, without the permission of the Regents of the University of California, use this name, or any abbreviation of it or any name of which these words are a part in any of the following ways:

- (1) To designate any business, social, political, religious, or other organization, including but not limited to, any corporation, firm, partnership, association, group, activity or enterprise; or
- (2) To imply, indicate or otherwise suggest that any such organization is connected or affiliated with, or is endorsed, favored

or supported by, or is opposed by the University of California; or

(3) To display, advertise, or announce this name publicly at or in connection with any meeting, assembly, or demonstration, or any propaganda, advertising or promotional activity of any kind which has for its purpose or any part of its purpose the support, endorsement, advancement, opposition or defeat of any strike, lockout, or boycott or of any political, religious, sociological, or economic movement, activity or program.

Provided, that nothing in this section shall interfere with or restrict the right of any person to make a true and accurate statement of his present or former relationship or connection with, his employment by, or his enrollment in, the University of California in the course of stating his experience or qualifications for any academic, governmental, business, or professional credit or enrollment, or in connection with any academic, governmental, professional or other employment whatsoever.

Every person violating the provisions of this section is guilty of a misdemeanor.

## Article 2. Tuition Fees

92010. An admission fee and rate of tuition fixed by the board of regents shall be required of each student, except as otherwise provided.

## Article 3. Meetings of the Regents

92030. All meetings of the Regents of the University of California shall, except as otherwise provided in this section, be open to the public. The corporation shall establish the time and place for holding regular meetings, but may, as occasioned by necessity, hold special meetings. Public notice shall be given for such meetings. Such notice shall be given by notifying any newspaper of general circulation or any television or radio station, and shall be delivered personally or by mail so that the notice may be published or broadcast at least 24 hours before the time of such meeting.

The Regents of the University of California may also hold executive sessions when it meets to consider or discuss: (a) matters relating to or affecting the national security; (b) the conferring of honorary degrees or other honors or commemorations; (c) those matters involving gifts, devises and bequests; (d) matters involving purchase and sale of investments for endowment and pension funds; (e) matters involving litigation when discussion in open session concerning such matters would adversely affect or be detrimental to the public interest; (f) matters involving acquisition and disposition of property; (g) matters relating to the appointment, employment, performance, compensation, or dismissal of officers and employees, excluding individual regents other than the president of the university; and (h) matters relating to complaints or charges brought

against officers or employees of the university, excluding individual regents other than the president of the university unless such officer or employee requests a public hearing. There also may be excluded from any such public or private meeting during the examination of a witness, any or all other witnesses in the matter being investigated.

#### Article 4. Condemnation of Property by the Regents

92040. The Regents of the University of California may acquire by eminent domain any property necessary to carry out any of the powers or functions of the University of California.

### CHAPTER 2. FISCAL TREASURY

#### Article 1. Withdrawal From the State Treasury

92100. Any sum of money specifically appropriated to, or for the use of, or expenditure by, the Regents of the University of California, other than money appropriated by a state budget act for the general support of the University of California, may be withdrawn at any time in its entirety from the State Treasury, at the direction of the Regents of the University of California, upon a warrant payable to the treasurer of the Regents of the University of California.

92101. The Regents of the University of California shall submit reports to the State Public Works Board of any allocations made by the Regents of the University of California pursuant to the provisions of this article.

#### Article 2. Transfer of Land Acquired by Tax Sales to the University

92110. Whenever the state is the owner of any property sold for taxes and the deed to the state has been filed with the Controller, and there appears of record a mortgage upon the property to the Regents of the University of California, and the mortgage and the debt secured by the mortgage have not been both paid in full and satisfied of record, the Controller, upon receiving proof, by affidavit of the president and secretary, or acting secretary or of the treasurer of the regents, that the debt secured by the mortgage has not been fully paid, shall direct the tax collector of the county or city and county in which the lands are situated, to execute a deed of the lands in the name of the state to the Regents of the University of California.

92111. The tax collector shall thereupon publish a notice once a week for at least three successive weeks in some newspaper published in the county or city and county in which the lands are situated, or if there is no newspaper published therein, then the tax collector shall post a notice in three conspicuous places in the county or city and county at least three weeks before the day named in the notice.

92112. The notice shall state that on or after a day mentioned, which shall be not less than four weeks, and not more than eight weeks after the first publication or posting of the notice, the tax collector will execute and deliver to the Regents of the University of California a deed to the property, and shall describe the property and shall state that the deed will be made because of a sale of the property to the state for delinquent taxes, and because the Regents of the University of California are interested in the property. No other matters need be contained in the notice. One or more pieces of land may be described in the affidavit, notice, deed, and report provided for in this article.

92113. Unless prior to the day mentioned in the notice, there is paid to the tax collector (a) the full amount for which the property was sold to the state, together with all interest and penalties thereon and all expenses and costs connected therewith, and (b) all subsequent state and county taxes not theretofore paid in full, and all interest and penalties thereon, and all costs and expenses connected therewith, and also (c) the expense of publishing or posting the notice, as the case may be, the tax collector shall on the day, or within 10 days thereafter, execute, acknowledge, and deliver a deed to the regents without any payment, charge, or fee therefor, and shall within five days thereafter report in writing to the Controller the fact of the execution of the deed.

92114. The expense of the publication and posting shall be paid by the Regents of the University of California, unless the expense is paid to the tax collector prior to the day mentioned in the notice.

92115. If the notice describes two or more pieces of land assessed separately and sold separately to the state, and if all the payments are made within the time prescribed in respect to any one of the pieces separately assessed and sold, the piece paid upon shall not be included in the deed, and the fact of the payment and the amount paid shall be stated in the report to the Controller.

92116. The deed shall transfer, grant, convey, and confirm to the Regents of the University of California the entire title to the lands, free and clear of all claims and incumbrances whatsoever. Nothing contained in this article shall be held to interfere with the right of the regents to enforce the mortgage or the payment of the debt secured thereby, or to procure a decree of foreclosure and a sale under the decree of all or any of the property described in the mortgage.

92117. The deed shall recite the facts provided in this article as authorizing its execution and is prima facie evidence of the facts and of all matters therein recited and of the ownership of the lands by the regents.

92118. The deed may be recorded in the office of the county recorder of the county or city and county in which the lands are situated, and upon the expiration of two years after it has been recorded, shall, except as against parties deriving title through a sale and purchase under decree of foreclosure of the mortgage, be

conclusive evidence that the complete fee simple title to the property therein described vested at the date of the deed in the Regents of the University of California, free and clear of all claims, liens, charges, and incumbrances whatsoever.

92119. In any action commenced against the regents before the expiration of two years to question the title of the regents to the property, the deed is prima facie evidence only.

92120. While any mortgage to the regents appears of record and not satisfied of record, no lands which have been sold to the state for taxes and the deed to which has been filed with the Controller, shall be sold or disposed of, except as provided in this article.

### Article 3. Insurance

92130. All property of the University of California held in fee or otherwise for purposes of income may be insured against damage or loss.

### Article 4. Federal Funds for Education in Agriculture and Mechanical Arts

92140. The state assents to the provisions of an act passed by Congress, entitled "An act to apply a portion of the proceeds of the Public Lands to the more complete endowment and support of the colleges for the benefit of agriculture and the mechanic arts, established under the provisions of an act of Congress, approved July second, Eighteen Hundred and Sixty-two," and approved August 30, 1890.

92141. The state assents to the provisions of an act passed by Congress known as the Smith-Lever Act, and entitled, "An act to provide for cooperative agricultural extension work between the agricultural colleges in the several states receiving the benefits of an act of congress approved July 2, 1862, and of acts supplementary thereto, and the United States Department of Agriculture," approved May 8, 1914.

The Regents of the University of California are authorized to receive the grants of money appropriated under the act of Congress and to organize and conduct agricultural extension work in accordance with the terms and conditions expressed in the act.

92142. The state assents to the provisions of an act passed by Congress, entitled "An act to authorize a more complete endowment of agricultural experiment stations and for other purposes, approved February 24, 1925."

The Regents of the University of California are authorized to receive grants of money authorized by the act for the benefit of the University of California Agricultural Experiment Station and to use the money in accordance with the terms and conditions expressed in the act of Congress.

92143. The state assents to the provisions of an act passed by

Congress known as the Capper-Ketcham Act and entitled "An act to provide for the further development of agricultural extension work between the agricultural colleges in the several States receiving the benefits of the act, entitled 'An act donating public lands to the several States and territories which may provide colleges for the benefit of agriculture and the mechanical arts,' approved July 2, 1862, and all acts supplementary thereto, and the United States Department of Agriculture," and approved May 22, 1928.

The Regents of the University of California are authorized to receive the grant of money appropriated under the act of Congress, and to organize and conduct extension work in accordance with the terms and conditions expressed in the act.

92144. The state assents to the provisions of an act, passed by Congress and entitled "An act to provide for research into basic laws and principles relating to agriculture and to provide for the further development of co-operative agricultural extension work and the more complete endowment and support of land-grant colleges," approved June 29, 1935, Public Law No. 182—74th Congress.

The Regents of the University of California are authorized to receive all grants of money appropriated under the act of Congress, and to apply, use, and expend the grants of money for the purposes and in accordance with the terms, conditions, and requirements set forth in the act.

### CHAPTER 3. SPECIAL COLLEGES

#### Article 1. Hastings College of the Law

92200. The law college founded and established by S. C. Hastings shall forever be known and designated as the Hastings College of the Law.

92201. The college is affiliated with the University of California, and is the law department thereof.

92202. The college shall afford facilities for the acquisition of legal learning in all branches of the law. To this end it shall establish a curriculum of studies and shall matriculate students who reside at the University of California or elsewhere in the state.

92203. The faculty of the University of California shall grant, and the president shall sign and issue, diplomas to the students of the college.

92204. The business of the college, which includes the power to incur indebtedness, shall be managed by the board of directors. Five directors constitute a quorum for the transaction of all business. The directors shall serve without compensation.

92205. The Chief Justice of California is president of the board of directors.

92206. Vacancies in the board of directors shall be filled by the board.

92207. The officers of the college are a dean, a registrar, and eight

directors. One of the directors shall always be an heir or representative of S. C. Hastings. The dean and registrar shall be appointed by, and may be removed by the board of directors.

92208. The acting officers of the college shall be appointed and may be removed by the directors.

92209. The dean of the college is ex officio a member of the faculty of the University of California.

92210. Professorships may be established in the name of any founder who pays to the directors the sum of thirty thousand dollars (\$30,000).

92211. The sum of 7 percent per annum upon one hundred thousand dollars (\$100,000) shall be appropriated annually by the state and shall be paid in semiannual payments to the directors of the college.

92212. If the state fails to pay to the directors of the college the sum of seven thousand dollars (\$7,000) annually, pursuant to Section 92211, or if the college ceases to exist, the state shall pay to the heirs or legal representatives of S. C. Hastings, the sum of one hundred thousand dollars (\$100,000), and all unexpended accumulated interest, unless the failure is caused by mistake or accident, or the omission of the Legislature to make the appropriation at any one session.

92213. All courses by the college at Sacramento shall be deemed to be given at the site of the college in San Francisco.

92214. The Director of General Services shall transfer the property located at 55 and 75 Hyde Street in the City and County of San Francisco to the University of California to be used for the benefit of the Hastings College of the Law for school purposes.

The university shall have the power to sell or lease the property to a nonprofit corporation in order to provide housing facilities for the students, faculty, and employees of the college.

If such property is sold, it shall be sold for its fair market value, with such valuation approved by the Department of Finance, and the proceeds of the sale shall be deposited in the General Fund. If such property is leased, the proceeds of the lease shall be deposited in the General Fund.

## Article 2. California College of Medicine

92230. The existing institution known as the California College of Medicine, located in the City of Los Angeles, is affiliated with the University of California pursuant to that certain agreement of affiliation dated March 31, 1965, between the Regents of the University of California and the California College of Medicine.

92231. The college shall afford facilities for the acquisition of medical learning in all fields of medicine.

92232. The college shall be administered in accordance with the provisions of said agreement of affiliation.

## CHAPTER 4. CHILD DEVELOPMENT CENTERS

92300. The Regents of the University of California and any other public or private nonprofit agency may contract with the Department of Education to establish and maintain a child development center on or near each campus of the university pursuant to the provisions of Chapter 2 (commencing with Section 8200) of Part 6 of Division 1 of Title 1.

Such operating agencies may accept student fees, parent fees, and private funds to operate campus child development centers and may be reimbursed for eligible costs pursuant to Sections 8209 and 8380.

92301. Nothing in this chapter shall be construed to permit the regents to expend state funds appropriated for support of the University of California for the direct operating costs of campus child development centers.

92302. Notwithstanding any other provision of law, children under two years of age whose parent or parents are students may attend child development centers consistent with the priorities established within this division.

92303. Children of students of that particular campus shall have first priority for attendance at a campus child development center.

Each campus child development center maintained pursuant to Section 92300 shall have an advisory council composed of representatives of the parent-users and persons from fields related to the well-being of children.

Student families, as defined in Section 8250.1, whose gross monthly income falls within the fee schedule established pursuant to Section 8249 shall pay fees according to the fee schedule.

Highest priority shall be given to student families with the greatest income deficit, and lowest priority to student families with the greatest income.

For the purposes of assigning eligibility priority, applicant student families shall be grouped according to the amount of their income in one-hundred-dollar (\$100) monthly increments. All student families within a particular income range shall be treated as if their incomes were the same, and priority for eligibility within each particular income range shall be assigned on the following basis:

(1) Single-parent student families.

(2) Two-parent families, where both parents are students or where one parent is a student and the other is working.

Student families who are recipients of public assistance shall be subject to the same assignment of priority as other student families whose incomes fall in the same income range.

CHAPTER 5. THE UNIVERSITY OF CALIFORNIA REVENUE BOND  
ACT OF 1947

Article 1. General Provisions

92400. This chapter may be cited as "the University of California Dormitory Revenue Bond Act of 1947."

92401. Wherever used or referred to in this chapter, or in any indenture entered into pursuant to this chapter, the definitions set forth in this article govern the construction of this chapter, unless a different meaning appears from the context.

92402. "Bonds" or "revenue bonds" means the written evidence of any obligation issued by the regents, payment of which is secured by a pledge of revenues or any part of revenues, as provided in this chapter, in order to obtain funds with which to carry out the purposes of this chapter, irrespective of the form of such obligation.

92403. "Holder of bonds" or "bondholder" or any similar term means any person who shall be the bearer of any outstanding revenue bond or bond registered to bearer or not registered or the registered owner of any such outstanding revenue bond or bond which shall at the time be registered other than to bearer.

92404. "Indenture" means an agreement entered into by the regents pursuant to which revenue bonds are issued regardless of whether such agreement is expressed in the form of a resolution of the regents or by other instrument.

92405. "Person" includes any individual, firm, corporation, association, copartnership, trust, business trust, or receiver or trustee or conservator for any individual or any such entity. It does not, however, include the state or any public corporation, political subdivision, city, county, district, or any agency of any such entity or of the state.

92406. "Project" means any one or more dormitories, other housing facilities, boarding facilities, student union facilities, vehicle parking facilities, or any other auxiliary or supplementary facilities for individual or group accommodation, owned or operated, or authorized to be acquired, constructed, furnished, equipped, and operated, by the regents for use by students, faculty members, or employees of the University of California, or a combination of such facilities, which may include facilities already completed and facilities authorized for future completion, designated by the regents as a project in providing for the issuance of revenue bonds. The term "project" also includes any one or more hospitals, clinics, medical and nursing facilities, and related facilities, including professional office buildings, parking facilities, and other facilities which the regents may deem necessary or convenient for the operation of a hospital or medical center, or incidental to a hospital or medical center, designated by the regents as a project in providing for the issuance of revenue bonds.

92407. "Regents" means the existing corporation known as "the

Regents of the University of California," as such corporation is constituted by the provisions of Section 9 of Article IX of the Constitution.

92408. "Revenues" means and includes any and all fees, rates, rentals, and other charges received or receivable in connection with, and any and all other incomes and receipts of whatever kind and character derived by, the regents from the operation of a project or arising from a project, including any such revenue as may have been or may be impounded or deposited in any sinking fund, redemption or reserve fund, or other fund created for the security of revenue bonds or for the purpose of providing for the payment of revenue bonds or the interest on revenue bonds.

92409. "University of California" means the public trust created by Section 9 of Article IX of the Constitution, and each and all of the campuses of the university within the state.

92410. The provisions of this chapter shall be liberally construed to carry out the objectives and purposes and the declared policy of the state expressed in this chapter.

## Article 2. Powers of Regents

92430. In addition to, and in amplification of, all other powers conferred upon the regents by the Constitution or by any statute of this state, the regents shall have all of the powers set forth in this article.

92431. The regents may acquire by grant, purchase, gift, devise, lease, or by the exercise of the right of eminent domain, and may hold, use, sell, lease, or dispose of any real or personal property necessary for the full exercise or convenient or useful for the carrying on of any of its powers pursuant to this chapter.

92432. The regents may construct, own, operate, and control any project.

92433. The regents may fix rates, rents, or other charges for the use of any facilities acquired, constructed, equipped, furnished, operated, or maintained by the regents, or for services rendered in connection with such facilities, and may alter, change, or modify such rates, rents, or other charges at its pleasure, subject to any contractual obligation which may be entered into by the regents with respect to the fixing of such rates, rents, or charges.

92434. The regents may enter into covenants to increase rates or charges from time to time as may be necessary pursuant to any contract or agreement with the holders of any bonds of the regents.

92435. The regents may at any time and from time to time issue revenue bonds in order to raise funds for the purpose of establishing any project or of acquiring lands for any project, or of acquiring, constructing, improving, equipping, or furnishing any project, or of refinancing any project, or for any combination of such purposes, which bonds may be secured as provided in this chapter.

92436. The regents may contract with any department or agency

of the United States or of this state upon such terms and conditions as the regents find are for the best interests of the university.

92437. The regents may make contracts, leases, and agreements with any person or public corporation, political subdivision, city, county, district, or any agency of any person or such entity and may generally perform all acts necessary for the full exercise of the powers vested in the regents.

92438. The regents may sell, lease, convey, or otherwise dispose of any of its rights, interest, or properties, subject to any contractual obligation which may be entered into by the regents with respect to the issuance of revenue bonds.

92439. The regents may exercise the right of eminent domain for the condemnation of private property, or of any right or interest in private property.

92440. The regents may adopt such rules and regulations as may be necessary to enable the regents to exercise the powers and to perform the duties conferred or imposed upon the regents by this chapter.

92441. The regents have full charge of the acquisition, construction, and completion of all projects authorized by the regents and may proceed with such work forthwith.

92442. The regents may construct any project and acquire all property necessary for a project in such manner and at such location and on such terms and conditions as the regents deem advisable. A project may, but need not, be constructed or acquired on any campus and may be constructed or acquired at any location deemed by the regents advisable for the accomplishment of the purposes of this chapter.

92443. Title to all property acquired by the regents, and the revenues and income from such property, is in the regents. The title to any moneys, revenues, sinking funds, reserve funds, and other funds of the regents and the income from such moneys, revenues, and funds pledged to the payment of the principal or interest or any bonds issued thereunder is subject to trusts declared in favor of the bondholders. All such property, including such property and facilities belonging to the college affiliated with the University of California pursuant to Section 92201, and the income from such property are exempt from all taxation by the state or by any county, city and county, city, district, political subdivision, or public corporation of any such entity. The management, operation, and control of all improvements acquired, constructed, or completed by the regents are vested in the regents.

92444. At all times the operation, maintenance, control, repair, construction, reconstruction, alteration, and improvement of any project are vested in the regents.

92445. The regents may use for the payment of the costs of acquisition, construction, or completion of any project any funds made available to the regents by the state or any other funds provided by the regents from any source, to be expended for the

accomplishing of the purposes set forth in this chapter, together with the proceeds of revenue bonds issued and sold by the regents.

92446. The regents may insure against loss of revenues from any cause whatsoever and the proceeds of any such insurance shall be used solely for the payment of bonds and the interest on the bonds.

92447. The regents may insure against public liability or property damage and against loss by fire or other hazards. The regents may provide in an indenture for the carrying of such insurance, or any other insurance, in such amount and of such character as it shall determine, and for the payment of the premiums on such insurance.

92448. The regents may authorize any officer or officers of the regents to prepare and procure the printing or engrossing of bonds, coupons, indentures, or other instruments and contracts or agreements of every kind required or convenient for, or pertaining to, the issuance or sale of bonds.

92449. The regents shall fix rents, charges, and fees for all projects acquired, constructed, or completed under the terms of this chapter for the use of such projects by any persons utilizing the facilities of such projects, subject to such contractual obligations as may be entered into by the regents and the holders of bonds issued pursuant to this chapter. The regents may change rents, charges, and fees from time to time, as conditions warrant. All rents, charges, and fees shall at all times be fixed to yield annual revenue equal to annual operating and maintenance expenses, including repairs and insurance costs and all redemption payments and interest charges and reserve fund requirements on revenue bonds at any time issued and outstanding pursuant to this chapter, as they become due.

92450. Nothing in this article or elsewhere in this chapter shall be construed directly or by implication to be in any way in derogation of, or in limitation of, powers conferred upon, or existing in, the regents by virtue of provisions of the Constitution or statutes of this state.

### Article 3. Revenue Bonds

92470. The regents shall issue revenue bonds in the name of the regents and as obligations of the regents, but neither the principal of, nor interest on, any bond issued or sold pursuant to this chapter shall be or become a lien, charge, or liability against this state or against the regents or against the property or funds of either, except to the extent of the pledge of revenues or part of revenues of the project, as may be provided by the indenture pursuant to which revenue bonds are issued, and every such bond issued by the regents shall contain a recital on its face, substantially as follows: "This bond is not a lien, charge, or liability, as to either principal or interest, against the State of California or against the Regents of the University of California or against the property or funds of either, except to the extent of the pledge of revenues or part of revenues, as provided by the indenture pursuant to which it is issued."

92471. The regents shall determine the time, form, and manner of the issuance of revenue bonds.

92472. The validity of the authorization and issuance of any revenue bonds by the regents is not dependent on nor affected in any way by any of the following:

(a) Proceedings taken by the regents for the acquisition, construction, or completion of any project or any part of any project.

(b) Any contracts made by the regents in connection with the acquisition, construction, or completion of any project.

(c) The failure to complete any project for which bonds are authorized to be issued.

92473. Before issuing any bond or bonds pursuant to this chapter, the regents shall by resolution declare the purpose for which the proceeds of the bonds proposed to be issued shall be expended and shall specify the maximum amount of bonds to be issued or sold for such purpose. Bonds shall not be issued or sold for such purpose in an amount exceeding the maximum specified in such resolution except with the consent of bondholders, pursuant to amendment or modification of an indenture, as provided in Sections 92528 and 92529. Nothing in this section shall be construed to prevent the regents from amending any such resolution prior to the issuance of bonds authorized thereby to increase or decrease the maximum amount of bonds to be issued or sold. The issuance of bonds for one or more projects may be included in a single resolution of authorization.

92474. The regents may provide for one or several issues of bonds and may issue bonds in series or may divide any issue into one or more divisions and fix different maturities or dates of such bonds, different rates of interest, or prescribe different terms and conditions for the bonds of the several series or divisions. It is not necessary that all bonds of the same authorized issue be of the same kind or character, have the same security, or be of the same interest rate, but the terms of such bonds shall in each case be provided for by the regents, at or prior to the issue of the bonds.

92475. Bonds may be issued as coupon bonds or as registered bonds. The regents may provide for the interchange of coupon bonds for registered bonds and registered bonds for coupon bonds, and may provide that the bonds shall be registered as to principal only, or as to both principal and interest, or otherwise as the regents may determine.

92476. Bonds shall bear interest at a rate of not to exceed 8 percent per annum, payable annually or semiannually, or in part annually and in part semiannually.

92477. Bonds may be callable upon such terms, conditions, and upon such notice as the regents may determine, and upon the payment of such premium as may be fixed by the regents in the proceedings for the issuance of the bonds. No bond is subject to call or redemption prior to its fixed maturity date unless the right to exercise such call is expressly stated on the face of the bond.

92478. The regents may provide for the payment of the principal and interest of bonds at any place within or without the state, and in specified coin or currency of the United States.

92479. The regents may provide for the execution and authentication of bonds by the manual, lithographed, or printed facsimile signature of officers of the regents and by additional authentication by a trustee or fiscal agent appointed by the regents. If any of the officers whose signatures or countersignatures appear upon the bonds or coupons cease to be officers before the delivery of the bonds or coupons, their signatures or countersignatures are nevertheless valid and of the same force and effect as if the officers had remained in office until the delivery of the bonds and coupons.

92480. Bonds shall bear dates prescribed by the regents. Bonds may be serial bonds or sinking fund bonds with such maturities as the regents may determine. No bond by its terms shall mature in more than 50 years from its own date and, in the event any authorized issue is divided into two or more series or divisions, the maximum maturity date authorized in this section shall be calculated from the date on the face of each bond separately, irrespective of the fact that different dates may be prescribed for the bonds of each separate series or division of any authorized issue.

92481. Bonds may be sold at either public or private sale. The regents may fix terms and conditions for the sale or other disposition of any authorized issue of bonds. The regents may sell bonds at less than their par or face value, but no bond may be sold at a price below the par or face value of the bond which would result in a sale price yielding to the purchaser an average of more than 8 percent per annum, payable semiannually, according to standard tables of bond values.

92482. The regents may provide for the security of bonds. The regents may use and expend all or any part of any funds or proceeds of any property owned by it, whether received by gift, appropriation or otherwise, if not restricted as to the use of such funds or proceeds of property by the terms of any gift or trust or provision of law, for the redemption of bonds issued pursuant to this chapter and the payment of interest due on the bonds.

92483. All costs and expenses incident to the issuance and sale of bonds may be paid out of the proceeds of the sale of the bonds. Interest on bonds may be paid out of the proceeds of the sale of the bonds during the actual construction of any project for the acquisition, construction, or completion of which the bonds have been issued, and for a period of not to exceed two years after the completion of the actual construction of the project as provided for in the indenture.

92484. The regents may provide that the bonds and the interest on the bonds shall be secured by all or by part of revenues of a project upon the basis of which revenue bonds are issued or authorized to be issued, and shall constitute such lien upon the revenues of such project as may be provided for in the indenture.

92485. Pending the actual issuance or delivery of revenue bonds, the regents may issue temporary or interim bonds, certificates, or receipts of any denominations whatsoever, and with or without coupons, to be exchanged for definitive bonds when ready for delivery.

92486. The regents may provide for the replacement of lost, destroyed, or mutilated bonds, or coupons.

92487. Bonds issued pursuant to this chapter and the interest or income from such bonds, are exempt from all taxation in this state other than gift, inheritance, and estate taxes.

92488. The regents may designate a bank or trust company, qualified to do business in this state, as a trustee for the regents and the holders of bonds issued pursuant to this chapter, and may authorize the trustee to act on behalf of the holders of the bonds, or any stated percentage of the bonds, and to exercise and prosecute on behalf of the holders of the bonds such rights and remedies as may be available to the holders.

92489. The regents may fix and determine the conditions upon which any trustee shall receive, hold, or disburse any or all revenues deposited with it by or by authority of the regents. The regents shall prescribe the duties and powers of any such trustee with respect to the issuance, authentication, sale, and delivery of the bonds and the payment of principal of, and interest on, the bonds, the redemption of the bonds, the registration and discharge from registration of the bonds, and the management of any sinking fund or other funds provided as security for the bonds.

92490. All bonds issued pursuant to this chapter are negotiable instruments, except when registered in the name of a registered owner.

92491. Except as provided otherwise in any indenture, the holder of any bond issued pursuant to this chapter may, by mandamus or other appropriate proceeding, require and compel the performance of any of the duties imposed upon the regents or upon any official or employee or assumed by the regents or any official or employee, in connection with the acquisition, construction, operation, maintenance, repair, reconstruction, or insurance of any project, or the collection, deposit, investment, application, and disbursement of rents, rates, charges, fees, and all other revenues derived from the operation and use of any project or in connection with the deposit, investment, and disbursement of the proceeds received from the sale of bonds pursuant to this chapter. The enumeration of such rights and remedies does not, however, exclude the exercise or prosecution of any other rights or remedies available to the holders of bonds issued pursuant to this chapter.

92492. Notwithstanding any other provision of law, all bonds sold and delivered pursuant to this chapter are legal investments for all trust funds and for the funds of all insurance companies, banks, both commercial and savings, trust companies, the state school funds, and any public or private funds which may be invested in county,

municipal, or school district bonds, and may be deposited as security for the performance of any act whenever the bonds of any county, municipality, or school district may be so deposited, and may also be used as security for the deposit of public moneys in banks of this state.

#### Article 4. Indentures

92510. The regents may enter into indentures providing for the aggregate principal amount, date or dates, maturities, interest rates, denominations, form, registration, transfer, and interchange of any revenue bonds and coupons issued pursuant to this chapter, and the terms and conditions on which the bonds shall be executed, issued, secured, sold, paid, redeemed, funded, and refunded. Reference on the face of the bonds to such indenture by its date of adoption, or the apparent date on the face thereof, is sufficient to incorporate all of the provisions of the indenture and of this chapter into the body of the bonds and their appurtenant coupons. Each taker and subsequent holder of the bonds or coupons, whether the coupons are attached to, or detached from, the bonds, has recourse to all of the provisions of the indentures and of this chapter, and is bound thereby.

92511. An indenture pursuant to which bonds are issued may include any and all such covenants and agreements on the part of the regents as the regents deems necessary or advisable for the better security of the bonds issued pursuant to the indenture.

92512. An indenture shall provide the means by which payments of principal and interest of bonds shall be secured.

92513. An indenture may include a clause relating to the bonds issued pursuant to the indenture requiring the regents to pay or cause to be paid punctually the principal of all such bonds and the interest on such bonds on the date or dates, or at the place or places, and in the manner mentioned in such bonds and in the coupons appertaining to the bonds in accordance with such indenture.

92514. The regents may include in an indenture such limitations as to competitive projects, both as to location and comparative rentals, as may be deemed necessary or desirable for the security of revenue bonds issued pursuant to this chapter.

92515. The regents may also include in an indenture a covenant that no project acquired, constructed, or completed from the proceeds of revenue bonds issued by the regents shall be used without charge for such use or that no facilities of any such project shall be furnished free of charge to any person.

92516. An indenture may include a clause relating to the bonds issued pursuant to the indenture, requiring the regents to operate the project continuously, to the extent practicable under conditions as they may from time to time exist, in an efficient and economical manner.

92517. An indenture may include a clause relating to the bonds issued pursuant to the indentures requiring the regents to make all

necessary repairs, renewals, and replacements to any project, and to keep the project at all times in good repair, working order, and condition.

92518. An indenture may include a clause relating to the bonds issued pursuant to the indenture requiring the regents to preserve and protect the security of the bonds and the rights of the holders of the bonds and to warrant and defend such rights.

92519. An indenture may include a clause relating to the bonds issued pursuant to the indenture requiring the regents to pay and discharge, or cause to be paid and discharged, all lawful claims for labor, materials, and supplies or other charges which, if unpaid, might become a lien or charge upon the revenues, or any part of the revenues, of any project acquired, constructed, or completed from the proceeds of the sale of the bonds, or upon any physical properties, or which might impair the security of the bonds.

92520. An indenture may include a clause relating to the bonds issued pursuant to the indenture which limits, restricts, or prohibits any right, power, or privilege of the regents to mortgage or otherwise encumber, sell, lease, or dispose of any improvements constructed from the proceeds of the bonds, or to enter into any lease or agreement which impairs or impedes the operation of a project, or any part of a project, necessary to secure adequate revenues or which otherwise impairs or impedes the rights of the holders of the bonds with respect to such revenues.

92521. An indenture may include a clause relating to the bonds issued pursuant to the indenture requiring the regents to fix, prescribe, and collect rates, rentals, or other charges in connection with the services and facilities furnished from the project acquired, constructed, or purchased from part or all of the proceeds of the bonds, sufficient to pay the principal of, and interest on, the bonds as they become due and payable, together with such additional sums as may be required for any sinking fund, reserve fund, or other special fund provided for the further security of such bonds or as a depreciation charge or other charges in connection with such project.

92522. An indenture may include a clause relating to the bonds issued pursuant to the indenture requiring the regents to hold, or cause to be held, in trust the revenues, or any part of revenues, pledged to the payment of such bonds and the interest on such bonds, or to any reserve or other fund created for the further protection of the bonds, and to apply such revenues, or part of revenues, or cause them to be applied only as provided in the indenture.

92523. An indenture may include a clause defining the power of the regents in applying the proceeds of the sale of any issue of bonds for the acquiring, constructing, or completing of any project or any part of any project.

92524. An indenture may include a clause limiting the power of the regents to issue additional bonds for the purpose of acquiring,

constructing, or completing any project or any part of any project.

92525. An indenture may include a clause requiring, specifying, or limiting the kind, amount, and character of insurance to be maintained by the regents on any project, or any part of any project, and the use and disposition of the proceeds of any such insurance thereafter collected.

92526. An indenture may include a clause providing the events of default and the terms and conditions upon which any or all of the bonds of the regents then or thereafter issued may become or be declared due and payable prior to maturity, and the terms and conditions upon which such declaration and its consequences may be waived.

92527. An indenture may include a clause designating the rights, limitations, powers, and duties arising upon breach by the regents of any of the covenants, conditions, or obligations contained in any indenture.

92528. An indenture may include a clause prescribing procedure by which the terms and conditions of the indenture may be subsequently amended or modified with the consent of the regents and the vote or written assent of the holders of a specified principal amount or specified proportion of the bonds issued and outstanding. Such clause may provide for meetings of bondholders and for the manner in which the consent of the bondholders may be given. The clause shall specifically state the effect of such amendment or modification upon the rights of the holders of all of the bonds and interest coupons appertaining to the bonds, whether attached to the bonds or detached from the bonds.

92529. With respect to any clause providing for the modification or amendment of an indenture, the regents may agree that bonds held by the regents or by the state or any political subdivision of the state, including any public corporation, board, or agency of any class or kind, shall not be counted as outstanding bonds, or be entitled to vote or assent, but shall, nevertheless, be subject to any such modification or amendment.

92530. An indenture may include a clause or clauses providing for such other acts and matters as may be necessary or convenient or desirable in order better to secure the bonds or to make the bonds more marketable.

92531. The regents may provide in an indenture that the proceeds from the sale of all revenue bonds authorized pursuant to this chapter shall be paid directly to any bank or trust company designated by the regents as the fiscal agent or depository of the regents, to be held in a separate account to be designated the "construction fund" and to be disbursed in the manner and upon the conditions provided in the indenture for any of the following:

(a) The acquisition, construction, and completion of the project, including the payment of the cost of all surveys, preparation of plans and specifications, and the payment of all architectural, engineering, legal, and administrative costs.

(b) The payment of all costs and expenses of, and incident to, the issuance and sale of bonds.

(c) The payment of interest due, or to become due, on the bonds during the period of actual construction, and for such further period as may be specified in the indenture for the issuance of the bonds not exceeding two years after the period of construction.

92532. Moneys in any construction fund may be invested as the regents in its sole discretion shall determine, subject only to such limitations as may be provided in an indenture providing for the issuance of revenue bonds.

92533. After all the revenue bonds shall have been fully paid and discharged, or provision for their payment and discharge irrevocably made, any surplus moneys in the construction fund shall, subject to the limitations and restrictions in any indenture providing for the issuance of the revenue bonds, become and be the property of the regents, and be used by the regents for any lawful purpose.

#### Article 5. Funding or Refunding Bonds

92570. The regents may provide for the issuance, sale, or exchange of refunding bonds for the purpose of redeeming or retiring any revenue bonds issued by the regents. All provisions of this chapter applicable to the issuance of revenue bonds are applicable to the funding or refunding bonds and to the issuance, sale, or exchange of funding or refunding bonds.

92571. Funding or refunding bonds may be issued in a principal amount sufficient to provide funds for the payment of all bonds to be funded or refunded by such funding or refunding bonds, and in addition for the payment of all expenses incident to the calling, retiring, or paying of such outstanding bonds, and the issuance of such funding or refunding bonds. These expenses include the difference in amount between the par value of the funding or refunding bonds and any amount less than par for which the funding or refunding bonds are sold, any amount necessary to be made available for the payment of interest upon such funding or refunding bonds from the date of sale of the funding or refunding bonds to the date of payment of the bonds to be funded or refunded or to the date upon which the bonds to be funded or refunded will be paid pursuant to the call of the bonds to be funded or refunded or agreement with the holders of the bonds to be funded or refunded, and the premium, if any, necessary to be paid in order to call or retire the outstanding bonds and the interest accruing on the outstanding bonds to the date of the call or retirement.

## CHAPTER 6. MISCELLANEOUS PROVISIONS

## Article 1. University of California Police

92600. The Regents of the University of California are authorized and empowered to appoint one or more persons to be members of the University of California police department as such police department is constituted on September 19, 1947, or may thereafter be constituted. Persons employed and compensated as members of said police department, when so appointed and duly sworn, are peace officers; provided, that such officers shall not exercise their powers or authority except (a) upon the campuses of the University of California and an area within one mile of the exterior boundaries of each thereof, (b) in or about other grounds or properties owned, operated, controlled or administered by the Regents of the University of California, and (c) as provided in Section 830.2 of the Penal Code.

92601. Every member of the University of California police department shall be supplied with, and authorized to wear, a badge bearing the words "University of California Police."

## Article 2. Employees

92610. The Regents of the University of California shall make an annual report to the Governor and to each house of the Legislature on matters pertaining to and affecting the salaries, wages, hours of work, conditions of work and other matters relating to personnel under the jurisdiction of the regents and the employees of the University of California. The report shall be filed with the Governor at least 30 days prior to the opening day of the Legislature each year and shall be filed with each house of the Legislature within five days after the opening day of the Legislature in each year.

92611. The minimum and maximum salary limits for laborers, workmen, and mechanics employed on an hourly or per diem basis need not be uniform throughout the state, but the regents shall ascertain, as to each such position, the general prevailing rate of such wages in the various localities of the state.

In fixing such minimum and maximum salary limits within the various localities of the state, the regents shall take into account the prevailing rates of wages in the localities in which the employee is to work and other relevant factors, and shall not fix the minimum salary limits below the general prevailing rate so ascertained for the various localities.

## Article 3. Employment of Women

92620. It is the intent of the Legislature that the Regents of the University of California shall eliminate all policies which detrimentally and unreasonably affect the employment status of

females hired by the university. To accomplish this purpose, the regents shall:

- (a) Review hiring, wages, job classifications and advancement practices as applied to female employees;
- (b) Review selection procedures utilized for employment of female employees to determine disparate selection practices;
- (c) Review opportunity of advancement for qualified female employees to executive positions within departments and divisions.

#### Article 4. Graduate Community Teaching Fellowships

92630. It is the intent of the Legislature in providing funds for graduate community teaching fellowships:

- (a) To encourage school districts with large numbers of educationally disadvantaged children to enter into cooperative arrangements with branches of the University of California for the provision of specialized teaching for disadvantaged children at the elementary level; and
- (b) To provide graduate students in mathematics who wish to engage in such services a source of financial support comparable to that provided by the teaching assistant program.

92631. All moneys appropriated to the University of California, for the purposes of this chapter, shall be distributed on the same basis as funds for teaching assistantships, subject to the following criteria:

- (1) The administration of the University of California shall have final authority with regard to release of such funds.
- (2) In order to participate in this program as a paid employee of the university assigned to a particular school district, (1) a student must be enrolled at any one of the participating branches of the university for a graduate degree in one of the mathematical sciences; (2) the student's program adviser and the chairman of the department in which the graduate student is undertaking a majority of his academic work must approve and certify that the student's program will not be jeopardized; and (3) a contract entered into between a branch of the university and a school district shall be contingent upon a joint recommendation by the student's program adviser and department chairman.

92632. Although employed in a school district and conducting himself according to stipulations set forth by the school district in the agreement, the graduate student shall be deemed the employee of the University of California for all purposes.

92633. In order to receive a salary comparable to that provided a teaching assistant or research assistant, the community teaching fellow shall teach the equivalent of one full class period per day for five days per week for the school year.

92634. If for any reason, other than reasons applicable to the teaching assistant program, the graduate teaching fellow does not teach for as many hours per week or per semester as called for in the agreement, his stipend shall be reduced on a pro rata basis.

92635. Provisions of this chapter shall apply only to the University of California, and graduate community teaching fellowships are to be limited to students enrolled for a graduate degree in one of the mathematical sciences.

92636. Although all school districts are encouraged to undertake cooperative arrangements with the University of California for the purposes of this chapter, only school districts with elementary schools serving areas which meet the criteria set forth in Section 54483 may utilize a graduate community teaching fellow whose salary is provided under preceding sections of this chapter.

92637. Results of the graduate community teaching fellowship program are to be evaluated by the school district separately in the same manner as current programs of compensatory education at the end of each school year. Provisions for such evaluation shall be included in the terms and conditions of the contract between the school district and the university.

#### Article 5. Suits Against the University

92650. (a) At any time after the filing of the complaint in any action against the Regents of the University of California, the regents may file and serve a demand for a written undertaking on the part of each plaintiff as security for the allowable costs which may be awarded against such plaintiff. The undertaking shall be in the amount of one hundred dollars (\$100) for the plaintiff or in the case of multiple plaintiffs in the amount of two hundred dollars (\$200), or such greater sum as the court shall fix upon good cause shown, with at least two sufficient sureties, to be approved by the court. Unless the plaintiff files such undertaking within 20 days after service of a demand therefor, his action shall be dismissed.

(b) If judgment is rendered for the regents in any action against it, allowable costs incurred by the regents in the action shall be awarded against the plaintiffs.

(c) This section does not apply to an action commenced in a small claims court.

### DIVISION 10. PRIVATE POSTSECONDARY AND HIGHER EDUCATION INSTITUTIONS

#### PART 59. PRIVATE POSTSECONDARY AND HIGHER EDUCATION INSTITUTIONS

##### CHAPTER 1. LELAND STANFORD JUNIOR UNIVERSITY

#### Article 1. Corporate Power

94000. The trustees of the Leland Stanford Junior University may exercise corporate powers and privileges. To that end they may:

- (a) Organize and act as a board of trustees.
- (b) Elect such officers of the board as they deem necessary.
- (c) Adopt bylaws.

As a board, and through the officers thereof, they may transact such business, perform such acts and exercise such powers as they in writing provide may be transacted, performed, and exercised by the board.

94001. The board may adopt a seal which shall read, "Seal of the Leland Stanford Junior University." The seal, when attached to any document or writing is prima facie evidence that the document or writing was made by and under due authority from the board and from the trustees.

94002. Nothing in this article shall be deemed to alter the tenure or limit the powers or obligations of the trustees.

### Article 2. Tuition

94010. The trustees of the Leland Stanford Junior University may charge residents and nonresidents of this state such fees for tuition, as are necessary for the administration of the affairs of the university.

### Article 3. Taxation

94020. The exemption from taxation of the Leland Stanford Junior University is as provided in Section 6 of Article XIII of the California Constitution; provided, however, that it shall hold exempt from taxation all real property used by it exclusively for educational purposes.

94021. Property held in trust for the founding, maintenance or benefit of the Leland Stanford Junior University shall be deemed to be held and used by the university exclusively for educational purposes as required by Article XX, Section 6, of the California Constitution if it constitutes part of a medical facility wherein medical students, interns, residents and fellows receive medical training or participate in medical research.

It is the intent and purpose of this section to clarify the provisions of Article XX, Section 6, of the California Constitution and to clarify the provisions of Section 94020.

## CHAPTER 2. CALIFORNIA EDUCATIONAL FACILITIES AUTHORITY ACT

### Article 1. Purpose

94100. It is the purpose of this chapter to give this and future generations of youth the fullest opportunity to learn and develop

their intellectual and mental capacities by providing private institutions of higher education within the state an additional means by which to expand, enlarge, and establish dormitory, academic, and related facilities, to finance such facilities, and to refinance existing facilities.

94101. This chapter shall be known and may be cited as the California Educational Facilities Authority Act.

## Article 2. Definitions

94110. As used in this chapter, the following words and terms shall have the following meanings, unless the context indicates or requires another or different meaning or intent:

“Authority” means the California Educational Facilities Authority created by this chapter or any board, body, commission, department or officer succeeding to the principal functions thereof or to whom the power conferred upon the authority by this chapter shall be given by law;

“Bond” means bonds, notes, debentures, or other securities that are negotiable instruments pursuant to Title 15 (commencing with Section 3082) of Part 4 of Division 3 of the Civil Code of the authority issued pursuant to this chapter that the State Treasurer is authorized to sell at such time or times and in such amounts as may be fixed by the State Treasurer, provided that he shall first offer to sell such instruments at a public sale, and if no bids or in his determination not sufficient bids are received, he then may offer to sell the instruments privately;

“Dormitory” means a housing unit with necessary and usual attendant and related facilities and equipment;

“Educational facility” means a structure suitable for use as a dormitory, dining hall, student union, administration building, academic building, library, laboratory, research facility, classroom, health care facility (including for an institution of higher education which maintains and operates a school of medicine, structures or facilities providing or designed to provide services as a hospital or clinic, whether such hospital or clinic is operated directly by the institution of higher education or by a separate nonprofit corporation, the member or members of which consist of the educational institution or the members of its governing body), and parking, maintenance, storage or utility facility and other structures or facilities related thereto or required or useful for the instruction of students or the conducting of research or the operation of an

institution for higher education, and the necessary and usual attendant and related facilities and equipment, but shall not include any facility used or to be used for sectarian instruction or as a place for religious worship or any facility used or to be used primarily in connection with any part of the program of a school or department of divinity;

“Participating college” means a private college which neither restricts entry on racial or religious grounds nor requires all students gaining admission to receive instruction in the tenets of a particular faith, and which, pursuant to the provisions of this chapter, participates with the authority in undertaking the financing and construction or acquisition of a project;

“Project” means a dormitory or an educational facility or any combination thereof;

“Private college” means an institution for higher education other than a public college, situated within the state and which, by virtue of law or charter, is a nonprofit educational institution empowered to provide a program of education beyond the high school level;

“Cost,” as applied to a project or portion thereof financed under the provisions of this chapter, embraces all or any part of the cost of construction and acquisition of all lands, structures, real or personal property, rights, rights-of-way, franchises, easements and interests acquired or used for a project, the cost of demolishing or removing any buildings or structures on land so acquired, including the cost of acquiring any lands to which such buildings or structures may be moved, the cost of all machinery and equipment, financing charges, interest prior to, during and for a period after completion of such construction as determined by the authority, provisions for working capital, reserves for additions, replacements, renovations and improvements, the cost of engineering, financial and legal services, plans, specifications, studies, surveys, estimates, administrative expenses and other expenses necessary or incident to determining the feasibility of constructing any project or incident to the construction or acquisition or financing thereof.

### Article 3. Organization of Authority and General Powers and Duties Thereof

94120. (a) There is in the state government an authority known as the California Educational Facilities Authority. The authority constitutes a public instrumentality and the exercise by the authority of the powers conferred by this chapter shall be deemed and held to be the performance of an essential public function.

(b) The authority shall consist of five members: the Director of Finance, the State Controller, the State Treasurer, and two members appointed by the Governor to serve for terms of four years; provided that the terms of the members first appointed shall be arranged by the Governor so that such terms shall expire on April 30 in different years. One of the members appointed by the Governor shall be

affiliated with a public institution of higher education as a governing board member or in an administrative capacity and the other member shall be affiliated with a private institution of higher education as a governing board member or in an administrative capacity. Each member shall hold office for the term of his appointment and shall continue to serve during the term of his successor unless and until his successor shall have been appointed and qualified. Any vacancy among the members appointed by the Governor shall be filled by appointment for the unexpired term only. A member of the authority shall be eligible for reappointment.

(c) Any member of the authority appointed by the Governor may be removed from office by the Governor for cause after a public hearing.

(d) The members of the authority shall serve without compensation, but the authority may reimburse its members for necessary expenses incurred in the discharge of their duties.

(e) The authority, upon the first appointment of its members and thereafter on or after April 30 in each year, shall annually elect from among its members a chairman and a vice chairman who shall hold office until April 30 next ensuing and shall continue to serve during the terms of their respective successors unless and until their respective successors shall have been appointed and qualified.

94121. The powers of the authority shall be vested in the members thereof in office from time to time and a majority of the total authorized membership of the authority shall constitute a quorum at any meeting thereof. Action may be taken and motions and resolutions adopted by the authority at any meeting thereof by the affirmative vote of a majority at any meeting thereof by the affirmative vote of a majority of the members present, unless in any case the bylaws of the authority shall require a larger number. No vacancy in the membership of the authority shall impair the right of a quorum to exercise all the rights and perform all the duties of the authority.

94122. Before the issuance of any bonds under the provisions of this chapter, the members and the officers and the executive secretary of the authority charged with the handling of the authority's moneys shall be covered by a surety bond or bonds, including a blanket bond covering all members of the authority and staff, in a penal sum of not less than fifty thousand dollars (\$50,000) per person conditioned upon the faithful performance of the duties of their respective offices, and executed by a surety company authorized to transact business in the State of California as surety. Each such bond shall be submitted to the Attorney General for his approval and upon his approval shall be filed in the office of the Secretary of State prior to the issuance of any bonds by the authority. At all times after the issuance of any bonds by the authority the officer of the authority and each member charged with the handling of the authority's moneys shall maintain such surety bonds in full force and effect. All costs of such surety bonds shall be borne by the authority.

94123. Notwithstanding any other law to the contrary, it shall not be or constitute a conflict of interest for a trustee, director, officer or employee of a participating college to serve as a member of the authority; provided such trustee, director, officer or employee shall abstain from discussion, deliberation, action and vote by the authority under this chapter in specific respect to such participating college of which such member is a trustee, director, officer or employee. It shall not be or constitute a conflict of interest for a member of the authority to be affiliated with a bank that serves the authority as bond trustee, depository of funds, or in any other financial, advisory, or fiduciary capacity.

94124. The authority shall maintain an office in the City of Sacramento.

94125. The authority may employ an executive secretary and such other persons as are necessary to enable it properly to perform the duties imposed upon it by this chapter.

#### Article 4. Powers and Duties; Notes and Bonds

94140. The authority shall have power:

(a) To adopt bylaws for the regulation of its affairs and the conduct of its business;

(b) To adopt and have an official common seal and alter the same at pleasure;

(c) To sue and be sued in its own name, and plead and be impleaded;

(d) To borrow money and to issue bonds and notes and other obligations of the authority and to provide for the rights of the holders thereof as provided in this chapter;

(e) To acquire, lease as lessee, hold and dispose of real and personal property or any interest therein, in the exercise of its powers and the performance of its duties under this chapter;

(f) To acquire in the name of the authority by purchase or otherwise, on such terms and conditions and in such manner as it may deem proper any land or interest therein and other property which it may determine is reasonably necessary for any project, including any lands held by any county, municipality or other governmental subdivision of the state; and to hold and use the same and to sell, convey, lease or otherwise dispose of property so acquired, no longer necessary for the authority's purposes;

(g) To receive and accept, from any federal or other public agency or governmental entity, grants or loans for or in aid of the acquisition or construction of any project, and to receive and accept aid or contributions from any other source, of either money, property, labor or other things of value, to be held, used and applied only for the purposes for which such grants, loans and contributions may be made;

(h) To prepare or cause to be prepared plans, specifications,

designs and estimates of costs for the construction and equipment of projects for participating colleges under the provisions of this chapter, and from time to time to modify such plans, specifications, designs or estimates;

(i) By contract or contracts or by its own employees to construct, acquire, reconstruct, rehabilitate and improve, and furnish and equip, projects for participating colleges;

(j) To employ consulting engineers, architects, accountants, construction and financial experts, superintendents, and such other employees and agents as may be necessary in its judgment and to fix their compensation;

(k) To determine the location and character of any project to be undertaken pursuant to the provisions of this chapter, and to construct, reconstruct, repair, lease, as lessee or lessor, the same; to enter into contracts for any or all such purposes; and to designate a participating college as its agent to determine the location and character of a project undertaken by such participating college under the provisions of this chapter and, as the agent of the authority, to construct, reconstruct, maintain, repair, operate, lease, as lessee or lessor, and regulate the same, and, as agent of the authority, to enter into contracts for any and all such purposes including contracts for the management and operation of such project;

(l) To establish rules and regulations for the use of a project or any portion thereof and to designate a participating college as its agent to establish rules and regulations for the use of a project undertaken by such participating college;

(m) Generally to fix and revise from time to time and to charge and collect rates, rents, fees and other charges for the use of and for the services furnished or to be furnished by a project or any portion thereof and to contract with holders of its bonds and with any other person, party, association, corporation or other body, public or private, in respect thereof;

(n) To enter into any and all agreements or contracts, execute any and all instruments, and do and perform any and all acts or things necessary, convenient or desirable for the purposes of the authority or to carry out any power expressly given in this chapter;

(o) To invest any moneys held in reserve or sinking funds, or any moneys not required for immediate use or disbursement, at the discretion of the authority, in such obligations as are authorized by law for the investment of trust funds in the custody of the State Treasurer.

(p) To charge, and equitably apportion among participating colleges, its administrative costs and expenses incurred in the exercise of the powers and duties conferred by this chapter.

94141. All expenses incurred in carrying out the provisions of this chapter shall be payable from funds provided the authority therefor, and no liability or obligation shall be incurred by the authority hereunder beyond the extent to which moneys shall have been provided therefor.

94142. The authority shall establish financial eligibility standards by studying the creditworthiness and earning capacity of each project together with the amount of pledged revenues, debt service coverage, and basic security, in addition to establishing machinery to monitor the ongoing compliance of each project with state authority and bond indenture requirements.

94143. The authority is authorized from time to time to issue its negotiable notes for any corporate purpose and renew from time to time any notes by the issuance of new notes, whether the notes to be renewed have or have not matured. The authority may issue notes partly to renew notes or to discharge other obligations then outstanding and partly for any other purpose. The notes may be authorized, sold, executed and delivered in the same manner as bonds. Any resolution or resolutions authorizing notes of the authority or any issue thereof may contain any provisions which the authority is authorized to include in any resolution or resolutions authorizing bonds of the authority or any issue thereof, and the authority may include in any notes any terms, covenants or conditions which it is authorized to include in any bonds. All such notes shall be payable from revenues of the authority or other moneys available therefor and not otherwise pledged, subject only to any contractual rights of the holders of any of its notes or other obligations then outstanding.

94144. (a) The authority is authorized from time to time to issue its negotiable bonds for any corporate purpose. In anticipation of the sale of such bonds the authority may issue negotiable bond anticipation notes and may renew the same from time to time. Such notes shall be paid from any revenues of the authority or other moneys available therefor and not otherwise pledged, or from the proceeds of sale of the bonds of the authority in anticipation of which they were issued. The notes shall be issued in the same manner as the bonds. Such notes and the resolution or resolutions authorizing the same may contain any provisions, conditions or limitations which a bond resolution of the authority may contain.

(b) Except as may otherwise be expressly provided by the authority, every issue of its bonds or notes shall be general obligations of the authority payable from any revenues or moneys of the authority available therefor and not otherwise pledged, subject only to any agreements with the holders of particular bonds or notes pledging any particular revenues or moneys and subject to any agreements with any participating institution. Notwithstanding that such bonds or notes may be payable from a special fund, they shall be and be deemed to be for all purposes negotiable instruments, subject only to the provisions of such bonds or notes for registration.

(c) The bonds may be issued as serial bonds or as term bonds, or the authority, in its discretion, may issue bonds of both types. The bonds shall be authorized by resolution of the authority and shall bear such date or dates, mature at such time or times, not exceeding 50 years from their respective dates, bear interest at such rate or

rates, be payable at such time or times, be in such denominations, be in such form, either coupon or registered, carry such registration privileges, be executed in such manner, be payable in lawful money of the United States of America at such place or places, and be subject to such terms of redemption, as such resolution or resolutions may provide. The bonds or notes may be sold at public or private sale for such price or prices as the authority shall determine.

Pending preparation of the definitive bonds, the authority may issue interim receipts or certificates which shall be exchanged for such definitive bonds.

(d) Any resolution or resolutions authorizing any bonds or any issue of bonds may contain provisions, which shall be a part of the contract with the holders of the bonds to be authorized, as to: (1) pledging the full faith and credit of the authority or pledging all or any part of the revenues of a project or any revenue-producing contract or contracts made by the authority with any individual, partnership, corporation or association or other body, public or private, to secure the payment of the bonds or of any particular issue of bonds, subject to such agreements with bondholders as may then exist; (2) the rentals, fees and other charges to be charged, and the amounts to be raised in each year thereby, and the use and disposition of the revenues; (3) the setting aside of reserves or sinking funds, and the regulation and disposition thereof; (4) limitations on the right of the authority or its agent to restrict and regulate the use of the project; (5) limitations on the purpose to which the proceeds of sale of any issue of bonds then or thereafter to be issued may be applied and pledging such proceeds to secure the payment of the bonds or any issue of the bonds; (6) limitations on the issuance of additional bonds, the terms upon which additional bonds may be issued and secured and the refunding of outstanding bonds; (7) the procedure, if any, by which the terms of any contract with bondholders may be amended or abrogated, the amount of bonds the holders of which must consent thereto, and the manner in which such consent may be given; (8) limitations on the amount of moneys derived from the project to be expended for operating, administrative or other expenses of the authority; (9) defining the acts or omissions to act which shall constitute a default in the duties of the authority to holders of its obligations and providing the rights and remedies of such holders in the event of a default; and (10) the mortgaging of a project and the site thereof for the purpose of securing the bondholders.

(e) Neither the members of the authority nor any person executing the bonds or notes shall be liable personally on the bonds or notes or be subject to any personal liability or accountability by reason of the issuance thereof.

(f) The authority shall have power out of any funds available therefor to purchase its bonds or notes. The authority may hold, pledge, cancel or resell such bonds, subject to and in accordance with agreements with bondholders.

94145. In the discretion of the authority, any bonds issued under the provisions of this chapter may be secured by a trust agreement by and between the authority and a corporate trustee or trustees, which may be any trust company or bank having the powers of a trust company within or without the state. Such trust agreement or the resolution providing for the issuance of such bonds may pledge or assign the revenues to be received or proceeds of any contract or contracts pledged and may convey or mortgage the project or any portion thereof. Such trust agreement or resolution providing for the issuance of such bonds may contain such provisions for protecting and enforcing the rights and remedies of the bondholders as may be reasonable and proper and not in violation of law, including particularly such provisions as have hereinabove been specifically authorized to be included in any resolution or resolutions of the authority authorizing bonds thereof. Any bank or trust company incorporated under the laws of this state which may act as depository of the proceeds of bonds or of revenues or other moneys may furnish such indemnifying bonds or pledge such securities as may be required by the authority. Any such trust agreement may set forth the rights and remedies of the bondholders and of the trustee or trustees, and may restrict the individual right of action by bondholders. In addition to the foregoing, any such trust agreement or resolution may contain such other provisions as the authority may deem reasonable and proper for the security of the bondholders. All expenses incurred in carrying out the provisions of such trust agreement or resolution may be treated as a part of the cost of the operation of a project.

94146. Bonds issued under the provisions of this chapter shall not be deemed to constitute a debt or liability of the state or of any political subdivision thereof or a pledge of the faith and credit of the state or of any such political subdivision other than the authority, but shall be payable solely from the funds herein provided. All such bonds shall contain on the face thereof a statement to the effect that neither the State of California nor the authority shall be obligated to pay the same or the interest thereon except from revenues of the project or the portion thereof for which they are issued and that neither the faith and credit nor the taxing power of the State of California or of any political subdivision thereof is pledged to the payment of the principal of or the interest on such bonds. The issuance of bonds under the provisions of this chapter shall not directly or indirectly or contingently obligate the state or any political subdivision thereof to levy or to pledge any form of taxation whatever therefor or to make any appropriation for their payment. Nothing in this section contained shall prevent nor be construed to prevent the authority from pledging its full faith and credit or the full faith and credit of a participating institution to the payment of bonds or issue of bonds authorized pursuant to this chapter.

94147. The authority is authorized to fix, revise, charge and collect rates, rents, fees and charges for the use of and for the services

furnished or to be furnished by each project and to contract with any person, partnership, association or corporation, or other body, public or private, in respect thereof. Such rates, rents, fees and charges shall be fixed and adjusted in respect of the aggregate of rents, rates, fees and charges from such project so as to provide funds sufficient with other revenues or moneys, if any:

(a) To pay the cost of maintaining, repairing and operating the project and each and every portion thereof, to the extent that the payment of such cost has not otherwise been adequately provided for;

(b) To pay the principal of and the interest on outstanding bonds of the authority issued in respect of such project as the same shall become due and payable; and

(c) To create and maintain reserves required or provided for in any resolution authorizing, or trust agreement securing, such bonds of the authority.

Such rates, rents, fees and charges shall not be subject to supervision or regulation by any department, commission, board, body, bureau or agency of this state other than the authority. A sufficient amount of the revenues derived in respect of a project, except such part of such revenues as may be necessary to pay the cost of maintenance, repair and operation and to provide reserves for renewals, replacements, extensions, enlargements and improvements as may be provided for in the resolution authorizing the issuance of any bonds of the authority or in the trust agreement securing the same, shall be set aside at such regular intervals as may be provided in such resolution or trust agreement in a sinking or other similar fund which is hereby pledged to, and charged with, the payment of the principal of and the interest on such bonds as the same shall become due, and the redemption price or the purchase price of bonds retired by call or purchase as therein provided. Such pledge shall be valid and binding from the time when the pledge is made; the rates, rents, fees and charges and other revenues or other moneys so pledged and thereafter received by the authority shall immediately be subject to the lien of such pledge without any physical delivery thereof or further act, and the lien of any such pledge shall be valid and binding as against all parties having claims of any kind in tort, contract or otherwise against the authority, irrespective of whether such parties have notice thereof. Neither the resolution nor any trust agreement by which a pledge is created need be filed or recorded except in the records of the authority. The use and disposition of moneys to the credit of such sinking or other similar fund shall be subject to the provisions of the resolution authorizing the issuance of such bonds or of such trust agreement. Except as may otherwise be provided in such resolution or such trust agreement, such sinking or other similar fund shall be a fund for all such bonds issued to finance projects at a participating college without distinction or priority of one over another; provided the authority in any such resolution or trust agreement may provide that

such sinking or other similar fund shall be the fund for a particular project at a participating college and for the bonds issued to finance a particular project and may, additionally, permit and provide for the issuance of bonds having a subordinate lien in respect of the security herein authorized to other bonds of the authority and, in such case, the authority may create separate sinking or other similar funds in respect of such subordinate lien bonds.

94148. Any holder of bonds issued under the provisions of this chapter or any of the coupons appertaining thereto, and the trustee or trustees under any trust agreement, except to the extent the rights herein given may be restricted by any resolution authorizing the issuance of, or any such trust agreement securing, such bonds, may, either at law or in equity, by suit, action, mandamus or other proceedings, protect and enforce any and all rights under the laws of the state or granted hereunder or under such resolution or trust agreement, and may enforce and compel the performance of all duties required by this chapter or by such resolution or trust agreement to be performed by the authority or by any officer, employee or agent thereof, including the fixing, charging, and collecting of the rates, rents, fees, and charges herein authorized and required by the provisions of such resolution or trust agreement to be fixed, established, and collected.

94149. All moneys received pursuant to the authority of this chapter, whether as proceeds from the sale of bonds or as revenues, shall be deemed to be trust funds to be held and applied solely as provided in this chapter. Any officer with whom, or any bank or trust company with which, such moneys shall be deposited shall act as trustee of such moneys and shall hold and apply the same for the purposes hereof, subject to such regulations as this chapter and the resolution authorizing the bonds of any issue or the trust agreement securing such bonds may provide.

94150. (a) The authority is hereby authorized to provide for the issuance of bonds of the authority for the purpose of refunding any bonds or notes of the authority then outstanding, including the payment of any redemption premium thereon and any interest accrued or to accrue to the earliest or subsequent date of redemption, purchase or maturity of such bonds, and, if deemed advisable by the authority, for the additional purpose of paying all or any part of the cost of constructing and acquiring additions, improvements, extensions or enlargements of a project or any portion thereof.

(b) The proceeds of any such bonds issued for the purpose of refunding outstanding bonds may, in the discretion of the authority, be applied to the purchase or retirement at maturity or redemption of such outstanding bonds either on their earliest or any subsequent redemption date or upon the purchase or at the maturity thereof and may, pending such application, be placed in escrow to be applied to such purchase or retirement at maturity or redemption on such date as may be determined by the authority.

(c) Any such escrowed proceeds, pending such use, may be invested and reinvested in obligations of, or guaranteed by, the United States of America, or in certificates of deposit or time deposits secured by obligations of, or guaranteed by, the United States of America, maturing at such time or times as shall be appropriate to assure the prompt payment, as to principal, interest and redemption premium, if any, of the outstanding bonds to be so refunded. The interest, income and profits, if any, earned or realized on any such investment may also be applied to the payment of the outstanding bonds to be so refunded. After the terms of the escrow have been fully satisfied and carried out, any balance of such proceeds and interest, income and profits, if any, earned or realized on the investments thereof may be returned to the authority for use by it in any lawful manner.

(d) The portion of the proceeds of any such bonds issued for the additional purpose of paying all or any part of the cost of constructing and acquiring additions, improvements, extensions or enlargements of a project may be invested and reinvested in obligations of, or guaranteed by, the United States of America, or in certificates of deposit or time deposits secured by obligations of, or guaranteed by, the United States of America, maturing not later than the time or times when such proceeds will be needed for the purpose of paying all or any part of such cost. The interest, income and profits, if any, earned or realized on such investment may be applied to the payment of all or any part of such cost or may be used by the authority in any lawful manner.

(e) All such bonds shall be subject to the provisions of this chapter in the same manner and to the same extent as other bonds issued pursuant to this chapter.

94151. (a) The authority is hereby authorized to loan funds to a participating institution and to provide for the issuance of bonds for the purpose of refinancing projects not originally funded pursuant to this chapter and which have a completion date not greater than three years from the date of enactment of this chapter.

(b) For purposes of this section, "completion date" shall mean the date on which the notice of completion is filed.

(c) All such bonds shall be subject to the provisions of this chapter in the same manner and to the same extent as other bonds issued pursuant to this chapter.

94152. Bonds and notes issued by the authority under the provisions of this chapter are hereby made securities in which all banks, bankers, savings banks, trust companies, savings and loan associations, investment companies and other persons carrying on a banking business, all insurance companies, insurance associations, and other persons carrying on an insurance business, and all administrators, executors, guardians, trustees and other fiduciaries, and all other persons whatsoever who now are or may hereafter be authorized to invest in bonds or other obligations of the state, may properly and legally invest any funds, including capital belonging to

them or within their control; and said bonds, notes or other securities or obligations are hereby made securities which may properly and legally be deposited with and received by any state or municipal officers or agency of the state for any purpose for which the deposit of bonds or other obligations of the state is now or may hereafter be authorized by law.

94153. The total amount of bonds authorized to be issued and sold under this chapter shall be one hundred fifty million dollars (\$150,000,000), provided that not more than fifty million dollars (\$50,000,000) of such bonds shall be issued and sold within two years of March 7, 1973.

94154. The State of California does pledge to and agree with the holders of the bonds, notes and other obligations issued pursuant to authority contained in this chapter, and with those parties who may enter into contracts with the authority pursuant to the provisions of this chapter, that the state will not limit, alter or restrict the rights hereby vested in the authority and the participating colleges to maintain, construct, reconstruct and operate any project as defined in this chapter or to establish and collect such rents, fees, receipts or other charges as may be convenient or necessary to produce sufficient revenues to meet the expenses of maintenance and operation thereof and to fulfill the terms of any agreements made with the holders of bonds authorized by this chapter, and with the parties who may enter into contracts with the authority pursuant to the provisions of this chapter, or in any way impair the rights or remedies of the holders of such bonds or such parties until the bonds, together with interest thereon, are fully paid and discharged and such contracts are fully performed on the part of the authority. The authority as a public body corporate and politic shall have the right to include the pledge herein made in its bonds and contracts.

94155. On or before March 31 in each year the authority shall make an annual report of its activities for the preceding calendar year to the Governor and the Legislature. Each such report shall set forth a complete operating and financial statement covering the authority's operations during the year. The authority shall cause an audit of its books and accounts to be made at least once in each year by certified public accountants.

94156. The exercise of the powers granted by this chapter will be in all respects for the benefit of the people of this state, for the increase of their commerce, welfare, and prosperity, and for the improvement of their health and living conditions, and as the operation and maintenance of a project by the authority will constitute the performance of an essential public function, neither the authority nor its agent shall be required to pay any taxes or assessments upon or in respect of a project or any property acquired or used by the authority under the provisions of this chapter, or upon the income therefrom, and any bonds issued under the provisions of this chapter, their transfer and the income therefrom, shall at all times be free from taxation of every kind by the state and by the

municipalities and other political subdivisions in the state.

### Article 5. Conflicts of Interest

94170. Except as otherwise expressly provided in this chapter, any member, officer, agent or employee of the authority who is interested, either directly or indirectly, in any contract of another with the authority, or in the sale of any property, either real or personal, to the authority, shall be guilty of a misdemeanor.

### Article 6. Examination and Visitorial Power of State; Assistance of State Employees

94180. The State Controller and his legally authorized representatives are hereby authorized and empowered from time to time to examine the accounts and books of the authority, including its receipts, disbursements, contracts, sinking funds, investments and any other matters relating to its financial standing.

94181. The authority shall be entitled to call to its assistance and avail itself of the services of such employees of any state department or agency as it may require and as may be available to it for said purpose.

The Attorney General shall be the legal counsel for the authority, but with the approval of the Attorney General the authority may employ such legal counsel as in its judgment is necessary or advisable to enable it to carry out the duties and functions imposed upon it by this chapter, including the appointment of such bond counsel as may be deemed advisable in connection with the issuance and sale of bonds.

### Article 7. Construction of Facilities

94190. In addition to foregoing powers, the authority shall have power:

(a) Upon application of the participating college to construct, acquire or otherwise provide projects for the use and benefit of the participating college and the students, faculty and staff of such participating college. The participating college for which such a project is undertaken by the authority shall approve the plans and specifications and location of such project;

(b) To lease any project provided pursuant to this section to the participating college for which such project is provided. At such time as the liabilities of the authority incurred for any such project have been met and the bonds of the authority issued therefor have been paid, or such liabilities and bonds have otherwise been discharged, the authority shall transfer title to all the real and personal property of such project vested in the authority, to the participating college in connection with which such project is then leased; provided, however, that if at any time prior thereto such participating college

ceases to offer educational facilities, then such title shall vest in the State of California.

Any lease of a project authorized by this section shall be a general obligation of the lessee and may contain provisions, which shall be a part of the contract with the holders of the bonds of the authority issued for such project, as to:

(i) Pledging all or any part of the moneys, earnings, income and revenues derived by the lessee from such project or any part or parts thereof, or other personal property of the lessee, to secure payments required under the terms of such lease;

(ii) The rates, rentals, fees and other charges to be fixed and collected by the lessee, the amounts to be raised in each year thereby, and the use and disposition of such moneys, earnings, income and revenues;

(iii) The setting aside of reserves and the creation of special funds and the regulation and disposition thereof;

(iv) The procedure, if any, by which the terms of such lease may be amended, the amount of bonds the holders of which must consent thereto, and the manner in which such consent may be given;

(v) Vesting in a trustee or trustees such specified properties, rights, powers and duties as shall be deemed necessary or desirable for the security of the holders of the bonds of the authority issued for such projects;

(vi) The obligations of the lessee with respect to the replacement, reconstruction, maintenance, operation, repairs and insurance of such project;

(vii) Defining the acts or omissions to act which shall constitute a default in the obligations and duties of the lessee, and providing for the rights and remedies of the authority and of its bondholders in the event of such default;

(viii) Any other matters, of like or different character, which may be deemed necessary or desirable for the security or protection of the authority or the holders of its bonds.

94191. The authority also shall have power:

(a) To make loans to any private college for the construction of projects in accordance with a loan agreement and plans and specifications approved by the authority. No such loan shall exceed the total cost of such project and the equipment therefor as determined by the authority. Each such loan shall be premised upon an agreement between the authority and the private college as to payment, security, maturity, redemption, interest and other appropriate matters.

(b) To make loans to any private college to refund existing bonds, mortgages or advances given or made by such private college for the construction of projects to the extent that this will enable such private college to offer greater security for loans for new project construction.

94192. For the purpose of obtaining and securing loans under Section 94191 every private college shall, notwithstanding the

provisions of any other law, have power to mortgage and pledge any of its real or personal property, and to pledge any of its income from whatever source to repay the principal of and interest on any loan made to it by the authority or to pay the interest on and principal and redemption premium, if any, of any note, bond or other evidence of indebtedness evidencing the debt created by any such loan; provided that the foregoing shall not be construed to authorize actions in conflict with specific legislation, trusts, endowment, or other agreements relating to specific properties or funds.

94193. Moneys of the authority received from any private college in payment of any sum due to the authority pursuant to the terms of any loan or other agreement or any bond, note or other evidence of indebtedness, shall be deposited in an account in which only moneys received from private colleges shall be deposited and shall be kept separate and apart from and not commingled with any other moneys of the authority. Moneys deposited in such account shall be paid out on checks signed by the chairman of the authority or by such other person or persons as the authority may authorize.

94194. (a) Whenever the authority under Section 94190 undertakes to construct, acquire or otherwise provide a project and to lease the same to a private college, the lessee shall be responsible for the direct operation and maintenance costs of such project and, in addition, shall be responsible for the overall supervision of each project, for the overhead and general administrative costs of the lessee which are incurred because of such project and for the integration of each project operation into the lessee's educational program.

(b) Whenever the authority under Section 94191 makes loans for the construction of a project, the private college at which such project is located shall be responsible for the direct operation and maintenance costs of such project and, in addition, shall be responsible for the overall supervision of each project, for the overhead and general administrative costs of the private college which are incurred because of such project and for the integration of each project operation into the institution's educational program.

94195. Any pledge of moneys, earnings, income or revenues authorized with respect to private colleges, pursuant to the provisions of this chapter, shall be valid and binding from the time when the pledge is made. The moneys, earnings, income or revenues so pledged and thereafter received by the pledgor shall immediately be subject to the lien of such pledge without any physical delivery thereof or further act. The lien of any such pledge shall be valid and binding as against all parties having claims of any kind in tort, contract or otherwise against the pledgor irrespective of whether such parties have notice thereof. No instrument by which such a pledge is created need be filed or recorded in any manner.

## Article 8. Construction

94210. This chapter, being necessary for the welfare of the state and its inhabitants, shall be liberally construed to effect the purposes hereof.

94211. Nothing contained in this chapter shall be deemed or construed to create or constitute a debt, liability, or a loan or pledge of the credit of the state.

94212. The foregoing sections of this chapter shall be deemed to provide an additional and alternative method for the doing of the things authorized thereby, and shall be regarded as supplemental and additional to powers conferred by other laws, and shall not be regarded as in derogation of any powers now existing; provided, however, that the issuance of bonds or refunding bonds under the provisions of this chapter need not comply with the requirements of any other law applicable to the issuance of bonds.

94213. The powers granted to the authority by this chapter may be exercised without regard or reference to any department or agency of the state. All other general or special laws, or parts thereof, inconsistent with this chapter are hereby declared to be inapplicable to the provisions of this chapter.

## CHAPTER 3. PRIVATE POSTSECONDARY INSTITUTIONS

94300. It is the intent of this Legislature to encourage privately supported education and protect the integrity of degrees and diplomas conferred by privately supported as well as publicly supported educational institutions.

It is also the intent of the Legislature to encourage the recognition by tax-supported institutions of work completed and degrees and diplomas issued by privately supported institutions, to the end that students may have equal opportunities for equal accomplishment and ability.

In the present period the need for educational services for the youth is so great that it cannot be met by tax-supported institutions alone. The contribution of privately supported educational institutions to the preservation of our liberties is essential. These objectives can best be achieved by protecting the integrity of degrees and diplomas issued by such institutions.

94301. As used in this article "degree" means any "academic degree" or "honorary degree" or title of any designation, mark, appellation, series of letters or words such as, but not limited to, associate, bachelor, master, doctor or fellow which signifies, purports or is generally taken to signify satisfactory completion of the requirements of an academic, educational, technological, or professional program of study beyond the secondary school level or is a recognized honorary title conferred for some meritorious recognition.

As used in this article "diploma" means any "diploma,"

“certificate,” “transcript,” “document,” or other writing in any language other than a degree representing that any person has completed any course of study beyond high school.

Any person, firm, association, partnership, or corporation qualifying under this division to issue “degrees” or “diplomas” is considered as being authorized to issue appropriate related documents, setting forth the training and attendance completed by students enrolled in the course of study.

Graduation from high school or its equivalent need not be nor purport to be a prerequisite for undertaking or completing such course of study.

94302. Notwithstanding the provision of Section 94301, “diploma” does not include a certificate of graduation issued in connection with the educational requirements of Section 2941.5 of the Business and Professions Code; provided, that such certificate is delivered solely to the Psychology Examining Committee, to be retained in its file until such time as the recipient may pass the examination of said examining committee, at which time said certificate, or a duplicate thereof, shall be delivered to him.

94303. Notwithstanding the provisions of Section 94301, “diploma” does not include a document evidencing completion of a course of in-service training given by any person, firm, association, partnership, or corporation, if all of the following conditions apply:

(a) The course of in-service training is given in connection with the primary business or purpose of the person, firm, association, partnership, or corporation, and such primary business or purpose is not education.

(b) The course of in-service training and the document is given only to employees of such person, firm, association, partnership, or corporation, or to employees or representatives of customers of such person, firm, association, partnership or corporation.

(c) No charge is asked or collected from the persons taking the course or receiving the document.

(d) The document issued for in-service training is a certificate which sets forth the extent of attendance or performance or both in an area of training.

(e) All statements made on the certificate are truthful.

94304. (a) There is in the Department of Education a Council for Private Postsecondary Educational Institutions consisting of the Director of Education, or his designee, and 12 additional members who shall be appointed by the Director of Education, subject to the concurrence of the State Board of Education, as follows:

(1) Six members who shall be administrative heads of institutions operating under the authority of Section 94310 or Section 94312. One such member shall be selected from a school or college operating under paragraph (1) of subdivision (a) of Section 94310 and one shall be the administrative head of a school or college operating under subdivision (b), (c), or (d) of Section 94310. Except as provided elsewhere in this section, no person shall be eligible for appointment

if he is the administrative head of an institution authorized exclusively under the provisions of paragraph (3) of subdivision (a) of Section 94310.

(2) Six shall represent the public. Four members shall be appointed who have a strong interest in developing private postsecondary academic, vocational, technical, and professional education; two members representing the public shall be representatives of business and labor that employ substantial numbers of person in positions requiring vocational and technical skills.

(3) In addition, the following shall serve as ex officio members of the council:

- (i) The Director of the Department of Consumer Affairs.
- (ii) The Chief of the Division of Apprenticeship Standards.
- (iii) One administrative head of an institution operating exclusively under the provisions of paragraph (3) of subdivision (a) of Section 94310 appointed by the Director of Education; such appointment shall no longer be made when all such institutions have qualified under other provisions of the code.

Ex officio members have no vote.

(b) The first members shall be appointed on or before January 15, 1973, and the Director of Education shall designate the date of the first meeting of the council.

The terms of office of the members of the council shall commence on January 15, 1973, and the members shall enter upon their terms of office by lot so that the terms of four members shall expire on January 15, 1974; the terms of four members shall expire on January 15, 1975; and the terms of four members shall expire on January 15, 1976.

Thereafter, the terms of the members of the council shall be three years. No appointee shall serve on the council for more than six consecutive years.

No person shall be deemed to be a member of the council until his appointment has been concurred in by the State Board of Education, which shall take action regarding such appointment at the board meeting next following the appointment.

At the first meeting of the council, and annually thereafter, the members shall select one of their number to serve as chairman and one to serve as vice chairman. The vice chairman shall preside over all meetings of the council in the absence of the chairman.

(c) Any vacancy on the council shall be filled in the same manner as provided for appointment of council members in subdivision (a). The appointee to fill a vacancy shall hold office only for the balance of the unexpired term.

(d) Appointed members of the council shall receive no compensation but shall receive their actual expenses for attendance at official council meetings, and when on official council business approved by the Director of Education, not to exceed Board of Control expense allowances.

(e) The council shall determine the time and place of council meetings which shall not be fewer than six times in each calendar year.

(f) The council shall advise the Director of Education on the establishment of policy for the administration of this article and on the adoption of regulations governing the exercise of authority conferred on the Director of Education by this article and on any action by the Director of Education to grant, deny, suspend, or withdraw recognition of courses or schools pursuant to this article. All advice communicated to the Director of Education shall be adopted by an affirmative vote of a majority of the membership of the council, and shall be in writing.

(g) The Director of Education, with the advice of the council, shall:

(1) Establish policy for the administration of this chapter.

(2) Adopt regulations not inconsistent with this chapter governing the exercise of authority conferred by this article which shall be adopted in accordance with Chapter 4.5 (commencing with Section 11371) of Part 1 of Division 3 of Title 2 of the Government Code.

(3) Prepare, annually, a proposed budget for the support of the activities of the Department of Education pursuant to this article. The proposed budget shall be presented to the council for its review and recommendations.

(h) The Director of Education shall:

(1) Advise the council prior to promulgating any rules or regulations pursuant to this section and prior to instituting any action to deny, suspend, or withdraw recognition of courses or schools pursuant to this article.

(2) Take into consideration the advice of the council on all matters where the council is authorized by this section to communicate advice to the Director of Education.

(i) The Director of Education may impanel special committees of technically qualified persons to assist him and the council in the development of standards for courses and the evaluation of any course or school applying for recognition pursuant to subdivision (a) (2) of Section 94310 and Section 94312. The special committees shall make such inspections and studies as may be necessary to enable them to advise the council and the Director of Education in regard to action to be taken in any particular situation. Members of these special committees shall not be connected in any way with a school which is the subject of inspection or investigation. The members of the special committees shall serve at no expense to the state.

94305. A corporation may be formed pursuant to this article for the purpose of establishing, conducting, and maintaining an educational institution offering courses of instruction beyond high school, and issuing or conferring a diploma or degree. Such institutions shall include, but not be limited to, seminaries of learning, specialized educational institutions, junior colleges,

colleges, and universities, offering courses beyond high school.

94306. A corporation formed pursuant to this article shall comply with Chapter 1 (commencing with Section 300) of Part 2, Division 1, Title 1 of the Corporations Code, except that in lieu of the requirements of Sections 301 to 305, inclusive, the articles of incorporation shall state:

(a) The name of the corporation.

(b) The purpose for which it is organized.

(c) The county in this state where the principal office for the transaction of the business of the corporation is to be located.

(d) The names, residence address and number of its directors at the time of its incorporation. Provision may be made that the number of directors may be established by the bylaws; provided, that the number of directors may not be less than five.

94307. (a) If a corporation formed pursuant to this article is to be authorized to issue shares of stock, the articles of incorporation shall state the total number of shares which the corporation shall have authority to issue and (1) the aggregate par value, if any, of all shares, and the par value of each of the shares, or (2) a statement that all the shares are to be without par value and except as herein provided shall be treated for all purposes as being incorporated pursuant to Division 1 (commencing with Section 300) of Title 1 of the Corporations Code.

(b) If a corporation formed pursuant to this article is to be authorized as a nonprofit corporation without authority to issue shares of stock, the articles of incorporation shall so state and except as herein provided, such corporation shall be treated for all purposes as being incorporated pursuant to Part 1 (embracing Sections 9000 to 9802, inclusive) of Division 2 of Title 1 of the Corporations Code and shall have the general powers granted by Section 10206 of the Corporations Code.

94308. The provisions of Sections 94302 to 94304, inclusive, do not apply to any diploma or course of instruction given by a bona fide church or religious denomination if such course is limited to instructions in the principles of that church or denomination or to courses offered pursuant to Section 2789 of the Business and Professions Code, and the diploma is limited to evidence of completion of that course.

94309. No person, firm, association, partnership or corporation may issue or confer any honorary degree, diploma or certificate whatsoever unless such degree, diploma or certificate clearly and plainly states on its face that it is honorary.

No person shall use, in connection with any business or profession, any title or designation signifying that he has been awarded any degree, diploma, or certificate which clearly and plainly states on its face that it is honorary. Nothing in this section, however, prohibits the use of an honorary degree when such use does not imply that the user possesses an economically valuable professional or technical skill.

94310. Except as otherwise provided by law, no person, firm, association, partnership or corporation may issue, confer or award an academic or honorary "degree" or "title" (meaning any designation, mark, appellation, series of letters or words such as, but not limited to, associate, bachelor, master, doctor or fellow) which signifies, purports or is generally taken to signify satisfactory completion of the requirements of an academic, technological, or professional program of study beyond the secondary school level unless such person, firm, association, partnership or corporation meets the requirements of any one of the three subdivisions of subdivision (a) of this section.

No person, firm, association, partnership or corporation may issue, confer, or award any "diploma" bearing the words diploma, certificate, transcript, document or other writing, other than the awarding of a "degree" title, representing that any person has completed any course of study beyond high school unless such person, firm, association, partnership or corporation meets the requirements of paragraph (2) of subdivision (a) of this section or one of the subdivisions (b), (c), or (d) of this section or Section 94312.

(a) (1) A person, firm, association, partnership or corporation which at the time of the issuance of a "degree" has full accreditation of the institution, program, or specific course of study upon which the "degree" is based by a national or applicable regional accrediting agency recognized by the United States Department of Health, Education, and Welfare, Office of Education, and provided further that the educational institution has filed with the Superintendent of Public Instruction an affidavit by the administrative head of the institution stating that the institution is so accredited.

(2) A person, firm, association, partnership or corporation approved by the Superintendent of Public Instruction to award or issue specified degrees. Such permission shall be granted by the Superintendent of Public Instruction for one year upon the initial approval and shall be granted for periods of three years upon each subsequent renewal, subject to the payment of an annual fee pursuant to paragraph (2) of subdivision (a) of Section 94315. Application for such authorization shall be on forms furnished by the State Department of Education. The Superintendent of Public Instruction shall not approve an institution to issue degrees until it is determined, based on information submitted to him, that the institution has the facilities, financial resources, administrative capabilities, faculty, and other necessary educational expertise and resources to afford students and require of students the completion of a program of education which will prepare them for the attainment of a recognized professional, vocational, or educational objective, including, but not limited to, a degree; and the curriculum is consistent in quality with curricula offered by established institutions that issue the appropriate degree upon the satisfactory completion thereof. For the purpose of this subdivision the Superintendent of Public Instruction may compare with the requirements and standards of an accrediting agency generally

accepted by the class of institution concerned. This shall include the determination that the course for which the degree is granted achieves its professed or claimed objective for higher education. The provisions of Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code shall be applicable to any determination of the Superintendent of Public Instruction made pursuant to this subdivision.

Those institutions authorized to confer degrees pursuant to this subdivision may also be authorized by the Superintendent of Public Instruction to issue diplomas for the completion of courses of study, within their approved degree program, but which do not fully meet the degree requirements.

(3) A corporation which has filed with the Superintendent of Public Instruction an affidavit by the president or other head of the corporation, stating that the corporation owns an interest in real or personal property or both real and personal property used exclusively for the purpose of education, of a fair market value of not less than fifty thousand dollars (\$50,000). Such affidavit shall be accompanied by an appraisal by a state inheritance tax appraiser appointed for the county in which the institution is located, describing the real or personal property or both, and showing the value of the interest of the corporation therein to be at least fifty thousand dollars (\$50,000). The value of the interest of the property required to be owned by the corporation for the purposes of this section shall be deemed to be the appraised value of the interest owned by the corporation less the unpaid balance on any note secured by a mortgage or deed of trust thereon or the unpaid balance on a contract of sale thereof. Such a corporation shall file a statement of "full disclosure" by recording with the county recorder, in the county in which the school operates, an affidavit describing the institutional objectives and proposed methods of achieving them, the curriculum, instruction, faculty (with qualifications), physical facilities, administrative personnel, educational records, tuition and fee schedule, scholastic regulations, diplomas and degrees to be conferred, graduation requirements and financial stability. Certified copies of all statements and affidavits required to be filed by this section shall be forwarded by United States mail to the Department of Education within 48 hours after the filings are made with the county recorder. Filing pursuant to this section shall not be interpreted to mean, and it shall be unlawful for any corporation to expressly or impliedly represent by any means whatsoever, that the State of California, the Superintendent of Public Instruction, the State Board of Education, the California State Department of Education, or any division or bureau thereof, has made any evaluation, recognition, accreditation, approval, or endorsement of the course of study.

(b) A hospital licensed under the provisions of Division 2, Chapter 2 (commencing with Section 1400) of the Health and Safety Code, which issues diplomas in connection with the operation of a hospital.

(c) A person, firm, association, partnership or corporation which is accredited, approved, or licensed by a state board or agency as a school and which issues or confers diplomas in the profession, vocation or occupation controlled by the board or agency accrediting, approving, or licensing it; provided, that this subdivision shall not be construed as authorizing the issuing of a diploma which is not customarily granted for the training given and which is limited to the profession, vocation or occupation controlled by the accrediting, approving, or licensing board.

(d) A person, firm, association, partnership, or corporation which at the time of the issuance of a "diploma," as defined in Section 94301, has accreditation of the institution, program or specific course of study upon which the "diploma" is based by a national or applicable regional accrediting agency recognized by the United States Department of Health, Education, and Welfare, Office of Education and the administrative head of the institution has filed with the Superintendent of Public Instruction during the current calendar year the following affidavits:

(1) Verification that each course of study for which a diploma is issued is so accredited.

(2) Verification that the institution is financially capable of fulfilling its commitments for its accredited courses.

(3) Verification that the institution does not utilize advertising of any type which is erroneous or misleading, either by actual statement, omission, or intimation.

(4) Verification that the institution has and maintains a policy in reference to refund of the unused portion of tuition fees and other charges in the event the student fails to enter the course, or withdraws therefrom at any time prior to completion of the course. Such a policy shall set forth a minimum standard of refunds in accordance with rules and regulations adopted by the Superintendent of Public Instruction.

Affidavits required by this subdivision shall be filed on an annual basis.

94311. The provisions of subdivision (a) of Section 94310 shall not apply to any "degree" or "title" awarded by any school accredited pursuant to the provisions of subdivision (g) (1) and (2) of Section 6060 of the Business and Professions Code.

94312. Except as otherwise provided for in this code, no course of education or training leading to an educational, technological, professional or vocational objective shall be offered, and no diploma or honorary degree shall be issued or conferred, by any person, firm, association, partnership, corporation, or other entity which has not been approved by the Superintendent of Public Instruction. Application for such approval shall be made in writing on application forms provided by the Department of Education. Pending final approval of new or added courses of instruction, the Superintendent of Public Instruction may issue a temporary approval upon submission of the complete application. A temporary approval shall

be for a period of one year, subject to prior termination or conversion to annual approval basis by the Superintendent of Public Instruction. Any extension of a temporary approval on an annual basis shall require an annual fee. Courses offered for adults by any parochial or denominational school, or persons, firms, associations, partnerships, or corporations that have met the requirements of other sections of this division, or are offered solely for avocational or recreational purposes, will not be required to be approved under this section.

The Superintendent of Public Instruction may approve the application for recognition of such courses for a period of one year and shall grant subsequent approvals on an annual basis when an institution is found by the Department of Education to meet the following criteria:

(1) The courses, curriculum, and instruction are consistent in quality, content, and length with similar courses in public schools or other private schools, or both, in the state, with recognized accepted standards; or that the course, curriculum, and instruction meet recognized accepted standards for reaching the professed or claimed objective for that particular course.

(2) There is in the institution adequate space, equipment, instructional material, and instructor personnel to provide training of the quality needed to attain the objective of that particular course.

(3) Educational and experience qualifications of directors, administrators, and instructors are adequate.

(4) The institution maintains written records of the student's previous education and training with recognition where applicable.

(5) A copy of the course outline, schedule of tuition, fees and other charges, regulations pertaining to tardiness, absence, grading policy and rules of operation and conduct is available to students upon enrollment.

(6) The institution maintains adequate records to show attendance, progress, and grades.

(7) The institution complies with all local city, county, municipal, state and federal regulations such as fire, building, and sanitation codes. The Department of Education may require evidence of compliance.

(8) The institution is financially capable of fulfilling its commitments for its approved courses.

(9) The institution does not utilize advertising of any type which is erroneous or misleading, either by actual statement, omission, or intimation. With respect to a school having courses approved by the Superintendent of Public Instruction, the school can advertise to the effect that the particular course has been approved by the Superintendent of Public Instruction.

(10) The institution does not exceed enrollment facilities and equipment.

(11) The institution's administrator, director, owner, and instructors are of good reputation and character.

(12) The institution has and maintains a policy in reference to

refund of the unused portion of tuition fees and other charges in the event the student fails to enter the course, or withdraws therefrom at any time prior to completion of the course. Such a policy shall set forth a minimum standard of refunds in accordance with rules and regulations adopted by the Superintendent of Public Instruction.

(13) The institution designates an agent for service of process within the state.

(14) In any written contract or agreement for a course of study with an institution there shall be included on the first page of such agreement or contract, in 14-point boldface print or larger, the following statement:

“Any questions or problems concerning this school which have not been satisfactorily answered or resolved by the institution should be directed to the Director of Education, Department of Education, Sacramento, California, 95814.”

In addition, such written contracts or agreements shall specify, on the same page of the contract or agreement in which the student's signature is required, the total financial obligation that the student will incur upon enrollment in the institution in numbers or letters, or both, which are of larger print than the rest of the contract or agreement.

Upon completion of training, the institution may award a “diploma,” as defined in Section 94301, to the student indicating the training and attendance completed.

The Superintendent of Public Instruction shall consult with the Department of Health prior to approving programs for training medical assistants pursuant to this section. The consultation with the Department of Health shall concern the minimal standards for facilities, faculty, and curriculum for programs which train medical assistants to the extent that is found necessary to provide sufficient training and skill for graduates to perform competently as medical assistants. The Department of Education may contract with the Department of Health for such consulting services.

For purposes of this section, “medical assistant” is defined as a person employed by a licensed physician or physicians, or a medical corporation established pursuant to Article 17 (commencing with Section 2500) of Chapter 5 of Division 2 of the Business and Professions Code and who performs basic administrative, clerical, and technical supportive services for such physician, or physicians, or medical corporation.

This section shall not be construed to permit medical assistants to perform direct patient care services or other functions requiring a license pursuant to Division 2 (commencing with Section 500) of the Business and Professions Code.

The provisions of Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code shall be applicable to any determination of the Superintendent of Public Instruction made pursuant to this section.

Sections 1292, 1293, and 1294 of the Labor Code shall not apply to

work experience education programs established pursuant to this section, provided there is continuous and competent supervision by a qualified person.

94313. No person, either on his own behalf or as the representative of any privately conducted correspondence school or of any private person, firm, association, partnership, or corporation whatever, shall, by personal contact, in California, solicit the sale of or solicit and sell any correspondence course of study beyond high school, of high school level, or below high school level, for a remuneration or other consideration to be provided for such course, unless he holds a valid permit to engage in such activity issued by the State Board of Education. The State Board of Education may delegate its authority to issue this permit to the State Superintendent of Public Instruction.

The State Board of Education, or the State Superintendent of Public Instruction, if such authority has been delegated by the State Board of Education, shall promptly cause to be prepared, and shall, pursuant to this section, issue appropriate permits authorizing the holder to engage in the solicitation of sales and the selling of such courses of study.

No person shall be issued a permit except upon the submission of satisfactory evidence of good moral character.

A permit shall be valid for the calendar year in which it is issued unless sooner revoked or suspended by the State Board of Education for fraud or misrepresentation in connection with the solicitation for the sale or the sale of any course of study, or for the existence of any condition in respect to the permittee or the school he represents which, if in existence at the time the permit was issued would have been ground for denial of the permit.

The application for a permit shall be made by the person who proposes to engage in the activities of soliciting or selling in those cases where such activities are to be conducted in the person's own behalf. Where the person for whom the issuance of a permit is sought is to engage in the activities as a representative, the application shall be made by the correspondence school or other person, firm, association, partnership, or corporation for and on behalf of the person to serve as its representative. Applications shall be submitted on forms to be furnished by the Department of Education. The original application, renewal applications when renewed on a continuous basis, and applications for additional sales permits shall be accompanied by an application fee in an amount established pursuant to subdivision (e) of Section 94315. Fees required by this section are hereby appropriated in augmentation of the appropriation for support of the Department of Education current at the date of issuance of the State Controller's receipt thereof as may be designated by the Department of Education prior to their deposit in the State Treasury and shall be nonrefundable irrespective of whether or not a permit is subsequently issued.

The application shall be accompanied by a bond executed by good

and sufficient sureties making provision for full indemnification of any person for any material loss suffered as a result of any fraud or misrepresentation used in connection with the solicitation for the sale or the sale of any course of study. The term of the bond shall extend over the period of the permit. The bond may be supplied by the correspondence school or other person, firm, association, partnership, or corporation, or by the person for whom issuance of the permit is sought, and may extend to cover either an individual for such person or to provide blanket coverage for all persons to be engaged as representatives of a correspondence school or other person, firm, association, partnership or corporation in the solicitation for sale or the sale of correspondence courses of study in California. Any bond shall provide for liability in the penal sum of one thousand dollars (\$1,000) for each representative to whom coverage is extended by its terms. Neither the principal nor surety on a bond may terminate the coverage of the bond except upon giving 30 days' prior written notice to the State Board of Education.

The permittee shall carry the permit with him for identification purposes when engaged in the solicitation of sales and the selling of correspondence courses of study.

Any contract for or in connection with a course of study with a correspondence school, or representative thereof, shall be voidable at the option of the purchaser if the representative of any person selling or administering such course of study, or the representative of such firm, association, partnership or corporation was not the holder of a permit as required by this section at the time that such representative negotiated the contract for or sold such course.

In any written contract or agreement for a course of study with a correspondence school there shall be included on the first page of such agreement or contract in 14-point boldface print or larger, the following statement:

"Any questions or problems concerning this school which have not been satisfactorily answered or resolved by the school should be directed to the Director of Education, Department of Education, Sacramento, California, 95814."

In addition, such written contracts or agreements shall specify, on the same page of the contract or agreement in which the student's signature is required, the total financial obligation that the student will incur upon enrollment in the correspondence school in numbers or letters, or both, which are of larger print than the rest of the contract or agreement.

The judgment rendered in any action maintained for any material loss suffered as a result of any fraud or misrepresentation used in connection with the solicitation for the sale or the sale of any course of study shall, if the plaintiff is the prevailing party, include court costs including a reasonable attorney's fee fixed by the court.

The provisions of Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code shall be applicable to any determination of the State Board of Education

made pursuant to this section.

The issuance of a permit pursuant to this section shall not be interpreted as, and it shall be unlawful for any individual holding any such permit to expressly or impliedly represent by any means whatever that the Superintendent of Public Instruction, the State Board of Education, or the Department of Education has made, any evaluation, recognition, accreditation or endorsement of any correspondence course of study being offered for sale by the individual.

It shall be unlawful for any individual holding a permit under this section and for any salesman, agent or representative of such individual to expressly or impliedly represent by any means whatever that the issuance of the permit constitutes an assurance by the Superintendent of Public Instruction, the State Board of Education, or the State Department of Education that any correspondence course of study being offered for sale by the individual will provide and require of the student a course of education or training necessary to reach a professional, educational, or vocational objective, or will result in membership in any union or similar organization or will result in employment or personal earnings for the student.

The issuance of a permit under this section, and the possession thereof, by an individual, shall be evidence only that the surety bond prescribed by this section has been issued with respect to the possessor and that he has submitted satisfactory evidence of good moral character.

94314. No person, either on his own behalf or as the representative of any privately conducted resident school located within or outside of California or of any private person, firm, association, partnership or corporation whatever, shall, by personal contact with any person in California at a place away from the instructional site of the school, solicit or sell enrollment in any course of study leading to an educational, technological, professional, or vocational objective beyond high school, to or for adults, for a remuneration or other consideration to be provided for such course unless he holds a valid permit to engage in such activity issued by the State Board of Education. The State Board of Education may delegate its authority to issue such permit to the State Superintendent of Public Instruction.

The State Board of Education, or the State Superintendent of Public Instruction, if such authority has been delegated by the State Board of Education, shall promptly cause to be prepared, and shall, pursuant to this section, issue appropriate permits authorizing the holder to engage in the solicitation of sales and the selling of such courses of study away from the premises of the school.

No person shall be issued a permit except upon the submission of satisfactory evidence of good moral character.

A permit shall be valid for the calendar year in which it is issued unless sooner revoked or suspended by the State Board of Education

for fraud or misrepresentation in connection with the solicitation for the sale or the sale of any course of study, or for the existence of any condition in respect to the permittee or the school he represents which, if in existence at the time the permit was issued would have been ground for denial of the permit.

The application for a permit shall be made by the person who proposes to engage in the activities of soliciting or selling in those cases where such activities are to be conducted in the person's own behalf. Where the person for whom the issuance of a permit is sought is to engage in the activities as a representative, the application shall be made by the school or other person, firm, association, partnership, or corporation for and on behalf of the person to serve as its representative. Applications shall be submitted on forms to be furnished by the Department of Education. The original application, renewal applications when renewed on a continuous basis, and applications for additional sales permits shall be accompanied by an application fee in an amount established pursuant to subdivision (f) of Section 94315. Fees required by this section are hereby appropriated in augmentation of the appropriation for support of the Department of Education current at the date of issuance of the State Controller's receipt thereof as may be designated by the Department of Education prior to their deposit in the State Treasury and shall be nonrefundable irrespective of whether or not a permit is subsequently issued.

The application shall be accompanied by a bond executed by good and sufficient sureties making provision for full indemnification of any person for any material loss suffered as a result of any fraud or misrepresentation used in connection with the solicitation for the sale or the sale of any course of study. The term of the bond shall extend over the period of the permit. The bond may be supplied by the school or other person, firm, association, partnership, or corporation, or by the person for whom issuance of the permit is sought, and may extend to cover either an individual such person or to provide blanket coverage to all persons to be engaged as representatives of a school or other person, firm, association, partnership or corporation in the solicitation for sale or the sale of courses of study in California. Any bond shall provide for liability in the penal sum of one thousand dollars (\$1,000) for each representative to whom coverage is extended by its terms. Neither the principal nor surety on a bond may terminate the coverage of the bond except upon giving 30 days' prior written notice to the State Board of Education.

The permittee shall carry the permit with him for identification purposes when engaged in the solicitation of sales and the selling of courses of study away from the premises of the school.

Any contract for or in connection with a course of study with a school, or representative thereof, shall be voidable at the option of the purchaser if the representative of any person selling or administering such course of study, or the representative of such

firm, association, partnership or corporation was not the holder of a permit as required by this section at the time that such representative negotiated the contract for or sold such course.

The judgment rendered in any action maintained for any material loss suffered as a result of any fraud or misrepresentation used in connection with the solicitation for the sale or the sale of any course of study away from the premises of the school shall, if the plaintiff is the prevailing party, include court costs including a reasonable attorney's fee fixed by the court.

The provisions of Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code shall be applicable to any determination of the State Board of Education made pursuant to this section.

The issuance of a permit pursuant to this section shall not be interpreted as, and it shall be unlawful for any individual holding any such permit to expressly or impliedly represent by any means whatever that the Superintendent of Public Instruction, the State Board of Education, or the State Department of Education has made, any evaluation, recognition, accreditation or endorsement of any course of study being offered for sale by the individual.

It shall be unlawful for any individual holding a permit under this section to expressly or impliedly represent by any means whatever that the issuance of the permit constitutes an assurance by the Superintendent of Public Instruction, the State Board of Education, or the State Department of Education that any correspondence course of study being offered for sale by the individual will provide and require of the student a course of education or training necessary to reach a professional, educational, or vocational objective, or will result in employment or personal earnings for the student.

The issuance of a permit under this section, and the possession thereof, by an individual, shall be evidence only that the surety bond prescribed by this section has been issued with respect to the possessor and that he has submitted satisfactory evidence of good moral character.

94315. The Superintendent of Public Instruction shall charge, commencing during the 1974-75 fiscal year, the fees listed herein for the approval of private institutions operating under this division. For ensuing fiscal years, the Superintendent of Public Instruction, with the advice of the council, may annually increase such fees by an amount which reflects an increase in the Consumer Price Index, all items, of the Bureau of Labor Statistics of the United States Department of Labor, measured for the calendar year next preceding the fiscal year to which it applies. The Superintendent of Public Instruction shall annually publish a schedule of the current fees to be charged pursuant to this section and shall make such schedule generally available to the public.

The following fee schedule shall govern the fees to be paid by private institutions operating under this division:

- (a) For approval to issue degrees pursuant to paragraph 2 of

subdivision (a) of Section 94310:

- (1) Five hundred dollars (\$500) for an original application.
- (2) One hundred fifty dollars (\$150) annually during the duration of the approval period renewal of such application.
- (3) One hundred dollars (\$100) for any of the following: approval to grant additional degrees, approval of additional major fields of study in approved degrees, for change of location, or auxiliary facilities in a new location.
- (4) One hundred fifty dollars (\$150) change of ownership.
- (5) Eight dollars (\$8) evaluation and approval of directors, administrators, and instructors subsequent to the original application.

(b) For filing an original affidavit and appraisal and a copy of the full disclosure required to issue degrees pursuant to paragraph 3 of subdivision (a) of Section 94310, the original affidavit shall be accompanied by a three-hundred-dollar (\$300) fee. Each annual affidavit filed thereafter pursuant to Section 94316 shall be accompanied by a one-hundred-fifty-dollar (\$150) renewal fee.

(c) For filing affidavits to meet the requirements of subdivision (d) of Section 94310, the original affidavit shall be accompanied by a one-hundred-fifty-dollar (\$150) fee. Affidavits filed annually thereafter pursuant to subdivision (d) of Section 94310 shall each be accompanied by one hundred fifty dollars (\$150).

(d) For approval to issue diplomas or offer courses of education or training pursuant to Section 94312:

- (1) Three hundred dollars (\$300) for an original application.
- (2) One hundred fifty dollars (\$150) for a renewal of a temporary approval or annual approval of courses.
- (3) One hundred dollars (\$100) for approval of any of the following: change of location, major change or revisions in curriculum of course, auxiliary facilities in a new location, or additional courses.
- (4) One hundred fifty dollars (\$150) for change of ownership.
- (5) Eight dollars (\$8) for evaluation and approval of directors, administrators, and instructors subsequent to the original application.

(e) For approval of an applicant to solicit or sell correspondence courses of study pursuant to Section 94313, the original application shall be accompanied by a twenty-dollar (\$20) fee. Each applicant shall pay an annual renewal fee of fifteen dollars (\$15). Application for additional sales permits shall be accompanied by a fifteen-dollar (\$15) fee.

(f) For approval of an applicant to solicit or sell enrollment in courses of study at a resident school away from the instructional site of such institution pursuant to Section 94314, the original application shall be accompanied by a twenty-dollar (\$20) fee. Each applicant shall pay an annual renewal fee of fifteen dollars (\$15). Applications for additional sales permits shall be accompanied by a fifteen-dollar (\$15) fee.

(g) For programs for training medical assistants, in addition to such other fees as may be required, a fee of not to exceed seventy-five dollars (\$75) annually to support the contracted consulting services of the Department of Health authorized by Section 94312.

“Auxiliary facilities” as used in this section shall be defined pursuant to regulations adopted by the Director of Education.

94316. Every corporation meeting the requirements of paragraph (3) of subdivision (a) of Section 29023, issuing or conferring degrees or honorary degrees, shall between the 1st and 31st days of January of each year, commencing on January 1, 1971, file with the Superintendent of Public Instruction the following affidavits:

(a) An affidavit by the president or other head setting forth the corporation’s financial statement covering the full preceding year.

(b) An affidavit by the president or other head setting forth the following information covering the preceding calendar year:

(1) All names, whether real or fictitious, of the person, firm, association, partnership or corporation under which it has done and is doing business.

(2) The address, including city and street, of every place of doing business of the person, firm, association, partnership or corporation, within the State of California.

(3) The address, including city and street, of the location of the records of the person, firm, association, partnership or corporation, and the name and address, including city and street, of the custodian of such records.

(4) The names and addresses, including city and street, of the directors, if any, and principal officers of the person, firm, association, partnership or corporation.

(5) That the records required by Section 94317 of this article are maintained at the address stated, and are true and accurate.

Any change in the items of information required to be included in the affidavit filed pursuant to subdivision (b) shall be reported to the Superintendent of Public Instruction within 20 days of such change.

94317. Any person, firm, association, partnership or corporation, which issues or confers degrees or diplomas or honorary degrees or honorary diplomas shall maintain current records for a period of not less than three years at its principal place of business within the State of California, immediately available during normal business hours, for inspection by the Superintendent of Public Instruction or the Attorney General showing the following:

(a) The names and addresses, both local and home, including city and street, of each of its students.

(b) The courses of study offered by the institution.

(c) The names and addresses, including city and street, of its faculty, together with a record of the educational qualifications of each.

(d) The degrees or diplomas and honorary degrees or honorary

diplomas granted; to whom granted; the date of granting; together with the curricula upon which the diplomas and degrees were based.

(e) The Superintendent of Public Instruction shall publish annually for public distribution, and may charge a fee to cover the cost of compilation and printing, a list of all schools of record conferring diplomas and degrees, or otherwise of record. The list shall contain the names and addresses of such institutions together with a notation of the statute section or sections under which the institution has become of record.

94318. No person, firm, association, partnership, or corporation owning or representing any private school offering training to adults shall:

(a) Make or cause to be made, any statement, or representation, oral, written, or visual, in connection with the offering or publicizing of a course, if such person, firm, association, partnership, or corporation knows, or reasonably should have known, the statement or representation to be false, deceptive, inaccurate or misleading.

(b) Promise or guarantee employment utilizing information, training or skill purported to be provided or otherwise enhanced by a course.

(c) Advertise concerning job availability, degree of skill and length of time required to learn a trade or skill unless the information is accurate and in no way misleading.

(d) Advertise, or indicate in any promotional material, that correspondence instruction, or correspondence courses of study are offered without including in all advertising or promotional material the fact that the instruction or courses of study are offered by correspondence or home study.

(e) Advertise, or indicate in any promotional material, that resident instruction, or courses of study are offered without including in all advertising or promotional material the location where the training is given or the location of the resident instruction.

(f) Solicit students for enrollment by causing any advertisement to be published in "help wanted" columns in any magazine, newspaper, or publication or use "blind" advertising which fails to identify the school.

Nothing contained in this section shall prohibit a private school and a bona fide employer from jointly advertising in "help wanted" columns of a magazine, newspaper, or other publication if all of the following conditions are met:

(1) There is a written agreement between the employer and the private school that the employer will hire at least 25 percent of the graduates of the private school trained in the skills being advertised as wanted, that such skills are clearly identified in the advertisement, and that the written agreement between the employer and the private school shall be deemed made expressly for the benefit of students recruited by the advertisement;

(2) The written agreement between the employer and the private school shall be displayed on the grounds of the private school

where it is visually accessible to all students; and, upon the request of a student registering in the school, a copy of the written agreement shall be made available;

(3) There is a recognized shortage of persons with the skills advertised as wanted in the circulation area of the publication in which the advertisement appears;

(4) Any additional unique qualifications and conditions other than possession of advertised skill required of applicants are listed in the advertisement;

(5) There is an anticipated need for persons trained in such skills at the end of the private school's regular training period for the skills;

(6) The advertisement clearly identifies the school and the employer as separate entities and gives the complete address of both; and

(7) The advertisement clearly indicates that graduation from the school does not guarantee employment by the employer named in the advertisement.

(g) Advertise in such a way as to lead the reader to the mistaken belief that an offer for employment is being made.

(h) Advertise, or use the word "accredited" or "approved" with respect to itself or the course or courses which it offers unless the word is immediately followed by the complete name of the organization by which it is accredited or approved.

(i) Represent in any manner that completion of the training offered will result in membership in any union or similar organization of any type.

Any person, firm, association, partnership, or corporation willfully violating any provisions of this section shall be unable to enforce any contract or agreement arising from the transaction in which the violation occurred. In addition, in the event of such violation, said person, firm, association, partnership, or corporation shall refund to the student any tuition or fees that have been collected from the student. The student shall be awarded, in addition to the foregoing, any damages that he has sustained, and may be awarded treble damages, in the discretion of the court.

The judgment rendered in any action maintained for the recovery of fees or damages sustained in accordance with the terms of this section or the judgment rendered in any action defended by a student, shall, if the student is the prevailing party, include court costs, including a reasonable attorney's fee fixed by the court.

94319. No person, firm, association, partnership or corporation may sell, barter, offer to sell or barter, or conspire to sell or barter, any diploma or degree as defined in this article.

94320. No person, firm, association, partnership or corporation may buy, obtain by barter, attempt to buy or obtain by barter, or conspire to obtain by barter or buy, any diploma or degree as defined in this article.

94321. No person, firm, association, partnership or corporation may use in connection with any business, trade, profession or

occupation, or attempt to use in connection with any business, trade, profession or occupation, or conspire to use in connection with any business, trade, profession or occupation, any degree, diploma, certificate, transcript or document, as defined in this article, which has been purchased, obtained by barter, fraudulently or illegally issued, illegally obtained, counterfeited, materially altered or found.

94322. No person, firm, association, partnership or corporation may:

(a) Use in connection with a business, trade, profession or occupation, or give or receive;

(b) Attempt to use in connection with a business, trade, profession or occupation, or attempt to give or receive;

(c) Conspire to use in connection with a business, trade, profession or occupation, or conspire to give or receive; any diploma or degree evidencing the undertaking or completion of any course of study or scholastic achievement attained if, in fact, said course of study has not been undertaken nor completed or if such scholastic achievement has not been attained.

94323. No person, firm, association, partnership, or corporation shall use or allow the use of any reproduction or facsimile of the Great Seal of the state on any diploma.

This section does not apply to the University of California, or to the California State University and Colleges, any community college or to any school which is part of the public school system.

94324. Any person, firm, association, partnership or corporation willfully violating any provision of Section 94319, 94320, 94321, 94322, or 94323 is guilty of a felony and is punishable by imprisonment in the state prison not exceeding five years or by a fine of not less than one thousand dollars (\$1,000) or by both such fine and imprisonment. Any person, firm, association, partnership or corporation willfully violating any other provision of this article is punishable, for a first offense, by imprisonment in the county jail not exceeding one year, or by fine not exceeding five hundred dollars (\$500) or both; and any second or subsequent offense shall be a felony punishable by imprisonment in the state prison not exceeding five years or by fine not less than one thousand dollars (\$1,000) or by both such fine and imprisonment.

94325. If any section, subsection, sentence, clause or phrase of this article is for any reason held to be unconstitutional, such decision shall not affect the validity of the remaining portions of this article. The Legislature hereby declares that it would have passed this article, and each section, subsection, sentence, clause or phrase thereof, irrespective of the fact that any one or more of the sections, subsections, sentences, clauses or phrases be declared unconstitutional.

94326. (a) The Superintendent of Public Instruction and the Attorney General shall take cognizance of the fact that both have definite duties and responsibilities under the provisions of this article.

(b) The Superintendent of Public Instruction shall report any information concerning possible violations of this article to the Attorney General.

(c) The Attorney General shall make such investigations as are necessary to determine whether or not there has been compliance with the provisions of this article.

94327. The Attorney General is hereby authorized to take such actions as are necessary, including the obtaining of injunctive relief, to enforce the provisions of this article.

#### CHAPTER 4. CONSOLIDATION OF PRIVATE COLLEGES

94400. Whenever any benevolent, religious, or fraternal organization or society, having a grand lodge, assembly, conference, or other legislative or representative head in the state, and having two or more colleges or institutions of higher education under its patronage, desires, for the purpose of greater efficiency and simplicity in the administration of its educational interests, to consolidate the institutions under one management, the organization or society may consolidate the institutions under one management, pursuant to this article.

94401. The grand lodge, assembly, conference, or other legislative or representative head having authorized a consolidation of its institutions, a new corporation shall be formed.

94402. The board of trustees of the new corporation shall at first consist of the persons constituting the boards of trustees of the several institutions consolidating, and others. The number of trustees shall not exceed 45. The board of trustees shall be so classified that the term of office of one-third of its members expires each year, and unless otherwise provided in the articles of incorporation or bylaws, the successors of the trustees, as their terms expire shall be elected by the grand lodge, assembly, conference, or other legislative or representative head, at its annual meeting.

94403. After the two or more colleges or institutions of higher education under the patronage of any benevolent, religious, or fraternal organization or society, having a grand lodge, assembly, conference, or other legislative or representative head in the state have become consolidated, the board of trustees of the new corporation may be reduced in number after it has transacted the business of the corporation for a period of five years after the consolidation.

94404. Unless other provision is made in the articles of incorporation the number of trustees shall be reduced by the grand lodge, assembly, conference, or other legislative or representative head of the colleges or institutions of higher education. At any annual session of the grand lodge, assembly, conference, or other legislative or representative head, there shall be dropped from the number of trustees to be elected at that session such a number of trustees as those present at the session determine, except that at no time shall

the number of trustees composing the board be less than 15.

94405. Provision may be made in the articles of incorporation, in addition to any other matters required by law, for the number of trustees, for the method of nominating and electing trustees, and special qualifications, if any, required of persons to be elected or of any particular number of such persons. If not made in the articles of incorporation, such methods and qualifications may be set forth in the bylaws.

94406. Bylaws may be adopted and amended by the trustees except as otherwise provided in the articles or the bylaws. The bylaws may set forth the particular officers or persons in the grand lodge, conference, assembly, or other legislative or representative head entitled to vote as members of the corporation, and also the manner and method by which the voting is had. The bylaws may limit or restrict the power of the trustees to adopt, amend, or repeal bylaws. After the limitation or restriction is made it shall be complied with unless it is removed with the consent of the officers or persons entitled to vote as members. Where applicable the provisions of Sections 9400 to 9404, inclusive, of the Corporations Code apply to the bylaws.

94407. Except as otherwise provided in Section 94406, in the articles of incorporation, or the bylaws, the board of trustees of the new corporation have all of the powers granted to boards of trustees by and enumerated in Section 9501 of the Corporations Code, and in Sections 19803 to 19808, inclusive.

94408. The board of trustees of the new corporation shall report annually to the grand lodge, conference, assembly, or other legislative or representative head controlling it, the condition of affairs of the corporation, and the amount and manner of its receipts and expenditures.

94409. The several boards of trustees of the consolidating institutions shall transfer all property, real and personal, held by them, to the new corporation, together with all powers, privileges, and authority conferred upon or enjoyed by them under their respective charters or acts of incorporation. The new corporation receiving the property shall assume all indebtedness and liabilities of the consolidating institutions, but shall not transfer the property from one location to another, except by an affirmative vote of not less than three-fourths of the board of trustees of the new corporation, nor divert specific grants, donations, or bequests from the purposes for which the grants, donations, or bequests were made. After the boards of trustees have conveyed the property, real and personal, of the various institutions to the new corporation, and the property has been accepted by the new corporation, the franchises held by the consolidating corporations shall cease, and the corporations are dissolved.

## CHAPTER 5. EMINENT DOMAIN

94500. Any educational institution of collegiate grade within this state not conducted for profit may acquire by eminent domain any property necessary to carry out any of its powers or functions.

## DIVISION 14. MISCELLANEOUS

## PART 65. MISCELLANEOUS

## CHAPTER 1. WESTERN REGIONAL EDUCATION COMPACT

## Article 1. The Compact

99000. The Governor is hereby authorized and directed to execute a compact on behalf of this state with each or all of the 11 western states and the States of Alaska and Hawaii for the purpose of cooperating with such states in the formation of a Western Interstate Commission for Higher Education. Notice of intention to withdraw from such compact shall be executed and transmitted by the Governor.

99001. The form and contents of such compact shall be substantially as provided in this section and the effect of its provisions shall be interpreted and administered in conformity with the provisions of this chapter.

## Western Regional Higher Education Compact

The contracting states do hereby agree as follows:

## Article 1

WHEREAS, The future of this Nation and of the Western States is dependent upon the quality of the education of its youth; and

WHEREAS, Many of the Western States individually do not have sufficient numbers of potential students to warrant the establishment and maintenance within their borders of adequate facilities in all of the essential fields of technical, professional, and graduate training, nor do all of the states have the financial ability to furnish within their borders institutions capable of providing acceptable standards of training in all of the fields mentioned above; and

WHEREAS, It is believed that the Western States, or groups of such states within the region, co-operatively can provide acceptable and efficient educational facilities to meet the needs of the region and of the students thereof; now, therefore,

The States of Arizona, California, Colorado, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Washington, and Wyoming, and the Territories of Alaska and Hawaii, do hereby covenant and agree as follows:

## Article 2

Each of the compacting states and territories pledges to each of the other compacting states and territories faithful co-operation in carrying out all the purposes of this compact.

## Article 3

The compacting states and territories hereby create the Western Interstate Commission for Higher Education, hereinafter called the commission. Said commission shall be a body corporate of each compacting state and territory and an agency thereof. The commission shall have all the powers and duties set forth herein, including the power to sue and be sued, and such additional powers as may be conferred upon it by subsequent action of the respective legislatures of the compacting states and territories.

## Article 4

The commission shall consist of three resident members from each compacting state or territory. At all times one commissioner from each compacting state or territory shall be an educator engaged in the field of higher education in the state or territory from which he is appointed.

The commissioners from each state and territory shall be appointed by the governor thereof as provided by law in such state or territory. Any commissioner may be removed or suspended from office as provided by the law of the state or territory from which he shall have been appointed.

The terms of each commissioner shall be four years; provided, however, that the first three commissioners shall be appointed as follows; one for two years, one for three years, and one for four years. Each commissioner shall hold office until his successor shall be appointed and qualified. If any office becomes vacant for any reason, the governor shall appoint a commissioner to fill the office for the remainder of the unexpired term.

## Article 5

Any business transacted at any meeting of the commission must be by affirmative vote of a majority of the whole number of compacting states and territories.

One or more commissioners from a majority of the compacting states and territories shall constitute a quorum for the transacting of business.

Each compacting state and territory represented at any meeting of the commission is entitled to one vote.

## Article 6

The commission shall elect from its number a chairman and a vice chairman, and may appoint, and at its pleasure dismiss or remove, such officers, agents, and employees as may be required to carry out the purpose of this compact; and shall fix and determine their duties, qualifications and compensation, having due regard for the importance of the responsibilities involved.

The commissioners shall serve without compensation, but shall be reimbursed for their actual and necessary expenses from the funds of the commission.

## Article 7

The commission shall adopt a seal and bylaws and shall adopt and promulgate rules and regulations for its management and control.

The commission may elect such committees as it deems necessary for the carrying out of its functions.

The commission shall establish and maintain an office within one of the compacting states for the transaction of its business and may meet at any time, but in any event must meet at least once a year. The chairman may call such additional meetings and upon the request of a majority of the commissioners of three or more compacting states or territories shall call additional meetings.

The commission shall submit a budget to the governor of each compacting state and territory at such time and for such period as may be required.

The commission shall, after negotiations with interested institutions, determine the cost of providing the facilities for graduate and professional education for use in its contractual agreements throughout the region.

On or before the fifteenth day of January of each year, the commission shall submit to the governors and legislatures of the compacting states and territories a report of its activities for the preceding calendar year.

The commission shall keep accurate books of account, showing in full its receipts and disbursements, and said books of account shall be open at any reasonable time for inspection by the governor of any compacting state or territory or his designated representative. The commission shall not be subject to the audit and accounting procedure of any of the compacting states or territories. The commission shall provide for an independent annual audit.

## Article 8

It shall be the duty of the commission to enter into such contractual agreements with any institutions in the region offering graduate or professional education and with any of the compacting states or territories as may be required in the judgment of the commission to

provide adequate services and facilities of graduate and professional education for the citizens of the respective compacting states or territories. The commission shall first endeavor to provide adequate services and facilities in the fields of dentistry, medicine, public health, and veterinary medicine, and may undertake similar activities in other professional and graduate fields.

For this purpose the commission may enter into contractual agreements—

(a) With the governing authority of any educational institution in the region, or with any compacting state or territory, to provide such graduate or professional educational services upon terms and conditions to be agreed upon between contracting parties, and

(b) With the governing authority of any educational institution in the region or with any compacting state or territory to assist in the placement of graduate or professional students in educational institutions in the region providing the desired services and facilities, upon such terms and conditions as the commission may prescribe.

It shall be the duty of the commission to undertake studies of needs for professional and graduate educational facilities in the region, the resources for meeting such needs, and the long-range effects of the compact on higher education; and from time to time prepare comprehensive reports on such research for presentation to the Western Governors' Conference and to the legislatures of the compacting states and territories. In conducting such studies, the commission may confer with any national or regional planning body which may be established. The commission shall draft and recommend to the governors of the various compacting states and territories, uniform legislation dealing with problems of higher education in the region.

For the purposes of this compact the word "region" shall be construed to mean the geographical limits of the several compacting states and territories.

#### Article 9

The operating costs of the commission shall be apportioned equally among the compacting states and territories.

#### Article 10

This compact shall become operative and binding immediately as to those states and territories adopting it whenever five or more of the States or Territories of Arizona, California, Colorado, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Washington, Wyoming, Alaska, and Hawaii have duly adopted it prior to July 1, 1953. This compact shall become effective as to any additional states or territories adopting thereafter at the time of such adoption.

## Article 11

This compact may be terminated at any time by consent of a majority of the compacting states or territories. Consent shall be manifested by passage and signature in the usual manner of legislation expressing such consent by the legislature and governor of such terminating state. Any state or territory may at any time withdraw from this compact by means of appropriate legislation to that end. Such withdrawal shall not become effective until two years after written notice thereof by the governor of the withdrawing state or territory accompanied by a certified copy of the requisite legislative action is received by the commission. Such withdrawal shall not relieve the withdrawing state or territory from its obligations hereunder accruing prior to the effective date of withdrawal. The withdrawing state or territory may rescind its action of withdrawal at any time within the two-year period. Thereafter, the withdrawing state or territory may be reinstated by application to and the approval by a majority vote of the commission.

## Article 12

If any compacting state or territory shall at any time default in the performance of any of its obligations assumed or imposed in accordance with the provisions of this compact, all rights, privileges and benefits conferred by this compact or agreements hereunder, shall be suspended from the effective date of such default as fixed by the commission.

Unless such default shall be remedied within a period of two years following the effective date of such default, this compact may be terminated with respect to such defaulting state or territory by affirmative vote of three-fourths of the other member states or territories.

Any such defaulting state may be reinstated by: (a) performing all acts and obligations upon which it has heretofore defaulted, and (b) application to and the approval by a majority vote of the commission.

99002. In furtherance of the provisions contained in the compact, there shall be three commissioners from the State of California, appointed by the Governor by and with the advice and consent of the Senate. The qualifications and terms of the commissioners shall be in accordance with Article 4 of the compact. A commissioner shall hold office until his successor is appointed and qualified but such successor's term shall expire four years from the legal date of expiration of the term of his predecessor. Any commissioner may be removed from office by the Governor upon charges and after a hearing. The term of any commissioner who ceases to hold the required qualifications shall terminate when a successor may be duly appointed. Vacancies occurring in the office of a commissioner from any reason or cause shall be filled for the unexpired term in the same

manner as for a full term appointment.

Each commissioner shall receive his necessary travel expenses incurred in the performance of his official duties in behalf of the commission.

99003. All officers of the state are hereby authorized and directed to do all things falling within their respective provinces and jurisdiction necessary or incidental to the carrying out of the compact in every particular; it being hereby declared to be the policy of this state to perform and carry out the compact and to accomplish the purposes thereof. All officers, bureaus, departments and persons of and in the state government or administration of the state are hereby authorized and directed at convenient times and upon request of the commission to furnish the commission with information and data possessed by them and to aid such commission by any means lying within their legal rights.

99004. The commission shall keep accurate accounts of its activities and shall report to the Governor and the Legislature on or before the 31st day of December in each year, setting forth in detail the transactions conducted by it during that calendar year and shall make recommendations for any legislative action deemed by it advisable, including amendments to the statutes which may be necessary to carry out the intent and purposes of the compact between the signatory states.

99005. When the Governor on behalf of the state executes the compact, he shall attach his signature thereto under a recital that such compact is executed pursuant to the provisions of this chapter, subject to the limitations and qualifications contained in this chapter in aid and furtherance thereof.

## CHAPTER 2. PUBLIC SERVICE INTERNSHIP PROGRAM

99100. For purposes of the Public Service Internship Program, a public internship is a student assignment with a governmental jurisdiction or public agency, the purpose of which is to provide the student with a learning experience designed to provide exposure to and understanding of the environment and tasks of government and of particular agencies and functions. In contrast to a specific job or work task, the internship affords creative opportunities for the intern to participate in various phases of a planned training program developed jointly and implemented cooperatively by governmental agencies and institutions of higher learning.

99101. The objectives of the Public Service Internship Program are the following:

(a) To acquaint students with the opportunities for challenging careers in public service and to stimulate the interests of students in particular functions and agencies.

(b) To enable public jurisdictions to attract students of high ability and achievement potential to government and thereby improve the overall quality of the public service.

(c) To induce students to seek careers in fields of public employment where critical shortages exist and where future personnel needs will be great.

(d) To develop closer relationships between educational institutions and government agencies of the state by fostering better understanding of each jurisdiction's respective problems and needs.

(e) To extend and improve existing legislative and administrative internship programs throughout the state, programs which have already made a major contribution to the quality of state and local government.

(f) To cooperate with agencies of the federal government and quasi-governmental and private organizations in building more effective state and local internship and training programs.

99102. The provisions of this chapter shall remain in effect until June 30, 1976, and shall have no force or effect after that date.

99103. The Public Service Internship Program shall be administered by the Advisory Coordinating Council on Public Personnel Management.

99104. The council shall, within the provisions of this division establish the policies and standards for administration of the internship program.

99105. The council shall appoint such staff as may be necessary to carry out the program.

99106. The council shall maintain a systematic and continuous inventory and evaluation of all internships, of the type described by this division, and related preservice training opportunities within the state. The inventory shall be published and made available to educational program counselors, public agency training personnel and others who would directly benefit in their occupational capacities.

99107. The council shall encourage and support academic institutions in collaboration with governmental agencies in developing interinstitutional and regional cooperative programs in geographical areas where collaboration will improve the overall governmental-academic institution effort.

99108. The council shall be the designated state agency for accepting federal grants as well as contributions from private foundations and other sources for the state and local internships and related public service training activities. Nothing in this division shall preclude any state or local agency from soliciting or receiving public or private grants or contributions to finance internship programs.

99109. The Public Service Internship Program is designed to cover the following persons and agencies:

(a) All academic and professional disciplines and all governmental functions and activities where there is a need for academically trained manpower.

(b) All accredited private and public institutions of higher learning in California authorized to give the associate of arts degree, the baccalaureate degree, advanced postgraduate and professional degrees.

(c) All branches, departments and agencies of the State of California; all counties, municipalities, special districts or departments thereof; and any other governmental units substantially financed by public funds.

(d) Any department or agency of the federal government that agrees to the provisions of this program and which bears its proportionate share of the total cost of the program.

99110. There shall be internships designed for prospective associate of arts degree holders in which arrangements normally will be made between a community college and a governmental agency for the establishment of internship programs and for the education and training of students for subprofessional positions.

99111. There shall be internships designed for prospective baccalaureate degree holders in which arrangements normally will be made between a four-year college and a governmental agency for the education and training of students for positions which require the baccalaureate degree.

99112. There shall be internships designed for holders of the baccalaureate degree.

99113. There shall be internships designed for candidates for advanced postgraduate degrees.

99114. The internships may be on a part-time or full-time basis.

99115. The type and level of education and training shall be based upon the academic advancement, work experience, and maturity of the intern.

99116. The establishment and operation of this Public Service Internship Program shall in no way supplant or interfere with presently established state and local internship programs or programs which may be established unless academic institutions and public agencies wish to be involved in new arrangements.

99117. Any educational institution or school or department thereof designated in subdivision (b) of Section 99109 may participate in the education and training of interns in cooperation with government agencies.

99118. Any governmental jurisdiction, department or agency may establish an internship program designed to provide an appropriate training environment and experience for interns.

99119. Internship programs shall be established and approved under standards set forth by the Advisory Coordinating Council on Public Personnel Management as provided in this chapter.

99120. Any student in good academic standing who is enrolled in a department, school, or campuswide program of an academic institution with an approved internship program may be a candidate for an internship.

99121. Any intern selected by a government agency must maintain an academic affiliation with a college or university during the period of the internship.

99122. All costs for administering the program on a statewide

basis shall be borne by the state except to the extent federal funds are available therefor.

99123. Stipends for internships shall be borne by the jurisdiction or agency employing the intern.

99124. In jurisdictions which do not now employ interns, the council, for the purposes of initiating a program, may, to the extent federal funds are available therefor, pay the stipends of interns for an initial period not to exceed three years, the number of interns to be so financed to be determined by the council.

99125. Costs for the instruction and academic supervision of interns shall be borne by colleges and universities.

99126. Educational institutions may apply to the council for state funds, if such funds are appropriated by the Legislature, to finance experimental, or innovative, programs including those which involve interinstitutional cooperation. Educational institutions may also apply for federal funds, to the extent they are available, for such purpose.

99127. The council may establish the salary limits for each category of intern stipends to be financed by grants administered by the council.

SEC. 3. It is the intent of the Legislature that neither the state nor any local agency shall incur any additional expense because of the enactment of this act. To that end, notwithstanding any provision of this act which specifies that a particular form be used, any form which complied with the prior version of the Education Code may be used until the supplies of such forms run out, at which time the forms specified by this act shall be used.

SEC. 4. Any section of any act enacted in 1976 at the 1975-76 Regular Session of the Legislature which amends, adds, or repeals any section of the Education Code and which is chaptered either before or after this act is chaptered shall prevail over this act.

---

#### CHAPTER 1011

An act to amend Sections 1, 1266, 1400, 1800, 1870, 1885, 5231, 8092, 10500, 10501, 10502, 10505, 10506, 10507, 14057, 15104, 16044, 16080, 16272, 23801, 24806, 24810, 24813, 32040, 32223, 37040, 37109, 39150, 39214, 39230, 39252, 41716, 41750, 41858, 41882, 41884, 41885, 41886, 41909, 42904, 44065, 44316, 44435, 44978, 45208, 48810, 48904, 60043, 69642, 74503, 74506, 74507, 76005, 76130, 76131, 76340, 81006, 81039, 84309, 84325, 84362, 84503, 84523, 84817, 84838, 84839, 85132, 85135, 87408, 87464, 87465, 87484, 87486, 87684, to amend the heading of Chapter 21 (commencing with Section 24000) of Part 13 of Division 1 of Title 1, the heading of Article 1 (commencing with Section

74000) of Chapter 1 of Part 46 of Division 7 of Title 3, and the heading Article 2 (commencing with Section 76020) of Chapter 1 of Part 47 of Division 7 of Title 3 of, to amend and renumber Sections 58600, 58601, 58602, 58603, 58604, 58605, 66021, 66022, 74525, and 82321.5 of, to add Sections 14002, 14070, 39383, 58600, 58604, 58606, 78827, 84501, 87409, and 88108 of, to add an article heading immediately preceding Section 19330 of, to add Article 3 (commencing with Section 40070 to Chapter 6 of Part 23 of Division 3 of Title 2 of, and to repeal Sections 14002, 33191, 33192, 39213, 39231, 41380, 56162, 74369, 74524, 74526, 78413, 82321, 87479, 87621, 88108, 89243, 89244, 89245, and 89757, of the Education Code, as proposed by Assembly Bill No. 3100, and to add Section 5 to, Assembly Bill No. 3100, relating to education.

[Approved by Governor September 16, 1976. Filed with  
Secretary of State September 17, 1976.]

Note: See Stats. 1976, Ch. 1010.
